

## Booze Heir Safe, Suspects Jailed

NEW YORK (AP) — Kidnaped whisky heir Samuel Bronfman 2nd was in safe seclusion at his mother's mansion today as authorities discounted an alleged kidnaper's story that two men still at large planned the snatch.

Dominic Byrne, 53, who with Melvin Patrick Lynch, a 37-year-old city fireman, is being held on charges of extortion and illegal use of the mails, has reportedly told police and the FBI the two unidentified men commandeered his car for the caper.

Despite Byrne's claim that two other kidnapers remain at large, FBI assistant director J. Wallace LaPrade said no other suspects were being sought and no further arrests were expected.

At a news conference Sunday, officials showed the press the recovered \$2.3

million in cash Bronfman's father paid for his return. The original \$4.6 million ransom demand was halved during the negotiations with the abductors. It has not been explained why.

Byrne and Lynch, both Irish-born, naturalized American citizens, were to be arraigned today. Authorities said federal charges of kidnapping were not filed because the victim was not taken across state lines. But there remain possible state kidnapping charges which carry penalties of life imprisonment.

New York City Police Commissioner Michael Codd said law enforcement officials and U.S. State Department intelligence agents are checking the possibility that the two men intended to give part of the ransom to the Irish

Republican Army. LaPrade discounted any IRA connection.

Samuel Bronfman, 21, after shaving his eight-day beard and showering at the Fifth Avenue apartment of his father, Seagrams chairman Edgar Bronfman, went by helicopter to the family estate at Yorktown Heights in Westchester County Sunday afternoon, accompanied by his father.

There the young man was met and embraced by his divorced mother, Ann Margaret Loeb Bronfman. He spent the night at her home in nearby Purchase, where he was living at the time he was seized.

A family friend, Jonathan Rinehart, said that at the news of Samuel's rescue, "there was a lot of smiling, a hell of a lot of smiling."

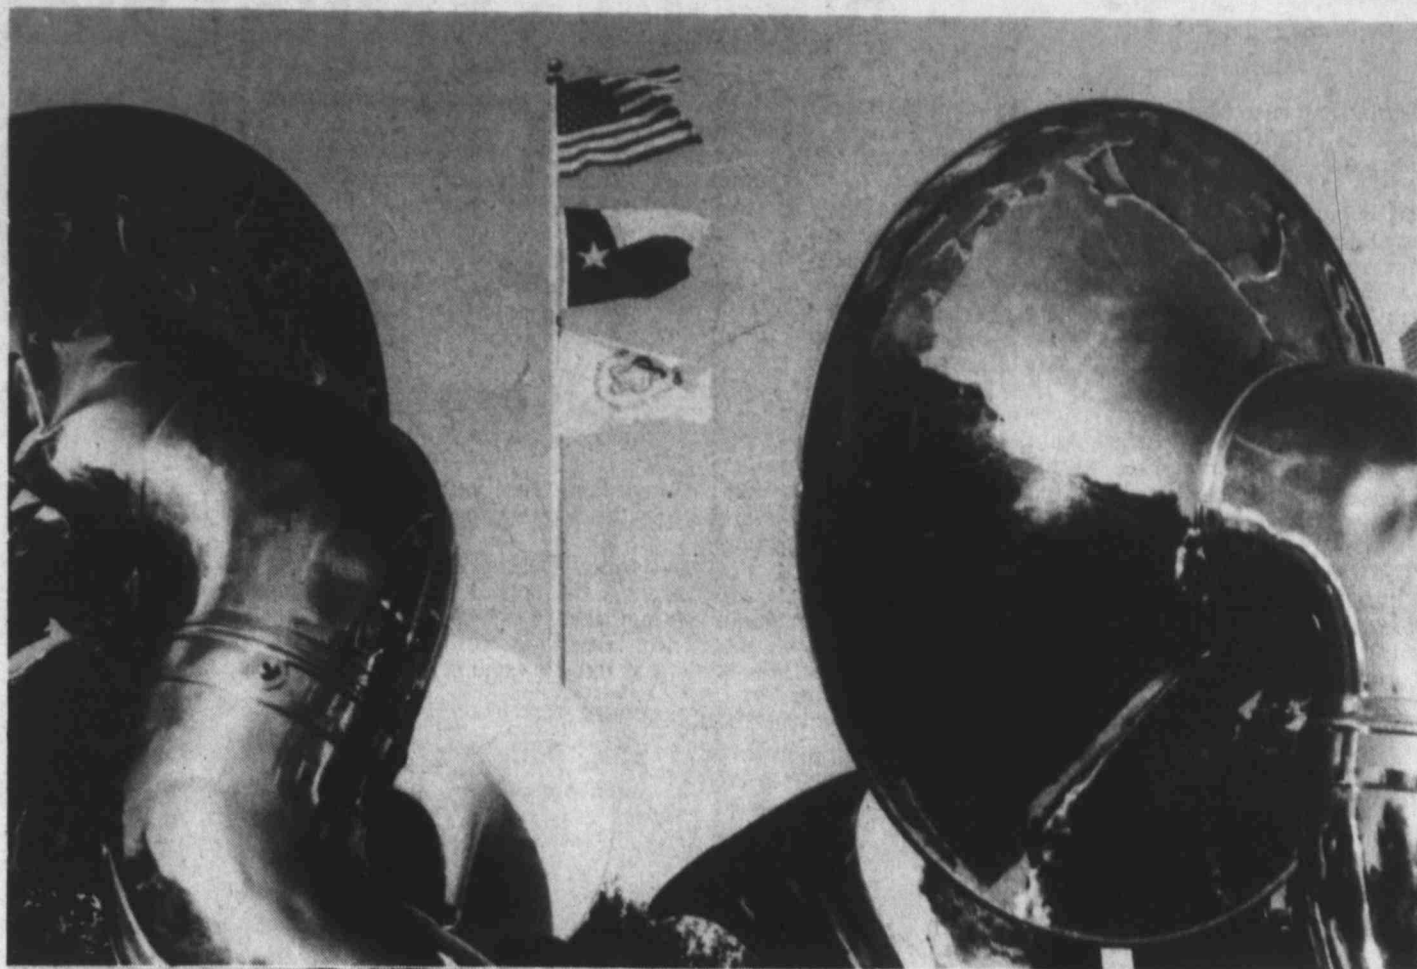

Another family friend in Yorktown Heights, Peter

Kaufman, told reporters that family members came together in the middle of the living room and "almost went through the ceiling" in a burst of joy. Jose Louis, the family butler, opened champagne for the celebration.

Both at the apartment and the estate the Bronfmans declined to talk with newsmen, but the 6-foot-2 younger Bronfman, clad in work shirt and jeans, appeared unhurt.

LaPrade said it was "absolutely" untrue that Samuel had been "buried" with a 10-day supply of water and air as the kidnapers had claimed in a ransom note to Edgar Bronfman last Monday.

The young heir to part of the billion-dollar Seagrams whisky fortune was found in Lynch's Brooklyn apartment early Sunday.

BICENTENNIAL REFLECTIONS — The high school is reflected in a tuba as the BSHS band appeared in special flag-raising ceremonies at 8 a.m. today prior to the first day of school. Mrs. Janelle Davis and Mrs. Johnnie Lou Avery, co-chairmen of the bicentennial events,

presented a flag to Ronnie Mullins, high school student council president and John Smith, principal. Each school will receive a flag and hold an individual ceremony.

### SEARCH FOR HEIRESS

## Government Abusing Grand Jury System?

HARRISBURG, Pa. (AP) — An attorney for Micki Scott, wife of sports critic Jack Scott, charged today that the federal government is abusing the grand jury system to search for fugitive newspaper heiress Patricia Hearst.

Attorney Margaret Ratner said the government has failed to restrict the use of the grand jury to an investigation into the alleged harboring of Miss Hearst in a Pennsylvania farm house last summer.

The government denied the allegation.

The Scotts are attempting to quash subpoenas for their grand jury testimony at a U.S. District Court hearing.

In addition to grand jury abuse, they claim the government has harassed them through both physical and electronic surveillance.

In legal papers filed for today's hearing, the Scotts said the constant government surveillance became so severe earlier this year that the couple hid from federal agents between Feb. 27 and April 10.

At an Aug. 7 hearing for Mrs. Scott, U.S. Atty. Brandon Alvey called the harassment charge "a figment of somebody's imagination." He had no comment on the new legal briefs.

The papers were filed by the Scotts' attorneys in preparation for a hearing today in U.S. District Court.

The Scotts are trying to quash subpoenas ordering their appearance before a federal grand jury investigating the harboring of Miss Hearst.

Mrs. Scott offered sworn statements of several incidents that she said constituted FBI harassment.

She said last July 30 she called a Portland record shop to order tickets for a concert, and told the salesperson she would be

right over. When she and her husband arrived, federal agents served them with subpoenas.

"To the best of my knowledge, these agents did not follow us to the record store — they were waiting there for us when we arrived," Mrs. Scott said. "I believe that the only way they could have known where we were going was to have monitored my telephone conversation with the salesperson at the record store."

The trip, during which the President makes seven speeches, includes stops today in Colorado and Iowa. He spends the night in Minneapolis and visits Illinois on Tuesday.

The midmorning visit to the Rifle mine is to underscore Ford's view that oil from shale rock is one way the United States can increase domestic energy production and decrease reliance on foreign oil.

Ford was to inspect two pilot projects for use of waste produced when shale rock is shattered and heated to turn the tarlike material into oil. Waste disposal has created environmental problems for developers of oil shale.

The projects at Rifle are designed to show the waste used as a road bed compactor and as soil for growing certain crops.

The President arranged to

### TO VISIT OIL SHALE MINE

## Ford Begins Hectic Tour In Four States

VAIL, Colo. (AP) — President Ford begins a hectic two-day tour to six cities in four states by visiting an experimental oil shale mine at nearby Rifle, Colo.

Before flying from Colorado to the Midwest, Ford scheduled a meeting in Grand Junction with a group of nine officials from western Colorado communities. He then flies to Des Moines to deliver a farm policy address at the Iowa state fair, where Republican Gov. Robert Ray has waived the general public's \$2 admission fee for an hour during the presidential visit.

This evening, the President will attend a GOP fund-raising dinner in Des Moines before flying to Minneapolis for an overnight stay. Ford's Tuesday schedule in Minneapolis includes speech-making appearances at the American Legion national convention and before a Republican leadership rally and a luncheon.

Later Tuesday, he will fly to Illinois to speak at the dedication of the Everett M. Dirksen Memorial Library.

Wilson said "Dallas has consistently led the other regional offices in both litigation and complaints. He said about 125 complaints are received per week here, resulting in three or four lawsuits each month."

"I'm afraid Dallas is one of the centers that attracts these type of folks," he said. "Dallas is one of the few cities left where there's a free enough flow of money to allow these people to operate."

Wilson and Assistant Atty. Gen. Bil Flanary staff the Dallas office of the Consumer Protection Division.

Wilson said Dallas, despite its size as Texas' second largest city, is in many ways "a country town."

However, he said the person who gets conned can range from the "good old country boy" up to the sophisticated businessman.

## Hunt Yields Three Bodies In Burned-Out Oil Tanker

NEW ORLEANS (AP) — Searchers found three bodies Sunday aboard a burned-out oil tanker, the Globtik Sun, which hit an oil platform and burst into flames early Friday.

