ASS'N. MINUTES

Final Report of the Seventeenth Annual Re-Union of the Erath & Comanche Ex-Confederates

The seventeenth annual session of the Erath and Comanche Ex-Confederate association convened in the city of Dublin, August 2nd to 4th, 1905.

The association was called to order by Col. T. O. Moore.

Prayer by Rev. E. L. Compere.

Music by the Weatherford concert band.

It was moved and adopted that a secretary be elected to fill the vacancy created by the death of Capt. R. A. Rich. J. M. R. Stephen was nominated and elected by acclamation.

The welcome address was delivered by Mayor R. B. Spencer and Dr. J. G. O'Brien extended a cordial welcome in behalf of the Park association.

Response by Col. T. O. Moore, president of the Ex-Confederate association.

It was moved and carried that a committee of three be appointed on Memorial services, and the following were selected: Jas. A. Shelton of Stephenville, Bruce Terry of De Leon and J. G. O'Brien of Dublin.

On motion it was agreed that the memorial services should be held Wednesday at 8 p. m.

Adjourned to 1 p. m.

Afternoon Session.—Association called to order by Pres. T. O. Moore. Owing to the rain no business was transacted. Hon. O. W. Gillespie was called and after being introduced by Pres. Moore, delivered a magnificent address. The members of the association tendered their thanks to Mr. Gillespie by rising to their feet.

Adjourned to August 3rd, 10 a. m.

Thursday, August 3rd.—Association called to order by Col. Moore.

Music by band.

Prayer by Rev. Chas. E. Brown.

Rev. Chas. E. Brown was called on for an address and delivered the association a highly appreciated talk. On motion of Mr. Young of Comanche the thanks of the association were extended to Comrade Brown.

On motion of Comrade Young of Comanche that a book be purchased in which to record the minutes of all previous meetings of the association, $5.75 was raised for that purpose and turned over to the secretary.

Adjourned to meet at 2 p. m.

Afternoon Session.—Association called to order by Pres. Moore.

Music by band.

Address by Hon. C. K. Bell. The thanks of the association were extended to Mr. Bell for his clear and well defined exposition on the rights of the southern states to secede, their final downfall, the patriotism of the southern soldiers, etc.

The election of officers was then taken up and resulted as follows: T. O. Moore of Comanche, president; J. D. St.Clair of Dublin, first vice-president; Silas C. Buck of Stephenville, second vice president; J. M. R. Stephen secretary; J. G. O'Brien of Dublin, assistant secretary and treasurer.

It was suggested that the secretary furnish the Telephone and Progress with a copy of the minutes of the association and also request other Erath and Comanche county papers to copy the same. Also a copy to Thomas McRea of Fort Worth.

Adjourned to 10 a. m. Friday.

Friday, August 4th.—Called to order by Col. T. O. Moore.

Music by band.

Prayer by Comrade Whisenant.

Address by Prof. Jefferson Davis Sandifer. The address was cordially received and highly appreciated by the association.

Dues to the amount of $8.75 was collected and paid overto the secretary.

On motion that a committee of three be appointed to draft resolutions expressing the appreciation of the association toward those who had contributed to the success of this reunion, the chair selected the following: McD. Reil, E. R. Read and Silas Buck, with a request to report at 2 p. m.

Adjourned.

Afternoon Session.—Called to order by Col. T. O. Moore.

Music by band.

Resolutions, four in number, read and adopted by the association.

The association then went into what is called the "Camp Fire Talk," and two hours and a half were spent most pleasantly by the old soldiers recounting war experiences.

Resolutions.—Whereas, The old soldiers who have been spared to attend this, the seventeenth annual reunion of the Erath and Comanche Ex-Confederate association, fully realizing from observation that the Park association and citizens of Dublin have been untiring in their efforts to make our stay among them pleasant and comfortable, which is shown by their pleasant deportment and kind words, making us feel as we grow less in number that we are getting nearer to young and old.

Resolved, that we extend to them our heartfelt thanks and that we will carry with us pleasant remembrances of this, another meeting with one another in their beautiful and hospitable city.

Resolved, that the thanks of this association be extended to the speakers, Hons. O. S. Gillespie, C. K. Bell, J. D. Sandifer and Chas. E. Brown, who have so carefully recited and explained to the old veterans and to the young and growing citizenship of our great country the causes which brought on the great appeal to arms between kindred and friends, in which we did our part and in which it is possible for our sons and daughters to live in the shade of their "Vine and fig tree" as contented people.

In meeting comrades and friends in this the seventeenth annual reunion of our Erath and Comanche Ex-Confederate association among the many things that have made our stay in Dublin very pleasant, the splendid music rendered by the Weatherford Concert Band has been one special feature.

Resolved, that we thank these splendid young men for their kind and pleasant deportment toward us, as well as for the music, and that we feel proud of them as citizens of the country in which we have spent our young manhood, and we feel that we can trust our unfinished work to such men.

Whereas, these annual gatherings of the Erath and Comanche Ex-Confederate Association are for the pleasure and benefit of the veterans, their families and friends, therefore, be it

Resolved, that it is the sense of this association that the three days be used for our pleasure and the instruction of the young in the great questions when and where we made history; and,

Resolved, that these resolutions be spread upon the minutes and copies furnished the press for publication.

McD. Reil, E. R. Read, S. C. Buck } Com.

Association adjourned to meet again in regular annual session in the city of Dublin on the first Wednesday, Thursday and Friday in August, 1906.

FARMERS UNION

State Meeting is Largely Attended at Waco This Week. Elects New Executive Committee.

Capt. W. B. Whitacre of Lingleville and L. Brawner of Huckabay, delegates from Erath County Farmers Union to the state meeting at Waco this week, have returned and report a most satisfactory meeting. They say there were 182 delegates at the meeting, besides the visiting members and that these delegates represented about one hundred counties directly besides a number of other counties by proxy.

They report the election of E. A. Calvin of Wales, Texas, former vice-president, to be president and the election of the following executive committee: F. W. Davis of Cook county, M. A. Clifton of Haskell county, J. R. Loose of Harris, J. D. Jameson of Hill and Geo. W. Garner of Scurry. The executive committee elected does not include any of the old members.

MOVE FOR A UNION LABEL.

The following resolution was adopted by the state union:

Whereas, In Tarrant county we have seen the necessity for a label or design of some kind that may be used to designate the products of members of the Farmers Union; and

Whereas, Were we to adopt a design of some kind and have it indorsed by the American Federation of Labor, we would immediately gain the support of 2,500,000 of the best paid wage earners in the United States, all of whom are consumers of our products: and

Whereas, We are informed that all that is needed to gain this indorsement and support is to ask for it; be it

Resolved, That the incoming executive committee of the state union of Farmers Educational and Co-operative Union of America be instructed to adopt some suitable design that can be conveniently used to mark our products, have same copyrighted and registered; and be it further

Resolved, That the incoming president of the state union be instructed to visit the next convention of the American Federation of Labor, with the view of securing the indorsement and co-operation of its members to the end that this vast body of high skilled and well paid wage earners will seek in all markets the products of the members of the Farmers union.

After some discussion the convention adopted a resolution oppcsing the employment of convicts in competition with free labor.

BABY'S INSTINCT.

Shows He Knew What Food to Stick to.

Forwarding a photo of a splendidly handsome and healthy young boy, a happy mother writes from an Ohio town:

"The enclosed picture shows my four year-old Grape-Nuts boy.

"Since he was two years old he has eaten nothing but Grape-Nuts. He demands and gets this food three times a day. This may seem rather unusual, but he does not care for anything else after he has eaten his Grape-Nuts, which he uses with milk or cream, and then he is through with his meal. Even on Thanksgiving Day he refused turkey and all the good things that make up that great dinner, and ate his dish of Grape-Nuts and cream with the best results and none of the evils that the other foolish members of the family experienced.

"He is never sick, has a beautiful complexion and is considered a very handsome boy. May the Postum Company prosper and long continue to furnish their wholesome food." Name given by Postum Co., Battle Creek, Mich. There's a reason. Read the little book, "The Road to Wellville," in each package.

CONSIDERABLE COTTON

Warehouses at Kobe, Japan, Cannot Hold It All.

EIGHTY SHIP LOADS.

Fire Consumed Twenty Thousand or More Bales, but the Space Occupied by Them Was Refilled Promptly.

Seattle, Wash., Aug. 11.—When the Kanagwa left Kobe on her last voyage for Seattle there were more than eighty ships either at the docks of that port or lying in the offing awaiting an opportunity to discharge their cargoes, which for hte most part consisted of cotton. This commodity, according to Captain Wale of the Kanagwa, was crowding every warehouse along the water front of Kobe and overflowinig into the fields which extend back from the town.

Shortly before the departure of Kanagwa fire started in this vast amount of the fleecy staple and before it could be extinguished destroyed some 20,000 bales. Captain Wale states the loss scarcely was noticeable to the casual observer, and the space in which the burned cotton had been was filled almost immediately with other bales discharged from ships. The greater part of this cotton is the American product, although a small portion is from India. Captain Wale states a large amount of cotton weaving machinery is being installed in Japan and the manufacture of cotton fabrics is becoming a great industry in the lan do fthe mikado.

Dallas, Aug. 11.—At an early hour Thursday morning at his residence, William Heck, Jr., a butcher, thirty years old, suicided by sending a bullet from a revolver through his head, blowing out his brains. Mr. Heck had only been married a few months and his wife is visiting relatives in Pennsylvania. He has been in feeble health some time, and to the despondency resulting is attributed the cause for the rash act.

WHIPPED BY WHITES.

Comments of Jim Lawyer, a Negro, Cause Him a Flogging.

Waco, Aug. 11.—A negro named Jim Lawyer was taken from his home near Bruceville, this county, Wednesday night and given a sound flogging. This was occasioned by some statements that were made by him in condemning the whites for lynching Sank Majors. About twenty white men called upon Lawyer, and after hearing his statement whipped him, and told him that it would be better for him to hunt other climes. He took them at their word and left Thursday.

CATARRH, FOUL BREATH

If You Continually K'hawk and Spit and There is a Constant Dripping From the Nose Into the Throat, If You Have Foul, Sickening Breath, That is Catarrh.

CURED THROUGH THE BLOOD BY B. B. B.

Is your breath foul? Is your voice husky? Is your nose stopped? Do you snore at night? Do you sneeze a great deal? Do you have frequent pains in the forehead? Do you have pains across the eyes? Are you losing your sense of smell? Is there a dropping in the throat? Are you losing your sense of taste? Are you gradually getting deaf? Do you hear buzzing sounds? Do you have ringing in the ears? Do you suffer with nausea of the stomach? Is there a constant bad taste in the mouth? Do you have a hacking cough? Do you cough at night? Do you take cold easily? If so, you have catarrh.

Catarrh is not only dangerous in this way, but it causes ulcerations, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat and reaches to general debility, idiocy and insanity. It needs attention at once. Cure it by taking Botanic Blood Balm (B.B.B.). It is a quick, radical, permanent cure because it rids the system of the poison germs that cause catarrh. Blood Balm (B.B.B.), purifies the blood, does away with every symptom, giving strength to the entire mucus membrane, and B.B.B. sends a rich, tingling flood of warm, rich, pure blood direct to the paralyzed nerves, mucous membrane bones and joints, giving warmth and strength just where it is needed, and in this way making a perfect, lasting cure of catarrh in all its forms.

DEAFNESS

If you are gradually growing deaf or are already deaf or hard of hearing, try Botanic Blood Balm (B. B. B.). Most forms of deafness or partial deafness are caused by catarrh, and in curing catarrh by B. B. B. thousands of men and women have had their hearing completely restored.

Botanic Blood Balm (B.B.B.) is pleasant and safe to take. Thoroughly tested for 30 yrs. Composed of Pure Botanic Ingredients. Strengthens Weak Stomachs, cures Dyspepsia. Price $1 per large bottle. Take as directed. If not cured when right quantity is taken, money refunded. Sample Sent Free by writing Blood Balm Co., Atlanta, Ga. Describe your trouble, and special free medical advice to suit your case, also sent in sealed letter.

FEVER RECORD.

Sixty-Eight New Cases Reported on Thursday and Five Deaths.

New Orleans, Aug. 11.—Official yellow fever record up to 6 o'clock Thursday evening was: New cases, 68; total cases, 747; deaths, 5; total deaths, 124; new sub-foci, 21; total sub-foci, 151; cases under treatment, 286.

The situation does not look so good In the face of such a steady augmentation in the number of new cases and New Orleans new sub-foci. They seem to be popping up all over town and the discouraging feature of Thursday's report is that only nineteen of the sixty-eight new names are those of Italians. Quite a number of new cases appear to be secondary infection in sub-foci.

