## Joe Simpson, Retired Farmer, Dies Saturday

Joe S. Simpson, who had operated farms in Collingsworth County and on the South Plains for most of his adult life, died in Collingsworth General Hospital at 11:55 a.m. Saturday, June 28, after being in ill health for a number of months. He was 85 years of age.

Mr. Simpson first came to Wellington 70 years ago, and worked as a cowboy on area ranches several years before beginning farming operations for himself, much of the time in the Midway community.

A farm leader wherever he lived, he was active in community life, and in the churches and schools, not only for the benefit of his own family but for all those around him.

Mr. Simpson was born in Izzard County, Ark., September 5, 1889, and spent his early childhood there. When he was 12 years of age, he went with his parents, Jesse and Sara Carpenter Simpson, to Checotah, Oklahoma, then in the Indian Territory, where he lived until he came to Collingsworth County.

He was married to Miss Bernice Obenhaus, a member of one of the county's pioneer families, on July 20, 1913, in Wellington.

They homesteaded near Brinson, Colorado, in 1918, but after living out their claim, they returned to

## Mrs. Vertie Watts, Pioneer Area Woman, Dies

One of the true pioneers of the southwestern Oklahoma-Southeast Panhandle, Mrs. Vertie Watts, died Wednesday, June 25, in Moore, Oklahoma, Hospital at the age of 90.

She spent much of the time with her daughter here, Mrs. Roy Thomason, but at the time of her death she was with another daughter at Moore.

The former Vertie Knowles, she came with her parents, Mr. and Mrs. B.R. Knowles, from her birthplace in St. Louis, Mo., to Old Greer County in 1889, when she was 5 years old. It was then part of Texas, but the land they settled is now in Harmon County.

With the exception of three years in New Mexico, this area was to remain her home.

She attended the school taught by her mother in their own dug-out home. Later the family lived on land on which Mr. Knowles filed in the OM community.

Mrs. Watts was born November 11, 1884, in St. Louis. She was married to Robert E. Lee Jenkins in 1902, and they operated a grocery store in Wellington, then he worked for the Mill Iron Ranch. Following his

Throughout the years the Queen's contest has been

## Bicentennial Plans for County Announced

The Bicentennial committee plans to kick off this county's Bicentennial year in conjunction with the Collingsworth County Fair Friday and Saturday, September 5 and 6.

Henry Sullivan, chairman, announced plans for a number of major events.

In brief, these will include:

- Flag raising ceremony.
- Speaking with guest speaker.
- Fair Parade, the largest ever.

- A country store.
- Centennial Booth
- Election of the Duke and Duchess of Wellington to reign for the Centennial Year.

"We will begin our celebration with a flag-raising ceremony on the first day of the fair, and just before the big parade," said Mr. Sullivan.

"But the main celebration is just one year away--July 4, 1976."

Between those dates, and perhaps through 1976, there will be a whole series of activities by which Collingsworth County will observe the 200th anniversary of the country's founding, and the 100th anniversary of the county's creation.

"The Bicentennial Committee is making a special effort to have the biggest parade we have had in the fair's history," said Mr. Sullivan.

Theme of the parade will be centered on the 200th anniversary of the founding of the United States and 100th anniversary of the creation of Collingsworth County.

## Hay Camp Course In Top Condition

Plans are complete for Hay Camp Country Club Men's Invitational Golf Tournament, which will be held Saturday and Sunday, July 5 and 6, according to Jim Terry, club pro.

With its summer tourna-

ment series, Hay Camp is making its entry into the Panhandle - Southwestern Oklahoma golfing picture.

"As a new course, we don't have a preference on tournament dates and we have to take what is left," Mr. Terry pointed out. What Hay Camp is doing this season is getting itself established with other tournaments and with top golfers in the area.

"The course is in great shape, and we have had a lot of compliments from out of town," said Mr. Terry. "The recent rains have helped more than they hurt, although we did have some gulleying in some of the roughs and one of the fairways. We are due to reseed some of the bare spots this week."

