Tickets for Wellington Skyrocket home football games will soon go on sale, and the school tax office, which sells the tickets, is asking that anyone who had reserved seats last year call them at 447-2849 if they want the same seats held again this year.

There have already been many requests for reserved tickets from people who did not have them last year. E.W. Clement, superintendent said, so the seats will be sold to someone else if the tax office is not told to hold them.

Home football games are scheduled with Phillips, Sept. 16, Childress, Sept. 23, Tulia, Oct. 7, Clarendon, Oct. 21, and Claude, Nov. 4.

Rocket Boosters Elect, Open Drive

The Skyrocket Booster Club elected officers and began its fall membership drive Tuesday, Aug. 23 after viewing the film of the Seymour scrimmage.

David Caison was re-elected president, Bill Hall was elected vice president and Jack Needham secretary-treasurer. Three directors for the year are Kenny Brown, Tiny Taylor and Louis Allred.

The club will meet every Tuesday night during football season. Next week's meeting is set for 8 p.m. at the

Heritage Room.

"When someone comes and sees a game film for the first time, they really enjoy it and they'll come back," Caison said. "And women are more than welcome. We've had a few women who were really interested."

Dues for the year are \$7.50. Anyone wishing to join should contact an officer or director.

Caison said the club would sponsor a benefit barbecue again this fall, but the date has not been set.

Skyrockets Outscrimmage Seymour

Wellington Skyrockets outscored Seymour varsity two touchdowns to none, in two hours of scrimmage at Vernon Friday evening, August 19.

The younger players—those who will become Wellington's B team, scored once during their portion of play, while Seymour crossed the goal line twice.

The younger boys took the field first, running 20 plays offensively, then 20 defensive-

ly. The varsity then came on for 20 offensive plays. The youngsters returned for 10 plays on offense and then defense, and the scrimmage ended with the varsity again on field for 20 plays defensively.

"Overall, we liked what we were looking at. For the first scrimmage, the line did a good job blocking and the backs did a good job of blocking and also

running," said Head Coach James Williams.

"They didn't make as many mistakes as I thought they might. They picked up fast, and their defensive output was good."

Coach Williams noted that in the first 20 plays with the Wellington boys on defense, Seymour gained 16 yards.

"I don't think we had any outstanding individuals, but they all did a good job

together. If we called on anybody, they tried."

"The B team did pretty good job offensively and had just a few breakdowns on defense. Their passing and running were good."

Williams noted the Wellington support.

"We had a lot of people who went down there, and we sure do appreciate this," he declared.

Meeting Called on Block Grant Housing Improvement

A meeting has been called for Monday, August 29, at the Community Action Center to discuss the housing portion of the block grant received by the city and county, and to elect a steering committee from the residents living in the north part of town.

Starting time is 8:00 p.m. Everyone living in the area bounded by Haskell Street, Highway 83, and from First to 7th Streets are eligible to attend and take part in the election.

The steering committee will determine who is eligible to receive assistance under the

block grant, explained Mrs. Tessie Burba, Community Action director, who is coordinating the meeting.

Included on the committee will be one representative from the Black Community, one from the Spanish, one Anglo, one member of the City Council and one elected county official.

Mrs. Burba explained that the housing portion of the \$98,000 block grant will be available for eligible residents to improve their houses and fix

up their places.

"It is primarily for those who own their homes but do not have a clear title to them and can't get a loan any other way," she explained.

The other part of the block grant will pay for an extensive street surfacing program in the north part of town.

Application has been made for a second block grant which would provide for additional improvements in that part of town.

Rockets Scrimmage Wheeler There Fri.

Wellington Skyrockets, both the varsity and B team members, will meet the Wheeler Mustangs in a scrimmage at Wheeler Friday, August 26. Game time is 6:00 p.m.

This will be the last scrimmage before the Rockets open their 1977 season at Hollis Friday, September 2.

Wheeler Mustangs are rated in pre-season polls to win the Class A State Championship this year. The Rockets and Mustangs met regularly in district play until Wheeler dropped to Class A.

"They should give us a real good test," said Coach James

Williams.

"We sure do appreciate the backing of the people," he said of the large crowd that watched the Rockets scrimmage Seymour at Vernon last week.

