Navy Ordered To Take Over Shipyard

Red Army Making 'Last Stand' Fight To Save Leningrad

Germans Fail To Gain Ground In Heavy Fighting

Old Czarist City Is In Danger Of Going To Nazis

(By The Associated Press)

RED ARMY soldiers, the first of the three lines of defense of Leningrad, were reported today to be putting up a particularly heavy fight for their city, whose 3,000,000 citizens have dug in for a last-ditch defense.

Mindful of the "terrible danger" facing the old Czarist capital, the Red army fought fiercely in the Kingisepp sector, 75 miles southwest of Leningrad, and in the Novgorod area, about 100 miles south of the city

Decisive Moment Near

While the battle raged yesterday and last night, Soviet Marshal Klementi Voroshilov, commander of the Leningrad area, proclaimed:

"The decisive moment has arrived. This enemy is nearing Leningrad."

But the early morning communique of the Soviet information bureau indicated the Germans have not gained ground. It mentioned sectors which figured prominently in the dispatches last week as the Leningrad crisis developed.

While the battle for Leningrad wore on, the Rusisans officially reported tremendous slaughter of Rumanian soldiers in the campaign against Odessa, Russia's great Black sea port, in "particularly heavy fighting."

Rumanians Slaughtered

"Rumanian divisions have no more than 20 or 25 per cent of their men and officers left," the communique declared.

Further, the Russians said a number of Rumanian divisions—allies of Germany—have lost from 70 to 80 per cent of their light machine guns, and from 60 to 30 per cent of their heavy machine guns and their anti-aircraft artillery.

In the center, a zone of heavy fighting was reported around Smolensk, now in German hands. The Germans are trying to break through this sector and assail Moscow.

No Major Change

Of the war picture as a whole yesterday, the communique said "fierce fighting continued along the entire front."

That was the tenor of the Soviet communique yesterday afternoon when the Russians simply noted that "our troops fought fierce battles along the entire front."

It indicated no major change had taken place at the end of the ninth week of the bloody conflict—but it was clear that Leningrad faced its most critical hour.

The Berlin radio asserted that Adolf Hitler's invasion forces "have broken through all Russian field fortifications near Lake

(Turn to Page 6, Column 6, Please)

Cooler Weather Is Forecast For Today

Considerable cloudiness, with afternoon showers, was predicted for today on the South Plains, which had received precipitation ranging up to an inch and a half Friday and Saturday.

Continued cooler weather also was in prospect. Saturday's maximum temperature was 83 degrees, the United State weather bureau at Texas Technological college reported.

Three-tenths of an inch of rainfall was received at the state experiment sub-station east of Lubbock, Don L. Jones, superintendent, said, bringing the two-day total to .77 of an inch.

Fall of almost an inch at Shallowater was reported by C. L. Evans, farmer who keeps weather records there. He said the month's total was 1.7 inches, including the .91 of an inch Saturday and .79 of an inch Aug. 7 and 8.

Santa Fe dispatchers said there had been no rain reported since early morning showers, with the following measurements given then: Amherst 1.5 inches; Abernathy 1.75 inches; Sudan, Ralls, Hale Center and Floydada, inch; Canyon, Kress, Lockney and Crosbyton, three-quarters; Littlefield, Lorenzo, Plainview, Happy and Tulia, half; Idalou, quarter, and Levelland, Whiteface, Slaton and Lehman, showers.

Fanatical Band Of Defenders Described In Nazi Reports

Bloody Hand To Hand Fighting Is Reported

(By The Associated Press)

BERLIN, Aug. 23.—Bloody hand to hand engagements outside the Black sea port of Odessa between German-Rumanian troops and fanatical bands of defenders, with neither side asking quarter, were described tonight in dispatches from the eastern front.

Equally desperate struggles between the Nazi forces and the vast Russian population, soldier and civilian, were reported in the Leningrad area to the north, while DNB spoke of violent battles along the Dnieper river and the capture of the river city of Cherkasi, 90 miles southeast of Kiev, capital of Ukraine, where the Germans were trying to force a crossing.

New Threat To Moscow

Waves of German bombers were said to be smashing Russian airdromes on the outskirts of Leningrad as the ground troops pressed their offensive.

In the middle sector German dispatches indicated a new threat to Moscow was developing. The Nazis said they had smashed 60 miles beyond Gomel, toward Bryansk, some 300 miles south of the Soviet capital.

This force annihilated the bulk of two Soviet armies in its advance, the dispatches said.

Defenders Seem Hopeless

The dispatches from the Odessa sector said the mechanized forces of the invaders, German and Rumania, were encountering strong opposition, but that the defenders' position seemed hopeless. Marines and sailors have been called from ships in the harbor to prepare for a fight in the streets and alongside ordinary factory workers, communist party members and chauffeurs and others.

The battered remnants of the Soviet armies which had retreated stubbornly through Bessarabia and then across the southwestern Ukraine, however, remained the backbone of the city's defense.

The defenders had the benefit of elaborate fortifications, the dispatch said. Nevertheless, the reports continued, the Germans were smashing into concrete trenches and casemates which the Russians had undertook to build ten years ago.

PERSIAN PREDIGAMENT—Iran, modern Persia, is in peril of becoming the war's next battlefield, if axis and anti-axis troops clash for control there. Map shows how Germans might attack to establish bases for drive on British-controlled east, how British and Russians might move in to keep the Nazis out.

Petain Seeks To Stem Tide Of Terrorism And Sabotage Activities Waged In France

(By The Associated Press)

VICHY, Unoccupied France, Aug. 23—Marshal Philippe Petain and his cabinet held two long meetings today to study means of stemming the tide of terrorism, sabotage and subversive activities in France.

A decree published in the official journal, as predicted, turned over to military courts cases involving Communists and Leftists, with the death penalty provided and no appeal possible.

Drafted Same Day

Even as the cabinet gathered for its morning session, however, word reached Vichy of a new train wreck in the unoccupied zone at the entrance to the Valdonne tunnel east of Marseille yesterday. Thirty miners were injured.

The Petain death-for-Communist activities decree published today was drafted Aug. 14, the same day the German military command made a similar ruling because of demonstrations and shootings in Paris Aug. 12.

Food Is Factor

At the late afternoon session, a communique said, it was decided to remedy "social and labor consequences" of the industrial crisis, which is considered an important factor in the swelling unrest of the working classes.

The communique by implication blamed the British blockade, saying, "the slowing up of industrial activity is due to lack of raw materials."

The cabinet announced it also discussed reorganization of the food supply, which is regarded as another source of discontent.

Negro Snatches Woman's Purse

A burley negro was sought by Lubbock police after he wrestled with Mrs. Dewey L. Nicholson of 1615 Ninth street and snatched her purse early Saturday night in 1100-block Avenue O.

The black grabbed Mrs. Nicholson from the rear after following her from a grocery store at 1402 Broadway and escaped the hot pursuit of several men attracted by the woman's screams.

He ran down an alley toward Avenue Q and turned south to Main street. Witnesses said the negro leaped a fence at the rear of a residence and last was seen running across the lawn, outdistancing his pursuers.

Purse Contained $5.50

Mrs. Nicholson, who was frantic long after the attack, held the purse handle in her hand when she reached home, indicating she had given strong resistance to the negro's desperate snatching, police said.

Men a short distance away did not hear Mrs. Nicholson scream in time to go to her assistance before the negro had released her.

The purse, she said, contained

(Turn to Page 6, Column 4, Please)

Congratulations To:

Mr. and Mrs. O. L. Taylor of Lubbock route 1 upon birth of a son weighing 8 pounds 8 ounces at 5:30 o'clock Saturday morning at the residence. The father is a farmer, said Stewart & Benson clinic.

Mr. and Mrs. John G. King of 1812 Avenue V on birth of a son weighing 7 pounds 10 ounces at 5:45 o'clock Saturday afternoon in St. Mary's hospital. The father is assistant cashier at Lubbock Cotton Oil company.

San Quentin Inmates To Hear Broadcasts

SAN QUENTIN, Calif., Aug. 23. (AP)—The radio comes to San Quentin tomorrow night. Selected broadcast programs will be heard in prison cell blocks.

For two months laborers have been installing 4,000 headsets—one for each prisoner—in the cells. The convicts paid for it—$8,000 out of their library fund—and an inmates' committee will select each program, subject to the warden's approval.

Each night beginning Sunday there will be four hours of broadcast music, entertainment, education and religion.

Pickets Don't Mean Anything To St. Louis Girl, And She Doesn't Mind Showing Them

(By The Associated Press)

ST LOUIS, Aug. 23 — A squadron of pickets marched up and down the sidewalk carrying signs warning customers the place was "Unfair" and selling "Rat Poison."

As one customer approached they set up a chant: "Don't buy, they are chislers."

Suddenly, from behind the counter dashed a flaxen-haired girl, her cheeks red, lips compressed. She squared off and punched the leader of the pickets in the jaw, rocked him back on his heels and broke his sign. Then she charged the rest of the pickets, routing them.

And business continued as usual—at a lemonade stand set up by two little girls who were selling ice cold drinks for 2 cents a glass. The "pickets" were asking 3 cents a glass at their stand up the street.

Russia Not To Get Lease-Lend Funds

WASHINGTON, Aug. 23. (AP) — Administration lieutenants disclosed today that the new lease-lend appropriation to be asked of Congress will approximate $5,000,000,000 and will provide no funds for Soviet Russia.

Congressional leaders discussed an additional lease-lend appropriation with the President earlier this week. A well-informed official, unwilling to be quoted by name, said today that the chief executive had agreed at that time that none of the new money would go to Russia.

Instead, it was said, the Russians probably will be given credit if they need it.

The Congressional leaders were said to have advised Mr. Roosevelt that a new appropriation for aid to Britain and China probably could be whipped through Congress without difficulty if it were made clear that none of the money would go to Russia.

It was decided, informants said, that no mention of Russia would be made in connection with the request for an additional allotment, but that administration floor leaders would be empowered to state that Russia was not to benefit from the appropriation.

Commander Obliges Soldier With Favor

LAKE CHARLES, La., Aug. 23.—"Hey, Buddy, shoo that bird off that tent for me!"

The soldier exercising pigeons of the 280th pigeon company thus solicited the aid of a dimly seen figure as dusk settled about Third Army headquarters.

Lieut-Gen. Walter Krueger, Third Army commander, obligingly waved his arms at the bird to make it fly, and said nothing.

CREAMERY BURNS

Every available piece of fire-fighting equipment in the city was called out this morning at 2 o'clock in answer to a three-alarm fire at McIlhaney Creamery, 2403 Avenue H. Flames were leaping from the roof of the building at the rear, indicating the firemen would have a difficult time with the blaze. It appeared that the creamery would be heavily damaged.

U.S. To Seize French Islands If Necessary

Connally States Armed Forces May Be Used

(By The Associated Press)

WASHINGTON, Aug. 23.—Chairman Connally (D-Tex) of the Senate foreign relations committee said tonight that if the Vichy government permitted German control of Martinique or other French territory in this hemisphere "we shall seize that island or any such territory and hold it by armed force."

Such action, he said in an address prepared for broadcast over the Columbia Broadcasting system, would be essential to national defense. He spoke under auspices of the committee to defend America.

In Behalf Of Defense

It was in behalf of national defense, he said, that the United States adopted the policy of aid to Britain and nations resisting aggression.

"We have declared that no non-American nation shall set up any part of its system in the Western hemisphere," he said. "Already sporadic incidents in Latin America reveal Nazi infiltration and plotting to saturate Latin America with Nazi philosophy.

"It requires no penetrating vision to foresee that, if Nazi armies master the continents of Europe and Africa, their ambitions may soon leap across the seas to the Western hemisphere."

Protests Made To Tax Plans

(By The Associated Press)

WASHINGTON, Aug. 23. — A protest by the American Federation of Labor against any form of general sales tax was made to the Senate finance committee today as it concluded hearings on the $3,236,700,000 new tax bill.

W. C. Hushing, AFL legislative representative, also objected to lowering of income tax exemptions and told the committee:

"Those are the kind of levies which might change the political complexion of Congress."

"That might be a very good thing," rejoined Senator Vandenberg (R-Mich), an advocate of a general manufacturers' sales tax.

Chairman George (D-Ga) said the committee, which has been listening to complaints of some 150 assorted witnesses for 16 days, would begin executive sessions on the record-breaking revenue measure Monday. He added that the committee hoped to complete its revision of the House-approved bill by next weekend and send it on for consideration of the entire Senate. One of the main issues before the committee, he said, would be the question of a sales tax.

Churchill Will Be Heard On Air Today

LONDON, Aug. 23. (AP) — The Far Eastern situation probably will be among the topics discussed by Prime Minister Churchill tomorrow night when he goes on the radio with his first public comment since his dramatic sea meeting with President Roosevelt.

The broadcast, which will be rebroadcast in the United States, will begin at 9 p. m., (2 p. m., C.S.T.)

RAYBURN TO SPEAK

McKINNEY, Aug. 23. (AP) — Speaker Sam Rayburn of Bonham will deliver the main address next Friday at the formal opening of the Princeton migratory farm labor camp six miles east of here.

WHERE DEFENSE RUBBER GOES—Here's a gigantic example of where defense rubber—a whole lot of it—is going. Mrs. Erma Lindsay poses with the huge tire as it passed through Atlanta headed for LeTourneau Co., at Toccoa, Ga., where it will go on one of the grading machines being built for airport levelling. It is 9½ feet in diameter and weighs 3,600 pounds.

United States' Supply Of Food To Be Plenty In Next 12 Months, Survey Reveals

(By The Associated Press)

WASHINGTON, Aug. 23 — An agriculture department inventory of the nation's food supplies—both on hand and now being grown or processed—indicated today that with a few possible exceptions there should be plenty for the next 12 months.

Present stocks of most foodstuffs were said to be larger than a year ago and crop conditions were described as favorable for the production of supplies sufficient to last well into 1942.

Increase Demand Noted

Farm officials were concerned, however, over an adequate supply for the remainder of this year and next year for some particular food stuffs for which there is an increased demand both in this country and by Great Britain.

These products include, the department said, some types of dairy and poultry products, pork and lard, some classes of canned vegetables and some foods of lesser importance imported from far off areas.

Prices Have Risen

Special price-supporting programs have been inaugurated by the department in an effort to secure larger production of dairy, poultry and meat products, and vegetables. These programs are not expected to reach their peak before next year.

The department acknowledged that prices of many foods have risen sharply this year, despite the favorable supply outlook. It said the advances could be attributed largely to increased consumer buying resulting from defense reemployment and a larger export demand for many commodities not nomally shipped abroad in large quantities.

The price rise has been consistent for all foods, except cereals and bakery products, which are somewhat lower than a year ago. The greatest increases have occurred for eggs, fats and oils, dairy products, sugar and meats.

TAKES OUT PAPERS

LOS ANGELES, Aug. 23. (AP)—Pianist-Conductor Jose Iturbi took out his first citizenship papers today in federal court. His application listed his birthplace as Valencia, Spain, and stated he has lived in the United States for 12 years.

FDR Is Host To Duke Of Kent

By DOUGLAS B. CORNELL
Associated Press Staff Writer

HYDE PARK, N. Y., Aug. 23.—President Roosevelt and a member of Britain's ruling family met here tonight, and the very fact of their meeting served to cement more firmly the bonds of Anglo-American friendship.

Following so closely the dramatic conference at sea between the chief executive and British Prime Minister Winston Churchill, the visit of the Duke of Kent at the Roosevelt home could not help but take on a measure of significance.

Merely A Social Visit

The temporary White House insisted, however, the Duke, youngest brother of King George VI, was here primarily on an informal, social visit. The president himself also had sought to minimize the importance of his having a royal guest.

Yet the meeting did underscore the extent to which British-American collaboration has developed in the all-out effort to defeat Nazi Germany, and it gave the president an additional opportunity to explore the British viewpoint on the war and obtain further first-hand information on the progress of the conflict.

The Duke of Kent flew to New York today from Canada, where he has been surveying the pilot training program, and then motored to Hyde Park.

His highness will arrive in Washington with the President by special train Monday, fly to Norfolk, Va., to inspect defense installations, and return to the capital to dine and spend the night at the White House. He will fly to Baltimore Tuesday to go through the Martin plane plant, come back to Washington in the late afternoon. Before taking a train for Canada Tuesday night, he will receive, at the British embassy, the members of empire diplomatic staffs in Washington.

Ft. Worth Cadet May Set Scholastic Record

COLLEGE STATION, Aug. 23. (AP)—Tom S. Gillis, jr., of Fort Worth, who had straight-A grades for six semesters until one B slipped in, will lead A. & M.'s 1941-41 cadet corps.

College officials, announcing Gillis' advancement to cadet colonel, said that at his present gait, he will establish an all-time scholastic record for the school.

EXPELLED MINISTER SAILS

CALLAO, Peru, Aug. 23. (AP) — After several false starts from South American ports, the Japanese steamer Rakuyo Maru sailed for home tonight, with Ernest Wendler, expelled German minister to Bolivia, aboard.

Order Is Issued On Strike-Bound Plant By FDR

Defense Program Said Jeopardized By Work Stoppage

(By The Associated Press)

HYDE PARK, N. Y., Aug. 23.—President Roosevelt directed the Secretary of the Navy tonight to "take possession of and operate" the strike-bound Kearny, N. J., plant of the Federal Shipbuilding and Drydock company.

A White House statement said the stoppage of work at the shipyard "jeopardizes the construction of vessels essential to the defense of the United States." It is expected work will be resumed Monday.

Soldiers On Alert

Fort Wadsworth, Staten Island, nearest army post to Kearny, immediately was placed on an alert, with troops standing by to march to the plant should their presence be required.

OPERATIONS CHIEF NAMED

WASHINGTON, Aug. 23 (AP) — The Navy said tonight it would take possession of the Federal Shipbuilding and Drydock yards at Kearny, N. J., on Monday and operations would be in charge of Rear Admiral Harold G. Bowen, former chief of the Navy's bureau of engineering.

Captain Frank Haronian, the fort's public relations officer, explained the soldiers would not take part in actual seizure of the plant but would stand guard over property if called upon.

The order for government occupation of the plant was the second time that the President had directed the seizure of a strike-bound industrial institution having vital defense orders. Previously the government took over and operated for a time the North American Aviation company's plant at Inglewood, Calif.

Out Since Aug. 7

A CIO industrial union of marine and shipbuilding workers has been on strike at the Kearny plant since Aug. 7.

Negotiations looking to a settlement, was the president himself taking a hand, were fruitless. Management and labor were unable to get together on a recommendation by the national defense mediation board for a union maintenance clause in a contract.

Such a clause would provide that all union members, or workers joining the union in the future, must remain in good standing as a condition of employment.

Union Accepts Proposal

The union accepted the mediation board's proposal, but the company management turned it down.

After further studies and negotiations, the White House said, methods and policies relating to the ultimate title to the plant will be worked out and a decision reached whether the government

(Turn to Page 6, Column 8, Please)

Mexia Slayer Dies In Electric Chair

HUNTSVILLE, Aug. 24. (Sunday) (AP)—Arlin F. Reese, 46, Mexia paper carrier, was put to death in the electric chair at 12:10 a. m. today for the slaying of his common-law wife, Mrs. Lizzie Reinheart, a year ago.

In the execution chamber Reese replied in the negative when asked if he had anything to say.

During his trial in Limestone county the prosecution contended that Reese killed the woman while drinking, delivered his papers then carried the corpse in an automobile to a point 20 miles away.

Reese was granted one 30-day reprieve after he was received at Huntsville prison last June 6.

Three-Day Tempest Over Santa Fe's Bull Fight Is Ended In Rather Peaceful Manner

(By The Associated Press)

SANTA FE, N. M., Aug. 23—Herman Baca staged his bull fight tonight, unmolested by the Society for the Prevention of Cruelty to Animals, the district attorney's office or the bull-a Ferdinand which sagged noticeably in the middle.

Thus ended a three-day tempest, from which local SPCA President W. S. Patterson withdrew at the last minute on District Attorney David Carmody's promise that there would be no flesh and blood fight of Baca's fiestecita, annual party preceding Santa Fe's fiesta which opens next weekend.

Carmody's pledge, which Patterson accepted in lieu of an injunction, was fulfilled.

There was little flesh, no blood, and the bull (reading from horn to tail: H. G. Baca, jr., and Willie Comados) was

(Turn to Page 6, Column 2, Please)

Emergency Standards May Be Set Up For Goods

Federal Agencies Study Effects

(By The United Press)

WASHINGTON, Aug. 23. — Government and private agencies today worked on programs officially described as designed to protect consumers' interests in connection with the impending use of substitute materials in the manufacture of various household goods.

A technical committe representing the Bureau of Standards, the Agricultural Marketing Service, the Pure Foods and Drug administration and the Bureau of Home Economics—all federal agencies—began study of possible effects on the consumer of the reduction in the amount of critical materials available for washing machines, refrigerators, furniture, electric irons, toasters and ranges, vacuum cleaners and other consumer items.

The American Standards association, New York City, was commissioned by the Office of Price Administration and Civilian Supply to undertake immediately the development of emergency standards specifically for the refrigerator industry "which would include minimum performance requirements for the protection of the purchaser."

Borden County Boys To Receive Calves

SNYDER, Aug. 23. (Special)—County Agent Frank W. Medley of Gail reported Saturday afternoon that calves for Borden county's 4-H Club boys have been selected from the herds of Wilson brothers, the OB ranch and Messrs. White and Shafer.

In all, Borden county 4-H club boys will receive 14 fine blooded calves, all of which are in prime condition. The Borden club boys will meet in the county agent's office Monday to map plans for feeding out the club calves.

The scrap aluminum drive just concluded in Borden county resulted in collection of considerable aluminum. Clinton Johnson, a Borden 4-H club member, placed first for collecting most scrap material and has been awarded $5 in defense stamps. Gerald Buchanan, another 4-H club member, placed second and was given $3 in defense stamps. Joe Sealy, third 4-H club boy, won a $2 defense stamp for third place.

MARRIED FIFTY-THREE YEARS—Their fifty-third wedding anniversaries and both their birthdays were on the same day and Mr. and Mrs. G. R. White, above, observed the occasion at their home in Meadow Aug. 14. Three of their four daughters, Mrs. Della Starr of San Mateo, Mrs. Mettie Bower of Paso Robles, Calif., and Mrs. J. W. Simpson of Lubbock, and a son, Austin White of Meadow, were present. Mr. White is 75 years old and Mrs. White is 70.

Grayson Courthouse Employes Have Started Campaign Against Possums; Several Caught

SHERMAN, Aug. 23. — Ground floor office workers in the Grayson county building have started a campaign against possums, since several three-quarter grown rodents have been captured there in the past 10 days.

"I have the feeling all the time that someone is looking over my shoulder," declared Jess Wall, justice of the peace.

For Highway Patrolman G. T. Avery, the thing came to a head Sunday, when he attempted to start his car parked on the south side of the plaza. From under the hood came shrieks, growls and possum swear words. One of the rodents had become involved in the fan belt.

Avery turned him loose on the county building grounds, where he was seen by several other persons Sunday.

Hallie Haizlip, county building superintendent, said he was mystified by the sudden descent of the rodents on the building. One employe, mindful of the well known partiality of possums for damson plums, remarked that possibly the animals had political aspirations.

It was believed by Mr. Haizlip and some others that the animals came up the street from Post Oak creek at night, and made for the greenery and shrubs about the county building. There they lie during the day, kibitzing through the recessed windows at the work of the county employes.

PLAN WINTER CAMPAIGN

ERLIN, Aug. 23. (U.P.)—Usually well-informed German quarters spoke tonight of a winter campaign in Russia not only as a possibility but as a probability and reported both sides had large cavalry forces in reserve for use when winter snows make panzer operations impossible.

Scurry Paving Work Started

(Special To The Avalanche-Journal)

SNYDER, Aug. 23.—Actual paving work on highway 15, beginning at the Borden county line and coming eastward toward Snyder got underway this week, state highway department engineers report.

Highway engineers state that approximately six miles of oil surface coating had been applied to the east-west roadbed through noon Saturday. The oil surface treatment will be followed immediately by hot topping, and will continue until the vital strip of highway 15 from the eastern Borden county line to Snyder is paved.

Caliche Is Applied

Just west of Snyder city limits, some 8,000 yards of caliche are being applied to the roadbed to get it in shape for oil and asphalt coating. Workmen on the project, with a good portion of pretty weather, are expected to progress rapidly in completing this 14.2 mile strip of highway 15.

Contract for placing select material on highway 15 from the overpass southeast of Snyder eastwards to the Fisher county line is expected to be let early in September. If okayed, this will mean that hot topping will be given highway 15 across eastern Scurry county early next spring. Other than the two gaps in Scurry, a 12-mile stretch of the east-west route in western Fisher county and the roadbed across Borden county will compose all the unpaved gaps in the airline route from the New Mexico line eastward to the Louisiana line.

All railway and highway transport and steamer and harbor services in British Guiana are under government control.

Farm Loan Meeting Scheduled Sept. 6

Annual meeting of stockholder members of Lubbock National Farm Loan association will be conducted beginning at 10:30 o'clock the morning of Sept. 6, after a meeting of the board of directors in the farm loan office at 228 Lubbock National building.

The get-together is expected to attract more landowners of this territory than usual, said R. S. Rodgers, secretary-treasurer. It will be held in the stock judging pavilion at Texas Technological college, meeting place the last two years. A barbecue luncheon will be served to members and their wives.

The board of directors consists of L. C. Denton, president; W. M. Ross, vice president; Alvin B. Allen, Arthur Dean and E. N. Harrison.

The association began making federal land bank loans in this territory in July of 1917. At close of the fiscal year, June 30, 1941, the association had outstanding 957 federal land bank loans amounting to $3,262,460, and was servicing 613 land bank commissioner loans amounting to $1,022,550 and 11 purchase mortgages amounting to $24,642.54, Rodgers said.

English Said Using New Missle On Planes

STOCKHOLM, Aug. 23. (U.P.) — The newspaper Dagens Nyheter reported from Berlin today that the British were using an anti-dive bomber device consisting of rockets containing long wires attached to parachutes.

The idea of the anti-aircraft missile, it was said, was to foul an enemy plane in the wire.

One German Condor plane which attacked a merchant ship was said to have returned to its base with a wire draped over its wing tip. The plane had been shaken but undamaged, it was claimed.

Rise Of Darlan's Star Casts Ominous Light On Nazi Plans In Spain, Africa

U. S. Is Taking Note Of Threat

BY THOMAS M. JOHNSON
NEA Service Military Writer

WASHINGTON, Aug. 23 — Marshal Petain's recent choice of Admiral Darlan for Vichy France's generalissimo in Africa, helps explain the war department's advocacy of steps like extending draft service.

It makes significant the warning recently sounded by Secretary of War Stimson. In explaining to men of the U. S. army why it is necessary to hold them in service longer than at first planned, he pointed to South and Central America as "most dangerous" avenues of attack on the U. S., particularly if the Nazis move into Dakar.

Putting Jigsaw Together

Also the Darlan choice points up General Marshall's recent warning to Congress not to let its mind's eye lose sight of the Dark Continent and Spain.

Today official Washington is putting together a jigsaw puzzle from pieces like these:

Report From France: German engineers and French war prisoners are working night and day on a new strategic railroad along the the Bay of Biscay coast connecting with the Spanish frontier.

Report From Spain: From the Spanish border at Hendaye, France, Germans have practically completed a new steel and concrete double-tracked railroad and automobile bridge across the Bidassoa river to Irun, Spain. Armored trains are crossing into Spain carrying 12-inch naval guns with German crews.

Report From Free French: Strict postal censorship imposed on sailors of Vichy French navy. Repair and other work is well along on battleships and cruisers that escaped the British.

Report From Travelers Newly Arrived In New York: French Foreign Legionnaires and civilian labor, ill-treated, have nearly finished a Moroccan link to a railroad across the shoulder of West Africa to Dakar where Germans are helping French improve harbor and fortifications.

This jigsaw puzzle is sketchy, but makes no pretty picture for Americans. Heavy naval guns can help reduce Gibraltar. They might be aided by a French fleet still strong enough, if it got through Gibraltar, to weaken British naval supremacy in the Atlantic. Of if it stayed in the Mediterranean, perhaps, in concert with the Italians, to upset it entirely. And then could come a German, perhaps a German-French-Spanish, thrust by land through northern Africa, across to Dakar.

U. S. Takes Precautions

That would give Germany Casablanca, in Morocco, and Dakar, outlets to the South Atlantic that would endanger the sea lanes whereby supplies from the western hemisphere, from India and the Indies, reach the British Isles and Suez.

Also it would cut the route whereby American planes are now reaching the Suez after landing in British West Africa and flying through Free French Equatorial Africa.

In another way, such a German success would involve us more deeply. It would so endanger the Azores, Cape Verdes, and Canaries —Spanish and Portuguese islands that President Roosevelt has called stepping-stones for air invasion of the western hemisphere—that if the British did not seize them, we would. Wherefor the army has quietly issued not only a Spanish, but a Portuguese, dictionary.

Trinidad Enforced

Portuguese is also Brazil's language, and there we are taking other steps. The bulge of Brazil is only 1600 miles heavy bomber range from Dakar, although it is 3600 from New York. But it is only 1200 from our new base at Trinidad. To Trinidad lately have gone numerous regulars, toughened and trained for a quick jump to the bulge. We have finally got Brazil to strengthen her own defences of that bulge and let Pan-American Airways build airfields we would occupy if need be.

President Vargas now allows in among those airfields the same Axis airway that, via Rome, brings into Brazil some of those same German "tourists" whose advent presaged the fall of many an European state. But the United States is negotiating with Brazil to replace the Axis line with an American company. Brazil has also denied Vichy permission to operate Dakar-Rio-Buenos Aires-Santiago airline.

Also Washington watches Martinique closely, not only because of its well-advertised hoard of Vichy French gold, but also because of the unadvertised horde of Nazi agents who come there by ship from Vichy, France, then proceed to French Guiana and Brazil. It is known that the Vichy secret service and the Gestapo are in contact.

Three Possibilities

Since Petain gave pro-Nazi Darlan his head, some are urging that there are only two ways to prevent an eventual Nazi attempt on Brazil, combining air-sea invasion from Africa with an uprising of the two million Germans in southern Brazil and the Plate basin. One is for the U. S. to drop Vichy and recognize and strongly aid the Free French who, in Africa, are already protecting us by flanking Dakar, as the British in Gambia and Sierra Leone bracket it.

The second proposed way to keep the Nazis at arm's length is for us to send troops to Africa to reinforce the British and help them keep the Germans out of Dakar, perhaps by our very presence, until Hitler decides to fight us.

Either method looks simpler and cheaper in money and lives than the third method which has been widely suggested—that we go over and take Dakar ourselves from the Vichy French before the Germans get there.

ADMIRAL DARLAN

American Airlines Anxious For New Route To Include Lubbock

Officials of American Airlines are "more anxious than ever" to go ahead with their proposal to put Lubbock on a trunk transcontinental airmail and passenger line.

They gave this assurance Saturday when they called officials of the Lubbock Chamber of Commerce from New York City by long distance telephone.

Application Pending

Officials of the local chamber recalled that the application of American Airlines for permission to establish service between Memphis, Tenn., and El Paso by way of Oklahoma City and Lubbock has been pending several months.

The application was set for hearing in July before the Civil Aeronautics board in Washington, but was postponed.

Officials of the line were quoted as saying Saturday that a new date for hearing on the application has not been set, but that they are "very hopeful" it will be held within the "next two or three months."

Would Start Quickly

They added that they are prepared to begin service without delay if approval should be given. Approval of the application, it was explained, would supply the link to complete a new transcontinental service. At Memphis, connections would be made with established American lines to Chicago, New York and other points. At El Paso, the proposed line would connect with established American service to the Pacific coast.

Saturday's telephone call followed the announcement from Washington that an examiner of the CAB had recommended approval of an application by Braniff Airways, Inc., to include Lubbock as an intermediate point on a line now operating between Amarillo and Dallas by way of Wichita Falls and Fort Worth. At the same time, the examiner recommended that several other applications proposing to give Lubbock north-south airline service be rejected.

World's Largest Gas Well Is Completed

SHREVEPORT, La., Aug. 23. (U.P.) —Drillers have completed what was described as the "world's largest gas well," gauging 200,000,000 cubic feet daily production.

The well, known as the A-1 Roscoe, is located in the Sligo field of Bossier parish, La.

The casing was perforated for 73 feet, from a depth of 5,025 feet to 5,098 feet, in Glenrose sand.

Mexico may issue a new coin resembling the American quarter.

MONTGOMERY WARD

LAST FEW DAYS OF WARDS SPECIAL FUR SHOWING! COME IN TOMORROW . . . CHOOSE FROM 85 FINE COATS! . . .

Hand-picked FURS for Every Need and Budget

$49 to $225

- Chubbys!

West Texas Has New Playground In Possum Kingdom State Park Near Graham

Dam Creates Big Lake Over Area

(Special To The Avalanche)

GRAHAM, Aug. 23.—West Texas has a new play ground—a recreational area covering 40,000 acres unequaled in beauty by any section of Texas outside of the Big Bend territory. The rugged hills, the timber growth, the canyons and the tortuous bends of the mighty Brazos River in Young, Stephens and Palo Pinto counties have always been recognized for their scenic beauty.

However, it took the creation of the 28,000 acre Possum Kingdom Lake to turn this section into a play ground for fishermen, boatmen, swimmers, nature lovers, dude ranchers and what have you.

On March 21, 1941, final openings in the 152-foot high Possum Kingdom Dam (recently changed to Sheppard dam) were closed and the early summer flood waters filled it many months ahead of schedule, and to the delight of all who have seen it, the red waters of the Brazos quickly changed into the clearest of lakes.

Has 310 Miles Shoreline

Follow the main meandorings of the lake and you have travelled 67 miles from headwaters to the dam. Explore its rocky and mountainous shoreline, and your boat will go 310 miles. Drop your fishing tackle near the dam and it will sink 140 feet. In some spots, you can stand on the front porch of your cabin and cast into water 100 feet deep. Hundreds of inlets and many major creeks are already teeming with the millions of fish planted there by the Texas Fish Game and Oyster commission under whose direct control the fishing activities come. (The lake is closed to fishing now but will be opened in less than 18 months.)

Of major importance is the 6,500-acre Possum Kingdom State Park. Two separate peninsulas face each other. One is formed by Caddo and Cedar Creeks, while the other is the result of a 15-mile bend in the Brazos. The area is characterized by high mountains, beautiful bodies of water, beaches, and timber. Its development is under the joint sponsorship of the National Park Service and the Texas State Parks Board.

Near Three Cities

The dam is about equidistant from Graham, Breckenridge and Mineral Wells. The same holds true for the State Park. From the Dam the lake takes a northwest direction reaching into the city limits of Graham. Both Breckenridge and Mineral Wells are as near as 18 miles to lake water. Olney is 25. State and county highways are being built into the area as rapidly as possible. Applications for permanent camp sites are being received. Nothing will be overlooked in making this into an accessible vacation ground for all West Texas and Southwest Oklahoma.

While good views may be had of the dam, visitors are not allowed in the giant power house or the inside parts of the structure. The production of power is scheduled to boost the supply for national defense and later, go into thousands of Texas farm homes.

(Photos by Glenn Burgess)

NEW WEST TEXAS PLAYGROUND—Upper left taken from Johnson Peak in the eastern section of the State Park showing rugged hills and the lake beneath. Upper right is the 3,000-foot concrete dam with water pouring over the top. The lake filled in six weeks when scheduled to take three years. Lower left: No more scenic boat rides may be had than along the mountainous shorelines or back into the limestone canyons of numerous inlets. Lower right: Cedar Creek filled with lake water. Four major creeks empty into the lake and where the lake waters become shallow will be the ideal fishing spots for bass, channel cat, perch, crappie and other Texas fish.—Map prepared by Brazos River Conservation and Reclamation District).

Toothbrush Rhumba Safest While Cleaning Of Teeth

BY HOMER BLAKESLEE
Associated Press Staff Writer

NEW YORK, Aug. 23.—The toothbrush rhumba is the proper and only really safe motion to make with the brush while cleaning the teeth.

This washing comes from the greater New York dental information bureau, issued because of recent Ohio State university discoveries of dangerously-abraided enamel on the teeth of persons who use toothbrushes the most.

Just Sway It

The toothbrush rhumba is a side-to-side sway of the bristles while the point of the bristle stands still.

The sway is produced by holding the brush handle firmly in the fist, not in the fingers, to give downward pressure against the teeth. The fist moves from side to side, as in the motion which scrapes enamel, but not so far.

While the bristles are doing the rhumba the brush is moved quite slowly up and down the surface of the teeth. The up movement stops at the first slight contact with the gums, for that is the place where the enamel erosion is dangerous.

Twice up and twice down is enough with this rhumba say the dental authorities.

Straight up and down rubbing, the bureau explained, although recommended in preference to the old-fashioned cross-brushing, is not altogether safe, since it tends to drive the gums back, that is retract them.

Although 90,000,000 Americans, according to the manufacturers of brushes, do not use toothbrushes, the bureau pointed out that correct brushing is the best ally of the dentist in preserving teeth. The brush reduces the chemical solutions which attack enamel.

Lubbock Man Is Author Of Book Which May Be Of Definite Value In Defense Program

Carl Lars Svensen is author of a textbook that promises to be of very definite, if indirect, value to the national defense program.

"A Manual of Aircraft Drafting" is being rushed to completion and will be published by D. Van Nostrand and company, Inc., of New York on or before Sept. 5.

The Lubbock engineer and architect, formerly a faculty member in the engineering division of Texas Technological college, is preparing an index to the volume which, so far as is known here, will be the first of its kind to be published.

Gives Necessary Instructions

"This book is devoted to the one subject of aircraft drafting. It is a complete treatise covering both the fundamentals and their application in the aviation industry. A previous course in mechanical drawing is not required. The first chapters give the necessary instructions for the use of the graphic language. The later chapters cover the applications and practices as used in aircraft drafting rooms throughout the United States." That's the way Svensen explains the book's purpose in the preface.

The volume is profusely illustrated with line drawings and photographs. Many of the plans pictured in the book were donated by leading American aircraft factories, and Svensen worked closely with them in writing the book.

Author Of 8 Other Books

It deals not only with drafting of airplanes, but also airports and airport runways. It is intended for use in technical, aviation and industrial schools as well as for colleges.

Svensen, whose offices are at 1509 Avenue K, is the author of eight other text books. One, Drafting for Engineers, is used both at Texas Technological college and at the University of Texas. It recently went into its ninth printing, and a third edition is being prepared.

His other books are: A Handbook on Piping, Essentials of Drafting, Machine Drawing, the Art of Lettering, Drafting Problem Layouts (written in collaboration with W. E. Street, until this year of Texas Tech's faculty), and Architectural Drafting (written in collaboration with Edgar Shelton, former faculty member now area manager of a defense training service with headquarters at Fort Worth.)

He is a member of the Texas State Board of Registration of Professional Engineers.

Much of the illustrative work for the book was done by Herbert Brasher, Svenson's associate in charge of his drafting room.

The new Colorado River Aqueduct, which carries water 292 miles to several Southern California cities, cost $220,000,000.

Guerrilla War Rages In Crete

LONDON, Aug. 23. (AP)—Army and RAF officers who have returned to London from the Middle East report that a bitter guerrilla warfare still is being waged among the mountain crags of Crete, where some 12,000 Australians, New Zealanders and British—dead and alive—were left behind last May.

Forays by the ragged, defiant, lean men against German outposts, rifle shots in the still of the night, the knocking over of unsuspecting sentries, grass fires suddenly sweeping across German airports—these are some of the aspects of the unofficial campaign still being waged in the Greek island that are described by the reports reaching London.

Fed By Natives

The Australians, New Zealanders and British lurk in the craggy hills by day, fed by natives who risk their lives to befriend them, it is said.

By night the guerrillas loot from the Nazi garrisons for supplies. Their chief need is said to be ammunition for the rifles and machineguns which they salvaged from the battle of Crete.

Occasionally a few of them find a boat to escape across the Mediterranean with their story.

California Boasts Of 'Ideal Prison' Unit

SAN FRANCISCO, Aug. 23. (AP)—Delegates of the American prison association convention heard today of the "ideal prison," located in Chino in California. It is a prison without walls, without guards, without guns or clubs, George A. Briggs, a California state prison director, told the delegates at the 71st annual association convention.

Chino, an experimental prison, offers convicts a choice of food and of clothing, Briggs said. It is designed as a "minimum security" place for confinement for "run of the mill prisoners."

The "prison" is a 2600-acre agricultural tract surrounded by a fence designed "to keep people out rather than keep men in," Briggs explained. Instead of guards it has supervisors. At present there are 68 convicts. Eventually the state expects to build up the population to 1,500, he said.

Personals

Mr. and Mrs. M. J. Nance of Sanger spent Thursday as the guests of Mr. and Mrs. Holt Holloway, Mr. and Mrs. C. S. Walker and Mrs. W. C. Garrison. They are going through Carlsbad cavern this week-end.

Mrs. W. E. Holder, 2132 Nineteenth street, has as guest in her home, her mother, Mrs. Minnie Tackett of San Antonio. Mrs. J. R. Walker of Vashti was a visitor in the W. E. Holder home the past week.

Mr. and Mrs. Louis Holder arrived in Lubbock recently from Terrell where Mr. Holder had been attending school. The newlyweds are living at 2113 Twenty-second street.

Mr. and Mrs. A. W. Young and sons, George and Malcolm, of 2014 Fifteenth street, left this week end for visits in Dayton and Shenandoah, Iowa. They will return September 2.

Mrs. Mary Lee Feece and three daughters, Molly, Nell Marie Powell and Imogene Powell of 1614 Eighteenth street, returned Friday night after visits to Santa Fe and Albuquerque, N. M.

Miss Mary Ruth Diltz, who has recently completed a teacher's course with Gladys Hight in California, has returned to her home in Lubbock.

Mrs. C. T. Black and her sons, Thurston and Irion Black, of El Dorado, Ark., who have been visiting Rev. and Mrs. A. O. Graydon, 2205 Twentieth street, are spending a few days in Clovis, N. M. Mrs. Black is the sister-in-law of Mrs. Graydon. Her son, Irion, has been attending the summer session at Texas Technological college. They plan to return to Lubbock today and to leave for El Dorado Tuesday.

Miss Ruth Graydon, daughter of Rev. and Mrs. A. O. Graydon, has returned from Boston, Mass., where she has been studying piano with Albion Metcalf. After a short visit she will return to Ozona, where she is to teach music for another year.

LESS COTTON GINNED

WASHINGTON, Aug. 23. (AP)—The Census bureau reported today that cotton of this year's growth ginned to Aug. 16 totaled 74,101 running bales, counting round as half bales and excluding linters, compared with 169,465 a year ago, and 347,197 two years ago.

Ginnings by states, with comparative figures for a year ago, follow: Texas 19,079 and 166,262.

Canyon Student Dies In Crash

WACO, Aug. 23 (AP)—Stephen A. Milner, 21, University of Texas student from Canyon, was killed and two others injured seriously in a truck-automobile collision 12 miles from Waco last night.

Charles Francis, 23, also a student from Canyon, suffered several fractured ribs and possible head injuries, and A. D. Powell, 28, of Cleburne, driver of the car, received a fractured hip and facial cuts. Hospital attendants reported they were in a serious but not critical condition.

Machines Are Burned

Both machines burst into flames and were demolished. The occupants were thrown clear.

Carl Burine of Dallas, driver of the truck loaded with 1,200 pounds of asphalt roofing, escaped injury.

Powell had picked up the Canyon youths who were hitchhiking from the university.

Milner, son of Mr. and Mrs. Dallas Milner, taught last year in the Hereford schools and Francis taught at Canadian.

Cowpunchers Said To Make Poor Soldiers

PUEBLO, Colo., Aug. 23. (AP)—The fellow who comes yipee-ing out of a chute aboard a bucking animal isn't likely to be good army material.

"A cowboy starts learning his tough job young, and by the time he reaches the ripe old age of 22, he's so bunged up that Uncle Sam won't have him," says Leo Cremer, veteran rodeo impressario.

A few who haven't been in the business long have been accepted for service, the Big Timber, Mont., rodeo director said, "but I don't know of one of the nation's 20 top-ranking bronco busters, steer riders or bulldoggers who will be called for army service."

Denver City Paving Is Approved By Officials

DENVER CITY, Aug. 23. (Special)—Paving of a two-mile loop through the center of Denver City connecting with highway 214 has been given approval of Yoakum county commissioners court.

Legal work has ben turned over to a bonding company and paving will begin as son as details are worked out.

Hard-surfacing will be a standard 22-foot asphalt top on a 34-foot rock base, at an estimated $25,000 cost. The loop will begin as the intersection with the Plains highway north of the city between the Humble and Shell camps and will proceed west a half mile, then south a mile through the center of town, then back east to the intersection of the highway to Seminole and Seagraves.

Soviet Russia estimates its coal deposits at 21 per cent of the known world supplies.

Rich Prizes In Midland Rodeo

(Special To The Avalanche-Journal)

MIDLAND, Aug. 23—With increased attractions, purses and prizes, and featuring the famous rodeo stock of the World Championship Rodeo corporation, the same stock as used annually at New York's Madison Square Garden rodeo, the seventh annual Midland rodeo will be staged August 30, 31 and September 1, the Labor day week end.

Open to the world, sanctioned by the Cowboy Turtles association and staged according to specifications of the Rodeo Association of America and the Southwestern Rodeo association, the Midland event is expected to attract big name contestants for all events in the three day and night western classic.

Governor To Attend

Governor Coke Stevenson will attend the celebration on the opening day and a congressional committee headed by Congressman R. E. Thomason will be present for the performances on Labor day. Other notables also are expected to attend.

Contest events, including bronc riding, bull-steer riding, bareback bronc riding, calf roping and steer wrestling, will be augmented by a junior cowboy's calf roping contest, cowgirl sponsor contest, sponsors calf roping and cattle penning contests, gaited horse exhibitions, horseback square dances, and a colt show featuring quarter horses, Palominos and thoroughbreds.

