SURVEY SAYS SMALL IN RUN-OFF

Earthquake Toll Of Deaths Nears Three Thousand

HURRICANE ADDS TO BEWILDERMENT OF AREA; STORMS, HEAT AND SNOW CRIPPLE OTHER PARTS OF ITALIAN NATION

(By Associated Press) ROME, July 25.—A hurricane in the north of the kingdom added today to the bewilderment caused by Wednesday's disastrous earthquakes in the south. Storms, floods, heat and snow crippled other parts of the country.

A report obtained at noon showed that deaths from the earthquake amounted to 2,575 in the province of Avellino alone, with the injured placed at 1,315. That brings the number of dead to nearly 3,000, as the previous report for Avellino was only 1,807 and the total for all points was 2,005, including 22 killed yesterday by a hurricane at Treviso.

There was a change overnight in the official figures. The government statement given out at noon placed the listed dead at 1,883. Home Supports Relief Rome, nevertheless, on the basis of newspaper and other reports from the devastated area, continued its support of relief efforts accepting the increasingly evident losses of far more than 2,000 lives.

The number of injured was reported officially as nearing 3,000. Reports of the dead continued to trickle in from places unchecked heretofore, more and more bodies being pulled from the ruins of buildings which collapsed as the earth trembled.

More Victims Likely There were indications that more victims would be found in the wake of the Treviso storm. Heavy damage was wrought over 25 miles, with many buildings wrecked at Barco De Stegana, Nervosa, Selva and Volpago. Officials have organized relief measures similar to those untangling the confusion in the devastated southland.

Not was the Treviso hurricane the only other culprits of nature to tear the nerves of a dazed kingdom. A violent windstorm yesterday visited Naples, damaged by the earth shocks, and terraced the nearby mountains. "Great waves" pounded over the sea wall and film of buildings were torn down.

Neapolitans were worried, in addition, by their proximity to Mt. Vesuvius, fearing the earth shocks might lead to eruptions. Heat and Discomfort Over most of the stricken regions an intense heat was added to the discomfort, but in the far north another variety of weather was noted. Unrelenting snow fell on the peaks of the Dolomite mountains in the Alpine region, while a severe storm swept the vicinity of

Club People Off Saturday LUBBOCK COUNTY WILL HAVE 30 ATTENDING SHORT COURSE

Approximately thirty Lubbock county home demonstration club members, farmers, 4-H club boys and girls will leave Lubbock tomorrow morning at 8 o'clock by automobile to attend a short course at the State Fair grounds at Amarillo.

HER IDEA RATHER DISASTROUS HAMMOND, Ind., July 25 (AP)—The swains of pretty Charlotte Reidenstopp, 18 years old and red headed, turned out to be a riot yesterday.

Three Bank Robbers Are Hanged Today KANSAS CITY, July 25 (AP)—Three bank robbers who sprayed bullets into a Republican national convention crowd in downtown district here two years ago, were hanged today for the murder of Traffic Policeman James H. "Happy" Smith, victim of their fire.

TO BE CHAIRMAN Senator Fess, below, of Ohio is the choice of the Republican high command to succeed Claudius H. Huston who announced yesterday that he would resign August 7. Senator Fess has been actively engaged in Republican activities for the past several years.

Senator Fess, below, of Ohio is the choice of the Republican high command to succeed Claudius H. Huston who announced yesterday that he would resign August 7.

HUSTON TO RESIGN POST REPUBLICAN TANGLE IS APPARENTLY OVER; HOOVER APPROVES

WASHINGTON, July 25.—The stormy services of Claudius Huston as chairman of the Republican national committee is at an end. Mr. Huston brought a sudden close to the controversy over his leadership late last night when he told President Hoover that he would call the executive committee of the national committee together on August 7 and submit his resignation. The president approved.

PAVING ORDERED ON "LEAVE-OUTS" A motion ordering all leave-outs to be paved in the City of Lubbock, was passed at a special meeting this morning and hearing of property owners in that area was ordered for August 8.

NOTED AMERICAN EXPLORER REPORTS AMAZING DISCOVERY OF FOSSIL DEPOSITS; SEEKING MAN OLDER THAN PEIPING

(By Associated Press) PEIPING, China, July 25.—On the shores of a dried up inland sea near the outer Mongolian border, Roy Chapman Andrews, noted American explorer, has discovered what he believes one of the most amazing fossil deposits ever revealed to human eyes.

Barbecue Planned For City Employees Seeking to bring city employees into closer contact with officials and also to furnish an evening of entertainment, a big barbecue will be given all city employees and their families by the Lubbock city commission within the next month, officials stated today.

Invalid Is Burned; Her Mother Laughs LONG BEACH, Cal., July 25 (AP)—Miss Bertie M. Davidson, 40, an invalid school teacher, burned to death in her home yesterday. Her mother, Mrs. Jennie Davidson, 72, answered inquiries as to the cause of the fire with laughter. Authorities said she will be examined by a sanity board.

FOOD HUNT ENDS IN TRAGEDY ROCHESTER, N. Y., July 25 (AP)—Foodhunters in the city of Rochester, N. Y., to supplement the slender food supply of the almost penniless family of a disabled and unemployed World War veteran, today caused the death of two girls.

County Expected To Poll Record Vote

WESTER SAYS TWO-THIRDS ARE TO VOTE

CAMPAIGN TO CLOSE WITH RALLY HERE THIS EVENING

Approximately 5,500 voters are expected to participate in Saturday's primary election, J. K. Wester, chairman of the county Democratic Executive committee, said today in estimating that "two-thirds of the nearly 8,000 voters of Lubbock county will participate in the primary."

A J. Clark, tax collector, reported 7,268 poll tax receipts were issued up to January 31 and 93 exemptions issued, a total of 7,361 possible voters. More than 200 absentee ballots have been filed.

"We are operating under the old law that permits voters over the age of 60 to vote without an exemption," the collector continued. "That means that any man or woman over that age, who takes the oath to support the candidates chosen, may vote whether he has an exemption or not. Next January we will have the permanent exemption law in effect and we are issuing no permanent exemptions."

Republicans of the county will hold their first primary election also. They will vote only on state candidates as the party does not have any county ticket in the field. It is estimated there will be approximately 100 voters in the Republican primary. Voting places for the party will be at the following locations: Drug store, 52 at 15th; precinct 2.

RALLY TONIGHT Tonight at 8:30 in the district court room, third floor of the court house, more than a score of candidates for county offices in Saturday's primary, will make their last public appearance. E. L. Pitta will be chairman of the assembly. All of the candidates are to appear and most of them will speak for a few minutes on their candidacy. Every voter who can is urged by Chairman Pitta to attend.

Highway Tourist camp, Avenue H, and precinct 4, city hall. Also Republicans in precincts at Idalou, Slaton and Shallowater will vote. Chairman Wester predicted between 5,000 and 6,000 people will vote in the Democratic primary. He added, "we have hot weather now and the farmers are not doing much work so I expect there will be the largest primary vote we have ever had in the county."

Candidates of the county in the primary are: Durswood H. Bradley, re-election as district attorney; Flora Atchison, re-election, and Charles B. McAlle, district clerk; Burton S. Burks, Charles E. Dyer, re-election, and Ed D. Allen, for county clerk; A. J. Clark, re-election as tax collector; A. B. Ellis, re-election as tax assessor; A. L. Harris for county surveyor; L. C. Boyd, N. A. Payne, re-election, Charles McCrumm and Claude A. Burrus, commissioner, precinct 1; J. T. Pinkston, re-election, commissioner, precinct 2; E. N. Harrison, W. F. Pruitt, and W. L. Brashear, re-election, commissioner, precinct 3; T. C. Calley, G. F. Griston, re-election, re-election; Lee Brown and C. U. James, commissioner, precinct 4; G. R. Scott, H. K. Porter and Walter W. Nelson, justice of the peace, place 1, precinct 1; W. E. Johnson and W. E. Clark, place 2, precinct 1; C. T. Jackson, public weigher, precinct 1; V. E. Ralshback, public weigher, precinct 3; J. L. Me-

BIG SPRING MAN SUICIDES

MRS. SLATER LEADS WITH GARDEN WORK

SLATON WOMAN MAKES UNUSUAL RECORD IN TRUCK WORK

A family of nine was clothed and fed for three months, \$63.53 were added to the family treasury while 178 containers, valued at \$44.50, have been canned from the products of one Lubbock county garden. This exceptional record was made by Mrs. E. A. Slater, home demonstration club member of the Union club.

English peas were planted on March 17. From 95 cents worth of seed the farm woman raised enough for 25 cans, fed her family since May 15, give away 10 pounds to neighbors and sell \$6.50 worth at 10 cents per pound.

Beets were planted March 22. Mrs. Slater has canned 44 quarts, consumed a large amount in the home, sold \$3.85 worth and still has two large rows across her garden.

Five pounds of beans were planted April 17. From these 90 pounds were used for the table, 75 cans were put up and \$9.69 worth have been sold.

Squash netted \$7, black-eyed peas \$17 while other varieties such as rhubarb, carrots and tomatoes have brought in a tidy sum.

Thirty-two gardens have been visited by Miss Louise Baird, county home demonstration agent, during July. Miss Margaret Jones, of Carlisle, has planted the largest variety of vegetables with 38 different kinds.

An interesting report has been received from Mrs. L. A. Armstrong, of Foster, who planted three pecks of potatoes and harvested 12 bushels, which averaged two to three inches in diameter.

NEGROES BARRED IN VOTING RULING GALVESTON, July 25 (AP)—The first court of civil appeals yesterday handed down a decision holding that negroes have no right to participate in the Democratic primaries Saturday. The court denied the application of Julius White, Houston negro, for a writ of mandamus to compel the Harris county Democratic executive committee to permit him to vote.

The court held that the Democratic party, not being a state instrumentality but a "mere body of individuals banded together for the propagation of the political principle, or belief" that they desire to control in the public policies of the government, has the right to prescribe the qualifications of its membership.

near the same locality in 1926. Mr. Andrews, who returned here last night on a brief trip said that so far 25 to 30 tusks and hundreds of ribs found indicated one of the most extraordinary adaptations in the whole animal kingdom. He said the animals must have roamed Mongolia three million years ago.

Another pit filled with the remains of ten to fifteen baby mastodons was discovered. The young animals apparently had come there with their mothers to feed but were unable to ex-

ELECTION BROADCAST DETAILS GIVEN AVALANCHE-JOURNAL PARTY BEGINS AT 7:30 SATURDAY NIGHT; SPECIAL WIRE READY

The Avalanche-Journal's election broadcast will begin at 7:30 o'clock, Saturday night, in front of the offices of publication at 1211-13 Texas avenue. Traffic regulation will be supervised by police officers and City Manager Bryan Miller has promised that the block will be roped off for the benefit of election fans.

In addition to its regular Associated Press service, a special leased telegraph wire, already installed in the Avalanche-Journal offices, will bring results of the state races from every county in Texas, with state totals announced every 15 minutes.

Results of Lubbock and South Plains votes on county races will also be announced throughout the evening, the broadcast closing at one o'clock on Sunday morning.

Because of the great amount of detail to be handled by the staff of the papers, those seeking election results are requested to remain on the outside of the Avalanche-Journal offices. Do not come into the office seeking returns. They will be announced in front of the building as soon as they come in and no results will be given anyone inside the offices.

Both the Avalanche-Journal telephone, trunk lines, numbers 13 and 14, will be held for incoming and outgoing election results with an operator manning each phone in the office. The Southwestern Bell Telephone Company has designated one of its most highly experienced operators, Miss Sybil Tyson, to handle incoming and outgoing calls through the local exchange so that telephone service will be as efficient as is humanly possible to make it.

Mrs. C. Z. Fine, Posey Teacher, Is Entered in Race For School Office

With the 1930 Lubbock county primary but a few hours away, a new political figure loomed into prominence today with announcement by friends of the candidacy of Mrs. C. Z. Fine, of Posey, for the office of county superintendent.

With the long preliminary grind behind local candidates today faced the strenuous "home-stretch" and as they rounded the last turn the rural "dark-horse" nosed into prominence in her division.

Committee Responsible A committee, composed of R. L. Hooten, Bob Crump and J. N. Townsend called upon Mrs. Fine at an early hour this morning and, after two hours of conference, the Posey woman agreed to the proposal of the committee. Although little time is left friends of the new candidate announced today that efforts will be made to notify every voter in the county of Mrs. Fine's decision and solicitation will be made to have her name written on the ballots Saturday.

"I am entering the race at this late period at the solicitation of my friends," Mrs. Fine said today.

Mrs. A. H. Parrack Dies Here Thursday Funeral arrangements for Mrs. Alfred H. Parrack, 30, of 1815 Avenue K, had not been made definitely at noon today though it is probable that services will be held late this afternoon.

Mrs. Parrack died in a local hospital here Thursday night, following an illness of several days. Survivors include her parents, Mr. and Mrs. J. T. Peak, of Lubbock; five brothers, W. L. R. J. E. G. and L. L. Peak, all of Lubbock, and J. C. Peak, who is in the United States navy, and three sisters, Mrs. Nola Smith, of Leonard, and Mrs. Cordie Knot and Miss Pearl Peak, of Lubbock.

Barbecue Planned For City Employees Seeking to bring city employees into closer contact with officials and also to furnish an evening of entertainment, a big barbecue will be given all city employees and their families by the Lubbock city commission within the next month, officials stated today.

No definite plans have as yet been outlined for the event but it probably will be held in the city park in the north part of town. It is understood that no formal program will be scheduled and just an informal get-together is planned.

HOBBS GIRL IS WOUNDED IN MISTAKE

J. D. McALPINE DIES FROM OWN BULLET WOUNDS

(By Associated Press) HOBBS, N. July 25.—J. D. McAlpine, Big Spring, Texas, business man shot and killed himself here last night after he had probably fatally wounded Miss Lorean Clark, telephone operator, whom he mistook for his estranged wife.

McAlpine came to Hobbs yesterday from Big Spring to attempt to induce his wife to return home with him, police learned by questioning Mrs. McAlpine.

She refused to return to Big Spring. Last night he went to the Clark home where Mrs. McAlpine had been staying for two weeks. He went to the room which he believed was occupied by his wife and seeing a figure standing before a dresser, fired.

Miss Clark was shot through the body just below the ribs and her condition today was critical. McAlpine went out of the back door of the Clark home, walked about fifty feet and shot himself through the head. He died in half an hour.

The McAlpines have two children, one five years old, and the other eight. McAlpine owned a laundry at Big Spring.

THREE DIE IN PARK MISHAP TWO MORE NEAR DEATH AND 15 HURT DUE TO CAR CRASH

(By Associated Press) OMAHA, Neb., July 25.—Three persons were dead, two near death and 15 others were suffering less serious injuries today, the result of a roller coaster crash at Krug amusement park last night.

The 4-car coaster train had just left the starting station and was being pulled up the first incline by the cog chain when the front wheels of the lead car left the track.

Toppled 35 Feet The car plunged on striking the guard rail and toppling over to plunge 35 feet to the ground. The other three cars were slowly drawn over the rail and pinned passengers underneath as they struck the ground.

For three-quarters of an hour police battled a surging crowd to reach the injured and get them to ambulances. Police and city officials said they believed an obstruction along the track-way had struck the wheels of the first car and derailed it. It was believed that a timber weather-warped, must have raised and caused the wreck.

The dead are C. H. Stout, 30, Tony Politka, and Ruth Farrell, 14, all of Omaha.

STERLING TO LEAD; MA TO BE IN THIRD

DALLAS NEWS RECEIVES REPORTS FROM 200 COUNTIES TODAY

(Special To The Journal) DALLAS, July 25.—Ross S. Sterling, Houston; Clint C. Small, Wellington, and Mrs. Miriam A. Ferguson, Temple, will be the leading candidates in the Democratic gubernatorial primary tomorrow, a survey of the state, published by the Dallas Morning News, estimated today.

Sterling, Small and Mrs. Ferguson will finish the derby in the order named, the News reported after it received telegraphic reports from 200 of Texas' 253 counties Wednesday night.

Papers Furnish Estimates Data for the survey was furnished the News by the leading newspapers in each of the counties co-operating, the paper reported. The survey further estimates that the Houston oil baron will lead in 54 counties, Senator Small in 50 and Mrs. Ferguson 43. The survey is the most comprehensive attempted during the present campaign.

Small's strength showed a decided upturn in the survey with West Texas, for the first time an important political factor, standing behind the Wellington man by counties in mass. The 1930 census record, show West Texas in a new position of power in Texas, showing strength which is expected to be recognized in the voting on Saturday.

Others Are Behind Sterling, Small and Ferguson were shown by the survey to be the overwhelming favorites in the race.

(Turn to Page 11, Column 1, Please) DEMOS PLAN VOTES DRIVE

MAJORITY IN HOUSE IS OBJECT OF WORK IN NEAR FUTURE

(By Cecil R. Dickson) Associated Press Staff Writer WASHINGTON, July 25 (AP)—Democratic chairmen are laying plans for an intensive congressional campaign to begin late in August by which they hope to obtain enough seats in the house to give them control in the Seventy-second congress.

Formulated at secret conference between party leaders here and in New York, the plans entail the raising of funds for drives in seventy-two districts in border and northern states the Democrats hope to win.

Not To Go On Debt The money to be raised is to be used exclusively for the congressional campaign. None of it is to be applied to the \$500,000 deficit of the Democratic national committee.

Not only do the Democratic leaders expect to recapture the 30 seats lost in the 1928 elections, which are normally Democratic, but they hope to take over nearly all of the fifty

(Turn to Page 11, Column 3, Please)

Parties Honoring Visitors Will Hold Spotlight Of Interest During Week-End

Tea, Bridge Party And Breakfast Are Among In-Honor Functions To Be Held

In-honor functions for visitors in Lubbock will hold the spotlight of interest here during the week-end, several parties of this nature having been given throughout the week.

One of the most attractive of the events will be given for Mrs. Frank Chapel, of New London, Conn., who, with Mr. Chapel, is visiting her father, W. L. Ellwood, in the home of Mr. and Mrs. Len McClellan, 2501 19th street. Mrs. McClellan is entertaining with a tea from 5 until 6 o'clock Saturday afternoon, and about 50 guests are expected to be present.

For Las Chaparrillas
Miss Louise St. Clair, of Mineral Wells, will be a special guest for the bridge party to be given this evening for members of Las Chaparrillas club. Miss St. Clair is expected to arrive today to spend a week at the home of Mrs. Lucille Hartweg, 2004 17th street, and Misses Lucille and Evelyn Hartweg will be joint hostesses for the party at 5 o'clock. About 20 guests are expected to attend.

Called Home
A number of events had been planned for Miss Louise Morrel, of Post, who is the guest of Miss Mary Lee Bardwell, 2205 Broadway. However, Miss Morrel was unexpectedly called home, and expects to leave on Saturday. Miss Bardwell entertained with an attractive bridge party in her honor the first of the week with members of Sons Social club and their escorts as guests.

Informal Party Is Given For Visitor

An all-day sucker weighing two and one-half pounds and a red and white stick of candy of the same weight were the prizes given winners of contests at the party held in the home of Mrs. E. T. Adair Thursday evening. Lois Adair was hostess for the occasion, naming as her honor guest, Lydia Fountain, of Dalhart.

The lawn of the Adair home, 2309 16th street, was prettily lighted for the occasion, and progressive games were directed by Miss Anna Cecil Evans. Punch was served throughout the games.

