

# THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, October 11, 1928

Number 26

## LEGIONAIRES THROUG TO SAN ANTONIO CONVENTION

With dawn Saturday former doughboys, signallers and Generals began pouring into San Antonio on regular and special trains for the American Legion national convention which opens here Monday at an estimated rate of 1,000 an hour. By night, those in charge of housing the delegates estimated that approximately 20,000 legionnaires were on the scene thirty-six hours before the opening of the reunion.

Every automobile road entering the city was bringing more visitors, and airport officials had arranged to make the city's maximum airplane parking and housing space available. Some estimates place the number of planes that will come for the convention as high as 1,000. Four emergency landing fields were provided in addition to the army, municipal and commercial fields here.

More than thirty regular and special trains brought delegates Sunday.

Demanding the passing of a universal draft law "to prevent slackers and profiteers in another war," George E. Spafford, national commander of the American Legion, at the opening session Monday morning told the assembled 5,000 listeners that the enactment of such a law should be the first order of business for the Legion.

He urged legionnaires to investigate the stand congressional candidates are taking on the law before the November election.

Spafford recommended to the Legion the raising of the annual dues to \$1.25, so that the 25 cents may be used to support the American Legion Monthly. He declared that the membership has passed the 700,000 mark, and that the financial condition of the organization is so improved that the financial will have to be borrowed to carry it over the first of the year.

Governor Dan Moody of Texas was host and toastmaster at a banquet in St. Anthony Hotel Monday night, honoring National Commander Edward E. Spafford of the American Legion and other prominent visitors at the convention. After the banquet the party journeyed to Fort Sam Houston for the mimic battle given as a part of the realistic diversion program of the week's convention.

Col. August Dasser, of Saginaw, Mich., president of the 32nd Division Association and Maj. R. P. Patterson of Fort Worth, president of the Texas branch, have issued a call to all members of the division to meet in room 1,124 in the Gunner Hotel at 6:30 o'clock Tuesday afternoon. The association plans a banquet for Tuesday night, it was declared, and the question will be decided at the meeting. It was also urged that all men who served in the 32nd register at the Michigan headquarters.

Youngest Commander Here R. L. Atkins of Dupue, Ill., who told recruiting officers in 1917 that he was 18 years old, a mere discrepancy of two years, came out Monday night with the claim that he is the youngest post commander in the American Legion. Atkins, who served in the First Field Artillery, was 16 when he enlisted. He challenges all post commanders to a showdown of ages.

Female Chorus Arrives Thirty women singers from Minneapolis, Minn., members of the Twin City auxiliary, arrived in San Antonio Monday to compete in the auxiliary's musical contest. They were part of a contingent of 200 from Minneapolis and St. Paul. Mrs. S. B. Swensen is manager of the glee club.

Mr. and Mrs. W. P. Riley and Miss Tottie Martin returned Monday from a three weeks trip to Philadelphia, Pennsylvania, and other points.

## PIANO ENTERTAINER WAS WELL RECEIVED

At the High School Auditorium last Thursday night, Professor Zadok Arkush, reputed America's foremost piano entertainer, gave an interesting program, under the auspices of the Parent-Teachers' Association, which was well received by a fair audience.

Owing to the fact that it was planned on such short notice, without advertising, the attendance was smaller than otherwise would have been.

- The program was as follows:
1. Opening number — "Old Black Joe," with variations, as played by Blind Tom, the great Negro pianist.
  2. Playing two selections at the same time—"Star Spangled Banner," with right hand; "Yankee Doodle," with left hand.
  3. Imitation of a Harp.
  4. Selection, Operatic Selected.
  5. How the great composers would play "Yankee Doodle," in their own individual way.
  6. "When You and I Were Young, Maggie," special arrangement for piano.
  7. Selection, "Silver Threads Among the Gold," special arrangement for piano.
  8. Playing with Nose while blindfolded.
  9. "My Old Kentucky Home," special arrangement for piano.
  10. Descriptive selection, "The Storm," introducing "The Blacksmith in the Woods."
  11. Five Minutes of Nonsense.
  12. Finale. Composing marches from themes suggested by the audience.

## PROMINENT PECAN GROWER TO GATHER 9,000 LBS.

San Saba, Oct. 10.—E. H. Norris, prominent pecan grower here, who owns an orchard of 300 both native and top worked trees, on the San Saba river and adjoining the city limits of the town, will, according to his estimate, gather 9,000 pounds of pecans from these trees. Many of them top worked to improve varieties are making their first crop, and with a most satisfactory showing. Western varieties have been principally used by Norris. Among those are the Burkett, Texas Prolific, Alexander, Western Schley, Eastern Schley, Halbert and others. Pecans of fully developed clusters of 10 of a Risien variety, known as Riverside, are on display from this season's crop, here.

## TRAINING TO PUT A CRIMP IN CRIMINALS

At the recent National Shoot, conducted by the United States Government at Camp Perry, Ohio, to give training in the use of revolvers and rifles, there were present a great many hundred rifle and revolver shooters from all over the country.

In addition to other contestants, there were 75 police officers comprising 14 teams of at least five men each, representing such cities as Los Angeles, Portland, New York, Detroit, Seattle, Toledo and Hartford, Connecticut. They were sent to better fit themselves to carry out their official duties in the communities they serve, and thus render better public service. The results of instruction received by these men will be far-reaching and each year the number of police officers sent to take this course, increases.

Police officers, fully trained in the correct use of small arms, and private citizens who receive similar training in these National Shoots, and who go out and create enthusiasm for this branch of sport and defense, automatically increase the number of citizens who are better able to protect life, liberty and property in this nation. Never did we have a greater need for a straight shooting police force to handle abnormal crime conditions such as now exist in some of our leading cities.

## THE OPTIMISTIC FROG.

Two frogs fell into a deep cream bowl. One was an optimistic soul; But the other took the gloomy view. "We shall drown," he cried, without more ado.

So with a last despairing cry He flung up his legs and said "Good-bye." Quoth the other frog with a merry grin, "I can't get out, but I won't give in."

"I'll just swim around till my strength is spent Then I'll die the more content." Bravely he swam till it would seem His struggles began to churn the cream.

On top of the butter at last he stopped, And out of the bowl he gayly hopped. What of the moral? 'Tis easily found; If you can't hop out, keep swimming around.

—Selected

## WOMAN'S MISSIONARY SOCIETY AT MENARD

Tuesday the Woman's Missionary Society of the Menard Methodist church was hostess to visitors from Junction, Brady, Melvin, Pear Valley and Eden.

Three of the local society members were on the program: Mrs. B. L. Smith conducted the Question Box; Mrs. Roy Blackburn gave a history of the Junction society and Mrs. Ada Dockery made a talk on the joy of jubilee membership.

Those attending the meeting from Junction were Mesdames E. R. Borden, B. L. Smith, George Cavness, A. E. Bissett, Ada Dockery, S. P. Bennett, R. M. Alexander, W. M. Taylor, Hayden Lawler, Roy Blackburn, Lilly Nichols and Joe Bissett.

## BIRTHDAY PARTY

A happy occasion was the party given Monday afternoon by Master Roy Reynolds at his home in honor of his third birthday.

Pink and blue crepe paper streamers were hung from the walls and flowers placed about the rooms, added a gay note of color for the wee folks.

After the gifts were opened and admired the children played in the yard until invited in for refreshments. They were seated in tiny chairs made gay with bows of pink and blue crepe paper, at miniature tables laid with scolloped paper cloths. The birthday cake, iced in pink and proudly bearing three pink candles in blue holders was greeted with exclamations of delight. Ice cream was served with the cake to Mary Katherine Hodges, Janice Loeffler, Edwina Lovgren, Victor Loeffler and Billy Jack May. Mrs. Reynolds was assisted in entertaining by Mrs. W. B. May.

## FIGHT AGAINST FRAUDULENT ADVERTISING

New York.—A suggestion, that the National Better Business Bureau be requested to advise periodical publishers generally whenever advertising, in the bureau's opinion, is fraudulent, has been offered to publishers at a trade practice conference held under the chairmanship of W. E. Humphrey, chairman of the Federal Trade Commission.

Fraudulent advertisers rob the public of millions of dollars annually because victims are too ashamed of their gullibility to complain, and because individual losses are too small to justify litigation. Humphrey told the publishers in appealing to them to obey not only the letter of the law against printing fraudulent and deceptive advertising, but its spirit.

It takes so little—a mere spark—to turn stately buildings, lovely homes into flaming infernos. Proper vigilance exercised by all of us can prevent this appalling loss by fire.

## LAMBS HEAVIER THIS YEAR: GOOD PRICE PAID

San Angelo, Oct. 10.—No less than 150,000 feeder lambs and breeding ewes will be shipped from the San Angelo sheep and goat territory during the first 15 days of this month, according to indications of the two major buying companies alone, which have either received or contracted for even 100,000 head.

Lambs weighing heavy this year, averaging from 60 to 70 pounds, were contracted months ago by two buyers for 10 to 10 1/2 cents per pound, and ewes are bringing from \$8.00 to \$8.50 per head. Most of the lambs are going to Colorado, Nebraska, Michigan and New York, while the ewes are selling largely in Kansas and Nebraska, according to buyers.

