Advocates Of Segregation Preparing For Showdown

LIGHTS GO UP — Employes of Southern Electric, Inc., electrical contractors on construction at the high school football field, raise one of the six 120-foot light poles which are a part of the new lighting system at the stadium. The poles are 120 feet hight, and each has 24 lamps of 1,500 watts each. Foundations for the huge poles are about 10 feet deep. Harry Reed, owner of the electrical firm, said the light towers are built to withstand winds up to 135 miles per hour. Shown at left is a part of new seating facilities being built and a new pressbox. (Lee Watson photographs)

JAYCESS WILL HOST STATE FOYT EVENT

TYLER—Snyder's Junior Chamber of Commerce and high school stage band were to journey back to Snyder last night with what they had come here to get.

The organizations won authority from the state Jaycee executive committee to stage the annual state Jaycee banquet honoring the Five Outstanding Young Texans. The FOYT banquet will be held in January. The committee met here during activities of the Miss Texas pageant.

The executive committee already had the bids of the clubs wanting to act as host for the banquet and it held a "hearing" yesterday, with each club giving its testimony. Amarillo had its bid in but did little in support of it. Wichita Falls wanted the banquet, and members of that club had several brochures on their city to pass out at the hearing and the pageant, and members made speeches.

The Snyder stage band, directed by Melvin Montgomery, had played a 30-minute concert Friday night for the opening of the pageant, and it played for the executive hearing. Then, when Snyder's turn came up in the hearing, the group showed a 20-minute colored film on Snyder and its progress, complete with background music. Bob Crowell, Chamber of Commerce manager, narrated the film. Then Steve Birdwell, president of the Snyder club, and Bill Wise of Snyder, former state vice-president, each made a short speech.

The executive committee then went into a secret session, later coming back to announce that Snyder would be host for the banquet.

Further plans for the banquet will be announced later.

ON TRIAL — The Rev. George Crist, Jr., above, pastor of the Bethlehem church at Durham, Wis., near Milwaukee, has gone on trial for heresy. The 31-year-old minister faced a jury of seven other pastors, who will decide whether he is guilty of 14 charges preferred against him. The trial, first of its kind in the 60 year history of the United Lutheran Church in America's northwest synod, will decide Crist's future as one of its pastors.

Southerners Organizing

The Associated Press

With opening of a new school term only a month away, white advocates of the South's traditional pattern of racial separation were stepping up preparations for the coming showdown on public school segregation.

Citizens councils in Mississippi and Texas are planning strategy for resisting the U. S. Supreme Court decision outlawing separation of students on the basis of race alone.

The Alabama Legislature has sent to Gov. James Folsom an act designed to circumvent the court ruling.

In Georgia, state legal and education officials are setting up conferences with all local school boards where segregation lawsuits are threatened.

The National Assn. for the Advancement of Colored People also was stepping up its campaign of petitioning local school boards to take immediate steps toward integration.

The NAACP has promised litigation if local boards have not complied with the Supreme Court's demand for "deliberate speed" by taking initial steps toward integration by the opening of fall terms of school.

While conflict over the race issue appeared inevitable in some areas, a growing number of school systems are taking heed of the court decree and charting varying courses toward eventual integration.

Resistance to the segregation ruling was hit a severe blow during the week when a Texas U. S. district judge, former congressman R. Ewing Thomason, voided statutes on racial segregation in school systems.

Gov. Allan Shivers cautioned against "too much rush and confusion," but a number of Texas school systems already have voted to begin desegregation this fall.

In East Texas, where greatest opposition to integration had been expected, A. G. Morton Jr., lawyer, oil man and rancher, became president of the Kilgore Citizens Council. He promised to "fight desegregation by every lawful and legal means at our disposal whenever and wherever it threatens this community."

The Mississippi White Citizens Council called a state meeting in Jackson Aug. 16 to mobilize for a fight to keep schools segregated.

President Ellis Wright said the meeting was necessary because of the "direct attack initiated by the NAACP in Vicksburg, Jackson, Natchez and Clarksdale schools."

Petitions seeking integration of schools have been filed in the four cities. All were mailed and Atty. Gen. J. P. Coleman, a candidate for governor, said the Vicksburg petition was not legal and advised its rejection.

Georgia Atty. Gen. Eugene Cook, assured by Gov. Marvin Griffin of needed funds, is assembling a special staff for a mass of litigation on school segregation.

Together with a State Board of Education committee, he also is planning a series of local conferences with school boards where integration petitions have been filed.

The Alabama act to circumvent the Supreme Court ruling would give local school authorities wide power to assign pupils to schools. It is awaiting action by Folsom and will automatically become law Tuesday midnight if not vetoed before then.

The Alabama Legislature also passed a local act putting a heavy license fee on the NAACP in rural Wilcox County where Negroes outnumber whites 4 to 1. It also would affect labor and other groups, but Sen. Roland Cooper said it is aimed at the NAACP and would not be used against labor.

One or more petitions asking local school boards to begin immediate steps toward integration have been filed by NAACP in Georgia, North Carolina, South Carolina, Virginia, Alabama, Mississippi, Arkansas, Louisiana and Florida.

And the organization is reported ready to file many more in those and other states.

As anticipated, in Arkansas and Texas, integration began in areas with relatively small Negro populations. Four districts in Arkansas have integrated and North Little Rock has announced it will integrate on the high school level within two years.

In Texas, El Paso, San Angelo, San Antonio and a number of small cities in West and South Texas will end segregation Sept. 1. Others, including Dallas and Orange, have said they will desegregate but are still studying plans.

Argentine Officer Shot Near Church

By SAM SUMMERLIN

BUENOS AIRES, July 30 (AP)—A federal policeman guarding a Roman Catholic church was shot dead in a mysterious attack here today.

The predawn killing came amid fresh disclosures about the death of a prominent Communist physician under third degree questioning by federal police in Rosairo, a sensational aftermath of the June 16 revolt against President Juan D. Peron.

Today's attack was made about 2:30 a.m. at the Santiago Apostol (Apostle James) church in the suburban Nunez district by a band of five men, two of whom approached in a black sedan driven slowly with headlights off.

Policemen Juan Lino Barrioneuvo and Raul Enrique Ferrin were standing watch at the church, in keeping with federal policy of guarding all Catholic churches since the sacking and burning of many of Buenos Aires' finest religious buildings by vandals the night of the revolt.

A police report told of the developments:

Barrionuevo, suspicious of the car, stepped out to speak to the occupants.

At the same moment, he and his partner spotted three armed men approaching them on the sidewalk beside the church.

Barrionuevo reached for his pistol.

One of the men in the car, however, shoved a gun through the window and killed him with a bullet through the chest.

The three men on the sidewalk got the drop on Ferrin and seized his pistol.

Then the assailants sped away together.

Police Chief Miguel Gomboa was among officials who rushed to the scene to study the crime and the possible reasons for it.

The police report said no motive had been discovered.

The shooting came a few hours after a congressional investigating committee announced the Parana River is to be dredged for the body of Dr. Juan Ingalinella, a Communist leader arrested in Rosario June 17, the day after the revolt.

Authorities of Santa Fe province, in which Rosario is situated, said Thursday the Red physician died of a heart attack during police questioning in which violence was used. The case led to the firing and arrest of several policemen in Rosairo, Argentina's second largest city.

The congressional committee reported last night the imprisoned officers confessed they threw Ingalinella's body into the river near Rosario. The committee asked and received a pledge of government assistance in the dredging operation.

The Ingalinella case has sparked provincial strikes and a clash between Communists and police in Rosario. Black paint was splashed yesterday on busts of Peron and his late wife Eva in a vestibule of the faculty of mathematical sciences in Rosario.

Assistant AF Secretary Will Steer Clear Of Private Job

By LEE GARRETT

WASHINGTON, July 30 (AP)—While Harold E. Talbott's troubles about outside business interests awaited President Eisenhower's decision today, a Senate group received assurances the Air Force secretary's proposed assistant would avoid the same pitfalls.

The Senate Armed Services Committee unanimously approved the nomination of Dudley C. Sharp, a Houston, Tex., Republican, as assistant secretary after he promised to steer clear of private business activities which might conflict with his new post. The Senate was expected to act on the appointment before adjourning.

Talbott meantime resisted mounting pressure that he get out. He awaited Eisenhower's promised personal decision whether he had violated "a proper standard of ethics" in work he did from his Pentagon office for a New York firm.

"I will do whatever the President wishes me to do," Talbott told newsmen yesterday, but he dismissed as "just a rumor" reports from three highly placed Republican senators that he already had decided to submit his resignation.

Talbott's trouble stemmed from his special partnership in Paul B. Mulligan & Co., a management engineering firm from which he has drawn more than $132,000 in profits since becoming secretary.

Sharp, a Republican, was named to succeed Roger Lewis as assistant secretary.

He conceded during a Senate investigations subcommittee hearing that he was "mistaken" in writing letters and making phone calls from the Pentagon on the firm's behalf, but he contended his activities had generally been "clean" and "not improper."

Eisenhower told his news conference Wednesday he would make his decision after reading the testimony at the Senate hearing. He did not say when. The White House said today it did not know whether the President had taken a transcript with him to Gettysburg, Pa., where he is spending the weekend.

Press Secretary James C. Hagerty, asked whether Talbott had submitted his resignation, reiterated that "we have nothing before us."

The Talbott case entered directly into the questioning of Sharp, a wealthy Texas oil man and manufacturer whom Eisenhower has nominated to be an assistant secretary of the Air Force.

Sen. Symington (D-Mo), himself a former Air Force secretary, raised the question. He asked Sharp if he would avoid outside business contacts and other moves such as have brought criticism on "the present secretary." Sharp said he would.

"Then no such criticism of you could be made?" Symington asked.

"I hope it would not be," Sharp replied.

"You are disposing of everything that could cause this?" Symington continued.

"I think so, yes," Sharp answered.

Sen. Byrd (D-Va) also sought similar assurances during the questioning.

Among other things, Sharp said he had agreed to sell his 8,000-share holding in the Texas Fund, Inc., a 25 million dollar investment fund he helped to found and serves as president. Earlier in the week, he had said he wanted to retain his holding, and the committee had delayed action on his nomination pending a study.

Sharp, who has said he owns stock in 28 corporations and is a director of several, said he would resign from and sell his stock in any firm that did business with the government.

He said he would retain his holdings in the Mission Mrg. Co. of Houston, which makes oil and gas drilling machinery and pumps used in many large industries. He said the company does business both directly and indirectly with large oil companies which in turn do business with the government, but said his holdings in it involved no "conflict of interests."

Talbott likewise had disposed of large industrial holdings on becoming air force secretary, though he retained a partnership in the Mulligan firm.

The Sharp hearing echoed another phrase of the Talbott case—the contention of some senators that Talbott's gift of some of his stock to his children did not constitute disposing of it in the way the committee had meant. Talbott contends he had clearly stated his intention to do that.

Byrd asked Sharp if he planned to give stocks to his family or "sell them on the open market."

Sharp said he would sell them.

Minimum Wage Bill Goes to President

WASHINGTON, July 30 (AP)—Congress sent to President Eisenhower today the bill raising the minimum wage to $1 an hour from 75 cents effective next March 1.

Final congressional action on the measure came in the House where it was approved by a voice vote.

Soviet Orders Troops Removed From Austria

MOSCOW, Sunday, July 31 (AP)—The Soviet Union today ordered its 44,000 occupation troops withdrawn from Austria by Oct. 1 and announced Russian armed forces would be reduced by that number.

Defense Minister Marshall Georgi Zhukov issued the order of the day which will free Austrian soil of Russian troops for the first time in more than 10 years.

The marshal gave the order just four days after the treaty restoring Austrian independence went into effect.

The treaty, signed May 15 by the four occupation powers—the Soviet Union, Britain, France and the United States—calls for the withdrawal of all foreign troops within 90 days after the treaty's final ratification.

Gunman Robs B&B Store On Lubbock Road

A Snyder grocery store was robbed of about $300 and a man in the store of about $40 last night by a gunman who may have been the same man who held up a Lubbock service station the night before.

The man entered the B & B Parkway Grocery on the Lubbock highway at about 9:20 last night and held a .32 blue steel revolver on a cashier and several persons in a grocery line. In the line was a man who had just delivered bread to the store and had been paid. The gunman took that money from him.

Late last night, officers of the police and sheriff's departments were investigating the armed robbery. Names of the cashier and other man were not known at that time. About seven persons saw the man and described him as white, about 28 to 30 years old, and weighing about 170 pounds. The description fit that given of a man who had robbed a Lubbock station Friday night.

Two youths told officers they saw a car drive away from the store, but the car the man was driving was not identified.

Dogs for Sentries

WASHINGTON, July 30 (AP)—The Army is offering up to $125 apiece for 600 German shepherd dogs which will be trained for sentry duty at Air Force bases.

Loyalist Democrats Exhibit New Hopes

AUSTIN, July 30 (AP)—Signs of a growing split in the ranks of conservative Democrats have spurred the liberal-loyalist faction into stepped up activity and bright hopes for winning in 1956.

Loyalist leaders Jim Sewell of Corsicana and Bob Sawtelle of San Antonio conferred informally in Fort Worth this weekend on Sawtelle's plans to go to work full-time as state organization director.

The loyalists will challenge the conservative faction headed by Gov. Allan Shivers at next spring's precinct conventions for party control in Texas. Sawtelle's job is to organize the precincts.

The conservatives met in executive session here this week to map their campaign and at the conclusion of the session said they were not ready to announce their organization plans.

Both sides are shooting for the same goal: a majority at the May state convention, which will name and control the big Texas delegation to the national convention at Chicago.

The loyalists were happy to see the fight between Shivers and ousted National Committeeman Wright Morrow boil over in the open at the State Executive Committee meeting. Morrow and his friends left the meeting in bitterness, and Shivers faces a tough political assignment in restoring peace in his camp.

National Democratic Chairman Paul Butler in Washington merely said the Morrow action indicates Texas will once more be in the Democratic column in 1956. He said he hoped the party in Texas would be "united and vigorous" in 1956.

The Advisory Council—similar to councils set up in other states—would like to see a united party in Texas, Sewell told the Associated Press.

"We are going on with our primary job of making sure the presidential candidate of the Democratic party carries Texas in 1956," Sewell said.

The loyalists have taken note that Shivers has made no unqualified promise of support of the 1956 candidate. He has said many times—as recently again as Monday—that he hopes the party will produce a candidate next July that he can support.

Republicans meanwhile are going ahead with their own precinct organization plans, looking to 1956.

National Committeeman Jack Porter believes President Eisenhower would carry Texas by a greater majority in 1956 than he did in 1952.

Committee Attempts Housing Compromise

WASHINGTON, July 30 (AP)—A Senate-House conference committee tried tonight to compromise a dispute over public housing.

The House, in passing a bill extending various government housing programs, had rejected President Eisenhower's request for 35,000 low-rent public units a year for the next two years.

The Senate previously had voted for 135,000 units a year for four years.

A Senate-House conference committee, appointed to reconcile the differences, met two and a half hours this afternoon. Then it knocked off until 8 p.m. Sen. Sparkman (D-Ala), head of the Senate conferees, said the aim was to finish the work tonight.

Vice President Nixon Visits Lyndon Johnson In Hospital

By TEX EASLEY

WASHINGTON, July 30 (AP)—Vice President Nixon today visited Senate Majority Leader Lyndon B. Johnson (D-Tex), recuperating at Bethesda Naval Medical Center from a recent heart attack. He reported the Texan is "looking fit" and predicted Johnson would be back at his post next session.

After an hour and five minutes with Johnson, Nixon was interviewed by five Texas newspaper correspondents — all personal friends of Johnson—who later talked with Johnson in his first press meeting since being stricken four weeks ago today.

Nixon observed that Johnson now weighs 180 pounds as compared with about 200 just before entering the hospital and that the loss "is becoming to him."

"We talked about a good many things," Nixon said.

"I filled him in on a lot of details of the President's recent Geneva conference."

Asked whether they had talked about Senate matters, including natural gas bills, passed the House this week but put aside by the Senate until next January, Nixon said:

"Well, yes, we couldn't help but mention Senate affairs some in an hour and five minutes of conversation.

"Regarding the natural gas bill the prospects look very good for its passage next session, we agreed."

The bill would exempt independent natural gas producers from jurisdiction of the Power Commission. Johnson has been one of the most ardent advocates of the legislation. Many persons believe it would have passed the Senate before the recess had Johnson been at his leadership post.

Referring to how well Johnson looked, Nixon added:

"Speaking strictly as a layman, I think he'll be back on the job again next year as the Senate's Democratic leader."

In Johnson's room Nixon met the senator's wife, Mrs. Lady Bird Johnson, who has been almost constantly at his bedside since he entered the hospital. Also on hand was the senator's mother, Mrs. Rebekah Johnson, 74, of Houston, Tex. She flew here the day following the senator's attack.

When the reporters filed in to see the senator, the first time he had been permitted to see more than two visitors at once, he was resting easily in a lounge chair, dressed in a bright red short-sleeved sport shirt, blue trousers, and white canvas slippers.

After shaking hands and exchanging customary greetings, Johnson grinned and reported that yesterday he had put on his trousers for the first time.

"That was a special occasion," he continued. "Mrs. Hobby came out to see me."

He referred to Secretary of Health, Education and Welfare Oveta Culp Hobby, a fellow Texan.

Johnson said that yesterday one of the three visitors he had been allowed—up until today—was retiring Deputy Secretary of Defense Robert Anderson, also a Texan.

"He brought me a case of fine Texas cantaloupes and they sure go good with my diet," Johnson added.

The senator said he had been told he might leave the hospital Aug. 1 to go to his Washington home, but that he planned to remain in the hospital until next weekend.

"I hope to go back down to Texas by my birthday, (he will be 47 on Aug. 27)," he added. "This fall I am hoping to go deer hunting, and plan to go up to Mayo' Clinic for an examination sometime before the next session of Congress."

GOP Claims Nation Richer Under Ike

WASHINTON, July 30 (AP)—The Republican National Committee claimed today "the greatest peak of prosperity in our nation's history" under the Eisenhower administration which it said had gained "peace by design, not by accident."

In its party publication, "Straight from the Shoulder," the committee asserted that "everything's booming but the guns." Partly on that basis it called on Republicans to work for "an overwhelming vote of confidence" for President Eisenhower in 1956.

The GOP Publication called the party's record "brilliant, perhaps unparalleled, in the nation's history."

Dissenting from this, Sen. Sparkman (D-Ala) said that if the administration's record is good in any respects it's because the Democrats have made it so.

"Many movements which have worked toward both peace and prosperity have been virtually forced on the Republicans by the Democrats," he told a newsman.

"The latest instance of this is the Big Four conference at Geneva, which was proposed by Sen. George (D-Ga) and which a majority of the Republicans have yet to endorse."

Johnson Will Do Best To Get Americans Released By Reds

By WARREN ROGERS JR.

WASHINGTON, July 30 (AP)—U. Alexis Johnson, America's delegate to talks with Red China, promised today to do "everything possible to bring about the release of Americans detained in China."

Johnson made the statement at National Airport just before taking off at 3:14 p.m. on the first leg of his trip to Geneva, where the U.S-Red China talks start Monday. He is due in Geneva Sunday afternoon.

He was accompanied to the airport by Walter S. Robertson, assistant secretary of state for Far East affairs.

Robertson declined comment on Red Chinese Premier Chou En-lai's declaration that the question of freeing 40 American civilians detained by the Peiping regime "can be easily settled." Chou's statement in a Peiping speech made no mention of 11 American fliers also held.

But Robertson did comment on Chou's charge that the United States is holding thousands of Chinese students against their will.

"We have repreatedly stated that there are no Chinese who want to go back to China held in this country against their will," Robertson said.

Freeing the 51 detained Americans is the number one project of the American mission. Both President Eisenhower and Secretary of State Dulles have emphasized this. Chairman George (D-Ga) of the Senate Foreign Relations Committee added further stress today by calling it one of Johnson's "first responsibilities."

Johnson was instructed also to try to determine the Red Chinese attitude toward a cease fire in the Formosa area — a matter Chou said will not be discussed at the meeting—and to consider other matters of direct interest like insurance against the shooting down of transport aircraft.

Although the State Department withheld official comment, U. S. specialists in Far East affairs viewed Chou's statement as a clever bid to steer the upcoming negotiations into a channel he could control.

But officials said privately there was implicit in the statement a bid for a face-saving way to unload the American prisoners. They said Chou apparently is convinced that the 40 civilians and 11 U. S. airmen have become a liability, and that any easing of Far East tensions must be based on release of the Americans.

Chou's reference to "thousands" of Chinese students held against their will in the United States was studied carefully as a possible key to a face-saving arrangement.

9 Amendments To Be Considered In 1956 Are Explained

By ROBERT R. PATTERSON
STATE REPRESENTATIVE

A total of nine proposed amendments to the state constitution were approved by the 54th session of the Legislature and will be submitted to the people at the general election in November, 1956.

The veterans' land fund would be increased by an additional $100,000,000 in bonds to be issued by the veterans' land board, if approved by the people. The amendment would also change the membership of the board, substituting two citizens of the state, to be appointed by the governor with the advice and consent of the Senate, for the governor and the attorney general of the state.

The teacher's retirement system would be revised and enlarged by a proposed amendment which encountered considerable difficulty in passage in the Legislature.

Denial of bail by a court of record to a person who has been twice convicted of a felony offense would be permitted under the terms of a resolution which was offered and urged by members of the House from the large cities. The amendment would provide for trial within 60 days of the entering of the order denying bail, and does not apply to capital offenses.

Substantial changes in the law with reference to the committment of persons of unsound mind would be made by the adoption of another proposed amendment. Competent medical or psychiatric testimony would be mandatory for committment, and the waiver of trial by jury by the person under inquiry, his next of kin, and an attorney ad-litem to be appointed by the court, would be permitted. Notice to the person under inquiry of his right to a trial by jury is mandatory.

Another proposal would convert the confederate pension fund into a state building fund, and a building fund for the use of state colleges and universities. Two cents of the $100 evaluation would go into the state building fund, and five cents on the $100 would go to the institutions of higher learning. This amendment is a continuation of the program commenced last year when the excess in the Confederate pension fund was authorized for use in the construction of buildings to be used by the state government, by constitutional amendment.

The public welfare program of the state would be broadened to include assistance to persons who are totally and permanently disabled by reason of mental or physical handicap. Strict residential requirements are set up, and assistance is limited to $20.00 per month, or less, and may never exceed the amount paid to the individual out of federal funds.

Persons who have been fined or imprisoned for offenses, of which they are later found to be not guilty, could be granted aid and compensation by the Legislature if another proposal is adopted. Terms and conditions under which compensation would be granted would be enacted by the Legislature. The fact that several situations have arisen over the State where persons serving sentences for crimes which were later confessed by other individuals, caused the legislation to be introduced.

Another proposal would change the form of oath of office to be given to public officials, so that language used in the present oath which is applicable only to elected oficials, would apply also to appointed officials. The proposal was made at the request of the Governor.

A wider latitude in the handling of various county funds would be given to county commissioners by the adoption of an amendment strongly supported by the county judges' and commissioners' associations of the State. The proposal would give the commissioners' courts authority to levy annually whatever tax rates they consider may be needed for general fund, permanent improvement fund, road and bridge fund and jury fund purposes, so long as the total levied does not exceed 80 cents on the $100 evaluation.

Public Records

MARRIAGE LICENSES ISSUED:
Hilton Earl Horton, 18, 2507 Avenue J, and Annie Mae Brush, 17, route 3, July 26.
DIVORCE DECREES GRANTED:
Peggy Nell Merritt vs. Glen H. Merritt, July 23.
FILED IN CIVIL DISTRICT COURT:

HOBBS SINGER—Janice Kave, of Hobbs, is shown above in 'coon skin cap and buckskin jacket singing the "Ballad of Davy Crockett" as one of several entertainers at the Mid-West Electric Co-Operative fair held Friday in Roby. Last year Janice won first place in the contest between junior entertainers of the fair. This year no contest was held, and each entertainer was presented a plaque. (Lee Watson photograph)

Lindsey Names Five To Texas Committee On Desegregation

AUSTIN, July 30 (AP) — House Speaker Jim Lindsey named five members to the Texas Advisory Committee on School Desegregation today.

His appointments completed formation of the committee created by Gov. Allan Shivers. The group is scheduled to meet here Monday.

Appointed by Lindsey were Rep. Thomas H. Stilwell, Texarkana; Rep. Ben Ferrell, Tyler; Rep. Virginia Duff, Ferris; Rep. Alonzo W. Jamison Jr., Sanger; and Rep. Elbert Reeves, Matador.

Lt. Gov. Ben Ramsey appointed three senators to the committee yesterday. They are Sen. A. M. Aikin Jr., Paris; Sen. Searcy Bracewell, Houston; and Sen. David W. Ratliff, Stamford.

Lindsey also announced appointment of Rep. Scott P. Sayers, Fort Worth, and Rep. F. S. Seeligson, San Antonio, on the Legislative Budget Board. Ramsey had appointed Sen. William H. Shireman, Corpus Christi, and Sen. William S. Fly, Victoria, to the board yesterday.

Other members of the Legislative Budget Board, by statute, are Ramsey, Lindsey, Sen. Dorsey B. Hardeman, San Angelo, chairman of the Senate State Affairs Committee; Sen. Crawford Martin, Hillsboro, chairman of the Senate Finance Committee; Rep. Max C. Smith, San Marcos, chairman of the House Appropriations Committee; and Rep. Stanton Stone, Freeport, chairman of the House Revenue and Taxation Committee.

British Scientists May Build Satellite

SYDNEY, Australia, July 30 (AP) Prof. Marcus Oliphant, Australia's leading atom physicist, called on British scientists tonight to combine and launch a "Commonwealth satellite" into space.

His statement came after it was learned that space rocket experiments are to be carried out by British and Australian authorities on the Woomera Rocket Range.

"It is quite within the powers of British scientists to build and launch a similar satellite as planned by the United States," said Oliphant, director of the school of physical sciences at the Australian National University in Canberra.

The cost of such a satellite would be about 14½ million dollars, he added.

A Peach Tree Grows Near Times Square

NEW YORK, July 30 (AP) — Just a little west of Times Square, a persistent man is growing peaches.

Anthony Esposito doesn't plan to compete with the town's big fruit markets; he just likes his own peaches.

He had to wait for them. In 1940 he put out five young trees in his back yard at 10th Avenue and 51st Street. Four died. The survivor grew 15 feet but never bloomed until this year.

The other day Esposito and his Italian-born father triumphantly gathered 80 fist-sized peaches.

India's planners have set a coal production target of 60 million tons annually by 1961, the end of their second five-year plan. Current production is 37 million tons annually.

Eisenhower Talking Like James Monroe

By J. W. DAVIS

WASHINGTON, July 30 (AP)—Relatively speaking, America has fallen into another "era of good feeling," and President Eisenhower is talking something like James Monroe did 130 years or so ago.

Things were going so swimmingly for Monroe, who was president in 1817-1825, that he thought party politics in America was dead. He got 231 of the 232 electoral votes in 1820. Nobody was very mad at anybody.

Few people in public life seem violently angry today — although Sen. George (D-Ga) insulted Sen. McCarthy (R-Wis) politely this week—and to Eisenhower the future looks good.

Only yesterday, Eisenhower told a Republican party gathering that the GOP can control the national administration forever, if it works in unity for principles people can accept with confidence.

Closer-range predictions from the White House this week included (1) the probability of a fourth Eisenhower grandchild by Christmas and (2) the likelihood of a man-made, earth-circling satellite by 1957 or 1958.

There were other important highlights too as Congress worked toward adjournment and diplomats sharpened their wits for meetings which will test what Eisenhower called "evidence of a new friendliness in the world."

And a decision had to be made in the case of Secretary of the Air Force Talbott, who was not exactly a silent partner in the private firm of Paul B. Mulligan & Co.

SATELLITES — Eisenhower approved plans for launching the first man-made satellites and scientists said they hope to have them flying around the world during the International Geophysical Year, July 1957-December 1958.

About the size of basketballs, they would circle the earth every 90 minutes and be visible through a telescope. Hopes are to equip them with radio instruments, and the White House emphasized "the project is entirely for scientific purposes."

RED CHINA—It was announced that ambassadors from the United States and Red China will meet at Geneva, Switzerland, next Monday to discuss matters of mutual concern.

Secretary of State Dulles said an American aim, aside from winning freedom for U. S. civilians and airmen held by Red China, will be to find out whether Red China would accept a cease-fire in the Formosa area.

During debate on the conference, Senators George and McCarthy fell into dispute over whether Nationalist China should be represented, and McCarthy in passing referred to George as "a good senator."