Total purses and prizes offered contestants and spectators will exceed $6,500.

Arrangements Complete

Practically all arrangements have been completed by the rodeo committee, including Leonard Proctor, Roy Parks and John Dublin, with Clarence Scharbauer, president of Midland Fair, Inc., W. B. Simpson, representing Midland businessmen who have underwritten expense of the show, and J. Homer Epley, fair association secretary.

Sponsored by the Junior Chamber of Commerce, a two-day bus trip over West Texas will be made Monday and Tuesday to publicize the annual celebration. Beginning last Wednesday citizens of Midland are wearing cowboy clothes as an added publicity stunt.

The big opening day parade will be held Saturday morning at 10 o'clock, with more than 200 riders expected to ride in the procession.

W. Chapple Davis, Midland oil man, is in charge of the gaited horse exhibitions and will bring to Midland some of the outstanding gaited horses of West Texas. The exhibitions will be staged each night.

Entries in the colt show have been coming in rapidly and all available stall space is expected to be used. Only yearlings and two-year-olds may be shown. The show is limited to thoroughbreds, including half-thoroughbreds and better, quarter-type horses and Palominos.

Contestants in the colorful cowgirl sponsor contest will compete for prizes valued at more than $750. Top prizes in the three sponsor events are a beautiful handmade saddle, a young dun horse and a Hobbs deluxe two-horse trailer.

Use Of Materials For Non-Essentials Barred

WASHINGTON, Aug. 23. (AP)—The use of scarce materials in the manufacture of articles not considered essential is prohibited in a priorities order effective today—the first such restriction imposed under the defense program.

The order forbids use of resins containing three kinds of chemicals for manufacturing a long list of items including amateur cameras and other photographic equipment, premium and advertising novelties, phonographs, games, picture frames, bric-a-brac, hardware, and smokers' articles.

Eleven wooden rail cars are now running in little El Salvador.

Important Events Are Scheduled On Scout Calendar For Week; Jerry Smyth To Get Eagle Badge Award At Court Of Honor

The annual cub-parent picnic in Mackenzie park Thursday night at 7 o'clock and the holding of the monthly Lubbock district court of honor in the park pavilion in Abernathy Friday night at 8 o'clock will be important events on this week's Boy Scout program, according to announcement Saturday at South Plains council headquarters here.

Approximately 500 cubs and parents are expected to attend the picnic, according to Dr. C. C. Schmidt, council cub commissioner. Members of each den and their parents are to arrange their own picnic spreads. A program is to be presented, including the announcement of cub awards.

First In Abernathy

The court of honor Friday night will be the first to be held in Abernathy, said Jack O. Stone, council executive. Frank Roberts, advancement chairman, announced that a watermelon feast will follow the program. J. C. Reynolds is district court of honor chairman.

One of the features of the program will be the award of the eagle badge, highest distinction in scouting, to Jerry Smyth, 15, son of Mr. and Mrs. Joe Smyth, 2219 Main street. Jerry is a member of troop No. 9, sponsored by the First Baptist church, of which Future P. Smith is scoutmaster.

Roundtable Slated

Scheduled in Plainview Friday night is the regular northern district scout leaders' roundtable. The meeting will be in Hilton hotel. A district committee meeting will follow the roundtable. A. R. Nisbet is chairman of the roundtable and Bob Hooper of the district committee.

Stone also announced that approximately 10 South Plains scouts are planning to attend the state convention of the Order of the Arrow, honorary camper's organization, in Camp Tom Wooten near Austin next Saturday, Sunday and Monday.

Contracts Cost Plane Makers

(By The Associated Press)

LOS ANGELES, Aug. 23.—It is costing two Southern California aircraft manufacturers from half a million dollars a year to nearly eight times that much to build airplanes for the government, they told a United States Senate committee investigating the national defense program.

On the army's new giant four-motored bomber, the B-19, Douglas Aircraft Corp. has written off a loss of $2,570,122, Donald W. Douglas, president, testified.

Cost $3,970,685

The big plane so far has cost $3,970,685, Douglas said yesterday, and the government is to pay only $1,142,651 under its contract. A committee member asked if he expected to receive any further payments for the bomber, and Douglas replied, "I'm afraid not."

Douglas placed his company's loss on government contracts at $1,840,882 for the first six months of this year, and said that for 1940 it was $1,142,651.

The loss of Northrop Aircraft, inc., on government business during the last year was estimated by Gage H. Irving, vice president, at approximately half a million dollars. He said it was questionable whether it ever would break even on government contracts.

Freestone Picnic To Be Staged Sept. 7

Second annual basket picnic of former residents of Freestone county will be held in Mackenzie state park Sunday, Sept. 7, according to announcement Saturday.

Each family attending is to bring a basket lunch. Program will consist of informal reunions and recollections, it was said.

Officers of the association are Mrs. C. M. Elmore, Lubbock, president; Mrs. W. C. Medlock, Lubbock, vice president; and Mrs. C. D. Bass, Levelland, secretary-treasurer.

Colleges In Maneuver Area Delay Opening

BATON ROUGE, La., Aug. 23. (AP)—State colleges in the Louisiana maneuver area will not open until the war games are over, the state board of education decided yesterday.

J. E. Coxe, state superintendent of education, said local boards could solve the problem of making up lost time, possibly by shortening Christmas and Easter vacations.

The suggested opening date was October 6, when the roads are expected to be comparatively free from military traffic which school authorities hold might be dangerous to the pupils.

NATIVES MORE DARING

HOLLYWOOD, Aug. 23. (AP)—Think Hollywood necklines are a little daring? Listen:

Virginia Gilmore, playing a girl of the swamps in "Swamp Water," asked the wardrobe department to bring back a native's dress from the Okefenokee location in Georgia. She wanted to wear it in scenes to be filmed here.

The censors shouted no. It was cut too low!

JERRY SMITH

More Graduates Are To Teach

Twenty-four additional placements of teachers for the 1941-42 school term were announced Thursday by the teacher placement service at Texas Technological college, of which Dr. Doyle D. Jackson is the director.

Number announced for the next term was increased to 87.

Those placed include: Miss Elizabeth Harper, Lubbock, 1940 graduate, elected to teach English and art at Iowa Park; J. W. Partin, 1940 graduate, New Home, American history in San Angelo High school; Mrs. Leona Slaughter Jay, Sudan, 1938 graduate, English in Friona High school; Miss Iris Thornton, Farwell, 1939 graduate, language arts in Iowa Park Junior High school; Pickens Bowen, Dallas, 1940 graduate, history and government in Iowa Park High school; Leo Warren, Santo, to be graduated tonight, in the grades at Whitharral; Mrs. Warren, to be graduated tonight, in grades at Whitharral; William Hatcher, Lubbock, to be graduated tonight, director of band and teacher of history at Stamford; Miss Dot Henderson, Shallowater, June graduate of this year, fourth grade at Abernathy; Chancy Watson, Grand Saline, 1936 graduate, principal of high school and coach at Lazybuddie; Miss Dorotha Johnston, Richardson, 1934 graduate, English in Garland High school; Miss Mattie Baucom Elliott, Milford, fifth and sixth grades at Oklahoma Lane school near Farwell, 1939 graduate of Mary Hardin-Baylor; Wilford Smith, Lubbock, to teach band, orchestra and one class in public school music at Fisk, June graduate of this year; Miss Elizabeth Land, Lamesa, to be graduated tonight, sixth grade at Electra; Roy Chambliss, Brownfield, June graduate of this year, speech at history at Harlingen; Jim A. Hart, Crowell, who received his master of arts degree in 1936, English and journalism at Canyon; Miss Irvine Scribner, Mobeetie, June graduate of this year, English in Patton Springs Rural High school; Miss Bernice Burkett, Henrietta, to be graduated tonight, high school English in rural consolidated school near Vernon; Miss Irene Harren, Patricia, to be graduated tonight, fifth grade in Klondiks Consolidated Rural school near Lamesa; Miss Dora Dell Kelley, Honey Grove, June graduate of this year, to teach in grades at Shallowater; Mrs. Bennie Jackson, Lubbock, candidate for graduation tonight, first grade in Frenship Rural High school at Wolfforth; Rex Jackson, Tahoka, candidate for graduation tonight, high school principal and teacher of social science and basketball coach at Stoneburg; Miss Camella Wilkinson, Whiteflat, candidate for graduation tonight, elementary grades at Crosbyton, and St. Elmo Powell, Memphis, 1938 graduate, arithmetic in seventh and eight grades at Lamesa.

GOING INTO MOVIES

HARTFORD, Conn., Aug. 23. (AP)—Strip Teaser Ann Corio disclosed today that she is going into the movies.

The burlesque queen, who in recent weeks has appeared on the legitimate stage in "White Cargo," said she would leave for Hollywood September 15 to appear in the first of three motion pictures.

"It will be called 'Swamp Lady,'" she said, "a half-caste, saron-clad character."

Bath is the oldest town in North Carolina.

Sundown To Get Magnolia Camp

(Special To The Avalanche)

SUNDOWN, Aug. 23. — Rivalry between the towns adjacent to the Slaughter pool over the location of the Magnolia Petroleum company's camp, appears to be settled in favor of Sundown. The camp is being built at present on the Mallet Land & Cattle Co. vast holdings, about two and a half miles west and a mile north of Sundown.

Two residences, three warehouses and a shop are already nearing completion and a large number of other homes are to be built at the expense of the oil firm for use by the company workers, according to reports afloat in the field. In the building of this camp, the company is merely following out the usual custom of furnishing living quarters for those who operate the wells.

A late survey of the northwest part of the proven oil field indicates that some of the best of the Magnolia's producers are on the Mallet Land & Cattle Co. ranch which lies to the south about four miles from Coble Switch on the railroad. Some of this big ranch extends to within three miles from the postoffice in the town of Whiteface. The northwest part of the ranch is just across the fence from the Della Slaughter-Wright land which has a good producing oil and gas well, estimated at more than 450 barrels a day, however, the potential test has not yet been made by the state conservation department, Texas Railroad commission.

Operators of the producer on the Della Slaughter-Wright, are said to have staked two locations offsetting, one of the wells to be started at once. While the well is putting oil in the tanks every day as a result of a natural gas flow, after the tanks all are filled, it possibly will be difficult to sell the crude till more wells are drilled in the area. O'Neal is reported to be ready to start another well in this field.

Motorists Aid Flier To Land At Night

EAGLE PASS, Aug. 23. (AP) — Citizens quick to sense the plight of a post army aviation cadet Friday night raced to the airport in their cars, formed a ring of light, and aided P. W. Anthony of Kelly Field in bringing down his ship.

Anthony overshot the field, however, hitting an irrigation ditch and damaging the plane. He was only slightly hurt.

The cadet was on a flight from San Antonio to Corpus Christi when he became lost. He flew as far west as Allende, Mexico, 45 miles from here, and at 10:30 circled over Eagle Pass dropping flares as a signal of distress.

With Quality Shoe Repair
SAVE MONEY

. . . it is thrifty to keep your shoes repaired and looking like new, our factory equipped shop turns out quality workmanship that hides every sign that the shoe was ever repaired . . . this is new economy.

SHOES DYED
To Match Purse

Have your shoes dyed the new shades to keep up with the color or style changes, yes we have a dye to match your purse.

Lubbock Well Commands Top Interest In North Permian Basin During Week

Observers Believe Acid "Wash" Would Materially Hike Output

By FRANK GARDNER
Special Oil Writer

Lubbock County's new pool opener, the Lee C. Harrison and associates' No. 1 W. G. Nairn estate, continued this week to command top interest in the North Permian basin as preliminary tests were made after it was deepened with rotary to 5,002 1-2 feet, corrected by steel line measurement from 5,000 feet.

Continuous streaks of saturation and porosity were reported logged by deepenihg. At old total depth of 4,916 feet the well's production

TO SHOOT WELL

Lee C. Harrison, Lubboek oil man, announced Saturday afternoon that the Lee C. Harrison and associates' No. 1 W. G. Nairn estate oil test would be shot "sometime Sunday" with 465 quarts of nitroglycerin, from 4,885-5,000 feet.

He said Hobbs, N. M., shooters associated with Independent Torpedo company of Midland would shoot the well.

had settled to nine barrels of 31.5 gravity sweet oil per hour after a 2,000-gallon acid treatment.

Rises During Shutdown

At new total depth fluid was swabbed to within 150 feet of bottom and rose 250 feet during a two hour shutdown period. More swabbing lowered fluid back to 150 in approximately seven hours. Shakeout the last hour showed fluid to be 60 per cent new oil, 30 per cent salt water and acid water—the remnants of the treatment at 4,916 feet—and 10 per cent basic sediment. Recovery was estimated at three to five barrels hourly.

Competent observers believe the decrease in the Lubbock well's yield is due to sludge and sediment having coated the walls of the hole, holding back production. Some advanced the belief that an acid "wash" for the purpose of cleaning the hole would materially increase output. Others are of the opinion that a sizable shot of nitroglycerine would greatly help production.

Shut In For Check

Last reports from Harrison and others' well stated it had been shut in for a check on the rate at which fluid rises in the hole. No. 1 Nairn is located 660 feet out of the southeast corner of section 25, block A, J. H. Gibson survey, three and one-quarter miles northeast of Lubbock on the Idalou highway. Its production is from Clear Fork lime of the lower Permian, a prolific pay zone in a number of West Texas pools, including the Sand Hills of Crane, the Conry-Davis of Pecos, the North Cowden Deep of Ector and the Wasson Deep of Gaines.

Starting of a second wildcat test in Lubbock county approximately three and one-half miles southeast of the courthouse and slightly farther south by west of the Harrison and associates' discovery was presaged by the leasing to N. C. Walter and W. Earl Smith, Dallas independent oil men, of a city owned tract on which the new sewage disposal plant is located.

Location Not Staked

Members of the Lubbock city commission okayed leasing of 886.18 acres lying in section 1, the southwest quarter of section 2 and in section 3, block B, to Walter and Smith for starting within 45 days of a 5,500-foot test. Location has not been staked but probably will fall 660 feet out of the northeast corner of the southwest quarter of section 2.

As a guarantee to starting of drilling operations Walter and Smith were required to put $5 per acre in escrow. The guarantee money is to be returned to the Dallasites as soon as operations have been commenced. The city will receive the usual one-eighth royalty interest in any oil or gas discovered. It also will receive a one-sixteenth overriding royalty until $50 per acre has been paid out of any oil or gas produced.

Development At High Level

Development in proven areas of the South Plains region was at a high level this week as 26 wells were completed, adding a total of 25,203.76 barrels per day to the swelling potential figure.

The mammoth Slaughter field, second in size only to East Texas in the entire state, accounted for 21,186.08 barrels as three wells in the southeastern Cochran county sector and 17 in southwestern Hockley were chalked up as new completions.

The southern Yoakum county side of the Wasson field gained three oilers with combined potentials of 2,342 barrels per day, while the Seminole pool in central Gaines also added a trio totaling 1,675.68 barrels daily.

Atlantic Refining company No. 21 H. T. Boyd, scheduled Clear Fork test in the Slaughter field of Cochran, normally producing from the San Andres member of the Permain at around 5,000 feet, is drilling below 5,929 feet in an unreported formation.

Running Favorably High

Depth of 4,510 feet in lime has been reached by Stanolind Oil & Gas company No. 2 Lillian Scanlan, northwestern Dawson county wildcat four and one-half miles northeast of nearest production in the Cedar Lake pool of Northeastern Gaines. With elevation of 3,145 feet it topped anhydrite at 2,090 feet, Yates sand frosted quartz grains at 2,970 feet, brown lime at 3,920 feet and Grayburg lime at 4,160 feet. The well is said to be running favorably high on structure.

Trinity Drilling company of Dallas No. 1 Dan Auld of Kerrville, western Lynn county 5,300-foot test, is drilling below 1,600 feet in red beds.

A deep test seeking Clear Fork pay below the regular producing horizon of Yoakum's Wasson field, J. W. Murchison No. 1 M. B. Sawyer, was junked at 6,850 feet in lime when insurmountable fishing job developed. Fifteen hundred feet of drillpipe had to be left in the hole.

Fuhrman Petroleum corporation of Midland No. 1 William Seidel et al, southern Andrews county wildcat three and one-half miles west of the Furhman pool, failed to encounter oil, gas or water in drilling to 4,600 feet and was abandoned.

The Hockley portion of the Slaughter field again was credited with the largest North Basin producer brought in during the week as Western States Gasoline corporation No. 12 W. G. Frazier et al flowed at a rate of 1,907.16 barrels per day on potential gauge. Oil tested 32.5-gravity and gas-oil ratio 494-1. The big well was acidized with 11,000 gallons in pay lime from 4,900 to 4,980 feet, the total depth.

M. A. Greenwood Dies Early Saturday Here; Rites This Afternoon

M. A. Greenwood, 45, farmer of Ropesville route 1, died at 1:30 o'clock Saturday morning in West Texas hospital.

He had been admitted to the hospital Aug. 17 for treatment. Death was attributed to idiotathic hemolytic jaundice.

The family moved to Ropesville section four years ago from Montague county.

Funeral services will be read at 3:30 o'clock this afternoon at the Lubbock Primitive Baptist church, by Rev. P. J. Ausmus, and burial will be in Lubbock cemetery by Rix Funeral home.

Bearers will be Herman Beattie, James W. Greenwood, James and Jeff Huddleston, and Edward and C. L. Pierson.

Survivors are the widow; one son, T. J. Greenwood of Ropesville; two daughters, Lucille and Marjorie Grenwood, both of Ropesville route 1; three brothers, D. L. Greenwood of Lubbock, W. J. Greenwood of Alvord and James Greenwood of Tahoka; five sisters, Mrs. M. V. Vermillion of 1301 Twenty-fifth street, Mrs. R. L. Beattie and Mrs. J. V. Huddleston, both of Tahoka, Mrs. J. E. Coates of O'Donnell and Mrs. E. C. Hall of Childress.

Park Programs Will Be Varied

A motion picture and regular community night programs are on the week's schedule for the city-WPA parks recreation project, according to Miss Imogene Douglas, superintendent.

She announced also that Sept. 3-5, inclusive, have been set as dates for the first annual parks' tennis tournament for senior boys and girls. Entries should be filed immediately, Miss Douglas said.

Special Events Set

Special events in the parks during the coming week, she announced, with a jacks tournament for junior girls and a checker tournament for junior boys. Champions of individual parks will meet for the city-wide championship.

The motion picture program, scheduled Monday night at 8 o'clock in Pioneer park on Seventh street, will consist of a showing of sound films supplied by the army recruiting service.

The schedule of community night programs will be: Wednesday night, Mexican park; Thursday night, Rollie C. Burns on Twenty-third street; and Friday night, Mackenzie state park. Each program will start at 8:30 o'clock.

To Hold Preliminaries

The tennis tournament will be for boys and girls under the age of 18 years. Preliminary tournaments will be held to select two representatives among both boys and girls for each park in the citywide parks tournament. Play will be on the cement courts at Dupree school and in Mackenzie park.

Entries must be filed not later than Tuesday night at 8 o'clock with one of the following: Pioneer park, Mrs. Loyce Stevenson; Carlisle park, Overton Dillard; Rollie C. Burns, park, Mrs. Eva Cowdrey; and Mackenzie park, C. W. Graves.

Draw For Places

Parks winners are to meet in Pioneer park the night of Sept. 2 at 7 o'clock to draw for places in the championship tournament.

Referees are to be Cecil R. Tarpley, Venice Ryan, Lorena Sanders and Evan L. Sharp.

Contestants are to furnish their own practice balls, but those used in actual play will be supplied by the parks project. Two new tennis balls will be given to winners of the tournament.

Ed Strout, district supervisor of WPA recreational projects, and Miss Douglass are to attend a regional conference in Amarillo this week. Edward B. Finch will be acting superintendent of the city project during her absence.

Officers Shed Tears Over Hot Weather

ST. LOUIS, Mo., Aug. 23. (AP)—Deputies in the Buchanan county sheriff's office just sat right down and had a cry over the hot weather.

That was after they'd opened the safe. Tear gas shells stored there last spring had burst from the heat.

Board Of Control Notes Increases In Various Prices

AUSTIN, Aug. 23. (U.P.) — Price increases from 15 to 30 per cent were noted today by the purchasing division of the state board of control after a comparison with bids on items for the state institutions filed six months ago. Canned goods, coffee, meat and dry goods generally show advances in prices quoted for a new six-month supply. Steel shortage will not affect the supply of state motor registration plates. A supply for the 1942 plates was put under contract in the spring.

New Scurry Test Is Announced

(Special To The Avalanche-Journal)

SNYDER, Aug. 23. — Ordovician Oil company announced Friday afternoon a mile northwest extension test to the Sharon Ridge oil field. Ordovician has moved rig to the new location, No. 1 W. C. Addison, located in the southwest corner of the southeast one-fourth of Section 122, Block 25, H&TC Survey.

New Ordovician test will be on 80 acres recently assigned to Pearson-Sibert Oil company, and will be a mile northwest extension to the 12-mile long Sharon pool. It also offsets Humble's lease on the east one-half of Section 99, Block 25. Humble will now have some offsets to protect in the near future.

Pearson-Sibert Oil company of California and Ordovician Oil company have been hauling casing in considerable quantities to their respective leases the past two weeks, and are getting lined up for a drilling campaign to take in 18 locations to be drilled with the two firms' three rigs now in the field.

Duncan Drilling company, a newcomer to the field, has the drilling contract for Lookabaugh & Schroeder's No. 2 Ella Richter test, has rigged up and will spud this week-end in the southeast part of the northeast quarter of the east one-half, northeast quarter of Section 145-97-H&TC.

The R-Y Oil company is also scoring again in the Sharon Ridge pool. The Robinson-Youse partnership of Miami, Oklahoma, and Baxter Springs, Kansas, are drilling at 2,360 feet in the pay zone in the firm's No. 2 (Sallie Bunion) Bishop, located in the southeast one-fourth of Section 145, preparatory to shooting.

Frenship School To Be Opened Sept. 8

Frenship Rural High school will open Monday, Sept. 8, and announcement of faculty and dates for registration was made Saturday by G. L. Farrar, superintendent.

High school seniors will enroll Thursday morning, Sept. 4, juniors that afternoon, sophomores Friday morning, Sept. 5 and freshmen that afternoon, Farrar said.

All grade school pupils will enroll Sept. 8.

The faculty was announced, with the exception of one teacher yet to be elected: Farrar, superintendent and mathematics; Roy Morris, high school principal, coach and history; L. M. Hargrave, vocational agriculture; Mrs. L. M. Hargrave, home economics; Mrs. Dick Green, English and Speech; Miss Anna Lee Fisher, science and mathematics.

Fred Groves, grammar school principal, mathematics; Winnie Altman, English and reading; Eleaor Bailey, history and science; Florence Baldwin, music; Mrs. Roy Morris, fourth grade; Mrs. Pearl Metcalf, second grade, curriculum advisor; and Mrs. Bennie Jackson, first grade.

Board members are Ed McCrummen, president, C. W. Meyers, secretary, W. A. Martin, C. W. Liner, L. V. Preston, Walter Hitt and J. H. Mitchell.

Fate Of Hillbilly Boys Is In Doubt

WASHINGTON, Aug. 23. (AP)—Whether the hillbilly boys who helped Senator O'Daniel (D-Tex) step from a business career to politics in Texas will follow him here to take government jobs is an unanswered question.

The senator himself declines to comment.

The average senator has four so-called patronage jobs to fill around the capitol—such as those of elevator pilots, building policemen and page boys. Pay on these jobs is little more than self-supporting and usually goes to ambitious young men who use it as a means to work their way through a local university.

However, senators are in a position to use their influence to obtain jobs in various governmental departments for their constituents.

Only one of these jobs so far has been filled by the new Texas senator. Work as elevator operator went to Nugent Brown, author of a column printed in some Texas weekly newspapers.

SMOKE BUT NO FIRE

DEL RIO, Aug. 23. (AP)—Toss out another of Grandma's proverbs: where there's smoke there's fire.

Firemen dashing to a smoking automobile discovered the car had rolled into shrubbery and heat of the engine had caused the leaves to start smoking.

Fire Chief Neal Billins said they found no fire.

On The Flying Line

Mrs. Gene Fowler First Of Femin-Airs To Solo; Local Fliers Show Up Amarillo

BY JOE PIERCE

* * *

FIRST of the Femin-Airs to solo was Mrs. Gene Fowler, president of the club, who took the group's Taylorcraft up alone last Sunday.

Mrs. Fowler had a head start on the other girls. She first started flying in February of 1940 and soloed in May, 1940. After that she quit flying until the club was organized, and made her second solo flight last Sunday.

Yvonne has passed physical examination that permits her to obtain a commercial license. She hopes some day to get into some phase of commercial flying.

Mrs. Fowler is secretary at Basin Tank company, and finds time to shoot quite a bit of golf at Lubbock Country club. We understand she's pretty good at swinging the clubs, too.

Her husband is business manager for the Clent Breedlove Aerial service. Mr. and Mrs. Fowler came to Lubbock from Tulsa, four years ago.

Newest and most exclusive club for Lubbock pilots is the JA club. Its membership is limited to one and currently consists of yours truly.

All that's necessary to qualify for membership is to pull some dumb flying stunt. This reporter earned his right to charter membership last Monday by carelessly flying into a stack of two-by-fours on a takeoff and tearing up a landing gear on a Cub Cruiser.

Symbol of membership is a miniature donkey (hence the initials, JA) which you may observe around our neck any time we're out at the airport. When someone else pulls a flying boner, we'll be allowed to resign from the club and present the donkey to the new member.

Ever since we've been flying we've read the Sunday aviation page of the Amarillo News-Globe, and we've enjoyed it no end. Through reading the News-Globe aviation news and columns written by Dick Martin and Raymond Holbrook, we had gained the impression that Amarillo was just about the hottest aviation town in the country.

The other day we flew our cross-country to Amarillo, and were we surprised! There was very little activity at either of Amarillo's two airports. We saw only a half-dozen or so late model light planes, and the only airplane we saw in the air was a Braniff airliner—which took off for Dallas with no passengers at all.

So we decided to do a little checking up. Sure enough, there are figures to prove that Lubbock has Amarillo just whipped all to pieces in flying activity. The latest CAA bulletin shows this on students trained in the CAA program up to June of this year:

Lubbock, 215.
Amarillo, 140.

And, though we don't have figures to prove it, we'll bet Lubbock leads in private fliers, too. And does Amarillo have a woman's flying club?

Sure, English field is a swell place. It has all the finest equipment—modern administration building, good waiting rooms, night lighting and all of that.

But Lubbock has the fliers—and when our new runways are completed a little over a month from now, even English field will have to take a back seat.

The newest Taylorcraft bulletin to dealers is devoted entirely to Merrill Kyser's feat in making a one-day flight from Ohio to Lubbock a couple of weeks ago. As reported in this column, Kyser flew the 1275 miles in 12 hours 55 minutes, an average of 98 miles per hour, including stops, with both takeoff and landing made in daylight.

The summer civilian pilot training program is just about over, and attention is now turning to the fall program,

MRS. GENE FOWLER

due to get under way in late September. It's unofficially reported that Texas Tech's quota of primary students will be increased to 50 for the fall program, 10 more than were trained this summer, with the quotas of 20 for advanced and 12 for cross country remaining the same.

Eight instructors are now regularly employed by Lubbock's two flying schools, and it is probable that 10 or 11 will be used this fall.

Top Quotations For Hogs Paid In City

Lubbock, like Kansas City and Oklahoma City hog markets, paid top quotations for hogs since September of 1937, Friday.

Kansas City pail $12 a hundredweight, Oklahoma City prices to major packers went to $11.60, Lubbock up to $11.50, it was announced by officials of Armour & Co. hog pens here.

Lubbock prices were slightly over Fort Worth quotations.

Officials explained that this is the "in-between" season, pigs farrowed last spring not having gone to market, those farrowed last fall having already been sold, and that there likely will be more stabilizing factors present after two or three weeks.

Stray dogs were responsible for 154 of the 927 road accidents in and near Holland, England last year.

Yoakum County Test Abandoned

By JOHN B. BREWER
Special Oil Writer

Abandonment of a projected Clear Fork lime test in Yoakum county when 1,500 feet of pipe in the hole could not be recovered, shared top interest with the testing by swabbing of an indicated Clear Fork strike in Lubbock county the last of the week.

In still another Clear Fork test in the northern Permian Basin, rapid drilling was reported on Atlantic No. 21 H. T. Boyd, Slaughter field edge test in the southeast cornor of labor 9-56-Oldham county school lands, which will be drilled to 6,800 feet if necessary. The Cochran county well was reported drilling at 5,929 feet in lime at the week end as compared with old total depth of 4,957 feet at start of deepening.

Junked And Abandoned

Junked and abandoned after recovering all but the bottom 1,500 feet of lost pipe, J. W. Murchison No. 1 Texas-Pacific-M. B. Sawyer, deepening from 5,243 feet, was bottomed at 6,850 feet in lime. It is in the southeast corner of section 720-Gibson, on the north edge of Wasson field, in Yoakum county.

The Clear Fork lime, named for the Clear Fork of the Brazos on which it outcrops, produces only in the Carter No. 5-D Wasson in the south end of the Wasson field in Gaines county. Production has been indicated in Lee Harrison and others' No. 1 Nairn estate, strike 3¼ miles northeast of the city of Lubbock. Harrison No. 1 Nairn, bottomed at 5,002 feet by steel line measurement, two feet below contract depth, was swabbing and testing rate of fluid rise. Swabbing at the week end, bringing the fluid to 150 feet off bottom, showed 30 per cent acid water and salt water and 10 per cent basic sediment. The closely watched well had swabbed as high as 18 barrels of oil, reportedly 31.5 graviety, after acidizing with 2,000 gallons before deepening from 4,916 feet. It topped the pay at 4,866 feet, reported further streaks of saturation in deepening.

Dawson Shares Interest

Dawson county shared a portion of the upper Basin oil interest as favorable markers were recorded by Stanolind No. 2 Scanlan estate, wildcat 3½ miles northeast of No. 1 Scanlan estate, a Cedar Lake pool outpost producer. The test was drilling at 4,510 feet in lime after topping the brown lime at 3,910 feet and the Graybury at 4,160 feet.

Trinity Drilling Co. No. 1 Dan Auld, scheduled 5,200-foot wildcat in Lynn County 14 miles west of Tahoka, and in the southwest corner of section O-T-Callison, had reached 1,600 feet in redrock.

In Andrews county, a major exploration for the fall was assured with the staking by Fullerton Oil Co. of Los Angeles of its No. 1 H. M. Wilson estate, a projected 8,000-foot wildcat to be launched on or before Nov. 1. Tentative location is 660 feet from the south and east lines of section 15-A32-psl, in a block including portions of Blocks A32 and A37, public school lands. The area is eight miles northwest of Shafter Lake.

Plug Back Second Time

Meanwhile, Mascho Oil Co. No. 1 M. M. Fisher, a Shafter Lake pool outpost in Andrews, was swabbing down through tubing to test after plugging back a second time to 4,573 feet. It is in the northeast corner of the southeast quarter of section 16-A36-psl.

North Permian Basin completion reached a high peak in the most northerly counties during the last week, 28 being finaled in 28 counties for a total daily potential of 28,393.76 barrels, comparing with 23 completed for 17,191.64 barrels the preceding week.

Hockley county, now far outstripping Yoakum, the discovery county in the north Permian, led with 17 completions for 18,390.68 barrels. Yoakum completed three for 2,342 barrels, aside from the junked well. Cochran was in second place with four completions for 4,260.40 barrels; Gaines had three for 1,675.68 barrels, and Terry one for 1,705 barrels.

Abilene Oil Man In No Mood To Thank An Anonymous "Friend" For His Recent Gift

ABILENE, Aug. 23 (U.P.) — Oil Man Art Frazier has a bear.

He didn't want a bear. In fact, bears are not very close to his heart.

Especially, he is cool toward the 160-pound, six-months-old black bear that arrived at his office in a small iron cage, by courier. The donor was anonymous, but Frazier strongly suspects a Dallas oil driller, L. L. Horne.

Enjoyed The Confusion

It might have been a coincidence, but Horne and his Abilene superintendent, Edgar Davis, happened to be present when Bruin was delivered. They seemed to enjoy the resulting confusion.

The bear didn't enjoy it, being most unhappy. Davis was the only bystander interested in restoring its spirits and he lived to regret this.

"Why don't you put a collar around his neck; then you can stake him out in the back yard and make a pet of him," Davis suggested, with a grin.

At this point, the bear growled and the crowd nominated Davis.

The back door of the cage was opened stealthily and a noose was lowered gently around the bear's neck. Davis began tugging, but the bear held back.

Too Much Cooperation

Suddenly, it became overly-cooperative, thrusting not only a head but a large paw through the opening. Davis retired, two red-scratch-marks on his forearm. After a brief but violent struggle, the cage door again was secured.

Chains were wrapped around the cage so it would not come apart. Frazier left town for two days, reportedly on business.

So the bear still is unhappy, in a cage with no return address, and Frazier doesn't know what to do with it.

All of Frazier's friends have telephoned the express company urging it not to send them any animals . . . bears, in particular.

Favorable Action On Advancement Likely

William H. Lyle, jr., 18, of Sudan, who enlisted as a private in the air corps Aug. 4, has filed application for advancement to the position of enlisted pilot with the the encouraging prospect that favorable action will be taken upon it, according to announcement at the Lubbock recruiting office Saturday.

The position of enlisted pilot was created recently as an additional opportunity for young men of high school age who enlist in the air corps, Sgt. C. A. Barnes, recruiting officer here, said. The appointment carries with it the rank of sergeant.

Lyle, the son of the cashier of the First National bank in Sudan, is stationed at Brooks field, San Antonio. He held a commercial pilot's license before his enlistment.

Sgt. Barnes termed it "most unusual" for the application to be given consideration within so short a time after enlistment.

SALES SHOW BIG GAIN

DALLAS, Aug. 23 (U.P.)—Nineteen stores in the 11th Federal Reserve district reported today that sales during the week ending August 17 were up 39 per cent over the same period last year. The survey, made by the Federal Reserve bank, showed that Dallas stores had the biggest increase in volume of sales, 45 per cent.

Germany Cuts Cost Of Occupation Of France

BERLIN, Aug. 23. (AP) — Germany has granted France a reduction on her occupation costs from 400,000,000 francs a day to 300,000,000, it was announced today.

The commentary Dienst Aus Deutschland observed that the step would "noticeably ease France's financial burden."

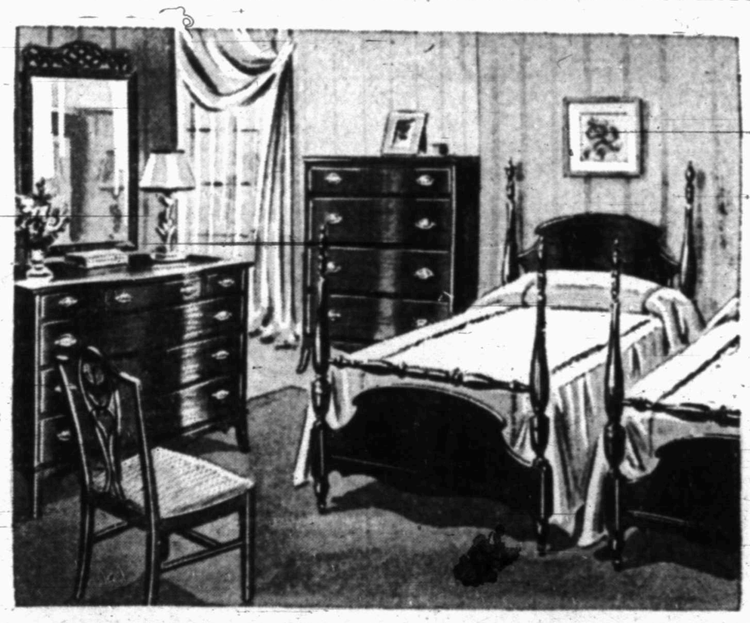

(The franc currently is worth about two cents.)

Tax Schedules In New Tax Bill Far Exceed Rates Imposed In 1918 War Year

Townsend Asks For Sales Tax

(By The United Press)

WASHINGTON, Aug. 23—L. H. Parker, Washington tax consultant, asserted today that tax schedules proposed in the administration's $2,200,000,000 bill far exceed the rates imposed in the war year of 1918.

"The revenue act of 1918, enacted in a similar period, imposed unprecedently high income taxes and yet this proposed revenue bill of 1941 far exceeds the rates of tax imposed by the 1918 act," Parker told the Senate finance committee. "In fact, every person with a net income of over $2,300 pays more tax under this bill, and many as much as 80 per cent more."

Pass Danger Point

Parker, formerly employed as an expert by the two taxing committees of Congress, declared that every previous tax bill had avoided rates which were so high they eliminated the incentive to work and produce. But the surtaxes proposed in the pending bill "in many instances pass the danger point," he said.

Parker was one of the final witnesses in the Senate committee hearings.

Coincides With Proposal

The final testimony coincided with a proposal by Sen. Josiah W. Bailey, D., N. C., that the government take over the job of filling income tax returns for small taxpayers.

Dr. Francis E. Townsend, leader of the old-age pension movement, urged that the existing tax structure be abolished and that a five per cent gross income tax be substituted. He said it would raise more money than present revenue laws.

Has Been Tried Out

The gross income tax, Townsend asserted, had been tried in the Hawaiian islands and Indiana and had met with "universal approval." "Even the big business interests of the islands favor it," he said.

One of the advantages of a gross tax, Townsend asserted, would be simplification and ease of collection.

Bailey, a member of the Senate finance committee, said he intended to propose this plan next week when the committee begins consideration of proposed amendments to the House-approved $3,236,700,000 revenue measure.

"Instead of sending the small taxpayer a complicated return to fill out, I would send him a questionnaire," Bailey said. "He could answer 14 or 15 questions about his income, swear to the questionnaire, and return it. From that information the government could fill out his return, compute the tax, and send him a copy of the return and a notice of his tax."

Dissolution Of Firm Is Ordered

(By The Associated Press)

WASHINGTON, Aug. 23.—The Securities commission today ordered the "prompt dissolution" of National Power and Light company, huge subholding company in the Electric Bond and Share system.

National Power heads a $473,000,000 system which controls nine public utility operating subsidiaries in Alabama, North Carolina, Pennsylvania, Texas, Tennessee, Virginia and Florida.

The commission said that its action was necessary to insure that the structure of the parent holding company system "shall not be unduly or unnecessarily complicated and that voting power shall not be unfairly or inequitably distributed among security holders of the system."

No time limit was set for terminating the existence of National Power but that company and its parent, Bond and Share, were ordered to "proceed with due diligence to submit to this commission a plan or plans for the prompt dissolution of National."

East Texas Has Vast Amount Of Iron Ore, Utilities Head Says

DALLAS, Aug. 23 (AP)—East Texas has enough high-grade iron ore on top of the ground to supply southwestern industry for a century, John W. Carpenter, president of the Texas Power and Light company, believes.

Carpenter said that a defense survey by engineers of his company showed 200,000,000 tons of the easily available ore and that he would give the report to the United States Defense commission in Washington next week.

Employment Service Is Without Clerks Itself

HARRISBURG, Pa., Aug. 23. (AP)—Pennsylvania's employment service, striving to obtain jobs for the unemployed, found today it couldn't get enough clerks for its own offices.

Uncle Sam's higher salaries for clerical help—and defense work—has provided competition the commonwealth is unable to meet, said Melvin Jacobs, secretary of the board of review for the service.

As a result, he added, there is a serious shortage of personnel in the Philadelphia office with at least 52 vacancies for stenographers and typists. The state this week sent out telegrams to persons on the civil service elegible lists urging them to apply for the jobs.

TOTALS $2,892,025

NEW YORK, Aug. 23 (AP)—Gifts sent to war-plagued civilians and soldiers in the British Isles by Bundles for Britain totaled $2,892,025 in goods and cash in the eight-month period ended July 31, the organization announced today.

Amercian Red Cross Has Spent $47,087,052 In War Relief; $25,340,330 Goes To Britain

(By The United Press)

WASHINGTON, Aug. 23.—The American Red Cross today reported that it had spent $47,087,052 for war relief in other countries, with Great Britain receiving $25,340,330 of it. China received nearly $3,000,000.

An average of six vessels a week leave the United States with Red Cross supplies for England.

Women volunteers have made approximately 4,000,000 individual garments, 312,000 layettes of 20 pieces each, and more than 25,000,000 surgical dressing for shipment abroad.

Since May, almost $10,000,000 has been added to the amount of relief extended to Britain.

Oil Production Figures Lowered

(By The Associated Press)

AUSTIN, Aug. 23.—A statewide oil production pattern for September—mostly unchanged from that of August—was cut by the Railroad commission today.

The oil regulatory agency authorized net daily average allowable of 1,406,362 barrels daily beginning Sept. 1, 14,663 daily less than today's estimated net allowable and 27,762 above the Bureau of Mines recommendation for September market demand.

Engineers estimated actual production next month would average 21,461 barrels daily below the mines bureau's standard. This was because production normally is 3.5 per cent under the monthly allowable.

Ten Shut-In Days

The September order decreed 10 general non-producing days and four for the Panhandle district. This compared with 10 general holidays and five Panhandle shutins in August.

Holidays for the state at large were Sept. 1, 6, 7, 13, 14, 20, 21, 27, 28 and 30 and those for the Panhandle were Sept. 7, 14, 21 and 28.

Because there were 31 calendar days this month and 30 in next month the state generally will have one less producing day in September. Because one less shutdown day was applied to the Panhandle distrjct, it will have the same number of producing days, 26.

Usual Exemptions Made

The usual exemptions—about 69 fields—were made to the shut-in order. This was because cessation of flow would injure wells in these pools due to their peculiar physical conditions.

The basic daily allowable for Sept. 1 was placed at 1,929,071, compared with 1,906,846 on August 1.

Comparative basic daily permissives, by districts, on Sept. 1 and August 1 were: Southwest Texas 318,328 and 214,167; Gulf Coast 357,027 and 350,089; East Central Texas 95,003 and 93,692; East Texas 511,223 and 510,832; West Central Texas 58,545 and 57,477; West Texas 347,043 and 333,859; North Texas 150,296 and 146,231; Panhandle 91,606 and 89,094.

The only changes in the basic allowable of fields effective Sept. 1, compared with August 23 were: Oyster Bayou, down 106; Agua Dulce, down 10; Ben Bolt, down 36; Bird Islands, down 10; Charamousca South, down 70; Haldeman, up 40; Seelig, down 90; Long Lake East, down 225; Brownwood West, down 175; Carbon, down 53; Jones county, down 62; Avoca North, up 50; Lewis-steffens, up 67; Wimberly, down 75; McKnight, down 35; Cooke, down 45; Wilson, up 45.

Texans Know Horse Isn't Coming Back, McDonald Declares

AUSTIN, Aug. 23. (AP)—Texans won't be fooled, says Agriculture Commissioner J. E. McDonald.

They know the horse isn't coming back.

Commenting on reports from the North and East that in some instances horse and mule-drawn vehicles were replacing trucks due to fuel and motor parts shortages, McDonald today asserted:

"The animals may fill in temporarily in emergencies but, while Texans love horses, they know better than to hope they'll ever stage a comeback. Motor vehicles definitely have replaced them. We can't go backward."

Award Recommended For LCRA Official

AUSTIN, Aug. 23. (AP)—Ed Goble, assistant operator for the Lower Colorado river authorities at Buchanan dam, has been recommended for a National Safety Council award.

General Superintendent E. T. Ankele of the LCRA recommended Goble for an award after the worker resuscitated the son of Mr. and Mrs. C. L. Wilson of Ennis who fel linto the Buchanan lake Aug. 10.

He was revived after Goble applied the prone pressure method of resuscitation in which all LCRA workers are trained.

BORGER MAN DIES

BORGER, Aug. 23. (U.P.) — J. W. Throckmorton, jr., 69, son of a former governor of Texas, died today at the home of his nephew, Fred Throckmorton. Survivors include three children and a twin sister, Mrs. J. W. Bailey of Austin.

BRINKLEY IN HOSPITAL

KANSAS CITY, Aug. 23. (AP)—John R. Brinkley of Del Rio, Tex., gland surgeon, was taken to a hospital today suffering from a severe circulatory condition. He became ill at a hotel here where he has been living recently.

Bull-Fight Tempest

(Continued From Page One)

the victor over five matadors, including famed Miquel "El Chico" Bernal (Dentist M. V. Berardinelli).

Greatest difficulty was getting the unconquerable animal to leave the arena—a problem solved by Fiestecita Queen Maida Lopez, who lured Ferdinand away with a bouquet of wild flowers.

Only About Half Of Liquor Permits Are Up For Renewal

AUSTIN, Aug. 23. (AP)—Failure to submit applications for renewal of licenses by midnight of August 31 will result in suspension of liquor store operations, State Liquor Administrator Bert Ford asserted today.

Ford noted that only half of the owners of 4,800 permits had sought renewals.

He added inspectors in the field had been instructed to close establishments after Aug. 31 if applications for renewed licenses had not been filed.

Fifth Armored Unit Of Army Is Formed

WASHINGTON, Aug. 23. (U.P.) — The War department announced today that the army's fifth armored division will be created on Oct. 1.

Existing divisions will furnish the nucleus for the new unit, which will be augmented by selectees from the armored force training center at Fort Knox, Ky. The division of nearly 12,000 men is expected to be ready for training by mid-October.

The German army was said to have had 12 "panzer," or armored, divisions when Poland was invaded.

Soldiers Get Cookies In Oklahoma Town

HOLDENVILLE, Okla., Aug. 23. (AP)—The Second cavalry division, en route to the Louisiana-Arkansas maneuvers, rolled into this southern Oklahoma town tonight and was greeted by townsmen bearing cookies.

