## Floyd Cattle Coming Off Wheat

ONEER DAVE CLUGY is pictured selling another fat steer at the Floydada Livestock Thursday. At his left is wife Mary. At the scales is Betty Walters. Owner of the McCandless is in the pen with the steer. (Staff Photo)

### Auction Activity Up

Business is up at the Floydada Livestock Auction Sales Company as Floyd farmers begin taking the cattle off the wheat. Over 1300 sold at the auction Thursday.

Although some 1650 were sold on a sale day back in January, it looks like a record for the year may be set next Thursday.

Prices were fair with 700 pound and over fat cattle bringing from 27.71 to 28.05 this past Thursday.

With wheat price at \$3.50 per bushel and good moisture, Floyd farmers are hoping for a bumper wheat crop and of course don't want to graze the wheat down too short. Some ungrazed wheat may be a little large for that last "Easter spell."

There were more cattle selling at the auction this time last year when cattle prices were better. It appears that there are not as many cattle in the county this year as last.

### Nobody Climbing Tennis Ladder

Head of the ladder tournament for the Floydada Tennis Club Frank Barrow reports very little activity in climbing the ladder.

"Of course bad weather kept the contestants from playing last weekend, but we need to get some activity in our tournament", Barrow told a Hesperian reporter Friday.

Drawing for ladder spots was made a couple of weeks ago and the ladder as it appears at the First National Bank is as follows:

#### WOMEN'S DOUBLES

Ina McDowell-Jean Hale, Robby Lyle-Mary Jane McDuff, Sally Miller-Darlene Fulton, Jo Wester-Pat Barrow, Sharon Kinard-Sherry Race, Eleanor Hendrix-Vickie Rainer, Barbara Christian-Lorrie Farris, Barbara Cocanougher-Elanie Reid, Nina Copeland-Flo Davis, Helen Teeple-Trudy Gilly, Sue Williams-Nona Cantrell

#### MEN'S DOUBLES

Turner Hunter-Wendell Tooley, Roy Kinard-James Hale, Ed Wester-Maurice Goodwin, Kinder Farris-Tommy Farris, Lon Davis-Bill Hicks, Jerry Neeley-Ricky Gonzalez, Edell Moore-Dallas Ramsey, Jackie Eubanks-Frank Barrow, Bill Lyle-James Stokes, Charles McDowell-Charles Reid, Dwight Teeple-Dale West, Leon Williams-Johnny Cantrell;

Barrow said any team could challenge the team above...or two teams above on the ladder.

NAMED TO TEXAS TECH ALL STAR BAND — Kelly Turner, a freshman at Floydada High School, received a trophy for being named to the Texas Tech All Star Band in recent competition at the Texas Tech Stage Band Festival. The Floydada Whirlwind Band participated in all events, and Kelly was selected outstanding lead guitarist in the entire festival in competition with students from Junior High through 4-A schools. Band Director Dennis Teasdale said the trophy was an honor to Kelly because the competition with students from some 20 schools including those in Lubbock, from Fort Worth and other larger towns. Kelly, who plays guitar for the Floydada Stage Band, plays tenor sax in the Floydada Concert Band. He also made the All-Region Band earlier this year and he, along with Layne Kirk and Sherry Moss were given special recognition by being named to the Roscoe All-Star Stage Band Festival held recently in Roscoe. Kelly is the son of Mr. and Mrs. Robert O. Turner. Layne is the son of Mr. and Mrs. David Kirk and Sherry is the daughter of Mr. and Mrs. John C. Moss. (Photo by Brad)

### Floyd 4-Hers Win At Lubbock

Several Floyd 4-Hers placed their stock in the Lubbock Stock Show last week. This report from county agent Doyle Warren:

Dara Carthel third middle weight hereford, Mark Nutt sixth lightweight hereford, Danny Nutt ninth place lightweight hereford, Dean Hinton seventh middleweight hereford, Byron Brock fourth heavyweight Angus, Jon Jones ninth place heavyweight cross.

Jody Smith received \$165 premium in sale for her fourth place medium weight finewool lamb. Jon won the steer showmanship award.

### The Weather

Total Prec. for Year	2.35		

placed at \$298 per capita in the report. Nationally, the debt of local governments averaged \$580 per capita. Throughout the state it was \$528.

