SNYDER, TEXAS (79549) SUN., MAY 13, 1979

Finance Bill To Conference Panel

AUSTIN (AP)—Within hours of each other, the House and Senate passed different verions of a $1 billion school finance plan Friday, both of which call for 7 percent teacher pay raises.

Drastic differences exist between the complex bills and likely will force appointment of a House-Senate conference committee Monday to draft a compromise both chambers can live with.

The votes were 28-1 in the Senate and 125-8 in the House to approve the separate bills.

Both measures clash with Gov. Bill Clements' recommendation of a 5.1 percent cost-of-living increase for teachers.

"I guess we'll just have to wait and see if a higher figure comes out of this, what he'll do," Sen. Oscar Mauzy, Senate Education Committee chairman, said of what would happen if Clements vetos a conference committee bill.

Republican representatives made no attempt to cut salary schedules in the bill, which was backed by the Texas State Teachers Association and school administrators.

The big difference is the fact that the Senate bill includes $452 million that had been ear-marked for covering school districts' revenue losses from the 1978 Tax Relief Amendment.

House members made reimbursement part of a separate bill implementing the amendment. The result is the House version of the school finance bill, taken together with the tax relief bill, is more generous to the school districts.

Rep. Hamp Atkinson, D-New Boston, chairman of the House Public Education Committee, said the senate bill, in effect, gives no tax relief while the House bill does.

Mauzy said the Senate bill does a better job of trying to spend more money to equalize rich and poor districts.

The Senate bill totals $1.03 billion for 1980-81 while the House bill amounts to $1.1 billion. Atkinson said the House bill spends $25 million to $30 million more than is available and "we'd love to have an updated projection or an increased projection from the comptroller."

Mauzy said there is more than enough money available to implement the Senate version.

Sen. Pete Snelson, D-Midland, won votes to amend Mauzy's bill, which originally called for a 5.1 percent teacher pay raise. Snelson reduced spending in other areas to balance the increased teacher salary schedule.

Senate provisions include $457 million for teacher salaries and benefits; $117 million for maintenance and operation; $173 million for equalization aid; and $256 million to local costs of the Foundation School Program at approximately today's level.

The House bill includes $264 million to keep local fund assignments from rising; $427.8 million for increased salaries; $152 million for equalization; and $117 million for maintenance and operation.

Weekend update

Unstoppable Movement

WASHINGTON (AP)—Alexander Ginzburg, the exiled Soviet dissident, says no authority can crush the human rights protest movement in his homeland because new voices always rise up to replace any that are silenced. The movement is "unstoppable," he told a congressional commission set up to monitor compliance with human rights provisions of the Helsinki Accords.

Nuclear Techs Goofed

WASHINGTON (AP)—Technicians in the Three Mile Island nuclear power plant made crucial errors, helping turn a minor incident into a major one, partly because of control room design deficiencies that exist at other plants, a Nuclear Regulatory Commission staff report says.

The report, issued Friday, said control rooms are often so poorly designed that it is difficult for operators to tell what is really happening inside a reactor during an accident.

Odd-Even Gas Eyed

WASHINGTON (AP)-Carter administration officials, their plan for standby rationing authority scuttled by Congress, are debating whether to draw up a nationwide odd-even plan for gasoline sales.

Unlike rationing, which would be used only in case of a severe oil shortage, the odd-even sales plan would be designed for use on short notice. The plan, already in use in parts of California, limits gasoline sales on even-numbered days to cars with even-numbered license plates, and on odd-numbered days to those with odd numbers.

Lester Flatt Dies

NASHVILLE, Tenn. (AP)-Bluegrass singer-guitarist Lester Flatt, who teamed with banjo-picker Earl Scruggs in 1948 to form the group "The Foggy Mountain Boys," died Friday of heart failure. He was 64.

The group was best known for "Foggy Mountain Breakdown," the background music for a chase scene in the movie "Bonnie and Clyde," and for "The Ballad of Jed Clampett" from the TV series "The Beverly Hillbillies."

MOTHER OF THE YEAR–Ruby Browning, winner of the Mother of the Year contest sponsored by the Snyder Daily News, is presented with a pot plant and corsage by Jo Ann Nunley of the SDN staff. Mrs. Browning is a native of Dermott and reared eight children. They are Billy Ray of Dermott, Dick of Snyder, Rusty of Post, Mrs. Patsy Kelley of Rotan, Mrs. Nell Parks of Rotan, Timp of Post and Mrs. M.J. Merritt of Snyder. One son, Johnny Sam, was killed in World War II. (SDN Staff Photo)

Mother-Of-Year Award Goes To Mrs. Browning

By JOHN DUNNAM

Mrs. Ruby Browning, 3733 Highland, is the winner of the Snyder Daily News Mother of the Year contest. This mother of eight nursed her family through the Great Depression, bouts of whooping cough, measles and broken bones and continues to be a shining light in the lives of her children.

Despite crippling arthritis, the widow of the late J.M. Browning persists with gusto in doing the things she loves best: working in her garden, growing flowers, making things with her hands, studying the Bible and being with children.

It was with the same love and energy that she devoted her youth to the task of making sure her eight little ones grew up to be healthy, responsible and God-fearing citizens, declares her oldest daughter, Mrs. D.V. Merritt Jr. who nominated her for the honor.

"My mother deserves the Mother of the Year (award) because all these years she is the one who gave herself no time but to others all her time," Mrs. Merritt wrote in her letter.

Feeding a family of 10 three meals a day, even for a farm family, was never an easy chore, Mrs. Merritt remembers. For example her mother bought flour by the 100-pound sacks to make bread.

"Sometimes we complain about having to cook and all we have to do is punch a button and start the heat going. Mother had to cut the wood, start a fire and wait for the stove to heat before she could start. And never did I hear her say 'let's go out to eat' ...did they do that then?"

Times were hard in those days and a mother had to know how to stretch a dollar. Shoeing and clothing eight growing kids was a never ending job. Every spring and fall she would go shopping for material, Mrs. Merritt says. The summers were spent sewing school clothes for September.

"That is when she wasn't in the field plowing or hoeing," she adds.

"And wash days were something else. Can you imagine washing clothes for 10 people on a wash board? Mother did. I was

Ask Us

Q–Why doesn't Snyder have a YMCA?

A–To our knowledge, nobody has made an effort to organize one. There was some talk about the possibility of establishing a YMCA here back in the 50s, but about that time, the Scurry County Boys Club was organized and it met some of the needs which had led to talk about a YMCA.

The SDN Column

Parents used to employ their own version of psychology in efforts to influence their offspring to protect health and welfare. Admonitions such as "if you drink coffee, it will cause black hairs to grow all over your face," or "if you use tobacco, your teeth will rot out" were not uncommon down there in East Texas where we grew up.

There always came a time, of course, when the youngsters reached the age where such warnings fell on deaf ears and even parents might laugh them off. Then, the children, after they grew up and had children of their own, likely as not used the same tactics.

Now, we find a piece of scientific information—from the Medical and Pharmaceutical Information Bureau, Inc., no less—that makes us wonder what would have happened if this authoritative data had been available back in those earlier days.

In a nut shell, it says that if you eat large quantities of carrots and sweet potatoes, your skin may turn yellow. That's what it says, Honest.

It explains that yellow and red vegetables, such as carrots and sweet potatoes produce carotenemia when eaten to excess. The result is carotenodermia, which means that skin turns yellow.

Now, carotenes are important to your health, the experts warn, but there's a limit to the body's ability to utilize them.

They speak only of vegetables in discussing this situation, and we assume that watermelons are not included. If they were, every youngster in our community would have glowed a bright red in the summer time when we were growing up.

★ ★ ★

It is encouraging to note that there is no reference to cancer in this report. But of course all youngsters know that carrots are good for what ails you—much better than watermelons, or even sweet potatoes.

★ ★ ★

The cactus patch philosopher says there really are some things that money can't buy—like what it used to.—WACIL McNAIR.

FAIR WEATHER

SNYDER TEMPERATURES: High Friday, 65 degrees; low, 39 degrees; reading at 7 a.m. Saturday, 41 degrees; precipitation, trace; total precipitation for 1979 to date, 4.14.

West Texas: Fair Monday. Partly cloudy Tuesday and Wednesday with widely scattered thunderstorms possible mainly east portion. Warming through Wednesday. Highs Monday mid 70s Panhandle to mid 80s south warming to low 80s Panhandle and upper 90s southwest by Wednesday. Lows Monday mid 40s north to low 60s south warming to low 50s Panhandle and mid 60s south by Wednesday.

Commencement Speaker...

Honor Fraternity Plans Special Welcome Here For Granberry

Phi Theta Kappa members at Western Texas College are planning a special welcome for Thursday night's commencement speaker, Dr. James Granberry.

Granberry, a Lubbock orthodontist, became a member of Phi Theta Kappa when he was a student at Tyler Junior College in 1955-56. Members of Phi Theta Kappa (PTK) are entitled to wear a special gold-colored stole with their graduation gowns, and the PTK members plan to present Granberry a stole like those they will be wearing for their graduation.

"It gives us great pleasure to welcome a fellow Phi Theta Kappa member to our campus for this occasion," Dr. Mary Hood, faculty sponsor for WTC's Psi Zeta chapter, said. Both Dr. Hood and Dr. Robert Clinton, WTC president, have been made honorary members of the WTC chapter in appreciation of their services to the organization.

Phi Theta Kappa is a nationwide honor fraternity and has been recognized by the American Association of Junior Colleges since 1928.

Dr. Granberry attended North Texas State University from 1956-57 and was graduated with honors from the Baylor University College of Dentistry in Dallas in 1961. He is presently a member of the Board of Trustees of the Baylor College of Dentistry and was named to the Board of Regents of East Texas State University in February. Tyler Junior College honored Granberry as an Outstanding Ex-Student in 1965.

Granberry, long active in civic affairs, was elected mayor of Lubbock in 1970. He was the youngest mayor ever elected in Lubbock, and won the race against four opponents, including the incumbent mayor, with 67.7 per cent of the vote. He had served as a member of the Lubbock City Council and mayor pro tem from 1966-70.

Residents of Lubbock honored their former mayor in 1977 with an Award of Appreciation for his courageous leadership during and after the tornado which struck the city in May, 1970. The American Academy of Achievement presented Granberry its Golden Plate Award for 1971 in recognition of his leadership as mayor following the tornado. Other recipients of this award have included Gerald Ford and Leon Jaworski.

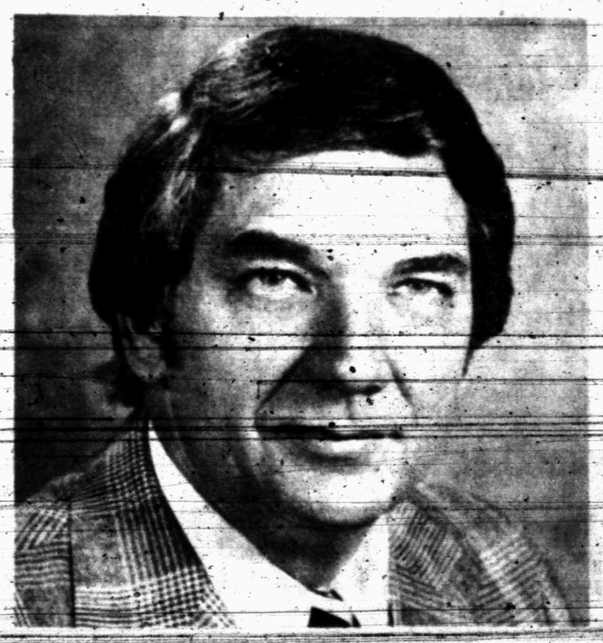
In 1976-77, Granberry served as chairman of the Gala Grand Opening Committee for the Lubbock Memorial Civic Center which was built in a portion of the city hardest hit by the tornado.

Granberry was the Republican nominee for governor of Texas in 1974, and he visited Snyder during that campaign. He was named to the State Republican Executive Committee in 1978 and was Lubbock County Chairman of the Clements for Governor Committee.

Dr. and Mrs. Granberry have five children, Leslie Elaine, 17; James H. Jr., 13; Zachary Turner, 11; Timothy Edwin, 10, and Susan Jane, 9.

The commencement program is to begin at 8 o'clock, and will be held in the Central Courtyard. The ceremonies will be moved to the college gymnasium in the event of unfavorable weather.

Graduates and their families will be honored at a reception in the Student Center following the program.