While the big outfit was scattered all over the countryside hereabouts, that did not daunt the citizens, who had 15,000 cookies to give away, and they gave them. They jumped into cars and made the rounds.

Road Bond Election Is Defeated In Grayson

SHERMAN, Aug. 23 (AP)—Grayson county today rejected a $300,000 bond issue for purchase of land for widening the Sherman-Denison highway and for building rural school bus roads.

Sherman and Denison voted more than two to one for the bonds but voted so lightly that rural votes kept the issue from obtaining the needed two-thirds majority. The count was 1,417 for and 1,412 against.

Book Match Industry Threatened In Tax Bill

WASHINGTON, Aug. 23. (AP) — Senators were told today that enactment of House-approved taxes probably would end free distribution of book matches with purchases of tobacco products.

In fact, said D. D. Bean, match manufacturer, in testimony before the Senate finance committee, the proposed tax of $1 a case "threatens the very survival" of the book match industry.

Fugitive From Texas Prison Is Captured

ATOKA, Okla., Aug. 23. (AP)—Lois Carl Cobb, fugitive from Huntsville, Tex., prison, was captured by two state highway patrolmen who forced his car off the road four miles south of here tonight.

State Highway Patrolmen Charles Reece and Carl Derryberry said the man, about 30, offered no resistance.

FDR SIGNS BILL

WASHINGTON, Aug. 23. (AP)—A bill (HR 2212) directing payment of $4,089 to Raymond W. Reed of Trenton, Texas, and $5,000 to Mrs. Rose Reed, his wife, for personal injuries and property damage, was signed into law yesterday by President Roosevelt.

The two were injured when their automobile was struck by a car driven for an inspector for the Bituminous Coal commission on U. S. highway 69 two miles north of Canadian, Okla., in January, 1939.

SUGGEST IMMUNIZATION

AUSTIN, Aug. 23. (U.P.)—Dr. George W. Cox, state health officer, today issued a suggestion to parents of approximately 100,000 children who will enter school for the first time this fall that the children be tested by the family physician in order that they be immunized with toxoid to prevent diphtheria. All children under 12 years who have received immunization in previous years should also be tested to determine their immunity status, Dr. Cox said.

FOSTER NAMED CHAIRMAN

AUSTIN, Aug. 23. (AP)—H. L. Foster, superintendent of Longview public schools, today was named chairman of the state National Youth Administration work council by State Administrator J. C. Kellam.

Price Index In New 4-Year High

(By The Associated Press)

NEW YORK, Aug. 23. — Continued rising food, cotton and wool values pushed the Associated Press cash wholesale commodity price index into new four-year high territory this week.

The index, composed of prices of 35 weighted wholesale commodities, and with 1926 as 100, advanced to 91.57, the highest since July 17, 1937. The latest figure compared with 90.51 in the preceding week and 69.54 a year ago.

Industrial, food, livestock, grains and cotton, and textile group components of the index scored new top marks for 1941 or longer.

Two Dead After Coast Shooting

(By The United Press)

OAKLAND, Cal., Aug. 23—An army sergeant invaded the honeymoon cottage of his former wife today, shot and killed her and her husband and critically wounded himself.

The shootings occurred in the little town of Ashland just east of Oakland. The dead were Robert A. Newcomb, 42, an Ashland plumber, and his bride of a week, Dorothy Gustaveson Newcomb, 34. They were shot, police said, by Sergeant James H. McDonald, 46, R.O.T.C. instructor at Fairmont High school in Oakland.

McDonald was in critical condition at Fairmont hospital.

Had Married In June

Police learned McDonald and the former Dorothy Gustaveson had married in Nevada in June. They separated six days later and she obtained a divorce in Mexico, where she married Newcomb last week.

A note found in McDonald's parked automobile said "Dorothy had left me and I cannot live without her."

Leaving the note in his car, parked at his home, McDonald went to the Newcomb cottage in the village of Ashland, shot the lock from the door and entered the home.

Fired Seven Shots

Awakened by the shot, Newcomb leaped from bed just as McDonald entered the bedroom. The sergeant fired seven shots from his automatic into Newcomb at close range.

Mrs. Newcomb meanwhile obtained from a bureau another gun and fired a single shot at McDonald. She missed. He ran and she pursued him through the house, police said.

Outside the front door he placed another clip of cartridges in his own pistol, turned the gun on Dorothy and killed her. Then he fired two shots into his body.

Before lapsing into unconsciousness, he gave a brief description of what had happened in the Newcomb cottage.

Negro Being Sought

(Continued From Page One)

$5.50 and a small wrist watch.

Mrs. Nicholson said she remembered seeing the black while she was shopping at the grocery store and it was surmised he saw her put money back in to the purse after making her purchases.

Wearing White Coveralls

The attacker was described as about 5 feet 11 inches tall and of heavy build. He was wearing white coveralls.

Police questioned store employes to determine if the negro frequented the store and if a better description could be obtained. During the late business rush, none, however, had noticed the negro.

The offense happened about 8 o'clock. Mrs. Nicholson had walked the two blocks to Avenue O on Broadway and was walking toward her home when the attack took place.

Thefts Are Reported

Various theft complaints were on the police blotter, including Friday night car pilfering.

S. E. McMillan of 913 Avenue M, said the dials and cables from his radio and windbreakers were stolen from his automobile parked at his residence. Wayland Freeman of 1624 Fifteenth street reported theft of fog lights, grill guards and mud flaps from his car.

Thieves took two rear view mirrors, a defrosting motor and a spotlight off a car belonging to Carl Mann of 1508 Avenue L early Saturday night, he reported.

Police were called to 1600-block Fifth street to get a drunk who had invaded a residence.

Motorcycle Patrolman Ralph Goldwater clocked a negro driving down Broadway at 39 miles an hour and give the black a ticket for speeding. Then, Goldwater related, the negro sped off finally being overhauled driving at a 45-mile-an-hour clip.

He got another ticket and a trip to jail.

Dallas Couple Victims Of Double-Shooting

DALLAS, Aug. 23. (AP)—Charles Marvin Gray, 64, was found fatally wounded in his room shortly after his estranged wife, Mrs. Millie Gray, 61, was shot to death in a grocery store yesterday.

Five bullets struck Mrs. Gray, a rooming house operator, while her maid, Jessie Walker, 50, was wounded in the knee.

Gray, driver for an ice company, died in a hospital from a bullet wound in the head.

Dr. J. Frank Norris, 'Flying Parson' Of Fort Worth And Detroit, To Visit Britain

(By The United Press)

FORT WORTH, Aug. 23. — Dr. J. Frank Norris, the militant "flying parson," will visit England next month where he will present British Prime Minister Winston Churchill with a letter of introduction written by Wendell L. Willkie.

Secretary of State Cordell Hull and Lord Halifax, the British ambassador, made special arrangements for the Fort Worth Baptist pastor to interview Mr. Churchill and other ranking members of the British government, Dr. Norris said today. He also will hold church services in England.

Burned Nazi Flag

Dr. Norris, who holds pastorates in Detroit and in Fort Worth and commutes between them by airplane, has been an outspoken critic of Nazi Germany and once burned the Nazi party flag in a church service.

The letter of introduction said:

"My dear Mr. Churchill:

"The bearer of this letter is the Dr. J. Frank Norris, one of America's most noted protestant pulpit speakers. He is a man of great force and ability. He can be of incalculable aid in bringing America to a realization of its problem in relation to Nazism.

"I commend Dr. Norris to you and hope that you make it possible for him to get any information he desires.

"With my great personal respects to you, I am,

"Sincerely yours,

"Wendell L. Willkie."

He plans to leave New York for England, via Lisbon, on Sept. 2.

Brief Bits Of Local News

Miss Elizabeth Copeland of Ropesville, was among 253 graduates to receive a degree from Texas Technological college Friday night. Her name was omitted from the graduate list by mistake. Miss Copeland received a B. S. degree in education.

Pvt. Bishop K. Mitchell, son of Mrs. Dovie M. Griffin of Lubbock, was one of 238 men awarded his diploma Aug. 15 when class 16 at Scott field, Ill., the army's radio university, held graduation exercises at the post, terminating a 22-week course in radio communications. Pvt. Mitchell has been assigned to Puerto Rico, announced Col. Wolcott P. Hayes, commandant.

George Dupree, Lubbock attorney, will be guest teacher this morning for Horn Bible class of the First Methodist church, said Royal Furgeson, class president. Dr. D. D. Jackson is regular teacher.

Capt. and Mrs. G. W. Carlson of West Point, N. Y., and two young children left Lubbock Saturday morning for their home after having visited two nights in the 2216 Seventh street residence of Mr. and Mrs. J. T. Inmon. Mrs. Carlson is a granddaughter of the Inmons, who never had seen their great grandchildren. Capt. Carlson is an engineering instructor. They visited earlier in the Denver, Colo., residence of Mrs. Carlson's father, Col. E. H. Inmon, retired.

Sam Rosenthal, 2513 Twenty-second street, left late yesterday for Amarillo, from where he planned to fly to St. Louis to attend funeral services there today for a brother-in-law, Max Katz. Katz died unexpectedly Saturday. Mrs. Rosenthal already was in St. Louis with her mother, Mrs. Louis Michealson, who is seriously ill. Rosenthal plans to return to Lubbock within the next few days.

Capt. Fred Upchurch of the legal division of the selective service system was a visitor to both Lubbock county draft boards Saturday. His headquarters are at Austin. He checked the boards' records.

Parker county reunion will be at Mackenzie state park next Saturday, its 11th annual meeting, according to announcement Saturday by C. C. Williamson of Lubbock. Those attending will bring basket lunches and congregate east of the swimming pool beginning about 10 o'clock that morning, he said. In former years the reunion has been held at the residence of Mr. and Mrs. Al Baker of Wellman, but because of their ill health has been changed to the park.

Seventeen persons from seven towns of this general section took examinations for certificates Friday and Saturday in Yellowhouse lodge 841, AF&AM. Earl Jones of Amarillo, member of the Lubbock lodge and the committee on work of the Grand Lodge of Texas, was examiner. Taking examinations were Vernon Barlett and M. H. Rankins, both of Abernathy; Merle Nelson, W. T. Brown and Earl Johnston, all of Slaton; W. C. Baze of Idalou; E. R. Evans of Sweetwater; M. T. Darden and B. B. Railsback, both of Lorenzo; Lee Pierce of Shallowater, and Burl Ham, Ollie Lanham, Howard Hunt, Alton Abbott, W. G. Casey, B. F. Herring and George Eubank, all of Lubbock. E. O. Firerobin of Amarillo was a Friday visitor.

Lubbock Underwriters' association will sponsor an advanced training course for life insurance salesmen in Lubbock and area, according to announcement Saturday. Oct. 7 has been tentatively set as the starting date. Sam Leifeste, director of adult education in city schools, is expected to conduct the course under the supervision of the state board of vocational education. B. H. Meskimen, Leonard Ernest and Ed Hambright are members of the education committee of the association and will be in charge of arrangements.

Gordon Russell Bales, 42, of Springlake, will be buried after 2 o'clock rites this afternoon in Olton Baptist church, announced Saunders Funeral home. Burial will be in Plainview cemetery. He died of a malignant disease of the liver Friday morning in West Texas hospital in Lubbock.

Forty attorneys attended a regular meeting of Lubbock Bar association at noon Saturday in Lubbock hotel. Hugh Anderson, president, was chairman at the luncheon meeting. Ralph Brock is secretary of the association.

Anna Mae Harris, 30, a negro woman, who had been given deferment of a judgment assessing a fine for liquor law violation, told sheriff's officers she had been unable to provide the fine and starting serving her sentence Saturday. Her total assessment, for fine and costs, was slightly more than $51. An authority said the woman had this week recovered a case of mumps.

Community singing will be conducted from 2 to 4 o'clock this afternoon at Foursquare church, corner of Avenue Q and Eighth street. P. O. Brock, chairman, made the announcement.

Condition of M. F. Ballew, prominent O'Donnell farmer since 1908, was much improved Saturday, it was said at the residence of a brother, William Ballew, 1512 Avenue O. He suffered a paralytic stroke late Thursday and is at the residence of a daughter, Mrs. Homer Hancock, in O'Donnell.

Members of the liquor control board Saturday seized nine pints of whisky at the residence of a negro, whose arrest was not reported. A charge of liquor law violation was filed in county court against the negro.

Capt. James G. McKinnon, stationed at Fort Douglas, Salt Lake City, Utah, arrived in Lubbock Saturday for a brief visit with his father, P. D. McKinnon of 808 Avenue R. He will go to Amarillo to take off at 2 o'clock this afternoon for the return flight to Fort Douglas.

Fighting In Russia

(Continued From Page One)

Ilmen (about 100 miles south of Leningrad) and have taken several bunkers by storm."

Finnish Troops Advance

On the north, the Finns reported that victorious Finnish troops smashing down the Karelian isthmus had unleashed an "avalanche offensive" against Red army forces encircled in the port of Viipuri, 75 miles northwest of Leningrad.

Other Finnish troops were reported within 50 miles of Russia's second biggest city, the former St. Petersburg, founded on the marshy shores of the gulf of Finland by Peter the Great in 1703.

On the west, a third threat to the city arose in German forces striking from the rail gateway to Kingisepp, 75 miles or less away.

Erecting Fortification

Inside Leningrad, every available citizen toiled feverishly, erecting fortifications at the city's approaches, throwing up street barricades, and converting homes and factories into strongholds. Defenses along the three great canals intersecting the metropolis were expected to exact a bitter toll, once the Germans actually arrive.

Elsewhere on the 1,500-mile battlefront, ranging from the Karelian isthmus to the Black sea, the Russians declared they had recaptured nine German-held villages in the last two days in the central theater, driven the Germans back six miles, smashed the 161st Nazi infantry division, and lifted the siege on an unspecified town with Soviet women taking part in the actual fighting.

Army Will Start Using 'Re-Tread' Tires Soon

WASHINGTON, Aug. 23 (AP) — The army will start using "retread" tires shortly on thousands of its passenger cars and trucks, to help conserve the nation's stocks of rubber.

Announcing this today, the War department reported that reconditioned tires proved "entirely satisfactory" in recent experiments.

RATES ARE INCREASED

HONOLULU, Aug. 23. (AP) — Bombing insurance in Honolulu has shot up from ten cents for $100 protection to 50 cents, W. B. Brandt of San Francisco, Pacific coast representative for Lloyds of London, said today.

Wage Increase Is Predicted

(By The United Press)

FORT WORTH, Aug. 23—A general 10-cent per hour wage increase for the entire oil industry was predicted today by Sam Beers, vice president of the International Oil Workers Union (CIO), who announced that Sinclair Oil company had signed a contract calling for wage increases for 1,200 workers in its East Chicago refinery.

Beers said the agreement was signed late yesterday.

Sinclair Oil company, Beers said, "always reflected" a general move through the industry. Sinclair's wage-increase made the 1,200 workers at the East Chicago plant the highest paid in the industry, he said.

Company The First

"Sinclair Company," Beers said, "followed its traditional stand towards labor and granted a wage increase to its 1,200 workers at the East Chicago refinery. The company always has been the first to grant increased wage demands and it generally is followed by the entire industry."

There is a feeling of "unrest" throughout the industry, Beers said, and is reflected most clearly in California where Shell oil workers have voted for a possible statewide strike.

Tried To Increase Week

"Shell has tried to increase the work week from 36 to 40 hours a week," Beers said. "They also have abroeated a seniority agreement. This coupled with increased wage demands by Shell workers make the situation there tense."

Beers said the outcome of the Shell workers' strike-vote would be forwarded to the national headquarters here and that President O. A. Knight, of the I.O.W.U., would call the strike if conditions warranted. Results have not been received here as yet, Beers said.

Knight was said to be in Chicago.

Negro Is Being Held As Burglary Suspect

A tip given by an employe of a hide processing firm led to the arrest Saturday of a 20-year-old negro man suspected to burglarizing Kuykendall Packing company, at 1507 Avenue A.

The negro, Luther Burns, was arrested by Grady Harrist and Cap Moore, sheriff's deputies, and he later was charged in justice court of J. T. Inmon with burglary. Harrist signed the complaint, prepared by Victor H. Lindsey, assistant district attorney.

Burns dictated a statement to Lindsey, admitting the offense.

Three cow hides were stolen from the packing plant and were sold at the hide company. An employe remembered the license number of the car in which the seller was riding.

A 23-year-old companion of Burns was questioned and released.

Death Of Soldier In Louisiana Investigated

CAMP POLK, La., Aug. 23. (U.P.) —Civil and military authorities today investigated the death of Pvt. Harold P. Clark of Fort Worth, Tex., a member of the Second Signal corps, second division, who apparently was attacked while on leave in nearby Leesville.

Clark, a soldier for the past five years, died of a cerebral hemorrhage caused by a blow at the base of the brain inflicted by a party or parties unknown, a coroner's jury found. The jury, meeting in Leesville yesterday, said Clark was attacked Thursday night. He died yesterday.

Louisiana state police and a military board from Camp Polk are investigating.

BOMBING SITE SELECTED

WASHINGTON, Aug. 23. (AP)—The War department has announced that a 27,500-acre site in the vicinity of Padre island, on the Texas lower Gulf coast, had been selected for the air corps gunnery school at Harlingen to use as an aerial gunnery and bombing range.

GREENVILLE VOTES BONDS

GREENVILLE, Aug. 23 (AP) — Greenville citizens voted overwhelmingly today in favor of issuance of a $60,000 bond issue to match a $410,000 federal appropriation for the construction of an airport here. The vote was 1,080 for the issue and 14 against.

MAY OFFICIAL DIES

ST. LOUIS, Aug. 23. (AP)—Samuel B. Butler 79, vice-president and secretary of the May Stores Co., department store chain, died today.

Jaycees Will Go To Plainview Monday For Regional Meet

A Lubbock delegation of 30 or more Jaycees will attend a charter presentation program of the Plainview Junior Chamber of Commerce at 8 o'clock Monday night, when Fred F. Morgan of Corpus Christi, state president of the organization, will be principal speaker.

The Plainview club was recently organized with the cooperation of Brownfield Jaycees, representatives of whom will also be present at the program. Raymond Christopher of the Brownfield club will take part in the program, which will be at Hilton hotel.

Mayor John F. DuBose of Plainview will extend a welcome and C. W. Ratliff, president of the Lubbock Junior Chamber of Commerce, will respond.

Also in connection with the program will be a regional meeting, and a business session will be conducted at 4 o'clock Monday afternoon at the Plainview Hilton hotel.

Navy Ordered To Take Over Plant

(Continued From Page One)

will buy the shipyard, lease it, or hire a manager to operate it.

A lengthy executive order was the instrument the President used to order the secretary of the Navy to take over the Kearny plant.

The yard had orders for $493,000,000 in merchant and naval ships. Construction has been at a standstill since the strike was called. Some 16,000 workmen have been idle as a result of the labor dispute.

Statement Is Issued

The White House issued this brief statement on the President's action tonight:

"The President has today signed an executive order authorizing and directing the Secretary of the Navy to take possession of and operate the plant of the Federal Shipbuilding and Drydock company.

"The history of this case is set forth in the order.

In view of the national emergency, the stoppage of work jeopardizes the construction of vessels essential to the defense of the United States.

To Work Out Policies

"It is expected that work will be resumed Monday.

"The methods and policies relating to the ultimate title and other matters between the government and the company will be worked out after further studies and negotiations."

The executive order itself said that government possession and operation of the shipyard should be terminated by the chief executive "as soon as he determines that the plant will be privately operated in a manner consistent with the need of national defense."

He ordered the navy secretary to take over immediately and, so long as might be necessary or desirable, produce the "vessels, facilities, materials and equipment called for by the company's contracts with the United States" and its agencies.

To Employ Workers

The secretary is to employ such workers, including a civilian advisor on industrial relations, as are necessary to carry out provisions of the presidential order.

The chief executive cited in his executive order the fact that on May 27 he had declared an unlimited national emergency and called upon "all loyal citizens in production for defense to give precedence to the needs of the nation to the end that a system of government which makes private enterprise possible may survive."

The proclamation also called on workmen and employers to merge their lesser differences in the effort to insure survival of a kind of government recognizing rights of labor and capital.

As in the case of the North American aviation plant, the President acted as chief executive and as commander-in-chief of the Army and Navy, pursuant to constitutional powers and federal statutes.

AGREEMENT REACHED

DETROIT, Aug. 23. (AP)—Mayor Edward J. Jeffries of Detroit announced tonight that a program for settlement of the four-day street car and bus strike has been agreed upon by city officials and leaders of the striking American Federation of Labor union.

ELECTION IS SCHEDULED

CLEVELAND, O., Aug. 23. (AP) Representatives of the AFL and CIO agreed tonight to a consent election Friday at the American Shipbuilding company's seven yards to determine which group, if either, shall bargain collectively for the company's employes.

World Famous Eye Specialist, Who Never Charged More Than $2 For Treaments, Dies In Michigan; Treated Thousands

(By The United Press)

NILES, Mich., Aug. 23.—Dr. Fred N. Bonine, 77, world famous eye specialist to whose musty offices flocked hundreds of patients daily, died last night after a three-year illness with paralysis.

Bonine treated rich and poor, bankers and laborers alike. The fees never changed —$2 for the first visit and $1 for each subsequent office call.

It was impossible to buy an appointment and frequently the line of patients waiting to see him stretched out through the corridor and onto the sidewalk.

Bonine was an ardent sports fan and counted Jack Dempsey as a patient and friend. Residents of Niles credited the doctor with saving the champion's eyesight at the peak of his career, but the doctor never would discuss it.

The famous physician had little regard for the stack of currency which poured into his office daily. His aides continually were finding bills in the waste basket, beneath blotters or between pages of books.

While a medical student at Michigan in 1886 Bonine established a world record of 10 4-5 second for 110 yards, a mark which stood until Charles Paddock bettered it in 1921.

Scott Funeral Rites To Be Conducted Monday

Funeral services for E. G. Scott, 42, who died unexpectedly Friday morning in Lubbock were not definite Saturday night, it was announced at Rix Funeral home.

It was said that services would be sometime Monday forenoon at Rix chapel. The body will be taken overland to Frederick, Okla., for burial Monday afternoon.

He is survived by his widow, a son, a brother and three sisters.

The widow; the mother, Mrs. Mary Etta Scott of Mendota, Texas, and the brother, George J. Scott of Mendota, were here for services.

Scott, automobile salesman, fied in the offices of Southwest Salad company. He had moved here in April from Wichita Falls.

Jodie Bihl, Ed Doherty Play In City Open Finals Today

Trout And Best Beaten Saturday At Meadowbrook

Slim Jodie Bihl, youthful professional who has hit the comeback trail this season after a three-year failure to win a major tournament, and redheaded Edgar Doherty clash today at Meadowbrook for the City Open golf championship.

The match will be over the tough 36-hole grind. They'll tee off at 9 o'clock this morning.

Bihl, who already has won the Meadowbrook Open and Ruidoso Invitation tournaments this summer, took a 2-1 victory from Chick Trout in the upper bracket semi-finals Saturday, firing a four-under-par 67 to better Trout's sub-par 70.

Match Is Close

Doherty, who used to play on Texas Tech's golf teams, advanced to the finals with a 2-1 victory from Melvin Best of Lubbock and Texas Tech. Best matched par figures, but yielded to Doherty's 69.

Bihl and Trout battled neck-and-neck through 14 holes before Jodie began to edge ahead. Bihl won the first hole, but Trout squared it on the third and went ahead on the sixth. Bihl squared the match again on the eighth and they rounded the turn all even.

Trout went 1-up on 10, but Bihl squared it with a birdie two on the short 12. Trout's birdie three won the next, but Bihl evened it again by winning 14, and went ahead on the 15th with a birdie four.

Bihl Fires Birdie

On the 550-yard 18th, Bihl fired an eagle three.

Jodie had one eagle, six birdies, seven pars and four bogeys. Trout had five birdies, nine pars and four bogeys.

Doherty went one down on the first hole when Best won with a birdie, but evened the match on the third, went ahead on the sixth and Best never caught up. Doherty's card was 33-36, Best's 35-36.

In the consolation bracket of the championship flight, Carol Claiborne, who tied for the medal, went into the finals with a 2 and 1 win from young Lloyd Hollingsworth. He'll face Howard Walker, who won from Amos Howard, 1-up.

First flight finalists will be Rex Brown, 2-1 victor over A. B. Holton, and Weldon Counts, who won over Hugh Anderson, 1 up. Counts is on furlough from the army, and must report back to Fort Bliss Monday morning.

Patterson, McAfee To Play

Cecil Barrow, 1-up winner over H. B. Blair, and Jasper Sanders, who won by default from Bryan Henderson, will play for the first flight consolation title.

Herman Patterson went 19 holes to defeat O. A. Terry, 1 up, and gain a second flight finalist berth opposite Cotton McAfee, who won from Bill Parker, 1 up.

Chick Trout, jr., kept the family name in the tournament by eliminating W. L. Hale, 3 and 1, to win a place in the second flight consolation finals. He'll play Ty Bain, the Texas Tech footballer, who went 21 holes to defeat Fred Hinson, 1 up.

In the third flight, F. L. McRee will play H. E. McCrocklin for the title. McCrocklin defeated R. B. Walden, 4 and 3, and McRee won from Bill Helwig, 2 and 1.

In the consolations, P. H. Polk defeated Walker Nichols, 1 up, and will play Bill Pool in the finals. Pool won a default from J. B. Yates.

O. A. Brock and Bernie Howell will meet in the fourth flight finals. Brock won from W. T. Rogers, 3-2, and Howell eliminated E. W. Settle, 2-1. Dick Rountree and C. B. Harris will play in the consolation finals. Rountree defeated Sam McMillin, 3-2, and Harris defeated W. L. Martin, 5-4.

E. J. Humphrey, who defeated Randall Carpenter, 3-1, will play Sid Oglesbee, who drew a bye, in the fifth flight finals. Ernest Ohnemus, who defeated A. E. Cook, 2 and 1, will play Dayle Vannoy in the consolation finals.

Four-Game Schedule Set For Picadors

Athletic director Morley Jennings has completed and announced the 1941 Texas Tech Freshmen football schedule which calls for four games, all the Picadors are allowed under Border Conference rules. The Picadors, now under new Coach Walker Nichols, will open their season September 27 against the New Mexico Military Institute at Roswell.

Coach Nichols expects to guide a fine freshmen crop this season and faces the tough four-game schedule with confidence. The complete schedule follows:

September 27—New Mexico Military Institute at Roswell.

October 25—Cameron Aggies at Lubbock.

October 31—West Texas State Freshmen at Canyon.

November 14—Hardin-Simmons Freshmen at Abilene.

WHIRLAWAY WINS AGAIN

CHICAGO, Aug. 23. (AP)—Whirlaway galloped to a two and a half lengths victory in the $40,000 added American derby before a cheering crowd of 35,000 at Washington park today.

Hubs Win From Sox, 10-3; "Engle Day" Slated Today

Sportometer

A "Day" For The Skipper

By Collier Parris

SO IT'S "CHARLIE ENGLE DAY" at the old ball orchard, and if there ever was a guy who deserved an "appreciation day," he's old Cholly, the skipper of the Hubbers.

Although a non-gregarious type of person, a bit hard to get acquainted with and to know off the field unless you're a regular customer or have direct dealings with him, Engle really is an all right fellow—and a darned good baseball manager.

• • •

There are many who disagree with us and the other Engle fans, but we think it's mostly because you don't know him any better and don't appreciate the many futile efforts he makes to produce a winning ball club. Engle knows baseball, having learned it from the masters of the game—and he'd still be playing ball if he didn't have to hit a double in order to get to second base. He has tried, for a fact, to pass on his knowledge to his ball players. If, at times, they have missed his signals or have been incapable of absorbing his tutoring, you can't put all the blame on the skipper.

• • •

We hope the park is full of appreciative fans Sunday, for Engle's sake. The club itself has only a mathematical chance, a slim one at that, to crash the championship play-off, but we still contend that it isn't the manager's fault that the Hubbers aren't up there in the first division now. Of late, they've been playing great baseball, and the hat's off to them for those Wednesday, Thursday and Friday night games. There'll be a barrel or a box or something near the entrance this afternoon in which you may deposit any little token of appreciation you might care to bring along. Even letters or cards wouldn't be out of line.

• • •

* * *

FARTHER ALONG in this column, we will reproduce copy of a letter from a fan to Engle, but right now we'd like to remark on a couple of other events that are coming up this week.

• • •

The baseball show continues tomorrow night and Tuesday night at the Lubbock park — but the Hubbers won't be the "home team."

Neal "Peter Rabbit" Rabe and his Wichita Falls Spudders are coming to town, and they'll play the Hubbers a double-header Monday night, a single game Tuesday night. It'll be Rabe's games, because they're being transferred to Lubbock from Wichita Falls.

• • •

Here's a chance for Lubbock baseball fans to "show up" a neighbor city which has been a real disappointment in the matter of supporting a ball club this season. So poor has attendance been at Wichita Falls that Rabe has sometime since transferred ALL his home games to other parks.

In such a transfer, the visiting team is the "home team." Rabe and his officials will have complete charge of the game, will collect the gate receipts, pay all the local bills, including the light and water bills, groundkeeper, ticket sellers and takers, advertising, etc. They will pay the Lubbock club the customary guarantee, just as if the Lubbock team were playing in Wichita Falls. Whatever profit is left will go to the Wichita Falls club.

• • •

In Wichita Falls, by the time Rabe has finished paying off everybody, there's been less than a "profit" left. Just to show Wichita Falls that there's still some faith in baseball, and in Rabe and the Spudders, we'd like to see the park full on both nights.

• • •

NOT TO TAKE ADVANTAGE, however, Rabe has announced that Monday night will be "Ladies night," with the same conditions prevailing as when the Hubbers throw a ladies night. All feminine fans and kids under a dozen years will be admitted free upon payment of one nickel, which goes for taxes. And that's for a double-header, starting at 8:15 o'clock. Probably two seven-inning games.

• • •

So how about making old Rabe feel good and packing the park, both nights? He's a discouraged person these days, and a hard-luck guy all season. He has had the same trouble Lubbock and other clubs have had in the matter of producing capable baseball talent—and still remaining within the salary limit. The players just haven't been available.

• • •

ALSO COMING UP this week is one of the most important amateur baseball series of the state, and particularly of this section.

The South Plains district championship team, winner of a vigorous season-long campaign and a more vigorous championship play-off tournament last week, meets the champion of the Fort Worth district in a Texas Amateur Athletic federation play-off series.

• • •

Teams are the Sundown Oilers, one of the toughest outfits in these here parts, and the Worth Clothiers of Fort Worth. Whereas the Lubbock or South Plains district winner has been going to Dallas or Fort Worth for the State play-off series, Mr. Bruce Nesbitt, general manager of the Sundown team, has managed to get the State quarter-finals booked for Hubber Field on Saturday night and Sunday. There'll be a single game Saturday night, a double-header Sunday. Winner of the series—and they're saying Sundown will win it—will play the winner of the East Texas play-off, winner of that to play the South Texas champion for the state championship.

• • •

AS AN EXAMPLE of how some folks appreciate the work of Charlie Engle, the Hubber manager, here's copy of a letter written by Mr. O. L. Sanders, superintendent of Petersburg Public schools; neither Mr. Sanders nor Mr. Engle knows we've got a copy of the letter, or how we got it, but we hope neither will object to its publication here:

• • •

"Mr. Charlie Engle,
"Manager, Lubbock Hubbers,
"Lubbock, Texas.
"Dear Mr. Engle:

"I don't know whether you are in the habit of receiving letters of appreciation from your baseball fans, but this little epistle will tend to express my appreciation to you for the good work you have done with the Hubbers this year. True, you have not had the very best of luck in winning all the games you have played, but, nevertheless, you have had to do with the building of a strong feeling of sportsmanship on the part of the Lubbock Hubber Baseball club.

"We Petersburg fans, who haven't missed many games, admire you and your boys for the friendly spirit existing between you and the fans during all the games we have seen. I have also watched the performance of the Hubbers on other fields, and I can truthfully say that the sportsmanship exhibited is unequalled by any other club. Again I say that the Hubbers haven't won all their games, but I maintain that there is something else to sports besides winning. Of course, in your position, you are supposed to produce a winning team. On the other hand, a man can't produce a winner when the odds are against him.

"Mr. Engle, I hope I have written enough here to at least give you a smattering impression of what I think of you and the Hubbers. If I haven't exactly done so, please read enough between the lines to get the idea that I think you are a swell guy and have a swell bunch of boys to work with. Hope you are back again next year.

"Believe me,
"O. L. Sanders, Supt.,
"Petersburg Public Schools."

• • •

That's a fine letter, Mr. Sanders, and we know that Engle appreciates it. We think a lot of fans feel the same way, and we hope they express their feelings this afternoon.

HONEST, FOLKS—It's a picture of Charlie Engle, the Lubbock Hubber skipper, who is being honored with a "day" at Hubber Field this afternoon. The picture was made some dozen years ago when he crashed the "big time," first with Connie Mack's Athletics, then with the Pittsburgh Pirates.

The Hubbers stretched their winning streak to four games—equalling their own season record—with a 10 to 3 victory over the Amarillo Gold Sox last night.

It was the third win in a row over Amarillo in the current five-game stand. The teams meet in a doubleheader this afternoon starting at 2:30 o'clock.

The occasion has been designated as "Charlie Engle Appreciation Day," and fans are invited to pay their respects to the chubby manager of the Hubbers, who has done a man-sized job with a schoolboy team this season.

SPUDDERS HERE MONDAY

The Wichita Falls Spudders will be "at home" in the Lubbock park for a "ladies' night" doubleheader Monday night, starting at 8:15 o'clock, and also for Tuesday night—except that if won't be a doubleheader and it won't be ladies' night. The games originally were scheduled for Wichita Falls, but due to the lack of interest there, Manager Neal Rabe transferred the games to Lubbock. Wichita Falls will act as the "home club" in the matter of gate receipts and will pay to the Lubbock club a regular "road" guarantee. Ladies with a nickel each will get in Monday night for the twin bill.

Frank Hargrove, hustling left-fielder, did his best to win for the Gold Sox last night, hammering out two home runs and driving in all three Amarillo runs, but the Hubbers worked on Bob Risinger for four runs in the first two innings, added another in the fifth, and batted ten times in the sixth for five more runs, knocking Risinger out of the box and greeting Dutch Prather, who moved over from first base, with a double to knock in the fifth run. Prather got the Hubs out in the last two innings without a score.

Vince Castino, with four hits in four trips, was the big "V" in the Lubbock batting order. Bengston, with two doubles, each batted in two runs.

(Continued On Page 13)

Clovis Whips Wichita Falls Again, 11 To 1

CLOVIS, Aug. 23. (Special)—The Clovis Pioneers handed the Wichita Falls Spudders their ninth straight defeat tonight, 11 to 1. Chester Hill yielded 15 blows to lose his 17th game of the season, against five victories.

Ken Wyatt limited the Spudders to six hits, and had a shutout until the ninth.

The line score:

WICHITA FALLS	000 000 001—	1	6 5
CLOVIS	010 341 02x—11	15	1

C. Hill and Brown; Wyatt and Schmidt.

Dodgers Lose To Cubs But Retain Lead Over Cards

(By The Associated Press)

BROOKLYN, Aug. 23.—Claude Passeau and the Chicago Cubs belted the Dodgers, 7 to 1 today, but the Brooklyns had their horseshoe working and finished the day still riding a game and a half lead in the National league.

A defeat of the second-place St. Louis Cardinals in Philadelphia left the Dodger edge intact despite the loss, and set the stage for the start of the crucial four-game series between the pace-setters in Ebbets field tomorrow. They play a Sunday doubleheader and follow it up with single games Monday and Tuesday.

Passeau muffled the Dodger bats with seven hits and had "dem bums" shut out until the ninth when two singles and a fielder's choice produced the only Brooklyn marker. It was Passeau's 12th victory of the year, his third in four outings against the league leaders.

Meantime, the Cubs clouted Tom Drake and Johnny Allen for only eight hits, but four of these came in the third innning and produced five runs, and two more were good for the other pair of Chicago tallies in the sixth.

Phils, Without Etten, Bump Cardinals, 4-2

PHILADELPHIA, Aug. 23. (AP)—The lowly Phillies, even without the services of National League Batting Leader Nick Etten, contrived to beat the pennant-hopeful St. Louis Cardinals, 4 to 2, today.

Seven-hit hurling by Lee Grissom and a neat bit of relief work by Si Johnson in the ninth stopped the Red Birds while the Phillies knocked their old mate, Bill Crouch, out of the box in the sixth inning to score the winning markers.

BOY DIES IN GAME

NEWARK, N. J., Aug. 23. (AP)—Frank Negri, 15, fell across the goal line in a touch football game yesterday amid the cheers of his companions but he never heard them.

A doctor summoned by the Bruce street playground director after Frank failed to rise found the boy dead of a heart attack.

CITY OPEN FINALISTS—Edgar Doherty, above, and Jodie Bihl, right, will tangle today in the finals of the Lubbock City Open championship at Meadowbrook. Doherty, former Texas Tech player, eliminated Melvin Best, 2 and 1, yesterday while Bihl, professional who came up from the caddy ranks, defeated Chick Trout, a former professional, 2 and 1. Winner of today's 36-hole match will succeed Lofton Burnett as champion.

National Amateur Play To Open Monday With Bud Ward Favorite; 146 Entered

By BILL BONI
Associated Press Sports Writer

OMAHA, Aug. 23—Marvin (Bud) Ward of Spokane, the most impressive figure to swing a club over the Field club course this week, shot his first practice round for the National Amateur golf championship today and promtly was installed as favorite in the tournament that starts on Monday.

It wasn't so much the score he posted—a one-over par 73—as the manner in which he belted out booming, in-the-groove wood shots and spanked out clean-cut iron shots that either rolled up dead to the pin or bit neatly into the heavy turf and sat down. There was, too, his confident but by no means cock-sure reaction to the course.

"This looks like my meat," said the 1939 champion. "The fairways are narrow, and that's what I like. No hacker is going to get any place on this course. And if the greens aren't too smooth, that doesn't both me either—because my putting is all that's been giving me trouble lately, and on these greens I'll be on even terms with the rest of the boys."

Among the 140-odd "boys" is Dick Chapman, the socialite army athletic instructor whose work at the Montgomery (Ala.) air base has put him in fine physical trim and who's confident he'll be able to defend a title no one has been able to retain since Lawson Little won in 1934 and repeated in 1935.

Five Ex-Champions

Chapman's workouts haven't been two impressive. But he never has been able to bear down in practice, and that doesn't worry him.

Pending last-minute absentees, the field stood at 146 tonight. Latest withdrawal was Willie Turnesa of Detroit, who won in 1938.

This reduced the list of former champions in the field to five—Chapman; Johnny Goodman, 1937 winner and a hot favorite on his home course; Marvin (Bud) Ward of Spokane, Wash., 1939 champion who checked in today for his first practice round and is likely to go to the post one of the leading choices; lean Johnny Fischer of Cincinnati, who took the 1936 title at Garden City; and Chick Evans, the popular Chicago veteran whose victories date back to 1916 and 1920.

The Scoreboard

YESTERDAY'S RESULTS

West Texas-New Mexico League

Amarillo 3; Lubbock 10.
Wichita Falls 1; Clovis 11.
Pampa 2-7; Lamesa 8-4.
Borger at Big Spring—rain.

Lamesa Divides Twin Bill With Pampa Oilers

(Special To The Avalanche-Journal)

LAMESA, Aug. 23—Lamesa and Pampa divided a doubleheader here today, the Loboes winning the afternoon game, 5 to 2, and the Oilers capturing tonight's encounter, 7 to 4.

The Oilers jumped on to Buck Tinsley for six hits and two walks in the first inning tonight to win the ball game with five runs. Tinsley settled down but the damage was done.

Steady young Buck Huckabee pitched the opening victory, although he was touched for 13 hits.

The box scores:

Louis-Nova Fight Is Reset For Sept. 29

NEW YORK, Aug. 23.—After seven years of knocking over hopeful heavyweights between platters of fried chicken, Joe Louis decided today the golf and marital mixup which took up most of his summer make it necessary for him to have more time to get ready for Lou Nova.

So he asked for, and received, a ten-day postponement of the fight, setting it back to Sept. 29 in the Polo Grounds. In fact, he was so hot in his demands for the postponement that he told Mike Jacobs the bout would either be set back—or there would be no fight.

Immediately, Nova's brain trust shouted that Joe's anxiety over his condition was proof he was afraid of their warrior. This theory wasn't shared by much of Jacobs Beach, however. Most of the leading citizens figured the postponement only gave the big California clouter a ten-day stay of execution.

Nevertheless, the fact that for the first time in his career the Bomber had to plead for more time to prepare for a rival made it obvious that: (1), He doesn't round into condition so quickly as he once did, and (2), he has a healthy respect for Louie and Yogi's designs on his world heavyweight championship.

Baer-Simon Fight Is Postponed By Jacobs

NEW YORK, Aug. 23. (AP)—Promoter Mike Jacobs today announced the heavyweight bout between Buddy Baer, Max's kid brother, and Abe Simon, New York, has been postponed indefinitely because of a growth on Baer's right arm requiring an operation. The fight was scheduled for September 5 in Madison Square Garden.

Baer has been training at Long Branch, N. J., for nearly a month. Promoter Jacobs said the growth appeared several days ago and that after trying other treatment than surgery, Dr. W. G. Herman decided today an operation was necessary.

In Only 13 More Days, Red Raiders Open Fall Football Practice; Prospects Bright

Times being what they are, any guess on the prospects for a good football team at Texas Tech this fall would have to take into account the draft, Hitler, Uncle Sam and numerous other unpredictable factors.

But this much is certain:

In exactly 13 days, the new football deal for the Red Raiders will start operating. Texas Tech's new coaching setup—Athletic Director Morley Jennings, Head Coach Dell Morgan and Assistant Coach Berl Huffman—will call the varsity candidates to order on the morning of Sept. 5 and swing into fall practice.

Fifteen days later, the Raiders will open their season with a home game against the Abilene Christian college Wildcats.

Many of the Red Raiders have left their summer jobs and are drifting back to the campus to rest a few days before pulling on their cleats. Some of the boys now on the scene and waiting for the initial practice gong include: Glenn Lowe, halfback; Peter Blanda, halfback; Newman "Red" Ledbetter, tackle; J. R. Callahan, halfback; Don Austin, halfback; Roger Smith, halfback; Tom Douglass, fullback; Walter Webster, halfback, and Jack Shanks, tackle. Coach Dell Morgan has instructed all the 1941 players to leave their jobs and be on the campus by Sept. 2.

So far the Red Raiders have escaped any serious losses to the army draft and current indications are that the 1941 Texas Tech steam-roller will carry practically the same lineup that won nine, lost one and tied one last season. The graduation of Captain Lonnie McCurry will be felt at left guard and Big Rafe Nabors will be missed at center.

Coaches Morgan and Huffman have announced they will shift Will Allbright from guard to the center slot. Allbright was a standout last year and should be able to handle the pivot position without difficulties. He played center in high school.

All-Star Games At Plainview, Wichita Falls Holds Pre-Season Grid Spotlight

Oil Bowl Tilt Slated Sept. 1

(By The Associated Press)

WICHITA FALLS, Aug. 23.—The top hands of the 1940 high school gridirons in North and West Texas were bound for Wichita Falls tonight for a pre-season full dress parade in the fourth annual Oil Bowl all-star football game.

Monday the 44 players begin a week of practice for the grid classic sponsored by the Masket Temple Shrine of Wichita Falls, before most of them report to various college freshmen squads in the Southwest.

Labor day the two squads come to grips in the Wichita Falls high school stadium, where recent construction of 1,000 bleacher seats will make room for a total of 9,000 spectators. The sponsor predicts a capacity crowd. Attendance last year was 8,000.

Jennings To Coach West

Coach Jess Neely of Rice institute is to arrive tomorrow to assume charge of the North all-stars and whip together a machine that will maneuver against one steered by Morley Jennings, Texas Tech athletic director.

Coach Ted Jefferies, head mentor of Wichita Falls high school football teams, was the only man on the scene tonight, but Coach Howard W. Lynch is to arrive tomorrow from Amarillo. Jeffries will work with Neely and the North, and Lynch will aid Jennings and the West.

Five members of the West will arrive with the Amarillo tutor, for he selected five players from his 1940 state championship team. Roy Priola, 200-pound Amarillo lineman, became the fifth Sandy player when Morty Mertz of San Angelo notified officials that he would be unable to report.

Nichols Replaces Davis

Johnnie Davis of Vernon, injured during the practice early this month at the Texas High School Football Coaches association all-star game at Houston, was replaced on the North squad by Ray Nichols of Gainesville. Nichols will report with Ed Green, also of Gainesville, who was named on the squad this week.

NORTH

The squads:

BACKS — Edgar Cain, Breckenridge; Johnnie Collings, Olney; Vic Bates, Childress; Pete Odom, Sherman; Loyd Price, Bowie; George Wilde, Graham; Ed Green, Gainesville; Ray Hopkins, Chillicothe. ENDS—Olin Andrews, Vernon; Max Baumgardner, Wichita Falls; Ray Coulter, Masonic Home (Fort Worth); Morris Newby, Graham. TACKLES — Stanley Green, Burkburnett; McCharles Huff, Wichita Falls; Homer Jackson, Bowie; Dois Simpson, Newcastle. GUARDS—Henry Armstrong and Phil Bolin, Wichita Falls; Ray Nichols, Gainesville; Earl Rowan, Breckenridge. CENTERS—Lloyd Baxter, Sherman; Gerald Allen, Graham.

WEST

BACKS—Myrle Greathouse and Otto Payne, Amarillo; Leete Jackson, Lubbock; Jack Tyson, Fort Stockton; Walter Schlinkman, Dumas; Wendell Williams, Midland; Billy Hogan, Odessa; R. L. Cooper, Phillips. ENDS—W. C. Wooten, Amarillo; J. B. Trotter, Borger; Maurice Bratton, Midland; Lee Roy Wood, Denver City. TACKLES—Clifton Patton, Big Spring; Jimmie Eidson, Brownwood; Ted Moss, Amarillo; Carl Sanders, Lubbock. GUARDS—Wayne Fade, Pampa; J. F. McVicker, Plainview; Roy Priola, Amarillo; Carrol Butler, Brownwood. CENTERS—Otis Turner, Wink; Jack Coats, Odessa.

