## Silent West Holds Fate Of Human Cargo In Plane Cochran County Well Shuts Down After Striking Oil

### Wildcat Well On Slaughter Ranch Halts Operations

Workers Are Waiting For Orders From Marland Co. After Showing Is Made Thursday Afternoon

### Well Is Shut Down

Definite Information On Depth Not Available In Late Reports Received Here This Morning

TELEPHONIC reports from Marland and Lehmans, to the Morning Avalanche early today, stated that the Marland-Slaughter No. 1 well in Cochran county had struck oil Thursday afternoon at 6 o'clock and that the well had been shut down awaiting further orders from headquarters of the company in charge of drilling operations.

Wait For Orders  
Following the receipt of messages from Marland and Lehmans, Marland J. Smith, of this city, in a statement to the Avalanche said that he had received reports from Lehmans saying the well had struck what was being looked for—oil, and that operations have come to a halt.

For the past week the wildcat well has had strong showings of gas, amounting to approximately 10,000 feet and drilling has gone forward in black hole giving increasing depth. The well has been shut down at the rig the early part of the week and increasing caution has been exercised in the prevention of fire hazard.

Many Visit Well  
The wildcat well, being drilled by Marland Oil company, has been the scene of visits by scores of people from all sections of the South Plains. The present well is an effort to get another wildcat drilled by this same company. It is reported that the original well was abandoned at 3,000 feet to start a new well.

### Proposed Tariff Bill Is Opposed

Combination Of Democrats And Republican Independents In Senate Start Movement Against Bill

### By D. HAROLD OLIVER

WASHINGTON, Sept. 5.—The combination of Democrats and Republican independents in the Senate, which for weeks held the tariff bill against the wishes of President Hoover, was removed today to the administration group pending the tariff bill comes as a result of an agreement on procedure reached between Senator Borah of Arkansas, the Democratic leader, and Senator Borah of Idaho, spokesman for the western states group, an effort to limit revision to agriculture and to be delivered. After the agreement was made, a motion will be made to start debate on the administrative provisions.

### To Debate Trade

Senator Borah contended the merits of the bill should be debated first and that after the country was equipped with the facts presented by the Senate committee majority in the house many Democrats would be a motion to recommend similar to the Senate resolution which last week was voted last June.

announcing the "understanding" between the two groups, Borah did not go into details, but he did say the independent would have objection to discussing a resolution, if it was decided to do so, until after the debate.

### COMPLETES LABORS

Wish Fee Committee Is To Make Report

EL PASO, Sept. 5.—The legislative committee which for the past weeks has been conducting an investigation into the fee system used in county officials has today issued its report. In the opinion of the committee, the fee system is excessive and should be reduced. The committee also recommended that the state should be authorized to take over the county courts.

### Cop's Nose Is On Honor List

RACINE, Wis., Sept. 5.—(AP)—Patrolman Gustav Klein's nose, was on the honor list today.

Early this morning the patrolman smelled a peculiar odor coming from a meat market. Calling two other patrolmen, Klein rounded 10 persons in the apartment above the market and saved them from possible death by refrigerating gas.

The gas had seeped into the apartments from the meat market, when the people were aroused, they staggered about their rooms and complained of illness. All were revived outside.

### Seven-Month-Old Child Victim Of Mishap Succumbs

Lena Fay Smith Loses Two Day Battle For Life As Car Accident Injuries Prove Fatal Thursday

Hovering between life and death for two days and nights as the result of injuries received in an automobile wreck last Tuesday afternoon, Lena Fay Smith, 7-month-old daughter of Mr. and Mrs. A. L. Smith, south Avenue H, died Thursday morning at the family residence.

The child was injured when the car in which she was riding with her parents was overturned in a ditch seven miles west of Lubbock, Tuesday afternoon about 5 o'clock. Mrs. Smith's injuries consisted of severe bruising, while the child was fatally injured by striking water from the radiator of the car. Mr. Smith escaped injury.

### Thrown From Car

The accident occurred as the radiator on the machine broke, causing the car to overturn. The baby was thrown 10 or 12 feet from the scene while Mrs. Smith was pinned beneath.

The body was prepared for burial by Rymon Brothers and sent to Carlsbad yesterday afternoon for burial.

Survivors are the parents, one sister, Irene, T. and two brothers, Holm, 6, and M. C., 4.

### Lubbock Man Dies Suddenly In City

J. W. Mitchell, 32, 1407 Sixth street, died suddenly yesterday morning at 2:30 o'clock at the family residence. No funeral arrangements had been made last night, the body lying in state at the Rymon Brothers funeral home pending the arrival of relatives tonight.

Mr. Mitchell, who recently moved to this city from Canada where he was in the grocery business, was employed by the Lubbock Poultry and Egg company. He was a member of the Odd Fellows lodge and of the Episcopal church.

### JEWIS RETURNING

Population On Way Home As Warring Is Quited

JERUSALEM, Sept. 5.—(Jewish Telegraphic Agency)—The Jewish population of Safed is gradually returning to the city, where they are staying in the protected area, which daily is being expanded.

A portion of the Jewish quarters destroyed by fire is uninhabitable. In many instances the attackers were received as the former Arab neighbors of the Jewish residents, who were on friendly relations for many years. Some 30 Arabs were arrested in Safed on charges of assault and looting. An English missionary, Dr. Temple, declared the looting continued in Safed until the following afternoon. Trials have not started.

### OFF FOR CHRISTENING

ATLANTA, Ga., Sept. 5.—(AP)—A group of prominent Texans, headed by Mayor W. E. Monteth of Houston, left here late today for the following afternoon where they are to attend the christening and launching of the new United States destroyer Houston.

### Crash Victim At Post Identified As Colorado Man

Johnnie Evans Is Hovering Near Death In Lubbock Sanitarium After Auto Crashes In Garza Co.

Identification Difficult Until Arrival Thursday Of Injured Youth's Brother; Letter Found

JOHNNIE EVANS, 23, of Colorado, was hovering close to death at an early hour this morning in the Lubbock sanitarium as the result of injuries sustained Wednesday night in an automobile accident a short distance northwest of Post. With his head badly crushed and suffering of other injuries, his condition this morning was said by hospital attendants to be exceedingly critical and practically no hopes were offered for his recovery. He was rushed to this city last night by ambulance for surgical treatment from Post.

Crashes Into Post  
A light roadster, in which the injured man was riding, crashed into a post at the side of the highway between Post and Close City shortly after 10 o'clock Wednesday night and the car was badly damaged.

Post authorities were unable to establish the identity of the man until late Thursday. A letter on the auto revealed the fact that it was sold by a Midland concern. Efforts to establish the identity of the man through that source, however, failed.

Letter Found  
A search of the car uncovered a letter addressed to Red Cook, Alpine, Texas, county attorney Leon O. Moses, of Post, made inquiry at Alpine but discovered only that Red Cook was a co-ed in the summer session of Sul Ross Teachers' college, Alpine, and was no longer there.

A brother of the injured youth, Herbert Evans, of Colorado, arrived in Post late Thursday and identified him. He is in Lubbock at this time.

### Root Formula Is Okehed Thursday

Secretary Stimson Favors Plan For Adherence To World Court As Adverse Opinions Held In Senate

(By Associated Press)

WASHINGTON, Sept. 5.—Administration endorsement of the Root formula for American adherence to the world court was given today through Secretary Stimson and adverse reports were forthcoming quickly from the administration group in the senate, which eventually will be asked to ratify the proposal.

Opposition at the capitol, which came from the League of Nations irreconcilables, lullied in volume, however, with word from the state department that it appeared unlikely President Hoover would submit the world court proposition to the senate before another year.

The President is understood to hold that the assembly of the League of Nations shall approve formally the revised American reservation to adherence and that each of the signatory nations shall go through the necessary steps for ratification before he calls upon the senate to act. Such a course means a year, at least, it is believed, before the issue again goes before the senate.

The announcement by Secretary Stimson endorsing the revised American reservation worked out by Elihu Root brought announcement of disagreement by Senator Moses of New Hampshire, one of the republicans of the foreign relations committee.

### Lubbock Bride Is Arrested In Connection With \$1,000 Jewelry Robbery At Midland Recently

MONDAY a blushing bride, Wednesday indicted by a grand jury for theft in connection with a \$1,000 jewelry robbery. Mrs. R. E. West, nee Maude Raines, about 30, of Lubbock, Wednesday was arrested by Lubbock county officers for investigation in connection with a jewelry robbery in Midland several weeks ago. She was turned over to Sheriff A. C. Francis, of Midland county, late the same day and taken to that city for identification.

### Bullet-Torn Bodies Give Mute Evidence Of Latest Execution In Gangland

Guns Of Racketeers Claim Lives Of Two Members

(By Associated Press)  
CHICAGO, Sept. 5.—Gangland executions today and, as usual, the only evidence left police was the bullet-torn bodies of two young racketeers.

The two victims, Frank Cawley and Edward Wescott, were found this morning lying alongside a seldom used street in a sparsely settled northwest community. They had been shot repeatedly through the back, apparently having been stood up with their faces to the street and executed.

Task Performed Well  
The executioners performed their task well. Police found not only the slightest trace of them and had only the criminal records of the slain racketeers as a basis for investigation. They both were known as "muscle men," threatening their way into racketeering groups for their share of the take-offs. They had been identified with a west side gang.

It appeared they had been either kidnaped or else "put on the spot" by "friends." There had been no struggle, all signs indicated. One of the men clutched two nickels in his hands. Whether he had been surprised and kidnaped while waiting to make a phone call or whether this was gangland's method of saving the men were "cheaters" was problematical.

### Beneficial Rains Continue To Fall In South Plains

Precipitation Is Light In Lubbock and Surrounding Section; Pasture and Late Crops Are Aided

Beneficial rains which swept practically all of the South Plains and North Panhandle Wednesday night breaking a long drought, continued to fall in some sections Thursday. While the fall in Lubbock and immediate vicinity was comparatively light reports from other sections indicated that precipitations would make for good fall pasture and benefit corn and late feed crops to some degree.

The mercury, for the past several days hovering above the 90 mark, was sent hurtling down to 40 degrees Wednesday night and Thursday morning as cold winds swept from the north, followed by hail in many sections. A slight drizzle was reported to crops by the ice fall near Littlefield and in Crosby county.

### Minister Denies Close Relations

(By Associated Press)  
WASHINGTON, Sept. 5.—Administration endorsement of the Root formula for American adherence to the world court was given today through Secretary Stimson and adverse reports were forthcoming quickly from the administration group in the senate, which eventually will be asked to ratify the proposal.

Opposition at the capitol, which came from the League of Nations irreconcilables, lullied in volume, however, with word from the state department that it appeared unlikely President Hoover would submit the world court proposition to the senate before another year.

