STATE WINS TITLE TO OIL LAND

AUSTIN, Aug. 14 (AP)—The state today won title to 103 acres of land in the Tom Ball oil field in Harris county, valued at approximately $500,000, when District Judge J. D. Moore ruled the land was vacant, unsurveyed public free school land.

YOUTH HELD FOR SHOOTING SISTERS

WAUSAU, Wis., Aug. 14 (AP—Twelve-year-old Frederick Scheiderer, who last night shot and fatally wounded one sister, Louise, 16, and wounded another, Marie, 11, was held in jail today while physicians strove to save Marie's life.

TIME LIMIT ON CROP LOANS EXTENDED

WASHINGTON, Aug. 14 (AP)—The Farm Credit administration announced today extension until Sept. 15 of the time limit on crop loans in drouth areas.

AT LEAST ONE MINER TRAPPED

McALESTER, Okla., Aug. 14 (AP)—At least one miner was known to have been trapped in the number 9 mine of the Dow Coal company at Dow this morning. First word of the mishap carried no details, except that the miner, Charles Conners, was believed to have been at the bottom of the shaft.

Several Jurors Are Threatened

LETTERS RECEIVED BY MEN WHO TRIED TWO TEXAS OUTLAWS

(By The Associated Press)

CENTERVILLE, Aug. 14—Threatening notes have been received by a number of the jurors who sentenced Raymond Hamilton and Joe Palmer to death at their trials for murder in connection with the prison break slaying of Major Crowson, a guard at Eastham state prison farm.

This was revealed today by Max Rogers, district attorney who headed the prosecution of both Hamilton and Palmer. Rogers said he received three such notes but was inclined to disregard them.

Friends Are Blamed

Four jurors who tried Hamilton, slippery young bank bandit, at Huntsville, informed Rogers menacing notes came to them through the mails the last few weeks. Hamilton was convicted June 13 and Rogers believes the notes were sent by some of his outlaw friends.

Similar notes went to two of the jurors who served in Palmer's trial at Anderson, Grimes county, and convicted him June 29.

Some of the missives were signed with initials, apparently fictitious, and the others were unsigned. The notes were mailed from Houston and Dallas, Rogers said.

The district attorney advised worried jurors who told him of the notes to pay no attention to them. No special precautions were taken to protect the threatened men in the event the senders actually contemplated violence.

Reprisals Not Given

Rogers said the notes did not reveal just what reprisals were contemplated but most of them included the statement that "you haven't heard the last of this."

Major Crowson was shot to death last Jan. 16 when Hamilton, Palmer and other desperate inmates obtained firearms that had been left for them under a culvert, and, with the aid of the late Clyde Barrow, shot their way out of Eastham state prison farm. Barrow opened fire on guards with a machine gun and the fleeing convicts used their pistols.

Girl Aids Mother Who Burned Her

SAN DIEGO, Calif., Aug. 14. (AP)—A mother who punished her six-year old daughter with fire was free today because of the intercession of the child.

"I love my mommy," little Nora Ruth Niciforos told Justice Eugene Daney, jr. "I was a bad, bad girl, and picked things up after she told me not to. She never was mean to me before."

And because of her daughter's plea, the court released Mrs. Milana Niciforos, who admitted holding the little girl's fingers over gas flames as a punishment, with a 30-day suspended jail sentence.

The girl's fingers were severely burned.

Texas Officers To Return Joe Palmer

PADUCAH, Ky., Aug. 14 (AP) — Texas officers were on their way today to take charge of Joe Palmer, southwestern desperado captured Saturday, and return him to the Huntsville prison. He escaped from the Huntsville death house July 22.

Confronted with records which police said proved his identity, Palmer broke the silence he had maintained since his arrest and said: "I'm Palmer. I only got thirty days to live, so I might as well talk."

SPIKE TALK OF INFLATION

TREASURY CHEERED AS BETTER PRICES PAID FOR U. S. BONDS

(By The Associated Press)

WASHINGTON, Aug. 14—Better prices for government bonds cheered treasury officials today as they threw cold water on talk of inflation.

They also disclosed that the treasury bought $45,098,100 in government bonds last week, in addition to $22,000,000 Home Owners Loan corporation bonds previously announced.

Whether this was a move to support the United States bond market, which registered lower prices after the government moved to nationalize silver, was not stated. There apparently was no market for the securities at prices which the treasury considered suitable.

Financing Necessary

Faced with the task of borrowing $1,700,000,000 next month for refinancing, the treasury men saw with satisfaction that bond prices strengthened yesterday. A couple hours after the close of the market Secretary Morgenthau emphasized again that there is no present plan to issue as much silver-backed currency as the law permits.

He called newspapermen and sought to clarify the silver policy by making public correspondence between himself and the president, in which the latter authorized the issuance of certificates. The letters confirmed previous statements from the treasury.

They showed with the exception of 62,000,000 ounces, the present intention is to issue certificates on the cost price of the silver, not the statutory price of $1.29 an ounce. The cost to the treasury for nationalized silver has been set at 50.01 cents an ounce.

Heroism Of Woman Saves Many Lives

CORK, Irish Free State, Aug. 14 (AP)—A woman's heroism was credited today with saving many lives in savage fighting yesterday between 5,000 farmers, enraged by a tax sale, and 300 civil guards.

Mrs. Eamonn O'Neill, wife of a member of the Dail, rushed between the combatants, risking her life in heavy gunfire, and pleaded with them to stop. Both farmers and officers ceased shooting, fearing they would hit her.

The woman then helped Jeremiah Lynch, critically-wounded farmer, outside a yard where the battle took place. Lynch later died. More than 100 others were injured.

MRS. SALSBERRY AND LOVER PLEAD GUILTY TO MURDER, ARSON

(By The Associated Press)

CENTERVILLE, Aug. 14—Horrible details of the murder plot conceived by Mrs. Charles Salsberry and the man with whom she admittedly carried on an illicit romance were bared today at examining trials of the unlettered farm couple when they pleaded guilty to charges of murder and arson in connection with the slaying of the woman's husband.

District Judge John H. Adkisson ordered the frail, blue-eyed woman and Ibb Bass, 22, her lover, held for action of the grand jury and denied them bond.

Scheme Is Detailed

A statement by Mrs. Salsberry, 23, revealed the cold-blooded slaying scheme in all its gruesome ramifications. She told how she and Bass, after 14 months of surreptious love making, decided to "get rid" of the 28-year-old husband.

Bass, who lives on a farm near Centerville, went to the town of Jewett and bought poison, the statement related. He brought the poison back and met the woman in a pasture. Sitting beside a spring, they carefully laid their plans to to how they were going to kill Salsberry.

They decided, the statement said, to poison the husband and set fire to his home. Mrs. Salsberry was to run to the neighbors and say a lamp had exploded. The Salsberrys were living in a part of an old school building and had been receiving aid from relief agencies.

The slaying scheme was decided upon Saturday, Aug. 4, and carried out the night of Aug. 8. Salsberry, not feeling well, had lain down on a bed. He asked for medicine. Mrs. Salsberry took a quinine capsule, the statement revealed, and filled

FIFTEEN MORE ON TRIAL IN PUTSCH

VIENNA, Aug. 14 (AP) — Fifteen more Nazis were marched into a courtroom today to be tried for treason, a grim procedure which has left eight of their fellows dangling on the gallows.

They are accused of participation in the seizure of a radio station and the chancellery July 25 in an uprising which resulted in the assassination of Chancellor Dollfuss. More than 100 other Nazis are awaiting their turns to go on trial here.

Austria's hangman, although he is having a busy season, observes the formalities. Not even the weather interferes.

He wore faultless evening dress and a high silk hat when he executed four policemen last night, a few hours after they were convicted of participation in the Nazi revolt. A steady rain fell as the four went to their deaths in the yard of the district court building.

They went through the ordeal stoically, rejecting the opportunity to make a final statement.

Betrayer Of Clyde And Bonnie Freed

AUSTIN, Aug. 14. (AP)—For lending information that led to the slaying of Clyde Barrow and Bonnie Parker, the southwest's worst outlaw couple, Henry Methvin, their former crime companion, is free from a Texas prison sentence.

Governor Miriam A. Ferguson, who granted the conditional pardon to Methvin on recommendation of Lee Simmons, general manager of the prison system, and Frank Hamer, former Texas ranger captain, who plotted the death of the couple, planned to issue a formal proclamation today.

U. S. SEEKING TO CURB GANGS' USE OF MACHINE GUNS

WASHINGTON, Aug. 14. (AP)—The government sought today to stop free circulation of the gangsters' favorite tool—the machine gun.

If a person possesses a machine gun after next month he'll have to register it with the commissioner of internal revenue.

If he wants to get one after Sept. 24, he'll have to get an order from the commission, be fingerprinted and pay a price boosted by a sales tax of $200.

The bureau of internal revenue worked to draw up regulations applying the law aimed to keep machine guns, sawed-off shotguns and silencers for such weapons out of circulation.

Pistols aren't included, although proponents of the measure in the last congress urged that a curb on them was of vastly greater importance than machine-gun regulation.

Transfers must be accompanied by internal revenue stamps showing the payment of tax. It is made unlawful to remove serial numbers or other numerals or letters registered as marks identifying a weapon's ownership.

FULL SUPPORT GIVEN PLEA

RELIEF FOR COUNTIES OF PANHANDLE, SOUTH PLAINS IS URGED

(By The Associated Press)

AUSTIN, Aug. 14.—Twenty-three Panhandle and South Plains counties, parched by a three-year drouth, have the full support of the Texas Relief commission in their quest for an emergency relief program promised a year ago.

The commission adopted a resolution urging Harry L. Hopkins, federal relief administrator, to proceed at once with a special road construction program which he promised last year. An amended agreement, made last May, provided an immediate grant of $750,000 and monthly remittances of $400,000 for labor to be used in conjunction with materials purchased by a PWA grant of $2,670,000.

Slow Progress Reported

J. H. Baugh, projects engineer for the relief commission, said the grant had been allocated and work started in most of the counties. Progress has been slow, however, because of lack of funds for labor.

Houston Harte of San Angelo, member of the commission, asserted the program was based on relief needs of a year ago, "and it hasn't rained yet."

Bids of four cities were rejected as the commission decided to retain its state headquarters at Austin.

Adam Johnson, state director, was authorized to investigate charges that politics dominated administration of relief in Bexar county but he did not plan immediate action.

PROBLEMS ARE CONSIDERED AT CONFAB

TWO HUNDRED PERSONS FROM FIVE STATES IN ATTENDANCE

Approximately 200 hatcherymen, poultry fanciers and others interested in the poultry industry from 50 cities in Texas and four other states gathered at Hotel Lubbock this morning in the opening session of the eleventh annual convention of the Texas Baby Chick association.

Problems of the industry pertaining to better quality products, a state egg-grading law, uniform electric rates and other questions are to be discussed in the sessions which continue through Thursday.

Registration Brisk

Registration was continuing at a brisk pace this morning and indications were that total attendance will be near the 500 mark by Wednesday.

Delegates were registered from Texas, New Mexico, Oklahoma, Louisiana, and Missouri.

The program offers discussions equal to a national poultry meeting, and many of the leading poultry authorities of the nation, including the president of the International Baby Chick association and experts from the Agricultural Adjustment administration at Washington, are in attendance.

The convention opened at 9:30 after group singing and invocation by Dr. Jack M. Lewis, pastor of the First Presbyterian church.

Knapp Welcomes Visitors

Dr. Bradford Knapp, president of Texas Technological college, welcomed the visitors, pointing out the phenominal growth of this section and citing its position as a poultry shipping center.

A. H. Demke of Stephenville, president of the association, responded and delivered the president's annual address in which he declared "it is high time that we enter upon a planned program of marketing our poultry products in Texas."

"It is to be regretted that we have no egg-grading law in this state," he continued. "We have no Texas standard. In the markets of the east, to say that an egg came from Texas, is to brand it as an inferior article. It is true that many

Saar Region Asks Additional Troops

GENEVA, Aug. 14 (AP) — The governing commission of the Saar region—where a plebiscite will be held in January to determine whether it shall become French or German territory or remain under the control of the League of Nations—today informed the league it needs at least 2,000 additional foreign police to maintain order.

The commission requested that the president of the league council approach various countries, one of which it was presumed would be Switzerland, on the subject of furnishing additional police.

ALLEN WILL CALL SPECIAL SESSION IN ATTEMPT TO IMPEACH WALMSLEY

(By The Associated Press)

BATON ROUGE, La., Aug. 14—Governor O. K. Allen announced this morning that he would issue a call for a special session of the legislature at 2 o'clock this afternoon. He did not say when the session would convene.

