Wanted: Athletic Boosters

"Booster, Booster, Be A Booster"..... Remember that childhood song which was sung at Bible schools?

The same song is being sung by members of Olton's Athletic Booster Club, now.

Involved in a membership drive at the present time, officers of the club are pleading with all parents of athletes....not just football boys, but basketball boys and girls, track boys and girls, tennis, golf, any athlete.... "Please support your child!"

Olton Booster Club had its beginning in the school year 1948-49 and was called the Quarterback Club at that time. Since that time, all athletic events have been encompassed by the club and the name changed to Athletic Booster Club.

During its span of serving as boosters of athletes, many worthwhile projects have been undertaken by the various members. One of the first things that was recalled by the now president, Bub Holt, was the installation of a concession stand at the new stadium which the club also assisted in preparing.

Another long-standing member recalled that all through the years, athletic gym equipment had been purchased from time to time, recalling that only recently a machine to aid basketball players was purchased and a new camera for filming the games was bought.

Back in the fifties, before many schools were filming games, Oltonites began to view films of the Mustangs at their meetings, which is a tradition that is still being observed each Tuesday night at the meetings.

One member recalled that Olton was one of the first to have a "whirlpool" bath for their athletes. "It was a crude conception of the ones we have today, but it was a 'whirlpool'. I think we were the first high school to have one...I think Texas Tech had one and we got the second one."

Another thing the Quarterback Club did was to purchase a brand new car for one of the coaches one year...a Coach Joe Turner, remembers one member of yesteryear and still a member of today.

All through the years, the main object of the boosters has been to show support for all athletic programs and their participants, upgrading the athletic program in any way possible. This remains the goal today but help is needed in the form of active members.

"It's not hard to find followers when we have a winning team in football, basketball or other sports, but it becomes very difficult to get support for the kids when they need it most....when they are not the winners." according to one of the members that attended the Tuesday night meeting.

"We need to show our kids we are behind them even though they might not be on the top."

Everyone who has ever had a boy or girl pariticipate in any athletic program or persons who are just interested in boys and girls are asked to become members of the club and assist in making this a "special" year for Olton athletes.

Membership for families is $20 and business memberships are $35. This entitles a member to have his name in the football programs all during the season as an athletic booster, plus the businesses are provided a color photo of an athlete to put in their store windows, showing that they are a booster of local athletes. A membership card, car decal and certificate of membership is given to each member.

Each membership fee pays for the filming of scrimmages and games, provide football programs and honor the high school athletes with a banquet at the end of the school year.

Won't you help? Become a member....today! The club meets each Tuesday night at 8 p.m. at Anita's Kountry Kitchen, Highway 70.

Would You Help Growing Boys?

The best time to combat juvenile delinquency is before it happens.

Olton parents are offered an excellent opportunity in assisting in a character building organization for boys. Local Cub Scouts are in need of leaders.

Cub Scouts is fun. And with the fun, boys learn love of country and responsibility for activities.

These good things will no longer be available to Olton's third, fourth and fifth grade boys unless someone cares enough to help.

The local pack is without a Cub Master. Help, support and training is offered to any man willing to fill the job.

Also needed are a Webelo leader and two den mothers for third grade boys who will be new in scouting. Anyone who has a real interest and a little extra time will qualify.

Anyone interested in keeping the program going is asked to call Mrs. Gary Turner, 285-2338.

Cub Scouts Set Sign Up Day

Sign-up Day for Cub Scouts has been set for Aug. 28, in the lobby of H.P. Webb Elementary School building.

An entrance fee of $3 also entitles the boy to a subscription to Boy's Life magazine.

Local Youth Serves As Counselor At Camp For Handicapped Children

It is an awesome responsibility to be charged with the care of a unit filled with handicapped children, especially when a great many of them are deaf...but such has been the case with Chris Prentice for the past ten and one-half weeks as he has served as staff member at Texas Lions Camp for Crippled Children.

Chris, who is legally blind, has enjoyed the experience of attending the Lions Camp two summers. He felt that this was a worthwhile task - and asked for the job.