At 11 o'clock a dainty refreshment plate stressing the favored colors, red and white, was served.

Those Attending
Girls attending were Mary Thomas, Billie Bob Jones, Katherine Klett, Elizabeth Spencer, Marguerite Spencer, Catherine Weaver, Carolyn Whitworth, Sue Mickey, Ellen K. Clapp, Martha Cosby, Julia Blackwell, Ruth Lewis, Charlotte Raliff, Mary Owen Martin, Ann Dohoney and the honoree.

Boys present were Carl Maxey, Fidget Maddox, R. C. Douglas, Jr., Charles Criswell, Harry Blocker, Jr., Baxter Bardwell, Charles Maedgen, Stanley Gunn, Kendrick Green, Marion Denman, Buster Moxley, Charles Truett, Morrison Arnett, W. N. Copeland and Johnny Pierce.

Son Born To Mr. And Mrs. E. M. Smith

Mr. and Mrs. E. M. Smith are the parents of a baby boy born Thursday morning at 10 o'clock at the family residence, 2020 8th street. The mother and baby are doing nicely. Donald Shepard Smith has been chosen as the baby's name.

Mrs. Smith's mother, Mrs. F. G. Shepard, of Lovington, N. M., is visiting here.

A 20-foot smokestack atop the jail at Belleville, Ill., was torn down to permit rescue of a pet monkey that had climbed to the top.

Mrs. Hilma Nelson of St. Louis and Mrs. H. G. Grove of St. Paul, sisters, have been reunited after 30 years' separation.

Chicago has a repertory dramatic company playing in a tent that seats 2,000.

What you practice in making custard is always practiced in

roasting **HILLS BROS COFFEE**

CUSTARD BAKED in small dishes cooks more evenly than when cooked in large pans. Since Hills Bros. roast their coffee a few pounds at a time instead of in bulk, every berry is roasted evenly. This continuous process—Controlled Roasting—produces a flavor no other coffee has.

NEWS BRIEFS

Don Wellman, former Tech student, left this morning for a month's stay in Graham. He accompanied his father who came through here en route to Graham from his home in Amarillo.

of Mr. and Mrs. Len McClellan, 2501 19th street.

Miss Louise Morrel of Post is to return to her home tomorrow after a several days' visit here as the house guest of Miss Mary Lee Bardwell, 2205 Broadway.

Mr. Hal Yoder and infant son, Tommy Joe, left this morning to visit relatives in Snyder and Colorado City.

Word has been received here that Mrs. Tom Cauffield, who has been ill for several months, is much improved. Mrs. Cauffield is making her home in Dallas at present and is a former Lubbock resident, her husband having been connected with the Avalanche-Journal publications. He is at present publicity manager for Jim Young in his gubernatorial campaign.

Miss Helen Ludeman and Mrs. Mike Barrier are visiting in Plainview and Florida today. They have recently returned from a vacation in Colorado. Miss Ludeman, whose home is in Marysville, near Gainesville, is professor of science at the College of Industrial Arts, Denton.

Miss Roxie Nugent, of Dallas, is visiting relatives in Lubbock. Miss Nugent is a former teacher in the Lubbock public schools.

Mrs. J. F. Abel and Miss Margaret Abel, 2020 16th street, are visiting in Corpus Christi and other cities in South Texas for several weeks.

Mrs. Orva Flint and her son of Fort Stockport are the house guests of her aunt, Mrs. D. M. Stalnaker, 1610 18th street.

Miss Mary Lou Jackman of Clovis, N. M., who visited in Lubbock Wednesday has gone to Amarillo to visit relatives.

Miss Pauline Hewett of Aubrey and Miss Dorothy Meier of Plainview are visiting friends here.

Miss Catherine Dohoney of Amarillo is the guest of her uncle and aunt, Mr. and Mrs. E. L. Dohoney, 1504 Avenue X.

The longest horn that can be found on Texas cattle is sought by a Kentuckian to enable him to call hounds back from the chase.

Present Alabama road projects call for expenditure of \$5,640,000.

Orchid And Green Stressed In Party Given To Honor Mrs. J. C. Alexander

Orchid and green were prettily stressed in a party given to honor Mrs. J. C. Alexander, recent bride. Thursday afternoon in the Fred Snyder home, 2701 19th street, Mrs. Winfield Watkins, Jr., and Misses Kate Boyd and Mary and Anne Snyder were hostesses for the occasion.

Mrs. Alexander, previous to her marriage on Friday of last week, was Miss Geraldine Smith, daughter of Mr. and Mrs. E. M. Smith, 2020 8th street.

Profusion of Flowers
The home was lovely in a profusion of summer flowers, emphasizing the orchid and green color scheme.

Artistic parchment tallies bore the name "Mrs. J. C. Alexander" written in gold, and at the close of the games the honoree was presented a shower of linen from the guests.

Madira linen napkins were given for high score in the games to Mrs. Clarence Wiginton and a linen doilie for high cut to Mrs. Albert Fryar.

Those Attending.
Those playing were Mesdames J. C. Alexander, Clarence Wiginton, J. Hooper Stiles, Lovie Thompson, of Oklahoma City; Austin Penny, Lewis Price, Joe Nislar, John Edmiston and Lewis Thomas; Misses Alma Spikes, Mary Lou Bayless, Nancy O'Neill, Grace Jennings, Clarice Scott, Donna Vaughn, Mary Lee Bardwell, Louise Morrel, of Post; Blanche Bacon, Marjorie Leaverton and Frances Conley.

Mesdames R. D. Moxley, Albert Fryar and Lorenz Ellis were "tea" guests.

Missouri's fishing waters include 510 streams with a length of more than 15,000 miles, and 168 lakes totaling 28,500 acres.

The Visalia, Cal., high school agricultural club is using a tractor built by its members from material obtained in junk yards.

Sherman Visitor Is Complimented

Garden flowers were prettily arranged in the entertaining rooms when Mrs. Allan Hill, 1903 16th street, was hostess at bridge to compliment Misses Elizabeth Burke and Nancy Shepard, of Sherman, who are the house guests of Mrs. Allen T. Stewart.

At the close of the games gifts were presented the two honor guests as well as to Mrs. Oliver McElya, of Clovis, N. M., Mrs. J. Ray Dickey, of Slaton, was favored for high score.

Refreshment plates were passed to Mesdames Horace Hawkins, K. L. Riggs, Vernon Brown, J. Ray Dickey, D. K. Bondurant, Rufus Rush, Tom Foster, N. L. Peters, Oliver McElya and R. S. Williams.

Bridge Party Held Here On Thursday

Zinnias and nasturtiums formed pretty decorations for the H. C. Whitworth home, 1809 1-3 17th street, when Carolyn Whitworth entertained with two tables of bridge Thursday morning.

At the close of the games, Billie Bob Jones was awarded a silhouette for high score, and a lovely frozen fruit salad course was served with tea.

Those playing were Mary Geniece Hardberger, Katherine Klett, Nancy Ruth Leaverton, Billie Bob Jones, Elizabeth Anna Price, Charlotte Raliff, Louise Harvey of Abilene, and the hostess.

Florida has 328 species of native trees, Texas 198 and North Carolina 186.

Newlyweds Are To Reside In Lubbock

Lubbock friends have received word of the marriage of Miss Pauline Selman and Leslie Derrick, both of Idalou, the ceremony being read in Clovis at 8:30 o'clock Thursday morning with the Rev. E. M. Borden, minister of the Church of Christ, Clovis, officiating. Miss Betty Holt and J. J. Easter, of Idalou, close friends of the bride and groom, were the only attendants.

For the wedding Mrs. Derrick chose a two-piece orchid suit with eggshell accessories. Immediately following the ceremony the couple left for a short honeymoon trip in the mountains of New Mexico, planning to be at home in Lubbock in August.

The bride is the daughter of Mr. and Mrs. P. G. Selman and the groom is the son of Mr. and Mrs. G. B. Derrick all of Idalou.

Pre-Nuptial Courtesy
As a pre-nuptial courtesy to the bride, Mrs. P. G. Stokes, Slaton, and Mrs. Jimmie Sargent, Idalou, entertained with a three-course breakfast in Slaton.

Mrs. Stokes proposed a toast to the honoree, who was presented a lovely gift followed with the shower from the guests.

The honoree was attractive for the occasion in a frock of tan crepe with eggshell accessories.

Guests were Mesdames P. G. Selman, Van Stokes, Tommie Gill, J. E. McFarren, Haskell Lassiter, Ernest Thornton, and Misses Pauline Selman, Lora Elsie Derrick, Thelma Hall, Betty Holt, and Jimmie Loom, all of Idalou.

Lubbock Folk On Trip To Abilene

Miss Elizabeth Ann Price left this morning with Mr. and Mrs. W. E. Cannon, 2322 18th street, to spend the week-end in Abilene.

Mr. and Mrs. Cannon are making a business trip preparatory to moving to Abilene.

Mrs. Doak Hostess To Honor Daughter

Complimenting her daughter, Mrs. George P. Evans, of Huntsville, Mrs. Mary W. Doak, 2421 Broadway, entertained with two lovely parties, one Thursday morning and the

other Thursday afternoon. Mrs. Evans plans to remain in Lubbock until about August 1.

For the morning party, eight tables were arranged for games of bridge in rooms artistically decorated in pink. Five tables were in progress for the afternoon party.

A regular 2 oz. tin of Schilling MUSTARD Free with your purchase of Schilling Tea (Orange Pekoe or Japan)

Schilling Hungarian Paprika has that beautiful rose like color and delightful flavor. It is featherly in texture, tender sandy, slightly moist—so that it clings to its proper place in garnishing your attractive dishes.

You may use one-third less of Schilling Mustard than of any other.

Clever things to do with

Paprika

For Deviled Raisins, cook large seedless raisins in hot olive oil until plump. Drain on brown paper and sprinkle with salt and Schilling Paprika or Cayenne.

Creamed Chicken gains interest if 1/4 cup chopped ripe olives and a few mushrooms along with 3 or 4 tablespoons Schilling Sherry Wine Seasoning are added to the cream sauce. Garnish with Schilling Paprika.

Baked Fish may be garnished with slices of lemon—half the slice covered with chopped parsley and the other with Schilling Paprika.

Cheese may be folded into left over pastry with a few grains of Schilling Cayenne and several dashes of Schilling Paprika to appear as Crispy Cheese Straws.

Schilling Paprika dresses up the top of Cream Soup. In combination with chopped parsley it is a most colorful garnish.

Mustard

A Stew or Ragout made from left-over bits of a roast may be deviled by the addition of Schilling Mustard.

For Deviled Ham Slices—rub slices of ham with Schilling Dry Mustard—a little Worcester's sauce and Schilling Ground Cloves Dip each slice in slightly beaten egg, then in rolled cracker crumbs and egg again. Bake in butter or drippings until golden brown.

Deviled Meat Fritters. Make a batter of 2 level tablespoons Schilling Mustard, 2 tablespoons flour, 2 eggs, 1 teaspoon salt, a few grains Schilling Cayenne, 1 teaspoon salad oil and 1 teaspoon vinegar. Slice cold meat and let soak in this batter. Fry light brown in hot oil or drippings. Gradually pour remaining batter into 1 cup hot soup stock, stirring constantly to prevent lumps. Bring to boil slowly, adding 1 teaspoon butter. When thickened, pour over meat and serve.

A copy of the 80 page book "Flavor Secrets"

The latest thing in cookery. Thousands of new suggestions in the fine art of flavoring food.

You have never seen anything quite like this book. Nothing of the sort has ever before been published. You will find it an adventure into a new realm of cookery which will delight you and those who gather around your board. It takes the monotony out of cooking. It shows how to dress up the "stand by's." You will keep it handy in the kitchen and refer to it frequently. In it you will find a little tricks at your finger tips—unexpected touches that will give new zest to old favorites and add many new favorites to your kitchen repertoire. It will lead you into all manner of intriguing seasoning paths, the perfumed trail of spices and fragrant essences. This book has been three years in preparation. Its material has been gleaned from all over the world, and carefully tested in the kitchen. Everything in it is practical, and easy. You will find many complete recipes for new and interesting dishes. But the important part of the book is in the thousands of suggestions for adding new piquancy, new delights to your everyday recipes.

SCHILLING NOT TO MAKE TALK

FARM BOARD MEMBER UNABLE TO APPEAR AT PLAINVIEW

Announcement was made Thursday by Alexander Legge, chairman of the Federal Farm Board, that William F. Schilling, dairy and poultry representative of the board, would be unable to fill his appointment to speak in Plainview this afternoon and that he will be represented by his assistant, Mr. Stitz. Necessity of attendance at an unexpected meeting of the board was given by Mr. Legge as reason for Mr. Schilling's inability to fill the appointment.

Was to Remain 2 Days
Mr. Schilling was expected to remain in Plainview for two days, conferring with dairymen and-

rectors of the Hale County Dairy association with reference to operations of the cooperative creamery there.

A large crowd, including several Lubbock people, are expected to hear Mr. Stitz today, Lubbock County Agent D. P. Eaton will be present from this city together with members of the Lubbock county dairy committee.

Peoria Club Has Record Of Some Sort

PEORIA, Ill., July 25. (AP)—A record of some kind belongs to the Peoria Three Eye league club. In a night game with Quincy last night, Peoria crashed three pitchers for 31 hits, and scored in every inning to win by 31 to 9. The only member of the blood-thirsty club who failed to hit safely was pitcher Virgil David, former University of Iowa southpaw.

The big damage was done by Shortstop Bluege, a brother of Washington's Ossie, who had two triples, two doubles and a single.

MRS. SHERROD BURIED TODAY

WIFE OF PROMINENT MERCHANT DIES WEDNESDAY

Funeral rites for Mrs. Paul L. Sherrod, 31, were read in the Broadway Church of Christ by Elder John T. Smith at 3 o'clock this afternoon and burial was to follow in the Memorial Park cemetery. Retail stores of Lubbock were closed in tribute during the time of the services.

Mrs. Sherrod, wife of Paul Sherrod of Sherrod Bros. Hardware company, died early Wednesday night in her home at 2229 13th street, following birth of a son. She had resided here since 1923. The condition of the baby, which

was taken to the Lubbock sanitarium, is much improved today hospital attendants report.

Active pallbearers will be: L. H. Simpson, F. E. Crume, E. A. Shepard, C. M. Howes, J. C. Sanders, A. J. Clark, J. A. Haley, Jr., J. A. Phillips, Joe Baldridge, J. C. Brown, all deacons of Church of Christ, Honorary, R. Martin, Gus Niblack, A. S. Darby, L. O. Burford, Chas. Nordyke and P. F. Brown, elders of the church. Mr. Sherrod is a deacon while his brother, B. Sherrod, is an elder of the church.

Survivors are the husband, four children, Winfred, 10; Paul, 11; eight; Viola Mae, three; the infant son; the mother, Mrs. Nora Davis Dallas; three sisters, Mrs. James M. Wright, and Mrs. A. C. Fortner both of Dallas; Mrs. J. G. Cain Amarillo and a half brother, Fred Anderson, of Leonard.

Beckers of California have formed a pool for packing and marketing the estimated 2,000 tons of honey to be produced in the state this year.

URNS PROFESSIONAL

SAN FRANCISCO, July 25. (AP)—Frankie Tucker, winner of the 1920 National amateur light heavyweight championship, today turned professional and signed a contract to be managed by Johnny Frayte, noted old time lightweight.

Tucker's amateur record includes 25 knockouts in 35 bouts.

Thought For Today

Behold, I am vile; what shall I answer thee? I will lay mine hands upon my mouth.—Job 40:4. Humility, like darkness, reveals the heavenly lights.—Thoreau.

Gangs

Since an ounce of prevention is worth a pound of cure, there are several cities in this land which might study the plight of Chicago, look around their own backyards and put the clamps on their own underworld gangs before it gets too late.

Chicago's gangs, a portent for the law-abiding, are not peculiar to Chicago. Every large city has them in embryo. In every case they will take the path Chicago's gangs took unless they are choked off before they get fully established.

Detroit, St. Louis and Cleveland have all been troubled by gang fights lately. Cleveland's situation is a case in point, worth examining briefly because it illustrates the general rule so perfectly.

The bootleg liquor business in Cleveland, as in every other large city, is controlled by certain lawless gangs. These gangs, since they operate outside of the law, cannot go to court over trade disputes and sales agreements.

Five gangsters have been killed on Cleveland's streets in the last fortnight. The story is the same in each case: rivalries over territory, rights, sales agreements and the like in the bootleg business. In each case the police tell how certain "known criminals" are suspected, and how certain "known speakers" are involved in the warfare.

In each case the high-ups are men of considerable wealth and political influence. Now the point is that this is precisely the way Chicago's trouble all started. Chicago let it go; its citizens didn't feel that it mattered much if the bootleggers did take pot shots at one another.

As a result, Chicago's gangs today are entirely out of control, and the prospect of putting them down is very slim. In Cleveland it isn't too late. Swift and efficient action by the police and prosecutor could put the gangsters where they belong.

And Cleveland is mentioned specifically here only because it is typical of other American cities. In other words, the time to curb the gangs is before they have reached their growth. Chicago has done its hands as a result. Cleveland, along with Detroit, St. Louis, Pittsburgh, Omaha and a dozen other cities—can still do it.

Good Soldier

The marine corps' lost a good soldier and the nation lost a valuable citizen in the recent death of Maj. Gen. Wendell C. Neville.

Entering the marine corps in the early nineties, on graduation from the naval academy, General Neville found enough action in his military career to satisfy anyone. He fought the Spaniards in Cuba, served in the campaign in China against the Boxers, went to the Philippines to help put down the insurrection there, served in troubled Haiti and the Dominican republic, won the Congressional Medal of Honor for bravery in the expedition to Vera Cruz, and took an extremely active part in the fighting in France.

As commander of the famous fifth marine regiment at Belleau Wood and later as commander of the Fourth brigade in the hard fighting at Soissons and in the Meuse-Argonne, General Neville rounded out his career. His death removes from our midst a very fine soldier. During his 30 years of life he served his country as whole-heartedly and selflessly as any man could do.

THE PLAINSMAN

That Girl on Broadway says all people are born helpless but some help less than others.

WELL, folks, this is the last opportunity The Plainsman will have to make any noise before the votes are counted so we've decided to contribute this space today to a last-minute dissertation upon that great Texas institution, politics. To start the thing off, we're going to break right down and tell the customer how we're going to vote on the state races—and why. Here goes, if you're interested:

For Governor—Clint Small, because he's the best man in the race and because he knows and listens to the needs of West Texas.

For U. S. Senator—Morris Sheppard, because he's in there now, is doing a good job, and his opponents are 'small potatoes.'

For Lieutenant Governor—As yet undecided between Senator Edgar Witt of Waco and J. D. Parnell, former state senator from Wichita Falls. The reason for The Plainsman's indecision is the fact that Senator Witt is running for the first time and Mr. Parnell ran two years ago and was defeated.

For Attorney-General—Robert Lee Bobbit, of Palestine, a class by himself in the race and there's no use taking up space to explain why The Plainsman supports him.

For Comptroller—George Sheppard, of Sweetwater, because he has filled the office about six months under Moody's appointment and spent his first months moving to Austin to take the appointment. He's doing a good job of work and deserves election.

