HST Clashes With Taft On High Prices

(By The Associated Press)

WASHINGTON, Aug. 12—President Truman said today he couldn't agree with Senator Taft (R-Ohio) that prices will level off soon.

He blamed what he called the "no nothing Congress" because it failed to act on his recommendations to the special session.

When told by a reporter at a news conference that Taft thinks prices will begin to level off, Mr. Truman said he hopes Taft is a good prophet but that he couldn't agree with him.

Prices Show Rise

The President said prices have been going up ever since price controls were taken off, and that he had been told before that prices would level off but that they always seem to level off at higher brackets.

The only bright outlook, he said, was the recent report that farm crops will be larger than ever. This may bring down food prices.

He would not say what he planned to do about the Republican sponsored anti-inflation measure designed to make it harder for people to go into debt by restoring controls on installment buying and boosting reserve requirements of Federal Reserve banks.

But earlier in the day the White House had announced he would act on the bill tomorrow. He is expected to sign it with a blast at Congress for not giving him limited wage, price, rationing and other controls.

Meanwhile nine of the 12 Federal Reserve banks raised their "discount rate" from 1¼ to 1½ percent, the effect being to make it more costly for commercial banks to borrow funds from the federal system for re-lending to the public.

The other three banks are to follow suit shortly.

The government hopes the action will cause financial institutions to tighten up on their lend-

Thundershowers Dot Plains Section

Levelland And Sudan Areas Receive Rain

THE South Plains area west and northwest of Lubbock continued to be favored by thundershowers Thursday night as Levelland and Sudan received "good" rains from a storm that moved in from New Mexico.

Levelland reported half an inch fell there in less than an hour. The rain, accompanied by a sharp electrical disturbance, started falling about 8 p. m.

A short time later the cloud dumped .75 inch of rain on Sudan. The precipitation there also was backed up by lightning that caused lights and electric power to falter. Sudan received .80 inch Wednesday.

Both areas reported the showers would be of special benefit to feed crops as they were beginning to show need for rain. The reports indicated cotton, however, was not in need of additional rain at this time.

The storm which moved northeast after moving across the New Mexico-Texas line also hit Morton, Littlefield, Muleshue, Hale Center and Abernathy, but the fall in these areas was not as heavy as other points.

The Lubbock weather station reported .01 inch of rain measured there at 10:45 p. m. following a shower. Abernathy went without power for several minutes after service was disrupted by a sharp thunderstorm. The rain was light there however.

Late last night and early today, the storm continued to flash over the north portion of the South Plains and additional rainfall was indicated before morning. A brilliant electrical display accompanied the storm as it hit Lubbock and other surrounding towns.

The temperature for the South Plains continued to hold steady

Molotov Calls For Return Of Teachers

(By International News Service)

LONDON, Aug. 12—Radio Moscow said tonight that Foreign Minister Molotov has demanded the immediate transfer of Soviet school teacher Mikhail I. Samarine and his family to the Russian consul general in New York.

The Molotov demand was made in a statement delivered to U. S. Ambassador Walter Bedell Smith. It protested strongly against American "connivance" in the "disappearance" of the Russian teachers.

Punishment Demanded

Molotov also insisted on the punishment of all persons who have taken a part in what he termed the "kidnapping" of Soviet citizens.

Smith promised—according to Moscow broadcast—to bring the Soviet statement to the attention of the U. S. government and assured Molotov that American authorities would make a strict inquiry into the case.

The broadcast said that Molotov invited Smith to talk over the Samarine-Kosenkina school teacher case.

Mrs. Oksana Kosenkina, Russian teacher, leaped from a third floor window of the Russian consulate in New York where she was incommunicado since the weekend.

FBI Protection Sought

Samarine and his wife — also school teachers—sought the protection of the FBI from Soviet authorities whom they said wanted them to return to Russia and "certain death."

According to the radio Moscow broadcast recorded in London by the Tass Soviet monitor, Molotov's statement issued yesterday to Smith declared:

"On July 31 a number of Soviet citizens including the teachers Mrs. Oksana Kosenkina and Mr. and Mrs. Mikhail I. Samarine with their three children were due to leave New York by the ship Po-

Allies Resist Red 'Invasions'

BERLIN, Aug. 12 (AP)—United States and British military police turned back two Russian invasions of western-occupied sectors of Berlin today without resorting to violence.

The incidents added to the tension existing in this Soviet-blockaded city. They also served to point up the increasing danger of a clash arising from a recent split of Berlin's city force into two rival camps.

Meanwhile, thousands of German workers in the American zone of Germany demonstrated against high food prices and the policies of American military government. In Frankfurt a crowd beat an American soldier and his German driver. It was the biggest and noisiest demonstration in that city since the end of the war.

U. S. Intervenes

In both the Berlin boundary incidents the Russian - controlled forces claimed they crossed the lines in pursuit of black market operators.

Charles C. Bond, assistant chief of the American military government's safety branch, said he suspected the border forays were "just harassing tactics." He said it also was likely the Russians were looking for deserters from the Soviet army.

The incident which brought in-

Police Set Up Guard To Protect Teacher

Soviet Diplomatic Representative Refused Entrance To Hospital Room

By DAVID K. BOYNICK
INS Staff Correspondent

NEW YORK, Aug. 13. (Friday)—A Russian woman leaped from a third floor window of the Soviet consulate in New York Thursday "to get out of the cage" and appealed later from a hospital bed for police protection against Russian officials.

Police guaranteed 52-year-old Mrs. Oksana Kosenkina that protection and pledged early today an investigation of the events culminating with her desperate act that may tear the lid off a sensational international mystery.

Mrs. Kosenkina, lying gravely injured in Roosevelt hospital, pleaded with police not to permit Soviet consulate officials to see her.

Soviets Make Demand

Informed by Police Inspector John Mullin that Soviet Vice Consul Zot L. Chepurnykh had been demanding for hours to see her, she replied, according to Mullin:

"I don't want to see anybody from the Russian consulate.

"I am afraid of them. I fear them. I will not see them."

Mullin, who announced that a full blown investigation will be made into the "Kosenkina" case, informed the vice consul that the teacher would not see him.

Chepurnykh declared:

"I don't believe it. I'm an official of the Soviet government and I demand to see her."

But the Soviet official was not permitted to see her and the police inspector said the investigation will take in everything—"going as far back as necessary and right up to the time of the woman's jump'."

Russian Sends Note

Mrs. Kosenkina, who declared at the hospital that she made her three-story plunge "to get out of the cage," had been incommunicado at the consulate for six days while Soviet and American authorities waged an unprecedented tug of war for her custody.

Almost at the hour that she hurtled from the window it was learned that Soviet Foreign Minister Molotov had demanded of the U. S. ambassador at Moscow that she be returned to Russia along with two other Russian teachers, Mr. and Mrs. Mikhail Samarine.

Early Friday morning Chepurnykh said he sent a note up to Mrs. Kosenkina, whom Soviet consulate officials said they had "rescued" after she had been "kidnapped" by anti-Communist White Russians.

Note Is Revealed

He said the note read:

"Dear Mrs. Kosenkina:

"I would like to know how you feel. Do you need anything? We hope everything is all right.

"We will take all necessary steps to have you cured.

"We would like to see you."

Mullin told the vice consul that he took the note up to the injured woman but that she was asleep.

Had "To Get Away"

For many hours after she plunged from the window of the consulate on East 61st street, Mrs. Kosenkina was too dazed to see any visitors to answer questions.

Late last night, however, she recovered sufficiently to see a close friends to whom she declared that she had jumped because "I had to get away."

The friend identified himself as Vladimir Zenzinov, a Russian journalist and the man who on July 31 escorted Mrs. Kosenkina to the Tolstoy foundation farm at Nyack, N. Y., from which she was taken last Saturday by Soviet Consul General Jacob Lomakin.

Answers Question

The only other person to whom Mrs. Kosenkina is known to have talked prior to seeing Zenzinov is New York Police Inspector John Mullin. That was early this evening at a time when the critically injured woman was occasionally conscious.

Her injuries were reported to be a broken right ankle and right knee, and a possibly fractured back.

Mullin said he was able to ask Mrs. Kosenkina only the one question, "Did you jump from the window?" to which she replied with a whispered, "Yes."

Diplomat Returns

Then said Mullin, he asked her "Why?'—and she fainted.

Soviet officials spent hours trying to get in to see Mrs. Kosenkina, but up to 10 p. m., none had succeeded.

Chepurnykh, who waited for more than two hours Thursday afternoon trying in vain to see the teacher, returned shortly after 10 p. m. and again demanded that he be allowed into the street floor room of the hospital where police were keeping out all unwelcome visitors.

Chepurnykh was informed by the hospital physician in charge,

HST Again Hits Spy Hearings

WASHINGTON, Aug. 12 (AP)—President Truman assailed the congressional spy investigation with new vehemence today, saying it was a Red herring with the strongest kind of smell.

He reiterated at a news conference his remarks of last week that the herring was being dragged across the trail to distract attention from Congress's failure to pass his anti-inflation program.

Meanwhile the House committee on Un-American activities questioned behind closed doors a Russian school teacher, Michael Ivanovitch Samarin. It announced, however, that the questioning brought out no information "pertinent" to its inquiry into charges that a wartime Communist spy ring reached hig. into Washington officialdom.

Renounces Citizenship

However, the teacher declared publicly after the secret session:

That he and his wife have renounced Soviet citizenship;

That he wants to tell about the condition of the Russian people under the Soviet dictatorship.

That he and his wife would be shot or sent to concentration camp for life if they were sent back to

LABOR CAMP ALSO APPROVED

Contracts On New Airport Building, Paving Okayed

By H. I. KIEFER
Avalanche Staff Writer

MEMBERS of the city commission let contracts for a $358,000 airport terminal building and for more than five miles of street paving costing over $150,000 at their semi-monthly meeting Thursday afternoon.

They also approved an action which insures that a camp for the use of itinerant Mexican cotton pickers in the fall will be built here despite the refusal of the county commissioner's court to participate in the project.

Contracts for the new Municipal airport terminal were awarded, conditional upon their approval by the Civil Aeronautics authority. This approval is regarded as being more or less routine, since the CAA has been in close touch with the preparation of plans for the building and the bids were in line with estimates.

Separate Bids Okayed

Separate contracts were let for the actual construction, and for plumbing, heating and air conditioning, and electric installations. The low bidder was awarded the contract in each instance, the total of the amounts being $358,559.

The low bidders and the amounts of their bids were: General construction contract, W. G. McMillan, Lubbock, $279,719; heating and air conditioning, Anthony Co., Lubbock, $41,200; electric, Nelson Electric Co., Lubbock, $20,345; and plumbing, Samson Co., $17,295.

The contract calls for completion of the structure within 400 calendar days.

Other bidders for the various contracts and the amounts were:

General—Tom McAbee, $293,450; G. G. Construction Co., $300,000.

Heating and air conditioning—Rountree Plumbing Co., $44,950; Builders' Supply Co., $50,645; Harris and Beeman, of Fort Worth, $53,530; Nunn Electric Co., $60,452; and Hamilton Heating Co., $68,570.

Electric—American Electric Co., $21,552; Fletcher Co., $23,059.

Plumbing—A. P. Kasch, Big Spring, $19,000; Rountree Co., $19,876; Anthony Co., $21,900.

CAA To Aid In Costs

The CAA has allocated $175,000 toward the cost of the building. The city will pay the remainder, practically all of it coming from bonds voted for airport improvements in 1945.

The action taken by the commission followed the recommendation of the city airport board, composed of Ray F. Hinchey, Bob Walker and Robert H. Bean. O. R. Walker is architect for the project.

Contract for the paving was awarded to L. A. Purtell, of Lubbock, whose base bid of $150,985.94 was the lowest of six submitted.

Actually listed on the call for bids were 65½ blocks of paving, but this may — and probably will — be increased by as much as 25 per cent at the same rates pro-

Read The Story Of 'The Real Stalin' Starting Tuesday

Today, one man holds the fate of the world in his hand as no other single person has since the heyday of Adolf Hitler. That man is Joseph Stalin.

Once proud nations now watch fatefully his next move. Others are arming to meet any challenge he might make. Others are now subservient to him.

What makes Stalin act as he does? What manner of man is he? The answers to these any many other such questions will be answered in one of the most remarkable studies of Stalin ever written. Emil Ludwig, one of the world's foremost biographers, is the author of a series of six articles on the life of Stalin written for International News Service, which will appear in The Morning Avalanche, starting Tuesday, Aug. 17. Read them daily!

Kermit Man Is Hijacked Here

Police early today were investigating a reported armed hijacking in which two Mexican men held up a Kermit man, took $16 and engaged in a fight with him in his truck before fleeing. They left a .22 caliber rifle, which they used in the holdup, in the truck.

Paul M. Moore of Kermit, reported to police that two Mexican men followed him to his truck parked on the corner of Ninth street and Avenue G about 11 p. m. last night and held him up with a .22 caliber rifle. They took $16 cash from him, his billfold which had his name in it and which also contained his car papers.

Started Fight In Truck

Then the two men forced Moore into the cab of the truck between them and started down Ninth street to Avenue H. At the corner of Ninth street and Avenue H, Moore said he "clashed" the gears and the Mexicans then turned north on Avenue H toward the North Avenue H underpass. Just as they got in front of the Ben E. Keith company, Moore said he started fighting with the Mexican on his right. Both Mexicans then jumped from the truck and ran, he said.

Moore then went into the Ben E. Keith company, reported the incident and awaited arrival of

Condition Of Babe Ruth Is 'Improved'

NEW YORK, Aug. 12 (AP)—Babe Ruth showed slight improvement today in his battle with a critical illness at Memorial hospital.

His family and friends seemed encouraged about his condition.

Mrs. Claire Ruth, his wife, told reporters "he's feeling better" as she left the hospital for a short time this morning.

The morning bulletin at the Memorial hospital center for cancer and allied diseases said the former baseball star had rallied and that his pulse was stronger

"Condition improved, although still critical," it added.

The second bulletin of the day, issued at 4:30 p. m. (CST) said the Babe's condition remained unchanged.

Eleven Men Are Believed On Missing Navy Privateer Plane

GUAM, Aug. 13 (Friday) (INS)—A Navy privateer patrol plane, with possibly 11 men aboard, was long overdue at Guam today and feared missing.

The plane, from heavy patrol squadron 13, was on a routine flight to map weather 450 miles north of Guam.

It took off at 3 a. m., yesterday morning and was due back at 1 p. m.

All search efforts have thus far proved fruitless but were being continued.

The plane normally carries a crew of nine with two aerologists.

Alabama Governor Folsom To Retire From Politics In 1951

COLUMBUS, Ga., Aug. 12 (AP)—Gov. James E. Folsom of Alabama said today he is quitting politics when he steps down as governor in January, 1951.

The recently married executive, famed in the past as "Big Jim" and "Kissin' Jim," said he would return to the insurance business at his home in Cullman, Ala.

Here to inspect Alabama National Guard troops at Fort Benning, he said in an interview:

::I don't want to grow old and be a broken-down politician. I want to get the political bug out of me while I still am young.

"I have always said I would never run for office after I am 40. Well, I'll be 40 in October.

Western Diplomats Talk With Molotov

MOSCOW, Aug. 12 (AP)—United States, British and French diplomats talked today with Soviet Foreign Minister V. M. Molotov in the fifth of a series of Kremlin conferences on the Berlin crisis, and other East-West differences.

The session lasted for two hours and forty-five minutes. When it was over, U. S. Ambassador Walter Bedell Smith said: "We are still without any conclusions."

There is no sign that the negotiations with the Russians are nearing an end. Asked by a newsman if there would be more conferences, Smith replied: "We never know that, but I do think so."

MOLOTOV'S PROGRAM REJECTED

UN Committee Votes To Shelve Russian Plan To Reduce Arms

(By The Associated Press)

LAKE SUCCESS, Aug. 12 — A United Nations commission decided today Russia's scheme for slashing the world's armaments cannot be put into effect under present international tension.

The vote in the 11-nation commission on conventional armaments meant shelving Foreign Minister V. M Molotov's ambitious plans for reducing the arms of all nations. The ballot was 9 to 2 with Russia and the Soviet Ukraine dissenting.

"A system of regulation and reduction of armaments and armed forces can only be put into effect in an atmosphere of international confidence and security," the commission concluded.

As examples of essential conditions, the UN body listed establishment of a world police force, agreement in international control of atomic energy and conclusion of the German and Japanese peace treaties.

The commission was careful not to junk the program outright and agreed that planning should go ahead in preparation for the day when international confidence is restored. However, no further deliberations are expected before

Over 200 Expected To Register For Session

Lost Battalion Will Open Reunion Today

VANGUARD of men coming here for the fourth annual reunion of the famed Lost Battalion,—the 131st field artillery which dropped from sight on Java during World War II when its members were taken as prisoners of war by the Japanese—arrived Thursday and was ready for a two-day round of business and pleasure opening today.

First men to arrive were in a group from Wichita Falls arriving Thursday morning.

200 Or More Expected

Between 200 to 250 persons are expected for the reunion. James H. "Cotton" Bryant, Claude A. Thomas and E. L. Rayburn are arrangements chairmen.

Men are expected from as far away as Germany and the Panama Canal zone from east and west coasts and northern and southern borders of the United States. The larger number is expected from Texas, home state of the battalion.

Expected from the longest distance was T-Sgt. Harold James, who was expected momentarily by his mother, Mrs. L. E. James of 1908 Fifth, late Thursday.

James received a telegram in Frankfurt, Germany, where he is stationed with the 14th Crew carrier squadron, inviting him to the reunion. He wrote his mother he would come to the United States to get an airplane and would receive a few days' leave and said for her to look for him any day. It will be his first trip home in three years. James is with a squadron transporting food into Berlin.

Also expected for the reunion is Joe J. Garcia of Christoval, Canal Zone, who sent a card to Bryant stating he would attend.

Dallas Man Heads Group

J. B. Heinen of Dallas is president of the group of former members of the Lost Battalion.

Registration will open at 8 o'clock this morning at both Hilton and Lubbock hotels. Time will be allowed between scheduled events for men simply to get together and talk.

A meeting is to be conducted between 2:30 and 4:30 o'clock this afternoon at Lubbock hotel.

A memorial service for deceased prisoners of war is to be conducted at 7:30 o'clock tonight at the First Baptist church. Dr. H. I. Robinson, pastor of the First Methodist church, will officiate at the service. Robert W. Sisson, manager of the regional office of the Veterans administration, will speak. Mrs. Rex Webster will be organist. The service will be open to the public.

A dance for members and their wives or dates only is scheduled at Lubbock hotel, following the memorial service.

At 10 o'clock Saturday morning, a business meeting will be con-

See REUNION Page 10

Man Posts Bonds In Farwell Case

Sidney Miller, 41, of Fort Worth, was arraigned in Farwell Thursday on charges of murder in the death Aug. 3 of O. T. McDaniel, Melrose, N. M., farmer and former county commissioner, the Associated Press reported to The Morning Avalanche last night.

It was also learned in Lubbock last night that Miller had been charged in Littlefield with swindling and had posted a bond of $3,000 in connection with the case Thursday afternoon.

Both Bonds Posted

Miller, arrested Thursday in Lubbock when he surrendered to Ranger Capt. Bob Crowder, waived preliminary hearing in Farwell on the murder charge and was released on $7,000 bond set by Justice of the Peace Ness Newton, the Associated Press reported.

The Fort Worth defendant is scheduled to appear before the Palmer county grand jury Oct. 11.

Sheriff Earl Booth said he understood that Miller operates a liquor store at Fort Worth.

Four other persons also have been charged in connection with the Farwell case.

At the same time, it was disclosed that another of the suspects had been released after questioning.

Arrested by state Rangers of the Lubbock Ranger district, Capt. R. A. Crowder and Raymond Waters, the men were taken to Littlefield, Farwell, Clovis, N. M., and to Melrose, all of which places figure prominently in the investigation.

The 41-year-old man positively was identified Thursday as having been identified with a lease deal that swindled McDaniel of $12,600, it was announced.

Efforts to arrest the others named at Farwell continued.

McDaniel was found dead in his parked car, a .22 rifle near the body. That was two days after he had purchased what allegedly turned out to be a spurious oil lease on a Mills county farm.

Four-Year Old Lubbock Boy Enters Hospital With Polio

Charles Revier, 4-year-old son of Mr. and Mrs. Frank F. Revier, jr., of 2407 Thirty-second street, was admitted to Lubbock Memorial hospital early Thursday morning with a condition diagnosed as polio.

Hospital authorities reported late last night that condition of the child was "not very serious" and that "scarcely any paralysis" was in evidence.

It was the second case of polio reported in Lubbock in two days

The family was attempting last night to locate the Revier boy's paternal grandparents, Mr. and Mrs. Frank F. Revier, sr., to inform them of the boy's illness. They had gone on a short trip of two or three days, it was reported.

Meanwhile, attendants at the hospital said that 7-year-old Jerry Hutson, who entered the hospital about 9 a. m. Wednesday with polio, was improved considerably. They expressed the belief that treatment had been started in the early stages of the disease, and that paralysis would be averted. He is the son of Mr. and Mrs. J. B. Hutson of Lubbock route 1.

DIXIECRATS PLAN CAMPAIGN

Texas States' Righters Take New Political Punch At Jester

(By The Associated Press)

HOUSTON, Aug. 12 — Texas States' Rights Democrats took another political poke at Governor Beauford Jester today as they named a nine-member committee to direct the Thurmond-Wright ticket campaign in the state.

Two hundred states' righters cheered Nowlin Randloph, president of the Houston Bar association, as he threatened Jester with opposition in the November general election if the September State Democratic convention in Fort Worth is not handled in a "legal way."

Speaking before a statewide strategy mass meeting at the Houston music hall, Randolph said "we will win that convention unless they defeat us by unlawful means."

Referendum Action Scored

The State Righters hope to control the convention and have it instruct the state's 23 Democratic electoral college delegates to support the Thurmond-Wright ticket instead of the Truman-Barkley slate as at present.

Bowlen Bond of Teague was named director of the state cam-

Hurley Claims Only GOP Can Block Texas 'Water Grabbing'

FORT SUMNER, N. M., Aug. 12 (AP)—Maj. Gen. Patrick J. Hurley said today that New Mexico "cannot get a square deal on water as long as New Mexico water is under the political control of Texas."

In an interview at this water-conscious city, the Republican senatorial candidate charged that the Democratic party will never see to it that New Mexico gets a fair share of water from streams running through New Mexico and Texas.

"Texas is the strongest political force in the Democratic party in the southwest," Hurley said. "Texas desires more than its share of New Mexico water."

Anderson Scored

Only through the Republican party, he continued, "can the water users of New Mexico obtain justice on a division of water rights on the Pecos, Canadian and Rio Grande rivers."

Hurley visited Fort Sumner on a campaign tour that will carry him the length of New Mexico in the next 10 days. He also took occasion to criticize Clinton P. Anderson, his Democratic opponent, on the water issue.

He asserted that Anderson "has said that he can get along well with the Republicans in Congress. That is to say he could get more from the Republicans in Congress than he and his fellow members have been able to obtain from the Democrats.

"In other words he is telling you that if you elect him he can obtain for you a greater degree of justice from the Republicans than he and his associates have been able to obtain from the Democrats.

Great Salt Lake, in Utah, is about three and one-half times as salty as the ocean, according to the Encyclopedia Britannica.

DOOR SLAMS

Boy Is Launched On Long Pacific Voyage

LOS ANGELES, Aug. 12 (AP)—Richard couldn't open the door, so he got a round-trip ride from Honolulu to here and back.

Ten-year-old Richard Serrao and his mother boarded the Matson liner Lurline at Honolulu to see friends off.

"I went into a restroom and the door slammed," the lad related here today. "I couldn't get it open."

The Lurline was far at sea when Richard was discovered. Ship's officers radioed his mother, who wired $120 for a round trip ticket.

The Lurline sails for Honolulu tomorrow night and ship's officers are keeping a sharp eye on Richard, just in case he slams a door ashore.

Fire Reported Spreading Over Louisiana Woodlands

BATON ROUGE, La., Aug. 12 (INS)—Fire raged today in the Louisiana woodlands of Rapides parish, spreading over 6,000 acres.

More than 150 men taking directions from an airplane are fighting the flames.

James Kitchens, information agent for the Louisiana Forestry commission, said the fire is burning furiously and that more aid has been requested from the state.

The fire threatens to be a repetition of the one last year that caused a million dollars in damage.

BLIND TEACHER MARY BURCHEY PERRY—Blind teacher places hands of new student carefully in right position on keys.

* * *

Blind Woman Teaching Students Who Are Able To See; Class Is Put On Its Honor

NEWPORT, R. I., Aug. 12. (AP)—Blind from birth, Mary Burchey Perry has opened a school here for typists who can see.

"Sighted people must consider themselves blind in order to learn touch typing," she explains. "In my studio they work with typewriters which have blanked-out keys."

Miss Perry puts her students on their honor from their first lesson, because, of course, she cannot see to correct their papers. After each lesson the students score themselves. She says:

"My students really want to learn typing, or they wouldn't come to me. So I'm perfectly safe in putting them on their honor."

Miss Perry uses a standard typewriter herself. To set the pace and give her students the proper rhythm in their typing, she plays the piano for them. She has been a typist for 20 years, taking her first lesson when she was ten.

Born with light perception only, Miss Perry attracted the attention and interest of Miss Edith Ballinger Price of Newport some 28 years ago. Miss Price became her guardian and has been her close companion and friend ever since. Miss Perry attended the Perkins Institute for the blind in Watertown, Mass., where she learned to read Braille and to type.

Her typing school, the Cottage School, actually is housed in a cottage at the foot of a large garden.

Couple To Bypass California Law

Linda Christian, Tyrone Power Due To Wed In Rome Saturday

By LOUELLA O. PARSONS
INS Staff Correspondent

HOLLYWOOD, Aug. 12 — The announcement made in Mexico City by Senora Alvarez-Amezquita, Linda Christian's mother, that her daughter will marry Tyrone Power Saturday in Rome came as a surprise to me.

Linda had said in an interview she gave me:

"We will not do anything that isn't in accord with the law, so we will wait to marry until after Tyrone gets his final divorce decree from Annabella, January 26."

According to Senora Amezquita, Linda's sister Ariadne will be maid or honor, Darryl Zanuck will be Ty's best man, and four former school mates of Linda's in Florence, Italy, will be bridesmaids. The ceremony will be held at the home of Aba Nigliebich.

Ty and his redhaired bride will have a two-day honeymoon before he starts "Prince of Foxes," in Italy.

In Rome his marriage will be held legal, since Tyrone was never married before in the Catholic church, and this is Linda's first marriage.

But according to the civil laws in the state of California, they cannot live in the state as man and wife until after January 26, 1949.

Even though Linda's wedding gown is described by Rome's leading fashion designers, the Fontana sisters, as white tulle with a white veil, and the dress is to be delivered Friday, 20th Century-Fox studio still insists it has received no official word of the approaching nuptials.

Linda, however, sent a telegram to a friend saying, "Ty and I are being married either the 14th or 15th of August"—which would be either Saturday or Sunday.

LINDA CHRISTIAN

$17,000 Taken In Bank Holdup

KEVIL, Ky., Aug. 12 (INS)—A daring gunman robbed the Kevil bank of approximately $17,000 today and escaped in a "borrowed" automobile containing two accomplices.

The gunman entered the bank at noon and forced two assistant cashiers, John Miller and Mrs. Linda Hook, and two customers into the vault.

There he took all the money in sight and emptied the cash drawer on his way out.

A group of children who were passing the bank saw the holdup and gave the alarm.

Bandits Are Chased

Ed Keeling, a Kevil resident, gave chase in his car as the bandits drove away.

One of several bullets fired at the pursuing car struck the radiator and Keeling was forced to abandon the chase.

Police Chief Lester Block of nearby Paducah, Ky. identified the car as a machine that had been given to a prospective purchaser for a trial ride two hours before the holdup.

McCracken county authorities alerted law enforcement officials in southern Illinois, where they believe the bandit trio may have sought refuge.

Kevil is across the Mississippi river from Metropolis, Ill.

Today's holdup was the second at the Kevil bank in slightly more than a year. Gunmen obtained $11,500 there on June 30, 1947.

Don't Suffer With Ingrown Toenails

Spare yourself the torture of surgery or dangerous infection. This agony can be eliminated simply and safely. $1.00 in cash or money order brings sure method of permanent relief for entire family. Money back guarantee! Act now! DALLAS FRENCH CO., 2934 N. W. 28th., Okla. City, Okla.

"OLD ENOUGH TO BE HIS MOTHER"

*That's one of the signs of a Borderline Anemia**

We've all met women who seem years older than their husbands—pale, dispirited, no fun to be near.

Yes, and their loss of pep and healthy color may very well come from red blood cells that are faded and weak. They may have a Borderline Anemia—due to a ferro-nutritional deficiency of the blood. Medical studies show that up to 68% of women—many men and children—experience this tiring blood condition.

Weariness and pallor have many causes—always consult your doctor regularly. But if you have this Borderline Anemia, remember: Ironized Yeast Tablets can help you reclaim your vitality and healthy good looks. They are specially formulated to help build up faded, shrunken and fagged-out blood cells. To feel better—to look better—to act more alert and alive—try IRONIZED YEAST TABLETS!

**Due to a ferro-nutritional blood deficiency, a condition for which Ironized Yeast is specially formulated.*

WIN YOUR WINGS

Learn how you can qualify for a $336 a month, pilot-executive job in the U. S. Air Force. Find out about the tremendous opportunities that are opening up for men with flying and administrative experience.

Here's how! In a few days now, a special Air Force team will be here to interview men interested in Aviation Cadet Pilot Training. You'll have a chance to talk to the pilots themselves. If you wish, you can make your application and take most of your examinations then and there. Call your nearest Army and Air Force Recruiting Station for an appointment.

MARSHALL'S STAND ON RECORDS IS ASSAILED

Solon Charges State Department Delaying Probe Of Red Infiltration Through UN Organization

By H. K. REYNOLDS
INS Staff Correspondent

WASHINGTON, Aug. 12.—Sen. Revercomb (R-WVa) charged the State department today with impeding a Senate probe of Red infiltration into the U. S. through the United Nations.

Revercomb, chairman of the Senate Immigration committee, said that Secretary of State Marshall had blocked committee access to official visa records.

The senators are probing charges that Communist agitators are getting into the United States through the UN and other international bodies.

May Subpoena Records

Revercomb, from his home in Charleston, W. Va., authorized a statement that as a result of Marshall's action, the committee has voted to subpoena the records, if it has the power to do so. The senator declared:

"We believe we have a right to examine the files to ascertain if Communist organizers have been admitted to the United States through the channel of international organizations which have diplomatic immunity.

"This is especially necessary in view of testimony that some visa requests in this category were rejected, but that the decisions were overruled by 'higher authority.'"

To Seek Information

Revercomb said that his committee, in voting to subpoena visa files had taken the position that Marshall can be "required" to comply with the committee's request, but added:

"We run into the same problem which has confronted other congressional committees—an administration policy of refusing to divulge information needed in the course of official inquiries.

"We intend, however, to exert every legal right to obtain such State department records as are deemed pertinent to the present investigation."

An official of the State department visa division, Robert C. Alexander, touched off the probe of Communist activities of the international organization's immunity act.

The law accords diplomatic privileges to thousands of foreign representatives attending meetings of the UN and a dozen other international groups in this country.

Alexander charged that "hundreds of subversives" had entered the United States by this means. Marshall has denied it.

Add a quarter cup of grape juice to a cup of lemonade for a refreshing and different summer drink. Top with sprays of fresh mint leaves if available.

Winner Of City-Wide Parks Contest Named

Bobby Boles, representing Carlisle park, emerged champion in the city-wide carrom playoff held Thursday afternoon at Carlisle park. Runner-up was Chuck Strehli from Wagner park.

Two players, first and second winners in the local tournaments, represented each park in the playoff.

In the first round, Jimmie Roberson of Burns was defeated by Bobby May of Carlisle; Chuck Strehli of Wagner won over Charles Roberson of Burns; and Jimmie Evans of Wagner and Don Boles of Carlisle advanced to the second round when both players from Pioneer park defaulted.

Jimmie Evans was defeated by Don Boles and Bobby May lost to Chuck Strehli in the second round.

The city-wide playoff among park champions in ping pong will be held at 3 p. m. Monday at Pioneer park. Playoffs in "Wari," checkers and horseshoes will follow.

Local contests are also being held in storytelling, with the city-wide contest to be held August 24 at the Barbecue pit in Mackenzie park. Mrs. Gladys Sims is arranging this last event.

Park playgrounds will not be supervised this afternoon, because of the picnic for city employees, for which playground directors are planning and will conduct games. Morning hours will be observed as usual today and Saturday, however, according to announcement from the Recreation department.

Methodists To Seek College Donations

DALLAS, Aug. 12 (AP)—Representatives of five Texas Methodist schools today at Southern Methodist college named a committee to promote donations Oct. 17 for the institutions from the state's approximate 700,000 Methodists.

The simultaneous appeal for funds to the schools, to be taken in approximately 3,000 churches, will be the first in the history of the denomination.

Consolidation Approved

It was authorized this summer at annual meetings of Methodists conferences in the state which approved a plan to establish the Texas Methodist College association to consolidate finance, publicity and enrollment-building activities.

Trent Root, assistant in finance administration at SMU, was named chairman of the promotion committee. One of its activities will be to prepare a brochure showing that 15,000 students are enrolled in the five schools which have operating needs of $4,500,000 annually.

Other members of the committee are Dr. Harold G. Cooke, president of McMurry, Abilene; Howard Knox, publicity director at Southwestern university, Georgetown; R. C. Knickerbock, director of the information office and university publications at SMU, and Sam Braswell, publicity director of Texas Wesleyan college at Fort Worth.

The fifth institution represented at the meeting was Lon Morris college at Jacksonville, whose president, Dr. C. E. Peeples, was present.

To make sugar syrup for use in summer fruit drinks mix a cup of sugar with a cup of boiling water and stir until the sugar is dissolved. Boil 10 minutes and store in refrigerator to use as needed.

Youth Is Facing Assault Charge

Bobby Leldon Parkinson, 19, of 2316-A Nineteenth street, posted bond of $1,000 late Thursday on a charge of assault with a prohibited weapon filed against him Thursday in connection with a Wednesday night gun-play incident at Knapp hotel.

