FNB shareholders called to meeting

By JIM PRESNELL
Business-Energy Writer

A special meeting of 1,500 shareholders of The First National Bank of Midland has been called for 10 a.m. Oct. 14 at Theatre Midland to decide how the bank will raise \$40-100 million in badly-needed capital.

FNB is being investigated by two federal agencies — the Securities and Exchange Commission and the Comptroller of the Currency — a proxy statement said. That statement also confirmed that The First Boston Corporation has been retained to locate a merger for FNB, since its equity has dwindled to less than \$1 million.

— and questions as to the statements' accuracy. The Comptroller of the Currency has not designated the nature of its investigation.

Several banking violations — which have not all been corrected — have been identified at FNB through the past few months, according to the proxy statement. These include exceeding its loan limits, loaning money to executive officers on favorable terms, non-compliance with securities laws and recordkeeping requirements, and failing to file reports on loans from correspondent banks.

As part of management changes, the bank brought in new president Thomas Wageman from Chicago's LaSalle Bank in August. Wageman's compensation is arranged with a

special escrow account of \$725,000 at InterFirst Bank Dallas N.A. If the bank is liquidated or acquired by will receive the \$600,000 remaining since he has already been paid \$125,000, the proxy statement said.

That statement continued: "The Bank has explored a number of alternatives for a capital infusion of the acquisition of the Bank. No offers were received and there can be no assurance that any acquisition or merger proposal can be obtained or that a suitable investor can be found to provide needed capital to the Bank. Even if any such offer is received, there can be no assurance that holders of shares of common stock would receive any substantial consideration for their shares."

Autry's execution halted

HUNTSVILLE, Texas (AP) — Convicted killer James David Autry was strapped to a death house gurney with a needle in his arm today when he was told — four minutes after his execution was to have begun — that a Supreme Court justice had granted a reprieve.

■ **Reprieve may block other executions; Related stories**
— Page 2A

Autry, a 29-year-old drifter condemned for killing a store clerk over a six-pack of beer, was awaiting a lethal jolt of chemicals when Justice Byron White granted a stay of execution at 11:32 p.m. CDT Tuesday. The state failed in an attempt to overturn the stay.

When Autry was told at 11:30 that there would be a delay, "He did not say one word or have any response," prison spokesman Rick Hartley said.

At 12:05 the inmate, still bound by leather straps in the Texas death chamber, was told of the stay, Hartley said. "Once again there was no reaction." Three minutes later he

was off the gurney and at 12:13 he was back in a cell adjacent to a death chamber, the spokesman said.

Autry's execution had been scheduled for just after midnight.

Ann Arnold, press secretary to Gov. Mark White, said the stay was granted on the basis of a California case which Texas Attorney General Mattox said "deals with the question of proportionality of the sentence — whether or not the sentence granted one person given the death penalty is the same or comparable to a sentence given someone else for a crime."

She said she understood that Justice White stayed Autry's case until

the high court could rule on the California case scheduled to be heard Nov. 7.

John Duncan, the director of the Texas Civil Liberties Union, said in Austin that the stay that executed Autry will keep Texas from executing any convict until the legal question is decided by the Supreme Court.

"We've got another block on all Texas executions," an elated Duncan said about an hour after the stay was issued.

Elna Christopher, press secretary for Mattox, said it was possible the stay could block future Texas executions and that lawyers would begin researching the question today. None of the 170 inmates on Texas death row has an active execution date.

Duncan said the stay also means Autry's lawyers will be allowed to present their case to the 5th U.S. Circuit Court of Appeals.

Nobel committee names Lech Walesa

OSLO, Norway (AP) — Lech Walesa, founder of the now-outlawed Solidarity labor union, today won the 1983 Nobel Peace Prize for his struggle on behalf of workers' rights in Communist-ruled Poland.

The Norwegian Nobel Committee said it honored Walesa "as an exponent of the active longing for peace and freedom which exists, in spite of unequal conditions, unconquered in all the peoples of the world."

Walesa, the first Pole to win the coveted prize, was chosen for his "contribution, made with considerable personal sacrifice, to ensure the workers' right to establish their own organizations," the committee said.

It said the 40-year-old former head

of Solidarity, the first independent trade union in the Soviet bloc, had worked with "a determination to solve his country's problems through negotiation and cooperation without resorting to violence."

Walesa had left his apartment this morning to hunt for mushrooms in the woods and was not at home when the prize was announced, said his wife Danuta.

"Oh god, I am very happy, very, very happy," she said when reached by telephone at their home in the Baltic port of Gdansk, where Walesa helped create Solidarity at the Lenin shipyard.

U.S. needs to strengthen defense, economy, Ford tells Midlanders

By LANA CUNNINGHAM
Staff Writer

With all the world's eyes turned to the United States for leadership, this country must strengthen its economic position and its national defense to retain its position of power, former President Gerald R. Ford told a crowded Midland Chamber of Commerce Tuesday night.

As featured guest at the 60th annual Midland Chamber of Commerce banquet, Ford told the 750 members of the two components that will keep the U.S. strong. During a press conference that afternoon after he finished 18 holes of golf at Mission Country Club, the former president answered questions on the downed Korean airliner, Lebanon and the 1984 election.

