SAVINGS AND LOAN INSTITUTIONS have done a great service to the small investor and to the public by providing mortgage money at reasonable rates for prospective home owners. Surely they must not now be relegated to the financial scrap heap by the action of those commercial bankers who have raised interest rates paid to depositors and utilized Certificates of Deposit in a manner against conscience, to the grave detriment of our S&Ls. It has now been suggested that in the absence of any effective alternate proposal, and in order to save the great service potential of the S&Ls to the American public, that the S&Ls be chartered with powers similar to our National Bank system including checking accounts and other privileges. This would provide additional and useful banking services for the small businessmen whose needs have too often been passed over by the commercial bankers in favor of the "big deals" that offer greater return with less trouble.

SILVER DOLLARS were first minted in 1794, and since that time 1/2 billion have been placed in circulation. Until 1964 paper currency known as Silver Certificates could be exchanged at the U. S. Treasury for these silver dollars. Silver Certificates of which \$600 million are still in circulation were issued in \$1, \$5, and \$10 denominations. Holders of the bills can still obtain silver—as is in fact promised on the face of the currency—at the New York and San Francisco Assay Offices for silver in granular form (silver dust) for the same amount of silver contained in the old cartwheel silver dollars, or 0.77 ounces. Of course if you have enough Silver Certificates, you can obtain a bar of silver bullion at this same rate of exchange—but you will need approximately \$1300 to get a bar weighing from 1000 to 1100 ounces.

A REFRESHING NOTE of agency self-appraisal was recently voiced by the new head of the Small Business Administration here in Washington, Mr. Bernard Boutin. Pledging SBA to a more meaningful role in our economy, Boutin specifically states: "...SBA has tended to view small businesses in terms...based upon bank-like credit standards, and eligibility criteria. We have not suffi-

ciently questioned how much potential borrowers contribute to the economic and social growth of America." Hopefully, under new leadership SBA will be even more useful to small business people across the nation.

THE SMITHSONIAN INSTITUTION in the nation's capital was visited by 13 million people last year. It contains probably the world's greatest collection of arms, edged weapons and guns, both ancient and modern, and also a new display of more than 1000 jewels including the world famous 44.5 carat Hope Diamond, which alone is worth about \$1 million. While the Smithsonian is a private organization, it is a national trust and belongs to all U. S. citizens. It now has over 60 million individual items, including 16 million insects, and 10 million postage stamps as well as the Hope Diamond. The total estimated value of all items, aside from the incalculable educational and historical benefits, is in excess of \$1 billion.

ELECTRONIC TEACHING SYSTEMS threaten to take over the entire educational field. Many of the nation's biggest commercial and industrial firms are turning their attention to this potential source of corporate income. The increased sophistication of the electronic components involved and the greatly increased costs make it imperative that developments in this field be watched closely so that schools in rural areas benefit equally with the big city institutions.

MEDICARE. If you have signed up for optional medical insurance coverage under medicare remember that in order for the government to pay its proper share your claim for reimbursement must be accompanied by a receipt showing doctors' bill have been paid in full.

BUTTERFLY FARMS? The butterflies that are still common in most rural areas are disappearing so rapidly from the big city suburbs all over the world that it has been proposed to breed butterflies on farms for free distribution to city parks. It has also been noted that life in and about the big cities has made bee populations develop noticeably less friendly characteristics. These are small indications perhaps, but added to numerous other problems like air and water pollution it is obvious that man has not yet learned proper control of his environment.

Work is being done on the Talco State Bank building. It is being remodeled and the facilities expanded.

Austin. — A \$10,000,000 state bond sale has launched a new "opportunity plan" designed to bring college educations within the financial reach of all qualified Texas youth.

"Never again will students of this state be denied higher education because of lack of funds," commented John E. Gray of Beaumont, chairman of the Coordinating Board, Texas College and University System. Initial bond sale was awarded to a Chicago bank.

Action by the Coordinating Board set in motion the loan plan approved by Texas voters as a Constitutional amendment last year. Amendment authorized a total of \$85,000,000 in bonds to provide funds for students unable to continue education beyond high school without financial assistance. Initial \$10,000,000 sale is believed to be more than adequate to carry the program through the first year. Ceiling on available loans is \$1,000 a year for undergraduates and \$1,500 for graduates. Although a six per cent interest rate is authorized, the U. S. government will pay all interest while a student is in school—and half of it afterward for borrowers eligible for federal interest subsidy.