"We really do have the best course within 50 miles of here," he said.

Players from Amarillo, Dallas and Tucson, who were here recently, have been most complimentary, and consider that Hay Camp has come a long way for the time it has been open -- less than one year.

"People are just amazed at what we've done in so short a time," said the pro.

Scouts are invited to take part in it.

Immediately following this, there will be a short speech with a major dignitary as guest.

These activities are under the direction of the festival committee, chaired by Larry Henard. Members are Pat McAlister, Kirby Campbell, Mrs. Wayne Cudd, Mrs. Richard Nall and Mrs. Edd Henard.

## Ex-Students List Reunion Changes

Wellington Ex-Student Association officers and directors met Monday, June 30, to make further plans for the 1975 reunion Saturday, August 9.

Mrs. Billie Wilson (Jolene Groves) was elected secretary to succeed Ann Smith, who resigned.

An intensive pre-registering campaign will be carried out before the reunion, Mrs. Keith Smith (Dora E. McClaskey) is chairman.

The registration fee was raised from \$1.00 to \$1.50 per person, due to increased costs of putting on the reunion, Mrs. Mitchell said.

Reunion day events will start at 10:00 a.m. and registration will continue through the evening dinner, a chicken barbecue. Tickets for this will be \$2.50 per person.

The reunion dance will be from 9:00 p.m. to 1:00 a.m., with music by a band from Childress.

Mrs. Mitchell revealed first plans of the 1976 Wellington Ex-Students Reunion. Not only will this be the Bicentennial reunion, it will be the 25th anniversary of the WHS reunions.

This year there will be a reunion of the class of 1955, with Dr. John Gordon Thomas of Bryan in charge.

The Rockettes, girls varsity basketball team, for the years they were coached by Supt. E.W. Clement, 1953 to 1961, will meet. Jolene Wilson is in charge.

"We are asking for new ideas for reunion activities, especially from out-of-towners. We'll be glad to listen," said Mrs. Mitchell.

The directors will hold another meeting Tuesday, July 15, to address reunion letters to all ex-students whose addresses are available.

## Drive Defensively - Avoid a Fatal Fourth

AUSTIN -- "Of all sad words of tongue and pen, the saddest are these: it might have been." The Texas Safety Association, in cooperation with the Governor's Office of Traffic Safety and the Department of Public Safety, reminds Texas motorists that there is no remedy in remorse following an accident -- remorse for one's own carelessness or for having failed to guard against the other fellow's.

Alertness is the key to traffic safety, and the length of this year's July 4 three-day weekend emphasizes this fact. Motorists will utilize the extra time to make longer trips. Many will travel on unfamiliar highways, and may become confused or hesitant. Couple this with increased local traffic and the regular mid-summer influx of vacation drivers, and July Fourth traffic will be of rush hour volume. So stay on top of traffic and road conditions, follow at safe distances, and above all, watch out for the other guy!

Use your seat belts and shoulder harnesses, and don't forget to protect the children. They can be thrown violently in an accident, and need the protection offered by these safety restraints.

## Immunization Clinic July 14

A free immunization clinic will be held at Community Action Center Monday, July 14, from 1:30 to 4:00 p.m., according to Jerry DeSha, health program specialist, Texas State Department of Health, Amarillo.

The clinic will offer vaccines that give protection against several childhood diseases, including polio, diphtheria, lock jaw, whooping cough, measles and rubella.

### #1--continued from page 1

Mr. and Mrs. Henard are parade chairmen. It is emphasized that every effort will be made for this to be the biggest fair parade ever to roll onto the courthouse square.

"We are asking individuals to dress in the period of the early history of Collingsworth County," Mr. Sullivan said.

"We will select a Duke and Duchess of Wellington to reign over the Bicentennial year. The method of selection will be announced later, but it will be in conjunction with the parade.

A country store will be sponsored by the Bicentennial committee in the American Legion Hall during the Fair.