### Life Of Helms Is Snuffed Out For Alleged Robbery

"Santa Claus" Robber Of Cisco Bank Electrocutated At State Penitentiary Early This Morning

(By Associated Press)  
HUNTSVILLE, Texas, Sept. 5.—Henry Helms was electrocuted at the state penitentiary here early today for alleged participation in the Santa Claus robbery of the First National Bank of Cisco, December 23, 1927. The current was applied at 12:10 a. m. and Helms was pronounced dead six minutes later.

Relatives Of Condemned Man Make Final Trip To Austin Thursday In Hope Of Stay Of Execution

Helms' parents, wife and 13 months old baby were on their way from Austin today after making a final unavailing plea to Governor Dan Moody to intervene in the electrocution.

The First National bank of Cisco was robbed shortly after noon December 23, 1927, and \$12,000 in cash was taken. Helms, participants were identified as Helms.

### Officials Trying To Solve Mystery Of Banks Swindle

President Of Institution In Colorado Sought In Effort To Unravel Details Of Alleged Forgery

(By Associated Press)  
DENVER, Sept. 5.—Bank officials were trying today to unravel the details of a half million dollar transaction, involving transfer of that amount from Denver to New York banks on alleged forged telegraphic orders sent from Denver in American Bankers association code.

Meanwhile a search was being made for C. D. Wagoner, president of the Bank of Telluride, Telluride, Colo. Bankers here said Wagoner presented drafts at the Chase National bank, New York, to which the Denver funds were transferred, and deposited part of the certified drafts in other banks to cover indebtedness.

### Mishaps Mar Race Practice Session

Tourney Between Principal Speed Kings Of England And Italy Starts Today In Schneider Cup Event

(By Associated Press)  
CALSHOT, England, Sept. 5.—(AP)—Minor mishaps, so frequently associated with high speed contests, today marked the last practice session for the Schneider cup race.

The tourney between the speed kings of the English and Italian air forces is to start tomorrow, the forecast being for fair and warm weather. The first day's program will be devoted to navigation tests.

### PLAN PAJAMA PARADE

First Annual Promenade To Be Held At Galveston

GALVESTON, Sept. 5.—(AP)—The new fashion of pajamas for every day summer street wear will be given the acid test here Sunday, Beach association officials having set aside the day for a "first annual pajama promenade." Six prizes have been offered, and the movie photographers have been invited to the event.

### Reports Of Ship Being Found Are Denied By T.A.T.

Extensive Search Is Made Over Three States For Transport With Woman And Seven Men Aboard

Nothing Tangible Is Found After Indians Tell Of Seeing Airliner Wednesday In Arizona

(By Associated Press)  
LOS ANGELES, Sept. 5.—The Los great silent open spaces of the wild west section of New Mexico and Arizona failed to give up the secret to a late hour today of the mystery of the Transcontinental Air Transport liner "City of San Francisco," with its human cargo of one woman and seven men.

For more than two days, since the disappearance of the great all-metal tri-motor monoplane, nothing tangible has been developed from the meager and sensational reports that filled into telegraphic channels from the desert region.

Many Reports Heard  
From the wilderness of some 20,000 square miles of most sparsely populated and wildest section of the continental United States came many reports which awakened hope and despair in all parts of the nation.

First there was a report from Old Fort Defiance, on the Arizona border in the Navajo Indian reservation near the New Mexico border. It was that the T. A. T. plane circled over that trading post Tuesday noon, then headed south. A Santa Fe switchman gave the report.

### Organization Of Cotton Financing Group Under Way

Cooperative Associations Hope To Form Selling Organization To Help Southern Farmers

(By Associated Press)  
WASHINGTON, Sept. 5.—(AP)—Plans are under way for the formation of a national cotton financing and selling organization by southern cotton cooperative marketing associations, with the approval of the Federal Farm board.

The board announced today the organization would serve as a central body for cooperative cotton financing in the manner in which the Farmers National Grain corporation, now being formed, is expected to serve grain cooperatives.

### East Sweltering Under Heat Wave

Showers, Cooler Weather Forecast In Many Places As Relief From Five-Day Scorching Temperature

(By Associated Press)  
NEW YORK, Sept. 5.—The belated heat wave which has scorched the country for the past five days continued today, even spitting across the Atlantic States Europe where new heat records were established, but relief was in sight.

Showers and cooler weather were forecast in many sections in other the prediction was for warmer tomorrow.

### Billions Lost In Market

NEW YORK, Sept. 5.—(AP)—Upward of one billion dollars in quoted value was washed away in a sudden flood of selling which swept over the New York stock exchange in the last hour of trading today.

The reaction came after pools succeeded in marking up scores of issues \$2 to \$14 a share, many of them to new high records. It was the worst since the break which followed the raising of the New York Federal Reserve discount rate from 5 to 6 per cent a month ago. Net declines in many active stocks ranged from \$3 to \$18.75 a share.

At first Wall street was inclined to lay the blame on publication of a statement by Roger Babson, that a break in stock prices rivaling the Florida land boom was imminent. Later observers agreed that it was a natural correction of a top-heavy speculative position created in the bullish activities.

### Jury Is Selected For Mrs. Pantages

LOS ANGELES, Sept. 5.—(AP)—A jury of seven men and five women was sworn in by Superior Judge Carlos S. Hardy late today to decide the fate of Mrs. Lois Pantages, wife of the vaudeville theatre magnate, on trial on a second degree murder charge. Agreement upon the indictment was announced at the close of the third day of the trial after the state had used all its twenty preliminary challenges and the defense eighteen.

### "Degree Mill" Being Probed

DALLAS, Sept. 5.—(AP)—Federal agents here today were requested to investigate a purported "degree mill" after a complaint was made that bogus university degrees were being peddled to preachers by a Dallas institution in violation of federal postal laws.

The address of the school given in advertisements sent through the mails was listed in the Dallas city directory as a private residence in a select section.

It was reported that B. D. degrees were offered for \$50 and D. D. degrees for \$100.

### Organization Of Cotton Financing Group Under Way

Cooperative Associations Hope To Form Selling Organization To Help Southern Farmers

(By Associated Press)  
WASHINGTON, Sept. 5.—(AP)—Plans are under way for the formation of a national cotton financing and selling organization by southern cotton cooperative marketing associations, with the approval of the Federal Farm board.

The board announced today the organization would serve as a central body for cooperative cotton financing in the manner in which the Farmers National Grain corporation, now being formed, is expected to serve grain cooperatives.

Adoption by the board of a policy of centralization of efforts in marketing agricultural commodities and other farm products also was made known. The board announced it had arranged for an additional 10 per cent loan to cotton cooperatives on unhedged cotton, pledged under loans not in excess of 65 per cent of its face value to the intermediate credit bank.

### Growing Grip Of Hoover On Party Seen In Capital

New Selection By G. O. P. Indicates Power Of Chief Executive After 1st Six Months In White House

By JAMES L. WEST (Associated Press White House Correspondent)

WASHINGTON, Sept. 5. (AP)—After six months in the White House, President Hoover slowly is tightening his hold on the control of the machinery of the republican party. More and more his own individual policies will be reflected in the direction of party affairs as the 1930 re-elections approach.

Another original Hoover man—Claudius H. Huston of Tennessee—will be elected chairman of the republican national committee at the meeting of that body here September 9, and it is regarded as certain the national committeeman to be selected for the state of Georgia will be a Hoover supporter of long standing.

Huston will succeed Dr. Hubert Work, who retires to private life after refusing an ambassadorship and after nearly eight years of service in the cabinet and a year and more as chairman of the national committee.

Work was the first of the Coolidge cabinet openly to support Hoover's candidacy for the presidential nomination, and unquestionably that fact entered into his selection as director of the campaign in which Hoover was swept into the White House by an unprecedented majority of the electoral college.

But it is not alone in the affairs of the national committee that Hoover influence is being felt. He is credited with having had a large hand in the selection of Senator George H. Moses, New Hampshire, to head the republican senatorial campaign committee.

Moses was one of the first of the senators to declare for Hoover's nomination; was very active in the general campaign last year, and as he is a campaigner of long experience his friends say it was natural that Hoover should turn to him as director of the senatorial campaign.

A strong believer in coordination, the President conceived the idea of closer cooperation between the national and the senatorial and congressional campaign committees, and he selected Charles A. Dawson, a former member of congress, to act

### Japanese Envoy On Graf En Route To Washington

Bearing an armload of messages from Japanese officials which he was commissioned to deliver to President Hoover, D. Shirai, Japanese newspaperman who flew from Tokyo to Los Angeles on the Graf Zeppelin representing his government, is en route to Washington to complete his mission. He is shown here with local Japanese officials at Los Angeles. Left to right in the photo are T. Takasaka, Japanese vice-consul; M. Matsuzaki, Japanese newspaperman; Shirai; Clarence Martin, American newspaperman with the party, and S. Kato, publisher of a Japanese-American newspaper.

as liaison officer between these three organizations.

That means the creation of a new post in the national committee; that of executive secretary. Dawson will have that job. When he first was selected there was a bit of mystery surrounding the subject due to a disinclination of party leaders to make any formal announcement pending the formal election of Dr. Work's successor.

While the President is likely to adopt a neutral attitude in the party primary contests for senators and representatives next spring and summer, some of those in his councils look for him to throw the weight of his influence in certain states where republican candidates, especially for the senate, find themselves in a close fight with the

democrats.

What particular means he will find to accomplish that will depend upon circumstances during the campaign, but undoubtedly the means will come to hand, as the President naturally is interested in maintaining a working majority of his party in congress.

#### PLANES RETURN

SHREVEPORT, La., Sept. 5. (AP) Sixteen army planes en route from Cleveland to their base at Fort Crockett, which stayed over here last night, left this morning for Fort Crockett after maneuvering over Shreveport.

Miss Beatrice Smelser of Plainview, is visiting in Lubbock.

More than 31,000,000 telephone calls were made last year in Canada.

Enough telephone wires are used in New York City to reach 35 times to the moon.

Approximately 24,000,000 tons of limestone are used annually in the United States chiefly in the smelting of iron ores.

Gaius Gracchus, the Roman tribune who lived 146 B. C. was the first to inaugurate farm relief by distributing grain to the poor. He supplied, at the expense of the Roman government, a bushel and a quarter per month at half price—the charge amounting to about 30 cents a bushel.

### Student Of Space Perception Moves In Baffling World Of Mystery

NORTHAMPTON, Mass., Sept. 5. (AP)—How would you like to reach for a glass of water and meet only empty space? To think straight doors were curved, or see rain-bows around the heads of all your friends?

This is what happened to Miss Janet Goldschmidt of New York when she put on prism glasses in her investigation of the habit of space perception in connection with her work in psychology at Smith college.

