# Red Mortar Fire Rakes Key American Base

TURKS DEMONSTRATING against Greece crowd Istanbul streets. An estimated 80,000 marchers poured through the city chanting "Death to Greeks" and "We want War" as tension mounted in the conflict over Cyprus.

## Special Envoy Claims Success

United Press International

Greek Cypriot President Archbishop Makarios III emerged today from a Nicosia meeting with a United Nations special envoy and said he was convinced there would be no war between Greece and Turkey over Cyprus.

There also was a feeling of optimism in Ankara where Cyrus Vance, U.S.presidential peacemaker, conferred with Foreign Minister Ihsan Sabri Caglayangil of Turkey and presented Greece's "final answer" to Turkish demands on Cyprus.

The British Foreign Office expressed hope in London that Vance's efforts would solve the crisis, but a spokesman warned that the underlying situation remained extremely dangerous.

The bearded Makarios met for an hour with Jose Rolz Bennet, the speacial peace envoy sent to Nicosia by Secretary General Thant and then told newsmen, "I don't think there will be a war." It was his first statement since Friday when he told the people of Cyprus to "prepare for the worst."

Turkish jet fighters screamed over Cyprus while Rolz Bennet met first with Dr. Fazil Kuchuk, the Turkish Cypriot leader and then with Spyros Kyprioanou, the Greek Cypriot foreign minister. The jets have appeared also daily to back up Turkish support of the Turkish Cypriots.

Turkish leaders went into emergency session shortly after the talks with Vance and after NATO Secretary General Manlio Brosio, and Italian, met with President Cevdet Sunay of Turkey. Both Turkey and Greece are NATO members.

There was no immediate indication whether the flurry of meetings meant acceptance or rejection of the Greek position but observers said the developments indicated a major break in the deadlock was imminent. A key Turkish demand is for withdrawal of Greek forces infiltrated illegally into Cyprus.

Vance, President Johnson's personal troubleshooter in the crisis, flew in from Athens and spent more than an hour with Foreign Minister Ishan Sabri Caglayanhil. Caglayanhil then went to call on Premier Suleyman Demirel and a short time later both men went to the palace of President Cevdet Sunay.

Turkish officials would not comment officially on Vance's discussions but an informed source said he carried Greece's "final answer" to the Turkish demands.

Sources in Athens said earlier that Vance had obtained acceptance from the Greek government of the main Turkish demands for averting war.

## de Gaulle Says American Dollar Is Endangered

PARIS (UPI) — President Charles de Gaulle today launched a fierce attack on the dollar and called for a return to gold as the sole basis of international transactions.

He said the financial upheavals that have led to devaluation of the pound sterling might soon endanger the American dollar. As he spoke, gold buying on the Paris bullion market reached its most feverish pitch in modern memory in a continuation of the dollar-weakening run on gold.

Many of de Gaulle's statements at one of his rare news conferences were devoted to an attack on the dollar and on U.S. economic policies. He accused the United States of exporting inflation by buying up French concerns.

Once again he vetoed British membership in the European Common Market and said Britain was not in a fit state to join the market now—that it must completely overhaul its economic structure before moving into Europe. His first veto of British membership also came in a news conference, in 1963.

Once more he challenged the government of Canada. He predicted the French-speaking Canadian province of Quebec would ultimately become a sovereign state.

He hotly defended his July visit to Quebec and Montreal and his controversial "Long live free Quebec" statement that led Prime Minister Lester Pearson to rebuke him publicly.

(Pearson in a speech today in London made an unprecedented attack on de Gaulle's policies. With stunning frankness he used words such as shortsighted, wrong, discredited and dangerous and he said his resistance to Britain's membership in the Common Market was having the same disruptive effect on the free world that Mao Tse-Tung was having on the Communist world.)

De Gaulle turned to the middle East and once again said the June war between Israel and the Arabs would never have started if the United States had not been fighting a war in Vietnam. He called on Israel to give up its conquered territories but softened his position somewhat by asking the Arabs to recognize Israel as a sovereign state.

De Gaulle demanded that the United States agree to a sweeping overhaul ofthe world monetary system tomake gold the sole basis of international transactions.

The French leader spoke at a news conference before more than 1,000 newsmen.

## Air Force Giants Raid Communists

SAIGON (UPI) — America's biggest bombers today struck a record 108 miles inside North Vietnam and pilots reported blowing up arms bound for Communist troops in South Vietnam's battle of the Central Highlands.

Bombs from the eight-engine B52 Stratofortresses triggered explosions five times their own power when they hit North Vietnamese munitions convoys north of the Mu Gia pass, gateway to the guerrillas' Ho Minh supply trail.

The Air Force giants, which had hit the pass but never quite so far north, also raided Communist positions in the Highlands fight 280 miles north of Saigon. U.S. spokesmen reported a frenzy of North Vietnamese rocket, mortar and machine gun attacks in the 25-day-old duel for the strategic mountains on the waist of South Vietnam.

But they judged them rear guard actions for battered North Vietnamese legions retreating after suffering up to 4,000 men killed. The spokesmen said 1,841 Communist bodies have been counted. U.S. losses totaled 287 dead and 1,000 wounded with government troops suffering 78 men killed.

U.S. spokesmen reported that an Air Force F4C Phantom jet, a two-man craft, was lost Sunday during an 88-mission assault against North Vietnamese targets.

It was the 765th U.S. aircraft including eight helicopters—lost over the Communist nation.

In the Highlands, near the U.S. bastion of Dak To which the North Vietnamese tried to seize in their longest, costliest campaign of the war, UPI correspondent Richard V. Oliver reported the Communists raked with machine guns American Infantry posts atop Hill 1388, GIs stormed the hill two weeks ago in one of the fights that broke the back of the 12,000-man North Vietnamese offensive, according to U. S. commanders.

In other attacks today, the Communist lobbed mortars into five U.S. positions arourd Dak To. Elsewhere the Viet Cong used mortars against three provincial capitals.

On the diplomatic front, a U.S. roving ambassador flew to Bucharest, Rohania, after telling newsmen at Belgrade that he would discuss Vietnam with the Romanian Communist leaders. Bucharest before has acted as middleman in U.S. peace bids. It was expected the U.S. envoy would ask the Romanians to sound out North Vietnam about the possibility of using the year end holiday's truces to start peace talks.

## Florida Governor Aids In Arrests Of Outlaw Gang

WEST PALM BEACH FLA. (UPI)—The governor of Florida was waiting as the sheriff led "Mangy," "Crazy John" and "Super Squirrel" off the plane from Detroit.

"You left that girl hanging to a tree, and I want to make an example of you," Gov. Claude Kirk told the bearded members of the "Outlaw" motorcycle gang Saturday.

On Kirk's orders, Sheriff William Heidtman had flown to Detroit to aid in the arrest of Donald (Mangy) Graves, 18, Detroit; John (Crazy John) Wadles, 24, Warren, Mich., and Joe (Super Squirrel) Sorsby Jr., 19, Houston, Tex.

Bonds were set at $10,000 with arraignment scheduled for today.

The three, along with two others already under arrest, are accused of nailing Christine Deese, 18, of West Palm Beach to a tree limb for witholding $10 from a club member.

"I hope young thrill-seeking girls who go with them know now they can get their fingers burned—in this case, nailed," Kirk said.

## Harriman Arrives For Peace Talks

BUCHAREST (UPI)—American Roving Ambassador W. Averell Harriman arrived today in the capital of Communist Romania for a two-day visit believed aimed at extending peace feelers to the Hanoi regime.

Romanian newspapers and radio refrained from commenting on the visit, saying only that Harriman was welcomed at Bucharest's Baneasa Airport by Vasile Sandru, Romanian deputy foreign affairs minister.

He is expected to see Premier Ion Gheorghe Maurer who recently visited Hanoi, and possibly Ncolae Ceausescu, the Communist party chief.

## Hereford Man Fatally Shot By Officers

HEREFORD, Tex. (UPI) — Jimmie D. Blackwell, 48, died Sunday of a wound suffered when two police officers returned his gunfire, lawenforcement authorities said today.

Neighbors called police Saturday night and said Blackwell was chasing his wife and children around the house.

Sgt. Ray Morgan and patrolman Paul Ramirez said when they arrived at Blackwell's house his wife ran out to them and said her husband was chasing her with a gun, but that it was not loaded.

Then Blackwell came out of the house, officers said, and fired a .22 caliber pistol in their direction.

They said while they were taking cover, Blackwell fired again.

As Blackwell raised his arm apparently to fire a third shot, both Morgan and Ramirez fired their service revolvers.

A bullet struck and fatally wounded Blackwell.

## Fireman Charged In False Alarms

PHILADELPHIA (UPI) — Fireman Daniel J. Donahue, 21, was free on $500 bail today after being charged with pulling 22 false alarms early Sunday.

Donahue, a fireman for almost two years, was accused of striking the alarms in the area covered by Engine Company No. 2, one of the busiest in the city and the one to which he was assigned.

A fire official said Donahue gave no explanation for his alleged actions but did complain that the job of firemen was a "a thankless one" and the public did not appreciate their efforts."

## Administration Gears for Push On Tax Increase

WASHINGTON (UPI) — The Johnson administration was gearing up today for an allout push to obtain congressional approval of the President's long dormant 10 per cent income tax increase proposal.

The Chief Executive, who returned from a Thanksgiving holiday at his Texas ranch Sunday night, scheduled White House conferences with Treasury Secretary Henry H.Fowler and Democratic congressional leaders.

The tax measure's chances were expected to be a prime topic of discussion at the meetings, along with the international run on gold. Johnson has been in constant telephone communication with Fowler since the near panic European gold buying spree began last week.

The drive for the tax increase came as the Federal National Mortgage Association (FNMA) dropped the price it pays to buy Federal Housing Administration (FHA) and Veterans Administration (VA) home mortgages.

The association, known in financial circles as "Fannie Mae," buys mortgages from lenders to free their capital for further investment in the mortgage market.

In announcing the decrease today, Secretary Robert C. Weaver of the Housing the Urban Development Department, who also acts as board chairman for FNMA, said the "failure to act upon a tax increase has occasioned heavy borrowing in drum-tight credit markets. As a result interest rates have risen to the highest level in a century."

One key to the tax increase drive was the President's formula, to be unveiled this week, for cutting federal spending. It was reported the administration planned to reduce spending $1 for every $1 in new revenue brought in by the tax increase.

The House Ways & Means Committee shelved the tax measure Oct. 3 when the panel insisted on substantial spending cuts as the price for further consideration of a tax hike.

Fowler and budget director Charles L. Schultze were to go before the committee Wednesday to outline the formula.

## UAW, Chrysler Approve Contract

DETROIT (UPI)—The United Auto Workers Union today won an agreement providing "the better things inlife" for 8,000 Chrysler Corp. workers and moved on to its last, and possibly its biggest contract battle.

Main table talks at General Motors Corp., the world's largest corporation, resumed at 10:30 a.m. today. There was speculation in the industry that the GM negotiations would be the toughest forUAW President Walter P. Reuther.

Reuther said this morning that he would not attend today's bargaining with GM. The tired union president bargained for 16 straight hours Sunday and today to get a new three-year contract for 8,000 noh-production employes atChrysler and avert a strike that could have shut down the nation's third largest auto maker infour or five days.

"We are obviously very delighted about the agreement," Reuther said. "It was probably the most complicated wage or salary problem we have ever wrestled with."