An exceedingly ugly center of infection was unearthed in St. Charles parish by Dr. Gorput of the marine hospital service. Two days ago he unearthed six cases on the Diamond plantation and Thursday he found two more cases on that plantation and eleven cases on the Reserve plantation, eleven miles further north and one case on the Sarpy plantation. It is believed that more than thirty Italians have left this group in the last week, but there is no trace of them, nor will there be unless infection should develop among them at their places of refuge. Two of the cases on Reserve plantation died while Dr. Corput was there. This plantation belongs to the Godchaux estate, and Dr. Godchaux has taken charge of the situation there and will carry out the instructions of the marine hospital service.

Five more cases have developed at Patterson, in St. Mary parish, making thirty cases in all there. While the infection was taken there by Italians from the infected district in New Orleans, the disease has spread among the residents, and several ladies and children are afflicted. Eeight of the patients are convalescent.

The city council authorized Mayor Behrman to borrow $60,000 from the fiscal agents to assist in meeting the present emergency. Ten thousand dollars is to be used in carrying on the street cleaning work in which the city is engaged and the other $50,000 is to fo to the fund asked by the government. Though not quite $250,000 has been raised all the money is available that can be used by Dr. White and his force for weeks.

ARCHBISHOP'S FUNERAL.

Services in the Cathedral Will Be as Private as Possible.

New Orleans, Aug. 11.—The arrangements for the funeral of Archbishop Chapelle were changed in view of the desire of the marine hospital service to avert the gathering of a large crowd in the infected district, in the very heart of which the cathedral stands. While the body reposed in state there Thursday night the doors of the edifice were closed and there was but the small guard of honor, composed of priests. High mass will be sung and the remains will immediately thereafter be interred in the crypt of the cathedral. It will not be generally known that the hour has been changed so there will be but a few present at the final obsequies.

ROUXEL APPOINTED.

Bishop of New Orleans Will Serve Until Selection Is Made.

Little Rock, Aug. 11.—Bishop Fitzgerald of the Catholic diocese of Little Rock, senior bishop of the province of New Orleans, has appointed Bishop Rouxel of New Orleans as the temporary successor of the late Archbishop Chapelle. The archbishop will be elected by the bishops of the province and their selection must be ratified by the archbishops of the United States, after which the appointment will be made by the pope.

Probable Successor.

Wichita, Kan., Aug. 11.—Catholic authorities here believe that Bishop Theephile Meerschaert, of the Oklahoma and Indian Territory diocese will be appointed successor to the late Archbishop Chapelle of New Orleans. The selection is made by the bishops and priests of the archdiocese of New Orleans, which includes Louisiana, Texas, Tennessee, Oklahoma and Indian Territory

TERRITORY QUARANTINE.

Muskogee, South McAlester and Other Places Put on One.

Muskogee, Aug. 11.—A rigid quarantine is on against all yellow fever infected points, while the board of health has directed the sanitary department to clean up the city. No fears are entertained of yellow here, but everything is being done to safeguard the health of the city.

Inspectors were placed on all trains and health certificates are demanded of all persons entering this city. This action was determined upon at a meeting of the council Wednesday, when the general health conditions were discussed.

South McAlester and other towns in the Territory have taken similar action.

North Texas Protection.

Denison, Aug. 11.—A physician of Dallas was in the city in conference with city authorities relative to establishing a detention camp on Red river north of Denison. The object ies to protect north Texas from an invasion of yellow fever refugees, as it is known that some of them are coming in from north through Indian Territory.

Freight Trains Moving.

Shreveport, Aug. 11.—Freight trains are moving in all directions. Mail cars will be attached to freight trains between Boyce, La., and Texas state line, where trains from Texas meet them. Mail service on the Texarkana, Shreveport and Natchez railway has been resumed.

No More Suspicious Cases.

Shreveport, Aug. 11.—There are no more suspicious yellow fever cases here. Two parties who had it will be discharged in a few hours.

LIES IN STATE.

Body of Late Archbishop Chapelle Is in Old St. Louis Cathedral.

New Orleans, Aug. 11.—Although the casket is completely closed, allowing no exposure of hte face, many people are visiting the ancient St. Louis cathedral, where the body of the late Archbishop Chapelle is lying in state and in the crypt of which it will be laid to rest on Saturday. When the death of the archbishop was announced those having in charge the funeral arrangements assumed that as the cathedral is in the infected quarter it would be advisabe to bury the remains at once, postponing the formal memorial service until later in the year. Subsequently, however, Surgeon White of the marine hospital service was called into consultation and gave his approval to a more elaborate funeral, saying there is no danger at all of infection or contagion from the body. The postponement will allow Father Souligas of New York, a nephew of the archbishop, and other relatives and distinguished clergy outside of the southern zone to come here if they desire to attend the funeral. None of the priests or bishops in the diocese outside of New Orleans and three contiguous parishes will be able to attend owing to their inability to return home by reason of the quarantines.

Papers printed Thursday the address which Archbishop Chapelle had prepared for the clergy and the people of the diocese on the yellow fever situation. It was completed on the day the archbishop was stricken. After the death of Mgr. Chapelle the magnificent residence which he occupied was completely fumigated and henceforth will be under observation until all danger of infection from it passes.

The announcement of sixty-three new cases in the preceding twenty-four hours made little impression on the public Thursday in view of the small number of deaths, people generally exl pecting for some time there would be a large quota of unreported cases turned up. The death rate for some time has been steadily declining, showinig the results of the efficient scientific treatment. At the beginning it exceeded 25 per cent, but has now dropped to 17.

Dr. Souchon is making up a list of nurses and physicians who are willing to do service outside of New Orleans. Bon Ami, Patterson and other points where there is yellow fever have asked for scientific help and the authorities will make every effort to furnish it. Both doctors and nurses are to be sent to Patterson, where there is a perfect nest of fever, though thus far of mild type. The Patterson cases are all among Italians, but it has not yet been possible to trace the original infection to New Orleans, though it is expected the investigation will show some Italians from here joined the Italian colony there.

First Vice President Thompson of the Southern Wholesale Grocers' association, after an investigation of local conditions, sent out circulars calling attention to the fact that there has been much exaggeration in special dispatches concerning the situation; that with the marine hospital service in charge there is complete confidence in New Orleans. Business with a few exceptions is moving along slowly. The truth of the mosquito theory will undoubtedly be proved and there will be practically eradication of the fever before frost comes say leading physicians.

Governor Blanchard announced the state appropriation of $100,000 to the fever fund will be advanced to the marine hospital service in sums of $20,000 each.

Thursday's early report of twelve new cases and five deaths promised a considerable total at the end of the day. One death was in the emergency hospital, the other at scattered locations.

Surgeon White announced he had received permission to re-open the detention camp at Avondale. It is to be refitted and be ready in a day or two. The camp was closed at the time Texas refused to permit passengers to go through that state without detention at the Texas state line. Railroad men are pleased at the reopening of the camp because it will contribute to the resumption of passenger traffic.

PRESIDENT GREETED.

Addresses Catholic Total Abstinance Union and Mine Workers.

Wilkesbarre, Pa., Aug 11.—The president of the United States Thursday made an address to the delegates attending the annual convention of the Catholic Total Abstinance Union of America and the members of the United Mine Workers of America. The entire trip through New Jersey and Pennsylvania was a series of ovations. Every station along the line of the Lehigh Valley railroad from Jersey City was decorated with flags and bunting and the crowds at the stations cheered the president heartily. The entire valley from Shickshinny to Pittston took a holiday. Mr. Roosevelt was in good humor and enjoyed the day as much as the most enthusiastic total abstainer or mine worker.

At Wilkesbarre there was scarcely a building in the business part or a house along the route over which the president drove that did not display the national colors. The greatest crowd that the municipality ever had within its confine was in the city and it is estimated the visitors numbered upwards of 100,000.

Dunne's Residence Robbed.

Chicago, Aug. 11.—Mayor Dunne's residence was burglarized a few hours after he returned from his visit to the east. The burglars gained an entrance to the house throug ha window, and succeeded in carrying off aobut $75 worth of linen. A servant heard the burglars, but they had slipped away before the mayor could be aroused.

Smallpox and Plague.

New York, Aug. 11.—There are eight cases of plague in Tai Tai, province of Atacana, cables the Herald's correspondent at Valparaiso, Chile. The epidemic of smallpox in Valparaiso is unchanged. Nearly 550 deaths have been recorded during the last seven days.

DAVID F. HOUSTON, PRESIDENT.

NOT SATISFACTORY.

Wu Ting Fang Greatly Regrets Boycotting of American Goods.

Pekin, Aug. 11.—Wu Ting Fang, formerly Chinese minister at Washington and now vice president of the board of foreign affairs, interviewed by the Associated Press, said that the existing regulations for the exclusion of Chinese frfom the United States were unsatisfactory from the Chinese standpoint and hence at all events, the Chinese there could not compete with

American labor. The Philippines had long been a natural field for Chinese industry, but the application of the exclusion act to the islands had changed this.

Mr. Wu expressed himself as greatly regretting the Chinese boycott on American goods, steamship and insurance companies, as it might apparently estrange the good will of Americans, which he highly prized. However, he said, the Chinese classes most concerned decided on the boycott as the only means of ventilating the question. He pointed out that the movement against Americans, though thoroughly organized by the best and most representative Chinese, was altogether pacific and was not directed against persons or property.

rovement For Expenses of War Cession of Island of Sakalin Are Most Important Items.

mouth, N. H., Aug. 11.—Reimnt for the expenses sustained prosecution of the war and the of the Island of Sakhalin conthe main features of the peace as handed by Baron Komura to e at the conclusion of the session Thursday of the plenaries in the general stores of the Portsmouth navy yard, "indemnity" carefully avert term employed being "reimnt" for the cost of the war. No fixed, the amount being disadjourned for mutual adjustetween the two countries after ese expenditures have been ed. These are the two allnt conditions and those which sian plenipotentiaries find ab unacceptable. Inacceptable as e, however, it can be stated e two principal conditions did e as a surprise to the Russian entiaries. The friendly fashion h Baron Komura explained the s before handing them to M. nd the avoidance of the use of "indemnity" in the presentaJapan's bill for the cost of the thout fixing a sum, leaves the n for negotiations and constimain hope that a final agreeis possible. Certainly the dana sudden rupture, no matter e ultimate result may be, is d by Thursday's developments. r terms are substantially what d expected, and with one, or two exceptions, could probentertained as a basis of ne. The grant of fishing rights to Japan in the waters of the Siberian lateral northward from Vladivostok to the Behring sea.

The relinquishment to Japan of the Russian warships interned in neutral ports. Finally, a limitation upon the naval strength of Russia in far eastern waters.

As a whole the terms are regarded as exceedingly hard by the Russians. In accordance with the two principal conditions which cannot be accepted under M. Witte's instructions, those relating to the limiting of Russia's naval power in the far east and the granting of fishing rights in Russian littoral are considered particularly offensive to the amour propree of their country and of such a humiliating character as to be inadmissible.

The Japanese, on the contrary, as Baron Komura announced at the conference, consider them moderate, contending that they only represent a fair compensation for the expenses of the war and the victories they have achieved on land and sea, their sole purpose being to attain the objects for which they have fought, the spoils claimed being such as they are legitimately entitled to as the result of their military and naval successes. The Russian plenipotentiaries, as soon as the Japanese terms were in their hands, called in the five expert delegates attached to the mission and spent the whole afternoon in the consideration of the terms. Meantime the conditions had been placed in cipher and cabled the czar with M. Witte's personal recommendations.

PETERS' RESIGNATION.

It Has Been Demanded by President of the Southern Cotton Association.

Atlanta, Aug. 11.—Harvie Jordan, president of the Southern Cotton association, telegraphed Colonel E. S. Peters, vice president of the association, demanding his resignation. President Jordan said:

"I have wired Vice President Peters demanding his resignation and have suspended him as an officer of the association. The public utterances of Colonel Peters through the press as vice president of the association, and his actions in Washington clearly indicate thta he is not in harmony with the present efforts of the association concerning the full and complete investigation of the bureau of cotton statistics and other divisions of the department of agriculture.

"Before taking definite action I desired the endorsement of the executive committee. I wired the information to each member and of nineteen replies, eighteen emphatically authorized the demand for his resignation."

Colonel E. S. Peters was elected vice president of the association at its organization by the New Orleans convention last year. His home is at Calvert, Tex.

Result of Old Grudge.

Harrodsburg, Ky., Aug. 11.—Sam Black, a member of the legislature, Policeman Britton and Walter Stolts, a saloonkeeker, engaged in a pistol fight on Main street. Black was shot through the head and killed instantly. Britton received a bullet through a jaw and Stolts was wounded in the abdomen.

Stings of Animals Are Similar.

In the examination of the poisonous machinery of insects and reptiles it is apparent that the destructive principle is the same in all and that the fang in all possesses a hollow through which the poison flows into the wound the moment the incision is made. The sting of the scorpion is precisely like the fang of the rattlesnake and performs its deadly work on the same mechanical principles.