The search was only about 10 per cent effective because there was so much debris and ashes aboard," said a Coast Guard spokesman.

"We didn't move the remains because we were afraid of disturbing the ashes and losing any possible clue to their identities. But due to the condition of the remains, it appears unlikely we'll be able to identify them positively."

Forty crewmen were rescued after the collision, but six had been missing. Coast Guard planes searched an 800 square mile

section of the Gulf of Mexico for any survivors until dusk Sunday. The search was resumed at dawn today.

The Globtik Sun, which had been carrying 350,000 barrels of crude oil from the West Indies to Baytown, Tex., was towed to a point about 25 miles south of Galveston, Tex., where a 12-person search party boarded it Sunday.

Some oil remained in the ship's hold, and preparations were being made Sunday

night to unload its cargo before towing it in to Galveston.

An oil sheen, which once spread to five miles long, was dissipating rapidly, a spokesman said.

The ship was searched Sunday by the Coast Guard captain of port and a team from the Coast Guard marine inspection office of Galveston.

The chief of the inspection division, Capt. Robert Ewels, had invited crew members of the Globtik Sun to an informal "proceeding" Saturday to discuss how the accident occurred, but Globtik Tankers Bahamas Ltd., the owners, declined to participate.

They claimed the Coast Guard is without authority since the ship is not American-owned and the collision occurred in international waters.

"We cannot force these people to talk," Capt. Ewels said afterward. "But we will discuss this matter with our legal people in New Orleans Monday."

## Oil Prices To Increase

WASHINGTON (AP) — The Federal Energy Administration said today the expected end of oil price controls, eased by removal of import fees, would add no more than three cents per gallon to consumer petroleum prices.

This official estimate was presented by Deputy Administrator Eric Zausner, who said he thought the world oil market would not allow price increases that would cancel out the removal of U.S. import fees.

The official estimate was in line with earlier unofficial reports on the expected impact of the removal of controls.

The controls, which now limit the price of about 60 per cent of U.S. domestic oil to \$5.25 per barrel, were due to expire Aug. 31. This would allow the price to increase to prevailing market levels of around \$12 per barrel.

This increase alone, Zausner said, would add about six cents per gallon to the average price of gasoline, fuel oil and other petroleum products in the United States.

## Amtrak Changes

WASHINGTON (AP) — Amtrak today announced two steps designed to increase train travel between the United States and Canada and to increase train use in the United States by foreign travelers.

Amtrak President Paul Reistrup said Amtrak has signed an agreement with Canadian National Railways that will enable rail travelers from either Canada or the United States to purchase transportation on both rail lines in a single transaction.

At the same time, Reistrup announced that Amtrak will offer, after Nov. 1, a new ticket to foreign visitors that will let them travel on all of Amtrak's routes as often as they like for a set fee.

Enrollment increases

First day enrollment figures in the Big Spring schools were up for the first time in many years, totals compiled shortly before noon showed today.

Total secondary enrollment on opening day in the high school and two junior highs was 2,936 in comparison to 2,930 on opening day last year, even though school opened a week earlier this year.

Elementary total at noon was 3,048, up from last year's 2,996. The last year's total also included afternoon kindergarten figures, according to Harold Bentley, assistant superintendent of special services.

First-day totals were expected to be even higher after the afternoon kindergarten enrollees were included.

## Con Men Are Finding Easy Money In Dallas

DALLAS (AP) — Easy money. A fast buck. That's what con men apparently are finding in Dallas, the city that leads the state in consumer complaints.

"Fraud is to Dallas as pollution is to Houston," says Phil Maxwell, new chief of the Consumer Protection Division of the state attorney general's office.

"Dallas seems to attract fly-by-night... It's more of a financial, quick-buck place. People have money here," he added in an interview.

Wilson said "Dallas has consistently led the other regional offices in both litigation and complaints. He said about 125 complaints are received per week here, resulting in three or four lawsuits each month."

"I'm afraid Dallas is one of the centers that attracts these type of folks," he said. "Dallas is one of the few cities left where there's a free enough flow of money to allow these people to operate."

Wilson and Assistant Atty. Gen. Bil Flanary staff the Dallas office of the Consumer Protection Division.

Wilson said Dallas, despite its size as Texas' second largest city, is in many ways "a country town."

However, he said the person who gets conned can range from the "good old country boy" up to the sophisticated businessman.

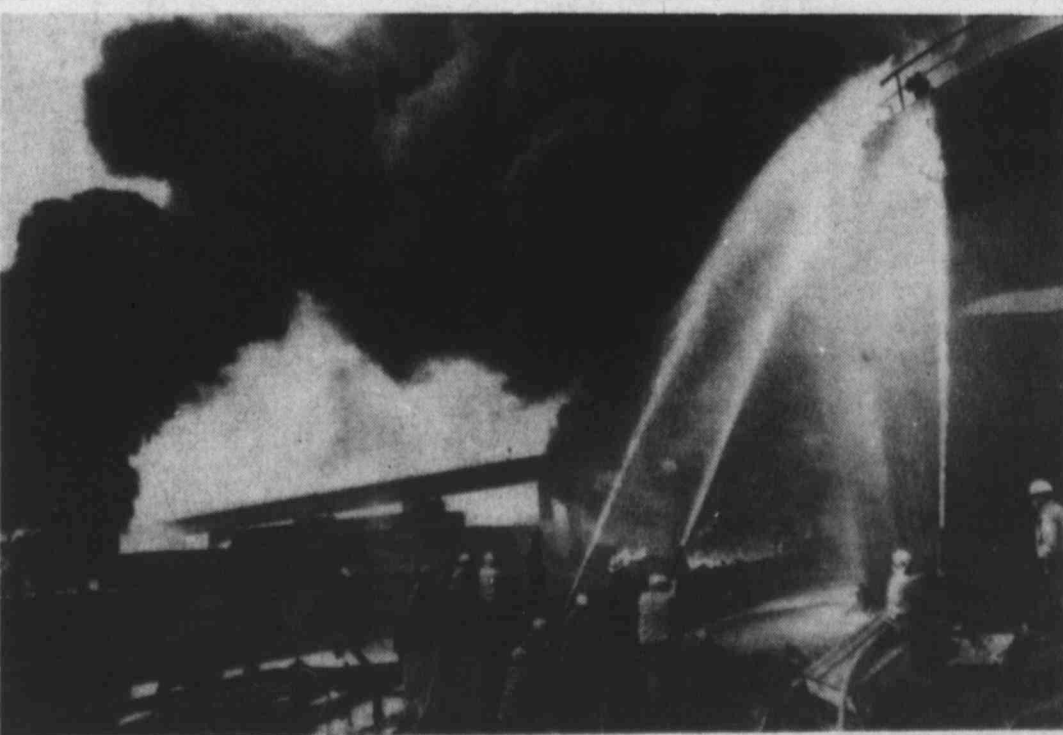

In between, he said, are those who take a chance because "there's a little bit of larceny in all of our hearts."

Wilson described the typical "new generation con man": he drives a leased, big shiny car, wears pinky rings, a leisure suit and patent leather shoes, has "every kind of telephone gadget in his office that can be invented," has "yes men" at his beck and call and lives in a fancy townhouse or apartment.

## FUND HAS NO MONDAY BLUES

Usually the weekend brings the Monday blues, but not for the Bible Class fund. Several friends rallied to the cause, boosting the total by \$265. Included were another out-of-town gift, this one from Fort Worth, and several memorials.

The latest to invest were: Young Adults, First Presbyterian, memory Ella Neill 10.00 Mr. and Mrs. Hugh Rhyme 10.00 Mr. and Mrs. Al Bagwell, memory Boone Horne 25.00 Ruby Bell Billings 10.00 T. E. L. Class, First Baptist 25.00 Mrs. C. S. Berryhill 10.00 J. D. Jones 10.00 Ora Mae Davis, Chas. Barbee Family, memory Chas. Burned 5.00 Boykin Bros. 100.00 Mrs. J. J. Floore, Fort Worth 10.00 Mr. and Mrs. J. A. Baem 10.00 Mr. and Mrs. Merrill Creighton 25.00 Previously acknowledged \$1,480.00 TOTAL \$1,745.00

HOSE DOWN BLAZING REFINERY TANKS — Firefighters play water hoses on one of remaining two tanks still burning at oil refinery in Philadelphia today. Six firemen are believed killed and 17 hurt in fire that erupted in one tank and spread to three others before finally being brought under control early today. Fire broke out early Sunday morning.

## LONELY PRISONER To Go Home With First Visitor In 43 Years?

AUSTIN, Tex. (AP) — Raul Morales, a 79-year-old Mexican migrant worker, has spent 43 years in prison in the Texas penitentiary at Huntsville. Until recently he had never had a visitor or even a letter from anyone.

Then Mary Lou Martinez, 43, a mother of five children, read about Morales in the Austin American-Statesman. She visited him. And she offered to let him live with her and her children.

"They won't let me go," Morales responded when Mrs. Martinez offered to take him home. "This is where I'm supposed to be. I have to get permission from my mother."

Morales, sentenced to life in prison for a West Texas murder in 1927, is deaf, uneducated and speaks an old-style Spanish that is difficult for most young Mexican-Americans to understand, the Austin newspaper reported.

Mrs. Martinez was his first visitor, accompanying Albert Sample of the Comprehensive Offender Manpower Program (COMP) to see Morales.

"If I have enough love for five children, I surely have enough love for him, too," said Mrs. Martinez.

The State Board of Pardons and Paroles has offered to release Morales if COMP, a Texas Bar program, can find a home for him.

Sample wrote officials at Telli, Jalisco, Mexico, where Morales was born, and if he gets no word from relatives, he will ask immigration authorities to permit Morales to remain in Texas with Mrs. Martinez.

Before Mrs. Martinez, a medical clerk who has worked in volunteer programs, left the prison, Morales asked her to sign a slip of paper.

He told her he wanted to prove to other inmates that he had a visitor.

### WARM

Sunny. High today and Tuesday in the 90s. Low tonight, upper 60s. Southerly wind 5-15 miles per hour through tonight.

# Need To Settle Question

Something resembling a Chinese fire-drill has taken place in Turkey. Reluctant Turks and reluctant American soldiers are peacefully coexisting on Turkish-U.S. bases.

Turkish troops began moving into U.S. military installations July 26 in reprisal for the continued American ban on arms shipments to Turkey. The ban was imposed by Congress after Turkey used American equipment in its invasion of Cyprus a year ago.

It was a strange takeover. The Turkish flag had been run up instead of the American flag. Turkish soldiers, sailors and airmen occupied the bases, but the Americans are still there.

"It is too early to say anything about the position of the American personnel on the bases," said Turkish Defense Minister Ferit Mullen. He said the Americans were not required to leave, although they probably will be idle because of the halt in their regular work.

The truth is that the Turks don't want the Americans to leave, nor do the Americans want to leave. The Turks feel better about the U.S. presence in the country. The United States profits from Turkish bases as advance listening posts on the border of Russia.

where radio and radar transmissions can be monitored.

Meanwhile, President Ford and Congress circle each other like wild dogs surveying a badger.

But the Greek lobby is active. The Greeks want Turkish soldiers removed from Cyprus, but they might as well be yelling down a rain barrel.

Congress is, in effect, insisting that our foreign

policy toward Turkey should be governed by our attitude toward the Cyprus question. There is a legitimate concern over the use of U.S. equipment against Cyprus, when our understanding was that it would not be used for that purpose. Yet some sort of settlement is desirable. Turkey is, after all, a hinge of the Western Alliance. Turkey needs us. We need Turkey. A reconciliation is needed.

