BLOODMOBILE TO VISIT IN BURKBURNETT WEDNESDAY

The American Red Cross Mobile Blood Bank will visit Burkburnett Wednesday to replenish supplies of badly needed whole blood.

The blood bank will be in operation at the Community Room of the Burkburnett Bank from 12:30 p.m. to 6:30 p.m. The late closing hour was set to enable more workers to at-

tend and make their donations. Shortages of blood from all parts of the country have been reported.

This is an annual occurrence which usually happens during holiday season.

However, donations usually return to normal in January, and workers of the Burkburnett area are hoping the usual trend occurs again this year.

The banquet will be at 7 p.m. Saturday at the Burkburnett High School Cafeteria.

Guest speaker is to be Dr. Dan Proctor of Houston.

Friends and relatives of Mr. and Mrs. J. L. Stubblefield, long time residents of Burkburnett, are cordially invited to attend a reception Friday night, Jan. 10, honoring the couple on their 50th wedding anniversary. The reception will be held at the Church of God, 121 Ave. E, at 7:30 p.m.

John Thomas, Burkburnett's famed old and lovable tomcat, is no more.

John Thomas, who, at the age of 22, loved to lie in the backyard and enjoy the sun, fell victim to a young and vigorous visiting dog the other morning.

His owner, Mrs. Charles Morris, is disconsolate indeed.

For one thing, John Thomas never bothered the neighborhood, and wasn't prone to roam the area at night or anytime.

"He just stayed in the backyard and minded his own business," said Mrs. Morris.

Even in his young days, John Thomas stayed close to home, thanks to the cooperation of a veterinarian and got all the attention and loving care he desired.

"His demise wouldn't have been so hard to take if he had been out of pocket, somewhere he shouldn't have been.

"But to have something like this happen right in his own backyard! Well!" said Mrs. Morris.

Thank you, Pearlle. We narrated a tale a few days ago about a mysterious phone call, where we were invited over for a cup of coffee.

The caller, you remember, identified herself as Pearlle.

Neither the wife nor I knew a Pearlle, so we sat, and sat and sat, waiting for a return call.

The call finally came. The caller, we found, was Pearlle Alexander, a newcomer to Burk who had dialed the wrong number.

Of course, we didn't know who Pearlle was until the second call, and she repeated her invitation for a cup.

As mentioned before, the Bohenkes have never turned down an offer of a cup of coffee, so we hiked on over.

We found Morris and Pearlle Alexander a pleasant young couple who have recently moved from Wichita Falls.

Morris is employed in Wichita Falls, and they moved to Burk because they had liked the looks of our town.

Glad to have you in Burk Pearlle and Morris, and we know you'll like it.

James Mason received word Wednesday of the accidental death of his nephew, Michael Courington, 17, of Jasper, Alabama. Michael was the son of James' sister, Mr. and Mrs. Arnold Courington, who have visited the Masons here many times.

WRONG GATE!

What's Happening To Rights?

The basic American right of secret-ballot elections — which Congress applied to labor-management relations when it passed the Taft-Hartley Act 20 years ago — is frequently undermined by decisions of the National Labor Board. In place of the ballot box, which the law requires to certify a union as the collective-bargaining agent for employees, the NLRB has been sanctioning authorization cards signed by an employee which either request an election or designate a union as his representative.

An example of this practice is a recent case involving misrepresentation — and in which Long Island duckling played a significant role. Briefly, a garment union demanded that it be recognized by a dress manufacturer, claiming that it had authorization cards signed by 27 of the firm's 49 employees. The company refused recognition because it felt that the card majority had been obtained improperly. But the NLRB ruled that the employer did not have a reasonable basis for doubting the union majority and ordered it to bargain.

A U.S. Court of Appeals subsequently blew the whistle on the use of cards and reversed the Board's decision. The Court noted that while the cards were printed in English, they were signed by some employees of Polish background who couldn't even read English. The Court also called attention to testimony indicating that some employees signed the cards in the belief that it merely entitled them to a free duck dinner which the union was giving for employees.

Said the Court: "The Congress that passed the Taft-Hartley Act would have been mightily surprised to learn that a card signed even under the circumstances testified by the (NLRB) General Counsel's witnesses could endow a union with the right to represent all employees and requiring an employer to recognize it."