Mrs. Barney Glenn is chairman and Mrs. Lynn Wright, Mrs. Earl I. Bartlett, Mrs. L.C. Hill, Mrs. Ben Ratliff, Mrs. Joe Wood and Mrs. Hiram Cudd are members.

There will be a bicentennial booth in which people who would like to make donations of crafts, arts, vegetables, antiques or other items may do so. These will be sold and proceeds will go to further activities of the bicentennial committee.

"We will have booth space for \$5 per space to any individual, organization, or group who wish to sell their crafts, wares, antiques, etc."

"We wish to ask every organization in every community to endeavor to take part in the parade or a booth or both," the bicentennial chairman continued.

Space will be available on the city parking lot just east of the community building for fun booths. Other announcements on this will be forthcoming, and detailed information will be given out as it becomes available.

While on the subject of juvenile travelers, don't let the children distract the driver. Youngsters get bored easily on long trips, and need books, games or small toys -- something that can be safely enjoyed in the back seat -- to keep them occupied. Give them a chance to appreciate this holiday and many more to come.

Without your concern, the Fourth can be fatal -- either to you, your loved ones, or your fellow motorist. Next year's Bicentennial Fourth of July promises to be spectacular. Texas's safety organizations hope you'll all be around for it.

## Thomas Visit Texas, Mexico

The children remained with their grandparents while Mr. and Mrs. Thomas went on to Corpus Christi and Padre Island National Park. The latter they found to be overrun with tourists, and litter spoiled the natural beauty of the shore.

# TAC Begins Study of Airport Aid Requests

Charles Murphy, Executive Director, announced today that work will begin on the study of requests for airport aid from Texas cities and counties. Initial formulation of the State of Texas Airport Aid Program for the fiscal year 1976 is being undertaken prior to the September 1, 1975 starting date in order to expedite program funding as a positive economic action benefiting the people of Texas. Murphy pointed out that, though the funds appropriated by the Legislature amount to \$1,000,000, this amount, when joined with matching funds from the federal government and the local communities, will

serve to generate approximately \$6,000,000 in construction in areas where it is economically most welcome. Emphasis will be given this year on the basis of need, to those cities, counties and towns, most nearly ready to proceed with their projects. Every effort will be made to expedite construction on approved projects in order to assure their completion within the same fiscal year. Cities and towns not prepared for immediate action will be encouraged to think in terms of programming for the following year or years. Those cities and counties which have already filed a formal Request for Aid may

revise their request or confirm, by letter, that their application is still valid and that they want it considered without change. Legislative edict requires the Commission to limit its grants to a maximum of \$50,000 and to communities of less than 75,000 population. It may be necessary to rely on staged development to ease a community's financial impact in any given year. Murphy found that the smaller counties, cities and towns, enthusiastically endorse this method of phased airport development as the communities must also match the state funds. It's a 50/50 program. Funds are limited and

communities contemplating airport development during the next year are encouraged to make early application. The necessary form will be furnished upon request and the Commissioner's staff will answer any questions regarding this program.

## RSVP News

By Mecca Manuel

The news from the Retired Senior Volunteer Program will be short this time as several of our volunteers are on vacation or are having company. And too, there is a lot of sickness in town.

There were only two quilters to come Monday, Mrs. Edna Downing and Mrs. Rebbie Snider. They are really making some pretty quilts. We can sell everyone they make. That is one way we have of making money for the center.

Thanks to several good volunteers, we now have our kitchen set up in our new building, so the July luncheon will be held on July 16. Mr. and Mrs. John Alf

Thomas will sing for us and he will talk on the food stamp program.

We really do appreciate all Willie Smith does around the center. He is fixing us a back screen door. He is all-around fixer upper, and I don't know what we would do without his help.

All our Volunteers would like to send Deskins Wells Get Well wishes and a speedy recovery.

The Senior Citizens Center at Shamrock had open house Friday, June 27, beginning at 2:00 p.m. They have a beautiful center and presented a good program with good attendance. Those going from Wellington were Mrs. Marie Gollighugh, Mrs. Morris Barton, Mrs. Margaret Vines, Mrs. Jean Reynolds and Mrs. Mecca Manuel.

