OPINION

Sonora schools bulging

BY CAROL JONES
PUBLISHER

If you are wondering why the Sonora Independent School District needs more space, a new high school building to be specific, try watching the cafeteria crew-approximately 15 persons-feed 850 to 900 students in a space built to accomodate a maximum of 350 students.

According to elementary principal Clay Cade, the kindergarten students are being served their noon meal starting at 11 a.m. in the cafeteria. This is just two hours and 45 minutes after school starts each day.

These youngsters do not get out of school until 2:30 p.m., almost three hours after they have had their lunch.

The bus students, who must wait until almost 4 p.m. to start the sometimes hour-long ride to their homes, are given a small snack right after school is out.

This snack is furnished at the expense of the SISD, not charged to the parents, so that all of the elementary students riding the buses get it.

According to officials, eight classes of first graders and five classes of second graders are being served from carts in the elementary hallways and must return to their classrooms to eat lunch.

Serving of the third graders starts at 11:20 a.m. and a continuous waiting line is formed around all of the lunchroom walls until all students through junior high are served after 12:15 p.m.

According to a school spokesperson, some of the middle school students have to stand in line as long as 15 minutes. Their lunch breaks are only 30 minutes.

The total enrollment as of Friday, August 26 was 1337 for the four schools, just 27 students under the peak enrollment for the 1982-83 school year. The cafeteria situation is expected to get worse when the enrollment climbs later in the year, as has always been the case in the past.

With standing room only, over 60 interested persons met with the SISD school board Tuesday night, August 30 to discuss setting a date for a bond election in an attempt to get a new and larger high school building approved for construction.

A date for the election was not set, but upon recommendation of a "steering committee", the date may be set by members of the school board at the next regular meeting Tuesday, September 13.

Wendall McAndrew, school superintendent, told the crowd Tuesday that the school system has the money on hand (invested locally) to finish paying off the bonded indeptedness for the junior high building and that the school has no other bonded indeptedness at this time.

McAndrew added that the land for the site of the proposed high school building has been purchased and is already paid for.

The bonded indeptedness that would be incurred for the new high school building, approximately $6 million, would at that time be all that the SISD had.

According to school officials, every classroom in the present high school is being utilized plus two classrooms in the junior high building are taken up with high school classes.

In addition to that, the high school special education classes are being held in the basement of the middle school building.

There are no classrooms available at all with the exception of one small room in the special education building.

If the bond election is passed, upon completion of the new high school building, the fourth, fifth and sixth graders will be moved to the present high school, allowing them more room as well as giving the seventh and eighth graders room to expand in the junior high building.

Walls could be removed inside the present vocational building to create room for a middle school and junior high cafeteria.

Elementary, grades kindergarten through third, could have their own cafeteria with extra room for a library. The old elementary auditorium could be converted into a play area for the kindergarten through third grade students.

With the addition of a new high shcool, grades K through eight would be housed sufficiently without the need for more space. The snack bar could remain and the cafeteria could still expand.

The 8 a.m. traffic problem would be instantly alleviated by the removal of the high school traffic.

The only building that would be removed from the premises would be the old homemaking cottage, presently being used for speech and drama instruction.

According to school officials, this building is not suitable for instructional purposes because of heating and cooling difficulties.

There would always be a need for the temporary buildings now housing kindergarten students.

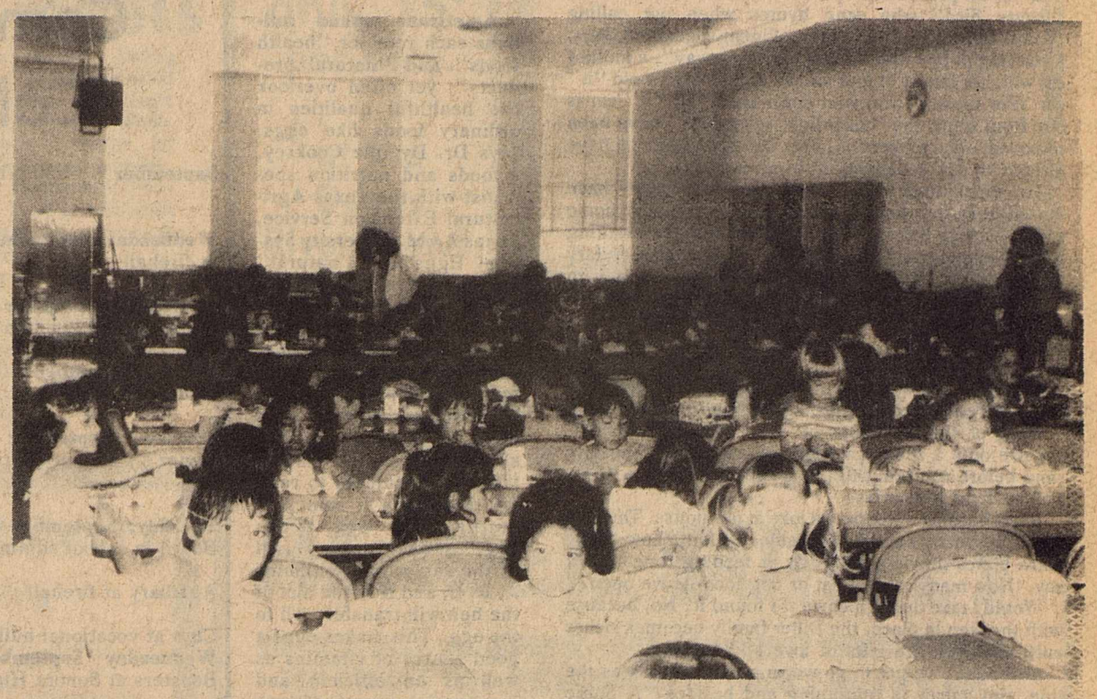

However, McAndrew told the group Tuesday night that these buildings are very expensive to maintain because they are so hard to heat and cool and have constant electrical problems.

The apparent reasoning behind having the bond election at this time is that interest rates may increase at a later time and that building contractors are more available now.

The new bond would have a seven or eight year payoff and taxes would only be levied for that period of time.

The school system is in good sound financial shape at this time, even to the point of lowering taxes this year. Over the past five years, taxes have continued to be lowered by the school board.

The school board will be meeting in regular session Tuesday, September 13 at 7 p.m. The public is always invited to attend all of the public meetings.

EARLY LUNCH
Kindergarten students are being served their noon meal starting at 11a.m. in the cafeteria. This is just two hours and 45 minutes after school starts each day. These youngsters do not get out of school until 2:30p.m., almost three hours after they have had their lunch. The bus students, who must wait until almost 4p.m. to start the some-times hour-long ride to their homes, are given a small snack right after school is out. (Staff Photo---KKN)

IN OPENING GAME OF SEASON

Wall outscores Sonora

BY CHARLIE ADAMS

In their season opener Friday night, the Broncos could not seem to get their rhythm together or maintain it with any sustained consistancy.

The Broncos were saddled to a 33-8 defeat by the Wall Hawks. The score was not an indication of the game however as expressed by Wall coach Mark Elam.

The Hawks came up with many breaks during the game.

Their first score came with 2:43 to play in the first quarter on a 69 yard drive that was sparked by a 37 yard run by Mike Gotschell and an 11 yard reception followed by a 17 yard scoring reception by Wall's tight end, Doyle Weishuhn.

The Broncos blocked the extra point try.

The next time Wall drove to the Bronco three yard line where an excellent defensive stand by the Broncos caused a fumble to end the Hawk threat.

The next Wall score came suddenly as a whole host of green Hawks blocked a Bronco punt and covered the ball in the end zone for the six points.