In a statement executed and signed before District Attorney Lloyd Croslin, Parkinson said he took a sawed-off .22 rifle from his shirt and pointed it at the porter, Ira Simmons. The charge was sworn to by LeRoy Boling, jr., city detective.

Others Lined Up

Simmons, the defendant admitted, took the gun away from him and called police. Approximately three men and two women also were "lined up" by the man with the gun, police said.

The defendant ran after the gun was wrested from him and was arrested in his car at a service station here. He said he had been drinking.

Parkinson is a mechanic for a machinery company here. He is married.

Gun Was Not Loaded

The gun was not loaded, witnesses said. Officials said Parkinson told them he was "broke."

Mrs. J. George Loos, associated with a carnival company showing here, told officials that a heavy automobile she and her husband own had been stolen. A pickup order was issued by Lubbock officials. She also charged that funds belonging to the show, perhaps from $700 to $1,000, had been stolen.

Police Thursday were investigating a break-in of the Parker F. Prouty residence at 3019 Twenty-first street, apparently accomplished sometime after midnight Wednesday. James D. Shaw, a business associate of Mr. Prouty, was with police at the scene and said as far as he could judge nothing of value had been stolen. The break-in was noticed by a maid when she entered the house this morning to care for her duties. The Proutys, with their children, were vacationing in the New Mexico mountains and were to arrive in Lubbock late last night.

Other Thefts Probed

Another residence burglary was reported to police Thursday afternoon by Mrs. Occil D. Wadsworth of 1502 Ninth street.

Stolen were articles and money amounting to about $50.60, police reports indicated. Included on the missing list were a brown suede handbag valued at $15, a black suede handbag valued at $5, a coin purse, a rhinestone bracelet valued at $5, a ladies skirt, a small bank and cash in the amount of about $22.

Adell Thompson of 1212 Ave. O said that a bill fold containing $20 and papers was stolen from her residence. A 14-year-old suspect was later apprehended at Post and most of the money recovered. Being a juvenile, she was released to relatives.

A 24-year-old Spur man was in custody of police last night in connection with a drunk driving charge. He was arrested after two police patrolmen followed him for some distance in the truck he was driving. After narrowly escaping several accidents, reports alleged, he was stopped and taken to police headquarters. Formal charges will probably be filed this morning. The arrest was made by Patrolmen R. E. West and Cecil Dickey.

Billy Rose Receives Backing On Offer To Take Over, Modernize Metropolitan Opera

By WALTER LOGAN
United Press Staff Writer

NEW YORK, Aug. 12.—Billy Rose, pint-sized showman with the big ideas, said today that the Metropolitan opera could make more money if it would use enough light to show the audience what was going on and put some clean costumes on its performers.

The 12 unions meeting today with the opera management to try to find some way for a 1948-49 season, said Rose's ideas for modernization wouldn't hurt at all.

Rose, who offered to take over the opera management, said there was no sense in an annual deficit with the organization's guaranteed audience.

"Opera would be better off without dirty costumes, poor scenery, ugly wigs, inadequate lighting and dismal dancing," he added.

Latest Rose supporter was tenor Lawrence Tibbett, president of the American Guild of American Artists—representing all artist personnel of the opera. From his bed where he is suffering from a cold and high fever, Tibbett dictated the following statement:

"Mr. Rose's offer to take over the 1948-49 season at the Metropolitan is most reassuring. No matter what happens, this public-spirited gesture would seem to guarantee not only a continuance of a great institution, but employment for more than 600 people."

Rose, whose modernized version of Carmen—produced as "Carmen Jones"—ran for three years on Broadway, not only offered to streamline the opera but guaranteed personally the quarter of a million dollar annual deficit.

Rose contended that French composer Bizet who wrote Carmen would have liked his modernized version. "Modern staging won't hurt the singing and dancing," he said, since the operas had "marvelous plots."

Composer Deems Taylor said he had "never heard Billy Rose make any offer that he couldn't make good" and said he found the prospect "very exciting news."

Other comments on Rose's plan ranged from "terrific" by Frederick Schang, executive vice-president of Columbia artists, representing such stars as Dorothy Kirsten and Lily Pons, to the question by Mark Levine, president of the National Concert and Artists Corp., as to whether Rose could follow operatic custom of presenting a new show each night.

"If he can do it," Levine said, "more power to him."

Kiwanis Club Entertained With Singers, Sound Film

Musical entertainment for the Kiwanis club weekly luncheon Thursday at Hotel Lubbock was furnished by the Westernaires, a quartet from the local chapter of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America.

Quartet members are Jack Hall, Boo Hufstedler, Robert Dennis and R. S. Robertson. An American Tobacco company colored sound film was also shown at the luncheon by R. C. Barnes, traveling representative of the company.

Announcement was made that the downtown Fort Worth Kiwanians will be guests of the local club and will present the program at the Aug. 26 luncheon. Waggoner Carr, newly-elected county attorney, will speak at next week's luncheon. L. E. (Jack) Davis, club president, presided. Invocation was by A. N. Gamble.

Tired, Aching, Tender Feet

In just one minute after an application of Emerald Oil you'll get the surprise of your life. Your tired, tender, burning feet will literally jump for joy.

No fuss, no trouble; you just apply a few drops of oil over the surface of the foot night and morning or when occasion requires. Just a little and rub it in. It's simply wonderful the way it helps all foot misery, while for feet that sweat and give off an offensive odor, there's nothing better in the world.

Mark Halsey Drug Co. and every good druggist sells Moone's Emerald Oil — Satisfaction guaranteed or money back. Adv.

LESSON BROADCAST OVER KSEL 10:00 A. M.

The Woman's Angle
By Margaret Turner

ONE time that a woman is a good loser is when she is losing weight.

* * *

LOVING YOUR WORK

THEME of a recent radio program was "Do what you love to do." It was suggested the advice, if accepted, might mean the difference between a life of achievement and a life of drudgery.

Work is not toil and labor to one who loves his work. It's too bad that so many peple seem to be doing the work for which they have no interest except that it brings in a check at the end of each month.

To a young man learning to perform on the flying trapeze a veteran circus performer once said: "Throw your heart over the bars and your body will follow."

* * *

IN every field of endeavor those who put their hearts in their work are the real leaders. Unless a man really loves his work, gets a kick out of it and is eager to get to his job, he will never make much of a mark for himself.

Luther Burbank fell in love with plants, Edison fell in love with invention, Ford fell in love with motor cars and the Wright brothers fell in love with airplanes. And look at their records.

Someone said "Be careful what you set your heart on for it will surely come true." The men who harness their hearts to mighty tasks often see their dreams become realities.

* * *

IT'S THAT HOUSEDRESS!

HAZARDS of the common housedress were presented at a fashion show given by the Greater New York Safety council and judging from reports, an unguarded railroad crossing is safe compared to the dangers of the frocks usually worn by the woman of the dish pan and dust cloth.

Had you thought that button closings down the front of a dress can catch on gas jets and door knobs? That large pockets over the hip can catch on things and give you a nasty jolt? That too full skirts can catch your heel when bending?

Did you realize that ruffles and large bows can all too readily catch on fire when near to an open flame at the stove? That loose belts can pinion you in dangerous positions?

Talk about the safety of the home! Give us a nice, placid buzz saw any time!

* * *

AND what were the features suggested by the smart designers to overcome household hazards? They included. elasticized thread for tops of pockets to keep them flat to the body; square armholes to give comfort and freedom of action; snaps instead of buttons for closing belts; set-in belts to eliminate buckles; correct fullness and length of skirt to avoid heel-catching.

Next time you breathe a sigh of relief to be so safe and comfy when you bake a cake, check that housedress of yours to be sure it hasn't hazards that could make home as dangerous as a three-road intersection.

* * *

BEAUTY HINTS

ROUGH looking elbows are an unattractive sight on any woman. So polish up your elbows once a week by using a homemade mixture of oatmeal and cleansing cream and make certain the mixture is rough enough to create friction. It will whiten and soften the elbows.

When you are tired at the end of a hard day, try this for a real pick-me-up. Add a generous handful of epsom salts or baking soda to your bathwater, and then relax in the tub for 15 minutes.

If you are a brunette, wear brown mascara, as black tends to make the eyes look hard. And never apply makeup to the lower lashes.

* * *

FORMER friends in Santa Rosa, Calif., are looking for the address of the sister of Mrs. Joel Hedgepeth, widow of a Methodist minister. If anyone has this information, she is asked to telephone 5040.

* * *

A black female 9 weeks old puppy is to be given away. Telephone 4263.

Family Reunion Held By Leavertson In New Mexico

A reunion of the Leaverton family, which has been in progress at Camp Davis, in the northern New Mexico mountains near Rociada, for five days, has ended and relatives are returning to their homes.

David and Joan Leaverton, son and daughter of Mrs. C. C. Leaverton and the late Dr. Leaverton, left Wednesday by plane for their home in Tacoma, Wash. Other out-of-town kinsmen present were Mr. and Mrs. Harold Leaverton of Breckenridge, Mrs. Joe Kellam of Gladewater, Mr. and Mrs. Herbert Roy Leaverton of Lockney, and Colonel Vicillio and son, Butch, of New Hampshire.

Lubbock members of the immediate family at the gathering were Mr. and Mrs. D. N. Leaverton, sr., Mr. and Mrs. J. M. Davis and sons, Mr. and Mrs. D. N. Leaverton, jr., Mr. and Mrs. Joe Leaverton and daughter, Mr. and Mrs. E. H. Holcomb, Mr. and Mrs. Truman Hutson and children and Mr. and Mrs. Herbert W. Leaverton and daughter.

Mrs. Kellam, sister of D. N. Leaverton, sr., is remaining at the camp for a few days.

Mrs. Davis, co-manager of the camp, is a daughter of Mr. and Mrs. D. N. Leaverton, sr.

Mrs. Verner B. Eubank and children Sharon and George, 16-month-old twins, of San Antonio, are here visiting Mrs. Eubank's mother, Mrs. J. C. Holman of 2119 Twenty-fourth, and Mr. Eubank's parents, Mr. and Mrs. George B. Eubank of 2118 Twenty-third.

MRS. IKIE B. MODAWELL

* * *

Ikie B. Modawells To Make Home In City

Mrs. Ikie B. Modawell was Miss Barbree Williams, daughter of Mr and Mrs. D. Dillard of 401 Adams, before her marriage Friday, July 30, at 8 p. m., in the Tabernacle Baptist church. Rev. Ben D. Johnson read the ceremony.

The bridegroom is the son of Mr. and Mrs. J. H. Modawell, 3107 North Fifth. The couple attended Lubbock Public schools, and they will make their home here.

'Come As You Are' Breakfast Is Held

A "come as you are" breakfast for members of the Thursday 13 club was held in the home of Mrs. A. H. Siedenstrang, 712 Forty-seventh, Thursday at 9 a. m

Attending were Mesdames Johnny Mooney, Gordon Paulk, Ruby McCafferty, George Law and Clyde Spence, a guest.

A short business meeting followed the breakfast with the hostess presiding.

Next meeting will be with Mrs W. A. Boyd, 2119 Sanders, on August 26, at 2 p. m.

Breakfast Club Meets In Youngblood Home

Mrs. J. C. Youngblood, 1410 Seventh, was hostess to the Pollyanna Breakfast club Thursday at 9 a. m.

Members attending were Mesdames L. G. Pierce, Jr., Stanley Sigman, Louis Jarrell and Bill Stapleton. Mrs. R. C. Fields, jr., is a new member of the group.

Mrs. Stapleton, 3502 Twenty-seventh, will be hostess at the next meeting on August 26, at 9 a. m.

Colonial Needle Club Holds Meeting

At a Thursday meeting of Colonial Needle club in the home of Mrs. J. M. Dwight, 2210 Fifteenth, members attending were

Mesdames B. F. Foster, Bryan Landers, Jeff Grahm, E. N. Evans, J. H. Mullins and W. V. Lewis. Refreshments were served.

Next meeting will be on August 26 in the home of Mrs. J. H. Mullins, 3015 Ave. L.

Hardeman County Party Is Set In Park

Former residents of Hardeman county are invited to attend a picnic in Mackenzie State park on Sunday, August 22, at 2 p. m. The group will meet directly north of the swimming pool.

Persons attending should bring basket lunches and drinks for their own family. Lunch will be spread at 6 p. m.

Birthday Party Honors Betty Annette Walker

Betty Annette Walker of Wichita Falls was complimented on her twelfth birthday when her aunt, Mrs. Tom Dennis, 1104 Thirty-seventh, entertained Wednesday afternoon.

Guests were Peggy Ann Price, Donna Archer, Dorothy Nell Dennis, Shirley Ann Goodrich, Floydell Reed and Jackie Ann Standke.

Mrs. C. E. Walker of Snyder is the guest of her sister, Mrs. J. W. Henderson.

Carolyn Baldwin To Wed K. A. Barrier; Tea, Luncheon Initiate Party Series

Announcing the engagement and approaching marriage of Miss Carolyn Baldwin, daughter of Mr. and Mrs. C. A. Baldwin of Lamesa, to K. A. Barrier, son of Mr. and Mrs. Paul Barrier, 2502 Twentieth, an announcement tea was given in Lamesa home of the bride's parents Tuesday afternoon between 4 and 6:30 o'clock.

Mesdames Nelson Cope and Conley Baldwin, both of Lamesa, alternated at greeting guests at the door. In the receiving line were the mothers of the bridal pair, Miss Baldwin, Mrs. K. Jones, grandmother of the bridegroom from Roaring Springs, and Mrs. C. Baldwin of Lamesa, grandmother of the bride.

Presiding at the guest book were Misses Kate Moore and Dot Nelson and Mrs. Brady Lowe.

The bride's table was laid with a white hand-drawn cloth and held crystal and silver appointments and an arrangement of orchid asters. The floral piece was centered with a large white satin heart lettered with "Carolyn and K. A., August 31." Pouring were Mesdames K. L. Watkins, Levelland; R. F. Nix, Lamesa; and J. H. Baldwin, Lamesa.

Assisting in serving were Mesdames V. Z. Rogers, H. M. Walker, Annie Bailey, G. Z. Sherman, Dutch Leuenberger, Bill Carpenter and Misses Jimmie Lee Cotten, Nancy Walker and Janet Rogers, all of Lamesa.

Mesdames Madison Ayres and Hubert Nelson invited guests to attend the wedding as they left.

Luncheon Honor Guest

Miss Baldwin was honor guest at a luncheon held in the Chimayo room of the Hilton hotel Thursday at 1 p. m. with Mrs. Brady Lowe as hostess.

The luncheon table was centered with an arrangement of orchid phlox.

The honoree was presented with a silver water pitcher as a hostess gift.

Guests were Misses Kate Moore, Dorothy Brown, Lucy West, Nancy Walker, Jackie Lewis, Cille Moore and Janet Rogers and Mesdames Caryl A. Baldwin, Paul Barrier, Walter Posey, Don Furr, K. Jones and C. Baldwin.

Mr. and Mrs. Robert L. Burns and daughter, Carolyn, of St. Louis are visiting in the home of Mrs. Burns' sisters, Mrs. W. J. Spikes, Mrs. R. D. Williams, Mrs. Fred Sims, Mrs. Walter Smith and Mrs. Stanton Rhea, and their families.

Today's Events

First Baptist Ruth class, 1 p. m., Activities center.

First Baptist Homemakers class, 7:30 p. m., Mr. and Mrs. M. S. Craig, 2431 Twenty-second, backyard supper for husbands.

Friday Needle club, 3 p. m., Mrs. A. T. Cocanougher, 1714-B Fourteenth.

Freedom Chapter, OES, 6 p. m., Mackenzie State park, picnic for members and families.

1947 Needle club, 2:30 p. m., Mrs. Jim Pruitt, 717 Seventeenth.

Six and Six club, 7 p. m., Mrs. I. E. Barr, 2311-A Sixteenth.

Leap Year Dance Is Planned For Friday

Cinderella Dancing club is to entertain at Meadowbrook club Friday night with a Leap Year dance. The entertainment begins at 8:30 o'clock.

Hosts will be Messrs. and Mesdames W. F. Brownlee, E. S. McClure and William C. Howe.

Cootiette Club Names Convention Delegates

When Cootieette club met with Mrs. Billie McIlroy, 2317 Thirty-fourth, Wednesday night, Mrs. Alline Myers was elected delegate to the VFW and auxiliary and their branches' national convention in St. Louis, Aug. 25. Mrs. Manda Marbut, Chief Grayback, also will go to the meeting.

Mrs. Nannie Young was elected alternate delegate.

The group went to the backyard to be served hot grilled hamburgers and iced tea.

Mrs. Mary Morgan, 2320 Sixth, will be hostess to the Cootieette club Aug. 25 at 8 p. m.

Miss Porter Honored At Pre-Bridal Bridge

A pre-bridal party series for Miss Martha Gene Porter was continued when Miss Xen Harris entertained with a bridge party at her home, 1924 Fourth, Wednesday afternoon.

A hostess gift of silver was presented to the honoree.

Guests were Misses Alyce Howell, Betty Jenkins, Sue Boulter, Lam McKay, Martha Enochs, Martha LaRoe, Jo Rae Watson, Mrs. John C. McLarty, Mrs. J. Robert Duncan, and Mrs. David Weaver.

Mrs. Elmer Reed To Be Coffee Honoree

As a courtesy to Mrs. Elmer Reed, a bridal coffee will be held this morning from 9:30 until 11 o'clock at 3123 Twenty-first with Misses Judy Pierce and Eugenia Luker as co-hostesses.

Sunflowers will decorate the terrace where the outdoor coffee is to be given.

Guest list includes Misses Paula Fix, Carolyn Lockhart, Jane Loflin, Lyn Lowrey, Lynn Marie Ryan, Joan Murfee, Bettye Thomson, Brentie Sue Thompson, Jo-Ann Simmons, Margaret Fariss, Athalene Allen, Delight Hardin, Helen Beys, Thalia Beys, Louise Leftwich, Joan Lee and Jeanetta Lewis and Mesdames Buddy Miller, Wayne Bain and Hal Langford.

Mary Frances Blocker Has Birthday Party

Mary Frances Blocker was honored on her fifth birthday when her mother, Mrs. J. T. Blocker, 2011 Fifteenth, entertained Wednesday afternoon with a lawn party.

Games were played and pictures were taken. A pink and blue motif was carried out in appointments.

Guests were Arthur Jo Matistic, Larry Emmons, Albert Ross Parrott, Allen Jones, Bobbie Jean, Mary Louise and Frances Wilson, Lois Gerren, Evangeline Young, Darlene Slaton, Wanece Bownds, Preston Wilson, Clydene and Voncellia Rutledge, Karen, Craig and Gennie Austin, Patricia Matistic, Bonita Weaver.

Adults present were the honoree's maternal grandmother, Mrs. H. A. Kilpatrick of Stamford and Mesdames L. M. Austin, Henry Austin, Lloyd Nelson, Marvin Parrott, A. D. Emmons, Winston Jones, Arnold Slaton, J. P. Nelson and Arthur Matistic.

Sandra Pritchard, 8, Celebrates Birthday

Sandra Pritchard celebrated her eighth birthday Wednesday afternoon with a party at her home, 1218 Ave. N. After several of her friends called and were served birthday cake and ice cream, a visit was made to West Texas Museum on Tech campus.

It's Calendar Day!

Reporters are reminded that Sunday's Social calendar is compiled today, and if announcements of next week's club meetings are to appear in it, the Society desk must be notified by 12 noon today. The meetings will be on the third Monday through Saturday or August 16-21.

Deadline for Sunday Society pictures is 6 p. m., Thursday and deadline for Sunday Society stories is 12 noon Saturday. Only black and white prints can be used, and pictures of wedding couples will not be accepted.

Chicken Supper To Be Tonight For Needlers

A chicken supper was planned for tonight at 7 p. m., in Mackenzie State park for members of the 1934 Needle club and their families, at a meeting of the group Tuesday afternoon in the home of Mrs. Arthur Matistic.

A guest at the meeting was Mrs. H. A. Kilpatrick. Members present were Mesdames U. S. Allen, J. T. Blocker, A. D. Emmons, A. A. Matistic, Lloyd Nelson, M. V. Parrott, Lorena Wilson and Elaine Wolaford.

Meeting Change Is Voted By B-PW Club

At a business luncheon attended by Lubbock Business and Professional Women's club Wednesday noon at Hotel Hilton, it was voted to change second Wednesday meetings in each month to a seven o'clock dinner. Mrs. June Woodrum presided.

Guests were Mrs. W. W. Sherrill, Mrs. C. A. Niemeir, Miss Peggy Johnson of St. Louis and Mrs M. C. Stanford of Dallas.

Craigs Are Hosts To Radio And XYL Party

South Plains Amateur Radio and XYL clubs attended a bridge party and business hour at the home of Mr. and Mrs. T. Bruce Craig, 1706 Twenty-seventh, Wednesday night.

Refreshments were served to thirty persons.

XYL club will meet at 8 p. m. Aug. 25 with Mrs. Rogers Orr, 2501 Twenty-third.

Matador Gift Tea Honors Bride-Elect

Miss Mary Belle Richards, bride-elect of Edmond Pat Sheridan, jr., was honored recently with a gift tea given in the Matador home of Mrs. H. H. Schweitzer with Mesdames Cecil Shelton, Eddie Russell, W. F. Jacobs and George Springer as assisting hostesses. Over 100 persons sent gifts or called between 8 and 10 p. m.

Table appointments carried out the bride's chosen colors, orchid and green. Asters and sweetpeas formed a floral arrangement.

Mrs. J. C. Richards, mother of the bride-elect, and Mrs. J. D. Hord, grandmother of the honoree, attended from Lubbock.

Maurine Burleson Is Wed In California

Miss Maurine Burleson, daughter of Mr. and Mrs. J. M. Bridges of Bellflower, Calif., and Dale Bradley, son of Mrs. Anna Bradley of South Gate, Calif., were married Aug. 8 at 6:30 p. m. in Wee Kirk o' the Heather, Forest Lawn Memorial park, Glendale, Calif.

The bride is a graduate of Lubbock High school and a former student at U. C. L. A. Mr. Bradley is a graduate of Littlefield High school. He is attending Northrop Aeronautical institute

The couple is on a wedding trip to San Francisco and Yosemite National park.

Mrs. Kyle Ratisseau Is Named President Of Women Golfers

Ladies' Country Club Golf association met for election of officers in a business meeting at the Hilton hotel Thursday at 10 a. m. New officers are:

Mesdames Kyle Ratisseau, president; W. H. Eisenberg, vice-president; Hayes Seiber, secretary and E. F. Hall, treasurer.

Over 100 members attended the meeting.

Winners in Wednesday's tournaments were: Mrs. George Soash, 18 hole players; Mrs. Culver Hill, 9 hole group; and Mrs. Ira G. Dunlap, jr., beginners division.

European Nations Warned They Must Help Selves To Get U. S. Aid

By JOHN L. STEELE
United Press Staff Writer

WASHINGTON, Aug. 12—European nations were warned today that Congress may refuse to appropriate any more money for foreign aid unless they get a move on and help themselves.

Chairman Styles Bridges, (R.,-N. H.), of the Senate Appropriations committee, said future congressional action on the issue will depend upon the progress these nations have made in building up their own economies.

Want Definite Program

"We will want to know exactly how far along the road to recovery the participating nations are and exactly what they have done for themselves before appropriating another nickel," Bridges said before leaving for his Concord, N. H., home.

It was learned that Bridges, Senate President Arthur H Vandenberg of Michigan and other influential senators discussed the situation in a series of meetings recently with Economic Cooperation Administrator Paul G. Hoffman.

Hoffman reportedly told the legislators that during his recent trip to Paris, he made it "abundantly clear" to European leaders that the 16 Marshall Plan nations must speed up their efforts to help themselves over the next five months.

He said that Congress could not be expected to authorize any additional expenditure of funds unless convinced that "Europe is pulling its own weight."

Both the congressional authorization for the foreign aid program and its first-year $5,055,000,000 appropriation expire next June 31.

Fort Worth Youth Is Given Life For California Murder

FRESNO, Cal., Aug. 12 (U.P.)—John William Reeves, 20, of Fort Worth, Tex., was spared from the gas chamber today ad given a life sentence for the confessed murder of John Ford Price, 62, of Fresno, on June 17.

Superior Judge Dan F. Conway said "mitigating circumstances" saved the youthful killer from suffering the extreme penalty. He said the youth's clean record previous to the crime and his complete cooperation with the authorities were deciding factors in his favor.

Price, a filling station owner, was shot three times when he resisted an attempted robbery by Reeves and his two companions, Frank Sterling, 17, of Galveston, Tex., and Floyd Thomas McGee, 20, of Los Angeles.

Sterling and McGee pleaded not guilty to a charge of murder. Their trial is scheduled for next month.

Disarming Of Civil Guards Ordered By Philippines Leader

MANILA, Aug. 12. (INS)—Disarming of all civil guards in the Philippines was ordered tonight by President Elpilio Quirino.

His action was interpreted as an attempt to persuade larger numbers of Hukbalahap rebels and National Peasant union members to give up their arms.

Under an amnesty order which expires Sunday, the rebels who surrender before then may be granted pardons. So far, the number of Huks and peasant union members who have applied for the pardons has been disappointingly small.

The civil guards are primarily private forces hired by central Luzon landowners. They have battled frequently with dissident peasants and Huk guerrillas.

The Manila presidential palace said in an announcement:

"The action has been taken to facilitate the presentation of arms (by the Huks and peasants).

"Henceforth only the armed forces of the government, including police, will maintain peace and order in their localities."

Manila officials earlier in the day said Quirino's amnesty may fail to restore peace in the islands. They were particularly alarmed because Huk rebels who have applied for pardons have not surrendered their arms as required by the amnesty decree.

The Manila Times said a dispatch reported 1,223 peasant union members and only three Huks have so far presented themselves to authorities in central Luzon.

Phone Is Fixed After Mexican Plant Manager Buys Big Ad

MEXICO CITY, Aug. 12 (AP)—Emilio Checa, manager of an undershirt factory, bought a quarter-page in the newspapers last Saturday to inform the manager of Telefonos De Mexico:

"Thirty-five days ago we reported our telephone out of order Won't you please have something done?"

The phone works now.

Rail Board To Issue 90-Day Field Orders

AUSTIN, Aug. 12. (U.P.)—The railroad commission will embark on a policy of issuing seasonal 90-day oil and gas proration orders at its state-wide hearing at Dallas Aug. 18, Chairman Ernest O. Thompson said today.

The proration order issued next Wednesday will cover allowable production for September, October and November, Col. Thompson said.

May Become Policy

He added that the commission hopes to make such orders a policy, issuing them four times a year for fall, winter, spring and summer.

The commission, he said, has not issued three-month orders in several years, though in recent months it has issued several two-month allowable orders.

Col. Thompson said the two-month proration orders had met with success. Ninety-day orders, he pointed out, would "save a great deal of time, expense and printing."

The latest allowable for Texas oil fields, he reported, calls for production of 2,640,000 barrels daily, but with underproduction the actual amount of oil turned out, according to latest figures, is 2,415,475 barrels a day. The East Texas field is producing on a 21-day basis now, and average weighted bottomhole pressure for the field has dropped slightly there in the past month.

UNGULATES

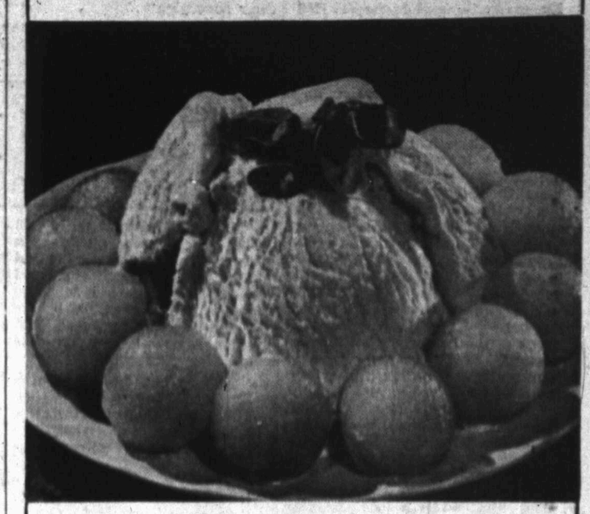

Horses and cows come under the zoological classificihtion of ungulates, or hoofed condition of this group has been attained independently by various lines.

MAY REACTIVATE FIELD

DENVER, Aug. 12 (AP)—The Army air field at Hobbs, N. M., may be withdrawn from surplus and reactivated, Regional Director John A. Skeen of the War Assets administration said today.

There are motion pictures in almost 10,000 U. S. towns and cities.

Flavorful, Fruitful Dessert

MINT-PINEAPPLE ICE CREAM with MELON NECKLACE

It's easy, pretty—and delicious! So serve this dessert often to guests or family. Heap Swift's Mint-Pineapple Ice Cream on each serving plate. Around it, make a necklace of watermelon or cantaloupe balls. Garnish with sprig of mint. Swift's Mint-Pineapple Ice Cream (featured right now at your dealer's) is a delightful flavor treat! Combines the cool, refreshing taste of mint, the tangy sweetness of pineapple with the creamy smoothness you always find in Swift's ice creams. And it's nourishing—made from only choice dairy products and fruits, pure flavors. Get it today!

Refreshingly yours, Martha Logan *Home Economist*

FABulously better for all your family wash

FAB with SUPER-WETTING ACTION

NEW INGREDIENT GETS WHITE WASH WHITER ...COLORS BRIGHTER!

FAB contains a *fabulous* new ingredient that gets white wash whiter, colors brighter. Besides, FAB leaves no soap scum to "gray" or "yellow" white wash or dull colors . . . even in hardest water. And FAB removes soap scum left in clothes by previous soap washings.

FABULOUS SUDS, even in hardest water. Two washing machines were filled with hardest water. One cup of FAB made a washer brimful of suds. One cup of soap made almost no suds!

washes everything

FASTER, CLEANER, WHITER, BRIGHTER

than any soap...in hardest water!

Colgate-Palmolive-Peet brings you this fabulous wonder-worker for all family wash... Washes even grimiest overalls cleaner faster!

Super-Wetting Action is a new scientific washing principle. When you wash, FAB with *Super-Wetting Action* penetrates materials faster and more thoroughly than soap... *pushes* dirt *out!*

New ingredient... another fabulous miracle... gets white wash whiter and colors brighter!

No soap scum...even in hardest water! Even grimiest overalls and play clothes get cleaner faster with FAB. There's no soap scum, even in hardest water. Clothes get whiter, cleaner!

FAB WASHES CLOTHES CLEANER THAN ANY SOAP!

FAB with *Super-Wetting Action* instantly penetrates materials; pushes out dirt. Washes grimiest overalls cleaner faster than soap! No "graying" soap scum. Wash is whiter, cleaner!

FAB WASHES CHEAPER ...IN HARDEST WATER!

Laboratory tests prove that cup for cup, in hard water, FAB washes up to twice as much family wash as soap. All of FAB washes ...Nothing is wasted in soap scum!

FAB WASHES DISHES TWICE AS FAST!

No need to wipe dishes. Just wash with FAB, and rinse. *NO* soap scum to polish away. Even glassware sparkles! FAB slashes through grease as no soap can do!

What is Super-Wetting Action?

To see, drop a little ball of cotton thread into a glass of water. It floats; stays dry a long time. Drop another ball of thread into a glass of water and FAB. It sinks at once. This shows how FAB with *Super-Wetting Action* penetrates materials faster and more thoroughly.

Faster And Better for all family wash and Dishes

Soviet Minister Rejects U. S. Amendment Asking Austro-German Participation In Danube Control

By KINGSBURY SMITH
European General Manager, INS

BELGRADE, Aug. 12.—Soviet Deputy Foreign Minister Andrei Y. Vishinsky rejected tonight an American amendment calling for Austro-German participation in a Danube control commission.

The Soviet purge trial prosecutor also unleashed an attack on America's Marshall plan aid at the Belgrade parley.

As the Soviet steamroller tactics continued, it was learned that chief U. S. Delegate Ambassador Cavendish Cannon has induced the French and British delegations not to stage a protest walkout for the present.

The American proposal turned down by Vishinsky, who controls seven of the conference's ten votes was backed by a U. S. offer to give up its seat on the commission in favor of Germany and Austria.

However, Vishinsky said that Russia cannot accept Austro-German participation until peace treaties are concluded with those nations.

In his attack on the Marshall plan, the white-haired Russian called it an "economic dictate" and added:

"The Marshall plan is unacceptable to those states which respect their sovereignty."

He declared that those European states which accept American aid are forced to give up nationalization plans. He termed the recovery program a scheme to benefit American "monopolists" at the expense of U. S. taxpayers.

The decision by the Anglo-French delegation to postpone their planned walkouts followed a request by the U. S. government to London and Paris who in turn issued instructions to their delegation chiefs.

Cannon believes that the Western Powers should avoid as long as possible staging a spectacular demonstration against Russia at this conference while the crucial Moscow talks on Berlin are in progress.

Both the British and French delegates have been wanting to stage a boycott since last Saturday when Vishinsky made it clear he intended to push through a Russian draft treaty for the Danube without any western amendments.

Chicago Gang Figure Believed Ride Victim After Wallet Found

CHICAGO, Aug. 12 (INS) — Authorities expressed belief today that John (Blackie) Sullivan, 49, known in the Chicago underworld as a slot machine hijacker, has been taken for a ride from which he will not return.

They based their theory on the finding of his rain-soaked wallet in a vacant lot.

Police Search Area

Sullivan, who twice has been the target of gangland ambush attempts, spent several months in a hospital recently after he was shot the second time.

Capt. Walter Healy headed a police search party into the prairies near where the wallet was found in an effort to determine whether Sullivan was killed and left in the area.

The wallet was found by two workmen digging a trench for a gas main.

The police search party found additional papers belonging to Sullivan, including a $517 hospital bill, two blocks away.

Mail Uncalled For

Capt. Healy reported that a friend of Sullivan who has been keeping the missing man's mail, said that Sullivan had not called for the mail for three weeks. Sullivan was wounded the first time on Jan. 27, 1947 near 900 North State Street.

He was wounded the second time last May 3.

He refused to discuss either attempt on his life with police, but indicated on both occasions that he knew the identity of his assailant.

The police theory that Sullivan has met a gangster's death was strengthened by the fact that two of his known associates, John E. Golding and Arthur Elke, were killed in typical gangland fashion.

Golding was shot down on Feb. 14, 1947, and Elke was "taken for a ride" last Jan. 1.

