NEWS BY THE MINISTERIAL ALLIANCE

The Vote For Submission

As we understand the ballot put out was in no wise authorized by the state; it has no authority, is in no wise mandatory. The fact is it has very little significance of any sort. The dries were advised to ignore it, and this many of the drier of the dries did. In one box it is figured out in our own town that many did not vote at all. I guess some who voted for submission were like the lady who explained her vote in a class Sunday. She is known to be bone dry and militant on that subject; but she voted for submission for the following reasons: she felt this was the only way to ever settle the question, that there had been a constant contention that this was put over during the time the boys were in France, and they ought to have a right to vote. "I believe," she went on to explain, "that our nation is dry and when it comes down to voting to bring back the liquor traffic, after all the contention is over in obtaining that right, they will be mighty slow about voting it back. Then I do not believe our over-sea boys were then or are now wet." She may be right and without doubt there are a host of people who are tired of all this bickering and challenging and want to have it over once for all.

Many voted against submission, not that they believe the nation wet or that we run any very great peril in the traffic being voted back on us; but because the leaders, the militant dries, the churches, the ministry, all of these, dislike to have to fight this all over. It is well to remember that the wets are bringing this back on us. Of course, there are some dries who are really deceived, who think, have been made to think, have been kidded into thinking, a better way could be found. But the beginning of all of this is the wets. It is unpleasant to have to go through all this again.

Here is the major hazard of it all; and that is, every conceivable sort of scheme will be brought to bear by the wet leaders to put it over, to deceive the people, to misguide public sentiment, to keep the facts from the people. It must be a dirty fight.

And then we need something else so much worse than we need booze, in these days when more will go to bed hungry than ever in our history in our own U. S. A. A thing thought to be next to impossible in a land of abundance, with distress keen and deep and real, some are so short sighted as to believe all our needs would be settled, all our woes vanquished, all our hunger satisfied, if all we could get booze to flow freely. That just one thing now hinders the coming of the millennium, and that is, the repeal of the 18th amendment. We are so surprised that a plea so exquisitely silly could force itself upon a great people.

METHODIST CHURCH

Of course this is a busy time of the year. Many are out early and stay late. But why should it not be a restful change to attend public worship. That is really the sole of a vacation, a change. Come out and get with the crowd and forget some worries, unless you have come to the place where you really relish the nectar of worries; some seem to come to that point. Then enjoy the music; it has power to charm. Again, hear the sermon. The pastor has been set apart to study and pray, to prepare and interpretate. The fact is, he is the only member of society bearing that relation. He doesn't claim any authority; he is not in his place to be heard by church orders, he simply comes as a man set apart to make known to men the ways of life, and as such he stands or falls. To be sure, he labors not alone; he has a partner, he believes he receives Divine help. We make the following offering for next Sunday. Church school at 9:45 a. m. Public worship two periods, namely 11 a. m. and 8:15 p. m. At each of these services you will enjoy the music trained under the efficient direction of Miss Ruby Neufeld, and you might enjoy the sermon. It wouldn't hurt to take a chance at it. The subject of the morning sermon will be, "Gazing on Open Range", and for the evening, "Off Sides in a Crisis".

The young people have a large gathering at 7:30 in the evening. If you have not met with them you will be greatly surprised to see what they are doing.

CHRISTIAN SCIENCE

"TRUTH" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, July 24. The golden text was from Isaiah 45:16. "He who blesseth himself in the earth shall bless himself in the God of truth; and he that sweareth in the earth shall swear by the God of truth."

Included in the passages read from the Bible was the following from Deuteronomy 32:4: "He is the Rock, his work is perfect; for all his ways are judgment: a God of truth and without iniquity, just and right is he." The service also embraced citations from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy, among which were the following from pages 297 and 272: "A belief in Truth is better than a belief in error, but no mortal testimony is founded on the divine rock. . . . The spiritual sense of truth must be gained before Truth can be understood. This sense is assimilated only as we are honest, unselfish, loving, and meek."

THANK YOU!

I wish to thank all of my friends in Ochiltree County, who supported and voted for me last Saturday. Your act of honoring me with reelection to the office of County Attorney is sincerely appreciated. In the administration of this office during the next term, it shall be my endeavor to serve you in such a manner as to deserve that honor you conferred upon me.

Those who voted against me are not condemned by me but I shall work for their interests the same as for all citizens of this county, irrespective of political following.