"I wish I could reciprocate the compliment," George came back, "but I shall not perjure myself with such a statement."

BIG FOUR—Eisenhower, in a report to the people on the almost jovial meeting with the Russians, French and British in Geneva last week, said the acid test will come in October.

It is then, he said, when foreign ministers meet to consider specific agreements, that "reconciliation and some giving on each side will be definitely necessary."

"I believe that only with prayerful patience, intelligence, courage and tolerance — never forgetting vigilance and prudence—can we keep alive the spark ignited at Geneva," he said.

Secretary of State Dulles told his news conference: "War danger has receded."

There was talk that at some time Eisenhower might visit Russia and Premier Bulganin or party boss Khrushchev might come to the United States.

Pipeline Endorsed By Independents

WASHINGTON (AP)—The proposed new crude oil pipeline from Midland, Tex., to Los Angeles has been endorsed by the Texas Independent Producers and Royalty Owners Assn.

The endorsement came in a statement by TIPRO President A. P. King Jr., to the House Armed Services Committee, which is studying the proposal because of questions raised on how it is to be financed. Backers want the government to underwrite about 85 million dollars of the cost.

King's statement said there is a reserve productive capacity in Texas of almost a million barrels of oil per day available to supply the proposed 106 million dollar line.

Frenchman Planning Trip to Soviet Union

PARIS, July 30 (AP) — France's Parliament is planning to send between 12 and 20 of its members to Moscow this fall. The National Assembly's Steering Committee has decided to accept the invitation the Soviet Union's Supreme Soviet extended some months ago to Western legislatures.

The delegation members will be chosen from both the Assembly and the Council of the Republic on the basis of party membership in the two chambers. The group is expected to leave Paris after Sept. 20.

Winter Sports Fans Have Australian Ball

SYDNEY, Australia, July 30, (AP) — Winter sports fans are having a big time in southeast Australia. Snow has been prevalent there above the 5,000-foot level for more than a month and the skiing is fine.

Several towns in the interior of New South Wales reported below-freezing temperatures this week.

Here's Score On Major Legislation

WASHINGTON, July 30 (AP) — As the 84th Congress nears its close, here is how the major legislation stands:

Enacted: Formosa defense, military reserve program, reciprocal trade extension, foreign aid extension, corporate and excise tax extension, draft law extension, congressional and judges and federal employe pay raises, presidential reorganizational power extension, minimum wage increase.

No action: Federal aid to schools, health insurance, authority for wire tapping.

Passed House only: Social Security broadening, 90 per cent parity farm price support, freeing natural gas producers from federal control.

Passed Senate only: Public housing.

Passed Senate, defeated House: Highway program.

Defeated House: Alaska-Hawaii statehood.

Legislation not acted upon in this session, or defeated by either branch of Congress, may be revived at the next session starting in January 1956.

There are about 877 million head of cattle in the world, about 18 per cent more than before World War II.

VISITORS FROM KANSAS CITY—Two school students from Kansas City enjoy a visit and sunbath in Snyder above. They are Deanna Lea Roberts, left, daughter of Mr. and Mrs. C. M. Roberts, and Estelle Goss, daughter of Gordon B. Goss. They are visiting Mr. and Mrs. Goss here at their home at 506 Twenty-seventh Street Miss Roberts' father is an official of Trans-World Airways. (Lee Watson photograph)

Soviet Hospitality May Be Blamed For Fattening Americans

ODESSA, Ukrainian Soviet Republic (AP)—Soviet hospitality will get the blame if the wives of the touring American farm delegation don't like the poundage their spouses are acquiring.

The 12 Americans have experienced an all-out effort in the food and drink department ever since they arrived in the Soviet Union. Sometimes one eating session almost piles up on top of another, and waistlines are showing the effect.

Wednesday, or example, the visitors sat down to a huge lunch during a visit to a collective farm. When they got back to Odessa a short time later, another massive meal awaited them.

Two Iowans in the party, Charles Hearst of Cedar Falls and Ralph Olsen of Ellsworth, said any weight complaints from wives would have to be blamed on Russian eagerness to overload the table.

Some quarters believe the Soviet campaign in matters of food stemmed from a desire to outshine banquets and dinners being given a similar Soviet delegation in the United States.

Another member of the U.S. delegation, Herbert Pike of Whitting, Iowa, said some of the Americans were turning up with stomachaches from overeating and too many vodka toasts.

Sooner State Oil Operations Increase

OKLAHOMA CITY (AP)—Oil operations in Oklahoma increased in every category this week, a survey by Research Oil Reports shows.

Total completions increased 33 over the 164 reported last week. Breaking down the total, the number of oilers rose five to 124, gassers increased seven to 13 and dry holes unmbered 18 more than the 35 reported last week.

Seven service wells were recorded for the period, compared with four in the preceding period and locations increased to 194, 10 over last week's figure.

Funeral Held For Mrs. Cole

Funeral services for Mrs. Frank Cole, a former Snyder resident, were held Friday afternoon in the Roberson-Murrel Funeral Home in Fort Worth.

Mrs. Cole, the former Maggie Strayhorn, came to Scurry County with her parents in December, 1889. She married Mr. Cole soon after and the couple moved to Hamilton County. They later returned to Scurry County and lived here until moving to Fort Worth in about 1918.

Attending the funeral from Snyder were Mrs. Cole's sisters, Mrs. R. C. Grantham and Mrs. Willie S. Farmer. Others attending were Mrs. E. L. Kubala, Neoma Strayhorn; Mrs. J. P. Nelson and David Strayhorn, all of Snyder; Mr. and Mrs. Rob Strayhorn of Rotan; Mr. and Mrs. Earl Grantham of Morton; Mrs. Fred Merrick of Abilene and Mrs. Herb Bannister of Lubbock.

Survivors in addition to Mrs. Grantham and Mrs. Farmer are two daughters, Mrs. Fannie Mae Rivers and Mrs. Quita White; a son, Raymond Cole; two grandchildren and four great-grandchildren.

Navy Recruiters Need Photos Of Local Gobs For Picture Display

A display of pictures of U.S. Navy men from Snyder and the surrounding area is in the process of being made up by M. O. Hindal of the local recruiting office.

Hindal says his present greatest need is pictures of local Navy men which can best be furnished by their wives or parents. The photographs or snapshots may be turned in to Hindal between 10 a.m. and 3 p.m. Friday at his ofice on the third floor of the courthouse. The pictures will be returned upon request or upon completion of their use in this display.

The display will be exhibited in store windows in Snyder and surrounding towns in a four-county area.

Some biographical information about each sailor is desired for the display, Hindal said.

Bible Thought

Him hath God exalted with his right hand to be a Prince and a Saviour, for to give repentance to Israel, and forgiveness of sins. (Acts 5:31).

EDITORIALS

Morbid Curiosity?

The old expression, "Seein' the elephant and hearin' the owl," might be useful in explaining the unprecedented welcome the visiting Russian agricultural experts have met up with in the State of Iowa.

There must be millions of Americans who have never seen a real live Communist, and a showman might have made a comfortable living by capturing one of the genuine Russian type and exhibiting him in a cage to the people of whom P. T. Barnum said one is born every minute — the people who like to be humbugged.

Press dispatches from Iowa say the most commonly heard question in the Tall Corn State nowadays is, "Have you seen the Russians?"

People turned out in droves to catch a glimpse of the visiting furriners. The thing has finally reached the point where Iowa cities and towns are jealous of being left off the Russkies' travel schedule. Sioux City raised such a fuss when the visit there was cancelled that the governor of the state, no less, had to arrange for the delivery of at least three of the men from Paradise for the inspection of the citizenry.

The basis of this outpouring of public interest undoubtedly is curiosity, with intimations of morbidity. The people of Iowa can't be under any illusions regarding the background and politico-economic beliefs of their guests. The tragedy of it is that these men represent, and are part and parcel, of an ideology that put to death millions of Russian farmers because they failed or refused to bend the knee to the Communist Baal, and that to this good day persists in that course even though millions of Russians face another food famine brought about by long-continued enslavement of Russian producers.

We agree the exchange of farmer-visits between the U.S. and the U.S.S.R. might have some beneficial effects in bringing about a better understanding between the two peoples, but we question the seeming all-out character of the Iowa welcome. Russia for many years, is now and will continue to be our mortal enemy, the direct cause of the death of some thousands of Americans in uniform in Korea and elsewhere, and for our part we'd just as soon those eleven men from Moscow representing the perfect flowering of Communist bureaucracy, wind up their visit soon and get out of the country.

Good usage requires that we be polite to guests, but in this case it should be a studied politeness.

Texas Offers Peak

The attitude of the legislators of Carroll County, New Hampshire, is that President Eisenhower is a suitable and worthy subject for naming a mountain peak after, but why pick on them?

They have voted unanimously against renaming Mt. Chocorua, whose 3,475-foot peak dominates the state capital, (Concord) "Mt. Eisenhower." They reported their views to the House Public Works Committee of the Granite State's lawmaking body, which is considering a resolution to so rename the peak.

They do not object to honoring the President, but wish to keep the old name.

We can understand and appreciate loyalty to a local landmark, so we suggest a way out of Concord's dilemma. Let the Legislature of the State of Texas rename one of the numerous peaks in our western marches in honor of its native son. El Capitan, in Culbertson County, has a meaningless handle (the capitan), and there is no inhabited place nearby to contest its renaming to Mt. Eisenhower. El Capitan is 8,078 feet tall, and is sometimes confused with nearby Guadalupe Peak (8,851 feet), also known as Signal Peak. Guadalupe is too pretty a name to dispense with — it occurs 15 times in Texas nomenclature — but El Capitan has no special significance.

Or we could drop down south a little and change the name of Mitre Peak in Jeff Davis County (6,100 feet) to Mt. Eisenhower, since, Mitre represents nothing but its shape. If local sentiment still objected, there would be Sawtooth Mountain in the same vicinity ready to hand. Surely nobody could object to changing the name of Sawtooth.

Dead Center

COLUMBIA, S.C. (AP)—Workmen measured to the center of a block on South Main St., here and painted a traffic line. They moved on to the next block, measured out from one curb and painted a traffic line. But it wasn't in the center.

The second block was considerably wider than the first block, and the workers had used the same measurement from the curb they'd used in the previous block. So they had to scrape up the line in the second block and paint another right down the middle.

MIRRORS CAN'T SOLVE THIS

Texas 'Country Boy' Is One Of 30 Who Gained Admission To Off-Record Talks

By D. B. HARDEMAN

AT THE BIG FOUR CONFERENCE IN GENEVA — This country boy from Texas had had an experience he never dreamed he would have — he has been attending the great historic peace conference — the Big Four Meeting in Geneva, Switzerland.

There are more than 1,500 reporters and photographers from America, Europe, China, Russia, Africa, and every place else at this conference, but I've been mighty lucky — this country boy has been one of the approximately 30 reporters admitted to the special, off-the-record American discussions where high officials tell what has been going on behind the closed doors of the Conference.

Frankly, I was pretty nervous when I got to Geneva — this was a new experience and I didn't know how I would be treated. I had letters from some of the newspapers that are carrying these reports, together with fine letters of introduction from Speaker Sam Rayburn and Governor Adlai Stevenson.

To get my press-card for the Conference, I had to go to a department store and get three small photos, made. Then I filled out three long forms telling all about myself. A committee reviewed my application, and told me to come back three hours later. When I returned, they had my credentials ready with my photo stapled on them.

The next stop was the big building set aside for the 1,500 newsmen. It was formerly the home of a rich Swiss, and is now divided into dozens of offices and conference rooms. Inside it was swarming with all sorts of people of every color and description. The confusion of tongues was worse than the Tower of Babel — German, French, Arabic, Hindustani, Chinese, Spanish, Russian, English, and no telling what else.

I had a letter of introduction to the New York Times man in Geneva, so I headed there first. Well, my friend had gone to the United States, but Richard Garts, one of the managing editors, very kindly told me how the Conference was operating and gave me "the lay of the land." He introduced me to two of the Times' great writers, Scotty Reston, head of the Washington bureau, and Drew Middleton, head of the London bureau.

Next I headed for the Associated Press office where Eddy Gilmore, for many years head of their Moscow bureau, was very cordial. He gave me further information and invited me to read the file of all the Associated Press stories which they had sent back to America.

I found out that the correspondents were barred from the actual Conference meetings, so for news they had to depend on briefings each night given by the press officers of the Russian, American, British and French delegations at which the press officers told most of what had taken place that day in the Conference.

In addition, they tried to buttonhole members of the various delegations to get off-the-record tips, and if a reporter cornered a delegation member for lunch, that was a real break. Also, the American reporters were very good about trading news with each other.

My real break in covering the Conference came accidentally. I was milling around out in the big reception hall where a big lunch-counter and bar was set up. Here hundreds of the reporters stood around talking and trading tips.

I introduced myself to various ones and began to get more of an idea how to proceed. Drew Pearson came by, so I introduced myself and had a brief chat.

A young German newspaperman named Hans Schaefer told me the Germans were greatly disappointed at the lack of progress on German unification, and that Germany would not rest until East and West Germany were one country again. Later that afternoon Schaefer was drowned in a boating accident.

A fellow named Ed Rosenthal introduced himself. Learning I was a Texan, he said, "Well, I'm almost one. I worked on the Houston Press in 1938." Now he works in London for Reuters, the big British press association, and is married to an English girl.

He began to recall Texas newspapermen he had known. Used to room with Morris Franks, the famed Houston Post writer, he said. He asked about the late Harold Young of the Post and about Walter Pridemore who worked for the San Antonio Express before the War. He would particularly like to send greetings to Tanner Lane on the Midland Reporter.

Learning I was writing for the Corpus Christi Caller-Times, he said: Boy, do I remember Corpus! I was playing hide-and-seek in a car with some girls on North Beach and drove my car into the Gulf. The Navy finally pulled it out, but it was ruined."

He asked if I knew about the private briefings held late at night by some high-ranking American officials to talk off-the-record about the day's development. I had not.

"They're only letting about 30 people attend, and you are not allowed to quote anything that is said, but I'd try to get in if I were you. Talk to Jim Hagerty, the President's press secretary," he said.

I called Hagerty. He was most cordial.

"I've been expecting you," the President's secretary said. "Speaker Rayburn wrote me that you were coming over. You will be most welcome at the little get-together tonight. Present your passport and press credentials to the Marines who guard the door."

The country boy from Texas was frankly stunned. This was far more than he expected when he came to Geneva to cover the Big Four Conference.

Summer Heat Wave Giving Some Manufacturers Gains

By SAM DAWSON

NEW YORK, (AP)—Hot weather has some friends scattered among the vast army of its victims.

Rising sales volume is reported by a number of industries that thrive on heat and humidity. Some predict new records will be set this sizzling summer.

Merchants with sizable stocks of unsold air conditioners have been getting considerable relief because the rest of us haven't.

The air conditioning industry, which has been plagued for well over a year by over-production and price cutting wars, is thankful for the prolonged heat wave.

The electric power industry is, too. Hot weather has boosted the use of air conditioning and refrigeration equipment in most sections of the nation. Electric power production sets a new record almost every week, as a result.

Sales executives of soft drink producers say the persistent heat wave is pushing consumption to a new high. They estimate that by Labor Day Americans will have downed more than three billion gallons of soft drinks.

Ice cream makers also report a record sales season, as do the perveyors of ice cubes.

Laundrymen say their volume rises with hot weather. A man goes through a drawer full of shirts much faster during a heat wave. Sheets and towels go to the laundry oftener in humid spells.

Each weekend sees a gain in gasoline sales as city folk flee in search of cooler spots. Auto repairmen say calls for them increase as the temperature rises in overheated car engines.

Resorts report record business this summer.

Summer apparel departments of stores have done good business this season.

Meat consumption has dropped this month, as families turn to cooler foods, as appetites dwindle, and as housewives seek menus that require little cooking.

But anyone determined to find some good in the heat can note what the Russian farmers found out in Iowa: Hot, humid weather is making the tall corn grow taller. And that means farmers will raise more pigs this fall and prices will be lower next year.

Recruiting Drive

SINGAPORE (AP) — There's a rush on to join the royal Malayan navy.

Recruiting officers asked for 80 candidates. Five hundred Malays, Indians, Chinese and Eurasians turned up at the Singapore naval base.

BUCKLEY

Eisenhower May Some Day Be Considered One Of The Top Politicians Of Century

By JAMES MARLOW

WASHINGTON, (AP) — The time may come when President Eisenhower, who went into the White House a political novice, is considered one of the best politicians of the 20th century.

That's taking in a lot of territory, and professional politicians—whose idea of politics is fight and slam—attack and create issues—may hoot at the thought.

But Eisenhower already has established a remarkable political record in his first 30 months in the White House. Perhaps at this point a definition of a good politician might be in order:

He's a man who manages to stay immensely popular while getting done as much as possible of what he wants while avoiding any personal animosities which might get in the way of what he wants.

It's hard to think of anyone in or out of Congress — except perhaps Sen. McCarthy (R-Wis)—who is publicly mad at Eisenhower. Public opinion polls show he has retained an extremely high personal popularity.

A number of reasons can be suggested for his popularity: he went into office with great prestige and great public esteem and he has done nothing by his tactics to forfeit it.

A personal attack is one of the best ways to force people to choose up sides—for or against you—and Eisenhower has made personal attacks on no one.

He managed to get an end to the fighting in Korea, as he promised. He has steered clear of threats he couldn't fulfill. It was Secretary of State Dulles, not Eisenhower, who startled the world with talk of massive retaliation.

The President has carefully followed a moderate course. As an example: If since 1953 he had been extreme in his criticism of the Russian leadership, it might have been impossible for him to meet with the Kremlin men in Geneva where they established a relationship which may do the world good.

And, as for dealing with Congress where the Democrats should have been his natural political foes, lying in wait for him, it has been almost as if he followed this philosophy:

"I have a number of programs I want passed. I could fight vigorously for each one of them and look like an aggressive leader. But I won't get everything I want anyway.

"By following a moderate course, with every issue decided on its merits and not on a personal bais involving me, making no enemies, I may do all right."

He hasn't done badly. This year the Democratic-run Congress has passed much that he asked—sometimes a little less than he asked, as in foreign aid, or a little more than he asked, as in the minimum wage.

The Democrats have gotten along with him so well that Washington observers wonder how the Democrats are going to have any real issues in the 1956 presidential campaign if they don't start fighting Eisenhower and the Republicans soon.

They may be reconciled to the idea that he will run again, and win again, and that the best they can hope for is retaining control of Congress through the record of legislation they establish there.

WASHINGTON LETTER

Mrs. U Nu Kept Busy While in Washington

By JANE EADS

WASHINGTON (AP) — While Burmese Prime Minister U Nu was attending official meetings and stag luncheons on his recent visit to the capital, Mrs. U Nu was kept busy every minute with her own affairs.

When U Nu went to luncheon given by Mrs. Barrington, wife of the Burmese ambassador. While Vice President Nixon entertained U Nu at lucheon the following day, Mrs. Nixon invited his wife to a luncheon cruise down the Potomac on the Sequoia, the secretary of the Navy's official yacht.

Mrs. U Nu also got in some sightseeing, but she was especially interested in visiting the Department of Health, Education and Welfare, as well as D.C. General Hospital, the Goodwill Industries and several social welfare centers. In Burma, the Prime Minister's wife devotes a large part of her time to her duties as president of her country's two largest welfare agencies, the General Welfare Organization, and the National Child Welfare Organization.

The Prime Minister and his charming wife created quite a stir in the capital from the time they drove from National Airport to Blair House in the bright green custom-built convertible which the President had used at the U.N. anniversary meeting in San Francisco.

Both were in their colorful native costumes, and — accustomed as local citizens are to visitors in unusual garb — the pair caused considerable head-turning. U Nu wore a long, skirt-like garment called a longyi, as did his wife. U Nu topped his with a shortwaisted, long-sleeved, high-necked, loose-fitting jacket called an ingyi. He also wore split-toed sandals, but what attracted the most attention was his white, close-fitting headdress with a flowing bow at the right. Mrs. U Nu wore bright silk blouses with her longyi and long embroidered scarves draped over one shoulder.

The U Nus eloped just after he graduated from the University of Rangoon and was taking over his first job as the new superintendent of a village high school. She was the daughter of a member of the board of education.

U Nu, devout Buddhist and religious scholar, was pleased to find a special altar arrangement set up by Burmese Embassy officials in a third floor den at Blair House, official guest house for foreign dignitaries.

25 YEARS AGO

(Taken from the files of THE SCURRY COUNTY TIMES for July 31, 1930.)

Scurry County went for Clint Small for governor, with "Ma" Ferguson running second choice and Mayfield in third place. But as the state returns commenced coming in from the Texas Election screen in front of Stinson No. 2 store, Sterling could not be denied in the run-off with Mrs. Ferguson in August. Precinct chairmen in Scurry County were quick in their efforts to get the news of their boxes to Snyder and they must be heartily thanked for their fine efforts. . .

• • •

Hon. Joe Merritt has started a new industry in Scurry County, being instrumental in "canning" fresh watermelons. . . but there's a catch to this.

Joe brought us in a tin can that had a perfect watermelon growing inside so tight there was no "shenanigan" about it. Mr. Merritt had a large smile on his face when he landed in the office and we just knew in advance to keep a weather eye on whatever promotion he had. But the melon was a most unique set-up.

• • •

A curiosity equal to that which was occasioned by the appearance of Greta Garbo in her first talking picture has been aroused in connection with the showing Wednesday at the Palace Theater of Lon Chaney's initial talking production, "The Unholy Three," in which the "man of many faces" will introduce movie audiences for the first time to his many voices.

• • •

Company G, 142nd Infantry, leaves Snyder tomorrow for the annual encampment at Camp Palacios, and expects to take the same type of honors this year as has happened in all their previous year's journeys to the Gulf. Captain John E. Sentell will be in command with Lt. Wren Moore and Lt. Tim Cook as first assistants.

• • •

Boys, girls, men and women in all parts of the county are getting set for the first terrapin race Saturday afternoon. The street running alongside the Manhattan Hotel will be roped off and four judges will be selected by the Chamber of Commerce to select the winners. . . Bring on your terrapins Saturday and have them checked in at the race course by 3:30. The race will start at 4 o'clock.

• • •

The population of District No. 7 for 1930 totaled 169,225, an increase of 113,585 over the total of 55,650 for 1920, or an increase of 204 per cent, Dr. I. E. Barr, supervisor, has announced.

The percentage of increase in the South Plains section of Texas is thought to be greater than any other district in the United States. A number of South Plains counties just north of District 7, in District 2, have likewise had substantial increases.

Figures from Scurry County show a population of 12,187 for 1930, compared to 9,003 for 1920, an increase of 3,184, or 35 per cent. Borden County's 1930 population is 1,505, an increase of 540 over the 965 counted in 1920, or 56 per cent.

Folks, it's too hot to work.

Leaders Are Gussing That Session Will End Tomorrow

By WILLIAM F. ARBOGAST

WASHINGTON, July 30 (AP)—The 84th Congress labored overtime today to wind up its first session. Best guess of the leaders was that the final gavel would fall Monday, leaving a lot of unfinished business for next year's pre-election session.

During a seven-month session Congress appropriated some 50 billion dollars to run the government, authorized President Eisenhower to fight if necessary for Formosa; extended the Draft Act; passed a bill to build up the military reserves; continued a massive foreign aid program; boosted their own pay 50 per cent.

Republicans insisted at the session's end that President Eisenhower would have fared much better if there had been more GOP members in the Democratic-controlled Congress. Democrats countered that Eisenhower's program would have been in much worse shape if Democrats hadn't come to his aid.

Particularly in the field of foreign affairs did the Democratic majorities in the House come in handy for the President.

The President's request for continuance and expansion of the foreign trade act was granted by the House over the opposition of well over half the Republican members.

His foreign aid program was continued by a House vote preponderantly Democratic.

In domestic matters, the President got some, but not all, of what he asked from Congress.

In one case he got more than he wanted. He asked that the minimum wage in interstate employment be boosted from 75 cents to 90 cents an hour. Congress hiked it to $1.

The President wanted a long-range road-building program financed through bonds. So far he has got no road bill at all. Neither was there any action on the President's requests for prepaid health insurance, statehood for Hawaii or federal aid to schools.

All legislation not acted on at this session, including bills technically "killed," remains alive for consideration during next year's session.

In this category are such controversial proposals as social security extension, mandatory 90 per cent farm price supports, and removal of natural gas producers from federal regulation, all of which were approved by the House only.

RADIO-TV REPORT

By BOB THOMAS

HOLLYWOOD (AP)—"It's the curse of this business—typecasting." So says Basil Rathbone, and he should know.

The razor-nosed actor first came to Hollywood in 1929, as one of the stage performers imported to meet the challenge of talkies. At first he did nothing but comedies.

All that was changed when he played a deep-dyed villain in "David Copperfield." Then he was seldom cast as anything but a heavy.

Another phase of his career started when he portrayed Sherlock Holmes in a movie. This typing was so intense that he left Hollywood in 1947 to escape it.

"After 17 films as Sherlock Holmes and a steady diet of 39 weeks a year on radio, I was fed up," he declared. "I had to get away."

He escaped to the stage and found a break in type with "The Heiress." He has continued to live in the east, dabbling in the stage and TV with a rare foray in the movies (his most recent: "Mr. Casanova" with Bob Hope.)

He's back here as a heavy, playing old evil-eye in "Svengali and The Blonde" for an NBC spectacular tonight.

Now it's reported that he may submit to being typed yet again. A deal is in the works for him to play Don Quixote in a TV series to be filmed in Spain. Rathbone confirmed rumors of such a deal.

"It would be a wonderful opportunity, if it materializes," he said. "After all, I look like Quixote and he was over 60 when he had his adventures." Rathbone is a remarkably agile 63.

Ah, but wouldn't this once again create a type for him?

"Undoubtedly," he replied in Holmes-like tones. "But when they lay me under in the little box, wouldn't it be a satisfaction to have them say on my tombstone that this was the man who was known by everyone in the roles of Sherlock Holmes and Don Quixote?"

Rathbone is somewhat amused by the success of the Holmes films on TV.

"When someone asks me if I have a TV show, I reply, 'Yes, I do,' but I don't do any work for it and I don't get any money. Unfortunately, the films were made before 1947, when the Screen Actors Guild made a deal for a share of the profits from films shown on TV."

LITERARY GUIDEPOST

OFF THE BOOK BEAT — "The Memoirs of Harry S. Truman" there it stood as big as life on the shelf behind the desk of an editor at Doubleday's.

"What?" I said. "Is that book ready? When does it come out?"

"Out in October," I was told.

"How come it's ready so many months ahead of time?"

"Take a look at it."

So I looked, and some subversive wag at this publishing house had wrapped the jacket of the forthcoming book around another book already published some years ago by Doubleday. The other book, exactly the same format, was "Crusade in Europe," by Dwight D. Eisenhower.

• • •

A couple of already best-selling authors have written novels for fall publication and fall book-club choices. Herman Wouk's "Majorie Morningstar" will be the Book-of-the-Month Club choice in September. Thomas B. Costain's two-column "The Tontine" will be the Literary Guild selection for October. Both are published by Doubleday.

• • •

Does Dr. James E. Salk of polio fame, pronouce his name with a silent l, as in talk and balk, or with a sounded l, as in polio? It's sounded, according to researchers for the next edition of the Random House American College Dictionary, who went to the scientist's father for their information.

Hungarian Refugees Living Normal Life In Midland Now

By WILLIAM C. BARNARD

MIDLAND, Tex., July 30 (AP) — Outside the motel office the sun beat down. Inside, a little girl bounced a ball and picked up jacks. Her mother sat nearby in a wheel chair.

"Was it worth the loss of my leg to come to America?" the mother said, echoing a question. "Of course it was. Of course."

She was Mrs. Geza Kapus, a pleasant dark-haired woman of 34. Two years ago, she and her husband and daughter fled across a Communist border in Europe.

They escaped a fusillade of bullets, but a land mine tore off the mother's leg.

Her husband, an attorney, said: "We left misery behind. In this country, people can look forward to tomorrow."

On the floor, 8-year-old Eva Maria, with dancing brown eyes, sang "Davy Crockett."

"We live with my sister who operates this motel," Mrs. Kapus said. "When the doorbell rings at midnight, it isn't the secret police. It's just somebody wanting a room.

"We don't dream any more of the secret police either. Instead, we dream of luxuries like air conditioning, washing machines and refrigeration."

The escape of the Kapus family from Communist Hungary became a celebrated case. The three came to the United States July 29, 1954, and the next month they called on President Eisenhower at the White House and appeared before the U.S. Senate.

And after that?

"We have settled in Midland with a most secure feeling," Mrs. Kapus said. "We have a car and we will own it in another few months and we hope to have a home someday, a small one we can take care of ourselves."