### \$347 Per Capita Runs Local Government

### NO TAX INCREASE

## City Of Floydada \$Million Operation

By Wendell Tooley  
The Floydada City Council in its meeting last week approved a million dollar budget with expected revenue in 1975-76 to be \$1,011,843. This revenue is to come in as follows: general fund \$337,463, water and sewer department \$277,880, and \$402,500 from the electric plant.

The city expects to pay out \$799,649 in operating expenses and will pay out some \$113,975 on water and sewer indebtedness and \$74,339 on electric plant debt.

#### GENERAL FUND INCOME

Possibly more explanation is needed on where "general fund" money comes from: taxes \$105,268, franchise taxes \$13,000, licenses and permits \$270.00, corporation court fines \$3,000, revenue from sales tax \$45,000, mosquito control \$6,000, miscellaneous income \$8,150, service charges \$62,448, federal revenue sharing \$40,000.

#### DEBT PAYMENTS

A lot of talk goes around town about how deep the city is in debt. Actually, here's what it looks like:  
Street and park improvement bonds: \$68,000.00;

### Methodist Choir To Sing At Mt. Zion Baptist

Everyone in this community is invited to hear the Floydada Methodist choir sing John Peterson's "No Greater Love" at the Mt. Zion Baptist Church Monday night at 8 o'clock. The choir is sponsored by the Community Center Board.

President of the board Lavada Garrett will introduce the choir. The choir will also present "No Greater Love" for the entire morning service at the Floydada First United Methodist Church Sunday morning at 11 o'clock.

At the organ will be Lana Moore and Penny Bertrand will be at the piano. Dialogue that is woven into the cantata will be read by pastor Jimmy Tidwell. Soloists include Connie Tidwell, Fred Rink, O. M. Watson Jr. Mary Tom Tooley, Jackie Gregory, Wendell Tooley and Lisa Mosley.

Waterworks and sewer bonds: \$462,000.00;  
Electric Plant and system: \$705,000.00.

That's a total of \$1,235,000.00 of indebtedness and at this point you may be alarmed. But, listen to this, the city has an ace in the hole. Ever since doubling the water rates, it has been knotholing money at a good rate of interest with some \$300,000 in that savings account.

In fact, by 1977 the entire \$462,000 water works debt should be eliminated. Money is in hand now to pay off the \$68,000 street and park improvement bond.

So, the city's debt is beginning to look more like \$700,000.

The city's debt on the 480 acre farm it bought several years ago is in the water and sewer bond. City manager Bill Feuerbacher reports the farm continues to pay its way and make money.

Feuerbacher also reports the new budget does not include a tax increase.

### Caprock Hospital Officials Explain Medicare Admission

Effective this year, all hospitals in the United States approved to receive Medicare and Medicaid benefits must comply with new regulations established by the Social Security Administration. The new guidelines allow Medicare, Medicaid, and other health insurance carriers benefits to be paid to Caprock Hospital and other hospitals of our likeness only if the physician of record deems the patient needs hospital confinement in an "acute care facility." Different types of health care facilities are listed and defined below for a better understanding of the type of services provided.

1. "Acute Care Facility" One which must provide emergency, intensive, and continuous high skilled care from a professional nursing staff.

2. "Sub Acute Care Facility" One which provides continuous skilled care, but separate from the emergency medical, major surgical, and intensive services provided in the "Acute Care Facility" defined above. Patient services are more limited than the full offering above.

3. An "Extended Care Facility" is one which provides a long term care program. To illustrate: A Medicare patient, who after breaking a leg and receiving proper treatment and casting in an "Acute Care Facility", may need to be transferred to an "Extended Care Facility" where they could receive

continuous care until mobility can be reached. Long term physical therapy may also be received in an "Extended Care Facility".

4. "Nursing Home Facility" or "Convalescent Facility" One which provides a continuous day to day custodial care program. An example would be a patient unable to bathe or feed himself, but presents the need for personal care to provide these basic day to day needs which may also include oral medications and injections.