When asked what matters the legislature would consider, the governor said:

"I'm still working that out. I will announce it all at 2 o'clock."

It was reliably reported that it was planned to call a five-day session, which would be extended, if necessary.

Governor Allen made his announcement after conferring with Senator Huey P. Long, Attorney-General Gaston L. Porterie and Secretary of State E. A. Conway.

The legislature will take action, it was reported, to impeach Mayor T. Semmes Walmsley of New Orleans, with whom Senator Long is contesting political control of the city.

Picked members of the legislature drifted into Baton Rouge for the anticipated session, reputedly intended to give Senator Long's forces impeachment and police powers in the state's largest city.

Troops remained on duty in the state-controlled voters' registration office in New Orleans while the courts planned to take up injunction or contempt charges filed against Long and his military leaders for continuing the occupation.

FDR Will Draft Drouth Aid Plan

PRESIDENT WILL GIVE FUTURE RELIEF POLICY; CRITICS OF AAA PROGRAM TO BE ANSWERED

(By The Associated Press)

WASHINGTON, Aug. 14.—President Roosevelt is expected to lay before the country in the next few days a statement of future policy on drouth and farm relief.

There are indications that it may include an answer to critics of the AAA's crop reduction, some of whom have been stressing drouth devastation to emphasize what they call the "sin" of artificial slashing of food supplies.

Criticism Answered

AAA officials have been touring the country, answering this criticism. They told farmers that human control was necessary to curtail overproduction that depressed prices, to restore farm purchasing power, and thus to bring the national economy into better balance.

Secretary Wallace stressed yesterday that, though AAA sought large cuts in production before the drouth came along and slashed crops indiscriminately, the aim of "control" is not necessarily smaller crops.

"We always contemplated a program which was one of adjustment," he said. "It is not exclusively one of either reduction or increase in acreage. You'll find I'm on record—back in May—on that."

A rise in the general cost of living, but especially foodstuffs, is considered likely this winter and the government is pushing preparations for its anti-profiteering campaign with war-time fervor. Secretary Wallace said he felt the cost of living would not rise more than six or seven per cent, although the price of food would probably go beyond that.

HOUSING PLAN TAKES FORM

EXPECT LOANS TO BE AVAILABLE IN EVERY CITY BY NIGHTFALL

(By The Associated Press)

WASHINGTON, Aug. 14.—By nightfall the Federal Housing administration expects every city to have at least one bank where property owners can obtain insured loans for repairs and improvements.

Roger Steffan, director of modernization credits, said so today as telegrams from bankers piled high upon his desk.

Willingness Reported

His chief—James A. Moffett—backed him up with an optimistic statement about bankers' willingness to make such loans.

"Enough banks already have accepted the loan insurance plan," Moffett said, "to handle more business than we can send them immediately. The response of the bankers has been fine. They may not come in 100 per cent but that isn't necessary and we never expected it."

The housing administration announced the names of bankers selected in cooperation with the American Bankers' association to advise and inform financial institutions in each state on the modernization program.

Conferences Planned

Moffett and Steffan looked forward to conferences here later today with some of the members of this group.

Steffan explained the administration wanted every eligible financial institution to participate in the lending, but that one co-operating bank in every community would assure success. He said applications were taken by some banks Saturday and some loans probably have been made by now.

Bankers appointed as "liaison officers" to disseminate information and advise the banks in their states included A. D. Simpson, Houston, Texas.

Oklahoman Is Held In Alleged Swindle

A young Oklahoman, who had gained possession of a $250 check on the Tahoka independent school district, was arrested in Citizens National bank this morning as he sought to cash the check.

The check originally was presented to the bank Aug. 9. He left it there for collection and was to reappear yesterday for the money. The sheriff's department was notified.

When the bank opened this morning, the man was there. He was told to return at 10:30 o'clock. When he came back Deputy Sheriffs Bedford Carpenter and Baxter Honey arrested him.

The check was mailed July 16 to a school supply company in Oklahoma City. How the young man came to possess it was not known.

BALLOTS SENT TO VOTERS

EXECUTIVE COMMITTEE APPROVES TICKET; DEADLINE SET

Seventy-seven ballots for absentee voting were mailed from the county clerk's office at noon today. At that time, no one had voted.

Democratic executive committee met at the courthouse late Monday and approved the ballot. An innovation made by the committee was to list various voting precincts in which residents will cast votes in precinct races.

Deadline Is Set

August 22 will be closing date for personal balloting and August 23 the last date for balloting by mail, said James H. Goodman, county chairman. He emphasized that poll tax receipts of exemption receipts must be presented.

The ballot:

Farm Youth Averts Train Catastrophe

LINDSAY, Ont., Aug. 14 (AP)—A farm youth going about his chores prevented what probably would have been a serious wreck on the Canadian National railway line at Uxbridge last night.

J. W. Forsuth, 18, had started for the cows in a back pasture when he saw a tree two feet in diameter lying across the rails. He heard the train whistle and then saw its headlights.

Forsythe dashed up the tracks, waving his hands frantically. The engineer pulled to a stop within 50 feet of the tree.

Guard Must Serve Fifteen-Year Term

HUNTSVILLE, Aug. 14. (AP)—James A. (Boss) Patterson, who until a few days ago was a guard in the Texas prison here, was back behind the walls today—stripped of his authority and wearing the number and denim of a prisoner.

Fifteen years' imprisonment was assessed against the former guard after his trial on three charges of aiding Raymond Hamilton, Joe Palmer and Irvin (Blackie) Thompson, the southwest's three most feared killers, to escape from the death house July 22.

FORECASTERS SEE HOPE OF MORE RAIN

SIX STATES AIDED BY WEEK-END FALLS IN ARID SECTIONS

(By The Associated Press)

CHICAGO, Aug. 14—The drouth's long siege appears to be lifting. Six agricultural states benefitted by rain which fell over the week-end and forecasters said precipitation should come more frequently during the rest of the season.

Rains proved of the greatest value where water shortages existed—coming too late, generally, to pour life back into the principal crops. Late crops, roughage for feed and pastures were stimulated and would be revived greatly by additional moisture.

Showers Promised

Showers were promised today for parts of Illinois, Michigan, Wisconsin, Iowa, Minnesota, North Dakota and South Dakota.

In Kansas and Nebraska, hotbed of the nation, the forecast was for weather somewhat unsettled and continued warm. Parts of blistered Kansas were drenched with week-end rains, however, giving late garden crops another chance to live.

Heavy rain helped corn in Nebraska, won the thanks of farmers in Oklahoma and Illinois. In Missouri, scattered showers drove down the temperature for the first time since late June, but grain crops were reported virtually past aid.

LOCAL FUGITIVES EVADE OFFICERS

MORA, N. M., Aug. 14 (AP) —Unless some trace of Ed (Perchmouth) Stanton and Willie Doupe, escaped Lubbock, Texas, prisoners, is found today, a search for the pair in the Sangre de Cristo mountains near here will be abandoned, officers said.

A party of eight men left here at 8 o'clock this morning and were to search the mountainous country due west of here.

An all day search yesterday by a party of nearly 20 officers from three New Mexico counties failed to reveal any trace of the fugatives.

Von Papen Leaves For Austrian Post

BERLIN, Aug. 14 (AP)—Franz von Papen, departed today on his long-heralded mission of special envoy to Austria.

The vice chancellor—he has not yet officially been removed from that post—declined an opportunity to make a farewell speech through the microphone of a news reel camera but he stated briefly to the Associated Press:

"I will see the leader (Hitler) at Berchetesgaden before I continue on to Austria."

Suspect Held For Tolar Bank Holdup

GRANBURY, Aug. 14 (AP) — Stine Weatherred as held in jail here today on an indictment charging him with robbery of the Tolar bank July 16.

Johnson county officers arrested him yesterday as he sat in an automobile at the Rio Vista school grounds. With him was Wade Wells, 19, of Fort Worth. Weatherred, 26, lived in Cleburne.

Both Weatherred and Wells have been charged with carrying firearms. Two pistols and a sawed-off shotgun were found by the arresting officers.

Miss Winter Given Birthday Courtesy

A birthday dinner honoring Miss Elizabeth Winter was given by Mrs. Theo Winter, mother of the honoree, at the Winter home, 1520 Avenue Q, Monday evening.

A three-course meal was served. The table was attractively set with a yellow cloth and green dishes.

Guests were Misses Louise Howard and Vivian Rodgers and Messrs. Donald Chapman, Chalmer Abbott and Jimmy Cobb.

Baptist Class Gives Party Monday

Members of Miss Thelma Hughes' class of the Central Baptist church entertained with a handkerchief shower for Miss Grace Nall at the home of the teacher, 1812 Seventh street, Monday evening. Games were played. Refreshments were served.

Those present were Misses Nall, Beurene Vickery, Violet Stephens, Helen Roberts, Eva Mae Early, Myrtle Standefer of Lamesa, Billie Carroll Mitchell of San Saba, Mrs. G. Early and Mrs. J. F. Higgins.

WOOL FIRST FOR STYLE

Wool is more important than silk this fall. Couturiers are using it for every type of costume, including evening dresses. One smart evening ensemble has a long white satin skirt and a separate top of knitted wool that slips on over the head—sweater fashion. Another evening gown is of very sheer wool in a dull shade of gold.

There were about 12 members attending.

Lesson From Bible Is Given Baptists

Mrs. Lillie V. Pendley led the devotional at a meeting of the Central Baptist Women's Missionary society Monday afternoon at the church. In the absence of the teacher, Mrs. J. D. Welsh, Mrs. A. R. Pendley taught a Bible lesson from the twelfth chapter of Hebrew.

Mrs. E. R. Morris was received as a new member. Mrs. Walter Martin and Miss Rozelle Pendley were visitors. There were 17 persons attending.

ALLRED FLAYS TOM HUNTER

ATTORNEY GENERAL IS HEARD BY CROWD OF TWO THOUSAND HERE

Challenges were accepted and others were hurled here Monday afternoon by James V. Allred, who pictured his opponent in the governor's race, Tom F. Hunter, as an "oil man with visions of power."

Before a crowd of more than 2,000 South Plains residents at the Auditorium, the fiery attorney general methodically met with humor and blistering sarcasm each issue raised by Hunter in a speech here last week.

County Democratic Chairman James H. Goodman presided; the speaker was presented by George R. Bean, dean of South Plains attorneys.

"Tom Hunter has promised C. C. McDonald and Jim Ferguson that he will support Ferguson for national committeeman from Texas, in part consideration for their support of Hunter's candidacy," Allred charged.

Denison In Background

Allred said he foresaw Frank Denison, former highway commissioner, as the next member of the highway department, if Hunter were elected.

"We thought we buried Fergusonism in the first primary, but when Tom Hunter solicited the support of J. E. Ferguson and C. C. McDonald he kept it a live issue in Texas," Allred said.

McDonald Was Third

McDonald, campaigning with the Ferguson blessing, placed third in the first primary.

Here are a few Allred barbs:

"Everybody knows that the only way Hunter could have gotten Ferguson's support was either to pay for it in advance, or to promise to pay for it by appointments after the election.

"In endorsing Hunter, Ferguson said that Jimmie Allred was only a boy. This boy is is old enough to run for office in his own name—something Jim Ferguson cannot do.

"This boy has been to the supreme court three times with Jim Ferguson and has been successful in every instance.

Insists On Answer

"Mr. Hunter, I challenge you to say how you stand on James E. Ferguson for national committeeman. I insist that you answer this question 'yes' or 'no' rather than to evade as you have done with reference to the sales tax, with reference to the repeal of the race track gambling law, and on the liquor question.

"Jim Ferguson called him, 'Tom, the missing link, the man who makes you think man sprang from monkeys,' and next week Ferguson asks you to vote for that man.

"This oil man has a trot line to catch every kind of sucker from a minnow to a mukelunge. He's using artificial lure with a hidden hook.

Homesteads Exempt

"Ninety per cent of farmers and home owners already have all the ad valorem tax off their homes by the homestead exemption.

"Ask somebody in Terry county about his word; ask what a jury did when he was under oath to tell the truth.

"What is a blended tax? If you get Tom Hunter from his publicity man, I bet you he can't tell you what a blended tax is. There's more tax than there is blend in Tom's program.

"T. F. Hunter started out for a general sales tax, and he changed it to a blended tax when he found the people wouldn't stand for it."

