Clyde Bray of Muleshoe called by the office this morning and showed me a letter from the Texas Research Foundation in which that organization asserted an interest in establishing a High Plains Field Station in this general location described by them as the Muleshoe-Lubbock-Plainview region.

Upon investigation, I find this foundation to be operating in the specific field of intensive agricultural research and development, soil analysis, more adaptable and profitable crops; production methods and marketing problems.

Their station for central Texas is located at Renner and other stations in progress are Taft on the Gulf coast, Merkel serving the Abilene area and the proposed one for this region.

The estimated operational cost for the next five years is \$50,000.00. According to a letter signed by C. L. Lundell, director of the Foundation, it is set out that the Southwestern Public Service Co. has agreed to finance \$10,000.00 of this amount payable in 5 annual installments of \$2,000.00 each.

At the rate our Bensonized agriculture is dragging its posterior it is certainly high time that some foundation applied a hot stick to revitalize it. This looks like a step in the right direction. Mr. Bray will meet with the Earth Lions club next Tuesday to revitalize further. Give him your ear.

Over at city hall there is never a dull moment. If you want to learn about people and their peculiarities, you can do it fast around a city hall. There, little men can become big in a few minutes, and vice versa.

However, by clock-like cooperation with the state engineer and contractor, we will see all curb and gutter work finished by the end of next week. And by the same token, we are pleased to tell you that the State engineer has forwarded a request to the Department at Austin that Earth be included in the June bidding.

If successful, it simply means that very little time will be consumed between the curb and gutter job and the paving. This, we hope, means that all street work will be over before the fall season begins.

Through well-oiled teamwork managed by commissioners Welch and Kelley, the dump ground is now fenced and the gates are locked. Farmers in the trade area are now permitted to use the ground every Thursday between the hours of 8 a. m. and 5 p. m.

An attendant will be on duty to admit those desiring to dump tin can garbage. Please do not bring large items like car bodies, broken concrete and dead animals. They will be refused. No charge will be made for this service.

Commissioner Blackwell, Mr. Griffin and I went to Lubbock Saturday and with the assistance of the city auditor set up a tentative budget for the next fiscal year. When it is approved by the entire commission, we will have your city government operating on a more business like basis. Members you are cordially invited to discuss any phase of your city government with any member of the commission.

NOTICE

Beginning today (Thursday) and every Thursday from now until notified otherwise, the people of the Earth trade area are permitted to bring tin can garbage to the Earth city dump ground for disposal.

The ground is fenced and the gates are locked but an attendant will be present on each Thursday between the hours of 8 a. m. and 5 p. m. to admit deposits of ordinary garbage. Large objects like car bodies, dead animals and broken concrete will be refused. This service is free.

Pony League Holds Workout Saturday Evening

Prospective team members of the Earth Pony League sponsored by "Brighten The Corner" Furniture met Saturday afternoon for a workout session at the new practice ball diamond just east of Kimbell Gin.

Approximately 18 boys were present for the workouts.

The boys will be coached by Cletis Clayton and Ed Haley. Officials of the Earth Community Recreation Association state that it hoped the Ponies will begin their season play on May 26, the same day the Little Leaguers are to open play.

The Ponies, composed of boys 13, 14, 15, will have a full summer schedule of games with out-of-town teams.

Band Boosters Ask Sen. Johnson To Speak Here

The Band Boosters organization met in a called meeting at the local school last Thursday night to discuss plans for a candidate speaking rally and banquet to be held about July 1st.

A right letter was sent to Sen. Lyndon Johnson, signed by the Mayors of Earth and Springlake, to inquire if he would be anywhere in this vicinity at that time and be available for the speaking. No answer had been received at press time.

About fifteen were present for the meeting and refreshments of cookies and Coke were served.

Monday morning brought in the buzzing machines of a construction crew to end many months and years of silent planning and dreaming of the day when Highway 70 would be curbed and drained and dressed up like it is through most other towns.

By the time you read this, work will be about 40 per cent complete on all curb and gutter construction in Earth.

Ken Hancock, foreman for Kerr and Middleton, local contractors, state that he hopes to finish all curb and gutter work by the end of next week.

Contrary to general belief, Mr. Hancock states that his company will not construct the island curbing in the center of the highway. That will be a part of the paving contract to be let later.

It is rumored that the regional office at Lubbock has recommended that the Earth paving job be included in the June bidding. If that is true, it will serve to expedite the entire job and get it completed sooner than the date first set.

Gray, Wages Purchase B & C Service Station

James E. Gray and James R. Wages are the new owners of the service station located directly east of Starkey's Steak House.

The station, formerly owned by Carlis Bills and R. D. Usery and operated under the name of C & B Service Station, is now operating under the name of James' Service Station. Wages and Gray began managing of the station Sunday.

STATE JUDGES TOUR HOMES IN PLEASANT VALLEY AREA

The Pleasant Valley community was all in an uproar last Wednesday when it was announced that they had been placed among the top five communities to compete for the State title in the Texas Rural Neighborhood Progress Contest.

State judges began a tour and inspection of the farms and homes in the community Tuesday morning at 10 o'clock. The group of judges were headed by C. T. Richardson, Editor of the Texas Longhorn column in the Farmer-Stockman magazine. The mentioned magazine is sponsor of the contest.

Judges were conducted to four of the area homes to view the interior as well as the exterior. The Gerald Allison home was visited for general interest. Mrs. Bonnie Haber's home was viewed with special emphasis put on the fences, walks, drives, and yard display. Also the new registered Angus which was purchased during the contest. A tour was made of the Russell Haber home which has just undergone a complete remodeling job. The George Wuerflein home featured the comprehensive facilities for storing the year's supply of food.

