

PRINTERS IN MANY JOB PLANTS STRIKE

(Continued from Page 1)

firms, and in St. Louis more than half of the 250 job shops faced prospects of a strike.

No announcement was made at international headquarters of the typographical union at Indianapolis of the results of the conference with Secretary of Labor Davis and employing printers at Washington. International officials of the union were expected to return today to Indianapolis.

In Denver 300 printers announced a strike effective today and in Salt Lake City 150 voted not to report for work today. Four hundred printers in San Francisco voted to strike when employers refused to pay the 44-hour week rate for one week. In Albany, N. Y., 1200 job printers are affected by a failure to effect a 44-hour week agreement. Cleveland printers threatened a walkout today unless the 44-hour week is granted by employers when the men report for work today.

The strike also spread to Canada. Job printers in Halifax and newspaper printers in St. John's, N. S., voted to strike. Newspaper offices in Chamberburg, Lancaster and Butler, Pa., and Glens Falls, N. Y., were tied up by strikes of their employees. In Lancaster used electrolytes made from typewritten copy for Monday's issue.

PAPERMAKERS TO NUMBER OF 45,000 ARE ON STRIKE

WATERTOWN, N. Y., May 2.—Approximately 4,500 papermakers employed by the International Paper company in mills here and at Brownsville, Pamela and Glen Park are on strike today as a protest against an announced wage cut of 30 per cent and an increase in the number of working hours.

ABOUT 1800 PAPER WORKERS IN NEW ENGLAND ARE IDLE

BOSTON, May 2.—About 1,800 paper workers in New England were idle today in wage fights. The International Paper company's plant at Livermore Falls, Chisholm and Rumford, Maine, employing 1,800 workers, announced operations and a 30 per cent reduction announced at Franklin, N. H., was rejected by the union there.

ONLY ONE JOB SHOP IN GALVESTON IS AFFECTED

GALVESTON, May 2.—Union printers were at work in all except one of the job shops in Galveston today, as the result of the typographical union's decision to establish the 44-hour week in job shops.

APPROXIMATELY 1000 ARE ON STRIKE IN PITTSBURGH

PITTSBURGH, May 2.—Approximately 1000 printers in 111 job printing shops struck here today to enforce their demand for a 44-hour week.

ONLY TWO WACO PRINTERS AFFECTED BY THE CHANGE

WACO, May 2.—Only two men are out here on account of the refusal of job printing offices to sign up for a 44-hour week. One printer in each of the two shops is out. Other employees are working under printers and paying the scale.

MAJORITY OF HOUSTON SHOPS ON 44-HOUR BASIS

HOUSTON, May 2.—One hundred and five persons in eight shops are affected by the alleged strike this morning. The majority of firms in Houston have been operating on a 44-hour scale and the men today state they expect an early settlement with the remaining shops.

ABOUT 150 PRINTERS IN ST. LOUIS ARE OUT

ST. LOUIS, May 2.—About 150 union printers employed by 75 job shops, were not at work today. About 100 employers agreed to the 44-hour week and their shops are operating.

SEVERAL HUNDRED PRINTERS ARE IDLE IN PHILADELPHIA

PHILADELPHIA, May 2.—Several hundred printers, members of the Philadelphia local of the Typographical Union, were expected by union leaders to go out on strike here today to force their demand for a 44-hour week. The strike will not affect newspapers.

TOPEKA JOB PRINTERS STRIKE FOR 44 HOURS

TOPEKA, KAN., May 2.—Topeka job printers were idle today following a vote of 115 to 4 in favor of striking for the 44-hour week demanded of employers.

CONTRACT OF FORT WORTH PRINTERS EXPIRES JULY 1

FORT WORTH, May 2.—Job printing shops here reported that all of their printers were at work today and that none of them were in sympathy with the local typographical union, they said, extend until July 1. The men are working under a 44-hour week contract.

WITH BUT FEW EXCEPTIONS PAPER MAKING PLANTS CLOSE

OLENS FALLS, N. Y., May 2.—With but few exceptions, all paper making plants in this vicinity are closed today following a walkout of the employees who demand an increase in wages while employers were insisting upon a decrease.