It is estimated that small buyers and local sales will increase the output of lambs and ewes in this section to easily 150,000 and perhaps reach 20,000. There is probably 4,000,000 sheep and 1,500,000 goats in this territory.

## PATIENTS AT THE STANDIFER HOSPITAL

Mr. A. J. Herbst, medical, Junction.

Mrs. F. E. Browning, tonsilectomy, McCamie, Texas.

Billie Browning, tonsilectomy, McCamie, Texas.

Betty Jane Browning, tonsilectomy, McCamie, Texas.

Mrs. W. F. Owens, majory, surgery, Rocksprings.

Miss Virginia Smith, tonsilectomy, McCamie, Texas.

Mrs. W. Miller Oliver, obstetrical, Junction.

Miss Lilly Robbins, appendectomy, Junction.

## WORLD SERIES RIVALS SPLIT RECORD PURSE

St. Louis, Mo.—Although the total players' pool of \$419,736.60 set a new record for the world series, each winning share drawn down by the Yankee regulars \$5,531.91, will fall somewhat short of the record individual total of more than \$6,000 established in 1923, when the Huguenot also won the prize. This diminution is due both to the generosity of the Yankees in remembering secretaries and other club officials, and to the share now deducted from the pool for members of the two major league clubs finishing fourth.

The losing St. Louis Cardinals, dividing their money into only twenty-eight parts, each will receive check for \$4,197.37.

Of the \$419,736.60 in the pool, \$293,815.62 goes to the players on the two world series contenders and the remaining \$125,920.98 to the six first division clubs in the two leagues. The winning Yankees divide 60 per cent of the contenders' pool, or \$176,289.37, and the Cardinals 40 per cent, or \$117,526.25.

## STREET PAVING IS NOW PROGRESSING RAPIDLY

The work of paving the main street (Old Spanish Trail) from South Llano bridge to where it makes the right hand turn leading to North Llano bridge, a distance of some ten blocks, is moving along rapidly.

The skiver has loosened the dirt in the gutters, which has been taken out and replaced with a good grade of gravel; this gravel is then rolled by the use of the heavy gasoline roller, putting the gravel in condition to receive the topping, which will be a double coating of tarvia.

After this street is finished it is contemplated to treat the streets around the Court House in the same manner. If this is done, it is very probable that College Street leading to the school house will be paved.

It is hoped by those who are responsible for this initial paving work, that this latter project can be put over.

Let the good work continue.

## SPARKS CAUSE BIG PERCENTAGE OF HOME FIRES

Seventy-five per cent of fires in dwellings start in roofs or chimneys and are caused by sparks from the burning of coal or wood. This is one reason why fire underwriters look with favor upon domestic oil burners, which properly designed and operated, produce no sparks.

John G. Gamber, formerly States Fire Marshal for Illinois and Past President of the National State Fire Marshals Association, is authority for the statement that the increase of oil heating will prove a definite factor in reducing the country's fire losses. In addition to the reduction of the hazard from sparks, it eliminates the necessity of handling hot ashes, another prolific cause of dwelling fires. All the leading types of domestic oil burners are approved by the Underwriters Laboratories in regard to safety.

## THE ELECTRIC NATION

It is undoubtedly a fact that the people of this nation do not realize the tremendous advantages they are enjoying over the people of other nations, as a result of the development which has taken place in our electric industry the past 10 years.

Electricity is a necessity in even our smallest homes because it is a labor saver and the cheapest and most efficient form of illumination.

The development and interconnection of large central station power plants has given 24-hour electric service to the majority of the smallest communities in our country. Residents in these small centers of population receive service which people living in many of the largest nation in the world, do not enjoy. Further, they receive such service at rates which, as a general rule, are unknown in countries other than ours.

The people of the United States use nearly as much electricity as all the rest of the world combined. Behind this remarkable service which is today being extended from the cities to the farms, lies the driving force of private initiative and enterprise which is responsible for the electrical development of our electric companies and it is said that this industry is today absorbing more new capital to furnish even greater service, than is being absorbed by any other line of industrial activity.

The Cemetery Aid will serve sandwiches, cake, tea and coffee, Saturday down town. Look them up and spend a quarter or so, it goes for a good cause.

Mr. and Mrs. A. P. Boyett and little son, Pat, were Convention visitors, going down Sunday and returning Wednesday.

## LEGISLATORS' FRATERNITY MEETS AT DALLAS

In a communication from Joe H. Boggs of San Angelo, who is president of the Texas Legislators' Fraternity, requests that notice be given of the meeting of the Second Annual Reunion to be held at Dallas on Saturday, October 13, at 10 a. m., Adolphus Hotel. All former members of the Legislature, present members and 1928 nominees, and their wives, are to be the guests of the Chamber of Commerce for luncheon at 11:30, at the Adolphus Hotel. After luncheon the Fraternity will be the guests of the Dallas Fair Association.

The Legislature Fraternity was organized for the purpose of "perpetuating the friendships originating in the Legislative halls at Austin" and to encourage holding Annual Legislative Reunions. Some beautiful friendships have been formed in the Legislative halls at Austin, and Fraternity is endeavoring to perpetuate these friendships forever.

Mr. Boggs urges a full attendance.

## PAYS TAXES WITH NUTS FROM ONE PECAN TREE.

San Angelo.—With more than 200 pounds left after harvesting sufficient nuts from one tree to pay the taxes on a 10-acre tract Mr. and Mrs. R. A. Christman of Christoval, are strong believers that this territory is one of the leading pecan producing sections in the State.

Approximately 360 bearing pecan trees are located on the Christman farm and the entire crop is one of the best since the pecan industry was found attractive here.

## WILL ROGERS SAYS:

I am the only candidate that is tending to his own business and not to other people's. I am not running around wearing der by hats in the summer time or putting wreathes on every president's birthplace I can find.

These other two fellows are devoting their entire time to nothing but spending money and trying to show that the country will perhaps be on a level with Nicaragua if they are not put in charge of it.

I am not going out around the country making a monkey of myself just to let people see what kind of a man they would have in the White House if elected, I did all that before I was nominated.

Al made a speech to the farmers, or what he thought was farmers. They were actually merchants, and clerks, and bootleggers, and policemen and just the very kind of crowd he would have in Newark, or the Bronx.

There was no farmers there, Omaha is not a Farmer's town, it's a city, and a farmer would not have any more chance getting into a hall there than he would have making an opening night in New York. The people there had seen plenty of movies, but they had never had a "straight from New York production, with the original cast." So naturally they all turned out. It was big opening night for Omaha.

And it's the same way with Herbert, he comes into Newark the other day marked "exhibit A." Now there is no dignity to that, we want a President, not an exhibit. The White House isn't a museum, with glass cases.

So I hope there is some sane people in this country who will appreciate dignity and not showmanship in their choice for the presidency. Being a candidate didn't give me a chance to see the country. I had seen it before.

I have no free shows to give around the country, and no one to pay my way to them, in return for cabinet positions afterwards. So if your town wants to have a holiday wall till Ringling Circus comes along and see a good show.

ELECTORS YOU WILL VOTE FOR IN NOVEMBER

Although the voter knows that he is either voting for Al Smith or Herbert Hoover for president when he casts his ballot in November, as a rule he doesn't know the names of the electors on the ballot. For after all (theoretically) it's the electors who elect the president and not the voters. On this year's ballot there will be four sets of electors. The Democratic electors are, in order that their names will appear on the ballot: James Young, Kaufman county; Miss Oveta Culp, Harris county; W. G. Brown, Titus county; W. T. Norman, Chambers county; C. L. Bratchfield, Rusk county; Fred E. Horton, Hunt county; J. W. Woods, Dallas county; J. F. Lane, Erbertson county; Hayne Nelms, Trinity county; Mrs. J. O. Ross, Harris county; J. F. Barnett, Matagorda county; Mrs. J. M. Loving, Travis county; Bart Moore, McLennan county; H. G. Bowden, Tarrant county; W. M. Moore, Wichita county; Marshall Eskridge, Bexar county; Caesar Keleberg, Kennedy county; H. V. Fisher, Brewster county; H. P. Bresland, Eastland county; Lloyd Fletcher, Potter county.

The Republican electors and the order in which they will appear on the ballot are: Mike H. Thomas, Dallas county; Perry McFadden, Jefferson county; Ed King, Lamar county; A. E. Sweatland, Angelina county; B. E. Hanna, Grayson county; J. B. Graham, Ellis county; Tyler Haswell, Brazos county; H. C. Smith, Liberty county; Wallace Pratt, Harris county; Arch Campbell, Brazoria county; W. S. Drake, Travis county; Mrs. Margaret Cogner, McLennan county; Joe Kebleman, Parker county; C. W. Johnson, Young county; Bobo Holokamp, Kendall county; John T. Lomax, Cameron county; Mitchell Waldrop, Val Verde county; A. F. Brock, Runtels county; L. A. Kennedy, Collingsworth county.

DR. FRANK CRANE SAYS:—

The Empty North One of the most striking passages of that ancient collection of literature known as the Bible, is "He hangeth the north over an empty place." It is found in the Book of Job.

The queer part of it is that astronomically the north is a somewhat empty place. In a measure you can see for yourself that there are not many stars in that direction.

All this is called to mind when we read of General Noble's flight over the Pole a short time ago. He discovered again what had already been discovered, that when you get to the North Pole you find nothing there—just frozen emptiness.

