Cotton Tax Exemption Certificates to Be Available Fri.

WILL BE GIVEN OUT AT C OF C IN AFTERNOON

Cotton producers who made application here for tax exemption certificates under the Bankhead cotton reduction law, may receive their certificates tomorrow afternoon at the chamber of commerce, County Agent J. C. Patterson announced today.

A representative of the county agent or Mr. Patterson himself will be here all afternoon to deliver the certificates. Certificates will also be delivered Friday afternoon to growers at Gorman and Ranger. Friday morning growers who made application at Rising Star, Carbon and Eastland may receive their certificates at those places, it was announced.

Each grower must go to the place where he applied to receive his certificate. In case he does not obtain it there Friday, it will be necessary for him to go to Eastland.

No Errors Corrected Friday
"Positively none will be delivered to other than the addressee except on power of attorney or witnessed written order," said the county agent. He also said that no errors will be corrected on Friday. If such occur, complaint must be held over until after Friday because of the pressure of time for making the deliveries.

These certificates will entitle the growers to sell all of the cotton that they have been allowed to produce tax free under the Bankhead act regulations. Previously they were permitted to sell 50 per cent of the county committee's estimate of their allocations, temporary certificates being issued for this purpose. These temporary certificates were retained by the gins, and upon presentation of the regular certificates the gin will release for sale the amount of the grower's cotton that his certificate allows tax-free above the amount in the temporary certificate.

Discrimination Charges Increase

ATLANTA, Ga., Sept. 27. — Increasing charges of discrimination against returning textile strikers gave warning of a fresh crisis in southern mill centers today.

In the Carolinas and Georgia union leaders accuse mill owners of effecting a "wholesale lockout" of organized textile workers.

PRESIDENT ACTS TO MEET COMPLAINTS

WASHINGTON, D. C., Sept. 27. — President Roosevelt acted speedily today to meet a rising chorus of complaints of discrimination against returning strikers of the textile industry. The president named a new national textile labor relations board composed of the same personnel as the new labor relations board appointed at the time of the steel strike threat in early summer.

Ex-Convict Hunted In Murder of Girl

DETROIT, Mich., Sept. 27. — A relentless hunt for M. W. Goodrich, suspected attacker and slayer of 11-year-old Lillian Gallagher, spread out over Michigan and neighboring states today, while precautions were taken against letting other school children endanger themselves as Lillian did.

Lillian, normally shy and slow to make friends, was seized by her slayer as she was selling punchboard tickets for a school benefit.

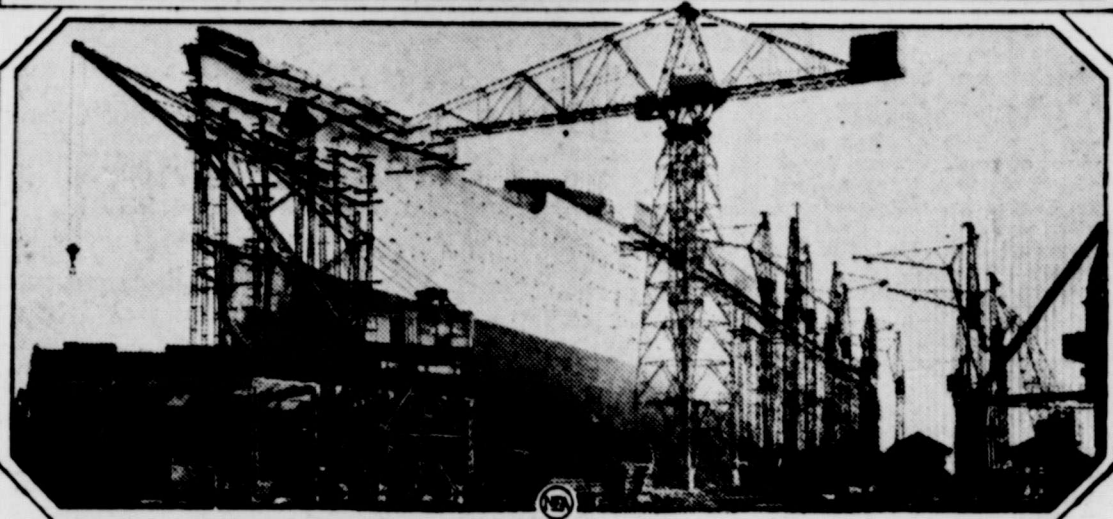

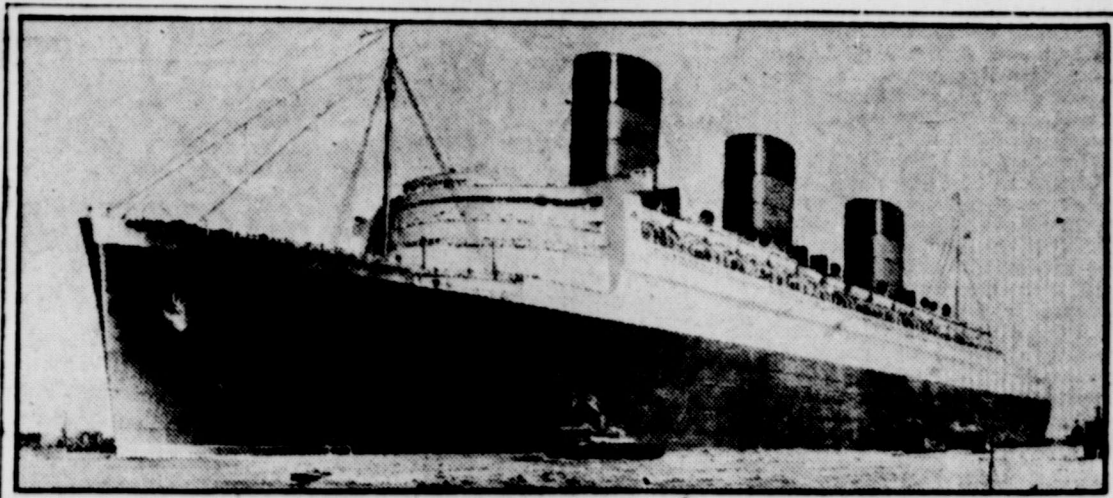

Goodrich, released last January from the state hospital for criminally insane in Ohio, where he was sentenced for attacking a 12-year-old school girl, occupied the apartment where Lillian's body was found yesterday. His description was broadcast throughout the country.

WEATHER

East Texas—Partly cloudy to cloudy Friday with showers near the west coast; warmer in the north portion.

West Texas—Partly cloudy and warmer in north; partly cloudy and warmer in east central.

Queen Launches Huge Mystery Liner

INTERNAT'L AIR AWARD VOTED TO WILEY POST

By THOMAS COPE

United Press Staff Correspondent
PARIS, Sept. 27. — One of the most memorable ceremonies scheduled for the World Air congress opening in Washington Oct. 8, will be the award to Wiley Post of the International Aeronautical federation's annual gold medal for the outstanding aviation feat of 1933.

Post was chosen over Marshal Balbo, the Lituanian-American ocean flier, Darius and Gienas, and J. V. Smirnoff, heroic Holland-Dutch East Indies mail pilot.

The fact that Post flew around the world alone made a deep impression on officials of the international air board. So well known were the details of his feat that Jay Ide, Paris embassy attaché on the National Advisory Committee for Aeronautics, to remind the 16 judges that:

Post flew 30,000 kilometers day and night, alone, over land and sea. Covered an average of 3,700 kilometers per day.

Maintained an average speed of 160 kilometers an hour.

Established, unassisted, a round-the-world record of eight days.

Even the superb Rome-Chicago-Rome flight of Italo Balbo's 100 men in 24 biplanes was forced to take second place before such a courageous performance. And anyway, Balbo already had received the medal two years ago in recompense for his squadron flight to South America.

Post was awarded the medal on two ballots: the first, from which two judges abstained, was Post, 7; Balbo, 6; Smirnoff, 1. The second: Post, 9; Balbo, 7.

All-Day Singing at Nazarene Church Sun.

The old-fashioned day when the church was the center of the social activity of the community will be revived in character when the Nazarene church holds an "all-day" with dinner on the ground Sunday, it was announced today by the pastor, Rev. Luther Pryor.

Marlin Keeton, instructor who is conducting singing classes at the church, will direct the music.

The event is a fifth Sunday program to which visitors will come from Rising Star, Albany, Abilene, Moran and other communities, the Rev. Mr. Pryor said.

All Glasgow worked feverishly in preparation for the launching of the Cunard mystery liner 534, which was christened by Queen Mary of England, on Wednesday, September 26. Although now nearing completion, as is shown in the lower picture, many months more of work will be required to get the craft ready for sea. When Queen Mary broke the traditional bottle of champagne against the rounded prow, the name of the vessel was revealed for the first time. She christened it with her own, "Queen Mary." The hull will be the largest afloat — 1018 feet long, 234 feet high and weighing more than 73,000 tons.

FD STATEMENT IS DUE IN 24 HOURS ON NRA

WASHINGTON, D. C., Sept. 27. — President Roosevelt will announce within 24 hours the personnel of a board of five to head the revised NRA, the White House announced today.

It was possible that the announcement would be ready before he left his desk late today.

Observers of the reorganization situation expected the board would be entrusted with the task of developing other phases of the revised recovery picture.

No indication was given by the White House as to the men the president has in mind for the five jobs. To questions as to whether Bernard Baruch, New York financier, would be a member it was said that such an appointment appeared unlikely. The same applied also to Donald Richberg, chief NRA counsel.

PRESIDENT'S SPEECH TO BE BROADCAST

NEW YORK, Sept. 27. — President Roosevelt's address before the conference on current problems at 10:30 p. m. EDT (8:30 CST) tonight will be broadcast over a national radio hookup.

Two-Headed Calf Is Reported at Cheaney

RANGER, Sept. 27. — A two-headed calf was born on the farm of Cam Lee who lives on a rural route out of Ranger near Cheaney, it was reported Tuesday morning.

The calf was well developed otherwise, but was killed and is being studied by Dr. Williams.

The calf was born to a full-blood Jersey cow, Mr. Lee reported.

30-DAY DELAY IN FUNDS FOR RELIEF LIKELY

EASTLAND, Sept. 27. — According to a letter received from Austin Monday, by the Eastland county general relief board, state funds for October if granted by the legislature would not be available for thirty days.

H. E. Driscoll, county administrator in telling of the contents of the letter said the following: "Monday the Eastland county relief board received from Austin an estimate for October on which is placed the figures showing total funds required to cover the needs of the county for the month of October. We are also advised due to the fact that the legislature has not acted concerning relief measures at times the letter was written."

"Austin could not definitely tell us any funds would be available for October and states that when they have acted it would be at least 30 days before any state funds would be available."

"To date we are not promised any federal funds but it is required we submit our estimate promptly, and we were also advised accordingly to conserve our present unobligated funds as much as possible."

Funds for the last half of September amounting to \$17,500 arrived at the Eastland county general relief office in Eastland last week.

Aged Couple Die in Flames; Murder Seen

ATHENS, Sept. 27. — Henderson county officers today inclined to the theory that the death of an aged farm couple in flames that destroyed their home was a case of murder. It was learned that W. T. German, 73, and his 75-year-old wife, who lived alone near Stockard, had approximately \$200 in the house before it was burned Sunday night. Officers considered robbery a possible motive for foul play.

2 Deaths Occur in Chicago Bus Strike

CHICAGO, Sept. 27. — Two deaths were recorded today as a result of violence in Chicago's six weeks old bus driver strike.

Mrs. Mary Kinnard, 65, died two hours after being struck on the head by a steel ball bearing hurled through a bus window. James Kelly, 49, dispatcher for the motor coach company, died this morning of bullet wounds and a beating inflicted by paid slugs.

BIDS CALLED ON MILLION IN RELIEF BONDS

AUSTIN, Sept. 27. — The state bond sale commission today called for bids to be opened, Saturday, October 6, on the first \$1,000,000 worth of relief bonds issued by the recent session of the Texas legislature.

Relief bonds bidders were asked to bid in the interest rate, provided the amount does not exceed 4 and one-quarter per cent, the rate limit set by the legislature. The board of control was asked to advertise immediately for bids on printing the bonds.

Simultaneously the state board of control demanded efficiency and harmony in the statewide relief set-up.

"County board members and relief employees whose usefulness has ceased because of friction, inability or misunderstanding, should graciously, patriotically and voluntarily retire," the board declared in a statement.

County welfare boards and relief organizations will be retained where effective relief service is being rendered.

"Worthy and efficient employees will be retained regardless of political, church or other affiliations," the board said.

"Preacher" Is Theme Of Rotary Address

"The preacher is a citizen who is entitled to no more special consideration than any other Christian man," said the Rev. E. S. Jones, pastor of the First Baptist church, to the Rotary club today. At the invitation of Rotarian J. Stuart Pearce, Presbyterian pastor, the Baptist minister made a "classification" talk that the club heard attentively. A preacher, said Mr. Jones, is a man dedicated to a mission of serving humanity for a reward that is not available in the coin of things earthly. He dislikes to be called "reverend" for the reason that he is no more so than any other Christian person, and he much prefers to be known as "Pastor" or even "Parson," said the speaker.

His obligations are the same as those of other honest people—to pay his debts, to discharge the duties of his profession, to the best of his ability, and to be a good citizen, said the minister. His privileges do not include the right to impose upon or take advantage of his fellows, the business man from whom he buys, or the professional man whose service he seeks. They do include, the speaker explained, the privilege of comforting people in sorrow. "If there was ever a time when the work of the preacher should be more evident in undergirding the faith of the people it is in this time when the hand of fear has got its grip upon them," said he.

Burkett Tells Heath Bar Is Still Valid

AUSTIN, Sept. 27. — Atty. Joe Burkett of San Antonio today notified Sec'y of State W. W. Heath that contempt proceedings will result if the secretary certifies James V. Allred as democratic candidate for governor.

Heath had telegraphed Burkett that he was going to certify the name on September 30 or October 1. Burkett notified Heath that the district court injunction against certification is still in force. The fourth court of civil appeals held the injunction invalid, but Burkett pointed out the appellate court's ruling does not become final for 15 days because a rehearing may be asked within that time.

Quannah Man Fatally Shot While Hunting

QUANAH, Sept. 27. — Land Wall, 37, manager of the Quannah Water company, was shot and killed today while hunting doves six miles north-east of here. He was alone at the time, but investigators believed his shotgun was accidentally discharged as he left his automobile. The charge struck him in the chest.

Prepare for Flight to Rome

Working against time to have everything in readiness for a hop-off before the autumn storms make trans-Atlantic flying too hazardous, Robert Huhn (left) and Salvatore Martino, Brooklyn aviators, are preparing their plane for an attempted non-stop flight from New York to Rome. They hope to win the \$25,000 prize offered for such a feat by the Italian government.

ing their plane for an attempted non-stop flight from New York to Rome. They hope to win the \$25,000 prize offered for such a feat by the Italian government.

Seven Convicts Escape Prison at McAlester

CISCO BONDS ARE RECEIVED FOR PAYMENTS

Cisco municipal bonds are beginning to come in in larger numbers for endorsement and payment of the one per cent agreed upon under a settlement recently reached by the city with bondholder representatives, according to City Sec'y J. B. Cate.

Four thousand dollars in bonds yesterday were properly endorsed and returned to the Security Trust company of Waco with the city's check for one per cent of their face value. The bank acted as agency for the owners of the bonds.

At least \$125,000 more are due to be received for payment of the one per cent within the next few days, Cate said. Inquiries as to the procedure to be followed in applying for the payment have been answered. In one instance a \$90,000 block is involved.

Hickman's Name Left Off List of Nominees

An oversight in leaving the name of Chief Justice J. E. Hickman off the 11th court of civil appeals off the list of democratic nominees sent out from the state democratic chairman's headquarters at Houston to county chairman for certification for the ballot is being corrected by the state chairman's office, County Chairman Earl Conner, Jr., said yesterday afternoon at Eastland.

As explained by Conner, the state chairman prepares a list of all democratic nominees in the state and sends this to each county committee which marks out names not to be voted on in the county, and certifies the remainder for the ballot. Judge Hickman's name was inadvertently left off the list sent to the 21 counties of the 11th civil appeals district. He had no opponent in the summer primaries.

To make certain that the oversight is corrected, said Conner, he was writing a letter to the state chairman yesterday. He said that the situation was no more serious than requiring the state chairman's office to send the name of Justice Hickman to each of the 21 counties for proper certification and would not result in the name being left off the ballot. The nomination of Justice Hickman, said Conner, was properly certified to the state committee by the Eastland county committee.

\$100,000 BAIL IS ALLOWED AT ARRAIGNMENT

NEW YORK, Sept. 27. — Col. Chas. A. Lindbergh, in a disguise of a grey cap and horn-rimmed glasses, studied the face of Bruno R. Hauptmann for ten minutes today and a few hours later District Attorney Samuel Foley was quoted as saying that he was convinced that Hauptmann was one of the actual kidnapers of the Lindbergh baby.

Lindbergh in consulting Hauptmann did so at his own request and the interview idea came as a dramatic prelude to the prisoner's arraignment on extortion charges.

Hauptmann was allowed bail of \$100,000 after a plea of not guilty. After the arraignment, Foley resumed questioning of possible witnesses, including Miss Anita Lutzenberg, a friend of Hauptmann, and officials in the district attorney's office said Foley was convinced of Hauptmann's participation in the abduction as well as the ransom negotiations.

For the first time Foley declared his belief that more than one person was involved in the case.

"Hauptmann was not a lone wolf," he said. It was known that federal agents already were seeking an alleged accomplice.

MISS BRITAIN'S FATE NEARING JURY DECISION

SEYMOUR, Sept. 27. — The case of Miss Ruby Britain, 39, charged with murder in the fatal shooting of Horace E. Nichols, Seymour banker, last August 15, was expected to go to the district court jury this afternoon.

Testimony was completed shortly before noon. There was practically no rebuttal testimony offered. The state failed to gain ground in cross-examining the defendant.

Miss Britain today told the jury of the great love she bore the man she is accused of slaying. "He was everything in the world to me," Miss Britain said.