31 Indian Tribes Will Take Part In Inter-Tribal Ceremony

GALLUP, N. M., Aug. 12. (INS) —The 27th inter-tribal Indian ceremonial opens next Thursday night in Gallup, with 30 Indian tribes of the southwest joining with the Sious of Pine Ridge, S. D., in the line-up of ceremonial dancers and singers.

From Oklahoma will come the Kiowa and Arapahoe tribes, and the San Carlos Apaches will move in from Arizona. The prize for the best dancing was awarded the Apaches last year.

The ceremonial this year, as in each year since the inter-tribal organization was formed in 1922, is expected to draw thousands of visitors, as well as 3,000 Indians attending the annual reunion.

No ceremonial dances are to be held at afternoon shows, which will be given over to Indian sports, contests, novelty acts and performances of various kinds. Dances will be in the evening.

Events will be concluded on Sunday.

Injured Trucker Warns Motorists Of Wrecked Bridge

CRIVITZ, Wis., Aug. 12 (INS) —A truck driver fashioned a torch of newspapers today and for 20 minutes staggered along the highway warning motorists of a wrecked bridge although his forehead had been smashed and he was bleeding profusely.

The driver, Jack Paquette, 28, of Kingsford Heights, Mich., was taken to Marinette General hospital where he lapsed into a semi-conscious state.

Paquette was driving a truck loaded with 12 tons of dam gates enroute to a project on the Menominee river near Iron Mountain. Mich.

Heavy Steel Falls

As he crossed a narrow bridge over the Peshtigo river south of Crivitz, one of the gate sections toppled from the truck and caused a section of the bridge to collapse into the river.

As the truck trailer slid back into the ruined bridge, another four-ton unit toppled on the truck cab, smashing Paquette's skull.

Despite the injury, he fumbled for a newspaper in the cab, rolled it into a torch and with it lighted staggered along the road warning oncoming traffic.

Sheriff Donald John said: "Paquette must have been on his feet at least 20 or 25 minutes signalling traffic. Even after we got there, he wasn't out of his head because he kept insisting that flares be placed to warn other trucks."

Louisiana Plans New Road Link To Texas Boundary

BATON ROUGE, La., Aug. 12 (AP)—Louisiana expects eventually to build a new road from Toomey, five miles west of Vinton, to the Texas state line to join a projected new crossing of the Sabine river, the State Highway department said today.

U. S. Engineers are conducting hearings Sept. 2 in Orange, Tex., on a permit application for the proposed new Sabine river bridge. Louisiana will be represented by highway bridge engineer J. B. Carter and E. H. Goodlje, Lake Charles district engineer.

The Louisiana department said the engineers' hearing is a preliminary procedure, conducted to make sure that the proposed bridge will not interfere with navigation on the Sabine river.

The proposed road from Toomey will be concrete surfaced.

In 1939, U. S. per capita consumption of wheat flour was only about three-fourths as great as the average in the years 1909-16.

PRESIDENT SIGNS U.N. LOAN BILL—President Truman, center, smiles as he signs legislation approving a $65,000,000 loan for the U.N. Headquarters buildings in New York during a White House ceremony. Watching are, left to right: Secretary of State George C. Marshall; U.N. Secretary-General Trygve Lie; Assistant Secretary-General Byron Price; Mayor William O'Dwyer of New York; Rep. Charles Eaton (R-NJ); U. S. Representative to the U.N. Warren R. Austin; Sen. Tom Connally (D-Tex.), and Rep. Sol Bloom (D-NY). (AP Wirephoto).

Buttered crumbs may be made by grating stale bread until you have a cupful; then melt two tablespoons of butter or margarine in a skillet, add one-eighth teaspoon of salt, a dash of pepper, and the crumbs and stir well with a fork. Use the crumbs as a topping for creamed vegetables or some other casserole dish.

Marinate cooked fresh asparagus stalks in a snappy French dressing; place on a lettuce leaf, band with a strip of red pimento and serve.

Lone Bandit Believed To Have Evaded Trap

CORSICANA, Aug. 12 (AP)—Officers tonight expressed the opinion that the lone bandit who robbed the First State bank at Rice slipped through their hands here.

Sheriff David Castles said that only three of 21 police remained on duty in the area.

Texas Rangers, state patrolmen and FBI agents had joined the search for the bandit who robbed the Rice bank yesterday.

Sheriff David Castles said all roads from Ennis to Kaufman to Athens and back to Corsicana are blocked and watched.

A car answering the description of the one in which the bandit made his get-away was reported seen speeding near Porter's bluff in northeast Navarro county yesterday afternoon.

The bandit took $4,002 in the bold daylight robbery.

The village of Barrow on Alaska's Point Barrow is the northernmost settlement in the United States.

Rep. Lucas To Train With National Guard In Texas

WASHINGTON, Aug. 12 (AP) — Rep. Wingate Lucas (D-Tex) will answer to the title of "corporal" rather than "congressman" next week.

Leaving for his home at Grapevine tonight, Lucas said he plans to join the Fort Worth National Guard's 143th armored infantry battalion for annual training, starting Sunday at Camp Hood.

During World War Two Lucas got his T/5 stripes while serving with the 59th ordnance group overseas. He was evacuated from Germany during the height of fighting near the Bulge after fracturing his back in a fall.

Overseas his duties involved driving heavy trucks and acting as a legal adviser. The former assistant district attorney said National Guard officials have promised he will receive no preferred treatment at the encampment.

Hubbers Climb To Third With 15-5 Win Over Clovis

Fielding, Hitting Sparkle In Tilt

By JOE KELLY
Avalanche Sports Editor

The Lubbock Hubbers moved up to third place in the West Texas-New Mexico League last night by swamping the Clovis Pioneers 15-5, behind the effective hurling of Roland Miller.

The victory, the Hubbers' 12th in their last 17 starts, also moved them to within one game of the Amarillo Gold Sox, who were trounced by Abilene again, 16-13.

Last night's affair was a case of base hits proving to be as effective way as possible to win. The Hubbers started early, and, having being temporarily halted, picked up the tempo again.

Miller's Pitching Sparkles

But Miller's pitching performance could not be overlooked, even though the Pioneers got to him in the eighth, after rain twice had stopped the show. The new addition to the Hubber mound staff was superb for seven innings, giving up only four hits, striking out five and walking only one.

Brilliant fielding also sparked the game, with both teams getting into the spotlight. Gene Machado at second base took part in two double plays, starting one and robbing two Hubbers of hits. Jackie Wilcox came up with a sensational stop behind second and Gene Hixson made two phenomenal running catches in centerfield of balls ticketed for hits.

The Hubbers opened the scoring in the first, when Hixson tripled and came in on Manager Jackie Sullivan's double.

In the fourth, five runs came in. Virgil Richardson was safe on an error and went to second on a wild pitch. Floyd Walker beat out an infield single and Don Moore's attempted sacrifice resulted in a fielder's choice, when Chick O'Neill attempted an unsuccessful play at third. Frank McAlexander hit safely to right centerfield to score Richardson and Chick Fowler's single scored Walker and Moore. Miller beat out a hit to third, the ball taking a bad hop over Mel Serafini, and McAlexander came in. Fowler scored when Wilcox hit into a double play.

After that the Hubbers got five runs on three hits, when Wiley Moore dropped a three-run fly, and four runs on four hits, the big blow being Fowler's 21st home run of the year.

Clovis averted a shutout on Serafini's homer in the sixth and the third baseman made it more positive by slamming another circuit clout in the eighth, this time with two on.

Then the rains really came down and the game was called for the third and final time.

Hurler Fred Groth Assigned To Odessa

Fred Groth, lanky Hubber hurler obtained on option from Gainesville of the Big State League, yesterday was assigned to Odessa subject to Gainesville option.

The announcement was made by Larry Larsen, general manager of the Hubbers, who also announced that pitchers Cotton Russell and Bob Clodfelter had been taken off the disabled list and returned to active duty.

The addition of Russell and Clodfelter to active service gives the Hubbers a staff of seven starting pitchers and one reliefer. Other moundsmen are Chris Haskins, Roland Miller, Roy Larue, Fred Pollock, Red Ramsey and Royce Mills.

Groth, obtained in desperation, turned out to be a disappointment to the Hubbers. He had streaks of looking like a great pitcher, but suddenly would lose control and become erratic. He failed to finish any one of his starts, but turned in one good relief effort. He was hampered by loss of weight and a broken toe.

Russell and Clodfelter have been two of the mainstays of the Hubber staff all season. Recently Clodfelter's arm became sore and Russell was afflicted with chronic appendicitis. Both went on the disabled list for treatment, recovering with rest.

Weldon Hart, Austin Newsman, Will Join Governor's Staff

AUSTIN, Aug. 12 (AP)—Weldon Hart, Austin newspaperman, will join Gov. Beauford H. Jester's secretarial staff about Sept. 1, the governor announced today.

He will be assistant to executive secretary William L. McGill.

Hart has been a staff writer, columnist and department head for the Austin American and Statesman, with which he began his newspaper career in 1933.

He attended John Tarleton college and the University of Texas.

Hart turned to political reporting and covered the 1945 and 1947 sessions of the Texas legislature. He was chief of the American-Statesman's capital bureau before returning to the sports department.

The governor said, "Hart is exceptionally well-informed on matters of government. He has the admiration and confidence of state officials and legislators, and he is a most genial and gracious person."

Phosphate Fire Aboard Ship Extinguished By Coast Guard

BALTIMORE, Aug. 12 (U.P.)—A fire in the hold of a phosphate-loaded Swedish freighter was extinguished by Coast Guard fire boats early today after a six-hour battle against the flames.

The 6,021-ton Axel Salen radioed for help while it was in lower Baltimore harbor en route to San Francisco. Coast Guard officials said the crew stayed on board to fight the fire. No casualties were reported.

It was feared for awhile that the flames might explode the phosphate cargo.

Cause of the fire was unknown.

TRIBE DROPS FIRST TILT; WINS SECOND GAME, 26-3

ST. LOUIS, Aug. 12 (AP)—The Cleveland Indians massacred the St. Louis Browns, 26 to 3, in the second half of a twilight-night double header, falling just one run short of tieing their own high scoring record of 27 runs, set in game with Boston 23 years ago. The Browns annexed the twilight affair, 8 to 4. The split forced the Indians to yield first place to the idle Philadelphia Athletics by a percentage margin of .6018 to .600.

Clark's Pinch Hit Homer Wins Game

Thomas-Sunbeamers Beat Lysaught, 1-0

WICHITA FALLS, Aug. 12 (Special) — Byron Clark's pinch hit home run with two out in the eighth inning gave the Lubbock Thomas-Sunbeamers softball team a 1-0 whitewash victory over the Lysaught Furniture nine here tonight.

Jackie Neel, one of the top hurlers in Texas softball circles, just missed pitching a perfect game, as he threw a no-hit, no-run effort at the favored Lysaught team. In eight complete innings, Neel faced only 25 men, the extra man getting on base via an error.

Neel In Command

The moon-faced chucker was in command of the game all the way, striking out 16 batters and walking only one. The lone stroller during the contest was erased on a great throw by Catcher Willis James, who caught the runner on an attempted steal.

Knowland Weeks, Neel's opponent tonight, almost matched pitch for pitch with the Lubbock man, but could not quite rise to the same heights. He fanned 11 Lubbock batters and walked only two in facing 29 men in eight innings.

The fatal eighth opened with Wally Fowler becoming the 11th whiff victim. James Abbott, who had hit two doubles, grounded out and Texas Tech's Charley Reynolds came to bat. At this point Manager Blackie Hilliard tried strategy. He yanked Reynolds and inserted Clark

Hits Vital Homer

Clark didn't wait long. He caught the first pitch coming in and lifted it over the leftfield fence, the ball easily clearing the barrier 280 feet from home plate. That was the ball game.

Tomorrow night the Thomas-Sunbeamers will meet the B-1 Bottlers of San Antonio at 8:15 on the Scotland Park diamond. The San Antonio nine is seeded in the first four of the tournament and another tight game is expected. They won their first game of the state A. S. A. tournament by default tonight.

The line score:

Lysaught ... 000 000 00—0 0 1
Lubbock ... 000 000 01—1 4 1

Weeks and Ashmore; Neel and James.

FAVORITES ADVANCE

SOUTH ORANGE, N. J., Aug. 12 (INS)—Mrs. Margaret Osborne Dupont, Patricia Todd and Louise Brough, all Californians, gained the semi-final round of the Eastern Grass Courts championship women's singles today along with Doris Hart.

LEGION BEATS PO

W. D. Broughton hurled the American Legion nine to an easy 16-4 triumph over the Post Office in an Industrial Softball league contest Thursday afternoon at Wagner park.

Blue Sox Sell Bowland To Mobile For Cash, Players

ABILENE, Aug. 12 (AP) — The Abilene Blue Sox of the West Texas-New Mexico League today sold Arthur Bowland to Mobile of the Southern Association for an undisclosed amount of cash and two players.

Bowland, who has a batting average of .383, served as Abilene manager until July 12 when he was succeeded by Dixie Davis of Pueblo, Colo.

He played both outfield and infield for the Blue Sox.

American Track And Field Team Defeats British Squad In Post-Olympic Meet

LONDON, Aug. 12. (AP) — The U. S. Olympic track and field team defeated a British Empire squad, 11½ to 3½, today in the dual meet which traditionally follows the games, scoring one of the most decisive triumphs since the series began is 1920.

The Americans grabbed the top three places in six of the eight individual events on a program topheavy with relay races.

Although the British won only three of the 15 men's events outright and tied in another, one of their victories made up for all the losses. That came in the 440-yard relay when an Empire quartet strengthened by two Australians galloped away from the U. S. team, which won the disputed Olympic 400 meter relay final in 41.8 seconds.

The Empire sprint team was made up of John Bartram and John Treloar, both of Australia, and Alastair McCorquodale and Jack Archer, both of England.

The Americans used Barney Ewell of Lancaster, Pa., Lorenzo Wright of Wayne university, Harrison Dillard of Baldwin-Wallace and Mel Patton of Southern California.

John Winter of Australia, the Olympic champion, won the high jump at 6 feet, 6 inches. Dwight Eddleman and George Stanich of the U. S. team tied for second at 6 feet, 5 inches. Verne McGrew of Rice and A. Patelion of Britain tied for fifth at 6 feet, 5 inches.

The American hurdlers who swept the 110 meter final in the Olympics finished in the same order today. Bill Porter of Northwestern was first in 14 seconds flat, followed by Clyde Scott of Arkansas and Craig Dixon of UCLA.

Whitfield Wins Relay

Mal Whitfield of Ohio State was given a ten yard lead and staved off a last lap rush by Herb McKenley to give the United States the victory is the mile relay by four yards in 3:13.4.

Herb Barten of Michigan cut loose on the home stretch and beat Harold Parlett by three yards to anchor the Americans to victory in the two mile relay in the slow time of 8:00.6.

Sam Felton of Harvard won the hammer throw on 177 feet, 2 inches. Guinn Smith, Olympic champion from the San Francisco Olympic club, took the pole vault at 14 feet. Steve Seymour of the Los Angeles Athletic club won the javelin with a throw of 222 feet, 7½ inches and Fortune Gordien of Minnesota captured the discus with a toss of 163 feet. Olympic champion Wilbur Thompson of Southern California won the shot put with 54 feet, ¾ inch.

BASEBALL
ROSENTHAL FIELD
HUBBERS vs. BORGER
TONIGHT—8:30 P. M.

Yank Yachtsmen Capture Honors

LONDON, Aug. 12 (AP)—America's gentlemen sailors mopped up the Olympic yachting honors, usually an European monopoly, today but the U. S. managed to send only one man into the finals of the boxing tournament it was expected to dominate.

This surprising turnabout featured the next-to-last day of heavy competition in the weary, puffing 1948 London games.

United States yachtsmen won the overall championship in the Olympic regatta with two firsts, a second and a third in the five classes and atoned for their complete shutout in 1936 when the Star Spangled Banner never once rang out over the bay.

Llanoria Wins

The Llanoria, handled by a five-man crew from Oyster Bay, N. Y., captured the international six-meter championship, biggest of them all, and a father-son team, Paul and Hilary Smart of Noroton, Conn., finished on top in the two-man star class.

The resounding American success at Torquay, however, was not duplicated at the Empire Exposition poolhouse where only welterweight Horace Herring of St. Petersburg, Fla., was able to bash his way into the boxing finals.

The 24-year-old navy steward's mate scored a decision over Doug Du Preez of South Africa. He meets J. Torma of Czechoslovakia in the final tomorrow night.

Lightweight Wallace Smith of Cincinnati was derailed by J. Vissers of Belgium on a decision in the semi-finals.

The other two Americans who lasted until today—featherweight Edward Johnson of Kansas City and heavyweight Jay Lambert of West Jrdan, Utah — were eliminated in the quarter-finals.

Swordsmen Advance

Three American swordsmen—Dean Cetrulo of Hollywood, Calif., Tibor Byilas and George Worth, both of New York—slashed their way into the semi-finals of the individual sabre tournament and posed a real threat to the Hungarians, who have held the title since 1924.

The U. S. Army's rugged horsemen continued to hold their own in the still uncompleted equestrian event.

Lt. Col. Earl F. Thomson of Lake James, Ind., returned out of the fastest times in the Olympics endurance run today.

He carried his mount over 21 miles of treacherous hurdles in two hours and two minutes to become a leading contender for honors in the three-day competition.

In the canoeing races at Henley on the Thames, the Yonkers, N. Y., team that won the 10,000 meter Canadian pairs championship fell short in the 1,000 meter race.

Czechs Beat Yanks

Steve Lysak and Steve Macknowski were beaten out by a few feet by the crack Czech team of Jan Brazak and Bohumil Kudra.

Bill Havens of Washington, D.C., placed fifth in the 1,000 meter canoe singles, won by Joe Holocek of Czechoslovakia.

Europeans dominated the canoe championships.

Denmark's Karen Hoff won the 500 meter kayak race for women. Hans Berglund and Lennart Klingstroem of Sweden tool, the 1,000 meter kayak pairs. Gert Fredricksson of Sweden added the 1,000 meter kayak singles title to the 10,000 meter crown won yesterday.

There was no decision in the men's and women's gymnastics, but an American, Louis J. Bordon of Philadelphia, suffered a foot injury when he tumbled from a horizontal bar.

Bears' Ed Kolman Suffers Broken Leg In Scrimmage

RENNSELAER, Ind., Aug. 12 (INS)—Ed Kolman, one of the outstanding National Football League tackles, suffered a broken leg during scrimmage today and will be lost to the Chicago Bears indefinitely.

The accident did not deter owner-coach George Halas from continuing a gruelling scrimmage that lasted one hour and 20 minutes.

The Bears are scheduled to play an intra-squad game at Rensselaer on Sunday.

Hub City Team To Play Beaumont In Opener Of Twin Bill Tonight

PARIS, Aug. 12 (Special)—Adamson of Dallas, defending champions of the state American Legion junior baseball program, had too much power for Lubbock in the opening contest of the state Legion playoff tournament here tonight, swamping the West Texans, 29-0.

Led by their slugging second baseman, Kal Segrist, who smashed six hits in six trips to the plate, including two long homers and a triple, the Adamson Leopards crushed their opponents by pushing across runs in every inning. The Dallas crew turned the game into a rout with an eight-run fourth stanza and a 12-run sixth. The game was called after seven innings by agreement.

The victory was Adamson's 26th straight win in an undefeated season.

Ray Fitzpatrick hurled the first five innings for Adamson, giving up just two hits and striking out 12 batters. He was relieved by Robert Aiton, who yielded one safety and struck out three in the final two frames.

Fowler Is Victim

Slender Hulen Fowler, Lubbock's ace right-hander, was the victim of the Adamson hit-barrage. Fowler was shelled for 11 hits and 13 runs in 3 1/3 innings, before he was relieved by big Jim Wilson. The Dallas sluggers collected five hits and eight runs off Wilson in two frames, bringing in reserve hurler Jimmy Hamilton.

Nine Lubbock errors contributed heavily to the lopsided final tally.

The South Plains squad suffered a blow when Left Fielder Dorrance Guy fell after making a sensational catch in the fourth inning and had to leave the game. Late reports indicated that Guy had suffered a painful, but not serious, injury of his left shoulder.

Awards Presented

In pre-game ceremonies, state department Commander G. S. Berry presented special awards to individual members of the Adamson and Lubbock teams. Co-captains Dorrance Guy and Bill Tatum received the awards for the Lubbock team.

Commander Berry threw the first ball across the plate, with national Committeeman J. M. Caviness of Paris as catcher, before the Adamson team took to the field.

The Lubbock nine will have a final opportunity to remain in the race for the state championship at 6:30 o'clock Friday night, when the West Texans tangle with the South Park Greenies of Beaumont.

Austin trampled Beaumont, 20-1, in the second game of the doubleheader tonight.

Stud Poker Captures Meadowland Race

CHICAGO, Aug. 12 (INS)—Edward E. Voynow's Stud Poker won the $21,950 Meadowland handicap at Washington park today, finishing a half a length ahead of Jacob Sher's Frere Jacques.

J. S. Letellier's Jack S. L. was third.

Stud Poker was clocked in 1:55 2/5, one second off Take Wing's American record.

The victory netted $14,700 for the owner of Stud Poker, which also accounted for the $50,000 Arlington park handicap. Jockey Robert L. Board was up on both occasions.

The winner paid $7.20, $3.80 and $2.60. Frere Jacques returned $4.80 and $3. Jack S. L. paid $2.60.

Lt. Col. Gough Wins Central Zone AAF Golf Tournament

DALLAS, Aug. 12 (AP)—Lt. Col. Jamie Gough of Barksdale Field, La., won the central zone Army Air Force golf tournament here today with a 72-hole score of 291.

Sgt. Gene W. Fraze, San Antonio, was second with 295 and Capt. R. L. Walsh, Dallas, was third with 296.

Nine other low scorers qualified for the national meet in San Francisco next week.

MASHASEK TO TEXARKANA

DALLAS, Aug. 12. (AP) — Dick Mashasek, right-handed pitcher signed by Dallas of the Texas League as a free agent, has been sent to Texarkana of the Big State League, business manager Bobby Goff announced today. He was optioned under a 24-hour recall agreement.

KRAUSE WINS ROQUE

LONG BEACH, Calif., Aug. 12 (AP)—Frank Krause of Long Beach, for the fifth time and second in a row, is National Roque champion. He clinched the title last night with a 32-16 win over Wallace Martin, Waco, Tex. Krause finished with 14 wins, two defeats in the 12-day tourney.

Demaret Leads Golf Tourney

ST. PAUL, Minn., Aug. 12 (INS)—Jimmy Demaret, of Ojai, Calif., and Henry Ransom of Ravina, Ill., split the lead with 67s today in the first round of the $15,000 St. Paul Open golf tournament.

They made the Keller golf course with 5-under par cards.

Demaret, working with precision, had 5 birdies and 12 pars up to the 18th hole, then missed his sixth birdie by muffing a two-foot putt.

Second place went to Bill Nary of Phoenix, Ariz., Ky Laffoon, of St. Andrews, Ill., and Otto Griener of Baltimore, Md., with 68s.

Five pros and an amateur turned in 69s. Al Smith of Winston-Salem, N. C.; Ellsworth Vines, Iowa City, Ia.; Johnny Bulla of Phoenix; Pat Wilcox of Waterloo, Ia.; and Dutch Harrison of Albuquerque, N. M., were the pros. The amateur was Bob Fretland of Duluth.

There were 103 starters.

Arrington Paces Tennis Tourney

DALLAS, Aug. 12 (AP) — Except for the default of San Antonio's Jesse Pfeffer to Frank Arrington of Austin in men's singles, favorites advanced without difficulty in the first round matches of the Texas Amateur Athletic Federation tennis tournament here today.

Play began in ten of the twelve divisions, inaugural matches in men's and women's doubles not being scheduled until tomorrow.

In the women's singles, highly-ranked Patt Torti of Dallas advanced by default from Lou Ann Perry of Fort Worth, while Ethel Norton of San Antonio won handily over Martha Lou Barker of Austin, 6-0, 6-1.

Aspirants for state titles here are survivors of district TAAF play in Fort Worth, Austin, San Antonio, Houston and Dallas.

Onslow Fed Up With Fans' Bronx Cheers Against Him

MEMPHIS, Tenn., Aug. 12 (U.P.)—Genial Jack Onslow, fed up with the razzing he has taken from Memphis fans, said today he would give them a Southern Association pennant this year and then quit as manager of the Chicks.

Onslow, a veteran of 38 years in major and minor league baseball took over the Chicks this year and brought them from near the bottom of the loop to take over the top rung on Aug. 1.

But the 56-year-old Pennsylvanian said the constant heckling has been too much and he's had enough. He's already made his decision to quit Memphis at the end of this season.

The graying pilot said he's gotten nothing but a barnyard of Bronx cheers for his efforts in making a first-place club out of a team that most sports writers picked to finish sixth or seventh.

BARBER COLLEGE WINS

John Vandeventer pitched the Lubbock Barber college to an 11-1 victory over Asbury Methodist in a City Softball league tilt Thursday.

Dukes Trounce Lobo Nine, 7-3

LAMESA, Aug. 12 (Special)—Timely base knocks by Len Attyd and Dick Dawson end six-hit hurling by Don Cantrell gave the Albuquerque Dukes a 7-3 victory over the Lamesa Loboes here tonight.

The league-leading Dukes pushed across two runs in the top of the second inning, then added three more in a big sixth frame to clinch the victory. Frank Okrie led off the Duke sixth with a single, then Lamesa pitcher Lefty Bill Jones walked the next three men—Will Dixon, Ron Bowen and Bill Chambers.

Larry Williams relieved Jones on the mound, but Dixon scored on Len Pill's double play ball and Bowen tallied on Dawson's infield single.

Burnette, Schaal Gain Victories In Club Tourney

Favorites continued to set the pace in the championship flight of the annual Lubbock Country club golf tourney Thursday, Pro Herb Schroeder reported last night, with Lubbock's ace strokers chalking up second round victories.

Lofton Burnette gained a decisive win over Ted Tipps, 5 and 4, in a feature setto; while Dr. W. A. Schaal dropped Lawrence Banks, 4 and 3.

Other results inculded: M. R. Tripp defeated Melvin Best, 3 and 2; Chick Trout, sr., eliminated John Raley, 6 and 5; Jimmy Goldman bested Fenner Tubbs, 5 and 3; Raymond Marshall edged Jack Markham, 3 and 2; Lindsay Telford beat Hiram Parks, 5 and 4; and Kay Bradshaw topped F. L. McRee, one up.

Third round matches in the championship flight must be reported not later than tonight, Schroeder said.

In the weekly ladies' golf play, Mrs. George Soash copped top honors in the 18-hole flight. Mrs. Culver Hill won the nine-hole event, while Mrs. Ira T. Dunlap took first in the nine hole beginners' flight.

Goshen Consolation Race Is Postponed

GOSHEN, N. Y., Aug. 12 (INS)—The $5,000 trotting derby and the Hamletonian consolation race—the A. H. F. Seeger memorial for three-year-old trotters—scheduled at Good Time park today, were postponed until tomorrow because of rain.

R. H. Johnston's four-year-old trotter Dodney, unbeaten this year, will make his first start since the spring meeting at Santa Anita, Calif., in the trotting derby, going against Castleton farm's Victory Song; C. M. Saunders' Onolee Hanover and Smith & Newman's Chestertown.

Nine of the 12 three-year-olds in the Seeger memorial are Hambletonian eligibles who failed to get to the post in the $60,000 classic yesterday.

Rain Washes Out First Day Of Women's Golf Tournament

NORTHFIELD, N. J., Aug. 12 (AP)—Rain washed out the first day of the Women's National golf tournament today.

Quite a few of the 51 players were anxious to start the tournament despite the rain. Many of them felt the rain would help their games and probably cut into the scores of such favorites as Mrs. Mildred "Babe" Zaharias, Betty Jameson of San Antonio, Tex., and Patty Berg of Minneapolis.

Miss Berg was pleased about the rain and the postponement. She has a blister on her right instep.

Officials decided after a conference with the players to schedule 36 holes for Saturday.

Seventeen threesomes will play 18 holes tomorrow with the first tee-off at 11 a. m. (EDT). The tourney ends Sunday.

Sports Study

By Earl Scudday

Football, which started from "scratch," so to speak, has now become a complicated business. Every sports fan knows the attention paid to details and planning by college grid officials, but many may not know how the system has reached down into our high school football. Most fans probably know that Notre Dame usually scouts every game played during a season by an opponent—or a prospective opponent—but many may not know that one of the larger Texas high schools used the same method against a traditional foe last season.

* * *

Most grid followers are familiar with the college system of scouting all good prospects and submitting complete reports to the "head man" on the estimated value of Johnny Jones of Podunk Center. But few know that many of the more successful high school coaching setups keep a complete file on their youngsters from the day they report to a junior high football squad until they graduate from high school. And the school systems which have not followed such a plan in the past are rapidly being forced to adopt the same tactics in self defense.

* * *

Coach C. R. (Pat) Pattison, the able Lubbock Westerner head mentor and athletic director, points out that high school football has reached a point in development where "organization and psychology" play a major role in the building of top elevens. Most of the major schools have good material and, contrary to the gridiron "wolves," most coaches are well versed in fundamentals and strategy. And, when you get two groups of boys of about the same physical ability battling on one field, the group that has the best preparation and mental attitude will usually win the game. Preparation itself is nothing more than a well-organized system whereby the boys are placed under competent coaches early in their athletic careers and pointed to a definite goal.

* * *

Psychology is a more difficult matter. If a coach has a good, winning team, he is faced with the problem of over-confidence. If he has a losing team, he must find a way to keep the boys scrapping and trying. If a team has a real "star," the coach must show the other boys that the "star" is good only because they do their jobs right. And above all, mentors must try to avoid the petty arguments and feuds that have wrecked many good ball clubs. Ever wonder why coaches get gray and bald so early? Now you know.

* * *

Even though the football season has not started yet, Coaches Pattison, Bill Floyd and Fred Taylor have been extremely busy. One or more of the mentors has been arriving at the Chapman field clubhouse early in the morning to get the equipment in order and ready for use, and the others are always down at the field by 8 or 9 o'clock. There are sox to mark, headgear to store by sizes, shoulder pads to sort and endless paper work to complete.

Yes, it's a lot of work. Coaching is a 12-month job under prerei conditions, and a task in which there is little credit and much criticism. But you can't get most coaches out of the business. After working with youngsters year after year, other lines of work just seem too dull.

Cards Beat Red Sox, 12 To 5 In Kid Game

The Pee Wee League Cardinal nine gained a 12 to 5 triumph over the Red Sox Thursday behind the one hit pitching of Don Kerr, and in the Junior loop, ABC's downed the Exchange Club, 3 to 2.

Wray Clark paced the Cardinals with two singles in four times up. For the losing Sox, Gary Pruitt hit a double that drove in three runs.

Truman Jones hurled for the winning ABC aggregation. Lyndle Bailey had a double and a single in four and also drove in the winning run with a long fly to left field, which was caught by Melvin Taylor. For the Exchange Hulen Haley homered in the last of the first for the best hit the losers managed to get.

Friday, the White Sox meet the Dodgers in the Pee Wee League and Jaycees meet Methodist Men in the Junior League tilt.

Huffman, Nichols Again Will Lead Lobo Grid Squad

ALBUQUERQUE, N. M., Aug. 12 (Special)—Head Coach Berl Huffman, and Line Coach Walker Nichols will be leading the University of New Mexico Lobos for their second season this fall. Both coaches came to Albuquerque from Texas Tech in 1947.

Last season, their first with Lobos, they turned in four wins, five losses and one tie. This year the Lobos will be facing the heaviest schedule in the history of the university, but a strengthened line should make them tough for all opponents. They will open practice sessions September 1 for their opening tilt against the University of Colorado. After this game they will travel to Austin, Texas, to take on the University of Texas Longhorns before getting into conference competition at Albuquerque against New Mexico A. & M.

Coach Huffman compiled an enviable record at Texas Tech as backfield coach under Dell Morgan. He went into the army in 1942 where he coached Keesler field football squads in 1943 and 1944. His 1944 team at Keesler field was undefeated and untied. In 1945 he left the army and returned to Texas Tech, where he remained until coming to the University of New Mexico as head coach.

Line Coach Walker Nichols won his freshman numerals in 1932 at Texas Tech and lettered the three following years. In 1941 he was freshman football coach at Tech, and was promoted to line coach in 1942. He spent 23 of his 38 navy months overseas and was discharged in 1945 as a lieutenant. He returned to Tech that same year and came to the University of New Mexico with Coach Huffman in 1947.

STRICTLY HOT WEATHER—The photographer, idling on a hot day in the air-conditioned office was sent out for a "different" baseball picture. He came back with this inspirational photo of the Boston Braves, National League leaders, living up to their nickname. He titled the caption "Paddling along" and went on to say that the Braves were letting everyone know they were on the warpath for a pennant this year. Manager Billy Southworth, left, beats a tom-tom, as First Baseman Earl Torgeson, Third Baseman Bob Elliott and rightfielder Tommy Holmes carry him along with their big bats.

Deadline Today For TAAF Teams

Today is the deadline for softball teams to enter the district TAAF tournament, scheduled here Aug. 16-21 at Jumbo Webster park, officials have announced.

Entries may be phoned or mailed to Curtis Barrett at the City Recreation department in Lubbock. An entry fee of 20 dollars per team will be required.

Winner of the single elimination meet will be awarded a trophy and $250 to be applied on expenses in competing in the state TAAF tourney in San Antonio Aug. 26-28.

Reserve System, Treasury Turn Big Fiscal Guns On Inflation

WASHINGTON, Aug. 12 (AP)—The Federal Reserve system today joined the Treasury in turning the government's big fiscal guns on inflation.

Nine of the dozen federal reserve banks raised their "discount rate" from 1¼ to 1½ percent. The other three will act shortly a government spokesman said.

That action will make it more costly for commercial banks to borrow funds from the federal reserve banks to lend to the public.

To Tighten Credit

The result for which the government is hoping is deflationary —banks will tikhten up on their lending to business firms and farmers.

Secretary of Treasury Snyder, almost at the same moment, took a new, indirect crack at the rising credit and price spiral.

Snyder announced that another $571,431,000 of government bonds will be paid off in cash when they mature on December 15, instead of being replaced by a new bond issue.

He gave notice that all outstanding two percent treasury bonds of 1948-50, issued December 8, 1939, are called for redemption.