Think of all these years that men have dreamed of getting to the North Pole, and striven for it, and died for it. What does it amount to, after all?

It is simply a record to make, a sort of impossible line to toe, but all those fanciful dreams of Simms, Hole, and the like, about there being an undiscovered country up there, are pure fiction.

The only part of this globe that is habitable is the temperate zone, and in a measure the tropics.

General Noble's discoveries, as well as those of others, reveal that the north is to be added to the oceans and the deserts and the mountain ranges as pure waste. A deal of the universe, as far as we can see, is waste in the sense of not being habitable by man. We cannot live in the seas, and life is difficult in the high mountain ranges.

Considering how vast is the universe, and how many of the stars are simply blazing balls of fire utterly uninhabitable by any form of life, and how gigantic are the distances between the stellar bodies, and even what a great portion of this planet is not inhabitable, one's philosophy of life unconsciously limits the importance of mankind, and adds a new meaning to the exclamation:

"When I consider Thy heavens, the moon and the stars, which Thou hast ordained, what is man that Thou art mindful of him, and the son of man that Thou visitest him?"

KING TUT BREAKFASTED ON INCUBATED BROILERS

Farmers and poultrymen who hold the belief that when they buy chicks from a modern hatchery they are patronizing an infant industry are due for a surprise. King Tut, so ancient records show, must have dined regularly on broilers raised from hatchery chicks, for incubators have been used for production of chicks by the Egyptians and Chinese from time immemorial.

The hatchery business, far from being a product of modern enterprise, was old when Columbus first landed in America. It has behind it the tradition of ages, and is probably the first farm industry to adopt economical mass production methods—long before modern industrial leaders "discovered" this means of reducing production costs.

The hatching and selling of baby chicks as a business enterprise has existed more than 2000 years in Egypt and China, ancient records show, while fifty years ago, when hatcheries were unknown in this country, there were at least 150 hatcheries in Egypt, each with a capacity of about 300,000 eggs a year. Thirty-four years ago the first shipment of chicks was made in this country, inaugurating what was to grow to one of agriculture's largest industries.

Although the hatcheries of the country have several organizations, and do millions of dollars worth of business each year, it was not until recently that some of the more progressive hatcherymen banded together to promote the sale of chicks on a purely business basis, with quality of product, and excellence of service to customers as their basic ideal. These hatcheries, operating under the slogan, "Hatchery Chicks For Greater Profits," are scattered from coast to coast. They come nearest to the ideal of the ancient Egyptian hatcheries, whose operators for generations handed their business down from father to son, to carry out the traditions of service which is a part of their industry.

BRISBANE THOUGHTS

An exhibition in London introduces "Eric, the Robot," a man-shaped wooden and metallic machine that rises to its feet, stretches out an arm to command silence and makes a speech.

The shiny, metallic man-machine, its slanting yellow eyes lighted by electricity, frightens spectators.

Some workers will dread the possibilities of competition by machine men. But there is no danger. When modern clothing-making machinery was first used England built forts to protect the machinery from enraged workers, convinced that it would starve them.

Those machines employed more men than ever at better wages.

Every efficient new machine increases prosperity, especially that of workers, by increasing man value. With an ox team a man was worth \$1 a day. With a locomotive he is worth \$10.

Mr. Ouafi, French Arab who beat all runners of the world in the Olympic marathon, is here.

Nature, producing him, seems to have had a greyhound in mind. His legs are almost as thin as a greyhound's, and, quite tall, he weighs only 124 pounds. Ouafi is a citizen of the French Republic, and, although many sporting Americans that see him run will not know it, his ancestors of ancient Arabia are ancestors whom our civilization and its science owe a great deal.

Those old Arabs were learned in science, mathematics, and many lines when our ancestors in England were hiding in swamps and our ancestors in Ireland were running over hills and bogs not much dressed, their great king putting aside his cloak of raw bull hide in the presence of a French visitor, revealing a king with nothing on him.

Many words that we use every day, sofa, alcohol, many terms in chemistry, come from the Arabic. Raymond S. Blunt, of Chicago, is called the human time clock. He remembers where he was, what happened every hour, every minute of the last

ten years. In four months of this year, for instance, he spent 968 hours in sleep, 25 hours in church, 363 hours at meals, 48 hours on pleasure, etc.

That's interesting, but keeping track of time, hours and minutes, is not as important as putting something into the hours and minutes. For instance, the minute in which Thomas A. Edison decided that two messages, as well as one, might be sent over the same wire at the same time, was more important to the world than all the well regulated hours in the lives of ten thousand other men.

Gold has been the unit of value since men first found strange heavy little yellow grains washed down by mountain streams, thousands of years ago.

Men have struggled for gold and died weeping because they couldn't take it along, and have murdered each other for gold. Now cold science tells you, "Gold won't always be the unit of value. Nitrogen will replace it, being the foundation of our food supply, and of life.

Every square mile of air above the earth's surface carries twenty million tons of nitrogen, enough to last the world twelve years.

Any way of getting that nitrogen out of the air cheaply would be marvelously important, to farmers especially.

Judge Jarecki, of Chicago, says that city will enlist 10,000 men to guard the polls in November. He doesn't want any more "pineapple" politics.

"Pineapple," you know, is Chicago's playful euphemism for an explosion bomb. If pineapples only were used in the Chicago campaign it wouldn't be so bad. But automatics, machine guns and brass knuckles added to the "pineapples" make the way of the voter hard, unless he votes with the gang.

SAN ANGELO TO RAISE QUOTA OF R. R. BONUS

San Angelo, October 10.—Although a city wide drive for \$250,000, San Angelo's quota of the \$1,450,000 for construction of the Gulf & West Texas railroad, has not been organized, 26 San Angelo merchants have affirmed \$90,000 in subscriptions to preferred stock in the company.

A general financial chairman will be selected this week and organization for the drive completed through the Board of City Development traffic committee. The drive is expected to terminate not later than October 15.

TAKE NOTICE, RANCHMEN OF KIMBLE COUNTY

To those that are going to lease ranch for hunting purposes, please make your application for same as early as possible to S. O. Durst, Warden, Junction, Texas. Headquarters at Junction Hardware Company. 25-2

You want your land abstracted; then you had better see E. Holekamp; he has complete index of all County lands. (adv)

A GREAT ACHIEVEMENT IMPROVED COLD WEATHER PERFORMANCE Resulting from the CROSS-FLOW RADIATOR The cross-flow radiators in the cooling systems of the Pontiac Six and the All-American Six reduce to a minimum the evaporation of water and alcohol. An automatic thermostat prevents water circulation until the engine reaches correct operating temperature. As a consequence the engine warms up quickly and less choking is needed, reducing dilution of crankcase oil. Because of the protection the cross-flow radiator provides against losses of water and alcohol, the Pontiac Six and the All-American Six require less attention in winter than other cars. Also, through their thermostatic control, they reveal far better performance than other cars in their fields when the temperature is low... The cross-flow radiator is available only on the Pontiac Six and the All-American Six. Come in and see it. And learn while you're here of the many other advancements which only these two great General Motors Sixes provide. 2700 N. Loop, 2745, Coupe, 2746; Stone Roadway, 2745; Phantom, 2772; Sedan, 2791; 4 Door Sedan, 2875; Sport London Sedan, 2875. Price of factory. Check Oakland-Pontiac delivered prices—other such items including charges. General Motors Finance Plan available at minimum rate.

# TRAVEL BY BUS!

## WHAT SHALL WE DO ABOUT IT?

Youth is no longer governed by the authority of the church, parents or teachers. Mrs. Noyes Darling Smith, of Austin, president of the Texas Parent-Teachers' Association, declared in an address on "The Challenge of Youth" at the Nineteenth Annual Farmers' Short Course, Texas A. & M. College.

"The old standard of right and wrong, morality and immorality, is gone. In its place youth has put up a standard of its own, an expensive one, through experience, and calls it expediency.

"Youth is thinking and demanding facts on which to fasten his reasoning. He wants to know why we call ourselves Christians and yet endure these earthquakes and volcanoes of war, this desert of race hatred, this swamp of ignorance, this blood of crime. He wants to know why in hundreds of laboratories men are spending their lives to defeat disease and crime and then in hundreds of other laboratories men are working to discover more poison gases and more deadly means with which to kill each other.

"Yet he sees, beneath, the indecencies in the mind of humanity. He sees humanity's deep aspirations, its struggling nobility, its unrealized ideals. "This challenge of youth has confronted every adult generation since the beginning of time. A hopeful sign today is that the adult generation of today realizes that it has created or allowed to exist those conditions in the midst of which youth finds itself. If in our adult world there has been sham, hypocrisy, false modesty, double standards, complacency toward legalized vice, can we, the adult generation, expect to find youth wholly committed to good, to honest wisdom and to sincerity? Can't we of the adult generation open our hearts to this youth of today and say with him: 'Oh, the glory of the years to be! I, too, would labor in their fashioning.'"

Influences affecting the youth of today were cited by the speaker as including the soul-shock of the World War, the disappearance of home and community life, great industrial systems that furnish jobs and ready money to buy rather than opportunity to achieve, great inherited wealth in many instances and the grouping of young people in large numbers at college during four years with the result that they are put out of harmony with home and old ideas.