A Good Precedent.

"My dear," said Mrs. Mildly as she dusted Mr. Mildly's table, "this would be a great deal cleaner world if there were not any men in it."

"If there were not," retorted Mr. Mildly, "the women would do exactly as the Lord did—hunt around for enough dirt to make a man out of."—Collier's.

More Satisfactory.

"Why don't you try to make a name that will be respected by future generations?"

"My dear sir," answered Mr. Dustin Stax, "my vainity does not go so far. I am content to make a fortune that is respected by the present generation."—Washington Star.

The Blind Man's Ears.

The degree to which the remaining senses can be trained when the sight is lost was illustrated the other morning by two blind men from a home for the blind. The men came from opposite directions, and as they approached each other a man standing on the corner was surprised to hear one of the blind men say: "Hello, Ed! What are you doing out this morning?" When the blind man was asked how he had known the other with a distance of five yards between them he answered: "By the sound of his cane, of course. I can tell at the distance of half a square the tap of the cane of any man in the home."—Philadelphia Record.

Grief and White Hair.

The mustaches of Henry III. of Navarre are reported to have become partially white in a few hours after hearing of the concession of the edict of Nemours. The hair of an English banker, owing to reverses in business, became gray in three days, according to the Encyclopedia Metropolitan. According to the same authority, a man about forty years old, who at his marriage had a dark head of hair, "on his return from his wedding trip had his hair turn so completely snow white, even to his eyebrows, that his friends almost doubted his identity."

VOLO FELL.

Failed to Jump the Gap and Is Probably Fatally Injured.

Helena, Mont., Aug. 10.—Volo, the bicycle-rider with the Barnum & Bailey circus, who jumps the gap during the performance, failed to do the trick here and fell to the ground. He was unconscious for half an hour. The physicians said they feared he was internally injured and would die. He left Helena with the circus, in charge of a physician.

Volo's true name is Tom Butler. His wife loops the loop in an automobile and she followed with her turn immediately after the accident to her husband.

Saved All but One.

Honningsvaag, Norway, Aug. 11.—The Arctic steamer Terra Nova, which went to the relief of the Fiala Ziegler polar expedition, rescued Anthony Fiala and all others connected with the expedition with the exception of one Norwegian seaman, who died from natural causes. The ship America which took out an expidition was crushed in the ice early in the winter of 1903-04 and lost with a large part of her coal and provisions.

New York, Aug. 11.—J. T. Cowan of Dallas, Tex., who came here to recover 160 acres, which includes part of Central park, says six wealthy men have offered him $150,000,000 for a controlling interest in the property. He did not accept the offer, which was a cash one, although he has power of attorney to do so.

DROWNS DAUGHTER.

Mother Then Shoots Her Husband and Takes Carbolic Acid.

New Albany, Ind., Aug. 11.—Mrs. Chester Winstanley, while temporarily insane, drowned her eight-year-old daughter, Ruth, by forcing her into and holding her under the water in a bath tub. Grabbing a pistol, she shot and dangerously wounded her husband and then swallowed a quantity of carbolic acid, dying an hour later. Mr. Winstanley may recover.

New Peach Blight.

Denison, Aug. 11.—A new blight has been discovered among peaches grown around Denison. One grower, Frank Mikels, east of the city, has lost from 2500 to 3000 bushels of peaches this season, and others have lost heavily.

WHAT SHE PLAYED.

The Last Music That Theodore Thomas Heard on Earth.

During the last illness of Theodore Thomas, although he was not at any time unconscious or delirious, he hardly noticed the members of his family as they came and went at the bedside. But one morning he seemed to be better.

He made little jokes with the doctors and his sons and talked about his White mountain home. At 12 o'clock he seemed tired. The editor of his autobiography says that he sank into a dreamy state, and then roused himself to say to his wife in a lingering, ecstatic voice:

"I have had a beautiful vision—a beautiful vision!"

Then he drifted off into silence.

His wife thought he was tired and went downstairs to luncheon, but chiefly with the purpose of leaving him to rest. He had given her a chime of bells, to be used in summoning the family to meals, and because of his illness they had never been rung in the house. Now, because he seemed so much better, she played on them a little bugle call that came into her head.

"Do you know what you have played?" asked one of the family. "Taps—the call that is sounded over the graves of dead soldiers."

She rushed back to the bells and played the call engraved on a metal plate above them. Afterward she found that this was reveille, the soldier's signal to rise.

So it had chanced that the last music Theodore Thomas heard on earth had been symbolic of death and the resurrection.—Youth's Companion.

THE DAINTY WASP.

Apparatus With Which He Makes His Complicated Toilet.

"Wasps are exceedingly dainty in their habits," says a writer in the Pilgrim, "and, in order that they may gratify their instinct for neatness to the utmost, nature has provided them with a set of marvelously delicate combs and brushes. If we look closely at the wasp's legs we will find that each bears on its outermost long joint two small, movable spines, known as the apical spurs, and if we examine these with a magnifying glass each is seen to be provided with a row of fine teeth, so that the apparatus answers for a coarse and fine toothed comb.

"The tidying up process consists of various perfectly definite steps, usually taking place in a particular sequence. First, it passes both front legs over the face from above downward, and after repeating this movement several times draws them through the jaws. This is to remove any foreign substance which may have collected on them. The legs are then passed backward from the forehead, much as we should smooth back our hair. The wings are then stroked again and again from the base to the tip, although the most careful observer would fail to detect anything upon them. The abdomen is next carefully stroked from base to tip until every hair points in the right direction and a gloss as fine as satin is attained Last of all, each of the six legs, in turn, is laboriously drawn between two of its fellows, so the wasp is once more ready to face its world."

A Story of Washington.

George Washington's head gardener was from some European kingdom, where he had worked in the royal grounds. But coming to America he left his wife behind. Homesickness for his "gude" woman's face soon began to prey on him, and Washington noticed the anxious eye and drooping spirits of his servant. Finally the man went down to the river and declared his intention of shipping to the old country, when who should come up and lean over the side of a newly arrived vessel but his wife. The kind hearted general had secretly sent for the woman, and she fortunately surprised her loving husband in one of his fits of despondency.

A Startled Guest.

Mme. Patti took elaborate precautions against burglars at Craig-y-Nos, her castle in Wales. A guest there who was spending a sleepless night rose before dawn to open his bedroom window. Immediately there was a violent ringing of bells in different parts of the castle. The visitor made his way downstairs, only to find himself in imminent danger of being lacerated by a whole troop of snapping and snarling dogs. It turned out that he had unwittingly set the diva's patent burglar traps going, the dogs being released from their chains by an electric connection with the window.

Cats' Eyes.

What is the correct color for cats' eyes as related to the color of the cats? is the question which has been answered as follows: A black cat or one known as a "blue" cat should have amber or orange eyes. White cats must have blue eyes, chinchillas green, though orange are permissible; orange, cream or fawn cats must have orange or hazel eyes; smokes, orange eyes.

Belated Advice.

"That coat looks shabby," remarked Hicks to his intimate friend, the poet. "Why don't you have it turned?"

"Do you think this coat has three sides?" asked the impecunious one sadly. And nothing more was said on the subject.

Patriotic.

"That horrid Uxorly has married again?"

"Yes, and he's awfully fond of his latest wife. He says she's his glorious fourth."—Chicago Tribune.

The haughty are always the victims of their own rash conclusions.—Le Sage.

YOUTH IS CONTAGIOUS.

And Young Wives, It Is Claimed, Rejuvenate Old Husbands.

"Strange statistics," said an insurance agent, "are collected in my business.

"I have found that the more times a man marries the younger in comparison with himself he wants his wife to be. For instance, his first wife on the average is four years younger than he. His second is ten. His third is twenty or thirty.

"What do these statistics prove? Do they prove that as a man gains in years and experience he finds that it is best, for many reasons, to be almost as old as his wife's father, or do they only prove that as men approach old age they are more foolish than they were in youth?

"Old X., aged seventy, with a third wife of twenty-three, said on this head the other day:

"'You can't marry a girl too young. The younger she is the longer she'll keep her health and strength and beauty. Furthermore, the older you are the more respect she'll have for you. She'll reverence you and obey you as she would her own father or grandfather.'

"Young wives rejuvenate old husbands," the insurance agent ended. "They make these old fellows dress younger, talk younger, act younger and feel younger. Youth is contagious. A young wife is believed to prolong an old husband's life. If a man of seventy insured in my company should marry a girl of twenty, I'd consider him a better risk by 8 per cent than he had been before."—Philadelphia Bulletin.

A CAUTIOUS ELEPHANT.

The Sagacity Displayed by the Animal When Near Quicksand.

One elephant which an officer of the Royal artillery lent to assist in extricating some camels which were being engulfed in the quicksands showed an amount of sagacity which was positively marvelous. It was with the utmost difficulty that we could get him to go near enough to attach a drag rope to one camel I wanted to rescue. In spite of our being about fifty yards from the bank of the river, he evinced the greatest anxiety, while his movements were made with extreme caution.

Despite coaxing, persuasive remonstrance and at last a shower of heavy blows dealt upon his head by the exasperated mahout, this elephant stubbornly refused to go where he was wanted, but with his trunk shoved out in front of him kept feeling his way with his ponderous feet, placing them before him slowly, deliberately and methodically, treading all the while with the velvety softness of a cat and taking only one step at a time. Then suddenly he would break out into a suppressed kind of shriek and retreat backward in great haste.

When the animal had nearly completed a circuit of the ground with the same caution and deliberation, he advanced to within ten yards of the poor camel, but not another inch would he move, though several men were walking between him and the camel without any signs of the ground giving way.—"The Camel," Major A. G. Leonard.

A Daily Mystery.

A man whose income is $50 a day lunching alone in a fifteen cent restaurant and a clerk whose income is $50 a month lunching with a young woman in a restaurant where the cash register doesn't ring up anything under $1. Which is cause and which is effect? Does the fifty-dollar-a-day man lunch thus cheaply that he may be reminded of troubles on earth, or does the fifty-dollar-a-month man dine thus expensively because he wants to forget? Or is the one a fifty-dollar-a-day man because he is careful and the other a fifty-dollar-a-month man because he is a spendthrift?—St. Louis Post-Dispatch.

Sensitiveness of Plants.

Darwin gave it as his opinion that some plants can see, and an Indian botanist relates some curious incidents which tend to verify the belief. Observing one morning that the tendrils of a convolvulus on his veranda had decidedly leaned over toward his leg as he lay in an attitude of repose, he tried a series of experiments with a long pole, placing it in such a position that the leaves would have to turn away from the light in order to reach it. In every case he found that the tendrils set themselves visibly toward the pole and in a few hours had twined themselves closely around it.

Animals and Flesh Eating.

Arguing against the eating of meat, an English writer remarks: "Almost any animal can be made to eat flesh. The kangaroo has canine teeth. Horses, oxen and sheep may be taught to eat flesh. Norwegian cows have been known to eat flesh. Goldsmith saw a sheep eat flesh. A carnivor sheep is now in London. Spallanzani has shown that a pigeon may be made to live on flesh and an eagle on bread."

Beautiful Comparisons.

The horse shares with woman the gift of the greatest animate physical beauty, and the classification does the lady no discredit. As for man, his partner in pulchritude is away down the line, probably a mule and maybe a burro.—San Francisco Call.

The Last Word.

"Does your wife insist on having the last word?" said the man who asks impertinent questions.

"Certainly not," answered Mr. Meekton. "She doesn't have to insist."—Washington Star.

BLUFF DALE

Regular Correspondence.

Aug. 9th.—Miss Mamie Dykes is visiting her sister, Mrs. Joe Lockhart at Stephenville.

Rufe Singleton spent Friday with home folks.

Joe Lowe has been on the sick list for several days.

Mrs. Isham Dennis left Saturday to visit relatives in Ellis county.

A. J. Glenn and wife are visiting relatives at Glen Rose this week.

Miss Annie Dykes left Saturday for a visit to relatives in Ellis county.

Miss Glimer returned Monday after visiting the Misses Hines for several days.

Miss King of Stephenville has been employed to teach the Fairview school.

Boss Baldwin made a business trip to Fort Worth Friday, returning Saturday.

Miss Ida Holt is spending several days with friends and relatives at De Leon.

Miss Bessie Ballentine returned Thursday from a visit to relatives at Bowie.

Manager W. H. Crouse of the Stephenville Tlephone Co., was here Monday on business.

The Baptists are holding a protracted meeting at Fairview, seven miles north of here.

Miss Josie Glenn of Ft. Worth came in Friday on business, returning Sunday.

W. L. Griffith and Homer Blankenship of Stephenville were over on business Tuesday.

Mrs. J. M. Wylie is spending several days with J. F. Edmonds and family at Dublin.

Ben Boone came in Sunday morning from Hasse, where he is employed by H. L. Kight.