DR. JAMES H. GRANBERRY
...commencement speaker

400 Expected For Shrine Ceremonial

Some 400 persons are expected here next weekend for the annual Spring Ceremonial of the Suez Shrine Temple.

Registration for the event will begin Friday morning at the Scurry County Coliseum, and activities are scheduled throughout the day Friday, Friday night, Saturday, and Saturday night. The closing event will be a breakfast Sunday morning in the Towle Park Barn.

Dalton Walton of Snyder is the Ceremonial Master, and the spring event this year will honor Jim Simpson, manager of Hughes Tool Co. in Snyder, and pay tribute to the late Ed Schulz.

This will be the first time since 1960 for the Snyder Shrine Club to host the ceremonial.

Headquarters for the event will be set up at the American Motor Inn. A highlight of the three-day program will be a parade, which will feature the famous Shrine Motor Patrol from Big Spring and clowns. Also appearing in the parade will be the senior high band, two sheriff's posse units, plus the National Guard color guard and Snyder Goldcoaters.

Ray Robinson of Sanderson is the Suez Shrine Temple Potentate.

Carriers To Get Hike In Rate June 1

Because of higher gasoline costs, home delivery prices of the Snyder Daily News will increase 15 cents, to $3.15 per month effective June 1.

The entire increase will go to the carrier in an effort to offset the rapidly increasing cost of operating his delivery vehicle.

Other new rates, effective June 1, will be $9 for three months, $18 for six months and $35 for one year.

Mother Of The Year

(Continued From Page 1)

so happy the day a Maytag salesman convinced Daddy that mother needed a washing machine. All the neighbors around were glad also because mother shared her machine with them."

If Mrs. Browning had a hard row to hoe, she either didn't realize it or did not mind. Counting her blessings was a daily ritual. Every night she read the Bible and family attendance was required. Her eyesight remains good and she continues reading her Bible and giving thanks.

"I am so glad the Lord gave me the strength to take care of my husband for the three years after he had his stroke," she says. Her husband, J.M. Browning died March 1 this year.

Her daughter also recalls some compassion for others who were less fortunate than they.

"My mother never turned a hobo away and we had plenty of these because the railroad was the border line on the east side of our farm.

"Because of an uphill grade the trains slowed, this gave the hobo a chance to jump off and go to our house for a handout. She not only gave them food to eat but packed a supply for them to take along. She never liked the term hobo because she knew most of these people were looking for work and just could not find any."

As always, being a mother was a catch-all job that included being everything from tutor to doctor.

"Mother was a teacher before she married but after having children, that's when her teaching career really began. After supper each night she started with the smallest child, reinforcing what the school teacher had taught that day. I remember when I was in high school two of my math teachers sent home problems with me to see if mother could work them. She could. They couldn't."

Mrs. Merritt also remembers a time when her mother set a broken arm for one of the boys. She did such a good job the doctor did not remove the cast she had put on it and the arm healed perfectly, Mrs. Merritt said.

Although advancing in age and immobile without her walking cane, she continues providing what she can for her seven surviving children, 17 grandchildren and 10 great-grandchildren. She is prolific and generous in her embroidery, and crochet work and has an abundant garden. She planted some of the seed by sticking her walking cane in the ground to make the holes. And there are still little ones always about. The kids on her block faithfully take in her paper each day and bring her flowers and sing her songs.

Her advice to young mothers is, "teach your children to love the Lord, love one another and to always try and do what's right. Those are the most important things in life for everybody."

Mother's Day Tribute To Mothers Anonymous

By Abigail Van Buren

1979 by Chicago Tribune N.Y. News Synd. Inc.

DEAR ABBY: I hope you will use my letter on Mother's Day as a tribute to all those brave, unselfish mothers who gave up their babies.

I am a new mother whose heart is overflowing with gratitude to a 15 year old girl I have never seen. I understand that she is a beautiful, intelligent person who became pregnant accidentally and decided on her own that her baby should have a better life than she was able to provide for it; so she put it up for adoption.

As soon as our son is able to understand, I shall tell him about his "real" mother and what a courageous person she is.

In the meantime, I pray daily for her well being and good fortune.

Sign me

BLESSED IN NEW JERSEY

DEAR BLESSED: Thank you for an appropriate letter for Mother's Day. I agree that giving up a child for its own good is the ultimate in unselfishness. God bless those mothers who did.

DEAR ABBY: I am an 11-year-old boy with a problem. My father died so long ago I don't even remember him, but Mom has a man living here at our house. He has been living here for about a year. Most all my friends know that my Mom is a widow, but what do I say when someone asks whose car is parked in our garage.

NO ANSWER IN ELGIN

DEAR NO ANSWER. Don't lie. Tell them the car belongs to a friend of your mother's. It does, and he is.

DEAR ABBY: My husband is a physician who has just passed his 50th birthday.

He tells all his male patients who reach 50 to slow down. If they smoke, he orders them to quit, but HE's a three pack a day man.

He puts all his overweight patients on diets, but HE is considerably overweight himself and can't stay on a diet for two days. He insists that daily exercise is a MUST, but HE doesn't exercise at all.

He says that an annual vacation is essential to good health, but HE hasn't had a vacation in six years. And this will floor you: He wants all his patients to have a complete physical checkup every year, but HE hasn't had one for 10 years.

What's wrong with him, and how can I get through to him?

DOCTOR'S WIFE

DEAR WIFE: He's human. He finds advice much easier to give than to take. You can get through to him (maybe) by insisting that HE consult a colleague for a checkup. If he refuses, ask him to keep paying those life insurance premiums, so that you and your next husband can retire in comfort.

DEAR ABBY: Since I read so much about mothers who can't get their teenagers to keep their rooms picked up, I must share this amusing incident with you.

My home is always neat with the exception of my 15 year old daughter's bedroom, which is a disaster. Drawers open, clothes thrown everywhere, bed unmade, etc.

I fussed, threatened, punished, but to no avail. Finally I just gave up and kept her bedroom door closed so I wouldn't have to look at the mess.

Last week our house was robbed. For some strange reason, the burglars took only the television sets and cameras. The police came out to investigate. They asked me to accompany them while they checked every room in the house to find out if anything else was missing.

When they opened the door to my daughter's bedroom, they gasped, stood grief, they certainly ransacked THIS room!

I calmly replied, "No. It always looks like this."

ROCKFORD MOTHER

Do you wish you had more friends? For the secret of popularity, get Abby's new booklet; "How To Be Popular; You're Never Too Young or Too Old." Send $1 with a long, self-addressed, stamped (28 cents) envelope to Abby, 132 Lasky Drive, Beverly Hills, Calif. 90212.

Gacy's Autos To Be Auctioned

CHICAGO (AP) Attorneys for John Gacy Jr. say they will auction his Oldsmobile, truck and van to raise money for his defense on murder charges stemming from the deaths of 33 young men.

The car, which authorities say Gacy may have used to carry at least one body to be dumped in a river, already has attracted bids of up to $50,000 from souvenir hunters, says attorney Robert Motta. He would not give a specific date for the sale.

The remains of 29 bodies have been unearthed from beneath Gacy's home or elsewhere on his property. Four bodies were recovered from the Des Plaines and Illionis rivers.

Traces of volcanic ash that buried Pompeii traveled through the air as far as Agropoli, 43 miles away.

ASTRO-GRAPH

Bernice Bede Osol

Your Birthday

May 13, 1979

This coming year, industrious effort will yield higher returns than you might expect. If you don't feel you can tackle a large project alone, find a willing partner and go after what you want.

TAURUS (April 20-May 20) You'll put your talents to work again today when you take a dormant project and, with a little ingenuity, turn it into something worthwhile. Learn more about yourself by sending for your new Astro-Graph Letter which begins with your birthday. Mail $1 for each to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth sign.

GEMINI (May 21-June 20) Boosting other people's egos makes you a person many want to be around today. Everyone needs to be told nice things about themselves, and you do it so well!

CANCER (June 21-July 22) The paternal instinct is strong in you. Doing little special things for those you love fills your day with quiet satisfaction.

LEO (July 23-Aug. 22) Chances are you'll make the social scene again today, and do it very well, indeed. Don't be surprised if you are the center of attention.

VIRGO (Aug. 23-Sept. 22) Follow your hunches in handling personal belongings today. If you feel changes are in order, make them now. Your instincts are steering you correctly.

LIBRA (Sept. 23-Oct. 23) You have a way of phrasing things today, either in the spoken or written word, that will get your points across in a masterly fashion.

SCORPIO (Oct. 24-Nov. 22) Without your expending too much effort, chances of receiving some things you'd like to have could come your way today.

SAGITTARIUS (Nov. 23-Dec. 21) You could get a better perspective on an important issue today that will make you far more assertive than you have been on this matter.

CAPRICORN (Dec. 22-Jan. 19) Cut down on your outside involvements today and take positive steps towards a secret ambition you've been nursing. You stand a good chance of getting it.

AQUARIUS (Jan. 20-Feb. 19) Swaying others to your way of thinking comes fairly easy for you today. The timing is right for you to score a victory by using your clever ideas.

PISCES (Feb. 20-March 20) The next few days offer excellent chances of succeeding in areas that are important to you. Dare to think big and go after what you want.

ARIES (March 21-April 19) Although you may not even be aware of it, some of the things you say today prove to be extremely helpful to others. Your head is on straighter than you think.

(NEWSPAPER ENTERPRISE ASSN.)

May 14, 1979

Joint ventures with persons with whom you have close ties look very promising for you this coming year. It's likely you may enter into two arrangements.

TAURUS (April 20-May 20) A valuable lesson could be learned today from your observations of how another handles an issue. Later you'll be able to use it to your advantage. Your new Astro-Graph offers many new facts about you. Get yours by mailing $1 for each to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth sign.

GEMINI (May 21-June 20) There is something that needs talking over with your mate or family today so that plans you want to make can work out satisfactorily.

CANCER (June 21-July 22) This will be an extremely productive day because you know how to apply yourself both physically and mentally as well as enjoying what you're doing.

LEO (July 23-Aug. 22) The results you're seeking today can be attained with gentle, but logical, firm persuasion. Don't be afraid to add a touch of humor to the picture.

VIRGO (Aug. 23-Sept. 22) Busy yourself with things of a domestic nature today. You will get a lot accomplished and your activities should turn out to be more fun than work.

LIBRA (Sept. 23-Oct. 23) By using your natural tact and charm you'll be able to win over someone who has found it difficult to see your point of view.

SCORPIO (Oct. 13-Nov. 22) Projects that you feel enthusiastic about today will not only be fun for you to do. They could be real moneymakers as well.

SAGITTARIUS (Nov. 23-Dec. 21) You're extremely appealing to members of the opposite sex today. You present yourself with a flare that admirers find hard to resist.

CAPRICORN (Dec. 22-Jan. 19) Doing for others today will afford you greater pleasure than merely looking out for your own interests. What's more important, those whom you help will be appreciative.

AQUARIUS (Jan. 20-Feb. 19) You need to be actively involved with one of your humanitarian projects today. Select the one that does the greatest good for the largest number.

PISCES (Feb. 20-March 20) In matters relating to your finances or career today, keep everything as light as possible for success. Haggling over details could be disruptive.

ARIES (March 21-April 19) Your thinking cap is in fine shape today. You'll welcome any chance to use it. In fact, the bigger the challenge the better you'll like it.

Student Senate Officers For 1979-80 Are Elected At WTC

KENNETH LEVENS
...president

J.D. SHEFFIELD
...vice president

SHEILA SANDBOTHE
...treasurer

ANDRA CRENSHAW
...secretary

Kenneth Levens has been elected president of the Western Texas College Student Senate for the 1979-80 school year.

Other officers for the coming year will be J.D. Sheffield of Loraine, vice president; Andra Crenshaw of Snyder, secretary, and Sheila Sandbothe of Anson, treasurer.

Mrs. Mickey Baird, Director of Student Activities at WTC, serves as faculty advisor for the Senate. Freshman and sophomore representatives for the body will be elected at the beginning of the fall semester. All the new officers have served as representatives to the Senate this year.

Levens is an Agri-Business major from Anson and served as chaplain of the Senate this year. He is also a member of Phi Theta Kappa, a national honor fraternity for students in junior colleges, and a member of the Judo Club. He enjoys sports as a hobby and was an All-District linebacker and punter in high school. His parents are Mr. and Mrs. J.C. Levens.

Sheffield, a Pre-Law major, was recognized as an Outstanding Sociology Student at the spring Awards Day program. He was named Best Bandsman for two years at Loraine High School and received a music scholarship to WTC where he is a member of the WTC Jazz Ensemble. He is also a member of Phi Theta Kappa and was named to the President's List for the 1978 fall semester. He is the son of Mr. and Mrs. A.K. Sheffield.