Space perception is defined as the ability to perceive which things are far away and which nearby. Psychologists say that this ability must be acquired, one that babies do not possess.

In infancy the world seems only a confusing blur of colors and lines. Gradually, however, by reaching for things and in other ways, each person learns to see the world in three dimensions and thus forms the habit of space perception.

Miss Goldschmidt undertook to investigate this habit further. For three days she wore a pair of prism glasses that moved everything she saw to the left. Straight lines became curved and everywhere light was bent or refracted as it passed through the prisms into rainbow bands of color.

To this new situation Miss Goldschmidt's old habits of space perception were poorly adapted. She reached for a pencil and felt only her desk; she walked towards a door and found only a wall. Soon, however, she began to form new habits and could reach for things with some hope of success. To learn to walk downstairs took long-

### Bits Of News And Personal Mention

Miss Inez Medlock, Tech graduate, has gone to Portales, N. M., where she will teach botany this year. Miss Medlock has been an assistant in botany at Texas Tech college for the past two years.

Rose Marion Levine, Miss Helen Joan Hall and Mrs. H. B. Phillips, of this city, were admitted to the Lubbock sanitarium yesterday.

N. A. Calley, of Lubbock; Miss Chrystal-Randolman, of Crosbyton, and Mrs. Frank J. Heidt, 1118 8th street, were admitted to the West Texas hospital yesterday.

est of all, but in three days she was adjusted to the new world.

One of the most surprising of Miss Goldschmidt's results came when she touched a straight surface which (because of the glasses) looked curved. It felt curved as well. This, Miss Goldschmidt concluded, seemed to prove the primacy of sight over kinesthetics, or touch, a point which long has been debated among scientists.

This was said to have been the first time that a prism glasses experiment ever was tried continuously. Miss Goldschmidt plans to continue her studies in psychology at Columbia university.

Miss Dorothy Rushing has returned from Plainview where she visited for several days. She also went with friends on a motor trip to New Mexico. Miss Rushing has as her guest, Miss Virginia Hines, of Plainview.

Weldon E. Jones, teacher in the Crosbyton schools, visited friends in Lubbock last night.

Baxter Honey, 1011 15th street, returned Wednesday from Jackboro where he went to attend the funeral of his mother, Mrs. Laura Hilton.

Mrs. E. E. White, of Abilene, is visiting relatives in Lubbock.

Miss La Juana Hanna, of Hereford, is visiting friends in the city. Miss Hanna is a former resident of Lubbock.

Phantom Fleet Waits Scrap Iron Rise On Rocks Of Pacific Ocean

Capt. THOMAS PATRICK HENRY WHITELAW

(By NEA Staff) SAN FRANCISCO, Cal., Sept. 5.—Capt Thomas Patrick Henry Whitelaw owns 62 ships. Tall masts, stately yachts, crack ocean liners, stubby freighters, tugs, a warship and a pair of submarines.

If they were assembled the fleet would be the greatest on the Pacific coast. The name of Whitelaw would rank with those of Dollar, Inghcape, Kyslan and Franklin.

There is a "catch" here. Sixty-one of Captain Whitelaw's ships are sunk in salt water. The other is the wrecking tug Greenwood, moored at Isla's Creek, Oakland, Cal.

Whitelaw is a wrecker by business and has been such for 60 of his 82 years. He has bought his ships "as is and where is"—spilt on reefs, blown ashore in storms, sunk in various Pacific coast harbors, some as burned hulks in the mud or as scrap iron at the junk yards.

The captain is a model and businesslike shipowner, despite the handicaps of circumstance. He guards his clear title to every one of his sunken fleet. Let anyone touch his property and the owner will be heard from.

"Scrap iron is worth money," explains Whitelaw. It was scrap iron that Whitelaw turned into his golden fortune.

The Lyman Stewart was a fine new oil tanker of an oil company, plying in coastwise and offshore service. Whitelaw owns her now. In a fog several years ago she lost her course and piled on the rocks of Land's End. Her broken hull can be seen between the gulls that break on the shores of the Golden Gate.

"I got a full cargo of gasoline and a lot of machinery off her," says the captain. "And wait until the price of scrap iron goes up."

The Phantom Fleet The Progress in other days took

ed. Lives were lost, and a once fine ship remained a charred hulk in the mud near Oakland Mo. Captain Whitelaw bought her and owns her yet.

A white-winged Danish bark came round Cape Horn 30 odd years ago and hove to off the Golden Gate. A gale started blowing, the ship drifted shoreward and was caught. She drove on the beach below Half Moon bay and broke up. Whitelaw owns her, too.

Over on the mud flats north of Goat Island is another forgotten hulk. Some sailing ship. Whitelaw keeps his title to her in a safe deposit vault somewhere. Some day she'll be worth something, he says.

From the Columbia river to the Mexican line, and below that, too the Whitelaw fleet are strewn. Some day, when the price of scrap iron goes up, they'll be called into service.

Purchased Subs Also Then there are those submarines. Whitelaw bought them from the government six years ago. They had served in the World War, then had been retired as obsolete.

The captain might have sold them to the Chinese or some Latin-American republic ambitious for a navy. But the government forbade that. So after removing and selling one of the engines, he moored both subs in Isla's creek.

One day some boys were playing. A valve was opened, the water poured in and down went both submarines in their last dive to date.

"Our Liberties We Prize and Our Rights We Maintain" is the state motto of Iowa.

Chained To Bed Uncle Arrested For Locking Girl

MEXICO CITY, Sept. 5. (AP)—Senorita Maria Luisa Verde Hernandez, 17, presented herself at police headquarters with a chain around her neck and a padlock fixed to it. She said her uncle had thus fastened her to a bedpost, adding she had managed to break off the part of the bed to which she was chained and had climbed through a window to safety. The uncle was arrested.

"My! you look lovely to-night"

SEEK know the compliment to be true—for the last pimple had vanished.

If you are out of the embarrassed—and men are not except those—with chin blemishes that linger, and sometimes leave scars, you must realize that the logical cause may come from the blood.

A clear, smooth, velvety skin bespeaks loveliness. Men admire it. Women praise and secretly envy. Hope, joy, happiness, and even love, may depend on the possession of a clear, unblemished skin.

On the other hand—skin eruptions of the condition within. Authorities state it is an indication that the body's power of resistance to disease and infection is low. Meaning, that there is a deficiency of red blood cells.

Without plenty of rich, red blood, there could be no strong, sturdy,

powerful men, or beautiful, healthy women.

When you get your red-blood-cells back to normal, that sluggish, let-down feeling, loss of appetite, boils, pimples, and skin troubles disappear. You get hungry again and you sleep soundly; firm flesh takes the place of that which was once flabby. You feel strong. Your nerves become steady. You are resistant to disease.

S.S.S. is Nature's own tonic for improving the appetite, building strength, and clearing the body of so-called skin troubles, by increasing the red-cells of the blood.

S.S.S. is made from fresh vegetable drugs and has stood the test of over 100 years.

All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

Radio Will Connect Scientists In Darkest Africa With Civilization

WASHINGTON, Sept. 5. (AP)—Radio will help to speed the long, monotonous days for three young American scientists—one of them a woman—who will spend three years of isolation in one of the loneliest spots on the "dark continent."

They are L. O. Sordahl, Mrs. Sordahl and her brother, A. G. Prodan, who have volunteered for duty at the solar observatory at Mount Brukkaros on the Hotzenbosch reservation in southwest Africa, maintained by the National Geographic society and the Smithsonian institution for measuring the heat of the sun.

In their tiny home situated in the hot, arid crater of a mountain encircled by desert, radio melodies and talks from civilization will be as great a luxury to them as they are to the Byrd Antarctic expedition, thousands of miles away in a temperature 150 degrees cooler.

A broadcast receiver supplied by the National Geographic society will enable the scientists to hear programs from stations at Pretoria, Johannesburg and Capetown, all about 800 miles distant. With the precision of a parabolic antenna, they hope to be able to tune in on some of the European stations.

The same radio set afforded much pleasure to the party of Americans who are leaving the station for home after a similar three years of scientific study of the sun. They are William H. Hoover, Frederick Greig, Mrs. Hoover and Betty Jean Hoover, 4 years old.

Building Permit Total Takes Hop

Two small permits issued Thursday raised the total building valuation in Lubbock for the month to \$9,400 while those of the year were posted to \$2,876,896.

Wood Duvall, contractor, was issued a permit for a frame addition to the residence of W. O. Sheeley, at 301 Main, at a cost of \$150.

Tom Jackson, contractor, secured the second permit for repair to a residence of Tom Shepard, 2518 14th street, at a cost of \$500.

AUSTIN, Sept. 5. (AP)—Chartered West Texas Radio Company, Inc. officers: G. H. Fischer, sr., G. H. Fischer, jr., Florence Louise Fischer, National Realty Sales company, in Angelo; capital stock \$2,000. Incorporators: P. P. Brooks, Jr., Joseph Brooker, C. D. Glass.

Negro Ministers Gather In Confab

One Hundred Delegates At Fourteenth Annual Session of Sunset District Starting Thursday

More than 100 ministers and delegates have arrived in Lubbock for the 14th annual session of the Sunset district Colored Missionary Baptist association which convened in this city Thursday for a five-day gathering. The sessions will be held at the Caldonia Colored Baptist church here with L. B. Moore, pastor, presiding.

The first day's meeting took up all preliminary work and organized the body for work. A fifteen minute song service and general get-together preceded the meeting and this was led by vice-moderator S. H. Hubbard, of Spur. Moore spoke briefly on the workings of the association.

Ministers Enrolled S. L. Davis, of Lubbock, enrolled ministers, deacons and delegates. The afternoon session was turned over to women's works and a short song and praise service preceded.

200 Ranchers To Attend Sessions

(Special To The Avalanche) MIDLAND, Sept. 5. — Over 200 West Texas ranchers and farmers are expected at Midland Saturday to attend the breeder-leader conference. The Midland meeting is attracting unusual attention because it is a "grass roots" gathering. Speeches will be made by Frank Holland, Dallas; "Stud" Barnes, Texas A. and M. college; W. B. Mitchell, Marfa; Leon Goodman, Midland and E. Gibbens, Marfa. William A. Wilson of Marfa will preside. Gibbens will present the practical plan for furthering the movement.

John M. Gist, famous Midland Hereford breeder will serve a barbecue to the guests. His entire menu except the coffee, pickles and bread will come from the Gist ranches. All chamber of commerce secretaries, county agents and interested farmers and ranchers in West Texas are invited.