The package provides for salary increases ranging from $25 to $87 per month for the white collar workers. The increase in wages was retroactive to Oct. 16.

On an annual basis, the salary increases range from $416 to $1,040, with an average annual increase of $686. The increases were about equal to the $1.02 an hour increase in wages and fringe benefits won for Chrysler's 95,000 production workers earlier this month.

The new contract also provides for adjustment of alleged salary inequities, higher pension benefits, a guaranteed annual income plan, a more secure stock thrift plan and better fringe benefits.

## Dry Coffee Pot Prompts Firemen

Boil, boil, toil and trouble were the results when Mrs. Fred Hart of 721 N. Russell left her coffee pot plugged in last night.

She called firemen at 8:25 this morning and they rushed out to her residence. No damages were reported, except to the coffee pot and Mrs. Hart's pride.

## Pearson Attacks de Gaule Policy

LONDON (UPI)—Prime Minister Lester B. Pearson of Canada today attacked the policies of President Charles de Gaulle of France in stunning frankness. He used words like shortsighted, wrong, discredited and dangerous.

Pearson spoke at a Mansion House luncheon today after receiving the freedom of the City of London in an ancient ceremony.

Pearson commented on the breakdown of unity among NATO members and said "France repudiated the whole idea of collective security."

Pearson also criticized De Gaulle for his resistance to Britain's membership in the Common Market and said France was having the same disruptive affect on the free world that Peking was having on the Communist world.

"I see Britain in the role ofa link between Europe and America," Pearson said. "Feeling this way, Inaturally think it is shortsighted and wrong for any European country to oppose or put unnecessary obstacles in the way of Britain playing a full and constructive part."

The Canadian premier said France had fallen "back on the old discredited doctrine of national defense by national action, coordinated ina military alliance but with national sovereignty unimpaired.

"The polarization of all power between a U.S.S.R. determining the policy of the Communist world, and the U.S.A. dominating that of the democracies, was altered on the Communist side by Peking and on the Atlantic by Paris which hoped to develop a strong and independent European third force of which she would be the accepted leader," Pearson said.

Pearson called for a "united Europe with a political, economic and defense role of its own but which should remain closely associated with the U.S.A. and Canada in a European-North American partnership."

Pearson said French policy was now threatening to disrupt to undermine the Western economic structure.

"We should now realize that cooperation between nations in finance and economics is as important as it is for defense and security," Pearson said. "And its breakdown can be almost as dangerous."

If it comes from a hardware Store we have it. Lewis Hdwe. (Adv.)

## 806 Are Killed During Holiday

By United Press International

Americans died at a rate of more than six an hour on streets and roads during the 102-hour Thanksgiving holiday which ended at midnight, local time.

The toll would continue to rise through today with the addition of delayed reports and deaths occurring hours after the weekend accidents.

United Press International this morning counted 635 traffic deaths, 21 dead in airplane accidents, 56 in fires and 94 in miscellaneous mishaps for a total of 806.

California held the dubious honor of counting the most traffic deaths with 75, more than twice as many as the next state, Ohio with 37. North Carolina and Pennsylvani aeach counted 32, followed by New York with 30 and Kentucky with 28.

It was a relatively safe holiday on wheels. A year ago about 750 persons were killed in traffic during the four-day Thanksgiving holiday.

## Texas Fishermen Held By Mexican Authorities

TAMPICO, Mexico (UPI) — Three Brownsville, Tex., fishermen were held Sunday for allegedly violating Mexican territorial waters and resisting arrest after ramming two boatloads of Mexican marines.

The Mexican navy identified the boat as the "Chief Lookout," out of Brownsville.

It was captained by Herbert Hunt and manned by Linwood Labell and Robert Perrin, authorities said.

The Texas boat was seen fishing about six miles off Tampico by a Mexican minesweeper Saturday, officials said.

Mexico claims exclusive rights for 12 miles of its coasts.

The captain of the minesweeper hailed theTexas boat and told the crew it was under arrest, authorities said.

Two boats filled with marines were sent to take over the U.S. craft, but as they drew near, the Chief Lookout rammed them, causing serious damage, the officials contended. No one was injured.

The Texas boat then attempted to leave, but the minesweeper threatened to open fire and the boat and crew were towed to Tampico, authorities said.

SUDDENLY THE DOOR BURST IN

## 250 Persons Drown in Lisbon Floodwaters

LISBON (UPI)—Mrs. Custodia Silva got out of bed to fetch her husband a glass of water and saw a tidal wave of flood water smash through the front door.

Railroad engineer Ricardinho da Silva thought for a moment it was a wild nightmare when the wall of water slammed against and over his train. He knew it was real and felt "horrible, paralyzed."

A teen-age girl wept as she watched the water creep up over a screaming man clinging to a telphone pole.

These residents of Lisbon and suburbs survived when four inches of rain triggered a Sunday morning flood that, according to government officials, already has accounted for more than 250 dead, with "many, many more" feared lost. It was Portugal's greatest water disaster of the generation.

Mrs. Silva's village of Quintas, 160 persons in tiny houses nestled in a bowl-shaped valley near Lisbon, lost half its population when the wall of water came. When the deluge came through the door, "I cried, I grabbed the chimney, I wanted to run and save myself."

Alfredo Rodrigues dos Santos Jr., Portugal's interior minister, came away from a tour of the disaster and could only say "disaster, disaster, disaster." Thousands of wrecked automobiles, uncounted hundreds of houses smashed. Government officials used the word "astronomical" to describe dollar damage.

It was more personal for Maria da Conceicao, 18, who spent a night of terror on an upper floor. For she saw a neighbor man shinny up a telephone pole when the water came.

"For over an hour, he stayed there. At first he cried loudly."

"But his voice quite soon became weaker. He was asking for help. He was asking for someone to throw him a rope."

Maria huddled under roof eaves watching and hearing the anguish of the man clinging to the pole.

## The Lighter Side

By DICK WEST

WASHINGTON (UPI)—By far the most encouraging news to emerge from Southeast Asia this year was last week's announcement that 36 South Vietnamese legislators are coming here for a visit in January.

The United States, as you know, has a vital interest in the establishment of a constitutional democratic government in South Vietnam.

The framework for this was created last September and October with the election of a legislative body.

And now, having been in existence only a few weeks, the Vietnamese lawgivers have already scheduled a junket.

**Proof Positive**

This is indeed proof positive that they have grasped the fundamental concepts of how a democratic legislative body operates.

I haven't seen their itinerary yet, but one indicator of their progress will be whether the trip to Washington includes a

If they fly straight here, and stopover in Paris.

If they fly straight here, and straight back to Saigon, it will show they are still only in the elementary stage of development.

One of Parkinson's laws states: "There is no matter of interest to the United States Congress that does not require a trip to Paris."

Until the Vietnamese legislators have broadened their horizons to the point where they are guided by a similar precept, they cannot truly be said to have achieved parity with other democratic legislative bodies.

**Other Factors**

Also somewhat disturbing is the fact that the Vietnamese arranged their first junket to bring them to Washington in January.

Someone in Saigon must have known that the weather here in January is atrocious and that the customary parliamentary procedure is to find wintertime business in sunny climes.

But since South Vietnam has a warm climate anyway, that oversight is understandable. These are points that can be learned from experience.

During their stay here, they will be conferring with members of the U.S. Congress, who undoubtedly will be able to help them avoid similar mistakes in the future.

At any rate, we should not be discouraged by early ineptitude. The important and reassuring thing is that within less than three months of its creation the South Vietnamese legislative body is already a going concern.

**SHIPS COLLIDE**

HOOK OF HOLLAND (UPI)—The East German ship Stubbenkammer collided with a British tanker off the new waterway and sank early Saturday morning. Twenty-eight members of the 1,814-ton Stubbenkammer's crew were rescued, but one man was reported missing.

# Marsh Attends School Meeting

Cameron Marsh, Pampa High School principal, is attending the annual meeting of Southern Association of Colleges and Schools in Dallas this week and will return to Pampa Thursday.

During the 72nd annual meeting of colleges, high schools and universities in southern states, delegates will attend several committee meetings, including those on standards and admission to junior and senior colleges.

Other committee reports are on Latin American relations private schools, public schools, and programs of school improvement.

In the commissions on elementary schools, the program includes discussion of social and intellectual development in kindergarten, teacher education and facilites, for kindergartens, and consultations center on early childhood development.

General session topics include a panel study of developments in association sponsored education improvement projects by directors of urban EIP projects, talks by Robert R. Bowie, counselor of the United States Department of State, and by W. P. Gullander, president of the National Association of Manufacturers.

Dr. John Damron, school superintendent, attended a meeting Sunday of the southern association.

## Service Station Reports Burglary

Approximately $420 in cash was reported taken in a burglary at a service station at 708 N. Hobart between 10:15 p.m. and 10:45 p.m. Friday.

According to a Pampa police report a burglar or burglars entered the Phillips 66 station by kicking in a glass in the front door and prying off a lock to the office door.

A Burroughs adding machine was also taken.

## Youths Questioned In Vandalism

Gray County Sheriff's deputies questioned three juveniles today in connection with vandalism at a farm home, 15 miles east of Pampa in Roberts County.

According to deputy C. L. Wallace three youngsters were seen leaving the farm, leased by Jim Campbell, Sunday and the witness saw that part of the house had been damaged.

Wallace said that upon investigation it was found part of the house had been chopped up and torn with an axe and length of pipe.

A license number of the car was obtained and the boys questioned.

The matter will be turned over to Roberts County Sheriff Cy Karr, Wallace said.

# World's Most Valuable Coin Recovered from Stolen Loot

MIAMI (UPI)—A $16 gold piece owned by George Washington and now believed the world's most valuable coin has been recovered from the loot of a $1 million theft, an insurance adjuster said today.

Richard F M Andrews, an adjuster who specializes in recovering stolen goods, said the "Brasher Doubloon," worth between $100,000 and $150,000 was recovered in south Florida during the weekend.

The coin was one of about 4,000 stolen from the Sterling Memorial Library at Yale University, New Haven, Conn., on May 29, 1965. Until recovery of the famed doubloon, only a small part of the $981,560 loot had been found.

Andrews would not say how or from whom the coin was recovered. But he said, "We have hopes of making further recoveries in this robbery."

The coin, which Andrews displayed to newsmen at a conference, was gold and obviously old. It had irregular edges in the style of coins minted by goldsmiths before the National Mint was established.

Andrews said the coin was named the "Brasher Doubloon" after the goldsmith who made it, Ephrian Brasher. Andrews said Brasher was a neighbor of George Washington in New York, and gave Washington the coin in 1787.

## Obituaries

**Mrs. Della McCampbell**

Mrs. Della McCampbell, born Nov. 5, 1890 in Queen City died at 10:20 a.m. Sunday in Highland General Hospital. A Pampa resident about six months, she moved here from Clarendon and had been hospitalized about a month.

A Clarendon resident since 1913, she was a member of the St. Stephens' Baptist Church in Clarendon.

Survivors include three daughters, Mrs. Juanita McJunkins, and Miss Della Mae McCampbell, both of Pampa, and Miss Geraldine McCampbell, Oklahoma City, Okla., four sons, Charlie Lancaster and Walter McCampbell, both of Clarendon; Arthur Lewis McCampbell, Pampa; H. D. McCampbell, Hereford; one brother Arthur Wynn, Grant, Okla.; one sister, Mrs. Louisa Wynn, also of Grant; 15 grandchildren and three great-grandchildren.

