8th Graders Capture Win

The Friona Eighth Grade Braves downed River Road in their season opener here last Thursday by a score of 28-0.

The Braves scored once in each quarter to record the win.

Friona took the ball first and drove for a touchdown. Daniel Echols passed to Kevin Frye who ran it in for a touchdown. The point try failed, and Friona led, 6-0.

In the second quarter, the Braves drove with Echols again passing to Frye for a 20-yard gain. Glen Trimmell and Frye each had four yard gains, and Michael Valero had a ten-yard run. Frye got the TD, and Echols passed to Joel Jass for a two-point conversion and a 14-0 Friona lead.

In the third quarter, Friona got another drive going. Michael Valero scored the touchdown to cap the drive, which was highlighted by runs by Frye, Valero and Trimmell. Echols passed to Frye for the PAT, and a 22-0 lead.

In the fourth quarter, Echols ran 47 yards for the TD and the final margin of 28-0.

Outstanding defensive plays were turned in by Matt Brogden, Stephen Thornton and Adrian Diaz.

Comptroller Requests Change

State Comptroller Bob Bullock recently said he has asked the Texas congressional delegation to take a close look at proposed changes in federal natural gas policy that could cost the state more than $100 million in lost natural gas production tax revenue.

The nation's largest gas producer, Texas produced more than six trillion cubic feet of gas last year and the state collected more than $1 billion in natural gas production taxes.

Bullock sent a report to Texas congressmen showing the Reagan Administration's gas decontrol proposal could cost the state $56 million in lost gas production taxes during the next two budget years and about $42 million the year after that.

"Efforts to eliminate some natural gas pricing problems are to be commended, but no one wants to cut off an arm to cure a hangnail," Bullock said.

Past Rivalry

The Friona Chieftains' 13-6 win over River Road in the opening game of the 1983 season snapped a seven-year streak in which the team had not won its opening game.

Of the teams on Friona's 1983 schedule, Farwell and Dimmitt are by far the oldest rivals.

Dimmitt has been met on the gridiron by Friona teams 47 times prior to 1983, including the past 25 years in a row.

Farwell had been met 46 times, including 27 times in a row from 1949 through 1975. The Chieftain-Steer series skipped a pair of years, 1976 and 1977, before being resumed in 1978.

Friona leads the series with Farwell, with 24 wins to 21 for the Steers and one tie. Dimmitt leads in the inter-county series with 33 wins to 13 for Friona and one tie. At one time, Dimmitt had won 14 games in a row in that long series.

Of the teams not on the FHS schedule any longer, Hereford has been met 24 times, and the Whiteface-Chieftain series was played virtually every year in the 1930s and 1940s. Unfortunately for local fans, the Chiefs never scored a win over Hereford, although coming close several times.

Friona's all-time record, with current opponents listed first, followed by some teams not on the current schedule: (Friona's wins are listed first, opponents' wins next, then ties, if any. Former rivalries have last year the teams met in parenthesis). Records are through the 1982 season.

Vaccination Totals Are Up

The Texas livestock industry has achieved a first in its continuing battle against brucellosis.

For the first time in history, more than one million calves have been vaccinated in a fiscal year in this state. The total as of August 31, 1983 was 1,000,278.

That means 35.7 percent of all eligible calves were vaccinated for brucellosis in Texas for fiscal year 1983.

"The number of vaccinated calves has almost doubled in the past three years. That is significant since basic changes were made and incorporated into the Texas brucellosis program in 1980.

"It shows livestock producers are accepting those changes," John B. Armstrong, Kingsville, chairman, Texas Animal Health Commission, said.

One of those changes included regulations which encourage freer movement of the vaccinated animal versus the non-vaccinate.

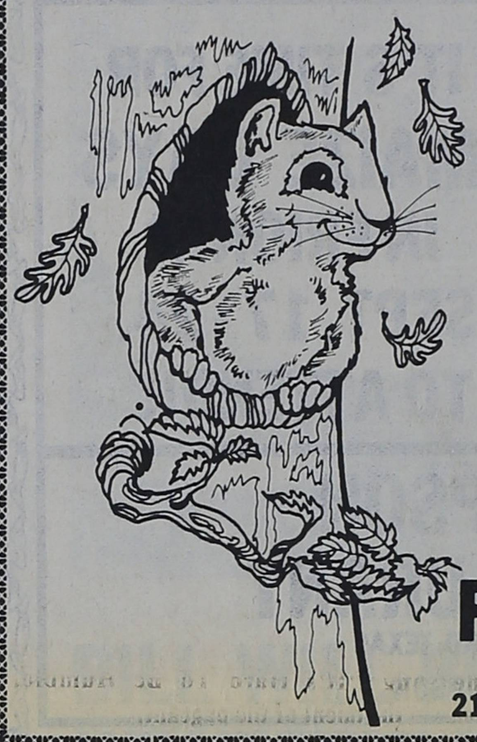

"We want to thank the Texas Agricultural Extension Service through its county agricultural agents in helping us get the information about the value of vaccination to producers throughout this state.

"Veterinarians, livestock organizations and mass media have also worked closely with us in this endeavor," Armstrong said.

Friona Girl Scouts Are U.F. Agency

United Way of America

(Editor's note: Friona Girl Scouts are one of the agencies which benefit from the United Way Campaign, which kicks off November 7)

Girl Scouts have been active in Friona since 1935 when Pearl Kinsley and Winnie Wilkison started meeting with a small group of girls in Mrs. Kinsley's basement. Thanks to willing and dedicated adult leaders and parents, a Girl Scout is what most second grade girls want to become.

Why would any adult want to set aside a few hours from her busy week, especially now that so many women work, to meet with a room full of noisy, giggly and sometimes "wound up" girls? As one leader put it, "When I see a shy child make a special friend and begin to blossom or even my own daughter makes a new discovery, or feel my troop finally congeal as a caring unit, then I know the sheer joy of being a Girl Scout."

Girl Scouts in Friona have a long heritage. Just think of some of your own leaders and those before you, we dare not mention any names for fear of missing one that was important to you, but you know who they are and so do I. For those of you who don't, call a Girl Scout.

Where does the United Way fit in all of this; The money set aside for Girl Scouts goes to our council office in Lubbock. They in turn furnish us with materials and a counseling person who meets with the leaders once a month to pass along ideas, new songs and games, and to tell us of training opportunities coming up in our area. (They also conduct these training centers.) The council office also staffs our Camp Rio Blanco near Crosbyton. This camp is financed by the cookie sale.

The money designated for Girl Scouts-Local, or Brownie Scouts, is kept in Friona to be used however needed: to pay our monthly bills, to buy supplies, for upkeep on the Scout House, etc. We are fortunate to live in a town where the people support organizations like the scout programs and in fact all the youth groups in Friona.

So, even though indirectly, when you give to the United Way you are helping our Friona Girl Scouts become "girls inspired with the highest ideals of character, conduct, patriotism, and service so that they may become happy, resourceful citizens."

Thank you, Friona.

Fleming's Running Paces Chieftains Past B.R., 20-0

Coming into the season, fullback Reese Fleming was seen as the backfield man Friona would rely on when the team needed a hard three yards. Nothing spectacular, but dependable when called upon.

Fleming has raised more than a few eyebrows after Friona's first two games. After two games, he has (1) the team's longest run from scrimmage, 59 yards, and is (2) the leading rusher with 274 total yards. After two games, Fleming ranked fifth in the area in yards rushing for class AAA players.

Last Friday at Boys Ranch, Fleming had his second straight game of over 100 yards gained, with 147 yards on 18 tries, including one touchdown, sparking the Chieftains to a 20-0 shutout win over the Ranchers.

Charlie Morgan, who was the team's leading rusher last year as a junior, had another steady game with 124 yards rushing, including a hard-earned 32-yard run for a touchdown. After two games, Morgan has clicked off 215 yards rushing, and is keeping pace with his game of a year ago.

But Fleming is the pleasant surprise on the team. Friday, he gained ten or more yards eight different times. And his total would have been even higher, except that a 33-yard run for a touchdown was nullified by a penalty against the Chieftains.

Coming off their hair-raising season-opening win over River Road, in which it took a last-minute score for the win, Friona got their scoring off to a little better start.

However, the manner in which they did it looked very familiar to their fans.

Facing a third down and long yardage early in the game, quarterback Charlie Veazey looped a pass into the waiting hands of Eloy Caballero, who gathered it in and ran in for a 46-yard touchdown play.

Doug Carthel's kick gave Friona a 7-0 lead just 4:50 into the game.

Boys Ranch retaliated, on the running of Edward Ransom (33) and drove to the Friona seven where they had first and goal.

