

THE DEVIL'S RIVER NEWS

VOLUME XXXVII

SONORA, SUTTON COUNTY, TEXAS, FRIDAY, SEPTEMBER 14, 1928

NUMBER 46.

GIRL FORGERER RELEASED FROM JAIL BY CITIZENS

A young woman, giving her name as May Blake, about twenty-five years of age, after being arrested and placed in the county bastille, was released before justice court Tuesday morning. The young woman was granted her liberty provided she would make a check in the sum of ten dollars good and pay other expenses which totalled about twenty-five dollars.

The woman was in company with a dozen other women and a man here the latter part of last week. She made inquiries at the First National Bank about Dr. Lyle L. Baker. After getting the desired information, she had Dr. Baker write a prescription. The doctor did not sign his initials to the slip and the girl became familiar with the hand writing she thought, and proceeded to forge a check on him in the sum of ten dollars. She carried the check to the Vander Stucken store, made a small purchase and had the clerk cash the check.

The check was deposited early the next morning and was detected by Cashier Geo. H. Neill. Deputy Sheriff Cook was notified and immediately found her direction of travel.

Sheriff Cook followed her trail to Ozona, Sheffield, Iraan, McCamey, Big Lake and on to San Angelo. In San Angelo he recognized one of the girls and held the others until Lawrence Grimland, who cashed the check for her, was called to identify the law breaker. The girl was then brought here and was identified by several here as the right party.

She was traveling in company with several other young women and a man supposed to have been selling magazines.

Sonora citizens and business men donated the required amount of money to secure liberty for her.

Mr. and Mrs. Eddie Mayer and children returned Sunday from a several week's visit in Colorado.

Many Lions Were Present Monday

The Sonora Lions, instead of weakening, are growing stronger every day. Monday, at the Rutledge Cafe, at a regular meeting of the club, one of the largest number of Lions ever to assemble in Sonora, was present.

Mayor Dunklin was called upon to tell about the street paving in Sonora, and said that the contract would be let at an early date for the hard surfacing of four blocks of Sonora's main thoroughfares. Bids were opened Tuesday morning.

Dudley Westbrook, local manager of the West Texas Utilities, was asked to tell the Lions what he thought of Sonora. Mr. Westbrook made the statement that the superintendent of the Utilities remarked to him that Sonora was the best little town in West Texas. Upon this faith, the Utilities constructed adequate buildings and equipment here for a town of five thousand people and are looking forward to see this come true within a few years. Mr. Westbrook also stated that he found in Sonora the best people he had ever met and was well pleased with Sonora and this county.

A committee was appointed to finance an electric sign to cost several hundred dollars. This sign will bear these words: "Welcome to Sonora, the capital of the Stockman's Paradise."

O. G. Babcock, who is stationed here and employed by the Bureau of Entomology, told of the need of more school equipment. "Our schools should come first," he said.

GIRLS LEAVING FOR SCHOOL

Misses Bernice Stokes, Ailee and Nann Karnes leave tomorrow for Nashville, Tenn. for school. Miss Stokes will enter Ward Bellmont, a school for girls and the Misses Karnes will attend Vanderbilt at the same place.

DUMAS—350 head of yearling steers were sold here to be delivered to the purchasers by September 15.

HOLMAN WELL SHUT DOWN FOR AN ELEVATOR

Phillips Petroleum Holman No. 1, section 25, G. C. & S. F. Ry. survey, 300 feet west of the Edwards County line, is shut down awaiting an elevator, according to driller Brady who is in charge of operations.

About 80 feet of oil sand was penetrated with a small showing of gas, but not of sufficient quantities to cause any alarm. One paper had printed reports that the well had bailed oil and sufficient gas to run an engine, but Mr. Brady says that this is not true.

Contract calls for a 6,000 foot hole, and this depth will be drilled, Mr. Brady said.

Accept Street Paving Bids Tomorrow

Bids on four blocks of hard surfacing of Sonora's streets will be accepted tomorrow, according to Mayor Dunklin. Several bids have been received to date, he said, but final action will be taken tomorrow by the city commission.

Estimates, plans and specifications have been furnished the city by Mr. George, San Angelo Engineer.

The State Highway, now hard surfacing forty miles of highway in this county, will pave a portion of the streets in Sonora.

Sonora Woman's Club Will Open October 4

The Sonora Woman's Club will open October 4th for the beginning of this year's work. A Federation program will be in charge of Mrs. Sterling Baker, Alvis Johnson and Miss Estelle McDonald.

Hosts for the afternoon are Mrs. Chas Evans, Mrs. L. W. Elliott, and Mrs. Joseph Vander Stucken. The hosts for that afternoon will serve the club for the entire year as program committee.

SONORA MOTOR CO. BANQUETED BY GOODYEAR

A contest between various dealers in the Dallas division of the Goodyear Tire and Rubber Company of which the Sonora Motor Company is included in this division was closed last week with a record number of sales hung up by several dealers.

The Sonora Motor Company won in its division or team over several West Texas towns with a percentage of over 390 which ranked almost as high point team in Texas. Through consistent newspaper advertising and the ability of the Sonora Motor Company force to sell tires this firm scored a high percentage in each of the nine frames. After winning the fifth inning in the contest Mr. Hull was presented with a league baseball autographed by the mighty bambino—George Herman (Babe) Ruth himself.

To show their appreciation for the effort shown by the Sonora Motor Company, the Goodyear people banqueted the entire force of the Sonora Motor Company last Thursday night in the H. P. Cooper pasture two miles from town. The writer was present for this occasion, and can truthfully say that it was one of the most enjoyable feasts ever had.

B. M. Halbert & Son, breeders of registered Angoras, furnished two chevron and they were barbecued by that chef de luxe, Alberta Chavis. The meat was cooked "just as the doctor ordered," and was almost devoured before the crowd knew it.