In that game, Coach Williams said he and his staff accomplished what they wanted and that is blocking in the line and blocking by the backs.

"We didn't throw as much as we would like, but we will work on that against Wheeler," he added.

The first injury to appear among the Rockets was not serious. Dane Dodge turned

Henry to Retire After 40-Year Career

After 32 years with Greenbelt Electric Co-operative, Inc., more than 22 as manager, George Henry is getting ready to retire.

He and Mrs. Henry will move later this week to Floydada, the home town of both and where they have bought a home.

His career spans almost 40 years, however, for he started with the municipal light plant at Floydada and four years later moved to Lighthouse Electric Co-op in that city.

Early this week he reviewed a few of the changes that have occurred during this period.

"Anything you learned prior to 10 years ago is worthless," he pointed out. "Space technology has moved in, not only in the billing end but in the distribution of power, too. Some equipment that was totally hydraulically operated, is now electronically operated."

"The big fault with the electric industry is that nobody in it has ever been able to think big enough. You are always scrambling to stay up with the new technology and new equipment."

The blackout of power in New York City recently emphasized what every electric company manager dreads—loss of power, especially from storms. George Henry remembers a few big ones.

The one of January 2 and 3, 1962, was one of the most damaging and it is vivid in his mind. It struck just a few hours before his first grandchild, Janet Daves, was born. She was several days old before he saw her, and for a time he didn't know if he had a grandson of granddaughter.

This storm was system-wide.

The big ice storm of 1972 which immobilized Claude followed the caprock.

"That laid everything on the ground," he remembers. Poles had to be secured and hauled in and construction crews from other co-ops were brought in.

Mr. Henry has never allowed the men with

Greenbelt Electric Co-op to work more than 16 hours without sleep on these major jobs. "That's when its dangerous. That's when men can get killed," he believes. On smaller maintenance jobs, the men sometimes do work around the clock.

It was his responsibility, to see that power was restored when the devastating tornado struck Sherwood Shores (Howardwick) at Greenbelt Lake, killing about 20.

"That was a murderous

thing," he recalls. It began near Littlefield, where the brother of a Greenbelt employee, Mrs. Jimmy Bowen, was killed. It came off the caprock and first crossed the Co-op's lines at the J.A. Ranch. Near Shamrock, it struck a Rock Island freight train. It lifted the engine off the track and set it down on Highway 66.

"That certainly looked funny for a few days," he remembers.

The tornado touched Cana-

dian and took a heavy toll at Blackwell, Oklahoma. This same system spawned tornadoes through Missouri, and finally died out in Michigan, where again there was loss of life."

In traveling the Greenbelt system which ranges from Claude to Vinson, almost 100 miles, and from Gray and Wheeler counties, into Childress County, George Henry has known well the hospitality of the area.

GEORGE HENRY

George Henry, who is retiring soon as manager of Greenbelt Electric Co-operative, Inc., after 32 years, sits behind the mahogany coffee table which he made in his woodworking shop. This is his hobby.

At the J.A. Ranch south of Clatendon, anyone arriving around meal time is expected to stay and eat.

"You must have a pretty good reason to leave if you didn't make them mad," he said.

When George Henry came to Greenbelt Electric Co-op, he and Floyd Cole were the only men working out side. "We would string line all day and trouble shoot all night."

The three girls in the office had only recently quit billing customers by hand and were using billing machines.

Today there are 22 to 24 regular employees. Mr. Henry has been active in Texas Electric Cooperatives, having served as vice president of the board from the term of 1966-68.

Shortly after he took office, the president became ill and he fulfilled the duties of that office for the remainder of his tenure.

At the same time, Mrs. Henry was chairman of the women's division, which carried on educational work among rural women, and was in charge of entertainment at the state conventions.

He has been a member of almost every committee in the organization and he only recently resigned from the resolutions committee.

Also active in the National association, Mr. and Mrs. Henry have attended convention throughout the country from Atlantic City to San Francisco, and including Washington, St. Louis and Dallas.

He helped to establish the Texas Electric Co-operatives' pole plant, located first at Lufkin and now at Jasper. "It's a monster of a plant," he says.

