Thursday, May 13, 1965

NUMBER 19

Keeney Well Kicks Off; Now Flaring

The Delta-Pauley No. 1 Keeney gasser kicked off Monday after being swabbed for a short time. Since that time it has been flaring and cleaning itself out. Unofficial reports are that it should make a "pretty good" gasser.

Geochemical Surveys, Abilene, announced last week that they would drill an 8,000-foot Ellenburger wildcat in Schleicher county, 13 miles southwest of Eldorado. It will be the firm's No. 2 Mary Davis Coupe, and will be 3 1/4 miles south southwest of the firm's No. 2 Speck, recent Canyon sand discovery and five miles east of the two-well John Rae field.

Location is 660 feet from the south and 1,980 feet from the east lines of Sec. 7-A GC&SF.

Skelly Oil Co., will drill the No. 6 Mary L. Jackson as a 1/2 mile northwest and at the same distance southwest outpost to Canyon gas production in the Eldorado multi-pay field of Schleicher county, two miles northwest of Eldorado.

Location is 660 feet from the south and east lines of the north half of 43-LL-TCRR. Contract depth is 6,950 feet.

Tucker Drilling Co. No. 1 R. I. Case, Schleicher county Canyon oil discovery 14 miles northwest of Eldorado was finished for a daily flowing potential of 35.6 barrels of 46.5 gravity oil, plus 2.5 percent water, with gas-oil ratio of 23,300-1.

Production was through a 17-64 inch choke and perforations between 6596-6606 feet, which had been acidized with 500 gallons. Tubing pressure was 800 pounds; casing pressure, 1000 pounds.

Drilled to 6945 feet, 4 1/2 inch casing was set at that depth. Top of pay was picked at 6578 feet on elevation of 2,499.5 feet.

Location is 660 feet from the north and east lines of 23-TT-TCRR

Tucker Drilling Co., will drill the No. 1 Grace O'Harrow, a 6,000 foot Strawn wildcat 14 miles northeast of Eldorado.

Location is 660 feet from the south and east lines of 56-1-GH&SA

PRE-SCHOOLERS SHOULD HAVE THEIR SHOTS BY FRIDAY

This Friday is the final day for incoming First Grade pupils, who will start to school in September, to get their required shots at the local Clinic at reduced rates.

After Friday, the charges will be at the regular rate.

News of the Sick

Mrs. V. G. Tisdale is at home after spending eight days in the Clinic-Hospital in San Angelo.

Raymond Schrank is convalescing at home after having eye surgery in the Clinic-Hospital.

Mrs. Bob Bradley is at home after being ill for a week or 10 days in the Clinic-Hospital.

Bert Page is reported slightly improved in Brady where he has been moved from the hospital to an apartment.

Friends here received word that Mrs. J. W. (Buck) Davis underwent major surgery April 28th in Austin. Her address is Room 244, St. David's Hospital, in Austin where she is reported making satisfactory recovery. Mrs. Davis formerly lived in this county and has lived in Austin for the past several years.

Ed DeLong was taken to Galveston Saturday where he is undergoing tests and treatments in the Sealy hospital.

C. N. Shaw was back in Galveston last week end for a check-up, and he received a good report.

Mrs. Warren Hignight of Kermit underwent surgery at Winkler County hospital last week. She is the former Mildred Hamm, the daughter of Johnny Hamm, a resident of Eldorado.

Betsy Bruton, a member of this year's graduating class, is in the Clinic Hospital where she had surgery Tuesday for appendicitis. She had to miss the Senior trip to New Mexico.

Miss Jewel Shelton, high school librarian, was ill at home a few days this week.

Mrs. Dave Locklin is in the Hudspeth hospital in Sonora.

Post Script

Texas school teachers are interested in it and Texas State Legislators are interested because they are going to have to decide, but we certainly don't hear any discussion on it at the coffee bar or on the street.

It has to do with two bills dealing with teacher pay raises with which the Legislature is confronted. One bill is being sponsored by the Governor and the other by the Texas State Teachers Assn. Both bills provide for pay increases. The Governor's bill provides for graduated pay increases based on years of experience, while the TSTA bill calls for a blanket raise. That's part of it.

Another part is the increased tax for raising the money. Both bills provide that local school districts shoulder part of the tax and the State a part. The Governor's bill plans to put a higher bite on the local districts.

Jim Nugent, our state representative from Kerrville, sent this newspaper a letter last week, detailing the cost to our Schleicher County Independent school district. Part of his letter—

"Dear Mr. Gunstead:

"In the interest of better understanding the expenditures that will be placed on my local school districts by the TSTA's or the Governor's teacher pay bills, I had the Texas Education Agency calculate the total increase in local funds needed for next year's operation under the Governor's bill and under the TSTA's bill.

"In your local school district additional local funds needed under the Governor's bill for next year would be \$10,719.00, and the total additional local funds needed under the TSTA bill would be \$7,320.00. Thereby making a total net difference between the cost of the two programs for one year's operation out of local funds of \$3,399.00."

Thanks to Mr. Nugent for digging up the figures as related to our own county-wide school district. As far as the cost is concerned it won't make or break our district. We'll gladly pay another dollar in school tax if it will help any.

And anyway, all taxes, whether state or local, as the Governor points out, come out of the pockets of the people, and "people" means YOU.

Maybe there are other controversial differences in the two bills. If so they haven't been brought to our attention.

—ps—

In furnishing the above information for our readers, Mr. Nugent evidently solicits the opinion of his constituents in order to guide him in his vote. Since the teachers are personally affected, he will undoubtedly hear from them. As for the rank and file here in Schleicher county, they are more concerned right now with the lack of rain than in the method of financing teachers pay raises.

—ps—

Borrowed . . . This is old advice, but a fellow often needs to be reminded:

Learn to laugh . . . it is better than medicine.

Learn to say kind words . . . nobody ever resents them.

Learn to keep your troubles to yourself . . . nobody wants them.

Learn to hide aches with a smile . . . nobody is interested anyway.

Learn to attend to your own business . . . few men can handle their own.

Learn to avoid nasty remarks . . . they give neither the hearer nor the speaker any satisfaction.

Learn to stop grumbling if you can't see any good in the world . . . keep the bad to yourself.

—ps—

With our subscribers: Mrs. Cecil Jeffrey is a new subscriber at General Delivery, Odessa, Texas.

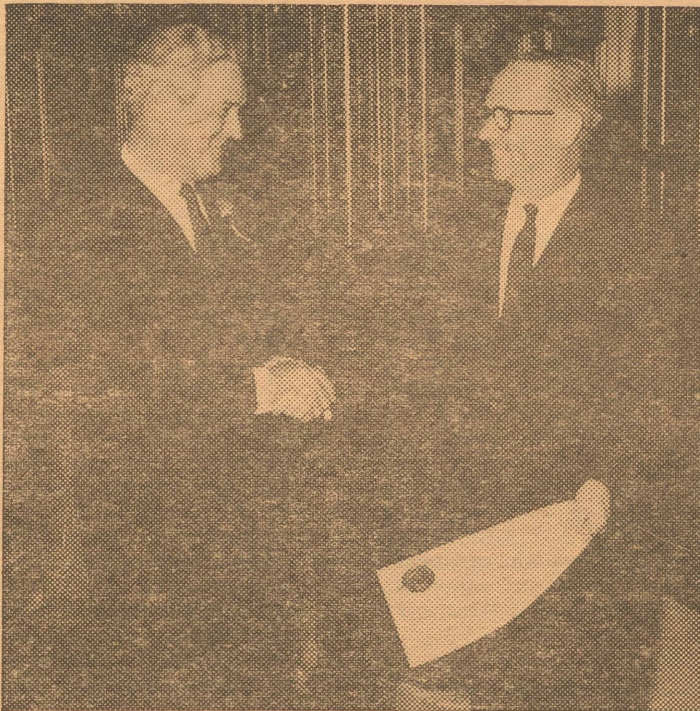

A. R. Parker writes that he has moved from Houston to 3002 Strawberry Road, Apt. 1-B, Pasadena, Texas.

Mrs. Eula Smith has moved from here to 2709 San Antonio Street in San Angelo.

—ps—

Wolf! Wolf!

Schleicher county has been reported in a "weather-alert" area just about every day for the past week, and all we've gotten out of

URGE PLANNED TRAVEL — In a recent official proclamation for Vacation Planning Week, May 10 to May 17, Governor John Connally declared that vacationers would get additional enjoyment from the state's endless variety of historical and scenic attractions by planning their visits ahead of time. Pictured with him is Jack A. Horner of Houston, chairman of Texas Mid-Continent Oil & Gas Association's Information Committee, sponsor of Vacation Planning Week.

Drilling Under Way On City Water Well

The new city water well being drilled on the airport by R. L. Wilson was down to a depth of 200 feet on Tuesday. This would be approximately one-half of the total depth, since water-bearing formations in Eldorado are usually at a depth of 380.