But Friona's defense turned in an excellent series at this point, and gave the Chieftains the ball back at the 16. Troy Crutchfield's sack of the Rancher quarterback on third down was the big play in the series.

Friona failed to score in its next two possessions, in spite of some nice running by Morgan and Fleming. The Chiefs drove from their own 16 to the Boys Ranch 28 after denying the Ranchers, but lost the ball on downs.

In their next attempt, the Chiefs got to the B.R. 12, only to face a fourth and four. Carthel's attempted field goal fell wide to the right.

Following a short Boys Ranch punt, the team took over with just 1:05 left to play in the first half. That turned out to be just enough time.

On the third play, Morgan took the pitchout and went around the right side. He was hit two or three times, as Boys Ranch almost had him down, but he refused to go down. Morgan just kept plowing until he reached the end zone on a 32-yard scoring jaunt. A pass try for points after a high snap left Friona leading at halftime, 13-0.

Neither team could do much in the third quarter, but toward the end of the period Boys Ranch mounted a drive that was to consume over ten minutes of the clock time. At one point, the Ranchers faced fourth down and two from their own 33, and made the needed yardage to keep the drive going.

However, after getting to the Friona 20, the Chieftain defense stiffened, and Friona took over on their own 31 after Harvey Lafuente rushed the quarterback for a ten-yard loss.

Morgan ripped off a 28-yard gain to the Boys Ranch 33, to get things going. Fleming appeared to have the touchdown on the next play, but a motion penalty called it back.

Boys Ranch was flagged for pass interference three plays later, and then Fleming got a score that counted with 2:41 left to play. Carthel's kick brought the final margin to 20-0.

With their 366 yards offense, the Chieftains became the number one offensive team in the region, as ranked by the Lubbock Avalanche-Journal. Friona's 774 yards was just five more than Post had gained in two games. The Chiefs' 666 yards gained rushing was 84 more than Idalou, the next-best rushing team.

Moss' Record Gains Place In FHS Book

Although having completed just two full seasons as head coach of the Friona Chieftains, Tommy Moss had moved into a tie as the fifth-winningest coach in the school's history, a check of the record book shows.

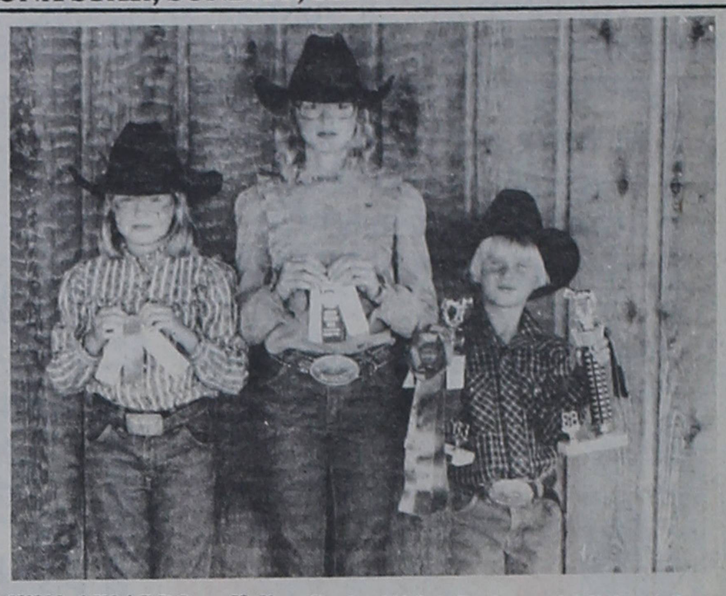

After two seasons, Moss' teams have won eleven games. This is the same number of games won by Russell Stroud's teams in 1934-35, although Stroud's winning percentage of .694 is the tops among former FHS coaches.

Four wins for the season would tie Moss for fourth place on the all-time list with Colie Huffman, who coached here three years in the 1950s (1956-57-58). Huffman is now the head coach at Plainview High School.

WIN AWARDS....Kelley Cash, J'Mai Cash, and Michael Jeter hold the ribbons and trophies they won recently at the Curry County Open Breed Horse Show. Jeter won two firsts, two seconds and a third, to place runner-up for high-point honors for his age division.

Injury Bug Hits FHS; Duo Out Of Action

The Friona Chieftains were tangling with the Shallowater Mustangs Friday at Shallowater in their third game of the season.

The Chiefs were slated to be without a pair of starters when they lined up against the Mustangs. Tackle Tim Kirk, who has been outstanding in his first two games, sustained a hyper-extended knee against Boys Ranch, and will be out.

Also, defensive starter John Aguirre, who also has turned in some stellar plays, sprained an ankle against the Ranchers, and was not expected to suit up.

Mitch Reeve, a two-way starter, has been slowed somewhat, but was expected to play.

"We can't afford to lose many players of this calibre, especially playing a team like Shallowater," Coach Tommy Moss said this week.

The Mustangs were expected to be out to avenge last year's loss to the Chieftains here, in a 7-3 thriller. Not only was it Shallowater's only loss for several games last season, but Friona's touchdown was the only points the Mustangs had given up through the first half of the season.

Shallowater thought they had scored on a great goal-line stand by Friona late in the game, and this didn't help their feelings any.

Friona, meanwhile, will be shooting for a 3-0 record, and it would be the first time since 1974 that the team had won its first three games. The team went 2-0 for the first time since 1975 with its win over Boys Ranch.

Next Friday night, the Chiefs will host always-tough Dalhart in their homecoming game.

Local Kids Win Awards

Three local horse enthusiasts won awards at the Curry County open breed horse show September 6.

J'Mai Cash won second place in Western Horsemanship, third place in trail riding and sixth place in western pleasure.

Kelley Cash placed third in the halter class, fourth in showmanship at halter and third in western pleasure.

Michael Jeter won a first place trophy in pole bending, first in stake race, second in both the flag race and goat tying, and third place in barrel racing.

Jeter also was the reserve champion in the race for high points for eight year-olds and under.

Wendy Tatum Has Eight Week Stay In Switzerland

By JUNE FLOYD

Wendy Tatum, the sixteen year old daughter of Tommy and Diane Tatum of the Black Community and a junior at Friona High School, had a very interesting summer that she's not likely to forget. The summer of 1983 will really be one of those experiences categorized as "one you will enjoy telling your grandchildren about."

Last spring Peggy Hamil, a teacher in the local high school, informed some of her students about the possibilities of becoming a part of a worldwide organization, Youth For Understanding. The prospects sounded interesting to Wendy, so with the permission of her parents, she secured an application, filled it out and began making plans.

After her application was processed and she was notified that she would be going to Switzerland for eight weeks, all seemed like fun and games until she realized that it would be necessary for her parents to sign papers giving her summer parents, Hardy and Thresa Durer, who lived in a small village named Adlingswil, full custody of her.

Even though she realized it was only a temporary arrangement, she said, "Having your parents give you to someone else isn't a pleasant experience."

Tommy and Diane took her to Dallas and she flew out of Dallas-Fort Worth Airport June 23. Her first stop was in New York City and the next was in Zurich, Switzerland, where she was met by her new Mom on June 24.

The family, which consisted of three children--Prisca, 18 and twins, Janine and Michael, who were 14--spoke only German in their home, but the mother and oldest daughter were conversant in English. At the time Prisca was planning to spend some time in Washington State under the Youth For Understanding program, so Wendy tutored her in English.

The Durer home faced Pilatus Mountain, which is in the area of Lucerne. There were wild goats on the mountains and local dairy farmers grazed their cattle and goats at the lower elevations. Dairying is the principle farm industry in Switzerland and a lot of the cheese is imported.

Wendy said, "It seemed a little bit strange to me that all of their cheese was white."

Hardy Durer was an air conditioning engineer and had his own business. His wife was his assistant. She was also an expert in the field of nutrition and prepared excellent meals for her family.

Wendy said, "We picked a lot of fresh vegetables from the garden and they were seasoned while they were being cooked, but we had no salt nor pepper on the table at any time."

When asked about the weather, Wendy replied, "It rained constantly the first week I was there, but after that it was very hot."

In comparing their educational system and ours, Wendy said, "Just about everyone there speaks three languages, which are Swiss dialects of German, French and Italian. Formal education begins with an elementary type school, which children begin at the age of five or six. After attending this type school four years, all students attend a school comparable to our junior high for three years.

Then they break off and attend college preparatory school for about six years or secondary school, where they learn a trade two or three years or until they learn the trade.

All college graduates are required to learn English, German and Latin and doctors have to be fluent in Latin."

In summing up her experiences, Wendy says, "It was wonderful."