### PASSED ON

Mrs. Bettie Jane Walton died at her home in London Monday afternoon, October 1, 1928. Interment was made in the Red Creek Cemetery, where rest her father, John Vance, Sr., who passed on several years before her.

Rev. N. H. Skaggs, assisted by Rev. Louis Pearl, conducted the funeral service.

Mrs. Walton was born May 22, 1879. On the 29th of July, 1901, she was united in marriage with T. H. Walton. To this union were born four children.

At the age of seventeen she became a member of the Baptist church, being converted and baptized by Rev. N. H. Skaggs. Later she and her family united with the Methodist church.

Those who mourn her demise are her husband, T. H. Walton; a son, Lee Andrew Walton of London; three daughters, Melba, assistant teacher, of London, Mrs. Gladys Box of Lonegrove, and Mrs. Thelma Thiers, principal of Roosevelt school, mother, Mrs. John Vance, Sr., of Menard; three sisters, Mrs. Rosa Stockard of Denton, Mrs. Ona McCollum and Miss Ethel Vance of Menard; and a brother, John Vance, Jr., of London. Also a host of friends who mourn her passing.

Mrs. Walton was known as a kind, loving Christian woman, always ready to help in sickness

or distress; always cheerful and had a kind, cheering word for all.

With those who mourn we sympathize and give condolence, realizing how little can be offered to comfort in the face of death. Yet death is not what it first seems to be when we are suddenly called into its presence. All nature cries out that death is not the end.

Flowers bloom, wither and die, going back to cherish the earth that gave them birth. Death is only a transition that enables us to depart from this world of troubles and enter into a higher, more beautiful plane of existence.

May the sorrowing hearts of those who loved her humbly submit to the will of Him who doeth all things well.

A Friend.

### BUILDING MODERN ROADS

The ever-present question of maintenance is paramount in road building plans and activities. In the long run, main-

tenance commonly requires more work and more money than the original building of the highway.

The perfect highway is one that gives a fine, smooth, water-proof surface that wears well and can, when it becomes necessary, be repaired at a low cost. Communities too often build cheap highways that become "white elephants," ceaselessly taking money from the treasury.

The era of good roads is here, and it is increasingly apparent that they must be built, or the section without them will be retracted from civilization. A recent trend in building hard surfaced roads to more or less isolated districts, is to oil macadam roads or surface old gravel and macadam highways with a wearing surface of asphaltic concrete.

When roads are built, surfaces should be used that do not require undue expenditures for maintenance.

The home is the product of civilization. Let us supply it with comfort and attractiveness. Farmer Furniture Co.

J. J. McWright of the McWright Tourist Camp will this week ship about three car loads of horses and mules to the eastern markets.

### NEMA CAPSULES for stomach worms in sheep or goats HEYMAN'S DRUG STORE

Mr. Guy Cummins from near London, brought to this office Tuesday a specimen of the fruit raised on his place. An apple of unusual size and quality, and a pear, the size of which has never been seen in this section; it measures 12 1/2 inches in circumference one way, and 12 1/2 inches the other way, and weighs 1 pound and 1 1/2 ounces. Still, some will say that fruit cannot be grown in Kimble County.

After the removal of the Telephone business office from the rear of the B-C Music Shoppe, it left vacant a small room which Cecil and Howard will fit up for a demonstration room for their phonographs and Radios. These young men have the right ideas, and will undoubtedly make a success of their business.

FOR SALE—702 Acre ranch located on North Llano river. On O.S.T. 45 acres in cultivation, all sheep and goat proof fenced. One mile river front; lots of pecans; one half mile to post office and store, one mile to school. Well improved place. Better come and see or write Edwin C. Ahrens, Camp Allison, Tex. Sutton Co.

J. F. Horton, editor of the Eden Echo, passed through Paint Rock enroute to Coleman to help invoice the grocery stock of his father-in-law, Mr. Edgar McLendon, who has sold out at Coleman and has purchased the Junction Eagle. He will take charge of the Eagle at an early date.—Concho Herald.

Nothing added or taken from the pure cane juice in making our country seeded ribbon cane syrup. It's good and good for you. Try a bucket. On sale at Skaggs Grocery or by Geo. Attaway on Perry place on Cedar Creek. 25-3c

Mr. and Mrs. Clay Secrest, Mr. and Mrs. H. O. Denman, Mr. and Mrs. Jim Carpenter, Mrs. Walter Buck, E. O. Lowgren, Odie and Homer Wright were among those who attended the American Legion Convention in San Antonio this week.

The streets of Junction have been very quiet the past few days, owing to the attendance from here to the American Legion Convention at San Antonio. We cannot attempt to give the names of all those who attended. But it looked as if business might as well be suspended for a few days.

Mr. and Mrs. J. R. Turnbull of Houston are spending the week at the Fritz Hotel. This is the ninth year that Mr. and Mrs. Turnbull have visited Junction. They are always enthusiastic in their praise of the scenery and climate here.

Mr. and Mrs. E. J. Barthelow are the proud parents of a daughter, Carolyn Claretta, born Saturday morning, weight seven pounds. Mrs. Barthelow was Miss Merle Blackburn before her marriage.

To be happy at home is the ultimate aim of all ambition; the end to which every enterprise tends, and to which every desire prompts the prosecution. Farmer Furniture Co.

Pure country made syrup from seeded ribbon cane. Limited supply fresh from mill. See Geo. Attaway on H. G. Perry place on Cedar Creek or Skaggs Grocery. 25-3c

Like pure country cane syrup—the good kind? Go to Skaggs Grocery or see George Attaway on Cedar Creek for some fine Junction made syrup. Limited supply fresh from the press. 3

Methodist Ladies, Attention: Do not forget the Bazaar to be held November 6th. All Methodist ladies come to the sewing at the home of Mrs. Borden Friday, at 3 p. m.

Mrs. Walter Richardson and Ted Rowe motored to Brady Sunday. They were accompanied home by Mrs. Buddy Richardson and little daughter, Bana Fay.

Our furniture is new and fresh from the factory. We invite you to visit our store, and inspect our stock. Our prices are right.

Farmer Furniture Co. Mrs. John Leavell and Misses Ruth Leavell, Amy Louise Schmebach and Elizabeth Summers of Kerrville spent the first of the week with Mr. and Mrs. John Phillips.

C. W. Walker now has charge of the repair shop of the Schreiner-Hodges Co. Garage, and will do all kinds of auto repair work for the public. Charges reasonable. 25-4c

Little Wilbur Atchison, son of Mr. and Mrs. C. W. Atchison, has been quite sick the past few days, but is now reported as improving.

Mrs. Walter Richardson and Mrs. Ches. Goodwin and children motored to San Antonio last week where they attended the circus.

SATURDAY SPECIALS Corn Flakes, 13 oz., 10c. Q and Q Macaroni, Spaghetti and Vermicelli, 7c each. Fig Preserves, 4 oz., 11c. Maxwell House Coffee, 1 lb., 49c. Maxwell House Coffee, 3 lb., \$1.49. Skaggs Grocery.

### SIX MILES OUT

Pecan and cotton gathering is the order of the day. Everyone is busy trying to get crops gathered before cold weather. Eight-Mile school is progressing nicely, and five new pupils enrolled lately and more are expected. How is that for Eight-Mile?

Charlie Davis has a large force of cotton pickers on his place, and made over three-fourths of a bale per acre.

Miss Lillie May Doran, a popular young lady of this community, is wearing a smile, as she gathered over 100 pounds of pecans per day. No wonder she smiles.

Glen and W. P. Connor of Brady were visitors at Lee Doran's home this week.

Pete Doran returned home from the Gully Cowsert ranch where he has been at work helping with sheep shearing. Marshall Alexander was a pleasant guest of Bob Doran this week.

Mr. and Mrs. Frank Cowsert and children returned Tuesday from Dallas where Mr. Cowsert has been stationed for several months.

The secret of popularity is always to remember what to forget.

All cards of thanks, resolutions of respect, church or club notices, where there is a money consideration, will be run only as paid matter at regular rates.

A DEPLORABLE STATE

The following lament comes from the Ozona Stockman, and we herewith extend to Crockett County the sympathy asked for by The Stockman. It is certainly deplorable that a county as rich per capita as is Crockett, cannot build roads for its citizenship.

"We hope Crockett County gets her full measure of sympathy from the outside world. A pauper county, surely, too poor to build an all-weather road to the source of its life, over the main artery of its existence. A county without a railroad which must depend solely upon its roads for its existence and too poor to make these roads passable in bad weather. Surely the richest per capita county in the whole state of Texas deserves sympathy."

SCHOOL NOTES

On Thursday morning of last week Mr. Hamilton and Prof. Zadok Arkush of Los Angeles, California, visited our school. Prof. Arkush rendered a few musical numbers for the purpose of advertising the program which he gave in the High School auditorium Thursday night. The Parent-Teachers' Association sponsored this program. A large crowd was present to enjoy the program. The most amusing number was Prof. Arkush playing the piano with his nose while blind-folded.

Wednesday morning the school was glad to have as a visitor Miss Willie Baker, who was a student in Schreiner High School last year. Cora Kropff visited school Friday. She is a former student of this school but is now attending Mason High School.

Miss Merchant and her sister visited school Tuesday morning. Miss Merchant taught in this school several years, but is now teaching the Bundy school.