Letter Is Read

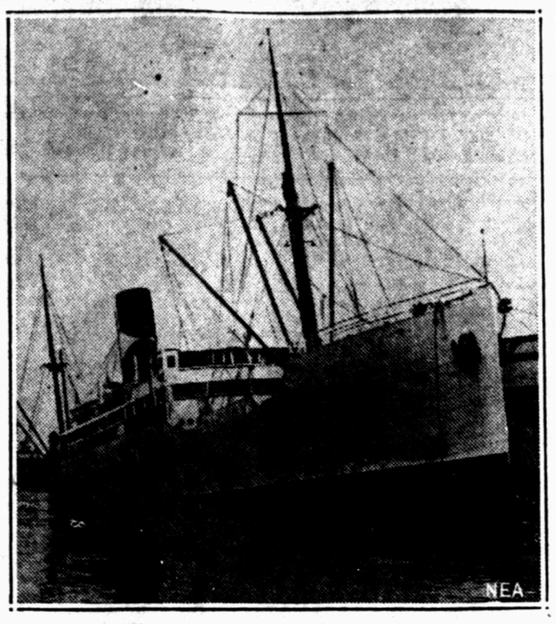

Allred read a letter on Hunter's stationary and over the latter's signature in which the sales tax was advocated.

"Tom, you've been cussing the chain stores a lot. I charge you, while a candidate for governor, that you took a contribution from a chain store—if you deny it I'll prove it over your signature.

Hunter has advocated a governor's cabinet. Allred envisioned as cabinet members McDonald, Ferguson as finance minister, Denison as highways minister, S. W. Adams (former Gladewater publisher) as minister of propaganda, Jake Wolters as minister of war, T. H. McGregor as minister of monopolies, and Chas. I. Francis as minister of oil and the interior. McGregor and Francis are attorneys representing oil companies, Allred said. Wolters is national gaurd commander in Texas.

"If we'll get the facts before the people of Texas, by the eternal gods, he won't get as many votes in the second primary as he did in the first," he said in conclusion.

Freighter Founders After Fire

When the freighter Atenas caught fire shortly before she was to sail from New York, waterfront apparatus extinguished the $500,000 blaze after a six-hour battle. But so much water was poured into the holl that the ship sank by the stern, as pictured here.

OLD SETTLERS ARE INVITED HERE FOR ANNUAL MEETING OF PIONEER GROUP

Old settlers of Lubbock and the South Plains and their families are invited to attend an annual meeting of the Lubbock County Pioneer's association in Shannon park Thursday afternoon, George R. Bean, in charge of arrangements, has announced.

"We mean by 'old timers' those who were on the South Plains prior to and including 1900," he said. "We want the families of those old timers who have gone, to feel welcome too.

"Everybody is to bring enough for themselves and their friends for the basket picnic, which will begin about 5 or 6 o'clock."

The program will be informal, Mr. Bean said. It will start at 2:30. No scheduled speeches are planned.

Former early day residents from as far away as Abilene, Sweetwater, Amarillo and other points have indicated their intentions of coming, Mr. Bean said.

D. E. Meredith is president and and Mrs. P. B. Penney is secretary-treasurer.

DEAF MUTES ARE AT POST PICNIC

(Special To The Journal)

POST, Aug. 14. — Fifty-six deaf mutes from all over West Texas, together with 20 others who could hear and speak, attended an all-day picnic at Two Draw lake here Sunday. Many of those who came brought their children with them.

The day was spent in recalling school days, as many of those present had attended state schools for the deaf. A basket picnic was held, with local people contributing toward refreshments.

Warren drug store furnished about 125 cups of custard ice cream and T. L. Jones furnished ice tea and ice water.

It was decided to meet next summer in Lubbock.

Those present included: Mr. and Mrs. Robert Smith, Amarillo; Mr. and Mrs. Avoice McCallon, Sam Barnes, McCauley; Miss Lettie Pendergrass, Meadow; Clarence Offill, Lawn; Miss Minnie Hood, Abilene; Miss Claudie Lawler, Tahoka; Gilbert Ragsdale, Midland; H. Smith, Midland; Mr. and Mrs. Carl Howell, Olton; John Wren, Clyde; W. H. Roy, Roscoe; Miss Dot Woolbridge, Abernathy; Mr. and Mrs. Earl Maddox, Mr. and Mrs. Roy Ridding, Ned McClintock, Littlefield; David Barrington, Hale Center; Louis Allen, Hamlin; John Howard, Old Glory; Bonnie White, Rochester; Mr. and Mrs. Calvert Pittman, Mr. and Mrs. Calvin Pittman, Drew Emerson, Haskell; W. FOREST FIRES KILL THREE

EXHAUSTED CREWS IN TWO STATES BEING DRIVEN BACK

SPOKANE, Wash., Aug. 14. (AP)—Roaring forest fires drove back exhausted crews in Idaho and California today after killing three CCC workers.

The worst northern Idaho fire since the 1910 conflagration that wiped out entire towns took the lives of two young men identified as Leroy McGinnis of Kewanee, Ill., and Lester Johnson of Galesburg, Ill.

William Mattison, 21, of Los Angeles was killed while fighting flames near Nevada City, Calif.

Each Is Crushed

Falling snags, charred and weakened by flames, crushed each of the trio. Their's were the first deaths this year in blazes which have raged through western forests and drawn heavily on CCC camps for fire fighters.

McGinnis and Johnson were killed in the Selway national forest, center of the flame-swept northern Idaho area where 4,000 men fought futilely to control four major blazes and innumerable spot fires. Smoke was so dense that aerial surveys became impossible and attempts to move men and supplies into isolated fire centers by plane were abandoned.

New Blaze Reported

Areas burned over by major Idaho fires were unestimated. A new blaze in the Clearwater forest, near Selway, covered about 1,500 acres on Pot mountain.

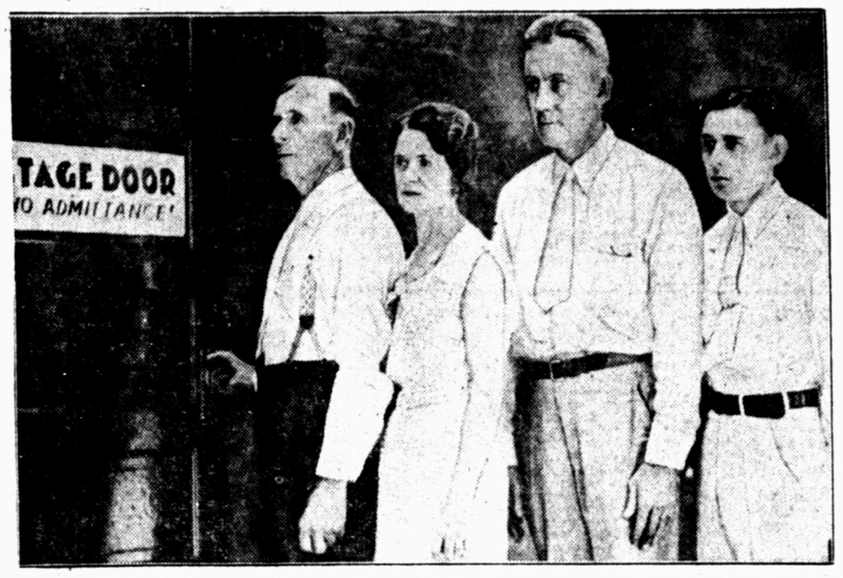

Elsewhere in the west, with the exception of British Columbia where foresters abandoned their efforts, blazes were reported under control or of negligible proportions. When British Columbia fire fronts advanced toward the boundary, Americans were sent across the line to keep flames out of United States timber.

SCHACHT, GERMAN ECONOMIC LEADER, TAKES STUMP IN BEHALF OF HITLER

BERLIN, Aug. 4 (AP)—Dr. Hjalmar Schacht, Germany's economic dictator, joined today the whirlwind campaign to make Adolf Hitler the country's new "von Hindenburg."

"If we want to overcome present difficulties—as we will," said Schacht, "we can do so only under Hitler's leadership."

Lieutenants On Stump

Trusted Hitler lieutenants are on the stump in a drive for Nazi self-justification. Germany votes Sunday on the question of approval of Hitler's seizure of the late President von Hindenburg's powers.

Unlike other speakers, Schacht, who recently was appointed acting minister of economics and who is virtually boss of reich finance and economics, frankly admitted Germany's woes.

In an appeal to the people written especially for the Boersen Zeitung, he said:

"Everybody knows what difficulties we face and it would be ridiculous to attempt to minimize these. But there is only one way of overcoming these, and that is by supporting the determined policy of der fuehrer (Hitler)."

That all is not yet well with the Nazi storm troops, whose ranks were "purged" in the June 30 revolution, was indicated by Viktor Lutze, their chief of staff, in an interview.

No definite orders for storm trooper assistance in the plebiscite have been or will be given by the "supreme command," he said, expressing the hope that "after the restoration of the old relationship of confidence the storm troops would become Hitler's most reliable helpers."

Judd Is Host For Newspaper Group

About 50 persons, employes of the Avalanche-Journal and their families, were guests of A. Judd, owner of a soft water irrigation farm on highway No. 7, southeast of town, last night.

Mr. Judd served home grown watermelons, cantaloupes and grapes, all from his farm. A huge table was spread in the store house and bountiful supplies of mellons were provided. Mr. Judd's granddaughters assisted in serving.

This is an annual treat of Mr. Judd to employes of the newspaper. He has been here about nine years and remembers the staff of the paper each year. A bushel of melons was sent employes unable to leave the office.

BRITISH BREWING UP

LONDON (AP)—British brewing is on the increase, official figures showing that 5,283,000 bulk barrels of beer were brewed in the three months ending June 30, an increase of 56,000 barrels over the same period last year.

Portable typewriters have been classified as musical instruments by the British Railways' Freight Association.

Lamesa Banker Is Relieved Of Duties

LAMESA, Aug. 14 (Special)—O. B. Norman, active vice-president of the Lamesa National bank, was relieved of his duties as the executive officer of the bank, at his own request, because of ill health. Mr. Norman has gone to Llano where he hopes to recover his health. Previously he was in Corpus Christi.

C. A. Hollingsworth was selected by the directors of the institution to work with them during the absence of Mr. Norman, in handling the bank affairs. Carl Rountree, local attorney, was named to the board succeeding Mr. Norman.

An Enterprising Young Merchant--

NEWSPAPERS are an important factor in the progress of the world, supplying all of the news from at home and abroad to every interested person at a negligible cost. The service which they render has come to be taken more or less for granted, but there is one factor that is deserving of your attention and consideration.

The carrier boy who delivers your newspaper daily, regardless of weather or other interfering forces, is the principal link between the publisher and the reader. It is through his enterprise and industry that you are able to enjoy the convenient service that characterizes newspaper delivery.

This young man in most cases is not a newspaper employee. He is an independent young merchant, buying and paying for his papers by the week and selling them on a weekly credit basis to his customers. His profits for the service that he renders are small, yet many of these boys, by thrifty management, are paying their way through school with their earnings and at the same time putting something away for the future.

Encourage your carrier boy in the thrifty habit which he is forming by paying him regularly for the service that he is rendering you.

YANKEES FACE TIGERS FOR FIVE TILTS

CRUCIAL SERIES MAY GO FAR IN SETTLING PENNANT RACE

NEW YORK, Aug. 14 (AP)—Within reach of an American league pennant for the first time in 25 years, Mickey Cochrane's Detroit Tigers came to town today for a five-game series with the New York Yankees that may go far toward settling the flag race.

The Tigers brought with them a 12-game winning streak, longest in either major loop this year. The series, crucial mostly to the second place Yankees, opened with a double-header in the Yankee stadium this afternoon.

Four And Half Games Up

Four and a half games in front, getting great pitching from Lynwood (Schoolboy) Rowe, Tommy Bridges, Eldon Auker and Fred Marberry, deadly hitting from Charley Gehringer, Goose Goslin, Hank Greenberg, Billy Rogell, Marvin Owen and Cochrane himself and a fair share of the "breaks," the Tigers thus were confronted with a fine opportunity to pull so far out in front that pursuit would be all but out of the question.

The Yankees, in a precarious position, needed to win all five games to regain the lead. Broadway betting commissioners offered 9 to 10 and take your choice on the series but quoted the Yankees as favorites for today's first game.

Joe McCarthy planned to send Vernon (Lefty) Gomez and Charley (The Red) Ruffing against the Tigers today. Their rivals, if Cochrane stands pat on his announced selections, were to be Rowe, who has won 12 successive games, and Al Crowder, Washington castoff.

ATHLETICS WIN FROM SENATORS

(By The Associated Press)

After a day of almost complete idleness, major league baseball's warriors plunged back into the thick of the pennant frays with battle lines once more sharply drawn between east and west.

Washington and Philadelphia had the baseball scene all to themselves yesterday, the Athletics pounding over nine runs in the first inning to win, 9-0. The A's fell on Al Thomas, Jack Russell and Alec McColl for ten hits, including three doubles, in that wild first frame.