Last summer Ford, 70, sponsored at Vail, Colo., a forum which featured world leaders who no longer

hold the high office in their country, such as Helmut Schmidt from Germany, Jack Callahan of Great Britain and Giscard D'Estaing of France.

Over three days their conversation centered on two topics: Economic conditions of the U.S. and the world and the military challenge by the Soviet Union.

"THE CONCENSUS among world leaders was that the free world looks to and is dependent on the leadership of the U.S. in the decade ahead," related Ford.

"As an American, I was very proud of the recognition our country was accorded...that the knowledgeable world leaders recognize the failure of the communist ideology."

But the leaders' attitude also caused Ford to wonder if this nation and its people are ready to continue that leadership role. Some citizens

want government given entirely back to the people while others want to depend on the government for everything, he said.

Ford, who was a Michigan congressman for 25 years before ascending to the presidency upon Richard Nixon's resignation in August 1974, views the U.S. government as "tilting more toward the welfare philosophy." That has turned the priority of the government around from defense as being number one to putting assistance programs in the top spot.

In the 1960s, he said, defense received about 40 percent of the budget while programs to individuals totaled about 28 percent. Now, entitlement programs eat up 48 percent of the budget while defense is left holding 25 percent.

Teens survive plunge from 300-foot cliff

SAN FRANCISCO (AP) — Four teen-agers in a car sailed 300 feet off an ocean cliff but lived to recall their stunned silence during the fall, which knocked three of them unconscious.

"We were so shocked, we all went kind of silent as we went over the cliff," Dora Doody, 15, said Tuesday about the accident near Daly City, adjacent to San Francisco. "I looked around at everybody but couldn't say anything."

Miss Doody and the three others were rescued Monday night by a Coast Guard helicopter after the car spun out of control, skidded about 25 feet along the cliff and hurtled down the cliff face.

Miss Doody's 17-year-old boyfriend, Lee Langley, who was driving the vehicle, was thrown unconscious into the surf. The three passengers were trapped momentarily inside the car, which filled with sand on impact.

"We were so shocked, we all went kind of silent as we went over the cliff."
— Dora Doody, 15

"I couldn't breathe, there was so much sand inside," said Miss Doody, who suffered a broken collarbone, chipped teeth and severe bruises.

"It's a miracle she or any of the kids survived," her mother, Darlene Doody, said.

Langley was listed in stable condition at Kaiser Hospital in South San Francisco. The other passengers, John Stehr, 18, and Tammy Goodman, 15, were in the intensive care unit at a Burlingame hospital.

Miss Doody said three men climbed down the cliff, dragged Langley from the water and used a rope to pull the car onto its wheels to free the others.

Investors' prospects very slim

NEW YORK (AP) — It was the "most colossal fraud of the century" to Michael Dwyer of Ridgewood, N.J. Benjamin Raushkolb of New York City blamed Wall Street. And Donald Pollow of Memphis, Tenn., said he will never buy another government bond in Washington state.

Which American's face is featured on a postage stamp in which foreign country? The answer is Benjamin Franklin, who signed the treaty of Amity and Commerce with Sweden in 1783.

Battle lines set on formation of trade department

WASHINGTON — The Reagan administration and congressional Democrats are forming battle lines over creation of a new federal trade department — a step both sides generally agree is needed to help U.S. industries compete in the world market.

Business Mirror

Competition no help to producers

NEW YORK (AP) — A competitive market can be great for consumers but cruel for producers, who sometimes get into fights so savage they forget what it's all about and succumb to exhaustion.

Investor's Guide

\$200 in dividends may be excluded

Q. The supermarket company in which my wife and I own stock recently increased its dividend. As a result, we will receive \$495 of dividends this year. This is the only stock we own and we are in the dividend reinvestment program. Will we have to pay any income tax on this money, since it will be more than the \$400 dividend exclusion?

American Exchange

ANDREWS COUNTY

Tom R. Minihan No. 3 University 'P' PD 7,117: work has begun.

BORDEN COUNTY

Nortex Gas & Oil Co. No. 1-324 Lemley-Red Mud Creek PD 8,130: moving in completion unit.

COCHRAN COUNTY

Woods Petroleum Corp. No. 1 Gresham PD 12,000: drilling at 4,090 feet.

CRANE COUNTY

Gulf Oil Corp. No. 0147 P.J. Lee et al PD 4,650: pumped 40 barrels 2% KCL to kill well, went in hole with 128 joints of 2 7/8 inch tubing with seating nipple at 4,023 feet, tubing anchor at 3,930 feet with 10,000 pounds tension, swabbed 2 hours, recovered 3 barrels oil, 20 barrels water, well started flowing, switched to test tank with 18/64 inch choke, well loaded with water and stopped flowing, flow test 9/30/83-10/1/83, 0 barrels oil and 33 barrels water.
Gulf Oil Corp. No. 2 State 'NY' PD 7,657: stabilizing production.

DAWSON COUNTY

Tipperary Oil & Gas Corp. No. 2-128 Elland PD 12,300: rigged up Britt well service and loaded tubing, nipples up well head and blowout preventer, running tubing in hole.
Tipperary Oil & Gas Corp. No. 1 Lee PD 11,800: swabbed 123 barrels water, 2 barrels oil, perforated 11,279-11,405 feet.