The mills of the International Paper company in this city, at Fort Edward and Palmer Falls are closed down, nearly one thousand men being out of work.

Unless an agreement is reached by May 11 the plants of the Finch and Froun company here, the Union Bag and Paper corporation at Warrensburg will be closed by a strike.

AMARILLO JOB OFFICES REFUSE 44-HOUR WEEK

AMARILLO, TEXAS, May 2.—Typographical union employees here charge a lockout on the part of employers following the posting of notices by job printing houses that the 44-hour week would not go into effect May 1. Contracts calling for the 44-hour week were signed last October.

THIRTY UNION PRINTERS ARE AFFECTED AT DALLAS

DALLAS, May 2.—Thirty union printers were "out" here today in connection with their services, bribery of election officers, unlawful assistance of election officers, bribery of voters, expenses and compensation of demagogic obstructionist candidates, dinners, banquets and other entertainments.

No less than 152 alleged errors were "assigned" by the defendants in their application for appeal to the highest court. Beginning with the refusal of the district court to sustain a demurrer to the indictment, these errors follow the course of the trial throughout, the last in order being a criticism of the

ISLAND OF YAP, WHICH THE U. S. WANTS SAFEGUARDED

First and exclusive photographs of the Island of Yap, which is now the subject of controversy between the United States, Japan and the Allied governments. Naval reports describe the island of Yap as a low-lying bit of land in the Caroline Islands, a little west of Guam, an American possession in the Pacific. It is surrounded by reefs, extending not farther than a mile and a half off shore, and has two principal harbors, Rull and Tomli, easily navigated by ships of ordinary weather. There are good anchorages and boat landings. The harbor improvements have been built by the natives, and the fortifications on the island, and the only armed force there is a small native guard. The natives are peaceful and take readily to trade taught them during the German occupation. The chief exports of Yap are copra and beche-de-mer, and are paid for in silver goods or stone money. This stone money is a very peculiar feature of Yap's currency system. It consists of limstones, from six to twelve feet in diameter, and is brought entirely from the Pelew Islands, in native canoes. The shells of pearl oysters are also used as currency. Yap boats of a number of good sizes, but no direct steamer or artificial means of transportation canal, about fifteen miles wide, traverses the northern part of the island for about half a mile, affording a passage for the small boats and canoes of the natives. The illustration shows the cooling station at the harbor of Tomli, on the Isle of Yap.

PREDICT TIE-UP OF AMERICAN SHIPPING

(Continued from Page 1)

this port had walked out shortly before noon and declared that before night all between 25,000 and 30,000 would be out. They said that 60,000 were affected on the Atlantic coast, and that the total expected to strike on all coasts was 175,000.

Winthrop L. Marvin, president of the American Steamship Owners' association, said that no estimate of the number of men on strike or ships idle could be made short of two or three days. He declared, however, that the unions' estimate of 175,000 men was "exaggerated," because thousands of seamen thrown out of work by the slump in shipping had obtained permanent employment in other industries.

Marvin's estimate of the total American merchant tonnage was 12,000,000, of which 7,500,000 is owned by the government and 4,500,000 by private interests.

Union officials claimed the present was virtually a lockout, intended to enforce the "open shop." They said the new contracts, containing the 15 per cent wage cut, had dropped the clause providing that employers should be American citizens and substituted one to the effect that "no discrimination shall be made against either union or non-union men."

SIX SHIPS ARE TIED UP IN HARBOR AT BOSTON

BOSTON, May 2.—Six ships were tied up here today by the shipping strike. Other vessels were in the harbor when they arrived, their crews joining the strike of seamen, marine engineers, firemen, oil passengers and other unskilled marine forces.

Union officials declared every American ship except harbor towboats will be affected. Port authorities expected three thousand seamen here to abandon their ships.