"PSYCHOLOGY OF SUDS" WORKS ON SEATTLE INDIANS

SEATTLE, Aug. 14. (AP)—"Dutch" Reuther led the Seattle Indians to the top of the "comeback trail" by using the "psychology of suds" he said today, and now they are tied with Los Angeles for first place in the Pacific coast league.

Ancient veteran of four world's series, Walter H. Reuther, southpaw pitcher, became Seattle's coach four months ago and hailed the Indians out of the doldrums almost immediately. For the first time since 1924 they are getting somewhere.

"Never Mind Rules"

"Never mind the training rules but get busy and win some more ball games!" said Dutch to his team and they did.

"It's the psychology of the suds," Reuther said. "I want the boys to be unhampered by rules—so long as they show up for a game in good shape. After each game I generally say to the gang:

"'Come on over and have some sandwiches and a glass of beer.'

"They do, get filled up and go home. If they didn't have so many sandwiches, they might stay out and concentrate too much on beer and the like. I want to show them, not regulate them."

Dutch was one of the craftiest southpaws in baseball in his prime, when he was chopping down the batters while working for the New York Yankees, Washington Senators, Brooklyn Dodgers, Chicago Cubs and Cincinnati Reds. He was a free agent this season when Seattle signed him on as a coach.

Dizzy And Paul On "The Carpet Again"

ST. LOUIS, Aug. 14. (AP)—Dizzy and Paul Dean, the Cardinal pitching aces, are "on the carpet" once more. They "ducked" the Detroit exhibition game.

President Sam Breadon of the St. Louis Nationals doesn't know why. "Maybe Frank Frisch excused them," he said. "But they were on the list to make the trip."

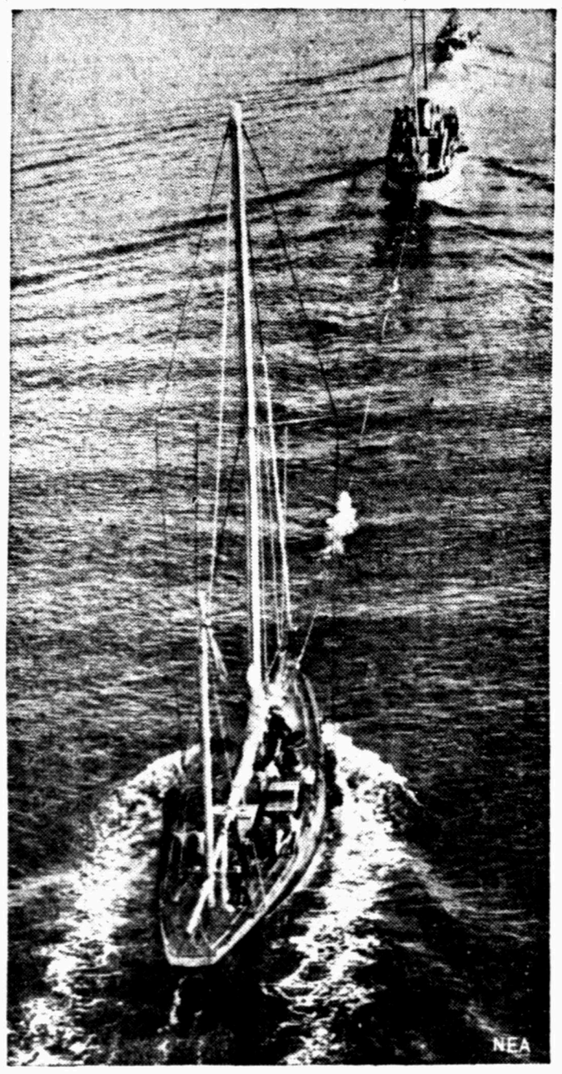

The Deans, who spent the day in their hotel here, explained at length about sore arms and ankles and about not having their grips at the ball park, when the team departed.

SCOUTING BOOMS

NANKING (AP)—Under the presidency of Chiang Kai-Shek, generalissimo of the nationalist government, the Chinese National Boy Scouts organization has expanded until it claims more than 100,000 members in all parts of the country. Scouting was introduced by American missionaries in 1911.

Add hints on keeping cool: Start saving your pennies for a season football ticket, available after 12 o'clock noon on August 27, for Texas Tech games.

The esteemed dean, Bo Williams, Tech's big dollar and doughnut man, is thumbing his nose at the weather man by preparing his "copy" for football tickets and programs. The ducats will be off the press soon, and will be handed out at the J. & J. store for so much a handout.

Another reminder of football comes in a letter from Floyd Williams, former Lubbock grocery and gasoline peddler who is in Los Angeles. While attending an auto race show at a certain stadium, Williams heard the man behind the loud-speaker controls announce that "this stadium will be the scene of hectic football warfare on October 26 when the Texas Tech Matadors come here to play Loyola." The announcer, Floyd writes, went on to deal at length with Tech's gridiron supremacy, and it listened good to the Matador fan.

A NOTE LEFT on the desk reads: "D. & I. Tire Exchange wants to be first to enter softball tournament."

The nomination is accepted. Who'll be next?

Some one calls to ask if a team or team manager is allowed to recruit or subsidize a flock of star players for the tournament before or after play gets under way.

In a tournament of this kind, it's the number of teams, rather than the quality of playing, that proves its success. In order that a large number of teams will enter, it is urged that all teams stick by their regular season guns rather than seek additional players now. To keep the thing balanced, one or more teams should not attempt to draft stars from other teams. It would seem that there is nothing morally unbecoming to a team that is obviously weak but which wishes to play in the tournament to cast about for a player or two for bolstering purposes.

One of the fundamental tournament rules, however, will be something like his: Before a team shall play a game, the manager in charge shall submit a list of players, these players to constitute the team's roster for the duration of the tournament and to play on no other team during the tournament.

Another question fired yesterday by several managers and players regards the prize or trophy for which the tournament teams will be playing. Some must have had the mistaken idea that no prize would be awarded. On the contrary, cash derived from ticket sales will be turned over to managers of winning teams, to be used or distributed at their discretion.

For more detailed announcements concerning the tournament, the gentle reader is invited to peruse the story in another column.

The following paragraphs, entitled "Heart of a Rabbit" drifts across the desk:

"Old Rabbit Maranville's final gesture is in keeping with his entire career. It doesn't matter how much repair work has to be done on the leg he broke in Florida this spring, it's going to be done and he'll accept nothing less than a pair of legs capable of carry him on, at 42, in the Braves' major league infield.

"So for the second time he's going to an operating table to have the bones broken again, and reset. They went through it once, and the bones healed well enough to carry an ordinary man the rest of his life through normal pursuits, but not well enough to hold up a ball player under the daily diamond grind. So the Rabbit says:

"'Okay, do it over again. Keep doing it until it's right'."

For a mite that size you wonder where he gets that heart. Not satisfied with breaking his leg once himself, he's having the doctors break it deliberatly for the third time. When you shake your head and sigh over the end of the active career of that kind of man, keep your tongue in your cheek. You never know what the Rabbit type can do until he's had his last try.

If Maranville was a tennis player, and had the ability of Frank Shields, what would you bet on Fred Perry's chances of beating him in the vital match for the Davis cup? You could bet those Englishmen the Empire State building against Buckingham palace, and your only worry would be how to get Buckingham palace over here after you'd won it.

CASH OFFERED IN SOFTBALL TOURNEY

SOUTH PLAINS AFFAIR WILL GET UNDER WAY HERE NEXT MONDAY

The first South Plains Softball tournament will get under way here Monday, August 20.

While the amount of interest and number of entries will be the governing factor in planning the tournament, local enthusiasts and out-of-town managers are of the opinion that at least 20, perhaps 30 clubs from Lubbock and various towns of the South Plains will be entered.

Deadline Is Set

Deadline on entries is noon Saturday, August 17, but teams desiring to enter are requested to file intentions as early this week as possible. The method by which the tournament will be conducted—whether on a one or two-game elimination basis—will be determined by the number of teams entering.

Games will be played at the College Avenue park here, beginning at 3 o'clock in the afternoons. Three, possibly four games will be played daily, this, too, depending upon the number of entries.

An entry fee of $4 per team is to be posted when entry is filed. This will go into a fund to be used for incidental expenses and park rental.

Cash purses will be turned over to the managers of teams finishing first, second and third at the conclusion of the tournament, gate receipts to go into a separate fund for prizes.

First Team Enters

First team to file application for entry was the D. & I. Tire Exchange member of a local league.

At least eight or ten local clubs are expected to enter the tournament. During the season, about 20 different teams have played in the local American and National leagues. Some have dropped out, others have disbanded, but it is hoped that the majority of active teams here will enter.

Several teams are expected from Abernathy, where an eight-club league has been successfuly operating for several weeks. Ralls is expected to send two or more clubs. Leagues have been operating at Slaton, Tahoka, Littlefield, Brownfield, Lorenzo, Crosbyton, Ropesville and other towns, all of which probably will be represented.

A simple set of rules will govern the tournament. Each team may list twelve players, this list to be turned over to the tournament committee before the team plays its first game.

Recruiting Discouraged

The list submitted will constitute the team's roster for the tournament, and may not be changed except by mutual agreement of teams concerned and the tournament management. No players may be added to the lists after play has started.

Recruiting of players from other teams will be discouraged. Since all teams are invited to participate, a club from which star players had been drafted by another club would be materially weakened, discouraged to enter the tournament.

Team managers are urged to use players who have played on their particular teams all season, although if, before the tournament starts, an obviously weak team can bolster itself without weakening another club, such action will not be frowned upon.

Judging from the number of teams which have sought information or have entered the tournament field, the joust will occupy at least one week. College Avenue field will be carefully groomed for the tournament.

MIRACLE MAN MICKEY LIVING UP TO PREDICTION

DETTON FACES CLINGMAN

McSHAIN WILL MARRY AND THEN TAKE ON VIC WEBBER

Dory Detton, fancy and formidable fighting man from Salt Lake City, will match his mat craftmanship with the bundle-bodied fury of Otis Clingman, the Amarillo Fat Boy, in the special event at Promoter Sled Allen's wrestling show at the Auditorium Wednesday night.

Detton was the fair-haired child of the ring patrons last winter. And his following will be out Wednesday night to see what new wrestling trickery and brilliance he has assimiliated on a recent tour of the northern circuits.

Danny To Wed

But Detton's return will not be the main interest of tomorrow night's program.

A lot of the grape-vining gorillas down and up the reaches of the southwestern wrestling loop have been getting themselves married lately. There was Rod Fenton, the leering lumberjack, who was wed a month ago at Amarillo against a barbaric background of bone-bending. Then Don Hill. And now Denny McShain.

So tomorrow night Danny will walk slowly down the aisle of the Auditorium arena, and it is hoped that he will not forget himself and bash in some one's straw kadie. He will be married to Miss Rosetta Adair, and by his side will be the aging apeman from Amarillo, Alfred De La Guardia Mantell, regional dean of tin-ears.

Then He Faces Webber

After the wedding, maybe, the bride and groom will leave the ring under an arch of head-locks after the manner of a military wedding.

And then Danny must doff his starched shirt and prepare for a three fall cave-man war with the powerful New Yorker, Vic Webber.

In the preliminary Doug Henderson of Dallas and Cyclone Mackey of Clovis are carded for 20 minutes or less of grips and fist-cuffs.

JACOBS LACKS CONFIDENCE

HELEN MEETS SECOND TEST IN DEFENSE OF NET TITLE

FOREST HILLS, N. Y., Aug. 14. (AP)—A champion without confidence—that's the picture Helen Jacobs painted of herself today as she met her second test in defense of the women's national tennis championship.

"It's a funny thing with me," the Berkeley girl said as she prepared to take on Jane Sharp of Pasadena, in a second round match, "but I'm never confident before a match or a tournament, for that matter. My practice is to go on to the court and do my best and let the result depend on the way I play."

Miss Jacobs dispelled some of the fears about her game by the decisive manner in which she squelched Marjorie Sachs of Cambridge, Mass., in the first round. She won both sets at love in what amounted to a complete reversal of the form she showed in the Seabright invitation tournament final a fortnight ago.

Texas May Develop Its Own Onion Seed

COLLEGE STATION, Aug. 14 (AP)—Texas onion growers, who are obligated to import yearly from the Canary islands approximately 100,000 pounds of seed at rather high prices, may have Texas-grown seed within reach.

Experiments conducted in the Wichita irrigated valley at substation No. 16 of the Texas agricultural experiment station, pointed "very favorably toward the possible development of onion seed that is equal to the best imported," a report by L. E. Brooks, horticulturist at the substation, says.

A series of tests were started at substation No. 16, located near Iowa Park, in 1931, the report states, for the purpose of determining whether Bermuda onion seed of desired germination and quality could be grown successfully in that section.

