ERATH FARMER IS KILLED

Tragedy That Costs the Life of One Erath Citizen and Involves Another in Trouble.

Saturday night about dark a tragedy was enacted near Chalk Mountain in the southeastern portion of Erath county and near the corner of Bosque county in which an honorable and highly respected citizen of the county lost his life.

James C. Long shot and killed his neighboring farmer, John Anderson.

The details of the tragedy, as sent in by our Chalk Mountain correspondent, under date of last Monday, the 26th, are as follows:

For some time Long has been having trouble with his neighbors because of their stock getting in his field. Among these neighbors was John Anderson, though the trouble between them did not amount to more than a complaint in writing from Long to Anderson about the former's mules getting in his pasture. A few days after this Mr. Long was passing the pasture and seeing the gate down stretched a wire across the gap.

Saturday evening Anderson was returning from the gin riding a mule and met Long with six of his children coming from their field in a hack. Anderson stopped and asked Long about his mules which had been getting in the field and finally asked who had wired up his gate. When Anderson told him that he did and the reason why, Long became enraged and a considerable coloquy followed. When Anderson started off Long said: "You will not live to wire up another man's gate" and drew a winchester as Anderson turned the mule about facing him. The bullet struck Anderson in the right nipple, passing through the lung and lodging in his back and he fell immediately. The injured man died at 8 o'clock Monday evening, after making a dying statement, with which our information is in accord.

Long went directly home after the shooting and gave himself up to Constable Bob Young, who communicated with the sheriff, who immediately went to Duffau and took Long to Stephenville and lodged him in jail.

Long is about forty years of age and is a native of Alabama. He first located near Iredell, where several years ago he removed to Texas and afterwards moved to his present homestead where he has resided about four years.

The deceased came to this section some eight years ago and bought a farm near Chalk Mountain upon which he has since resided. He was one of the best citizens of the county an honorable, conscientious and hard working man.

The feeling at Chalk Mountain is very high against the assailant, the matter being regarded as a cowardly assassination.

Long has a wife and nine children and Anderson a wife and three sons and two daughters.

Crossing The Atlantic.

Capt. Brown of Boston left that port August 11th to sail to Marseilles, France, on a sailing boat nineteen feet long and six feet beam. He arrived last Firday at Funchal, Island of Madeiva, and will have his vessel overhauled before continuing the journey.

After leaving Boston Capt. Brown put in at Halifax for supplies and left that port August 16th. On September 6th the craft was capsized in a gale, and the lone navigator was thrown overboard. After several hours of hard work Brown righted the boat and got aboard. He had lost most of his provisions and three of his four casks of water. The British steamer Green Brier sighted Columbia II. on September 17th and Capt. Brown was taken on board. After being supplied with food, water and his reckonings, latitude 7.21 north and longitude 42.45 west, Capt. Brown resumed his lonely voyage.

Volunteered as a Mark to Shoot At.

A son of Robert Vedder, who lives in Hill county near Kimball, was shot, and perhaps fatally so, by some boys, Charley Donaldson and a boy by the name of Jeffries, who also live in Hill county. The shooting occurred about three miles above Kimball on the Brazos river, which seperates Bosque and Hill counties. The facts in the case are about as follows:

The Vedder boy was on the Bosque side of the river sitting on the bank fishing when the two boys, Donnaldson and Jeffries, who were hunting and carried a target gun, appeared on the oppsoite bank in Hill county. The boys, all being acquainted, were hollowing back and forth to one another in a familiar way, when the Vedder boy gave the Donaldson and Jeffries boys the privilege of shooting at him. The two boys had perhaps taken a shot each at him, when they were told to shoot again. One of the boys made another shot, which hit the Vedder boy, the ball penetrating his body just above the heart. The chances for the boy's recovery are very doubtful.

The two boys were arrested and placed in jail in Hill county.

The boys are about fourteen or fifteen years of age.

Accident in New York Subway.

Ten men were killed by a cave-in of the walls of the new sub-way tunnel being constructed in New York. The accident was the most disastrous that has occurred thus far in the great works. Workmen who were out of reach of the falling debris inside the subway were thrown to the ground by the sudden rush of the wind.