For State Treasurer—Charley Lockhart, formerly treasurer of Scurry county and now a resident of Travis county, because the people of Snyder and Scurry county swear by him and his record in office. The home folks always know about a fellow.

For Commissioner of Agriculture—A. H. King, of Throckmorton county, because the Plainsman likes his name and thinks it sounds like the name of a chief justice should sound.

For Land Commissioner—G. E. Johnson, of Hale county, for the same reason as the commissioner in paragraph above, and because he's a neighbor.

For Railroad Commissioner—Pat Neff, because of his contribution to Tech; because any man who has made a good governor should make a good railroad commissioner; and because Bill Watson, of Lamesa, and Joe Bowman of Lubbock, bus line operators say he's the man for the place. They ought to know. They work with Mr. Neff.

For Chief Justice—C. M. Cureton, because The Plainsman likes his name and thinks it sounds like the name of a chief justice should sound.

For Appeals Judge—O. S. Lattimore, Travis county, because he's kin to Dr. J. P. Lattimore, Punky Lattimore and Hal Lattimore, of Lubbock.

For Congress—Marvin Jones, because he's a good Congressman now, always has been a good Congressman and, by that method of figuring, always should be a good Congressman. Anyway, he's going to run a way with the race, as usual, and his records above approach.

There'll probably be a lot of folks who won't agree with The Plainsman on some of his choices, but that'll make us even. The Plainsman doesn't agree with a lot of people on a lot of questions but doesn't get mad at 'em for it. Politics and religion are two subjects it doesn't do any good to fall out over, anyway.

That Man on Avenue Q says this country is 'always going to the dogs'—but it never has. CLINT SMALL, Ma Ferguson, Ross Sterling and Tom Love will likely be the high four in the governor's race over the South Plains, with the chance that Earle Mayfield may supplant Love for fourth honors. We know, of course, that Small will be 'way in the lead and in an effort to put him further ahead in this section The Plainsman wants to shoot one last wad.

As Ye Sow—!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

Government Experts Are Now Trying To Help Farmers By Getting Wheat Acreage Cut, But It's A Difficult Task

By RODNEY DUTCHER, NEA Service Writer. WASHINGTON, July 25.—Like so many revivalists, the big shots of the Department of Agriculture and the Federal Farm Board have gone out into the grain belt to exhort the farmers to plant less wheat. This business of acreage reduction has always been considered something virtually impossible to achieve except by compulsion or through unco-ordinated economic forces, but the farmers are learning that they can't expect any aid from the government until they begin to keep down their production.

The logical but unconfessed eventual aim of the curtailment campaign is to get the production of wheat and similar export surplus crops down to a basis of domestic consumption. Our wheat farmers raise about a billion bushels a year and have to export around 200,000,000 bushels of it. Eliminating that 200,000,000 bushels is a tremendous and perhaps impossible job, but it would give the farmer the benefit of the 42-cent-a-bushel duty on wheat which he doesn't get now and would no longer keep him at the mercy of prices and cross-dockers. Our entire crop is about a third of the world crop.

Legge Leads The Way. The gentlemen who went out to campaign for acreage reduction included Secretary of Agriculture Hyde, Chairman Legge of the Farm Board, Chief Nils Olsen of the Bureau of Agricultural Economics, Director C. W. Warburton of the department's extension service, Statistical Expert O. C. Stone and Reuben Brigham of the department's press service. Members of the Farm Board have been chiming in on the chorus.

Although any real reduction achievement may be nullified by a rush to increase acreage again as soon as prices advance and there is a belief that many farmers will plant more when they think other farmers will plant less, this invasion of the west is likely to be followed by a real curtailment of planting this fall. Not only because the big campaign will have an effect—although it may have come—but because wheat prices have been down as low as 46 cents a bushel. Low wheat prices automatically cut the acreage of the next crop. World conditions, however, will set the price on this crop for which acreage presumably will be curtailed.

Some agricultural experts contend that the official reduction drive should be directed at the high producing areas east of the Mississippi instead of beginning in Kansas, Nebraska and other wheat states where the grain can be raised on a basis more nearly approaching economic soundness. The lower production cost areas will be penalized to the extent that it curtails, they say, while the high cost areas will benefit.

Those authorities who discuss the situation most frankly insist that this country simply can't compete in wheat with the rest of the world, that the effects of the competition are becoming more serious on our farmers and that the first time Russia comes across with a big export surplus heaven only knows what will happen to the wheat market.

The Farm Board's Fix. The unreliability of estimates of the world supply and demand for wheat was demonstrated by the bad guess made by the Farm Board when it tried to peg the price and governor. Their own sentiments and may Heaven have mercy on our soul.

Diet and Health

By Lulu Hunt Peters M.D. Author of "Diet and Health" and "Diet for Children." DRINK LEMON OR TOMATO JUICE IF ORANGES ARE UNOBTAINABLE. By LULU HUNT PETERS, M. D. Answer to Mothers. "God could not be everywhere; therefore He made mothers."

"I AM ANXIOUS to begin tomato juice for my month-old baby if it is impossible to get oranges. In using canned tomato juice, how can I preserve its freshness? Does lemon juice have the same effect, and if so, how is it given?" MRS. S.

Yes, lemon juice, also tomato cabbage and turnip juice are just as good as the orange juice for the anti-scurvy vitamin C. You can keep them fresh just as you do any other food—by placing them into properly cooled ice box, but don't try to keep them too long. Remember that these foods are just as good for the rest of the family as they are for the baby, so have them frequently.

The way to obtain cabbage or turnip juice is to grate the vegetable (collected the juice as it grates) then place it in a clean piece of cloth and squeeze it. Wash hands thoroughly first! Of course, if you have a press of some sort, so much the better.

The lemon juice being so much tartier than orange juice will have to be somewhat diluted, but perhaps a little sugar added. The same amount of any of the juices would be used. Begin about the fourth week with a very small amount—about one-half teaspoonful, diluted one and gradually increase until one to three or four taken two or six tablespoonfuls.

We have a list of modern books on the subject of child feeding and general care. See column lists for obtaining this.

"My girl of 3 years gives me so much trouble. I've tried and tried, but I'm giving up hope of ever making her eat. She gets cod liver oil and I did give her a tonic, but without success. She drinks three glasses of milk daily. She looks quite weak. Please send me your list of books on children feeding and care. In my last letter, I told you I weighed 210 (5 ft. 6 in. tall)." MRS. U.

Maybe your little girl needs the appetite stimulating vitamin B. Mrs. U. First, I must ask whether you took her to a clinic or baby specialist to have her checked up, to see that there is no organic reason for her thinness? If there isn't, try giving her some vitavose, (can be purchased in the drugstores), which is very high in vitamin B, on her cereals. She should rest more, but have her out in the air as much as possible. Let me know if you succeed, please? You need the reducing instructions found itself loaded up with 60,000,000 bushels of wheat which it could only sell now at a tremendous loss and a simultaneous terrific blow to the market. Chairman Legge doggedly insists that the world situation doesn't justify current low prices but he must remind the farmers of the lawyer who told his imprisoned client that "they can't put you in jail for that."

Although the campaign for spring wheat reduction flopped, the last cotton report that cotton planting had dropped from about 16,000,000 to 14,000,000 acres, a really substantial decline. But the fact that a real good cotton crop might offset that acreage reduction indicates just how hard it is to figure what a given agricultural situation will be a few months ahead.

In New York With Swas Gilbert Swap

NEW YORK, July 25.—They'll tell you a lot of stories about the theater folk who, when they get on the peaks forget their humbler beginning and high hat the folks who made them what they are today. There probably are many such, just as there are many loud-voiced nouveau riche.

But there are also just as many who remember. Take, for instance, Anna Case, the famous diva. No operatic performer has made a bigger name for herself.

The charming little town of Neshaun, N. J., is not quite so well known. There was a time when Miss Case needed money to carry on her studies. She was a struggling student with promise and ambition. To accomplish anything she had to study and to study she needed cash.

There was a little church in the little Jersey town—the Reformed Church of Neshaun. They gave Miss Case a job as soloist at \$12 a month once-upon-a-time. It seemed a lot of money then. Well, this little church is like a lot of little churches. It has its ups and downs. Sometimes it needs to have the roof repaired or the belfry fixed or something.

The other day it gave a benefit to raise church funds. Miss Case could have been vacationing in Europe or relaxing on the beach. But she remembered the days when \$12 was a lot of money and donated her services to a benefit concert. They don't all forget.

Nor do they always forget the traps. There's a young talkie actor named Jack Oakie, who has been named in New York. He started in Wall Street, as a matter of fact, as a call boy and messenger, but he had a gift tongue and nimble feet and found his way over to Broadway. He landed a job in a chorus. He was fired, well, that was just as well; but you couldn't have told that to him then. The world seemed to have slipped out from under. Yet, if he hadn't been bounced—oh, he probably would have gone along pretty well anyhow.

Be all this as it may, Oakie is playing about in a Broadway supper club with a bunch of other celebs the other night when in came the man who gave him the book in the old days. That's the moment I guess we all look for sooner or later, a moment when we can be sitting on top of the world and the fellow who fired us in the days when shows up.

Now that he's dead, I'm finally getting around to writing a paragraph about Joseph T. Schenck, of the nationally known team of Van and Schenck Jazz birds they were—you remember the act either in the sound films or in vaudeville—and as strange a success story as ever was written around Broadway. Schenck, a Brooklyn lad, began life as a trolley car conductor. On the same tram was his future partner, Van, plotting the car. When they reached the end of the line the two lads would kill time by breaking into close harmony. Thus they first worked up a song routine.

A British magazine reports that every cell of a woman's prison in England has a mirror in it. The prisoners, you see, are locked up and left to their own reflections.

VOTE for T. C. CALLEY FOR COUNTY COMMISSIONER PRECINCT 4

To those who do not know me I will state that my home is at Shallowater. I have lived there for 13 years. And have taken an active part in the up-building of our Schools, Churches and community as a whole.

I am a farmer and business man, having been manager of Higginbotham, Bartlett Lumber Co. and Farmers Gin Co. for the past Eleven years. I live in the center of the district. Shallowater being headquarters for the Road Machinery, the men who work the roads LIVE at Shallowater.

Having had quite a bit of experience in working men, I feel like a man living among them can get better serve out of them than a man living at Lubbock or some other part of the District. I believe in Economy and honesty in Government the same as in private life. A Public office is a Public Trust with in the gift of the people. If this important office is given to me I will assure the people of my district and Lubbock county as a whole, that I will stand out for the up-building of this county and Lubbock as a whole.

Lubbock Farmer Suffered With Kidney 10 Years

Is Gaining Daily on Argotane And His Daughter Is Very Much Delighted

"After my father, W. H. Foster, got such wonderful relief by taking Argotane, all the neighbors marveled at it, and many of them are now taking it themselves," said Minnie Foster who resides on rural route No. 3, Lubbock, Texas, while in Bowen's Drug Store a few days ago for more Argotane.

"Mr. Foster had a very bad case of stomach and kidney disorder for 10 years," continued Miss Foster. "He could hardly sleep and was simply a nervous wreck from the pain he had to endure. He would often have attacks of acute indigestion and some times it looked as if he would never get over them. He was in a very much run down condition and lost in strength and health. Of course, many a time he felt unable to work, so you can understand just how bad off -nareda derstand just how bad off he was.

"A few weeks ago some of our friends recommended Argotane to him, but at first we had very little faith in it as we had tried so many things in my father's case without results. But it's a positive fact that after he finished his first bottle of Argotane he was feeling like a different person. He kept on with the treatments and said that all those old pains and disorders that formerly bothered him so much are a thing of the past and I know and everyone else in our neighborhood. Argotane must be a wonderful medicine, to restore my father to health again after so many treatments and medicines had failed to give him any relief!

Genuine Argotane may be bought in Lubbock at the Bowen Drug Store.—Adv.

LEADERS TALK WITH GANDHI

PEACE IS SOUGHT IN INTERVIEW WITH INDIAN CHIEF

(By Associated Press)
POONA, India, July 25.—For more than four hours today Mahatma Gandhi, Indian nationalist leader, held a discussion with Sir Tej Bahadur Sapru and M. Jayakar, liberal leaders who sought an interview with him for the purpose of attempting settlement of the civil disobedience campaign.

The conference was held at Yeroda prison where Gandhi has been interned for several months as an outgrowth of the movement for independence in India.

Secret Well Kept
The secret of the interview of the two peace-makers was well kept. Neither would reveal what took place and M. Jayakar appealed to the press not to say anything which might disturb the balance of the present delicate situation, adding that a word out of place would do great harm.

Later the two liberals held a discussion with Mrs. Sarojini Naidu, noted Indian woman leader who succeeded Gandhi as head of the civil disobedience campaign until her own arrest.

Today's talk will be followed by another tomorrow before the two liberals leave Poona for Allahabad to see the Pandit's Mohitai Nehru and Jawaharia Nehru who also are important figures in the nationalist movement.

HE CAN REST NOW

Jail Is Haven For Tired And Hungry Wanderer

CLEVELAND, O., July 25, (AP)—George Kinney, out of work, tired and hungry, congratulated himself today on his success in getting room and board at the county jail with prospects of spending the winter in Atlanta penitentiary.

He was brought before John B. Osmun, assistant United States district attorney, with a letter which he said he had stolen from the mail.

Skeptical of Kinney's story, Osmun, somewhat reluctant to had gone direct to him with the letter.

"I'm tired and hungry and want to go to bed, that's why," Kinney replied "June 2 was the last time I slept in a bed."

Osmun, somewhat reluctant to accommodate, looked up the law. "Five years for stealing from the mails," he meditated. "Too long, it would be a shame.

Rate Hearing Is Held At Houston

HOUSTON, July 25, (AP)—Rates on sand from several producing points in Texas to Houston were considered by the Texas Railroad commission in a hearing which opened here today.

C. V. Terrell, railroad commissioner, and O. D. Hudnall, rate expert of the commission, are presiding over the hearing.

Today witnesses for sand producers at Columbus, Alletown, Eagle Lake, and Enos were heard, who declared that shippers from other points were granted reduced rates in order to meet competition moving into Houston by barges.

Proration Of Ector Field Is Considered

FORT WORTH, July 25, (AP)—Members of the Ector county proration committee are meeting in Fort Worth today to decide final details of curtailing production in the Penn pool to a maximum of 15,000 barrels daily.

No official order has been issued from the Texas Railroad commission but provisions of the order as now drawn and to become effective Aug. 1. Proration committee meeting provide for an outlet based entirely on nominations from purchasers in the pool. The same program of curtailment was recently ordered for the Darst Creek pool in Guadalupe county, South Texas and is a plan that takes into consideration the new Texas pipe line law.

HEAT PROSTRATES TWO

CORRIGANA, July 25, (AP)—Sullivan, 32, employee of a refinery here, was carried to a hospital last night suffering from heat prostration. He was unconscious but was not believed to be in serious condition.

Henry Hudson, negro, 35, also was taken to a hospital after he collapsed from effects of the heat but he was expected to recover.

WACO CUBS CLIMB INTO LEADERSHIP OF TEXAS LEAGUE RACE

NATIVE SON LEADS CANADIAN OPEN; MOE IS BEATEN

NIGHT GAMES PROVE BOON TO PRATTMEN

LEADING SPUDDERS ARE BEATEN LAST NIGHT UNDER LIGHTS

BY GAYLE TALBOT, JR.
Associated Press Sports Writer
Derrill Pratt's collection of "misfits," the lowest-salaried group of athletes in the Texas league and about the "fittest" crew in any league, were sitting on top of the world today. The curious conglomeration of greybeards and juveniles sporting the Waco silks might not belong at the head of the Texas league parade, but the fact remains that they are there.

Climaxing a drive that has seen them win eleven games in their last 14 starts, the Cublets last night scrambled to the top by pouncing out a 13 to 8 victory over the Wichita Falls Spudders to open their "crucial" series. Not only did the Prattmen make good their challenge to the first half champs, but they did it at the expense of the Spudders' ace flinger, Hal Willis, driving the league's biggest winner to the showers under a first-inning onslaught. Eleven runs in the initial frame off Willie and White gave the Cubs a lead the north countrymen could never overtake.

Stein Continues
Lefty Stein, who has yet to drop a decision under the arcs, fanned 11 Spuds and had them all wrapped up and ready to deliver until the ninth, when he weakened and was relieved by Thurman after two were out. Home runs sailed over the palings in profusion. Elton smashed two for the Spudders, and Storti, Levy and Burns one apiece. Bischoff, Speer and Munson of the Cubs hit for the circuit.

The night's most brilliant battle was witnessed by 1,500 San Antonio fans who turned out for the opening of the Indian's nocturnal plant. They witnessed 11 innings of sparkling baseball in which the Shreveport Sports finally nosed out the home gang, 2 to 1. Oscar Tuero limited the Tribe to five hits in shaking up his fourteenth win and blanked them after the first inning. Krauss's single through the box scored Whelan with the winning run off Hobo Carson in the second extra inning.

Steers Move Up
The Dallas Steers moved into fifth place again by nudging out the Buffs, 7 to 6, in the rubber game of their series by the Bayou. A three-run Buff rally in the ninth fell short when Adkins relieved Tauscher and retired the side.

HE WASN'T SAFE

Third Baseman Tags Runner With Bat

CHICAGO, July 25. (AP)—The umpire cried, "safe" when William Cannatero, 22, slid into third during an amateur game yesterday, but events proved he wasn't.

Third baseman, Thomas Contagno, tagged Cannatero again, using a bat instead of the ball. Cannatero was carried away unconscious and Contagno ran so fast that police hadn't caught up with him early today.

Ill Health Forces Helen Out Of Game

NEW YORK, July 25. (AP)—Ill health has forced Helen Jacobs, America's second ranking player, to quit tournament tennis for the rest of this season.

Weakened by a severe attack of pleurisy and quinsy, she has withdrawn from the Seabright Lawn Tennis and cricket club tournament and from the national championship and will return to her home in Berkeley, Calif., on Sunday.

Mays And Walters Stage Fistic Row

PORTLAND, Ore., July 25. (AP)—Forsaking his submarine ball for submarine uppercuts, Cary Mays, former major league pitcher, engaged in a 20 minute fistfight with Wallace Walters, another Portland hurler, Wednesday night. It became known today.

The battle, other players said, left the pitchers badly battered and unable to pitch for several days.

While the Bisons fielded raggedly under the arcs, making four holes back of Brown and Kauffman, the Mavericks performed brilliantly, handling 43 chances without a break. Jim Moore led the winners' attack with a double and two singles.

Hugh Buchanan, a young right-hander received from Buffalo in exchange for Jim Kelly, held Beaumont to five hits in his first start for the Panthers and gave the Kitties a 10 to 3 victory in their series final. Vaughn and Martin were bettered for 19 hits, including a homer by Joe Bonowitz with two aboard. In all, the acting Cat manager batted in five runs.

A one-cylinder car still is driven by James Colvin of Galena, Kas.

U. S. STARS ARE BEHIND; PARIS BEATEN

PERKINS IS FAVORED TO COP WESTERN AMATEUR TITLE

By Associated Press
ANCASTER, Ont., July 25.—A native son held a two stroke lead as the big field in the Canadian open golf championship, monopolized for eleven straight years by players from the United States, went into the second 18-hole round today.

Playing over his home links, Nico Thompson, sr., 50 years old, equalled the course record with a brilliant 68 to set the pace for the leading professionals of Canada and the United States in the first round of the 72-hole competition at the Hamilton country club yesterday.