Wilson will drill a 6-inch hole to the total depth and then ream it out to about 12 inches. While drilling has been going on steadily for the past week, operations will have to be halted in the event of hard rain showers—the large drive belt won't work when wet.

The well has been planned as a stand-by source for the summer months when the demands reach a peak.

Last summer during the height of the hot season, city water pressure reached dangerously low points on several occasions, and the need for another well became imperative.

Judge W. R. Bearce made a business trip to Austin Wednesday of this week.

it were several brisk 5-minute showers. But P. S. Dudley reported that there was hail all over the ground when he returned home Monday evening . . . said it stripped all the leaves off his rose bushes. It must have been spotted—we've heard of no other reports of hail.

Eldorado was in a broad alerted area for severe weather Monday. We had some brisk showers that morning that dumped about .18 of an inch of moisture here in town.

James Williams reports the following real estate transactions:

Jim Holley bought the Reynolds house in northeastern Eldorado;

John Luman bought Mrs. Ray Smith's house;

Clovis Taylor bought the Ennis Hill house;

Fred Watson bought the Jones house for removal.

Elsewhere in this Success issue is an article from the Texas Highway Department which tells about the new personalized license tags which are available for \$10 extra.

Sheriff Orval Edmiston reported that the information, papers, etc., for these personalized tags came into his office on Tuesday, and that as yet he has had no inquiries in regard to them.

"We should have some motorists to inquire about them before long," the sheriff concluded.

Bill Works, game warden for Schleicher county, brought in a legal notice from the State Fish & Game Commission which appears in this issue on page 4. It is a notice of a meeting to be held at 2:00 p.m. on May 31 at the Memorial Building.

The meeting will have to do with new game laws and Mr. Works urges that all sportsmen and land owners should attend.

New Telephone Equipment Arrives

Yesterday, Wednesday, a truckload of new batteries was unloaded and stored in a building on South Main street for General Telephone Co. This was the first shipment of new equipment which will be installed soon in the telephone company's new building which is nearing completion beside their present dial equipment building.

The installation crew is due here the 27th of this month to begin their work.

Exam Schedule Announced For Eldorado School

High School Principal, Guy Whitaker, has announced the following Final Examination schedule:

Wednesday, May 19th:

6th period 1:00 p.m.

Thursday, May 20th:

1st period 8:30 to 10:00

4th period 10:30 to 12:00

5th period 1:00 to 2:30

Friday, May 21st:

3rd period 8:30 to 10:00

7th period 10:30 to 12

2nd period 1:00 to 2:30

The cafeteria will be open thru Friday for all students.

This day, Friday, will also be the last regular bus run, and the last regular day of school.

No bus runs or school on Monday, the 24th, which will be the teachers' grading day.

Buses will run again on Tuesday morning for the Awards Day Assembly program starting at 8:30, followed by students receiving their report cards. At about 10:00 a.m. the buses will make their return trip.

Congress Backs President In '2-Front War'

O. C. Fisher

Capitol Hill was aglow with suspense last week as reports from Viet Nam and the Dominican Republic were stepped up. On Thursday President Johnson invited a number of us to the White House to explain developments and lay out an emergency request for \$700 million to help finance the accelerated costs.

Within hours after the White House conference our Committee on Armed Services unanimously approved a procedure to provide the requested funds, and the following day the House approved it, with but 7 dissenting votes—most of them extreme liberals from the West Coast.

Whether one happens to agree with our role in Viet Nam and the Dominican Republic or not, we are in those places for the purpose of containing and resisting Communist aggression, which over the long pull would undoubtedly seriously affect our own security if their nibbling plans are not blocked.

The effect of solid approval of funds to finance our missions is to

Tours Of Ethicon Set For This Week End

Residents of West Texas receive a long-awaited opportunity this week end when Ethicon, Inc., opens the doors of its San Angelo plant to the public for the first time.

An affiliate of Johnson & Johnson, pharmaceutical and baby products manufacturer, Ethicon is the world's largest producer of surgical sutures—the thread that is used to close wounds.

From the time that the firm first broke ground some two years ago, the plant has initiated unusual interest on the part of area residents.

The entire facilities will be open to the general public Saturday from 9:00 a.m. to 6:00 p.m., and Sunday from 12 noon until 6:00 p.m. Employees and their families, as well as specially-invited guests will tour the plant Friday afternoon.

Special parking areas to the rear of the plant have been cleared and provision for several thousand cars has been made. Because of the expected large turnout, officials have asked that car pools be organized where possible.

Former Eldoradoans Safe After Quake

Mr. and Mrs. E. H. Dannheim received word that their son and family, Mr. and Mrs. Donald (Rusty) Dannheim and four children of Seattle, Washington, were safe after the earthquake which caused millions of dollars of damage and took five lives in that area on April 29th.

Mrs. Dannheim wrote that their home was in southwest Seattle and their area escaped serious damage. She said a huge water tank on a hill above them swayed and shook and made a horrible noise and presented a threat of danger but stood. She expressed the feeling of standing on a huge bowl of jello.

The quake intensity was recorded as between 6.5 and 7 on the Richter scale and was felt as far south as Eureka, Calif., and as far east as Montana.

Seattle's worst damage was in the downtown and industrial area of the city. Some plants were forced to suspend operations. The hardest hit was the Fisher Flouring Mill Co. Eight schools were closed but all but two hoped to be back in operation soon.

The last severe quake in the area was on April 13, 1949.

Attend Iraan Event

Last Saturday, an all-day celebration was held at Iraan to dedicate the Alley Oop amusement park, and famed cartoonist, V. T. Hamlin, was on hand.

Mr. and Mrs. W. J. Humphrey attended from here with their daughter, Mary, who was a nominee in the Miss Stone Age Queen contest, representing the Schleicher County Chamber of Commerce. Winner of that contest was the nominee from Big Lake.

Also attending from here were Mr. and Mrs. M. E. McEwen and daughter, Jessie; May Runge, Connie Spence, and Mr. and Mrs. L. V. Newport, and possibly others.

let the Communists know that the President has the support of the Congress and of the people in general. Communist propaganda has been to the effect that we are divided in this country in our resistance to their aggression. They would like for the world to believe that we do not have the will to make use of our enormous military power if and when the occasion arises in meeting our commitments and our role in the free world.

In the Dominican Republic, a Castro-triggered coup was nipped in the bud with the landing of our Marines there. Hundreds of American lives were saved, U. S. property protected, and the Communist time-table was thrown out of gear. The President's forthright action revived the Monroe Doctrine which has been battered around as a result of our bungling in Cuba. The Communies want a beachhead on the mainland of Latin America, and they chose the Dominican Republic for their mischief. No wonder Castro blew his top as a result of our intervention.

Salvation Army Committee Set Up

Joe L. Moore, Service Unit Field Representative for The Salvation Army, stationed in Midland, was here recently and helped organize a Salvation Army Services Unit Committee composed of local citizens.

Purpose of the committee is to serve as liaison with the San Angelo office of the Salvation Army, and to find and work with charity cases which need aid from this source.

Also, a fund drive will be conducted, probably in June, and this will take the place of the group of Salvation Army solicitors coming down each Tuesday.

A third of the funds so collected will be kept in a local Salvation Army fund to serve needs here.

Mr. Moore explained that there are currently 26 known charitable organizations which imitate the Salvation Army in solicitation techniques and even in the general appearance of uniforms. By conducting a single once-a-year drive for the Salvation Army, it is hoped that fraudulent solicitations can be curtailed.

Robert L. McWhorter is chairman, Judge W. R. Bearce is vice-chairman, and Raymond Hall is treasurer of the new Services Unit Committee.

Other members are T. P. Robinson, Tom Ratliff, Eldon Calk, W. T. Parker, Rev. Kenneth Vaughan, and Sheriff Orval Edmiston.

Overall purpose of the committee "will be to bring services of the Salvation Army to Eldorado on a local level," Mr. Moore stated.

Also, by having a local committee organized, they will be allowed to select two underprivileged boys to attend the Salvation Army summer camp near Midlothian later in the year. There is no set fee for the camp, but the local committee has the responsibility of selecting the boys and arranging their transportation to and from camp.

Better Traffic Record For Four-Month Period

During the first four months of 1965, Schleicher county's property damage for traffic accidents declined to \$2,760, as compared with \$8,933 for the same period in 1964. That was one of the statistics released recently for the San Angelo sub-district area of the Texas Department of Public Safety.

Also comparing last year with this year, personal injury accidents declined from 2 to 1, property damage accidents declined from 13 to 6, and total accidents came down from 15 to 7. Injuries also declined from 3 to 1.

For the month of April, the Department of Public Safety reported for Schleicher county one property damage accident costing \$225.

