All Town Mourns Fund Baby

Colodaro City is a town in mourning. Barbie is dead.

Word of the baby's death in University of Minnesota research hospital reached her grandparents Mr. and Mrs. B. C. Vardy, 856 East 13th St. in the after midnight hours, just before 1 a. m. Saturday.

Bobby J. Vardy, father of the baby, called his parents from Amarillo where he had taken the helium truck he drives for repairs. His wife, Barbara had reached him with the sorrowful news from Minneapolis.

How do you tell a whole town "Our baby is dead?"

Barbie, beautiful little girl baby, became the town's protege Jan. 24 when Colorado City learned of her grave birth defect and the desper—

Little Brand New Angel . . . Barbie

Colorado City Funeral Pends

BY RUTH COFFEY
Editor Women's News

There is a little brand new angel, named Barbie, in Heaven this day.

Barbie Vardy, eight-months—old Friday died at 11 o'clock Friday night.

The baby daughter of Mr. and Mrs. Bobby J. Vardy, 850 East 13th St., had been getting better until late Friday when she developed a form of infant diarrhea.

At nine o clock Friday night Barbie began to lose strength. At 11 p. m. the little heart which had put up such a gallant fight for life stopped beating.

Born June 26, 1964 in Gallup N. M., Barbie moved with her parents to Colorado City four months ago. She was a birth defect baby, born with no bile ducts, no gall bladder and an enlarged liver. Her condition was called "hopeless—" until the family learned of possible liver transplant surgery done only at the University of Minnesota Hospital.

Barbie's condition was pronounced "critical" when she entered the hospital in Minnesota Wednesday of last week. Friday, Feb. 19, she improved so much and so fast that new hope was given her. Wednesday, Feb. 24, she even felt like playing with her mother. Friday night Feb. 26, death ended that new—born hope for saving her life.

Early Saturday morning arrangements for the coming home of Barbie's mother and the return to Colorado City of the baby's body were begun here in Colorado City.

Funeral rites are pending and will be directed by Kiker and Son Funeral Home here with the time and place to be announced. Midwest Mortuary in Minneapolis was to arrange to fly the little body here, possible late Saturday or at the latest, Sunday.

Mrs. Vardy was to accompany the body by plane as soon as reservations and arrangements were completed by her new friends in Minneapolis.

Elders and members of a Minneapolis Church of Christ were with Mrs. Vardy when the Record reached her by telephone Saturday morning. Ralph Jones, elder, was helping to make reservations for the flight home. Kiker will meet the plane in Abilene, when the exact schedule is learned here.

"I just want to come home, now," said Barbara Vardy when the Record asked what could be done here to help her now.

Bobby J. Vardy, the baby's father, was expected to arrive by noon Saturday from Amarillo to meet his wife and to complete funeral arrangements here.

Surviving Barbie are her parents, 850 East 13th St.; her paternal grandparents, Mr. and Mrs. B. C. Vardy, 856 East 13th St.; three brothers, David Lujon, Danny Lujon, and Boyd Vardy. Maternal grandmother lives in Albuquerque, N. M.

Burial will be in Colorado City cemetery on the Vardy family plot.

East Texas Production Increases

Despite the popular "Cow Country" image of West Texas, the state's cattle population is now greater in the eastern counties than in those west of Fort Worth and San Antonio.

Although Texas remains the No 1 cattle—producing state, furnishing about 10 percent of the nation't beef, the increased production necessary to retain this rating has been primarily in East Texas, says Edward Uvacek, assistant professor and Extension livestock marketing specialist at Texas A&M University.

This is not because of an actual shift in production, but the result of a heavy increase in cattle numbers in East Texas counties. At the same time, West Texas production has remained relatively stable, said Uvacek.

This increased production stems largely from the conversion of crop land to cattle pasture in the land where cotton once was king. Fertilizers and irrigation, along with new grasses such as Coastal Bermuda, have increased the cattle—carrying capacity of the land to a much higher level than the drier West Texas ranchland.

This trend will probably continue in the future because of the greater amount of potential available pasture land in East Texas.

Ruth Coffey's CONVERSATION CORNER

TODAY happens to be the birthday of this column writer. Never mind which one.

"Thirty — nine again" is near enough. and **Jack Benny** did not bother to copyright that very sensational and convenient way of marking time.

Counting money on the way to the bank is smart. Counting calories as you scan a menu is all right if you insist. Counting pounds added when you weigh on the bathroom scales is only natural. Counting years is an awful waste of time.