## Recommended Investment

We recommend for your consideration an investment in the Big Spring High School Bible Class Fund.

For some three decades a credit course in Bible has been offered at the school, but now, as then, it must under law be financed privately.

Instruction doesn't get into the doctrinal aspects of the Bible, but there's enough left over to fill the cup of

any person. Nowhere will you find more sublime literature, a greater guide to morals and ethics, a more interesting compendium of history and of sheer adventure and romance. Exposure to treasures of the Bible cannot but help enrich and enoble the life of any young person. And when you accomplish this through your gifts, what better use could you make of your money?

## My Answer

Billy Graham

I've recently become a Christian, but there is so much to learn and I don't know how to begin. Please give me some suggestions.

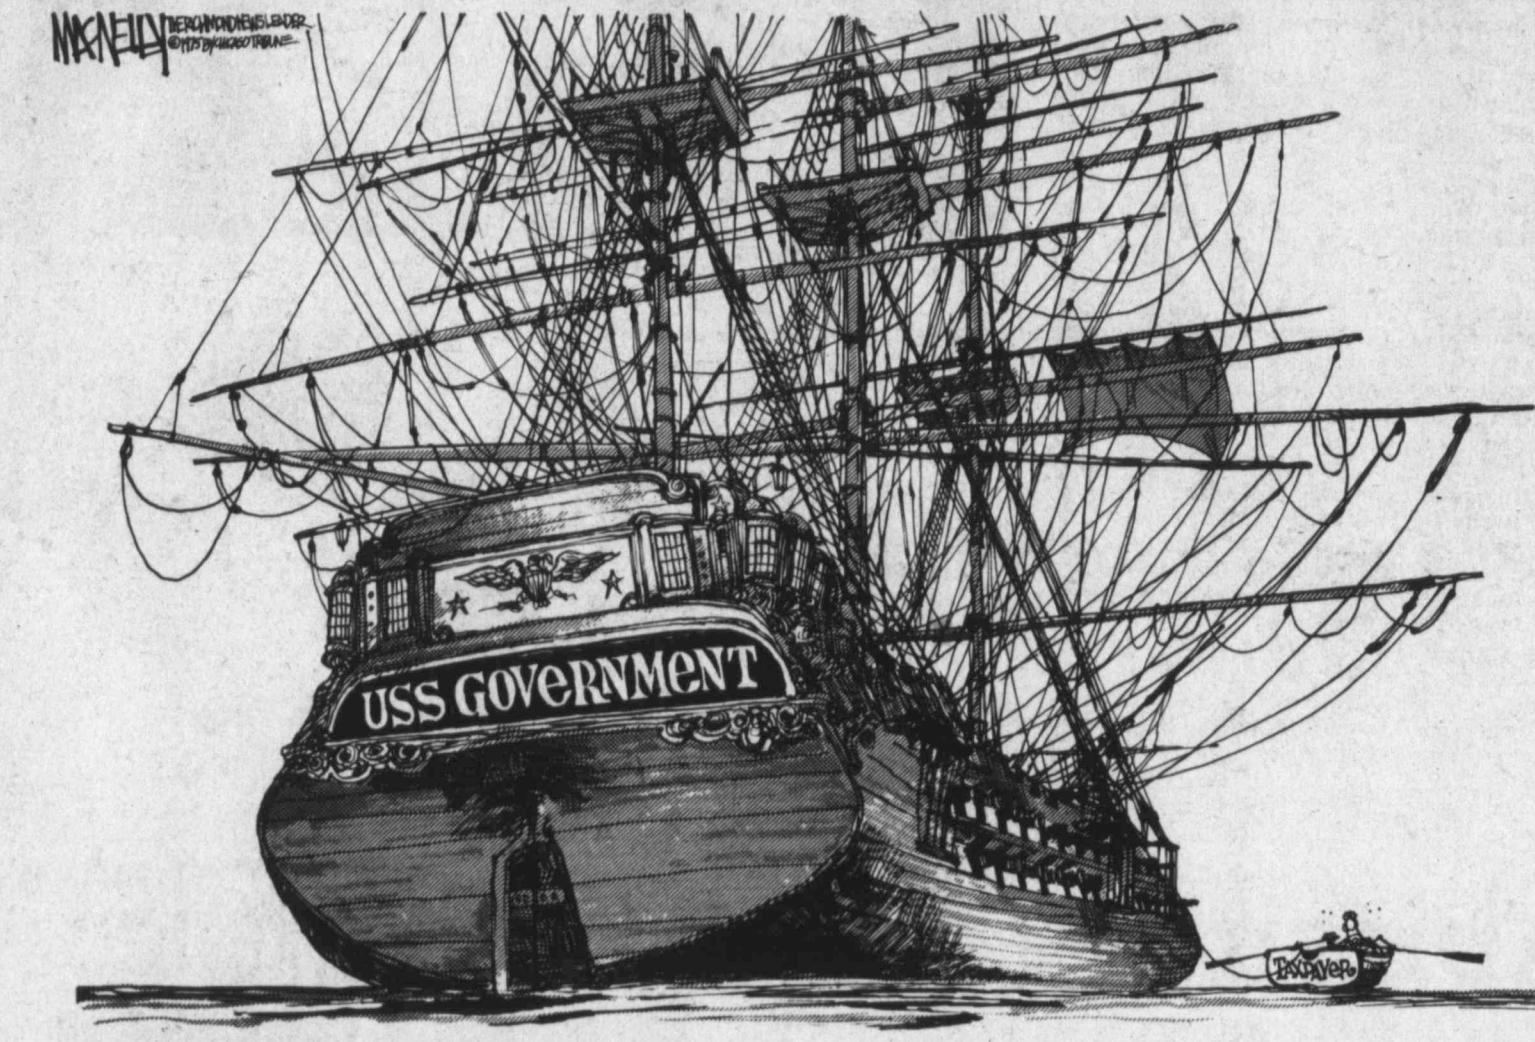

P. L.

Discouragement is one of Satan's most effective weapons. Don't let the vast vistas of Christian growth intimidate you by their size or complexity. The Christian life is essentially a gradual growing experience. It's all in an environment of love, where God is an understanding Father, and Christ is an Elder Brother.

Remember also the importance of the beginning steps, no matter how small they may be. Job once said, "Though thy beginning was small, yet thy latter end should greatly increase." (8:7)

My suggestions are as follows: Get active in a church where the Bible is honored and the Gospel preached; resolve to read a part of the Bible and to pray each day; cultivate the attitude of dependence upon God and love for your fellow men; share your faith whenever possible; celebrate in your own life the joy of being a child of God.

Today is a good day to set some

goals for yourself. Remember too, that God wants you to move ahead even more than you do, and will provide every aid necessary.

## Uproar Over

Marquis Childs

WASHINGTON — That familiar phrase, "working vacation," has been applied to President Ford's stay in Vail, Colo., for two weeks, broken by speaking trips on the weekends. The phrase was a thin disguise for President Dwight Eisenhower who loved to fish and loaf in the Colorado Rockies.

BUT FOR at least one good reason the President is likely to get some real work done in the clear, cool air of his mountain retreat. That is the presence at his side of Donald Rumsfeld, the White House Chief of staff or, as it is now called, in light of unhappy connotations out of the Nixon era, staff coordinator.

At 43, Rumsfeld is the indispensable man. With greater access to the President than anyone, he has repeatedly demonstrated his ability to move into a troubled area and sort out the tangle. That was shown the other day in a matter of extraordinary sensitivity.

THE PRESIDENT'S newly named campaign director, Howard Bo Calloway, the conservative Republican from Georgia, had been busy engaged in talking down Vice President Nelson Rockefeller. He never missed an opportunity to express his doubts about the presence of Rockefeller on the ticket in 1976.

The charitable assumption was that Calloway believed he could in this way reassure Southern delegates of the sound conservative instincts of the President and checkmate Ronald Reagan who was reported to be looking yearningly at southern primaries.

CALLOWAY'S SNIPPING caused acute unhappiness in the White House. While the Vice President took it with ease, it seemed a certain way to make 1976 and re-election tougher than it was bound in any event to be.

At this point the President asked Rumsfeld to talk to Calloway. What followed between the two will be put down for some distant date in Rumsfeld's memoirs when he ends a career that could, or so his friends believe, be climaxed by the presidency. But there is confidence that the Rockefeller uproar is over.

The President himself seemed to put a seal on it when he invited the Vice President, his wife and their five children as the only guests for the dinner marking the first year anniversary of the Ford White House.

IN THE opinion of this observer, Ford will, after his own nomination to a four-year term, reaffirm Rockefeller as his running mate. That has been the privilege of every nominee and it will have special force with an incumbent.

Rumsfeld is a political Horatio Alger hero, rising if not from rags to riches then from modest obscurity on Chicago's near North Side to his present position. An impressive series of articles on his career in the Washington Post called him the second most powerful man in the capital.

He is highly intelligent, politically shrewd, with a driving ambition. As a brash, aggressive 30-year-old congressman from Chicago's Gold Coast, he joined a coalition that was to make Gerald Ford minority leader. They have been close friends ever since.

John Cuniff

NEW YORK (AP) — Those things called statistical flukes seem to be turning up everywhere, upsetting our notion of things economic, undermining our hopes, misleading our forecasters.

A fluke is the all-purpose alibi, serving economists in the same way that a "freak disturbance" provides the weather forecaster with what seems to be an explanation for his own poor performance.

Is the nation's balance of payments situation improving or deteriorating? It's hard to tell; something's fluky.

As measured by the net liquidity balance, payments showed a \$1.2 billion surplus in the June quarter. That represented a deterioration from the first-quarter surplus of \$2.9 billion.

Measured by the official reserve transactions basis, payments showed a \$1.6 billion deficit, but that was an improvement from the \$3.3 billion deficit registered in the first quarter.

Perhaps not to be placed in the category of fluke, but too important to ignore in any

## Statistical Flukes

compilation of misleading indicators, is the latest report on retail sales.

In July, sales rose 2.4 percent to \$49.97 billion from \$48.76 billion in June. It was the largest one-month increase in a year, and put revenues 7.8 percent above the year-earlier figure of \$46.36 billion.

You may conclude from this that sales are spurring. And you may draw the conclusion that the nation is moving up out of the recession.

However, those figures really show that sales volume declined. If sales were to show a gain they would have to come to a total at least 9.5 percent higher than the year before to compensate for the rise in consumer prices.

Criticism of the jobless figures reported by Washington also seems to be growing because of what could be a very serious error of methodology that undoubtedly will be passed off as a fluke.

Doubt about the reliability of the unemployment figures arise from the practice of dropping

from the labor force figure individuals who have become so discouraged that they no longer look for work.

First National City Bank economists are warning Americans not to become too optimistic over a drop in joblessness to 8.4 percent in July because it could be temporary.

When the economy begins to improve, they say, discouraged dropouts might re-enter the work force. A goodly number will fail to obtain jobs immediately, and thus will be added to the jobless rolls.

Sindlinger & Co., a polling and research firm, goes so far as to suggest that most of the improvement in the unemployment rate this year can be attributed to this situation.

Albert Sindlinger, president of the firm, says it is unlikely that the correction will show up in August unemployment figures. But he suggests the nation might be in for a shock on or about Oct. 6, when the September figures are released.