ECTOR COUNTY

Gulf Oil Corp. No. 1412 C.A. Goldsmith et al PD 9,300: plug back finish waiting on cement, opened cement manifold, released pressure, did not flow back, set slips, not drilling, nipples down blowout preventer, nipples up wellhead.

GAINES COUNTY

Davis Oil Co. No. 1 Gordon Griffin PD 12,800: new location 9/22/83.
Davis Oil Co. No. 1 Maude Hames PD 13,500: drilling at 3,680 feet.
W.A. Moncrief Jr. No. 1 E.T. Adair PD 6,800: waiting on rule 37 hearing.

GLASSCOCK COUNTY

Exxon Corp. No. 1 L.S. Adams PD 11,200: new location 9/20/83.

HOWARD COUNTY

Amoco Production Co. No. 1 Florence Hall PD 11,300: new location 8/16/83.

KENT COUNTY

Amoco Production Co. No. 3 Walter G. McMeans Operating Area: new location 9/19/83, plugback.
Amoco Production Co. No. 6 Walter G. McMeans Operating Area: new location 9/19/83, plugback.
Amoco Production Co. No. 9 Walter G. McMeans Operating Area: new location 9/19/83, plugback.

HOWARD COUNTY

Earl M. Craig Jr. Corp. No. 1 Avinger 33, PD 9,300: waiting on completion unit.
Estoril Producing Corp. No. 1 Northcutt, PD 8,700: total depth 7,502 feet, perforated 5,469-5,479 feet, set tubing at 5,500 feet.
Southland Royalty Co. No. 1 Little, PD 10,500: drilling 8,005 feet shale.

LOVING COUNTY

ARCO Oil & Gas Co. No. 1 W.D. Johnson Jr. et al '30' PD 6,500: total depth 6,500 feet, plugged back 6,498 feet.
ARCO Oil & Gas Co. No. 1 W.D. Johnson Jr. et al 'X' PD 6,700: total depth 6,660 feet, cleaning location.
H.L. Brown, Jr. No. 2 Robinson 5 PD 7,500: testing, pumping to battery.
Westland Oil Development Corp. No. 1 Reed Estate '27' PD 19,000: plugged back total depth 17,810 feet, circulating.
J.C. Williamson No. 2 Exxon Johnson PD 6,200: waiting on postal test.

LYNN COUNTY

Tipperary Oil & Gas Corp. No. 1 Dorman PD 10,400: total depth 10,218 feet, waiting on production equipment.

MARTIN COUNTY

Adobe Oil & Gas Corp. No. 1 Enserch-Lewis '16' PD 12,100: drilling 9,855 feet in lime, shale, 1 3/4 degrees at 9,400 feet, mud 8.4 pounds, viscosity 29, 10 PH.
HCW Exploration Inc. No. 1 U. Griffin Estate PD 6,500: new location 9/22/83.
Legacy Petroleum No. 1 Guitar PD 10,000: will not spud until November 15.
Legacy Petroleum No. 1A Strain PD 10,000: will not spud until November 15.
Legacy Petroleum No. 1B Strain PD 10,000: will not spud until November 15.
Legacy Petroleum No. 1C Strain PD 10,000: will not spud until November 15.

MIDLAND COUNTY

David & Inez G. Faaken No. 1 Fee AA PD 13,600: moving in rotary tools.
Lacy & Byrd Inc. No. 1 Mackey PD 10,750: total depth 10,895 feet, shut in, pulled bottom hole pressure test Sunday, waiting on gas sales connection, potential 87 1/2 barrels oil, 32 MCF gas, trace of water 9/28/83.
PECOS COUNTY
Dyad Associates No. 1 Linebarger PD 4,250: total depth 4,250 feet, ran electrical logs.
Exxon Oil Corp. No. 1 State University 'EU': waiting on completion unit.
Pennzoll Company No. 1-5 Nutt PD 10,000: total depth 10,000 feet, testing.
Ralph L. Way Inc. No. 2 Crowley-State PD 5,500: new location 9/25/83.
R.K.G. Engineering Inc. No. 3 Crawford 21, PD 3,100: new location 9/27/83.

REEVES COUNTY

D.K. Boyd Oil & Gas Co. No. 1 Renee PD 4,800: total depth 4,200 feet, set pipe at 4,200 feet, waiting on completion.
Gulf Oil Corp. No. 2 Barstow State PD 6,350: new location 9/22/83, re-entry.
Hillin Production Co. No. 1 River Bend, PD 7,500: building location.
Maralo Inc. No. 1 Texaco Inc. ATA PD 18,000: drilling 16,810 feet Dolomite.
RK Petroleum Corp. No. 1 Dixieland 3 PD 21,000: total depth 19,475 feet.

SCURRY COUNTY

Nortex Gas & Oil Co. No. 1-JJ372 Beaver PD 8,600: drilling 2,258 feet lime.

STERLING COUNTY

Chambers & Kennedy No. 1 Durham PD 8,400: will be drilled sometime next month.

TERRY COUNTY

Pogo Producing Co. No. 1 F.E. Bradshaw PD 11,600: new location 9/22/83.

UPTON COUNTY

William E. Hendon No. 1 Tippett No. 22 PD 8,500: waiting on pump jack.
InterNorth No. 1 Velma M. French PD 8,800: shut in.