THERE IS NO OTHER GAS LIKE THIS

Let your motor share in the fun, too! use KOOLMOTOR —the original green gas

The modern car is a willing worker. But warm weather takes its toll of it, just as it does of you. If it is to serve you efficiently, you must see to it that it does not become over-heated. That means giving it the right nourishment.

Of all power-building, health-preserving motor diets, none excels Koolmotor Gasoline, the new high-test, anti-knock gas. It will show you performances you didn't know were in your car—smooth, sure acceleration, silent speed on the hills, cool, even-running motor with never a knock or a groan from an over-heated engine. You'll find you have a new motor in your car—swift, silent, powerful.

KOOLMOTOR the original green gas . . . beware of substitutes and imitations. A CITIES SERVICE OIL PRODUCT

# Bridge Parties Features Of Society This Week-End

## Mrs. Howard Pearson Hostess With Bridge Parties; Las Chaparittas Is To Have Party Honoring Miss Hinn

Mrs. W. R. Spencer Invites Few Friends To Meet Her Niece, Mrs. Holloway, Of Dallas

Kongential Club members were hosts of Mrs. Howard A. Pearson, 222 14th street, Wednesday afternoon for a five-table bridge party. High score among club members was made by Mrs. Carl Slaton and Mrs. Victor Payne scored high among the guests. The high cut ever went to Mrs. W. S. Moss.

On Tuesday afternoon Mrs. Pearson entertained a group of friends with bridge in her home. Guests on this occasion included Mesdames Fred Childress, A. D. Brown, DeWitt Farris, O. A. Terry, Ansel Hines, Lattie Rankin, A. O. Kelly, Ernest Lee, T. H. Carr, R. H. Moore, C. E. Morrison, M. L. Morgan and Miss Margaret Thompson, U. Alvarado.

Other guests who played at the party were Mesdames Byron Brown, Walter Tyler, Rufus Rash, E. E. Miller, Carl Slaton, W. S. Slaton, D. J. Jarrett, Victor Payne, L. Miller, O. E. Bradburn, Bode S. Adams, O. W. English, John Brooks, J. Hartington, B. Thomas, of Plainview, John Potter, of Brownwood, D. D. Fuller, Miss Margaret Abel and Miss Helen Thomas.

Dallas Visitors Are In Spencer Home Mrs. W. R. Spencer, 222 14th street, has as her guest her niece, Mrs. Newton Holloway, of Dallas, and her small son Mrs. Spencer has invited a few friends in for lunch today at 1 o'clock in honor of her niece.

Miss Dorothy Rushing Will Entertain Naming Miss Virginia Hinn of Danbury as Honoree. Miss Dorothy Rushing is entertaining Las Chaparittas club Saturday afternoon at 4 o'clock in her home.

Woman as a spender is concerned with the big business more and more. It was only a few years ago that brokerage houses, rubbers and umbrellas were the mainstay of women as "spenders" and "banned business" at that time. They talked about their money, about their tendency to be "poor sports" and "bad losers."

## Coat For Winter

With the coming of an autumn into the air fur coats occupy the center of the stage. This youthful model of the wrap-around type is of course, beautifully made. The snug-fitting collar is of a darker fur. Wolf crush also is found on many coats of money. The deep cuffs are of self material.

## FAMILY IN REUNION

J. C. Dickey Family Meets In Local Home Mr. and Mrs. J. C. Dickey, of Floydada, and their sons and daughters attended a reunion here Sunday in the home of one of the daughters, Mrs. A. L. Coggins, 2110 15th street.

## COURTESY FOR SISTER

Mrs. R. E. Nabors Entertains Wednesday As a courtesy to her sister, Mrs. R. B. Boyd, Mrs. R. E. Nabors, 2222 Main street, entertained Wednesday afternoon in her home.

## ALATHEANS MEET

Business Meeting of Baptist Class Conducted The home of Mrs. Dan F. Wadley, 2022 Broadway, was the scene of a monthly business meeting of the Baptist church class, Wednesday afternoon.

Hostesses with Mrs. Wadley were Mesdames W. N. Trice, D. L. Bohn and A. L. Hawkins. Refreshments were served at the close of the business session to Mesdames R. E. Swain, George H. Moore, W. R. White, A. L. Harris, J. G. Brite, R. K. Mitchell, W. A. Childers, L. L. Coleman, H. W. Cherry and W. E. Holder.

who blushes to show his Adam's apple, and would no more bare an elbow to public gaze than apron pin feathers. Now I myself have had much to say about male stand-pattism, male conservatism, male fear of the unfamiliar, making it utterly impossible for this seemingly sensible innovation ever to become a habit, but, much as I hate agreeing when there's any slightest chance of argument, I believe that my colleague has found the one and only reason. Nail to man, the fearless exponent of stand-pattism.

With all the to-do about this coy little innovation of a few stalwart males wearing pajamas in torrid weather, not only in the privacy of the boudoir, but on the street and in the office, so well, it remains for a male to strike the nail on the head and find out just why this eminently sensible and never will take with boys. It is our colleague, Rodney Ditchler, eminent writer of stationery, making a very sensible and exclusive mind and trenchant pen to the weighty subject of why the male will never renounce to any great extent pajama-clad.

## How to Achieve Beauty

Sun-tan has been more popular this year than ever before. But if you have acquired the natural tan—and not merely the artificial—it may be unbecoming, or uneven—or you may decide that it is out of character with your role in life; or your new fall clothes. In vivid sports tops, a bronzed skin is lovely—but autumn is more formal—the colors richer and more somber—harmonizing better with a clear and radiant skin. Freckles that were alluring as ardent kisses of the sun with a background of gay summer frocks, become blemishes once they are brought into the drawing room and the formal social life of autumn.

It is much easier to acquire a coat of tan or a sprinkling of freckles than it is to get rid of them. However, persistence and the right treatment will work wonders. You can do something by washing the face with a mixture of one part lemon and two parts water, but it is much easier and more efficacious to use the really scientific bleaching preparations that have been prepared for you.

The regime is simple. Cleanse the face and neck—don't. Please don't overlook the neck—with a special cleansing cream or, if your skin is oily, wash with a bleaching soap. Then smooth on a film of freckle cream and leave on for half an hour. If your skin is very tanned or badly freckled, you may use a bleaching lotion which is stronger than the freckle cream and intended for extreme cases. And if you are in a great hurry—why then you may use both the freckle cream and the bleaching lotion at different times during the day.

Bleaching is always a little bit drying and after the summer the skin is liable to be very dry anyway. So be most careful with your lubricating and nourishing, pay more attention to them than you would at any other season. Don't forget your beautifying skin food for to be beautiful, the skin must be clear and radiant as well as fair—and the beautifying skin food clears and animates, helps the skin to throw off all impurities. You may apply the beautifying skin food the best thing before going to bed and you may leave it on overnight if this is convenient. It not keep it on at least 15 or 20 minutes, for it is a wonderfully good friend to the skin!

If you're wise—and most women are in the autumn, having learned their beauty lesson from summer's ravages—you will protect your skin always before you go out. Yes, the winds of autumn will de-vitalize almost as badly as the summer sun—and there's not much wisdom in bleaching if you are going right out to expose your skin all over again, is there? So use your "supper" and windproof cream faithfully—always before you powder and especially when you are going out.

## Kiwanis Club In Tribute To Ones Who Landed Meet

Successful Delegation At Tulsa Convention Honor Guests At Weekly Luncheon Here Thursday The Lubbock Kiwanis club in regular weekly luncheon program at noon Thursday, paid tribute to the delegation which went from this city to Tulsa and were successful in landing the 1930 convention of the Texas-Oklahoma division of the international organization.

Tribute was paid members who went to Tulsa to carry on the successful campaign but to other members of the encourage—both men and women—was paid a n honor by the club. To Mrs. H. H. McKnight, about, and Mrs. Carl Coggins, soldier and pianist, went the lion's share of the victory's credit, while to representatives of the Rotary and Lions clubs and to the Board of City Development went glowing praise and thanks.

Frank Jones was in charge of the day's program, arranged by himself and Jake Hassell, and Vice-President Jack Lewis presided in the absence of President Arthur H. Leighten. Miss Margaret Habel, daughter of Mr. and Mrs. H. H. Leighten, violinist, was accompanied by Alexander Bain, Ham revival pianist, in two selections as the program opened. Following the music, the program was turned over to Dr. Fred W. Standefer who explained the methods which organized the district convention for Lubbock next year. W. C. Rylander, lieutenant-governor, thanked the club for its efforts in behalf of the convention and urged an early beginning of plans for entertainment.

Mrs. McKnight sang. With Mrs. McKnight at the piano, Mrs. McKnight sang the special convention invitation song, verse of which was composed by Prof. W. R. Waggoner, Texas Tech, and to the tune of "Let Me Call You Sweetheart." It was this song, entitled "Let's All Go To Lubbock," sung by Mrs. McKnight to Mrs. Coggins's accompaniment which turned the convention fight tide from Fort Worth and San Angelo to Tulsa Tuesday afternoon. Mrs. McKnight was attired in the special gown which she wore at Tulsa and at the conclusion of her song, she unfurled the cape of her garment, which was inscribed "Lubbock 1930."

## Canyon Institute Attended By 1000

Annual Teachers Session At West Texas Teachers College Represents 18 West Texas Counties CANYON, Sept. 5.—Over 1000 teachers of the West Texas Teachers association representing 18 Parahandle counties closed their annual institute here, this afternoon. The institute has been in charge of Professor F. E. Savage, principal of the training department of the West Texas State Teachers college. Members of the faculty were Dr. T. D. Brooks of Waco, Dr. W. I. Hughes of Texas A. & M., Dr. R. F. Jarrett, president of the West Texas State Teachers college, Miss Harriet Kritzer of Amarillo, Miss Annie McDonald of Amarillo, Professor J. B. Rutland of Austin, and Miss Elva Fronberger, critic teacher, and Miss Ada V. Clark, public school music instructor, both of West Texas State Teachers college. Lectures Given Special lectures were given during the sessions by Superintendent S. M. N. Marrs, Austin, State Superintendent of Public Instruction, Hon. Rush Caldwell, Dallas, President of Texas State Teachers association, Mr. Roy Bedicke, Austin, chief of

## POULTRYMEN TO MEET Problems to Be Discussed at Slaton Meeting

(Special To The Avalanche) SLATON, Sept. 5.—Poultrymen of this section will meet here Friday afternoon at the Slaton Club House to hear experts discuss various problems connected with profitable poultry raising. The meeting will be in charge of County Agent D. F. Eaton, of Lubbock. The poultrymen will have a roundtable discussion after the addresses have been concluded.

The death rate in New York City, which was more than 20 per 1,000 population 50 years ago, now is about 12 per 1,000, according to the U. S. Public Health Service.

