Rockefeller Tagged As Likely Candidate

By JACK BELL—WASHINGTON (AP)—President Kennedy apparently has reached the conclusion—if he had any doubts—that Gov. Nelson A. Rockefeller of New York will be his 1964 opponent for the presidency.

the state's unemployment rate, "has been less than the national rate for 23 of the last 28 months." Presumably both men could be right, Kennedy was talking about the number drawing unemployment compensation.

Rockefeller offered no comparable figures. But, he said state aid to public schools had been increased 60 per cent in four years, aid to higher education by 200 per cent and highway construction mileage had been tripled.

Italy Rejects Soviet Plan

GENEVA (AP)—Italy turned down today Soviet demands for elimination of foreign military bases as a first step in world disarmament.

The Italian delegate Francesco Cavalletti, told the 17-nation disarmament talks that these bases form an essential part of the Western world's defense system.

Under the American plan, Cavalletti said, bases would live on the military potential existing without upsetting the gradually power balance between the Communist bloc and the Western world.

Revolt Against Dia Broken Up

DAKAR, Senegal (AP)—Armed police seized the National Assembly building today and broke up a parliamentary revolt against Premier Mamadou Dia.

A showdown appeared near in the simmering feud between the Socialist premier and middle-of-the-road President Leopold Senghor over the nation's economic program.

The government imposed censorship and posted guards around Radio Senegal. Dia ordered police to take over the assembly building after about half the 80 members of Parliament announced to vote on a motion censuring his government.

New Satellite Is Whirling In Orbit

WASHINGTON (AP)—A new U.S. satellite whirled in orbit a few hundred miles above the earth today while Mariner 2—still flashing signals—speeds millions of miles from earth toward eternal orbit around the sun.

But a third satellite, Relay, which was to take the place of the now silent Telstar, wasn't performing properly. The new satellite, dubbed Explorer XVI, sped aloft Sunday from the Wallops Island, Va., test station of the National Aeronautics and Space Administration.

Main mission of Explorer XVI is to find out more about what meteoroids—tiny bits of solid matter that whiz through space—do to space vehicles and solar cells. Mariner-2, which took a 42-minute electronic look at Venus Friday, was still faithfully reporting Sunday as it headed into orbit around the sun.

Say Barnett Proposed Deal

NEW YORK (AP)—Mississippi's Gov. Ross Barnett—despite public vows of defiance—had made a secret deal with U.S. Atty. Gen. Robert F. Kennedy to release the prisoners captured in the ill-starred attempt to invade Cuba at the Bay of Pigs in April 1961.

The plan called for Barnett and (Lt. Gov. Paul) Johnson to stand at the university's gate, backed up by unarmed state patrolmen. Kennedy was to have Chief U.S. Marshal James McShane and 25 to 30 marshals bring Meredith to the gate.

Barnett felt that he could not back down. So Kennedy reluctantly agreed to have all the marshals draw their guns. Under federal guns, Ross Barnett could surrender to prevent bloodshed.

Kentucky's 'Blue Law' Is Upheld

WASHINGTON (AP) — The Supreme Court refused today to review a decision upholding validity of Kentucky's Sunday closing law.

The decision by the Kentucky Court of Appeals, declared the law valid under the Kentucky and U.S. constitutions.

Arlan's Department Store of Louisville, Inc., and Evans Furniture Co., were fined \$20 each for employing persons on Sunday. The stores appealed to the high tribunal, contending terms of the Kentucky law disclosed an intent to aid religion in violation of the U.S. Constitution.

The Supreme Court, in decisions announced May 29, 1961, upheld blue laws restricting Sunday business activities in Maryland, Massachusetts and Pennsylvania. The court said "the present purpose" of most Sunday closing laws was to provide a uniform day of rest and recreation.

The high tribunal directed that the appeal by the stores be dismissed because of lack of a substantial federal question.

Justice Douglas dissented saying that he thought the religious nature of the Kentucky Sunday closing law was emphasized by the fact that it exempted "members of a religious society who actually observed the Sabbath on a day other than Sunday."

Douglas added: "The law is thus plainly an aid to all organized religions, bringing to heel anyone who violates the religious scruples of the majority by seeking his salvation not through organized religion but on his own."

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: For the past 24 years of our marriage we have spent Thanksgiving and Christmas with my husband's mother, who lives 40 miles away. She is now 80, and for the last 24 years we have felt it might be her last because she has not been feeling well. I used to make a big Thanksgiving dinner for the entire family. We had all my husband's brothers and sisters and their children, and it was fun. But for five years now, after all the plans were made, I'd get a call the day before that Mother didn't feel up to the confusion, and we ended up taking her to the hotel for dinner—minus the children. The children are growing up and I want the whole family together at my home at holiday time. What can I do? The holidays have been ruined for so many years. I am sick of hearing "it may be Mother's last."