The first trials were on a small scale but the results verified that seed of excellent germination percentage could be produced. The seed was tried in the Wichita valley and the winter garden section and found to produce strong, thrifty plants that compared favorably with those grown from the best imported seed.

BUCS ADVANCE WITHIN GAME OF PADRES

FOUR STRAIGHT WINS PUT GALVESTON IN THICK OF FIGHT

By BILL PARKER
Associated Press Sports Writer

By virtue of four consecutive victories over San Antonio, the Galveston Buccaneers are within one game of the Texas league pinnacle. The Bucs picked up a full game on the league-leading Missions last night with a 4 to 3 victory. Jackucki clicked on the mound and at bat, limiting San Antonio to nine hits and cracking out a home run to drive across three runs. Caldwell, one of San Antonio's best mound bets, got away to an erratic start when Galveston in with three runs in the second inning.

Carey Selph's hustling Houston Buffaloes played like pennant winners to defeat Dallas, 2 to 1. Southpaw Mike Cvengros pitched one of his best games this season when he stopped the Steers with five hits. Home run by Johnny Rizzo and Louis Whitehead gave Houston the victory. The defeat knocked the Steers to fifth place.

Second baseman Chozen hit the ball timely to give Tulsa a 2 to 1 decision over Oklahoma City. He got a single and a long fly in the seventh and ninth innings to drive across Skeeter Newsome with winning runs. Davis hurled three-hit ball for Tulsa.

Beaumont opened the series aginst Fort Worth by taking the first game, 10 to 2. The Exporters whammed out 16 hits to make victory easy for Pitcher Dick Schultz who limited the Cats to seven bingles.

INSULL PREPARES FOR TRIAL GRIND WITH QUIET LIFE

CHICAGO, Aug. 14 (AP)—Samuel Insull, sr., who once spent 10 to 12 hours a day controlling the employment of 72,000 other persons, is taking life easy to conserve his strength for his forthcoming trial on charges of using the mails to defraud.

In contrast to the days when he built up a vast utilities empire, only to see criminal charges rise out of its ashes, the 74-year-old former head of 85 boards of directors is reported limiting himself to four to six hours of leisurely activity daily.

When he was brought back to Chicago from Istanbul, Turkey, last May, Insull was taken desperately ill. His family physician said there was extreme danger in over exertion.

Apparently the patient is following his doctor's advice carefully, but Insull never forgets his campaign of vindication. He frequently sees his attorney, Floyd Thompson, and holds himself in readiness to confer with lawyers representing his 15 codefendants.

Grid Star Dies As Result Of Injuries

DENVER, Aug. 14. (AP)—Ken Meenan, 22, former football player at Northwestern and Temple universities and a leading prospect for halfback at the University of Illinois this year, died last night after undergoing amputation of his left leg to overcome the effects of septic poisoning.

Working as a ranger in Rocky Mountain National park, Colo., Meenan suffered severe injuries to his leg in a motor accident last week. He was thrown from a motorcycle when it collided with a motor car.

That Girl on Broadway says don't be afraid of wasting time by learning something you're not required to know.

* * *

A sense of humor is the real fountain of youth.

* * *

THE other day this column printed a little joke about a citizen who said he was going to vote for Tom Hunter because he thought the state would get rid of him in two years, while Jimmie Allred probably would be re-elected and then go to the Senate.

Here's another little yarn which is supposed to be true and which comes out of a conversation of Ft. Worth business men.

"Who are you for for governor, Bill?" one asked another.

"I'm for Tom Hunter", came the prompt reply.

"How come?" pressed the first man.

"Well", came the answer, "I've got it figured out this way. Allred is smart enough to put over a few of his crazy ideas but all the legislature will ever let Hunter do is welcome visiting delegations and sign his name on the bills legislators pass!"

* * *

There are many such stories going about the state, some favoring one candidate and some the other.

But the fact remains that there are thousands of Texans who view the run-off in absolute lethargy.

The woods are full of people who are half-heartedly voting for one or the other of the candidates—and full of people who aren't going to vote at all.

It is a sad situation, yet never-the-less true.

* * *

JUST what kind of a final effect is Jim Ferguson's coming out for Tom Hunter going to have on election day?

Can Jim 'deliver' enough of his votes to offset the thousands who are saying "I'm against anybody Jim Ferguson is for"?

It is questionable whether the Ferguson support will be a help or a handicap to the oil man candidate and Allred is not missing any chances to bring it up.

* * *

The drudgery of today disciplines us to meet the responsibilities of tomorrow.

* * *

THE gas company has checked the bet to the city commission on the proposition of optional contracts.

Now the commission will have to say 'yes' or 'no' on the company's offer to afford some saving to the gas users under the optional contract plan, and it is time the commission did just that.

First the city dads ruled the optional contract plan down because they feared erection of a city plant in the face of so many yearly contracts would be bad business—which it would.

But now the company says if the municipal plant is built and gas is offered by the city at a lower rate than the optional contracts, it will release any contract holders who wish to be released.

That seems fair enough to anybody who will think about it.

* * *

The Plainsman thinks the gas rates in Lubbock are too high.

Long before a single member of the city commission was in office and when times were good and money was easy, this column raised its voice not once, but over a period of weeks, urging a lower rate.

But no one was interested then, and the whole business was for naught.

Now the company, through its optional rate, offers a decrease to those whose volume of gas used earns, in the company's opinion, a lower rate.

And The Plainsman, for one, wants that lower rate, small decrease though it may be.

* * *

AS this column sees it, the commission now anyone else has any business keeping anybody from making a saving on his gas bill if he can make one.

No one has to sign a contract unless he wants to and The Plainsman is of the opinion that Lubbock is full of people who have sense enough to decide their own gas problems without turning to the commission, individually or collectively, for the right answer.

If all the common sense in Lubbock is in one basket, we're in a heckuva fix in this man's town.

And while The Plainsman's would like as much as anyone else to see 40 cent, or 50 cent gas he wants to make a saving over what he's paying now while we're waiting for the millenium.

* * *

When you see one member of the Tuesday sewing club absent, that is a sure sign that the conversation will not be about the weather.

* * *

That Man on Avenue Q says he thinks so much of the President that he doesn't even mind seeing his wife's picture in the paper every day.

* * *

Oldtimers who used to think the coyote's howl the most mournful thing in the world changed their minds when they heard the first saxophone.

* * *

THE Legion of Decency, or whatever is the name of the Catholic-Protestant-Jewish organization bending its efforts to clean up the movies, is having good luck at its job, which is all right, too.

But after members get through we suggest they turn their attention to the magazine racks of the nation and keep up the good work.

If you don't think the market is flooded with over-sexy, suggestive magazines, just look over the racks of any magazine stand in Lubbock.

Then you'll be convinced.

Movie Stars Are Attached To Their Old Dressing Rooms; Film Notables Balk At Moving To More Elaborate Suites

By DAN THOMAS
NEA Service Correspondent

HOLLYWOOD, Aug. 14. — Film stars regard their studio dressing rooms almost as homes and guard them every bit as zealously as they do their own dwellings.

This was discovered with completion of the new executive building on the Paramount lot, which contains eight very attractive and modern dressing room suites. However, none of the players wants to move into them.

Over a period of time each has fixed his dressing room to suit his particular taste and as a result all want to remain in their present quarters.

So far the only ones who have consented to move into the new suites are Claudette Colbert and George Raft—and each insisted upon considerable remodeling before taking possession.

Marlene Dietrich, Mae West, Gary Cooper, Carole Lombard, Bing Crosby, Jack Oakie, Sylvia Sidney, and Dick Arlen all turned thumbs down on every proposal made to them about taking the more elaborate suites.

They feel at home in the present quarters and as a result they just naturally won't move. So there still are six beautiful new suites without any occupants—and nobody will show even the slightest interest in them.

At last Bela Lugosi is being given a chance to get away from extremely heavy roles. Although he won considerable distinction as Romeo and Hamlet in Eurpoe, his screen career here has been a succession of Dracula-like roles.

For the first time since coming to this country, he goes romantic in "The Return of Chandu." And the early rushes indicate that he will be very good.

TODAY'S JOURNAL EDITORIAL

LET'S HAVE ANOTHER BIG VOTE

For the first time in history Texas Democrats, in the July 28th primary, cast over one million votes.

Despite lethargy in the gubernatorial campaign and because the times augured well for the necessity of having either an exemption or poll tax receipt, Texans marched to the polls and voted their preference. It is good.

The only fly in the ointment is that there isn't a "Chinaman's chance" of as many votes being cast in this year's run-off primary on August 25th and that isn't so good.

Many Texans who voted in the first primary due to interest in county or district races now settled, will not find it necessary to vote again.

Others who had favorite gubernatorial candidates who fell by the first primary wayside don't "give a whoop" about the outcome of the Hunter-Allred campaign.

So as a result Democracy in Texas will do well to come within 100,000 ballots of July's all-time high.

The Journal regrets the situation yet it cannot be argued that it does not portend. However, here in Lubbock and over the South Plains we can and should vote our full strength no matter what other sections of the state may do.

We have in this county a county attorney's race of importance.

We have a school superintendent's race, another for the office of district clerk and at least one important decision to be made for a county commission post.

And, of even more importance to this county as well as to the entire district is the choice of a Congressman to represent the new 19th district.

As little as we may think about it, we cannot be truly Democratic unless as many persons as are eligible cast an election ballot.

Democracy is based upon the principle of the choice of all the people—not upon any part or parcel which may see fit to amble to voting booths on election day and register but a portion of general opinion.

The Journal hopes against hope for as big vote in Lubbock and over the territory as was cast on July 28th and urges all citizens to decide today to cast a ballot when the polls are opened the next time.

As has been said so often before, in this column and in many others over the county, the right of ballot is not alone a privilege. It also is a sacred duty.

WASHINGTON, Aug. 14.—One of those six questions Roosevelt asked us was tricky. The only possible answer seemed to be "Yes."

You remember—

"Is your bank account more secure than a year ago?"

Since the first of the year, at least 97 per cent of all bank depositors have been entitled to sleep easier with the knowledge that their money was insured against loss. Congress, in the law under which the Federal Deposit Insurance Corporation was created, saw to that.

So, even if nobody had agreed with Mr. Roosevelt that he was better off, or more hopeful or less burdened with debt, the president should have had an almost unanimous "yea" on the bank question.

But the FDIC is sorely chagrined because hordes of depositors are ignorant of this protection. As late as May, many banks were complaining of mild "secret runs."

The NEA Service has been taking a newspaper poll of answers to the president's questions which strengthens the idea that millions know nothing of deposit insurance.

Majorities in some cities replied that their accounts were no more secure; a strong minority in the poll still insists they aren't.

There doesn't seem to be any joker in the insurance scheme, however. More than 14,000 commercial banks are insured by FDIC for all accounts up to $5000. Fewer than 1000 are outside the system—all state banks.

The FDIC starts the payoff as soon as a receiver is named. The first payoff was for a bank in Peoria, Ill., where 99 per cent of depositors received their money in full. In Pittsburgh a payoff began the day after the bank closed.

The plan started with a $330,000,000 repayable back-log from the treasury and banks have paid in $110,000,000 to the insurance fund through a half-of-one per cent assessment, which will be repeated in the fall.

All banks admitted to insurance must first be found solvent. Those insured have about 32 billions of deposits; the uninsured only 500 millions.

Some time this fall all insured banks will be required to post signs announcing the insurance of their deposits. But there will always be folks who never found out about it.

Some Underground Coding

NRA codes aren't news any more, but just to show you the sort of thing that still goes on—

The code approved for the undertakers—known here as the "funeral service industry"—specifically barred "any form of enterprise which deceives or defrauds" . .

The president's order of approval qualified that to read, "nothing in this section shall supersede any state law which by its terms permits any of the practices described herein by members of the industry." But the undertakers got busy and had that modified still further, to read:

"Nothing contained in this section shall supersede any state law which by its terms expressly authorizes this industry to organize, promote, participate in, or operate a form of enterprise prohibited therein."

Another Big NRA "Crisis"

You'd be amazed to know the amount of time and effort NRA officials have put into erection of the defense of General Johnson before the National Labor Relations Board against charges that he fired President John Donovan of the NRA employes' union for union activities.

They decided that this was a crucial case—that if Johnson, already unpopular with labor, were found guilty of union-busting tactics, organized labor might well rise up on its hind legs and point publicly with scorn and contempt.

Top-rank NRA attorneys were put on the case for weeks, after being informed this was perhaps NRA's most important fight to date.

The tiny NRA union was delighted with the fuss it had stirred up—with Johnson's help.