These statistics are released each month.

School News

Coach Earl Barnett announced the following Track Letterman for 1965: Ronnie Griffin, Jack Montgomery, Sam Henderson, Danny Richardson, Joe Phillips, Charles Nixon, Jesse Bosman, Pat Childers, Roy Davidson, Gary Derrick, and John Mayo.

At the State Meet in Austin during the week end, Scott McGregor took 4th in slide rule and Mickey Phelps placed 5th in typing. The 440 relay team was 3rd best in state. The team consisted of Roy Davidson, Pat Childers, Sam Henderson, and Ronnie Griffin, and they had a time of 43.5.

The Senior Class members and sponsors are on their trip to points of interest in New Mexico. They are due to return home late Sunday night.

The Band will go to Christoval for a picnic this coming Monday, May 17.

Baccalaureate for the Senior class will be held at 8:00 the night of Sunday, May 23rd.

Monday, May 24th, is teachers' grading day and a holiday for the students. Tuesday, the Awards Day assembly will be held at 8:30 a.m. followed by students receiving their report cards. Commencement will be held that same evening at 8:00.

Personalized Tags Available For Cars

Austin.—Now Texans have a new status symbol: Personalized, prestige auto license plates.

A bill approved by the Legislature and signed by Governor Connally Thursday authorizes issuance of personalized license plates upon payment of a \$10 fee in addition to normal auto registration charges.

Not only may Texans have their automobiles identified with distinctive one-of-a-kind license plates but the Texas treasury will get a substantial boost, too.

It has been estimated that the measure may raise as much as \$5 million—or personalized plates on one of every dozen vehicles registered in the state. Ninety-five percent of all fees will be paid to the state's General Fund.

The measure was recommended by Governor Connally to help finance the Texas program for tourism, recreation & state parks. The governor also suggested that Texas join in an Interstate Tourist Compact for tourist advertising overseas to make known the attractions of the United States.

The bill will be administered by the Motor Vehicle Division of the Texas Highway Department, the agency responsible for registration and licensing of all vehicles in the state. The Highway Fund will receive 5% of collections to defray administrative costs.

Although the bill does not become effective until 90 days after the Legislature adjourns, the Motor Vehicle Division will begin accepting applications at once. The estimated date that plates will be issued for use is on or about August 24.

Obviously, only one plate of a kind may be issued. And it will go to the first applicant. Once a specific, personalized license plate has been assigned to a motorist, it will be reserved for his use in succeeding years if his renewal application is submitted by January 1st.

All applications must be sent to the Motor Vehicle Division, Texas Highway Department, 40th & Jackson, Austin. Application forms now are available at the individual tax assessor-collector's office. They must be accompanied by the \$10 personalized license registration fee. A similar fee, in addition to normal registration charges, will be required each year a personalized plate is issued.

Motorists are requested to submit at least three choices for embossing on their personalized plates. Preference will be given to their first choice. If a prior application for the same inscription has not been received the special plate will be manufactured and sent to the county tax assessor collector in the motorist's home county for delivery. The motorist may receive his personalized plate by surrendering his regular registration plates.

Personalized license plates may not be transferred from one owner to another, nor may they be transferred from one classification of vehicle to another without renewal. Personalized 1965 plates also may not be displayed on previously unregistered new or used vehicles.

Texas motorists virtually have unlimited choice of letter and number combinations for their personal, prestige plates. However, the personalized plates must not conflict with the regular license numbering system. Nor will ob-

scene nor objectionable combinations of letters or numbers be permitted. Personalized license plates will not be issued for trailers or semi-trailers in excess of 10,000 pounds, for motorcycles nor for vehicles now displaying amateur radio plates.

The motorist may want his license plate to bear the name of his dog, his wife, his mother-in-law—or even his own initials. He may want to call attention to his hobby, his business—or his girl friend.

Characters on the personalized plates—either numbers, letters, or a combination of both, will be limited to six. Contrary to normal policy the use of vowels will not be prohibited.

A spokesman for the Texas Highway Department predicted that the greatest demand will be for monogram-type plates—or those bearing the owner's initials—as “FDR”. Others may want nicknames, as “SCOTTY.”

Business interests have indicated they view the personalized plates as a golden opportunity for special advertising promotion with such plates as “CARPET”, “INSURE”, “AAA 1” etc.

Some may wish to promote particular causes as “SAFETY” or “CANCER.” And plates of patriotic significance, including community names, are acceptable: “GOLIAD”, “ALAMO”, “AUSTIN” etc.

Texas isn't the first state to authorize use of personalized prestige plates. At least eight other states have adopted similar measures to swell tax revenues.

For Senior Class . . . Presbyterians Have A Damp, Chilly Breakfast

About 40 members of the Presbyterian church had an early breakfast in the damp, chilly early morning at the Roadside Park Tuesday morning and then entertained about 30 members of the '65 graduating class of the local High School in the same kind of weather with breakfast.

It was reported that all had a good time. Others present were the class sponsors, Mr. and Mrs. Guy Whitaker, and Mr. and Mrs. Ronnie Giles; Supt. and Mrs. A. M. Whitis, H. W. Scott and Dr. and Mrs. E. L. Dyer of Ozona.

Mrs. Jackson Has Guests

Houses guests of Mrs. Edwin Jackson this week are Mrs. W. W. Beall of Austin and grandson, Mike Benedict, 3, who is visiting his grandmother, while his parents, Mr. and Mrs. F. C. Benedict are moving from Hawaii to Quantico, Virginia. Also visiting are Mrs. J. C. McKinley and her daughter of Austin and Longview who are en route home after a tour of Australia and New Zealand.

Mr. and Mrs. John Luman are moving to the Eula Smith house in the south part of town which they bought recently. Mrs. Smith has moved to San Angelo. The E. L. Carlman family are moving to the Luman house, probably this week end, from the Alma Sauer house, better known as the Dr. Wiedenmann house.

Mike Stanford, 6, son of Mr. and Mrs. Sonny Stanford of Troup, Texas, near Tyler, returned home last Sunday with his great-uncle, L. A. Kent of Tyler, after visiting his grandparents, Mr. and Mrs. Truett Stanford and Mr. and Mrs. J. H. Mace for the last three weeks.

Miss Arvie Wegner of Brady, a niece of the C. W. Galbreaths, is their house guest this week. Miss Wegner and Mrs. Leslie Galbreath visited Mrs. Galbreath's son, Billy Galbreath, in Sonora Tuesday.

COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

What is Civil Defense?

It is simple things. Civil Defense is the housewife, cleaning the attic. It is a school teacher, adapting fire drills to other emergencies. It is a family enrolling in a medical self-help course, or making plans for action in a case of an emergency. It is your home, your children, your back yard.

Civil Defense is a calm, steady approach for conditioning people against the hazards of all disasters. It makes as much sense in everyday living as in times of emergency.

Why is civil defense important? There are many reasons. Civil defense is preparation to meet many different kinds of emergencies. Civil defense planning and preparation could save millions of lives. Adequate fallout shelters would be a great deterrent to attack. Good civil defense will prevent panic and save lives in any disaster. It is “do-it-yourself” insurance on self protection. It is good citizenship. Any community that takes its citizenship and civil defense responsibilities seriously will be able to rebuild after any disaster.

A burdened taxpayer reports that the trouble with our foreign relations is that they're living beyond our means.

Some people swear by pesticides, others swear at them. Usually the difference in the two is what they know about pesticides and how to apply them.

Whether or not pesticides harm men, animals, plants, fish and wildlife depends largely upon one person—the user.

By following a few simple rules of safety when using agricultural chemicals, especially pesticides, trouble can be avoided. Follow all label directions and safety precautions. The manufacturer is required by law to properly label his material. The label clearly states what the pesticide is to be used for and how. Also precautions for the applicator's safety when applying the material are listed.

All agricultural chemicals and especially pesticides should be stored under lock and key and in their original containers. If for any reason, the original container is not used, then properly label the substitute. Don't guess what is in an unlabeled bag or bottle. It could be a costly one.

Dispose of containers in a safe manner. Burn paper containers but

make sure the smoke doesn't drift on you or your house or a neighbor's property. If the containers are glass or metal, bury them.

Guard against drifting dusts or sprays. Make sure they do not drift into an area where they will be harmful.

And remember, when you encounter trouble with pesticides, about the only person you can blame is yourself.

“Leave out the clothes closet,” said the practical man to his architect. “My wife keeps insisting she has nothing to wear.”

Education in the future will need to place more emphasis upon wise use of leisure time.

It is estimated that the average person 35 years from now will have twice as much leisure time as the person of the present. Either we start planning today for wise use of this time or we pay the consequences.

Increasing concern for training of our citizens in wise use of leisure time is not just a desire to make people's lives more pleasant for them. Monotony in work and in off hours is a social danger no less than disease, disorder, and illiteracy.