Again the Broncos stopped the extra point attempt. Now it was time for the Broncos to start rolling and do what they can do, "Control the Ball" and that they did on a 14 play 85 yard drive that took 5:51 off the clock.

The drive displayed the running of fullback Tino Martinez, as he accounted for 42 yards on six of the plays. The score came on a one yard run by junior running back, Joe Mike Noriega.

The extra point try was a wild one. The Broncos' kicker Jeff Brittain missed his first try by Wall, was penalized for being off sides so the Broncos got another try and received double dividends as the snap was fumbled.

Brittain, under a big rush, threw to Victor Lira for a two point conversion. This made the halftime score 12-8 in favor of the Hawks.

The Hawks scored first in the second half on a four yard run by Lance Powell. The big play was a fake run-pass play by Powell and a great reception by Wall end Mark Ray as he out-jumped two Bronco defenders for the ball.

The score came with 7:52 left in the third quarter and again the extra point failed making the score 18-8.

It remained the same until 6:14 remaining in the game when Powell took the pitch going right and raced 66 yards to the goal line. Wall's kicker Weishuhn ran the ball in for the two extra points.

At this point the Broncos, trying to score quickly, saw all hopes dashed as Wall's Mark Ray stepped in front of a Drew Wallace pass and raced 58 yards for another Hawk score. Weishuhn kicked the extra point.

The Broncos played hard and are a lot better team than the score of the game dictates. This is even reflected again as one notes the game statistics.

The Broncos had 12 first downs to 13 for Wall. Rushing yardage was 205 for the Hawks to 178 for the Broncos. Passing yardage was 75 to 29 in favor of the Hawks.

For the Broncos individually, the rushing leader was Tino Martinez with 71 yards on 14 carries followed by Joe Mike Noriega with 15 carries for 52 yards.

Mike Polocek rushed for 38 yards on 12 carries, Drew Wallace 10 yards on three attempts and Esau Ramirez seven yards on two carries.

In the passing department Wallace was five of 15 with one interception. On the other end, Jeff Brittain had two catches, Noriega, Polocek, and Ramirez all had one.

Although the outcome of the game was not to the players or coaches liking, there are still some positive things. This offensive team is very young and inexperienced and it will just be a period of time until the timing is there and all the pieces fall in place.

The Broncos may take a few bumps until, but watch out when the Broncos get rolling.

They will get another post call this Friday for their home opener against the always tough Junction Eagles.

The Eagles are the second opponent for the Broncos that were in the playoff last year.

They were beaten-out by eventual State Champions Eastland. This year's Eagle team also had problems in their opener as they fell 25-13 to the Ozona Lions.

They will recover to give the Broncos a good test this week from their I offense and their 3 wide receiver passing game.

Elsewhere around District 6-AAA, the biggest surprise was Colorado City's 20-6 victory over highly rated Slaton, Coahoma fell 8-0 to 19th ranked Kermit.

Crane beat Reagan Co. 12-7 while Ballinger walloped Winters 34-6.

This next week Colorado City plays Seminole, Crane will be at Marfa, Ballinger will be at home against Wylie, Coahoma will be at Staton, and Ozona will face Wall.

SCD celebration huge success

BY ELIZABETH ALLEN

The air was hot and bright, filled with the sounds of people of every age. Crowds were gathered under the protective shade of the huge pecan trees on the courthouse lawn.

Old and young alike had gathered to enjoy the festivities, and the smells of western cooking drifted through the air. Often a voice would ring out over the public address system announcing races, contests and activities to be held during the celebration.

People clustered to watch the events from where they had been eating, listening to the country music provided, or simply talking with old friends.

The place was the Sutton County Courthouse lawn, and the affair was Sutton County Days, held every year at the end of summer and accompanied by a rodeo and dance.

Sutton County Days was started to celebrate the anniversary of the official naming of Sutton County 93 years ago. Each year has been a lighthearted two days begun with a parade and finished with a dance, but this year had even more to offer.

A group of dedicated locals divided into committees and put a lot of effort and community spirit into each facet of Sutton County Days. Everyone did a commendable job, and the hard work was evident, especially in the Miss Sutton County Days contest, under the direction of Linda Love, assisted by Mary Lou Garrett.

The contest rules were changed to make it more of a beauty/personality contest, as well as who sold the most tickets. With her hard work, Mrs. Love definitely heightened the excitement of the Miss Sutton County Days contest.

The parade, too, had been extended both in route and content. Those participating included the Miss Sutton County contestants; Kathryn Parker, Miss Sutton County 1982; the winner of the Fiesta del Concho fiddlers' contest, Sheronna Kingston; the Petroettes; the Sonora Volunteer Fire Department; James Gulley and his antique cars; Senator Bill Sims; the senior class of 1963; the Bob Crawford Color Guard and the San Angelo Saddle Club.

Another significant difference in this year's festivities was the rodeo. Sanctioned by the Professional Rodeo Cowboys' Association, the 1983 Sutton County Days Rodeo has been the first professional rodeo held in Sonora. The rodeo was highlighted by several reknowned cowboys, and proved well worth the effort extended by the rodeo committee.

Numerous local clubs and organizations, as well as some individuals, put together booths selling foods, various crafts, and skills such as face painting.

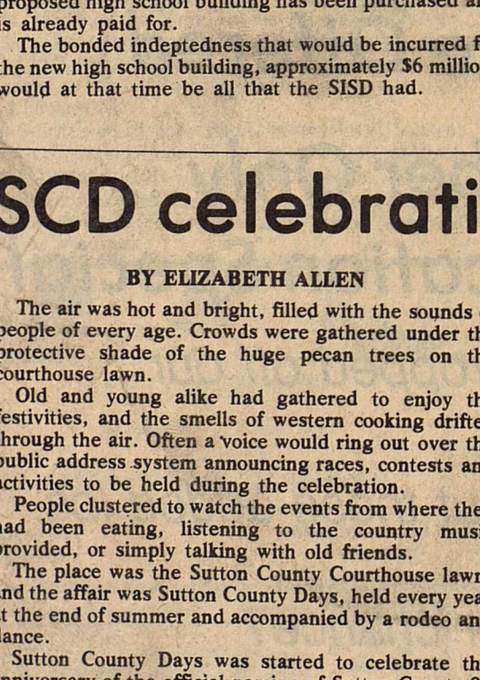

The variety of interests offered attracted three times the crowd of any previous year, according to a spokesman of the Sutton County Days Rodeo Association, and brought in close to $14,000 in ticket sales for the rodeo.

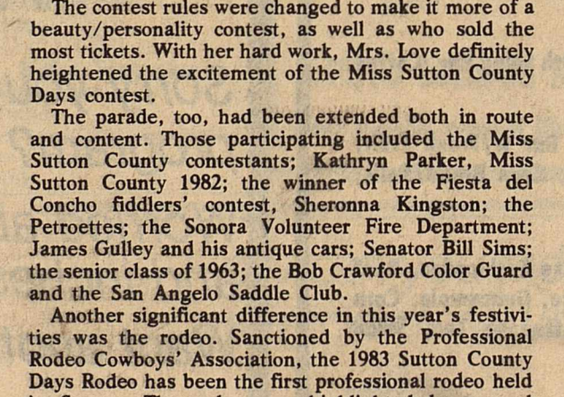

The dances were enjoyable, with music provided by Alton Baird Friday night, and Darrell McCall Saturday.