Under his management, Greenbelt Electric Co-op became a member of the National Rural Electric Co-operative Finance Corporation Mid-Tex Utilities Corp.

Both Mr. and Mrs. Henry grew up at Floydada and were married in 1937 in Amarillo.

She has shared his interests and much of his work. "She knows as much about taking trouble calls as anyone in town," he remarked.

They have three children, Ray, who is controller for the Texas Municipal Retirement System, Austin, Kenneth, with Rita Blanca Electric Co-op, Dalhart, and Mrs. Jim Sartain of Houston, There are three grandchildren, Janet and Greg Daves, of Houston

and Karen Henry of Austin.

While they were growing up, Mrs. Henry was involved in many school, 4-H, and scouting activities. Mr. Henry was on the district committee for the Adobe Walls Boys Scout Council several. She is a long-time member of the 1924 Study Club and for 19 years headed the girls division of the county fair.

They are active in First United Methodist Church. In summing up his career, George Henry said Monday: "It has been a whole way of life."

YOU CAN BANK on It!

By **BILLY MOSELEY**
President
CITY STATE BANK

Bankers, businessmen who loan money to other businessmen, often ask, "How much is your business worth?" What if the question were turned around and asked of bankers — "How much is the bank worth?" Well, the bottom line of our financial statement reveals a sound state of financial health. And a growing list of customers shows the bank is becoming worth more every day. But these answers simply tell what the bank is worth to shareholders. What is the bank worth to YOU? What is it worth to you to have an automatic receipt for every payment you make by check? That's what your cancelled check is — a receipt. Or what is it worth to you in convenience to send checks through the mail, avoiding the long lines and high cost of postal money orders? The story of the bank's worth is not fully told on the bottom line; there are human values as well . . . you can BANK on it!

Hospital Enforces Visitor Regulation

Strict enforcement of the hospital regulation that children under 12 years may not visit in the patient area of Collingsworth General was given quick approval by the board of directors Monday night, August 22.

Charles Floyd, administrator, told the board there have been repeated violation of this in recent months and even occasions when children

refused to leave when asked by the nurses. Visiting hours are 2:00 to 4:00 and 7:00 to 8:30 p.m.

Dr. Carter Holcomb, county health officer, pointed out the danger of small children catching an illness when brought into the patient area, and cited the recent diarrhea epidemic as an example.

In his report as hospital chief of staff, Dr. Holcomb said this reached epidemic proportions and called it "vicious--the worst I've seen." Instead of 48 hours usually required for recovery, this took around 5 days, he said.

Late last week it was estimated a possible 250 cases had been seen locally.

The epidemic is now slowing down, he said.

The board found itself snared in Medicare regulations, when it was told that a return of \$17,000 has been requested, which Medicare notified Mr. Floyd was paid in error.

However, this amount will be repaid to Collingsworth General in September when Medicare bookkeeping procedures catch up with the payment of funds.

In order to head off the possibility the hospital may be short of cash flow funds, caused by this, the board authorized Mr. Floyd to negotiate a short term loan with its bank should this be needed.

The \$17,000 is part of a \$28,000 payment made to the hospital by Medicare several months ago.

Guests of Mrs. Chester Fires over the weekend were Mr. and Mrs. Ralph Love of Amarillo, Mr. and Mrs. Gene Adams of Santa Monica, Calif., Mr. and Mrs. Bud Adams and Mrs. Estelle Miller of Oklahoma City.

BLOOD DONORS

Seventy-five people offered their blood when the Red Cross Bloodmobile was here last Wednesday. Seventy were accepted. The others could not give for medical reasons.

Workers say they contacted a larger than usual number of people this time and they report an amazing variety of excuses, ranging from "I'm afraid of the needle", to "I'm not going to give my blood to sit down there on the shelf and ruin," and "If there's somebody comes to the hospital needing blood, I'll be the first one there."

Thanks in part to these, and others who did not show, the county fell short of its blood quota by 48 units.

Afraid of the needle? Babies less than a year old routinely get their immunization shots by needle. If you have a child in school, under Texas law that child must have had these shots.