This brought to more than $1,022,000,000 the redemption calls issued this week. On Monday Snyder announced that a 2½ percent partly tax-exempt issue maturing September 15 will be paid off in cash on that day.

Dixiecrats Threaten

(Continued From Page One)

paign after Randolph declined the post.

Hope for control of the convention lies primarily in success of seating large delegations from Harris, Dallas and Tarrant counties.

Each of these counties saw two local conventions held July 31 when the Truman or "loyal" factions walked out and held their own meetings and named a slate of delegates to be sent to Fort Worth.

Randolph's attack on Jester today was a result of the governor's actions of recommending to the State Democratic executive committee last week that it turn down the request from the States' Righters that a presidential referendum be submitted to the people August 28 on the runoff primary ballot.

To Head State Campaign

Randolph presided last night at a big rally here when Governor J. Strom Thurmond of South Carolina and Governor Fielding Wright of Mississippi made formal acceptance of their nominations to head the southerner's presidential ticket.

Thurmond was to have spoken before the strategy meeting today but in a last minute change he departed during the morning by plane for Columbia, S. C., without having appeared at the music hall.

Randolph said it is possible for Jester to have opposition in November if the Fort Worth convention is "taken away from us by unlawful means."

Reminding the States' Righters strategy group of the fates of Charles I of England and Louis XVI of France, Randolph commented:

"We don't decapitate political leaders today who flout the will of the people, but we might be able to get them out of office.

"We ought to tell Lord Beauford, the Duke of Jester, that there is no need for him to bear any further the responsibilities of his high office and that he can leave the 'peoples' path' and follow that dim path that leads to Corsicana and oblivion."

Jester, a native of Corsicana, was first elected governor two years ago on a "peoples' path" platform.

Randolph made his threat at Jester while nominating E. E. Townes, Houston attorney, as permanent chairman of the organization, officially named "Texas States' Rights Democrats."

He later withdrew the nomination when the group decided to name a nominating committee and have it make formal recommendations for permanent organization.

With Townes as a member, the nominating group recommended Randolph as campaign director suggested the nine-member advisory committee, and abandoned the plan for a permanent chairman for the group.

Named to the advisory group were Palmer Bradley, Houston, chairman, Townes, Roy Sanderford, Belton; Hart Willis, Dallas; Arch Rowan, Fort Worth; Dr. E. H. Vaughan, Tyler; Mrs. Sam H Davis Houston; Mrs. Marie Thompson, Goliad, and W. L. Reed, Houston.

Mrs. Thompson is vice chairman of the State Democratic executive committee.

Bradley immediately called his committee into session and announced that additional members of the group probably will be added later.

Townes represented South Texas on the nominating committee.

Other members of the committee were Eugene B. Germany, Dallas, North Texas; former State Senator V. A. Collins, East Texas; Rowan, West Texas, and former State Senator Joe Hill, Austin, Central Texas.

Millions In War Surplus Turned Over To Midwest Organizations

CHICAGO, Aug. 12 (INS)—The Chicago regional office of the War Assets administration turned over $125,000,000 in surplus property to schools and nonprofit organizations in the fiscal year ended June 30.

Ben H. Kinard to John C. Fowler and wife, part of tract 28, Suburban Homes, $6,500.

Shirley Kizer and wife to Doryal L. Young, lot 9, block 3, Lisemby addition, $8,300.

J. L. Ervin and wife to Nita Keever part of the southeast 1/4 of survey 10, block A, $500.

R. B. Cox to R. N. McFarland, the west .68 acres of block 82, Markowits subdivision, $1.

Jack C. Hall and wife to Morris Gregg Bell, lot 19, block 4, Forrest Heights addition, $9,900.

Edda P. Catchings and husband to C. C. Henney, lots 11 and 12, block 176, West Park addition, $550.

Mary Juanita Self to Sam B. Bardwell, block 3, tract 1, Stanton subdivision, $16,000.

Loma Gee and husband to Joe Privitt, lot 4, block 6, Holmes addition, $425.

G. R. Kennedy and wife to Shirley Kizer, lot 9, block 3, Lisemby addition, $10.

Earl Martin to Charles R. Ramsey and wife, lot 18, block 2, Cain Terrace, $31,500.

R. C. Patton and wife to Cyrus M. Fields, lot 2, block 54, south Slaton addition, $5,350.

Jesse Gordon and wife to John Benjamin Stevens Jr., lot 9, block 3, Tech Terrace, $3,000.

Charles L. Baggett to W. B. Hollingsworth and wife, lot 8, block 8, College Heights addition, $10.

A. V. Johnson and wife to Dunaway R. Martin, lot 9, block 5, Phillips addition, $10,450.

H. F. Montgomery and wife to Eugene De Pauw, tract 2, block 6, Miller-Stevens subdivision, $900.

J. E. Maison to C. R. Gallagher Jr., lot 11, block 6, Tech Terrace, $15,500.

T. J. Coffey and wife to Leete Jackson, lots 9 and 10, block 23, Carter-Coffey addition, $800.

Simeon O'Neal and wife to J. A. Lane, lot 8, block 1, West Gate Drive, installment 1, $1,500.

G. R. Kennedy and wife to Earl D. Miller, lot 2, block 2, Lisemby addition, $8,950.

Museum Board Will Meet Again Today

A meeting of the board of directors of the West Texas Museum association has been slated for 12 o'clock today at the Hilton hotel to continue a discussion of problems connected in letting bids for completion of the building located on the Texas Tech campus.

The board met Thursday night to study bids made in connection with completion of the structure but did not take any definite action. Dr. W. C. Holden, curator of the museum, said after the meeting that the bids were far in excess of what had been expected and for that reason another meeting was necessary to study the situation.

The building, when completed, will add two stories to the present first floor-basement structure. It will be of Spanish architecture and was to have been completed at an estimated cost of $100,000.

'Invasions' By Reds

(Continued From Page One)

tervention from U. S. military police occurred in the American-occupied borough of Kreuzberg. According to American officials 30 Soviet-controlled German police crossed the boundary to round up Germans living in the American sector and search houses. The American police forced them back across the line.

Expand Communications

A few hours later Russian and German police forces, staging a mass raid at downtown Potsdamer Platz, crossed into the British sector to round up alleged German blackmarketeers.

Western sector police headquarters said it sent up a force of its own men backed by British military police. The British negotiated with the Russian military police who retreated without a clash.

The Soviet version of the Potsdamer Platz incident did not mention any violence but claimed that "under the protection of British sector police the blackmarketeers returned to their business."

American officials said radio teletype communications are being expanded so that Berlin will have a link with western Germany even if the Russians should cut land lines.

Soviets Hit Snag

The Soviet news agency reported the Americans had cut three lines between Berlin and the Russian occupation zone. The report, which was promptly denied by American officials, gave rise to fears that the Russians themselves may be planning to cut wires to the west.

For the second successive day Russian-controlled newspapers disclosed that the Soviet plan to feed all of Berlin was hitting snags. The papers said Russian authorities believe the plan is being "consciously sabotaged" by German officials

There were new reports of food shortages in the surrounding Russian zone of Germany. Russian-licensed newspapers said punitive measures were taken in an attempt to cope with the situation.

Despite heavy showers American and British planes continued flying supplies to Berlin's western sectors. U. S. fliers set a new record today hauling 2,871 tons in 359 flights.

Few 'Simple' Rules Given To Snub Jinx On Friday The 13th

No ordinary Friday this, for it's also the 13th of the month, and these two in combination may be enough to keep you close at home all day caressing a rabbit's foot or, two, and nailing up horseshoes all over the place. That is, if you're superstitious, and nowadays being superstitious is as outmoded as Aunt Millie's feather boa.

So take a tip from those who know, and follow these simple steps to make this Friday the 13th just another day without all the bad luck that supposedly will come your way.

1. Don't make any effort to keep a black cat from crossing your path. Lubbock had more than its share of the ebony felines even 'way back yonder, and today their progeny are so numerous it's practically impossible to get anywhere without at least one crossing in front of you.

Plenty Of Omens

2. Walk under your ladders as you come to them, for in this "board-walk" city in its present state of frenzied face-lifting, it's a rare man indeed who can get one city block without walking under a ladder. Name one who did and you'll find he probably walked down an alley.

3. Don't moan if you break a mirror, and don't waste time tossing salt over your shoulder or hunting four leaf clovers to counteract your seven year's bad luck. Just hurry out to get another mirror to replace the broken one before the price jumps another $2.

Some Lubbock people look on August 13 as a pretty nice day. George (Smidge) Guy, son of Mr. and Mrs Chas. A. Guy of 2610 Twentieth, celebrates his 13th birthday today, while Mr. and Mrs. Edward R. Gee of Route 3 observe a wedding anniversary. They were married August 13, 1944.

Anyone else with birthdays or unusual Friday the 13th anniversaries is asked to call The Avalanche-Journal this morning.

So here's luck to you this Friday the 13th. But remember, if it showers as the weatherman has predicted, don't open your umbrella inside. THAT'S bad luck, you know.

Molotov's Demand

(Continued From Page One)

beda bound for the USSR.

"Said Soviet citizens did not put in an appearance on the date the ship was due to sail although he had paid their passage and sent their luggage aboard.

"Investigation disclosed that said persons left their homes—Kosenkina July 31 and the Samarine family the night of July 30-31.

"Only on August 7—a week after Mrs. Kosenkina's disappearance—did the Soviet consul in New York, Jacob M. Lomakin, thanks to mere chance, receive a note from her wherein she reported that she was at the Reed farm which belongs to the white (anti-Communist) guard gangster organization under the name of the Tolstoy foundation.

Threats Claimed Made

"The Kosenkina note asked the Soviet consul to save her from the hands of the organization which by all sorts of threats was trying to get her to refuse to return home and to publish a press declaration hostile to the Soviet Union.

"Arriving at the address given in the letter, the Soviet consul discovered Mrs. Kosenkina who expressed a desire to go to the Soviet consulate.

"Despite this the gangsters at the farm attempted by force to prevent Mrs. Kosenkina from leaving, but they did not succeed.

Kidnapping Charged

The statement added that Mrs. Kosenkina in a press conference in the New York consulate only on August 6 disclosed how she was pursued by unknown persons who used threats of violence to make her refuse to return home. It added that the doctor "even resorted to violently injecting her with a drug with the object of weakening her will to resistance."

The statement said that Mrs. Kosenkina was kidnapped July 31 and taken to a flat on Riverside drive belonging to a Russian white guard.

Later she allegedly was transferred to the Reed farm where she learned that the Samarine family was also nearby.

On August 9—according to the broadcast—U. S. Undersecretary of State Lovett confirmed to Soviet Ambassador Panyushkin that Samarine was subjected to questioning by the FBI "which is thus connected with the organization which kidnapped Samarine, his wife and three children."

The statement concluded:

"In addition to the Soviet ambassador's declaration in Washington, I—on the instructions of the Soviet government — protest against the U. S. authorities' connivance."

Hijacking In City

(Continued From Page One)

police.

The two men left the rifle in the car and it was held at the police station early today.

Moore gave police a good description of the two suspects. One of them was said to be about 19 years old, weighing 145 pounds, wearing a white shirt and dark trousers, and was believed to have blood on his shirt from the brief fight. The other man also was believed to be about 19 years old, about 5 feet, 7 inches all, wearing a khaki shirt and dark trousers.

Patrolmen T. B. Alley and James Atchison were investigating the case.

Contracts Let On Airport Building

(Continued From Page One)

vided in the contract. So, actually, officials said, the letting probably will mean 80 blocks — almost eight miles — of new street paving. It is well scattered over the city.

Plans call for the laying of caliche base and the installation of curb and gutter for the paving before winter. The actual paving, under the contract, must be completed before next July 1.

Other bidders for the paving contract were: Kerr & Middleton, $171,740; Elliott Taylor, $172,918; J. R. Fanning, $174,296; T. C. Cage and Hugh Field, of Temple, $183,455; and Pecos Valley Construction co., of Carlsbad, N. M., $184,043.

Labor Camp Assured

The action to insure a camp for Mexican cotton pickers was taken after members of a chamber of commerce committee named to work on the project reported that the county commissioners court had refused to assist.

They quoted the county officials as saying they legally could not contribute to such an undertaking — a claim which has been questioned by Vaughn Wilson, city attorney, and other local lawyers.

The city commission, at its previous regular meeting, had complied with the committee's request to appropriate $3,250 as half the estimated cost of the camp and to supply the site. Members of the committee, which included legislative Rep. Preston Smith and Hop Halsey, said they hoped to get the remainder of the money from the county.

The camp, they said, is needed urgently for several reasons.

One is a safeguard to public health in both city and rural areas by providing a place where the Mexican pickers can observe the ordinary rules of sanitation. In the past, they have had no place to go when they came to Lubbock except to loiter on the streets.

Workers Are Needed

Another reason, it was explained, is the danger that pickers will avoid Lubbock unless the conveniences of a camp are provided. Numerous other towns of the area have built them. The consequence has been a direct warning reported to the chamber of commerce that the whole Lubbock area will be blacklisted by those who direct the routings of the pickers unless a camp is erected. Without pickers, officials warned, much of the cotton crop might be lost.

When the city commission first appropriated the $3,250, it was conditional upon, and with the expectation that the county would match that sum. Advised Thursday that the county commissioners had turned thumbs down on the project, the city commission removed the requirement that matching help had to be obtained at the courthouse.

Members of the committee expressed confidence that the remainder of the money will be obtained, but they were uncertain as to how. A subscription may be the answer.

The camp will consist of little more than the shell of a concrete block building, divided into compartments for the occupancy of cotton picker families or groups for continuous periods of not longer than 48 hours. The camp will be equipped with hotplates for cooking, running water, shower baths and toilets. It will be near "Mexican town," where most of the pickers prefer to be. Mexican park is nearby where children will have limited recreational facilities.

Officials believe that it will attract a great many more of the intinerants ot Lubbock than have ever come to this city before to seek picking jobs, to shop, to renew acquaintances and for social and recreational reasons.

One of the important functions of the camp will be to provide a meeting place where farmers can find pickers and pickers can find jobs.

Other Action Taken

Other business transacted by the city commission included:

Contracts to drill three new city water wells were let to Z. Nordyke, whose bid of $1,861.50 was the lowest of four submitted. Others were: George Andersson, $1,867.50; R. M. Armstrong, $2,092.50; and L. A. Peeples, $2,302.

The commission directed the city attorney to prepare an ordinance making it unlawful for owners to allow dogs to run at large.

Assurance was given a committee from the Lubbock Insurance exchange headed by L. E. Davis that the commission intends to comply as rapidly as possible with recommendations made recently by the National Board of Fire Underwriters to improve fire protection in Lubbock.

Holland Cox, an insurance man, was appointed to succeed Dr. Marshall Harvey as a member of the city recreation council.

Portions of the 1600, 1700 and 1800 blocks on Ave. K were shifted from a residence-apartment house to a retail business zone on recommendation of the city planning commission.

The commission declined the offer of C. A. Pierce for a mineral lease on the city's water field northeast of the city limits. He offered $10 an acre, with $1 per acre per year for periods of five to 10 years for the lease, involving approximately 1,200 acres.

The city attorney was authorized to negotiate a settlement with Ralph L. Holcombe, 214 North Adams avenue, whose young daughter, Judy, was fatally injured July 17 in an accident involving her bicycle and a city garbage truck. A letter from Holcombe asked reimbursement for hospital and funeral expenses for the child, totaling about $1,000.

The commission refused the request made by E. W. Napier on behalf of H. S. Brown to close an alley on Avenue K between Thirty-third and Thirty-fourth. Napier's letter said Brown wanted to build on the alley.

Harry N. Roberts was commissioned to make an engineering study and recommendations on enlarging the city sewage disposal plant on a bid of $500. Hasie & Green bid $750.

Present at the meeting were Mayor W. H. Rodgers, Commissioners W. B. Price, John Spikes, Clarence Whiteside and E. K. Hufstedler, jr.; City Manager Marlin R. Smith, jr.; City Secretary Lavenia Williams, and the city attorney.

One out of three employes of U. S. airlines are World War II veterans.

Spy Investigation

(Continued From Page One)

Russia.

Chairman Thomas (R-NJ) announced that Samarin would be given every possible protection.

Samarin, like Mrs. Oksana Stepanovna Kosenkina, was a teacher at a New York school for children of Russian officials.

Word that Mrs. Kosenkina had plunged from an upper story window of the Soviet consulate in New York today created a sensation in Washington, where she had been discussed as a possible witness in the spy investigation. But there was no official comment.

Writ Is Blocked

It was quickly noted, however, that Mrs. Kosenkina no longer is in the custody of Soviet consular officials, and it was considered highly unlikely that she ever would be returned to them, unless of her own volition.

Earlier in the day a protest by the USSR ambassador blocked habeas corpus proceedings designed to get the 52-year-old teacher into court for a hearing.

Anti-Communists who brought the habeas corpus proceedings charge that if she is returned to Russia she faces "slavery and death." They say this is so because she soured on the Soviet system and missed the boat which took back to Russia other instructors at the Soviet school.

Investigation Urged

The Soviet version is that the Russian consul general "rescued" her from White Russian "kidnappers" and that she was staying at the consulate of her own free will, pending return to Russia.

Rep. Mundt (R-SD), a member of the House committee on Un-American Activities, tonight sent a telegram to New York police commissioner Arthur Wallander urging a full investigation of Mrs. Kosenkina's plunge.

Mundt said he had reason to believe that Mrs. Kosenkina would have been a valuable committee witness but said it was impossible that she would be subpoenaed now.

Delay Is Asked

The habeas corpus writ for Mrs. Kosenkina had been issued by New York Supreme Court Justice Samuel Dickstein at the request of Common Cause, Inc., an anti-Communist organization.

The Soviet consul general at New York ignored the order, and the Russian Ambassador protested to the State department that the writ was in "complete contradiction of the rights" enjoyed by foreign consulates.

The State department telegraphed Governor Thomas E. Dewey asking that "Justice Dickstein hold the matter in abeyance to give us a chance to study the problem in the light of official reports we have not yet received."

Two Others Questioned

Dickstein then delayed a decision.

The Russian "veto" of the New York court order and Mrs. Kosenkina's plunge were only two of the fast breaking developments today in the complicated spy investigation:

1. Chairman Thomas (R-NJ) of the House un-American activities committee announced that "preliminary steps" have been taken to prosecute some of the witnesses at committee hearings on charges of lying under oath.

2. The committee questioned Charles Kramer and Abraham George Silverman closely for two hours. Both had been named by Elizabeth T. Bentley, self-admitted former Communist spy, as former government workers who gave her information which she turned over to the Russians. Both men denied espionage but refused to state whether they are Communists.

Hearings To Continue

3. Thomas denied that the hearings will end soon. They will be continued "until we get at the root of the situation," he said, announcing a list of six witnesses for tomorrow. One of them is Lauchlin Currie, former confidential assistant to Franklin D. Roosevelt; another is Harry Dexter White, former assistant secretary of the treasury.

Both Kramer and Silverman declined to say whether they know Miss Bentley, the committee's 40-year-old star witness.

Kramer now is engaged in research for Henry A. Wallace's Progressive party. He held various government positions, some of them with congressional committees, between 1933 and 1946.

Silverman, likewise a former government official, said he now is unemployed.

Congratulations To:

Mr. and Mrs. J. W. Ferguson of Lorenzo on birth of a son weighing 7 pounds 12 ounces at 5:07 p. m. Thursday in Lubbock Memorial hospital. The father is a farmer.

Mr. and Mrs. Lynn Walker of 1606 Ave. X on birth of a daughter weighing 6 pounds 3 ounces at 1:48 p. m. Thursday in West Texas hospital. The father is a Tech student.

Mr. and Mrs. J. B. Davis of Slaton route 2 on birth of a daughter weighing 6 pounds 4½ ounces at 5 p. m. Thursday in West Texas hospital. The father is a farmer.

Mr. and Mrs. Lowell Webb of Morton on birth of a daughter weighing 7 pounds 8 ounces at 11:05 p. m. Wednesday in West Texas hospital. The father is a farmer.

Five Killed In Bomber Crash

TOPEKA, Kas., Aug 12 (AP)—A B-17 plane from the air force base here crashed in a farmyard and burst into flames soon after its takeoff today.

Five crew members were killed and two were seriously injured.

Four bodies were so badly burned air force authorities had to use dental charts to make identifications.

All seven men were thrown clear of the wreckage by the terrific impact shortly after 4 a.m.

Home Barely Missed

The four-engined bomber had been the first of several from the 55th reconnaissance wing to take off from the air base on a routine photographic mission to Texas.

It barely missed Tom Long's farm home as it ploughed a 450-yard path through a walnut grove after hitting a double decked barn filled with hay.

Thomas E. Hagan, a Topeka publishing firm employe and among the first to reach the scene, said he found First Lieut. Willis W. Allison, 23, of Birmingham, Ala., a radar observer, sitting dazed on the bank of a small creek, 350 feet from the wreckage.

Hagen said he saw the second survivor, Sgt. James W. Ward, 20, of Langdale, Ala., 150 feet from the crash.

It was the first accident for the wing which last spring was awarded the air force's safety pennant.

Both the pilot, First Lieut. Dewey R. Laney, 25, of Amarillo, and his co-pilot, Capt. James M. Poole, jr., 32, of Los Angeles, were among those killed.

Three others killed were identified as First Lieut. Willian E. Schlachter, 24, Norwalk, O.; T/Sgt. Leo L. Lee, 28, Laveta, Colo., and Sgt. Charles W. Milliken, Mapleton, Minn.

Reunion Begins Here

(Continued From Page One)

ducted at Lubbock hotel. The women's auxiliary will meet at the same time.

The proposal to have "frozen assets" which Germany and Japan owned and which were frozen in this country divided among prisoners of war of the Germans and Japanese will be discussed, said Thomas.

Barbecue Scheduled

Scheduled for discussion is the recent enactment by Congress and approval by the President of a bill paying an average of more than $1,300 each to the estimated 29,000 men who were held prisoner by the Japanese. Basis of payment will be $1 for each day the men were held without being given the quantity or the quality of food to which they were entitled by international law.

A barbecue will be conducted at 1 p. m. Saturday at the barbecue pit in Mackenzie state park. A gathering will be conducted that afternoon at Lubbock hotel and a buffet supper and dance will be conducted Saturday night at Lubbock hotel.

Record Is Impressive

The 131st field artillery was mobilized Nov. 25, 1940 and went to Camp Bowie Jan. 12, 1941 and on Louisiana maneuvers in August, 1941. They embarked at San Francisco Nov. 21, 1941, arrived at Brisbane, Australia, Dec. 22, 1941. They were at sea when Pearl Harbor was attacked. They landed at Soerbaya, Java, Jan. 11, 1942 and worked with the 19th bomb group until Feb. 28 there. E battery remained in East Java and the rest of the battalion marched to West Java, where they engaged the Japanese in land action on March 5, 1942. They were captured March 8, 1942, when the Dutch surrendered the island.

Sailors and Marines from the U. S. S. Houston, cruiser, also were taken prisoner and were interned along with members of the 131st field artillery.

Dewey Explodes Idea Of Quiet Campaign

ALBANY, N. Y., Aug. 12 (INS)—Gov. Thomas E. Dewey tonight exploded Washington reports that he is so confident of election to the presidency he will limit his campaign speeches to ten.

The Republican presidential nominee announced through his campaign manager, Herbert Brownell, jr., that he will travel extensively throughout the United States and deliver a number of speeches.

Following a long conference with Dewey on campaign plans, attended also by a dozen other key advisers, Brownell said:

"Governor Dewey will wage a vigorous, constructive campaign and will travel extensively throughout the country.

"Even though we are ahead, we plan to wage a very vigorous campaign."

Sister Of Mrs. Bradbury Is Claimed In Dallas Hospital

Mr. and Mrs. W. T. Bradbury of 2515 Twenty-fifth street left Thursday night for Hillsboro after being informed of the death of Mrs. W. T. Bradbury's sister, Miss William Sims, 43, in a Dallas hospital earlier last night.

Funeral services for Miss Sims, whose home was in Texarkana, will be conducted in Hillsboro at 5 p. m. this afternoon, according to information to Mrs. Bradbury last night.

Hugh John Gray Of Tokio Is Claimed

BROWNFIELD, August 12 (Spl.)—Hugh John Gray, 59, resident of the Tokio community since 1936, died this afternoon in a hospital here after a short illness.

Funeral services will be conducted by Rev. Curtis Jackson, pastor of the First Baptist church of Plains, in the Brownfield First Baptist church. Time of the services has not yet been announced.

Burial will be in Spur cemetery beside his wife who preceded him in death. Farley Funeral of Brownfield is in charge.

Gray had formerly lived in Dickens county before moving to Terry county.

He is survived by his stepmother, Mrs. Mary Gray of Sadler; eight daughters, Mrs. M. S. Hickman and Mrs. R. R. Hickman of Ralls, Mrs. Knox Hinkle and Mrs. Oscar Decker of Brownfield, Mrs. W. A. Carter of Davis Creek, Calif., Mrs. T. T. Buttke of Sacramento, Calif., and Mrs Charles Upton and Miss Nadine Gray of Tokio; two sons, John Gray of Quincy, Calif., and Dan (Tom) Gray of Plains. A third son, David Gray, was killed in action in World War II.

Other survivors are three sisters, Mrs. W. E. Ball and Mrs. R. C. McMahan of Spur, and Mrs. Marian Kirby of Sherman; one brother, Lee Gray of Sadler; three half brothers, L. H. Gray of Sadler, L. J. Gray of Dallas, and G. M. Gray of New Orleans; one half-sister, Mrs. Agnes Gholsom of Dallas; and 12 grandchildren.

Wholesale Prices At New Postwar Record

WASHINGTON, Aug. 12. (INS)—Wholesale prices stood at another new postwar high today paced by a 1.2 percent rise in food costs within a week.

Meat prices in general—beef, lamb, pork and veal—were in the vanguard of the new upswing despite a nationwide boycott of meat markets and prospects for record-breaking feed crops.

The Bureau of Labor Statistics said the one bright spot in the meat picture was a sharp and unexplained decline in the price of bacon.

The Agriculture department further buttressed its prediction that meat supplies will be 10 percent smaller in the last half of 1948 by reporting that the number of cattle being readied for market in 11 corn belt states is the smallest on record.

The department gave no actual figures, but it said the number of animals in these states is 12 percent smaller than a year ago.

HST Raps Congress

(Continued From Page One)

ing, thus having a tendency to off-set inflation by reducing purchasing power.

At his news conference the President sharply criticized Congress for not acting on his proposal to pass the Taft-Ellender-Wagner housing bill and the federal aid to education program.

He said Congress had plenty of time to act if it wanted to.

Turning to politics, he said his campaign travel plans are still indefinite although he is considering a Labor day address at Detroit.

He said he expected to know more about his program after tonight's strategy meeting with Senator Alben W. Barkley, his vice-presidential running mate, Senator J. Howard McGrath, Democratic national chairman, and eight others.

Rains Fall In Area

(Continued From Page One)

Thursday when a maximum of 98 degrees was recorded for the second consecutive day. The minimum Thursday morning was 68 degrees.

The weatherman said the current series of thundershowers which have dotted the area are expected to continue. Little change in temperature is anticipated, he reported.

LOW WATER SUPPLIES HAMPER MANY CITIES

High temperatures and low water supplies combined today to make life miserable for Texans in widely separated parts of the hot, dry state.

The weather bureau predicted that the state would continue to swelter; that only isolated thundershowers were in prospect.

At Mineral Wells, about 40 miles west of Fort Worth, the mercury yesterday soared to a sizzling 107 degrees. That, said the weatherman as he mopped his brow, was the day's highest.

Situation Critical

More than two dozen cities reported temperatures of 100 degrees or higher yesterday. Others were in the 90's. The heat didn't help the water situation.

The situation was critical in Dallas and Fort Worth. Abilene, Denton, Carthage and other towns were reporting water shortages.

The City of Fort Worth ordered a complete ban on all outdoor lawn sprinkling and asked large industrial users to curtail the use of water.

In Abilene, city officials asked sparing use of air coolers. Water consumption reached a second consecutive daily peak of 12,921,000 gallons.

Woman Jumps From Consulate

(Continued From Page One)

a Dr. Newman, that he might go in to see the injured woman "if it's all right with the police."

Notes Reported

Half an hour later, the Russian vice consul still had not won police consent.

Chepurnykh told newsmen that he had gone "to the highest officials" and explained his diplomatic right to see the patient. There was no question, he said, that as the representative of the Soviet ambassador, he had to talk with Mrs. Kosenkina.

Chepurnykh also told newsmen that he had "heard the police talk about" some notes supposedly left by Mrs. Kosenkina before she jumped. But, he said, that was only a rumor and he didn't know if there were any notes.

Police Block Envoy

The vice consul was accompanied to the hospital by an attractive young blonde woman whom he identified as a consulate secretary, Zinia Ivanovna. Miss Ivanovna, said Cherpurnykh, was prepared to stay at the side of Mrs. Kosenkina "all night."

But finally Dr. Newman informed the vice consul that he had "police orders" not to admit him. Chepurnykh said the doctor told him he personally had no authority and was acting on instructions from the "top level."

"I have an official right to get in," said the angry diplomat, "but one cannot insist against so many police."

Asks For Journalist

There was no immediate official explanation for the ease with which Zenzinov was admitted to Mrs. Kosenkina's bedside, except the statement that the woman had asked to see the journalist.

Despite her grave injuries, Mrs. Kosenkina greeted Zenzinov with a hug and a kiss, it was reported. Zenzinov said he told her:

"At last you are safe. The people of the United States and everyone else are with you. You need not fear a second abduction."

Zenzinov said the "first abduction" of Mrs. Kosenkina occurred last week when Soviet Consul General Lomakin and his aides took the chemistry teacher from the Tolstoy foundation farm at Nyack.

Woman "Rescued"

Lomakin has said that he "rescued" Mrs. Kosenkina from White Russian "gangsters" at the farm. He alleged that these "gangsters" had drugged the woman and kidnapped her from a New York street.

But Zenzinov and Countess Alexandra Tolstoy, who heads the Tolstoy foundation, have insisted that Mrs. Kosenkina was taken to Nyack to find sanctuary after she expressed terror of being forced to return to Russia.

When asked to explain why he could see Mrs. Kosenkina at a time when Soviet authorities had not yet been permitted to enter her hospital room, Zenzinov smilingly declined comment. A friend at his elbow, however, remarked: "It's pretty obvious, isn't it?"

Pleads For Help

The short, plump chemistry instructor, brought to the U. S. to teach children of Soviet diplomats, made her leap from the consulate window only a few hours after an effort to force her appearance in court was delayed by a Russian protest to Washington.

Two policemen, who were among the first outsiders to reach Mrs. Kosenkina in the courtyard where she fell, said that as they picked her up she moaned, "Let me alone! Let me alone!" Then, however, they said, she pleaded "Take me to a hospital," adding "I want to get out."

Inspector Mullin's announcement that the woman had admitted jumping came some time after the Soviet consul-general, Jacob Lomakin, also had told reporters that Mrs. Kosenkina "jumped."

Lomakin told police the woman had been listening to radio news reports of the legal and international tug-of-war over her status. Her leap, he claimed, was the result of her disturbed state of mind over the news reports.

Arms Cut Shelved

(Continued From Page One)

1949.

Diplomatic observers viewed the decision as assuring that there would be no arms slashes until Russia and the western powers settle their major differences. The East-West conflict is currently blocking the police force, atomic control and the peace treaties.

Hopes Fade For Quick Agreement In East-West Talks In Moscow

By J. R. ROBERTS, JR.
Associated Press Staff Writer

An air of failure is beginning to surround the Moscow discussions.

Even as the Allied envoys were conferring again with Molotov a diplomatic informant in London was discussing the possibility of a direct appeal to Stalin.

The two sides have now presented both their main themes and their rebuttals on how a full-fledged conference on Germany can be brought about. There are strong indications that Molotov made unacceptable demands on Monday and that he was told so yesterday.

Allies Agreed To Talks

"Leaks" from the negotiations usually contain at least some inaccuracies and may be entirely misleading. But from such information as is available it seems that the Allies were ready to resume four-power negotiations regarding Germany and other European problems, which had been broken off after the abortive Moscow and London meetings. At that time the Allies decided they might as well go ahead with organization of a Western German government and incorporate the area into the Marshall Plan. This meant silencing Russia's voice in the great industrial areas and made her want to call another conference.

Using currency changes in Western Germany as an excuse, the Bolshevists instituted a land blockade of Allied-held sectors of Berlin. This was a strong lever, and the Allies sought a means of compromise.

They are assumed to have offered a new conference if Russia would lift the blockade. Russia demanded a more concrete price, and the Allies are reported to have agreed, additionally, to compromise on the currency question. Now Russia is reported demanding that plans for the western German government be held up pending the conference.

The Allies say they will not do this. They apparently feel that currency agreement and an end to the blockade are the only things that can be expected from negotiations; that the main struggle is for control of all Germany with no real over-all agreement possible. The seeming reasonableness of not acting while you are negotiating over how to act is balanced by the necessity of throwing western Germany's productivity into the Marshall plan. Then, the Allies contend, if agreement on a united Germany should ever be reached, you can start all over.

But delay is Russia's line, not agreement on anything which promotes stability and threatens to halt Communist infiltration. And the nearer winter comes, the more leverage the blockade gives her.

The situation in Berlin itself and elsewhere in the cold war is as much responsible for increasing world pessimism as is any leak directly concerning the Moscow conversations. For Russsia is known to retaliate on every front at once for any irritation anywhere. Daily incidents in Berlin, intrasigence at Belgrade, a bitter propaganda attack which might mean the approaching end of Finland's independence, even a formal protest over a little row about the status of a school teacher in New York—all these contribute to the picture. Western Europe is displaying fear that even the current "phony peace" will not last. No help is expected from any Allied appeal to the United Nations which might follow a breakdown in Moscow.

I still can't find the factors which produce a war in anything like the immediate future. But this tension cannot keep on increasing forever without something breaking.

Chemical Plants Being Moved From Missouri To Houston

WASHINGTON, Aug. 12 (AP)—Army officials said today that ordnance installations being moved from Louisiana, Mo., to Houston, Texas, will be used in the production of chemicals for fertilizer.

A contract is expected to be completed shortly with the Hercules Powder Co. to install and operate the plant in Texas.