I trust that all of us working together may see a splendid enforcement of law in this county and with your assistance, I assure you of my efforts to make same possible.

—Max W. Boyer.

The store of subsoil moisture on which crops largely subsist during drouth periods is not normally de- creased by anything save absorp- tion through the roots of growing plants. Consequently the primary object of cultivation is to destroy weed growth in order that the grow- ing crop may have full benefit of existing moisture supplies. Well sub- stantiated experience has proved it is much more effective to let a row crop stand uncultivated if entirely free of weeds, saving middle dirt and gasoline as long as the drouth may last to be used for an attack on weeds which will appear soon after the first effective rain.

But, of course, it may be added, if weeds are present the only thing to do is get rid of them, drouth or no drouth.

Take Decided Stand

American Legion Auxiliary, Nation's Largest Womens Body, Is a Patriotic Group

A strong stand on questions of vital national importance will be taken by the women of the Ameri- can Legion this year, Mrs. Free- man Garrett, president of Pierce Johnson Unit of the Auxiliary here, predicted as the dates of the an- nual conventions of the organiza- tion drew near. The majority of the state conventions will be held dur- ing July or early August and the na- tional convention in Portland, Ore- gon, September 12 to 15.

The maintenance of an adequate national defense, the combatting of radicalism, the care of the dis- abled veterans and the welfare of the wid- ows and fatherless children of vet- erans will be some of the important questions coming before Auxiliary conventions, Mrs. Garrett said. Ac- tivities for the relief of the unem- ployed and the improvement of eco- nomic conditions will also receive major attention, she predicted.

"The Auxiliary conventions are, without doubt, the most important conventions of women being held in the United States this year", stated Mrs. Garrett. "The Auxiliary is the largest women's organization of its kind in the country, having approxi- mately 400,000 members, drawn from all groups of the country's citizen- ship. The conventions will decide the policies and outline the activi- ties which this vast body of women will follow during the coming twelve months."

"The Auxiliary's recognized lead- ership in patriotic work among the women of the country gives the con- ventions added importance. Through the organization's wide influence, the decisions of the conventions will guide indirectly the endeavors of a large section of American woman- hood during this critical period in our national life. I am sure that the women of America can look to the Auxiliary conventions this year for courageous, clear-cut guidance in affairs of patriotic moments."

She Reduced 38 Pounds The Safe Way

"I have been taking Kruschen Salts for 4 months and I think they are wonderful. I am 32 years old and 5 ft. 2 in. tall. I was very fat. I weighed 165 lbs. and now I weigh 127 lbs. and feel fine. If I let up taking the Salts one morning I feel lazy and heavy." Mrs. Florence Lofton, Boston.

This is just one of hundreds of letters we get every month—Kruschen not only causes you to lose fat but while you are losing it you gain in health—in vivaciousness—you lose fat where fat is most prominent and at the same time keep stomach, liver, kidneys and bowels functioning naturally.

Any drugstore in the world will sell you a jar of Kruschen for a trifling sum—take one-half teaspoonful in a glass of hot water every morning—go light on fatty meats, potatoes and sweets. But for your health's sake demand and get Kruschen Salts—imitations are numerous. It's the little daily dose that does it.

McMILLIN NOTES

Earl Waide, Reporter

There were fifty-eight members at Sunday school last Sunday. All arrangements were made for the annual Sunday school picnic to be held on August 5. The picnic will be at Range, Okla., this year and we are hoping to have all of our members and all those who have been members of McMILLIN Sunday school with us. Arrangements have been made for a Ladies baseball game in the morning, while the men will have their regular game in the afternoon. The married women will play the single girls in the morning game, while the men do the yelling, and the married men and the single men have the afternoon for their contest. Mrs. S. F. Waide is pep leader for both games and has promised plenty of noise. There will be sack races, horse shoe pitching and numerous other contests, also a musical program in the afternoon.

Mr. and Mrs. Gilman Flowers visited in the King home Sunday afternoon.

The True Blue Sunday School class motored to the Canadian canyon Friday evening and enjoyed a supper and weiner roast. After the meal had disappeared the crowd sat around the camp fire and enjoyed the music furnished by the Koehn sisters. Arthur Swink won the hot dog eating marathon (the number eaten will only be published in the Believe It or Not Contest), and Mr. Urban was voted the best all around eater.

Doyce Conley attended the Anvil Park Rodeo at Canadian last Friday and Saturday.

Mr. and Mrs. Arthur Swink visited in the W. E. Dear home Sunday.