Thought For Today

But he forsook the counsel of the old men, which they had given him, and consulted with the young men that were grown up with him, and which stood before him. — I Kings, 12:8.

Murder at MOCKING HOUSE

BY WALTER C. BROWN

SYNOPSIS: Apparently the policeman and the stranger found dead in Pierre Dufresne's breakfast room have shot each other, and apparently the stranger is he who has been writing threatening letters to Dufresne. But strange strands of suspicion attach to most of the persons in the house, and Sergeant Harper cannot believe in the obvious solution. He and Lafferty begin sorting out the strands.

Chapter 17
TRACKS IN SNOW

Sergeant Harper spread out a blank piece of paper and drew a hasty, but recognizable, plan of the ground floor of the Dufresne mansion, with the adjacent grounds. All windows and doors were designated. "Now, before we look at those reports, let's get this matter of the footprints in the snow firmly in our heads. I've made a complete circuit of the house. I'll mark in the tracks as I tell you about them, then you can go out yourself and check over my work before the sun gets busy and destroys them.

"First, here is the back of the house. There are two doors, both giving onto a porch. There are two sets of heavily-marked tracks, leading from the side door of the garage building to the back door of this house.

"They were made by Mr. and Mrs. Whitmore, coming over in response to Andrews' call. There are no other footprints at the back of the house and, naturally, there are none in the snow to either the right or the left side of the house.

"Secondly, there is a confusion of tracks from the pavement to the front door. There is one set, filled in and almost covered by the later snow. Mixed in with these are two sets of fresher tracks, partly filled in. The first set is the original trail left by Hamill, the second lot were made by Connally and Hilleary as they followed.

"Then there is a second group, fortunately to one side of the others. Trey were made by Clymer, Smith, Doyle and myself, the second group to arrive on the scene. After that I had Connally shovel a path and every one entering or leaving has had to use the path.

"Furthermore, it was Connally who actually traced Hamill's footsteps from the call-box and he swears that when he and Hilleary arrived here there was one, and only one, set of prints leading up to the door.

"This gives us an accounting for every single person who entered this house before the path was cleared, except the unidentified man. He must have come in before the snow started, or before it was deep enough to retain the impression of a footprint.

"We know the snow started falling about half-past three yesterday afternoon, but it didn't really begin snowing heavily until an hour or so later. It is almost certain that this man was in this house before half-past five. Otherwise shapeless, but noticeable, ridges would have been left in the snow. Officer Hamill must have been killed as soon as he entered this room. Miller puts the hour of his death as between seven and nine.

"As you see, that leaves the most important questions unanswered. When and why did the murdered man break in? What drew Hamill's attention to this house? We have the record of all who entered this house last night between, say, half-past five and half-past ten, always excepting our mysterious dead man. As far as I can see it's an unassailable record and it doesn't furnish much ground for the suspicion that all is not as it seems on the surface."

"Do you feel sure that these marks in the snow weren't tampered with?" asked Lafferty. "Can you rely on them entirely"

"I can see no room for doubt," Harper replied. "You cannot walk through snow of any depth without leaving traces. Try it, and see for yourself. The snow can go on for hours after a track has been made and it will still be visible. That original, unbroken surface of a fall of snow cannot be duplicated."

"Hold on a minute," Lafferty interjected, "couldn't some one tread in previously made tracks and get out that way?"

Harper shook his head. "One look at Hamill's marks will convince you that that wasn't done. I know that trick has been used, but I'll swear it didn't happen in this instance. I've looked at those marks very carefully and they are absolutely bona fide. Not even a cat walked across those grounds last night."

Lafferty thought it over. "Well, we went over every hole and corner

VOTES CAST IN FOUR STATES

BITTER CAMPAIGNS IN NEBRASKA, ARKANSAS, OHIO, IDAHO END

(By The Associated Press)

Primary elections were held in four states today, ending campaigns marked with bitter words and the threat of senatorial investigations.

The sharpest contests lay in Ohio and Nebraska, with less spectacular primaries in Idaho and Arkansas.

Probe Threatened

The Ohio primary had a three-cornered scrap for the Democratic senatorial nomination as its focal point. Gov. George White, former Gov. Vic Donahey and Rep. Charles West sought the nomination. United States Senator Robert J. Bulkley supporting West, charged Gov. White with buying support with highway jobs and threatened a senatorial investigation if White were nominated. The Republican senatorial race found Senator Simeon D. Fess, GOP stalwart, opposed by four candidates. For governor the Republicans had seven candidates in the ring and the Democrats four.

In Nebraska, a fight between Governor Charles W. Bryan and Arthur J. Mullen, former national committeeman, for control of the Democratic party was the high spot. Bryan, seeking the senatorial nomination, was opposed by Rep. E. R. Burke, supported by Mullen. Bryan supporters have charged Mullen with pouring money into the state to nominate Burke and two Republican candidates have predicted Senator George W. Norris would ask an investigation of campaign funds.

Ross Is Opposed

Gov. C. Ben Ross' bid for a third term as governor of Idaho attracted the major interest in that state's primary. He was opposed by Frank Martin, former state attorney general, and Asher B. Wilson, member of the state board of education. Three candidates sought the Republican gubernatorial nomination. The state also had congressional contests.

In Arkansas Gov. J. Marion Futrell sought renomination against former State Comptroller Howard A. Reed. The state's seven representatives in congress sought renomination.

RELIEF POLICY

(Continued from Page One)

Hurs, the department of agriculture expected to produce today a comprehensive report on drouth conditions.

Officials also are working on an inventory of food and feed supplies. They declared that figures already available indicated that no food shortage was in prospects.

Preliminary figures on the nation's food supply showed:

Stocks of wheat on hand or in prospect total 43,433,000 more than normal domestic consumption.

Corn stocks are estimated at 21,872,000 bushels with a crop of 2,307,108,000 bushels in prospect. How near this will meet domestic requirements will depend on the livestock population when the government has completed its livestock purchase program.

Stocks of oats appeared plentiful.

Commercial supplies of fresh vegetables and fruits are "fairly plentiful," potatoes are "abundant," pastures and forage are extremely low, sufficient cabbage is being produced for all the nation's sauerkraut, butter stocks are below average with a drop in dairy production a prospect due to lack of feed, and cheese production is declining with stocks heavy.

Stocks of meat in cold storage Aug. 1 totalled 785,134,000 pounds compared with the five-year average of 845,507,000.

OHIO MEN WIN IN BRIDGE TOURNEY

NEW YORK, Aug. 14. (AP)—Four young men from Ohio who play bridge in their spare time yesterday defeated a team of experts captained by Mrs. Josephine Culbertson to win the coveted Team of Four trophy offered by the American Bridge league. They won by 2,650 points.

It was the first time they ever had played together as a team although William H. Hopkins and Charles H. Porter of Cincinnati are old timers as a pair, as are Aaron Frank and Jeff Glick of Cleveland.

In the semi-finals they defeated the famous "Four Aces" of Oswald Jacoby, David Burnstine, Howard Schenken and Richard Frey of New York.

Mrs. Culbertson's associates were Alphonse Moyse, Sherman Stearns and Theodore Lightener, all of New York.

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, Aug. 14 (AP)—Cotton futures opened barely steady, 7 to 11 points decline on lower Liverpool cables, favorable crop reports from India and liquidation. Oct. 13.39; Dec. 13.50; Jan. 13.57; March 13.70; May 13.76; July 13.81.

There was considerable liquidation through Wall Street and commission houses but offerings were absorbed at about the initial prices and the market steadied later on a scattering demand promoted by reports of continued dry weather in the southwest and the opening advance in the wheat market.

At the end of the first half hour, December was ruling around 13.55, with active months showing net declines of 5 to 8 points.

One of the early cables from Liverpool said the market there had declined under heavy Bombay selling accompanied by rumors of a bearish Indian crop report, but that offerings had been absorbed by covering and commission house buying on the unfavorable weather reports from the south.

The market was only moderately active later in the morning. Failure of the official forecast to hold out any definite prospect for immediate relief from the western belt drouth may have brought in a little buying during the middle of the morning. Offerings were light and December worked up to 13.58 or about 9 points from the early low and within 2 points of yesterday's closing quotations. This bulge was checked by renewed realizing or liquidation.

The market at midday was quiet, around 13.53 for December, or about 7 to 8 points net lower. Replying to an inquiry relative to an early report that the Indian crop promises to be 15 per cent above last year, a cable received in the trade here from London said there was such a report there, but that there had been no official confirmation.

NEW ORLEANS REPORT

NEW ORLEANS, Aug. 14 (AP)—Cotton market opened somewhat easier today as Liverpool cables came in lower than due. There also were reports of some rains in northeast Oklahoma. First trades showed losses of 5 to 8 points and prices eased slightly further after the start on long liquidation induced by the Oklahoma rains. October traded down to 13.36 and December to 13.49, or 7 to 9 points below the close of yesterday. Later in the first half hour the market, rallied on shorts covering, recovering 2 to 4 points from the lows and leaving the price levels 5 points down from the previous close.

The market ruled quiet all morning. Prices fluctuated narrowly. The market eased off early in the second hour of trading to 13.34 for October and 13.49 for December, down 9 points from the previous close. This was due to the reports of rains in Oklahoma.

Later, prices rallied 7 to 8 points from the lows on the impression that the reported rains were insignificant. October moved up to 13.41 and December to 13.57, still 1 to 2 points under yesterday's close.

Near mid-session, prices eased off 1 to 5 points from the best, making the price level 3 to 5 points net lower compared with yesterday's close.

Stock Market

WALL STREET REPORT

NEW YORK, Aug. 14. (AP)—With the treasury permitting gold to flow out of the country to support the dollar, inflationary fires cooled in the stock market today.

Prices of shares held very steady in sluggish trading, save for some of the silver stocks, where moderate reactions developed. Some of the foods, oils and tractions were a little higher. Bonds were firm, including U. S. governments. In commodities, grains resumed their advance, but cotton, sugar and rubber were lower.

U. S. Smelting, Howe Sound and Cerro de Pasco lost major fractions to a point, while gains of fractions to a point appeared in General Foods, Standard Brands, Socony-Vacuum, Seaboard Oil, Standard of California, Armour Preferred new, Brooklyn-Manhattan Transit, and Interboro. U. S. Steel, American Telephone and case were fractionally lower.

It was announced that $1,000,000 in gold was being exported by one of the Wall Street banks as a normal exchange operation resulting from the high premiums commanded by the French francs and other leading currencies over the dollar. While Secretary Morgenthau had said back last winter, when the dollar was devalued and placed on an international bullion basis, that exports of metal would be licensed whenever the dollar sank to levels that would make such operations profitable, today's export was the first test of the treasury's policy. It was accepted as evidence that the dollar was on a free gold basis, so far as international transactions were concerned.

Grain Market

CHICAGO REPORT

CHICAGO, Aug. 14. (AP)—Selling on the part of houses with eastern connections ruled wheat prices down late today.

The selling revealed a lack of aggressive support. Stop-loss orders were forced into execution and wheat tumbled 3 1-2 cents from earlier high points.

Wheat closed flurried at almost the day's bottom level, 1 1-2 to 1 5-8 under yesterday's finish, Dec. new 1.04 5-8 to $1.05, corn 1-8 to 3-8 down, Dec. 78 5-8 to 3-4, oats 1-4 lower to 1-4 higher, and provisions showing 20 to 50 cents gain.

FORT WORTH REPORT

FORT WORTH, Aug. 14 (AP)—Demand for grain here was steady today. Estimated receipts were: Wheat 30 cars, oats 2 and sorghums 4. Prices quoted by the grain commission of Fort Worth grain and cotton exchange based on bids, offers and actual sales to midday ranged as follows, basis carloads on track at Fort Worth, freight paid to delivery points:

Delivered Texas gulf ports, export rate, or Texas common points: Wheat No. 1 hard 111 3-4 to 114 3-4. Barley No. 2 nominally 80-81; No. 3 nominally 79-80; sorghums No. 2 milo per 100 pounds nominally 190-195; No. 3 milo nominal 188-193; No. 2 kafir nominally 180-185; No. 3 kafir nominally 178-183.

Delivered Texas common points or group three: Corn No. 2 white 98 1-2 to 99 1-2; No. 2 yellow 96-97. Oats No. 2 red 59-60; No. 3 red 58-59.

MURDER PLOT

(Continued from Page One)

it with the poison, which she gave him.

About thirty minutes later Salsberry suffered his first convulsions and began tossing in pain on the bed.

"He asked me to hold him down and I did," Mrs. Salsberry said in the statement, which was introduced in evidence, along with one by Bass.

Agony Became Intense

Several other convulsions followed and, as the night wore on, Salsberry was in great pain. Mrs. Salsberry said she held him down several times when his agony became intense.

