Texas Voters To Name Choices In Primaries

MAY 1	80	44	--

Democrats and Republicans will go to the polls here Saturday May 4 to name their choice in the primaries, while members of the American party will hold a precinct convention at 10 a. m. at the building which formerly housed Western Minerals.

Democratic polls will be open at 8 a. m. in the foyer of H. P. Webb Elementary school, while the polls for the Republican party will be opening at the same hour at the American Legion building. Both polls close at 7 p. m.

A Democratic Precinct 1 convention will be held at 3 p. m. at the Olton high school auditorium. Any citizen who votes in the Democratic primary that day is eligible to take part in the precinct convention.

The Republican convention will be held at 7:15 p. m. at the Legion building.

On the county level, the hottest race is the sheriff's position, sought by four candidates in the Demo Primary. Dick Dyer, incumbent of Littlefield, is retiring.

Candidates are E. D. McNeese, 40, of Littlefield, a lifetime resident, who has been with the police from 1952 to 1955 when he became a sheriff's deputy; Don Hatley, 35, of Littlefield, formerly of Olton, who has been in the gasoline station and fertilizer business; W. A. Hatfield, 41, of Earth who has been serving as a deputy; and S. H. Russell, who has been farming and stock-raising near Sudan.

All are Democrats and most county voters feel that Saturday's vote will result in a runoff.

A. J. Spain of Olton, who has served as Precinct 1 commissioner for the past seven years, is being challenged by Elmo Bryant, area farmer and lifelong resident of this area.

On the state level, the governor's race is drawing most of the interest, followed by the lieutenant governor's race and that of the seventh supreme judicial district court of civil appeals.

On the Democratic ticket, a total of 10 are running for the top spot. They are Johnnie Mae Hackworth, John Hill, Pat O'Daniel, Alfonso "Al" Veloz, Preston Smith, Waggoner Carr, Don Yarbrough, Edward L. Whittenburg, Dolph Briscoe and Eugene Locke.

Governor hopefuls on the Republican Ballot are Paul Eggers, John R. Trice and Wallace T. Sisk.

All other races in the Republican primary are uncontested. Bob Price, Republican, U. S. Representative of 18th district is being opposed by J. R. (Dick) Brown, Democrat of Hartley.

In the bid for State representative, 78th District, incumbent Bill Clayton, Democrat, is being opposed by J. Frank Ford, Republican from Hereford.

Three men are entered in the race for nomination for lieutenant governor. They are Ben Barnes, Gene Smith and Don Gladden.

The Court of Civil Appeals, seventh supreme judicial district, race has drawn three candidates, all three Democrats.

Judge James A. Joy of Plainview faces Jack Hazelwood of Amarillo and Bruce L. Miller of Hereford in this spot.

Other races drawing more than one candidate include that of supreme court of Texas place 1. Two men are facing each other on the Demo ticket, Sears McGee and Matt Davis.

Tom Reavley and James G. Denton are two who are running for place 2, Supreme Court of Texas. Robert S. Calvert, longtime incumbent, faces opponent Dallas Blankenship this year.

Commissioner's race in precinct 3 has drawn six candidates. E. T. Miller, Curtis Chisholm, Robert Ray Smith, Jack Fore, M. V. (Buck) Richards and Jack Peel are all on the Demo ticket for that race.

For the first time, write-in votes will not count this year in the primaries.

Although the three referendums on both GOP and Democratic ballots have no effect as law, great interest has been shown in them and they will be a more important part on the tickets.

First on the ballot is the proposition concerning legalizing the "sale of liquor by the drink in wet areas only after approval by local option elections, and which sale would be subject to strict regulation, effective controls and taxation thereof."

Second proposition will draw voters' opinions on the legalizing of horse racing with pari-mutuel wagering on a local option basis.

According to the proposition, "Texas would create a horse racing board with the power to regulate pari-mutuel wagering on horse races; granting two percent of the total pari-mutuel pool each day to each county where there is a licensed race track; and apportioning among all other counties one-half of the total state net revenue from that source."

Last referendum issue is to give voters a choice on milk price regulation. Voters will give their opinions as to whether they are for or against the Texas Dairy Commission being given the power to regulate and fix the retail and wholesale price of milk.

OHS Graduation Exercises Set May 17

Olton High School graduation exercises will be held Friday evening May 17 at 8 p. m. in the high school auditorium.

Baccalaureate Services are slated for Sunday evening May 12, at 8 p. m. in the auditorium with the Rev. Tomny Nelson, pastor of the United Methodist Church, bringing the message.

Approximately 60 seniors will participate in the graduation exercises.

Valedictorian is Shirley Johnson and Salutatorian will be Jacquelin Harrod, High Point Girl is Teresa Thomas, Steve Spain is High Point Boy.

Graduation exercises for eighth grade will be held at 10:30 a. m. Friday, May 17.

Valedictorian is Glenda Holladay and Salutatorian is Sherree Coleman.

Dollar Day Slated Here

Dollar Day will be observed here in Olton Monday, May 6.

Retails trade committee of the local Chamber of Commerce encouraged merchants to participate in the dollar day event.

The mobile chest x-ray unit will be located in Olton the same day and persons may have an x-ray made for \$1.00 then shop the special buys offered by the town's businesses.

JUNIOR-SENIOR KING AND QUEEN crowned at the annual banquet held Saturday night in the school cafeteria were Danny Dial, nephew of Mrs. Florence Daniels and Sherry Moss, daughter of Mr. and Mrs. C. M. Moss.

King And Queen Named At Banquet

Olton High's junior class entertained the 1967-68 senior class Saturday night with the annual Junior-Senior Banquet.

Theme of the banquet, which was held in the school cafeteria, was "Roman Holiday".

Invocation was given by Bud Brock and the welcome was given by Steve Burleson, with response by Phil Cox.

Program was presented by Brock, who gave a speech which was to be given ten years from the year 1968 to an opponent of the Olton Mustangs, with Brock pretending to be their coach.

Following was a visit from "Phyllis Diller" who in reality was Mrs. Ruth Holladay.

The class will be read by Danny Dial and the class prophesy was read by Joe Hernandez.

The crowning of the Junior-Senior king and queen was the highlight of the banquet. Candidates for queen included Carol Hicks, Judy Burkhalter, Teresa Thomas, Shirley Johnson, Sherry Moss and Lynda Blackwell. King candidates were Garland Huguley, Steve Spain, Lannie McClain, Pat Bodkin, Otis Patterson, Stacy Pendergrass and Danny Dial.

King Danny Dial received

his crown from Jeanie Gardner, secretary of the junior class and queen Sherri Moss received her crown from Danny Collins, vice-president of the junior class.

Sandee Gregory led the group in the school song and benediction was given by David Howton.

Choir Concert Is Recorded

The Olton High School Choir has made a stereo recording of the numbers they presented in the Choir Concert last Friday evening.

A limited number of recordings have been ordered and will arrive in three weeks.

Anyone wishing to purchase one of the records may do so by calling Mrs. Bob Allford at school, 285-2641, or at home, 285-2092. Or by contacting any choir member who will pick up the money. Orders paid in advance will also be delivered when the records arrive.

The records are \$4.00. Proceeds will be used to purchase additional choir robes.

Chamber Of Commerce Brings X-Ray Unit To Olton May 6

The Christmas Seal X-ray Unit of the West Texas Tuberculosis Association will be in Olton on May 6, under the auspices of Olton Chamber of Commerce. Everyone over the age of twelve years should take advantage of this facility. In past months, the Unit has been responsible for locating case after case of possible tuberculosis, both active and inactive, as well as many other lung disorders.