Preaching services were held at McMILLIN Sunday night with one of the neighborhood boys delivering the sermon. Ward Redus is spending the summer at home and consented to preach to us a few times while he is here. Ward is certainly improving in his preaching and we look for him to make a fine pastor some day. But he will always be just one of the boys to McMILLIN and we want him to be with us as much as possible.

Miss Kathleen Cook has been visiting in the Audie Conley home the past week.

Mr. and Mrs. P. W. Wermake called in the Tarbox home Sunday evening.

Mrs. S. F. Waide and Mrs. Earl Waide and son, Eugene, visited Mrs. Forrest Forgy last Thursday afternoon.

The rain that we have been needing for several weeks was very welcome when it came Monday night. Some parts of the community received as much as two inches while in places it was only an inch and a half, but it was general over the entire community. The feed crops were beginning to burn for lack of moisture, and the wheat land that had not been plowed was getting so hard that it was almost impossible to plow.

Mr. and Mrs. O. B. Tindell and family are visiting friends and relatives in Kansas, this week.

Georgia June Taylor is ill with the measles this week.

FUNERAL SERVICES FOR J. T. WRIGHT HELD SUN.

James Trusson Wright was born to Mr. and Mrs. B. F. Wright February 28, 1874, in Fayette County, Ala. The family moved to Texas when he was four years of age.

At the age of twenty he gave his heart to Christ and united with a Baptist church. At the time of his death he was a member of the First Baptist church at Edinburg.

He was married to Miss Thresa Marie Rodenberg November 15, 1902, in Caldwell county, Texas. To this union were born eleven children, all of whom are living.

He settled on a homestead in Beaver county, Okla., in 1902, moving to this county about 1922 and then to Edinburg in 1926 where he and Mrs. Wright spent most of their time until his death, July 21, 1932, at Perryton.

There is left to mourn his loss, his wife; six daughters, Mrs. Ota Mae Buller and Mrs. Beulah Jantz of Turpin, Okla., Josie Thress, Perryton, Bell Marie, Nelda Rose, and Carmetta, of Edinburg; five sons, Ray, Leonard T. and Gordon of Perryton, Haskel and Weldon Eugene of Edinburg. The grandchildren are: Lenis Fern Wright and Nelda Rose Buller. The only surviving brother or sister is Mrs. Sooinie PUNCH of Bloomfield, Mo. All of these loved ones were present at the funeral.

The impressive services were held from the Perryton Baptist church

CURABILITY OF CANCER

Notwithstanding much opinion to the contrary, cancer is to a considerable extent at present a curable disease.

The cure of cancer in general depends either upon its removal from the body or its destruction in the body. Surgery accomplishes the former; irradiation by x-rays and radium produces the latter.

The surgical treatment of cancer has established a brilliant record of achievement. It has yielded innumerable cures and has saved many lives.

When a cancer is within easy reach and is quite localized, its direct removal by surgery is a very effective method of obtaining a cure. When a cancer is deep-seated, or is widely spread throughout the body, its removal is not a simple procedure and the effectiveness of surgery is accordingly limited.

The employment of radium and x-rays in the treatment of cancer marks a new era in the practice of medicine. Here for the first time an invisible agent, operating at a distance, has been used to accomplish the actual destruction of abnormal growths in the body.

The successful results of radiation treatment for cancer depends upon the ability of the rays to destroy cancer cells without injuring the surrounding tissues of the body.

Many cancers, of both the superficial and internal varieties, are cured by the application of radium and x-rays.

The resistance of certain cancers to the destructive influence of radiation limits to some extent, however, the effectiveness of this agency.

In some cases the combined use of surgery and radium or x-rays, or the employment of all three, is necessary to obtain a cure.

In every case of cancer, the early application of correct treatment is absolutely essential for a cure. Time is the ruling factor; and generally renders the decision on the outcome of the disease.

THE DEAD NEWSPAPER

The Farnhamville Index, which has been very successfully published at Farnhamville for the past 31 years, closed its daisy toes to the setting sun last week; in other words, the Farnhamville paper DIED. In his farewell address, the editor of the Farnhamville Index gave a two column write-up, telling the whys and wherefores of a successful newspaper, what it means to a town, and why it should be patronized more than any other institution, and then closed with the following climax:

"As long as fully half of the business places in this town carry two ads; as long as your city officials see fit to buy their meter books and other printer matter away from home, from firms who are not expected to print ten lines free for each paid line; as long as 90 per cent of the checks written in this community are written on blanks printed by foreign houses; as long as your school is allowed to buy commencement invitations and programs, etc., away from home; as long as the merchants refuse to make national advertising by paying half the cost; as long as nearly everyone does without letterheads, statements and all forms of printed matter; as long as you and you and YOU buy Christmas cards from the ten cent store or the ladies' aid or some peddler; as long as the reporters have to fight for every single bit of news they pry out of most of you—just that long will the publication of this paper continue."

