Thursday update

Mexico To Sell US Gas

MEXICO CITY (AP) — Mexico will help the United States fight the energy crisis by selling 40 million cubic feet of gas a day to its northern neighbor at current interstate prices, American embassy sources said today.

The sources said Mexico will start the gas flowing to the U.S. Monday or Tuesday and will also provide 600,000 barrels of crude oil daily.

Eddie's Widow

MIAMI (AP) — The 89-year-old widow of World War I flying ace Eddie Rickenbacker shot herself to death Wednesday night, police report. Authorities said she had been depressed about her failing health.

Adelaide Frost Durant Rickenbacker died about two hours after a niece heard a shot in her bedroom at the Rickenbacker home on Key Biscayne.

She and Capt. Eddie Rickenbacker had married in 1922.

Bus Crash Injures 19

BIG SPRING, Tex. (AP) — A cross-country bus and a car collided on Interstate 20 today and state police said 19 persons were injured, three seriously.

Officers said the driver of the car, Peggy Wade Carey, 22, of Coahoma, Tex., apparently dozed at the wheel and it veered across the road's median into the path of the eastbound Continental Trailways Bus Co. vehicle one mile east of here about 1:30 a.m.

The crash ripped off the fore part of the bus in front of its operator. Paul Jackson, a former Big Spring resident said to now be a Missouri resident. He suffered a leg injury.

State troopers said 16 persons in the bus and three in the car suffered injuries, but all except three were dismissed after being given first aid.

Hospital attendants listed Miss Carey as in poor condition.

Others admitted as patients are Carla Doris Raney, 24, of Big Spring, who was riding in the car, and Louise Jenkins, 44, of Los Angeles, a bus passenger.

ANYONE FOR COOKIES?—Reva Gonzales, 6-year-old member of Brownie Troop 302, practices knocking on doors in preparation for the annual Girl Scout Cookie Sale, which begins officially at 4 p.m. Friday. Reva, daughter of Mr. and Mrs. Ruben Gonzales, 1912 Avenue R, is one of dozens of girls who will be selling the popular cookies in Snyder. And this year, the cookies come in five flavors — peanut butter sandwiches, vanilla cream, thin mint, shortbread and peanut butter patties.

House Nixes Two Figures

By LEE JONES
Associated Press Writer

AUSTIN, Tex. (AP)—In the new legislature's first skirmish over school finance, the House today defeated a resolution that would have used two sets of property value figures to gauge the impact of various proposals.

The vote was 53 for and 85 against the resolution by Rep. Tom Massey, D-San Angelo, chairman of the House Education Committee.

Massey proposed to bind both houses to using only the property value figures produced by the Governor's Office of Educational Resources. One set would be market value only. The other would be smaller amounts based on valuation of farm and ranch land on the basis of their agricultural productivity.

"Overall, these are the best set of figures that have been produced," Massey said.

Earlier, the House had, in effect, rejected an attempt to use a single set of figures-those producing the best local tax result for each district, whether market value or agricultural value.

Agricultural use figures would tend to produce a smaller requirement on rural taxpayers to finance their schools than market value.

Massey said his resolution would keep House and Senate members from "comparing cabbages with cantaloupes" when they analyze various school finance proposals.

Heart Fund Drive Is Set

The annual Heart Fund Drive will be conducted during this month, with some divisions due to launch efforts within a few days, said Joe Sentell, chairman of the local Heart Association.

The Heart Fund drive is scheduled to conclude with the annual Heart Sunday observance on Feb. 27. Jack Gorman is the Heart Sunday chairman for the local association.

Mrs. Sylvia Voelkel is the general campaign chairman for the drive. Volunteer workers are needed in all divisions, and anyone who can help with the drive is urged to contact Mrs. Voelkel or Gorman, Sentell said.

Mrs. Lida Rhoades has accepted chairmanship of the rural drive, and Mrs. F.G. Sears has accepted the position of advance gifts chairman. Sentell said he hoped to announce a business district campaign chairman soon.

THE SNYDER DAILY NEWS

VOL. 28 NO. 235 SNYDER, TEXAS (79549) THU., FEB. 3, 1977 2 SECTIONS 14 PAGES 15¢

The SDN Column

Picked up from the mail:

Texas' only Indian reservation is counting on a push by the federal government to increase its visitor traffic. Roland A. Poncho, director of tourist relations for the Alabama-Coushatta Indian Reservation in Southeast Texas, said commitment of a million dollars and appointment of an assistant secretary strictly for tourism is "great news for us and the many potential travelers in Texas and throughout the United States." He noted that Texas has already surpassed New York and is now ranked third behind Florida and California in attracting visitors.

"We are proud of our facilities which we have built through a team effort of the state, federal and tribe initiative," declared Poncho.

A lot of people are surprised when they hear that Texas has an Indian reservation. It is authentic in every respect and there is a bona fide chief—Chief Fulton Battise.

★ ★ ★

When is the last time you listened to silence?

The Texas Department of Health Resources asked that question. If you suffer frequently with a throbbing headache, frayed nerves, or even a flareup of a peptic ulcer, you might blame it on noise pollution where you work, in your neighborhood or even in your home. Noise, they say, not silence, seems to be the trademark of our times.

★ ★ ★

The U.S. Chamber of Commerce reports that for a time it appeared that the love life of antelopes would be a stumbling block to a proposed 136-mile rail line opening up rich coal reserves in Wyoming's Powder River Basin. The companies wanting to build the line compiled 1,000 pages of detailed data for an environmental impact statement, but the government took exceptions to fencing in the line, contending this would interfere with reproduction of the antelopes. The builders planned to put tunnels at regular intervals in the interest of antelope romance.

Ultimately, however, they persuaded the government that a similar arrangement only 30 or 40 miles away on a line operating since 1890 had not noticeably affected the fruitful love life of antelopes on the prairie. And now the line is being built. Love overcomes all obstacles.—WACIL McNAIR.

ON CARTER PROGRAM

Congress Moves Ahead

WASHINGTON (AP)—With President Carter's call for sacrifice and cooperation fresh in mind, Congress moved ahead today with consideration of the new administration's $31 billion proposals to create jobs and cut taxes.

Carter drew mixed reviews for his economic stimulus program from Arthur F. Burns, chairman of the Federal Reserve Board, who told the House Banking Committee that "our nation needs to make progress during 1977, in creating more jobs and in expanding our industrial capacity."

But Burns called the Carter proposals "an inefficient way to stimulate the economy." The Reserve Board chairman was particularly critical of the proposed $50 rebate on 1976 taxes. He called it unnecessary and added, "The Treasury doesn't have this money. It's not a good habit ... for the country to get into."

Nonetheless, Burns said the Carter program was "prudent" considering the advice the new President was getting.

Other congressional committees met to question Treasurery Secretary W. Michael Blumenthal, Labor Secretary F. Ray Marshall, Commerce Secretary Juanita Kreps and other top administration officials about the details and impact of the economic stimulus program sent to Congress by Carter.

His presidency barely two weeks old, Carter addressed the nation Wednesday night in a setting that evoked memories of Franklin D. Roosevelt and his radio fireside chats during the Depression and

See Carter, Page 2A

Munden's Manager Fatally Stricken

Hank Brown, 62, manager of Munden's Discount Center, collapsed and died at the store this morning.

His body was found by employes of the store slumped behind a counter in the sporting goods section at about 10:55 a.m. He had a telephone clutched in his hand and apparently was stricken as he was making a call.

Justice of the Peace Bobby Goodwin made a preliminary coroner's ruling of death due to natural causes. It was reported that Mr. Brown had not been feeling well and that he had complained of chest pains.

The body was taken to Bell-Seale Funeral Home where funeral arrangements were to be made. Mr. Brown is survived by his wife, Clydean, of the home; a son, Richard Brown of Snyder; his father, Andy Brown of Sweetwater, and three grandchildren.

Mixed Drink Tax Rebates Are Reported

State Comptroller Bob Bullock has announced that checks for $759.90 for Snyder and $921.55 for Scurry County have been mailed for their share of mixed drink tax collections for the October-December quarter of 1976.

There is a 10 per cent levy on all gross receipts from the sale of mixed drinks and the tax is collected by the Alcoholic Beverage Commission. Taxes in Snyder and Scurry County came from private clubs.

Other area rebates of mixed drink tax collections for the quarter include the City of Sweetwater $788.58 and Nolan County $1,410.06; Dawson County, $205.14; Brownfield $789.95 and Terry County $1,175.75; Colorado City, $268.80 and Mithcell County, $317.09; Rotan, $50.23 and Fisher County, $50.23; Big Spring $1,109.55 and Howard County, $1,460.75.

SNYDER TEMPERATURES: High Wednesday, 52 degrees; low, 33 degrees; reading at 7 a.m. today, 34 degrees; precipitation, none. Total precipitation for 1977 to date, .58.

West Texas: Fair tonight and Friday. Warmer Friday. Low tonight mid 20s north and mountains to lower 30s south. High Friday mid 50s to mid 60s.

AM Permit Has State Approval

The Texas Water Quality Board, meeting this morning in Austin, approved American Magnesium's surface water permit application for operation in Scurry County.

Ray Engelhardt, manager of the American Magnesium plant in Snyder, said the board approved the application without opposition. The surface water permit deals with storm water runoff and water released by the plant into the water shed of the state.

The company will sample its own water discharge to determine content, according to the terms of the permit. The permit also calls for the plant to reline one brine pond by May 1 and the company is in agreement to do it.

Englehardt said the plans for the brine pit have been

See Permit, Page 2A

Resolution For Amtrak On Agenda

Snyder Chamber of Commerce directors will discuss plans for several events and consider a resolution backing efforts to get Amtrak passenger train service here at their meeting tonight.

