Vincent Van Gogh. This is the 100th anniversary of the artist's death.

Van Gogh's talent, like many artists, went virtually unnoticed during his life time. He only sold one painting. He spent three years in a mental institution, and in the end, he took his own life.

And yet, like many others, he left behind a legacy of haunting, often painful, but always thought provoking canvasses that millions have reflected upon.

There is another aspect of Van Goh's life that can be found repeated over and over thoughout history.

How did Van Gogh manage to pursue his chosen destiny as an artist?

By the self-sacrificing efforts of his brother, who supported him all of the artist's adult life.

After the death of their parents, Vincent's brother sent money to Vincent regularly, which allowed Vincent to draw and paint prolifically.

During Vincent's lifetime he almost never managed to hold a regular job, but his brother always saw to it that he was fed and sheltered.

His brother was a poor man, and had to sacrifice to do this.

It's a story that has been repeated over and over through history.

How many artists, inventors, writers and philosophers have been able to work full time to support themselves? How much talent has been wasted because of a need to provide for basic necessities instead of create?

How many unknown, unappreciated, (and untalented) relatives, or friends have sacrificed so that talent that they so admired and did not possess could flourish?

These people, whether brother or wife, parent or friend, provided the practical , day-to-day means of living to those whose minds were frequently too involved with creating to think of mundane things.

These people, unknown and unremembered, were frequently the only reason that genius was able to unfold.

They kept those whose minds and hearts were on other things fed, clothed, warm and safe, allowing the full scope of their creativity to blossom.

Who were they, why did they do it? Almost no one knows.

Perhaps they did it out of respect for a talent. Perhaps they did it simply out of love.

There are tombs of unknown soldiers to remember those whose names are unknowable.

Perhaps there should be one to the supporters of genius and creativity . Without them humanity as a whole would be poorer.Theirs is a nobility beyond compare.

People And Things

We apologise to the people who ...ed on Detroit routes and did not get ...eir newspapers.

We have been unable to find out what happened to them...they were mailed, bundled in a separate sack, but apparently did not reach their destination.

Drought Causing Serious Problems, Cooler Weather Helping

After an incredibly wet, destructive spring, North-Eat Texas finds it is faced with an incredibly dry summer! However, record cool temperatures, and some rainfall, have relieved the problem, at least temporarily.

Rains that kept farmers out of their fields until the first of June quit and until last week no further rain had been felt.

The abundance of moisture earlier has kept crops looking green until now, and sporadic rainfall over the area has ranged from 3 tenths of an inch to an inch and a half.

One of thebiggest problems is hay production. Hay producers have been hardest hit so far, because of the below zero temperatures of December. The long-range effect of that kill is being felt now, especially on Coastal Bermuda meadows.

After the winter damage meadows were sodden with rain, and then baked cement hard by the 100 plus temperatures of June and early July.

Hay crops are cutting out from fifty to thiry percent of their usual amount.

Grazing of pastures is becoming short, also.

Early planted crops are suffering the least, having had more chance to "make". Cotton is varied, with that planted latest least likely to produce.

Home gardeners have watched their gardens first wash away, now burn up. Many gardners have replanted two to three times.

Lawns, flowers and newly planted shrubs are requiring massive amounts of water, and still are reported doing very poorly.

Even people who normally feel unaffected by the heat feel it in the form of high air conditioning bills, and whether rain has fallen on their particular "spot" the cooler temperatures are welcome to all in that respect.

The rain that has fallen is certainly not enough at this time to relieve all the drought symptoms and it is hoped that more will fall within the next few days.

BANDAGES and first aid by a nurse were part of the "Tour De Paris" bicycle race Saturday. Four of the cyclists collided just south of Deport, sending one to the hospital with a broken collar bone. The other three were "atched up" for contusions, while the bikes were loaded onto a trailer and taken away for a more ocmplete damage survey! (Staff Photo by Nanalee Nichols)

HANDING IT OUT-members of the Deport Volunteer Fire Department handed out water and bananas to racers in the "Tour De Paris" bike race Saturday. kThe race came from Pairs through Taylor town, almost into Deport, then turned back west to continue through Milton and on . They appear in the order that they are received....at times that means almost immediately because the "backlog" of photos is small, at other times it maymean quite a while. The ads run twice a month...this means that two pictures a month are used. Therefore, if a picture has five or six others ahead of it, it can be months before the picture runs.

Friends Reunited After 72 Years

Mary Lassiter and Lenna Shuman Furguson were recently reunited after 72 years.

Mrs. Furguson of Florida, was in Bogata to attend her husband's, Mr. Tom Furguson, family reunion at the home of Mr. and Mrs. Homer Scoggins.