Everybody was talking Goodyear tires and eating chevron and had a wonderful time. Those present for this occasion were:

R. E. Rain, manager of the Goodyear branch at Dallas; H. V. DeWitt and Harold Pavey both of Dallas; J. E. English, Goodyear dealer, Dallas; R. H. Richey, San Angelo, salesman for the Goodyear; S. R. Hull and Fred Hull, heads of the Sonora Motor Company; Chas. Hull, a junior partner of the firm; L. M. Rouche and O. C. Ogden, master mechanics; R. W. Drennan, the boy who paints

Benson Sells \$325,000 Worth of Livestock

During the past few days T. L. Benson, livestock commission dealer, has sold \$325,000 worth of livestock as follows:

For Hollis Nutt, 1800 yearling ewes to Joe Davidson; for Lee Aldwell to Joe Davidson, 1650 ewes at \$12 per head for immediate delivery; 2500 ewe lambs for Sid Slaughter to R. A. Halbert at \$9 per head; for A. F. Clarkson to Claude Linthicum, 300 head of heifers at \$57.50; 100 head of cows and calves for Ross and Lake to Gus Featherstone; 40 bucks to J. W. Wilson for J. P. Green; 10 bucks to J. H. Edwards, Midland for J. P. Green; for P. F. Sullivan to R. A. Halbert, 600 ewe lambs at \$7.50; for W. J. and John Fields, 1100 kids out of the hair to C. C. York at \$4.50; for J. T. Shurley to Baugh Bros., 1100 cows and calves at \$95; to northern feeder buyers: for Sam Karnes 800 wether lambs, for Pat-jerson and Rieck, Roosevelt, 1200 wether lambs, for Willis Burk, Mertzon, 2,000 wether lambs, for Mike Friend, 350 ewe lambs, for Ira Green, 150 wether lambs for John Treadwell, Menard, 1450 one and two-year-old wethers at \$6.85, for different parties above mentioned, 2,000 mixed calves, steer calves, one and two-year-old steers.

SWEETWATER—Sweetwater will mark her name on buildings with arrows pointing north and to the nearest airport for the forthcoming air races.

PLINVIEW—A city airport is being planned by the Board of City Development.

the Fords; J. C. Stephen, parts man; Jim Decker and Frank James, vulcanizing and front; L. A. Merriman and Willie Farris; Frank Mitchell, the handy son of Ham; Buster Halbert, who donated the chevron; H. P. Cooper, ranchman; J. C. Stevens, agent for the Magnolia Oil Company of San Angelo; Mr. Hudson of Del Rio; Perry Ory, another valuable employee, and M. A. Wilson, editor of The News.

HONOR GRADUATE SONORA SCHOOL BURIED SUNDAY

Weyman Williamson, 16, honor graduate of the Sonora High School and star football player, died Saturday evening at six o'clock at Scott and White Hospital in Temple from the effects of an injured knee which developed blood poison.

Young Williamson sustained a bruised knee several days ago when assisting his father during a fire which destroyed one of their ranch barns. Some pain was caused from the bruise and he was carried to Menard for medical attention. No signs of improvement were shown and was accompanied to Temple by his father and mother, Mr. and Mrs. W. W. Williamson, former ranch people of this county for thirty-two years. He was operated upon Thursday evening and died Saturday evening at six o'clock.

The body was brought to Menard where funeral services were held in the Methodist Church of that place. The Rev. Bickley, pastor of the Methodist Church of Brady and the Presbyterian pastor there had charge of funeral services.

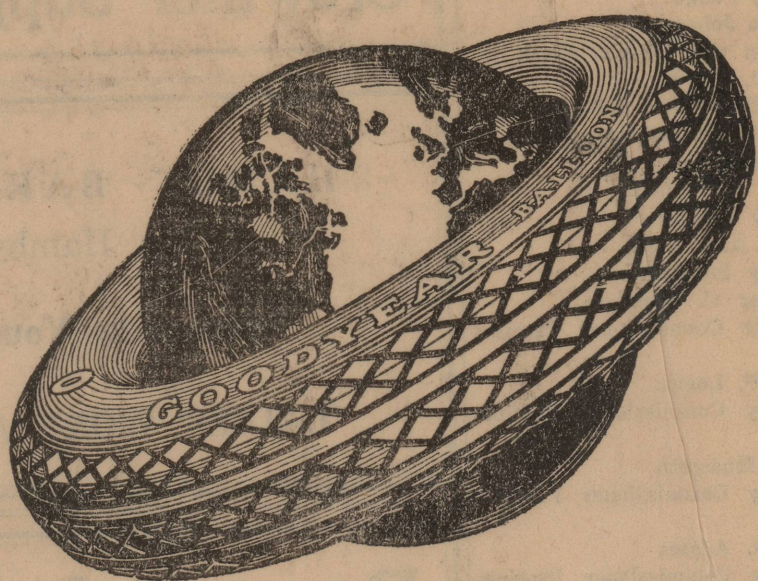

Young Williamson, a bud which was blooming forth in manhood was called by death angel and now rests in that celestial home above where the highest of Kings rules this earth. No sorrow, no pain, no troubles to worry him now. He sleeps above the clouds.

Weyman was one of the brightest boys in the county. He was honor graduate of the '28 Senior Class of the Sonora High School. He held a berth on the regular football eleven and at many times starred for his team.

A Christian young gentleman in every respect, and was loved by all who knew him. He had been a member of the Methodist Church since a child of eight years.

Misses Nann Karnes and Archer, Messrs. Alvin Hollmig and John McClelland, friends and school mates of the deceased, were present for the funeral.

GOODYEAR

This Is The World's Greatest Tire--And Here Are The Reasons WHY

Any commodity, especially in a highly competitive line, to be acknowledged "the world's greatest" has got to show some mighty good reasons for this eminence.

The Goodyear is "The World's Greatest Tire" because it wears smoothly—runs farther—looks better.

These are not generalities. They are hard facts—facts that millions of car owners the world over know. They are facts that are proved on the road.

Why Do More People Buy Goodyear Tires Than Any Other Kind?

U. S. CAPITOL

* * * * *

By William P. Helm, Jr.
Washington Correspondent of The News.

Washington, Sept. 13—The most spectacular development in more than 50 years, this occurring today South of the Mason Dixon line. Two generations have never seen its like. Men who have grown grey in Dixie can remember it among their earliest and latest recollections as "the solid South." Not so today.