Funeral services are pending with Camichael-Whatley Funeral Directors.

**Osborne M. Anderson**

Osborne M. Anderson, born Nov. 20, 1902, at Miami, died at 5:40 a.m. today in his home in Kansas City, Mo. He was field representative for Pittsburgh Paint Co. and was a former Pampan.

He had lived in Kansas City about 12 years. He was a member of the Baptist church and the Masonic Lodge. He graduated from Pampa High School in 1920 and served on the police force here in 1947 and 1948.

He is survived by his wife, Florence, of Kansas City; one daughter, Mrs. Paul Barrett, Pampa; one son, William M. Anderson, Long Beach, Calif.; seven grandchildren and one great-grandchild; three brothers, Walter Anderson, Garden Grove, Calif.; Charles Anderson, Buffalo, Okla., and Clarence Anderson, Amarillo; six sisters, Mrs. Margaret Powell, Beaumont; Mrs. Mary Hopkins, San Antonio; Mrs. Zella Harris, Oxnard, Calif.; Mrs. Lelah Carey, Pampa; Mrs. Lorene Oliver, San Leandro, Calif.; and Mrs. Ann Deuel, San Antonio.

The body will be returned to Pampa to Carmichael-Whatley Funeral Home where funeral services are pending.

## Boy Scout Banquet Set Tuesday Night

The annual Santa Fe District Boy Scout banquet will be held tomorrow night at 7 p.m. in the cafeteria of Robert E. Lee Junior High School.

The program will include individual leader recognitions, Roundup Award presentations, introduction of units and their sponsoring institutions and introduction of 1968 District officers.

Judge Grainger W. McIlhany of the 31st Judicial District Court will be the guest speaker. Kay Fancher will serve as master of ceremonies.

# $3 1-2 Million Teen Market in County

NEW YORK, Nov. 25 — It's not only the adult population of Gray County that has more money to spend these days.

The teen-agers in the local area are better off, too. These young tycoons, with an impressive amount of cash at their disposal, have become an economic force of considerable size.

As a result, local retail merchants are making special efforts to woo them by catering to their particular tastes in food, fashions and entertainment.

On the basis of the latest figures, the teen-age market in Gray County reached an estimated $3,510,000 in the past year.

The money went for records, clothes, used cars, greeting cards, movies, costume jewelry, snacks, sportswear, cosmetics and the thousand and one other things that are of vital importance to youngsters.

And it was spent quickly. There was little or no thought given to saving part of it. To teen-agers, money is for spending—now.

The facts and figures were developed from national surveys and studies reported by the Life Insurance Institute of America, the Youth Research Institute and others.

Their figures show that teenage spending in the United States climbed to a record $18 billion in the past year.

Divided equally among the 24 million boys and girls between the ages of 13 and 19, it amounted to $750 in the year, or $14.40 apiece per week.

Applying that national average to Gray County and to the 4,680 teen-agers in the local area, their weekly total was about $67,400.

Many of the youngsters earned part of this income by baby sitting, delivering newspapers and doing other work after school. The rest of it came from their allowances.

Of even greater importance to storekeepers than the business they do with the young people are the family purchases that they influence.

They have a strong voice in deciding, for example, the king of food, the make of car and the type of furniture that their parents buy. It is estimated that they affect purchases of over $35 billion nationally.

At that rate, approximately $6,809,000 a year of additional spending in the local area is influenced by them.

## Fire Damages Car

A fire at 7:40 p.m. last night on the Miami highway, just east of the fair grounds, caused moderate damage to a 1961 Mercury automobile. Firemen say the blaze apparently started from a hot wheel bearing. The rear portion of the automobile was burned, including paint and one tire.

## Car Hits Rooms At Coronado Inn

Gray County Sheriff's Deputies were investigating today a hit-run accident at Coronado Inn, that happened about 1 p.m. Sunday.

According to the Sheriff's office a car, believed to be a light blue or dark metallic colored Cadillac, jumped a guard rail and crashed into two rooms at the motel.

A hole was ripped in the wall of one of the rooms and slight damage was done to another room.

There was no damage estimate given by the Inn.

Deputy Bill Beard investigated for the Sheriff's office.

## Damage Suit Filed in Crash

Aubrey Cory of Gray County has filed suit in 31st Judicial District Court against David Reed of Gray County for $1,000 in damages.

The plaintiff alleges that on or about Oct. 20, 1967, on S. Starkweather St., the defendant negligently drove an automobile into the rear of the one that she was driving.

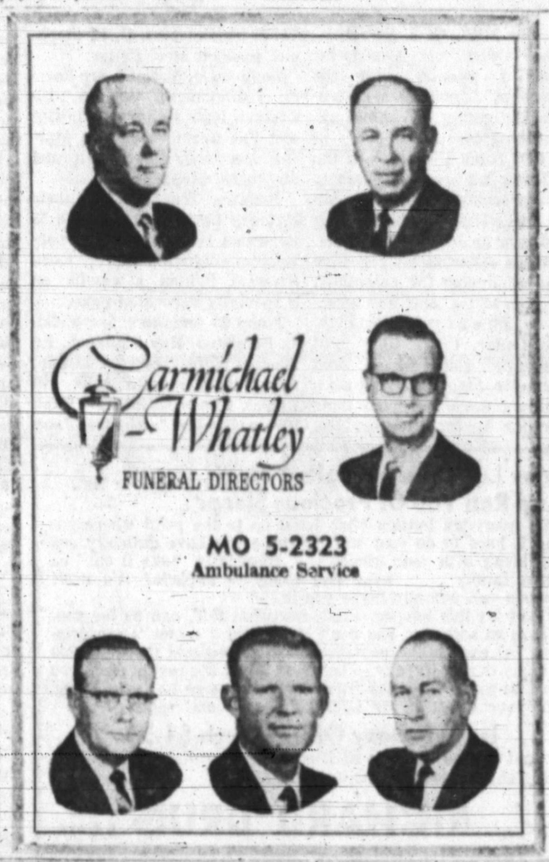

She alleges that as a result of the negligence on the part of the defendant, she suffered losses in earning power and physical pain.

## Yellow Cab Sued In Auto Crash

Luther B. Nichols III of 1000 S. Schneider has filed suit in 31st Judicial District Court for $10,000 against James Lewis, doing business as Yellow Cab Company.

The plaintiff alleges that as a result of negligence on the part of the defendant, Lewis drove a vehicle into the path of one driven by the plaintiff, causing a loss of earning power and pain and suffering.

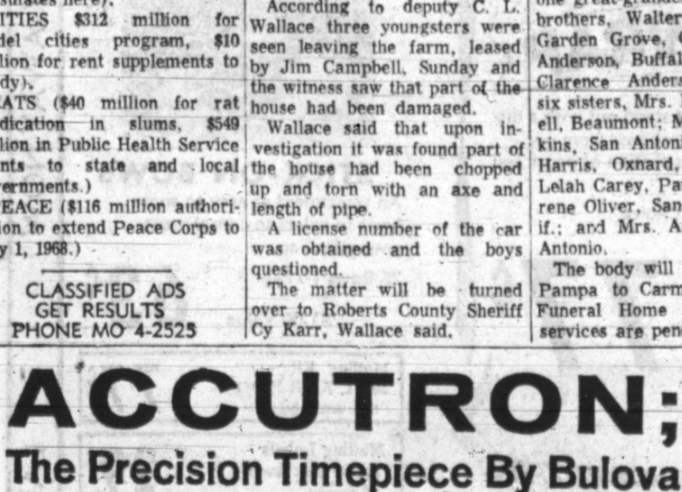

The accident took place on Aug. 20, 1967, at the intersection of Duncan and Louisiana streets.

## Scouting Scoops

By MRS. G. J. BOYD

The Court of Awards for Troop I opened with the Pledge of Allegiance, and traditional lighting of candles representing the three parts of the Girl Scout Promise and the 10 Scout Laws. Membership stars presented the girls signified the completion of their third year as Junior Girl Scouts. Twelve different badges were awarded during the ceremony. The Sign of the Star was awarded to Sherry Collinsworth, Ruth Felter, Cindy Gill, Pat Greenwood, Pat Silcott and Shermette Stephens. Troop members were presented their cockades by their leader Mrs. W. J. Felter. Mrs. B. L. Stephens assisted Mrs. Felter.

Members of Troop 1 are Sherry Collinsworth, Annete DiCosimo, Ruth Felter, Cindy Gill and Pat Greenwood, also Marsha Harwood, Pat Silcott and Shermette Stephens.

Brownie Troop 23 had their birthday party recently with 23 Brownies receiving their one-year membership star. Each Brownie lighted a candle on a specially decorated cake.

Troop 23 members are Melissa Boughton, Kay Clabaugh, Ladonna Culver, Terri Coffman, Ann Ellis, Elizabeth Elliot, Jill Ferrel, Nancy Gates, Tana Hayes, Bobbie Jo Horton, Janis Johnson, Kristy Jones, Kim Jones, Cheryl Knight, Janet Keagy, Jennifer McCausland, Amy McMullan, Gayle McDonald, Kerry Power, Sara Jane Riehart, Cathy Thomas, Linda Thompson and Terri Whitner.

Also at this time, four new girls were welcomed into Scouting with their investiture and received their Brownie pin. They are Brenda Cary, Vicki Cradduck, Kristie Rapstine and Peggy Wilson.

Refreshments were served to mothers by the Brownies. Leader for Troop 23 is Mrs. Pat Broughton, assisted by Mmes. Ruth Clabaugh, Georgia Hayes, Lenora Culver and Mildred Knight.

The Song and Games Workshop is scheduled for Nov. 30 at the Girl Scout Little House. Morning session is concerning Brownies; afternoon session, Juniors, Cadettes and Seniors.

**Why Let Tension Make You Ill . . . And Rob You Of Precious Sleep?**

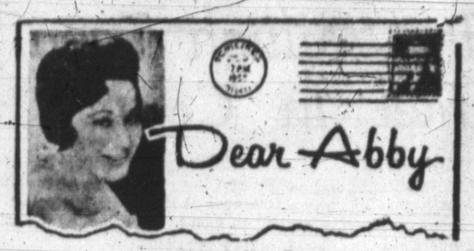

Do everyday tension often build up to the point where you find it hard to do your work? Where you have difficulty getting along with your friends . . . frequently "take it out" on youru family . . . even feel ready to explode? It's true! Tension can actually make you ill.

Don't let this happen. First, see what B.T. can do for you. B.T. is so safe that you don't even need a doctor"s prescription. Yet each tablet contains tested ingredients that help you to relax during the day — help you to get the restful sleep you need at night. Try this trusted way to more peaceful living. Ask your druggist for B.T. Tablets — and relax.

## Dear Abby

by Abigail Van Buren

DEAR ABBY: We have been married for 14 years and have five children. Two years ago my husband "flipped his lid" so to speak. He shouted at me, cursed me, and even accused me of trying to do away with him.

He is now on his third psychiatrist and has become impossible to live with, so I have started divorce proceedings. My husband cannot adjust to the fact that I am divorcing him. Now he's worse than ever.

I am also seeing a psychiatrist, and MY psychiatrist tells me if I don't get away from this man I will be as sick as he is. But HIS psychiatrist tells him to try to persuade me to postpone the divorce until he is able to adjust to the idea. (His psychiatrist doesn't say how long that will take. He may NEVER adjust to it.)

