### Norwood Lions Install Roof on School

Samnorwood Lions are installing a new roof on the elementary school, which will be completed before classes begin.

The Lions are co-ordinating the work and are asking all men of the community to donate one day's work, according to Rudie Tate, president.

Jim Ray is project chairman. The roof is being installed over the old one. Cost of the material is borne by the school. "We are using about 15 room-climbing men, plus enough on the ground to total 40 or 50," said the president.

This work is the Samnorwood Club's part in the "Project for the President" community service program, initiated by the president of Lions International.

## Classes Begin Monday for County Students

School bells will ring Monday, Aug. 24, for approximately 950 Collingsworth students in four districts, one week earlier than in the past.

Not only is the term starting earlier, but every morning through the school year, students will begin classes from 30 to 45 minutes earlier than they have in the past.

This is due to the changeover to seven class periods per day, explained Wellington Superintendent J. L. Harper. Classes here will begin at 8:15 a.m. There will be four periods in the morning, and three in the afternoon. School

will be out 15 minutes earlier than in the past, dismissing at 3:30 p.m.

Mr. Harper said between 625 and 650 students are expected to enroll.

The superintendent reminded of the enrollment schedule:

Thursday, 9:00 a.m. to 12:00 noon: seniors, first, second and eighth grades.

Thursday, 1:00 to 3:30 p.m.: juniors, third, fourth and seventh grades.

Friday, 9:00 a.m. to 12:00 noon: fifth, sixth and tenth grades.

Friday, 1:00 to 3:30 p.m.: ninth grade.

Principal Joe Lennon at Dod-

son Elementary School said classes will begin at 8:30 a.m. Enrollment will be on the opening day, Monday.

Teacher in-service training began Wednesday and will continue through this week.

Approximately 50 students are due to enroll.

Classes at Samnorwood will begin at 8:15 a.m., according to Supt. Robert Dwight, and enrollment will be on the opening day, with about 165 due to attend.

Supt. James Stavenhagen of Quail has set 8:25 a.m. as the opening hour. Enrollment, to be on Monday also, is expected to be approximately 105.

### Services Held Friday for Mrs McKinney

Mrs. W. T. McKinney of 1108 11th Street died in St. Joseph's Hospital at 5:15 p.m. Wednesday, Aug. 12. After a long period of ill health, she broke one hip in a fall earlier this summer and failed to make a recovery.

Mrs. McKinney had lived in Wellington 27 years, coming from Comanche, Okla.

The former Lillian Jo Stanfield, she was born Aug. 23, 1900 in Wise County. She and Mr. McKinney were married Jan. 5, 1943, in Fort Worth.

A Baptist since early life, she was active in First Baptist Church as long as she was able.

Funeral services were conducted at 2:00 p.m. Friday, Aug. 14, at First Baptist Church with the Rev. Roy Collins, pastor, and the Rev. J. E. Young, pastor of Fundamental Baptist Church, officiating. Burial was in Fairview Cemetery under the direction of Kelso Funeral Home.

Pallbearers were John Pendergraft, Jim Martin, Harold Keller, Dick Sweat, Paul Keys, and Billy Grissom. Honorary pallbearers were grandsons and included Curtis Wauer, Randy McKinney, Ricky Jones, Tom

### Thirty Work Out

## More Rockets Due to Bolster Team Depth After School Opens

Thirty boys have reported for Skyrocket football workouts, and more are expected to report when school starts, Head Coach Thayne Amonett reported Tuesday, Aug. 18.

The boys were issued shoes Wednesday, Aug. 12, and contact work started Monday.

Two scrimmages are lined up, one with Clarendon here next week and another with Paducah there the following week.

Working with the boys, besides Coach Amonett, are Coach Jim Forrester, Coach Dick Hamilton, and B Team

Coach Don Lacy, who was transferred to the athletic department from vo ag. He was on the coaching staff several years ago.

As it now stands, the Skyrockets are lacking in depth. Tuesday, only two offensive starters were back from last year, Teddy McLain and Mark Killian, who was shifted to the backfield from last year's guard position. Reporting on defense are these two and Bobby Saied and Ted Harris.

"We have some young boys who have got to come through for us to have a good ball club. That means some of the sophomores will have to do a good job for us," said Coach Amonett.

"We are expecting a lot of help from boys like Ted Harris, Billy Henard, Charles Taylor, David Hodges, Jackie Pendleton, Barry Long Keith Martin, Lindy Norman, Denny Carter, Gary Wright, Bruce Oney, Steve Hunter and Kim Wauer," he continued.

Coaches have indicated they are well satisfied with the physical condition of the boys when they reported for workouts.