Our failure to embrace this belief is raising the crime rate, increasing population in mental hospitals, multiplying physical and moral weaklings rejected by the armed forces, and raising the percentage of youths who want security at the very onset of their careers and who are afraid of trial and adventure.

Participation is most important and involves more than just being a spectator to a sport that offers only passive sideline involvement. In addition to what is commonly called physical recreation, participation may be in the form of civic affairs or social services which offer meaningful leisure time activity and satisfying personal experience.

This does not mean that one's work or profession will be neglected but that life will be looked upon as an entity and preparation for it will be treated as such.

American life in the future is going to be leisure time oriented in contrast to a work oriented past. How well and how soon we adjust to this change will have much to do with our country's future welfare.

The trouble with square meals is that they make you round.

Shut Out Hot Weather with a Paramount DeVille

MODEL 4043-2
\$154.95

The new Paramount DeVille is the answer to your cooling problem. It offers complete flexibility of control and a patented Window Closing Attachment. This attachment eliminates entry of dust, rain and drafts. And there's no need to remove the cooler in the winter or reinstall it in the spring — just drain the water, close and lock the window — then forget about it.

AS LOW AS
\$6.64
Per Month

(after normal down payment)

NO-CLOG STA-FRESH FILTERS assure cooling efficiency all summer long. Guaranteed clog-proof, with complete insect protection.

COMPLETE AIR DIRECTION CONTROL. Air movement can be instantly altered to provide concentrated or diffused cooling or ventilating.

TWO SPEED MOTOR CONTROL. By changing motor speed, cooling capacity output is adjusted to suit comfort needs.

PUSH BUTTON PUMP CONTROL eliminates the dry, hot, dusty air during the first few minutes of operation.

OTHER POINTS OF SUPERIORITY

- 100% HOT-DIPPED GALVANIZED UNI-WELDED CONSTRUCTION
- BAKED ENAMEL FINISH
- MOTOR AND BLOWER WHEELS CUSHIONED IN RUBBER
- ADJUSTABLE MOTOR MOUNTS
- HIGH MOUNTED MOTORS—PROTECT AGAINST MOISTURE
- BRONZE, OIL-IMPREGNATED BEARINGS
- DYNAMICALLY BALANCED BLOWER WHEELS
- UNOBSTRUCTED WATER RESERVOIRS
- TWO SPEED MOTORS

Extra large *Squirrel Cage Blower* puts out large quantity of air at a slow, quiet speed.

See the Paramount DeVille evaporative cooler at your WTU office. Normal installation Free for WTU residential customers.

Nutrition Workshop Aims Research Findings

Human nutrition research findings, a study of the nutrition status of all age groups, motivating factors in consumer purchases of food products, a sharp look at food facts and fallacies, and tours of A&M's freeze-dry and food technology laboratories were among highlights of the Human Nutrition Workshop at A&M, May 3-7.

Thirty-six county home demonstration agents participated in the educational conference. Attending from here was Mrs. Vida Kreklow.

Other major lectures centered around the physiology of nutrition, a study of the role of carbohydrates, proteins, fats, minerals and vitamins in the human diet, the role of nutrition in dental caries, and the National Research Council's recommended daily food allowances, which have been cut back recently for both men and women.

Speakers included sociologists, biologists, biochemists and others from Texas A&M, a nutritionist from Texas Tech; staff members from the University of Texas Dental Branch at Houston and the University of Texas Medical Branch at Galveston, a consultant from the Food and Drug Administration, Dallas; an educator from the University of Iowa department of home economics, and other Texas educators.

Extension foods and nutrition specialists Louise Mason, who was chairman, and Maena Cox, Frances Reasonover and Marie Tribble planned and supervised the week-long training meeting.

Presiding agents were Mrs. Madeline Kennedy, Kleberg county; Mrs. Vida Kreklow, Schleicher county; Carolyn Luton, Polk county; Mrs. Margaret McConnell, El Paso county; Mrs. Gloria Schwarlose, Atascosa county; Dorothy Taylor, Hardin county; Lucille Watson, Bosque county; and Juanette Williams, Garza county.

Assembly Of God Is Now Holding Services

Rev. Johnny Griffith, pastor of Assembly of God Church, announces that his congregation have been holding services in their newly-acquired building on the Menard highway for the past two Sundays.

Services are now being held each Sunday in the former East-side Baptist Church.

Rev. Griffith holds Sunday School at 9:45, followed at 11:00 by morning worship. Sunday evening services begin at 7:30.

This coming Sunday evening, the Methodists will visit the Assembly of God church.

Rev. Griffith, who serves as a barber in the business district when not working as church pastor, is in Sweetwater today attending a Section Meeting of his church.

The local Assembly of God group are looking into disposing of their old frame building farther out on the Menard highway, across from the Sofge motel. One proposition that has been made is for the structure to be moved to Sonora and to start a new church there. These arrangements are still being worked on, and are as yet indefinite.

YOUNG HOMEMAKERS MEET

The Young Homemakers H. D. Club is meeting today, Thursday, at 9:30 a.m. in the home of Dorothy Clark.

The H. D. Agent, Mrs. Vida Kreklow, will give a demonstration.

Methodist Notes

The pastor, the Rev. C. M. Nyquist, announces that this coming Sunday evening, the Methodist congregation will visit the Assembly of God in their newly-acquired building on the Menard highway.

"We will furnish the pianist and song leader and have a joint old-fashioned song service," Rev. Nyquist stated. The Assembly of God pastor, the Rev. Johnny Griffith, will bring the message. The service will start at 7:30.

The Annual Conference will be held June 3rd through 6th in San Antonio. Lay delegate from Eldorado will be L. W. Steen, with Mrs. W. F. Meador as alternate delegate.

School Menus

Monday, May 17: Meatloaf, baked potatoes, pinto beans, tossed green salad, buttered rolls, milk, canned fruit.

Tuesday, May 18: Fried chicken, gravy, buttered rice, English peas, congealed salad, buttered rolls, milk, chocolate cake.

Wed., May 19: Hamburgers, lettuce and tomatoes, potato chips, fruit cup, carrot & celery sticks, milk, brownies.

Thursday, May 20: Pork chops, Mexican rice, pinto beans, peach halves, buttered rolls, milk, vanilla cherry pudding.

Friday, May 21: Sandwiches, tuna, pimento cheese, ham salad; three bean salad, fritoes, milk, ice cream.

Home Demonstration Agent's Column

By MRS. VIDA KREKLOW

I'm back from the A&M University nutrition workshop and I must admit a slight case of Ph. D.-osis. This is a direct result of having listened to about 16 Ph. D.'s in five days time as they presented papers of sometimes 2 to 3 hours length. The speakers were top flight in their field and every person had something of extreme interest to tell us but it's going to take a little time for me to properly assimilate and digest the information I got last week.

In each presentation a copy of the speech was given to members of the audience. One clever and witty speaker exhorted us thusly as she began her speech—"Please put the copy of my paper back in your notebooks, one of us reading it is enough and after all, that is what I'm being paid to do." And as you would likely guess hers was the easiest to follow without copy—the one who kept us wide awake and with her all of the three hours allotted her. She was a kind of Phyllis Diller with a Ph. D.

People who must support each statement made with research findings rarely make general statements and these people were not exceptions. Therefore for me to generalize would be very difficult and would likely be inaccurate.

However, one theme ran all through each person's presentations. It finally amounted to a plea for reasoning on the part of the human race—to a person they begged us to realize that we must have ALL the nutrients in our diets to maintain good health. They scored and scorned the fad diets, the leaving out of some of the nutrients in order to lose weight or to achieve some other area of health.

To elaborate a little further, I quote from one speaker as he mentioned the now raging non-carbohydrate diet. He said, "You will reduce your weight on a diet without carbohydrates. And you will also die. Some people have created their own diabetes by cutting out carbohydrates. (Carbohydrates are the starches and sugars.) The only reason that more people don't die is that they cheat on their diets and pick up a few starches and sugars on the sly. The ones who don't cheat a little may some day slip into a carbohydrate coma."

The same speaker continued on this thought by mentioning a carbohydrate-less diet popularly called the Air Force diet even though the Air Force says that they never heard of it. "The commonly called Air Force diet works—it causes weight loss and of course you may lose the person too. The doctor only should recommend and supervise such a diet," the speaker said.

It is a matter of great concern to those who know and care about the health of America to realize that these findings listed below are true.

—One third of the people of the United States fail to eat a proper breakfast amid our abundant food supplies and even surpluses.

—On the same survey carried out by the U. S. Department of Agriculture, it was found that many teen-age girls had the following for breakfast—if you could call it that—before going to school: two nerve pills, one vitamin pill, and one cup of black coffee!

