

Ex-Code Clerk Says FBI Warned Of JFK Death Plot

MORGAN CITY, La. (AP) — A former Federal Bureau of Investigation code clerk says he saw an FBI teletype message five days before President John F. Kennedy was assassinated warning an attempt would be made on Kennedy's life.

William Walter said Tuesday that he was working the mid-night to 8 a.m. shift in the FBI's New Orleans bureau when the message was transmitted to the agency's southern offices.

"It came in urgent from the director's office in Washington saying a militant revolutionary group may attempt to kill Ken-

nedly on his trip to Dallas, Tex., on Nov. 22," he said.

Kennedy was shot and killed that day while riding in a motorcade in Dallas.

FBI Director Clarence Kelley has denied the allegations, saying a thorough investigation was made in 1968 and again this month in which 53 of the agency's employees were questioned.

"No evidence was developed which would support Mr. Walter's allegation or indicate its plausibility. A check . . . of FBI files produced absolutely no record of any such teletype," he said.

Walter, director of a Morgan City, La., bank, said Kelley's statement did not surprise him.

"They had a system established to make damn sure there was no record of some of those sensitive matters, especially when it became an embarrassing situation," he said. "That way everyone could say under oath no records were on file."

Walter, 33, said the night he received the message he notified the special agent in charge of the New Orleans office, whom he identified as H. G. Mayner, and was told to call local FBI agents. He said the message was missing when he

checked the files several days after the assassination to see what had been done about it. He said the file had been re-numbered.

Joseph Sylvester, currently in charge of the FBI office in New Orleans, said Tuesday. "There was no communication ever, no warning of a possible attempt prior to the assassination. Is that clear enough?"

Walter said he had copies of notes of the message which he made shortly after the assassination. But he declined to say whether he had a copy of the message. Walter said he was contacted last week by James Adams,

whom he identified as an as-

sistant FBI director in Wash-

ington, offering him immunity

— that I had nothing to agreeing it (the message) could

hide," Walter said. "It looked

as though they were wanted to cooperate."

High-Tension Electric Lines Affect Earths Radiation Belts

By GEORGE ALEXANDER
The Los Angeles Times

STANFORD, Calif. — The high-tension electric lines that have sprouted across the United States in the last few decades have done more than light and power a nation, according to a Stanford University professor.

They also have been influencing the radiation belts that float high above the earth.

The very low frequency (VLF) radiation from these power lines interacts with the ionosphere, a segment of the earth's upper atmosphere, and causes electrons there to "rain" down, said Robert A. Helliwell.

The interaction between man-made VLF energy and the belts poses no threat to life on the surface of the earth, Helliwell was quick to add.

Rather, the effects — which can, depending on circumstances, be advantageous or disadvantageous — appear to be limited to certain types of communications, like long-distance radio transmissions and to some long-standing scientific investigations of the ionosphere.

Helliwell was less certain about the possible effects of ionospheric disturbances on weather patterns in the lower atmosphere.

Meteorologists suspect that there is some mechanism coupling the upper and lower parts

of the atmosphere but they are not sure just what this mechanism might be.

"This is an area we'd like to know a lot more about," Helliwell said.

Helliwell and his Stanford colleagues discovered this ionospheric effect during this past year in the course of experiments with a 100,000-watt VLF transmitter located on the Antarctic continent.

"From the transmitter," Helliwell said, "the energy spreads out into the space between the earth and the lower edge of the ionosphere and some of it leaks into the magnetosphere (the earth's magnetic field)."

"This radiation gets trapped there. Also trapped there are electrons. The two interact. The very low frequency radiation perturbs the pitch angle of the electrons and some fall through 'loss cones' into regions below."

Some of these electrons fall to an altitude 70 to 90 kilometers (43 to 56 miles) above the earth before they are absorbed by other particles, Helliwell said.

He said that "because of this (VLF radiation), the belts are now seen to be inadvertently under the control of man."

Having now learned that he controls these belts in-

advertently, at least as far as VLF transmissions are concerned, man may now set out

to control them intentionally, Helliwell added. Nations might pump VLF signals into the ionosphere to scramble others' communications or navigation systems, he explained, or one nation might use the technique to enhance its own signals from one point to another.

But he said it was his hope that this finding would lead to a better scientific understanding of the dynamic relationship between the magnetosphere and lower atmospheric conditions.

"If we know more about this relationship," he said, "we may learn quite a bit about weather."

Court Upholds Republican Plan

The Washington Post
WASHINGTON — The U.S. Court of Appeals here Tuesday upheld the constitutionality of the Republican party's plan for choosing delegates to its 1976 presidential nominating convention.

The plan, which includes a controversial "victory bonus" allotment of delegates to states that elect Republicans to offices or voted Republican in the last presidential election, and been challenged by several individual Republicans and the Ripon Society, a liberal Republican group.

Committee Votes To Lay Out All Secret Promises

The Washington Post
WASHINGTON — The Senate Foreign Relations Committee, aiming for a final vote Friday on the Sinai peace accord, voted 14 to 0 Tuesday to require the President or Secretary of State Henry A. Kissinger to certify first that all secret "assurances and undertakings" made by the United States to Israel and Egypt have been revealed to the committee.

On a resolution by Sen. Jacob K. Javits, R-N.Y., the committee summoned Kissinger to a closed session Thursday to lay out all such secret promises.

Javits, Joe Biden Jr., D-Del., and other members made clear that any private commitment or assurance which isn't revealed to the committee would be considered null and void by the committee.

Dr. Brody Dies

MEMPHIS, Tenn. (AP) — Dr. Daniel A. Brody, 60, a nationally known pioneer of research into the electrical activity of the human heart, died Tuesday, apparently of a heart attack.

G. C. Vettors Named R-T Retail Ad Manager

Gilbert C. Vettors has been named retail advertising manager of The Reporter-Telegram, it was announced today by Lou Lindsay, advertising director.

Vettors, 39, comes to Midland from Dallas where since 1966 he had been employed in the sales office of Marie-Henri Newspapers, most recently as retail sales manager for all of that chain's newspapers.

He resigned that post to accept the Midland position. Prior to his promotion to the Dallas office, Vettors was national advertising manager of the Corpus Christi Caller-Times. He joined the Corpus Christi paper full time in 1960 and held a number of advertising positions there.

Vettors, a second generation newspaperman, grew up in Corpus Christi. He was graduated from The University of Texas at Austin with a degree in journalism. He was a member of Phi Sigma Kappa, Delta Sigma professional advertising fraternity.

Vettors is a 4th Degree Knight of Columbus. While in Dallas he was a member of the QED Board of St. Pius Catholic Church and a director of Bellmead Day Nursery. He was active in the United Way campaign and the American

Cancer Society. He is a past president of the Dallas chapter of the American Association of Newspaper Representatives.

His hobbies include softball, tennis and hunting.

Vettors' wife Mary also is a graduate of The University of Texas at Austin. They have four children, Debbie, Clem, Mike and Cathy. Their home is at 1266 Harvard St.

They are members of St. Ann's Parish.

Gilbert C. Vettors

Medicare Costs To Increase Again

WASHINGTON (AP) — Persons hospitalized under the federal Medicare program will be required next year to pay at least the first \$104 of their medical bills, up from the present \$92, the government says.

The Social Security Administration, blaming hospital costs that are rising 30 per cent faster than the cost-of-living, announced Tuesday it will shift to a new schedule of higher rates for most services starting Jan. 1, 1978.

The out-of-pocket charge for the average hospital stay will

be raised 13 per cent from the current \$92, the agency said.

The new amount is equivalent to the average cost of one day of hospitalization, Social Security Commissioner James B. Cardwell said. The average Medicare patient now is about 12½ days and costs \$1,400.

The new rates also mean Medicare patients will pay additional costs of \$3 a day for extended hospital stays and \$1.50 daily for long-term post-hospitalization nursing home care.

Of the 21.1 million people receiving Medicare coverage, 22 million are aged 65 and over and 2.1 million are disabled.

Beginning next year, Medicare beneficiaries who stay in the hospital more than 60 days will pay \$36 daily for the 61st through the 90th day. Currently they are charged \$23 a day.

For extended nursing home care after release from the hospital, the patient will be charged \$11, compared with the current \$11.50, for the 21st through the 100th day in a skilled nursing home.

After patients pay the initial charges, Medicare will pay all bills for the first 60 days in a hospital and the first 20 days in a skilled nursing home.

Medicare also provides a "lifetime reserve" of 60 extra hospital days that a beneficiary can use when he needs more than 90 days to recover from an illness. The daily out-of-pocket charge for that once-a-lifetime benefit will increase to \$22 from the present \$16.

The monthly charge for Medicare beneficiaries who choose optional medical coverage for doctors' bills will not change. That rate has been frozen at \$6.70 since July 1974.

45 Persons Die In Four-Vehicle Crash In Mexico

MEXICO CITY (AP) — A flaming collision between a trailer truck, a crowded bus and two other vehicles killed 45 persons on a foggy highway near Mexico City, the Red Cross said. Police said 15 other persons were hospitalized, seven of them in critical condition.

A survivor said the bus was carrying at least 30 passengers. The accident occurred Tuesday on the Mexico City-Toluca highway, 35 miles west of the capital. Police said many of the passengers on the bus were on their way to work in Mexico City.

Bailey Says Magic Not Needed

By WILLIAM HELTON SAN FRANCISCO (AP) —

"They tell me I am going to have to pull a rabbit out of a hat," said Patricia Hearst, "but I don't know how to pull a rabbit out of a hat."

But the flamboyant Boston attorney who has defended such clients as Jack Ruby and Capt. Ernest Medina said Tuesday, "That's not my impression. I've never seen anyone pull a rabbit out of a hat to win a case. I don't know how to pull a rabbit out of a hat."

Bailey said it "won't be an insurmountable task" to obtain a fair trial for Miss Hearst and that defending her will not be an impossible job.

He said he did not yet know what the basis of Miss Hearst's defense will be, but "obviously, the state of mind of the defendant will be a big issue in the trial."

Bailey said he wanted to determine whether the 21-year-old newspaper heiress is competent to cooperate in her own defense.

"This involves her ability to communicate," he said.

Two other members of the defense team, Terence Hallinan and John Kuntz, said in court papers Tuesday that Miss Hearst was "vacillating in her attitude toward her parents and lawyers" and was impatient during discussions of her legal case.

"She would sometimes sit for several minutes staring straight ahead, ignoring questions that were put to her," they said in a document labeled "a preliminary statement of our concept of Patty Hearst's

mental and emotional condition."

The attorneys said Miss Hearst, who underwent four hours of testing by court-appointed psychiatrist Dr. Donald Lande at Stanford University on Tuesday, may be on the verge of a nervous breakdown and "seemed to have no idea of the gravity of her position."

Bailey said he and U.S. Atty. James L. Browning had agreed not to try to set a trial date yet on ground rules for the pay-

chiatric testing of Miss Hearst.

Bailey said he wanted doctors to have full access to her.

Carter appointed three psychiatrists and a psychologist to examine Miss Hearst to see if she is mentally competent to be cross-examined on an affidavit which she signed.

The affidavit said Miss Hearst was brainwashed and tortured by her Synchro-Liberation Army captors and was forced to participate in the

robbery of a San Francisco bank on April 15, 1974.

But in a jailhouse conversation with a girlfriend friend before the affidavit was submitted, Miss Hearst described herself as a "revolutionary feminist." Excerpts of the tape were made public when they were placed in court records.

West Point Nearly Ready For First Female Plebes

WASHINGTON (AP) — After months of studies, the Army announced Tuesday it is preparing West Point for its first women cadets in the change the barracks and

Army officials have hit a snag trying to adapt the plebe's tight-fitting gray uniform for women, but they have given that problem to some outside designers to solve.

Women can apply for the Army, Navy and Air Force academies contingent on President Ford signing a military authorization bill which includes a provision for admitting women into the military universities.

The Army started preparing for women cadets last summer in anticipation they'll be entering the class of 1980 next July 6.

Col. Thomas P. Garigan, public affairs officer for West Point, describing Tuesday what the Army has done to prepare for its first class of women, said one of the academy's biggest problems was that "we knew little about women."

He got an idea of what changes might be necessary in West Point requirements, Garigan said, members of the Women's Army Corps and other military women were tested on the physical fitness requirements.

The pull-up is like a chin-up, only with the palms of the hands facing outward, rather than inward.

Of those tested, only one percent could do the six pull-ups

required by the academy for admission, Garigan said. As a result, West Point might use some of the physical tests used by the WACs.

He also said the biggest problem with women is that they lack sufficient upper body strength, which he said will have to be developed so they can load tank guns or work with heavy equipment parts.

But Garigan said the Army is finding very few problems with bringing women into West Point.

He said women will not be allowed to play football because West Point is a National Collegiate Athletic Association member and the NCAA bans females from the sport. He said they will be kept out of boxing and wrestling because of the possibility of breast injury.

But they can substitute sports like karate or judo for boxing and wrestling, Garigan said. There will be no changes in academic training and, if any, in combat training.

They will be housed in barracks with male cadets in an arrangement that puts men and women at opposite ends of hallways.

"The only significant change" in the barracks will be the latrines, which will include changing some of the plumbing and partitions to separate the men's and women's sections, he said.

About 300 women already have inquired about gaining admission but so far only 11 have submitted applications, Garigan said.

He said the Army has not set limits on how many women will be admitted as the first female plebes, but he said it would take about 30 to 100 to make the program work.

The Army is committed to making it work, Garigan said, adding that West Point "assumes women can do anything a man can do until there's a data base showing otherwise."

Jones To Speak To Reagan Lions

BIG LAKE — Ross Jones of Midland, chairman of the Lions CARE program in District 2-A1, Lions International, will be the speaker Thursday noon at the meeting of the Reagan County Lions Club.

He will review the program — its background, operation, achievements and goals — and will show a special film on the subject.

CARE is a major program of the international association. Jones is a past president of the Midland Evening Lions Club.

Astronomers Meet In Castle Gap Park

West Texas Astronomers will meet at 7 p.m. Saturday in Castle Gap Park where telescopes will be set up, where

Members are urged to bring picnic dinners. Persons desiring further information may contact Ed Davis at 682-3445 or Wayne Thomas at 684-3217.

Houston Ceremony Unites Couple

HOUSTON — Lees Carol Simmers of this city, daughter of Mr. and Mrs. Lee Simmers of 2807 Metz Drive, Midland, and Gary Alan Reece of Houston, were married in a ceremony performed here by the father of the bridegroom, an Episcopal minister, in the home of Mr. and Mrs. David L. Simmers, brother and sister-in-law of the bride.

The Rev. Richard Reece of Athens, W. Va., and Mrs. Dorothy Reece of Dallas are parents of the bridegroom.

Andrea Ruth Simmers of Midland attended her sister as maid of honor, and best man was the brother of the bridegroom, William Paul Reece of Denton.

The bride is a graduate of Tascosa High School at Amarillo and of The University of Texas-Austin. The bridegroom is a student at North Texas State University. He is employed with Chem Lawn Co.

Marriage Of Midlander's Daughter Reported Here

HILLSBORO — Margaret Yvonne Wyatt and John Joseph Smiley were united in marriage in a ceremony performed by the Rev. Bob Moon in the First Presbyterian Church here.

The bride is the daughter of David F. Wyatt of Midland and Mrs. Harold G. Sadler of Hillsboro and Fort Worth. Parents of the bridegroom are Mr. and Mrs. Joe H. Smiley of Atlanta, Ga.

Attendants of the couple were Mrs. Jimmy Tucker and Tommy Smiley, both of Atlanta. Ringbearer was Steven Wyatt, nephew of the bride. Gregory Wyatt and Marcus Wyatt, both brothers of the bride, were ushers. Gregory Wyatt, brother of the bride, was soloist.

Mr. and Mrs. Smiley are employed by Delta Airlines at Atlanta. The bride attended Midland schools, and has a fashion merchandising degree from Patricia Stevens Modeling School.

Immediately following their honeymoon, the newlyweds were honored at a reception in Atlanta, where they will reside.

Mrs. John Joseph Smiley

Young Homemakers Organize Here

The Tall City Chapter of Young Homemakers of Texas held an organizational meeting in Midland High School.

Members attending were Mrs. Warren Cloyd, Mrs. Jim Holt, Mrs. Roger Willis, Mrs. Richard Galle, Mrs. John Davidson, Mrs. Larry Hill, Mrs. Jeff Wells, Mrs. Guy Riddle and Mrs. John Hicks.

Membership is open to any woman not enrolled in high school and is under 35 years of age.

Purpose of the club is to educate the young homemaker in areas in which she has the most interest.

Anyone wishing more information may contact Mrs. Cloyd at 682-5251 during the day or 694-7965 after 5 p.m.

The club will meet the second Thursday of each month, beginning at 7:30 p.m. Oct. 9. At that time, officers will be elected and educational programs will be decided upon and outlined. Babysitting service will be provided for all meetings.

'PRICKLY PAIRS' PARTY — Mr. and Mrs. Jack Huff, left, and Mr. and Mrs. John S. Bullard are shown at the cocktail party and dinner held following the annual Midland Country Club "Prickly Pairs" golf tournament.

Party Follows Golf Tournament

A cocktail party and dinner were held following the annual Midland Country Club "Prickly Pairs" golf tournament.

Other activities included a luncheon and awards party.

Out-of-city guests included Mr. and Mrs. Taylor LaGrone of Dallas, guests of Mr. and Mrs. Robert L. Spears, Mr. and Mrs. Randolph Yost of Tulsa, Okla., guests of Mr. and Mrs. Russell Yost, Mr. and Mrs. Tom Carpenter of Houston, guests of Mr. and Mrs. Jack Sappington; Mr. and Mrs. Lloyd McKee of Albuquerque, N.M., guests of Mr. and Mrs. Homer Adams; Mr. and Mrs. Jim Tarr of Houston and Mr. and Mrs. Bill Krueger of Palo Verde, Calif., guests of Mr. and Mrs. John Bullard.

Mrs. Jack Huff was the tournament chairman. The social chairman was Mrs. Bullard. George Locker served as master of ceremonies.

Officer Honored

Mrs. Renie Oton of San Antonio, a member of the Brilliance Committee of the Grand Chapter of Texas, Order of the Eastern Star, was honored with a reception by District 2, Section 8, OES.

Mrs. Florence Read, past grand matron; Mrs. R. G. Crum, Mrs. Ad Richardson, Mrs. Mason Shurley, Mrs. Steve Baker and Mrs. James J. Johnson, along with the honoree, greeted the guests.

Registering guests were Mrs. Ouida Branson, and Mrs. Loma Bradley. Approximately 125 persons registered from Floydada, Lamesa, Odessa, Big Spring, Midkiff, Crane and Midland.