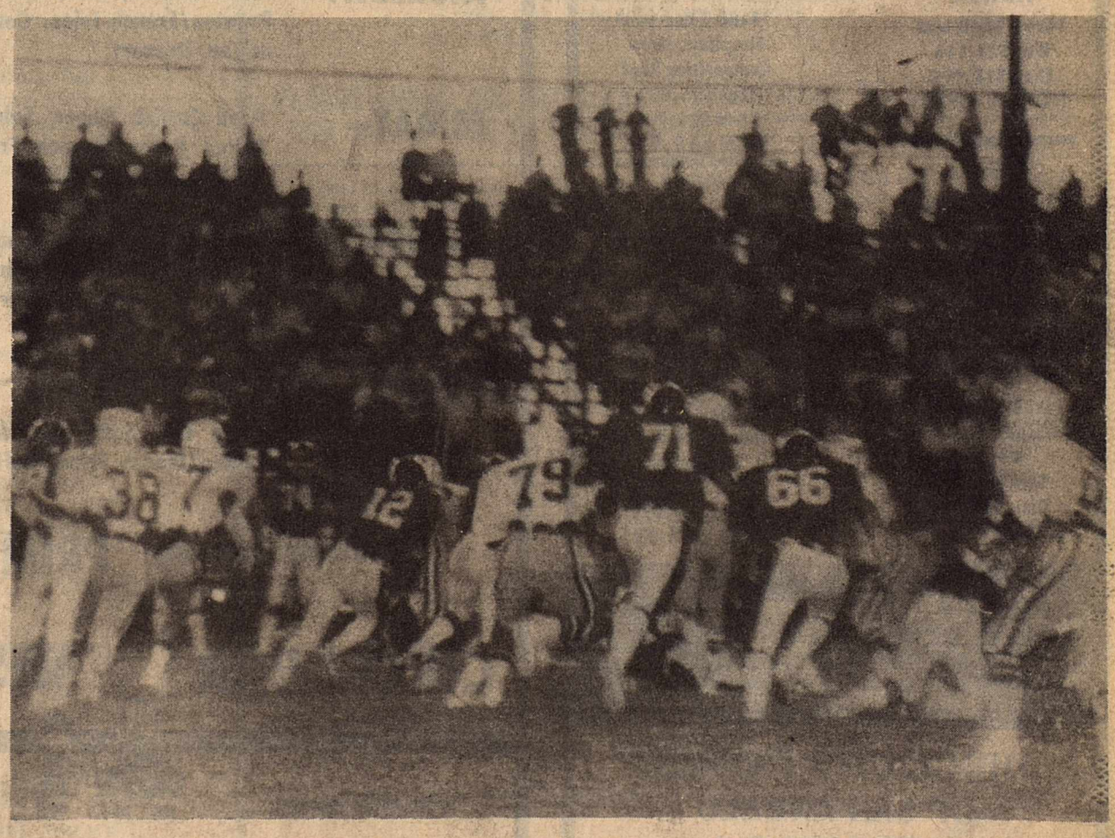

Darrell McCall is familiar with Sonora, having played at local dances for several years now as well as pursuing a recording career.

The Sutton County Days celebration was a financial success, as well as a diversion for local citizens and visitors alike, a place to forget pressure and worries before settling into the routine of autumn.

When people have fun and relax at a gathering, that event can be considered a success. And judging from this year's Sutton County Days, the tradition will go on for quite a few successful years to come!

Sonora Broncos in action Friday night against Wall

By IRMA DILLER

A SOFTIE LIVES HERE

I've just spent several hours in my yard searching for the sign, written in a universal language of man and beast, that says, "A Softie Lives Here". The search was prompted by the thin, tiny meowing of a thin, tiny kitten. The kitten found the sign, why can't I?

The sign has been posted for years and heeded by many. On one occasion, I took a count and found that I had, for all practical purposes, a zoo. It contained one "Pretty Bird" who sang hymns when not calling "Come here", two fairly unintelligent registered dogs, a starving puppy who'd been "thrown away", a mother cat with her family of four and an eighteen year old "it" cat. (For those of you who don't know, an "it" cat is one from which the "moonlight serenades" have been removed.) The makers of Litter Green and Purina have offered to make deliveries to my home.

The inhabitants of my "temporary sanctuary" have not all been four footed. Through the years, the homo sapien variety has included a Cuban refugee awaiting gainful employment and a French tri-lingual secretary praying for a work permit so that she could stay in America. One of the saddest was a twenty year old girl who stood on the doorstep and asked if I would help her bandage her wrists. And there has been a bevy of teenagers, all ages and sizes. Some have only spent the night, some have stayed much longer. Strange, how many parents want children who have no problems.

Most of the members of our "extended family" require only a little nourishment, caring and healing time before returning to the world. All of them leave behind fond memories.

It has become a wonderful joke at our house. The kids will ask, when setting the table, "Mom, how many extra plates do we need?" Or at feeding time they'll say, 'How many cans of cat or dog food do we open?"

Would I take the sign down if I found it? No, because with the sign in place, the Diller family becomes richer each day with the gifts of love and sharing.

And now, I've got to go warm a bowl of milk as the thin, tiny meow is continuing and besides "A Softie Lives Here".

DRN adds calendar

The newest addition to the Devil's River News is the "Community Calendar" brought to you courtesy of Sutton County National Bank.

This column of upcoming events is designed for the citizens of Sonora and Sutton County and all input for it is encouraged.

To get your club or organization's meeting time and location published, please call Carol Jones or Brenda Heim at the Devil's River News office, 387-2507 by Mondays at 10 a.m.

The calendar is a public service to the community and your cooperation in keeping it updated will be greatly appreciated.

The editorial department of the Devil's River News would also appreciate information regarding upcoming or past meetings for news articles. Call the office or bring the information to 220 N.E. Main.

All articles used are subject to editing by the DRN staff and for accuracy should be typed or printed.

The news deadline for each Wednesday edition is the previous Monday at 10 a.m.

Americans spend millions each year for "health foods" and "natural products", yet often overlook the healthful qualities in ordinary foods like eggs, says Dr. Dymple Cooksey, a foods and nutrition specialist with the Texas Agricultural Extension Service, Texas A&M University System. Eggs are a "natural" food in part because there's so little interference in the production process. If a hen receives enough proper nutrients, she will form an egg, and all hens of the same species produce eggs of about the same composition. "It's most important for consumers to realize that when it comes to nutrition, an egg is an egg," states Cooksey. All of the fat soluble vitamins A, D, E, and K in the diet of the hen will transfer well to the egg. This makes eggs a good source of vitamins as well as an efficient and inexpensive source of protein.

Open house slated September 12

On September 12, Mrs. Louis Trainer is hosting an afternoon Tea and Open House for the Hospital Auxiliary Membership Drive. The Tea will be from 4 to 6 p.m. at her home, 506 S.E. Water Ave.

The Auxiliary meets the second Monday of the month from September through May. Dues are $10 a year for inactive members and $3 a year for active members. Mrs. Trainer explains active members as those who have a "Secret Pal" at the nursing home and provide for the "Pals" a gift on the "pal's" birthday and a gift at Christmas and who are also willing to help with at least one birthday party a year at the nursing home.

The Hospital Auxiliary is involved in many worthwhile projects for both the nursing home and the hospital and offers an excellent return by way of helping others for a small investment of time.

Anyone interested in becoming a member of the Auxiliary is cordially invited to attend the Tea.

Antique show set

The second annual Antique Show, sponsored by the Uvalde Animal Shelter, will be held in the Civic Center, East Main St., on Saturday and Sunday, September 17-18. Saturday hours are 10 a.m.-8 p.m. and Sunday hours are 12 noon until 6 p.m.