Russell Named Most Valuable

(By The Associated Press)

HOUSTON, Aug. 23. — Glen "Rip" Russell, hard-hitting and speedy third sacker of the Tulsa Oilers, today was declared the most valuable player of the Texas league in a poll of baseball writers of the league conducted by Andy Anderson, sports editor of the Houston Press.

Russell, who is hitting .325 and tied for second place in doubles with 32, nosed out Grey Clarke, another third sacker, of the Dallas Rebels, and Bill Norman, hard-hitting left fielder of the Houston Buffs, in the tabulation.

He received 16 points, Clarke, the league's leading hitter, received 14, and Norman, who is leading in runs scored and runs batted in, got 10 points.

Russell will receive an engraved ring from sports writers of the league, a scroll from the Texas league and a check from the league, with the presentation to be made in Tulsa during the Oilers' next home stay.

State Junior Golf Meet Set

SAN ANTONIO, Aug. 23.—With a new champion sure to be crowned, most of Texas' outstanding young golfers gather here tomorrow for the 15th annual state junior golf tournament over the Brackenridge park course.

Youngsters 21 years old and younger seeking the title left undefended by Jimmy Chasey of San Antonio play an 18-hole qualifying round Monday and move into four days of match play Tuesday. Approximately 150 boys are expected to participate in the medal round, which will reduce the field to four flights of 32.

Chasey will not defend the championship he took from Joe Moore, jr., of San Antonio last summer. He is an aviation cadet now at Luke Field, Ariz. Moore, a finalist for the last three years, will try to regain the title, as will Arthur "Buck" Luce, another San Antonian, who won the championship in 1935, 1937 and 1938 and was runnerup to Moore in 1939.

The government expects to be turning out pilots at the rate of 40,000 a year before the end of 1941. The Army's quota is 30,000 and the Navy's 10,000.

A New Setup In W.T.-N.M. Baseball Here Next Season?

Local Men On Deal To Buy Hubbers From White Sox

Sam Rosenthal, Lubbock business man who has been connected with semi-professional and professional baseball here for approximately a decade, announced late yesterday that "a deal is on the fire" through which ownership of the Lubbock franchise in the West Texas-New Mexico league will pass from the Chicago American league baseball club to himself and a group of other local men.

Rosenthal is lessor of the land upon which the games are played and owns the park's stands and concessions. If the deal goes through, he said, the White Sox will continue to operate the local club throughout the balance of the waning 1941 season and the new owners will take over for 1942.

The transaction, said Rosenthal, probably will be consummated within the next several days. He said he expected to be able to make a complete announcement of the new setup upon his return from St. Louis, where he yesterday was unexpectedly called due to the death of a relative.

Players Go With Francise

Should the deal go through, Rosenthal said, the new owners will fall heir to "all players on the present Hubber club with the exception of two, yet to be named, who are on option to the Chicago American league baseball club. "The new management also will own contracts already signed with seven prospects for the 1942 team, and two unnamed players now with the Waterloo, Iowa, club of the Class B, Three-Eye league. Contract of Manager Charlie Engle would not be included in those passing from the White Sox to local hands, Rosenthal said.

In the final transaction, a "working agreement" likely will be continued with the Chicago White Sox, which organization has owned the Lubbock club of the Class D West Texas-New Mexico league for the past four years. First three years of the present setup were highly successful, both from the city's standpoint, and that of the White Sox. Lubbock teams won championships in 1938 and 1939 "without even raising up a sweat," and lost to Borger in the final game of the play-off series in 1940. A poor team this season, however, has caused baseball interest—and gate receipts—to sag to a low state.

Rosenthal said that the deal had gone through far enough for Judge K. M. Landis, high commissioner of organized baseball, to give his approval to it. He also said names of his local associates will be announced upon completion of transaction.

Rosenthal has held the title of president of the Lubbock Baseball club for four years, although actual authority has been held by the Chicago American league club, its "farm boss," Billy Webb, and other full time employes of the White Sox. He also is listed as a vice-president of the West Texas-New Mexico league.

Yanks Recover To Beat Tribe

(By The Associated Press)

CLEVELAND, Aug. 23.—The New York Yankees changed about everything but the color of their uniforms today, and ended their three-game losing streak with their revamped lineup by knocking off the Indians, 7 to 2.

Backed by the makeshift team, Lefty Gomez handcuffed the Tribe with six hits, although he had to call on Johnny Murphy for help in the ninth inning to save his 12th win of the year.

The victory left the Yanks 15 games in front of the second-place Chicago White Sox in the league standings.

Although the Yanks, who had scored a total of only four runs in their last 27 innings before today, collected only nine hits off three Indian elbowers, they bunched six of these for rallies of three runs each in the fourth and fifth frames to put the game on ice.

Manager Joe McCarty, shifting his lineup, had Jerry Priddy, the rookie second-sacker, on first; Frank Crosetti, ex-varsity shortstop, on third; Frency Bordagaray, once of the Candinals, in the right field and Ken Silvestri catching.

Randolph Field Nine Wins In TAAF Play

SAN ANTONIO, Aug. 23. (AP)—The Randolph Field Ramblers, state amateur baseball champions in 1939, defeated the Austin Sparklers 6-2 here today in the opening game of the state T. A. A. F. first-round series. A final doubleheader is set for tomorrow afternoon at Randolph Field with the Ramblers needing only one victory to advance to the semi-finals of the tournament.

Plainview Tilt Is Next Friday

(Special To The Avalanche-Journal)

PLAINVIEW, Aug. 23. — The second annual Plains Coaching school will get under way in the city auditorium here Monday morning, with the East and West Class A all-stars clashing Friday night on the high school football field in the climaxing feature.

Dell Morgan, Texas Tech's new head football coach, will mentor the West team for this game. The East squad will be led by Marty Karow, backfield coach at Texas A. and M.

Most of the outstanding stars who graduated from West Texas Class A high schools last year are included in the lineups of the two teams.

Morning sessions of the school will be devoted to lectures and conferences. Football practice will be conducted every afternoon, with coaches attending the school looking in for pointers from Karow and Morgan.

Films of leading college games will be shown each night.

Last year the East team, coached by John Kimbrough, now of Baylor, defeated the West team, coached by Jack Curtice of West Texas State Teachers, 7 to 6, in a hard-fought game.

Meadowbrook Ladies Day Is Thursday

Ladies day at Meadowbrook, postponed last Thursday because of the City Open tournament, is scheduled for this Thursday. Mrs. H. A. Ludlow and Mrs. Jack Trammel will serve as hostesses.

Play will begin at 9 o'clock, and all women of the city are invited to participate.

MORE DOUGH

WASHINGTON (AP)—One major leaguer who seems pretty certain to win a battle for more salary next season is Cecil Travis, Washington infielder. The quiet, easy-going Georgian is having his best year, hitting around .375 and contending with Ted Williams of Boston and Joe DiMaggio of the Yankees for the American league batting championship.

Bobby Fails In Match Play With Pros

Ryder Cup Team Takes Lead From Jones' Challengers

By WATSON SPOELSTRA
Associated Press Sports Writer

DETROIT, Aug. 25 — The American Ryder Cup team handed Bobby Jones a stunning personal defeat and took a 3 to 2 lead over his challengers in two-ball foursomes today at the Detroit Golf club before 12,000 spectators. Ten individual matches tomorrow will complete the series.

Jones, competing with the nation's foremost professionals in match play for the first time, paired with Gene Sarazen, but the veterans were no match for Byron Nelson and Harold (Jug) McSpaden, who won 8 to 6. Bobby and his partner were five down at the 18-hole mark and never had a chance against their opponents, who produced five birdies.

The fabulous Bobby, coming out of retirement for the charity match expected to raise $25,000 for the United Service organizations, appeared far off his game and he and Sarazen went 10 over par for 30 holes.

Nelson and McSpaden were one under par for the distance, but hottest of the winning pairs were Craig Wood, National Open champion, and Lawson Little of the challengers, who finished six under regulation figures for 30 holes while defeating Sammy Snead and Ralph Guldahl, 7 and 6. The winners contributed six of the day's 50 birdies and got the lone eagle on No. 14 in the morning.

Other triumphs for the cuppers were scored by Paul Runyan and Horton Smith, who won six of the 13 holes played in the afternoon for a 6 and 5 victory over Denny Shute and Ed Dudley and by Henry Picard and Dick Metz, who downed Johnny Bulla and Clayton Heafner, 3 and 2.

Whitharral, Cards Play For Junior League Championship

Whitharral and the Baker company Cardinals start all over again Monday in another three-game series and this time it's final: Winner of the series will be the champion of the National circuit of the Lubbock junior league for the summer.

The teams will play on the Tech diamond at 3 o'clock Monday and each succeeding day until one team has won two games.

The Cardinals finished first in both halves of the regular season. In the Shaughnessy playoff for the second-half title, Whitharral won from the Cardinals, two games to one, necessitating another series to decide the championship.

BILL DEAN'S COLUMN

I SEE that Wes Youngblood, popular radio announcer and commentator, was scheduled to play a Mr. Bye in the City Open golf matches. Wes, evidently, went down to defeat, since he later was matched in the fifth flight consolation. Now, there's a guy that plays my brand of golf, I never had any trouble making the last flight consolation.

—B—D—

THE Office of Price Administration and Civilian Supply in a recently issued bulletin suggests the following rules for the care of your car.

1. Keep your care in a garage.
2. Lubricate your car every 1000 miles.
3. Wax your car four times a year.
4. Clean air filter at least every 5000 miles (more frequently in this section).
5. At first indication of mechanical trouble see about it right away.

—B—D—

WITH a reduction of 20% in new cars already scheduled and a possible reduction of as high as 50% contemplated for 1942, authorities are concerned about keeping cars now in use in the best of condition. Curtailment of materials for the manufacture of replacement parts does nothing but add to the seriousness of the situation.

—B—D—

DRAIN of manpower for defense production work and conscription for army service is deleting the present maintainance force. Thus an idea is gained of the size of the task confronting the automotive service industries. The public is being urged from all sides to conserve rubber, gasoline, oil, automobile parts and accessories. These representations are not advanced to promote the selfish interests of the automotive service industries but bear the full approval and recommendation of W. S. Knudsen, director of the O.P.M.

—B—D—

ACCORDINGLY, the proper kind of lubricants and their proper application, the finest replacement parts and the most skilled mechanical service possible are of utmost importance.

—B—D—

HERE at BILL DEAN'S our objective has always been to use the finest materials and supply the best service humanly possible. We have built with the present situation in mind. We aim to deserve your confidence and pledge our best efforts to the long life and economical operation of your car or truck. From lubricating your car to overhauling you have our guarantee of entire satisfaction and reasonable cost.

—B—D—

MAYBE the management of the Chicago Hubbers are sticking their neck out in having an appreciation day for Charlie Engle. Not that Charlie isn't popular enough with fans who understand the situation, but the whole set-up has been none too popular this year. Mr. Engle might get the idea that he isn't appreciated.

—B—D—

THIS week BILL DEAN will give the following items free to the persons listed below provided they call at BILL DEAN'S, Fourteenth and Avenue J, before noon Monday.

5 GALLONS Texaco gas to Durwood Bradley, 2204 17th St.

WASH and grease job to Bode Adams, 2008 16th St.

CHANGE of Quaker State oil to Ed Humbright 2619 25th St.

SEE you next week.

Robert W. Wright's Realty Bulletin

SIX ROOMS BRICK
An attractive 6-room brick home, almost new, located in southwest Lubbock, on wide corner lot, with north frontage. Delightful east terrace. Large blower-type heater. $7500.00—this is less than cost of reproduction.

FIVE ROOMS
Choice location on 23rd street, just west of College Avenue. Large 5-room frame cottage, almost new, with north frontage. $4000.00 with $600.00 cash. THIS IS A BARGAIN.

TWO BEDROOMS
THIS IS ONE OF THE MOST ATTRACTIVE SMALL COTTAGES IN LUBBOCK, and there is not a prettier back yard anywhere. Brick. Floor furnace. Venetian shades. Large combination kitchen and dining room. Best condition. $3500.00 with at least $750.00 cash.

DUPLEX APARTMENTS
We list below several of the nicest duplex apartments in Lubbock, every one of which is yielding good returns and can be had for less than cost of reproduction:
One of the choicest locations between town and college. A grey brick building with 4 rooms and bath each side. Rental $65.00. $6500. A BARGAIN.
CLOSE TO DOWNTOWN DISTRICT. A grey brick building with slate and asbestos roof. Each apartment has 2 bedrooms. Attractive and well kept. Rental $70.00 $7000.00.
Another good-looking grey brick duplex with 150 feet of beautifully landscaped ground. Also servants quarters. Rental $70.00. $6250.
On west 10th street. An almost new frame duplex, with 4 rooms and bath each side. Rental $55.00. $5000.00.

NO. 673

AN ORDINANCE PROVIDING FOR THE SAFEGUARDING OF LIFE AND PROPERTY BY REGULATING AND PROVIDING FOR THE INSTALLATION AND MAINTENANCE OF NEON TUBING AND LIGHTING, FLOURESCENT TUBING AND LIGHTING, PROVIDING THE MANNER IN WHICH THE WORK SHALL BE DONE, THE KIND OF MATERIAL TO BE USED IN SUCH WORK, THE INSPECTION OF SUCH WORK, THE SCALE OF FEES FOR SUCH INSPECTION; DEFINING THE TERM "MASTER SIGN ELECTRICIAN," PROVIDING FOR THE GIVING OF A MASTER SIGN ELECTRICIAN'S LICENSE, PROVIDING FOR THE GIVING OF A BOND AND THE COLLECTION OF PENALTIES UNDER SAID BOND FOR VIOLATION OF THIS ORDINANCE, TO PREVENT INCOMPETANT PERSONS, FIRMS OR CORPORATIONS FROM INSTALLING MAINTAINING, OR SELLING NEON TUBE SIGNS, DEVICES, OR ORNAMENTATIONS.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF LUBBOCK:

SECTION 1: NAME OF ORDINANCE. This Ordinance shall be known as "Electric sign and flourescent Ordinance."

SECTION 2: DEFINITION OF MASTER SIGN ELECTRICIAN. That by the term "Master Sign Electrician" is meant any person engaged in or carrying on the business of neon installations, who is by training, experience and education, competent to lay out, design and install a system of neon tubing and the wiring that is a part thereof.

SECTION 3: REQUIRING MASTER SIGN ELECTRICIANS TO TAKE EXAMINATION.

From and after the passage and taking effect of this Ordinance, every person who engages in the work of installing neon signs in the corporate limits of the City of Lubbock, Texas, shall, before engaging in such work, make application to the City Electrical Examining Board for license and such applicants shall be required to take an examination to be given by the City Electrical Examining Board and if said applicant, upon his examination, makes a grade of seventy (70%) per cent, the City Electrical Examining Board shall issue to said applicant a certificate of qualification, certifying that the applicant has been found competent as a master sign electrician, which shall entitle him to a license to carry on such work in the City of Lubbock.

SECTION 4: FEES FOR EXAMINATION. Each applicant for examination as Master Sign Electrician shall, at the time of filing his application, pay to the Secretary of the City Electrical Examining Board the sum of $3.00, which said fee shall be paid over to the City Tax Collector of the City of Lubbock, the same shall be placed in the general fund.

SECTION 5: LICENSE.

Each successful applicant shall be issued a license under the provision of this ordinance upon the payment of a license fee of $15.00 in advance. Said fees to be paid to the Tax Collector of the City of Lubbock; provided further that each applicant for Master Sign Electrician shall execute an approved surety bond to the City of Lubbock in the amount of $1000.00 conditioned upon the strict compliance with the requirements of all city electric and sign hanging ordinances and amendments thereto.

All licenses shall expire on the first day of December of each year unless sooner revoked. Licenses may be renewed each year thereafter for fee of $3.00 if application for renewal of license is made before the expiration of the old license.

If holder of license fails to make application for renewal of same before expiration of license, he shall be required to pay full fee and if he fails to renew his license for a period of one year, take examination as provided for persons originally desiring to do neon and sign hanging. No person shall receive a Master Sign Electrician's license who has not attained the age of 21 years. All persons now engaged, or who may hereafter engage in the work of a Master Sign Electrician, are hereby required to appear before the Electrical Examining Board for an examination on or before the expiration of sixty (60) days time from the date this Ordinance takes effect.

SECTION 6: LICENSE REQUIRED.

It shall be unlawful for any person to engage as Master Sign Electrician in the City of Lubbock without first having secured a license therefor as herein provided. Every person, firm, association, copartnership or corporation engaged in the work of installing, erecting or altering electric signs or making neon installations shall at all times have in their employ a licensed Master Sign Electrician, to do said work.

SECTION 7: LICENSE NOT TRANSFERABLE.

It shall be unlawful for any person, firm, or corporation holding a license as Master Sign Electrician to transfer same or allow the use of same directly or indirectly by any other person for the purpose of obtaining a permit to do sign and neon work as herein specified.

SECTION 8: PERMITS.

No person, firm or corporation shall begin work of installing, erecting or altering signs or neon installations in or on any building or premises in the city of Lubbock without first securing a permit therefor from the Electrical Inspector. No permit will be required for repair work on signs and neon installation where no new work is installed. Application blanks for permits for sign and neon installations shall be furnished by the electrical inspector who shall approve and counter sign them.

No license shall be required to hang signs that are not illuminated in any manner such as sign boards or bill boards mounted on face of buildings, posters, etc. But sign company hanging same must have an approved surety bond, executed to the City of Lubbock in the amount of $1000.00 conditioned upon the strict compliance with the requirements of the City sign hanging ordinances and amendments thereto, and must have a permit from the Building Department of the City of Lubbock before beginning the erection or installation of same.

SECTION 9: TEMPORARY PERMIT.

Temporary permit to connect a sign for demonstration purposes must be secured from the Electrical Inspector and the connection must be removed within the specified time. No permanent connection can be made until the circuit wiring and the sign outlet has been approved by the Electrical Inspector.

SECTION 10: WIRING METHODS.

Wiring methods shall conform to Article 600, Chapter 6, of the National Electrical Code and this Ordinance.

SECTION 11: PRIMARY CIRCUITS.

Primary circuits of not more than 1320 watts (transformer input VA) shall be connected to any one circuit, either inside of sign bodies or on any neon or other sign circuit and not over 3 transformers on any one circuit.

SECTION 12: FLOOD LIGHTS.

Flood lights must be on separate circuits from sign circuits. Two goose necks of not over 150 watts each may be connected in circuit with neon sign, provided that total wattage does not exceed 1320 watts.

SECTION 13: CLASSIFICATION OF SIGNS FOR PERMIT FEES.

Outside Signs — $1.00 per permit for each sign.

Inside Signs, Directional Signs, Window Display, etc. — $1.00 for first two; 50c for each additional sign or display in one installation.

Inside Decorative Displays or Outline—$1.00 for an installation made at one time.

Outside Building Outline or Decorative Tubing — $1.00 for an installation made at one time.

SECTION 14: PORTABLE SIGNS.

A portable sign is one in which all wiring, transformers and live parts are fully enclosed and only the attachment cord extends to the outside and does not exceed 200 watts. No permit shall be required on portable signs.

SECTION 15: UNDERWRITERS' LABEL.

All signs must bear the Underwriters' Label or must pass local inspection before being closed up or hung in place.

SECTION 16: FLOURESCENT FIXTURES AND LIGHTING.

All flourescent fixtures must bear the label of the approval of the Underwriters' Laboratories, Inc.

A PORTABLE fixture is one which can be moved from place to place, and is not attached to ceiling or walls by chains, rods, hooks, flanges, or any other means of attachment, and that does not require any mechanical ability to install or knowledge of electricity, other than the insertion of the cap into a proper receptacle.

CEILING, WALL or CASE fixtures, or STRIP LIGHTING, must be safely and permanently installed and shall be wired without the use of attachment cords.

WIRES from flourescent fixtures to the outlet box shall be laced in chain of sufficient strength, or shall be carried to outlet box through the supporting pipes, or through a separate piece of rigid conduit. The wires shall not hang free in air from outlet box to the fixture.

All joints shall be properly made and insulated, both in the fixture and in the outlet box. There shall be no exposed joints outside of fixture or outlet box.

Ony hi-power factor fixtures, properly ballasted as approved by the Underwriters' Laboratory will be accepted.

Local manufacturers must secure Underwriters' Label Service before selling or offering for sale any flourescent fixture to be used or installed in the City of Lubbock, Texas.

No one, other than the holder of a Master Electrician's License and bond, may install any flourescent fixture either permanently or for temporary use.

Where fixtures are installed temporarily or for approval a temporary permit must be secured from the Electrical Inspector, and the permit will expire at a stated time as shown on the permit.

Flourescent fixtures shall not be installed in any hazardous locations unless specifically approved by the "Underwriters' Laboratories, Inc." for such locations.

Primary wiring for flourescent lighting shall be the same as for incandescent lighting. Surface extensions may be made to flourescent fixture outlets, and for a connected load of not more than 80% of 15 amperes, equaling 1320 watts to a circuit. Connected load for flourescent case lighing shall not exceed 600 watts to an one circuit.

Wiring methods shall be the same as to type in regard to conduit as for incandescent lighting for the given type of occupancy, hazard, etc.

All regulations as to licenses, bonds, fees and permits as contained in Ordinance No. 285 and its amendments shall apply to the manufacture, sale, offering for sale and installation of flourescent fixtures to be used or installed in the City of Lubbock, Texas.

The auxiliaries of flourescent fixtures dissipate heat, and are subject to burnouts, ignition or destruction as in any similar transformer, reactor, resistor, or capacitor; and care must be taken so that in the event of a fault in the fixture, surrounding material will not be ignited.

No flourescent fixture shall be supported from the shade holder or fitter ring of any chain fixtures, electric fan or similar fixture by use of the screws provided for holding the glass shade or bowl. As in all cases, the fixture must be supported by a permanent mechanical method, both as to fitter, chain and ceiling attachment, and shall be permanently wired to the outlet box. Attachment cords plugged in to a fixture will not be accepted.

Flourescent fixtures are not to be supported by means of any adaptor designed to be screwed into any light socket or receptacle.

In all cases, the wall or ceiling attachment, the supporting chain and the attachment to the fixture must be of sufficient strength and permanence to properly support the weight of the fixture under all circumstances. Strong steel chains, rods or conduit shall be used.

Stems or pipe supports which house wiring shall be approved CONDUIT. The use of common iron pipe is hereby prohibited.

Recessed flourescent fixtures shall be wired with heat resistant (ABV) wire and all current NE code rules shall be observed.

Transformers (auxiliaries) shall not be placed in attics, unless in approved metal cabinets accessible from the under side of ceiling.

SECTION 17: PENALTY FOR VIOLATION.

Any person, firm or corporation, violating this Ordinance, or causing same to be violated, shall be punished by a fine in any sum not to exceed $100.00 (one hundred dollars).

SECTION 18. VALIDITY OF ORDINANCE.

If any section, paragraph, subdivision, clause, phrase or provision of this ordinance shall be adjudged invalid or held unconstitutional the same shall not affect the validity of this Ordinance as a whole or any part or provision thereof, other than the part so decided to be invalid or unconstitutional, and IT IS SO ORDERED.

PASSED and approved first reading the 25th day of July A. D. 1941.

C. E. SLATON,
Mayor of the City of Lubbock, Texas.
ATTEST:
Lavenia Williams, City Secretary.

PASSED and approved second reading the 14th day of August A. D. 1941.

C. E. SLATON,
Mayor of the City of Lubbock, Texas.
ATTEST:
Lavenia Williams, City Secretary.

I Lavenia Williams, City Secretary of the City of Lubbock, Texas, hereby certify that the above and foregoing is a true and correct copy of Ordinance No. 673 as passed by the City Commission on the dates shown and of record in Ordinance Book 2 of the Ordinance Records of the City of Lubbock, Texas.

(SEAL) Lavenia Williams,
City Secretary.

ORDINANCE NO. 672

AN ORDINANCE DEFINING "MILK" AND CERTAIN "MILK PRODUCTS," "MILK PRODUCERS," "PASTEURIZATION," AND VARIOUS OTHER TERMS COMMON TO THE PRODUCTION, SALE, AND MANUFACTURE OF MILK AND MILK PRODUCTS, PROHIBITING THE SALE OF ADULTERATED AND MISBRANDED MILK AND MILK PRODUCTS, REQUIRING PERMITS FOR THE SALE OF MILK AND MILK PRODUCTS AND FIXING A FEE THEREFOR, REGULATING THE INSPECTION OF DAIRY FARMS AND MILK PLANTS, PROVIDING FOR THE EXAMINATION, GRADING, LABELING, PLACARDING, PASTEURIZATION, REGRADING, DISTRIBUTION, AND SALE OF MILK AND MILK RPODUCTS, PROVIDING FOR THE PUBLICATION OF MILK GRADES, THE CONSTRUCTION OF FUTURE DAIRIES AND MILK PLANTS, PROVIDING FOR THE INFORCEMENT OF THIS ORDINANCE AND FIXING A PENALTY FOR A VIOLATION THEREOF AND PROVIDING AN UNCONSTITUTIONALITY CLAUSE.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF LUBBOCK AS FOLLOWS:

Section 1. DEFINITIONS—The following definitions shall apply in the interpretation and the enforcement of this Ordinance.

a. MILK. Milk is hereby defined to be the lacteal secretion obtained by the complete milking of one or more healthy cows, excluding that obtained within 15 days before and 5 days after calving or such longer period as may be necessary to render the milk practically colostrum free; which contains not less than 8% of milk solids not fat, and not less than 3¼% of milk fat.

b. MILK FAT OR BUTTERFAT. Milk fat or butterfat is the fat of milk.

c. CREAM AND SOUR CREAM. Cream is a portion of milk which contains not less than 18% milk fat. Sour cream is cream, the acidity of which is more than 0.20 per cent. expressed as lactic acid.

d. SKIMMED MILK. Skimmed milk is milk from which a sufficient portion of milk fat has been removed to reduce its milk fat percentage to less than 3¼%.

e. MILK OR SKIMMED MILK BEVERAGE. A milk beverage or a skimmed milk beverage is a food compound or confection consisting of milk or skimmed milk, as the case may be, to which has been added a sirup or flavor consisting of wholesome ingredients.

f. BUTTERMILK. Buttermilk is a product resulting from the churning of milk or cream or from the souring or treatment by a lactic acid or other culture of milk, skimmed milk, reconstituted skimmed milk, evaporated or condensed milk or skimmed milk, or milk or skimmed milk powder. It contains not less than 8% of milk solids not fat.

g. VITAMIN D MILK. Vitamin D milk is milk the vitamin D content of which has been increased by a method and in an amount approved by the State Health Officer of the State of Texas.

h. RECONSTITUTED OR RECOMBINED MILK AND CREAM. Reconstituted or recombined milk is a product resulting from the recombining of milk constituents with water, and which complies with the standards for milk fat and solids not fat of milk as defined herein. Reconstituted or recombined cream is a product resulting from the combination of dried cream, butter, or butterfat with cream, milk, skimmed milk, or water.

i. MILK PRODUCTS. Milk products shall be taken to mean and include cream, goat milk, vitamin D milk, buttermilk, skimmed milk, reconstituted or recombined milk and cream, milk beverages, and skimmed milk beverages.

j. PASTEURIZATION. The terms "Pasteurization," "Pasteurized," and similar terms shall be taken to refer to the process of heating every particle of milk or milk products to a temperature of not less than 143° F., and holding the same temperature for not less than 30 minutes in Pasteurization apparatus approved by the State Health Officer, provided that approval shall be limited to apparatus which requires a combined holder and indicating thermometer, temperature tolerances of not more than 1½° F., as shown by official tests with suitable testing equipment, and providing that such apparatus shall be operated as directed by the State Health Officer and that the indicating thermometer and the recording thermometer charts both indicate a temperature of not less than 143½° F., continuously throughout the holding period. The term "Pasteurization," "Pasteurized," and similar terms shall also include process of heating every particle of milk or milk products to 160° F., and holding at that temperature or above for not less than 15 seconds in apparatus of approved design and operated in accordance with specifications approved by the State Health Officer. Provided that nothing contained in this definition shall be construed as disbarring any other process which has been demonstrated as of at least equal efficiency and is approved by the State Health Authority.

k. ADULTERATED MILK AND MILK PRODUCTS. Any substance claimed to be any milk or milk product defined in this ordinance, but not conforming with its definitions as given in this ordinance, or which carries a grade label unless such grade label has been awarded by the City Health Officer and not revoked, shall be deemed adulterated and misbranded.

l. MILK PRODUCER. A milk producer is any person who owns or controls one or more cows, a part or all of the milk or milk products from which is sold or offered for sale.

m. MILK DISTRIBUTOR. A milk distributor is any person who offers for sale or sells to another, any milk or milk products for consumption as such.

n. DAIRY OR DAIRY FARM. A dairy or dairy farm is any place or premises where one or more cows are kept, a part or all of the milk or milk products from which is sold or offered for sale.

o. MILK PLANT. A milk plant is any place or premises or establishment where milk or milk products are collected, handled, processed, stored, bottled, pasteurized or prepared for distribution.

p. HEALTH OFFICER. The term Health Officer shall mean the Health Officer of the City of Lubbock, or his authorized representative, unless said references is to the State Health Officer.

q. AVERAGE BACTERIA PLATE COUNT, DIRECT MICROSCOPIC COUNT, REDUCTION TIME AND COOLING TEMPERATURE. Average bacterial plate count shall be taken to mean the logarithmic average of the bacterial plate counts of the last four consecutive samples, taken upon separate days, irrespective of periodic grade announcements. Average direct microscopic count shall be taken to mean the logarithmic average of the direct microscopic counts of the last four consecutive samples taken upon separate days irrespective of periodic grade announcements. Average reduction time shall be taken to mean the arithmetic average of the reduction times of the last four consecutive samples, taken upon separate days, irrespective of periodic grade announcements. Average cooling temperature shall be taken to mean the arithmetic average of the temperatures of the last four consecutive samples taken upon separate days, irrespective of periodic grade announcements.

r. GRADING PERIOD. The grading period shall be such period of time as the Health Officer may designate within which grades shall be determined for all milk and-or milk products, provided that the grading period shall in no case exceed six months.

s. PERSONS. The word "person" as used in this ordinance shall mean persons, firms, corporations, or associations.

t. GOAT MILK. Goat milk is the lacteal secretion, free from colostrum, obtained by the complete milking of healthy goats, and shall comply with all the requirements of this ordinance. The word "cows" shall be construed to include goats.

u. HOMOGENIZED MILK. Homogenized milk is milk which has been treated in such a manner as to insure break up of the fat globules to such an extent that after 48 hours storage no visible cream separation occurs on the milk and the fat percentage of the top 100 cc of milk in a quart bottle or of a proportionate volume in containers differs by no more than 5% of itself from the fat per cent of the remaining milk as determined after thorough mixing.

Section 2. The sale of adulterated, misbranded, or ungraded milk or milk products prohibited.

No person shall, within the City of Lubbock or its police jurisdictions, produce, sell or offer for sale, or expose for sale, or have in possession with intent to sell, any milk or milk products, which is adulterated, misbranded, or ungraded. It shall be unlawful for any person, elsewhere than in a private home, to have in possession any adulterated, misbranded, or ungraded milk or milk products.

Section 3. PERMITS.

a. It shall be unlawful for any person to bring into or receive into the City of Lubbock, or its police jurisdiction, for sale, or to sell, or offer for sale therein, or to have in storage where milk or milk products are sold or served, any milk or milk products as defined in this ordinance, who does not possess a permit from the Health Officer of the City of Lubbock and on whose vehicle there does not appear i na conspicuous place the permit number in figures at least three inches high and one and one-half inches wide.

b. ANNUAL PERMIT FEE. Annual permit fee for the sale or delivery of milk or milk products acquired from or distributed by a milk plant shall be $30.00.

Annual permit fee for sale or delivery of milk or milk products acquired from or produced or delivered by each dairy shall be a minimum fee of $3.00 plus $2.00 per cow up to and including ten head, and plus $1.00 per head for each such animal in addition to said ten head, provided that in no case shall the maximum fee exceed $30.00 for any one dairy.

Only a person who complies with the requirements of this ordinance shall be entitled to receive and retain such a permit. Such a permit may be revoked by the health officer upon the violation by the holder of any of the terms of this ordinance or in any emergency when in the judgment of the health officer the milk or milk product in question has become a public health menace: PROVIDED, That the holder of said permit shall, after complying with such a revocation, have the right of appeal to the Board of Health.

Section 4. LABELING AND PLACARDING. All bottles, cans, packages and other containers enclosing milk or any milk product defined in this ordinance shall be plainly labeled or marked with (1) the name of the contents as given in the definitions in this ordinance; (2) the grade of the contents if said contents are graded under the provisions of this ordinance; (3) the word "pasteurized" only if the contents have been pasteurized; (4) the word "raw" only if the contents are raw; (5) the name of the producer if the contents are raw, and the name of the plant at which the contents were pasteurized, if the contents are pasteurized; (6) in the case of vitamin D milk, the designation "Vitamin D Milk" and the source of the vitamin D. The label or mark shall be in letters of a size, kind and color approved by the health officer and shall contain no marks or words not approved by the health officer.

It shall be unlawful to sell in the City of Lubbock, Texas, homogenized milk, unless the same has been totally and completely homogenized, and, all containers in which homogenized milk is sold shall be appropriately labeled, the label thereon shall have printed on it these words: "Totally and Completely Homogenized," in type not less than 1/8th of an inch in height.

It shall be unlawful to mix homogenized milk with skimmed milk. It shall be unlawful to add homogenized butter fat to milk and-or skimmed milk for the purposes of increasing the depth of the cream line.

Every restaurant, cafe, soda fountain, or other establishments serving milk or milk products shall display at all times, in a place designated by the health officer, a notice approved by the health officer, stating the lowest grade of milk and or milk products served.

Section 5. INSPECTION OF DAIRY FARMS AND MILK PLANTS FOR THE PURPOSE OF GRADING OR REGRADING. At least once during each grading period the health officer shall inspect all dairy farms and all milk plants whose milk or milk products are intended for consumption within the City of Lubbock, or its police jurisdiction. In case the health officer discovers a violation of any item of sanitation, he shall make a second inspection after a lapse of such time as he deems necessary for the defect to be remedied, but not before the lapse of 3 days, and the second inspection shall be used in determining the grade of milk and-or milk products. Any violation of the same item of this ordinance on two consecutive inspections shall call for immediate degrading.

One copy of the inspection report shall be posted by the health officer in a conspicuous place upon an inside wall of one of the dairy farm or milk plant buildings, and said inspection report shall not be defaced or removed by any person except the health officer. Another copy of the inspection report shall be filed with the records of the health department.

Section 6. THE EXAMINATION OF MILK AND MILK PRODUCTS.

During each grading period at least four samples of milk and-or cream from each dairy farm and each milk plant shall be taken on separate days and examined by the health officer. Samples of other milk products may be taken and examined by the health officer as often as he deems necessary; samples of milk and-or milk products from stores, cafes, soda fountains, restaurants, and other places where milk or milk products are sold shall be examined as often as the health officer may require. Bacterial plate counts and direct microscopic counts shall be made in conformity with the latest standard methods recommended by the American Public Health association. Examinations may include such other chemical and physical determinations as the health officer may deem necessary for the detection of adulteration, these examinations to be made in accordance with the latest standard methods of the American Public Health Association and the Association of Official Agricultural Chemists. Bacterial plate count, direct microscopic count, reductase test, and cooling temperature results shall be given to the producer or distributor concerned as soon as determined if said results shall fall without the limits prescribed for the grade then held. Samples may be taken by the health officer at any time prior to the final delivery of the milk or milk products. All proprietors of stores, cafes, restaurants, soda fountains, and other similar places shall furnish the health officer, upon his request, with the names of all distributors from whom their milk and-or milk products are obtained. Bio-assays of the Vitamin D content of vitamin D milk shall be made when required by the health officer in a laboratory approved by him for such examinations.

Whenever the average bacterial count, the average reduction time, or the average cooling temperature falls beyond the limit for the grade then held, the health officer shall send written notice thereof to the person concerned, and shall take an additional sample, but not before the lapse of three days, for determining a new average in accordance with section 1. (q) Violation of the grade requirement by the new average or by any subsequent average during the remainder of the current grading period shall call for immediate degrading or suspension of the permit, unless the last individual result is within the grade limit.

Section 7. THE GRADING OF MILK AND MILK PRODUCTS. At least once every six months the health officer shall announce and publish in a daily newspaper published in the City of Lubbock, the grades of all milk and milk products delivered by all producers or distributors and ultimately consumed within the City of Lubbock, or its police jurisdiction. Said grades shall be based upon the following standards, the grading of milk products being identical with the grading of milk except that the bacterial standards shall be doubled in the case of cream, and omitted in the case of buttermilk. Vitamin D milk shall be only of grade A or grade B pasteurized, certified, or Grade A raw quality.

CERTIFIED MILK. Certified milk is milk which conforms with the requirements of the American Association of Medical Milk Commissions in force at the time of production and is produced under the supervision of the Medical Milk Commission of the Medical Society of Lubbock County, and the State Board of Health or of the City or County Health Officer of the City of Lubbock and the County of Lubbock.

GRADE A RAW MILK. Grade A raw milk is milk the average bacterial plate count of which, as determined under sections 1 (q) and 6 of this Ordinance, does not exceed 50,000 per cubic centimeter, or the average direct microscopic count of which does not exceed 50,000 per cubic centimeter if clumps are counted or 200,000 per cubic centimeter if individual organisms are counted, or the average reduction time of which is not less than 8 hours, and which is produced upon dairy farms conforming with all of the following items of sanitation.

Item 1r. COWS: TUBERCULOSIS AND OTHER DISEASES. A physical examination and, except as provided hereinafter, a tuberculin test of all herds and additions thereto shall be made before any milk therefrom is sold, and at least once every 12 months thereafter, by a licensed veterinarian approved by the State Livestock sanitary authority. Said tests shall be made and any reactors disposed of in accordance with the requirements approved by the United States Department of Agriculture, Bureau of Animal Industry, for accredited herds.

A certificate signed by the veterinarian or attested to by the health officer, and filed with the health officer, shall be evidence of the above test.

For diseases other than tuberculosis such tests and examinations as the health officer may require shall be made at intervals and by methods prescribed by him, and any diseased animals or reactors shall be disposed of as he may require.

Within 2 years after the adoption of this ordinance all milk and milk products consumed raw shall be from herds or additions thereto which have been found free from Bang's disease, as shown by blood serum tests for agglutinins against Brucella abortus made in a laboratory approved by the health officer. All such herds shall be retested at least every 12 months and all reactors removed from the herd. A certificate identifying each animal by number, and signed by the laboratory making the test, shall be evidence of the above test.

Cows which show an extensive or entire induration of one or more quarters of the udder upon physical examination, whether secreting abnormal milk or not, shall be permanently excluded from the milking herd. Cows giving bloody, stringy, or otherwise abnormal milk but with only slight induration of the udder shall be excluded from the herd and their milk shall be discarded until re-examination shows that the milk has become normal.

Item 2r. DAIRY BARN, LIGHTING. A dairy or milking barn shall be required, and in such sections thereof where cows are milked, windows shall be provided and kept clean and so arranged as to insure adequate light properly distributed, and when necessary shall be provided with adequate supplementary artificial light.

Item 3r. DAIRY BARN, AIR SPACE AND VENTILATION. Such sections of all dairy barns where cows are kept or milked shall be well ventilated and shall be so arranged as to avoid overcrowding.

Item 4r. DAIRY BARN, FLOORS. The floors and gutters of such parts of all dairy barns in which cows are milked shall be constructed of concrete or other approved impervious and easily cleaned material, shall be graded to drain properly, and shall be kept clean and in good repair. No horses, pigs, fowl, calves, etc., shall be permitted in parts of the barn used for milking.

Item 5r. DAIRY BARN, WALLS AND CEILING. The walls and ceilings of all dairy barns shall be whitewashed once each year or painted once every two years, or oftener if necessary, or finished in an approved manner, and shall be kept clean and in good repair. In case there is a second story above the part of the barn in which cows are milked, the ceiling shall be tight. If the feed room adjoins the milking space, it shall be separated therefrom by a dust-tight partition and door. No feed shall be stored in the milking portion of the barn.

Item 6r. DAIRY BARN, COW YARD. All cow yards shall be graded and drained as well as practicable and kept clean.

Item 7r. MANURE DISPOSAL. All manure shall be removed and stored or disposed of in such manner as best to prevent the breeding of flies therein or the access of cows to piles thereof.

Item 8r. MILK HOUSE OR ROOM, CONSTRUCTION. There shall be provided a milk house or milk room for the cooling, handling, and storage of milk and-or milk products and the washing, bactericidal treatment, and storage of milk apparatus and utensils. The milk house or room (a) shall be provided with a tight floor constructed of concrete or other impervious material, in good repair, and graded to provide proper drainage; (b) shall have walls and ceilings of such construction as to permit easy cleaning, and shall be well painted or finished in an approved manner; (c) shall be well lighted and ventilated; (d) shall have all openings effectively screened, including outward-opening self-closing doors, unless other effective means are provided to prevent the entrance of flies; and (e) shall be used for no other purposes than those specified above as may be approved by the health officer, shall not open directly into a stable or into any room used for domestic purposes, shall have water piped into it, shall be provided with adequate facilities for the heating of water for the cleaning of utensils, shall be equipped with 2-compartment stationary wash and rinse vats, except that in the case of retail raw milk, if chlorine is employed as the principal bactericidal treatment, the 3-compartment type must be used, and shall, unless the milk is to be pasteurized, be partitioned to separate the handling of milk and the storage of cleansed utensils from the cleaning and other operations, which shall be so located and conducted as to prevent any contamination of the milk or of cleaned equipment.

Item 9r. MILK HOUSE OR ROOM, CLEANLINESS AND FLIES. The floors, walls, ceilings, and equipment of the milk house or room shall be kept clean at all times. All means necessary for the elimination of flies shall be used.

Item 10r. TOILET. Every dairy farm shall be provided with one or more sanitary toilets conveniently located, and properly constructed, operated, and maintained so that the waste is inaccessible to flies and does not pollute the surface soil or contaminate any water supply.

Item 11r. WATER SUPPLY. The water supply for the milk room and dairy barn shall be properly located, constructed, and operated, and shall be easily accessible, adequate, and of a safe, sanitary quality.

Item 12r. UTENSILS, CONSTRUCTION. All containers or other utensils used in the handling, storage, or transportation of milk or milk products must be made of nonabsorbent material and of such construction as to be easily cleaned, and must be in good repair. Joints and seams shall be soldered flush. Woven wire cloth shall not be used for straining milk. All milk pails shall be of a small mouth design approved by the health officer.

Item 13r. UTENSILS, CLEANING. All containers, equipment and other utensils used in the handling, storage, or transportation of milk and milk products must be thoroughly cleaned after each usage.

Item 14r. UTENSILS, BACTERICIDAL TREATMENT. All containers, equipment, and other utensils used in the handling, storage, or transportation of milk and milk products shall between each usage be subjected to an approved bactericidal process with steam, hot water, or chlorine.

Item 15r. UTENSILS, STORAGE. All containers and other utensils used in the handling, storage, or transportation of milk or milk products shall be stored so as not to become contaminated before again being used.

Item 16r. UTENSILS, HANDLING. After bactericidal treatment no container or other milk or milk product utensil shall be handled in such manner as to permit any part of any person or his clothing to come in contact with any surface with which milk or milk products come in contact.

Item 17r. MILKING, UDDERS AND TEATS, ABNORMAL MILK. The udders and teats of all milking cows shall be clean and disinfected with a chlorine solution at the time of milking. Abnormal milk shall be so handled and disposed of as to preclude the infection of the cows and the contamination of the milk utensils.

Item 18r. MILKING, FLANKS. The flanks, bellies, and tails of all milking cows shall be free from visible dirt at the time of milking.

Item 19r. MILKER'S HANDS. Milker's hands shall be clean, rinsed wit ha bactericidal solution, and dried with a clean towel, immediately before milking and following any interruption in the milking operation. Wet-hand milking is prohibited. Convenient facilities shall be provided for the washing of milkers' hands.

Item 20r. CLEAN CLOTHING. Milkers and milk handlers shall wear clean outer garments while milking or handling milk, milk products, containers, utensils, or equipment.

Item 21r. MILK STOOLS. Milk stools shall be made of metal or other impervious material and shall be kept clean.

Item 22r. REMOVAL OF MILK. Each pail of milk shall be removed immediately to the milk house or straining room. No milk shall be strained or poured in the dairy barn.

Item 23r. COOLING. Milk must be cooled immediately after completion of milking to 50° F. or less, and maintained at that average temperature, as defined in section 1 (q), until delivery. If milk is delivered to a milk plant, or receiving station for pasteurization or separation, it must be delivered within 2 hours after completion of milking or cooled to 60° F. or less and maintained at that average temperature until delivered.

Item 24r. BOTTLING AND CAPPING. Milk and milk products shall be bottled from a container with a readily cleanable valve, or by means of an approved bottling machine. Bottles shall be capped by machine. The bottler and capper shall be cleaned and subjected to bactericidal treatment before each usage. Caps shall be purchased in sanitary containers and kept therein in a clean dry place until used.

eltm 25r. PERSONNEL, HEALTH. Every person connected with a dairy whose work brings him in contact with the production, handling, storage or transportation of milk, milk products, containers, or equipment, shall furnish such information, permit, such physical examinations, and submit such laboratory specimens as the health officer may require for the purpose of determining freedom from infection.

