Resignations Accepted, Teachers Hired

Resignations were accepted from five teachers and five teachers were hired at the last meeting of the Farwell school board. Previously six teachers had tendered their resignations.

Resignations have been accepted to date from Mrs. Peggy Woodard-commercial subjects; Mrs. Janice Vines, - second grade; Mrs. Julia Herbison-third grade; Mrs. Winnie Cobb-high school English; Miss Laura Wyman-English; Miss Maude Hicks - sixth grade; Mrs. Loree Hill - junior high; Mr. Cross-junior high; Mrs. Mary Whitely - first grade; Mrs. Elsie Cain - first grade; and Mrs. Mary Ellison-English. Other teachers who will not be returning to the school include Robert Morton, Roe Davenport, and Tommy Mayfield.

W.M. Roberts, superintendent said "We are in need of the following teachers at the

present time: high school English with Spanish combination; high school librarian; high school typing, shorthand and bookkeeping; physics and chemistry; mathematics; social studies; band director and sixth grade."

Replacing Robert Morton in the agriculture department will be Jerry Mathis, 24, who has taught one year at Dimmitt. He is a graduate of Olton High School and holds a degree from Texas Tech. Mathis is single.

Mrs. Mary Jane Haines a graduate of Portales High School and a 1965 graduate of Eastern New Mexico University will replace Mrs. Ellison in the English department.

Teachers hired to fill vacancies in the elementary school are Mrs. Yvette Howl, a graduate of Chandler High School in Chandler, Ariz. and a 1965 graduate of Eastern

New Mexico University. Mrs. Howl has one small child.

Mrs. Eleanor DeVilbiss from Ponca City, Okla., who completed high school in that city in 1958 and is completing work at Eastern New Mexico University this year. She is the mother of three children, one of school age.

Mrs. Alva Joyce Gates, a 1961 graduate of Clovis High School and a 1965 graduate of Eastern New Mexico University. Mrs. Gates is the mother of one small child.

Also at the last meeting of the board Mrs. Velma McDorman was hired to head the lunch room staff for the 1965-66 school term. She will be replacing Mrs. Hal Hayne.

Superintendent Roberts is optimistic that most of the vacancies in the faculty will be filled in the near future.

Swimming Pool To Open On Saturday

GEORGE HINCH

George Hinch, a teacher at Gattis Junior High School in Clovis will manage the local swimming pool this summer. He is making tentative plans to open the pool on this Saturday, June 5, at 1 p. m.

Hinch says the pool will be open six days each week 1-6 p. m. and on Sundays 2-6 p. m. Persons desiring to arrange for private parties are asked to contact Hinch at the pool. He especially invites church organizations, civic clubs, etc. to arrange parties during the evening hours. All rules which govern the pool during the daytime hours will also be observed at the private parties.

Later in the summer swimming classes may be offered if enough interest is shown. Hinch, who has been teaching in the Clovis School system for the past two years, has also worked with the YMCA and is a lifeguard.

He will be assisted in the operation of the pool by his wife, Helen, who is presently

taking a life guard course. Mr. and Mrs. Hinch are parents of three children, six, four, and three years of age.

A concession stand will also be operated at the pool with pop, candy and gum for sale.

Personnel Awarded Service Pins

Twenty one persons who have been serving the Farwell school for a number of years were awarded with service pins at the May 21 commencement exercises.

The 12 persons receiving five year pins (pearl) were Mrs. Hattie Boling, Mrs. Hattie Coffey, Miss Maude Hicks, Mrs. Peggy Woodard, Mrs. Lenora Tatum, Mrs. Katherine Lockhart, Mrs. Winnie Cobb, Mrs. George Lee Russell, Mrs. Dorothy Eason, James Craig, Amos Tatum and Percy Tatum. Ten year pins (red stone) were presented to five persons, W. M. Roberts, Isla Rhea Hufaker, Margaret Kennedy, Mary Whitely and H. R. Crooks.

Mrs. Lauretta Pool was the only recipient of a 15 year pin (blue stone).

Three persons, Mrs. Elsie Cain, Jack Williams and Robert Morton, were recipients of 20 year pins (green stone). Provision is made for the awarding of a 25 year pin (diamond stone), however, Farwell has no personnel who have been in the employ of the school that long.

Presentation of the pins was made by Buck Gregory president of the school board.

Russell Johnson is asking that all persons who have dishes at his house come by and pick them up. He has no idea who they belong to and, therefore, can not return them.

EDIE SMITH

Edie Smith Dies Services Today

Funeral services were held today (Thursday) at 3 p. m. from Hamlin Memorial Methodist Church for Edie Smith 81, who passed away at the family home on Tuesday afternoon. Officiating at last rites was the Rev. W. C. Strickland, pastor of Hamlin Memorial Methodist Church. Burial was in Lawn Haven Cemetery with Steed Funeral Home directing.

Mr. Smith who would have observed his 82 birthday on July 6, had been in ill health for the past year but was able to work around the home. He was found in the back yard at the home, where he had been watering plants, having died from an apparent heart attack.

Mr. Smith moved to Parmer County in 1926 from Waxahachie and settled on a farm five miles east of town. He continued to make his home on the same farm until approximately 10 years ago when he retired and moved into town and built the home on Sixth Street, where he resided at time of his death.

He was married to Dora Taylor on Jan. 6, 1903 and the couple had observed their 62 wedding anniversary this year. He was a member of the Methodist Church.

Preceding Mr. Smith in death were four infant children. Survivors include his wife, Dora, one son, Albert H. Smith, Farwell, three grandsons, Eddie B. Smith, Farwell, Arlin L. (Tex) Smith, Clovis and Maurice Smith, Farwell.