At Coaching School

Clifford Keith, New Perryton Athletic Coach Is Attending School At Lubbock

Lubbock, Tex., July 14.—Clifford Keith, Perryton coach is here with 339 coaches from 24 states, attending the second annual Texas Tech coaching school, claimed to be the largest school in the nation again this year. The school opened July 11 and will continue until the 22nd.

Instructors for the school are ace men in college sports in the entire nation. They are: Glen (Pop) Warner, Tiny Thornhill and Chas. Winterburn, Stanford; Heartley (Hunk) Anderson and Marchmont Schwartz, Notre Dame; Dr. Forrest (Phog) Allen, University of Kansas; Jack Meagher, Rice Institute; Clyde Littlefield, Texas University; and Rip Miller, U. S. Naval Academy.

With an increase of 38 coaches or more than 12 per cent, over the enrollment of 321 last year, which likewise set a record in the United States, the Tech school is the headliner in the entire nation again. A number of other coaches are expected here in the next few days to send the total on higher.

Football, basketball, track and the treatment of injuries are being taught during the daily schedules that begin at 9 a. m. and close at 8:30 p. m. with recesses for lunch and dinner.

Coaches at the school are being entertained with banquets, barbecues, dances, swimming parties, bowling contests, golf tournament, watermelon feast and other features, each evening during the school through the courtesy of a number of Lubbock organizations cooperating with Pete Cawthon and Dutchy Smith, Tech coaches, and directors of the school.

Texas ranks first with 238 coaches enrolled. Oklahoma with 33 ranks second, Kansas with 20, third; New Mexico with 10, fourth; Louisiana and Arkansas with 7 each tie for fifth; then comes Mississippi and Nebraska with 4 each; Tennessee and Georgia with 3 each; California, Kentucky, Arizona, Colorado, Iowa, Pennsylvania and Missouri with 2 each; and Ohio, South Carolina, Wyoming, Montana and New Jersey with 1 each.

Among the 529 coaches here are more than 75 college and university coaches. Among some of the more popular coaches here, in addition to the instructors, are the following: Clipper Smith, Santa Clara University, Santa Clara, Calif.; Bill Hargis, University of Kansas, Lawrence, Kans.; Murel Nemecek and Edwin Kubale, Centre College, Danville, Ky.; Potts Anderson and Les Cranfels, Simmons University, Abilene, Tex.; Chet Benefield, Tulsa University, Tulsa, Okla.; Chas. Erickson, Ottawa University, Ottawa, Kana.; R. S. George, Jefferson Uni-

versity, Dallas, Texas; Lou Hertenberger, Rice Institute, Houston, Texas; Barton Koch, Baylor University, Waco, Texas; Vess Godley and Sage McLean, A. & M. College, Magnolia, Ark.

Among the high school coaches are several that have won Texas championships or who have been strong contenders for state honors in the past few years.

Dewey Mayhew, coach of the Abilene Eagles that took the 1931 Texas high school football contest, is enrolled in the school, Lil Dimmitt, Beaumont coach, who lost to Abilene last December, is expected but has not yet arrived. Henry Frnka, Greenville, who lost to Abilene in the semi-finals, and John I. Pierce, Corsicana, who was defeated by Beaumont in the semi-finals, are both here. Weldon B. Chapman, Lubbock coach, who took his team to the quarter finals, losing to Abilene, after playing four games in a little more than a week and a half, is enrolled.

Paul L. Tyson, who led the Waco high school team to several state championships, is enrolled in the school, as is P. E. Shotwell, now of Breckenridge, who led the Abilene Eagles to a state championship a few years ago at Abilene.