The health officer, or a physician authorized by him, shall in each such instance take a careful history, and if such history suggests that such person may be a carrier of or infected with the organisms of typhoid or paratyphoid fever or of any other communicable disease likely to be transmitted through milk, he shall secure appropriate specimens of bodily discharges and cause them to be examined in a laboratory approved by him or by the State health authorities for such examinations.

Item 26r. All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to protect their contents from the sun and from contamination. All vehicles used for the transportation of milk or milk products in their final delivery containers shall be constructed with permanent tops and with permanent or roll-down sides and back, provided that openings of the size necessary to pass the delivery man may be permitted in the sides or back for loading and unloading purposes. All vehicles shall be kept clean, and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such manner as to permit contamination. All vehicles used for the distribution of milk or milk products shall have the name of the distributor prominently dispayed.

The immediate surroundings of the dairy shall be kept in a neat, clean condition.

GRADE B RAW MILK. Grade B raw milk is milk the average bacterial plate count of which at no time prior to delivery exceeds 200,000 per cubic centimeter, or the average direct microscopic count of which does not exceed 200,000 per cubic centimeter if clumps are counted or 800,000 per cubic centimeter if individual organisms are counted, or the average reduction time of which is not less than 6 hours, as determined under sections 1 (q) and 6, and which is produced upon dairy farms conforming with all items of sanitation required for grade A raw milk except as follows: Under item 4r tight wooden floors and gutters shall be permitted in place of concrete; under item 8r the piping of water into the milk house, the partitioning of processes, and the provision of three-compartment wash and rinse vats shall not be required; under item 23r the temperature requirement of retail raw milk shall be 60° F. and of milk for pasteurization or separation 70° F.; item 26r shall not be interpreted to mean "permanently" covered vehicles; provided that all items or parts of items relating to cleanliness shall be required.

GRADE C RAW MILK. Grade C raw milk is milk the average bacterial plate count of which at no time prior to delivery exceeds 1,000,000 per cubic centimeter, or the average direct microscopic count of which does not exceed 1,000,000 per cubic centimeter if clumps are counted or 4,000,000 per cubic centimeter if individual organisms are counted, or the average reduction time of which is not less than 3½ hours as determined under section 1 (q) and 6, and which is produced upon dairy farms conforming with all items of sanitation required for grade B raw milk except 3r, 12r, 20r, 21r, 22r, 23r, 24r, and 26r, provided that under item 4r properly constructed clay-mixture floors shall be permitted, and that under item 5r painting or whitewashing and tight ceilings and feed rooms shall not be required.

GRADE D RAW MILK. Grade D raw milk is milk which does not meet the requirements of Grade C raw milk, and which shall be plainly labeled "cooking only."

GRADE A PASTEURIZED MILK. Grade A pasteurized milk is Grade A raw milk which has been pasteurized, cooled, and bottled in a milk plant conforming with all of the following items of sanitation and the average bacterial plate count of which at no time after pasteurization and until delivery exceeds 30,000 per cubic centimeter, as determined under sections 1 (q) and 6.

Item 1p. FLOORS. The floors of all rooms in which milk or milk products are handled or stored shall be constructed of concrete or other equally impervious and easily cleaned material, and shall be smooth, properly drained, provided with trapped drains, and kept clean.

Item 2p. WALLS AND CEILINGS. Walls and ceilings of rooms in which milk or milk products are handled or stored shall have a smooth, washable, light-colored surface and shall be kept clean.

Item 3p. DOORS AND WINDOWS. Unless other effective means are provided to prevent the access of flies, all openings into the outer air shall be effectively screened and doors shall be self-closing.

Item 4p. LIGHTING AND VENTILATION. All rooms shall be well lighted and ventilated.

Item 5p. MISCELLANEOUS PROTECTION FROM CONTAMINATION. The various milk-plant operations shall be so located and conducted as to prevent any contamination of the milk or of the cleaned equipment. All means necessary for the elimination of flies shall be used. This requirement shall be interpreted to include separate rooms for (a) the pasteurizing, processing, cooling, and bottling operations; (b) the washing and bactericidal treatment of containers and equipment. Cans of raw milk shall not be unloaded directly into the pasteurizing room. Pasteurized milk or milk products shall not be permitted to come in contact with equipment with which unpasteurized milk or milk products have been in contact, unless such equipment has first been thoroughly cleaned and subjected to bactericidal treatment. Rooms in which milk, milk products, cleaned utensils, or containers are handled or stored shall not open directly into any stable or living quarters.

Item 6p. TOILET FACILITIES. Every milk plant shall be provided with toilet facilities conforming with the ordinances of the City of Lubbock. Toilet rooms shall not open directly into any room in which milk, milk products, equipment, or containers are handled or stored. The doors of all toilet rooms shall be self closing. Toilet rooms shall be kept in a clean condition, in good repair, and well ventilated. In case privies or earth closets are permitted and used, they shall be separate from the building and shall be of a sanitary type constructed and operated in conformity with the requirements of item 10r, grade A raw milk.

Item 7p. WATER SUPPLY. The water supply shall be easily accessible, adequate, and of a safe, sanitary quality.

Item 8p. HAND-WASHING FACILITIES. Convenient hand-washing facilities shall be provided, including warm running water, soap, and approved sanitary towels. The use of a common towel is prohibited.

Item 9p. MILK PIPING. Only "sanitary milk piping" of a type which can be easily cleaned with a brush shall be used.

Item 10p. CONSTRUCTION AND REPAIR OF EQUIPMENT. All containers and equipment with which milk or milk products come in contact shall be constructed in such manner as to be easily cleaned, and shall be kept in good repair.

Item 11p. DISPOSAL OF WASTES. All wastes shall be properly disposed of.

Item 12p. CLEANING AND BACTERICIDAL TREATMENT OF CONTAINERS AND APPARATUS. All milk and milk products containers and apparatus shall be thoroughly cleaned after each usage and subjected immediately before each usage to an approved bactericidal process. When empty and before being returned to a producer by a milk plant each container shall be effectively cleaned and subjected to bactericidal treatment.

Item 13p. STORAGE OF CONTAINERS. After bactericidal treatment all bottles, cans, and other milk or milk products containers shall be stored in such manner as to be protected from contamination.

Item 14p. HANDLING OF CONTAINERS AND APPARATUS. Between bactericidal treatment and usage and during usage containers and apparatus shall not be handled or operated in such manner as to permit contamination of the milk.

Item 15p. STORAGE OF CAPS AND PARCHMENT PAPER. Milk bottle caps and parchment paper for milk cans shall be purchased and stored only in sanitary tubes and cartons, respectively, and shall be kept therein in a clean dry place until used.

Item 16p. PASTEURIZATION. Pasteurization shall be performed as described in section 1 (j) of this Ordinance. The time and temperature record charts shall be dated and preserved for a period of three months for the information of the Health Officer.

Item 17p. COOLING. All milk and cream received for pasteurization but not pasteurized within 2 hours after it is received at the plant shall within 2 hours of receipt be cooled to a temperature of 50° F. or less and maintained thereat until pasteurized, except during separation; and all pasteurized milk and milk products shall be immediately cooled to an average temperature of 50° F. or less, as defined in sections 1 (q), and maintained thereat until delivery.

Item 18p. BOTTLING. Bottling of milk and milk products shall be done at the place of pasteurization in approved mechanical equipment.

Item 19p. OVERFLOW MILK. Overflow milk or milk products shall not be sold for human consumption.

Item 20p. CAPPING. Capping of milk and milk products shall be done by approved mechanical equipment. Hand capping is prohibited.

Item 21p. PERSONNEL, HEALTH. Every person connected with a pasteurization plant whose work brings him in contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment shall furnish such information, permit such physical examinations, and submit such laboratory specimens as the health officer may require for the purpose of determining freedom from infection.

The health officer, or a physician authorized by him, shall in each such instance take a careful history and if such history suggests that such person may be a carrier of or infected with the organisms of typhoid or paratyphoid fever or of any other communicable disease likely to be transmitted through milk or milk products he shall secure appropriate specimens of bodily discharges and cause them to be examined in a laboratory approved by him or by the state health authorities for such examinations.

Item 22p. PERSONNEL, CLEANLINESS. All persons coming in contact with milk, milk products, containers or equipment shall wear clean outer garments and shall keep their hands clean at all times while thus engaged.

Item 23p. MISCELLANEOUS. All vehicles used for the transportation of milk or milk products shall be so constructed and operated as to protect their contents from the sun and from contamination. All vehicles used for the transportation of milk or milk products in their final delivery containers shall be so constructed with permanent tops and with permanent or roll-down sides and back, provided that openings of the size necessary to pass the delivery man may be permitted in the sides or back for loading and unloading purposes. All vehicles shall be kept clean, and no substance capable of contaminating milk or milk products shall be transported with milk or milk products in such manner as to permit contamination. All vehicles used for the distribution of milk or milk products shall have the name of the distributor prominently displayed.

The immediate surroundings of the milk plant shall be kept in a neat, clean condition.

GRADE B PASTEURIZED MILK. Grade B pasteurized milk is grade B raw milk which has been pasteurized, cooled, and bottled in a milk pant conforming with all of the requirements for grade A pasteurized milk and the average bacterial plate count of which at no time after pasteurization and before delivery exceeds 50,000 per cubic centimeter, as determined under sections 1 (q) and 6.

GRADE C PASTEURIZED MILK. Grade C Pasteurized milk is pasteurized milk which does not meet the requirements of Grade B pasteurized milk, and which shall be plainly labeled "cooking only."

Section 8. GRADES OF MILK AND MILK PRODUCTS WHICH MAY BE SOLD.

From and after the date on which this Ordinance takes effect no milk or milk products shall be sold to the final consumer, or to restaurants, soda fountains, grocery stores, or similar establishments, except grades A and B pasteurized, certified, and grade A raw. This section shall not be construed as forbidding the sale of lower grades of milk and milk products during temporary periods of degrading not exceeding 30 consecutive days or, in emergencies, such longer periods as the health officer may deem necessary.

Section 9. SUPPLEMENTARY GRADING PRESCRIBED AND REGRADING AUTHORIZED.

If at any time between the regular announcement of the grades of milk or milk products, as the result of the findings of two consecutive inspections of any dairy or milk plant, or because the average bacterial plate count, the average direct microscopic count, the average reduction time, or the average cooling temperature exceeds the limit fixed for the grade currently held by the milk supply in question, a lower grade shall become justified, in accordance with section 7 of this Ordinance, the health officer shall immediately lower the grade of such milk or milk product, and shall enforce proper labeling and placarding thereof.

Any producer or distributor of milk or milk products, the grade of which has been lowered by the health officer, and who is properly labeling his milk and-or milk products, may at any time make application for the regrading of his product.

Upon receipt of a satisfactory application, in case the lowered grade is the result of an excessive average bacterial plate count, direct microscopic count, reduction time, or cooling temperature, the health officer shall take further samples of the applicant's output, at a rate of not more than two samples per week. The health officer shall immediately regrade the milk or milk products upward whenever the average of the last four samples results indicate the necessary quality, but not before the lapse of two weeks from the date of degrading.

In case the lowered grade of the applicant's product is due to a violation of an item of the specifications prescribed in section 5, other than average bacterial plate count, direct microscopic count, reduction time, or cooling temperature, the said application must be accompanied by a statement signed by the applicant to the effect that the violated item of the specifications has been conformed with. Within one week of the receipt of such an application and statement the health officer shall make a reinspection of the applicant's establishment, and thereafter as many additional reinspections as he may deem necessary to assure himself that the applicant is again complying with the higher grade requirements, and, in case the findings justify, shall regrade the milk or milk products upward, but not before the lapse of two weeks from the date of degrading.

Section 10. TRANSFERRING OR DIPPING MILK; DELIVERY CONTAINERS; HANDLING OF MORE THAN ONE GRADE; DELIVERY OF MILK AT QUARANTINED RESIDENCES. No milk producer or distributor shall transfer milk or milk products from one container to another on the street, or in any vehicle or store, or in any place except a bottling or milk room especially used for that purpose. The sale of dip milk is hereby prohibited.

All pasteurized milk and milk products shall be placed in their final delivery containers in the plant in which they are pasteurized, and all raw milk and milk products sold for consumption in the raw state shall be placed in their final delivery containers at the farm at which they are produced. Milk and milk products sold in the distributor's containers in quantities less than one gallon shall be delivered in standard milk bottles. It shall be unlawful for hotels, soda fountains, restaurants, groceries, and similar establishments to sell or serve any milk or milk product except in the original container in which it was received from the distributor or from a bulk container equipped with an approved dispensing device; provided that this requirement shall not apply to cream consumed on the premises which may be served from the original bottle or from a dispenser approved for such service.

No milk or milk products shall be permitted to come in contact with equipment with which a lower grade of milk or milk products has been in contact unless such equipment has first been thoroughly cleaned and subjected to a bactericidal treatment.

Bottled milk or milk products, if stored in water, shall be so stored that the tops of the bottles will not be submerged.

It shall be the duty of all persons to whom milk or milk products are delivered to clean thoroughly the containers in which such milk or milk products are delivered before returning such containers. Apparatus, containers, equipment, and utensils used in the handling, storage, processing, or transporting of milk or milk products shall not be used for any other purpose without the permission of the health officer.

The delivery of milk or milk products to and the collection of milk or milk products containers from quarantined residences shall be subjected to the special requirements of the health officer.

Section 11. MILK AND MILK PRODUCTS FROM POINTS BEYOND THE LIMITS OF INSPECTION OF THE CITY OF LUBBOCK.

Milk and milk products from points beyond the limits of inspection of the City of Lubbock may not be sold in the City of Lubbock or its police jurisdiction, unless produced and-or pasteurized under grading provisions equivalent to those of this ordinance; provided that the health officer shall satisfy himself that the health officer having jurisdiction over the production and processing is properly enforcing such provision.

Section 12. NOTIFICATION OF DISEASE. Notice shall be sent to the health officer immediately by any producer or distributor of milk or milk products upon whose dairy farm or in whose milk plant any infectious, contagious, or communicable disease occurs.

Section 13. FUTURE DAIRIES AND MILK PLANTS. Detailed plans for all dairies and milk plants which are hereafter constructed, reconstructed or extensively altered shall be submitted to the health officer for approval before work is begun and shall conform in construction to the grade A requirements of this ordinance.

Section 14. PROCEDURE WHEN INFECTION SUSPECTED. When suspicion arises as to the possibility of transmission of infection from any person concerned with the handling of milk or milk products the health officer is authorized to require any or all of the following measures: (1) the immediate exclusion of that person from milk handling; (2) the immediate exclusion of the milk supply concerned from distribution and use; (3) adequate medical and bacteriological examination of the person, of his associates, and of his and their bodily discharges.

Section 15. ENFORCEMENT INTERPRETATION. This ordinance shall be enforced by the health officer in accordance with the interpretation thereof contained in the 1939 edition of the United States Public Health Service milk code, a certified copy of which shall be on file in the City Clerk's office.

Section 16. PENALTY. Any person who shall violate any provision of this ordinance shall be fined not more than $100.00 at the discretion of the Court. Each and every violation of the provisions of this ordinance shall constitute a separate offense.

Section 17. REPEAL AND DATE OF EFFECT. All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed; and this ordinance shall be in full force and effect immediately upon its adoption and its publication, as provided by law.

Section 18. UNCONSTITUTIONALITY CLAUSE. Should any section, paragraph, sentence, clause, or phrase of this ordinance be declared unconstitutional or invalid for any reason the remainder of said ordinance shall not be affected thereby.

Passed and approved, first reading, this the 25th day of July, 1941.

Passed and approved, second and final reading, this the 14th day of August, 1941.

C. E. SLATON,
Mayor of the City of Lubbock, Texas.
Attest:
LAVENIA WILLIAMS,
Secretary, City of Lubbock.

I, Lavenia Williams, City Secretary of the City of Lubbock, Texas, hereby certify that the above and foregoing is a true and correct copy of Ordinance No. 672 as passed by the City Commission on the dates shown and of record in the Ordinance Records of the City Commission of the City of Lubbock, Texas.

(Seal) LAVENIA WILLIAMS,
City Secretary.

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Lubbock county—Greeting:

YOU ARE HEREBY COMMANDED to summon Dora Miller by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at a regular term of the Justice Court of Precinct No. 1, Place 1, Lubbock county, to be holden at the Court House thereof, in Lubbock, Texas, on the 2nd Tuesday in September, A. D. 1941, the same being the 9th day of September, A. D., 1941, then and there to answer a petition filed in said Court on the 17th day of July, A. D., 1941, in a suit, numbered on the docket of said Court No. 7933, wherein Perry Jackson is plaintiff and Universal Life and Accident Insurance Company is defendant; and to answer an interpleader filed in said court in said cause on the 9th day of August, 1941, by the defendant, Universal Life and Accident Insurance Company interpleading Eddie Miller and Dora Miller and D. T. Moore, individually and as Guardian of the persons and estates of the said Eddie Miller and Dora Miller;

A brief statement of said cause of action is a follows:

Plaintiff sues the defendant on an assignment of an interest of $80 out of the proceeds of two (2) insurance policies, issued by the defendant on the life of Richard Miller, deceased, for the total sum of One Hundred One and NO/100—($101.00)—Dollars, payable to the beneficiaries, Eddie Miller and Dora Miller, said assignment alleged to have been executed by said beneficiaries; the defendant, in its interpleader, alleges that the said D. T. Moore, individually and as guardian, as aforesaid and Eddie Miller and Dora Miller have asserted rights in said policies adverse to the interest of the plaintiff, making it unsafe for the defendant to pay the plaintiff any of the proceeds of the policies. The plaintiff likewise sues for interest, penalty and attorney's fees; the defendant tenders the sum of One Hundred One and NO/100—($101.00)—Dollars and prays that all parties be brought into court for the determination of their rights and for a dismissal of the defendant with its costs and attorney's fees.

Herein fail not but have before said Court, at its said term, (beginning Sept. 9, 1941) this writ with your return thereon, showing how you have executed the same.

Given under my hand, at office in Lubbock, Texas, on this 9th day of August, A. D., 1941.

WALTER DAVIES,
Justice of the Peace, Precinct No. 1, Lubbock County, Texas.

Young Democrats Pledge Full-Strength Of Their Manpower Behind Roosevelt

Natives Of Distant Pribilof Islands Are Adopting American Styles And Customs

(By The Associated Press)

SEATTLE, Aug. 23.—Natives of Uncle Sam's distant Pribilof islands, prosperous after a good seal season, are adopting American styles and entertainment—from high-heeled slippers to radios.

When the little ship Penguin heads north from here within a fortnight for the last trip of the season, loaded to the gunwales, a goodly portion of the cargo will be mail order goods for the natives.

"They go strong for all the feminine articels of apparel of their white sisters down here," said Edward C. Johnston, superintendent of the fur seal division of the U. S. fish and wildlife service. "They like the highest heeled shoes, silk stockings and the other styles to be found in the well known catalogs, known as 'the Alaskan Bibles.'"

Had 27,000 Pelts

The Penguin docked yesterday with 27,000 fur seal pelts, bringing the total season's take in the Pribilofs to 95,000 bachelor seals compared with 70,000 last year. The pelts go to the auction block in St. Louis. The price last year was around $27.50 each.

Pribilof natives have modern concrete houses, with electric lights. They dress plainly ordinarily, but the women revel in the latest styles for parties and dances.

As An Expert Sees It—

Behind War News

By EDWARD E. BOMAR
Morning Avalanche Special News Service

THE crisis over elimination of Nazi influence in isolated, oil-rich Iran is not without farcial elements.

The British, it appears entirely likely, hope Shah Riza Kpahlevi will fight—but not too hard—so there will be no further doubt as to Iran's intentions and ability to make mischief.

The Shah, with overwhelming and impatient Russian and British forces on his frontiers, may be willing to give in, but dare not. Hitler's conquering legions are headed his way, and diplomatic niceties of sovereignty and honor must be preserved.

Time Slipping Away

If there is any way out of the dilemma without at least token bloodshed it must show up without much further delay. A week has passed since London and Moscow jointly and sharply served notice on the Shah's government, and the time for temporzing is slipping away.

The present military situation confronts Britain with an imperative necessity to gain a free hand in Iran—to establish a common front with Russia and assure a safe route for delivery of munitions, to safeguard the entire oil plateau of Asia Minor, to bolster Turkey and keep the Moslem world in line, and to create an unbroken front from the Mediterrean to India.

Iran, whose leaders have long been the object of Nazi wiles, forms a barrier wedge to attainment of all these vital objectives.

Shah Lacks Troops

Perilous as predictions have proven in this war, it appears safe to assume that if it comes to a fight there is little likelihood of a duplication in Iran of the laborious campaign the British required to win control of Syria.

The Shah lacks veteran, battle-proven professional troops such as the Vichy French legionnaires. His total forces are estimated at 120,000 with expansion possible to 200,000. This time the British empire can bring more power to bear and impatient Red army troops are ready to move in concert from the north.

The German invasion of Russia has given the British a much-needed breathing spell in which to strengthen the Middle East front as well as to reinforce defense of the British isles.

TO HEAD DEPARTMENT

WACO, Aug. 23. (AP)—Dr. Loyd W. Rowland, of Tulsa university will head Baylor university's psychology department, President Pat M. Neff of Baylor has announced.

A native of Fort Worth, Dr. Rowland taught there and at San Saba.

Students of South America are taking intense interest in politics.

MARKET MAY STEP UP

NEW YORK, Aug. 23 (AP) — The stock market today finished a mild recovery week with one foot on the ground and the other poised indecisively.

Except for scattered favorites, gains in the brief session were in minor fractions and recessions were just as negligible. Steels, rails and utilities managed to edge forward but other groups displayed considerable irregularity.

The Associated Press average of 60 stocks was up .1 of a point at 43.2 and on the week showed a net gain of .4. A few low-priced issues expanded the volume to 150,560 shares against last Saturday's 119,600 which was the second smallest turnover in a year. Of 425 stocks traded—about one-third of the number listed on the exchange—162 were up, 120 down and 143 unchanged.

The generally lackadaisical performance of pivotal issues was exemplified by the fact Chrysler was more than one hour late in appearing on the ticker tape. It held an advance of ⅛ of a point while General Motors was off ⅛.

Peoples Gas was an isolated strong spot, jumping 2 points to 50, a new 1941 top. Richfield Oil was the liveliest mover, up ½ at 11, also a new year's peak.

The market apparently was undisturbed by the Federal Reserve board's installment credit curbs.

B—Bid.

NEW YORK REPORT

NEW YORK, Aug. 23 (AP)—Cotton futures prices drifted lower in a dull session today, closing 2 to 9 points under Friday's finish, a slight recovery from the day's worst.

There was little disposition to buy and the pressure of moderate commission house liquidation and hedging was enough to push values down. Belated week-end covering accounted for the late betterment.

About the only news traders had to go on was ginning reports from the government and from Texas. The federal figures showed 74,101 running bales ginned from the new crop through Aug. 15. Texas, which customarily reports large ginning early, had fewer than 20,000 bales. On the same date last year the total was above 166,000 bales and in 1939 it was above 325,000.

Exports Friday none. Season so far 36,336 bales; port receipts 9,857; port stocks 2,106,002.

AVERAGE PRICE

NEW ORLEANS, Aug. 23 (AP) — The average price of middling 15-16 inch cotton at ten designated southern spot markets today was four points lower at 16.07 cents a pound; average for the past 30 market days was 15.99; middling ⅞ inch average was 15.86.

At A Glance . .

NEW YORK, Aug. 23. (AP)—
STOCKS: Irregular; leaders follow narrow path.
BONDS: Narrow; small gains outnumber losses.
FOREIGN EXCHANGE: Quiet; Canadian dollar slips.
COTTON: Easier; hedging and liquidation.
METALS: Steady; quiet Saturday trading.
CHICAGO:—
WHEAT: Weak; profit taking, hedging.
CORN: Easy; hedging sales.
CATTLE: Nominally steady.
HOGS: Steady; quotable top $12.

Livestock . .

KANSAS CITY REPORT

KANSAS CITY, Aug. 23 (AP) — (USDA) — Hogs 75; not enough offered to test values; market nominally steady; for week: light butchers 50-75 higher; late top 12.00; packing sows 40-50 higher.

Cattle 600; calves 75; for week: fed steers, yearlings and heifers steady to 25 lower; medium to good fed steers steady; grass steers steady to 25 higher; grass she stocnk steady; bulls 25-50 higher; vealers strong; stocker and feeder classes steady to strong; week's top: choice fed heifers 12.76; choice to prime steers 12.50; choice feeders 11.35; light stock steer calves 13.50; bulk fed steers 10.75-12.00; grass steers 8.25-10.50.

Sheep 50; for week: spring lambs around 75 higher; sheep strong to slightly higher; week's top colorado spring lambs 12.10; late bulk good to choice natives 11.75-12.00; odd lots slaughter ewes 5.25.

FORT WORTH REPORT

FORT WORTH, Aug. 23 (AP)-USDA)—Cattle 400; calves 100. Today's trade nominal. Compared with week ago: Slaughter steers and yearlings of medium and choice grades fully steady to strong, plain qualified grasser kinds steady to weak; cows strong to 25 higher; bulls fully steady to strong; fat calves steady; stockers steady to weak; mature beef steers topped at 11.25, steer and heifer yearlings up to 11.50; top beef cows 8.50; top bulls 8.00; top slaughter calves 10.50; stocker steer calves to 12.00; stocker heifer calves to 11.50.

Hogs 40. Packers buying the supply mostly steady with their market Friday; top 11.235, paid for good and choice 180-280 lb. averages; packing sows 9.75-10.25, pigs 9.50 down.

Sheep 50. Today's trade nominal. Compared with last week's close; spring lambs fully 25 higher, other classes steady to strong; top spring lambs 10.50; most medium and good spring lambs .00-10.50; fat yearlings 8.25-8.75; 2-year-old wethers 6.50 down; fat ewes 5.00 down; most stocker and feeder dambs 7.00-8.50.

Produce . .

CHICAGO REPORT

CHICAGO, Aug. 23 (AP) — Butter, receipts 887,696 pounds; eggs 9,328 cases; no market.

KANSAS CITY REPORT

KANSAS CITY, Aug. 23 (AP) — Produce and poultry unchanged.

FORT WORTH REPORT

FORT WORTH, Aug. 23 (UP) — Produce: Poultry — Fryers 15-17; hens 12-15½; turkeys 10-16.

Eggs — No. 1 candled 7.40-8.40 per case. Butterfat 33-38.

Grain . .

CHICAGO REPORT

CHICAGO, Aug. 23 (AP)—Wheat prices declined about a cent a bushel today to levels only fractionally higher than a week ago as the market continued to drift pending disclosure of the President's attitude regarding legislation to prevent sale of more than 170,000,000 bushels of government owned grain.

Profit-taking and hedging sales caused prices to tumble at the opening and the market spent the remainder of the short session trying to rally.

Wheat closed ½ to ⅞ lower than yesterday, September $1.11⅞@1.12; December $1.15½@1.15⅝; corn ⅛ to ¼ off, September 77, December 80⅞@81; oats ⅜ to ⅛ down; soybeans ⅝ to 1 higher; rye ⅛ to ¾ lower and lard 5 to 10 lower.

FORT WORTH REPORT

FORT WORTH, Aug. 23 (AP) — Demand was moderate for grain at Fort Worth Saturday.

Wheat, No. 1 hard, according to protein and billing, 1.18½-21.

Barley, No. 2 nominally 85½-86½.

Sorghums, No. 2 yellow milo per 100 lbs. nom. 1.18-20.

Corn, shelled, No. 2 white 77-80.

Oats, No. 2 red 47-49.

Official Records . .

Brooklyn Success Is Credited To Six New Players By MacPhail

By JUDSON BAILEY
Associated Press Sports Writer

NEW YORK, Aug. 23. — Six players, none of whom were with the Dodgers on June 1, 1940, are responsible for Brooklyn leading the National league, says Leland Stanford MacPhail, the talkative president of the club.

"The most valuable men on our ball club this season have been Mickey Owen, Kirby Higbe, Curt Davis, Pete Reiser, Bill Herman, and Joe Medwick," he observed today.

"I'm not naming them in any kind of order, but these are the men who have carried us up to the top. Without them we wouldn't be anywhere close, yet not one of them was on this club June 1 last year.

Medwick Really Hustling

"Herman, Owen and Reiser kept us going in the early part of the season when some of the other men weren't living up to their reputations and in recent weeks we have been getting a great lift from the other three.

"I've been watching Medwick play ball for ten years and never in all that time have I seen him hustle the way he is doing now for us. Even in his early days with the Cardinals he never played any better outfield than he is doing right now.

"I'd like to know where Herman got his reputation as a trouble-maker, while we're about it. He's really made our ball club and he's well liked by all the other players.

Praise Well Deserved

"People say he didn't get along at Chicago because he wanted to be a manager. Well, I say what's wrong with that? If any player with his background in baseball didn't want to be a manager I'd say something was wrong with him.

"There are two men on this team that I hope some day will be managers or coaches or both in this organization. The other is Fred Fitzsimmons."

MacPhail's praise was well deserved by his newest stars. Reiser, the rookie of the year in the National league, was batting .329 before today's game with the Cubs and has led the league in hitting most of the season. His batting power was directly responsible for three of Brooklyn's four victories over Pittsburgh in the series just closed.

"Dogfight To The Finish"

Medwick is hitting .310 and Herman .301 and both have been spectacular afield. Higbe has pitched 17 victories, the most of any hurler in the league, while Davis has won nine, including four shutouts. The success of both has been credited to considerable extent to the catching of Owen.

However, the failure to include Dixie Walker, Whitlow Wyatt and Dolph Camilli in any recapitulation of Dodger heroes was surprising. Walker is hitting .324, and to meet various emergencies has played every position in the outfield. Camilli has hit 25 home runs to lead the league and has batted in 85 runs. Wyatt has won 16 games, pitched 18 complete games and five shutouts.

Did the redhead think the Dodgers would win the pennant?

"I don't know," said MacPhail. "Sometimes I doubt it. I thought we were in when we got four games in front last month. Now all I can see is a dogfight to the finish."

Discovery Of Revolutionary New Way To Make Colored Movies Shown By Parisian

By LOUIS P. LOCHNER
Associated Press Staff Writer

BERLIN, Aug. 24. — Discovery of a revolutionary new way to make colored movies is being shown here by Prof. Lucien Henri Roux of Paris.

The films are plain black and white. They are taken with an ordinary camera, developed by ordinary process, and projected on the screen by an ordinary machine.

The difference comes from two lenses, one fitted on the camera that takes the photos, the other fitted on the projector.

Supplied By Projection

The colors are supplied in this projection lens, actually being mixed in the beam of light that casts the pictures on the screen.

It is done so simply that one noted German professor of optics, when he saw the pictures, sighed: "It's another case of Columbus and the egg. Why didn't we think of it ourselves?"

The lens which takes the pictures is divided into four equal sections. It takes four pictures, superimposing them on the photographic film, with a slight offset of each image.

Each section of the camera lens is in a different color, red, green, blue and yellow forming the quartet. The result is that each of the four pictures is taken through a different color filter.

Are Slightly Offset

Although all the pictures are black and white, the effect of the color filters is to give each a different depth of black and wihtes. All four are visible, being slightly offset.

For projection a similar four-section, four-colored lens is fitted over the projected. It casts four images on the movie screen, but the four are exactly superimposed, so that they make a single perfect image.

The colors are strikingly natural. I saw, for example, a boxing match in a Paris arena. The sluggers' bodies, as in nature, were much whiter than their sunburned faces. One wore dark brown trunks with white stripes, the other plain black trunks.

The referee had black trousers, a deep blue shirt and a white tie with light blue dots. Beads of prespiration on the boxers stood out clearly.

Veteran Grocer's Threat To 'Dead Beats' Proves Profitable; They're Paying Off

(By The United Press)

MONONGAHELA, Pa., Aug. 23—Clem Pizzutelli's experiment in the art of making dead beats "pay up" was such a success that today the veteran grocer said he had enough money to pay some of his own bills.

Pizzutelli once owned 19 stores but now has only one. A month ago he purchased an eight by twenty-four foot billboard and threatened to print on it the names of his debtors, unless they settled within 30 days their old accounts which amounted to $20,000.

The 30-day deadline is still almost a week off, but everyone whose name was due to be posted Aug. 28—the first deadline—has paid up. Even some individuals who didn't owe him any came in and asked, "How much?". Pizzutelli collected $554.

City Seventh In Week's Building

(By The Associated Press)

Dallas, hovering among the leaders throughout the year, took top notch in Texas building permits for the past week with a seven-day total of $398,813.

Houston, with a current 1941 total of $13,525,784, was the week's runner-up with $371,305.

Fort Worth was the only other Texas city in the $100,000 class.

Totals include:

Dallas	$398,813	$ 6,789,752
Houston	371,305	13,525,784
Fort Worth	120,634	4,534,364
Galveston	80,102	3,611,353
Amarillo	72,615	1,797,253
Corpus Christi	58,340	10,447,749
LUBBOCK	**54,269**	**2,328,828**
Port Arthur	44,294	815,298
Waco	24,400	3,480,761
Wichita Falls	17,325	1,030,373
Corsicana	7,675	117,925
Midland	6,845	366,185

Red Raiders

(Continued from Page 8)

The Red Raiders will start fall practice with three veteran ends in Bing Bingham, Clarence Tillery and Robert Duncan. Certainly there is no need to worry about the wing position. The two tackle slots will be filled by a pair of seniors in Newman "Red" Ledbetter and Jack Shanks. They both boasted averages of 57-minutes per game last season. Line Captain Loyce Baillio is almost sure to be the right guard with such boys as Jimmy Jay, James Merriman, Roy Wright and Pat Farris battling for the left guard position. Merriman looked like a world-beater in spring practice and appears to have the inside track.

There will be two of three veterans for each of the backfield jobs. Of course Captain Ty Bain will be head-man for the quarterback job. Kenneth Robbins and Charlie Henderson will also bid for the signal-barking position.

Plenty Of Backfielders

Rogers Smith looms as the No. 1 man at left halfback but will get stiff competition from Peter Blanda and J. R. Callahan. Thayne "Red" Amonett, the Flomot Flash who was one of Tech's leading scorers last season, probably will front the right halfbacks ahead of Don Austin, Walter Webster, Glenn Lowe and others.

Texas Tech has two of the finest fullbacks in the country in Big Charlie "Devo" Dvoracek and Tom Douglass. It simply doesn't make any difference which grabs the first string job, both can deliver the mail. Marvin McKown is a sophomore who will also see a lot of fullbacking before the season is over.

Some of the sophomore prospects who promise to make it interesting for the veterans include Avon Sewalt, a 235-pound former Lubbock High school tackle; Garland Head, a 190-pound center from Clovis High school; Vernon Ray, a tall and fast left end who looked plenty sweet in spring work; Billy Hale, a hard-charging guard from Amarillo High school, and Harold Crossen, a pass catching end from Dallas.

Mexica has warned all who cater to tourists to stop profiteering.

Losing pitcher—Crouch.

Stubborn Reds Defeat Boston Braves, 7 To 2

BOSTON, Aug. 23. (AP)—The Cincinnati Reds, who refuse to be counted out in their long-shot bid for the National league pennant, today walloped the Boston Braves, 7 to 2, for their 12th victory in 14 games.

The Reds came from behind to take the odd game in the series of three after "Milkman" Jim Turner, who got off to a wobbly start, settled down.

Giants And Pittsburgh Divide Twin Header

NEW YORK, Aug. 23. (AP)—After breaking their three-game losing streak by taking the opener of a doubleheader with the Pittsburgh Pirates, the Giants showed the customers a new way to lose in the nightcap and bowed to the Bucs' ninth-inning rally.

The New Yorkers won a battle of homers 5 to 3 in the opener, and the Bucs took the afterpiece 4 to 3 when Cliff Melton, who had muffled the Pirates steadily for eight innings, suffered a "stitch" in his side and retired in favor of Walter Brown. Large Walter, insufficiently warmed up, was touched for the hits that sent the tying and winning runs home.

FUNERAL RITES MONDAY

WACO, Aug. 23. (AP)—Funeral services for T. H. Williams, Waco district manager of the Texas Power and Light company, will be held Monday at 2 p. m. under the direction of the Rev. Gaston Hartsfield of Corpus Christi. Williams died in Los Angeles.

Tennesseean Is Named Leader

(By The Associated Press)

LOUISVILLE, Ky., Aug. 23.—Joe Carr of Tennessee, elected president of the Young Democrats of America by acclamation today, declared the organization "shall be mobilized to the full strength of its manpower behind the President of the United States" in the national emergency.

The youthful Tennessee secretary of state in his acceptance speech said the first consideration of the organization was the national welfare, adding:

The youthful Tennessee secretary of state in his acceptance speech said the first consideration of the organization was the national welfare, adding:

"Wherever it takes us — from Dakar to the Orient; whatever duties it may impose upon us; our reply is that we are not only ready, but on our way."

Commend FDR, Hull

Earlier the convention, at the final session of its biennial three-day meeting, adopted resolutions commending President Roosevelt and Secretary of State Cordell Hull "for their courageous and astute conduct of our foreign affairs and we stand with them in their titanic fight against the armed might of Nazi Germany."

The convention also approved the administration's policy of "full and complete aid" to England, China and said that "we approve of the policy of ful land complete aid to Russia, believing that our hatred of Communism and our determination to destroy its roots in this county should not blind us to the fact that Russia is battling our common enemy."

Disapprove Jap Action

With noisy demonstration the Young Democrats voiced their disapproval of Japan's occupation of bases in Indo-China and after condemning the collaboration of the "spineless and undemocratic Vichy government" resolved that "the United States should oppose by every means at its disposal any further aggression by the Japanese government."

Approving a statement from Mr. Roosevelt read to the convention at the opening session Thursday night, the organization adopted a resolution "that those obstructionists who still wear the Democratic label are in the wrong party."

The convention further adopted a resolution stating that "our military leaders should be authorized to use our armed forces to occupy and defend such strategic areas and bases as our leaders deem essential to the security of our country."

Approval of the eight-point peace program recently formulated by President Roosevelt and Prime Minister Winston Churchill also was voiced.

In a hotly contested election Miss Patricia Firestone of Harrisburg, Pa., was elected vice president. She defeated Mrs. Clover Gaston of Los Angeles and Miss Genevieve Blatt of Pittsburgh.

John Dugan of Louisville, national committeeman from Kentucky, was elected national treasurer and Jerdy Lewis of Indianapolis, secretary.

The 1943 convention city will be selected three months before the time of the meeting by the national committee. Salt Lake City and Los Angeles are seeking the meeting.

East Texas Youth Uses 'Toy Pistol' In Hijackings

WACO, Aug. 23. (AP)—In custody of state police today was a 16 year-old Henderson youth who officers said admitted a series of "toy pistol" hijackings that began at Tyler.

State Highway Patrolman Tom Gallamore and sheriff's officers arrested the youth yesterday at a tourist cabin after they said he had hijacked Glenn Krall, a hitchhiker.

The officers said the youth told them he held up Johnny Evans and took his automobile near Tyler yesterday, forcing Evans to ride with him to Fort Worth and back to Dallas, where Evans was ordered to leave the car.

The boy, according to the officers' story, drove to Canton and robbed a man named Tucker, getting only a few cents. He then came to Waco and was arrested.

He was armed with a toy pistol.

Sub-Deb And Las Cresas Clubs Begin Series Of Annual Rush Parties

The Woman's Angle
by Margaret Turner

Isn't it strange that princes and kings
And clowns that caper in sawdust rings
And common people like you and me
Are builders for Eternity.
Each is given a bag of tools
A shapeless mass—a book of rules
And each must make—ere life is flown
A stumbling block or a stepping stone.

— R. L. Sharpe.

BULLETIN BOARD

A BULLETIN BOARD whereon telephone messages, memoranda as to comings and goings of members of the household, etc., can be written is practically a necessity in a large family. Fraternity houses or boarding houses will find it a convenience, too. A fair-sized blackboard with handy chalk will do, or a neatly framed oblong of any soft wood or wall board that will not resist thumb tacks too insistently will serve the purpose nicely. The bulletin board should be hung in a hallway or some room where all members will be sure to see it.

* * *

SCATTERINGS

MRS. J. D. LINDSEY of 1520 Avenue M refuses to keep a date with Father Time. She apparently grows younger each year . . . Wonder if Tech co-eds will go bare-legged to classes this fall . . . Personal dislike: To hear some of the rug-cutting twists given to the National Anthem by certain national orchestras . . . It always startles us to hear an audience applaud a spiritual. It seems as unbecoming as if the congregation burst into applause after an offertory solo . . . Navy polka dot dresses are always in style and a "must" in most girls' wardrobes.

* * *

The American tourist has turned from a souvenir hunter to an interested sightseer, a regional director of the National Park service in New Mexico said recently. Those who have seen the chipped headstone that marks the weed-covered grave of Billy the Kid, the initials carved on national monuments and the railings and padlocks that have been placed on places of interest will agree that it's about time. Wonder if hotel managers would agree that tourists are no longer souvenir hunters? . . . Salisbury steak (hamburger to us) gets its name from a doctor, J. H. Salisbury, M. D., who advocated finely chopped meat as an exclusive diet for sufferers of certain diseases . . . Wider use of bicycles is being advocated, both for health's sake and to save on gasoline.

* * *

GRETNA GREEN — Wedding chapels are located all over Las Vegas, Nevada. While the movie stars and other eloping couples seem to recommend the custom, after seeing the brilliant entrances to several of the rooms we could not help but think that they take away a certain solemnity most couples want to associate with the ceremony . . . Signs in colorful neon ask "Want To Get Hitched? Stop Here," "Corsages Furnished," "Marriage Completed in 30 Minutes," etc. Chapel names include such gay ones as "Lucky Wedding," "Las Vegas Famous Hitch," "Blue Bird," "Westward Ho" and "Wee Kirk of the Heather."

* * *

BILL McEACHERN and Elizabeth Sears who are marrying in Amarillo this afternoon did not begin dating until after they had come to Tech college. He is an accomplished pianist and composer, having been responsible for the music score for the Varsity show last spring . . . While soldiers will pack tent theaters for comedies, news reels and color cartoons, they will walk out on the heavy film dramas. The young men want to laugh when they go to the flickers, so more than likely they won't send in votes on the academy award winners . . . Having gone back to barber shops after an absence of several years we've come to the conclusion barbers don't talk any more than their customers . . . It irks us to see women thump the ends of their cigarettes against the table or the back of their hands before lighting them . . . Pvt. Benjamin Rubin, concert pianist who appeared with the San Francisco Symphony orchestra last year and is now stationed at Camp Roberts in California, has written a song "Follow Me." It is predicted it may become the official infantry marching song . . . The Nazi marching songs are written so that the beat of the music aids the rhythm of breathing, thus alleviating fatigue.

* * *

A medal, designed to provide a talisman to those who fly, has been designed recently with holes for plane dashboards. The medal bears a likeness of St. Joseph of Copertino and the inscription "Ye have seen how I bare you on eagles' wings." . . . The "V" Song . . . (V For Victory) has made its appearance; words by Saxie Dowell who wrote "The Three Little Fishes" and "Playmates" and music by Bill Livingston who gave us "The Popcorn Man," which should give you an idea. Bernie Howell is brushing up on it and promises to play it at his earliest opportunity . . . Do you know the words to Taps — "Day is done, gone the sun, from the lake, from the hill, from the sky. All is well, safely rest, God is nigh."

PACE SETTER — The college girl is a fashion pace setter in the world of today. She set the

(Turn to Page 2, Column 1, Please)

Tea Given By Jean Smith First Event

LAS CRESAS club members will open rush week activities with a tea at 4 o'clock Monday afternoon given by club alumnae at the home of Miss Jean Smith, 1915 Twenty-ninth street.

Wednesday at 1:30 o'clock the club will entertain rushees with a dutch luncheon at Wylie's Drug store and Wednesday night at 7:30 o'clock Misses Mary Louise Breedlove and Zay Powell will be cohostesses at a scavenger hunt.

Opening activity Friday morning will be a breakfast at 9 o'clock at the College Avenue drug store with Misses Lela Gowin, Ann Crenshaw, Janet York and Veida Ruth Stimson as hostesses. A skating party will be held that afternoon with Misses Maryjo Turner, Ruth Genelle Spikes and Dolores Bizzell as hostesses.

Plan Watermelon Feast

Misses Virginia Bondurant, Joan Hale and Joyce Hackel will entertain Sunday afternoon at 4 o'clock with a watermelon feast at the home of Miss Bondurant, 2123 Twenty-eighth street.

At 9:30 o'clock Tuesday morning members of Las Cresas club will be hostesses with a bowling party at the Lubbock Bowling alley and Tuesday night Misses Ann Crenshaw and Gowin will entertain with a get-to-together at the Lubbock Country club.

At the home of Miss Carol Ann Krueger, 2703 Nineteenth street, Misses Krueger, Dorothy Sue Standefer, Ava Ruth Stangel and Elizabeth Hurlbut will entertain rushees with a barbecue.

Dance To End Series

The Meadowbrook Club house will be the scene of a girls' tag dance Friday night which will conclude activities for both Sub-Deb and Las Cresas clubs.

Rushees are Misses Marion Benson, Marilyn Claiborne, Mary Beth Dupree, Mary Ann Dykes, Patricia Fain, Frances Groce, Mary Conley Jones, Jacquelyn Lewis, Opal Hall, Temple Joyce McAfee, Ruth Parkhill, Wanda Jo Ribble, Olive Rankin, Marjorie Harrison, Norma Kelly, Betty Haynes, Francine Young, Betty Johnston, Dorothy Brown, Jean Carolyn Harvey, Maureen Leftwich, Robin Leftwich, Alice Ann Woolsey, Elizabeth Schmidt, Marion Miller, Betty and Mary Frances ion Miller, Betty Bowman and Mary Frances Wilson.