The first grains of wheat grew wild on the Steppes of Asia thousands of years ago. This wild wheat was the parent of the wheat we know and use today.

Chicago—City Of Brotherly Love Found By Girl

Commissioner of Police William Russell and members of the Chicago police force presiding for the annual...

By DONITA WITT Central Press Staff Writer CHICAGO, Sept. 4.—If you crave excitement—the thrill of pistol battles, machine gun fire, gangster murders—don't come to Chicago. Chicago's days as a paradise for crooks is gone.

Bad men everywhere are telling each other "Chicago is a good place to stay away from." This new picture of the Windy City is drawn by its police department.

Chicago Wonders While most Chicagoans admit their town has been fairly quiet since the St. Valentine's day massacre, when seven gangsters were "put on the spot," they aren't sure whether the bad men really have left the shores of southern Lake Michigan or merely are enjoying summer vacations at their northern lodges and fishing camps.

Only Memory Of Troubles Left Lubbock Carpenter's Wife's Health Restored By Orgatone — Suffered Fifteen Years

"About all that is left of my wife's suffering is the memory of it," said Mr. J. R. Jeter, of 614 Avenue F, Lubbock, Texas. Mr. Jeter has been a well-known carpenter and citizen of Lubbock for a number of years.

"If my wife could have had Orgatone about 15 years ago," he continued, "it would have saved her a world of suffering. She had a severe case of stomach and liver trouble and was bothered with rheumatism, which kept her in constant misery most all the time, and in spite of all she could do, her troubles kept getting worse. Her appetite left her, and she would suffer terribly from indigestion and gas on her stomach after each meal. Her head ached a great deal of the time, and she felt tired and worn out, and no amount of rest would help her. She had severe pains in her back and sides, which was caused from an inactive liver and I would not be surprised but what she had gall bladder trouble. She also had a chronic case of constipation.

"We saw Orgatone advertised and highly we thought that it might help her and she has now taken just two bottles and says she feels like a different person. She is getting wonderful results and is improving every day. Her stomach is in good shape and she eats anything she wants without the slightest trouble afterward. Gas does not form as it did and she isn't bothered with constipation. Her liver seems to be in perfect condition, for she doesn't complain of the pains as she used to and her rheumatism doesn't bother her as it did, and, in fact, she is better in every way. I am glad to give this statement for my wife, for Orgatone has proven such a wonderful medicine we want to recommend it to our friends and we shall always keep a bottle of Orgatone in our house."

Genuine Orgatone is not a so-called patent of secret remedy but a new scientific medicine containing no alcohol or other stimulating drugs and is sold in Lubbock exclusively by the Green's Drug Store, who are direct importers.

Father Of Local Man Is Interred

Mr. and Mrs. K. N. Riggs Return from Funeral Services At Collinsville For W. L. Riggs

Following the death and interment of W. L. Riggs, 72-year-old pioneer of Grayson and Collin counties. Mr. and Mrs. Kenner L. Riggs, 1801 13th street, have returned from Collinsville. The older Mr. Riggs, father of the local man, passed away last Sunday following an illness of almost two years.

Born in Grayson county, Mr. Riggs lived in the same house for 47 years, passing away there. He purchased the first buggy in either Collin or Grayson county and later bought the first motor car in that section. The old car is still at the family home on a farm near Collinsville. Mr. Riggs was a schoolmate of George and Sam Dysart, and R. C. Burns, of this city, and Charlie Whipp, deceased, who resided here. His widow, to whom he was wed 49 years ago, survives.

Milwaukee is the largest American city ruled by the socialists.

Public Land Transfer Proposal Has To Deal With 190,031,722 Acreage

BY R. S. PICKENS Associated Press Staff Writer WASHINGTON, Sept. 5.—If President Hoover's plan for transferring public lands to the states meets the approval of the commission he will appoint and finds favor in congress, 190,031,722 acres of land will be placed in the hands of the states. The greater portion of the area is in states west of the eastern Colorado and Wyoming border. Nevada, where 33,419,938 acres or 71 per cent of the entire state is in public domain, will be most greatly affected.

Economical Gas Heat—No Moisture

CLOW Vented Gasteam heats with cast iron radiators. Every bit of heat made is usable heat. No hot spots or cold air pockets in Gasteam heated rooms! Floors, corners are warm as well as ceilings. Ruggedly built of cast iron, Clow Gasteam is safe, permanent, economical.

And, Vented Gasteam prevents excess moisture.

Each radiator makes its own steam heat—a gas burner is completely enclosed with cast iron—each radiator operates independently.

ASK US FOR AN ESTIMATE Clow Gasteam Heating Company Phone 1239 D. D. LACY, Mgr., 307 Temple Ellis Bldg. Lubbock, Texas CLOW GASTEAM STEAM HEAT WITH GAS

I prefer to do things, not talk about them," he said, "as it remains for subordinate to point the gloves of Chicago's citizens." Gangster Marksmen First of all they tell you he has made rifle range practice compulsory. Every man is obliged to go to the range once a week and make a certain score. If he fails he must do so on his own time until he perfects his marksmanship or he finds himself off the payroll. Thus when he faces a thug in a dark alley he can shoot it out with the assurance that almost every bullet he fires is going to find its mark.

Under the Russell regime every patrolman who takes a few extra pounds of flesh with him must reduce, and the chief has set his men an example by going on a diet and exercising. He reasons that a policeman isn't of much use if he is too fat to pursue a fleeing robber.

Since the advent of Russell all squad cars are equipped with low-wave receiving sets and descriptions of crimes and criminals are broadcast, enabling detectives to reach houses in one instance, just two or three minutes after the alarm has been turned in. A \$183,000 transmitter is being built for the police department.

Payroll Robberies Reduced Companies having large payroll pay by check at the request of Russell, and the department claims to have reduced payroll robberies 50 per cent by that method.

A daily article on crime prevention by the commissioner is also claimed to have reduced burglaries 50 per cent. Chief Russell turned journalists to the housewives to remember to stop delivery of newspapers and milk when they leave for a vacation. Piles of papers and rows of milk bottles tip off the burglar that no one is at home. He also advises taking a tube from the radio so that the burglar cannot start the radio thereby giving passersby or neighbors the impression that the family has returned.

Crooks Given Warning Bad publicity, the police explain, attracted the underworld to Chicago.

CRUISER LAUNCHED QUINCY, Mass., Sept. 5. (AP)—The new light cruiser, Northampton was launched at the Fore River ship yards today with ceremonies in which Mrs. Calvin Coolidge, wife of the former president, secretary of the navy Charles F. Adams, and other prominent persons participated.

That loss of business was due to motorists who took their food with them on trips was suggested at a meeting of hotel owners in England.

## Gus Moreland Is Wichita Winner

WICHITA FALLS, Sept. 5 (AP)—Gus Moreland of Dallas defeated Jack Jackson, his fellow townsman, 2 up here today in the 36-hole final of the second annual invitation tournament of the Wichita Falls Golf and Country club. Jackson was two up on Moreland at the end of the 18-hole morning round, but failed to hole in. The match was decided on the 36th green, which Moreland won. Superior work on the greens figured largely in Moreland's victory. It was a grueling struggle all the way. It was Moreland's fourth victory in six important tournaments this season. For the period 1890 to 1914 the average percentage of cadets at West Point found deficient in mathematics at the end of the first term was 71 per cent, while for the period 1915 to 1927 the average percentage had risen to 12.45 per cent. Potential water power in Ozark streams of south Missouri is estimated at 600,000 horse power. Hungary had 80 strikes in 70 factories last year.

## Pair Of Oregon Veterans And Two Easterners Remain To Assure Final Match To Be Between Sectional Foes

Oscar F. Willing, Harrison Johnston, Chandler Egan and Francis Ouimet blaze through to semi-finals

By ALAN J. GOULD  
Associated Press Sports Editor  
FEBRUARY 21, 1923  
—The Far West, host to the first Jenson championship battle in six years, will fight it out with the East for the national amateur title golf crown.

This was assured today when two veterans from Oregon, Dr. Oscar F. Willing and Henry Chandler Egan, champion 25 years ago, swept into the semi-finals, along with the sharp shooting Harrison R. Johnston of St. Paul and Francis Ouimet of Boston, title holder in 1914. Willing and Egan met in the first 36-hole semi-final tomorrow starting at 10 a. m. Ouimet and Johnston will battle it out in the other so that no matter what the outcome an intersectional final is assured for Saturday.

In a sensational of sensational quarter final match today, Willing disposed of the last foreign threat when he conquered the British champion, Cyril Toller, by the decisive margin of 4 and 3, leading all the way after the first nine holes. Egan, in his first tournament appearance since 1921 scored an even more surprising and overwhelming triumph over blond Jess Swetser of New York to the tune of six up and five to go.

Weight Goes Out  
Jimmy Johnston, vanquished Geo. Vought, the New York favorite, one up in a spectacular match that went three extra holes, decided on the thirty-ninth green. This followed the victory of Ouimet over the 18-year-old St. Paul star, William Lawson Little, Jr. in another ding-dong battle, decided on the thirty-third green, where Ouimet sank a twenty foot putt for a birdie to halve the hole and win by a margin of one up.

Egan was two up on Swetser at the end of the nine holes, increased his margin to six up at the close of the first round, as he shot close to par golf all the way, and ended the contest on the thirty-first green. The big New York champion himself in 1922 made a game fight, winning the thirtieth hole when he was down seven and hitting the back of the cup with his bid for a birdie on the last hole, only to have the ball bounce out, giving Egan the half he needed to settle the match.

Tolley Is Wild  
Tolley was wild as a hawk today and no match for the steady, at times brilliant play of battling Denton from Portland, Ore. One of the most deliberate performers in the game, Dr. Willing took even extra caution with his shots today, sighting his putts fore, aft and sideways as he played every stroke with meticulous care.

## Holloway Blanks Ex-Mates In Tilt Called In Fifth

Former Detroit Hurler Is In Rare Form To Limit Tigers To Pair Of Hits In 5-Inning Game

DETROIT, Sept. 5 (AP)—Ken Holloway, a former Detroit hurler, held his ex-teammates to two hits in five innings today. It gave Cleveland a 4 to 0 victory and a clear sweep in the two-game series. The game was called in the first half of the sixth inning because of rain and the score reverted to the fifth. The Indians hit Phil Page, recently recalled from Toronto, hard and often while the game lasted. They pounded out four hits and three runs in the first inning, and over three runs, which did not count in the sixth frame before the deluge halted the contest. Three of Cleveland's seven hits were for extra bases.