Miss Britain on the stand admitted an "affair" with Nichols and said it had run about a year when she learned he was "going with young girls."

The state will ask the death penalty for Miss Britain, whose attorneys are attempting to build their case on self-defense.

MILK DITHE TRICK

MANSFIELD, Conn., Sept. 27. — When dirt failed to check a fire in the engine of a stranger's stalled automobile, Victor Rapport, member of the state milk control board, grabbed a quart of milk and threw it on the flames. The blaze was extinguished.

\$50,000 Suit Filed Against Gas Co.

WACO, Sept. 27. — Walter S. Stewart of this city, has filed suit for \$50,000 against the Texas Cities Gas company, in district court, alleging that employees while installing a refrigerator in his home connected, without his consent and knowledge, a water pipe to a sewer line.

The contamination caused his wife to contract amoebic dysentery, which proved fatal. She died July 22, after having been unable to eat for 60 days and unable to drink water for 30 days, the petition states, food and drink being injected into her veins.

WHITLOCK ESTATE LISTED
TOLEDO, O., Sept. 27. — The late Brand Whitlock, beloved one-time Toledo mayor and former Ambassador to Belgium, left an estate of \$102,314 net value, according to an inventory filed in probate court here.

PICTURE OF PEACE: The wolf also shall dwell with the lamb, and the leopard shall lie down with the kid; and the calf and the young lion and the fating together; and a little child shall lead them.—Isaiah 11: 6.

These Have a Mighty Hard Job

The nervous strain of his duties as administrator of the Bankhead act in Eastland county was said to have contributed to the untimely death Monday of R. F. Lawrence, 33, county Bankhead act administrator and assistant to County Agent J. C. Patterson. Mr. Lawrence died after an emergency operation for stomach ulcers at Bryan, Texas. He was buried Wednesday at Big Spring, his home.

The burdens that have been imposed upon the county agents and their assistants by the government's crop control program are little appreciated by the farmer for whose benefit the program has been undertaken. The duties, so far as the county agent is concerned, are additional to his regular work. The responsibility for fixing allotments under the Bankhead act is not the administrator's nor the county agent's, but that of a committee designated for that purpose. Neither the administrator nor the county agent can change these allotments. Their duty is to see that the regulations are observed.

What with a cattle buying program on hand a Bankhead act administration under way and half a dozen other phases of the agricultural adjustment program requiring attention and detailed application, the life of the men and women who are administering these duties locally is certainly not an easy one. "I act a fool half the time just to keep from going crazy over it," said one. "If I didn't I'd be in the bughouse in a mighty short time."

The mental strain of listening to hundreds of complaints, absorbing the shocks from dissatisfied producers, working out the details of the application of the various programs, explaining, listening, talking and so forth is not one to be endured by a weakling. The physical work is of itself a tiring task.

And, while there is a great deal more satisfaction with the effects of the program than dissatisfaction, it is a safe bet that the county agent and the men and women who help him hear mighty little of the former and practically all of the latter.

These men and women and their services to the producers and the farmers ought to be appreciated by those who reap the benefits of their labors. A little thanks now and then will do much toward helping them put over a mighty hard job.

The Pollard Verdict

The two weeks trial of Claude Pollard, former attorney-general, on a charge that he consented to the use of illegal cigarette stamps came to a highly satisfactory end. Mr. Pollard was indicted by a Travis county grand jury. The indictment was an instruction to the district attorney, young Jim Hart, to prosecute the case. He got an early setting, much to Mr. Pollard's satisfaction, and prosecuted the case vigorously and manfully. His aim was to see that justice was done, and the state may always gain more satisfaction that an innocent man is acquitted than that a dozen guilty men are convicted.

Mr. Pollard was vindicated completely, a matter of much satisfaction to his friends. Aside from the personal hope that the verdict would be returned, many persons also expressed a feeling that it would be a serious blow to the dignity of office holding should a man so highly honored stoop to the device of which Mr. Pollard was accused.

The indictment appeared doubtful from the start, and as the evidence was unfolded the error became more apparent. There was revealed, however, that certain witnesses had knowledge of actions for which further criminal prosecution is in order. No doubt Mr. Hart will take the steps necessary to bring the others accused in the cigarette stamp fraud trial at a reasonably early date.

Thirty Million for a Maritime Mission of Peace

In his address at the launching of the huge British liner, "Queen Mary" yesterday, King George said: "This one is built to carry the people of two lands, in great numbers, to and fro, so that they may learn to understand each other. Both are faced with similar problems, and they prosper and suffer together. May she in her career bear many thousands of each race to visit each other as students and return as friends. May her life among the great waters spread friendship among the nations." He was speaking of England and the United States. It is a great and peaceful mission for a \$30,000,000 example of maritime architecture. Yet as much is spent upon a single vessel, sheathed in steel and bristling with guns. What may be the influence of that type of ship? Perhaps enough of the peaceful type to carry people "to and fro" may eventually generate sufficient understanding to make the latter unnecessary.

THE UNFINISHED MASTERPIECE

Through the Editor's Spectacles

by GEORGE

Proving that there are always two sides to every issue, a fair reader and equally fair critic of this column demands I also insist that school children stop teasing her dog. I don't want him to be irritated, but unless the boys and girls who pass our home to and from school do not stop teasing him, he will be," she explained.

The request was inspired by my comments the other day upon the fact that some parents have complained to police that dogs on the route to school were making threatening advances toward their children. I submit that the request of the lady, who has a dog is just as much entitled to consideration as the complaint of one who has been troubled by an ill-tempered pet. If you don't want the dog to make faces at you, don't make faces at the dog.

It has come to my attention that some inadvertency in the news item telling of the public subscrip-

tion for purchase of new light globes for Chesley field got the fact mixed in the minds of some of the readers. Without bothering to learn what the misimpression was, let the state the following facts: Enough money was raised by the committee to purchase 20 of the 1-500-watt globes needed, the school board guaranteeing a small amount. D. E. Perry loaned the school seven of the lighted globes. The 27 new ones plus the 21 sound ones that survived the 22 rifles of thoughtless young marksmen during the summer were sufficient to equip the field. Business men contributed the money. The WTU sold the globes at wholesale.

A telegram from New Britain, Conn., bears unfortunate news. Miss Catherine Cunningham, of the Crawford Insurance Agency, on a months vacation in the north and east, underwent an emergency appendectomy, Wednesday morning. Miss Tilla Bell Simmons, of the Humble company here, Miss Cunningham's companion on vacation, sent the message. She said Miss Cunningham was doing well. The girls had planned to see a football game at Annapolis, Md., Saturday.

The grammar school Midgets, after vanquishing half the football strength the Cisco Boy Scouts, dars

tomorrow afternoon to take on the power of both troops at Chesley field.

Meantime, the Midgets are campaigning with tickets at a dime per each, seeking spectators and the cash. The spectators are wanted for purposes of yelling and the cash for purposes of parts.

The Midgets are younger brothers of the Lobes and they get the cast-offs. What the Lobes are through with, they get and the getting isn't always so good. Particularly since the eight-semester rule and the in-creasing precocity of the boys of this day and age have reduced the size of the players, does this fact make it self felt. Midgets has proven itself a happy and appropriate title. The spectacle of eleven earnest youngsters hanging onto the slack of a big brother's discarded pants with one first and a football with the other end, the choice of that name some years ago with an aura of the prophetic.

What these babies need is some pants of their own. They need some helmets that won't have to be supported by their ears. They need several other things. It occurs to me there is a good opportunity for some big-hearted business man with means and a flair for showmanship to adopt these youngsters and fit them out as a handsome little squad to delight the football-minded folks between big games spectacles.

These small team will play a brand of football that will surprise you. And right there is the beginning of championships.

Texas Topics

by RAYMOND BROOKS

AUSTIN, Sept. 27.—Appeal of the Texas centennial commission for the legislative aid pledged in a constitutional amendment, reached the legislature too late for action at the special session, since Centennial officials did not ask a hearing until Monday before a adjournment Tuesday. This presentation though had the effect of leaving the centennial the minds of present lawmakers, for attention at another session, or for at the session of those who will return in January.

The people by constitutional amendment authorized the legislature to supplement other funds by direct appropriation. This will be cited as a mandate as no doubt it may have been, in asking state cooperation commensurate with the magnitude of the exposition to be planned for 1936.

Miss Jonnie Mae Watson of Austin is among earliest of the candidates to announce for elective office in the legislature. Miss Watson has informed members of the special session she will ask for the office of calendar clerk of the house in the new regular session.

The election of governor and lieutenant governor is officially certified in a way different from that of any other. The returns in these two elections are canvassed by the legislature, and the officials installed in the presence of joint sessions the Tuesday following the beginning of the regular session. The legislature has the authority

to fix the date of its regular session but not to change the date of inauguration and it is barely possible at some time the inauguration should come along when the legislature was not in session.

Chmn. Tucker Royall of the tender committee of the East Texas oil field, and other members of the committee joined in urging the legislature to enact the refinery products bill, amending and making stronger the hot oil law. "The railroad commission," they said, "in our opinion is definitely and effectively striving to provide orderly production of oil. They need the statute clarified to cover products of petroleum so as to prevent excessive production."

STAR SIGNALS

By OCTAVINE

September 28
An optimistic outlook should start the day off well, but do not allow illusion or diffusion to carry you off on a wild goose chase. Be careful when handling papers or in travel. There is good vibration, but it might be hidden because of small unimportant events which follow.

Birthdate
You should have the power of comparison well developed. There are many hairdressers or barbers who have today's influence strong in their charts. There are slight changes indicated for you from June 6 through Oct. 19, 1935. Be careful of your health from March 13 through April 6, 1935. You should have a period from Oct. 29 through Nov. 7, 1934, of financial advancement.

Danger Dec. 19, 20, 21, 1934. Socially favorable Oct. 8 and 9, 1934.

THIS CURIOUS WORLD

By William Ferguson

EVERY CONTINENT

IS AN ISLAND, BUT EVERY ISLAND IS NOT AN ISLAND!

THE WESTERN END OF THE CONTINENT OF ASIA IS GIVEN THE STATUS OF A SEPARATE CONTINENT, UNDER THE NAME OF EUROPE. AND THE BRITISH ISLANDS ARE A PART OF THE CONTINENT OF EUROPE!

ADMIRAL PEARY FOUND 26 SPECIES OF BIRDS NESTING WITHIN 450 MILES OF THE NORTH POLE.

THE SALT IN THE OCEAN WOULD COVER THE ENTIRE UNITED STATES WITH A LAYER A MILE AND A HALF THICK!

THERE are about 316,000,000 cubic miles of water in the oceans of the world, and in this water there are some 5,000,000 cubic miles of salt. The salt has formed through the wearing down of the land, which is carried as dust and sand into the sea.

BEACH CLUB GIRL

MADELL McELIOTT

BEGIN HERE TODAY
BOOTS HATHORN, 18, closes with HENRY LIND, swimming instructor. When he goes to Florida, promising to send for her later, she goes to work in a department store.

Runs does not write. Months ago and then comes word that he has been killed in a motorboat accident.

Boots meets DENIS PENWAY, young Edward, and EDWARD VAN STEEL, wealthy and socially prominent. Boots is in love with Denis and jealous of beautiful SALLY CHILLINGFORD.

Boots gets a job in a book store and goes home to live in order to help her parents financially. Edward repeatedly argues to marry him and finally she agrees. On Christmas they try to go for a walk in the fog. Edward is badly hurt saving her from a reckless driver.

NOW GO ON WITH THE STORY CHAPTER XLIII

DENIS came over to talk to Boots about Edward that night. "I ought to telephone him," she retorted, "but when I call the nurse says he's resting comfortably and that's all. Don't you think the doctor ought to let me go down here? I want to."

Denis was reassuring; he was a very tower of comfort. His coldness and aloofness had dropped from him like a garment. The doctor was perfectly right, he said. He was getting along like a house on fire. He had grinned as he told about the cast they were putting on. And he had particularly stipulated that Boots was to stay in bed and remain perfectly quiet until La Farge had given other orders.

Her ruffled hair, her pink, woolly jacket made her look young and feverish. There was a glitter in her eyes.

"This was a punishment for me for not appreciating Edward as I should have," she told Denis excitedly. "I want to marry him right away, and make up to him for it."

"Don't talk so foolishly," he said sternly. "You had nothing whatever to do with it. It was a combination of reckless driver and heavy fog—that was all."

Isabel called up and even Patty called in the days that followed. On the third afternoon Boots was allowed to move rather shakily about her room. That evening Denis drove her down to the brick building on one of New Market's side streets and she saw Edward, looking big and handsome in the narrow hospital bed.

He laughed at the nurses; he laughed at everything. It was a riot, he said cheerfully. Boots was a sweet thing to worry about him, but look—his wave included the baskets of fruit and flowers, the bright jacketed books, the telegrams. There was even a box phonograph on a corner which ground out the tunes of the day.

DENIS stayed on at the Hartes. Often and often during those first weeks he drove her down to New Market to see the smiling young man in the big bed. Edward greeted them, grinning. The doctor was "nuts," he said cheerfully. He expected him to stay there on his back for six weeks! Meantime the music box tinkled cheerily away, the books and baskets from Fifth Avenue confectioners continued to arrive and to be distributed grandly among the patients and nursing staff. Edward's mother arrived magnificently during the first week and, having assured herself that her son was in no danger, swept majestically off to Florida.

"You're my family," Edward told

Boots as Denis ranged about the room, smoking cigar after cigar. "Look after her, won't you, Danny?"

Denis had nodded restively. Boots was still at the shop. She would not tender her resignation until their marriage date was a certain thing. But the strain of the long winter was beginning to tell on her. She grew paler, noticeably thinner. There were always dark circles under her eyes now.

The doctor frowned thoughtfully whenever the invalid spoke of leaving the hospital. A little longer, he counseled. Better not rush it. A break like that was a serious thing, not to be trifled with.

"They're crazy about me here," Edward said, chortling. "They don't want to let me go."

There was a little nurse with Irish eyes and a wayward cap who had been on night duty for a while. Now the patient no longer noticed that service but Boots noticed idly that Miss Kerrigan was always somewhere about. She had "an appendectomy" just down the hall, she said early, but that was coming along all right. It appeared she had time to spare to dawdle in Mr. Van Sciver's doorway, listening, chatting merrily.

February raged out and Edward was in a wheel chair. He could walk next week, Dr. La Farge said. It seemed odd to think of the tall young man taking a few tentative, almost frightening steps. Better not rush it.

The coal bills piled up at home. Boots paid one, paid something on another. Her father chafed at the restraints of the winter, also. Once Edward had spoken haltingly of the loan but Boots had been so proud in her refusal that he had not mentioned the matter since.

BOZE ATTEMPT NOT FIRST TO BLAST CLOUDS

By William Ferguson

SEABURG, Sept. 26 — Efforts to clear the sky from Texas skies by high explosives were made many years ago. James A. Boze conducted his first and fatal attempt by airplane in 1890. S. S. Simmons, resident of Texas for more than 40 years, who saw the rainmakers at work in 1890.

Corpus Christi was enjoying a severe drought in that year, he recalled. A severe drought began to cause damage and relief was sorely needed.

Boze and citizens finally held a meeting to decide upon a course of action. One of their number was a Major Dryanforth whose successful in other sections of the country. A purse was raised for the major brought to Corpus Christi, along with a corps of assistants, special balloons and time.

The balloons ascended properly and the heavens were torn by numerous explosions, but no rain fell.

Then a group of cattlemen in the county also were afflicted with the drought, heard of the Major's success and decided to try the same. Another purse was raised and Major Dryanforth was sent to the South Texas ranges with his bulky equipment and numerous assistants.

He bombed the heavens almost continually for hours but produced no rain. After waiting in vain for moisture, the Major left the county, taking his entourage and several thousand dollars — and leaving the ranges as dry as when he came.

DESDEMONA

On Monday Mrs. Z. L. Howell was on a surprise party by a number of ladies of the Olden Methodist church who came down and spent the day. Each one who came brought a covered dish for the noon meal. The occasion of the party was for the presentation of a quilt which had made for Mrs. Howell, those who came were: Miss Sue Hamilton, and Mmes. Charles Young, Russell Horner, Thomas Stanton, Frank Huddleston, Vermilion, Pledger and Mitchell.

Mmes. A. C. Robert, A. C. Moore and Mattie Henry drove over to Desdemona Saturday to arrange for the printing of the year books for 1935. Study club.

Mr. and Mrs. Joe Thompson, of Ranger, and their two small children, took dinner Friday with Mr. and Mrs. A. C. Robert. They were on their way to Jonesboro to visit Mrs. Thompson's parents, Mr. and Mrs. W. C. Kellum.

Debert L. Acrea of Oakland, Cal., visited his parents, Mr. and Mrs. T. L. Acrea, with an overnight visit Monday of last week. He was on his way to Omaha, Neb., to attend the convention of the insurance company of which he is district manager of the California branch. Debert is well known in Desdemona having worked in the postoffice here some years ago. His many friends were sorry he could not stop for a longer visit.

Mr. and Mrs. Arthur Brazell attended the county fair at Eastland Saturday.

Mr. and Mrs. W. H. Davis attended the county fair at Eastland Thursday.

Mr. and Mrs. J. H. Adams and daughter, Miss Imogene Adams and Mr. and Mrs. Robert Sneed visited in Eastland Friday night.

Mrs. C. D. Wooten and two small children of Eddy are guests of her parents, Rev. and Mrs. Z. L. Howell. Tip Henry attended the county fair at Eastland Saturday.

Mrs. D. D. Lewis and Mrs. Willis Mathews entertained the Inter-mediate B. Y. P. U. of the Baptist church with a weenie and marshmallow roast Tuesday evening at the Lewis farm. Those present were: Mrs. Lewis and Mrs. Mathews the faithful leaders, Rev. and Mrs. Z. C. Chambliss, Mrs. Henry Gentry, Les-jones, Homer and Blawyer Gentry, Wesley Arthur, Billie Joe and Charles Mathews, Andrew Henry, John-nie McKain, Joe Alton Kemp, Has-kell Sparkman, Mrs. Louise Arm-strong, James Floyd Armstrong, Doris Fowler, Adell Mathey, Nellie Lohman, Bobbie Morrow, L. Z. Tate, Ruth Moore, and Rubalee Krapf. Punch, meat sandwiches and marshmallows were served and an excellent time was had. And the secretary-treasurer is Ruzalee Krapf. Every intermediate boy and girl is invited to come to the B. Y. P. U. at the Baptist church every Sunday evening at 7:30.