Mrs. J. C. Bennett left Wednesday for a two week's visit to her parents, Mr. and Mrs. J. B. Brown, and other relatives at Stamford.

Mr. Hatchett Tudor and Miss Effie Roberson were married at Morgans Mill last Sunday.

Miss Wallace of Stephenville came over Wednesday to visit Miss Madora Chandler for a few days.

Mrs. Glanton and little son of Ft. Worth have been visiting A. C. Kelley and wife for several days.

Miss Della Norris of the Hancock school community is visiting her sister, Mrs. Woolverton this week.

Mrs. F. W. Head and children, Frank and Maude, left Wednesday to visit relatives at Rising Star.

David Persfull left last week for Dublin to attend the reunion and also to visit relatives near there.

Mrs. John B. Wolverton and little daughter, Bertie, are right sick at their home in west Bluff Dale.

Dr. T. M. Greenwood reports sickness in the families of Frank Armstrong and R. F. Bennett near Morgan Mill.

Rev. E. L. Compere came in Monday to assist Rev. J. A. Stovall in the revival being conducted by the Baptists here.

Henry T. Hall, the popular hotel man, is visiting at De Leon and incidentally attending a protracted meeting there.

Miss Fannie Bounds of Dublin came in Tuesday and will serve as clerk at the office for Postmaster Wm. L. Baber.

A. R. McIlroy left Tuesday for Tucson, Arizona, where he goes to enter the employ of the Southern Pacific railroad.

Rev. E. A. Bailey, presiding elder, was here from Saturday until Tuesday. While here he held conference on Rev. Turner's charge.

W. L. Dean and Cos Huett of Comanche county visited in these parts the first of the week and left Tuesday for the Hico reunion.

Mrs. Paul Harris of Shreveport, La., who has been visiting here for several weeks, left Saturday for a few days' stay at Comanche.

J. H. Herring of Duffau, commissioner and justice of the peace, passed through Wednesday en route to Mineral Wells for a few days.

Andrew Dykes, formerly a fireman on the Frisco, returned to Ft. Worth Sunday and resumed work, making his initial run again Tuesday.

W. M. Jenkins left Tuesday for Ludenburg, Ark., to visit his parents. This is Mr. Jenkins' first visit to his old home in nine years.

Mrs. Will Jenkins and daughters, Ethel and Kitty Lou, spent several days visiting the family of Mr. Foster near Tolar the first of the week

A. C. Hines of Dawson, N. M., surprised his parents with his presence on Sunday's Record train. He has a sixty day lay off from his work—that of railroad fireman.

Section Foreman Bob Eaton is doing some efficient work on the line these days. He has the yard in first class condition and is busy with his force putting in a great many new ties. His crew calls for eight men but owing to the intense heat he is short a man or two. Since Mr. Eaton took charge of this "joint" a marked improvement has been made all along the line.

PURVES.

Regular Correspondence.

Aug. 8th.—T. W. Case, Jno. T. Simmons and Jas. Onstott of the Onstott & Simmons firm, returned last Monday from Dallas, at which place they have been buying dry goods for their next season's trade.

Repair work is being made on the Purves gin.

The infant child of Albert Cathey has been very sick this week.

Our enterprising farmer, C. D. Woods, is building a large barn.

Dennis Adams has accepted a position in the E. L. Mote restaurant and cold drink establishment.

T. W. Ascue contemplates making a canvass of Somerville county in the near future in the interest of his patent bridle bit.

Jno. Langston and family left our town last Friday en route for the Panhandle. They go to pay Mrs. Langston's father and mother a visit.

Will Branch bought Bert Onstott's residence for a consideration of four hundred dollars. Mr. Branch moves to our village for the purpose of educating his children.

Our farmer friend, S. W. Emmett, returned last week from an extended trip to Reynolds county. He informs us that he bought a section of land on which he will move next year.

W. F. Martin, accompanied by his son, Luther, son-in-law, W. D. Caudle and their families, departed last Saturday for Bell county. Their object is to have an old fashioned outing and incidentally to visit relatives and friends in that section.

The Misses Laird prepared a special entertainment at their home two miles north of town on the evening of August 5th in honor of Henry Roberson. After their friends had assembled ice cream and other refreshments were served.

Newton J. Caudle came in from Coke county last Thursday. He tells us that crops are extra good in his country. Judging from his talk we are glad to note that two years' absence has not taken from friend Caudle his old time patriotism—he still thinks we have one of the most progressive little towns of the country.

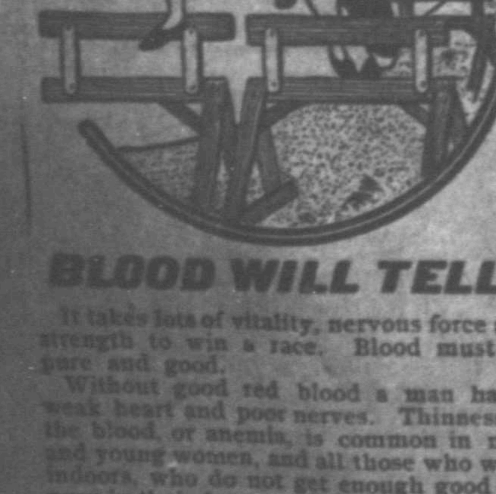

Ned Freeman, who resides in Georgia, is at present visiting his brother, G. Freeman of our community. Mr. Freeman paid this section a visit two years ago and was delighted with surroundings from every view, but it seems that some attraction in his native state is preventing the young man from casting his lot in our midst.

Messrs. J. B. Olinger and Jno. Foster, accompanied by their families, leave tomorrow for a prospecting trip to Coke and the counties adjoining. This jolly company will be armed with an abundant supply of fishing tackle and gun powder. We descry woe unto the jack rabbit or cat fish that lingers by the wayside.

M. E. Landers has informed us that he will remove with his family to the state of Arkansas as soon as he gathers his crop. "Uncle" Doc is a worthy citizen and a very successful farmer. He is not dissatisfied with his present home but leaves us in order that he may spend the remainder of his days with his relatives.

Miss Opal Martin and Mr. Jesse L. Stroble were married at the bride's home one mile east of Purves on Sunday, July 30th. Miss Opal is the charming daughter of our worthy citizen F. M. Martin. Mr. Stroble grew to manhood in our midst but has since moved to De Leon and successfully embarked in the restaurant business. Although we will severely feel the loss of the bride from our society we extend our best wishes to the happy couple in their new home.

A protracted meeting will begin at the Methodist church next Friday night and continue until Sunday night, August 21st and on the Monday night following protracted services will begin at the Christian church and continue for two weeks. The Methodist meeting will be conducted by Rev. Neel of Proctor. Rev. C. C. Seitern, pastor of the Christian church at this place, will conduct the services at the Christian church. He will be assisted by Rev. Golightly of Hamilton.

BLOOD WILL TELL.

It takes lots of vitality, nervous force and strength to win a race. Blood must be pure and good.

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in men and young women, and all those who work indoors, who do not get enough good oxygen in their lungs, consequently have too many white blood corpuscles.

Keep the nerves nourished, the heart strong, the head cool, the stomach vigorous, the liver active with a tonic which has stood the test of time and has a wide reputation, such as Dr. Pierce's Golden Medical Discovery.

Tonics consisting of large portions of alcohol, iron or cod liver oil, do not bring the desired changes in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol, which shrivels up the red blood corpuscles when it *does* come in contact with them. Therefore do not allow the dealer to insult your intelligence by telling you he has something better than Dr. Pierce's Golden Medical Discovery.

The cost of mailing only. "The People's Common Sense Medical Adviser," 1008 large pages, is sent *free* on receipt of twenty-one one-cent stamps, for the paper-covered book, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless. No other pill can compare.

STEPHENVILLE.

From the Appeal

August 10th.—Attorneys for Bob Johnson appeared before Judge Oxford last Saturday for the purpose of obtaining a new trial for their client. They failed and will appeal to the higher courts. If the court of appeals fails to grant a new trial, Johnson will pay the penalty for his brutal crime on the gallows.

Albert Eason of Dublin was tried before Judge Thompson Monday and adjudged insane. He has been mentally unbalanced for several weeks, but had been under treatment of a physician with the hope that he would soon recover but he gradually became worse and at times was positively dangerous unless closely guarded. He is laboring under the delusion that a mob is after him for the purpose of taking his life.

Sheriff Creswell went to Brownwood last Friday evening after a young man named Jones, wanted in this county on the charge of rape. He was captured about twenty miles west of Brownwood. Jones had an examining trial before Justice Long yesterday and was granted bail in the sum of $2,000, which he gave.

Last Thursday evening shortly after the electric lights had been turned on it was discovered that one of the wires had in some way become entangled with a guy wire on the southwest corner of the square, and as a result the entire current of electricity was transferred to the guy wire. The metal front on Perry Hardware Co's. ware house proved an excellent conductor and was thoroughly charged by contact with the wire. This fact was discovered by a little boy who was passing along the street and happened to touch the electrified metal. He received a considerable shock and was badly frightened.

WANTED.
100,000 pounds of Bone,
100,000 pounds of Scrap Iron.
12-4t. M. A. Brown, Dublin.

COMANCHE.

From the Visitor.

Aug. 10th.—A. S. Harris last week bought a 2,274 acre tract of land in Coleman county and at once had it surveyed into 160 acre tracts and will sell same to actual settlers.

Claude Caffey of near Proctor was in Comanche Monday. Mr. Caffey says that too much rain has fallen in that section and that cotton is growing too rapidly. He says that he has laid his cotton by three times this year and is having it plowed again this week.

Dr. J. R. Sledge of Stamford writes us under date of August 5th, and says: "It is true I have been sick but I am doing well now and will be able to attend the reunion next week." So it is a false report that the doctor is "nigh to death's door." We are glad to know this as Stamford can ill afford to lose such a man as Dr. Sledge.

HAY FEVER FOR 27 YEARS.

Well Known New England Woman Cured of Hay Fever—Cure Was Lasting.

The thousands of discouraged people who dread the approach of summer bcause they have hay fever and cannot find any relief from it, will read with interest and gratitude the following statement from Helen S. Williams of Mansfield, Mass.

"For 27 years, from the month of August until heavy frost I have been afflicted with hay fever growing worse and worse each year, until of late years I was unable to attend to my work during that period.

"Last summer I fortunately gave Hyomei a trial and I am happy to say that it entirely cured me and I have had no recurrence of the disease since."

Breathe the germ-killing and healing balsams of Hyomei and get rid of your hay fever.

The complete outfit costs but $1, extra bottles 50 cents. Overton Drug Co. agree to refund the money to any hay fever sufferer who uses Hyomei without benefit.

RELIGIOUS MATTERS

The Episcopal ladies will give an ice cream social at the residence of Mrs. H. J. Perkins next Tuesday, Aug. 5th.

* *

Baptist Church.—Preaching at 11 a. m. and 8:15 p. m. Sunday School at 9:45 a. m., Women's Day in the Sunday school. Services brief, bright and brotherly. "Come let us go into the house of the Lord."

* *

There will be services both morning and evening at the Baptist church next Sunday. Rev. Compere is away holding a meeting but will either return by that time or have some one here to fill his pulpit.

* *

Christian Church.—The Salvation Army will worship with us Sunday morning and assist in the music. The subject of the sermon will be "Our Boys and Girls." All parents are specially invited.—A. L. Clinkinbeard, Minister.

* *

The Men's Meeting held at the city hall at 4 p. m. last Sunday was the second of a series of religious gatherings that will be of great advantage to the moral tone of Dublin. The meeting was well attended and an interesting program was carried out, including an address by Hon. O. S. Lattimore of Ft. Worth. These Sunday meetings are open to every man in Dublin and the presence of all are earnestly desired. The next meeting will occur at 4 p.m. on the second Sunday in September, the 10th day of that month. Rev. Nat Reid of Italy in Ellis county will address the meeting at that time.

* *

The Christian church at Lamkin will dedicate their new church house the fourth Sunday, August 27th. Geo. H. Morrison, formerly of this place, now pastor of the Oak Cliff church in Dallas, will begin a meeting at Lamkin, Monday night August 21st and preach the dedicating sermon Sunday the 27th. All who expect to go, send names to W. B. Cooper, Lamkin, and provision will be made for free transportation from Dublin for all who come on trains Saturday, 26th. Neighboring churches and friends are cordially invited to be present. A program is being prepared.—G. H. Morrison.

A Warning to Mothers.

Too much care cannot be used with children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute but give the old fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by Overton Drug Co.

Card of Thanks.

To my friends of Stephenville and Dublin: I extend to you my sincere gratitude for your faithful service rendered to me at the death of my beloved wife.

As a wife she was devoted; as a daughter she was kind and obedient; as a friend she was cheerful, polite and loving. Yours with kindest regards.—Frank S. Boober.

County Will Let Contracts.