## Temporal Arteritis

Dr. G. C. Thosteson

Dear Dr. Thosteson: What information do you have on temporal arteritis? I had an artery biopsy, which determined that this was the cause of my terrible headaches. That was eight months ago and I'm still taking cortisone.

Mrs. G. I. S. This is also called "cranial arteritis" and as the name implies, is an inflammation of arteries in the temple area. It occurs mostly among persons over 50.

I sympathize with you, knowing the very painful headaches that can accompany this problem. On the brighter side, however, it is the onset of these headaches that brings most victims to their doctors for relief.

While the temporal arteries are the ones inflamed, the brain itself usually is not affected, the effects mostly limited to the vessels of the eyes and the outer head. The temple becomes sensitive to the touch, and in severe episodes the arteries themselves can be seen visibly throbbing.

The usual treatment is with steroid drugs such as the cortisone you are taking. Treatment is continued until

the inflammation is brought under control. Untreated, it can affect vision.

The disease is diagnosed definitely through arterial biopsy, as was done in your case.

Dear Dr. Thosteson: Please write something about Valley Fever. I know there is little known about it, and there is no effective treatment. My doctor has prescribed vitamins. How long does it take to get this infection out of your system?

Mrs. R. T. Medically, this is known as coccidioidomycosis — an 18-letter tongue-twister.

It is caused by a particular fungus that affects the lungs, with coughing, fever and chest pain as accompanying symptoms. There can also be bloody sputum. In these respects it resembles tuberculosis and, in fact, is sometimes mistaken for TB. It can be differentiated through appropriate skin tests.

The spores are breathed into the system from the air. Because the spores seem to thrive best in dry areas, it is also called "desert fever." The American Southwest is one such area, so the disease is often suspected among

residents or former residents who exhibit the symptoms I've mentioned.

There are two forms, chronic and progressive. Ordinarily, there is no specific treatment for the chronic form, which may subside with time and rest. Amphotericin B, an antifungal agent, is used in the progressive variety.

Dear Dr. Thosteson: I am 18. I have a problem called cryptorchidism — the failure of the testicles to descend, in my case only one.

It is embarrassing, not to mention being scary. What can be done to become a normal human being?

C. W. K. Well, I suppose it's a matter of what you mean by "abnormal." What is happening? It has already happened.

You have one testicle nestled snugly in your scrotum, where it belongs. The other one was interrupted in its descent. Chances are this is a functional problem, which should be good news to you. With both testicles undescended, one might suspect a glandular disorder, which would have indicated possible sterility.

## It's Not True

### Around The Rim

Tommy Hart

One thing and another:

POSTAL RATES are going higher but Postmaster Frank Hardesty disputes the claim that service is so slow the post office has to charge for storage. Furthermore, he'd like to know who started the rumor. Every piece of mail that has arrived at the local post office was delivered yesterday, Hardesty insists.

I am forever questioning the motives of Congress. It passed a bill permitting us to buy gold only after we had reached the point where we couldn't afford food.

ONE FIFTH of the national total, or about 25 counties, have no doctors of medicine in Texas. The number is increasing. If you think you're going to be sick, you'd best be careful where you take to your bed. We, no doubt, need more schools of medicine. Over the past six years, almost 70 percent of the doctors of medicine licensed to practice in Texas were from foreign or out-of-state medical schools.

Incidentally, those people in medicine who strive to justify their fees by pointing to the fact that they must pay more for their schooling and invest a lot more of their lives in preparation than the average college graduate have a point. They do not like to be reminded of the fact, however, that their education would have been impossible in the first place had the schools they attended not been subsidized by the state. And

you know who picks up the bills to finance the state.

NOT MANY of us keep a family budget. Who among us needs to be reminded that one can't live on what he's earning?

They say the former California governor, Ronald Reagan, sleeps on a mattress that is seven feet wide and seven feet long. He just looks that tall to some voters who support his conservative views.

If step ladders were issued only by the government, I'm sure the instruction "Stop Here" would be printed on the top rung.

IF YOU PLAY golf, your most important club may be your putter, but I think you'll agree that nothing counts like your opponent.

Is anything more misleading than the loan company ad which is being repeated on television these days? It says: "Now you can borrow enough money to get out of debt."

NO MATTER what you collect — buttons or bottles, arms or antiques — there has probably been a book written about it. Go into any well-stocked magazine store and you'll find an entire section devoted to such literature. That brings up the old question: Which came first, the chicken or the egg?

Both of my kids learned to count long before they reached the first grade. Thinking back, I remember it was simple to teach them. I used to give them different allowances.

## EDITORIALS / OPINIONS

### UN Time Bomb

Rowland Evans

WASHINGTON — Ticking dangerously in the background of U.S. efforts for an interim settlement between Israel and Egypt is the time bomb set to explode at the United Nations next month if no agreement is reached.

THAT TIME BOMB is the threat by the Afro-Asian third world bloc, joined by Moscow and other Communist nations, to suspend or even expel Israel from the UN General Assembly.

Thus, for the first time since Secretary of State Henry Kissinger began nonstop Mideast peace negotiations following the October 1973 war, the element of time — heretofore an indispensable and precious tool for Kissinger — is inexorably running out.

IF ISRAEL fails to reach agreement by next month for withdrawal from the Sinai mountain passes and the Egyptian oil fields seized in the 1967 war, the UN General Assembly is certain to vote extreme sanctions against Israel. That would have cataclysmic repercussions — for the U.S., for Israel and for the world.

It would tie Israel even closer to the U.S., with a vast majority of American voters immediately resolving conflicting emotions about Israel and the Arab states in favor of Israel; would further isolate the U.S. from allies which, because of Arab oil, are far more impatient than the U.S. with Israel's continued occupation of Arab territory; and would probably render the UN useless for any further role in the Arab-Israeli conflict.

There is no disagreement here on these points.

SOME HIGH U.S. officials fear that UN suspension of Israel would start political winds which would blow into an anti-UN tornado in this country, gravely weakening or even

destroying it as an international forum — though there is serious difference of opinion on this.

Ironically, it was quiet, backstage diplomacy by Egypt and moderate Arab states that prevented other third-world African and Arab countries from inflaming anti-Israel animus into hard action at last week's Kampala meeting of the Organization of African Unity.

PRESIDENT ANWAR SADAT of Egypt, who is betting his whole political future on a Sinai agreement with Israel, quietly lobbied backstage at Kampala against any anti-Israel resolution. But to protect his left flank, he strongly indicated that there is no interim settlement on the Sinai, Egypt itself would be compelled to join in suspending Israel from the UN General Assembly.

THE DEADLINE confronting Kissinger thus appears immutable, with the regular session of the General Assembly opening Sept. 16.

If Kissinger by then has failed to find a compromise Sinai formula, a move to suspend or expel Israel is certain. Experts here feel Egypt will have to support it, along with all Arab countries and most of the third world bloc which now dominates the UN.

Any "important question" in the General Assembly requires a two-thirds vote. With rampant majority control on the floor however, the third world bloc can rule that suspension of Israel is not an "important question," hence subject to a simple majority vote.

THE GRAVITY of this UN time bomb is fully understood by responsible leaders of the American Jewish community, who were impressed by the political risks taken by Sadat at Kampala last week.

## SINAI PACT OPTIMISM

## Kissinger Resumes Shuttle Diplomacy

WASHINGTON (AP) — Secretary of State Henry A. Kissinger says his new round of shuttle diplomacy stands a good chance of achieving an interim Israel-Egypt accord that will be "a significant step toward peace in the Middle East."

Negotiations have progressed to the point where all parties believe it would be useful for him to return to the Middle East "in an effort to bring the talks to a successful conclusion," Kissinger said Sunday.

The secretary told newsmen at the Western White House in Vail, Colo., that he would depart Washington late Wednesday for Israel and later meet with President Anwar Sadat in Alexandria, Egypt. Kissinger also plans brief

visits to Syria, Jordan and Saudi Arabia.

Announcement of the forthcoming trip followed the Israeli cabinet's approval of negotiations conducted so far between Kissinger and Israel's ambassador in Washington.

However, a communique issued after a four-hour cabinet meeting in Jerusalem said there are "important issues still to be settled" in trying to reach a new interim accord for disengagement of Israeli and Egyptian forces in Sinai.

Informal sources said several cabinet ministers were dissatisfied with terms of the agreement, contending that Israel was being shortchanged.

Israeli Foreign Minister

Yigal Allon said later that he welcomed Kissinger's return to the Mideast but "there are still problems of clarification and agreement."

In Cairo, a high-ranking Egyptian foreign ministry official said about the Vail announcement: "Of course it's good news."

At the Rocky Mountain resort where he is on a two-week working vacation, President Ford said in a statement Sunday:

"I have worked many hours with the secretary of state analyzing and assessing the situation in the Middle East, and I have now directed him to return to that region in an effort to bring the discussions to a successful conclusion."

"I am hopeful that the parties will successfully

conclude an interim agreement which not only would be in the best interest of the parties involved, but also in the best interest of the entire Middle East region and indeed of the whole world."

Kissinger said that among issues still to be worked out are the disposition of forces in the Sinai area and the proposed stationing of American personnel to operate an electronic early warning system in the Sinai buffer zone.

Such direct U.S. presence is considered essential to Israeli willingness to abandon the strategic Mitla and Gidi passes.

"The idea of a possible monitoring team has as yet not been fully decided," Kissinger said, adding that in any case, "American participation would be entirely technical."

He emphasized that such an American group, composed of about 100 civilian volunteers, would be stationed in the disputed Sinai territory "only if approved by Congress."

Kissinger noted there would also be a United Nations force interposed between Egyptian and Israeli troops "in a zone of greater depth than has ever existed between hostile forces in the Middle East."

Israeli sources said that in return for Israel's withdrawal eastward in Sinai, under the proposed agreement Egypt must pledge to ease its diplomatic and economic warfare against Israel and formally declare "non-use of force" to solve Mideast disputes.

One issue still in dispute, the Israeli sources said, is the future of the territory Israel will vacate. Israel wants it demilitarized and under U.N. control, a condition Egypt rejects, they said.

In other Mideast developments:

—A U.S. helicopter carrier was to arrive today in Port Said at the northern end of the Suez Canal to be commanded by new command ship for minesweeping operations, the official Middle East News Agency reported.

—Top military men from Egypt, Saudi Arabia, Qatar and the United Arab Emirates opened talks in Cairo Sunday on establishing an Arab arms industry to end Egypt's dependence on Soviet weapons.

—Small bombs exploded Sunday in the twin cities of Ramallah and El Bira in the occupied West Bank near Jerusalem, causing slight damage but no casualties, the Israeli state radio said.

SPIRIT OF '75-76 — Three flute players typify the spirit of the '75-76 school year as they play music for the opening bicentennial ceremonies at the high school

today. Sherry Proctor, Jennie Speegle and Darla Morrell strike up a tune.

## Bid Opening For College Coliseum Set Tuesday

Bids on the \$1,500,000 general obligation bonds for the PE-Coliseum building at Howard College will be opened 12:30 p.m. Tuesday by college trustees. Indications are that there will be several proposals for the 20-year issue.

Under a schedule proposed by the college, retirement of principal will not begin until 1983, which will allow for wiping out outstanding bond interest requirements of \$535,000 in the interval. Estimated tax rate assigned

to debt service would vary from 12.6 cents in 1976 to a peak of 18.1 cents in 1981. Retirement of the new bonds would begin with \$75,000 in 1983 and gradually step up to a peak of \$140,000 per annum before retirement in 1995.