After the football game with Del Rio the Junction crowd went over into Mexico. While crossing the river Lemuel Jones accidentally dropped a nickel into the river. He couldn't decide whether he dropped the nickel in Mexico or in the United States.

Miss Sutton, who has been teaching the third grade, is now teaching ninth, tenth and eleventh grade history and eighth grade algebra in High School. Mrs. Boers is teaching the third grade. Mr. Cowles, who has been teaching mathematics is now teaching science and Mr. Bierschwale, who has been teaching science is now teaching mathematics.

Probably the most amusing entertainment that has ever been given in Schreiner High School was given by Mr. Austin Wednesday morning. Mr. Austin renders programs over the radio from Fort Worth and is known as the world's foremost entertainer. He can imitate the crowing of roosters, the squealing of pigs, and the singing of birds, and he can perform many other feats too numerous to mention. The program was thoroughly enjoyed by all the pupils in school.

CARD OF THANKS

To our dear friends who so lovingly and tenderly assisted us during the long illness and death of our loved one we wish to express our deep appreciation and thank you all from the depths of our hearts.

May God's richest blessings be upon you and yours in our prayer.

Wm. R. McKee, J. D. Pepper, J. H. Pepper.

SATURDAY SPECIALS

BAPTIST NEWS

Sunday School at 10 a. m. Preaching at 11 a. m. and 7:30 p. m. B. Y. P. U. service at 6:30 p. m. Prayer service each Wednesday night at 7:30 p. m. W. M. S. service each Tuesday at church, at 3:30 p. m.

MERRY WIVES PARTY

Mrs. Ivo Carpenter was hostess to the Merry Wives Club and a few friends at her home Saturday afternoon.

Verbenas placed about the room in vases and bowls were most attractive. Harvest time was suggested by a big pumpkin placed in the center of the dining table surrounded with luscious fruit of the season. The tallies were decorated with autumn leaves.

Bridge provided the medium of entertainment. Mrs. U. D. Kindrick made high club score and received a handmade wicker tray. The guest prize went to Mrs. H. E. Luehrs, while Mrs. Roland Martin received the consolation, a pair of hand-painted shoe trees.

Pumpkin pie topped with whipped cream and cherries, raisin nut sandwiches and iced tea were served with acorn favors, tied with red ribbon and filled with wild flowers.

Those enjoying Mrs. Carpenter's hospitality were Mesdames H. W. Rieck, Alton Miller, Roy Williams, S. A. McDonald, Slator Fleming, H. D. Taylor, H. E. Luehrs, A. S. Rieck, Vann Martin, Rowland Martin, Omer Wright, Pierce Hoggett, H. G. Hubert, Clifford Hamer, U. D. Kindrick, Rudolph Tatum and Irvin Jarvis.

EPISCOPAL SERVICES

The Rev. Frederick Brassiere of Kerrville will hold services at the Episcopal church next Sunday, October 14, at 11 a. m. Exerbody cordially invited to attend.

Mrs. W. W. Parker and baby returned Wednesday to their home in Johnson City after a visit with Mrs. Parker's mother, Mrs. Maggie Jokes.

SCHWIENING-SMITH

Monday evening at eight o'clock Rev. K. Konzack united in marriage Miss Marjorie Smith and Otto Schwiening. Mrs. Konzack played the wedding march as the bridal party entered the church. Attendants to bride and groom were Freddie and Miss Emma Schwiening. Only close relatives attended the wedding.

The bride is a daughter of Mr. and Mrs. H. A. Smith of San Antonio. The groom is a son of Mr. and Mrs. Fred Schwiening.

The young people are making their home temporarily at Fredricksburg.

We extend to them our good wishes for a bright and happy married life.

SATURDAY SPECIALS

Corn Flakes, 13 oz., 10c. Q. and Q. Macaroni, Spaghetti and Vermicelli, 7c each. Fig Preserves, 4 oz., 11c. Maxwell House Coffee, 1 lb., 49c. Maxwell House Coffee, 3 lb., \$1.49. Skaggs Grocery.

W. H. NETHERY

Another of the pioneer citizens of Kimble County answered the call to the Great Beyond Sunday, October 7, at 9:30 p. m., when W. H. Nethery was called.

Mr. Nethery was born in Montgomery County, Texas, September 26, 1855. He came to Kimble County in 1900, and has since resided here.

Mr. Nethery was taken sick shortly after breakfast Sunday morning, and gradually grew worse until about 9:30 p. m. when he passed away. The surviving relatives are: Two sons, R. C. and M. J. Nethery, of Junction; Mrs. L. L. Camp of San Diego, California; one sister, Mrs. Johns, of Kingsbury, Texas.

The remains were laid to rest in the Junction Cemetery Tuesday, October 9, at 10 o'clock, with a large number of friends and relatives present.

Rev. G. W. Crabb, pastor of the Baptist Church, officiated.

TEACHERS' INSTITUTE

The Kimble County Teachers' Institute will be held at the Court House in the city of Junction, beginning at 9 o'clock a. m. on Friday, October the 12th, and continue two days. All teachers teaching school in this county are requested to attend under a compulsory attendance law.

All teachers having a shortage of school books are requested to bring with them a requisition for said books.

J. B. Randolph, County Judge.

I have 25 registered Pepper Billies for sale, all in good shape and good age, and can be bought worth the money. 25-2p Watt Turner.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS. To the Sheriff or any Constable of Kimble County—Greeting: YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for three consecutive weeks exclusive of the first day of publication before the return day thereof.

NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS. To all Persons interested in the Estate of T. Hodges, deceased, Mrs. Nettie Hodges has filed in the County Court of Kimble County on the 27th day of September, A. D. 1928, an application for the probate of the last Will and Testament of said T. Hodges, deceased, and for letters testamentary (the said Will accompanying said application), which will be heard and acted on at the next Term of said Court, commencing the first Monday in November, A. D. 1928, at the Court House thereof, in the City of Junction, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

HEREIN FAIL NOT. But have you then and there before said Court this Will, with your return thereon endorsed, showing how you have executed the same. Given under my hand and seal of said Court at Junction, Texas, this 28th day of September, A. D. 1928. L. R. HODGES, (SEAL) Clerk Co. Court, Kimble County, Texas.

"Service and Quality"

VOICE OF THE PEOPLE

The time is near at hand when the people of the nation will express at the ballot box their approval or disapproval of its public servants and national policy.

When the public speaks it always is portentous, significant and consequential. Whether the verdict applies to national politics, a public utility, a private business or an individual. It is an incontrovertible force in which judgment the victor or the victim must abide.

The public demands, and is entitled to service—good service and constructive service—no other kind will develop confidence and trust or perpetuate loyalty and patronage.

This sort of service forms one of the basic principles upon which the West Texas Utilities Company is founded. It is with pride that we point to the thousands of satisfied customers who stand loyal and steadfast. We like to believe that it is a commentary to our unswerving efforts that our industry continues to grow and thrive in such gratifying proportions.

West Texas Utilities Company

Look, Before You Buy!

From childhood days, you have been told to "Look before you leap!" That's a mighty good maxim. We all think it unquestionably good advice.

Not so long ago, it was a more or less accepted custom of business, to "highpower a person"—to "sell them while the selling was good."

But nowadays, the ethics of good business does not approve of such methods. A good business house frankly enjoys fair competition. No business man wants to sell a customer something that the customer later on finds he didn't want.

IT HAS ALWAYS BEEN THE POLICY OF LEE MASON & SON to urge their customers to "Look before you buy"—and to "Shop before you buy."

Of course we believe that our merchandise is the very best. We wouldn't sell it, any of it, if we didn't believe in it. But how are you going to know this unless you get comparisons?

FOR INSTANCE, WHEN IT COMES TO BUYING AN AUTOMOBILE—it does not hurt our feelings like everything if some of our old friends—and it isn't our fault if everyone in the Hill Country isn't our friend—buys an Automobile without giving us a chance to show them our Chryslers.

We urge you to "LOOK BEFORE YOU BUY"—and while you are looking, be sure and see us! Now, as somebody once said, "There's our cards on the table." Please resolve right now, to let no influence persuade you to buy any other car, regardless of price or previous consideration, until you have first seen the new Chryslers and obtained the new low prices.

Our Mr. C. W. Arnot, our Salesman for Junction and vicinity, has been seriously ill with pneumonia the past several weeks.

We are glad to advise his friends that he is now on the road to recovery. As you will soon see him driving his beautiful Plymouth Sedan in and around Junction within a few more days.

If you want to "talk car" before Mr. Arnot sees you, please drop us a line or send us word, and it will be a pleasure to give you all information you desire.

Well made, all wool materials. All new fall patterns. Good wide bottoms, regular \$5.00 trousers. Sale price—**\$3.95**

# PHILIP JOSEPH

ABOUT YOUR HEALTH

Remember:

Disease germs have three avenues of entrance into the human system. They may be inhaled, swallowed, or may get in through scratched or incised wounds of the skin.

In warm weather, when most of our houses are wide open, the danger of inhaled germs is especially nil. Pure air is a wonderful disinfectant, capable, except against the tubercular germ, which should be guarded against at all seasons.