The South is changing. It is today the chief battleground for the Presidency. Smith is going into the South for votes where no Democratic standard bearer has tread for many a long and weary year. His running mate, himself a Southern man, has just completed a swing through the Southern States. He didn't go because he likes the Democracy's staunchest followers, the age-old adherents to the cause who have needed no bolstering since the days of reconstruction.

Curtis swings Southward. Hoover is due to make one of his six campaign addresses down in Tennessee. What does it all mean, this tramping of the high command across the fields of cotton?

It means that the Old South is a New South. It means that it is stirred in this year of grace as it has not been stirred since the day of the carthaginian. It means that Dame Democracy is cleaning house. It means that the South is eventually—and fairly soon—coming in to a place of power and importance in the high councils of State, no matter whether Smith or Hoover wins, because the South is doubtful.

And doubting! The Southern colonels are sweating blood today. The Southern ladies—how their hearts are wrung. No need to hark back to the call of the forefathers, for the forefathers, sleeping now in their resting place, would be in troubled waters themselves were they alive in 1928.

Tammany! Liquor! The negro! Religion! The Klan! Here are five ingredients stirred in the Southern apothecary shop to make a bitter potion for the South to swallow. Take the tiger first.

Tammany is not beloved of the Southland. They remember the days of Cleveland, Tilden, Wilson. Yet the Southern States have been aligned with Tammany so long that the memory of man runs not to the contrary. If Tammany were the only issue, the South could forgive and forget. Forgive the knife and be friends again.

Liquor! There's a hard knot to unravel. Not that our Southern gentlemen and ladies scorn the convivial glass. But the men and women of the South have memories of days when "nigger gin" left its trail of blood and crime. They shudder at its return. One cannot tell them it is an imaginary danger. Or rather, one cannot convince all of them that it is an ordinary danger. They want no possible return, no lowering of the prohibition bars.

The negro! or generations the politicians have raised a black face as a spectre. Three years out of every four and nine months of that missing fourth year, the negro is a good servant in the South. Bless him, how could the South get along without him? Faithful, child-like, warm-hearted, he lives in peace and respect where the cotton blooms and the mellons grow and the persimmon trees are frequent. Now and then some errant rascal of his race sets a spark of powder, but in the main the South takes the negro to its heart, overlooks his delinquencies, likes him for his many goodnesses.

Then comes a presidential campaign, and presto! All that is changed. Because, some 50 years ago, a set of scoundrels enthroned the black above the white in a bleeding nation, the South still fears the negro. But now it is beginning to shed that fear. It has always linked the negro with the Republican party. Now it is beginning to look into the black and tan dance halls licensed by a Tammany machine where white women of the lower class hold revel with black and mulatto boys. It wonders! The negro's influence in the campaign is lessening. The South sees him flocking to Democracy in the North. Maybe.

Religion! Here is the core of the boil. Shall the South consider a man's religion? Perish the thought. But, man alive, the South is considering that thing today more, perhaps, than it is considering anything else. Religion isn't an issue in this campaign. But South of the line, it is an outlaw issue. It has been ruled out by both the donkey and the elephant. Yet, here it is, camping in the front parlor, set to stay.

The Klan! Where but in the South could there have sprung to life

Fine Stock Features

Eldorado Fair

ELDORADO, Sept. 11.—C. C. Townsend and George Williams were awarded first places in the showing of registered sheep at the exhibits at the Schleicher County fair which opened here today. Jess Coy is judge of the sheep department.

Among the exhibitors of quality grade sheep, Otis Buie and Vernon Porter were winners of first places.

Winners in the exhibits of goats and cows will be determined tomorrow. Judging of the agricultural booths and the handiwork in the women's department will also take place tomorrow.

Farm Exhibits

Extensive exhibits of agricultural products of the section have been brought to the fair. They range from stalks of corn 10 feet high grown in the county to watermelons weighing 70 pounds, which have been produced here. W. F. Meadors is in charge of the agricultural exhibit booths, while his wife is director of the poultry department.

In the bronch riding at the rodeo held in connection with the fair entertainments this afternoon, Otis Buie won first prize by riding "Yellow Fever." Second prize went to Bill Chick. Of the six entrants in the contests, three were thrown and one disqualified by the judges.

Calf Roping

Preston Chick of Sherwood tax assessor of Iron County, won first place in the calf roping contest by roping and tying his animal in 33 seconds. Prizes in the riding and roping contests were \$25 for first place, \$15 for second place and \$10 for third place.

The steer riding contest was won by Edwin Shary. Ollie B. Williamson was second and Jim O'Hara and Joe McCletchy tied for third place.

First money, a purse of \$50 went to T. C. Meadors as winner of the quarter-mile cow pony race. Second place was won by Hugh Buie, and third by Otis Buie. Judges were Ray Willoughby, Louis Jones, and O. E. Conner.

Don McCormick is in charge of the rodeo entertainments. Other ropers who competed in today's contests were Jack Craig, "Pecos Pete," Homer Wood, B. A. Whitten, Sam Mather, and Sam Roberts.

Officials of the rodeo were O. E. Conner, Joe Finley, Louis Jones and Dick Lawhorn.

The leading exhibitors in the poultry department of the fair were: Nellie Mather, L. L. Harris, T. H. Alexander, S. L. Stanford, and Mrs. Jess Coy.

A crowd of nearly 1000 persons from Schleicher County and surrounding territory was present at the fair, today.

I, J. D. Lowrey, county and district clerk for Sutton County, do hereby certify that the above named candidates were elected to their respective offices in the Democratic Primary held in this county on the last Saturday in July.

J. D. Lowrey, county and district clerk.

the original Ku Klux Klan? It is not natural that it should be resurrected there where it first flourished? The Klan today is a mighty hidden factor in the South's political affairs. It is helping, for good or evil as time alone can show, in the bubbling ferment.

And there you are. Stir them all together and you have a doubtful South. The battle waxes hot. There is not a Southern State today, save South Carolina, where it is exceedingly hot. The fight is on, and the South will be different South from this time on than it has ever been before.

Hoover or Smith, Smith or Hoover, the South is coming into its own. It is thinking, remembering, wondering.

A. & M. Courses Biggest Ever

"Bigger and better than ever before."