The meeting is set for 7:30 p.m. in the conference room of the chamber office building.

Reports the past week that the Amtrak project may be revived have stimulated new interest here, chamber officials said, and the local chamber has indicated that it will join the Lubbock chamber and others in supporting it.

Industrial development, housing and local participation in the West Texas Chamber of Commerce Washington reception on March 7 are among other items on tonight's agenda.

INSPECTION TOUR—Members of the Board of Trustees of the Snyder Independent School District examined this morning a new reading program that has been implemented this semester at Northeast Elementary School. Sitting in on one of the classes are Mrs. Vera McSpadden, president of the board, and Mrs. Geraldine Parker, principal of Northeast. (SDN Staff Photo)

Hill May Run For Governor

PALESTINE, Tex. (AP) —Texas Atty. Gen. John Hill says he is seriously considering running for governor and already has someone on his political payroll to check his prospects.

Hill told reporters in Palestine Wednesday, "If I run for governor it will be next time. I now have a person on my political payroll probing deeply the prospects."

In a speech to a Palestine Rotary Club, Hill said Texas should win the Howard Hughes will case.

"I believe Mr. Hughes meant for Texas to be his domicile and it is my opinion that none of the existing wills are valid," he said.

Hill also read a telegram he sent to President Jimmy Carter about the gas crisis.

He said it is essential that consumers in other states pay as much as Texans for gas, that no Texas workers be laid off because of lack of gas and that diversion of gas to other states cause no increase in the price of gas in Texas.

He said in his telegram he felt if other states paid the market price for gas during the past three years some of the crisis might have been avoided.

Hill also spoke about the narcotics problem on the Texas border and said he hoped there soon would be a consolidation of local, state and national anti-drug efforts in all of the border states.

He added that poppy fields in Mexico must be eradicated and hoped the meeting soon between President Carter and Mexican President Jose Lopez Portillo would result in action on this.

TAX HELP—Tom Soto, an officer of the Abilene branch of the State Comptroller's office, is shown assisting Mrs. Ruth Nelson in filling out her tax form. Soto was in the jury room of the county court this morning at the courthouse helping Snyderites with their tax problems. (SDN Staff Photo)

Area Escapes New Freeze

The Snyder area apparently had escaped the brunt of the latest cold wave moving through the state as the temperature levelled off at 33 degrees this morning.

Although cloudy weather prevailed overnight, no moisture fell here. Snow whitened most of the Texas Panhandle and rain fell in other areas. About an inch of snow was reported across the Panhandle.

Forecasts called for skies to begin clearing from west to east and rains were expected to end over all but extreme East Texas.

Theft Cases Under Probe

Police are investigating the reported theft of $195 from the manager's office of the College Park Apartments.

Mrs. Quentin Pool, the manager of the apartment complex, told officers she had placed the money in a cash box and had returned several hours later to discover that the money was gone. The incident was reported to police officers about 9:40 p.m. Wednesday.

Charles Wilson of 702 North College Avenue, told officers that a bicycle had been taken from the garage of his home. The bicycle was valued at $80, the man told policemen. The theft is believed to have occurred Tuesday.

Death Rowers Can Not Wed

TALLAHASSEE, Fla. (AP)—Two convicted murderers who requested a Death Row wedding to make their 21-month-old daughter legitimate have been turned down by a prison official who says it would "serve no useful purpose."

Louie Wainwright, secretary of the Florida Department of Prisoner Rehabilitation, said Wednesday that he's not sure the inmates are sincere, that the wedding would cost too much, and it might endanger the public and that the girl's illegitimacy could be solved by adoption after parents are executed.

PERMIT

(Continued from page 1)

approved by the state board's engineering staff and the construction will be observed by the Water Quality Control Board office in Lubbock.

The Austin hearing was over in less than one hour, and there was no testimony in opposition to the permit.

The hearing was the first of two scheduled this month on permits to bring the company into compliance with state regulations. The next hearing will be held Feb. 25 in Lubbock and will deal with the company's plans for water injection wells.

Cotton

NEW YORK (AP) — Cotton futures were lower at midday.

Futures prices traded in a narrow range as the market lacked any fresh incentive, brokers said.

The average price for strict low middling 1 1/16 inch spot cotton advanced 95 points to 71.05 cents a pound Wednesday for the 10 leading markets according to the New York Cotton Exchange.

Midday prices were unchanged to 50 cents a bale lower than the previous close. March 74.30, May 74.01 and July 73.95.

No Smoking In Meetings

OLYMPIA, Wash. (AP) —Smoke-filled rooms may become a thing of the past at the Washington statehouse.

State representatives, in adopting rules for the legislative session, approved an amendment Wednesday that bans smoking during committee meetings.

The rules had required only that "No Smoking" signs be posted in committee rooms, but left it up to chairmen whether to enforce it.

CARTER

(Continued from Page 1)

World War II.

The President wore a beige cardigan sweater and sat in front of a fireplace in the White House library. Speaking softly, his tone relaxed, Carter mixed promises of decisive action on the nation's most pressing problems with calls for sacrifice as the only path to long-range solutions.

And he promised that government officials would join private citizens giving up some comforts long taken for granted.

Burns, whose positions are influential among more conservative members of Congress, did not refer directly to the Carter proposals although his statement supported the principles behind the program.

However, Burns also warned that any long-term economic program must be directed toward combatting inflation.

"The outlook for prices is thus a worrisome matter and it must be given careful attention," the Reserve Board chairman said.

In his fireside chat, Carter made clear his intention to cultivate direct communication with the American people.

Tenneco Reveals Record Earnings

HOUSTON (AP) — Tenneco Inc. reported today record 1976 earnings of $383.5 million or $4.33 a share.

Year earlier earnings of $342.9 million were equivalent to $4.15 a share.

Wilton E. Scott, chairman and president, said all of Tenneco's major businesses had increased revenues and income.

US Cattlemen Reduce Herds

WASHINGTON (AP) — Fed up with sagging market prices caused by a record glut of beef, cattlemen have trimmed their herds the sharpest in 28 years, according to the Agriculture Department.

As of Jan. 1, the department's Crop Reporting Board said Wednesday, the U.S. cattle inventory was 122.9 million head, down 4 per cent from about 128 million a year ago.

"This is the sharpest percentage decline since 1948 and represents the second consecutive year of herd reduction in the current cattle cycle," the report said.

The inventory, including dairy as well as beef cattle, grew steadily since Jan. 1, 1967, when the count was 108.8 million head. A record of 131.8 million cattle was reached two years ago. By then producers were in trouble, particularly feed lot operators and farmers who had depended on relatively cheap grain to fatten their stock. Prices of corn and other grain began rising steadily in 1972 as export demands took much of what previously had been available to cattle and other livestock.

The only way for producers to cut their losses was to send record numbers of cattle, including calves and females from breeding herds, to slaughter.

That produced record beef supplies for consumers and, compared with earlier record retail prices, has meant relative bargains at supermarkets since last summer.

The cutbacks have helped improve cattle prices somewhat, but there are now more hogs and poultry to compete with beef, and USDA experts say it will be months before many cattle producers are able to operate in the black.

The report said the Jan. 1 inventory included 52.4 million head of cows and heifers that have calved, a 4 per cent reduction from a year ago.

Of those, 41.4 million were beef cows, down 5 per cent from Jan. 1, 1976. Milk cows at 11 million head, were down 1 per cent.

The 1976 calf crop was estimated at 47.4 million head, a decline of 6 per cent from 1975, the report said.

BIRTHS

Mr. and Mrs. Randy Kubena, of Hermleigh, are the parents of an 8 lb. 2 oz. girl, born at 1:13 p.m. Feb. 2 in Malone-Hogan Hospital in Big Spring. She has been named Jiletta Leanne.

Bernice Bede Osol

For Friday, Feb. 4, 1977

ARIES (March 21-April 19) You are generally lucky today in love, friendship or getting along with people, but money matters aren't included in this good fortune.

TAURUS (April 20-May 20) You're sitting on top of the world in most endeavors today, but the flaw is you don't capitalize on your good fortune. You take too much for granted.

GEMINI (May 21-June 20) Joint ventures bring out the best in your ingenuity today, but avoid boasting about your prowess. Let others sing your praises.

CANCER (June 21-July 22) In financial dealings today, let the other party set the price. If you call the shots, you could realize less than he would have offered.

LEO (July 23-Aug. 22) The greatest rewards for you today come from what you do for others. Put your interests last.

VIRGO (Aug. 23-Sept. 22) Those who care about you are doing quite a bit in your behalf today. You may not recognize this now, but you'll appreciate it later.

LIBRA (Sept. 23-Oct. 23) It's essential to observe the line of demarcation between social and business situations. Like water and oil, they won't mix well today.

SCORPIO (Oct. 24-Nov. 22) You can readily accomplish what you put your mind to today, provided you don't rely too heavily on others. Allies will be little more than dead weight.

SAGITTARIUS (Nov. 23-Dec. 21) Heed your own best judgment in matters having to do with your work or career today. Seeking diverse opinions will only mess up your schedule.

CAPRICORN (Dec. 22-Jan. 19) You're much sharper in business than usual today, as long as you adhere to your normally prudent instincts.

AQUARIUS (Jan. 20-Feb. 19) If you're negotiating an agreement today be fair, but don't be foolish. If you make a concession, make sure the other party concedes equally.

PISCES (Feb. 20-March 20) You have the ear of your superiors today and you can easily advance your own cause. Don't belabor your point, however, or you might lose out.