Tuberculosis is not a thing

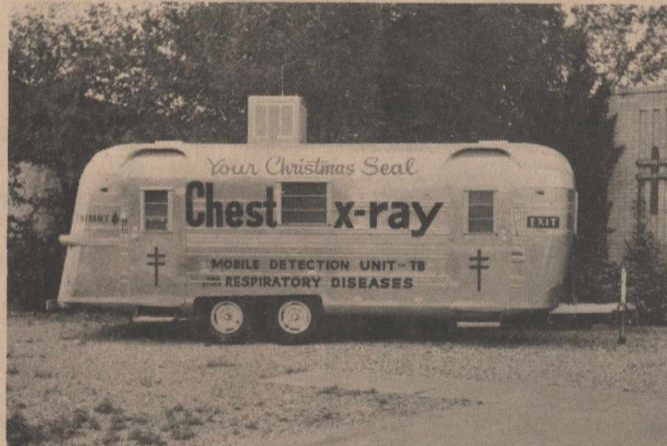

of the past. It continues to be the most infectious of infectious diseases, causing more deaths than any other communicable disease. The Unit helps to locate many other conditions, such as emphysema, a disease which causes the air sacs in the lungs to become greatly enlarged. The incidence of emphysema, along with chronic bronchitis, has increased over 900 percent since 1960.

The major cause of these diseases is cigarette smoking.

The U. S. Public Health Service estimates that cigarette smoking will be responsible for 300,000 deaths this year - one every two minutes.

The Mobile X-ray Unit helps to reveal chest disease in its early stages as well as diseases which are already well underway. When the Unit arrives in Olton, every citizen of the community should plan to have an X-ray.

A token payment of \$1.00 is asked to pay for the cost of the film and the developing. The WTTA bears the expense of the reading and reporting to each individual, by mail, the results of his X-ray film.

Track And Field Event Gets Under Way Tuesday

Olton's second annual grade school track and field meet will be Tuesday, May 7.

Pre-liminaries will be at 4 p. m. with finals at 7 p. m. Age divisions will be determined from Sept. 1. Boys in the second grade through sixth grade will participate. Running ages will be eight through 13.

Eight events are scheduled - four field and four track. Each boy may enter two events in each category.

Track events include the 50-yard dash, 100-yard dash, 220-yard run, and 80-yard low hurdles.

Field events consist of the high jump, broad jump, eight pound shot put and chinning.

High school athletes will run the meet under the supervision of the coaches.

The boys who will be participating in the meet have been working this week with Senior athletes and the coaches in preparation for the event.

Ribbons will be given for the first six places in each age division.

The eight best times in each track event in each age division will participate in the finals Tuesday night.

The field events will be finals.

Ribbons will be awarded Wednesday morning at school rather than Tuesday night in order to eliminate confusion. The public is invited.

2 Olton FFA Teams To Compete At State

Members of the Olton FFA Chapter were among 160 teams participating in an Area 1 contest Saturday at Texas Tech.

Two teams, Dairy Cattle Judging and Dairy Products, will compete in State contest Saturday, May 4, at Texas A&M.

Ronnie Key, member of the Dairy Cattle Judging team, tied for high individual scoring in the Area contest.

The Dairy Cattle Judging team is composed of Key, Mickey Crowder and Terry Snider. The team finished second

in District judging and eighth in Area competition.

Scoring second in district and seventh in Area competition, the Dairy Products team is composed of Johnny Fenton, Steve Burleson and Joe Luera.

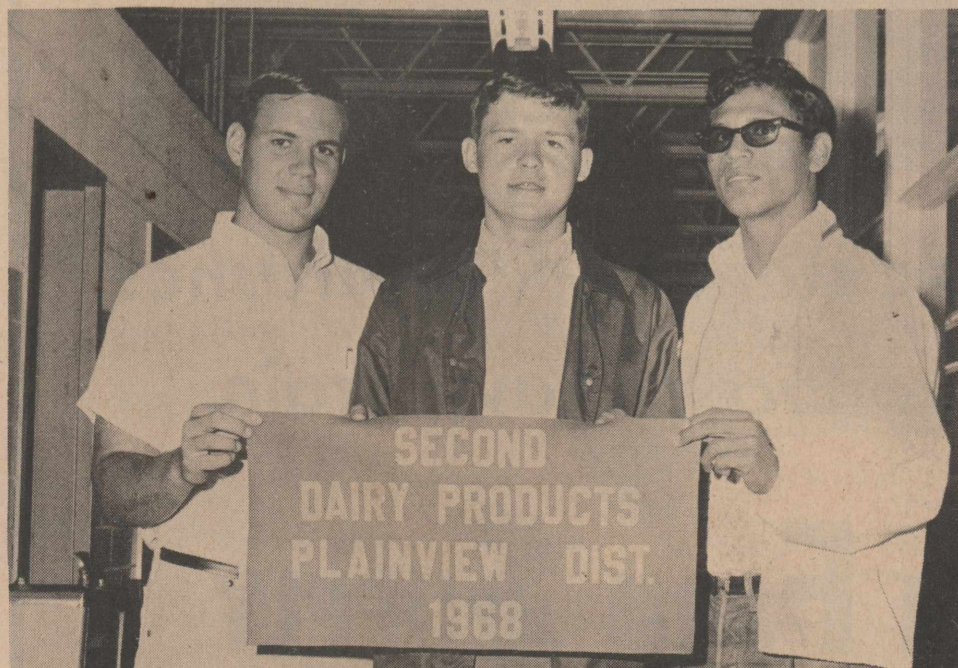

These two teams, by placing in the top ten, became eligible for State competition.

A third team, Meat Judging, finished third in District contest. This team included Carl Roberts, Mike Trotter and Ricky Smith. This team will not participate in State Contest since only the top five Area teams are eligible.

More Players Needed Here In Babe Ruth

More players are needed in the Babe Ruth baseball league. Boys 13 through 15 are included in this group.

Players may sign up at Kelley's or at Olton State Bank. The Babe Ruth schedule and a corrected Pee Wee schedule may be found on page 3.

STATE BOUND--Steve Burleson, Johnny Fenton and Joe Luera will compete in state contests at A&M Saturday after having placed second in region contests Saturday at Lubbock, in Dairy Products judging.

SECOND PLACE WINNERS in regional contests at Lubbock Saturday in Dairy Cattle judging were Mickey Crowder, Terry Snider, and Ronnie Key. They will compete at A&M in state contests Saturday May 4.

PLACES THIRD--Meat Judging team from Olton placed third in district at the contests Saturday. Team members are Mike Trotter, Carl Roberts and Ricky Smith.

Not A Spectator Sport

By Ed Erard

(Ed Erard is the dean of South Texas political columnists, and quotes from his columns, Building Blox and Kicking the News Around, have been re-printed nationally. He is editor-manager of the Kingsville Publishing Company, publishers of the Kingsville-Bishop Record-News.)

Today the United States is the oldest living republic with a written Constitution. Twenty-three other republics have gone down the drain of history. The cynics say, "Democracy carries within it the seeds of its own destruction, America is on the downhill run that leads to the graveyard of dead nations."

Here are some of the symptoms of our nation's senility:

Expediency has replaced statesmanship in many high places.