No concessions are being given due to the near 100-degree weather, although the more strenuous parts of the two-a-

### Nicky Watts Nominee

## Leigh Nall Chosen Greenbelt Bowl Queen

Wellington's Leigh Nall was crowned Queen of the Greenbelt Bowl Football Classic in Childress Saturday night, Aug. 15.

She was the nominee of Nicky Watts, who played in the Greenbelt Bowl game, and she was selected from a field of 40 contestants.

Leigh received her crown, a large trophy, a Greenbelt Bowl charm, and a bouquet of red carnations.

She, with other candidates, competed in swim suit and in a formal. Judges visited with

the girls during the morning session and an afternoon tea.

The daughter of Mr. and Mrs. Richard Nall, the new Greenbelt Bowl Queen will be a junior in Wellington High School this year.

Honors have come to her before.

As a freshman, she was chosen Miss Wellington.

Last year, while a sophomore she was chosen Wellington Future Farmers of America Sweetheart and Greenbelt District Sweetheart.

### Services Held Here Monday for H. E. Sherwood

A former Wellington man, Henry Elswick Sherwood, 90, of Iraan, died at 8:00 a.m. Saturday, Aug. 15, in a Fort Stockton hospital. He had been in ill health several years and a hospital patient two months.

Mr. Sherwood came to Wellington from Ryan, Okla., in 1898. Later, he worked for West Texas Utilities Company as a bookkeeper for a number of years. In 1940, he moved to Oklahoma City, where he was associated with the Fox Veleit Wholesale Drug Company until he retired. Eleven years ago he moved to Iraan.

Mr. Sherwood was a past worshipful master of the Wellington Masonic Lodge and an officer in the Royal Arch Masons.

He was a Methodist. Born at Pilot Point Oct. 23, 1879, Mr. Sherwood was the son of Samuel E. and Sarah Ermine Sherwood. The family moved to Ryan, then in the Indian Territory, when he was a youth.

Funeral services were conducted at First United Methodist Church in Wellington at 2:00 p.m. Monday, with the Rev. R. T. Dyess, pastor, officiating. Burial was in Fairview Cemetery with Masonic rites.

Pallbearers were R. T. Savage, James Sullivan, Roscoe Land, J. B. Stevenson, Eddie Smith and Oliver Young.

Kelso Funeral Home was in charge of arrangements.

Mr. Sherwood is survived by his sister, Mrs. Seth Horn, and a number of nieces and nephews. He was preceded in death by two sisters and three brothers, Mrs. E. W. Coker and Mattie Sherwood, Ernest, Rufe and Hugh Sherwood. The latter died March 24 in Houston.

## Claude Savage Ends 45 Years Service With Post Office

Claude Savage took and passed the Civil Service examinations for postal employee the spring before he graduated from Wellington High School.

In a few weeks, July 1, 1925, he began work in the Wellington Post Office as a substitute clerk.

Forty-five years and one month later, he drove 68-mile Route 2 for the last time before retiring from the postal service.

That day, a Service Award was given him by Winton M. Blount, Postmaster General.

"This certificate is awarded to Claude N. Savage by the Post Office Department in grateful appreciation for dedicated service during an honorable career in the United States Government.

Given on the occasion of retirement, July 31, 1970."

A personal letter of commendation from the Postmaster General accompanied the certificate.

He has served under six post-

## County in Danger of Losing Blood Program

By Don Hood  
Blood Bank Chairman

Who will be next? Your wife or husband, your precious child, or perhaps your Mother or Dad?

Who knows, but you can count on 40 to 50 persons from our small community needing two or more blood transfusions in the next six months.

Where will the blood come from in these emergencies?

Hopefully, it will come from the American Red Cross Blood Bank.

Although Collingsworth County residents have supported the Red Cross Blood program more than any of the other surrounding communities we have still not given our share of blood in return for what we have received.

Most of the counties in the

### A New World of Construction

## Boyer Helps Develop Alaska's Rich Prudhoe Bay Oil Field

Prudhoe Bay on Alaska's Arctic Ocean caught the imagination of the world with the discovery of an oil field whose richness has not yet been determined, but Jack P. Boyer, now visiting in Wellington, can tell what it's like to live there.

Mr. Boyer and his wife, the former LaJuan Wilson, and their three children are visiting her parents, Mr. and Mrs. O. B. Wilson.

He is construction engineer with Atlantic-Richfield Co., which brought in the discovery well at Prudhoe Bay, then the secondary well which proved the field. His headquarters are in Anchorage, where the family lives, and he travels the 700 miles to his work by jet.

Located 300 miles north of the Arctic Circle, Prudhoe Bay is a whole new world in construction, says Mr. Boyer.

There is one foot of tundra, mostly grass and roots, then 1800 feet of permafrost, soil that is perpetually frozen.