Also two great-grandsons, Timothy Smith and Steven Smith; two brothers, George D. Smith, Grove, Okla., and E. P. Smith, Fort Worth; three

Sunday Services Held For Mrs. David Moseley

Funeral services were held from the Methodist Church in Friona on Sunday for Mrs. David (Eva Blanche) Moseley, 68, long time resident of Parmer County and mother of Hugh Moseley, county tax assessor-collector, who passed away in Parmer County community hospital on Friday. The Rev. L.L. Hill, former pastor of the Friona Methodist Church assisted by Rev. Russell McAnally, pastor of the Friona church officiated at last rites. Burial was in Friona cemetery under direction of Claborn Funeral Home.

Mrs. Moseley had been a patient at the hospital since May 3 at time of her death. She entered the hospital suffering from what was thought a gall stone attack. On May 12 she underwent exploratory surgery and was found to be suffering from a malignancy. She passed away on May 28.

Survivors include her husband, David, two sons, Hugh, Farwell and Jack, Friona, one daughter, Mrs. Edith Johnson, Friona, four grandchildren, Ranza Boggess Jr., Joe Bob Johnson and Linda Kay Johnson all of Friona, and Mrs. Mary Ann Sears, Lubbock, one brother Joe B. Collier, Friona, one sister, Mrs. Minerva Duncan, Finley, Okla., and also several nieces and nephews and a host of friends.

Serving as active pallbearers were Guy Latta, E.M. Rushing, W.S. Ingram, John Renner, Hoyt Smith, O.J. Beene, Henry Lewis and Lloyd Rector.

Honorary Pallbearers named were E.V. Rushing, J.W. Roberts, Marvin Lawson, A.W. Anthony Sr., Bill Johnson, Rudolph Renner, Jim McLean and O.T. Patterson.

\$200 Realized From Dinner

Approximately \$200 was realized from the Texico Cemetery Association dinner which was held on Saturday. The money will be used to help defray the debt on the water well, which was installed at the cemetery last year.

Mrs. E.G. Blair spokesman, for the association said "We wish to thank each person who helped in any way to make the dinner a success-special thanks to those who came, who contributed food, their time and efforts to making the dinner a

FORMAL OPENING -- "Maybe we expected too much" said Mrs. Alvin Kreigel in telling about the formal opening at their Fina Station on Saturday. Pictured are Jim Morton, an employee, Mr. and Mrs. Kreigel, owners of the station, O.P. Wilmon, Littlefield, jobber for Fina Products, and I.W. (Dutch) Quickel who conducted the drawing for the free prizes. Winners of the items were Ed Blain - passenger car tire; George Dannheim - one case of oil, and Mrs. Lora Brown, 10 gallons of gas.

Local Student To Attend Science Symposium

Delton Wilhite, son of Mr. and Mrs. Lonnie Wilhite and a junior in the Farwell High School will attend the fifth Nuclear Science Symposium at the University of Texas from June 6-9. He will be accompanied by W. M. Roberts, superintendent of schools.

Southwestern Public Service Company is sponsoring the Farwell student, for the symposium, which is a joint project of the University and the Texas Atomic Research Foundation, of which the electric company is a member. 500 of the top Texas science students and instructors will attend the four day symposium. Wilhite is a member of the

National honor society, the student council and Future Farmers of America. He is also a member of the Future Teachers Association and is an outstanding mathematics and science student.

Among the nations leading scientists and physicists attending the symposium will be Dr. Gerald F. Tape, a member of the United States Atomic Energy Commission.

The students themselves will participate in an actual experiment, through use of motion pictures. The students will take data from the filmed experiment and analyze it. A second film will explain the data and let the students compare their analysis with that given in the films.

Lutheran Church Sets VBS Dates

Vacation Bible School at St. John Lutheran Church, Lariat, has been set for this coming week, June 6-June 11. Classes will be held each afternoon, Sunday through Friday, 3:45 p.m. - 6:15 p.m.

All children of the community three through 13 are invited to attend. Through Bible stories, handicraft and songs they will receive a better understanding of what God has to say on the topic of "prayer".

The Rev. Herbert F. Peiman, pastor of St. John will be general superintendent of the school. Mary Alice Ramm will head the nursery and primary

departments. Teachers include Gladys and Liz Kaltwasser, Francis Kube, Pat and Joyce Haseloff. They will be assisted by Myrna Lingnau, Bobby Johnson, Mary Kalbas, Cheryl, Pat and Vicki Kaltwasser. Pat and Vicki will also double as pianist and organist, respectively. Berna Dean Kube will be in charge of daily refreshments.

The closing program, in which the various departments will demonstrate what has been taught and also display the handicraft projects, has been set for Sunday, June 13, 7 p.m.

WORK PROGRESSES --- Brick is being laid at the new home of the Texico Baptist Church (left) and work is progressing swiftly on the sanctuary of the Texico-Farwell Methodist Church. The two structures (edifices to glorify God in the Texico-Farwell

community) are due for completion in July, if all goes well. Pastor of the Texico Baptist Church is Rev. Leroy Looper. Rev. W.C. Strickland is pastor of the Methodist Church.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

directly, but I pay dues to the National Right-to-Work Committee because I believe that the right to choose one's place of work, and the conditions under which he agrees to work, is a precious right -- ranking in importance with freedom of speech, or freedom of religion. There is no argument here against unions as organizations. They are a needed and useful tool for the employed person. But they have been endowed with such power and authority as to trample out the rights of individual workers. Much of America today is under the grinding heel of compulsory unionism.

A tyranny of labor bosses is no less to be feared than a tyranny of political bosses. In fact, I would prefer the latter.

The folks over at Muleshoe have been hard at work lately trying to get the ball rolling for a junior college in their community. Usually such a project is several years in the doing. I am all for their enthusiasm and get-up-and-go. I certainly hope their efforts meet with success. Probably most of the folks in this area would feel as I do. However, a word of caution needs to be offered as a matter of information, and that is in regard to the method of setting up a taxation district to support the college.

It would be necessary for the Muleshoe group to show a potential of 2,000 high school graduates in their district, and to do so they would of course have to reach out quite a ways at the present time.

To do so, they might well consider Parmer County or a sizeable portion of it. According to my information, if a petition bearing the names of 10 per cent of the voters in such a district is taken up, then an election for the purpose of creating a taxing district may be called.