Besides, we're in the same boat with an attractive C—City woman who admitted, last year "I've told so many yarns about how old I am, I don't even know how old myself, and more. **I'd have to look it up in the old family Bible."**

* * *

AGE is relative, anyhow. A matter of ratio and proportion. Any woman several years younger than her husband always **feels younger around him** than she does with a recent male college grad, say.

So long as her Mother lives in this world, a woman feels youngest of all in her Mother's presence.

Conversely, there come times when you feel twice as old as Lone Wolf Mountain and get to wondering how it is **that you should last so long!**

* * *

WHEN you can remember, when the whole senior class of high school got themselves born . . . when you recall attending many weddings of their parents . . .

When college football teams look younger and younger every year . . . **when little new brides look like babes in arms . . .**

When a former kindergarent pupil shows up with five little youngans . . . when the members of that Young People's Department Sunday School Class you taught start turning gray . . .

When you can remember exactly how Coleman School looked . . . Four passenger trains a day . . . Methodist barbecues and barbecues at the **Chester Jones** Ranch . . .

* * *

WHEN you are familiar with as many names on markers in the cemetery as you recognize in the telephone directory . . .

When you can remember cars with running boards . . . Record players with hand cranks . . . Roundup rodeos here . . . when you recall as plain as day the old **"Welcome to Colorado"** sign across Second Street.

And when you're lovingly greeted by voices shouting "GrandMunny" at the sight of your face, or house or automobile. . . Then, my friend, let's face it. **You're not as young as you once were.**

"Thirty—nine again" is fine. But when it comes to **"Thirty—nine again . . . and again . . . and again . . ."** etc . . . well, that's another matter.

* * *

"Oh the years are many,
The years are long . . ."
But it's still fun to hear
That old Birthday song.

YOU CAN read or hear all kinds of advice about how to live to be a hundred—which we may, or may not decide to do.

Advice on living long, like most other advice, is just confusing, though. Some claim to be 100 because they never took a drink or a smoke. Others are still here because of a "little nip" every day.

Some advise hard work—to which we are allergic. Others recommend taking it easy, doing nothing, not even an average amount of worrying.

To the little old lady in France, who recently celebrated her 105th birthday, goes the prize. **"I learned long time ago," she said, "to just lie in bed and smoke my pipe all day. I'll probably live forever."**

All we can think of at this point is one question. **WHAT FOR?**

* * *

BRIEF ENCOUNTERS brought a cup of coffee and conversation with **Mabel Kelley (Mrs. Frank H.)** who's always been such fun to talk to.

Baptists Plan Schools For B.T.U. This Week

First four nights in March, Baptist Training Union workers in Mitchell—Scurry Baptist Association will meet at two association churches for intensive training.

Leadership schools will be held from 7 until 9 p. m. Monday through Thursday in First Baptist Church in Colorado City and at First Baptist Church in Snyder, according to announcement from Rev. Neil Rogers, Calvary Baptist Church pastor here.

Emphasis of the two leadership schools will be on new approaches in curriculum and organizations for Training Unions and sufficient class time will be offered for book awards in category 18 of the Baptist study course.

At Colorado City the faculty will be Mrs. W. R. Bumpas, nursery worker at Lakeside Baptist Church, Dallas, who will lead the nursery conference; Mrs. Margaret Muse, elementary director at Travis Avenue Baptist Church, Fort Worth beginner conference leaders; and Mrs. Ed Laux, primary worker at Wilshire Baptist Church, Dallas, primary conference leader.

Junior workers will attend the conference of Mrs. Walter Ietton, Junior worker at Travis Avenue Church, and workers with intermediates and young people will attend the conference conducted by Charles McDonald, youth director at Cliff Temple Baptist Church, Dallas. The Texas Baptist Training Union Secretary, Ed Laux, will conduct the conference for adults and general officers. Frank Flores, pastor of Templo Bautista, San Antonio, will conduct the Colorado City Conference in Spanish.

Sunday school and Woman's Missionary Union workers with children in Baptist churches will find the Training Union leadership conferences for their age groups helpful since Baptist work and program with elementary ages are very similar in all areas, Schested said.

Faculty members for the school at First Baptist, Snyder, include Mrs. L. E. Boubel, nursery conference leader for Parker Baptist Association; Bill King, elementary director at First Baptist Church, Dallas; Mrs. Ruby Howell, youth director at Grace Temple Baptist Church, Dallas; Grady Lowery, youth director at East Grand Baptist Church, Dallas; Irby Cox, education director of Dallas Baptist Association; and Marcus Pena Jr., from Templo Bautista, San Antonio.