My friends say I have a duty to stay with my husband. I know I sound heartless, Abby, but I have children to raise and I want them raised in a sane environment. So what do I do now?

UNDECIDED

**DEAR UNDECIDED: If you are seeing a psychiatrist, you are paying good money for his guidance. So listen to him, and don't go shopping around for less professional opinions. Your psychiatrist is in a position to know you and your problems better than anyone else. Including ME.**

DEAR ABBY: A policewoman who directs traffic near the school my 15-year-old daughter attends made a very insulting remark to my daughter about her mini-skirt. (She said she was surprised she hadn't been sent home from school). My daughter was annoyed and upset over this.

Isn't a policewoman's job to direct traffic, and not to judge peoples' clothes?

I would appreciate your comments on this.

HER MOTHER

**DEAR MOTHER: I would not condemn the policewoman until I saw your daughter in her mini-skirt. (Is it possible that she was holding up traffic, or could have caused an accident?)**

For Abby's booklet, "How to Have a Lovely Wedding," send $1 to Abby, Box 69700, Los Angeles, Calif., 90069.

## Astrological Forecast

By CARROLL RIGHTER

TUESDAY, NOVEMBER 27, 1967

GENERAL TENDENCIES: Until mid-afternoon you are aptto get inall sorts of arguments or accidents unless you use the greatest amount of care and caution. Later you find that everything suddenly takes a turn for the better andyou can accomplish almost anything you wish, as practically everyone isin a happy, pleasant frame of mind.

ARIES (Mar. 21 to Apr. 19) Do notenter into anargument between some official anda partner. Later, you find real accord with all ofyour associates. Improve your credit. Evening canbe delightfully happy time for you.

TAURUS (Apr. 20 toMay 20) Take care not toget caught inthe web of indecision today or youwill accomplish very little. Schedule your time, activities. Use caution in all that you do.The planets are with you in the evening, though.

GEMINI (May 21 toJune 21) Although pleasure is on your mind, it would be wiser tohandle all of those important duties that are staring you inthe face. Creative self-expression comes easily during day. Then out to romantic places tonight.

MOON CHILDREN (June 22 toJuly 21) Avoid getting involved in some disagreement between kin and some intruding outsider and all blows over very quickly. Then entertain at home in P.M. Clear up own understanding with family tonight, quietly.

LEO (July 22to Aug. 21) Drive with utmost care and don't walk up and down stairs so fast or you could have afall! Get out with congenials inP.M. Going over statements for possible errors is wise. Take iteasy late inP.M. Read while you relax.

VIRGO (Aug. 22 to Sept.22) Financial matters can give yousome headaches in A.M., so stay on the sensible side. Tonight you can come toright conclusions. Be interested inwhatever will give you more abundance, property.

LIBRA (Sept. 23 to Oct. 22) Showing a certain amount of patience with others is wise during day. Then all goes favorably for you tonight. Get your appearance improved during A.M. Make an excellent impression on others inP.M.

SCORPIO (Oct. 23 toNov. 21) Because you feel restricted is no reason why you should take it out onothers. Get busy and handle all in a very intelligent andobjective way. Be sure youhelp one who is in trouble and comes to you for assistance.

SAGITTARIUS (Nov. 22 toDec.21) During A.M. you are not certain just what your aims are, but friends help you to clarify wishes later on inthe day. Some plan you have during morning is not good. Avoid being so suspicious of others.

CAPRICORN (Dec. 22 to Jan. 20) You seem tohave difficulty handling civic or career tasks during day, but they can be well done in P.M.You get right answers, results. Knowwhat is expected ofyou by bigwigs. Do your work efficiently.

AQUARIUS (Jan. 21to Feb. 18) Some new slant at advancement is fine now but putin operation later inthe day. One whose ideas seem strange toyou, has the key to your success. Listen carefully and follow without reservation.

PISCES (Feb. 20 to Mar. 20) Take no risks in personal or business matters during day, but tonight you have some leeway that could prove profitable. However, do not go off on any tangents whatsoever. Dress charmingly tonight.

IF YOUR CHILD IS BORN TODAY . . . he, or she, will be one ofthose close-mouthed young persons who finds it very hard toexpress himself, but donot be disturbed as parents, since upon reaching maturity, your progeny will have learned a great deal andwill make agood living and then be happy inown environment, with ownfamily starting.

## Pampa Opti-Mrs. Club Members Attend Program on Holiday Foods

The Pampa Opti-Mrs. Club met recently at the Southwestern Public Service Company with Mrs. Mildred Prince, Home Service Advisor, presenting the program on Holiday Foods.

Preceding the program, a business meeting was held with Mrs. Buddy Thornton, president, presiding. A report was given by Mrs. W. C. Epperson on a bake sale which the club held recently. Final plans were made for the Christmas Salad Supper to be held Dec. 7 in the home of Mrs. W. C. Epperson with husbands of members as guests.

The door prize for the evening was won by Miss Fay Coleman.

Guests for the evening were Mmes. Geraldine Shultz, George Massie, Travis Lively, Jr., Corinne Bell, Joyce Gray, Paul Reimer, Bill Stephens and Miss Fay Coleman.

Members attending were Mmes. Bill Leonard, Cliff Scott, Buddy Thornton, Lonnie Johnson, Larry Parsley, Newt Secrest, Curtis Griffin, Vincent Simon, W. C. Epperson, Homer Hollars, W. E. Combs, Lloyd Summers, David Jagger and Virgil Frashier.

## Pampa Public Schools Menu

NOV. 28

Wieners

DUCKWALL'S

# Washington Window

By RAYMOND LAHR

WASHINGTON (UPI)—A glance at the congressional recordlast week suggests that Lresident Johnson may be able todo his best campaigning next year by staying at home in the White House.

What are called paens of praise came from the Democratic side of Congress and extolled Johnson's performance at his televised newsconference Nov. 17. Some comments:

". . .a stunning moment with the man who holds the highest office in the land .. there is no question but that the President's best secret weapon is himself." (Sen. Thomas J. McIntyre, D-NH.)

". . . Lyndon B. Johnson showed the American people his true colors. These colors have long been familiar to those of us privileged to know the President." (Sen. Daniel K. Inouye, D.-Hawaii.)

". . . I believe it marks a turning point in the affairs of our day. In simple but forceful language, the President has succeeded in defining the issues for the entire nation." (Rep. Claude Pepper, D-Fla.)

During his four years in office, the President sometimes has been given high marks for his TV performances. But recently, many politicians and other critics found star quality lacking in his apperances. The Nov. 17 show drew more acclaim.

Effective use of the White House for newsmaking is one of the advantages enjoyed by an incumbent president seeking reelection. Only William Howard Taft, whose party broke apart under him, and Herbert Hoover, whose first term ended at the bottom of the Great Depression, have been denied reelection inthis century.

As a newsmaker, a president towers above any opposition party spokesman or presidential nominee. The Republican leadership has tried to meet this fact of life with their periodic news conferences jointly held by Senate GOP leader Everett M. Dirksen and House leader Gerald R. Ford.

These are not broadcast live but are seen in glimpses in news shows. If Johnson can make more effective use of his broadcast news conference, the GOP may be screaming for equal time.

# Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

The foreign news outlook:

**Soviet Reforms:**

Soviet leaders have scheduled a major conference for the new year todebate reforms in the Soviet Economy, including the performance record of reforms instituted two years ago. Liberal economists are urging introduction of free-floating supply-and-demand prices on some goods and more freedom for factory managers to buy their own raw materials.

**Anti-China Summit:**

Moscow observers also expect the Kremlin's campaign for an anti-China world communist summit meeting to move into high gear soon.Soviet newspapers tend to confirm reports that the Soviets have lined up enough support—about 70 out of the world's 90-odd parties—to hold the summit. Next step: A preparatory meeting to [illegible] an agenda.

**Israeli Arms Embargo:**

Pro-Israeli political quarters in Paris are expected to put fresh pressure on the French government tolift its embargo after U.A.R. President Gamal Abdel Nasser's Nov. 23 statement that Egyptian armed forces are stronger now than before their June rout at the hands of the Israelis. Gaullist quarters, however, claim that De Gaulle is unlikely todrop his current pro-Arab policies.

**Troubles atHome:**

Sources close to De Gaulle say he is convinced that quarrels within his razor-thin Majority in the Chamber of Deputies will force him to dissolve the assembly before its term runs outin 1971. Told of mounting dissention, he is said to have replied angrily: They (the deputies) may fear a dissolution. I don't."

**LEFTIST HECKLERS**

MUNICH, Germany (UPI)—Leftist students disrupted ceremonies installing a new rector at Munich University Saturday by noisy heckling and showering soap bubbles and paper airplanes over the audience. About 50 members of the Socialist German Students Association booed, whistled and clapped as the solemn procession began. Then, they let fly with the paper planes, soap bubbles and big worm-shaped balloons as the new rector started speaking.

**HARRIMAN CONFERS**

KABUL, Afghanistan (UPI)—The United States' roving Ambassador, W. Averell Harriman, flew into Kabul Saturday for a one-day visit to confer with Afghan King Mohammed Zahir and Prime Minister Nour Ahmad Etemadi. Harriman arrived from Rawalindi, Pakistan.

**LONG VOYAGE**

ROSSLARE HARBOR, Ireland UPI)—Horst Ortmann, 28, of West Germany set sail Sunday on a solo round the world cruise in a 29-foot yacht.

**BACKACHE & TENSION** SECONDARY TO KIDNEY IRRITATION

Common Kidney or Bladder Irritations make many men and women feel tense and nervous from frequent, burning or itching urination night and day. Secondarily, you may lose sleep and have Headache, Backache and feel older, tired, depressed. In such cases, CYSTEX usually brings relaxing comfort by curbing irritating germs in acid urine and quickly easing pain. Get CYSTEX at druggists.

# Television In Review

By RICK DE BROW
HOLLYWOOD (UPI)—"The Diary of Anne Frank," one of the noblest plays of the American theatre, came to ABC-TV Sunday night in a two-hour adaptation that will stand as a proud achievement for television.

It was the third presentation of ABC-TV's successful new "Theatre Night" series, the first two being "Johnny Belinda" and "Dial M for Murder."

The title role of Sunday night's production was portrayed by a newcomer, Diane Davila, 20, who was born in New York but is a Latin American and was brought from Lima, Peru, for the play.

And although at times she was a bit too theatrical for the home screen version, and occasionally seemed slightly mature for the age of Anne, which spanned from 13 to 15, she nevertheless rendered an outstanding performance of range and depth. She was particularly good in the lighter moments, showing a personal quality of humor that is rooted in reality.

**Well Known Story**

The story of "The Diary of Anne Frank" is, of course, known throughout the world by now—the tale of how a family and some other persons, all Jewish, lived for two years while hiding in a loft in Nazi-occupied Holland in World War II.

And ABC-TV's production, in addition to Miss Davila, was splendidly cast, with Max Von Sydow and Lilli Palmer as her parents; Marisa Pavan as her sister; Theodore Bikel and Viveca Lindfors as a bickering couple in the loft; Peter Beiger as their son, and the always impressive Donald Pleasance as the nervous dentist who is also inresidence.

There was only one flaw in the two-hours, and it was a terrible, unforgivable one which almost ruined the climax of this sensitive presentation. Just as the Nazis were at the door, and with only a few minutes left in the play and a moving final scene on tap, an offensive and loud commercial about a deodorant was inserted. I don't remember ever being so furious about a commercial. I very nearly threw an ashtray at the set. Whoever allowed this tasteless intrusion should be thoroughly ashamed. And I will always bear a dislike for the product.