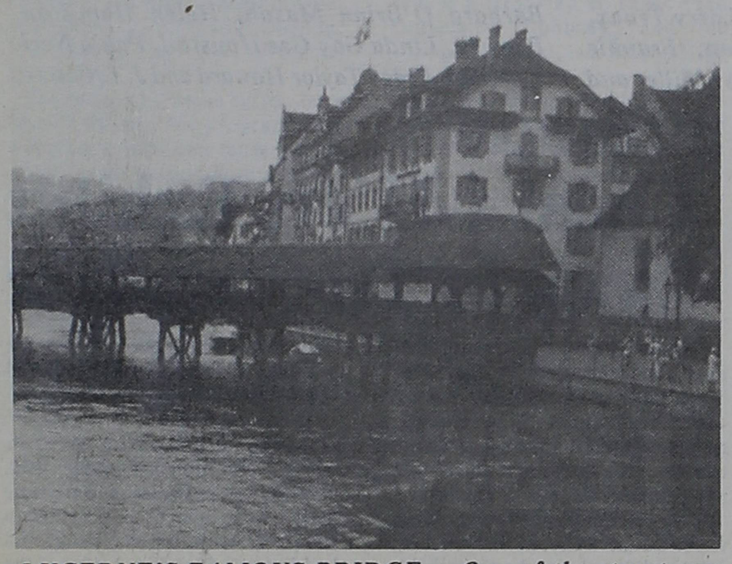

At the present time Prisca is in Washington State and Wendy hopes to get to see her before she returns to Switzerland.

Wendy's hobbies include several different kinds of handcraft, tennis and showing calves. She has been in 4-H several years and has accumulated an assortment of ribbons and trophies.

She and her younger sister, Holly who is 14, work together with their livestock projects. They generally show exotic crosses, but right now they have one full blood Shorthorn in their show string. At the present time Wendy has two steers and Holly has four. Of one Wendy showed at the Tri-State Fair in Amarillo last week, she said, "He didn't do so well. Came in fifth."

Right now both girls are looking forward to the Parmer County Junior Livestock Show in early spring and later to the Houston Livestock Show.

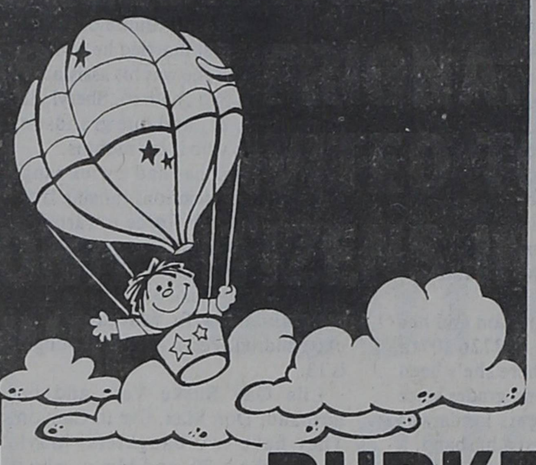

Wendy concluded her interview with, "I would recommend Youth For Understanding to any young person and hope Holly can participate in the program."

LUCERNE'S FAMOUS BRIDGE....One of the structures Wendy enjoyed very much was Lucerne's famous bridge, which is one of the most popular tourist attractions in the country. She liked going to the larger towns and seeing the sights, but preferred the small villages and rural areas.

WHOA BOSSY!!!!! Wendy Tatum poses with a Brown Swiss cow, who had eaten all the grass she wanted and was resting. The cow immediately to the left is Holstein and the one in the background is another Brown Swiss. Since Wendy generally works with beef cattle, dairy cattle provided her with an interesting experience. Pillatus Mountain appears in the far right corner of the picture.

Ann Kelley Continues With Family Traditions

By JUNE FLOYD

Since the fall of 1963, T.A. (better known as Jiggs) and Ann Kelley have been at home on the north side of East Highway 60 near the edge of Friona. At the time they moved here from Plainview, they had two small daughters, Audrey Ann and Randie Lou. Since that time the third daughter, Tammi, a junior in Friona High School, was born.

Ann, the daughter of the late Tom and Elva Lou Matlock Lewellen, was born in Hale County and grew up in the Halfway County, which is west of Plainview.

She attended school in Plainview and graduated from high school there in 1946. She and Jiggs were married April 7, 1946 at Halfway Baptist Church. He had grown up near Kermit, Texas, and had been employed by Ann's father on the farm prior to their marriage.

Kelley, a full time employee of Castro County, operates a maintainer of the roads and does radiator work in his spare time. His radiator shop is located near the couple's home.

When the family first moved here, they lived in a two bedroom house, which became somewhat crowded following Tammi's birth.

Even after Audrey Ann's marriage to Vince Rowell and Randie's to Charles Hamilton, Ann and Jiggs longed for more room and finally decided the only way they could add on to their house was to do the labor themselves.

Neither of them had had any building experience, but decided that with the advice and assistance of family members and friends they could add one large room on to the north side of the house.

The project took a long time to complete due to the lack of time to work on it, but since it has been finished it is the most used room in the house.

When the room was being planned, Ann included spacious closets designed to take care of her surplus quilting supplies and enough floor space to accommodate king size quilting frames.

It is in this room, which has been attractively furnished with a combination of modern and antique furniture, that she turns out dozens of hand quilted quilts each year.

Since Ann was a real small girl she has been interested in making quilts. She remembers helping her mother and maternal grandmother, Elva Matlock, make quilts when she was quite young.

The first quilt she pieced was a nine patch and she remembers vividly shopping in Plainview when she picked out different prints and plain colors and bought them by the quarter of a yard.

For the first few years of her marriage, Ann did very little quilt making, but after moving to Friona, she got started helping her mother again.

From her first nine patch she has progressed to more complicated patterns and intricate designs. Some of the designs she uses now are conventional and some are original.

For a number of years Ann has had a booth at Friona's Christmas In November Bazaar and always had a large selection for buyers to choose from. She also takes orders for specially made quilts of different sizes.

She sells a large number of quilts each year and has regular customers scattered from the east coast to the west coast. She also makes a lot for gifts for family members and friends.

Crocheting is another of Ann's talents. She makes afghans by the dozens in sizes from baby to king size. She has made at least one afghan for each of her daughters and grandchildren, who are Jason Rowell and Chad, Kris and Cory Hamilton. She also crochets pillow tops and other small articles.

This busy homemaker is also an artist. Her specialties are oil paintings and paintings on glass.

The Kelley home is filled with interesting collections of thimbles, lamps, bells, miniature sewing machines and cookbooks.

Even in the summer time when there are pickles to make; beans, peas, corn and other things to can and freeze, this busy homemaker usually has a quilt in the frames and one or more crochet projects going.

The Kelley family attends Friona's First Baptist Church and Ann is an active member of Black Study Club.

One of Ann's most prized possessions is an old hand saw, which was used for many years by her maternal grandfather, the late Ernest Matlock. It has been decorated with a pastoral scene and hangs on the wall of the family room, which the couple built.

She says, "When I'm quilting, looking at Granddad's saw brings me many pleasant memories."

THIS ONE IS KING SIZE, TOO....Ann Kelley, one of Friona's most adept quilters is pictured here with a king size star quilt she is making for a Florida customer. Mrs. Kelley does most of her piecing with a machine, but all of the quilting is done by hand. When one this size is first put in the frame, there's hardly room for anyone to walk around in the Kelley family room, but after a few hours of quilting and some assistance with a rolling job, activities can soon be carried on as usual.

Joy Morton Reflects On Teaching Career

By JUNE FLOYD

Enter the front door of Friona High School, go past the principal's office, turn left and the first door on your right opens into Miss Morton's room.

When the building was first occupied in the fall of 1965, Miss Morton's department occupied two rooms, but at the present time she teaches four English classes and two speech classes in the corner room, which has a stage and looks like a small auditorium.

Joy Morton, a native of Deaf Smith County, is the fifth of seven children born to Mr. and Mrs. Grady Morton, who raised their family at Hereford. Mrs. Morton still lives there, but her husband is deceased.

The only teacher in her family, Joy, decided to become a teacher about the time she entered high school. She graduated from Hereford High School in 1956 and received a bachelor of arts degree from Texas Women's University, Denton, in 1960. She majored in English and minored in government.

Her first teaching assignment was at Merkel, Texas, where she taught two years before coming to Friona. It was during her second year at Merkel High School, while she was teaching speech without ever having had a course in it, that she decided she needed some training in that field.

Since then she has acquired a master of arts in speech education from West Texas State University, Canyon.

During the time Miss Morton has been teaching here, she has taught speech, English, drama, journalism and physical education and has coached tennis and debate.

When she first started teaching here, she taught English, speech and drama and coached the one act play. She remembers that Gay Jennings Tannahill was her first poetry reader to enter district competition. She placed second. At that time only first place winners advanced to area competition.