When 3 a. m. came and Salsberry was still alive, the wife took a can of kerosene and saturated the floor of the room where he lay. She removed her two daughters, Sarah, 3, and the baby, aged 8 months, from the house and then set it afire, the statement said.

Saw Him On Bed

As the flames whipped up around the bed, Mrs. Salsberry said she was able to see him "rolling and lunging about on the bed and hollering for help."

But she turned away and ran to a neighboring house, where she told of the house catching fire accidentally and being unable to awaken her husband. The neighbor was J. W. Hall, who testified today that he asked her:

"Where is your husband?"

"I couldn't wake him—he must have burned up," Hall quoted her as replying.

Broke Down Later

Sheriff Lee Thomason told of breaking her story that the fire was accidental. He said she maintained it was an accident until the fire had burned down to where Salsberry's charred body could be seen on the floor.

"I had to kill him," the sheriff said Mrs. Salsberry admitted.

The woman and her lover sat in court today with blank expressions on their faces, apparently little understanding what was going on around them. Mrs. Salsberry's father, Jesse Williams, sat behind her, advising her occasionally when she seemed not to be able to answer questions put to her. Neither the woman nor Bass had a lawyer. They said they did not want one.

"It's the truth," Mrs. Salsberry said when asked if she was guilty of murder.

Bass readily admitted his participation and guilt, saying "the quicker it (the trial) is over, the better."

The case will go before a regular session of the grand jury which convenes early in October.

EXTRADITES PRISONER

OKLAHOMA CITY, Aug. 14 (AP)—Governor Murray today extradited Dooley White, held at Waurika, to Delta county, Tex., to face a theft charge.

HATCHERYMEN

(Continued from Page One)

graded eggs are shipped out of this state, but they are graded by large commercial concerns and are sold under some trade name without the fact being disclosed that the good eggs in question were produced in Texas. However, even though these good graded eggs are shipped out of Texas, the farmer who produces them is paid the lowest possible price.

"Opportunities Overlooked"

"The poultry people of Texas are overlooking one of the greatest opportunities ever presented," he declared. "Here we are in Texas, with our own grain, with a climate which permits poultry to run out-of-doors almost the year round, and which cheap water transportation to the eastern markets. With a concerted effort on our part, there is no reason which we cannot secure a large quantity of this egg business. But, my friends, we cannot secure this business even though we have cheap transportation, without a standard for our eggs."

He told of discussions scheduled during the convention and urged those attending to avail themselves of all the information offered in the sessions.

His talk was followed by a discussion of "The Southwest as a Poultry Center" by Prof. W. C. Homeyer, poultry specialist of the Universal Mills, Fort Worth.

Program Needed

J. H. McAdams of the poultry department of Purina Mills, St. Louis, spoke on "Meeting Competition at Your Own Door" and declared a definite handling and breeding program was foremost in importance of good hatchery programs.

J. D. Carroll, operator of a hatchery at Chickasha, Okla., spoke on "The Menace of Custom Hatching" and discussed various problems of this phase of the business. He said the real danger in custom hatching was in breakdown of the price situation on baby chicks.

Committees Named

President Demke named two committees to work during the convention. They were: resolutions — E. N. Holmgreen, College Station; C. G. Scheitinger, Weimar; and F. J. Kazmier, Bryan; and committee on light bills — W. H. Drumm, Brenham, F. G. Glass, Arlington, and Jack Harris, Fort Worth.

Mineral Wells is to make a bid for the 1935 convention, a delegate from that city, announced this morning.

Afternoon Program

In the afternoon the following program is scheduled:

"Government Chick Sexing Demonstration," H. L. Shrader, senior extension poultry husbandman, bureau of agriculture, Washington; "Present Status of Our Knowledge of Coccidiosis in Chickens," a paper prepared by Roy L. Mayhew, Louisiana experiment station, Baton Rouge, and discussion led by Dr. Verne A. Scott, John Tarleton Agricultural college, Stephenville; "The Time to Take Stock," Prof. H. D. Reid, head of poultry department, Texas A. and M.; refreshments courtesy Universal Mills; music, courtesy South Plains Hatchery association; "What the Code Cost Me," H. H. Drumm, Brenham; "Baby Chick Business of the Plains of Texas," Prof. Ray C. Mowery, Texas Tech; "Some of the Work Carried On At Our Station During the Past Year," Ross M. Sherwood, chief division of poultry, Texas A. and M.; "Grain Sorghums, a Source of Feed for Poultry," Dean A. H. Leidigh, Texas Tech.

At 6:30 the party will leave the Hotel Lubbock for a tour of Texas Tech, ending with a visit to the textile department, followed by a chuck wagon barbecue and an open air athletic show, courtesy of the Hotel Lubbock.

At 9:30 p. m. the "Gully Jumpers" dance in the Hotel Lubbock ball room, sponsored by the Hardeman-King Co., Amarillo, and with music directed by Mayor Ross Edwards, is scheduled.

Others To Be Heard

Speakers of note will be heard on Wednesday and Thursday's sessions. They include: Dr. M. A. Jull, senior poultry husbandman, bureau of animal industry, United States Department of Agriculture; Dean J. Thomas Davis of John Tarleton college, Stephenville; J. E. McDonald, Texas commissioner of agriculture; Prof. L. N. Berry of New Mexico Agricultural college, Las Cruces, N. M.; W. O. Ramshaw, Salt Lake, Utah; Mrs. H. J. Thompson, supervisor of Texas Rural Communities, Austin; Burt Heywang, superintendent of the USDA experiment station at Glendale, Ariz.; Ambrose Brownell, famed breeder, Milwaukie, Oregon; Prof. Clyde Ingram, poultryman, animal industry department, Louisiana A. & M. Baton Rouge; Dr. M. O. North, University of Wyoming, Laramie; D. D. Slade, Lexington, Ky., president of the International Baby Chick association; Reese V. Hicks, Kansas City, executive secretary of the international association; Berley Winton, senior marketing expert of the AAA, Kansas City, Mo., J. A. Hannah, Kansas City, managing agent for the national commercial and breeder hatchery coordinating committee; Roy Lynes, editor of the Poultry Supply Dealer, Chicago and Mr. Holmgreen.

Admits Being Paid

Summoned to explain his activities here on behalf of the Hitler government, George Sylvester Viereck, author and publisher, is shown as he testified in New York before a Congressional committee investigating "un-American activities." He admitted that he had been paid $2000 by Dr. Otto Kiep, former German Consul General, for "advisory services" on public relations.

SIGNUP DRIVE UNDER WAY

COTTON CAMPAIGN IS HELD SATISFACTORY BY COUNTY AGENT

The signup campaign to obtain tax exemption certificates for cotton growers of Lubbock county under the Bankhead act was reported today as satisfactory by P. T. Montfort, county agent.

Committees in each of the 29 communities will meet this week so that producers may make applications. Cotton production information furnished by those who signed acreage reduction contracts has been transferred to application blanks.

Non-reduction signers who expect to apply should furnish their information to the committees.

"We would like to get as many applications signed before Saturday as we can," Mr. Montfort said. "The earlier we get our papers off to College Station, the better for us. The county committee will be prepared to go over applications as soon as they are ready."

Final date for making applications is August 21, but Mr. Montfort and the county committee, Ches Merrill, V. L. Cade and Douglas Pounds, have urged committees to get their reports in as early as possible.

Meetings will be held generally in school houses or in community buildings in each school district.

Mullican To Make Three Talks Today

Judge Clark M. Mullican had three addresses scheduled today in his campaign for the Democratic congressional nomination from 19th district. Speeches were announced last night as follows:

11:30 a. m. Petersburg; 2 p. m. Lockney; 8:30 p. m. Floydada.

Several cars loaded with friends and supporters were to accompany him.

Yesterday he had good crowds at Earth, Olton and Hale Center, where he spoke.

D. Robinson of San Antonio, arrived last night.

mark again made life miserable.

Tantalizing forecasts of partly cloudy weather in East Texas gave some hope of relief from the dry heat that has for days blistered crops and aggravated the shortage of water for livestock. West Texas faced the prospect of more clear, scorching weather.

Indications were that temperatures today would range to the approximate high levels of yesterday. Maximum temperatures reported yesterday included:

McKinney, 113 degrees (record high for the year); Dallas, 101; Paris, 107 (record high for the year); Abilene, 104; Lubbock, 100; Amarillo, 100; Austin, 98; Brownsville, 90; Corpus Christi, 90; Del Rio, 98; El Paso, 98; Houston, 96; Galveston, 88; Palestine, 100; Port Arthur, 94; San Antonio, 98; Plainview, 98; Corsicana, 105; Shreveport, La., 101.4.

No rain as reported in Texas the last 24 hours.

The 113-degree reading taken at McKinney as the highest there in many years, but temperatures have ranged high there for several days. It as 111 at McKinney Sunday. The cotton crop around McKinney was cut short by the heat.

Rogers Rites Are Slated Here Today

Funeral of Mrs. Ollie Rogers, 21, of 802 Avenue Q, will be conducted at First Baptist church at 4 o'clock this afternoon by Rev. C. J. McCarty. Burial, directed by Sanders Funeral home, will be in Memorial Park cemetery.

Active pallbearers will be J. A. Bean, A. B. White, D. Richardson, Jim F. Rogers, Lee A. Rogers, Foy Rogers. The honorary pallbearers: Bill Griggs, John Wiary, George Pilley, George Morgan, J. B. Pope, Lundy Shell, Beecher A. Swafford, Rodney D. Jay, Herbert Jay, Bernard Bowles, A. W. Brewer.

Mrs. Rogers gave birth to twin daughters at her home Friday. She was attended during her illness by her husband; her mother, Mrs. Mary Robinson; her sister, Miss Annie Pearl Robinson; her brothers, Roy and Cecil Robinson. Her father, C.

LEGAL NOTICES

39—Legal Notices

Notice By Order of Commissioners Court in Regular Session, August 13, 1934

I am hereby authorized, acting in my capacity as County Judge of Lubbock County, Texas, to give public notice to the citizens of said Lubbock County, Texas, as authorized by law, that a public hearing will be held in the County Court room at the Lubbock County Courthouse on August 16th, 1934 at 9:00 a. m. o'clock on the proposed county budget for the year beginning January 1st, 2935; and the Commissioners Court will consider the said budget after the hearing had on said date. The general public is invited to attend and participate in said hearing at said place on said date heinabove stated.

Witness my hand and official seal this the 13th day of August, A. D. 1934.

(SEAL) E. L. PITTS,
County Judge, Lubbock County, Texas.

NOTICE

The Board of Trustees of the Lubbock Independent School District will meet on Aug. 17th, 1934, at 7:30 p. m. in the City Hall, Lubbock, Texas, for the purpose of adopting a budget for the year 1934-35.

J. T. HUTCHINSON, President,
R. F. BAYLESS, Secretary.

CITATION BY PUBLICATION

THE STATE OF TEXAS,

To the sheriff or any Constable of Lubbock County, Greeting:

You are hereby commanded to summon Jessie Morgan, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published to appear at the next regular term of the 99th District Court of Lubbock County, to be holden at the Court House hereof, in Lubbock, Texas, on the 1st Monday in September, A. D., 1934, the same being the 3rd day of September, A. D., 1934, then and there to answer a petition filed in said Court on the 30th day of July, A. D., 1934, in a suit, numbered on the docket of said Court as No. 6130, wherein Mrs. Willie Morgan, is Plaintiff, and Jessie Morgan, is Defendant, and said petition alleging that Plaintiff and Defendant were legally married the First day of December, 1912 and were separated on the 8th day of May, 1933.

Alleging grounds of cruelty, abuses and such excesses of conduct toward plaintiff by defendant as to render their further living together as husband and wife, insupportable. Plaintiff further alleges that three children were born of this union of which she asks custody and keeping of same.

That marriage relations still exist, and praying for dissolution of bonds of matrimony.

Herein fail not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Lubbock, Texas, this the 30th day of July, A. D., 1934.

CHAS. B. METCALFE, Clerk,
99th Dist. Court, Lubbock County.

COUNTIES ASK EXEMPTIONS

APPLICATIONS SENT TO STATE BOARD UNDER BANKHEAD ACT

COLLEGE STATION, Aug. 14. (AP)—First counties to send to the state allotment board completed applications for tax exemptions under the Bankhead act were Dewitt, Jim Wells, Lavaca, San Patricio, Fort Bend and Refugio. The board has received 30,000 applications for certificates from 25 counties.

Sunday afternoon and Monday, Aug. 5 and 6, the exension building at Texas A. and M. college as a scene of great activity as long—awaited blanks for use in administering the Bankhead act were received. More than twenty automobiles were loaded and dispatched to the four corners of the state, their staff member drivers determined to stop at each county seat only long enough to unload what was needed until all counties had been served. It was estimated that by sunrise Tuesday every county had been supplied and applications were expected to pour in.