On Monday afternoon the Methodist Missionary society met at the home of Mrs. A. C. Robert who entertained them delightfully. During a short business session reports for the quarter ending this month were made out and a few other matters of business were attended to. During the social hour several games and contests were enjoyed. In the "Country Store" contest guests wrote names of articles with the brands found in stores. Mrs. Gifford Acrea was winner as she wrote forty articles in the 10 minutes. At the

COOK

Mr. and Mrs. D. L. Allen attend-ing singling in Nimrod Sunday after-noon.

Miss Muri Moore was the Sunday dinner guest of Mr. and Mrs. G. W. Hunt.

Mrs. Annice Davis visited her brother and wife, Mr. and Mrs. Bill Gardner, Saturday.

Claude Trigg and Bruce Younger spent part of last week with Mr. Trigg's son and wife, Mr. and Mrs. John Trigg.

Misses Blanche, Murlee and Ena Mae Walker visited Miss Juanita Townsend Sunday.

Mrs. Amanda Hill visited her sister, Mrs. McLaster Saturday after-noon.

Mr. and Mrs. Ben Weise and fam-ily attended mission day at the Lutheran church Sunday.

Mr. and Mrs. Ed Townsend of Nimrod visited his parents, Mr. and Mrs. Bob Townsend, Sunday.

Clyde Williams and Miss Ruth Craft visited Clyde's sister, Mrs. Oscar Maddox, Sunday.

Mr. and Mrs. Wilburn Curtis, Joe Weise and John Sheffield attended the fair at Eastland Saturday night.

Johnnie Stephens who lives in the Amety community spent Saturday night with his uncle and aunt, Mr. and Mrs. C. L. Carmichael.

Misses Bernice Townsend and Doris Williams were the Sunday dinner guests of Miss Bertie Mae Townsend.

Misses Laura, Mattie and Hattie Weise and Mr. and Mrs. J. F. Rey-nolds and J. F. Reynolds Jr. went to Rising Star Saturday night.

Mr. and Mrs. Cliff Hopper and two daughters and Miss Ida Mae Leske of the Ballard community at-tended singling at the Christian tabernacle Sunday night.

Mrs. Buelah Townsend and children visited Mrs. Paul Town-send Sunday afternoon.

There was a large crowd attend-ing the singling at the Christian tab-ernacle Sunday night.

Misses Beulah, Alma and Lois Walker visited Mr. and Mrs. Frank Wagley of Nimrod Sunday.

Miss Muri Moore, Elbert and Joe Bailey Hunt attended Mission day at the Lutheran church Sunday af-ternoon.

Mr. and Mrs. Bill Gardner at-tended the Eastland fair Satu-day night.

C. D. Carver and Ben Williams were in Eastland the last of the week.

Aunt Nora Curtis visited Mrs. Lucy Curtis Monday.

Mrs. J. F. Reynolds is spending a few days this week in Fort Worth.

SHADY GROVE

The community was the center of quite a weird storm last Thursday night. The most damage was on the J. W. McKinney farm. His barn was partly unroofed and several fruit trees were blown up by the roots.

This community was well represented at the county fair Satur-day night.

Mr. and Mrs. J. W. McKinney and family visited at Dothan Sunday.

Mrs. Joe Bowen of Burkett spent several days last week with her par-ents, Mr. and Mrs. John Laird.

Mr. and Mrs. Irvin Finely visited relatives in Cisco Sunday.

Mr. and Mrs. Jack White and chil-dren of Rising Star, Mr. and Mrs. Roy Fenley and daughter and Mr. and Mrs. Emmett Green of Cisco were Friday evening guests of Mr. and Mrs. Flynn Reims.

Mr. and Mrs. John Smith of Eastland visited in the N. A. Berry home Sunday.

Several from here attended the singling in east Cisco Sunday after-noon.

Mr. and Mrs. J. T. Graves, Rob-

Ward and sister, Miss Willie, visited Mr. and Mrs. McKinney of Dothan Sunday afternoon.

Miss E. N. Strickland visited in Eastland Saturday afternoon.

RUBY, Ariz., Sept. 26 — Report- edly worked by Jesuit missionaries of the Tumacacri mission more than a century ago, the old Austerlitz mine near here may be reopened.

Richardson Grocery
1066 Ave. A

HASKELL

Mr. and Mrs. Underwood, Mr. and Mrs. Alford Rankin visited in the Steve Keith home Friday evening.

Mrs. Alford Holt and baby and Duie Compton visited their father Saturday and Sunday.

Mr. and Mrs. Claud Shook and sons, Wilbur Ray and Billie Ted, Mr. and Mrs. Harl O'Brien spent Sun-day with their father, J. W. Allen.

Miss Carrie Belle Perdue visited her mother and grandfather Satur-day night and Sunday.

Several from this place attended church at Nimrod Saturday and Sunday night.

Mr. and Mrs. Underwood and Mr. Beck went to Eastland Saturday.

Mrs. H. W. Perdue visited Mrs. Stamerford at Nimrod Monday even-ing.

Several from here went to East-land Monday.

J. W. Allen and daughter spent Thursday with D. L. Allen at Cook

CISCO STEAM LAUNDRY

WASH GUT 15 MILES OF KIDNEY TUBES

Win Back Pep... Vigor... Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or ducts which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, setting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS... the old reliable relief that contains no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-McLiburn Co.

About Cisco Today

Mrs. J. R. Green Hostess To WMS

The W. M. S. of the East Cisco Baptist church met in the home of Mrs. J. R. Green, 1365 West Fifth street, Monday afternoon, in a business and social meeting.

As this is the week of prayer for the W. M. S. the first program was given on the missionary work among the Mexicans.

Immediately after the program the society surprised Mrs. Lane Gilmore with a miscellaneous bride's shower.

The hostess served cake and led punch to: Misses Lane Gilmore, H. Barron, A. W. Dawson, Glen Garrett, Homer Shahan, J. E. Smith, W. E. King, Essie Whitten, Cecil E. Prickett, L. E. Helmeck, C. R. Hightower, T. J. Sparkman, C. A. Lassiter, A. A. Coates, J. E. Shirley, Jesse Taylor, J. D. Hall, H. H. Hageman, Howard Robinson, and R. L. Garrett.

Birthday Honored With Party Wed.

Billy Jean Cleere entertained a group of her friends at a party honoring her birthday at the home of her parents, Mr. and Mrs. Clarence Cleere, on Wednesday afternoon.

The afternoon was spent in playing games after which Billy Jean cut a large birthday cake. Pop corn was served to: Dorothy Jean Anderson, Mary Ann Winston, Louise Flaherty, Cathryn Shepard, Marjorie Webster, Ada Rhone, Mable Betty Jane Coates, Betty Jean Slicker, Doris Ann Starling, Patsy Jo Cleere, Walter Edward Midgely, Edgar Hickman, Fred Holder, A. D. Anderson, Jr., Dick Anderson, and Billy Jean Cleere.

Philathea Class to Have Party Friday

The regular monthly party of the Philathea Sunday school class of the First Methodist church will be

CALENDAR

Thursday

Pivot club meets with Mrs. James Moore.

Friendly 42 bridge club will meet at 3 p. m. with Mrs. Blair Clark, 711 West Ninth street.

Thursday 42 club will meet at 4 p. m. at the home of Mrs. J. B. Cate, 208 West Fourth street.

Friday

Philathea class of the First Methodist church will have a party at the home of Mrs. C. H. Parish, 305 West Fifth street, Friday at 3 o'clock.

The Cisco Choral club will meet Friday evening at 7:30 o'clock in the Lions and Rotary room adjoining the Laguna hotel.

held Friday afternoon at 3 o'clock at the home of Mrs. C. H. Parish, 305 West Fifth street. Mrs. Frank Turner, Mrs. Tom Stark, Mrs. Ed Huestis, Mrs. J. P. Parish and Mrs. Fred Hayes will be hostesses for the afternoon.

Officers for the new year will be announced at this party. All members are urged to be present.

Officers Announced For Baptist Circle

Circle 2 of the First Baptist church met Tuesday afternoon at 2 o'clock at the church to reorganize the circle.

The following officers were announced: Mrs. W. H. LaRoque, chairman; Mrs. M. M. Tabor, first vice chairman, in charge of the enrollment; Mrs. Leon Maner, second vice chairman, in charge of the education; Mrs. Cecil Adams third vice chairman, young peoples' chairman; Mrs. Lee Elkin, recording secretary and reporter; Mrs. J. J. Butts, corresponding secretary; Mrs. J. T. Berry, treasurer and stewardship chairman; Mrs. N. A. Night, mission study chairman; Mrs. P. P. Elward, personal service chairman; Mrs. J. W. Mancill, social chairman; and Mrs. C. S. Surles, devotion leader.

The next meeting will be held

October 9, at the home of Mrs. W. D. Brecheen.

Mrs. Powell Hostess To Methodist Circle

Mrs. W. G. Powell opened the business session of the W. M. S. of the First Methodist church Tuesday at 3 o'clock at the church. Songs were sung in unison and Mrs. North up led in prayer.

Circle counts for the third quarter were given with Circle 2 leading with 66; Circle 1 second with 59, and Circle 3 with 52 members.

The women voted to serve a luncheon at 7 o'clock October 29, in the church basement. The supper will be for the men of the church. Mrs. Powell appointed a committee of five headed by Mrs. W. A. Cox to work with the board of steward to complete the plans.

Personal Mention

Mr. Leslie Jenkins and Mrs. J. L. Thornton are spending today in Fort Worth.

Mr. and Mrs. Carl Baird and son left today for a trip to Carlsbad, New Mexico.

REICH

Mr. and Mrs. Ernest Morris and children and Miss Addie Mae Horn attended the fair at Eastland Saturday.

Mrs. Elbert Kzrell and Mrs. G. Pollard were in Eastland Thursday arranging the booth for the Reich Home Demonstration club for the county fair.

Mr. and Mrs. Ed Callerman are the parents of a baby boy born Sept. 20.

Miss Estelle King of Dan Horn was the dinner guest of Mrs. G. Pollard Sunday.

Jim Boatman visited Ed Callerman Saturday night.

Edwald Reich of the Lutheran community visited his parents, Mr. and Mrs. A. Reich, Saturday.

Edwald Callerman was the guest of Robbie Hazlewood Sunday.

Mrs. Lillie Gattis and children of Scranton and Mr. and Mrs. Dave Brown and daughters, Misses Viola and Ruth, visited Mr. and Mrs. Ed Callerman Sunday.

Mrs. Charlie Kimbrough visited her sister, Mrs. Erwin Owens, in Cisco Saturday.

Mrs. F. O. Schaefer and Mrs. Jim Boatman visited Mrs. Swinson Saturday morning.

Mrs. W. T. Leveridge, Miss Ethel Leveridge and John Leveridge spent Sunday at Throckmorton with Mrs. Leveridge, daughter, Mrs. Willie De Morgan and family.

The Home Demonstration club will meet at the school house Friday afternoon at 3. All members are urged to be present. Visitors are welcome.

Mrs. R. B. Ballard and son, are visiting her parents, Mr. and Mrs. R. N. Hazlewood.

Our school begins Monday morning October 1. All parents are requested to be present for the opening exercise.

Jim Dillon was called to the bedside of his mother, Mrs. R. E. Dillon at Cisco Wednesday, she is reported no better at this writing.

OUT SMOKING AT 104 LINCOLN, Kan., Sept. 27—Grandma Holman quit smoking a few days before her 104th birthday recently. She explained it wasn't because she feared what it might do to her health, but she lives alone, does not hear well and feared she might start a fire.

Co. Home Dem. Agent

PEANUT PRODUCTS

The Carbon Home Demonstration club exhibit at the county fair shows what can be done with peanuts. The peanuts were shown on the vine, peanut candy, peanut butter, peanut salad dressing, peanut pies (peanuts substituted for pecans), and peanut butter. The different steps in peanut butter making were shown. Mrs. Lon Modford, farm food supply demonstrator of the Carbon club gives the following information on making and canning peanut butter. This recipe was given through the club work and tried out by the members.

Two quarts Spanish peanuts, four quarts Virginia peanuts, two ounces salt. Roast the peanuts uniformly brown. Cool, remove the red skins and tiny hearts or germs (if the germs are not removed they may impart a bitter flavor). Grind, add the salt and grind twice more so as to have the salt well distributed throughout. A good type of meat grinder is satisfactory grinding peanuts provided the burrs are not worn. The finest burrs should be used and the machine should be set to grind the meat as fine as possible. If the butter is not fine enough, after grinding it through the machine once, it should be passed through again. Pack into small jars. It is important to fill the jars as full as possible, pressing the butter in on the bottom first and filling so as to remove air bubbles as the packing is done. Care should be taken not to leave any air space between the top of the peanut butter in the jar and the lid. The airless or vacuum sealing process is considered the best method of sealing nuts or nut butters, in either glass or tin containers. In case a vacuum sealing device is not at hand, heat should be used in the process of sealing the jars to drive out any air which might be in the product, and to seal it so no air can enter.

Sterilize twelve ounce containers for one hour at one hundred and eighty degrees F. (simmering) in a water bath. If there is too much oil in the butter, it will separate and the nuts will rise, leaving the oil in the bottom of the jars. The Spanish peanuts contain a larger amount of oil; therefore, it is necessary to mix the variety with the Virginia peanuts in the proportions given above.

The butter should be brought to a fine, granular form rather than to a smooth, pasty consistency. The aim in grinding peanuts for making butter should be to break the oil cells apart rather than to crush them. With a pasty product, the oil is likely to settle out, which will detract from the appearance of the product and make it necessary to stir it well each time before using in order to mix in the oil again.

CORN SHUCK HATS

Mrs. Eugene Ford, clothing cooperator of the Romney Home Demonstration club adds to her wardrobe by making hats for the different dresses. These hats are made of corn shucks, the natural color and colors to match the dresses. The shucks take dye as well as material. The make the hats she soaks the shucks in water until they are soft and pliable, cuts in strips and braids. The braids are then sewed together, fitted over a hat crown or mold to fit the head and the brim added. Large or small braids can be made, according to what the individual wants. When the hats are completed, bands are added or other trimming. Mrs. Ford recommends the corn shuck hats for long wear and says they are light and cool. She has made fifteen hats and sold all but three for an average of seventy five cents each. It takes approximately twelve hours time for making a hat, this time is that she has nothing else to see to and does this work as much for recreation as for work. She has made one man's hat.

RIID DRIED FRUIT OF MOTHS AND WORMS

Home dried fruits can be kept free of worms if the following method is followed states Mrs. H. A. Bowers of the North Star Home Demonstration club. After the fruit has dried, place it in the sun, better to cover with glass, and keep for one hour or more. Experiments have shown that the heat will be as much as 194 degrees F. at times and it takes temperature of between 120 to 130 degrees F. to kill the insects or the eggs. R. R. Reppert, Extension Entomologist sends the following information on storing the fruit after heating the hour or more in the sun: "Immediately after the fruit may be placed in some tight container. I am sure that a tight wrapper of cellophane would do if all seams were carefully sealed or folded to prevent adult insects from gaining access."

DO THAN

Mr. and Mrs. Woodrow Hazlewood of Putnam are spending several days this week with Mrs. R. C. Hazlewood and son, Sherrill.

Mr. and Mrs. Eldon Bunt are the proud parents of a daughter born last week.

R. C. Hazlewood left Sunday for Abilene where he will be employed for sometime.

Sure Relief for Malarial

Don't try homemade treatments or newfangled remedies! Take good old Grove's Tasteless Chill Tonic. Soon you will be yourself again, for Grove's Tasteless Chill Tonic not only relieves the symptoms of Malaria, but destroys the infection itself.

The tasteless quinine in Grove's Tasteless Chill Tonic kills the Malaria infection in the blood while the iron it contains builds up the blood to overcome the effects of the disease and fortify against further attack. The twofold effect is absolutely necessary to the overcoming of Malaria. Besides being a dependable remedy for Malaria, Grove's Tasteless Chill Tonic is also an excellent tonic of general use. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle today at any drug store. Now two sizes—50c and \$1. The \$1 size contains 2½ times as much as the 50c size and gives you 25% more for your money.—Adv.

CERTIFICATES ON COTTON DUE HERE FRIDAY

Cotton producers who made application here for tax exemption certificates under the Bankhead cotton reduction law, may receive their certificates tomorrow afternoon at the chamber of commerce, County Agent J. C. Patterson announced today.

Representative of the county agent or Mr. Patterson himself will be here all afternoon to deliver the certificates. Certificates will also be delivered Friday afternoon to growers at Gorman and Ranger. Friday morning growers who made application at Rising Star, Carbon and Eastland may receive their certificates at those places, it was announced.

Each grower must go to the place where he applied to receive his certificate. In case he does not obtain it there Friday, it will be necessary for him to go to Eastland.

No Errors Corrected Friday
"Positively none will be delivered to other than the addressee except on power of attorney or witnessed written order," said the county agent. He also said that no errors will be corrected on Friday. If such occur, complaint must be held over until after Friday because of the pressure of time for making the deliveries.

These certificates will entitle the growers to sell all of the cotton that they have been allowed to produce tax free under the Bankhead act regulations. Previously they were permitted to sell 50 per cent of the county committee's estimate of their allocations, temporary certificates being issued for this purpose. These temporary certificates were retained by the gins, and upon presentation of the regular certificates the gin will release for sale the amount of the grower's cotton that his certificate allows tax-free above the amount in the temporary certificate.

Discrimination Charges Increase

ATLANTA, Ga., Sept. 27.—Increasing charges of discrimination against returning textile strikers gave warning of a fresh crisis in southern mill centers today.

In the Carolinas and Georgia union leaders accuse mill owners of effecting a "wholesale lockout" of organized textile workers.