FREE BEEF

Register now for \$50 worth of steak to be given away Saturday, Oct. 4, at 6:00 p.m. No purchase necessary you do not have to be present to win. Now you can enjoy our budget specials and have an opportunity to enjoy our tender, luscious steak as well.

Specials!
PURE LEAN GROUND CHUCK
Lb. \$1.29

FULL CUT ROUND STEAK
Lb. \$1.49

Not less than 70% Lean GROUND BEEF
Lb. 79¢

HERE'S WHY OUR FREEZER PACKS ARE THE SMART WAY TO BUY BEEF!

1. You get the same delicious grain-fed beef available at our counter and at substantial savings.
2. It doesn't take much money. A half beef costs from \$200 to \$250, but our freezer packs are available for as little as \$9.99.
3. It doesn't take a large freezer to store your beef. Our packs fit easily into most refrigerator-top freezers.
4. You can choose which cuts you want. If you want all steak, we have it. Or if you want all ground beef, we have that, too. You don't end up with a freezer half full of cuts you don't like.

FREEZER PACKS

20 Lbs. Chuck Roast \$18.00
10 Lbs. Round Steak \$14.50
10 Lbs. All Beef Patties \$8.50

Your Satisfaction is Guaranteed!

All our beef is grain-fed, aged, and U.S.D.A. Inspected.

☆ Sorority News ☆

The Iota Beta Chapter of Beta Sigma Phi held a party in the home of Mrs. Dale DeBord.

Mrs. Frank Flournoy, president, announced the affiliation of Mrs. Doug Sprague and Mrs. Ed Wallace.

It was revealed by Mrs. Glenn Gardner, advisor, that Mrs. Flournoy was elected chapter sweetheart and will represent Iota Beta in Midland and international contests.

Mrs. Ira Kirby and Mrs. Sprague won game prizes.

The Xi Pi Kappa Chapter of Beta Sigma Phi held a progressive dinner, beginning in the home of Mrs. Eddie Squyres, 1606 W. Louisiana St., where the "Orient" was the theme for hors d'oeuvres.

"Polynesian" was the theme for the salad served in the home of Mrs. Eddie Wiginton, 3401 Shell St. The main course was served in the home of Mrs. Duane Stewart, 2504 Maxwell St., the theme being "European." Dessert and drinks were served at a Midland establishment, where everyone danced to juke box music.

Guests were Mr. and Mrs. Bill Brown, Mr. and Mrs. Don Farrer, Mr. and Mrs. Jim Hughes, Mr. and Mrs. Paul Stafford and Mrs. Letha Nitsch.

Mrs. Gary Schaffer was hostess to a business session for Mu Psi Chapter of Beta Sigma Phi. Mrs. Marty Hearn presided.

Mrs. Dwain Martin and Mrs. Randy Wynne presented the program on "What Women Are Heir To."

Receiving the hostess gift was Mrs. Bill Southerland. Guests were Mrs. Mike Collins and Mrs. Bill Brown.

Membership Month Under Way

Mayor Ernest Angelo Jr. has proclaimed October as PTA Membership Month.

The Texas Congress of Parents and Teachers was started in 1900 and now has more than half a million members. The main purpose is to promote the health and safety of all children.

There is special emphasis on the drive this year, as Texas is in a contest with Oklahoma for the largest PTA membership. Each PTA unit with an increase in membership of 10 per cent more than last year will be entitled to a special honor at the state convention in Houston in November. PTA units meeting this increase will be members of the Lily Pad Club and awards will be given. A special award will go to the local unit with the largest percentage increase.

The drive's motto is "Every Child Needs You—Join the PTA."

Midland Altrusans Hold Meeting

The Altrusa Club of Midland, Inc., met in the Elks Club with Mrs. J. P. H. McMullan Jr. presiding.

Mrs. Loyd Wornell, chairman of community services, announced the club contributed to the Midland County 4-H Council to help toward the purchase of award medals to be presented at the upcoming awards dinner and dance. A donation also was made to the landscaping program of Midland College.

Pictures of early-day Midland buildings are on display in the windows of Texas Electric Service Co. as announced by Mrs. H. N. Phillips, chairman of the Bicentennial committee. She also discussed the club's Bicentennial bonnet fund-raising project. Proceeds from the latter will be used to finance Bicentennial activities of the Midland Altrusans.

Mrs. John P. McKinley Jr. announced a seminar to be held at the Permian Basin Petroleum Museum, Library and Hall of Fame and asked for Altrusa representation to this event, and to the Permian Basin Historical Society meeting Oct. 11 at Midland College, each an all-day affair.

Mrs. W. N. Keisling, chairman of Altrusa information, presented a program on club year books; their purpose, use and value.

A new member, Mrs. Richard Schmidt, was presented her Altrusa kit by Mrs. Keisling and her Altrusa pin by Mrs. Roy F. Gardner.

Junior Cotillion Slates Dance

The Midland Junior Cotillion ninth grade dance will be held from 7:15-9:30 p.m. Thursday at the Midland High School Youth Center.

Mrs. W. N. Keisling, chairman of Altrusa information, presented a program on club year books; their purpose, use and value.

Chapter Holds Salad Luncheon

The Iota Beta Chapter of Beta Sigma Phi had a salad luncheon in the home of Mrs. Dan O'Grady, 2209 Gulf St.

Guests included Mrs. Wayne Barton, Mrs. Scott Cole, Mrs. Donald Farrer, Mrs. Billy Hicks, Mrs. Doug Sprague and Mrs. Ed Wallace.

Other members attending were Mrs. Scott Wilson, Mrs. Rick Lanning, Mrs. Frank Flournoy, Mrs. Al Holloway, Mrs. Dale DeBord and Mrs. Glenn Gardner, chapter advisor.

MEMBERSHIP MONTH — Mrs. Frances Tompkins of the Midland City Council Parent-Teacher Association, is shown with Dr. James Mailey, left, superintendent of the Midland Independent School District, and Mayor Ernest Angelo Jr. October has been proclaimed PTA Membership Month.

Dear Abby Advice Is To Level, Or Leave The Scene

— By Abigail van Buren

DEAR ABBY: I am a 28-year-old professional man who is just getting started on a shoestring. You might say.

A very bright (but terribly overweight) 28-year-old woman has been aggressively pursuing me. She's good company, but I have no real love interest in her.

I do not like being seen with her because of her size. (She wears clothes that look like tents or maternity clothes.)

She has plenty of money since she just came into an inheritance and has been buying

me some very expensive presents. She has offered to buy me a car, but so far I have refused, although it would come in very handy.

She is an excellent bed partner, but I have to take her out in public occasionally, which makes it awkward.

My brother, who has met her, tells me that if I do not have her marriage in mind, I should not see her or accept any more gifts from her.

What do you advise?

CANADIAN

DEAR CANADIAN: Your brother is wiser than you are. The more you accept from this girl, the greater your obligation. Furthermore, she may equate your accepting her as a bed partner with having a "real love interest" in her — which you have not.

The advice from here is to either level with her or say goodbye.

DEAR ABBY: Why should anyone be made to feel guilty for having mistaken a boy for a girl? I wouldn't let the kid put the onus on ME. I'd put it on HIM, where it belongs.

This happened to me once, and I asked, "Well, if you don't want people to think you're a girl, why do you go around looking like one?"

VIVIAN G

DEAR VIV: Thanks for a beautiful gender bender!

DEAR ABBY: I am a professional entertainer. I love to sing, and being on the bandstand, showing people a good time, is what it's all about.

I have a very real gripe: Invariably, there is a frustrated singer in the audience. He (or she) will dance as close to the mike as possible and sing loudly along with me. It's very distracting to hear someone singing a beat behind (or ahead) and usually off-key.

I want everyone to enjoy themselves, but not at my expense. After all, someone just might be trying to listen to ME.

The orchestra and I practice long, hard hours to make our music good, and it bugs me to have somebody who is on his own little ego trip louse it up for everyone else.

If some self-styled vocalist wants to be where I am, let him take voice lessons like I did, form a group and take it from the top, boys! I hear you also get paid.

So, if you're there in the audience, please, don't sing!

HINTS FROM Heloise

How To Save On That Expensive Freezer Paper

Dear Heloise: I would like to share with other readers how I wrap meats and poultry for freezing.

For years, I packaged my meats in plastic-coated freezer paper, but the cost of this paper has become rather expensive. In order to save a bit, I wrap individual meats in clear plastic wrap (considerably less expensive), and then put two or more items wrapped this way together, and put a wrapping of freezer paper over all.

This cuts down on the size of the freezer paper used. The meat is also wrapped tightly with the clear wrap, thus avoiding any air to remain in each package.

When I want to use any of the individual packages, I take it out and rewrap the ones remaining in the freezer paper.

In addition, the freezer paper remains absolutely clean, not coming in contact with the food and thus can be used again.

Conserves paper — and money!

Mrs. A.B.

You're right as rain. You can utilize bread wrappers, etc., for the first wrapping, thus saving a bit more.

Pop into our column anytime. love you, Heloise

LETTER OF LAUGHTER

Dear Heloise: The letter from the lady who puts instant coffee in her gravy brought back childhood memories to me.

However, it's been a long time since I was a child, as I've been a Senior Citizen for quite a few years.

Any way, my mother was a very good cook, and was preparing dinner for "company." The gravy wasn't quite brown

if you've been a hankerin' for open paces...

Major Earthquake Hits Near Sumatra

WASHINGTON (AP) — A roughly near or on the west coast of Sumatra, about 300 miles north of Jakarta, according to the survey.

The survey said it could not determine if the quake was offshore in the Indian Ocean or on the west shore of the island.

The earthquake is at least the sixth one of magnitude 7.0 to have occurred in the world this year and is large enough to cause significant damages in heavily populated areas, the survey said.

The exact location of the quake is unknown, but a survey spokesman said that the city of Padang and the Mentawai Islands, are near the quake area. He described the area as "highly seismic."

The Richter scale is a measure of ground motion as recorded on seismographs. Every increase of one number, say from magnitude 5.5 to magnitude 6.5, means the ground motion is 10 times greater. Some experts say the actual amount of energy released may be 30 times greater.

In populated areas, an earthquake of 3.5 on the scale can cause slight damage in the local area, 4 can cause moderate damage, 5 considerable damage, 6 can be severe. A 7 reading is a "major" earthquake capable of widespread, heavy damage; 8 is a "great" earthquake capable of tremendous damage. The great San Francisco earthquake of 1906 registered 8.3 on the Richter scale.

Fannie Taylor Dies; Rites Friday

Fannie Bess Taylor, 82, of 807 W. Kansas, Midland, died Monday after a long illness.

Services will be held at 10 a.m. Friday in the United Methodist Church in Midland with burial in Fairview Cemetery under the direction of Newell W. Ellis Chapel.

Miss Taylor was the daughter of C. A. and Irene Wood Taylor, some of Midland's first settlers.

Miss Taylor was a life-long member of the United Methodist Church in Midland, a member of the Night Guild having held every office and an active member of the Midland Women's Club serving as past president. She was a charter member of the Desk and Derrick Club and of the Business and Professional Women's Club, in which she held every office at the local level and served as state treasurer. She was active in all phases of civic life in Midland, having worked for the Red Cross and served on the city-county health board, the library and many other civic projects.

Survivors include two nieces and one great-nephew.

Dallas School Trustee Says Minorities Don't Want Busing

DALLAS (AP) — Minorities want quality education, not busing, as a means of accomplishing integration, a Mexican-American Dallas school board trustee says.

Robert Medrano, who voted against the recent busing plan by the school board, told the Exchange Club Tuesday "there was a time when minorities thought transportation was the only way. This has definitely disrupted the country."

Medrano said that "what is needed is to provide the same quality of education so minority students can deal with the competition in the outside world."

Medrano also said he doubts that a Dallas school desegregation plan will be ready before next September.

He added he believes all parties involved in the desegregation suit will be successful in obtaining a delay of implementation of a desegregation plan.

SPEAKER—Dr. W. Joe Hacker Jr., new president of Lubbock Christian College, will be the speaker at the Midland LCC Associates' meeting at 7:30 p.m. Thursday in the Service Building of the North A and Tennessee Streets Church of Christ. His subject will be "LCC Moves Forward." The public is invited to attend.

"FAITH THAT SAVES"

"For by grace have you been saved through faith; and that not of yourselves, it is the gift of God; not as a result of works, that no one should boast. For we are His workmanship, created in Christ Jesus for good works, which God prepared beforehand, that we should walk in them." (Eph. 2:8-10)

The passage before us states that salvation from sin involves both the human and the Divine. Grace shows God's love and concern for sinful man while faith is something possessed by man that causes him to appropriate God's wonderful grace. In defining the term "grace," let us just simply say, because of the limited space, that it is "the unmerited favor of God." If man got what he deserved from his Creator he would be cast eternally into hell without any provision made for his escape. But God's grace says, "No! I will provide a plan through which and by which such sinful creatures can be saved from sin here and from the wrath to come." So God provided a PLAN to save sinful man. He declared that man must believe in Jesus as the Son of God (Jn. 8:24), that man must repent of his sinful life (Lk. 13:9), and that man must be immersed in water for the remission of his sins (Ac. 2:38). Now this is not the works of man, because it is not in man to design a plan by which he can be saved (Jn. 10:23). Hence, "Not of works (works of man) lest he should boast." If man could devise a plan to save himself he would really have something to boast about! But he cannot—because it is not works of man.

Looking at this salvation from man's point of view, the text says that God's grace saves "through man's faith." When a man has the KIND of faith that does more than acknowledge that "God is," he has the kind of faith that saves him. When his faith causes him to accept without question God's PLAN, in obedience to such a plan, then, and not until then, can he be said that he is saved "through faith." Hebrews 11 is what we call the great "faith chapters" of the New Testament. Read it my friends, and you will see at once that faith always saves when faith obeys. Will you express your faith in God by doing what He says in order to be saved? We hope so.

Bentsen May Accept Offer Of Secret Service Protection

WASHINGTON (AP) — Democratic presidential hopeful Sen. Lloyd Bentsen has indicated he is leaning towards accepting Secret Service protection for his presidential candidacy.

At a news conference here Tuesday, the Texas senator said the protective service would put restrictions on his travel and his personal privacy.

He said his decision will probably be made within a day on whether to accept the protection.

Six Candidates

Bentsen said he was reluctant to be among the few who had decided not to accept the Secret Service guards.

Bentsen is one of six candidates for the Democratic presidential nomination offered Secret Service protection so far.

Rep. Morris Udall and Alabama Gov. George C. Wallace have accepted while former North Carolina Gov. Terry Sanford has turned it down.

Sen. Henry Jackson and former Georgia Gov. Jimmy Carter haven't announced a decision.

Recent assassination attempts on Ford's life, Bentsen said, had not changed his views on gun control. He added that the only laws he would like to see enacted are tough penalties for carrying handguns or using firearms in the commission of crimes.

On his presidential plans, Bentsen said he still hadn't reached any decision on what primaries, except Texas, he would enter, and that he had shifted some of his campaign work from New York City into upstate New York to do more work in that part of the state.

Great, Historic Day

Midland College, with its new, spacious, attractive campus overlooking the Tall City from the north, will be the scene Thursday morning of an event of tremendous, far-reaching significance.

The occasion, of course, will be the formal dedication of the new community-oriented college, which is destined to be one of the great institutions of higher learning of its kind anywhere. And the benefits to be derived from it by the community and its residents are impossible even to visualize.

Midland, quite naturally, has experienced impressive dedications of numerous facilities and institutions of tremendous stature during its 90 year history, but none perhaps more significant and meaningful from the long-range viewpoint than the one at hand.

Here we have an educational institution, already off to an incredible start, whose potential for serving the community and its residents through the years to come is without bounds. Citizens have every reason to be proud of Midland College.

The Tall City for years had been one of only two Texas cities of metropolitan status not having a college. That situation now has been adjusted in a most pleasing, satisfactory manner.

It is perfectly fitting, too, that Gov. Dolph Briscoe should do the honors in dedicating this new facility which will take its place among the other great institutions of higher learning in the Lone Star State.

An unusually large, enthusiastic and appreciative crowd undoubtedly will be on hand for the dedication ceremony and to see and inspect their college.

As a spokesman for the college said, "This is everybody's college and we want as many residents as possible to be present for Thursday's historic occasion."

Preceding the dedication of the entire campus at 10:30 a.m., will be the 9 a.m. dedication of the Hodge Carillon Tower, presented to the college by Mr. and Mrs. J. Howard Hodge and Mrs. Sanford J. Hodge in memory of Sanford John Hodge.

The dedicatory events and the day-long guided tours of the college's new and impressive facilities will be a community-wide celebration marking the culmination of a dream come true... of long years of planning, striving, financing, building, and then planning and

working some more. Countless hours, days and weeks of diligent effort have gone into the college project, always with one thing in mind — to provide here a college facility of the first order.

And with more than 2,000 students presently enrolled at Midland College, plans for its expansion already are under way. This is as it should be. Success to date has exceeded the fondest dreams of its original sponsors.

Members of the school's board of trustees, administrative staff, faculty and others have gone far beyond the normal call of duty in establishing and building a college of which all may be proud. They are due commendation of the highest order for their hard work and determined effort.

The marvelous part about the whole business is that Midland College can do what residents of the college district want it to do for them. It is as flexible as this — truly a community institution. Its favorable impact on the city, county and area already is evident.

Midlanders in large numbers already have exhibited their wholehearted support of the college — financial and otherwise. This type of community support will make of Midland College an institution of excellence in every avenue of education and service to the community and to Wonderful West Texas as a whole.

Thursday truly will be a great and historic day in Midland's history... yet it is only the beginning for Midland College.

THE BIBLE

Can you quote it?

BY LAVINA ROSS FOWLER

1. The Interpreter's Bible rates Barnabas as one of the most attractive characters of Christianity. He was most discerning in discovering the talents of others and utterly unselfish in advancing them and their ideas. He brought Paul from Tarsus to Antioch. Tell the great work they accomplished in one year. Acts 11:25-26

2. The first Christian Relief Fund was started in Antioch. Name one of the workers. Acts 11:27-30

3. "He giveth power to the faint; and to them that have no might..." Isaiah 40:29

4. Of whom did God say, "It is not good that man should be alone..." Gen. 2:15-18

5. What plague proved the "knock-out blow" for Egyptians? Exodus 12:12

Four correct... excellent. Three correct... good.

ST. JOHN'S JOURNAL—

Busing And The Educational Police State

By JEFFREY ST. JOHN

Copley News Service

WASHINGTON — "The danger is," observed the pollster and political statistician Richard Scammon in 1970 of racial integration, "that you could have a white working-class revolt against the federal judiciary and the whole liberal establishment."