A borrower's family income must be less than \$15,000. Loans are limited to the difference between available resources and reasonable expenses. Money will be available for the 1966 fall semester.

Interested students are advised to contact the financial assistance officer at the school of their choice. Applicants must be accepted for enrollment and have two recommendations.

In other action last week, Coordinating Board:

- Approved request for legislative appropriations totalling \$56,100,000 for the 1963-69 fiscal period, most of which would go to an adjustment fund to meet financial needs due to enrollment increases at public colleges, universities and junior colleges.

- Authorized election for Angelina County junior college but rejected request for Rains, Van Zandt and Kaufman Counties junior colleges.

OIL ALLOWABLE CUT—Railroad Commission has reduced the August oil allowable for the third straight month.

August production factor of 33 per cent of potential will allow top production of 3,138,611 barrels a day. This compares with present allowable of 3,118,042 barrels daily under 33.3 per cent factor.

HUNTING SEASONS SET—State Parks and Wildlife Commission set November 12 - December 31 deer hunting season in most major hunting counties under its regulatory powers. Opening date is earliest on record.

Season in general-law counties—those fixed by specific general

statute—is November 16 - December 31.

Shortened seasons were ordered for counties of the Trans-Pecos and Panhandle—16 days starting November 26 for the Trans-Pecos and November 12 - November 29 for the 32 Panhandle counties. Antelope season in these areas will run from October 1-9 and October 1-4, respectively.

Turkey and javelina seasons generally remain the same. Commission allowed special bow and arrows hunting seasons in some counties October 1-31.

ATTORNEY GENERAL RULES—A divorced husband cannot claim a \$3,000 homestead tax exemption when he continues to reside alone in the family home after the divorce decree, Atty. Gen. Waggoner Carr has held.

In other opinions, Carr ruled that:

- Texas Liquor Control Board is not authorized to issue a U. S. bonded liquor export permit, since courts have ruled the law authorizing such permits is unconstitutional.

- Trailers used to convey horses to and from rodeos are not exempt as farm trailers and must be licensed under state law.

- Harrison County commissioners court can pay \$8 a day to jurors and \$4 to prospective jurors summoned and excused after questioning, but nothing to those summoned but excused without examination.

SHORT SNORTS

Governor Connally has approved a grant under the Economic Opportunity Act for planned parenthood centers in Crystal City and Carrizo Springs at a cost of \$25,432.

Texas retail sales jumped five percent last month—to \$1,200,000,000—reports UT's Bureau of Business Research.

Department of Public Safety is seeking a \$51,100,000 budget for 1968-69. Director Col. Homer Garrison Jr. says Texas should have 2,200 highway patrolmen, instead of present 901, to meet federal standards.

Governor appointed Mrs. Travis B. McNair of Bandera to the State Board of Tuberculosis Nurse Examiners and Bill A. Martin of Newton as district attorney of Jasper, Newton, Sabine and San Augustine Counties.

Sen. Tom Creighton, chairman of the State Election Law Study Committee, has called an August 12 meeting in Austin to discuss suggested statutory reforms and to schedule future activities, including public hearings.

Texas Water Pollution Control Board wants to expand its operations from 10-12 employees and a budget of \$62,528 in 1967 to 86 employees and \$1,402,159 in 1968—and 194 employees with \$2,675,910 in 1969.

New Construction On Highway 37

The Texas Highway Department has announced a new highway construction project in Red River County on State Hwy. No. 37 from 10 miles north of Clarksville to the Red River Bridge. The construction will consist of grading, structures, flexible base and two course surface treatment. The Texas Highway Department and the contractor, R. C. Buckner of Jacksonville, stated that the construction will begin on August 1, 1966 and will be completed by Aug. 1, 1967.

L. D. Cabaniss, District Engineer of the Texas Highway Department in the Clarksville area, stated that traffic will be routed through the construction on the project but pointed out that adequate barricades and warning signals will be prominently displayed, and flagmen will direct traffic where necessary, but motorists should be extremely cautious in passing through the project as it will be heavily traveled by large highway construction equipment. The entire length of the construction areas will be patrolled to minimize the inconvenience to motorists. Cooperation of the public is requested in obeying all traffic signals, warning signs and flagmen.

Mr. and Mrs. Russell Foxworthy and Kristi of Wylie, who have returned from a vacation trip with his parents, Mr. and Mrs. Ralph Foxworthy in Rush, Colo., visited here recently.