Also, in this election the district would become a reality if only a simple majority of the voters approve it. Conceivably, then, Parmer County or a portion of it might be taken into the district even though the vote failed in our part of the district because of favorable offsetting votes from other areas of the proposed district. Rep. Bill Clayton has promised to send me some additional, and possibly clarifying, information on the subject. In the meantime, due caution seems to be in order.

Get Together Honors Mrs. Tommy Williams

Mrs. Tommy (Janice) Williams was honored for an informal get together in the home of her mother, Mrs. Bill Prince, on Wednesday afternoon. Friends were invited to come and visit with Janice from 3 to 5 p.m. Janice and her husband Tommy, are leading soon to make their home in Galveston where he will be in medical school. Chips and dips were served with soft drinks.

Calling during the afternoon were, Brenda Conner, Jane Williams, Darlene Burton, Mikala Austin, Carolyn Lindop, Phyllis Christian, Donna Rundell, Sherry Billingsley, Linda Phillips, Patty Tatum, Becky Strain, Peggy Eason, Donna Dunn, Linda Langston, Mary Coffey, Martha Coffey, Judy Gast, Donna Wines, and Janice

Receive Fellowships

Two local young men who received their B.A. degrees from Eastern New Mexico University on Thursday evening are among the graduates who will be doing work toward master's degrees, on fellowship grants from area universities, with the beginning of school in the fall.

Gary Singleterry, son of Mr. and Mrs. Glenn Singleterry will be attending New Mexico State University in Albuquerque, where he will study Spanish and English. He will be assisting with teaching duties at the University.

J. Glendon Moss, son of Mrs. Crystal Moss and the late Jim Moss will return to Eastern New Mexico University where he will assume duties in the mathematics department while working on a master's degree, in that subject.

Singleterry received a B.A. degree in languages and Moss a B.A. degree in mathematics.

Betty Ruth Lockhart daughter of Mr. and Mrs. John Lockhart spent the weekend visiting in the home of her parents. She returned early this week to Plainview where she will attend summer classes at Wayland College.

FFA Members To Attend Electrical Workshop

More than 100 FFA members and vocational agriculture teachers will attend the third annual FFA Electric Workshop, sponsored by the Southwestern Public Service Co., at the Episcopal Church Conference Center in Amarillo, June 14-16. Representing Parmer County at the workshop will be Timmy Foster and Dan Miller, both from Lazbuddie.

Five courses of instruction will be offered at the workshop, and the students selected as the most outstanding in each course will be awarded a trip to the National FFA Convention in Kansas City. Each boy who successfully completes the conference will receive a farm electrification medal from SWPS Co.

Courses offered are electric controls, farm motors, farm wiring, lighting and heating. Staff members for the workshop include W. E. McCune, director, Texas Farm Electrification Committee; Bob Jaska, supervisor, adult education program, Texas Education Agency; and Foy Page, farm electrification specialist, T-E-A, all of whom will come

to the workshop from College Station. Kenneth Owen, Amarillo; Jamie Gage, Guymon; and Tom Fields, Plainview are SWPS Co. specialists who will be on the staff of instructors.

On June 14, the boys will see the Albuquerque - Amarillo Texas League baseball game and on the following day they tour Nichols Station, the electric company's modern generating station, northeast of Amarillo.

Smith Services--

(Continued from page 1)
sisters, Mrs. Laura Sears, Corpus Christi, Mrs. Dora Hoover, DeSoto, Tex., Mrs. Ora Russelavage, Torrence, Calif., numerous nieces, nephews and many friends.

Active pallbearers are Bob Hammonds, Grady Herington, Alvin Mace, Harry Sheets, Bill Moss and Ray Ford. Listed as honorary pallbearers were Lacy Hardage, C. F. Elliott, Ralph Humble, Claude Rose, O. B. Pipkin, J. R. Thornton, G. D. Anderson, H. Y. Overstreet, Ray Mears and G. T. Watkins.

ANNOUNCE ENGAGEMENT -- Mr. and Mrs. N. H. Goldsmith, Farwell announce the engagement of their daughter, Iris Mae, to Ron Beard, son of Mr. and Mrs. F. M. Beard of Grapevine, Tex. The bride elect is a graduate of Farwell High School and is a senior at Abilene Christian College. Her fiancé attended Abilene Christian College and is presently employed in Grapevine. The couple are planning a late summer wedding.

Recent Bride Is Shower Honoree

The home of Mrs. C.C. Christian was scene for a bridal shower honoring Mrs. Shelby Jolley (Velda Paine) on Tuesday evening. Assisting with hostess duties were Mesdames R.E. Blankenship, Leon Billingsley, E.W. McGuire, Raymond Martin, W.N. Foster, Melborn Jones, L.L. Cooper, Clyde Perkins, Sam Billingsley and Wendol Christian.

Serving table was centered by an arrangement of pink roses and pink and white wedding bells. Frosted pink punch and white cake squares, iced in white decorated with minute pink confection umbrellas, further carried out the honorees chosen colors of pink and white.

Mrs. Cooper and Mrs. Perkins presided at the serving table. The honoree and her mother, Mrs. Turner Paine, were presented with corsages made from miniature kitchen utensils tied with pink and white ribbon bows.

Mrs. Paine assisted her daughter with opening gifts. These attending and sending gifts were Mesdames Troy Christian, D.C. Halle, Clarence Christian, Jim Moss, Donald Jones, Wesley Herington, Lee Meeks, Myron Hellock, A.V. Warren, J.H. McDonald, Bill Moss, Guy Cox, Turner Paine, Mabel Reynolds, T.L. Kent, Zula Rundell, J.W. Herington, E.E. Routon, Charles Felts, D. E. Routon, Kenneth Johnson, Claude Primrose, Ann Smith, Earl Billingsley and Hugh Moseley.