A number of farms were visited where special practice was put on the farm such as seeing the abundant yield of crops following the plowing up of alfalfa fields. Also shown was the contouring and leveling to conserve water and soil.

The E. K. Angeley farm was

visited with special emphasis placed on the farm shop.

An especially interesting stop in the tour was made at the small, new home of the Alton Taylor's. This house was built almost entirely by Alton's wife and his father while he was serving Uncle Sam overseas.

A visit in general was made at the Harold and Oscar Allison homes where the cattle feeding activity was viewed and a stop at Prof. Shelby's home revealed his large laying hens.

Many other farms, homes, and places too numerous to mention were included in the tour.

Immediately following the tour a meal was served at the newly constructed Pleasant Valley Community Building. The meal was prepared and served by the ladies of the community.

During the afternoon, various reports were made on P-TA participation, 4-H work, home improvement, farm crops, and other community projects. Many reports were made in regard to types of projects.

The Muleshoe High School Band, directed by Norvil Howell, furnished music for the program and featured the nine members of the band who live in the P. V. Community.

Mrs. Marvin Ellis, from Ellis Jewelry and Floral of Earth presented each lady speaker with a corsage and was asked to pin these on.

BERKELEY DEEPWELL PUMPS FOR EVERY PURPOSE

DEEPWELL JET TYPE WATER SYSTEMS
5 to 25 gallons per minute, 1/4 to 5 H.P., depths to 300 ft. Write for Bulletins 505, 506 and 510.

BERKELEY CRUSADER DEEPWELL TURBINES
for 4 in. inside diameter wells and larger. 25 to 50 G.P.M., 1 1/2 to 7 1/2 H.P., depths to 500 ft. At a setting of 100 ft., these rugged pumping units incorporate 60 less parts than a turbine of conventional design. Operating at 1750 R.P.M., the Crusader is subjected to considerably less wear than any competitive high speed turbine. Incorporating the Berkeley Combination feature, the Crusader maintains pressure for household use while flood irrigating. For more detailed information, write for copy of Bulletin 802.

BERKELEY COMBINATION DEEPWELL TURBINES
50 to 250 G.P.M., 1 1/2 to 10 H.P., depths to 500 ft. These combination units are the equivalent of two pumps. The booster pump in the head provides ample high pressure water for a pressure system, while the turbine supplies a steady high capacity stream for irrigation. Write for Bulletin 801.

DEEPWELL IRRIGATION TURBINES
for high capacity pumping, depths 500 feet, 200 G.P.M. and up. Available oil or water lubricated, enclosed or semi-open impellers. Illustrated at the left is a Model 1403HM, capable of capacities in excess of 2500 G.P.M. Write today for Bulletin 811.

WORRY-FREE WATER HEATING

of course, it's Electric!

Flameless, fumeless, matchless — for safety, electric water heating has no equal. Whether you're planning a vacation — or an evening out — you can plan to be free of worry while you're away when your water heater is electric.

There's no equal to the modern electric water heater's speed, either. You can stay in hot water all day — even if you wash a load of clothes every hour. Want worry-free water heating that's fast, too? Then you want electric water heating.

INSTALL YOUR ELECTRIC WATER HEATER ANYWHERE

The electric water heater — table-top or round — fits where you want it because it needs no flues, no vents, no special "out-of-the-way" position. Just set it and forget it.

Dear Mr. Farmer:

Thomas F. Fulbright purchased WHITE'S CONCRETE PIPE in Littlefield and Muleshoe, Texas, and took charge of the complete operation April 1, 1956. I have agreed to remain with the firm in an advisory capacity and will fulfill all obligations of WHITE'S CONCRETE PIPE.

I have been in the concrete pipe business for the past quarter century and am well known throughout the irrigated area of the Southwest. I personally recommend THOMAS F. FULBRIGHT of WHITE PIPE COMPANY, whom I have known for sometime. We both stand ready to back up any concrete pipe work that we have done in the past or any we may do in the future.

WHITE PIPE COMPANY employs the same high type, well qualified personnel that have served you in the past. Fair dealing and good service has been the goal of both Fulbright and myself in the past, and this will continue in the future. YOU MAY BE SURE OF THE BEST MATERIAL AND WORKMANSHIP IN YOUR DEALINGS WITH WHITE PIPE COMPANY OF LITTLEFIELD and MULESHOE.

Yours truly,

Film Of John Wesley To Be Shown Saturday

The motion picture "John Wesley" is scheduled to be shown at Earth First Methodist on Saturday evening, May 19 at 8 p. m.

This picture brings to the screen for the first time the dynamic and colorful 18th century evangelist and educator.

John Wesley's miraculous rescue from a burning house at the age of five, at the beginning of the film, forecasts the dramatic and eventful life which unfolds in this story of a man of slight stature but of impelling influence upon his contemporaries and upon history.

Wesley's appeal to the common man, his establishment of schools, lay preaching and societies—finally his sending of supervisors on the movement in the new world after the American Revolution—all these make the film one which will be long remembered.

Rev. Eugene Matthews, pastor of the church, explained that while this film is being released only to Methodist Churches during the initial period, the public is invited to see the picture.

Mr. and Mrs. Bill Beasley visited with his mother in Quannab Sunday.

Visiting with relatives in Amherst Sunday were Mr. and Mrs. Pat Montgomery, Mr. and Mrs. Douglas Black and Mr. and Mrs. David Johnson and sons.

Lloyd Ray Goodwin, a student at Texas Tech, spent the past home of Mrs. Lura Kelley were week end in the home of his Mr. and Mrs. Earl Miller and parents, Mr. and Mrs. Clyde Mr and Mrs. Fred Nix of Lubbock.