"Everything is built on piles above ground so the ground will stay frozen, and there are many other things you don't think of down here," the engineer explained. Wooden piling, used so they will not conduct heat, are drilled 20 feet into the permafrost. Five feet of air space is left between the ground and the floor. Everything is insulated, and water lines are both insulated and heated.

When the first camp for 36

men was set up, equipment failure was a major problem because of the extreme cold. Motors that were turned on in the fall were left running until spring. Now there are heated storage facilities.

Everything must be flown in. Only last year the first barge shipment arrived, delivering 100,000 tons of supplies—pipe, cement, piles and drilling equipment. Prudhoe Bay has only six weeks of open water and barges are presently being un-

loaded. Tonnage is expected to almost double that of last year.

Now under construction is a \$20 million complex constructed jointly with Humble Oil and Refining Company. The \$7 million combined dormitory for 208 men and office facilities is complete, and the heat and power systems, sewage and water treatment plant are complete.

Although building and drilling goes on at Prudhoe Bay,

### Workable Plan Required

## Disaster Drill Tests Hospital Procedures

An unscheduled simulated disaster drill Tuesday, Aug. 11, tested the newly revised disaster plan put in effect at St. Joseph's Hospital.

Volunteer workers were called in, ambulance runs were made from the "disaster" and the complete procedure for handling a large number of seriously injured patients was gone through.

"We had an excellent turnout and everyone seems very enthusiastic," said Sister Mary Perpetua, hospital administrator.

In order for St. Joseph's to keep its accreditation with the

Joint Committee on Accreditation, the hospital must have a workable disaster plan and a drill twice a year. This was the first for 1970.

As in the case of an actual disaster, some who are on the list of volunteers to work could not be located. Others covered for them.

Live patients were not used, but the procedure was real. Police Chief Donald Nunneley and Deputy Sheriff Alvin Minatrea were among the first to reach the hospital.

Mrs. Paul Starr was in charge of admissions, receiving "in-

### Claude Groves Much Improved

The condition of Claude Groves, a patient in Scott and White Hospital, Temple, is much improved, his daughter, Miss Jolene Groves, said Tuesday.

Mr. Groves underwent major surgery Aug. 7.

When Miss Groves talked to her mother, they had not been told when Mr. Groves will be able to return home. However, he was permitted to leave his room during the week end to visit with his grandchildren, the small son and daughter of Mr. and Mrs. Barton Groves, who were there from Corpus Christi.

Miss Groves and David Lynn Groves were with their father during the surgery.

### Lowe Begins Tech Workout

Andy Lowe, member of the Texas Tech Red Raiders, left Tuesday, Aug. 18 for Lubbock to begin workouts later this week.

A defensive end, Lowe will be a member of the varsity if his knee has regained sufficient strength. He underwent corrective surgery at the end of the spring semester.

During the summer he managed Marian Airpark Swimming Pool, which closed Sunday, Aug. 16.

A sophomore, Lowe is the son of Mr. and Mrs. Bill Lowe.

### Area Recertified As Brucellosis Free by State

Collingsworth County has been recertified as a Modified-Certified Brucellosis-Free county for a three year period ending June 18, 1972.

County Agent Don Reeves said the certificate was received during the week end.

Forty-seven herds averaging 23 head were tested for the county to qualify for recertification. Willard Copeland, livestock inspector for the Texas Animal Health Commission, did the testing, working in cooperation with members of the Commissioners' Court, who lined up the herds.

Collingsworth County is in the same modified-certified category as other counties of the Panhandle and rolling plains, Mr. Reeves said.

### Dozier Highway Work Progresses

Survey work is under way on the extension of FM 1034 west of Dozier, O. V. Johnson, resident Highway Engineer, said this week.

It should be completed in about two months.

"We are surprised at how straight a line we are getting, in view of the rough terrain and how the present road winds through the country," the engineer said.

The Highway Department will return to planning work on the widening of US 83 after Sept. 1, according to Mr. Johnson.

### Wellington State Adds Employees

Two new employees have been added to the staff of the Wellington State Bank, C. T. Hubbard, president, has announced.

Joe Montgomery, a spring graduate of Wellington High School, began work Aug. 1 in the bookkeeping department. He formerly was employed by Lewis Grocery and is the son of Mr. and Mrs. G. A. Montgomery.

Mrs. Donald Settle began work Monday, Aug. 16, replacing Mrs. W. T. McAdams, who is moving to Spearman. Mrs. Settle has had both banking and general office experience. Both Montgomery and Mrs. Settle are in the bookkeeping department.

### District 1

## Sandra McGill Picked FB Queen Runner-Up

Sandra McGill, Collingsworth County Farm Bureau Queen, was named runner-up in the District I Queen Contest in Amarillo Friday, Aug. 14.

She received a handsome trophy, and all girls participating received a billfold.