Mrs. Rosa Bradley, owner and operator of Bradley's Beauty Shop who had surgery recently returned to her home on Tuesday. Her condition is satisfactory and she hopes to be back on the job before many weeks have gone by.

Chris Moss, Society Editor --- Phone 481-3681

Velda Paine-Airman Jolly Married In Home Ceremony

The back yard at the home of Mr. and Mrs. Turner Paine was the setting on Sunday at 5:30 p.m. for the wedding of their daughter, Velda, and Airman Shelby Jolley, Cannon AFB, son of Mr. and Mrs. R.E. Jolley, Sacramento, Calif.

The Rev. Douglas Gossett, former pastor of the Oklahoma Lane Methodist Church read the double ring service in front of a setting white honeysuckle. The bride and her father, preceded by the maid of honor, approached the nuptial area from the left down a path bordered with spring flowers. The groom and bestman, Airman Dale Moore (CAFB) approached the nuptial area from the opposite direction. The traditional wedding marches were used as the bridal party approached the area.

For her wedding the bride chose a street length sheath dress of white lace, designed with a high scalloped neckline and cap sleeves. Her veil of white was held by a circlet of white satin and she carried a nosegay of large white roses and miniature variegated roses, from which streamers of white satin picot ribbon cascaded.

Following tradition she wore for something old and borrowed, a Cameo necklace belonging to her grandmother Paine. The necklace has been worn by each of the Paine granddaughters at their respective weddings. New was her wedding dress and blue the traditional garter.

The maid of honor was attired in a street length sheath dress of pink linen. Her accessories were white and she carried a miniature nosegay of roses similar to that of the bride.

Mrs. Paine chose for her daughter's wedding a green lace dress with white accessories. Her corsage was of pink carnations. The groom's mother was unable to attend.

AIRMAN AND MRS. SHELBY JOLLEY

A reception was held in the living room at the Paine home immediately following the ceremony. Serving table, at which Mrs. Leon Billingsley and Mrs. J.W. Herington, aunt of the bride presided was laid with white lace over pink and centered by the tiered wedding cake which was decorated in pink and white and topped by a bride and groom figurine. The cake was served with floating punch or coffee, mints and nuts. Silver and crystal table appointments were used.

When the young couple left for a short wedding trip to

points in New Mexico, Mrs. Jolley wore a pink carnation corsage with her wedding attire.

The bride attended school in Farwell where she graduated in 1963. She later attended college at South Plains College in Levelland. The groom has been in the Air Force for the past four years and will receive his discharge from the service on June 14, following which the couple will leave for Sacramento, Calif. where he will be in the construction business with his father.

Attending the wedding were Rev. and Mrs. Douglas Gossett, Mr. and Mrs. Leon Billingsley, Mr. and Mrs. J.W. Herington, Ellen, Jay, Ginger and Karen, Hosea Sargent, Mrs. Dale Moore, Warren Gossett, Mrs. Donald Jones, Mr. and Mrs. Charlie Smith, A2C Joseph Nipet, Nathan Moore, Mr. and Mrs. Tom Paine, Jerald Gober, Mr. and Mrs. Mike Paine and F.E. Kepley.

Hobby Club Holds Luncheon

The Hobby Club met at a Clovis restaurant on Tuesday for a Dutch Treat luncheon, following which they made a tour of the Hillcrest Park area.

Attending the luncheon and making the tour were Mesdames Mable Caldwell, Frances Bruns, Mae Adkins, Norine Ivey, Gerlie Kirk, Delle DeLoach, Vada Bartlett, Vickie Hendrick and Hollie Briscoe.

Also Mesdames Opal Robertson, May Pattie, Jewell Barry, Ethel Harding, Ruth Bass, Mary Evens, Virgie Harding, Zula Harding, Lou Matthews, Ala Peach, Euna Mae Oswald.

Engagement Announced

Announcement is being made of the engagement and approaching marriage of Rebecca Anne (Becky) Griffin, daughter of Mrs. H.L. Griffin, Little Rock, Ark., and the late H.L. Griffin to David Lloyd Lockhart, Little Rock, son of Mr. and Mrs. John Lockhart, Texico.

The couple will exchange vows at the Second Baptist Church in Little Rock on June 18, 7 p.m.

The bride-elect is a graduate of Hall High School in Little Rock and holds a B.S. degree in education from the University of Arkansas. She is now teaching at Little Rock Air Force Base elementary school.

The groom elect is a graduate of Texico High School and received a B.S. degree from Baylor University in 1963. He is presently attending University of Arkansas School of Medicine.

Going Away Party Honors Warren Gossett

Linda and Connie Phillips were hostesses for a going away party honoring Warren Gossett on Monday night. The social was held in the dining room at Cathey's restaurant. Guests played games until a late hour after which refreshments of cake and soft drinks were served.

Attending the social were Mary Coffey, Peggy Martin, Doyle Johnson, Gilbert Dale, Warlick Dollar, Ginger Hughes, James Calloway, Peggy Eason, Donna Kirk, Dale Gober, Johnny Ackinson, Charles Norton, Larry Gregory, Jerry and Bobby Field, Sherry and Joyce Bass, Brenda, Glida, and Jill Cathey, Gary Blain, Linda Gossett, Johnny Schell, Jerry Childs, Sherry Billingsley, Larry Donaldson, Bruce and Janis Billingsley, Phyllis Christian, Donna Rundell, Carolyn Lindop, Gwen and Lannell Christian, Richard Hasehoff, Al and Ty Phillips, Rev. and Mrs. Douglas Gossett and Mr. and Mrs. Bunk Phillips.

Warren will leave Oklahoma Lane this week to make his home at Hart, where his father will serve as pastor of the Methodist Church.

Visiting in the home of their grandparents Mr. and Mrs. Olan Schlueter last week were David, Diana and Debbie Payne, children of Rev. and Mrs. Richard Payne. They were joined later in the week by their parents for a brief visit in the Schlueter home.

