THE MEN IN SERVICE WRITE HOME

Sept. 7
Dear Buford and Mr. Riley:
Well, I'm in school now and although I have to march to and from classes, it is very much like any other school. I have 13 more weeks and then either aerial gunnery school or overseas. I am in ordnance school. We learn to service, repair and replace all types aerial machine guns, cannon, bombs, bomb racks, and aerial mines. This is the primary duty

of all aviation ordnance men. If I am lucky, I might be able to get advanced ordnance school, but I'll worry about that when I get through this one.

Mr. Riley I enjoyed your letter in the Review, especially the part about the kids getting shots. I have found that a person's arm doesn't get sore at all if he will do the manual of arms for about a half hour before he gets his shots. I should know because I got several of them. Is Mr. Hood still teaching ag? It seems everyone is getting leave at once. Who knows, perhaps we will all get an indefinite furlough with all the extensions we want in two or three years.

As such as I go on the day shift I am going to try to get home some week-end. I know a sailor from Lubbock who goes down once in awhile. We aren't getting quite as good chow as we did. I suppose that can be attributed to the fact that we are

on a Navy base. We have beans for breakfast, phooey! We have a bunch of women marines on the base now. They really are all right, however, I can't find one from Texas. Well, I've got to get to aircraft recognition class. In it, we have to recognize a plane in 1-75th of a second. Believe me, that's fast. The Review is about to catch up with me. I got the Aug. 26 issue today. It came from Kearney Mesa. A friend, I. G. (Pvt. I. G. Holmes, Bks. 72, Sqdn., 23, MAD, N-ATTC, Norman, Okla.)

Dear Friend,
Just a few lines to let you know I have changed my address, but I am still in New Mexico. It isn't so bad here, so far, if the sand doesn't start blowing. Anyway, I am just a mile or two from the Rio Grande river so I can go swimming if I find time.

This does beat Lordsburg—all except the chow! They are trying to make wops out of us, but I hardly think they will succeed, because none of us seem to like spinach for breakfast. But, that's what we get, anyway. But, of course, those Italians don't know how to prepare foods like we eat. I bet they had better learn for all the boys are apt to "go over the hill" if they don't have it changed. I thought I could eat anything in the world, but I have found I can't. However, I am still better off than those buddies of mine who are overseas and having to eat rice all the time, so, I will not do too much growling about the chow. So long, now, and thanks for the Review. As

ever, Bill. (Pfc. Wm. S. Perry, 310th MPEG Co., Prisoner of War Sub-camp, Las Cruces, N. M.)

8 Sept., '43.

Dear Buford:
Am still getting the Review and enjoying it very much, but at present, it is being sent to the wrong address due to my recent change. Please change your records and send it to this address: Hqts. 27th Sqdn., 7th Repl. Regt., AGFRD No. 1, Ft. Geo. G. Meade, Md.

The wife and I like this post or the country only fairly well, being westerners ourselves, we can't get used to people here. However, it is a grand opportunity to see some more of the U. S. at government expense. We are halfway between Baltimore and Washington, D. C., being only 20 miles from each on the Washington Blvd. Private transportation is a great problem here, however, buses and trains run regularly. This coming Sunday we plan to visit New York City and will probably see Murriel who is stationed there at present. We are only four hours from NYC, by train and this might be our last opportunity to see the city.

So far since we left Ft. Riley, we have visited Chicago, Washington, D. C., and Baltimore. While in Chicago we went boating on Lake Michigan and enjoyed it very much. In Washington, we visited a great many of the large number of interesting sights, and plan to see more later, including a midnight cruise on the Potomac river. Baltimore seems rather dull for some reason, perhaps we haven't found the interesting parts yet.

Living expenses here are much higher than in Kansas. An apartment here costs anywhere from \$80 per month to \$120 per month. Wish I owned a few myself at that price. We live in a place called Laurel, Md., and I'd much rather live in Abernathy, Greenbelt, where I believe Lloyd Heggen lives, is only 16 miles from Laurel. Send my congratulations to Fred on his majority. As ever, Capt. and Mrs. O. E. Lroy.