Approximately eight months is expected to be required in making the change, involving movement of much heavy equipment from Missouri to Texas by barge. The relocation is expected to cost approximately $2,500,000.

Actually, the transfer involves the removal of two of three so-called "lines" at the Louisiana ordnance plant, an army official said.

The third line, which is being used by the bureau of mines for research into production of petroleum products from oil shale, will remain in the Missouri city. The two lines which are being moved have not been in operation for some time, it was added.

The use of the equipment in the production of chemicals for fertilizers was ordered to help meet a heavy fertilizer demand by farmers both in this country and in those occupied by American forces.

Answer to Previous Puzzle

Slaying Of Chicago Man Is Believed Done By Hired Killers

CHICAGO, Aug. 12 (INS)—Authorities today studied the possibility that the July 28 shotgun slaying of Nathan Gumbin, wealthy paper carton manufacturer, resulted from underbidding other firms.

The state's attorney's chief investigator, Gus Bartels, said he had learned that Gumbin, before his death, won a $150,000 order from a Macaroni concern by underselling competitors.

He added that he is "convinced" that Gumbin was slain by hired killers who carefully planned the murder.

Gumbin's widow, Blossom, continued to express belief that her husband's killing was a case of mistaken identity.

About 72 per cent of U. S. motion picture theaters are in towns of 50,000 population or over.

In the United States there is an average of one theater seat for every 11.3 persons.

MGM To Concentrate On Youth Pictures As Film Pays Off; Joan Blondell May Return

By LOUELLA O. PARSONS
INS Staff Correspondent

HOLLYWOOD, Aug. 12—"Date With Judy" proved to MGM what the movie magazines learned a long time ago—that stories about youth pay off with big dividends.

So the two young ladies, Jane Powell and Elizabeth Taylor, who shared honors in "Judy," will be co-starred again in "Teen Age," the title of which is enough to bring the kids into the theater in droves. "Judy," incidentally, has broken every MGM record at the Music hall in New York. When it was shown on the S. S. America, the young people loved it.

Joe Pasternak is having the "Teen Age" number written pronto for Jane and Elizabeth. He's gathering the gold for MGM while he may.

Blondell May Make Movie

This is a story I am glad to tell you. A deal is on to get Joan Blondell to play the lead in Danny Kaye's next picture, "Happy Times." Joan hasn't made a movie since she went to New York as the bride of Michael Todd, and we've all missed her. There is no better comedienne on the screen.

It will certainly be old home week for Joan, for it was at Warners she had her greatest movie success. She was there for years. I certainly hope the contract goes through.

• • •

Interesting news that Mrs. Alan Marshall is about to make a movie called "Prejudiced" for the Protestant Film commission. She has been such a wonderful wife to Alan who has been sick for some years and unable to work.

During his long illness, Alan has become intensely religious, so he is very happy that Mary will make this movie—a semi-documentary which is a plea for racial tolerance. David Bruce is the leading man and Paul Heard the producer.

This is Mary's first movie since she became Mrs. Marshall.

New Look Out

Adrian never went in for the "New Look." He kept the "Adrian look," and I was never more sure of his wisdom than this year with Paris declaring the "new look" out.

This year's collection is Adrian's best. One of the highlights is the coat of the year—a slender top coat with a cape attached from the tips of the shoulders. That's because we girls like to sling our coats over our shoulders.

The "oriental surprise" was a surprise — and emerald green crepe dress with a long tunic which can be pulled over the head. I noticed many of his dresses had tunic effects, which serve both as a cape and as part of the dress.

His favorite colors are black, garnet brown and gray.

Snapshots of Hollywood collected at random:

Clark Gable returns Monday and will immediately arrange for his father's funeral. He will leave the very next day for the Rogue river to spend a couple of weeks Spencer Tracy and the Howard Stricklings are returning with Clark.

Here's sentimental note. Betty Compson, who played in the silent version of "The Barker," went to Laguna playhouse to see Shelley Winters on the stage playing the same role.

Johnny Meyer acted as agent when Ray Ryan, the fabulous millionaire, bought Howard Hughes' personal plane. Johnny's girl friend, Janet Thomas, has the shortest hair cut in Hollywood. She was at Ciro's the other evening with him.

The day Babe Ruth was stricken, I received the copy of a picture taken with him, Betty Grable and Emory C. Perry, who looks so much like the Babe. Betty Grable received several autographed pictures from the Babe, who visited 20th Century-Fox with me when he was making his movie. I don't think any public figure has ever had more people pulling for him to get well.

Ingrid Bergman is in Italy conferring with the Italian director who made "Open City." She wants a participation deal.

I didn't know Mary Anita Loos and Richard Sale were expecting the stork until I met them at Margaret Ettinger's house. Mary Anita tells me they will call the baby Anita Loos Sale if it's a girl.

Al Blumenthal has six stitches in his hand—suffered when a soft drink machine blew up. Sounds awful.

AMAZING RESULTS WITH MERTOX TONIC

Mrs. Ben Grossman of Houston writes us as follows:

"For a long time I have had occasional billious spells. My head would hurt and I would vomit my food. My last spell was very severe and I just thought I would die. My appetite was poor and I couldn't sleep at night. I was so troubled with my limbs stiffening just before I would have a spell of gas and bloat. I would be dizzy and I would have a severe headache. My food soured and it just seemed as if everything was wrong with me. To anyone suffering like I was, I recommend Mertox highly."

This splendid medicine, containing 25 ingredients, works fast to eliminate poisonous matter from your system. Helps to build rich, red blood. Relieves constipation within a few hours and helps to create a more rhythmic bowel action. Get Mertox Compound today from any Texas druggist at the new REDUCED price. Adv

Chicago Coal-Processing System May Solve French Fuel Problem

CHICAGO, Aug. 12 (U.P.)—An experimental coal processing plant now being built in Chicago may help to solve the coke problem of France.

The pilot-plant, subsidized by the State of Illinois, is designed to process one ton of soft coal per hour. From the coal, engineers expect to get combustible gases, powdered fuel, liquid fuel for diesel engines and char.

Upon the expected success of the pilot-plant, plants able to handle hundreds of tons per hour probably will be built.

The diesel fuel and the char are of especial significance to France, whose position as a great power has been jeopardized by lack of cooking coal and petroleum. Tests have shown that one part char, obtained from the new process, when added to four parts high-volatile coal, produces a coke which passes all standard tests for high-grade coke.

Dr. A. D. Singh, Chicago, the designer of the fluid devolitization system, told the American Society of Mechanical Engineers that previous methods of devolitization had proven prohibitively expensive because of the loss of many by-products.

"Under this fluid system nothing is thrown away but the ash," Singh said. "The plant is an assembly line design. At the end of the line will be drawn off gas for heating, diesel fuel, powdered fuel for industrial heating and char, burnable in power plants or for mixing to get metalurgical coke.

"All our tests have given reason for thinking commercial production of good coke from high volatile coals is now at hand, and at practical prices."

Many political observers have said that France would fall in more easily with allied plans for the Ruhr, if a supply of coke for processing the ore of Lorraine could be guaranteed to her. The fluid devolitization system may give France that sought for guarantee.

Mexico Signs Pact For Machinery Loans

WASHINGTON, Aug. 12. (AP)—Mexico has signed a formal agreement for a $5,000,000 agricultural equipment loan from the Export-Import bank, it was disclosed today.

It is part of an over-all Export-Import bank program under which Mexico ultimately will receive $50,000,000.

Bank officials explained that the formal loan agreement was signed yesterday after months of negotiation. It brings to $39,500,000 the total amount Mexico actually has borrowed from the bank under an agreement reached last year during the Washington visit of Mexican President Miguel Aleman.

Bank officials said that the agreement signed yesterday provides that the Mexican government finance individual purchases by its nationals of farm implements in the United States.

New Radio Device Guards Gulf Coast Against Hurricanes

HOUSTON, Aug. 12 (U.P.)—Hurricanes may come and go, but they won't be able to slip up on Houston anymore.

A new radio device which picks up and measures the direction of static discharges from electrical storms as much as 2,000 miles distant was in operation at Ellington field today.

Many of these electrical storms often form the nucleus of hurricanes.

The installation at Ellington is one of five in the Caribbean area. The others are at Jamaica, Antigua, Bermuda and Warner Robbins field, Ga.

The stations will send readings on a storm to the plotting station at Warner Robbins, where the exact location of the storm is determined.

The Georgia field then sends the information to the weather bureau.

Five Veterinarians Sought To Check Meat In Houston

HOUSTON, Aug. 12 (U.P.)—Search for five veterinarians to serve with five new sanitarians in checking Houston's meat situation will be extended to Texas A. and M. college Friday, Dr. W. J. Williamson, city veterinarian, announced today.

Williamson said only one veterinarian had applied for a city job since the commission council Tuesday authorized the hiring of the ten men to check the sale of horse and sulfite-treated meat.

Williamson added he was considering hiring butchers as meat inspectors.

Sociologists Report Some Comic Strips Have Low Appeal

ST. PAUL, Aug. 12 (U.P.)—Sociologists at Macalester College say that if your child reads Walt Disney comics, he may have a higher I.Q. than the child who reads Superman and Batman comics.

Forty sociology students under Prof. Harold Eastman are studying high school children to learn how their behavior is affected by comics.

Children in the average I.Q. level — about 100 — prefer Superman, Captain Marvel and the Batman type. Above-average children like the Walt Disney variety, the tests showed.

Eastman said the study indicates that racial prejudice, contempt for law and order and fascist ideas grow from reading some comic books.

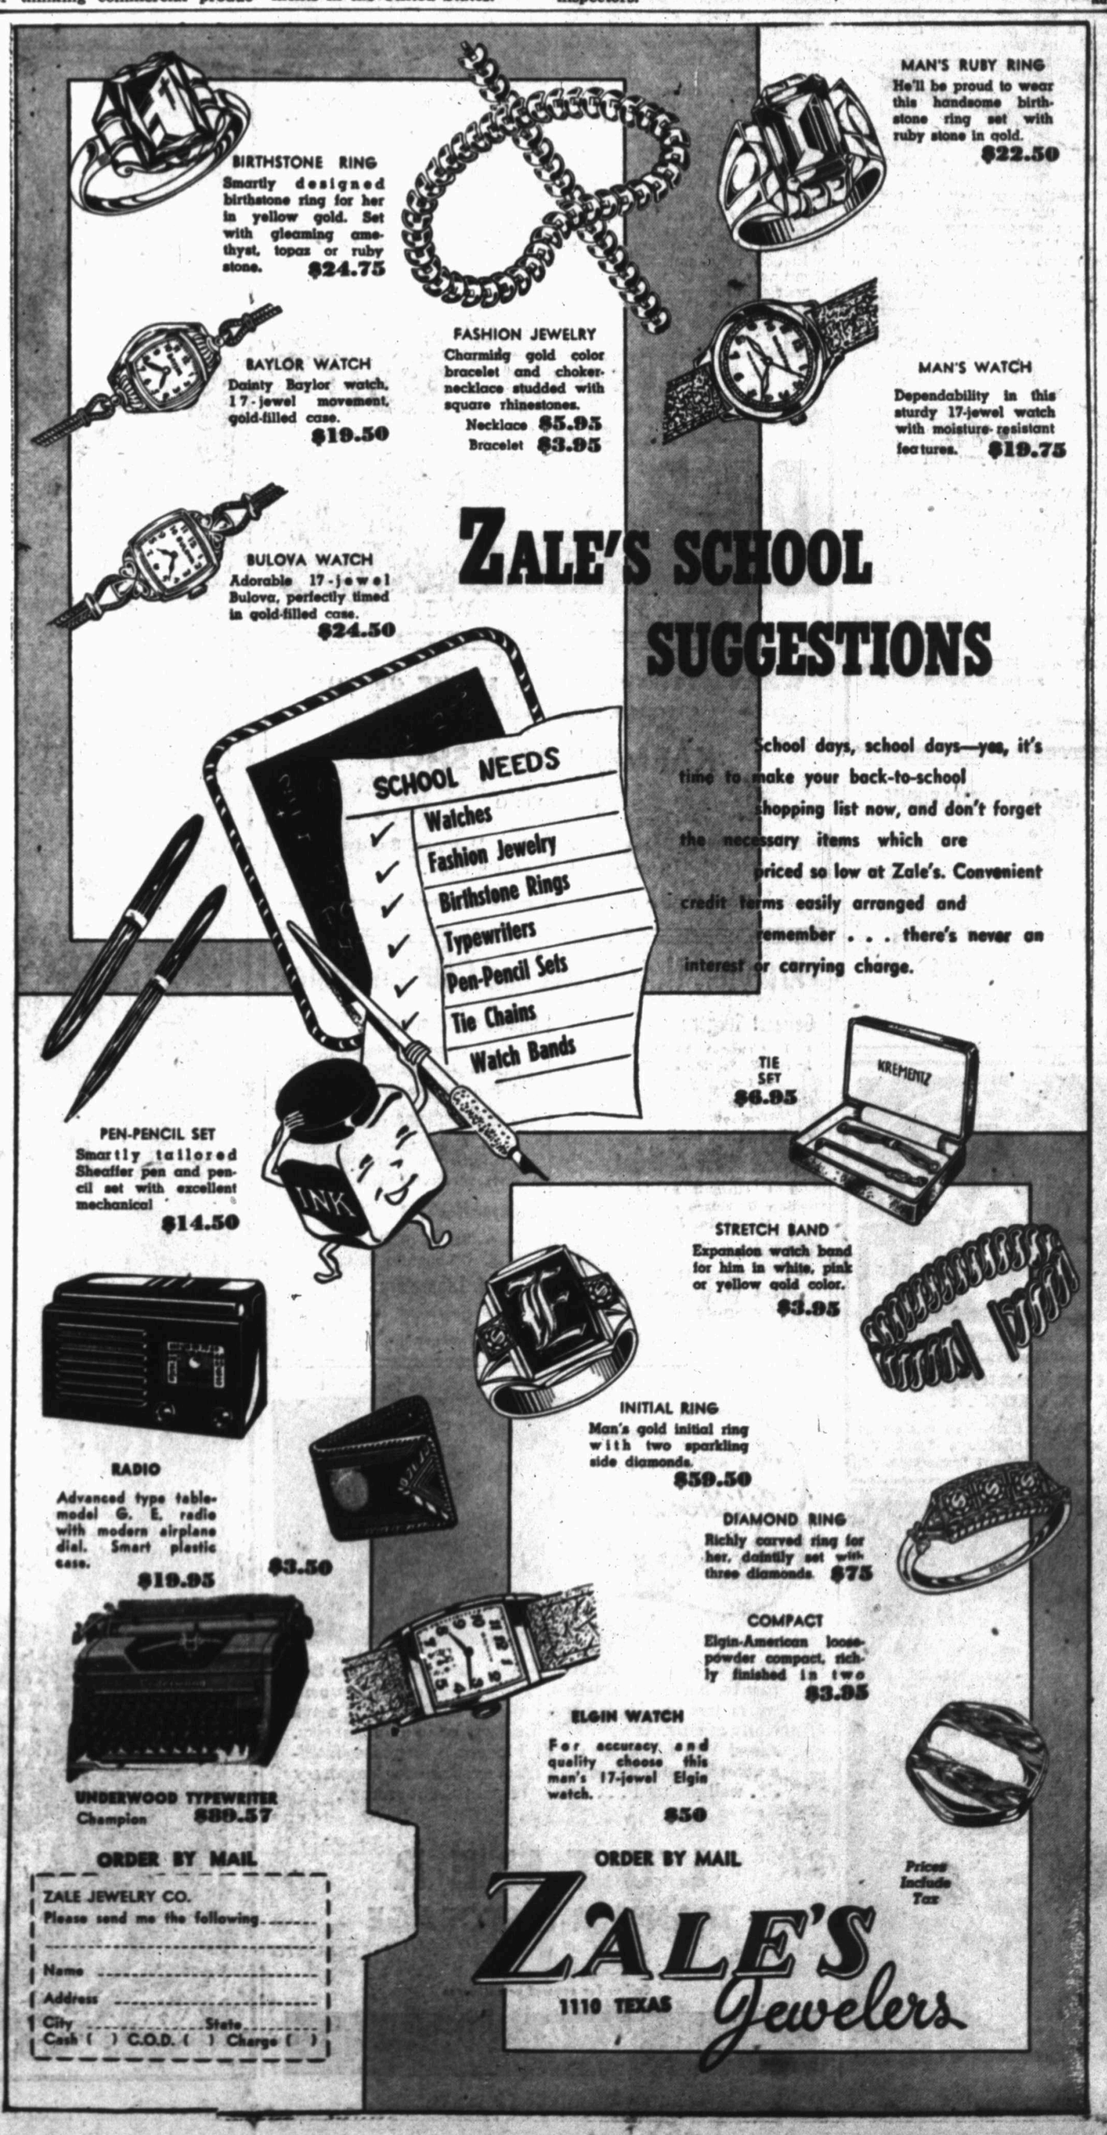

TO HELP IN HARVESTS

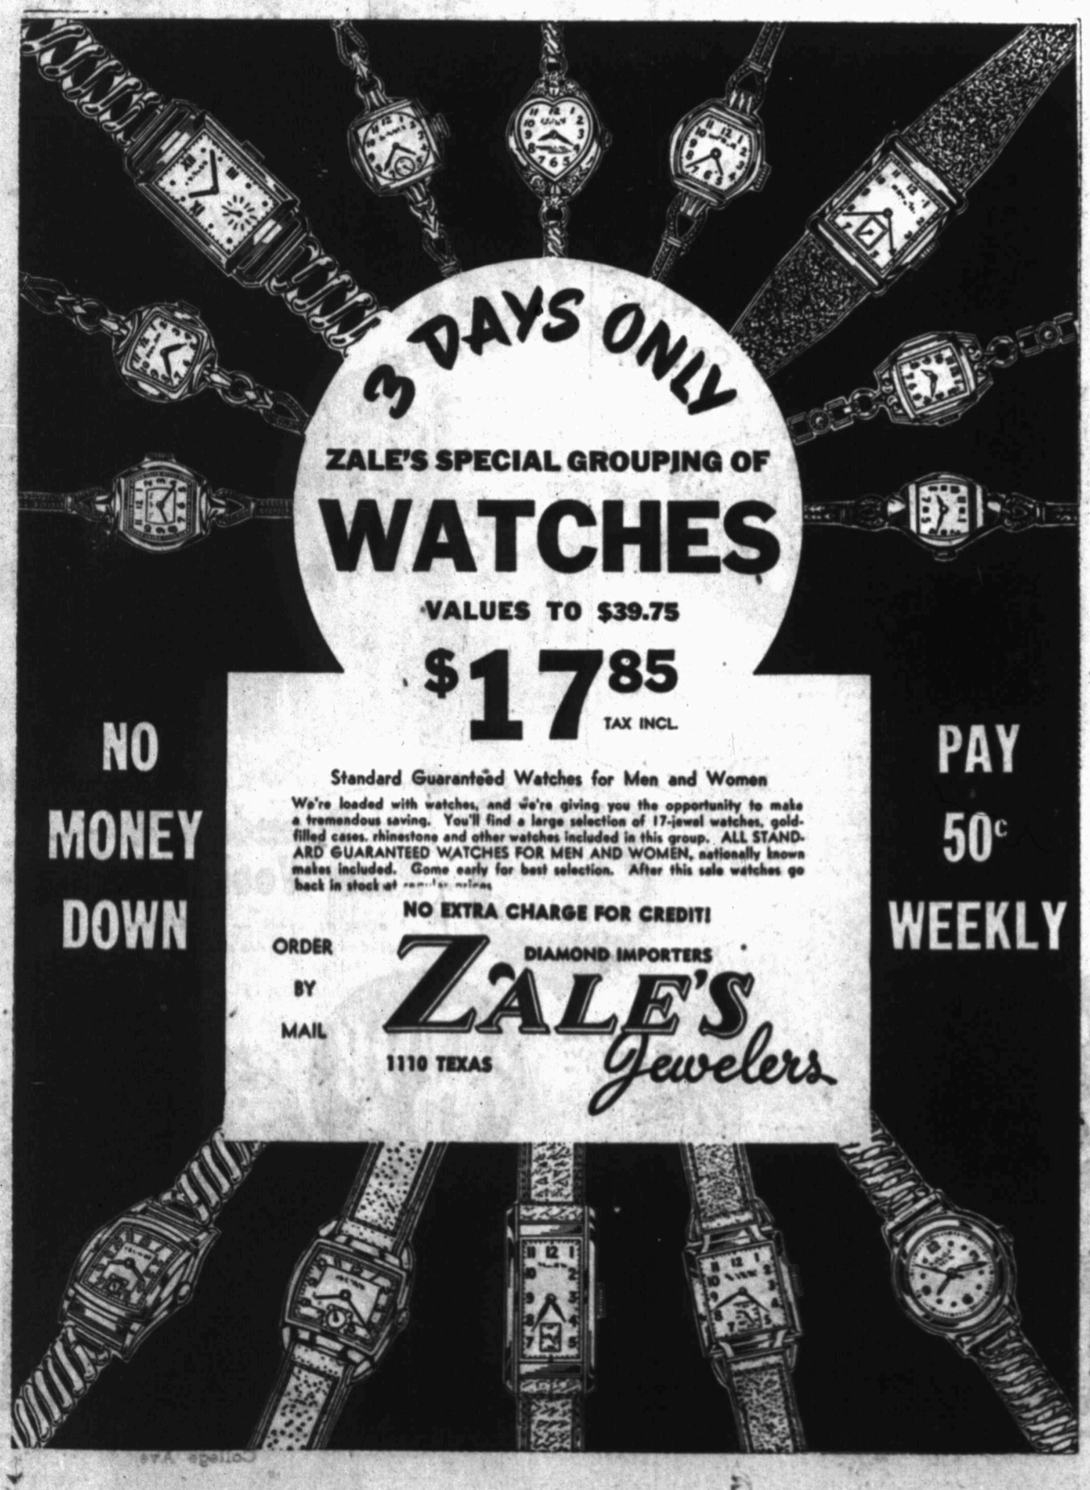

WASHINGTON, Aug. 12 (U.P.)—Government experts estimate that 30,000 to 45,000 foreigners will have to be brought into the United States this fall to help harvest crops. They said most of these workers will have to come from Mexico.

MEN! FEEL YOUNG AGAIN

Have the passing years left you tired and uninterested in the joys of life? Do you feel old at 40, 50 or more? Don't let the feeling of advancing years make you discouraged. You may once more enjoy the zest of living as you did in former years. Regain the pleasures of youth. Go to your druggist and ask for a bottle of Caltron tablets, take as long as you feel you need them. You will be amazed at the difference it will make in your entire outlook on life. Women too find Caltron beneficial. Get Caltron from your druggist at the new reduced price.

LUBBOCK MORNING AVALANCHE
Lubbock, Texas, Friday, August, 13, 1948

Lubbock Merchants Invited To Salesmen's Barbecue Sept. 3

Lubbock merchants and their wives have been invited to attend the second annual salesmen's barbecue at Mackenzie State Park Sept. 3. The invitation was extended at a meeting of the steering committee in the chamber of commerce office Tuesday morning.

Traveling salesmen residing in Lubbock will be guests of the chamber of commerce and The Avalanche-Journal at the affair.

Local merchants also were asked to extend an invitation to their department heads and other personnel and their wives and to out-of-town salesmen who may be in Lubbock at the time. These tickets will be $1 each and may be reserved at the chamber of commerce, telephone 4666. Tickets will be free to local traveling salesmen.

The Lions club agreed to arrange for the securing, preparation and serving of the barbecue. Wayne Henly, Lions' president, is a member of the steering committee.

The following subcommittee chairmen were announced by Irving L. Jones, steering committee head: music and entertainment, Harry D. Delaney; invitations, Rem Thomson; ground arrangements, A. T. Cocanougher, and publicity, C. W. Ratliff.

Chas. A. Guy, Avalanche-Journal editor, will be master of ceremonies.

Texas Adjutant General Blast Proposed Guard Federalization

AUSTIN, Aug 12 (U.P) — Maj. Gen. K. L. Berry, adjutant general of Texas, today cracked back at a proposal made in Washington that the Army absorb the peacetime National Guard.

The committee proposal, Berry said, is "a gross invasion of states' rights and will be resisted by Texas to the last ditch."

The adjutant general said "a state militia which was authorized by the constitution of the United States and which has existed for 175 years under the provisions of this constitution cannot and should not be taken from the states."

However, Berry did not comment on what specific action Texas might contemplate. Opposition to the proposal is being headed up in Washington by the National Guard association.

Mexico Fixes Prices On Many Food Items In Federal District

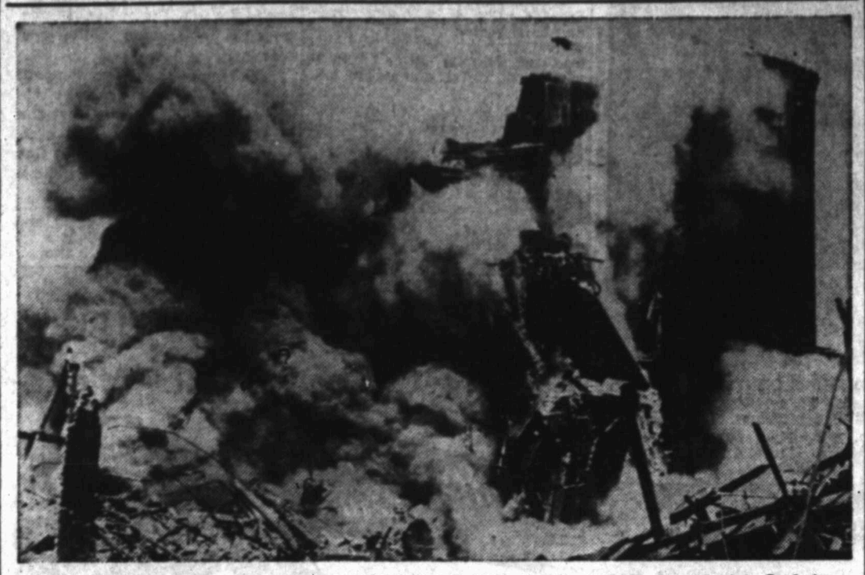

MEXICO CITY, Aug. 12 (U.P)—The Mexican government fixed the price of rice, flour, lard, beans and salt in the federal district today in the first move to keep prices from skyrocketing as a result of devaluation of the peso.

The official prices were set by the secretary of national economy and announced by Fernando Casas Aleman, chief of the federal district department.

Casas Aleman also has announced plans to open government-sponsored markets in the near future where basic foodstuffs will be sold at official prices. It is hoped this will help keep down prices in privately-owned stores.

It Should Be A Noisy Celebration

'Commencement' For Cheer Leaders Is Slated Tonight

HUNTSVILLE, Aug. 12 (AP)—If graduation is as noisy as the classes have been, there should be quite a blow-out at Sam Houston State Teachers college tomorrow night.

It's commencement for the nation's only school for cheer leaders.

Seventy-two teenagers, 59 of them girls, each with the ambition to be a champion pepster, have been attending the school.

Instruction is expert. The faculty is made up of head cheer leaders L. R. Herkimer of Southern Methodist university, Bill Mobley of Baylor, Teddy Montz of Rice, Jim Stevens of Texas A. and M., and Espy Watts of Sam Houston State Teachers.

The youngsters have daily examinations with their grades being sent to their high school principals. They run through their own school cheer, learn the cheers of other schools and write their own version. They also get instruction in tumbling, speech-making techniques and yell leading.

Advice Is Given

Tips from instructors include: "Kick heels up behind when you jump; it makes you look higher off the ground." "When you jump up and then down in a crouch, bounce a little; it looks more graceful." "In the locomotive cheer, always go down with the knee nearest the crowd; girls show off legs to best advantage that way."

A number of middle-aged and elderly high school teachers attending summer school at the college will enjoy graduation of the youngsters, too. The kids have been keeping them awake at night practicing their yells in the dormitories.

The school was started and is being directed by Clint Hackney, Sam Houston State Teachers music department head.

One high school physical education teacher—Miss Mildred Dodd of Spring Branch—said, "this is a life-saver for me. I've just been put in charge of the pep squad and I don't know a thing about cheer leading."

Equipment For 3,500 American Airmen In Britain Unloaded

LIVERPOOL, Eng., Aug. 12 (AP)—Trucks, jeeps and other equipment for an estimated 3,500 U. S. airmen temporarily based in Britain were unloaded today.

Most of the supplies were reported destined for the British R. A. F. Base at Burtonwood near Warrenton, Lancashire. An air ministry spokesman said there now are about 1,500 U. S. Air Force officers and men at Burtonwood.

Switzerland, which covers about 16,000 square miles, contains the headwaters of four great European river systems—the Rhine, Rhone, Po and Danube.

Aid To Airline Firms Studied

WASHINGTON, Aug. 12 (AP)—President Truman today stepped in to help the airline industry with its money problems.

He ordered a thorough financial study of the entire air transport industry to find the best way to finance both immediate requirements and long-term development.

The president acted after a conference with top officials of the Reconstruction Finance corporation, the Civil Aeronautics board and the budget bureau.

His order followed by one day a C.A.B. call for an industry-wide meeting here August 19 to study plans for passenger fare boosts and ways to cut operating costs.

The government considers a strong airline system vital to national defense and has aided in various ways, including mail subsidies.

But airlines recently have run into financial difficulties because of rising costs and declining revenue from passenger traffic. Several have asked permission to boost passenger rates, and for a hike in mail pay.

The government pays airlines so much per pound per mile for carrying mail. The C.A.B. and not the postal department, has the final say on how much this rate should be.

Airlines dislike the use of the word "subsidy" in connection with mail pay, saying that railroads and other carriers also get paid. However, the air rate is higher.

The ATA said the way the RFC might help airlines is by "financing loans more reasonably."

The White House said Mr. Truman is "extremely interested" in finding a solution to the problem, and that he asked the RFC to make a study and give him its recommendations "at an early date."

The CAB and the budget bureau were directed to assist the RFC.

Soviets Say White Guard Group Waging Campaign Against Reds

MOSCOW, Aug. 12 (U.P.)—Official Soviet organs charged today that Russian white guard emigre elements in the United States were waging a bandit-like campaign against Soviet citizens with the knowledge and sometimes the connivance of Americans.

The press uncorked a bitter blast against the United States in reporting for the first time the details of two Russian teachers who did not head for home when a school for Soviet children closed last month. They were Mikhail I. Samarin and Mrs. Oksana Kosenkina.

Three long dispatches of the official Tass news agency from New York covered the texts of Mrs. Kosenkina's statements to the press, a note from Soviet Ambassador Alexander Panyushkin to the United States, and the ambassador's comment to newspapermen.

May Enter Moscow Talks

In view of the seriousness the Russians appeared to attach to the case, some quarters saw a possibility that Foreign Minister V. M. Molotov might take it up directly with Ambassador W. Bedel Smith.

At the same time there was some speculation in the American colony here whether the case would lead to reprisals in Moscow.

American embassy officials declined to comment. So far at least, the incident was being handled exclusively in Washington.

Tass prefaced the Kosenkina statement as follows:

"Russian white guard emigre elements, having found asylum in the United States recently, so indulged themselves (obviously with the knowledge of local authorities) that they began to permit themselves to engage in clearly bandit-like acts against Soviet citizens, going as far as kidnapings."

Yakov Victorov, foreign editor of the Communist party organ Pravda, under the captain "Morals of 'Democratic' America" wrote:

"The entire Soviet nation supports the decisive and just report of the Soviet ambassador in Washington demanding not only the liberation of the Soviet citizen Samarin and his wife and three little children, but also urgent measures to suppress the criminal activity of bandit-like organizations hostile to the Soviet Union and threatening the interests of Soviet citizens in the United States, which activities are being conducted with the connivances of some American organizations."

Companies Differ Over Oil-Gas Ration In Reagan County Field

AUSTIN, Aug. 12 (AP)—Four oil companies today asked the railroad commission to retain the maximum efficiency in the Barnhart field, Reagan county, but differed on what the gas-oil ratio should be.

Amerada Petroleum corporation, at whose request the hearing was held, asked that the field be left on its present MER of 147 barrels per day per well. General American Oil company and Danciger Oil and refining company concurred, as did Skelly Oil company by Telegram.

Amerada recommended the gas - oil ratio be changed from 2,000 cubic feet of gas per barrel of oil to 3,000 to 1. The company said this ratio would be about all that Wittco Hydrocarbon corporation's gasoline plant could take. Skelly agreed with Amerada.

General American believed the plant will be able to use a 4,000 to 1 ratio. Danciger favored remaining on the present ratio.

Witnesses said the Wittco corporation's gasoline plant will have a capacity of 25,000,000 cubic feet of gas per day and its carbon black plant a capacity of 17,000,000.

Extraction loss at the gasoline plant was estimated to take up 5,000,000 cubic feet with 3,000,000 to be used as plant fuel and for lease operations in the field.

The plant's 25,000,000 cubic feet capacity would take care of the gas in the field, the commission was told.

The testimony was taken under consideration.

DIXIECRAT CANDIDATES HOLD PRESS CONFERENCE—Gov. J. Strom Thurmond of S. C., right, States' Rights Democrats presidential candidate, and Gov. Fielding Wright of Mississippi, party's vice-presidential candidate, are shown answering questions at a press conference they held in Houston, Tex., scene of the States' Rights convention. (AP Wirephoto).

Former Stage Beauty Relates Story Of Escape From Jungle

LOS ANGELES, Aug. 12. (INS)—Juanita Roddy-Eden Patino, 28-year-old former stage beauty, was awarded a divorce today from Ramon Patino, nephew of the late South American tinplate magnate, after relating a harrowing jungle drama.

The Carolina-born woman told the court that she accompanied her husband to Barranquilla, Colombia, last November with the understanding that he would immediately return and make his permanent home in the United States. She testified:

"When we got to Barranquilla, my husband told me that he had tricked me and that we were never going back to the United States.

"He said that under Colombian law I could never leave him or own any property in my name. He put me in a hotel room with our two children and used private detectives to guard me."

The young mother said that she drugged her guards and then fled with her children through the jungle into Ecuador where U. S. Ambassador John F. Simmons arranged her return to Florida by air.

Mrs. Patino is a former stage and film dancer, she and her sister being known as the Eden twins. She married Patino in Fort Lauderdale, Fla., in January, 1942.

Losses from livestock that reached markets dead, crippled, or bruised in 1947 were estimated at $25 million.