The District I Queen was the Hall County nominee. Sandra, daughter of Mr. and Mrs. Sam McGill, will be a

senior in Wellington High School this year. Head cheer leader this year, she returned only a few days ago from Dallas, where she attended the SMU Cheerleader School.

The Collingsworth County Farm Bureau Talent Team, a piano duo composed of Kathy Scott and Susan Peters, also participated in the district contest.

# Reunion Draws 325 Ex-Students, Guests

Ex-students and their guests, 325 of them, came home to Wellington Saturday, Aug. 15, for their 1970 school reunion, the first in two years.

The crowd was larger than some of the more recent reunions, and more graduates brought their families from greater distances.

It was planned for a day of visiting, and only a few minutes of the barbecue hour were given over to anything close to business.

Then it was determined that La Juan Wilson Boyer, '55, and her husband, Jack, had traveled farthest, from Anchorage, Alaska.

Clyde Adams of Dallas and Dewey Young of Seagoville, both graduates in 1915, were from the earliest class who were present at the barbecue.

One member of the first graduating class (1910), Mrs. Lanora Stall Greenhaw of Memphis, attended during the day but was not present in the evening.

Recognition was given a three-generation trio of graduates: Ruby Curtner, member of the first graduating class, her daughter, Evelyn Ball King, and her granddaughter, Jacqueline King, a student at McMurry College.

The next Wellington Ex-Student Reunion will be held in 1972.

Jake Leach, president of the Ex-Students Association, welcomed the group, and Gay Reeves McAlister was master of ceremonies.

## Yardstick To Short!

BY GAYLORD COOK

A man operated a general merchandise store in a community for forty years. When he died, his son took over. The government sent out an inspector to check weights and measures. His scales were fine. His yardstick had worn an eighth of an inch short. The young merchant was told he would have to do away with the yardstick as it was too short. The young man went into a rage. He said, "That would be saying my father was a dishonest man. Everybody trusted him." The inspector asked, "If he were here, would he continue to use this yardstick if he knew it were short?" The merchant dropped his head and said, "No, he would not." The same is true in religion. When parents have done the best they know it is no discourtesy to do differently when you know something they did not know.

## Personal

A guest in the home of Mr. and Mrs. Lloyd Sutton recently was their son, Donald Sutton of Dallas. He also visited with his two sisters, Mrs. Bertha Hardon of Amarillo and Mrs. Mary Sanders of Shamrock.

Visiting in the home of Mrs. Ernest Jackson Sunday were her granddaughter and family, Mr. and Mrs. Dean Johnson and Leslie of Quitaque.

Visiting overnight with Mr. and Mrs. Grady Van Pelt were three of her sisters, Mrs. Era Witt, Mrs. Velma Boyles and Mrs. Kathy Cogswell, all of Amarillo.

empire bodice featured a sheer yoke with a Victorian neckline and short puffed sleeves. The chapel length mantilla of illusion was accented and bordered in Alencon lace. Her flowers were a nosegay of orchids, stephanotis and baby's breath.

The bride's attendants were Mrs. Terry Brown of Dallas, matron of honor, and these bridesmaids: Mrs. Mike Rainey of Dallas, Mrs. Jim Sutton of Austin, Mrs. Allan Richards of Waco, Miss Mary Ann Roark, sister of the bridegroom, of Victoria, and Miss Marilyn Dennis of Dallas.

## SCS and Conservation Education

"SCS and Conservation Education" is the subject of a new leaflet prepared by the U.S. Soil Conservation Service, SCS State Conservationist Clyde W. Graham of Temple announced this week.

"We believe that everyone needs to be informed about the true meaning and importance of conservation," Graham said.

"And a good place to start is in school. Students need to learn that conservation means more than merely saving or setting something aside. It means intelligent use, development, restoration and conservation of natural resources. We, of course, are especially interested in land, water, plant, and wildlife resources but oil, gas, and other resources are important, too."

The leaflet tells how SCS conservationists can help teachers plan outdoor classrooms or obtain films, publications or other teaching aids. It also suggests how conservation might be taught outdoors if the school does not have an outdoor classroom.

Graham pointed out that the pamphlet also suggests ways the teaching of soil, water, and wildlife conservation might be tied in with such subjects as biology, chemistry, math, social science, art and other regular courses.

Copies of the leaflet are free and can be obtained from any SCS office or by writing the Soil Conservation Service, Box 648, Temple, Texas 76701.

## LETTERS from the People

August 14, 1970

Dear Deck:  
Just read with interest your column for August 13, saying how nice it is to live in Wellington or similar town and some of the advantages. Thought I might list some of the advantages of living in a city like Denver.

**HOUSING:** Growing at the rate of 2000 families per month houses for rent are non-existent. However, this is a wonderful boom to the housing construction trade. Carpenters are much in demand. In the meantime every old flea-bitten motel has been converted into low-cost (?) housing and when you are fortunate enough to find a room vacant you might persuade the landlord to rent it for \$30-\$50 per week, not bad for a family of five in one room.