## Rattle Snake Bites Youth

Ron Archer, 16, was bitten on the right thumb by a rattle snake Thursday evening, June 26, when he and a friend stopped to see what kind of snake it was.

The accident occurred east of Wellington as Ron and Lee Templeton were riding a motorcycle and the foot-long snake crawled across the road.

He is the son of Mr. and Mrs. Gary Archer.

After Ron was bitten, the boys retrieved the snake to determine what kind it was, then went to a near-by house to call for help, Mr. Archer said. He was brought to Collingsworth General Hospital for treatment and was released early this week.

## 99 Members of Gulley Family Gather for First Reunion

Ninety-nine descendants of the late Mr. and Mrs. E.M. Gulley and the late Mr. and Mrs. John Gulley gathered at Bura Handley Community Center Sunday, June 15, for their first reunion. Included in the number were a few who were not direct descendants.

The reunion day was given over to reminiscing, taking pictures, and bringing each other up to date on family happenings.

In the afternoon Collingsworth County friends of the families dropped by for visiting. The four children of the John Gulleys, and the six children of the E.M. Gulleys, who were present for the reunion were reared in the county, as were most of their husbands and wives, along with some of the younger family members.

This group came from throughout the southwest. They began arriving Saturday, but rains cancelled the big family picnic planned in Pioneer Park at Salt Fork River and US 83. Instead, they went to the community center for visiting and sandwiches.

The two Gulley brothers, E.M. and John, were operating a store near Red River in the Indian Territory, when they heard statehood was approved. They moved across the river to Clay County in 1906, then moved to Collingsworth County a few years later. Much of the time they lived in the Aberdeen area.

The four children of the John Gulleys present were Mrs. Lussie Tucker of Phoenix, Arizona; Eugene Gulley of Truth or Consequence, New Mexico, Mr. and Mrs. Davis Gulley and John of Muleshoe, and S.L. Gulley of Henrietta.

Grandchildren and great-grandchildren attending were Mr. and Mrs. Elton Gulley, Mr. and Mrs. Larry Gulley, Ritchie and Amy, Becky Gulley Embry, Todd and Laurie, Jane Gulley Phipps, Robbie, Gina, Jason and Tracey, all of Muleshoe; also

Mr. and Mrs. Frank Gulley and Pat of Dodson; Don and Nancy Crawford and Missey of Stillwater, Okla.; Clowis and Jan Rogers, Kelli and Tim of Purcell, Okla.; Pete and Judy King, Jeff, Matt and Mike of Amarillo; Mr. and Mrs. Bobby Gulley and Meri Kay of Cave Spring, Ark.; Mrs. Frank Gulley, Mr. and Mrs. W.L. Also present were Joe and Thelma Jackson of Norman, Okla. She is a cousin of both families.

## Plan Color For Autumn

Although the fall season seems far away, it's time to plan for some color for the home landscape this fall, and chrysanthemums can fill the bill.

"Chrysanthemums can provide color and variety in the fall months after many annual flowers have died," says Everett Janne, landscape horticulturist for the Texas Agricultural Extension Service.

"Rooted cuttings of chrysanthemums planted in late May or early June will have a shorter growing season, and will make smaller plants that need little staking if properly pinched," points out Janne.

Plant chrysanthemums in fertile soil in an area that gets plenty of sun, advises the Texas A&M University System specialist. An elevated site is best because it lessens the possibility of harm from frost. Before planting, broadcast two to three pounds of 10-20-10 fertilizer per 100 square feet of bed area. Work this into the top six inches of soil.

"About six weeks after planting, apply a sidedressing of one pound of 10-20-10 fertilizer per 50 feet of row. Work this into the top inch of soil and water well," explains Janne.

"The additional fertilizer will promote vigorous growth during the summer. You may want to reapply fertilizer in mid-August."

Watering is important throughout the growing season to keep plants healthy and growing vigorously.