Mary and Lenna became acquainted at an orthopedic sanitarium in St. Louis when the girls were 10 years old. Both girls were victims of polio and were at the sanitarium for treatment.

Although the girls lived only a few miles apart, Mary in Bogata and Lenna in Deport, they had never met, as traveling in those days was done by horse and buggy and even when the girls returned to their homes, they were unable to visit.

According to Miss Lassiter, the ladies had much to talk about and both enjoyed the reunion very much.

Katie Wilkerson, Linda Lee and Linda McLaughlin returned Thursday after attending the Texas Education Agency School Food Science Workshop at Athens High School in Athens. The workshop was July 10-11-12 and "Promoting Wellness in the 90's" was the theme for this coming school year.

John Perkins, T.E.A. Director School Lunch Program in Austin addressed the General Assembly. The teacher staff was made up of ladies from Austin, Corpus Christi, Rockwall, Pine Tree, Waco, Arlington, Winnsboro and Ft. Worth.

The objective of the workshop is to promote the breakfast and lunch programs at schools more effectively, and to be able to keep up with the new rules the state has made and also to get more credits on the school's certification.

It has been proven that if a student will eat a good breakfast they will make better grades. This coming year, the cooks will be working with the students, parents and teachers to see that every student will have a chance to receive a well-balanced breakfast at school. Studies show that chocolate milk has only 60 more calories per 8 fluid ounce whole milk. They also compare the nutrients in school lunch without and with chocolate milk it showed with chocolate milk the protein, vitamin A and C Thiamin, Riboflavin, Niacin, Calcium andiron were higher.

Griffin Family Reunion Held

The descendants of the late Statham and Ben Griffin held their annual reunion June 9 in the American Legion Hall at Deport, TX.

The Griffin is held the second Saturday in June each year. This was the 30 th year for the get toghether.

Ben and Statham came from Hickory, Miss. to Rugby, TX around 1875 and farmed in the Bogata, Rugby area until their deaths.

The highlight of the day was a film of the family in 1960. Those that were in the film are Jim, Paul, Harold, and Buster Griffin, Myrtle Moore, Hattie Hancock, Julia Storey, Clyde Fortner and Mary Ann Lummus. The film had been put on a television tape and was enjoyed by all.

Sam Moore was the master of ceremonies and many stories about members of the family were told. Pictures from the old Rugby school were on display and a number of the children of the Griffin family were in the picture. Albums of pictures were on display and a wonderful time was had by all.

Those attending the reunion were L.C. and Hazel Johnson, Mike and Gene Johnson, Mr. and Mrs. Frank Leslie (Lois) Sam and Charlene Moore, Robert and Mamie Glen Allen, Wayne and Carolyn Allen, Belle Griffin, Lee and Pinky Griffin, Sybil Evans, Jack and Geraldine Griffin, William Kenneth and Ruth Barnard, John and Patricia Farmer, Jim Fortner, Francis Griffin, Grace Griffin, Helen Moore, Reba Temple, Ruth Skaggs, Johnny and Murl Gene Hawks, Sam and Helen Lattimer, Donna Erwin, Gayla Waits, Paul and Mary Fortnr, Janice nd Sam Hastings, Ann Griffin Randolph, Suzanne Taylor and Kelsey, Patricia and Rebecca Taylor, Julie Randolph, Jay Hancock, Jeff Jackson and Bob and Billie Hancock.

The 1991 reunion will be held on the second Saturday in June at the Deport American Legion Hall.

Area Sales Tax Figures Released

State Comptroller Bob Bullock said Monday that this month's sales tax rebate checks to cities and counties in Texas totaled $84 million.

"That's a comfortable jump ahead of last year's payments and another indication that our economy continues to grow," Bullock said.

July's rebate checks to cities totaled $75 million, an increase of almost 10% over last July's payments. So far this year, total payments to cities have increased 8%.

Houston received $12.3 million, the state's largest payment whil Dallas received the state's second largest payment of $7.9 million. San Antonio received $4.5 million and Austin received $3.3 million.

Mt. Pleasant received $84,165.96 for 4.02% increase while Talco received $1,244.66, for a 6.01% decrease.

Blossom received $1,085.75, marking a 10.55% decrease while Deport received $1,222.64, for a 5.66% decrease over last July's payments.

Paris received $170,565.38 for a 9.66% increase.

Bogata received $1,644.63 for a 3.48% increase and Clarksville received $14,626.99 for a .30% increase.

Detroit received no payment this period, marking a 14.54% decrease over July , 1989.

Merchants collect the state and local sales taxes and send them to the Comptroler's office with their tax returns. The state keeps its share and sends cities and counties monthly payments reflecting the local portion fo the sales tax.