After six operations, Mrs. Kapus is learning to walk again, with an artificial leg.

Kapus was commercial manager in Budapest of an aluminum and mining company. But in 1951, in a period of only two months, the Reds moved some 80,000 persons out of Budapest to make room for "loyal" members of the Communist party.

The Kapus family was deported to Vamos Gyoerk, a remote village in east Hungary and ordered never to leave the city limits.

Kapus turned to manual labor to support his family. His wages amounted to 15 cents per day.

"It was a terrible starvation existence," Mrs. Kapus remembers. "The farm people of the village were miserable; they never had anything of their own. They had to work for nothing because they were forced to sell everything to the Communist government.

"The only refuge of the people was the church. The Communists were doing all they could to crush the church, but they dared not close the church doors.

"The mental agony we went through in the village was worse than the physical suffering."

"We were living from day to day," her husband explained. "It was a terrible feeling, a feeling no future—no future for us or Eva Maria. We decided to risk escape from the country. We knew the terrible dangers but we were convinced death was more attractive than life under Communist rule."

The forbidden frontier for those who live under Europe's Communist regimes is 3,000 miles long, stretching from the Baltic to the Black Sea. Restricted zones at least five miles deep run grimly along this frontier, heavily guarded and patrolled by Communist mobile border police.

Then comes a narrower, even more hazardous strip. It is about two miles deep, immediately adjoining the border. This territory is dotted with watchtowers. Trained dogs accompany guards who patrol the two-mile zones. The guards have orders to shoot on sight.

The borders themselves are blocked off with electrically charged barbed wire equipped with signal devices which set off alarms in the watchtowers. Trip wires trigger deadly land mines. In some places the Reds have dug pits, 20 to 30 feet deep, camouflaged by overgrowth.

The Kapus family knew all this. But on the night of July 13, 1953, they made their break.

So agonizing, so terrifying was the experience, that Kapus says he can remember only a few details.

The family was crawling through the last strands of barbed wire to reach Austria when Communist border guards spotted them and opened fire.

No bullets hit the three, but a mine exploded, horribly mangling Mrs. Kapus' legs. Kapus can remember hurling his little daughter over the barbed wire. Then he dragged his wife the few remaining yards. She lay bleeding in a cornfield and the husband desperately attempted medical aid.

"I told him how to apply a tourniquet to my legs," Mrs. Kapus said. "I thought that was the end. I thought that was all there was to it. Hours went by and my eyes were open and I did not die. I could hardly believe it."

Kapus got his wife into a hayloft. After 12 hours he found a doctor and persuaded him to come to the hayloft.

"I can do nothing for her here," said the doctor. "You must get her to a hospital immediately."

But it was 36 hours after the explosion before a cart, carried Mrs. Kapus into the American sector of Vienna and to a hospital.

"She was more dead than alive by that time," Kapus said. "It is indeed a miracle she is still with us."

She was in the hospital a year.

For a time 40-year-old Kapus worked as a truck driver, until a bout with pneumonia last winter Then he found employment at the Midland air terminal and made extra money as a part-time fireman. Now he's an accountant with an oil company.

Mrs. Kapus, who speaks French, German, Hungarian and English —all fluently—hopes to start teaching languages soon.

She belongs to the mother's club at St. Anne's Catholic Church school and has made many friends in Midland. "People are so very kind and very nice," she said.

Eva Maria made the third grade honor roll. Mrs. Kapus' sister, Mrs. W. S. Key, said: "Eva Maria pretends she has forgotten Hungarian. She sings all day about Davy Crockett. You'd never believe she wasn't born here. She has completely turned into a Texan—she was painfully shy and now she's an absolute extrovert."

Kapus smiled. "It is a wonderful life," he said. "Here Eva Maria can believe in God, believe in Christianity and be a nice little Texan."

Canadian Shipment

OTTAWA, July 30 (AP)—Canada in August will ship military supplies to six NATO countries under the mutual aid program: vehicles and parts to Italy and Turkey, radar and trucks to Portugal, gun-towing vehicles and parts to Denmark, ammunition to Britain and jeeps to Holland.

Man Is Released On Bond Here Saturday

R. A. Reneau, about 45, Snyder, was released on $1,000 bond yesterday after being arrested here on a warrant from Lubbock alleging child desertion.

Garland Armstrong and Pat Beene were the sureties on his bond.

The salts of tin are used in weighting or loading silk.

Slips or petticoats. *Du-Pont's polyester Fibre $2
Four - gored beauties with shadow panels, lavish face trim. Soft, absorbent . . . need little care. White. Slips, 32 to 40; petticoats, S-M-L.

RURAL SHOW—It was just like a big circus Friday when hundreds of persons from this area attended the rural show in connection with the annual meeting of members of the Midwest Electric Cooperative at Roby. Midwest has more than 3,000 members in Scurry, Fisher, Borden, Kent, Garza, Stonewall, Jones, Nolan, and Mitchell counties. (Lee Watson photograph)

CAKE WINNERS—Jona Sue Ammons, 10, daughter of Mr. and Mrs. Johnny Ammons, Roby, won first prize in the cake baking contest held in conjunction with the annual Mid-West Electric Co-Operative electric fair and business meeting of stock holders. Mrs. J. P. Moore, also of Roby, right, won third prize. Mrs. Don Randolph, Roby, won the second prize, but was not present at the contest. (Lee Watson photograph)

Heavy Rains Bring Cheerful Prospects

COLLEGE STATION, July 30 (AP)—Heavy, widespread rains this week in many parts of Texas brought cheering crop prospects, G. G. Gibson, director of the Texas Agricultural Extension Service, reported today.

A survey of district agents showed:

Drought-ravaged ranges in far West Texas continued to get widespread showers which were heaviest in the Big Bend and El Paso areas. There was some damage from rapid runoff, but rainfall has been ideal for this time of the year and benefits are expected to surpass those in any period during recent years. Crops are continuing to make excellent growth with only light to medium infestations of insects. Livestock was reported doing well.

Rains for the Lubbock area ranged from half an inch to 10 inches with the heaviest falls in Dawson, Borden and Lynn counties. Small areas in Crosby, Lamb and Lynn counties suffered some hail damage, but moisture benefits far exceed the losses. Boll worm infestationsn were on the increase but there was no general outbreak yet.

Surface moisture conditions are spotted in northeast Texas. Conditions in some areas still are critical. Pastures and hay crops are making good growth. Sweet potatoes are being harvested in some areas while a good movement of watermelons from the eastern part of the district took place during the week. Cattle are in good condition.

Surface moisture was temporarily replenished in the far South Texas area from showers which hit most of the district last week. But rains still are needed.

The grain sorghum and peanut harvest in the area is about complete and 45 per cent of the valley's cotton crop is out. Cattle are still being fed.

Surface moisture is reported spotted along with a need for subsoil moisture in the Gulf Coast area. The northern counties in his area are suffering most from the lack of rain. But scattered showers in other areas are causing cotton to shed and increasing the threat from insects. Cotton harvest will be in full swing in two to three weeks.

Corn, grain sorghum, hay and vegetable harvest are continuing in the area. Rice is good and pastures have been revived where good rains have occurred. Livestock continues in good condition.

Showers in the western part of the Vernon district were very beneficial to crops and rangelands. But surface moisture is badly depleted in spots not hit by showers. Generally, cotton is making excellent progress with only light insect infestations. Early grain sorghum is being harvested with yields described as fair to good.

Cotton is making excellent growth and ranges are in only fair condition with more rain needed in several sections of the north Texas area. Livestock are in good shape.

All crops are making good growth in central West Texas with surface moisture fair to good except in Coke, Sterling and parts of Nolan counties. Ranges are greatly improved in the San Angelo, Eldorado, Menard and Mertzon areas. Grain sorghum harvest is in full-swing.

Far East Texas reported surface moisture good. Harvesting of watermelons and peas is about complete, and corn is said to be very good and cotton good. Pastures and cattle conditions are above normal.

The Panhandle District has made a remarkable recovery from the drought. All crops are reported in excellent condition; native pastures far above normal and prospects good for abundant crop yields and winter grass. The only sections reported as still dry includes Potter, Deaf Smith, Oldham and Moore counties.

The cotton harvest was in full-swing in the south part of the Gonzales district and the grain sorghum harvest is reported as near completion. Cotton in central and north counties of the district is suffering from continued dry weather. The watermelon harvest is complete except for spots and pecan outlook is for a spotted yield.

Ranges are dry over the entire district and drought is causing livestock to be marketed. Several herds of foundation cattle are being sold.

At Stephenville the hot dry weather has depleted moisture and only scattered showers have fallen in the district during the past several days. Grain sorghum harvest commenced in east half of district with good yields. Corn is maturing fast and though cotton is promising, dry weather is beginning to hurt and insect infestations are heavy.

All crops in the west half of the district are suffering from lack of rain. Peanuts were described as holding on while ranges and pastures are declining rapidly.

America Demands Prompt Compensation For Dead Citizens

WASHINGTON (AP)—The United States today demanded that Bulgaria pay "prompt and adequate" compensation for the loss of 12 Americans in the shooting down of an Israeli airliner by Bulgarian troops last Wednesday.

Bulgaria also was asked to take all necessary steps to prevent a recurrence, and punish all persons responsible for the incident in which a total of 58 persons died.

State Department press officer Henry Suydam said a note was sent to the U.S. embassy at Berne, Switzerland, to that effect. The Swiss represent U.S. interests in Bulgaria since the U.S. government does not recognize the Communist regime there.

Meeting Is Set For Chamber Ag Panel

The agriculture committee of the Chamber of Commerce will hold a meeting at 4 p.m. Tuesday in the chamber office to make final plans for the annual general farm tour here.

The committee's tour, which is scheduled for Aug. 25, will include viewing several phases of farming programs in an all-day event. Speaker during a noon barbecue will be Sterling Evans, president of the National Farm Loan Association.

The first such agricultural tour was held last year.

The panel, headed by Jake Hodges, will also discuss plans for a range tour to be held about a month following the farm tour.

Average Frenchman Is Not Sanforized

PARIS, July 30 (AP)—The average Frenchman shrinks about ¾ of an inch between dawn and dusk. Why? Fatigue, says Dr. Maurice Berdun of the Catholic Institute of Paris.

Berdun reported his conclusion to the 6th International Anatomical Congress here after intensive measuring of 300 of his countrymen between 18 and 35 years old. He also discovered that the average Frenchman is a shade under 5 feet 7 — in the morning. That's nearly 3 inches more than Napoleon could boast.

Shakespearean Show On Broadway in '56

STRATFORD, Ont., July 30 (AP)—The Canadian Stratford Festival Co., which puts on the annual Shakespearean summer festival here, will hit Broadway early next year.

A. M. Bell, president of the Stratford group, said the company will present two plays in New York. They are Christopher Marlowe's "Tamburlaine the Great," with British actor-director Anthony Quayle in the title role; and Sophocles' "Oedipus Rex." The plays to be directed by Tyrone Guthrie, are expected to open in January.

Vaccine Donation

MEXICO CITY, July 30 (AP)—Mexico's largest labor group, CTM, has ordered each member to contribute one peso (8 cents U.S.) to a fund to buy Salk anti-polio vaccine.

New Jewish Calendar

NEW YORK, July 30 (AP)—The 1955-56 Jewish Calendar and Handbook for Jewish GIs have been issued for distribution to troops around the world by the Jewish Welfare Board.

ENTERTAINS AT CO-OP FAIR—Mildred Stephens, Sylvester, was one of the senior division entertainers at the annual Mid-West Electric Co-Operative's businss meeting held Friday at Roby. Each entertainer was prsented a plaque for his performance at the day-long meeting. (Lee Watson photograph)

DISPLAYING A GUAR PLANT he pulled up from his field is M. L. (Woodrow) Wilson of Ira, who has a large acreage of the deep-rooted legume and was one of the first men in this area to harvest the crop for seed. One of the favorable characteristics of guar, Wilson said, is its ability to withstand dry weather for an extended period and then begin to grow and produce the beans when the moisture becomes available. (Lee Watson photograph)

4,000 Acres Of Guar Gives Agriculture 'New Look' Here

A deep-rooted legume called guar has given agricultural practices in this area a new look during the last two or three years.

Guar is being planted here in rotation with cotton, mostly planted two rows cotton, one blank, two guar, etc.

Numerous acres of the legume have been planted in the Upper Colorado Soil Conservation District, according to technicians of the Soil Conservation Service, who estimate that Scurry County alone has 4,000 acres of guar. Guar is being watched by a number of agriculturists interested in soil fertility.

Related to alfalfa, the clovers, and peanuts, guar's main contribution to the soil is nitrogen. But if it were planted with grain sorghum it could be left on the soil surface for stubble mulching to increase organic matter.

Guar seed is harvested with a combine. The seed ripens during the time the farmer is busy with his cotton, but guar seed offer the advantage of not shattering, so a person would not be forced to hurry into harvesting the guar crop.

Guar seed has a wide variety of uses. It goes into such diverse channels as manufacture of paper, base for ice cream and custards. It also goes into drilling mud. It is good feed for livestock, according to experiments conducted by at least one experiment station. When used as cattle feed, the seed is rolled and fed as protein supplement, with more than 25 per cent protein content.

"Guar is not a miracle crop, but is a legume well adapted to our climatic conditions," Jake Hodges, SCS work unit conservationist said, adding that the legume grows in an unright manner, and possibilities of it's being mixed with hegari or sweet sorghums for insilage are good. The guar seed are the same size as the two insilage crops and may be mixed and planted in the same drill from the same box.

George Vicary, who lives northeast of Hermleigh, said his guar land plowed much easier than did the rest of the land on his farm. Several similar reports have been made by others who raised guar. Reports are that a person can shift his tractor into a higher gear when he gets into guar land than the gear ordinarily used for plowing.

A big factor being watched here is the possibility of increased production on the crop following guar. Increased yields of cotton following guar in other areas has been as much as one-third more lint yield per acre.

Those with substantial acreages of guar this year are Houston Kimbrell, Woodrow Wilson, Wayne Eubanks, Sam Houston, L. L. Lewis, John Zalmon, Jr., R. H. Bonner, Jess B. Green, John R. Covey, J. W. Coffee, Walter Stirl, Rudy Kubena, J. R. Kincaid, Otis Firestone, T. J. Ellis, K. P. Lofton and Vicary.

Guar may be planted now as a soil building crop. It is not too late, conservationists say. Seed should be inoculated with the proper bacterial culture and five to seven pounds per acre planted.

Sheriff's Office Gets Catty Call

OMAHA, (AP)—It was near 100 degrees and the sheriff's office was handling calls on everything from a horse on the loose to people making too much noise.

Finally the deputies got a call they had to shunt aside.

The lady caller wanted a "ferocious feline" removed from her front yard. Earnestly, she pleaded she was afraid to let her dog out for air as long as "that cat" was around.

Turks Planning Tour

ISTANBUL, Turkey, July 30 (AP)—King Faisal II of Iraq and Crown Prince Abdul Ilah will visit several European countries this summer, arriving in Greece Aug. 6, newspapers here report. Faisal has been here since a five-day state visit to Turkey late in June. His itinerary will include Italy, France and Britain.

Stock Loan Program Of FFA Extended

The special livestock loan program of the U. S. Department of Agriculture has been extended for two years, or through July 14, 1957, according to an announcement made here by Joseph Box, county supervisor for the Farmers Home Administration.

Provision for the extension is in Public Law 166, which was signed by President Eisenhower July 15.

During the two years this credit service has been available through the FHA, 6,382 loans totaling more than $54 million have been made to livestock producers in the U.S. Texas livestock producers had 1,744 of those loans totaling $18 million.

After the extended date in 1957, additional advances may be made for a period of two years to borrowers who require additional time to make necessary credit adjustments and to repay the loans previously received.

Special livestock loans are made to established producers and feeders of cattle, sheep, and goats, except commercial feedlot operators, who are temporarily unable to get credit from regular sources to continue their normal operations.

To be eligible, an applicant must have good past records of livestock operatons and have reasonable prospects for success with aid of the loan.

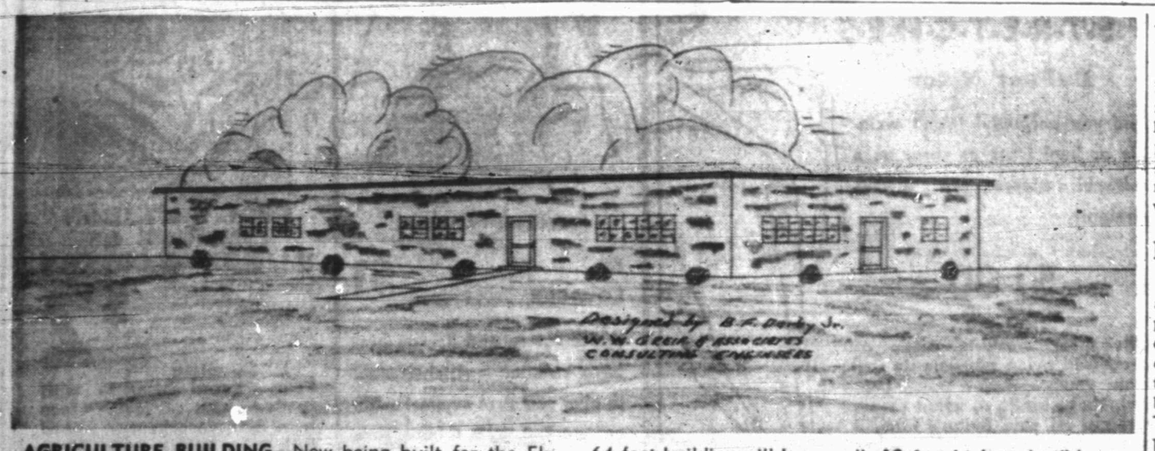

The loans are made to meet the usual expenses of livestock operations, such as the purchase or production of feed and replacing or repairing farm machinery. Loan also may be made for the restocking of herds to normal if the applicant can carry his present herd plus the additional livestock to be purchased, without buying a substantial portion of his feed. Loans are not made to pay existing debts except current incidental bills.

The loans are scheduled for repayment as soon as possible within a maximum period of three years. Other creditors are not asked to subordinate their liens but are expected to execute a standby agreement and to agree that a reasonable part of the applicant's normal income from livestock can be used in repaying the loan.

Applications for special livestock loans may be made at the county office of FHA at 2405 Avenue R here.

Fewer Young Chicks

WASHINGTON, July 30 (AP)—Young chickens raised on farms so far this year are estimated at 524,449,000, or 15 per cent less than last year, the Department of Agriculture reported. Commercial broiler production is not included in the estimate.

AGRICULTURE BUILDING—Now being built for the Fluvanna schools is an agriculture building, which will be southwest of the school's gymnasium. The $10,289 building will be of concrete block construction and will have a concrete slab floor and flat roof with two-foot overhang. The 28 by 64 foot building will have walls 12 feet high and will house a shop, classroom, tool room, and offic. E. L. Fikes of Snyder is the building contractor, and W. W. Greif & Associates are engineers.

No Red Fire Trucks

IPSWICH, England, July 30 (AP)—Fire engines of Ipswich and Suffolk no longer will be red. Officials have decreed that they shall be plain metal color because paint gets scratched off as the engines rub against overgrown hedges while speeding along country roads.

Railroad Agreement

NEW DELHI, July 30 (AP)—India and Pakistan have agreed to let passenger trains cross their borders starting in August. This would close a transport gap between the two parts of Pakistan—separated by about 1,000 miles of India.

Israeli Concession

NEW YORK, July 30 (AP)—The Israeli tourist Office has announced that U. S. citizens now may visit Israel without a visa.

Relief From Coercion Urged For Retail Service Stations

By CHARLES HASLET

WASHINGTON, July 30 (AP)—Recommendations for stronger anti-monopoly laws came this week out of a congressional investigation of alleged coercive and discriminatory practices against retail gasoline dealers by oil companies.

The filling station man operating under lease from an oil company "needs immediate and permanent relief to enable him to fulfill his role as an independent business man," a House Small Business subcommittee said in an interim report.

"The present laws, procedures and enforcement policies are inadequate to achieve effective and permanent relief," the report continued.

The subcommittee, headed by Rep. Roosevelt (D-Calif), conducted a series of hearings earlier this year at which some filling station operators complained of discriminatory and coercive practices on the part of oil company suppliers.

The subcommittee reported these other conclusions:

"1. A substantial proportion of all sales of refined gasoline of major oil companies to the general public is made through retail outlets where the dealer has a short term lease from the oil company supplier, usually for the year. The importance and the proportion of the total retail market serviced by such short term lessee dealers has been increasing.

"2. The dealer operating his station under a short term lease with the oil company supplier frequently is not in fact independent and is subject to control by the oil company supplier. The freedom of choice of the dealer with respect to the manner in which he operates his station is circumscribed by the economic power of his oil company supplier, whether or not such power is specifically exercised against him.

(Representatives of some oil companies testified such control is necessary to enable the companies to protect their investment).

"3. The short term leases and sales practices of major oil companies in relation to sponsored products have had the effect of operating against a dealer's freedom of choice in using or dealing in competitive products, and operate to substantially lessen competition and tend to eliminate price competition.

"4. Short term lessee dealers in many instances have been coerced or induced by their oil company suppliers into so-called price wars in an effort to secure the business enjoyed by the low-price, off-brand dealer."

The subcommittee recommended, in addition to a strengthening of antimonopoly laws:

(A) That oil company suppliers consider "the conversion of all leases with retail dealers who have a satisfactory record of operation for a year or longer, into leases with a minimum term of three years, as is presently being done by some oil companies."

(B) Granting a new or untried lessee dealer a probationary period of from six months to a year after which he would be offered a 3-year lease if the company desires to retain him as a dealer.

(C) Protecting the dealer during the probationary period by keeping his investment at a minimum and guaranteeing return of the investment in event the company does not wish to retain him as a lessee at the end of a probationary period.

The subcommittee also recommended that the record of its hearings be sent to the Justice Department's antitrust division and to the Federal Trade Commission for study whether "the deleterious practices" shown can be eliminated under existing laws.

Oil Well Drilling Is Booming in Texas

AUSTIN, July 30 (AP)—The booming business of oil well drilling brought in 376 new Texas wells this week. The year's total oil well completions soared to 8,684, compared with 6,966 a year ago, the Railroad Commission reported.

Operators completed 13 gas wells, and the year's total stood at 632, trailing 109 behind the year-ago figure.

The commission listed 122 dry holes, and the accumulative figure for the year reached 4,169, compared with 4,047 a year ago.

Wildcatting led to 14 of the 376 new oil wells, one gas well, and 79 of the dry holes.

Total average daily crude allowable as of today was 3,053,968 barrels, an increase of 12,728 barrels daily over last week.

Active Rigs Are Fewer

The number of active rotary rigs in the Permian Basin of West Texas and southeastern New Mexico has dropped below the 1954 pace for the first time this year.

A survey of activity in the area completed on July 25 showed 474 units in operation, compared to 482 on the same date in 1954. A survey made two weeks earlier showed 512 operations in the Basin.

Scurry and Coke Counties were tied for tenth place among the counties covered by the Reed Roller Bit Co. survey, each with 15 rotaries. Andrews was still the leader with 84 rotaries on July 25, a loss of five from the previous count. Lea County, New Mexico, was the second most active although its total dropped from 64 to 54.

A partial list of counties covered by the survey follows.

County	July 25	July 10
Borden	9	8
Coke	15	11
Crane	26	32
Dawson	7	10
Ector	27	28
Gaines	29	32
Garza	5	5
Howard	12	11
Kent	4	4
Midland	19	25
Mitchell	19	14
Nolan (west)	23	10
Scurry	15	18

Location Is Set In SMS-Canyon Field

Bright & Schiff of Dallas has filed application to drill the No. 4 H. L. Casey in the SMS-Canyon sand field of northwest Kent County.

Location has been made 330 feet from north and west lines of section 2, J. B. Ward survey No. 2. That is about 13 miles northwest of Clairemont. Rotary contract is to 6,200 feet.

OIL NEWS

The Snyder (Texas) Daily News, Sun., July 31, 1955 9

Iranian Oil Back On World Market Again

HOUSTON, July 23 (AP)—Iranian oil is returning to the world market at a rapid rate after three years of idleness.

Late figures for the Middle East country place crude oil production in excess of 300,000 barrels a day.

This represents recovery of nearly half the production rate lost during the 3½ years properties of Anglo-Iranian Oil Co. were nationalized.

Pproduction was averaging about 700,000 barrels a day in March, 1951, when the nationalization program was ordered. Daily output was less than 50,000 barrels last fall when the Shah of Iran approved an agreement that opened the way for resumption of operations.

A consortium of eight foreign companies has promised Iran crude exports the first three years of the agreement signed last fall will approximate 300,000, 460,000 and 600,000 barrels daily.

There was no commitment but the companies expressed hope refined products exports the three years will run 130,000, 210,000 and 260,000 barrels daily.

Under the agreement, Iran retains title to the properties. The eight companies serve as operators and buy oil from Iran for sale elsewhere.

Iran was the Middle East's top ranking oil producer of crude. Today she ranks fourth. Since 1950, Kuwait has increased its daily output from about 300,000 barrels to over 1,100,000, Saudi Arabia has jumped from 550,000 to 970,000, Iraq has climbed from about 140,000 barrels a day to about 700,000.

These figures comprise the major reason United States dominance of world crude production is declining.

In 1945, the United States produced over 68 per cent of the world's crude. In 1953 it was 48.7 per cent. It was 46.33 last year.

A recent survey by the Oil and Gas Journal indicates the United States had only 45.4 per cent of world production last April.

Despite the decline in Iran, production in the four middle eastern countries has nearly doubled the past five years.

New Field Is Opened For Runnels County

Caroline Hunt Sands No. 1 I. B. Zappe has been completed to open a new Morris sand field in central Runnels County three miles northwest of Ballinger.

Operator potentialed the discovery for a calculated 24-hour flowing potential of 384 barrels of oil through a quarter-inch choke and perforations from 3,892-900 feet. No other details have been learned. Potential was based on a 12-hour flow.

Location is 467 feet from south and 2,183 feet from west lines of section 169, ET survey.

Confirmation Tests Slated For Fisher

Sinclair and Texaco have announced plans to drill confirmation tests in Fisher County.

Sinclair's project will be the No. 1 Mary E. Young, a quarter of a mile west of production in the two-well Bernecker - Strawn lime field 10 miles west of Longworth. It will be drilled to 7,400 feet.

Location is 660 feet from south and east lines of 248-3-H&TC.

Texaco has filed application to drill the No. 2 Lillian C. Droke a quarter of a mile west of production in the two-well Droke-Caddo lime field 12 miles northeast of Rotan.

Location is 2,080 feet from south and 1,069 feet from west lines of 117-3-H&TC. Rotary contract is to 6,000 feet.

Fisherman Catches Sturgeon With Club

SAINT JOHN, N. B., July 30 (AP)—Walter Hudson landed a fourfoot sturgeon weighing more than 14 pounds while sitting on the porch of his house a quarter of a mile from the St. John River.

The big fish, wet and wriggling, fell near Hudson and he subdued it with a stick.

Best guess is that an eagle caught it but couldn't hang on. There were small claw marks in the tail.

Daniel Predicts Approval of Natural Gas Bill in 1956

WASHINGTON, July 30 (AP)—Sen. Daniel (D-Tex) today predicted that the natural gas bill, freeing producers of federal controls, will get Senate and presidential approval by Feb. 15 next year.

The House passed the bill Thursday 209 to 203 but the Senate will not act on it before adjournment.

Daniel said he was confident more than 50 senators would vote for the measure next session. He pointed out that a similar bill has been reported to the Senate floor.

"I look for Senator Johnson to return as majority leader in January and feel certain that he will call up the gas bill as one of the first orders of business," Daniel said in a statement.

"I believe it will be passed by the Senate and signed by the President before February 15 of next year."

The bill would remove present authority of the Federal Power Commission to fix producers' prices for gas sold to distributors in interstate commerce.

Its backers claimed it would encourage production and thus make more gas available at reasonable prices.

Opponents claimed it would raise prices.

Five Wildcats Plugged In West Texas

Five more West Texas wildcats have been plugged.

Brown & Thorp Oil Co. No. 1 J. M. Lewis, southwest Scurry County wildcat three and one-third miles southwest of Ira, was plugged at 3,290 feet in lime.

Site was 330 feet from north and east lines of northwest quarter of 104, 97-H&TC.

Blanco Oil Co. and others No. 1-28 C. C. Canon, an 8,380-foot failure 14½ miles east of Lamesa in east Dawson County, was drilled 660 feet from north and east lines of 28-33-t5n-T&P.