The horticulturist recommends providing a mulch

## Softball Tourney Good Publicity for Town

Another of the good things to happen to Wellington this summer in building good will is the recent softball tournament which brought men from more than a dozen visiting teams.

These visitors praised the town's hospitality and its facilities. They were pleased with the refurbished ball park and stand. They patronized our stores and restaurants. Some attended church services Sunday.

Beyond doubt, they will have good things to say about Wellington. They believe the softball league will show considerable growth by next season.

These teams will be back for a second tournament later this month, along with others who did not participate the first time. Let's welcome them!

These tournaments are to us what a convention is to a city. They are the fine people we need as visitors.

## Other Editors Say . . .

### See "Texas" This Year

...One of the spectacular things about "Texas" is the masterful lighting display and sound effects when a thunderstorm is conjured up. Every time we have been to see the show, and it comes time for the rainstorm, people in the amphitheatre start looking around for raindrops, it's that real. Another outstanding thing about the show is the fire dance, where the cowboys battle the flames as played by costumed girls in the biggest dance number. We hear people in our own community admit that they have never been down to see "Texas" although they sure intend to do so some time when it comes handy. We would recommend seeing it this summer. After all, if people from halfway around the globe want to see it, why not people from a mere 140 miles away?

From The Perryton Herald

### Inheritance of suffering

"Progress" may not be such a bad thing after all. A team of international scientists recently concluded an eight-year study of the biological adaptations of natives living in the jungles of Brazil and Venezuela. They discovered some puzzling things, reports Science Service. For instance, while the studies showed lower levels of lead, cadmium, dental caries and hypertension among Indians than among modern city dwellers, they also found much higher levels of mercury and chromosome damage among the Indians. The findings imply two possibilities, say the scientists: modern man is not as badly off as he sometimes supposes, and genetic and biological damage has been with him a long time, probably through all stages of his development.

## STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN — Gov. Dolph Briscoe's veto of 136 college building projects (which he estimated would cost more than \$1 billion) may be the subject of a court case.

University of Texas Board of Regents Chairman Allan Shivers said UT regents will defy the veto and go ahead with at least two of the rejected projects.

Shivers claims the veto is unconstitutional. He said the attorney general long ago held the governor cannot veto appropriations bill riders which do not call for specific expenditures.

The chairman further contends that UT projects will be financed with constitutional funds which cannot be controlled by an act of the legislature.

Briscoe maintains that UT, like other schools, must get College Coordinating Board approval of its construction projects under a new law—or specific legislative approval. He voted the projects, in the first place, because he interpreted them as an effort to bypass the new statute by a subterfuge prior legislative approval through the appropriations riders.

State Comptroller Bob Bullock has indicated he will approve none of the UT building project vouchers in controversy without an attorney general's opinion. It has been hinted regents may seek a declaratory judgment in court to uphold their position.

### Campaign Begins

Campaign for adoption of the proposed new state constitution November 4 already is shaping up.

Former Texas Supreme Court Chief Justice Robert W. Calvert will lead the drive for voter support.

Top officials who are supporting the new charter include Lt. Gov. Bill Hobby, House Speaker Bill Clayton, Atty. Gen. John Hill and Supreme Court Chief Justice Joe Greenhill.

Governor Briscoe did not attend the initial meeting to kick off campaign plans. He made clear later that he has not made up his mind whether or not to support

the revision. He has never been a supporter of annual legislative sessions, Briscoe reminded. The new constitution would provide for annual legislative sessions. It also would broaden powers of the governor considerably.

### Committee Recesses

A House committee studying possible impeachment proceedings against 229th District Judge O. P. Carrillo recessed until July 9 to allow its staff time to catalogue evidence.

Chairman Rep. De Witt Hale of Corpus Christi said he is hopeful the committee will complete its work and vote on its recommendations by August.

If the committee recommends impeachment, the House will convene three weeks later to hear the case. Should the House vote articles of impeachment, the Senate then must "try" the case. A two-thirds majority would be necessary to impeach.