The violence over forced school busing in cities like Boston and Louisville is the revolt Scammon warned against. The opposition to busing to achieve racial balance is as widespread among blacks as among whites.

Mrs. Coretta Scott King, wife of the slain civil rights leader, for example, recently wondered whether the "futile shuffling of students from one school to another with the scant prospect of meaningful education" was really the answer.

Despite majority opposition to busing and study after study demonstrating its failure, a small number of political leaders in Congress, bureaucrats at the Department of Health, Education and Welfare and the Ford administration's Justice Department continue to pursue busing. Sen. Robert Dole, R-Kan., argued on the day school opened this year across the country that while Congress last year adopted a national policy restricting HEW from seeking busing, "the attorney

general is pursuing busing more vigorously than ever."

The fanaticism of many liberals on the busing issue can only be explained in terms of the enormous political power that might be lost by the liberal establishment if it confessed that its policy of integration has led to disintegration. In fact, one of the scholars whom liberals relied on to justify busing, Prof. James Coleman of the University of Chicago, submitted to a Boston court on Sept. 3 a statement that he was convinced that court-ordered school integration could only accelerate the flight of whites to the suburbs, thus defeating the purpose of busing. Coleman authored in 1966 a paper known as "The Coleman Report" supporting the use of busing to achieve integration. A study by Harvard Prof. David J. Armor released in May 1972, a year after the Supreme Court issued a decision ordering busing, concluded that busing in six northern cities was a failure in its stated aims.

Despite this evidence, courts continue to push busing. Why? In order to answer the question one must realize the political power wielded by the educational establishment on the federal, state and local levels in this nation with billions upon billions expended each year. Liberals confessing failure that their fanatical social engineering schemes were wrong would mean endangering

The Washington Merry-Go-Round

By JACK ANDERSON

With LES WHITTEN

WASHINGTON — In Washington, both Congress and the Justice Department are investigating our charges of last July that Philippine President Ferdinand Marcos offered a witness a \$50,000 bribe not to testify on Capitol Hill about corruption and tyranny in the Philippines.

In Manila, Marcos reacted in a different way. He brought criminal charges against the witness, former press censor Primitivo Mijares, and now is using the criminal complaint as a ruse to seek his extradition.

Marcos also has retaliated against a San Francisco newspaper, the weekly Philippine News, which played up our bribe story. He brought pressure through his Secretary of Tourism, Jose Aspiras, on U.S. travel agencies to withdraw their ads from the newspaper.

The Marcos regime has the power, of course, to deny Philippine visas, commercial papers and other documents to clients of the travel agencies. As a result, four travel agencies have closed their accounts with the Philippine News. Publisher Alex Esclamado estimates the advertising loss will cost him \$50,000 a year.

A spokesman for the Philippine Embassy in Washington told us that the embassy has no knowledge of any advertising boycott against the Philippine News. If advertising was withdrawn from the paper, the spokesman added, "these acts were unsanctioned by the Philippine government."

On the contrary, we have obtained the actual letter which was sent to two of the travel agencies. It confirms the extortion in the baldest terms. We also have established that the pressure came directly from Marcos' personal aide, Dr. Guillermo De Vega.

The letter, written by Hotel Filipinas president Jose Cobarrubias, declares bluntly: "This letter will serve to confirm the verbal message that the Honorable

Jack Anderson

Jose D. Aspiras, Secretary of Tourism, asked me yesterday afternoon to convey to you, i.e., that he would consider it a personal favor if you would discontinue your advertisements in the Philippine News.

"As you know, the Philippine News has been continuously attacking the President. You also are aware of Secretary Aspiras' utmost respect for, and loyalty to, President Marcos; hence, this request should not be too much of a surprise to you."

In a cable to the Philippine Embassy, Cobarrubias has taken full responsibility for the extortion letter. "Before I tried to persuade the travel agencies to pull out from Philippine News," he cabled, "I talked with Secretary of Tourism Jose Aspiras, and he agreed with me that the newspaper and others like it were hurting the local tourism industry."

"He said he and his department would not object to my campaign and would not stop me from going ahead with it since it was based on my own personal conviction."

We have an affidavit that we have verified, however, that the real pressure came from Marcos' Malacanang palace. His personal aide in Manila and Philippine consul Trinidad Alconcel in San Francisco put the heat on the travel agencies, according to our sworn evidence.

The two agencies, Phis-Am and Gem, regularly send officials to Manila. Both Phil-Am's Emile Heredia and Gem's Joseph Libunao encountered pressure in Manila. Libunao sent a cryptic cable to his San Francisco office declaring:

a severe blow at the liberals' already steadily declining prestige and political power.

Thus they cling fanatically to concepts like busing, in spite of the fact they are turning taxpayers — i.e. parents — into lawbreakers and contributing conflict among the races and ethnic groups in the major areas of the country.

A system founded on force can only maintain its prestige and power at the point of bayonet and nightstick. In effect the taxpayers are funding a police state arrayed against the majority and run by an educational elite.

the small society

INSIDE REPORT

Sadat On A Limb As Congress Hesitates

By ROWLAND EVANS and ROBERT NOVAK

WASHINGTON — The dangerous deadlock between Secretary of State Kissinger and the Democratic Congress now threatens to undermine not only the Egyptian-Israeli Sinai agreement itself and the U.S.-Egyptian entente, but more important, Egyptian President Sadat's courageous conciliation policy.

Each day that passes without Israeli withdrawals to its new lines in the Sinai Desert makes Sadat more vulnerable to Arab political charges that he sold out the Arab cause for nothing.

Indeed, continuation of stubborn congressional delay in approving 200 U.S. technicians for radar duty in the new no-man's land could force Sadat to postpone or even cancel his first-ever visit here, now scheduled for Oct. 26. Sadat was originally due in Washington last December, but canceled because of lack of diplomatic progress on Israeli withdrawal from the Sinai.

Sadat's alarming political problems stem from the fact that while his country has signed the new Sinai agreement, Israel has not — and will not until Congress approves the dispatch of the American technicians.

This is raising questions at informed levels in Congress about how much Israel really wants the new agreement, now that President Ford has ended the Israeli arms embargo and new weapons are flowing to Israel.

"Israel's strategy seems to be changing," a congressional insider told us.

Evans Novak

"They seem to be doing exactly nothing to lobby Congress on the technicians. Considering Israel's real power up here, it's funny nothing is happening."

That points up an indisputable fact: the 200 technicians, together with the multiple arms, energy and money deals Kissinger had to pay for Israel's consent to the Sinai agreement, are now being used to prevent that agreement from being carried out. The loser is not Israel, whose public virtue is spotless since it expressly conditioned its withdrawal on the 200 technicians. The losers are Egypt — and Sadat.

Moreover, some pro-Israeli Congressmen are now insisting that Congress approve not only the 200 technicians but virtually the entire package of agreements in one document. Such a one-package congressional resolution would not be binding, because the arms, economic aid and oil money would have to be voted in separate legislation.

But such a one-package deal, being pushed by Republican Sen. Clifford P. Case of New Jersey among others, would constitute congressional sanction for subsequent approval of the whole package.

The House International Relations Committee is moving in a diametrically opposite course. Key members of that panel are quietly insisting on complete separation of the issue of the early-warning technicians from the rest of the Kissinger-Israeli bundle. They want the resolution authorizing the technicians to stand alone.

Rep. Thomas E. (Doc) Morgan of Pennsylvania, committee chairman, has summoned Pentagon witnesses to testify on the Kissinger package later this week. The Defense Department has already made known its reservations about some of the inducements of American arms which Kissinger offered Israel and wrote into various memoranda of understanding.

Finally, the Sinai agreement comes before Congress at a time when the congressional grab for power over foreign policy is reaching white-hot intensity. Never before has the Senate Foreign Relations Committee demanded that an administration make full public disclosure of confidential agreements in a situation where, as one congressional source told us, "there is maximum pressure of time."

The reasons for the congressional power grab constitute an indictment by the Democratic Congress of Kissinger's diplomacy. Foremost among them: the Nixon administration's secret pledge to South Vietnam that "maximum" U.S. power would be used against any Communist invasion.

That explains the element of spite mixed with revenge clearly discernible in the newest war between Congress and the administration. Kissinger has seldom been subjected to such acrimonious questioning as he was last week by the Senate Foreign Relations Committee.

Thus, Kissinger's future, as well as Sadat's and Egypt's, is on the line in the poisonous fighting which has raised a question mark over the results of one of the most difficult diplomatic jobs in Kissinger's career.

Kissinger will survive. But unless Congress acts soon, Sadat may not. That would be a catastrophe for every actor on the Middle East stage except the radical Arabs — and possibly Israel.

The Country Parson

By Frank A. Clark

Evans Novak

"Few folks want more than their fair share — but lots of us have an exaggerated idea of our fair share."

Sul Ross Alumni Plan Meeting

ALPINE — Former Sul Ross State University students residing in the Midland-Odessa area will meet at 7:30 p.m. Thursday in the Sherwood Community Center at 44th and North Dixie streets in Odessa.

Dr. Hugh Meredith, SRSU president, will be among the several administrators and faculty members present for the meeting.

A hospitality hour will follow a report of the Ex-Student Association activities, remarks by Dr. Meredith and a discussion of organizational plans for a local chapter.

Archie English of Odessa, secretary-treasurer of the Ex-Student Association, is in charge of local arrangements. Persons desiring additional information may contact him at 3733 Oakridge St. in Odessa or 362-3340.

Kathy Knox Elected President

Kathy Knox has been elected top officer of the Girls Wool and Sirolo 4-H Club.

Completing the officer slate are Judy Jones, vice president; Carla White, secretary-treasurer, and Kim White, reporter.

First Settlement

On May 15, 1967, Jamestown, Va., became the first permanent English settlement in America.

TURN WINTER INTO SPRING — Call Jerry's Sheet Metal, 684-4495 or stop at 700 North Fort Worth and talk to Jerry Riel. He will help you plan to make this winter's weather feel like spring. Consider a quality heating system with proper humidification from Jerry's Sheet Metal.

Jerry's Sheet Metal For Quality Heating And Humidifier Needs

Summer is only a memory, out or burn out and has a dual safe control. You will have uniform heat from room to room and from floor to ceiling with the gentle circulation of fresh, filtered air. Comfort is said to be the heart of the home and home comfort starts with indoor weather.

Whether you are building, remodeling or just need to do a little "modernizing," investigate the Day & Night Forced Air Furnace.

Call Jerry's Sheet Metal, your local "weather doctor." Learn how easily you can plan for the addition of air conditioning. There's a Day & Night system to fit your needs, for any heating installation, in any size or type of home.

If you already have a Day & Night, see Jerry about an Aprilaire Humidifier. Properly humidified air can help to repel upper respiratory ailments. In many cases where excessive dryness has been diagnosed as the cause of aggravation, doctors have prescribed humidification.

If the humidity level in your home is too low, you may feel cold even at 75 degree temperature setting. Proper humidification reduces the rate of evaporation from the skin and makes the room feel warmer. Those annoying wintertime static electricity shocks are reduced, also. Dry heat can cause walls and ceiling to crack and can make fabrics and carpeting wear out too fast.

There are many ways to save fuel and still be warm and comfortable. Consider a quality heating system with proper humidification and then see Jerry.

Round-Up Raises Record \$107,249 For Rehab Center

ABILENE, Tex. (AP) — The 18th annual Cattlemen's Round-Up for Crippled Children cattle sale here has netted a record \$107,249 for the West Texas Rehabilitation Center.

And a duck named Charlotte helped raise \$1,395 as she paraded 12 times through the auction ring here Monday while donating bidders bought her each time.

About two-thirds of the money came through serious bids on cattle such as the Charolais bull that brought \$2,000 while just over \$40,000 came from outright donations.

The record total exceeded last year's amount by almost \$10,000 as an estimated crowd of 1,500 made bids on 319 head donated by cattlemen around the state.

And Charlotte? She went back to the first grade class here that had donated her for the event.

Mobile Home Boom May Be Short-Lived

Copley News Service

The current boom in sales of mobile homes may be a short-term success story. It could simply be the prelude to a strong trend toward the construction of small "basic" houses throughout the country.

Many indications point to the revitalized market for mobile homes. The Department of Housing and Urban Development (HUD), for example, recently established a 24-member National Mobile Home Advisory Council. The group will research and recommend means of improving construction and safety standards in the manufacturing of mobile homes, and generally make them more acceptable to a larger segment of consumers.

Financing is now considerably easier to obtain for a mobile home purchase than it was just a few months ago. HUD and the Veterans Administration now back mortgage loans for qualified buyers of mobile units.

In fact, the VA recently liberalized its regulations, permitting higher maximum loans and longer repayment terms.

Even the much-discussed tax credit law, provided in the 1975 Tax Reduction Act, applies to the purchase of some new mobile homes.

The mobile home industry is standing straight and proud in reflection of its newly donned success image. In fact, even its name will soon be polished up and changed to a more prestigious sound: Mobile homes will soon be referred to as "manufactured housing," says industry leaders.

But all is not sunshine and roses in the fertile garden of manufactured housing. The repossession rate has risen substantially on mobile home transactions during the last two

years. Last year, 40 out of every 1,000 loans ended in default, according to a report by the American Bankers Association. In 1973, the default rate was 26 out of every 1,000 loans.

Many buyers who purchased their mobile home with a minimal down payment are simply turning their units back to the lenders, resulting in a "voluntary repossession." They then move into a rental apartment or acquire another type of housing—something they feel better suits their own situation.

One key problem is the depreciating values of mobile homes. Values tend to depreciate like motor vehicles rather than appreciate like conventional homes.

Although there are many exceptions, this general trend reduces the motivation to make continuing loan payments in times of financial hardship.

Many housing leaders see the current interest in mobile homes as a clear signal that the American consumer is ready and willing to purchase and live in a small, basic house. No frills or spacious luxury—just a well-planned small home with basic conveniences for modern living. And, of course, a modest price tag.

Also, the small homes of the future will probably utilize modular techniques—another lesson learned from mobile home manufacturers. Homes will be capable of expanding or diminishing in size, to meet changing family housing needs.

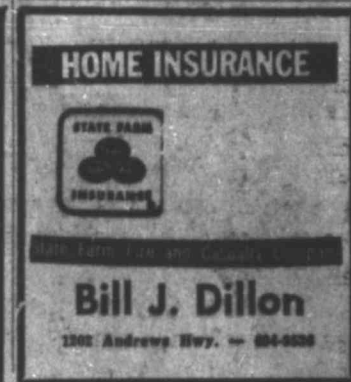

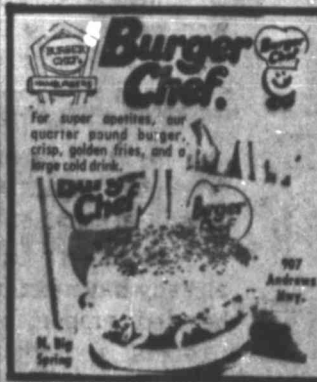

TOP-NOTCH SERVICE — Burns Bros. Shell Service Station, corner of Andrews Highway and Louisiana is a friendly place to stop for complete service operated by Ray Burns and Keith Mikeworth.

Burns Bros. Shell Station Offers Top-Notch Service

Burns Bros. Shell, 610 Andrews Highway, is close to the Village Shopping Center and is convenient for the oilfield and office worker. The complete and friendly experienced service given must be appreciated at Burns Bros. Shell, as business is good. Ray and Keith invite their old customers to visit them and newcomers are always welcome at Burns Bros. Shell, 610 Andrews Highway. Stop in for you.

Your complete service station, Burns Bros. Shell handles minor mechanical work, tune-ups and lubrications. Burns Bros. also sells tires, mufflers, batteries and they will install new shocks for you.

The location, 610 Andrews Highway, is close to the Village Shopping Center and is convenient for the oilfield and office worker. by Hines

To most parents today, youth is stranger than fiction.

Movies will reach new heights in realism when the detective telling a suspect can't find a parking space.

Growing older is mostly a matter of mind. If you don't mind, it doesn't matter.

People who cough never go to the doctor — they all go to theaters.

Times are tough. We just looked at a dollar bill, and Washington had his fingers crossed.

It's never tough to receive good treatment at Hines-Wood Upholstery, 5109 Andrews Highway... and you don't have to keep your fingers crossed. Call us at 694-8891 for a free estimate in the comfort of your own home.

Government Interested In Building Cities In Sky

By FRANK MACOMBER
Copley News Service

Men have been talking about cities in space for years—long before they walked on the moon, Jules Verne wrote about them, yet until now the idea has been pretty much in the imaginations of science-fiction writers.

A few years back Dr. Krafft Ehrcke, a German-born scientist who came to this country after World War II to play a vital role in the development of U.S. missiles and rockets, suggested moon colonies and wrote about them. While his proposals attracted some attention, they remained on the shelf in blueprint form.

Now the federal government and many scientists are showing an interest in building cities in the sky.

Recently the federal space agency sponsored a symposium of students, university scientists and space experts from industry who had spent 10 weeks at Stanford University this summer examining the feasibility of setting up communities in space.

Meeting at NASA's Ames Research Center, Mountain View, Calif., they proposed a design for a system to colonize space and found "no fundamental scientific obstacles to such an undertaking."

They recommended that the United States pursue the move of man into space, pointing out that "an actual program of space colonization might be an evolutionary step comparable to the transition of life from the sea to the land, or the transition of our own progenitors from life in the primitive forests to the open plains."

But it didn't stop there.

The American Astronautical Society, a group of distinguished space scientists, met in Denver for the society's 21st annual gathering. Seven panelists, including Dr. Gerard K. O'Neill, a Princeton physicist, argued the pros and cons of communities in space as part of their discussion of "Space Shuttle Missions of the 1980s."

Indeed, a lot of Americans seem to want to get away from it all these days, and the idea of living in space might catch on, except for the \$100 billion price tag tied to the project.

But Dr. O'Neill argues that even such a mountainous cost would be less than 20 per cent of the anticipated \$600 billion or more required to make the United States ultimately independent of foreign energy imports.

O'Neill says he isn't proposing space colonization as a way to escape a doomed spaceship earth. He envisions the first space colony as a community of highly skilled technicians and their families whose function would be the production of goods and services for which the space environment is more suitable than earth's.

And the key to the entire project, he points out, would be the harnessing of the sun's power, beamed to earth from satellite solar-energy stations in orbit.

O'Neill is convinced solar power will be needed to buttress earth's other energy resources. He bases his estimates on analyses of electric power requirements of 800 million kilowatts for this country alone by the year 2000, quadrupling today's U.S. consumption of 200 million kilowatts.