Other items to come before the board in its meeting at the Dora Roberts Student Union Building include the amendments of the current budget to conform with actual expenditures, an exercise required by state law.

Public hearing on the proposed budget for 1975-76

also will be held. Afterwards, the board is due to adopt a budget and set a tax rate.

A contract for architectural-engineering services in connection with the new building will be considered. Personnel matters may be added to the agenda.

## Stolen Car Is Found In Omaha

A 1971 model car belonging to Mrs. Margaret Bowen Lee was found by Omaha, Neb., police, the Howard County Sheriff's Office learned Sunday.

The vehicle was reported stolen Wednesday. Costume jewelry was found in a pillow case on Wasson Road, the sheriff's office was told today.

Vickie Moore of Meadbrook Road in Sand Springs reported a Shetland pony missing.

## New Date Gives City A Reprieve

The city of Big Spring received a month's reprieve from the Texas Water Quality Board here today. City representatives were scheduled to appear at the August meeting of the group in Lubbock to present cost figures on a study on the water filtration plant.

Water quality officials notified City Manager Harry Nagel today that Big Spring will be heard at the next meeting instead, on Sept. 23.

## Fire Destroys Automobile

A 1974 car was destroyed by fire started apparently by mechanical problems early Sunday morning, Sheriff A. N. Standard said.

The vehicle was found on fire on Eleventh Place extension near the city limits at 3:40 a.m. Sunday.

For a while, investigating officers were mystified about ownership. Ray Lee of Webb Air Force Base was identified as the owner today.

## MISHAPS

4209 Walnut: Walter Henderson Parker, 4207 Walnut, Ella Estep Howell, Stanton; 1:31 p.m. Sunday.

3rd and San Jacinto: Edward F. McCumber, 3607 Tingle, Robert Delano, Coahoma; 9:57 p.m. Sunday.

610 NE 10th; Juan Garcia, 602 NW 8th, Oscar Hernandez Valencia, 600 NE 10th; 4:31 p.m. Saturday.

11th Place and Birdwell: Roger Tucker, 2709 Cindy, Aureliano Moreno Jr., 3215 Abram; 3:40 p.m.

1407 11th Pl.: parked vehicle, Don E. Vaughn, Rt. 1, and Aureliano Moreno Jr., 3215 Abram; 7:23 p.m. Saturday (Moreno was taken into custody and charged with leaving the scene on two separate accidents.)

Furr's Grocery parking lot: Koyle Rice, 611 Johnson, parked vehicle and Minnie Bell Knightstep, 204 E. 22nd; 4:36 p.m. Saturday.

Piggly Wiggly parking lot: J.E. Reed, 2410 E. 24th, Walker Hale, 2719 Central; 6:22 p.m. Saturday.

Holiday Inn parking lot: E.P. Schwager, Houston, parked vehicle and vehicle that left the scene.

## THEFTS

Joyce Tynes, 900 S. Lancaster, reported four hubcaps stolen from her vehicle while parked inside the garage at this address.

Mrs. Edward Engel, Bx. 439, reported theft of purse from unlocked nurse's locker at Malone-Hogan; missing \$3 cash and credit cards.

## Area Lakes Make Gain

Two Colorado River Municipal Water District lakes may pick up as much as 10,000 acre feet from run of last week's rain.

Lake J. B. Thomas has gained 1.3 vertical feet, reaching an elevation of 2225.81, and the increase approximates 3,300 acre-feet, said O. H. Ivey, CRM-WD general manager. The river dropped off to a trickle.

Lake E. V. Spence reached elevation 1867.50, a new peak, for a vertical rise of .70 of a foot and 4,700 acre-feet. The Colorado River still was running, and another .20 of a foot or more may be received there. This would boost the total catch to around 10,000 acre-feet.

The best showing was made by Lake Colorado City, the Texas Electric Service reservoir. Monday morning it had reached an elevation of 2066.80, only 3.5 below spillway level. This accounted for a gain of 2.40 vertical feet and 3,300 acre-feet.

There were no late reports from Champion Creek Lake, a few miles below Lake Colorado City. At last report this TESCO reservoir was at 2052.95, which gave it a volume of 11,450 acre-feet.

## Watch For Kids, Urges Chisum

"School has started again, so please watch our children," Police Chief Vance Chisum urged here this morning.

"It's a trite thing to say this time of year, but we need to be aware that once again, children will be congregating around schools. And they don't have traffic on their minds."

Citizens are urged to watch for crosswalks, and also to stop when they see flashing lights on a parked school bus.

"Just a little bit of precaution might save a child," Chief Chisum added.

## Order Of Arrow Elects Officers

The Lone Star District chapter of the Order of the Arrow, an honorary camping and service group of the Boy Scouts of America, elected new chapter officers at its meeting Sunday afternoon.

New chapter chief is Brian Jones, Troop 5; vice-chief, George Gillespie, Troop 5; secretary, Jimmy Ferguson, Troop 1776; and new treasurer, is Dane Green, Troop 5.

Most members of the chapter will be participating in a work weekend at the Davis Mountain Scout Ranch on Sept. 5-6. The next major Order of the Arrow event is to be the annual council OA Banquet to be held in Big Spring on Nov. 8.

## Lamesa College Center Acquired Own Building

LAMESA — The Lamesa Community College Center became a reality when the Lamesa Industrial Foundation announced the purchase of property on the Lubbock Highway to house the center.

The foundation has entered into a purchase contract with G.K. McDonald for the building and property formerly housing the Lamesa Bowling Alley.

The building will be made available to Howard College of Big Spring for the teaching of credit and non-credit courses, and vocational classes.

Howard College will begin work immediately to remodel the interior, install classroom partitions, paint and get the building in condition for September classes. Theron Lee is the coordinator from the college.

The foundation will install air conditioning and make other repairs.

The purchase of a home gives the Community College Center a local

identity it has not enjoyed previously.

While Howard College extension courses have met with good response in the past three years, college officials have expressed a desire for a building so they might establish a coordinators office at the site.

## DEATHS

## Mrs. Neill

Services were held at 2 p.m. today for Mrs. Ella C. Neill, 87, in First Presbyterian Church with the Rev. R. Earl Price officiating.

Burial for Mrs. Neill, who died Saturday in a local rest home, was in Mt. Olive Memorial Park under the direction of River-Welch Funeral Home.

Palbearers were Johnnie Johansen, Lee Porter, A. A. Porter, Pat Boatler, Rupert W. Hallbrook and Noble Kenner.

## FLIGHT FAILURES Soviet Missiles Problems Mount

WASHINGTON (AP) — One of Russia's most advanced long-range missiles has suffered two consecutive flight failures, raising the possibility of problems with this recently deployed Soviet nuclear weapon.

U.S. intelligence sources reported that the SS19 missiles flopped during training launches in June and July after an unbroken string of 25 flawless tests over the past two years. In both cases, the failure occurred in the missile's second stage.

The SS19, with a range of about 6,300 miles, has been rated by U.S. experts as the most successful of four new Soviet intercontinental ballistic missiles.

The United States uses spy satellites and other means to monitor Soviet missile tests, practice launchings and construction of missile facilities inside the Soviet Union.

Turkey's shutdown of four U.S. electronic intelligence-gathering stations there late last month has significantly reduced that ability, U.S. officials say.

These officials say that unless those stations are allowed to resume beaming into Russia, it will be more difficult to verify whether the Soviet Union abides by terms of a new nuclear arms limitation agreement now being negotiated.

## Camp Mesquiter Draws 21

"Our goal wasn't to sell the Air Force, but to give needy children in the community a chance to attend a summer camp," says First Lieutenant Nollie A. Wilson, project officer for Camp Mesquiter.

Yearly, the Webb Junior Officer Council sponsors two summer camps for underprivileged youngsters, ages 8-13. Called Camp Mesquiter, the project sponsors a week long camp for boys followed by a similar one for girls.

## 'TOTAL TYRANNY' BY DICTATOR There Would Be No Place To 'Hide' In America

WASHINGTON (AP) — The chairman of the Senate panel probing U.S. intelligence agencies says the government has the technological capacity to impose "total tyranny" if a dictator ever came to power.

"There would be no place to hide," Sen. Frank Church, D-Idaho, chairman of the committee, said Sunday on NBC's "Meet the Press."

Church said the eavesdropping technology given the government by intelligence agencies would enable the government to

impose total tyranny "and there would be no way to fight back because the most careful effort to combine together in resistance to the government, no matter how privately it was done, is within the reach of the government to know, such is the capability of this technology."

Church said that U.S. intelligence agencies, "in the need to develop a capacity to know what potential enemies are doing," perfected a "very extensive capability of intercepting messages wherever they may be in the airwaves."

"Now, that is necessary and important to the United States as we look abroad at enemies or potential enemies. We must know," Church said.

"At the same time that capability at anytime could be turned around on the American people and no American would have any privacy left, such as ...

telephone conversations, telegrams, it doesn't matter."

In other matters, Church said: "Covert CIA actions on behalf of Portugal's non-Communist majority would 'at least conform to our values as a country and to our professed principles.' But he indicted such a move would be unwise because 'right now there is a very grave risk of CIA exposure' and because Portuguese democrats were getting help from European countries."

—He did not share the view that Central Intelligence Agency Director William E. Colby should be replaced. Colby "has been forthcoming" with his committee, Church said.

—There was no hard evidence linking any former president or other high administration officials to plots to assassinate Cuban Premier Fidel Castro.

## HALFWAY HOUSE Brandy, Cognac Helping Alcoholics

BRIDGEPORT, Conn. (AP) — A halfway house for alcoholics has found a slightly tipsy way to help win the battle of the bottle — dogs named Brandy, Ginger, Blackberry and Cognac.

Many people turn to alcohol because humans are not satisfying their emotional needs, says Bob Ryan, executive director of the Guenster Home and himself a reformed alcoholic.

"Feed a dog, watch him shake his tail ... they never take you for granted," he says. "Everybody's been telling you what you've been doing wrong. A dog doesn't say anything. He just loves you."

Ryan bought a Labrador retriever for the house the day after Christmas in 1973 to help the residents get through the post-holiday downs. Appropriately, it had been named Brandy, he says.

Three months later, a woman offered Ryan a female Labrador and the residents called her Ginger, "because of ginger brandy," Ryan says.

Ginger had a first litter of 10 pups last October and a second litter of 12 on July 10. Most of the first litter was

given away to exresidents of the house. The two left are Cognac and Blackberry.

"We may run out of brandy names and switch to fine wines," says Ryan.

Doug Ten Eyck, 33, who has lived at the home since last September, keeps a loving eye on all the dogs. Instead of an empty bottle, a "Handbook of Dog Care" sits on his dresser.

Ryan takes Brandy home, but the rest of the dogs — 15 at present — share Ten Eyck's small room.

"When I came here I was really bad. I didn't trust nobody," he said. "I was lonely. I didn't talk to nobody I was in a shell."

Now his face lights up and his voice becomes animated when he tells anecdotes about the dogs. Ryan credits them with helping Ten Eyck stay sober since he's been at the home.

Ryan says the Guenster Home, a former convent on a residential, tree-lined street, is a "home, not an institution." He says he's tried to create a happy atmosphere by dishing out good food, buying new furniture and keeping the house clean. The dogs help make the atmosphere more like home, he says.