**SCHOOLS:** There are schools all over Denver. They were closed last winter for two weeks while teachers went on strike for more pay. Starting pay is now over \$8000 and goes up to \$16,000 with experience. Taxes for education went up when 18 school buses were blown-up last winter. Some think it was over government decision of forced-bussing to achieve desegregation. At first I was violently opposed to forced-bussing... but our little girl, LaKonna, goes to a school 70% Spanish (they prefer to be called Chicano) and some negroes... now a federal judge says they must bus white children over here to make it 50% white... now I'm for bussing. The shoe looks better on the other foot when I am being benefited.

**PRIVACY:** Here's what you like about the city... you can be alone anywhere, especially in the castle of your home. Of the six homes on our block all have been burglarized since we moved here 14 months ago. Ours was forced open one Sunday evening. They inspected the contents of every drawer in the house and finally left with my pistol, satisfied I wasn't a rich man with money in the house. I don't know when to expect my company back again. Lady across the street was working on her front lawn, when they forced open her back door and helped themselves... apparently they were not satisfied and came back a week later and did it again. Little old man down the street in his 80s was beaten badly and robbed by two young men in his home.

**BEAUTY:** We have lots of beauty here. With smog second only to Los Angeles there is talk of outlawing gas burning cars by 1975, this is so we can see the mountains once again. Someone was not pleased with the appearance of our church and since Christmas we have had 53 broken windows. Police offer all kinds of help and encouragement... "board them over, and it won't happen again!" I can't keep ahead of the vandals. A friend preacher of mine lost all his church amplifier system the other night.

**TRANSPORTATION:** When you are lucky enough to find a place to park, you must lock your car if you wish to keep possession of the radio and tape player, etc. One police member of my church says they can strip the transmission out of a Chevy in three minutes while parked in front of your home, and they do it every night somewhere. City buses demand exact change as they were being robbed almost daily somewhere in the city.

**ENTERTAINMENT:** With a population of several thousand hippies in Civic Center Park we have rock festivals every evening for your fine entertainment. Of course they have managed to almost tear up the ball park, caused a couple of small riots there, and threatened anyone who would like to see the Denver Bronco football games. This I have really aspired to do... but with parking for about 1000 cars and crowds usually in excess of 55,000 I don't dare even try it. I read an ad in the Denver Post... "3 million people will drive an average of 1000 miles to vacation in Colorado this year... you're already here! Isn't it nice to have the Joneses keep up with you for a

## Mr., Mrs. Harry Gilbert Honored With Reception on 50th Anniversary

Mr. and Mrs. Harry Gilbert were honored at a reception on Sunday, August 16, in observance of their golden wedding anniversary.

The hosts were their children, Mr. and Mrs. L. Rich Lyon of Darien, Connecticut, and Mr. and Mrs. Bob F. Gilbert of Montrose, Colorado.

Lou Lyon and Edd Lyon, two grandchildren, assisted.

Mr. and Mrs. Gilbert are long-time residents of the area. For a number of years he was manager of a local gin, and later, until his retirement, he was associated with Singley Mill and Elevator.

Friends called during the afternoon not only from Wellington, but from points in Oklahoma, New Mexico and California.

## Boys Ranch Rodeo Will Be Labor Day Week End

One of the most unusual events in the nation will take place at Cal Farley's Boys Ranch over the Labor Day week end, when the 350 residents of the Ranch put on their 26th annual rodeo.

Professional rodeo stock and hard-riding, determined boys will combine to fill the arena with an unforgettable rodeo. Boys from 4 to 18 will compete for honors during the two performances, Sunday, Sept. 6 and Monday, Sept. 7. There will be brahma bull riding, bareback bronc riding and trick-riding, and the youngest boys will capture the hearts of the audience in the special stick-horse races.

Comfortable reserved box seats are available in advance at regular prices from the Boys Ranch office at 600 West 11th Street in Amarillo, for \$2.50. General admission is \$1.50 for adults and 75¢ for children and servicemen in uniform. The performances will begin at 2 p.m. both Sunday and Monday. Delicious barbecue beef sandwiches with all the

trimmings will be prepared by the boys and sold to the rodeo visitors for only \$1.

Every boy at the Ranch will have some part in the rodeo, either as a contestant or working at the many behind-the-scenes jobs that make the rodeo a big success each year. The traditional rodeo is also an annual homecoming for the more than 2,500 boys who have lived at the Ranch since its founding by Cal Farley in 1939.

## New Arrival Has Ten Grandparents

When James Robert Wilkerson was born to Mr. and Mrs. Billy Wilkerson on Aug. 4, he had 10 grandparents awaiting him.