Mr. and Mrs. Jimmy Stewart and sons of Norman, Okla., visited Mr. and Mrs. J. C. Stewart and Mr. and Mrs. Farris Brown this week.

Earl Wood Dies In San Angelo

Earl D. Wood, 62, of San Angelo, where he had lived 40 years died Thursday in Shannon Hospital there. He was the brother-in-law of Mrs. Jim Fortner, Mrs. Jeff Hancock, Paul Griffin of Bogata, Jim Griffin, Mrs. Dyke Skaggs of Deport.

Mr. Wood moved to San Angelo from Bogata, where he graduated from high school. After graduation he attended Tyler Commercial College. On the staff of an insurance company, in 1953 he qualified for the Great National Life Insurance Co.'s Millionaire Club for selling a million dollars worth of insurance or more. He was a Presbyterian, member of the Kiwanis Club and the San Angelo Junior Chamber of Commerce.

He is survived by his wife, the former Emma Griffin of Rugby community; a daughter, Mrs. Pete Fulton of Houston; a son, Duane Wood of San Angelo; a brother, Howard P. Wood of San Angelo, and six grandchildren.

Mr. and Mrs. Jeff Ewing and Debra Hall have returned home from Wichita Falls. They reported Ted Ewing had been dismissed Friday from the hospital, where he had surgery on his arm, injured in an oil field accident.

North Defeats South In All-Star Basketball Game

The North defeated the South in the 9th Annual Girls' All-Star Basketball game, 76-53. The All-Star game highlighted the Texas High School Girls' Basketball Clinic held at Duncanville High School on July 20-23.

The North has dominated the all-star series since its beginning in 1957. The South's only win came in 1959, when they defeated the North 54-50.

Lula Thompson of Rivercrest High School was one of the team captains for the North. Lula defended the South's outstanding post girl, 6 ft. 2 in. Marilyn Aschenbeck of Round Top-Carmine.

High scorers for the North were Shirley Rainer of Floydada with 22 points and Pat Ramsey of Tyler Chapel Hill with 20 points.

High scorer for the South was Marilyn Aschenbeck.

A record crowd of 2,200 witnessed the game in the new Duncanville High School air-conditioned gym.

Talco C. of C. Acts On Resolutions

In a recent meeting the Talco Chamber of Commerce passed the resolution to move Scout hut to the City Park area and make some repairs to the hut.

City officials gave permission to use part of the park area for Scout hut and Jerry Stansell agreed to move the hut to the new location from Frank Sloan's pasture.

The Chamber also voted and passed resolution to go on record against the bond issue of over \$2,000,000 to help build reservoir on Cypress Creek. It was discussed as being unfair to tax the property of the entire county to enable the city of Mount Pleasant, only, to use the water. The election will be held Aug. 9, 1966.

Mrs. Pittman Dies After Long Illness

Mrs. Anna Mary (Molly) Pittman, 53, died Saturday, July 23 at her home in Wichita Falls after a long illness. Services were held at 10 a. m. Monday in Owens-Burnley Funeral Home with Rev. Gordon Highfill, pastor of the Highland Hills Baptist Church, officiating. Interment was in Crestview Memorial Park, Wichita Falls.

Voting Places For Bond Election

The Board of Supervisors of Titus County Fresh Water Supply District No. 1 called an election to be held throughout Titus County on August 9, 1966 for the purpose of determining whether or not the qualified taxpaying voters shall authorize the Board of Supervisors to issue the bonds of the District in the sum of \$2,250,000 to be used, along with approximately \$10,000,000 of State money, to create a lake on Cypress Creek between Mt. Pleasant and Pittsburg. This district was created by the voters of Titus County in an election held on February 19, 1966.

This election will be held under the supervision of the Board of Supervisors of the Water District. The Board has set up the same voting places as were set up by the Commissioners' Court when the district was created. In this area they are:

Precinct No. 2, at the schoolhouse at Greenhill, Willie Blackstone, Presiding Judge;

Precinct No. 4, at Narramore's Washateria at Monticello, Morris White, Presiding Judge;

Precinct No. 5, at the schoolhouse at Wilkinson, Morris Blackstone, Presiding Judge;

Precinct No. 7, at the schoolhouse at Chapel Hill, A. C. Blackburn, Presiding Judge;

Precinct No. 9, at the city hall in Talco, Mrs. Martha Miller, Presiding Judge;

Precinct No. 10, at the schoolhouse at Argo, Jesse Lee Bell, Presiding Judge.