Pandering has replaced patriotism.

Riots have replaced responsibility.

Spending has replaced stewardship.

Inflation has replaced responsibility.

Anarchy has replaced law and order.

Welfarism has replaced private enterprise.

We chant of the Land of the Free and the Home of the Brave. We hear the National Anthem when we attend a baseball or football game, but the sentiment goes over our heads like a fleecy cloud. Baseball, football and many other sports draw millions of spectators who contribute nothing to the action on the field of contest - except the price of admission.

In these days of an affluent society, too many Americans have come to regard our Democracy as a spectator sport. We sit in the grandstand, and between drinks we boo or cheer.

Democracy was never devised as a spectator sport. It is based on the rule that each citizen should form his own opinions, and express them to the Court of Public Opinion where America makes its decisions.

You and I can no longer ride the Freedom

Train. We can't lounge in our cushioned seats and indulge in the vain hope that everything will turn out all right. Prayers have a proper place in our efforts to reform this government before it is too late.

But as one cynic remarked, "God isn't dead; He just doesn't want to get involved."

Thomas Jefferson said: Eternal vigilance is the price of liberty. Daniel Webster added "God grants liberty only to those who love it and are always ready to guard and defend it. Nothing will ruin this nation if the people themselves will undertake its safety. Nothing can save it if they leave that safety to any hands but their own."

Yet, J. Edgar Hoover recently had to report, "We have become a nation of kibitzers of the game of life. Most Americans seek to avoid the risk of commitment to any cause."

In this age of affluence and apathy more than half the people who seek medical advice have no diagnosable illness. Doctors say most of them are constantly bored and tired because their lives are empty.

We need to put a sense of purpose into our lives. The purpose should be the liberty of the United States of America, which is sorely threatened now. Men and women have always been judged by the things they stand for - not the things they fall for. The history of America, from Bunker Hill to Vietnam, was written by people who backed their beliefs with action - men who said, like Nathan Hale "I regret that I have but one life to give my country."

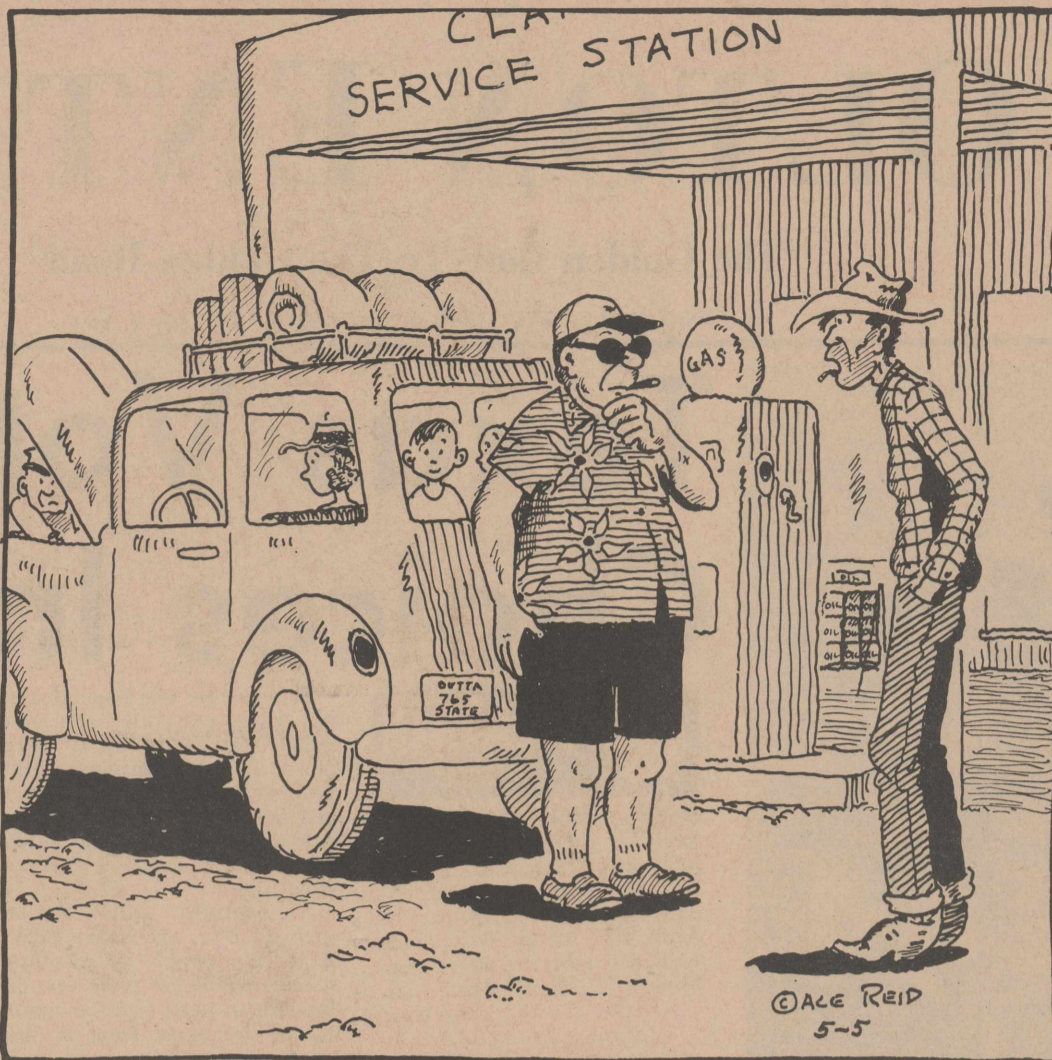

You and I, the informed citizens, have consistently voted against the trends of the times and we must continue to labor for the United States of America, which today is being described abroad as the only nation in all history that passed from infancy to senility without ever reaching maturity.

It is time to erase that blot on our image by coming down from the grandstand and going into action.

Governor Proclaims May 'Senior Citizen Month'

Governor John Connally has proclaimed May "Senior Citizen Month" in Texas and urged all citizens to join in honoring fellow Texans "who have reached a status of seniority and respect."

In his proclamation, the Governor said the State of Texas recognizes both a debt of gratitude to and an obligation for its senior citizens, and called on Texans to include senior citizens into the normal sphere of life.

"Texas of today exists on the foundations laid by these surviving Texans of yesterday. Their work, their efforts, their very lives stand as an enduring challenge to the future," Governor Connally said, and added: "If we are to enjoy the full productive capacities of our resources, we must continue to utilize the skills and knowledge of our older citizens in all civic and community endeavors. Their inspiration and counsel form a continuing asset in the

growth and development of Texas."

The Texas observance of "Senior Citizen Month" coincides with the national observance proclaimed by President Lyndon B. Johnson. Texas activities for the month are being sponsored by the Governor's committee on Aging, Cooperating with the Committee in its statewide programs are the Texas Safety Association, Agricultural Extension Service of Texas A&M University, and other state agencies and local organizations.

Safety for the aging will be emphasized in both national and state programs as accidents are a major problem among older persons. Over 28,000 persons age 65 and over die each year in the nation as a result of accidental injuries and an additional 800,000 more in this age group suffer disabling in-

juries. In Texas, the annual toll is some 1,300 fatalities and an estimated 39,000 injuries, according to the Texas Safety Association. Falls are the leading cause of accidental death for persons over age 65. Falls account for 43 percent of all the accidental deaths with 77 percent of these occurring in private homes. Motor vehicle accidents rank second with 35 percent of the total fatalities. Deaths associated with fire rank third with 11 percent.