Ropes Public School Will Start Fall Term Sept. 6

ROPESVILLE, August 12 (Special)—Ropes public school system will begin its 1948-49 term Monday, September 6, according to an announcement by O. V. Fuller, superintendent.

Date of registration for high school students has not yet been determined, and will be announced later, Fuller said.

Blind Man Stumbles Over Body Of Dead Woman To Answer Call

MINNEAPOLIS, Aug. 12 (INS)—Ambrose E. Keating, a blind man, stumbled over the body of a dead woman today when he answered a call from the apartment across the hall.

The dead woman was Mrs. Ethel Moulton, 45, who apparently had been beaten to death.

Keating told police the woman's husband, Harold, 50, a railway yard clerk, called him in "to talk to me."

He said he stumbled over the body as he entered the Moulton apartment.

Police said Mrs. Moulton's face was battered, her teeth jarred loose, and that strands of hair had been pulled from her head.

Investigators said they found Moulton sitting in a drunken stupor when they arrived, his clothes spattered with blood and unable to answer questions.

He was held for investigation.

Bodies Of 10 Sahara Desert Thirst Victims Are Found

CASABLANCA, Morocco, Aug. 12. (AP)—The bodies of 10 more men who apparently died of thirst were found today in the Sahara desert where the temperature has reached more than 150 degrees fahrenheit in the sun. The bodies of three travelers were found in the area Monday.

The Mediterrane-Niger company in Oudja, Morocco, near the Algerian border, confirmed that the 10 victims found today had been working on a railway line at Gao Bidon five. They were said to have been Arabs.

Mexican Expedition Will Probe Vanished Civilization Of Mayas

By A. CARL KUPFER
INS Staff Correspondent

MEXICO CITY, Aug. 12—Another expedition is leaving this summer for the jungles of Chiapas in a further attempt to throw more light on the vanished civilization of the Mayas.

Two university students will penetrate into the still-unexplored wilderness below the Isthmus of Tehuantepec equipped with motion picture cameras, sound recording machines and a small radio. They will work in the area inhabited by the Lacandon Indians, the most primitive people in Mexico.

Fallen To "Stone Age"

The Lacandons are not a tribe since their social organization has degraded even below that. They live as individual families hidden deep in the jungles, use only stone implements and have neither the wheel, domestic animals nor metals.

These savages are the remains of the once proud Maya who, in their day, were the most highly civilized of the Western hemisphere. They built the cities of Chinchin Itza, of Bonampak, Ixmel, Copan, Tikal, which now crouch hidden away amid the rank growth of tropic America.

The Maya cities were in ruins when Cortes came to Mexico early in the Sixteenth century. Their civilization was gone, they were a degraded people even then. Spanish conquest and enslavement, Mexican abuse, did not conspire to restore their formerly predominant place in their country. Rather they sank lower and lower, took to the jungle fastnesses to escape their persecutors.

Relative Of Iriquois

The Maya was a relation of the Inca of Peru, the Iriquois of the United States and the Esquimaux of Alaska and Siberia. It is thought he is one of the intermediate races which migrated from Central Asia scores of centuries ago across the Bering strait and down to Patagonia. He was a short, thickset, copper-colored man whose intelligence was matched only by his brilliance and cruelty.

The huge cities, artistic carvings, monumental pyramids and temples were accompaniments to their practices of ripping out the hearts of sacrificial victims with stone knives or flinging them into holy wells.

Arithmetic, geometry, astronomy, architecture and a complex hieroglyphic writing were among their accomplishments. They had even penetrated their science to the highly advanced concept of zero but had neither metals, domestic animals nor the wheel.

Hit Peak In 500 A. D.

Their culture extended from before the beginning of the Christian era, reached its climax by the fifth century A. D., and went into a sudden decay. At their peak there were more than 100 Mayan cities and countless towns. Some of the major cities may have had as many as 250,000 people.

Wars, crop failures, disease and "social disintegration" such as attacked the Roman empire, brought about the downfall of the Maya. They were a decayed people when the Spaniard came, their cities were already crumbling into ruins but they fought as hard as the Astec to the north. Defeated, they took to their jungles where they live today.

All knowledge of their written language has disappeared today except among archaelogical philogists. It is a complex hieroglyphic considered even more difficult than that of Egypt. But the spoken Maya remains today in Mexico and is the only language of 120,000 Mexicans, not including those savages uncounted in the last census.

Government Aids

Yucatan, Campeche and Quintana Roo, all three on the northward-jutting peninsula and Yucata, contain almost all the Mayan speaking people of Mexico. In the areas the government is attempting to get the Maya to read and write his own language, put phonetically into Latin characters, as well as to read, write and speak Spanish.

In this way the government is trying to fit into the social and economic life one more of the many indigenous groups which cling stubbornly to their own languages and customs. It is having not too good success with the Maya whose civilization was far superior to anything Mexico has ever produced for itself. Perhaps once civilized was enough for the Maya who today asks only to be left alone in his jungle.

TAKE HEAVY TOLL

Seventeen million bushels of wheat annually is the toll paid in America because England hired 18,000 Hessian soldiers to help fight the American Revolution. A little insect hitch-hiked the Atlantic in the bedding of the German soldiers, and today, known as the Hessian fly, this pest is the number one enemy of New World wheat farmers.

Work A Week - Study A Week Plan Solves Students' Problem

NEW YORK, Aug. 12 (U.P.)—Poverty is no reason for not getting an education, Dr. William Jansen, superintendent of New York schools, has concluded. He has the figures to prove it.

New York high school boys and girls enrolled in the city's "work-a-week-go-to-school-a-week" program earned $1,245,943 last year.

The program works like this:

For the first two years, students enrolled in the "co-operative education program," as it is called, attend regular classes.

For the next two years, students 16 and older attend classes one week and work the next.

They work in pairs, one member always being on the job to insure employers that the position will be covered. They work at everything from mechanics to ribbon clerks.

"On-the-job-training" is an old thing in New York public schools. The co-operative program has been going on for 33 years. This year 4,017 students participated.

Earnings are important, Dr. Jansen said, "only insofar as they make it possible for these boys and girls to remain in school."

Experience Pays Off

In addition they reflect the value of the practical experience obtained from on-the-job training.

"The co-operative program is not a nursery," Dr. Jansen said. "No one is coddled on the job. To sustain themselves, these students have to be just as dependable and just as efficient as any other employes."

Many of the headaches of the program are eased by a co-operative education commission which advises school authorities on industrial, commercial or labor matters.

Modern Equipment To Reduce Jolting On Famous Fast Train

NEW YORK, Aug. 12 (U.P.)—The Twentieth Century Limited is going strictly modern late this summer.

Two new sections for the famous train, consisting of 32 cars, are nearing completion in the Chicago plants of the Pullman-Standard Car Mfg. Co., officials of the New York Central announced.

Each section of the Century will cost around $2,000,000, complete with locomotive. Equipped with a new type of coupling device, the trains will start and stop without a perceptible jolt. Each car will be connected by inter-car telephones and, in addition, radio telephone equipment will enable passengers to call home or any place equipped with telephone service.

Sweden is 950 miles long and has an average width of 190 miles.

FIRST BUS

The first bus operated in the United States was a horse-drawn vehicle traveling on Broadway between Bond street and the Battery in New York City in 1831. The fare was 12½ cents.

Russia's navigable waterways total about 60,000 miles in length.

COMET HEADS

The head of a comet is believed to be a large collection of meteoric matter, of sizes ranging from that of sand grains to masses as large as the meteorites which sometimes strike the earth.

Parent eels die after their young are spawned.

CROWD ATTACKS U. S. SOLDIER

Thousands Of German Workers Protest Prices, U. S. Policies

By RICHARD O'REGAN
Associated Press Staff Writer

FRANKFURT, Germany, Aug. 12—Thousands of German workers demonstrated in the U. S. occupation zone today against high food prices and policies of the American military government. One crowd beat an American soldier and his German driver in Frankfurt.

An official of the Hession trade union said 300,000 persons turned out for mass meetings in the main industrial centers of Hesse. Demonstrators demanded that Gen. Lucius D. Clay, the American military governor approve a law providing more say for workers in management.

20,000 Attend Rally

The rally in Frankfurt was the city's noisiest and biggest since the end of the war. It drew approximately 20,000 office and industrial workers, who protested high food prices.

An American jeep was overturned as it tried to force its way through the crowd. The German driver was assaulted. An American soldier got out of the jeep as it toppled over. He tried to keep away his attackers by brandishing a hammer but was hit several times. Police arrived but made no arrests.

Thousands of plants, stores and offices closed their doors in the afternoon as workers poured out to the meetings, which were called by the Hessian trade unions. Offenbach, Giessen, Kassel and dozens of smaller cities were among those affected.

Night Club Singer Recovering From Taking Sleeping Pills

HOLLYWOOD, Aug. 12. (INS)—Marion Murray, night club singer and known on the screen as Marion Sayers, was recovering today from taking 15 sleeping pills.

The singer telephoned her friend, Hope McKenzie, that she had taken the pills and Miss McKenzie summoned police. Quick action at west Los Angeles emergency hospital was credited with saving the singer's life.

Miss McKenzie told authorities that Miss Murray had been despondent ever since her estranged husband, actor James Murray, was found drowned in New York's north river in 1936.

North Carolina Polio Epidemic Continues

RALEIGH, N. C., Aug. 12. (INS)—North Carolina health officials reported today that 32 new infantile paralysis cases raised the state's total to 1,417 so far this year.

Of the total, 155 persons have been stricken this month. No new deaths were reported today.

Meetings of all types throughout the state are being cancelled and school officials in Beaufort county said the polio epidemic will delay the opening of the county's schools next month.

St. Louis Officials Probe Death Of Man Found In River

ST. LOUIS, Aug. 12 (INS)—Authorities were confronted with an apparent murder mystery today when a man's weighted body was found floating in the Mississippi river near St. Louis.

Detective Sgt. Walter Eitzman said a 10-pound metal ring had been attached to the man's neck with baling wire and that a rope around the body indicated another weight had been tied there.

Eitzman characterized the case as a "definite homicide."

The body was taken to the city morgue, where efforts will be made to identify it.

Morgue attendants said the victim was about 40 years old, six feet tall, weighed about 200 pounds and had reddish hair. They said his dark trousers and jacket appeared to be of expensive material.

The condition of the body indicated it had been in the water four or five days.

Cong. Rayburn To Receive Degree From Southwestern

GEORGETOWN, Aug. 12 (AP)—Congressman Sam Rayburn will receive an honorary degree at the summer convocation of Southwestern University Saturday night, University President J. N. R. Score, announced today.

Rayburn was scheduled to receive the degree at the June commencement of the university but was unable to attend at that time.

Negro Woman Found Innocent Of Liquor Law Violation

A verdict finding Helen Boswell, about 35, a negro woman, innocent of a charge of having sold whisky to Ray A. Hutcheson, a state Liquor Control board inspector, was returned Thursday afternoon by a county court jury.

Special County Judge Ralph Brock presided. Foreman of the jury was W. G. Clayton.

The defense set up a plea of agency, in efforts to convince the jury that the defendant did not make the charged sale herself; rather that she, acting for and through request of the inspector, bought the spirits for him.

Hutcheson testified at the morning session. The Boswell woman and three of her witnesses testified for the defense. She was represented by the firm of Denton and Salyars. The prosecution was handled by County Attorney John Steele and his assistant, Winston Brummett.

Wade Boswell, husband of Helen Boswell, will be tried today on a liquor law violation charge, officials said.

Brooklyn Girl In Quandary After Marrying Stepfather

MIAMI, Fla., Aug. 12 (INS)—A 16-year-old Brooklyn girl came into a Miami circuit court today as confused as the song, "I'm My Own Grandpa."

Dorothy Furnari is her own daughter. This occurred through marriage to her stepfather.

Dorothy is trying to untangle the marital knot by suing for divorce. She claims her stepfather forced her to marry him by threatening to kill her mother.

Dorothy said in her suit that she married Salvatore Furnari April 30, but they separated ten days later. She charged that he beat her and pawned her clothes to get money for gambling.

The girl's mother divorced Furnari in 1941.

Glen Rose Cafe Operator Is Found Dead In Wrecked Car

GLEN ROSE, Aug. 12 (U.P.)—Funeral services were scheduled for today for Dock Thomas, 64, killed in a highway crash near here.

Thomas, a Glen Rose cafe operator many years, was found dead in his overturned car early yesterday morning. He left his cafe late Tuesday night en route to his farm home.

Authorities said they learned he had been having headlight trouble with his car. A burning flashlight was found near the wreckage, and it was surmised Thomas had been using it to drive by.

Japs Protesting Anti-Strike Curb

TOKYO, Aug. 12 (INS)—Government workers posted downtown Tokyo today as they carried their campaign against a government order denying them the right to strike into the streets.

They erected a poster quoting criticisms of Gen. Douglas MacArthur made by James Killen when he resigned as head of the labor division in MacArthur's headquarters.

Killen's criticism was leveled at a letter from MacArthur to Premier Hitoshi Ashida in which the general proposed legislation banning strikes and collective bargaining by Japanese government employes.

The Ashida cabinet passed the legislation.

The four-by-ten foot poster, hung on the walls of Tokyo's main post office, accused Japanese newspapers of refusing to print Killen's statement.

The poster said on the other hand the newspapers had published a reply by Blaine Hoover, chief of MacArthur's Civil Service division, terming Killen's statement "complete nonsense."

In an effort to slow down Japanese municipal governments in their moves to suppress public demonstrations, MacArthur's headquarters held up an Osaka ordinance banning labor demonstrations.

Maj. Gen. Joseph Swing, intelligence corps chief, who issued the order, said portions of the Osaka ordinance violated civil liberties guarantees given by Allied occupation headquarters.

The Osaka ban is a major issue in Japan's current labor unrest. Other cities are studying similar ordinances.

Texas To Get Large Share Of REA Funds

SAN ANTONIO, Aug. 12 (AP)—Texas will receive a large share of $500,000,000 which the Rural Electrification administration is to spend during the next 12 months in extending power to the nation's farms and ranches, Frank Dawes, chief of the REA management division at Washington, said today.

Dawes attended a three-day conference of REA managers and directors from Texas, New Mexico and Arizona.

To Extend Service

He said 65 per cent of U. S. farms do not have power. The REA corporations are serving 2,250,000 farms and expect to service a majority of the 1,500,000 to 1,750,000 farms and rural homes not now on lines, he said.

John Boedyns of Mercedes, president of the board of directors, Magic Valley Electric Cooperative association, explained that the REA covers areas not serviced by private utilities.

There are more than 18,000 motion picture theaters in the United States.

Fort Worth Rapist's Hearing For New Trial Is Postponed

CORSICANA, Aug. 12 (AP)—Hearing for a new trial for William R. Ray, convicted of rape, has been postponed from Aug. 21 to Sept. 4, A. P. Mays, trial judge, said today.

Ray was convicted and assessed the death penalty in district court here July 8.

Ray was tried in connection with an assault on a nine-year-old Fort Worth girl last April in a Fort Worth park. He pleaded innocent when arraigned on the indictment July 5.

Liberia and Haiti are the only two independent Negro countries in the world.

AMARILLO MAN DIES

FORT WORTH, Aug. 12. (AP)—John W. Gillam, Sr., Amarillo, died here yesterday at the home of a daughter. He was a retired Western Union superintendent, a position he held in Amarillo for many years.

Berlin's population dropped from about four million to about two million after World War I.

Bull-fighting is a survival of the ancient Roman wild beast shows.

NEVER BEFORE

have you seen such a Washday Miracle!

GUARANTEE

Procter & Gamble guarantees that Tide will do everything claimed for it in this advertisement. If you are not completely satisfied, return the unused portion of your package to dealer, and the purchase price will be refunded.

IT'S TIDE

... Procter & Gamble's amazing new discovery!

You've never used anything like it! Tide's a true miracle of modern science, made possible through wartime research. Tide gets clothes *cleaner* than any soap made! But that's only part of the miracle . . . Tide also leaves colors *brighter!* As for your white things—no soap in the world will get them whiter! You'll know Tide's completely different the first time you see the suds. Those wonder suds look different . . . feel different . . . they billow up instantly even in hardest water.

NO SOAP WILL GIVE YOU ALL THIS:

The CLEANEST, BRIGHTEST, WHITEST wash you ever hung on the line!

CLEANER than any soap!

You'll get a real washday thrill when you see how Tide gets everything *cleaner*—even greasy overalls! For Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well!

BRIGHTER than any soap!

Tide *brightens* colors that soap washings have dulled. Works this miracle *safely*, too! Yes, powerful enough for heavy work clothes, yet *truly safe* for all washable colors—that's Tide!

The world's WHITEST wash!

Good news for sheets, shirts, pillowcases, and other white things! Tide gets them *dazzling* white! No soap made will get them whiter! And Tide *keeps* them dazzling white, week after week . . . never turns them yellow!

GIVES MORE SUDS—prove it in your dishpan!

Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in *hardest* water! Tide cuts grease like magic...washes dishes cleaner than any soap. No scum in the water! No cloudy film! Dishes and glassware rinse and dry *sparkling clear*—even without wiping!

A Granulated Hymosol Product

TIDE'S IN— DIRT'S OUT!

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

Man Hews Home Out Of Big Cedar Stump

SEDRO WOOLEY, Wash., Aug. 12 (U.P.)—A hollowed-out cedar stump helped Peter Bilecki beat the housing shortage.

Bilecki at first intended the stump to be a tool shed, but when he found it was 10 feet high and seven feet, two inches at the base he said he "knew" he had found a home.

In five months of spare-time labor he hewed out the interior, capped a roof on it, cut out two windows and attached a door to one side.

A built-in slab bed also serves as a chair. Bilecki cooks on a stove improvised from a 10-gallon milk can, which lies on its side. The lid is sealed on a stovepipe protrudes from the side.

"I'm happy. I don't pay rent and get my fuel out of the woods and grow vegetables in my garden," Bilecki said. What little money he needs he gets by doing odd jobs in the area.

Wisconsin Cigar Band 'King' Has Collected 50,000 Samples

CHICAGO, Aug. 12 (U.P.) — Gilbert Budlow, a 33-year-old nonsmoker from West Allis, Wis., probably is the cigar band king of the country.

He has a collection of 50,000 specimens and is president of the International Cigar Band Society.

Budlow said he started his collection from a group of bands his mother had left over from a turn-of-the-century fad — pasting them on glass ash trays, mirrors and vases. Present day collectors scorn such practices and keep their collections in neat loose leaf notebooks.

The collection was built up through trades, contracts with cigar makers and plain butt snipping. "I've found some of my rarest bands on curb stones and golf courses," Budlow confided.

BURIAL COMPANY

It was customary to bury his bavorite wife with him to keep him company, when a man died among the Comanches in the early days.

Chicago Families Co-Operate In Lake Bathing Health Test

CHICAGO, Aug. 12 (U.P.)—For the first time, a "scientific" experiment is being conducted to determine the effects of lake bathing.

More than 2,000 Chicago families are co-operating with health authorities by recording on elaborate charts any ailments experienced during the summer. By measuring the differences in the reports made by bathers and nonbathers, the doctors hope to accurately check the effects of the lake water on average citizens.

Among the ills to be reported on the charts are eye inflammation, ear infections, nose or head colds, and skin infections. Meanwhile the authorities are making tests of Lake Michigan from Milwaukee to Gary, Ind., to determine if pollution increases in summer.

Expert Advises Waitresses To Shun Bad Language, Frowns

LINCOLN, Neb., Aug. 12 (U.P.)—About the first thing a waitress should learn is not to say "what d'ya want?"

She also should not sit on tables or sling bar cloths over her shoulders. She should watch her language and try not to frown.

Those suggestions were handed down by John B. O'Meara, 51, as he opened a school for waiting for prospective waitresses.

People always are searching for peace of mind, O'Meara said, and sometimes they don't find it in restaurants, especially where a waitress says "what d'ya want?," spills coffee in the saucer and scrowls. It's a good way not to get a tip, and is no way to sell food, he said.

EXPLODES BUILDINGS

A tornado damages a building by causing it to explode, according to the Encyclopedia Britannica. The barometric pressure within the tornado is so low that the greater air pressure inside the building blows it apart.

Japanese-Americans May Find West Coast More Friendly Now

By RUTH LARSEN
United Press Staff Writer

SAN FRANCISCO, Aug. 12—Returned Japanese-Americans on the Pacific Coast feel that the work Nisei servicemen did during the war has helped establish a more friendly attitude toward Japanese. It has accomplished "more than the diplomats did before the war," they say.

Y. W. Abike, San Francisco Japanese - American newspaperman, and his staff have just completed a survey of conditions faced by returning Nisei and the attitude toward them on the coast. He said:

"The attitude is much more friendly than before the war."

He believed that is due mainly to two things. First was the accomplishments of Nisei servicemen during the war, especially the famed and often-decorated 142nd infantry division which served in France and Italy.

Veterans Friendly

Second, he said, is the friendly attitude of veterans' organizations. He found veterans' organizations, principally the Veterans of Foreign Wars and the American Legion, were helping the Nisei fight their battle for removal of racial restrictions and repeal of national and state discriminatory laws.

This change in attitude of veterans' organizations, Abike said, is particularly heartening to the Nisei as it was those organizations which were the strongest against the Japanese - Americans before the war.

Some prejudice still remains, he pointed out. But to counter it, he said, veterans' groups in such large communities as Sacramento and San Francisco actually have sponsored Nisei posts.

Labor organizations and civic groups are also aiding the Nisei, he reported. He said the American Federation of Labor has reversed its sentiment since the organization advocated the Japanese exclusion act of 1924.

Abike pointed to the 10-point civil rights program of President Harry S. Truman.

"Two of those points," he said, "were meant directly for Japanese-Americans."

One, he stated, which provided for evacuation claims to make up losses suffered by the Nisei during 1942, has been passed by Congress. The second, he said, would provide citizenship to legal residents of the United States of Japanese ancestory. The latter legislation, he said, "will come before the next regular session of Congress in 1949."

Narrow Escape Of U. S. Leaders In War Is Related In Series

NEW YORK, Aug. 12 (INS)—The late President Roosevelt and his chiefs of staff were reported today to have narrowly missed being torpedoes by an escorting American destroyer while enroute to the Teheran conference in 1943.

The incident, according to the current instalment of "The Secret Papers" of the late Harry L. Hopkins in Collier's magazine, occurred about the U. S. S. Iowa which was ferrying the late President, top military leaders including General George C. Marshall, and Hopkins to the historic parley with Russian Premier Stalin.

According to Hopkins' records, the near - catastrophe occurred during gunnery practice aboard the Iowa in mid-Atlantic. He wrote:

"Suddenly an officer from the bridge two decks above leaned over and yelled, "It's the real thing! It's the real thing!'

"Just as I got to the starboard side to find out, everything fired at once in the wake of a torpedo about six hundred yards away—the firing lasted about 30 seconds.

"It was a torpedo all right—but not from a German submarine. One of our destroyers had let loose a torpedo directly at the Iowa."

Hopkins' notes continued:

"The commander of the destroyer explained it as follows: The torpedo was in place but with no primer attached—the torpedo must have been unloosed because of the heavy seas in some unaccountable fashion.

Can you image our own escort torpedoing an American battleship—with the President of the United States aboard—along with the Chief of Staff of the Army and the Chief of Naval operations?"

Dallas Woman Says Fight Against Meat Prices To Continue

DALLAS, Aug. 12. (AP)—The leader of Dallas' housewives' butcher boycott went to bed today from exhaustion but declared the fight against high meat prices would continue until they were more reasonable.

"We are determined to force meat prices down to reasonable levels," Mrs. R. D. Vaughn, the 71-year-old Dallas woman who initiated the butcher boycott.

The boycott was called to start last Monday and continue for a week. Meat sales generally have dropped in Dallas but no major changes in prices have been apparent.

Await Weekend Orders

Retailers said they would have a better idea about response to the meat strike call Friday and Saturday, when housewives usually gave big orders for the weekend.

Estimates of meat sales declines ranged from 10 to 50 per cent. Some retailers reported business "way off" while others said it was normal.

Only one local chain of grocery stores advertised new low meat prices for the weekend. The Clover Farm stores advertised veal sirloin steak at 79 cents a pound and chuck roast at 55 cents a pound. For the rest of the grocery stores, beef steaks ranged from $1.09 to 83 cents, according to cut and grade, and the lowest roast advertised was pot roast at 63 cents a pound.

Meat processors and packers reported orders were coming in as usual. Dallas has no central stockyards, but at the nearest livestock market, in Fort Worth, both cattle and calves were reported steady today.

30 Lubbock And South Plains Youths Are Accepted By Army

Six Lubbock youths and 24 others from the 18-county South Plains area have been accepted for Army enlistment since August 1, the Lubbock recruiting office reported Thursday.

Lubbock youths who have enlisted are:

Corps of Engineers, William Q. Price, Jr., and Samual Ashley Petty, both of Route 7.

First Cavalry Division, James Milton Thornton, Route 7.

Regular Army Unassigned, Gilbert R. Chavez, 118 N. Avenue N, Clayton Wayne Cunningham, 212 Hub Homes, and Roy Lee Alley, Route 7.

School Principal Is Named At Morton

MORTON, Aug. 12 (Special)—With schools scheduled to open Sept. 6 in Morton, faculty of the school system was completed with the appointment of Elmo Smith as elementary school principal.

Smith is the 31st member of the faculty. He formerly was elementary principal at Ranger.

Wendell Watson is principal of the Senior High school which has 12 instructors. Six Junior High school teachers and 11 elementary school teachers have been appointed.

List of teachers includes three newcomers to the elementary school in addition to the principal: Mrs. Fern Gray, formerly of Benjamin; Mrs. J. J. Graham, formerly of Old Glory; and Mrs. L. B. Patterson.

The new teachers at Senior High school are: Joseph Michael, science and mathematics; Alan Bryan, English and Speech; Betty Barnett, English and Journalism; Mr. and Mrs. Fred Danforth, band and social sciences; Melvin Crawford, football coach and social science; Bill Yarbrough, assistant coach.

Tyler Newsman Says Stevenson Dodged Questions Of Reporters

TYLER, Aug. 12 (AP)—Calvin Clyde, Jr., manager of the Tyler Courier-Times and Telegraph, said today that Coke Stevenson, candidate for the U. S. Senate, dodged questions of Tyler and Longview newsmen at a press conference here.

Clyde said Stevenson told both Tyler and Longview newsmen at the conference Tuesday night that if they would put the questions in writing he would give the answers the next day.

The Tyler newspaper manager said that Stevenson issued a statement the following day, but that it did not contain the answers to the questions.

He said the questions concerned Stevenson's stand on the Taft-Hartley law, new federal housing, the draft law and the international situation.

Clyde said he would submit the questions to Lyndon Johnson, Stevenson's opponent in the runoff.

Two Workmen Are Killed In Sewer Cave-In In Missouri

AFFTON, Mo., Aug. 12 (INS)—Two workmen were killed today when the walls of an Affton sewer caved in on them.

The victims were Douglas Johnson, 27, and Fred Marchbanks, 40, both of Lemay, Mo.

Marchbanks was completely buried by the cave-in and Johnson was trapped in dirt up to his neck.

Fellow workers uncovered Marchbanks' head and attempted to revive him with an inhalator.

Both men were pronounced dead upon arrival at a hospital.

Johnson, foreman on the job, was married and the father of a 6-year-old girl Marchbanks is survived by his wife.

Berlin was established as the capital of the united German empire in 1871.

VFW Chief Says United Nations Is World's Greatest Peace Hope; Urges More Education

GREELEY, Colo., Aug. 12 (INS)—Ray H. Brannaman, national commander-in-chief of the Veterans of Foreign Wars, declared in Greeley tonight that the United Nations represents the greatest hope for future peace.

In the commencement address to summer graduates at the Colorado State College of Education, Brannaman declared:

"You must emphasize that our greatest hope rests in the eventual success of the United Nations, but that so long as Soviet Russia or any other nation insists upon aggression, we must keep up our guard."

Still Need More Education

The leader of the veterans' organization listed "three companion keys to peace — education, preparedness and action for real world leadership." He said the United States "finally" has applied two of them, but that we are still "only thinking about the third — education."

As a campaign for world peace, this nation should, according to Brannaman, use three factors: More vigorous home education for Democracy; more positive application of true Democracy at home, and a balanced economy for everyone.

He warned that "we are still living under the law of the jungle, the survival of the fittest," but called on the teachers to educate for peace, since "only education can change the operation of power through force."

Brannaman received an honorary degree of doctor of humane letters from Dr. William Ross, president of the State Teachers' college.

PLANES TO RETURN

WIESBADEN, Germany, Aug. 12 (AP)—Sixteen American jet fighter planes now in Germany will fly back to the United States tomorrow. They will be replaced by 69 jet fighters which arrived Aug. 4 in Scotland aboard the carrier Sicily.

Mobilization Of Civilians For Defense Duty Given Backing

By GEORGE GALLUP, Director
American Institute of Public Opinion

PRINCETON, N. J., Aug. 12—With men 18 through 25 scheduled to start registering Aug. 30 for the draft, there is considerable sentiment throughout the country to require all other adults up to 65 to register with draft boards for civilian defense or war work in case of war.

GALLUP

A coast-to-coast poll finds that six out of every ten voters would like to see all citizens under 65 register with draft boards so that they could take part in defense or war work if necessary.

Also, seven out of every ten voters think that young men of draft age who are not taken into the armed forces should spend time in training for local defense or war work.

The poll results are:

"Should a law be passed now which would give the government the right to require all citizens under 65 to register with draft boards so that citizens could take part in defense or war work if they are needed?"

Yes	60%
No	33
No opinion	7

"Should the U. S. government require young men of draft age who are NOT taken into the Armed Forces to spend time in training for local defense or war work?"

Yes	70%
No	21
No opinion	9

A group of clergymen opposed to the 18-25 military draft act passed this year by Congress are urging that next Sunday, Aug. 22—the Sunday before registration begins — be set aside as a "day of mourning" to protest the measure.

The view of these clergymen do not, however, reflect the views of the majority of Americans, who since as early as 1942 have favored one year's military training in peacetime for young men.

In nearly a score of surveys of public opinion during the past six years the Institute has found support for the measure averaging about 2-to-1.

Some observers feel that setting up a program for civilian defense mobilization is more important even than the peacetime military draft. The next war, they say, may play such havoc with our cities and factories that the government must have the power to compel large sections of the population to move to safe areas and to change their jobs accordingly.

This principle of drafting for jobs was widely discussed during World War II. Congress refrained from passing a national service law with such a provision, although civilian manpower grew acute as the war progressed.

However, such a law would have had wide support from public opinion, judging by many surveys on the issue conducted between 1942 and 1945 by the Institute. As early as March 1942, when we had been in the war for only a little more than three months, 61 per cent of voters polled favored a total mobilization program which would give the government power to tell each citizen what to do for the war effort and then require him to do it.

Three years later, in February, 1945, this type of total mobilization was still approved by 56 per cent of all voters polled, with 36 per cent opposed and 8 per cent undecided.

NO TAIL

A scorpion's sting is not on the end of its tail, for the scorpion has no tail. The creature's alimentary canal continues throughout the jointed segments to the poison-injecting weapon.

Siamese Girls Clip Hair Short To Cheat The Devil

BANGKOK, Sima, Aug. 12 (U.P.)—Close-cropped hair is more than just the rage in Singhaburi province in Siam. It's a life-saving measure.

Travelers returning from the hinterland report that according to a rumor in the province, the Devil, in a recent conversation with a religious mystic, said he would take the life of every woman in Singhaburi. The sudden and unexplained deaths of several women in the province seemed to confirm the rumor.

Anyway, women immediately rushed to the hairdressers to demand boyish bobs as a disguise to "cheat the devil."

HOUSTON WOMAN CLAIMED

HOUSTON, Aug. 12. (U.P.)—Mrs. Annie Bertha Huwieler, 90, died in Houston hospital today. Mrs. Huwieler was born in Houston 23 years after it was founded by the Allen brothers. Her late husband worked for the Houston and Texas Central railroad.

The earliest known bird is believed to be a peculiar creature called an archaeopteryx which lived 125,000,000 years ago.

SAFETY FIRST

The Spy Ring Probe

FAIR-MINDED and common sense Americans, which means most of them, recognize that some of the federal officials mentioned during recent "spy investigations" may have been placed under unjust suspicion.

But this same common sense tells them there must be some fire to cause all the smoke. Logic tells them that some—if not most—among those accused are guilty. All could not be lily white in their innocence. And no method is known to men to distinguish between those who are guilty and those who are innocent.

This poses a peculiarly difficult problem. Ordinarily, Americans would agree that it would be far better to let the guilty escape than to punish those who might be innocent. But there are times when this basic rule of leniency cannot be applied with safety.

Such a time occurs when the officials involved are in positions to supply information of vital importance to a potential enemy—information which might cost American lives, or even affect national survival. Those officials should be beyond suspicion. If they ever become suspect, that fact alone is sufficient cause not merely to justify, but to demand, their removal. No nation in its right mind can take a chance in such cases, even though the safeguard might impose unjust penalties.

In the case of the great majority of those mentioned in the spy inquiries, few injustices would be done by removal. Most of them deserve nothing less than to be kicked out of their jobs because of the company they have kept, if not for actual crimes. In the vast majority of instances, they are under suspicion because they have brought it upon themselves.

If it should happen that a few innocent should be made to suffer nothing worse than the loss of jobs in order to clean out the guilty, it will be justified by the demands of national security.

Good Foresight

TYPICAL Lubbock foresight is exemplified by the fact that the business men, acting through the Chamber of Commerce, already are making their plans for a program of Christmas lighting and decorating next December, surpassing anything of that nature ever attempted here before.

It goes without saying that practically everyone in Lubbock shares their wish and hope that this truly will be the city beautiful during the holidays. The attainment of that goal necessarily will involve much planning, a lot of hard work and some expense. It is not too early to get started.

The foresight also sets an example for the individual business men and home dwellers, who want to do something rather special at their places. They, too, might be wise to start their planning and to take the precaution of making sure in plenty of time that the materials they require will be available.

The other day we ran across the most dejected person we've seen in several moons. "I can't find anywhere to live," he said, "or any reason for doing so."

Down Memory Lane

(From the files of The Lubbock Morning Avalanche of Aug. 13, 1928.)

At Slaton, members of the volunteer fire department with their families and a few friends, enjoyed an outdoor party on the city hall lawn, with almost 100 in attendance. The event was planned by Ed R. Childress, fire chief, and other department personnel. A dutch lunch was served and games were played.

