Shaw Gives Nod To Henry Wallace

BRUSSELS—George Bernard Shaw endorsed Henry A. Wal- lace today for president of the United States in 1948.

The 90-year-old British sage and playwright praised Wallace's speaking tour as an aid to the cause of peace.

In a postal interview between Belgium and England, Shaw warned that "tumble about for- mulas" would not help avoid a third world war. Political capac- ity of leaders will determine events, he said.

Foremen Beaten

DETROIT (UP) — Three fore- men who refused to join a strike against the Ford Motor Company were beaten severely by three car- loads of unidentified men today, police reported.

Brothers Find New Industry In Farm Pursuits

BROWNWOOD, Tex. (UP) — Three Brown county brothers reared on the farm have converted their agricultural pursuits into a new Texas industry.

B. B. Hickman, I. N. Hickman, in hairy vetch on their farmland and H. H. Hickman have 900 acres in northern Brown county, near Rising Star. Last year they pro- duced 46,000 pounds of vetch seed and sold it to other farmers of Brown, Comanche and Eastland counties.

They plan to establish grain seed cleaning and separating plants at Brownwood and Rising Star.

Having pioneered in establish- ment of a culture that in three years has given the West Cross Timber area from Brownwood north more potential production of vetch than the rest of the United States combined, the bro- thers say they believe the growing of winter legumes is only in its infancy in the nation.

The brothers bought out the Brownwood elevator of the Brown county feed mill and invested \$30,000 in the Brownwood plant. Cleaning and separating machin- ery for both the Brownwood and Rising Star plants has been ordered.

Penn State Co-Eds Free Of Dieting Worries

PITTSBURGH (UP) — Bulg- ing hips and added pounds aren't worrying the Penn State co-ed these days, observers in the col- lege dining rooms report. It is the observers job to see that the girls get the kind of food they want for lunch.

Milk is in demand and a desert isn't right without a goodly help- ing of whipped cream or a top- ping of chocolate or marshmallow. Even with those rich items the school lunches have become more balanced, the observers report.

Some guesses are that the girls are making up for war-time short- ages. Others say that the new clothing styles will conceal any added bulges.

U. S. Protests Laws

WASHINGTON (UP) — The United States has vigorously pro- tested to the Romanian govern- ment against two recently enacted laws which American officials say may result in nationalization of American property there without compensation.

Only Make Believe

PROVIDENCE, R.I. (UP) — When a holdup man pretended he had a pistol in his pocket and tried to rob Bill Migdanis, storekeeper Migdanis lunged at his assailant with an imaginary knife and routed him.

Miners' Journal Blasts Taft-Hartley Labor Bill

VOTES LINED UP TO UPHOLD TAX CUT VETO

WASHINGTON — An informal poll showed today that Senate Democrats have lined up more than enough votes to sustain a veto of the Republican-sponsored income tax reduction bill.

Democrats on capitol hill gen- erally expect President Truman to veto the bill to cut personal income taxes by from 10.5 to 30 per cent starting July 1. He has until midnight Monday to act. Otherwise, it will become law without his signature.

Democrats counted at least 40 senators as being against over- riding a veto. If all 95 senators were present on the showdown, 32 votes would be sufficient to sustain a veto comprised of 37 Democrats and three Republi- cans. Thirty two Democrats and two Republicans voted against it the bill when the Senate version was up for final passage. In addition, three Democrats and one Republican were paired against it.

Ku Klux Klan Dissolved By Court Order

ATLANTA, Ga. — The hooded order of the Ku Klux Klan, born during turbulent reconstruction days and revived on a high tide of anti-negro feeling after World War Two, was dissolved by court order today.

Superior Court Judge B. O. N. Almand granted without fanfare a surprise Klan request that its charter be dissolved. The move came as the state of Georgia moved into the courts with a suit in- stigated by former Gov. Ellis Arn- all to wipe out the order.

PRESIDENT BACK IN U. S. TODAY

BUFFALO, N. Y. — President Truman returned to American soil today, pausing here to con- fer with Paul E. Fitzpatrick, Democratic state chairman of New York.

Enroute to Washington after a three-day state visit to Ottawa, the Canadian capital, the Presi- dent broke his train trip twice dur- ing the day. This morning, he vis- ited Niagara Falls and drove for 20 minutes along the edge of one of the world's most famous natural wonders.