Your Birthday

Feb. 4, 1977

Overall conditions look extremely promising for you this coming year. However, your gains will not come about in an expected fashion.

(Are you an Aquarius? Bernice Osol has written a special Astro-Graph Letter for you. For your copy send 50 cents and a self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, New York, N.Y. 10019. Be sure to ask for Aquarius Volume 4.)

YOUR NEIGHBOR'S KITCHEN

Bread-Making Is Hobby Of Mrs. J. E. Sorrells

Making bread is a hobby of Mrs. J.E. Sorrells, who resides with her husband in the Knapp Community. She enjoys baking bread made by using ingredients in the natural food group, and always has some available for her family and many friends in Scurry County.

Although Mrs. Sorrells stated bread making was her favorite past time she enjoys making jelly, pickles, and canning. Below are basic recipes for bread and dill pickles she shares with readers of Snyder Daily News.

FINISHING ONE STEP—Mrs. Sorrells has finished kneading the bread dough and is ready to place in a warm place to rise.

MRS. SORRELS...enjoys canning.

BREAD

(Makes 3 loaves)

1¼ quart lukewarm water
1 teaspoon salt
2 squares yeast
7-8 cups flour

Dissolve yeast and salt in the lukewarm water, then add the flour. Mix well. Next add (to suit taste) Heartland Cereal, hulled sunflower seed and hulled pumpkin seed.

Hint: May use Rye flour occasionally.

Let rise double in size, or more, punch down and let rise again, then place dough in greased loaf pans, let rise for third time. When dough has doubled in size place in preheated oven 350 degrees and cook about 20 to 25 minutes.

Hint: Oven with the light on and door ajar is a good place to let dough rise.

DILL PICKLES

Place 2 heads of fresh (Medium size) dill in bottom of sterilized quart jars. Pack cucumbers on top of the dill and add 1 heaping tablespoon of pure salt (ice cream or stock salt). Fill jar with cold water. Seal jar and place in container for water bath. Place jars in pan with enough water to let boil 20 or 30 minutes or until the cucumbers turn color. Let set six weeks or more for better flavored pickles.

Clothes Insulate Against Cold

COLLEGE STATION—Wearing the right amount and type of clothes is the key to keeping warm--but how much is enough?

Mrs. Becky Culp, area clothing specialist, points out that if a woman replaces a skirt with pants, she will feel 1.5 degrees F. warmer. And wearing a full slip with a dress adds 1 degree F, while a light long-sleeves sweater adds 1.7 degrees F. and a heavy long-sleeves sweater adds 3.7 degrees F.

This specialist is with the Texas Agricultural Extension Service, The Texas A&M University System.

"If a man replaces a summer-weight jacket with a winter-weight one, he will feel 2.5 degrees F. warmer. Also, replacing a short-sleeve shirt with a long-sleeve one adds eight-tenths of a degree.

"Accessories even add extra warmth. If a woman wears nylon hose, she adds one-tenth of a degree, while wearing enclosed shoes rather than sandals adds two-tenths of a degree. For men, a necktie adds two-tenths of a degree, and replacing ankle-length socks with knee-length ones adds six-tenths of a degree," she explained.

Natural fiber such as cotton and wool keep the body warmer than synthetics, because they allow perspiration to evaporate as vapor. Snythetics tend to trap prsspiration, requiring the body to work overtime to evaporate the accumulated moisture, the specialist said.

"Clothing worn in several light weight layers is warmer than one heavy one. Air is trapped between each layer, insulating the body. For example, a lined garment is warmer than an unlined one.

Opening lead — A ♠

By Oswald & James Jacoby

How many high-card points do you need for your hand to qualify as a positive response to an opening two bid?

A lot depends on just what the high-card points are and if you have any convenient way to make your positive response. Thus, we would consider today's North hand as well worth a two-heart response. His suit is a five-carder headed by two of the three top honors.

Move his queen of hearts over to the club suit and we would bid two notrump with that same seven points. Our general rule would be that some six-pointers qualify and that you should not make a negative response with as many as nine high-card points.

Now for today's hand. North wanted to know why his partner had to jump to the slam; South wanted to know why North responded two hearts with just seven high-card points.

Naturally enough, if the slam had made everything would have been smiles, but that does not change the fact that six clubs was the right contract. It would make about 55 per cent of the time. Today was one of the unfortunate losing 45 per cent.

Ask the Jacobys

A Nevada reader asks us what we respond to partner's two-spade opening bid with ♠ Q x ♥ Q J x ♦ Q 10 x x ♣ Q x x x.

We bid three notrump, but with some trepidation. On the other hand, with 9 high-card points including all four queens, we just can't bid a mere two notrump.

(For a copy of JACOBY MODERN, send $1 to "Win at Bridge" c/o this newspaper, P O Box 489, Radio City Station, New York N Y 10019)

ELEMENTARY STUDENTS BUSY—Second and third grade students from North Elementary recently made tray favors to be used at Cogdell Hospital. This project was sponsored by the Snyder Jaycee-ettes. Colorful winter scenes were drawn by the students. Pictured above are (from left) Jean Shifflett and Jo Ann Urban, Jaycee-ettes, being presented the tray favors by Jim Erwin, principal. Below, displaying tray favors are (front row, left) Becky Becerra, Tim Shafer, Josie Gutierrez, Kelly Poarch, Grace Ann Rangel; (back row) Toby Stephens, Casey Hale, George Mata, Celia Zamarippa and Jamie Gregory.

Dear Abby

Don't Let Her Take Over Your Nose

By Abigail Van Buren

© 1977 by Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: Last summer for my 16th birthday, my mother gave me a nose job. My nose is a lot smaller now but it's slightly lopsided. I mean one of my nostrils is higher than the other.

After I had my nose done, my mother had hers done by another doctor. Hers came out really perfect, and now she wants HER doctor to do my nose over.

I don't want to go through that whole thing again with the black and blue eyes and the swollen face, but my mother insists on it. Don't you think I should have something to say about it? After all, it's my nose.

My mother says that as a minor I have to do whatever she says.

Please help me.

HAD ENOUGH

DEAR HAD: If you're satisfied with you nose, hold your ground. Your mother can't force you into elective surgery. And knowing how you feel, no respectable plastic surgeon would take your case.

DEAR ABBY: My husband never fails to show me every item you put in your column about fat women.

Isn't it funny that a man never sees himself as he looks now? My husband had all his teeth pulled and won't wear his dentures. He's only 52, but he looks like 72. He goes around needing a shave, and I have to fight with him to get him to change his clothes.

Now for me: I was 27, slim and trim when he married me. Four years later, after I had my third baby, I was 50 pounds overweight.

My husband never wanted to go any place. He just wanted to stay home, drink beer and watch TV. I'm so fat now it's an effort for me to walk around, so of course my house is dirty. I'm in a terrible rut. If only I could lose this weight!

My husband won't lift a hand to help me, and the house is falling apart.

We have no friends and I'm so ashamed of the way we live, but I don't know how to change it. Am I hopeless?

NO FUTURE

DEAR NO. You're only hopeless if you think you are. Start with yourself. Look up OVEREATER'S ANONYMOUS and force yourself to attend one meeting. Or contact your local mental health society. The kind of help you need is available in both places. But they won't come to YOU—you must go to them. Take this advice as though your life depended upon it—because it does.

DEAR ABBY: First someone writes in and complains because it takes forever to get a check in a restaurant. In fact, one party was so burned up after waiting so long that she left without paying.

Then someone else writes in and complains because the waiter shoves the check under their noses before they even put their forks down, which is way of saying, "Goodbye, already. We need the table!"

So, Dear Abby, what do you suggest?

A WAITER CAN'T WIN

DEAR WAITER: **The diner should request the check, whereupon the waiter should present it promptly.**

For Abby's booklet, "How to Have a Lovely Wedding," send $1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (24¢) envelope.

Stainless Steel Mixing Bowls

AMAZINGLY EASY TO USE...TO CLEAN...TO STORE

6 PIECE STAINLESS STEEL REFRIGERATOR SET plastic covers

ON SALE ONLY DURING THIS PROMOTION $4.99

There's nothing handier for mixing, stirring and other odd jobs in the kitchen. Made of stainless steel, it's unbreakable and built for hard use. It's wonderful for hand stirring and beating. Out-of-the-way ring handle provides a secure grip to prevent slipping or spilling — permits hanging bowl for storage, saves cupboard space. Bowl can be used on range to warm ingredients, is excellent for storing foods in the refrigerator. Polished exterior and satin-finish interior with gently rounded sides makes cleaning amazingly easy.

Weather Halted Mail Delivery In New York

WASHINGTON (AP) — Neither rain nor snow nor anything else is supposed to stop the postal service from getting through. But that's been a tall order this frigid winter.

The Postal Service has been called upon to deliver mail through Arctic temperatures, howling winds and blizzards this winter.

And postal officials say the mail has gotten through in most areas, despite record low temperatures and heavy snowfalls.

But nature got the best of the Postal Service in western and northern New York State, where near-blizzard conditions have prevailed this week, and in other scattered areas.

Mail could not be delivered Saturday, Monday, and Tuesday in Buffalo, Watertown and Rochester, N.Y., and surrounding areas, Postal Service spokesman Bernard J. Roswig said.

Some mail service was restored Wednesday in the Buffalo and Rochester areas but not in the Watertown area, he said.

While the weather was bad, Boswig said it was not always weather alone that stopped mail deliveries in those areas. Traffic, including mail trucks, was prohibited from traveling some snowbound roads.

"The first truck since Jan. 29 got through today from Syracuse to Watertown," Roswig said Wednesday.