The Safety Association says persons over 65 have higher accident rates than younger people because they are more vulnerable physically and sometimes mentally to accidental injury and death.

Older persons are less able to perceive danger because of losses in sensory acuity, not only hearing and sight, but also touch and smell. Some are less able to recognize and interpret warning signals rapidly because of impaired intellectual or mental functions, such as comprehension, knowledge, orientation, memory and judgment.

I got another one of those phone calls!

This time it was from my son.

He starts out like this "Mom can we have a pet?"

Well, I know my 13 year old Guy, and when he says pet, he could mean anything from a snake to a skunk. He doesn't care for ordinary pets like dogs and cats.

So I say, "What kind of pet?"

"One that doesn't carry diseases, and it's clean as a hamster only better."

"What, a de-scented skunk?"

"No - two white rats."

Gaspl "Two WHITE RATS!"

"Oh, please Mom, I'll take care of them and build them a cage."

"Now if there is anything we need, it's two white rats. I'll talk to you later."

I hang up and catch my breath, gather my senses and think, "well, it could have been worse."

He is a nature loving character that likes to get all kinds of lizards, snakes and what have you and has been after me for about a year to get a monkey or chimpanzee.

Well, I'll tell you right now with six kids you don't need a monkey or chimp and snakes and lizards I don't want either, but RATS yet!

Seems as though they were used in the science lab and were going to have to be destroyed if someone didn't want them for pets.

Now doesn't that just tear you up...to think that they were going to kill those poor little rats!

Well it did my son. (Sorry I can't say I had the same reaction.)

This little episode reminded me of the time when he was much younger and came in and wanted to know if he could have a snake for a pet.

Of course, I was against it, but asked what kind. And according to him, it was just a harmless little green snake so

SON VISITS

Mr. and Mrs. Kenneth Gabehart, Kenny and Pat of Dumas spent the weekend with Gabehart's parents, Mr. and Mrs. Ray Gabehart.

I finally consented to his keeping it - OUTSIDE in a jar.

When I asked him where it was he pulled it out of a pouch which he carried on his belt for goodies such as this.

RIGHT THERE IN MY HOUSE! I nearly panicked! (Thank goodness it didn't live long.)

Then there was another time, he came in with one of the biggest bull frogs I have ever seen. I believe he was two foot long when he was stretched out.

Of course, it might be that he looked so big to me because at the time Guy came in to show him to me I was taking a nap and he chose to wake me with that thing right in my face!

He has some weird looking sea animals in some sort of preserving fluid in jars that he keeps in his room. The things give me the chills every time I go in there!

Well, you've probably guessed by now, we have two white rats at our house - not IN our house, AT our house. Very muchly against my better judgment.

But as long as that is all I can find wrong with one of my kids - guess I shouldn't be too unhappy.

NEW! For clean Sorghum... spray weeds when you see them! with BANVEL HERBICIDE

Velsicol announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessnessweed (pigweed), sunflower, lambs-quarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and then spray - all in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is not dependent on soil moisture for its effectiveness, so its results are dependable. And it's a liquid that won't clog your sprayers; nor does Banvel need constant agitation.

Banvel increases yields. It's excellent for use on grain sorghum, wheat, barley, oats and field corn. Order Banvel herbicide to get full potential from your valuable, high-yielding sorghum seed.

See your dealer today. You'll be glad you did!

Regional Office Describes Terms

Two important words for veterans and their dependents -- "Compensation" and "pension" -- are often used interchangeably by the public, but their meanings are vastly different to the Veterans Administration, the Manager of the Waco VA Regional Office said today.

Coker explained that "compensation" is payment the Veterans Administration makes because of a disability a man suffered in military service. The payment may go to a veteran who has been disabled by an injury or a disease that originated or was aggravated while he was in active service. In case of death for such a service-connected cause, compensation payments go to the veteran's survivors.

The financial condition of the recipient is NOT taken into consideration in cases of compensation payment Coker pointed out.

Pension, on the other hand, is paid on a basis of need for disabilities or death due to causes not connected with military service, Coker said. The income of the recipient has a direct bearing on the amount of the pension.

Information concerning either benefit is available by mail, phone or personal inquiry at any local VA office.

Opportunity Loans Available

Many Lamb County low-income rural people have increased buying power, as a result of Federal opportunity loans, according to Truman J. Jones, Farmers Home Administration local representative. Jones, who has been Farmers Home Administration's Lamb County Supervisor for 20 years, said one rural family received \$3500.00 in economic opportunity loan since July 1, 1967.

Over 2,700 opportunity loans have been made in Texas since the beginning of the program in January 1965 with more than 430 being made this fiscal year. The opportunity loans are part of the Federal anti-poverty program, which Congress enacted three years ago. The loan program is administered by the Farmers Home Administration for the Office of Economic Opportunity.

Low-income rural people, through the local Farmers Home Administration office, may receive loans up to \$3,500 to develop income-producing businesses or to enlarge farming operations. Borrowers may take up to 15 years to repay the loan.

For the first time, according to Jones, people who could never before qualify for loans now can get the money they need to develop or expand a business enterprise or a farming operation. "But in all cases," Jones added, "the enterprise--whether it is farming or business-- must have a reasonable chance of success."

Through the Lamb County Office, loans have been made for such nonfarm enterprises as beauty shop, grocery stores, blacksmith shop, Electric welding shop, filling station, garage, school supply store, trucking operation, hog enterprise and vegetable producer.

Applications for loans are made through the Farmers Home Administration Lamb County Office in Littlefield, Texas.

E. D. McNEESE For Lamb County Sheriff

TO THE CITIZENS AND VOTERS OF LAMB COUNTY, TEXAS:

I am a candidate for Sheriff of Lamb County, Texas, subject to the action of the Democratic Primary, which I am sure that most of you know. I have done my very best to see all of the voters of Lamb County, but because of the large population of the county, it has been impossible for me to get around to see each and every voter of the county, but if I have not seen you, I would appreciate very much your taking this statement as a solicitation for your vote and influence in getting other votes for me in Lamb County.

I am sure that there are people in the county who do not know me, and do not know my background, and because of such fact, I want to tell you something about myself. I am 40 years of age and was born in Lamb County and have been living in Lamb County continuously for 38 years of my life, and I believe that I know the needs of the people of Lamb County as to law enforcement, because I have had some 15 years experience as a peace officer, working 3 years for the City of Littlefield, Texas, and more than 12 years as a Deputy Sheriff of Lamb County, Texas and during such time, I have encountered all situations, I believe, that will confront the next Sheriff of Lamb County, and I sincerely believe that I am qualified, through experience and actual trial as a peace officer, to best serve the people of Lamb County, and to serve them in a way that will be a credit to the Sheriff's office of Lamb County, and I pledge to you that I will do my very best to carry on the activities of the Sheriff's office in such a manner. I am a married man and live with my wife, Joeline, at 717 West 7th Street, Littlefield, Texas, and we have 3 children that were born to our marriage, the oldest child being Douglas, a boy, 20 years of age, who is now serving his country in Viet Nam, Scott, a boy, 14 years of age, who is going to school at Littlefield, Texas, and Pamela Ann, a girl, 13 years of age, who is going to school at Littlefield, Texas.

I believe in helping the youth of the county as much as possible.