Since Miss Morton took over the job of coaching the debate teams in 1970, she has taken five teams to state. In 1974, Mickey Harrelson and Trip Horton placed second and a few years later Mark Blankenship and Mark Zachary won first two years in a row.

A SMALL PART OF MANY....Joy Morton is pictured in the hall of Friona High School with a few trophies her speech and drama students have won in the past few years.

* * * * * * * * * * * *

Crista Evans won first in poetry reading in 1968 and in 1970 Skip Sirnic came home with first place honors in informative speaking.

Other state winners have been Sharla Duggins, who placed third in prose, and Kipi Fleming, who placed third in editorial writing.

Miss Morton said, "I've only taken one contest play to state. That was in 1975 and we didn't win, but I'm sure we had the best play in the contest."

The top of a wall to wall cabinet in Miss Morton's room is filled to overflowing with trophies which have been won by speech, drama and debate students and more are displayed in trophy cases in the hall.

Explaining the trophies, Miss Morton said, "I've always encouraged each student to take individual trophies home, so these are all for group endeavors."

When Miss Morton isn't teaching or working with students in some other capacity, she's likely to be playing tennis, reading or travelling. She also collects tee shirts, books and jacket patches, which she sews onto one jacket. Patches on this jacket now number about 100.

She has travelled extensively in Europe and Mexico. She says, "I especially enjoy Mexico City. This summer she and Jere Jean Smith had a very interesting vacation in New York City.

Miss Morton and her pupils always assist in the Maize Queen and Little Miss contests during our annual Maize Days celebration.

Currently the Thespian Troupe, of which Miss Morton is the sponsor, is working on the musical, "Oliver."

In concluding the interview, Miss Morton said, "I love teaching, I love children and I'm especially fond of Friona and the people who live here. I've found most of them to be very helpful and cooperative."

Ron Procter Has Interest In Arabian Horses

DAILY WORKOUT....Ron Procter is shown working out with Zodiac Jenny Lynn and Taic. The workout takes place daily on the Procter's farm northwest of town.

HAMMING IT UP....Taic struts her stuff during her afternoon work session. Taic is approximately four months old and proves to be quite a show off.

By JUNE FLOYD

When Zodiac Jenny Lynn, a full blood Arabian two year old filly, arrived on the Procter farm northwest of town a couple of years or so ago, a long time dream of Ron Procter, her owner, was fulfilled. Then, after Jenny Lynn foaled this spring, he was the proud owner of another full blood Arabian filly of Russian breeding.

Her name, which is spelled Taic and pronounced "Tah-ees," is Russian for mysterious or secret. The mare and colt are from Zodiac Farm near Cedar Hill, Texas, which is owned by a Dallas gynecologist, Dr. Lee Whittlesey.

In 1979 Ron was farm manager at Zodiac Farm and he and his wife, Libby, and two children, Jeff and Jenny Lynn, lived at Cedar Hill. The night Zodiac Jenny Lynn was born Ron was taking care of her mother and Libby and the children spent the entire night in the hay loft of the foaling barn.

When a name was being selected for the newborn foal, Dr. Whittlesey said, "Any six year old who stays awake most of the night when a colt is being foaled, deserves some honor, so we'll just name it for her."

After Ron, Libby and the children returned to Friona to live and he became Parmer County's Chief Tax Appraiser, he learned that the filly was for sale and purchased her.

Most of Zodiac Farm's horses are show horses and Dr. Whittlesey has a large collection of trophies and ribbons. Present plans are for Taic to be trained and groomed for showing when she's old enough.

Ron, a Dawson County, Texas, native, moved to Friona with his parents, James and Sue and two younger brothers, Dewayne and Billy Ross, who is much better known as Ted, in 1952. The Procter home was on the farm for a few years before they moved to town.

As far back as Ron can remember he has loved horses and dreamed of owning a full blood Arabian. The first horse he ever owned was a quarterhorse, which he purchased from Johnny W. Hand when he was in his early teens.

After graduating from Friona High School in 1964, Ron attended Lubbock Christian College and Texas A&M at College Station before enrolling at Texas Tech University, from which he holds a bachelor of science degree in animal business.

He and Libby Castleberry, who grew up in Vernon and graduated from high school there, were married in August of 1968. In May of 1970 he began a four year career in the United States Navy and was sent to a Naval Training Base at Bainbridge, Maryland. He was later stationed at Chase Field Naval Air Station near Beeville, Texas.

During the time he was serving in the Navy, after his horse herd had grown considerably, he sold most of them and hadn't really gotten back into the business until recently.

Ron is also an accomplished artist and his interest in horses shows up in many of his works. He also produces a line of custom made belt buckles and paints horses on many of them.

The Procter home at 911 Cleveland is the former home of the late Mr. and Mrs. Frank Spring and is very attractively decorated with antiques and many hand made articles.

Libby is presently an employee of Friona Medical Clinic and is Dr. Bob Alexander's office nurse. Jeff is an eighth grade student and Jenny is a fifth grader.

The family attends Sixth Street Church of Christ and participates in many community activities.

All of them enjoy the horses and when Taic begins to participate in shows, she'll have a proud and enthusiastic foursome on the sidelines cheering for her.

Tax Rep Sets Visit

State Comptroller Bob Bullock has announced that Phillip Land from his Lubbock field office will be at the Parmer County Courthouse on Wednesday, September 21 from 2-3:30 p.m.

A comptroller's representative is available to assist local residents at the courthouse the third Wednesday of each month.

Lazbuddie Area Family Are Natives Of Holland

Although one of the Lazbuddie Community's most enthusiastic vegetable growers isn't new in the business, he's new in the community. The 1983 crop is the first one he has produced in the Texas Panhandle and he's real well pleased with it.

At the present time he's harvesting potatoes; his carrots will soon be ready for harvest and he expects sugar beet harvest to begin early in October and continue through November. Other crops grown on the D. & Y. Farm, a partnership operated by Izaak van Zielst, a native of Holland, are bell peppers, wheat, corn and soy beans.

Izaak and his wife, Wilhelmina, and two of their four children, Maarten, who is eighteen, and Andrea, ten and a fifth grade student at Lazbuddie Public Schools, moved to their present home early this year.

Prior to that they had lived about fifty miles northeast of Vernon on Red River in Fannin County one year.

Izaak and a friend, Dingeman Heyboer and their families had been living in Holland all their lives and were both interested in vegetable production. In the fall of 1981 these two became interested in making a move and looked into the possibilities of moving to the United States.

"I'd like to buy a farm in Texas," I told my partner one day. "Soon we began to make plans for a trip over here. I want to live here, so I bring my wife with me. She's also my partner. Heyboer also brought his wife. We came first to San Antonio. Then to Uvalde, Del Rio and other Rio Grande Valley places," Izaak added.

On the first trip the two men were not able to find a farm to buy or lease, but Izaak and Wilhelmina were very impressed with Texas and had a strong desire to return.

He went on to explain, "In November of '81 we came again to Texas. This time we look in Fannin County and like what we see. I like to raise vegetables so we lease a farm over there first. Very hot, very wet, much local rain, do not have to irrigate, humidity so high not possible to raise vegetables over there."

Izaak, Wilhelmina and Andrea moved from Nieuwe Tonge, Holland, which is south of Rotterdam in February of 1982. Maarten, who was a senior in high school stayed in Holland until the end of school. Then in June he came to Texas.

Maarten wasn't interested in going to college and likes growing vegetables and other field crops in the Texas Panhandle very much. His hobbies include puzzles and games. One game he is very proficient at is Suolen, which people of any age can play.

It is similar to some of the games, which have been played here for many years. The box, which holds round wooden playing pieces has four compartments in one end. The object of the game is to get as many of the pieces in the compartments as possible. A different point value is assigned to each compartment and scores are doubled when the player gets a playing piece in each of the four. Basically it resembles throwing washers or silver dollars or pitching horseshoes. The fact that it can be played on a table or on the floor makes it especially adaptable to rainy days or long winter evenings.

The van Zielst home is very attractively furnished with furniture they brought with them from Holland mixed with some American-made pieces. Many of the decorations are hand made.

Wilhelmina is an adept seamstress, knitter and crocheter and creates many items for her home, members of her family--including five grandchildren--and friends.

She said, "In Holland schools are very different. We learn to knit in the third grade and learn other hand work, too."

She remembers that during World War II, when materials were so scarce, it was necessary for homemakers to unravel afghans, sweaters and other larger pieces so they could use the yarn to knit much needed socks for their families.

Knitting socks with four needles is very routine work for Wilhelmina. She uses yarn from Holland and knits intricate designs almost as effortlessly as most of us walk or talk.