Delivery problems were reported in rural areas in the Eastern part of the nation. Roswig cited the situation in northern Maine, where letter carriers were slowed by the bad weather and mail could not be delivered every day.

In many areas problems have been encountered on snowbound highways, but Roswig said, "There may have been some delays in delivering the mail, but nothing inordinate."

27 ACRES OF LAND - Hiway frontage on 2 sides. Near traffic Circle. East Hwy- $30,000.00 with small downpayment, owner carry balance. Call J.C. Massingill.

Adams Still Hiring Foes

By MICHAEL A. LUTZ
AP Sports Writer

HOUSTON (AP) — Houston Oiler owner K. S. "Bud" Adams has a habit of eventually hiring some of his former pro football enemies.

After battling for years with irascible Sid Gillman, Adams hired Gillman for a tour as coach and general manager.

Adams did it again Wednesday when Pat Peppler, interim coach and general manager of the Atlanta Falcons last season, was named assistant general manager of the Oilers, replacing Tom Williams, who was fired Tuesday.

Peppler and Adams locked horns in the early days of the old American football League and National Football League when both the Oilers and green Bay, where Peppler then was assistant general manager, drafted All-American Texas Tech running back Donny Anderson.

Anderson eventually signed with the Packers but Adams proved again that he doesn't bear a grudge.

"Let's just say that we're on the same side now and I'm glad of it," Peppler said. "When we drafted Anderson as a red-shirt, Vince Lombardi told me 'well there's your project for next year.'"

Peppler, who left the Packers in 1970 to become director of pro scouting for the Miami Dolphins, quickly filled a vaccuum on the Oilers' administrative staff left by the firing of Williams, who leaves under mysterious conditions.

The Oilers have declined to comment on the reasons for Williams' dismissal.

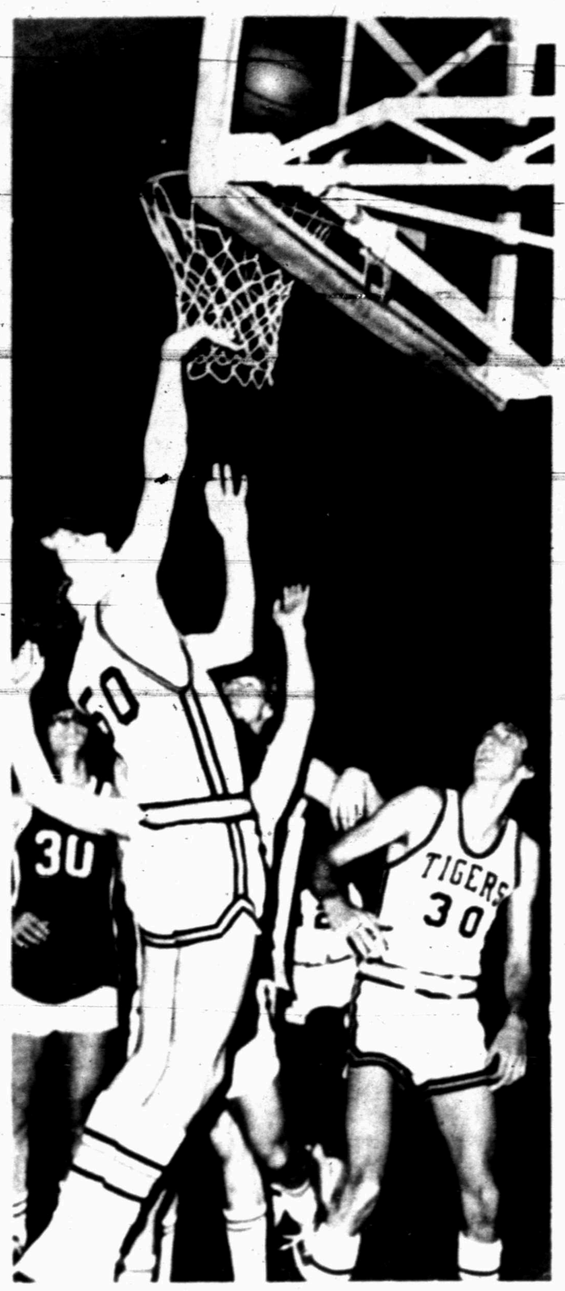

In a statement Wednesday, the Oilers said "The Houston Oilers announced Wednesday the dismissal of Tom Williams as assistant general manager was unrelated to Mr. Williams' football responsibilities with the club, but declined to comment further as to the reasons for the dismissal."

Asked to explain the statement, Oiler coach and general manager O. A. "Bum" Phillips said "Our statement is self-explanatory. It says we don't to comment because it can't help but hurt somebody. It can't help anything and I don't think that is a part of public right."

Peppler will be in charge of scouting and player contract negotiations with the Oilers, Phillips said, in addition to other duties.

The dismissal of Williams continues a trend of change on the Oiler staff. Phillips earlier this year fired four assistant coaches and demoted offensive coordinator King Hill to receivers coach.

The Oilers dipped to a 5-9 record last season after a 10-4 finish in 1975 Oilers.

TWO FOR TIGERS—Kirk Johnson (50) goes in for a lay-up in the Snyder Tigers' 69-63 victory over Brownfield here Tuesday night. At right is Randy Courtney (30) for the Tigers.

Dusters Host Clarendon In Crucial Tilt Tonight

The Western Texas College Dusters go into action tonight in the first of two crucial basketball games when Clarendon visits the WTC gym.

Riding high atop the conference standings with a 4-0 league record, the Dusters could sack up the crown with a victory over Clarendon tonight and another win over South Plains on Saturday. Or, they could see their season go down the drain if they should falter and lose the two games.

And Clarendon served notice last Thursday night that it is capable to spoiling anyone's record. The Dusters were hard-pressed to come off with a one-point decision in that one.

"These games mean everything to this year's team," declared Dr. Sid Simpson, coach of the WTC women's basketballers. "I hope we get enough fans out tonight to cheer our girls on to a home court victory."

Tipoff in the WTC gym will be at 7:30.

Coach Simpson said he planned to start a lineup composed of Janice Verden 6-1 sophomore from Wheeler at post; Debby McIvor, 5-11 freshman from Fort Stockton, and Cindy Luttrull, 5-1 freshman from Laverne, Okla., at forwards; and Rosemary Scott, 5-8 sophomore from Slaton and Temi Baker 5-8 sophomore from Knox City at guards.

They will be backed up by Cathy Minton, 5-6 freshman from Snyder; Pam Tatum, 5-8½ freshman from Happy; Barbara Denman, 5-9 sophomore from Hobbs; Marketa Sissom, 5-2 sophomore from Van Horn; Jamie Branch, 5-3 sophomore from Aspermont; and Annie Tillman, 5-9 sophomore from Lubbock.

DEACONS JUST KEEP ON WINNING

Wake Forest Skeptical Of Polls

By HANK LOWENKRON
AP Sports Writer

Wake Forest Coach Carl Tacy is thankful that his team does not take basketball polls too seriously.

"We haven't talked about them polls all year," said Tacy Wednesday night after his fifth-rated Deacons defeated Duke 89-80 in an Atlantic Coach Conference basketball game.

"We notice the polls, though," he added. "And I think we're looking better than the sixth-place ACC finish predicted for us at the beginning of the season."

Indeed, they are. The Deacons now are 17-2 over-all and lead the tough ACC with a 6-1 record.

Forward Rod Griffin sparked Wake Forest to its lastest victory with 28 points.

In other games involving rated teams, Pittsburgh upset No. 12 Cincinnati 65-64 on a 22-foot jump shot by junior Larry Harris at the final buzzer; Arkansas, No. 14, routed Southern Methodist 81-58 in a Southwest Conference game, and 20th-rated Detroit beat Eastern Michgan 87-82.

"The bench told me to take the shot, even if I was doubleteamed," said Harris, whose winning basket gave Pitt's leading scorer 31 points for the game.

"We've got to start to believe in ourselves," added Harris after the 4-14 Panthers upended Cincinnati, now 15-3.

SMU left Marvin Delph open for outside shots and he scored a career-high 30 points in the Razorbacks' 10th straight victory.

Ron Brewer added 21 points for the 18-1 Razorbacks.

John Long scored 32 points and Terry Tyler 25 for 17-1 Detroit, which has won 16 straight games.

In other Wednesday night action, John Gerdy scored 28 points as Davidson nipped the Citadel 62-60 in a Southern Conference game; freshman Jo Jo Hunter scored a career-high 20 points, leading Maryland over Virginia 82-67 in the ACC; freshman Darryl Gladden hit two free throws with three seconds left, giving La Salle a 71-70 upset over Villanova in the second half of a doubleheader at the Palestra in Philadelphia after St. Joseph's, Pa. downed American 77-70.

Nine consecutive points by Glenn Williams and a 28-point performance by George Johnson sparked St. John's over Georgetown 82-66, while Fordham snapped its 10-game losing streak with a 68-53 victory over CCNY.

Miami of Ohio snapped Northern Illinois' five-game winning streak and took over first place in the Mid-American Conference with a 99-91 triumph as Archie Aldridge scored 28 points for the winners. Central Michigan outscored Toledo 88-81 in another MAC game.

Other results involving major schools included: Middle Tennessee State over Marshall 94-87; Kansas edging Oklahoma State 60-58 and Oklahoma moving into a first-place tie in the Big Eight Conference with a 66-63 victory over co-leader Missouri; Memphis State, 18-3, over Western Kentucky 97-75, and South Carolina routing Richmond 95-63.

New York Yankee first baseman Chris Chambliss is a native of Dayton, Ohio. His ninth-inning home run in the decisive American League playoff game against Kansas City put he Yankees in the 1976 World Series.