The first victim found, an Italian laborer was pinioned on a shelf of the excavation by one leg, a boulder of about ten tons in weight having fallen on the limb. He was hanging head down. The rock which held him was restrained from falling further by a small piece of stone securely wedged under it. An examination showed that an effort to remove the boulder would cause the Italian to be completely crushed. The doctors then determined to amputate the pinioned leg, and this was done in the light of the ambulance lamp. The man, who was not identified, died later at a hospital. The other men, most of them Italians were completely buried under tons of rock.

Big Blaze with Little Loss.

A block of frame houses in Whitney was destroyed by fire early last Friday morning.

The fire originated in the City restaurant, upon the goods of which there was no insurance. It is supposed to have been set by mice from matches, these vermin having been very numerous about the places and so audacious as to have mutilated a five dollar bill in the cash drawer during business hours the Saturday previous.

The total insurance on all the buildings was $200, one policy of $300 more having lapsed a few days since.

The losses are given by the Messenger as follows: W. W. Johnson on restaurant stock and fixtures was $200; M. V. Anglin on six of the burned buildings $500; Frank Stewart barber shop fixtures and building over $500; J. N. Ballard on real estate office fixtures $25 or more; W. W. Walling on pool hall fixtures $300; Justice Knox lost all his court records, dockets and statutes; Mrs. C. E. McGlothing on frame building $275; the two telephone companies also lost about $25 in phones and the apparatus in the burned district.

This makes the third or fourth time this row of buildings has burned, the last fire having occurred June 21st, 1897, the Morrison stable having been consumed at that time and in which place the fire then caught. It was with much difficulty this time that the stable was saved.

Fatal Accident Near Gorman.

Gorman Progress last week said: News reached town early last Saturday morning of a fatal accident at the Kokomo gin, seven miles northeast of Gorman. Several bales of cotton were at the gin which necessitated a run at night and everything went smooth until about ten o'clock. The gin was stopped for a few moments, and when ready to start again, Joe Warren, who was assisting the engineer, caught hold of the drive wheel to start the engine, it started with such speed that it jerked him over and becoming entangled in the wheel was carried around perhaps twenty-five times before the engine could be stopped. His arms and legs were broken in a most shocking manner and he died next morning at three o'clock. He was a young man of twenty-two years and was the son of Mr. and Mrs. A. Warren, of that community.

Must Drink it Warm or Do Without.

Dublin citizens have organized a cold storage club.—Tribune.

The cold storage club failed to materialize, the oganization so eloquently portrayed by a Progress reporter not long since having been a canard. We understand, however, that such an organnization was seriously considered, but was given up for want of a sufficient number of persons who would agree to join. It's just as well that such is the case as the proposed organization, though not technically a violation of the law, is in fact a violation.

Law, a boy of twenty, was threatened with death if he moved but crawled on his hands and knees to his telegraph key and reaching from under the table wired the operator at Homestake to tell the engineer on the North Coast to stop, as the bandits meant to hold up the train at Welch's Spur. The train went through the latter place at forty miles an hour and the bandits then rode off.

CHILDREN KILLED BY FATHER

Bitter Tragedy Villian Flies to Sheriff to Escape Death at Hands of Enraged Neighbors.

Jesse McClure, a farm hand near Marion, Ind., murdered his two sons, aged five and seven years, last Sunday, leaving their bodies in a fence corner. While a mob was forming to capture and lynch him, McClure drove in a run to the city and gave himself up.

McClure had seperated from his wife a year ago she returning with the children to her father's home. At noon Sunday McClure drove to the home of Mrs. McClure's father. He found the children playing in the front yard and induced them with candy to take a ride with him. He drove a mile up the road, carried the children to a fence corner and shot them with a revolver. The older one was found dead a few minutes later and the younger was dying. A piece of candy was still in his mouth. To the jail turnkey McClure admitted the murder of his two children and said he had killed them because his wife had refused to see him. He said: "When she refused to see me I decided to be revenged and drove down the road to a little clump of small trees. Two children were asleep in the buggy.