Thompson's sensational round gave him a two stroke lead over Al Watrous of Detroit, with four more entries from the United States and other stroke lechins. Tied at 69 were Leo Diegel, of Agua Caliente, defending champion, Ed Dudley of Wilmington, Del.; Tony Manero of Elmford, N. Y.; and Charles Lacey, British pro at the Pine Valley club in New Jersey.

METHODICAL BRITON IS FAVORITE NOW

CHICAGO, July 25. (AP)—T. Philip Perkins, the methodical Briton, today stood out as the favorite to beat Mike Western, amateur golf champion.

As the time for the crown dropped by Mike yesterday, entered the semi-final round over the Bering country clubhouse, he not only had the reputation but a game that appeared invulnerable to his three rivals—Johnny Lehman and Ira Couch of Chicago, and Bob McCray of Des Moines, Iowa.

Bests Westland
Perkins was a resident of New York but had a hope of Great Britain and Ireland, toured the championship course with a 69 two strokes under par yesterday to win a dramatic uphill skrimish in the quarter-final against Westland, Chicago district champion.

Hens in Iowa contributed about \$80,000,000 to the state's agricultural income in 1929 according to the state department of agriculture.

PITCHERS GETTING TO BE HANDY AT BAT ALSO; ROBINS HOLD TO TOP BY NARROW MARGIN; BABE HITS NO. 36

By HUGH S. FULLERTON, JR.
Associated Press Sports Writer
About the time Babe Ruth as-tounded the world of baseball by hitting 29 home runs in one season, a feat described in the next official baseball guide as "a regular manifestation of a record," it was something almost as amazing when a pitcher knocked the ball for the circuit in the current era of long distance hitting, with the Babe travelling along far ahead of the pace that brought him the current record of 80 homers. It is so common for pitchers to hit

home runs that even the mounds-men who do it hardly get a thrill.

So far this season, 15 pitchers have hit 20 of the National League's 543 homers while eight American League moundsmen have driven out nine homers of the circuit's 429. Evin Bramm of Pittsburgh has hit three four-baggers to lead this array while a few days ago Phil Collins of the Phillies connected for two in one game.

Robins Stay Ahead
Ray Koip of Cincinnati was the

only hurler to turn the trick yesterday. His homer in the second inning of the first game between the Reds and Brooklyn Robins gave Cincinnati a 3-0 lead and with one later run was enough to win the contest, 4 to 3. Brooklyn came back and took the second game, 9 to 0, before rain stopped them in the sixth inning. This game produced one of the season's best exhibitions of stalling as the Reds tried to make the approaching storm wipe out Brooklyn's 2-0 lead and the Robins tried to prevent this. The needed a 1-2 innings were completed just in time and as darkness began to fall the Robins fell on Benny Frey's pitching for seven more runs to keep themselves a half game ahead of Chicago.

The Cubs were unhampered by the weather at Philadelphia and after 2 1-3 hours of slugging came out

ahead by a 19 to 15 score. Thirteen of Chicago's runs were scored in the first two innings.

Giants Get Win
The same storm that stopped Brooklyn's proceedings, gave the New York Giants a 1 to 0 triumph over Pittsburgh. The Giants had a homer by Fred Lindstrom left from the first inning while the Pirates after getting only one hit off Cliff Hubble in six frames, had the bases full in the seventh when the game was stopped.

Boston's Braves won the remaining National League game, featuring St. Louis 3-4, and finally broke the sixth place tie with Cincinnati. The Braves went a half game ahead of the Reds and the same distance behind Pittsburgh.

Babe Ruth again provided one of

TWO KILLED BY GRADUATE

YOUTH GETS REVENGE FOR BEATING GIVEN SCHOOL TEACHER

HEBER SPRINGS, Ark., July 23.—Two men were shot to death here Wednesday by a 1930 high school graduate who immediately surrendered to officers. The shooting was said to have been the outgrowth of trouble over a whipping which the school teacher wife of the youthful slayer administered yesterday to a child of one of the victims.

Leas Murphy, 20, is held in jail on murder charges for shooting to death Boge Cannon, middle-aged farmer, and his son, Jim Cannon, at the Wolf Bayou school house near here. Murphy was graduated from Heber Springs high school in June.

TARIFF HIKES IN SPAIN ANNOUNCED

MADRID, July 25. (AP)—The government today published a new tariff schedule which increases the duties on numerous American imports, principally automobiles, sewing machines, bicycles, motorcycles, pneumatic tires, razor blades, silk and hats.

Paralysis Causes Meet Postponement

BATON ROUGE, La., July 25. (AP)—Due to reports of prevalence of infantile paralysis in Louisiana, the eighteenth annual farm girls and boys short course scheduled to open at the state university next week, has been called off for this year, on advice of Dr. J. A. O'Hara, president of the state board of health, and Dr. A. J. Tucker, university physician. Both advised against any large assembly of children at this time.

Here's to appetite!

And what is so certain to whet dull appetites as a crisp, spicy pickle? Libby's Sweet Pickles are temptingly crunchy-crisp, for they are made from the firmest, most flawless young cucumbers. And the flavor! Only Libby's special blend of sparkling vinegar and rich spices could account for it.

STATE POLITICS

(Continued From Page One)

Ten counties were coded to Mayfield in fourth place, nine to Young and four to Miller. Tom Love, Hooverer chief, was conceded only one county, Parker.

A telegram to the Daily Journal from Senator Small's Fort Worth headquarters, was jubilant this morning. Lee Satterwhite, former speaker of the Texas House of Representatives and Small's campaign manager, wired as follows:

"Survey by Dallas News covering 90 counties shows Small second man in race thus far. For the first time the News admits our candidate is in the running. I am confident Small will be one of the two high candidates tomorrow."

The Dallas News has been active in support of Sterling, who is charged as a candidate of the oil interests, as have been practically all of the metropolitan dailies in Texas. Sterling is publisher of the Houston Post-Dispatch but is not actively in charge of the paper.

REPUBLICANS MAKE BID IN TEXAS

DALLAS, July 25 (AP)—Candidates for favor at the hands of voters in the Democratic and Republican parties today gathered up the loose ends of a long campaign and tomorrow some 750,000 Texans were to express a preference at the first primary.

The Democrats had an unprecedented number seeking the governorship, there being 11 candidates for the nomination, and the Republicans had five aspirants to the chief executive's chair.

Both parties to nominate candidates for the United States senate and for the places in the national house of representatives.

Heretofore, nomination in the Democratic party has been tantamount to election, but the Republican party in the general election of 1928 mustered enough strength from the independent Democratic faction to carry Texas for President Herbert Hoover.

The furor of activity on the hustings peaked on Saturday, which would succeed in Saturday at the polls.

Each candidate was busy defending the own particular set of issues and a favorable object of attack for several of them was the proposed \$100,000 state highway bond issue.

Young Away From Home—All of them excepting Jim Young of Kaufman were hovering near the home features. Young expected to make his final speech this afternoon at Stamford and tonight at Eastland.

Mrs. Miriam A. Ferguson chose Temple, the old home she left six years ago to move into the governor's mansion at Austin, as the locale for her eleven-hour campaign appeal. Her husband, Jim, picked Cameron, not far away, to make his last speech for his wife's candidacy. Houston supporters of Ross Sterling celebrated his homecoming address Wednesday night, so he strayed into neighboring east Texas for a speech tonight at Palestine, after addresses during the day at Lufkin and Nacogdoches.

ling celebrated his homecoming address Wednesday night, so he strayed into neighboring east Texas for a speech tonight at Palestine, after addresses during the day at Lufkin and Nacogdoches.

Clint Small was in West Texas, speaking tonight at Wichita Falls and at Albany and Graham during the day.

The last stand of Thomas B. Love was set for tonight in Dallas, his home city, at a public rally. At the same hour, Lieut. Gov. Barry Miller, his rival, was due to speak over radio station WFAA, after an afternoon address at Ennis.

RECORD VOTE

(Continued From Page One)

Colloch and J. C. Roberts, constable, precinct 1; Marvin T. Warrick and George C. Cooper, county chairman.

Four of the Lubbock precincts will vote in the court house, the four corner offices being the places selected. Precinct 27 location, 2209 Nineteenth street and precinct 28 at the lumber office, Avenue Q and 4th.

In Slaton, voting will be in the city hall, with the four corner offices there as the location for the ballot boxes.

Precinct 1, W. E. Bailey, county court room in court house; precinct 2, J. J. Dillard, tax collectors' office, court house; precinct 3, C. O. Burford, county attorney's office, court house; precinct 4, John P. Burger, sheriff's office, court house.

Precinct 5, J. W. Hood, northwest office, Slaton city hall; precinct 6, W. H. Tanner, Caldwell, 16 miles northwest; precinct 7, J. F. Goodnight, Canyon, six miles east; precinct 8, Douglas, Pounds, Acuff, 13 miles east; precinct 9, J. D. Reid, Boston, 20 miles northeast; precinct 10, W. J. Baker, Center, 16 miles northeast; precinct 11, J. P. Vance, Shallowater, 11 miles northwest; precinct 12, W. J. Bush, Carlisle, eight miles west; precinct 13, O. Sams, Wolfarth, 13 miles southwest; precinct 14, D. B. Williams, Foster, 19 miles southwest; precinct 15, Lorie Williams, Slide, 17 miles southwest; precinct 16, L. W. White, New Hope, eight miles southwest; precinct 17, A. R. Shippo, Has, 17 miles northwest; precinct 18, W. B. Powell, Lubbock Lumber Co., Avenue Q and 4th; precinct 29, B. H. Howard, Abernathy, 18 miles north; precinct 30, W. K. Pierce, Union, 19

REPUBLICANS TO BE ACTIVE IN COUNTY

While Democrats cast their ballots tomorrow throughout Lubbock county, six Republican precinct conventions will be held to elect delegates to the party's county convention August 2.

Three of the precinct conventions will be held here and the others in Idalou, Shallowater and Slaton. Precincts in Lubbock at which ballots will be cast and conventions held are: No. 1 Finson drug store, Ave. Q and Sixteenth street; No. 2 highway tourist camp on Avenue H, and No. 4 city hall.

All precincts will open at 7 a. m. Any Republican voter whose precinct has no ballot box may cast his vote at the city hall here, officials of the party announced.

Dr. I. E. Barr is Republican county chairman. Chairman of the precincts in Lubbock are: No. 1, W. E. Watson; No. 2, U. S. Allen, and No. 4, O. B. Brothers.

EARTHQUAKE TOLL

(Continued From Page One)

Trento The Adige river went out of its banks and other streams were swollen.

Every facility was turned to aiding the earthquake sufferers and extracting bodies of those who perished. From Naples, Avellino, and other large centers motor trucks sped all day and all night carrying medical supplies, food, clothing and workmen with tools to clear away debris.

Trains from the north steamed continuously over unlanded lines bearing relief supplies. These in turn were taken by truck to the affected areas.

Southern led the relief work. White photographers' airplanes swooped overhead, troops and fascist militiamen led the hungry, and directed the removing of crushed bodies from piles of stone and wood which once had been homes.

DEMOCRAT PLANS

(Continued From Page 1)

four seats that have gone Democratic in 31 year congressional elections during the past decade. With 23 additional seats to the 30 normally Democratic, they would have a bare majority of 218.

The seats the Democrats expect to regain are one each in New Jersey, New York, Maryland, West Virginia, Indiana, Illinois, New Mexico and Pennsylvania, two each in North Carolina, Nebraska, Oklahoma and Missouri.

At present the Democrats have 164 seats with one vacancy from Rhode Island normally Democratic. With 23 additional seats they would have a 218, which is a bare majority in the house of 435 members.

MRS. C. Z. FINE

(Continued From Page One)

rural friends," Mrs. Fine declared at noon today.

"I will make the race for office my own merit. Prior to her election of my opponents. Having been a rural teacher for the past 23 years, eleven of these being spent in Lubbock county, I believe I understand the conditions confronting our schools. Though little time is left I will make an active campaign among the voters of the county."

Mrs. Fine, living one-quarter mile south of the Posey school, has been a teacher in that community for seven years and also taught two years at New Hope. Prior to her experience in this county she taught in Brown, Callahan, Eastland and Mitchell counties.

During her 11 years residence here she has been an active worker in community activities and home demonstration work. She is a director of the Lubbock County Farm Bureau and is secretary of the recently organized Lubbock County Poultry association.

CLUB PEOPLE

(Continued From Page 1)

Members include Milton Davis, Acuff; Aubrey Pounds, Acuff; Orval Elliott, Liberty; G. W. Williams, County Line, Lawrence Sides, Canyon, Trust Sides, Canyon; Fred Elliott, Liberty; Jack Stalcup, Slaton; Irvin Reed, Slaton; Hotel Smalley, Shallowater; E. C. Pounds, Acuff; Edwin Merrill, Hardy; Jim Polts, Canyon; Pat Nix, James Burroughs and M. Eaton.

Included in the night party will be Miss Louise Baird county home demonstration agent; Mrs. Annie Hallin, New Hope; Mrs. A. G. Rich, Wolfarth; Mrs. E. A. Moore, Carlisle; Mrs. Jim L. Harrell, Hardy; Mrs. Jim Savage, City Line; Elzora Ralshback, Acuff; Ruby Gregory, Acuff; Bessie Moore, Carlisle; Edith Merrill, Hardy; Ardell Wicker, Foster; Pauline Carrigan, Foster; Mary Schramm, New Hope; and Nadine Harrell, Grovesville.

Two Permits Boost Total For Month

Two permits were issued yesterday afternoon to boost Lubbock's building valuations for the month of July to \$41,125, while those of the year now total \$1,285,539, for 153 permits.

Issuances were made the following: W. W. Stafford for erection of a frame and stucco residence at 2011 Broadway to cost \$2,900; S. E. Holt, contractor, \$200 to Lee Sullivan for construction of a frame storage building at 1924 19th street.

BETULIN, July 25 (AP)—Max Schmeling, world's heavyweight champion, today was rescued from Scharmuetzel, near southeast of Berlin, where his motorboat capsized during a storm.

Equalization Board Finishes Work Today

Hearings by the city board of equalization will be closed today and deliberations are expected to be completed by 10 o'clock tonight, members of the board said this morning.

Complaints totalling 232 were heard by the board and a majority of these have been amicably settled. Others, however, are still hanging fire and final action on them will be taken this afternoon.

The board, composed of Glen Heas, J. C. Royalty and Frank Maddox, has been in session for two weeks.

LEGION VOTES TO CONDUCT SERVICES

All military funerals held in Lubbock henceforth will be featured by a regulation firing squad composed of members of the Allen Brothers post, American Legion, a statement today revealed following action taken at a meeting of the local post last night.

A committee, headed by A. C. Jackson, was appointed to purchase guns and other equipment for this purpose. It was stated that on past occasions, this part of the service had been performed by a firing squad of cadets from Texas Tech.

To Send Delegate—The post last night also voted to send a delegate to the State American Legion convention to be held in Austin September 1, 2 and 3. Selection of the delegate will be made at the next meeting on August 7.

Entertainment features of last night's program included an address by Rev. H. L. Munger on the "Value of Loyalty and Organization," and several vocal numbers by the American Legion quartet, composed of Vaughn Wilson, George Meiser, Dr. V. V. Clark and Dan Blair.

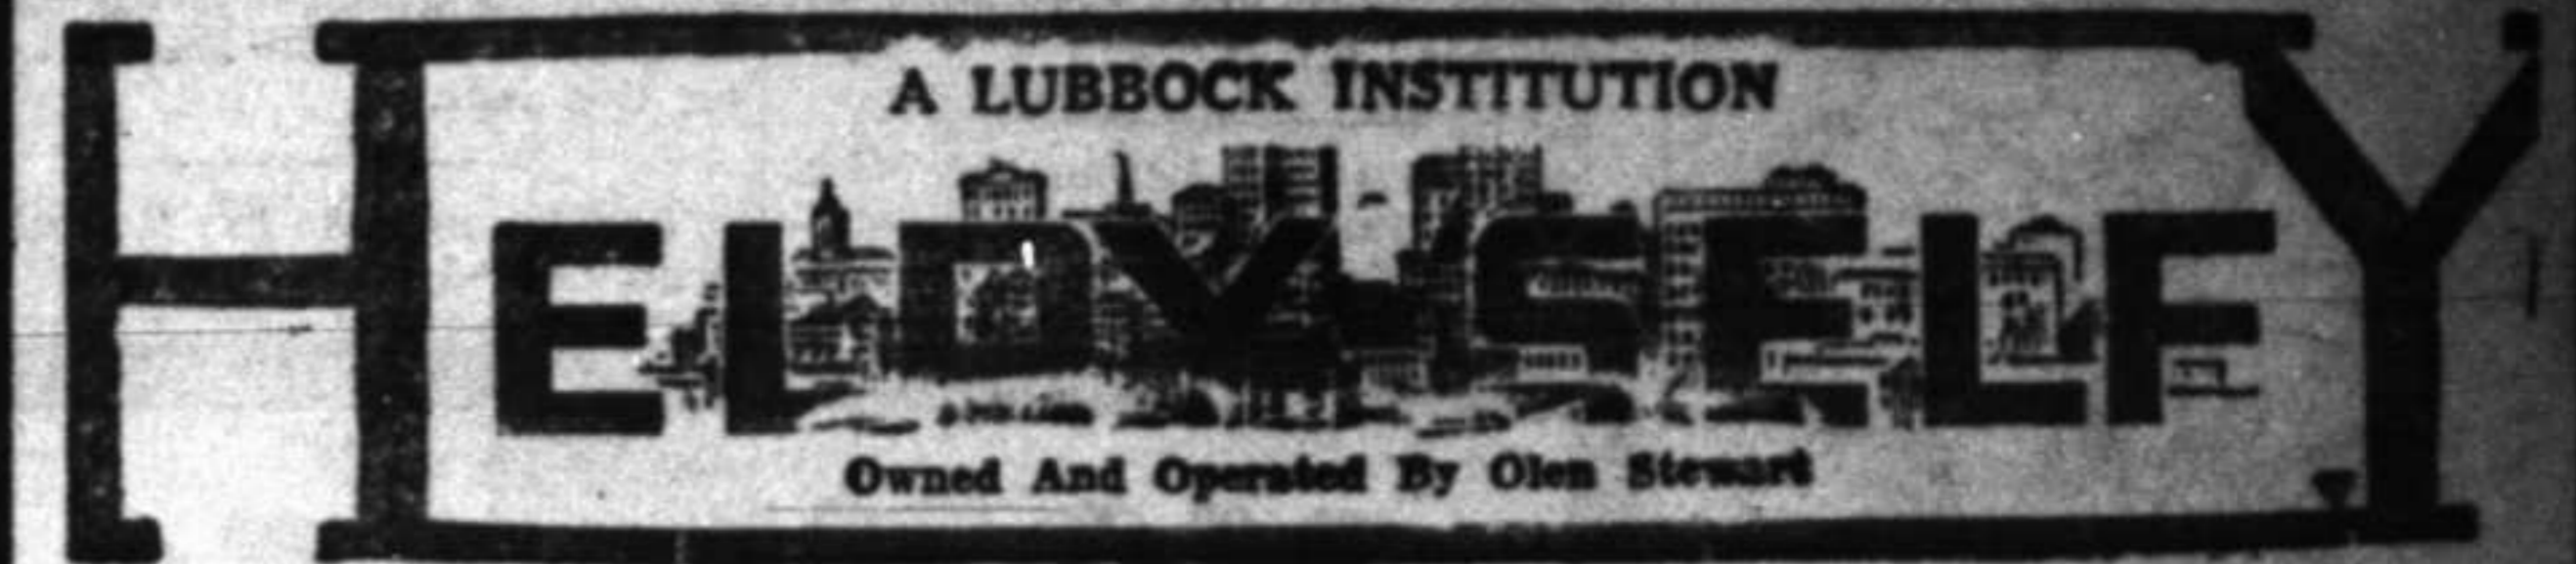

LUBBOCK MEN IN PADUCAH TODAY

A mass meeting is being held at Paducah this afternoon for the purpose of discussing establishment of a branch office for district two of the Texas Cotton Cooperative association, marking the last meeting of its kind to be held in the district. Discussions began at 2 o'clock this afternoon. Today is the last day in which cities seeking offices may reject or accept the proposals as outlined by the association.