Listen to O'Neill's description of life in a man-made space town and you may want to pack your bags and take off for a new cylindrical home with abundant food supplies, clean electrical energy, controlled climate and temperatures.

As the Princeton physicist sees it, you'd someday be moving around a 20-mile radius by bicycle or low-speed electric car and be able to afford your own private recreational space vehicle—a space version of a small camper—for visits to distant communities with diverse cultures and languages.

O'Neill calls the space city of the future L5, because it would be located at the fifth LaGrange point, a place in space where the gravitation of earth and moon cancel out each other. That point is roughly 237,000 miles from earth. It was named after a scientist who computed the spot in space where earth and moon have equal gravity pull.

Many Nurses Favor Euthanasia If Patient Asks

The Washington Post WASHINGTON—Almost half the nurses responding to a recent survey of nurses' attitudes toward death and dying said they favor or slightly favor euthanasia, mercy killing, for dying patients who request it.

Also, 96 per cent of those participating in the poll said they favor or slightly favor withdrawing all life-sustaining treatment from dying patients who do not want such treatment.

More than 15,000 of the nation's approximately 1.5 million nurses took part in the study, conducted by Nursing 75, which

describes itself as the "world's largest nursing journal."

While the poll reveals that nurses have very liberal attitudes about such controversial issues as euthanasia and withholding care, it also shows that they are a long way from putting their views into practice, or from admitting that they do so.

Seventy-nine per cent of the respondents said they never "knowingly helped to hasten the death of a terminally ill patient."

Only 1 per cent of all nurses surveyed said they would "tell him the truth" when a

terminally ill patient "asks you if he is dying and his physician does not want him to know."

Of the nurses responding to the survey, 81 per cent said they would answer such a patient by asking why he brought up the question.

The responses to that question seem surprising in light of the fact that 60 per cent of the same group of nurses said a patient should be told he is dying "as soon as possible immediately after diagnosis," and another 21 per cent said he should be informed "only when he asks."

The survey also reveals that nurses' difficulty in coping with their own feelings about death when dealing with dying patients varies in proportion to the patient's age: with the exception of newborn infants, the younger the patient, the more difficult nurses find it to cope with death.

Over 60 per cent of the respondents said they are very uncomfortable or unable to cope with their feelings when the patient is a young child, while fewer than 5 per cent said they are very uncomfortable when the patient is elderly.

Forty-eight per cent of the

nurses who deal daily or weekly with dying patients said they are either anxious and uncomfortable, or somewhat uncomfortable, when a "terminally ill patient brings up the topic of his death or dying," while 48 per cent say they feel relieved.

An overwhelming majority of nurses surveyed favor "deliberately allowing newborns with gross abnormalities to die when there is no possibility of any meaningful existence," while only 8 per cent were firmly opposed to such conduct, and 11 per cent were "mixed, (or) slightly against."

Did Police Warn Federal Agents About Ford Threat?

By JAMES GERSTENZANG
WASHINGTON (AP) — The Secret Service and San Francisco police officials apparently disagree on whether the police warned federal agents that Sara Jane Moore might be a threat to President Ford.

At the same time, a Secret Service official says Mrs. Moore made five telephone calls to law enforcement agencies on the day she allegedly shot at President Ford in San Francisco last week.

She called the San Francisco field office of the Secret Service three times and the FBI and San Francisco police once each, according to Assistant Secret Service Director James T. Burke.

Each time she called the Secret Service, Mrs. Moore asked for the agents who had interviewed her the night before, and each time she was told they were not in the office, Burke said.

The agents she tried to reach

were Gary Jaeger and Martin Haskell, who, along with San Francisco Police Inspector Jack O'Shea, are scheduled to testify today at a hearing of the Senate subcommittee on Treasury, Postal Service and general government appropriations headed by Sen. Joseph M. Montoya, D-N.M.

The panel is investigating the Secret Service following two attempts on Ford's life within 17 days.

Jaeger and Haskell inter-

viewed Mrs. Moore on Sunday night, Sept. 21, and the next day she allegedly fired a .38-caliber pistol at Ford left the St. Francis Hotel.

While interviewing Mrs. Moore, one of the agents spoke by telephone with O'Shea, who had been Mrs. Moore's contact on the San Francisco Police Department. According to Burke, a Secret Service agent asked O'Shea, "Do I have a problem?"

The comment he says he got

back was, "No, you have no problem," Burke told the committee.

Burke said O'Shea described Mrs. Moore as an informant for the department, with no history of violence and wasn't a problem "but you guys probably ought to talk to her, anyway."

Asked by Montoya if contacts between Mrs. Moore and the agents she sought might have helped prevent the attack she was charged with hours later, Burke said, "I hope so. If they

had noticed a change in her attitude, they would have taken some action."

He said Jaeger and Haskell weighed O'Shea's evaluation and the information they received about Mrs. Moore's work for other law enforcement bodies when they decided she was not a threat to Ford.

"These are influencing factors," Burke said. "This was not someone off the street. She dealt with people in enforcement."

Secret Service Director H. Stuart Knight said no one else contributed to the decision about Mrs. Moore. Burke said the agency, studying the agents' decision after the at-

tack, agreed with their judgment.

Knight held out the possibility that the Sunday night interview may have started Mrs. Moore thinking about the attack.

House Votes To Hold New Pay Raise At 5 Per Cent

WASHINGTON (AP) — The House today killed the last chance of an 8.66 per cent pay raise for Congress and top government officials, voting instead to hold the increase to 5 per cent.

The outcome was a victory for President Ford, who opposed the 8.66 per cent proposal as inflationary.

The 5 per cent raise goes to senators and representatives, federal judges, the vice president, cabinet members and top government officials and white collar employees and military personnel.

It came on a motion to table, and therefore kill, a resolution that would have disapproved Ford's 5 per cent recommendation, automatically putting into effect the 8.66 per cent increase. As a result of the House vote, the 5 per cent raise instead be-

comes effective as of today. There was no debate on the issue.

Representatives and senators currently make \$42,500 a year. Federal judges receive \$36,000 to \$42,500. Supreme Court associate justices and cabinet mem-

bers are paid \$60,000 and the vice president and chief justice \$62,500.

The House Post Office and Civil Service committee and the full Senate already have voted to back Ford's 5 per cent pay hike recommendation.

Colby Turns Over Subpoenaed Documents

By JIM ADAMS
WASHINGTON (AP) — CIA Director William Colby apparently ended a move to hold him in contempt of Congress by turning over to the House intelligence committee all but about 50 words of subpoenaed documents.

Colby turned the documents over late Tuesday with the understanding that President Ford will decide what could be made public.

The committee was to meet today to decide whether to accept the arrangement. Chairman Otis Pike, D-N.Y., later said Colby no longer was a potential target for a contempt of Congress citation.

But Pike also said his fight for secret information is not over and that he still intends to ask full House backing for the committee's right to enforce its subpoenas.

The material Colby turned over consisted of 711 pages of documents on the 1968 Vietnam Tet offensive, including 25 pages of secret material on intelligence warnings of the offensive.

Meanwhile, an effort began on the House floor to make the CIA's annual budget public every year despite Colby's objections. Indicating that the CIA appropriation this year is something less than \$2 billion, Rep. Robert Giacomini, D-Conn., introduced an amendment to disclose the precise lump-sum figure each year in the defense appropriation bill.

By disclosing the figure each year, congressmen could watch it and cut it when it "grows excessively," he said.

But Rep. Jack Kemp, R-N.Y., said this would "simply help the enemy—you can't get around that fact." Kemp supported Colby's argument that annual publication of the figure would enable potential enemies to track the scope and trends of U.S. intelligence activities.

Giacomini proposed the amendment to an \$112 billion defense appropriation bill and disclosed that this year's CIA figure is within a \$2 billion item listed as "Other Procurement, Air Force."

Meanwhile, a new policy or-

der from Secretary of State Henry A. Kissinger blocked the first testimony to the committee. Pike also had named Kissinger as a possible target of contempt citations if the panel's fight for information goes that far.

A foreign service officer told the committee he had been instructed under terms of a new Kissinger order not to tell the committee the policy recommendations he made during the 1974 Cyprus crisis.

Man Sought For Indecent Exposure

Police are looking for a man 55 to 60-years-old who exposed himself on the grounds of Stephen F. Austin Freshman School, 1400 E. Oak St., Tuesday morning, police said.

"I've been here seven years," Bobby Dunn, assistant principal, at Austin said today, "and we've never had any trouble like this."

"I don't think a lot of kids were around when it happened. Most are usually in class at that time," Dunn said.

One of the school's employees was walking to the east side of the building when she observed the man, Dunn said.

Old Eyeglass Drive Begins

Members of the Midland Leo Club will begin a drive Thursday to collect old eyeglasses, which will be sent to the needy in a foreign country, as part of the Lions sight conservation and eye care program. The campaign also will be part of the Midland Leos' contribution to Lions World Service Day, Oct. 8.

Leos have placed containers at Gibson's, Skaggs Albertsons and Walgreen's.

The glasses need not be in "new" shape, according to the Leos. Parts of the glasses—lenses or frames—are of use.

The Leo Club is a youth activity sponsored by five of the nine Lions Clubs of Midland. The sponsoring clubs are Downtown, Evening, Morning, Southside and Westside.

The effort will end on Oct. 20.

Lawyer To Seek Bob Casey's Seat

AUSTIN, Tex. (AP) — Sen. Bob Gammage, a Houston lawyer, has announced as a candidate for the congressional seat he says Rep. Bob Casey, D-Tex., is vacating.

Gammage, 37, a Democrat, said he was pleased that President Ford had decided to appoint Casey to the Federal Maritime Commission.

Gammage represents the southern portion of Harris County and all of Fort Bend County, which closely parallels Casey's congressional district.

Set Reportedly Stolen At MC

A tap and die set valued at \$275 reportedly was stolen from the automobile technology department at Midland College, 3600 N. Garfield St., police said today.

TWO LEADERS — Emperor Hirohito and Empress Nagato go through the receiving line during arrival ceremonies Tuesday at the Patrick Henry International Airport at Newport News, Va. (AP Wirephoto.)

Rotary Club To Sponsor London Trip

District 573 of Rotary International which includes much of West Texas, is seeking five business and professional men between the ages of 25 and 35, to visit a Rotary District in London, England.

The men, who must be non-Rotarians and not relatives of Rotarians, will be selected as members of a Group Study team which will tour the Rotary district in England beginning March 13, 1976. All expenses for the two-month trip will be paid by the Rotary Foundation.

In 1973, the Midland Rotary Club hosted a group of young men from Chile.

Additional information may be had by contacting Dave Dorechester, president of the Midland Downtown Rotary Club, at 683-4651, or Vance Scott, president of the Westside Rotary Club, at 682-1840. Deadline for applications is Oct. 10.

Atlantic Richfield Expands Offices

Atlantic Richfield Co. will begin construction this month to expand its Permian office facilities in Midland, it was announced this morning by S. L. Smith, district manager.

Atlantic Richfield leases its present office space at 300 N. Peacos St. from Pierce, Pace and Associates. The company occupied the building in 1970.

A contract has been awarded Rose Construction Co. to add a fourth floor to the present building. Construction is due to be completed in October 1976.

Smith said the additional office space is necessary to accommodate the expanding staff needed for the company's exploration, production and mineral operations in this area.

Atlantic Richfield, long active in oil, gas and mineral production in the Permian Basin, established offices here in 1937.

Sub-district offices operated by the company's district office here are at Odessa, Crane, Denver City, Andrews, Coahoma, Eldorado, Monahans and Hobbs, N. M.

Since establishment of its Permian base in Midland, the number of Atlantic Richfield employees here has grown steadily to the present 240. Smith said plans indicate further growth to approximately 262 by the end of next year.

"We already have people of- ficed outside the main headquarters building and need to see about getting all company operations under the same roof, for the sake of further efficiency," he said.

Additional staff required for expanding activities will include positions in exploration, engineering, administrative and land, as well as the addition of staff for special projects within the district, Smith said.

Other requirements for office space here include personnel to support the company's Synchro- & Minerals Division in the areas of sulphur production and geothermal operations, as well as in the North American Producing Division's general engineering and crude oil supply departments, Smith said.

Midland Twirlers Get 24 Citations

Midland twirlers garnered 24 first through third place citations over the weekend in Lubbock in a National Baton Twirling Association open contest.

Midlanders placing in the top three in each category are:

Beginning basic strut — Leah Burnett (5 years), second place: Tami Jewell (7-8), second.

Advanced basic strut — Linda Wood (11-14), third: Pam Branch (15 and over), third.

Beginning "T" strut — Melanie Finley (11-14), second.

Advanced "T" strut — Wood (11-14), third: Branch (15 and over), second.

Parade majorette strut — Gail Griggs (11-14), third: Branch (15 and over), first.

Beginning solo — Finley (11), first; Tami Laine (15 and over), first.

Intermediate solo — Julie Gallagher (11-14), third.

Advanced solo — Griggs (13-14), first; Wood (15-14), third: Branch (15 and over), first.

Alexander White Dies In Hospital

Alexander M. White, 94, died Tuesday morning in a Midland hospital. He resided at 1100 E. New York St.

Services will be at 4:30 p.m. Thursday in Mount Calvary Baptist Church with the Rev. H. F. Doyle officiating. Burial will be in Fairview Cemetery directed by Thomas Funeral Home.

White was born Oct. 1, 1881, in Atlanta, Ga. He resided in Corsicana 89 years before moving to Midland 14 years ago.

Surviving are a son, Harold V. White of Glendale, Ariz.; three daughters, Addie White of Oakland, Calif., Mrs. Aline Shaw of Midland and Mrs. Fay Hardie of Dallas; a sister, Mrs. Betty Harris of Calvert; 16 grandchildren, and six great-grandchildren.

Tools Stolen From Firm

Assorted tools, pipe, rod elevators, tubing and air slips valued at \$1,860 reportedly were stolen between 6 p.m. Monday and 9 a.m. Tuesday from Parks Well Service, a Lamesa based company, the Midland County Sheriff's Department said.

The theft occurred 10 miles east of Greenwood School, deputies said.

North Winds Move Deeper Into Texas

Clear to partly cloudy skies and cool temperature levels are in store for the Midland area today and tonight, according to the National Weather Service at Midland Regional Air Terminal.

Weathermen are predicting a slight warming trend Thursday. High temperature today should be near 70, with tonight's low near 50. High Thursday is expected to be in the middle 70s.

The weather station recorded a high Tuesday of 86, with an overnight low of 55.

Sharp north winds and a scattering of showers and thunderstorms paced the latest cold front deeper into Texas today.

By early morning the forward edge of the chiller air pushing toward the southeast had advanced past Texarkana, Fort Worth, San Angelo and Maria. It was expected to clear Brownsville on the south tip of the state by tonight.

Thunderstorms were mixed with occasional showers in areas around Sherman, Guth-

rie, Wichita Falls and Childress. More were in prospect as the frontal system proceeded.

Temperatures dropped as gusty winds marked the arrival of the seasonable cooling, and small craft warnings went up before an expected shift to north winds along the Upper Texas Coast. The Associated Press reported.

Near dawn the mercury dipped to 43 degrees at Dalhart in the Texas Panhandle while the reading was still 71 at Corpus Christi on the Coastal Bend. Top marks Tuesday afternoon reached as high as 92 at Alice in South Texas.

Clouds were starting to disappear in the Panhandle. Clearing and somewhat cooler weather was promised other sections tonight and Thursday.

Mrs. Farrington Dies In Office

Mrs. Annie Elizabeth Farrington, 83, died Monday at her doctor's office.

Services will be at 2 p.m. Thursday in Calvary Baptist Church with the Rev. Doyle Darwin and the Rev. William Richard Simpson officiating. Interment will be in Resthaven Memorial Park directed by Thomas Funeral Home.

Mrs. Farrington was born Oct. 15, 1891, in Eastland County and had resided in Midland since 1933. She was a member of the Baptist Church.

Surviving are a son, Glendon Farrington of Midland; four daughters, Mrs. Louise Stansell of Rowlett, Mrs. Davina Flournoy of Midland, Mrs. Eula Mae Cox of Midland and Mrs. Alyene Burt of Freedom, Okla.; a sister, Mrs. Lydia Ship of Snyder; 11 grandchildren, and 20 great-grandchildren.

Ford—

(Continued From Page 1A)

every prudent and practical means."

Following incidents 17 days apart in California in which two women pulled guns on Ford and one fired in his direction, new security measures were introduced in Chicago.

Police with hand-held metal detectors mingled in crowds near the Conrad Hilton Hotel where Ford spoke, and a veteran Chicago policeman said security was the tightest "since the Democratic convention (in 1964) for a presidential visit."

About 12 minutes before Ford arrived at the Conrad Hilton, police arrested Carmen Teresa Pulido, 37, who was allegedly carrying a .25-caliber pistol, near the hotel's rear door. She was charged with carrying a concealed weapon and failure to register the gun or carry a state registration card.

White House officials said the incident had nothing to do with Ford's trip. Mrs. Pulido works at a currency exchange near the hotel.

Four CB Radios Reported Stolen

Three citizens band radios reportedly were stolen from cars Tuesday and another Monday, police said today.

Mrs. Diann Offield told police a citizens band radio valued at \$230 was stolen Tuesday between 11:45 a.m. and 2:15 p.m. while she was bowling at Midland Lanes, 413 Air Park, police said.

While Dewey Wilson was bowling at Super Bowl, 3920 W. Wall St., his citizens band radio valued at \$130 reportedly was stolen Tuesday night, police said.

A citizens band radio valued at \$182 which belonged to Duane Sowell, of 405 N. Carrio, reportedly was stolen from his car parked at his home Monday, police said.

Michael Hirth told police a citizens band radio valued at \$150 and a tape deck valued at \$60 reportedly was stolen Tuesday from his car in the parking lot of Lee High School, 3500 Neely St., police said.

Hammer—

Hirohito Assumes Role Of Student

WILLIAMSBURG, Va. (AP) — Japan's Emperor Hirohito assumed the role of history student today as he began the first full day of his precedent-breaking visit to the United States.

The emperor and Empress Nagako planned to take a ride in a horse-drawn carriage to the building where Virginia's legislators met two centuries ago, to hear a lecture on the role the building played in the events which led to America's war for independence.

The visit is the lone item on the imperial couple's agenda, which is being kept thin to enable them to rest up for their arduous two-week trip across the country. They will go to Washington on Thursday for a meeting with President Ford.

The emperor tried to ease a mild diplomatic flap Tuesday

by dispatching an emissary to nearby Norfolk to lay a wreath at the grave of Gen. Douglas MacArthur.

Through a spokesman, MacArthur's widow disclosed earlier in the week she was "very unhappy" that the emperor was unable to visit personally the grave of the World War Allied commander.