Miss Crenshaw has chosen a general business major at WTC. She has served as secretary for Kappa Chi in her freshman year and is to be vice president of Phi Theta Kappa for 1979-80. She is a sports enthusiast and was co-captain of the SHS volleyball team in her senior year. She was also a member of the SHS Student Council and the National Honor Society.

Her parents are Mr. and Mrs. Howard Crenshaw.

Miss Sandbothe is the president-elect of Phi Theta Kappa. A legal secretarial studies major, she is minoring in journalism and has served as Feature Editor for the campus newspaper, The Western Texan, this year. She is also a member of the WTC Press Club and of the Office Education Association. At Anson High School, she was president of the National Honor Society and the receipient of numerous honors. She is the daughter of Mr. and Mrs. R.J. Sandbothe.

Peru Exhibit In Houston

The spectacular exhibit of Peru's Golden Treasures will open June 4 in the Houston Museum of Natural Science and remain for three months — the same length of time that it will be shown in New York, Chicago, San Francisco and New Orleans.

This is a major international exhibition, Sharon Sutton, Director of the Scurry County Museum, said, and it has been immensely popular with those who have seen it.

Information about tickets and museum schedules may be obtained by writing the Houston Museum of Natural Science at 5811 Caroline Street, Houston, 77030, or calling the museum at AC 713 526-7026.

Evening Schedule Off For Summer

The office of the Scurry County Veterans Service Office, E.H. (Dan) Dever, Jr., will discontinue its evening hours for the summer starting Tuesday.

Dever's office is in the Administration Building at Western Texas College, and during the summer it will be open from 8 a.m. to noon and from 1-4 p.m. each weekday. Evening hours will be resumed with the opening of the fall semester at the college.

Persons wishing information about veterans' affairs may visit Dever's office or call the office at 573-8511, extension 212.

In designing a perpetual motion machine, engineers can learn from nature. The human heart beats 60 to 80 times a minute during a lifetime which may last over a century. The work done each minute by the heart is equivalent to lifting a 70-pound weight a foot off the ground.

50th-ANNIVERSARY-Delta Kappa Gamma Society International Day has been proclaimed by John Fagin, mayor. Shown with Fagin are society members Durelle Gorman, left, president of Zeta Lambda Chapter, and Virginia Grove, Alpha State Executive Secretary-Treasurer. (SDN Staff Photo)

Delta Kappa Gamma Day Proclaimed Here

By official proclamation Mayor John Fagin has declared Delta Kappa Gamma Society International Day in Snyder in recognition of 50 years of leadership in education in Texas.

The Delta Kappa Gamma Society, founded by 12 women educators from major cities in Texas, now has over 16,000 Texas members in 261 chapters. Zeta Lambda Chapter has been active in the Scurry County area since 1961.

In celebration of the golden anniversary, area members will attend a luncheon on May 19 honoring the founders of Delta Kappa Gamma.

Since 1929 the Delta Kappa Gamma Society has worked toward better professional preparation, fairer recognition of women's work in the teaching profession, and more scholarships for those who need aid in improving their professional preparation. The society, now international, has over 147,000 members in all 50 states, Canada, Mexico and eight other countries.

Officers of Zeta Lambda Chapter are Durelle Gorman, president; Margie McNair, first vice president; Gerri Parker, second vice president; June McGlaun recording secretary; Jo Alyce McMullan, corresponding secretary; Jean Sealy, treasurer; and LaNelle Rambin, parliamentarian.

Many of the members are planning to attend the 50th Anniversary celebration of the state Delta Kappa Gamma Organization in San Antonio June 7-9.

In July members from all over the world will convene in Dallas for regional conferences and the Golden Anniversary celebration. Ms. Sarah Weddington, special assistant to President Jimmy Carter, will be the speaker for the opening session on July 23.

Senior Kiwanis To Get Charter

Presentation of the charter for the Golden K Kiwanis Club will be a highlight of activities at the Scurry County Senior Citizens Center this week.

The new club meets at the center at noon each Tuesday, and the charter ceremonies are scheduled at 7 p.m. on Tuesday.

Randy Perkins will present a program of music preceding the noon meal in the center on Monday. A "fashion show" is planned for Thursday. Square dancers will practice Monday evening and Thursday afternoon and the Senior Center Choir will rehearse at 1 p.m. Friday. The group is to sing for the Lions Club at noon Tuesday and again for the Golden K meeting Tuesday night.

The week of May 21-25 will be Get Acquainted Week in the center, Gloria Shaw, director, said, and several special activities are being planned.

"We would like to meet new senior citizens during Get Acquainted Week," Mrs. Shaw said, "and we are extending a special invitation to those 60 and over who haven't come to the center yet."

The center is located at 2603 Avenue M and is open from 8:30 a.m. to 4:30 p.m. Monday through Friday.

Science Courses Planned At WTC

College students who need biology or chemistry courses are invited to check the summer courses planned at Western Texas College beginning May 31.

Biology courses scheduled are BIO 145 in the first six weeks and BIO 146 in the second session. Chemistry courses to be available are CHM 143 (first session) and CHM 144 (second session).

Also to be offered by the science and mathematics division are math concepts (MTH 135), and calculus I (MTH 138), both in the first six-week term.

Dr. Shel Hillis, chairman of the science and mathematics division, will teach the first biology course. Joe Carter, who is returning to WTC after a year on a temporary assignment in Colorado, will teach the second course.

Mike Otto will teach both sessions of chemistry and Lynn Dyer will teach both the math courses.

The small summer classes will allow students to receive more individual attention in areas which may be difficult for them, Hillis pointed out. "We plan field trips in addition to the lectures and laboratory assignments for extra learning opportunities."

Copies of the summer schedules are available in the office of the registrar in the WTC administration building. Registration for the first summer session will be held on May 30.

Some people, once they get that by throwing shoes against the wind they could ride it out and make it stop.

Ira Schools Schedule Commencement Rites

IRA Top high school and junior high students have been announced at Ira. Eight seniors will be graduating and 11 eighth graders are to make the passage into high school at baccalaureate and commencement services at 7:30 p.m. Friday, June Middlebrooks, pastor of the Church of God Church in Ira, will be the speaker.

Valedictorian of the senior class is Brenda Cooley who completes her high school career with a 96.565 grade point average. The 18 year old daughter of Mr. and Mrs. David Cooley was active in band, school athletics and University Interscholastic League literary events. She was a cheerleader and served on the student council her freshman and senior years. Miss Cooley, known for her singing and guitar playing, says she also enjoys dancing and outdoor sports. She plans to attend West Texas State University in the fall with a major in physical therapy.

Sheila Ann Kellner, daughter of Mr. and Mrs. Kenneth Kellner, is the salutatorian. She has a 91.588 average. Miss Kellner played basketball and tennis in high school and enjoys filling her spare time waterskiing, taking pictures and riding motorcycles. She plans to attend Angelo State University and major in accounting.

Jimmy Byars, son of Mr. and Mrs. J.L. Byars, is the high ranking boy in the senior class. Byars, who was also the only boy in the senior class was student council president, voted most valuable member on the track team his junior and senior years and was a perennial district champ in debate and number sense. He enjoys golf, fishing and music and plans to attend Tarrant County Junior College and major in data processing. He has an 87.962 average.

Valedictorian of the junior high class is Julie Kellner, another daughter of Mr. and Mrs. Kenneth Kellner. She is a district tennis champion and also runs track and plays basketball and competes in UIL literary events. Her grade point average is 95.4.

Kelly Bryant, daughter of Mr. and Mrs. Franklin Bryant is salutatorian of the eighth grade. She is involved in sports and UIL literary events and enjoys reading and horseback riding. She has a 91.6 average.

Highest ranking boy is Kevin Walker, son of Mr. and Mrs. Charles Walker. Kevin is a class officer, on the student council, plays football, basketball and track and enjoys reading. His average is 87.1.

8th Coffee Event Aids Rehab Center

The 8th Annual Memorial Day Coffee project benefitting the summer program at the West Texas Rehabilitation Center is underway throughout West Texas.

As in past years, waitresses in restaurants throughout the area will be selling plastic American flag pins for $1 each entitling the purchaser to get a free cup of coffee in any of the more than 100 participating restaurants on Memorial Day.

Shelley V. Smith, executive director of the West Texas Rehabilitation Center stressed the importance of this year's project, as the Easter Seal campaign of last month fell far short of what was anticipated in revenue.

Smith pointed out that the coffee project traditionally provides the funds for a special summer program for more than 100 handicapped youngsters to keep them involved in therapy through the summer months, as well as other social and recreational activities.

Smith asked that all waitresses make a very special effort this year to sell as many of the plastic flag pins as possible as the growth of the past months at the Center, as well as the inflationary spiral, make it necessary to every project to produce more income. Waitresses will be selling the flag pins between now and Memorial Day with all proceeds going directly to the West Texas Rehabilitation Center's three campuses.

More families visit fast food restaurants on Mother's Day than any other day of the year.

Concert Set By WTC Musicians

The WTC jazz and vocal ensembles will mark the close of their year with a program at 2:30 this afternoon in the Fine Arts Theatre on the WTC campus.

Tickets, priced at $1.50 per person, will be available at the door.

Hermleigh Highlights...

Final Week Is Busy

Editor's Note--This is the final column written by Wesley Kruger and-or Curtis W. Tate, Hermleigh High School students, for the past two school years. Both are graduating Friday night. Kruger as valedictorian and Tate as salutatorian of their class. As they submitted their final column, they expressed appreciation to readers, especially those who have commented on their columns and encouraged them in their writing and in their school work.

By WESLEY KRUGER

HERMLEIGH -- The final week of the 1978-79 school year will be filled with many events. Activities will start tonight at 8 p.m. with the Baccalaureate Service for the graduating seniors.

Although the teachers will stay until regular dismissal time all week, classes will dismiss at 2:30 on Monday and Tuesday, following the six weeks tests that will be given on these days. School will dismiss at 2 p.m. on Wednesday and Thursday during the two days of final tests.

An awards assembly for junior high and high school students will be held at 1:30 Tuesday afternoon in the school auditorium. Tuesday evening a donkey basketball game, sponsored by the high school drama department, will begin at 7:30 p.m. in the gymnasium. Admission will be $1 for persons ages 6 - 14 and $2 for persons over 14 years of age. Children under 6 will be admitted free of charge.

Elementary students will receive recognition at an awards program in the auditorium Thursday morning at 9:30. The eighth graders will be recognized at their graduation exercises Thursday night at 7:30. They will receive certificates for having completed the work required through junior high school.

Friday, the last day of school, junior high and high school students will go swimming at Western Texas College and will picnic at Towle Park. Students will return to school at 2 p.m. and report cards will be distributed to students before their dismissal.

The concluding activity for the 1978-79 school year will be the high school commencement exercises that will begin at 8 p.m. Friday night.

Two Mishaps, Theft Logged Friday

Police were investing two minor accidents, the theft of a car door and a case of apparent criminal mischief Saturday.

The accidents both happened Friday. The first occurred at 2400 Huffman Ave. and involved a parked 1979 Ford owned by Globe Vacuum Co. of 213 23rd Street and a 1975 Buick driven by Zelda Reece of Levelland. The second mishap Friday was reported at 7:15 p.m. and involved a 1965 Ford driven by James Michael Hammond of 2705 47th St., and a 1974 Pontiac driven by Raul Garcia of 1406 30th St.

At 11:57 a.m. Friday reports show, Troy Crowder of 3001 Ave. C told police that a car door was taken from a 1962 Ford Pickup at his residence. The incident is believed to have happened sometime between 9:30 Wednesday morning and 2 p.m. Thursday. Value of the door was listed at $75.

At 11:35 p.m. Friday it was reported that several cars parked at Western Texas College had been marked with shoe polish and that paint had been put on the flag pole and some of the buildings. This incident is still under investigation.

Sign Ruled Out Of Order

OLYMPIA, Wash. (AP) —Doug McGee decided he no longer would chance the price signs at his service station since the price of gasoline is heading ever upward.

He drew up a sign reading "??.9" a gallon, but state officials don't think it's funny.

The state Department of Agriculture has ordered McGee to remove the sign. Officials in the agency's Division of Weights and Measures say the question marks could be mistaken for 7s, leading customers to believe they can buy gas for 77.9 cents a gallon.

McGee disagrees. "Anybody who thinks those question marks look like 7s needs new glasses or shouldn't be driving anyway," he says.