Holloway fanned three Detroit batters and gave but one walk in hurling the shortened shutout. Cleveland—AB R H O A E

## Pittsburgh Pirates Shell Red Lucas From Hill With Seven-Run Rampage In Third Frame To Down Reds, 10-5

Corsairs Completely Shatter Spell Lucas Has Held Over Club; Ervin Brame And Paul Waner Star

CINCINNATI, Sept. 5 (AP)—The Pittsburgh Pirates completed their solution of the mystery of Red Lucas today by hammering the Cincinnati pitcher from the mound and winning their last game of the season in Cincinnati 10 to five. The victory, following one scored last Sunday, completely shattered the spell Lucas had held over the Pirates since June 1922.

Brame Starts Rally  
Ervin Brame, Pittsburgh moundman, started the seven-run rally that brought the Pittsburgh victory in the third inning by bouncing a home run into the right field bleachers. It was followed by a double, three triples, two singles and a wild throw. Lucas lasted through this storm but gave way to Jackie May in the fourth when Lloyd Waner smashed a triple with one on base.

May Checks Onslight  
May checked the Pirate batting although Pittsburgh scored single runs in the seventh and eighth innings. Brame and L. Waner led the slugging attack, the former with a double and a single in addition to his homer and Waner with a pair of triples and a single.

The Reds started by hammering Brame for four hits and three runs in the first inning, but did not score again until the ninth when an error, followed by a triple by pinch hitter Walker, paved the way for two runs.

## Midland Fails To Arrive On Scene For Final Tussle

Umpire Carson Announces Game Forfeited To Bobcats, 9 To 0; Both Agreed On Site For Contest

COLEMAN, Sept. 5, AP.—The seventh and deciding game of the play-off series in the West Texas League today was awarded by Umpire Carson to the Coleman team after the Midland club failed to show up at the Coleman baseball park.

By a reported agreement between officials of the clubs, the sixth and seventh games were to be played in Coleman after officials of the Coleman club had consented to play the 5th game, scheduled for Coleman, in Midland last Tuesday.

When the Colts failed to arrive today, Umpire Carson announced to the fans that the game was forfeited to Coleman, 9 to 0. President Dave L. Snodgrass of the league indicated in a statement tonight that Umpire Carson's decision would be upheld. It is his understanding, he said, that the contending pilots had reached a rival in Midland and asked to see the final game here today. He said he had ordered Manager John King of the Midland club to have his club here.

Had Agreed On Site  
"Mr. Arch Thomas, president of the Midland baseball club, approached me Sunday upon my arrival in Midland and asked to see Leon L. Shield, president of the Coleman club, and see if he would agree to play the fifth game, scheduled at Coleman Tuesday, in Midland. He said that if Mr. Shield agreed to the change, he (Thomas) would agree to play the sixth and also the seventh games in Coleman if necessary.

"I told Shield what Thomas wanted and sent him to see Thomas. Apparently, Shield agreed with me."

# ...in the ring it's PUNCH!

# ...in a cigarette it's TASTE!

"STICKIN' to our knaitt"—never forgetting that Chesterfield's popularity depends on Chesterfield's taste...

But what is taste? Aroma, for one thing—keen and spicy fragrance. For another, that satisfying something—flavor, mellow tobacco goodness—which we can only call "character." Taste is what smokers want; taste is what Chesterfield offers—

"TASTE above everything"

MILD... and yet THEY SATISFY

# Chesterfield

Ghastly Costs Of Conflict Related

Human Casualties Result Of Struggle Unforgettable Lesson, According To Publications

By KIRKE SIMPSON (Associated Press Feature Writer) WASHINGTON, Sept. 6.—(AP)—

Since the technical military publications of any big nation a decade and more after the close of the world war and two things common to them all will lead to the eye.

(1) That the ghastly cost of that struggle in human casualties was an unforgettable lesson.

(2) That every power is hoping to avert similar human wastage in future wars through mechanization of its armies.

The gasoline engine was the greatest contribution of the age to peaceful human pursuits which saw it brought to perfection. Now, the gas engine is the instrument with which military scientists everywhere are seeking to cut the blood cost of future wars.

Whether it be in combat ships at sea, or in air, or in tank fleets on land, in means of transport for men or guns or supplies, always the effort to write the lessons of the great war in modern equipment to meet any future war emergency revolves about gas engines.

France, backing up her powerful air fleets, maintains, ready for instant service, more than 2,000 tanks. England has spent and is spending millions on army mechanization plans. The United States has more than 1,000 of these crawling, deadly monsters of the battle field.

German engineering ingenuity is busy with tank designs, tanks she may not build under the peace treaty and studying anti-tank devices. Even Soviet Russia is straining her overworked automotive factories to produce experimental land battleship models.

Made Hit In Talkies

Although scores of actresses but their jobs with the advent of the talkies, many others are attaining new success. When an actress is selected as leading lady to John Barrymore and Al Jolson, stardom is not far off.

Texas League

(Continued From Page 6)

most single handed today when he hit two home runs, a single and a double to figure in four runs. His double in the ninth inning scored Higginbotham with the winning run after the Buifs tied it up in their half of the ninth. The score was 6 to 5.

Winning pitcher, Tuero; losing pitcher, Brown; two base hits, Martin, Holman; home runs, Holman 2, Moore; double plays, Stewart to Wheeler, Tuero to Tobin to Woehrs; stolen base, Devine; wild pitches, Rose, Holland; base on balls, off Rose 3, Morrell 2, Holland 1, Tuero 1; struck out, by Morrell 1, Rose 3, Holland 2; pitching record, off Rose 2 hits 5 runs in 6 innings; off Morrell 5 hits 3 runs in 7 1-2; off Holland 6 hits 0 runs in 2; left on bases, Houston 7, Shreveport 8.

Stears And Shippers Battle To 4-4 Tie

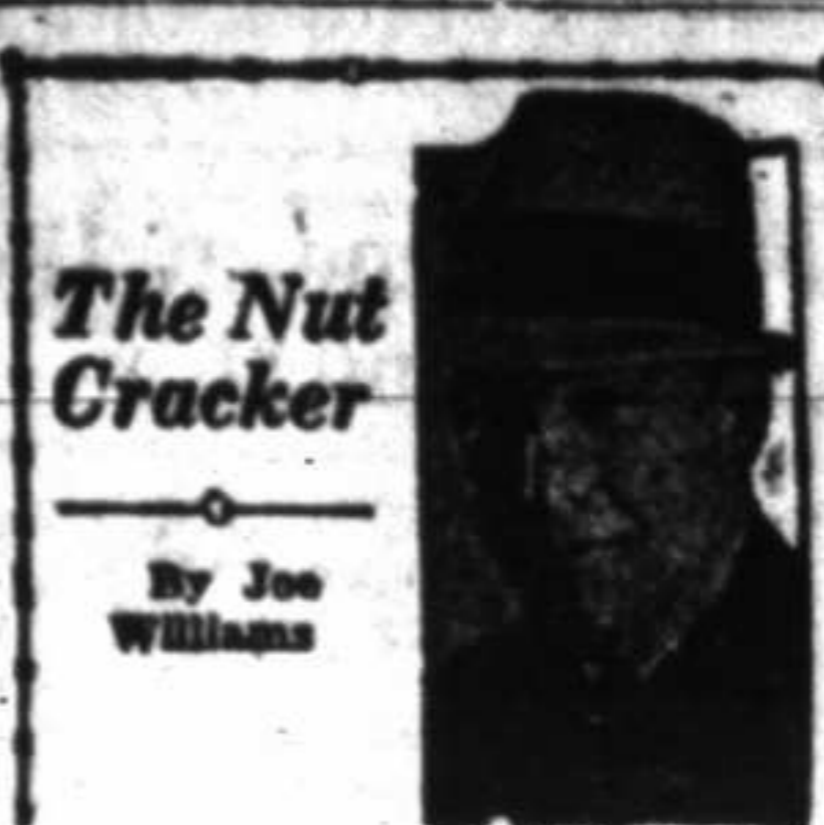

DALLAS, Sept. 5.—(AP)—The Steers and Exporters battled 10 innings to a 4-4 tie here today, darkness halting hostilities. Home runs accounted for all the visitors' runs off Glasner. Huber hitting one in the fourth and Easterling punching another in the sixth with two on.

Midland Fails

(Continued from Page 6)

Thomas to make the change, because the umpires announced during the progress of Sunday's game that the Tuesday game would be played in Midland instead of Coleman. That proved to me that Shield had agreed to Thomas' wishes.

Prexy Took A Hand "Thomas and Shield could not come to an agreement Wednesday, so the Coleman club asked me for a ruling and I ruled that the game was to be played here today. I based my ruling on the only agreement of which I had any knowledge. I told King after yesterday's game to have his team here today, and so informed the officials of the Midland ball club by telephone this morning."

The Nut Cracker By Joe Williams

Knute Rockne says the usual training camp bear stories have outlived their usefulness and it's time to show a little optimism. A few little bullish stories are in order.

If the coaches take Rockne's tip, maybe that ancient September headline will be changed to "Stagg Hopes Purdue Will Be Able To Put Up Good Game."

But then many bear stories in the past have turned out to be merely bull.

Rockne would have the coaches say "I'm so happy we're going to meet Georgia Tech! We do hope they have improved over last year."

Optimism in athletics isn't a new movement, however. Jack Sharkey

has been advocating it in the cauliflower industry for years.

Bill Tilden, so the report is, will appear on the stage in London in "They All Want Something." Probably the play has something to do with boxers' managers.

JOPLIN, Mo., Sept. 4. (AP)—Until darkness defeated their efforts, members of a hastily organized organized searching party tonight combed a desolate section of the Ozarks near Geneca, Mo., for an airplane which is reported to have crashed late this afternoon.

SHREVEPORT, La., Sept. 5. (AP) Sixteen army planes en route from Cleveland to their base at Fort Crockett, which stayed over here last night, left this morning for Shreveport.

ONE MINUTE PULPIT My son, walk not thou in the way of them; refrain thy foot from their path.

ANOTHER FORWARD STEP TEACHERS of vocational agriculture in more than 20 South Plains schools have formed an organization to further their aims.

Years ago big business sensed the value of co-operation. The idea took root and spread until it developed many units of various avenues of endeavor.

The farm problem of Lubbock county is identical with that of Dawson. The same comparison holds good for every other county on the Plains.

The foundation of prosperity in this country is the farm. The boys and girls of today will be the farmers of tomorrow.

In case anybody should wonder what endurance flights are for, except to make reputations for the fliers, let him study the statistics of our exports of airplanes and airplane motors.

Men, too, follow the styles. A statement issued by the textile division of the department of commerce explains that manufacturers of men's felt hats have placed narrower brims on their products for the current season.

Soft felts are the most comfortable head covering for men. To this conclusion there is general agreement.