"When I stopped the jolt awoke my little boy. He looked up to me and said: 'Papa what are you going to do?' I put my hands over his eyes and took my gun from my pocket and shot him in the forehead, killing him instantly. The shot awoke little Homer and I took him by the shoulder and fired a shot into his head. They both fell to the bottom of the buggy. I drove the horse to the side of the road and lifted both bodies out and laid them on the withered grass. I then drove directly to the Marion jail.

"The neighbors will lynch me when they find out what I have done. I don't care what you do with me, am ready to die and expect to hang for what I have done. All I ask is to see my dear little ones buried.

A mob was formed to lynch McClure, but the officers spirited him away to Indianapolis.

He Raises Honey Now.

W. G. Clements who lives four miles south of Maypearl in Ellis county, is making a record as a producer of honey in a small way. He has resided in the county for thirty-five years and has never been without honey of his own raising for his table, though he has until recently paid but little attention to his bees. During four years past his health has been such as to prevent him from doing much farm work and when he could do nothing else he has been looking after his bees. He now keeps about fifty stands and collects, after retaining sufficient for his own use, three thousand pounds of honey per year, which sells at from ten to twelve and one-half cents a pound. Recently he received one order from an eastern firm for four thousand pounds but was unable to fill it. He has also established a reputation as a raiser of fine stock and is given credit with bringing the first blooded stock to Ellis county.

Park Denies Interview.

Arecent special from Dallas says: Milton Park, chairman of the executive committe of the populist party of Texas said: "The address to the people of Texas that the executive committee recently instructed me to draw up, will not be ready for several days, in fact I have not yet started on it, but am waiting for advice from several prominent men of the party in different parts of the state. Their opinions may change the tone of it in some respects. I would like to see Hogg live up to that speech of his. If he does there may be a new alignment in Texas."

Mr. Parks claims he never gave out such an interview.

Do Good—It Pays.

A Chicago man has observed that, "Good deeds are better than real estate deeds—some of the latter are worthless." Act kindly and gently, show sympathy and lend a helping hand. You cannot possibly lose by it. Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlains Cough Remedy will rid you of your cold, and there is no danger whatever from peumonia when you use that medicine. It always cures. I know it for it has helped me out many a time." Sold at Overton's.

Farms Wanted.

I can sell your farm in Erath or any of the adjoining counties. My facilities for so doing are the best. I am turning away people every day because I have not the place that just suits them—yours might fill the bill. By mail I am getting from five to ten inquiries daily from people who are hunting new locations. These inquiries come from farmers who are selling out in the old states, and a great many from counties in this state. If you want to make a change now is the time to do so. My terms are reasonable and all business intrusted to me will receive my careful personal attention. If you cannot get in to see me at once, write, giving full description, price terms, etc. Do not wait until too late, let me hear from you at once.—W. R. McClellan, Real Estate and Loans, Stephenville, Texas. Office in court house, east side. 19tf

CISCO.

From the Apert.

Oct. 22nd.—There was a sensation in market circles last Saturday when one of the butchers slaughtered a $75 registered Durham calf by mistake. It appears that two calves had been tied in one of the wagon yards and when the butcher went for his the wrong calf was pointed out to him and the mistake was discovered too late. The thoroughbred was intended for a prominent stock man in Stephens county.

Rev. Geo. W. Sherman, pastor elect of the First Baptist church, will preach his first sermon here Sunday morning.

The wagon receipts of cotton in Cisco now run over 3,500 bales. The compress has received twelve thousand bales to date.

Confessions of a Priest.

If you want a reliable medicine for liver and kidney trouble, stomach disorder or general debility, get Electric Bitters. Its guaranteed by Overton Drug Co.

Brief Treatise on Finance.

The Progress is not much given to the idea of appealing through the paper to its patrons to pay up, but just now with the fall of the year on hand and paper bills, payments on new machinery, etc., looming up before us like a business worth lots of money, we are constrained to appeal to our patrons one and all to give us a lift.

It takes cash to pay our bills and we do not attempt to get out of paying, therefore the cash must come and we look to our patrons, and particularly the subscribers at this time of the year to come forward in a manner to relieve us that we may relieve the persistant demands of the fellow we owe.