McGee's attorney, Kip Stilz, says he is studying the weights and measures laws, "but if they should take any action to force Doug to take the sign down, we'll try to get an injunction."

McGee also tried to lighten the heart of weary motorists during the 1973 gas crunch.

At that time he had a sign in front of his station which read, "Buggy Axles Greased, Horses Shod."

Donkey Basketball At Hermleigh

A donkey basketball game is scheduled in the Hermleigh gymnasium Tuesday at 7:30 p.m. Proceeds will go toward financing drama club activities.

Tickets are $1 for children 6-14 and $2 for those over 14.

There will also be a hobby horse race and a special act by a trained donkey. The games will feature adult men and women from the community.

"Where every Mother can be more beautiful"

HAPPY Mother's Day from MERLE NORMAN COSMETICS On The Square

AT PAT WALKER'S I LOST INCHES WHERE I NEEDED TO.

BEFORE PICTURE
Here is Simona Vega as she was when she came to Pat Walker's wearing a size 11 on a 4'11½" frame.

Having been on a diet all of my adult life, I've always counted either calories or carbohydrates. I would lose pounds and inches but the inches were always lost in the wrong places. The remarkable thing about Pat Walker's program is that I don't count calories or carbohydrates but yet I've lost 23 3/4 pounds and 33 inches. The inches are coming off where I need them off. I know it sounds too good to be true, but it is true.

The Pat Walker method is the one I can live with for the rest of my life. I know that now. I have more energy and I feel so much better. I truly feel like I have been reborn.

The complete Pat Walker personnel, counselors, technicians, and the receptionist, have been very helpful to me and I want to say "Thank You" to all of them for their support.

Simona Vega

Jenkins Vaults 14-6 For Second Place...

Tiger Trio Brings Home A 2nd, Two 4ths

AUSTIN--Snyder High School's young trio of state qualifiers came away from Memorial Stadium here Saturday with a second and two fourth place finishes.

Area Class AA contestants Ricky Sanchez and R.D. Lewis of Colorado City placed sixth and fourth in the 110 meter hurdles and the mile run, respectively.

It was a somewhat disappointing afternoon for the Tiger threesome - only because each was unable to reach a heighth or distance he had attained earlier in the season. But as a show of Snyder strength to come, the group of two sophomores and a junior made a definate mark.

Dale Jenkins, who took seventh place as a freshman last year, sailed 14-6 to grab a second place ribbon in the pole vault. Jenkins out-distanced third-place finisher Brian Jones, Gatesville, by a foot, but was nipped by Austin Westlake's Scurry Ellis, who won with a 15-0 effort.

Perhaps the toughest act to swallow was sophomore Brad Richardson's performance in the high jump. Richardson cleared 6-6 for fourth place - an effort equal to the winning heigth.

Jeff Keith of Corpus Christi Tuloso Midway, Joe Sheppard of Kilgore, Larry Taylor of Brenham, and Richardson all went out on 6-8 to tie for the crown. But according to the official rules, the athlete with the fewest misses is named the winner. Richardson, who had slipped twice at 6-4 and crashed through the bar without getting a jump off until his third - and successful - attempt, had the most misses.

Muggy, damp weather caused a definate problem with the meet Friday. Slips at the high jump, and in other events, were not uncommon.

Snyder junior Thomas Selmon brought home a fourth place crown in the long jump event, which saw two contestants break the 24-foot mark.

Selmon's effort of 22-4 placed behind James Redus of Bay City, who sailed 24-0¼, Van Pearcy of Andrews who leaped 24-0, and Willie Houston of Mount Pleasant, who had a best of 23-9¼.

In all, it was a strong showing of strength for Snyder High School, which, elgibility-wise, could return the threesome here next year - along with some up and coming talent in the 400 meters and mile, and perhaps a relay team or two.

Bay City won the Class AAA team title with 56 points, followed by Lubbock Estacado and Mount Pleasant with 30 each, Marlin and McKinney with 21, Bonham and Burkburnett with 20, Vernon, Odessa Ector and Andrews with 18, and Snyder with 16.

Sweetwater's Lowell Williams placed first in the Class AAA discus with a heave of 187-7.

Other area results saw Estacado's Robert Humphrey nail down a blue ribbon in the 100-yard dash with a 9.5 effort. Ector's James Ricks take second in the 330 hurdles with a 38.4. Jamie Harms of Anson take sixth in the AA 400 meters with a 50.2, and Edward Williams of Ector place second in the 110 hurdles with a 14.1.

Estacado's 1600 meter relay team of Jerry Gray, Preston Davis, Robin Gatewood and Humphrey destroyed the class AAA record of 3:19.8 by running a searing 3:15.7.

Most of the Class B, A and AAAA events were to be concluded Saturday. Among the Snyder area contestants competing were Roby's Al Gonzales (Class B), and Rotan's Freddie Acorn (Class AA).

Latest From New Deal And Midland...

Dusters Sign Top Talent

Western Texas College girls basketball coach Joe Cushing has signed several athletes to the Dusters for the coming season.

Among them are Jenni Anderson, 5-10, of Midland Greenwood, and 6-0 Shari Teal of New Deal.

"I'm very pleased with the girls we have coming this year," commented Coach Cushing. "They will give us more size, and all have good speed. This should help us a lot. This should help us a lot. They are all very intelligent girls, too."

Miss Anderson participated in track and basketball for four years at Greenwood, where she was voted most dependable and friendliest as a junior, and most likely to succeed her senior year.

She was co-captain for two years, a student council officer for two years and on the annual staff for two years; editor her senior term.

JENNI ANDERSON

Anderson is a member of the Fellowship of Christian Athletes.

"She is a very sound, fundamental player," added Cushing. "Jenni can be effective on both ends of the court. She's a good shooter."

Miss Teal will add height and extra talent to the Duster team which won a conference co-championship last season.

An all-around athlete, Teal was selected as a unanimous All-District basketball player her junior and senior years at New Deal, and was a regional qualifier as a high jumper this season in track.

She was also chosen All-District in basketball her sophomore year, and was a state qualifier in the triple jump. In track, New Deal was runner up in its district in 1978, and the district champion in 1979.

In addition, Teal was a captain of the basketball team her senior year, and was the New Deal Tournament's most valuable player.

She was selected to play in the upcoming THSGCA North-South All-Star basketball game in Abilene.

"Shari is an excellent jumper. She is a good inside player, a strong rebounder and a good percentage shooter. She is also very quick," commented Cushing.

SHARI TEAL

Snyder Leaguers

FARM LEAGUE

Athletics 12, Cardinals 4

The Athletics opened the 1979 Farm League season by trouncing the Cards Friday evening. No hits were given in the contest, but runs were scored for the A's by Jady Schulze (2), Vincent Valdez (2), Darin Clawson, Craig Watkins, Jerry Villareal, John Davis, Lane Pitts and Dave Kennedy.

For the Cards, Fryar scored twice and Robert Freeman and Mike Cline scored once each. Valdez was the winner pitcher.

Cubs 21, Giants 0

Troy Burton was the only player credited with a hit in this contest Friday, which saw 24 Cubs trot the bases - mostly on walks. Ray McDonald was the winning pitcher.

LITTLE LEAGUE

Cardinals 5, Athletics 4

A close game marked the beginning of the Little League season Friday with the Cards coming out on top by a run.

Todd Odom and Weldon McFatridge led the Cards with two singles and a double each. Jimmy Cowen whacked two singles and Richard Bruns hit one.

For the A's, Stacy Forbs, Jay Mayo, Bob Spikes and Chad Sellars each slapped a single.

Darren Pace was the winning hurler.

Cubs-Giants Game Cancelled

The score was 0-0 in the top of the second inning when the lights suddenly went out here Friday, bringing a quick halt to opening night. Before the game-stopper, Bobby Butler, Jon Zoda and Brad Rodgers had each collected a single.

The game will be replayed at a later date.

TO ALL WHO HELPED:

The officers of the Scurry County Girls Little Dribblers Association would like to take this means and opportunity to publicly acknowledge and thank those individuals and organizations who gave of their time, experience and money

(See Letter, Page 7A)

BASEBALL BEGINS--The 1979 Little League and Farm League began here Friday night and will continue through early July. Over 160 players, coaches, managers and officials were introduced to a large crowd of parents and fans during the hour-long ceremonies. (SDN STAFF PHOTO)

Bengals Gear For Burkburnett

Snyder's Tigers were to toss out the final ball of the District 3-AAA baseball season here Saturday, then begin quick preparations for their bi-district playoff against Burkburnett.

The Tigers, who went into Saturday's game with a 9-2 loop record and won the district crown a week ago, will host Burkburnett in round one of the playoffs Tuesday at 4 p.m.

The best of three series moves to Burkburnett on Friday, with teams vying at 2 o'clock. A third game, if necessary, would follow immediately.

Tuesday's meeting here marks the third time in three years Snyder and the Bulldogs have met in bi-district baseball competition. The Tigers defeated the Dogs in straight games in 1977, and later fell to Pecos in regionals.

Burkburnett won the affair last year in a series which went the distance, and advanced to the state finals before losing. The Bulldogs returned a number of those players again this season.

Pressey Will Try For World Games

Paul Pressey, a 6-4 freshman with Western Texas College, has been selected to try out for World Games competition.

The Richmond, Va. native, voted the NJCAA Region 5 Tournament's most valuable player this year, joins top talent from across the nation in "auditioning" for the United States team.

Competing for a spot against such talent as Sam Worthen of Marquette and Erving Johnson of MSU, Pressey will attend tryouts beginning Aug. 15 in Colorado Springs, Colo.

If chosen for the team, Pressey would play in the World Games - held in Mexico this year - against squads from all over the world.

"This is quite an honor," explained Pressey's coach, Nolan Richardson. "Just to be chosen for the tryouts is something. Only 20 or so kids from across the United States are asked to try out for the team.

"I would imagine they'll be looking at Paul as a guard since they'll be bringing in forwards at around 6-10, 6-11," he said. "If he is chosen, he would miss some school during the Games, but the experience would be invaluable."

SHS Sets Ceremony

Snyder High School will honor its athletes at 6 p.m. May 21.

The program will open with an awards ceremony in the auditorium, followed by a reception in the student center. Snacks and refreshments will be served.

SHS has won five district titles this school year, among a number of other team and individual awards.

In 1934, the New York Yankees defeated a Chinese All-Star team in Shangai, 22-1, as Babe Ruth hit three home runs.

letter

(Continued From 6A)

to make this, our founding year, the success it is.

We had ninety-six girls register, and eighty-two finished the season. Our appreciation goes to each of them for their participation, cooperation and 100 percent effort.

The support of the parents and friends of the players was tremendous. Thank you for this support of the teams and your encouragement to them.

A very special thank you to Coach Kenneth Housden. It was his original effort that got this all started. He also conducted the clinic, made our game schedules, took care of our practice and game facilities, and his high school girls basketball team took care of our score keeping and time clock responsibilities for each game.

Next, the Boy's Club director, Jack McGlaun, assisted us in our organization and registration. We drew greatly on his past experience with the boys program and he and his assistants made our back boards for our 9-10 year olds.

To say "Thank You" to Coach Joe Cushing and Jim Tully of W.T.C. doesn't seem sufficient. They not only arranged and took responsibility for our referees, which is no small task, but also provided us with our coaches and managers for each team from the W.T.C. Dusters team. Dr. Tully also took our individual and team pictures and Coach Cushing assisted in the All-Star nominations. They were each present for our games as was Coach Housden to assist or advise with any regulation or rule problems we encountered.

We feel their coopertion and participation is setting a precedent for the future of Girls Little Dribblers and the W.T.C. Dusters programs.

And last, but certainly not least, those that gave so willingly and generously, both as individuals and businesses to support a program which had not at that time proved itself. We said "kids" and they said "how much?"

Spurs Freeze Bullets, 118-102...

'Iceman' Gives Cool Performance

SAN ANTONIO (AP)—Forty-two points or no 42 points. Playoff or no playoff. It was just another night at the office for San Antonio's "Iceman."

"This is my job and the job is not over yet," unruffled George Gervin said Friday night after he poured in 42 points - a near record 20 in a crucial third-quarter surge - to spark the Spurs to a 118-102 playoff victory over shell-shocked Washington.

The victory gave the upstart Spurs a commanding 3-1 lead in the best-of-seven NBA Eastern Conference championship series. The reeling Bullets, the defending NBA champions, return home Sunday for the fifth game.