Mr. and Mrs. Loyd Routon, Farwell wish to announce the approaching marriage of their daughter, Julie, to Jack Milligan, son of Mr. and Mrs. Ray Milligan, Littlefield. The couple will exchange wedding vows at the Oklahoma Lane Baptist Church, Tuesday, June 15, 8 p.m. They plan to make their home in Littlefield.

Attends Shower In Alamogordo

Mrs. C.G. Davis was in Alamogordo on Monday evening to attend a pink and blue shower for her daughter, Mrs. Skip Bryan. Ladies from the Church of Christ were hostesses for the social.

Mrs. Davis went to Alamogordo on Thursday and spent several days visiting with her

daughter and sight seeing in the area before returning home on Tuesday.

SAYS COUNTY AGENT --

Emergency Broadcasting System More Efficient Than CONELRAD

Under the new Emergency Broadcasting System (EBS), formed after the abolition of CONELRAD in May, 1963, radio stations will stay at normal power on their regular frequencies when an emergency does arise, according to Joe Van Zandt, county agricultural agent.

Under the old CONELRAD system, all authorized radio stations were to broadcast emergency information on 640 and 1240 kilocycles.

Obviously, transmission on these two frequencies would have been coming from transmitters all over the country at the same time. This was done purposely to confuse the guidance systems of enemy aircraft trying to follow radio beams to particular locations.

Missiles and bombers now use fewer, better, and more sophisticated guidance systems. Because of these increased capabilities, CONELRAD was discontinued by the Federal Communications Commission.

CONELRAD had some other serious weaknesses. Many rural areas were so far from a CONELRAD station that people could not hear emergency test instructions during the real emergency. Others, living near two or more stations, could not understand either station when they both started broadcasting on the same frequency.

Under EBS, stations which hold National Defense Emergency Authorizations will stay on the air during emergencies. All others will close down. The EBS stations will identify themselves by area rather than call letters. These stations will cover more of the country than CONELRAD did and broadcasts will not interfere with each other.

The EBS stations will have built-in fallout protection and will be able to stay on the air 24 hours a day during an emergency. Most will have emergency generators in case their regular power supply fails.

Corn on the William Growmosky farm (the R. D. Rule place) west of Hub on the Dimmitt Highway has grown like a weed in the past week. The picture above shows the crop on May 21 (corn can hardly be seen above the lister ridges); Lower picture shows the same crop one week later (May 28). The crop was planted during the last week of April says Growmosky.

At Home In Farmer County
By CRICKET B. TAYLOR
County HD Agent

CORRECTION PLEASE -- Recently in this column the recipe of "Refrigerated Muffins," appeared. Through error, one ingredient was left out. This was the "5 teaspoons of soda." Add this and all will be well. Sorry this happened but as someone said "The biggest room in the world is the room for improvement" and it does seem that applies to this column too.

Foods & Medical Quacks - Health hucksters are using "scare tactics," to sell their minerals, vitamins and herbal preparations and other medical quackery items to American Consumers.

One of the target audiences of these propagandists and "quacks" is the older American - those who are 65 or over. According to the Food and Drug Administration representative these food and medical "Quacks" are bulking American consumers "to the tune of a half billion dollars annually."

These "quacks" descend upon the public in the form of health food lecturers, mail order promotions, health writers and door-to-door salesmen. They are quite skilled at their trade, and generally just barely stay within the law-knowing full well that the public can be confused by pseudo-scientific double-talk. False ideas about food are their stock in trade and all too often, the older citizens are their victims.

The Food & Drug Administration carries on a constant

THE HIGH PLAINS FARM AND HOME

READY FOR PLANTING -- A workman on the R. G. Sparks farm in the Bovina area runs a rotary hoe, sweep attachments and a drag to rid the land of weeds, in preparation for planting of maize, soon to begin. Planting in the area is later than usual.

On The Farm In Farmer County
By JOE VANZANDT
County Agent

All the wind we have had since our rains have sure helped dig things out. We are coming down the home stretch on this year's wheat crop. In a matter of 2 or 3 weeks we should be hearing the hum of combines.

Several farmers asked me what I thought about watering some of this wheat the later part of May. There is not one sure-fire, cure-all answer as I see it. There are several considerations and the safest alternative would probably be not to water again. That is providing there was enough moisture to make your wheat crop.

If you watered, it might rain also, or you might get it on too late and have trouble getting the land dried out to get combines in.

GRASS MANAGEMENT
Deferred grazing is one of the best practices available to stockmen for improving the condition of native grass pastures. It is nothing more than the removal of livestock from a pasture for a part of or preferable the entire growing season to allow the grass plants to resupply food reserves in the root system, make top growth to produce food, and produce seed for natural reseeding.

Native ranges in the county have declined to condition during the past two growing seasons due to lack of moisture. Most range grasses need an opportunity now to reestablish themselves and deferment will give them that chance.

Coupled with deferment, attention should be given to the balancing of cattle numbers with the forage being produced in order to get the best use from the forage. Proper use of the forage results in an accumulation of litter on the soil surface which is not wasted forage but an aid to more efficient water use, soil stabilization and improved soil fertility. Call the County Agent if you would like assistance on planning a deferred grazing program.

COTTON INSECTS
Cotton growers need to be checking their cotton for thrip damage. We can expect to see some thrip damage in cotton about now.

Good cotton insect control just doesn't happen. It must follow a plan. The planned program must include use of the right insecticide at the right time, in the right amount, and in the right way. Then when you are right all the way, you can't be wrong.

In order for cotton producers to have the latest available information on insect control methods and recommended insecticides, Experiment Station and Extension entomologists at Texas A&M University working with their U. S. Department of Agriculture counterparts annually provide this current information.

The information was recently released by the Texas Agricultural Extension Service as L-218, "Texas Guide for Controlling Cotton Insects." Also, in order to further localize the recommendations, guides have been prepared for our High Plains area.

Copies of the publications

fiency.

When non-portein nitrogen is excessive in the plant, it may combine with other elements to produce poisons that add to the complexity of the nitrate poisoning. One of those compounds is nitrogen dioxide, a brown or yellowish-red gas, heavier than air, which form in silos when high nitrate plants are ensiled.

