MORNING MISHAP  
Injures Lubbock residents

## Turbulence Rakes Panhandle, Plains

By The Associated Press  
Wild weather flailed the Panhandle and Plains Monday night with flood rising, deluges and damaging electrical storms.

In Palo Duro State Park south-east of Amarillo, a cloudburst loosed 3 inches of rain. Water 8 feet deep blocked a crossing in the main road through the canyon.

Lightning hit power plant at Lubbock twice, starting a fire which caused undetermined damage. More than half the city was left dark until repairs could be made.

The power failure delayed air traffic at the Lubbock airport. Oil flares were placed along the runways.

More than four inches of rain fell at Childress.

At Dumas, lightning hurled Joe Casas, a high school football player, to the ground and stunned him. He was taken to a hospital for observation.

Another bolt struck a building in Amarillo and hurled six brick layers off a low scaffold where they were working. None was injured.

A 1.7-inch downpour within 45 minutes soaked Amarillo. The runoff flooded numerous street underpasses.

In the Palo Duro park, where sudden downpours occasionally strand visitors for several hours, officials reported 17 cars carrying 71 persons were cut off by the muddy torrent. They said none was injured and the group had plenty of food and clothing.

High winds accompanying the storms were clocked at up to 70 miles per hour in Lubbock, where the rain also was heavy.

Rainfall measurements elsewhere included 2.5 inches near

## Crash Scene Sifted For Any Clues

Silverton, 2 inches at Levelland, 50 at Vega and 74 at Dalhart.

At Vernon, a hard shower brought 70-inch within an hour about dawn.

Despite the moisture, the Weather Bureau predicted continued hot weather throughout the state. Scattered showers were expected again in North and West Texas.

HONOLULU AP—Canadian and American investigators probed the scattered wreckage of a Canadian airliner today, seeking clues to why it crashed while making an apparently routine three-engine emergency landing late Sunday night.

Twenty passengers and seven crew members on the four-engine Canadian Pacific Britannia turbo-prop died. Thirteen survivors, who were in the tail section, suffered relatively minor injuries in the first fatal commercial airliner crash in Hawaiian history.

Three American residents were listed among the identified dead. One, Arthur Pudney of Los Angeles, Calif., had moved to California from New Zealand only recently to take care of business affairs.

The others were A. Rodger Denison of Tulsa, Okla., a vice president since 1954 of Amerasia Petroleum, and his wife, Maud. Denison represented the U.S. government at the International Geological Congress in Mexico in 1956 and in Copenhagen in 1960.

## Two Injured In Mishap

A two-car collision at the entrance to the Snyder Country Club at 9:50 this morning sent a Lubbock man and woman to Cogdell Hospital for treatment.

Leonard Cole, driver of the Thunderbird pictured above, said that in order to avoid striking an ice truck turning into the club, he was forced to go out onto the shoulder.

A car, reportedly out of gasoline and driven by Mrs. Wiley Brice of the Lubbock Highway, was parked there. Mrs. Brice and her three children were still in the car. The Cole car struck the rear of the Brice car.

A passenger in the Cole car, W. A. Hogan, was thrown into the windshield by the impact and suffered facial cuts and a knee injury. Mrs. Cole received a possible fractured collarbone. Mr. Cole received a minor cut from the steering wheel, and Mrs. Hogan was not injured.

The injured were taken to Cogdell Hospital by Boyer Ambulance Service.

THE SIGN SAID "STOP"—and much as she might have wanted to, Mrs. Brice couldn't when her car was struck from behind.

## Air Line Strikers Reach Deadline

WASHINGTON (AP)—The deadline set by Eastern Air Lines for its striking flight engineers to claim their jobs or face the loss of them comes up today.

Another effort by Secretary of Labor Arthur J. Goldberg to settle the dispute failed Monday night when Eastern's president, Malcolm A. MacIntyre, rejected a new proposal.

Goldberg had proposed arbitration of economic issues dividing the airline and the Flight Engineers International Association, AFL-CIO. He also had proposed that the two parties settle their differences over the complement of jet crews on the basis of points they had agreed to earlier, but at different times. Goldberg contended they overlapped in scope and could be the basis for an agreement.

The flight engineers made no reply to Goldberg.

Eastern previously had set today as the deadline for the bargaining to claim their jobs on an individual basis in an attempt to bring and end to the month-old strike.

The airline resumed limited operations Monday and said it would continue the bargaining schedule today—two flights each way between New York and Miami, Fla.

## Catch-All Bill Passed

WASHINGTON (AP)—Congress has sent to President Kennedy a \$373,550,639 catch-all appropriations bill which had been stalled since April in a prestige squabble between Senate and House Appropriations committees.

The House and Senate passed the money bill Monday. Most of the items supplement funds previously appropriated to miscellaneous agencies.

## Snorers, They Wanna Cure You

RELFEST, Northern Ireland (AP)—The president of the British Medical Association told the association's annual congress Monday night that he is astonished someone hasn't found a cure for snoring.

"Surely plastic surgeons could lighten up whatever structure it is that goes slack with age," Dr. Ian Fraser said.

"Snoring is much more revolting than a crooked nose or projecting ears."

## Sobell Stays In Prison

WASHINGTON (AP)—Morton Sobell, convicted in 1951 of conspiring to commit espionage, has lost out on a bid for parole.

The Justice Department disclosed Monday the Federal Parole Board had turned down Sobell's appeal late in June.

Sobell, serving a 30-year term, was convicted of conspiring to pass wartime secrets to the Russians. Two codefendants, Ethel and Julius Rosenberg, were electrocuted.

# Rusk Urges Negotiations

## Soviets Nix Inspection

By DORIAN FALK  
GENEVA (AP)—U.S. Secretary of State Dean Rusk said today repeated Soviet declarations that communism will eventually dominate the world tend to prevent disarmament.

The United States "sincerely wants an arms elimination program and a nuclear test ban treaty," Rusk told the 17-nation disarmament conference, and he is willing to return to Geneva for any angle on those matters that seems on the point of solution.

The American diplomatic chief appealed to the Soviet bloc to halt what he called "persistent pressures against the vital needs of others" which are holding up signing an agreement.

On the other hand, Soviet Foreign Minister Andrei A. Gromyko accused the Western powers of blocking progress. He said they sought through their disarmament proposals to create a paradise for

## Cox Speaks To Duval Republicans

SAN DIEGO, Tex. (AP)—Republicans will visit the Democratic stronghold of Duval County Saturday night for a speech by Jack Cox, the Republican candidate for governor.

Cox is to speak at 8 p.m. A GOP rally starts at 7 p.m. Party officials plan a statewide caravan to San Antonio.

Archer Parr, Duval County judge, invited the Republicans to Duval County for a look behind what he called "The Mesquite Curtain" facing the GOP county chairman, Florence Shoemaker, was jailed for contempt of court.

Mrs. Glenda Hill state Republican committeewoman from Bexar County, said about 100 people from San Antonio will make the trip.

## Actor Victor Moore Is Dead At 86

EAST ISLIP, N. Y. (AP)—Actor Victor Moore, whose round face, winsome smile and portrayals of bumbling characters were known to millions, is dead at 86.

Moore, who made his first Broadway hit in George M. Cohan's "Forty-five Minutes from Broadway," died Monday in this Long Island community 45 minutes from Broadway.

He once said he hoped he would die onstage. Instead, he died in an actor's fund home, Pine Acres.

Moore's greatest theatrical triumph came in the 1932-Pulitzer prize-winning musical "Of Thee I Sing," in which he played the gentle, bumbling and forgettable Vice President, Alexander Throckmorton.

## Quarantine May End At Naval Center

SAN DIEGO, Calif. (AP)—A quarantine of the 10,000-man naval training center may be lifted today, officials said.

The ban was imposed Saturday after four cases of infectious meningitis were reported at the base.

Medical officers said recruits had been given sulfa pills as precautionary procedure. Only three of the cases have been confirmed but, all have been hospitalized.

## WEATHER

SNYDER TEMPERATURES: High Monday 84, low 64. Tuesday morning 75, showers; reading at 2 a.m. 74 degrees.

North Central and Northwest Texas: Clear to partly cloudy today and Wednesday. Rain likely Friday and Saturday. Low tonight 72 to 74. High Wednesday 82 to 84.

South Central Texas: Clear to partly cloudy today and Wednesday. Rain likely Friday and Saturday. Low tonight 72 to 74. High Wednesday 82 to 84.

South Texas: Clear to partly cloudy today and Wednesday. Rain likely Friday and Saturday. Low tonight 72 to 74. High Wednesday 82 to 84.

## U. S. Stalls In Laos Withdrawal

WASHINGTON (AP)—The United States will take its time withdrawing some 750 military advisers from Laos, officials indicated today.

"We'll want some pretty good assurances from the International Control Commission that the North Vietnamese have started to pull out before we move," one source said.

Under a 1961 agreement signed Monday at Geneva, all foreign elements must be removed from Laos within 75 days, or nearly that long, depending on what the other side does about withdrawing its military forces.

The Geneva agreement designed to seal off Laos from the cold war gives the three-nation control commission the job of monitoring the military pullout of Western and Communist groups.

Red North Viet Nam is reported to have sent as many as 10,000 of its trained fighting men into Laos to help the pro-Communist Pathet Lao in their rebellion against a pro-Western government.

There is concern here that any North Vietnamese troops withdrawn from Laos may be shifted into South Viet Nam to help the Communist guerrillas there.

## U. S. Army Sergeant Kidnaped

SAIGON, South Viet Nam (AP)—A U.S. Army sergeant and his Vietnamese interpreter have been ambushed and kidnaped by Communist guerrillas, U.S. authorities reported today.