• • •

Mrs. M. C. Butler entertained London club members and guests at her new Broadway home with a bridge party. Club members attending were Mesdames S. E. Cone, E. J. Parsons, Clayton Gammill, Horace Hawkins, R. W. Crowder, jr., C. C. Turner, O. W. English, J. B. Jackson, Vernon Brown, Oscar Nislar, Joe Logan. Guests were Mesdames Hurd Jones, Fred Caylor, J. M. Davis, Lewis Kittrell, Lee R. Ragland, Joe Nislar, Volney Hill, James Garrett, and Miss Geraldine Smith.

• • •

Among those here from out of town were: C. E. McClendon of Abilene, Jeff Hightower of Artesia, N. M., Mike Brennan of Hereford, R. R. Dreyer of Wilson, G. G. Woods of Abernathy, H. C. Hallman of Post, M. W. Jeter of Lamesa, S. C. Ashcroft of Slaton, T. J. Jackson of Tahoka, J. T. Davis of Sudan, J. H. Woods of Abernathy, J. M. Burleson of Meadow, E. E. Phillips of O'Donnell, W. J. Bitter Reprieve

By DREXEL DRAKE
Distributed By NEA Service, Inc.

(THE STORY: Playboy Marcus Sterling has stolen his wife's diamond necklace and handed it over as security on a $10,000 gambling debt to racketeer Harry Bindle. To cover the theft, perpetrated while his wife slept, Sterling makes it appear a professional burglary. He then goes to Edgecraft Country Club to spend the night and establish an alibi. Along with the necklace, he has also taken a sealed packet from his wife's safe. This, Marcus discovers later, is $10,000 in cash which Miriam had withdrawn from the bank to give him.

Next morning Police Lt. Talent arrives at the Sterling household. Mrs. Sterling has been found murdered in bed. The wall safe in her room has been ransacked and everything points to robbery. Talent discovers Miriam's checkbook, with a stub dated the previous day made out to $10,000 cash. The maid, Stella Nelson, tells him Mrs. Sterling kept her diamond necklace in the safe.)

XVI

THE shrill jangling of the bell aroused Marcus Sterling from a torturing dream into which it fitted with perfect synchronization. He raised himself abruptly, unable at once to shake off the unreality of the dream . . . vague dodging of pursuit, glaring lights seeking out his hiding places, the ear-splitting alarm of a siren.

He needed a moment to remember that he was in a room in the Edgecraft clubhouse . . . that he had asked to be called at 7 o'clock. He had been in bed little more than two hours. Sleep had not come . . . Only fitful drowsing with startled awakenings.

Out of bed now, Sterling found reassurance in the flood of daylight that brightened his room. His legs were not too steady but he seemed fully awake, his brain alive, not greatly aware of the loss of sleep.

At his mirror in the bathroom, there was no denying the drawn, haggard appearance of his face. He attacked that with dousing into cold water, rubbing until his cheeks stung. Then the shower. He loitered under it. When again he examined his face in the mirror, he was satisfied that shaving would complete necessary repairs.

From his bag Sterling laid out the clothes he would wear on the golf course. Then he remembered the money.

He'd have to do something about the money, just as he had done something about the dirt-stained shoes, and flashlight. He could afford no mistakes, no carelessness now. He took Miriam's note from the sheaf of bills—lit it and watched it turn to ashes in the ashtray on the small table—mixed the blackened ash thoroughly into the ashes of cigarets he had smoked. He put the money on the dresser. He'd have to take care of that.

• • •

STERLING shaved . . . got into his golf clothes. By the time he was dressed, he'd decided what he could do with the money.

It was near 8. Maybe he could still get Shaw in his room . . . tell them to get going and he'd join them on the 10th tee. He could tell Shaw something had come up. . . . he had to make some phone calls, wait for some callbacks.

The telephone brought no answer from Shaw's room. Probably at breakfast, Sterling thought. Well, he'd find them in the grill, if he hurried, before they went on to the locker room. He slipped the envelope of money in the inside pocket of his jacket.

Both Shaw and Crabfield were at breakfast in the grill, at a table over near a window. Sterling walked over to the table. The grill was deserted

"You'll have to do some fast eating if you're teeing off at 8:30," Shaw said.

Sterling explained his pretended dilemma. Both men were sorry.

Sterling sat down with them. The two older men had finished and gone on before Sterling's breakfast arrived.

After a second cup of coffee, Sterling went out to the desk. The main foyer was lifeless.

He recognized the attendant as a youth of endless tasks and errands in the locker room.

"Well, Bob, so you've been promoted up here, have you?"

"Only in the mornings, Mr. Sterling. Nobody else around here wants to get up that early. Anything I can do for you?"

"I need two envelopes, Bob. Both large, but one larger than the other. Think you can round them up?"

The young man took one long stride to a drawer and jerked it open. "There must be six or seven sizes here, Mr. Sterling," he said. "Maybe you'd want to come around back here and pick out just what you want."

• • •

STERLING selected two long envelopes, one of which would fit inside the other with considerable room to spare.

"I see you have a roll of gummed tape in there," Sterling said. "I can use a piece of that."

"Why not, Mr. Sterling? Anything else?"

"I'll need some stamps, but I'll wait until I have the package ready and weigh it. Lucky for me you have that scale."

"Won't you need some paper?"

"Of course. I forgot that. Thanks, Bob." He accepted a profligate gift of club letterheads, for none of which he had any intended use.

In front of the desk again, Sterling nodded toward the large mail box at one end. "What time do they pick up the mail?" he asked.

"The first time around 9:30, Mr. Sterling. Just about when Johnny Geer shows up to take over this job." the youth glanced up at the clock. "You got about 25 minutes, anyway."

Sterling decided against mentioning that the clock was fast. He went to a writing desk in a corner of the foyer, where even young Bob Davis in his spot behind the clerk's desk was out of range. He had the place entirely to himself.

(To Be Continued)

Looking At Life - - By Erich Brandeis

IT wasn't a foundling somebody left on my doorstep last night—but it certainly was something concerning babies.

I don't know the exact motive, probably just a neighbor's little joke.

BRANDEIS

If it was intended as a hint it won't succeed.

I am what is euphemistically termed "a gentleman of middle age," but what my doctor in his blunter language calls "a person who must expect the physical deterioration of his life's sixth decade". (In case you read this column too hastily the sixth decade starts on the day you are fifty—so please don't take me for older than I am.)

At any rate, what I found on my doorstep this morning as I was about to go out and have my daily joust with the moles, was a circular headed "The New Father."

Then the subhead "Congratulations and best wishes from the Connecticut State Department of Health."

For a moment I was stunned. Could it be possible? No, I had just left my wife in the dining room a few moments ago and there certainly was no new—or old—baby in the house.

But I read on: "We know how you feel. There are no words to described the feeling of possession and power that are the normal reactions of a new father."

• • •

So far, so good. I guess the Connecticut State Department of Health knows all about how it feels to be a new father.

But what intrigued me was the advice to young fathers that followed the introduction.

The wife is still in the hospital. But she will be home in a few days.

"Have you thought how pleasant a surprise for her it will be if you have arranged to have the house cleaned and in order? Unless you are different from the rest of us, it will need it after you have kept house alone for ten days."

• • •

BINGO. Now you've got something, Conn.S.D.o.H.!

There must be some married women in your department.

There must be some women who have gone away for a few days and come home to the typical mess a male housekeeper can make.

I don't need ten days for that.

A few days ago my wife went to the hairdresser's. The appointment was for two o'clock.

"Can you get your own lunch?" she asked me. "Just take it out of the refrigerator. It's all made up for you."

"Of course, I can get my own lunch," I said haughtily.

When she came back she looked into the kitchen.

"Oh, you had guests", she said as she eyed the plates and spoons and glasses on the sink and all the other leavings of what looked like a banquet.

"No, dear, I did not have any guests", I replied. "But I did see a few other things in the icebox that appealed to me, and I helped myself."

I suggest that the Department of Health of my State and of every other State get out a circular addressed to "The old husband."

Funny Business

"We bought him extra large pants to grow into—and he quit growing."

BOARD CHANGES

Demos Make Mistake

BY RAY TUCKER
Special Correspondent

WASHINGTON — The Republicans believe that they have a powerful asset, hitherto unpublished generally, in the fact that their vice presidential nominee, Governor Earl Warren of California, is the first son of immigrant parents to be named to such a high office by either major party. He is of Scandinavian descent, and his father, mother and wife were born in the "old country."

Governor Warren has never used his parentage to win votes in his California contests. He did not need to, for the fact is fairly well known in the coastal state. But the Republican strategists expect to capitalize on the question.

TUCKER

It is counted on to win many votes for the Dewey-Warren ticket, not only in States with a good representation of voters of Swedish - Norwegian - Finnish descent, but among racial groups which trace their ancestry to other countries.

In their platform and in President Truman's speech before the Philadelphia convention, the Democrats made clear that they will go all out for the support of racial and religious elements of the electorate. But the G.O.P. expects to counter this thrust with quiet references to the handsome Californian's ancestral background.

• • •

BILL: Treasury Secretary John W. Snyder apparently sold President Truman a dubious bill of goods when the Missouri banker persuaded his White House friend to name Thomas B. McCabe, Union League Republican from Pennsylvania, as head of the Federal Reserve Board in place of the supposed more radical financier, Marriner S. Eccles of Utah.

Messrs. Snyder and Truman seemingly thought that in Mr. McCabe they were getting a more conservative and trustworthy individual than Mr. Eccles. They feared that the latter's ideas on monetary control would cost them votes among the solid financial fraternity, not to mention the loss of important contributions to the political treasury.

• • •

AGREEMENT: Now it develops that Mr. McCabe and Mr. Eccles are in general agreement with respect to mopping up bank's lending resources, which contribute to the inflationary spiral, by the imposition of drastic federal controls.

Mr. McCabe, for instance, favors his colleague's proposal for a curb on consumer credit, which would require an original down payment of one-third and liquidation of the balance in fifteen months.

He advocates the Eccles suggestion for a breakup of bank holding companies such as that which A. P. Giannini has built up in the West.

In fact, it has been charged that Mr. Giannini was partially responsible for Mr. Eccles' demotion and his replacement by Mr. McCabe.

• • •

SUGGESTIONS: Although the Pennsylvanian did not commit himself for the Eccles demand for legislation requiring federal reserve banks to maintain a "special reserve" of funds, thereby reducing their lending authority, he did tell the Senate Banking and Currency committee that the proposition "deserved serious consideration."

And only recently Eugene Meyer, former head of the Federal Reserve board, a personal friend of Herbert Hoover and publisher of the Washington Post, declared editorially that Mr. Eccles was a good man and that his anti-inflation program ought to be adopted.

Inasmuch as Secretary Snyder is one of President Truman's closest personal and official advisers, his misjudgment with respect to Mr. McCabe may explain why so many other suggestions he has made to the White House have gone sour.

• • •

SIZE: The size of Henry A. Wallace's presidential vote has become the principal topic of conversation and speculation at Washington political gatherings, in view of the Commie investigations on Capitol Hill and the growing belief that the Iowan's third party has been kidnapped by Moscow Reds and their agents in the United States.

Before these revelations, it was thought by the smarter politicos that Mr. Wallace would roll up a vote of about 7,000,000—some estimated it at 10,000,000. It was also believed that at least seventy-five per cent of his support would come from people who might otherwise cast their ballots for Mr. Truman.

The Wallace strategists figured, and so did the Democrats, that he would run especially strong in such electorally important states as New York, New Jersey, Pennsylvania, Illinois Ohio,, Michigan and California. Should he make a good showing in those areas, it would be almost impossible for Mr. Truman to carry those states.

• • •

GAIN: The belief that Mr. Wallace might win at least 7,000,000 votes was based on the fact that the insurgent La Follette-Wheeler slate polled 4,880,000 in 1924, when the electorate was only half the size it is expected to be next November.

Now, however, in view of Moscow's behaviour and the obvious fact that Henry is Stalin's favorite, the impression prevails that the boy from the corn belt may not amass more than the total given to the 1924 rebels, possibly less.

Any diminution in the third party's vote-getting appeal will be a gain for President Truman. But nobody figures that it will be enough of a gain to elect him.

"What are you afraid of?" asks a psychologist. On account of the paper shortage, we shall refrain from telling him.

In Ottawa cabbages are selling for higher prices than roses, which is as it should be. Cabbages have more vitamins than roses.

Revised: Life is what you could make it if a lot of people would stop interfering with your plans and progress.

Overheard: "I'd write my Congressman about this outrage if I knew who he was."

The search for the world's laziest man is ended. An inventor has designed a toothbrush that is operated electrically.

"The way to be happy is to quit expecting anything," declares a philosopher. We can't decide whether he's a sad optimist or a cheerful pessimist.

Some middle-aged persons can learn to do the modern dances, and others have a few inhibitions left.

In Arkansas a pet skunk was stolen by some one with no moral or olfactory sense.

The apprehended thief who stole a 400-pound church bell would be silly to enter the plea that he did so in a moment of weakness.

A Cincinnati transportation company is making walking a pleasure. It is installing radios on its street cars.

MANY CO-OPERATED WITH REDS

Alarm Over Spy Probe Scored

By THOMAS L. STOKES
Special Correspondent

WASHINGTON — It is probably dangerous to try to get philosophical about the spy drama that's been going on here, or to back off at the height of the emotional spasm and try to look forward and backward with some effort at objectivity and perspective.

You might find yourself in the hot seat at the capitol, with all those microphones planted right against your chin and, as you squirmed and sweated under the television lights, somebody might ask you, point blank, with that grim, cold stare:

STOKES

"Who was that dame you were talking to in that drug store on the afternoon of July 7, 1944, and why were you drinking a chocolate malted when the gal only had a plain coke?"

Downright embarrassing!

• • •

Tactics Are Hit

If you are a happily married man you might have to dodge about some, or maybe even resort to that rigamarrole that a few of the witnesses go into, ad nauseam, when asked the $64 question about membership in the Communist party and did you know such-and-such, and you might have to say you must stand on your rights under the First and Fifth amendments to the Constitution and refuse to answer lest you might incriminate yourself, or as one meticulous witness well-coached by his lawyer kept saying, might "incriminate and degrade" yourself.

It isn't necessary to mitigate in the least the offense of anybody working for the government who are giving out confidential information—which is to be condemned and should be punished when proved—to try to get a perspective of the time and conditions here in Washington when all this spy stuff was supposed to be happening. This might help to keep all of us from getting scared to death and from becoming suspicious of everybody we see talking to a gal in a drug store, a state of confusion and fright which is the very object of Communist technique.

• • •

Among the reactions heard perhaps most often in the conversations of newspapermen who were here during the war and are watching this spy melodrama closely is to refer back to the war and the situation here at the time as a matter of perspective. This would, indeed, seem to be a matter of news, since these men are all competent observers.

The Russians then were, after all, our Allies. Russia had a number of people here in an official capacity, though not near as many as the British of whom it was said that there were more than when the British captured the capital in 1812 which is doubtless true, though of no particular point here. The city was, in fact, filled with foreigners of all sorts. Representatives of the Russians, along with our other Allies, sat in on consultations about strategy and coordination of military maneuvers and about necessary supplies to carry on our common war. They were given officially all sorts of information necessary to these purposes. Most of them undoubtedly were Communists, as most Georgians are Democrats and most Vermonters, Republicans.

• • •

Most Information Available

Officials here were friendly and sought to be cooperative to help win the war. That was the attitude and atmosphere. It was the thing that was being done. The Russians were our Allies and friends and were entertained officially and otherwise.

It has never been made clear just what information it was that Elizabeth T. Bentley says she got. The Russians were getting everything they needed from official sources. The United States News And World Report, published by David Lawrence, says in an article headed "Spy Ring's Unnecessary Labors" that "the Russians got less information by spying than they could and did get for the asking."

• • •

The magazine suggested that the spying, which it said persons familiar with espionage characterize as "amateur," was either "a simple training operation for future activities; or, if it had a genuine tie with the Soviet government, the Soviet was trying to check on some of the information it already was getting through official channels." It says that if it was a training maneuver, the Russians would have to lay the groundwork again as "most of the old sources are gone" and pointed out that we are developing a counter-espionage system of our own to meet anything of the kind.

A little perspective on this melodrama would seem to be healthy at this time so that we keep our balance. And something of the attitude of General Dwight D. Eisenhower, a competent authority, who counseled the nation in an interview to be neither foolish nor naive about "this spy scare." He said "we've done pretty well in keeping our vital secrets to ourselves," that the nation's secrets are in good hands," and that both the government and the military are alert to the dangers.

Side Glances - - - - - - By Galbraith

"Dad says I ought to finish my last year in college before handicapping myself with a wife—do you think a wife's a handicap, Mom?"

AUGUST CLEARANCE

FARM APPLICATIONS OKAYED

Hockley County District Soil Conservation Tour Scheduled

LEVELLAND, Aug. 12 (Special)—Plans for a soil conservation tour on Sept. 3, study and approval of six farmer-district agreements and approval of 16 applications for assistance took the spotlight recently at the regular August meeting of the board of supervisors, Hockley County Soil Conservation district.

The session, held in the county courtroom, was attended by three supervisors—H. T. Harrell of Levelland, C. D. Bond of Ropesville and B. Forman of Anton.

Visitors for the meeting included County Agent Artie Forehand; E. O. Schoenrock, farmer-cooperator; Louis Dawkins of Plainview, field representative of the State Soil Conservation board, and Marshall W. Howard of Lubbock, SCS district conservationist.

Tentative Plans Given

Tentative plans for the soil conservation tour, the supervisors reported, call for invitations to be issued to the general public to take part in the event—first of its kind to be held in the Hockley County district. Special invitations will be sent to representatives of all agricultural agencies in the district, the supervisors decided.

Hockley County Veterans Vocational school instructors and school vocational agriculture teachers are to be special guests for the next regular meeting of the supervisors, scheduled the first Thursday afternoon in September. These two groups were pointed out as excellent means of getting soil conservation information to area people through an educational program. County Agent Forehand is to be chairman of the education committee.

Discussion of the new memorandum of understanding between the A. & M. College of Texas and the State Soil Conservation board was discussed by Dawkins. He pointed out that local mediums of understanding rest with the county agricultural agent and the district soil conservation board of supervisors. Adoption of the memorandum was carried through the Hockley Soil Conservation district by aproving vote of the supervisors.

Applications for soil conservation assistance were approved by the district supervisors on the following farms: Jones Palmer (Wayne Palmer, operator) and Ray Watson (L. F. Schoenrock, operator), both in the southwest part of the county; Hobert Lewis, W. F. Burleson (James Stroope, operator), E. E. Pair, W. J. Brazil and Joe Garner, all in the northeast sector of the district.

Robert Bolf, just north of Levelland; C. N. Arnwine, Mrs. Helen Schmalstieg (Walter Schmalstieg, operator), J. B. Pate (J. C. Harper, operator, A. Frenzel and Harry Johnson (both operated by R. B. Gray), L. E. Jeffcoat, L. E. Wilson and T. K. Markham, all in the southeast portion of the Hockley district.

Farmer-district cooperative agreements and soil conservation plans were approved at the meeting for these six farms: B. Forman, Anton, 322 acres; the 177-acre farm of W. D. Murphy, operated by J. J. Isaacks; J. B. Comer's 177 acres; the G. L. Whitten labor of land with George B. Whitten as operator; R. B. Gray's 177-acre farm owned by Harry Johnson of Tulsa, Okla.; the 177 acres owned by H. R. Bullin, the last five all in the southeast part of the county on route 4 out of Levelland.

Five acres of land on both the Bullin and Forman farms have been set up for benching, on a trial basis. Benching, a new soil conservation practice new to this district, enables farmers to water their steep land more economically.

Other approved practices included in the six agreement plans are contour cultivation, improved pasture, terraces, alfalfa acreages, trial plantings of vetch and rye, crop residue management and improved water application on irrigated land.

Magician To Perform At College Tonight

Dr. Harland Tarbell, billed the world's master magician, who has amazed the keenest minds in the world with his performances of magic, will appear on the Texas Technological college artist course at 8:30 o'clock tonight on the Administration building green.

Tarbell, reported to be one of the few magicians to have perfected a "sixth sense," has taken every country in the world by storm with his feats of driving in traffic while blindfolded, predicting news stories as high as four days before they break, slipping large metal rings through small ones, and doing everything with eggs except lay them. He is said to have predicted the death of Ghandi four days before he was assassinated.

Stories of previous performances describe his show as being characterized by magic, philosophy, science, are, originality, showmanship and personality. In addition to performing magic, Tarbell is the teacher and counselor of magicians all over the world, and originated many of the most astounding of the Hindu "rope-miracles."

Admission to the artist course will be by season tickets for all students of Texas Tech, and $1 for townspeople.

Plains, Yoakum Oil Center, Is Proud Of Progress

Area Town Has No City Taxes

By BILL CLARK
Avalanche Staff Writer

PLAINS, Aug. 12—What South Plains county seat is not an incorporated town?

Plains has that unique distinction. Although it is a trading center with a population of 600, and near the center of the vast Yoakum county oil field, Plains has never been incorporated and has no city taxes.

Nevertheless, one finds a civic spirit in Plains that could well be emulated in other towns.

The residents are eager to show you the progress that this Yoakum county seat is making.

Read Is "Mayor"

One, in particular, is a Plains booster. He is Till W. Read, who has lived in the county for more than 23 years.

He introduces himself as "mayor" of Plains, and in the minds of Plains people he certainly holds that respected, if unofficial title.

Owner of ranch lands and business buildings in the town, Read has opened a feed store, more to have something to do than for any other reason, he will confess.

His wife has been postmistress at Plains 23 years, and she too is an active booster of the area.

Plains is located near the center of Yoakum county at the junction of north-south highway 214 and east west highway U. S. 62-380.

Farm, Ranch, Oil Land

The county is, like most of the plains area, level to slightly rolling, with grass and "shinnery" oak over wide areas. The county was organized in 1907, having been named after Henderson Yoakum, pioneer author, jurist and soldier in the Mexican war.

The county's cattle ranching is important, but many farm crops are grown and irrigation is becoming important, with this year particularly seeing the drilling of many new wells.

As of January 1 of this year, the county tax assessor-collector's office had registered 1,495 oil wells in Yoakum county. The drilling progress is shown by the number of wells on Jan. 1 of each year: 1938, none; 1939, 175; 1940, 541; 1941, 942; 1942, 1,176; 1943, 1,241; 1944, 1,286; 1945, 1,359; 1946, 1,395; and 1947, 1,423.

Grain sorghums, cotton, corn, peanuts, alfalfa and vegetables are grown.

Courthouse Being Built

Plains in recent years has felt the prosperity brought by good crop years and by the oil field's encroachments.

There are now 23 business firms in Plains, which give most of the services necessary to a community. Two new school buildings have been completed recently.

A $400,000 courthouse is under construction, which will enable the present courthouse building beside it to be used for a community, recreation center and offices.

There are three churches in the town. The Baptist church has a new $20,000 brick building, still incomplete, but on which work is being speeded. Rev. Curtis Jackson is pastor. The interior is finished and the high school baccalaureate was held there this year.

Town Has New Theater

The Methodist church last year completed an extensive remodeling program which has improved the church property, along with construction of a parsonage. Rev. C. M. Ryan is pastor. The third church in Plains is the Christian church.

A new motion picture theater was constructed by Mr. and Mrs. Don McGinty last year at a cost of $40,000. Plains is proud of the late pictures shown there and of the fact that visitors come from Brownfield and Denver City to see movies in Plains.

Among finer new residences constructed in the Plains area is one just built by Johnny Fitzgerald, rancher, just east of town. It is a light buff-colored brick home, built by W. D. Light of Plains.

Plains Consolidated School district is one of three school districts serving the county. It has a tax rate of $1, has an operating budget of $192,000 per year. Ten school buses bring the children to school from a wide area.

The other school districts in the county are Sligo Consolidated school district at Denver City and Bledsoe Common school district.

Growth Is Rapid

Mr. and Mrs. Read like to recall the difference in the county now and even ten years ago.

They remember that ten years ago Yoakum county had an assessed valuation of $500,000 or slightly more, with the county warrants going begging at 30 cents on the dollar.

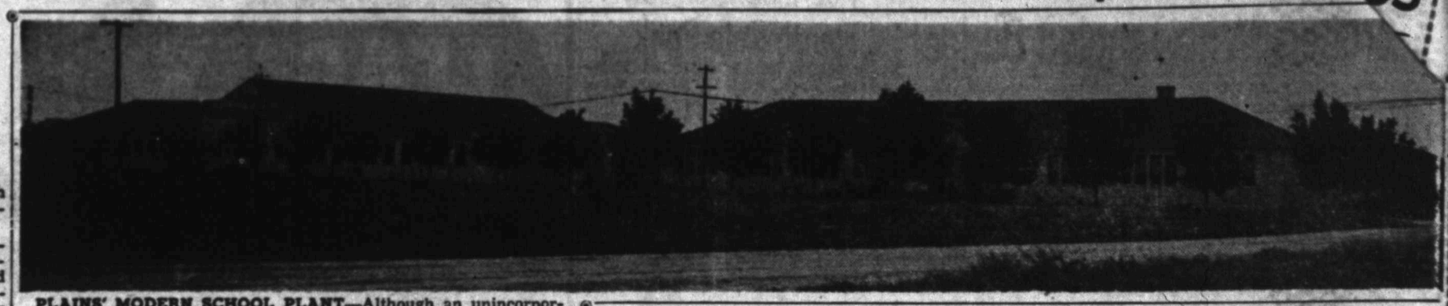

Now the county, with approximately 1,500 registered voters, has a valuation of $40,000,000. The county's credit is excellent.

The county is constructing a park and swimming pool just north of Plains.

And as to whether Plains will continue to grow or not, one resident had this answer: "Twelve new families moved here last Sunday."

Much transient business is obtained from the oil field. Two tourist courts help house workers and their families. One, owned by County Judge G. P. Bean, has just undergone extensive remodeling and installation of additional cabins. The other court is owned and operated by Mr. and Mrs. J. W. Moore.

Postal receipts, according to Mrs. Read's records hit a new high in 1947, totaling $3,711.39. Plains has a third class postoffice.

PLAINS' MODERN SCHOOL PLANT—Although an unincorporated town, Plains has a fine school system with 10 school buses and modern buildings. The picture above shows the new high school and elementary school buildings which have been in use only a short time. The Plains Consolidated school district has an annual budget of approximately $190,000. The Plains district is one of three in Yoakum county, the others being Sligo Consolidated School district at Denver City and the Bledsoe common school district. (Staff Photo).

Arguments Scheduled Today In Damage Suit Hearing Here

Arguments are scheduled for this morning in a consolidated damages action that asks a total judgment of approximately a quarter-million dollars, 72nd district court officials said.

Judge Dan Blair asked a jury to report at 9 a.m. to hear the reading of his charge. Attorneys and the court continued late Thursday afternoon to ready the charge.

Defense evidence was concluded late Thursday morning.

The cases grew out of the same incident, the June 12 death of two drivers in the crash of a butane truck and a gasoline transport near Lubbock on the Levelland highway. Claimed were Leslie Dewey Pigg and Carlton Stidham, both 38 and of Levelland.

Twelve U. S. states have laws forbidding a man from marrying his mother-in-law.

Amusements General News Section 3

LUBBOCK MORNING AVALANCHE
Lubbock, Texas, Friday, August, 13, 1948

Two Area Tests Show Promise

Gaines and Ector counties held the spotlight in West Texas oil development this week, with new developments being announced.

Shell Oil company, Inc., No. 1 Hawkins, south-central Gaines county wildcat to 12,000 feet, about 12 miles south of Seminole, and 1,983 feet from north and 665 feet from east lines of section 8, block A-23, psl survey was drilling ahead below 6,356 feet in middle Permian lime.

It took a drillstem test at 6,013-6,104 feet. The tool was open for one hour and 20 minutes. There was a blow of air throughout the period.

Ector Well Flows Oil

Recovery was 500 feet of slightly oil and gas cut drilling mud.

Cities Service Oil company No. 1 Foster Southeast Ector county discovery for free oil, and possibly a new field from the Grayburg section of the upper Permian, three miles southwest of the South Cowden field, had set a string of 5½-inch casing at 4,065 feet, with 200 sacks of cement.

This development flowed oil at the estimated rate of 10 to 15 barrels per hour, and showed considerable gas in a drillstem test at 4,065-4,215 feet.

Operator will drill the plug, and test and try to complete a new discovery from the open hole between 4,065-4,215 feet, in a few days.

The well is 1,980 feet from west and 660 feet from north lines of section 9, block 43, TP survey, T-3-S, and approximately six miles southwest of Odessa.

European and American eels spawn in the deep Atlantic waters north and northeast of the West Indies.

Coke's Stand Claimed Too Indefinite

Johnson, Stevenson Clash Again On Law

(By The Associated Press)

Lyndon Johnson and Coke Stevenson, campaigning in widely separate areas for the Democratic senatorial nomination, talked about the Taft-Hartley bill Thursday—Johnson charging Stevenson had made no clear-cut commitment and Stevenson saying that he had done it more than a month ago.

Stevenson was quoted Wednesday in a letter to the publisher of the Kerrville Times as saying "my stand on the Taft-Hartley bill has never been a secret although everything I have said regarding it has been deliberately misconstrued by my opponent in this race." Stevenson was quoted as saying that he thought the effect of the Taft-Hartley law in curbing the labor monopoly has been a good thing for the country.

Claims Settlement Made

Stevenson's headquarters at Austin said the candidate had stated his views on the Taft-Hartley law July 3 in The Abilene Reporter-News in which he said, "I think the Taft-Hartley law is all right so far as it is needed to keep down a monopoly."

Johnson's Austin headquarters issued a statement which quoted Johnson as describing Stevenson's Taft-Hartley stand as "a characteristic appeasing statement." Johnson declared that press reports did not indicate Stevenson had come out and said clearly where he stood, "how he would have voted, and what, if any promises he has made about repealing or amending the law."

Johnson was in San Antonio Thursday and will also be there Friday. Stevenson has opened headquarters in Tyler and is working in East Texas. He was in Van Zandt county Thursday.

New Board Proposed

Johnson proposed an anti-inflation board be created by President Truman with Gen. Dwight Eisenhower as its director.

He said the price situation demanded study by a non-partisan committee composed of such men as Bernard Baruch, who would make recommendations for checking inflation.

Stevenson headquarters at Austin reported receipt of a letter from George T. Hinson of Mineola, local chairman of the Brotherhood of Locomotive Firemen and Engineerman, in which Hinson said Texas railroad workers were not consulted about the endorsement of Johnson by several eastern labor leaders.

Hinson, in his letter, was quoted as suggesting that Texas Railroaders be permitted to vote the dictates of their conscience, "not be dominated by the eastern bosses. I serve notice here and now that the free people of Texas have outlived reconstruction. I and the men that work with me are your (Stevenson's) supporters regardless."

The Grand Canyon of Colorado was discovered by Don Lopez de Cardenas and 12 members of the Coronado expedition from Mexico in 1540.

Solons Leave U. S. Farm Labor Recruiters With Tangled Budget

By TEX EASLEY
Associated Press Staff Writer

WASHINGTON, Aug. 12—The government farm labor recruitment office, switched from the Labor department to the Federal Security agency, is getting along the best way it can through a budget muddle.

Congress on July 3 authorized the FSA to recruit foreign workers within the hemisphere for temporary agricultural employment if enough farm hands couldn't be found in this country to meet requirements.

Funds Tangled Up

Congress also authorized a "working capital" of $2,500,000 to pay expenses of transportation, lodging and subsistence in migration of such workers, these expenditures to be repaid by persons in this country who hired them.

Actually only $1,000,000 was appropriated, and that sum is not being used because of what an FSA official called a "slight confusion" between Senate and House versions of a bill passed in the last few days of the regular session.

Under one version the $1,000,000 was to be used strictly for payment of transportation and subsistence bills, not for administrative costs.

Robert Goodwin, director of the bureau of employment security in the FSA, who has charge of the program, told a reporter that so far none of the $1,000,000 has been used because of some uncertainty about the interpretation of the act.

Await Legal Ruling

"Several congressmen have called me to inquire about the matter," said Goodwin.

"I have just received a letter from congressional leaders who passed on the bill, telling me that it was their intention that some of the $1,000,000 could be spent for these administrative costs.

"However, we now have to get a final opinion on the matter from the comptroller general who has to pass on our expenditures."

So far this situation has not caused any serious difficulty, Goodwin continued, because the peak demand for farm hands has not yet been received by the U. S. Employment service.

A considerable number of Mexican leaders have been brought into this country this year under the present program, another FSA official said, but their traveling expenses were met directly by the American employers.

Employers Pay Fares

The British West Indies as well as Mexico have negotiated with this county for entry of their nationals into the United States on a temporary basis for farm work —maximum duration of permits are for six months. Such help also can come in from Puerto Rico.

The fundamental difference in the current program and that operated during the war under the Agriculture department, and later uner the Labor department, is that the American employer now must stand the traveling expenses of the men he hires.

He makes his application to the Immigration and Naturalization service, after efforts have been exhausted to obtain help on the domestic labor market. Immigration service officials then collaborate with the FSA, which keeps an up-to-date file on the quantity of help available at designated points in foreign countries.

The American employer or his representative now goes personally to the designated foreign recruitment point and signs a contract directly with the employe.

The foreign workers are to be paid the prevailing wage scale of American workers in the communities where hired. They likewise are to receive the same kind of housing offered American farm help.

The present prohibition imposed by Mexico against entry of its nationals into Texas under the program remains unchanged by the new setup, the FSA said.

It was pointed out that this is a matter on which the Mexican government itself takes action. The ban was ordered because of alleged racial discrimination against Mexicans in some Texas areas.

Abandoned Railroad Tunnels Made Into Mushroom Farms

MERCED, Cal., Aug. 12 (U.P.)—Many people thought C. C. Kellogg was making a bad deal when he bought 16 miles of right-of-way of the old abandoned Yosemite Valley railroad.

Now, however, Kellogg heads a new company called the Mushroom Tunnel Farms.

The 16 miles of railroad he bought included four concrete tunnels. Kellogg converted the tunnels to house mushrooms.

The tunnels are 24 feet high and the temperature inside varies between 58 and 60 degrees, which is ideal for growing mushrooms. Trays of mushrooms are set along the tunnel floor, and eventually other trays will be built in bunk-fashion toward the ceiling.

Underground water seepage keeps the humidity at the proper level, Kellogg said.