—The story about the young mother of two children is found to be true all over the land. Her husband was a student at Texas A&M University. She said that she had no room to worry about proper nutrition because they both had their vitamin pills every day.

And—I could go on and on until the page overflows, but I will not. I will ask these questions, however: Do you know and do you care enough about your family to be concerned with what each one is eating? Are you yet convinced that it matters?

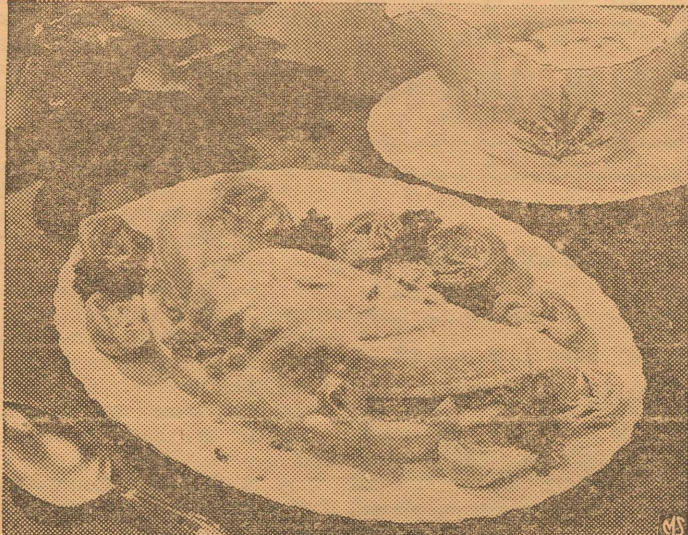

SUNDAY VISITORS

Visitors in the home of Mr. and Mrs. T. H. Alexander on Mother's Day were: Mr. and Mrs. R. J. Alexander, Mr. and Mrs. R. J. Alexander Jr., Mrs. Jerry Thompson and sons Tracy, Casey and Jamie, all of Big Spring; Mr. and Mrs. Claud Alexander of Austin; Mr. and Mrs. John T. Alexander and girls Julie and Janice of Ft. Worth; Mr. and Mrs. Claud Alexander Jr., and son David of Dallas; Mr. and Mrs. James Alexander and children June, Eddie, Shelia and R. B. of Sonora, and Mr. and Mrs. Lynn Alexander and Ray Alexander of Eldorado.

Mr. and Mrs. Bus Enochs and Linda Bess of Austin visited during the week end with Mr. and Mrs. Jeff Enochs, who also had their local relatives visiting them.

The Kimble-Menard County singing convention will meet Sunday, May 16, at Hext Baptist church at 2:00 p.m., announces the secretary, Mrs. Allen Davis.

GLAMOUR IN AN OMELET

Frozen artichoke hearts lend elegance and fine flavor to a puffy omelet—an excellent choice for a meatless meal that is easy to prepare and satisfying.

Puffy Omelet with Artichoke Hearts

- 1 package (9 oz.) frozen artichoke hearts
- 1½ tablespoons lemon juice
- ½ to 1 teaspoon garlic salt
- 2 tablespoons butter, melted

4-egg puffy omelet

Creamy Sauce

Cook artichokes as directed on package, adding lemon juice and substituting garlic salt for salt before simmering. Drain. Coarsely chop about ½ of the artichokes; reserve remaining artichokes for garnish. Add 2 tablespoons butter to chopped artichokes; stir until melted. Keep all artichokes warm.

Prepare omelet as directed in your favorite recipe. When omelet is well puffed and delicately browned on the bottom, place pan in a 375° oven for about 4 minutes, or until top of omelet is firm.

Spoon chopped artichokes over half of omelet. Fold omelet in half and slide onto warmed serving platter. Garnish with reserved artichokes. Serve with Creamy Mushroom Sauce.

Creamy Sauce: Dilute 1 can (10½ oz.) condensed cream of mushroom or cream of chicken soup with about ½ cup milk. Heat and serve over omelet.

Easy-To-Make

Appetizing Salad Mold

It's easy to dress up a simple fish or meat dish with a side attraction that is lively in color and flavor. A bright ruby molded salad for instance, made with ready-to-use strained beets from the baby food shelf and lemon flavored gelatin will make a sparkling companion for most any dish. Best of all, it can be put together in a few minutes and made hours in advance. Try the *Molded Beet Salad* in fish molds when serving fish (as shown above). Use other shapes for different main dishes. Custard cups will always do if the fancy shapes aren't handy.

Molded Beet Salad

- 1 pkg. lemon-flavored gelatin
- 1½ cups hot water
- 2 jars Gerber strained beets
- 1 tablespoon lemon juice
- 1 tablespoon strained pickle relish
- 1 tablespoon grated onion

Salt and pepper to taste

Dissolve gelatin in hot water; stir in beets. Cool. While mixture is still liquid, stir in remaining ingredients. Spoon into individual molds or custard cups. Chill until firm. Unmold on salad greens. Serve with a salad dressing, if desired. Makes 4 to 6 servings.

For Very Special Occasions

A MOCHA TORTE REMINISCENT of old Vienna is a perfect dessert for very special company. Serve it with Maxwell House instant coffee, made by the potful method.

AUSTRIAN MOCHA TORTE

- 1/4 cup water
- 1 tablespoon instant quality coffee
- 1/2 cup chocolate chips
- 6 egg yolks
- 1/2 cup sugar
- 1/3 cup butter
- (at room temperature)
- 1/2 cup sifted all-purpose flour
- 6 egg whites
- 1/4 teaspoon cream of tartar
- Creamy Mocha Topping

Combine water and coffee in a small saucepan. Bring to a boil. Then reduce heat and add chocolate chips. Heat and stir until chips are melted and mixture is smooth. Cool.

Beat egg yolks until foamy. Gradually add sugar, and beat until thick and lemon colored. Add butter; beat until smooth. Add chocolate mixture; beat until creamy. Fold in flour. Beat egg whites with cream of tartar until stiff shiny peaks will form. Carefully fold into chocolate mixture. Grease two 8-inch layer pans on bottoms, line with paper, and grease again. Pour about one cup batter into each pan. Bake at 325° for 15 minutes. Cool in pans 5 minutes. Then remove from pans and invert onto rack. Remove paper carefully. Bake 2 more layers using remaining batter. When cool, fill and top layers with Creamy Mocha Topping. Makes 12 to 18 servings.

Creamy Mocha Topping. Melt 1 package (6 oz.) chocolate chips over hot water. Remove from hot water; add 1/2 cup butter and blend. Gradually add 1/2 cup unsifted confectioners' sugar, blending well. Dissolve 1 tablespoon instant quality coffee in 3 tablespoons heavy cream. Add to chocolate mixture along with 2 egg yolks, and 1 teaspoon vanilla. Beat until smooth and creamy. Chill until of right consistency to spread. Makes about 2 cups.

Adrian Building Given Marker At McCamey

The historic Adrian Building in McCamey has been named a Recorded Texas Historic Landmark, significant to the history of Texas. This announcement was made by John Ben Shepperd of Odessa, president of the Texas State Historical Survey Committee.

The plate states that this western bungalow was built in 1915 in Girvin by R. F. Mayse, the first merchant there. It was moved to

McCamey in 1946 as a gift of Mr. and Mrs. Hal Holmes. Mr. and Mrs. Hal Holmes presented the Adrian Building to the Mendoza Museum in the spring of 1962.

The McCamey Woman's Study Club plans to furnish the Adrian Building with furniture from 1900 to 1920 and hope to have this completed by McCamey's Anniversary Celebration in 1966. —McCamey News.

In Those Days

Compiled From Success Files

ONE YEAR AGO
May 14, 1964—The new front entrance and steeple were completed on the front of the First Baptist church building.

Dr. E. L. Dyer closed his local office and was preparing to move to Yellowstone Park.
Ernest Finnigan's funeral was held.
Mrs. J. T. Jackson Sr. died at the age of 91.

FIVE YEARS AGO
May 12, 1960—Edna Faught was valedictorian, June Williams salutatorian, and Pat Preston highest boy of the 1960 graduating class.

In the Democratic Primary, Jim Nugent was elected to succeed Joe Burkett in the state legislature, and Joe Wagley and L. L. Watson were top two in the Precinct 3 commissioner's race.

Mrs. Arch Mittel and Mrs. Carroll Ratliff reported \$444 raised in the Cancer drive.

Sherwin Jackson was honored with a party on her 5th birthday. Bill Reesor was second in the mile, and Jim Runge fourth in the 440-yard dash, in the state track meet.

12 YEARS AGO
May 14, 1953—Rev. Clifford Nelson was to be Baccalaureate speaker, and Joe H. Foy Commencement speaker, as the '53 class was about to graduate.

Local people were concerned about relatives and friends in San Angelo after a twister raked the Lakeview area.

A daughter was born May 9 to Mr. and Mrs. Bill Meador.