Most acquired infections in summer, are of the digestive tract; the bacteria are swallowed with food or water. We should, therefore, be discriminative at this season. Edibles taken raw, must be scrupulously clean, and thoroughly masticated. Fruits should be ripe, fresh, and free from punctures by twigs, or specks of decay. Don't give the child a banana that is green, or part-ripened, or punctured through the skin. Potato salad that is carried over from the picnic, especially if it reposed in the basket on the ground for a few hours. The same is true of cake, wrapped in newspaper and kept in the same basket. Flies haunt out-door picnics. They love to crawl over deviled eggs, potato salads and the like. It is not pleasant to think of what they may shake off from their filthy feet and bodies.

It goes without saying that all drinking water these days should be attested in purity, by a capable rather than a political official. A stitch in time saves more than nine. Put nothing of doubtful purity into your stomach, and be careful not to overload.

Silence may be golden, but a good deal of speech is braver.

HINTS FOR THE HOME

Have you an interesting picture in the kitchen—hung where it catches your eye many times during the day?

In this sensible age, you know, no one denies the appropriateness—if not the psychological necessity—of a glimpse of sunny, winding road over country hills when one is confined at kitchen tasks. Or perhaps the picture might be of some fragrant, old-fashioned garden, or of a child at play.

Cheerful scenes in the kitchen are often invaluable, both for decorative purposes and as a counter-irritant.

Vegetarian Menu

- Cream of carrot soup
Lima bean loaf with tomato sauce
Creamed cabbage
Buttered Beets
Apple and Celery salad
Steamed pudding
Non-stimulating drink

Cookies for the School Lunch

Heat 1/2 cup of molasses to boiling point, add 1/2 cup butter, then slowly add 1 cup prepared cake flour, 2-3 cup sugar, 1/2 teaspoon salt and 1 teaspoon ginger sifted together. Drop half-teaspoons of batter three inches apart on an inverted pan. Bake in a slow oven until medium brown.

Asparagus and Egg Salad

A nice way to combine canned white asparagus and hard-boiled eggs in salad is to mold them in alternate layers in lemon gelatin. Strips of pimiento may be added if desired. Mold in square loaf pan, slice and serve on lettuce with mayonnaise.

"To Set" Colors

A teaspoon of Epsom salts added to a bucketful of water will set colors most effectively. Soak the fabric in the solution, then wash in the usual way.

Decaffeinated Coffee at Its Best
Altho decaffeinated coffee may be made as you would natural coffee—either boiled, percolated or by the drip method—it is best when brewed in a drip pot. Heat fresh water to boiling, pour over ground coffee one cup for every tablespoon of coffee and one for pot. Place pot over low flame to keep it hot, but do not boil.

A Refrigeration Hint

When the ice melts, the refrigerator is cooled; so do not cover the ice with paper, if you want the best results.

MRS. SUSIE B. MCKEE

Mrs. Susie B. McKee, wife of W. R. McKee, was born in Virginia April 9, 1853. Died at her home near Junction, Texas, Monday morning, October 8, 1928, at 3:20 a. m. Was buried at Junction Cemetery October 9, at 4:30 p. m. She leaves a husband, Bro. W. R. McKee, two own brothers, four half-brothers and three half-sisters, and a host of other relatives and friends to mourn her loss.

Miss Susie B. Pepper and Mr. W. R. McKee were married in Missouri December 9, 1879, and moved to Texas in the fall of 1880. Settled near Junction the same year. They have been identified with every movement put forth for the best interest of our State and county all these years.

Aunt Susie McKee, as we all knew her, was a noble woman. Faithful to God, and true to humanity. A true and consecrated Christian from her childhood to the day of her departure. The number of charitable deeds and kind words coming from her pure heart eternity alone can reveal.

"Blessed are the dead which die in the Lord from henceforth; yea saith the Spirit, that they may rest from their labours; and their works do follow them."—Rev. 14:13.

Many were the relatives and a large concourse of friends present to lay the remains of our beloved Sister in Christ to rest; there to remain until the resurrection morn. The writer tried to speak words of comfort and consolation to those of her bereaved loved ones. In behalf of the members of our congregation, she was loved by all and will be greatly missed. And to Bro. McKee and all the relatives, we express our deep sympathy in this sad hour. Your loss and our loss is her eternal gain. My heart's desire and prayer to God is that all of us may be prepared to meet each other where we will meet to part no more, in that glory world where good-bye's will never be said.

May I here appropriate the words of another who so beautifully described the death of a consecrated Christian:

"Death is not death then, if it kills no part of us, save that which hinders us from perfect life. Death is not death, if it raises us from darkness to light, from weakness to strength, from sinfulness into holiness. Death is not death, if it brings us nearer to Christ, who is the fruit of life. Death is not death, if it perfects our faith by sight, and lets us behold Him in whom we have believed. Death is not death, if it gives to us those whom we have loved and lost, for whom we have lived, for whom we long to live again. Death is not death, if it rids us from doubt and fear, of chance and change, of space and time, and all which space and time brings forth and then destroy. Death is not death, for Christ has conquered death for Himself, and for those who trust in Him. We are more than conquerors through Him that loved us."

Elder J. S. Newman.

SOUTH LLANO NEWS

Miss Gussie Burreis visited homefolks at Ballinger last week-end. While there she purchased a portable which she will enjoy and entertain with.

Mrs. Stafford Thomas and baby and brother, Hubert Masters, spent last week-end with their mother, Mrs. Masters, at Rocksprings.

Mr. A. Allsup returned home from Kerrville Hospital last week much improved, we are glad to report.

Mrs. Ed. Hunger is improving since her treatment at Kerrville. Her sister, Miss Lydia Savage, is spending a while with her.

We have a new mail carrier this week, Carl Glossbrenner, who has taken charge of our mail line.

Mr. J. Savage and family were guests at the Ed Hunger home last Sunday. Our school is progressing nicely. They have two croquet sets for the amusement of the pupils.

Mr. Robert Hunger and family took an outing last week to San Antonio. They were accompanied by Mrs. Theo. Hunger and Mrs. Schrier.

Mr. and Mrs. F. Robert returned Sunday from a business trip to San Antonio.

MAGNET CLEARS ROADS OF NAILS AT TEXAS FORT

San Antonio.—A wholesale nail picker capable of lifting large pieces of iron or steel is used at Fort Sam Houston to protect automobile tires against puncture hazards on the roads that cross the military reservation.

The device consists of a gasoline motor which drives a generator wired to a huge magnet. The magnet is suspended to the rear axle of a wagon and hangs just above the ground. As the wagon is drawn slowly along a road, nails, tacks, bolts and other objects are gathered up by the electro-magnet.

The strength of the magnet was illustrated when Private Sam Smith, who follows behind the wagon as it cleans the roads of metal, let his eye wander for a moment. He suddenly plunged into a manhole, the lid of which had been whisked away by the magnet.

Wed Three Times to Same Man

Mrs. Josephine Hiltwein now has reached the conclusion that Edward Hiltwein, her husband, is fixed in his traits. One of these, she claims, is his impulse to beat her. She married him three times, divorced him twice, and is now seeking her third divorce. Her next husband, she says, must be another.

The man who has no faith in human nature is not to be trusted.

Before giving advice a wise man prepares to dodge the consequences.

THE STATE OF TEXAS. To the Sheriff or any Constable of Kimble County, Greeting: You are hereby commanded to cause to be published once a week for ten days, exclusive of the first day of publication, before the return day hereon, in this newspaper of general circulation published in said County, which has been continuously and regularly published in said County for a period of not less than one year, the following notice:

To all persons interested in the welfare of Chas. Lee Fleming, a minor: You are hereby notified that Mack Huffman has filed in the County Court of Kimble County, Texas, an application for letters of guardianship upon the person and estate of said minor, Chas. Lee Fleming, and on the 6th day of August, A. D. 1928, by order of the County Judge of said County, the said Mack Huffman was appointed temporary guardian of the person and estate of said minor, and at the next regular term of said court, commencing on the 1st Monday in November, A. D. 1928, the same being the 5th day of November, A. D. 1928, at the Court House thereof, in Junction, Texas, at which time, all persons interested in the welfare of said minor, may, and are hereby cited to appear and contest such appointment, if they so desire, and if such appointment is not contested at the said term of said court, then the same shall become permanent.

HERIN FAIL NOT, but have you then and there before said court, on the 1st day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, this 6th day of October, A. D. 1928. L. R. HODGES, Clerk County Court, Kimble Co. Texas.

If you want anything done well, do it yourself. Always laugh at your own jokes.

**MORE UNIVERSITY LAND MAY BE OIL BONANZA**

Austin, Texas.—Is the University of Texas going to find a bag of gold at the end of another rainbow, as it did in West Texas when grazing lands of small value suddenly produced oil gushers? This time the rainbow slants to the southward, with the mythical end resting on the Texas coast, adjacent to Galveston. The western rainbow has already produced nearly \$10,000,000 in oil royalties, and there are some who think 4,000 acres near Texas City, on the Gulf Coast, may produce oil.

This hope was communicated to the university regents Monday and instructions have been given to perfect title to the Texas City acreage and determine its exact boundaries. R. E. L. Saner, university land counsel, attended the regents' meeting and conferred with the Attorney General regarding the coast lands and the necessity of fixing absolute title thereto. This may require several trespass-to-try-title suits, as squatters are alleged to have gone onto some of the land claimed by the university.