According to Bobbie Smyth, chairman, the sponsors are expecting a record number of at least 30 dealers from across Texas. At this show, as at the previous one, no reproductions and no English imports later than 1940 will be allowed. Dealers will offer collectibles and genuine antiques, including glass, jewelry, and furniture.

Tickets are $3 for both days and are on sale now at the Uvalde Animal Shelter, the Chamber of Commerce, Rexall Drug, and Bill's Shoe Tree.

A drawing for door prizes will be held. Winner need not be present. A concession stand will offer food and drinks during both days.

Dealers are invited to dinner Friday evening before the show.

For more information, contact Mrs. Smyth at (512) 278-5959 or 711 Airline Drive, Uvalde, Texas 78801.

Yindrak, Adkins united

Tamara Suzette Yindrak of Decatur, Illinois and Russell Anthony Adkins of Sonora were united in marriage Friday, September 2 in the First United Methodist Church of Sonora at 7 p.m.

Don Jones, minister of the Church of Christ, was the officiant and the bride was given in marriage by her father.

The bride's gown was of white chantilly lace. The bodice had a mandrin collar trimmed with a pearl embroidered yoke and a lace V-ruffle.

The leg-of-mutton sleeve had chantilly lace fitted around the wrist and the sunburst pleated skirt had a ruffled organza hemline sweeping into a chapel train.

The new Mrs. Adkins' headpiece had a halo of pearls and white flower blossoms with a flowing double net veil.

She carried a cascade of white silk roses and stephanotis with a touch of blue forget-me-nots and green fern foliage.

Mrs. Donna Adkins of Sonora served as the matron of honor and Thomas Adkins, also of Sonora was the best man. Ushers were Roy Adkins of Sonora and Steve Terry of San Angelo.

A reception was held following the wedding ceremony in the basement of the Methodist Church.

Following a wedding trip to the Big Bend area, the couple will reside in Sonora.

The bride attended Mt. Zion High School in Mt. Zion, Illinois; Decatur Area Vocational Center in Decatur Illinois; and Richland Community College in Decatur. She is employed as a nurse's aide.

The bridegroom attended Sonora High School, USAF Technical Training School, and Community College of USAF. He is employed by GTE as an installer and repairman.

Mrs. Russell Adkins

ICA holds monthly meeting

The Independent Cattlemen's Association held its monthly business meeting with breakfast Thursday, September 1 at 7 a.m. at the Sutton County Steak House.

Sales of T-shirts, caps, and gate signs were reported from the Sutton County Days celebration, and all money received from the sales was sent to the home office in Austin.

Chairman Clay Hicks expressed his thanks to everyone purchasing the above items and a special thanks to everyone giving their contributions to the organization including Mr. and Mrs. Albert Ward, Dr. Joe D. Ross, and J and J Ranch Co. (Joe Friess).

Hicks also expressed his thanks and appreciation to all members who contributed to the purchase of the steaks which were auctioned at the celebration.

Mrs. Rosa McGee was the winner of the ICA T-shirt that was given away at Sutton County Days.

It was also announced during the meeting that Elmer Kelton will be a guest at the ICA breakfast in the near future with the date to be announced later.

The next meeting will be held October 6 at 7 a.m. in the Sutton County Steak House.

All members and interested persons are urged to attend these monthly meetings.

Loans available

Emergency loans are now available to Sutton County livestock producers thru the Famers Home Administration.

Loans are at eight percent for producers unable to obtain credit elsewhere and fourteen and one-fourth percent for those who can get credit at their regular sources.

Loans for operating expenses are to be repaid in one year, while loans for other purposes have longer terms.

The FM H A office address is Box H, Eden, Texas 76837. Phone is 915/869-3941.

A representative will be in the Sutton County ASCS office, 216 Main Street, from 10-12 noon, Thursday, September 15.

Martinez rites held

Rafela Martinez, 88, died at Hudspeth Hospital Thursday, September 1 at 10:15 a.m.

Funeral services were held at 2 p.m. Saturday in St. Anns Catholic Church with the Rev. Barnard Gully officiating. Interment followed in Sonora Cemetary under the direction of Kerbow Funeral Home.

Mrs. Martinez was born October 24, 1894 in Parras, Mexico and was married to Juan H. Martinez March 4, 1914 at Villa Union, Mexico. He preceded her in death.

A member of the Catholic Church, Mrs. Martinez was a housewife.

She is survived by a daughter, Margarita of Sonora; two sons, Cesario and Sabas Martinez of Sonora; three grandchildren; and five great-grandchildren.

Pallbearers included Ramiro Martinez, Lupe Chavez, Lazaro Martinez, Lalo Artiga, Santos Hernandez, and Ferderico Martinez.

Family Living Committee meets

The Sutton County Extension Family Living Committee met August 30 from 5:15-7 in the extension office. The purpose of the meeting was to plan Home Economics programming for Sutton County in 1984-86.

The in-depth program for 1984 will be health, for 1985 nutrition and for 1986 management and housing.

Suggested topics for '84 include: Health fair, Food for athletes, Drug & Alcohol abuse, Food and Fitness, Do it Yourself furniture Construction, Personal computers, and Sodium & Hypertension.

Those present at the meeting include County Extension Agent Pam Young, F.L.C. members Trevlin Luttrell, David Griffin, Fay Dunnam, and Diann Keller.

Members who were unable to attend were Terry Kinard, Elvira Hoguin, Jeanne Davenport, Clifton Hancock, Cheryl Kauffman, Connie Virgen, Belia Castaneda, Alice Cox, Ebbie Sutton, and Lala Hernandez.

How can you judge a miracle of nature?

When selecting a diamond, it's not always possible to say that one is positively better than another. Because each diamond is different and unique; a miracle of nature, born below the earth's crust millions of years ago. And just as each diamond is unique, your personal preference plays an important role in finding the right stone.

The value of a diamond is assessed by the 4 C's: Carat, Color, Clarity and Cut. A diamond's weight or size is measured by the carat—each carat consisting of 100 "points." Diamonds of a carat or more are extremely rare. So rare, that 30 tons of ore must be crushed to yield just one carat of gem quality.

Clarity refers to the degree to which a diamond is free of blemishes or inclusions. Color is actually graded by the absence of color. Cut refers to the shape and proportion of the diamond. A good cut allows the maximum amount of light to pass through the diamond, creating maximum "sparkle."

Selecting a diamond is selecting one of nature's most extraordinary masterpieces. We can show you the fine qualities that differentiate one diamond from another, and can help you select the stone that reflects you best.

America's first parking meter was the Park-O-Meter, installed in Oklahoma City, Oklahoma on July 16, 1935. The charge was five cents.

ELAINE MIEARS FREE

More than 1.2 million cubic yards of earth and rock had to be excavated from the site of Manhattan's World Trade Center before building could commence.

Dorsey Archer rites held

Dorsey L. Archer, 78, of Brady and formerly of Sonora died at 7:30 a.m. Tuesday, August 23 in the Sheffield Nursing Home in Brady.

Graveside services were held at 11 a.m. Thursday in the Sonora Cemetary under the direction of Colonial Funeral Home of Brady.

Archer was born March 2, 1905 in Kimble County and attended schools in Kerrville, Rocksprings, and Sonora.

He lived in Sonora until 1981 when he moved to Brady.

A member of the Methodist Church, Archer was a ranch hand and a bricklayer.

Survivors include two brothers, Frances of Brady and G.W. of Marfa; a sister, Stella Smith of San Angelo; several nieces; and several nephews.

Whitehead appointed chairman

Bill Whitehead has been appointed area chairman for the Cattlemen's Round-Up for Crippled Children, The Cattlemen's Round-Up for Crippled Children benefits the West Texas Rehabilitation Center with campuses in Abilene and San Angelo, stated Shelley V. Smith, WTRC president/executive director.