Mr. Truman, as the train crossed the border at Niagara Falls, said he was happy to be home af- ter what he felt was a "grand vis- it" to the northern neighbor of the United States.

Mr. Truman seemed to stand the heavy schedule of his visit in good shape, although his voice showed a continuing bronchial condition. However, he told rep- orters he felt fine.

Says Veto Would Abolish All Rent Controls

WASHINGTON — Chairman Charles W. Tobey, R., N.H., of the Senate banking committee said to- day there would be no rent con- trol at all after June 30 if Presi- dent Truman vetoes pending rent legislation.

"I don't think there would be a chance of getting new rent legis- lation through Congress," he said. Nonetheless, Tobey took a grim view of the rent bill being read for final congressional action by House - Senate conferees. He said that regardless of whether Presi- dent Truman signs or vetoes the measure, "rent control is dead."

MERCHANTS TO MEET TONIGHT 8:00 O'CLOCK

Local merchants have been called to meet tonight at 8:00 o'clock at the County court- room in the courthouse to dis- cuss plans for a Saturday Trades' Day for Eastland being developed by a committee from the Chamber of Commerce.

Under present plans the special Saturdays will begin Satur- day, July 12 and will continue through the first Saturday in August.

A feature of the event under plans will be the development of a Farmers' Market on a lot on Main street.

Recommends Restoration Of Department Fund

WASHINGTON — The Senate appropriations committee to- day recommended restoration of \$54,116,840 to the House-sledded interior department appropri- ations bill for fiscal 1948.

Chairman Kenneth Wherry, R., Neb., of the Senate subcommittee said the bulk of the increase went to reclamation construction. The Senate committee bill to- talled \$215,955,358. The House bill approved \$161,413,513 for the department. President Truman sought \$295,420,420 in his budget.

Report Shows Commodities Still At Peak

WASHINGTON — Labor de- partment figures showed today that average wholesale prices for some 90 basic commodities are still up near the post-war peak.

These prices on June 7 were only one per cent below the post- war high established last March 29, the department said.

Both farm products and food prices, reacting chiefly to low ship- ments and strong demands, took another jump last week.

PREDICTS ERA OF 'HELL' IF LAW PASSES

WASHINGTON — The United Mine Workers Journal, which generally reflects the views of its chief, John L. Lewis, today pre- dicted "a decade of industrial, political and economic hell" if the Taft-Hartley labor bill be- comes law and is upheld by the courts.

The Journal complained that the UMW was the chief target of the bill, which is now on Presi- dent Truman's desk awaiting approval or veto. Mr. Truman has until midnight June 20 to act. Otherwise the bill becomes law without his signature.

The UMW blast at the measure came as Chairman Robert A. Taft, R., O., of the Senate labor committee prepared a new analy- sis of the measure to answer re- cent criticism.

"Taft expressed doubt that there would be many strike threats justifying the use of the government injunction which the bill authorizes in case of national emergency."

News Of Deadly New Weapon Has Leaked Out

AUCKLAND, New Zealand — The British empire and the United States are withholding from all countries all details of a new weapon said to equal the atom bomb in deadliness, it was un- derstood today.

Work by a team of New Zea- land, British and American sci- entists on the weapon was said to be continuing. Existence of the weapon was reported yesterday with the announcement that prof. T. D. J. Leech of Auckland, de- scribed as the leading figure in the project, had been decorated by King George.

BILLY G. KELLEY, SERVING ON NEWEST AIRCRAFT CARRIER

Billy G. Kelly, 21, motor ma- chinist's mate, second class, USNR son of Mr. and Mrs. Clyde M. Kelly of 602 Gilmer, Eastland, is serving aboard the USS Wright, the Navy's newest aircraft car- rier, which is acting as a training ship for Naval aviators at the Naval Air Training Base, Pensa- cola, Fla.

Commissioned Feb. 9, 1947, the Wright replaced her sister ship, the USS Saipan, for this duty.

Leslie Nicholai, 35, was found after lying for more than six hours when his plane crashed in the rugged hill coun- try east of Vallejo, Calif. Mrs. John Ridgeway (L) and Dorothy Cummings (R) cared for the stricken flyer. Nicholai, suffered cuts and a broken leg, and had covered himself with grass while 100 searchers combed the area for him.