Another American soldier with them, identified as Sgt. Carl E. Brown, escaped the trap.

The Army in Washington said Brown's wife, Myra N. Brown, lives at 405 Marathon Drive, Columbus, Ga.

The three were on a hunting trip Monday three miles from the coastal town of Thau. Then when they were set upon by Viet Cong guerrillas.

Identity of the kidnaped American was withheld.

## Algerians Agree On Political Group

By ANDREW BOROWICZ  
ALGIERS (AP)—Premier Ben Youssef Ben Khedda's Cabinet today was reported to have bowed to radical Deputy Premier Ahmed Ben Bella and agreed to a seven-man political bureau named by Ben Bella.

Ministers of Ben Khedda's government told newsmen a formal announcement would be made giving the government's green light to submission of the political bureau to Algeria's revolutionary parliament—the National Council for the Algerian Revolution—CNRA—for approval.

Ben Bella has a majority on the CNRA, and the political bureau was first named by it at a meeting in Tripoli June 7. Ben Khedda bolted the meeting and refused to install the group to direct the National Liberation Front (FLN), Algeria's dominant nationalist party.

Ben Khedda was not named to the political bureau. Ben Bella, who has been working from western Algeria to seize control of the new nation, was.

The bureau will be the supreme controlling organ of the FLN and thus of its party, administrative and military apparatus. Presumably it will dominate the government, and there was rising speculation that Ben Khedda would surrender the premiership to Ben Bella.

## Rites Set For Infant

Funeral rites will be conducted at 2 p.m. Wednesday at the North Side Baptist Church for Cass Regret Gallagher, five-month-old son of Mr. and Mrs. James D. Gallagher of 2406 Ave. X.

Rev. Jack Dean, pastor of the church, will officiate.

Burial will be in the Snyder Cemetery under the direction of Bell Funeral Home.

The baby was dead on arrival at Cogdell Hospital Monday afternoon.

Survivors include his parents; three sisters, Debbie, Donnell, Belinda Faye and Catherine, all of the home; one brother, Russell Graig of the home; paternal grandparents, Mr. and Mrs. J. R. Callagher of Snyder; maternal grandparents, Mr. and Mrs. E. T. Carey of Big Spring; great-grandparents, Mr. and Mrs. J. T. Rushing of Rotan; and great-grandmother, Mrs. Hattie Carey of Sweetwater.

## Jet Plunges In Montana

LIVINGSTON, Mont. (AP)—A military plane that crashed today, apparently an Air Force B47 jet bomber with four crewmen aboard, crashed Monday night into a 10,000-foot peak in the rugged Rocky Mountains of south central Montana.

Rescuers, kept busy from the wreckage all night by intense flames of the crumpled plane and a resulting forest fire, found no bodies as dawn struck the mountainside.

One parachute pack was found. The plane carried a crew of four.

Malmstrom Air Force Base near Great Falls confirmed that a B47 was overdue on a training flight from Dyess Air Force Base near Abilene, Tex.

An officer said, "This looks like the one."

Dyess officers were informing relatives that crew members of the B47 were missing.

Rescue teams said the plane hit the 8,500-foot level near the top of a ridge leading off Emmigrant Peak. They described it as having hit the top and slid over.

The tail section was found on the southwest side, the rest of the wreckage on the northeast slope.

Maj. A. J. Roengen, information officer at Malmstrom, said only that flights over the fire on the mountainside indicated a plane was down and had burned.

A truck driver told officers he saw a burning object in the sky and watched it smash into the mountain, and explode.

Tom Peterson, a rancher in the area, said he saw an explosion but did not notice any flames in the sky.

The fire was two miles from the nearest road.

Cpl. W. L. McDowell, who commands Dyess base, confirmed that a B47 from his base was on a flight in the Livingston vicinity but said, "We have had no report our aircraft is down and it's not overdue."

The Dyess plane carried a crew of four.

Reports from three residents of Yellowstone Valley south of Livingston indicated a fire or explosion occurred at 9:50 p.m. on the west side of Emmigrant Peak between the 6,000- and 7,000-foot levels.

The peak is in the Absaroka range and about 15 miles north of Yellowstone National Park.

Searchers were kept from the center of the immediate area by intense flames of the resulting forest fire.

The Dyess craft was flying in the Livingston area. It was to have returned to its Texas base at 2:20 a.m. CST.

Crew members were listed as: Capt. Joseph Faulconer, 29, of El Dorado, Kan., instructor pilot; Lt. Lloyd Savers, 29, of Cisco, pilot; Lt. David Sattus, 24, of Miami, Okla., copilot; Lt. Frederick Hixenbaugh, 24, Burton, W. Va.

## Nuclear Explosion Postponed

HONOLULU (AP)—The United States today postponed its planned second high-altitude nuclear explosion for 24 hours.

In Washington the Atomic Energy Commission said the reason for the delay was weather conditions.

The announcement by Task Force 8 officials here followed 10 separate half hour holds that pushed the planned test right up to the 3 a.m. deadline that had been previously set. The shot originally had been set for 10 p.m.

The test, when it comes off, will be in the submergence range, equivalent to between 20,000 and one million tons of TNT. It will be exploded at an altitude of 30 to 40 miles.

## Hurricane Protection Approved

WASHINGTON (AP)—The chief of Army Engineers and the Budget Bureau have approved plans for a \$33.4 million hurricane flood protection project for the Port Arthur, Tex., area, Sen. Ralph Yarborough, D-Tex., said today.

The improvements would include strengthening, raising and extending existing levees and constructing floodways and pumping stations. Local interests would put up \$10,020,000 of the cost.

The project now will go to Congress.

## Child, 2, Drowns In Irrigation Canal

PROGRESO, Tex. (AP)—An 18-month-old child, 2, drowns in an irrigation canal and drowned near here Monday.

**SALUTE FROM HIS SUCCESSOR**—Gen. Lauris Norstad, left, retiring as commander of U. S. forces in Europe and also as head of NATO troops, is saluted by Gen. Lyman Lemnitzer as latter leaves SHAPE headquarters, near Paris, after a visit with Norstad. Lemnitzer, chairman of the Joint Chiefs of Staff, will succeed Norstad as commander of U. S. forces in Europe. (AP Wirephoto via radio from Paris)

## Looking Back

10 Years Ago  
July 24, 1952

Groundwork was laid yesterday for Snyder's newest Parent-Teacher Association unit when the East Elementary PTA's executive committee met to perfect bylaws.

O. S. Clark school principal, presided at the committee meeting. Miss Ann Weaver, president of the unit, read the proposed bylaws.

Mr. and Mrs. James Kincaid and son and daughter, Tommie and Emily, 3788 Dalton Drive, returned early Sunday from a 10-day vacation in New Mexico. The family stayed in a hotel near Chama and Santa Fe.

## HOSPITAL NOTES

**COGDELL HOSPITAL**  
ADMISSIONS: Eloise Kelly, 1408 Twenty-eighth; Vernon Todd, 1741 Jolly; Vivian, Twenty-sixth St.; James Skiles, 605 Thirty-fourth; Debra Krause, 2307 Fortieth; Judy Ann Lee, 4012 Ave. S. Alina Cunningham, 1612 Ave. R.

## Injuries Are Fatal

HOUSTON (AP)—Injuries he received Sunday when struck by a car proved fatal to Joseph Vonnor, 2, Monday. He was the son of Mrs. Annie Vonnor.

## Stock Prices Down Today

By ED MORSE

AP Business News Writer  
NEW YORK (AP)—Stock market prices gave ground moderate early this afternoon in show trading.

The Associated Press average of 60 stocks at noon was off 40 at 214.60 with industrials off 70, rails unchanged, and utilities off 20.

Losses of key stocks went from fractions to about a point. Most declines were small and there was a scattering of minor gains. The more volatile "growth" stocks declined around 2 points or so.

The gold mining shares were irregularly lower in further reaction to President Kennedy's renewed pledge that the dollar would not be devalued.

The market was mixed at the start then gradually slipped lower with no particular selling pressure. Steels, motors, tobacco, base metals, drugs, and aerospace issues were among the losers.

General Motors, Ford and Chrysler dropped fractions while American Motors and Studebaker were about unchanged.

Among the gains, Homestake halved an early 2-point loss. Campbell Red Lake and McIntyre Porcupine dropped fractions. Dome Mines recovered a point.

U.S. Steel and Bethlehem, which will report soon on quarterly results, each lost about a point. Republic Steel dropped a fraction. Jones & Laughlin was firm.

The Snyder (Texas) Daily News, Tues. July 24, 1962 3

### Fluyanna News

By MRS. J. R. JONES

Mr. and Mrs. Theo Beckham and family of Porterville, Calif. were guests last week of Mr. and Mrs. L. J. Spragins.

Mrs. Bob Browning and Deaton Simmons received word last week of the death of their brother, Lee Simmons of Venton Ark. Mr. Simmons was a former resident of our community.

Mr. and Mrs. Horace Carmichael visited Mr. and Mrs. T. W. Ellis in Lubbock recently. Mrs. J. R. Dozier of Seagraves and L. Jean Berryhill of Denver City were guests in the home of

### Help Mom During The Summer

Summertime is time for picnics, beach parties, barbecues—just plain family fun. In the summer, with added interest in outdoor living, mom's chores are doubled.

While her family is enjoying the summer months, it's up to mother to plan attractive and appetizing outdoor meals, trips to the beaches and parks, and a range of varied activities. Although modern techniques have been developed and new appliances created to make the little woman's job far easier than in grandmother's era, summer vacation is the ideal time for children to repay mom for her unselfish labors by assuming a portion of the daily household errands and everyday duties that keep mom a pretty busy gal. Get mom out the house and let her enjoy the warm, balmy weather along with her family. Give her a vacation from a tiresome, routine schedule.