WALK OFF SHIP IN GALVESTON

GALVESTON, May 2.—Seamen, cooks, stewards, engineers and firemen walked off ship today upon receiving notice that a wage cut of 15 per cent would be effective from May 1. In anticipation of this action preparations had been made to tie up six shipping board vessels in port. Many of the union men express the belief that the controversy will be settled by mediation in a few days.

NO SHIPPING BOARD VESSELS IN THE PORT AT HOUSTON

HOUSTON, May 2.—As there are no shipping board vessels in port today, Houston is not actively involved in the marine strike. The strike, however, will handicap local shipping as several ships affected were due here this week.

NEWBERRY CASE REVERSED BY COURT

(Continued from page 1)

labor commissioner, one year and three months in Leavenworth.

E. V. Chilton, of Ann Arbor, a republican national committee employee, one year and one day in Leavenworth.

John S. Newberry, Detroit, brother of the senator, \$10,000 fine.

James McGregor, Detroit, one year and three months in Leavenworth.

Fred Henry, Flint, deputy state facturer, one year and three months in Leavenworth.

Hannibal A. Hopkins of St. Clair, Mich., clerk in the U. S. senate, Washington, one year and one day in Leavenworth.

Harry O. Turner, Detroit, former chief deputy marshal, \$2,000 fine.

George S. Ladd, Sturbridge, Mass., former master of the Massachusetts state grange, \$1,000 fine.

All the convicted men have been at liberty on bonds since their indictments.

Specific Charge. The specific charge against Senator Newberry was that between Dec. 1, 1917, and Nov. 5, 1918, he "unlawfully and feloniously did conspire, combine, confederate and agree with divers persons to violate the act of June 25, 1916, by contributing sums aggregating \$100,000 toward the expenses of his nomination and election. It was not necessary, the government asserted, that Newberry should actually give this amount or that he should have had personal supervision of its shipping, but it was sufficient if he had guilty knowledge that contributions to an illegal aggregate were being accepted for the purpose in view.

Included in the scores of expenditures set forth in the indictment were appropriations for converting to the use of the defendants themselves, large sums of money under the guise of payment of their expenses and compensation for their services, bribery of election officers, unlawful assistance of election officers, bribery of voters, expenses and compensation of demagogic obstructionist candidates, dinners, banquets and other entertainments.

No less than 152 alleged errors were "assigned" by the defendants in their application for appeal to the highest court. Beginning with the refusal of the district court to sustain a demurrer to the indictment, these errors follow the course of the trial throughout, the last in order being a criticism of the

ALBERT ROWAN CASE CALLED AT ABILENE

Charged With Murder in Connection With Robbery of Dallas Postoffice.

ABILENE, TEXAS, May 2.—Scores of witnesses, a special venire of 75 men and a large number of spectators were present in district court here this morning for the opening of the trial of Albert L. Rowan, charged with murder in connection with the death of G. W. Street, a Dallas postal clerk, who was fatally wounded in the robbery of the Jackson street sub-postoffice at Dallas last January 14. The case was sent here on change of venue.

Judge W. R. Ely is presiding and was prepared to hear a large number of motions by defense counsel at the morning session.

Arguments of counsel on the various motions occupied the morning session. At 11:30 defense was arguing for a continuance of the case. Earlier in the morning Judge Ely had overruled a motion challenging jurisdiction of the court. It was indicated the defense would file a plea of abatement. The special venire was sworn in and excused until 1:15 p. m.

INVESTIGATE WRECK NEAR ROCKFORD, WIS.

More Than a Score of Persons Were More or Less Seriously Injured.

MINNEAPOLIS, May 2.—Railroad officials today began an investigation into the wreck last night of train No. 109 on the Minneapolis, St. Paul, & Marie railroad near Rockford, 20 miles west of here, in which more than a score of persons were more or less seriously injured.

The names of only two of the injured could be learned today. They are Chris Jorgenson, St. Paul, both legs broken and chest crushed, not expected to live; and James Burdick, St. Paul, porter, seriously injured.

The three rear cars of the train overturned. The injured were given first aid treatment at a farm house.