WARD COUNTY

O.H. Berry No. 1 ARCO-Loflaw, PD 2,800: total depth 2,317 feet, perforated 2,835-2,969 (17 holes), acidized w/ 1,500 gallons 15 percent mud acid, prep to perforate zones 2,416-2,432.
Coastal Oil & Gas Corp. No. 3V Edwards PD 9,800: total depth 9,547 feet, plugged, abandoned.
Gulf Oil Corp. No. 8 T.B. Pruett et al, gas unit PD 11,800: Total depth 4,837 feet lime, rigged up, ran 114 joints 9 5/8 inch cemented w/950 sacks Gullmix, 200 sacks Neat, circulated 50 sacks, waiting on cement.

WINKLER COUNTY

Magnatex Petroleum Co. No. 1 Wheeler PD 11,500: pump testing.
Y.F. Petroleum Inc. No. 1 Waddell PD 11,800: new location 9/25/83.

YOAKUM COUNTY

Dinero Operating Co. No. 1 Fritzelard et al PD 13,500: will spud in a week or so.

Men who violate wildlife laws get probation

By ED TODD
Staff Writer

Two Midlanders who expressed remorse for violating the U.S. Airborne Hunting Act were placed on probation for five years Tuesday by U.S. District Judge Lucius D. Bunton.

Sentenced were Midland farmer Lee Milton Bell, 29, and Wesley Michael Nickell, 23.

Nickell had pleaded guilty to shooting a Barbado sheep and Bell had pleaded guilty to killing an eagle, mule deer and a javelina. The incident occurred while in a helicopter piloted by J.C. Short Jr. in January 1982 south of Fort Stockton.

Short, 35, and Midland-Odessa sport-hunting dealer Larry Todd, 30, also have been found guilty by a jury of violating the U.S. wildlife-hunting laws. They will be sentenced at noon Thursday in the courtroom of the George Mahon Federal Building.

Prior to the Tuesday sentencing, Bunton admonished Nickell for entering the courtroom without a tie. He was wearing blue jeans and a jacket.

"Anytime you come to this court," the judge told Nickell, "you ought to be looking like you want to come to court."

Nickell admitted that his airborne hunting "was wrong" and told the judge that "I guess that (punishment) is up to you." Bunton asked Nickell what he thought the penalty should be. His attorney, Benny Lowe, noted that Nickell had "cooperated" with the government's investigation into the airborne hunting violation and that Nickell's "involvement in the situation was of no personal gain to him."

"He is an avid sportsman and an avid hunter," said Lowe, who noted that his client "did something" — riding in a helicopter — "he always wanted to do. I do not feel there is any culpability on his part."

Bunton zeroed in on the airborne sport, saying he failed to see any sportsmanship in that form of hunting.

"I cannot condone for a minute what you did," the judge suggested Nickell could have taken a helicop-

ter ride and foregone the hunting. In addition to the five-year probation which Bunton meted Nickell, he fined him \$2,000.

"I think you have learned your lesson," the judge told Nickell. "I certainly hope so."

Bell, who was fined \$3,000 in addition to the probated sentence given him, told the judge he realizes "the seriousness of this predicament I've gotten myself into — acting without thinking. In the past two years, I've grown up...and...I've gotten wiser."

"I think it's the stupidest thing I ever did," Bell said of the airborne hunting. The farmer said he was not "just sorry" for his deed but that he was "remorseful."

"Since the case against him gained publicity, Bell said he and his family have been subjected to cruel jokes, pranks and ridicule. He has lost friendships which were 20 years in developing.

As did Nickell, Bell cooperated with federal and state investigators who probed airborne-hunting violations and testified for the governments in the Todd-Short trial in mid-September.

Bell's attorney, Reagan Legg, said his client has been "a hard-working farmer," realizes he had done "a stupid thing," noted the Bell clan is "a prominent, well-respected family in Midland County" and that Bell "is a Christian person."

Legg said Bell's father is undergoing emotional trauma.

"I believe that Mr. Bell (if granted probation) will live up to the terms of probation and will never be in this court again or in any court," Legg said.

Bunton considered the pleadings of Bell and Legg.

"I'm going to agree that what you did was stupid," the judge told Bell. "You weren't thinking. Obviously, you weren't thinking."

Bunton said he recognized that it was "pretty difficult" for Bell "to testify against what you thought were your friends, they weren't."

Prior to pronouncing the sentence, Bunton said he found it hard to understand why anyone with any "sporting blood" could hunt while airborne.

Ford speaks

President Gerald Ford, who took over the nation's top elected position after Richard Nixon resigned in the aftermath of Watergate, describes the rising budget deficits. After a forum with former world leaders last summer, Ford said the United States is regarded as a leader, but must have a strong economy and staunch national defense. Presiding at the 60th annual Midland Chamber of Commerce banquet Tuesday night is outgoing president Larry Bell, standing left. With him are his wife, Ellen, and President Ford.

Cancer victim says she's happier with electronic voice box

By HALLYE JORDAN
Staff Writer

When Marie Dillistone had a laryngectomy following the discovery of a tumor on her larynx, she worried about how it would affect her grandson.

She approached the 9-year-old in writing, explaining she could no longer talk because she had no voice box.