DEAR HELP: Franklin Roosevelt changed the official date of Thanksgiving, and celebrate Christmas Eve with your family at home... and Christmas Day with Mother.

DEAR ABBY: Our son recently came home from Korea. His first week home he just sat around the house enjoying the luxury of parking home. He also taught our parakeet to swear. It is very embarrassing to us, but our son seems to think it is a big joke. What should we do?

DEAR MOTHER: Get another parakeet and teach it to pray for the one who swears.

DEAR ABBY: Our son married a girl who handles all his money and makes all the decisions. He has had a piano since the age of five and he loves to play. When he comes home from school, he sits at the piano and plays for hours.

People In The News

By The Associated Press

Charles R. Swart, president of South Africa, has called on white citizens of that segregated nation to stand together and fight off enemies who "desire to drive the white man and his culture out of South Africa."

Stefan Cardinal Wyszyński, reporting to nearly 5,000 members of his flock who overflowed into snow-covered streets from the Warsaw Cathedral of St. John, chided the Polish Communist government.

The 58-year-old Roman Catholic primate of Poland said the government limited the expenditures and size of the 25-bishop delegation to the Vatican, which he attended.

Each Polish bishop was allowed to take only five dollars with him," the cardinal said, "and that would not suffice even if we could live on seeds."

King Mahendra of Nepal said the country's brief fling at parliamentary government was a failure.

He has proclaimed a new constitution providing for a elected system of rule by elected village elders. The action officially ends the parliamentary system which began in February 1959.

LT. Col. Georgi Mosolov, Russian test pilot and holder of the world high altitude record of more than 113,000 feet was seriously injured last Sept. 11 when he catapulted from a burning jet fighter during a test flight, according to the Soviet Army newspaper Red Star.

Two days after the accident, Mosolov was revived from "clinical death," Red Star said.

Comedian Jimmy Durante was a nosing around Chicago's downtown area in his car when it struck another auto which, in turn, hit a police cruiser.

Durante was charged with following too closely and driving without a license.

At the police station, where he posted \$25 bond, Durante joked with reporters.

"I tried to make a getaway. I run down to the basement and up to the skylight. I thought I made it when three guys grabbed me."

Charles Laughton, Giant Of Movies, Is Dead Of Cancer

HOLLYWOOD (AP)—A giant of the movies, Charles Laughton, who rambled through memorable films like a rambunctious elephant, is dead of cancer at 63.

Laughton died Saturday night at his home of cancer of the spine, a few weeks after ending a four-month hospital stay.

When the British-born actor left Cedars of Lebanon on Nov. 30, a friend confided:

"Charles knows he is going to die, but he is going to die in his own bed."

With him was his wife, actress Elsa Lanchester, his one and only wife, and his younger brother Frank, retired from the family hotel business.

Mrs. Laughton, who married the actor in 1929 and became an American citizen with him in 1950, took the death very hard, Laughton's brother said.

"She has been with him every day through it all—for almost a year," said the brother.

High spots of a career that made Laughton the movies' top character actor for 30 years: The sadistic Captain Bligh of the original "Mutiny on the Bounty"; the lecherous Henry VIII—the 1933 best actor Academy Award performance—or the lovable English butler reciting the Gettysburg address in a frontier saloon for "Ruggles of Red Gap."

The late Lou Costello once apologetically asked Laughton to play Captain Kidd in "Abbott and Costello meet Captain Kidd."

"I was afraid to ask this great actor to do some of the hokum we had in the movie but after the first day, he was showing me how to hoke up the slapstick for more belly laughs," Costello once said.

Before he came to Hollywood, Laughton had won critical acclaim for his realistic portrayal of an American gangster in a London play.

His last movie role was that of Sen. Seab Cooley, a Southerner, in "Advise and Consent."

Little was known about Laughton's private life. He loved art and had a collection of Renoirs, Utrillos, Cezannes and other French impressionists that few ever saw.

Laughton, educated at England's Stonhurst College, was sent to London to learn the family profession—ink-sneaking—at Claridge's.

Instead, he spent all his spare time and most of his money at the theater. During World War I, he enlisted as a private and was gassed at the front. Five years later, his father financed him at London's Royal Academy of Dramatic Art.

Before long, Laughton was the academy's highest award for his portrayal of Prof. Henry Higgins in "Pygmalion."

A decade ago, Laughton directed and starred in a critical and financial success of "Shaw's 'Don Juan in Hell.'"

The staging of this work had defied managers for 50 years. The work is the seldom-played, third act of "Man and Superman."

Turk Says Cubans Down On Castro

NEW YORK (AP) — A Turkish newspaperman just back from Havana says at least 90 per cent of the Cuban people — and probably more — are against the Communist regime.