**ATTENDANCE** — 6,900.  
**TOTAL** — 417,945.

## Owl Coordinator Rots Up Sleeves

HOUSTON (AP) — Bill Cox knew he wasn't taking over a smooth-running racing machine when he accepted the job of offensive coordinator under Rice football coach Al Conover.

"I've known Al for a number of years so I kept up with him at Rice and I knew what was going on last year," Cox said. "I remember I listened to the LSU game last season. It was a heartbreaker."

"Despite a lull in 2-8 record, the Owls played outstanding defense. They ranked eighth nationally in pass defense and safety Randy Piel led the nation in fumble recoveries with eight."

"It was the offense that coughed and sputtered to less 1,000 yards rushing; Gus Conover named four new offensive coaches and installed Cox as coordinator."

"Cox came in for spring training, rolled up his sleeves and started tinkering with the Rice offense. By the end of spring, Cox was satisfied he had the Owls running again—and passing."

"I have a true optimism about our offense this season," Cox said. "I knew the responsibilities coming in here that the offense would have to improve."

"But I don't feel any more pressure than any other person might as an offensive coordinator. Our offensive players seem to have confidence in what we are doing."

BULLDOG TALENT — Coahoma's 1975 starting backfield unit lines up with Billy Smith, guard, No. 66, Joe Wright, center, No. 55, and Terry Don Roberts, guard, No. 61. They include left to right, Gary Roberts back, No. 20, Ricky Patterson, tailback, No. 31, Charles Tindol, quarterback, No. 13 and Mile Collier, back, No. 22.

No. 61. They include left to right, Gary Roberts back, No. 20, Ricky Patterson, tailback, No. 31, Charles Tindol, quarterback, No. 13 and Mile Collier, back, No. 22.

## FIRST 19-GAME WINNER Palmer Silences Texas

By the Associated Press

The three-time world champion Oakland A's don't scare easily, but they were scared of the baseball Sunday, and tonight their knees are shaking because

they're up against one of baseball's hottest teams — the Detroit Tigers. The reason for their baseball phobia was Milwaukee fireballer Pete

Broberg who hit three A's batters, the same number who hit him back. Broberg gave up three hits, none of them in the second inning when the A's scored all their runs in a 3-1 victory over the Brewers.

Broberg walked Billy Williams, then hit Sal Bando and Gene Tenace on successive pitches to load the bases. A walk to Jim Holt forced in the first run, Bando scored on a double play grounder, then Tenace scored on Robin Yount's 34th error of the season.

"My fastball was moving, maybe too much," said Broberg, who walked eight men in eight innings. "They've got some hitters who stand close to the plate, and the ball was jumping up and biting them."

The A's are afraid of being bitten by the Tigers, who have finally found their teeth after 19 straight losses. Ray Bare broke the futility string Saturday night with a two-hitter as the Tigers won 8-7, made it two in a row Sunday with a five-hit, 7-0 victory over the California Angels.

Elsewhere in the American League, Boston dropped the first game of its doubleheader with Chicago 6-2, then won the nightcap 4-3 in 11 innings; Baltimore blanked Texas 4-0; Cleveland pounded Minnesota 14-5, and Kansas City tripped the New York Yankees 5-3.

Ruhle, whose 2-0 victory over the Yankees July 28 was the Tigers' last victory before Saturday night, was backed by an 11-hit attack which included Tom Verver's two-run homer and three hits by Ron Leflore.

ORIOLES 4, RANGERS 0 — Baltimore's Jim Palmer, the major league's first 19-game winner at 19-7, silenced Texas on four hits.

Midland whitewashed San Antonio 3-0 and San Antonio got even 3-2 in the only Texas League games permitted by the weather Sunday.

Contests for Lafayette at Jackson and Alexandria at Arkansas were washed out by rain. Other clubs had an open date.

Mike Krukow of the hot Midland Cubs tossed a five-hitter in the first game to notch his 11th victory against six losses. Bill Bright doubled and Bill Mousman tripled for all the runs Midland needed in hanging the loss on the San Antonio Brewers' Norm Werd, now 3-3.

The Brewers sewed up the nightcap in the sixth inning when Bill Hiss singled home one run and scored himself on a double by Gary Cleverly. Joe Flanagan, 1-1, was the winning pitcher and Donnie Moore, 12-7, absorbed the loss.

On the other hand, the Southern California Sun have found exactly what they need in home-grown rookies Pat Haden and Anthony Davis, the former University of Southern California stars.

Haden tossed passes of 66 and 18 yards and Davis gained 118 yards on 23 carries to lead the Sun to a come-from-behind 37-19 victory over the Hawaiians.

In other WFL games Saturday, Jacksonville defeated Birmingham 22-11, Charlotte clipped San Antonio 27-20, Shreveport nipped Philadelphia 10-3 and Chicago beat Portland 25-18.

"Calvin Hill will be able to play football again," said Dr. Jack Morris, the Hawaiians team physician. Hill had taken a short pass early in opening quarter and headed around right end when he was tackled by Sun weak safety Jack Connors and a host of defenders.

Two other former NFL players, quarterback Pete Beathard and receiver John Gilliam, paced Chicago to an overtime victory.

Homers thrown in with a six-hit pitching effort by David Montanez easily moved the Big Spring Tiger-Cubs by host Abilene, 18-5, Sunday afternoon.

With the victory, the Tiger-Cubs managed by Toto Garcia shot their seasonal record up to 6-5. Montanez in winning is now 1-1. He fanned 12 and walked two.

Big Spring banged loser La Sal Gomez for 18 hits. Billy Wood got the visitors off to a fast start by unloading a three-run homer in the first. Wood's mate Henry Halo followed with a solo round tripper in the second.

Four baggers continued to be the order of the day for the Tiger-Cubs. Montanez besides being tough on the mound was tough at the plate, smacking a three-run homer in the third.

The Tiger-Cubs concluded their homerun barrage in the fourth with Willie Williams' grand slammer. Ernie Garcia, of the Tiger-Cubs, who has been hitting the ball better than a .500 clip per game, fell off his pace, going two for five.

Williams was the leading swatter for the Tiger-Cubs, five for five, trailed by Ruben Mendez, four for five. The Tiger-Cubs have extended their season for one more week, entering the Duncan Tournament Friday at Johnny Stone Park.

Tiger-Cubs 414 201 6-18-18-0 Abilene 120 020 0-5-4-0 Montanez and Williams Gomez and Jarrillo

**Hill Out For '75**  
 By the Associated Press  
 The Hawaiians waited a year for Calvin Hill. Now the World Football League team will have to wait until the 1976 season.

Hill, the former Dallas Cowboys running back, jumped from the National Football League to the WFL this season. Saturday, he underwent surgery on his knee that will shelve him for the remainder of the year.

On the other hand, the Southern California Sun have found exactly what they need in home-grown rookies Pat Haden and Anthony Davis, the former University of Southern California stars.

Haden tossed passes of 66 and 18 yards and Davis gained 118 yards on 23 carries to lead the Sun to a come-from-behind 37-19 victory over the Hawaiians.

In other WFL games Saturday, Jacksonville defeated Birmingham 22-11, Charlotte clipped San Antonio 27-20, Shreveport nipped Philadelphia 10-3 and Chicago beat Portland 25-18.

"Calvin Hill will be able to play football again," said Dr. Jack Morris, the Hawaiians team physician. Hill had taken a short pass early in opening quarter and headed around right end when he was tackled by Sun weak safety Jack Connors and a host of defenders.

## BUC NOSEDIVE Once-Imposing Lead Cut To 1/2

By the Associated Press

The Pittsburgh Pirates are undoubtedly happy to be back home after four disastrous games in Cincinnati.

But after a two-game midweek series against San Francisco, the Bucs will find themselves face-to-face once again with the National League's version of "Jaws."

The Reds, who have chewed up virtually everything in sight this year, invade Pittsburgh for another four

games starting with a two-night doubleheader next Friday.

Actually, Cincinnati only nibbled at Pittsburgh on Sunday — but the result was the same. A pop-fly single by Dan Driessen broke a sixth-inning tie, then Bill Plummer and Pete Rose singled for seventh-inning runs that gave the Reds a 3-1 victory, their eighth straight triumph.

And it was the Pirates' sixth straight defeat and 11th in their last games, a nosedive that has slashed their once-imposing lead in the East to a scant one-half game over Philadelphia.

In Sunday's other NL games, the Phillies beat San Diego 10-4, St. Louis pulled within two games of first by ripping Atlanta 8-1, New York shut out San Francisco 3-0 to climb within 3 1/2 games of the top, Los Angeles downed Montreal 5-3 and Chicago defeated Houston 11-7.

Phillies 10, Padres 4  
 In a 14-hit Philadelphia attack on San Diego, Larry Bowa singled for a run in the first inning, then the Phils got three in the second, two on Dave Cash's triple. They got two more in the third on successive homers by Jay Johnstone and Greg Luzinski, his 31st of the season, and wrapped it up with four in the eighth, two on a single by Garry Madrox.

Cardinals 8, Braves 1  
 The Cards might be working up a love-hate

relationship with the Reds. Cincinnati, having helped them the past four games, now invades St. Louis for a three-game set before heading for Pittsburgh.

"I expect the Reds to play the way they've played us all year," Cards' Manager Red Schoendienst said. "It's important for a team to have momentum — and that's something they've had all year. But we've got a little momentum, too, and we'll battle them."

They beat the Braves handily as Ken Reitz drove in three runs and Ron Fairly added two RBIs.

Cubs 11, Astros 7  
 Jose Cardenal snapped a tie with a fifth-inning double, then the Cubs scored six runs in the seventh on six straight singles to beat the Astros.

**Win Never Left Don Bies' Mind**  
 WETHERSFIELD, Conn. (AP) — "Winning never left my mind," Don Bies said. "I was trying to get it out of my mind, trying to blank it out, trying not to think about winning and just concentrate on what I'm doing."

"But I couldn't do it. I was beginning to wonder if I'd ever win."

The wonder, along with the frustration, failure and disappointment, came to an end Sunday when Bies, an easy-going former club pro, rolled in a six-foot birdie putt on the second playoff hole and beat Hubert Green for the title — and \$40,000 — in the Greater Hartford Open Golf Tournament.

"I couldn't believe it — I still can't believe it — when the putt went in the hole and I was a winner," he said. Bies, who joined the tour almost by accident eight years ago, had won a lot of money but nothing else in his career. At 37 he may be the oldest first-time winner ever. The records don't show.

"I thought I might never win," Bies said. "I've played reasonably good over the years. I've been in contention before. About half those times, when I was in contention, I played pretty good. It wasn't like I was choking all the time. Sometimes the putts just wouldn't fall. Sometimes somebody just played better than I did."

This time the quiet, low-key Bies got it home. It was a battle. He had to make a 20-foot birdie putt on the 71st hole to regain a share of the top spot and force the playoff.

He had to make a nerve-testing, six-foot par-saving putt to stay alive on the first playoff hole. And he had to make another six-footer on the second hole to win it.

Bies led by three strokes at one time in the final round, watched the margin fade and disappear, then reclaimed a share of it with the critical birdie on the 17th. It helped give him a final round of 69

and a 267 total, 17 under par on the 6,598-yard Wethersfield Country Club course. Actually, it was a four-man race down the stretch. J.C. Snead needed only a par on the last hole to gain a playoff spot. But he bogeyed it, missing the green from a flying lie in the rough. Larry Nelson had a 10-12 foot birdie putt on the last hole to make the playoff. He threeputted for bogey.