In the past 10 days several wheat fields have turned up with dead or dying spots in them. Samples from some of these fields have been identified as having Foot-rot-Root-rot.

We suspect that other fields we have heard about have this same Foot-rot problem.

Affected plants may occur singly, in small circular spots, or in large areas in the field. Roots, crown and lower stalks are rotted. Plants mature early and are usually stunted with little grain.

Near maturity, affected plants are killed and appear as "white heads" in the field. These "white heads" may be in spots, scattered throughout a field, or a combination of both.

In West Texas Foot-rot is caused largely by soil-borne fungi.

Crop rotation with non-grass crops is desirable. Get rid of crop residues as fast as possible by plowing under straw so it will rot quickly. Summer fallow infected fields is a good practice to follow. Probably cotton should be the next crop grown on infected fields and it will be better if this is grown after leaving the ground fallow for a season. We suggest you plant cotton because it is a low residue crop. Grain sorghum would not be a good crop to follow with.

Anyone needing assistance with a field that has dead spots in it should contact the County Agricultural Agent, Joe Vanzandt, in Farwell.

Texas farmers and ranchers sold crops, livestock and livestock products during March for \$116.7 million. The Texas Crop and Livestock Reporting Service said this was 5 per cent below sales for the same month in 1964.

Foreign Markets Important To Plains Cotton Growers

Mills in the Cotton Belt's Southeastern region account for 90 per cent of the U. S. domestic cotton consumption, but the region produces only 13 per cent of the crop. Other regions supply the needed cotton, and, says Fred C. Elliott, Extension cotton specialist at Texas A&M University, the Southwest region—Texas and Oklahoma—supply the smallest percentage.

He says a U. S. Department of Agriculture study of destinations and types of transportation used to move raw cotton during the 1961-62 season showed that 47 per cent of the total season movement was to Southeastern mills. Also that 29 per cent went to ports for export or reconcentration, 13 per cent moved in intrastate traffic, 4 per cent was shipped to interior concentration points, 3 per cent went to Canada and 1.5 per cent to northern consuming centers.

Practically all cotton produced in the Southeastern region moved to mills within the region. Nearly three-fourths of that from the South Central region moved to Southeastern mills with about 10 per cent going to New Orleans for export.

Almost half of the Western region crop went to the Southeastern mills and most of the remainder was exported from California and Texas ports. Japan received about half of the region's exports.

The Southwestern region moved 55 per cent of its raw cotton to Texas ports with Japan

the leading export destination. Only about 30 per cent of the crop went to Southwestern mills.

Elliott says this study further emphasizes the importance of foreign markets as major outlets for Texas and Oklahoma produced cotton. Also that staple length is an important quality consideration.

Improvement Conference Set On Beef

More than 400 persons from 25 states will attend the Co-ordinated Beef Improvement Conference here July 19-20.

The session, to be held at Texas A&M University and the nearby Ramada Inn, is a combination of A&M's annual Livestock and Meat Marketing Institute and the Beef Cattle Shortcourse.

Ed Uvacek, Extension livestock marketing specialist in the A&M Agricultural Economics and Sociology Department, said the general theme is "Economic Opportunities in a Changing Market for Cattle and Beef."

The conference is sponsored by the American National Cattlemen's Association, Texas and Southwestern Cattle Raisers Association, and Texas A&M.

Uvacek said a special feature is a series of five workshops dealing with coordination of marketing volume and quality and its effect on price, reducing cost and waste in cattle and beef marketing, education of and meeting consumer needs, coordination of market information, and alternative systems for marketing cattle and beef.

Three noted economists will head a speaking lineup of more than 25 beef industry leaders. The economists are George L. Mehren, assistant secretary of agriculture; Raymond J. Doll, vice president and senior economist of the Federal Reserve Bank in Kansas City; and Paul L. Farris, project leader in meats and poultry for the National Commission on Food Marketing.

Another special attraction, Uvacek said, is a cattle futures forum.

APPLYING FERTILIZER -- Workmen on the farm of Roy Allen in the Rhea community are applying dry fertilizer and liquid fertilizer in one operation. 200 lbs. of dry fertilizer and 125 lbs. of the liquid preparation is used per acre. Possibly cotton will be planted on the land when the fertilizing operation is finished, said the workman.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Not long ago Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., pointed out that this year's increase in carryover of cotton was the result of a drop in exports. And further stated that: "The level of cotton exports is set largely by administrative policy, not by the cotton program in effect at the time."

Now, from Congressman Jamie Whitten (D-Miss) comes proof he is not alone in that sentiment. Whitten, Chairman of the House Subcommittee on Agriculture and member of the Committee on Agricultural Appropriations, sent the following on exports along with the Agricultural Appropriations bill for 1966:

"For the past 15 years, the Committee has done everything possible to encourage and require exportation of U. S. agricultural commodities and has continued to insist that such commodities be offered continuously in world markets on a competitive basis. During those years when U. S. commodities have been kept competitive, export sales have increased substantially and the pressure of surpluses has been removed from the domestic markets."

"Despite unlimited authority

to sell competitively in world markets, the Department's failure to sell competitively in the early 1950's caused CCC commodity inventories to increase from \$1 billion as of June 30, 1952 to \$5 billion as of June 30, 1955. During this period, CCC holdings of cotton increased from \$418,000 to \$1.2 billion.

"In 1955, at the insistence of this committee, the first cotton was offered for sale abroad for dollars on a competitive basis and one million bales were sold in a few weeks. Subsequently seven million bales were sold soon after offered. Then in 1956, despite this most satisfactory experience, the Department took steps to again hold U. S. cotton off world markets. This caused Congress to enact the Export Sales Act of 1956 requiring sales for dollars to regain and retain the U. S. historical share of world markets."