On the Firing Line at the Nation's Capital

STEWART EXPLAINS REASONS FOR SUCH UNIVERSAL ANXIETY OVER PALESTINE OUTBREAKS

BY CHARLES F. STEWART Staff Writer for Central Press

WASHINGTON, Sept. 5.—Outside the Sulu archipelago, in the Philippine Islands, Mohammedans are not numerous enough anywhere under the American flag for their religious and political prejudices to worry the Washington government a bit.

Even if the Sulus went on the rampage, it could hardly present any danger to the United States, inasmuch as the Mohammedan population is so utterly no problem at all, to be reckoned with here, it may seem odd to the average American that the recent outbreak of the Prophet's followers, against the Jews in Palestine, should upset the British authorities to such an extent.

Chief G. Howland Shaw of the state department division of near eastern affairs is in a position, however, to explain why there are good reasons for anxiety, not only in London, but at the capital of every country with large interests in the Islamic belt.

This is a Mohammedan part of the world. Moslems run into the millions here. They have been pretty badly split up into factions in recent generations, but there has been considerable talk of a pan-Islamic movement in the last dozen years.

The folk are two or three centuries behind the times, to be sure, but they do have a faculty of putting up a bobcat kind of a fight.

Spain, France and Italy never are certain how long peace will last in their respective spheres of influence along the African side of the Mediterranean. They win most of their stand-up battles with the tribesmen, but there is nothing permanent about it.

Then he shall hear rifle shots," said the old sheik, going out.

A rebellion followed which took a couple of years to suppress, and attracted considerable attention at the time—and incidentally cost the impetuous Frenchman his job.

India always is an exceedingly sensitive subject with the British.

True, it would have to spread clear across the Arabian peninsula and Persia, to get into Afghanistan and over the border, among the 60 or 70 millions of Mohammedans under British rule—and the Persians are a different set of Moslems from the Arabs and Afghans—unfriendly toward them, too.

Still, England is afraid of an epidemic—and likewise suspicious of the soviet folk, to India's northward, might help to carry the germs.

Resides, Egypt—only just across the Suez canal from Palestine and Hedjaz—is largely Mohammedan also and by no means well disposed toward the British to boot.

The danger seems vague from here. Nevertheless, competent students of the situation compare it to that of a vast forest in very dry weather.

It needs to be constantly watched they say. If a fire starts and the wind is right, a tremendous amount of damage is apt to result before it can be put out.

Your Health

FOOD, REST AND FRESH AIR CHIEF WEAPONS IN FIGHT ON "T. B."

BY DR. MORRIS FISHER Editor Journal of the American Medical Association and of Hygiene, the Health Magazine

According to the medical director of the Municipal Tuberculosis Sanatorium in Chicago, it would require five times as many sanitariums as are now available if every person with active tuberculosis were to be taken care of in such an institution.

In 1927 there were almost 100,000 deaths from tuberculosis in the United States and on the basis of five active cases for each death there would be about a half-million active cases of the disease always among us.

Rest, fresh air and food, Dr. Goldberg emphasizes again, constitute the important trilogy by which the person with tuberculosis must regulate his life.

The person with active symptoms must have absolute rest. As symptoms quiet down the competent physician is able to tell the patient how much exercise is to be taken along with the rest to secure the best results.

Tuberculosis is particularly a disease of bad nutrition. The disease and the fever place great demands on the tissues. The person with tuberculosis must be fed a diet on which he will gain weight, or maintain his weight if it is satisfactory.

It is easy enough to stop the flow of Canadian liquor, but it would be easier if United States liquor were less reprehensible.

It is not believed there is much wrong in a country where two-thirds of the customers do not bring the sugar sals bottles back for the refund.

The March Of Civilization

Anniversary Notes

McKINLEY ASSASSINATED WILLIAM McKINLEY 25th president of the United States, was fatally shot by an assassin while attending an exposition in Buffalo, N. Y., on Sept. 6, 1901.

McKinley held a public reception in the temple of music, in the exposition grounds, on the afternoon of the 6th and it was then that the shooting took place.

The one fatal bullet of the two fired was found to have passed through both walls of his stomach, but due to the president's sound constitution it was at first believed he would recover.

The assassin was identified as Leon Colcoz, a Pole, having respectable parents in Cleveland, O., who had come under the anarchist influence and been taught to believe that all heads of government were enemies of the people and ought to be killed.

The assassin was arraigned in county court Sept. 17 and on the 26th was sentenced to be executed, in the state prison at Auburn within the week beginning Oct. 22.

RESIDENTS CHARGED Fifteen Arraigned Here On Sanitary Counts

Continuing their campaign against violators of the city health ordinance Lubbock police arraigned 15 residents in city corporation court Thursday morning to answer charges of using outdoor toilets in districts where sewer connections are available.

The residents were ordered by the court to make immediate connections with sewer lines.

Scores of complaints have been filed by Dr. J. W. Bello city health officer.

SIDE GLANCES By George Clark

"We always room together at school; she keeps my lessons up and I get her lots of dates."

The SHINING TALENT By ELEANOR EARLY

MOLLY BURNHAM, involved in an unpleasant romance has returned from the country where she sought seclusion, to her home in Boston. Following the published reports of her engagement to BOB NEWTON, Molly leaves the city to escape the onslaught of reporters and photographers.

Today's Poem

THE MAGIC MIRROR The Magic Mirror makes not nor unmake. Charms none to sleep nor any from sleep wakes. It only greeth back the thing it takes.

It is the heart's own cheer that makes it glad, And one's own bitterness will drive him mad; It needeth not that other help be had.

The Mirror maketh none to rise or fall; To him that hath not doth no portion call; To him that hath is freely given all.

They seem themselves who look in Fortune's face; Unto the sad is sadness Heaven's grace. And to the souls that love is love's embrace.

—Henry Mills Alden

Quotations Of Real Merit

"A person cannot pattern his life after Christ's and at the same time snub or lord it over other people. A recognition of brotherhood must follow." —Dr. E. Stanley Jones.

"Independence will not preserve a nation; morality and education are the ultimate salvation." —Thomas G. Masaryk.

"If the intellectual has any function in society, it is to preserve a cool and unbiased judgment in the face of all solicitations to passion." —Bertrand Russell, (Forum).

"The one fatal thing in life is to lose one's interest in it." —Sir R. B. Blomfield.

"Mankind could always stand what would kill a dog." —Sherwood Anderson.

"The lip-service paid to peace is astounding, but among the city branches the bayonet still gleams." —H. G. Wells.

"I find that, when I leave America for Europe, I am better posted on what is happening in Europe than I am after I get there and have to depend on the European press." —Ola H. Kahn.

Littlefield Gets Heavy Drenching

LITTLEFIELD, Sept. 5.—A general rain averaging 1.34 inches fell over all of the Littlefield territory last night. It was a heavy down-pour lasting only about 30 minutes and was accompanied by considerable hail. Reports of hail damage came in from several parts of the territory but the rain in general was of inestimable good. Late feed which was needed rain will now produce a heavy crop. Cotton prospects were never better in this territory, with no worm damage. This rain will guarantee a good yield. 8,400 bales were ginned in Littlefield last year and the ginners are predicting that at least 13,000 bales will be ginned this season. 1,984 cars of feed were shipped from here last season and the outlook for feed is better than last year.

Engaged 74 Years

When Jacob Schwartz, above, left Germany 74 years ago, his fiancée, Freda Schmidt, said she would wait for him until he came back to marry her. Now Schwartz is 81 and she's 90, but she has waited all these years and they are going to be married soon at Kansas-on-the-Rhine. Schwartz, who lives in Los Angeles, left recently for Germany.

"You've returned?" "Obviously," she retorted. "Sit down, please. I want to talk to you."

"Have you seen the papers?" he inquired unpleasantly. "What do you do, Molly—have your picture on file in every newspaper office in the country?" I declare, I believe you've a front page complex.

"Who started this thing?" she demanded furiously. "You gave me your word of honor that no one should hear of our trial engagement. You know perfectly well my lips were sealed. It is all your fault, yours!"

### Fly Infestation Thought Probable

FORT WORTH, Sept. 5. (AP)—We have no reason to believe an infestation of the Mediterranean fruit fly, two cases of which were found by state inspectors in shipments from Florida, will not break out in Texas at any moment. George B. Terrell, state agricultural commissioner, told members of the Southern Western Nurserymen's convention meeting here today.

"We are sitting on a volcano," Terrell stated, "if the fly is found in the state next season, the whole fruit industry of Texas will be paralyzed as it was in Florida."

Terrell pointed out that when the infestation broke out in Florida, he went before the legislature and obtained an appropriation of \$15,000. Using half of this money, Terrell stated, inspectors had been able to trace every car of the 20 shipped into the state under federal supervision. The fruit was checked even to the fruit stands and none of it was allowed to go into the valley region, where most of the state citrus fruits are grown.

While instances of the larvae of the fly were found in only two places, the state department of inspection has no way of being sure the state is entirely clear of larvae and insects.

"The situation is very grave," Terrell stated.

### Shining Talent

(Continued from Page 8.)

to her room to repair the ravages of her latest conflict. To please Rita, she changed her dark dress for a negligee of hyacinth crepe. They would spend the day in the house. That would be safest. It would be impossible to avoid reporters and photographers, if they should go out together.

The negligee, worn as a special favor to Rita, was a lovely thing, with a train that hung from Molly's shoulders and trailed the carpet, like the royal robe of a princess in a fairy tale. The flowing sleeves

were weighted with ostrich feathers the color of Chinese vermilion. Her little slippers were orange. When Rita was smaller, Molly used to read her a poem called "The Hushaby Lady from Rockaby Street." Now Rita, when Molly wore her hyacinth negligee, called her "The Hushaby Lady." Molly thought the name was charming, and wore her lovely robe frequently for the very joy of hearing Rita cry, "Oh, see the Hushaby Lady."

She changed leisurely, and then went to the nursery. Marie was sitting by the window, sewing.

"Where's Rita?" she asked.

Marie sprang to her feet.

"Why, I thought she was with you, Miss Burnham. Natus told me Mr. Newton was here, and that Rita was with you."

"But Mr. Newton has been gone half an hour. Where's Natus?" Molly rushed into the hall. "Natus! Natus! Have you seen Rita?"

The butler's yellow skin grew pale.

"She left the house, my lady, with her father. I supposed you knew."

"Oh, my God! Get Mr. Flynn on the phone immediately. And call a taxi for me."

Molly was tearing at the fastenings on her hyacinth gown. Before she had changed into street clothes, she had changed into street clothes. She snatched the telephone from Natus's hands.

"Red, Bob's taken Rita away with him! Half an hour ago. No, I don't know where he's gone. No, I tell you! I don't know anything at all about it. I've just missed her. I thought she was with Marie. Oh, what shall I do? Yes, Yes, I am calm."