First at the hospital? Maybe you'll be the first who wants to give blood, but--

What if your blood isn't the type the patient needs, or you are out of town, maybe you'll have a cold or have had antibiotics. Any of these would rule you out. Collingsworth General Hospital can get all the blood of the correct type it needs from the Red River Red Cross Regional Blood center in Wichita Falls in an hour and a half. It could take longer than that to find you and get you to the hospital.

Your blood sits on the shelf? If you or your family has an emergency that requires blood, you'll be mighty happy a supply of all types, except the exceptionally rare types, is sitting there on the refrigerator shelf.

It is true that whole blood has a shelf life of only three weeks. At that time it is returned to the blood center where it is processed into the various components, which in some cases are used where whole blood cannot be used. Frozen, they keep indefinitely.

No donated blood is ever wasted.

Next time the bloodmobile comes to Wellington, let's put our excuses on the shelf, where they belong, and give our pint of blood.

Shortage Admist Plenty

Kermit, near the Texas-New Mexico line, is county seat of Winkler, a leading petroleum-producing county. Over 10 million barrels of oil and quantities of natural gas were produced there last year and nearly 1 billion barrels since oil was discovered in 1926.

You would think Kermit would not have any fuel problems. You'd be wrong. The city council has approved a moratorium on new gas service connections within city limits. The Community Public Service Company, the area's gas distributor, has asked for Texas Railroad Commission approval to extend the moratorium beyond the city limits.

The reason: The area's gas supply comes via pipeline that crosses the state line and, therefore, is controlled by the Federal Power Commission. The federal agency is basing a gas quota for Kermit on the town's fuel usage in 1974, year of a mild winter.

So, despite its nearness to the fuel, Kermit must get along with limited supplies by order of federal regulation.

All Texas communities can expect the same quota problems if President Carter's energy program extending federal control to pipelines within the state is approved by Congress. The Dallas Morning News

Minimum Wage

The proposed minimum wage law is a guaranteed inflation builder. When small businesses have to increase labor costs, they have to increase prices.

Every jump in the minimum wage law also puts more people out of work-- the marginal and part-time workers, automatically adding to taxpayer cost of unemployment compensation and welfare.

Isn't it ridiculous for the federal politicians to raise a ruckus about joblessness for young people, then go right on their merry way pricing the youth out of the job market?

STATE CAPITAL Highlights AND Sidelights

TEXAS GOVERNMENT ASSOCIATION

AUSTIN—Three major Texas water agencies are moving toward consolidation September 1 into a massive Texas Department of Water Resources.

Acting heads of the new super-agency were named last week to begin supervising the reorganization. The two men considered most-likely contenders for the water "czar" position were passed over.

Charles E. Nemir, 45, who had served as assistant executive director of the Texas Water Quality Board, will be acting executive director of TDWR. Acting deputy director will be Dick Whittington, 49, who has been deputy director of the Texas Water Quality Board.

The 65th legislature ordered combining of the Water Quality Board, Water Development Board and Water Rights Commission.

James M. Rose, TWDB executive director, and Hugh Yantis, executive director of TWQB, were seen as top contenders to head the consolidated department.

Rose announced that he will pass up an offer to remain on the new governing board's staff and launch a planning, consulting and developing firm, offering to assist small towns and other units with governmental assistance programs.

The six-member Water Development Board will be the operating board for the new department.

The Water Quality Board will become a division of water quality and the Water Rights Commission will continue to handle water permit matters under the new department's board umbrella.

Appointments Galore

Dolph Briscoe made a flood of new judicial appointments during the last two weeks.

Resignation of Justice Tom Reavley from the State Supreme Court effective in October led to appointment of Chief Justice T. C. Chadick of Texarkana. Sixth Court of Civil Appeals, to succeed to the top bench.

Briscoe then appointed Sixth Court Justice William J. Cornelius of Jefferson to replace Chadick on the Texarkana intermediate court bench, and he named Stephen Oden of Texarkana to the Sixth Court associate justice position which had been held by Cornelius since 1973.

The governor moved Beaumont District Judge Harold R. Clayton to the Ninth Court of Civil Appeals to fill a vacancy.

He also appointed Carlton B. Dodson of Lubbock to an associate justice's place on the Seventh Court of Civil Appeals, succeeding Judge Mary Lou Robinson of Amarillo who was named chief justice of the intermediate court.