It's true that the woman of the 20th century has been emancipated from much drudgery, but modern times have made new demands on mother that were undreamed of in the past. A list of household tasks for Mrs. Modern Housewife might include such time-consuming duties as acting as the family chauffeur, practical nurse, and personal valet to each member of the family. In addition, many mothers, for example, are expected to be financial consultants, million experts, business managers, and public relations agents for their families.

To keep her household running smoothly, Mrs. Modern Housewife, supervisors, and controls housework. This is where the husband can give his wife a welcome helping hand and well-deserved rest. What mom wouldn't relish the opportunity to dine out once a week free from meal planning and dishwashing? Or, if it's impossible for her to leave the children there is still a solution to the problem of "settling away from it all," let the man of the house wear the apron in the family. Also, sending the family washables, to a professional laundry is a great help to mom. Summertime can be plain family fun but it is also a time for more care to washable clothing. Particularly during the summer, clothes should be laundered frequently and soon after wearing to avoid fabric damage and staining caused by perspiration.

### C. Hamilton, G. W. Hicks Marriage

Carolyn Jean Hamilton became the bride of Graydon William Hicks Jr. in single ring services read July 16th. at 8 p.m. in the First Christian Church. Allen Lynch performed the ceremony.

Parents of the couple are Mr. and Mrs. B. D. Boone, 111 Peach Street, and Mr. and Mrs. Graydon W. Hicks Sr., 1812 Thirtieth Street. Margaret Mitchell of Colorado City was maid of honor and Darwin Baze of Snyder was best man. The bride wore a three-piece blue suit with white accessories. The couple both attended Snyder High School and are at home at the Bel Air Village.

### Feature Writer's Italy

SPEAKING THE LANGUAGE LIKE A NATIVE. By Aubrey Menen.

A book about Italy, this one is not the usual sort of bright tourist information. The Riviera is thoroughly ignored.

Rather it is a collection of an urbane man's observations on the Italian people, by an author who is half Indian, half Irish, and has chosen to live in Italy because it appeals to him.

Menen is like a good feature writer who has dug up some sophisticated material, garnished with offbeat comment, on such topics as Vatican City, Milan, Naples, Rome—especially the people who inhabit these places—art, archeology and history.

The Italian temperament, in its foolish as well as its profound manifestations, gets a complete treatment in these pages.

There also is a chapter on "A Short History of the Human Body" which has some witty things to say about nudity in art over the centuries. Fortunately, Menen's observations are clothed in a clean, crisp prose.

### Porch Lunch

This fruit combination is always so popular that it has become a summer staple at our house.

Sunday Morning 10:30—Evening 7:00  
Monday Through Sat. Evening—8:00  
Speaker—Tommy Williams Of Stanton, Texas

### Necks Make News In Fall Jewelry

Elegance wins by a neck in the fall jewelry sweepstakes.

Dramatic new jeweled collars turn the fashion focus on necklines, adding the necessary accent to the "little nothing" dresses still favored by a majority of fashion-wise women. Untrimmed, understated dresses with collarless necklines demand the punctuation of the beautiful jewelry introduced this week in all price ranges, in the fall fashion panorama.

While jeweled pins, bracelets and earrings all have their place in this fall fashion wardrobe, the collar necklace is paramount. The new necklaces carry out the precious look so important for several seasons, with colder use of color and combinations of stones.

The collar necklace is a far cry from the jumbled head "bits" of a few years ago, and ranges from combinations of real or simulated stones, elegantly designed gold chains and pearls, to classic flat nests of delicate chains. It may lie flat at the base of the throat or be worn high and wide, in the flattering dog collar fashion.

Bracelets, too, are wider and bolder in design than in recent seasons, and earrings usually dangle, to be visible with the popular bouffant hairdos.

Color is important in the fall jewelry line-up, with much attention to all tones of brown; from sunny topaz to deep rich brown accented with gold or black. Real jewel colors are present in full array, to be used as color accents coordinated with the costume. Deep ruby red is a headliner, but also present and accounted for are emerald, sapphire, turquoise, jade lapis, garnet, jet and gold.

Gold jewelry is everywhere, bold or discreet, tailored or delicately filigreed, always effective and always in good taste. Multiple gold chains make some of the most popular collar necklaces.

Gold chains come in all sizes and all prices, in karat, gold filled or gold finish, bright and shiny or with smooth satin sheen, in necklaces and bracelets. The range of textures, designs and effects is almost limitless in the gold jewelry category, ranging from necklaces of tiny gold beads to wide, flat collars of nested gold chains, bold or delicate. Gold accents also add richness to jeweled necklaces, pins and bracelets, and gold filigree work lends an oriental touch to many of the new designs.

Pearls, beloved and basic of jewels, are always with us, but with new variety and imagination. The look of cultured pearls, real or simulated, is the favorite look of the moment, most popular in multiple strand collars and drop earrings. For evening wear the sky's the limit in jewelry elegance this fall, with a dazzling array of brilliant and elaborate formal jewelry such as has not been seen for many years. White House reinstatement of full formality has brought back full-length evening gowns and with them jeweled hair ornaments, fabulous necklaces and bracelets, important earrings and pendants.

Day or night, town or country, jewelry is a must this season to spice and personalize simple, understated dress styles and to keep the fun in fashion.

### BLUE PINE COMPOTE

1 can (1 pound) pineapple tidbits  
1 1/4 cups fresh blueberries  
Condensed ginger

Turn the pineapple and its syrup into a serving bowl; add the blueberries. Rinse the ginger in hot water to remove the sugar coating and to soften; cut into thin slices so there is about 1 1/2 tablespoons; mix with fruit. Chill. Makes 6 servings.

Learn to prepare a good Custard Filling! It can be used with cut-up fresh fruit, in eclairs or cream puffs, or as a filling for sponge-cake layers.

Cook pitted dates with a little orange juice and sugar; add grated orange rind and use as a filling for oatmeal cookies.

# Communist Europe-Birthrate Decreases

By RICHARD O'REGAN  
PRAGUE, Czechoslovakia (AP)—Why bother to have children? Many young couples in Communist East Europe feel this way today.

Communist newspapers report a steadily decreasing birthrate. Legal abortions are increasing. Women pushing baby buggies are a rare sight in Czechoslovakia, Hungary, Romania and Bulgaria. The abortions run into hundreds of thousands a year. In some cities, like Prague and Budapest, more young mothers legally end their pregnancies than have babies.

Why?

A Western sociologist explained: First, housing is drastically short. Young couples frequently have to share apartments. One-family houses in which to raise families just aren't built for young couples under communism.

Second, women have to work to help their husbands earn enough to feed and clothe themselves. If there's money over, the couples often want to spend it on themselves. Beside, abortion is easy in state clinics.

Third, where there are children, the Communist state takes them away early for Communist indoctrination.

"Why should young couples go to the expense of bearing and caring for children if they hardly

ever see them and can't give them any love?" the sociologist asked. "Besides in some countries, like Bulgaria, the Communists are teaching the children to behave like robots."

In the old days of communism under Stalin, big families were encouraged. Mothers with many children were feted as Socialist heroines. Abortion was forbidden. Illegal abortions, however, were frequent and a trend to overpopulation created discontent and shortages.

The pendulum now has swung in the other direction. In 1955 and 1956, communism found that women who did not want children would find ways to prevent them. So birth control centers were opened, contraceptives sold and abortion allowed for women who claimed health, family or economic reasons.

The effect of this policy has been a great upsurge in abortions. Westerners behind the Iron Curtain see the rise in abortions as symptomatic of a general decline of family life.

A major reason, they feel, for the reduction in the size of families in Eastern Europe, is the way children are separated from their parents at an early age.

The Communist principle is to get to the children young—in the formative years from 1 to 6. Be-

## Congressional Secretary Attacked

WASHINGTON (AP)—Mary Lou Kosterlitzky knelt in solitary prayer at the altar of St. Peter's Roman Catholic church, just two blocks from the Capitol.

Suddenly there was a man behind her. "Keep quiet," he said, "and you won't get hurt."

Miss Kosterlitzky pleaded, "I'll give you my money. Please don't hurt me. I am not well."

The 45-year-old congressional secretary said the man grabbed her by the arm and forced her to walk to a confessional where he choked her, stabbed her nine times in the back and hand, and stole \$7.

She was taken to Casualty Hospital, her condition reported as serious. She described her assailant as a 6-foot Negro, 20 to 25, Miss Kosterlitzky's boss, Rep. Frank Becker, R-N.Y., took the House floor to tell of the attack and robbery Monday afternoon.

"We have reached a point where a human being can't even go to church and pray with safety," he said. "It is a disgrace to the nation that this should happen in our capital city."

**4,109 . . . Drip, Drip . . .**

CAMERON, Wis. (AP)—Mike Popko and Tom Hagan laid claim Monday to a world record by losing an ice cube back and forth 4,019 times before it melted.

Mike, who is 16, and Tom, 14, say they topped a record set at Columbus, Ohio, last week when a couple of fellows tossed a cube 4,002 times.

# Europe Watches, Listens, As Telstar Airs JFK's Views

By WHITNEY SHOEMAKER  
WASHINGTON (AP) — With Europeans watching and listening as he spoke, President Kennedy rebuked the Soviet Union for testing nuclear weapons, reported no recent progress on Berlin and promised not to reduce the value of the dollar.

As the President answered reporters' questions Monday, some

The Snyder (Texas) Daily News, Tues., July 24, 1962 5

of his comments were beamed to the American Telstar communications satellite. From its lofty orbit the Telstar provided the first simultaneous telecast of a presidential news conference for viewers on both sides of the Atlantic.