R. L. ROGERS THANKS VOTERS FOR SUPPORT

Ochiltree county election officials are to be commended for their speedy work in the primary election held last Saturday. With all boxes reported except one, the results in Ochiltree race for Representative were known Sunday morning. It may not be exactly in order at this time, but regardless of the result when the other counties in the district are reported, I want to express my sincere and very keen appreciation of the remarkable endorsement given me by the voters of Ochiltree county. The feeling of gratification is blended with that of a sense of obligation and responsibility, that I must strive to merit, as nearly as I can, the confidence thus pledged. Such an endorsement by one's own home folks ought to be a great incentive to keeping faith and give strength to withstand temptation to wrong doing.

With this expression of gratitude, I include a plea that all who have so greatly aided my candidacy thus far, continue through to the run-off, and I hope that many who have only given me their vote in the first primary, will join with the others, to make victory sure in the second election. Being the "small town" candidate, with my greatest strength

th in the counties of smaller population; the small towns and country folks, makes the run-off a hard proposition. In the past, it is in these smaller counties that the run-off is neglected and the stronger counties with the larger towns elect their man. This happened four years ago when Judge E. C. Gray of Higgins was defeated by the young Berger lawyer, (who quit the job).

If the rural and small town people will wake up once, and join the leaders who have shown the way, it may be that some changes can be brought about. I would not appeal to prejudice, but I do say, that rural and small town populations have not been adequately or fairly represented. Here is our chance.

Thanks again,
B. L. Rogers.

YEARY THANKS VOTERS

I wish to express my sincere thanks to my friends and the voters of Commissioners Precinct No. 2

for their loyal support in the primary last Saturday. In the past I have made every possible effort to render the best of service and shall continue to do so as long as I remain your Commissioner. I feel that the experience of past years in this office has fitted me to give you better service in the future. I again thank you for your support.

Very truly,
W. G. Yeary

Sinclair "Bug Ranch"

Visitors Amused With Sights At Sinclair "Fly Farm" At East Chicago

Visitors to the Sinclair Refining company's "Fly Farm" at East Chicago, Indiana, are always amused by the "Bedbug Ranch" which the company operates as an adjunct to its insecticide testing laboratory. For Sinclair not only raises one million flies each year to test and maintain the killing power of Sinclair P. D. insect spray, it also raises bedbugs, cockroaches and weevils for special experimental purposes in Sinclair P. D. manufacture.

No mother ever watched more carefully over her new-born infant than do Sinclair entomologists over their baby bedbugs. Bedbug daisies isn't left to chance. Every comfort that any normal bedbug would want is generously supplied.

In the Sinclair laboratories are large, flat pans of kerosene—broader than an ordinary washbasin, each supporting in its center a rack of glass test tubes, plugged with cotton and containing a few pieces of crumpled blotting paper. These racks with their test tubes are veritable little castles surrounded by moats full of kerosene but, alas, without a drawbridge. The purpose of these moats is precisely opposite that of the moats built by the knights of old, for whereas they were built to keep outsiders out, these were built to keep the bedbugs in. No normal bedbug loves kerosene so he remains snugly bedded down in his bit of blotting paper.

At lunch time, however, life on kerosene island becomes more interesting. The Sinclair entomologist picks up a test tube containing a family of bedbugs, pulls out the cotton plug and applies the open end to a shaved spot on the side of a guinea pig. In a few seconds, the inmates of the tube, scenting a meal, scramble out of their blotter beds and help themselves. Bill, the guinea pig, doesn't seem to mind. After lunch, the insects cast off from the guinea pig and scramble back into their blotters.

Bug business? Yes—and no, for the insects are born martyrs to a worthy cause. Each and every newly batch of Sinclair P. D. insect spray must kill 1,000 flies under conditions more difficult than those in your own home and to that end Sinclair tests each batch of insecticide it manufactures by pitting the bugs "on the spot". The bedbugs, roaches, and weevils are also used in special experimental purposes in the manufacture of a special unscented grade of Sinclair P. D. sold in bulk form to hotels, restaurants, warehouses, flour mills and dairies. This is called "P. D. Industrial Spray".

Mrs. C. E. Woods and son, Jerome, were guests with relatives in Liberal, Kans., Saturday and Sunday.

Miss Kathryn Shearer, Canyon, spent the week-end with home folks.

Mrs. Lonnie Mackie, Edmond, Okla., is visiting this week in the home of her sister, Mrs. F. P. Abney.

A. W. Blue left Saturday to spend several days with Mrs. Blue at Wellington, Kans.

Miss Mary Hall came in Monday from Fairfield for an extended visit in the home of her friend, Mrs.

Carter Penn at the Herald office.