Skelly Oil Co. No. 1 M. L. Hendrix, southeast King County failure, was plugged at 6,098 feet in dolomite. It was 660 feet from northeast and 1,980 feet from northwest lines of 82-13-H&TC, 21½ miles southeast of Guthrie.

Skelly No. 1 W. C. Clerkler, wildcat three miles southeast of Roscoe in northwst Nolan County, was abandoned at 6,688 feet. Drillsite was 330 feet from north and 3,144 feet from east lines of 58-23-T&P.

Ultra Oil Co. No. 1 Ybarro, 14 miles north of Rotan in southwest Stonewall County, was quit at 5,672 feet. It was dug 1,650 feet from south and 990 feet from west lines of 174-1-H&TC.

Field Test Is Finaled

Woodson Oil Co. No. 2 E. G. Browning, Fluvanna-Strawn field test in northwest Scurry County, has been completed for a daily flow of 287.58 barrels of oil.

No water was present on the test. Gas-oil ratio was 472-1, with the flow through a 16-64th-inch choke. Gravity of the oil was 44.4 degrees. Pay was topped at 7,865 feet, with production through perforations at 7,876-880 feet. Those perforations were washed with 250 gallons of acid.

The new producer is 792.8 feet from east and 660 feet from north lines of 537-97-H&TC.

DRILLING ACTIVITY

Phillips No. 1-A Whatley, Scurry wildcat, is drilling in anhydrite and salt below 1,840 feet. Lomax No. 1 M. A. Fuller is drilling in lime below 1,536 feet.

Sun Oil No. 1 Flournoy is drilling in dolomite below 8,356 feet. Kewanee No. 1 Rogers is drilling in shale below 5,747 feet.

Howard, Lynn County Fields Are Extended

Established fields in Howard and Lynn Counties have been extended.

One mile west of the southwest portion of the Snyder field of southwest Howard County, C. D. Turner of Big Spring has completed a new producer at his No. 1 TXL. The well pumped 73 barrels of 31-gravity oil plus 35 per cent water daily from open hole at 2,588-628 feet. That zone had been fractured with 10,000 gallons.

The No. 1 TXL is 330 feet from south and east lines of 37-31-tls-T&P, seven and a half miles south of Coahoma.

Glorieta production in the PHD field of Lynn and Garza Counties has been extended half a mile west in northeast Lynn County with the completion of J. Paul Karcher and Manor Oil Co. of Midland No. 4 D. R. Payton.

It made 107.9 barrels of 37.5-gravity oil on the potential. Production is through perforations at 4,283-311 feet.

Lone Star Gas Men Attend Sales Meeting

Several men from the Lone Star Gas Co. compressor department last week attended a sales meeting held at Abilene.

About 150 men from this area attended the meeting, which had as principle speakers E. E. Stovall, T. J. Skrabanek, and Rubber Carpenter, all of Dallas.

From the compressor department at the meeting were W. A. Disheroon, superintendent, H. T. Harty, O. R. Brown, O. L. Bearden, A. M. Melton, G. W. Allmond, O. C. Brown, Mr. and Mrs. C. N. Jones, and P. M. Calhoun.

Going to the meeting from the pipeline department were Jesse Mayo, foreman, and Bill Engler and Bill Voss.

Oklahoma Is Getting Oil Production Back

PAWHUSKA, Okla., July 30 (AP)—Oklahoma's storied Osage-land, a huge and rolling expanse of cattle-grazing bluestem grass and black jack forest, is coming back strongly into the state's oil-producing picture.

It's being pushed there by the interest of petroleum operators in the discoveries of several rich new pools, made possible by improved methods of hunting and developing production, and in the comparative shallowness of the county's oil-bearing sands.

The 1,470,934 acres that are Osage County and whose mineral rights belong to the Indian nation of that name were the scene of one of the country's most fabulous oil booms in the early 1920's.

A decline in the county's oil activity has lasted nearly two decades.

The current revival dates to early 1948 with the advent of large scale water-flooding to increase the output of wells nearing depletion of their natural production energy.

About the same time sales of drilling leases were stimulated by development of the formation fracturing process, by which tight sands are forced to relinquish their oil. Success of this method has given the county approximately 25 producing horizons ranging from 250 to 3,800 feet deep.

Lured by low cost shallow drilling measured against fairly solid production prospects, the big companies are moving back into the field.

This was demonstrated last week at the Osage Indian Agency's quarterly lease sale.

Some 400 oil men representing major and independent companies and individual operators engaged in a nine-hour bidding battle. By the sale's end they had paid $2,388,600 for 388 tracts comprising 61,020 acres.

It was the largest total bonus paid for Osage drilling rights in 22 years. In all, 63 operators were successful bidders with two industry giants—Phillips Petroleum Co. and Continental Oil Co.—heading the list.

Phillips, besides offering $886,800 for 72 tracts, bid the highest for any single site—$87,000 for 160 acres near the Whitetail Pool, one of the county's newer and more prolific discoveries.

Estimated production for the fiscal year ended last June 30 was around 13,785,000 barrels. Osage County's estimated current daily average output is 41,700 barrels, about 38 per cent of it from water-flood operations.

The Osage tribe's mineral income last year reached $6,903,979, the peak of a steady climb since World War II. Observers estimate the latest lease sale will swell next December's "headright" payments to double June's $855.

"Headrights" are inheritable shares of the Indians' commonwealth. Since October, 1897, when oil first flowed in the county—all of it an Osage reservation except for four townsites—it has produced nearly 675 million barrels and slightly under 321 million dollars for the tribe.

LEGAL NOTICE

NOTICE OF ZONING HEARING

Notice is hereby given to all interested persons, as provided by law, that the City Council of the City of Snyder, Texas will hold a public hearing on the 15th day of August, 1955 at 7:30 p.m. in the City Hall, Snyder, Texas to consider whether the Zoning Ordinance and Zoning Map as recommended by the Planning and Zoning Commission shall be adopted. All interested persons will be given opportunity to be heard.

The Planning and Zoning Commission of the City of Snyder, Texas has heretofore submitted to the City Council a Zoning Ordinance and Zoning Map which proposes to regulate and restrict the location and use of buildings, structures, and land for trade, industry, residence, or other purposes; and to control the height, number of stories and size of buildings and other structures, the size of yards and other open spaces, and the density of population by dividing the municipality into such number, shape and areas as may be deemed best suited to carry out these regulations.

This notice was authorized by unanimous vote of the City Council to be published in the Snyder Daily News for one issue fifteen days prior to the date of such public hearing.

Witness my hand this the 30th day of July, 1955.

(s) Malven K. Stevenson
Malven K. Stevenson
Mayor

ATTEST:
(s) Charles E. Duckworth
Charles E. Duckworth
City Secretary

ZONING ORDINANCE

AN ORDINANCE TO REGULATE AND RESTRICT THE LOCATION AND USE OF BUILDINGS, STRUCTURES, AND LAND FOR TRADE, INDUSTRY, RESIDENCE, OR OTHER PURPOSES, THE HEIGHT, NUMBER OF STORIES, AND SIZE OF BUILDING AND OTHER STRUCTURES, THE SIZE OF YARDS AND OTHER OPEN SPACES, AND THE DENSITY OF POPULATION, AND FOR SAID PURPOSES TO DIVIDE THE MUNICIPALITY INTO DISTRICTS OF SUCH NUMBER, SHAPE AND AREA AS MAY BE DEEMED BEST SUITED TO CARRY OUT THESE REGULATIONS: TO PRESCRIBE PENALTIES FOR THE VIOLATION OF ITS PROVISIONS AND TO PROVIDE FOR ITS ENFORCEMENT.

WHEREAS, the City Council of the City of Snyder deems it necessary in order to lessen congestion on streets, to secure safety from fire, panic, and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provisions of transportation, water, sewerage, school, parks, and other public requirements; to conserve the value of property and encourage the most appropriate use of land throughout the city, all in accordance with a comprehensive plan; Now, therefore, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SNYDER, TEXAS.

SECTION 1. DEFINITIONS.

For the purpose of this ordinance certain terms and words are herewith defined as follows:

Words used in the present tense include the future; words in the singular number include the plural, and words in the plural number include the singular; the word "building" includes the word "structure" the word "shall" is mandatory, and not directory.

ACCESSORY BUILDING: A subordinate building or portion of main, building, the use of which is clearly incidental to that of the main building.

ALLEY: A way which affords only a secondary means of access to abutting property.

APARTMENT HOUSE. See Dwelling Multiple.

BASEMENT: A story partly underground and having at least one-half of its height above the average level of the adjoining ground. A basement shall be counted as a story if subdivided and used for dwelling or business purposes.

BOARDING HOUSE: A building other than a hotel where lodging and meals for five (5) or more persons are served for compensation.

BUILDING: A structure having a roof supported by columns or walls and when separated by a division wall without openings each portion of such building shall be deemed a separate building, except as provided in Section 18.

BUILDING, HEIGHT OF: The vertical distance measured from the curb level to the highest point of the roof surface, if a flat roof; to the deck line of mansard roof; and to the mean height level between eaves and ridge for a gable, hip or gambrel roof, provided, however, that where building are set back from the street line, the height of the building may be measured from the average elevation of the finished grade along the front of the building.

BUSINESS: Includes the Commercial, Light Industrial and Heavy Industrial Uses and Districts as herein defined.

CELLAR: A story having more than one-half of its height below the average level of the adjoining ground. A cellar shall not be counted as a story for the purposes of height measurement.

COURT: An open unoccupied space other than a yard, on the same lot with a building and which is bounded on two (2) or more sides by the building.

CURB LEVEL: The level of the established curb in front of the building measured at the center of such front. Where no curb has been established, the City Engineer shall establish such curb or its equivalent for the purpose of this ordinance.

DWELLING, ONE-FAMILY: A detached building designed for or occupied exclusively by one (1) family.

DWELLING, TWO-FAMILY: A building designed for or occupied exclusively by two (2) families, living independently of each other.

DWELLING MULTIPLE: A building or portion thereof, used or designed as a residence for three (3) or more families as separate housekeeping units, including apartments and apartment hotels.

FAMILY: One (1) or more persons occuping a premises and living as a single housekeeping unit, as distinguished from a group occuping a boarding house, lodging house, hotel, club, fraternity, or sorority house.

FRONTAGE: All the property abutting on one (1) side of a street between two (2) intersecting streets, measured along the street line.

GARAGE, PRIVATE: An accessory building with capacity for not more than four (4) self-propelled vehicles for storage only. Provided, however, a private garage may exceed a four (4) vehicle capacity if the lot whereon such a garage is located contains not less than fifteen hundred (1500) square feet for each vehicle stored.

GARAGE STORAGE: A building or portion thereof, other than a private garage used exclusively for parking or temporary storage of self-propelled vehicles.

GARAGE, PUBLIC: A building other than a private or storage garage used for the care, repair, or equipment of self-propelled vehicles or where such vehicles are kept for remuneration, hire or sale.

GROUP HOUSES: A group of detached or semi-detached dwelling facing upon a place as herein defined.

HOTEL: A building occupied as the more or less temporary abiding place of individuals who are lodged with or without meals and in which there are more than fifteen (15) sleeping rooms usually occupied singly and no provision made for cooking in any individual room or apartment.

HOUSE TRAILER: A none-self-propelled vehicle containing living or sleeping accommodations which is designed or used for highway travel.

LODGING HOUSE: A building other than a hotel where lodging for five (5) or more persons is provided for compensation.

LOT OF RECORD: A lot which is a part of a subdivision, the map of which has been recorded in the office of the County Clerk of Scurry County.

LOT: Land occupied or to be occupied by a building and its accessory building, together with such open spaces as are required under this ordinance, and having its principal frontage upon a street or officially approved place.

CORNER LOT: A lot situated at the junction of two (2) or more streets, and having a width not greater than seventy-five (75) feet.

INTERIOR LOT: A lot other than a corner lot.

THROUGH LOT: A lot having frontage on two parallel or approximately parallel streets.

LOT LINES: The lines bounding a lot as defined herein.

NON-CONFORMING USE. A building or land occupied by a use that does not conform with the regulations of the use district in which it is situated.

PARKING AREA, SEMI-PUBLIC: An open area other than a street, alley or place, used for temporary parking of more than four (4) self-propelled vehicles as an accessory use to semi-public institutions, schools, churches, hospitals, and non-commercial clubs.

PARKING AREA, PUBLIC: An open area other than a street, alley or place, used for the temporary parking of more than four (4) self-propelled vehicles and available for public use whether free, for compensation or as an accommodation for clients or customers.

PLACE: An open unoccupied space other than street or alley permanently reserved as the principal means of access to abutting property.

SERVANTS' QUARTERS: An accessory building located on the same lot or grounds with the main building, and used as living quarters for servants employed on the premises and not rented or otherwise used as a separate domicile.

STORY: That portion of a building included between the surface of any floor and the surface of the floor next above it, or if there be no floor above it, then the space between such floor and the ceiling above it.

STORY, HALF: A Story under a gable, hip or gambrel roof, the wall plates of which on at least two (2) opposite exterior walls are not more than two (2) feet above the floor of such story.

STREET: A public or private thoroughfare which affords principal means of access to abutting property.

STRUCTURE: Anything constructed or erected, the use of which requires location on the ground or that it be attached to something having a location on the ground.

STRUCTURAL ALTERATIONS: Any change in the supporting members of a building, such as bearing walls, columns, beams or girders.

TOURIST CAMP: A group of attached or detached buildings containing individual sleeping or living units for overnight tourists, with garage attached or parking facilities conveniently located to each such unit.

USED CAR SALES AREA: An open area other than a street, alley, or place, used for the display and sale of used automobiles and where no repair work is done except the necessary reconditioning of the cars to be displayed and sold on the premises.

USED CAR JUNK AREA: An open area other than a street, alley or place, used for the dismantling or wrecking of used automobiles or the storage, sale or dumping of dismantled or wrecked cars or their parts.

YARD: An open space other than a court, on the same lot with a building, unoccupied and unobstructed from the ground upward, except as otherwise provided herein.

FRONT YARD: A yard extending across the front of the lot between the inner side yard lines and measured between:

(a) the front line of the lot and front line of the building, and

(b) the front line of the lot and the nearest line of any open porch or paved terrace.

REAR YARD: A yard extending across the full width of the lot and measured between the rear line of the lot and the rear line of the main building.

SIDE YARD: A yard between the building and the other side of the lot and extending from the street line to the rear yard.

SECTION 2. DISTRICTS

In order to regulate and restrict the location of trades and industries and the location of buildings erected or altered for specified uses, and to regulate and limit the height and bulk of the buildings hereafter erected or altered, to regulate and determine the area of yards and other open spaces, and to regulate and limit the density of population, the City of Snyder is hereby divided into districts of which there shall be six (6) known as:

"R-1" One-Family District.
"R-2" Two Family District.
"R-3" Apartment District.
"C-1" Neighborhood Commercial.
"C-2" Business District.
"M-1" Industrial District.

The districts aforesaid and the boundaries of such districts are shown upon the map attached hereto and made a part of this ordinance, being designated as the "District Map" and said map and all the notations, references and other information shown thereon shall be as much as a part of this ordinance as if the matters and information set forth by said map were all fully described herein.

Except as hereinafter provided:

First: No building shall be erected, reconstructed or structurally altered, nor shall any building or land be used for any purpose other than is permitted in the district in which such building or land is located.

Second: No building shall be erected, reconstructed or structurally altered to exceed the height or bulk limit herein established for the district in which such building is located.

Third: No lot area shall be so reduced or diminished that the yards or other open spaces shall be smaller than prescribed by this ordinance, nor shall the density of population be increased in any manner except in conformity with the area regulations herein established.

Fourth: No yard or other open space provided about any building for the purpose of complying with the provisions of these regulations shall be considered as providing a yard or open space for any other building, provided further that no yard or open space on an adjoining property shall be considered as providing a yard or open space on a lot whereon a building is to be erected.

Fifth: Every building hereafter erected shall be located on a lot as herein defined and in no case shall there be more than one (1) building on one (1) lot, except as hereinafter provided.

SECTION 3. USE REGULATIONS:

"R-2" ONE-FAMILY DISTRICT:

In the "R-1" One-Family District, no building or land shall be used and no building shall be hereafter erected or structurally altered, unless otherwise provided in this ordinance, except for one or more of the following uses:

1. One-Family Dwellings.
2. Churches.
3. Schools, elementary and high.
4. Museums, libraries, parks, playgrounds or community centers owned and operated by the City of Snyder or Scurry County.
5. Buildings for hospitalization and care of minor children on land now owned and operated for such purposes by philanthropic institutions.
6. Accessory buildings, including one detached private garage or servants' quarters, when located not less than sixty (60) feet from the front lot line, nor less than five (5) feet from any other street line, provided, however, that servants' quarters may be erected above private detached garages. A private garage may be constructed as a part of the main building or attached to it by a covered passage, but servants' quarters shall not be permitted on such attached garage.
7. Uses customarily incident to any of the above uses when situated in the same dwelling, including home occupation such as the office of physician, surgeon, or dentist.
8. Name plates not exceeding one (1) square foot in area, containing the name and occupation of the occupant of the premises, and signs not exceeding twelve (12) square feet in area appertaining to the sale or rental of property on which they are located, provided, however, that no name plate, nor advertising sign of any other character shall be permitted in any One-Family District.
9. A transitional use for dwellings only, may be permitted where the side of a lot in the "R-1" One-Family District abuts upon a lot zoned for business purposes.
10. Pump Stations, Fire Station, or other city installations.

SECTION 4. USE REGULATIONS

"R-2" TWO-FAMILY DISTRICT:

In the "R-2" Two-Family District, no building or land shall be used and no building shall be hereafter erected or structurally altered, unless otherwise provided in this ordinance, except for one or more of the following uses:

1. Any use permitted in the "R-1" One-Family District.
2. Two-Family Dwellings.
3. Accessory buildings, including one (1) detached private garage or servants' quarters, when located not less than sixty (60) feet from the front lot line, nor less than five (5) feet from any other street line, provided, however, that servants' quarters may be erected above private detached garages. A private garage may be constructed as a part of the main building or attached to it by a covered passage, but servants' quarters shall not be permitted on such attached garage.
4. Uses customarily incident to any of the above uses when situated in the same dwelling, including home occupation such as the office of doctors, except veterinary, dentist or artist.
5. Name plates not exceeding one (1) square foot in area containing the name and occupation of the occupant of the premises, and signs not exceeding twelve (12) square feet in area appertaining to the sale or rental of property on which they are located, provided, however, that no name plate, nor advertising sign of any other character shall be permitted in any Two-Family District.
6. A transitional use for dwellings only, may be permitted where the side of a lot in the "R-2" Two-Family District abuts upon a lot zoned for business purposes.

SECTION 5. HEIGHT AND AREA REGULATIONS FOR R-1 and R-2 DISTRICTS.

In the "R-1" One-Family and "R-2" Two-Family Districts, the height of buildings, the minimum dimensions of yards and the minimum lot area per family shall be as follows:

HEIGHT: No building hereafter erected or structurally altered shall exceed two and one-half (2½) stories or thirty-five (35) feet.

REAR YARD: There shall be a rear yard having a depth of not less than twenty (20) per cent of the depth of the lot, provided such rear yard need not exceed twenty-five (25) feet from the centerline of the alley.

SIDE YARD: On interior lots there shall be a side yard on each side of a building having a width of not less than (10) per cent of the width of the lot, provided that such side yard may not be less than five (5) feet in width.

On corner lots the side yard regulation shall be the same as for interior lots except in the case of reversed frontage where the corner lot faces an intersecting street. In this case, there shall be a side yard on the street side of the corner lot of not less than fifty (50) per cent of the front yard required on the lots in the rear of such corner lot, and no accessory building on said corner lot shall project beyond the front yard line on the lots in the rear; provided, further that this regulation shall not be so interpreted as to reduce the buildable width, after providing the required interior side yard, of a corner lot facing an intersecting street and of record at the time of the passage of this ordinance to less than twenty-eight (28) feet, nor to prohibit the erection of an accessory building where this regulation cannot reasonably be complied with.

FRONT YARD: There shall be a front yard of not less than twenty-five (25) feet to the front line of the building.

LOT AREA PER FAMILY: In the "R-1" One-Family District every building hereafter erected or structurally altered shall provide a lot area of not less than six thousand (6000) square feet per family, and a minimum lot frontage of 50 feet.

In the "R-2" Two-Family District the lot area per family requirements for single family dwellings shall be the same as in the "R-1" One-Family District and every two-family dwelling hereafter erected or structurally altered shall provide a lot area of not less than three thousand (3000) square feet per family, and a minimum lot frontage of 50 feet.

Provided, however, that where a lot has less area than herein required and was of record at the time of the passage of this ordinance, said lot may be occupied by not more than one family.

SECTION 6. "R-3" APARTMENT DISTRICTS:

In the "R-3" Apartment District, no buildings or land shall be used and no buildings shall be hereafter erected or structurally altered, unless otherwise provided in this ordinance, except for one or more of the following uses:

1. Any use permitted in the "R-2" Two-Family District.
2. Multiple Dwellings.
3. Boarding and lodging houses.
4. Hotels in which incidental business may be conducted for the sole convenience of the occupants of the building, provided, however, there shall be no entrance to such place of business except from the inside of the building.
5. Private clubs, fraternities, sororities, and lodges, excepting those the chief activity of which is a service customarily carried on as a business.
6. Institutions of an educational or philanthropic nature, other than those of a correctional nature, or for mental cases.
7. Accessory buildings and uses customarily incident to any of the above uses, when located on the same lot and not involving the conduct of a business, including private and detached storage garages and servants' quarters when located not less than sixty (60) feet from the front lot line nor less than five (5) feet from any other street line. Private or storage garages constructed as a part of the main building, or servants' quarters erected above private detached garages.
8. Name plates not exceeding two (2) square feet in area containing the name and occupation of the occupant of the premises, and signs not exceeding twelve (12) square feet in area appertaining to the sale or rental of property on which they are located, provided, however, that no name plate, nor advertising sign of any other character shall be permitted in any "R-3" Apartment District.

SECTION 7. HEIGHT AND AREA REGULATIONS:

"R-3" APARTMENT DISTRICT:

In the "R-3" Apartment District the height of buildings, the minimum dimensions of yards and the minimum lot area per family shall be as follows:

HEIGHT: No building hereafter erected or structurally altered shall exceed five (5) stories or sixty (60) feet.

REAR YARD: There shall be a rear yard having a depth of not less than twenty (20) per cent of the depth of the lot, provided such rear yard need not exceed twenty-five (25) feet for interior lots nor fifteen (15) feet for corner lots.

SIDE YARD: For buildings not exceeding two and one-half (2½) stories in height, the side yard requirements shall be the same as required in the "R-1" One-Family District. For buildings more than two and one-half (2½) stories in height, each side yard shall be increased one (1) foot in width for each additional story above the second floor.

On corner lots the side yard regulations shall be the same as for interior lots except in the case of reversed frontage where the corner lot faces an intersecting street. In this case, there shall be a side yard on the street side of the corner lot of not less than fifty (50) per cent of the front yard required on the lots in the rear of such corner lot, and no accessory building on said corner lot shall project beyond the front yard line on the lots in the rear; provided, further, that this regulation shall not be so interpreted as to reduce the buildable width, after providing the required interior side yard, of a corner lot facing an intersecting street and of record at the time of passage of this ordinance, nor to prohibit the erection of an accessory building where this regulation cannot reasonably be complied with.

FRONT YARD: There shall be a front yard of not less than twenty-five (25) feet to the front line of the building.

LOT AREA PER FAMILY: Every building hereafter erected or structurally altered shall provide a lot area of not less than four thousand (4000) square feet for one family, five thousand (5000) square feet for two families, and an additional five hundred (500) square feet for each family in excess of two families, provided, however, these regulations shall not apply to hotels or apartment hotels where no cooking is done in any individual room, suite or apartment. The minimum lot frontage shall be 50 feet.

SECTION 8. "C-1" NEIGHBORHOOD COMMERCIAL DISTRICT:

USE REGULATIONS: In the Neighborhood Commercial District no land shall be used and no building shall be used, erected, or converted to any use other than:

1. Any use permitted in the Residence Use Districts.
2. Automatic Laundry
3. Bakery, retail only
4. Bank and office
5. Cafeteria
6. Commercial billboard or advertising signs
7. Cleaning and Pressing shops
8. Drug Store
9. "Fix-it" shops, not exceeding 400 square feet in area
10. Florist shops
11. Gasoline filling stations, but not including major auto repair work
12. Grocery Store
13. Ice Delivery Station
14. Meat Market
15. Moving picture theater (not drive-in)
16. Restaurants
17. Retail store or shop for custom work or the making of articles to be sold at retail on the premises only.
18. Shoe repair
19. Tailor
20. Washateria
21. Any other retail use provided such use is not noxious or offensive by reason of the emmission of ordors, soot, dust, noise, gas fumes, or vibration but excluding such uses as are enumerated in the Business or Industrial Districts.
22. Motels — Tourist Courts

No other use shall be permitted and none of these stores or uses shall be open for business before 7 A.M. nor after 12 P.M. on any day of the week, except by a special permit of the City Council.

Height and Area Regulations

In the Neighborhood Commercial District, the height of building, the minimum dimensions of yards and minimum lot area per family shall be as follows; provided, however, that buildings erected or structurally altered and used exclusively for dwelling purposes shall comply with the front, side and rear yard regulations of the R-1 and R-2 Residence Use District.

HEIGHT: No building hereafter erected or structurally altered shall exceed two and one-half (2½) stories or thirty-five (35) feet.

FRONT YARD: There shall be a front yard, or set-back, of not less than twenty-five (25) feet to the front line of the building.

SIDE YARD: No side yard shall be required for any commercial building constructed on an interior lot zoned Commercial if adjoining lots on both sides are zoned Commercial or a less restricted use. If provided, it shall be not less than three (3) feet.

REAR YARD: There shall be a rear yard having a depth of not less than twenty-five (25) feet from center of alley or if no alley fifteen (15) feet from property line.

PARKING REQUIREMENTS: In the Neighborhood Commercial District any commercial building that is erected shall provide one parking space for each four hundred (400) square feet of ground floor space and one parking space for each one thousand (1000) square feet of floor space above the first floor.

In the Neighborhood Commercial District commercial buildings shall also provide offstreet facilities for the loading and unloading of merchandise and goods within the building or adjacent to a public alley to facilitate the movement of traffic on streets.

SECTION 9. "C-2" BUSINESS DISTRICT

Use Regulations: In the Business District no land shall be used and no building shall be used, erected or converted to any use other than:

1. Any use permitted in the Neighborhood Commercial District
2. Auto repair garage
3. Automobile truck and bus service and repairs
4. Baggage, transfer, storage and warehouse
5. Cabinet maker
6. Carpenter shop
7. Carpet cleaning if dust proof rooms and dust catching washing, and scouring equipment is provided.
8. Ice Manufacture
9. Lumber yard (building materials)
10. Motorcycle repairing
11. Paint shop
12. Penal or correctional institution for the care of insane, liquor or narcotic patients, feebleminded.
13. Sheet, metal shop
14. Stone monument works, retail only
15. Storage warehouse
16. Taxicab storage and repair
17. Used car lot
18. Hospitals and clinics except veterinary hospitals and clinics
19. Drive-in Theatres
20. Trailer Courts
21. Any other retail or wholesale use, provided such use is not noxious or offense by reason of emmission of odors, soot, dust, noise or vibrations, but excluding such uses as are enumerated in the Industrial District.

SECTION 10. "C-2" HEIGHT AND AREA REGULATIONS

BUSINESS DISTRICT: In the Business District the height and size of buildings shall be as follows; provided, however, that buildings erected or structurally altered and used exclusively for dwelling purposes shall comply with the front, side and rear yard, and lot area per family regulations of the R-1 and R-2 Residence Use Districts.

HEIGHT: No building hereafter erected or structurally altered shall exceed a height at the street line of two (2) times the width of the street, but above the height permitted at the street line four (4) feet may be added to the height of the building for each one (1) foot that the building or portion thereof is set back from the street line.

FRONT YARD: No front yard required.

SIDE YARD: No side yard required except on that side of a lot abutting upon the side of a lot zoned for dwelling purposes in which case there shall be a side yard of not less than five (5) feet.

REAR YARD: No rear yard required.