Notice is hereby given that the commissioners court will receive sealed bids for the following contracts, to wit:

County printing.

Court house janitor.

Poor farm manager: Applicants to submit two propositions: 1st, including board and guard for county convicts, second, not including board and guard for county convicts.

County Health Officer: Jail and poor farm physician: Applicants to submit four propositions: 1st, by visit and prescription and furnish medicine; 2nd, by visit and prescriptions and not furnish medicine; 3rd, by the month and furnish medicine; 4th, by the month and not furnish medicine.

Bids will be received until 12 o'clock M. Thursday, August 17th. The court reserves the right to reject any or all bids.—M. J. Thompson, county judge.

Local Option Contest.

The Lampasas Leader says:

"Notice has been served upon G. S. Arnold, county attorney of Lampasas county, that the recent local option election will be contested and copy of said notice has been filed with the district clerk.

The grounds of contest as stated in the notice are: First, that the election was illegal, the proper time not having elapsed since the former election; second, failure to observe the election law requiring ballots to be consecutively numbered and the name of the judge to be written thereon: and third, illegal voting.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmire, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by Overton Drug Co.

Brownwood's First Bale.

Brownwood received her first bale of new cotton Wednesday. It was raised by E. L. Johnson of Winchill and weighed 470 pounds. The first bale premium of $22 was given the owner. This year's first bale was three days earlier than the first bale of last year, notwithstanding the cotton is about two weeks later this season.

Fiendish Suffering.

is often caused by sores, ulcers and cancers that eat away your skin. Wm. Bedell of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at Overton Drug Co. Guaranteed.

A sugar shortage that existed in Texas has been relieved by the arrival of several car loads.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O, laid the peculiar disappearance of his painful symptoms of indigestion and billousness to Dr. King's New Life pills. He says; "They are a perfect remedy for dizziness, sour stomach, headache, constipation, etc." Guaranteed at Overton Drug Co. Price 25c.

Two farm hands employed near Cushing, I. T., were struck by lightning under a tree and killed.

A Touching Story

is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of eleven months our little girl was in declining health with serious throat trouble and two physicians gave her up. We were almost in despair, when we resolved to try Dr. Kings New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured and is now in perfect health." Never fails to relieve and cure a cough or cold. At Overton Drug Co. 50c and $1.00 guaranteed. Trial bottle free.

Judge J. M. Brackenridge of Austin is in a very critical condition as a result of a hopeless affliction. Some time ago he was troubled with a growth in the lower part of his throat and went to New York for treatment but no improvement was obtained, and his case being pronounced hopeless he returned to his home. He is unable to swallow either liquid or solid food and is slowly starving to death.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that medical tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctor's drugs that I could not eat. Soon after beginning to take Electric Bitters I obtained relief and in a short time I was entirely cured." Guaranteed at Overton Drug Co. Price 50c.

D. O. Smith of Comanche was here Tuesday en route home from a visit with friends and relatives at Abilene. Mr. Smith says that he saw a truck raising exhibit on a wagon at Abilene Saturday which was the finest he had ever seen. On the wagon was sixty water melons weighing in all over four thousand pounds and the heaviest one weighed 108 pounds. All of these were raised on a quarter acre of ground and there are many more left on the quarter acre. The man who raised them had thirteen aces in melons, tomatoes, potatoes etc., and he has been offered $600 for the land and what crop is yet left on it, and the land is the same as can be bought in that section from $15 to $25 an acre. The exhibit also had fine samples of pepper, sweet potatoes, milo maize, corn, wheat and a general variety of vegetables and crops with the exception of cotton, all of which Mr. Smith says were very fine. The exhibit was the property of a Mr. Daniel who resides about two miles from Abilene. The exhibit will be placed in the union depot at Ft. Worth by the business men of Abilene, who paid $35 for the exhibit.

Wednesday evening the team of horses belonging to W. W. Eddleman and hitched to the Waters-Pierce Oil wagon made a lively dash near Rouleau's blacksmith shop around by the Progress office, where they turned up Patrick street in a manner that looked dangerous for whatever or whoever might be in their path. As they swerved around the corner they ran to the farther side of the street and there came in contact with the Cooper Grocer Co's. float wagon loaded with groceries. This was overturned and its team broke loose. Fortunately no one was hurt and the damage was only slight.

Harry Adams, who has been working on the Hico Review for several weeks, has decided to embark in a newspaper enterprise at Tolar in Hood county. About the first of September he and his sister, Mrs. Grace McIlroy, will begin the publication of the Tolar Standard. If the people of Tolar do not have a good paper it will be their own fault and not that of the young and energetic proprietors, both of whom are practical printers. Mrs. McIlroy knows just how to write things up, and we hope her talents and capabilities will receive just recognition.—Hamilton Herald.

A passenger on Tuesday's Central train gave a reporter the information that Merchant McAfee of Cisco died very suddenly Sunday night at his home there and his mother, who resided at De Leon, died from heart failure on account of the shock, within an hour after receipt of the news of her son's death. Mr. McAfee was a prominent merchant of Cisco and was previously a citizen of Comanche county and largey identified with the political and other interests of that county. About six years ago he made a race for county clerk in Comanche.

G. L. Bledsoe, who has for four years past been employed as sexton at the New Dublin cemetery, has resigned that position and will remove within a short time with his family to Ft. Worth, where he will probably take a position as florist in the city park. He has leased his residence property in west Dublin to Will Rowe, who will soon occupy the place. Mr. Bledsoe requests us to say that his thanks are extended to those who assisted in the payment of his salary as sexton and otherwise lightened his labors.

The Higginbotham-Williams Co. of Blanket was organized Tuesday. The paid up capitalis $50,000 and the corporation will do a general merchandising business. The officers are: R. W. Higginbotham of Dublin, president; T. J. Williams of Comanche and Ed Boone of Blanket, vice-presidents; Scott H. Mack of Comanche, secretary and treasurer. The above gentlemen and L. J. Carrothers of Sulphur Springs and Sol Baker of Brownwood compose the directory—Comanche Exponent, Aug 4th.

Tom McDonald Jr., experienced a narrow escape from death last Saturday while performing his duties as oiler at the roller mill. His clothing was caught in a shaft and the only thing that prevented his being beaten to death was due to his clothing giving way, thereby releasing him and literally tearing his clothes from his body. He suffered no injuries save a burn on the face from the rapidly driven belt.

W. M. Woodall, representing the Slayden-Kirksey Woolen Mills was a pleasant caller on the Progress Monday. Mr. Woodall has been engaged in the printing business in Waco for a number of years. He highly complimented the Progress plant.

Oscar Binning has severed his connection with the dry goods house of Tom Miller in this city and expects to go to Stephenville and accept a position with the Maloney Mercantile Company.

Personal Mention.

District Judge W. J. Oxford of Stephenville was in Dublin Wednesday.

Mrs. Fred Akard of Waco is the guest of Mrs. W. C. Akard this week.

Mr. and Mrs. M. E. Ricks of Cleburne are visiting the families of Messrs. Brant and Luther Davis.

Merchant Tom Miller and W. E. Abbey left Wednesday for St. Louis to purchase the fall stock of goods.

Mrs. Ellen Rankin of Carbon came down Tuesday to visit Mrs. H. M. Bateman, her daughter, and her son, O. E. Rankin.

Mrs. Parker of Stephenville, mother of County Treasurer Geo. F. Parker, spent several days with relatives here this week.

T. J. Payne of Ennis was here Wednesday en route to Angelo to look for a new location on account of the health of his wife.

I. P. Hood of Greer county, Oklahoma returned to his home Monday after spending several days visiting his brother, B. F. Hood.

S. S. Cole and family of Brown county were here last week attending the reunion and were guests of W. D. Hallum and family.

N. J. Caudle from near Bronte in Coke county left Monday for his home after spending several days with relatives and friends hereabouts.

Rev. A. H. Darnell, former pastor of the Christian church here, but now pastor of the church at Breckenridge, was in Dublin Wednesday.

A. J. Faulkner of Greer county, Oklahoma, passed through Dublin last Tuesday on his return from a visit to relatives in Bosque county.

M. L. Copeland and three children, who reside six miles from Dublin near Purves, left Tuesday for Stamford to attend the reunion and incidentally visit with a brother, who resides in Jones county.

Little Tom Miller, who has been with the Mayfield Lumber company of Dallas for the past four years, has accepted a position as bookkeeper with Higginbotham Bros.' new store at Blanket.

Mrs. A. W. Risien Jr., and infant son have been in Dublin the past two weeks visiting with the family of Jno. T. Risien. They expect to return to their home in Carrollton, Texas, next Sunday.

J. B. Waldo left Wednesday on his annual pilgrimage to Schulenburg in south Texas, where he will buy cotton until the season opens at this point. Mr. Waldo says cotton is moving freely already at that place.

Mr. and Mrs. Earnest Hall and little son left Monday of this week for Corpus Christi, where they will remain two weeks breathing the air from off the gulf and to give Mr. Hall a rest from his office work at the Hall Music Co.

Prof. and Mrs. D. P. Parker passed through Dublin Wednesday en route from El Paso to their new home at Sherman, where Prof. Parker will assume the position as superintendent of the Sherman public schools. Prof. Parker and Miss Mary Potts were married at El Paso on the 30th.

Capt. W. B. Whitacre of Lingleville left Monday as a delegate from Erath County Farmers union to the state meeting at Waco. He was to have been accompanied by L. Brawner of Huckabay but Mr. Brawner failed to appear, possibly having gone to some other point to take the train.

Stroble-Martin.

Mr. Jesse L. Stroble and Miss Opal Martin were married at the home of the bride's father, F. M. Martin, at Purves at 10:30 Sunday morning, July 30th, Rev. Payne performing the ceremony. Besides the relatives of the bride and groom only a few invited friends were present.

The bride is the beautiful and accomplished daughter of a well known citizen, of Purves, F. M. Martin.

Mr. Stroble grew to manhood in Purves, but for the past year has made his home at De Leon, where he is engaged in the restaurant and meat market business.

The happy couple left for their future home at De Leon the following day.

The Progress joins their many friends in wishing them good luck.

Brigham-St. Clair.

At the Baptist church in this city Wednesday evening, August 2nd, a very pretty wedding was witnessed by friends of the contracting parties, Mr. Robert A. Brigham of Rising Star, and Miss Lou Ella St. Clair formerly of Dublin and who was reared at this place. Rev. E. L. Compere performed the ceremony and Mrs. W. T. Daniel rendered the wedding march. After the ceremony the wedding party repaired to the residence of Mrs. T. W. Shugart, sister of the bride, where an elegant repast was served. The Progress has been favored with a lengthy list of remembrances made to the newly married young people but the multiplicity of duties devolving upon the force, caused by the sickness of Editor Daley causes us to leave it out, however much we regret to do so.

The Progress joins all Dublin in wishing Mr. and Mrs. Brigham a long and happy life.

A. L. Clinkinbeard expects to leave Monday morning for San Francisco to attend the International convention of the Christian church, August 17th to 24th. Several thousand delegates are expected to be present. He will be absent two Sundays but the Christian Endeavor will occupy the hour for the night service Aug. 20th and the C. W. B. M. Aug. 27th. Special programs will appear next week.

John McDonald of the Utterback & Harris Co. will leave today for Dallas, where he will join a party of Texas wagon and buggy dealers for a trip through the north. The excursion will be under the direction and compliments of the Racine Sattley Co. of Racine, Wisconsin, and the party expect to visit Racine, Milwaukee, Chicago, St. Louis and other large northern cities.

A. C. Coker, T. H. Holcomb and wife, Mrs. A. C. Stewart, Geo. Hamilton and wife and Mrs. C. W. Holcomb of Comanche passed through Dublin Tuesday for Stamford where will occur this week a reunion of the Coker family, to whom all the above belong. Mrs. J. W. Albin, formerly of near Dublin, but now of Stamford, is also a member of the family.

While a ball game was being played between Stamford and Fort Worth at Stamford this week, the grand stand holding between six hundred and seven hundred people gave way, throwing a large part of those seated in it into a mass below. Three of the number hurt may die. The ball game was one of the features of the reunion which is being held there.

DANGER IN DELAY.

Kidney Diseases are too Dangerous For Dublin People to Neglect.

The danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Dublin.

W. L. Wood, farmer, living a mile and a half west of Dubin Texas, says: "Doan's Kidney Pills which I procured at the Overton Drug Co's. store some six months ago, did me more good than any other medicine I ever used. I have no hesitation in recommending them to any one in need of a remedy for the kidneys and back. For more than two years I suffered from heavy bearing down pains across the loins and in the regions of the kidneys. They were particularly severe if I brought any strain on the muscles of the back from lifting. The use of Doan's Kidney Pills relieved me entirely of the backache and corrected the action of the kidney secretions which had been more or less irregular at times."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Guess Again Bro. Boone.