"Notwithstanding this legislation, the Department in 1958 again refused to offer cotton at competitive prices, which the Comptroller General ruled to be a violation of the 1956 Export Sales Act. Cotton exports again dropped -- from 7.6 million bales in 1956 to 2.8 million bales in 1958. This action cost the CCC and the American taxpayers hundreds of millions of dollars and did great damage to U. S. cotton producers."

"In 1959, under increased pressure from Congress, competitive sales were reinstituted and exports again increased to a level of 6.5 million bales in 1959."

"The export sales act of 1956 referred to above also requires the Secretary of Agriculture to establish an export goal at the beginning of each year and, in the opinion of the Committee, requires him to announce such figure to the public. No such goals have been announced in recent years, despite the provisions of the law. This has had a depressing effect on U. S. exports. While the historical U. S. share of world cotton markets is around 6 million bales annually and while the law requires the export of this amount, cotton exports dropped to 3.3 million bales in 1962, 5.6 mil-

lion in 1963 and 4.4 million in 1964. If the U. S. had maintained its fair share of world markets for the last three years supplies on hand would be almost 5 million bales less."

The Appropriations Committee report continued by saying: "In view of these factors, the Committee insists that the Department (1) return to offering commodities for sale on a competitive bid basis, (2) make 'payment in kind' payments from commodity stocks in lieu of cash payments, and (3) conform to the Export Sales Act of 1956 by announcing to the world the quantity of cotton the U. S. will sell each year on world markets." The report also said exports should be made from private stocks and handled through private channels where possible and from Government stocks when necessary.

The other day Secretary of Agriculture Freeman said Congressman Cooley's new cotton bill would "not encourage any substantial increase in cotton exports." In view of the success of past sales of cotton on a competitive bid basis and the Department's long standing unlimited authority to sell competitively in world markets, many will view this as curious comment.

If the Secretary is truly concerned about raising the level of U. S. cotton exports, perhaps he should consider (1) taking the Appropriations Committee report seriously, and (2) complying the provisions of the Export Sales Act of 1956.

Ice cream may be stored in the refrigerator for a short time, usually from one to four hours; in a refrigerator-freezer combination for longer storage, ranging from several hours and up to one week or more; and in the home freezer for still longer. For refrigerator storage, transfer the ice cream from its carton to a clean, dry ice cube tray. Cover tightly with foil or plastic film, then turn temperature control to the coldest setting. In a refrigerator-freezer or home freezer, store the ice cream in cartons as it comes from the store. The ice cube tray method can be used in the refrigerator-freezer unit also.

A cellulose sponge makes a good clothes brush, and it can be washed clean.

Many Factors Involved In 'Good Food Buymanship'

Good food buymanship covers many factors.

It means shopping carefully and using all the food knowledge you have available, says Mrs. Gwen Clyatt, Texas A&M University Extension consumer marketing specialist. It also involves keeping in mind the likes, dislikes and nutritional needs of your family, she adds.

"Food buymanship also includes an honest assessment of the value of your time for both cooking and shopping. Reading food product labels and taking time to do a little calculation to determine cost per pound and cost per serving are other aspects of good buymanship," Mrs. Clyatt says.

To qualify as a good buyer of food, you may need to get bet-

ter acquainted with your food store in order to determine the best days and times for shopping, the store layout, and the brands that are carried.

Good food buymanship actually doesn't stop at the store, but follows you home with your purchases. "It means getting home quickly after you buy -- and storing the food items properly as soon as you get there. These practices will help you to get the most from the food dollars you spend," says the specialist.

This week, check retail meat counters for best beef values on arm and blade pot roasts and steaks, round steaks and roasts and ground beef. Pork values include end-cut pork chops, picnics, smoked hams and shoulder roasts. Fryers are the biggest value in the poultry department, and Grade A large eggs are good buys.

Fresh fruit and vegetable items in good supply at moderate price levels include bananas, apples, oranges, some strawberries, watermelons, pineapples, sweet corn, mustard greens, new red potatoes, carrots, squash, green peppers, radishes, green onions and turnips and greens. Head lettuce supplies have increased slightly.

Increased milk supplies provide for plenty of between-meal treats and mealtime drinks.

DID YOU KNOW THAT?

It is a violation of the law to either carelessly or deliberately set on fire the lands of another. In 1931 the Legislature made it a felony for a person to deliberately set fire to grass or forest land owned by another. They also enacted a law making it a misdemeanor to negligently set, or cause to be set on fire, the lands of another. The Texas Forest Service is primarily responsible for enforcing these statutes.

The residence of the president of the U. S. was first called the White House in 1811, but not until Theodore Roosevelt put the name on stationery in 1902 was it made official.

HAY BALING OPERATION — The hay raking and baling operation on the George Jones farm, three miles north of White's elevator in the Hub community, was halted temporarily on Friday due to drying out of the alfalfa. Baling operations were resumed early on Saturday morning when the feed was moist. Jones has 25 acres of the fine hay (his first attempt at raising alfalfa). The hay is used for feed for cattle and horses.

Baking Part Of Research On Radiation Effects

A Texas Aggie has been baking angel food cakes in modified coffee cans as part of his graduate research work on radiation effects.

Hershell Ball, a 23-year-old graduate student from Burlington, Texas, is studying the effects of gamma radiation on the physical and functional properties of egg whites.

"Very little bacterial contamination occurs in fresh eggs," Ball explains. "However, when the egg is removed from the shell, chances for contamination increase several fold."

Eggs, either the whites, yolks, or blends, can be pasteurized by heat, similar to the process used to pasteurize milk. Scientists have recently discovered that gamma radiation can also be used effectively for pasteurization of eggs.

Gamma radiation is an energy, just like heat or light is an energy. Certain levels of gamma radiation will sterilize the exposed egg.

The poultry science student is trying to determine the effects of radiation pasteurizing on egg white performance by baking miniature angel-food cakes. He has baked over 200 of the coffee-can-cakes in his studies.