"Livestock donated by ranchmen are collected at a designated point in each community and transported free to the auction site," Alexander explained. "The area chairman's role is to make a personal pledge, then ask friends and neighbors to join them in the annual CRCC drive.

Sales of livestock are converted to dollars and the amount provides care for about 11,000 handicapped persons throughout the Southwest at Rehab campuses.

Scheduled sales include the Cattle Sale at Abilene Auction, September 26; Abilene Horse Sale, October 1; Junction Sheep and Goat Sale, October 3; Coleman sale, October 5; and Brownwood sale, November 2.

Aubrey Stokes of San Angelo is CRCC co-chairman for the Southwest region. Midwest Feedyards in San Angelo serves as the regional collection point.

CRCC is now 23 years old. The idea began in Bronte on the late Conda Wylie's Fort Chadbourne Ranch. He came to Smith with the suggestion that 20 top steers be cut from his herd and sold to help defray operational expenses of WTRC.

The results speak for themselves. Today WTRC reaches out to all handicapped in the Southwest. With a goal for treating the whole patient rather than just the handicap, services offered include physical therapy, occupational theraphy, speech therapy, social services, psychology, orthotics, diagnostic services, education programs, adaptive equipment shops, audiology, medical clinics, genetics counseling, and transportation.

Letter to the Editor

The following article was turned in to the publisher at the Devil's River News for the public's information.

Dr. Mr. Aldwell:

I would like to thank you, Mr. Tedford, Dr. Taylor, Dr. Grimmel, Dennis Robertson and the other hospital personnel for the nice tour of your hospital. As you are aware, our visit in you facility was rather brief; however, we do feel that we were able to gather the information that we needed in this short time and to assist us we had a copy of the Baylor report that was done in 1982. Basically speaking I feel that we are in agreement with the information documented as a result of the Baylor visit.

We feel that Dennis Robertson is doing a very good job as administrator of your hospital, especially faced with the limited number of patients that you are currently experiencing. As we toured the facility we noticed some minor items that needed attention; however an outsider can go into any institution and find similar circumstances. Basically, I feel your hospital is being well managed in a businesslike manner.

The hospital's financial status seems to be of primary concern and justifiably so with the low census. It is my understanding that the Texas House of Representatives has passed a bill pertaining to a proposed hospital district in your county, however I do not know the current status of this bill. If this bill in indeed approved and a hospital district is established, the resulting tax base for support of indigent care should solve the financial needs of your facility.

Other areas that we noted during our brief tour are as follows:

1. The patient billing system seems to be in very good order with the insurance claims and monthly statements being handled on a timely basis. Collection policy could be formalized and accounts should be turned over to a collection agency on a monthly basis so they are not old when the agency starts working them.
2. Consideration might be given establishing an income scale for charity determinations based on federal poverty guidelines. This income schedule could delineate between true charity patients versus bad debts and might improve the county's participation in paying for true charity patient care.
3. Like most all hospitals the charge structure should be reviewed to determine the charges have been adjusted as purchase price has increased.
4. The accounting system seems appropriate, however, some additional refinements might be desired.
5. Management of purchasing, storing and dispensing of medications should be closely reviewed.
6. The current plan to solicit donations to redecorate patient rooms in commendable. Getting the community involved with the hospital may improve the public image of the hospital and medical staff. Since the two physicians do not feel that an additional physician should be recruited, improvement of the physician and hospital image in the eye of the public seems to be the only way of improving your patient load at this point.

Based on our visit, we feel that from an administrative view point that your hospital is very well managed and would not realize, however, that there are probably times when the board and/or Mr. Robertson feels the need of consulting with someone outside the community and we would certainly be agreeable to be available for consultations on an informal basis. I would not anticipate any charge being necessary for consulting services unless it gets to be a time consuming process and then we might ask for payment on an hourly basis.

If we can be of assistance to you, please let me know.

Sincerely,
Jim Fillpot
Administrator
Shannon West Texas
Memorial Hospital

Americans spend millions each year for "health foods" and "natural products," yet often overlook the healthful qualities in ordinary foods like eggs, says Dr. Dymple Cooksey, a foods and nutrition specialist with the Texas Agricultural Extension Service, Texas A&M University System. Eggs are a "natural" food in part because there's so little interference in the production process. If a hen receives enough proper nutrients, she will form an egg, and all hens of the same species produce eggs of about the same composition. "It's most important for consumers to realize that when it comes to nutrition, an egg is an egg," states Cooksey. All of the fat soluble vitamins A, D, E, and K in the diet of the hen transfer well to the egg. This makes the egg a good source of vitamins as well as an efficient and inexpensive source of protein. Even though special eggs, like "organic fertile" and "Araucana" eggs, many be sold as health food, there is no evidence to support the idea that they are any more nutritious than ordinary commercial eggs from the grocery store, adds the specialist.

"Wherever there is a human being there is a chance for kindness." Seneca

TESTED UNDER EXTREME CONDITIONS WAS A NEW SYNTHETIC MOTOR OIL, CHEMICALLY ASSEMBLED RATHER THAN REFINED FROM PETROLEUM. **MOBIL 1** WAS RUN IN A HIGHWAY POLICE CAR 5,000 MILES, THEN THE USED OIL WAS RUN IN A TAXI ANOTHER 5,000 MILES, THEN IN A PASSENGER CAR 5,000 **MORE** MILES. AFTER 15,000 MILES, TESTS SHOWED IT COULD STILL PROTECT THE ENGINE AS WELL AS BRAND NEW PREMIUM OIL!

Utility billing to be performed by cycle billing

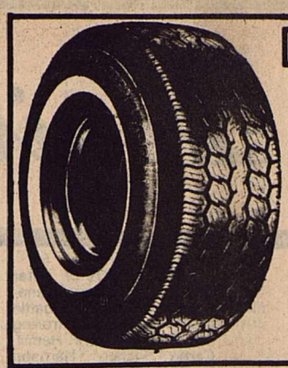

According to Sonora City Manager James Dover, effective October 1, 1983 utility billing will be performed by cycle billing.

Customers will no longer receive statements at the first of the month but according to the route in which electrical and water service meters are read.

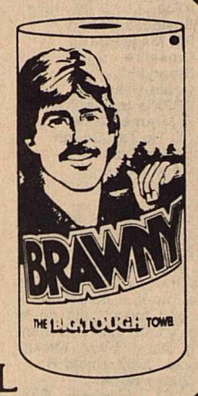

A statement will then be mailed to customers immediately. Due dates will be posted on the bill and customers are given ten days to pay the balance.

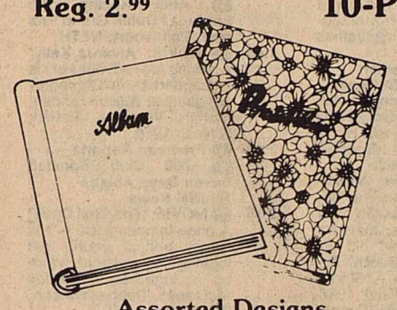

Credit structure will be looked at closely and only customers that have satisfied credit arrangements will be allowed to delay payment of their utility bill.

The City of Sonora values your support and consideration in the billing change. Additional information may be obtained from the billing department at City Hall or telephone 387-2558.