Earl Parker was new jobber for Shell petroleum products.

The engagement of Iretta Faye Mace and Albert (Sonny) Stanford was announced.

35 YEARS AGO
May 16, 1930—Emily Louise Evans, 18-year-old daughter of Mr. and Mrs. R. A. Evans, died.

Sugar, 20 lbs. of C&H Pure Cane, cost \$1.00 at the "Self-Serve Grocery and Market." Pinto beans were 16 lbs. for \$1.00, and 20 lbs. Pearl or Cream meal cost 60c.

The local Lions Club elected Miss Lorene Shoemaker as representative in the Declaration Contests which were coming up in Abilene.

The Methodist and Baptist Sunday Schools had a picnic at Christoval. A men's baseball game was on the agenda for entertainment.

John Evans and family of Pear-sall were guests of Mr. and Mrs. J. M. Evans.

Graduating from San Marcos Academy were Jack and Morris Whitten and Miss Estelle Johnson.

Navajo Indian Reservation with 20,884 square miles in Arizona and Utah is the nation's largest.

U. S. Highway 40 crosses the 40th parallel four times on its 3,000-mile stretch from Atlantic to Pacific.

Cafeteria Scene Of Mother - Daughter Home Makers Banquet

"Girl Today—Woman Tomorrow" was the theme of the annual FHA mother-daughter banquet held in the school cafeteria Thursday, May 6th. Miss Sharon Nyquist, president of the organization, was mistress of ceremonies. The invocation by Jan Porter was followed by the welcome by Judy Ann Davidson. Mrs. E. C. Peters gave the response.

Food for the one hundred and twenty-five participants was prepared by the Homemaking II classes, and served by Cecelia Dockal, Elaine Dempsey, Shane Henderson, Debra Murr and Sandra Rosforth. The menu was a list of various salads, bread sticks, and sherbet and sugar cookies.

A lovely style show was presented by the Homemaking I classes with each girl choosing a garment which she had either made in class or at home.

Miss Kaye Harkey narrated a beautiful devotion entitled "Attributes of a Christian Mother." The ten officers placed a red rose on a white cross as Kaye gave the attributes and read devotional thoughts concerning each.

Nancy Kay Jurecek gave a report of the State FHA meeting which she attended in Dallas late in April.

This banquet concluded the programs for the year and Miss Owens was presented an orchid and an appreciation gift. It is over for this year but for many it is the last and a certain amount of sadness prevails, but for others participation still is ahead of this annual event which has memories for all.

Pennington - McCary Wedding Held In Austin

Miss Nelda Sue McCary and Jerry Lyn Pennington of Lubbock were married at 6:30 p. m., April 21 in the pastor's study of Woodlawn Baptist Church in Austin. The Rev. W. S. Chamberlain, minister, officiated at the double ring ceremony.

Matron of honor and best man were Mr. and Mrs. Kenneth Paul Pennington of Austin.

Parents of the bride are Mr. and Mrs. Roy McCary of Lubbock, and the bridegroom is the son of Mrs. Evelyn Pennington of Eldorado and Jerry Pennington of Hereford.

Mrs. Pennington is a graduate of Floydada High School and is employed at Pittsburg Plate Glass Co., in Lubbock. The bridegroom is a graduate of Eldorado High School and attended the University of Texas. He is employed at Sherwin-Williams Co., in Lubbock. The couple will reside in Villa Apts., Apt. 6, Lubbock.

Lynda McGinnes Named Sorority Treasurer

Denton.—Lynda M. McGinnes of Eldorado has been elected treasurer of Sigma Alpha Iota, national music sorority, at North Texas State University.

Miss McGinnes, a senior music education major, is the daughter of Mr. and Mrs. Elton A. McGinnes of Route 1. She is also a member of Music Educators' National Conference; Alpha Lambda Delta, national honor society for women; the Chapel Choir; and the Grand Chorus.

Lions Have Program On Old Mexico

Lloyd Witter of San Angelo was guest speaker at the meeting yesterday of the Lions club, and he gave a lecture and presented slides he took in Old Mexico while on a trip there a while back.

Fred Watson presided and presented John Hodges, new member of the club, with his badge and certificate of membership.

Bill Rountree was the program chairman.

The Military

Three young Eldorado men are scheduled to leave for San Antonio this (Thursday) morning — boarding the bus at Sonora at 6:00 a. m.

Allen Smith goes for final physical and induction.

John Lowe, son of Mr. and Mrs. Gilbert Lowe, goes for his first physical.

John Thomas Whitten, son of Mr. and Mrs. Buren Whitten, also goes for his first physical.

Miss Humphries Elected To Baylor Student Group

BETTY HUMPHRIES

Waco.—Betty Humphries, Baylor University junior from Eldorado, Texas, was elected to represent the Hankamer School of Business in Student Congress, student governing body at Baylor.

Election winners were announced by out-going president Jimmy Maddox at the annual Business Alumni Banquet recently.

Miss Humphries, an accounting major at Baylor, is the daughter of Mr. and Mrs. C. T. Humphries of 202 West Fields of Eldorado. She is a member of Kappa Theta, women's social club; Theta Chi, professional business women's club; Alpha Lambda Delta, a women's honorary society open to all women who achieve a 3.5 grade-point average during their first semester or the first over-all year at Baylor; and the Dean's Distinguished List for students having an average between 3.8 and 4.0.

Miss Humphries was valedictorian of her '63 graduating class of Eldorado High school.

O.E.S. Chapter Holds Memorial Service

The Eldorado Chapter # 140 of the Order of the Eastern Star held their regular meeting Monday night, May 10, 1965, at the hall.

A memorial service under the direction of Edith Hartgraves was well presented for Mrs. Angie McCormick, and Barbara Spencer Hill, members of the chapter who had passed on during the last year.

Penelope Phillips Estes sang, I Saw a Man, accompanied by Sara Rozean at the piano.

Refreshments of lemonade and cake were served by Ruth Hext and Miss John Alexander.

Speech Club Party Held

Mr. and Mrs. Peyton Cain entertained the members of the Speech Club and their parents with a picnic supper at their ranch home Tuesday night. The meal consisted of sandwiches, potato chips, and home-made ice cream.

Recreation was dancing to recorded music, and ping-pong.

Woman's Club Installs Officers, See Slides

Mrs. Edwin Jackson was Installing Officer of the 1965-66 officers of the Woman's Club at a luncheon held at the West Texas Cafe Tuesday at noon. She presented each officer a beautiful pink rose, the club flower, and charged each one to observe its perfection and to strive to perform her duties likewise.

Officers installed were: Mrs. Arch Mittel, president; first V-P, Mrs. Bascomb Hartgraves; 2nd VP, Mrs. Jess Blaylock; Sec., Mrs. Edwin Jackson; Treas., Mrs. Keno Ogden; Parliamentarian, Mrs. L. D. Ochsner; club counselor, Mrs. R. D. Johnson; historian, Mrs. W. N. Ramsay.

The president appointed the following committees and department chairmen:

Calendar, Mrs. Bascomb Hartgraves, Mrs. C. N. Clark, and Mrs. R. D. Johnson.

Social, Mrs. Jess Blaylock, Mrs. C. C. Clark, Mrs. L. L. Watson.

Library representative, Mrs. W. N. Ramsay.

Telephone, Mrs. Josh Ewing, and Mrs. Mabel Parker.

Publicity, Mrs. W. A. Van Dusen.

Department Chairmen

Conservation.....Mrs. R. D. Johnson
Education.....Mrs. L. L. Watson
Fine Arts.....Mrs. C. N. Clarke
Home Life.....Mrs. W. A. Van Dusen
Int. Affairs.....Miss Miltia Hill
Public Affairs.....Mrs. L. D. Ochsner
Texas Heritage.....Mrs. Keno Ogden

Twelve members attended the luncheon and two guests: Mrs. Edwin Johnson of Midland and Indonesia, and Mrs. Jackson's sister, Mrs. J. C. McKinley of Austin and Longview.

Mrs. Johnson presented colored slides of Indonesia where she has lived at Dumai on the isle of Sumatra since 1958. The slides presented the people of the Far East; their ways, how they look, what they wear, what they do, and how they live.

Biggs Brothers Are In The Spotlight

Glenn Biggs of Abilene and Truman Biggs of Midland, formerly of Abilene, have both made news lately. They are the sons of Mr. and Mrs. Ben Biggs of Eldorado.

Glenn, who is a partner in an Abilene real estate and insurance firm, was elected as one of the directors of the Abilene Chamber of Commerce. He was also appointed to the Board of Development for Hardin-Simmons University there. The board consists of about 45 business and professional men.

Truman, his brother, a consignee for the Gulf Oil Corporation, was the winner of a contest sponsored by Gulf. The prize was a trip to Jamaica for him and his wife. They will leave their Midland home Saturday to make the trip.