Caprock Hospital is a licensed "Acute Care Facility" and is allowed to provide only those services in the acute care category. Health insurance carriers will allow payment to hospitals and doctors who follow the above guidelines, but may deny payment if not followed accordingly. This hospital cannot allow admission and merely care for a patient because the family is unable to make other arrangements for care. Physicians on the staff of Caprock Hospital must meet these standards of treatment and not over utilize patient privileges, but for all necessary treatment which the patient may need from Caprock Hospital and within our boundary, we, the medical and hospital staffs, will extend our best efforts to provide the type of care that may be needed. For further explanation, call Medicare Hospital Insurance Division, 214-741-8022.

fire protection, education and the like. The \$106.5 billion outlay represented an increase of \$47 billion in a period of five years.

In some communities, the amount spent for local governmental operations was adequately covered by revenues. In many others, however, more was spent than was taken in.

The figures for Floyd County show that the direct expenditures, \$347 per capita, were offset by general revenue receipts equivalent to \$348 per capita.

Some \$228 of this revenue came from local taxes and charges and the remainder from Federal and state sources.

In order to finance their expenditures for capital improvements and provide their residents with necessary services, many communities have been forced to go deeper into debt.

Floyd County's outstanding debt is

### Cab Williams Built First Floydada Building

My great grandfather, M. C. Williams, better known as Cab Williams, had the honor of building the first building in this city. At the time Floyd County was organized my great grandfather and other parties bought one section of land (640 acres) and laid off a townsite for which they ran for county seat. Before election they had this section mapped and advertised among the cowboys, that anyone that cared to, could draw 10 lots. They gave away every other lot as far as anyone wanted one. The idea in giving away lots was to get these people interested in locating here instead of Lockney and Della Plains which were two of the small towns my grandfather, Sid E. Williams, recalls that were in the running for county seat.

After winning the county seat they submitted a postoffice name for the town, however there was another place in Texas that had the same name as the one submitted. So being in Floyd County, my great grandfather suggested they name the town Floydada. This Dada was taken from the name of my great aunt Dada Hamlin. (nee Bowers). Thus Floydada got her name.

Years later when the little city grew a little the A. C. Bowers moved to Floydada where he met and married my great grandmother Rebecca Blanche Bowers better known as Bonnie. Where their sons Sid and Cook Williams, who still survive, were born.

I have often heard my great grandmother talk about the good ole time they had going to the cowboy dances and they thought nothing of hooking up to their buggies and going

thirty miles or more to a cowboy dance down under the "Cap" to the F Ranch. Most any time there was enough cowboys in town for a dance they would have one in the little courthouse in Floydada which was used mostly for entertainment at that time.

This must have been pretty happy times for these old pioneers, plenty of wide-open spaces where you could look out most any time and see antelope grazing. Everyone was always happy to meet someone because it was so sparsely populated. At that time most door locks were latches with rawhide strings where everyone was welcome. A man was as good as his word and willing to help his neighbor.

Out of her love for, and at the request of my great grandmother Rebecca Blanche Williams she now sleeps beside her mother, Mattie Bowers in the old cemetery in Floydada, Texas.

Among the many friends of my great grandmother and great grandfather were the old time Judge Silas Duncan who still has some of his family living in Floydada and the Doug Stark family. Mr. and Mrs. Dan Jenkins, who were also their friends, helped my grandfather, Sid E. Williams in later years get a copy of his birth certificate.

My grandfather Sid Williams, Box 643, Morton, Tex. says he would like some time before passing on to attend one of the Old Settlers get-togethers. Thinks he might pass for an old settler as he arrived there May 12, 1892.

Lyvidia McNutt  
Box 455, Aspermont, Texas  
79502.

**Teachers To Attend Convention**

ninety-sixth annual convention of the Texas Teachers Association will be held in Houston from March 19 through 22, with 12,000 members and 100,000 expected to attend. A Changing to Meet Tomorrow will be the theme of the convention. Jewel Howard, Dallas, and state superintendent, will preside over the convention. An Execu-

tive Committee meeting on March 20, and four sessions of the 1400-member House of Delegates—official governing body of TSTA. Registration will begin 1:30 p.m. March 20, with the first General Session scheduled for 7:30 p.m. in the Arena, Astrodome. Carl T. Rowan, prize-winning nationally syndicated columnist and author, and former