Siphoghlu said he was told the Russians have two major camps in Cuba, one near Holguin in Oriente Province, and one in central Cuba near Ciego de Avila. Cubans are barred from the areas.

Castro rarely is seen in public. He spends most of his time at Havana University, arguing with the students who have been among the chief supporters of his regime. He denounces Soviet Premier Khrushchev violently.

The students are reported highly critical of the revolutionary government.

The newsman said he believes Castro is supported now only by those working for the regime, young men who like to carry guns and people who were mistreated before the revolution.

Probably 9,000 peasants have been jailed for refusing to work in the fields. They refused because, even if paid, there was nothing to buy.

The skimpy food ration list for one person includes five eggs a month, three-fourths of a pound of a meat, one banana a week, oranges only for the sick, a pound of potatoes a week and six pounds of rice per month.

On the virtually nonexistent list are cheese, milk, bacon, many kinds of vegetables, soap, wool and linens. Medicines are in very short supply.

Weather Of Nation Is Mostly Dry

By The Associated Press

There were some wet spots in the West and Northeast, but generally dry and fairly seasonable weather was the rule in the major part of the nation today.

The major wet belt was along an almost stationary Pacific frontal zone from the northern Rockies southwestward across central California. Rainfall was light in most areas. Light snow powdered mountain sections.

Snow also fell in areas south and east of the Great Lakes region, but amounts were not heavy in the region, which was hit by snowstorms for several days last week.

Temperatures were below freezing this morning from the central part of the Midwest eastward to the Atlantic Ocean and in the central Rocky Mountain region. Lowest readings, some below zero, were reported in parts of New England.

Record high temperatures were reported Sunday in the Great Plains as fairly pleasant weather extended over broad sections of the country. Record marks for Dec. 16 included 73 in North Platte, Neb.; 66 in Concordia, Kan., and 57 in Fargo, N.D.

A warmer trend continued in the Southeast after last week's freezing weather, and temperatures were near normal levels. The mercury reached the 70s in southeast Florida. Readings this morning ranged from around freezing in Tennessee and mountain areas of northern Georgia and Alabama to the 50s in Florida and coastal areas.

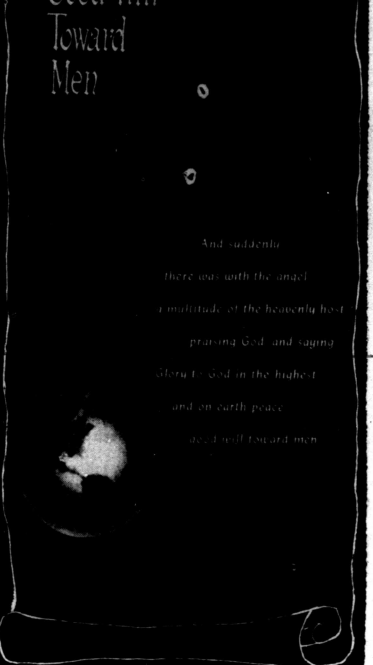

BIRTHS

Mr. and Mrs. Ray Martinez, Thirteenth Street, are the parents of a 5 lb. 2 1/2 oz. baby girl born at 2:05 p.m. Dec. 15 at Cogdell Hospital.

Many Woods For Indoor Blazes: Apple Is Good

Get to know the firewoods and you can have fireplace fires to suit your fancy during the winter months ahead.
Your repertoire of flame—a firebug's dream—can include fires for fragrance, fires for sparks on noise, fierce fires for heat, or soft fires for warmth. Which you get depends on which wood you use, for fire logs vary as the trees from which they come.
High on the fire-lover's list will come apple, according to R. J. McWilliams. Wood of this friend of man yields tantalizing aroma, dancing flame, sparks and good heat. Or you may prefer to whiff the heavier incense of the resinous white pine and its cousin firs.
For a blaze that crackles, pops and sprays July 4th sparks, choose woods with high moisture content. Catalpa tops these fire-crackers. But screen your fireplace carefully before you touch the match.
For plain fuel the rule of thumb is: the heavier the wood, the more heat. Best are oak, hickory and hickory. A cord of either gives the heat of a ton of coal (a cord is a woodpile 4 by 4 by 8 feet). Close behind are birch, sugar maple, red oak, white ash and apple. Elm has heat but several drawbacks make it very poor firewood.
There are as many recipes for starting a fire as there are woods. One of the simplest: put a fat log at the back of your fireplace, the andirons against it. Ignite dry kindling on the andirons in front and build up this starter fire with smaller logs.
Almost any tree will supply firewood if you give the wood time to age and dry. This time element varies with different woods.
Perfect garnish for winter-holiday roast poultry or meat: clusters of grapes with preserved kumquat.

THE COOL TASTE of lemon in these butter and nut cookies makes them a nice addition to your Christmas baking list.