For nearly five minutes, before the U.S. portion of the historic program exchange jumped to another spot, Europeans joined the

American audience.

Although the President knew from a little red light on the rostrum when Telstar was operating, there was no timing of particular questions to the period in which Europeans watched. They missed later exchanges as when Kennedy said a Democratic gain of 5 to 10 seats in the House and a couple in the Senate would carry his program through Congress. The scene had shifted when he called the Congo situation "very, very serious."

They did not hear Kennedy's opening statement, when he took note of the occasion and described Telstar's capacity for speedy communications as "a very essential requirement for peace." The understanding it can cultivate, he said, is bound to enhance the security and well-being of people everywhere.

They were on the receiving end, however, when he said "the world plunges deeper into uncertainty" with the new Soviet round of nuclear tests. The United States, he declared, is "very reluctant to test" again and will not unless the

Soviet series develops what he considers a further threat to Allied security.

Europeans also heard the President engage briefly in a domestic issue, saying Congress should stay in session until it acts in important legislation. The November elections, he said, will offer a choice between action and inaction in Congress. He made it clear he was re-erring to Democrats and Republicans, in that order. The ocean-spanning segment of the conference began as Kennedy was summing up his view of current prospects for a Berlin settlement: "We hope that an accord can be reached. We continue to try to reach one. But we have not made progress recently forward."

It closed as he was in the midst of contending refusal to cash dollars for gold "would be the most backward step the United States has taken since the end of the second World War." He predicted the inflow and outgo of gold would be balanced next year and guaranteed the United States would not devalue the dollar.

down or to sail."

POPULARITY — Noting that one poll showed his popularity stock dropping from 79 per cent to 69, Kennedy said he "would feel I had not met my responsibilities" if it stayed up after a session of Congress in which he took controversial positions. It probably will drop more, he said, adding former President Dwight D. Eisenhower's index was down to 38 per cent in 1954 "but he survived, and I suppose I will."

CONGO — Failure of the U.N. effort to integrate Katanga with the central Congolese government could lead to chaos, Kennedy said. The United States stands strongly behind U.N. policy.

LEMNITZER — The chief executive described Gen. Lyman L. Lemnitzer as "very adequately equipped" to replace retiring Gen. Lauris Norstad as supreme Allied commander in Europe. He said France, where some grumblings have been reported, in the wake of Lemnitzer's assignment to head U.S. forces in Europe,

had agreed in advance to accept another American as NATO commander.

NUCLEAR SAFEGUARDS — U.S. underground tests have produced encouraging data on distinguishing such explosions from earthquakes, the President said, but U.S. policy on safeguarding a test-ban treaty with international inspection teams cannot change until the data is thoroughly analyzed. That should be done by the end of the week, he added.

SOVIET RELATIONS — "We understand each other, but we

differ." He declined to "look into that rather clouded crystal ball" which may reveal the consequences of a separate Soviet peace treaty with East Germany.

CIVIL RIGHTS — Asked about the Rev. Martin Luther King's urging him to speak out more against segregation, Kennedy said he has "made it very clear" that he stands for constitutional rights for all—and promised additional steps to guarantee equal opportunities.

Hungry Feed For A Week . . . Next Year

UNITED NATIONS, N.Y. (AP) — A "World Freedom from Hunger" week will be observed in 1963 to put the spotlight on man's battle to help his billion people who suffer from hunger and malnutrition. The date was announced Monday by Acting Secretary-General U Thant and B.R. Sen, director-general of the U.N. Food and Agriculture Organization.

MISS WHEATHEART OF THE NATION — Miss Judy Bradley of Hereford, Tex., the reigning Miss Wheatheart, stands in a wheat field during the current harvest near Perryton. Miss Bradley will reign until the next Miss Wheatheart is chosen at a five-state beauty contest in Perryton Aug. 18. (AP Photo)

## LIGHTEST MEXICO

BY JOHN ABNEY

TEHUANTEPEC, Mexico — The way to get ahead in the isthmus country is to use your head. In the fashion of the Tehuana ladies.

We arrived at noon today, parched and hungry after the three-hour drive from Oaxaca. A cool breeze from the Pacific Ocean, a few miles away, swept through the Hotel Tehuantepec.

And the pretty Tehuana girl came to our table in the dining room to take orders. She had bright blue ribbons braided in her long hair and wore the regional loose blouse and ankle skirt. No shoes.

After a while she was back with both hands full of shrimp cocktails, water, pitchers and knives and forks. On her head was a plate of bread and butter.

Every time she came from the kitchen, her hands were full and there was something riding on the top story. On one trip, she walked briskly through the dining room with an open bottle of frosty beer standing up like it was nailed to her scalp.

You could have knocked me flat with a sack of diamonds. "How in the wide world do you navigate with a headfull of merchandise like this?" I asked.

The waitress shrugged and put everything down. Nothing spilled. Well, that is the way it goes in Tehuantepec. In U.S. cities, wives and daughters pay out heavy currency to charm schools so they can learn to walk around with a book balanced on the noggin.

Tehuana learn it for nothing from childhood. And their charm is built in. Small ladies of four and five years trot down the highway with all sorts of strange objects riding on the penthouse.

Consequently, they grow up with the charm bearing and Palmolive complexion. Nature comes naturally.

Tehuantepec is strictly a ladies place, there being seventeen for each gentleman present. Possibly the men wander off and settle in other regions while the ladies remain here being Tehuana.

To my way of thinking, it should be the other way around. The gentlemen should be flocking in from all parts of the nation to balance out the accounts.

In the market places, ladies conduct business. You see them walking along the "rutas" with heavy baskets of fruit, jugs of water and bundles of wash on the cranium. No round shoulders nor slouching. Heads are high, with or without a load, and they walk with the grace of a ballet dancer.

Things operate in shifts. Ladies who are not moving about with a headfull of baggage are down at the river washing socks. After a while, the washing ladies pile things on their heads and walk down the road. And the other shift unloads at the river and starts washing.

It is a heartening sight to see such industrious equanimity who do not raise questions about fashions or having to drive last year's model.

And although I have not conducted any personal research into the matter, I am informed that girdles and maidens are unknown in this region. It would be like trying to sell water to a drowning man.

From what I can see, the male citizens hereabouts ride in oxcarts full of hay or play the marimba. This being a sort of wooden xylophone which gives out wonderfully soft melodies.

The Tehuana dance to this music at fiestas and battle for the thin stag line. And the stag line is wiped out by the first wave.

Once in a while, a man slinks past looking like a Republican caught at a Democratic Convention. Very unspectacular and unnecessary. The correct procedure is to not pay any attention to him. Just sit and study the next seventeen persons who come along.

A matter of using the old head.

## Get Rich ... Follow The Railroad

POINT OF ROCKS, Md. (AP) — State police reported Monday that an undetermined number of \$10 bills have been found during the past week along railroad tracks outside this Western Maryland community.

Police said residents apparently had been keeping quiet about finding quantities of the bills along tracks owned by the Baltimore & Ohio Railroad, and it was impossible to determine how many had been picked up.

Police said several residents admitted picking up as much as \$100 a day in the bills, scattered along a wide stretch of the tracks.

## India Gets Sovereignty Of Enclaves

PARIS (AP) — The French Senate ratified, 145-13, Monday, a treaty officially transferring sovereignty over five French enclaves to the republic of India.

The treaty was signed in New Delhi in 1956. Now it needs only President Charles de Gaulle's signature to take full effect.

The enclaves have been under Indian administration for several years.

## Japan Revenue Up

TOKYO (AP) — The Finance Ministry said Monday the government's tax revenue for fiscal 1961 ending March 31 was 10.9 per cent over the amount estimated in the budget. It called the increase natural because of Japan's fast-paced industrial growth.

# TO OPEN SERIES HERE THURSDAY

## Local PL '9' Wins

Ramon Valdez, a nifty right-handed chucker, followed in the footsteps of teammate David Cadena here Monday night, setting the Colorado City Pony League All-Stars down on two hits in taking a thrilling 3-1 victory. It was the second of three nights registered by the Snyder club, and earned for the team the area championship.

Snyder dropped the series opener, 11-7, but came back to even things up Saturday on the crest of a 7-4 victory, then clinched the title with Monday's narrow victory.

With the win, they move a notch upward in the playoff setup, and will take on the winner of the Abilene-Key City series in a best-of-three series beginning Thursday night at 8 o'clock in Snyder. Winning of the toss of the coin over the telephone with Abilene officials this morning gave Snyder the first and third (if needed) games of the series. The second conflict will be in Abilene Friday night.

Valdez and Elmer McMahon, a southpaw, locked horns in a scoreless duel through five innings in last night's decision. The visitors broke the ice in the sixth with three runs, though, to take the lead when Larry Curry walked to begin the inning, pilfered second, and came storming home when a batted ball by Ronnie Wilson got past Snyder's first baseman.

Snyder had threatened repeatedly during the early stages of the contest only to see their scoring attempts fizzle. They found the combination in the decisive seventh, however.

Some daring baserunning by Fred Wiman, who walked to lead off the inning, set up the first tally. He stole second standing up, and then streaked to third and was safe there. He drew life when a subsequent pickoff throw was dropped.

## 100 Teams Grace Field At Odessa

ODESSA (AP)—The field was complete today for the \$15,000 Odessa Pro-Amateur Golf Tournament, which starts Thursday at the Odessa Country Club.

There will be 100 teams, 70 by invitation and the other 30 decided in a qualifying round Monday.

Fifty-five teams tried for the places. It took a 3-under-par 69 necessary to make it.