These included Mr. and Mrs. Bob Barton and Mr. and Mrs. C. O. Wilkerson, the grandparents; Mrs. J. H. Barton, Mr. and Mrs. Merritt James, M/ Sgt. and Mrs. A. E. Keary of San Antonio, and Mrs. J. H. Wilkerson, the great-grandparents.

The baby weighed seven pounds. Billy Wilkerson, the father, formerly worked with The Wellington Leader and presently works two nights each week for the paper.

RESOLUTIONS OF RESPECT IN MEMORY OF BROTHER H. E. SHERWOOD WHO DIED AUGUST 15, 1970

Once again a Brother Mason, having completed the designs written for him on life's trestle board, has passed through the portals of Eternity and entered the Grand Lodge of the New Jerusalem and hath received as his reward the white stone with the new name written thereon.

And Whereas, the All-Wise and Merciful Master of the Universe has called from labor to refreshment our beloved Brother, and he having been a true and faithful member of our beloved Order, therefore be it

RESOLVED, That the charter of Wellington Lodge No. 763, A.F. & A.M. of Wellington, Texas, in testimony of our loss, be draped in mourning for thirty days, and that we tender to the family of our deceased Brother our sincere condolence in their deep affliction and that a copy of these resolutions be sent to the family.

### A Medical Milestone

Around 50 heart transplants have been made by the medical world.

When doctors started the heart transplants not so many months ago, the world gasped believing nothing like that had ever before been accomplished. There were some skeptics, but now it is to be concluded they are no longer leery of the operations. It is now becoming apparent that the medical profession has indeed accomplished wonders.

Sure there have been failures, just as in all experiments of science. Trial after trial must be made and data must be studied and assembled before any definite conclusions are reached.

The points of these remarks is that despite the underground social acceptance of marijuana and the claims that it is not habit forming, it is in fact extremely harmful to the youngsters involved. Parents and educators must weather the accusations that they are old fashioned, square, or perhaps worst of all, "informers," and put a stop to drug use before it is too late.

Communicate with your offspring or student, and if this doesn't procure results call in the police to track down the source of supply.

### Coffee and Kisses

Love makes the world go round on wheels, it may be said to modify an old saying, if the director of the New Jersey State Division of Motor Vehicles is right. Commissioner June Strelecki told the Women's Traffic Safety Forum that coffee and kisses would make the average citizen a more considerate driver and therefore a safer one. "If you and your family start out the day in a good frame of mind, you'll be a courteous and safe driver," was the philosophy she offered.

That is such sound logic we wonder why she stopped at the happy effect on the driver. Surely, the coffee and kisses that send a man off to drive happily and safely will carry him into the business day and make him a pleasant and courteous associate. They should enable him to do better work and be a more agreeable associate.

### Clumsy Jergens

Anyone who has ever learned to type, or tried to learn, found out early how to demonstrate skill he didn't have by rattling off, "Now is the time for all good men to come to the aid of their party." This was much easier on the fingers than the line the teacher liked—"The quick brown fox jumped over the lazy dog." The teacher's preference was explained by the fact that the jumping fox line contained all the letters of the alphabet, thus giving the pupil exercise on reaching some of the awkward keys.

A columnist with nothing better to do, Brad Williams of the Oberline News-Tribune in Ohio, decided he could improve on this all-finger exercise. He produced five sentences containing all the letters. Four of these weren't carried in the story reporting his amazing feat, one should suffice:

"A pox on you, Jergens, old beanbag; you've squashed by favorite Zowieback."

### What's In A Name

We understand that Spiro Agnew's Greek-born father changed the family name to Agnew from the original, which was Anagostopoulos. In a way this fact is disappointing.

It would have been interesting to see how radio and TV announcers would have handled the pronunciation and how newspaper headline writers would have handled the name in headlines and how bumper sticker makers would have gotten Nixon-Anagostopoulos on the stickers.

And a Greek restaurateur named Gus Papolopolus, who has named a sandwich for Agnew, could have called it Papolopolus' Anagostopoulos sandwich.

### Proposed CONSTITUTIONAL AMENDMENT

#### NUMBER TWO ON THE BALLOT (SJR10)

General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Subsection (a), Section 20, Article XVII, Constitution of the State of Texas, be amended to read as follows:

"(a) The Legislature shall have the power to enact a Mixed Beverage Law regulating the sale of mixed alcoholic beverages on a local option election basis. The Legislature shall also have the power to regulate the manufacture, sale, possession and transportation of intoxicating liquors, including the power to establish a State Monopoly on the sale of distilled liquors.

"Should the Legislature enact any enabling laws in anticipation of this amendment, no such law shall be held in reason of its anticipatory nature." Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 3, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "Repeal of the prohibition against open saloons found in Section 20, Article XVI of the Constitution of the State of Texas."