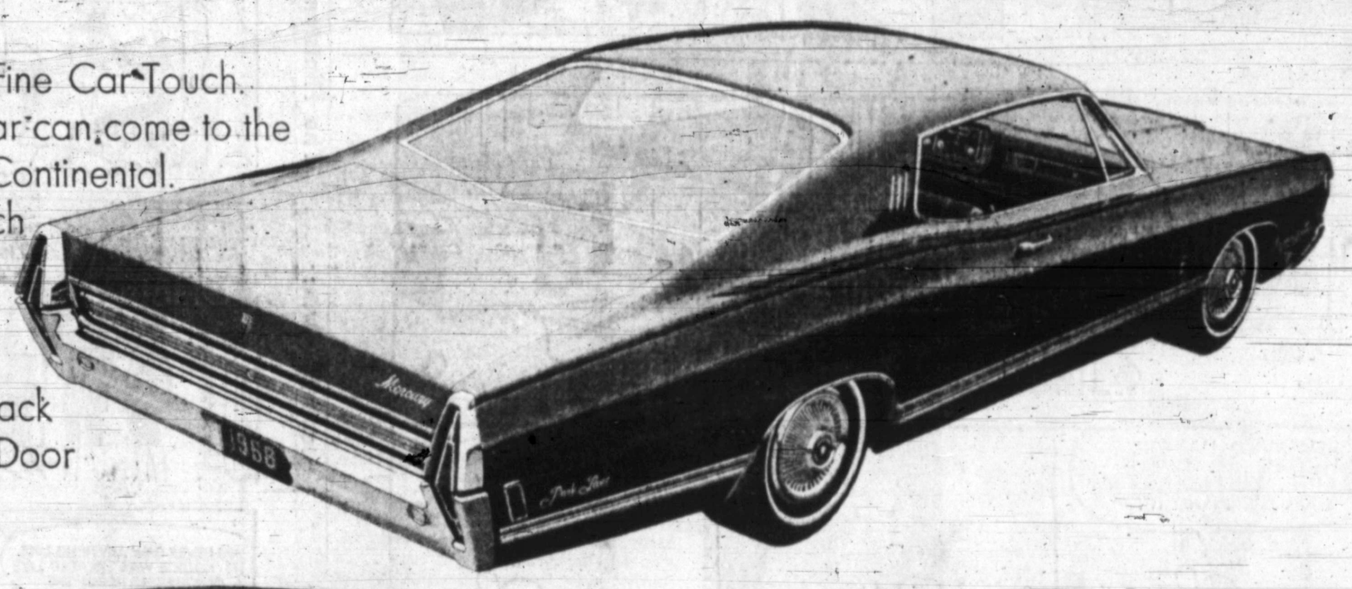

As a person who has read the diary of Anne Frank, seen the play three times and viewed the movie also, I was especially happy about the television version because, in a large sense, it righted a wrong concerning this classic modern story.

Until Sunday night, the version that had the chief impact for the mass audience was the movie adaptation, a disastrously slow and pretentious bore in which the director seemed to be saying every step of the way: "I am making a classic, I am making a classic, I am making a classic."

**For 1968, Mercury's got it! The Fine Car Touch inspired by the Continental.**

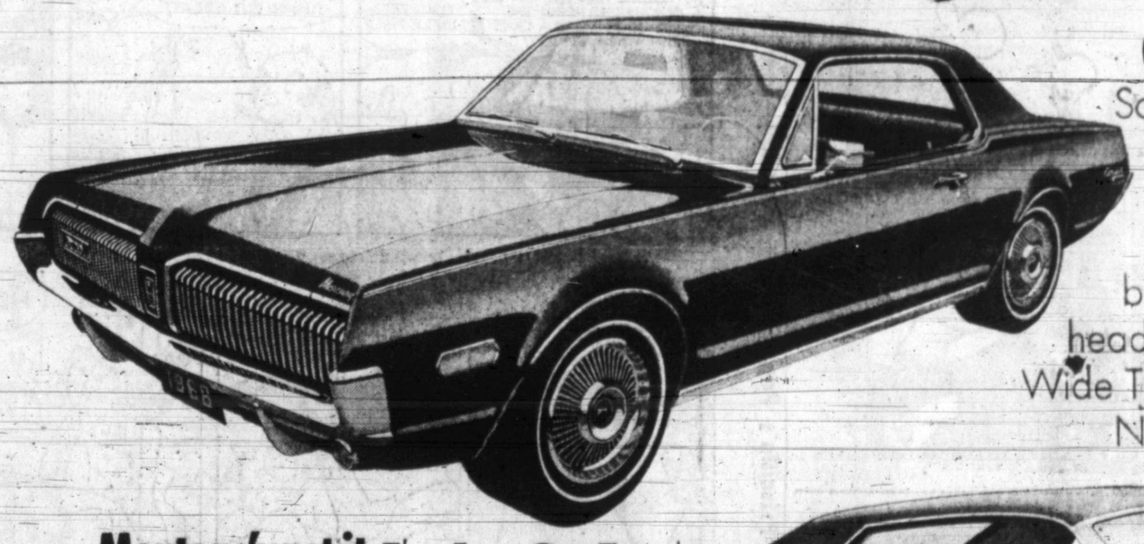

Mercury is rolling again. We've got cars. With plenty more on the way. Each features the Fine Car Touch inspired by Lincoln Continental. Our mood is, "Let's catch up." So you'll find us very friendly indeed —ready to make it easy for you to own one of these great new Mercurys.

**Mercury's got it.** The Fine Car Touch. Mercury is the closest any car can come to the ride and feel of the Lincoln Continental.

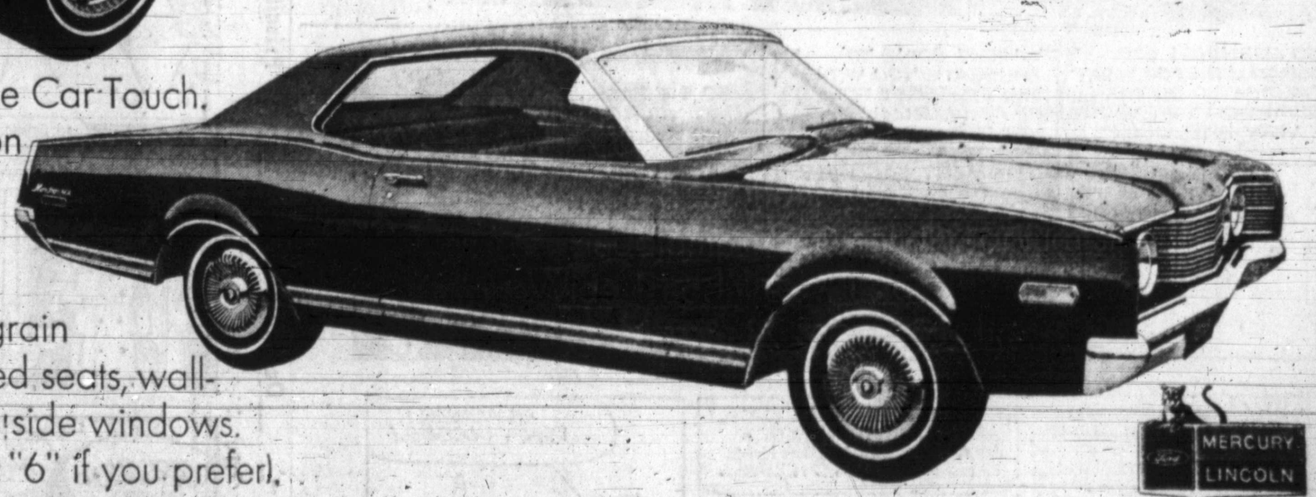

With the Fine Car Touch in the rich nylon carpeting. And in quiet created by 123 pounds of sound insulation.

Totally new: 3 sweptback models like the Park Lane 2-Door Hardtop shown.

**Cougar's got it.** The Fine Car Touch. So much of it, in fact, that pound for pound and dollar for dollar, Cougar is the best equipped luxury sports car in America. New 302 cubic inch V-8 engine—bigger than ever. Bucket seats. Concealed headlamps. Sequential rear turn signals. New Wide Tread tires. All standard.

News: 4 Cougars to choose from in '68!

**Montego's got it.** The Fine Car Touch. In Montego, it's the combination of Cougar excitement with full 6-passenger comfort.

Luxuries include a 5-pod instrument cluster with walnut-grain vinyl inserts, deep-foam padded seats, wall-to-wall carpeting, curved-glass side windows.

302 cubic inch V-8 (or a "6" if you prefer).

**ORIOLE CANDIDATE** — Ron Curlee, former Pampa Harvester, now of Borger, tells friend Judy Utzman what its likes to play baseball for a Baltimore Oriole farm team. Curlee, apicther spent this past summer as a winning hurler for the Bird's Florida farm club.

By United Press International

The Green Bay Packers staked another claim to the Super Bowl while Leroy Kelly filed his formal entry blank for super star recognition.

The Packers, who valiantly defended the National Football League's honor in the first Super Bowlgame last January, became the first club to qualify for the playoffs this season when they defeated the Chicago Bears 17-13 Sunday and captured the Central Division title. Kelly, just another running back at Cleveland until Jim Brown retired from thegame, surpassed the 1,000-yard mark in rushing for the second consecutive season, a feat accomplished by only three other players inNFL history, in sparking the Browns to a frantic 42-37 triumph over Washington. The victory left Cleveland atop the Century Division by afull game.

**Seeks ThirdStraight**

Green Bay, seeking an unprecedented third consecutive NFL title, ran its record to8-2-1 in snapping the Bears' three-game winning streak. Ittook an inspired defense and abrilliant 69-yard kickoff return byTravis Williams, however, tospring the Packers.

Bart Starr, under fierce pressure froma Chicago blitz, completed 11 of 17 passes for 174 yards and threw afive-yard touchdown pass to Boyd Dowler in the first quarter following a Dave Robinson interception of a Jack Concannon pass. The Packers were held to only 71 yards rushing, far below the total of 117 compiled by Gale Sayers.

Kelly, the league's toprusher, ran for 163 yards, the best one-game total of his career, in pacing the Browns to victory. That yardage, gained in 20 carries, included touchdown runs of 21 and 42yards, which combined with a 104-yard kickoff return by Carl Ward and a 70-yard interception return by John Brewer, gave Cleveland an early 28-10 lead.

New York throttled Philadelphia 44-7 to remain one game behind Cleveland, Baltimore remained unbeaten with a 26-9 triumph over San Francisco, New Orleans rallied to beat Atlanta 27-24 and Minnesota defeated Pittsburgh 41-27 in other games.

The Baltimore victory kept the Colts one game ahead of Los Angeles, which beat Detroit 31-7 Thanksgiving Day, in the Coastal Division. Dallas whipped St. Louis 46-21 in the other Thanksgiving Day contest.

Fran Tarkenton fired the Giants to a 34-7 halftime lead with three touchdown passes and New York rolled up its highest point total in four years in blasting Philadelphia. The Giants scored the first seven times they had the ball and harassed Norm Snead into three interceptions in the rout.

Lenny Lyles gave rookie quarterback Steve Spurrier a rude awakening when he intercepted apass early in the third quarter andran it back36 yards for atie-breaking touchdown which sparked theColts to their ninth victory against two ties. Lou Michaels booted four field goals for Baltimore and Tony Lorick plunged a yard for the Colts' other TD.