Members are Misses Gowin, Geraldine Roberts, Spikes, Powell, Turner, Hackel, Bizzell, Standefer, Jean Bardwell, Krueger, York, Crenshaw, Butler, Sara Strange, Bondurant, Stangel, Hurlbut, Stimson, Nancy Stiles, June Leftwich, Jean Newman, Betty Jean Ater, Hale, Elwanda Wolford, Billie Wolford and Breedlove.

Dahlia Society Gives Annual Garden Party

South Plains Dahlia society entertained with an annual garden party Friday night at the home of Mrs. J. E. Stokes, 3601 Twenty-second street, with Mrs. Stokes and Dr. and Mrs. Allen Hamilton acting as hosts.

Approximately 75 guests called. The yard was decorated with baskets and other arrangements of dahlias.

A Mexican orchestra furnished music, featuring duets by girls.

The refreshment table was laid with a homespun cloth of chartreuse and brown with arrangements of yellow and purple dahlias at either end. Moonlight punch and cookies were served.

Mr. and Mrs. L. W. Tarkington had as guests in their home the past week Mrs. J. E. Howard of Fort Worth, Miss Hazel Jones of Wichita Falls, Mrs. Jack Lane of Fort Worth and Mrs. J. P. Howard and Douglas from the Philippines islands.

Wedding To Be Read At Church

Announcement of the approaching marriage of Miss Emily Ann Mack of Fort Worth to W. C. Wood, jr., son of Mr. and Mrs. W. C. Wood of 2418 Twenty-second street, was made at a recent luncheon given at the Fort Worth River Crest Country club by Mrs. R. A. Stuart. The bride-elect is a daughter of Mr. and Mrs. H. F. Mack of Fort Worth.

The wedding is scheduled to take place September 2 at St. Andrew's Episcopal church in Fort Worth.

Miss Mack is to continue her studies at Texas Technological college this fall, working on her master's degree in Spanish. She is a member of Ko Shari social club, of Alpha Chi national honorary scholarship society and recently was listed in "Who's Who In American Colleges and Universities."

Mr. Wood will be a senior student at the college this year. Majoring in journalism, he is editor of The Toreador, campus semi-weekly newspaper.

* * *

IN TODAY'S PICTURES—Weddings are always important news and this week-end finds marriages and engagements dominating the social front. Miss Elizabeth Jane Sears of Amarillo, above left, is to become the bride of William T. (Bill) McEachern, also of that city, in a ceremony to be read this afternoon at the Polk Street Methodist church. After a trip, the couple will be at home in Lubbock and will continue studies at Texas Technological college. The engagement of Miss Patricia Selby, center, to James Vickers was announced Saturday morning at a coffee given by the bride-elect's mother, Mrs. H. E. Selby. The wedding is to take place here September 6. Mrs. Herman James Steinhoff, above right, was Miss Dorothy Harlan, daughter of Mr. and Mrs. O. P. Harlan of Lubbock, before her marriage to Lieut. Steinhoff last Saturday morning in St. Austin's chapel. The couple is on a wedding trip in New Orleans and will be at home in Austin.

Students To Take Vows

AMARILLO, Aug. 23 (Special) —The marriage of Miss Elizabeth Jane Sears, daughter of Mr. and Mrs. C. D. Sears of 1230 Bonham, and William T. (Bill) McEachern, son of Mrs. Pearle B. McEachern of 1400 W. Nineteenth street, is to take place Sunday afternoon at 6 o'clock at Polk Street Methodist church.

Rev. Jordon Grooms will officiate with a single ring ceremony.

The altar will be decorated with salmon pink gladioli and palms and white candles will burn in a pair of candelabra. Mary Jean Burkhalter, who will light the candles, is to wear a blue marquisette dress with gladioli in her hair and making up her corsage.

To Play Organ Prelude

A prelude of organ selections played by Mrs. R. W. Heiny will include "Traumerei" (Schumann), "I Love You Truly" (Bond) and "Ah, Sweet Mystery of Life" (Herbert). Mr. Heiny will sing "Indian Love Call" (Friml) and "I Love Thee" (Grieg). The traditional wedding marches will be played and during the ceremony the organist will play "Liebestraum" (Liszt).

The bride, given in marriage by her father, will wear a white lace dress fashioned with sweetheart neckline, fitted long bodice and train. Her veil will be held by an off-the-face headpiece and she will carry a bouquet of Joanna Hill roses and stephanotis. For "something old" she will wear her mother's diamond necklace and "something borrowed" will be a point lace handkerchief that belongs to an aunt.

Miss Frances Burkhalter, maid of honor, will wear an aquamarine marquisette and lace dress with matching poke bonnet and will carry a bouquet of salmon pink gladioli. The bridesmaids, Misses Sara McEachern and Elaine Kelleam, will wear pink marquisette and lace frocks with matching poke bonnets and will carry bouquets of gladioli.

Ushers Are From Lubbock

Oscar Schilling will attend Mr. McEachern as best man and J. B. Linn and Jack York of Lubbock will seat the guests.

The bride's mother will wear a navy blue sheer dress with navy accessories and a corsage of gardenias. The mother of the bridegroom will wear navy sheer with navy and white aaccessories and a gardenia corsage.

A reception will be given at the home of the bride's parents following the ceremony. The bride's table, which will be covered with a madeira cloth will be centered with a three-tiered wed-

(Turn to Page 3, Column 5, Please)

Education For Americanism Is Theme Of Study Chosen By Athenaeum Club For Season; Will Embrace Variety Of Pertinent Subjects

BY GRACE HALSELL
Of The Woman's Staff

WITH the belief that "Democracy is the most perfect system of government designed by man — and the most difficult," the Athenaeum club, member of the seventh district, Texas Federation of Women's clubs, will devote a year's study to "Education for Americanism." Plans for the course have been outlined and yearbooks will be issued the first of September.

The Athenaeum club, which was organized in 1923 and federated that same year, has its meetings the second and fourth Tuesdays of each month at 3 o'clock at Hotel Lubbock. Club colors are green and pink and the carnation is the club flower.

Mrs. W. B. Irvin is president of the organization; Mrs. E. L. Mader is vice president; Mrs. Irving L. Jones is recording secretary and Mrs. T. C. Delaney is corresponding secretary. Treasurer is Mrs. Earl T. Duke; auditor, Mrs. C. C. Galbraith; parliamentarian, Mrs. M. L. Shepherd; press reporter, Mrs. T. A. Rhodes; historian, Mrs. George Young; federation counsellor, Mrs. F. A. Kleinschmidt and critic, Mrs. W. L. Hester.

Federation Officers

Mrs. R. A. Tynes is vice president of the City Federation officers, Mrs. Kleinschmidt is vice president of County Federation officers and Mrs. Irvin is chairman of the educational department of district federation officers.

Composing the year book committee are Mesdames A. W. Young, L. B. Cooper and E. L. Mader. Those on the entertainment committee are Mesdames John Spikes, D. A. Childers and George R. Evans.

Mesdames Delaney, L. P. Gilbert and B. E. Needles make up the finance committee and Mrs. Tynes is in charge of club relations. A project committee is composed of Mesdames D. M. Davis, J. F. Hankins and E. L. Robertson. Those on the telephone committee are Mesdames Eula Draper and S. T. Hodges.

All-American Luncheon

Opening the year's program will be an "All American Luncheon" on September 23 with Mrs. Irvin as hostess. A guest

(Turn to Page 3, Column 6, Please)

Party Courtesy To Bride-Elect

Misses Mary Menon Stangel and Julia Jones were hostesses at a bridge party Friday afternoon from 3 to 6 o'clock in the F. R. Friend home to honor Miss Winnie Jo Hooser of Plainview, bride-elect of Dexy Sudduth. The honoree was presented with a gift and high and cut bridge prizes.

Guests were Misses Mildred Mitchell, Dorothy Allen, Milton Joyce, Ruth Loflin, Margaret Cammack, Louise Chappelle, Patti Crawford, Mary Margaret Knisley, Mildred Kuykendall, Betty O'Mara, Jean Renner, Dorothy Dell Scheihagen, Jane Temple, Dora Woods, Dorothy Rylander, Mary Ann Stephenson, Bobbie and Hopie Read, Marjorie Hills, Mary Burk Yeager, Mona Pierce and Mrs. Lorena Rushing and Mrs. W. C. Holden.

Out-of-town guests were Misses Doris Peavy of Slaton, Nettie Belle Batton and Marguerite Brannen of Littlefield, Eleanor Gillham, Evelyn Jones, Earlene Jones, Joy Sawyer, Ruby Nell Smith, Queenelle Sawyer, Vondee Lewis, Jean Brownfield and Mrs. Jimmie German, all of Brownfield; Misses Beth Hampton, Jane Cook, Minnie Margaret Hughes, Joyce Swan, Janice Thompson, Till Blassingame and Mesdames Jim Norman, J. W. Wester and Jeanne Hansen of Plainview.

Miss Hooser has been honored with a series of socials in Plainview. Mesdames Wester and Norman were hostesses with a crystal and pottery shower Wednesday from 5 to 7 o'clock. The table was centered with a miniature bride on a flowered coach holding a flower umbrella. The punch bowl was on a mirror reflector and a color scheme of pink and blue was carried out.

Miss Margaret Blassingame entertained with a bridge party Thursday in Plainview to honor Miss Hooser.

Dr. and Mrs. J. T. Krueger and daughter, Carol, are vacationing at the Broadmoor hotel in Colorado Springs.

Mrs. Green Is Party Honoree

Mrs. W. L. Green, who was Miss Pauline Crisp before her marriage, was named honoree Friday evening when Mesdames Royal Furgeson and Paul Hardwick and Miss Alice Famuliner entertained in the Hardwick home at 2307 Eighteenth street.

She was presented with a gift shower.

The refreshment table was covered with starched blue marquisette and centered with asters. Pastel candles burned in crystal holders.

Mrs. Furgeson presided at the punch bowl, assisted by Miss Famuliner.

The list of guests included Mesdames H. D. Stanley, Aetna Christie, H. T. Wilkins, Harold Munn, Ray Red, Harvey Turnbough, Glen Burson, Harold Easley, Leroy Cates, J. P. Elms, Emma Dunwoody, Misses Ruth and Dorothy Ford.

Gifts were sent by Joan Turnbough and Mesdames Olin Horn, Wayne Langston and Bob Crawford.

Homemakers Class Has Novel Party

Members of the Homemakers class of the First Baptist church entertained their husbands with a party Friday night in the home of Mr. and Mrs. Bill Davis, 2221 Twenty-fifth street.

Sandwiches, pies, cakes and cookies were sold from booths. Games were played and "white elephants" were auctioned. Twenty-seven attended.

SOCIAL GIVEN

The Baptist young people of Wolfforth were entertained with a social in the home of Mrs. Fred Worsham recently. Mesdames Dell Boone and Worsham were hostesses.

Games were played and refreshments of cake and ice cream were served.

Miss Selby Is To Wed

To announce the engagement and approaching marriage of Miss Patricia Selby, bride-elect of James Vickers, Mrs. H. E. Selby entertained with a coffee Saturday morning from 9:30 to 11 o'clock at the F. R. Friend home, 2005 Broadway.

Mrs. James L. Quicksall greeted guests at the door and presented them to a receiving line composed of Mrs. Selby, mother of the bride-elect; Miss Selby; Mrs. J. E. Vickers, mother of the bridegroom-elect; Miss Helen Jarrott and Miss Reuby Tom Rhodes.

Centerpiece for the table was a white airplane on a triangle field of marigold and golden glow. On one wing was written in gold, "Pat" and on the other, "Jimmy" and "September 6" was written on the tail of the plane.

Pouring coffee were Mesdames John Jarrott and R. T. Rhodes. Mrs. Abner Roberts and Mrs. M. H. Kinman presided at the guest book which was placed on a table with a white vase of marigold. The place marker was of white satin with a gardenia at the top.

Give Musical Program

Music selections were played by Misses Eleanor Mitchell, Ann Birkman and Marie Hunsucker of Matador. Assisting in the house party were Misses Willouise Humphries, Joyce Watson, Mary Jarrott, Montie Jo Brashear, Rachel Ann Patterson of Amarillo and Carlyne York, Mesdames M. G. Abernathy and B. Kinman.

A fruit plate with coffee and cinnamon rolls was served. Approximately 100 guests called.

The honoree wore a corsage of talisman roses and others in the house party wore corsages of marigold and oak leaves. Plate favors were of the same flowers.

Out-of-town guests were Mrs. Frank Atkinson of Amarillo, Miss Kara Marie Hunsucker of Matador, Miss Kathleen Webb of Lamesa, Miss Reginia Lee of Spur, Miss Jane Hill of Dallas and Miss Ann Moore of Albany.

Miss Turner Honored At Bridge-Breakfast

Miss Elisabeth Turner of Wichita Falls was complimented when Misses Idell and Ina Bacon entertained with a bridge-breakfast at their home, 2223 Ninth street, Friday.

Other guests were Mesdames Sam Weaver, jr., L. H. Creasy, Kenneth Rollo, Curtis Reynolds, James Halsey, Vernon Thompson, Orville Stewart, Will Ed Watson, Jim Potts of Elgin, Dorn Moore of Ardmore, Okla., Misses Mary Jarrott, Joyce Craven, Rosemary Duff, Jane Woodruff, Marianne Davis and Helen Brown.

Gala Parties Are Planned For Girls

OPENING activity for two weeks of socials honoring rushees of the Sub-Deb and Las Cresas clubs will be an open house tea this afternoon at 5 o'clock with Sub-Deb members as hostesses in the F. R. Friend home, 2005 Broadway. Activities will be concluded on September 5.

On Tuesday, Sub-Debs will entertain with a slacks breakfast at 9 o'clock at the College Avenue drug store and at 7:30 Tuesday night Miss Dorothy Sue Wolaver will be hostess with a bean supper at her home, 2403 Twenty-eighth street.

Activities for Thursday will include a coke party with Misses Earlaine Moore and Sally Temple as hostesses at the recreation center at Mackenzie State park. A weiner roast, which will conclude social events for the day, will be given by Misses Jayne Glaze, Nancy Neill and Dana Faye Ware at 3320 Twenty-first street.

Garden Party Saturday

Rushees will be honored Saturday night by Misses Joan Norton and Mary Virginia Mullins, who will entertain with a formal garden party at Miss Norton's home at 3320 Twenty-first street.

Continuing on Monday, a game party will be held at Cunnyngham's on College avenue. Hostesses will be Misses Mary Lou Scoggin, Rosalyn Watson, Jean Stovall and Elizabeth Lee. At 6 o'clock a progressive dinner will start with cocktails at the home of Miss Jane Hiatt, 1705 Sixteenth street, with Miss La Rue Hall assisting.

A salad course will be served at the home of Miss Barbara Hale, and Misses June Haney, Mary Helen Pirtle and Grace Marian Griffith will be hostesses with the main course, Misses Zanalee Jones and Louise Burrus will be hostesses with the dessert course and coffee will be served in the home of Miss Gloria Sciance.

Two Parties Wednesday

A bridge breakfast will be given on Wednesday morning by Misses Frances Page, Virginia Pitts and Marianna Nail. Miss Margie Glimp will entertain members and rushees on Wednesday night at 7:30 o'clock with a kid party at her home, 2522 Twenty-fourth street.

Rushees include Misses Marion Benson, Betty Bowman, Dorothy Brown, Jerry Brown, Marilyn Claiborne, Marie Louise Clause, Norma Croxton, Mary Beth Dupree, Frances Groce, Opal Hall, Jean Carolyn Harvey, Betty Mae Haynes, Mary Conley Jones, Maurine Leftwich, Robin Leftwich, Jean Martin, Temple Joyce McAfee, Betty Jane Newstrom, Ruth Parkhill, Olive Rankin, Wanda Jo Ribble, Louise Wilson, Joann Wolaver, Alice Ann Woolsey and Francine Young.

Members who will participate in rush week activities are Mrs. Quinten Stewart and Misses Lou Dean Blair, Billie Bohannon, Verda Beth Edler, Ann Nell Boyd, Rebecca Bradshaw, Hale, Hall, Haney, Hiatt, Ellengene Henley, Lee, Marjorie Martin, Moore, Mullins, Nail, Neill, Norton, Page, Pirtle, Pitts, Roberts, Sciance, Scoggin, Stovall, Temple, Virginia Lee Traylor, Ware, Watson, Wolaver, Burrus, York, Ruth Ralls, Ruth Anthony, Jean Chappelle, Nelson and Jones.

ON VISIT

Mrs. Wilda Stewart has gone to Shreveport, La., where she will be the guest of Mrs. Grady Jarratt, 561 Forest avenue, returnihg to Lubbock about November 1.

Mrs. Lena Flannagan and Mrs. Alma Dillard have returned from visiting in California.

Bride-Elect Is Party Honoree

A bride-elect of August 30, Miss Zena Belle Roberts of Muleshoe, was honored Saturday evening at a party and shower given in the home of Mrs. E. B. Green, jr., 2313 Twenty-eighth street. Mrs. E. B. Green, sr., and Mrs. J. Lawrence Green were assistant hostesses.

A gold and white color scheme was featured in appointments. White scrolls lettered in gold gave the names of the betrothed couple, "Zena Belle Roberts and R. Kendrick Green" and their wedding date. The announcements were held by wedding bands and were plate favors.

The gifts were presented in a traveling bag on which was the address of Evergreen Valley where the couple plan to spend their honeymoon.

Guests were Mesdames I. L. Hunt, James H. Kimmel, Earl Hunt, Glen Hunt, Carl Hunt, J. H. Kimmel, jr., J. B. Morrisset, W. C. Boyd, E. J. Ohnemus, J. Robert Cooper, L. L. Kuykendall, W. N. Green, D. K. Roberts of Farwell, mother of the honoree, J. O. Green, D. J. Lowry, Homer Hunt, Ewell Hunt, Boy and A. B. Hunt of Littlefield, Fiser Middleton, R. W. Walker, L. H. Simpson, Misses Ethel Murray and Henrie Lowry.

Mrs. Don Reynolds Is Party Honoree

As a courtesy to Mrs. Don Reynolds, the former Miss Frances Williams, Misses Helen Faye Campbell and Nora Lee Tew and Mrs. Alfred Holton entertained with a shower Friday afternoon at 2421 Twenty-seventh street.

Decorations were garden flowers which were placed throughout the house. A color scheme of pink and white was carried out.

Guests were Mesdames Jack Trammel, W. S. Pool, P. B. Williams, Bonner Cummings, John Williams, Jack Campbell, Gladys Jones, Spence Hufstedler, Alfred Rushing and Paul Smith.

Misses Emma Ross Garrett, Sibyl Clay, Saleta Ray Burns, Cora Lee Reed, Ruth Jacobs, Georgia Knight, Erma Dene Hefner, Ruth Austin, Thelma McEachern, Annie Belle Kinard, Gladys Noah, Nelly Jo Rampsy, Jerry Sharbutt and Maida Dean.

Farwell Visitors Are In Green Residence

Mr. and Mrs. J. O. Green, 2409 Twenty-first street, have as their house guests this week-end Mr. and Mrs. D. K. Roberts and daughter, Miss Zena Belle Roberts of Farwell, and their son R. Kendrick Green. Miss Roberts and Mr. Green are to be married in Farwell August 30.

Woman's Angle

(Continued From Page One)

trend for the dirndl; for fresh flowers in the hair; for colored hair bows and for pigtails. She started the fad for beanies; for cowboy boots on the campus and for sportswear; for high socks and for ankle socks; for corduroy for evening and for all kinds of original and amusing gadget jewelry . . . No ankle should be over 8 inches around, Ann Delafield, director of a New York beauty school, says. She explains: A perfect 34 girl, 5 feet 5 inches tall, has legs like these: Thigh, 20 1-2 inches; knee, 13 1-2 inches; calf, 12 1-2 inches; ankle, 7 1-2 inches . . . A perfect 36 who is 5 feet 7 inches tall can add either a half or whole inch to thigh, knee and calf measurements, but should have only an 8-inch ankle.

Sportswear Department Forces Jo Ann Shop To Discard Shoes

Mr. Silverman of the Jo Ann Shop stated yesterday that due to the popular demand for more and more Sportswear his store had been forced to use the space formerly occupied by the Shoe Department for additional Sportswear.

The popular Woman's specialty shop is featuring the "Hobbies" line of relax clothes.

Space formerly occupied by the Shoe Department has been remodeled and re-fixtured with attractive booths for ever increasing lines of this Fall's Sportswear, Slack Suits, Skirts, Sweaters, Blouses . . . everything a college girl or lady athlete needs for her wardrobe.

S & H Green Stamps are given with all purchases.

Visit the Jo Ann Shop tomorrow where you will find beautiful clothes that lok like they cost more but look like they cost more! 909 Broadway. Adv.

Dorothy Harlan Is Bride In Austin

Picture On Page 1

In a double ring ceremony read Saturday in Austin at St. Austin's chapel, Miss Dorothy Harlan, daughter of Mr. and Mrs. O. P. Harlan of 2522 Twenty-first street, became the bride of Lieut. Herman James Steinhoff of Williamstown, Mass., and San Antonio. Rev. John Overend performed the rites.

The altar and tabernacle were decorated with a background of fern and tall vases of white gladioli and asters. The altar, banked with palms, was framed with candelabra holding tall white tapers and pedestal baskets containing white gladioli and asters.

Miss Leona Caldwell played an organ prelude and the traditional marches and accompanied Miss Maude Cuenod of Austin who sang Schubert's "Ave Maria."

Sister Is Attendant

Mrs. Frank Patterson, jr., sister of the bride, was matron of honor and Miss Louise Neal was maid of honor. They wore gowns of marquisette made on identical lines, carried semi-colonial bouquets of rubrum lilies and wore pearls, gifts from the bride.

Lieut. Leonard W. Tobin of San Antonio was best man and ushers were Lieuts. Arthur D. Thomas and Linn E. Wild of San Antonio.

The bride, who entered on the arm of the bridegroom, wore a gown of powder blue marquisette over ivory taffeta, made with a long fitted bodice, leg o' mutton sleeves and sweetheart neckline. The double skirt ended in a train. Her only jewelry was a string of pearls, gift of the bridegroom. She carried a bouquet of album lilies with a cascade of white roses.

Honored At Breakfast

A wedding breakfast was given after the rites by Mrs. Patterson for the wedding party and close friends. Out-of-town guests included the bride's parents and her brother, O. P. Harlan, jr.

After a two weeks' trip the couple will be at home in Austin. The bride was graduated from Stamford High school and studied violin in Hardin-Simmons university at Abilene.

Lieut. Steinhoff, son of the late Mr. and Mrs. J. H. Steinhoff, is a graduate of Randolph and Brooks Fields in San Antonio and received his commission in the United States Army Air corps.

IN CARLSBAD

Several members of St. John's Young Peoples Fellowship and their sponsor, Mrs. Emmett Kerr, are in Carlsbad, N. M., this week-end. In the group are Verna Westbrook, Betty Boren, Charles Poole, Henry Westbrook and Tommy Thomas.

They left Saturday morning, planned to attend the rodeo that afternoon and to go through Carlsbad cavern this morning, returning to Lubbock tonight.

TEACHES CLASS

Mrs. W. H. Trice of the First Baptist church taught a lesson at the Friday Afternoon Bible class which met with Mrs. H. W. Hollyfield, 1501 Avenue B.

Those attending were Mesdames Z. C. Adams, J. G. Hufstedler, H. D. Keith, R. Q. Kinney, M. E. Hollingsworth, J. L. Hinsley, H. W. Hollyfield, C. C. Wooten, Miss Christine Hollyfield and Mrs. H. B. Keith of Portales, N. M.

A meter is approximately 39.37 inches.

Patsy Ann Painter Is Honored On Birthday

Mrs. Raymond Painter entertained with a party for her daughter, Patsy Ann, on her third birthday Friday at their home, 3501 Twenty-third street.

Tables in the backyard were laid with colored cloths and balloons were tied to the chairs. Animal candy cups were place cards and balloons and snappers were favors.

Pictures were taken of the group and refreshments of ice cream, cake and punch was served to Eleanor Cotton, Pamela Nugent, Scotty Woodfin, Gerald Casey, Karen Sue Sanders, Mike Prosser, Diana Honey, Billy Kelly and Marilyn and Martha Ann Williams of Waco.

Mesdames Charles Cotton, John Nugent, Aubrey Woodfin, Cecil Casey, Earl Prosser, Floyd Honey, W. B. Kelly and Mr. and Mrs. Gordon Sanders and Mr. and Mrs. Clyde Williams of Waco. Those sending gifts were Mesdames J. W. Painter, Pauline Owens and Baxter Honey.

Sisters Have Reunion After Half A Century

Mrs. Estell Averett of 1611 Eighth street, is visiting with relatives in Monroe, La., and is expected to return to her home next week.

Mr. and Mrs. H. O. Brownlee of Monroe kept open house recently to honor his mother and Mrs. Averett's sister, Mrs. Lizzie Brownlee who is convalescing from an illness. Five sisters were present for the first time in 49 years. They were Mrs. A. L. Mayes of Santa Anna, Calif., Mrs. J. L. Armor of Yoakum, Mrs. Averett of Lubbock, Mrs. T. M. Hammonds of Calhoun and Mrs. Brownlee of Monroe.

Mr. and Mrs. Doyle Coe and daughter, Carolyn, of Goose Creek, are visiting Mrs. Coe's parents, Mr. and Mrs. W. G. Murray of 2419 Nineteenth street. Mr. Coe is coach of the Goose Creek Junior college.

CLUB OFFICERS—Sub-Debs will open rush week this afternoon and much of the responsibility of planning socials has fallen on the club officers pictured above. Reading from left to right, on the back row are Jane Hiatt, secretary; Margie Glimp, treasurer; June Haney, parliamentarian; Rosalyn Watson, chairman of pledge committee; Ann Nell Boyd, the other parliamentarian; Front row, Carlyne York, first vice president; Dorothy Sue Wolaver, reporter; Mary Lou Scoggin, president and Elizabeth Lee, second vice president.

Minotaur Club Plans Rush Week Filled With Stag And Date Entertainments

Thirty-nine rushees of the Minotaur club will be honored this week with one or two social events given daily.

Monday morning at 6:30 o'clock a breakfast will be held at the home of Charles Craig, 2306 Eighteenth street. Hosts will be Messrs. Craig Riley Carlton, Jimmy Landers and Cullen Chapmen. A sports dance will be given Monday night at the Meadowbrook Club house with Messrs. A. L. Hawkins, Lee Stevens, Wright Stubbs, Keeton Brazille and Dwight Biggs entertaining members and rushees. Dancing will be from 8 to 12 o'clock.

Hosts for a ranch style supper at 8 o'clock Tuesday night will be Messrs. Billy Bob Buster, Bill Kennedy and Jo Edwin Baldridge. Buffalo Lakes boat house will be the scene of the social.

Smoker On Wednesday

Wednesday night at 8 o'clock a smoker will be held at the Hilton hotel and Thursday night at 8 o'clock a barbecue will be given at the home of Bill Kingsbery, 3517 Twentieth street. Hosts will be Messrs. Teddy Waldrip, Kingsbery, Stubbs, Carey May and Biggs.

Beginning at the home of Pete Waller, 1302 Thirty-third street, members and rushees will attend a scavenger hunt Friday night at 8 o'clock. Entertaining will be Messrs. Waller, Lyonel Lindsey and Waldrip.

Messrs. J. C. Powell, Buster and Lafayette McKay will be hosts with a smoker at 11:30 o'clock Saturday night at the Hilton hotel.

Sunday morning at 6:30 o'clock sunrise services will be held at Mackenzie State park with parents attending as special guests. A guest speaker will appear on the morning program.

Banquet Planned Sunday

Sunday afternoon at 2 o'clock in the Hilton hotel members will attend the regular club meeting and a semi-formal banquet for members, alumni and pledges will be given Sunday night at 7:30 o'clock at the Hilton hotel.

Club rushees are Messrs. Bates Witt, David Glassman, John McLarty, Johnny O'Neal, John Reeves, Robert Barrier, Jack Cooper, David Coursey, Gene Gray, Bob Hassell, Ben T. Wells, Kenneth Berry, Floyd Crume, Ellison Hitt, Hooper Stiles, Billy Wright, Ezelle Wallace, Joe David Sides, Noah Levens, Thomas Hudson, Lamarr Jackson, Fred Rogers, Don Landers, George Bean, R. B. Stevens, Wendell Morrisset, Jack Reynolds, Robert Williams, Ted Forsythe, Bobby Smith, James Kline, Pat Garett, Elmer Grimstead, Don Hall, J. T. Putman, T. C. Crawford, Monte Moore, Billy Simmons and Harvey Griffith.

NEW PRESIDENT — Miss Anita Seay was chosen president of the Ingleside Sorosis club to fill the vacancy left by Miss Melba Riek who moved to Arkansas. The club has planned a series of socials for the fall.

Joyce Swan Is To Be Sunday Bride

PLAINVIEW, Aug. 23 (Special)—At high noon Sunday Miss Joyce Swan, daughter of Mr. and Mrs. J. A. Swan of Plainview and Bill Ed Whitfill, son of Mr. and Mrs. Ed Whitfill of Lockney, will be united in marriage at the First Baptist church. Rev. L. B. Reavis will officiate at the single ring ceremony.

Immediately after the church benediction, Hugh English will play "Clare de Lune" (Debussy) and accompany Miss Eloise Evans at the organ as she sings "I Love You Truly" (Jacobs-Bond). The wedding recessional will be the Bridal Chorus from Wagner's "Lohengrin." During the ceremony Mr. English will play "Indian Love Call" (Friml).

In Brown And Blue

The bride's chosen colors, Arabian brown and RAF blue, will be carried out in Miss Swan's costume of brown and her attendants' costumes in blue. The bride will wear a brown velveteen suit with moonstone buttons rimmed with rhinestones. Her accessories will be brown. A single yellow orchid corsage, centered with blue delphiniums, and an "old" blue handkerchief belonging to Mrs. T. R. Bowles, will complete her costume.

Miss Joan Thatcher of Dallas will be the maid of honor and Miss Betty Brandon of Plainview and Miss Mary Wylie Grisham of Abilene will be bridesmaids. All three will be dressed in blue velveteen suits made like the bride's costume. They will have brown accessories and wear corsages of yellow gladioli with blue delphinium.

Ben Whitfill of Lockney, brother of the bridegroom, will be best man and Archie Keys and P. C. Anders of Plainview will be ushers. The couple will spend a week in Dallas before returning to Lockney where Mr. Whitfill will assist his father in the ginning business. The bride's traveling costume will be a red and white striped seersucker suit with white pique hat and blouse and white accessories.

Following the ceremony Mr. and Mrs. Swam will entertain with a dinner at the Hilton hotel. The tables will be arranged in a U-shape with the bride and bridegroom seated at the head. Dinner guests will include Mr. and Mrs. B. T. Formby and daughter, Betty, of Lubbock.

Miss Swan finished Wayland college in Plainview and attended Texas Technological college where she was a member of the Ko-Shari social club. Mr. Whitfill attended Tech college three years and was a member of Socii, men's social club. Next January the couple plans to go to Dallas where he will enroll in Baylor Medical college.

PLAN LUNCHEON

Members of the Euzelian class of the First Baptist church will meet at 1 o'clock at the activities center Thursday for a luncheon.

From Lou To Louella

DEAR LOUELLA: It won't be long now. High school will start in 15 more days and Tech students will start enrolling September 11. There are a few more late summer vacations being planned and then vacation time will all be over but the shouting.

• • •

Here's something Lubbock's newlyweds will thrill over. Mr. and Mrs. Charles Norton, jr., will live here again. Mrs. Norton, the former Marilyn Riggs, is here now and her husband, who has been with an oil company in Houston, will join her shortly.

Engagement news this week includes Betty Mae Moore and Lt. Gordon Shackelford. The date set is Christmas. He is stationed at Fort Sam Houston and the couple will live in San Antonio.

Mr. and Mrs. William D. Green and son, Dickson, and Mr. Green's mother are at home here for awhile. The Greens were recently lost in the Gulf of Mexico when their boat ran out of fuel. Dickson liked the excitement and his only regret was, "I wish we had got out of fuel in the red snapper bed where we had been fishing."

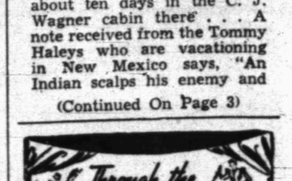

• • •

IF you've been thinking there has been a lot of brides and brides-elect to honor, just remember this story. Mrs. J. W. Kennedy has been busy this month, too. August 7 was her daughter's birthday, August 10 was Mr. Kennedy's mother's birthday, August 15 was her granddaughter's birthday, August 18 was her grandson's birthday, another grandson observed his August 20 and her mother's birthday is next Friday.

• • •

Members of the local chapter of Phi Upsilon Omicron, a national professional honorary society of home economics students, presented last year's president, Alma Rhea Eades, with a club pin recently in appreciation of her work for them . . . Frances Sitter of McLean and Doris Wilson of Amarillo were attractive visitors in the home of Dr. and Mrs. J. M. Jones last week . . . No one has been seen yet who can wear cowboy boots with the casual western air of Henry Lawson, jr. Now, girls, too, will be seen wearing boots off and on the campus . . . It may not be too late to congratulate Ralph Cocanougher 'cause he was 21 yesterday . . . Marguerite Jane Higgins and Fancer Upshaw have decided on September 14 . . . Anita Seay is up on the fashion in costume jewelry. She is in costume jewelry. She's already been seen wearing a "V for victory" pin . . . Olen Farris takes his two small, beautiful daughters for a spin on his motorcycle occasionally . . . The organization of another club at Tech is to be an "association for independent women" and will probably become affiliated with the national organization. From what we have heard about it, it should be a success. Those promoting the idea include Mary Lou Bryant, Martha True, Maurine George, Barbara Frye, Mary Clare Barnett and Darlene Abel . . . Dr. and Mrs. J. M. Lewis and daughter, Jackie, have gone to Cuchara camp in Colorado. They will stay about ten days in the C. J. Wagner cabin there . . . A note received from the Tommy Haleys who are vacationing in New Mexico says, "An Indian scalps his enemy and

(Continued On Page 3)

Oh Captain—dear Captain a lady is in distress. We believe these must have been Fredda's words as she was flying through a storm on her way to Chicago. Secretly, we believe the captain must have been single and on the handsome side as Fredda came home more enthusiastic than ever about flying.

Any way, we have her safely home now and get all thrilled listening to her tell it all. We mean particularly about the new things she bought for the Decorators Studio. There will be some Feika pictures coming in soon which should please "youse guys" who are always hollering for lovely old prints. These are done on velvet backgrounds in mirrowed frames which sound good enough to eat.

Fredda says merchandise was more difficult than ever to get. There were far more buyers than things to buy. They are writing orders but will prorate the merchandise out---old customers being served first. She also says she didn't see as many foreign products as usual but did manage to buy a few lovely old mantle pieces.

Yours,
Nosey.

P. S. We happen to know Fredda's only personal purchase was a pair of bright green shoes (which she practically wore out before we ever had a chance to see them) but any way what chance do we stay at home gals have against competition like this? Please reply.

Dinner Staged Friday Night

Men who were enrolled for the community and camp sanitation course which ended at Texas Technological college Friday and guests attended a dinner Friday night in Mexican Inn.

Certificates will be mailed to the 13 who successfully completed the twelve weeks' course. Two attended the second term only and have not completed the course.

To Get Certificates

Those to receive certificates are F. C. Armstrong and W. G. Blakeney, Fort Worth; D. L. Cass, Post; F. R. Gilliland, Dallas; Robert E. Horsley, J. B. Johnston and Clifford M. Parrish, Lubbock; Robert A. Hunter, Uvalde; C. E. Pierce, Hobbs, N. M.; C. K. Snodgrass, Celina; Ralph L. Stone, Dexter, N. M.; LaVerle K. Stout, Artesia, N. M., and John E. Wheeler, jr., Stockdale.

Guests at the dinner included Dr. J. W. Rollo, city health officer; W. L. Baugh, jr., and Joe A. Stanley, jr., engineers with the state health department, and several members of the Texas Tech faculty.

The course, given under auspices of the engineering division, was administered by a committee comprised of J. H. Murdough, head professor of civil engineering, chairman; K. M. Renner, head professor of dairy manufactures, and Dr. R. A. Studalter, head professor of geology.

Instructors In Course

Instructors were J. Q. Sealey and D. R. Parker of the department of biology, Mart G. Pederson of the department of dairy manufactures, G. W. Parkhill and C. G. Decker of the department of civil engineering, and visiting lecturers. Work consisted of approximately 440 hours of class and laboratory instruction and inspection trips to food establishments, dairies and other food processing plants, waterworks and sewage treatment plants, garbage handling plants and Camp Barkeley. Men were trained for work as food inspectors, sanitary technicians in connection with water and sewage treatment plants, mosquito control and sanitary engineering.

Parrish, June graduate in civil engineering at Tech, was class president and Stout was secretary-treasurer.

Parrish, Stone and Horsley will begin work Sept. 1 with the state health department, Armstrong will return to his positian with the city health department at Fort Worth, two others expect to be placed shortly, and three will continue work in the engineering division of Tech.

Mrs. Hugh McFarland of Columbus, Ga., is in Lubbock visiting friends and relatives while Lieut. McFarland is on maneuvers in Louisiana. He is stationed with the 16th observation squadron in Fort Benning, Ga. Mrs. McFarland is the former Miss Rebecca Butler of Lubbock.

From Lou To Louella

(Continued From Page 2)

a white man skins his friend." . . . Mary Ruth Newgent has returned from a trip to Shreveport . . . Mrs. F. M. Maddox thinks she is living in the past. She can't remember to dial . . . There's a load full of brand new tunes in the nickel boxes or else we're sadly behind times. Typical one is the "Boogie Woogie Piggy" . . . The M. L. Hogans are leaving Monday for a vacation in the mountains . . . Mrs. Virgil Craig and daughter, Patsy Ann, left this week end to join Mr. Craig in Austin where they will live . . . Sarabeth Kimmel, Turner Kimmel and Mary Ellis Maedgen went to Midland the past week to visit Fredda Fay Turner. She returned home with them and is being honored with a series of informal socials here . . . A number of girls will be going to the Canyon Cita Girls camp that opens tomorrow at Ceta Canyon.

• • •

HERE'S a few of the girls and boys planning to go away to school this year: Betty Ann McAfee and Jean Smith will be roommates at Gulf Park in Gulfport, Miss.; A. J. Lair will enroll in Texas A. and M. the second semester; Mary Lou Scoggin will go to Abilene Christian college; for Joyce Halsey and Martha Kuykendall it's back to Christian at Columbia, Mo.; Marjorie May and Dorothy Underwood will attend Stevens college at Columbia; Margaret Wallace has decided on Christian college and Mary Lu Jobson will go to Texas State College for Women, Denton. We've heard that Bernice Keeton will forsake Sullins for Tech and Mary Ellis Maedgen will probably take Tech this year instead of National Park. Bobby Wylie will go to New Mexico Military Institute and Bettye Jo Cardwell will attend Colorado Women's college in Denver.

• • •

What's news from the army?

Maj. Stanley R. Stewart, law instructor at West Point flew down to Lubbock this week end just to see a Lubbock girl friend. We promised not to mention any feminine names.

Joe Ben Wheat who is stationed at Fort Bliss and is now on maneuvers at Lake Charles, La., writes that he wonders if real war is as bad as the "mock" battles they're having.

A picture was shown in Friday's paper of a soldier reading his letter from the girl friend that must have measured five feet in length. Bob Maddox received one from a local correspondent that was at least 15 feet, complete with cut-outs and colored lettering.

Lt.-Commander F. R. Bellomy of the U. S. Coast Guard, Mrs. Bellomy and children have gone to Los Angeles after visiting his sister, Mrs. Walter Ford. He is being sent from the Cleveland district to Honolulu and they will sail on the Matsonia next Thursday. Lt.-Commander Bellomy has wood carving as a hobby and has presented his sister with a number of unusual and attractive gifts such as plates and boxes.

• • •

BEWHISKERED men o' the mountains! They came into town last week after five weeks of a man's life in the mountains near Capitan, N. M., in a geology camp. Teams were composed of William Carter and Forrest Bell, Hugh Braly and Melvin S. Legge, Vernon Bennett and Neal McCaskill, Pete Harmonson and Howell Hamilton, C. A. Renfroe and George Ross, Travis Moore and R. G. Keyes and Robert Schmid and G. D. Lewis.

• • •

Bet you haven't finished a conversation this week without the farewell of

"Bye, now,"

Lou.

VISITS HERE—Miss Maurine Walker of Kerens, above, is visiting her brother, Robert J. Walker, at the Hilton hotel. She is en route to El Paso where she will enroll as a sophomore student at the Texas School of Mines.

Prospects Bright For Record Attendance At Panhandle-South Plains Fair

Reasonable Break In Weather Would Likely Assure Success

With a reasonable break in the weather, attendance records for Panhandle-South Plains fairs will be broken during the exposition Oct. 6-11.

The forecast is one in which Homer D. Grant, president of the fair association, and other officials of the organization joined Saturday.

Prospects Appear Bright

They were in agreement that, all factors considered, the prospects for shattered records at a fair never have appeared so bright as at this time.

The present record for attendance was set in 1935, when 144,273 persons were admitted to the grounds.

Attendance by years, beginning with 1929, follows:

1929	119,406
1930	98,026
1931	78,343
1932	68,708
1933	124,524
1934	141,610
1935	144,273
1936	125,934
1937	137,978
1938	136,789
1939	129,286
1940	126,567

Veteran officials of the fair association recalled that the 1929 attendance was the largest to that time, of any fair here. History of the Panhandle-South Plains fair dates back to 1913, when the first was held in some downtown buildings.

Depression Caused Drop

The drop in attendance during the years immediately following 1929 was attributed to the depression along with financial problems.

In 1933 and 1934, officials of the association were faced both with depression and with drouth. However, they operated on the theory that they had to spend money to make money. So they spent money, and the fair has been a success ever since, both from standpoint of attendance and finances.

Several of the factors which contribute to the present outlook for broken records are obvious, Grant pointed out. The prospects for excellent crops throughout the area, the probability of extensive oil operations in the immediate vicinity of Lubbock and the expectation that construction work on the air corps training school west of the city will be at peak during fair-time are the obvious causes for optimism.

Other Barometers Noted

But there are other significant indicators, the association president said.

One is the report received Saturday from the Beckmann & Gerety carnival, which is to play at the fair this year, that business of the carnival thus far this season has been by far the best in history. It usually is a fact, according to officials of the fair association, that when show business is good in one place, it will be good in another. No one knows just why it happens, but the success of fairs in other cities usually is a good omen for the fair here.

Grant reminded that the carnival attraction at the Panhandle-South Plains fair this year is expected to surpass that of any previous exposition. The Beckmann & Gerety carnival is one of the "big four" in the nation. It has played the state fair in Dallas a number of times.

Big Demand For Space

Other barometers promising well for the approaching exposition, Grant said, have been the demands for space in the fair catalogue and for booths in the Merchant's building. The value of both, he explained, usually are in direct proportion to attendance at the fair.

Deadline for the fair catalogue has been set for next Thursday. Reservations now are being listed at the chamber of commerce for space in the Merchant's building. Exhibitors last year will be given first choice.

Officials of the association recognize, Grant said, that the weather hazard for the 1941 fair is somewhat greater than most of those in the past because this year's exposition is being held a week later than usual. At that season of the year, a difference of a week may mean considerable difference in the weather, especially at night.

He pointed out, however, that there has been no cause for complaint because of fair-time weather in the past. During none of the past several years has the weather been all that could have been desired through the entire week. Rain usually has hurt attendance during at least one night. But on the whole, the weather has been favorable.

VENICE MENACE—Nancy Brinckman, trailing clouds of Mardi Gras grass, is a sample of what will be seen at annual Venice, Calif., festival.

Former Residents Of Eastland County To Picnic Here Today

Cyrus B. Frost of Eastland, a former county judge and J. R. Parmer, of Stephenville, attorney and former Eastland county school teacher, will be the principal out-of-town speakers at a fifth annual reunion of former residents of that county today at Mackenzie State park.

Dr. J. B. Morehead of Meadow is president and Walter A. Anglin of Tahoka, secretary of the association.

Program will begin at 10 o'clock. A basket picnic lunch will be served at noon, each family being asked to bring a well-filled basket. A committee will serve ice water.

Dan Powers, chairman of the local arrangements committee, said a larger crowd than last year, when 500 persons attended, is expected. Most of the day will be spent in short talks by former residents and in reunions.

SOME CUT-UP

GAFFNEY, N. C. (AP)—One of the participants in a cutting scrape here had to have 191 stitches taken to close his wounds.

MUSIC!

To augment the SOUTH PLAINS SCHOOL OF MUSIC Orchestra, opening our Winter Term, September 1, 1941. 2 Cornets or Trumpets, 2 E-flat Saxophones, 1 B-flat Tenor Saxophone, 1 Double Bass, 1 Double Drums, 3 Accordions (Standard Orchestra Size), 1 Piano, 1 Trombone. We play "air" and Public Park Concerts. If you need instruments, we can furnish one at low cost. For enrollment, call at SOUTH PLAINS MUSIC CO., 1214 Broadway. Ask for A. A. Monteabaro, Instructor.

Flashes Of Life

(By The Associated Press)

ALL OUT FOR DEFENSE

Brevard, N. C. — The Millers are an all-out defense family.

J. A., the father, is helping with defense housing on the North Carolina coast. Mrs. Miller plans to join him soon as his secretary.

Fred, the eldest son, is stationed at Maxwell field, Ala.; John is a lieutenant at the submarine base at New London, Conn.; Henry is an aviation cadet at Lou Foote field in Stamford, Tex.

THAT'S FATE FOR YOU

OAKLAND, Calif. — Nelson Adam, 14, fell 35 feet out of a tree and wasn't hurt a bit. But when he started to walk away, a limb fell out of the same tree. It broke his leg.

CONTRARY CAT

PORTLAND, Ore. — Stanley Peterson's cat just doesn't like bells. Everytime the telephone rings the cat walks across the room and bats it to the floor.