This standard phrase from the circus posters fits the Nineteenth Annual Farmers' Course at Texas A. and M. College with its more than 5,000 visitors and its scores of classes and lectures. To continue the comparison with Barnum's creations, a three ring circus pales into insignificance beside the short course, in which as many as eighteen different groups were sometimes simultaneously in session, each intent on its own problems.

The magnitude of this great annual gathering and the accommodations provided by the college may be partly expressed in the statement that the commissioners assigned 3,286 beds, while several hundred set up their tents on the campus and scores of others were entertained at private residences and in hotels. Nacogdoches county alone had 195 people in attendance and maintained her own camp.

By "Special Delivery"

Special trains over the Missouri Pacific, the Southern Pacific, and

Santa Fe brought great numbers, the latter, under the direction of Agricultural Agent J. L. Tinsley, bringing 450 people, while the Henry Edwards special from Longview brought about as many. Some of those from the Santa Fe territory came 700 miles—and it was worth it.

The beginning of what has become the greatest force for the dissemination of agricultural information and inspiration in the Southwest, go back to 1898, when the Texas farmers' Congress was formed with ten distinct state organizations participating. Changes in method and directory agencies have not changed the essential objectives of those who instituted the Farmers' Congress, but with the growth of the college in its research and teaching activities, and the institution of its extension service, the scope and value of the farmers camp meeting have been multiplied many times over.

More than 1,700 boys and girls registered this year. They represent usually the winners in various county contests, or at least those who have some outstanding achievement to their credit. The adults who came are among the most progressive farmers and homeseekers in

every section of the state. Their influence in carrying back to their home communities new vision and new ideas cannot be estimated even from the material viewpoint, much less from the social and spiritual. It may give home communities new vision and better stock, and better homes, but its human values are greater than houses and lands, and for spiritual values there is no measuring rod.

Adults Pursue Knowledge

Dr. T. O. Walton, in his welcoming address, referring to the large attendance of adults said, "The pursuit of knowledge never ceases, and it is to be hoped that this session will be an inspiration, not only to you who are here but through you to the 5,000,000 rural homes of Texas. It is to be hoped that it will be instrumental in reinstating the people of Texas in adult education."

Dr. Walton stressed the fact that A. and M. is a service institution, belonging to all the people of Texas.

We might add that of the 2,500,000 farm population of Texas only a comparative few are availing themselves of the services offered by the college, and those who have never attended a short course can have no idea of what it might mean to them and theirs.

Oil Test in Schleicher to Start Soon

Panhandle Oil and Refining Company has made a location for an oil test three-fourths of a mile from the Menard County line, in Schleicher county. Contract calls for a drilling depth of 3,000 feet unless oil is found at a shallower depth.

A 5,000 acre drilling block has been acquired. The rig will be moved to its location soon as the condition of the road improves.

The block comprises acreage from the following persons: Mrs. J. E. Landers, L. L. Ball estate, Louis Tisdale, H. H. Bevans, H. L. Jones, Will Stockton, T. W. Talbot, Mrs. M. E. Champion and Mrs. Treadwell. The test will be drilled on the Louis Tisdale ranch, it is reported.

FORT STOCKTON—The Lions' Club here may sponsor the planting of elm trees as a civic development.

The entire program was rich in interest, whether in specific subjects or in the general addresses. No farmer, farmer's wife, farm boy or girl could have attended without getting benefits that will accrue to richer living for the remainder of life.

CANADA CATTLE ARE SENT TO MEXICO

Four carloads of Holstein dairy cattle, 120 head, were in Union Stockyards en route from Ontario, Canada to the interior of Mexico, according to Dr. William Thompson, inspector in charge of the Bureau of Animal Industry here.

There have been other shipments, it is said at the stockyards, and the fact that the cattle come from such a long distance was taken as a good trade tip for the Southwestern breeders of dairy cattle. It is not unusual for a shipment to come through from Wisconsin, it is said.

Dr. Thompson's work is mostly inspection on international shipments. Other representatives of this bureau in the Department of Agriculture look after tick eradication and that of bovine tuberculosis. Approximately \$8,000,000 a year is appropriated for elimination of tuberculosis from dairy herds. Most breeding herds have to be certified as tuberculin-free.—San Antonio, Express.

ROSWELL—The Roswell, N. M. new roof garden is situated on top of the White office building at corner of Main and Third.

Reliable Electric Service -- and West Texas Progress

OVER plains, ranches, farmlands, hills, valleys and streams, in the heart of West Texas, the electric transmission lines of this company cover 1,898 miles.

These power lines carry electrical energy from large generating stations to 102 cities, towns and villages, lighting streets, homes, stores and offices.

This energy turns the wheels in oil fields, furnishes power for factories, mills and other industrial plants, and operates labor saving machinery and appliances on farm and ranch. Wherever it goes, this flow of electricity increases production and wealth, encourages industry, speeds progress, reduces drudgery and hardship, provides comforts and conveniences. The continuous, single aim of the company is to supply efficient service at a fair price. By always improving operating efficiency and constantly investing more capital in expansion and equipment it is able to do so.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation will be cheerfully corrected upon being brought to the attention of the editor at the News office.

Dan Moody, after ignoring Al Smith at the Democratic National Convention, has decided to support the Democratic nominee.

This "old stuff" about party loyalty is becoming a thing of the past, and in another few years will be ignored altogether. Vote for the MAN regardless of the political party—the man of your choice.

COMMON SENSE

Too many people in this world are living above their means. You can go to any town, even the size of Sonora, and find that some people are driving high powered automobiles, do not own their own homes, and yet fail to pay miscellaneous accounts with their home merchants.

Some of these same people have

the temerity and intestinal canals to walk brazenly down the street as if he or she might be the "King of man." It pays to use a little common sense, and as Governor Roberts said: "Pay as you go."

BE COURTEOUS

Being friendly and courteous with your neighbor does not hurt anyone. It cost very little effort to say "Howdy" or good morning to your fellow man.

It should be remembered that there is no one person who could survive in this world alone. In an indirect way, we are all dependent upon the other fellow.

No matter how much wealth a man may possess or how large his bank account may be, or even how many sheep and goats and acres of land he might own, he is only a human being like anyone else—he possesses that same breath and life that God has given to all alike.

A friendly word spoken to your neighbor might brighten his hold on life or cheer him a bit. After all is said and done, be courteous.