director of the U. S. Information Agency, as well as deputy assistant secretary of state, will address the conferees. School Bell Award recipients will also be introduced. The second General session will be held beginning at 9:30 Friday morning, March 21, at which time Lesley Stahl, Washington-based reported with CBS

news, will address the convention. Four sessions of the House of Delegates are scheduled: from 4:00 to 6:45 p. m. and 8:00 to 11:00 p. m. Friday, and from 9:30 a. m. to 12:00 noon, and 1:30 p. m. to adjournment on Saturday, March 22. Topping the list of eight proposed amendments to the TSTA constitution to be considered by the House of Delegates is the one

designed to accomplish TSTA-NEA unification and call for a statewide referendum on the question. Last year at the state convention in Fort Worth the House of Delegates voted to approve TSTA-NEA unification, but TSTA members rejected it in a mail referendum which followed. Delegates to the convention from District XVII TSTA include Mrs. Sunny McDonald of Floydada and Mrs. Bettie Knox, Lockney.

**Special Music Program Set For Baptist Revival**

Dr. Floyd Bradley, pastor of the First Baptist Church of Floydada, has announced special services for Saturday evening, March 15, during the week of Revival at the local church. Evangelistic Singer Fritz Smith will present "A Concert of Your Favorite Sacred Music" starting at 7:15 p.m. Featured in this service will be all-time

favorite spirituals and gospel songs as well as contemporary evangelistic arrangements. Evangelist for the week, Dr. William Cook, pastor of the First Baptist Church of Bartlesville, Oklahoma, will bring an evangelistic message following the musical presentation. The public is cordially

invited and nursery facilities are provided for children under 4 years of age. FLOYD DATA Sam Fowler is recuperating at his home after suffering a recent heart attack. He is reported to be doing well at this time.

MUSEUM NEWS

The first quarterly newsletter published by the Floyd County Historical Museum is being mailed to museum members this week. The four page illustrated publication features story and picture of the Burns Blacksmith Shop

in Lockney, Texas c.a. 1908. Retired Judge Goldie Burns of Valparaiso, Indiana, has made available to the museum the blacksmith tools used by his late father, John Ellison Burns, for thirty-five years in his Lockney shop.

The newsletter also presents a Bicentennial reference to the past with a story of a courageous American girl, Dicey Langston, who defied Tory (British) loyalists and walked through forests and river to warn her patriot brother and his fellow soldiers of an attack. After telling the boys the warning, this ancestor of Donette Marble, Mrs. Nancy Marble and Brett Marble, looked around, noticed the boys looked hungry and cooked them a batch of hoeecake over the campfire. Her many adventures during the American Revolution were described in the Greenville, S. C. Mountaineer 75 years ago.

Memorial gifts to the museum are listed. Out of town visitors are named for the past few weeks. Memberships may be purchased at the museum.

**GWEN COGDELL ROASTED** - Mrs. Cogdell and husband, Ralph, get in on the fun at a roasting and retirement party Thursday night in her honor in the Wendell Tooley home. Cake and coffee and hot spiced tea was served to employees of the Hesperian and Blanco Offset and to the honored guests, Mr. and Mrs. Cogdell. Mrs. Cogdell retired Friday after being employed as typesetter for the Hesperian for the past 12 years. [Staff Photo]

# Tinsley And Broseh Selected Resident Conservation Farmers

R. H. Tinsley and Kenneth Broseh, who farm southeast of Lockney, have been selected as Resident Conservation Farmers for Floyd County by the Floyd County Soil and Water Conservation District. Gilbert Fawver, Chairman of the Board, stated, "Mr. Tinsley and Mr. Broseh were selected for this award

based on the complete program of resource conservation and practices applied on their farm."

Fawver also announced that a summary of their accomplishments has been submitted to the Texas Conservation Awards Program, which is sponsored by the Fort Worth Chamber of Commerce, to be judged for regional and state honors.

Mr. Tinsley and his wife Edith have been in West Texas since 1926 and have been in farming most of this time. They have one daughter, Juanita, who is married to Kenneth Broseh. Kenneth and his wife Juanita have two children, Darlene and Earl. Mr. Broseh taught Vo. Ag. for three years and has been in farming for 17 years.