Newsman were also told that the emperor will receive Mrs. MacArthur on Sunday at his hotel suite in New York, the third stop on his U.S. itinerary.

Mrs. MacArthur's aide, retired Army Col. Lawrence Bunker, said two days ago that "if it weren't for MacArthur, Hirohito wouldn't be emperor today." This was an apparent reference to MacArthur's benevolent attitude toward the monarch after the Japanese surrender 30 years ago.

College—

of Midland, Briscoe will be introduced by State Sen. W. E. "Pete" Snelson.

The ceremony will conclude with a benediction by the Rev. Doyle.

Throughout the day, students will lead tours of the \$3 million campus for the public. The tours, which will originate at the dean of student's office in the administration building, will begin at 8:30 a.m. and conclude at 4 p.m.

Ulrich Speaks To Lions Club

Wayne Ulrich, administrator of Midland Memorial Hospital, was the speaker Tuesday at the meeting of the Midland Evening Lions Club in the Westside Lions Den.

The speaker reviewed the organization of the hospital and told of its operation as a non-profit, community-owned and operated institution.

Ulrich also discussed the aims and services of the hospital, which he said strives continually to provide the finest quality health care services possible.

New equipment and the training programs conducted within the hospital also were talked.

Kinsey Rites Set For Today

Services were to have been at 2 p.m. today for David Kinsey, 61, of 3703 Aneta St., who died Monday in a Midland hospital. The Rev. Curtis Hollis, pastor of Corinth Baptist Church, officiated. Burial was to have been in Fairview Cemetery.

pallbearers were Dell Truslove, Dozier Truslove, Ed Darnell, Dub Lynch, George Anderson and Dutch Mayfield.

Widow Of Williams, Horton Has Easier Going Now

SHREVEPORT, La. (AP) — Billie Jean Horton, fighting widow of two country music legends, Hank Williams and Johnny Horton, doesn't have to battle for a living any more.

She's big business in the country music world—collecting copyright renewals on songs written by Williams and publishing records cut from old tapes of singer-composer Horton of the million-selling golden disks.

She's married again, to insurance executive Kent Berlin, although she keeps the Horton name for business. She drives her silver Mark IV upholstered in burgundy velvet up to her Shreveport mansion, where she lives with two daughters, Yanna, 21 and Melody, 17. A third daughter, Jeri Lynn, 25, is a Shreveport nurse.

To her it seems just a little time back she was picking cotton on her father's Bossier City farm, trying fruitlessly to stop Williams' drinking and working to get Horton a start in country music. It took 15 more years of scrapping to make the going so easy.

Williams died 22 years ago and Horton 15 years ago. That was when the prolonged fighting began.

First, she single-handedly took on Metro Goldwyn Mayer, CBS and an Atlanta, Ga., television station in an indignant war against the movie, "Your Cheatin' Heart," a portrayal of Williams' life.

"That movie portrayed me as a harlot," the 43-year-old Shreveport woman said. "It

grossed 44 million, but I shut 'em down. They had lawyers stacked on top of one another, but I whupped 'em all over town."

"They just weren't ready for Billie Jean. Yeah, the movie

portrayed me as a harlot, but there they were in court looking at my marriage certificate with mine and Hank's signatures on it."

She figures the triumph over

MGM was worth about 1 million.

After that warmup, the present Mrs. Berlin began battling for the copyright renewals on all of Williams' songs—"Your Cheatin' Heart" and "Hey, Good Looking" and "Cold, Cold Heart"—and a hundred others.

Last March, she convinced a Nashville court that in her \$30,000 estate settlement two decades ago she had not released copyright renewals, some of which became renewable in 1972.

Copyrights last 28 years after which legal heirs may renew them.

Mrs. Berlin splits half the copyright renewals with the publishers, as does the son, Hank Williams Jr., but, even so, she calculates the income will run about \$250,000 a year.

That's only part of the scope of Billie Jean Horton Enterprises.

When Horton died, he had recorded on tape hundreds of songs he had written. He gave the tapes to friends. His widow began collecting the tapes and cutting new albums.

She has sold more than a million records a year since his death.

"A few days after Johnny died I decided I could either stand or fall," she said. "So, I decided to stand because I had three girls to think about."

Television In Mexico Programs Horizontally

NEW YORK (AP) — Television, Mexico's four-network commercial TV company, is a unique operation by U.S. standards. For one thing, only one cop and robbers show, is allowed each night on any network.

For another, none of the Mexico City-based company's channels are programmed to compete against each other, says Miguel Aleman Jr., Televisa's executive vice-president.

They said the two companies grew so concerned about the video blight they formed Televisa, which Aleman calls a "permitted (by the government) monopoly" to do something about the situation.

In this arrangement, Televisa operates, but doesn't own, the four networks — two of which are national networks and two are regional networks serving Mexico City and the Valley of Mexico, respectively.

Their only competition comes from two government-run channels.

Televisa pays no government license fees. Instead, it gives 12½ per cent of its daily air time to the government, Aleman says. It buys or produces programs for each Televisa channel.

Aleman, who estimates there are TV sets in at least 4.5 million homes in Mexico (compared with 69.5 million TV-equipped homes in the United States), says Televisa's creation has greatly helped the tone of Mexican TV by ending its dog-eat-dog competition for viewers.

He says that by this he means the fact that it allowed "horizontal" programming let the company put far more cultural and educational programs than was possible in past years.

When we had the competition, the tone of the programs was going down, becoming vulgar and cheap," says Aleman, in town last week for an industry salute to Televisa executives.

"We were killing each other, fighting for ratings and not giving a damn about the public," added Fernando Azcaraga, Televisa's operations director, the man in charge of all its programming.

For example, a Mexican cultural program might be on one channel in the same hour a variety show is on another. But the cultural show would appear later that night on the second channel.

It's a far cry from the years before 1973, when Televisa was created through a merger of two companies — Teleistema Mexico, operating channels two, four and five, and Independent Mexican Television, operating channel eight.

"When we had the competition, the tone of the programs was going down, becoming vulgar and cheap," says Aleman, in town last week for an industry salute to Televisa executives.

George Slover Receives Honor

Boy Scout George Slover of Midland has received a certificate of merit from the National Court of Honor for his meritorious action in saving the life of an 11-year-old Odessaan.

He was presented the honor at a recent meeting of the Buffalo Trail Council of the Boy Scouts of America.

The son of Mr. and Mrs. George Slover of 3203 Dengar St., the youngest successfully administered artificial resuscitation to the Odessa boy while participating in a Scout camping expedition last summer.

The stricken youth was revived and later was hospitalized for several months of treatment. He had fallen off a ledge and was crushed by a rock.

Slover is a member of Troop 160.

Poor Weather Slows Texas Wheat Planting

WASHINGTON (AP) — Planting of winter wheat for harvest next summer continued to make progress last week, although poor weather held back farmers in Texas, says the Agriculture Department.

As of Sept. 28, the department said Tuesday in a weekly weather review, an estimated 45 per cent of the winter wheat in Kansas, the largest producer, was planted, about the normal progress. But in Texas, only 34 per cent of the crop was seeded, far behind the normal 73 per cent completion for the same date.

Planting also was lagging in Oklahoma, where 21 per cent of it was seeded against 38 per cent this time last year, the report said.

Hirohito To Hear Van Cliburn Play

WASHINGTON (AP) — Pianist Van Cliburn will entertain at the White House state dinner for visiting Japanese Emperor Hirohito Thursday night. The world-renowned pianist, born in Shreveport, La., and raised in Texas, has appeared on several occasions previously to perform for presidents at the White House.

He has been on tour in Japan during the past summer.

Business Blitzkreig On In Persian Gulf

(Editor's note — An invasion by American civilians is under way in the oil-rich Persian Gulf, despite fears expressed in some quarters in Washington that their presence could involve the United States in a Middle East shooting war. In this first of three articles, an AP special correspondent looks at the scope of the American business blitz.)

By HUGH A. MULLIGAN
AP Special Correspondent

DUBAI, Union of Arab Emirates (AP) — Thousands of American industrialists, military advisers and arms salesmen storm ashore in the Persian Gulf each week in a business blitzkreig to capture petrodollars.

Already 70,000 to 80,000 Americans live and work here in Dubai and five other oil-rich nations bordering the Gulf. Many are Vietnam veterans fresh from unemployment lines. They fly the Shah of Iran's Boeing tankers, operate his helicopter school at Isfahan, teach infantry tactics to the Saudi Arabian national guard and show Bedouin camelers how to fly fighter jets. They create whole new industrial cities and American-style suburbs out of sandy nothingness, train the pilots, stewardesses and baggage handlers for Iraq airlines, and equip and staff entire hospitals and medical schools. Among other bizarre undertakings, like providing phosphorescent safety jackets for camels crossing Abu Dhabi's new four-lane expressway, they have finished building a hotel in Mecca, Saudi Arabia, by remote control TV cameras because only true Moslem believers could visit the construction site in Islam's holiest city.

By the end of the decade, Pentagon officials predict, 150,000 Americans will be in the Gulf carrying out billions of dollars worth of arms contracts and billions more in economic projects that already have resulted in a U.S. trade surplus in the area despite the oil price increase.

"What Vietnam was to the Sixties, the Gulf has become to the Seventies," says checkbook Tom Forbes of Jacksonville, Fla., a Vietnam veteran teaching Iranian cadets to fly the Shah's 700 new helicopters. "It's where it's all at. The big difference here is that nobody's shooting at you. And, for a change, Uncle Sam isn't fooling a hill."

Jobs are plentiful for semi-skilled and skilled workers of all types.

Salaries for Americans range anywhere from \$1,500 to \$3,000 a month and in some cases housing and schooling allowances are made for families.

But prices are high. A small jar of peanut butter, for example, costs \$5 in Iran and a coffee is \$2 a pound in Kuwait.

George Roche, a welder from Gary, Ind., said he saved up 19 unemployment checks for a ticket to Tehran, Iran. "I filed 12 applications, had nine interviews and got nine job offers. Several firms said they'd fly my family over, but I can't find an apartment here for under \$1,000 a month with a sit down toilet." Roche plans to keep his shipyard job long enough to pay his return air fare.

The rental of a two-bedroom villa in Bahrain has tripled in price to \$1,200 a month in the past year. The Tehran American School was launched in 1954 with 92 students. This fall it opens its doors to 3,000 and has plans to accommodate 5,000 students.

Congressional and other critics of U.S. arms sales in this highly volatile region fear the presence of thousands of Americans could trigger an incident that could involve the United States in a shooting war.

Industry's answer, like the Defense Department at most Washington hearings, is that the Gulf oilfields want American weapons and know-how and can afford it on an unprecedented scale that already is redeeming the U.S. recession-ridden economy. If spurned, the argument goes, they will shop elsewhere for their arms, in Britain or France, or even in the Soviet Union, losing the United States both a customer and a friend.

More than half the Americans now living in the heat and dust of the Gulf are advisers and technicians directly involved with the \$10 billion worth of U.S. arms peddled in the area since 1973, chiefly to Iran and Saudi Arabia.

Each week, sometimes three times a week, a chartered Boeing 707 leaves Fort Worth, Tex., for Iran bringing wives

and children of the 1,800 Bell helicopter employees at Isfahan. Soon the faded city of turquoise mosques, which already has a sizeable colony of Hughes electronics folk and Raytheon missile men, in addition to a Russian steel mill and a DuPont fibre plant, will be home for 1,400 Grumman aircraft employees and their families.

To house the burgeoning foreign colony, a satellite suburb is being built on the outskirts of Isfahan for 10,000 people. It is called Shahrin Shahr, "City of Eagles."

It will be a typical American suburb with barbecue ovens on the lawn, motor bikes in the driveway and basketball hoops over the garage door.

For 160 years, right up until independence was granted in 1971, British officers of the famed Trucial Oman Scouts kept the peace in the feuding emirates of the Persian Gulf with a camel cavalry and a couple of dusty squad cars. Now even the smallest, richest city-state, like Abu Dhabi with its Rapiel Mirages and Mirages, wants to be its own version of a superpower. Kuwait, with squadrons of both U.S. Skyhawks and French Mirages, is in the market for TOW anti-tank missiles and other sophisticated systems.

The Shah of Iran, budgeting in the billions for defense, is determined to carry out his self-appointed role of policeman of the Gulf with the most modern weapons available.

Saudia Arabia has embarked on a 143 billion, five-year development program that will require importing two million foreign workers.

"We're not mercenaries," insisted Robert Williams of Bedford, Tex., president of Bell International, on a tour of the Isfahan helicopter base. "We're here to make peace not war."

Operators Plan Work In Chaves

Sites for new projects have been staked in two Chaves County, N.M., fields.

Garner-Murphy Oil Co., Roswell, N.M., will drill No. 1-9 State as a c-mile north-south to the two-well Diablos (San Andres) field of Chaves County, 17 miles northeast of Dexter.

It is 330 feet from south and east lines of section 9-10-27-0, and ground elevation is 3,856 feet. Planned depth is 2,000 feet.

Workover Stated
Dalport Oil Corp., Dallas, will reenter No. 1 Shell-Federal and attempt to extend the Lucky Lake, South (Queen) field 1 1/2 mile north.

It originally was drilled by Shell Oil Co. as No. 1-15 Federal, and completed through Queen perforations at 1,844-1,860 feet. Total depth is 10,722 feet.

Location of the project, to be cleaned out to 1,950 feet, is 660 feet from north and west lines of section 15-15-25-0, 20 miles east of Lake Arthur.

The Lucky Lake, South field has two oil wells and one gas producer. Gas pay was opened in the area in 1972.

HNG Slates Test In Sterling Area

HNG Oil Co. of Midland will drill No. 1-A-151 McDonald as a 6 1/4-mile northwest outpost to upper Cisco gas pay in the Credo, East pool of Sterling County.

It is a replacement for the firm's No. 1-151 McDonald, which was slated as a reentry, at which workover attempt was unsuccessful.

The new test is 660 feet from south and 635 feet from east lines of section 151, block 29, W&NW survey, 35 feet east of the old hole, which is the depleted opener of the Konohasset field.

Locations Spotted In Southeast King

Two new locations have been staked in the 5,400-foot Strawn zone in the Anne Tandy multiphase field of King County, about 17 miles southeast of Guthrie.

Taubert, Steed, Gunn & Medders of Wichita Falls is operator for the projects, scheduled to 5,900 feet. They are in block X, R. M. Thomson survey.

No. 3 S. B. Burnett Estate, 1/4 mile northeast of 5,400 Strawn pay, is 2,590 feet from north and 660 feet from southwest lines of section 2.

No. 27-A-Y S. B. Burnett, 1/4 mile southeast, is 1,950 feet from southeast and 850 feet from southwest lines of section 1.

Permian Basin OIL & GAS LOG

(Continued From Page 1A)

and 1,900 feet from east lines of section 26-13-25-0.

Shallow Probe
Kent Shannon of Roswell, will drill No. 1 Hi-Lanesome as a 2,200-foot San Andres test in Chaves, 11 miles west and slightly north of the Twin Lakes (San Andres) field.

It spots 330 feet from north and 660 feet from west lines of section 32-8-27-1, 13 miles southwest of Elkins townsite.

Anne Tandy Pool Gains Extension
Terra Resources, Inc. has completed a northwest extension to 5,400 Strawn production in the Anne Tandy multiphase field of King County, 17 miles southeast of Guthrie.

No. 24-Y S. B. Burnett Estate produced 189.77 barrels of 36-gravity oil and 81 barrels of water on 24-hour potential test through perforations at 5,436-5,440 feet. Gas-oil ratio was 296-1.

Location is 5,583 feet from south and 1,980 feet from west lines of section 45, J. L. Parsons survey.

McCulloch Area Gets Field Try
Expansion is planned for the current one-well Lohn field in McCulloch County, about two miles northwest of Lohn townsite.

N. A. and E. C. Proffitt of San Angelo intend to reenter two former oil wells and to drill a new test in the field. All are in J. Oehring survey 1105.

No. 2 Kothmann, south offset to the lone well, is 1,048 feet from south and 1,030 feet from

west lines. It is slated to 250 feet.

No. 14 Kothmann is the former well No. 4. It is to be cleaned out to 200 feet, and is 1,610 feet from south and 1,120 feet from west lines.

No. 12 Kothmann, formerly well No. 2, also will be cleaned out to 200 feet. It is 1,240 feet from south and 1,200 feet from west lines of the survey.

Tri-State Slates Deepening Project
Tri-State Oil & Gas, Inc., operating from Houston, plans to deepen to 6,200 feet at No. 1 Hazel Jones, et al, Tom Green County 5,565-foot wildcat failure, six miles southeast of Christoval.

It originally was drilled by Texas Crude Oil Co. as No. 1 Eugene Jones, and was plugged and abandoned Aug. 4, 1956. It recovered 90 feet of heavily oil- and gas-cut mud, 1,000 feet of 27-gravity oil and 900 feet of salt water on a drillstem test at 5,125-5,184 feet. It also returned 90 feet of oil and 300 feet of salt water on a test at 5,505-5,525 feet.

Location is 660 feet from south and east lines of section 22, block 24, H&TC survey.

Querecho Plains Area Gains Test
Burleson & Huff of Midland intends to drill a north offset to production in a two-well northeast segment of the Querecho Plains (Queen) oil field of Lea County, N.M.

The test, slated for 4,500 feet, is No. 1 Makine-Federal. It spots 2,310 feet from north and east lines of section 23-18-32-0, eight miles east of Maljamar. The field has a total of six wells.

Coastal States Hearing Now In Second Day

BRYAN, Tex. (AP) — Three members of a jury that found against Coastal States Gas Producing Co. in a \$26.2 million suit have confirmed another juror had pointed out in deliberations that a company subsidiary had a \$26 million cash reserve in March.

The testimony of Mrs. O. C. Walker and two other jurors came Tuesday in the second day of a hearing requested by Coastal States attorneys who claim there was "jury misconduct" during deliberations in the case.

Ten of the jurors voted in favor of the Lower Colorado River Authority, which was suing Coastal States on breach of contract.

Another juror, Mrs. Helen Bowman, testified Monday that she commented during deliberations that a \$26 million cash reserve in the March 31 balance of Lovaca Gathering Co. could have been set aside to pay a judgment that might be rendered against Coastal States.

Mrs. Walker said she had originally intended to vote in favor of the gas company.

She said she changed her vote after other jurors convinced her that the word "material" was defined as "vital and essential."

Mrs. Walker testified that the discussion of the definition of "material" continued after the court's admonishment to consider only evidence presented in court and the charge read to the jury.