"It was just one of those nights, you have one of those nights every now and then," added Gervin, the NBA scoring champion for two consecutive seasons. "We've got a 3-1 lead and they've got their backs to the wall."

The Spurs were nursing a 60-59 lead with 8:11 remaining in the third quarter when Gervin took charge and scored the team's next 18 points.

He single-handedly outscored the Bullets 18-9 over the next five and one-half minutes to give the Spurs a 78-68 advantage with 2:29 remaining. In one stretch, he reeled off eight unanswered points.

San Antonio increased it's lead to 84-72 by the end of the quarter and led by as many as 20 points in the final period.

"We weren't able in any way to contain Gervin. I don't know how many points he had, probably 50," Washington Coach Dick Motta said before the final boxscore arrived. "We tried a lot of different people on him. I finally put (6-foot-7 forward Greg) Ballard on him, but by then I think Gervin had gotten bored with it.

"It was so easy for him, it was boring. That's intended as a funny," Motta said without cracking a smile.

Gervin, celebrating the birth during Wednesday night's game of his third child, put in 19 of his 31 shots, some on dunks, others on soft 25 foot jumpers. Even with his blistering shooting, the Spurs managed only 45 percent as a team.

"It was an unbelievable performance," raved San Antonio Coach Doug Moe. "He got free and he hit the shots. He's tough to stop when he's hot."

"I turned to Louie Dampier on the bench when he hit the first three in the third quarter and I said, 'This game is history.' He's probably one of the only guards in the league who can dominate a game," said center Billy Paultz.

The (20) third-quarter points was only one shy of the NBA playoff record of 21 points in a quarter, set in 1947 by Philadelphia's Joe Fulks.

Motta had rankled the Spurs before the game by accusing them of getting a "rattled look" in their eyes when they got a big second-half lead.

Mrs. Bill Seale, Mrs. Cloyce Talbott, Mrs. James Rosser.

9 Holes

Mrs. Duane Richard, Mrs. Frank Osborne, Mrs. Bill Lemen, Mrs. Clyde Lewis.

Mrs. Jerry Jackson, Mrs. Leo Gard and Mrs. W. Bruce Ellis.

Stars Scheduled For Regionals

A Major League All-Star game pitting the Girls Little Dribblers against the boys, will be held Tuesday at 7:30 in the Snyder High School Gym.

Admission will be $1 for adults and 50 cents for students.

The Girls Little Dribblers program has recently completed a successful first season in Snyder and was well received throughout the community. The boys program, which began here a number of years ago, finished its season several weeks past.

The girls are set to begin Region IV Tournament play later in the week.

The Junior Division girls will face Cleburne in round-one of the regional meet at 4:45 Thursday in Breckenridge. Winner of the game will play a Breckenridge-Haskell victor at 4:45 Friday.

The Major Division squad is scheduled against Haskell 1 p.m. Thursday, also in Breckenridge. Winner of the first-round game will play Dallas at 7:15 Thursday evening.

Proceeds from Tuesday's All-Star game - destined to become a popular, annual event - will help benefit the local programs.

LTA Hosts Tourney

The Snyder Country Club Ladies Tennis Association will host a Mixed Doubles Tournament for members and guests May 19 at 9 a.m.

An entry fee of $5 will be required for each person, and players must register by noon, May 18.

To register, call 573-3234 or 573-8183.

The tournament will be a team doubles event and teams will be paired at the meet.

Export Growth Improves Ag Outlook

WASHINGTON (AP)—With exports growing more than expected, the farm prices of wheat, corn and rice are looking stronger, says the Agriculture Department.

For example, the department said Friday the average price of wheat at the farm in 1979-80 could range between $2.80 and $3 a bushel if a bumper crop is produced, and between $3.70 and $3.90 a bushel if the harvest is smaller. The farm price of wheat in the current year that will end May 31 is averaging about $2.94 a bushel.

Corn prices, for the crop's marketing year that will begin Oct. 1, were projected at $2.20 to $2.30 a bushel under the big-crop formula and $2.90 to $3.15 if production is relatively small. The farm price in the current year is expected to average about $2.11 per bushel.

Rice prices for the crop's marketing year that will begin Aug. 1 were projected at a low range of $7.50 to $8 per hundredweight and at the high range of $9.25 to $9.75 per 100 pounds. This year's average is estimated at $7.72.

Traffic Deaths 8% Over '78

AUSTIN (AP)—Texas traffic deaths are running 8 percent ahead of last year, the Department of Public Safety reported Friday.

The DPS said there have been 1,196 deaths on streets and highways this year compared to 1,107 in 1978.

There have been 1,043 accidents in which deaths occurred, compared to 953 in 1978, an increase of 9 percent.

SCHOLARSHIP--Janet Johnson of Jayton, left, is shown accepting the annual Amitie Study Club scholarship from Dr. Mary Hood, Project Chairman for Amitie. Miss Johnson is completing her freshman year at WTC and was recognized as Outstanding Psychology Student at the spring Awards Day. She is a member of Phi Theta Kappa, and had a 3.65 grade point average for the fall semester. Her parents are Mr. and Mrs. Carroll Johnson of Jayton.

County Court Pleas Heard

Three fines have been assessed and one jail term levied on pleas of guilty in county court.

Clyde Ceballos received a $200 fine and 30 days in jail on a DWI count and also had his probation revoked.

Eddie Essery was fined $20 after pleading guilty to a charge of making alcohol available to a minor, and Alberto P. Rodriquez drew a $25 fine on a charge of driving while his license was suspended.

AARP Sponsors Driving Course

Snyder chapters of the American Association of Retired Persons and the National Retired Teachers Association are co-sponsoring a Defensive Driving course Monday and Tuesday in the Senior Citizens Center.

The Rev. Vernon Parnell and M.W. Pilcher will be conducting the classes, which will meet from 9-11 a.m. and 1:30-3:30 p.m. each day.

Information about registration may be obtained by calling Rev. Parnell at 573-2738.

Aikido Course Begins May 31

Aikido will be offered as a Community Services course at Western Texas College in classes beginning May 31, Dr. Shelly Hillis, instructor, said.

Students may also enroll for aikido as a college credit course.

Registration for the course will be held on May 30.

Persons wishing information about aikido may contact Hillis or the Community Services office at WTC, 573-8511.

In just five minutes, two 100 watt bulbs use 11,600 British thermal units of energy, or the equivalent of one pound of coal or one-half pint of oil.

Couple Exchanges Vows In Double Ring Ceremony

MR. AND MRS. LUIS AGUILAR
(Photo By Eric Puschmann)

Anita Galindo and Luis Aguilar exchanged marriage vows in a double ring ceremony in Our Lady of Guadalupe Catholic Church April 21 at 11 a.m. Rev. Tom Jordan officiated the formal ceremony.

Mr. and Mrs. Venancio Galindo, 1905 Ave. L, are parents of the bride and Mr. and Mrs. Candelario Aguilar of Sweetwater are parents of the groom.

Presented in marriage by her father, the bride was attired in a white satin gown accented with long sleeves and keyhole neckline trimmed with Chantilly lace. Small laced flowers were entered from the neckline of the dress to the hemline. Her veil was also ornamented with laced flowers. She wore a Juliet laced cap with pearl flowers and a fingertip veil adorned with flowers. She carried a bouquet of white carnations.

Frances Galindo, sister of the bride, was maid of honor. Becky Becerra, Melinda Pesinas, both of Snyder, Rosita Aguilar of Sweetwater, and Cynthia Galindo of San Angelo were flower girls. Ring bearers were Amy and Abel Becerra of Snyder.

Mike Aguilar of Sweetwater, nephew of the groom, was best man.

The couple's attendants were Mr. and Mrs. Julio Perez, Mr. and Mrs. Frank Becerra, Mr. and Mrs. Juan Sauceda, Mr. and Mrs. Domingo Galindo, Mr. and Mrs. Daniel Aguilar, Mr. and Mrs. Joah Alcala, Mr. and Mrs. Pete Aguilar, Mr. and Mrs. Frank Ortegon, Mr. and Mrs. Tony Aguilar and Mr. and Mrs. Richard Galindo.

Included in the music program for the Wedding were Dolores Ayala, organist, and Frances Galindo, Soloist. They presented "Close To You" and "Color My World."

A reception was held in the Latin American Hall following the reception.

Following a four day wedding trip to San Antonio the couple will be at home at Key Trailer Park.

The bridegroom is employed with Texas Electric Service Company.

Out of town guests were from Sweetwater, San Angelo, Levelland and California.

Greek Orthodox Wedding Beauty

The Greek Orthodox wedding ceremony incorporates a great deal of symbolism and tradition into a series of five elaborate and very beautiful rituals.

First, the bride and groom are united for life in the ring ceremony which symbolizes eternity.

The second is known as the Stefhana or, double crown ceremony because both bride and groom wear headpieces of crowns which are the symbols of their equality.

The wine ceremony which symbolizes both the first miracle of Christ and the sweet and bitter which the newlyweds will face during their life together is the third.

In it the priest raises a golden goblet of wine which has been supplied by the best man and asks the bride and groom to drink of it.

The fourth part consists of the reading of the holy scriptures and the fifth, the dance of the Prophecy of Isaiah, in which the officiating Priest leads bride, groom best man and maid of honor about the altar three times, celebrates the fact that God will send the Messiah to save the world.

JULY WEDDING PLANNED—Mr. and Mrs. Harold Buchanan announce the engagement and approaching marriage of their daughter, Pam, to Win Bunch, son of Mr. and Mrs. Olin Bunch, 3400 40th. The couple has planned a July 7 wedding at First Baptist Church.

Two Local Women To Speak At NOW Seminar

A personal development seminar for women, NOW (new options for women) will be held in the Wallace Community Education Center, Colorado City, Saturday, May 19.

The event will open with registration and coffee at 9:30 a.m. A general session includng a talk, "Today's Women," will be led by Bernice Proctor of Abilene, counselor, at 10 a.m.

The group will then be divided into small group sessions. The morning sessions will be led by Anna K. Carman of Sweetwater, on career opportunities; Dr. Mary Hood and Bettie McQueen of Western Texas College, on new directions and goals; and Winnie Roach of Colorado City on make-up.

Following lunch, sessions will be held by Bobbie Steakley on fashions. Then small group sessions will include Barbara Darnell of Abilene on financial responsibility; Patricia McKinney of Colorado City on shaping up physically, emotionally and intellectually.

A $5 fee includes coffee and lunch. The NOW seminar is presented by the chamber of commerce and sponsored by the Business and Professional Women's Club, Community Action Program and Wallace Community Education Center-Colorado, I.S.D.

At the close of the meeting, door prizes will be given away.

Keep a daily record of your weight--and your food intake, if you have a weight problem, suggests Mary K. Sweeten, a foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Such a record may help you realize why there is a problem, Mrs. Sweeten says.

Meaty Sandwiches Make Hit

Not all the family always eats together nowadays. Often schedules don't jive and mom becomes a short order cook, much to her dismay. Of if she's the family member that must be somewhere else, it may mean a cold meal for the children and even for dad.

Yet a hot meal is important, especially in chilly weather. A solution for lunch or supper is satisfying made-ahead sandwiches that can be heated all at once or individually upon demand.

Meat in the sandwiches provides not only flavor but the protein, iron and B vitamins that the family needs.

BARBECUED BEEFBURGERS

2 pounds ground beef
2 medium-sized green pepper, chopped
1 can (15 Oz.) tomato sauce
2 tablespoons prepared mustard
2 tablespoons brown sugar
1 tablespoon Worcestershire sauce
1½ teaspoons salt
8 hamburger buns

Lightly brown ground beef, onion and green pepper. Pour off drippings. Add tomato sauce, mustard, brown sugar, Worcestershire sauce and salt to meat mixture, combining thoroughly. Bring to boil, reduce heat and cook 20-30 minutes, stirring occasionally. Spoon barbeque mixture on bottom halves of buns, cover with bun tops and serve at once. Or filled buns can be individually wrapped in foil and heated in 300 degrees F. oven. 8 servings.

CHEESE HASHBURGERS

1 can (15½ Oz.) corned beef hash
1-3 cup catsup
2 tablespoons pickle relish
¼ teaspoon oregano
2 teaspoons prepared mustard
4 hamburger buns
8 slices Cheddar Cheese

Combined corned beef hash, catsup, pickle relish, oregano and mustard. Split buns in half and toast slightly. Spread hash mixture on buns evenly, covering the toasted surface completely. Broil 3 to 5 inches from the heat 6 to 8 minutes or until mixture is heated through. Place a slice of Cheddar cheese on top of meat mixture on each bun and broil 2 to 3 minutes or until cheese is melted. 8 servings.