Truman was formerly with the Gulf Oil Co. in Abilene and a partner while there. Grady Hughes and his wife planned to make the trip with them. The Hughes were both injured in a car wreck at a highway intersection near Winters last Saturday and had to cancel their plans.

The Biggs cousins, Mr. and Mrs. Wesley Alpine of Midland, will keep their baby while they are gone.

Glenn, who has undergone major surgery twice this year, is showing an improvement.

Mr. and Mrs. Joe Hearne Moore of San Antonio spent Mothers Day week end with Mrs. B. E. Moore.

Mr. and Mrs. Bob McElroy and daughters, Barbara and Beverly, spent Mothers Day with Mr. and Mrs. Ben Biggs.

Where Was The Fire?

The Fire Department answered two calls late last week.

The first of these was to Myrtle Galbreath's.

Saturday, they were called to Mrs. Elizabeth's Ballew's home where a pan of grease on the kitchen range caught fire. The kitchen had walls and ceiling damaged by heat and smoke.

Night Bridge Club Meets

Mr. and Mrs. Leslie Baker entertained the Night Bridge Club at their home last Monday night with a turkey dinner.

There were four tables of players. Mrs. Dick Bearce won high prize for the ladies, Mr. C. C. McLaughlin was high man, Carroll Ratliff won bingo for the men, and Mrs. Tom Ratliff bingo for the women.

CWF—1st Christian

C.W.F. met in the home of Mrs. Charles Young. Meeting opened with the Lord's Prayer by all.

Roll call was answered with each member quoting scripture.

Our last mission payment for our year's report of 1964 to July, 1965 for UCMS; we will now close our books and begin again July, 1965. Our nursery for the church hour will continue.

Our lesson by Ruth Baker was on Christian communication, and Jesus and The Witch Doctor.

Meeting closed with C.W.F. benediction. Mrs. Dave Locklin is still in Hudspeith Memorial Hospital in Sonora. She is not able to have visitors and really appreciates her mail.

Home-made angelfood cake, and tea, was served by our hostess, Mrs. Young. —Rep.

Graduation Edition Coming Out Next Week

As graduation time nears for the E.H.S. Seniors, the Success next week will publish the first Graduation Edition, with photos, write-ups, advertising, etc., all carrying out the commencement theme.

There are 34 in this year's Senior class. This week they are on their trip to points of interest in New Mexico.

Two Local Delegates To Attend Youth Meeting

Plans are under way for Eldorado to send two high school age young people to the Attorney General's youth conference in June, at Austin.

The Bev McCormick post of The American Legion has agreed to sponsor one, while the Lions club will send the other. Each organization will put up \$32.

Mrs. H. Gordanier of Brady visited her son and daughter-in-law, Mr. and Mrs. Granvil Hext, last week end.

Mrs. Bobbie Sanders and Mrs. Fenna Whitten recently attended a deputy sheriffs' meeting in San Antonio.

Wm. Luman has moved from a Montgomery apartment to the Phillips house.

Week end and Sunday visitors in the home of Mr. and Mrs. Arch Crosby were Mr. and Mrs. Pete Greenwood of San Antonio; Mr. and Mrs. R. G. Nance of Sonora, and Mr. and Mrs. Bing Crosby of Christoval.

Mrs. Jack Griffin killed a diamondback rattler one day last week between the guest house and garage at her home east of Eldorado. She was warned by the snake's rattle and if she hadn't heard it she would have been bitten. She picked up a fence stake and used it to kill the snake. She said the hoe was too far away; the snake might have gotten away.

Mr. and Mrs. Leslie Baker, Mr. and Mrs. A. G. McCormack and Mrs. Jim O'Harrow spent the week end in San Angelo with Mr. and Mrs. J. T. Ratliff, the Bakers' son-in-law and daughter.

Mr. and Mrs. Leslie Baker returned home last week from Fort Worth after attending the Bankers Convention which was held there.

Mr. and Mrs. Rony Kerr and children, Rhonda and Kelly, of Brownwood, visited relatives in Eldorado for the Mother's Day week end.

Mr. and Mrs. W. A. Van Dusen spent the week end in Odessa visiting Mr. and Mrs. Billy Van Dusen and Mr. and Mrs. David Lawrence and family.

Bruce Wilson and family of San Angelo visited his grandmother, Mrs. L. T. Wilson, Sunday.

It takes about 15,000 ordinary pins to weigh a pound.

Bats have been known to live as long as 20 years.

Seabrook Farms near Vineland, N.J., is one of the largest agricultural enterprises in the world.

PRINTING

FAST SERVICE

REASONABLY PRICED

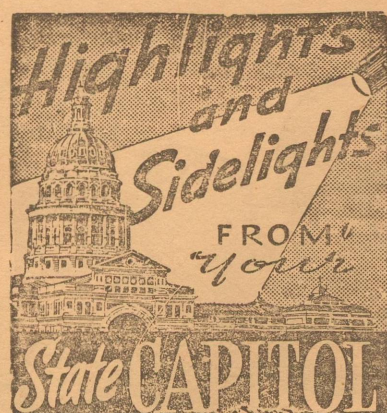

That's a hard-to-beat combination for your stationery, envelopes, statements, business cards, and business forms. Remember, Mr. Merchant, everything you mail to a customer reflects your "store image."

Quality printing leaves a good impression — and really costs so little more than a rubber-stamped envelope or unprinted bill head. Proper forms also save you time—a great deal of time—in your book-work.

We'll help you design and style what you want at no additional charge and will secure any special paper you desire for the job.

We like some time, but when hours or days count—you can count on us.

The
S U C C E S S

Austin. — Parents of rambunctious children soon may be paying more attention to the activities of their offspring.

A bill passed by both Houses of the Legislature makes parents liable up to \$5,000 for damages done by their children. Measure now is in the hands of Gov. John Connally for his signature. It applies to 10 to 18 year olds who damage public or privately owned property.

Sponsors of the bill are Sen. Jack Hightower of Vernon and Rep. Willis Whatley of Houston. They contend that stiffer penalties than the present \$300 maximum will curb vandalism.

The bill was prompted by the number of cases where homes and schools were being wrecked by vandals, but also it applies to such cases as false fire alarms and other acts of vandalism.

Showdown Nearing

As the end of the current legislative session nears, legislators are rapidly approaching decision time of legislative and congressional redistricting, teacher pay raises and new taxes.

The House passed a congressional redistricting plan which almost everybody is taking for granted will be drastically changed in the Senate and will have to be worked out in a conference committee. Meanwhile, the Senate cleared the way for adoption of a senatorial districting plan keeping control in rural areas.

One of the biggest crowds of the legislative session appeared Wednesday for House and Senate committee hearing on heatedly contested bills by Texas State Teachers Association and Governor Connally to raise teacher pay.

Connally wants a 10-year graduated pay plan; TSTA insists on its plan for \$405 annual raises to all teachers.

Final approval of the record \$3, 600,000,000 general budget bill for state government operation is expected in both houses by week's end. House Revenue and Tax Committee is looking carefully at all the serious revenue proposals in its deck. Governor Connally has estimated there may be need for a new tax bill as high as \$100,000, 000 if school teacher pay raises are approved by the Legislature.

Where to get the money is the big question.

One thing for sure — he's opposed to a hike in the sales tax rate or extension of the present two per cent levy to groceries or medicines.

Among the possibilities, however are: restoral of the 50 cent corporation franchise surtax (back to \$2.75 per \$1,000 of capital, surplus and undivided profit) and once more boosting the seven per cent gas production tax. He already has recommended a cigarette tax increase.

Key Water Bills Passed

Session's top water bills, recommended by the Governor and water experts, have completed the legislative circuit and are ready to be signed into law. The bills would

authorize the Texas Water Development Board to issue another \$100 million in bonds for state purchase of storage in reservoirs and for local water projects; reorganize Texas Water Commission as water rights agency; and transfer statewide planning duties from the Commission to Texas Water Development Board.

A proposed constitutional amendment is pending to authorize issue of still another \$200 million in water development bonds.

Liquor Store Bill Killed

Earlier closing hours for liquor stores, proposed in a bill which passed the House, are out for this session. The bill was killed by a two-vote margin in a Senate committee. Provisions of the bill would have stopped liquor sales at 8:00 p. m., instead of 10 p. m., except to registered hotel guests.

Liquor store owners, who were supposed to have originated the bill, split on the issue and presented conflicting testimony before the Senate committee on Jurisprudence

Divorce Slowdown

A bill that would extend the waiting period from 60 to 180 days before a divorce is granted, where children under 18 years of age are involved, has been approved by the House and the Senate Jurisprudence Committee. The bill is sponsored by Rep. Paul B. Haring of Goliad and Sen. William N. Patman of Ganado.