DALLAS MAN IS KILLED, AND WIFE INJURED WHEN HIT BY AN AUTOMOBILE

DALLAS, May 2.—Harry Peters, 65, died early today as the result of being hit by an automobile during a storm last night. Mrs. Peters, also hit by the car, was severely injured.

SENATE COMMITTEE ORDERS INVESTIGATION CONTINUED

WASHINGTON, May 2.—The senate privileges and elections committee today authorized the sub-committee on the Ford-Newberry senatorial campaign inquiry concerning charges of fraud in the primary and general election. The committee, under direction of Senator Spencer, Missouri, will take testimony concerning charges of fraud in the primary and general election. Spencer announced. The hearings will begin within a few days, he added.

REQUIRE GERMANY TO REPLY IN TEN DAYS

(Continued from page one.)

and suitable guarantees for payment. An answer will be demanded by May 8.

The ultimatum promised to be a lengthy document. Compiled to satisfy America and the labor classes of the allied countries, it was expected to set forth the entire allied cause, and with arguments to support the allied contentions.

MUST GIVE CATEGORICAL ANSWER BY MAY TWELFTH

By Associated Press. LONDON, May 2.—Germany must give by May 12 a categorical answer—yes or no—to the allied reparations demand or suffer the infliction of military and naval penalties, according to the terms of an ultimatum drawn up by the allied foreign ministers today and submitted to the supreme council for its approval.

The swift movement of events in the reparations issue between the allied powers and Germany was shown in this series of developments.

The allied foreign ministers first met and completed the draft of the ultimatum which provided that Germany should be advised of the allied terms four days from today and then would have six days or until May 12, with which to give an answer, yes or no, without conditions, the negotiations being considered at an end. A British naval demonstration in the North Sea was stated to be one of the consequences to follow a refusal by the Germans to yield to the allied demands.

The supreme council did not finally act on the ultimatum, but adjourned after an hour's consideration of it, until 5 p. m.

ORDERS FOR MOBILIZATION OF THE CLASS OF 1919

PARIS, May 2.—Orders for the mobilization of the class of 1919, to take part in the possible occupation of the Ruhr valley district of Germany, were expected to be issued here today.

Negroes are not expected to be included in the forces sent into the Ruhr. The mobilization orders will be sent to individuals and the entire class will not be called. This procedure was made possible by the passage of the mobilization act.

Newspapers as a whole expressed themselves today as being in favor of the mobilization, the only discordant note being struck by Humanite.

The newspapers were so taken up with reports of the meeting of the allied council in London that they were unable to devote more than a bare news space to the passage of the Knox resolution by the United States senate. The only comment was a casual question as to what would be its consequences.

The understanding in official circles here is that nothing can now prevent completion of the French plan for mobilization of the necessary forces for the occupation, and that the actual occupation can be prevented only by Germany giving ample guarantees that she will pay according to the decisions of the reparations commission.

Such acceptance by Germany is officially expected in political and official circles here, and an order mobilizing 150,000 men of the class of 1919 is expected any moment.

FORD MOTOR COMPANY LOSSES \$600,000 RESULT SUPREME COURT ACTION

WASHINGTON, May 2.—Henry Ford's motor company lost \$600,000 by action of the supreme court today.

The court declared it would not review a decision of a lower court granting the Hotel Woodward company of New York this amount of damages from the motor company.

The suit arose out of the failure of Ford to erect an office building in New York, part of which had been leased to the hotel company.

John W. Davis, former ambassador to Great Britain, represented Ford. Picture frames at Decorators Co., 349-71c.

THE ADVENTURE OF THE GOLDEN PINCE-NEZ

By A. COWAN DOYLE. Copyright, 1921, by Harper & Bros. Published by special arrangement with The McClure Newspaper Syndicate.

PART ONE

When I look at the three massive manuscript volumes which contain our work for the year 1894, I confess that it is very difficult for me, out of such a wealth of material to select a case which is more interesting in itself, and at the same time most conducive to a display of those peculiar powers for which my friend was famous.