Republicans have a second proposal that would phase out price controls over a period of years. The Democrats are standing by with their own long-range solutions which, instead of removing price controls, would extend them to gas that now is free of controls.

There are indications that

Senate Nearing Vote On Natural Gas Questions

By JIM LUTHER

WASHINGTON (AP) — The Senate is nearing a vote that could determine whether Americans will have adequate natural gas and how many more billions of dollars they will have to pay for it.

The Senate arranged a vote this afternoon on an amendment by Sen. Paul J. Fannin, R-Ariz., that would remove federal controls from the price of virtually all U.S. natural gas immediately. The proposal is expected to fail, but it could indicate how many senators are willing to let prices climb.

The dispute over the government's role in natural-gas pricing is the latest energy-policy battle between Congress and President Ford.

There is wide agreement that natural gas, which heats 55 percent of U.S. homes, will cost more in the future and on the need to avert any gas shortage this winter, mainly in 14 Eastern states.

Senate Democrats want to solve that problem before tackling the complex issue of long-range pricing of natural gas. But Republicans and gas-state senators, fearing Congress won't want to act once the emergency is averted, are trying to force the long-range question onto any emergency bill.

Republicans have a second proposal that would phase out price controls over a period of years. The Democrats are standing by with their own long-range solutions which, instead of removing price controls, would extend them to gas that now is free of controls.

There are indications that

one or two votes could determine whether the Democrats or Republicans will prevail on the long-range question.

The two sides also disagree on how to handle the threatened shortage of gas this winter. Again, price is the problem.

The Democrats, led by Sen. Ernest F. Hollings, D-S.C., want to allow gas-short pipelines, through next June 30, to buy gas directly from the producing states—mainly Louisiana, Texas and Oklahoma—for about \$1.25 per unit. That is almost 150 per cent above the current price.

Sen. James B. Pearson, R-Kan., in a solution endorsed by Ford, would allow such purchases but without any price ceiling at all.

The Federal Power Commission would allow the diversion of enough gas to reduce the expected shortage to the manageable levels of 1974.

A public hearing on health and safety aspects of the project will be held later this year.

The advisory committee's report called for further evaluation of the plant's emergency core cooling system. The report said the project will be the first to use a new Westinghouse nuclear reactor producing about 1,250 megawatts of electrical power.

The committee said Westinghouse must satisfy the commission on the safety of all features, including the core cooling system.

Work Under Way At Nuclear Plant

HOUSTON (AP) — Site preparation work is under way near Bay City for a nuclear power plant.

The work began after a safety review board gave conditional approval for construction of the plant by Houston Lighting & Power Co., Central Power & Light Co. of Corpus Christi, and the cities of Austin and San Antonio.

The Advisory Committee on Nuclear Reactor Safeguards advised the Nuclear Regulatory Commission the plant can be built with "reasonable assurance" it will create no undue risk to public health and safety.

The committee said Westinghouse must satisfy the commission on the safety of all features, including the core cooling system.

Ali Stops Joe Frazier In 14th

MANILA (AP) — It was a great fight, one of the greatest, brutally physical and gutsy. The combatants—the stand-up matador with lightning reflexes and the charging, pursuing bull, his attack unrelenting—gave no quarter.

And at the end of it—after 42 incredible minutes of warfare, of intense battle among two bitter and familiar rivals—there stood Muhammad Ali, undisputed king of all he surveyed in boxing's heavyweight ranks.

The record books will record it simply: Ali over Joe Frazier, TKO, 14th round. But the cold statistics don't pay proper tribute to the durability and refusal to fold on the part of a great champion and the raw courage of the challenger.

Third Meeting
It was the third meeting between these two powerful black men—the champion out of Louisville, Ky., 33, a man who has been at center stage for 15 years now, and the challenger, 31, out of the Jim Crow South and a one-time slaughterhouse butcher in a Philadelphia ghetto.

Both of the early battles were slugfests which went the limit—Frazier taking the first in 15 and Ali the second in 12—and this one went through 14 rounds with little to choose between them.

The End
But in the 14th, drawing upon some mysterious source of strength after appearing on his last legs in the fight's middle rounds, Ali jarred Frazier's

The Midland Reporter-Telegram

SPORTS

18—WEDNESDAY, OCTOBER 1, 1975

While handlers cut the gloves from Frazier's wrists and the referee screamed the announcement to the bowing crowd, Muhammad Ali, fighter and Muslim preacher, could not resist one final charade.

Ali Takes Dive
He took two steps away from his stool and did a swan dive to the blue canvas floor, lying there prone with arms outstretched as if he himself was in a faint.

He wasn't trying to be funny, said Dundee. "He did it to keep all of those idiots in his corner from jumping up and down on him."

Ali arose after a while, sat on his stool and then walked slowly to his dressing room. Normally loud and bombastic, Ali was subdued.

"I am tired," he said. "My arms are sore, my legs are sore, my side is sore, I want to

"I felt like quitting," he said. "But I said to myself, 'I cannot quit, I am a champion.'"

This fantastic ability to reach into some invisible reservoir for strength and fresh competitive vigor was the keynote of the fight.

When the fight ended, The Associated Press scorecard showed the fighters tied in points 66 to 66. All Philippine officials had Ali ahead. Judge Larry Nadsay had Ali ahead 66-62. Col. Alfredo Quizon scored it 67-63 and referee Piddila had it 66-60, both for Ali.

It was a vicious slugfest for the authority gone from his punches, Ali thought he might be finished.

It's a face full of right glove as Joe Frazier is almost obscured by the right of Ali in second round of heavyweight title fight. (AP Wirephoto.)

Ali May Call It Quits

Champ Calls Joe Frazier His Toughest Opponent

MANILA (AP) — "There is a great possibility that was my last fight tonight."

Thus did Muhammad Ali, again, at least briefly, say he might retire. But in the next breath, he said he might fight George Foreman or Ken Norton, and maybe he might...

Retirement announcements are nothing new from Ali, who proclaimed that his fight this summer against Joe Bugner was his last. The latest thoughts come after Wednesday morning's defeat of Joe Frazier.

As usual, Ali reminded those around him that he had been right. "I predicted that I will emerge superior, right? So I still reign supreme, right?"

But Ali also admitted that Frazier, who went down on a TKO when his manager Eddie Futch prevented him from coming out for the 16th round, is the "toughest fighter I ever fought."

And Ali even had a mouse above the right eye—reddened but otherwise unbroken facial skin to show for the fight.

All said "it was close in the end. It could have gone either way, I heard. But it was my pound that pulled it out. The constant pounding has finally taken effect. But he is great."

Battle Scene

By Ted Bailes

Sunday Soap Opera

The Dallas Cowboys were driving ever closer to the goal in the overtime and facing third and long yardage from the 15 or so, a field goal attempt loomed as a last resort alternative.

It wasn't a prospect Dallas faithful were looking forward to. Toni Fritsch had already blown two fourth period attempts that could have sailed the game away in regulation time.

One fan watching hummed the music to "Where Have You Gone Joe DiMaggio?" subbing Danny Villaneuva for DiMaggio in the lyrics.

Danny, now a radio or TV executive on the West Coast, was the first of a long line of immortal Cowboy kickers. His range was from 18 yards in... that was when the goalposts were on the goal line. To say he was deadly from that distance, would be inaccurate. Let's just say he could be dangerous... on a good day.

As it turned out, the Cowboys didn't need the field goal and beat the St. Louis Cardinals, 37-31, midway through an overtime period of a game. Dallas thought it had sewn up midway through the third period and even with three minutes to go.

In fact, one viewer decided to flick over to the other pro game confident that this one was over. After all, the two-minute warning was approaching. Dallas led 91-24 and was in the process of stuffing the football team the Cardinals throats at the St. Louis 20.

Twenty minutes later, the viewer flipped back and there were still 34 seconds left and the score was unbelievably tied. The Cowboys, however, were in the process of driving into missing range for Fritsch.

As a piece of entertainment, it was drawn out longer than a soap opera. The game seemed to last forever. However, when the action happened, it happened quickly.

St. Louis had just scored in the third period to close a Dallas lead to 14-10. The phone rang long distance and before we got back to the action a few minutes later, it was 28-17.

Had To Be Canned TDs

It's obvious they'd thrown in a few canned touchdowns filmed on the back lot at Universal or someplace. The announcer was feeding the public some drivel about a rookie linebacker running 97 yards with a kickoff return. What kind of rube do these TV types take us for anyway?

St. Louis blew the overtime when Lee Roy Jordan returned a pass interception 33 yards to set in motion Dallas' winning 37-yard TD drive.

"It was a dumb call," said St. Louis Coach Don Coryell of the intercepted pass that turned the game around just when the Cardinals were inching to within field goal range.

Shucks, it wasn't a dumb call. It was poor execution. Quarterback Jim Hart primped back like a wood-nymph and then, while whirling ecstatically, limp-armed a fluttering floater across his body, the kind of pass that makes junior high coaches weep. It was easy pickings for Jordan.

In contrast, when Dallas quarterback Roger Staubach went back in the closing drive, he had better foot traction than Catfish Hunter or Tom Seaver whistling a high hard one. When he delivered the ball, it had eyes for only one. And if the intended receiver hadn't caught it, he'd have come back to the huddle with a hole through his back.

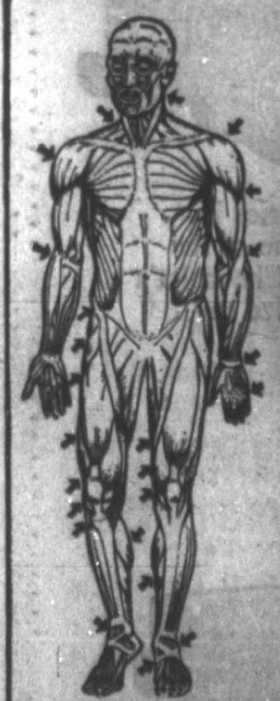

Fight Fans Riot In Panama City Stadium During Ali-Frazier Title Bout

PANAMA CITY (AP) — The Roberto Duran-Edwin Viret non-title bout on closed circuit television via a 12-foot screen. The showing failed to materialize when the equipment at the stadium was unable to pick up the satellite signal.

Another closed circuit showing of both fights in color came in without a hitch at the Javier High-School gymnasium.

Bob Dillon

A Note Of Thanks

Before this corner tries to pick out some winners in this week's schoolboy football games, it has to take out time to thank some wonderful people.

While in the hospital three days last week, both the Midland and Midland Lee backers were so very thoughtful and I'll never forget it, so on behalf of my wife and three daughters, I want to again thank you for your thoughtfulness.

Rebs, Pack To Win

That's right, this corner has a feeling that both the Rebels and Bulldogs will open District 5-4A play on a winning note. Since there was no column last week, the percentage remains the same with 65 correct and 19 incorrect for a .774.

MIDLAND LEE travels to Odessa to take on the Darrell Shepard-led OHS Bronchos in W. T. Barrett Stadium. If it's anything like last year's 14-13 thriller, it should be great, but got to go with the Rebels posting a 20-6 victory over the Red Hosers.

MIDLAND'S BULLDOGS, under the guidance of John Reddell beat Permian two years ago and had the Panthers beaten last year until a punt was blocked in the final seconds. The Purple Pack to defeat the Mojo Cats, 13-10 in Memorial Stadium Friday night.

ABILENE COOPER always has a tough time with San Ang. Ray Overton's Cougars will get into the driver's seat Angelo, especially in San Angelo, but this corner has a feeling with a 16-14 win over the Concho Cats in San Angelo, yet...

ABILENE AND BIG SPRING tangle in Abilene and since Donnell Baldwin is back into harness, the Warbirds will win, 27-16 with the overall team speed the difference.

In other games, you can't ignore the biggest game in the state next to the Cooper-Angelo shootout with the Bryan-Killeen game a great one. Bryan lost its leading rusher in James Harris, a 215-pounder, who was also all-state last year at a nose guard slot. It seems Mr. Harris is 19 and the Vikings have to forfeit their first three games, so I'll go with Killeen to post a 28-22 victory. Amarillo Palo Duro faces Lubbock Coronado Thursday night in Lubbock and the Dons should win, 27-12. Hobbs plays Monterey and the New Mexico team will take its lumps as the Plainsmen post a tough 20-13 victory over the Eagles. Lubbock will roll over outclassed Levelland, 27-7. Plainview to nudge Borger, 15-12. Hereford to take care of Amarillo High, 20-14. El Paso Coronado to defeat Amarillo Tascosa, 20-14 and Pampa over Canyon by a count of 22-12.

Odessa Nimitz, Hood Set Pace In Frosh Grid Race

Odessa Nimitz and Odessa Hood continue to lead the 9th grade football race with Austin White of Midland in third place going into action this week.

Nimitz and Hood are 4-0 while Austin White sports a 3-1 against record. Austin White plays Thursday against Odessa Crockett 7 p.m. on the OHS campus.

Edison Purple and Gold, are idle this weekend in 9th grade. Nimitz also leads the 8th grade race with a 3-0 mark while Midland Goddard stands 3-0 along with Bonham of Odessa.

Nimitz is at Goddard and Hood at Alamo Saturday while San Jacinto is idle. Goddard Red and Goddard White continue to stand tall in the 7th grade race in the city with perfect 3-0 records.

Tuesday's Fights

By The Associated Press
MANILA — Muhammad Ali, 25½, Chicago, stopped Joe Frazier, 21½, Philadelphia, 14. All retained world heavyweight title.

PROVIDENCE, R.I. — John Dico, 20½, Allentown, Mass., outpointed Jose King Roman, 19½, Puerto Rico, 16.

ABC, NCAA Charged With Perpetuating Segregation

OXFORD, Miss. (AP) — The American Broadcasting Co. (ABC) and the NCAA have participated in a scheme which perpetuates racial segregation by not televising football games involving traditionally black schools, a black coalition has charged.

Alvin O. Chambliss, lawyer for North Mississippi Rural Legal Services, said Tuesday he had petitioned the Federal Communications Commission (FCC) to revoke the licenses of six Southern ABC affiliate stations.

"We are saying in essence that the federal act says a sta-

tion is responsible for the content of all programs, and cannot delegate the responsibility to the NCAA," he said.

Chambliss said that since 1969 there had been only four football telecasts which involved teams from largely black colleges.

He said the lack of black schools indicated assumptions that the quality of black football is inferior to that played by traditionally white schools.

The petition to the FCC charged the stations, ABC and the NCAA with "aiding, abetting and participating in an illegal scheme which perpetuates and fosters racial segregation."

Cooper Girls Defeat Lee

ABILENE—The Midland Lee Rebel volleyball team dropped a 15-12, 4-15, 15-10 decision to Abilene Cooper here Tuesday night to fall to 2-1 in District 5-4A play.

Trailing 3-12 in the first game, the Rebels put together a drive to tie the score at 12, but the Cougars were able to score three more points to take the game.

Lee rallied for a solid 15-4 win in the second game with some good court play.

The Rebels started slow in the

final set and trailed 4-11 before the Cougars finally put the victory away at 15-10.

Both clubs had trouble mounting consistently strong offensive attacks, but were strong on the defensive court cover as they kept the ball in play with long rallies.

The Junior Varsity lost a 15-8, 14-16, 15-7 decision to Cooper. The JV is now 2-1 in district.

The Rebels face Big Spring Thursday in Big Spring. Both teams will have a 2-1 record going into the game.

Midland High's girl volleyball team polished off Abilene Tuesday night in the MHS Gymnasium to remain undefeated in three district games.

Abilene won the first game, 15-10, but the Bulldogs woke up to win the next two by scores of 15-10 and 15-8 to remain unbeaten in varsity play.

In the JV game, Midland won, 15-5 and 15-10.

Midland's next action, the Bulldogs entertain San Angelo Thursday in JV and varsity games.

In a game at San Angelo, the Bobcat girls defeated Odessa High Central took the first game 15-8 only to see the Bronchos come back for a 13-8

Trinity Drops Game To Alamo Scouts

Trinity dropped from the unbeaten ranks Tuesday afternoon as the Alamo Scouts eighth grade B team defeated the Crusaders, 20-8.

Trinity held an 8-6 lead going into the fourth quarter, but the Scouts scored twice in the final stanza. Trinity defeated Kermit seventh grade, 20-8, Saturday. The Crusaders are now 2-1 on the year.

Y Conducts Noel Handball

The annual W. D. Noel Singles Handball Tournament will begin Thursday at 5 p.m. and run through Saturday at the Midland Central YMCA.

Dr. Tom Helting of Odessa will be challenged by several of the top handball players in West Texas in the Class A division. Helting has won top honors nine years in a row.

This tournament is the regional qualification tournament for the Bill Noel Invitational Tournament in Odessa, which attracts many of the top handballers in the nation. The Midland champion will represent West Texas in the Odessa meet, which is scheduled Oct. 17-19.

Rebel Boosters Meet Swimmers

The Midland Lee Rebel weekly Booster Club meeting was shorter than usual Tuesday night with the swimming team being introduced to the gathering.

David Whytlaw introduced both his varsity and sophomore tankers and predicted that his Lee team would be strong again this year. Whytlaw also stated that the regional swimming meet held at The University of Texas at the Permian Basin last year, may be switched to Midland this year.

Head football coach Jim Acree

gave a short scouting report on Odessa High's Bronchos, Lee's next opponent Friday night in W.T. Barrett Stadium in Odessa. "Odessa has one of the best runners and quarterbacks in the state in Darrell Shepard and he can do everything. He is especially dangerous on kickoffs and punt returns." Acree went on to say that the Bronchos have a good team and didn't appear too concerned with Hobbs last week, but looked like

it was looking ahead to his Rebels.

Russell Kellner, who suffered a knee injury in the Plainview game two weeks ago, began running some Tuesday and his knee has responded well. "We will hold Russell out another week and use him in the San Angelo game," quipped Acree.

Acree said that the team was pretty tired on Tuesday, but expected the Rebels to bounce back with good workouts today and Thursday as they start tapering off for the trip to Odessa.

Chevette.

Chevrolet's new kind of American car.

Chevette

40 MPG HIGHWAY
28 MPG CITY
EPA RATING

That's with the standard 1.4-litre engine and 4-speed manual transmission. The mileage you get, of course, will be strongly influenced by how and where you drive.

- Chevette is international in design and heritage, incorporating engineering concepts proved around the world.
- Its wheelbase is about the same as a VW Rabbit's.
- It has more front-seat head room than a Datsun B-210, more front-seat leg room than a Toyota Corolla.
- Its turning circle is one of the shortest in the world.
- It can carry cargo up to four feet wide.

- It is well insulated against noise.
- It is protected by 17 anti-corrosion methods.
- It is basically a metric car.
- It comes with a clear, simple self-service booklet.
- It has a standard 1.4-litre engine. A 1.6-litre engine is available (except Scooter).
- It is sold and serviced by all 6,030 Chevrolet dealers.