Persons wishing to vote absentee ballot may do so at the County Clerk's office or by writing to the Clerk for a ballot; and absentee balloting begins 20 days before the election and ends 3 days before the election.

A person, in order to be qualified to vote at this election, must be a qualified voter of Titus County and have property, either real or personal, assessed on the Tax Roll of Titus County for the year 1966. If any person is uncertain as to whether or not they may have property assessed on the Tax Roll for 1966, they should contact John W. Mason, Tax Assessor-Collector of Titus County.

FACTS ABOUT CYPRESS LAKE

THE DISTRICT

The Titus County Fresh Water Supply District No. 1 was formed by a vote of the citizens of Titus County to protect the water supply of the county. It can, with permission of the people, build lakes, conserve, transport, and distribute FRESH WATER for domestic and commercial use.

THE BOND ELECTION AND LAKE CYPRESS

- Q. What does the District propose in the election of August 9th?
- A. The District proposes to join with the State of Texas to build a lake on Cypress.
- Q. How large will the lake be?
- A. 11,000 surface acres.
- Q. How much water will the lake hold?
- A. It will hold 285,000 acre feet of stored water plus 100,000 acre feet of flood control water.
- Q. Who will own the lake?
- A. Titus County and the State of Texas.
- Q. Who will operate the lake?
- A. Titus County Fresh Water Supply District No. 1.
- Q. What will the project cost?
- A. \$12,250,000 is the approximate total cost with Titus County furnishing \$2,250,000 and the State paying the difference. (The State's share will be approximately 83%)
- Q. What will the tax rate be?
- A. Ninety-six cents per \$100.00 rendition, based on County valuations.

- Q. If I own property worth five thousand dollars, how much would my tax be for a year?
- A. Property valued at \$5,000, rendered at 15% for \$750.00 on the County tax roll would mean that your annual tax would be \$7.20. The following table shows what taxes would be under the proposed issue:

Actual Value	Rendered Value	Taxes Per Year
\$15,000.00	\$2,250.00	\$21.60
10,000.00	1,500.00	14.40
7,500.00	1,100.00	10.56
5,000.00	750.00	7.20
2,500.00	375.00	3.60

- Q. Does the District have any prospects for sale of the water?
- A. Yes. The City of Mt. Pleasant has given notice of their plans to purchase approximately \$50,000 worth of water annually. This estimate is based on the city's industrial and residential expansion plus the needs of rural water districts which they have pledge to supply.
- Q. What happens when the District sells water from the lake?
- A. Monies received may be used for reducing taxes, improving recreational facilities and, in general, improving the project for the benefit of Titus County citizens.
- Q. Will Titus County really benefit from a lake on Cypress?
- A. Yes, in many ways.
1. It will guarantee us a plentiful supply of clean fresh water.
 2. It will increase the value of homes and property in Titus County.

3. Tourism will become a major industry for our county.
4. New industry will locate in the area.
5. New industrial jobs will allow our young people to stay home.
6. Former residents who are forced to live in the big cities will be able to return home to jobs which will become available.

- Q. Will the District control waters other than the Cypress Lake?
- A. No.
- Q. If we do not build a Cypress Lake, can a big city outside this area build a lake and take the water from it?
- A. Yes! They can by obtaining permission from the State. We can only own water by building the lake ourselves.
- Q. If the lake is built by someone else, can we obtain water from them?
- A. Maybe, if it is not previously committed, but at a cost of several times the price we would pay our own District.
- Q. Will there be any savings for us by the District building the lake?
- A. Yes. Our local county board, elected by voters of this county, would control the price of water from the lake.
- Q. Why has the State Water Plan been criticized?
- A. Many area big cities and arid areas of the State feel that they are not being allocated sufficient water for their future growth needs. In short, THEY WANT MORE OF OUR EAST TEXAS WATER!

Does electric dishwashing get your dishes cleaner?

Here's a sparkling example

An automatic Electric Dishwasher gets dishes sparkling clean in water too hot for hands. It washes, rinses and re-rinses dishes, then dries them in heat as clean as electric light. You'll not only have hygienically clean dishes, which cuts down on germ-spreading, you'll be spared hours of dishpan drudgery every week. Just load and start your Electric Dishwasher and your dishwashing chore is over. Have cleaner dishes with much less effort... automatically. See your dealer for an Electric Dishwasher, built-in or portable.