Four Lubbock men, Herman F. Dieterich, director of the membership drive for district two; A. B. Davis, F. R. Friend and R. J. Murray left Lubbock shortly before noon today to attend the gathering.

Nine cities in this district have applied for branch offices, the director has announced. Only six such offices will be established and de-

CELEBRATES OCCASION—NEWTON, Conn., July 25 (AP)—This little Connecticut village of 2,631 population today observed the 125th anniversary of its purchase "for and in consideration of various articles including four collars, two shirts and ten pairs of stockings" from the Footlock Indians.

GET WASTE OUT OF YOUR SYSTEM

Banish Constipation at the Start with Kellogg's ALL-BRAN

Look out when you wake up tired and stay tired. Beware of headaches, unpleasant breath. These are usually the first symptoms of constipation.

The trouble is that your intestinal system is clogged. You have eaten too many bulkless foods. But you can clean your system safely, if you start at once to eat Kellogg's ALL-BRAN.

Kellogg's ALL-BRAN is a cereal that you can eat naturally. It sweeps the intestines clean of poisonous wastes. Far better than habit-forming pills and drugs.

Kellogg's ALL-BRAN is guaranteed. Just eat two tablespoons daily—recurring cases with every meal. You'll like its crispness and flavor. Your system will benefit by its rich store of iron and healthful elements as well as by its roughage.

Ready-to-eat with milk or cream. Delicious with fruits and honey added. Use it in cooking. Recipes are on the package for muffins and griddle cakes. Sold by all grocers. Served by hotels, restaurants and dining-cars. Made by Kellogg in Battle Creek.

Two Women Drown In Arkansas River

FORT SMITH, Ark., July 25. (AP)—Mrs. Lorraine Greenlee, 18, and her sister, Miss Ola Farley, 16, both

of Moffett, Okla., drowned in the Arkansas river near here late Wednesday. They slipped from a sand bar into water ten feet deep while on an outing.

The bodies were recovered about ten feet from where the women drowned. Their arms were entwined about each others neck.

Housewives of Edinburgh, Scotland, are just beginning to use electric washing machines.

General Motors Has \$1.17 In Earnings

NEW YORK, July 25. (AP)—General Motors corp. in the second quarter this year earned \$1.17 per common share, compared with \$2.01 for the like period last year, and 92 cents a share in the first quarter this year.

Twelve streets in Berlin have been named after the ex-kaiser.

AMTORG HEAD SAYS HEARING TRADE MENACE

SOVIET TRADE MAY BE LOST TO U. S., HE DECLARES

NEW YORK, July 25.—Peter A. Bogdanov, president of the Amtorg Trading Corporation, said in a statement today that Russian-American trade amounting to more than \$110,000,000 a year, would be seriously menaced unless accusations against the company were proved groundless.

Representative Hamilton Fish, jr. chairman of the congressional committee investigating communist activity in the United States, before which the statement was read promised that all charges against communists would be investigated with thoroughness.

Bogdanov said certain American firms already had declined to finance purchases because of these rumors. He specifically mentioned statements by Gregory Bessedovsky, former Soviet charge de affaires at Paris, Grover A. Whalen when he was police commissioner of New York and Matthew Wolf, vice-president of the American Federation of Labor, who testified before the committee.

In all of the statements referred

to charges were made that Amtorg was not solely a trade organization but also served as a focal point in this country for communistic activities which had their inception in Moscow. Bogdanov asserted all these statements were absolutely without any basis in fact.

Libel Suit Echoes Lingle Case Writing

CHICAGO, July 25. (AP)—Robert M. Lee, city editor of the Chicago Tribune, has filed a \$250,000 libel suit asking redress of the Illinois Publishing and Printing company, publishers. The suit was an outgrowth of charges and insinuations which have followed the assassination six weeks ago of Alfred (Jake) Lingle, Tribune reporter, who worked under Lee for ten years.

CLUBBURN, July 25. (AP)—E. S. Newton, 67, Santa Fe railway purchasing agent, died of a heart attack at his home here last night after an illness of only three days. Survivors are his widow and a daughter, Dorothy.

WOODCOCK MOVES TO ENFORCE LAW

WASHINGTON, July 25. (AP)—Actions to minimize the use of force and secure the cooperation of business in enforcing the national prohibition law were taken today by the department of justice and the treasury.

Amos W. W. Woodcock, director of prohibition, announced he had suspended two prohibition agents for three days without pay because they searched the automobile of a private citizen without probable cause and Commissioner Doran of the bureau of industrial alcohol announced the appointment of a committee of scientists, professional and business men to advise his bureau of the problems arising out of the production and use of industrial alcohol.

Doran named 15 prominent men to advise how best to secure cooperation of the interests using manufacturing industrial alcohol in

enforcing the permissive sections of the prohibition law. The advisory committee will aid the bureau in handling the medicinal liquor questions.

Search Is Made For Austin Youth

AUSTIN, July 25. (AP)—Apprehension was felt here today for the safety of Ocy. Travek, 15, who left his home Monday morning on a hiking expedition. A check by his parents at the homes of relatives in nearby towns failed to uncover any trace of his whereabouts. Authorities of neighboring counties have been asked to search for the youth.

PRO AGENT SUSPENDED

ALBANY, N. Y., July 25. (AP)—The Knickerbocker Press says that Captain George W. Golding, head of the special prohibition investigation department in charge of New York state and New England has been suspended pending investigation of charges submitted to Prohibition Director Amos W. W. Woodcock of an unnamed civilian.

Challenges Hurdled In Steel Merger Row

YOUNGSTOWN, O., July 25. (AP)—Attorneys for the Cyrus S. Eaton interests today hurled specific challenges at the legality of 128,400 of the 857,812 shares of stock which last April 8 were voted to ratify a merger between Youngstown Sheet and Tube company and Bethlehem Steel corporation.

The challenges were a part of their fight in common pleas court to enjoin the merger, and the 128,400 shares attacked were only those voted by trustees, executors and guardians. They have announced they will attack the legality of other proxies later.

The total vote cast at the stockholders' meeting of the Youngstown company represented 946,730 shares and the margin over the two thirds majority necessary to ratify the merger was 58,071 shares.

Three new buildings costing \$170,000 have been erected at Oklahoma A. and M. college.

THE TINY TITLES

(READ THE STORY, THEN COLOR THE PICTURE.)

The sights in Badgad all seemed queer. "Oh, my, what funny people here," said Clowzy. "They're not dressed like us at all. I wonder why. The flowing gowns in which they dress keep them all pretty hot, I guess. Yet they all seem real comfortable as they go walking by."

During the middle ages the word "engineer" was used as the title for the military officer who planned campaigns or laid out works of defense.

WANTED SALESMEN AND SALESLADIES TO ACT AS OUR REPRESENTATIVES THROUGHOUT THE UNITED STATES

We are needing a few more sales-ladies in Lubbock. Please let us explain the exceptional offer we have for you.

A WONDERFUL CONTRACT FOR DISTRICT MANAGERS AND SUB-AGENTS

For our Birth, Marriage, and "AA" Endowment Contracts, which are new and different.

The Great Western Finance Company in making a Straight "AA" Endowment, or a Birth, or a Marriage contract with you is a safe investment at this time. The authorized capital of \$100,000 of the Trust Estate of "Big Great Western Finance Company" is a guarantee to you that it will be paid to you according to the terms of your contract.

Our great and rapid growth is proof of the confidence placed in the policies of this association.

THE NATIONAL ENDOWMENT BIRTH AND MARRIAGE ASS'N

Phone 111 405 Ellis Bldg

PRESENTS

WORLD'S GREATEST POLICIES

WE ARE BONDED

Our Endowment Policy contract, which may be taken by anyone.

Our Birth Policy, parent-hood may occur at any time after date of policy.

Our Marriage Policy, you may marry at once or pay in year if yet unmarried.

These policies pay in three months to one year, approximately \$250 to \$1,000 on full of 1,000 members. You receive according to number of members in your class at time you present. We are a Home organization. You pay no assessments on claims until August 1st.

WE ARE BONDED FOR YOUR PROTECTION

Salesmen and Salesladies wanted. Phone 111 405 Ellis Bldg.

E. LEE BROWN
208 AVENUE U
CANDIDATE FOR
County Commissioner
PRECINCT NO. 4
Subject to action of Democratic Primary

I have tried to see and solicit the support of each and every voter in Precinct No. 4. I am very sorry if I have missed anyone.
I surely appreciate your vote and support. I have lived 17 years in Lubbock, my entire time being in the employment of the Magnolia Petroleum Company.

Lubbock Players

Loss To Abernathy
ABERNATHY, July 25 (Special)—An inexperienced Lubbock team was defeated here yesterday afternoon in its first matched roller skate polo game by the Abernathy club. The final score was 9 to 5.

According to plans of promoters of the game, a league may be organized in the near future, including teams from Lubbock, Slaton, Hale Center, Abernathy and possibly several other towns of this section. Considerable interest is being shown in the games, and fans are turning out in comparatively large numbers to witness the contests.

BUMPER CROP COMING
The South Plains should have a bumper crop of turkeys for Thanksgiving and Christmas if one is to judge from the number of young flocks of these birds seen recently. On a trip from Woodrow to Tahoka, to Brownfield and back to Lubbock several dozen flocks were seen. It seemed as if almost every fourth or fifth farm house had a flock. Some of the birds were as large as Leghorn hens, while others were not quite so large. All seemed well fed, with plenty of grain to be had.

PURSE SNATCHER IS HERO OF WAR
LOS ANGELES, July 25 (AP)—A man identified by police as Capt. George R. Clifford, wartime squadron leader of the British Royal Air Force who shot down 42 enemy planes, is under arrest here for purse snatching. Psychologists said the aviator is a victim of "repressive insanity."

Police said identification was made through a passport issued in Washington in 1927 found in the man's possession and other papers giving his war record, which were verified by government officials. Medals for bravery from virtually every allied nation were found in his apartment. He said he came here from Brockton, Mass., seeking work as an aviator.

"I realize what I've done, but don't know why I did it," Clifford told officers. Psychologists asked that the flier be paroled to them for a study of his case.

SOUTH PLAINS NEWS CHATTER

BY J. SAM LEWIS
Field Correspondent

GONE BASEBALL CRAZY
Tahoka has gone baseball crazy. The town team has been leading the newly formed South Plains league since organization and up to Tuesday the team was without a defeat. Posted under the list of "specials" at the soda fountain is the following "standing, Tahoka 1,000."

HAS RADIO STATION
Brownfield has a radio station all its own and the little plant whose instrument has been heard in Lubbock and Lamesa as well as other towns, is having a daily program from 11:30 to 1: Manager Stevenson, an experienced radio man, is the operator. He personally supervises the programs and is using local talent as much as he can. The Brownfield chamber of commerce is arranging a broadcast of election returns Saturday night.

J. E. IS CANDIDATE
J. E. Shelton, Brownfield chamber of commerce executive, has broken into politics. J. E. aspires to be justice of the peace and as he does not have an opponent so far, he probably will be. J. E. has an office in the basement of the court house and he would be available almost any time for any kind of a court matter. The number of cases in that court is said to be increasing and county officials believe that by the chamber of commerce secretary having the job, he will be always ready for anything that comes his way.

WATCHING G. E.
G. E. Lockhart, Lubbock lawyer, got his start over in Brownfield and the people of that town are watching him and his life work. G. E. started in politics about 1908 after teaching school. He ran against George W. Neill, former county

judge and county attorney, for the office of county judge. Mr. Neill defeated Mr. Lockhart by eight votes. Later Mr. Lockhart moved to Lubbock while Mr. Neill remained in Brownfield. He is the oldest practicing attorney there in point of service, having been there in 1882 to open an office. Judge Neill was the second county attorney, the first one being the late Judge Percy Spencer, who was appointed district judge of the Lubbock district and moved to this city.

REBUILDING SYSTEM
The State Telephone company is working a good force of men in Brownfield rebuilding the entire system there. They are changing the whole outside system and are making over everything except the old magneto type of telephone, says J. E. Shelton, chamber of commerce secretary. "We are told Brownfield does not have enough telephones to justify the expense of this installation at present but we hope to be large enough soon. We are told when that time comes that the common battery type will be used. So watch us grow."

MOODY GRANTS PAROLE
AUSTIN, July 25 (AP)—General paroles, announced at the office of Governor Dan Moody today include:
Bill Cobb, five years for forgery, Collingsworth county, Martin Taylor, two years for burglary, Taylor county, E. L. Platt, five years for theft, Coke county, Elbert Creek, two years for forgery, Mitchell county.

Parolees:
R. F. Brown, Howard county, felony, 30 days, Claude Smart, forgery, Jefferson county, 90 days.

YOUTHS ROB BANK
JUDSON, Minn., July 25 (AP)—Two youths, about 22 years old, held up the Farmers State Bank here Thursday and fled with all the cash in the vault, estimated at \$1,500.

Right, but I'm going to have that road worked over right now."

RATHER BETTER
Wildcat oil men, according to newspapermen in Tahoka, and Brownfield, are about the hardest men on the town plot to get news out of. There is a test going on about five or six miles west of Tahoka on the Brownfield road. So far it has been somewhat of a job to find out how deep the hole is. Passersby who stop and ask are not told anything, they say.

LOS ANGELES, July 25 (AP)—A man identified by police as Capt. George R. Clifford, wartime squadron leader of the British Royal Air Force who shot down 42 enemy planes, is under arrest here for purse snatching. Psychologists said the aviator is a victim of "repressive insanity."

PITCHERS

(Continued From Page 6) the big features of the American League's day by clouting his 35th homer of the year as the New York Yankees defeated Detroit, 5 to 2. The clout was made off Guy Cantrell, who was starting his first game in the American League with good pitching performance, and put Ruth 12 games ahead of his 1927 pace. Jimmy Fox, Philadelphia's long distance star, also clouted a homer and although it was only his 27th, it meant more at the time than did Ruth's Fox's circuit blow was made in the ninth inning with the score tied and gave the Cleveland Indians a 6 to 5 triumph over the Cleveland Indians. It also put the A's five games ahead of the tottering Washington

Senators, who were the victims of an uprising on the part of the Chicago White Sox and lost a 10 to 4 decision. Ted Lyons scored his 15th victory for Chicago by pitching the entire game.

The Boston Red Sox threatened to make another change in the American League standing, coming within a half game of St. Louis with an 8 to 5 victory over the Browns. New Yorker Elected Dental President DENVER, July 25, (AP)—Dr. Martin Dewey of New York has been selected president-elect of the American Dental Association to take office at the close of the 1931 convention of the organization. Dr. Robert Todd Oliver of Philadelphia the president-elect selected last year will take office Friday the close of the five-day 1930 convention. Memphis, Tenn. was chosen the 1931 convention.

GAS COMPANY TO HOLD OPEN HOUSE SATURDAY

FORMAL OPENING PROGRAM IS ARRANGED; PUBLIC URGED TO INSPECT COMPANY'S QUARTERS

MUSIC ARRANGED FOR OPENING; EMPLOYEES TO EXPLAIN PLANT

Formal opening of the new home of the West Texas Gas company, located at the corner of Tenth and Avenue K, will be held Saturday afternoon and evening, between 3 and 6:30 in the afternoon and 7:30 and 10:30 in the evening.

Invitations have been sent to all of the customers of the company and a general invitation to the public at large to attend is also given. R. F. Hinchey, vice president of the company and chief executive officer located here, announces.

"We cordially invite the people of the South Plains to come and be our guests," he said. "We want them to inspect our office building and to know something about the business."

Display Is Complete
The recently completed structure will be open in its entirety. Both the local office down stairs, the office of the South Plains Pipe Line company on the east side and the general offices upstairs, will be free to all to visit.

Employees will be on duty at all times to explain the operations of the company, and there will be a display of modern gas appliances for the use in the homes and business houses of this section.

W. O. Daniels, local manager, has arranged for some special music for the afternoon and evening. He also has purchased some flowers to be given to the ladies who call at the local office.

Officials of the South Plains Pipe Line company will give punch during the opening to all who call at their office.

Every man in the employ of the company over the territory, who can get away, will be in Lubbock for the occasion, Mr. Hinchey added. These will be on duty to assist in handling the visitors.

Vice-President

R. F. HINCHEY

Insurance Firms Given Suspension

AUSTIN, July 24. (AP)—The Security Union Insurance company and the Lumbermen's Reciprocal Association of Houston, today were temporarily suspended from operating in Texas by the Texas Insurance commission. The board stated the suspension was ordered "because of financial impairment and other good and sufficient reasons."

In a statement issued after a conference with J. W. Deweese and W. S. Pope, other members of the board, W. A. Tarver, chairman, said the revoking of the licenses and suspension of the companies was temporary because of the assurance of the good faith efforts now being made by directors of the companies to relieve their strained financial condition.

ARIZONA HAS 421,641
PHOENIX, Ariz., July 24. (AP)—Orme Lewis, census supervisor, today announced final census figures for Arizona, placing the state's population at 421,641, including 21,134 Indians. The white population of 394,507 is an increase of 18 per cent over that of 1920.

SOUTH PLAINS PIPE LINE CO. PIPES GAS TO MORE THAN THIRTY TOWNS IN TERRITORY; SPENDS LARGE SUM HERE

In just a little over three years, a fortune has been spent in the laying of gas mains on the South Plains and more than thirty towns are now receiving natural gas service where three years ago they had to depend upon other types of fuel.

This in brief may be a summary of the activities of the South Plains Pipe Line company, now of Lubbock, which will have completed by the last of 1930 the laying of nearly 800 miles of pipe line.

Now simply the digging of the ditches and the laying of the mains is not all there is to the pipe line business. There are a hundred and one other things that have to be done to maintain the distribution service.

For example, the pipe lines have to be guarded to see that there is no loss of gas through breakage of the line in any manner. Trained men walk the lines several times daily to discover if the mains have become broken. There may be a weak spot in one of the sections and this spot yield to the high pressure of the gas and break forth. Again a plow might touch the main and break the pipe or the unexpected explosion of dynamite or some other explosive might cause an upheaval of the line. Unusual heavy traffic over a main affects it also.

At several places along the lines other men are stationed to watch meters, etc., to see that nothing goes wrong mechanically.

Telegraph Connection
Maintenance of a modern telephone and telegraph line over the entire system is a part of the service. For example there are 75 telephone stations, an average of one about every ten miles. Five telegraph stations are also maintained.