Despite the Court's reversal, the NLRB blithely continues to disregard the intent of Congress and to ignore the right to secret-ballot elections.

SEN. RALPH YARBOROUGH'S NEWSLETTER

As we begin this New Year, it is well that we pause and take stock of where we have been and where we should go. The past year has been one filled with shock, trauma, and tragedy. On March 31st, President Johnson shocked the Nation with his decision not to seek re-election. Although this struck at the political stability of the country, it was but a tremor of what was to follow. Just four days later came the tragedy of the assassination of Dr. Martin Luther King, followed by disruption and burning in our Nation's Capital. Shock and tragedy were compounded when a leading candidate for the Presidency, Senator Robert Kennedy, was struck down in Los Angeles on June 5th. The confusion and turmoil of the preceding months seemed to reach its moment of crisis with the Democratic Convention in Chicago, where action on the floor was reflected by disorder in the streets.

Slowly but surely, however, the country seemed to strive for new unity behind Hubert Humphrey or behind Richard Nixon; I returned to my home state to campaign for the National ticket of my party, as did many of the Senators, Democratic or Republican.

Despite the waves of disaster and setback that rocked the country, 1968 was, nonetheless, a year of legislative accomplishment and progress. It was a year that saw the passage of 91 major bills, many of which are legislative landmarks. Among them were:

The Vocational Education Bill, containing my provisions for New Careers and for Homemaking Education;

The Higher Education Bill which contained my amendments for a Professors Emeritus Program and a study of of Universal Post-Secondary Educational Opportunity;

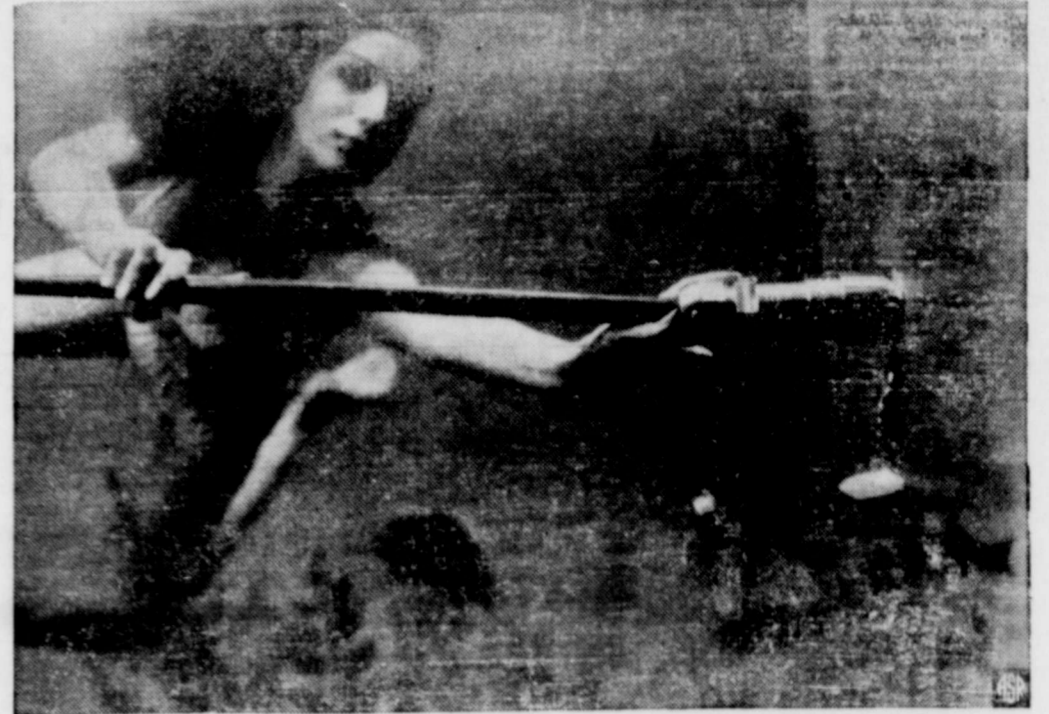

After years of struggling we made a final amendment to my Cold War GI Bill, which liberalized its provisions even beyond those of the World War II and Korean GI Bills. Now there is a real incentive and opportunity for our fighting men to pursue a course of training and education when they leave the military;

1968 also saw the appropriation of \$7.5 million for my Bilingual Education Act;

Congress passed a Health Manpower Act, the Radiation Control for Health and Safety Act, and the Omnibus Crime Control and Safe Streets Act;

Of particular significance to Texans was my success in obtaining an authorization for an appropriation of funds to make the Padre Island National Seashore a reality.