Some very delicate wall hangings of filet crochet adorn the windows and walls of the van Zielst home. An antique heirloom hand crocheted spread is used on Andrea's bed and Maarten's bed is covered with a brightly colored granny square afghan.

For relaxation Izaak plays the organ, a skill he was just beginning to learn when he left Holland. He also plays games.

Izaak and Wilhelmina have two daughters, two sons-in-law and five grandchildren living in Holland.

He said, "When we came over here we leave three grandchildren. Now we have five. Two of them I never see."

NOW WE'RE TEXANS.... When this photograph was made Maarten, Izaak, Wilhelmina and Andrea were living in Holland. Shortly thereafter the family moved to Fannin County, Texas, and from there to the Lazbuddie Community where they now make their home and grow vegetables.

* * * *

Wilhelmina has made one trip back, but the other family members haven't returned.

One of the things the van Zielst family misses the most is ice skating. A family fun trip last year was a trip to Dallas to go ice skating.

Izaak says the weather is usually cold and rarely ever gets over 85 degrees in Holland, and that the humidity is usually very high.

Last fall, Jerry Hall, a Fannin County neighbor, invited Izaak to accompany him to the Lazbuddie Community. While they were here L.M. Smith, a Lazbuddie farmer, showed them around his farm and Izaak was very favorable impressed with what he saw.

After deciding he had found a very good place to produce vegetables, he made arrangements to lease one-half section of land, moved his family to their present home and went to work.

LANA SUE FANGMAN is being sponsored in the Friona Little Miss Contest by West Friona Grain. She is the daughter of Mr. and Mrs. Teddy Fangman.

TEDIOUS PROJECT....Jere Smith poses with her Early American miniature house. Jere has been working on this project for several years.

Smith Family Keeps Busy With Variety Of Hobbies

By JUNE FLOYD

The highlight of Jere Smith's summer was a ten day vacation in New York City. She and Joy Morton, local English, speech and drama teacher, accompanied a group of other Texans interested in the drama field.

Several sightseeing tours were on the group's agenda, but seeing Broadway shows was the prime reason for the trip.

They saw "You Can't Take It With You," "Amadeus," "42nd Street," "My One and Only," "Brighton Beach Memoirs," "Cats," "Chorus Lines," "Joseph and the Amazing Technicolor Dreamcoat," and "The Fantasticks."

Since Jere's return home, she has accepted a position as a receptionist for Hi-Pro Feeds.

She's a native of Abernathy, Texas, and moved to Friona with her parents, W.F. and Viola Buske, in 1957. While attending Friona High School, from which she graduated in 1962, Jere was a participant in the local Maize Days Queen Contest.

About twenty years later, her daughter, Amber, participated in the same contest. Amber, a 1982 graduate of Friona High School, also followed in her mother's footsteps as a member of Trebelaires.

Amber attended West Texas State University last year and is presently working with a nationwide organization called The Habitat Program. It is a comparatively new program and is similar to the Peace Corps program.

Miss Smith plans to go to Americus, Georgia for a three month training session, in the near future. During the past summer she spent nine weeks in Europe. While in England she was a guest in the home of Paul and Maria Thompson, who live at Slough--about ten miles outside London.

The Thompsons and Amber's dad, the late Dale Smith, and mother had met at a bank convention in New Orleans several years ago and had been corresponding since that time.

Dale and Jere were married in Friona June 17, 1962. Their first home was at 406 West Fourteenth. Dale was an employee of Friona State Bank and ardently pursued two hobbies--model airplanes and old cars. The couple's two children, Amber and Toby, were born here and have grown up in Friona.

At the present time Toby is a junior in Friona High School and as a smaller boy spent a great deal of time working with his dad on model planes and cars.

After living at 405 West Fourteenth a number of years, the Smiths purchased their present home at 801 Arrah and for the first time they had a large hobby room complete with closets, cabinets, tables and storage places for equipment, supplies and tools.

Jere is an accomplished seamstress and, in addition to making clothing for her family, has served as the unofficial seamstress for the local Thespian Troupe for many years. She also paints and collects antiques.

Two of her most prized antiques are an old copper wash kettle, which originally belonged to Dale's paternal grandparents, the late Mr. and Mrs. J.L. Smith, who lived out northwest of town in the Messenger Community many many years; and an old truck, which belonged to her mother.

Her most current long range hobby project is a miniature house, which she has been working on several years.

She says, "Even as a small girl I wanted to build a miniature house, and began collecting furniture suitable for one. However, I didn't actually get into building one until about three years ago."

After much looking and deciding, Jere finally chose an Early American kit, which contained all the pieces, down to small pieces of stone for the porch floor, shingles for the gabled roof and gingerbread trim for the edge of the porches and eaves.

Jere says shingling was probably the biggest job she encountered in the basic construction. She has most of the outside work done and is getting ready for inside work. She reports that assembling and installing windows was also a time consuming job.

The Smith family attends First Baptist Church and is active in many civic projects. Their attractively furnished and decorated home reflects the interests, color preferences and personalities of each member of the family.

TRACEY GIBSON is being sponsored in the Friona Little Miss Contest by Rockwell Bros. Lumber. She is the daughter of Mr. and Mrs. Lee Gibson.

MARY FRANCES CASS, daughter of Mr. and Mrs. Jerry Cass, is being sponsored in the Friona Little Miss Contest by Parmer County Veterinary Clinic.

Bovina's Ralph Roming Named To Commission

As promised, Governor Mark White recently appointed a West Texan to the Texas Water Commission. Ralph Roming, a 44 year old Parmer County farmer from Bovina, is already on the job in Austin serving his four year term as a commissioner. His appointment was announced on September 2, and Roming says he learned of it only an hour before being sworn in.

Roming is Chairman of the Citizens Advisory Committee to the Texas Low Level Radioactive Waste Disposal Authority and a member of the Agricultural Producers Advisory Committee jointly created by the Governor's office and the Texas Department of Agriculture. Roming served for eight years as a county committeeman of the High Plains Underground Water Conservation District No. 1. He is a co-founder and former chairman of the Texas Chapter of the American Agriculture Movement and a member of the President's Council, Texas Farmers Union.

His responsibilities with the Water Commission, formerly the Texas Water Rights Commission, include acting on applications for water use, waste disposal and other permits, the creation of water districts, and funding approval of applications for bonds by water districts.

Roming has worked in water related issues and in state government as chief clerk of the Texas House of Representatives Agricultural and Livestock Committee from 1979 to 1980. He was legislative director of the Alcohol Fuel Products Association from 1980 to 1983.

A graduate of Muleshoe High School, Roming farmed in Bovina for 20 years. He produced corn, milo, wheat, cotton and mixed vegetables on 1700 irrigated acres, and grazed three to five hundred head of steer yearlings on wheat pasture and crop residue during the winter months.

Roming says he has realized that water is the most crucial problem that the state faces for the next 20 years. He believes it is time to make specific strides in formulating a state policy that will eliminate problems and shape the direction that we should go.

"I have some ideas both dealing with conservation and innovative technology that I think will be useful in formulating the over-all scheme of this state's water policy," says Roming.

He serves on the three member Commission full time with Chairmen, Felix McDonald and Lee B.M. Diggart. Roming is replacing J.D. Stoner of Lufkin who resigned.

Texas Potato Beats Idaho In Taste Test

AUSTIN--Few people associate potatoes with anything but Idaho, so David Smith and other Texas potato growers have decided to do something about it.

The potato growers held a taste test at the Texas Restaurant Association (TRA) Convention recently in Dallas where the Texas red potato came out ahead of the Idaho Russet.

About 25,000 people wandered through the convention, giving Texas potatoes a wide audience. "We were real pleased with the results we had from this food show," said Smith.

More than 7,000 acres of Red Lasoda and Norgold Russet potatoes are planted every year on the High Plains, the biggest potato growing area in the state. Potatoes are also harvested in the Lower Rio Grande Valley, the Winter Garden area, along the Gulf Coast and in the eastern part of the state, bringing the statewide acreage total to 13,000-14,000 acres. The crop is valued at $23-28 million annually.

"Our volume is not as large as Washington, Oregon and Idaho, but the time of year we come off is earlier than they can ship. The potatoes coming out of that area when we are shipping are mostly stored potatoes. Our quality will be a lot better than that stored potato."

The Texas potato harvest will end next month, but the promotion is just beginning. As they have already done with the TRA and a group of dietitians, Texas potato growers will conduct another taste test in February when vegetable buyers from all over the United States come to Dallas.

"We just need identity for our product," Smith said. "Idaho has spent millions and millions of dollars advertising and promoting and convincing people that Idaho is the only potato there is, but that is not true. Texas also has a good quality potato."