These stations are available at any hour of the day or night. The pipe walkers will not have very far to go when they discover an emergency. Messages can thus be relayed to pipe line repair gangs maintained along the line.

Cold Effects Pipes
In the winter season the load carried by the lines is heavier than in the summer when the demand is not so great for natural gas as a fuel in the homes and in places of business. Cold has an effect upon the pipes as well as increasing the demand for gas.

Nevertheless, the South Plains Pipe Line company has to maintain at all times, summer and winter, a high tension. There might come an unexpected demand for gas in the summer time. If so, the company must be prepared to meet it right now—not within 24 or 48 hours but at the particular moment the demand is made.

Practically the same demands are made on the lines winter and summer.

Local Manager

W. A. DANIELS

mer, so the company is unable to reduce its regular force of employees engaged in the maintenance department at any season of the year. Nor can it relax its vigilance for any length of time.

Much Earth Removed
To illustrate the enormous amount of work necessary to construct the company's mains, nearly half a million tons of earth had to be lifted in order to place in the 18-inch ditch some 75,000,000 pounds of high grade steel, welded together into one continuous pipe.

Again, this huge pipe from three to sixteen inches in diameter, would reach from Lubbock down to the Gulf of Mexico, or to the Mississippi river or to Denver on the north or into the middle of Arizona on the west.

The mains of the company are concentrated in the 23 counties on the South Plains.

First steps towards organization were taken by a group of far-sighted men who realized the South Plains of Texas needed a cheap, efficient fuel for domestic and commercial uses. Work was begun immediately following organization and during that year 247.2 miles of pipe line was laid. This consisted

NATURAL GAS SERVICE GOES MANY PLACES

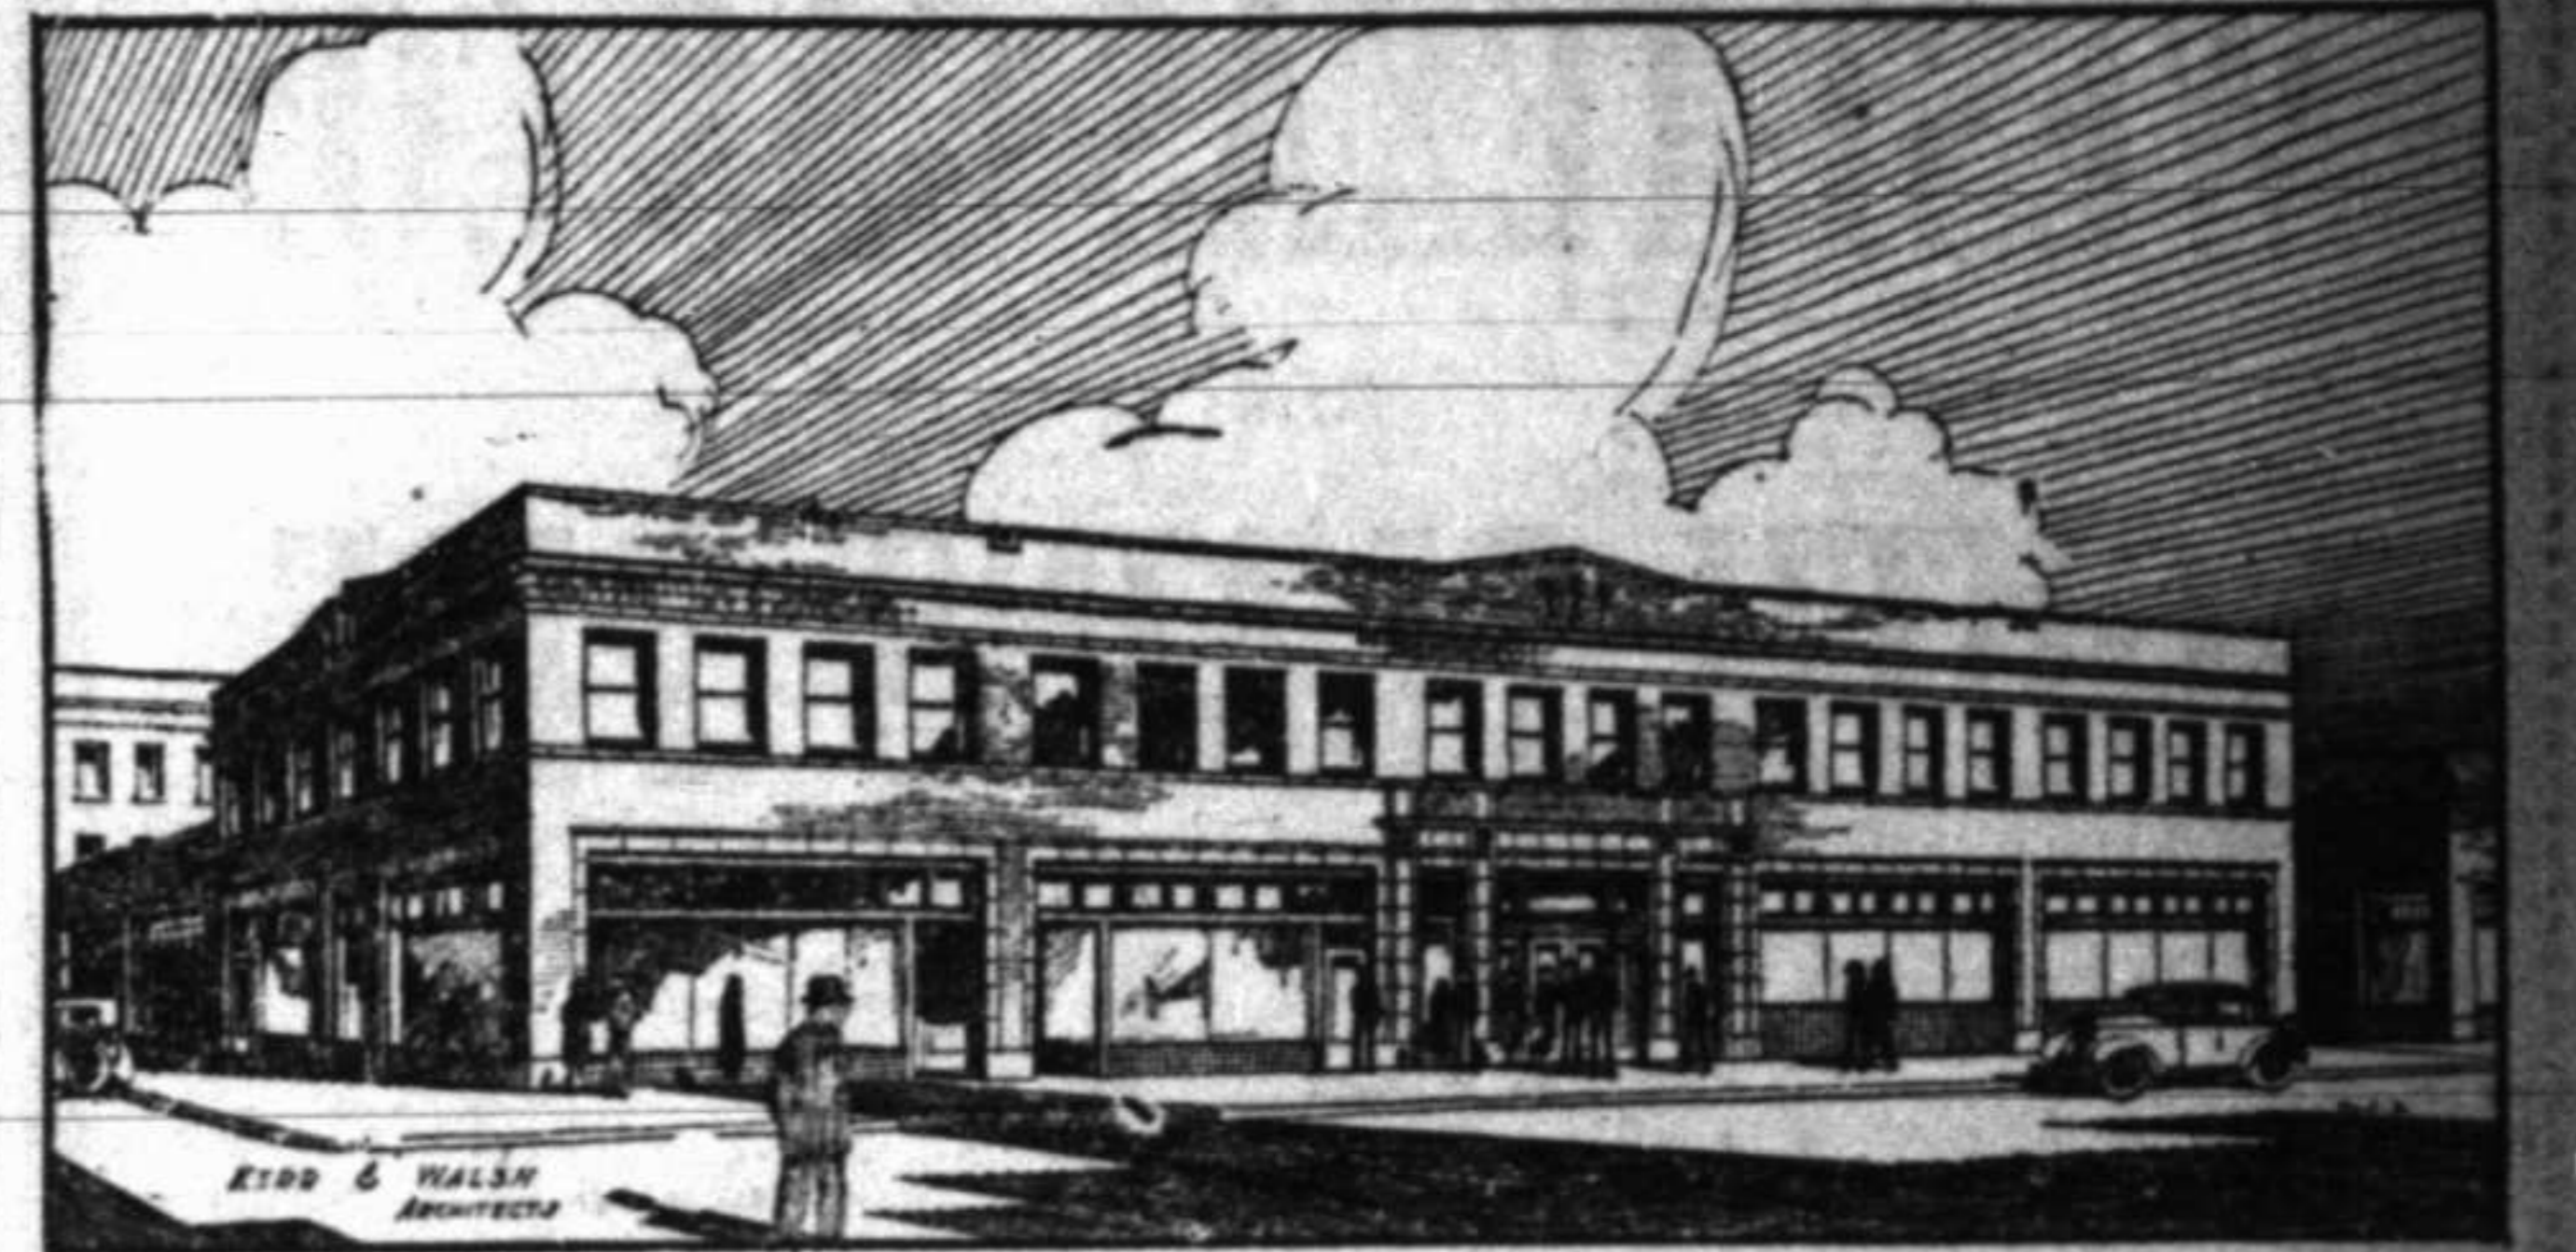

NEARLY 16,000 SOUTH PLAINS METERS ARE SERVED BY FIRM

Approximately 16,000 homes and places of business in 37 towns and communities on the South Plains are served by the West Texas Gas company, Lubbock's newest concern to open its general headquarters here.

While the officers of the company have been in Lubbock since the first of July, the formal opening has been delayed until Saturday.

LAND TITLES ARE GRANTED IN HIDALGO

THIRTY-TWO YEARS OF WAITING BRINGS ACTION

(By Associated Press)
EDINBURG, July 24.—Land titles have been obtained for approximately 5,000 Hidalgo county farmers as a result of a decree by the district court here partitioning 300,000 acres in the San Salvador Del Rio grant.

The grant was made when Texas belonged to Mexico and comprises nearly all of the county from a half mile north of Edinburg to the northeast and west county boundaries.

Villages Spring Up
Twelve immense ranches are in the grant and recently seven villages totaling 10,000 population sprang up in it. A thirty mile highway north of Edinburg to the Brooks county line was built through virgin forest included in the grant.

The decree was entered in the case styled Emily McManus versus Ruben Annidua, filed March 10, 1910. The case was filed by Judge James B. Wells, who prosecuted it vigorously until his death a few years ago. J. I. Kiebler and F. W. Wabury, both of Brownsville, have continued the work since. Despite 20 years of litigation, the land has been developed steadily, but more rapid development now is anticipated.

Pending 32 Years
The same decree disposed of a companion suit styled Amado Cava versus Jesus M. Vela filed here March 22, 1926, which has been pending 32 years.

The only other suit of a similar type pending in Hidalgo county affecting titles in ancient Spanish grants seeks to clear titles on the Lucio grant, comprising 600 acres west of Mission. It was filed in 1926.

erman Gives Name To Fuel Called Gas

Gas was named by a German scientist because of an experiment with coal. This scientist and the atmosphere surrounding coal separating into a gas, gave it the name of "gas" or "gas".

MAJOR KELLY KILLED
NEW YORK, July 24 (AP)—Major Michael A. Kelly, 0, wartime com-

mander of the Third Battalion of the 168th Infantry, accidentally shot himself fatally while cleaning his service pistol yesterday.

One of the earliest records of engineering events dates back to about 74 B. C. when Archimedes described his famous invention—the screw.

TEACHERS TO GATHER FOR ANNUAL MEET

CANYON INSTITUTE TO BE HELD SEPTEMBER 1, 2 AND 3

(Special to the Journal)
CANYON, July 24.—The Consolidated Teachers Institute and Association of the north Panhandle Plains section will hold its annual meeting Monday, Tuesday, and Wednesday, September 1, 2, and 3, in Canyon at the West Texas State Teachers college under the direction of P. E. Savage who has been conductor of the institute for the past four years.

According to Mr. Savage there are already enough cities and counties signed up and pledged to attend the meet here to make 600 or 800 teachers present. More letters of acceptance are being received daily.

The organization of the institute will emphasize three types of school work. The group sections will be for specialized work in teaching. There will be lectures by prominent people from the educational world and other platform speakers. Entertainment for those attending will be planned and directed.

The management has secured the services of six supervisors from the State Department of Education. These include A. M. Blackman, chief supervisor of the high schools; Miss Lundel, supervisor of English work; Miss Henderson, supervisor of social science; R. N. Sandlin, specialist in physical education and health. Practically all of the time of these supervisors will be taken up with conferences with those teachers who desire help with their problems. In addition to this there are to be people for lectures in sections and general assembly of national reputation.

Mr. Savage states that all counties and cities of the region are invited to participate in the institute.

Railroad Is Taken Out Of Receivership

NEW YORK, July 24 (AP)—The Trinity and Brazos Valley railway has been taken out of receivership and the name shortly will be changed to the Burlington Rock Island railway. Frederick E. Williamson, president of the Burlington said today. The road is jointly owned by the Burlington and Rock Island trackage rights have been arranged over certain parts of the road with the Southern Pacific and Missouri, Kansas and Texas.

PORTLAND, Me. July 24 (AP)—Donations of \$500,000 to Dowdell college and \$100,000 to the Maine General hospital here by Cyrus H. K. Curtis, Philadelphia publisher, were announced today.

CONGRATULATIONS ARE EXTENDED TO TWO GREAT PUBLIC SERVANTS

West Texas Gas Co. And South Plains Pipeline Co.

The Construction Of Mighty Empires
Must be of building materials of economy and strength.

Millions are invested, years of hard work and planning, is the program of every growing empire, and the keen minds of industrious people demand and build with materials of Lasting Qualities.

When today's work is completed it must be a lasting foundation upon which to create and construct greater memorials of the tomorrow.

The South Plains Pipe Line Company and the West Texas Gas Company demand a building of permanency, beauty and serviceability for the decades to come.

Would it not be folly to think that a great organization or individual could progress, if each day they had to rebuild their home and lay a new foundation?

Foxworth-Galbraith Lumber Company today as in the past plays a major part in the construction of South Plains Growing Industries.

We are serving that which represents true Quality and Economy for defective materials hinder the development and growth of our Country.

BUCKLEY SAID TO BE MIXED IN GANG ROW

POOR CONTRIBUTING TO BUY FLOWERS FOR HIS FUNERAL

(By Associated Press)
DETROIT, Mich., July 24.—While poor people who considered "Jerry" Buckley their champion today, were contributing funds to blanket his casket with flowers, police said they had in their possession an affidavit purporting to show that the radio announcer, who fell before a rain of bullets early yesterday was extorting money from bootleggers.

Buckley was political commentator for station WMBC and had taken an active part in the successful campaign to recall Mayor Charles Bowles. He was slain in the lobby of the La Salle hotel, where he lived and in which the radio station is located, two and a half hours after he made the announcement that the mayor had been called from office in Tuesday's special election.

Activities Reason
His brother, Paul, former assistant prosecutor, declared "Jerry's" activities for the recall was the "sole reason" for the slaying. Police advanced other theories—that

he had made gangland enemies through his attacks on gamblers, that he was witness of a gang slaying, that he might have been extorting money from gamblers and bootleggers.

"Jerry" Buckley championed the cause of the unemployed last winter when thousands were in distress. He broadcast pleas for aid, directed programs of cheer to them and, according to intimate friends, spent

all his savings in responding to personal requests for money.

His efforts in their behalf won him the friendship of the poor. An announcement by Police Commissioner Thomas C. Wilcox that he had a sworn statement from an admitted bootlegger accusing Buckley of extortion revealed that the police were investigating an assumed possible connection with the underworld as one of several theories

for the slaying.

The name of the accused was withheld. The affidavit said that Buckley had induced him to take up liquor running. After he became connected with a prosperous bootlegging gang, the affidavit said, Buckley demanded and received sums aggregating \$4,000.

Commissioner Wilcox is to appear before the city council today with a report of progress in solving the

city's latest and most sensational slaying by gangsters. There were indications that the commissioner's resignation would be asked if that report did not convince the council that progress is being made.

Wilcox promised the most thorough cleaning the city has ever seen and at the edge of the city the state police post has been augmented by all men available from other posts to assist in the cleanup.

MEDICAL EDITOR DIES

NEW YORK, July 24 (AP)—U. Walter M. Brickner, 55, editor of the American Journal of Surgery, since its establishment in 1905 died suddenly Tuesday of angina pectoris at his summer home on Long Island.

Stenographers in Iceland prefer American erasers to all others.

"That Which Serves Best Serves Most"

Goodyear Tires are chosen by the world's largest industries in every country—and the great industries are servants of the people. Their service is founded upon the rock of mass economy to the people. Making possible progressiveness for whole empires.