PRESIDENT ACTS TO MEET COMPLAINTS

WASHINGTON, D. C., Sept. 27.—President Roosevelt acted speedily today to meet a rising chorus of complaints of discrimination against returning strikers of the textile industry. The president named a new national textile labor relations board composed of the same personnel as the new labor relations board appointed at the time of the steel strike threat in early summer.

Ex-Convict Hunted In Murder of Girl

DETROIT, Mich., Sept. 27.—A relentless hunt for M. W. Goodrich, suspected attacker and slayer of 11-year-old Lillian Gallagher, spread out over Michigan and neighboring states today, while precautions were taken against letting other school children endanger themselves as Lillian did.

Lillian, normally shy and slow to make friends, was seized by her slayer as she was selling punchboard tickets for a school benefit.

Goodrich, released last January from the state hospital for criminally insane in Ohio, where he was sentenced for attacking a 12-year-old school girl, occupied the apartment where Lillian's body was found yesterday. His description was broadcast throughout the country.

Aged Couple Die in Flames; Murder Seen

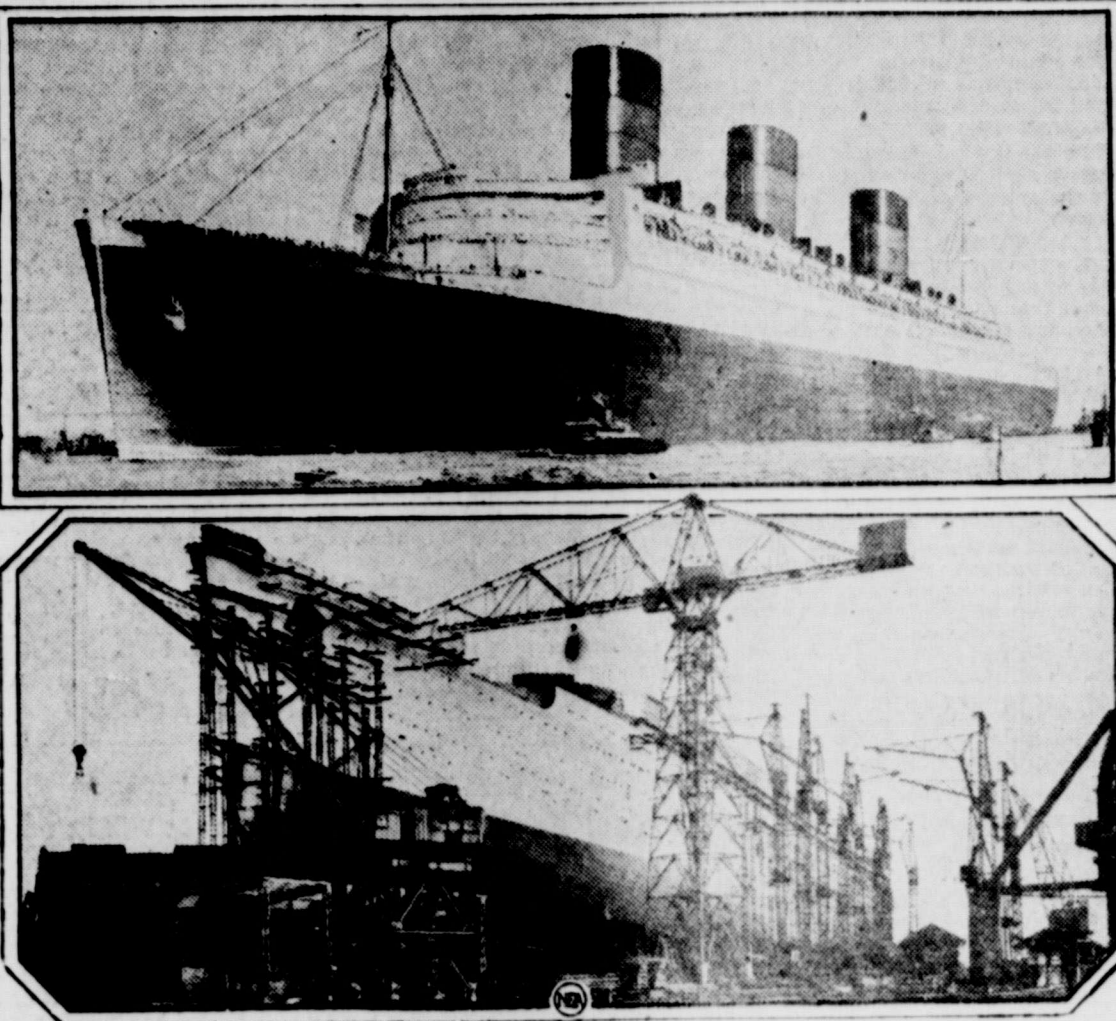

ATHENS, Sept. 27.—Henderson county officers today inclined to the theory that the death of an aged farm couple in flames that destroyed their home was a case of murder. It was learned that W. T. German, 73, and his 75-year-old wife, who lived alone near Stockard, had approximately \$200 in the house before it was burned Sunday night. Officers considered robbery a possible motive for foul play.

WEATHER

East Texas—Partly cloudy to cloudy Friday with showers near the west coast; warmer in the north portion.

West Texas—Partly cloudy and warmer in north; partly cloudy and warmer in east central.

Queen Launches Huge Mystery Liner

INTERNAT'L AIR AWARD VOTED TO WILEY POST

By THOMAS COPE
United Press Staff Correspondent
PARIS, Sept. 27.—One of the most memorable ceremonies scheduled for the World Air congress opening in Washington Oct. 8, will be the award to Wiley Post of the International Aeronautical federation annual gold medal for the outstanding aviation feat of 1933.

Post was chosen over Marshal Balbo, the Italian-American ocean flier, Darius and Gienas, and J. V. Smirnoff, heroic Holland-Dutch East Indies mail pilot.

The fact that Post flew around the world alone made a deep impression on officials of the international air board. So well known were the details of his feat that Jay Ide, Paris embassy attaché on the National Advisory Committee for Aeronautics, to remind the 16 judges that:

Post flew 30,000 kilometers day and night, alone, over land and sea; Covered an average of 3,700 kilometers per day;

Maintained an average speed of 160 kilometers an hour;

Established, unassisted, a round-the-world record of eight days.

Even the superb Rome-Chicago-Rome flight of Italo Balbo's 100 men in 24 hydroplanes, was forced to take second place before such a courageous performance. And anyway, Balbo already had received the medal two years ago in recompense for his squadron flight to South America.

Post was awarded the medal on two ballots: the first, from which two judges abstained, was Post, 7; Balbo, 6; Smirnoff, 1. The second: Post, 9; Balbo, 7.

New Gas Co. Office Nearing Completion

Remodeling of the building adjoining the Central Super-Service station on D avenue as the headquarters of the Cisco Gas Corp., is expected to be completed soon after October 1. The company, whose gas distribution system is rapidly nearing completion by the National Supply Const. company, has begun setting meters.

The headquarters have a 50-foot frontage on D and the interior is being divided into offices, customers' waiting room, store rooms and so forth.

Bailey Appeal Filed In U. S. Circuit Court

DENVER, Colo., Sept. 27.—Harvey Bailey, one of the convicted kidnapers of Charles F. Urschel, Oklahoma oil millionaire, today filed an appeal before the U. S. circuit court of appeals here.

Appeal of Bailey, who is serving a life sentence in a federal prison, will be considered by the appellate court on briefs. There will be no oral argument.

All Glasgow worked feverishly in preparation for the launching of the Cunard mystery liner 534, which was christened by Queen Mary of England on Wednesday, September 26. Although now nearing completion, as is shown in the lower picture, many months more of work will be required to get the craft ready for sea. When Queen Mary broke the traditional bottle of champagne against the rounded prow, the name of the vessel was revealed for the first time. She christened it with her own, "Queen Mary." The hull will be the largest afloat — 1018 feet long, 234 feet high and weighing more than 73,000 tons.

FD STATEMENT IS DUE IN 24 HOURS ON NRA

WASHINGTON, D. C., Sept. 27.—President Roosevelt will announce within 24 hours the personnel of a board of five to head the revised NRA, the White House announced today.

It was possible that the announcement would be ready before he left his desk late today.

Observers of the reorganization situation expected the board would be entrusted with the task of developing other phases of the revised recovery picture.

No indication was given by the White House as to the men the president has in mind for the five jobs. To questions as to whether Bernard Baruch, New York financier, would be a member, it was said that such an appointment appeared unlikely. The same applied also to Donald Richberg, chief NRA counsel.

PRESIDENT'S SPEECH TO BE BROADCAST

NEW YORK, Sept. 27.—President Roosevelt's address before the conference on current problems at 10:30 p. m. EDT (8:30 CST) tonight will be broadcast over a national radio hookup.

New Uniforms for Highway 'Mounties'

EASTLAND, Sept. 27.—Ernest Daniels and Morgan Myers, state highway patrolmen stationed at Eastland, one of the 120 men employed in that capacity in the state, attended a two-district meet of the body in Abilene Saturday and were measured for their new uniforms.

A distinctive dress has been adopted instead of the former gray shirt and trousers because of the ease of impersonation. The men will wear a medium blue shirt, with shoulder straps of tan piped in, and tan trousers with a one-inch stripe of blue piped in down each side. The caps are a combination of the blue and tan materials with blue visors.

The annual district report of the thirty men of the Abilene and Wichita Falls district was outstanding, Judge W. R. Ely, member of the state highway commission, told the "mounted cycle mounties."

30-DAY DELAY IN FUNDS FOR RELIEF LIKELY

EASTLAND, Sept. 27.—According to a letter received from Austin Monday by the Eastland county general relief board, state funds for October if granted by the legislature would not be available for thirty days.

H. E. Driscoll, county administrator in telling of the contents of the letter said the following:

"Monday the Eastland county relief board received from Austin an estimate for October on which is placed the figures showing total funds required to cover the needs of the county for the month of October. We are also advised due to the fact that the legislature has not acted concerning relief measures at times the letter was written."

"Austin could not definitely tell us any funds would be available for October and states that when they have acted it would be at least 30 days before any state funds would be available."

"To date we are not promised any federal funds but it is required we submit our estimate promptly, and we were also advised accordingly to conserve our present unobligated funds as much as possible."

Funds for the last half of September amounting to \$17,500 arrived at the Eastland county general relief office in Eastland last week.

EARLY CARBON SETTLER DIES; BURIAL TODAY

J. A. (Uncle Joe) Hearn, one of the earliest settlers of Carbon, died suddenly of what physicians described as a heart attack at his home at Carbon Tuesday. Funeral services will be held at 2 p. m. at the Carbon Baptist church with burial in Bear Springs cemetery, east of Carbon.

Mr. Hearn, who was the father of former Tax Collector A. M. Hearn had gone to his melon patch for a watermelon when the attack occurred. As he stooped to lift a melon, he fell and when reached was dead.

Besides A. M. Hearn, he is survived by his wife and a daughter, Mrs. Elmer Gilbert of Roby, Texas. Another son, J. Porter Hearn, died several years ago. Former District Judge Elzo Been is a nephew.

As a coincidence, "Uncle Joe" helped dig the first grave in the cemetery in which he was to be buried. The cemetery was established about 60 years ago.

FOUR-LEGGED ROOSTER

SUBBURY, Ont., Sept. 27.—Joseph Labelle, farmer of this district, has a four-legged rooster and large plans for its future as a circus entertainer. Indications now point to the rooster ending up as a special four-drumstick stew, as Labelle's ideas of its value are a bit steep. He was offered \$5 by a sideshow representative, but held out for \$25, and now he can't find any takers.

BIDS CALLED ON MILLION IN RELIEF BONDS

AUSTIN, Sept. 27.—The state bond sale commission today called for bids to be opened Saturday, October 6, on the first \$1,000,000 worth of relief bonds issued by the recent session of the Texas legislature.

Relief bonds bidders were asked to bid in the interest rate, provided the amount does not exceed 4 and one-quarter per cent, the rate limit set by the legislature. The board of control was asked to advertise immediately for bids on printing the bonds.

Simultaneously the state board of control demanded efficiency and harmony in the statewide relief set-up.

"County board members and relief employees whose usefulness has ceased because of friction, inability or misunderstanding, should graciously, patriotically and voluntarily retire," the board declared in a statement.

County welfare boards and relief organizations will be retained where effective relief service is being rendered.

"Worthy and efficient" employees will be retained regardless of political, church or other affiliations," the board said.

"Preacher" Is Theme Of Rotary Address

"The preacher is a citizen who is entitled to no more special consideration than any other Christian man," said the Rev. E. S. James, pastor of the First Baptist church, to the Rotary club today. At the invitation of Rotarian J. Stuart Pearce, Presbyterian pastor, the Baptist minister made a "classification" talk that the club heard attentively. A preacher, said Mr. James, is a man dedicated to a mission of serving humanity for a reward that is not available in the coin of things earthly. He dislikes to be called "reverend" for the reason that he is no more so than any other Christian person, and he much prefers to be known as "Pastor" or even "Parson," said the speaker.

His obligations are the same as those of other people—to pay his debts, to discharge the duties of his profession to the best of his ability, and to be a good citizen, said the minister. His privileges do not include the right to impose upon or take advantage of his fellows, the business man from whom he buys, or the professional man whose service he seeks. They do include, the speaker explained, the privilege of comforting people in sorrow. "If there was ever a time when the work of the preacher should be more evident in undergirding the faith of the people it is in this time when the hand of fear has got its grip upon them," said he.

Four thousand dollars in bonds yesterday were properly endorsed and returned to the Security Trust company of Waco with the city's check for one per cent of their face value. The bank acted as agency for the owners of the bonds.

At least \$125,000 more are due to be received for payment of the one per cent within the next few days, Cate said. Inquiries as to the procedure to be followed in applying for the payment have been answered. In one instance a \$50,000 block is involved.

Burkett Tells Heath Bar Is Still Valid

AUSTIN, Sept. 27.—Atty. Joe Burkett of San Antonio today notified Secy of State W. W. Heath that contempt proceedings will result if the secretary certifies James V. Allred as democratic candidate for governor.

Heath had telegraphed Burkett that he was going to certify the name on September 30 or October 1.

Burkett notified Heath that the district court injunction against certification is still in force. The fourth court of civil appeals held the injunction invalid, but Burkett pointed out the appellate court's ruling was not becoming final for 15 days because a rehearing may be asked within that time.

Quannah Man Fatally Shot While Hunting

QUANAH, Sept. 27.—Land Wall, 37, manager of the Quannah Water company, was shot and killed today while hunting doves six miles north-east of here. He was alone at the time, but investigators believed his shotgun was accidentally discharged as he left his automobile. The charge struck him in the chest.

2 Deaths Occur in Chicago Bus Strike

CHICAGO, Sept. 27.—Two deaths were recorded today as a result of violence in Chicago's six weeks old bus driver strike.

Mrs. Mary Kinnard, 65, died two hours after being struck on the head by a steel ball bearing hurled through a bus window. James Kelly, 49, dispatcher for the motor coach company, died this morning of bullet wounds and a beating inflicted by paid slugs.

Two-Headed Calf Is Reported at Cheaney

RANGER, Sept. 27.—A two-headed calf was born on the farm of Cam Lee who lives on a rural route off of Ranger near Cheaney, it was reported Tuesday morning.

The calf was well developed otherwise, but was killed and is being stuffed by Dr. Williams.

The calf was born to a full-blood Jersey cow, Mr. Lee reported.

Prepare for Flight to Rome

Working against time to have everything in readiness for a hop-off before the autumn storms make trans-Atlantic flying too hazardous, Robert Huhn (left) and Salvatore Martino, Brooklyn aviators, are preparing their plane for an attempted non-stop flight from New York to Rome. They hope to win the \$25,000 prize offered for such a feat by the Italian government.

ing their plane for an attempted non-stop flight from New York to Rome. They hope to win the \$25,000 prize offered for such a feat by the Italian government.

Seven Convicts Escape Prison at McAlester

CISCO BONDS ARE RECEIVED FOR PAYMENTS

Cisco municipal bonds are beginning to come in in larger numbers for endorsement and payment of the one per cent agreed upon under a settlement recently reached by the city with bondholder representatives, according to City Secy J. B. Cate.

Four thousand dollars in bonds yesterday were properly endorsed and returned to the Security Trust company of Waco with the city's check for one per cent of their face value. The bank acted as agency for the owners of the bonds.

At least \$125,000 more are due to be received for payment of the one per cent within the next few days, Cate said. Inquiries as to the procedure to be followed in applying for the payment have been answered. In one instance a \$50,000 block is involved.

Richardson Appeals 99-Year Sentence

AUSTIN, Sept. 27.—Charles S. Richardson, former mayor of Olney, today appealed from a 99-year sentence for the slaying of his son, Elga, 20, last January 1.

This is the second time the case has been carried to the court of criminal appeals here. A life sentence was assessed at Richardson's first trial in Young county. The appellate court reversed the case. A second 99-year sentence was assessed by a Wilbarger county jury to which the case was taken on a change of venue.

\$50,000 Suit Filed Against Gas Co.

WACO, Sept. 27.—Walter S. Stewart of this city, has filed suit for \$50,000 against the Texas Cities Gas company, in district court, alleging that employees while installing a refrigerator in his home connected, without his consent and knowledge, a water pipe to a sewer line.

The contamination caused his wife to contract amoebic dysentery, which proved fatal. She died July 22, after having been unable to eat for 60 days and unable to drink water for 30 days, the petition states, food and drink being injected into her veins.

All-Day Singing at Nazarene Church Sun.

The old-fashioned day when the church was the center of the social activity of the community will be revived in character when the Nazarene church holds an "all-day with dinner on the ground" Sunday, it was announced today by the pastor, the Rev. Luther Fryer.

Marlin Keeton, instructor who is conducting singing classes at the church, will direct the music.

The event is a fifth Sunday program to which visitors will come from Rising Star, Albany, Abilene, Moran and other communities, the Rev. Mr. Fryer said.