It was a wild, tempestuous night, towards the close of November. Holmes and I sat together in silence all the evening, each busy with a separate task. I was describing the remains of the original inscription upon a palimpsest, I deep in a recent treatise upon surgery. Outside, the rain beat furiously against the windows. It was strange there, in the very depths of the night, to feel the iron grip of Nature, and to be conscious that to the huge elemental forces all London, with its ten million inhabitants that dot the fields, I walked to the window, and looked out on the deserted street. The occasional lamp shed a feeble light upon the wet pavement. A single cab was splashing its way from the Oxford street end.

Amid the droning of the wind there had come the stinging of a wheel as it rasped against the curb. The cab which I had seen had pulled up at our door.

"What can he want?" I ejaculated, as a man stepped out of it.

"Now, my dear Hopkins, draw up and warm your toes," said he. "Here's a cigar, and here's a prescription for a refreshing hot water and a lemon which is good medicine on a night like this."

"It means, I suppose, that you are not quite clear about your case," said the man. "I can make neither head nor tail of it. So far as I can see, it is just as tangled a business as ever I handled, and yet at first I was under the simple that one couldn't go wrong."

"Let us hear about it," said he. "I've got my facts pretty clear," said Stanley Hopkins. "All I want now is to know what they all mean. The story, so far as I can make it out, is like this. Some years ago this country house, Tuxley Old Place, was taken by an elderly man, who gave the name of Professor Coram. He was an invalid, keeping his bed half of the time, and the other half hobnobbing round the house with a stick or being pushed about the grounds by the gardener in a bath-chair. He was well liked by the few neighbors who called upon him, and he has the reputation down there of being a very learned man. His household used to consist of the London housekeeper, Mrs. Marlow, and of a maid, Susan Tarlton. These have both been with him since his arrival, and they seem to be women of excellent character. The professor is writing a learned book, and he found it necessary, about a year ago, to engage a secretary. The first two that he tried were not successful, but the third, Mr. Willoughby Smith, a very young man straight from the university, seems to have done the work admirably well. His work consisted in writing all the morning to the professor's dictation, and he usually spent the evening in hunting up the references which were which bore upon the next day's work. This Willoughby Smith has nothing against him, either as a boy at Uppingham or as a young man at Cambridge. I have seen his testimonials, and from the first he was a decent, quiet, hard-working fellow, with no weak spot in his armor. And yet this is the man who has met his death this morning in the professor's study under circumstances which point only to murder as the cause at all. And yet this is the man who was held and screamed at the windows. Holmes and I drew closer to the fire, while the young inspector slowly and methodically developed his singular narrative.

"If you were to search all England," said he, "I don't suppose you could find a more modest, more unassuming, more outside influence. Whole weeks would pass, and not one of them go past the garden gate. The professor was buried in his work and existed for nothing else. Young Smith knew nobody in the neighborhood, and lived very much as his employer did. The two women had nothing to take them from the house, Mortimer, the gardener, who

MOTHER AND KIDDIES QUIT 800-MILE HIKE

Mrs. Mary Allen's plan to walk 800 miles from New York to Wabaah, Ind., when the town officially purchased transportation for the trio and sent them their way by train. Mrs. Allen, her daughter Lillian, ten, and Robert, three, set out to walk from New York to Indiana because she was unable to raise funds for the railroad fare and would not accept charity.

When I told my father about it my dad said he'd put him up to it. I didn't. I only put him up to walk the wire, swinging on them was his own idea. But everyone seemed to blame me in Elizabeth officials to pay her railroad fare. The photo shows Mrs. Allen and her children in Elizabeth, N. J.

I was feeling kinda peaked yesterday because the captain's pipe was so strong that every time I would think of it again I would shiver and my stomach would kinda turn over. I do not think I will ever get tuff enough to smoke that kind of a pipe. My father asked me how I was feeling and asked me if I didn't think I had better stay at home from Sunday school, and I said to him that I had. So I stayed around the house and did not climb on the barn or walk the fence or anything, and I laid down on the lounge, and I thought maybe that if I was sick enough I would not have to go to school today, but I did. My mother is not so very brite.