LENGTHY PROBLEM

MILWAUKEE — American Legion officials, who are having trouble finding quarters for delegates to the national convention here ran into another problem. Carl Sandell, drum major of the Denver, Colo., band, wrote he would need accommodations. Sandell is 7 feet, 4 inches tall and weighs 240.

Stubbornness Brings Chance On Broadway

DALLAS, Aug. 23 (AP) — Jay Presson's stubborn streak has given her a chance on Broadway.

The 18-year-old San Angelo, Tex., girl, experienced only in school plays, accompanied a friend to chorus tryouts for the Dallas summer opera first night production of "Irene." The manager ordered everyone but singers to move back. Miss Presson can't sing, but she remained in her seat.

"I guess I was just stubborn," she said, after being told to report next day.

The young woman was given the part of Mrs. Marshall, a white haired dowager. So impressive was her performance that Shubert decided to take her to New York next week.

New Record Set For Crude Production

HOUSTON, Aug. 23 (U.P.) — Domestic crude oil production set a new all-time high record for the week ending today, averaging 3,960,600 barrels daily, up 8,200, the Oil Weekly reported.

Daily output for the nation was 20,600 barrels above the U. S. Bureau of Mines estimate of market demand for August and set a record for the second consecutive week, the trade magazine said.

Daily trend: Texas, 1,445,400, off 1,700; California, 634,300, off 21,000; Oklahoma, 424,850, up 6,650; Illinois, 375,550, up 22,050; Louisiana, 323,400, off 5,700; Kansas, 254,500 up 3,800; New Mexico, 114,500, up 4,100; eastern states, 91,800, up 1,200; mountain states, 105,450, off 3,100; Michigan, 42,500, up 1,100; Indiana, 18,200, off 1,200; Arkansas, 73,900, up 400; Mississippi, 48,500, up 1,000; and Nebraska, 6,750, up 600.

Army Tests Engineers' Skill Under Jungle Conditions; Pontoon Bridge Being Built

BY JERRY T. BAULCH
Associated Press Staff Writer

WITH SECOND ARMY IN ARKANSAS, Aug. 23.—The second army tested the skill of its engineers in putting a roadway through some of the densest marsh country in southwest Arkansas on short notice today. The assignment included the task of throwing a major pontoon bridge across the Red river.

Combat conditions were assumed as the task force worked through jungle-like swamps to the banks of the Red and began to forge, link by link, a floating bridge across 738 feet of water, capable of carrying the second army's heaviest equipment. The job was fraught with obstacles from start to finish.

Planned In Secrecy

The bridge was planned in greatest secrecy by seventh corps engineers. To reach the spot, the 70th engineers from Dupont, Del., and the 77th engineers from Fort Custer, Mich., working through the night, had to chop their way through thick underbrush to make way for the giant trucks with their ponton trailors.

From the north bank of the river, 70 metal assault boats jammed with seventh corps infantry were sent out across the broad swift river in the early morning to establish a bridgehead on the south side with the aid of nine dive bombers which coordinated in the movement.

The 110th (Kansas City) engineers of the 35th division were handed the job of building the bridge proper—the first of a series of three to be thrown across the Red in south Arkansas. Other combat engineer regiments of seventh corps—the 108th (Chicago) of the 33rd division and the 102nd (Manhattan) of the 27th—are to have their turns next week.

ALL TANKED UP

ASHEBORO, N. C. (AP)—Asheboro was determined to salvage everything it could from the old water system. Now it has a 450,000-gallon storage house—the old water tanks made over.

SMALL ARMY UNIT

The squad is the smallest war-strength unit in the United States Army, and consists of 12 men commanded by a sergeant or corporal.

There are numerous sea snakes that habitually secure their prey under water.

Juneau, Alaska, has an average of only one sub-zero day a year.

America's "Biggest Hick Town" Will Have Its Own County Fair

BY TOM WOLF
NEA Service Staff Writer

NEW YORK, Aug. 23—For years the seven million cosmopolites who inhabit this steel-faced metropolis have been trying to live down its label: "The Biggest Hick Town in America." Now they're going to try to live up to it. New York is going to have a County Fair—the first since its rural days of the 1890's.

Yes, sir, the city slickers are out to show you dudes of the hinterlands that they can put on a real, old-fashioned country fair—with pigs and pies, cattle and cookies, needlework 'n everything. And, of course, since no country fair would be complete without some death-defying feats and world-renowned aerial sensations, there will be plenty of those, too.

You're going to have to mind your p's and q's when you talk to a New Yorker about livestock after September 10. (Fair dates: September 10-20.) Because Madison Square Garden, where the goings-on are to be held, has limited space for showing, all of the animals exhibited are going to be champions. After the Broadway rube has seen champion Hampshires and Chester Whites, he won't fall for the old gag that "Pigs is pigs."

$5000 In Premiums

"We're going to have the best livestock New York has ever seen," said Dr. H. H. Sheldon, managing director of the American Institute of the City of New York, which is sponsoring the fair. "Breeds have improved tremendously since 1897, when we held our last fair. Today, for example, cows give twice as much milk as they did then. All our entries have come to us through the leading breeders' associations of the country."

Just to give you an idea of the way it's going to be done, more than $5000 in premiums will be awarded in the livestock and poultry exhibits alone. Premiums will go to eight breeds of dairy cattle. Special sections will be devoted to beef cattle, dairy goats, horses, sheep, swine and poultry. "Domestic arts" and "culinary products" have exhibits and prizes all their own.

Facts 'N Figures

To many New Yorkers, this rural display will not be something new. For those skeptics who won't believe that a New Yorker knows a turkey from a Broadway flop or a Rhode Island Red from a New England Communist, here are just a few facts 'n figures:

New Yorkers not only own and operate thousands of farms around the metropolitan area (there are some 12,000 farms within the city's trading area), but they work 456 within the city limits.

Over 10,000 school children, under the auspices of the board of education, annually cultivate many acres of truck gardens on city lots.

The only reason that you don't see chickens and ducks in New York apartments or cattle and swine in Gotham front yards is that the city's sanitation code forbids the keeping of livestock and poultry.

Fair In Crystal Palace

The County Fair in New York has a long history. The first one was held back in 1828, when the American Institute of the City of New York was chartered to hold an annua lfair in the county, among other things.

In the early days these fairs were primarily industrial expositions. At them, Americans first glimpsed many an invention that was to revolutionize their way of life. The telephone, the telegraph, the sewing machine, the safety pin, and condensed milk were among them. Many New York landmarks are closely associated with past fairs. It was during the fair of 1858 that the famed Crystal Palace, in which the exposition was held, burned to the ground.

By the 1890's, American industry had sufficient means of its own for popularizing and publicizing new developments, and so the County Fair went out of existence in 1897. But the American Institute continued its work.

Today, the major part of this work consists of encouraging interest in and facilities for work in science among school children all over the nation. Some 30,000 youngsters the country over are now engaged in the Institute's various junior scientific activities. From these youths, interested in science by working with it, the Institute hopes to increase the scope of understanding of science in the future. It is to raise money to keep this work going that the American Institute has this year revived New York's County Fair.

Ten times as much water will be pumped by a well-constructed windmill in a 10-mile wind as in a five-mile wind.

English soldiers average 4 inches more in height today than they did a century ago.

REGAL ROBE—King Gustaf of Sweden forgets the war whirl for the moment as he suns himself in a bathrobe at a rawlson on the Kattegat.

Kosher Meat Being Forbidden To Jews

WASHINGTON, Aug. 23. (AP)—Dutch Jews are forbidden to eat kosher meat as decreed by their religion, under one of the many anti-Jewish orders promulgated by Nazi authorities in the conquered Netherlands, according to authoritative reports just received in diplomatic quarters here.

To insure compliance with the dietary prohibition, the reports added, the German occupation authorities issued ordinance No. 80 "to prevent tormenting of animals when slaughtered." That ordinance was interpreted to prohibit the Jewish ritual of slaughtering which is required to obtain kosher meat.

German authorities have charged Jews with instigating numerous anti-Nazi activities, and some of the decrees were alleged to have been issued to suppress "Jewish secret organizations" and punish Jews for plots against German rule.

STAMPS DELIVERED

SNYDER, Aug. 23. (Special)—The county agent's office announced today that 415 county producers have been delivered $7,484.50 worth of cotton stamps under the 1941 supplementary cotton program. Local merchants report the stamps are proving exceptionally popular in moving cotton goods and prints in considerable quantities.

HEAVY GATES

Each of the 11 gates of Grand Coulee Dam weighs approximately 1,000,000 pounds, and is 135 feet long, with a curved rim 28 feet high.

Era When $1 Down And $1 A Week Could Buy Most Anything Is Nearing End

Regulations To Start Sept. 1

BY MERRIMAN SMITH
United Press Staff Writer

WASHINGTON, Aug. 23.—The era when $1 down and $1 a week could buy a radio or washing machine neared an end today as the federal reserve board ordered sharp curbs on installment buying beginning Sept. 1.

Approximately $7,000,000,000 is spent annually on installment buying and the new regulations were designed to reduce this sum drastically to conserve materials needed in national defense and prevent an inflationary spiral in consumer goods prices.

Regulations Are Issued

The federal reserve, acting under authority of a presidential executive order, issued regulations covering virtually every type of business which uses installment credit.

After Sept. 1, no credit for purchases of 24 selected articles may be extended for longer than 18 months.

The articles and the required down payments are:

One-third of the purchase price—Automobiles, airplanes, gliders, power-driven boats and their motors, outboard boat motors, motorcycles and motor bicycles.

Household Goods

20 per cent—Mechanical refrigerators, washing machines, household ironers, vacuum cleaners, cooking stoves and ranges of less than seven burners; household heating stoves and space heaters, household electric dishwashers, room-unit air conditioners, sewing machines, radio receivers, phonographs or radio-phonograph combinations and musical instruments made principally of metals.

15 per cent—Household furnaces and their heating units, oil burners, gas conversion burners, stokers, water heaters, water pumps, plumbing and sanitary fixtures for household use, home air conditioning systems and attic ventilating fans.

10 per cent—New household furniture, including ice refrigerators, bed springs, mattresses, pianos, household electric organs.

No Limitation Is Set

Credit extended for less than $1,000 on home repairs, alterations and improvements was limited to a maximum maturity of 18 months, no limitation on the down payment. An 18-month limit also was placed on installment loans of $1,000 or less, effective Oct. 1.

After Jan. 1, 1942, the regulations require that all payments on installment credits must not be less than $5 per month.

The regulations mean that after Sept. 1, a man who wants to purchase a $1,000 automobile must pay $333.33 down and the balance within 18 months. On a $100 radio, the required down payment would be $20, and on a $100 worth of new furniture, the necessary cash on the line would be $10.

The federal reserve board included a long list of exceptions to the credit regulations. Among them were loans to students, advances for medical or funeral expenses and agricultural loans with the approval of the Farm Security administrator.

Orderlies Stumped By Army Parlance

FORT RILEY, Kans., Aug. 23 (AP)—In the last minute packing preparations for the trip to the second army maneuvers in Arkansas, the civilian orderlies at the cavalry post were stumped when they read their instructions.

"The officer carries, snapped to the right side of the cantle ring, one bag of grain and one housewife."

A top sergeant, kindlier than most of them, explained to the orderlies that in cavalry parlance a housewife is a kit of buttons, needlers, pins and thread.

BUSY PLANT

MEMPHIS, Tenn. (AP)—Otto F. Wohlrath's flower plant blooms on a 24-hour-a-day shift. By grafting, Wohlrath has succeeded in producing both pink and white night-blooming cereus and a red Christmas cactus on one plant. The cereus bloom at night and the cactus in daytime.

MERRIE OLD ENGLAND—Fun on the chutes typifies the cheery British spirit and right in the center is Charles Coborn, "grand old man of the music halls," who celebrated his 89th birthday at the Hampstead, England, fair.

Texans In Washington

Texan Paul Kilday Leads Winning Fight In House

BY L. T. EASLEY
Associated Press Staff Writer

WASHINGTON, Aug. 23 — An Irishman by the name of Kilday, one of the well-known Kilday family of San Antonio, led a legislative scrap in the House on the Property Seizure bill and came out on top in a big way.

It was the Texas congressman's first chance to take charge of one side of an issue on floor debate. Aligned against him were administration forces, with Chairman May, (D-Ky), of the House Military Affairs committee, in command.

The fight was over the question whether the House should stick by an amendment sponsored by Kilday, which it previously had adopted, and insist that the Senate swallow the revised version of the measure.

The legislation (S 1579) as it passed the Senate provided that the government could take possession of any private property it might need for military or naval purposes, after all other sources of supply were exhausted or found insufficient.

Based On Constitution

The Kilday amendment reiterated a phrase in the constitution that a citizen should have the right to bear and keep firearms. It further expressly would forbid the government from construing any terms of the bill as giving it the right either to require registration of private guns and pistols or the right to requisition such weapons against the will of the owner.

When the oratory subsided and the roll was called the vote was 254 to 51 in favor of sending the bill back to conference of representatives of the House and Senate, with House conferees instructed to stand pat on the Kilday amendment. The conferees meet again when the congressional recess ends.

In Lighter Vein

The debate had its lighter moments, as when Representative Short (R-Mo), advocating recommittal of the bill, got up and said:

"The amendment presented by the gentleman from Texas is on the constitutional right of every citizen to bear and keep firearms.

"I want to talk to Dick Kleberg, Milton West, Ewing Thomason, and Paul Kilday, and the other boys in the Southwest. When there is any question up about taking away the firearms of any citizen, you are treading upon dangerous ground." Kleberg is part owner of the King ranch, West was once a Texas ranger. Thomason hails from El Paso.

In a more serious mood, Short added:

"The method employed by the communists in every country that has been overthrown has been to disarm the populace, take away their firearms with which to defend themselves, in order to overthrow the government."

Succeeded Maverick

Kilday came to congress Jan. 3, 1939, having defeated the former ardent New Dealer and former San Antonio mayor, Maury Maverick.

Born in Uvalde county, March 29, 1900, Kilday is a stocky man with an infectious smile and sparkling dark eyes. He was an attorney in Bexar county before coming to congress.

His wife is pretty, dark-eyed, the former Cecile Newton of San Antonio. They have two daughters, Mary Catherine, 8, and Betty Ann, 6.

• • •

HERE at the time of the fight on the Property Seizure bill was Maverick. As a former member of Congress, he is entitled to be on the House floor when it is in session, and he spent considerable time seated back with his Texas friends listening to their arguments.

"I'm here on no business whatsoever," grinned the fiery Maverick. "For the first time since I started holding public office I am getting a rest. I'm John Doe, private citizen, now and I'm getting acquainted with my family."

There's been some talk that Maverick might be offered a federal post, perhaps in connection with the assignment of defense orders to sub-contractors. The energetic former congressman denied he was looking for a job. He did admit he thought there ought to be a lot more subcontracting.

• • •

Patton Studies Highways

Authority on highways among the Texas congressional delegation is Representative Patton of Crockett, member of the House Roads committee.

"Cousin Nat" was foremost and strongest among those who called upon Congress to override the presidential veto of the huge highway defense bill. The House failed to follow the Senate, however, in the overriding the veto and a revised measure was drafted. The new bill was expected to be finally enacted shortly after the end of the recess.

• • •

FROM down along the Texas coastal regions comes its oldest member, Representative Joseph Jefferson Mansfield, 80, chairman of the house Rivers and Harbors committee.

His primary interests, outside of caring for matters generally which affect his Galveston area district, are waterways. He has just compiled figures showing that prior to his becoming a member of Congress March 4, 1917, Texas had received $40,001,356 for navigation improvements, while since then the state has received allocations for rivers and harbors improvements raising this total to $167,590,142.

Additional funds have been authorized for Texas works, but that sum is money already appropriated.

Senate Pay To Stenos Denied

(By The United Press)

AUSTIN, Aug. 23—Atty. Gen. Gerald C. Mann today ruled the Senate had no legal authority to vote $50 a month to pay for a stenographer and other expenses of each of the 31 senators between sessions of the legislature.

The ruling was made in response to an inquiry from State Comptroller George Sheppard.

Mann pointed out in his opinion that if such an expenditure were valid for senators it would also be legal for each of the 150 representatives to receive an allowance for inter-session expense.

Observe Distinction

Mann said: "The distinction between legislative expenses and personal expense is to be observed.

"It is believed that the matter of legislative and personal expense may be rationalized as follows: Legislative expense is that incident to the workings of the legislature as an actual law-making body, as a whole, as the legislature itself, when in session; through a special committee delegated by the legislature while in session to work on a legislative matter between session; through personnel employed to close matters after adjournment; or through employees maintained between sessions for the care of the legislative halls or for maintenance of a central office or clearing house for legislative matters between sessions. These expenses are for the mutual benefit of all members—for the legislature itself.

On Personal Expense

"Personal expense, on the other hand, is that incurred, or which may be incurred, by a member between sessions working under his own will, in his own discretion and as a matter of individual enterprise—not as a part of the legislature in session or under extraordinary assignment from the body between sessions.

"We recognize the impropriety of declaring, and we do not declare, that a legislator is expected to do nothing between sessions incident to his office. But we are unwilling, in the light of the authorities and of fundamental constitutional principles, and without judicial precedent to the contrary, to declare and hold that legislators have duties, and will perform acts between legislative sessions on their own initiative and within their own discretion, which, as a matter of law, can afford a basis for legislative expense allowances."

PERSONNEL DIRECTOR—Nation's No. 1 personnel placement manager is Lieut. Col. Willard S. Paul, above, whose task is placing the right man in the right job in the Army. During past year his office has handled more than a million draftees and volunteers.

I.O.O.F. Orphans To Visit Here Monday

Twenty-five children from the Corsicana home for orphans, sponsored by Texas Independent Order of Odd Fellows and Rebekahs, will be guests of Lubbock lodges Monday afternoon and night, said Mrs. T. C. Porter, chairman of the Rebekah committee on arrangements.

With J. W. Hampton, manager of the home driving a bus, the children are due in Lubbock from Hereford at 11:30 o'clock Monday morning. At 12:30 o'clock a dinner will be given in the I. O. O. F. hall in the basement of the Myrick building, to the visitors.

During the afternoon the children will be guests at the Lindsey theater and the Barrier Skating rink on East Broadway. At 4:45 o'clock a program of music and readings will be given over KFYO.

Monday night the children will attend a public program in the east ballroom of Lubbock hotel. They will spend the night at homes of lodge members, leaving Tuesday morning for Seymour.

—M. E. Stone is chairman of the I. O. O. F. committee on arrangements. Last visit of children from the home was four years ago. Two years ago a group visited in Littlefield. Ages range from three years to high school age, Mrs. Porter said.

Park Acreage To Be Bought

(By The Associated Press)

AUSTIN, Aug. 23—Machinery for purchase of acreage which the state parks board hopes to convert into Big Bend national park started grinding here today.

Plans for establishment of the park, fifth largest in the nation on completion, were adopted yesterday at an all-day meeting of the board and members of the Big Bend Park association.

The board named its secretary, Frank Quinn, as acting administrator in charge of an office to be established at Alpine for the purpose of purchasing 675,775 acres with a legislative appropriation of $1,500,000.

Office To Be Opened

E. E. Townsend, well known old-time Texas ranger and former sheriff of Brewster county, was appointed assistant administrator and, with Quinn, prepared to open the West Texas office Sept. 1 when the appropriated money, or a portion of it, will become available.

The board already has title to approximately 113,000 acres in the proposed site and will have to purchase almost 400,000 of the additional from the state land office which has title to it as state public school land.

A conference with Attorney General Gerald C. Mann recalled that a suit, filed by Rep. A. H. King of Throckmorton and seeking to enjoin payment of state tax funds for purchase of the land, which will be decided to the federal government, was pending in district court here.

Grand Jury Will Be Impaneled Monday

BROWNFIELD, Aug. 23. (Special)—A grand jury will be impaneled Monday morning in 106th district court of Judge Louis B. Reed in Brownfield.

Rollin McCord of Tahoka, district attorney, said a comparatively heavy docket of investigations was scheduled.

Judge Reed will go to Tahoka Sept. 1 to impanel another grand jury. The Lynn county docket will be light, the district attorney said.

MASS DIPLOMACY

STOCKHOLM, Sweden (AP)—Representing diplomatic interests of 10 countries, Sweden has become a clearing house of international relations.

News Briefs

Harold Simpson of Lamesa is one of the 533 students of the University of Texas who will receive a degree Monday night at the summer commencement. He will receive a degree as bachelor of science in petroleum engineering.

New Deal school at Monroe will open its 1941-42 scholastic term next Monday, Sept. 1, according to A. L. Faubion, superintendent. Walls and floors of the building have been refinished and improvements made to the campus. Seven new teachers are on the faculty. Enrollment is 437.

Allen Harp of Motley county, who served a term in the state legislature as a member from the 121st representative district, has been named a court reporter for the 100th judicial district. Harp is well known in this section. He was a candidate for Congress in the 18th district at the special election last summer.

New officers of the Luther Powers post of the American Legion at Slaton will be installed at a joint ceremony here Monday night. S. N. Gentry is post commander.

W. S. Dickenson of Panhandle, who has attended the summer band session of Texas Technological college, has been elected director of the Pampa Junior High school band. He directed the Panhandle band last year and took advanced work here this summer.

Elbert Lindley of Plainview, an engineer with the Texas-New Mexico Utilities Co. has resigned and will become associated with Stone & Webster in Manila. He has been visiting his former home at Helena, Ark. Lindley had been with the company for two years.

Mrs. R. M. Dalton of San Angelo is a visitor in the 2013 Avenue M residence of her mother, Mrs. M. A. Brock, and a brother, Ralph Brock, county attorney. She is head nurse of the children's hospital at Sanatorium.

SUPERSTITION

The humming bird was sacred to the Aztec god of war and men in some Mexican villages still hang the dead body of a humming bird about their necks to gain the love of a woman.

Tradition says it was an apple, but the Bible does not mention the forbidden fruit eaten in the garden of Eden.

Joint Installation Ceremonies For New Legion Officers To Be Held Monday

Other Posts To Send Delegates

Acceptances have been received from six American Legion posts which have been invited to participate in joint installation ceremonies for new officers at the semi-monthly meeting of the Lubbock Allen Bros. post Monday night at 8 o'clock, according to information given Saturday by J. Louis Murfee, local commander.

The invitation to attend the meeting and participate in the ceremonies has been extended to all posts in the 19th congressional district, Murfee said. They still are invited to be present, regardless whether a formal acceptance has been sent in, the local commander asserted.

Others Are Invited

He added that the invitation also includes members of posts where new officers already have been installed and those which have not yet held elections.

The acceptances received Saturday were from posts in Lockney, Floydada, Post, Littlefield, Lamesa and Slaton.

New officers of Allen Bros. post also are to be installed. They are, with retiring officers:

List Of New Officers

Commander, Paul Hardwick, succeeding Murfee; first vice commander, H. D. Stanley, succeeding E. Kelley Nail; second vice commander, C. A. Hubbard, succeeding C. E. Luce; third vice commander, Dr. E. F. George, succeeding Earl Teague; adjutant, W. E. Inmon, succeeding D. C. Weeks; finance officer, A. R. Osborn, succeeding Ralph Bedford; historian, H. L. Allen, succeeding Dr. C. B. Qualia; sergeant-at-arms, Luce, succeeding Lester B. Park; service officer, Durwood H. Bradley, re-elected; mess officer, Alex McDonald, re-elected; and chaplain, Rev. Jeff D. Welch, re-elected.

George W. Dupree, Lubbock attorney, is to be the principal speaker, and announced that his subject will be, "What America Expects of the American Legion." Jim Willson of Floydada, fifth division commander, will be the installing officer. Chas. Whitacre, district commander, will preside.

J. A. Raley, jr., will conduct ceremonies in connection with the induction of new members into the Patriotic Order of the White Loving Cup, social organization of the district Legion.

Refreshments will be served at the conclusion of the program.

Ground Breaking Is To Be Held Monday

Ground-breaking ceremonies for St. Paul's on the Plains Episcopal church members' new $20,000 Georgian Colonial building at Sixteenth street and Avenue X will be conducted at 9 o'clock Monday morning, Rev. John A. Winslow, rector, announced Saturday.

Among those present at the ceremony will be Rt. Rev. E. Cecil Seaman, D. D., of Amarillo, bishop of the district of Northwest Texas of the Episcopal church. He will take part in the service.

Carl L. Svensen, member of the board of stewards and architect for the structure, J. B. Maxey, contractor, and Charles Byers, construction superintendent, will be present.

Also to take part is Edgar G. Lewis, senior warden of the church.

The church will face Sixteenth street. It will be of red brick, trimmed in white, 44 by 89 feet. It will have a 68-foot spire.

Rev. Ben D. Johnson Will Start Revival

Rev. Ben D. Johnson will open a revival campaign in the Tabernacle Baptist church with services at 11 o'clock this morning, he has announced.

In addition to nightly preaching services a children's Bible school will be conducted at 9:30 o'clock each morning at the church.

The revival will last indefinitely, the pastor said. Services will open at 8 o'clock each night. He has been preaching during the last week in a meeting at Wellington.

The church is located at Fifteenth street and Avenue N.

Revival Is Opened In Church Saturday

With Rev. Louis Pearl of London, Texas, in charge, a revival opened Saturday night in the Congregational Methodist church, Fifth street and Avenue C, to continue through next Sunday.

Meetings will be held each morning at 10:30 o'clock and each night at 8:15 o'clock. The public is invited. Rev. W. V. Owens of Floydada is pastor of the church.

What's Doing in the Churches

Cliff Drive Gospel mission, East Thirteenth street and Cliff drive, Mrs. R. E. Thompson, superintendent and founder.

Mission society, Monday, 4 p. m.; choir, 7:30 p. m.
Midweek service, Wednesday, 8 p. m.; Boy Scouts, Wednesday, 8 p. m.

REV. JACK WELCH

* * *

Rev. Jack Welch To Start Revival Here

Rev. Jack Welch, pastor of Central Baptist church in Texarkana, Texas, today will begin a 10- or 12-day revival sermon series at Central Baptist church, at 1311 Eighteenth street in Lubbock.

Services will be twice daily, at 11 a. m. and 8:15 p. m., said Rev. Jeff D. Welch, pastor.

Rev. Jack Welch formerly was co-pastor of the Lubbock church with Rev. Jeff D. Welch, his twin brother. He has been pastor at Texarkana one year. His family will be in Lubbock with him. "This will make his eighth revival with us," said Rev. Jeff D. Welch.

Church's Staff To Be Enlarged

Lattimore Ewing of First Baptist church at Brownwood has accepted a position as educational director for three church departments of First church here, officials announced Saturday.

Lattimore Ewing

The church is enlarging its staff of workers and L. E. Waite, educational director since November, 1936, will remain as educational director of adult and elementary departments and becomes finance director.

Ewing will be educational director of young people's, intermediate and junior departments and will be Baptist Student union secretary. He is a brother of Dr. M. M. Ewing and his wife is a sister of Mrs. Gordon L. Douglass, both of Lubbock.

Starts Work Sept. 1

He will begin work Sept. 1.

Officials explained membership and organization of the church have necessitated division of responsibilities. Bible school enrollment is 2,500 and there are 3,600 resident members, of whom 651 have joined the church since Sept. 1, 1940.

Ewing spent four years as BSU secretary at First Baptist church in Denton, working among students at North Texas State Teachers college and Texas State College for Women. For the past four years he has worked among students of Howard Payne college.

Presbyterians To Act On Building Loan For New Church Today

Members of the congregation of First Presbyterian church will meet at the close of the morning service today to act on a resolution instructing trustees of the church to complete a loan with the Great Southern Life Insurance Co. for a building program, Dr. J. M. Lewis, D. D., pastor of the church, said Saturday.

Session at a meeting Thursday approved a resolution calling for the meeting. L. C. Ellis is chairman of the board of trustees and H. D. Woods is secretary. Construction of the addition to the church and other work, enlarging capacity of the educational department of the church, is under way.

FIVE FLAGS

During its history, the city of Biloxi, Miss., has flown the flags of France, Spain, England, the Confederacy and the United States.

War Relief Work Of Christian Science Church Is Active

BOSTON, Aug. 23. (Sp.)—One war relief activity which has been little publicized is The Christian Science War Relief committee, with main offices at 237 Huntington Avenue, Boston, Massachusetts. Two thousand nine hundred and ninety-nine cases—half a million garments—valued at $489,368.23, in the nine months of the committee's existence, is their record to date.

The work is an activity of The Mother Church, The First Church of Christ, Scientist, in Boston, and branch Christian Science churches throughout America. Only new garments or those comparable to new are accepted by the Committee. These are furnished almost entirely by members of the Christian Science organization. They are shipped to a central Christian Science committee, in London, where they are allocated to different almoners in England and Scotland. The work is in the hands of members of the Christian Science denomination until the garments are distributed. They are gladly given to any person in need, regardless of denomination.

Keep Depots Supplied

It is the purpose of the committee in the United States to keep its depots in England supplied with an adequate amount of clothing and blankets for emergencies; so, the London committee is becoming known as a storehouse from which emergencies can be met. This was evidenced by the fact that it was crates of clothing from this committee which first reached Coventry; and when the great fire occurred in London, The Christian Science Wartime committee was able to meet an appeal for blankets. Fortunately, many hundreds of blankets had been shipped and had just arrived.

Not only are garments made by sewing units in about thirteen hundred places throughout the United States, but thousands of new garments are purchased and sent, from a War Relief Fund generously contributed by Christian Scientists. Three motor kitchens have been sent and a motor truck or van is maintained in England for quick deliveries.

The main depot for shipping to England is located in Boston, but shipments are also made from Portland, Oregon; New York City, and Los Angeles.

Baptismal Services Will Be Conducted

Baptismal services will be read at 3 o'clock this afternoon in Central Baptist church, at 1311 Eighteenth street, announced the pastor, Rev. Jeff D. Welch.

There are 17 persons to be bap-

Church Notes

Boles Orphan Home singers will present a program of song at Broadway Church of Christ, Broadway at Avenue N, at 8 o'clock Wednesday night, according to announcement by E. Gastised, the pastor said, as outgrowth of a 12-day revival he conducted at the Monroe community Baptist church. In the revival there were 24 conversions and additions to the church.

ton Collins, minister.

Rev. Carl C. Durbin, pastor of First Cumberland Presbyterian church, is conducting a revival meeting at Cumberland Presbyterian church in Floydada.

Roy Fouts of Idalou, is conducting a gospel meeting at the Church of Christ in Anton. Services are being held twice daily and the meeting will continue through next Sunday.

Idalou Church of Christ's current revival will be continued through Aug. 31, it was announced.

CRITIC-FIREMAN

A Boston dramatic critic was barred from the theaters by producers and owners, so he had himself appointed deputy fire commissioner and gained admission on his badge.

One souvenir hunter purloined a 1,000-pound locomotive from the Golden Gate Exposition at San Francisco.

W. L. Wharton, jr., of Plainview is the minister, Forbes McInroe of Idalou song director. Services are being conducted twice daily, at 10:30 a. m. and 8:15 p. m.

Far Eastern Tension Is Reported Much Easier

Fear Of U.S.A. Checks Japan

BY DEWITT MACKENZIE
Avalanche-Journal War Analyst

The Far Eastern tension seems to be a bit easier — not because Japan loves America and Britain the more but because she likes much less the dangerous position she is in, both economically and militarily.

Any easement is, of course, a good easement, though it would be a mistake to conclude that Nippon has had any change of heart about territorial expansion or is impelled by anything else than caution. That is to say, it's a good time for seekers after peace to knock wood.

To Withdraw Funds

An indication of Japan's canniness is before me in the form of a cable stating that Japan Newsweek, the only remaining American-owned periodical, has received a foreign ministry permit to make a normal withdrawal of funds for carrying on the publication. So far as appears, this is the only American firm in Japan thus far exempted from the order freezing the funds of United States citizens.

Now the point of all this is that Japan Newsweek has been suppressed several times — and as recently as last week — for printing anti-Axis editorials. The plain inference must be that the Japanese want this anti-Axis paper to keep publishing, and thus to make their Axis affiliation less pronounced. You might call it a small gesture of appeasement towards Washington.

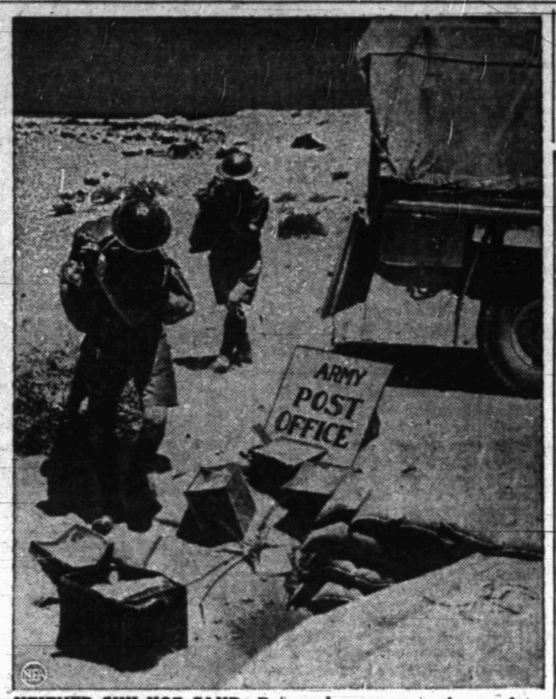

Other Signs Noted

Quite apart from this magazine incident, however, there have been many signs that Nippon was driving with her foot on the brake. The reasons aren't hard to find, and may be set down like this:

1. Fear of involvement in war with the United States and Britain, especially the U. S. A.
2. Growing anxiety over the possibility that if war should come, Russia would stand with Uncle Sam and John Bull. That's no small item, for the Red army in Siberia is said to be powerful, totaling some million well-equipped and highly trained men.
3. The fact that Japan is bleeding herself white economically in pursuing the endless Chinese war. Incidentally, a little item from Chungking in today's news quotes Generalissimo Chiang Kai-Shek as predicting that the conflict with Japan will end next year in China's favor.
4. The economic sanctions imposed by America in the matter of essential supplies, without which the little island empire cannot conduct normal affairs, much less continue to make war.
5. The heavy curtailment of Japan's huge export trade to America, including her all-important silk commerce, thus increasing her already serious economic situation.

FIRST TALKERS

The first creatures to develop tongues were amphibians. As long as animals lived and seized their food in the water, tongues were unnecessary.

NEITHER SUN NOR SAND—Rain and snow are pushovers for the U. S. mailman, but it's sun and sand that doesn't stay these desert couriers in the completion of their appointed rounds as they deliver welcome mail to British troops stationed in remote African posts.

Soldier Given 10 Years For Failure To Obey Orders; No Appeal Said Possible

(By The United Press)

FORT BRAGG, N. C., Aug. 23—Army officers said today there was no appeal from the 10-year prison sentence given John Habinyak, 26, a draftee, for refusing to obey orders, but that President Roosevelt must review the sentence and he is empowered to lighten it.

Habinyak had pleaded guilty to all six charges of insubordination against him, making an appeal impossible under army regulations. Major S. E. Murrell, judge advocate of the post, explaining the severity of the sentence, said Habinyak had "continually refused to obey orders," and that had it not been for the draftee's attitude, his offenses might have been considered minor. The charges were that he spat on the floor of the mess hall and refused an officer's order to clean it up; that he refused commands to clean his mess kit, to clean the floor near his bed, and to pick up pieces of concrete.

A digest of the court-martial proceedings revealed that Habinyak told army officers he had earned $10 a day in civilian life and would not work for $21 a month in the army.

As the arguments over the propriety of the severe sentence reached Congress, army officers refused to let newspapermen here talk to the prisoner. They ordered military police to see that he was not "molested" and refused to say when he would be taken to prison. It was said that he would serve the 10 years and nine months sentence at hard labor in the federal penitentiary at Atlanta.

Habinyak was inducted June 23 in New York City. The digest of his trial said he had been a coal miner.

It was disclosed that he was given a chance to change his plea of guilty and that he declined. He was given a sanity test and found sane.

In Washington, it was explained that a special board of review in the adjutant general's office must pass on the sentence. The board's recommendations then are reviewed by the adjutant general, the secretary of war, and, finally, by the president.

War department officials refused to comment on the case, pending the reviews. Congressmen, however, gave ready opinions. Sen. Sheridan Downey, D., Calif., said: "The length of the sentence sounds shockingly long . . . However, I have always expressed the belief of the need for stern discipline in the army." Rep. Stephen M. Young, D., O., said the sentence appeared to be "a most amazing and outrageous act of injustice and brutality toward a soldier."

Airminded Japanese Beetles Attempt Midwest Invasion

(By NEA Service)

NEW YORK, Aug. 23.—Ever since June, Uncle Sam's experts have been on the alert to prevent an air invasion of the Midwest and South. The potential danger is great, because the airmindedness of the human race has spread to the animal kingdom.

The fact is that the younger set among Japanese beetles, hatched this June, have taken to hitch-hiking aboard airliners bound from LaGuardia field here for the Midwest. So great has the menace become that the U. S. department of Agriculture has had to station an anti-beetle unit of three experts to inspect all outgoing planes and passengers at the airport.

Came From Japan

Popillia japonica, as he is called by his friends (which is why you hear this name so seldom), made his unwelcome arrival in America from Japan after jumping ship at Riverton, N. J., in 1916. Since then this hard-shelled menace to crops has steadily eaten his way about the country until now only the south and midwest are free of the scourge.

The department of agriculture intends that these regions shall remain free of the Japanese beetles. In the past month and a half its agents have nabbed over 200 of the pests aboard outbound planes and passengers.

Japanese beetles are shrewd air travelers. Loathing cloudy weather, they won't travel unless visibility is perfect, ceiling unlimited. They are also particular about night flying, never show up at the airport after sundown or before dawn.

But once they are in the air, they are good travelers. In two experimental flights, 69 beetles were carried between Pittsburgh and New York, at maximum altitude of 9,000 feet. Only seven of them passed out on the flight.

That's why the experts give the planes such a thorough going over ten minutes before flight time. So if you're flying west from New York one day soon and a strange man says: "Pardon, madam," as he fingers the shoulder of your dress, don't slap him. He's just picking up a Japanese beetle who is trying to take Horace Greeley seriously and "go West."

Hollywood On The Loose...

Once Famous People Again Are To Flash Upon Movie Screens

BY PAUL HARRISON
NEA Service Staff Correspondent

HOLLYWOOD, Aug. 23—Behind the screen: A picture called "Mr. Celebrity," soon to be started, deals with a group of once famous

Clara Kimball Young and Francis X. Bushman

people now living in the same boarding house. The stars: Clara Kimball Young and Francis X. Bushman.

At Metro they're filming "Unholy Partners," a New York story of about a quarter century ago. In the cast are Barbara Bedford, Charles Ray, King Baggott, Mahlon Hamilton, E. Mason Hopper and Naomi Childers—six big stars of the same period. Now they're working as bit players.

• • •

"IN Hollywood," says Martin Green, "when you shake hands with someone it's generally to keep him at arm's length."

• • •

But Without Hedy

THE man who financed the original production of "Ecstasy" is peddling the rights for a Hollywood remake. Hedy Lamarr, with or without clothes, won't be in it. She's happy for the first time in a filming of "H. M. Pullum, Esq.," in which she plays a plainly-tailored career girl who ages to a woman of middle years.

• • •

CASTING notes: Mae West has an impressive offer to appear with a circus. . . . Mickey Rooney joins Jack Benny and William Powell as a female impersonator; dons a Latin American dancer's outfit for a song-and-dance number in "Babes on Broadway." . . . Sigrid Gurie has turned down another anti-Nazi film role, fearing reprisals against her family in Oslo.

• • •

Disney Best Bet

AT least two U. S. companies, Columbia and M-G-M, will make several pictures in Buenos Aires studios, with executives and scripts from Hollywood, and actors and technicians hired in Argentina. But I'll bet the best gesture of good-neighborliness will turn out to be Walt Disney's tour of South America with a crew of artists and story men who'll sketch scenes and people and jot ideas for future animated cartoons.

• • •

IN the role of international news commentator in "Woman of the Year," Katy Hepburn will speak a few sentences in seven languages.

• • •

METRO has been having some trouble with the heavy brogue of Barry Fitzgerald. Nobody could understand him, he was told, so he was given a recording set and ordered to practice at home in correcting his diction. Few days later he reported that the recording machine was no good. "I talk into it and play it back," he complained, "but I can't understand anything I've said."

• • •

WHEN Olson and Johnson first appear on the screen in "Hellzapoppin" they'll be seen getting out of a taxicab with two skunks, four pigs, a calf, a quartet each of ducks and geese, a flock of pigeons, two St. Bernard dogs, two Great Danes and a pair of bloodhounds.

A starfish is unable to turn to its right since it has no right or left side.

"Puddin' Head" Palace Feature

A "hello" girl who couldn't say goodbye to her boy friends, Ginger Rogers — Hollywood's top actress — today takes a bow before Lubbock theatergoers in her first film since Academy Award winning "Kitty Foyle."

"Tom, Dick and Harry" is the gay story in which Miss Rogers appears in a starring role with George Murphy, Alan Marshal and Burgess Meredith.

The feature headlines the Lindsey entertainment program and continues through Wednesday.

The sprightly plot gets under way with Ginger as a dreamy, romantic telephone operator who is a "go-getting" salesman.

Meets Rich Socialite

Miss Rogers secretly yearns to meet Alan Marshal, son of the town's wealthiest man, whose swanky car is the envy of every male in the town. On her way home from work one evening, the expensive auto stops for a signal and the young lady boldly steps in. Later she discovers that the young man is not the scion of wealth, but merely a garage mechanic.

The mechanic is Meredith, a carefree, irresponsible but thoroughly charming fellow. After an exciting evening at a penny arcade, Ginger agrees to become engaged to him.

From here on the romantic little telephone girl gets further entangled. She accepts a date with the young socialite, Marshal, and he flies her to Chicago for an evening of nightclubbing. When the excited Ginger is returned to her home, she is engaged again! Crammed from the start to finish with riotous situations and sparkling dialogue, the story builds to a side-splitting climax when Ginger is cornered by her three fiances who demand a showdown.

Laugh Riot At Palace

Directed by Garson Kanin, "Tom, Dick and Harry" features in important supporting roles Joe Cunningham, Jane Seymour, Lenore Lonergan, Vicki Lester and Phil Silvers.

"Puddin' Head," with Judy Canova in the rib-tickling role, is top billing at the Palace today through Tuesday.

Recognized as one of the ace comeliennes of the screen, Miss Canova again turns in a laugh riot with the able help of Francis Lederer, Slim Summerville, Raymond Walburn, Eddie Foy, jr., Astrid Allwyn, Alma Kruger and Hugh O'Connell.

Tower Has Capra Hit

Lederer is ideally cast as the foreign nobleman who is engaged by a wealthy family owning and operating a broadcasting station to buy property next door, owned by none other than Judy. Their avidity to buy property is intensified by the discovery that their million dollar skyscraper building overlaps one foot on Judy's land, and Judy can, if she wills it, force them to tear down the gigantic pile of masonry and move it over twelve inches!

Also spicing the photoplay are several tunes and Summerville's portrayal of Judy's Uncle Lem.

Frank Capra's "Meet John Doe," easily one of the finest films to come out of Hollywood in years is the current attraction at the Tower.

Boasts Appealing Story

Presenting Gary Cooper and Barbara Stanwyck in lead roles, Capra again offers America's movie patrons a production of down-to-earth, human emotions the average citizen can appreciate. With no trick plots nor betrayal of his audience, Capra weaves a story of an average American, Cooper, who is caught in the sweep of a "new order" in the United States. It is the dream of an idealist but the hope of millions.

Cooper is used by a newspaperwoman, Miss Stanwyck, as the average citizen, John Doe, who supposedly has written one of the larger metropolitan dailies that he intends to jump from a building in protest of the present state of society.

But from this protest emerges a dream of neighborly friendship and good will to all. The idea is taken up by a rich, influential yet unscrupulous leader who wants to use it for selfish political purposes. And that clashing of ambitions, both social and political now apparent in the nation, brings about a surprising climax that serves to place the picture among the really great films to reach the screen. Too, there is a romantic trend that helps "make" this another Capra hit. The program continues through Monday.

Texan Features Thriller

At the Texan today, Monday and Tuesday is "The Round Up," a thrilling outdoor romance, topped off by gun-blazing action and spectacle.

Richard Dix shares honors with beautiful Patricia Morison and Preston Foster. Featured players supporting the stars include Betty Brewer, radio's plump Don Wilson, Ruth Donnelly, Jerome Cowan, Douglass Dumbrille and The King's Men.

A double feature program headlines the Cactus offering, number one on the list being "Her First Romance," with Edith Fellows, Wilbur Evans and Jacqueline Wells; the second portion of the program being "The Cowboy and The Blonde" with Mary Beth Hughes, George Montgomery and Alan Mowbray as the stars.

Sen. Lodge Having Time Of His Life

WITH ARMY IN LOUISIANA, Aug. 23 (AP) — Senator Henry Cabot Lodge (R-Mass) is "having the time of my life" as a captain with the second armored division in the Louisiana maneuvers.

"This is great," adde dthe senator.

He rode a tank in the division's 84-mile spearhead which provided the initial advantage for "Blue" eighth corps officers, winners in the third army's first maneuver problem.

As assistant staff operations officer, Captain Lodge helps in the big job of routing and deploying the armored division's monster tanks and troops.

A valuation of $10,000 was placed on a hybrid moth orchid displayed at the New York orchid show.

Powell And Loy Cut Capers In Broadway's 'Love Crazy'

"Ziegfeld Girl" Opens At Lyric

MYRNA LOY and William Powell, the "Mr. and Mrs." team of the screen, are cutting capers again at the Broadway today, with return of their spicy picture, "Love Crazy."

Something new in the art of matrimony is offered in the production. The screen's famous husband and wife find discord in this picture when Myrna becomes jealous of Gail Patrick and wants to divorce Powell.