LIVESTOCK ON HIGHWAYS

One thing this writer does not enjoy seeing is livestock on the highways. It appears as if some people regard the feeling of animals as they would of some inanimate object. Going from here to Eldorado the other day we noticed all kinds of animals grazing along the highway—everything from a jassack to old, worn-out horses so poor that they would barely make an impression with their feet in the sand.

If we are not mistaken, there is a State Highway law forbidding livestock to be turned loose on the State roads. It is very dangerous to drive along this highway after dark, and when some of your loved ones are found lying at the point of death from a serious accident, you, too, will agree with us that we are right.

Aside from endangering the lives of motorists, livestock, especially the kind that you see near Eldorado, does not speak very highly for any town. Any progressive citizen, the moment he sees such as this, does not have a very good opinion of the town and county that will permit this to be done.

Schleicher County commissioners, wake up and have this worthless property removed from your highway.

Did you ever see a Blue Wildcat? There are lots of them at E. F. Vander Stucken's store. 4-t-c.

BIG LAKE—Three new brick residences are being built here.

YOUR BANK WANTS TO KNOW

How much credit have you at your local bank? Your case has doubtless been discussed by a small group of men sitting around a director's table more times than you are aware. Here are the questions they ask:

"Is he in the habit of making a wise use of his money?"

"Is he borrowing the money to purchase a high powered automobile or a tractor? A saddle horse or a cow? A radio, or lime and fertilizers?"

"Is his wife a help or endurance to his financial well being?"

"If he wants to borrow for 60, 90 or 180 days, does it mean exactly the number of days for which the note is written, or does it mean 180 days and over?"

"If for some unforeseen cause he cannot pay the note due, will he report some days in advance and seek to renew his note, or will he straightway forget what manner of man he was—what obligation he assumed?"

Any bank will gladly loan money to the right sort of man with reasonable security for investment which promises a financial return. Nor does it object in the least to loaning to a man who can afford to enjoy luxuries of life.

The question is, "Which comes first, necessities or luxuries?"

Is your credit good as it might be? It is in your hands.—Ohio Farmer.

CONSTITUTIONAL DEMOCRATS VS SMITH TAMMANYCRATS

Pastor A. Reilly Copeland
Tabernacle Baptist Church Waco,

Al Smith is the product of Tammany Hall and Tammany Hall has bolted every democratic nominee not of their choice since the Civil War. Politics is the science of Government and good government appeals to good men. Government can't be stronger than the leaders. Al Smith is against the 18th Amendment and the 18th Amendment is a part of the Constitution of the United States which is the foundation of our Government and then offers himself up against the United States Government. A bad leader at this time will cause endless national confusion. The Constitution is opposed by every lawless element, anarchist, bolshevik, therefore I cannot vote for any person on earth that is against my Government regardless of the political colors he sails under. To label a man as a good democrat does not make it true if he isn't. Al Smith is a democrat then I am not a democrat.

Good Democrats Will Keep The Issue Clear of Confusion

Al Smith has a right to his religious beliefs and to run for the Presidency. I also have the right as a free born American citizen to vote against him on any conviction I see fit when he or any other religionist seeks to sell our country out to a foreign potentate. Why whine religious tolerance when it is not in the issue? The issue is blind tigers, bootlegging or making and selling intoxicating liquors of any sort for 5 reasons: (a) business (b) social (c) moral (d) educational (e) home. Saloons are not allowed near schools and churches. Why? Because they're means "people rule". Al Smith's an enemy to what these great institutions stand for. Democracy means "people rule." Al Smith's New York governorship record shows that he was elected each time by 3 counties and runs that great state and N. Y. City to fit the foreign population of 75 per cent who brought their un-American notions of free government to this country and seek to make our country's civilization void of all moral stabilizing elements which ruined theirs.

Al Smith's Democracy Smacks of Lawless Oligarchy, Autocracy

Al Smith is not a true democrat. I've voted the democratic ticket all my life, and whenever the Democrats offer me a Jeffersonian Democrat to vote for I'll do it. But as it is now I'll cheerfully support Herbert Hoover for President, with the happy feeling that I have done my whole duty as every citizen should do. And when that's done the Al Smith Tammany crowd won't know what has hit "em" after November 6-1928. The person who tells me I haven't the right to put principle above party announces to the world that he doesn't know what true Democracy is or else does know and willfully seeks to intimidate me to prevent the truth, which lawless spirit dominates the Al Smith crowd, ring rule or ruin crowd and reveals what we could expect if he were president. Good citizens will please remember that Al Smith came from the lawless element, the Bowery of New York, boasts of it, says he's for the regulated saloon, (saloons were never regulated and only a deluded person could kid themselves to believe that this man who has power to appoint thousands of federal enforcement judges and officers, would appoint

men who would enforce the prohibition laws. Right now above all America needs law abiding example among all good citizens and especially among the higher officials. An Appeal To Voters To Smash

The Al Smith Tammanyocrats

If the voter will study the candidates in nation, state, country, city and community and see who the lawless element is for, he or she can always vote opposite safely. Lawless people and their sympathizers will not like this article. AMEN! I'll never vote for any man who has first allegiance for any foreign potentate or power in either religion or politics. Herbert Hoover is a Protestant Quaker and one of the

biggest business men in the United States as his war record and subsequent work shows. Mr. Hoover is a far better democrat than Al Smith and for that we'll just Hooverize Al's presidential ambitions to a toast of good old H. 2 O. All hail for the good old U. S. A.

Romans 13: 1, 3, 13. Let every soul be subject unto the higher powers, or there is no power but God. The powers that are ordained of God, or rulers are not a terror to good works, but to the evil.

Wilt thou then not be afraid of the power? Do that which is good, and thou shalt have praise of the same. Let us walk honestly, as in the day; not in strife and envyings.

I have treated more than

200,000 Sheep

WITH UNCLE SAM'S ERLYBIRD in the last three years and have never treated a man's sheep that he wasn't satisfied with the results obtained.

We have had plenty of rain this summer and your sheep have had a chance to pick up all kinds of internal parasites. It would pay you and pay you well to treat your ewes and lambs at weaning time. That would put your ewes in good condition for bucking season and keep your lambs growing this winter. I can treat from five to six thousand sheep in one day if necessary.