He relates, "The first two weeks session was made up of diabetic children. They were not so hard to handle. We just had to be sure they followed their strict diet, and took their medicines. Their activities were quite normal. The sessions thereafter were composed of children with many handicaps, some were victims of cerebral palsy or polio, some had artificial limbs, some were legally blind and many were deaf. Here, of course, we had to hastily learn sign language for the more obvious questions. Some were epileptic and were seizure prone. Many were away from home for the first time and homesickness was a common complaint...we had to try to interest them in something exciting to combat this.

"Each of the six units accomodate 39 children. Two counselors, one unit leader and aides were assigned to each wing. Each of the units is named for an Indian tribe...mine was the Comanche.

"The children are divided in ages seven to ten, eleven to 13, and 13 to 16.

"The clean cabin, best unit is chosen each session. Ours won in two sessions, only when we had the older youngsters."

Chris explained that each unit chose a theme for the session then a song had to be written and yells composed to fit the theme. He had the pleasure of song writing during his stay.

He explained that each night of the session had a special activity. They included a campout, two movies, a free swim, contests, carnival, water show and camp crafts (in all of these latter four the campers were responsible for producing these features). One night featured a dance and another Recreation and Athletics (R&A) in which events were carried out as in the decathlon.

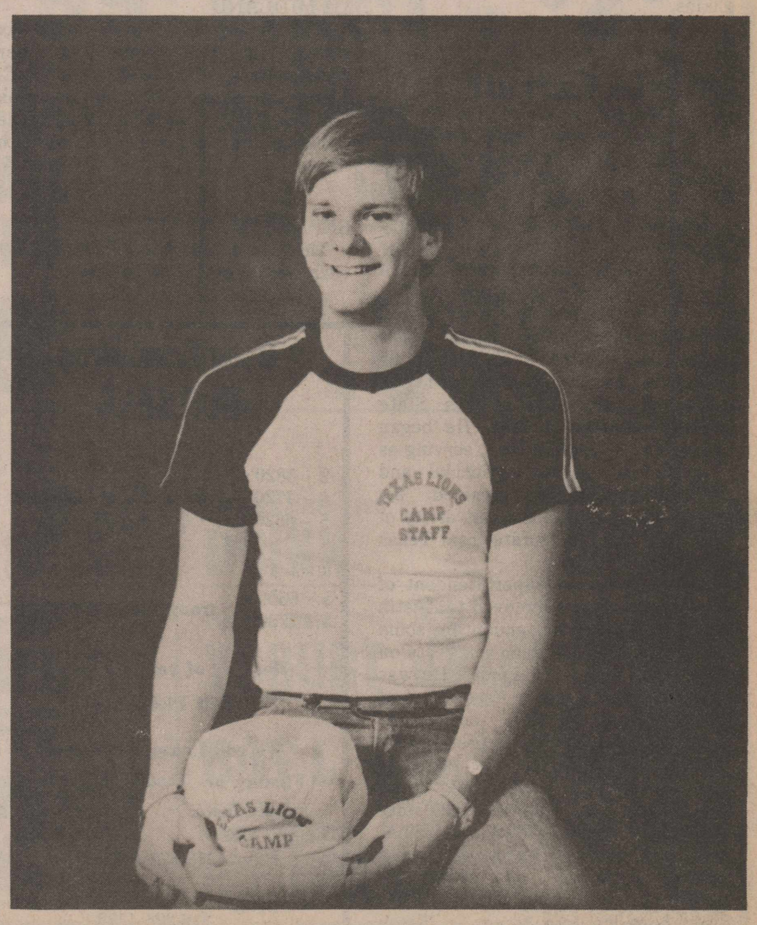

His advice to anyone planning to serve as counselor at the camp is "Be sure to catch up on your sleep before you go, then get ready to go to work."

His word of commendation to the Lions Club is "You're doing a good thing - keep it going."

Chris explains that the camp is used in winter seasons for senior citizens who have special needs, especially the newly blind. Plans are in the making for an expansion of the camp to 11 units. This, of course, would entail enlargement of the cafeteria and other facilities. Located in the hill country near Kerrville, it is a beautiful spot and furnishes much joy for some children who might not otherwise have such an opportunity.