Drop Cookies Makes Cooky Baking Easier

If you have been thinking about adding a new cooky to your Christmas baking list you probably want one with distinctive flavor. Here's just the thing—a Lemon-Nut Cooky.

They'll be glad you did.

Preheated 400 degrees oven
1 cup (2 sticks) butter
1/2 cup brown sugar
1 cup granulated sugar
1 egg

1 tablespoon lemon rind
2 cups sifted flour
1/4 teaspoon baking soda
1/4 teaspoon salt
1/2 cup finely chopped pecans

It's refreshing lemon-y taste goes well with so many of the Christmas "standards." For instance mild refrigerator cookies, even rich fruit bars so popular this time of year are pleasant companions for this light, crisp confection.

Florida Discovers Castro Is Bigger Handicap Than Cold

MIAMI BEACH — "For heaven's sake, tell the rest of the country that there is no barbed-wire on the beaches, and no tank traps in the streets."

This piteous plea for justice, truth and fair play came from one of the editors of Miami's largest newspaper.

"Tell them that there are no land mines under the palm trees and no barricades on the boulevards," he continued. "Tell them that even at the height of the Cuban crisis I never saw more than five soldiers on the streets of this community in any given 24-hour period."

"And make clear that we citizens do not carry side arms or fear that Castro is about to invade."

Then this earnest man, pleading for the salvation of the tourist season, made a gesture so noble I am still shaken by it.

"Tell 'em the truth; tell 'em it's cold as hell at the moment, but tell 'em we are not on a war footing down here and that they have nothing to fear from Cuber - ah-h-h - Cuba."

Woman and girl, I have been coming to Florida off and on for 30 years. But this is the first time any native son has ever admitted even the remote possibility that the weather reading at Miami Beach is anything but "Fair and warmer."

But even the cold spell, which has wrought such havoc among the

citrus groves and the truck farms, is - for the first time in Miami history - a temporary annoyance if only trippers and tourists can get it out of their heads that Miami and Miami Beach are in a state of siege.

Truth to tell, there is no barbed wire on the beaches. But if there were, it would be difficult for the casual tourist to glimpse. There is a report that on the other side of all the vast, shimmering hotels and luxe co-op apartment houses towering over Collins Avenue is the Atlantic Ocean.

Personal investigation proves the report true. The Atlantic does lap this golden strand and it can be glimpsed if one has influence and can get on the shore front of these great caravansaries, or if one knows a cunning native who is willing to guide him to the few places where a free glimpse of the Atlantic is available.

However, a stunning curtain of glass, steel and concrete effectively biots out the ocean for miles along the beach.

Any invading force will have to take this formidable barricade, and its guerrilla army of beach-and-bellboys, toughened by long years of contact with the tourist trade, before it can hope to get even as far as Indian Creek, much less Hialeah. (That will give the rest of the nation ample time to prepare.)

Despite all the brave whistling in the teeth of the coldest weather

in years, the tourist season has gotten off to a slow start. Every Floridian is convinced that the Cuban crisis is to blame. Citizens believe a large percentage of tourists who would ordinarily be heading South at this season are just plain chicken.

"They think this is a war zone," snorted an old friend. "Why, there hasn't been a shot fired in anger in these parts since we got rid of Capone!"

Even Republicans in Florida feel grateful to President Kennedy. "He's planning to spend Christmas in Florida, isn't he?" demanded a member of the Grand Old Party. "He wouldn't let his parents come to Florida if he thought it was dangerous, would he? He wouldn't let his wife and Caroline and John come if we were at war, would he?"

"No, he's coming because he knows that Florida is the greatest winter vacation land in the nation!" declared this true native son. "He's coming because he knows it's safe as a church and because he also knows that the sun always shines here - eventually."

1st Armored Is Returning

BEAUMONT (AP) — The 1st Armored Division will be back at Ft. Hood by Thursday after an absence of almost two months during the Cuban crisis.

Elements of the division made an amphibious landing here Sunday. Some men left immediately by bus for Ft. Hood.

Col. William Jones of San Antonio said unloading of the division's 82 tracked vehicles from landing ships would continue through the night. Sixty railroad flat cars will move them to the post. Wheeled vehicles will move to the base in a convoy.

The soldiers left Ft. Lauderdale, Fla., last Wednesday on an amphibious landing here Sunday. While in Florida the division made several practice assaults on Edgemont, a small key where troops trained for the Normandy invasion.

Two days before President Kennedy's nation-wide speech on Cuba, the division was alerted for duty. Within two weeks it was assembled at Ft. Stewart, Ga.

Floating Laboratory Is Eased Into Sea

NICE, France (AP)—A tubular, 50-yard-long floating laboratory was eased into the sea Sunday to start the latest series of experiments of ocean explorer Yves Cousteau.