In 1968 they entered into a Great Plains Conservation Program Contract which provides cost-share assistance for a complete conservation program on the farm. In May of 1969 the construction of parallel terraces was started. Each year more terraces were constructed until the farm was completely terraced in 1974.

When asked why they entered into the conservation program, Kenneth stated "Naturely to prevent erosion as the land had washed across it, but also the fact that they (parallel terraces) can be of great benefit in a short rainfall area (20" rainfall Belt) by retaining the water where it falls." Kenneth further

stated, "Now that we have the terraces to conserve water it is possible to grow grain sorghum between the terraces."

Mr. Broseh and Mr. Tinsley spend a great deal of their time promoting conservation of our natural resources among the farmers of their community. Mr. Broseh and his wife are also active in many community groups including the Lockney 4-H Club. They serve as Adult Leaders and Kenneth is currently the President of the Floyd County Adult Leaders.

They use their farm whenever possible to show what conservation can do for the land, the water, and for the future financial situation of the American farmer.

Kenneth Broseh and R. H. Tinsley

John C. White, Commissioner

Spring Planting Underway... March 17 Important Date... Census Forms Still Needed.

Texas generally enters the 1975 planting season with one of its best moisture supplies in years. There are exceptions of course, but good amounts of sub-soil moisture are reported over most of Texas.

And while farmers in the northern reaches of the state shiver from cold temperatures, planters are rolling in fields in South and Central Texas.

Grain sorghum planting for the state is already about 10 per cent complete which is well ahead of last year. Planting of sorghum has been reported as far north as the central Blacklands. Rapid progress will be seen in the coming weeks as temperatures begin to rise.

Cotton planting is underway in South Texas and will soon pick up momentum in other parts of the state in the coming weeks. Indications as of Jan. 1 project a 23 per cent cut in acreages for Texas this year.

Corn planting is now about 10 per cent complete, and is also well ahead of a year ago. Rice seeding is in progress along the Upper Gulf Coast.

Meanwhile, wheat continues to make good growth on the High and Low Plains. Livestock have been moved off fields where a grain crop is expected. Prospects at this time are described as excellent.

Peach trees have been blooming from Central Texas south. Pecan trees are budding in most southern areas. Citrus harvest is virtually complete. Vegetable harvest is underway in the Valley and Winter Garden areas.

All in all, farmers are either busy planting, or preparing to plant for the 1975 season.

WHILE ALL THIS ACTIVITY is going on, farmers are also waiting—as are others—for March 17. That's the date for the March 1 planting intentions report which should provide a good insight into the anticipated acreages for major crops this year.

That report will be read more closely than ever because of renewed interest in food and fiber production.

CONDITION OF LIVESTOCK, particularly in the eastern half of the state, is poor. This is due to malnutrition as well as an increase in internal parasites. Low cattle prices are also causing many livestock producers to follow less than normal animal husbandry practices.

HALF AND HALF. That's about the situation regarding the 1974 agriculture census. About half the forms have been returned; about half have yet to be returned.

Officials of the Census Bureau are urging farmers to complete the forms as soon as possible and return them. Farm owners are required to answer the questions which apply to their particular operation.

Census officials again emphasize the returns will be treated in strictest confidence. No other government agency will have access to the report. Individual reports will be compiled into county, state and national totals.

Farmers who have difficulty in answering any question should contact the county Agricultural Stabilization and Conservation Service office with which they do business. ASCS is the "answer man" for this project.

Information obtained in the census is used for a host of agriculture programs, and is the basis of information on which to project the nation's agriculture production as well as other important data on farms and ranches.

## ASCS News

**COUNTY COMMITTEE** - Ned Bradley, L. B. Brandes, H. L. Porter, Jr. Meeting Date - Second Tuesday each month.

**1975 COTTON TRANSFERS:** Cotton allotments can be transferred out of Floyd County by sale or lease for the 1975 crop year. The final date to file transfer applications will be April 1, 1975. This is also the final date to release cotton allotments to the County Committee or to request reapportioned acreage.

**DISASTER PROVISIONS:** April 1 has been established as the final date for wheat and barley acreage to be grazed and still be expected to produce a normal grain crop. Producers having wheat or barley acreage that was planted for grazing only must designate this acreage "for grazing" prior to April 1. This acreage, if timely designated, will be excluded from disaster payment considerations and will not be charged with any production.