The accounts due the Progress are mostly small ones, ranging from one to ten dollars, and while small to each individual aggregate to us into the hundreds. Payments from a few help a little but if all would come forward with what they owe and a year in advance we could be able to draw a nice check at the bank, besides meeting promptly all our indebtedness—a thing that every honest man should do or make every attempt in that line.

The patrons of the Progress are, as a class, prompt paying people and each fall our books show substantial evidence of this fact, but the present year we are in hopes of securing better and earlier payments than heretofore, in fact we need more and need it quicker than we have heretofore, because of the heavy investments we have made in new machinery during the year, hence we hope that all our patrons willl bear this in mind and assist us as soon as convenient.

During the coming year we expect to give them even a better paper than ever and a good financial basis will help us to do this.

Saved Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Desperate throat and lung troubles yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and colds. 50c and $1 Bottles guaranteed by Overton Drug Co. Trial bottles free.

The editor of the Albany News claims that last year he collected every cent due him on subscription with the single exception of one subscription of fifty cents and this subscriber had left the country before he got to him. Caesar Alberty, colored, was fined $100 and given three months in jail in the county court at Clarksville Wednesday of last week for a very unusual offense. The charge was unlawfully preventing the collection of taxes. A deputy tax collector had taken possession of one of Alberty's mules to sell for delinquent tax when the darky threw the man down, twisted the rope out of his hand, jumped on the mule and galloped off. On trial he entered a plea of guilty with the above result.

Some weeks ago Richard, the six year old son of Mayor Spencer stepped on a nail which penetrated the heel to a considerable depth. Since then many complications have arised in the case and the little fellow has suffered intensely and several operations have been performed. The last operation was last week, when an important bone of the foot was taken out. He still grew worse and was taken by his parents to Ft. Worth, where the aid of special surgeons was invoked and at latest reports it is stated that the leg may have to be amputated. Mrs. Spencer is at Ft. Worth in attendance upon the child and Mr. Spencer expects to return to that place to-night.

Breckenridge Democrat—J. W. Shepard's barn at Gunsight, in which two horses and several hundred bushels of feed, was struck by lightning Sunday night and burned. Mr. Shepard lost a barn on the same site in the same way about two years ago, which disproves the old saying that "lightning never strikes twice in the same place."

An exodus of negroes came in on the west bound Central train at noon last Monday. There were in all about thirty of the colored brethren and of this number over twenty came from Hearne to constitute the night force at the compress. The others, about seven in number, was a crew in the employ of the Texas Central and came there to shovel coal for the road though they expect to partly divide their time with Cisco.

The Hico Review of this week says that a Dublin cotton buyer stated last week to a reporter of that paper that his limits at Hico were ⅛ of a cent higher in Hico than in Dublin because of the recent cotton yard squabble here. The Progress has interviewed individually every one of the Dublin cotton buyers and we are unable to find one who stands for this. The Progress therefore denies the assertion of the Review and is willing to place the Dublin market against any other in this section.

Early yesterday morning B. J. Sturkie, a well known farmer of near Dublin, was seriously injured by a fall, which either dislocated or broke one of his hips. Mr. Sturkie had in years past suffered the loss of one of his legs and this, with his advancing years, has for some time caused him to be almost an invalid, though because of his otherwise rugged constitution he has regularly looked after his farm affairs. The injury to his hip is considered serious—in fact that it may prove fatal.

Brownwood Daily Bulletin: Evening before last Roy Green, while playing foot ball on the Howard Payne college campus, fell and broke both bones just above the wrist in his arm. He was carried to his home, where the wounded member was dressed and today he says he is getting along nicely. Roy, in the spirit of the thorough athlete, speaks of the occurrence as one of the accidents incident to foot ball playing.

Gayle Talbot, who for many years was a popular newspaper man of Dublin and later representative from Wise county for two terms, dropped into our sanctum last Tuesday. He is now located at Artesia, a growing town in New Mexico, situated in the Pecos valley, between Roswell and Carlsbad. He is the owner of 160 acres of fine land within two miles of the town and is publisher of the Advocate, a weekly newspaper established by him within the past few months. Mr. Talbot says that the land about Artesia is as fine as can be found anywhere and is in the midst of lands of acres as flat as a floor, with only trouble heretofore having been the cost of irrigation from the Pecos river. Within the past year it has been found that strong artesian water can be gotten at a depth of from one hundred to a thousand feet throughout all this section and consequently the country is settling up as fast as the trains can haul people in there.