The prospects for 1969 are challenging. I plan to devote much of my energy to my bills which would provide compensation to innocent victims of crime, provide Federal assistance for educational technology, and which would establish the Big Thicket National Park. I am a firm believer in conservation

A passing "mermaid" gives a quick check to this rugged electronic connector, developed by Amphelol Connector Division for critical underwater applications. The first-of-a-kind connector is not only waterproof in the mated condition, as our mermaid sees it, but also in the unmated

condition before it's "plugged in." Its outer shell is a special corrosion-resistant steel and that cable sealing adapter on the back end allows the connector to be dragged along the ocean's bottom without catching on any stray pieces of coral.

for the sake of conservation; I intend to continue my efforts on behalf of my bill for the protection of endangered species of fish and wildlife. The first session of the 91st Congress will not be a success unless we achieve muchneeded revision of our present draft laws, and I intend to labor on this front as well.

It has become a tradition that we make a wish for the New Year. I have made mine, and I think it is one that is shared by all of my fellow Americans: to end the war in Vietnam. Let us dedicate ourselves and this New Year to peace — both in Vietnam and at home. Let us wish for it, let us pray for it, and let us work for it.

The couple recently exchanged vows in the parlor of the First United Methodist Church with the Rev. Don Youngblood officiating.

The bride, given in marriage by her father, wore an empire style street-length taffeta dress with an overlay of white lace. Her corsage was of peppermint carnations. Miss Carolyn French and David French, sister and brother of the bride, were the attendants.

Mr. Bedford and his bride are seniors at Burkburnett High School. He is presently employed at Baker's Dozen in Wichita Falls.

The couple is at home at 702 Avenue F, Burkburnett, Texas.

Registration Of Autos Swells In '68, AAA Says

Motor vehicle registrations in Texas climbed to 6,029,000 by the end of 1968, reports the American Automobile Association.

Estimates predict that there will be 4,695,000 automobiles, a 2.2% increase over 1967, and 1,334,000 trucks and buses, a 2.8% increase, in the state. The total represents a 2.3% increase over 1967, when 5,893,582 vehicles were registered.

Nationally, motor vehicle registrations will jump close to the 100 million mark by December 31, the AAA said, citing reports of the Federal Highway Administration. The government agency predicts an increase of 99,358,000 — or 3,013,124 vehicles more than were registered in 1967.

The 1968 national total breaks down to 82,821,000 automobiles, a 2.0 percent increase, and 17,137,000 trucks and buses, a 3.7 percent increase. This represents a 3.1 percent total vehicle increase over 1967.

California's 11.22 million vehicle registrations are followed by 6.2 million in New York and 6 million in Texas. Ohio and Pennsylvania each will have nearly 5.5 million motor vehicles by the end of 1968. Illinois and Michigan will have 4 and 5 million, and Florida and New Jersey between 3 and 4 million. These nine leading states account for 50.4 percent of the national total.

Thirty-two states will have registrations of more than one million.

Motorcycle registrations nationally are expected to total 2,127,859, an increase of 174,837 over 1967. Texas registered 88,409 motorcycles in 1967, and is expected to have 100,143 registered by the end of 1968.

WORSHIP BEGINS IN THE HOME

Our home is more than just a pretty structure, of course it does provide comfort, but beyond that, it is a place where joy abounds... it is a place where love is abundant, it is a place of cooperation, and it is a place where the Lord is worshiped. From the home, our relationship with God is carried over into the church. It is there that my family is able to share worshipping the Lord with others. Ours would not be a full life, if we did not participate in worship at home and church. Attend church this week and join us in worshipping the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

SLAVIC FLAVOR—In the new mood of fashion is the cotton corduroy peasant coat. Valor interprets the look in Cone's corduroy, cut on the bias and flavored in the Slavic manner with fur-like trim.

Summering Pretty

When it comes to beauty, summer can be a drag. The temperature soars to a mean 95° and it's all you can do to keep your cool, let alone think of new ways to pick up that tired old summer face.