LINDY FACES HAUPTMANN WITH DISGUISE

NEW YORK, Sept. 27.—Col. Chas. A. Lindbergh, in a disguise of a grey cap and horn-rimmed glasses, studied the face of Bruno R. Hauptmann for ten minutes today and a few hours later District Attorney Samuel Foley was quoted as saying that he was convinced that Hauptmann was one of the actual kidnapers of the Lindbergh baby.

Lindbergh in consulting Hauptmann did so at his own request and the interview idea came as a dramatic prelude to the prisoner's arraignment on extortion charges.

Hauptmann was allowed bail of \$100,000 after a plea of not guilty.

After the arraignment, Foley resumed questioning of possible witnesses, including Miss Anita Lutzenberg, a friend of Hauptmann, and officials in the district attorney's office said Foley was convinced of Hauptmann's participation in the abduction as well as the ransom negotiations.

For the first time Foley declared his belief that more than one person was involved in the case.

"Hauptmann was not a lone wolf," he said. It was known that federal agents already were seeking an alleged accomplice.

MISS BRITAIN'S FATE NEARING JURY DECISION

SEYMOUR, Sept. 27.—The case of Miss Ruby Britain, 33, charged with murder in the fatal shooting of Horace E. Nichols, Seymour banker, last August 15, was expected to go to the district court jury this afternoon.

Testimony was completed shortly before noon. There was practically no rebuttal testimony offered. The state failed to gain ground in cross-examination.

Miss Britain today told the jury of the great love she bore the man she is accused of slaying. "He was everything in the world to me," Miss Britain said.

Miss Britain on the stand admitted an "affair with Nichols" and said it had run about a year when she learned he was "going with young girls."

The state will ask the death penalty for Miss Britain, whose attorneys are attempting to build their case on self-defense.

Methvin Pleads Not Guilty in Slaying

MIAMI, Okla., Sept. 27.—Henry Methvin, former Texas convict and pal of Clyde Barrow, was back in a closely guarded cell Tuesday after pleading not guilty at arraignment on a charge alleging he killed Constable Cal Campbell.

The prisoner will get a preliminary hearing next month. He is accused of killing Campbell in a roadside clash near Commerce last April during which Police Chief Percy Boyd of Commerce was wounded and captured.

WHITLOCK ESTATE LISTED

TOLEDO, O., Sept. 27.—The late Brand Whitlock, beloved one-time Toledo mayor and former Ambassador to Belgium, left an estate of \$102,314 net value, according to an inventory filed in probate court here.

BEASLEY'S 95 YARD RUN IS FINAL THRILL

By FRANK LANGSTON

A generally unimpressive showing relieved with a few highlights of promise and topped off, like an ordinary pie with meringue, by sparkling 95-yard run to a touchdown—that was the sum of the season-opening game in which the Cisco Lobos defeated a scrapping Gorman team, 19 to 6 on Chesley field last Friday night.

The Cisco warriors, looking smart as plant in their trim new uniforms of solid black relieved with bright gold numerals, ran into more difficulties than a basted woman in a briar patch. They had particular difficulty in handling a sandy-headed youngster by the name of Rider, who tossed and caught passes, indecisively through the line, and around the Cisco line, stopped the Lobos' drives, and generally got into their hair for sixty minutes, despite a leg injury.

The fans who had been hearing wonderful tales of Popeye Beasley's speed were treated to the spectacle of seeing him take a pass, which Gorman meant for the tying touchdown, head for his right sideline, elude a couple of Panthers, have another blocked, cut back and outrun another, and finish a 95 yard dash to the goal line on the last play of the game. Earlier in the evening he had scored the winning touchdown by following flashing black interference around the left side of his own line.

First Cisco Score
After the first quarter had gone by scoreless, the Lobos stopped a Gorman drive by recovering a partially blocked punt on the Gorman 45 yard line. Stansbury made 11 yards and first down off right tackle. Rylee stumbled on a spin for three yards and Groce dropped Stansbury's pass in the right flat. Rylee slanted off right tackle for six yards, and Caffrey plunged over left tackle for first down on the Gorman 29 yard line.

Beasley hit the center of the line for seven yards and Stansbury made it first down on the 10 yard line. Then Beasley threaded through left tackle for a touchdown. Caffrey's goal attempt failed, leaving the score 6 to 0.

In the third period Gorman started clicking and a series of spectacular reverses and brought the ball to the Cisco 27 yard line before a fumble forced the Panthers to kick out of bounds on the Cisco nine-yard stripe.

A penalty and a plunge by Rylee gave Cisco a first down on the 34 yard line. Beasley made it first down, but Cisco drew a 15-yard penalty. Stansbury and Rylee each picked up five yards.

Beautiful Kick
Then Caffrey rushed by the Gorman line, got off a beautiful, high kick that traveled 50 yards from the line of scrimmage. Taking the ball on their own 5 yard line, the Panthers tried a couple of plays and kicked to Beasley on the Gorman 37.

Beasley made it first down. Then Rylee made five at tackle. Beasley picked up three more and Rylee gave the Lobos another first down on the sixteen yard line.

Stansbury made five at right tackle and Beasley raced around left end for the second Cisco score. Caffrey's kick made it 13 to 0 for the Lobos.

In the fourth frame the Panthers became irresistible and started a drive with the kickoff. Awalt took a 17 yard pass for a first down and Caffrey batted down another. Two more plays netted another first down and the Gormanites began yelling for blood.

Gorman Counts
A long pass to Rider gave the Panthers the ball on the Cisco 29 yard marker. Then Gorman made a first down on the Cisco 10.

A thrust a tight tackle carried the ball to the Cisco one yard line and Rider hit left tackle for a touchdown, making the score 13 to 6.

A Cisco fumble gave the ball to Gorman on their 25 yard line and Townley began sharpshooting. Rider took a long pass to the Cisco 43 yard line. Awalt snatched another and Rider took a third to the Cisco 30. A reverse by H. Morris made 5 yards, and then Beasley, shifting back into a pass defense, speared the pass that Gorman loosed with the hopes of tying the game, and ran 95 yards for the final score as the game ended.

This was by far the best team that Gorman had brought to Cisco during all the years in which the Panther-Lobo affair has been the traditional season opener. The double-wingback formation, with its whirling attack, had the Black worried often, and rolled up 12 first downs to 14 for the Lobos. Rider, Townley, Kirk, and Awalt were outstanding for the Panthers.

For the Lobos, the defensive work and kicking of Caffrey, and the blocking and hard drives of Rylee stood out with Beasley's flashing runs in the backfield. Littlepage, Wende, and Barnes showed up well in the line.

The lineup:
Cisco — Ends, Burnham and Sledge; tackles, Theron Graves and Thomas Graves; guards, Merrett and Wende; center, Littlepage; quarter, Caffrey (c); halves, Stansbury and Beasley; full, Rylee.
Gorman — Ends, Ussery and Awalt; tackles, Rogers and Robneck; guards, Montgomery and Overton; center, Kirk; quarter, Townley; halves, Mac Morris and Harvey Morris; full, Rider (c).

Threat Case Venire

EASTLAND, Sept. 27 — Special veniremen have been drawn from the entire jury panel for the October term of the 88th district court for trials of Mary Lou Howell, Clifford Deggett and Elmer Van Cleave, charged with murder in connection with the death of L. F. Threet, rancher near Cisco, who was found on his ranch in an unconscious state resulting from a bullet wound in his head, August 15.

The following for Elmer Van Cleave are subject to be summoned to appear at the 88th district court in Eastland at 9 a. m., Oct. 1:

S. H. Nance, Cisco; Marshall Thomas, Cisco; J. A. Watson, Eastland; H. P. Earnest, Ranger; A. J. Baringer, Ranger; Sam Hale, Cisco; W. H. Bagley, Eastland; Elbert Ezell, Cisco; route 4; J. A. Gentry, Ranger; Ray Gakem, Cisco; Joe Wunway, Dothan; H. B. Meeks, Eastland; Ed Townsend, Nimrod; J. W. Earp, Rising Star; C. A. Smith, Gordon; Tomlinson, Cisco; H. L. Gibson, Eastland; H. C. Jones, Ranger; route 1; E. I. Finley, Cisco; route 2; S. R. Woods, Cisco; June Hargus, Ranger; L. B. Edwards, Okra; Edgington, Cisco; Lee Lieske, Cisco; route 2; K. E. Falls, Ranger; route 4; M. E. Greer, Eastland; J. W. Turner, Eastland; Howard Hays, Cisco; W. M. Batley, Ranger; route 3; J. C. Carter, Eastland; J. E. Knight, Eastland; E. H. Mills, Ranger; J. C. Smith, Ranger; O. A. Humphrey, Cisco; C. T. Lucas, Eastland; Henry Drumwright, Cisco; J. A. Hallmark, Eastland; route 1; S. M. Fowler, Olden; Sol Persefain, Ranger; Ed T. Cox, Eastland; W. E. Dennis, Gorman; route 3; Lee Bishop, Eastland; H. A. Bible, Cisco; C. W. Blacklock, Ranger; Carl Butler, Olden; B. H. Peacock, Ranger; Will Spain, Cisco; H. G. Adams, Ranger; Col. Brasher, Ranger; E. Striking Students
Stone High School
BROCKTON, Mass., Sept. 27 — striking students stoned Brockton high school and jerryed the school superintendent and headmaster today in a wild demonstration which was broken up by police.

The students, 1,600 boys and girls, struck against a 30 minute extension of school hours.

About 3,000 students assembled in front of the school this morning. After 2,000 had gone in, the superintendent appeared on the porch of the main building. He greeted the 1,000 outside and sought to convince them that they should go to class. Boos and cat-calls returned his greeting and stones were hurled at the school.

THEY TELL A GOOD STORY
crackle!
snap! pop!

POUR milk or cream on a bowlful of Kellogg's Rice Krispies. Then listen as they snap and crackle their story of delicious crispness.

You've never tasted anything so good. Serve for breakfast or lunch. An ideal food for children. Light and easy to digest. Made by Kellogg in Battle Creek.

Listen!— get hungry

2 ARE BADLY HURT IN AUTO CRASH SUNDAY

Tom Bruce, 48, Cross Plains, was in an extremely critical condition at a Ranger hospital Monday after an automobile collision between Ranger and Olden early Sunday morning in which nine persons were involved. Tod Needham, Ranger youth, likewise was given a fighting chance to survive his injuries. Bruce and Needham were in separate cars.

Only one of the nine escaped serious injury. He was a Ranger youth by the name of Parrish who was riding in a 1928 model Chevrolet with Tod Needham and four other Ranger boys.

Bruce was riding in his own 1934 Chevrolet coupe which was being driven by Paul Tomlin of Cisco and occupied also by Mrs. Evelyn Houston, of Cisco.

He was the worst injured. His skull was fractured, an eye cut out by glass, his jaw broken, several ribs fractured, and physicians said that one of the broken ribs probably had punctured a lung.

Tod Needham suffered a skull fracture, a broken leg and a frightful cut on the other leg.

Injured
Others injured were: Weidon Needham, Ranger, concussion, several cuts and one ear torn practically off. It can be restored, however, hospital attendants said;
Cabe Quinn, Ranger, a badly injured shoulder;
Tomlin, cuts by flying glass;
Mrs. Houston, cuts above the head

WHEN YOU'RE TOO TIRED TO GO ON...

MISS GEORGIA ENGELHARD has scaled 90 major peaks, 38 in one season. Slender, but a marvel of endurance and energy, she says: "When people tell me of being tired out, or lacking 'pep,' I don't know of better advice to give than you'll find in the suggestion 'Get a lift with a Camel.'"

YOU'LL ENJOY this thrilling response in your flow of energy!

ANY TOBACCO MAN WILL TELL YOU:
"Camels are made from finer, more expensive tobaccos—Turkish and Domestic—than any other popular brand."

In light of the recent scientific confirmation of the "energizing effect" in Camels, note what Miss Engelhard, champion woman mountain climber, says:
"Mountain climbing is great sport, but don't try it unless you have plenty of energy. Many times up there above the timber line, within a short climb of the goal, I have thought 'I can't go another step.' Then I call a halt and smoke a Camel. A Camel lifts me up in just a few minutes and gives me

and arms from flying glass; and Jimmy Tolan, Ranger, a wrenched back.

The collision was head-on at the top of a hill about 3 and a half miles west of Ranger. Mr. Bruce had been to Ranger and was returning to his home at Cross Plains. Tomlin and Mrs. Houston were coming to Cisco with him. The six boys were going back to Ranger. The accident occurred about 12:30 Sunday morning.

Utility Petitions to Sell Dam to TVA

MONTGOMERY, Ala., Sept. 27 — Alabama Power company attorneys have petitioned the Public Service commission for the second time seeking approval of the power company's contract to sell \$1,000,000 worth of transmission lines and Joe Wheeler dam site to the Tennessee Valley Authority.

The commission previously had given its approval June 1, but its decision, contested by coal companies, who appealed from it to Montgomery circuit court, was voided by Circuit Judge Leon McCord on the ground that 30 days legal notice had not been given before the hearing on the petition.

Chester Bingham, power counsel, notified Hush White, commission chairman, that he would arrange for immediate publication of the notice of the second hearing at the request of TVA attorneys.

Political observers had expected the power company to appeal to the state supreme court from Judge McCord's ruling, and expressed surprise at the alternative action.

White said TVA's north Alabama utility development would continue unaffected by the court action pending final settlement of the controversy.

Kingsford Smith Seeking New Air Record for Melbourne-London Trip

MELBOURNE, Sept. 27.—Sir Charles Kingsford Smith, the Australian air ace, will try to make a double loop of the England-Australia speed record between now and the end of October.

Not content with matching himself against some of the world's best pilots in the London-Melbourne race, he is setting out to halve the record for a flight in the reverse direction just as a muscle-loosener before the race begins. The east-west record he is hoping to smash in his Lockheed Altair machine is the 9 days, 20 hours one set up James A. Mollison in 1931.

Special Plane

Kingsford Smith bought the Lockheed Altair specially for the London-Melbourne race. It is mainly to test the efficiency of the plane and the system of controls in the race that he is planning the flight from Melbourne to London in September. The actual date of his departure from here is not yet determined.

The machine in which Mollison established the present Australia-England record three years ago was a small Gipsy Moth, with a cruising speed of less than 100 miles an hour and a range of approximately 2,000 miles. The speed and range of Kingsford Smith's plane will be almost double that of Mollison's.

Swift Plane

It is believed, in fact, that Kingsford Smith will have the fastest machine entered in the London-Melbourne race. Its speed can be judged from the fact that recently he flew from Sydney to Melbourne in one hour, 43 minutes. The normal time taken for this 403 mile trip in four hours.

If everything goes according to plan Kingsford Smith should be able to cover the first lap on his "muscle-stretching" flight to England—from Melbourne to Charlieville, a distance of 787 miles—in a little over four hours. From there he could make the next hop of 1,330 miles to Darwin in seven hours.

Single Sea Jump

He is planning to make a single jump over the shark-ridden Timor Sea and the Dutch East Indian archipelago to Singapore in about ten hours. This stretch is 2,000 miles. His next stopping points, coinciding with the check-stations on the London-Melbourne air race route will be Allahabad and Bagdad.

In the final 2,500-mile stretch from Bagdad to London he will have to go out of his way to avoid flying over Turkish territory, owing to the ban placed on him by the Turkish authorities as a result of his making a forced landing there in 1932 while he had no permit. By flying via Aleppo, in Syria, and Rome, the trip would be lengthened to 2,800 miles. He hopes to be able to make it in about 14 hours non-stop.

VALLEY PLANS 2ND ANNUAL CITRUS FIESTA

MISSION, Tex., Sept. 27.—The second annual Texas Citrus Fiesta, a non-commercial celebration which has as its sole purpose the glorification of Valley citrus, will be held December 6 and 7. Paul Ord, chairman of the general Fiesta committee, has announced.

The Fiesta is divided into three phases—the Parade of Oranges, which opens the celebration; the coronation of King Grapefruit and Queen Citrus, to be superseded this year by the "Glorious Years of Texas," a pageant inspired by the Centennial plan.

First presentation was in 1932 when Mission citizens raised more than \$2,500 to completely finance the celebration before actual arrangements started. The September 1933 hurricane prevented presentation last year.

Arthur Hayes, Mission high school dramatics instructor, again will prepare and direct the pageant. "The Glorious Years of Texas" will trace Texas history from the occupation of the state by Indians to the present time, and will close with a spectacular scene to be called "The Spirit of Texas Today." This pageant is expected to be the first Centennial celebration in Texas.

Several hundred persons will participate. Principal characters will be Stephen F. Austin, General Sam Houston, David Crockett, Col. James W. Fannin, and "Three-Fingered Willie."

The two-day Fiesta marks the opening of a 90-day citrus display.

2 DILLINGER AIDS SHOT IN BREAK; 1 DEAD

COLUMBUS, O., Sept. 27.—Copying their dead leader's methods, Harry Pierpont and Charles Makley, Dillinger gangsters, tried to bluff their way out of the Ohio penitentiary death row Saturday with wooden guns, and were shot.

Makley was shot in the spine. He died within a few minutes. Pierpont was shot in the head but it was not determined immediately how serious his wound was.

Both were under sentence to be electrocuted for the murder of Sheriff Jess Barber, Lima, O., committed when they freed John Dillinger from the Lima jail.

They were shot by a specially armed and trained riot squad. Rushed to death row by a buzzer signal signifying trouble, the riot squad met the two gangsters as they came out of their cells pointing wooden guns.

The guards immediately opened fire. The two gangsters dropped.

AUTO NOISES BEING BANNED BY ENGLISH

LONDON, Sept. 27.—Hoots, toots, honks and other ear-splitting motor noises no longer will disturb the sleep in Britain.

Following successful experiments in "hornless" areas in London, the minister of transport has ordered the ban to be extended to practically the whole country where there are any built-in areas.

This ban, which already has brought thousands of grateful letters, extends from 11:30 p. m. to 7 a. m. Offending motorists are liable to a fine of \$10.

The enforcing of the "silence zones" regulation throughout the provincial towns, commenced on Sept. 16, following a campaign of enlightenment through press and radio, to acquaint motorists of the rule.