They also produce melons and fruits in great perfection indigenous to the climate.

The lands in King county are high-class of grazing lands and well adapted to the growth of small grains and forage crops, as well as stock farming purposes. Melons and fruits of every variety indigenous to that climate are grown in this county.

The 8 Hour Day

Which the working man has fought for and succeeded in obtaining is something the wife has no share in. Her day begins before his and ends long after it, as a rule, and many a night her rest is broken by the baby's fretfulness. The healthiest woman must wear out under such a strain. What can be expected then of those women who are weakened by womanly diseases?

Women who are weak, worn-out and run-down will find new life and new strength in the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

$500 REWARD! FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I suffered with female weakness about eight years—tried several doctors but derived no benefit until I began using Dr. Pierce's Favorite Prescription," writes Mrs. John Green, of Danville, Boyle Co., Ky. "This medicine was recommended to me by other patients. I have taken six bottles and I feel like another person."

DUBLIN'S PUBLIC SCHOOLS

Resume of the Initial Month for the Present Term as Reported by the Superintendent.

The first month of school closed Oct. 13th with an enrollment of 484 students, this being 16 more than last year this time, and are distributed as follows:

In the high school department with Prof Marr as principal, the enrollment was 66; per cent in daily attendance 97; number of cases of tardiness 28; number neither absent nor tardy, 32. The enrollment in this department is now 4 more than the total number for last year.

The Seventh grade, with Miss Herndon as teacher, had on the roll 48; per cent in daily attendance, 95; tardies, 18; neither absent nor tardy, 22

Miss Janes, with the Sixth grade, had 42 on the roll and an attendance of 95 per cent; tardies 2 and neither absent nor tardy, 21.

Miss Saye has the Fifth grade with 44 on the roll and an attendance of 96 per cent; tardies 6 and niether absent nor tardy 19.

Miss Williams has the Fourth grade with 44 on the roll and attendance of 95 per cent.; tardies 16 and neither absent nor tardy, 17.

The Third grade, with Mrs. Lattimore as teacher, has an enrollment of 49 and an attendance of 90 per cent, tardies 19 and 12 neither absent nor tardy.

Miss Potts has the High Second grade, with 51 on the roll an and attendance of 95 per cent; tardies 6 and neither absent nor tardy 20.

Miss Rawls has the high First and Low Second grades with an enrollment of 53 and an attendance of 89 per cent; tardies 2 and neither absent nor tardy 20.

Miss Perry with the first grade had on the roll 55 with an attendance of 92 per cent; tardies 2 and 14 neither absent nor tardy.

Miss Powell of the Third Ward school had 32 on the roll and an attendance of 95 per cent: tardies 6 and neither absent nor tardy 12.

It may be seen from the above report that during the month the High school had the best attendance but the largest number of tardy marks. Most of these were the result of carelessness. It disturbs a room for a pupil to come in late when the work of the school is in progress, destroys the good record of the room and parents are urged to assist the teachers in reducing the number of cases of tardinness. Promptness is one of the best lessons to be learned and the sooner it is learned the better it is for the pupil.

Prof. J. E. Rogers of Dallas was a pleasant visitor to our schools a few days ago.

The thanks of the school are extendend to the editor of the Progress for a handsome map of the United States. It will be of much service to the classes in geography and history.

A number of unusually good attractions have been secured for the Dublin High School lyceum course for the coming seasen. They are guaranteed to us as entertainments of a high character, amusing instructive, and giving us higher ideals in life. They are given for the benefit of the school and the public is cordially invited to attend, being assured of a pleasant evening and aiding deserving work. The Mendohlssohn Quartetette will appear in the auditorium on Wednesday night November 11th and dates for the Annie Hodges Concert company, Fred Robinson, the comedian; Hon. Luther Manship and Fred Emerson Brooks, the poet-humorist, will be announced later. The single season ticket is $2 and the double season ticket $3.50. These tickets give you reserved seats for the season. Get your tickets checked off on board at the Overton Drug Co. The auditorium is a delightful room for these entertainments. Come up and spend an evening with us.—E. I. Hall, Superintendent of Schools.