SECTION 11. "M-1" INDUSTRIAL DISTRICT

USE REGULATIONS: In the Industrial District, no land shall be used and no building shall be erected for or converted to any use other than:

1. Any Use permitted in the Business District
2. Any manufacturing or industrial process not prohibited by any other law, provided, however, that no building or occupancy permit shall be issued for any of the following uses until and unless the location of such use shall have been approved by the City Council.
1. Acid manufacture
2. Cement, lime (gypsum or plaster of paris manufacture)
3. Distillation of bones
4. Explosive, manufacture or storage
5. Fat rendering
6. Fertilizer manufacture
7. Garbage, offal or dead animal reduction or dumping
8. Gas manufacture
9. Glue manufacture
10. Petroleum refining
11. Smelting of tin, copper, zinc, or iron ores
12. Stock yards, or slaughter of animals
13. Tannery
14. Storage of bailing of rags, paper, iron or junk
15. Used car dismantling yard

Accessory buildings and uses

16. Oil well drilling
17. Cotton Gins

SECTION 12. "M-1" HEIGHT AND AREA REGULATIONS

INDUSTRIAL DISTRICT: In the Industrial District, the height of buildings, the minimum dimensions of yards and the minimum lot area per family shall be as follows; provided, however, that buildings erected or structurally altered and used exclusively for dwelling purposes shall comply with the front, side and rear yard regulations of the Residence Use Districts.

HEIGHT: No building hereafter erected or structurally altered shall exceed a height equal to twice the width of the widest street on which said building is located; and in no case shall the height be greater than ten (10) stories or one hundred twenty (120) feet. (except it may be increased by special permit of the Council)

FRONT YARD: No front yard required.

SIDE YARD: No side yard required, but if provided it shall not be less than three (3) feet, and except on that side of the lot abutting upon the side of a lot zoned for dwelling purposes in which case there shall be a side yard of not less than five (5) feet.

REAR YARD: No rear yard required.

SECTION 13. NON-CONFORMING BUILDINGS AND USES

The lawful use of any building, structure or land existing at the time of the enactment of this ordiaance may be continued although such use does not conform with the provisions of this ordinance provided, however, the right to continue such non-conforming uses shall be subject to regulations prohibiting the creation of a nuisance and shall terminate when inappropriate use of the premises produces a condition which constitutes a nuisance and further, the right of non-conforming uses to continue shall be subject to such regulations as the maintenance of the premises and conditions of operations as may in the judgment of the Board of Adjustment be reasonably required for protection of adjacent property and further, the right of non-conforming uses to continue shall be subject to the specific regulations herein contained.

NON - CONFORMING BUILDINGS:

Occupancy permitted. A non-conforming building or structure may be occupied except as herein otherwise provided.

Repairs or alterations. Repairs and alterations may be made to a non-conforming building or structure, provided that no structural alteration shall be made except those required by law or ordinance, and further provided these regulations shall never be construed to allow an addition to a non-conforming building.

ADDITIONS, ENLARGEMENTS, MOVING:

A non-conforming building or structure shall not be added to or enlarged in any manner unless such addition and enlargements are made to conform to all the requirements of the district in which such building or structure is located.

No non-conforming building or structure shall be moved in whole or in part to any other location on the lot, or on any other lot, unless every portion of such building or structure is made to conform to all the regulations of the district.

Restoration of damaged buildings: A non-conforming building or structure which is damaged or partially destroyed by fire, flo ', wind, explosion, earthquake, or other calamity or act of God, shall not be again restored or used for such purpose if the expense of such restoration exceeds 75 per cent of the replacement cost of the building or structure at the time such damage occurred. Any non-conforming building or structure partially destroyed may be restored within twelve 12 months of the date of partial destruction and is diligently prosecuted to completion. Whenever a non-conforming building or structure is damaged in excess of 75 per cent of its replacement cost at that time, the repair or reconstruction of such building or structure shall conform to all the regulations of the districts in which it is located, and it shall be treated as a new building.

NON-CONFORMING USES OF BUILDINGS:

Continuation. Except as otherwise provided in this ordinance the non-conforming use of the building or structure lawfully existing at the time of the effective date of this ordinance, may be continued.

The use of a non-conforming building or structure may be changed to use of the same, or more restricted classification, but where the use of a non-conforming building or structure is hereafter changed to a use of a more restricted classification, it shall not thereafter be changed to a use of less restricted classification.

A vacant, non-conforming building or structure lawfully constructed may be occupied by use for which the building or structure was designated or intended, if so occupied within a period of one year after the effective date of this ordinance, and the use of a non-conforming building or structure lawfully constructed which becomes vacant after the effective date of this ordinance, may also be occupied by the use for which the building or structure was designated or intended, if so occupied within a period of one year after the building becomes vacant.

Expansion prohibited. A non-conforming use of a conforming building or structure (i.e., commercial use in a dwelling, etc.) shall not be expanded or extended into any other portion of such conforming building or structure, nor changed except to a conforming use. If such non-conforming use or portion thereof is discontinued or changed to a conforming use, any future use of such building, structure, or portion thereof shall be in conformity with the regulations of the district in which such building or structure is located.

Extension. A non-conforming use shall not be extended, but the extension of a lawful use to any portion of a lawfully existing non-conforming building or structure which existed prior to the enactment of this ordinance shall not be deemed the extension of such non-conforming use.

NON-CONFORMING USE OF LAND:

Continuation of use. The non-conforming use of land (where no main building is involved), existing at the time of the effective date of this ordinance, may be continued provided;

That No such non-conforming use of land shall in any way be expanded or extended either on the same or adjoining property.

That if such non-conforming use of land or any portion thereof is discontinued or changed, any future use of such land or portion thereof, shall be in conformity with the provisions of this ordinance.

That any sign, billboard, poster panel, storage yard, or trailer camp, which is lawfully existing and maintained at the time of the effective date of this ordinance, may be continued, although such use does not conform with the provisions hereof, provided however, that no structural alterations are to be made thereto.

ABANDONMENT.

A non-conforming use of any building, structure or land which has been abandoned shall not thereafter be returned to such non-conforming use. A non-conforming use shall be considered abandoned:

When the intention of the owner to discontinue the use is apparent, or,

When the characteristic equipment and furnishings of the non-conforming use have been removed from the premises and have not been replaced by similar equipment within one year, or,

When a non-conforming building, structure or land or portion thereof which is or hereafter becomes vacant and remains unoccupied or out of use for a continuous period of one year, or,

When it has changed to another use under permit from the Board of Adjustment, or,

When it has been replaced by a conforming use.

DISPLACEMENT.

No non-conforming use shall be extended to displace a conforming use.

VISION CLEARNACE:

On any lot on which a front yard is required by this ordinance, no wall, fence, or other structure shall be erected and no hedge, tree, shrub or other growth or structure of any kind shall be maintained in such location within such required front yard so as to obstruct the view. Any fence, wall, hedge, shrubbery, etc., higher than a base line extending from a point 2½ feet above walk grade at the walk to a point 4½ feet above walk grade at the depth of front yard required is hereby declared to be an obstruction to view, except single trees having a single trunk which are pruned to a height of seven ft. above walk grade.

DISTRICT CHANGES.

Whenever the boundaries of a zoning district shall be changed so as to transfer an area from one district to another district of a different classification or when boundaries or districts are changed as a result of annexation of new territory or changes in the regulations or restrictions of this ordinance the foregoing provisions shall also apply to any non-conforming uses existing therein which may so become non-conforming.

SECTION 14. HEIGHT AND AREA EXCEPTIONS.

The foregoing requirements in the height and area districts shall be subject to the following exceptions and regulations:

HEIGHT: (a) in the thirty-five (35) and sixty (60) foot height districts, public or semi-public buildings, hospitals, sanitariums, or schools may be erected to a height not exceeding seventy-five (75) feet when the front side and rear yards are increased an additional foot for each foot such buildings exceed thirty-five (35) and sixty (60) feet, respectively, in height.

(b) One-Family dwellings in the thirty-five (35) foot height districts may be increased in height by not more than ten (10) feet when two (2) side yards of not less than fifteen (15) feet each are provided. Such dwelling, however, shall not exceed three (3) stories in height.

(c) Chimneys, water towers, penthouses, scenery lofts, sugar refineries, monuments, cupolas, domes, spires, standpipes, false mansards, parapet walls, similar structures and necessary mechanical appurtances may be erected as to their height in accordinance with existing or hereafter adopted ordinances of the City of Snyder.

(d) On through lots one hundred and fifty (150) feet or less in depth the height of a building may be measured from the curb level on either street. On through lots more than one hundred and fifty (150) feet in depth the height regulations and basis of height measurements for the street permitting the greater height shall apply to a depth of not more than one hundred and fifty (150) feet from that street.

AREA: (e) For the purpose of side yard regulations the following dwellings with common party walls shall be considered as one (1) building, occupying one (1) lot: semi-detached two - family and four-family dwellings and row houses not more than two (2) rooms deep.

(f) In the case of a court apartment, side yards may be used as rear yards provided that:

(1) The required side yard shall be increased by one (1) foot for each entrance or exit opening into or served by such side yard.

(2) The width of the place or court shall not be less than three (3) times the width of the side yard as required in this provision, provided that open, unenclosed porches may project into the required place or court not more than twenty (20) per cent of the width of such place or court.

(3) here a roadway is provided in the place or court the width allowed for such roadway shall be in addition to that required above.

(4) All other requirements including front, side and rear yards shall be complied with in accordance with the district in which such court apartments are located.

(g) the front and side yard requirements for dwellings shall be waived where dwellings are erected above stores.

(h) In computing the depth of a rear yard, for any building where such yard opens onto any alley, one-half (½) of such alley may be assumed to be a portion of the rear yard.

(i) An accessory building, may occupy not more than thirty (30) per cent of a required rear yard, provided, however, in the case of reversed frontage no accessory building shall be erected closer than five (5) feet to the line of abutting lot to the rear.

(j) Every part of a required yard or court shall be open from its lowest point to the sky unobstructed, except for the ordinary projection of sills, belt courses, cornices, buttresses, ornamental features and eaves; provided however, that none of the above projections shall extend into a court more than six (6) inches nor into a minimum side yard more than twenty-four (24) inches.

(k) No cornices shall project over the street line more than five (5) percent of the width of such street, and shall in no case project more than four (4) feet.

(l) Open or enclosed fire escapes, fireproof outside stairways and balconies projecting into a yard or court not more than three and one-half (3½) feet, and the ordinary projections of chimneys and flues may be permitted by the Building Inspector where same are so placed as not to obstruct the light and ventilation.

SECTION 15. PARKING FACILITIES FOR BUILDINGS HEREAFTER ERECTED.

Facilities for the parking of motor passenger vehicles for the use of the occupants of one or two family dwellings shall be provided and maintained on the premises occupied by such dwellings or in a community garage in the same block on the basis of one motor vehicle for each dwelling unit. Facilities for the parking of motor passenger vehicles for the use of occupants of apartments shall be provided and maintained either on the premises occupied by such apartments or within 500 feet thereof. Such parking facilities shall provide space for one motor vehicle for each two family units in such apartments. The driveway area shall not be considered as parking area. For each structure or part thereof principally used as a theatre, auditorium or other similar place of public assembly there shall be provided and maintained accessible off-street parking space for the storage of motor passenger vehicles on the basis of one motor vehicle for each 15 seats of the total audience seating capacity of the building, structure or part thereof, and located on the same lot with such building or within 500 feet thereof.

On the same premises with every building, structure or part thereof, erected and occupied for manufacturing, storage, warehouse, goods display, department store, wholesale store, market, hotel, hospital, mortuary, laundry, dry cleaning, or other uses similarly involving the receipt or distribution by vehicles, or materials or merchandise, there shall be provided and maintained on the lot, adequate space for standing, loading, and unloading services in order to avoid undue interference with public use of the streets or alleys.

SECTION 16. ZONING BOARD OF ADJUSTMENT

PROVISIONS FOR:

There is hereby created a Zoning Board of Adjustment shall be appointed for a term of two years and removable for cause by the City Council upon written charges and after public hearing. Vacancies shall be filled by appointment by the City Council of a suitable person to serve out the unexpired term of any member whose place on the Board has become vacant for any cause.

The person acting as Planning Engineer for the City of Snyder

LEGAL NOTICE

shall be an ex-officio member of the Zoning Board of Adjustment without power of vote and as an ex-officio member of such Board shall act as Secretary of the Zoning Board of Adjustment and shall set up and maintain a separate file for each application for appeal, special exception and variance received and shall record therein the names and addresses of all persons, firms and corporations to whom notices are mailed, including the date of mailing and the person by whom such notices were delivered to the mailing clerk. Post Office or mail box and further keep a record of all notices published as required herein. All records and files herein provided for shall be permanent and official files and records of the City of Snyder.

The Board shall adopt rules to govern its proceedings, provided, however, that such rules are not inconsistent with this ordinance.

Meetings of the Board of Adjustment shall be held at the call of the Chairman and at such other times as the Board may determine. All meetings of the Board shall be open to the public.

The Board shall keep Minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions and every decision of the Board of Adjustment shall be in writing and shall contain a full record of the findings of the Board in each case, all of which shall be immediately filed in the office of the Board and shall be a public record.

The Secretary of the Board of Adjustment, shall forthwith notify in writing the City Council, the Planning and Zoning Commission and the City Building Inspector of each decision, interpretation, special exception and variance granted under the provisions of this ordinance.

The Chairman, or in his absence, the acting Chairman, may administer oaths or compel the attendance of witnesses.

POWERS

The Zoning Board of Adjustment may hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by an administrative official in the enforcement of this ordinance and may also decide any questions involving the interpretation of any of the provisions of this ordinance including determination of the location of any district boundary, if there is uncertainty in respect thereto.

The Zoning Board of Adjustment may, in approrpriate cases and subject to approrpriate conditions and safeguards, make special exceptions to the terms of this ordinance in harmony with its general purpose and intent and in accordance with the general and specific rules herein contained.

The Zoning Board of Adjustment may authorize, upon appeal, in specific cases such variance from the terms of this ordinance as will not be contrary to the public interest, where, owing to such condition, a literal enforcement of the provisions of this ordinance will result in unnecessary hardship, and so that the spirit of this ordinance shall be observed and substantial justice done.

PROCEDURE COVERING SPECIAL EXCEPTIONS, APPEALS AND GRANTING OF VARIANCES.

APPEALS AND VARIANCES.

Appeals and requests for variances to the Board of Adjustment may be taken by any person aggrieved or by any officer, department, board or bureau of the City of Snyder affected by any decision of the administrative officer. Such appeal or request for variance shall be taken within fifteen (15) days time after the decision has been rendered by the administrative officer, by filing with the officer from whom the appeal is taken and with the Secretary of the Board of Adjustment a notice of appeal specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith have made to the Secretary of the Board all the papers constituting the record upon which the action appealed from was taken.

Such notice of appeal properly filed as herein provided, shall stay all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the Board of Adjustment after the notice of appeal shall have been filed with him that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board of Adjustment or by a Court of record on application on notice to the officer from whom the appeal is taken and on due cause shown.

Upon notice of appeal being given to the Secretary of the Board of Adjustment, before such appeal shall be construed as having been perfected the applicant must file with such notice of appeal to the Secretary of the Board of Adjustment, and amount of money estimated by the Secretary of the Board to be sufficient to mail and publish all notices required herein, such amount in no case to be less than $15.00.

SPECIAL EXCEPTIONS

Application for special exceptions to the terms of this ordinance shall be made in writing in duplicate on forms provided in the office of the Secretary of the Board of Adjustment by the prospective occupant and or owner of the property. One such application shall be accompanied by an amount of money estimated by the Secretary of the Board to be suffifient to mail and publish all notices required herein, such amount in no case to be less than $15.00.

One duplicate original of such application shall be forthwith forwarded by the Secretary of the Board of Adjustment to the office of the City Building Inspector.

NOTICE

The Zoning Board of Adjustment shall hold a public hearing on all special exceptions, granting of variances and appeals and written notice of all such public hearings shall be sent by the Secretary of the Board on forms prepared by the City Attorney's Office to the applicant and all other persons deemed by the Board to be affected thereby, and all owners of real property lying within two hundred (200') feet of the property on which the special exception, grant of variance or appeal is proposed, such notice to be given not less than ten (10) days before the date set for hearing to all such owners who have rendered their said property for City taxes as the ownership appears on the last approved City tax roll. Such notice may be served by depositing the same properly addressed and postage paid in the City Post Ofice. Notice shall also be given by publishing the same in a newspaper of general circulation in the City of Snyder at least fifteen (15) days prior to the date set for hearing which notice shall state the time and place of such hearing, provided however, all provisions contained herein with respect to the mailing and publishing of notices of hearing shall be deemed sufficient upon substantial compliance with this section, and is to be construed as directory and not mandatory.

THE HEARING

Upon the hearing any interested party may appear in person or by agent or by attorney.

The burden of proof shall be on the applicant to establish the facts necessary which the Zoning Board of Adjustment must find before granting any special exception, variance or appeal as herein contained.

In exercising the powers herein granted, the Board may in conformity with the provisions of this ordinance reverse or affirm wholly or partly or may modify the order, requirement, decision or determination appealed from and may make such other requirement, decision or determination as ought to be made and to that end shall have all the powers of the officer from whom the appeal is taken.

The concurring vote of four (4) members of the Board shall be necessary to reverse any order, requirement, decision or determination of any such administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under this ordinance or to effect any variation of thiis ordinance or grant any special exception hereto.

No appeal, request or application to the Board of Adjustment shall be allowed on the same piece of property prior to the expiration of six (6) months from a ruling of the Board of Adjustment on any appeal, request or application to such body unless other property abutting or adjoining such property shall have within such six (6) months period been altered or changed by a ruling of the Board of Adjustment, in which case such change of circumstances shall permit the allowance of an appeal request or application but shall in no wise have any force in law to compel the Board of Adjustment, after a hearing, to grant such subsequent appeal, request or application but such hearing shall be considered on its merits as in all other cases.

Any special exceptions, variances or appeals authorized or granted by the Board of Adjustment either under the provisions of this ordinance or under the authority granted to the Board of Adjustment under the statutes of the State of Texas shall authorize the issuance of a building permit, or a certificate of occupancy, as the case may be, for a period of ninety (90) days from the date of the favorable action on the part of the Board of Adjustment, unless said Board of Adjustment in its minutes shall, at the same time, grant a longer period. If the building permit and/or certificate of occupancy shall not have been issued within said ninety (90) day period, or such extended period as the Board may specifically grant, then the special exception variance or favorable appeal shall be deemed waived and all rights thereunder terminated. Such terminating and waiver shall be without prejudice to a subsequent appeal to said board in accordance with the rules and regulations herein contained.

EXCEPTIONS AND VARIANCES DISTINGUISHED

A special exception is a permission given by the Board properly authorized by this ordinance in specific cases for an applicant to use his property in a manner contrary to the provisions of this ordinance provided such use subserves the general welfare and preserves the community interest.

A variance on the other hand, is an authorization by the Board granting relief and doing substantial justice in the use of the applicant's property by a property owner where, owing to special conditions a literal enforcement of the provisions of the ordinance will result in unnecessary hardship.

SPECIAL EXCEPTIONS

A special exception may be granted an applicant when the Board of Adjustment finds:

That the granting of such exception will not be injurious or otherwise detrimental to the public health, safety, morals and the general welfare of the general public, and;

That the granting of such exception will not be detrimental or injurious to the property or improvements in such zone or neighborhood in which the property is located, and;

That the granting of such exception will be in harmony with the general purpose and intent of this ordinance.

In determining its finding, the Board shall take into account the character and use of adjoining buildings and those in the vicinity, the number of persons residing or working in such building or upon such land and traffic conditions in the vicinity.

The Board of Adjustment may, after public notice and hearing and subject to the conditions and safeguards herein contained, authorize special exceptions to this ordinance as follows:

Permit the reconstruction of a building occupied as a non-conforming use.

Permit the extension of a non-conforming use of a building upon a lot occupied as a non-conforming use.

Grant in relatively undeveloped sections of the City temporary and conditional permits for not more than two (2) year periods for any use of land, excluding structures.

Permit the use of a lot or lots in any dwelling district adjacent to any other district, even if separated therefrom by an alley or by a street, for the parking of passenger cars under such safeguards and conditions of the more restricted property, provided no other business use is made of such lot or lots.

Permit in any district such modification of the requirements of this ordinance as the Board may deem necessary to secure an appropriate development of a lot where adjacent to such lot on two or more sides there are buildings that do not conform to these regulations.

Permit such modification of a yard, lot area or lot width regulation requirements as may be necessary to secure appropriate improvement of a parcel of land where such parcel was separately owned on the effective date of this ordinance, and is not adjacent to another parcel of the same ownership and where such parcel is of such size that it cannot be improved without such modification or of such restricted area that it cannot be appropriately improved without such modification.

Grant conditional use permits in any zone where such uses are allowed conditionally by the provisions of this ordinance.

In granting any special exception under the provisions of this ordinance the Board may designate such conditions in connection therewith which, in its opinion, will secure substantailly the purpose and intent of this ordinance.

VARIANCES

A variance may be granted an applicant when the Board of Adjustment finds:

That there are special circumstances or conditions applying to the land or building for which the variance is sought, which circumstances or conditions are peculiar to such land or buildnig and do not apply generally to lands or buildings in the same zone or neighborhood, and that said circumstances or conditions are such that the strict application of the provisions of this ordinance would deprive the applicant of the reasonanble use of such land or building.

That the granting of such variance will not be detrimental to the public welfare or injurious to the property or improvements in such zone or neighborhood in which the property is located, and;

That the granting of the variance is necessary for the reasonable use of the land or building and that the variance as granted by the Board is the minimum variance that will accomplish this purpose.

That the literal enforcement and strict application of the provisions of this ordinance will result in an unnecessary hardship inconsistent with the general provisions and intent of this ordinance and that in granting such variance the spirit of the ordinance will be preserved and substantial justice done.

In addition to considering the character and use of adjoining buildings and those in the vicinity, the Board, in determining its findings shall take into account the number of persons residing or working in such buildings or upon such land and traffic conditions in the vicinity.

The Board of Adjustment may, after public notice and hearing and subject to the conditions and safeguards herein contained, vary or adapt the strict application of any of the terms of this ordinance under the powers and authority herein granted.

In granting any variance under the provisions of this ordinance, the Board may designate such conditions in connection therewith which, in its opinion, will secure substantially the purpose and intent of this ordinance.

APPEAL, FROM ZONING BOARD OF ADJUSTMENT (as provided by Article 1011G RCS 1925)

Any person or persons, jointly or severally aggrieved by any decision of the Board of Adjustment, or any taxpayer, or any officer, department, board or bureau of the municipality, may present to a court of record a petition, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within 10 days after the filing of the decision in the office of the Board.

Upon the presentation of such petition the court may allow a writ of certiorari directed to the Board of Adjustment to review such decision of the Board of Adjustment and shall prescribe therein the time within which a return thereto must be made and served upon the realtor's attorney, which shall not be less than 10 days and may be extended by the Court. The allowance of the writ shall not stay proceedings upon the decision appealed from, but the court may, on application, or notice to the Board and on due cause shown, grant a restraining order.

The Board of Adjustment shall not be required to return the original papers acting upon by it, but it shall be sufficient to return certified or sworn copies thereof or of such portions thereof as may be called for by such writ. The return shall coricisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified.

If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take such evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

Costs shall not be allowed against the Board unless it shall appear to the Court that it acted with gross negligence, or in bad faith, or with malice in making the decision appealed from.

All issues in any proceedings under this section shall have preference over all other civil actions and proceedings.

SECTION 17. ENFORCEMENT AND ADMINISTRATION

ADMINISTRATIVE OFFICIALS.

Except as otherwise provided in this ordinance the Building Inspector for the City of Snyder shall administer and enforce this ordinance, including the receiving of applications, the inspection of premises and the issuing of building permits and certificates of occupancy and compliance. No building permit or certificate of occupancy shall be issued by him except where the provisions of this ordinance have been complied with.

BUILDING PERMIT REQUIRED.

No person shall erect or construct or proceed with the erection or construction of any building or structure nor add to, enlarge, move, improve, alter, repair, convert, extend or demolish any building or structure or cause the same to be done in any zone district of the City of Snyder without first applying for and obtaining a building permit therefor from the Building Inspector. All applications for such permits shall be in accordance with the requirements of this ordinance and building code of the City of Snyder and unless upon written order of the Board of Adjustment, no such building permit or certificate of occupancy shall be issued for any building where said construction, addition, alteration or use thereof would be in violation of any of the provisions of this ordinance.

POWERS AND DUTIES OF BUILDING INSPECTOR.

Whenever any building work is being done contrary to the provisions of this ordinance, the Building Inspector may order the work stopped and also revoke the building permit theretofore issued by notice in writing served on any person owning such property or their agent or on any person engaged in the doing or causing of such work to be done and any such persons shall forthwith stop and cause to be stopped such work until authorized by the Building Inspector to recommence and proceed with the work or upon issuance of a building permit in those cases in which the building permit has been revoked and further, such stop work order and revocation of permit shall be posted on the work being done in violation of this ordinance.

Whenever any building or portion thereof is being used or occupied contrary to the provisions of this ordinance the Building Inspector shall order such use or occupancy discontinued and the building or portion thereof vacated by notice served on any person using or causing such use or occupancy to be continued and such person shall vacate such building or portion thereof within 10 days after receipt of such notice or make the building or portion thereof comply with the requirements of this ordinance.

IN NEWLY ANNEXED TERRITORY.

No person shall erect, excavate, construct, or proceed or continue with the erection or construction of any building or structure or add to, enlarge, move, improve, alter, repair, convert, insulate or extend or demolish any building or structure or cause the same to be done in any newly annexed territory to the City of Snyder without first applying for and obtaining a building permit therefor from the Building Inspector or the City Council as may be required herewith.

PERMITS ISSUED BY BUILDING INSPECTOR.

In a territory newly annexed to the City of Snyder, no permit for the construction of a building shall be issued by the Building Inspector other than a permit which will allow the construction of a building permitted in the "A" District unless and until such territory has been classified in a zoning district other than "A" District by the City Council in the manner prescribed in this ordinance.

PERMITS ISSUED BY CITY COUNCIL.

An application for a permit for any other use than that specified in the previous paragraph shall be made to the Building Inspector of the City of Snyder and by him referred to the City Planning and Zoning Commission for consideration and recommendation to the City Council. Whenever such recommendation is filed with the City Council by the City Planning and Zoning Commission, such recommendation shall be advisory in its nature and the Council shall be at liberty to affirm it or allow such construction as the facts in their opinion may justify.

PERMITS REQUIRED FOR BUILDINGS UNDER CONSTRUCTION.

The owner, lessee, or any other person, firm or corporation owning, controlling, constructing, supervising or directing the construction of any building or structure in process of construction and which is incomplete at the time the land upon which it is situated is annexed to the City of Snyder before proceeding any further with the construction, alteration or completion thereof shall apply to the Building Inspector of the City of Snyder authorizing further work on said building or structure and shall attach to said application for such permit, plans and specifications relating to the construction of said building or structure, which said application for building permit shall be promptly referred to the City Planning and Zoning Commission for consideration and said Commission shall promptly thereafter file with the City Council its recommendation as to granting, modifying or rejecting said permit, the said recommendation to be advisory in its nature and the City Countil shall be at liberty to affirm it or allow such construction as the facts in their opinion may justify. Said construction work shall be suspended until the permit provided for herein has been issued or until final zoning regulations have been adopted, which permit the construction, use and occupancy of the structure or building.

CERTIFICATE OF OCCUPANCY AND COMPLIANCE.

No land shall be occupied or used and no building hereafter erected, altered, or extended shall be used or changed in use until a certificate of occupancy and compliance shall have been issued by the Building Inspector of the City of Snyder stating that the building or proposed use thereof complies with the provisions of this ordinance.

No non-conforming use shall be maintained, renewed, changed or extended without certificate of occupancy and compliance having first been issued by the Building Inspector of the City of Snyder therefor.

Application for a certificate of occupancy and compliance shall be made with the application for a building permit or may be directly applied for where no building permit is necessary and shall be issued or refused in writing within 5 days after the City Building Inspector has been notified in writing that the building or premises is ready for occupancy.

The Building Inspector shall maintain a record of all certificates and copies shall be furnished upon request to any person having a proprietary or tenancy interest in the building affected.

No permit for excavation for or the erection or alteration of or repairs to any building shall be issued until an application has been made for a certificate of occupancy and compliance.

No permanent water, sewer, electrical or gas utility connections shall be made to the land building or structure until and after a certificate of occupancy and compliance has been issued by the Building Inspector of the City of Snyder.

Upon request of the owner or authorized representative, the Building Inspector may issue a temporary certificate of occupancy for the temporary use and occupancy of a portion of a building prior to the completion and occupancy of the entire building provided such temporary occupancy or use will not in any way or manner jeopardize life or property.