The Appeal is the only paper in the county that uses a modern up-to-date cylinder press; it is the only paper in the county that owns its own building.—Stephenville Appeal.

Through no fault of the Progress Dublin has to acknowledge Stephenville as the county site of our county, but this is the only superiority we do acknowledge that Stephenville or any of her instituticns has over Dublin. Before the Appeal was even as much as dreamed of the Progress owned its own building and was printed on a modern cylinder that has no peer in point of speed or product in the county today. Moreover the Progress plant is equipped with numerous other modern inventions that are rather unusual in a town the size of Dublin or Stephenville. Among these are a folding machine, type-setting machine, sterotyping machine and many other useful inventions which have at various times prompted the remark from competent judges that the Progress equipment is one of the best west of Waco or Ft. Worth until El Paso or San Antonio is reached and that is only equalled by plants at Brownwood and Angelo.

Letter From Briscoe County.

A letter from our friend W. J. Stephen, late of this county, but who now resides at Silverton in Brisco county, says:

"Please find enclosed a check for one dollar, for which send Progress to my address. We landed here at Silverton on July 26th, found the country in good condition, plenty of rain, crops and grass fine, cattle in good shape, in fact no room for any complaint. I like the country splendid so far. I find a fine class of social, big hearted people here and that makes a stranger feel good when he gets a long way from home.

I think this a fine country. The possibilities are yet unknown. It is bound to be some time in the future, one of the best farming countries in the state. The land is simply fine and as smooth as one could wish. Wheat, oats, milo maize, kaffir corn, sorghum and alfalfa all grow to perfection. Indian corn is good this year, but is not always a certain crop. Cotton that has been worked is good, but not much interest is being taken in it in this part as they say they can raise other crops much cheaper and realize more out of them. Fruits of all kinds grow to perfection as do vegetables.

Silverton is a nice little town of about four hundred people, situated in Brisco county, forty-five miles south of Clarendon, on the F. W. & D. railroad. If anyone wants to come out to this country from there if they will write or come to see me, I will do all I can for them. Land is worth from $3 per acre up, owing to improvements and location."

Comanche Citizen Praises Reunion.

"It was our good pleasure to represent your excellent paper at the Dublin reunion. The reunion was a grand success and the citizens of Dublin out-did themselves this year in making it so. Good order was maintained throughout the three days, although at times the Dublin calaboose was taxed to its utmost and we are sorry to report that at one time there were nine boys and young men from Comanche confined in that institution. The speeches by Congressman Gillespie, C. K. Bell, Rev. Brown and Prof. Standifer were fine and were listened to by thousands of people. It is all a mistake about the reunion management turning the association over to the young people and not paying any attention to the old soliders. The old soldiers were treated to everything that was asked for and we feel sure that those present went away pleased with their treatment."—Contributor to Comanche Visitor.

Chalk Mountain Killing.

The Glen Rose Herald gives the following account of the killing reported in the Progress of last week:

During the picnic at Chalk Mountain last Thursday George Wallace and Dr. Allen got to talking at one of the stores some distance from the picnic grounds, about a debt. One word brought on another and Wallace stabbed Allen with a large pocket knife in the lower abdomen on the right side. Wallace came to Deputy Sheriff Will Welch, of this county, who was there, and gave up, but the trouble occurred in Erath, and Welch was doubtful of his authority. However, he phoned the Erath sheriff who sent a man and he took Wallace in custody. Wallace's bond was fixed at $500, which he gave. Dr. Allen lingered till Monday evening, when he died at 4 o'clock The remains were shipped to Georgia. Deceased leaves a wife and two children.

Respectfully Dedicated to the Salvation Army Workers in Dublin.

Do ye people here in Dublin hear the rolling of the drum?
Do you think an earthquake's started, do you wonder what has come?
Hear those voices singing praises, music on the tambourine,
Do you ask within your bosoms, what is this new fangled scheme?
It is God's Salvation Army, but their doctrine isn't new—
Just the blessed, sweet old story, 'tis that Jesus died for you.

But they tell this dear "Old Story" in such simple, common ways,
That some Christians? think its teachings too straight-laced for now-a-days,
So they laugh at God's appointed and the way the tale is told,
Thanking God that they are righteous like the Pharasee of old.
But the "publicans and sinners," this "Great Army" rescues them,
Holding up Christ's blood-stained garments 'till by faith they touch the hem.

Some folks call these people "Sallies," they are God's salvation crew,
Pray that they get hold of Dublin, that they shake it through and through.
May our Father bless his soldiers; yes 'tis true this work is tough.
Laboring in the slums and by ways, picking "diamonds from the rough."
But their kind appeals and actions, quickly make outsiders see
That they wear as Christ commanded, Christ-like robes of charity.

Judge them not by number only, look upon the good they do,
God is ever with his children, even though there are but few.
They are marching on to Glory, to a blessed, happy land:
Each one true and tried for battle, like old Gideon and his band.
Raise the Army's banner higher, let no stain its surface mar,
Send forth pure and holy Christian's to engage in Zion's war.

* * * * *

O, the Army of Salvation! it has come! beat the drum!
May the needy come to see and stay to hear,
May conviction strike them deep, may they neither eat nor sleep,
Till through Jesus' blood they read their "Title Clear."

WITTE A MAN OF WILL.

Russia's Chief Peace Envoy One of Her Leading Intellects.

RESOLUTE COMMANDER OF RESPECT

Traveler, Who Met Russian Statesman, Says He Would Be a Dictator if Revolution Were to Place Him at Head of Republic—His Eyes a Striking Feature—Biggest Man of His Generation In His Country.

"When Witte's eyes take on a dead fish look and his bearded face grows like graven stone the peace conference will adjourn for the day—there's no doubt about it," said Major J. G. Pangborn, who has traveled extensively in Russia, to a correspondent of the New York World in Baltimore recently, in speaking of M. Sergius Julievitch Witte, Russia's ranking peace plenipotentiary.

"Witte will easily be the striking personality of the conference, both physically and in his general manner. He is a tremendously large man and in remarkably well balanced proportions. He measures in every way almost up to Alexander III., father of the present czar, and a giant among men. As straight as an arrow, he carries himself with a consciousness of his superiority that is most irritating to a good many people in Russia and is overwhelmingly impressive to the masses.

"I have been pretty well over the empire, know something of Russia and the Russians, and of all the men I came in contact with throughout the vast domain not one impressed me comparably with Witte.

"When I reached St. Petersburg, after eight months' journeying through Siberia, Manchuria and Mongolia, the United States minister there, Mr. Breckinridge, made it most pleasant for me, and among other attentions he asked an interview with Witte, then minister of finance, for the purpose of presenting me to him. Witte promptly declined the request.

"A day or two later President Kirbetz of the Valadekafkas railway and one of the few railroad men in the empire intimated that Witte would be glad to see me. Acting upon the hint, I went the next morning to call at the ministry. The spacious anteroom was crowded with generals and civil service officials in uniforms, civilians in full dress and wearing brilliant decorations. I felt insignificant in plain United States togs. Sending in my card, I thought I should have a long, possibly fruitless, wait, but to my surprise the flunky almost immediately returned, saying with a profound bow that his excellency would see me at once.

"I had been told the evening before by a dignitary who knew the great minister's peculiarities that upon being seated opposite him I would feel as if looking upon the eyes of a dead fish, and that later should he prove interested in what I might be saying his cigarette case, always a feature of his desk trappings, would be pushed toward me with an invitation to smoke. Then, should I be so fortunate as to bring all this about, I would see a facial transformation such as had never before been my experience.

"Sure enough, such an absolutely impassive expression I had never before seen. The man is a statue, only you sort of hold your breath and wonder as to what will come when the electric current is turned on.

"The cigarette set came my way. I smoked, as did he, and with the lighting of the match you would not have recognized that it was the same face with the same pair of eyes. I never have known so amazing a control over expression and features. He extended the interview beyond an hour and a half and said I did not need the intervention of my minister or any one else to see him whenever I came to St. Petersburg.

"Should the present dynasty be overthrown in a revolution and a republic be declared Witte inevitably would be chosen its head. Not that there has ever been a question of his loyalty or that he would lend himself to a thought of the dizzy thing, but he is the only really big man in the country and he has the courage of his convictions. Nothing could keep the people if they had the say from demanding he should go to the forefront, but he wouldn't be a president or any such sort of a head. He would be a Dictator, with a very big D.

"Witte dares, and that is more than can be said of most men in Russia when in the balance are position and power. It cost him his ministry—shelved him. Very rarely does any former minister so relegated ever afterward come again to the front.

"When Witte was the finance minister he was pretty nearly the whole ministry, and while ordinarily his colleagues would have had some sympathy with him in the effacement that was the foreshadowing of their own eventual destiny there was none in his case. On the contrary, he carried into his retirement an intensified quality of the exceeding bitterness created by his dominating force when in the height of his power. Towering as he did both in mental and physical stature above them all he fairly reveled in the antagonism he provoked. That the czar himself stood in awe of him, as was so often said, is quite probable, for his personality is such as to require something more than the accident of birth to withstand it.

"Had Witte been born to the purple he would have been the personification of the absolute autocrat, as the popular imagination pictures Nicholas to be and which he is not. Nicholas is czar, and the ministry is the impetus to his action. Witte would have been both czar and ministry. He would have told the ministers what to do, not they him. With all his imperiousness, his uncontrollable initiative and characteristic go-aheadativeness, unmindful of consequences to those in his way, he is the strongest man in all the Russias with the progressives and the masses. They fear him, yet recognize that in and to him is the hope of a material development that will raise the great country, rich beyond parallel in natural resources, to a recognized place in twentieth century progress.

"As minister of finance he brought to the empire a credit it never before possessed. Through the policy he enforced, as with a rod of iron, of abolishing commercial and manufacturing concessions to outsiders and compelling those who sought large contracts under governmental guarantee to produce from plants located on Russian soil and with Russian labor, he was bringing about economic conditions so vital to the future of the empire that war to him was disloyalty flagrant beyond characterization. This is what made him the foremost apostle of peace.

"But any impression that because of his pronounced opposition to the war his appointment assures the expediting of the peace conference to a mutually satisfactory conclusion will be dispelled when the man comes to be known—that is, unless the other side proves more disposed to reasonableness from the Russian point of view than is at present regarded as probable.

"Witte is not the manner of man to inspire love or adulation in any form, but he irresistibly commands respect.

"I happened to be in St. Petersburg at the time of the first strike in manufacturing plants there. It was at the English woolen mills, the operators of which were Russians and the owners Britons. Thornton, the head of the largest mill and chairman of the delegation going before Witte, told me that night of the interview.

"As chairman he had, of course, primed and cocked himself so that his end would make the proper impact. He reached no further than 'We have come, your excellency, to say'—

"Then Witte broke in with, 'It is not for you, but for me, to say,' and there was nothing equivocal in what he said. It was, in effect, to settle the trouble within twenty-four hours.

"I asked Thornton what he was going to do about it.

"'Do, do!' he rejoined. 'What can we do but as he says? Nobody can do a thing with him when his back is up.'

"No sooner had the delegation of owners left Witte with his ultimatum as to the concessions to be made than he sent orders to the striking operatives to immediately return to work, which they did without remonstrance.

"Witte is far and away the biggest man of his generation in Russia, and it is doubtful if the empire ever produced a greater as that which goes in such a country to lift it out of the past and into the present. No act of the reign of Nicholas II. can be believed more personal, prompted by a higher consecration to duty or of a larger significance as to his tendency to independence than the final selection of Witte as the representative of his country in deliberations and proceedings so involving its future. Only those who have seen a bit of the inside of Russia, been in the atmosphere of officialdom, which, in other words, is thraldom, can have any appreciation of what Nicholas had to undergo in schooling himself to the appointment."

One on Chief Justice Fuller.

Chief Justice Fuller of the United States supreme court while driving recently from his country home to Washington found that the tire of one of the wheels of his buggy was loose and about to come off, says the New York Press. He worried along till he came to a little stream, where he stopped his horse to wet the wheel. Driving into the stream and out again, he saw that only a part of the wheel was wet, so he drove in again and out again and repeated this seesawing backward and forward till a negro came along and told him to stop a minute while the wheel was in the water. The negro then took hold of the spokes, turned the wheel around and soon had it wet all over.

The chief justice looked on in astonishment and said:

"Well, I never thought of that."

"Huh," replied the darky, "some men just really has more sense than others anyhow."

The Voice of the North.

You have builded your ships in the sun lands
And launched them with song and wine;
They are boweled with your stanchest engines
And masted with bravest pine.
You have met in your closest councils,
With your plans and your prayers to God
For a fortunate wind to waft you
Where never a foot has trod.

And now you follow the pole star
To the seat of the old Norse kings,
Past the death white halls of Valhalla,
Where the Norn to the tempest sings—
Follow the steady needle
That cleaves to its steady star
To the uttermost realms of Odin
And the warlike thunderer, Thor.