Club Sells Tickets On Money Doll

Members of Progressive Study Club are selling tickets on the Money Doll. Tickets are twenty-five cents each and can be purchased from Nancy Edelmon, Roxanne Hurst, Gaye Tannahill, Maxine Loafman, Lunell Horton, Nedra Cash, Anne Spring, Lois Norwood, Ann Osborn, Cherry Wells, Carolyn Lane, Sue Beene, and Glenda Procter.

The doll is dressed in $25.00 in new one dollar bills. The winning ticket will be drawn at the City Park Saturday, September 24. The winner does not have to be present at the drawing to win. The doll is on display in the Chamber of Commerce office window, 621 Main Street.

Proceeds from ticket sales will go toward the purchase of a geriatric chair for Parmer County Community Hospital. The chair is used by patients who are not comfortable in straight chairs. The geriatric chair features adjustable positions, head and foot rests, with an adjustable tray that can be placed across the arms.

The chair is made for easy cleanability. Patients have found the chairs comfortable and expressed appreciation that such chairs are available during their stay in the hospital, according to Elda Hart, hospital administrator.

The Money Doll has been an annual Maize Days project for the club since 1957, when club member Mary Bavousett suggested the group use the idea as a way to make money which should then be given to the hospital. For many years the group aided in purchasing items for the nursery and delivery rooms.

The Money Doll is always fashionably attired, her dress following the fashion of the moment. She has worn a mini skirt, long accordian pleated formal dress and skirt with inverted pleats. She has carried big purses, little purses, fans and bags. She has had capes, hair bows and unbrellas.

Tickets are available from any club member and will be on sale at the Little Miss Pageant, Tuesday, September 20, at the High School auditorium.

Drivers Recognized

The Cooperative Breakfast honoring employees on safe driving records was held recently, representing a total of 165 years of driving Deaf Smith Electric Cooperative vehicles without an accident. Twenty-one employees were honored at the Thompson House in Hereford.

9th Graders Win Second

The Friona freshman Chieftains won their second game of the season, edging Boys Ranch, 13-12 in a game here last Thursday.

Gilbert Davila scored on a 47-yard pass from Patches Fleming, and the kick by Sam Montoya was good.

Friona's second touchdown was scored by Lonnie Phillips on a 53-yard run. The kick failed.

Phillips was the leading rusher for the frosh, with 105 yards on 11 carries. Peter Malouf gained 55 yards in eight tries, and Jimmy Williams added 21 yards in six efforts.

The Friona defense was again hailed by Coach Steve Williams "We had two goal-line stands right before the half which helped preserve the win," Williams said.

The freshmen stood 2-0 following the game. Friona lost eight fumbles in the game but still were able to claim the win.

Boy Scouts Aided By Local United Way

(Editor's note: When the Friona United Way campaign kicks off on November 7, one of the agencies which benefit will be the Boy Scouts. A featurette on the local scouts follow).

"On my honor I will do my best to do my duty to God and my country..." These are the first words of the Scout Oath and reflect the committment of the Scouting Program to a belief in God and country. Scouting exists to serve our nation's institutions, by offering their youth an exciting interesting way to develop strong spiritual and civic values.

For 70 years Scouting has taught principles of citizenship. Scouting is unique in that a Scout learns of his American heritage and understands by experience the economic, social and governmental systems. Our free-enterprise system can only benefit from the resourceful and self-sufficient young people developed by scouting programs.

Scouting emphasizes the obligations as well as the privileges of leadership. The skills involved in leading a patrol or a troop do not differ except in complexity from those in leading a business or a civic organization. Benefits derived from scouting are vital to the future of our country.

The Friona United Way is deeply committed to Scouting in Friona. Scouting is alive and well in Friona, due primarily to some hard working volunteers. To encourage those volunteers and to keep Scouting viable here, the United Way has designated $3,500.00 to the Boy Scouts. Of that, $1,500.00 will go to the local units, Troop 56 and Cub Pack 56. This will enable them to buy some new equipment as well as maintain the Scout Hut.

A total of $2,000.00 will be sent to Llano Estacado Council. The Council is led by volunteer leaders. They hire a professional staff to handle administration of all phases of Scouting in the Council.

The full-time professionals train volunteer leaders, organize units, and maintain liason with Scout unit sponsors. The sponsors in Friona are the Friona Evening Lions for Troop 56 and Friona Noon Lions for Cub Pack 56.

Among other things the Council operates a Service Center, maintains permanent unit records, produces various program aids for leaders and operates Camp Don Harrington.

Your gift to the United Way will help provide Friona's boys with experiences that will serve them well as adults in later years, particularly in today's changing world.

WINNER...Mike Maynard, right, was the winner of the second week's Friona Star football contest. Ruth Harguess, representing D.L.'s Thriftway, one of the contest sponsors, presents Mike his winning check.

Maynard Takes Contest Lead

Mike Maynard was the winner of the second week's Friona Star football contest. Maynard and Ron Smiley were the pace-setters for the week. They were the only contestants to correctly pick 18 of the 22 contest games.

In fact, Maynard and Smiley were the only contestants to pick as many as 17 games. Third-place winner, Steve Williams had a score of 16.

Maynard claimed first place for the week on the basis of his tie-breaker score. He picked Friona to beat Boys Ranch, 20-8, missing the actual score by just eight points. He was awarded the first place weekly prize of $10.00.

Smiley picked Friona to beat Boys Ranch, 20-13, and missed the score by 13 points he gave the Ranchers. This earned him second place for the week.

Williams, a member of the Friona coaching staff, proved to have a good insight on the Chieftains. He picked the score at 21-3, missing the actual score by a combined four points.

Maynard's misses included Lazbuddie-Whiteface, Houston U.-Miami U., Texas Tech-Air Force and New York Jets-Seattle.

Smiley missed Lazbuddie-Whiteface; WTSU-Abilene Christian; Giants-Atlanta and Jets-Seattle.

Williams' misses included Levelland-Muleshoe; Lazbuddie-Whiteface; Houston-Miami; Texas Tech-Air Force, Giants-Atlanta and Jets-Seattle.

Other contestants correctly picking 16 games, but missing out on one of the cash prizes by the margin of the tie-breaker score included Eddie Braillif (7), Patches Fleming (7), Eddie Mann of San Angelo (12), Movelda Fortenberry (6) and Ricky White (27).

Thirteen contestants correctly picked 13 games. Another 33 had 14 right; 28 people picked 13 games right; 26 had scores of 12 and 21 more had 11 games figured right.

With his score of 18, Maynard moved into first place in the grand prize race, with a score of 31. He has a two-point lead over Christie Barton, Harold Barton, Tammy Bush, Eddie Mann, Hal Ratcliff, Patches Fleming, Ron Smiley and Ricky White.

Another contest appears in this issue, and fans are urged to fill out their choices and turn or send the entry in for next week's contest.

APPOINTMENTS--OFFICE HOURS--FOR YOUR CONVENIENCE

We work by appointments, not for our convenience or benefit, but for yours. This is our way of trying to save your valuable time. We know how difficult it is to sit around any office and wait, not knowing when you will be seen by the doctor...and you have a hundred other things you need to be doing at the time. Sometimes, due to emergencies, we may be a few minutes late getting to your scheduled time, but this does not happen often and we try hard for it to never happen.

Our regular office hours are from 8:30 A.M. to 5:30 P.M. Mondays thru Fridays. Someone always is here during the lunch hour too. We are also open on Saturdays from 8:30 A.M. to 12:30 P.M. on the FIRST and THIRD Saturdays of each month. This, too, is for the convenience of those who find it difficult to come during our regualr weekly office hours.

For you added convenience, we will also be available for early or late appointments during the week if advance arrangements are made. Please merely check with the secretary who answers the phone and she will help arrange a time and date most suitable to your needs.

Lisa Chere' Loe, Bret Moore Exchange Wedding Vows

Lisa Chere' Loe of Canyon and Bret Dale Moore of Friona exchanged wedding vows Friday, September 9 at 7 p.m.

The ceremony was conducted in the University Church of Christ, Canyon, by Bob Loe, father of the bride, and H.D. Simmons.

The bride is the daughter of Mr. and Mrs. Bob Loe of Canyon.

The bridegroom is the son of Mr. and Mrs. Kenneth Moore of Friona.

Wedding selections were presented by vocalists, James Pierce, Mark Edelmon, Kyle Corley, Lance Heitz, Layne Heitz, Rolly Heitz, Linda Shepard, Pam McDonald, April Heitz, Sherry Green and Shonda Corley. They presented "Truly," "Follow Me," "Whither Thou Goest," "Through The Eyes Of Love," "Wedding Song," and "Friends In Love."