GOLD REPORTED
DISCOVERED IN
ARCTIC CIRCLE

By GEORGE DOBIE

United Press Staff Correspondent
EDMONTON, Alberta (UP)—The north country may experience a new gold boom, based on the belief that large deposits are hidden beneath glaciers along one of the smaller Arctic rivers. The prospect was disclosed by Stan Pfeffer, wealthy independent fur trader of the vast "empire" above the 60th parallel.

Pfeffer, who arrived in Edmonton to dispose of part of his holdings in the distant north, said four prospectors, "probably working for some syndicate," last fall ventured to the Firth River, which flows into the Arctic Ocean west of the mouth of the Mackenzie River.

The trader said the men investigated what was believed to be the source of a large hidden supply of gold under glaciers which remain along the river the year round. They returned with high grade gold. One, he related, was carrying a "rice sack full of gold, weighing at least two or three pounds."

Pfeffer said that shortly before he came south the four men chartered a plane at Akavik, 300 miles north of the Arctic Circle, to fly supplies back into the area and follow up their earlier success.

Priests Buy Church
Move It 15 Miles

ARGUSVILLE, N. D. (UP)—You have heard about the mountain going to Monamet.

In this case it's the church at Grandon going to Argusville.

For a year the Rev. L. J. Arrell, priest of St. Mary's Cathedral at Fargo, N. D., and his three assistants dreamed of a church for the growing parish at Argusville.

Last summer they shed their robes for overalls and laid a concrete foundation. But building materials costs were high, so instead of erecting a new church, the priests bought an unused church at Grandon, N. D., 15 miles north of Argusville.

Mounted on 32 huge wheels, the building was moved to Argusville in one day, and the parishioners there had a church of their own.

BY FRANK A. JONES

The late "Uncle" Jack Nabors, Eastland county pioneer, so the story goes, was hunting with his hounds when they bayed an animal they had been running at the base of a large tree on the second bank of the Leon east of Eastland. It was dark and "Uncle" Jack could not see the animal and the dogs would not close in on it. He decided to encourage the dogs to attack by climbing down the creek bank and coming closer to them, but in making his way down he lost his balance and plunged down the bank and a Mexican lion at the foot of the tree which let out a fierce growl of fear and disapproval and dashed away pursued by the hounds.

Some days ago we published in this column an account of the findings of seven human skeletons (possibly that of a man, woman and five children of varying ages) in a cave underneath some large boulders northwest of Eastland and near the Ringling Lake dam. At that time we quoted Judge Rust of Eastland as saying this find was in 1907. Judge Rust is now convinced that he was in error as to the date as most every one remembers the occasion is agreed that it was in 1912.

We have also run into other stories regarding these skeletons. One is that they were of a family of newcomers in this section) the husband and father of which was killed in a brawl in "Bull Pen" back of an early day Eastland saloon. Realizing that they might be headed for trouble, the parties responsible for the man's death, are reported to have hired a Mexican wood shopper to take the body and bury it in the cave northwest of town and to go to the man's wife and children, not far from town, and inform them

Thompson.

It is hoped that the city official will consider your interest in this matter, and make it possible for you to enjoy swimming right here in Eastland, during the morning hours.

Lone Star and Cisco will play at Fireman's Field, tonight.

Court Officer Sets Reconciling Record

CAMBRIDGE, Mass. (UP) — John M. Ackery, retiring domestic relations officer, can look back on a fruitful 41 years with the Cambridge police department, in 26 of which he succeeded in reconciling more than 200 couples without ever bringing them into court.

Ackery traveled more than 100,000 miles to bring errant husbands to justice from all sections of the United States and Canada.

Of the cases he reconciled, Ackery says "most of the cases of non support were caused by meddlesome in-laws and wives who failed for one reason or another to provide good homes for their husbands."

Most of the deserted wives, he said, told the same story. They failed to prepare meals, spent money on frills or were poor housekeepers, and the men figured they weren't getting a "square deal."

Of course, he added "there are some men who never should get married—the ones who marry after a short courtship and want to duck their responsibilities when they discover that marriage is not all love and kisses."