Far through the icy silence,
Where the glacier's teeth hang white
And even the sun god, Baldur,
Looks down in vague affright,
You flutter like startled specters,
With a prayer on your lips for the goal—
To stand for one thrilling moment
At the awful, nameless pole.

But, lo, in that hour shall greet you,
At the end of your perilous path,
A mockery far more bitter
Than the sting of the frost king's wrath,
For this is the weed you shall gather
In the lands no man has trod—
The finger that beckoned you onward
Shall lift and point to God!

TRAVELING WITH TAFT

Incidents on Trip of War Secretary's Party to Manila.

GAY RECEPTION AT HONOLULU

The Hawaiian Band Played "Alice, Where Art Thou?" as the Manchuria Swung Into the Pier and Kept It Up Until Miss Roosevelt Appeared—Effect of General Grosvenor's Dress Parade.

Honolulu awoke early the other morning prepared to receive visitors and did it with a cordiality that was especially gratifying to the members of Secretary Taft's party on board the Manchuria, which recently sailed from San Francisco bound for the Philippines, writes a Honolulu (Hawaii) correspondent of the New York Tribune. The morning sun shone bright on a harbor in gala attire. From the masts of every vessel in port floated the American flag, and as the ship approached a salute of seventeen guns in honor of the secretary of war was fired from the naval station. A male quartet of native singers boarded the ship and as soon as comparative quiet was restored sang several quaint Hawaiian melodies. As the Manchuria swung slowly into the pier the Hawaiian band struck up "Alice, Where Art Thou?" and kept it up until Miss Roosevelt appeared on deck.

The following was the official programme of the reception and entertainment at Honolulu of the party:

8 a. m.—Arrive at Hackfeld wharf from steamer. Carriages in waiting will convey all those who may wish to the Nuuanu Pali. The driving tour will occupy two and one-half hours.

10:30 a. m.—Special train to Honolulu plantation and sugar mill, with stops to look over the lochs of Pearl harbor.

12:30 p. m.—Luncheon at the Royal Hawaiian hotel.

2:30 p. m.—Electric car trip through the city to Waikiki, with stop at aquarium. Optional trips to Pearl harbor by U. S. S. Iroquois to inspect site of United States naval station; to Kahauiki, site of United States army barracks; about Honolulu and through its public buildings may be made under the escort of special subcommittees.

5:30 p. m.—Return to the Manchuria.

ALOHA NUI OE.

Commenting on Miss Roosevelt, the Hawaiian Star of July 14 had this to say:

People may talk as they please about secretaries of war, about senators and governors or congressmen, stout gentlemen, thin gentlemen, young, old or middle aged gentlemen, but, as a matter of fact, the prime interest of all of today's reception lay in the personality of Miss Alice Roosevelt, the daughter of the president of the United States. Was there one woman—or man either, for that matter—who asked particularly which was the secretary of war or which was the eloquent senator from this state or that, as the crowd of passengers drifted down from the Manchuria this morning? There may have been, but if so the matter escaped notice. No; every one asked the same question, "Which is Miss Roosevelt?" and the bright eyed girl who stepped smilingly ashore at the call of "Come along, Alice," from Secretary Taft, plainly enjoyed the interest which was taken in herself. She was just the simple, straightforward American girl, and the fact that she enjoys much more than the average share of good looks in addition to being the daughter of the chief executive seemed to make no difference to her.

Miss Roosevelt is unquestionably a handsome girl, and she carries her good looks with a charming unconsciousness. It is something to be recorded when every woman on the good ship Manchuria had a good word to say for the young girl who occupies the position which Miss Roosevelt does aboard the Manchuria.

"She is just a sweet, pleasant girl," remarked the wife of one senator this morning. "She has no airs, despite all the fuss that people have made over her, and there is nothing too nice to be said about her."

The party reached the Manchuria shortly before 5 o'clock, tired, but greatly pleased with the beauties of the island and enthusiastic over their welcome. Miss Roosevelt said, "The people of Hawaii are the most hospitable I have ever met," and this expressed the view of the entire party.

When the Pacific Mail steamer Manchuria poked her nose westward through the Golden Gate the Taft party, as it was unofficially called on the coast, breathed a grateful sigh of relief that it had escaped from the warm hearted though strenuous hospitality of San Francisco with nothing more serious than an impaired digestion and loss of rest. The ship was a bower of roses, while the staterooms of Miss Roosevelt and other members of the party were banked with floral godspeeds. On the pier to witness the departure of the ship for the orient was a great crowd, in which several nationalities were represented. The orientals were huddled in distinctive attitudes, sitting on crossed legs and chatting like magpies. The Japanese were arrayed in gay colors, while the Chinese women were clad in somber black, their smooth, raven black hair coiled in fantastic shapes and held in place by curious bands and pins of gilt and enamel. An occasional tear or gesture revealed the emotion back of the expressionless features, and as the ropes were drawn in and the ship moved out to sea a great shout arose from the gesticulating throng, and simultaneously the air was filled with the unique Chinese prayers for a safe voyage.

On Sunday, the day following the departure from the coast, nothing unusual occurred until General Grosvenor upset the quiet ease and comfort of the other men of the party by appearing about 6 o'clock in a dress suit. Secretary Taft, Senators Scott and Newlands and Representative Payne were lounging around the social room arrayed in loose flannels, and this vision startled the group into immediate action. Turning to Senator Scott, Secretary Taft said:

"Scott, what under heavens does Grosvenor mean by his dress parade?"

A consultation followed, and Scott, Newlands and Payne were appointed a committee to interview and intimidate General Grosvenor, who, however, flatly declined to abandon dressing for dinner, and the committee reported its findings to the secretary.

"Grosvenor ought to be ashamed of himself," said the secretary sadly, "but we will have to follow his lead." He then started for his cabin. In the meantime General Grosvenor had shown himself in every part of the ship, and in a surprisingly short time not a man of the party, except the Ohioan, could be found on deck. When the call for dinner was heard, the congressional party almost to a man entered the dining saloon in evening dress. Several pointed remarks were aimed at General Grosvenor, but he "stood pat," and ever since none could be found sufficiently brave to appear at dinner in ordinary attire.

Lecturers or informal talks on interesting topics were given almost daily in the social room and attracted large audiences. Secretary Taft had been in constant attendance, but the other day while Colonel Edwards was discoursing bravely on conditions in the Philippines he fell asleep, and he went at his task so earnestly that every one present knew it. After one especially noticeable period of his slumber Representative Hill nudged him so vigorously that he awoke with a snort amid shouts of laughter. Colonel Edwards at dinner the following day in announcing the speaker for the evening said, "All who have taken their afternoon naps are invited to the talk, but all others are excluded."

One evening the hurricane deck was transformed into a miniature ballroom, and the impression of that dance will long remain vivid in the minds of those who participated and the onlookers. The music brought from the home land blended with the song of the sea, while the dark draperies of the flags shut out the night, and only the soft light from the lanterns revealed the dancers. Among them glided representatives of many nations, the Philippines, Japan, Hawaii and the United States. It was late before Miss Roosevelt, escorted by Representative Longworth, appeared among the gayly dressed dancers. In the wavering light she looked almost unreal in her clinging gown, which matched the sea. As she glided through the dance her long spangled scarf wound itself around her, serpentlike, permitting only fleeting glimpses of the single rose nestling in her breast.

Secretary Taft danced frequently, and no man on the floor was lighter on his feet than the big cabinet officer.

ILLINOIS MAN AN ARAB SHEIK

Earl W. Jenks of Belvidere Chosen as Leader by Egyptian Tribe.

Illinois is again to the front. One of its sons has been elected an Arab sheik, says a Belvidere (Ill.) special dispatch to the Chicago Record-Herald. The lucky man is Earl W. Jenks, who formerly lived at Belvidere. He now is in the region near Kena, Egypt, prospecting for coal, his employer being a London company. Sheik Jenks has written to his aunt in Belvidere, Mrs. E. B. Plane, telling, much to her astonishment, of his elevation as ruler of a turbaned, saddle colored clan. It appears that he has under his command about 200 Bedouins, and these followers of the prophet have conferred on the Illinoisan the title of sheik.

Mr. Jenks writes that he finds it hard to dine with his brother sheiks without knife or fork, but he says philosophically that what can't be cured must be endured. He adds that the expedition is costing about $150 a day and that the work is hard, but that he is well equipped with drilling machinery.

In the letter to his aunt Sheik Jenks inclosed his latest photograph, showing a bearded countenance that is tanned as brown as roasted coffee. He seems to take pride in the declaration that now he can ride a camel as well as he rides a horse, but he leaves the impression that he is not enamored of the "hot sands" country.

Visit of Perry's Cousin to Japan.

It seems particularly appropriate at this time, when the United States is the chief instrument in making peace between Russia and Japan, that a relative of Commodore Perry, who opened the door to American commerce in the Japanese dominions, should be on her way to Tokyo, says the Philadelphia Press. Mrs. A. B. Cavalry of Richmond Hill, N. Y., a cousin of Commodore Perry, who recently started for Japan, is accompanied by the daughter of Bishop McKim, who has been bishop of Tokyo for twenty-seven years, and by the daughter of Bishop Graves, the bishop of China and Japan. The tourists on their arrival will be received by Bishop and Mrs. McKim and will go with them to their lovely home in Tokyo. After a few days' rest they will go by jinrikisha to Nikko, famed for its Buddhist and Shinto temples and ancient bronzes of priceless value, and will remain there for the rest of the summer.

Source of Electricity In China.

As the completion of the electric tramway in China draws near the rumors among ignorant natives grow apace, says the Singapore Free Press. The latest is that 500 Chinese heads must be procured and buried under the power house before the "kreta hantu" can start running. In consequence of this jinrikisha coolies refuse to take fares into the country districts at night.

DON'T BOLT YOUR FOOD.

There Is Pleasure as Well as Health In Deliberate Eating.

Fast eating is sure to be injurious, because to properly prepare the food for digestion it must be thoroughly masticated.

Rapid eating is still worse when it is caused by the hurry of business or by anxiety or nervous irritability or by the common habit of "bolting" the food. Such eating is sure to produce indigestion or dyspepsia.

The teeth, as well as the stomach, are made for labor, and neither can have their proper work to do if only paps and broths and puddings and hashes and other soft and artificially prepared foods are crowded into the stomach as though the cook in the kitchen could masticate and digest the food better than the natural grinders and the chemical action and assimilating power of the stomach.

Those people who shovel great vulgar mouthfuls of food into their mouths and bolt it down as though they had but ten minutes for a meal are gormandizers instead of polite people.

They know little of the pleasure of deliberate eating or the luxury of satisfying hunger, and certainly they are laying the foundation of disease.

Dry, hard food, vigorously chewed, stimulates the flow of saliva, strengthens the teeth and keeps them healthy and invigorates the digestion.

HE TOOK LONG CHANCES.

But the Tailor's Anxiety and Bill Were Both Finally Settled.

The doctor of an English regiment stationed in India received a letter from his tailor inclosing a long overdue account and concluding with a polite inquiry after the debtor's state of health. The sawbones replied thus:

"I have received your hypocritical letter hoping that I am in a good state of health. Hear, then, what your chances of my living long enough to be able to pay your bill are. I attend assiduously every cholera case in the camp, and I am making smallpox a special study. I swim every morning in a lake swarming with alligators. At a recent attack on a hill fort I went with the forlorn hope and was one of the three who returned unwounded. Tomorrow morning I shall go unaccompanied and on foot into the jungle and wait for the man eating tigress as she returns at dawn to her cave and cubs. If it be she who falls I shall spend my leave in the fever haunted jungle following up big game, and if I survive that I shall cool myself after its heat by joining a party to ascend the peak of Dhawalagiri, whose snow slopes and glaciers are as stiff as your prices."

The doctor eventually returned home in safety, and the tailor's anxiety and his bill were both settled.

WOMEN IN PARLIAMENT.

Down to Time of Edward III. They Had Right of Voting.

The ladies of birth and quality sat in council with the Saxon Witas. The Abbess Hilda presided in an ecclesiastical synod.

In Wighfred's great council at Beconceld, A. D. 694, the abbesses sat and deliberated, and five of them signed the decrees of that council along with the king, bishops and nobles.

King Edgar's charter to the abbey of Crowland, A. D. 961, was with the consent of the nobles and abbesses, who subscribed the charter.

In Henry III. and Edward I.'s time four abbesses were summoned to parliament—viz, of Shaftesbury, Berking, St. Mary of Winchester, and of Wilton.

In the thirty-fifth of Edward III were summoned by writ to parliament, to appear by their proxies, Mary, countess of Norfolk; Alienor, countess of Ormond; Anna Dispenser, Phillippa, countess of March; Johanna Fitz Water, Agneta, countess of Pembroke; Mary de St. Paul, countess of Pembroke; Margaret de Roos, Matilda, countess of Oxford; Catherine, countess of Athol. These ladies were called by their proxies, a privilege peculiar to the peerage, to appear and act by proxy.—"Antiquities of Parliament."