For a long time, the boy carefully studied the note. Looking up at her in disbelief, he asked, "Good grief, am I going to have to read your writing all of my life?"

"Right then, I knew I'd have to find another way to communicate," Mrs. Dillistone said.

She felt like a robot when she began using her electronic voice box. Her grandson told the kids in

the neighborhood he had a bionic grandmother.

Her way of speech, difficult at first to grow accustomed to, has since become a source of amusement, said Mrs. Dillistone, president of the Lost Chord Club, a support group for laryngectomy patients.

There was the new maintenance man her husband Vern had hired before she scared him away when she tapped him on the shoulder with a "Pardon me," in a dark warehouse. There was the man that called the house asking for her husband, and was amazed to know a recorded answering service could ask questions.

There was the new nurse attending Vern after his surgery. As Mrs. Dillistone walked in the room, her husband woke up asking, "Well, was it a boy or a girl?"

When his wife answered in her

robot voice with, "A boy," the nurse fled.

Although the frustration, confusion and therapy that began seven years ago were difficult to overcome, Mrs. Dillistone said she believes she is happier than she was before the discovery of cancer in her body.

"I am not a handicapped person," Mrs. Dillistone said Tuesday night at the fifth of the I CAN COPE educational series at the Allison Permian Basin Cancer Therapy Center. "I am a person with a handicap. And I am very determined to prove I can go on with my life."

"Remember, usually with cancer, people think of dying and we get sad, worried and depressed. As far as we know, we're no closer to dying than we were before. We can die

with a heart attack tonight." Cancer patients are aware of dying — but they are more aware of living, she said.

"It's not the quantity that's important," she said. "It's the quality. If you can have one day and make it count, why worry about tomorrow?"

Some misconceptions about the treatment of cancer with radiation were alleviated by Dr. Eric Svenson, Allison cancer center radiation oncologist, during the program.

"With radiation, most people think about atom bombs and things of that nature," Svenson said, explaining the radiation used to control cancer involves X-rays and electrons. Neutrons make objects radioactive, he said.

Dr. Eric Svenson

About 200 Volunteers in Public Schools (VIPS) attended a training workshop at Parker Elementary School Tuesday. The volunteers were given instructions and demonstrations to aid them in the various tasks they perform. Giving advice about Innovative Storytelling Techniques are school board trustee and VIP Ann Page, right, and volunteer Neil Furgeson. At the table, from left, are VIPS Jan Van Eman and Doris Braun and San Jacinto principal Jimmie Kelly.

Krueger will speak at justices' seminar

U.S. Senatorial candidate Robert "Bob" Krueger of New Braunfels will be a featured speaker at the 24th annual conference-seminar of the West Texas Justices of the Peace Association Thursday, Friday and Saturday in the downtown Midland Hilton.

Krueger, former dean and English literature professor at Duke University, former U.S. ambassador to Mexico and U.S. Congressman from 1975-79, will speak at 7 p.m. Saturday in the association's honors banquet in the Hilton's Ellenburger and Devonian Rooms.

An estimated 150 peace justices,

constables and their spouses are to attend the meeting, according to Midland County Justice of the Peace Charlie Sprayberry, host justice. The West Texas association takes in 152 of Texas' 254 counties, said Sprayberry.

The conference will open with registration in the lobby of the hotel from 10 a.m. to 7:30 p.m. Thursday and will conclude with Krueger's talk, music by a symphonic brass quartet and a Saturday night dance.

Except for a Friday night speech and barbecue in the Midland Center, the association's business functions and sessions will be conducted in the Hilton.

Principal speakers at the conference will include:

Andrews ambulance controversy back to where it started

By PATRICK DEAREN
Staff Writer

ANDREWS — The year-long controversy over the police department's operation of the city ambulance and the search by a citizen's group for an alternative operation has gone around and around and returned to the starting mark.

"It's just back to zero point, back to where we stood," lamented Ellen Hoffman, who was instrumental in the formation of Citizens for a Safe Andrews after she was robbed Sept.

3, 1982 at her home. Police officers were unable to respond immediately because they had to give a medical run priority. "I have real bitter feelings. (The city and county) laid it on the hospital board at a time the hospital was having financial trouble. They picked the right time and the right place to do their job."

The board of Permian General Hospital decided against assuming operation of the ambulance service in its August meeting.

"They gave two reasons," said County Judge Les Brown, who

attended the meeting. "They felt that it would cost them, that it would be an expense to them that they wouldn't be able to pay from the funds they generate at the hospital. And the second reason, given by one board member, (was that) it was just a dirty, messy job that nobody wanted to do."

Now, it appears, that job still will be the responsibility of Andrews Police Department.

"We are making arrangements to continue operating the service," said city manager Len Wilson.

"It looks like they're in the ambulance business," said Brown of the police department. "As far as I know, they're gearing up to meet the new state law as far as training is concerned."

The Texas Legislature this year passed a new law requiring a minimum of 40 hours of training for ambulance personnel, he explained.

Andrews Police Department assumed the responsibility of handling ambulance runs when Singleton Funeral Home halted its service in 1970. Since then, medical calls by

necessity have been given preeminence over crime calls, a situation which led last year to the creation of three different study groups: Citizens for a Safe Andrews, a commission appointed by the city council and county commissioners, and a committee appointed by the county judge.