The 4,000 acres were given the university by the Huntingtons of New York, builders of the Southern Pacific Railway system. Collis P. Huntington bought the 4,000 acres for shop and terminal purposes. At his death the road abandoned its intention of developing the tract, and a nephew of Huntington gave the land to the university.

All the land is subject to overflow from high tides and it was considered of little value, the university once having been offered 15c an acre for it. Unexpectedly, oil potentially loomed up and now the regents will have its exact lines fixed.

Goose Creek is but a short distance away, at the edge of the same tidewater from Galveston Bay. Goose Creek is a large oil producing area and its reservoirs may extend to near Texas City, where the surface formation practically is the same.

As soon as the university definitely fixes the boundary lines of the tract, drilling for oil is expected to begin.

**NEED GLASSES**

Dr. Jones, the eye man, will be in Dr. Luehrs office Friday, October 26. See him about your eyes and glasses.

**MAYOR WALKER WOULD TAX "POLITIC" CHURCHES**

New York, N. Y.—That the pastors of some of the churches have seen fit to discuss the coming election on the basis of the moral considerations involved has apparently raised the ire of Mayor James J. Walker and he would get back at them by no longer exempting such churches from taxes. The mayor said, "the exemptions, in the case of churches, were made for religious purposes on the ground that their sole business was that of saving souls. But some of the churches substituted politics for religion, and they should be taxed accordingly."

His remarks were directed especially towards Dr. John Roach Straton, pastor of the Calvary Baptist Church who is making a speaking tour through some of the states.

C. C. Fitch, deacon and personal secretary to Dr. Straton, said that local branches of the Anti-Saloon League, the Women's Christian Temperance Union and other similar organizations were sponsoring the tour. It was also pointed out that Dr. Straton's personal expenses, such as railroad fare and so forth, have been met out of his own pocket.—Scottish Rite News.

**BEAUTY BUT NO MENACE SEEN IN SARGASSO SEA**

New York.—The Sargasso Sea is pictured as a place of beauty rather than a menace by H. A. Marmor, of the United States Coast and Geodetic Survey. The water is unusually blue, due to lack of minute plant and animal life. It is so transparent that a six-foot white disc can be seen clearly at 200 feet depth. Belief in the existence of great masses of weed in this sea has no basis in fact, Marmor writes in the United States Naval Institute proceedings. The sea has surface weed patches up to 100 feet in diameter and occasionally as large as an acre in extent, which do not interfere with navigation.

**ROTARY CLUBS RECEIVE DISFAVOR OF VATICAN**

Washington, D. C.—Another organization, typically American in its make-up, is apparently about to come under the ban of the Vatican and the Italian Government, according to a dispatch in the "New York World." The Vatican and the Italian Government are both about to take action against Rotary Clubs, the dispatch states. The Italian Government's complaint is understood to be that they hide Freemasons since Freemasonry was legally abolished there. The Catholic Church fears too much American influence in the Holy See.

Pope Pius, "The World" is told indirectly, is going to issue a warning separating the civil, political and religious responsibility of the Holy See from the Rotary Club action. The warning will not be addressed directly to the clubs but through the bishops and parish priests.

According to "The World's" information, Italian circles in Rome complain about Americans having invaded the Holy See with the power of their dollars, building beautiful churches, colleges and sporting fields, and penetrating the very heart of the Vatican through the library and archives.

It seems that the Italians are perfectly willing for the United States to be the principal source of the Vatican financially but wish to avoid other American influences.—Scottish Rite News.

Mary had a little mule,

It followed her to school,

The teacher, like a fool,

Went up behind the mule,

And hit him with a rule.

And there wasn't any school!

CHILDREN SHOULD KNOW—

Cinderella Up-to-Date

There's a fascinating business story now going the rounds. It concerns a modern Cinderella who went to a ball clad in the raiment of a new scientific age; who was kind of a belle but always eyed by the crowd as one who could never grow up to be really smart; who was forever to be under the handicap of being both orphan and upstart. Suddenly the modern Cinderella surprised the world, not by becoming a theatrical sensation over night, or any such time-worn thing, but by actually receiving the social acclaim of an age tired of the ordinary and usual. Today the "top" fashion magazines seek this Cinderella's pictures; the smartest women want to have her with them morning, noon and night; the stage indeed calls her but, not content with one career—this charming girl of a hundred personalities and as many beauties has said "I will go everywhere and be all things that are beautiful, comfortable, honest and correct." And she does!

French Count Hillare de Char-donnet was "the man in the case." This titled gentleman was the inventor of textile rayon, which became the orphan child among fabrics. But within the last few years its cousins, wool, cotton, silk and linen, have been pricking up their ears and dropping their lornettes to reach out welcoming "family" hands to the long neglected Cinderella, on whose dainty foot the French Count-inventor placed the magic slipper.

**THINGS WORTH KNOWING**

**Near East Relief**  
Word from overseas indicate plans are being formulated to finish the task styled the "world's greatest adventure in international friendship"—America's child saving program in Bible lands under the auspices of Near East Relief whose charter was authorized by the Congress of the United States.

A carefully prepared budget calls for six million dollars to finish the job and provide a fund for the care of the youngest children until they reach the age of self support. Of this budget the American people have subscribed \$2,500,000 in the past nine months, and it is expected the balance will be provided by the middle of 1929.

This is doubtless America's greatest philanthropy and no cause has had a more hearty or wider support than the saving of the orphans in the Near East whose parents were either massacred or driven to the desert to die of exposure and starvation.

More than 100,000 children have gone out of these American institutions, alert in mind, robust in health, strong in moral worth, with ideals that will help stabilize conditions at the crossroads of three continents. There most of the wars of ancient and modern times have started and these boys and girls with American ideals of life and Government now scattered in two thousand villages will provide the leadership for tomorrow which ought to mean much for world peace.

This great achievement includes the saving of 1,569,000 lives. It is an investment by America. There are still 32,000 children too young to turn out. The work has been commended by many high authorities and indorsed by most of the national religious and fraternal bodies. The work has been wisely administered and the spirit of America is back of the effort to carry it through to the crowning end.

It spoils a favor if you are asked to return it.

Are you going to build or repair fence?

Get your posts from me.

**PROBATE OF WILL**

THE STATE OF TEXAS: To the Sheriff or any Constable of Kimble County, Texas, Greeting:

You are hereby commanded to cause to be published in some newspaper regularly published in your County, for twenty (20) days, notice in words and figures as follows, to-wit: Estate of T. M. Winklett, deceased. In the County Court of Kimble County, Texas.

To all persons interested in the estate of T. M. Winklett, deceased: You will take notice that on and after the expiration of twenty days from the service hereof, Charles Winklett, who has filed herein for probate the last will and testament of T. M. Winklett, deceased, and an application to be confirmed a Independent Executor under the provisions of said will, will apply to the Clerk of the County Court of Kimble County, Texas, for a commission to take the answers of the witnesses to said will, who are Frank Howard, Scott Stodgrass and Mrs. Max Yearz, all of whom reside in San Angelo, County of Tom Green, State of Texas, to the interrogatories attached to said application, and that a commission will issue on and after the twenty days after the publication of this notice to take the depositions of said witnesses.

Given under my hand and seal of said Court at my office in the town of Junction, this 28th day of September, 1928.

(SEAL) L. R. HODGES, Clerk of Co. Court, Kimble County, Texas. Issued this 28th day of September, A. D. 1928.

L. R. HODGES, Clerk of Co. Court, Kimble County, Texas.

Abstracts for your lands can be secured on short notice from E. Holekamp. 25 years in business—we know how. (adv)

The price of liberty is eternal vigilance—and it is always payable in advance.

TRESPASS NOTICE

Hunting and trapping is positively forbidden on my place, and all violations will be prosecuted.

24-1c W. W. Buck.

### Junction Trade Notes

Approximately 160,000 lbs. fall mohair sold at the Junction Wool Warehouse Wednesday of this week, at prices said to be satisfactory to the growers. The price is not given out yet. Sale of 200,000 lbs. mohair was made at Kerrville Tuesday, it was said.

Col. P. A. Weathered of Houston, accompanied by Mrs. Weathered and daughter, Miss Julia, made Junction their first visit early in the week and were delighted. Miss Weathered will remain in Junction several months. Col. Weathered is Chief of Staff of Texas National Guard.

Choice young turnips and greens, grown by Mr. and Mrs. A. F. Fritz of London community, are being supplied to the Junction trade through Gann Grocery Company.

Mike Goodman of London marketed country butter and yard eggs in Junction Monday.

Cedric Durst, member of the New York Yankee ball club, started in Monday's game with St. Louis, when he lined out a homerun. Durst was born and reared in Austin, Texas, and is a grandson of Mrs. John Durst of Junction.

Pure country sorghum syrup, manufactured on Cedar Creek, in gallons and halves. Gann Grocery Company.

New arrivals this week—Heinz fig and plum pudding, new crop white figs in bulk, sauer kraut in the keg. Gann Grocery Company.

Many families in Junction have missed their "accustomed" custard pie this week, due to the scarcity of yard eggs.

Chas. McCarroll of the McCarroll Lumber Company is off duty this week, due to a physical ailment, which has nothing to do with Mrs. McCarroll's cooking.