The double ring ceremony was performed before an altar centered with a large pyramid candelabra accented with yellow and white daisies and yellow roses. Two arch type candelabras decorated with fresh greenery completed the altar setting.

As the bride was presented in marriage by her father, she was attired in a floor length gown handmade by the bride. The white satin gown was designed with a high lace collar, long, full, sheer sleeves accented with lace and a lace covered bodice. Motif lace flowed from the waistline to end in a cathedral length train and around the hemline. The French imported lace was accented with seed pearls.

Her wreath headpiece of white silk roses and baby's breath held an ankle length veil.

She carried a classic cascade bouquet of white sweetheart roses and white daisies accented with stephanotis and English ivy garlands.

Following bridal tradition, she wore a garter hand crocheted by her great-grandmother and worn by her grandmother and mother for something old and borrowed. Her gown was new. She wore pennies minted in the years of the couple's birth in her shoe.

The bridegroom wore a white tuxedo, white satin ascot and a yellow rose boutonniere.

Terry Bentley of Amarillo was the maid of honor. Bridesmaids were Donna Sims, Kristin Corkery and Cyndy Barnard, all of Canyon.

The feminine attendants wore floor length yellow dresses with square necklines and puffed sleeves. The dresses featured bodices of matching border eyelet, full skirts falling from natural waistlines sashed with wide satin ribbon. They carried bouquets of yellow and white daisies.

Stanley Fithen of Canyon was the best man. Groomsmen were Bobby Moore of Hereford, brother of the groom, Eddie Allen of Friona and Ben Landrum of Amarillo.

The groom's attendants wore champagne colored tuxedoes with ivory pleated shirts, champagne satin ascots and yellow daisy boutonnieres.

The candles were lit by Denea and Kyle Hanes, niece and nephew of the groom. Courtney Loe, niece of the bride, was the flower girl. She was dressed identical to the bridesmaids.

Serving as ushers were Mike and Travis Loe, brothers of the bride, and Steven Hanes and Bobby Zetzsche, brothers-in-law of the groom.

Kim Moore, sister-in-law of the groom, registered the wedding guests.

The reception was held in the Fellowship Hall of the church.

The bride's table was covered with a white lace cloth. The table was decorated with a silver candelabra and crystal punch bowl. The four-tiered white wedding cake was decorated with yellow icing, roses and daisies.

Susan Loe, sister-in-law of the bride and Gwen Hanes, sister of the groom, served from the bride's table.

The groom's table held a German chocolate cake, brass coffee service and a brass candelabra.

Deanna Loe, sister-in-law of the bride, and Kenna Zetzsche, sister of the groom, served from the groom's table.

Amy Loe, niece of the bride, passed out rice flowers at the reception.

Following a wedding trip to Dallas the couple will reside in Hereford, Texas.

The bride is a graduate of Canyon High School and attends West Texas State University as an education major.

The bridegroom is a graduate of Friona High School, attended Lubbock Christian College and is employed at Moore's Jack & Jill in Hereford.

He is a member of 2nd Battalion, 5th Marines, based at Camp Pendleton, California.

The unit will spend six months overseas as part of the Marine Corps' Unit deployment program. The concept is designed to rotate whole battalions or squadrons at a time instead of individuals at separate intervals. CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 91 proposes a constitutional amendment which requires a county with a population of 30,000 or more to be divided into not less than four nor more than eight justice of the peace precincts. A county with a population of 18,000 or more but less than than 30,000 shall be divided into not less than two nor more than five justice of the peace precincts. A county with a population of less than 18,000 shall be designated as a single justice of the peace precinct or, upon a finding of necessity by the commissioners court, shall be divided into more than one justice of the peace precinct but not more than four. The amendment provides further, that in any precinct in which there is a city with a population of 18,000 or more, two justices of the peace shall be elected. The amendment allows a justice of the peace, constable or commissioner to continue in office until the expiration of his term, although a change in precinct boundaries results in the officer no longer being a resident of the precinct for which he was elected or appointed and allows a justice of the peace or constable to continue in office until the expiration of his term even though a change in precinct boundaries results in the abolishment of the precinct or more than one justice of the peace or constable serving the precinct. Vacancies in the office of justice of the peace or constable that result from a precinct boundary change shall be filled by the commissioners court until the next general election. The amendment would take effect on January 1, 1984, and counties with populations of less than 30,000 and with more than four justice of the peace and constable precincts would have until January 1, 1987 to comply with the amendment.

ANTIQUE STOOL...Lois Weatherly, who enjoys needlepoint work, poses with an antique piano stool. The strip in the background is a needlepoint bell-pull.

Lois Weatherly's Family Continues To Spread Out

By JUNE FLOYD

There was a time when Lois Weatherly, who has lived a few miles northeast of Friona on Highway 60, for about twenty years, had all her children and grandchildren living nearby, but time has changed things.

Lois and her husband, Clyde, who died in November of 1969, with their five children, Philip, Celia Dee, Gene, Bill and James, moved to a farm about seven and one-half miles west of town in the late fall of 1952, from Greenville.

When the couple first met, she was teaching intermediate grades at Tidwell, a rural community north of Greenville, and he was teaching at a nearby school. She is the youngest child of the late Mr. and Mrs. W.J. Phillips, who had seven other children.

After growing up in Greenville and graduating from high school there, Lois attended East Texas State University at Commerce before beginning her school teaching career, which didn't last very long. However, she feels that her training and experience has been well used through the years.

Clyde continued to teach a few years after they were married, but soon turned to farming and ranching--first in the Greenville area and later in Parmer County.

Homemaking in the true sense of the word has been a rewarding career for Lois, who thoroughly enjoyed cooking and taking care of her family. For a number of years she had very little time for anything else except keeping her home and supporting her children in their school and church activities.

Time has taken care of that situation, too, and in recent years she has spent a lot of time doing hand work, keeping her yard and travelling.

Needlepoint is Lois's favorite hobby. She has completed dozens of pictures, wall hangings, bell pulls and other items for her home and gifts for others. She has also done some oil painting, but enjoys doing needlepoint more.

Clyde's hobby was hunting and the Weatherly home holds several trophies he collected down through the years.

When the couple first moved here, Philip was a freshman in high school and James was about two months old. Since that time all of the children have graduated from Friona High School, married local young people and made their homes here.

Philip and his wife, the former Phila May Buske, live southeast of town and have three children, who like both of their parents are FHS graduates. At the present time Pepper is a student at Texas Tech University, Lubbock, and Park and Penni attend West Texas State University, Canyon.

Celia Dee and her husband, Jerry Loflin, have two children. Teresa is a graduate of FHS and attends Texas Tech and Brent is a senior at Friona High School. The Loflins live at 1502 West Seventh.

Gene and Cheryl and their two daughters, Lisa and Katie, live at 1111 Virginia. She's the former Cheryl Neill.

Following Bill's marriage to Becky Coffey, they lived elsewhere while completing their college education. Then, with their three children, Ben, Brook and Beth, lived here a few years before moving to Canyon, where they now reside.

James and his wife, the former Cindy Hutson, and their two daughters, Tiffany and Shayla, also lived here several years.

When Bill, Becky and the children moved to Canyon, Lois still felt fortunate to have them less than 100 miles away. However, the distance between grandmother and grandchildren took a new dimension when James, Cindy, Tiffany and Shayla moved to Austin.

Lois says, "First the children began to scatter, then the grandchildren started to college and now Philip and Phila May are planning to move to South Fork, Colorado."

There's one bright spot for Lois to keep in mind. She enjoys travelling and does a lot of it. She has travelled extensively in the continental United States and has made two trips to Hawaii.

She has also made trips to England, Italy, Germany, Greece and the Holy Land.

She has fond memories of all her trips, but the one to the Holy Land is probably her most memorable one. Of it, she says, "Our motel was on a ship and we toured six different countries--going sightseeing in the day time and returning to the ship to spend the night."

Lois returns to Greenville often to visit her sister, Arvis Phillips, and brother, Monty Phillips and his wife, as well as Clyde's relatives who still live there.

Her most recent trip was to Austin. While there she attended the Little Miss Austin Contest, in which her granddaughter, Tiffany, placed in the top ten finalists.

She says, "I love my home and enjoy being here. However, I also love my family and being with them."

A member of Friona United Methodist Church and Black Study Club, Lois participates in a lot of community activities and keeps busy most of the time.

Lunell Horton Completes Cookbook After 30 Years

By JUNE FLOYD

In June of 1954 when moving to a small rural community in West Texas wasn't really the "in" thing for two college graduates, who had been married about one year to do, Hollis Horton, a native of Georgia, and his wife, the former Lunell McFarland, a Friona native, did just that.