HEAD OF CHRIST was made by Lorenzo Ferri in Rome from imprints on what reportedly is the Holy Shroud, linen used to wrap Christ's body after death.

AUSTIN.—More than 2.7 million Texas students will be heading back to public schools again.

There will be a lot of changes in store for them, although most probably will fast adjust or barely recognize the differences.

Teachers will begin work a little earlier, and classes in some areas will start earlier.

School year will stretch out from 175 classroom days to 180.

Teachers will be on duty 10 more days of non-teaching work for in-service training and to help with school opening and closing.

For 224,500 little ones, the school experience will be brand new. They are the first graders and (30,000) five-year-olds in a new state-supported kindergarten program.

A drug education program also will be initiated, seeking an effective two-way communication between youths and adults. Utilized in the effort will be modern techniques and teaching methods which encourage students to express themselves rather than relying on lectures, preaching or moralizing. Training of local teaching teams in 1,206 school districts is slated to start in September and October.

Twenty-two school districts in major population and geographic areas will be pilot testing three key facets of the state's emerging plan for special education. These districts will serve as a proving ground for efforts in comprehensive special education, early childhood programs for exceptional children and teaching tailored for children with language and/or learning disabilities.

Even broader changes may be in store for pupils of 16 school districts sued in federal courts at Austin and Tyler for racial segregation. Districts held conferences at Texas Education Agency last week to prepare plans for conversion to non-discriminatory systems. Plans are due to go to courts by Friday, Aug. 21. Hearings may begin Monday.

#### Draft Call Up

September draft call for Texas is 704—a considerable in-

crease from 560 in August. But no man will be ordered for induction with a random sequence number higher than 195.

Col. Charles M. Duncan, deputy state Selective Service director, said it appears unlikely the ceiling will go higher than 195 for the rest of the year. Duncan said new manpower, mainly from formerly-deferred students, helped hold the level on sequence numbers.

September quota for pre-induction physical and mental examinations is 7,171, an increase from 1,490 in August. Texas' induction quota of 704 is the state's share of a national call for 12,000 men, all for the Army.

Parks Advanced  
Outstanding new Lyndon B. Johnson State Park near Stone-

well, and across Ranch Road 1 from the famed LBJ Ranch, will be officially dedicated on Aug. 29 at 2 p.m.

Former president will attend the festivities which include a reception and luncheon at Stone-

well. Parks and Wildlife Department also announced approval of a \$355,000 federal grant for a development project in Abilene State Park.

Funds will be matched by the state on a 50-50 basis in-

roads and turnpikes, or in aid thereof.

"(c) Notwithstanding the provisions of Subsection (b) of this Section, bonds may be issued by any county in an amount not to exceed one-fourth of the assessed valuation of the real property in the county, for the construction, maintenance, and operation of macadamized, graveled, or paved roads and turnpikes, or in aid thereof, upon a vote of a majority of the resident property taxpayers voting thereon who are qualified electors of the county, and without the necessity of further or amendatory legislation. The county may levy and collect taxes to pay the interest on the bonds as it becomes due and to provide a sinking fund for redemption of the bonds."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment increasing the value of the homestead which is exempt from forced sale."

Section 1. That Subsection (a), Section 64, Article III, of the Texas Constitution, be amended to read as follows: "Section 64. (a) The Legislature may by special statute provide for consolidation of governmental offices and functions of government of any one or more political subdivisions comprising or located within any county. Any such statute shall require an election to be held within the political subdivisions affected thereby with approval by a majority of the voters in each of these subdivisions, under such terms and conditions as the Legislature may require."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment increasing the value of the homestead which is exempt from forced sale."

Section 1. That Section 51, Article XVII, Constitution of the State of Texas, be amended to read as follows: "Section 51. The homestead, not in a town or city, shall consist of not more than two hundred acres of land, which may be in one or more parcels, with the improvements thereon; the homestead in a city, town or village, shall consist of lot, or lots, not to exceed in value Ten Thousand Dollars, at the time of their acquisition as the homestead, without reference to the value of any improvements thereon; provided, that the same shall be used for the purposes of a

home, or as a place to exercise the calling or business of the head of a family; provided also, that any temporary rental of the homestead shall not change the character of the same, when no other homestead has been acquired."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment increasing the value of the homestead which is exempt from forced sale."

Section 1. That Section 52, Article III, Constitution of the State of Texas, be amended to read as follows: "Section 52. (a) Except as otherwise provided by this section, the Legislature shall have no power to authorize any county, city, town or other political corporation or subdivision of the State to lend its credit or to grant public money or thing of value in aid of, or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company."