Political Pointers.

Hon. O L. Lockett of Meridian has announced his intention of making the race for distrtict judge in that district.

What's the use of Jim Hogg makin' good, respectable people feel bad about the free passes in their pockets? Why dont he tell us what office he wants and shut up?—Blanket Signal.

The populists of Hill county will meet in Hillsboro tomorrow morning to organize for the coming campaign. The meeting will be addressed by "Cyclone" Davis and Stump Ashby.

A Duffau correspondent to the Stephenville Empire asserts that the prohibition question will to a great extent enter into the election for county and district officers next year. The correspondent in question is a prohibitionist and says that he will not support an anti for any office.

The Cleburne Watchman, edited by that invincible old populist warhorse, Col. J. M. Mallett, is advocating the nomination by the populists of Tom Watson of Georgia for president. In his last issue he says: "There is no man in all this great country who would draw to him the suffrage of so many of the American people on a reform ticket as the great Georgian. Georgia has produced some grand men, but at no time in her history has she furnished a greater or truer patriot and statesman than Hon. Thomas E. Watson. He is not only the favorite of southern populists as the man for the highest office in the gift of the American people, but from the north, the east and the west, comes the same great demand, 'Give us Tom Watson of Georgia and then let the old plutocratic parties put up whom they will, but the people will rally to the great Georgian.' Watson was not in the war, too young for that strife and consequently had nothing to do with bringing it on. Such a ticket would convince the people both north and south that the "wah hosses" were out of date and that younger men of progress and higher patriotic purposes were at the helm and a tidal wave would roll them into power.

HICO.

From the Review.

Oct. 23rd.—Last Monday the fire insurance adjusters, representing the various companies who carried risks on the recently burned properties here, began to arrive in our city. It is understood that all claims will be paid in full without contest and within a few hours after their arrival the allowance already settled upon had reached the sum of thirty thousand dollars.

W. T. McGuire of Dublin was in town last Sunday.

Miss Hattie Pearce of Dublin spent last Sunday in the city with relatives and friends.

Miss Earl Stidham of Dublin visited her sister, Mrs. Charlie May, in this city last Sunday.

Mrs. Albert Patrick and small son arrived Wednesday evening to see Grandpa and Grandma Dunnagan.

Tom Miller, the popular Dublin dry goods merchant, and wife, spent Sunday with George Doubleday and family.

Five hundred bales of cotton were received in Hico last Wednesday. This was a record breaker for this market.

The state mission offerings at the Baptist church last Sunday reached the sum of $460, with several members yet to hear from.

Will Jones and Miss Allie Tidwell were married yesterday at the home of the brides' step father, A. J. Russell, at Lanham. The ceremony was performed by Rev. J. P. Gilliam.

While out gathering pecans last Tuesday with a number of her friends, Ida, the twelve year old daughter of Mr. and Mrs. Jerry Graves, fell from a height of about twenty feet out of a pecan tree, striking upon her head and shoulders. The little girl was found by her mother more dead than alive.

The grand-children of Andrew Jordan, three miles north of Carlton, experienced quite an exciting termination to their play one day recently. A little fellow aged five, with his two-year-old sister, was "picking cotton" near an old house used as a barn. The children became chilled and thereupon built a fire on the floor, soon so rapidly spreading as to alarm the boy who ran to the notify his grandmother. Mrs. Jordan hurried to the place and found it enveloped in flames, the doorway being impassable, while back in a corner crouched the frightened little girl. Finding a board knocked off at the rear, she gently called the child now wild with fright.. The calm voice saying "come to granny, love" reassured the little one, who at once made her way to this hole and crawled through to safety.

In Memory of Lloyd Sturkie.

A short but useful life
Lloyd chose the better part,
In early days he gave the Lord
A tender trusting heart.

He's gone but not forgotten,
We'll not begrudge his rest:
He's safely housed in heaven
And leans on Jesus' breast.

Mothers train sons to love the Lord
Was his earnest advice,
E're he left this sinful world
To enter into everlasting rest.