The consensus was that Permian General Hospital should operate the service, but Mrs. Hoffman does not believe the hospital's inability at present to do such should close the issue.

She indicated that she believes it should be the responsibility of the city and county to find a suitable alternative, but that Citizens for a Safe Andrews would continue its study.

"We're waiting on some legal things, response from letters to different people in the state, to see how we can handle it," she said. "You've got to have a whole town respond, and for some reason there's a lack of interest when it comes to the city council. But we'll continue...We have not given up."

DEATHS

Robert Mealer

BIG SPRING — Services for Robert O. "Bob" Mealer, 69, of Big Spring will be at 3 p.m. Thursday in the Nalley-Pickle Funeral Home Rosewood Chapel. Burial will be in Mount Olive Memorial Park. Mealer died Saturday in his home. He had lived in Big Spring since 1928, was a self-employed dirt contractor and was a member of the First Assembly of God Church.

Pearl Arnett

SNYDER — Services for Pearl Arnett, 80, of Snyder, mother of LaVerne Johnson of Midland, were Sept. 28 at the Eastside Church of Christ with Don Browning of the Singing Oakes Church of Christ in Denton officiating, assisted by Tom Holcomb of the Eastside Church of Christ. Burial was in Snyder Cemetery, directed by Bell-Sea Funeral Home. She died Sept. 26 in a Snyder hospital. Mrs. Arnett was born Dec. 27, 1903, in Scurry County. She was a mem-

ber of the Eastside Church of Christ. She married Frank Arnett March 14, 1923, in Abilene. He died Oct. 9, 1981. She was also preceded in death by a daughter, Cora Frances Arnett, in 1941. Other survivors include another daughter, Franklene Hoffman of Lubbock; a sister, Clara Jones of Snyder; six grandchildren and four great-grandchildren. The family requests memorials be directed to the American Cancer Society or Hospice.

Armand Sabatier

Armand Sabatier, 81, of 700 W. Scharbauer Drive, died Tuesday morning in a Midland Hospital. No funeral services will be held. He was born in France, coming to the United States in 1926. He had lived in Midland since 1959, and was the assistant manager of the Petroleum Club for many years. He was especially active with the Midland Senior Citizens. Survivors include two sons, Michael Sabatier of Beverly Hills, Calif., and Paul Sabatier of Davis, Calif.; and a daughter, Dinah, of France.

School attendance law challenged

AUSTIN (AP) — A South Texas family's trip to a golden wedding anniversary celebration in California — and a few side trips along the way — has led to a decision that school officials say threatens the state's compulsory attendance law. For Therese Young, 15, the November 1982 trip meant seven days of zeros in her 10th grade classes. Her father, Arthur Young, appealed that decision to the Schertz-Cibola-Universal City school board, which upheld the ruling that sent the girl's grades plummeting. Young appealed to State Education Commissioner Raymon Bynum, who, in an uncommon move, overruled the board's decision. The education code requires the commissioner to uphold school boards' decisions, unless they break the law. The State Board of Education will have the final say — absent a courtroom fight — on Saturday, when the school district's appeal of Bynum's order will be considered. The chief hearing examiner for the Texas Education Agency says Bynum's decision was correct. "You can't go after the student for what the parent does," said Mark Robinett, the TEA director of hearings and appeals who will recommend state board approval of Bynum's decision. "It's like saying we find the defendant not guilty, now here is your punishment." Young said Tuesday that he had

ordered his daughter to go on the trip because he did not want to leave her home alone. "This celebration had been planned for over two years," he said about his in-laws' 50th wedding anniversary. "My daughter did not want to go. She was brand new in the school and had missed 14 or 15 days with mononucleosis." Before heading west in the family motor home, Young told school officials about the trip. They refused to allow her to get credit for schoolwork she did on the road because it would not be an excused absence. Some of Therese's teachers gave her an outline of the work she would miss. But when she returned, she was given seven days of zeros in her classes. When averaged in with her usual As and Bs, the zeros left her grades near failing. She eventually passed the courses. "It literally devastated her grades," said Young, a retired 30-year Air Force man who now runs a miniature golf course. "She was being punished for obeying her parents." To Young, who speaks through a mechanical voice because of throat surgery for cancer, it's a battle of major proportions. "That's what we've been fighting wars for, to uphold the constitution," he said in a telephone interview. "Then to have some educator punish someone without any

recourse, that goes against the grain with me." Superintendent Burel Block, whose decision was overturned by Bynum, said the zeros were a simple and obvious solution. "We punished the daughter because the daughter was absent," he said, adding that the family trip was not an excused absence as defined by state law. The education code says the only legal excuses are "personal sickness, sickness or death in the family, quarantine, weather or road conditions making travel dangerous, or any other unusual cause acceptable to the teacher, principal or superintendent." In a letter to state education officials, Block made it clear he did not think the trip to the west was an acceptable "unusual cause." "I do not believe a visit to Yosemite National Park, relatives, Grand Canyon and a 50th wedding anniversary are good and acceptable reasons to be absent from school," he told the education agency. He also doubted Young's argument that the girl had no choice about the trip. "I propose that she not only wanted to (go), but thoroughly enjoyed her vacation from school. She as a person decided to go with her father to California. Her father did not kidnap Therese. There are