### Courts Speak

The State Supreme Court upheld an intermediate court judgment dissolving an injunction by Judge O. P. Carrillo against oil operations on the Clinton Manges Duval County ranch.

The Court of Criminal Appeals affirmed a life sentence given a Laredo rancher in the 1972 shooting of five Mexican aliens on his ranch.

A \$535,866 judgment for a truck driver who was disabled when he ran into a train on a foggy night was upheld by the Supreme Court.

Truckers' \$363,646 breach of contract suit verdict against the Houston Chronicle was affirmed by the Supreme Court. At issue was an agreement to transport newspapers.

An Austin district judge stopped Austin and Dallas commercial colleges from enrolling new students until they refund \$230,000 in tuitions to former students. The judge also restrained an Indiana truck driving school from violations of the propriety school

### AG Opinions

Atty. Gen. John Hill held records on suspension or revocation of alcoholic beverage licenses, except those excepted by statute, are public and should be disclosed.

In other recent opinions, Hill concluded:

Information submitted to

the Board of Insurance to fix workmen's compensation coverage rates is public.

An applicant for an occupational driver's license must offer valid proof of having an auto liability insurance policy.

A private club license fee can be paid under protest.

Texas Private Employment Agency Regulatory Board can prescribe fees for

### Appointments

Uvalde District Judge Ross E. Doughty was appointed by Governor Briscoe to succeed State Supreme Court Associate Justice Ruel C. Walker who resigned after 21 years' service.

## Short Takes

### "Cameo Role"

To popularize a production, famous actors often take roles that require their appearance on screen for only four or five minutes. Hence, any famous "face" seen briefly on a screen is considered a "cameo" . . .

### Early Cagers

One of the early professional basketball teams was the Buffalo Germans, who started out in 1895 as 14-year-old members of the Buffalo, N.Y., YMCA and played together for 44 seasons, winning 792 games out of 878.

### Rice Throwing

The rice thrown at weddings was intended, by our ancestors, not only to guarantee the couple a large family but to placate any hungry evil spirits present.

### Lexicography

Dictionaries may contain 100,000 to upwards of 500,000 entries, but not more than 60,000 words are likely to concern anyone but a specialist.

### Many Names

The long rifle was noted for its reliability and became famous due to the exploits of frontiersmen, such as Davy Crockett. It was called the "Kentucky rifle," "American rifle," and "Pennsylvania rifle."

### Empire State

New York's nickname of "Empire State" is attributed to a statement by George Washington calling New York an empire.

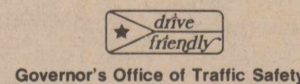

### The Big One

The tallest iceberg ever recorded was found by the U.S. Coast Guard icebreaker Eastwind in 1957. The huge berg towered 550 feet above the surface of the water—and only one-eighth to one-ninth of its total mass was surfaced.

## Visitor Finds Much to Do in Washington Visit

Mrs. Sam Thompson returned Wednesday, June 25, after a two-weeks visit with her daughter and son-in-law, Dr. and Mrs. Kenneth Davis of Gig Harbor, Washington.

Mrs. Thompson and her grandson, Paul Davis, left Amarillo June 11 and after a four hour flight were in Seattle. It was Paul's first glimpse of his new home. His parents had just three weeks before moved from Denton to Gig Harbor, which is 6 miles from Tacoma, over "Galloping Gertie".

"The young readers are familiar with 'Galloping Gertie', because they study about it in school," Mrs. Thompson said.

The economy, as the name

implies, is geared around the fishing industry. Mrs. Thompson stated that, "The fishermen there are having difficulty with pollution".

Dr. Davis' practice is in Tacoma. While Mrs. Thompson was there, he took a fishing excursion up the Columbia River and caught three salmon -- ten and fifteen pounders.

The Scandinavian population is quite large in that area, and they were having a festival during the time of her visit. They had folk dancing, imported gift and food shops and art galleries that tourist could enjoy.