Producers having wheat or barley acreage planted for grain that is not expected to mature as harvestable grain because of a natural disaster, may request a release for grazing past April 1. This acreage must be reported prior to April 1 and be appraised. This acreage will be included for low yield disaster consideration.

Wheat or barley acreage which is not designated for grazing, but is grazed past April 1 without an appraisal, will be included in any disaster considerations.

However, the production charged against these acres will be the LARGER OF the per acre yield on any harvested acres or the established yield for the farm. This could disqualify the farm for disaster payment.

**PAYMENT LIMITATION:** The Agriculture and Consumer Protection Act of 1973 provides a payment limitation of \$20,000 for each "person" under one or more of the annual programs for wheat, feed grain and upland cotton for 1974 through 1977 crops.

**COTTON LOAN INTEREST RATE CHANGES:** Effective April 1, cotton loans will bear interest at the rate of 6.125 percent per annum. Loans disbursed prior to April 1 will continue to bear interest at 9.375 percent through March 31 and at the rate of 6.125 percent from April 1 to date of any subsequent change in the interest rate.

**Livestock Auctions Show Dip**

AUSTIN—Some 482,000 head of cattle and calves

were sold through auctions during January, a 28 percent drop below a year ago but a nine percent increase over December.

Agriculture Commissioner John C. White said the figure reflects the general drop in livestock auction sales around the state.

Only hog sales, totaling 46,000 head, remained on

HERE ARE 15,000 THE released in last week inch fish weight they are [Briscoe Co to].

the same 1974.

The House Agriculture Committee deserves a full round of applause for the dispatch with which it reported emergency farm legislation March 6, according to Don Marble of South Plains, President of Plains Cotton Growers, Inc., Lubbock.

The bill approved by the committee, if passed and signed into law, would raise the support prices for cotton, wheat, feed grains and milk, plus reinstate a loan program for soybeans, "measures which are badly needed if financial ruin is to be avoided by thousands of farmers," Marble said.

Committee Chairman Tom Foley, Democrat of Washington, expects the bill to go to the Rules Committee in the week of March 10 and it could reach the House floor as early as March 18. Foley is quoted as saying the bill has a good chance of passage in the House, but there are others who are much less confident and point also to the possibility of a Presidential veto.

The bill as reported by the committee calls for raising the CCC loan on cotton to 40¢ per pound, basis Middling one inch, from the 34.27¢ announced as a "preliminary" loan in October of last year. Cotton's target price under the new measure would be 48¢ per pound, up from 38¢ under present law.

Two other changes would be made in the cotton program. Producers using the Commodity Credit Corporation loan program would have the option to extend the 10-month loan period for an additional eight months. Currently, the law calls for all loans to expire ten months from the first day of the month in which they are written.

The other change, which came as a last minute amendment and also concerns the loan program, has not been fully explained as of this writing. It would call for the Secretary of Agriculture to "... insofar as practicable establish the same terms and conditions on storage costs and interest for each of the commodities cotton, wheat and feed grains."

Under the present act, feed grain and wheat producers using the loan program have been required to prepay storage costs for the term of the loan, while cotton producers have paid the storage only if and when cotton was redeemed from the loan. Washington sources indicate that the language of the new law, if the Secretary so desired, would permit him to require cotton producers also to pay storage charges in advance.

The CCC storage rate on cotton is currently 70¢ per month per bale. Therefore a requirement that 10-months' storage be paid on cotton in advance would have the effect of lowering the proposed 40¢ loan level to about 38.5¢.

USDA had previously announced there would be no loan program for soybeans in 1975, but if the Ag Committee bill should pass, that loan program would be reinstated, reportedly at about \$3.81 per bushel.

The Ag Committee agreed on target prices of \$3.10 per bushel for wheat and \$2.25 per bushel for corn (about \$3.81 per cwt for grain sorghum), and set loan rates of \$2.50 for wheat, \$1.87 for corn (about \$3.17 for grain sorghum).

CCC recently announced that CCC loans would carry an interest rate of 6.125 per cent, down from 9.375 per cent. The Ag Committee bill would require that CCC interest rates on commodity loans be reviewed quarterly and be set at a rate no greater than the current cost of money to the government.