no signs of coercion," he told state education officials. But Robinett said the punishment was not appropriate. The proper penalty would have been a \$100-per-day fine against the father for violating the compulsory attendance law, he said. Young said that penalty made better sense. "I would not have taken exception had they fined me for taking my daughter out of school," he said in a letter to state officials. "But I could not accept her being punished for obeying me." Block defended the zeros. Without the penalty, "The parent will be given the authority to excuse absences. That's what's being decided. It will affect the whole state," he said. Orby Holden, executive director of the Texas Association of School Boards, agreed. "If local districts don't take some action to control people from missing school, you're going to have widespread abuse of this," said Holden, whose association has urged the Board of Education to back Schertz-Cibola-Universal City trustees' decision. "I take my children out of school sometimes, knowing they are going to be penalized," said Holden. "We agree ahead of time if it's worth it, to do it."

Archaeologist will discuss ancient Indian artifacts

Dr. Thomas R. Hester, director of the Center for Archaeological Research and professor of anthropology at the University of Texas at San Antonio, will discuss ancient Indian artifacts at 7:30 p.m. Thursday in the Planetarium of Museum of the Southwest. Title of his speech will be "Tracing the Distribution of Prehistoric Obsidian Artifacts in Western Texas and Southeastern New Mexico." Dr. Hester, who has been coordinating the Texas Obsidian Project since 1973, has been using trace elements to identify the point of origin of obsidian artifacts. This technique has made possible detailed studies of prehistoric trade and exchange routes. His recent fieldwork has focused on prehistoric sites in southern Texas and on the Mayan site of Colha in Belize in Central America. He has authored three books including a widely used text, "Field Methods in Archaeology."

Pretrial hearing has been set in Lucas case

DENTON (AP) — A pretrial hearing has been set for Friday for Henry Lee Lucas, a drifter who claims to have killed 150 women in 16 states, and is charged with murder here in the slaying of a Florida teen-ager. Lucas was transferred Monday from the Clay County Jail in Henrietta to Denton County Jail pending his trial Oct. 17 in the slaying of Freida Powell, 15, of Jacksonville, Fla. Denton County Sheriff Kenneth George said Tuesday a pretrial hearing is set for Friday before State District Judge Sam Houston. Miss Powell's skeletal remains were found in Denton County in September 1982. Lucas said the girl, whom he called Becky, was his common-law wife.

Lucas, 47, was sentenced to 75 years in prison last week after pleading guilty to the murder of 80-year-old Kate Rich of Ringgold in North Texas. He also is charged in the slayings of four other women in Texas and one in Louisiana. Lucas had been scheduled to attend a pretrial hearing in Georgetown Tuesday in another case, but Williamson County District Attorney Ed Walsh said that hearing was postponed. He said another date would be set after he conferred with Denton County officials. Lucas is charged in Williamson County with the strangulation of an unidentified female hitchhiker whose body was found near Interstate 35 Oct. 31, 1979.

Whale rescued from shallow water

GALVESTON (AP) — A 400-pound whale was breathing but not eating after being rescued from shallow waters, and veterinarians were considering whether to force feed it. The creature, which scientists have named Tootsie, was found in the shallows near Port Aransas on Monday. It was transported that evening to Sea-Arama Marineworld park in Galveston. Believed to be a pygmy killer whale, the mammal was swabbed down with zinc oxide and sprayed with water to keep her sensitive skin moist, said Sea-Arama spokeswoman Sandra Alexander on Tuesday. Park scientists were uncertain whether the animal was a pygmy killer whale, since the species is rare in the Gulf of Mexico off Texas, said Ms. Alexander.

A final determination — to be made by counting the whale's teeth — could not be made until the whale opened its mouth, she said. The 7-foot-9-inch whale was breathing without assistance in a holding tank, and except for a small cut near a fin it did not appear to be injured, the spokeswoman said. The whale was being given antibiotics to fight infections. Once it is past the stress of being stranded and hauled overland, veterinarians probably will draw blood and attempt to find out why it beached itself, Ms. Alexander said. It may also be forced if it doesn't begin eating soon, she said. Whether Sea-Arama keeps the whale will be up to the government, said Ms. Alexander. None of the beached whales that Sea-Arama has tried to save has lived, she said.

David Holt, nationally known performer and music educator, will give a free concert at UTPB's performance hall Saturday. The performance will include songs played on a dozen different and unusual instruments.

Performer will guest at teachers' workshop

Nationally known performer and educator David Holt will be the featured guest artist at a concert and a music educators workshop in Odessa Saturday. An Apple music computer will also be demonstrated during the afternoon session at The University of Texas of the Permian Basin. Holt, who plays early American folk music and bluegrass, is an accomplished musician on 12 instruments. At the 8:30-11:30 a.m. workshop he will demonstrate clog dancing, story-telling techniques and teach students how to do hambone rhythms and play "instruments"

such as spoons, bones and paper bags. Holt will perform in concert at 7:30 p.m. in UTPB's new performance hall. The performance is free and open to the public. It offers tales, ballads and tunes told and played on instruments such as the banjo, hammered dulcimer, auto-harp, squeeze box, guitar, harmonica, bones, spoons and jews harp. The program, sponsored by student music organization Midessa Musica, is part of a district event for the Texas Music Educators Association.