Prices start at \$2899

2-seat Scooter (not shown) \$2899
Chevette Coupe (shown) \$3098
The Sport (not shown) \$3175
The Rally (not shown) \$3349
The Woody (not shown) \$3404

Manufacturer's Suggested Retail Price including dealer new vehicle preparation charge. Destination charge, available equipment, state and local taxes are additional.

Other Chevrolet values for 1976.

Vega

Built to take it. Vega for 1976: An extensive anti-corrosion program. New hydraulic valve lifters, for quieter engine performance. A new torque-arm rear suspension. And Vega offers a tough Dura-Built 140-cu.-in. 4-cyl. engine guarantee.

5-YEAR/60,000-MILE ENGINE GUARANTEE.
This 5-year/60,000-mile engine guarantee is an added value feature included in your 1976 Vega or Monza car.
The Chevrolet guarantee covers 60,000 miles or 5 years, whichever comes first. The guarantee is for 1976 Vega and Monza equipped with 4-cylinder, 160-cubic-inch engines. It means that should something go wrong with the engine, your Chevy dealer will fix it. The guarantee covers repairs to the cylinder block, cylinder head, all internal engine parts, intake and exhaust manifolds, and water pump, made necessary because of defects in material or workmanship. It does not cover repairs required because of accident, misuse or lack of proper maintenance.
See your Chevy dealer for complete guarantee statement.

Nova/Concours

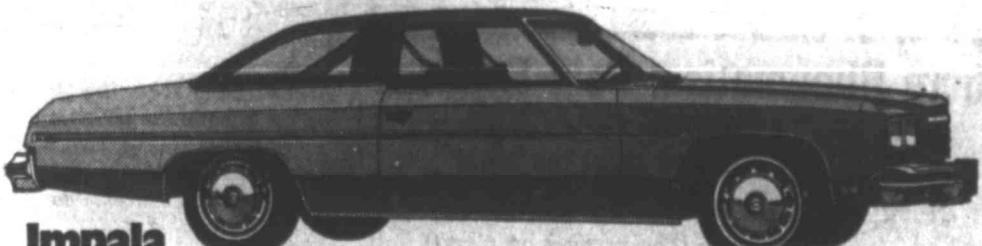

America's favorite compact car. Our basic compact, '76 Nova, makes even more sense than the 3 million Novas that preceded it. And

Concours, the brand-new model featured here, is our highly practical approach to compact luxury.

There's much more to see at your Chevy dealer's. Caprice, Monza, Monte Carlo, Camaro, Corvette, Chevrolet wagons—something for everyone in 1976.

Chevrolet

Come in Oct. 2.

Impala

One of America's most popular full-size cars. That's the result of giving America good value for the dollar. This

year, the Impala series includes the new value of the thrifty Impala S—Chevrolet's lowest priced full-size car.

Chevelle

Enough car for practically anything. It offers room for six at a sensible price. This year, more than ever, its deft blending of mid-size

economies, plus room for the average family, makes Chevelle a size whose time has come.

Cowboys' Landry Shakes The Dice

DALLAS (AP) — You can look for more gambling, wide-open football from Dallas Cowboy Coach Tom Landry.

Landry, realizing he has a young team on his hands, has shed his normal conservatism for gimmicks which would have pleased P. T. Barnum.

"I'm gambling more than normal... we're wide open and I imagine we will stay that way," said Landry Tuesday.

Besides using the spread formation on obvious passing downs, the Cowboys have used a variety of what might be considered sandlot plays to throw

Los Angeles and St. Louis off balance.

Sunday's 97-yard kickoff return by linebacker Thomas Henderson is a prime example. Landry gave assistant coach Mike Ditka the green light to put the play in the offense. It featured rookie Roland Woolsey fielding the kickoff then handing the ball off to Henderson—a rookie linebacker with 4.5 speed.

"Mike didn't tell me he had the play on and I think I was just as happy not knowing it," said Landry.

Landry said "You don't have to gamble when you have a consistent team with an established running and passing game. We don't have that yet although our passing really came around against St. Louis."

He said the Cowboys were way ahead of where he thought they would be in the win-loss column at this stage of the season.

"I didn't expect us to do this well this early," he said. "I'm delighted... I just hope it lasts. I think we will continue

to play well but I'm not sure what's going to happen when we step out on the field."

Landry said his pass defense against St. Louis was horrible.

"With the type of defense we play you need great concentration. We had concentration against Los Angeles and shut them down then we gave up 30 points to St. Louis. I could look into their eyes (the secondary) and tell they weren't ready to play against St. Louis."

Asked his long range outlook of his team, Landry said: "Unpredictable... and exciting."

Needling Keeps Pirates Loose

PITTSBURGH (AP) — Two Japanese baseball coaches were about to visit Danny Murtaugh recently when some Pittsburgh Pirate players advised them of the supposed way to greet an American manager.

"— you," the visitors told Murtaugh, bowing as they recited the obscenity.

Murtaugh laughed. Even he does not escape the needling that is habitual among the Pirates—and, perhaps, the key to their success. Their play does not always blend smoothly, and their personalities are not all harmonious. Yet the banter never abates.

"You're asking for it if you take yourself too seriously or walk around with your head down," says newcomer Bill Robinson. "We lost a double-header one Sunday. It really surprised me the next day that everybody was joking on the bus, and we beat Cincinnati that night."

Reuss To Pitch
The Pirates will be in Cincinnati this weekend to open the National League playoffs.

Jerry Reuss, a 6-foot-5 blond, will pitch the opener. He leads the team in victories and use of baby powder; puffs of white follow him from the locker room.

"Gee Jerry, how does it feel to be tall," a teammate asked as he left the practice field Tuesday.

"I don't know, I've never been short," blurted Reuss, who during one batting slump suggested the Pirate bats might have Dutch Elm Disease.

Reuss isn't the tallest Pirate pitcher. Rookie John "Candy Man" Candelaria is 6-foot-7, and so poised he never let up when the Pirates staked him to a 22-0 lead one day against the Cubs.

There's also Bruce Kison and Kent Tekulve, a pair of 6-foot-4, 170-pounders. They are so skinny that when Ramon Hernandez seeds them, he mutters "Once," the Spanish word for the number 11.

Hernandez throws lefty and chain smokes with either hand. He is also unflappable. "Ramon is so loose he doesn't even know what city he's in half the time," said a teammate.

The pitchers, who had the second best ERA in the league, also include Ken Brett. His brother George plays at Kansas City and says Ken gave him vital tips for the majors: his phone numbers.

Reliever Dave Giusti ribs everybody. "Say something, anything," he once shouted at Larry Demery, a quiet youth who pitched one game with a spike gash in his hand.

There's also Dock Ellis, whose hot rhetoric got him suspended a few months ago. He's back but not his luxury car; someone stole it and burned it.

Jim Rooker is another pitcher who makes occasional caustic remarks. "I did my job and the other (bleeps) were dogging it," he said after losing a game at the end of the season. A few days later a reporter was interviewing Rooker. "Rooker blasts

teamates," Dave Parker cracked nearby.

Stargell Leader
The 6-foot-5, 225-pound Parker helped the Pirates lead the league in homers. Willie Stargell calls him "Adonis," but when Parker and other Pirates talk of "The Big Man," they mean Stargell. He is not loud, but he is the team leader.

Big bats include leftfielder

Richie Zisk, a Brooklyn-born trivia buff, still playing without a contract. There's also confident Al Oliver, who says he "always" hits the ball hard, except for one spell this season he admitted was "my first slump—ever."

Other potent hitters are second baseman Rennie Stennett and catcher Manny Sanguillen, both natives of Colon, Panama. Stennett got a year's supply of a "T-UP" after going seven-for-seven one game, and Sanguillen leads baseball in grinding.

'Worst' Label Haunts Lobo Coach

PORT COLLINS, Colo. (AP) — Studying the playbook on a Saturday afternoon prior to a night game is for mere mortals. Kevin McLain spent the day reading his Volkswagen auto repair manual.

"Got to do some work on my bus," the Colorado State line-backer explained.

But before he got around to the bus, he did some work on the New Mexico offense, spearheading a CSU defense that forced six turnovers and smothered the Lobo passing attack until the final quarter.

McLain's performance in the Rams' 27-16 triumph earned him The Associated Press national Lineman of the Week honors.

McLain acknowledged having added incentive in the New

Mexico game. Following the season opener in 1974, which happened to be McLain's major-college debut, UNM Coach Bill Mondt called the highly publicized junior college transfer one of the worst linebackers he had ever seen.

Reds Easy Flag Makes It Easy To Have Fun

CINCINNATI (AP) — If 1974 kick Joe Morgan, whose quips for words when the needling was a character-building season for the Cincinnati Reds, 1975 has been the Year of the Character.

The rollicking Reds, a happy-go-lucky band that thrived on locker room ribbing, may have set a National League record for laughs en route to a division title. The only thing they took seriously was baseball.

They heard the raps and laughed up their critics' sleeves. They had a manager considered "too nice," some superstars who might be getting "too old," and a pitching staff pronounced "too thin."

But Cincinnati's collection of levity-loving "hit-men" made life miserable for opposing pitchers, winning the most games since 1909 on the way to burying the defending National League champion Los Angeles Dodgers by an unthinkable 20-game margin.

Tough-minded Pete Rose, ever-ready to start something, was a chief agitator—either with his bat or his nothing-is-sacred needling.

He had company from side-

were as quick as his blazing bat. Morgan, when he doesn't have a hand in the hilarity, is busy demoralizing the opposition with his many talents.

Morgan, a prime contender for the league's Most Valuable Player award, has been described by the Dodgers' Don Sutton as "the wheels of the Big Red Machine."

When he climbs out of his orange movie director's chair, he gets things rolling.

One of the game's most versatile superstars, the 5-foot-7 Californian has some of baseball's best credentials ever for MVP consideration: a career-high .327 batting average, 67 stolen bases, 17 home runs, 132 walks, 107 runs and 94 RBIs.

Charismatic Johnny Bench got the season off to a cork-popping start with his extravagant wedding to New York model Vickie Chassers on the eve of spring training. And the Reds have had a taste for champagne ever since.

Bench, a country-western music lover, was never at a loss

started. When Morgan voiced dismay that his batting average was slipping because of little rest, he found a cot, aspirin, a pillow and a some slippers in front of his locker the next day. Bench and his fellow culprits got the message across.

Sluggo Tony Perez, the most prolific RBI man in baseball over the past eight years, was no shrinking violet in face of the barrage of high humor.

Favorite Target
His favorite target was roommate Dave Concepcion, the Reds' slick fielding shortstop. "Davey is baseball's best 80-game player," said Perez, referring to Concepcion being prone to injury.

The quiet man is centerfielder Cesar Geronimo. But he stalks the outfield with a deadly grace. He planned to become a Catholic priest in his native Dominican Republic, but baseball beckoned. Blessed with a bazooka arm, Geronimo left the seminary to sign a contract with the New York Yankees, who had plans of converting him to a pitcher.

SPORTS SCRATCHPAD

Jayhawk Named Top Back

COLLEGE FOOTBALL — Nolan Cromwell, a one-time strong safety, made his first start at quarterback for Kansas Saturday and wound up as Associated Press Back-of-the-Week. Directing the Jayhawk wishbone, Cromwell rushed for 294 yards in 28

carries, breaking the school record of 283 yards set by Gale Sayers in 1962, and scored KU's only touchdown in a win over Oregon State. Baylor's Neal Franklin was named SWC offensive Player of the Week for his 135 yards in 37 carries against Michigan

in a 14-14 tie last week. Even more remarkable is that the 6-2, 220-pound junior from Brenham played despite suffering a shoulder dislocation in the second period.

Another Franklin, Byrnes, was named Missouri Valley Conference defensive player of the week after making 13 tackles in Tulsa's 31-15 loss to Arkansas.

St. John's University of Collegeville, Minn., withdrew its membership in the NCAA because of a recent rule

change that reduces rosters for home athletic teams. Michael Blecker, president of the school, said: "The NCAA rule reducing home team rosters is contrary to our philosophy of maximum student participation. St. John's traditionally dresses close to 100 players at home games."

HOCKEY — Storer Broadcasting Corp. has completed sale of the Boston Bruins of the National Hockey League. (Continued On Page 4B)

Lee, MHS JV's Face Odessans

The undefeated Midland High Bulldogs take on the Odessa Permian junior varsity while Midland Lee's JV entertains the OHS JV in 7 p.m. games Thursday.

The Bulldogs and Panthers are 3-0 while OHS is also 3-0 and Lee stands 2-1.

In other games, Snyder is at Abilene Cooper Saturday and Abilene travels to Big Spring. The San Angelo JV is idle. In the Lee-OHS battle in Memorial Stadium, the Rebels will send the one-two punch of tailback Jerry Moore and quarterback Tracy Rogers against OHS which is sparked by 180-pound tailback Jeff Tolder.

The Midland-Permian game will be held at the PHS practice field and should be a dandy.

Brentley Jackson and Gerald Dedrick pace the Bulldog attack while Permian is led by Mark Graves and Barry Badcock. Last week, Lee blistered Fort Stockton, 56-0 and Midland posted a hard-fought 21-14 win over the Snyder JV.

★ Junior Varsity ★

School	W.	L.	Pts.	Opp.
Midland	3	0	71	5
Odessa Permian	3	0	88	5
Abilene	3	0	90	5
San Angelo	3	1	124	35
Midland Lee	2	1	76	30
Abilene Cooper	0	2	22	38
Big Spring	0	2	14	48
Lee	2	1	33	35

Midland 21, Snyder 14; Midland Lee 28, Fort Stockton 0; Abilene Cooper 28, San Angelo 0; Odessa Permian, Abilene, Odessa and Big Spring were all idle.

Thursday: Odessa at Lee, Memorial Stadium, 7 p.m.; Midland at Odessa Permian, Permian practice field, 7 p.m.

Saturday: Snyder at Abilene Cooper; Abilene at Big Spring; San Angelo is idle.

THE FASTEST FUN IN THE WEST STARTS SATURDAY

The first weekend of exciting, fast-paced racing action gets underway this Saturday at 1:30 P. M. at Sunland Park... home of the fastest fun in the West!

Plan to be on hand for the ninety fabulous days of the most exciting season in Sunland history. An outstanding stakes schedule includes some of the Southwest's finest Thoroughbreds and Quarter Horses in fast and furious competition.

And it all begins this weekend. A full card of high-speed racing on Saturday leads into Sunday's feature race... the \$4,000-added DON LEWIS INAUGURAL HANDICAP at six furlongs includes some of the finest handicap horses in the Southwest. Don't miss it!

Bueno Upset By Ziegenfuss

MISSION VIEJO, Calif. (AP) — Maria Bueno of Brazil, making a second comeback attempt at 35, was surprised by Valerie Ziegenfuss Tuesday in second-round action at the \$50,000 Women's Pro Tennis Classic. Miss Ziegenfuss gained a 6-3, 4-6, 6-3 victory, but disputed calls in the final set prompted her opponent—a former Wimbledon and Forest Hills champion—to call the outcome a "home-town decision."

In the sixth game of the final set, Miss Ziegenfuss returned a drop shot she barely reached, and it appeared the ball could have bounced twice. But the return was allowed and Miss Bueno protested when the players changed sides.

Another dispute arose over the final point, a long crosscourt forehand by Miss Bueno which first was called inbounds by a linesman who was later overruled by the umpire.

In earlier second-round play, Jeannie Evert, 18-year-old sister of Chris Evert, lost a tough match to Isabel Fernandez of Columbia 6-7, 6-4, 6-1.

15. Alabama Christian (1) 2-0 190

Sloan Shakes Up TT Backs

LUBBOCK (AP) — Texas Tech coach Steve Sloan announced two position changes Tuesday as the Red Raiders prepared for Oklahoma State Saturday.

Sloan said that Billy Taylor has been moved from tailback to fullback and Cliff Hopkins has been moved from fullback to tailback. Taylor, soph. from San Antonio, is averaging 9.2 yards per carry this season.

Sloan said that quarterback Tommy Duniven has suffered from "some blurred vision" during the past two games.

Sloan said that doctors have checked Duniven and he is expected to play against Oklahoma State Saturday.

"We will play both Duniven and sophomore Rodney Allison," Sloan said.

The Red Raiders will carry a 2-1 mark into the non-conference game at Stillwater.

BASEBALL — X-rays of Pedro Borbon, the busiest member of Cincinnati's bullpen, proved negative Tuesday after the reliever was struck in the head by a line drive during a workout.

Gates Brown, the most prolific pinch hitter in American League history, announced his retirement as a Detroit Tiger to become a Tiger scout.

Gates retires with the American League record for career pinch hits — 107 — and pinch hit home runs — 16.

PRO FOOTBALL — Quarterback Dan Fouts was listed as questionable for the San Diego Chargers' game against Oakland Sunday after suffering an ankle sprain against Houston last Sunday.

Punter David Beverly was placed on waivers Tuesday as the Houston Oilers made room for Bubba Smith, the former all-pro defensive end. Smith, released by the Oakland Raiders, joins brother Tody Smith on the Oilers roster.

Quarterback Dan Pastorini will handle the Oilers punting chores.

Star cornerback Willie Buchanan broke his left leg in Monday night's 23-13 defeat at Denver and will be sidelined indefinitely.

Hogan Women Set Play Day Pairings

The Hogan Park Women's Golf Association will hold a Play Day Thursday. Members will be playing for a traveling trophy. Pairings for the 18 and nine hole flights are:

18-Hole Flight: Mrs. Robert Edwards, Mrs. Don Ballard, Mrs. Wallace Olson, Mrs. Jack Bell, Mrs. W.C. Kimball, Mrs. Norris Turk, Mrs. Kevin Fisher, Mrs. Jack Veltrop, Mrs. John Moore, Mrs. Charles Dolan, Mrs. John Edwards, Mrs. Stanton Davis, Mrs. L.S. Moore, Mrs. Southern Keller, Mrs. Larry Smith, Mrs. James Parker, Mrs. John Sherrill, Mrs. Chas. Barrett, Zachary Hill, Mrs. J.M. Cox, Mrs. ArDoe Morgan, Mrs. L.R. Johnston, Mrs. James Malley.

9-Hole Flight: Mrs. Don Allen, Mrs. A. B. Edwards, Mrs. Benner Webb, Mrs. Travis Crook, Mrs. John Smith, Mrs. Johnny Smith, Mrs. Jim Smith, Mrs. Billie Smith, Mrs. Jim Smith, Mrs. Marvin Smith, Mrs. Margaret Moore, Mrs. Frank Gray, Mrs. Jack B. Purkin, Mrs. Jim Mack, Mrs. Arley

Yaz May Be Back In Left Field

BOSTON (AP) — Carl Yastrzemski might well be back in left field in Fenway Park, especially. "I don't know about a bigger park like Oakland, but when I get together with my coaches we will go over it," Johnson said. "But he may very well be in left field Saturday."