The regulation will not apply on country roads outside the towns and villages. Observers of the London experiments report greater care in driving among the immediate results of the regulation. Drivers are less reckless in overhauling and passing another car.

Few Offenders
Augmented police watchers found that the rule was well observed. Only a small number of cases in central areas occurred, and these offenses were considered inadvertent and caused by the driver's automatic honking at known dangerous intersections. No cases of accidents, due to the discontinuation of the horns, were reported.

The Anti-Noise League, who championed this reform a year ago, looks upon the new regulation as a victory, although not a complete one. They also are agitating for the elimination of noisy cutouts on cars and motorcycles.

Collector Won't Ride With Chief

PORT WORTH, Sept. 27.—Deputy Tax Collector D. O. Brown would not more think of riding in an automobile with Fire Chief Standifer Ferguson than he would of trying to swim the Atlantic ocean—and back of that is a story.

As a lad Brown used to "hang around" the fire station where Ferguson would let him ride on the wagon to all fires. That was in the day of the horse-drawn fire wagon.

When the automobile came into being, Brown awaited eagerly the day he could take a ride in a gasoline-drawn wagon. Finally the day came, with Ferguson at the wheel. It was the first trip for the new wagon.

With Brown beside him, Ferguson swept up Seventh street and heaved heavily at the wheel to turn a corner. He heaved too much, however, and the truck took out a section of an iron fence surrounding the old Elks club.

When Brown awoke, he had been flung through the windshield and landed on one of the fenders. He still carries scars from the ride.

So now when Chief Ferguson happens along the street and offers Brown a ride, the deputy tax collector always has an appropriate reason for refusing.

Rex Page One of 5 To Win Fair Trip

Rex Page, manager of the parts and accessories department of the Nance Motor company, will be one of five Ford dealers employees out of the 225 agencies in the Dallas branch to get a free trip to the Chicago World's fair next week.

Page won the trip in competition with many hundreds of other contestants, including service station managers and parts merchandisers. He accumulated 29,000-odd points in the contest. Points were awarded on the sale of genuine Ford accessories; on the percentage of increase in total sales; on the condition in which the stock room was kept; on the amount of stock kept; and for other special considerations.

Page will leave Dallas Tuesday at 3 p. m. in a party headed by F. L. Yates, service manager for the Dallas branch. The party will join several hundred others at Chicago. Page will be away a week.

One in 10 People Snake-Bitten Dies

PORT WORTH, Sept. 27.—Snakes in the United States kill only about 10 per cent of the persons they bite, says Dr. John A. Stanfield, Port Worth, in a cent issue of the magazine, Sports Afield.

In the first place there are only four varieties of poisonous snakes in the United States, he said: the rattlesnake, copperhead, cotton-mouth moccasin and coral snake.

The greater percentage of those persons dying of snake bite succumb because of inadequate or delayed treatment, he continued. With adequate treatment probably not more than two per cent would die.

That many snake bites do not prove fatal, he said, is due to diminished venom when the snake is feeding miscalculation of striking distance, interposition of clothing, bites in fatty areas where there are few blood vessels, and bites in areas having little connective tissue, such as toes and fingers.

Spain Protests Island English

MADRID, Sept. 27.—The report from Manila that a committee of the Philippine constitutional assembly has recommended English as the official language of the archipelago has caused a wave of protest here.

Most editorial writers emphasized the influence which Spain has had in the history of the islands and expressed sorrow that this is to be forgotten by dropping the Spanish language.

The Spanish-Philippine association, sent a message to the Philippine congress asking that "the constitutional assembly disapprove a report from its committee of teaching proposing the adoption of English as the only official language in the islands. The association understands that the news will cause a very sad effect throughout Spain and will be a grave obstacle for future Spanish-Philippine relations, and it hopes that both English and Spanish be adopted as the official languages."

The monarchist newspaper ABC expressed its approval of the association's cable and expressed the hope that it would have "the desired effect."

GUILTY PLEAS ARE ENTERED AT FT. WORTH

PORT WORTH, Sept. 27.—Joe Burleson, 36, and Homer McCoy, 30, Saturday were each sentenced to 99 years imprisonment for the kidnapping and robbery last April of C. M. Kella, Jr., Southwestern Bell Telephone company employee.

The two men pleaded guilty before District Judge George E. Hosey. They each received two 99-year sentences, one each in the robbery and kidnapping charges. The sentences will run concurrently.

Kella was held up last April 23 by two men who leaped on the running of his automobile as it stopped at a traffic light.

The men later forced Kella to get into the turtleneck of the automobile where he was held prisoner for 18 hours while the men drove about eastern Texas and Louisiana.

When the automobile stopped at a filling station at Mt. Pleasant, Texas, Kella beat on the walls of the car. His pounding was heard by Mrs. W. A. McKee, 78, wife of the station operator.

Mrs. McKee forced his release. Burleson and McCoy attempted to flee but were captured.

Radio Transmits Typed Messages

WASHINGTON, D. C., Sept. 27.—Mentions looking to radio transmission of the facsimile of a typed, or handwritten, message as a method of disseminating weather information now are being conducted by the commerce department.

Eugene L. Vidit, director of air commerce, announced that a radio facsimile transmission system already has been given a favorable preliminary test by the bureau of air commerce.

Facsimile transmission is based on the scanning beam principle. Its peculiar advantage over other systems of radio transmission in which written or typed messages are reproduced automatically is that messages may be sent through static, or heavy background noise, and still be legible at the receiving end.

Rex Martin, assistant director of air commerce, explained the system as follows:

"The message to be sent is typed or written on a strip of paper tape. The tape with the message is fed into the transmitting set, where the scanning beam passes rapidly over the letters and causes radio impulses to be broadcast."

"At the receiving end," Martin continued, "the impulses are translated into extremely narrow black lines, which make up the separate letters of the words. The scanning beam passes over each letter numerous times and the character appearing on the tape in the receiving machine is made up of a similar number of tiny black lines."

The system transmitted 76 words a minute during tests.

WEIGHS THREE POUNDS

JEFFERSON, O., Sept. 27.—A white radian weighing three pounds grew in William Taylor's garden.

Roundup want ads are a good investment.—Phone 80.

MISSOURI TRIES TO SEGREGATE MOTOR TRAFFIC

By RICHARD L. HARKNESS
United Press Staff Correspondent
JEFFERSON CITY, Mo., Sept. 27.—The Missouri Public Service commission, in an experiment believed unique in the United States, is attempting to segregate truck from motor car traffic on state highways.

Commission Chairman John Caskie Collette is attempting to bar commercial trucks from a new cut-off built into St. Louis from Highway 66, forcing operators to use the old road and leaving the new concrete slab free for the public.

Separate Routes
If successful, Collette plans to separate commercial and public automobile traffic wherever possible and where alternate routes are available.

The move is primarily an attempt to reduce automobile deaths in Missouri. Figures show that an average of slightly more than two persons are killed every day in highway accidents, many of them involving trucks that crowd roads because of their large size.

Increased Hazards
"It is the belief of the commission," Collette said, "that the use of Missouri highways for commercial purposes increases the hazards of those engaged in their use for private purposes."

The commission, Collette said, also believes the highway financed by gasoline and license taxes, "were not constructed for the purpose of advancing commercial interests, but were primarily for benefit of the traveling public."

INQUIRY MAY PRODUCE ARMS CURB DEMAND

WASHINGTON, D. C., Sept. 27.—The inside picture of the arms industry revealed by the senate munitions inquiry was expected Saturday to bring a sharp demand in the next congress for rigid government control or monopoly of the vast armament business.

Chairman Gerald Nye said the revelations "had tendency to paint a solid picture of the industry and many who had contact with it. Sen. Bennett Champ Clark, democrat, charged a "partnership" existed between arms manufacturers and the government and said he would demand laws to break it up."

Additional hearings are scheduled for about December 1. Officers of the huge Bethlehem and U. S. Steel Corp. probably will be heard.

J. ANDERSON NEW COUNTRY CLUB PREXY

Jack Anderson is the new president of the Cisco Country club.

He was elected by acclamation at a meeting of the board of directors of the institution Monday night following a session of the stockholders of the club at which four new directors were elected.

The directors are Anderson, J. W. Thomas, W. C. McDaniel and J. E. Caffrey. Caffrey was elected vice president and B. A. Butler was re-elected secretary of the club.

Anderson succeeds J. A. Bearman who resigned from the board after a year's service as president. Mr. Bearman is recovering from a recent illness.

The meetings of the stockholders and directors were held coincident with an entertainment for the members of the club.

Current Term 94th For U. of Missouri

COLUMBIA, Mo., Sept. 27.—The faculty was in an uproar and historians had to refer to dusty tomes to determine what academic year the current one was for the University of Missouri.

A special committee appointed by the president finally agreed the 1934-35 term will represent the 94th year of academic instruction.

Dr. Jonas Viles, professor of history, Floyd Shoemaker, secretary of the State Historical society, and other historical authorities were summoned before the matter was settled.

Provision for establishment of the university was made in 1839. Research in a volume by Thomas J. Lowry disclosed that "President Lathrop entered on the active duties of his office and X X X courses of instruction were opened on Wednesday, April 14, 1841, in the old Columbia college building."

Missouri is the oldest state university west of the Mississippi.

Calvert Compaigning For 44th Speakership

AUSTIN, Sept. 27.—Rep. Robert W. Calvert of Hillsboro Tuesday began an active campaign to be elected speaker of the 44th Texas legislature which convenes next January.

Calvert's campaign was launched on a campaign against re-election of Speaker Coke R. Stevenson, of Junction.

Hike in Freight Rates Is Fought

NASHVILLE, Tenn., Sept. 27.—Fearing a possible \$150,000 annual increase in costs of coal consumed in Nashville alone, the local traffic bureau has prepared to fight against a proposed 10 per cent hike in rail freight rates.

Rail carriers filed a petition with the Interstate commerce commission asking for new rate scales approximately 10 per cent above present tariffs.

The Nashville Traffic bureau countered with a petition to the same federal commission, seeking rejection of the railroad request. The Nashville group also sought postponement of a hearing on the case scheduled for Oct. 1 at Washington.

The southern organization desires the hearing at Atlanta on Dec. 1 for railroads operating in the territory.

Local representatives contend that financial troubles of rail carriers are not chargeable to the level of existing freight rates, but to decreased tonnage. This reduced tonnage, the petition holds, is due first to the general business depression and second to the diversion of large freight tonnage from railroads to truck carriers.

CHECK HEATING EQUIPMENT IS GAS CO. ADVICE

Wild geese have already started south, stepping up their usual schedules about a month, with the first flight in Texas reported in August by a Fort Worth citizen.

Scientific minded gentlemen, observing this and similar occurrences in other parts of the state have come forth with statements that early flights of geese foretell an early and a hard winter. H. L. Dyer, manager of the local gas company, explains that while he can't pose as a scientist, in his opinion gas users would do well to check over their heating equipment now. "Too many people put off looking over their gas equipment until the first northern hits," he explained.

Now is the time to look over your heating equipment and have it set up. Wall cocks and old room heaters should be inspected and replaced if necessary. Whenever possible gas equipment should be connected with gas piping; if flexible tubing is used, it should be renewed as it is rarely good for more than one season. Additional heating equipment, if needed, should be purchased now, while gas appliance dealers have a complete selection, and installed before the last minute rush. Vented automatic heating equipment for increased comfort and more healthful conditions in the home has been adapted by manufacturers especially for the moderate sized home. A small furnace which hangs beneath the floor, circulating warm air through a grill into one or two rooms, gas steam radiators, which manufacture their heat at the wall, and warm air circulators are some of the newer popular units. Their even, circulating heat which may be automatically controlled eliminates wall sweating and overheating with its attendant colds and other winter ailments.

All of this heating equipment, as well as room heaters, if connected with gas piping, has been included in the list of home furnishings which may be purchased through National Housing Act insured loans.

Silliman Evans Is Made Bank Director

Silliman Evans, former assistant postmaster-general and now president of the Maryland Casualty company of Baltimore, Md., has been elected a director of the Baltimore National bank, Baltimore, Md., a news dispatch reveals.

Mr. Evans, a brother-in-law of Luther an Yancey McCrea of Cisco, resigned his administration post last spring to accept the call to private business.

He was in Cisco last summer and was elected one of the delegates from the west Cisco precinct democratic convention to the county convention and from the county convention to the state convention.

A former staff writer for the Star-Telegram, Evans' most famous newspaper work was his coverage of the sensational Cisco Santa Claus bank robbery here in 1927.

Landowner Found Beaten by Robbers

ENID, Okla., Sept. 27.—F. J. Cupps, elderly landowner, was found brutally beaten Wednesday in his farm home, with a baseball bat and a spade bearing bloodstains nearby.

Robbery was the apparent motive of the attack on him. Physicians said his condition was critical.

Cotton Certificates Due Here Monday

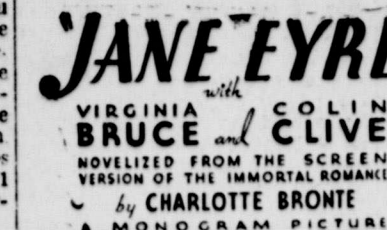

Tax exemption certificates under the Bankhead cotton control act are expected to arrive for distribution to Eastland county cotton growers Monday, County Agent J. C. Patterson said this week. Eastland county allotments have about been completed by the state board, he said.

Notices will be mailed in advance to the growers directing them to appear at a certain date to receive their certificates in the community where they made their applications. The county agent explained. Only one day will be allowed for this and those who fail to appear for their

Two Bandits Rob Bank of \$17,704

RUSSELLVILLE, Ky., Sept. 27.—Two armed bandits overpowered five employees and customers at the Southern Deposit bank here Saturday forcing the cashier to open the safe and escape with \$17,704 in cash and bonds.

(Charlotte Brontë, sister of Emily and Anne Brontë, was born April 21, 1816, and died March 31, 1855. Their father was an Irishman of poor health and eccentric ways. Their mother died when the children were young, and they were left to bring themselves up in a bleak and solitary house, close to the churchyard, their only solace an intense enjoyment of the world of make-believe. Deaths in the family, sorrow and tribulation of all kinds, the struggle to make a way in the world by teaching and serving as governess, the necessity of acting as mother to the family, all were a part of the intense life of Charlotte. In 1836 the three sisters issued a small volume of poems under the names of Currer, Ellis and Acton Bell. The book was hardly noted at the time. The three sisters each began a novel. Emily's "Wuthering Heights" and Anne's "Agnes Grey" found publishers, but "The Professor" of Charlotte remained unaccepted until she had made her name famous with other work. She threw herself into the composition of "Jane Eyre," which was published in 1847. It took the reading public by storm; the literary sensation of the day was "Who is Currer Bell?" The answer did not come till "Shirley" had been published in 1849, when the author became a part of the great world of letters. "Villette," her last book, came in 1853. The next year she was married to the Rev. Mr. Nicholls; she died the year after, when success and happiness should have crowned her life. Beginning with the life by Charlotte's friend, Miss Gaskell, the three sisters have been the subject of innumerable books and articles.)

"But this time it was at Jane that he had looked first and her heart quickened as he came and stood by her."

Serialization Courtesy of Screen Romances Magazine

CHAPTER I
Somehow she seemed the very essence of the gracious mid-victorian living room sitting so quietly in the large chair that accentuated her smallness, the child Adele on the little hassock at her feet.

Her face was the hushed white of a camellia blossom, her eyes the deep blue of distant hills. Tranquil, they were tenderly wise under the smooth yellow of her hair.

"And each time the earth revolves around the sun, another year has passed," Jane Eyre's hand rested gently on the child's hair as she talked. "Is that quite clear?"

Another year! How endless they had seemed before. Years of days and each one of them as long as the year that held them. Days listening to the same lesson she was teaching the child at her feet—days dawning it to the pupils in her class at the same orphanage that she had grown up in. Bitter days . . . drab days dragging their hopeless length across the years.

Everything had changed with her coming to the Rochester home as governess for the master's small niece. Everything had changed with her first glimpse of the man himself. Her heart had leapt to the first sight of him, this tall dark man with the sad eyes, reining in his horse as he had stopped to talk to her. In that moment she knew that she loved him, that she would always love him. That never more would her heart find peace for she knew that in loving him she had taken his restlessness upon her own slender shoulders.

Now her days were vivid . . . alive . . . filled as they were with her awareness of him. At any moment she might hear his voice, might see him coming suddenly into a room his eyes momentarily tender as they rested on the child.

He came into the room now and dropped into a low chair facing her, for a moment his smile lifted the sadness always so discernible on his lean face. But this time it was at Jane that he had looked first and her heart quickened.

"Uncle Edward," the child rushed to him eagerly. "Take me to London with you."

"Not this time, my sweet," Rochester smiled indulgently as he exchanged an amused look with Jane.

Jane felt suddenly shy and confused under his glance. Was it only imagination or was there really a new warmth in his eyes as he looked at her.

It came at night when the house lay hushed in darkness, and Jane trembled, as she heard it. A laugh and yet really no laugh, for it held no sparkle, no gaiety, only a stident harshness that chilled the girl's heart. A demon might laugh like that . . . a soulless spite. Surely nothing alive and warm and human could make so horrible a sound.

BOZE ATTEMPT NOT FIRST TO BLAST CLOUDS

EDINBURG, Sept. 26 — Efforts to grow rain from Texas skies by high explosives were made many years before James A. Boze conducted his recent and fatal attempt by airplane according to T. S. Simmons, resident of south Texas for more than 40 years, who saw the rainmakers at work in 1899.

While Corpus Christi was enjoying a boom period in that year, he relates, a severe drought began to cause much damage and relief was sorely needed.

Farmers and citizens finally held a meeting to decide upon a course of action. One of their number heard of a Major Dryanforth whose reported successful in other sections of the country. A purse was raised and the Major brought to Corpus Christi, along with a corps of assistants, special balloons and time bombs.

The balloons ascended properly and the heavens were torn by numerous explosions, but no rain fell.

Then a group of cattlemen in Duval county, also sorely afflicted by the drought, heard of the Major's ill-fated C. rous Christi and decided the cattle country might be a better bet for experiment. Another purse was raised and Major Dryanforth moved to the South Texas ranges with his bulky equipment and numerous assistants.