Have treated 70,000 sheep since July 4th.

Week after week and month after month the Bigger and Better Chevrolet has swept on to greater and greater heights of popularity—until today it stands acknowledged everywhere as first choice of the nation for 1928!

Never has any Chevrolet enjoyed such overwhelming public acceptance—for never has any low-priced car provided such an outstanding combination of distinctive beauty, thrilling performance and amazing economy!

Its beautiful bodies by Fisher—long, low and racy, and finished in colors that reveal to-day's mode for smartness and individuality—are far in advance of accepted standards in the field of low-priced cars. Inside

and out they prove anew that Fisher craftsmanship is a thing apart.

But Chevrolet performance is no less impressive than Chevrolet beauty and style. Never before was a low-priced car so easy to handle—for the steering mechanism is fitted with ball bearings throughout... the clutch and gear-shift lever respond to the slightest touch... and big non-locking 4-wheel brakes give a measure of braking control that is more than equal to every occasion.

Come in and see the car that has won the approval of more than three-quarters of a million buyers since January 1st. Learn for yourself why it is scoring the greatest success of this great automotive year!

Gilmore to Attend Hardware School

W. C. Gilmore, ex-mayor of Sonora, and a junior partner in the Gilmore Hardware Company store, leaves Sunday for San Antonio where he will take a special course in hardware merchandising. This school is maintained by the Texas Hardware Dealers Association and will be in session several days.

Mr. Gilmore is one of Sonora's most prominent and progressive business men and is always seeking new ideas that will aid in his business and at the same time be beneficial to his many customers.

Laborers are busy now completing the work on the Gilmore Hardware store and should be through in a few more days.

New stocks of hardware and furniture have been purchased and the force is busy arranging displays.

This, when completed will be one of the best general all-round stores in West Texas and will be a credit to Sonora.

From a small tin shop housed in a frame building to a modern hardware and furniture store is a far cry and marks a wonderful transformation of this establishment.

LUBBOCK—The largest herd of registered cattle belonging to one person was purchased by the Lubbock County agent recently.

B. R. Cauthorn was here from the ranch Tuesday on business.

There are Wild Cate at E. F. Vander Stucken's store. See them for yourself.

QUESTIONS AND ANSWERS ABOUT THE FOODS WE EAT

Q. From what is tapioca made?

A. Tapioca is made from the starch obtained from the tuberous roots of the cassava plant, also known as manioc, a large shrub growing in the West Indies, South America, Java, the Malay Peninsula, and Florida. The roots, which grow in clusters and resemble somewhat sweet potatoes, are from one to four feet long.

Q. Why do some powdered sugars contain starch?

A. Powdered sugars which contain starch (the usual amount is 3 per cent) are intended for use in making icings. Such sugar works up into a smoother icing than ordinary powdered sugar. The addition of the starch also keeps the sugar from getting hard and lumpy.

Q. Why is there parchment paper lining on the insides of cans containing lobster, crabs, shrimp, and fish flakes?

A. The iron and phosphorous which they contain act upon the tin and turn the meat black. The parchment paper is used to protect the meat.

Q. Are there any artificially colored teas on the market?

A. It can be positively stated that no artificially colored teas come into this country. Samples from all shipments arriving at the various ports are carefully examined by expert Government examiners, who see to it that no shipments of impure tea are admitted.

Q. What does "chili con carne" mean?

A. This is the Mexican name of a Mexican dish. Translated literally, it means "peppers with meat." Chili con carne, as sold in cans, is usually made of beef, brown or kidney beans, chili peppers, spices, and a little garlic.

Q. Why do some canned pears have a pinkish color?

A. This is caused by excess of heat at the time of canning. It is very difficult to can pears at any time without discoloring them. The pinkish color, however, does not in any way impair the flavor of the pear.

Q. From what is Gluten flour made, and for what is it used?

A. Gluten flour is made from wheat flour which a large part of the starch has been removed. It is used for making bread for diabetic people and others who must abstain from starchy foods.

PICTORIAL LIFE OF HERBERT HOOVER

No. 1

By Satterfield

1. Herbert Hoover's ancestors, of Quaker faith, came to America from France and Holland.

2. They became settlers first on farms in Maryland, thence moving to North Carolina and Ohio.

3. In 1853 the Hoovers migrated to Iowa, where they and their neighbors founded the town of West Branch.

4. Before clearing the land for their farms, these Quaker pioneers built a Meeting House.

CARD OF THANKS

We take this means in showing our appreciation and to thank those who sent beautiful floral offerings at the funeral of our dear son, and brother. Words cannot express our thanks. May God's richest blessings be with you all.

Mr. and Mrs. W. W. Williamson, mother and father, Jewel, a sister, Lawrence, a brother, Margaret, a sister, Alton, a brother.

V. L. Cory, range botanist, and Dr. E. A. Tunnick, veterinarian at the Experiment Station, were in Sonora Monday afternoon on business.

Collier Shurley was here from the ranch the first of the week.

The new Buick is the New Style

Graceful contours instead of straight lines—the gleam and sparkle of brilliant colors and chrome plating instead of drab effects... the most beautiful bodies ever built... Buick's masterpiece bodies by Fisher

At a time when motor car beauty was practically standardized—when imitation was the vogue—when there was a glaring lack of originality in body design—Buick has swept far beyond the commonplace and achieved a style which the entire country is acclaiming as the most distinctive and beautiful ever shown!

Fisher, the world's foremost builder of automobile bodies, has cooperated with Buick, the world's foremost builder of fine cars, to create a new mode—a new fashion—and so luminous is the result and so eagerly is the public welcoming it that Buick's great factories have reached new production levels in an effort to keep pace with an ever increasing demand!

Inside and out, the new Buick bodies by Fisher are the most beautiful ever built. Together with the wonderful new standards of performance introduced by the Silver Anniversary Buick, they are winning the greatest demand and the greatest preference ever enjoyed by any fine car!

The new Buick is the new style! And by that is meant, not merely a new type of beauty—not merely a thrilling turning point in body design—but a great countrywide vogue!