By Oswald Jacoby and Alan Sontag

North didn't know exactly how to bid his hand after South jumped to three spades.

Finally, North hit upon winning action. He went to five spades. His purpose was to tell South that he, North, didn't want to use Blackwood because he held a worthless doubleton in one of the red suits, but that otherwise his hand was rather sound.

South went on to six, but then proceeded to blow the slam because he couldn't refuse a gift at trick one.

East couldn't beat dummy's nine of hearts, so South let it hold the trick. Later on the combination of the 4-2 club break and the misplaced ace of diamonds left him one trick short.

South should have won the first trick with his ace of hearts, led a club to dummy at trick two, ruffed a low club at trick three, entered dummy with the king of spades at trick four, ruffed another low club, drawn trumps, entered dummy with the king of hearts and discarded three diamonds on the last three clubs.

Of course, if he were a hog he could have made seven. He would take the heart finesse and get four diamond discards.

A Kansas reader asks if it is ever worthwhile to risk a slam contract in an effort to score an overtrick.

Today's hand is a possible example. Playing in a match point game, South might well take the heart finesse to pick up a match point or so, but in rubber bridge he would be downright silly. The slam is hard to bid and no cinch to make.

Double Ring Wedding Held In Midland

Mrs. Bernice Reed, 3101 Ave. W and Thomas B Hale of the Lake Thomas community were united in marriage in a double ring ceremony May 5 at 4 p.m. in the home of the bride's daughter, Mrs. Doris Barnes of Midland. Elvis Barrington, minister of the Primitive Baptist Church of Midland, officiated.

The bride wore a dusty rose floor length gown accented by an orchid corsage. Mrs. Barnes, who served as her mother's matron of honor, wore a pale yellow gown and a corsage to match the bride's. Charles Hale, brother of the groom of Alamogordo, N.M., was the best man. Troy Barrington of Midland sang "The Wedding Song," accompanied at the piano by Gary White of Tahoka, grandson of the bride. Mr. White also played appropriate musical selections for the reception, which was held immediately following the ceremony. The bride's table was covered with a handmade linen and cutworth cloth and was centered with an arrangement of pink and yellow flowers and pink candles. Appointments were in crystal and silver. The white three tiered wedding cake was served by Mrs. Wallace Combest of Snyder, and Mrs. Billie Embree of Tahoka served punch. Other members of the houseparty were Mrs. Harold Ingle of Sudan and Mrs. Clynice Baker of Midland, all daughters of the bride.

Guests included family members from Snyder, Big Spring, Tahoka, Sudan, Crosbyton, Amarillo, San Angelo, Midland, and Alamagordo, New Mexico.

When God Created Mothers . .

When the good Lord was creating mothers He was into His sixth day of "overtime" when the angel appeared and said, "You're doing a lot of fiddling around on this one."

And the Lord said, "Have you read the specs on this order?"

She has to be completely washable, but not plastic;

Have 180 moveable parts . . . all replaceable;

Run on black coffee and leftovers;

Have a lap that disappears when she stands up;

A kiss that can cure anything from a broken leg to a disappointed love affair;

And six pairs of hands;

The angel shook her head slowly and said, "Six pairs of hands . . . no way."

"It's not the hands that are causing me problems," said the Lord. "It's the three pairs of eyes that mothers have to have."

"That's on the standard model?" asked the angel.

The Lord nodded. "One pair that sees through closed doors when she asks, 'What are you kids doing in there?' when she already knows. Another here in the back of her head that sees what she shouldn't but what she has to know, and of course the ones here in front that can look at a child when he goofs up and say, 'I understand and I love You' without so much as uttering a word."

"Lord," said the angel, touching His sleeve gently, "Come to bed. Tomorrow . . ."

"I can't," said the Lord, "I'm so close to creating something so close to myself. Already I have one who heals herself when she is sick . . . can feed a family of six on one pound of hamburger . . . and can get a nine-year-old to stand under a shower."

The angel circled the model of a mother very slowly.

"It's too soft," she sighed.

"But tough!" said the Lord excitedly. "You cannot imagine what this mother can do or endure."

"Can it think?"

"Not only think, but it can reason and compromise," said the Creator.

Finally, the angel bent over and ran her finger across the cheek. "There's a leak," she pronounced. "I told You You were trying to put too much into this model."

"It's not a leak," said the Lord, "it's a tear."

"What's it for?"

"It's for joy, sadness, disappointment, pain, loneliness and pride."

"You are a genius," said the angel.

The Lord looked somber. "I didn't put it there."

ENGAGEMENT-Mr. and Mrs. Wayne Smith of Amarillo announced the engagement of their daughter, Jean Ann, to Mark Davis Tatum, son of Mrs. Tom Matheny and Dr. K. J. Tatum, both of Odessa. The couple plans a July 7 wedding in the St. Stephen United Methodist Church of Amarillo. The bride-elect is a graduate of Texas Tech University, where she was a member of Sigma Delta Pi, Pi Delta Phi, and Alpha Lambda Delta. Her fiance, a 1978 graduate of Texas Tech, where he was named to the Dean's List, has been accepted as a student at the University of Arkansas School of Law. The prospective groom is a grandson of Mr. and Mrs. Fred Davis of Rt. 1, Snyder.

Snyder Oaks News

Mrs. Burdie Rath has a new grandson, Walter Helms. He is the son of Rev. and Mrs. Buddy Helms of Hermleigh. This is Mrs. Rath's first grandchild.

Opal Evans had charge of the program at the Sing-along this week due to Mildred's absence. She was visiting a nephew, Jerry Robertson of Paris.

The Child Day Care children brought a program to residents Tuesday morning. This was a special May Day program.

A family luncheon will be held May 16. All residents' families are asked to join them. Meat, bread and drinks will be furnished. Families are asked to bring vegetables, salads and desserts.

The Bible study is increasing in number each week. All residents are invited to participate each Wednesday morning.

Rev. James Jackson brought the mid week service with other members helping with the song service.

Dr. Wilburn Willingham of Lubbock visited his mother and father, Mr. and Mrs. W.B. Willingham, Thursday.

Mrs. Effie Beasley's son, Rev. Billy McDorman has accepted the pastorate of a church in Robert Lee. Rev. Joe Stansell will fill his fourth Sunday appointment in the home.

A welcome is extended to Gettie Clark a new resident the home.

Allen McCowen and La-Rue Haney of Lubbock visited their parents Thursday. Their parents are Mr. and Mrs. S.E. McCowen.

Sam Kitching of the East Side Church of Christ brought the message Sunday afternoon to a large group or residents.

Now that days are longer, you'll need less artificial light, says a housing and home furnishings specialist, Pat Seaman, with the Texas Agricultural Extension Service. The Texas A&M University System

DR. JACK HENDRIX
...national guild judge

Local Musicians To Audition For Guild

Piano pupils of Mrs. Jerry Neill, Mrs. Barbara Tune, Mrs. Randy Perkins, Mrs. Kenny Kornegay and Mrs. Wayne Bethel have registered as candidates for membership in the National Fraternity of Student Musicians, sponsored by the National Guild of Piano Teachers, Teacher Division of The American College of Musicians, of which their teacher is a member.

This group of young piano hobbyists will play in the National Piano Playing Auditions and strive for pledges, local, district, state, national or even international honors which the mother organization will confer according to the number of standard classic, romantic and modern pieces chosen from the masters of piano forte literature each student can creditably perform in the presence of an imported expert of note from another state. This year's judge is Dr. Jack Hendrix.

Dr. Hendrix is chairman of the Department of Music at Odessa College. Hendrix is a well-known pianist and adjudicator, and his students have been consistent winners throughout the years.

He is a graduate in piano from North Texas State University, and his doctorate work was at Indiana University and the University of Texas at Austin. His teachers have included Silvio and Isabel Scionti, Alfonso Montecino and William Doppmann. He is pianist for the Midland-Odessa Symphony.

Guild audition will be conducted in the parlor of First Baptist Church from 9 a.m. until 5:30 p.m. May 14-18. The Snyder Guild monitor is Mrs. Clarence Moore.

Stockard, Green Wed

Dorise Lanette Stockard and Jimmy Curtis Green were married Saturday, March 24, in Northwest Church of Christ in Abilene, with Hollis Talley of Palm Street Church of Christ officiating.

The bride is the daughter of Mr. and Mrs. Leroy V. Stockard of Bowie. The bridegroom is the son of Mr. and Mrs. Curtis R. Green of Snyder.

Mrs. Terry Walls of Iowa Park was matron of honor and Annette Goodwin was bridesmaid. Greg Stockard, brother of the bride, lighted candles.

John Oliviera was best man and Leroy Stockard, brother of the bride was groomsman. Steven Green and Winston Green of Snyder, brothers of the bridegroom, and Greg Stockard, brother of the bride, seated guests.

The bride was given in marriage by her father.

The reception was held at the church.

Following their wedding trip to Dallas, the couple will live at 1018 Peach, Abilene.

The bride is a graduate of Abilene High School and is employed by Hendrick Medical Center and the bridegroom is a graduate of Snyder High School and is employed by the city of Abilene.

-YOUNG ORIGINALS-

Jackets galore ...

An attractive shawl-collared jacket, with or without sleeves, adds variety to your wardrobe. The easy-sew skirt has straighter lines, the classic blouse has a pretty Peter Pan collar — a great combination.

B-148 with Photo-Guide is in Sizes 10 to 18. Size 12, 34 bust, sleeveless jacket, 2 3/8; skirt, 1¾ yards; blouse, 1¼ yards 45-inch fabric.

Consult the Fashion Coordinator for colors, fabrics and accessories.

Send $2 for each pattern. Write c/o this newspaper, Box 438, Midtown Station, New York, N.Y. 10018. Print name, address, zip code, pattern number and size.

BLANCHE'S BLABS

By BLANCHE CHISUM
Scurry County Extension Agent

Americans in ever increasing numbers are conjuring up tasty Chinese, Japanese and even Spanish meals in a wok, the oriental version of the fry pan. Such delights as Steak Cantonese, Sweet and Sour Pork, Cashew Chicken, Tempura and Spanish Paella can be prepared in the uniquely designed cookware.

There's no special knack to using a wok. If concentrate high heat beneath a flat base, meat and seafood can be stir-fried quickly to seal in flavors. Vegetables, prepared in this way, retain nutrients, crispness and color.

Various types of woks are available to satisfy the needs of every at-home chef. There are range top models in stainless and carbon steel, or aluminum. One component, a range top ring, fits over a gas burner under the wok. Some woks are equipped with a tempura rack for draining foods after frying and a perforated inset rack for steaming. A paella pan which can be used alone as a casserole, roaster or fry pan, also doubles as a cover for the wok. One model even comes with chopsticks.

Electric models generally have porcelain-coated aluminum bases, a non-stick or aluminum interior and an acrylic or porcelain on aluminum cover. They feature a removable heat control, and a multi-purpose, separate cooking base.

Safety tips and special care procedures are included in instruction booklets. Recipes may also be given. The guide should be read carefully before using a wok. Some recommend washing the wok and accessories in the dishwasher, others may just specify that parts can be immersed in suds. In any case, thorough cleaning is important to remove oily food soils.

Let a wok cool before attempting to clean it. Then pour any remaining oil, if used, into a container. For hand dishwashing, clean the wok with hot, sudsy water. Stubborn stains can be removed from an aluminum surface by scouring it with a soap-filled steel wool pad. A sudsy nylon scrubber helps clean stainless steel, porcelain and non-stick finishes.

Wok cookery is certainly not new. But today's cookware with easy-care surfaces simplify preparation of a flavorful cuisine, as well as cleanup.

The average life expectancy in ancient Greece was about 30 years.

Life Saving Course Date Is Delayed

The starting date for a Senior Life Saving Course at Western Texas College has been delayed until May 14.

Additional students are needed to form the class, which offers instruction for persons who want to work as life guards. Students must be at least 15 years of age and must demonstrate advanced swimming skills.

Persons wishing to join the class are to call the Community Services office at 573-8511, extension 240, to pre-register. Fees will be $40 per person.

Monday's meeting will begin at 5:30 p.m. at the pool in the H-PE Building on the east end of the campus.

a checkless society?

Someday we may see that "checkless society" we hear so much about. There are many factors which would tend to make such a system a great aid in daily transactions. Electronic banking could lead to reduction of expenses in banking as well as contributing to customer convenience.