And as he crossed death's stream
He felt nor feared no harm,
For beneath his frail, sinking form
Was the everlasting arm.

Trust the Saviour, weeping friends,
He'll leave thee ne'er alone,
For soon He'll dry the falling tears
And take his ransomed home.

GRAND OPENING OF FALL AND WINTER GOODS!

Good goods, like good deeds, are unending in their results. Permanent success was never built on chance or luck. It must have a firm foundation. The fact that our business continues to grow, and each year's growth is greater than the one before, is evidence that the people are pleased with us and our methods of doing business. We know that to hold our present large business, and increase it in the same ratio as in the past, that we must give every man, woman or child who spends a dollar with us a dollar's worth. We have been with you over twenty years. We have not built up on the demerits of others, but have attained our present high standard and large patronage by meritorious conduct, strict honesty, and by giving the people the most of the best for the least money.

A WELL DRESSED MAN

Makes you stop and consider the very important point "Do I look like him, or am I a little off in style? I wonder what it costs him to look like that.

NOW LISTEN!

If he lacks good judgment it costs him a lot of money. If he places himself in our hands it doesn't, because our suits are very moderately priced, from $5.00, $7.50, $10.00, to $15.00 and $20.00, etc., and we try to give him just a little more than his money calls for—a little more than he expects. We consider his whims and pocket book. He's pleased and he can't help telling his friends so—thus the work goes on.

Comanche District Court.

District court at Comanche convened Monday of last week and after empannelling the petit jury and instructing the grand jury Judge Lindsey stated that because of his continued ill health he would not be able to hold court for some time. The bar unanimously elected Judge J. M. Pressler as special judge to preside during the absence of Judge Lindsey.

The following business has since been transacted:

A. L. Murphy, charged with arson alleged to have been committed at Proctor several years ago, dismissed for want of evidence. This case has twice before been tried, the first trial being continued because of the sudden illness of the defendant and the next resulting in a hung jury.

Frank Stanfield of Hill county, horse theft in two cases, plea of guilty and given two years in each case.

Zack P. West, perjury, verdict of not guilty. Another case pending against this defendant was passed to the third Monday and the sheriff of Potter county was fined $50 for not serving subpoena.

J. F. and Fannie Smith, perjury, dismissed.

George Brown, theft of mules, plea of guilty and given two years in the penitentiary.

M. D. Edwards theft of a horse plea of guilty and given two years in the penitentiary.

George Bryant was admitted to bail in the sum of $5,000 on charge of murdering Newt Jones near Wilson a few weeks ago. Fifteen of the best men in the county signed the bond. The case will be tried some time during this term of court, as Mr. Bryant is anxious for a trial.

The following gentlemen compose the grand jury: D. C. Johnson, W. M. Wyatt, A. W. Underwood, C. L. Cox, L. C. Boynton, J. M. Childers, W. R. Slider, J. M. Neely, W. A. Bandy, A. McCampbell, T. M. Renfro, G. L. Brumlow; C. L. Cox was appointed foreman.

John Yarbrough was selected as walking bailiff to wait on the grand jury and A. B. Foster, L. L. Loyd, J. G. Nicholas and E. A. F. Robertson were appointed riding bailiffs for the grand jury.

In delivering his charge Judge Linsdey among other, things said that the crime of statutory rape, where men have seduced girls under fifteen years of age, is a great and growing evil in this and surrounding counties, and the only way to stop it would be to hang several of the scoundrels or give them life sentences in the penitentiary. He also told the grand jury to investigate the recent murder of Newt Jones, and if they found that any persons were accessories before or after the fact to indict them. He had heard that a Fort Worth firm of lawyers had been in Comanche county and had instigated and solicted a certain personal damage suit against a railroad, and he asked the grand jury to investigate the case and if true to indict the Fort Worth lawyers for barratry.

He aslo instructed the jury to pay special attention to infractions of the laws against carrying weapons, gaming and disturbing religious worship and the best way to stop such crimes is to punish the first offences, as most of this species of outlawry is committed by boys and young men. He also instructed the jury to investigate whether the doctors of the county are observing the state medical laws.