"Yes," replied Boston Manager Darrell Johnson when asked if Yaz would play left. "a Cooper, a first baseman, could play first, with Juan Beniquez as the designated hitter. Or Yaz at first, Beniquez in left and Cooper as DH."

But no matter where Yastrzemski plays, he will be batting third, as he has all season. When someone mentioned that the third spot in the batting order usually goes to the team's best hitter — which Yaz is not — Johnson replied, "I don't care what history says, I'm not going by it."

Oakland Manager Alvin Dark has shifted his batting order for the playoffs, moving third baseman Sal Bando to the third spot, and catcher Gene Tenace to fifth.

"The way Tenace has hit in Boston and the way Bando finished up, I've got to hit them there," Dark said.

Ken Holtzman got the nod to start on the mound for Oakland Saturday, with fellow left-hander Vida Blue to pitch on Sunday.

However, Dark said, "I might have to use Vida Blue in relief in the opener and won't hesitate to do so."

"And if Holtzman should get knocked out early Saturday, I'll come right back with him on Sunday."

Kris was injured early in the second game, Amarillo, and missed the Fort Worth Wyatt game.

"Kris is working out, but he's limited in what he can do and it's a day-to-day thing with him."

Curtis Pittman has filled in in 10-for-16 and 171-yard style and is the No. 3 rusher with 72 yards.

Midland is 2-1 going into the game with a 3-2 loss to El Paso Eastwood, something that is no solace to Wilkins.

"Midland beat itself in that game. They easily could have won by two or three touchdowns."

BULLDOG QUICKIES — In recognition of National Coaches' Week, the Midland Booster Club presented the MHS staff with a huge cake at Tuesday's meeting. All of the coaches' names were inscribed on it.

Kris Howard, holdover quarterback from last year, is 13 for 20 with 229 yards.

Rich Ingraham, who can play Scott, returned to duty

with the same tendinitis he had prior to the Texas Tech game.

Jimmy Butler and Bobby Rowan worked in their spots.

Guard Will Wilcox also missed the drill. He did not play against Tech because of a sprained arch in the Washington game.

Walker stayed out of action

MIDLAND COLLEGE
Thursday, October 2, 1975
10:30 a.m.

The dedication of Midland College by Governor
ceremonies beginning at 10:30 a.m. in front of
Tours of the campus and buildings will begin at 8:30 a.m.
The Tours will be conducted by students of Midland College.
Each visitor will be presented with a commemorative
t-shirt and information concerning Midland College.

Dedication Address by
Governor Dolph

Welcome to Midland, Governor Briscoe

We hope you enjoy the warm hospitality that
Midlanders are eager to give. Enjoy your visit
and come back to see us again!

tures concerning Midland College.

Invitation Address By
Governor Dolph Briscoe

Marketbasket Survey Report

Consumers Get Bit Of Break

By LOUISE COOK
Associated Press Writer

Consumers got a bit of a break at the grocery store during September, an Associated Press marketbasket shows. But higher prices for coffee, butter, eggs and pork wiped out most of the savings on beef and sugar.

The AP drew up a random list of 15 commonly purchased food and nonfood items, checked the price at one supermarket in each of 13 cities on March 1, 1973, and has rechecked on or about the start of each succeeding month.

During September, the marketbasket total at the checklist store increased in six cities, up an average of 3.7 per cent, and decreased in seven cities, down an average of 2.6 per cent. Overall, the basket the start of October was three-tenths of a per cent more than it was a month earlier.

During both July and August, the marketbasket bill was up at the checklist store in 10 cities

and declined in only three, indicating some improvement last month.

The price fluctuations generally reflected changes at the farm and wholesale levels. At the farm level, the U.S. Department of Agriculture said Tuesday that prices paid to farmers rose 3 per cent from Aug. 15 to Sept. 15 after remaining steady the month before. The increase was due mainly to higher prices for milk, beef cattle, eggs, pork and wheat.

Frost in Brazil damaged much of the coffee crop that would have been harvested next year. That drove up the cost of coffee beans now available and manufacturers started raising wholesale prices.

The wholesale boosts took a while to filter through to the retail level, however, because many stores offer coffee as a lossleader to get buyers into their outlets. Manufacturers' promotion offers to supermarkets also helped keep prices down for consumers.

During September, however, the price of a one-pound can of coffee went up at the checklist store in eight of the 13 cities surveyed, rising an average of 13 per cent. The biggest increase came in Providence, R.I., where a one-pound can went from \$1.28 to \$1.59, up 24 per cent. Coffee was unchanged at the checklist store in four cities and was not available in the specified size at the survey store in 13th city.

Helping offset the increases on coffee and other items were lower prices for beef and sugar.

Sugar prices, which soared to record levels last December, then started declining, had been rising during the summer, reflecting an increase in the price of raw sugar. The raw sugar price went down again; refiners charged grocery stores less; and retail prices dropped. The AP survey showed the price of a five-pound sack of granulated sugar declined during September at the checklist store in 11 cities. The average decrease was 10 per cent.

Bargain Hunting Props Up Stocks In Mixed Trading

NEW YORK (AP)—The

stock market was mixed today, propped up by some tentative bargain hunting after the sharp declines of the past two trading days.

The noon Dow Jones average of 30 industrials was up 2.01 at 795.89 from a 24.72-point slide in the week's first two sessions. But gainers trailed losers by about a 5-4 margin in the overall count on the New York Stock Exchange.

Brokers traced the cautious buying to anticipation by some technically inclined investors that the Dow would hold in the low 790s—a point from which it rebounded late in August and again two weeks ago.

Texaco was the most active issue on the Big Board, unchanged at 23 1/4. A 100,000-share block of the stock traded at 23 1/4.

At the American Stock Exchange, the market value index slipped .13 to 83.01.

Bausch & Lomb fell 3/4 to 28 1/2. The company said late Tuesday that losses from translation of foreign currencies into dollars would cut its third quarter earnings by 39 cents a share.

International Minerals & Chemicals slipped 1/4 to 43 1/2 in active trading. Chief Executive R.A. Lenon told the annual meeting per-share earnings for the current fiscal year might be down 5 to 10 per cent because of a large number of shares outstanding.

The NYSE's composite index of more than 1,500 common stocks advanced .11 to 44.60.

Circle K Corp., the Amex volume leader, was unchanged at 5 1/4.

At the American Stock Exchange, the market value index slipped .13 to 83.01.

Bausch & Lomb fell 3/4 to 28 1/2. The company said late Tuesday that losses from translation of foreign currencies into dollars would cut its third quarter earnings by 39 cents a share.

International Minerals & Chemicals slipped 1/4 to 43 1/2 in active trading. Chief Executive R.A. Lenon told the annual meeting per-share earnings for the current fiscal year might be down 5 to 10 per cent because of a large number of shares outstanding.

1,200 Saudi Arabian Enlistees To Get Basic Training At Lackland

SAN ANTONIO, Tex. (AP) — U.S. Air Force spokesmen say some 1,200 Saudi Arabian enlistees will be the first foreign airmen to get their basic military training in this country.

Doug Moore, a spokesman at Lackland Air Force Base, confirmed Tuesday that 100 Royal Saudi Arabian Air Force personnel would arrive in San Antonio tonight.

Several sources said that the State Department had tried to downplay the training by mixing any voluntary news releases by the Air Force.

"They're coming for Air Force basic training and English training," Moore said when asked about the program. "This is the first time that we

have provided basic training for anybody but United States Air Force personnel."

The Saudi Arabian students were to come in installments of 100 each three months.

Moore said "higher command" instructed Lackland AFB information officers to answer specific questions from newsmen but squelched any voluntary release of the information.

Sources said prepared news releases had been passed along the Air Force chain of command for clearance, but that the State Department ordered any voluntary news releases

stopped. "We were told to respond to query only," Moore said. However, he dodged whether the State Department participated in that decision.

The Defense Language Institute and Air Force have trained foreign personnel, including some Arabian royalty, in the past, but such training was limited to English and limited technical work.

Moore said the Royal Saudi Arabian Air Force would pay the \$30,000 per person tab for training the 1,200 airmen during the next two years.

The training will include two weeks orientation, 59 weeks of various English courses, four weeks at the Air Force Military Training Center and 52 weeks of math and sciences.

"Then they will go into technical school here in the United States in the specialty in which they're going to be working," Moore said.

The Saudis will stay at several renovated barracks at Lackland, where the Air Force conducts all its basic military training.

Moore said Lackland officials have known since last spring that the Saudis would be trained here.

Open Records Act No Bar To EEOC

AUSTIN, Tex. (AP) — Texas' Open Records Act does not dilute the power of the federal Equal Employment Opportunity Commission to obtain applications for employment in the state's public schools, Atty. Gen. John Hill said Tuesday.

Superintendent D.P. O'Quinn of the Alvin Independent School District asked Hill if the Texas law would prevent him from disclosing to the EEOC applications for employment.

Hill said the EEOC "has administrative subpoena powers to obtain evidence relevant to charges of unlawful employment practices. This power extends to information in personnel files and records even though it is personal, private and confidential."

"The regulations expressly provide that the requirements concerning record keeping and disclosure of records concerning employment practices supersede any provision of state or local law which may conflict with them," Hill said.

Apollonians Fish In Siberia

MOSCOW (AP) — Apollo Astronauts Thomas P. Stafford and Donald K. Slayton have taken time out from their official Soviet tour for some fishing in Siberia. They also may have told a fish story.

Arising early on Tuesday, Stafford, Slayton and Soviet Cosmonaut chief Gen. Vladimir A. Shatalov went to the Ob River near Novosibirsk and reported landing 20 fish, several weighing at least 10 pounds.

"Deduct at least 25 per cent for exaggeration," said Slayton's wife, Marjory.

Meanwhile, Apollo Astronaut Vance D. Brand and Soyuz Cosmonauts Alexei Leonov and Valery Kubasov and their families went sightseeing in Novosibirsk.

Shivers Predicts Rogers Opposition To Die Soon

By ROBERT HEARD

AUSTIN, Tex. (AP) — Professors protesting the appointment of Dr. Lorene Rogers as president of The University of Texas at Austin will give up their opposition soon because they need her too much, says regents chairman Allan Shivers.

"I don't think it'll be very long" before the furor dies down, Shivers told a reporter Tuesday after addressing UT-Austin law students.

"Unless they deal with her,"

Shivers said, "they lose their only line of communication to the administration and regents for faculty legislation."

Both the General Faculty and the Faculty Senate have voted overwhelmingly to refuse to recognize Dr. Rogers as president and to decline to serve on committees that meet with the administration.

Shivers and two other regents, Tom Law and Ed Clark, participated in a panel discussion with two professors, James Kinneavy and Charles

Alan Wright, who opposed Dr. Rogers.

Students packed the small law school auditorium. Because of a public address system malfunction they remained unusually hushed to hear the speakers, except for deafening applause for the professors and Law, who voted against Dr. Rogers.

Shivers said he made it clear at the first meeting of the regents selection committee with a faculty-student advisory committee that he refused to give the advisory committee a veto on the choice of president.

Kinneavy, English professor, said the advisory committee asked for a "reciprocal veto," which he now prefers to call "reciprocal acceptance."

The regents committee asked for a list of candidates to interview, Kinneavy said, and he called this "pretty close to it (reciprocal acceptance), if one assumes you do not hire a president without an interview."

The advisory committee unanimously rejected Dr. Rogers four times, Kinneavy said.

The students applauded wildly. Shivers looked at the ceiling.

Shivers discussed the presidential candidates by name, something that apparently has never been done before in public after a new president was selected. Revealing those names perhaps could hurt the school in future presidential elections because of a reluctance by candidates to risk rejection and have that rejection publicized.

Shivers said the No. 1 candidate on the advisory committee's list was Dr. William Boyd, president of the University of Iowa.

Boyd told him six times how happy he was at Iowa, Shivers said. Finally, Shivers asked him why he sought the Texas job if he was so happy at Iowa.

"I don't know that I am," he quoted Boyd as saying. Shivers said he asked Boyd if he knew whether he would accept the job if it was offered to him. Boyd said no, according to Shivers.

Wright, law professor and attorney for President Richard

Nixon during the Watergate investigation, said former regents chairman Frank Erwin "is

quite wrong when he says Dr. Rogers never had a chance." Wright said there was no emotional atmosphere and no pressure from "faculty and students, with 'radical or liberal' appended," at the time of her selection, as Erwin claimed. In fact, Wright supported Dr. Rogers initially, he said.

Blaming faculty and students for the turmoil is "like saying the Washington Post can be blamed for Watergate," Wright said.

Law responded to specific published charges against Dr. Rogers, such as her alleged remoteness and nonresponsiveness.

"I have to say I have not found her so... but then I have to say a regent is treated awfully nice." The students roared.

To the accusation that she is a puppet of the regents, he said: "I know that is not true."

Law said there may be an "enemies list," as some

charge, but there is no proof of it. Yes, eight professors who have spoken out against the administration received reduced merit raises, but 72 other professors also received less than deans' and department heads recommended, he said.

Law asked the students where they would go from here. "Should you strike? Against whom would you strike except yourselves?"

A student asked Shivers whether he once said it would be "very foolish and unthinkable" for the regents to select someone the advisory com-

mittee failed to approve.

Shivers said no.

Was Shivers present when former Chancellor Charles LeMaistre made that statement? Shivers said that was a question for LeMaistre.

Shivers said he received bachelor and law degrees at the university many years ago, and "I have been connected with this school in some capacity since that time. I would not consciously do anything to harm this school or any component part of it."

"Give Dr. Rogers at least half a chance," Shivers said.

AIRTRANS ISSUE

\$190-Million Suit Filed Against LTV

FORT WORTH, Tex. (AP) — A \$190.5 million suit has been filed against LTV Corp. by the cities of Dallas and Fort Worth claiming the company tried to intimidate them into accepting the Airtrans system.

The suit filed Tuesday in state district court here said LTV tried to force the cities to accept the people and baggage moving system at the Dallas-Fort Worth airport although it is "unsuitable for its intended purpose."

LTV Aerospace Corp. and Travelers-Indemnity Insurance

Co. are also named as defendants in the case, and eight airlines that serve the airport joined as plaintiffs.

The suit seeks \$17.6 million in actual damages and \$142.9 million in punitive damages, contending that "LTV's actions over the last year evidence a course of conduct maliciously and wantonly directed at intimidating the regional airport board to give LTV a premature acceptance of Airtrans."

LTV President Sol Love said at no time did the company refuse to maintain the Airtrans system.

"We have offered to continue to maintain Airtrans at the airport in order to avoid inconveniencing the public," Love said.

Airtrans was shut down Monday night after LTV said it and the airport board had reached an impasse in settling their dispute over the system.

The suit contends that the defendants had a contract with LTV that required the company to construct the Airtrans system facility for almost \$31 million and to maintain the system for three years for \$4.9 million.

The plaintiffs claim that the contract called for completion of the system by July 15, 1973. They ask that LTV be ordered to perform the contract or pay \$38,000 in damages for each day it does not perform maintenance work on Airtrans.

Prince Sihanouk To Fulfill Dream

UNITED NATIONS, N.Y. (AP) — Cambodian Prince Norodom Sihanouk will fulfill a dream next Monday when he addresses the United Nations General Assembly.

A U.N. spokesman said Tuesday that Sihanouk also will host a reception for U.N. officials and diplomats and will be the guest of honor at a dinner given by Secretary-General Kurt Waldheim.

Sihanouk, Cambodia's titular head of state, often has spoken of his wish to address the General Assembly since he was ousted in a coup d'etat in 1970. He has lived in exile in the People's Republic of China.

Young Coin Dealers Win Court Suit

EL PASO, Tex. (AP) — Two young Portales, N.M., coin dealers have been awarded a \$121,500 judgment by a federal court jury here against the president of the El Paso Coin Co.

Jay Cammack, 27, and Dave Ingalls, 23, had sued Renato Ruiz and the El Paso National Bank claiming the two had conspired to obtain control over \$199,500 in gold coins belonging to CAMCO, a firm owned by Cammack and Ingalls.

Ruiz is reportedly now living in Mexico. Ruiz earlier gave the plaintiffs \$78,000 in gold coins as partial payment of his indebtedness.

The six-member jury Tuesday absolved the bank of any liability on the amount sought by Cammack and Ingalls.

According to testimony, Ruiz had given Cammack a \$199,500 check for the coins and then ordered the bank to stop payment on the check, which the bank did.

The bank seized the CAMCO coins when El Paso Coin's gold speculating business suddenly collapsed in September 1974. Ruiz had used his inventory as security for loans from the bank.

Sheinwold On Bridge

By ALFRED SHEINWOLD

Prepare For Finesse By Unblocking

Theatre buffs may think of Eugene O'Neill as one of the greatest playwrights the United States ever developed. Bridge buffs know that Eugene O'Neill, of Reston, Va., is a brilliant young bridge player who got together with Roy Fox, of Alexandria, Va., to win the Life Master Pair Championship in the national tournament a few weeks ago. O'Neill starred in the hand shown today.

Opening lead — ♦ 10

East couldn't open with a normal bid of one club because his partnership used one club as a forcing opening bid. His bid of two clubs (in his system) showed a normal opening bid with a long club suit.

O'Neill took the first trick with the ace of clubs when East put up the queen. He then led the ten of hearts, assuming that

East was short in hearts (since he was long in clubs). If West had J-9-x-x of hearts, he might be foolish enough to cover the ten of hearts with the jack.

When West unhesitatingly played a low heart, declarer put up dummy's king and then returned a low club from dummy.

MAKES SAFE RETURN
East took the king of clubs and made the safest return he could think of. His jack of hearts was going to fall anyway on the next round of that suit, so East led the jack of hearts back.

O'Neill had no trouble reading the situation. He took the jack of hearts with the queen, drew two rounds of trumps with the king and ace, and then led his low heart to try the daring finesse with dummy's eight.

When the finesse succeeded, O'Neill cashed the ace of hearts to get rid of a diamond. Now he was sure of game, losing only one spade, one diamond and on club.

DAILY QUESTION
Partner opens with one club, and the next player passes. You hold: S-Q-1-0-7 H-9-6-3-2 D-J-8-7-5 C-10-5. What do you say?

Answer: Pass. In standard bidding methods, the opening bid of one club is just like any other opening bid of one of a suit. You may pass when your hand counts to fewer than 6 points.