Nuggets Unafraid Of Changes

By HANK LOWENKRON
AP Sports Writer

Coach Larry Brown was not afraid to change a formula which had given his Denver Nuggets the best record in the National Basketball Association this season.

The Nuggets, Midwest Division leaders, took a 32-15 record into Wednesday night's battle against the Washington Bullets, pacesetters in the Central Division. That record had been compiled with David Thompson playing at guard most of the time.

But Thompson was at forward against the Bullets. The position was hardly a new one for the 6-foot-4½ Thompson, who earned All-American honors at that spot for North Carolina State.

"I think he Thompson was more comfortable playing forward," said Brown after Thompson scored 37 points, helping Denver shatter Washington's eight-game winning streak with a 119-105 victory.

"He looked more relaxed," said Brown. "I loved our guard play. I think Jimmy Price and Ted McClain took a lot of pressure off David."

Price, who had not been starting, took over Thompson's spot in the backcourt and came through with 14 points, 10 rebounds and 11 assists. McClain contributed 17 points, seven rebounds and six assists.

In other NBA action, the Philadelphia 76ers built their Atlantic Division lead to 7½ games over the idle New York Knicks by defeating Detroit 138-116, while the New York Nets topped the slumping Boston Celtics 99-89. The Phoenix Suns outscored Milwaukee 130-113, Kansas City downed Portland 119-107 and Seattle routed New Orleans 120-95. The Houston game at Buffalo was postponed due to bad weather.

76ers 138, Pistons 116

Julius Erving and Steve Mix each scored 25 points and Lloyd Free had 24 as the 76ers recorded their 12 victory in 16 games. The 76ers, who are weak at center due to injuries to Harvey Catchings and Caldwell Jones, used 19-year-old Darryl Dawkins at center against veteran Bob Lanier, who led Detroit with 23 points.

Nets 99, Celtics 89

Bubbles Hawkins came off the bench and scored 13 points in the final period as the Nets won for only the second time in 18 games. Boston dropped its sixth game in seven outings.

Kings 119, Trail Blazers 107

Ron Boone scored 28 points, sparking the Kings against Portland, which played without injured center Bill Walton, who is suffering from an inflamed Achilles tendon and may be out of the lineup until next week.

Suns 130, Bucks 113

Alvan Adams looked like the center who was named NBA Rookie of the Year last season as he combined with Paul Westphal for 56 points and 22 assists in leading the Suns over Milwaukee.

Adams scored 15 points in the first quarter and finished with 27 while picking up 10 assists.

SuperSonics 120, Jazz 95

Seattle centers Mike Green and Tommy Burleson combined for 33 points as the Sonics handed New Orleans its 11th consecutive road loss. Burleson, scoreless as a starter, returned to action and scored 17 points in the game's final 18 minutes after Green had replaced him and scored 16.

Odessa's Shepard Is Going To Texas

AUSTIN, Tex. (AP) — Odessa quarterback Darrell Shepard, considered by many to be the top blue-chip recruit in the state, says he will attend the University of Texas, the Austin American-Statesman reported today.

Shepard was quoted as saying his final choice was between Texas and the University of Houston.

"But I figured I'd have a better chance to start at Texas," Shepard said. "I liked both schols and both cities, but it's a whole lot different playing for the University of Texas. You're representing a whole state, not just a city."

"Several schools told me that Texas wouldn't start a black at quarterback, but I talked about it with Coach Freddie Akers, and he said that wasn't true," he said. He declined to name the school that told him that.

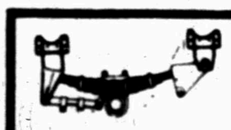

Houston has an established star at quarterback in Danny Davis, who has two more years. Texas finally settled on freshman Mark McBath at the end of a 5-5-1 season last year.

Shepard is the only high school player picked by all nine Southwest Conference football coaches in a Dallas Times Herald blue-chip poll.

SWTSU Cage Coach To Quit

SAN MARCOS (AP) — Southwest Texas State basketball Coach Vernon McDonald says he will resign at the end of this season.

McDonald, head coach of the Lone Star Conference team since 1961, said he is retiring for health reasons. For the last three weeks he has directed practice from a chair on orders of his doctor.

Relatives Advise Rich Kids To Stay In Waco

By Miller H. Bonner Jr.
Associated Press Writer

ALICE, Tex. (AP) — The bizarre events surrounding two juveniles and $486,000 in unclaimed cash has taken a strange turn as one of the boys' relatives advised them to "stay in Waco."

The two Alice high school students were detained in Waco Monday after being stopped for a traffic violation in a just-purchased 1977 Thunderbird.

Officers found a bag of marijuana, an automatic pistol and two suitcases filled with money.

Juvenile authorities in Waco filed petitions late Wednesday accusing the 15-year-old of marijuana possession and the 16-year-old with possession of a prohibited weapon.

State District Court Judge Bill Loge set a Feb. 24 hearing date on the petitions.

"I think the boys are a lot safer in Waco," said the relative Wednesday in Alice. "A lot of drug traffic comes through the Alice area. You have to put two and two together. How many people have that much money just sitting around the house? If it was money that had been saved, why didn't someone claim it? Dope dealers don't like to be burned for half a million dollars."

If no one does claim the money, it may be returned to the two teenagers, the Dallas Morning News quoted a judge as saying.

"Our laws would require its return unless officers show it was stolen or someone steps forward with proof they took the cash after it was misplaced. And considering the circumstances, I doubt anyone will come forward," the judge said.

The relative claims one of the boys got the money from his father's ranch-house after a family argument.

"The boys got that money and just went berserk," he said.

In a hastily-called news conference Wednesday, the first held in the Jim Wells County courthouse since the infamous Ballot Box 13 episode in 1948 - the county sheriff, Monroe Whitman, and Alice Police Chief Juan Rodriguez said their attempts to locate either the ranch or the boys' father had proved futile.

"We don't have any arrest warrants issued and we haven't gotten any search warrants," said Rodriguez.

The police chief and sheriff remained tight-lipped during the 55-minute session because, as Rodriguez said:

"Our main function is to cooperate with the Waco police. If we make any statements now, it would be detrimental to our efforts and the efforts of the Waco police department."

They did admit, however, that the search for the ranch centered on an area north of Alice.

"We have a man checking the county courthouse records to see if this boy's father or stepfather has a title in his name, but that takes time," said Whitman.

Teams of mud-splattered deputies and policemen combed the area inundated by week-long rains, asking ranchers for information about the boy's father.

The other boy's parents, accompanied by a lawyer, headed for Waco Wednesday to visit their son.

ENTERS GUILTY PLEA WEDNESDAY

Muniz Facing Possible Sentence, $15,000 Fine

By RICK SCOTT
Associated Press Writer

SAN ANTONIO, Tex. (AP)—Two-time gubernatorial candidate Ramsey Muniz faces a possible five-year prison sentence and a $15,000 fine today after pleading guilty to conspiracy in a marijuana smuggling case.

The 34-year-old Corpus Christi lawyer entered the guilty plea Wednesday in U.S. District Court here and it was accepted by Judge John H. Wood Jr.

No date for sentencing was announced.

Muniz, who was the Raza Unida party candidate for governor in 1972 and 1974, remained in jail in lieu of $1 million bond in the case here.

He still faces two more federal court trials in Corpus Christi, where he is charged with jumping bond and with smuggling marijuana in another case. He is held in lieu of $1 million bond in Corpus Christi, also.

Muniz and six other men were named by a federal grand jury here last November in connection with an alleged scheme to smuggle 832 pounds of marijuana from Mexico to a ranch in Medina County, Tex., southwest of San Antonio.

Two of the defendants had pleaded guilty earlier to conspiring to import marijuana, and three others pleaded guilty with Muniz to the same charge Wednesday.

Muniz originally was charged by the grand jury with four counts: conspiracy to import marijuana, importing marijuana, conspiracy to possess and distribute marijuana and aiding and abetting the possession and distribution of marijuana.

In exchange for their guilty pleas Wednesday on the first conspiracy charge, federal prosecutors said they would drop the three remaining counts against Muniz and the others.

A jury had been selected earlier this week to hear the felony case and opening arguments by prosecutors and defense attorneys had been completed when Muniz and the other three men switched their pleas from innocent to guilty.

Assistant U.S. Atty. Robert S. Bennett, outlining the government's case to the jury, said he would show that Muniz was the Mexican connection in the alleged smuggling operation.

The prosecutors had lined up more than a dozen witnesses, including Reginald Saxton, an unindicted co-conspirator in the case.

Bennett said Saxton was the pilot of the aircraft which flew marijuana on Nov. 2, 1976, from Dimas in Sinaloa, Mex., to the ranch in Medina County.

Bennett said Muniz was "in charge of operation in Mexico."

Muniz, dressed in a charcoal gray, pinstriped suit, was asked by Judge Wood if the government's case represented the truth.

"Yes, sir," Muniz acknowledged.

"How do you plead, Mr. Muniz, guilty or not guilty?" asked Bennett.

"Guilty," answered Muniz.

The judge advised Muniz and the others that their pleas of guilty "are just as binding" as a jury conviction.

Idaho Residents Okay After Crash In Mexico

By STEVE EAMES
Associated Press Writer

BROWNSVILLE, Tex. (AP)—A World War II vintage aircraft sat covered with mud in a Mexican corn field today, but its former passengers were safe and waiting to return to Idaho.

Two pilots and 16 other Idaho residents saw engine trouble develop Wednesday and were forced to crash-land with landing gear up two miles from the Texas border in Mexico. No one was killed and there were no serious injuries.