Sixth District P.-T.A Wins National Honors

The Sixth District has reason to be proud of her achievements in Parent-Teacher work, as Del Rio won the national prize awarded in 1928 for the best conducted health campaign, having made the most complete survey and improvement in the condition of the pre-school child of any association in the United States, they receiving the \$500.00 prize awarded for the Summer Round-Up campaign.

Bracketville was awarded the honor of having sent in the largest contribution as "Birthday Offering" in the State, this award being at the State meeting held last November in Houston.

Now comes another victory as shown by the following piece copied from the Fort Worth Star Telegram, which might be of interest to many in Sonora, as Mrs. Dyer (the Barstow president) is a cousin of the Rev. Lloyd, and is remembered by those attending the Big Spring District meeting:

BARSTOW, Sept. 8.—What is said to be the first national certificate for a superior association in Texas has been awarded the Barstow Parent-Teacher Association for attainment made during the past year.

Fourteen years ago this association was organized, and has developed gradually into the superior class the past year. This has been done by the constructive co-operation of committees composed of parents and teachers under the leadership of Mrs. F. I. Dyer as president. A teacher membership of 100 per cent, patron membership of 99 per cent, and a pre-school circle of 25 members has continued its regular meetings through the Summer.

This shows that it is not always the largest cities that do the most important and effective work and we are looking forward to the time when the Sonora P.-T. A. will receive public recognition for they are a live and wide awake association. With such a leader as Mrs. Lem Johnson much constructive work is being planned and much has been accomplished.

Mrs. S. T. Gilmore is the Sixth District President and during her administration the district has grown in numbers and power until it is now one of the leading districts in the Texas Congress of Mothers and Parent-Teacher Associations.

O'DONNELL—Trades day was celebrated here for the first time September and was featured by distribution of \$100 in gold.

JUNCTION—Contract has been let for the paving of the streets in Junction.

BOOKER—Several noted speakers will be on the program at the community fair in September.

McCAMEY—State inspectors pronounce the McCamey \$60,000, school building one of the best in a small town in Texas.

TAHOKA—The T-Bar school has sold their recently issued \$15,000 school bonds.

E. F. Vander Stucken Store Completed

The E. F. Vander Stucken Store's new front was completed this week including new side walls, plate glass front, etc. This store has a frontage of 105 feet, divided into four buildings.

Mr. Vander Stucken has purchased much new stock for his new store and this stock will commence arriving at an early date.

A ladies' ready-to-wear department will be maintained by this huge mercantile establishment.

Mr. Vander Stucken has been in business at his old stand since 1890, and during this time has been very successful.

In order to keep pace with the progress of the town and his growing business he was forced into more modern quarters.

Personal Mention

Mr. and Mrs. Roy Hudspeth returned from the Kellogg Sanitarium, at Battle Creek, Michigan, Sunday. Mrs. Hudspeth has improved wonderfully, Mr. Hudspeth said. She had been there for treatment.

Mr. and Mr. W. A. Miers came in Monday morning from Rochester, Minnesota, where Mr. Miers had been for treatment at the famous Mayo Bros. clinic. His many friends are glad to see him and know that he is much improved.

Sam Allison was in from the ranch Saturday afternoon.

Chas. F. Spencer, who is employed by an oil company at Sheffield, was here over the week-end visiting his uncle and aunt, Mr. and Mrs. S. T. Gilmore.

Jim Bradley, employee of the Rock Island Railroad, was here from Fort Worth during the week-end, a guest of his old friend, William C. Gilmore.

Tom Sandherr, wife and children were visitors in town from the ranch Tuesday afternoon.

Mr. and Mrs. Will Wilkinson were visitors from their ranch west of here Tuesday afternoon.

Mesdames Frank Bond and Joseph Vander Stucken were visiting and shopping in San Antonio this week. They returned Sunday afternoon.

Joe Logan, county commissioner and prominent rancher, was in the city Monday for the Lions' luncheon.

Edgar Shurley and father-in-law, Mr. Rife, were among visitors in town the fore part of the week.

Judge Alvis Johnson was attending business in the city Monday, and while here had luncheon with the Lions' Club.

Ben Cusenbary, one of our progressive young ranchmen, was among those attending business here Monday and was in attendance at the Lions' luncheon.

Experiment Station Sells Ram for \$250

W. H. Dameron, superintendent of Substation No. 14, reports the sale of a two-year-old stud Rambouillet ram to R. L. Goode of Mertzon at \$250.

The animal, last spring clipped 17 pounds from a six-month's fleece.

Mr. Dameron will take several lambs from the Station to enter at the San Angelo Fair and race meet next week.

Two inches of rain fell at the station, he said.

Mrs. Ed Mayfield Hostess at Bridge

Thursday afternoon Mrs. Ed Mayfield entertained with four tables of bridge, honoring Mrs. Hunter Sneed of Washington, D. C. Mrs. Fred Simmons won high score and Mrs. E. F. Vander Stucken, the most games. A gift was presented to the honoree.

Those present were: Mesdames R. A. Steen, Fre Simmons, Mike Murphy, A. G. Blanton, Arthur Stuart, Henry Stuart, Theo. Savell, Roy Aldwell, Brian Hunt, Chas. Evans, B. W. Hutcherson, Edwin Mayer, Will Wilkinson, E. F. Vander Stucken, Hunter Sneed, and Miss Alice Karnes.

Mrs. Ed Mayfield had as her guests Friday, Mrs. B. J. Wilson of Pecos, Mrs. Pruitt of Pecos and Mrs. Emily Johnson of Lytle, Texas.

A LAND TITLE MAY DEPEND ON OLD LETTER

Building up titles by getting a little information here and there, is not an infrequent matter that comes into the work carried on at the General Land Office, Austin.

Just this week Land Commissioner Robinson has been called to Fort Stockton to assist in a case where there is a question as to land titles. Handwriting often has an important bearing on a matter of this kind. Thousands of circumstances play a part in arriving at a decision. The Yates oil field, where the land titles are in question, is said to be the most valuable in the world. Fort Stockton is the county seat of Pecos County in which this field is located.