Since that time these two have devoted their time, energy and talent to making a home, raising a family, running a business, expanding farm interests, working for a better community and collecting sufficient recipes for publishing a cookbook.

Really the cookbook publishing project, which Hollis encouraged Lunell to complete after she had been collecting recipes for about thirty years, was an afterthought. It wasn't really planned, but for many years Lunell had clipped recipes from newspapers and magazines, borrowed them from family members and friends and obtained some from strangers.

Sometimes they were written on the backs of envelopes, scratch pads, blank checks or other bits and pieces of paper available when she had eaten something she especially enjoyed and wanted to serve to her family or guests.

As each new recipe was acquired, it was tested on the Horton family. Sometimes a family member would suggest an addition, subtraction or substitution of an ingredient or two and at other times Lunell would make her own changes. Then, when the recipe had been adapted and passed the family's testing, it would be added to the cook's permanent collection.

Early this fall the first printing of "Friends and Family Cookbook," came off the press.

The couple's four children, Kathy, Trip, Tracy and Sunny, were all born here and are graduates of Friona High School. During their growing up years all of them were busy with school and church activities and Lunell contributes the endless numbers of requests she had to bake cookies for this, that or the other activity caused her to be constantly on the look out for new cookie recipes.

Lunell, the oldest daughter of Mr. and Mrs. J.G. McFarland, grew up here and graduated from Friona High School in 1949. After attending Stephens College at Columbia, Missouri two years, she transferred to Southern Methodist University, Dallas. She graduated from SMU in 1953 with a bachelor of arts in English.

While attending SMU, Lunell met Hollis Horton, a native of Rome, Georgia, and the son of Mr. and Mrs. H.H. Horton, Sr. After graduating from Rome High School and Auburn University, Auburn, Alabama, he had accepted a position as a salesman for Armstrong Cork Company and was living in Dallas.

Hollis and Lunell were married here soon after her graduation and lived in San Antonio and Denver before returning here to make their home.

After purchasing Parmer County Pump Company here about the time irrigation farming was really catching on in Parmer County, Hollis went to work in his business and in the community. He still owns and operates the pump company as well as farm and livestock interests he has acquired.

The Hortons are long time members of Friona United Methodist Church. Lunell is a long time member and past president of the Progressive Study Club and Hollis has been a member of Friona Evening Lions Club for many years. He was named "Man of the Year" in 1978.

Soon after the Hortons moved here they built a new home across the street north of Parmer County Community Hospital, then in 1965, they moved into a new home about one mile north of town on the east side of Highway 214.

At the present time the Hortons have one pharmacist, one lawyer and two college students. Kathy, the oldest daughter, is a graduate of the University of Texas School of Pharmacy and is the pharmacist in charge of pediatrics and John Sealy Medical Center in Galveston.

Trip, the couple's only son, a graduate of the University of Texas Law School, is an attorney in Beaumont. He also holds a bachelor of arts degree from Duke University, Durham, North Carolina.

He and his wife, Courtney, are parents of the couple's only grandchild, Marriott, who is nine months old.

Tracy, who graduated from the University of Texas at Austin with honors and a bachelor of arts degree in accounting, is currently a freshman at the University of Texas Law School.

Sonny, the youngest member of the family, is a sophomore at the University of Texas at Austin.

PUBLISHES COOKBOOK...Lunell Horton holds a copy of her new cookbook, entitled "Friends and Family Cookbook" which she recently published. Her book is packed with tried and true recipes which members of her family, plus friends shared for the book.

James Peace Earns Instructor Rating

By JUNE FLOYD

When James Peace, who lives at 1111 Elm, with his wife, Nancy, and five year old daughter, Jaclyn, isn't working on motors, which is his usual occupation, he is very likely to be found working on model airplanes at home, teaching someone else to fly them or attending a flying contest somewhere or other.

A native Texan, he's the oldest of the four sons of Bob and Wanda Peace. He was born in Muleshoe and spent most of his growing up years here. As a small boy, he spent a lot of time following his dad around and watching him as he worked on cars, trucks or irrigation engines.

At this time Bob and James are co-owners and operators of Friona Auto and Truck Repair, which is located at 1008 Washington Street.

James graduated from Friona High School in 1970 and soon thereafter began his career in the motor repair business.

His wife, Nancy, is the daughter of Harvey and Bonnie Blackstone, former residents of the Black Community, who have lived near Morton for a number of years. She is a graduate of Three Way High School and an employee of Friona Cablevision.

About eight years ago James began tinkering with model airplanes. His first kit was a Fledgling, which could be assembled without a great deal of supervision.

He remembers that he was well pleased with the assembly job but that when he finished the plane wouldn't get off the ground. His first idea was that all anyone had to do was to buy a kit, assemble a plane and then go out and fly it. This theory was soon discarded when the plane crashed.

"Since then, I've learned that a flight instructor is an absolute must," James said.

His second plane, which was a little bit more complicated was a Sr. Falcon, another beginner's model. After assembling it, he went to Sudan for flight instruction. His instructor, Pat Kent, had been flying model planes about 25 years at the time and is very good.

"With Pat's help, I flew the Sr. Falcon," James said. "Then," he added, "I soon crashed it and had to start over."

From this humble beginning James soon became an adept flyer.

"As you learn you progress to more complicated kits and assemble planes which are more maneuverable," he said.

After flying with other model airplane enthusiasts for awhile at Benger Air Park, James went to Clovis and joined the Model Airplane Driver's Society, which has about fifty regular members.

The City of Clovis maintains a miniature airport designed exactly like a large one at a park on the banks of the Running Water Draw a few miles north of the city.

After becoming a member of MADS, it wasn't long before James decided flying for fun was fine, but that he wanted to enter some contests and secured a Model Airplane Sporting License, which was issued by the Academy of Model Aeronautics.

In model airplane flying contests there are two levels of competition in the Fun Fly division. After a flyer has won in the beginners division, he can then compete in the advanced class.

James began competing in 1982 and participated in six different contests before winning one in Carlsbad in June of 1983. In these contests flyers enter several events and are judged on the number of points they rate in each event.

The club meets the first Monday of each month. Beginners are issued student licenses at first. Then, when they advance enough to be able to take off and fly, these are replaced by pilot's licenses.

When a pilot advances sufficiently, the club votes him in as an instructor. James was voted in as an instructor last year and has enjoyed teaching others to fly.

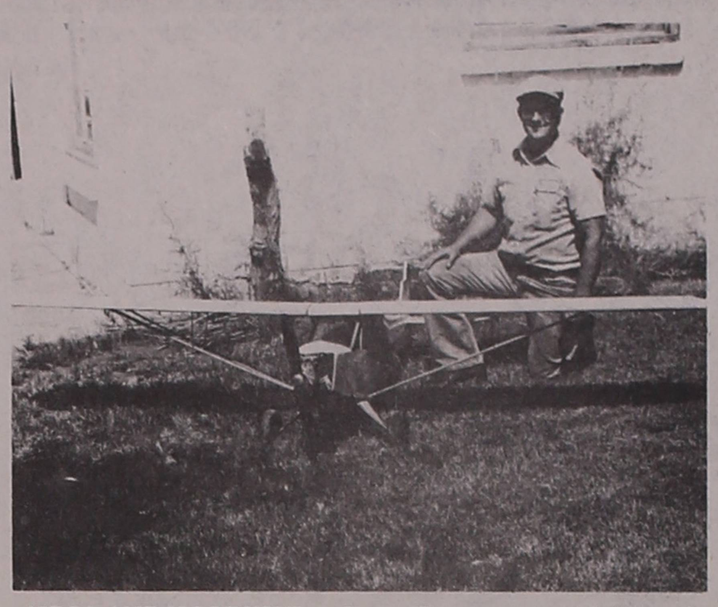

"Some of our club members are Air Force F1 pilots from Cannon Air Force Base and I've had some of them in my classes," James reports.

He went on to say, "Some full scale pilots have trouble learning to fly model planes which are radio controlled."

His most recent honor was being voted "Modeler of the Month" by fellow club members for teaching six people to fly without crashing a plane.

There are two types of model planes--type 1 has a box fuselage and type 2 is full scale. A Quickie 500 Racer, which will fly 100 miles per hour and took James about 25 hours to build is his most recent project.

James concluded the interview with these remarks, "Flying is fun and is a hobby the whole family can participate in. I'm teaching Nancy to fly right now and she helps me assemble my planes. However, it can be a very dangerous sport, too. The engines are powerful and if they get out of control, someone is likely to get hurt."

AIRPLANE HOBBYIST....James Peace poses with his scale model J-3 Piper Cub which he built from a kit. James plans to fly the plane in competition this week in Clovis.