Three Shifts Organized

The board has organized three shifts of workers to carry on twenty-four hours a day as long as necessary to get speedy actions on the applications.

In this connection E. R. Eudaly, chairman of the board, emphasized that the greatest speed can be made in the counties by accuracy in making out applications. "If the applications are hurried in without checking and have to be returned to a county that county will be further down the waiting line when the applications come in the second time than it would have been if a little more time had been spent on checking the first place," Eudaly said.

"County committees or adjustment assistants asking the board to set a 'deadline date' after which no applications may be taken in the county must be careful to ask for a date enough ahead so that notice may be published in the local paper prior to closing the period of taking applications," Mr. Eudaly said. He urged farmers to remember that this is "like a train passing through a station. If you don't get on the train when it stops you will be left behind and no one can make the train return for you."

Singers To Appear Here Next Friday

Final number on the artist course program for the summer session at Texas Technological college, the Fisk Jubilee Singers of Fisk university, Nashville, Tenn., will appear at Lubbock High school auditorium Friday night.

The group, a male quartet made up of graduates of the negro university, has just returned from a tour of Europe. The singers filled engagements in Paris, London, Berlin, Vienna, Munich, Amesterdam, Budapest, Prague, Zurich, and gave private concerts before Lady Astor, Premier Mussolini, and other European notables.

They have sung with the symphony orchestras of Boston, Chicago and Detroit, and are acknowledged to be the greatest exponents of negro spirtuals in the world today.

Of the 150,000 active physicians in the United States, about 100,000 are connected with hospitals.

SIDELIGHTS ON HATCHERYMEN

HATCHERYMEN ARRIVE EARLY

Hatcherymen began coming in from all sections of the state on Sunday and by Monday afternoon it looked like the whole convention was assembled—except the fellows who will do the listening. Most of the officers, directors and speakers were here.

DEMKE IS BUSY

"Chief ramrod" of the convention is "Hank" Demke of Stephenville, formerly of El Paso, president. Hank got in Saturday and began to work out details. He was busy all day Monday on three or four jobs, watching a couple of incubators being set up in the Hotel Lubbock lobby, shaking hands with the newcomers, talking "shop" with directors, and conferring with committees.

SECRETARY IS HERE

Mrs. T. J. Clark of Gainesville, secretary of the state association, came in with her husband, Dr. Clark. They are here for a good convention, they declared.

EXHIBIT ROOM SET ASIDE

Room 316 has been set aside for an exhibit room. There will be more space available when that room is filled.

CUNYUS MAY NOT ATTEND

Doubt was expressed by a delegation from College Station yesterday afternoon that Paul Cunyus, assistant extension poultry husbandman, would be here. A new girl arrived at Paul's house just before the crowd started and he said if he could settle down he would be up. Paul is known by nearly every poultry raiser on the South Plains.

"BIG SHOTS" HERE

W. F. Munnerlyn, associate professor of poultry husbandry at Texas A. and M., arrived yesterday afternoon with a car load of the "big shots." He had with him: Dr. M. A. Jull, Washington, senior poultry husbandman of the department of agriculture; Berley Winton, Kansas City, senior marketing expert of the AAA; J. A. Hannah, managing agent for the National Commercial and Breeder Hatchery Coordinating committee at Kansas City; Bert Heywang, superintendent of the U. S. D. A. experimental farm at Glendale, Ariz.

OFFICERS ARRIVE

All of the association officers and a majority of the directors are here. With President Demke are: Mrs. Carl Hoffman, Argyle, vice-president; Mrs. T. J. Clark, Gainesville, secretary-treasurer; Fred J. Glass, Arlington, I. B. C. A. director; Roy McDonald, Dallas; H. H. Drumm, Brenham, and C. G. Schletinger, Weimar, directors. Three more directors are expected today.

SHRADER IS HERE

H. L. Shrader, senior extension poultry husbandman, bureau of agriculture at Washington, and H. H. Drumm of Brenham came late yesterday.

OLD TIMERS ATTEND

SHANGHAI FACTORY CENTER

SHANGHAI (AP)—A survey of this port shows there are 3,118 Chinese factories in the city. Machine works head the list with 720, closely followed by textile works, of which there are 690.

FLASHES OF LIFE FROM EVERYWHERE

INTERESTING BITS OF NEWS GROUND FROM THE GRIST OF THE DAY'S HAPPENINGS

(By The Associated Press)

Hookey On Wane

LOUISVILLE, Ky.—Three members of the board of education didn't believe it when Fred Hess, attendance director for Louisville schools, announced that only one day out of 10,000 was a "hookey" day for Louisville school children, in the 1933-34 school year. But those are official figures, Hess said.

Turns Shylock

ALTOONA, Pa.—Mrs. Alverta Chambenux turned detective after thieves burglarized a cleaning and pressing establishment and stole several hundred dollars worth of garments, including her favorite dress.

With her husband, Mrs. Chambenux started a round of beer gardens. In one, she told police, she saw her dress on Mrs. Pearl Soyster, who was arrested. The latter implicated Walter Szymkec, 24, who, police said, confessed.

'Tain't Fair

SAXONBURG, Pa.—Residents of Saxonburg are proud of the height which their sunflowers reach, but Frank Seibert is proudest of all.

One of his sunflowers has a bloom 35 feet above the ground. It's because a squirrel or a bird buried the seed in a small knot hole in an apple tree, after which the plant sprouted 12 feet more.

Stream Lined

CHICAGO—It's the "streamlined fox trot" this season.

The creation of Josie Corbera and Elliott Vincent, here for the convention of the Chicago convention of dancing masters, the dance gets away to a "free wheeling" whirl, glides into a "knee-action" strut and concludes abruptly with a "hydraulic break."

PRODIGY WRITES VERSE

BUDAPEST (AP)—Hungary's latest child author, 13-year-old Judith Rasko, has won the praise of literary critics with a book of verse.

"G-3" gives Century of Progress its Tire Sensation!

Over the ramp—three wheels in air! Day after day—many times a day—Goodyear "G-3" tires have to stand such punishment. But with patented Goodyear Supertwist Cord in every ply, they come up smiling.

You can't take chances on side slips at a time like this. Barney Oldfield taking a curve at a 45° angle.

CRASH! Down in the "death valley" sandpit and out again!

Barney Oldfield Puts New Goodyears Through Terrific tests — in Spectacular Exhibitions at Chicago

MAYBE you've seen it—the smashing whirlwind of daredevil feats — the highspeed curves — the clouds of dirt — the plunging, bounding dash over chuckholes — the grind of brakes—as Barney Oldfield puts on his show in Chicago.

If you have — you don't need to be told that America's most famous racing driver can't afford to take chances on tires. Read his letter. It tells the story! It tells you why the famous Goodyear "G-3" is chosen to stand up under this punishment—just as it stood up *and kept on standing up* on the day and night grind of the Goodyear test fleet—to prove that it gives *43% longer non-skid mileage!* No wonder it is the biggest tire sensation in years—and the world's largest-selling tire today. With all its extra miles of safety — *it costs no more to buy!*

Mr. P. W. Litchfield, President
The Goodyear Tire & Rubber Co.
Akron, Ohio

August 1, 1934

Dear Mr. Litchfield:

You know that I know tires...I have to know tires...my life depends upon them.

At no time during my 32 years of professional driving have I made such extreme demands upon tires as I now make, continuously, at the Chrysler sand pits and test track on the Century of Progress grounds in Chicago.

The track is one-fourth mile long. Its surface is highly abrasive and its turns are unusually severe.

Unless my tires grip doggedly... unless they are so rugged of carcass as to withstand terrific friction heat and pile driver blows ... my daily exhibitions would be impossible.

And that's why I am exclusively using the famous Goodyear G3 All-Weathers.

Since the very beginning of automobile racing, no tires have been called upon to withstand such extreme punishment. But those G3's can take it... not a tire failure so far this season!

And they're strictly stock tires...exactly the same tires the general public buys from Goodyear dealers...whereas tires used in races such as the Memorial Day 500 mile classic and similar events are especially constructed and not sold to or suitable for the general motoring public.

I sincerely congratulate Goodyear upon having developed this really sensational new tire.

You know me,
Barney Oldfield
Barney Oldfield

P.S. Naturally I have equipped the cars driven by Mrs. Oldfield and Betty, my daughter, with G3's.

— Murder at MOCKING HOUSE —BY WALTER C. BROWN—

(Continued From Page 6)

of this house last night and there was no one in hiding, waiting for a chance to sneak out. So, if no one left the house after the shooting, and no one was in the house when we searched it, there's an end of the matter."

Harper smiled doggedly. "No, that's not the end of the matter. I already have hints of certain things that require explaining. We're going to sit down in this room and reconstruct this affair, movement by movement. If it really was an unforeseen and aimless business, then every single bit of evidence we have gathered will fit into place—if it does not, then something has been tampered with!"

"But who could have tampered with it? This room has been under guard every minute since Hilleary first looked in and saw the bodies."

"Exactly. But what about the interval between the shooting and Hilleary's arrival?" the detective asked, drily.

"Certainly, but you've just finished proving to me that no one could have left here after the shooting without leaving tracks in the snow and I know that no one was hidden in the house. What are you driving at?"

"Simply this—the visible evidence tends to show that these two men were absolutely alone in this house and that they killed each other. But if the evidence leads us to impossibilities, then the evidence must be wrong."

Lafferty gave his superior a knowing look. "Then you have got something up your sleeve," he accused.

"No, I haven't, except an instinctive feeling that we're going to run into some mighty queer things. Now, let's have a look at Jackson's surprise package. Perhaps we'll get some help from it."

Harper began to open the sealed envelopes marked with his name. "While I get these sorted and arranged," he suggested, "suppose you step outside and check over my work on the footprints. There was only one mark anywhere in the snow that I couldn't account for."

The detective put down a little X on his sketch. "There it is, a curved gash in the snow about twenty feet from the side of the house. Just the one solitary mark and not more than an inch below the top surface. It's the sort of mark that would be made by a bent twig, except that there is nothing buried there in the snow. It is about eight or ten inches long. I can't see any significance, but you'd better take a look and see if you can explain it. We may as well be thorough."

Lafferty took the sketch drawn by Harper and left, while the latter spread out on the table all the material that had come up from Headquarters. But, before he had a chance to delve into this, there was a discreet tapping at the door and Andrews' grave face appeared in response to the detective's invitation to enter.

"There is a Mr. Howard Doyle to see you, sir," the butler announced, "but the officer won't let him in unless you say so."

"That's all right, Andrews, let him come in."

The butler gave his stiff, jerky nod and withdrew, and shortly afterward the Daily Ledger's crime reporter entered. "How are tricks, Sergeant?" he asked in his usual breezy way. "For a minute I thought I was persona non grata around here."

"Pull over a chair, Doyle. I've been wanting to have a few words with you and I may as well get them off my chest right now."

The reporter brought a chair over to the table, and sat down, unbuttoning his overcoat. "Listen, Harper, before you start talking, answer me one question. Did you say anything about what I did last night? Just answer yes or no, and no hard feelings either way."

"I did not."

"How about Captain Macklin?"

Harper shook his head. "I'm in full charge of this case, Doyle. Macklin wouldn't do anything like that without consulting me first. The chances are he doesn't even know about it."

Doyle lit a cigarette and took several puffs in silence, his eyes fixed on a corner of the ceiling. "Get this, Harper. I've been pulled off the case. What does that sound like to you?"

"It sounds to me as if Dufresne has had something to say to your front office," Harper replied promptly, "and after that bonehead play of yours I'm not surprised."

"Bonehead play, you call it?" Doyle grinned impishly. "Listen, Harper, you'll be plenty glad I made it before I leave here."

Dead Doctor Heals Stomach Ailments

A weird story is told of a well-known specialist reaching from the grave to curb stomach suffering. Years ago this doctor created a prescription for stomach ulcers, acid stomach, gas pains, heartburn, indigestion, bloating, belching, and other symptoms when caused by excess acid. Then the good doctor died. But his name brought fame after death as one user told another of his wonderful prescription. In the past six years, 54,169 grateful persons have written letters telling of their recoveries. This prescription is now known to hundreds of thousands as the Udga Treatment. All stomach sufferers may have a free sample by writing to Udga, Suite 66, Foot-Schulze Bldg., St. Paul, Minn. The seven-day trial box of Udga Tablets is sold under a money-back guarantee of satisfaction by

Stop Chills and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any store. Now two sizes—50c and $1. The $1 size contains 2½ times as much as the 50c size and gives you 25% more for your money.—Adv.