To make possible a progressive service to the people in the countries in which they serve, these large industries must equip their organizations with equipment that is economical and dependable without any question of a doubt.

Extravagant errors in selecting equipment make it impossible to render a progressive service of economy to the people.

The Grimes Tire Company is happy to announce that Goodyear Tires today are playing no small part as choice equipment for the fleet of heavy duty trucks and the many other motor units of the West Texas Gas Company and the South Plains Pipe Line Company.

We wish to thank these two firms for their faith in Goodyear, and congratulate them upon their belief in the South Plains with Lubbock as its "Hub." Vast fortunes have been expended in efforts to further develop this great empire that they have chosen to make their home. We welcome them to Lubbock.

And Again We Wish to Extend Congratulations to

MONEY RATES LOWEST THAN IN FIVE YEARS

CONDITIONS SAID TO BE BETTER IN REPORT

(By Associated Press)
WASHINGTON, July 24.—Open market money rates have declined to the lowest point in more than five years and the rates charged customers to the lowest level in two years.

The federal reserve board said today in its monthly review of financial and business conditions the drop was due chiefly to the continued policy of ease on the part of federal reserve banks, represented in June by the purchase of \$50,000,000 of government securities in the open market, reduction of reserve bank buying rates for bankers' acceptances and further reduction of discount rates at Cleveland, New York and Chicago.

Rate Reduced
"The discount rate at the federal reserve bank of New York, as reduced on June 20 from 3 to 2 1/2 per cent, is now the lowest that has ever been established at any federal reserve bank," the board said. "Reserve bank credit outstanding decreased in June by about \$22,000,000, and at \$977,000,000 for the week ending June 28 was \$344,000,000 lower than a year ago, with discounts for member banks at \$257,000,000, nearly \$750,000,000 lower than a year ago."

Member bank credit outstanding, which has been increasing since February, increased further in June to a level higher than at any other time except at the end of 1929 and during the October-November break in the security market.

Conditions Easier
The board said easier conditions in the open market, evidenced in particular by low rates for call loans, acceptances, and commercial paper, at a time when the effective demand from customers for over the counter loans has been lessened by business depression, had influenced member banks to increase their holdings of investments.

The board said available information for member banks outside leading cities indicated that the position of those banks in June was easier than at the same season of any other recent year except 1927.

HERE'S NEWS

Radios To Tell When Time To Be Turned Off

LOS ANGELES, July 24 (AP)—A scheme whereby radios will inform their owners it is time to turn them off is being prepared in the form of an ordinance by the county board of supervisors.

Tired residents in the neighborhood of miniature golf courses are responsible. Under

the proposed ordinance a modern curfew signal will be broadcast at 10 p. m., which will mean the end of radio music for the night at the golf courses. The ordinance will contain a clause closing the courses at mid-night.

ONE DIES IN FIRE

SAN FRANCISCO, July 24 (AP)—Fire aboard the liner President Polk at pier 42 last night caused the death of a crew member and imperiled the lives of 50 passengers. Firemen equipped with gas masks and chemical tanks extinguished the blaze, the damage being small. A. Martinez, a ship scaler, died from suffocation.

INDIANS HOLDING ANNUAL SUN DANCE ON RESERVATION IN IDAHO: FEAT IS THANKS OFFERING TO SUN AND SUN GOD

(By Associated Press)
POCATELLO, Idaho, Jul 24.—More than half of the Indians who began Monday evening their annual Sun dance on the Fort Hall reservation continued their devotions with the starting of its third day. The incessant throbbing of drums intermingled with the shrill chanting of the squads and the piercing notes-of-whistles blown by the dancing warriors, as a large crowd

of impassive Indians and interested white persons looked on. **Explains Dance**
The ceremony was halted for a few minutes last night while George P. Lavatta, leader among the Indians and an employe of the government industrial service for the tribesmen, explained the meaning of the dance. Declaring that to the Indian it was a religious rite of solemn im-

port, he asked that proper respect be shown by the white visitors. While there was little knowledge of the origin or antiquity of the dance, it was held for the benefit of the sick and infirm among the Indians, in the hope of restoring their health and strength.

Buffalo Head Taken
The buffalo head, sheaves of grain and lodge poles play a prominent part in the ceremony, which is a thanks offering to the sun and a petition for the Sun God's continued beneficence.

Weaving through the ancient steps and postures of the Sun dance, the weary braves shrilled high pitched tunes on willow whistles, their bloodshot eyes fixed steadfastly on a sacred token; a buffalo head elevated in the center of the

arena. Half the dancers chosen of the Shoshone, Bannock and Lemhi tribes had succumbed to exhaustion, thirst or hunger, since this father of endurance contests began Monday night.

The dancers cannot pause for food, water or rest during this annual period of worship. About the wildly leaping dancers sat the elders of the tribe, hoping to benefit from the supplication of their children for health and strength.

Squaws busily prepared a huge feast of barbecued meats which was to mark the end of the dance.

Russia produced one-fourteenth of the world crude oil production last year.

Local Residence Is Damaged By Flame

Several hundred dollars damage resulted from a fire early yesterday which started inside the home of H. E. Tippit, 1812 Avenue O, according to reports from the local fire department.

The blaze was attributed to firemen to spontaneous combustion in a closet of the one-story structure. The roof was burned through from within and considerable damage also was done to contents of the dwelling. Most of the damage to furniture was done by water.

Imitation jewelry is being sent by air from Austria to European markets.

ANTHONY CO. and Plumbing

Today we take off our hats in thanks for the services that has been placed at our feet and the feet of the people of the South Plains.

By these two great servants.

West Texas Gas Co.

and

South Plains Pipe Co

Yet the extent of their services and their progressiveness on the South Plains rest not only on the facilities with which they have to serve the people of the South Plains, but the health of their man power that they command to make possible daily achievement.

Stop! and look back over history, and you will see that a nation and all its man power failed to conquer the Panama Canal until the Health problem was solved. And that required the finest medical staff of America.

The service of the new building that will house the South Plains Pipe Line Co. and West Texas Gas Co. will continue so long as Health is the Watch Angel over their man power.

In the walls of their new home are vines of steel and plumbing engineering that is permanent, meeting all and more than the general health requirement of the constructor, and provisions provided for by our health laws.

Anthony Co. again congratulates the South Plains Pipe Line Co. and the West Texas Gas Co., on the founding of their new home in the City of Lubbock and for the service that they offer to the citizens and the industries of this young industrial empire.

**NEW TUBES IN
TREATMENT BY
X-RAY SOUGHT**

**OWNERS UNLIMITED IF
TUBES DEVELOPED,
IS CLAIM**

BY HOWARD W. BLAKESLEE
Associated Press Science Editor
NEW YORK, July 24 (AP)—New
tubes to unlock far reaching heal-
powers of x-rays are sought by
Radiological Research Institute,
latest American scientific so-
incorporation of this institute in
aware was announced today by
acting president, Dr. Edwin
Ernst of St. Louis. The
to produce x-rays of a power
unavailable, Dr. Ernst said, are
of the first objectives. Deeper
penetration is sought, and faster
ion so that the rays can be used
"stop" the image of a moving
ernal organ, which now appear
a blur.
Uses Extended
"x-rays," said a statement by Dr.
at and Dr. Rollin H. Stevens
Detroit, secretary of the insti-
are finding rapidly extending
They relieve infections, skin
ditions, pneumonia and asthma.

they are the most effective treat-
ment for a common pimple afflic-
tion and for boils and carbuncles.
They help some kinds of cancer.
"We now produce x-rays of from
6,000 to 250,000 volts. If we went to
300,000 or 400,000 volts we could
get practically radium rays from an
x-ray tube, and we know results
would be better.

Lack the Tubes
But we cannot go that high, for
we lack the tubes to stand it. One
man gets a desirable result but an-
other trying the same treatment
fails, sometimes because of irregu-
lar output from tubes. In seven
years there has been no real im-
provement in American x-ray tubes,
though meanwhile science has gone
beyond the capacities of most do-
mestic tubes.

"Accurate measuring of x-ray
dosage is becoming vital. There is
no more powerful poison than an
overdose of x-rays or radium. For
safety the rays should be stand-
ardized under government regula-
tion. But we cannot do this with
tubes of the present irregular per-
formance. We aim to use research
to help produce better American
tubes. Europeans are ahead of us
in this respect."

Cheaper radium is another ob-
jective. Others are American con-
trol of its own radium supply, es-
tablishment of a central radiologi-
cal research laboratory, fostering
pure radiological research in col-
leges, cooperation with the national
institute of health created by con-
gress, and an advisory board of 50
scientists to extend x-ray research
uses into all walks of life. Any pro-
fits go to radiological research.

**GET PROTECTION
Women Take Over
Fire Department's
Work**

PITTSBURGH, July 24 (AP)—
The next time there's a fire in
Chalfont borough, just outside
Pittsburgh, the big fire truck
will roar out of the station house
with Mary Fedoris driving the
machine. Mary's mother, Mrs.
Mary Fedoris, will be there too,
too, to act as assistant to Mrs.
Sara Long, the chief, and these
women will direct an attack on
the flames entirely by women.
The trouble has been that
when the menfolk are at work,
the town has been without fire

protection. So the women have
organized a fire company of
their own.
The uniforms are lovely-
white, with white hats.

JUST A BULL-SNAKE

TAHOCA, July 24—(Special)—
When Frank Hill, managing editor
of the Lynn County News, looked up
the other afternoon as he heard the
office screen door bang, he thought
he was seeing things. E. J. Cooper, a
farmer, handed to the youthful ed-
itor a bull snake and remarked,
"this is what we raise out our way
without any special attention." The
snake—dead, measured seven feet,
two inches.

WASHINGTON, July 24 (AP)—Loss
of a pocketbook containing a \$2-
500 diamond ring, two checks total-
ing \$2,976 and \$4 in cash has been
reported to police by Representa-
tive Denton of Illinois.

**ALLEGED NIGHT RIDERS ENTER PLEAS
OF NOT GUILTY TO RIOT CHARGES IN
OKLAHOMA; BONDS OF \$2,000 ORDERED**

OKLAHOMA CITY, Okla., July 24
(AP)—A score and one accused night
riders of the little Erick community
were charged with conspiracy to
violate constitutional rights in con-
nection with the alleged ousting of
200 negroes from their homes by
"night riding" circulation of peti-
tions and other means.
Slaying by a negro at Shamrock,
Texas, of Mrs. Henry Vaughan, a
former Erick resident, preceded the
alleged depopulation attempt, which
nearly precipitated open rioting over
a week ago.

**Senator Sheppard
On Way To Texas**

WASHINGTON, July 24 (AP)—
United States Senator Morris
Sheppard is on his way home to
Texas.
Declaring insufficient time re-
mained for him to make a cam-
paign for renomination in Satur-
day's primary, he said: "I submit my
candidate to the people and I shall
cheerfully abide the result."
"I am leaving for Texas at my
first opportunity since final ad-
journing of the senate Monday,"
he said. "It has been necessary to
close up a large number of imper-
ative official matters today. I re-
gret that sufficient time does not
remain for me to make a personal
campaign and render a personal ac-
counting of my stewardship to the
voters of Texas."
"I want the people of Texas to
know I have given as much atten-

tion as I possibly could to my can-
didacy in face of one of the busiest
and most exacting periods the sen-
ate has ever known."

SWISHER COUNTY FAIR

TULSA, July 24—(Special)—Erec-
tion of a building that will have
a dual service—a community build-
ing and one for the Swisher county
fair, is to be erected here soon.
Cost will be \$9,000. The structure
will be modern, with kitchen equip-
ment, a dining room, etc. Also the
building will be used for calf shows.

WINDSTORM HITS CITY

VANWERT, Ohio, July 24 (AP)—A
windstorm which whipped over this
city today caused damage estimated
by fire officials at \$100,000.
Roofs were torn away and several
small buildings were severely jarred
by the force of the storm.
No one was injured.

OWNER OF THE BUILDING

SURVEY SAYS NATURAL GAS NOTHING NEW

FAR DISTANT PAST OF B. C. ERA BROUGHT GAS TO CHINESE

Natural gas is not something new, although we are prone to think of it as being a product of as recent as two or three generations ago.

Nr. is the piping of natural gas from the place where it is found in its native state to another place where it can be used by man, a modern affair.

Chinese Found It
In fact, the Chinese, who by the way should be credited for several modern inventions including printing from moveable type, gunpowder and the like, should also have the credit for the discovery of the first natural gas as far as history records and the first piping of gas.

Back in the far distant past, in the B. C. era, as far as modern historians now count time, the Chinese, in boring for salt in wells,

found natural gas. They captured it, controlled it and sent it through long, slender bamboo poles to their salt plants and made some use of it, to evaporate the brine.

It was not until 1865, when some men drilling for oil in West Bloomfield, N. Y., found to their surprise that their tools were tossed up through the hole as they drilled. The men were going after oil and had been employed to drill 800 feet. At about 480 feet a pocket of natural gas was found and the tools came hurtling up through the pipe and on top of the ground. It was natural gas but not oil. They were disappointed.

Match Starts
Somebody struck a match and the vapors were lighted and burned. For miles around the flame could be seen and close to the hole papers could be read at night.

A more practical man decided to put the new illuminator to use so a dancing pavilion was built and a dining room and people came there from the territory for miles around to dine and dance at night by the new form of light.

Thus was begun the use of one of nature's mysterious powers that has revolutionized the world and especially the United States. Today thousands of communities, undreamed of in 1865 and for a generation afterwards, are being served by gas transported hundreds of miles through steel pipes.

Valley Man Charged In Youth's Death

HARLINGEN, July 24. — Charges of negligent homicide have been filed against Frank Hinojosa of Mercedes in connection with the death of Howard Lawson, 13, of La Feria, who died after being struck by an automobile on a highway near La Feria.

Lawson was riding on a donkey at the time of the accident. Hinojosa was released on \$1,000 bond pending a hearing in La Feria.

Oil Men To Meet In Santone Tonight

SAN ANTONIO, July 24. (AP)—More than 150 men are expected to attend the regional meeting of the Independent Petroleum Association of Texas here tonight. All the oil fields and sections of southwest Texas will be represented. General topics of interest to the independents will be under discussion.

The principal speakers will be State Senator Walter Woodward of Coleman; J. D. Parnell of Wichita Falls, former state senator, and Claude C. Wild of Fort Worth, executive vice president of the association.

Annie Laurie is not a flibbertigibbet character. She was the daughter of a Scottish knight and was born about 1682.

"Miss Cuba"

The artists, sculptors and physical culturists who judged the Cuban beauty pageant had but a single thought when 100 fair contestants had paraded before them. They awarded the island republic's pulchritude prize to Senorita Mercedes Lornaz y Perdomo, whose smile is pictured here. The 20-year-old daughter of a prominent Cuban family will go to Rio de Janeiro in September for the international beauty contest.

Torsion Balance Survey Is Made

FLOYDADA, July 14. (Special)—A torsion balance survey of West Texas extending from Wilbarger county into eastern New Mexico is being made by the Gulf Production company. C. S. Wolston in charge of the crew of surveyors announced here.

Mr. Wolston says the work has been completed to this side of Paducah and that Floydada will be headquarters for the work while in this part of the state. He expects to be here two months.

Torsion balance machines are used to aid in determining the type of the structures of the earth beneath the surface. Oil companies use the reports in making up a geological survey of a designated section.

RANCHER FOUND SHOT

SAN ANGELO, July 24. — William W. Henson, 27, was found shot to death on a ranch 35 miles southeast of here Monday. B. W. Smith, justice of the peace, found the wounds were self-inflicted. His father, O. N. Blanton, was en route here from Tulsa, Okla.

Natural Gas

(Continued from Page 1)

ay of this week. The West Texas Gas company, which Nelson K. Moody of Independence, Kas., is the president, has organized a little more than three years ago and has been in operation since the latter part of '27.

Patronage Grows
In that time the company has increased its number of customers until the last report showed 15,744 meters in 37 towns in 23 counties of the South Plains. Growth of the concern has been

phenomenal. The total number of cubic feet of gas used in 1929 was nearly double that of the previous year, the first full year of operation.

Number of customers served is showing a steady increase each week. R. F. Hinchey, vice-president and resident executive, said, while the company is planning to extend its service to include several more towns this year.

Buildings Constructed
"We own our own office buildings in 14 towns," Mr. Hinchey said. "We feel that the office building is probably the only property that the general public sees that belongs to a gas company. Therefore, we have spent more money perhaps on these

buildings than other companies might." Besides the Lubbock office building, which is leased, the company has its own buildings for local offices in Canyon, Tulla, Plainview, Quitaque, Turkey, Floydada, Ralls, Slaton, Tahoka, Brownfield, O'Donnell, Lamesa and Midland.

Investment of the company in its properties is close to three million dollars, Mr. Hinchey said. This includes 410 miles of pipe line in the distribution systems of the towns. It does not include the pipe line company investment as the gas company buys its gas from the distribution system. Since starting operations the

company has conducted services and schools to show customers how to save money on their gas bills, how to get the most use out of the gas and also best types of appliances, etc. The company has display rooms in 23 cities and towns and in these rooms has complete stocks of stoves, ranges, water heaters and other necessities used by homes and business houses.

"Our service department makes minor adjustments in appliances," Mr. Hinchey said. "We do this free so that our customers will be able to get the fullest use of natural gas and to be able to cut down on their bills. We hold to the policy that a satisfied customer is a good advertisement for a utility company and we want to render the best possible service to our customers and friends."

Employees Number 150
There are 150 regular employees of the company in all of its towns. These employees are paid in excess of \$15,000 a month in salaries.

In Lubbock alone there are over 40 employees, including the general office force. Salary totals for Lubbock are over \$2,500 a month.

A school for employees has been planned for the fall at which gas company experts and service men will give instruction to employees on the building up and maintenance of an organization that will render the best service possible to the public at large. Details have not been worked out.

Most of the employees of the company are experienced in the gas utility business. The president, Nelson K. Moody of Independence, Kas., has a strong financial background. When the Oklahoma Natural Gas company bought the Oklahoma property he was retained as the local manager of the plant because of his splendid record.

Other Lubbock officers are: L. W. Bell, assistant secretary, formerly connected with several large gas companies in Oklahoma and Kansas including the M. and O. system.

W. W. Rathburn, assistant treasurer, here from Pittsburgh, Pa., where he was in the offices of large utility companies.

J. L. Ryan, formerly of Tulsa, superintendent of city plants.

M. Curry, chief engineer, graduate of the University of Texas and a former Temple resident.

Ed Parker, in charge of material and stores, Mr. Parker was with the Union Gas company of Independence, Kas., for years.

M. L. Gillilan, recently with the Oklahoma Natural Gas com-

Beauty Queens of London Society

They're reigning beauties of smart London society. Miss Kathleen Greenwood, right, is a daughter of the Honorable Arthur Greenwood, a member of Parliament. Lady Ursula Horne, center, a daughter of the Second Marquis of Dufferin, now is the wife of Arthur N. Horne, prominent in London financial circles. Lady Sholto Douglas, noted society leader, is shown at the left in a new posed portrait.

NEA London Bureau here while in the employ of the company.