Pro Wendy Green of Big Spring and amateur Gary Littlejohn led the qualifying with a 3-under-par 63. Littlejohn shot a 67. Ned Johnson, Dallas pro, and Jim Fetters, amateur from Port Arthur, were second with 6.

A special pro-amateur was scheduled today with such stars of the PGA tour as Doug Sanders, Don January, Billy Maxwell, Bob Winger, Mike Souchak, Bobby Nichols and Rex Baxter participating.

Defending champion pro Frank Wharton won't be here. He now has a club job in New York. John Farquhar of Amarillo, his 1961 partner, will team with Baxter.

## Houston QB Lost Only Temporarily

HOUSTON (AP)—George Blanda, the quarterback who engineered two league championships for the Houston Oilers, is expected to be back at the helm in 10 days to two weeks after thyroid surgery.

Blanda, twice American Football League player of the year, underwent a four-hour operation Monday. Club spokesmen said it was "very successful."

Blanda is expected to be in charge Sept. 9 when the Oilers start the AFL season in Buffalo, but he'll miss an Aug. exhibition with the New York Titans.

Jacky Lee, Blanda's understudy, will take the reins for the game with the Titans. The former Cincinnati University star is starting his third season as a pro, compared to 14 for Blanda.

## Greenhill Biffs WT

One City Softball League encounter was reeled-off Monday night, and saw Greenhill Baptist taking a 14-11 victory over West Texas Machine.

West Texas took an early advantage in the first inning with a five-run outburst, but Greenhill retaliated in their half of the frame with three of their own on a one-run double by Sumner Greer and a two-run homer off the plat of winning hurler Joe Rollins.

Kea tripled in the third with nobody on for the other hit of the game for Greenhill.

Greenhill's Hataway and Prentice Smith of West Texas each had two singles in four trips to the plate.

Bentley suffered the pitching

ped at third, and came steaming home with the tying run when Roy Kizer tapped one between the plate and mound. No play was made on Wiman, and Kizer was safe at first when C-City's first sack pulled his foot off the bag for what was to be the deciding error.

David Holt walked to advance Kizer to second, who went on to third. Holt then pulled a rabbit out of the hat by suddenly hurrying for second, and the unexpected maneuver forced relief hurler Larry Curry to come down off the mound after positioning himself. A balk was called against him, and Kizer was waved home with the winning run.

Both hits given up by Valdez during the game were scratch affairs—the first a high bouncer past the mound in the initial frame and the second a topser in front of the plate in the fourth. Meanwhile, he mowed down 11 of his adversaries and afforded free transportation to first to just two.

Both Snyder runs were charged

against to set McMahon. Curry came on with two down in the seventh to end the inning.

The game was a frustrating one for the Snyder nine until the final inning, as scoring opportunities regularly went away. As a team, they left 11 runners stranded to Colorado City's five.

The C-City pitching duo combined to strike out seven and walk eight Snyder batsmen.

6 The Snyder (Texas) Daily News, Tues., July 24, 1962

## Merchants In 1-0 Loss To Ath. Supply

ABILENE—The Snyder Merchants softball nine went down to defeat there Monday night in the first round of the double-elimination District 11 ASA Tournament, falling to Abilene Athletic Supply 1-0 in 10 innings.

The Supplines broke the scoreless deadlock between winner Roy Weeks and loser Ronnie Crosby by chasing over a run on a passed ball. Benny Scott tallied the winning run after being walked and singled to third.

Weeks gave up four hits and Crosby five during their route-going tours.

Snyder crammed the sacks in the home half of the tenth on a walk to James Wesson, a case of interference by the catcher which put Ronnie Winkles on base, and an error on a ball hit by Johnny Drake. A strikeout and outfield fly ended the game, however.

Snyder is to see its next action Wednesday night at 8:15 against Ericksdahl.

## All-Time Gate In Jeopardy

LUBBOCK, July 23—Astron possibility exists that the attendance record already held here for the Coaching School All-Star game will be broken Friday night, Aug. 10.

Current record of 5,935 was established when the All-Star game was played in the Coliseum in 1956. Nearest approach came last year in San Antonio, when the turnout was 5,900.

But the list of players known to this area's cage fans is imposing enough to encourage good attendance.

Among the players for the North are Sammy Johnston of Quisque, Carl McAdams of White Deer, John (Duke) Malaise of Odessa, Bob Measels of Seabrook, Eddie Pruitt of Fort Stockton, and Russ Wilkerson of Lubbock Monterey.

Malaise, Measels, and Wilkerson have signed letters of intent with Texas Tech.

Reserving basketball tickets are \$2 and \$1.50. Mail orders, including a 25-cent mailing fee, may be sent to the Texas Tech Athletic department. Reserved admissions to the North-South football game, scheduled for Saturday night, Aug. 11, are \$2.50 and \$2.

## Threat Is Postponed

HOUSTON (AP)—Harris County commissioners have decided to wait until Thursday on their threat to pull drainage equipment out of the \$430,000 excavation for Houston's domed stadium.

They will vote then on a motion to end a \$3,200 a week contract to keep the hole pumped dry if the Houston Sports Association fails to pay \$200,760 and put deeds for about 60 acres of land in escrow.

The association owns the Houston Coliseum and the stadium is to be the home park.

One commissioner moved Monday that the contract be terminated and that no action be taken on a bid for permanent drainage until the sports association makes a payment the county says is overdue and puts the land deeds in escrow.

## Red Raider Club Meets Here Tonight

All Texas Tech rooters—the ex-students or not—are reminded of this evening's meeting at the Snyder Country Club of the Red Raider Club.

The get-together is set to begin at 7:30, and will be held in the Club ballroom.

The Tech coaching staff will be present for the meeting, as will Red Raider Club executive vice-president Lee Jackson. They were entertained today with a luncheon at noon and golf during the afternoon.

Visitors scheduled to be present include Polk Robinson, J. T. King, Lee Jackson, Willie Zapala, Bert Huffman, Merrill Greene, Joe Blacklock, John Snyder, Gene Gibson, Charlie Lynch, and publicity director Bill Holmes.

Coney and Gibson are past football and basketball coaches at Snyder High School.

NEW MEMBERS TO HALL OF FAME—Four members of the Hall of Fame held their plaques presented them where they were inducted into the Hall of Fame at Cooperstown, N. Y. Left to right are: Edd Roush, 68; Jackie Robinson, 42; Bob Feller, 42; and Bill McKechnie, 74. (AP Wirephoto)

## BIG DOINGS AT COOPERSTOWN

## Feller, Robinson Among Hall Of Fame Inductees

By JACK HAND  
Associated Press Sports Writer  
COOPERSTOWN, N.Y. (AP)—Jackie Robinson said there was no doubt about it, being the first Negro to play in the big leagues helped him make baseball's Hall of Fame on the first try.

Robinson and Bobby Feller, Cleveland's great pitching ace, were inducted formally Monday along with veterans Bill McKechnie and Edd Roush. Robinson and Feller were picked by the baseball writers the first year they became eligible—five years after their retirement. McKechnie and Roush were selected by the veterans committee that screens old timers.

"There is no question about it," said Robinson after the ceremonies. "If I was not the first Negro player I might have made it eventually but probably not the first time around. I don't say that was the only reason, of course, but it was one of the factors."

Robinson, the former Brooklyn Dodger speedster, now is a 42-year-old business executive with patches of gray in his hair.

"Everything is complete now," said Robinson in his short talk to the crowd assembled around the platform on Main Street in front of the Hall of Fame and Museum. "It could not have happened without the advice and guidance of the three most wonderful people I know."

Robinson mentioned Branch Rickey, former Dodger president who helped him break the color line at Brooklyn in 1947; his mother, Mrs. Mallie Robinson, and his wife, Rachel, all of whom were seated nearby. His three children also were present.

"I've been up on cloud No. 9 since the election and I don't think I'll ever come down. I want to thank the writers for picking me and I want to thank all the people who were so wonderful during those trying (early) days."

Feller, also accompanied by his wife and two of his three boys, joked about his record for most bases on balls in a career and a season.

"Some of my records are not on this plaque," he said.

"But the walks are on here. Some of my marks are in jeopardy but not the walks. I wish they were."

Feller didn't mention such outstanding accomplishments as 368 wins, three no hitters, 12 one hiters, 18 strikeouts in one game, and 346 strikeouts in 1946.

"I might have had a shot at some others," he added, "but for my three years' vacation in the Navy." He shrugged his shoulders and said, "but you can't saw dust."

McKechnie, 72, spoke with emotion. He is the only man ever to managed pennant winners in three different cities. "If I have ever contributed anything to baseball," he said, "it was here."

Cleveland rookie outfielder Ty Cline hit .311 with 31 home runs and 290 with Salt Lake City last year. He started in Little League ball.

Fred Schubach Sr. is equipment manager for the Philadelphia Eagles of the National Football League. His son Fred has a similar job with the Baltimore Colts.

# Hornung In Civvies Again

By LEO MARKS  
Associated Press Sports Writer  
FT. RILEY, Kan. (AP)—Paul Hornung died his private first class stripe today and, in a word, said he liked gettin' out of the army fine.

Hornung completed his processing at Ft. Riley and was to fly down to Green Bay, Wis., in a private plane by a pilot friend.

Green Bay's 6-foot-3, 210-pound Heisman Trophy winner from Notre Dame, looked every inch the wonder boy who kicked, passed and ran the Packers to a 37-0 playoff rout of the New York Giants for the National Football League championship last winter. He scored 19 of those points himself, a record for a title game.

Hornung was named the NFL Most Valuable Player of the year. He has led the league in scoring since 1959.

Paul said he doesn't believe his eight months in the Army has hurt him.

"My weight is good," he said, "and it will be just a matter of getting my legs in shape. That's always the hardest part."