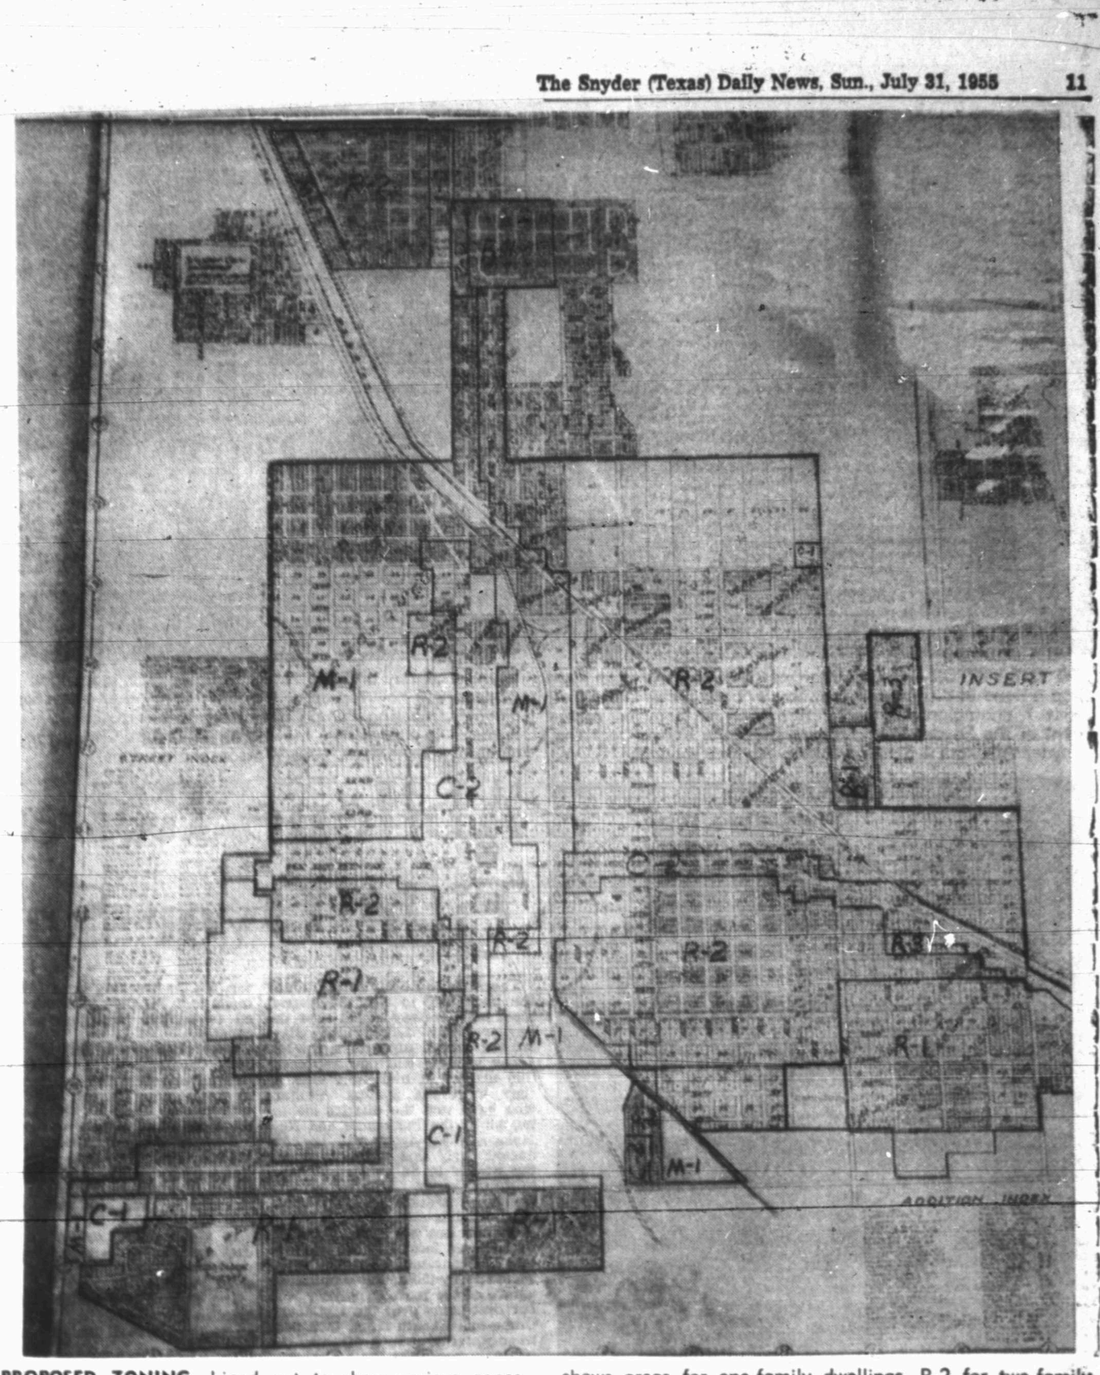

SECTION 18. BOUNDARIES OF DISTRICTS.

Where uncertainty exists with respect to the boundaries of the various districts, as shown on the map accompanying and made a part of this ordinance, the following rules shall apply:

(a) The district boundaries are either streets or alleys unless otherwise shown and where the districts designated on the map accompanying and made a part of this ordinance are bounded approximately by street or alley lines, said street or alley shall be construed to be the boundary of such district.

(b) Where the district boundaries are not otherwise indicated and where the property has been or may hereafter be divided into blocks and lots, the district boundaries shall be construed to be lot lines, and where the districts designated on the map accompanying and made a part of this ordinance are founded approximately by lot lines, said lot line shall be construed to be the boundary of such districts unless said boundaries are otherwise indicated on the map.

(c) In unsubdivided property the district boundary lines on the map accompanying and made a part of this ordinance shall be determined by use of the scale contained on such map.

PROPOSED ZONING—Lined out to show various zones, this is a map prepared on proposed zoning of the city. R-1 shows areas for one-family dwellings, R-2 for two-family dwellings, R-3 for apartment areas, C-1 neighborhood commercial areas, C-2 business district, and M-1 industrial

LEGAL NOTICE

SECTION 19. INTERPRETATION, PURPOSE AND CONFLICT.

In interpreting and applying the provisions of this ordinance, they shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity or general welfare. It is not intended by this ordinance to interfere with or abrogate or annul any easements, covenants or other agreements between parties, provided, however that where this ordinance imposes a greater restriction upon the use of buildings or premises or upon height of building, or requires larger open spaces than are imposed or required by other ordinances, rules, regulations or by easements, covenants or agreements, the provisions of this ordinance shall govern.

SECTION 20. CHANGES AND AMENDMENTS.

COUNCIL MAY AMEND.

The City Council may from time to time by ordinance amend, supplement, change, modify or repeal the boundaries of the district of the regulations herein established. Before taking any such action, the City Council shall submit the same to the Zoning and Planning Commission for its recommendation and Report.

Upon submission of any proposed change in classification, the applicant will be required to deposit with the Secretary of the Zoning and Planning Commission an amount of money estimated by the Secretary of the Commission to be sufficient to mail and publish all notices before both the Zoning and Planning Commission and the City Council required by law, such amount in no event to be less than Fifty Dollars ($50.00).

PROCEDURES BEFORE THE PLANNING AND ZONING COMMISSION.

The Zoning Commission shall hold a public hearing on all proposed changes in classification and written notices of all such public hearings shall be sent by the Secretary of the Zoning and Planning Commission on forms prepared by the City Attorney's office to all owners of real property lying within 200 feet of the property on which the change in classification is proposed, such notices to be given, not less than 10 days before the day set for hearing to all such owners who have rendered their said property for City taxes as the ownership appears on the last approved City tax roll. Such notice may be served by depositing the same, properly addressed and postage paid, in the City Post Office. Where property lying within 200 feet of the property proposed to be changed is located in territory which was annexed to the City after the final date for making renditions which are included on the last approved City Tax roll, notice to such owners shall be given by publication on forms provided by the City Attorney's office by publishing the same once in a newspaper of general circulation in the City of Snyder at least 15 days prior to the date set for hearing, which notice shall state the time and place of such hearing.

After such hearing, the Zoning and Planning Commission may, within its discretion, make one of the following recommendations in connection with each proposed change in zoning classification:

Recommend against the change in zoning.

Recommend a change in zoning.

Recommend a change in zoning for such area together with its recommendations as to requirements for the paving of streets, alleys and sidewalks, means of ingress and egress to the public streets, provisions for drainage, parking spaces and street layouts and protective screening and open spaces and any other requirements, which, within the discretion of the Zoning and Planning Commission, will protect adjacent property and secure substantially the purpose and intent of the Zoning Ordinance.

Each such recommendation made by the Zoning and Planning Commission shall be by the Secretary of said commission reported to the City Council in writing and the applicant notified of the action of the Zoning and Planning Commission.

The Secretary of the Zoning and Planning Commission shall set up and maintain a separate file for each application received and shall record therein the names and addresses of all persons, firms and corporations to whom notices are mailed, including the date of mailing and the persons by whom such notices were delivered to the mailing clerk, Post Office, or mail box, and all records and files therein provided shall be permanent and official files of the City of Snyder.

PROCEDURE BEFORE CITY COUNCIL

A public hearing shall be held by the City Council before adopting any proposed amendment, supplement or change, at which parties in interest and citizens shall have an opportunity to be heard. At least 15 days notice of the time and place of such hearing shall be published once in a newspaper of general circulation in the City of Snyder; and after receiving the recommendation of the Planning and Zoning Commission that the zone district be changed, or upon written request to the City Secretary by the applicant when a recommendation has been made against such change in zoning district, the City Secretary-Treasurer is hereby authorized and directed to publish such notices on forms prepared by the City Attorney's office and set the date for hearing before the City Council at the earliest practical time, consistent with the time necessary for giving such notices as provided by law.

When the Zoning and Planning Commission has recommended a change in zoning together with recommendations as to requirements as provided in this section, the City Council shall be at liberty to either accept, reject or make other or additional requirements, and any such requirements, in the discretion of the City Council to be made, shall become a part of the ordinance changing the zoning classification of such property, and such requirements shall be considered as an amendment to the Zoning Ordinance is applicable to such property. Such requirements shall not be considered conditions precedent to the granting of the change in zoning or the granting of building permits on such property, but shall be construed as conditions precedent to the granting of a certificate of occupancy and compliance, and such requirements shall be complied with before a certificate of occupancy and compliance may be issued by the Building Inspector for the use or occupancy of the building, land or structure on such property.

In case the Zoning and Planning Commission has recommended against a proposed amendment, supplement, change or modification, or, of a protest against such change, signed by the owners of 20 per cent or more either of the area of the lots included in such property change or of those immediately adjacent in the rear thereof extending 200 feet therefrom, or of those directly opposite thereto extending 200 feet from the street frontage of such opposite lots, such amendment shall not become effective except by the favorable vote of five-sixths of all the City Council.

SECTION 21. PENALTIES FOR VIOLATIONS.

Any person, firm or corporation who shall violate any of the provisions of this ordinance or who shall fail to comply with any of the provisions of this ordinance or who shall build, alter or occupy any building, structure or land in violation of any statement or plan submitted and approved hereunder shall be guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not to exceed two hundred dollars ($200.00). Each day such violation is committed or permitted to continue, shall constitute a separate offense, and shall be punishable as such hereunder.

The owner or owners of any building or property or part thereof where anything in violation of this ordinance shall be placed or shall exist and any architect, building contractor, agent, attorney, person, firm or corporation employed in connection therewith and who have assisted in the commission of such violation, shall be guilty of a separate offense, and upon conviction thereof, shall be fined in any amount not to exceed two hundred dollars ($200.00).

In addition to the remedies provided for in this ordinance, the Building Inspector may, in case any buildings or structures are erected, constructed, reconstructed, altered, repaired, converted or maintained, or any building structure or land is used in violation of this ordinance, institute on behalf of the City of Snyder any appropriate action or proceedings to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use, to restrain, correct or abate such violation, to prevent the occupancy of said building, structure or land, or to prevent any illegal act, conduct business or use in or about such premises.

SECTION 22.

By the passage of this ordinance no presently illegal use shall be deemed to have been legalized, unless specifically such use falls within a use district where the actual use is a conforming use. Otherwise such uses shall remain non-conforming uses, where recognized, or an illegal use, as the case may be.

SECTION 23. SEPARABILITY.

If any section, subsection, sentence, clause, phrase, or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision and such holding shall not affect the remaining portions hereof.

TO THE VICTOR—Freddie Martinez, Abilene shortstop who had a hand in dishing out four Snyder outs, receives the district 7 championship trophy from Forrest Beavers, president of the Snyder Pony League, after the Rebels beat the Snyder All-Stars 4-3 Friday night. Abilene manager, G. W. Poyner, center, and the rest of the Abilene team look on. Abilene will now represent this district in other post-season playoffs, meeting Pampa next week in bi-district play, and if they win that series, moving on to Corpus Christi for the regional tournament. (Lee Watson photographs)

AND TO THE LOSER—The Snyder Pony League All-Stars watch as Johnny Griggs, All-Star pitcher, receives the runner-up trophy from Forrest Beavers, local league president, after they lost their second game to the Abilene Rebels, Friday night. The local team garnered seven hits to their rival's four, and made only three errors to Abilene's five, but were unable to gather the necessary runs. The game marked the end of the local Pony League action for the year. Jeston Corbell, center, was the All-Star manager, assisted by J. W. Coffee and C. L. Corbell, Jr.

Abilene Rebels Win District Title Over Snyder All-Stars

The Abilene Rebels came around the back way to win the district meet here as they edged over the Snyder Pony League All-Stars for the second night in a row 4-3.

The winners will now represent this district in bi-district play as they meet the Pampa All-Stars who have won the district including all of the Panhandle and New Mexico. The playoffs will be conducted early this week to enable the winner to be decided in time to go to Corpus Christi by Sunday for the five-state regional meet, local officials said.

Abilene lost her first game to Sweetwater forcing her to move into the consolation bracket made necessary by the double-elimination nature of the tourney. Snyder won her first game over the McCamey, Crane and Rankin team, then beat Sweetwater to gain a place in the finals.

Abilene then beat Sweetwater to eliminate her and took Snyder both in the same night, to necessitate Friday night's extra game, since both teams had lost one game each.

Snyder took the first score in the game when Gail Courtney took advantage of two errors by the Abilene third baseman to move to first then go home. He was tagged out as he attempted to steal third, but the ball was knocked wild in the collision, and Courtney went home.

John Garner, Abilene left fielder, tied the score in the bottom of the second when he singled and came in on an error.

Snyder again pulled ahead in the top of the fourth when Courtney singled, stole second and scored on Kenneth Drake's single to make it 2-1 for Snyder.

But it was the bottom of the fourth when Abilene caught fire and took over. Garner got on by a shortstop's error and George Lewis got hit by a pitched ball. Bobby Austin, running for Garner, rounded third when Larry Wilson beat out a single. Barry Walker, Snyder first baseman, attempted to cut him off by throwing to Neil Boyd at third but he made it home. Then when Boyd's throw back to Walker went wild, Lewis moved in for the tie-breaking run. Wilson made it in for the score that proved to be the big game-winning counter.

The sides were retired when John Choate, a pinch hitter who had advanced to third, attempted to steal home, but lost the race with pitcher Dick Hayes who left the mound and tagged him out.

Pat Armstrong took the win for Abilene, giving up five hits and walking none while fanning seven. Hayes was charged with the loss. He allowed four hits and walked two, striking out 10.

In a post-game ceremony, the first and second - place trophies were presented to the teams in a short ceremony.

The winner of the eight - team meet in Corpus Christi will move on to the national finals in Washington, Pa.

Snyder All-Stars 010 110 0—3-7-3
Abilene All-Stars 010 300 x—4-4-5

THE GAME-TYING RUN, ALMOST — Neil Boyd, Snyder third baseman, tries to steal home in the top of the seventh inning, but instead of tying the game, he made the last out of the tournament. With two men out, he had scampered to first when the catcher dropped his third strike, stolen second and third, and then attempted to move home when he was thrown out.

UNCONVENTIONAL, BUT EFFECTIVE—Dick Hayes, Snyder All-Star pitcher, leaves the mound and races toward Johnny Choate as he attempts to steal home on a squeeze play. Rather than risk throwing the ball to give the batter a chance to bunt, Hayes kept the ball and tagged the runner out as he neared the plate. This out stopped a three-run, game-winning rally by Abilene in the fourth inning.

SPORTS

5 To Coaches' School From Snyder Staff

Five Snyder school coaches were to leave early this morning for San Antonio, where they will attend the 23rd annual Texas High School Coaches Association coaching school.

Going from Snyder are those who will be assistant football coaches this season. They are Hal Battle, line coach; Horrace Bostick, backfield coach; Jack Dillon, B team coach; J. P. Ward, freshman coach; and James Amos, eighth grade coach.

Official starting time for the big event is 7:45 a.m. Monday, but facilities are set up at the Gunter Hotel to start registering coaches at 1 p.m. Sunday.

The coaching school faculty lists some of the outstanding men in the business today. For the man who wants to specialize in football instruction, there'll be lectures and demonstrations by such prominent gridiron chiefs as Bud Wilkinson of the University of Oklahoma; George Sauer of Baylor and two of his assistants, Sam Boyd and Jack Russell; Darrell Royal and Wade Walker of Mississippi State, and Hugh Daugherty, head coach at Michigan State.

Basketball classes will be under the supervision of Phil Wollpert, University of San Francisco coach whose Dons were ranked No. 1 team of the nation by The Associated Press last season and who went on to win the NCAA title, and Milton Jowers from nearby Southwest Texas State College.

Other faculty members will include Alex Hooks of Southern Methodist lecturing on baseball; Clyde Littlefield, University of Texas track coach, and Elmer Brown, Texas Christian University athletic trainer.

High school stars of last season who have since graduated will clash in a North vs. South basketball game Thursday night and football all-stars will tangle on the same regional basis Friday night.

Sauer, Boyd and Russell will coach the South team, which will use the conventional T formation, and Royal and Walker will coach the North, which will favor the split T.

Jowers will coach the South All-Star basketball team. The north's coach will be Woolpert.

Abilene's Bob Pascal This Week's Leader Of WTNW Batting

By The Associated Press

The hottest batting race around here is that of the West Texas-New Mexico League, which has changed leaders three times in three weeks.

This week it's Bob Pascal of Abilene, who is hitting .400 and has replaced Paul Flores of Clovis. Flores fell from .402 down to .394.

The previous leader, Bobby Fernandez of Lubbock, is in second place with .394.

Fernandez is the top individual leader. He has the most hits with 156, is tied with I. B. Palmer of Plainview in total bases with 254 and sets the pace in doubles with 39.

Joe Fortin of Pampa has the most runs with 97 and the most homers with 30.

Bob Scott of Lubbock tops in triples with eight.

Eddie Bockman of Albuquerque has driven in the most runs—110.

No other league has the base stealers of the West Texas-New Mexico. Two men—Osmond Walker of Abilene and Alex Gonzales of El Paso—have thefted 51 apiece.

In pitching Jack Martin and Ted Shandor, both of Albuquerque, are tied for the most victories with 16 each. Jack Venable of Pampa tops in strikeouts with 153.

Clovis and Pampa are tied for the lead in club batting with .309, while Albuquerque is best in club fielding with .958.

Carmel, winner of the Hollywood Park Nursery Stakes on June 14, is the first stakes winner sired by Citation. Newmarket Maid is the stallion's first winner. He scored June 6 at River Downs.

Jordon Making Farce Of Longhorn League Batting Race

By The Associated Press

Artesia's Tom Jordan is making a shambles out of the Longhorn League batting race.

The slugging Jordan leads the circuit in batting with a gaudy .416, has the most hits with 156, the most doubles with 44 and has driven in the most runs with 115 according to the most recently released statistics.

Pedro Osorio of Carlsbad has the most runs—109—while Elias Osorio of San Angelo has the most total bases, 277.

Carroll Gholson of Carlsbad leads in triples with 14 and Joe Bauman of Roswell in home runs with 32.

Dean Franks of Roswell leads the pitchers with 19 victories against 10 losses while Art Dicesare of Big Spring tops in strike outs with 158.

Franks also is the busiest pitcher. He has appeared in 195 innings.

Artesia leads in club batting with .322, and Odessa in club fielding with .957.

Sandor Iharos May Take Track Records

By MILT MARMOR

LONDON, July 29 (AP)—A thin Hungarian named Sandor Iharos appears likely this year to write his name after every track and field record from 1,500 to 5,000 meters.

That's seven in all—and they include the 3:58 mile mark by Australia's John Landy.

A decade ago Gunder Haegg held all these records at one time. Back before World War II Paavo Nurmi at one time or another held all 10 marks up to the 10 miles.

So great have been the forward strides on the cinder track that you won't find either Haegg's or Nurmi's name in current record books. Another recent mass collector of records, Belgium's Gaston Reiff, has only the 2,000-mark to his name and Iharos should take that away soon, too.

This Hungarian Army lieutenant with the perfect running form now holds three major world records.

Iharos ran the 1,500 meters Thursday in Helsinki in a shattering 3:40.8. That wiped out the world mark of 3:41.8 established by Landy last June in Turku, Finland, en route to his one mile record.

Back on May 14 Iharos took 3.2 seconds off Reiff's 3,000 meter mark with a 7.55.6 clocking in Budapest.

Then on May 30, in London, Iharos snipped seven seconds off Reiff's two mile mark, returning an astounding 8:33.4 for the distance.

Now the 25-year-old phenom has the following goals:

The 3:58 mile by Landy; the 2,000 mark of 5:07 by Reiff; and the 13:26.4 three miles and the 1351.2 for the 5,000 meters, both established in the same race last year by Russia's plodding sailor, Vladimir Kuc.

The mile is the big one, of course, but statisticians sat down today and figure that Iharos' 3:40.8 for the 1,500 was worth not much less than 3:57. And the handsome Sandor finished Thursday's outing fresh and smiling.

On August 12, at the White City Stadium in London in the Hungary Britain duel meet, Iharos is expected to go after that mile mark. His partner should be young Istvan Rozsavolgi who has a 3:42.2 mark for the 1,500 meters (equivalent to four minutes or under for the mile).

Iharos runs next week at Warsaw. It hasn't been announced what event he has chosen, but he may set out after the 5,000 meters and with opposition from Kuc and other Eastern European stars, some outstanding results can be anticipated.

Rookie Birrer Halts Boston Red Sox 5-2

BOSTON, July 30 (AP) — Werner (Babe) Birrer, an unheralded rookie making only his second major league start, halted the Boston's surge today as the Detroit Tigers defeated the Red Sox 5-2 to move within 2½ games of the first division.

Birrer, used mainly in relief since he was brought up from Buffalo in June, spaced 10 hits as he registered his third victory and second at Boston expense.

If it were not for Ted Williams, the chunky righthander would have had a shutout. Williams scored both Sox runs — slamming a home run and double to left field and a single past the shift into left center.

Southpaw Herb Score Scalps Baltimore 7-0

BALTIMORE, July 30 (AP)—Herb Score, Cleveland's 22-year-old rookie southpaw, yielded only one hit and struck out 10 as the Indians beat Baltimore 7-0 today.

Jim Dyck, Oriole third baseman, got a clean single to left in the fourth inning. No one was on base and Dyck died on second after he was moved there by a walk.

KC Athletics Hand Yanks Worst Beating

NEW YORK, July 30 (AP)—Arnold Portocarrero and the upstart Kansas City Athletics handed the New York Yankees their worst beating of the season today, 12-2, spoiling their "Hall of Fame Day" and keeping the Yanks from regaining the American League lead. The A's ripped into New York pitching for 17 hits while Portocarrero threw a six-hitter.

Chicago's defeat by Washington had left the door open for the Yanks, whose game was delayed about 90 minutes by an oldtimers game. New York's loss and Cleveland's victory over Baltimore left the two clubs tied for second place, two percentage points behind the leading White Sox.

Dick Ricketts, Duquesne's All-America basketball player of last season, is starring as a pitcher for Allentown, Pa.

PUTTING IT BRIEFLY—Jock Hutchinson, Jr., pro at Glencove, California, believes in being comfortable on the golf course. Unlike most of the pros competing in the National PGA tournament at Meadowbrook Golf course in Detroit, Mich., Hitchison prefers to wear shorts. He received special permission from PGA officials to wear his cool garb.

Bob Miller Pitches Nine-Inning Shutout

CHICAGO, July 30 (AP)—Bob Miller pitched a nine-inning shutout in relief today as the Philadelphia Phillies took a 3-0 decision from the Chicago Cubs.

Miller entered the game after starter Curt Simmons made just four pitches and retired with a shoulder injury. Dee Fondy had sneaked a leadoff single for the Cubs just before that.

Miller walked Gene Baker, the first man he faced, and then proceeded to pitch a seven-hitter for his fourth victory, the Phillies 10th shutout of the year, and their 16th triumph in the last 20 games.

Joe DiMaggio has made two trips to Cooperstown, N.Y. The first time he failed as a pinch hitter with the Yankees and the second time, July 25, 1955, he was inducted into the Hall of Fame.

Eddie Lopat Sold To Baltimore Orioles

NEW YORK, July 30 (AP)—Eddie Lopat, lone remaining member of the New York Yankees' "Big Three" pitching staff of the 1949-53 pennant era, today was sold to the Baltimore Orioles.

In addition to a cash consideration, believed to be about the waiver price of $10,000, the Yankees' Denver farm of the American Assn. will receive pitcher Jim McDonald from Baltimore to replace pitcher Don Larsen. McDonald, former Yankee, has a 3-5 record with the Orioles.

The recall of Larsen from Denver made it necessary for the Yankees to cut a man from their roster to remain within the 25-man player limit.

St. Louis Cardinals Hit By Brooklyn 6-0

ST. LOUIS, July 30 (AP) — Don Zimmer touched off a four-run uprising in the sixth inning with a home run to start front-running Brooklyn to a 6-0 shutout over the St. Louis Cardinals tonight. Johnny Podres and Don Bessent held the Cardinals to seven hits in protecting the Dodgers' 12½-game lead.

Snyder American League Into District Playoff Today

The Snyder American League All-Stars won the right to represent Area 2 in the district meet, which will start in Lubbock tomorrow, by swamping the Sweetwater Nationals 8-1 in the area finals in Rotan last night.

The local sluggers will meet Lubbock Northwest at 5:30 Monday afternoon on the Lubbock Southern field. The other members of the four-team meet who have advanced through sub-district play are Midland and Pampa.

John Weaver won his second game of the torunament by permitting only three hits while he struck out 13 men. He pitched perfect ball, for the first three innings, fanning all nine men he faced. He won his first game of the series over Snyder's other league's All-Stars Monday night in what proved to be one of the hardest and best games of the five-day tournament.

Snyder fielders played perfect ball, committing no errors, but their opponents made six bobbles, most of which the local team converted into scores.

Richard Samuelson added the final margin when he connected for his second home run of the meet with one man on in the top of the sixth.

It was in the bottom of the sixth that Sweetwater managed to tally for the first time. Up to this point, Weaver had pitched a one-hit ball game, but Don Groghan hit a single and was advanced when Charles Barnett, the pitcher, walked. Renoldo Sepeda then doubled to bring in Groghan for their only run.

Tommy Minton opened the scoring in the second inning when he singled and moved to third on a passed ball. Butch Niedecken walked and moved to second on another passed ball. Then both men scored when Ronnie Wylie got on by a shortstop's error.

Two more runs were recorded in the fourth when Charles Davis beat out an error and went home on a catcher's error when Niedecken doubled. Niedecken crossed the plate on another passed ball.

In the fifth, Samuelson got on by an error and came in when Weaver capitalized on another error. Roland Key walked, advancing to second, where he was caught too far from the base and thrown out.

Minton got on by fielder's choice advancing Key, and Niedecken brought both runners in when he got on by fielder's choice.

The loser was Charles Burnett who pitched five and one-third innings to give up three hits while striking out five and walking four. Ronnie Cox relieved him in the sixth to face three men, walking one and fanning the other two.

Snyder had advanced to the finals by taking the hometown Snyder National League All-Stars Monday night, then topping Colorado City Thursday night.

Sweetwater had drawn a bye for the first round, marching automatically to the semi-finals where they met and conquored Rotan who had eliminated the Sweetwater Americans Thursday night.

T. Trabert's Back Injury Causes Upset

SOUTHAMPTON, N. Y., July 30 (AP)—United States Davis Cup ace Tony Trabert threw a king-sized scare into American tennis officials today when he glumly revealed that his back has been bothering him.

But a few hours later, after being examined by Dr. Nils Berglund, the same officials drew a collective sigh of relief. Dr. Berglund said he didn't think Trabert's injury was serious.