Tight end Kent Kramer's second touchdown reception of the game, a seven-yarder from reserve quarterback Bill Kilmer in the final 54 seconds, rallied the Saints past the Falcons before a boisterous crowd of 83,437 in the Sugar Bowl.

Defensive back Karl Kassulke produced one touchdown with a blocked punt and set upanother with a recovered fumble as the Vikings scored 24 points in the fourth quarter in out maneuvering the Steelers in amistake-marred contest.

# Oilers Eye Super Bowl

By United Press International

It may not be too long before Mel Farr is identified as "Miller Farr's brother."

Although he's two years older than his kid brother Mel and is in his third year as a pro, Miller Farr has usually found himself referred to as "Mel Farr's brother" the last three

Miller led the nation in kickoff returns in 1962 and led the Missouri Valley Conference in 1963 but received little national recognition in his collegiate career—while Mel was an All America star at UCLA where he concluded a brilliant career last year.

Mel has had a fine rookie season in the pro ranks with the Detroit Lions and is one of the National Football League's top rushers—but while the Lions are going nowhere, Miller may be leading the Houston Oilers to the Super Bowl.

**Intercepts Two Passes**

Farr, the superb cornerback of the Oilers, intercepted two more passes Sunday and ran one back 62 yards for a touchdown as the Oilers moved within one game of the New York Jets in the battle for the Eastern Division title of the American Football League with a 27-6 victory over the Boston Patriots.

Farr's two interceptions gave him a total of eight for the season and the touchdown was his third of the season—which is only two less than Mel has (three running and two receiving) while playing offense.

In the only other AFL game Sunday, Miami snapped an eight-game losing streak with a 17-14 victory over the Denver Broncos on Bob Griese's 31-yard touchdown pass with61 seconds left.

Oakland and San Diego, both victors on Thanksgiving Day, were idle and will meet next Sunday at San Diego with first place in the Western Division at stake. Oakland is 9-1 and San Diego is 8-1-1.

The victory gaveHouston a 6-3-1 record while New York is 7-2-1. Both clubs have four regular season games remaining although they don't meet each other again. They played to a 28-28 tie in their only game this season.

Farr, one of the key players in the tough Houston defensive unit which has kept the Oilers alive this year while the offense was sputtering, intercepted a Babe Parilli pass with 2:58 to go and dashed 62 yards for the TD which sealed the verdict.

Jim Nance of Boston picked up 109 yards in the losing cause, boosting his total to 1,017 yards for the season. He's th e first AFL rusher to pass 1,000 yards for two straight years.

Griese, having a fine rookie season as Miami's quarterback despite the club's poor record, hit for the winning TD on a fourth-down and 17 situation and Dick Westmoreland's third interception of a Jack Kemp pass gave Miami possession on the Buffalo 24. Kemp had four passes intercepted in thegame.

## Star Cage Game Slated Tuesday

**Tickets, although they are selling fast, are still on sale for the exhibition game between Boid Buie's Harlem Stars and Pampa's Cock-O'-Walk cage team.**

**The game, with all proceeds to go to further pee wee basketball in P a m p a, is slated for 8 p.m. Tuesday in Harvester Fieldhouse.**

**Tickets may be purchased from any member of the Pampa Downtown Kiwanis Club for $1.50.**

**KARCIMONT WINNER**

PARIS (UPI) — Karcimont beat 16 rivals in winning the $30,000 Prix Montgomery steeplechase Sunday at the Arteuil race track.

Karcimont finished one length ahead of runner-up Quintefeuille, with Le Titien third.

# SWC Play Ends Saturday

By United Press International

The choicest Southwest Conference football plums have been picked, with Texas A&M harvesting the juiciest ones of all, butfour of the eight teams return to the fields Saturday to pick up what culls remain.

With the Aggies having won the championship, their first since 1954, and the host Cotton Bowl berth against Alabama, their first trip to the Dallas Classic since 1942, the final week's action is anti-climactic.

But, Texas Christian, Southern Methodist, Rice and Baylor have some individual goals remaining tobe achieved and so they'll ring down the curtain Saturday afternoon with TCU at SMU and Baylor at Rice.

TCU, staging as equally an amazing comeback as the Aggies, can tie Texas Tech for second place at5-2 (the Aggies finished 6-1); SMU could clinch sixth place, and wither Rice or Barplor couldescape the cellar by chalking up victories in the windup games.

The Horned Frogs lost their first five games and now have won their last four, the latest being a14-10 decision overRice last Saturday. Never in the school's history have they built a 5-5 season in such afashion but they will be outto do so Saturday in Dallas.

SMU beat TCUlast year when the Ponies won the title, but prior to thatTCU had a seven-game streak working of spoiling the Mustangs' final game.

It has been so long since either Rice or Baylor figured ina title that their windup game usually means little. It's been 10 years since Rice had a championship and the memories of Baylor's last title (1924) are so dim few persons are left that recall it at all.

The Aggies, whohad to win their last six games after four opening losses to claim the championship, beat traditional foe Texas 10-7 in the showdown game Thanksgiving Day. Their only league loss was the season-opener toSMU —and that was SMU's only victory until the Ponies beat Baylor 16-10 last Saturday.

Texas Tech clinched second place witha 5-2 mark by beating Arkansas in a wild 31-27 thriller. That knocked the Razorbacks outof a Liberty Bowl bid and dropped their league record to3-3-1, the worst finish since the rebuilding year of 1963 and only the second losing campaign since Frank Broyles took over in1958.

David Dickey of Arkansas scored twice against Tech to win the scoring championship easily with 16 touchdowns and 96 points.

## Mets Start Fast in Winter Meetings

MEXICO CITY (UPI)—The New York Mets finished dead last but they started first in Monday's major league meetings by readying an announcement that officially will complete two deals and possibly launch a third with the Chicago White Sox.

The Mets will add catcher J.C. Martin as part of the deal which sent Ken Boyer to the White Sox last season and give up $100,000 and pitcher Bill Denehy to the Washington Senators.

Denehy and the Cash are part of the transaction which permitted Gil Hodges to leave the Washington managerial job with one year to go on his contract.

**Try For Pitcher**

The White Sox, already deep in pitching are known to be coveting Met pitcher Jack Fisher, andmay be willing to give up an outfielder.

Fisher, a righthanded workhouse, pitched 220 innings compiling a9.18 record and a 4.70 earned run average in1967.

In Martin the Mets are acquiring a light-hitter (.234 batting average, four homers and 22 runs batted in last season) but a good handler of pitchers, especially Hoyt Wilhelm's knuckleball.

# The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS

TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

## Taxes Up, Consumption Down

As everyone knows, big brother is stepping up the drive to discourage cigarette smoking. To accomplish this, various strategems are being employed under the general heading of an "educational campaign."

Possibly through happenstance, a more effective method is being employed by various State governments to make smokers kick the habit. A lot of States have raised cigarette taxes to such a point that people swear off paying them, and in foregoing taxes they automatically give up smoking. And love it.

At least that's the way we read a report made by the Federation of Tax Administrators, an organization of State tax collectors. Analyzing last year's cigarette statistics on a state-by-state basis, the FTA reported that, while cigarette tax revenues had jumped by more than 10 percent, the actual consumption of cigarettes on a per capita basis had declined by a little more than 2 percent.

In other words, States that raised taxes on cigarettes got more money, but only because they added to their take on each pack. And resentful smokers reacted by cutting down on their puffing. There was an overall increase of 2.5 per cent in cigarette sales, but this came from an increase in the number of people smoking, not from any rise in per captia consumption.

This is a matter that we think should be referred to Professor Parkinson, to be elucidated in one of those formulas for which the Professor is famous. As starters he might consider these premises:

"Taxes increase in direct proportion to government extravagance and voter apathy, and decline to the extent that resistance in encountered.

"Taxes levied on a product displace in equal or greater volume the value of the goods being offered."

"Taxation without suckers is futility."

If Professor Parkinson is too busy to refine the foregoing into one of his laws of bureaucracy, perhaps we can make do with that ancient dictum of Professor Aesop: "Don't kill the goose that lays the golden eggs."

Or: The power to tax is the power to destroy."

Back in 1904, Justice Oliver Wendell Holmes, in the case of Campania de Tabacos v. Collector, opined that "Taxes are what we pay for civilized society."

Maybe the new Parkinson law should read: "Taxes advance faster than civilization."

## Public Should Have an Answer

Magazines and big-city newspapers across the country recently gave headline space to a study prepared by the Chicago and Washington based American Security Council. The findings of this study are that Soviet warmaking capacities in the atomic age are passing those of the United States, which are focused only on nuclear deterrent. Indeed, 1967 is the year of decision, the study states.

Some very big names have subscribed to this report, Dr. Edward Teller, General Curtis LeMay, Professor Stefan Possony, Admiral Chester C. Ward, General Albert C. Wedemeyer, and General Bernard A. Schriever.

The second sentence of the report notes that it is based "on unclassified sources only." Yet 17 distinguished Americans, including the 6 named above, have endorsed the study. Clearly these men believe that our country is in the gravest jeopardy. And it is no understatement to insist that if the findings are indeed true, then, the members of the joint Chiefs of Staff have been remiss, delinquent, negligent and culpable.

Let us examine for one short paragraph what we are asked to believe. Each of the Joint Chiefs of Staff is a professional military man; each is known intimately to many members of Congress from both parties, in both houses of Congress. Any one of the Joint Chiefs could pick up the phone and have dinner tonight, privately, with any one of a dozen or more members of the Congress and cause a furore on the floor of Congress and in the nation's press tomorrow morning — if he believed or feared that the situation facing our country is as desperate as the American Security Council suggests. Are we to believe that the Joint Chiefs of Staff, or their known friends in the Congress, are living blissfully with a situation as fearful as that deduced by the American Security Council?

If so, then the time is at hand for the most broad-based treason trials in the history of this country. If McNamara's Madness has placed the United States in the jeopardy suggested by this report, without protest or alert from our military leaders in uniform, then the Congess of the United States should proceed with televised hearings and condemnations before week's end.

If, on the other hand, the American Security Council is fund-raising by fear-mongering, it should be exposed and branded just as quickly.

In either event, the allegations are so shocking that the public is entitled to a clear and resonant answer from Congress — and now. A bipartisan answer.

## Costly Squabbling

When is Congress going to accept its responsibility to protect the American stockholder, backbone of the free enterprise system, from the actions of governmental agencies whose rulings and activities often cause the loss of millions of dollars to investors without any apparent show of concern by the agencies involved? Surely a way must be found for these agencies to carry out their work without seriously damaging one segment of the public while it is supposed to be helping another.

The Federal Communications Commission has just ruled that American Telephone and Telegraph Corporation must never allow its profits to rise above 7½ per cent. As a direct result of this move to regulate further an already closely regulated industry, the over three-million telephone company stockholders lost over $2 billion as the stock value declined. If the profit rate can be forcibly set at 7½ per cent, why can't it be made lower next year or the year after? And, since the investigation is continuing, what other surprises does the Commission have up its sleeve? What will be the ultimate losses to the investing public which places its trust in the American economic system in putting its savings and earnings into the free and open market?