I have the same job here as I had at my last station, that of Sqdn S-1.

Africa 9-5-43.

Dear Buford:

I hope you are not as hot as I am right now. The folks said in their last letter that it was slightly warm there, also.

Haven't received the Review for about three weeks now. I am sure they are on the way. (Hope the Review finally reaches you. It is mail-

LETTERS FROM THE MEN IN SERVICE

Dear Buford:

This is to let you know that I have received two issues of the Review, and was real glad to get them. However, there has been only one boy I know (from Abernathy) at my old address (Ft. Jackson, S. C.) and he had already left before I received a paper.

Would like very much to continue receiving the Review, but I don't know if they will take newspapers or not. (The Review is going to Abernathy men all over the Allied part of the world, and you can get it overseas if you keep us informed of your correct address. BFD.)

I would like to know the address of all Abernathy boys overseas. Hoping to see Abernathy again, I remain, T. H. Robt. H. Stamphill. (For obvious reasons, we cannot publish the address of men overseas or on ship duty. The Office of Censorship, Washington, D. C., has a ruling forbidding the appearance of several overseas addresses in one letter. For these reasons, Robert, I can't comply with your request. BFD.)

Dear Buford:

Yes, Miss Jackye Hall and I were married Aug. 14 in Providence, R. I. She lived here for about one month. I had liberty every night and every week-end.

She finished college at North State Teachers college, Denton, in 1941, and taught in Appalachian State teachers college, Boone, N. C., last year. She has returned to Dallas to teach in Trinity Heights school now. I had to send her home to make us a living!

The vows were taken in the colonial home of Betsy Ross—of historical fame—against a colonial background. My schooling here will end soon.

and I am returning to Cherry Point, N. C., as a celestial link operator and instructor, supposedly.

We had our first frost here Sept. 12. The climate here at present is perfect. We went to White Mountains in New Hampshire. They are beautiful this time of year with autumn just beginning.

Ben Faubion, a chief specialist in the Navy (he is Mrs. Ray Pinson's brother) was stationed here until a few weeks ago. Through him I learned that Fowler Faubion, former AHS coach and now a Naval officer, is in San Francisco, and that Jack Faubion is at Camp Hood, Tex.

I recently heard from Lieuts. W. D. Houtp and Olin Reed. Their letters said they were well and doing fine.

Buford, you are really doing a nice and an appreciated service to those in the armed forces by printing the news of our men and women in uniform.

Gosh, it seems years since I went to school at A. H. S.!

Tell everyone hello for me. Sincerely, Sgt. Ralph Havenhill, USMC, CNT School, NAS, Quonset Point, R. I.

Dear Buford:

Just a line to let you know I am receiving the Review each week now. I have been assigned to xx and expect to see action again soon. I will be proud when that day comes around. I am due a leave sometime in October. Surely hope I can have a few days at home.

Thanks a million for the Review. I surely do enjoy getting it and keeping up with things back home. A friend, Billy Harkey.

A Soldier's Prayer (Written by Finis Roberston)

With difficulty, yet always thank-ful, we pause to come to Thee.

Balanced well by the steady hand of God, weigh our soul across the sa-cred beam of mercy.

Sometimes destitute of light, and love estranged, we have almost lost our way, but lead on — Shining Star of our salvation.

Guide us ever on amid shattered hopes, broken homes and in the grim face of dying men.

Free us from racial hatred; apart from straining straits of solid steel; caused by shot and shell sending men to both death and hell.

We see fair cities burning still yet give us courageous hope that the blessed Christ did not die in vain.

Bond our soul today in love with everlasting joy...

Then some certain defined judge-ment day, remove us from this world of "successful raids" where Planes are "bagged" far above the barren waste of mortal life.

Finally, gentle Savior, give us Crystal fountains flowing where gay children smile with cheer and sing and never die.

From the spot where we may fall in freedom's name, from stone floors or rigid bars of prison cell, or far out upon the hungry gulf ahead — guide our eager spirits on — O living Christ.

Leading on forever and forever-more. AMEN.