The physician diagnosed the trouble as a slight muscular strain in the right shoulder which spread to the back. He prescribed heat treatments and massage. He added that Tony would not have to stop playing tennis.

When Trabert first announced the ailing back, it was thought that his effectiveness might be hindered or that, worse, he might not be able to play in the challenge round at the end of next month.

"I'm going to see how it goes," he said, "and unless it is agitated I'll go on with tennis. I plan to play in the Orange tournament next week. Dr. Berglund said the trouble probably was caused by strenuous serving."

Johnny Adams Guides Platan To New record

CHICAGO, July 30 (AP) — Veteran jockey Johnny Adams today guided Hasty House Farm's Platan to a new American grass course record for a mile and 3-16 in winning the $161,600 Arlington Handicap by 3 lengths.

The 5-year-old brown horse, by Platter-Tatanne, broke to the front in the bulky field of 15 at the start, stubbornly relinquished the lead momentarily to Eddie Arcaro and High Gun, then drove ahead with 5 furlongs to go and stayed there under a great ride by Adams.

King Ranch's High Gun faded to seventh place while second went to a 24-1 shot, Valley Farm's Impasse, ridden by Paul J. Bailey. In third, three-fourths of a length behind Impasse, was Calumet color-bearer Mark Ye Well, who nosed out Alfred Gwynne Vanderbilt's recent winner of the $100,000 Sunset Handicap at Hollywood Park, Social Outcast.

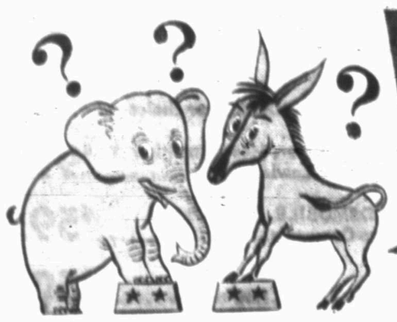

Platan, running as an entry with Ruhe and Mister Black, sizzled across the finish on this hot, humid near 100-degree day in 1:54.3 to knock 1-10th of a second off the American record set by Volcanic in 1949 at Washington Park.

The victory was worth $104,650 which boosted Platan's record for the season to $151,515. It boosted his money earnings for three campaigns to $234,255. Platan did not race as a 3-year-old.

The triumph in the world's richest race on a turf course was Platan's third in five starts this year and came after a recent victory in The Equipoise at Arlington Park.

Taking fifth place was Ruhe, followed in order by Blue Choir, High Gun, County Clare with Willie Hartack up, Kaster, Abee Sting, Artismo, Brush Burn, Fleet Bird, Hasseyampa and Mister Black, who had Willie Shoemaker aboard.

The Detroit Lions will play 18 football games this season. Six are exhibition games to be played in six different states.

Will Ike Run Again?

With the 1956 election year fast approaching, one of the most important questions of the day is whether or not President Eisenhower will run again. There have been conflicting guesses and predictions from the leaders of both major parties, and Ike himself has dropped hints on both sides of the subject.

On the theory that a man's neighbors should know him best, FAMILY WEEKLY sampled public opinion on the question in Gettysburg, Pa., where the Eisenhowers have a retirement farmhouse. In the next issue of your color-grevure magazine you'll learn what Ike's future neighbors think the future holds for him.

ONE OF THE FAMILY—Flopsy, a pet jackrabbit who lives like the kids at the home of Mr. and Mrs. Paul Hughes and their five children in Pasadena, Calif., gets his share at the dinner table. Flopsy doesn't care much for carrots, but when tuna or corn flakes are served he's right there. With him at the table are (left to right), Tom, 11; Pam, 14; Kathy, 9, and Todd Hughes, 3. Flopsy also watches TV each evening, sitting on the floor between the children, and likes to finish his day by hopping in bed with the kids.

Kluszewski Unloads His 34th Home Run

CINCINNATI, July 30 (AP)—Ted Kluszewski unloaded his 34th home run of the season as Cincinnati swung for nine hits and a 5-2 triumph over Pittsburgh today with Pirate errors contributing to the Redlegs' success.

Frank Thomas and Gene Freese accounted for the Bucs' runs with homers.

Washington Senators Nip White Sox 1-0

WASHINGTON, July 30 (AP)—The Washington Senators, after losing 12 in a row to Chicago, nipped the White Sox 1-0 today behind the seven-hit pitching of Bob Porterfield.

It was the fourth 1-0 defeat for Billy Pierce, who allowed the Senators only five hits.

Washington scored the game's lone run in the fourth inning after Roy Sievers walked. He stole second and continued to third when catcher Sherman Lollar's low throw skipped into centerfield. Eddie Yost doubled to left, scoring Sievers.

Porterfield, who posted his ninth triumph, allowed only three runners to reach second base and none advanced to third.

Tommy Bolt Drops Out Of $15,000 Open

AKRON, Ohio, July 30 (AP)—Defending champion Tommy Bolt of Chattanooga, Tenn., dropped out of the $15,000 Rubber City Open golf tourney in the third round today as Henry Ransom of St. Andrews, Ill. continued to set the pace, shooting a 67 for a 54-hole total of 201.

Two strokes back of Ransom was Doug Ford, 32-year-old PGA champion from Kiamesha Lake, N.Y. Ford turned in a 68 today for a 203 total.

Bolt picked up on the 16th hole today. He had a 34 on today's opening round and was tied for 13th place at the halfway mark.

"I'm as sick as I possibly can get," Bolt said. "I can't keep this up every day."

He explained that he had a virus infection.

Fred Hawkins of St. Andrews, who went into today's round tied with Ransom for the lead at 134, soared to a 73 today for a total of 207.

A stroke behind Ford with 204 was Jackson Bradley of Houston, Tex., who posted a 67 today. Tied for fourth with 205s were Ed (Porky) Oliver of Lemont, Ill., who shot a 67 today and Dow Finsterwald of Cleveland, who had 68.

LEGAL NOTICES

CITATION BY PUBLICATION
THE STATE OF TEXAS.

To J. G. 'McColloch, if living, and if dead the unknown heirs of J. C. McColloch and their unknown heirs—GREETINGS:

You are hereby commanded to appear and answer in a suit filed in the District Court of Scurry County, Texas, on the 5th day of July, A. D. 1955, wherein Frank Wilson is plaintiff and J. G. McColloch, if living, and if dead, the unknown heirs of J. G. McColloch and their unknown heirs, is or are defendants, No. 6712 on the docket of said court, at or before 10:00 o'clock of the first Monday after the expiration of forty-two days from the date of issuance hereof, same being the 22nd day of August, A. D. 1955. Said suit being an action in trespass to try title to 200 acres of land situated in Scurry County, Texas, and being described as follows, to-wit:

Two hundred (200) acres out of the West part of the South one-half of Section 270, Block 2, Certificate 44-5859, H. & T. C. Ry. Co. Survey, and described by metes and bounds as follows:

BEGINNING at a stone, the N. W. cor. of Sec. 263, on the N. side of large fence post;

THENCE N. 8 degrees E. 1187.5 varas to st. md. in N. line of Sec. 263, the S. E. cor. of the W. part of the S. ½ of Sec. 270;

THENCE N. 15 degrees W. 960 varas a st. md. from which cedar 18" brs. S. 20 degrees W. 21 varas the N. W. cor. of a 100 acre tract;

THENCE S. 75 degrees W. 1187.5 varas a st. md. in the E. line of Sec. 269, from which a mes. 7" brs. N. 15 degrees W. 8 varas, the N. W. cor. of the W. part of the S. ½ of Sec. 270, 950 varas S. 15 degrees E. from the N. W. cor. of Sec. 269;

THENCE S. 15 degrees E. 960 varas to place of beginning, as same was patented to J. G. McColloch on September 29, 1933.

Said action being brought as well to try title as for damages.

Given under my hand and seal of said Court, in the Town of Snyder, this the 5th day of July, A. D. 1955.

SEAL

(s) Eunice Weathersbee
District Clerk, Scurry Co. Texas.

THE STATE OF TEXAS

TO: JAMES THERON AHRLETT, GREETING:

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 29th day of August, A.D., 1955, at or before 10 o'clock A.M. before the Honorable DISTRICT Court of SCURRY County, at the Court House in The City of Snyder, Texas.

Said plaintiff's petition was filed on the 11th day of July, 1955.

The file number of said suit being No. 6715.

The names of the parties in said suit are: Wayne K. Teague, and Wife Frances Teague as Plaintiff's, and James Theron Ahrlett as Defendant.

The nature of said suit being substantially as follows, to wit:

A suit and petition for leave to adopt minor children to-wit: Aunita Charline Ahrlett, age 12 yrs. Pamela Jo Ahrlett, 10 yrs. James Robert Ahlett, 9 yrs. and Hattie Joyce Ahrlett, age 8 yrs. Applicant's allege that the Defendant James Theron Ahrlett the living Father of said minor children has abandoned, deserted and failed to contribute to the support and maintenance of said minor children for more than two years, and Applicant's invoke Revised Civil Statutues of the State of Texas, Art. 46-A-Title 3, Sec. 6, for all purposes.

That said minor children and their applicants are white persons;

That said minor children have their names changed to-wit: Aunita Charline Ahrlett, age 12 yrs. to Aunit Charline Teague, Pamela Jo Ahrlett, age 10 yrs. to Pamela Jo Teague, James Robert Ahrlett, age 9 yrs. to James Robert Teague, and Hattie Joyce Ahrlett, age 8 yrs. to Hattie Joyce Teague.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 12th day of July, A.D., 1955.

Given under my hand and seal of said Court, at office in Texas, this the 12th day of July A.D. 1955.

(SEAL)

THE SNYDER DAILY NEWS

VOL. 6, No. 79 SNYDER, TEXAS, SUNDAY, JULY 31, 1955 SECTION B

Miss India Creighton, licensed vocational nurse at Cogdell Memorial Hospital, attends a newly born baby in the oxygen air pressure lock as one of her many daily machine operation duties. The baby was just modeling for the picture and did not require services of the air lock. He is Paul Taylor Hook, son of Mr. and Mrs. Albert Curtis Hook, 1401 Eighteenth Street. Miss Creighton, who lives at 300 Thirty-third Street, moved to Snyder one month ago from Childress. (Lee Watson photographs)

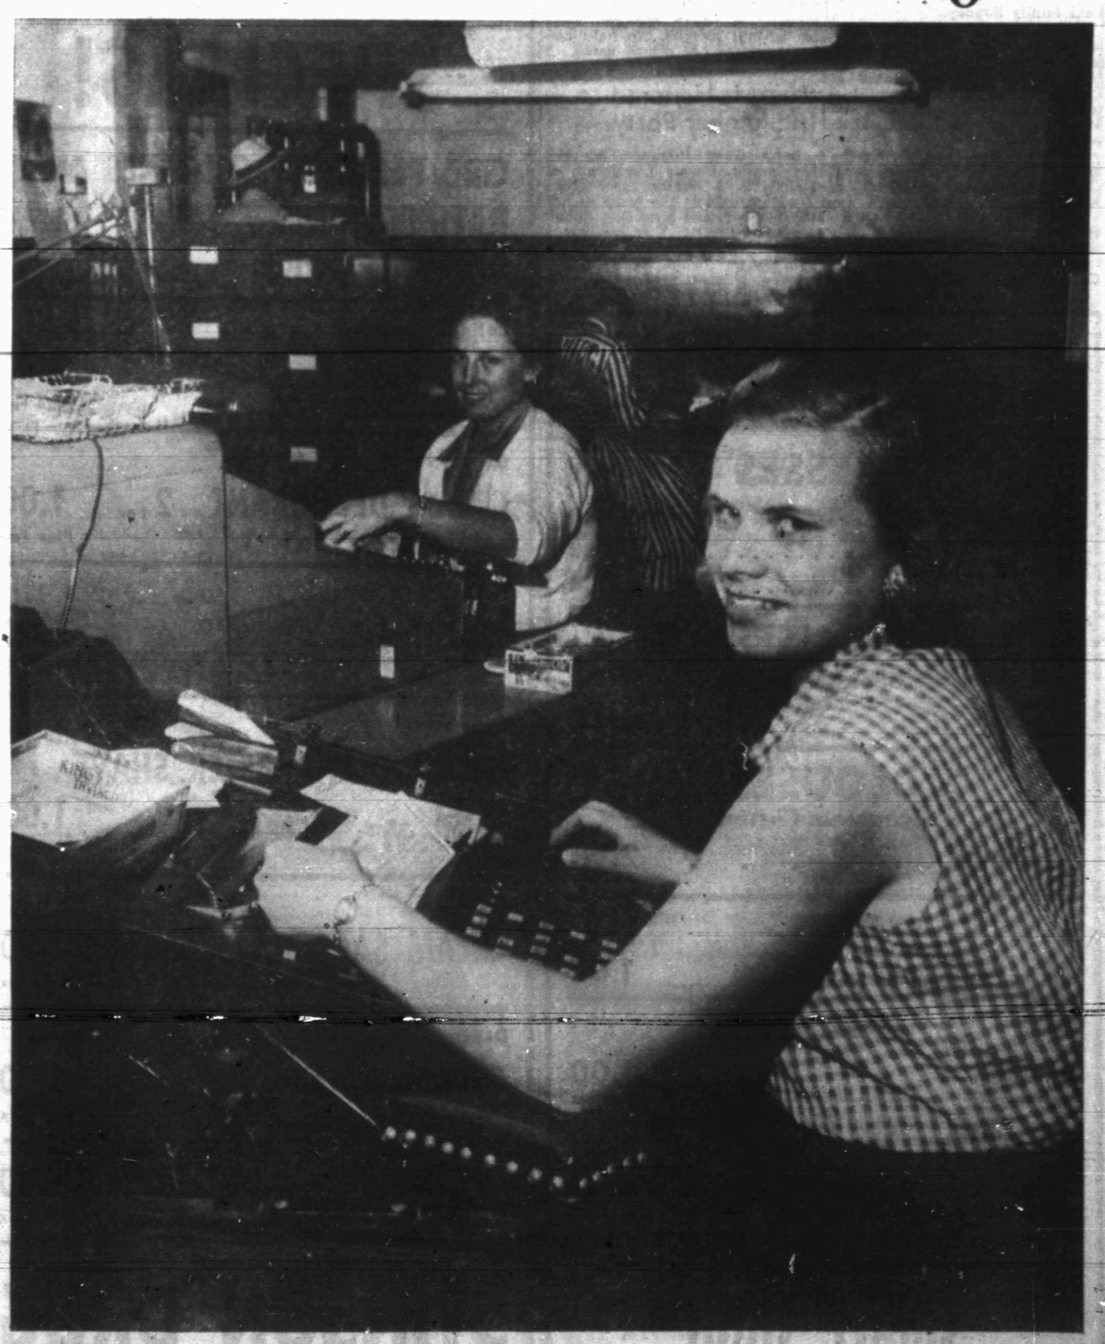

Three of the many women machine operators at the West Texas State Bank demonstrate woman's prowess in the machine age. In the foreground Barbara Callahan operates an automatic check printing machine, in center Shirley Barrett operates a check pad stapling machine, and in the background Kay Watson operates an automatic photography machine which takes a picture of each check processed by the bank.

Women In The Machine Age

One of the complicated machines operated in Snyder by women is the X-Ray machine at Battenfield-Jones Hospital Clinic above. Mrs. Opal Blakely, left, 811 Twenty-seventh Street, nurse for Dr. John Y. Battenfield and Dr. Wilton N. Jones, owners of the hospital, examines a finished X-Ray film while Miss Joann Horkan, 2512 Avenue R, medical technician at the hospital, prepares the machine to take another X-Ray picture. Miss Horkan moved to Snyder from Dells, Wis., one week ago.

Two women employes of the Snyder National Bank are shown above operating complicated-looking proof machines which do several banking processes at one time. At left is Sammy Williams, and at right is LaNell Jones. The machines tabulate the amount of checks run through, total the amounts for checks given on any particular bank, and sort the checks for mailing to the different banks.

INTERNATIONAL DESIGNER PATTERN

S-253
by
IRENE GILBERT
of IRELAND

PLANNING AHEAD for fall or sewing for summer, this Irene Gilbert design will find a place in your life. A shaped bias band trims the neckline that plunges into a narrow V deep pleat, released on either side, gives the bustline a flattering, rounded look. Each of the four skirt gores has four inverted pleats controlled with stitching below the waistline. The original was made in navy and green finely checked wool with a wide navy patent belt. Other suitable fabrics are gingham, chambray or a novelty cotton, shantung, tie silk or printed silk. Size 12 requires five and one-eighth yards of 39-inch material for the dress with three-quarter length sleeves. To order the pattern, No. S-253, send $1 to International Designer Patterns, P.O. Box 993, G.P.O., Dept. SX-13, New York 1, N.Y. Add four cents for handling if paying by check or money order. State your bust, hip and waist measurements.

NEWS FROM FLUVANNA

By MRS. M. A. GLEGHORN

Mr. and Mrs. Lee Roy Adams and sons of Wingate visited her parents, Mr. and Mrs. H. C. Carmichael recently. Mrs. Carmichael accompanied them to Muleshoe to visit Mr. and Mrs. Bob Gregory.

Mr. and Mrs. J. A. Reiger of Abilene visited Mr. and Mrs. M. A. Gleghorn and Janie Monday.

Mr. and Mrs. J. C. Chorn and children of Hermleigh visited Mr. and Mrs. Harley Carmichael recently.

Visiting Mr. and Mrs. Neil Holder over the weekend were Mr. and Mrs. Jackie Holder of Odessa and Mr. and Mrs. Fred Williams of Snyder.

Mr. and Mrs. R. B. Wills, Jr., of Lubbock and Mrs. George Miller and children of Post visited their parents, Mr. and Mrs. R. B. Wills, over the weekend.

Mr. and Mrs. Edwin Parks and children visited Mr. and Mrs. N. L. Beaver Sunday.

Mr. and Mrs. John Hallford and Mike of Pratt, Kans., visited Mrs. Hallford's parents, Mr. and Mrs. H. C. Smith, Thursday.

A pink and blue shower was given Wednesday in the home of Mrs. J. J. Belew for Mrs. Wesley Fillmon. Gaylor Collier gave two readings. Refreshments were served about 35 guests.

Mr. and Mrs. John Sneed and daughters of Ranger are visiting Claud Sneed and Mr. and Mrs. Guy Turner, Jr.

Visiting Mr. and Mrs. Bob Browning last week were their son, Alfred Browning, and Mrs. Weldon Gotcher and sons.

Edgar Hamilton and children of Lufkin visited his brother, W. W. Hamilton and family Sunday.

Mr. and Mrs. John Stavely went to Aspermont and Swenson Sunday. Mr. and Mrs. W. R. Craft and Agnes Craft of Sweetwater accompanied them and visited Mrs. Craft's brother.

Mrs. Noble Oliver, Donna and Cindy of Colorado City have been visiting Mr. and Mrs. Bob Warren and Nell.

W. F. Mathis was in Lubbock on business Tuesday.

Mr. and Mrs. Joe Landrum and Mrs. J. W. Hawkins were in Lubbock Thursday.

Mr. and Mrs. Horace Carmichael, Hub Carmichael and Mrs. R. B. Wills have been visiting in Tyler.

Mrs. C. J. Harris left Friday for Corsicana to attend a family reunion.

Mrs. Bill Mull and daughter were in Lubbock Tuesday on business.

Your family and friends like garlic bread with spaghetti and tomato sauce or a creamed chicken casserole? Then try this variation on an old theme: mix lots of minced parsley with the butter and crushed garlic used for the bread, before heating as usual.

FEMININE CASUAL

2129
SIZES
12 - 46

It's as pretty as a picture, with a softly yoked neckline, sleeveless bodice, gaily flared, flattering skirt. Wear it indoors or out!

Tri-Community HD Sees 4-H Program

A program on 4-H Club activites were presented by four 4-H Club members for the Tri-Community Home Demonstration Club when it met Wednesday afternoon with Mrs. Mal Andress, Clairemont road.

Taking part on the program were Barbara Martin, Lorita Stirling, Darla Bryant and Peggy Brown. They held a mock club meeting, then answered questions asked by the home demonstration club members concerning 4-H projects, records and other aspects of club work.

Plans were made for a family picnic to be held on August 23 in Towle Memorial Park. This will be the club's only meeting during August, with the next regular meeting set for September 14. Club members are to bring basket dinners to the picnic, and a quart of sweetened fruit juice. It was also announced that the annual county home demonstration club picnic will be held on August 18 at 7:30 p.m. in Towle Park.

Mrs. Billy Huddleston, club president, directed the business meeting.

Here's a pretty and delicious dessert to serve to company. Cut small cantaloupes in half so you have a sawtooth effect. Scoop out the melon flesh with a melon ball cutter. Alternate layers of the melon balls and diced pineapple in the melon cups. Add a little pineapple or orange juice along with a little grenadine syrup; top with sprigs of fresh mint.

Cut slices of French bread on the slant and spread one side of each slice generously with butter; sprinkle the butter with poppyseeds. Toast in a very hot oven after you have placed the bread, poppyseed side up, on a cookie sheet.

Mixed diced leftover boiled potatoes with diced ham. Arrange in a pie plate, pour a little cream over and top with grated cheese. Heat under the broiler until hot through and the top is bubbly and lightly browned.

NEWS FROM HERMLEIGH

By MRS. JESS SPYKES

Mr. and Mrs. Walter Prescott of Sweetwater visited the Johnny Paul family Sunday.

Visitors in the Grant Groves home the past week have been Mrs. Ather Chandler and Mr. and Mrs. Buck Chandler and son of Corpus Christi, Mrs. Elmer Morton and children of Midland and Mrs. Dale Johnson and children of Snyder.

Mr. and Mrs. Ben Henderson spent last weekend with their son, Charles Henderson, and family in Monahans.

Mr. and Mrs. R. L. Jones have returned home after visiting their son and his family.

O. L. Barfoot, who has been in Callan Hospital for more than three weeks, is reported still in critical condition.

Joyce Bruce, the daughter of Mr. and Mrs. Lonnie Bruce, has returned from a Colorado City hospital.

Patsy Johnson, a polio patient, is reported to be doing fairly well at the Gonzales Warm Springs Foundation where she has been for several months. No date has been set for her return home.

Guest Is Honored In Slumber Party

Doris Gean Robinson honored her cousin, Connie Chenoweth of Dallas, at a slumber paty given Tuesday night in the home of her parents, Mr. and Mrs. Don Robinson.

Those attending were Kay Logan, Ginger Austin, Linda McCormick and Susan Free.

MILDRED'S
1906 26th — Second Door West of West Texas State Bank

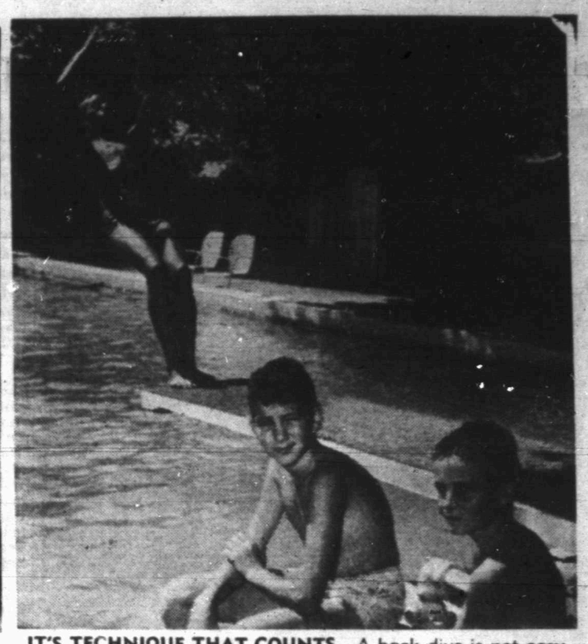

Save During This Big Sale!

COME IN, THE WATER'S FINE!—Here, the girl and boy students swim across the pool, or more accurately "crawl" across the pool toward Mrs. Norma McArthur. (Lee Watson photographs)

FUTURE SWIMMERS OF AMERICA—It won't be long before Jen McArthur and Carla Clements are performing in the water like a couple of young seals.

IT'S TECHNIQUE THAT COUNTS—A back dive is not easy if you aren't on to the technique of it. But it looks pretty simple when you see Ted Lamb do it. Watching him from left to right are Jerry Medlin of Benton, Ark., who is visiting his aunt, Mrs. Russell Yorgesen, and Bruce Brooks, son of Mr. and Mrs. E. A. Brooks.

THE BACK CRAWL—Here, Norma McArthur instructs a group of students who are, left to right, Susan Lamb, Janis Atwood, Cynthia Phillips, and Jeanine Clements.

Swimming Is Becoming More Popular With Snyder Youths

By LOUISE BLANCHARD

West Texans haven't been noted for their aquatic ability and for a pretty well known reason too — not much water around. But the days of little water may (we all hope) be a thing of the past, and anyway with Snyder now having two pools and a nearby lake, the joys of the old swimming hole are becoming a regular feature in the lives of Snyder's children.

But before a child can swim, he must know how! We aren't just born with a knowledge of how to do the Australian crawl, for instance, or a swan dive, and that's where Mrs. Bill McArthur has been of great help to many young prospective swimmers in the community.

Norma McArthur has been swimming herself since the age of seven. She first became interested in the sport in Oklahoma City where she entered many American Athletic Union swim meets, and incidentally came off very well, winning several firsts in team swimming, which was her specialty. Norma thinks that her strong point is speed, but from other sources it has been rumoured that her swimming and diving form are exceptionally fine.

She has been teaching swimming for five years. She first got interested in teaching swimming in Pampa. It seems that Pampa wasn't particularly "swim minded" so Norma did something about it, by giving lessons in high school. Then she attended West Texas State in Canyon, and there she continued her swimming instruction. In the accompanying photos you see some of her students at work.

Norma explained that before a person can be considered a competent swimmer, he should be able to at least do the front crawl, back crawl, elementary back, side stroke, Australian crawl and breast stroke. In addition the Red Cross council on swimming adds to this list: the trudgen crawl, double trudgen crawl and trudgen stroke.

Apparently swimming strokes go in an out of fashion just like the different fashion "Looks." One year an extra twist of the wrist or push of the leg may come in vogue and the next year that twist or kick will come out and a wriggle substituted. So, if your breast stroke is out of style, just wait a year, because next year you may be right in style.

Wounded Parrot Gets Devoted Attention

MOBILE, Ala., (AP)—Sam the wounded parrot is getting devoted attention from three veterinarians who hope to return him alive and well to his unhappy 9-year-old mistress.

The vets say that he has a 50-50 chance to recover from gunshot wounds suffered when he played hookey while Patricia Doyle was in a hospital. The parrot was mistaken for a chicken hawk.

Patricia knows Sam escaped but not that he has been wounded. She is being shielded from the news while recovering from an operation for a chronic leg condition. Her mother Mrs. Julian Doyle said:

"It hurt her so much when he left that we don't want to build her up and then — well, have something else happen."

Sam flew away while Pat's father was giving him his daily airing Sunday. A boy shot him, discovered his mistake and began treating the parrott's mangled wing and injured chest.

The youngster wept when he read a newspaper story about Pat's unhappiness and carried Sam home.

Vernon Clay Pays Bootlegging Fine

Vernon Clay, local Negro, paid a $100 fine plus costs yesterday through Attorney Pat Beene on a charge of selling liquor in a dry area.

The charge was filed June 11, this year.

Birds Knock Out People in Store

RALSTON, Neb., (AP)—Birds built a nest in the flue of a grocery store's air conditioning system here, and "knocked out" six people.

What happened was that the nest structure backed up monoxide gas into the store until six persons in the place collapsed. Four of them had to be taken to a hospital to be revived.

Wine glasses should be only partially filled so that the fragrance of the wine can gather in the empty space.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Cherries are just coming into season, and to celebrate the fact, try this salad of fresh cherries, pineapple and bananas:

Ingredients to serve 6.
1 large pineapple
Sugar
1 pound red sweet cherries
2 bananas
Lemon juice

Slice pineapple in half lengthwise; cut out pulp and dice; sprinkle pulp with sugar to taste; let stand 30 minutes. Stem cherries; wash in colander with cold water; drain well and pit. Cut bananas into ½ inch slices and sprinkle with lemon juice. Drain pineapple and mix gently with cherries and bananas; pile into pineapple shells. Let guests help themselves to fruit. For a luncheon menu serve this fruit salad with a bowl of mixed greens, french dressing and cottage cheese.

• • •

For a fancy dessert, try INDIVIDUAL CHERRY ALASKAS.