She hung up the receiver.

"Mr. Flynn says I must be calm. Natus," she told him, "calm." She laughed hysterically.

"Don't, Miss Burnham!" cried Marie. "You mustn't take on that way!"

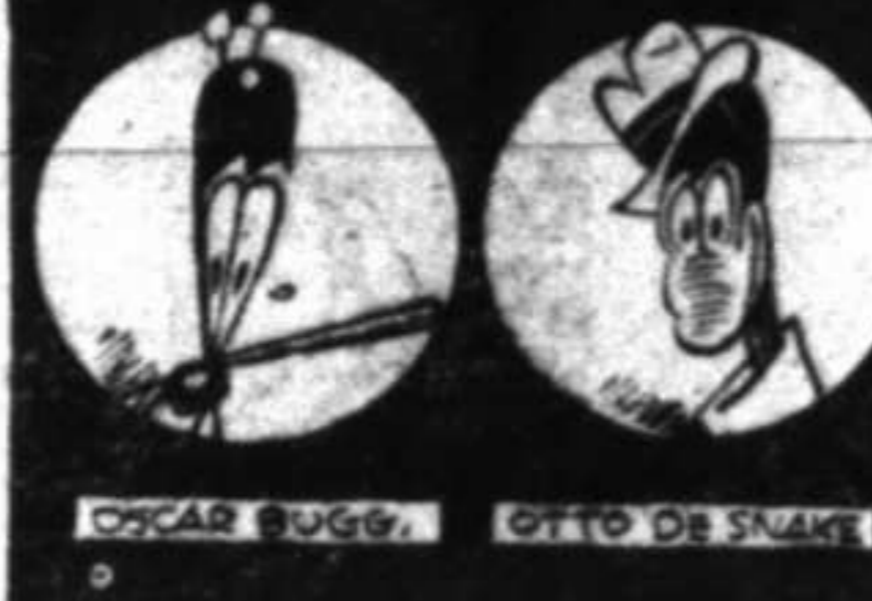

(To Be Concluded.)

**INCREASE PATROL.**  
MEXICO CITY, Sept. 5. (AP)—The customs service has ordered an increase in the personnel of the border patrols and redoubled efforts to prevent smuggling.

# Cotton Active; Stocks In Reaction

## Market Closes At Steady Net Drops Of 19-26 Points

### Losses Shown During First Trading After Liverpool Cables Show Disappointing Trend In Prices

NEW ORLEANS, Sept. 5. (AP)—Cotton trading was active today. December contracts after trading up to 19.32, closed at 19.12 or 20 points net lower. The general market closed steady at net declines of 19 to 26 points.

### Rains Indicated

The weather report indicated more general rains in the West than first reported. Values reached the level of the day in final trading with October at 18.82 and January at 19.16, or 20 to 21 points below the high of the morning. Last prices were at the lowest.

### Values Finished Fraction Easier After Advances Are Caused By Reports Of Crop News

### Rains Cause Selling In Cotton Market

NEW YORK, Sept. 5. (AP)—Reports of rains in the southwest proved the signal for more or less general selling in cotton today, the bulk of which was attributed to realizing or liquidation. After selling off to 19.22, the market rallied to 19.42 on covering and trade buying but failed to hold the improvement, closing at 19.12. The general market closed steady at a decline of 6 to 20 points.

## Hog Trade Moderately Active Around Eleven Market Circuit In Livestock

## Wheat Trading In Thursday Market Causes Price Hop

PORT WORTH, Sept. 5. (AP)—(U.S.D.A.)—Opening hog trade today around the 11 market circuit was moderately active at steady to 15c higher prices, but several points reported a slow close. Chicago had an early top of \$11.45. Total offerings 67,400 an increase of 4,000 over a week ago and the corresponding day last year.

## Liberal Supply Of Cattle On Market

PORT WORTH, Sept. 5. (AP)—With another liberal supply of cattle and calves here today salesmen were obliged to take off additional declines on cows and calves. Other classes in light supply with values per head ranging from \$10 to \$15. Cattle, however, trading fairly active. Steers, steady and supply light. Sheep, 9.00 to 12.00.

## Rains

ports Thursday from farmers of the county indicated that very little damage was done to crops.

With the cotton plant far advanced, many expressed the opinion Thursday that the rains would aid but little in production. The moisture, accompanied by autumnal weather will help some, however, to ward producing a better staple, they agreed.

Cooler weather followed in the wake of rains Thursday that broke a drought of several months in sections of North and West Texas.

Several places the rains were accompanied by damaging wind and hail storms.

At Rankin the wind ripped roofs off of several business buildings and did considerable other property damage. Two buildings under construction, a brick structure, and a two-story, concrete building owned by F. E. Rankin.

## Bull Operations Precede Activity In Stock Market

## Corrective Reaction In Stock Prices Effected In Last Hour Of Trading In Thursday Market

NEW YORK, Sept. 5. (AP)—The corrective reaction in stock prices, which conservative elements have been predicting in Wall Street for several days, came in the last hour of trading today, after bullish operations had been pressed forward with increasing aggressiveness earlier in the session.

It took a bullish statement by Roger Babson, economist, who has been predicting collapse of stock prices, to stabilize conditions, increasing signs of nervousness were evident during the session, although the market took but passing notice of the overnight monthly member loan announcement showing another \$400,000,000 increase, as the unchanged Bank of England was regarded as a balancing factor.

Call money renewed at 9 per cent, and for a time threatened to go higher.

The weekly federal reserve statements displayed a marked upturn in the demands for credit over the turn of the month, but also showed that the federal reserve system was acting to stabilize conditions, increasing its holdings of bills and securities by nearly \$100,000,000.

It was the recent favorites that were hardest hit in the reaction, American Telephone dropped about 9 points, but rallied a little in the final dealings.

## Clemenceau Told To Stop Working

SABLES DOLONNE, France, Sept. 5. (AP)—Former Premier Georges Clemenceau was given a thorough physical examination today by a specialist and his local physician and then was ordered to stop working so hard.

## ASK SPECIAL SESSION

AUSTIN, Sept. 5. (AP)—An immediate session of the legislature for the sole purpose of correcting the confederate pension law so that 2,000 widows of the old fighters who are under 75 year old will receive their pittance as heretofore, will be put up to members of the house and senate.

## DEPUTY TESTIFIES

CHARLOTTE, N. C., Sept. 5. (AP)—A. J. Roach, deputized to accompany Police Chief O. F. Adershot to the tent colony of the Lora Textile mill strikers on the night of June 7, testified this afternoon in the trial of 18 strikers and strike leaders charged with murder. He said the officers were leaving the colony when the shots were fired that killed the police chief.

## TRIAL OF SIXTEEN STRIKERS FOR MURDER UNDER WAY

CHARLOTTE, N. C., Sept. 5. (AP)—A. J. Roach, deputized to accompany Police Chief O. F. Adershot to the tent colony of the Lora Textile mill strikers on the night of June 7, testified this afternoon in the trial of 18 strikers and strike leaders charged with murder. He said the officers were leaving the colony when the shots were fired that killed the police chief.

## DEATH TOLL HIGH

AUSTIN, Sept. 5. (AP)—Forty-two persons were killed and 188 injured during the week of August 18-23, according to reports compiled by the Texas Council of Safety.

Crammed with thrilling adventure and romance, the story of "The Innocent Pawn" which starts Sunday in the Avalanche-Journal and continues daily in The Morning Avalanche, traces about the life of Helen Page, a beautiful orphan girl, who becomes the unwitting pawn of her guardian, the guardian, Leonard Brent, hatches a fiendish plot to rob an aged millionaire of his fortune. Watch for the first installment of this sparkling new serial on Sunday morning, September 8.

## Missing Plane

agent at Peera flashed through the wire the report: "Agent Peera reports that mail carrier reports plane containing eight people all dead. Evidently struck by lightning down near Black Rock, 30 miles south of Gallup. Hundreds left Gallup, New Mexico, in the evening in search for the plane and that report caused T. A. T. officials to announce the plane had been found with all aboard dead."

## Disappearance Marks New Flying History

NEW YORK, Sept. 5. (AP)—Disappearance of planes and their occupants have been numerous in Atlantic flights, but disappearance of the Transcontinental Air Transport plane, City of San Francisco, with eight persons is believed to be unprecedented in the history of flying over regular commercial land routes.

## GIRL SWALLOWS POISON

SEGUIN, Tex., Sept. 5. (AP)—Leaving nothing to explain her act, Miss Maurice Morris, 30, swallowed poison from which she died today.

## STABBING CASE SET

AMARILLO, Sept. 5. (AP)—The trial of C. S. (Pete) Williams, charged with the fatal stabbing of O. C. Hill, jr., Donley county farmer, during a rodeo here July 4, was set today by Judge Henry S. Bishop for Sept. 19.

## Tremendous Power from the Wind

THE Aeromotor Co. is now making a self-oiling windmill 20 feet in diameter. If you have a well 1,000 feet deep, or if you want to raise a large quantity of water from a shallower well, this is the windmill you need. This new Auto-Oiled Aeromotor weighs nearly 2 1/2 tons without the tower. It is a giant for power.

Whatsoever your water requirements may be there is an Auto-Oiled Aeromotor of the right size for the work. They are made from 6 feet to 30 feet in diameter. Use the smaller sizes for the shallow wells and the larger ones for the deep wells or large quantities of water. Our tables, sent upon request, tell you just what each size will do.

## Rev. Ham Speaks Thursday On Sin At Service Here

## "Filling Sin's Cup" Is Subject Of Evangelist At Tabernacle Revival; Scriptures Are Quoted

Speaking with a quiet earnestness, Rev. M. F. Ham last night spoke on "Filling Sin's Cup," in which he gave a number of scriptural references and interpreted the teachings of the entire body of scriptures on the harvest of sin.

Concluding the service several met with Rev. Ham in the inquiry room for special instruction. Special emphasis was placed on the sermon to be delivered Saturday night "The Mystery of the Silence of Heaven," when Rev. Ham will answer the questions as to why God allows the wicked to prosper, while the righteous suffer.

## Slaughter Well

that was to be drilled to salt water formation or oil. This contract was entered into by the Service Contract company and the Marland operators.

## WILL DRAFT PLANS

AUSTIN, Sept. 5. (AP)—The prison organization and centralization commission will meet here tomorrow to draft plans for action, after its inspection trip to prisons in 23 states.

## TO SURVEY BLIND

GALVESTON, Sept. 5. (AP)—A survey of adult blind in Texas by Leon Hubbs of the state was announced today by J. A. Boshart of Galveston who heads a committee of the organization which plans to ask the legislature for establishment of an industrial school and home for blind.

## Mayor James Walker of New York is the son of an Irish immigrant and proud of it.