When school had let out we all went around to Banty's house to see the sign his father was making out of the board Banty buttered for a sliding board. And when we had looked at that we got to looking at the electric light wires which run from the back of Banty's house to the barn where his father paints his signs, and I bet Banty that he could not walk them and jump off of them to the roof of the shed and he bet me he could.

He went in the house and upstairs, but they were so high he could not get his feet on them, and he said real low.

LATEST STYLE

One may contribute a lovely splash of color to the landscape in a trottier blouse of violet silk, tricot trimmed with geranium red silk braid edged with black. This effective model, which may also be substituted for a sweater, is shown in the sketch (E). Note the novel arrangement of the collar and the graceful, flaring sleeves, features which make this an individual design and worth copying in one's favorite color. Primrose yellow with black and white braid would be attractive, and there is a lot of charm about the darker shades of blue, trimmed with white, and a breezy outing atmosphere which may be emphasized with a white silk sport skirt, pleated or plain.

Outside of delightful colors and an occasional bit of novelty in the matter of trimming, there is really little new in blouse styles, costume or sports. There is a noticeable absence of the once popular pussy-willow silk in tailored blouse tucks and tie-back effects play an important part, and the charm of its crisp freshness is greatly enhanced when the material used is crepe de chine, with finely pleated narrow frilling to finish the edges, as in the model illustrated (A).

Pattern No. 152. Patterns for the above models (No. 152) can be obtained in sizes 34, 36, 38 or 40, by sending to Lenore, 8 West Fortieth street, New York City, your name, address, the number of these patterns and size required, and 15 cents in postage stamps for each. Be sure to keep this newspaper clipping of the sketch and description of the garment to use as a working model when the pattern reaches you—which will be within two weeks' time.—The Editor.

TALK ABOUT SERVANT PROBLEM HERE; JUST "LOOKIT" IT IN CHINA

The American woman who finds the servant problem necessarily a chief topic of conversation over here would probably give up the ghost in China. For in China she can neither hire her (or him) nor fire her. Neither can hubby.

"Guides here are as powerful as any union in America," Miss Elisabeth Durfee of the national board of the Y. W. C. A., recently from Nankin, says. "The mistress of the home, or her husband, cannot go into the kitchen and dismiss the cook. The latter must be formally invited to a tea house, and there a third person tactfully approaches the subject."

"Moreover, the mistress or master of the house cannot choose her successor. The retiring dignitary of the kitchen must 'call' her. And the cook 'calls' all the new servants, thereby earning a commission. A man whom a neighbor of ours hired recently was not allowed by their cook to stay, although he was a most satisfactory and hard-working servant."

"It is a highly organized and powerful employment bureau system."

SICK COWBOY SAYS THAT ANOTHER MAN FORCED HIM TO IT

CURLEY GRIFFITH TELLS ABOUT THE INCIDENT AT RODEO GROUNDS.

STATES MAN WITH GUN DRANK A HALF PINT

Art Blazingsame Shows Improvement And Hope is Expressed For His Recovery.

Dell Griffith, better known as Curley Griffith of Duncan, Okla., who was the second man poisoned at the rodeo grounds Friday, told his story of the incident. He is on his way to recovery at a rooming house at 208 Lee street. His mother is at his bedside.

Referring to the affair at the ball park Friday, Griffith said that he came into the stables Friday afternoon making preparations to enter the grand opening. He said that a man was in the stables at the time. Jack Wilson and a colored man known as Stumpy were also in the stables at the time and saw the entire affair.

The cowboy stated that the party came up to him with his gun in one hand and a bottle in another and offered him a drink. He refused, he said, whereupon the man with the gun tipped the bottle and the contents fell into the man's mouth and he drank nearly a half pint of it. I don't know if the man was drunk or whether he was just acting like he was drunk, but he was staggering around when I came into the stables and when he handed me the bottle.

"After I had handed the bottle back to the man, who was staggering around in the stables, he put the bottle to his mouth and drank nearly a half pint of it. I don't know if the man was drunk or whether he was just acting like he was drunk, but he was staggering around when I came into the stables and when he handed me the bottle.