I further want to tell you that I believe in law enforcement in the county, and I believe that the law should be enforced to all persons alike, regardless of race, creed or color, and if elected as your Sheriff, that is the way that I intend to carry on the enforcement of the law in Lamb County, and I pledge to you that if elected as your Sheriff, I will be available at any time, either day or night, to serve your needs and give you the fair, just and honest service that you, the people of Lamb County, are entitled to from the Sheriff's office of the county.

I run for office of Sheriff of Lamb County, Texas, knowing very well and thoroughly understanding that the Sheriff's office of Lamb County belongs to the people of Lamb County, and should I be elected as your Sheriff, I will still understand and know that the Sheriff's office of Lamb County belongs to the people of Lamb County, and I am only serving you in that capacity and working as a county officer and a county servant.

You will find my name, E. D. McNeese, on the ballot in the Democratic Primary to be held on May 4, 1968, listed in the column of the candidates for Sheriff, as No. 1 on the ballot, and if you see fit to leave my name on the ballot and vote for me for Sheriff, then I can assure you that no one will appreciate your vote more than I will, and if elected to the Sheriff's office, no one will try harder to serve you in the fair, just and honest way that you are entitled to be served, and will be available for your service at any time, as above stated.

Respectfully submitted,
E. D. McNeese

ATTEND YOUR PRECINCT CONVENTION SATURDAY!

SUPPORT CONNALLY FOR FAVORITE SON!

Next January, for the first time in almost forty years, Texas will have no representation in the top leadership of our nation.

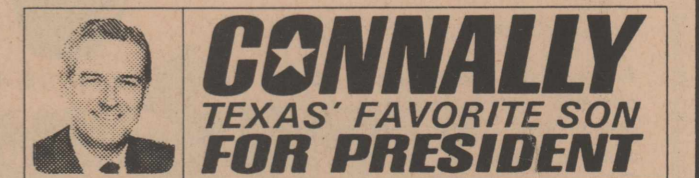

Seldom in recent history have we faced such political uncertainty. Developments just ahead will affect our state for years to come.

If you want Texas to have a strong united voice in the future affairs of our nation, join behind Governor Connally as Favorite Son candidate for the Presidency, and as leader of the delegation to the Democratic National Convention.

As a leader respected throughout the country, he will be an effective, influential voice in shaping the future leadership and policy of the party and the nation.

Be sure to attend your precinct convention, adopt the unit rule, and give your support to Governor John Connally for Favorite Son.

IMPORTANT! YOU MUST VOTE IN THE DEMOCRATIC PRIMARY TO HELP GOVERNOR CONNALLY AT THE PRECINCT CONVENTION!

Bohner's Tour Big Bend Park

Mr. and Mrs. George Bohner and Bohner's niece and her husband, Mr. and Mrs. Bob Poeth of Milton, Pa. recently made a trip to the Big Bend Park.

They describe the basin as being strikingly beautiful during the month of April.

The many varieties of Cacti in bloom and the Ocotillos with their flowers resembling red birds greatly enhance the beauty of the scenery.

The basin is surrounded by mountains and the Rio Grande is so narrow in places that a stone may be thrown across the river from Texas to Boquillas, Mexico.

cream until thoroughly blended. Divide in two parts, wrap and store in refrigerator eight hours or overnight. Roll on well-floured, cloth covered board. Cut in circles and fill with raspberry jam. (A mixture of apricot and pineapple jam is also good.) Bake in preheated oven at 350 degrees until brown.

Important: This pastry is so important it will stick to bread board unless covered with cloth.

ICEBOX CHOCOLATE MAPLE MARVEL

Prepare vanilla wafer crust, 1 1/2 c. powdered sugar
1/2 c. butter
3 eggs
1 1/2 oz. unsweetened chocolate
1 1/2 c. heavy cream
1/2 c. maple syrup
5 oz. miniature marshmallows
2/3 c. chopped nuts

Everything But The Kitchen Sink

BY MOZELLE TROTTER

If the audience of the May 25th production of "Arsenic and Old Lace" gets half the fun from the performance that the cast is having in getting it ready, it'll be worth the price of your ticket!

So far, we're only on the first act - reckon we'll make it by May 25th?

Bear in mind I'm speaking of the other members of the cast when I cast these laurels - I'm not bragging on myself - MUCH.

The Baseball Association is the sponsoring organization of the play. They're doing it to raise money, of course - money needed for little boys to play baseball in the summer. Your little boy - or yours - or yours.

So far, and there'll be others, there have been 105 Pee Wee and Little League players signed up - Babe Ruth rosters are not complete so that doesn't include 13, 14 or 15 year olds. That's a lot of little boys who'll have a lot of fun because someone is willing to work.

One of the hardest workers is the director, Ruth Holladay. You all know how many of her little "boys" get to take advantage of the program. (Just in case you don't know, her little boys happen to be four daughters.)

Of the 11 characters in the

first act, only four have sons in the baseball program this year.

Billie Norfleet and I play the sweet-little-old-maiden ladies, Martha and Abby Brewster, who are always doing good, huh?

We have three nephews. Percy Parsons is Jonathan - he's the one we don't ever talk about. Harold Dean Carson is Teddy - dear Teddy - he thinks he's Teddy Roosevelt and we're so happy he's happy being Mr. Roosevelt. Then there's Earl Spruiell - Mortimer. Well, Mortimer's got a fine job with a New York newspaper - only he does seem to worry about Martha and I a bit too much.

Elmer Moore is our Episcopal minister and his daughter, Elaine - Gloria LeVeque - is the girl our Mortimer takes to the theater.

Bill Kemp is Jonathan's friend, Dr. Einstein, a talented (?) plastic surgeon. Eddie Miller and Delmer Givens are our friendly policemen. Dr. Johns is Mr. Gibbs, a lonely old gentleman who comes to rent our spare room.

So you see, there are people working hard on this project who do not have children participating in the program. We hope you're making plans now to come out May 25th and see us.

ALL DRESSED UP for a birthday party honoring Miss Sherri Smith, who is four years old are Sherri and her friends. Pictured left to right are Tanya Kimbrough, daughter of Mr. and Mrs. Gary Kimbrough; Christi Thomas, daughter of Mr. and Mrs. Sammy Thomas; the honoree, Sherri, daughter of Mr. and Mrs. Jerry Smith; and Shelll Spruiell, daughter of Mr. and Mrs. Earl Spruiell.

Cards Of Thanks

We would like to express our appreciation for all the kindness shown during the illness and death of our loved one. For the nice food, cards, flowers and memorials we say thank you from the bottom of our hearts, May the Lord bless each of you.

The family of Mrs. G. A. Bodkin

We would like to say a sincere "Thank You" to everyone who showed so much concern while Sherilyn was in the hospital. We certainly did appreciate all the phone calls, cards and visits. At times like this it is so good to live in a community where everyone is so concerned and thoughtful.

Thank you, Mack, Gayland and Sherilyn McGill

I would like to thank everyone for their gifts or donations for the Julius Sheffield family after their home burned. You were so good, Frances Brown

Cubs And Webeloes Race Pinewood Cars, Rockets

The Cub Scouts held their annual Pinewood Derby recently in the Junior High School gymnasium. The Webeloes raced raced space rockets.

Thirty-five Cub Scouts entered miniature cars which they, aided by their fathers, carved from pine wood. The cars could not weigh over five ounces, be wider than 2 3/4 inches or longer than 7 3/8 inches.

The cars were raced two at a time along wires down a slanted board 32 feet long.