Americans Set New Cigarette Smoking Record In Past Year

WASHINGTON, Aug. 12 (AP)—Americans smoked 345,000,000,000 cigarettes during the year ended June 30 — another new record.

This was the equivalent of about 121 packs for every man, woman and child.

Consumption in the previous year — which smashed a record set the year before — totaled 327,000,000,000 cigarettes.

Alpinists Plan To Put 'Extension' On Fourth Rate Peak

PARADISE LODGE, Mt. Rainier, Wash., Aug. 12. (U.P.)—A man-made mole hill will make this fourth rate mountain the second highest peak in the nation soon.

The mound will be a 24-foot extension, built by a foursome of grease-painted, parka-clad mountaineers. They're on their way up to do the job.

Cold-shouldered for centuries by Colorado's second-place Mt. Elbert (14,431 ft.) and squat Mt. Massive (14,418 ft.), crater-cropped Mt. Rainier suddenly has developed growing pains.

Rainier Blew Top

This lofty mount looked down on Mt. Whitney, the nation's tallest, a few million years ago. But in a moment of youthful impetuosity, Mt. Rainier blew its top.

Rainier wound up an also ran—11 feet short of third spot and 23 feet shy of second place.

Today, Dr. C. A. Mittun, prominent northwest alpinist, headed a four-man party up the mountain's crevasse-flawed slopes. They must ice-axe their way past Nesqually glacier's traverse to Kautz ice falls and on over sun-pitted snow fields.

"Two almost known sand dunes in Colorado, and that reverse gopher hole in California known as Mt. Whitney, are in for a bad time," said Mittun, 45, who first conquered Mt. Rainier in 1946.

"We're going to realize the dream of every Washington mountaineer who scraped the snow from the record-cairn at the top to pile something, anything—snow, rocks—on the crater's rim so our mountain can regain the dignity it deserves."

Streamlined Train Clipped In Half To Pass Locomotive

BOSTON, Aug. 12. (U.P.) — The New Haven Railroad's fast train, the Yankee Clipper, had to be clipped in half to get it out of South Station when a locomotive was derailed on a parallel track.

Half of the Yankee Clipper could get past the jutting cowcatcher of the locomotive, so yard workers unhitched the train in the middle.

The head end continued to another station. The tail end was pulled back, shuttled to another track, and the two ends were joined one hour and 10 minutes later.

Take Off Ugly Fat With Grape Fruit Juice Recipe

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy — no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of Liquid Barcentrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears — how much better you feel. More alive, youthful appearing and active.

Prospective U. S. Wheat Supply Won't Feed World, UN Chief Says

WASHINGTON, Aug. 12 (U.P.)—Norris E. Dodd, United Nations food director, isn't too thrilled about the record-breaking grain crop expected in the United States this year.

He is reminded too often that "there'll still be thousands starving next winter."

"There are twice as many hungry stomachs in the world as full ones," the gray-haired chief of the UN Food and Agriculture Organization said in an interview.

Dodd's little agency, with a $3,000,000 budget, is striving for a goal of 2,550 to 2,650 calories a day for everybody everywhere. Half the people in the world, even in normal times, live on a daily average of 2,250 calories or less. That is a bare subsistence. People in the United States average 3,249.

To accomplish UN's goal by 1960, the farmers of the world would have to supply 21 per cent more cereals than they produced before the war; 27 per cent more root crops; 12 per cent more sugar; 34 per cent more fats; 80 per cent more dry peas, beans, nuts; 163 per cent more fruits and vegetables; 46 per cent more meat, and 10 per cent more milk.

FAO provides technical advice to member countries on animal and plant diseases, pest control, refrigeration and soil conservation. Projects include vaccination of 15,000,000 cattle and water buffalo in China, introduction of hybrid corn in Europe and the Near East, and setting up a nutrition program in Greece.

Dodd's agency also tries through international agreements to get food supplies from production areas to places of need. It tries to assure prices that will give producers a good living and still be low enough to encourage buying.

Dodd admitted it is a tough problem. He acknowledged that despite world need, the United States government probably will ask its farmers to grow less wheat next year because of a threatened surplus here.

Owner of a 2,000-acre farm and long-time agricultural planner, Dodd refuses to be discouraged by his colossal task, however. Being a farmer, he says, has made him patient. He feels FAO projects are gradually making real the motto inscribed on the FAO seal —"Fiat Panis"—let there be bread.

'HEY, MA, WHERE ARE YOU?'—Lonesome, frightened and bawling for his mother, this Brahma calf was marooned on the loading dock of the Missouri Pacific Railroad at Frankfort, Kan., when the rain-swollen Vermillion river flooded the town. The train behind the calf was also marooned.

Nation's Cottonseed Crushing Shows Increase Over Year Ago

WASHINGTON, Aug. 12. (AP)—The census bureau reported today that cottonseed crushed in the 12 month period Aug. 1 to July 31 totaled 4,081,166 tons, compared with 3,089,590 tons in the corresponding period a year ago.

Cottonseed on hands at mills July 31 totaled 93,182 tons, compared with 99,528 tons in the corresponding period a year ago.

Cottonseed products manufactured in the 12 month period and on hand July 31 were reported as follow:

Crude oil produced 1,274,530,000 pounds, compared with 973,083,000 pounds in the corresponding period a year ago; and on hand 22,893,000 pounds, compared with 15,191,000 a year ago.

Refined oil produced 1,168,045,000 pounds, compared with 911,994,000 and on hand 98,432,000 compared with 171,094,000.

Cake and meal produced 1,896,865 tons, compared with 1,362,652, and on hand 82,363 tons compared with 46,941.

Hulls produced 921,879 tons, compared with 727,059; and on hand 41,302 tons, compared with 35,808.

Linters produced 1,281,481 running bales, compared with 991,868; and on hand 99,452 running bales compared with 79,744.

PIRATES EXECUTED

AMOY, China, Aug. 12. (AP)—Seven pirates were executed here yesterday for robbery aboard the SS Chung Shing on Feb. 28.

As a result of the piracy, the ship was sunk and 160 passengers and crewmen lost their lives.

EIGHT MILLION
New York City's Population Soars

NEW YORK, Aug. 12. (INS)—The Department of Health announced today that New York City's population has passed the 8,000,000 mark.

The city's population as of last July 1 was estimated at 8,067,000, the first time an official figure in excess of the eight-million mark has been announced.

The population by boroughs was given as: Brooklyn, 2,881,000; Manhattan, 1,932,000; Bronx, 1,532,000; Queens, 1,529,000, and Richmond 193,000.

In 1940, the city's population was estimated at 7,468,000.

Baby eels hatched into flat, transparent bits of life, grow into fla' cigar-shaped forms, and then change into their adult form.

American Beekeepers Honor Minister Who Invented Hives

GREENFIELD, Mass., Aug. 12 (U.P.)—One hundred years ago a Congregational minister with a sweet tooth invented a "bee space." Now beekeepers throughout the nation have erected a plaque in his memory.

The inventor was the Rev. Lorenzo L. Langstroth who devised a hive, shaped like a box, from which racks of honey could be removed and empty ones substituted without disturbing the bees.

Until his invention in 1848 it was almost impossible to remove honey-filled combs without dismantling the hive and destroying the bees.

The national Federation of Beekeepers Associations says the simple invention made possible commercial production of honey.

ONLY ONE OF KIND

The only woman commissioned in the Confederate army was Sally Louise Tompkins, a cavalry captain, who managed a hospital in Richmond, according to the Encyclopedia Britannica.

The Crown still owns more than 90 percent of Canada's forest areas.

"NEVER FELT BETTER IN MY LIFE," STATES HAPPY RETONGA USER

Prominent California Homeowner and Business Man Says Famous Gastric Tonic Was Worth A Thousand Times Its Cost To Him. Many Distresses Promptly Relieved.

MR. K. J. "KENNY" HUYSMAN

"The very first bottle of Retonga began to help me," declares Mr. K. J. "Kenny" Huysman, respected Whittier home-owner who lives at 1305 Keith Dr. Mr. Huysman owns and operates a brake service establishment in Downey, Calif.

"For nearly ten years I suffered torment," continues Mr. Huysman. "When I got up I felt pretty rough. A light breakfast was all I could force down, my appetite was so poor, I had to push myself through the day, I left so weakened and rundown. I felt irritable and hard to get along with. Sometimes it seemed that I had a fire ball in my stomach and the gas and bloating that followed my meals caused me untold suffering. I lost weight right along, tired easily, and I had to rely on strong laxatives to relieve my sluggish bowels. My wife and I were really worried.

"My wife urged me to try Retonga and the relief it brought me was wonderful. I get up feeling refreshed, have a wonderful appetite, eat anything I want, and never suffer the after-meal distresses that used to hound me. I've thrown away all other medicines, including those strong laxatives. Yes sir, Retonga was worth a thousand times its costs to me. I've never felt better in my life."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline Vitamin B-1 deficiency, and constipation. If the first bottle fails to give you gratifying relief, your money will be refunded. You can get Retonga at all good drug stores, including Mark Halsey Drug Stores—Adv.

BLASTS WRECK JEWISH PLANT

Holy Land Truce Endangered As Water Station Sabotaged

BY BENN FELLER
INS Staff Correspondent

TEL AVIV, Aug. 12 — Two booby-trap explosions heavily damaged the Jewish water-pumping station at Latrun today and endangered the tinderbox Palestine truce.

The blasts fired Jewish tempers and wrecked plans to reopen the water pipeline from Ras El Ain, near the coast, to Jerusalem after a three months interruption.

UN Observer Near Blast

The blasts occurred just as United Nations observers were approaching to check its condition before permitting Jewish technicians to begin operations.

Arrangements had been made by UN mediators with Arab troops holding the important Latrun area to allow Jewish use of the pumping station.

Col. Albert Parry, of Taunton, Mass., commanding the group of UN observers, had a narrow escape at the scene of the blasts—believed set off by booby-traps.

He earlier had escaped death or injury on a UN observer assignment when—early in June—a booby-trap blew up several yards in front of him east of Latrun and took off the leg of an Israeli officer.

Jews Retaliate

An Israeli foreign office spokesman termed today's sabotage "a glaring breach of the truce, fraught with the gravest consequences."

He added that Israeli expects the security council to order immediate sanctions against the Arabs as a result.

Immediately following the explosions, the Jewish government retaliated by retracting permission granted for the return of 400 Arab refugees to the villages of Buweira and Ajanjul in the Latrun area.

In compliance with a demand by UN peace mediator Count Folke Bernadotte, the Jews had agreed to evacuate the villages for the return of the Arab populace displaced by the violent pre-truce fighting around the Latrun citadel.

However, the Israeli government—in its first defiance of a Bernadotte decision—had indicated refusal to evacuate hill 312, north of Latrun, which dominates the Arab supply route from Ramallah, to the north, into Latrun.

The Jews said they would hold on to the hill even at the risk of being reported to the Security council as truce-breakers.

Israeli sources, meanwhile, reported a Jewish laborer was killed by sniper fire yesterday in north Jerusalem.

U. S. Arranges To Buy Cuban Sugar For Army Use Abroad

WASHINGTON, Aug. 12 (AP)—The U. S. will buy 238,000 tons of Cuban sugar for U. S. Army use abroad at four cents per pound a new agreement announced today.

Details of the U. S. - Cuban agreement were announced today by the Agricultural department. It provides that Cuba will hold an additional 228,000 tons of sugar in reserve until Oct. 15. This is to meet any possible increase in this country's needs for this year.

Today's agreement also provides that Cuba will furnish an additional 170,000 tons—if needed for shipment to the United States during the first half of January, 1949.

Jester Will Be Speaker At South Texas Water Conference

CORPUS CHRISTI, Aug. 12 (AP)—City officials from South Texas cities and other persons interested in water conservation will gather here tomorrow to discuss their problems.

Gov. Beauford Jester will be the featured speaker. Some 400 persons are expected for the conference.

IN CAPSULE FORM

News Briefs

En route to Kerrville to attend a Synodical training school set there Aug. 13-18 are a group of Lubbock Presbyterians. In the group are Mrs. Albert Barnet, Mr. and Mrs. Wyatt Hester, Mr. and Mrs. C. C. Galbraith, Mrs. O. L. Frederick, Mrs. F. L. McRee, Mrs. R. E. Overstreet and Miss Eula McCorkle.

After a week's vacation in Oklahoma, Justice of Peace and Mrs. C. E. Lynn of 1916 Fifteenth are back in Lubbock. A family reunion that resulted in a registration of 91 persens was held in Platt National park at Sulphur. The Lynns also visited at Ardmore, Stratford, and Davis, Okla. They were accompanied home by 12-year-old Carolyn Kay Smith, a granddaughter. The child's parents, the Lynn's daughter Hazel and her husband Caron Smith of Garland will arrive here next week for a brief visit, and their daughter will accompany them on their return home.

Mr. and Mrs. Darrell Adams of 1006 Ave. W and Mrs. C. W. Ratliff of 2009 Twenty-ninth left at noon Thursday for Muenster. They will go from there to Jonesboro, Ark., to visit a sister of Mrs. Adams before returning to Lubbock. Mrs. Ratliff is accompanied by Sam, a 9-month-old son.

None was injured and damages were not considerable when a car and gasoline truck brushed each other Thursday morning on East Broadway near a lateral road leading to Keeton Packing company. The car was driven by Carl William Dennison, 52, of Floydada route 5, the truck by Vernon William Drury, 29, of 105 North Uvalde, state highway patrol investigators said.

G. W. Nichols, 26, of 824 Thirty-second, received emergency treatment about 1.30 p. m. Thursday at Plains clinic for severe bruises of the right ankle, suffered when an air-conditioner fell on his ankle as he and others were loading the conditioner on a truck at a local plumbing company. He was dismissed following treatment.

MILK CONSUMERS

New York City consumes more milk—one pint daily per head of the population—than any other city in the world. Following it are Hamburg, Germany; Copenhagen, Berlin, London, and Paris.

Eggs stored small end up lose eating quality much faster than those turned with the small end down.

TEMPELHOF AIRDROME GETS REPAIRS—German workers put fill and tar on a temporary airstrip at the Tempelhof Airdrome to repair damages caused by the great increase in traffic. The men on the right are not resting: they sit on jack handles that life the strip so tar and fill can go on bottom. (NEA Telephoto).

White Carnations Tell Police Rookies They Failed Exams

KANSAS CITY, Kan., Aug. 12 (INS)—Each of 13 Kansas City police rookies received a white carnation today from their instructor, Lt. George Wagner, who quickly satisfied their curiosity.

Wagner told the rookies they had failed a test and that each was dead, technically.

Wagner explained the rookies either failed to search a suspected criminal for weapons or had picked the wrong man from identification clues and had been shot by accomplices.

Summer School Enrollment At TCU Reaches New High

FORT WORTH, Aug. 12 (U.P.)—Summer school enrollment at Texas Christian university has reached an all-time high this season, with 2,381 students signed up for courses, it was announced today.

Dean Jerome Moore, summer session director, said the previous high was 2,205 set last summer.

Veterans included in the record enrollment total 1,407, including 1,365 men.

Services Are Conducted For Once Famous Singing Star

CHICAGO, Aug. 12 (INS)—Mrs. May O'Hara, 66, who as May de Sousa was an internationally celebrated singing star, was buried in obscurity today.

Her final "audience" was George A. Klaner, the undertaker; her sister-in-law, Mrs. Mary De Soura, and five friends.

There was only one basket of flowers for the Chicago policeman's daughter who once was deluged with them.

Mrs. O'Hara died as a charity patient in Cook county hospital last Sunday. Death was attributed to malnutrition — starvation.

The only pallbearers were Klaner and his son. Klaner said part of the funeral costs would come from the former actress' old-age pension. Klaner, a one-time admirer, added:

"I'll take care of the rest. When I was a young fellow, she was the toast of the town in the show 'Tenderfoot.' But nobody seems to care now."

Filtered orange juice, says the Department of Agriculture, does not develop as much off-flavor as the unfiltered.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

U. S. Recognizes South Korean Government As Ambassador Named; Soviet Delays Hit

By GEORGE DURNO
INS Staff Correspondent

WASHINGTON, Aug. 12— The United States today recognized in fact the government of Southern Korea.

Following through on the action taken by the State Department, President Truman at once named John J. Muccio, of Rhode Island, as special representative to Korea. Muccio will hold the rank of ambassador.

The two actions clearly indicated that it will merely be a matter of time before formal recognition is bestowed upon Southern Korea, even though Russia does not offer such recognition.

Soviet Stand Assailed

Russia not only has withheld recognition, but has refused to permit citizens in its Northern Korean territory from participating in the United Nations elections which established the Southern Korean government last May.

The U. S. blasted the Russian position and stated that it was hoped that Koreans in the Soviet zone of occupation "will be free in due course to assume their rightful role."

The State department asserted: "It is the view of the United States government that the Korean government so established is entitled to be regarded as the government of Korea envisaged by the General Assembly resolutions of Nov. 14, 1947.

It was announced that pending consideration of the issue by the U. N. General Assembly in Paris next month, the U. S. was sending a special representative to Seoul with authorization to "carry on negotiations" with the new Seoulean government.

Veteran In Service

Muccio is authorized to deal with the Seoul government "in consultation with the United Nations temporary commission" under the General Assembly resolutions which directed establishment of a free Korea.

Muccio, a foreign service officer of 27 years' standing, was born in Italy and emigrated to this country where he was graduated from the Providence High school and Brown university.

He served in the U. S. Army in the first World War and was naturalized in 1921, when he entered the foreign service. He has since held posts in Europe, Central and South America and the Far East.

The U. S. statement climaxes nearly two years of conflict between American occupation forces in Southern Korea and Red Forces in the northern area.

The U. S. pronouncement was conveyed to the governments of China, the Philippines, India, Australia, Canada, France and El Salvadore. They are all members of the UN commission set up to insure a free and independent Korea.

The United Kingdom also was advised, that government having been a signatory to the Cairo declaration of December, 1943, in which the U. S., China and Britain agreed Korea should become an independent state.

It was the U. S. delegation which finally took the Korean issue to the U.N. General Assembly Sept. 17, 1947, after "nearly two years of painstaking but unavailing effort" to persuade Soviet Russia to fulfill its pledge at Moscow in December, 1945, to give Korea freedom.

Today's statement recalled that the General Assembly created by an overwhelming majority a commission to provide a Korean election for establishment of a national government.

It was recalled that these elections were held on May 10, 1948, under observance of the UN commission. The U. S. statement said:

"The National Assembly so elected convened on May 31 and has proceeded to form a government—a government in which it is hoped that the people of North Korea, who were prevented from participating in the May 10 elections by the refusal of the Soviet Union to permit the implementation of the General Assembly resolutions in its zone of occupation, will be free in due course to assume their rightful role."

CHILD IS KILLED

NACADOCHES, Aug. 12. (AP)—Helen Simmons, 10, was killed in an automobile-truck collision near here yesterday. Her mother, Mrs. Mozelle Womack, was seriously injured.

Housing Complaints Prosecution Pledged

HOUSTON, Aug. 12. (U.P.)—Federal district attorney Brian S. Odem said today he was prepared to prosecute cases involving construction and sale of veterans' houses when investigators file reports on housing complaints.

Odem returned yesterday from a Washington conference of federal district attorneys on prosecution of cases involving the veterans' housing program.

Federal investigators have been probing the veterans' housing situation here for several weeks but have made no report to date.

Rex Harrison And Wife Leave For New York, European Trip

HOLLYWOOD, Aug. 12. (INS)—British Actor Rex Harrison and his actress-wife, Lilli Palmer, left today for New York and thence to Europe to once more scotch reports that they were separating.

At the airport the couple denied reports for the umpteenth time that they were rifting with a curt, "it's certainly not true."

Hollywood gossips had a field day at the time of the Carole Landis tragedy, reporting that Harrison and his wife were separating and that Miss Landis was his new heart interest.

The Harrisons spent some time at Carmel together after the investigation into the Landis suicide. Recently they decided to take a European tour "to get away from Hollywood."

Graveside Rites Slated Here Sunday For Laredo Resident

Graveside rites for Thomas Quincy Scott of Laredo, resident of Lubbock from 1919 to 1936, will be conducted Sunday evening at Lubbock Memorial Park under direction of the Veterans of Foreign Wars, the military rites to follow funeral services at 6 p. m. in Rix Funeral home chapel.

Scott, an infantryman in the U. S. Army, was killed at Colmar, France, on Feb. 3, 1945. He entered the army in December, 1943, and went overseas in August, 1944. He was 33 at the time of his death.

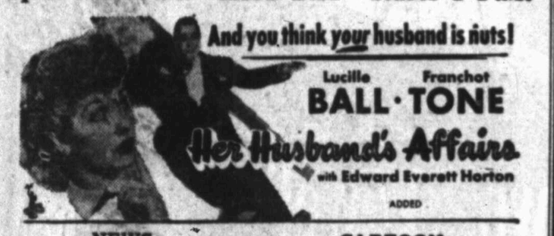

His body is expected to arrive here at 7:30 o'clock Saturday morning from the Fort Worth depot of the American Graves Registration service. The body will lie in state at Rix Funeral home until time for the services.

Survivors include his father, G. W. Scott of 2201 Thirteenth, a sister, Mrs. Claude Baker of Santa Barbara, Calif. and a brother, Gilford Scott, of Coleman.

Latest Federal Appointments To Hold Posts Until Solons Meet

WASHINGTON, Aug. 12 (AP)—The people President Truman appointed to federal jobs between the end of the regular session and the start of the special session of Congress can go ahead and perform their official duties.

Whether they'll get paid is something else again.

That's what Attorney General Clark said in effect yesterday.

Clark mentioned specifically the case of Edward A. Tamm. But noted that questions have been raised about others.

Tamm, former assistant to FBI Chief J. Edgar Hoover, was appointed a federal district judge here last February. But the Senate never acted on his nomination, nor scores of others.

Appointments Disliked

Republican congressional leaders didn't like some of the appointments. They voiced confidence, moreover, that there would be a Republican in the White House come next January. So they decided just to sit tight.

The law is not too clear about the status of job-holders given so-called recess appointments — that is, appointments made while Congress is in recess — when they are not submitted again after Congress reconvenes. Congress was in recess between June 20 and July 25. The special session ended August 7.

Nominations Hold Good

Clark in his statement says he takes the position that the nominations hold good until the next regular session of the Senate. Therefore, he said, the appointees "are entitled to exercise all the functions of their offices."

However, he went on, "the question of the payment of salaries to recess appointees is a separate one and is now, it is understood, under active consideration by the Comptroller general."

The administrative office of the U. S. courts for the District of Columbia asked Lindsay Warren, the Comptroller general, for a ruling on whether Tamm can be paid his $15,000 a year salary.

Warren, the Justice department said, maintains a separate legal staff to advise on such matters.

Construction of the average small house involves about 30,000 items.

Forgotten Switch Ruins Newscaster's Crime Broadcasts

SAN ANTONIO, Aug. 12 (U.P.)—Jack Shoemaker, local radio news commentator, worked overtime to get everything arranged.

Then on the appointed night he and police officer Guy Ligon loaded the wire recorder in the squad car and waited for a call.

The first one was a stabbing. Then came a shooting, and next a fight. And on each occasion, Shoemaker grabbed his mike and quickly broadcast on the spot stories.

At 5 a. m. the radio man and the cop returned to headquarters, lugged the equipment upstairs and sat down to hear the playback.

There was silence. Someone had forgotten to flip on the recording switch.

Over Million City Youths To Go Fishing On August 28

CHICAGO, Aug. 12 (U.P.)—More than 1,000,000 city youngsters will go fishing Aug. 28, officials of Better Fishing, Inc., predicted today.

That is the date of the first national fishing rodeo for boys and girls under license age. More than 100 cities will take part in the rodeo with prizes being awarded to the winners of each local contest. Cities already enrolled include Schenectady, N. Y., Charleston, S. C., Kansas City, Mo., Galveston, and Salem, Ore.

Mayors of each city will determine the rules to govern award of the prizes. Each winner will receive a complete fishing outfit, including rod reel, line, lures and case, Better Fishing officials said.

Leroy H. Dorsey, president of Better Fishing, said the program is designed "to help civic officials bring fishing closer to city-bound kids."

'SANDWICHES' PROTEST MEAT PRICES—John Muller, of Glassboro, N. J., and James C. McKissock, of Audubon Village, act as sandwichmen to protest the high price of meat in Camden, N. J.

Texas Shorn Wool Production May Be Lowest Since 1931

AUSTIN, Aug. 12 (AP) — Shorn wool production in Texas will total only 55,947,000 pounds this year, the lowest amount since 1931, the United States Department of Agriculture estimated today.

The reduced tonnage was attributed to a sharp reduction in the number of sheep and lighter fleece weights. The number shorn and to be shorn was estimated at 7,449,000 head, seven per cent less than last year and 25 per cent below the 10-year (1937-46) average.

Last year's clip total was 61,946,000 pounds, and the 10-year average was 77,296,000 pounds.

Shearing crews were generally plentiful, and shearing prices ranged from 20 to 30 cents, with the bulk at 22 to 25 cents in the main sheep country, the USDA said.

SATISFIED THEM

A Mississippi utility company stopped woodpeckers from pecking its poles by bolting old sections of ready-pecked poles to the new ones. The birds then preferred the old.

The number of diesel locomotives in the United States increased from 1,267 before World War II to more than 5,000 in 1948.

Pioneer Airlines Seeks Permit For Landing At Artesia, N. M.

HOUSTON, Aug. 12. (U.P.)—Pioneer airlines has asked the Civil Aeronautics administration for permission to serve Artesia, N. M., on its route between Amarillo and El Paso, it was announced today.

The airline would make a stop at Artesia between Roswell, N. M., and El Paso. Planes now fly from Amarillo to El Paso making stops at Clovis and Roswell.

Artesia has no scheduled airline service.

YOUTH DIES OF WOUND

QUANAH, Aug. 12 (AP)—John Ray Golden, 18, died today from a wound suffered yesterday when a pistol with which he was tinkering accidentally discharged. He was the son of Mr. and Mrs. O. E. Golden.

Worry of
FALSE TEETH
Slipping or Irritating?

Don't be embarrassed by loose fallen teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug store. adv

45 Children Attend City Sponsored Camp

Approximately 45 children attended the culminating summer camp sponsored by the City Recreation department Wednesday afternoon and night at the barbecue pit of Mackenzie State park. The camp was held for those boys and girls selected as best campers during the seven summer camps, and for those who have given assistance as volunteers to Mrs. Gladys Sims, camping director of the department.

An Indian theme was carried out during the camp with the campfire program as the highlight. The group was divided into four tribes, Aztechs, Navajos, Black Siouxs and Tejas, with the tribes led by Mary Ruth Sims, Joyce Worrell, Orville Ray Lightfoot and Billy Pearson.

Chiefs Princesses Named

Deanie Parcell and Keith Morgan were voted to be princesses of the camp, and Mike Rogers and Dixie Smiths were chiefs. They were crowned by Helen Tollison and Tom Lane, who were voted best boy and girl city-wide campers.

Trophies were given to the best campers. Awards were given to Pearson and Lightfoot, Joyce Wheeler and Dixie Smith for outstanding councilling.

The camp was dedicated to Pearson and Lightfoot, who have been volunteer assistants to Mrs. Sims for five summers.

Indian songs were sung by Daphna Temple, Shariley Fullerton and Doris Lee Vest. Indian dances were presented by a group from the Boys club under the direction of D. J. Reeves, Indian lore director.

A hoop dance was presented by Weldon Cobb. James Solley and Don Webb sang cowboy songs with guitar accompaniment. Skits were presented by the four campfire tribes. Billy Sims and Don Mitchell from the Sious tribe won the campfire building contest. Peggy Jim Hamilton told the story of Pocahontas.

Joyce Worrell, Mary Ruth Sims, Orville Ray Lightfoot, Billy Pearson, Dixie Smith and Joyce Wheeler assisted Miss Sims with the camp. Approximately 50 parents of the campers were in attendance for the program.

CATTLE ROUNDED UP

FORT WORTH, Aug. 12 (U.P.)—The city poundmaster was holding four white-faced cattle today and seeking their owner, after rounding them up from a Fort Worth man's front yard early today.

HOGS—Unevenly steady to $1.00 higher; top $30.25.
CATTLE—Unevenly strong to 50 cents lower, top $41.25.

Livestock

FORT WORTH REPORT
FORT WORTH, Aug. 13 (AP)—Cattle 2,400; calves 800; most classes steady; choice slaughter calves strong; common to medium steers, yearlings and heifers 17.00-28.00; butcher and beef cows 16.00-22.00; canners and cutters 10.00-16.00; bulls 15.00-22.00; good and choice fat calves 24.00-28.50; common and medium calves 16.50-23.50; culls 14.00-16.00; stocker steers and yearlings 18.00-27.50; stocker cows 10.00-20.00; stocker calves 15.00 down.
Hogs 800; fully steady; top 28.75; good and choice 180-250 lb butchers 28.50-75; heavier weights scarce; good 150-180 lb 26.00-28.50; sows 20.00-24.00; stags 18.00 down; feeder pigs 26.00 down.
Sheep 3,800; steady; slaughter spring lambs scarce; medium and good yearlings 19.00-21.00; cull to good aged sheep 9.00-50; stocker spring lambs 18.00-22.50; feeder yearlings 18.50 down.

KANSAS CITY REPORT
KANSAS CITY, Aug. 12 (AP)—(USDA)—Cattle 2100; calves 600; grass slaughter steers in narrow demand, unevenly steady to 50 lower; grain feds scarce; she stock uneven; bulls firm; vealers and calves steady to strong; stockers and feeders scarce; several small lots average to high medium native grass steers 26.00-30.00; southwestern grassers mostly mixed breeds and brahmas in lower end of medium grade 24.50-26.50; small lot common and medium grass heifers 19.00-25.00; few good cows 21.50-23.00; load fat young brahma cows 24.00; canners and cutters 15.00-18.00; sausage bulls mostly 23.00 down; few choice heavy killing calves 29.00-31.00.
Hogs 1000; active, uneven, mostly 50-75 higher; top 30.60; part load 30.75; good and choice 180-250 lb mostly 29.75-30.25; 260-300 lb 29.00-75; around 425 lb butchers 28.50 lb butchers 28.50; sows mostly 22.00-26.50; few 26.75.
Sheep 3800; slow, no spring lambs sold early; early bids on good and choice truck in lots about steady at 27.00, asking higher; good and choice lots held above 27.50.

Grain

CHICAGO REPORT
CHICAGO, Aug. 12 (AP)—September corn provided most of the interest in grain dealings on the board of trade today. This delivery was up around 3 cents at times on short-covering. Strength in the cash market served as background for the advance.
Wheat advanced more than a cent at times, aided by trade reports of renewed activity by the Production and Marketing administration. The government agency was said to have asked mills for offers of 265,000 hundredweights of whole wheat flour for shipment to Gulf of Mexico ports prior to Sept. 10.
Active wheat futures closed ½ to 1 cent higher, Sept. $2.24-2.24½. There was no trade in July. Corn closed ¾-2½ higher, Sept. $1.64-½-⅝, oats were ⅝-1-⅝ higher, September 74-¼-⅜, rye was 4 cents higher, December $1.73-½, and soybeans were ½ to 3 cents higher, November $2.63.

FORT WORTH REPORT
FORT WORTH, Aug. 12 (AP)—Wheat No. 1 hard 2.33-37.
Oats No. 2 white 91-¼-92-¼.
Corn No. 2 yellow 2.23-½-25-½.
Sorghums No. 2 yellow milo, per 100 lbs 2.38-45.

Wall Street

STOCKS IN SLIGHT RALLY
NEW YORK, Aug. 12 (AP)—The stock market managed the first overall advance of the week today in one of the year's slowest sessions.
The upturn came in the last hour after a day of see-saw price changes. Gains ranged from fractions to around a point, with most in the fractional area. Losses were equally small.
Trading dried up to only 630,000 shares from 1,330,000 Wednesday and was the smallest since early March. Low for the year was 500,000, also in early March.
The small volume and minor changes were hardly indicative of any decisive trend in the market. Activity was limited largely to the operations of professionals.
Wall Street analysts offered a number of reasons for the tepid action in the exchange. Berlin again received top billing as a block to speculative and investment enthusiasm. Stock technicians, concerned primarily with the movement of the price averages, evidently didn't feel the time propitious for taking a position in the market.
Uncertainty regarding a boost in the federal reserve rediscount rate was also cited as a trading barrier.
Issues closing higher included Bethlehem Steel 38, General Motors 61¾, Chrysler 89, Montgomery Ward 53¾, Oliver Corp. 20½, Lockheed 20¾, American Telephone 151¼, Phelps Dodge 34½, Westinghouse Electric 37⅝, Philip Morris 34¼, U. S. Gypsum (up) 101, International Paper 58, Santa Fe 109½, Baltimore and Ohio 14¾, Richfield Oil 39¼, Pacific Western Oil 48, United Airlines 13½, and Standard Oil (NJ) 80.
On the losing side were U. S. Steel, Republic Steel, Packard, Goodrich Consolidated Edison, American Smelting, Pepsi Cola, Sconny-Vacuum, N. Y. Central, Southern Railway, Atlantic Coast Line, and Dow Chemical.

Cotton

NEW YORK REPORT
NEW YORK, Aug. 12 (AP)—Cotton futures were irregular in slow trading today. Traders continued cautious pending more definite ideas of the trend in spot cotton, textile and export. Nearby deliveries were steady on light but persistent mill buying and short covering.
Scattered liquidation and hedging were light with traders not inclined to sell the market because prices were near the loan levels.
Late afternoon prices were 5 cents a bale higher to 65 cents lower than the previous close. Oct. 31.24, Dec. 31.27, and March 31.21.
Cotton closed steady:

	Open	High	Low	Closed
Oct.	31.11	31.34	31.09	31.30
Dec.	31.17	31.36	31.17	31.33
March	31.22	31.39	31.18	31.35
May	31.03	31.12	30.98	31.09
July	30.30	30.32	30.21	30.24

Spots closed nominal at 32.57.

NEW ORLEANS REPORT
NEW ORLEANS, Aug. 13 (AP)—Cotton futures continued irregular here today, near months advancing on short covering while distant positions were under pressure of long liquidation. Closing prices were steady, 95 cents a bale lower to 30 cents higher.

	Open	High	Low	Close
Oct.	31.06	31.27	31.05	31.18-20
Dec.	31.14	31.30	31.12	31.24