The 250-ton tube floated horizontally, but eventually will take on water ballast to float vertically—with only the top out of water—over the 8,000-foot-deep ocean floor trench between Nice and Calvi.

Scientists will take observations with the instruments installed inside its several levels.

Junior Editors Quiz on EROSION

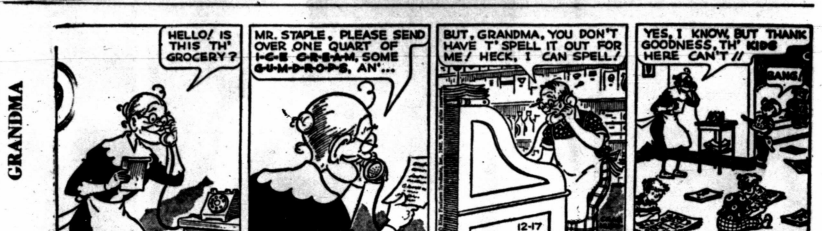

QUESTION: How can one keep soil from blowing and washing away?

ANSWER: Experts say that our soil will last almost indefinitely if we will only take care of it. They tell us nature is continually enriching it, bringing minerals in with the rain, adding humus as leaves and plants decay. The trouble is we're apt to drive it too hard, to harvest crops which take more out of the soil than we're willing to put back. When we cut down too many trees, rain water isn't held in the soil but runs off the surface, causing ruinous erosion. However, there is a lot we can do to save our precious soil, which feeds us now and must feed our children later on. In A. John checks up to see how "contour plowing," plowing in level lines around a sloping field instead of up and down the slope, is working out. He finds the water is being held where it can help the plants instead of tearing down the hillside in a flood. B shows another wise practice. Alternate strips of crops and fallow soil help prevent the soil from blowing away.

FOR YOU TO DO: Do your part to help conservation by being very careful to put campfires out and by not using matches where they might ignite leaves or brush. Did you realize that a forest fire damages the fertility of the soil as well as destroying the wild life?

'Boom Bowls' On The Way

By JIM BECKER
Associated Press Sports Writer

With the financial flops out of the way, the football bowl season now moves into its more affluent period but it will be tough to top the field performances of two of college football's brightest stars before tiny audiences.

All-American Terry Baker and George Mira thrilled two of the smallest bowl gatherings of any year, a liberally estimated combined 23,214, Saturday in the Liberty Bowl at Philadelphia and the Gotham Bowl at New York.

Baker, Heisman and Maxwell Trophy winner and AP Back of the Year, went 99-3 yards from scrimmage for the only touchdown in a 6-0 Oregon State victory over surprisingly rugged Villanova at Philadelphia.

Mira, the flashy Miami junior, staged a pro-like aerial show against Nebraska in the Gotham battle but it fell just short as the Cornhuskers eked out a 36-34 decision.

Only 17,048 were in the 100,000-seat Philadelphia Stadium, and the Gotham Bowl had an announced throng of 6,166.

Action shifts to more suitable Bowl climes next Saturday, with Georgia Tech and Missouri tangling in the Bluebonnet Bowl at Houston. Some 60,000 are expected for the nationally televised (CBS) game.

Also on Saturday, the North-South All Star game will be played at Miami, Fla., with television (ABC) cameras and some 50,000 looking on.

The Tangerine Bowl at Orlando, Fla., the same day, is expected to draw about 15,000 for Miami of Ohio and Houston. There is no television.

Baker's run came early in the game, played in 22-degree weather with both teams wearing

smoke on the frigid field. A Villanova punt was downed a foot from the Oregon State goal. On first down Baker took off around left end on a quarterback rollout, shook off a tackler in the end zone, another about the 3-yard line and went untouched the rest of the way.

Mira's performance, which included 24 completions in 48 tries for 321 yards and two touchdowns, brought a comment of "fantastic" from Nebraska Coach Bob Devaney.

In two other bowl games Saturday, quarterback Dunn Marton kicked two field goals, scored a touchdown and ran for a two-point conversion to lead Santa Ana, Calif., Junior College to a 20-0 victory over Pasco, Wash., in the Junior Rose Bowl at Pasadena before 41,709.

In the Missile Bowl at Orlando, Fla., Ernie Wheelwright, 220-pound fullback, paced Ft. Campbell, Ky., to a 14-10 victory over Lackland Air Force Base, Tex., for the service championship.

Weary Grind Almost Over

By The Associated Press

Southwest Conference basketball teams get most of the inter-sectional schedule out of the way this week. It will be a relief even to Texas A&M, the only outfit that has won them all.

The Aggies face a couple of toughies in the Houston Classic where they play Louisiana State and Michigan. The latter shares a 4-1 record with the Aggies.

LSU lost its first game of the season last week when it fell to Southern Methodist 83-68.