Hornung already was in the service when he led the Packers to their championship on that cold December day at Green Bay. He missed only three games after being activated as a reservist in November.

As for that pinched nerve in his neck which has given him trouble since the 1960 season, he said, "It's about the same as it was last year. I have been treating this condition at the post hospital here, but it isn't something that I'm going to get over in a short time."

Other than whirlpool baths for his neck and an emergency operation for appendicitis in May, he had no preferential treatment, Paul said. "I was treated like any other soldier."

Hornung served as a combination jeep driver and radio operator with the 806th Engineer company, a National Guard outfit from Bismarck, N.D. It is being deactivated Aug. 1.

"I would just like it to be said," he added, "that I was called up with the rest of them, and I'm happy to be getting out. I got to meet a great bunch of guys, and I appreciate the opportunities the army gave me to play ball while on active duty."

## Mays Pacing Homer Derby

NEW YORK (AP)—Willie Mays of the San Francisco Giants, seeking his first home run title in seven seasons, has stepped up his homer pace while taking over the major league lead.

The slugger outfielder walloped three homers in last week's games, boosting his total to 28. Leon Wagner of the Los Angeles Angels tops the American League with 27. Wagner connected only once last week.

# Q. HOW CAN FORD PUT SO MUCH MORE INTO A CAR?

# A. It's easy!...by taking one-and-only Thunderbird styling...adding the dash of one-and-only Thunderbird V-8 power...topping it off with an exclusive Ford combination of self-care and quality features that save you time, trouble and money! Only Ford can do this. Result: the one-and-only Ford Galaxie, biggest big-car buy in the State of Texas...and the other 49 too!

## WANT MORE? HERE'S HOW EVEN OUR LOWEST-PRICED GALAXIE! OUTCLASSES THE BEST CHEVROLET HAS TO OFFER!

1. **WORLD'S MOST THRILLING V-8 ENGINE**—Choice of 5 Thunderbird V-8's up to 405 horsepower (or the thrifty Mileage Maker Six).
2. **MORE SOLIDITY**—Almost 100 pounds greater curbweight.
3. **GREATER SAFETY**—Husky box-section side rails surround and protect passengers—compared to Chevy's open-sided x-type frame.
4. **MORE ROOM**—3 inches more rear shoulder room and over 2 inches more stretch-out room in the back between seats, for passenger comfort.
5. **WIDER DOORS**—Up to 5 inches wider front doors for easier entrance and exit.
6. **EASIER LOADING TRUNK**—6½ inches wider...and trunk light comes at no extra cost.
7. **3000-MILE CHASSIS LUBRICATION**—Compared to every 1,000 miles for Chevy—a big saving in time and money.
8. **6000-MILE OIL CHANGE**—After first 1,000-mile change—a one-third saving over Chevy.
9. **SELF-ADJUSTING BRAKES**—Safe, high-pedal stops for the life of the lining! (Chevy specifies brake adjustment every 1,000 miles!)
10. **WIDER TREAD**—Both front and rear, for a more stable ride!
11. **BIGGER BRAKES**—Galaxie has 212 sq. in. gross brake lining area—compared to Impala's 199.5.
12. **GREATER PROTECTION**—Full-depth one-piece bumper—instead of Chevy's three-piece bumper.
13. **2-YEAR OR 30,000-MILE ENGINE COOLANT-ANTIFREEZE**—Factory-installed in every Galaxie!
14. **WIDER TRANSMISSION CHOICE**—5 to choose from—including an optional new 4-speed manual transmission!
15. **YOU SAVE SIM WITH FORD'S TWICE-A-YEAR MAINTENANCE** in the first 30,000 miles! (According to Official Factory Owners' Manuals which specify service and maintenance periods.)

...AND YOU SAVE 155 BIG TEXAS DOLLARS TO BOOT!!!!!!

## Idaho Senator Is Dead

By LARRY OSUS  
WASHINGTON (AP) — Idaho's Republican Sen. Henry C. Dworshak, a staunchly conservative voice on Capitol Hill since 1939, is dead of a heart attack at 67.

His wife found him unconscious Monday night in the bedroom of their apartment and he was dead on arrival at Georgetown University Hospital. A son, Ward C. Dworshak, said the senator had suffered heart trouble in recent years.

Dworshak was the fourth conservative Republican senator to die within eight months. The others were Styles Bridges of New Hampshire, who died last November, Andrew Schoepel of Kansas who died in January, and Francis Case of South Dakota who died last month.

Dworshak's death left the Senate alignment at 64 Democrats and 15 Republicans.

Speculation arose that Gov. Robert E. Smylie, the Republican nominee for a third four-year term as governor of Idaho, might resign and arrange to be appointed Dworshak's successor in the Senate.

The death apparently means there will be an election this fall in Idaho to fill the four years remaining in Dworshak's term.

Sen. Frank Church, a Democrat, also is up for re-election in the state this year.

Dworshak was one of the Senate's hardest workers. In the 1953-54 Congress he answered every one of the 261 roll calls.

He also was one of the Senate's most consistent conservatives. He opposed U.S. involvement in World War II. He voted against such postwar measures as the Greek-Turkish aid bill, ratification of the Italian peace treaty and the Marshall Plan. He voted against almost all types of spending by the federal government.

Born in Duluth, Minn., on Aug. 29, 1894, Dworshak worked in the printing and editorial departments of several newspapers before World War I. After service with the American Expeditionary Force in World War I, he became publisher and editor of the Burley (Idaho) Bulletin, which he continued to operate until 1944.

Dworshak was elected to the House in 1938 and won re-election three times. In 1946 he ran for the Senate and won the remaining two years of the late John Thomas' term. In 1948, when the term expired, Idaho Supreme Court Justice Bert Miller handed Dworshak his first major political defeat.

Miller died in October 1949 and Dworshak was appointed to fill the vacancy until the 1950 election. Dworshak won in 1950, and finally, in 1954, won his first full six-year term. He was re-elected in 1960.

Four sons survive with his widow.

## Thief, 83, Nabbed Again

MEXICO CITY (AP)—The dean of Mexico's thieves, 83-year-old Aurelio Martinez Cerantones, was arrested Monday after unsuccessfully trying to make off with a set of scales from a butcher's shop.

Police said the old man was first arrested in 1904. Since then he has spent four visits on a penal colony island in the Pacific, 10 in the Mexico City Penitentiary and many others in various prisons throughout Mexico.

Martinez says he has no other way to support himself, his 123-year-old mother and a 93-year-old brother.

"The trouble with me is that I have never been able to bag a good lost," the old man said.

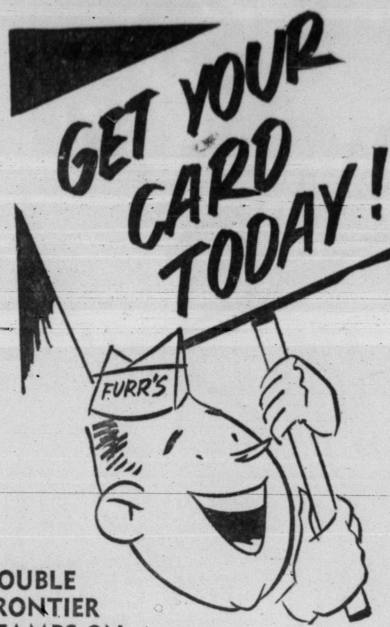

## From me to you A DAILY VIEW

Rev. R. Charles Spivey  
But Peter and the apostles answered, "We must obey God rather than men."

Acts 5: 29 (read verses 17-42)  
Oh, for Christians who have the bravery of Peter and the others! The story of the scripture today is an amazing one. Peter and the others were told, under sentence of death that they must not preach or teach the name of Jesus ever again. But they were so sure of their message, so filled with faith, so full of His love, that nothing could stop them. They went right ahead and preached, and daily added souls to the church.

What a contrast to the weak lived witness of present day Christians. In an environment that is not hostile to Christianity, a-and even of the special day set aside for Christian worship, modern day "believers" will not make any special effort to witness for Him. What must He think of us who claim His name, but who won't help spread His gospel?

## Gift Of Understanding Given Laotian Reporter

By RICHARD STARNES

VIENTIANE, LAOS.—At an American party a few days ago an American colonel sourly told me: "They (Laotian soldiers) average under five feet five; they weigh less than 115 pounds; more than 90 percent of them have one form of intestinal parasite or another, and many have undetected tuberculosis as well."

It was easy to nod sympathetically. It was no wonder all our American efficiency and dedication have not been able to mold such sorry human material into good soldiers eager to kill each other.

Perhaps the American officer can be forgiven for blaming the Laotians for being the sort of people they are. He had seen the frustration of all our plans for making Laos a bastion against communism. He'd seen neutralist and Communist elements come to ascendancy in the new coalition government, and he was indulging in an ancient human failing of blaming failure on someone else.

But it isn't so easy for a wandering reporter to forgive himself when he finds himself unconsciously faulting these little brown people because they're different from us, because they lack the sort of drive that is the hallmark of character and respectability at home.

This isn't a piece about why Laos is important in the military defense of Southeast Asia. That's been written about so often it may even be true. What this is, however, is a somewhat contrite reflection by one American who caught himself falling into the American habit (and for all anyone knows, Russian as well) of thinking people who happen to be different from one's self as sort of inferior pawns in an elaborate game designed to promote his own comfort and welfare.

The gift of understanding comes shamefully hard to some of us, which may be why the world's history is a dismal, unbroken chronicle of war and human torment. Genuine insight is a rare thing, perhaps more rare when that's what you are consciously looking for. And maybe a brief flash of insight that came to me is worth telling about.