TAXES MAY BE SHIFTED, NOT REDUCED.

Federal taxes are to be shifted somewhat but will not be reduced. This is what has been plainly foreseen by many and which is now confirmed by the recommendations of Secretary of the Treasury Mellon.

Excess profits taxes are to be repealed and in their stead Mr. Mellon recommends an increase in corporation income taxes, an increase in stamp taxes or a federal license tax on automobiles.

Taxes cannot be reduced while governmental expenditures remain abnormally high. Mr. Mellon points out that appropriations are at the rate of five billion dollars annually.

There is no reduction in expenditures there can be no reduction in taxes. If there is to be any change it is to be simply a shifting of taxes.

The administration has announced more than once and from more than one source that the excess profits tax is to be repealed.

It had been hoped that with the war ended and the forces demobilized the government would be able to reduce its expenditures.

There was excuse for oppressive taxation until these extraordinary expenditures were ended and the expectation that taxes would be reduced was a reasonable one.

As to their application locally the proposed changes offer no relief. For several years Wichita Falls has paid abnormal federal taxes under conditions that will not exist again.

Many millions of dollars have gone from our natural resources in federal taxes never to be returned.

Now that this period is ended we will continue to pay just as large a proportion of taxes in other forms.

FRANCE PREPARED TO ACT. If England and Italy and Belgium are not prepared to go with France in ready to occupy additional territory in Germany to force the acceptance by Germany of the reparations proposals of the allies.

France has the most powerful army in the world today. By occupying the Ruhr district which contains the principal source of Germany's coal she can dictate the terms upon which industrial Germany can live.

France has the right to obtain two things from the war. One is the largest amount of reparations that the German people can pay.

The American government ought to support her in whatever measures are necessary to attain these ends.

Competitive Cotton States. Cotton may be no longer a king, but Texas is king among the cotton states.

WHY?

Do White Marks Appear on the Finger Nails.

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

The finger nails, possibly more than any other part of the body, have always been regarded with something akin to a superstitious awe.

It is probably because of this ancient veneration for the nails that a number of legends have been woven about the origin of the white marks which appear during their growth—the half moons which are supposed to have a certain significance.

Some of the legends which are supposed to have a certain significance, the tiny spots which mean something else and the conjunction of these marks which is believed to foretell success or disaster.

As a matter of cold hard fact, however, the white marks on the nails have nothing to do with anything outside the body, but which are the result of bruises or accidental knocks which the delicate tissue of the finger nails sustains while it is in the process of formation.

It is a question upon which there was a division in and out of the navy. My own first inclination was to disagree with the majority of them—

DANIELS TELLS WHY ATLANTIC FLEET EVADED THE WAR ZONE

Admiral Mayo eager to go—Logistics the main reason why the fleet was not sent to the American troop transports.

(Copyright, 1921, by John F. Daniels, Copyright by National Newspaper Service, Inc., New York, N. Y.)

Admiral Mayo was eager to go. The British fleet and Admiral Rodman's division were based on Scapa Flow.

It was a question of rank which in peace maneuvers would have been a question of rank which in the world's hour of agonies and need mattered far less than other things.

At least so thought Admiral Mayo, when he was asked to go into the war zone and to be where the biggest chance lay for a big fight.

Before defining it further, and showing its application to the problems we are considering let me tell a little story suggested to me by this mention of logic.

It was a question upon which there was a division in and out of the navy. My own first inclination was to disagree with the majority of them—

Which I did, and just then I almost tripped but I got up to the setting room door and pop was still sitting there reading and looking over less like laughing than what he did before.

JUST FOLKS

By EDGAR A. GUEST.

Strength. A little mirth, a little care, A burden now and then to bear, A passing smile, a fleeting tear, These mark the days of every year.

Blue skies and sunshine come and go, The cheerless winds of winter blow Across the path of life and then The springtime of life seems but again.

Life rests us that we may endure There is no door that is secure, Anguish, despair and hurt and we, And at the last his worth is known.