Snead, who barged into contention with four birdies in a row over one stretch, finished with a 67-268, one shot back. Nelson's 69-269 was two back and put him in a tie with Victor Regalado, who had a last-round 67 in the cool, cloudy, windless weather that helped produce some of the lowest scores of the season.

Two of the early starters, Jim Simons and 51-year-old Art Wall, had 68s despite bogeys on the final hole. Wall finished at 275, Simons 273. Johnny Miller, wearing a support brace on his ailing left wrist, managed a 67-271. Lee Trevino had 69-274, Gary Player 66-272.

## 13 ROAD DEATHS

Five Homicides,  
Two Drownings

By the Associated Press

Texas recorded a somewhat smaller violent death toll during the weekend than often is the case.

The number of fatalities between 6 p.m. Friday and midnight Sunday reached a total of 21, including 13 in traffic, five homicides, two drownings and one from lightning.

These were among the victims:

Three members of a Dallas family burned to death Sunday night when their station wagon and a car collided in North Dallas. Killed were Horace B. Williams, 26; his wife Fanci, 26, and his stepson, David Crann, 6. David's sister, Jennifer Crann, 5, suffered only minor injuries as she was thrown clear.

Charles Nanny, 16, of Barnhart was killed Sunday night when the car he was driving ran off Farm Road 2469 about 15 miles west of Metzon in Irion County and rammed into an embankment. His injured brother Roscoe was taken to a San Angelo hospital.

Mark Davis, 20, drowned Sunday afternoon in the Trinity River west of Moss Hill in Liberty County.

Passersby found the mangled body of Miguel Gutierrez, 18, of Port Lavaca beside Farm Road 755 at a point 14 miles west of Rachal in South Texas. Officers said he apparently was run over by a vehicle but none was found at the scene.

Carl J. Pedigo, 47, of Beaumont was killed Saturday when his car ran off Texas 59 near Splendora and hit a tree.

Lightning struck and killed Higinio Benites, 36, of Highlands as he was working on a construction job

Saturday near Barbers Hill in Liberty County.

A San Augustine man, Kenneth Ray Lover, 20, was shot to death in a restaurant early Saturday. Another San Augustine man was arrested, police said.

Ted Estep, 65, of Dallas was killed early Saturday when a police car struck him when it jumped a curb trying to avoid another vehicle, officers said. Estep was hurled off a freeway overpass and fell into the windshield of the vehicle passing below.

Baltazar Urestinquez, 18, of Pasadena, Tex., was killed Saturday when his car

hit an embankment and overturned.

William Dye, 36, was killed late Friday night when he was shot in the head at a Houston drive-in cafe. Police said the bullet came from a rifle apparently fired from a truck.

A Houston man, Anderson McNeil Billings, 68, was found shot to death in his garage apartment Saturday. Police said the shooting climaxed an argument.

Glenn Charles Barber, 13, of Vidor was killed Saturday when the dunebuggy in which he was riding ran off a road near Danbury and overturned.

## GOREN BRIDGE

BY CHARLES H. GOREN  
AND OMAR SHARIF  
© 1975, The Chicago Tribune

Q.1—As South, vulnerable, you hold:

♠K9 ♥Q3 ♦KQJ7652 ♣72

The bidding has proceeded:

North East South West

1 ♠ Pass 1 ♠ Pass

1 ♠ Pass ?

What do you bid now?

A.—Two diamonds. Despite a powerful suit and good overall values, this hand does not measure up to a jump rebid of three diamonds, which would create a forcing-to-game auction. True, your unencouraging rebid might result in missing a game, but the alternatives are unappealing, so you just have to hope that if partner has a good hand, he will bid again.

Q.2—Both vulnerable, as South you hold:

♠Q10954 ♣QJ98 ♦KQ102

The bidding has proceeded:

West North East South

1 ♠ Pass Pass 1 ♠

Pass 2 NT Pass ?

What action do you take?

A.—Obviously, partner has a good hand but was compelled to pass at his first turn because of his length and strength in the enemy suit. Nevertheless, your hand is so unbalanced that you should view a no trump contract with disfavor and look for a better contract. We suggest a bid of three of either minor, with a slight preference for clubs.

Q.3—As South, vulnerable, you hold:

♠KQ10962 ♥AQ82 ♣954

The bidding has proceeded:

North East South West

1 ♠ Pass 1 ♠ Pass

2 ♠ Pass 2 ♠ Pass

3 NT Pass ?

What action do you take?

A.—Again, we are disenchanted with no trump for the reasons stated above. Even though partner has displayed no great affection for either of your suits, the spade suit is so good that you can afford to play in four spades opposite a singleton, and it's not unreasonable to expect to find two spades in partner's hand.

Q.4—Both vulnerable, as South you hold:

♠Q987 ♥83 ♦AQ852 ♣AK

The bidding has proceeded:

North East South West

1 ♠ 1 ♥ 2 ♦ Pass

2 NT Pass ?

What do you bid now?

A.—Three spades. You have ample values for game, and we won't quibble if you chose to raise to three no trump. However, you can afford to show your spade suit on the way. It's just possible that partner might have

suppressed a four-card spade suit in favor of showing his heart stopper, in which case a suit contract might be preferable.

Q.5—As South, vulnerable, you hold:

♠K8 ♥QJ8752 ♣94 ♦A73

The bidding has proceeded:

North East South West

1 ♠ 2 ♠ 2 ♠ Pass

4 ♠ Pass ?

What action do you take?

A.—Bid five clubs. Even though you might have responded under pressure, partner leaped to four hearts. Your king of spades is a most powerful card and suggests a possible slam. Cue-bidding the ace of clubs is a sound way to launch the investigation and is slightly superior to a bid of five hearts.

Q.6—Both vulnerable, as South you hold:

♠AQ763 ♥K9 ♦AJ2 ♣1087

The bidding has proceeded:

South West North East

1 ♠ Pass 2 ♠ 2 NT

What action do you take?

A.—Pass. East surely intends his no trump overall as unusual—a takeout for the minors—but since you have a minimum opening bid, you are relieved of the responsibility of making a rebid. Partner's next action will give you a clearer idea of the hand's possibilities.

Q.7—As South, vulnerable, you hold:

♠965 ♥92 ♦AQ7 ♣109643

The bidding has proceeded:

North East South West

1 ♠ Pass 1 NT Pass

3 ♠ Pass ?

What action do you take?

A.—Bid four spades. Although you have no more than the minimum 6 points you promised with your response and partner's bid is not forcing, your hand contains two features partner doesn't know about—three-card spade support and a ruffing value in hearts. That is just enough to tip the decision in favor of raising to game.

Q.8—Neither vulnerable, as South you hold:

♠K98 ♥1072 ♦J84 ♣K762

The bidding has proceeded:

North East South West

1 ♠ Pass 1 NT Pass

2 ♠ Pass ?

What action do you take?

A.—Give preference to three hearts. Partner's "reverse" shows a strong hand with longer hearts than spades. Therefore, it is your clear duty to return to his first bid suit, where you have at least an eight-card fit. This action shows no extra values on your part, so partner is free to pass if he has a minimum for his previous bidding.

MISS WORLD-USA CROWNED — Comedian Bob Hope, center, crowns the new Miss World-USA, Annelise Ileschenko Sunday night at the Springfield, Mass. Civic Center. Miss Ileschenko, who was chosen from among seven finalists, receives sash from Alfred Patricelli, executive director. At right is last year's title holder Terri Ann Browning.

## RUN 'THE WALTONS' BACKWARD

Would Make Announcers  
Define Polyunsaturated

By JAY SHARBUTT  
AP Television Writer

NEW YORK (AP) — Were I in charge of television, I would:

—Make announcers define polyunsaturated.

—See if relatives of the late King George III want equal time on CBS' "Bicentennial Minutes."

—Tell the A. C. Nielsen Co. to put its audience meters in each of the 68.5 million homes now equipped with TV sets, and then watch what the networks do when they learn not one set is on.

—Hold a Super-Spectacular Sports Classic in which the heads of ABC Sports and CBS Sports have a potato sack race over the Continental Divide. The winner gets an autographed sneer from Jimmy Connors.

—Move the television networks to Big Sur, Calif.

—As an alternative, move me to Big Sur, Calif.

—Negotiate with Mr. Nixon for exclusive rights to David Frost's television memoirs. But emphasize there's no deal unless David

publicly reveals how he coined the word, "Soopah!"

—Run "The Waltons"

backward this season to leave them with unresolved crises for a change.

—Make television stations reply to their own editorials.

—Run all National Football League TV films in fast-motion, and make the announcer admit, "The tight end has been drinking."

—Define the "family hour" as the time network presidents get to sit down and pluck the leers out of "MASH."

—Ban all ads for vegetable chopper-dicer-slicer-masher-kitchen appliances during the Saturday afternoon horror movie, or at least bar them until Godzilla finishes eating Tokyo.

—Require large type for those tiny legal notices that appear at the bottom of TV ads for Florida land. We put a microscope on one the other day, and all it said was, "Scuba gear recommended."

—Go on vacation right now because the man in the white coat is closing in.

The men, who are assigned to the unit for 89 days are: Airman Michael H. Sherar, Airman First Class James W. Maddox, Larry E. Richardson and Earl Rice, Sergeants Dennis L. Hinchings and James K. Cole and Staff Sergeant Thomas Kazonowski.

Volunteers Help

Air Policemen

In a popular western movie, seven "magnificent" men stood against the forces of evil to protect a small town and its people. Webb's 78th Security Police division has its own "Magnificent Seven."

They didn't come riding down out of the hills with guns blazing. But, nonetheless, seven base airmen donned white hats and came to the aid of the undermanned security police.

The men, who are assigned to the unit for 89 days are:

Airman Michael H. Sherar, Airman First Class James W. Maddox, Larry E. Richardson and Earl Rice, Sergeants Dennis L. Hinchings and James K. Cole and Staff Sergeant Thomas Kazonowski.

## Housing

## Sales Dip

WASHINGTON (AP) — The government reports that sales of new one-family homes declined 6.1 per cent in June, marking the first monthly drop in sales this year.

A report issued here said that while the decline followed five consecutive increases, the June figures still put 1975 housing sales 6.1 per cent ahead of where they were a year ago.

A federal income tax credit voted by Congress for buyers of new homes spurred a sharp sales advance in April.

However, economists for the Federal Home Loan Bank Board had cautioned that the increase meant earlier purchases of homes which would have been bought eventually, rather than a basic jump in demand.

The June figures appeared to support the economists' view that the April-May surge in housing sales is likely to be offset by stable or declining sales during the rest of the year.

At San Marcos

SAN MARCOS — Two Big Spring students were among the candidates who received diplomas from Southwest Texas State University in summer commencement ceremonies Saturday.

The local students included Michael Ray Pipes, son of Mr. and Mrs. Ray Pipes 1805 Kentucky Way;

and Guy Frank Bell, son of Mr. and Mrs. E. C. Bell, 512 Washington.

Pipes received a bachelor of business administration from the school of Business, while Bell was the recipient of a bachelor of arts with an English major from the school of liberal arts.

# Texas' Mass Transportation Problem

By ROBERT HEARD  
Associated Press Writer

AUSTIN, Tex. (AP) — Rubber-tired vehicles are the short-range solution to mass transportation problems in Texas, says the chairman of the Highways and Public Transportation Commission.