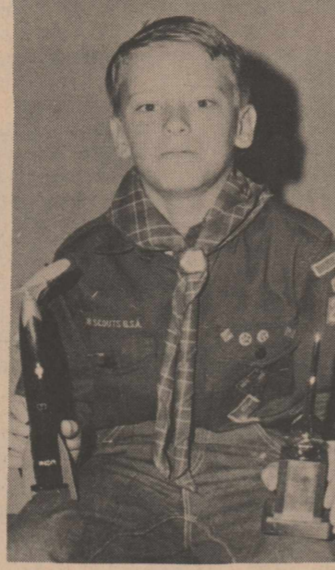

Shannon Thomas won first in the derby, Rodney Smith won second, Mark McFadden won

third and Gil Cagle won fourth. John Huguley won the award for having the car with the most carving.

Nine Webeloes entered the space rocket contest. The rockets were carved from wood and had propellers. Mark Kennedy won first in this derby, Daryl Bley second, Pat Britton third and Daryl Clark fourth.

JOHN HUGULEY, son of Mr. and Mrs. A. G. Huguley is shown here with his prize winning car which he raced in the Pinewood Derby. His car was judged the "Best looking".

MARK KENNEDY, son of Mr. and Mrs. Lester O. Kennedy, is shown with his rocket and the trophy he won for fastest rocket at the Webeloes Space Derby Thursday night.

THE WINNERS OF PINEWOOD DERBY--Gil Cagle placed fourth, Mark McFadden, third; Rodney Smith, second; and Shannon Thomas first.

Do Your Part To Fight Crime

Lawlessness is one of the major problems facing our nation today. The Supreme Court of The United States by its recent rulings has placed more technical requirements on law enforcement officers than ever before. Errors made at the time of arrest or in obtaining evidence in a proper manner can make it almost impossible to get a conviction which will stand up. It is imperative that the Sheriff be well educated and properly trained to meet this challenge. STILWELL RUSSELL meets

THIS requirement, and MORE. He studied law at Texas Tech and has taught courses in government in high school. In addition, he pledges a continuing program of training for himself and all deputies in F.B.I. schools and Texas Department of Public Safety schools.

A major portion of the crimes committed are by young people, twenty years old and younger. Yet most of these young people, if properly handled can become useful citizens. This is a job for men especially trained in working with this age group. STILWELL RUSSELL meets THIS requirement, and MORE. He taught vocational agriculture for seven years working primarily with teen-age boys. He was a high school principal working with both boys and girls both as principal and counselor. He has completed courses above the Masters level in these fields at Texas Tech. In addition, he and Mrs. Russell have reared and education four children of their own.

A major part of the Sheriff's job is one of administration. The sheriff must be able to meet and deal effectively with the public. He must be experienced in selecting and hiring those who work under him. He must be able to give direction with authority and delegate responsibility with confidence. STILWELL RUSSELL meets THIS requirement, and MORE. As high school principal and as coordinator of Lamb County Vocational School he had as many as seventeen people working under his direction at one time.

The sheriff of Lamb County should be a servant of all the people regardless of who they are or where they live. STILWELL RUSSELL will be just that kind of sheriff.

A vote for STILWELL RUSSELL is a vote for honest, fearless, impartial enforcement of the law.

A vote for STILWELL RUSSELL is a vote for the protection of your homes, property, and families.

Cast your vote for STILWELL RUSSELL for sheriff of Lamb County in the Democratic Primary, May 4.

MRS. T. H. ASHCRAFT

Spotlight On Senior Citizens

One Of These Days

When Galveston Island was hit by the devastating flood in 1900, Mary Capp Ashcraft was only nine months old. She has heard her family speak of it so often that it almost seems that she remembers it.

She was born Dec. 19, 1899 at Lillian, which no longer exists. Her grandfather owned a small estate on Galveston Island but the family left after the flood and he never returned.

Mary, her six brothers and sisters (she was the middle child) and her parents, Alexander and Delia Capp moved to Tarrant County near Mansfield. Her father was a farmer. The family moved "way out west" to Lakeview in Hall County when Mary was six or seven. She recalls that all her father's family made the move, too.

The families possessions were moved by covered wagons. The other members of the families made the move by train. "We had the best time," she recalls. "We sang most of the way - songs like 'Barbara Allen'. And we sang 'Auld Lang Syne'."

There were no fences at the time, just pasture land for miles and miles.

When she was six or seven, Mary's mother died. Her father remarried when she was nine.

Mary's step-mother was a Georgia cousin to a very close friend of her father's. The two corresponded and fell in love. After her father's death several years later, the step-mother returned to her people in Georgia. She is still living although Mary has not seen her since her father's death. For three years the family lived atop a hill overlooking White Rock Lake near Dallas. They returned to Hall County in 1919.

Mrs. Ashcraft has always loved to read. "I read every book I could borrow," she remembers. The small school had a very limited number of books so she borrowed books from neighbors.

"I borrowed quite a few from a neighbor who was a Methodist preacher," she remembers.

She had to walk to school but the walk was not a long one since the family loved only a half mile from school.

Another memory of early school days, was the friendly competition with a friend to see which one got to write on the blackboard for Mrs. English, their teacher.

One of Mary's sisters was often asked to play the organ or piano at churches. She was playing the organ in a revival at a small church in Smith County when Mary met Thomas Holloway Ashcraft.

The Capp family attended church services that Sunday in 1918 and were invited to eat dinner with Ashcraft's sister. Thomas Ashcraft lived with his sister.

"I never dreamed that one day I'd marry him," she says. They began to "keep company" a couple of years later. They were married July 28, 1923.

Mary Ashcraft and her family have always been active in church. She has taught Sunday School for primary, junior, young people and adult groups through the years.

"I've taught children's children," she says of her Sunday School teaching spanning two generations.

"Some of my fondest memories are of church," she adds. When she and her husband were dating, most of their dates were for church services, singings or Wednesday night prayer meetings.

"Before we married, I lived seven and a half miles from the little church we went to. Thomas would come after me in a buggy. Sometimes we even went by horseback. Then we'd meet at the church."

The little church - Leslie - still holds services. Mrs. Ashcraft recently had a letter from an old friend in Hall County who still attends the little church. Only a few of the longtime members still attend the little church.

Mary and Thomas Ashcraft had only one child, a daughter, Mrs. Jimmie (Uleta) Jenkins. After Uleta started to school, Mrs. Ashcraft had an excess of time. She helped her husband in the fields.

"I've done just about everything on a farm. I always enjoyed it."

Uleta started to school at the same small country school where her mother had gone. When she left home for college, she was very homesick but her parents were just as lonely.

"I didn't let on to Uleta that I felt that way but when we got home from taking her to college, I lay down on the bed and cried and cried and cried."

She remembers that her husband said, "Well, let's go get her and bring her home."

"Oh, we can't do her that way," I told him. "We've got to let her go."

Mr. and Mrs. Ashcraft moved to Olton in 1957. Ashcraft worked with his son-in-law, Jimmie Jenkins, at the Olton Paint and Body Shop until his death in Nov. 1962.

Mary Ashcraft has always been a busy person. Sometime ago she was told by a doctor to "slow down - rest some." That was when she began to keep up with the daytime serials on television.

"But if I were writing those programs, I'd change a few things," she adds.

Being a person who must have something to do, Mary Ashcraft helps care for her daughter's home and her three active grandsons, Thomas Henry, Jerry and John Ben.