BEING SERVED IN THE HALLWAYS

Eight first grade classes and five second grade classes are being served from a cart in the hallways of the elementary school each day because of the lack of seating area in the cafeteria. The children receive their trays and return to their classrooms to eat. The cafeteria was originally built to accomodate a maximum of 350 students but now serves 850-900 students each day, thus causing the overflow and serving shifts. (Photo Courtesy of Roberta Sappinton)

The Texas Extension Homemakers Association (TEHA) was named a third-place award winner for projects in health, food and nutrition in ceremonies held at the 47th annual National Extension Homemakers Conference in Laramie, Wyo., August 3. The 1982 health, food and nutrition committee, headed by Dorothy Underwood of Ranger, was recognized for a variety of projects conducted throughout Texas. The TEHA added this award to previously announced awards for recruitment and young homemakers programming. The 22,000-member TEHA was represented at the conference by a delegation of 35 state officers, committee chairmen and members.

A squirrel may scrounge as much as twenty bushels of nuts and roots and seeds and put them in a number of caches scattered around his territory. However, squirrels have terrible memories and are often unable to find even a tenth of these caches later on.

Among the ancient Greeks it was considered good for the crops to plant a piece of year-old cake along with the seeds.

Devil's River News FOOTBALL Contest! (Plus Weekly Jackpot.)

$15 First Prize

$10 Second Prize

$5 third prize!

Contest Rules Below:

1. Pick up an entry blank from one of the sponsors listed below.
2. Fill it out completely, writing the teams you think will win each week beside the sponsors' names on the entry blank
3. Each space on the entry blank must have a team entered there. FOR EXAMPLE: If Smith Hardware's ad has Sonora vs. Wall in it, and you think Sonora will win, write Sonora beside Smith Hardware's name on the entry blank blank. Do this for each game and remember to sign your name and choose a tie breaker.
4. Be sure and put your name and list the location where you obtained your entry blank. Entries not filled out completely will be disqualified.
5. Tie breaker pick each week is the total points you think will be scored in the Sonora Broncos' game.

DEADLINE FOR ENTRIES:

SONORA'S NURSING HOME

"Active is Healthier"

BY ANN CATES

Nestled quietly adjacent to Lillian M. Hudspeth Memorial Hospital is Lillian M. Hudspeth Memorial Nursing Home. In the early morning or late evening, deer and turkey can often be seen strolling the serene grounds surrounding the facility. The nursing home was established in 1973 by the Hospital Board and remains under their auspices. The administrator for the nursing home, as well as the hospital, is Dennis Robertson.

Classified as an Intermediate Care Facility, the nursing home currently houses thirty-three residents with a thirty-nine bed capacity. The home, primarily set up as a geriatric care center, is also utilized, on occasion, by persons recuperating from surgery or illness requiring more than "at home care".

An immediate goal is to refurnish the rooms. The present furniture has been in the facility since the beginning, ten years ago, states Mr. Robertson. The Hospital Auxiliary has just recently provided Levolor mini-blinds for each resident's room. "They look nice, require no maintenance, and they cut down on afternoon glare", says Martha Trainer, "and we hope to be able to put the blinds in the lobby soon."

When a new resident arrives at the home, he or she is encouraged to "decorate" their room and may even bring with them some favorite pieces of furniture. "This is their home," says Mr. Robertson, "and we want them to be comfortable. We are pretty liberal as long as everything meets the State Fire Marshall's code."

Many of the needs of the nursing home are being met be a dedicated nursing home staff with Eva Perez as Head of Nursing, Lydia Gonzales as Activities Director, and with the help of the Hospital Auxiliary and a few concerned citizens. Some of the activities include weekly bingo games, parties for each holiday and the Hospital Auxiliary hosts a monthly birthday party. In addition, local clergymen provide church services at the home each Tuesday evening. Several local ranchers cater annual Bar-B-Que's, the school band gives a Fall concert and local church groups carol at Christmas time.

All of these activities are wonderful for the residents but unfortunately, life is not always a holiday and there is so much more needed for life on a day to day basis. We, as citizens of Sonora, are needed to contribute by way of personal needs, involvement and companionship.

PERSONAL NEEDS: Body talc, lotion, bar soap, curlers, setting lotion, shampoo and other grooming aids as well as items such as colorful blankets to brighten rooms. "Most people feel that these are provided by the facility," states one interested party, "but they aren't and there is always a need for them."

Also there are many of the residents who would enjoy the weekly services of a hairdresser. This could be done on a rotating basis, would probably require no more than one morning a week, could be used as a tax write off and most importantly, would add some zest to someone's life. How about it, ladies?

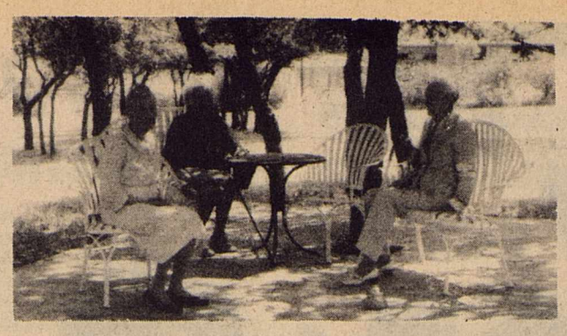

INVOLVEMENT AND COMPANSIONSHIP: These two elements, going hand in hand, are self explanatory but cover a very broad spectrum. They can be handled on either an individual or group basis. There is both a piano and an organ in the nursing home lobby and says Mr. Robertson, "Anyone is welcome to come and play for the residents. An hour of music can be a wonderful thing for them". The Hospital Auxiliary needs new members, both English and Hispanic speaking, who are willing to give a little of themselves to help enrich the lives of others. Mr. Robertson also suggests a "Adopt a Grandparent for a Day" program. This is an excellent idea lest we forget that age is synonymous with wisdom and knowledge. What child would not benefit from this type program and it would be marvelous for the residents to be able to share their wisdom.

After all, it is up to each of us to add a bit of "glitter" to those in their "Golden Years", just as we hope someone will add some "glitter" to ours. Mr. Robertson extends an open invitation to anyone in the community who wishes to help or merely to visit. "The doors are always open. We have found that the more active the residents remain, the healthier they

Researchers at the United States Department of Agriculture's consumer nutrition laboratory compared a variety of foods prepared in preheated and non-preheated ovens and found few significant differences in the quality or size of the items, reports home economist Bonnie Piernot. The non-preheated ovens required five minutes or less extra baking time than the preheated ovens, says Piernot, who is with the Texas Agricultural Extension Service, Texas A&M University System. The energy savings from not preheating averaged about 10 percent. "Overall," Piernot says, "the findings confirm that preheating the oven is not essential for good quality baking, so it's an unnecessary use of energy."

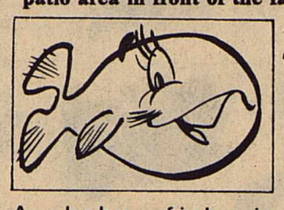

There are approximately 300 million cars in the world.

Soaking up the Sun - These residents of the nursing home seem to be enjoying the summer afternoon on the patio area in front of the facility. (Staff Photo--BAH)

Junior Varsity falls to Ozona

BY CHARLIE ADAMS

In their season opener, the Bronco Junior Varsity showed a good offensive game and played excellent defensive only to see a tipped fourth down pass fall into the hands of an Ozona Lion receiver just before halftime.

This was the only score of the game played in extreme heat at Bronco Stadium this past Thursday.

The Broncos drove the ball inside the Lion 20 yard line on their first two possessions only to come up short of scoring. The Lions managed only two first downs during the first half. Their score was a result of Bronco mistakes.

They got the ball on the Bronco 15 yard line after it was snapped over punter Robert Davis' head.

The Lions on two plays lost three yards but on third down they completed a pass to the Bronco third yard line.