In the flurry, Briscoe appointed judges to 25 new district courts created by the legislature this year and named incumbent judges of 31 domestic relations and juvenile courts to converted district courts of general jurisdiction.

Agency Created

The legislature declined to create a state agency to help assure equal treatment of women, but the governor established one anyway by executive order.

Briscoe, with a sweep of the pen last week, ordered into effect, a 15-member Commission on the Status of Women.

The body will distribute information on women's employment and activities, develop policies to assure equal treatment, draft programs to expand services and contributions of women and make recommendations to help assure full use of the work force.

AG Opinions

State agencies may not refuse to hire a qualified handicapped person because of the handicap, Atty. Gen. John Hill held in a new opinion. But Hill said the agencies cannot establish a special system to reimburse travel expenses of the handicapped who are unable to drive their own cars.

In other recent opinions, Hill concluded:

Dallas County must pay the premium for the "errors and omissions" insurance policy law requires the county clerk to obtain.

A former Texas Army National Guard officer is not entitled to access to a report of an investigation of allegations against him, since it tends to reveal identity of informants.

A bank outside the county seat can be used as a county depository without violating prohibitions against branch banking.

Interest on time deposits of the state employees insurance and benefits fund must be credited to the fund itself and not to state general revenue accounts.

Welfare Chief Retires

State Welfare Commissioner Raymond Vowell announced his retirement effective August 31.

Vowell, 62, made his surprise announcement because, he said, the Welfare Department is moving into a new era of radical change in programs.

He said the Welfare Board should be able to select a new commissioner with longer to serve than he, since he is nearing mandatory retirement age.

He served six years as commissioner after a 31-year public service career which included a vice chancellorship with The University of Texas System and director of state special schools.

Gov. Briscoe lauded Vowell's long service.

Short Snorts

Gross sales by Texas businesses totaled \$33.8 billion for the first three months of 1977—a 19.4 per cent jump over January-March of 1976.

Texas wheat crop is now estimated at 117.5 million bushels, a 2.5 million increase from last month.

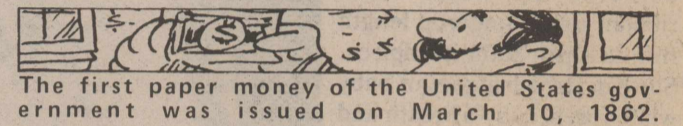

First appointees have been announced to a Commission on Public School Finance, charged with developing a new method of determining local district ability to support education.

Rural areas continue to suffer from a shortage of registered nurses, in spite of a large increase in nurses since the 1960s.

The infant death rate in Texas last year dropped to an all-time low of 16 per 1,000 live births.

Diseases of the heart and blood vessels and cancer accounted for two of every three deaths in Texas during 1976. The overall mortality rate was 8.06 deaths per 1,000.

The seventh Texas First job matching fair will be held in Marshall September 17.

ROY TISDALE

Service For Roy Tisdale Held Thurs.

Funeral services for Roy Lee Tisdale, 74, were conducted at the Church of the Nazarene in Dodson Thursday, August 18. Officiating were the pastor, the Rev. Howard Smith, and two long-time friends, the Rev. Hoyt Ellis, a Baptist pastor from Hollis, and the Rev. Amos R. Meador, Nazarene minister of Borger.

Burial was in Dodson Cemetery under the direction of Kelso Funeral Home.

Pall bearers were Dwane Smith, Jerry Tisdale, Roger Shipley, Lynn Smity, Tommy Hightower, John Hightower, Roy D. Cardwell, and Don Shipley, all nephews.

Mr. Tisdale died Tuesday, August 16, at 6:30 p.m., after a lengthy period of ill health.

He was born at Box Elder, October 23, 1902, and with his family came to the Sandy community just across the Oklahoma State line, when he was five. They traveled by covered wagon.

When he was 8, they moved to Dodson.

He was still a boy when he bought his first land, a 20 acre cotton farm, with his father's help. The first year, he sold his crop for almost 50 cents a pound.

By the time he was 16, both parents had died, and he took the responsibility of rearing four brothers and a sister, ages 7 to 13 years. He recalled there were rough times but they got through.