And what is one to think of the current spectacle of the Justice Department taking the FCC to court over the Commission's favorable decision in the ABC merger case? In this situation the losses to the American stockholders also ran into the millions as these two independent agencies squared off to fight each other in the courts, apparently oblivious to the far-reaching impact of their public squabbling. It is truly a sad state of affairs when one government agency attempts to persecute and force its will on another, and a situation in which Congress must interest itself.

PINE TREE FEATURES

by Robert LeFevre

### A Grim Fairy Tale

By ROBERT LEFEVRE

This is supposed to be an age of hard-headed realism. Theoretically, we put aside belief in myths, dragons, and elves quite a few years ago. Belief persists, however, in a series of fantasies that are utterly beyond credibility. An example of this clinging to superstition is found in a recent editorial appearing in a leading weekly magazine.

The title of the item was: "Taxpayers Are Striking, Too." And the author went to work to show that better than 25 per cent of all bond issues that were offered to voters for their approval in 1966 were turned down. The rate of voter rejection for bond issues has apparently doubled in the last six years.

Whoever wrote the item was correct in pointing out that one of the big reasons for taxpayer rejection relates to the operation of our government school system. Property taxes support the schools. Indeed, the cost of schools is by far and away the largest segment of all costs met by means of property taxes. And the property taxes are about as high as they can be pushed.

The editorial stated: "Unfortunately our schools are being funded through a system that puts much of the burden on property taxes. There is not necessarily a relationship between property values and school requirements, and in large cities, where the educational challenges are the greatest, property values are in some cases beginning to decline."

I have to agree with that observation. Property owners are being assessed for the costs of the schools, but there is no discernable relationship between the owning of property and the operation of government schools.

After having set the record straight here, the writer of the article departs the world of realism and goes into the mystical areas of Merlin and the Wizard of Oz. For it seems that the recommended cure is to increase state and federal aid to schools. Does that sound reasonable to you? If it does, then you, too, have been bitten by a belief in the fabulous.

Did the writer of this article suppose that state and federal governments "have" money? Apparently so. And where did that money come from? Well, it came from people. And those paying the largest sums into the state and federal coffers are the same people who have been paying the largest sums in property taxes.

And this is the kind of fairy story that is still being accepted all over this broad land. You see people arguing constantly about what the government ought to do next. We need better schools and higher pay for teachers. Well, why not let the state and federal governments pay for it? And we should have more school buildings and better books. And better and bigger highways. And more shots to the moon. And support the idle poor as well as the idle rich. And all of these things can come from government. This is the mythology.

Actually, nothing at all comes from the state or federal governments. All the money to pay for all the good things you and others dream about providing, comes from people who earn the money by working and doing business in the market place. Next time you begin to think about some new benefit that "ought to be provided," ask yourself if you think the benefit is so important that you'd be willing to steal in order to pay for it. If you really think that theft is justified in a given case, then perhaps you ought to go out and hold up a few people at the point of a gun to get the money. That's really what you do when you ask the government to pay. The government hasn't any money of its own. It has to do the stealing, if you won't.

So where do these people get the idea that by taking money from the state and federal governments, you are relieving some of the tax-payers? Of course, there is a marginal shift. A man who doesn't own property isn't paying property taxes directly. But he certainly is using property, and he's paying for that use. And the rent he pays includes the taxes that are collected, so in the end it's all the same.

You don't solve any problem by shifting the burden, especially when no real shift occurs anyway. Anybody still believe in witches and fairies and wizards?

If at First You Don't Succeed—

WASHINGTON:

## 1968 Prices, Pay to Cost Nation More

By RAY CROMLEY

1963: No Leash on Pay, Prices

NEA Washington Correspondent

WASHINGTON (NEA) — A number of knowledgeable government officials with whom this reporter has been in contact, see little chance of preventing creeping inflation from continuing in 1968.

These men make studies for government planning purposes. They now think it won't be possible for President Johnson's hold-the-line men to prevent industrial wages from rising by at least 5 per cent in 1968.

This increase is well above the 3.2 per cent annual wage rise the President's Council of Economic Advisers a few years ago called the maximum-average-gain allowable if we were not to have inflation.

Union men say rising prices in 1966 forced them to insist on heavy wage boosts in 1967. Rising 1967 prices in turn will lead to heavier wage demands in 1968.

Largely as a result of the predicted 1968 wage gains and the realized gains in 1967, the government experts expect living costs to rise significantly across the board next year.

(Because of narrowing profit margins, the President has been equally unsuccessful of late in getting major industries to hold the price line.)

Over-all, prices are expected to gain 3 to 4 per cent in 1968.

Between 1959 and 1964, prices increased an average 1.2 per cent a year. In 1965, the gain was 1.7 per cent; in 1966, 2.9 per cent. September 1967 prices were 2.6 per cent above September 1966.

Today, average mortgage interest rates are pushing up toward 7 per cent.

Service costs are moving up firmly and are expected to lead the 1968 price rise. Medical care and household services will also be in the forefront of the gains.

Clothing will cost more, both because of rising labor costs and widening retail margins.

Furniture, tires, new and used cars, appliances, radios and television sets are believed certain to increase further in price.

Retail food prices, which moved up about 1 per cent this year, are expected to rise 2 to 3 percent in 1968.

Food eaten out — in restaurants, hotels cafeterias and elsewhere — is expected to cost 5 per cent more. That's on top a five per cent gain in 1967.

These rising prices, in turn, presumably will cause unions to ask for higher wage increases in late 1968 and in 1969 to enable workers to hold their own. That would dictate another round of price increases — and then another increase in wages.

Businessmen this reporter has talked to believe the only way out of the spiral is another strong round of automation.

## The Doctor Says:

By DR. WAYNE BRANDSTADT

### Artificial Sweeteners Have No Food Value

Q—I love honey. Does it contain any vitamins? Has it any food value? Will it cause diabetes?

A—Although honey contains a small amount of vitamins B and C, I would not rely on it to supply your vitamin needs. It is an excellent source of sugar and can be recommended as a part of your diet provided it is balanced in other respects. As for diabetes, it is, caused not so much by what you eat as the quantity. In other words, overeating with its resultant overweight is a cause of diabetes in many persons who are over 40.

Q—I am a young married woman with no children. I use an artificial sweetener to keep my weight down. Does it cause any harmful effects? I have heard that it causes sterility. Is this true?

A—Artificial sweeteners have no food value. Used in moderate amounts they are harmless. A recent study indicates that calcium cyclamate in large amounts may cause you to be allergic to sunlight while you are taking it. If sweeteners caused sterility, many women could throw away their contraceptive pills.

Q—I have been taking Thorazine for several years. Is it harmful to take it for so long?

A — Too large a dose taken over a prolonged period may cause dark pigmented areas to appear on the hands and face. It may also cause insomnia, restlessness, mental confusion, convulsions, nasal congestion, blurred vision and water-logging of the tissues. Your doctor should be notified promptly if these or any other unusual symptoms occur.

Q—If the doctor prescribed one Thorazine tablet every four hours to keep a patient quiet and the nurse gave eight or 10 of these tablets a day what could happen?

A—It is always dangerous to take more of a drug than your doctor prescribes. For possible results see previous answer.

Q—My doctor gave me Meprospan, then he changed to Etrafon tablets. What are these pills for? Would they make me constipated?

A—Meprospan is a sustained-action meprobamate, a widely used tranquilizer. Etrafon is also a tranquilizer. Neither drug should cause constipation.

## The Almanac

Today is Monday, Nov. 27, the 331st day of 1967 with 34 to follow.

The moon is between its last quarter and new phase.

The morning stars are Venus and Jupiter.

The evening stars are Mars and Saturn.

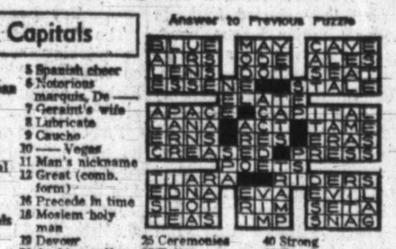

On this day in history:

author Rudyard Kipling said: "The silliest woman can manage a clever man; but it needs a very clever woman to manage a fool."

In 1960, the U.S. Navy launched the "Ethan Allen," its then most powerful atomic submarine.

## Question Box

QUESTION: If what happens in school is considered part training and part education, might schools which CAN educate profitably spend more or all of their time doing so? To ensure that we are talking about the same thing, I suggest we clarify the concepts "training" and "education."

All the accumulated knowledge of the world, imparted to a person by his elders (or youngers) is useful. Training gives the "official" view. It urges the person to FORM habits of body and of mind — habits that mankind has found useful and workable tools to use in making a living. One GIVES training by being authoritative and RECEIVES it by being obedient. Education is the art of AVOIDING thought habits, including that which one is told as fact. Since education occurs inside a person's mind, it can't be taught, only demonstrated. One is shown by example the virtues of evaluating for oneself what one observes or what one is told. Education fosters creativity and individuality. Training fosters security and wealth. The question is, "Would it be feasible for private schools to concentrate on educating and let the public schools train? James D. Thackrey, Santa Ana.

ANSWER: Mr. Thackrey exhibits a rare understanding of what education is. As he has pointed out, education is a personal process of learning which can be achieved only by the individual.

A serious student of schools recently said that the function of schools is to present facts to the students and to train them to use their minds to evaluate those facts and to make their own decisions. Then the students are able to educate themselves.

With this understanding, it must be admitted that no school can truly educate anyone. If they do present facts and train the students to use their minds to evaluate the facts, and educate themselves, they can perform a valuable service.

Granted that many non-tax-supported schools cannot accomplish this desirable end, there is a greater opportunity than in the government schools. The matter of presenting "facts" is subject to the judgment of those conducting the schools. If the politicians are in charge, the facts will be colored with the thinking of the politicians. Since they are agents of the state, the presentation will be slanted toward reliance to the state. Other than teaching students to read, write, count and spell, plus possibly some other mechanical skills, there is little chance for the pupils to learn under government school operation. Judging from complaints from many sources, the government schools are not accomplishing this rudimentary task satisfactorily. The growth in recent years of voluntary schools at a faster rate than tax-supported schools has been largely because of dissatisfaction with the state schools, despite the growing amounts of tax money poured into them.

The News believes the users (pupils and parents) should have a choice of schooling, just as he has a choice of bread, beans and coffee at the market, and just as he has a choice of automobiles. He also has a choice of doing without, and is not required to finance what others choose. But with schools, he is given a limited choice among the comparatively few voluntary schools, while being compelled to finance the schools run by the politicians.

Only if there is a greater variety of schools offered to the people on a voluntary basis do we believe it is possible for the students to become truly educated. Since the tax load for state schools limits this variety, we believe even the training should be voluntary. We can see no long-term benefits from state coercion as exemplified by government schools.

## Wit and Whimsy

The increasing divorce rate is rapidly making America the land of the free, all right, but the marriage rate is increasing, too, showing that America is still the home of the brave.

Leslie Howard insists that it once happened in a London theater where he was getting experience in repertory. The company put on different shows every night and sometimes two different shows a day. This was most confusing to the cast.

One afternoon Howard forgot his lines and rushed backstage to the company director.

Howard — Quick, what's my line?

Director —Quick, what's the play?

The drugstore pennyscale is the only thing that will give you more for your money than it did 10 years ago.

A lecture is something that can make you feel numb at one end and dumb at the other.

The master, to impress on his pupils the need of thinking before speaking, told them to count to fifty before saying anything important, and one hundred if it was very important.

Next day he was speaking, standing with his back to the fire, when he noticed several lips moving rapidly.

