

Our weather has settled down to the usual hot, high humidity temperatures of summer. After the great rain we have received the heat seems to be almost unbearable. But all us folks are tough and are use to this type of weather at this time of year.

Maybe we could use a little more moisture in a week or so. Please!!!

The downtown area is continuing to look better and better. The new restaurant project continues to progress and the owners still are looking for an August 17 date if all works out. Things are looking good but there is still a lot of work to do. The overhead lights and fans were installed early this week and things continued to come along.

The new CMS office in the old Corner-Drug building is also progressing. A lot of work has been done and the painting of walls, work on the ceilings and other repairs continue daily. The CMS hopes to be moving in soon. As soon as the inside repairs are completed, the replacement of glass windows and door will have to be completed.

The Howard Hagood building, next door to the City Office has been renovated and the carpet has been laid in preparation of opening a shopping firm. Some equipment has already been moved in and I'm sure things will continue to progress in preparation of opening day.

As soon as the CMS relocates to the corner building, their former building will be renovated into an ice cream shop. Equipment will have to be put in place as soon as the building is vacated. It is hoped that the ice cream shop will be open with in a few weeks or a month. We will have more on this later.

The renovation is now beginning on the former Lasater building. It is expected that this building will be completely renovated. It is expected that a mini mall may be opened in a portion of this building. We will have more information on this as it becomes available.

We have received several notes with renewals. Thought we would include them in this week's column.

Dear Sir

Enclosed is my check in the amount of \$1.30 as per our telephone conversation of today. It is for 2 issues of the paper containing the obituary for my Aunt, Virginia Hamrick Thomas. Thank you for your help.

Walnut Springs

Hi Joe,

And all the good People in Gorman. Would liketo congratulate you all for your progress. Naming of the streets for instance. Three years ago, Jack and I spent an entire afternoon trying to find a friend and class mate, Edna Rooney. In the good old days when we lived there, everyone knew where everyone else lived. Times change and we have to progress. Keep up the good work, and please renew our paper for another year.

Jewell Courtney

Dear Joe
Please renew my Gorman paper for another year.

To Receive Rehearing

Willie Royster, who worked as a Physician's Assistant for two years at the Cisco Medical Clinic and for two years at Gorman, had his license removed in March by the State Board of Medical Examiners. The action was reportedly due to a reprimand which he had received while he was in the military service.

As the result of support from former patients and medical associates, Royster is to receive a rehearing on September 7. He needs character references if he is to regain his license. Letters of character reference may be mailed to: State Board of Medical Examiners; Executive Director Bruce Levy, M.D.; P.O. Box 14913; Austin, Texas 78179.

PFC Jim Rodgers Currently On Duty In Mississippi

Navy Petty Officer 2nd Class Jim D. Rodgers, son of Jimmie D. and Donnie M. Rodgers of Route 3, of Gorman, Texas, is currently halfway through a six-month overseas deployment aboard the guided missile cruiser USS Mississippi, which has included duty in the Adriatic Sea near Bosnia-Herzegovina.

Rodgers is one of 595 Sailors aboard the ship who have traveled approximately 20,000 miles since leaving Norfolk, Va., in mid-March. Rodgers's ship is part of the 11-ship USS Theodore Roosevelt Battle Group, which includes jet fighter, attack aircraft, helicopters and ships and submarines armed with Tomahawk cruise missiles.

So far in the deployment, Rodgers has been serving in the Adriatic Sea helping enforce the international sanctions against Bosnia. Rodger's ship has been questioning ships suspected of smuggling prohibited materials to the former Yugoslavian republic, and sophisticated air tracking radar.

Rodger's ship is a multi-purpose ship capable of combatting aircraft, ships and submarines. With its high-tech radar and combat system, USS Mississippi is one of the battle group's main anti-air warfare assets. It also has a tremendous long range offensive capability with its Tomahawk cruise missiles.

While most of the time has been at sea, Rodgers and fellow crew members also have visited Crete, France, Greece and Italy. Some of the Sailors from Rodger's ship had hte opportunity to visit the Italian warship ITS Ardito, during a personnel exchange program at sea.

Rodger's involvement in the deployment is an example of how U.S. Sailors are serving aboard ships, submarines and aircraft carriers around the world from the Persian Gulf and Western Pacific Ocean to the Mediterranean Sea. Whether projecting power or delivering humanitarian assistance from the sea, these highly trained naval forces provide a unique forward presence and crisis-response option, which can be with drawn quickly when no longer needed.

The 1988 graduate of Gorman High School joined the Navy in October 1990.