CALENDARS TO BUTTONS

McKnight Patients Need Small Items

McKnight State Tuberculosis Hospital can use several things, according to a plea for patients' needs, published in the "Voice of the Volunteer" at McKnight.

Calendars are needed. "If you have any extra hanging around your place," the Volunteer points out, "please send them to us. The patients have been asking for them—1965, naturally!"

A copy of the **1965 World Almanac** is needed for the library and comic books are needed for the library carts and the library.

Buttons — suitable for blouses or dresses of all colors, smallish sizes, are needed. Recreation room could use

and very much wants—a corn popper.

Molds for ceramic department in Occupational Therapy are requested.

Shoes, ladies' size 7½ or 8, B width, and needed for a woman patient who had bunions operated. She needs them badly, the Volunteer notes.

Pajamas—for men, for women and children are always needed.

Craft supplies — scraps, thread, patterns, embroidery pieces and floss are always welcome.

Answers to theses requests may be mailed directly to McKnight, or can be taken to Mrs. C. P. Gary, executive secretary of Mitchell County Tuberculosis Association.

Early Pruning Dangers Seen

Resist the urge to prune trees and shrubs in the garden until you are relatively sure all danger of severe freeze is past.

Often the impulse is to start pruning rose bushes and other shrubs with the first shirt sleeve weather in January and February. In most areas of Texas there is still danger of freeze damage to tender growth as late as mid March.

Warm weather in January frequently forces the terminal buds to begin growing. If this growth is removed by early pruning, the lateral buds begin to grow during the next warm spell and a late cold snap may cause serious damage to these buds.

The following are the only justifications for pruning plants: to remove dead or diseased wood; to repair storm damage or mechanical injury; to balance the top with the root system when transplanting; to develop and maintain a desired shape or size; to rejuvenate older plants; or to improve or increase flower and fruit.

Flowering trees and shrubs which bloom early in the spring, such as flowering-quince, spiraea, forsythia, lilac, and redbud, should not be pruned until after flowering.

Trees and shrubs which flower from early summer through the fall months, such as Crepemyrtle, hybrid tea roses, and shrub althea, usually produce their flower buds on new wood. They should be pruned in late winter or early spring after danger of frost is over and when new growth begins.

Complete information and illustrations on pruning trees and shrubs can be obtained from your local county agent's office by requesting B-977, "Modern Pruning Methods," published by the Texas Agricultural Extension Service, College Station, Texas.

ate effort of her mother to get help for her.

The Barbie Vardy Fund, started Jan. 25, grew to a total of $7,846.71 by bank closing time Friday, Feb. 26. George Womack, vice president of City National Bank and trustee of the fund started by the Colorado City Record, turned away a number of would—be donors to the fund Saturday morning.

Saddened by Barbie's death, Womack, who has deposited and kept account of the fund, said "I feel we can not accept money for the hoped—for surgery, now."

There have been no checks drawn on the fund, held in escorw for Barbie's medical expenses and possible liver transplant surgery. Barbara Vardy, the baby's mother, and Barbie were flown to Minneapolis on money given by Mitchell County March of Dime. Bill Erwin chairman.

The fund is, of course, to be billed for Barbie's hospital care from Wednesday Feb. 17 until the time of her death. Trustees of the fund, Womack and Ruth Coffey, Record editor, in a Saturday morning conference also felt it neses sary—and fitting— to wire Mrs. Vardy enough money from the fund to fly her and Barbie's body home.

Barbie Vardy Fund, collected to help the baby is obligated to help the baby's mother come home as fast and as comfortably as possible, it was decided.

By verbal agreement (recorded by March of Dimes of New Mexico) the $2,300 (approximately) sent from Gallup, N. M. will be returned. After Barbie's hospital bills (and the trip home for her mother) are deducted, Barbie Vardy Fund trustess plan to return all of the money remaining to organizations and individual donors, on a pro rata basis.

Colorado City Record will publish a full accounting for every dollar withdrawn from the fund, when withdrawn and in what manner spent.

The fund, which reached almost $8,000 in a calendar month, could not accomplish its purporse—a normal life for Barbie.

What the fund did accomplish would make a long list. The Barbie Vardy Fund proved something akin to greatness about the people of Colorado City. It proved the loving hearts worn under teenage sweaters in Colorado High School Junior High and other schools.

It proved the goodness of church people and church families. It proved that concern lives here in human hearts. We lost "our baby." We found the satisfaction of having tried to keep her.