On their first three plays the Lions ran into a stone wall as the Bronco defense moved them backwards.

On fourth and goal from the Bronco six yard line and under a big rush the Lion quarterback threw the ball toward a Lion receiver, the pass was short, but a Bronco defender tipped the ball up in the air and into the Ozona players hands.

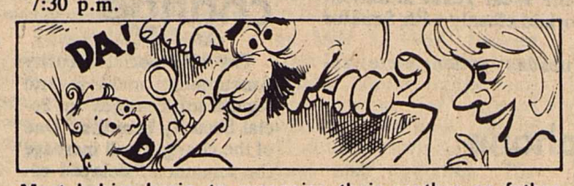

The extra point kick was good and Ozona owned a 7-0 halftime lead. The Lions threatened to score again in the fourth quarter as again the Broncos miscued while trying to punt and again the ball went over the punter's head.

The Bronco defense rose to the challenge and stopped the Lions cold. The Bronco defense gave the offense one more chance when they recovered a Lion fumble deep in Lion territory late in the fourth quarter.

The Broncos moved to the Lion 10 yard line where they fumbled all chances away on second and three with 1:14 left in the game.

It was a well played game by both teams in such sweltering conditions.

The Broncos will be in action again this Thursday as they travel to Junction to take on the Eagles at around 7:30 p.m.

Most babies begin to recognize their mother or father at the age of three months.

The pantheon of ancient Roman gods included Robigus, god of mildew.

Sutton County declared as drought stricken area

Ranchers and farmers in Sutton County are now eligible to receive government help following approval by the U.S. Department of Agriculture for Farmers Home Administration emergency loans.

United States Senator John Tower made the announcement Tuesday morning, August 16 that the USDA had approved these emergency loans for farmers and ranchers in 20 drouth stricken counties of West Texas.

"The USDA approval means farmers and ranchers in the designated counties may apply for emergency loans to cover part of their actual losses, which are a result of the 1983 drouth," Tower said.

"I am pleased the USDA has recognized the severity of this drouth which literally has devastated over 20 counties in West Texas," Senator Tower added.

"I am concerned, however, that today's action by USDA will not completely address the needs of our farmers and ranchers, and I, along with my colleage, Congressman Tom Loeffler, await further word from USDA on any additional relief which may be available," Tower concluded.

Other counties designated for the emergency loans do not include Sutton's neighbors Crockett and Schleicher Counties, but do include Andrews, Brewster, Crane, Culberson, Coke, Ector, Howard, Jeff Davis, Martin, Midland, Mitchell, Nolan, Presidio, Pecos, Reagan, Terrell, Upton, Ward, and Winkler.

August 10, Senator Tower had asked President Reagan for prompt action on the West Texas situation. Congressman Loeffler also worked closely with Senator Tower on this effort.

His comments on the Tuesday action were announced that afternoon.

"I am pleased to announce that today the Department of Agriculture is declaring 20 west Texas counties a federal disaster area due to the severe and devastating drouth condition.

"This announced disaster declaration allows farmers and ranchers in the affected counties to be eligible for the emergency loan program administered by the Farmers Home Administration. In addition, this announced disaster declaration will allow ranchers within the affected counties to take advantage of Section 451 "e" of the U.S. Tax Code.

"This provision of the tax code allows ranchers to receive favorable tax treatment by delaying for one year tax liability on the extraordinary income from the forced sale of their herd of cattle, sheep, and goats due to the devastating drouth."

Social Security people can apply by telephone

People who wish to apply for social security retirement benefits but who find it difficult to visit a social security office can make initial application by telephone. Social Security personnel will obtain the necessary information and then arrange to complete the application process by mail.

Application for retirement benefits should be made at least 2 or 3 months before the person plans to stop working. This will help assure that benefits will start for the month of retirement. The first check should be received early in the month following the first full month of retirement.

Certain documents are essential for establishing eligibility for retirement benefits. They include a social security card or a record of the number and proof of date of birth, such as a birth certificate or a religious record of birth or baptism that was recorded before the person was 5 years old. These documents must be original records or copies certified by the agency that issued them.

In the event that original records or certified copies are not available, the best possible evidence of date of birth should be submitted. These include, among others, school and church records, a marriage license, a passport, and employment or military service papers.

Applicants for retirement benefits should also submit their Wage and Tax Statement forms (W-2) for the preceding two years, and self-employed individuals should submit copies of their tax returns plus proof of filing, such as a cancelled check. The reason is that the most recent reports of earnings may not yet have been credited on the applicant's social security record.

For more information, contact the San Angelo Social Security Office located at 2214 Sherwood Way. The telephone number is 949-4608.

Benefits to change

The 1983 Social Security Amendments make several significant changes in Social Security benefits. One of the changes will increase the amount of delayed retirement credits received by workers who delay retirement past age 65.

Under present law, delayed retirement credits are equal to 3 percent per year. That is, for each full year after age 65 that no benefits are paid, the worker's benefit amount is increased by 3 percent.

The 1983 Amendments provide that beginning in 1990, delayed retirement credits will increase by one-half of one percent every other year until reaching eight percent per year for workers who reach full-benefit retirement age after 2007.

This provision is intended to encourage people to continue working beyond age 65 by increasing the credit for people who delay retirement.

For more information, contact the San Angelo Social Security Office located at 2214 Sherwood Way. The telephone number is 949-4608.

Free herds double

Certified free herd numbers in Texas are virtually double from what they were a year ago. As of July 1 this year, there were 793 certified brucellosis free herds compared to 419 a year ago at the same time.

Throughout the state, 171 counties have one or more certified free herds. The majority of certified herds are located in the eastern half of the state where brucellosis is more of a problem than in the western half.

"This shows to us that many livestock producers in the eastern half of Texas are using the certified brucellosis free herd program to protect their cattle against this highly contagious disease," Dr. John W. Holcombe, executive director, Texas Animal Health Commission, said.

Hopkins County in northeast Texas has the highest number of certified brucellosis free herds with 32. Milam County in Central Texas is in second place with 27. Other counties with 20 or more certified free herds are Henderson (23); Navarro (24); Bell (22); Washington (21); and Bosque (20).

Counties with 10 through 19 certified herds are Fannin (12); Lamar (12); Denton (10); Collin (12); Kaufman (12); Van Zandt (11); Hill (12); Rusk (11); Williamson (14); and Fayette (14).

"A certified brucellosis free herd is a producer's best assurance for as much free movement of cattle as possible within Texas or out of state," Dr. Holcombe noted.

Certified brucellosis free herd is available for beef cattle producers, both registered and commercial as well as dairymen.

For beef, a complete herd blood test is needed. This involves two consecutive negative blood tests of all test-eligible cattle. They must be tested not less than 10 months nor more than 14 months apart. To maintain certification, a test of eligible cattle is required within 60 days of the anniversary date.

For dairy, a milk ring test may be used. A minimum of four consecutive negative milk ring tests conducted at not less than 90 day intervals is needed. This is followed by a negative herd blood test conducted within 90 days after the last negative milk ring test.

Complete details may be obtained from area TAHC offices.

"We also have available the names of certified brucellosis free herd producers for anyone interested in purchasing certified brucellosis free cattle," Dr. Holcombe said.

HNG reports

Houston Natural Gas Corporation today announced a year-end, non-recurring write-off amounting to approximately $39 million to be charged against operating earnings for the fiscal year ended July 31, 1983. The effect on net income is approximately $21 million.

The majority of the write-off was a write-down to estimated realizable value of investments and properties in the oil and gas and coal business segments.

HNG is a worldwide energy related company involved in natural gas transmission and sales; oil and gas exploration and production; marine transportation, services and construction; industrial gases; and coal mining.