1995 Property Tax Rates In Gorman ISD

This notice concerns 1995 property tax rates for Gorman ISD. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:

Last year's operating taxes	\$ 364,654
Last year's debt taxes	\$ 76,305
Last year's total taxes	\$ 440,959
Last year's tax base	\$ 37,498,170
Last year's total tax rate	\$ 1.1793 / \$100

This year's effective tax rate:

Last year's adjusted taxes (after subtracting taxes on lost property)	\$ 404,250
(Divide) This year's adjusted tax base (after subtracting value of new property)	\$ 40,422,614
(Equals) This year's effective tax rate	\$ 1.00 / \$100
(Times) 1.03 = maximum rate unless the school district publishes notices and holds hearing	\$ 1.03 / \$ 100

This year's tax rate to trigger a rollback election:

Last year's adjusted operating taxes	\$ 334,297
(Divide) This year's adjusted tax base	\$ 40,422,614
(Equal) This year's local maintenance and operating rate	\$.82700 / \$100
(Plus) \$ 0.08 cents = this year's maximum operating rate	\$.90700 / \$100
(Plus) This year's debt rate	\$.18433 / \$100
(Equal) This year's rate to trigger a rollback election	\$ 1.09133 / \$100

This year's highest rate following a successful rollback election:

Last year's adjusted operating taxes	\$ 334,297
(Divide) This year's adjusted tax base	\$ 40,422,614
(Equal) This year's local maintenance and operating rate	\$.82700 / \$ 100
(Times) Student enrollment adjustment	1.0
(Equal) This year's adjusted maintenance and operating rate	\$.82700 / \$100
(Plus) \$0.08 cents = this year's maximum operating rate	\$.90700 / \$100
(Plus) This year's debt rate	\$.18433 / \$100
(Plus) Rate to recoup loans certified by commissioner of education	\$.00000 / \$100
(Plus) Additional rate for pollution control	\$.00000 / \$100
(Equal) This year's highest school rate after a successful election	\$ 1.09133

Save Time At S.S. Call Ahead And Make Appt.

With today's hectic lifestyles, it seems everyone is in a hurry. Whether visiting a doctor or conducting personal matters, people don't want to sit and wait.

"We understand that you don't have a lot of time to take care of your Social Security business," reports Ken Hargis, manager of the Abilene district office. "That's why we ask you to call and make an appointment so you will be waited on within 10 minutes of your scheduled time."

Hargis said to make an appointment, call Social Security's toll-free number 1-800-772-1213. An SSA representative will ask you a few questions. Depending on the reason for your call, the representative may be able to take care of your business immediately and save you a trip. For example, you can change your address or sign up for direct deposit by telephone.

"If you still need an appointment, the representative will ask for your name, Social Security number, address, telephone number and other basic information we need to prepare for your appointment," Hargis said.

You can choose an appointment by telephone or in person at the Social Security office or a contact station. The SSA representative will help you select a convenient date and time.

"If you make an appointment to file a claim for benefits at least seven days in advance, we will send you a confirmation letter," Hargis stated. "The letter will include the time of your appointment and list the documents you will need to bring with you, such as a birth

Future Social Security Financing

If you've been reading the news accounts of future financing problems for Social Security, you've probably read that a major reason is the retirement of the "baby boom" generation. The large number of boomers retiring in the next century will mean that each worker will have to support more people on Social Security. That much is true - but there's more to it than that.

In their 1995 report, the trustees of the Social Security trust funds project that today's ratio of workers-to-beneficiaries - 3.3 workers for each beneficiary - will change by the year 2030 to 2 workers for each beneficiary. That spells higher costs for Social Security down the road - costs that will be borne by tomorrow's workers.

But the trustees also point to a counter-effect: If lower birth rates since the baby boom indicate that the relative number of older people to younger people is increasing, should we also consider society's overall dependency costs, including both the costs of the elderly and of raising children? The trustees' projections indicate the answer is "yes".

Let's look at the numbers. The trustees project that the ratio of persons 65 and over to persons 20-64 will increase from about 21 per hundred in 1995 to 35 per hundred in 2030, an increase of 65 per cent. If you add the number of children under age 20 to the number of aged persons, the total dependency ratio increases from about 71 dependents per hundred to 79 dependents per hundred, an increase of only 11 per cent. By 2070, ratios are projected to be 41 per hundred for the aged, and 82 per hundred for all dependents.

That might seem like a lot of dependents but it's less than the record high of 95 dependents per 100 working-age people in 1965 the height of the baby boom. What this means for future taxpayers is that our costs of raising children, such as school tax costs and child welfare costs, will decline as a percent of all dependency costs from that 1965 high.

This broader perspective of society's costs of maintaining both our children and our elderly might give us more confidence about our future ability to pay our national bills than does the narrower question of Social Security costs alone, the view we're used to seeing in news media. As one economist put it: "If we could afford to live through the childhood of the baby-boom generation, we can afford to live through their retirement."

That said, the fact remains that Social Security does face long-range financing problems. The Social Security trustees recommended that long range deficits in both the retirement and disability trust funds should be addressed. They said that the Advisory Council on Social Security should conduct an extensive review of financing issues and made recommendations to restore the trust funds to fiscal soundness. The Council is at work on those issues now and will make its report later this year.