Ingredients for 6.
1 pound sweet red cherries
16 marshmallows
2 tablespoons pineapple juice
Red food coloring
2 egg whites
¼ teaspoon salt
¼ cup sugar
6 sponge-cake cups
1 pint very firm vanilla ice cream

Wash cherries in colander with cold water; remove stems from all but 12 cherries; pit stemmed cherries and cut in half. Quarter marshmallows; add pineapple juice and melt over low heat, stirring occasionally. Remove from heat; add a few drops of red food coloring — enough to make a pretty pink; cool. Add salt to egg whites and beat until stiff; gradually beat in sugar until very thick and glossy; peaks should stand up straight when beater is slowly removed. Gently fold marshmallow mixture into stiffly beaten egg whites. Fill sponge-cake cups with very firm ice cream; add a layer of the pitted halved cherries. Spread marshamllow meringue over top so ice cream is completely covered and will be insulated against broiler heat. Place on cookie sheet or broiler tray; brown quickly under broiler; watch carefully because this may take only a few seconds. Garnish with whole cherries with stems. Serve at once.

Other Ways to Serve Cherries:

Dip pitted fresh cherries in a fritter batter, and fry in deep fat. Serve with a foamy lemon sauce.

To dress up a yellow or white cake, serve cake squares with cherry sauce and whipped cream. To make the sauce pit a pound of cherries, and simmer in a saucepan with one cup of light corn syrup. Simmer about five minutes, then stir in a ¼ teaspoon of almond extract and cool. . . Try making cherry turnovers, or add pitted fresh cherries to waffle batter. (then serve waffles with butter, powdered sugar, and a garnish of whole cherries with stems left on.) . . . The next time you make muffins, add chopped pitted cherries to the rich muffin batter; serve hot with butter. Orange sections can go along with the cherries if you like.

By now you are beginning to get the idea that cherries are a versatile fruit! And if it's too hot to cook — wash fresh cherries in a colander, and serve!

• • •

Use a good brand of paste wax on clothes chutes or inside wooden laundry hampers to avoid snagging soiled clothes on the rough wood. That's the advice of technicians at the American Insitute of Laundering in Joliet, Illinois, who find that Snags contribute a great deal to clothing damage after laundering. It might be a good idea, also to check the family clothes chute or hamper for rough edges and joints, then sand them down before waxing.

• • •

When buying sport shirts for summer wear, expect more shrinkage in ship sizes (S, M, L, XL) than in the marked sizes. However, if the garment carries the Certified Washable Seal, it will not shrink out of fit. Skip sizes of garments not certified washable may shrink excessively.

Delores del Rio Back In Hollywood

HOLLYWOOD (AP)—Mexican actress Dolores del Rio has returned to Hollywood for her first visit in 12 years, but she says she intends to make no movie here and will stay only a week or 10 days.

Once a top-flight actress in Hollywood, Miss Del Rio said it took her nine months to get an American visa but that the American Embassy in Mexico City continually assured her the delay was due only to "regular processing." She denied printed rumors that she had indicated Communist sympathies.

What a woman needs: up to 18 — a family from 18 to 30 — looks from 30 to 45 — charm from 45 on — money.

ANNOUNCE ENGAGEMENT — Mr. and Mrs. Herbert O. SingTetary of Brownfield announce the engagement of their daughter, Herbie Singletary, to Bob G. Bosfell, the son of Mr. and Mrs. Boswell of Oklahoma City. Mr. Boswell, a resident of Snyder from 1949 to 1953, is employed by Cities Service Oil Company in Brownfield. Miss Singletary is a Spring graduate of Brownfield High School. The wedding is planned August 30 in the Brownfield First Baptist Church.

TEEN TALK

By GERRY LYN HUGHES

Larry Dixon was honored with a surprise going away party Thursday night at the Youth Center. Larry is moving to Houston and we surely do hate to see him go. The party was given by Dana Scarborough and Wanda Sue Crook. Refreshments of punch and cookies were served to Jimmy Joe Key, Randell DeShan, Sue Clark, Pat Wade, Deborah Smith, Sittie Harrell, Rita Grimmett, Perry Bolger, P. W. Cloud, Bryan Boss and Freida Melton, Shirley Roland and Shorty Grimmett, Juanez Teaff and Joe Reaves, Toni Best, Jo Ann Miller and Milton Ham, Dottie Dugas and Tommy Pritchard, Tommy McClatchy, Tom Falls, Chiva Boss, Joyce Blakely and Wiley Denson, Powell Berry, Wahoo McDaniels, Bud Morgan, Bob Pollard, Bobby Staton, Dean Staton, Earl Rhodes, Ann Fish, Grant Teaff, Bernie Hagins and Shelby Smith.

• • •

Camille Cloud and Mary Jimm Stinson were hostess for a picnic at the Country Club Saturday afternoon. The girls ate sandwiches, potato chips, and drank Cokes. Those attending were Jane DeWald, Sammy Radar, Margie Smith, Judy Rohr, Mary Ann Doak, Joan Cockrell, Patsy Ann Davidson, Sandra Sturdivant, Sue Ann Mayo, and Betty Richardson.

• • •

Janice Springer was hostess for a spaghetti supper in her home Monday night. The menu featured spaghetti, salad, French bread, and iced tea. Guests were Joyce Blakely, Bata McPherson, Mary Ann Doak, Ann Fish, Sittie Harrell, Gerry Lyn Hughes, Suzanne Houston, Judy Rohr, Lynda Smith, Sue Clark, Jane Joyce, Pat Wade, Chiva Boss, Juanez Teaff, Rita Grimmett, Wanda Crook, Dana Scarborough, Deborah Smith and Shelby Smith.

Family Reunion Is Attended By Friths

Mr. and Mrs. J. D. Frith and daughter,Cleatis, were among the families attending a reunion last Sunday in Sulphur Springs Park.

Others present were Mr. and Mrs. J. T. Parks, Mr. and Mrs. Virgil Vititow, Mr. and Mr. C. F. Vititow, Mr. and Mrs. Gilbert Vaughn, Mrs. Maggie Jones, Mr. and Mrs. Marlin Jones, Mr. and Mrs. Ray Hurly, Mr. and Mrs. Von Ray McCauley, A. Z. Glenn, Mr. and Mrs. Hamilton Glenn, all of Sulphur Springs; Mr. and Mrs. Curtis Morris of Bonanza; Mr. and Mrs. Cook Weaver of Greenview, Mr. and Mrs. W. P. Prough and Lonnie Hall of Dallas, and Mr. and Mrs. Loyd Green of California.

WHAT'S GOING ON

S-Sgt. Carl D. Tarter is visiting his parents, Mr. and Mrs. Carl Tarter, in Dunn. Sgt. Tarter has been stationed at Altus, Okla., and is being transferred to Harlingen.

Mr. and Mrs. Jack Wilsford of San Diego, Calif., formerly of Snyder, are the parents of a baby girl, Melonie Ann, born July 23 in Mercy Hospital in San Diego. Maternal grandparents are Mr. and Mrs. C. U. McDaniel of Snyder. Paternal grandmother is Mrs. Lois Wilsford of San Diego. Mrs. Jack Wilsford is the former Betty McDaniel.

Mr. and Mrs. Charles Compton of Terrell, former Snyder residents, are announcing the birth of a son, Charles Compton, Jr., born July 23. Mrs. Compton is the former Glenda Duncan, the daughter of Mr. and Mrs. M. J. Duncan of Roscoe.

MRS. GERALD M. HEINZELMANN, JR.

Miss Jones, Mr. Heinzelmann United In Double-Ring Rites

Carolyn Jones, the daughter of Mr. and Mrs. J. P. Jones of Waterloo, Iowa, became the bride of Gerald M. Heinzelmann, Jr., of Snyder in a wedding ceremony read at 8 o'clock last night in the First Presbyterian Chuch in Shawnee, Okla.

Mr. Heinzelmann is the son of Mr. and Mrs. G. M. Heinzelmann, 1108 Twenty-sixth Street.

The double-ring vows were read by LaVerne Ross before a chancel decorated with white candelabra and trees with white gladioli and daisies arranged in the branches. The pews were marked with huckleberry greenery and white satin ribbon bows. The couple knelt on a satin-cushioned prayer bench for the benediction. A program of organ music was presented by Jimmy Earnest.

The bride was given in marriage by her father. She wore a gown of parchment satin and Alencon lace. The Empire bodice of lace was styled with a V neckline and tiny cap sleeves edged in scallops. The princess lines of the formal skirt extended into an aisle-wide cathedral train. Her veil of French illusion fell from a matching lace tiara edged with a scalloped filigree of seed pearls. Her bouquet was an arrangement of white orchids and stephanotis on a prayer book belonging to her aunt, showered with white satin ribbon.

Attending the bride as maid and matron of honor were Nancy Key of Tulsa and Mrs. Ken Fight of San Antonio, a sister of the bride. Bridesmaids were Carolyn Cranston of Shawnee, a cousin of the bride, and Laura Clarke and Joanne Harper, both of Oklahoma City. They wore identical dress of ballet pink silk taffeta. The fitted bodices were styled with square front necklines and short set-in sleeves. The collars extended over either shoulder and dipped low in the back to define V necklines. Pleated cummerbunds in a deeper shade of pink joined the full, waltz-length skirts, formed of multiple unpressed pleats. Their small hats were of pink net, and they carried cascade bouquets of pink chrysanthemums tied with darker pink ribbon.

Dwight M. Ross, Jr., of Wichita Falls was best man. Ushers were Robert P. Baughman of Ponca City, Okla., Ken Fight of San Antonio, Ben F. Pearson of Enid, Okla., Robert M. Willard of Dallas, Joe W. Sentell and Joe Dave Scott of Snyder, Gurvis J. Post of Fort Worth and Charles L. Waite of Oklahoma City. Link Cowen, Jr., of Shawnee was ring bearer.

For her daughter's wedding, Mrs. Jones wore a dress of light beige peau de soie made on princess lines with an appliqued yoke of Alencon lace. Her matching hat featured a beaded trim. Her flowers were brown orchids. The bridegroom's mother wore a waltz-length gown of imported Alencon lace and mousselaine de soie in a dusty shade of blue. The bodice and short sleeves were of lace. The scooped neckline was outlined with mousselaine de soie. Extending from the waistline were elongated scallops of lace appliqued into a bouffant skirt of mousselaine. Her hat of velvet was in a matching shade of blue.

A reception in the garden at the home of Dr. and Mrs. E. C. Cranston, aunt and uncle of the bride, followed the ceremony. Summer flowers and pots of caladium were featured in decorations under garden canopies, and pathways were outlined with hurricane lamps. The bride's table was covered with a lace cloth. The wedding cake was encircled with stephanotis and white Starlite roses. Other serving tables were similiarly decorated.

Members of the houseparty were Jeannie Warren of Tulsa, Marty Spilman of Dallas, Katherine Cowen of Shawnee and Mrs. Nick Kentros of New York City.

When the couple left on a wedding trip to Jamaica and Cuba, the bride wore a suit of light beige silk with alligator accessories in brown and a brown orchid corsage. They will be at home in Norman after August 16.

NEWS FROM IRA

By JOAN BROOKS

Mrs. B. A. Rigsby and daughter, Betty, of Andrews and Lois Marie Kruse of Odessa visited Mrs. Marie Kruse Sunday afternoon.

Mr. and Mrs. Leonard Carnes of Snyder visited Mr. and Mrs. Toy Gideon Sunday.

TO BE MARRIED—Mr. and Mrs. Hester Lee Hammit of Rotan are announcing the engagement of their daughter, Jimia Lee, to Harold Warneke, the son of Mr. and Mrs. G. B. Warnke, 507 Twenty-ninth Street. The couple plans to be married August 19 in the First Baptist Church in Rotan. Miss Hammit, a 1953 graduate of Rotan High School, is employed by the Fisher County Agricultural Stabilization and Conservation office in Roby. Mr. Warneke, a 1953 graduate of Graham High School, is employed by Camden Drilling Company in Aspermont.

Paris Fashions Designed To Emphasize Curves This Time

By NADEANE WALKER

PARIS (AP)—Curves came back to Paris fashions this morning, thanks to a woman's preference.

In the Genevive Fath collection hips, waist and bust are all well fitted and right back where they belong.

When this became apparent, a fashion press audience — largely feminine—gave a sigh of relief and began to applaud.

How women look when sitting down is the chief concern of Mrs. Fath this season.

"The bosom comes in for constant emphasis," is how she put it, "because women are so often seated at dinner or night club tables."

The bosom is emphasized all right, but always discreetly and with good taste. Neither stuffed nor flattened, it is ornamented with drapery and small details. For late afternoon and dinnertime onwards there are wide-open necklines, baring the view in a big square or low V.

The new Fath fashions, though designed for sitting down, also look good standing up, passing by or however you want to look at them. They are handsome and dignified without being in any way sensational.

A "lightening" theme in the collection is carried out in zigzag and crisscross lines, diagonal buttoning and pleating, and other symetrical effects. Some coats and jackets are buttoned so slightly off-center that it looks like an accident.

There is no padding in the Fath shoulders, which are left natural and sloping. A low setin sleeve gives a slightly widened effect. For cocktail time there are some huge lantern sleeves, ending above the elbow, which result in an exclamation point silhouette.

De-emphasized skirts (who sees them when you're sitting down) are gently bell shaped. Many creations still follow the princess line —slim in the body and flaring at the hem.

In the midsummer heat, one mannequin presented a reversible mink coat—white mink on one side and brown on the other. There were several woven gold and silver coats that looked fabulously rich and staggeringly heavy and stiff.

Coat dresses are the biggest innovation. Made of materials as thick and warm as overcoats, they are trimmed with upstanding fur cossack collars and cuffs. Their fur trimmings are non-detachable, and obviously not for indoor wear with central heating.

There are a few false tunic effects on coats and dresses, sometimes in front and sometimes in back, but no real tunics at all. The old standby — suits with blouses—is disappearing so rapidly that only one example was seen in the whole show.

Black, dark forest green, mink browns, red and a new coral called "Genevieve pink" for Mrs. Fath, made up the color palette.

Suit sleeves have a graceful flare just at the wrist, often with fur lining. Another cute trick is bracelet cuffs, moved up halfway between wrist and elbow. Green-dyed Persian lamb and white beaver are fur novelties.

The Fath show was interrupted midway to announce postponemnt of a rivel collection; Balenciaga will show Wednesday instead of Monday. The Maggi Rouff collection tonight will be followed by Dresses tomorrow, Dior and Galmain Monday, and Griffe and Chanel Tuesday.

WOMEN'S CALENDAR

MONDAY

Monday Bridge Club, 1:30 p.m.; Mrs. Robert D. White, Jr., hostess at Mary Lynn's Tea Room.

Helen Clemmer Circle, 8 p.m., with Mrs. George Morton, 2912 Avenue C.

Plans For 4-H Camp Made By Committee

Plans for the county 4-H Club camp were discussed yesterday at the monthly meeting of the 4-H county-wide committee.

The committee has not yet set a definite date for the camp. The panel made plans for its yearbook, and added to it a sheet on junior leadership and one on goals and awards.

The junior high club will have its radio program next Saturday at 11 a.m.

Ruby Butts, county home demonstration agent, presided at the meeting.

Perry Henderson Is Given Party

Mrs. Lon Henderson honored her son, Perry Neil, on his fifth birthin the Henderson home at 3104 Fortieth Street.

Mrs. Truman Black and Mrs. Grover Robinson assisted in serving cake and punch. Favors of balloons were presented the guests, who were Stephen Henderson, Penny and Sarah Robinson, David and Ricky Black, Vicky Minor, Sharon and Nancy Wattner, Jeff and Paula Youngken, Joanne King, Edward Schultz, Mickey Jones, Deborah Thompson, Joe David Gilmore, Glenda Bigham, Debby Labenske and Beverly Ford.

ANN FOGARTY uses princess lines to steal the scene. A willowy and lithe waistline, a long-lined bodice and a simple, and a flattering neckline are features of the dress. Lots of petticoats belong under the full skirt. Miss Fogarty made the original in a tablecloth checked paper taffeta. Shantungs, solid taffetas, stiffend silks and flower-printed cottons are also suggested. Size 11 requires six and a half yards of 39-inch material for the dress and half a yard of 39-inch material for the lining. To order the pattern, No. 1184, send $1 to Spadea Syndicate, Inc., Box 535, G.P.O., Dept. S-13, New York 1, N.Y. Add four cents if paying by check or money order.

BUST	WAIST	HIPS	SIZE
33½	23½	34½	9
34½	24½	35½	11
37½	27½	38½	14
36	26	37	13
39	29	40	17

Use Classified Ads

Season grated cheddar cheese with tomato catchup and finely grated onion; moisten with mayonnaise. Use as a sandwich filling. Chopped pimiento - stuffed olives may be added to the mixture if desired. Another good sandwich mixture is made of mashed canned sardines to which lemon juice, pickle relish and minced parsley have been added.

Used canned pineapple filling to spread between layers of white cake (plain, angelfood or sponge). Follow the directions on the can for preparing the filling but add finely diced syrup-preserved ginger (to taste) after you have prepared it. The ginger tastes best when it is not heated but added last in this way.

We Are Expanding Our Floral Business!

After having served this trade area in the floral business for nine years myself, and in endeavoring to continue the service rendered the trade by my mother and father for 24 years before that, I wish to thank all the people who have done business with this firm and acknowledge with sincere appreciation their patronage.

As in the past, we are endeavoring to bring better service and more beautiful flowers to Snyder for the benefit of our customers.

We are expanding and regrouping our facilities for better and more expedient service.

Roland Bell

We wish to announce that we have sold our nursery business to Arlee Page, who will remain in the same location. You can still get complete floral and landscape service from the location that you have patronized.

It is our intention to concentrate our efforts in giving you a . . .

More Complete and Better Floral Service

THE SAINT

HOPALONG CASSIDY

MAKES BIG TIME—Sandra Clark, daughter of Mr. and Mrs. Kendale Clark, 1900 Twenty-ninth Street, at sixteen months gets national publicity. In the Aug. 9 issue of Look Magazine you will see Sandra with this same bowl and bathrobe, looking a lot like Brother Sebastian. (Lee Watson photograph)

Paris Fashions Indicate Big Shoulders, No Hips

By NADEANE WALKER

PARIS (AP) — Women are broad-shouldered and hipless in the first fashion showing of the new Paris fall season.

Jean Patou, leading off the style parade this morning, announced tersely: "Hips deleted, shoulders broadened."

For the first time in many a season — almost since the new look revolution in 1946, in fact — shoulders are padded again.

Colors are smoky, foggy blacks, browns and grays, with hardly a gleam of light. The exception is in brocade-like Persian printed satins, with the brilliance and color of Eastern enamels.

Patou also proclaimed a slight lengthening of skirts, but you wouldn't notice it. The waist he calls "normal" is never nipped in or marked by a seam. It is lightly fitted by the cut, and just about where it belongs, with a tendency to be high, if anything.

Party dresses are bouffant, skirted from the hip, with close-clinging torsos. The slinky, strapless long evening gown is in favor again, at least at Patou.

There is Oriental richness in heavily embroidered bodices for cocktail and evening wear. Fullness is swept to the back, in bustly peacock tail skirts.

The newly repadded shoulders are not squared, as they used to be when that fashion went out. They slope, with the padding put in at a low sleeve-line.

Patou often uses a criss-cross cut under the bust to imply a slightly raised waistline. His bustling is high, small and lightly draped or marked with buttoned tabs or apron bib effects. Necklines are high and so discreet as to be completely unremarkable.

Mannish Prince Albert coats and tunic length suit jackets are still part of the fashion picture. They look a little like riding habits. Thick tweed dresses have a stripped - down look and are trimmed scantily with a few buttons, a pocket here and a pleat there.

Patou goes overboard for a small bowler, often in fur. A big-headed shako of black fox was trimmed with a white rose.

Skirt fullness sometimes came from big box pleats breaking out from under a diamond point fore and aft — or just aft.

Bridge Problem

Here's a bridge problem you might try in your spare time:

North bids and makes seven hearts. Can you do the same? Here are the players' hands.

North has
10, 9, 8, 7, 6 of Hearts
Ace, 10, 9, 8, 7, 6 of Clubs
Ace, king of diamonds
Void in spades

East has
5, 4, 3, 2 of Hearts
king, queen, jack of Clubs
king, jack, 10, 9, 8, 7 of spades
void in diamonds

South has
ace, king, queen, jack of hearts
void in clubs
ace, queen, 5 of spades
queen, jack, 10, 9, 8, 7 of diamonds

West has
void in hearts
5, 4, 3, 2 of clubs
6, 5, 4, 3, 2 of diamonds
6, 4, 3, 2 of spades

(We will run the solution sometime during the week of August 1.)

Little Bridge Club Entertains Thursday

Mrs. Carl Herod, Camp Springs Road, entertained the members of the Little Bridge Club on Thursday in her home. The members of the Club are: Mrs. Jack Bowden, Mrs. Bernard Longbotham, Mrs. Sam Joyce, Mrs. Scott Casey, Mrs. H. E. Hickman, Mrs. Leland Herod, Mrs. Fla Joyce, and Mrs. R. M. Phillips. Three guests were also present: Mrs. Richard Brice, Mrs. E. J. Richardson, and Mrs. K. C. McCasland, daughter of Mrs. Alice Northcutt.

BANK FACTS FOR YOU

What price home improvements?

Most home-owners would like to make improvements in their property — improvements which would materially increase livability . . . salability; yet they are reluctant to deplete their savings to do so. For home-owners in our community, there is a solution to this seeming dilemma: a Home Improvement Loan from our bank. We lend cash at low cost to finance modernization projects; borrowers repay on a convenient monthly-instalment basis.

If you have a "pet project" in mind for your home, get a contractor's estimate; then see us about a dollars-and-sense bank loan. You will be under no obligation.

HOMES FOR AMERICANS

AP Newsfeatures

A WALLED-IN GARDEN with pool, adjoining a secluded covered porch joined to the living room by sliding glass doors, merges the outdoors with the indoors in this plan. Another covered dining porch facing the rear garden and a covered entrance porch in front are among other features of this house. An outside basement entrance opens this valuable cellar area for the storage of garden implements. This is plan M466-AP by Rudolph A. Matern, architect, 90-04 161st St., Jamaica 2, N.Y. The house covers 1,604 square feet without garage and porches.

Five Seek Governor Post In Mississippi

By SAM JOHNSON

JACKSON, Miss., July 30 (AP)—Five candidates for governor, all backers of segregation, will compete in Tuesday's Democratic primary election in Mississippi.

The race centers on personalities, true to form in Mississippi. Political platforms are pushed into the background.

All staunchly support racial segregation, apparently required for political success in Mississippi these days. Each says he, or she, can do the best job of keeping Negroes out of white schools.

The Negro has little choice among candidates. He has even less to say about the outcome.

Mississippi's already slim voting strength has dwindled since last summer when the white Citizens Councils began popping up throughout the state. They centered their white supremacy campaign against Negro voting.

The councils are dedicated to keeping the races separate in all walks of life. They screened all five candidates early in the campaign at a political rally and stamped their approval on all.

Stirring the racial kettle has intensified in the last 10 days since Negro parents filed petitions in three cities asking an immediate end to segregation.

The top two vote getters will enter the second Democratic primary election three weeks later. All candidates agree none will receive a majority in the first primary. Democratic nomination means election in Mississippi.

Ross Barnett, a lawyer who narrowly missed getting in the second primary last time, says he is leading the pack. Barnett said he whipped the Communist party in a suit against the New York Daily Worker and can do the same to the National Assn. for the Advance of Colored People.

Mrs. Mary Cain, sometimes called "Hacksaw Mary" and "Militant Mary" because of her fights against compulsory social security, already has promised dances at her inaugural ball. Political experts doubt she will be there.

Atty. Gen. J. P. Coleman has been a district attorney, circuit judge and Supreme Court justice. He says this training makes him best qualified to lead the fight for segregation.

Paul Johnson, a lawyer whose father served as governor, is making his third bid for the spot with the slogan "It's Paul's Time." Narrowly defeated by Gov. Hugh White in 1951, Johnson believes he has the strength to win this time.

Former Gov. Fielding Wright, a founder of the 1949 States Rights movement and candidate for vice president, seeks a second term after four years absence from the governor's mansion.

Methodist Missionary Speaks Here Today

The Rev. I. L. Shaver, Methodist missionary to Japan, will be speaker at both morning services at the First Methodist Church today.

The services will be at 8:45 and 10:55 a.m. Rev. Shaver, his wife, and one daughter arrived here this weekend. They operate an orphanage at Oita, Japan. The church's pastor, the Rev. J. Lennol Hester, was originally scheduled to speak.

The family is now visiting in the U.S. while on leave.

Strozier Appointed South American Head Of Associated Press

NEW YORK (AP)—Fred L. Strozier was appointed Friday South American manager of The Associated Press, it was announced by Frank Starzel, general manager.

Strozier has been chief of Bureau at Buenos Aires for eight years. In his new assignment, he will have general supervisory responsibility for the organization's business affairs in South America and will be based in Rio de Janeiro.

"Expansion of Associated Press news and newsphoto distribution in South America," Starzel said, "requires on-the-spot executive coordination and Strozier is eminently qualified by his broad experience to handle the newly created post. Assistant General Manager Lloyd Stratton will continue as the general office executive in charge of distribution operations overseas."

Starzel also announced appointment of Sam Summerlin as acting chief of Bureau in Buenos Aires, with responsibility for AP operations in Argentina. Summerlin has been on the Buenos Aires staff since early 1955.

Strozier, 46, was born at McRae, Ga. He entered Associated Press service at Jacksonville, Fla., in 1936.

Summerlin is a native of Chapel Hill, N.C., and joined the Associated Press staff at Raleigh in January 1949.

Panama City Has Much For Sightseer

By BERNARD GAVZER

PANAMA CITY, July 30 (AP)—This is the city of the bargainer—and any American who thinks he can outwit the proprietor of one of the Hindu bazaars along the town's main drag should be confined for his own safety.

But the bazaars tend to give an Oriental flavor to the concoction of modern America and Old Spain that is Panama City. Situated in the 10-mile-wide Canal Zone belt, the city nevertheless is under the jurisdiction of the Panamanian government.

A seemingly endless line of ships flow through the gooseneck of land severed by the canal and it's simply a matter of picking one from among many in arranging a trip from the West Coast, East Coast or Gulf ports. As for air travel, right now Panama is in its rainy season and now and then flying can get rough.

Once you are in Panama, whether by sea or air, there's a good bit to be seen and to do.

Of course, the big thing is the canal itself. A trip through the locks from the Pacific to the Atlantic side takes between 6½ to 8 hours, and sometimes longer. Or you can get a launch and ride through a single set of locks.

One way to see the entire canal is to take in a trip by launch to the San Blas Islands, home of the Canu Indians.

The Canus have zealously guarded their purity of race and culture; and for it they face extinction. Their number has dwindled to some 15,000.

The Canu women are triumphs of color. Their bodies jangle and sparkle with it from the gold rings through their noses to the tightly wound bead bracelets on their legs and arms.

Their cheeks are painted red—one great blotch of color from below the eyes to the jawbone. And some—it seems to depend upon the style of an island—have a black stripe down the center of the nose.

Their blouses — molas — are brightly patterned, like a patchwork quilt, and formless. On their heads are red and yellow patterned scarves. Sarong-like skirts complete the costume.

Another trip, requiring but a day, is to Barro Colorado Island, a haven for scientists interested in tropical fauna and flora. Maintained by the Smithsonian Institution and the U.S. government, it is noted for the concentration of different tropic animals in a small area.

Back to Panama City and more of the typical life of a capital. On the light side of things, there's the race track, Juan Franco, where the late President Remon was ambushed and slain; there's El Rancho, one of the better night spots which sports a gambling casino that operates on the weekends; and there are any number of tourist traps along Central Avenue, featuring bush-league entertainers.

The shops of Panama City are enough to engage considerable enthusiasm. Tax-free, you can buy German cameras, Danish cutlery, Swedish crystal, British woolens, Irish lace, Spanish shawls, Honduras mahogany, Guatemalan cottons, are objects from the world over — all at prices from less than two thirds to one half of those likely to be charged in the States.

Youngsters love this: chill apricot nectar and pour into glasses. Add vanilla ice cream and stir until the nectar is partly dissolved. Serve at once.

None Injured As Car Overturns Near Here

Neither of the two passengers was injured, but the 1954 Oldsmobile in which they were riding was almost totally destroyed as two Texas Tech students turned their car over just outside of Snyder yesterday morning.

Kenneth Palmer, 18, a sophomore student from Austin, was driving the car when he attempted to turn off the highway 84 onto the cutoff which goes around town.

Sheriff Homer Whisnand and deputy Howard Gibbens, who investigated the accident, estimated the damage at about $1,500. Gibbons said the car skidded and rolled about 90 feet before coming to rest on the right side of the road.

The passenger of the car was Charles Fleming, 19, of Abilene.