"I do think I'll retire one of these days," she says. But the busy woman who's husband used to accuse, "You just hunt for something to do," isn't in any hurry to name the day.

FFA District Meet Held Wednesday

Gary Dickenson, son of Mr. and Mrs. W. B. Dickenson Jr. won first in public speaking at the District Future Farmers meeting held Wednesday in Olton.

He will represent the Plainview District at the Area 1 Convention in Lubbock May 11. Should he win in Area competition, he will compete at the State FFA convention later this summer.

Others who placed in the District meet were Keith Norrell of Floydada, second; Kelly Cannon of Hale Center, third; Bryce Finck of Tulia, fourth and Hale Brockman of Nazareth, fifth.

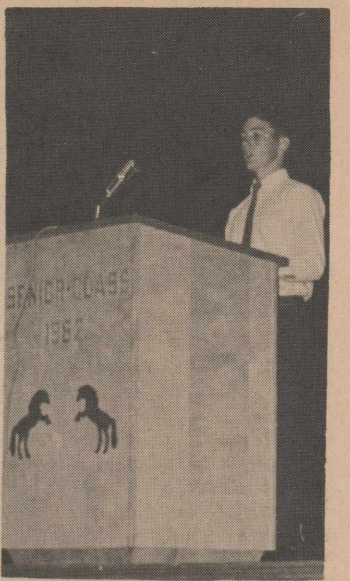

Wickey Culp of Happy is a candidate for an Area 1 office. Plainview District winners who will compete for the same honor in Area 1 were Star Greenhand, Steve Goree of Plainview; Star Chapter Farmer, Johnny Hillman of Plainview; and District Star Lone Star Farmer, Bryce Finck of Tulia.

Ted Wheeler and Danny Sides are candidates for Lone Star Farmer awards, Plainview District has 25 candidates for the award.

Area 1 is entitled to 90 Lone Star Farmer awards, 107 candidates have applied.

Representing the Plainview District at the Area 1 Convention as a candidate for scholarships from Tenneco Chemicals, Texas Veterinary Medical Association and Houston Livestock Show and Rodeo will be Mike Trotter.

Bryce Finck of Tulia is a State Officer nominee from the

GARY DICKENSON

Plainview District. He has completed four years in Future Farmers, serving as chapter and district president.

Finck has been named Star Greenhand, Star Chapter Farmer, and awards in livestock farming, dairy farming and public speaking. He believes "that the youth in the field of agriculture should train to feed not only the hunger but the very thoughts of mankind."

"700 acres of PIONEER sorghum averaged 8,568 pounds for me."

Elvin Wilson, Friona, Texas

Many of last year's bumper yields came from small acreages. But Elvin Wilson had 735 acres—all Pioneer hybrid 820—that averaged 8,568 pounds per acre.

Good weather, good farming and good seed boosted Elvin's yields. He double rowed on a 40' bed, watered four times in addition to pre-watering, controlled weeds with Propazine, and put on 280 pounds of nitrogen.

Hybrid 820 makes the most of his good farming—shades the ground fast, produces big yields, stands right up to harvest. Isn't this the kind of sorghum you want, too? See me soon.

BY SANDEE GREGORY AND JANE ANN DUNCAN

A sparkling water fountain tall white roman pillars dressed in the greenery of ivy, and white candles with white angel's hair swirled around them, was the setting of the romantic "Roman Holidays" Junior-Senior Banquet Saturday April 27.

for that was the last banquet for them in OHS.

Thank you Juniors and Junior sponsors, Miss Sandra Meadows and Buddy Brock for a lovely banquet!

Music filled the air in the annual Spring Choir Concert held in the school auditorium Friday, May 26.

The Sweepstakes Choir sang various songs ranging from "Roll, Jordan Roll" to "You'll Never Walk Alone." The final and most heart thrilling song was the School Song.

Another excellent choir concert over and many more will be anxiously awaited.

DON'T FORGET!!! All teachers and parents are invited to the FTA Salad Supper next Monday night at 7:30 in the cafeteria.

YEA SENIORS!!! Only 15 more week days until graduation. Or we could say 360 more hours, 21600 more minutes, or 1296000 more seconds. Isn't it just great!!!!

The FHA left at 7:30 a. m.

Thursday, April 19, at Lubbock to attend the State Convention. Those going were Connie Hulsey, Kathy May, Barbara Aigaki, Dana Daughtrey, Betty Long, Jeanie Gardner, Jan Carson, and sponsors, Miss Hamilton and Mrs. Sorley.

Friday, the 20th, was spent at the Austin Municipal Auditorium for various welcoming speeches and programs. Friday afternoon the State Degree Awards were given to 402 girls. Friday night was talent night. Saturday's meeting was mostly business and the installation of officers. We returned to Lubbock at 8 p. m. Saturday night. All had an enjoyable time.

WHO'S WHO

Shirley J. - A haircut???? Johnny L. - In front of all those grown-ups????

March . . . March . . . Does the Physics class have a secret??

Who likes research papers???? Seniors, what were in those boxes you so very carefully handled last Tuesday????

Hugo - So you are Dutch-speaking people!!! Green Dress and WHITE hair!!! Who ???

Who put the soap in the fountain???? Shame!!! Bobby Turner now sings, "I will follow the steps of DADDY."

And now the faculty shall give their responses!!! What was there to cry about -- Glenda!!!! It couldn't have been the bathing suit!!!! Mumps anyone????

ALL FOR FUN

Mother was getting ready to go out, leaving the baby-sitter

in charge.

"Now, Patrick, you behave yourself while Daddy and I are gone," she warned.

Patrick replied, "I'll be good for a nickel, Mummy." Mummy: "Why don't you be more like your Daddy? I don't have to give him a nickel to be good."

Patrick: "Oh, who wants to be like Daddy? He's good for nothing."

Mrs. Miller: "Come, now. Define capital for us."

Joe Dale, after thinking it over: "Well, capital's the money the other fellow has."

Mrs. Miller: "Good! Now what's labor?"

Joe Dale, brightly: "Trying to get any of it away from him."

Soph: "Good heavens, get me a shovel quick! George is stuck in the mud up to his shoelaces!"

Senior: "His shoelaces! Why doesn't he just walk out, then?"

Soph: "Stop arguing, He went in head first."

No one is truly literate who cannot read his own heart.

In the photo below are Glynna Gragg, most improved bowler and Nora Lee Martin, high series, high average and high game winner.

CANDIDATE FOR LAMB CO. SHERIFF

W. A. HATFIELD

Your vote for W. A. Hatfield will be a vote for good Law enforcement in Lamb County.

Although Mr. Hatfield may have missed seeing some of the Citizens, he would like for everyone to know he would like to talk to each one individually, but this is impossible. Mr. Hatfield is interested in the problems and welfare of all Citizens of all ages.

He will be a full time, hard working sheriff and will be equally fair to all the Citizens of the County. He needs and wants the job and will enforce the law in Lamb County and is backed by law abiding Citizens and not by any political machine. He has proven his ability to enforce the Law and a vote for W. A. Hatfield for the office of Sheriff of Lamb County on May 4th, 1968, will be a vote for dedicated law enforcement. Your vote and your support will be greatly appreciated.

(Pol. Adv. paid for by the Citizens for good Law enforcement.)