The league as a whole has a poor inter-sectional record, winning only 10 of 32 games. It could catch up and go ahead if it won all 13 of its games with outside foes this week, but no one expects such a thing.

The conference managed four inter-sectional triumphs last week but lost 10.

The Aggies beat Southern Mississippi 67-61 for their third. They also won an important area game, beating well-ranked Houston 69-67. It was Houston's first loss.

SMU trimmed LSU and then romped on Tulane 99-75. The other inter-sectional victory was Arkansas' 90-60 decision over Mississippi.

Baylor, which has the second best record in the conference at 2-1, faces Tulane at Waco tonight. SMU is host to Northwestern (2-2).

Rice plays Centenary at Houston and Texas Tech battles Oklahoma at Norman Tuesday night. Arkansas meets LSU at Little Rock Wednesday while SMU plays Minnesota (3-1) at Dallas.

Five teams are in action Friday night with the Aggies playing LSU in the Houston Classic. Rice hosts to the Bartlesville Oilers. Baylor meeting Brigham Young at Provo, Utah. Texas Christian visiting Oklahoma City University and Texas going to Berkeley to play California (4-1).

Saturday night Texas A&M meets Michigan in the Houston Classic. Texas takes on Stanford

(5-0) at Palo Alto and Baylor again plays Brigham Young at Provo.

Sid Wall of Texas Tech leads conference scorers with 118 points. Kendall Rhine of Rice has the top average, 20.6 points per game.

9:00 CBS "Loretta Young" faces a serious problem when she realizes that marrying editor Paul Meyers, an executive with Celanese Corp., telephoned the Rev. Paul Bryon, pastor of St. Gabriel's Roman Catholic Church in Charlotte, and made his desire known. Father Bryon learned that the children were in the custody of Catholic Charities at St. Cloud, Minn.
Meyers asked to be allowed to adopt the children. He wrote Catholic Charities in St. Cloud that "there is room here - in our home and in our hearts."
Since their parents' deaths, the children have been separated and living in foster homes.
Meyers, an amateur mason and carpenter, spent Saturday afternoon putting the finishing touches on a dining table large enough for a family of 15.

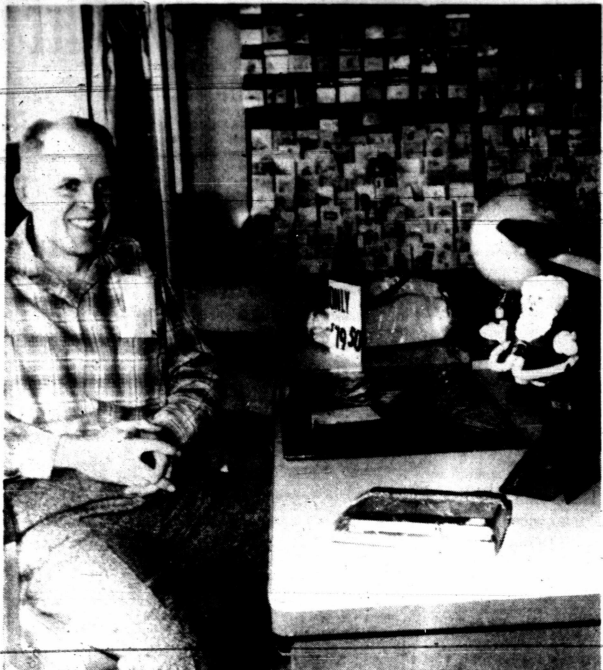

Big Demand For Christmas Stamps
WASHINGTON (AP) - The Post Office has printed one billion Christmas stamps, and that's all for this year, an official says.
"We could go no other 250 million if it were physically possible to get them distributed before Christmas," James F. Kelleher, special assistant to the postmaster general, told a reporter Sunday.
Printing of the special 4-cent stamps with the green 4-cent and red flame tipped candles stopped Saturday.
Presses had been running seven days a week, 24 hours a day late to fill the record-breaking demand.
"Fantastic demand," Kelleher called it.

FIT FOR A KING—Bud England, owner of Bud's Office Supply, sits at a desk on which are shown just a few of the Christmas suggestions for a man with an office or a desk. If he doesn't have a desk lamp, a phone number finder, a desk set, an adding machine, calendar, fountain pen, desk set, or globe, old Santa there on the right says that's just what he wants. And old Bud there on the left, says Bud's Office Supply is just the place to get them.

Kennedy Set For Review Tonight

By LARRY OSIUS

WASHINGTON (AP)—President Kennedy reviews his first two years in the White House tonight in an unusual hour-long television interview.

The program, called "After Two Years—A Conversation with the President," will be carried by the Columbia Broadcasting System and American Broadcasting Co. television networks at 8:30 p.m. EST and the National Broadcasting Co. television network at 8:30 p.m.