"Flowers were everywhere and of every variety and color," Mrs. Thompson continued. Also it is evident why Washington is called the "evergreen state". Nearby Mt. Rainier could only be seen three days because of clouds.

Mrs. Thompson met Mrs. Joy Darcy, an elementary teacher, who also retired at the close of their school year, June 16. The two teachers found they had much in common. "They also have too many children assigned to each room," related Mrs. Thompson.

Mrs. Darcy was quoted in the paper there as having gone through the phonics cycle three distinct times. She was also quoted as believing discipline is a part of a good education. Mrs. Darcy was asked the question, "Are the 3R's here to stay?", to which she replied, "You better believe it!"

Working at the center under the federally funded summer youth program are Barbara Anderson, Doris Thomas, Maria Garza, Debbie Hix, Paula Stallings, Gertrude Aguirre, Rosie Garcia and Ernest Moody.

Teachers include Mrs. Ida B. Outley, head teacher, Lydia Rogers, and Kathy Robertson of Shamrock. Working with Mrs. Burba in administering the program are Mrs. Tommy Lou Thompson and Mrs. Edward Aguilar.

LEE'S GROCERY

These men who make up Lee's Grocery Slow Pitch Softball Team, find time after their regular work to play in the Wellington League. Standing, from left, are Bill Anders, Jimmy Black Mike Little, Danny Greenway and Craig Bergvall. Kneeling are Gabriel Aguirre, left, and Julian Torrez, Jr., Bat-boy Clinton Bergvall, Paul Gonzales and Euel Aguirre. This is one of the teams that will host the slow-pitch softball tournament later this month.

### Mision Bautista Pastor Attends Church Meeting

The Rev. and Mrs. Andres F. Rodriguez attended The Mexican Southern Baptist Convention in Corpus Christi, Monday, Tuesday and Wednesday, June 23, 24 and 25.

Dr. Rudy Sanchez, president of the convention, spoke to the delegates at the Monday night session. He is the pastor of the First Mexican Baptist Church of

Corpus Christi, where the convention was held. He spoke on the responsibility of the pastor to the church, and the responsibility of the church to their pastor, said Rev. Rodriguez.

At the pastors' conference Tuesday evening, Rev. Julio Ladape's subject was "Come Straight to the Pastor". His admonition to the pastors was to please God first, because their first responsibility was to God, Rev. Rodriguez continued.

Because of the large attendance each evening, the meeting for Wednesday night was changed to the

coliseum. Pabino Bernal, a layman from McAllen, gave his testimony. He related how he had been converted in 1972 from a life involving the use and sale of drugs. Following the message 300 persons came forward for counseling, said Rev. Rodriguez.

## Double Crop Sudax Brand After Wheat Harvest

DEKALB Sudax Brand sorghum-sudangrass hybrid is great as a 2nd crop after wheat. It grows so fast most weeds are smothered in the shade. As a cover crop Sudax Brand helps hold the soil, conserving nutrients and making lots of green manure. Plowed down, Sudax Brand improves tilth and water-holding capacity of the soil. Sudax Brand also provides abundant emergency pasture and greenchop when needed. Double Crop Sudax Brand after wheat harvest this year.

## Nature Tour Complete at Panfork Encampment

Persons attending the Panfork Baptist Camp northeast of Wellington this summer are enjoying the added feature of a nature tour. The tour was organized by the Soil Conservation Service at the request of the camp directors and has been an important highlight of the camp activities thus far this summer.

"This is a great opportunity for young people to learn more about ecology and the environment", says Tommy Powell, District Conservationist with the Soil Conservation Service at Wellington. "The camp is located in an excellent natural area and the atmosphere at church camp is perfect for the study of nature and the Creation. The counselors seem to enjoy the nature tour as much as

the younger people", said Powell.

A tour of the nature trail takes about an hour's time and consists of 31 stops where a particular plant, animal or other feature of the environment is identified and discussed. The whole thing is very informal.

"In an effort to keep the sessions from being too long, we actually are able to cover only a small portion of the great variety of the area on this tour, but different tours can be established in the future so that the same things are not repeated year after year", said Powell.