Suddenly the whole class shouted:

The Whole Class — Ninety-eight, ninety-nine, a hundred. Your coat's on fire, sir!

Many a man has failed to pull the wool over his wife's eyes because he used the wrong yarn.

As two flies were enjoying a promenade on the ceiling, one said,

One Fly — Aren't those human things silly?

Other Fly — How do you mean?

First Fly — Well, they spend a lot of money building a beautiful ceiling like this, then they go and walk on the floor.

Girls when they went out to swim,

Once dressed like Mother Hubbard,

Now they have a bolder whim:

They dress more like her cupboard.

## HOW TO ADDRESS OUR LAWMAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)

Rep. Bob Price, 1323 Longworth Bldg., Washington 25, D.C.
Sen. Ralph Yarborough, Senate Bldg. Washington 25, D.C.
Sen. John Tower, Senate Office Bldg., Washington 25, D.C.

(STATE)

Rep. Malouf Abraham, Canadian, Texas
Sen. Grady Hazelwood, Canyon Hwy., Amarillo, Texas

## H. L. Hunt Writes

### COMMUNISTS IN THE OPEN

Freedomists must look at facts and act on the basis of what they see. The time to save freedom is too short for them to spend precious hours or days telling one another how bad things really are.

One fact that must be recognized is that the Communist Party in the United States has made gains during the last two years. The party has been enabled to come out in the open by the November 1965 decision of the U. S. Supreme Court decision invalidating much of the Subversive Activities Control Act of 1950, which was passed by Congress to force the party and its members to register and disclose the party's financial affairs.

The court decision knocked out the principal safeguard erected by Congress against the overt operation of communists in the United States.

The Communist Party USA now has about 13,000 members, a gain of about 2,000 over its total two years ago. One leader says 3,000 young people have been recruited during that period, mostly from the "New Left." The party has opened offices in Chicago, Cleveland, Detroit, Los Angeles and San Francisco. In these cities people are invited to visit party offices, and the party is openly distributing membership application blanks. Plans have been announced for the Communist newspaper, The Worker, to resume daily publication next spring after it has functioned as a semi-weekly for several years. These gains in official membership can be considered only a barometer as the sympathizers and the workers and stooges in "fronts" accomplish more for the party than the party members can accomplish.

TWO FLEE

LUENEBURG, Germany (UPI)—West German officials today said two East Germans, a 23-year-old carpenter and a 26-year-old mason, used ambber dingy early Sunday to flee across the Elbe River to the West.

SECOND TRAGEDY

MANILA (UPI)—Two weeks ago two of Alfredo de Lacruz' children were killed when his home firecracker factory blew up. The Philippine News Service today said a blast in the same house Saturday killed Mrs. De Lacruz, 33 and two more children and injured Alfredo, 32.

SUCCESS STORY

BUDAPEST (UPI)—The Budapest newspaper Nepszabsag Sunday said more than 100 Hungarian youths tried to flee to the West this year and it blamed the action on broadcasts of the privately sponsored U.S. Radio Free Europe station in Munich, Germany.

AMMO STOLEN

MUNICH, Germany (UPI)—A U.S. Army spokesman said Saturday nearly 14,000 rounds of ammunition and an incendiary grenade had been stolen from an American firing range near Munich. The spokesman said 13,260 rounds of 7.26 mm and 600 rounds of .45 caliber ammunition were taken Thursday from a bunker on the Forst Firing Range.

END VISIT

MOSCOW UPI)—A team of 23 British businessmen ended a three-day visit to the Soviet Union Saturday with a promise to search for new avenues of Anglo-Soviet cooperation. A protocol signed during the visit said "economic, scientific and technical relations are developing successfully between the Soveit Union an dBritain."

FANS DAMAGE TRAIN

LONDON UPI)—A trainload of overly-enthusiastic soccer fans wrecked the inside of a London-bound train early Saturday, causing $2,400 worth of damage. The 300 fans, en route to a Manchester-Chelsea game, smashed seats, windows and lightbulbs, and ripped out toilet bowls and doors. The train was stopped by police five times during the 184-mile trip.

BANKER TAKES LIFE

TOKYO (UPI)—A Japanese banker took his own life Saturday, in despair over the devaluation of the British pound. Joshiro Murata, 33, head of the foreign exchange department of the Mitsui Trust Bank, told his wife his work was ruined "because of the pound devaluation." Murata stepped in front of a speeding train in Yokohama, halfway around the world from the origin of his despair.

## Legal Publication

PUBLIC NOTICE
OF THE REQUIREMENT FOR RECORDATION AND LIMITATION OF CERTAIN CLAIMS OF WATER RIGHTS:

Notice is here given as required by Section 4 of the Water Rights Adjudication Act of 1967 (Article 7542a, Vernon's Civil Statutes) that all claims of riparian water rights, all claims under Article 7500a, Revised Civil Statutes of Texas, 1925, to impound, divert or use public waters for other than domestic and livestock purposes for which no permit has been issued, all claims of water rights under the Irrigation Acts of 1889 and 1895 which were not filed with the State Board of Water Engineers in accordance with the Irrigation Act of 1913, as amended, and all other claims of water rights other than claims under permits and certified filings, must be recorded with the Texas Water Rights Commission. Section 4 does not apply to use of water for domestic and livestock purposes as the same is defined by Commission Rules.

On or before September 1, 1969, every person claiming any water right to which Section 4 applies shall file with the Commission a sworn statement setting forth the nature of the claim of water right. Claims to which the Section applies shall be recognized only if valid under existing law and only to the extent of actual application of water to beneficial use without waste during any calendar year from 1963 to 1967, inclusive. However, in any case where any claimant of a riparian right has prior to August 28, 1967, commenced or completed the construction of works designed to apply a greater quantity of water to beneficial use, such right shall be recognized to the extent of the maximum amount of water actually applied to beneficial use without waste during any calendar year from 1963 to 1970, inclusive; provided an additional sworn statement is filed on or before July 1, 1971. Failure to file the sworn statement or statements is substantial compliance with Section 4 shall extinguish and bar any claim of water right to which the Section applies.

Instructions and forms for recording claims may be obtained without cost from the Texas Water Rights Commission, P. O. Box 12386, Capitol Station, Austin, Texas 78711.

# Pampa Retired Farmer Collects Relics

COLLECTION AND COLLECTOR — R. J. Sailor, a retired farmer who lives west of Pampa, shows off some of the Indian relics he has collected for over 30 years. The 76-year-old Sailer said he started collecting during the Dust Bowl because he "didn't have anything else to do."

By JEFF HOLLADAY
Daily News Staff Writer

For over 30 years now, 76-year-old retired farmer R. J. Sailor has been collecting Indian relics until today he has one of the best in the Southwest and one of the better in the nation.

He's modest about his collection and refuses to rank it, but aTexas university is interested in acquiring the collection and visitors from almost all the states, mostly collectors like himself, have signed the guest register.

A Pampa resident since 1906, Sailor started collecting the relics back in the days of the depression.

"I had nothing to do and needed the exercise" were his reasons for taking up the hobby.

"When the dust blows off the ground, it's a good time to hunt arrow heads and other Indian relics," Sailor said. "And I had some awfully good hunting during those Dust Bowl years when I first started."

Today, at his home two miles west of Pampa on the Borger highway, a small structure resembling a workshop bears testimony to his many hours spent looking for relics. Inside there are arrowheads, knives, gigs, awls, pipes, and other instruments and tools. He has about 90 frames of arrowheads now, each frame containing 100-200 arrowheads.

Approximately one-quarter of his collection has been picked up within 50 miles of Pampa, but he also has arrowheads from such far away places as Missouri, Oregon, and the site of Custer's last battle at little Big Horn, Wyoming.

His collection of relics also includes some bullets, buttons and money found near the site of old Fort Elliott near Mobeetie.

"Every trip I make, I'm looking," the Missouri born Pampan said.

Sailor said this is good country for looking for Indian relics and urged people to find their own if they were interested in collecting.

"Fake arrowheads are becoming pretty common," Sailor said "and in many cases they look authentic, but I can tell just by feeling if they are the real McCoy or not."

Sailor told with a chuckle the story of a friend of his who tried to "plant" fake arrowhead for him to find. The two were out searching for arrowheads when his friend yelled that he had found one.

"I went over to where he was," Sailor said, "and there was a great big arrowhead about eight inches long. He had a dead-pan expression but I knew right away that no Indian ever made an arrowhead that big."

"What do you think of it R. J.?"

"You're learning," I said, "but next time you make one it orught to be about an eight as big."

Had he ever thought of selling his collection?

"Nope," he said. "They're too hard to find, and besides that they represent over 30 years of work."

---

In 1963, President John F. Kennedy was assassinated in Dallas and a few hours later vice president Lyndon B. Johnson was sworn in as chief executive. Lee Harvey Oswald charged with the shooting, was fatally shot two days later by Jack Ruby.

**CONGRESSMEN TO MEET VIETNAMESE**

WASHINGTON (UPI)—A bipartisan group of 26 Congressmen will meet with their opposite numbers from South Vietnam here in January to dramatize U.S. interest in the "beginnings of constitutional government" in the Asian nation.

Rep. Robert Taft Jr., R-Ohio, who announced plans for the informal meeting Tuesday, said it had State Department approval. U.S. diplomats in Saigon will extend the invitation to the presiding officers of the national assembly.

PAINT SPECIALIST — The men at Ford's Body Shop are specialist at repairing cars, damaged by the elements or by collision. For an estimate and expert care call or visit Ford's Body Shop. They offer 24 hour wrecker service.

## Ford's for Auto Paint Job

From all indications, the Pampa area is going to have a hard winter. This brings up the chances for some mishap to your car. If your car is involved in an accident, don't give up in despair, take it to Ford's Body Shop, 111 N. Frost.

Ford's Body Shop has all the facilities to put that 'new look' back in your car. They can iron out the small wrinkles or remold a whole side. If your paint is chipped or faded, they can return the smooth finish and beautiful luster it had the day you bought it.

Whenever you have any damage to your automobile, drive to Ford's Body Shop for a free estimate. There you will receive friendly and fine service unmatched in the Panhandle. The customer can always keep in mind that their men are not only trained as expert body men and do a first class job, but they are paint specialists, too.

At Ford's Body Shop the exact formula is used so that a perfect matched paint job is the final result.

Whether it be from a blowing duststorm, a scratch from tree branches or a scrape with your neighbor, remember you can trust Ford's Body Shop 111 N. Frost to please you with every job, large or small.

The many happy customers of Ford's are testimony of A-1 service found at Ford's. Why don't you look at your car right now. Is your grill and front end chipped from theeveryday highway driving you did this summer? Or maybe you were bumped this summer and never took the time to get it fixed.

Be sure to call Ford's for any need you may have in the upkeep of your car. For 24 hour wrecker service call MO 4-4619 during the day and MO 5-2494 for speedy nighttime service.

## Wall Street Chatter

NEW YORK (UPI)—E.F. Hutton Co. says it would be "difficult" to justify large-scale buying at this time in view of the large advances made by many issues since the lows of last Monday. The analyst says that while the rally of last Tuesday and Wednesday was heartening, this does not seem to be a time "to throw caution to the winds."

---

The Alexander Hamilton Institute says the adoption of the income tax surcharge should be forthcoming as well as the cutback in federal spending. Thus, with the "dawn of a new era of fiscal responsibility in prospect," the company says it remains "constructively inclined toward the stock market."