He was married to Miss Vela Hightower 52 years ago at Dodson.

For many years he operated a custom combine business, and after moving to Wellington, he also had a car sales business. He retired several years ago.

Mr. Tisdale had been a devoted member of the

County Members to District 4-H Council

Renee Lacy and Mark Fourmetin, the county's representative on the District 1 4-H Club Council, were in Amarillo recently for the first business meeting of the year.

District goals were discussed and seven district 4-H by-laws revised.

Both Mark and Renee were appointed to the Tri-State Fair Committee and will help set up a District 4-H Council booth on September 17.

Other meetings will be called by the district council chairman during the year. This meeting was at the Texas A&M Research Center.

Each county in District 1, which includes the entire Panhandle, has two members on the council.

Mr. and Mrs. Paul Williams of Norwalk, Calif., spent the weekend visiting friends, Mr. and Mrs. Ralph Long. They also attended the Wellington Students Reunion. He formerly lived here.

Nazarene Church since he was a boy.

Surviving Mr. Tisdale are his wife, Mrs. Vela Tisdale, and a sister, Mrs. Mary Shipley of Hereford.

There are a number of nieces and nephews.

Group Hears Cong. Hightower At Amarillo

A group from this county attended the meeting in Amarillo Monday, August 15, when Congressman Jack Hightower discussed with Panhandle residents problems facing the area and nation.

Going from here were Mrs. John Coleman, county democratic chairman, Mr. Coleman, Mr. and Mrs. Lyman Daniel, also

Mr. and Mrs. Jess Coleman of Enterprise community and her sister, Mrs. Mary Dwyer of McLean, whose ranch is in this county.

Mr. Hightower told the group he did not approve of this nation's giving away the Panama Canal, Mr. Daniel reported.

He does not approve the making of the neutron bomb because of the defense need of the country. "Because the United States is a good country, its people cannot expect others to sit back and not produce these sophisticated arms," the speaker pointed out.

Mr. Hightower also told the group he approved of the cruise missile.

Ranch Style TENDERCRUST BREAD

Seventy Blood Units Given

Collingsworth blood donors gave 70 pints Wednesday, August 17, during the semi-annual visit of the bloodmobile from the Red River Regional Red Cross Blood Center in Wichita Falls.

This was 48 units short of the goal of 118 assigned to the county.

Altogether, 75 county residents offered blood, according to Mrs. E.H. Harwell, drive chairman.

The goal of 118 units is based on population, as it is wherever the Red Cross blood program operates.

However, 62 percent of this county's population is over 65 years of age, Charles Floyd, administrator of Collingsworth General Hospital and county blood chairman, pointed out to bloodmobile personnel this time.

Donors over 66 may give blood only with a doctor's permission.

Mr. Floyd was told that this situation would be looked into in view of lowering the county's quota.

"Robert Owens is the commended on the number of donors from his automotive salvage business that he brought to donate blood," said Mrs. Harwell.

"His employees are to be commended on their willingness to give blood to help others." Ten of Owens employees joined him in giving blood Wednesday. Each time the bloodmobile visits, Owens closes his business early and he and a large number of his employees donate blood.

Three Peters brothers, David, Marshall and Jesse, came together. All are consistent donors and David Peters is Wellington's No. 1 donor, having passed the 7 gallon mark.

A group of men also came from Greenbelt Electric Co-operative, Inc.

Six donors were presented certificates from the American Red Cross for having given

one gallon of blood or more. These included the Rev. Mickey Fugitt, pastor of First Baptist Church, who has given three gallons in recent years. "It is an opportunity to help others in their time of need. To me it is a part of my ministry to people," he said. Rev. Fugitt has blood type O positive.

Mrs. Ross O'Hair, whose blood type is O negative, reached the gallon mark. "I want to help," she said.

A housewife, she is active in First Baptist Church.

County Commissioner Bill Lowe reached the gallon mark also. He is employed by Singley Mill. His blood is A negative. Lowe is active in First Baptist Church and the Kiwanis Club.

Dr. Carter Holcomb was cited for having given more than two gallons, of O Rh-negative blood.

"I started in 1948," he said. "I'm a firm believer in this life saving procedure. Members of my family have received transfusions in the past."