"The checkless society has substantial problems to overcome before it will be accepted by consumers," said Ronald Rizzuto, a professor of marketing and finance at the University of Denver. He said many people do not now understand the benefits. The professor cited consumer protection or privacy as a major problem.

"The checkless society, or the use of plastic cards in place of cash or checks, will generate more information about a person than ever before. If a person pays for a purchase in cash, there are no records. If that person uses a credit cards or one that withdraws money from a bank account, an observer can tell how much money was spent, where it was spent and when it was spent for what kind of merchandise," Rizzuto said.

Information generated by such a system would not only increase in quantity but by use of computer such information could be centralized and easily available for surveillance by state and federal authorities. There is just no way that customers could protect themselves from such an invasion of privacy.

The professor mentioned that before such a system would be accepted there would need to be legal safeguards of secrecy. We believe that if government could provide such safety, it could also later take it away.

Banks are now handling about 160 million checks a day, and it is estimated that each check costs between 25 and 27 cents to handle. More than 40 percent of all checks written in the nation come from business institutions and near two-thirds of these are payroll checks. Electronic transfers would not only aid the business and the banks but would save employees time and expense in cashing or depositing the checks.

To be able to move away from paper checks could be saving for all concerned. We are already moving slowly in that direction, but fear of what government might do with information which would become so easy to acquire will probably cause consumers to resist any rapid move in that direction.

There is one other great fear which could cause business executives and employees to hold back and that is a new form of massive theft by manipultion of computers. There have been some incidents along these lines, and as the system is enlarged we can only expect more.

We think the greatest stumbling block to the "checkless age would be the opportunity for authoritarian breeching of privacy rights by our leaders-turned-rulers. It would be a temptation too great for them to ignore.

It is sad that a big step forward in the handling of daily exchanges could be scrubbed by fear of our own government. A burned person fears fire, and many people have been burned by zealous government regulators and controllers. Whether people have anything to hide, they don't want government constantly looking over their shoulder.

my turn

by roy mcqueen, publisher

The feller on Deep Creek says, "Happy Mother's Day."

There have been lot's of tributes written about mothers, but this one offered by one of our readers is one of the best. The author is unknown, but we think you'll like it.

What Is A Mother?

She's a big smile with love in the middle...She's two eyes filled with hope and pride..and just a hint of fear.

She's a member of the world's greatest sorority..

She's America's hardest working career girl..She's a Mother.

She's old and young and in between..She's short and tall and rich and poor..

She's the hope of the world with love in her heart..She's a Mother.

Mothers come in assorted sizes and temperaments.

She is timid enough to faint at the sight of a mouse..but will battle the neighborhood when one of her brood needs help.

She's a tired sigh standing over a sink filled with dirty dishes.

She's the future of the world in a pretty dress... She's a Mother.

Mothers like: Fathers. Children. Quiet nights at home..Fires in fireplaces..Family outings..The happy shouts of boys and girls..A's on report cards..The music of family laughter..

A Mother is the most talented and useful of all living people. She can rock, change, coddle, coax, kiss and burp babies..

She can take leftovers from the refrigerator and blend them into a banquet fit for kings..

She can keep fathers happy..attend PTA meetings..volunteer for church work..and push a ton of spinach through the lips of a young baby..

Mothers stand over hot stoves..Push irons back and forth over small shirts and frilly petticoats..Mothers pick up toys and darn socks and give sympathy and try to see both sides of every argument..

Mothers lend sons to America to fight its wars..furnish quarterbacks for football teams.. and husbands for other women..

Mothers soothe hurt feelings and sing lullabys and bandage up playground wounds..and worry about the food budget.

Mothers like to look pretty for other people.. Cry at weddings..and watch their sons and daughters graduate..

Mothers of sons pine for a daughter..and Mothers of daughters hope for a son.

And Mothers with both feel luckiest of all..

A Mother is the original Jill of all trades..

She is a housekeeper, plumber, gardener, carpenter and chef..

She is a baby-sitter, nurse, psychiatrist and judge..

She is a pediatrician, hostess, seamstress, janitress and Sunday school teacher..

She is a diplomat holding a safety pin..A philosopher with a cake in the oven..A goodwill ambassador making oatmeal in the morning..

A Mother is a batch of fresh-baked cookies in the cookie jar..She is a wave of the hand as the school bus disappears down the street every morning..

She thinks a grubby dandelion given by the loving hands of 5-year-old is far more beautiful than a basket of orchids presented by a stranger..

She holds back a tear when she fits her daughter into her first formal party gown..

And she holds back a tear when she sees her young son start off to school for the first time.

And she holds back a tear when the clouds of war gather over the world because she knows the war-lords will use her sons for pawns.

Part of each Mother's day is spent in holding back tears..Because Mothers only cry at night.

Mothers have the courage that brings gentleness to nations..She gives roots to the family..She gives warmth to the world.

She's God's greatest invention..She's a Mother.

at wits end

by erma bombeck

Let's hear it out there today for the Non-Mothers. There aren't any songs sung for them. There aren't any appropriate cards written for them. There aren't any days set aside for them. But they exist.

They are people who experience all the joy, the caring, and the pain of motherhood. They just weren't there at the delivery.

Some Non-Mothers are disguised as teachers who spend more time with the children than their mothers. They contribute ambition, hope, expertise, time, and a sense of self to a child. After all, isn't that what a mother is all about?

Other Non-Mothers are older brothers and sisters of a child who share bedrooms, pizza and their lives. They take them to the bathrooms, the movies on Sunday and hold them when they're rejected by a parent and there is no one else to cling to. Isn't that what a mother is all about?

There's the father Non-Mother, who pinch hits occasionally at getting meals, mopping up, or sitting through a pageant when the mother can't do it. He offers a back-up system of support, sharing and security. Isn't that what a mother is all about?

Some Non-Mothers have experience. They're called grandparents, and whether their custody of a child is occasional, part-time or full-time, they add to the child another dimension of another time--another set of values--an appreciation for things that endure. Isn't that what a mother is all about?

There are Non-Mothers who are paid for being a mother, but it takes nothing away from their involvement. They kiss away the hurts, listen to their stories, and, what is more important, are there. Isn't that what a mother is all about?

There are lots of Non-Mothers who touch a child's life in a million ways and who, at first glance, don't seem to fit the role. An angry motorist whom a child has never seen before will yell at him to get his tricycle out of the street. A guidance counselor will tell him to get off his bottom and work! A shop owner will chew him out for lifting a piece of penny bubble gum.

At a moment when he needed it, he was picked up and pointed in the right direction by someone who took the time to care about him. Isn't that what mothering is all about too?

Berry's World

"Eep-kay our oncessions-cay on all-say op-tay ecret-say."

in washington

martha angle and robert walters

WASHINGTON (NEA)— At least once a month since the latter part of 1978, a half dozen to two dozen perpetually harried U.S. senators have been getting together for lunch to chew over the details of the emerging SALT II treaty.

The menu varies and so does the guest speaker, who is usually a top-echelon Carter administration official. But the purpose remains the same: to prepare the senatorial participants for an active role in the bitter ratification fight that is looming over the strategic arms limitation pact.

That may not sound like a big deal, but it is a major tactical breakthrough in the Senate, where the only members usually possessed of enough expertise to argue intelligently about anything as technically complicated as SALT II are those who serve on the Armed Services Committee, a panel not known for its sympathy to arms control.

A prime mover behind the monthly luncheon group is Sen. Gary Hart, D-Colo. who is emerging as one of the Carter administration's most crucial allies in the treaty battle.

Well over a year ago, Hart became convinced the administration was not moving fast enough to lay the educational groundwork for a new arms limitation agreement. The senator not only began speaking out on the subject himself, he also badgered Secretary of State Cyrus Vance, Vice President Walter Mondale and ultimately Carter as well to do more to explain the SALT process to the Senate and the public.

To fill part of the vacuum, Hart - along with Senate Majority Whip Alan Cranston, D-Calif., and Sen. John Culver, D-Iowa - organized the Senate lunch group and began drafting speakers from the administration for their cram course.

Once the debate actually gets under way, those three senators plus Foreign Relations Chairman Frank Church, D-Idaho, will be serving as the key advocates of the new SALT agreement.

Hart, at 41, is nearing the end of his first Senate term. He is probably best known as George McGovern's 1972 campaign manager, but the identification is deceptive. Hart is no knee-jerk liberal, on national security issues or anything else.

Unlike most liberals, who tend to gravitate towards "people-oriented" committees like Human Resources, the Colorado Democrat serves on both Armed Services and the Senate Intelligence Committee. He plays an active and increasingly effective role on both, winning high marks for diligence and brains even from colleagues who disagree with him.

It was Hart who was largely responsible for conceiving the theoretical framework for selling SALT II which the Carter administration ultimately adopted - a contribution which outshines even his considerable organizational aid.

The Hart (and now Carter) theory, which is known as the "national security" approach to SALT, goes something like this:

Competition with the Soviets is inevitable and permanent, but for our own security we want to see it bounded in the area which is most dangerous - strategic nuclear weaponry. In order to maintain a strong defense force, we need to know the size and scope of the threat we face. The best way to do that is through limits on the Soviet strategic buildup, which can be achieved only through SALT. And capping the strategic arms race will permit us to compete more effectively in other areas of military strength, including conventional forces and tactical nuclear weaponry.

This rationale is a far cry from the moralistic arguments of yesteryear in favor of nuclear disarmament and "trust" in Soviet good intentions. But as the experience of the last decade indicates, it is far more realistic.

SALT I was distinctly oversold by Richard Nixon and Henry Kissinger, who wrapped it all up with detente and some hazy promise of a bright new day in Soviet-American relations. Thanks in large measure to Gary Hart, the Carter administration will not make the same mistake with SALT II.

robert schuller

it's possible

How much time and energy do you spend on fear? None? When did you last knock on wood or walk around a ladder or throw a pinch of salt over your shoulder?

When did you suddenly feel your heart pounding for no apparent reason? Was it when you awakened in the night, tense, mouth dry? Maybe you felt it as you went in to call on a prospective customer?

We are a curious generation, when you come to think about it. We have developed the resources of the earth and advanced our scientific knowledge to a remarkable degree. We are masters in so many areas. Yet we are not really masters of our own anxieties. We still live in fear.

Actually, ours is a frightened generation. Albert Camus, the French philosopher, called this "the century of fear." There is even a modern symphony called, "Age of Anxiety." That's something when we base music on fear.

Not only do we have all the normal, old fashioned fears but we now have a big new fear in the nuclear bombs which can strike across oceans. Even if they never strike, we can still worry about a sinister invisible killer called fallout which may wreak its damage on us and future generations.

A scientist recently said: We have a free floating anxiety induced by the atom bomb, by space missiles and every destructive device. Free-floating anxiety. What an apt way to describe the fear of our time.

Today, we are afflicted more often with a vague uneasy anxiety that's hard to name. We can't fight back at this fear because we don't really know what we're scared of.

Or perhaps we are fearful of so many things that at licking any of them seems futile. Fear, for us, isn't always a specific pinpointed menace that we can act upon and do something about. It's a cloud that hovers over us, just out of reach, which casts its black shadow on everything we do.

It's a hazy, pervasive apprehension. Some time ago I was lecturing in Wichita, Kan., and had to fly to Cincinnati. Someone kindly loaned me a plane and pilot for that 700-mile flight. When we were flying over the Mississippi the weather, which had been sunny, suddenly became very hazy.

We'll have to go up above the haze level," the pilot said. "Ground heat, dust and smoke often make a low-lying haze," he added. "We'll go up another thousand feet and get above it."

We emerged into an altogether different world. Bright and clear, with excellent visibility. This is exactly what we have to do in our thinking. Lift our thoughts above the haze level of our own conflicting, fear-ridden ideas.

We need to rise above the cloud of fear, anxiety and worry into an upper level where we can think clearly and rationally.

It is most important to do something about fear. Fear is an enemy of your happiness that affects your ability to think, your efficiency and your health.

But you don't need to fly at the low level of fear. God says, "Fear not, for I will never leave you nor forsake you." You have a protector and friend. As you commit your life into His hands, you need never be afraid again!

The grass is always greener on the other side of the fence because our neighbor put down Astro-turf.

If the boss gives you the wink, don't feel complacent — chances are he's squinting to take aim at you.

Spotlight On Schools...

Stanfield PTA Votes To Purchase Instrument

(Editor's Note: This article is another in a series prepared by Scurry County Teacher's Association and, written by Snyder teachers.)

The Stanfield PTA voted recently to purchase a bass metallophone for the music room. This instrument will be used next year along with the alto xylophones previously purchased by the school. These instruments feature removable bars which makes playing them simpler.