He bombed the heavens almost continuously for hours but produced not a shower. After waiting in vain for moisture, the Major left the country, taking his entourage and several thousand dollars—and leaving the ranges as dry as when he came.

DESDEMONA

On Monday Mrs. Z. L. Howell was given a surprise party by a number of ladies of the Olden Methodist church who came down and spent the day. Each one who came brought a covered dish for the noon luncheon. The occasion of the party was for the presentation of a quilt they had made for Mrs. Howell. Those who came were: Miss Sue Hamilton, and Mrs. Charles Young, Russell Horner, Thomas Stanton, Frank Huddleston, Vermilion, Pledger and Mitchell.

Mrs. A. C. Robert, A. C. Moore and Mattie Henry drove over to DeLeon Saturday to arrange for the printing of the year books for the "21" Study club.

Mr. and Mrs. Joe Thompson, of Ranger, and their two small children, took dinner Friday with Mr. and Mrs. A. C. Robert. They were on their way to Jonesboro to visit Mrs. Thompson's parents, Mr. and Mrs. W. C. Kella.

Delbert L. Acra, of Oakland, Cal., surprised his parents, Mr. and Mrs. T. L. Acra, with an overnight visit Monday of last week. He was on his way to Omaha, Neb., to attend the convention of the insurance company of which he is district manager of the California branch. Delbert is well known in Desdemona having worked in the postoffice here some years ago. His many friends were sorry he could not stop for a longer visit.

Mr. and Mrs. Arthur Brazell attended the county fair at Eastland Saturday.

Mr. and Mrs. W. H. Davis attended the county fair at Eastland Thursday.

Mr. and Mrs. J. H. Adams and daughter, Miss Imogene Adams and Mr. and Mrs. Robert Sneed visited in DeLeon Friday night.

Mrs. C. D. Wooten and two small children of Edy are guests of her parents, Rev. and Mrs. Z. L. Howell.

Tip Henry attend the county fair at Eastland Saturday.

Mrs. D. D. Lewis and Mrs. Willis Matthews entertained the Intermediate B. Y. P. U. of the Baptist church with a picnic and marshmallow roast Tuesday evening at the Lewis farm. Those present were: Mrs. Lewis and Mrs. Matthews, the faithful leaders, Rev. and Mrs. Z. C. Chambers, Mrs. Henry Gentry, Les. He and Delbert Williams, Maureen Jones, Homer and Blawyer Gentry, Wesley Arthur, Billie Joe and Charles Matthews, Andrew Henry, Johnnie McKain, Joe Alton Kemp, Haskell Sparkman, Mrs. Louise Armstrong, James Floyd Armstrong, Doris Fowler, Adell Maltby, Nellie Lohman, Bobbie Morrow, L. Z. Tate, Ruth Moore, and Rubalee Krapf. Punch, meat sandwiches and marshmallows were served and an excellent time was had. And the secretary-treasurer is Rubalee Krapf. Every intermediate boy and girl is invited to come to the B. Y. P. U. at the Baptist church every Sunday evening at 7:30.

On Monday afternoon the Methodist Missionary society met at the home of Mrs. A. C. Robert who entertained them delightfully. During a short business session reports for the quarter ending this month were made out and a few other matters of business were attended to. During the social hour several games and contests were enjoyed. In the "Country Store" contest guests wrote names of articles with the brands found in stores. Mrs. Gifford Acra was winner as she wrote forty articles in the 10 minutes. At the

close of the games the hostess and her daughter, Madeline served delicious ice cream and devil's food cake to Miss Mollie O'Rear and Misses I. N. Williams, Charles Lee S. F. Snodgrass, W. E. Barron, W. C. Bedford, Z. L. Howell and Gifford Acra.

J. H. Adams and family and Bill Munn and family and Mr. and Mrs. Robert Sneed attended the Eastland county fair Saturday night.

Sympathy of the community is being extended to Mrs. George Patterson on account of the death of her dropped dead Monday. Mrs. Patterson left at once for Dallas. Carroll Stover and his parents, Mr. and Mrs. S. T. Stover, drove up to Ranger on business on Tuesday of last week.

Edwin Nabers who has been in Chicago for sometime came in Sunday for a visit with his parents, Mr. and Mrs. Tom Nabers.

On Wednesday Mrs. W. E. Barron accompanied by Mrs. S. E. Snodgrass, Mrs. Charles Lee and Mrs. W. C. Bedford drove over to Gorman and attended an all day meeting of the South Zone of the Cisco District Methodist Missionary societies. Asst. Sec. Mrs. Barron presided over the meeting with Mrs. M. A. Walker of Carlton, leader of the program. About 75 were present representing societies of Bungan, Dublin, DeLeon, Desdemona, Carbon, Side Springs and Gorman.

Thursday night at the high school the P. T. A. entertained in honor of the teachers of our schools, several of whom are new ones. A good program was rendered and a pleasant social hour was enjoyed. Mrs. Ed Hanson is president of the P. T. A.

Desdemona Epworth League was represented at the South Zone of Cisco District league meeting at DeLeon Friday night by Miss Edna Parks, Mrs. Annie Daniels the sponsor, and a number of others.

Though one of the smallest leagues Desdemona league was the only one to report dues and pledge money paid in full and a balance in the treasury.

We are glad to report that Urban Krapf, has almost recovered from the injuries he received while working at the gin about ten days ago. A pulley broke and in some way his leg was caught in a door and a good-sized piece of flesh was torn from the calf of his leg.

Mrs. Clarence Jones and son, Ed, gave dinner over to Gorman on business Monday.

W. C. Bedford drove to Ranger on business Monday afternoon.

Mr. and Mrs. Rollie Acra and little son, Randolph, who are now living near Alexander, visited Mr. and Mrs. T. L. Acra Sunday of last week.

Mrs. I. N. Williams and Mrs. Roy Ashburn returned Saturday evening from an auto trip of two weeks during which they visited Mrs. Williams David, sister of Mrs. Ashburn at Tulsa, Okla., and also a friend of Mrs. Williams there. Then at Palestine, Ill., they visited Mrs. Williams' parents and at Robinson, Ill., they visited other relatives of Mrs. Williams and they spent a few days at the World's fair at Chicago.

Mr. and Mrs. Gifford Acra visited her parents, Mr. and Mrs. Pritchett at Ranger Sunday. A special birthday dinner for Mrs. Acra was served.

HASKELL

Mr. and Mrs. Underwood, Mr. and Mrs. Alford Rankin visited in the Steve Keith home Friday evening.

Mrs. Alford Holt and baby and Duke Compton visited their father Saturday and Sunday.

Mr. and Mrs. Claude Shook and sons, Wilbur Ray and Billie Ted, Mr. and Mrs. Earl O'Brien spent Sunday with their father, J. W. Allen.

Miss Carrie Belle Perdue visited her mother and grandfather Saturday night and Sunday.

Several from this place attended church at Nimrod Saturday and Sunday night.

Mr. and Mrs. Underwood and Mr. Beck went to Eastland Saturday.

Mrs. H. W. Perdue visited Mrs. Statterford at Nimrod Monday evening.

Several from here went to Eastland Monday.

J. W. Allen and daughter spent Thursday with D. L. Allen at Cook.

COOK

Mr. and Mrs. D. L. Allen attended singing in Nimrod Sunday afternoon.

Miss Muri Moore was the Sunday dinner guest of Mr. and Mrs. G. W. Hunt.

Mr. Anne Davis visited her brother and wife, Mr. and Mrs. Bill Gardner, Saturday.

Claude Trigg and Bruce Younger spent part of last week with Mr. Trigg's son and wife, Mr. and Mrs. John Trigg.

Misses Blanche, Muriel and Ena Mae Walker visited Miss Juanita Townsend Sunday.

Mrs. Amanda Hill visited her sister, Mrs. McLaister Saturday afternoon.

Mr. and Mrs. Ben Weise and family attended mission day at the Lutheran church Sunday.

Mr. and Mrs. Ed Townsend of Nimrod visited his parents, Mr. and Mrs. Bob Townsend, Sunday.

Clyde Williams and Miss Ruth Craft visited Clyde's sister, Mrs. Oscar Maddox, Sunday.

Mr. and Mrs. Wilburn Curtis, Joe Weise and John Sheffield attended the fair at Eastland Saturday night.

Johnnie Stephens who lives in the Amity community spent Saturday night with his uncle and aunt, Mr. and Mrs. C. L. Carmichael.

Misses Bernice Townsend and Doris Williams were the Sunday dinner guests of Miss Bertie Mae Townsend.

Misses Laura, Mattie and Hattie Weise and Mr. and Mrs. J. F. Reynolds and J. F. Reynolds Jr. went to Rising Star Saturday night.

Mr. and Mrs. Cliff Hopper and two daughters and Miss Ida Mae Leske of the Ballard community attended singing at the Christian tabernacle Sunday night.

Mrs. Eulah Townsend and children visited Mrs. Paul Townsend Sunday afternoon.

There was a large crowd attending the singing at the Christian tabernacle Sunday night.

Misses Eulah, Alma and Lois Walker visited Mr. and Mrs. Frank Wagley of Nimrod Sunday.

Miss Muri Moore, Elbert and Joe Bailey Hunt attended Mission day at the Lutheran church Sunday afternoon.

Mr. and Mrs. Bill Gardner attended the Eastland fair Saturday night.

C. D. Carver and Ben Williams were in Eastland the last of the week.

Aunt Nora Curtis visited Mrs. Lucy Curtis Monday.

Mrs. J. F. Reynolds is spending a few days this week in Fort Worth.

SHADY GROVE

The community was the center of quite a weird storm last Thursday night. The most damage was on the J. W. Mc Kinney farm. His barn was partly unroofed and several fruit trees were blown up by the roots.

This community was well represented at the county fair Saturday night.

Mr. and Mrs. J. W. McKinney and family visited at Dothan Sunday.

Mrs. Joe Bowen of Burkett spent several days last week with her parents, Mr. and Mrs. John Laird.

Mr. and Mrs. Irvin Finley visited relatives in Cisco Sunday.

Mr. and Mrs. Jack White and children of Rising Star, Mr. and Mrs. Roy Fenley and daughter and Mr. and Mrs. Emmett Green of Cisco were Friday evening guests of Mr. and Mrs. Flynn Reims.

Mr. and Mrs. John Smith of Eastland visited in the N. A. Berry home Sunday.

Several from here attended the singing in east Cisco Sunday afternoon.

Mr. and Mrs. J. T. Graves, Rob

Ward and sister, Miss Willie, visited Mr. and Mrs. McKinney of Dothan Sunday afternoon.

Mrs. E. N. Strickland visited in Eastland Saturday afternoon.

RUBY, Ariz., Sept. 26 — Reportedly worked by Jesuit missionaries of the Tumacacari mission more than a century ago, the old Austerlitz mine near here may be reopened.

CISCO STEAM LAUNDRY

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pop . . . Vigor . . . Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and diarrhea.

If kidneys don't empty 5 times every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS . . . a doctor's prescription . . . which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes, for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS . . . the old reliable relief that contains no "dose" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-McLiburn Co.

ILLNESS FATAL AT BRYAN TO R. F. LAWRENCE

R. F. Lawrence, assistant to County Agent J. C. Patterson and Bankhead act administrator for Eastland county, died at a Bryan, Texas hospital Monday morning following an operation for an ulcerated stomach performed Monday, Sept. 17. Mr. Lawrence was at A. and M. college sitting with the state allotment board on Eastland county Bankhead act exemption certificate applications, as required, when his condition became serious and the operation was ordered.

The strain and worry of his duties in connection with the administration of the Bankhead act in this county was said to have been directly responsible for the weakened condition that brought on his illness. He took his work seriously, although he was not responsible for the allotments that were made by the board County Agent Patterson said.

He was unmarried. A native of Big Spring, Texas, funeral services will be held there this week.

Lawrence, who was a graduate of A. and M. college and served as appraiser for the Federal Land bank at Houston, came to this county on June 1 to take up his duties as administrator and county agent's assistant.

DROUTH STATES HAVE BIG BANK ROLL THIS FALL

KANSAS CITY, Mo., Sept. 25.—A billion dollar pocketbook!

That is what farmers of six drouth states of the Midwest are carrying around this fall. It is a bigger roll than they had last year and many times bigger than the one they had in 1932. And it is surprising to the farmers and the merchants. Because of the terrible drouth toll both classes had expected little cash income.

The states that are finding a healthy cash balance in the rural sections are Missouri, Nebraska, Iowa, Kansas, Oklahoma and Texas.

Expert Figures

Figures compiled by experts place the combined income of the six states for 1934 at approximately \$1,356,422,000. The farm income for the same states in 1933 was \$1,290,311,000. Thus the "burned out" farmers will have approximately \$66,000,000 more to spend than they had in 1933.

The reasons are higher prices now commanded by farm products and the federal benefits from the AAA for crop reduction and the corn-hog program. Between the two many farmers will break ahead of last year, and because of the AAA benefits virtually all will have some cash.

Of the states listed, Texas is the exception to the rule of greater income. While figures are incomplete and estimates subject to revision, state and private estimates indicate a 1934 income of about \$396,000,000. In 1933 it was \$443,326,000.

Iowa's Income

Iowa's farm income will be approximately \$338,167,000 the total helped nicely by the \$75,000,000 in corn-hog money now being distributed. The 1933 income was \$325,600,000.

The income of Kansas farmers will be about \$225,000,000, an increase of about \$5,000,000 over last year. In Oklahoma an income of about \$146,000,000 is anticipated, contrasted with \$122,755,000 in 1933. Nebraska will have about \$170,000,000. Last year's yield netted but \$132,000,000. In Missouri an estimated farm income of \$50,000,000 top that of last year by approximately \$4,000,000.

The better times are reflected in bank clearings and bank deposits, which are up generally in most of the six states. Merchants report the farmers are spending their money for needed supplies.

COTTON MILLS MOVE NEARER NORMAL WORK

By United Press

The cotton textile industry moved nearer normal operation Tuesday but isolated trouble spots remained from the general strike, called off Saturday.

North and South Carolina and Georgia were disbanding state troops. Not all units were recalled, however, as four companies remained at Shalston, Ga.

Labor charged mills were discriminating against union workers in several mills in Georgia, North Carolina and South Carolina.

Nearly 75 per cent of New England's 160,000 workers were at their looms today. All were expected to be employed within a week.

OWNS WHOLE TOWN

BRYAN, O., Sept. 27.—Mrs. Grace M. Walling, of Fayette, owns a town all her own. For \$1,475 cash she bought Jimtown, O., on U. S. Route 20. Her property consists of a restaurant, gasoline station and home.

NEW PHILADELPHIA, O., Sept. 27.—The largest still lever confiscated in Tuscarawas county, one of 500-gallon capacity, was seized recently by state liquor agents. It had a 1,500-gallon week capacity and was valued at \$5,000.

Loboes to Play First Foreign Game Friday at San Angelo

IMPROVED TEAM WILL CONFRONT BOBCAT ELEVEN

After a week of intensive drill to correct defects revealed in the Gorman game—principally tackling which the coaches blame for the success of Gorman's reverses and double reserves, and poor pass defense—the Loboes will take off early Friday for San Angelo and their second game of the season. The boys will leave the high school building about 8:30 by bus. The game will be played at night.

San Angelo has a heavy but inexperienced squad of players. Only four lettermen are back from the last season. The others are boys just out of junior high. Last week the Eastland Mavericks sprang a surprise and incidentally a challenge to the Oil Belt from an unexpected quarter, when they defeated the Bobcats 12 to 6. Friday night's contest will give the Loboes something comparative for the first time this season. What the Loboes do against the Tom Green county lads will rate them statistically against the Eastland team. And Eastland still would trade a first class court house for a victory over Cisco, a victory that would have no precedent in all the history of football relation between the two communities.

Will Be Stronger
The Cisco team will go into the San Angelo contest stronger with regulars as with the experience of last week and the practice of the present. One regular who played against Gorman will be lost for the contest, but two others who did not play then will return. Theron Graves, veteran tackle and whose twin, Thomas Graves, functions at the other tackle, is nursing an injured shoulder. He is expected to be out for a couple of weeks at least. Meanwhile Glenn Collum, regular quarter, and Frank Shackelford, regular halfback, will return to the backfield after having been banished last week for infraction of rules. This makes the probable Cisco lineup read as follows:

Le. Harold Sledge; lt. N. P. Barnes; lg. Gerald McKett; c. Norris Little; pg. rg. Reuben Wondie; rt. Thoras Graves; re. Roy Burman; quarter, Glenn Collum; lb. "Popeye" Beasley; rh. Frank Shackelford, and full, Caffrey.

Reserves
Reserves will be: Ends, Wm. Sanders and Earl Wasley; tackles, Royce Rainbolt, Jack McCanlies and Bud Wood; guards, Art Tom Moore and Brennen; center, Durwood Boyd; backs, Dick Stansbury, Fred Ryler, Bruce Groce and Billy Hayes. Sherman Ramsey will also make the trip as a member of the reserve squad.

The past week has been a full one as Coaches Shelley and Hodges drilled their men against the weaknesses evident in their first game. In that game was revealed plenty of power and pep and some excellent line play. Poor tackling, poor defense against passes and ineffective blocking out down the efficiency of the team, however. Much of this has been overcome during the week and the Loboes should present a much stronger front against San Angelo than they did against the Gorman eleven—the best eleven, by the way, that Gorman has ever brought to Cisco. However, they are going to need a stronger front, by all evidences, or they will come back from their first trip afield with a defeat draped about them.

Better Spirit
Spirit of the team has been improving and yesterday the squad snapped through its drills with a pepper precision that pleased the mentors. They anticipate a greater determination a more confident play against the Tom Green county eleven Friday.

Coaches also were pleading for local fans to make the trip to San Angelo to boost the team. Support from the stands will exert a needed effect upon the boys away from home, they pointed out.

Pecos Quarter Plays Grid Game Barefoot

PECOS, Sept. 27 — Now comes a rival to the famous "Shoeless" Joe Jackson, former major league baseball star who in his amateur days played barefoot.