Dr. Holcomb is active in First Baptist Church, and belongs to the American Academy of Family Practice, the Texas Medical Society and American Medical Association.

Church Announces Clothes Closet Hours

The Clothes Closet at First Baptist Church will be open each Tuesday and Thursday from 10:00 to 11:00 a.m. for the distribution of clothing to those who may need it.

This is the only time during the week that persons may come, said Glen Mize, music and education director of the church.

Those wishing additional information may call 447-5771.

Mr. Mize explained the purpose of the clothes closet is to provide clothing and shoes for people who have need of them.

Mrs. Cecil Masten a homemaker living northwest of Wellington, declared:

"This is an easy way to help others and serve the Lord."

Her blood type is A positive and she is a two-gallon donor. Mrs. Masten is active in First United Methodist Church and Home Demonstration Club work.

Gary Don Warren, who lives in Childress and is a mechanic for Owens Auto Salvage, reached the one-gallon mark. His blood type is A positive. Warren is active in the Baptist Church.

I Saw... by Virginia Robey

Ralph and Lutie Long observed their 48th wedding anniversary on the day of the Ex-Students Reunion. Part of their gifts were delivered to them while they were attending. They were in the class of 1929 (Ralph was president) and they were married while they were still in high school.

Dr. Dorothy Jane Riggs, a professor at San Diego State University, included this note about The Wellington Leader in a letter last week: "Daddy (Howard Riggs) reads every issue 10 times. Mrs. George Clark said the one that came to their family was read by three or 6 other households every week."

Dorothy Jane also said that when Mr. and Mrs. Riggs flew from their home at Dallas to San Diego for Becca Holman's wedding, their plane developed engine trouble and they had to return to Dallas. The second time out--their plane

developed engine trouble and they returned to Dallas. The third time everything was fine. "It took over 11 hours for them to ever get here, and three planes. Even then the American Airlines had bumped some people and put them on first class to get here, and their luggage arrived four hours after that on a Delta plane. I was beside myself, while I tried to get information and waited and waited."

Fair Livestock Show Will Be September 10

The livestock division will again be an important part of the Collingsworth County Fair, and show plans were announced this week by Billy Moseley, chairman.

This will be held Saturday, September 10, and it gives every youngster, from the owner of a pet puppy to the owner of a blooded horse or fat steer an opportunity to be a part of the show.

There will be three categories, baby or small animal show, which will start at 11:00 a.m.; the horse show at 2:00 and beef cattle show at 4:00.

The location for all events will be the Youth Project Show Barn on Amarillo Street between 7th and 8th.

In the baby or small animal show, Mr. Moseley said any pet may be shown except snakes or dangerous animals. The chairman reserves the right to reject any entry. Entries must be in place by 11:00 a.m. and remain until released by the chairman.

Animals must be on leash or in its own container. All entries will be placed first through third with one grand and reserve champion chosen.

Horse show entries must be in place by 2:00 p.m. and these also must remain until released by the chairman. He reserves the right to reject any entry, and no stallions will be allowed.

"You are encouraged to enter your horse whether registered or not--in other words, everything from plow horses to registered stock is welcome," said Mr. Moseley.

There will be a place for all breeds, with ribbons being awarded first through third place. Grand champion and

Mr. and Mrs. Marler Peck, and Mrs. Harvey Beck of Oklahoma City, and Mr. and Mrs. Bill Dickenson of Comanche, Oklahoma, spent the weekend visiting with their sister and brother-in-law, Mr. and Mrs. Ralph Long. The women are former residents and the group also attended the Ex-Students' Reunion.

If you don't need it any longer, sell it through a want ad in The Leader.

reserve champion ribbons will be awarded.

All beef cattle must be in place by 4:00 p.m. and remain until released by the chairman. All entries in the beef cattle classes will be placed first through third.

These classes include: Steers: light, medium, and heavy weights. Beef calves must be accompanied by a

weight slip dated within two days of the show.

Heifers: junior and senior. Grand Champion and Reserve Champion rosettes will be awarded in both the beef calf and breeding animal sections.

Sheep and other livestock categories, if any, will be judged following the steer and heifer show.