Sleep and Death.

An animal deprived of sleep dies more quickly than from hunger. One of the cruelest of Chinese punishments is to kill a man by preventing sleep, he dying insane about the fourteenth day. All animals sleep for some period of the twenty-four hours. How and when they do so depend upon their natural habits. But they all have this in common—that after any unusual exertion they sleep longer.—London Mail.

FLIGHT FROM YELLOW JACK

Exciting Ride on Train From Louisiana's Fever Zone to Safety.

A flying wedge of humanity arrived at the Union station in St. Louis at 8:41 o'clock the other evening on a cotton belt special from Shreveport, La., its 400 yellow fever refugees having chartered the train to convey them north of the Mason and Dixon line to escape the scourge, says a St. Louis special dispatch to the New York World.

Never before, the passengers allege, had they such a wild ride. All along the route before the Missouri line was touched inhabitants of Louisiana and Arkansas tried to enforce the quarantine regulations with weapons. The special was too fast, however, and despite hundreds of persons carrying shotguns, pistols and blunderbusses of ancient type the fleeing inhabitants of the south rushed on, stopping only at isolated stations.

Only twice did they get food, and then very little. When the train stopped at some little way station all the passengers would make a rush for the lunch counter, only to be driven back by guards. The crowd was almost famished on arriving at St. Louis.

Misses Lena, Blanche and Mamie Adair of Dallas, Tex., who were visiting friends at Shreveport, arrived on the chartered special and told of their trip to the north.

"I never had such a ride in all my life," said Miss Lena. "I hope I will never have such another. Every large station we came to in Louisiana, Mississippi and Arkansas was surrounded by a horde of armed guards. I was in constant fear that the infuriated citizens would fire on the train as we went through; but, I tell you, we didn't stop for men or pistols. It was a case of get through on the run or not at all. If our conductor had allowed our train to stop it meant a stop of six or seven days, I was told.

"I just simply hid my head in my berth pillow when we passed stations. Sometimes shots were fired. I guess they fired in the air, for none entered our coach. We did not dare stop at an armed station for lunch. When we crossed the Louisiana line our ice gave out. It was terrible. We had to drink warm water after that. When the train stopped to take water just below Johnsboro, Ark., it was learned that the people there were determined to turn the train back, so the engineer pulled the throttle wide open and went through the city at full speed."

SHARP LAD'S WIT.

Experience of a Railroad President With a Shrewd Messenger.

Edward H. Harriman, president of the Union Pacific, while at Cheyenne, Wyo., had a verbal encounter recently with a shrewd and slangy messenger. The boy was Frank Jones, son of Chief Clerk D. A. Jones of the master mechanics' office, says a Cheyenne dispatch. He was sent with a telegram for Superintendent McKeen of the motive department of the Union Pacific. Pushing into the private car of President Harriman he said:

"Hello, I got er telegram for McKeen."

"You mean Mr. McKeen," interrupted Mr. Harriman, with a sly smile.

"Yep, I guess so; the head cheese of the motive department."

Mr. Harriman took the telegram and had it sent to Mr. McKeen.

"What do you do?" he asked the lad, with a glance around at his companions.

"I am one of the directors of the Union Pacific," said the boy, taking the challenge.

"What?" exclaimed Mr. Harriman.

"Yep. I direct envelopes over at the master mechanics' office," was the laconic reply as the lad left the car. He left Mr. Harriman and his companions in an uproar.

Summer Home For Baron Komura.

Henry Reed Hatfield of Philadelphia, who has been suddenly called to Russia and Spain on private legal business, has offered the use of Thingvalla, his summer home at Bar Harbor, Me., with his horses, servants, etc., to Baron Komura, Japanese peace plenipotentiary, through the president, says a Bar Harbor special dispatch to the New York Tribune. While no definite acceptance has yet been received, it is thought that the baron will go to Bar Harbor at the conclusion of the peace conference to rest. Mr. Hatfield entertained Baron Komura at his Philadelphia home on his last visit to the United States, later visiting him in Tokyo. He was a classmate of Mr. Iddomatti, an intimate friend of Komura, at the University of Pennsylvania. Mr. Hatfield said that his call to Russia was in nowise connected with the peace negotiations.

Plan to Train Domestics.

A movement took form recently at Laporte, Ind., to establish a training school for house servants, with the idea in view of founding a similar institution in each county in the state and to lay the foundation of an organization national in its scope, says a Laporte special to the Chicago News. Society women are interested in the movement, believing that such an institution will solve the domestic problem and properly equip girls for housework.

BATTLEFIELD ORATIONS.

A Great Deal of Fiction About the Recorded Martial Speeches.

Somebody once asked the Duke of Wellington if speeches on the battlefield were really made as reported and what was their effect. The duke said, "What effect on the whole army can be made by a speech since you cannot conveniently make it heard by more than a thousand men standing about you?" Then the duke was asked if it were not the fact that Napoleon delivered some rather notable orations on the field. The duke would not have it. "The proclamations you read of in the French army were much more seen in the papers than by the soldiers—they were meant for Paris." It was all right, the duke agreed, to address a regiment upon presenting it with colors and that sort of thing. On the whole, French troops might be more impressed by a speech than the English, who in the duke's Waterloo army were, he declared, "the scum of the earth, who had all enlisted for drink." The French, with their system of conscription, had a fair sprinkling of all classes.

"No," comments a writer, "all these martial obiter dicta which our histories treasure up for us were for the most part never spoken at all. The 'last words' of dying men and the speeches made on the battlefield or the deck of an admiral's flagship are not to be regarded as having been actually uttered. The famous 'Up, guards, and at 'em!' accredited to Wellington at Waterloo, was never spoken. Wellington himself denied it."

SELLING GOODS.

The Methods That Lead to Success In Business Life.

When a customer comes in, don't, whatever you do, drag yourself out of the chair as though you were disturbed from a rest, but jump up and greet her or him as though you were really glad to wait on them. Act so they will ask for you the next time they come to the store. The salesman who is constantly being asked for by customers never has to worry about a job.

Don't be stiff and act or feel as though you were far the mental superior of the customer. If you do, no sale will result.

Just for the sake of argument, let us take all the successes in your city, no matter what line they are in. Do they advertise?

The public, somehow or other, seem to be able to read between the lines. If your ad. is not truthful they will not respond.

It takes more than a mere cut to attract the eye to make your ad. pay. There must be solid, honest store news of good values behind it.

Never underrate the intelligence of your customer. He may know more about the article you are showing than you do.

Post yourself on every article you are expected to sell, so you can talk convincingly and knowingly. That is what sells goods—convincing talks. Never mind the price; that will take care of itself.—Brains.

A Stevenson Story.

A book on Stevenson tells of a speech he made at a gathering of Scotchmen in Samoa. He said: "I cannot say why we are proud to be Scotsmen, but the fact remains that we are. It is not that our land is sunny like these tropical isles, and its climate is not even lovely. Scotland's history contains little that is not disgusting to people of humane feelings. That long brawl which is called Scottish history contains scarcely one object that Scots have patience with." The address drew tears to the eyes of a German who had gone to the meeting violently prejudiced against Stevenson. No sooner had the speaker finished than the meeting proceeded to clasp hands and sing "Auld Lang Syne."

Curious Titles.

The English reformers adopted some curious titles for their devotional and controversial works. "Matches Lighted at the Divine Fire," "The Gun of Penitence," "The Shop of the Spiritual Apothecary," "The Bank of Faith," "Sixpennyworth of Divine Spirit," "Some Fine Biscuits Baked In the Oven of Charity, Carefully Conserved For the Chickens of the Church," "The Sparrows of the Spirit" and "The Sweet Swallows of Salvation" are among the number.

Four Nations.

Practical idealism takes with the German chiefly the form of devotion to duty. In the Russian it is a readiness to sacrifice everything to his inward feeling. In the Anglo-Saxon it is the staking of the whole person for a concrete, palpable and distinctly fixed purpose. In the Frenchman it is a general idea which carries him away to great deeds.—Baron F. von Wrangell in Contemporary Review.

Success Easier Than Failure.

We say success is easier than failure; that a man who makes a success in life works less, worries less and has an easier time generally than the man who makes a failure and spends his time in telling how he is smarter than other people, but that "luck" has been against him.—Atchison Globe.

An Optimist.

"Oh, yes, he's quite an enthusiast. He goes in for things in real earnest."

"Yes, if some one were to send him on a wild goose chase he'd speak of himself afterward as a sportsman."—Philadelphia Press.

His Opposite.

She—They say that persons of opposite qualities make the happiest marriages. He—TLat's why I'm looking for a girl with money.

THE HOTEL CHILD.

Dangers That Beset the Luckless Offspring of Restless Parents.

It is not the material aids to existence which are the bane of the hotel child; it is the mental and spiritual attitude accompanying this life which is to be deprecated. It destroys a democratic spirit through emphasizing the difference between the servant and the served, it exaggerates the power of money, fosters a spirit of dependence and unfits the pampered individual for any other kind of life, and, worst of all, in a child so brought up there can be no understanding or love of home. There may be some future for the child who knows nothing of art, some function for the one to whom literature makes no appeal and who is not sensitive to music, but there is no place in the state for the man who has neither initiative, self reliance, patriotism nor love of home. He is a social menace, a disease. The community is better off without this satellite of the manager, parasite of the bell boy and source of supply for the waiter.

If there is one child in our community who is superfluous it is the hotel child. As places for temporary occupation by homeless and childless adults hotels are to be tolerated, but as residences for children they are without the possibility of excuse.—Miss Martha S. Bensley in Everybody's Magazine.

FIVE MINUTES.

Under Some Circumstances It Seems a Very Long Time.

In a murder trial before a western court the prisoner was able to account for the whole of his time except five minutes on the evening when the crime was committed. His counsel argued that it was impossible for him to have killed the man under the circumstances in so brief a period, and on that plea largely based his defense, the other testimony being strongly against his client.

When the prosecuting attorney replied, he said: "How long a time really is five minutes? Let us see. Will his honor command absolute silence in the courtroom for that space?"

The judge graciously complied. There was a clock on the wall. Every eye in the courtroom was fixed upon it as the pendulum ticked off the seconds. There was a breathless silence.

We all know how time which is waited for creeps and halts and at last does not seem to move at all.

The keen witted counsel waited until the tired audience gave a sigh of relief at the close of the period, and then asked quietly:

"Could he not have struck one fatal blow in all that time?"

The prisoner was found guilty, and, as it was proved afterward, justly.

THE DOG'S COAT.

Brush It, but Do Not Wash It, if You Want It Perfect.

In the Country Calendar Reginald F. Mahew writes: "Even careful feeding will not give a dog's coat that glow which is such a sure sign of health if he is continually washed with soap and water. Owners who allow their dogs to live in the house are forever washing the wretched animal and forever complain that his coat is coming out. The oftener the dog is washed and scrubbed the more will his coat leave its trail and the deader and duller will it look. The health and growth of a dog's coat depend entirely on a natural oil from the skin. As often as the dog is washed so often is the oil washed out and so much more is the destruction of the coat. If a dog were brushed every day for five or ten minutes against as well as with the grain his coat would not only have a luster, but would cease to distribute itself all over the place except for a very short time once or twice a year. Besides this, brushing has a stimulating effect on the whole system, helps the blood circulation; by this the digestion, and so the general health."

MacMahon's Epigrams.

When Marshal MacMahon in the Crimean campaign took the Malakoff by storm and wrote his celebrated dispatch, "J'y suis, j'y reste" ("Here I am; here I stay"), these words made him famous all over the world. Yet his friends said that the worthy soldier had written them in the most matter of fact manner, with no thought of phrase making. The most surprised person over the success of this epigram was MacMahon himself.

Ancient Jewelry.

The jewelry found in an excavation near one of the pyramids of old Memphis, Egypt, exhibits about as much skill in working gold and precious stones as now exists, although the articles found were made 4,300 years ago. The figures cut on amethyst and carnelian are described as exquisite and anatomically correct. The gold is skillfully worked, and precious stones are let into it so as to give the effect of enameling.

A Helping Hand.

"I have heard," stammered her timid admirer, "that you are engaged. Is it—er—true?"

"I'm not engaged yet," replied the fair girl, "but I hope to be soon."

"Er—how soon?" he asked.

"In a few minutes," she replied, with shining eyes.—Philadelphia Ledger.

Moses Well Known Down Here.

Small girl, in bed, being read to by an elder cousin. Small Girl—When I die, shall I go to heaven, Mary? Mary—Oh, yes, if you are a good girl. Small Girl—I want to see Moses. I shall tell him I heard quite a lot about him down here.—London Globe.

The power of speech differentiates the man from the brute, except when he abuses his wife.—Detroit Tribune.