J. E. Brown of San Angelo recently acquired the leasehold of the Gay Sieker pasture on the Divide west of Junction. A flock of 1400 sheep was transferred in the sale. Mr. Sieker bought a ranch northwest of Kerrville and has moved to it.

Shelled pecans, new crop. Gann Grocery Company.

A travelling man, commenting on the service of Junction Cafes, says he gets more to eat for 50c in Junction than in any other town in the territory. And a travelling man usually knows his "vegetables."

George Little left Wednesday to take up his work in Chicago after a vacation-visit with his parents. Mr. and Mrs. J. W. Little, of North Llano. He picked out a bale of cotton while taking his vacation at home.

#### RECOVER BODIES OF TWO MEN DROWNED.

San Angelo—The lifeless bodies of J. W. Neves and George R. Maddux, San Angelo contractors, were recovered from the Concho river, five miles east of here, Monday morning.

Watches of both men had stopped at 8 o'clock, leading to the belief that they had gone down in their light fishing skiff shortly after entering the water Saturday night. Failure to return home Sunday night started investigations that lead searchers to the watery grave.

#### LEGIONNAIRE AND STORY WRITER WED

San Antonio—Romance was not to be denied in the continuous round of dinners, entertainments and revelry that marked activities of delegates to San Antonio national convention of the American Legion, and Tuesday night Jack Morris, Jr., of Chicago, chemist nationale of the 40 and 8 Illinois, was married to Miss Peggy Cole, Chicago short story writer.

Col. William Mitchell, former head of the air service; Gen. John J. Pershing and L. Sable, French attache at Washington, witnessed the ceremony, which was followed by a dinner given by Colonel Mitchell.

The romance, Morris said, began some time ago in Chicago.

#### SUNDAY SCHOOL LESSON

##### Christian Stewardship

It is possible for a teacher to get so much attention that the people will not listen to his message. This was the case with Paul at Ephesus after the uproar, when multitudes rushed to the theatre and cried against his interference with the sale of images and charm verses. Then it seemed wise to follow the letter which he had recently written to the Corinthians. Titus had been the messenger and this man is met in Macedonia and gives a good report of what had been adverse conditions in the Isthmian city. At once Paul wrote the second letter to the church at Corinth and dispatches it by Titus. Now read that entire epistle, and then reread chapters 8-9, which give the full context for this lesson study.

One of the points under discussion at the Church Council in Jerusalem, A. D. 50 was the adequate care of the impoverished Jewish Christians in that city. While certain freedom of action was accorded the Gentile converts to Christianity the obligation was laid on them to make continued contributions for their needy brethren who were related to the mother church. This, Paul and his collaborators was always diligent in doing. In writing the former letter to Corinth (1 Cor. 16:1) the question of gifts had been brought to their attention. In this second epistle a direct appeal follows the former suggestion.

"Going over the top" was a familiar expression in raising funds during the recent war time. Quotas were assigned and rival cities were stimulated by telling what the other had done or could do. Paul arouses the ambition of the Corinthians by telling what the people of Macedonia did in previous giving for the same Jerusalemites. From their "deep poverty" they had an "abundance of joy" in the riches of their liberality. No pressure had been needed. In fact, the Macedonians had begged the privilege of sharing in "this grace and the fellowship of ministering to the ship of saints." The reason the people of that Macedonian church were so eager to share "yea and beyond their power" was that "first they gave their own selves unto the Lord."

Religion cannot be separated from giving. Costly shrines and expensive systems of religion, all out of proportion to the ability of the people, are maintained in non-Christian lands because the inhabitants fear to do otherwise. The making and selling of images had been the reason for the recent disturbance at Ephesus. All such giving was non-productive for others in need. Paul comes forward with a humanitarian principle that is empowered with a rich, spiritual motive. The strongest kind of a supporting appeal is made in the reference to Founder of their faith, as he tells them "For ye know the grace of our Lord

Jesus Christ, that, though he was rich, yet for your sakes he became poor, that ye through his poverty might become rich," 2 Cor. 8:9. Only as we share what we have, as others are in need, do we evidence the sincerity of our declared love both for Christ and for mankind.

Giving is not to be a matter of compulsion or emotion. "Let each man do according as he hath purposed in his heart." It is sensible to have a budget of contribution, whether it is for the nation, firm, home or individual.

#### REMOVE THE MENACE

One of the most serious factors in our crime situation is that of the relentless, "repeating" criminal.

The newspapers are full of accounts of assaults, robberies and murders by thugs who have long records behind them of other crimes. These men are turned loose time and again to be "given another chance." Usually they use the new "chance" to further their criminal careers.

It is reasonable to believe that a man, convicted once of a crime, may, when released or pardoned, sincerely reform.

It is entirely unreasonable, however, to believe that a hardened wrong-doer whose whole life has been a testimonial to the strength of his criminal instincts, will be willing to change his ways.

In New York, under the Baumes Laws, which give life imprisonment automatically on the fourth conviction for a felony, crime is decreasing. Other localities, where similar laws are in effect, find the result the same.

We cannot compromise with crime. It is an unfortunate fact that all reform movements, based on purely moral grounds, have failed, because of the criminal's own unmoralty.

Sensible, unyielding laws, that have no part with misguided sentiment, rigidly enforced, will deter more criminals in a moment than all the anti-pistol laws ever proposed could do in a year.

We have failed in the past because we have pampered the criminal and compromised with crime. There can be no hope of success in the future unless we change our course of action, and put the "repeating" criminal where he can do no harm.

#### DESTROYERS OF GAME

Posting property against gunning will keep humans off, but has no effect on the depredations of "vermin" which destroy more game annually than is taken by hunters during the entire gunning season, is a significant fact to which attention has been called by a number of game authorities. Farmers' Bulletin No. 1521, issued by the United States Department of Agriculture, which may be obtained free, concerns the subject.

Certain birds, animals and

reptiles, which prey on fledglings, immature game animals and the nests and eggs of game, know neither "bag limit" nor "closed season" and have not the slightest respect for the rights of owners of land where game is found. These destroyers work swiftly and silently, wantonly slaying game while the property owner is on the lookout for hunters who might trespass on the land.

"Control vermin"—which does not mean extermination of species—say competent observers, "and good gunning will be offered in many sections where the supply of game is at present very inadequate." An idea of how numerous and varied may be the vermin population of a tract of land in New Jersey a total of 427 destroyers of game were taken between May 1 and the end of July. The list included 73 owls, 50 hawks, 52 crows, 121 rats, 58 woodchucks, 10 weasels, 7 cats, 1 skunk, 12 snapping turtles and 43 water snakes. Many of the offenders were caught in the act of killing game or robbing nests on the farm, which is devoted to raising game.

During the fiscal year ending May 1, the Pennsylvania Game Commission paid a total of \$121,869 as bounties on pelts of noxious animals. Keeping vermin in check is considered one of the most important contributions to game restoration in Pennsylvania, which enjoys the reputation of "the best game State."

A thing for the farmer to consider, it is pointed out, is that, in great measure, the destroyers of wild life also kill poultry and, in some cases, attack young farm animals.

In handling vermin it is important, of course, to use discretion, say game wardens and others who have given long study to the subject.

"Be it ever so humble, there is no place like home." Make it comfortable and attractive.

Miss Naomi Knowles and Miss Gussie Burris spent the weekend in Ballinger and Brownwood visiting relatives and friends.

Confidence is seldom lost, but it is often sadly misplaced.

#### NOTICE OF APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS.  
To the Sheriff or any Constable of Kimble County—Greeting:  
You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Kimble, State of Texas, and you shall cause said notice to be printed at least once each week for four consecutive weeks exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR PROBATE OF WILL.  
THE STATE OF TEXAS.  
To all persons interested in the Estate

of S. B. McKee, Deceased, W. B. McKee has filed in the County Court of Kimble County on the 11th day of October, A. D. 1928, an application for letters testamentary (the said will accompanying said application), which will be heard and dated at the next Term of said Court, commencing the first Monday in November, A. D. 1928, at the Court House thereof, in the City of Junction, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so. Herein fail not, but have you seen and there before said Court this Will, with your return thereon endorsed, showing how you have executed the same. Given under my hand and seal of said Court, at Junction, Kimble County, Texas, this 11th day of October, A. D. 1928. L. R. HODGES, Clerk County Court, Kimble County, Texas. 58-4

## The New Ford

Watch for the news on the new Ford in the Junction Eagle from now on. Twenty-seven New Fords have been delivered and are in daily use in Kimble County now. Ask any owner of one as to how they like them.

Our demonstrator has been run 10,559 miles, used rough, in all kinds of weather on all kinds of roads. Come and look it over and convince yourself of the quality of all material that they are built out of and how good the paint stands up. You will have to drive the new Ford to appreciate its performance. Come in any time, we will be glad to show you.

## Outside Icing

Why don't YOU enjoy its wonderful convenience?

With outside icing facilities an ice box can be kept well iced all the time whether the housewife is at home or not. All that is necessary is to tell the iceman to keep the refrigerator well iced—and then enjoy the perfect service which ice—the truly ideal refrigerant—gives, combined with a facility which relieves you of all responsibility.

And the cost is but little more than for an ordinary ice box! If you are moving into a new house or apartment this fall be sure to insist on outside icing. Or, if you are planning to stay where you are, you can have an outside icer put in with little trouble and at very moderate cost.