Kennedy returned to the White House Saturday from an overnight stay in New York. After attending church Sunday morning, he set down with television newsmen Sahder Vanocur of NBC, William H. Lawrence of ABC and George Herman of CBS to tape the interview.

It began an active week for Kennedy. He meets with the National committee today and also hears a report from Secretary of State Dean Rusk on the meeting of the North ministerial council in Paris.

Rusk, who returned Sunday night, is expected to tell Kennedy the United States has a major task on its hands to persuade its NATO allies to contribute more conventional forces to the defense of Europe.

Kennedy met with Secretary of Defense Russell G. Gilpatric and McGeorge Bundy, Kennedy's top adviser on national security affairs.

The Skybolt problem is certain to spill over into the talks between Kennedy and British Prime Minister Harold Macmillan at Nassau in the Bahamas Wednesday and Thursday. Kennedy leaves for Nassau Tuesday morning.

The United States, after repeated failures in tests of Skybolt, reportedly is ready to scrap the project for technological and money reasons.

Some anti-land-based missile range missiles, has staked her nuclear weapons future on the 1000-mile plane-to-surface Skybolts, which she hoped to purchase from the United States.

Six new city councilmen and a new mayor will probably be sworn into office today. W. W. Park, city attorney, said. In an unusually light vote yesterday all of the men whose names appeared on the ballot were elected to the offices they sought.

Miss Frances Leath, who will be married Saturday to Billy Keith of Waco, was honored with a gift tea Monday afternoon in the home of Mr. and Mrs. H. J. Brice.

Approximately 145 persons attended the Holiday Coffee held Saturday morning at the Martha Ann Woman's Club. Hostesses for the occasion were Mrs. Ray Keenan, Mrs. J. H. McCarty and Mrs. George Webb.

Film Producer Stabs Himself

SHERMAN OAKS, Calif. (AP)—Police say film producer Edward Nassour fatally stabbed himself in the heart with a steak knife.

The 45-year-old producer was found dead Saturday in the backyard of his sister's home.

The sister, Mrs. Thomas Maluf, told police Nassour attempted suicide with sleeping pills last Thursday. He had been in ill health.

Pictures produced at Nassour Studios included "Africa Screams," "Mrs. Mike," and "Tropolis."

Ballet Back Home

MOSCOW (AP)—The Bolshoi Ballet company returned to Moscow on Sunday from a three-month tour of the United States and Canada. Ballet master Leonid Lavrovsky reported in an interview that the company had "overwhelmed even the prejudiced Americans."

less than the price of having a tablecloth laundered. And with matching napkins as well.

All that's needed to set a table that will be the cause of excited comment is to add to these tablecloths and napkins just a few of the clever decorations which are also to be found at Bud's.

And for those ladies who plan to give home-cooked goodies, Bud has fancy deep paper plates for those gifts—plates that give the festive look without the cost or inconvenience of other types of dishes.

One of the big worries of a holiday party is eliminated when the hostess chooses her table decorations at Bud's.

Christmas shoppers are also going to Bud for art materials and supplies to be given as gifts. There are art sets for the young or beginning artist priced as low as \$4.50 at Bud's. Of course any supplies from the full line carried can be purchased individually.

For a gift that is sure to be appreciated, especially by a student, there is no better choice than a typewriter from Bud's. An authorized dealer for Remington and Smith-Corona, Bud's Office Supply offers a choice to fill the bill. There's a standard or portable, electric or manual, to be the perfect selection.

Violence Claims 38 Lives In State

By The Associated Press

Violence took a weekend toll of at least 38 lives in Texas.

Twenty-one persons died in automobile accidents, seven in fires, nine in shootings and one by drowning.

The Associated Press count started at 6 p.m. Friday and ended at midnight Sunday.

The reported deaths included: Earl Anderson, 34, of Houston drowned Sunday while fishing in the San Jacinto River at Channelview.

Mrs. Lyra Thurman, 44, Negro, was found shot in her Dallas home. Her husband, 70, was taken into custody.

James Spangler, 32, was shot on the front porch of a Berger home after a domestic quarrel. A man was held.

Gregoria Jimenez of Odessa was killed Sunday in a three-car collision on U.S. 80 in Midland. They were Mrs. Jonette Murphy, 34, of Midland and Mark Kennedy, 7, a neighbor of Mrs. Murphy, were injured.

Charles Pinion, 44, of Dumas died in his smoke-filled home Sunday. The fire was believed to have started in a sofa ignited by a cigarette.

Mrs. Reuben Ellis, 61, of Lubbock was killed early Sunday when she was struck by a car

Interest Declines In Lobby Control

By BOB ROOKER

AUSTIN (AP)—Advocates of tightening lobby control laws appear headed for a rough time in the Texas Legislature.