Brownsville airport manager Arthur Wendt had said earlier the passengers and pilot were from Iowa, but after going to the scene he reported they came from Roberts, Idaho, and the surrounding area.

Pilot A.D. Mallord of Shelley, Idaho, and another pilot had flown their passengers on a trip to Guatemala and they were on the way home. Mallord is the owner of the plane.

"We developed a bad engine and shut it down on the left side," Mallord said. "Then about two or three minutes later we heard a banging and the aircraft was hard to control."

Passengers said cornstalks flew over the wings as the plane slid about 300 yards through knee-deep mud. The baggage door flew open, spattering the compartment's contents with mud.

The aircraft was en route to Fort Stockton in West Texas from Brownsville when the engine trouble was reported about 10 minutes after takeoff here.

"The pilot radioed he had only 100 feet of altitude with one engine out and that he was turning back towards Brownsville," said Wendt.

The airport manager said Mallord could have tried to return to the Brownsville airport but his altitude was so low he didn't want to risk flying over Matamoros, Mexico, and Brownsville, so he decided to crash-land in the corn field.

The stop in Brownsville had been unscheduled because of engine trouble. The pilot believed the problem had been cleared up before he took off for Fort Stockton, Wendt said.

"We just fastened our seat belts and knew we were in good hands," said Kay Menan, 56, of Menan, Idaho. "It was just about as smooth as an airport landing. I've been on commercial airlines with rougher landings."

Three Mexican farm pickups transported the passengers to the border, where Cameron County sheriff's deputies met them for a trip to a Brownsville hotel.

Authorities estimated it would take weeks to pull the plane out of the mud. The Idaho residents planned to use commerical means to get home.

Blast Blamed On Dynamite

ABILENE, Tex. (AP)—A stick of dynamite probably was responsible for a mysterious explosion last month that knocked a hole in the roof of the W.T. Willis home, according to Abilene police.

The Jan. 13 blast had police and fire investigator baffled for awhile, but police Capt. George Sutton said Wednesday investigators "are more than 50 per cent sure" the blast was caused by dynamite thrown on the roof of the Willis home.

He said a blasting cap probably had been attached to the dynamite.

While awaiting the results of laboratory tests on evidence found at the scene, Sutton declined to comment on possible suspects or the motive for the bombing.

Laredo Puts Tough Leash Law In Effect

LAREDO, Tex. (AP)—In an attempt to control a three-month long outbreak of rabies, city officials have put a tough leash law into effect, making the owners of dogs not on leashes at all times subject to $200 fines.

Meanwhile, officials in Nuevo Laredo, Mexico, just across the Rio Grande from this border city, have discovered two cases of rabies, their first cases confirmed since the rabies outbreak started here in November.

Health officials said 46 cases have been confirmed since November and 36 persons who came in contacts with the dogs have taken or are taking rabies treatment.

Confederate General Thomas "Stonewall" Jackson was killed at the Battle of Chancellorsville, in 1863.

Gas Is Moving Toward Texas

HOUSTON (AP)—Transcontinental Gas Pipe Line Corp reports it has completed arrangements to obtain about 130 million cubic feet of gas a day from the Pacific Northwest area.

C.H. Mullendore Jr., Transco-Companies Inc. vice president, said part of the gas was moving Wednesday toward Texas.

Transcontinental, one of the interstate natural gas pipelines hardest hit by shortages, acted under President Carter's emergency legislation.

The firm began preparations more than a week ago in hopes the emergency legislation would permit the surplus supplies to be transported to its system.

The El Paso Natural Gas system is to transport th gas to West Texas and the intrastate system of Lo-Vaca Gathering Co. then will transport it across the state to Transco at South Texas delivery points. Transco then will move it to its Eastern Seaboard customers.

Bill Greehey, Lo-Vaca president, said transportation of the interstate gas will be subject to capacity limitation of the intrastate system in that Lo-Vaca's first responsibility is to its Texas customers.

The use of alternate fuels caused some of the gas to become available, Mullendore said.

"They also have a little storage up there they don't need," he said.

Transcontinental told its 69 Eastern Seaboard customers last week to shut off deliveries to non-essential users in that sustained high withdrawals had severely restricted stored supplies that normally bolster flowing production during peak demand.

The Federal Power Commission has given approval for Transcontinental to operate this winter under a 44 per cent curtailment because of dwindling supplies. The curtailment last winter was 34 per cent.

Peggy Has Boy

STANFORD, Calif. (AP) — Figure skater Peggy Fleming and her husband, Dr. Greg Jenkins, are parents of an eight-pound, 10-ounce baby boy.

A spokeswoman for Stanford University Hospital said Wednesday that the baby, Andrew Thomas Jenkins, was born Sunday and is home with his parents in nearby Atherton.

New Oil Discoveries In Texas

AUSTIN, Tex. (AP) — Twenty-four new oil discoveries were reported in Texas in January, the railroad commission reported Wednesday.

New gas strikes totaled 19.

The new oil wells broke down this way: seven in Southeast Texas, four in North Texas, three in the San Angelo area, two each in the San Antonio, Midland and West Central Texas areas, and one each in the Refugio, Deep South Texas, East Texas and Lubbock areas.

The gas discoveries included six in Deep South Texas, five in the Refugio area, four in West Central Texas, three in Southeast Texas and one in East Texas.

Dr. Lamb

Enlarged spleen is discussed

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — Recently my rectal specialist sent me to have a barium enema. He discovered an enlarged spleen. When I asked him what would have to be done he said I would have to see my family doctor. I did and he said to forget it. Occasionally I have a left sideache. Could the enlarged spleen be the cause? Please give me some information on it as I never heard of it before.

DEAR READER — In many ways the spleen is a large lymph gland located just where the colon makes a right angle turn on the left side. It is just under the ribs on the left side.

It gets enlarged in response to innumerable disorders and sometimes for no apparent reason at all. It enlarges so often in so many diseases that I recall in medical school the students had a rule, if the professor asked how often the spleen was enlarged in a given disorder the answer was always 15 per cent of the time.

The spleen can be enlarged in response to any of the infectious diseases and it may also be enlarged in less common serious illnesses such as some leukemias. I would think that your spleen must not be very large if your family doctor is not concerned about it and that its enlargement is of no real medical importance in your case.

The spleen destroys old red blood cells and when it becomes overactive it can destroy too many red and white blood cells, causing an anemia. To give you more information on the anemia group I am sending you The Health Letter, number 4-3, Understanding Anemias. Others who want this information can send 50 cents for it with a long, stamped, self-addressed envelope for mailing. Write to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

DEAR DR. LAMB — I just had my right Fallopian tube removed due to a tubal pregnancy. I am wondering why this happened? My husband and I want to start a family and this happened the first time out. What is the outlook for my being able to have a normal pregnancy? What are the chances of this happening a second time? Will I still have a period every month or only every other month and will I still have the potential for getting pregnant each month?

DEAR READER — I am sorry to tell you that women who have had an ectopic pregnancy are more likely to have a second one and do have a more difficult time having a normal pregnancy. But many women do succeed, so don't give up hope.

Yes, you will menstruate as before. Menstruation is a result of the cyclical increase and decrease in hormones formed by the ovaries. To clarify the point, a woman who has had both tubes tied for sterilization procedures continues to have normal menstrual periods as long as her ovaries are working.

I do not know what your doctor had to do to manage your ectopic pregnancy. Even if he had to take out one ovary the other one would be adequate, if it is normal, to produce the necessary amounts of female hormones and would release an ovum for pregnancy each time it is stimulated. So, you can't assume that you would only have half as many ova released — one every other month.

NEWSPAPER ENTERPRISE ASSN.

Domestic cats may be divided into short-haired and long-haired varieties. The short-haired cat is related to the European and African wild cats which it resembles. The long-haired variety was developed in Persia and Afghanistan.

Texas Vote On Gas Bill

WASHINGTON (AP) — Here is the Texas vote on the roll call by which the U.S. House voted 336-82 to approve an emergency natural gas bill:

Over The Area

Rotan Opens Housing Units

ROTAN — A total of 23 housing units officially opened here this week as a result of work by the Rotan Industrial Foundation and Rotan Improvement, Inc.

One housing complex, Sexton Heights, includes six units, and the other is Irvin Place, between 6th and 7th Streets. In all, there are four 3-bedroom units and 19 2-bedroom units available for rent with adjusted incomes of $15,000 per year or less.

By adjusting family incomes, some families, depending on their gross income, could qualify for rent in the units for as low as $130 per month, and senior citizens 62 years old or older are eligible to occupy the housing units regardless of their income levels.

Post CC Women Elect Officers

POST — Mrs. Iva Hudman has been elected president of the Women's Division of the Post Chamber of Commerce.

Other officers elected by the division are Vada Clary, first vice president; Maxine Marks, second vice president; Betty Posey, secretary; Joy Greer, treasurer; Geraldine Butler, reporter; Marie Neff, parliamentarian, and Evelyn Neff, historian.

No Telephone Hike At Post

POST — General Telephone Co. has no plans to seek a rate increase from the Texas Utilities Commission and neither does it have plans to install long distance automatic dialing in Post, an official of the company said here this week.

Kenneth Klutts, division service office manager, said that eventually stations with 5,000 connections or more will get automatic long distance dialing, but saw little hope for those below that figure. Posts connections are well below the 5,000 level.

Loraine Bank Changes Hands

LORAINE — A.C. Humphrey, Stamford farmer and rancher, has bought controlling interest in the First State Bank in Loraine. Humphrey also owns controlling interest in a bank at Lueders.