## Wellington Native Working to Let People Know About WTSU

By Judy Tolk

WTSU--Wellington native Keith L. Winter, a man who has worked hard for the development of the Golden Spread, is now directing his talents for the betterment of West Texas State University.

"One of my main objectives is to enhance the image of West Texas State," he said. "I want to let people know what an outstanding faculty and what opportunities we have, and to try to help the students reach their own goals."

Now the WTSU director of development, Keith is in charge of the University's Print Shop, News Service, Admissions Advisors, Campus Services and Placement Service. He is a liaison with the WTSU Alumni Association and WTSU Foundation, and is in charge of all fund-raising and area relations, in addition to carrying out the requests of University President Lloyd L.

Watkins.

Campus Services is a group of scholarship students who receive \$400 each semester to work in Keith's office as official University hosts and hostesses. Wellington student Tim Jones of 1507 Dalhart, served last year as a Campus Services student who took visitors on campus tours and aided the admissions advisors. This coming year Wellington High School valedictorian Betty Burba will work in Keith's Campus Services office.

Winter is the son of cotton farmer, James A. Winter, now deceased, and confectioner, Arvezene Winter. His mother's store was located on the south side of the square. After her husband's death, Mrs. Winter left Wellington in 1946 and took Keith to Amarillo. Keith went on to graduate from Amarillo High School in 1953, and earned his geology

degree from Baylor University in 1956, which began his varied and exciting careers.

His interest in geology took him to Venezuela for two years. Upon his return to the States, he was drafted into the Army. He ended his military service in 1966, leaving the reserves as a first lieutenant.

During his military commitments, Keith found time to begin his training in

## Cyclists at BMW Rally in Missouri Ozarks

Their headquarters were Jellystone Park on Table

chamber of commerce work and industrial development.

The graduate of several organization management and industrial development institutes did chamber of commerce work for two Texas towns, Hamilton and Angleton, and for Lawrence, Kansas. He returned to the Texas Panhandle in 1970 as executive director of the Amarillo Board of City Development, and then began his work at West Texas State in 1973.

"Our role at West Texas State is to serve this region well, and provide the types of opportunities that will benefit all the people of the High Plains regions," he said. "We should strive to make sure our people have the same opportunities as in other universities."

He looks for WTSU to meet the special vocational needs of the Panhandle's citizens, as well as fulfilling their library and research requirements.

"The Panhandle's citizens should become acquainted with and utilize the expertise available on campus," he concludes.

## ARE YOU COVERED?

There is so much to remember when you leave on a trip. If you are driving, make sure you have extended coverage on your auto or camper and that it is in force. Carry a list of numbers of agents in towns you will be in or near in case of emergency. If you are driving in a foreign country make sure you are covered... it costs only pennies to do so.

## Estimate 54 Traffic Deaths Over July 4

AUSTIN--The director of the Texas Department of Public Safety today estimated that traffic accidents in the state over the July 4th holiday weekend will claim 54 lives.

Colonel Wilson E. Speir said his department expects travel will be heavy in Texas over the holiday period "particularly in and around recreational areas" such as lakes and beaches.

He added that the estimate covers a 78-hour period starting on Thursday at 6 p.m. and counting until midnight Sunday. Last year during a 102-hour Independence Day celebration, 46 persons were killed in traffic mishaps in Texas.

Speir also pointed out that highway traffic deaths are about 25 percent over the total at this time one year ago. "This is due to increased travel and somewhat higher speeds," he added.

In a concerted effort to help keep deaths down, the DPS and local law enforcement agencies will be cooperating in the all-out effort to make the streets and highways as safe as possible. All available DPS troopers will be on duty, Speir said, and they will be especially watchful for drinking drivers, speeders and persons driving in a reckless manner.

In addition, the DPS will be working with the news media in a special public education program termed "Operation Motorcade" which focuses public attention on where and why fatal accidents are occurring during the holiday.