And the long-range answer must come from technology as yet unborn, Reagan Houston said in a recent interview.

The 1975 legislature merged the Mass Trans-

portation Commission into the Highway Department and gave the Highway Department a new name. Houston is glad the legislature called it public transportation rather than mass transportation.

"Mass sounds like you're herding a bunch of goats," he said with a chuckle.

A 6-foot-4 Houstonian leaned back in a swivel chair in his Spartan office—bare floor, straight-backed wooden chairs—and spoke in a deep, gravelly voice.

He denied charges that mass transit will become the forgotten stepchild of an agency that has concerned itself for decades with highways that are used principally for private transportation.

"If you look at it sensibly, the highway department as such could not succeed

unless mass transit or public transportation succeeds," he said. "There has to be something done about mobility in cities, otherwise we all fail. You can look at it just from political practicality, the votes now are in the cities. If the cities are frustrated and unhappy and

feel that nothing is being done, why nobody's going to get anywhere," he said. A lot of expert testimony and study are needed, he said, but everybody knows "the first injection of relief we can give" will involve the more efficient use of what already exists—pavement. "We have that surface. It

can be used. And we can get started there," he said. Houston was called away by Commissioner DeWitt Greer to receive a call from Gov. Dolph Briscoe. Luther DeBerry, formerly called highway engineer and now bearing the title engineer-director, explained in his absence that the first things they are working on are special bus-taxi lanes and counterflow lanes.

Rush-hour traffic loads up inbound lanes in the morning and outbound lanes in the afternoon, leaving the op-

posite lanes relatively unused, he said. Some thoroughfares, such as three-lane Red River Street in Austin, already have been rigged with overhead "X" lights that open two lanes southbound toward downtown in the morning and two lanes northbound from downtown in the afternoon.

On freeways, where greater speed makes unseparated, opposite-direction traffic more dangerous, the idea is to allow only skilled bus and

taxi drivers to use counterflow lanes during rush hours. Houston rejoined the interview in time to say he recently observed counterflow driving in Italy, where he attended a reunion of Texans who fought there in World War II. (He was an aide to Gen. Mark Clark.)

"The Italians are the craziest drivers in the world, I reckon. They pay \$2 a gallon for gas and they have the damndest traffic jams you ever saw."

## DENNIS THE MENACE

**JUMBLE** — that scrambled word game  
by HENRI ARONOLD and BOB LEE

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

**KALFE**    **PLUIP**    **LAWHOL**    **TELEEB**

Print the SURPRISE ANSWER here: \_\_\_\_\_

(Answers tomorrow)

Saturday's Jumbles: VIGIL BROOD PAUNCH UNLIKE

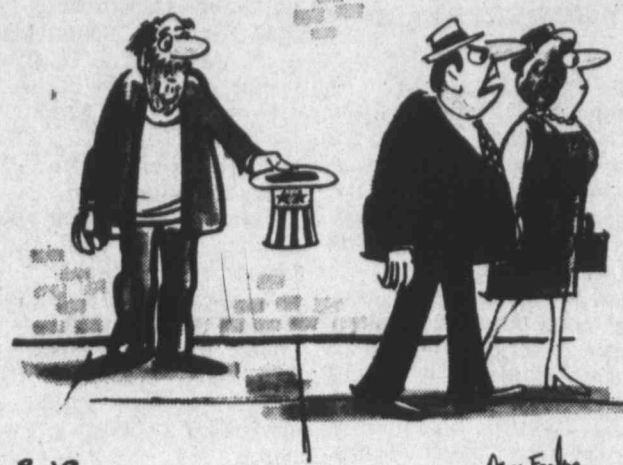

Answer: Such a firm agreement definitely sounds as though it has strings attached — "BINDING"

Jumble Book No. 8, a Signet paperback with 110 puzzles, is available for \$1, postpaid, from New American Library, Dept. P-5008-1696, Box 999, Bergenfield, N.J. 07621. Make checks payable to New American Library. Include full name, address, and zip code. Allow 4 weeks for delivery.

## Warning Of Polio In Mexico

EL PASO, Tex. (AP) — Reports of polio cases in Chihuahua City in northern Mexico and in the western state of Guerrero has prompted the Texas States Department of Health to issue a warning to U.S. travelers to update their polio immunizations.

The warning Friday came after the discovery of a polio case here this week, the first in El Paso in five years and in the state in three.

Dr. John L. Bradley, regional medical director of Public Health Region 3, said a door-to-door survey was conducted Wednesday and Thursday at the Paisano Housing Project where polio victim 14-month-old Consuelo Jimenez lives.

Bradley said 12 children were vaccinated and added that there was no need for mass immunizations clinics in El Paso because of the high level of protection.

But he noted that preliminary studies Friday confirmed four cases of clinical paralytic polio—the same type that affected the Jimenez girl—in Chihuahua City.

# Garden City Church Scene Of Ceremony

Miss Linda Bea Williams became the bride of Donald K. Cypert in a ceremony Aug. 8 in the Garden City Church of Christ. Baskets of spring flowers enhanced the

altar as John Robinson officiated.

The bride is the daughter of Mrs. and Mrs. Bill Williams, Knott, and the bridegroom is the son of Mr. and Mrs. James T. Cypert, of Garden City.

For the wedding, the bride chose to wear a white gown designed with lace sleeves and a scooped neckline. The full skirt swept into a train and edged a veil which fell from a lace covered headpiece. She carried a bouquet of pink roses and white carnations.

Miss Diana Adams, Knott, served as the maid of honor, and was attired in a pink floor-length dress with a white bodice. She carried a bouquet of pink carnations and gypsophila.

Jerry Don Robinson of Garden City was the best man.

The couple will be continuing their education by attending Garden City High School this fall. Cypert is employed by Cypert Butane and Garage.

Prior to leaving on a trip to Carlsbad and Cloudcroft, N.M., the couple was honored with a reception in the home of the bridegroom's parents. Refreshments were served from a table laid with a pink lace cloth centered with a pink flower arrangement. Miss Debra Wheat and Mrs. Larry Wheat served.

Relatives attending from out-of-town included Mr. and Mrs. Ray Ifera, Crane; Mr. and Mrs. Darrell Cypert, Mrs. Dusky Taylor and Mrs. Mamie Cross, all of Big Spring; Mr. and Mrs. Tom King, Midland; and Mr. and Mrs. Ron Lophgen, Lubbock.

MRS. DONALD K. CYPERT

## Bride-Elect Has Shower

Miss Jacalyn Minchew, bride-elect of Bob Jones, was honored with a bridal shower Tuesday evening in the Texas Electric Reddy Room. Hostesses were Miss Joy Fowler, Mrs. Doyle Fowler, Mrs. James Banks, Mrs. Jim Self, Mrs. Brice Wilburn, Mrs. Donald Holman, Mrs. Shorty Lilly, Mrs. Tommy Abernethy, Mrs. Rex Kennedy, Mrs. David Petree, Mrs. Jimmy Mays, and Mrs. Oscar Pitts.

The honoree, attired in a light blue dress featuring long sleeves and an A-line skirt, was accompanied by her mother, Mrs. Jack F. Minchew.

The refreshment table was laid with a white cloth centered with an arrangement of blue flowers. Crystal appointments were used.

The Anderson Street Church of Christ will be the scene of the wedding ceremony at 7 p.m. Aug. 29.

# Miss Teague Marries Chuc Smith Sunday

Miss Denise Teague and Chuc Smith exchanged wedding vows in a ceremony held Sunday afternoon in Joseph Hill Memorial Chapel, Canyon.

The bride's uncle, the Rev. Weldon Porterfield, officiated at the wedding. Mrs. Weldon Porterfield played nuptial selections on the piano and Ms. Vicki Gerber sang to guitar accompaniment by Ms. Elaine Ramackers.

Parents of the bride are Mr. and Mrs. Leroy Teague, 1210 W. Sixth, Big Spring. The bridegroom's parents are Mr. and Mrs. Glenn C. Smith, 1605 Maple, Panhandle.

Carrying a bouquet of dried flowers in autumn colors, the bride was attired in a floor-length ivory polyester crepe gown styled with an empire bodice and A-line skirt. The wedding dress featured elbow-length puffed sleeves and a square neckline with narrow lace panels extending from the sides of the neckline down the length of the dress. Her elbow-length veil of ivory chiffon fell from a Juliet cap of the dress material.

The bride's sister, Mrs. Angie Phillips, Big Spring, served as matron of honor. Mrs. Barbara Threlfall, and Ms. Lois Jane Smith, sister of the bridegroom, were bridesmaids. They wore gowns styled identically to the bride's dress in russet cotton knit, trimmed in gold ribbon. They carried bouquets similar to the bride's flowers.

Loren Kelley, Denton, acted as best man with Karl Smith, Amarillo, and Glenn Smith, Panhandle, both

brothers of the bridegroom, as groomsmen. Ushers were Bill Threlfall, Sgt. Ernie Phillips, Big Spring, and Britt Smith, Panhandle, brother of the bridegroom.

Ms. Gala Teague, sister of the bride, registered guests at the reception held in the home of Mr. and Mrs. J. D. Whitaker, Canyon. Miss Nancy Graves, Hereford, and Miss Dianna Adams, Umpacker, served refreshments from a table laid with an ivory lace cloth and decorated with the attendant's flowers.

The bride is a graduate of Big Spring High School, Howard College, and West Texas State University. The bridegroom graduated from Mark Twain High School, Center, Mo., Jefferson Junior College, Hillsborough, Mo., and WTSU. Both Mr. and Mrs. Smith plan to work on their master's degrees at North Texas State University in Denton. Mrs. Smith formerly was employed by Saga Food Service, Canyon. Mr. Smith

is employed by Denton State School for Mental Health and Mental Retardation.

The couple will be at home at 918 W. Prairie, Denton.

## Dear Abby

### Form Letter's Out If Job Seeker Wants Work

DEAR ABBY: Since your column is so widely circulated, you can do much for the serious unemployment situation in this country.

I am an executive secretary with one of the top 100 companies in the country. Almost every day, we get applications for employment, some from new college graduates and some from older men who have been in the business world 20 to 30 years.

I'd like to tell these people not to use form letters with their names typed in but to type out neat, individual letters with the attached

resume. My boss feels a form letter indicates that the applicant wants a job with ANY company, but an individualized letter means he wants a job with OUR company and no other. The form-letter applicants are not even answered, but are thrown in the waste basket!

Many qualified applicants who badly need a job strike out because they didn't take the time to send a personalized letter.

CONCERNED

DEAR SECRETARY:

Thanks for a worthwhile tip. A word to the wise should be more than sufficient.

# This weekend, call any other state\* and talk five minutes for 86¢ or less... usually less!

\*Except Alaska and Hawaii

Our weekend One-Plus rates are so low that you can talk awhile and still spend less than a dollar. For instance, a five-minute coast-to-coast Long Distance call dialed direct all Saturday and Sunday until 5 p.m. is only 86¢. An out-of-state call spanning fewer miles costs even less. If you can't wait till the weekend these same low rates are in effect every night from 11 p.m. to 8 a.m.

Where One-Plus dialing isn't available, One-Plus rates apply on station calls. If you dial direct and reach a wrong number, call the operator. You won't be charged.

Travel by Long Distance... and stay awhile.