Ball checks the volume of foam when the radiated egg whites are whipped. The stability, viscosity, surface tension and other characteristics of the egg whites, radiated and non-radiated, are checked to determine the effects of radiation pasteurization on their functional ability. The volume,

Almost 40 per cent of the nation's labor force works directly or indirectly in the agricultural industry. About 8 per cent of the nation's population does the world's finest producing job; another six million people work at supplying the goods and services needed by farmers and their families and 10 million other transport, store, process, service and sell farm products.

Least understood, yet the most vital piece of equipment for the fisherman, is the hook.

Most anglers are casual in their selection of hooks. Yet the hook is the primary link between fisherman and quarry. More fish are lost because of inferior hooks than any other piece of equipment.

In any sporting goods store there will be countless bins of different hooks. Offhand, most of them look pretty much alike. But upon closer inspection you'll find that all differ in one or several respects. A seemingly insignificant thing like the point can distinguish whether or not a hook is run-of-the-mill or quality merchandise.

A poorly manufactured hook has a conventional round bend, has a point which won't hold its sharpness and rusts easily. When you buy a cheap hook you get just what you pay for—a hook that will lose its sharpness after one or two fishing trips. And unless you inspect the point periodically, dullness may cause you to miss fish.

For example, when angling with live minnows you should use a thin-wire hook, preferably one with a wide bend. A heavy-shanked hook wounds the bait, often mortally. On a thin-wire hook the minnow will remain alive much longer.

With a wide bend hook, the point extends farther beyond the minnow and allows easier hooking of a fish that might take the bait.

Most common hook is the ordinary round bend hook. But hooks with a more oblong shape, like the Eagle Claw, are very popular among Texas fishermen.

Two of the more common hooks are the Aberdeen and the Carlisle. The Aberdeen (a style of hook and not an exclusive brand name) usually is made of thin wire with a large bend. The Carlisle has a long shank and a round return bend and is made of regular wire.

Basically, hooks come in three shank lengths: short, regular and long.

Size of the hook is important. A general tendency among fishermen is to employ hooks that are too large. Even a small hook will catch big fish if the fisherman plays the catch properly and knows how to handle his equipment efficiently.

A perch or bream fisherman, for instance, might select a No. 6 hook when a smaller No. 10, would be far more appropriate.

What goes with this numbering system? Largest numbers for smallest hooks?

Well, hooks are graded according to different sizes, designated by numbers. In the smallest sizes, hooks range from No. 1 to No. 22 (the latter is the tiny one kids catch minnows on). The larger sizes run from 1/0 up to about 20/0. The difference between a No. 1 and a No. 1/0 is four sizes, so don't confuse the two.

Basically, hooks have one of three different bends—round, parabolic and square, or variations of the three. The Aberdeen, as an example, is slightly square, while the O'Shaughnessy is parabolic.

You don't see extremely square hooks anymore since

Safe Driving Starts At 35, Years That Is

Life may begin at 40 but safe driving starts at age 35. That was the conclusion of a survey of the Illinois State License Division, which showed that the safest automobile drivers are those between the ages of 35 and 75.

Illinois drivers in the 20-through-24 age bracket had a higher percentage of accidents than any other age group.

Wardrobe Planning Is Program

"Planning A Wardrobe" was the subject for a demonstration given Wednesday, May 26th in the Oklahoma Lane Community Center building. Cricket B. Taylor, Home Demonstration Agent of Parmer County gave the demonstration to 4-H members and Clothing Leaders of Oklahoma Lane, Lazbuddie and Farwell. Twenty members, six leaders and two visitors were present.

Group work has started in clothing projects. "Wardrobe Planning" is part of the subject matter to be studied, Mrs. Taylor said.

To have clothes appropriate for the occasion, and suitable to the individual, requires knowledge of color, line and design, Mrs. Taylor pointed out. Another point given emphasis was that clothes to suit the occasion must not only make the individual attractive but functional and comfortable.

Those 4-H members attending were: Irene & Bessie Bowery, Carolyn Herington, Lynn & Joyce White, Maxine & Patience Broyles, Delayne Steinbock, Ann Blackstone, Kathy

During the past 25 years Texas Forest Service tree nurseries have produced almost 400 million pine seedlings. Such a quantity is sufficient to plant a strip of land 100 feet wide, almost twice around the earth at the equator. Both pine and hardwood seedlings are sold to Texas landowners at a nominal cost each winter. They are made available only for reforestation and windbreaks.

Outdoor Look Is Popular This Summer

The outdoor look is "in" this summer, and women's fashions are capitalizing on many aspects of this trend.

Young and active looks are found in every sportswear category, says Lynn Parks, Texas A&M University Extension consumer education specialist.

"You may be a surf-watcher instead of a surf-rider, but you'll find the nation's newest beach sport is an important influence in swim wear designs. The surfing look is reflected in many tailored two-piece suits," Miss Parks says.

These suits feature such surfer design notes as flap pockets, lace-up ties at the waist, and boy leg trunks banded with white fabric trim. Suits come in sturdy cotton denim, madras plaid, and duck.

Because real surfers like their suits to look faded, one new swim wear fabric is an all-cotton twill with a special weather-faded look.

Another popular trend in sportswear is the nautical look. Both sailors and non-sailors will take to one trim-fitting sports outfit — bell-bottomed pants and blazer jacket in cotton sailcloth.

For riding the range — on horseback or on the seat of a bicycle — there's the ranching look. It's interpreted in cotton stretch wrangler pants and Western-tailored shirts. And, whether you're a golfer or not, you'll like the casual comfort of stylish new golfing culottes, worn with cotton knit T-shirts.

"Just For A Smile"

"I'm sorry we're so late getting home," said the husband to the babysitter as the couple returned home later than expected.

"Don't apologize," replied the frazzled sitter. "If I had a kid like yours I wouldn't be in a hurry to get home either."

Special for new gardeners: The nicest thing about growing a first year garden of annual flowers is that any mistakes you make will be wiped out by frost. More permanent plants need to be moved if set in the wrong place — not so annuals.

Bigger and better crops of muskmelons result when the plants are kept mulched with black plastic. Try it!