HNG is a worldwide energy related company involved in natural gas transmission and sales; oil and gas exploration and production; marine transportation, services and construction; industrial gases; and coal mining.

TOWN, COUNTRY CHURCH CONFAB SET

Church leaders from across Texas will gather at Texas A&M University September 19-20 to address a host of issues related to fostering community understanding and cooperation. The occasion is the 38th Annual Town and Country Church Conference, says a sociologist with the Texas Agricultural Extension Service, Texas A&M University System. Among discussions will be the impact of increased technology and human resources on lifestyles, churches, and communities; the changing agricultural structure and its impact on the community; laws and procedures involving undocumented persons; safety and the church; clergy and the law; and blending church and state resources.

People once believed that agates could render them invisible.

Fresh peas should squeak when the pods are rubbed together. Store them unshelled in your refrigerator.

BRIGHTER SOYBEAN OUTLOOK

Earlier gloom regarding the soybean outlook has changed to improve price prospects for the 1983 crop. Factors brightening the soybean picture are a smaller than expected crop and dry weather in the Midwest that has dampened grain prospects, says an economist with the Texas Agricultural Extension Service, Texas A&M University System. U.S. soybean acreage is down 12 percent from earlier estimates, and yields will likely be down due to the dry weather. Furthermore, corn acreage is down sharply, so increased feed demands from expanding hog and poultry operations should boost soybean prices.

Public Notice

NOTICE OF INTENT TO AMEND CERTIFICATE OF CONVENIENCE AND NECESSITY

On August 25, 1983, the Lower Colorado River Authority filed an Application to Amend its Certificate of Convenience and Necessity with the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 450N, Austin, Texas 78757. LCRA's application requests licensing for a 397 MW lignite-fired generating unit at the 6700-acre Fayette Power Project site in Fayette County, Texas, located approximately eight miles east of the City of LaGrange and 4.5 miles west of Fayetteville. Fayette Unit IV is scheduled to be put in service on May 1, 1989. Fayette Unit IV is designed to burn locally mined lignite and produce a net annual average unit heat rate of 11,400 Btu/kwh for typical base load operation. The project's generating equipment and processes will include a 3600 rpm tandem compound single reheat turbine generator, pulverized lignite-fired drum type boiler, a cold side electrostatic precipitator and a flue gas desulphurization system (wet scrubber sulphur dioxide removal). The unit will increase the electric the electric generating capacity available for LCRA customers.

Persons who wish to intervene in the proceeding, make formal protest, or comment upon the action sought should contact the Public Utility Commission of Texas and the Applicant, within 15 days of first publication of this notice.

ORDINANCE NO. 254

AN ORDINANCE FIXING THE TAX RATE AND TAX LEVY FOR THE CITY OF SONORA FOR THE FISCAL YEAR 1983 - 1984, UPON ALL TAXABLE PROPERTY IN SAID CITY OF SONORA, TEXAS, IN CONFORMITY WITH EXISTING STATE STATUTES AND ORDINANCES OF SAID CITY OF SONORA. APPROPRIATING THE FUNDS DERIVED FROM SAID TAX LEVY TO VARIOUS FUNDS: REPEALING ALL ORDIANCES OR PARTS OF ORDIANCES IN CONFLICT HEREWITH:

BE IT OBTAINED BY THE CITY COUNCIL OF THE CITY OF SONORA, TEXAS:

SECTION I.

That there shall be and is hereby levied and assessed for the fiscal year 1983 - 1984, upon all property of every discription subject to taxation by the City of Sonora, Texas, on the first day of January, A.D. 1984, the following tax rate to wit:

An ad valorem tax at the rate of $.5160 on the $100.00 assessed value thereof estimated in lawful currency of the United States of America, for the purpose of paying the general expenses of the City Government for the period ending September 30, 1984.
SECTION II.

All taxes collected pursuant to this ordinance shall be deposited as follows:

To: General Fund: 88.45 percent.
To: Sinking Fund: 11.55 percent.

SECTION III.

The City Tax Assessor and Collector of the City of Sonora is hereby directed to assess, extend and enter upon the tax rolls of the City of Sonora, Texas, for the current taxable year, the amount and rates herein levied, and to keep a correct account of same, and when so collected, the same to be desposited in the depository of the City of Sonora, to be distributed in accordance with this ordiance.

SECTION IV.

All ordinaces shall become effective on the date of its passage by the City Council of the City of Sonora.

READ, ADOPTED AND APPROVED by the affirmative vote of a majority of the City Council of the City of Sonora, Texas at a regular meeting held at Sonora City Hall on the 16 day of August 1983, at which meeting a quorum was present.

Billy Gosney
Mayor

Attest:
Becky Covington
City Secretary

Lost

Lost-Small grey poodle type dog. Has yellow tag hanging from collar and answers to the name of Bridget. Please call 387-5570

The incidences of passing around colds and flu germs among family members are believed to be fewer with families using dishwashers. Higher water temperatures and strong detergents get the credit.

RICE CASSEROLE ITALIANO

- 1 quart sliced zucchini (about 1 pound) or 2 packages (10 ounces *each*) frozen zucchini
- 1 pound lean ground beef
- 1 cup chopped onions
- 1 clove garlic, crushed
- 1 teaspoon *each* salt and basil
- 1/2 teaspoon ground oregano
- 1/4 teaspoon ground black pepper
- 2 cups cooked brown rice
- 1 can (8 ounces) tomato sauce
- 1 cup cottage cheese
- 1 egg, slightly beaten
- 1 cup grated Cheddar cheese

Cook zucchini in boiling salted water about 2 to 3 minutes. Drain well. Cook meat, onions, garlic and seasonings in a large skillet until onions are transparent. Stir in rice and tomato sauce. Blend cottage cheese and egg. Arrange half of zucchini slices in a buttered shallow 2-quart casserole. Spoon on meat mixture. Spread cottage cheese over meat mixture. Top with remaining zucchini and sprinkle with Cheddar cheese. Bake at 350 degrees for 20 to 25 minutes or until hot and bubbly. Makes 6 servings.

The Kountry Kousins Square Dance Club of Eldorado will be sponsoring Square Dance Lessons Beginning September 13th, 7:00 p.m. at the Memorial Building. We will be having a covered dish supper with our first free lesson so everyone interested please come and bring a friend. If you have any questions please call Jerry or Gloria Swift at 853-3352 or Jerry or Nell Edmiston at 853-2394.

Card of Thanks

The family of Rafela Martinez wish to express their thanks for flowers, prayers and food. Thank out-of-town people from Del Rio, San Angelo, Winters and Grand Prairie.

An important part of your electric bill:

You.

In the past, your electric bill was "just another item" in your family budget, but that is not true anymore. However, as a consumer of electricity, YOU can make a difference. How you use electricity is an individual matter — it is in your hands — and in your pocketbook.

At West Texas Utilities we are working to provide dependable service at reasonable rates. Unfortunately, the costs of producing and supplying electricity have soared. WTU has had no choice but to raise its rates to pay for the high cost of fuel to generate electricity.

We know you are concerned about your electric bill, and we suggest a few things that can help you save money and energy.

Make it a family project to learn more about conservation. Keep your thermostat set at 78 degrees or higher in the summer and 68 degrees or lower in the winter. Operate your washing machine, dryer and dishwasher only with full loads. Turn off the television and lights when you leave a room. And check around your house to find other energy-saving measures that can mean dollar savings on your electric bill.

WTU is working to ensure an adequate supply of electrical power for YOU and all of our customers, while trying to assure the most value for your energy dollars now and in the future.
