

Farm Safety Week Set

The week of July 25-31 is Farm Safety Week -- an annual nationwide observance launched in 1944 to help reduce accident losses impairing wartime farm production. A samp-

ling of the 169 accidental farm deaths recorded by the Texas Farm Bureau for 1976 indicates that accident prevention efforts are still timely and necessary today.

In Anderson County, for instance, a man fishing from the bank, fell into a stock pond and drowned. A house fire in Leon County resulted in a woman's death when she was cleaning

with gasoline. In Willacy, a tractor rolled over into a drainage ditch killing its driver. And, more than half of the 34 firearms deaths were attributed to guns accidentally discharging while being unloaded or carried.

Built around the theme, "Safety is a Good Investment," this year's Farm Safety Week activities emphasize the wisdom of making a personal and financial investment in safety to help cut the human and economic costs of accidents.

"Farm and ranch people can achieve much by investing a little time and personal effort into adopting safer ways of

working, driving and playing," notes Joe L. Smetana, Texas Safety Association Vice President for Farm and Ranch. "And that costs nothing!" Extra protection can be had, he says, with a modest financial investment in: safety, training, personal protective equipment (goggles, safety shoes, bump caps), tractor overturn protection, smoke detectors, fire extinguishers and other safety devices. Further investment in prompt repair or replacement of faulty or worn parts and equipment and in seeking well-designed, quality products also can add to accident-free farm operation.

MELISSA SNITKER

Cook of the Week

"Someday these will be mine," claims 14-year-old Melissa Snitker as she proudly gazes at a set of antique yellow dishes that once belonged to her great-grandmother.

Daughter of Mr. and Mrs. Curtis Snitker, our young Cook of the Week will include homemaking in her schedule when she enrolls as a freshman at Hart High School this fall.

Cooking is a hobby for the young lady who has a 15-year-old brother, Glen, and 18-year-old brother, Jody. She

also likes to sew and play the piano. She enjoys reading, especially mysteries.

She enjoys band and has played the flute since beginning in band three years ago.

A toy fox terrier, "Tom Tinker," is special at the Snitker household.

Right now, Melissa thinks she would like to become a veterinarian or registered nurse.

Faithful in her church attendance at First Baptist Church, Melissa has helped

with Vacation Bible School in the nursery and with the boys and girls in grades one through four.

What you pay to lease a Zimmatic® depends on the price of corn.

Here's another first from Lindsay... the Zimmatic Corn Crop Lease. Instead of a fixed lease payment, you pay for your Zimmatic based on the price of corn. If corn prices plunge, so does your lease payment.

By offering this new lease, Lindsay is sharing some of the same risks that you face every year. Corn prices fluctuate, which affects your profit picture. That's why Lindsay developed the exclusive Zimmatic Corn Crop Lease... a revolutionary program that tailors your lease payments to the changing price of corn, from one year to the next.

The Zimmatic Corn Crop Lease is designed so you can lease a Zimmatic without using your normal operating credit sources... your Zimmatic pays its own way by turning on your production.

The number of Zimmatics available under this program and the time period of this offer are

limited so come in soon and get all the details on the Corn Crop Lease and other exclusive leasing programs available only through Lindsay Credit Corp.

Take advantage of a program that has never been offered in the industry before... it's the lease we can do for you.