All local sales taxes must be approved by area voters and may be used for any legal city or county expenses. Most areas put the money in their General Fund and use it for operations like fire fighting, maintaining roads and law enforcement.

Child Abuse

by
Jenny Roach

There is a serious problem in todays society. We must all look at it as a problem, because that is what it is, a "problem" . That is the problem of child abuse.

People are abusing their children because they like it, or they were abused when they were a child.

There are also many cases where a brother or sister abuses their little brother or sister. In many cases some say it is because the child was abused when he or she was a baby, and then this brother or sister was born and was abused so the child feels hate towards them so the child tries to hurt them like they were hurt.

There are many so called "reasons" that the abuser uses. But are these reasons or excuses?

There are also many affects of child abuse. There could be mental damage, physical damage, or even death as a result to the beatings.

There have been many cases of the child beaten to death, or the child has been beaten severe enough to need a doctor. But the child never goes to the doctor because the parent or parents do not want to get in trouble by the law. So the child finally dies from the wounds or gets an infection from the wounds and dies anyway. Even if they do take them to the hospital it might be too late to save the child.

But even if they do take the child to the hospital, the parents usually make up another reason of how the child got hurt. Even if the hospital thinks the child has been abused they may not can get enough evidence to charge the parents with child abuse, so then they still get off scott free.

There is still another question. How can we help stop child abuse?

The best way to stop it is to never let it start in the first place. But there is also another way. That is for everybody to watch out for everybody.

If you think or know of a child that is being abused there are many 24 hour hotlines that you can call that will check the people out and see if the child is being abused. The people will never be told who called and reported the child abuse, they will also never know you did it unless you tell them.

There is one hotline at the front of your phone book. It is 1-800-252-5400. If you call this hotline the people they will contact the local authorities . Then the authorities will check the people out.

So please if you have any reason to believe that a child you know of is being abused in any way, please contact someone. If you don't do it then no one else will. You could save a childs life with one phone call!

Editors Note: Once more we are running a child's view of things...this time on a much more serious subject than "How I Spent My Summer Vacation". The simple, direct plea to adults to help her contemporaries is short and to the point.

Social Security Notes

By Ray Hudson, District Manager

If you work after you retire...If you are approaching retirement, you are probably looking forward to a well earned reward after years of hard work. Yet, you enjoy working and do not want to stop entirely. You may ask, "If I take a part time job or run a small business, can I still get Social security retirement checks?"

The answer depends partly on your age. If you ar eunder 65, you can earn up to $6,840 in 1990 and receive all benefits due. If you are 65 through 69, the annual exempt amount this year is $9,360. And if you are 70 or older, there is no limit on earnings. The exempt amounts increase each year to keep pace with rising wage levels.

Even if you earn over these amounts, partial benefits may be payable. The basic rule is that for people under 65, $1 in benefits is withheld for each $2 earned over the exempt amount. the withholding is $1 of each $3 earned for people 65-69.

There is also a special rule that applies in only 1 year, usually the year you retire. You can get a full benefit for each month earnings do not exceed one-twelfth of the annual limit, (in 1990, $570 if you are under 65, and $780 if you re 65-69).

This monthly rule allows you to start getting benefits right away in the year of retirement no matter how high your earnings are earlier in the year. If you are self-employed, your time and services devoted to the business are considered in addition to net income; you can get more information on this at the Social Security office.

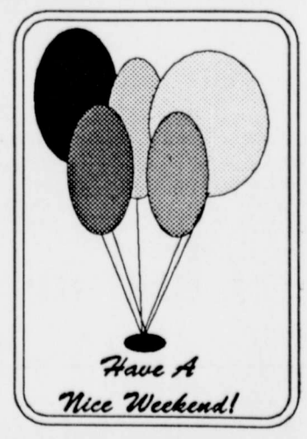

We will be pleased to answer questions you have about how earnings affect Social Security benefits.

A list of names is available for people who want to choose a doctor or medical supplier in this area who will accept Medicare assignment. Each Medicare carrier publishes a Physician/Supplier Assignment Rate List for the local service area. The Social Security offices in the carrier's service area receive a copy of this list for use as a reference source.

The list shows the name, address and percentage of assignments for each doctor and supplier in the preceding year. The assignment rate is shown in a range from 0 percent to 100 percent. If a doctor practices as part of a group, the group's name and assignment rate are shown.

A person can come into the Social Security office and look at the list to find out which doctors accepted assignment in the past year and about how often. This is not a guarantee, however, that the doctor will accept assignment. Doctors choose to accept assignment on a case-by-case basis.

The Medicare carrier in this area is listed in the back of Your Medicare Handbook.