Stages Queer Antics

He learns that an insane man cannot be divorced, so stages all manner of queer antics to feign insanity. But the trouble is that he fools the alienists who take him seriously and want to bundle him off to an asylum.

Then his frantic efforts to prove that he isn't crazy make him appear all the daffier. Amid divers bughouse complications he finally extricates himself from his web of deceit, after getting caught in an elevator chewing up a phonograph record and even impersonating a woman.

"Love Crazy" certainly offers the best in laugh entertainment for those who missed it on its initial appearance here.

Stars In Abundance

Movieland gives Lyric theater patrons stars in abundance today in showing of "Ziegfeld Girl."

Starring James Stewart, Judy Garland, Hedy Lamarr, Lana Turner and Tony Martin, all the glitter and glamor of movieland is spiced with 21 top screen personalities, 100 lavishly costumed girls and spectacular production numbers.

Tracing the lives of three girls, played by Misses Garland, Turner and Lamarr, the film shows his Ziegfeld's press agent, played by Edward Everett Horton, ever on the lookout for beauty, picks them from obscurity and skyrockets them to fame and fortune in the Follies. Their romance, tragedy and careers, along with others whose lives are spotlighted for millions, make up the plot of the film.

Others In Cast

Adding their talents to the film is a supporting cast including Jackie Cooper, Ian Hunter, Charles Winninger, Philip Dorn, Paul Kelly, Eve Arden, Dan Dailey, jr., Al Shean, Fay Holden, Felix Bressart, Rose Hobart and many others.

Musical hits include "You Stepped Out Of A Dream," "We Must Have Music," "Caribbean Love Song," "Minnie From Trinidad," "I'm Always Chasing Rainbows," "Laugh, I Though I'd Split My Sides," and "Mr. Gallagher And Mr. Shean."

Andy Hardy Up To His Usual Tricks In Feature At Tech

Rogers, Niven Are At Arcadia

ANDY HARDY graduates—with difficulties if not distinction—in the latest of the Hardy family pictures to arrive at the Tech theater, "Andy Hardy's Private Secretary," starting there today.

One of the best of the series, the picture introduces a new girl to team with Andy, Kathryn Grayson. She has a beautiful voice and she sings a couple of arias and one popular number in the production.

Mickey Rooney is seen as Andy, Lewis Stone as Judge Hardy, Fay Holden, Ann Rutherford, Sara Haden and Ian Hunter have other important roles.

Usual Comedy Included

The picture is perfect with all the usual comedy, drama and pathos which go to make a good piece of entertainment. Mickey's history-making man-to-man talks with his father occur several times as Mickey gets into his usual scrapes just as he is about to graduate from high school.

"Bachelor Mother" and "Hudson's Bay" make up the entertainment offering for patrons at the Arcadia today.

"Bachelor Mother" stars Ginger Rogers and David Niven with Charles Coburn, Frank Albertson and E. E. Clive having supporting roles.

Ginger Adopts Baby

The plot finds Ginger adopting a baby, wished on her when she picks up the abandoned infant left on the doorstep. She is called before Coburn and his son, Niven, owners of the store where she works, and threatened with dismissal unless she looks after what they believe to be her baby.

Niven falls in love with Ginger, and though still unconvinced about the baby, starts a whirlwind courtship.

"Hudson's Bay" stars the two-fisted Paul Muni with an excellent supporting cast including Gene Tierney, Laird Cregar, John Sutton, Virginia Field, Nigel Bruce and others.

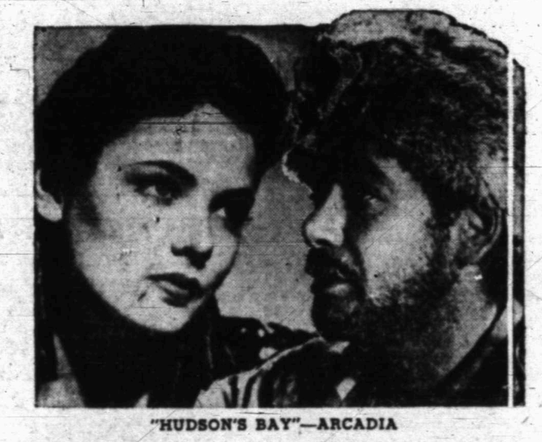

Enlist Support Of King

Muni and Cregar, French trappers, are friendly with the Indians and know of the great possibilities of trading furs at Hudson's Bay. They get Sutton, a banished English nobleman, to finance a trip there. Then their furs are seized by the French governor.

So they go to England to see King Charles II. He is sympathetic and the Hudson's Bay company is formed. Muni, Cregar and Sutton, together with Morton Lowry, return to the region. There Lowry gives brandy to the Indians who go on the warpath, shoots Lowry and on their return to England the king orders them hanged, but Muni convinces him they are indispensable and by a close shave they manage to evade the hangman's noose.

She Makes Rounds Of Bars On Horse

NEW YORK, Aug. 23 (AP) — Nancy Golden insisted today that her horse hadn't had a single drink in any of the bars they visited last night.

Miss Golden, a secretary, hired the horse from a riding stable for $2 an hour. When she failed to return 15 hours later, the owner, fearing an accident, notified police.

Police found Miss Golden leaving a bar, firmly seated on the horse, whose nose she had pointed at another bar. Behind them, she admitted, was a whole series of bars.

None of the bartenders had reported to police that a customer had arrived on horseback. Miss Golden paid her bill and went home.

CORN QUEEN CHOSEN

GRANGER, Aug. 23 (AP) —Pretty and blonde Alice Henrietta Bartosh, 18, will reign as queen over the fourth annual Texas Corn carnival opening here Sept. 24. Miss Bartosh, daughter of Mr. and Mrs. Emil Bartosh of Granger, is a sophomore at Southwestern university in Georgetown.

Winter Cover Crops Are Urged In Texas

COLLEGE STATION, Aug. 22 (AP) — Increased plantings of winter cover crops in the interest of national defense were urged upon Texas farmers by the Texas USDA defense board at a meeting called on the request of Secretary of Agriculture Claude R. Wickard.

In an appeal to farmers to plant more cover crops, both leguminous and non-leguminous, the board yesterday pointed out that prevention of leaching and erosion, a job performed by cover crops, is all the more important during the defense emergency when the nation's farmers are being asked to produce more food for America and for shipment to the warring democracies.

TO ADD DEPARTMENTS

GALVESTON, Aug. 23 (AP) (AP) Military medicine will be one of three new departments at the University of Texas school of medicine in September.

Dr. Jarrett E. Williams, assistant Dean, said the other departments would be dentistry and extension.

Your Screen Test

By ROBBIN COONS

1. She was a sister to Scarlett O'Hara and—more recently and importantly — is leading lady to Robert Montgomery in a supernatural comedy. Her name opens locks. Who is she?

2. This is the movies' sporting season. Can you name two football stars now starring on the screen, and one pugilist?

3. Hollywood mourns: (a) An old-time comedian who died after a long career devoted to Irish characters; (b) a leading man, newly prominent, who won acclaim for strong intellectual portrayals. Who were they?

4. Why did Private Kenneth Wilkinson of the U. S. Army go to Hollywood?

5. Once Lucille Langhanke, Ruby Stevens, S. A. Brough, and Stanley Morner weren't famous. They are now—under what names?

Count 20 points for each question answered. A score of 60 is good, 80 excellent and 90 or above colossal.

"Escape," With Taylor And Shearer, Midway Feature

Vivid Story Is Now On Screen

VIBRATING with character portrayals that do justice to one of the nation's best sellers, "Escape" will be screened at the Midway today through Tuesday with Norma Shearer and Robert Taylor in the romantic and dramatic leads.

Surrounding these two stars is a "name" cast of almost unprecedented brilliance, including Conrad Veidt, star of European films; Nazimova, silent film star; Felix Bressart and Albert Bassermann, who were outstanding figures of the Continental stage; Philip Dorn, young Dutch leading man; Bonita Granville, Edgar Barriar, Elsa Bassermann and Blanche Yurka.

Has European Setting

Miss Shearer, who last scored in "The Women," now appears in the much-coveted role of Countess von Treck, American by birth but European by choice, who finds herself much against her will involved in the desperate attempt of American artist Mark Preysing to rescue his ex-actress mother from a concentration camp where she has been sentenced to execution. As Mark Preysing, Taylor is given a characterization even more dramatic than that of his Capt. Cronin in "Waterloo Bridge."

Nazimova returns to the screen for the first time in 15 years as Emmy Ritter, Preysing's mother. Conrad Veidt portrays the General, lover of the Countess and ultimate menace to Emmy's escape. Bressart is the stubborn but loyal family servant, Fritz; Bassermann the aged and fearful attorney, Henning, who refuses to help Taylor; Dorn is Dr. Ditten, concentration camp physician who makes it possible for Emmy to be carried out in a coffin; Bonita Granville is Ursula, leader among the Countess' schoolgirls; Blanche Yurka portrays the brutal prison nurse.

Mervyn LeRoy, who filmed "Waterloo Bridge," directed "Escape."

Thrilling, tense scenes combined with a plot and dialogue that bristles with emotion and timeliness add to the superb entertainment of the fine picture.

"ESCAPE"—MIDWAY

FURNISHES MUSICAL BACKGROUND—Brook Haven, above, and his trio will furnish the musical background for Texas Stars On Parade, semi-annual show sponsored by Veterans of Foreign Wars here Thursday night. The affair will start at 8:15 o'clock at Senior High school auditorium. Thirty girls will be presented in the selection of "Miss Goddess of the Plains." Jimmie Jefferies, Dallas radio announcer, will act as master of ceremonies.

Rumblings Of Revolt Heard In Europe; U. S. Plans Expansion Of Air Service

Axis Victims Are Restless

Is Revolution Far Behind?

A HEADLINE in The Evening Journal recently read: "Time Not Ripe For Revolt Against Axis." It was based on a story by DeWitt Mackenzie, ace war analyst of the Associated Press and for many years a crack foreign correspondent.

Both doubtless stated a true condition. Certainly there is little to encourage the hope that peoples enslaved by the Axis might rebel successfully at this time.

But if you go back into history as far as you will, you will find that the time almost never has seemed "ripe" for rebellion. The fact that the time was "ripe" usually does not become apparent until after the revolt has succeeded. In the beginning, revolts nearly always appear completely hopeless. That was true when Julius Caesar crossed the Rubicon, when Cromwell led his Roundheads in England, and when the Colonists decided they had enough of taxation without representation. Yet all succeeded.

Even so, the odds against the success of any given revolution are tremendous. Historians say not one in a thousand is successful. If that be true, then the odds against a successful revolt by peoples dominated by the Axis are even more terrifying. Those peoples are being watched too closely by tyrants who are skilled in detecting the first signs of unrest. Surprise almost invariably has been a factor in successful rebellions, and there is no chance of surprising the alert Axis powers at this time.

But if the time to rebel is not yet ripe, the will to rebel does exist. Reports of shots fired and wholesale arrests in Paris, of families being deported into interior places, of executions which certainly have numbered in the hundreds—and probably in the thousands—seem conclusive evidence that there are people willing to take any chance of revolt, no matter how desperate.

So, if the time isn't "ripe" as yet, there are reasons to believe that it may be ripening fast. And we may judge safely from history that the world likely will not realize that the ripening has taken place until after success has been assured.

Nice Work, Gentlemen!

THE City commission is to be congratulated for closing a deal which provides for the speedy drilling of a 5,500-foot oil and gas test on the 886-acre disposal plant tract southeast of the city limits.

We do not pretend to know whether the deal was the best that might have been made. We are entirely content to accept the judgment of the commission that it appears the best of those offered.

The transaction does more than take the steps to ascertain whether there may be added revenue for the city from its land which can be applied on the city's operating expenses.

The test will help to answer the questions in which everyone in this area is interested: Is oil in quantity to be found in Lubbock county? And, if there is, just where is it to be found? In helping to provide the answers to those questions without a penny of cost to the City of Lubbock or resident of it, the City commission is rendering an important civic service to everyone in the city and area.

There can be very little complaint with a City commission when it renders that type of service.

With Our Contemporaries

"Have we sufficient grace to hang on?" asks Willard Jones in the Scurry County Times of Snyder. "The people of the conquered countries in the old world somehow managed to live on in the hope that tomorrow will be better, but, over here, many people seem to think the entire country has gone overboard, and all that remains is to put a few more weights in the old life boat."

* * *

"Industry's defense production job is equal to the task of building five Panama canals a month," Randall Abernathy notes in the Sudan News.

The One Minute Sermon

In God I will praise his word, In God I have put my trust; I will not fear what flesh can do unto me.—Psalm 56:4.

OUR PLEDGE

WE pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

BY JEAN LIGHTFOOT
NEA Staff Correspondent

CAMP FORREST, Tenn., Aug. 23

"Goodbye dear, I'll be back in a year,
'Cause I'm in the army now . . ."

Juke boxes and radios from Fort Myer to Camp McQuaide, from Custer to Claiborne, from Albuquerque to Indiantown Gap and MacArthur to Mitchel Field have been swinging the optimistic lyrics and their corny, unlovely music for months. "Boogie Woogie Bugle Boy" and "I've Been Drafted—Now I'm Drafting You" also give the soldiers a run for their nickelodeon nickels — but "I'll be back in a year" was the favorite.

It isn't any more.

The 33rd Division's parody libels rhyme and scansion: "I'll be back God only knows when."

And at Fort Bragg, N. C., the boys of the Ninth are wailing:

"Goodbye dear, I'll come back with a beard,
If I do come back at all . . ."

* * *

"GENERAL COMPLAINT" TAKES COMMAND

A YEAR ago nobody expected twelve months in khaki to be a short and simple annum, least of all the lads with low draft numbers. And no one — apron-flapping mother, "yes"-voting Congressman, General George C. Marshall himself — expected a million and a half boys to go leaping gleefully about like so many leprechauns over the prospect of spending an extra 18 months under arms.

So they're grousing.

For every khaki-wacky kid from farm, slum or quiet hills who likes the army fine because he met it half-way with callouses and a sidemeat appetite, there are three who'd like to go back home to girl friend, tweed suits, mother's cooking.

Who wouldn't?

But a frequent visitor to any army camp would be hard to convince that the grousing is unhealthy; that it will quake morale, breed uniformed slackers, or dislocate the defense program. The same unscored chorus has risen in every barrack and mess hall in the country, maligning goonish food, 9 o'clock taps, gunboat shoes, one shower a day, and a salary that wouldn't keep a dainty mouse in cheese.

It's not alarming. Just natural. Like a college boy griping about fraternity house food — which he still eats in preference to the less social fare at the dormitory; like a student screaming about the stiffness of exams—which he still passes in preference to a dis-

To Link Brazil And Africa

(The National Whirligig)

WASHINGTON
By Clinton L. Mosher

BEHIND President Roosevelt's statement that the Pan American Airways System is organizing a ferry service to fly lease-lend planes to Africa, is a well defined plan to make it hot for the Axis commercial air lines which now span the South Atlantic. Of equal importance with the decision to hasten plane deliveries to the British command in the Middle East is the program to substitute a regular U. S. air service between South America and Europe for that now operated by the Italians.

The route map Pan American has drawn, but not made public, provides for refueling stops at our defense bases in the Caribbean. From there the ships would be flown to Natal and Pernambuco in Brazil, and then across the South Atlantic to Freetown, in British Sierra Leone, and Bathurst, in British Gambia. Thence passenger carriers would continue on to Lisbon. The U. S. war planes would be flown by pilots recruited by Pan American plus what few could be spared from the regular personnel. The accompanying commercial airliners would be owned and operated by Pan American.

One of the most troublesome factors in this country's attempts to combat Axis penetration of the South American republics has been the Italian transcontinental air line, LATI, which has a landing permit from the Brazilian government. Washington has suggested from time to time that this be cancelled. The Brazilians have taken the position that any and all countries are welcome to use their seaports for air line anchorage.

* * *

PATROL: The British failed in attempts to operate their own ferry system for lack of a commercial service to carry spare parts and to return pilots to the United States. There is more to maintaining a bridge of war planes across the Atlantic than merely providing pilots to fly the ships. Auxiliary planes are as essential as tenders to a fleet.

Pan America's present intention is to fly its own clippers down to Puerto Rico, Trinidad, Brazil and then over to Africa and up to Lisbon, while the war planes make the same stops except that of course they will not go on to Portugal. These planes will not be overloaded with parts and mechanics. A limited amount of space will be available for pay passengers.

* * *

SPEED: Our defense officials gave the British a perfect illustration, the other day, of how the decks will be cleared for help to England when production facilities are available. The incident is being cited to Lord Beaverbrook to allay any notion he may have that deliveries have been held up by governmental red tape rather than by lack of men, materials and factories. Although the British Minister of Supply has been too polite openly to charge unnecessary delay under the lease-lend program, he has made it clear that he sees no reason why a speedup for his country's benefit is not possible.

Next to tanks and planes, the most pressing British need is food. Our contribution to the Islands' dinner tables has been far below their requirement. Lack of boats and previous curtailment of agricultural output have been responsible. It hasn't been a question of the U. S. hogging its own grub.

One thing the British say they want immediately is egg powder. This is turned out normally in the U. S. at the rate of 12,000,000 pounds a year. The British asked for 100,000,000 pounds. The request set agricultural experts back on their heels, but they made a quick start.

The manufacturers of egg powder were contacted promptly by telephone and by field agents of the Department of Agriculture and the Office of Production Management. More than thirty concerns were persuaded to promise that they would either build additional plants or expand present facilities. The next job was getting materials to build factories. OPM's Priorities division knew right where the necessary structural steel and aluminum could be located.

* * *

HEADACHES: A three-cornered dispute among OPM, Defense Housing Co-ordinator Charles F. Palmer and Administrator John M. Carmody of the Federal Works agency has delayed priority arrangements on materials needed for the construction of homes for defense workers. The order was scheduled for promulgation weeks ago. The need has not been questioned. But the list of materials to be controlled, and the question by whom allocations shall be recommended have resulted in a free-for-all.

Palmer was quick to insist that all materials required for the construction of defense housing must be rationed. OPM said there should be no such drastic regulation. The latter took the position that priorities shall apply only on essentials for which substitutes cannot be found.

Carmody proposed that steel and lumber and other building supplies should be released in large quantities for such part of the defense housing program as had reached the construction stage. OPM vetoed this on the ground that releases should be issued project by project, in order to avoid any stacking up of materials which could be used at once on other parts of the defense effort. Housing and all priorities have become chronic headaches.

* * *

HUMOR: President Roosevelt sent for Justice Samuel I. Rosenman of New York Supreme court, as much to soothe ruffled feelings among defense bigwigs as to draw up a reorganization master plan. Given to excess weight and unusual good nature, the judge was exactly what was needed in the absence of the President.

Most of Rosenman's work consisted of listening to complaints from one official about another, and laughing them off until they were boiled down to facts rather than prejudices. He did a good job of it.

The President spotted this quality in the judge when he met him for the first time in 1928. Roosevelt then was the Democratic candidate for governor of New York, rusty on state politics after a long illness. Rosenman was assigned to help him prepare his speeches. "I don't know how much good I'll be," he told FDR, "but I'll try to help you keep your sense of humor." They've been fast friends and co-workers ever since.

NEW YORK
By S. Burton Heath

NEW YORK insiders hear that Trust-Buster Thurman Arnold is gaining on the field, in that race to succeed Supreme Court Justice Robert Jackson as attorney-general. Their information is that the matter is far from settled, that Arnold probably can not even be described as the leading candidate yet, but that his stock is rising while others stand still or decline.

Solicitor-General Frances J. Biddle is being kept in the contest, these reports say, by the insistence of Mrs. Roosevelt, Mrs. Morgenthau and Supreme Court Justice Frankfurter. Both the wealthy Philadelphian and his wife are classified as what used to be called parlor pinks. Mrs. Biddle, who writes poetry under the name of Katherine Garrison Chapin, has long been intimate with the First Lady and Mrs. Morgenthau.

This column is told that Security Administrator Paul McNutt could have had the attorney-generalship in return for a promise, which he would not give, not to oppose Vice-President Henry Wallace for the Presidency in 1944. Arnold is being fought by the labor unions, which hate him for trying to prosecute some of their number under the anti-trust statutes. Colonel William J. Donovan, who has many supporters for the post, is said to be receptive but to feel that the possibility of his being named is infinitesimal.

Harper Prize Novel Award Goes To Woman

"Marriage Is A Private Affair" Has Genuine Quality

"MARRIAGE IS A PRIVATE AFFAIR," by Judith Kelly; (Harpers, New York).

FOR the third time since it was first offered in 1923, the Harper Prize Novel award has gone to a woman. The first two (1923 and 1925) were given Margaret Wilson and Anne Parrish, but until Judith Kelly took over this summer, the record was masculine straight through.

Because her own story sounds a good deal like that of Theo Schofield in "Marriage Is a Private Affair," it would be easy to say that Mrs. Kelly has merely transcribed certain parts of her history and let it go at that. But this would be wrong, for although there are passages which could only have come out of experience, such as the wonderful pages in which Theo has her first baby, these passages will be found to be common to most marriages.

Is Shrewd Writing

The important matter is the shrewd way in which Mrs. Kelly has aligned her material, and the really superb way in which she has got into the characters of her book. These things came from conscious and artful planning, not from mere recording.

For the idea of the book is simply that the first years of marriage are not after all the important years, except as they lay the foundation for the period that really matters — which is to say "middle age," and its richer opportunities for accomplishments. Theo knows, even while she is going through the conventionally beautiful ceremony which unites her to Tom West, that her parents have made a hash of their life.

Has Only Love

All around her lies the pitiable wreckage of younger marriages. She has only love and enough money to work with—and her own determination. In exactly which ways these and other things aid and impede Theo's struggle it is Mrs. Kelly's business to explain.

But she cannot say that nobody will forget the people she has created, nobody will forget the genuine quality of her dialogue and its charm and flavor, and very few will disagree with her selection of event and background. Personally, you may like fewer of the longish (almost stream of consciousness) passages of which Mrs. Kelly is so fond, and more straight narration. But that is a matter of taste, and not very important.

Today's Chuckles

"HOW do you use your spare time?" asks a writer. It's none of his business, but we use a lot of it sitting around wondering what the hell.

Prospects Said Bright For Excellent Cotton And Feed Crops Over Territory

Recent Weather Aids Progress

By J. SAM LEWIS
Avalanche-Journal Staff Writer

Rapid advancement in condition of cotton and feed during the past several weeks, has taken a heavy toll of sub-soil moisture from the ground and in many sections of the South Plains there has been an extensive depletion of underground moisture.

Cotton growth has been excellent, farmers report, stalks setting on many squares, with blooms and bolls in profusion on the earlier planted crop. Numerous farmers in widely scattered communities have reported "bale to the acre" cotton, based on the number of bolls and squares at this time.

Squares Fall Off

Some cotton has stopped growing as vitality has gone into the bolls and squares now on the stalks. There has been some falling off of squares and blooms, a normal condition. Further moisture will put a stop to this, it is explained.

Withdrawal of sub-soil moisture from under feed crops has been heavier than under cotton, according to Don L. Jones of the state experiment sub-station here. Reports from over the territory indicate there has been more suffering because of insufficient sub-soil moisture for feed than for cotton. The situation is not considered critical.

Worm and insect damage to cotton has not been as serious as had been expected. Shortage of poison for worms and insects has not handicapped that program and it is said there is a considerable amount of poison on hand among farmers, who anticipate another crop of worms.

The new crop may do more damage than the first emergence, according to Supt. Jones. Amount of damage will depend upon conditions at the time of appearance. Farmers are advised to be prepared for a new crop.

Expect Record Feed Crop

Feed crop is expected to be a record crop this year. Much of the more than 125,000 acres of cotton abandoned was planted to feed. This, with the allotted acreages and neutral acres, will make a record acreage of feed.

County agricultural agents are discussing trench silos. Some farmers have asked for plans on digging silos and over the territory there will probably be a number of new ones dug. Farmers with a surplus of feed may get into the cattle feeding business this fall and winter, provided the price of calves and stocker cattle is not too high.

Agent C. C. Jobson of Lubbock county said the feed crop last year in the county was short and not all of the silos were filled. He does not believe there will be as many new ones dug this year as last, but that all of them will be filled this year.

Feeders Buying Feed

Commercial feeders are buying green feed for ensilage. Total feeding operations by commercial and farmer feeders may exceed previous records. Sheep feeding may not reach the first anticipated total, as farmers scouring the lamb raising areas report high prices. Abundance of sudan and feed, and wheat pastures had at first indicated a large program in Hale, Floyd, Swisher, Crosby and Lubbock counties.

Wheat farmers are turning under stubble to get the volunteer wheat crop started. As soon as volunteer wheat has germinated, it will be turned under and the crop listed in.

Late Irish potato crops apparently have a good start and producers anticipate good yields. Acreage is not as large as the early crop.

Other irrigated crops are doing well. Tomatoes, onions, beans, peas and other crops are reported in good condition, with excellent prospects.

Oregon Town To Close Up For Bean Picking

SALEM, Ore., Aug. 23 (U.P.)—Salem, a capital city of 30,000, today prepared to shut up shop and go bean picking.

Salem business men agreed to close their doors Monday and release all employes to work in the fields. An acute shortage of pickers threatens a heavy loss to growers unless the crop is harvested within a few days.

INFLUENZA DEATHS

More than 20,000,000 lives were taken by the influenza epidemic of 1918. In the United States alone, it killed 548,452 in 10 months; India lost 12,000,000; and Tahiti lost one-seventh of its population in 15 days.

Seven Orphans Who Just Wouldn't Quit Showing Neighbors Some Good Farming

(By The Associated Press)

ROCK ISLAND, Ill., Aug. 23.—Last February Mr. and Mrs. Camiel Taets, their 16-year-old son, Albert, and Mr. Taets' parents were killed in an automobile accident. Thus the seven other children of the Camiel Taets, 10 to 21 years old, were orphaned.

Now, six months later, the seven children are successfully "carrying on." No one thought they could do it, but they are farming 600 acres of good but tough farmland near here in such a way as to win the approval of neighbors and landowner.

Here's how they are doing it:—

After the accident, relatives and friends made proposals about what would be done with the children. One said he would take this boy, another offered to raise that girl. And so on.

The youngsters called a family council. They decided they did not want to be divided. They wanted to take up where their folks left off.

Beat The Rain

All seven children pooled their interests in the farming business, went into partnership with the owner of the farm.

Their 1941 crop plan called for 260 acres of corn. When rain slowed up operations, the Taets youngsters had almost all of their corn in the ground. Neighbors were not so lucky.

The Taets youngsters have 53 acres of wheat, 110 acres of oats, 20 acres in alfalfa hay, and 40 acres in soybeans.

The rest of the 600 acres is divided into 17 acres of permanent pasture and 100 acres of rotation pasture. The family has 45 head of cattle, 26 old hogs, 80 spring pigs, 220 hens and roosters, and 400 baby chickens.

Ingenuity helps the Taets children run their farm. To get better traction in muddy fields, they made a rear-wheel weight of concrete. That's Dale Taets at work.

Every member of the family has heavy tasks. Joseph, who is married, makes his home on a nearby farm. The only direct outside help the family receives is from a housekeeper.

Alice, the youngest (she's 10) and Elmer, 13, are responsible for the chickens. In addition, Elmer helps in the garden along with Rita, 14.

When a reporter offered the older boys cigarets, they shook their heads.

Alice and Rita are planning to can enough fruits and vegetables from their orchard and garden to last the winter.

"None of us smokes and none of us drinks; it costs too much in the first place, especially when you're just getting started like we are—and besides, we're against it."

To the four older boys, Donald and Dale, 16-year-old twins, Leonard, 19, and Joseph, 21, fall the work to do.

JOSEPH, 21 LEONARD, 19 DALE AND DONALD, 16 RITA, 14 ELMER, 13 ALICE, 10

Austin Physician Has Answer To Problem Of Cotton Growers; He Outdoes Oldtimers

(By The Associated Press)

DEL VALLE, Aug. 23—Dr. Z. T. Scott has the answer to a warning that Texas cotton growers must lower the cost of producion and increase the yield per ace to compete successfully for domestic business with the cotton growing states east of the Mississippi river.

That picture of the situation was given in a talk Thursday at Fort Worth before a district ginners' convention by Burris C. Jackson of Hillsboro, chairman of the statewide cotton committee.

Only A Beginner

Dr. Scott is actually only a beginner in the cotton growing business. An Austin physician, he started farming a 20-acre tract here two years ago.

Last year he brought in Travis county's second bale. This year his farm produced the first bale in the county. Although he used no fertilizer this year, Dr. Scott expects his yield to be a bale per acre. The cotton will be 1 1-4 inch staple.

Outdoes Old Timers

This is how a "hobby" farmer outdid the oldtimers in the neighborhood.

To begin with, he bought seed of an early-maturing, 1 1-4 inch staple variety. He poisoned six times during the growing season—three times in the pre-square stage and three times after the squares were formed.

The poison used was a "one-one-one" formula—one pound of calcium arsenate, one gallon of molasses and one gallon of water.

Prevention Above Cure

Dr. Scott believes that prevention is much better than cure as far as cotton insects are concerned — boll weevil and other pests were never allowed to get a start on his place.

His record of a bale to the acre is considered remarkable in that it was achieved in one of the worst insect years of Central Texas history — so described by Jim N. Boswell, secretary of the Austin Chamber of Commerce agricultural bureau.

One more point: Dr. Scott's cotton was kept clean—that is, grass and weeds were kept out of his fields.

Cooper Boy Plans To Show Pigs At Dallas

Billy Boyd, a 4-H club boy in the Cooper community, expects to have 12 fat barrows in the Dallas State fair in October, according to Lee H. McElroy, assistant farm agent and club leader.

McElroy asked the fair for entry blanks for Billy. The animals will be entered in the fat barrow class.

SHOE CONSUMPTION

A billion dollars' worth of shoes, 400,000,000 pairs, are purchased annually by the American public. It is the highest per capita consumption of shoes in the world; three to every person.

University Of Texas Hopes To Improve Cotton Farmer's Lot

(By The Associated Press)

AUSTIN, Aug. 22.—Texas farmers are counting their cotton in terms of bales these days but the University of Texas which also raises the important staple will measure its crop in test tubes.

Production from 20,000 plants on a tiny farm near Austin is material for research projects by which scientists hope to improve the lot of the cotton farmer.

Higher yield per acre, bigger markets and reduced harvest losses are among the objectives.

The botany department with federal aid is breeding cotton in an experiment to find new and more profitable strains to fit various growing areas of the state.

Another project is aimed at producing a plant which will be resistant to cotton rootrot, a fungus growth that takes an estimated toll of 10 to 12 per cent of the state's annual crop.

A search is under way for a variety of cotton that can be grown with a minimum of water for germination and if successful might bring better cotton to arid areas.

Farmers Are To Receive Parity

Lubbock county cotton farmers who are cooperating with the AAA program can obtain 85 per cent of parity government loans on their 1941 production, C. E. Lilley, chairman of the county AAA committee, points out.

Although the loan rates for Lubbock county have not been announced, the AAA official said that the basic loan rate for the nation would be 14.02 cents per pound for ⅞-inch middling cotton gross weight, based upon the parity price of 16.49 cents per pound as of Aug. 1. That rate compares with the 8.90-cent rate available in 1940. The average loan rate for 15/16-inch middling cotton, net weight, was 14.62 cents per pound on Aug. 1, the beginning of the marketing year.

To Calculate Differentials

The full loan rate is available to producers planting within established cotton acreage allotments for the 1941-42 marketing year, and producers who knowingly exceed their allotments will be eligible for loans at 60 per cent of the rate available to cooperators on that part of the cotton subject to penalty, Lilley continued.

Differentials for grade, staple and location in the new program will be calculated in relation to the loan rate of 15/16-inch middling cotton which is the basic description of all future and spot contracts. The rate for middling 15/16-inch cotton will be 20 pounds, or .2 cents per pound, above the basic rate for ⅞-inch middling cotton.

Based On Net Weight

As in 1940, the loan rate will be based on net weight of cotton and will be 60 points above that for gross weights to compensate for the lesser pounds on which the loan is extended. All grades and staple lengths of cotton approved by the USDA Board of Examiners are included in the schedule of loan rates, he said. A classification fee of 15 cents per bale will be made.

Loans will be made directly by the Commodity Credit corporation through approved lending agencies. The execution of loan papers will be under the supervision of local county AAA committees with such agencies as banks, warehouses and county AAA offices being designated by AAA committees to assist producers in preparing and executing loan papers.

The notes, which will mature July 31, 1942, bear interest at 3 percent per annum, and are callable on demand, Lilley said. Loans will be available until May 1, 1942, and will be made only on cotton represented by warehouse receipts issued by warehouses approved by the Commodity Credit Corporation.

Third Of Farmers In County Few Acres Out Of Line On Cotton

More than a third of the Lubbock county farmers whose crop land has been measured for 1941 performance with the Agricultural Adjustment Administration program, are a few acres out of line on their cotton planting, according to Walter Y. Wells, administrator.

Up to mid-August well over half of the acreage had been measured said Wells, and there are approximately 2,500 cotton producing farms. Acreage for cotton is 173,000 and 480,000 for all crop lands.

Farmers may, if they are over their allotment, plow under their cotton only, to get in line. Some of the farmers, Wells explained, have plowed under a few more acres so as to comply with the supplemental cotton stamp program.

There will be several farmers who will have 25 or 30 acres or more in excess of their cotton allotment, who probably will not comply with the reduction acreage. These men will have a penalty of seven cents a pound on cotton in excess of their allotment, for failing to get in line with the program.

Parity Applications Sent From County

More than 200 applications for payment of cotton parity for the 1941 crop have been sent to the state Agricultural Adjustment administration office in College Station for final approval and authorization of payment by the Dallas federal distributing office, according to Walter Y. Wells, administrator.

Applications are sent in batches of 50 or more at a time, Wells said. Four shipments have been made. There has been some delay in completion of the applications, because of a delay in farm measurement, due to irregular crop planting because of spring and early summer rains.

Oct. 1 Deadline For Repaying Loans On '38, '39, '40 Cotton

Lubbock county cotton producers with 1938, 1939 and 1940 loan cotton have until Oct. 1, to repay loans and redeem cotton pledges, C. E. Lilley, chairman of the Lubbock county AAA committee, has announced.

All cotton not redeemed by this time will be placed in pools as provided by the loan agreement and sold by the Commodity Credit corporation after March 1, 1942.

Unredeemed cotton from each crop will be placed in separate pools with the producers retaining title. When the cotton is sold in each pool, net proceeds will be distributed among the producers in proportion to their interests, Lilley said. The net proceeds, if any, would be distributed after deduction of all advances and accrued costs, including storage, insurance and handling charges.

When unredeemed cotton is placed in the pool, the AAA official said, no payments will be made to producers and it cannot be sold during the time it is in the pool.

Recent reports indicate that Texas cotton growers have 77,047 bales of cotton outstanding on the 1938 crop and 360,135 bales on the 1940 crop.

Producers who are interested in selling their present equities should redeem their cotton before Oct. 1 since it is possible it will not be sold until sometime after March 1, 1942, Lilley said.

THE CAT'S MEOW!

WINCHESTER, Ky. (AP)—Thomas P. McCune is on the payroll of a local manufacturing company at a weekly salary of 70 cents, less deductions for old age assistance, social security and unemployment insurance. Thomas is a fat cat and polices the company grounds for mice. What's left of his salary, after the deductions, is used to buy extras for his diet.

In the United States, grizzly bears are said to be extinct in all states except Montana and Wyoming.

Club Boys Asked To Complete Records

Club boys of the county are being advised by Lee H. McElroy, assistant farm agent and club leader, to complete their record books and turn them in so that applicants for honors in state-wide contests may be sent to the state extension service office by Nov. 1.

The Santa Fe, as usual, will have 19 trips to award to the Chicago International Livestock show in the fall. Lubbock county has had a number of these trip winners in recent years and McElroy hopes to get one this year. The Wilson meat animal contest also will be awarded this year, and the state and national yard improvement contest.

In addition the annual award of a gold star pin for excellent record in club work is made, one to a county. McElroy explained the county had a splendid record in placing in the contests and he hopes to have a number of entries this year.

Meantime, regular club meetings will be resumed in September with the opening of school terms. Two meetings a month are held by each of the clubs, one with the assistant agent and the other with the club sponsor or leader.

FROM THE FRYING PAN

MT. HOLLY, N. C. (AP)—Milton Morris, overcome by gas in a chemical plant, was placed on a 15-foot platform—from where he fell and fractured his skull.

ABOUT KENTUCKY

Danville, Ky., has been called "The Cradle of the Commonwealth" since Kentucky was admitted to the Union in 1792 following a series of nine conventions held there.

America's feminine clothing industry is conservatively valued at $3,500,000,000.

The battle of Lexington was fought April 19, 1775.

BUSINESS AS USUAL!! ??

Curtailment of raw materials for civilian use is at hand, especially in the metal industry. As defense requirements increase, domestic shortages are bound to occur.

We quote, from a Washington dateline:

"Chiefly affected by production cuts, the survey said, would be non-defense industries using Aluminum, Iron, Steel, Copper, Zinc, Brass, Nickel, Tin, Rubber, Silk, and Cork."

We urge you to

Midland Rodeo Group To Pay Visit Here Tuesday Afternoon

MIDLAND, Aug. 23. (Special)—Sponsored by the Midland Junior Chamber of Commerce, a two-day goodwill tour to publicize the seventh annual Midland Rodeo, August 30, 31, and September 1, will be made over West Texas next Monday and Tuesday.

Forty Midland businessmen will comprise the delegation which will visit 30 towns between Sweetwater and Pecos and between Lubbock and San Angelo. The 725-mile trip will be made in a large Greyhound bus, accompanied by a police car and sound truck.

To Be Here Tuesday

The boosters will leave Midland at 7 o'clock Monday morning, going west to Pecos, south to Fort Stockton and east to San Angelo for the night stop. Leaving San Angelo at eight o'clock Tuesday morning, the group will proceed to Lubbock, via Sweetwater, and thence back to Midland late that evening. The rodeo boosters Monday will lunch in Pecos and Tuesday in Snyder.

Entertainment at each stop will be furnished by the Midland Cowboy band comprised of Roy DeWolfe, U. A. Hyde and Chester Wright. The Jaycee committee in charge of arrangements is composed of Clint Dunagan and J. B. Grain.

Towns and cities to be visited on the tour include: Odessa, Kermit, Wink, Monahans, Pyote, Barstow, Pecos, Fort Stockton, McCamey, Rankin, Big Lake, Barnhart, Mertbon, San Angelo, Bronte, Blackwell, Sweetwater, Roscoe, Loraine, Colorado City, Snyder, Post, Slaton, Lubbock, Ropesville, Brownfield, Seagraves, Seminole and Andrews.

Lions Leaders Will Meet Here On Friday

Deputy district governors of district 2-T of Lions International will hold their first cabinet meeting Friday afternoon in Hilton hotel, according to H. C. Pender, district governor, who is to preside.

Most of the afternoon, Pender explained, will be given over to planning for a year's program. Lloyd Croslin of Lubbock is secretary-treasurer. Deputies include, Burton K. Hackney, Brownfield; Arthur Teed, Pampa; J. D. Wilson, Paducah; Murry H. Fly, Odessa and W. D. Lakey, Fabens.

Pender will visit four clubs this week; Wednesday noon at Midland; Wednesday night at Pecos; Thursday night at Fabens and Friday night at El Paso. These will be his first official visits to these clubs.

Thursday night he attended a zone meeting at Hereford.

Medical Society Will Hold Session In City

More than 100 doctors from all parts of the Panhandle-Plains area are expected in Lubbock Oct. 14 and 15 for a semi-annual meeting of the Panhandle District Medical society.

Reservations have been made at the Hilton hotel for the two days, by Dr. Ben T. Blackwell, Amarillo, secretary. There will be group meetings as well as general sessions, on the two day program.

Dr. B. A. Duncan of Amarillo is president; Dr. E. M. Bellamy, of Pampa is vice-president; Dr. E. A. Rowling, Amarillo, councilor and Dr. G. T. Vineyard, Amarillo, vice councilor.

ELECTION ODDITY

The winning candidate received less than half the total popular vote in 12 presidential elections in the United States. In three, he received less than the opposing major party candidate.

NOT ENOUGH

Apparently the large gill surfaces of a tarpon do not meet his oxygen requirements. He frequently rises to gulp air and stores it in a special tissue of his swim-bladder.

Land snakes seldom bite under water, but the cotton-mouth moccasin snake can and does.

ATTITUDE DEPENDS ON DISPOSITIONS

WHAT the average selectee thinks about having his government regiment his future for another 18 months is as personal a matter as his nose or his toes.

Twenty per cent of the opinion he forms is influenced by his predrafting position in life, the breaks he has had in the army, his awareness of a national emergency, his exposure to the anti-defense element at camp, and whether or not he has ticker tremors for a girl back home. The other 80 per cent seems to depend entirely on his disposition. If it's good he makes the best of things. If it's bad he makes a malcontent's worst of them.

Fair examples are a pair of privates in the 117th Quartermaster regiment at Camp Forrest. "You'd be surprised," says one sincerely, "how well these guys get along."

"Just one big, unhappy family," groans the other.

"Q. M. is plenty soft," continues the first. "We can hole up in barracks for an afternoon nap almost any day."

"Except it's too damned hot to sleep."

"Don't mind him," Pollyannas the bright-sider. "He's nuts about a gal in Nashville. Me, I like the army all right, even if it is for a longer stretch than we figured. Nothing rosy, y'understand. But somebody's gotta do it . . . "

Privates Eller and Cox are Bristol, Va., boys stationed at Fort Jackson, S. C. Their pre-soldiering experiences and environments follow the same pattern as closely as a pair of Jack Benny programs. Ask them how they like the army.

"Not bad," says one.

"Lousy," says the other, leaning his head out the car window to go "Boo!" which is apparently Fort Jackson equivalent to "Yoo-hoo," at a couple of girls.

"Looks like they're going to keep you in for awhile."

"So what?" says the first, willin' as Barkus.

"God forbid!" wails the second, slapping his hand to his forehead.

Private Stein is stationed with the 51st Pursuit Group at March Field; left a good job at the ready-to-wear business when he climbed into khaki at the Fort Leavenworth, Kan., induction center; has a disposition the Bobbsie twins would envy.

"The army's a riot," he said after a few days of it. "The pillows smell funny, so one fellow pours shaving lotion on his. And know what we've got in our barracks? An ex-bootlegger, a lawyer, a bootblack, and a night watchman who can't sleep. He just sits on the edge of his bunk all night and smokes cigars!"

Private Stein's enthusiasm has not waned after two months.

"Guess they'll keep us around a few years," he writes. "It'll take me that long to figure out what gets the B-19 off the ground, so I don't mind."

CAN'T PRINT PHI BETA'S REACTION

BUT there's the 31-year-old Phi Beta Kappa sergeant who had browsed in such dilletantisms as Greek and early American architecture before his number was up. He counted on recommendation for officer's training, missed out when bigger guns decided he was too valuable in the office and passed him up in favor of younger men. What he has to say about the draft term extension is very colorful, but it wouldn't do for your maiden aunt to hear.

At Camp Robinson the scrappy 35th Division, half of it military-minded National Guard, expects trouble, raises few eyebrows at the draft term extension, and chafes against the pantywaisting time between routine training and some semblance of action.

"You'll find that's true at almost every camp where National Guard regiments form the nucleus of a selectee-padded division," explains a Robinson sergeant and former newspaperman. "Not many of them really expected a year of this to be all we'd get. But either way, they want to make some sparks fly. Maneuvers aren't enough."

Lake Baikal, in southern Siberia, is the largest fresh water lake in Asia, and the deepest fresh water lake in the world.

Gasless Sundays May Curtail Week-End Travel

Troubles Just Starting On The East Coast; Heavier Cut Looms

(By The Associated Press)

WASHINGTON, Aug. 23—Eastern motorists who plan long trips this week end may have trouble buying enough gasoline to get back home. Filling stations in some localities have announced a gasless Sunday for the first time since 1918.

And a statement by Senator George (D-Ga) indicated that pleasure car drivers' troubles may only have begun. He said he was reliably informed that a lack of oil transportation would force a one-third cut in eastern motor fuel, against the present 10 per cent curtailment.

New Rumors Heard

Unverified reports circulated in congressional circles that the government had called upon American oil companies to make up a pool of 100 additional deep-sea tankers to be turned over to the British.

Diversion of 50 tankers from the Atlantic coast run to serve Britain in the battle of the Atlantic precipitated the current petroleum emergency. One member of Congress said he had heard from a reliable source that 40 of 80 tankers acquired in the United States by the British before enactment of the lend-lease act had been sunk.

Meanwhile, the eastern seaboard's 100,000 station operators and 10,000,000 motorists alike awaited a statement from the office of defense petroleum coordination which was expected to ease the current confusion by projecting a uniform program for equitable distribution of available gasoline supplies.

Denver City Schools Prepare For Opening

DENVER CITY, Aug. 23 —(Special)—Although Denver City schools do not open until Sept. 2, high school seniors and juniors will enroll next Thursday and Friday, officials have announced.

Officials also said they had received notification that the schools here are fully accredited with the state department of education.

The system has a modern high school building here and two grade schools in the district, in which 29 teachers were employed last year.

Two new concrete tennis courts were constructed on the high schools grounds this summer and a steel and wood football stadium is nearing completion. Lights will be installed in time for opening of the high school's entry in the Class 5-A district football race.

Early enrollment of seniors and juniors was arranged to give those students time to plan their courses of study, officials said.

Theoretically, it is possible for a pair of rats to have 359,709,482 descendants in three years.

LONELIEST POLICEMAN

The loneliest policeman in the world is the Royal Canadian Mounted constable who is posted 1000 miles north of Hudson Bay, only 700 miles from the North Pole.

MUCH WORKED

The balance and hairspring of a watch vibrates 18,000 times an hour, more than 157,000,000 times a year, and emits as many ticks during its daily duties.

A giant humming bird of the Andes mountains attains a length of 8½ inches.