Humphrey bought the interest of Michel J. Vaughn, formerly of Waco and now of Dallas. Vaughan had gained controlling interest in the Loraine bank in 1974. Humphrey said no changes in management of the bank are planned.

C-City Cable Firm Expands

COLORADO CITY — An expansion program launched in November is due to be completed by the first of April, officials of Frontier Cable TV Co. here have announced.

The cable has been extended from the south city limits almost as far south as the state park, Dale Mathis, owner of the local cable firm, said that about 17 miles of cable had been added to the system at Lake Colorado City and will be in operation by April. Mathis said also that some of the firm's electronic equipment which was rebuilt in 1970 is being replaced.

Man Dances Way Into Canvas

SAGINAW, Mich. (AP) — Harvey Gartley lost his boxing match by dancing himself to the canvas in the first round. His opponent never landed a punch.

Ringside observers said Gartley "danced himself into exhaustion" and collapsed after 47 seconds. His opponent, Dennis Oulette of Rogers City, was awarded a technical knockout victory.

The nonbattle came in the preliminaries of the 15th annual Saginaw Regional Golden Gloves Tournament.

Gartley, of Saginaw, was the target of several punches by Oulette in Monday's fight, but none of them connected.

Thre-Wheeler Named Limocycle

LYNNWOOD, Wash. (AP) — The state doesn't know what to call it, but R. Tony Riley has named it the limocycle.

The three-wheeled vehicle, which combines a motorcycle and the rear end of a 1956 Volkswagen, offers elegance and comfort for $30 per two-hour ride. The chauffeur is free.

The limocycle, newest addition to the fleet of luxury cars for hire at Riley Limousine Service, "doesn't really fit any of the state's motor vehicle registration categories," said Riley, 29.

"They finally decided to list it as a homemade motorcycle - and that's okay with me, since the fee is less that way."

Custom-built for $17,000, the 19-foot, 9-inch vehicle gets 36 miles per gallon on the highway, 29 in the city, and can go 97 miles per hour. Mag wheels, a gangster window and a 120-horsepower engine that's half Volkswagen and half Porsche combine with a plush interior complete with crushed velour, television, radio-tape deck and a bar. The car took nine months to build.

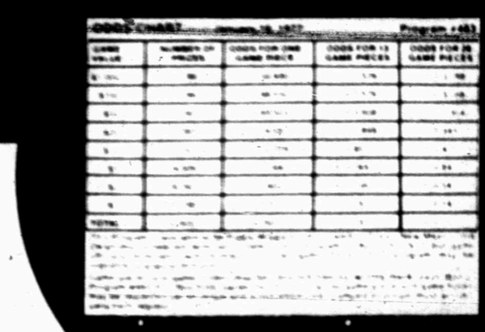

The first spectacles were made from quartz or beryl. Later, when the demand became greater, they were made from glass.

no gain for farmer

The government reports that the farmer's share of the food dollar is about where it was 15 years ago, adding that price increases by distributors and retailers have been in line with increases in their costs.

The most important thing about this is what is left unsaid. That is the fact that the farmer gets less for a bushel of wheat today than he did in 1947 when wheat brought $3 a bushel and a tractor cost about a tenth of what it does today.

The government did not say that the price of cattle on the hoof is about what is was 25 years ago and we can't think of a single thing that sells for the same price today that it did a quarter century ago except farm products.

The government report was prompted by the 32 per cent jump in retail food prices in 1973 and 1974. Nobody seems to know where the rise came from, but one thing is certain, it didn't begin at the producing end of the food chain.

The farmer's share of the food dollar is less than it was in 1947 when the farmer got 25 per cent of the dollar. Now it is down to 18 cents, according to the government.

Still, it doesn't take much of a mathmetician to figure out that when the cost of wheat in a loaf of bread is worth less than 3 cents, there must be a lot of other costs added to the loaf before Mrs. Consumer finally buys it.

In the government study it was found that of 20 food items, the farmers' spreads narrowed on 18 of 20 items chosen for study in the period from 1960 to 1976.

The government could have secured this information faster, and probably cheaper, by surveying the farmers of this country last year.

it does pay to read

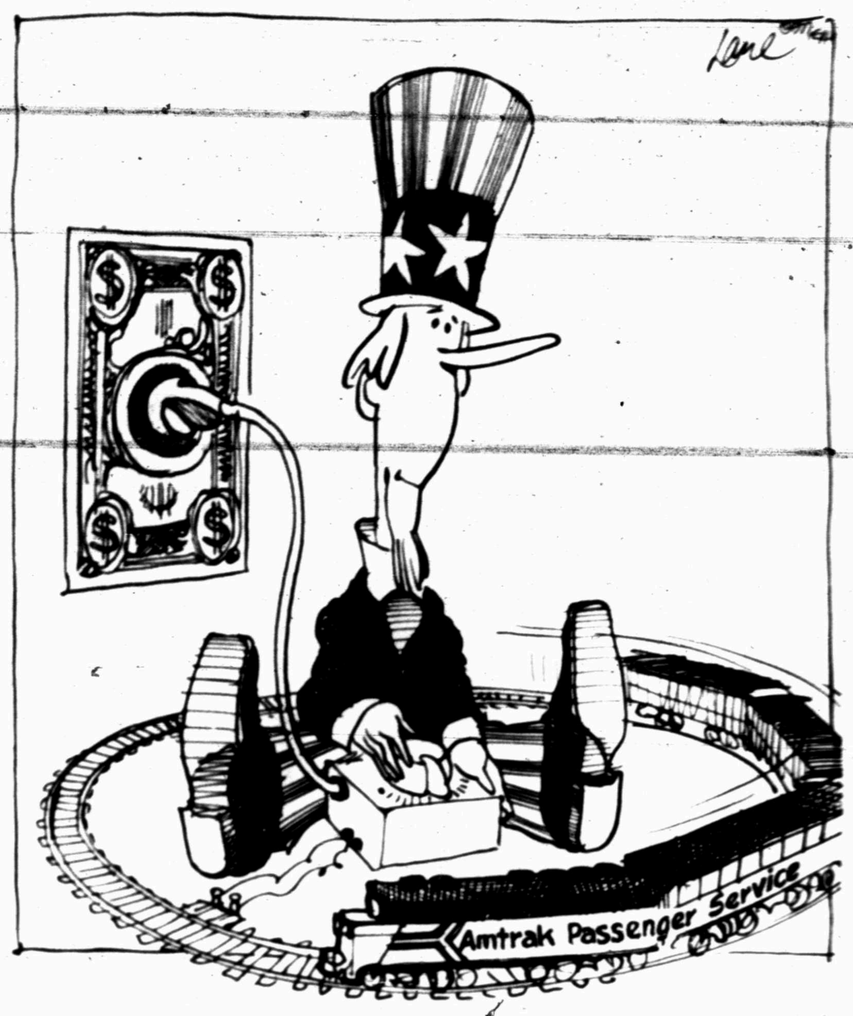

At a time when we hear so much about the decline in reading ability among the nation's youth, it is good to learn that one organization is successfully motivating children to read books in school systems across the country.

The organization is the National Multiple Sclerosis Society, which for the past two years has been conducting a program called the "MS Read-a-thon."

It works this way: Schoolchildren between the first and eighth grades volunteer to seek sponsors, who pledge 10 cents and up for each book the children read during a four-to-six-week period. The number of books read is verified by teachers and parents and funds collected are used for multiple sclerosis patient services and to support research into the cause and cure of MS, known as the "mysterious crippler of young adults."

Since it began locally in Cleveland in 1974, some $5 million has been raised nationwide through the program.

That's a lot of books, and a lot of kids. In fact, the society says that the hundreds of thousands of youngsters who have participated in the MS read-a-thon have read more than 10 million books so far.

Reveries of years long past.

my turn...

by john long

After watching "Roots" on television last week, I was inspired to research the origins of my own family.

While my research is still far from complete, I have managed to uncover some interesting tidbits concerning my genealogy.

I am descended from the 18th century Englishman Basil Longe. Longe, my great-great-great-great-great-great-grandfather, was in the highway business. It was he who followed the highway coaches of that era and made sure they arrived at their destinations with all due speed. In fact, it's been said that coachmen never drove so fast as when they saw Longe approaching.

More than any other single man of his time, Longe improved the promptness of the entire public transportation system of England.

It was, no doubt, a case of mistaken identity when Longe was shot late one night when he was coming to the aid of some people who were stranded by the roadside after their coach had broken down.

His son, Henry Longe, was the apple of his father's eye and attempted to follow in his father's footsteps in order to carry on the family tradition.

Henry, however, got into a little trouble with a constable after some passengers complained they were missing a few articles of personal jewelry and some paltry sums of money. He was forced into an early retirement.

With the family name besmirched, Henry Longe's son, William, shortened his name to "Long" and acquired a position in a well known English bank.

It was said that William "had a good head for figures."

William, however, failed to get ahead in his chosen profession. Rather than besmirch the family honor any more, William left the bank one day after another employe discovered that several thousand dollars of a client's account had been misplaced. Late that very night, Long and his family left England to come to this country.

William Long's son, George, served in the Civil War. George was a man of mixed temperment. Yet, he managed to serve both the North and the South equally well. He rose eventually to the rank of a corporal in the Union Army. (He was still proud, though, of his sergeant's stripes in the Confederacy.)

George narrowly escaped the war with his neck. He eventually settled in Oklahoma, where he became a true and trusted friend to both the Anglo and the Indian.

George begat Walter, the man who was to become my grandfather. The rest of my family history I already know. I just needed to clarify a few points of my ancestery for my own benefit.

It's amazing what a little research into one's family history will reveal.

how many jobless want work?

President Carter has promised to "put the unemployed to work."