Former Lions governor to be honored

An appreciation banquet honoring Lions Club former District Governor George Neis and his wife Corrine and his 1982-83 cabinet is set for 6:30 p.m. Saturday at the Ranchland Hills Country Club. Speaker for the event, which will draw Lions from throughout the district, is Art Cool. Cool is a past governor of the Lubbock District Lions

Club and is currently a member of that city's Downtown Lions Club. Longtime Midland Lion Bill Colyns will serve as master of ceremonies for the event, which is being sponsored by the Midland Downtown Lions Club. More information can be obtained by calling Lion C.E. McCain at 688-0381.

Cancer victim happier with electronic voice box

(Continued from Page 1C) "We don't have neutrons, so we don't make things radioactive," he said. "We don't make the patient radioactive, or the patient's room radioactive. We still have side effects, but they aren't as intense." In treating skin cancer, which usually is treated with surgery unless a deformity would result, Svenson said redness of the skin, or a "sunburn affect" occurs with radiation. Diarrhea also is common following radiation. Dryness of the mouth is a permanent side effect of treatments for cancer of the vocal chords. Excessive radiation on the back of the neck can cause paralysis, to the bones can cause them to slow in growth, to muscles and tissues can cause them to break down and excessive amounts of radiation to certain organs, such as the liver and kidney, can cause them to fail. The line is drawn at 20 percent, meaning if there is a one out of five chance cancer will return, the

patient is treated with radiation, he said. Surgery and cellular implants, which are inserted in the body for a period of a few days, sometimes are combined with radiation treatments for cancers of certain parts of the body. Although a cancer may be arrested with radiation, the effects to the patient may outweigh the dangers of cancer, according to Svenson. "If improvement starts to raise complications, we have to ask if it's really worthwhile," Svenson said. "We try to treat the patient, rather than the X-ray." Radiation is between the two (surgery and chemotherapy, which is the treating of cancer with drugs). The philosophy is we cover larger areas than a surgeon would want to remove but we normally don't treat the whole body like chemotherapy would do. "In a way, it becomes a game of chance," Svenson said. "But that's basically what cancer is."

Krueger will speak at justices' seminar

(Continued from Page 1C) —Major Ira Dees, commander of the Texas Department of Public Safety's 49-county Region IV, at 9:30 a.m. Friday. DPS Capt. Winford Kelley will explain new Texas legislation affecting commercial vehicles, and DPS Capt. Julian Whitley will talk about the state's new driver's license laws. —Game Warden Terry Lloyd of the Texas Department of Parks & Wildlife, at 10:15 a.m. Friday. —Scott Smith of the Texas Justice Court Training Center at San Marcos, at 11 a.m. Friday. —Tom Bullington of the Governor's Office and formerly with the Texas Attorney General's Office, and Assistant Attorney General Gary Bledsoe, at 11:15 a.m. Friday. —George Irish, publisher of The

Midland Reporter-Telegram, at 7:15 p.m. Friday in the Midland Center. —Capt. Maurice Cook of the Texas Rangers, at 9 a.m. Saturday. —Justice of the Peace Phil Woodall of Amarillo, at 9:45 a.m. Saturday. —Bob Krueger, 7 p.m. Saturday in the Midland Hilton. Justices of the peace and constables may participate in a golf tournament Friday afternoon and in a skeet-and-trap shoot Saturday afternoon, Sprayberry said. Justice of the Peace E.J. Hall of Canyon is president of the association, which includes both justices and constables. Among other business, the justices and constables are to consider changing the name of the group to its former title: West Texas Justices of the Peace and Constables Association.

Odessan pleads for mercy in drug case

An Odessa carpenter who said he is shunning drugs, is no longer associating "with my past cohorts," and is reading the Bible pleaded for mercy, as he stood before U.S. District Judge Lucius D. Bunton for sentencing Tuesday. "I know I've done wrong in the past," said the 29-year-old carpenter, Bryce Aldon Frazier, "and I'll try to do right in the future." Frazier pleaded guilty Sept. 12 to selling amphetamines to an undercover agent last May 12. He could have been sentenced up to five years in prison and fined \$15,000. Instead, Bunton sentenced Frazier to one year in prison, ordered him to undergo treatment for drug abuse while in the federal corrections institution in Fort Worth and said he would be on special parole for five years following the serving of the sentence. Bunton noted that Frazier has had some

"pretty serious" drug-related problems. "Anybody who uses drugs has to be completely selfish — not thinking of his wife, parents or anything else...I do think you need treatment," the judge said. "You're reading the Bible — no better direction is to be found." To help him recover from his drug dependency, Bunton nevertheless ordered Frazier to undergo drug treatments. "This time next year, you'll be building houses around here," Bunton said. "I certainly hope so." His court-appointed attorney, Tom McCall, had noted that Frazier "has the love and support of his wife." "He has taken an interest in reading the Bible," McCall said. "I think he has taken an interest in the Lord. He wants to do what is right...and doesn't want to continue being a burden to society."

U.S. FOOTBALL FORECAST -WEEKLY-

Featuring: *Wilmer's Winners*

Available at the following fine Advertisers FREE Every Thursday.