As customary in my craft, my head was crammed with an impressive batch of information on the "situation" in Laos before I had ever set foot here. Maps, reports written by learned diplomats, articles by colleagues (some learned and some not so learned), a long folk history that led to the present rickety government, geography that makes this strange little country important to the great and powerful United States—there wasn't a bromide or an accepted article of faith regarding Laos that wasn't known to me.

But pride, my Presbyterian mother used to warn me, goeth before a fall. My fall was a humbling thing, and it taught me once again that that elusive gift of understanding is difficult and expensive to come by.

The hotel where foreign reporters stay in Vientiane is a giddy informal place with a bar and lobby that opens to the town's forlorn little main street. Vientian's countless smooth-haired dogs wander in and out; flies and mosquitoes abound; wan, sad little shoe-shine boys come and go at will. All, of course, are irritants to anyone properly brought up in the cocoon of American cleanliness and plenty.

This morning, sitting with another correspondent in the lobby over the first cup of coffee and reading self-assured appraisals of the situation in Laos, I felt a tug at the cuff of my trousers.

It was a ragged little shoe-shine boy. He looked at me with eyes unhealthily bright and terribly anxious. He was dirty and he smelled bad. It's difficult to judge the age of a child who's been hungry since the day of his birth, whose body shows the characteristic chicken breast of chronic malnutrition whose hair has never been cut and whose clothes are threadbare. But maybe he was 10 or 12 years old.

He held up 10 dirty little fingers. "Ten kip," he said hopefully. That meant he would shine my shoes for about 10 cents American. My reply was one that would have delighted all the world's Rudyard Kiplings.

"Go away," I said.

He went, a forlorn little shred of humanity, and squatted in the street outside the hotel. He lit a cigarette butt he'd found and he sat on his hunkers smoking it.

There was nothing in his overly bright, black eyes—no hope, no resentment, neither pride nor hurt feelings.

But suddenly the lefty conservation with my equally dense colleague was so much meaningless gibberish, and the morning's first coffee was cold and bitter in my mouth.

I walked to the front of the lobby and beckoned to the child. Then I sat down and had a 20-kip shoe-shine.

And I wondered, sitting there, how any man can know so much for about 10 cents American. How, how, he can be so sure he's got everything neatly labeled and compartmentalized, and all at once come upon the shocking knowledge that labels are all wrong, that labels are what have brought us to the world's present sorry state, that we were dealing with people, not inefficient, inconvenient pawns in a game.

I'll have the shiniest shoes in Laos for as long as I am here, but whatever kips I'm likely to spare for that little waif won't come close to repaying him for that one moment of insight he brought me.

(Distributed by United Feature Syndicate, Inc.)

## 'Ideal Wives' Scarce, Which Is A Blessing

By HAL BOYLE

NEW YORK (AP)—What is the ideal wife?

Publicly, the ordinary man may say she's the woman he married. Privately, he may have other ideas.

But after years of listening to men griping about women and their foibles, I've put together a kind of dream picture of the ideal wife. The ideal wife is one who—

Always knows where her husband absent-mindedly left the car keys.

Thinks it's a privilege to pick up his clothes from the floor.

Sees her own clothes—and they look as if they had been designed by Balenciaga or Dior.

Loves her husband's jokes, and gets a real kick out of hearing him tell them at parties.

Never phones him at the office to bother him with home emergencies.

Always has plenty of charcoal on hand when he suddenly decides to preside at a back yard cookout.

Keeps enough of her own cigarettes around so that she never has to borrow his, but can lend him some if his supply runs out.

Can fix a leaky faucet or balky television set without having to call in an expensive plumber or repair man.

Buys her husband the kind of neckties that win him compliments for his good taste from the girls in his office.

Has his boss convinced she's a good down-to-earth sensible girl—just the right mate to help a fellow climb the ladder of success in the business world.

Listens eagerly to her husband give his opinions on international affairs—and keeps her own views to herself.

Has the children so firmly in hand he can brag about them, and never has to discipline them himself.

Looks like Marilyn Monroe at the breakfast table, and never discusses family finitude then because she knows that's when her husband likes to skim through the newspaper.

Loves to cut the lawn in summer, and to shovel snow off the driveway in winter.

When the family bank account is busted, always manages to have a distant relative who conveniently passes away and leaves her some fresh money.

Well, that's the ideal wife—if you believed what some husbands say. But do you know what would happen to a man who met and married a girl like that?

In less than a year he'd be so bored with her he'd run away from home.

Next: The Ideal Husband.

## Junior Editors Quiz on SHOES

ANSWER: Shoes which held the dainty feet of highborn Chinese ladies up out of the mud were worn a long time ago, but these could hardly be said to have had high heels. The use of a heel on a shoe begins in the 14th century when it began to be popular to slip the low soft shoe of those times inside of a pair of wooden "pattens" (A) when walking outside. These pattens had very distinct heels which became higher as time went by. Sometimes the shoes were attached to the pattens. An example of this is shown (B); this Italian shoe looks very much like the "patten" shoes many women wear at present. In (C) the black part, although a patten or overshoe, looks very much like one of our shoes of today. It is said that the first Queen Elizabeth, who pioneered a fashion for wearing hand-knit silk stockings, was the first to introduce low cut slippers, which had high heels attached. These swiftly became fashionable. With the elegant clothes developed in the 17th century, Elizabeth's clumsy slipper was trimmed down and heightened (D) so that it looked very much like the fashionable high-heeled pump of our present time (E).

FOR YOU TO DO: While women were developing high heels for beauty's sake, men were beginning to use them for another reason. Do you doubt this? Look through a Western magazine and see if you can find out why.

(Paulette Jarvis of Redwood City, Calif., wins \$10 for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

**STATE FAIR PLUM**—A full size model of the Telstar satellite which was launched into orbit in July will be a feature of the new Telephone Exhibit at the 1962 State Fair of Texas, Oct. 6-21, in Dallas. The Telstar, shown here undergoing tests, is 34 inches in diameter and has 72 flat faces or facets. The Telephone Exhibit, to be completely re-designed for the 1962 Fair, will occupy a prime exhibit area in the World Exhibits Building.

### EVERYBODY'S HAPPY

## Telstar 'Smash' Across Atlantic

LONDON (AP)—Excited banner headlines and rave notices today hailed the first formal exchange of live television between the United States and Europe as "the greatest show on earth and in space."

An estimated 200 million viewers watched the two 20-minute programs relayed both ways over the Atlantic Monday by America's blue and silver Telstar satellite.

Only Yugoslavia of the Communist nations was officially included in the hookup, but many East Germans are believed to have tuned their sets to the West Berlin channel.

Reception in the 16 countries of the European network was loud and clear as an action-packed sequence from Wrigley Field, Chicago, brought baseball through space to open the show. The program actually reached three continents, for it could also be seen in Algeria.

In Rome, Telstar was hailed by the influential Il Messaggero as an "instrument of brotherhood."

The Vatican radio said the communication satellite "menaces no

one, carries no potentiality for destruction, but means instead union and comprehension."

A dissenting note came from Moscow radio, which said President Kennedy used the transatlantic hookup to further the "same cold war spirit as before."

The shots of Chicago Cubs-Philadelphia baseball game were described in Britain as one of the highlights of the American show. But the televising of President Kennedy's news conference was seen as foreshadowing the greatest advance in international understanding.

"The coming of worldwide television will put a still greater premium on the clarity with which ministers and others can present themselves," said the British newspaper the Guardian.

With the banner headline "Wonderful Telstar—Biggest Ever TV Triumph," the 4.5-million circulation London Daily Mirror described the exchange as "the most fabulous TV spectacular of all time."

"The American program was momentous, exciting, it was history being made—once in a lifetime moment as thrilling as the first transatlantic flight. This was tingling television."

The Daily Sketch called it the greatest show on earth—and in space.

Said the Daily Express: "The Western world shrank to the size of a television screen last night."

In Sweden, the liberal Dagbladet said millions of viewers "got a clear demonstration that satellites can be used for peaceful purposes. For the first time a real world theater has been created."

"An enormous success," enthused Norway's Aftenposten. "A fantastic experience."

"A TV-historic day!" exclaimed a headline in Denmark's Berlingske Tidende.

### Kremlin Line Not Needed

WASHINGTON (AP)—President Kennedy has no plans to add a direct Kremlin line to the White House switchboard.

It wouldn't do much good, he intimated in his news conference Monday.

A questioner had asked whether Kennedy was moving to establish such a tie-line for use in an emergency.

"I have not done that, no," he replied. He said the problem between the United States and the Soviet Union has not been one of communications, but of views.

"We understand each other, but we differ," he said.

## Writers Relay 'Open Letter' To Premier

**EDITOR'S NOTE**—Paul Miller, president of the Gannett Newspapers, and Walker Stone, editor-in-chief of the Scripps-Howard Newspapers, have been close friends from college days in Oklahoma, 35 years ago, and professional rivals since. Together with other representatives of the American Society of Newspaper Editors they interviewed Premier Khrushchev in Moscow on July 13. And together, they went to Berlin this week and joined in this letter to Premier Khrushchev.

**BERLIN** (AP)—An open letter from Berlin, July 24, 1962, to:

His Excellency, Nikita S. Khrushchev  
Chairman, Council of Ministers  
Moscow, U.S.S.R.

Dear Mr. Chairman:

A little more than a week ago, with a group of 10 other American newspapermen, we sat with you in the Kremlin and listened attentively to your views on how to solve the problem of Berlin in a way which you believed would contribute to the happiness and security of the German people and ease the tensions between the U.S.S.R. and the United States and its allies.