Some years ago, according to a story told by Commissioner Robinson the title to a piece of Texas land hinged on an old letter. This old letter was all the existing evidence to the ownership of the land which was in

Chevrolet Passes Five Million Mark

Marking, for the second time within eight months, the passing of a millionth milestone, the Chevrolet Motor Company produced at the Flint, Michigan plant, Sept. 8. The four millionth car was built Jan. 11, following quickly on the spectacular nation-wide reception afforded the present "Bigger and Better" model.

The early arrival of the 5,000,000 car was in response to a continued demand that has kept growing on a day and night basis since the first of the year and has resulted in the setting of new monthly production records every month of this year.

Production for the year promises to go well beyond the million mark and will show more than a 1,000 per cent increase over 1921 when 77,565 cars were built.

The epochal five millionth car was a standard coach and came off the line amid the cheers of a vast army of assembled mechanics who gathered momentarily to see the record making model glide off the line under its own power. Exacting schedule requirements did not permit any of the ceremonies and a few seconds later the five millionth car became history, when number 5,000,001 was driven away.

It was pointed out that, whereas it had required a little more than ten years for the Chevrolet to build its millionth car, the last four million were produced in a little more than five years, an indication of the spectacular march that the Chevrolet Motor Company has made in recent years to attain its present position as the world's largest automobile manufacturer. It was shown too, that since January 13, 1927, when the 3,000,000 car was produced, a little less than 20 months had been required to produce another two million.

Litigation. The jury decided the case on the evidence of the letter. In the old letter, written many years prior, a mention was made by the writer of the land, which he spoke of as owning. It was an heir who in after years won the suit regaining the land through the letter.

At the La Vista Next Week

Program for next week consists of some of the best and latest releases which are as follows:

Monday—a big Pathe feature—"A Blonde for a Night," with Marie Prevost. Gay Paris is the background for the story of Marie Prevost's De Mille studio star production, "A Blonde for a Night." Pathe News reel.

Tuesday and Wednesday—"Ladies' Night in a Turkish Bath," with Dorothy Mackail and Jack Mulhall. They were out to make a perfect night of it, but a farcical fate drove them into a Turkish bath on ladies' night and made perfect ladies out of them. One of the most famous farces in Broadway history, M. G. M. comedy—"Virgin Queen."

Thursday and Friday—"The Crimson City"—a Warner Bros. production with Myrna Loy, John Miljan and other stars. This is a thrilling yet a tender love story. It has to do with Nan Toy, slave "In the House of a Thousand Dangers." Don't fail to see this wonderful picture. Also our serial—"Terrible People." Good Pathe comedy—"Sailors Beware."

Saturday—M. G. M. feature—"Adventurer," with Tim McCoy and Dorothy Sebastian. Thrills, adventure, battles and hairbreadth escapes—all woven into the background of a charming romance of a man and a girl, and laid in colorful tropics. These are the elements of the new story in which Tim McCoy is the star.

Personal Mention

Mrs. Doug Cravey was shopping in the city Thursday morning.

Mrs. J. M. Burnett returned this week from Del Rio where she had been for medical attention.

Mr. and Mrs. J. S. Holman were visiting in the city Thursday.

Dr. E. A. Tunnickiff, Mrs. Tunnickiff and little daughter were here from the Experiment Station Wednesday.

LOST—Fountain pen with my name on it. Finder please return to Helen Craddock. 2-t-pd.

Mr. and Mrs. Noah Schrier and daughter, Miss Frankie Taylor, were visitors here Thursday from Merton.

WORMS MENACING TEXAS POULTRY

When the poultry crop gets to looking dull and dirty and the combs and wattles become shriveled, rough and colorless, the flock is more than likely the victim of worms. Such infestations that spread to such an extent that worms are now considered one of the greatest handicaps to profitable poultry production in Texas, and E. M. Holmgreen, poultry specialist in Texas A. & M. College Extension Service has made their eradication his major project with county agents for the year.

A severe infestation, he says, may altogether stop egg production, for worms slowly poison the birds, inflame their intestines and sometimes completely clog the intestinal tract. Worms so lower the vitality of the flock as to make it the easy prey of such ailments as colds, roup, and chicken pox.

Round worms are much more common than tape worms but both species are best controlled by preventive sanitary measures such as sanitation of the soil around poultry premises by plowing at least three times a year; cleaning dropping boards weekly and poultry house floors monthly; and by avoiding dirty, sloppy water vessels and wet grounds on the poultry premises.

Feed troughs should be designed to keep birds from getting in with their feet and from standing where droppings fall in the feed. Since young stock is more easily and fatally affected than mature birds, brooder houses should be located on grounds separate from the rest of the flock and pullets should be wormed before placing them in the laying houses with the older birds.

"While preventive measures are more effective," Mr. Holmgreen says "an infected flock may be freed of round worms by mixing two pounds of pulverized tobacco (1-2 to 2 per cent nicotine content) with each 100 pounds of mash, and feeding this

PARENT-TEACHER MEETING

A special meeting of the Parent-Teachers Association was held at the school building Tuesday afternoon Sept. 11th. This was the first meeting for the new school year. A goodly number were present. Several new members were enrolled and much enthusiasm was manifested.

Several new projects were proposed as objects for the work of the year. Committees were appointed to study some of these projects and to make reports at the next meeting.

The Treasurer's report showed a balance in the bank to the credit of the Association with no indebtedness.

The Association meets regularly on the first and third Tuesdays of each month. The next regular meeting will be held Tuesday, Sept. 18th.

It is very much desired that all patrons and friends of the school enroll with the organization, since the more patrons we have as members the greater the opportunity to advance to cause of child welfare in the school and community.—Reported.

Frank James left this week for A and M College for school. Hilton Turney succeeds him at the Sonora Motor Company.

mixture to the flock for three weeks. The tobacco should then be stopped for three weeks and then fed again for the same period. For tape worms the best remedy is No. 000 capsule or tablet of kamala to each fowl. For chickens under three months old the dose is reduced one-half and for turkeys two capsules or tablets are given for grown birds and one for poults.

More detailed information as to damage, symptoms prevention and treatment are contained in C-69, "Common Worms in Poultry," which may be obtained by writing the Extension Service, College Station, Texas.

La Vista Theatre

MONDAY—

"A BLONDE FOR A NIGHT"

With Marie Prevost. Pathe News Reel.

TUES.—WED.—