NOW IS TIME FOR ACTION

In a recent editorial Arthur Brisbane said:

"The financial powers are also the government since they control it. Our government is a financial enterprise controlled by financiers."

A strong indictment against the President, against Congress, and against the whole political body.

To determine the truth of the above indictment, the writer has searched the records of the hearings before the Agricultural Committee of the House, the Financial Committee of the Senate and other committees and from the evidence there disclosed there is only one conclusion to be drawn, viz: the Government is not controlled by financiers, but by a band of robbers whose dastardly deeds are the darkest that ever stained the pages of American history.

In a Sunday School quarterly under the heading, "Talk These Over", we find this question:

Talley Thanks Voters
Present Sheriff and Tax Collector Expresses Appreciation For Support in Primary

I sure want to thank the friends that stayed with me in this election. I have always tried to merit your trust in me and will always do so. There has never been one dirty dollar of graft come to my hands or to the hands of any that represent me. I am under no obligations to anyone except through friendship and your trust.

In times like these, the duties of office are lots harder to take care of than when taxes can be paid. We have about three times as much work as when taxes are paid. During July, we had to make up the annual tax collector's report, leaving the work of the campaign to my friends and I sure do appreciate what they have done for me.

This race is not over. Although I got 270 more votes than my closest opponent and only 57 less than all three of them together, I still am forced to run it over, so will have to ask you to continue to work for me in the next primary which is on August 27. Don't forget it!

Mr. Littleton has seen fit to throw some dirty politics by a sheet scattered last Friday morning I haven't much to say in reply but as all of you know, I have the tax collector's office and have to take care of the tax books, car and truck registrations and all court papers for thirty miles square. My salary for Sheriff is \$83.33 a month. This work, he throws at my door, is and should be mostly city work. He has been on the city force. There has been two to four of them and him one of them, also a constable's force of two, making six in all.

Why try to ride me with these other officers work when we have more than we can do? We have to hire extra help. I hope there won't be any more of that stuff. I want to thank Mr. Orrill for the way he acted as he ran the race as I have tried by saying nothing, the only way it should be.

If I can't be elected without slinging mud at my opponents, I don't want it. I am running on my record. I can catch every bookkeeper in town if the people will help instead of protecting them. Your grand jury tries to get information. If you want it stopped, so do I, why not

"If truth and right can not be secured by peaceful means, such as by legislation, are we then justified in using means of violence to obtain truth, justice and right?"

On legislation, Congress has been "weighed in the balance and found wanting."

Our only recourse now to obtain truth, justice and right, and to re-establish Constitutional Government is through the courts.

Will the courts fail us? To date our high judiciary has never been controlled by the "Government of Organized Greed."

If the courts should fail? Will our land then be fertilized by "human gore and rank growths of deadly weeds poison the air and stifle into premature decay every plant conducive to health and happiness?"

God forbid! Your action today is the answer.

L. Gough, President Farmers' Protective League of America, Amarillo, Texas.

get right and do it. Give me twenty men that want to work and it can be done. Unless the people will help, it can't be done. It is not me that fails to do my duty, it is you people. Get right yourselves and let me show you what can be done. Don't forget the next primary, August 27. Vote your choice. I thank you. —J. S. Talley 27-11-c

HOLLYWOOD BLUSHES IN MOVIE PICTURE

Hollywood is blushing; Hollywood is chuckling.

The Film Capitol, which has filmed other's mistakes and foibles, has turned the penetrating photographer's lens on itself for the first time in movie history. And Hollywood is plenty blushing.

The Ellis Theatre next Sunday will poke a merry finger at the screen colony with the showing of RKO Pathe's "What Price Hollywood", starring Constance Bennett. The film peeps through the transoms of sound stages; lingers in stars' boudoirs; exposes a few private lives and takes the beholder on a merry whirl of sightseeing.

The picture is considered good natured fun—one reason why Hollywood itself is laughing over it. The various glimpses of picture making show Miss Bennett's progress from extra to star. All phases of filming from the taking of romantic close-ups to outdoor location scenes are authentically depicted. Lowell Sherman plays the director who guides the heroine from atmosphere to stardom.

To the players this picture with-in a picture was just part of the work, but to the technicians, suddenly become actors and actresses, it was epochal opportunity to step from their behind-the-scenes roles to brief moments of glory.

Nell Hamilton plays the romantic lead opposite Miss Bennett. Gregory Ratoff portrays a film producer. George Cukor directed from the story by Adela Rogers St. John.