C. I. Wall, purchasing agent, graduate of the University of Kansas.

Towns served by the company include: Canyon, Tulla, Plainview, Quitaque, Turkey, Lockney, Floydada, Lubbock, Ralls, Crosbyton, Hereford, Priona, Sudan, Littlefield, Levelland, Slaton, Post, Tahoka, Brownfield, O'Donnell, La-

mea, Odessa, and Midland, with offices and display rooms, and Happy, Kress, Silverton, Hale Center, Abernathy, Idalou, Lorenzo, Bovina, Amberst, Anton, Shallowater, Southland, Wilson and Stanton, with local offices.

Each town has a resident manager in charge of the business. Petersburg and Meadow have recently granted franchise to the company to install distribution systems. Seagraves and Muleshoe also have granted franchises and these systems are expected to be installed this year. Work on the new system at Dimmitt has been started.

Fire Losses Show Decrease In State

AUSTIN, July 24. (AP)—A decrease of \$142,679 in the fire loss for June 1930, under the loss for the same month in 1929, was noted in a report released today by J. W. DeWesse, fire insurance commissioner. Damage from fires caused by matches and careless smokers led list with \$120,234.

Fires from unknown causes, however, caused damage estimated at \$432,286.

The total damage from the 400 fires reported to the department during the month was \$627,266. Twenty-five fires from incendiary origin, causing damage estimated at \$37,991, were reported.

Poor Farm Inmate Charged In Death

AUSTIN, July 24. (AP)—A charge of murder was filed here today against N. B. Smith, inmate of the county poor farm, in connection with the

PIPE LINES

(Continued from Page 1)

of 16, 18, 12, 10, 8 and 6-inch mains and enabled 15 towns to be served. Canyon, Tulla, Plainview, Happy, Kress, Hale Center, Abernathy, Lubbock, Idalou, Lorenzo, Ralls, Crosbyton, Lockney, Floydada and Slaton.

The following year 211.5 miles of line, to serve eight towns, was the year's work. Hereford, Midland, Lamesa, O'Donnell, Post, Stanton, Southland and Tahoka were served.

Only 88.5 miles of line was the 1929 work, but five more towns, Silverton, Quitaque, Turkey, Brownfield and Wilson, were connected up with the constantly growing system.

This year 124.5 miles of line have been laid to serve Levelland, Littlefield, Shallowater, Amberst, Anton and Sudan. Before the beginning of winter it is probable that 93 additional miles will have been laid, to Muleshoe, Dimmitt and Seagraves.

During periods of construction as high as 300 men have been employed on the lines, with a payroll of from \$20,000 to \$30,000 a month. As Lubbock alone, about 50 men are regularly employed by the company, with a monthly payroll of \$7,500, or \$90,000 a year.

slaying yesterday of J. W. McForkin, another inmate, who was fatally wounded when struck over the head with a cane. Smith who fled immediately after the quarrel, was arrested late last night.

FIRST NATIONAL BANK

PASSAGE NEAR ON TREATY IN GREAT BRITAIN

SECOND READING GETS ADOPTION BY HOUSE OF COMMONS

(By Associated Press)
LONDON, July 24.—The house of commons last night adopted on second reading the bill embodying legislation on the London naval treaty, thus virtually insuring that it will be enacted.

A third and final reading will follow but that largely is a formality as action on the second stage is considered equivalent to ratification. Meantime the bill has been referred to the committee of the whole, where only routine action is regarded as likely.

Japan Is Debating

When the measure is officially adopted on third reading the treaty will have been ratified by two of the signatories, as the United States senate approved it this week. Only Japan is yet debating.

The naval treaty was signed by the British government and would be binding in any case, but C. G. Ammon, parliamentary secretary of the admiralty, explained in urging approval last night that supporting legislation was necessary to give full legal effect in quarters other than governmental.

The legislation also contains alterations of agreements Great Britain made in the act enforcing the Washington naval treaty of 1922. Those were provisions forbidding the building of certain types of war vessels, superseded by clauses in the London document this year.

Debate Is Brief

Debate on the measure was brief although the conservatives objected mildly to what they called undue haste. Stanley Baldwin, former premier, and others preferred postponement until after the imperial conference this fall but they did not press their objections.

Some criticism of the contents of the treaty was heard, but government spokesmen observed that the commons need not waste time in criticism, as it could not amend the pact if it wishes.

In reply to conservative questions government leaders said the dominions had given assurance they would support the legislation necessary to put the naval pact into effect.

BROWNFIELD MAN GIVES REPORT ON LIONS' SESSION

(By Staff Correspondent)
BROWNFIELD, July 24.—High lights of the International Convention of Lions clubs, held last week at Denver, Colo., were given the Brownfield club at its regular meeting Wednesday noon in the Brownfield Hotel cafe by W. W. Price, new president and the delegate of the local organization.

Mr. Price, who returned Tuesday with Mrs. Price and their two children and Miss Catherine Holgate, spoke of the part that the international organization is playing in the development of a feeling and spirit of peace and good will throughout the world.

Five Nations Represented

There were five nations represented at the convention and five flags on the platform. Mr. Price said, "Our next convention is to be at Toronto. We go there because the leaders of the organization feel that this is a part of our program of improving international relations and good will."

More than 4,000 persons attended the gathering, Mr. Price said. Denver spared nothing in the way of entertainment features. During the four nights of the meeting there was something in the way of recreation and entertainment every night. "Every state delegation was highly organized," he said. "I don't know how quickly they did it, but the Texas delegation was organized and went after things. I found I was not there from Brownfield, but from Texas."

At the close of his address Mr. Price suggested that the club make plans for holding an evening meeting soon, with the wives of members as guests. The club probably will invite a number of non members and their wives also to attend.

It was also suggested by the president that an auxiliary might be formed. Some of the clubs are forming Junior Lions clubs and this movement may be started soon.

Purchase Of Stock Is Reported Closed

NEW YORK, July 24. (AP)—The New York Herald-Tribune says the Southern Pacific railroad is understood to have purchased from New York Investors, Inc., 135,000 shares of voting preferred stock in the St. Louis Southwestern railway, acquiring almost a 40 per cent interest, or working control of the 1700-mile line.

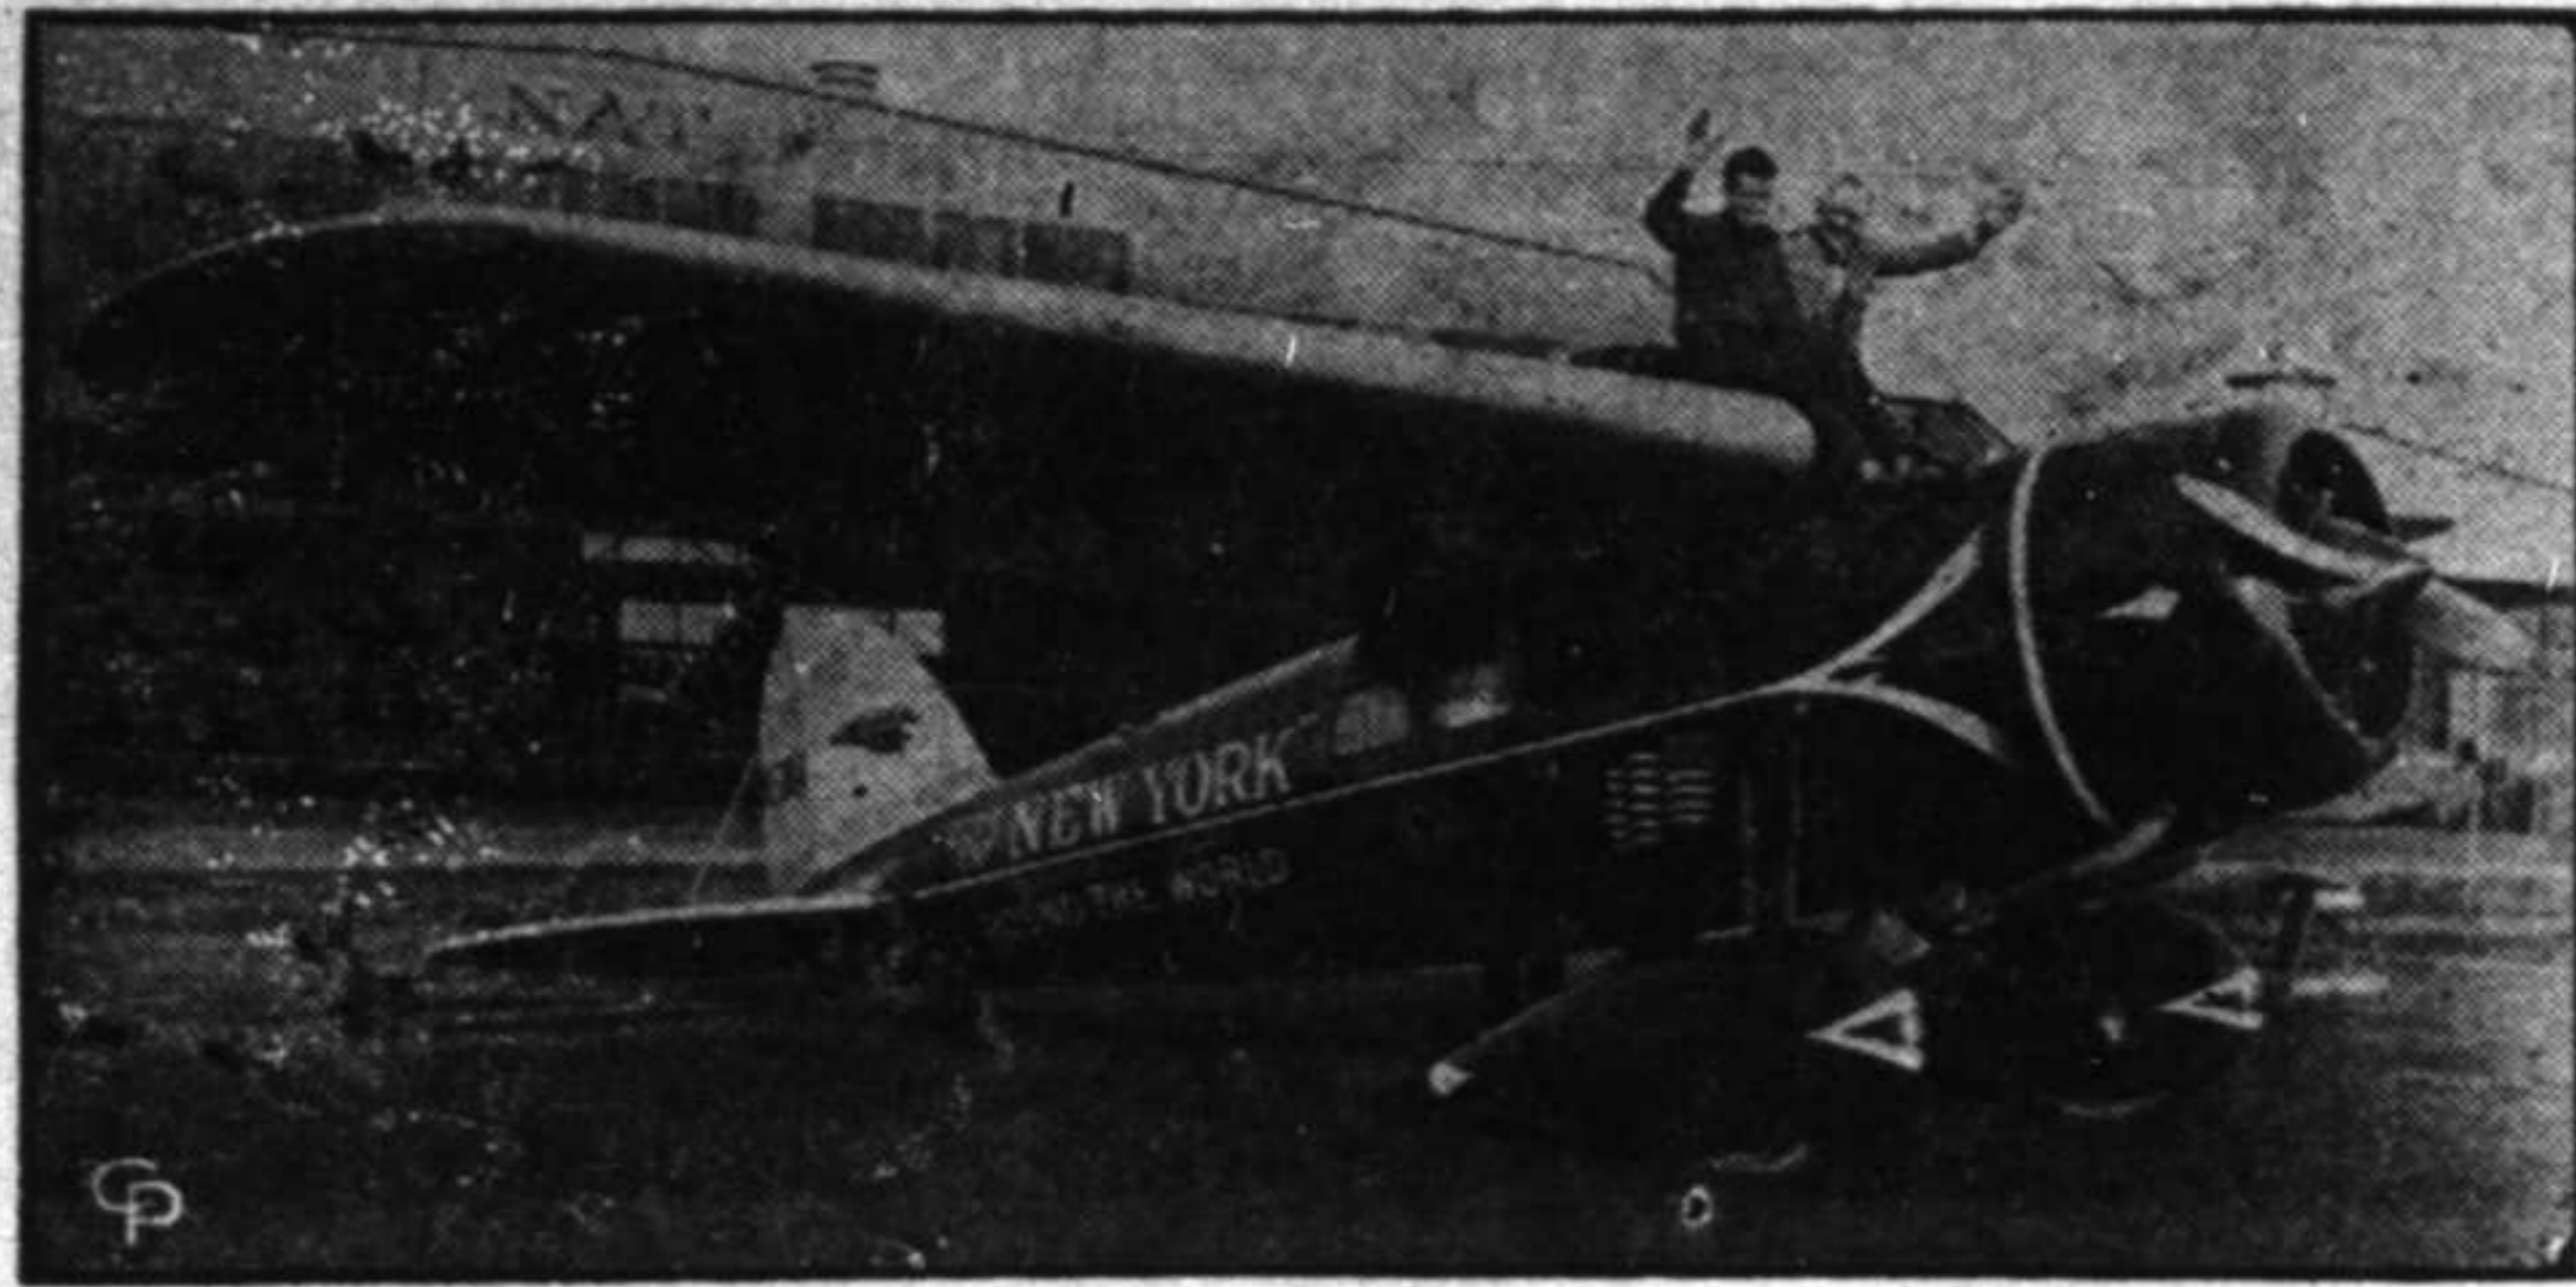

Executives of the Southern Pacific, the Cotton Belt, and New York investors said they were unable to discuss the matter at present, but the Herald-Tribune attributed their silence to a wish to withhold announcement until formal application is made to the Interstate Commerce Commission for permission to drop the deal.

The St. Louis Southwestern runs from St. Louis south through Missouri and Texas.

COOL IN ENGLAND

LONDON, July 24. (AP)—While the United States is battling from a prolonged heat wave, Great Britain is experiencing one of the most unusual summer cold spells in years.

Flyers Ready For World Record Flight Try

John Henry Mears, author and globe-trotter, and Henry J. Brown, veteran air mail pilot, will take off soon in their monoplane, "The City of New York," in an attempt to set a 15-day-around-the-world flight record. The present record of 21 days was set by the Graf Zeppelin. The photograph, snapped at the Chicago Municipal Airport, shows Brown (left) and Mears seated on the plane.

TRAGEDY ENTERS TRIANGULAR AFFAIR IN PARIS; TITLED LADY TAKES SHOTS AT PHYSICIAN'S WIFE; SHE MAY LIVE

(By Associated Press)
PARIS, July 24.—Lady Owen, beautiful and wealthy titled woman, was held in Versailles prison today under charges of shooting and wounding the wife of Dr. Paul Gastaud, widely known Paris radiologist.

Police said Lady Owen, the French-born widow of Sir Theodore Charles Owen, shot Mme. Gastaud as the climax of a triangular drama.

Changed in Mind

About a year ago, they explained, Lady Owen became a patient of Dr.

Gastaud and an attachment grew between them. Police alleged Dr. Gastaud promised to divorce his wife and marry Lady Owen, but changed his mind and yesterday told Lady Owen of his intention to break with her.

At first she appeared resigned but later told Dr. Gastaud's partner, Dr. Bernard, that she meant to shoot Mme. Gastaud. He hastened to the Gastaud-Marylerot residence, arriving in advance of Lady Owen. When she reached the house he reasoned with her and she ap-

peared impressed, agreeing to leave if permitted to see Mme. Gastaud.

Fires 5 Times

Just then the physician's wife entered, police said, and Lady Owen fired five shots from a revolver concealed in her scarf. Four bullets took effect. Lady Owen then asked Dr. Bernard to call the gendarmes.

Mme. Gastaud's condition today was grave but it was believed she had a chance for recovery.

Lady Owen is 34 years old, the daughter of a French naval officer. Mme. Gastaud is 42.

FISHING SMACK SEIZED

NEW YORK, July 24. (AP)—The fishing smack, *Antonia*, loaded to the waterline with 1,000 cases of whisky, valued at \$75,000 was seized by the coast guard in Ambrose channel today.

CHARTERS GRANTED

AUSTIN, July 24 (AP)—Chartered: Consolidated Loan company,

Amarillo financing without banking privileges. Capital stock \$150,000. Incorporators: B. G. Sharp, G. H. Pierce, Roy E. Perdue. Locomotive Engineers, Firemen

and Trainmen's Citrus Groves of America, Wichita Falls, improving and subdividing land in Wilacy county; 1,000 non-par value shares. Incorporators: H. E. Kelly, Bailey,

Kenley, R. O. Kenley, Jr. Amendments: Briscoe Motor Parts Company, Inc., Hartingen. Increasing capital stock from \$15,000 to \$25,000.