Neither of us had been in Berlin for several years. We did not know how Berliners felt. So, on coming here after leaving the cordial hospitality of the Soviet Union, it seemed logical to ask the people of Berlin, both East and West, whether they agreed with your ideas and welcomed your proposals.

This is a report to you, our host in Moscow, as well as to our newspaper readers in America, on what we heard—and saw.

First, let it be emphasized that we did not talk with Mayor Willy Brandt nor any officials of West Berlin. Nor did we talk with Herr Ulbricht or any officials of East Berlin or East Germany. But for the better part of two days we roamed the streets of both West and East Berlin, ranging both sides of the wall that has been erected to divide this great city, and talked with Germans willing to talk.

Using several different interpreters, we talked with people of such varied occupations as manual workers, clerks, students, lawyers, secretaries, businessmen, border guards, nurses, housewives and of course taxi drivers who seem to be the common denominator of public opinion in all countries—whatever the social system.

For these conversations we took along the official Soviet Union transcript of our Kremlin interview on July 13, and we read from that document the statements and suggestions you made. We told these people that we believe an accurate summary of your ideas and proposals can be expressed this way:

1. The last vestiges of the war which ended 17 years ago should be wiped out by a peace treaty.  
2. The Soviet Union proposes to sign such a treaty with the government of East Germany and you are hopeful that it will be signed or acquiesced to by the United States, Great Britain and France.  
3. Such a treaty should establish what is now known as West Berlin as what you call a "free city."

4. Such a solution must, in your view, include the withdrawal of U.S., U.K., British, and French troops from West Berlin.  
5. The people of Berlin would then feel more secure, more confident of the future, and be happier.

6. Unless all this occurs, West Berlin will "wither on the vine."

Mr. Chairman, we hope you will be unfettered in the opinions of the people with whom we talked. We were.

In America, actions of governments are dictated by judgments of the people.

When we read your statement that the Germans of Berlin should be "much more at ease" and enjoy prospects for further de-

velopment if a peace treaty were signed and Western troops withdrawn, we could hardly finish before the person being interviewed would exclaim "nein."

This means the same as the Russian "no."

When we asked if they would sleep easier if Allied troops withdrew from Berlin, they said:

"Nein. In 30 days Russia would gobble up Berlin."

When we asked if a peace treaty would reassure them, a West Berlin policeman at the wall said:

"You Americans of all people should know how little is the meaning of such promises."

Berliners, with the bitter firsthand experience of two dictators—Hitler's and Stalin's—behind them say they are not fooled by propositions for a Soviet-style "peace."

They say they can see for themselves what this "peace" means for their own relatives just a few blocks away in East Berlin. In their conversations with us they left no doubt that they fear the same fate if the American soldiers and their allies quit the city. These are no longer "occupation troops" in the minds of the Berliners with whom we talked but rather "our protectors."

We talked with a Lutheran nun, standing on the west side of the wall waving at a window a block away from which she hoped a friend on the east side was watching. We talked with a middle-aged housewife, reentering tearfully on a parapet, waving and hoping her aged mother would see her from an apartment half a block across the wall. These and all the others said "nein."

We talked with a woman more than 70 years old in East Berlin—and she was perhaps the most vehement of all in insisting that there must be no yielding, else all hope for her and Germany's remaining freedom be lost.

Mr. Chairman, we wonder if you have ever seen the wall? It is impossible to envisage it otherwise.

The wall takes many forms. The 25 miles between East and West Berlin is a continuous barricade of houses with bricked-in windows, garden walks with broken glass scattered on top, barbed wire, guarded stretches of canal where fleeing East-Berliners have been shot by East Berlin guards. For long stretches jagged barriers of iron and steel back up heavy masonry. Spotlights rake wide areas at night.

Let us particularly describe one section, that in the seedling district of northern East Berlin.

There, blocks of East German apartment buildings face west on a street dividing East and West Berlin. When residents saw that East Berlin was to be fenced in, some of them escaped by jumping from second and third story windows into mats held by West German firemen.

Those apartment houses then were ordered evacuated. For blocks, the windows of every building were sealed with bricks and concrete. Some persons desperately leaped from seven-story roofs. There are wreaths and markers where East Berliners crashed to their deaths on the sidewalks. Finally, barbed wire was strung on the roofs.

Truly, Mr. Chairman, you have to see it to believe it. We hope you will come and have a look.

**Father Of Mrs. Ben Weathers Dies Sunday**

**TRINITY**—Funeral services were to have been held at 2 p.m. Tuesday for Ira F. Barrett, who died here Sunday. Mr. Barrett was a former county commissioner. The funeral services were set for the First Baptist Church, with burial to be in the Burns Cemetery.

He is survived by one daughter, Mrs. Ben Weathers of Knapp, and three sons: W. B. of White Wright, A. B. of Phoenix, and Leslie Barrett.

## Texas Rice Business On Unstable Footing

**HOUSTON (AP)**—The Houston Post said today the entire Texas rice business faces large scale federal investigation.

The newspaper reported farmers involved in manipulation of acreage allotments in four Gulf Coast counties stand to lose \$370,000 or more this year.

Investigators checking in three counties have found enough evidence to warrant a thorough check of the handling of allotments in the accepted and legal manner of the past few years, the Post said. A continuing investigation would not be concerned with the actions of some Agricultural Stabilization and Conservation Service officials reportedly involved in acreage shuffles from county to county, the Post said.

It reported the probe instead would concern itself with deals made by farmers who acquired extra acres under common practices.

Farmers may assign rice allotments to other growers but they must retain a token interest in the crop.

The Post said investigators have found some farmers who ostensibly held allotments have been out of the rice business for several years. It added that outright sales of allotments, violating federal crop control regulations, have been discovered.

Farmers stand to lose at least \$370,000 because of penalties levied on illegal planting, Durham wrote. The farmer must either

plow up the extra grain and lose it completely or he can take alternate penalties, which are almost as tough financially.

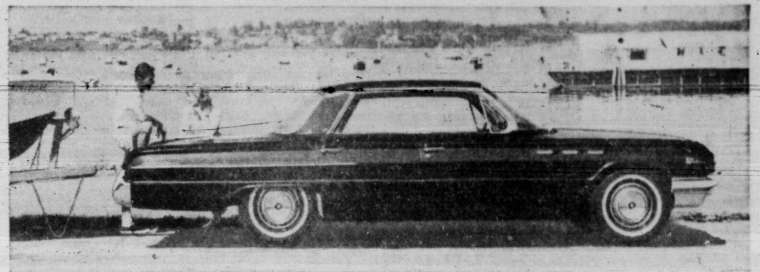

A minimum of 3,000 acres is

believed to be involved in Matagorda, Brazoria, Waller and Jackson counties.

The Post said Agriculture Department officials feel all federal

employees involved in the acreage shuffle have already been removed from office, but added that some ASCS committeemen may have acquired some of the ques-

tioned acreage. The paper said these men will be removed from office by state ASCS officials if they are involved.

**Vacation in a beautiful Buick LeSabre this summer (the rates are surprisingly low!). Most of the things you'd like in your next new car—at a price you'd like to pay—you'll probably find only in the spiffy Buick LeSabre. Here's just a partial rundown of what LeSabre offers. Buick quality, room, ride and extra re-sale value. The high performing Buick Wildcat V-8. The greater road stability of Buick's engine-forward Advanced Thrust engineering (it also means a nearly flat front floor!). Buick's jolt-free automatic Turbine Drive. Buick's famed finned aluminum front brakes. All standard—and LeSabre's priced close to many "low price" car models. Why not start your LeSabre vacation right now? ## Water heater need replacing?

### INSTALL A FLAMELESS

## ELECTRIC WATER HEATER

### AND ENJOY ALL THESE ADVANTAGES

#### SAFE—NO FLAME

Perfectly safe in any location, an electric water heater has no flame to blow out accidentally, no fuel to leak, no pilot light or flue to worry about. And the outside of an electric water heater is always cool to the touch.

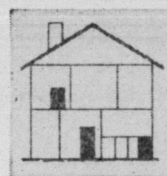

#### EFFICIENT

Electric heating elements are in the water, inside the tank. The tank is completely insulated, even on the bottom, to prevent heat loss. And no heat is wasted up a flue. You get hotter water faster and it stays hot longer.

#### LONG LIFE

With an electric water heater, the tank bottom is not subjected to the corrosive action of flames. There are no valves to stick, no burner to adjust. An electric water heater assures you many years of trouble-free service.

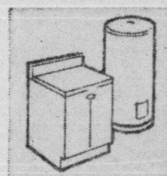

#### INSTALLS ANYWHERE

Because an electric water heater requires no flue, it can be installed anywhere in the house, close to the point of greatest use. This saves long pipe runs and consequent waste of heat due to water cooling in the pipes.

#### SUNSHINE CLEAN

With an electric water heater, there are no by-products of combustion to soil walls or ceilings. No unpleasant fumes. No flue to accumulate soot. An electric water heater provides the cleanest method known for heating water.

#### MODERN—COMPACT

Choose from round or table top models at your plumber's or appliance dealer's. Compact round models require only four square feet of floor space. Table top models provide additional counter space in kitchen or laundry.

**NEW LOW RATE FOR ELECTRIC WATER HEATING**

Only 11¢ per kilowatt-hour for all electricity normally used for water heating by the average family. Call our office for full information.

## \$50 INSTALLATION CERTIFICATE

OFFER EXPIRES AUGUST 31

Good for \$50 on the retail purchase and installation of a new electric 40-gallon (or larger) glass-lined quick recovery water heater, replacing your present water heater. Offer good for installation in any home served by Texas Electric Service Company. Certificate available now and through August 31 only, from your appliance dealer, plumber or electrical contractor. See about it soon!

**TEXAS ELECTRIC SERVICE COMPANY**