He states that he enjoyed most the work with the older campers, and found it very hard to part with the 16-year-olds as they were presented their award for a last-camper-year.

Chris will soon enter Tech for his second years work toward a degree in finance. He hopes, as a sideline this year, to be employed as a disc jockey at a nearby radio station...we'll be listening, Chris.

Rainfall Measures Up To Three Inches

Welcome rains fell again Tuesday evening, and from all reports followed about the same pattern as last Thursday's fall.

Heavy downpours of two and one-half to three inches were measured to the north and northwest of the city. Some good rains to the immediate west were reported, but areas east and south of the city received very little. Many farmers are still watering cotton and soy beans in that area, while their more fortunate friends to the north and west have called a halt to irrigation.

The official weather report was unavailable from the Witten farm, two miles east of the city, but Cecil (Bill) Smith at the eastern edge of the city had only a sprinkle.

Lawns in the city readily absorbed the one-half to one inch fall registered.

agri-facts

Staying in the top ten on nearly every farmer's list of priorities is finding out all that's possible about the production of fuel alcohol. Some of the relevant facts of this summer's Synthetic Fuels Act include: National production goals for biomass energy (primarily alcohol from feedstocks) of the equivalent of 60,000 barrels a day by the end of 1982 and 10% of total gasoline cunsumption by 1990. Farmers have definitely got an uphill battle to reach that level from where we are now. Up to 200-million dollars will be earmarked during the next two years to assist in the development of small scale production facilities primarily on individual farms. For those already considering buying or building such a distillery, we'll be passing along some especially valuable suggestions next week.

Mr. and Mrs. Finke are newlyweds, having pledged their vows in July, moving to Olton thereafter. David was reared in Amarillo, Regina in Muleshoe.

Living in Olton is really a compromise for this young couple, since they tried to locate a home between their cities of employment. David works as a pharmacist at Revco in Plainview. Regina commutes daily to Muleshoe where she works at Damron Drug.

David has an interest in keeping bees. Regina enjoys sewing and playing piano. Together, they are re-doing the house and yard of the property they have purchased.

Warren is a native of Floydada. Kay was reared in Plainview. They have lived at several locations in this area, usually in the rural area. Kay is enjoying the present situation living in the city, since she enjoys having neighbors. She also appreciates the convenience of town life, and hopes to do some baby-sitting soon. Young Jennifer is looking forward to the beginning of school, she will be in the first grade.

With an eye to beauty - Kay enjoys handcrafts, sewing, crewel embroidery and latch-hook. Cooking is another hobby.

MARIBETH DILLMAN

Recipe Revue

By Mozelle Trotter

A petite young woman who might almost be taken for one of the students will be returning for her second year as a fourth grade teacher in H.P. Webb Elementary School. Maribeth Dillman came to Olton schools last year from McMurray College.

Maribeth grew up in Muleshoe. She has two older brothers.

Summer time turned the tables on Maribeth and found her in school as a student while she crammed a six hour course into two and a half weeks at West Texas State University. She was enrolled in library science and a social studies seminar, enriching her degree in elementary education.

It has, however, not been all work for the young school teacher. Maribeth and her oldest brother spent a fun-filled week of sight-seeing in San Francisco, Calif.

Maribeth is a member of First United Methodist Church and works as a junior high UMY sponsor. She is also a substitute pianist.

Playing the piano and listening to music are Maribeth's favorite past times. She also enjoys latch hook and recently completed a large, pretty wall hanging of one her favorite subjects - a fawn.

Maribeth also enjoys the quiet time challenge of putting together jig saw puzzles. She enjoys cooking at home but finds much of the pleasure is missing in cooking for one. "Who wants so much left-overs?" she asks with a smile.

INSUR-MATION

Our son, age 16, has received several traffic citations for speeding. Can the company which writes our Family Automobile Policy cancel the coverage at their own discretion?

Not immediately, unless the policy is new and has been in effect for less than 60 days. In most cases, if the policy has been in effect for longer than 60 days, the company must give you a 30 day written notice of their intention to terminate the policy. The only way an existing policy can be cancelled immediately (provided it meets the 60 day requirement) is for the cancellation to be mutually agreeable to both the company and the insured.