The usual tendency is to tan all over, pale down your lipstick and minimize eye make-up to the bare (and I mean really bare) essentials. This is all great if you think that new boy you meet at the beach or a party is going to be fascinated by a tan blob.

However, if you're thinking along the lines of a little individuality, of ways to spice up that pale—but sometimes not so pretty—warm weather look what can you do?

First of all, wan lips never got anybody a kiss. What you need is a little allying—like the sort that comes in Tussy's new RealGirl Lip Gloss Cocoon. Nested in a little white sphere with key-ring are three glosses, one clear, the other two with bits of color just beginning to show—that help any Social Butterfly emerge from her too-protective natural coloring.

The other idea is as old as a woman's tricks and just as captivating. Body Art. A tiny heart painted near your lashes. A few springs of flowers colored on your arm. Or some dazzling free art forms dashed off-the-cuff on your hands.

There are dozens of delightful designs you can paint on. You just take it from there with Tussy's Hieroglyphics paintbox—packaged with five primary water-applied safe-for-skin colors, plus stencils, mixing pan, brush and instructions.

What's the idea behind all this? If you're going to glow this summer, you need a little shine, a little nerve. Remember, even a Renoir has a few splashes of color to catch the eye.

Only electricity gives you **FLAMELESS** clothes drying

So clean and gentle... easy on you
... easy on your clothes

Women who dry clothes electrically agree it's the cleanest of all methods of drying. Clean flameless electric heat adds nothing but warmth to the inside of the dryer, so white clothes stay white, colored clothes stay bright. And electric heat is so gentle and precisely controlled that even the most delicate fabrics dry with complete safety. See your electric dryer dealer soon.

Come in and spend some time. Dig, probe, ask questions, take notes. You owe it to yourself to be thorough.

Go for a drive. Get a free sample of Chevrolet's luxurious full-coil, cushioned ride. Shut the windows and see how fresh the interior stays, thanks to Astro

And if you happen to make a mistake in pronunciation, the German word for "oops" is *hoppla!*

Children Are Natural Born Artists

Anyone who's ever watched a pre-schooler with a box of crayons or finger paints is probably aware that the gift of self expression is instinctive in young children. A child's first adventures into art generally reflect his own world... his parents, pets, house and favorite toys all make great subjects. But all too often we well-meaning adults stifle this natural creativity with advice such as "the truck should be smaller than the barn". Of course he draws the truck bigger! Those things dearest to him are rarely in proportion. He likes trucks better than barns. Don't discourage him; let him draw it as he "feels" it. Any urban youngster's first visit to a farm is almost sure to inspire a "masterpiece" as he seeks to share his excitement with others. His model Farm Set and Pet Mobile by Nylint Steel Toys with their realistic farm animals and dogs will probably be pressed into duty as models while he paints trucks, horses, cows and dogs the way they "really look". (Just expect to find a stake truck and a collie dog bigger than a barn). Art deserves encouraging. It brings out the best in a child. While it may not become his future career, it's sure to help him to become a happier, more imaginative and self-reliant individual.

RAISING THE ROOF

WISCONSIN IS HOME OF ONE OF THE WORLD'S MOST CREATIVE "ROOF RAISERS," ARCHITECT-INNOVATOR FRANK LLOYD WRIGHT, BUT DID YOU KNOW THAT THE STATE ALSO CLAIMS ANOTHER NOVEL "ROOF RAISING" IDEA?

WHEN A COMPANY IN PARDEEVILLE, WISCONSIN WAS ABOUT TO LOSE THE LARGEST CONTRACT IN ITS HISTORY BECAUSE THEIR NEW FACTORY WAS STILL ROOFLESS—THE TOWN'S CITIZENS RUSHED TO THE RESCUE AND RAISED THE ROOF OVERNIGHT. BY THE COMPANY GOT THE CONTRACT AND THE CITIZENS GOT MORE JOBS.

WISCONSIN GOVERNOR WARREN P. KNOWLES REPORTS THAT A STATE PROGRAM TO "RAISE MORE FACTORY ROOFS" IN THE RURAL AREAS MAKES IT POSSIBLE FOR SKILLED FARM WORKERS TO REMAIN IN THEIR HOMES RATHER THAN MIGRATE TO OVERCROWDED CITIES.