FRECKLED BANANAS

When bananas are covered with little brown spots, they are ready for mashing and mixing into puddings, breads and cakes. To hold ripened bananas a few days, refrigerate them, suggests Extension foods and nutrition specialists at Texas A&M University. But be sure to wrap them tightly in a plastic bag to prevent their odor from spreading. Their skins will turn brown but the inside will stay the same for a few days. Keep unripe bananas at room temperature until they ripen the way you like them.

Housewives Alert Shopping Stretches Food Dollars

Food prices are like the weather - everyone talks about them. The important difference is that with food prices you can do something about them, reminds Gwendolyn Clyatt, Extension consumer marketing specialist.

You can't change the price but you can receive more for your money if you make wise choices.

With careful planning and shopping you can stretch your food dollar. Resolve to keep alert to what your market is featuring by watching food ads. Plan your menus to include as many "specials" as possible, suggests the Texas A&M University specialist.

Try to remember the regular prices so you'll know if the special is really a good value. Buy good values in quantity if you can use them and if storage space allows.

Make a shopping list, and remember to take it with you. This helps cut down on impulse buying, says Mrs. Clyatt.

Take the time to shop around in your favorite store. Every week there are new and different food items from which you can choose. Take some just window shopping time to look around for them.

Figure the "real" cost and not just the price per unit. The cost per pound or unit of any item is often misleading if you do not check the number of servings, according to Mrs. Clyatt. The cost per serving is the true measure of cost.

For example, meat which has a large amount of bone at a lower price per pound will often cost more per serving than boneless meat that sells for a higher price per pound.

When selecting convenience foods, consider time and cost. Some cost the same or slightly more while some cost less than those with no convenience built in, she adds.

FROZEN FOODS
Shop carefully for high quality frozen foods. If you squeeze the packages of frozen vegetables gently and they crunch to your touch, it means there's icy frost. This indicates the package may have been defrosted and refrozen, says Extension foods and nutrition specialist at Texas A&M University. Quality can't survive that kind of treatment. If you open the package and find the vegetables discolored, you'll know that's exactly what happened.

Joint Waterway Is Completed

W. T. Hall Jr. and John Speck Jr. have just completed construction of a grassed water way on their farms on the Running Water Draw seven miles north and two miles west of Olton.

This joint water way will carry run off water from terrace systems to be constructed on both farms and outside water from the road safely to the bottom of the Draw. At this point on the Draw the difference in elevation between the top and the bottom of the Draw is about 43 feet.

Hall became a cooperator with the Lamb County Soil and Water Conservation District in July 1967. Patrick Rice of Littlefield, Soil Conservationist with the Soil Conservation Service, assisted Hall in developing a conservation plan on his farm. Hall plans to construct parallel terraces and install a sprinkler system and underground pipeline.

Speck became a cooperator

GRASSED WATER WAY just completed on the W. T. Hall Jr. and John Speck Jr. farms. Both farmers are members of the Lamb County Soil and Water Conservation District.

with the Lamb County SWCD in January of 1968 on this unit and plans to establish grass on about 40 acres this year, in addition to this he has already constructed a diversion and another grassed water way.

He plans to construct parallel terraces and install a sprinkler system to irrigate the terraced cropland and the grassland. Rice also assisted Speck in developing his conservation plan.

IN A RACE
Texas agriculture is in the midst of a fast, accelerating technological race, says W. E. Black, Extension economist. New knowledge and skills are being applied daily to crop and livestock production by producers who assume that prevailing economic conditions and market relationships will not change. But, he adds, changes are coming fast and economic and market relations are not exempt.

OPPORTUNITY
Hay supplies were tight at the end of the current winter season and now is the time to make sure the same situation doesn't happen again. The favorable statewide soil moisture situation, points out Neal Pratt, Extension agronomist, gives hay producers an opportunity to make large tonnages of high quality hay this year. He suggests starting with a soil test; fertilizing according to the test recommendations and harvesting at the right growth stage.

COTTON IS USED MORE than any other fiber in producing fabrics of all textures and weights.

Underground Wiring Practical On Farms

Underground electrical circuits to farm buildings, light posts and other equipment, eliminates the possibility of wires coming down in wind or ice storms. Too, says W. S. Allen, Extension agricultural engineer at Texas A&M University, other advantages are a neater appearing farmstead, fewer clearance problems and safety.

The types of wires and cables used for underground installation are likely to cost more per foot than those used for overhead construction, Allen points out. On the other hand, labor costs should be less if farm labor and equipment is used to plow out the trenches.

Cables intended for interior wiring should never be used for underground circuits, Allen

continues. There are two plastic covered cables approved for direct burial. Type USE is available in single-conductor and three-conductor types. When used above the ground or for interior wiring it must be protected by conduit. Type UF cable is available in two and three-conductor cables and is also approved for direct burial.

Underground cables should be buried deep enough to avoid the risk of being contacted by any farm implement such as a plow or cultivator, he suggests. Where these buried cables may be run over by heavy loads, a board laid over the cable before the trench is backfilled will help distribute the weight above the cable.

Since replacement of buried cables is difficult, the size of conductors should be carefully planned so that replacement due to inadequacy will be unlikely, the engineer points out. Determination of wire sizes follows the same basic steps as for overhead installation.

Mr. and Mrs. D. B. Adair had as guests during the weekend their grandson, Steve Adair, son of Mr. and Mrs. James Adair of Littlefield. Other guests of Mr. and Mrs. Adair during the weekend were Mrs. Adair's brothers, Chester McPeak of Plainview and Clifford McPeak of Petersburg who was enroute to the Veterans Hospital at Albuquerque, N. M.

Paso Lamb Co. Meeting Slated

Officials of the Mexican-American organization, Paso Lamb County announced here that the group will have a meeting at Parientes Cafe at 8:30 p. m. Thursday, May 2.

The year 1968 is the year of the big change in Texas. The balance of Political power is in the hands of the Mexican American. We constitute almost 30 per cent of the total population in Texas, yet, our educational level is the lowest, we are at the bottom in per capita income. Most of the opportunities of affluent American have passed us by. Now, this year we can move into the drivers seat --- to do this, we must be well organized and well coordinated throughout the state. It is for this reason that we sincerely ask your cooperation and we pledge to you our fullest support. Whatever our difference, our common effort for "La Raza" is the same, therefore let us unite arm in arm in the spirit of "La Marcha" and create the greatest political change in the history of Texas. (Pd. by Organization, Margarita Garcia, pres.)

PARI-MUTUEL BETTING AND LIQUOR-BY-THE-DRINK

IT'S A FACT ABOUT PARI-MUTUEL BETTING:

★ For Every \$1 the State receives in revenue from legalized gambling, the underworld gets more than \$2.50.

★ Legalized, cleanly-run gambling will open the door to underworld gambling. Syndicated gambling never has entered a state that does not have legalized gambling.

★ Such betting siphons money from small communities around a track town and has been known to decrease sales up to 50% during track season.

★ So-called "family entertainment" provided by horse racing promotes family tragedy through pari-mutuel betting.

IT'S A FACT ABOUT LIQUOR-BY-THE-DRINK:

★ If Texas legalizes Liquor by-the-drink we can expect the number of alcoholics in Texas to increase by one-third.

★ Texas can expect 673 additional highway deaths each year if liquor-by-the-drink is legalized.

★ If Texas legalizes liquor-by-the-drink per capita consumption of alcohol will increase by 80%.

★ For every dollar of revenue brought in by alcohol in 1964, Washington State paid out eleven dollars as a direct result of alcohol. Other states have stated that they were not far behind.