There are two major reasons:

1. The primary force behind lobby control legislation in the past several sessions, Gov. Price Daniel, will be gone.
2. Most lawmakers appear to have little interest in such bills and many who are interested seem to have little hope of their passage.

Gov. elect John Connally has shown little interest in lobby control legislation in his campaign speeches and subsequent talks.

West Europe Recovering From Storm

LONDON (AP)—Western Europe recovered today from a ferocious winter storm that ripped a wide path of death and destruction.

More than 30 were dead in the wake of hurricane-strength winds that lashed Europe Sunday.

The biggest toll was at sea—at least 23 in the German freighter Nautilus which went down off the Dutch coast. A French fisherman was washed overboard in the English Channel.

In Britain at least eight persons were killed, mostly by falling trees or buildings.

Inland winds topped 100 miles an hour in Britain at times. In Scotland a 117-m.p.h. gust was registered. Houses toppled, great trees were uprooted, roads were blocked and telephone and power lines were torn down.

Britain was fanned by a mild, light breeze today.

In France there were avalanches and floods.

The gales blew down a house in southern Italy, killing a 4-year-old girl and injuring seven other persons. A local whirlwind in Rome's northern suburbs unroofed a number of houses.

Norway lay beneath a deep covering of snow. The wind still blew in southern Norway, but weathermen said it soon would die there, too.

The gale was so strong in Sweden it flickered seismological instruments at Uppsala University. Scientists at first thought another Russian nuclear bomb had been tested.

At least three freighters—the Brazilian Loida Horatus, the Norwegian Black Eagle and the American Custis Woods—were driven aground along the continental coastline.

A fourth ship, the Belgian radio ship Ulyenspiegel, was driven ashore and used its wireless to send out distress calls instead of its usual popular music.

The Ulyenspiegel broadcast music and commercials from outside Belgian territorial waters in using the radio of the Belgian government's radio monopoly. The ship went aground in Dutch territory and thus escaped seizure by Belgian authorities.

Say Syria Seeks Arab Conference

DAMASCUS, Syria (AP)—Damascus newspapers said Sunday Syria is seeking a high-level conference of Arab governments to establish a joint stand toward developments on the Syrian-Israeli frontier. Israel and Syria have accused each other of aggression in incidents this fall on their 70-mile-long frontier, including a machine gun exchange Dec. 4 that lasted four hours.

He said his staff currently is studying the possible need for tightening controls on lobbyists, but that no conclusion has been reached.

He added that he did not think "this is going to be one of those major, overriding issues in the next session."

A big majority, 91.8 per cent, of the legislators answering an Associated Press poll indicated they thought lobby control would not be among the list of major topics in the legislature.

Only about 4 per cent said they thought the issue would be among the top five in the session.

Rep. Bob Eckhardt of Houston said that "though lobby control is important, it is extremely difficult to accomplish without limiting the constitutional right to petition the government."

Rep. Ronald Bridges of Corpus Christi said, "Apparently there is little way to control the lobby, but if there can be a way to put teeth into a lobby bill, then I'll certainly be there to be for it."

Rep. Reed Quilliam of Lubbock said, "I do not think any lobby control bill that would be enforceable has been offered. Such a bill tends to penalize the honest lobbyists."

Sen. elect Walter Richter of Gonzales said he would favor forcing all legislators to file annual sworn statements of all sources of income.

Included in the minority who thought the issue would remain alive through the session was Rep. Ted Berry of San Antonio who said such legislation is "a must."

Rep. Charles Wilson of Trinity said, "I strongly favor tightening the law" and requiring not only expense reporting but to whom a contribution is made.

Pair Flees Alcatraz; Recaptured

SAN FRANCISCO (AP)—Two bank robbers sawed their way out of Alcatraz, the forbidding island prison in San Francisco Bay Sunday night but were retaken alive after losing a battle with the icy water.

One swam only about 100 yards before quitting. The other made it three miles with the help of homemade water wings and became the first escapee known to reach the mainland after breaking from the maximum security institution.

John Paul Scott, 35, from Leitchfield, Ky., made it to shore but the swim proved too much for him. When spotted by two children on a rocky shore he appeared to be dead.

Doctors at the Army's nearby Letterman General Hospital, where Scott was taken, said his body temperature was down to 94 degrees. Waters in the bay average 54 degrees.

Bank robber-kidnaper Earl Dee Parker, 31, of Canton, Ohio, quit sooner because of the cold waters. He made a dash of about 100 yards to a pointed rock off Alcatraz western end.

Parker just sat waiting on what is known as "Little Alcatraz" as a searching prison boat spotted him.

Both men were returned to Alcatraz.

Warden Olin Blackwell said the two men worked in the prison kitchen and "somehow cut their way out through a window in the kitchen basement."