Sponsors feel that the bill would provide a check on hasty, ill-conceived divorces and remarriages, thereby giving added protection to children involved. Also it would be effective in reducing juvenile delinquency and the crime rate.

The bill has strong support of many prominent jurists and clergymen.

Youth Corps Job A Job

The program to provide part-time jobs for needy students under the federal Economic Opportunity Act is growing fast and reaching into many areas of Texas. Governor Connally reports that office details for handling the project require a staff larger than the crew that handles all the duties of the Governor's office.

Connally has approved nearly a dozen Neighborhood Youth Corps programs, involving Federal grants for projects in Rio Grande City; Los Fresnos; Harris County; Beaumont; Dallas County; Galveston County; Laredo; Olton; Lockhart and San Marcos.

Grants are authorized by the U. S. Department of Labor in Washington, but are subject to final approval by the Governor.

Terrell Blodgett, director of the Texas Office of Economic Opportunity, has announced appointment of two consultants to help communities organize local action programs. They are Bertrand Adams of Austin and Robert Watts of Lufkin.

Criminal Code Bill Docketed

House Criminal Jurisprudence Committee has approved a 145-page bill overhauling the Texas Code of Criminal Procedure. It is set for debate late next week.

Affecting nearly all citizens, the far-reaching measure is the number one legislative objective of the State Bar of Texas. Revision was passed by the 58th Legislature, but was vetoed by the Governor because of errors in the bill.

Atty General Opinions

Atty Gen. Waggoner Carr has ruled that:

A party to a civil lawsuit, summoned to court as a witness—but who doesn't appear—may be cited

for contempt even though he was not paid a witness fee or travel expenses.

Bill to provide \$7,500,000 in state funds for constructing and operating a Texas exhibits building at San Antonio's 1968 HemisFair is constitutional. Bill won unanimous approval of the Senate Finance Committee, after appropriations conferees refused to put HemisFair funds in state's general budget.

Laws requiring a corporation to be incorporated under Texas laws in order to get a liquor license or permit are constitutional.

First Ladies Meet

Former First Ladies of Texas were guests of Texas' present First Lady at the Mansion. Attending the tea given by Mrs. John Connally were Mrs. Dan Moody, Mrs. Allan Shivers, Mrs. Price Daniel and Mrs. Joshua Morris (formerly Mrs. Beauford Jester).

SHORT SNORTS

Governor Connally has signed a bill authorizing issuance of "prestige" license plates for an extra \$10.00, which may bring in \$5,000, 000 a year additional revenue for tourist and industrial promotion and recreation . . . After Dallas and Fort Worth lawmakers and city officials reached a compromise on the measure, Legislators approved and sent to the governor a proposed constitutional amendment authorizing counties to join in regional airport authorities . . . Bill to abolish death penalty for crime received House committee approval after a heated hearing . . . House passed proposed constitutional amendment to make old age assistance available to non-citizens who have lived in the U. S. at least 25 years . . . A bill by Rep. Dick Cory to take advantage of federal help for development of commercial fisheries cleared both houses, while another to regulate the taking and processing of shell fish was out of committee and on the House calendar . . . Attorney Wm. S. Lott of Georgetown was sworn in by Attorney General Carr as a new member of the School Land Board . . . Senate approved and sent to the governor a House bill which permits pickup trucks to go as fast as passenger cars on Texas highways . . . Governor Connally renamed P. M. Davis and J. S. Bourn, both of Winters, and appointed Melvin Patterson and Tom Caudle, both of Ballinger to the Runnels County Water Authority . . . Texas business activity soared to a new high in March, 19.2 per cent above March, 1964 and 5.6 per cent above February, reports UT's Bureau of Business Research.

How To Ruin A Town

Want to ruin your hometown? Here's 10 basic ways you can accomplish your aim, as originally printed in a Missouri newspaper, and taken from the Van Horn Advocate.

Just in case you want to, here's how:

1. Never attend any meetings. Just sit around and criticize about the way "they" are doing things.
2. Vote against any kind of tax levy—whether the purpose is good or not. "They" just want your money.
3. Make fun of your representative officials, firemen, policemen, etc. "They" are just out here for the glory and pay.
4. Don't ever go to the movie, school concert or ball game, benefit program, or exhibit. Sit in a half-trance in front of that "idiot box."
5. Knock your city council. This is a must. Every one of them is just on the council to get a little kick-back.
6. Stay out of church. You might go on Easter and Christmas just to prove to yourself that the minister does not know what he's talking about and everyone there is a hypocrite.
7. Buy everything you can out of a discount catalog, mail order book or out of town. These firms are the first to come forth with donations and service to the community.
8. Don't support your town's newspaper. The out-of-town papers, fly-by-night gimmick salesmen etc. are a lot better and contribute much more to the town than the local bugle. But jump on your paper's editor the first time Aunt Hegtha's visit is left out. Forget the other 10 times it was in.
9. Spread any story or rumor that is defamatory or uncomplimentary about the town. Never say "nothing about nobody." All kids are delinquents; all businessmen are crooks.
10. Above all, always be skeptical and cynical about anything supposed to be good for the community.

F. W. Bessel was the first to measure the distance to a star in 1835.

Porfirio Diaz ruled Mexico as dictator from 1876 until his overthrow by Madero in 1911.

Ventana Cave in Arizona gives a stratified record of human occupancy lasting more than 10,000 years.

Dear Flabby,
I am writing you because I have an uneasy feeling about my mother-in-law. She was putting arsenic in my coffee when I walked in the other day. She is digging a hole out in the back yard she says for a flower bed but she had me lie along side it to see if it's long enough. Do you suppose she doesn't like me?
—Chicken.

Dear Chicken:

My advice to you would be to buy her some flower seed. And you a box of tea and just to steady your nerves drink it in Kalamazoo.

* * *

Dear Flabby:

I am not making good grades in school at all. It worries my mother but it's my teacher's fault. She is terribly dumb. Do you know she keeps asking ME questions? Can I help it if she doesn't study so she can know something?
—4F

Dear Four F:

Why don't you get out your class books and go into them thoroughly. It isn't fair to let your teacher go through life uneducated. Then you could explain them to her.

* * *

Dear Flabby:

There is this cute red-haired boy in my room at school. I like him so much. Every time I smile at him he holds his nose and walks away. Do you suppose he likes me. I am only 13 and already I weigh 170.

Dear Skinny:

Why don't you leave out the smile and leave all the food then catch him unaware and faint in his arms. Then you will know.

* * *

Dear Flabby:

I have lost practically all my hair. The woman barber in our town says she can get me something that will grow hair on a billiard ball. She calls it Le Pages.

EXTENSIVE COLLECTION OF BULOVA THE GIFT QUALITY WATCH

Jewelry is always a treasured gift for the boy or girl graduate. Make them happy this year with a nice gift from Stigler's. New graduation and High School charms. Free engraving and gift wrapping. We invite you to see the many new items we have added.

JOHN STIGLER — JEWELER

Do you suppose this would help me?

Dear Eggy:
Of course it will help you if you want a billiard ball with a flat top. Otherwise be happy with a chrome dome.

* * *

Dear Flabby:

I am a man of 30 and I go with this cute platinum blonde. She can out dance me, bowl better than I and stay up later. We have a great deal of fun together. I would like to marry her but my friends say she is ninety if she is a day. How can I tell her true age? She laughs when I ask her.

—Baffled Beau.
Dear Baffled:
Open her mouth and look at her

teeth; also look at the roof of her mouth. If it's black and her teeth bite then marry her and get new friends.

* * *

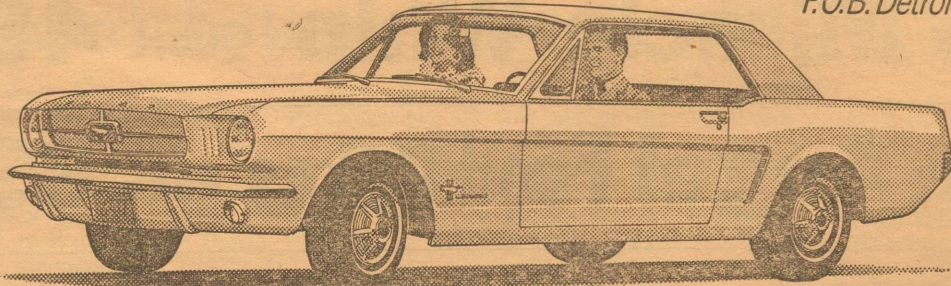

Dear Flabby:

I just adore cats. The other day I was out in the woods and I found the most cunning little cat. He was black with a white stripe down his back. Every time I try to show him to anyone they throw up their hands and run to the other side of the street. Do you suppose they don't like cats?

—Stinky.
Dear Stinky:
Take your kitty back to the woods and take a month's supply of food so you can stay with him as I don't believe your mother will let you come home for a while.