Jackson's rival is diminutive Quarterback Kelton of the Pecos high school football team. And Kelton does a good job of it. In a game with the arch-rival McCamey team, Kelton weaved his way through a broken field 32 yards for his team's winning touchdown.

HOOKS AND SLIDES

BABE RUTH, who has performed before 50,000,000 people—more than any other sports figure in history—frankly admits that he doesn't know what is to become of him in 1935.

He would prefer to manage a club. His second choice is to play week-ends and pinch hit. He realizes that he is finished as a regular.

"The Yankees may feel that I can do them some good as a substitute, and then again Colonel Ruppert may decide he has had all he wants of me, and give me the bum's rush," says Ruth. "If that happens, I don't know where I'll go."

It would be strange if the American League, weaker than it ever has been in four cities, couldn't find a place for the most magnetic attraction in the annals of the game.

But withhold your tears. Ruth has earned a million in his 21 years of play. He declares he can write his own ticket for \$600,000. And Colonel Ruppert hasn't as yet turned him out into the cool world.

Dizzy Okeys Frisch—And the Deans

ALTHOUGH relations between Dizzy Dean and Frankie Frisch haven't been exactly chilly this season, the singular slinger calls the once Fordham Flash a great manager.

"Sure, Frisch is great," asserts Dizzy. "He's kept the Cardinals in the race right up to the wire with only two pitchers—Paul and me."

Dean operates on the theory that a hitter can't out-think a high hard one or a crackling curve.

"Most pitchers get so smart that they outsmart themselves," beams the Arkansan. "I just rear back and blow the ball through there with plenty on it. That puts the problem up to those guys, not me."

Dean didn't get his biggest thrill out of any one of the 26

victories he has turned in for the St. Louis club, or out of baseball prior to this season. That came when he met Mae West and Will Rogers at the Fort Worth airport.

Washington Club's War Not a Private Affair

WASHINGTON couldn't have fared much worse this year had it been playing Dillinger.

It was fitting that Al Schacht, a comedian, should be in charge of the Senators in the first two stops of their final western trip. Perhaps Clark Griffith was trying to laugh off the club.

In his maiden effort as a manager, Schacht had Susko, a rookie, at first base. Johnny Kerr, a coach, was made eligible so that he could take turns at second and third; Bluege, a third baseman, looked after shortstop; Harris, an outfielder, and Luke Sewell, a catcher, filled in at third, and Sewell took turns in the outfield, where Johnny Stone limped around with a bum ankle.

"There is nothing private about this thing," A. body can get in on it," recites Schacht, exhibiting a pair of badly split fingers. The coach-comedian got them in an exhibition pepper game with York, the Tigers' recruit Indian catcher, in Detroit.

Whaddayuh Mean, Schoolboy? He's the Principal!

THE snappiest baseball crack of the week is credited to a fair fan in Detroit.

"Here comes the Schoolboy," remarked her husband.

She had never seen the Schoolboy. The Schoolboy strode to the pitcher's box. He strode. No one strides quite like the Schoolboy. It is more than a stride, less than a strut. Whatever the Schoolboy's manner of walking, it is imposing, topped off as it is by a chest that suggests perpetual expansion.

"Schoolboy!" she gasped. "He looks more like the principal to me!"

MIDGETS WILL PLAY TEAM OF SCOUTS FRIDAY

With the Loboes playing away from home this week, it falls to the Midgets of the grammar school and the Boy Scout troops of Cisco to provide the home program for the football fans tomorrow.

The Midgets, after a narrow victory over one Scout team last week, will meet a team picked from the Scout troops at Chesley field tomorrow afternoon at 3:30.

Tickets will be sold at 10 cents each, the funds to be used to purchase equipment for the grammar school eleven. Coach Frank Langston said.

DAN HORN

R. Y. Douglas who has been ill several weeks seems to be better at this time.

Mr. and Mrs. Woodford Middleton from Sturgis, South Dakota, in the beautiful Black hills, are visiting Mrs. Carrie Hull and other relatives at Dan Horn.

Mr. and Mrs. Middleton are enroute to their home in Kentucky to see their parents.

Mr. and Mrs. J. D. Livingston of Midland spent the week-end there

with Mrs. Livingston's parents, Mr. and Mrs. Clyde King. They were accompanied home by Weldon King for a visit.

Mr. and Mrs. Tom Avery of Wink, Texas, spent several days here with relatives this week.

Mrs. George Gaskins and Mrs. Rutherford of Putnam and Mrs. J. A. Montgomery of Jayton were guests of their sister, Mrs. Clyde King Wednesday.

Misses Willie Weed and Eva Ervin were Sunday guests of Misses Kera and Myrtle Nix.

Singing Sunday afternoon was well attended.

Mrs. W. M. Weed spent Sunday with Mr. and Mrs. R. C. Speegle at Dothan.

Miss Dolores King of Post spent last week-end with her grand father, J. D. Speegle, and other relatives here.

Mr. and Mrs. Ervin Yeager and children spent Sunday with Mrs. Yeager's parents, Mr. and Mrs. T. B. Harris.

Mr. and Mrs. Floyd Boyd of Putnam visited friends here Sunday.

Mrs. Warren Jessup, Mrs. Robert Douglas and Mrs. James Harris spent Sunday with Mrs. Jeff Jones at Eastland.

Misses Mildred Taylor and Lena Culbert were Saturday night guests of Miss Lois Faye Waters.

Miss Estelle King spent Sunday with Mrs. Pollard.

There was a time

—when old-fashioned heating systems blistered your face while your back shivered.

But now . . .

with natural gas, winter is just another pleasant season in the modern home.

A timely reminder

Days are growing shorter, nights longer, and the first cold days of winter are on the way.

NOW is the practical time to check up your heating equipment while winter is still "around the corner." Don't let obsolete or inadequate heating rob you of a pleasant indoor climate. Improved gas heating equipment and your dependable gas service will give you care-free, inexpensive comfort at the touch of a match and you'll find just the type heater to fit your particular need on display at your gas company or appliance dealer's.

If this were a gasless community, the next order of business would be laying 'n a supply of coal or wood. Of course,

your dependable gas service makes this fuss and bother unnecessary. All through the summer months your gas company has been "keeping your fuel service faithful"—improving facilities so that you may have the safety and security of a dependable natural gas supply again this winter.

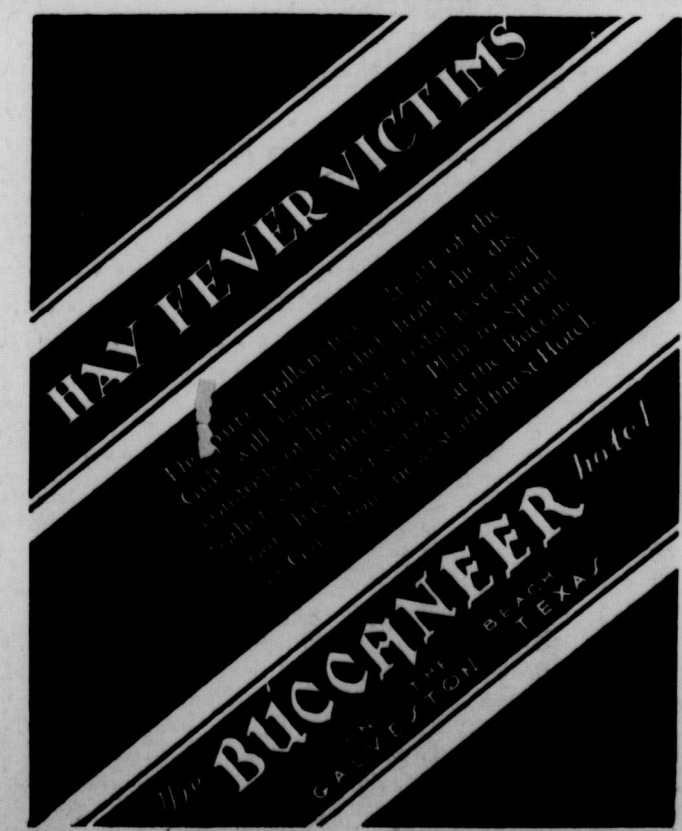

. . . If for any reason your gas meter is not connected ready for winter—call your gas company NOW and avoid the rush of that first "norther."

An ample gas supply has been provided . . . pipe lines and distributing lines have been checked over . . . compressor stations have been overhauled. In fact, every detail of your gas service has been carefully perfected to assist you in stopping Jack Frost at the threshold of your home,

About Cisco Today

Mrs. J. R. Green Hostess To WMS

The W. M. S. of the East Cisco Baptist church met in the home of Mrs. J. R. Green, 1305 West Fifth street, Monday afternoon, in a business and social meeting.

As this is the week of prayer for the W. M. S. the first program was given on the missionary work among the Mexicans.

Immediately after the program the society surprised Mrs. Lane Gilmore with a miscellaneous bride's shower.

The hostess served cake and led punch to: Misses Lane Gilmore, H. Barron, A. W. Dawson, Glen Garrett, Homer Shahan, J. E. Smith, W. E. King, Essie Whitten, Cecil E. Prickett, L. E. Helmeck, C. R. Hightower, T. J. Sparkman, C. A. Lassiter, A. A. Coates, J. E. Shirley, Jess Taylor, J. D. Hall, H. H. Hageman, Howard Robinson, and R. L. Garrett.

Birthday Honored With Party Wed.

Billy Jean Cleere entertained a group of her friends at a party honoring her birthday at the home of her parents, Mr. and Mrs. Clarence Cleere, on Wednesday afternoon.

The afternoon was spent in playing games after which Billy Jean cut a large birthday cake. Pop corn was served to: Dorothy Jean Anderson, Mary Ann Winston, Louise Flaherty, Cathryn Shepard, Marjorie Webster, Ada Rhine Mooley, Betty Jane Coates, Betty Jean Slicker, Doris Ean Starling, Patsy Jo Cleere, Walter Edward Midgely, Edgar Hickman, Fred Holson, A. D. Anderson, Jr., Dick Anderson, and Billy Jean Cleere.

Philathea Class to Have Party Friday

The regular monthly part of the Philathea Sunday school class of the First Methodist church will be

CALENDAR

Thursday
Pivot club meets with Mrs. James Moore.

Friendly 42 bridge club will meet at 3 p. m. with Mrs. Blair Clark, 711 West Ninth street.

Thursday 42 club will meet at 4 p. m. at the home of Mrs. J. B. Cate, 208 West Fourth street.

Friday
Philathea class of the First Methodist church will have a party at the home of Mrs. C. H. Parish, 305 West 5th street, Friday at 3 o'clock.

The Cisco Choral club will meet Friday evening at 7:30 o'clock in the Lions and Rotary room adjoining the Laguna hotel.

Officers for the new year will be announced at this party. All members are urged to be present.

Officers Announced For Baptist Circle

Circle 2 of the First Baptist church met Tuesday afternoon at 2 o'clock at the church to reorganize the circle.

The following officers were announced: Mrs. W. H. LaRoque, chairman; Mrs. M. M. Taber, first vice chairman, in charge of the entertainment; Mrs. Leon Maner, second vice chairman, in charge of the education; Mrs. Cecil Adams third vice chairman, young peoples' chairman; Mrs. Lee Elkin, recording secretary; Mrs. J. J. Butts, corresponding secretary; Mrs. J. T. Berry, treasurer and stewardship chairman; Mrs. N. A. Night, mission study chairman; Mrs. P. P. Shepard, personal service chairman; Mrs. J. W. Mancill, social chairman, and Mrs. C. S. Surles, devotion leader.

The next meeting will be held

October 9, at the home of Mrs. W. D. Brecheen.

Mrs. Powell Hostess To Methodist Circle

Mrs. W. G. Powell opened the business session of the W. M. S. of the First Methodist church Tuesday at 3 o'clock at the church. Songs were sung in union and Mrs. North up led in prayer.

Circle counts for the third quarter were given with Circle 2 leading with 66; Circle 1 second with 59, and Circle 3 with 52 members.

The women voted to serve a luncheon at 7 o'clock, October 29, in the church basement. The supper will be for the women of the church. Mrs. Powell appointed a committee of five headed by Mrs. W. A. Cox to work with the board of steward to complete the plans.

Personal Mention

Mr. Leslie Jenkins and Mrs. J. L. Thurnton are spending today in Fort Worth.

Mr. and Mrs. Carl Baird and son left today for a trip to Carlsbad, New Mexico.

REICH

Mr. and Mrs. Ernest Morris and children and Miss Addie Mae Horn attended the fair at Eastland Saturday.

Mrs. Elbert Kozell and Mrs. G. Pollard were in Eastland Thursday arranging the booth for the Reich Home Demonstration club for the county fair.

Mr. and Mrs. Ed Callerman are the parents of a baby boy born Sept. 20.

Miss Estelle King of Dan Horn was the dinner guest of Mrs. G. Pollard Sunday.

Jim Boatman visited Ed Callerman Saturday night.

Edwald Reich of the Lutheran community visited his parents, Mr. and Mrs. A. Reich, Saturday.

Edwald Callerman was the guest of Robbie Hazlewood Sunday.

Miss Lillie Gattis and children of Scranton and Mr. and Mrs. Dave Brown and daughters, Misses Viola and Ruth, visited Mr. and Mrs. Ed Callerman Sunday.

Mrs. Charlie Kimbrough visited her sister, Mrs. Erwin Owens, in Cisco Saturday.

Mrs. F. O. Schaefer and Mrs. Jim Boatman visited Mrs. Swinson Saturday morning.

Mrs. W. T. Leveridge, Miss Ethel Leveridge and John Leveridge spent Sunday at Throckmorton with Mrs. Leveridge, daughter, Mrs. Willie De Morgan and family.

The Home Demonstration club will meet at the school house Friday afternoon at 3. All members are urged to be present. Visitors are welcome.

Mrs. R. B. Ballard and son, are visiting her parents, Mr. and Mrs. R. N. Hazlewood.

Our school begins Monday morning October 1 all parents are requested to be present for the opening exercise.

Jim Dillon was called to the bedside of his mother, Mrs. R. E. Dillon at Cisco Wednesday, she is reported no better at this writing.

QUIT SMOKING AT 194
LINCOLN Kan., Sept. 27—Grandma Holman quit smoking a few days before her 104th birthday recently. She explained it wasn't because she feared what it might do to her health, but she lives alone, does not hear well and feared she might start a fire.

These hats are made of corn shucks, the natural color and colors to match the dresses. The shucks take dye as well as material. The make the hats she soaks the shucks in water until they are soft and pliable, cuts in strips and braids. The braids are then sewed together, fitted over a hat crown or mold to fit the head and the brim added. Large or small braids can be made, the strips cut for the small or large according to what the individual wants. When the hats are completed, bands are added or other trimming. Mrs. Ford recommends the corn shuck hats for long wear and says they are light and cool. She has made fifty hats and sold all but three for an average of seventy cents each. It takes approximately twelve hours time for making a hat, this time is that she has nothing else to see to and does this work as much for recreation as for work. She has made one man's hat.

MARY BRIGGS, prettiest brunet, called herself a hitch-hiker. Within 24 hours police were searching for her as the key witness in a sensational mystery. Read her story in the exciting new serial, "The Clew of the Forgotten Murder." It begins

By MISS RUTH RAMEY
Co. Home Dem. Agent

PEANUT PRODUCTS

The Carbon Home Demonstration club exhibit at the county fair shows what can be done with peanuts. The peanuts were shown on the vine, peanut candy, peanut butter, peanut salad dressing, peanut pies (peanuts substituted for pecans), and peanut butter. The different steps in peanut butter making were shown. Mrs. Lon Medford, the Carbon club gives the following information on making and canning peanut butter. This recipe was given through the club work and tried out by the members.

Two quarts Spanish peanuts, four quarts Virginia peanuts, two ounces salt. Roast the peanuts uniformly brown. Cool, remove the red skins and tiny hearts or germs (if the skins are not removed they may impart a bitter flavor). Grind, add the salt and grind twice more so as to have the salt well distributed throughout. A good type of meat grinder is satisfactory grinding peanuts provided the burrs are not worn. The finest burrs should be used and the machine should be set to grind the meat as fine as possible. If the butter is not fine enough, after grinding it through the machine once, it should be passed through again. Pack into small jars. It is important to fill the jars as full as possible, pressing the butter in on the bottom first and filling so as to remove air bubbles as the packing is done. Care should be taken not to leave any air space between the top of the peanut butter in the jar and the lid. The airless or vacuum sealing process is considered the best method of sealing nuts or nut butters, in either glass or tin containers. In case a vacuum sealing device is not at hand, heat should be used in the process of sealing the jars to drive out any air which might be in the product, and to seal it so no air can enter.

Sterilize twelve ounce containers for one hour at one hundred and eighty degrees F. (simmering) in a water bath. If there is too much oil in the butter, it will separate and the nuts will rise, leaving the oil in the bottom of the jars. The Spanish peanuts contain a larger amount of oil; therefore, it is necessary to mix the variety with the Virginia peanuts in the proportions given above.

The butter should be brought to a fine, granular form rather than to a smooth, pasty consistency. The aim in grinding peanuts for making butter should be to break the oil cells apart rather than to crush them. With a pasty product, the oil is likely to settle out, which will detract from the appearance of the product and make it necessary to stir it well each time before using in order to mix in the oil again.

CORN SHUCK HATS

Mrs. Eugenie Ford, clothing co-ordinator of the Romney Home Demonstration club adds to her wardrobe by making hats for the different dresses.

These hats are made of corn shucks, the natural color and colors to match the dresses. The shucks take dye as well as material. The make the hats she soaks the shucks in water until they are soft and pliable, cuts in strips and braids. The braids are then sewed together, fitted over a hat crown or mold to fit the head and the brim added. Large or small braids can be made, the strips cut for the small or large according to what the individual wants. When the hats are completed, bands are added or other trimming. Mrs. Ford recommends the corn shuck hats for long wear and says they are light and cool. She has made fifty hats and sold all but three for an average of seventy cents each. It takes approximately twelve hours time for making a hat, this time is that she has nothing else to see to and does this work as much for recreation as for work. She has made one man's hat.