The principal use of the metallophones and xylophones has been for playing ostinatos, short repeated melodic passages used as accompaniments, although some melody playing has been done. By using several instruments playing different rhythm and melody patterns and adding rhythm instruments, a complicated-sounding accompaniment can be achieved for a feeling of musical success.

The primary objective at the Stanfield Elementary library is to teach each child to be self-sufficient in the library. Each child is responsible for checking in and out his book, filing the book card and shelving his book. Kindergarten and grades 1 and 2 learn to recognize books by the same author. Grades 3, 4 and 5 work with the card catalog, magazine indexes and encyclopedias.

The sixth grade library period is devoted to class work requiring library skills. These classes function with minimal assistance. The grades K - 3 have at least one oral story a week.

Once each six weeks grades 4 and 5 compete in library skills contests with each group in charge of picking up, straightening up, and reshelving books on the correct shelves. Prizes range from edible "treats" to personalized book marks.

"All of these activities make for continuous movement, a maximum of freedom for both students and librarian and a positive learning expe-ience.

Vestal Maner's first grade is actively engaged in a spring stage production of William Shakespeare's "Midsummer Night's Dream," with music by Felix Mendelssohn. The setting is in ancient Athens, the plot being interlaced with fairy magic.

Ramelle Parsons' first grade class at Stanfield School has decorated bulletin boards for spring.

The pupils made a huge pond with grass, frogs, and lily pads. They completed the picture with birds and butterflies in brilliant shades. The art work is related to a science unit on "Living Things" (plants, animals and insects). The students also use the insects for "counting" in math.

Mrs. Tommy Doyle's second grade class has just completed a unit on honeybees and their place in the cycle of nature. Throughout the year they have worked on poetry appreciation. The boys and girls are choosing and reciting poems. In math, they have just finished work on carrying and borrowing. Each student will soon be writing and illustrating his own story book. In art, they plan to do some soap sculpture.

In second grade, Mrs. James Littlepage's class is working on a school program concerning conservation of natural resources. Hopefully the children will learn to respect and take care of natural resources.

End of the year activities for all students at Stanfield will include a sing-song in the cafeteria led by the music teacher. One group will be primary and then the older students both perform and participate.

There is a special picnic for all grades June 1, each group having a designated playing and eating area around Towle Park pond.

Same Laws Should Apply To Congress

WASHINGTON (AP)— Congress should be subject to the same laws on equal pay, employment, occupational safety and civil rights that apply to the rest of the country, says Sen. Patrick Leahy.

In the past legislative session, the Senate rejected a proposal for an independent board to monitor and act on discrimination complaints against senators. Those complaints are now handled by the Senate Ethics Committee.

TERMITE SWARMING SEASON

Spring is the time when many homeowners discover they have termites. This is the time when winged forms appear and swarm.

If winged termites are seen outdoors, usually there is no problem, since this is a natural occurence. But if they are found indoors, usually on a window sill, chances are good that an infestation has established in your home.

Termites can cause extensive damage to wooden parts of your home, so take some precautions.

Quite often termites and certain ants swarm at the same time and it's important to be able to tell the difference between these two insects. Carpenter ants swarm in the springtime and can cause some structural damage to wood. However, termites are much more destructive and require different control measures. Termites have a broad waist--ants have a narrow, constricted waist; termite wings are the same size and shape winged ants have a front and back pair of wings of different lengths and shape; termites have straight antennae, (feelers on their heads)--ants have elbowed antennae.

Termites may be attracted to your house by dead tree limbs, stumps, old lumber and other sources of termite food. These should be removed. If soil is above the point where wood or brick meets the foundation, termites have easy access to your home. Anywhere that wood meets dirt (siding, wooden steps) is a potential spot for termite entry into the home.

Termites also have the ability to build mud tunnels over non-wooden structures to reach a food source. These tunnels (about ¼-inch wide) may extend several feet up concrete surfaces. On a slab home, these may be seen on foundation concrete between soil and brick. On homes built above the ground, these tunnels can be found on piers or pipes that go from soil to structure. The bath trap in homes built on a slab is another source of entry. Plumbing is this situation has contact with soil under the slab, and termite tunnels may be found in this area.

Although a thorough inspection is best done by a professional, a homeowner can make a quick check for termite infestations. If termites or damage is found, contact a local pest control company. This is one insect pest that should not be handled by a "do-it-yourselfer."

Commercial pest control companies have the necessary equipment and experience to effectively rid a home of termites.

No Match For Woman

RENO, Nev. (AP)—Reno police report this dialogue between a robber and a woman the bandit confronted outside a motel:

Robber: "I want your money."

Woman: "I don't have any."

Robber, with hand in jacket: "I have a gun. Let's go."

Woman: "No."

Robber: "Let's go."

Woman: "No."

Robber: "Then I'm going to kill you."

Woman: "Then I'm going to scream."

She did, and he ran.

HEALTH TIP from DEAN

"A rocking chair can provide as much exercise as walking", says Dr. Arthur Helfand of Medical Center, Philadelphia. The action of the foot flexing and extending stimulates the muscles of the leg and improves circulation. A rocker is recommended for anyone with a sedentary job, poor circulation, or diabetes, as well as for elderly persons unable or unwilling to walk regularly.

In The Oil Patch...

Two Projects In Kent Field

Dunham, Inc., of Midland spotted a pair of projects in the two-well Elam (Strawn) field area of Kent County, eight miles southwest of Claire.

Each of the tests will drill to 7,100 feet.

The No. 1-61-A Wallace is ¾ mile northwest of production and 778 feet from north and 1,216 feet from west lines of section 61, block 4, H&GN survey.

The operator's No. 2-60 Wallace is ⅝ mile southwest of production and 2,173 feet from south and 853 feet from west lines of section 60, block 4, H&GN survey, abstract 1403.

Convest Energy Corp. of Houston No. 1-A Wayne Williams is a location south and slightly north offset to the same operators No. 3 Williams, producer in the Pollan (Ellenburger) field of Kent County.

The Garza County test is 2,867 feet from north and 910 feet from east lines of section 66, block 5, H&GN survey and two miles southwest of Polar.

SCURRY COUNTY DRY-HOLE:

Cobb & Ruwwe, Irl Rue (Reef), No. 5 Thomas, 1,100 feet from north and 2,240 feet from west line of section 151, block 97, H&TC survey, three miles north of Ira, td 1,797 feet.

Two NTSU Regents Named

AUSTIN (AP)—Gov. Bill Clements announced the appointment Thursday of Harol "Eddie" Chiles of Fort Worth and Winfree Brown of Midland as regents at North Texas State University.

Chiles, 70 on Friday, heads an oil field services firm. Brown, 52, is a county commisioner.

Chiles succeeds Edward V. Smith III of Dallas, and Brown succeeds Kenneth May of Lubbock.

Turkey declared war on Greece in 1897.

Lawrence E. Lamb, M.D.

Dilute urine helps

By Lawrence Lamb, M.D.

DEAR DR. LAMB — Two months ago I had my kidneys X rayed and my doctor told me I have a small stone in my left kidney and to come back in two months. I would like to know if I can take some medicine to dissolve it and what would happen to this stone. Will my diet cause the stone to form?

DEAR READER — We know a lot more about treating kidney stones now than we did a few years ago. Since you are a man, the likelihood is that your stone is a calcium oxalate stone. Women are more prone to urinary tract infections and may form other kinds of stones. There is no absolute distinction between men and women in this regard but that generalization does hold.

The treatment for kidney stones depends a lot on its composition. Of course, as long as the stone is in the kidney it's going to be kind of hard for your doctor to know absolutely what its chemical composition is.

We used to think that restricting calcium was an important aspect of preventing kidney stones. We now know that that's important in stones that are associated with infections but in other instances, restricting calcium will have no effect whatsoever on the kidney stone. More often the excessive absorption of oxalate may be a factor. Oxalate can come from the excessive ingestion of vitamin C, many of the fruit juices and tea.

You can dissolve many kidney stones or prevent them from getting any larger if you know what the chemical composition of the stone is. I am sending you The Health Letter number 11-2, Kidney Stones: Treatment Has Changed, to give you details on this aspect of management. Other readers who want this issue can send 50 cents with a long, stamped, self-addressed envelope for it. Send your request to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

Some stones are dissolved by making the urine acid. Yet other stones are dissolved by making the urine alkaline. That's why it's so important to know the chemical composition of the stone, itself.

You apparently have a silent kidney stone that hasn't caused you any symptoms. The prudent choice would be to assume that it is a calcium oxalate stone and institute the measures used to dissolve stones in your case and see what happens. As the stone gets smaller, it may eventually pass, depending upon its location in the kidney.

Now and thereafter it would be a good idea to significantly increase your fluid intake. Regardless of the chemical composition of the stone, the one thing that all authorities agree on is that maintaining a copious flow of dilute urine helps to prevent stone formation. This means that you should drink enough fluid, preferably water, to pass around three quarts of urine a day.

The goal is to keep the urine dilute so that any of those unsoluble chemicals are less likely to aggregate and start forming a stone. That means you want to form dilute urine throughout the entire 24-hour period of each day, not just for a few hours, so the water intake should be spaced around the clock.

(NEWSPAPER ENTERPRISE ASSN.)

Children's Plan Efforts Renewed

WASHINGTON (AP) — The Carter administration has renewed efforts to get Congress to enact a $500 million program to provide better health care for children of the very poor. It is similar to a program defeated in the past Congress.

The plan proposed Thursday by Joseph A. Califano Jr., Health, Education and Welfare secretary, would replace the existing Early and Periodic Screening, Diagnosis and Treatment Program for Medicaid children.

Cattle Rustling On Increase

LOS ANGELES—A rapid increase in cattle rustling throughout the Southwest is having serious economic effects on both ranchers and consumers, writes Mark Wheeler in the current (May) issue of Texas Flyer, the monthly in-flight magazine of Texas International Airlines.

In his investigative report, "Crime, Crime On the Range," the Los Angeles based freelance writer states that rising beef prices and the ease of committing cattle theft are nurturing this growing rangeland crime wave.

Today, the average steer brings from $300 to $500 on-the-hoof and about all the modern day rustler needs to turn a profit of $5,000 to $10,000 or even more, Wheeler writes, is a van or truck, a pair of wire cutters, and from six to eight hours. Darkness and open country provide good cover for the rustler while well paved highways enable a fast getaway.

Although Texas and California were hardest hit during the past year, cattle rustling is a growing problem in Arizona, Nevada, and Utah as well. Best available statistics indicate that Texas ranchers lost in excess of 4,000 head of cattle or more than $1,700,000 to rustlers while about 1,500 head or more than $600,000 were lost in California.

While the losses reported in the past year are comparatively small in terms of the total number of cattle - 15.8 million in Texas and 4.7 million in California - ranchers must increase prices to cover them. This, of course, adds to the cost of beef at retail and makes rustling an even more lucrative crime.

Detection and apprehension of rustlers is difficult under the best of circumstances, Wheeler points out, and since those responsibilities have been assigned to undermanned sheriffs' departments is likely to continue on the upswing for some time.

More Mormons Since 1978

SALT LAKE CITY (AP) —The Church of Jesus Christ of Latter-day Saints (Mormons) reports that statisties for the last five years show that world membership has increased 26 percent from 3.3 million in 1973 to 4.1 million in 1978.

Certified Seed Pays

In side by side field tests, cotton researchers have proven that certified seed produces higher yields than farmer saved or select seed of the same varieties. And the extra production — as high as 18% more lint — is more than enough to pay for the cost of planting the certified varieties †.

Before you plant another row of non-certified seed, consider the advantages you get from Pioneer® brand certified cotton planting seed:

- **Certified cotton planting seed from Pioneer has not undergone genetic deterioration in the field. Volunteer plants and undesirable cross-pollinations have been eliminated.**
- **Certified cotton planting seed from Pioneer is free from pests and weeds which often accompany non-certified varieties. You can be sure of the purity and uniformity in the seed and the crop it produces.**
- **Certified cotton planting seed from Pioneer is carefully handled and stored to avoid contamination by other varieties. Then, if it doesn't meet high standards for germination and purity, it's not used.**

Certified **LX571***	Your hedge against drouth. Produces top yields of high quality cotton even under tough, dry conditions.
Certified **Lankart 57**	Long time favorite on dryland. Consistently good yielder with excellent fiber qualities.
Certified **Lankart 611**	Early maturity favorite. Vigorous plants produce large bolls of high quality lint. Good stripper.