Somebody has suggested that we should all tear the "help-wanted" pages out of our daily newspapers and send them to President Carter to make certain that he understands there are more jobs than job-seekers.

Indeed, every month for 18 months the number of "help-wanted" ads has been increasing!

So now, with the Carter Administration pledged to reduce unemployment rolls, it is important that we face up to the question: "How many jobless want work?"

Most of our nation's unemployed are young people.

Nationally, unemployment is running about 8 per cent.

Unemployment among 16- to 19-year-olds is running 18 percent to 20 percent.

Unemployment among young blacks is running almost 40 per cent.

Many if not most of these young unemployed are tempted to live on either welfare or crime.

Some of President Carter's advisers are urging a $650 million National Youth Corps.

It would provide public jobs and training for minority inner-city youngsters.

A group of top corporate executives has proposed a similar Urban Youth Corps plus an expanded Job Corps.

However, less than encouraging is the fact that our government's been spending $2 billion each year on training and jobs for youth--and notably unsuccessfully.

The perennial offering of summer jobs for youth is frankly intended as a form of "riot insurance" designed to cool the ghetto.

But the million youngsters who collected $528 million last June, July and August learned nothing, did almost no work and certainly derived no "sense of accomplishment" beyond a feeling that they'd benefited from a kind of government-sponsored ripoff of taxpayers.

The Job Corps, launched by Lyndon Johnson, still operates 60 centers, costs $200 million a year, trains 20,000 youths at a time--but the dropout rate is horrendous and only two-thirds of the Job Corps trainees who finished their training last year took jobs.

At the same time, cities and states have been operating their own youth programs involving public service or training. Local governments thus spent about a billion dollars last year.

And still the percentage of "unemployed goes up" -- while an increasing number of jobs go begging.

So the Carter Administration and the new Congress are going to have to come up with something more imaginative than just the appropriation of more government money.

Presently receiving favorable consideration on The Hill is a resurrection of the old Civilian Conservation Corps. Though the CCC of the '30s may have wasted a lot of effort, it did provide manpower to repair roads and build parks and it did require some effort on the part of the corpsmen.

Why would this not be a timely time to put the able unemployed to work rebuilding our shaky railroad roadbeds?

projects may be solution

NEW YORK (AP) — A partial solution to the U.S. natural gas shortage might lie in the Ural Mountains and in the Yakutsk area of Siberia.

The possibility of using this gas in the United States isn't fantasy. Negotiations which began in 1971 have been hesitant since then, although work continues on the Siberian project, whose fuel would go to the U.S. West Coast.

The Ural Mountain project, whose fuel would be shipped from Murmansk to supply the East Coast areas of the United States, has been stalled by mutual fears and some indecisiveness by this country.

"It would take an important initiative from the new administration before Russia will look at it again," said Harold Scott, former assistant secretary of commerce and now president of the U.S.-U.S.S.R. Trade Council.

"If President Carter's group is going to talk to the Soviets this ought to be on the shopping list," he said.

The council, made up of the chief executives of the very largest American companies and their Soviet counterparts, is designed to explore and facilitate trade between the two nations. Traditionally, the U.S. Treasury secretary and the Soviet foreign trade minister are honorary directors.

The subject of reopening discussions on the natural gas projects was informally discussed by council members at their latest meeting in Moscow last December, although no formal initiatives were made by either side.

But in Scott's view, the possibilities are so enormous as to almost demand further discussion, if only to bring the pros and cons before the American people.

Prinze Was In Turmoil During Hollywood Years

By MIKE GOODKIND
Associated Press Writer

LOS ANGELES (AP) — Freddie Prinze seemed to ride to his instant stardom with an effortless maturity that belied his age. But when the TV cameras went off he was a tormented kid from a poor neighborhood in Manhattan who still thought squirt guns were funny.

"Unfortunately he remained a child in a very adult world," Prinze's personal manager, Ron DeBlasio, said this week. The occasion was a eulogy for the 22-year-old star of NBC's "Chico and the Man" who ended his career with a suicide bullet last Friday.

Until his suicide, The Freddie Prinze Story looked like the stuff the American Dream is made of - rags to riches by dint of hard work and talent. Expensive, fast cars; Cardin suits; a home in California for his parents; money. An instant celebrity whose trademark "Lookin' G-o-o-o-d" seemed to apply to him personally.

But it didn't always.

"He was in turmoil, he was suffering such pain," said his friend, entertainer Tony Orlando, at Prinze's funeral. "And yet his audience never knew."

Certainly some of the pain stemmed from his new life. But no clearcut evidence points to his skyrocket success as a direct cause of death. And there were other troubles people point to, - troubles with his marriage, with a heavy drug habit, with business arrangements. All these problems were very real to Prinze, but friends and associates say the star's personality and outlook on life were probably the underlying reasons for his suicide.

When Freddie Prinze, part Puerto Rican, part Hungarian, was growing up in his poor, ethnically-mixed neighborhood in New York, he was known as a cutup, a likeable "goofing around type", who did imitations of President Nixon, dropped wet tissues from the rooftops and played at being a disc jockey.

But this boyhood fascination for making people laugh became his way of life - the way he earned his living and the way he often handled personal relationships. The Washington Heights cutup never stopped cutting up.

There was another legacy of his childhood in Washington Heights: moodiness. Friends, neighbors and teachers in New York remember that Freddie the cutup would sometimes grow suddenly quiet, that he would go into a mild depression.

Paul Wasserman, Prinze's publicist, said that the star "had fits of elation and fits of depression that one usually associates with creative performers, but with him it was a little bit more."

His moods were unpredictable.

Prinze's success was almost literally overnight. A chance appearance on a Jack Paar show after Paar caught the comic's act in New York led quickly to a shot on the "Tonight Show." Next he got a test for the Chico role; the show was an instant success.

Prinze met Kathy Cochrane, a 25-year-old twice divorced travel agent, in March 1975 and married her the following October. Last November, Prinze moved out of the couple's home.

One of Prinze's main concerns, friends say, was that his wife might take his beloved 10-month old son away from the Los Angeles area.

Prinze had filed a lawsuit against his former manager over a contract Prinze had signed at age 19. Prinze, now a big star, wanted out of it.

He also was facing charges of driving under the influence of drugs.

Prinze turned to drugs for relief from the pressures. They were prescribed by a doctor, but apparently usage got out of hand.

Throughout Thursday night in the hours before he shot himself, Freddie visited and talked with business associates on the phone. He told them all that he was at the end of his rope.

Prinze was visited once by his psychiatrist whom New York writer Pete Hammill says left after unsuccessfully trying to get the gun away. Then, about 3:30 a.m., after talking with his recently estranged wife on the phone, he put a bullet through his head as his business manager watched in horror.

He died the next day.

omar burleson

a two-way street

WASHINGTON, D.C.— IF THE FIRST AMENDMENT TO THE CONSTITUTION guarantees "freedom of association" the converse of the principle is also the right not to associate. If the first is to be protected, it follows that the second should also.

THIS IS IMPORTANT in the field of employment. Just as one should not be prevented from joining a union, neither should one be required to join to keep a job.

TWENTY STATES, INCLUDING OUR STATE OF TEXAS, have "right to work" laws. Section 14(b) is an amendment to the Taft-Hartley Act, amended by what is commonly known as the Landrum-Griffin Act, which protects the laws of the States which prohibit the requirement that a person must belong to a union in order to work.

IN THIS SESSION OF THE CONGRESS there is no doubt that an attempt will be made to repeal this provision.

ON THE OTHER SIDE OF THE ISSUE there is being introduced legislation with three parts -- one would guarantee that students who work part or full time not be forced to join a union to keep their jobs. The second would assure Federal employees that they could join or not join a union. The third extends to private sector employees the same rights extended to students.

WHILE INDIVIDUAL FREEDOM is the primary issue at stake, passage of "right to work" legislation would actually be of material benefit to those who, by choice, join unions. The very fact that membership would be voluntary would make union leadership more responsive to the rank and file member. Instead of relying on the force of the law, leaders would have to justify the handling of union dues. Surprisingly enough, in a poll in 1976 by Opinion Research, 66 per cent of all union members declared themselves in favor of "right to work" laws. It has been assumed that those belonging to unions would oppose such a provision but, seemingly, it turns out it is the leadership of the unions which lead the opposition.

ONE OF THE MOST GLARING CASES originated in Wisconsin in which a school board was held to be in the wrong for even permitting a representative of non-union school teachers to present their case before the board. The union filed a complaint with the Wisconsin Employment Relations Committee, charging the board of education with "unfair labor practices" by even hearing the other side. Their action was upheld in the State's Supreme Court but, just recently, the Supreme Court of the United States unanimously reversed the State's court decision. Non-union teachers, the court ruled, still have their First Amendment right of free speech.

THE PRINCIPLE RECOGNIZED IN THIS CASE certainly extends to the private sector employees who are forced to pay dues regardless of whether they agree to the union's policies and are forced to strike against their will.

IN PRIVATE EMPLOYMENT, THE "RIGHT TO STRIKE" goes hand in hand with the "right to work". Employees in the public sector, that is, employees of the Federal Government or units of local Governments, should have their choice of belonging or not belonging to a union but the "right to strike" against the governing body is another thing.

DURING THE CAMPAIGN LAST FALL, President Carter indicated that he would not recommend the repeal of section 14(b) (right to work) but that if the Congress passed such legislation, he would sign it. It is hoped that there are the votes in the Congress to defeat this move. But there is a big question about what the House of Representatives will do when this issue is before it. In recent years, when these attempts have been made, we have been able to turn the effort back, but many changes have occurred and it is now in doubt.