(b) Under Legislative provision, any county, any political subdivision of a county, any number of adjoining counties, or any political subdivision of the State, or any defined district now or hereafter to be described and defined within the State of Texas, and which may or may not include, towns, villages or municipal corporations, upon a vote of two-thirds majority of the resident property taxpayers voting thereon who are qualified electors of such dis-

trict or territory to be affected thereby, in addition to all other debts, may issue bonds or otherwise lend its credit in any amount not to exceed one-fourth of the assessed valuation of the real property of such district or territory, except that the total bonded indebtedness of any city or town shall never exceed the limits imposed by other provisions of this Constitution, and levy and collect taxes to pay the interest thereon and provide a sinking fund for the redemption thereof, as the Legislature may authorize, and in such manner as it may authorize the same, for the following purposes to wit:

(1) The improvement of rivers, creeks, and streams to prevent overflows, and to permit of navigation thereof, or irrigation thereof, or in aid of such purposes.

(2) The construction and maintenance of pools, lakes, reservoirs, dams, canals and waterways for the purposes of irrigation, drainage or navigation, or in aid thereof.

(3) The construction, maintenance and operation of macadamized, graveled or paved

## CROSSROADS REPORT

My taxed-poor neighbor says he has long believed that our U.S. form of government is the best ever invented, but he would like to see one change made in it.

He recommends that the Internal Revenue Service and the Congress swap jobs, with the Congressmen out in the field collecting the money, and the IRS spending it.

Needing our votes to keep their jobs, Congressmen likely would be more broad-minded auditors. And the IRS boys, with their passionately protective regard for public dollars would probably spend fewer of them and waste none.

I see where some compulsive good-doers say people could starve to death eating the "nutritious" cereals being peddled as breakfast food. But my pot-bearing neighbor says who asked them? He uses cereals so he can chew his cream and sugar, and he aims to keep on doing so, in spite of the experts saying the boxed hay is no more nutritious than baked beans or spaghetti.

He says not even these noble consumer champions are going to make him eat his morning cream and sugar on baked beans.

Grants Approved  
Gov. Preston Smith has approved a federal grant for \$114,389 for operation of a family-planning program for migrant farm workers in 26 Texas counties and six other states where they migrate.

Counties benefitting are Val Verde, Kinney, Uvalde, Bexar, Jim Wells, Maverick, Zavala, Dimmit, Frio, LaSalle, McMullen, Duval, Webb, Live Oak, Bee, Refugio, San Patricio, Nueces, Kleberg, Zapata, Jim Hogg, Brooks, Starr, Willacy, Hidalgo and Cameron.

Smith also announced approval of a demonstration grant of \$72,344 to Las Colomas Del Val-

le, Inc., in San Juan, Hidalgo County, for youth development program.

A state regional planning assistance grant of \$14,930 went to the South Plains Association of Governments (SPAG) serving 33 cities, eight special purpose governments and 11 counties.

### Proposed CONSTITUTIONAL AMENDMENT

#### NUMBER ONE ON THE BALLOT (HJR30)

General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsections (5), (6), (7), (8), (9), (11), (12), and (13), Section 1-a, Article V, Constitution of the State of Texas, be amended to read as follows:

"(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five members. Proceedings shall be by majority vote of those present, except that recommendations for retirement, censure, or removal of any person holding an office named in Paragraph A of Subsection (6) of this Section shall be by affirmative vote of at least five members.

"(6) A. Any Justice or Judge of the Appellate Courts and District and Criminal District Courts, any County Judge, and any Judge of a County Court at Law, a Court of Domestic Relations, a Juvenile Court, a Probate Court, or a Corporation or Municipal Court, and any Justice of the Peace, and any Judge or presiding officer of any special court created by the Legislature as provided in Section 1, Article V, of this Constitution, may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any person holding such office may be censured, in lieu of removal from office, under procedures provided for by the Legislature.

B. Any person holding an office named in Paragraph A of this subsection who is eligible for retirement benefits under the laws of this state providing for judicial retirement may be involuntarily retired, and any person holding an office named in that paragraph who is not eligible for retirement benefits under such laws may be removed from office, for disability seriously interfering with the perform-

ance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to the misconduct or disability of particular persons holding an office named in Paragraph A of Subsection (6) of this Section, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) After such investigation as it deems necessary, the Commission may in its discretion issue a private reprimand, or if the Commission determines that the situation merits such action, it may order a hearing to be held before it concerning the removal, or retirement of a person named in Paragraph A of Subsection (6) of this Section, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefor, it shall issue an order of public censure or it shall recommend to the Supreme Court the removal, or retirement, as the case may be, of the person in question holding an office named in Paragraph A of Subsection (6) of this Section and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

"(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order public censure, retirement or removal, as it finds just and proper, or wholly reject the

recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The right of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary."

"(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court, such rules shall afford to any person holding an office named in Paragraph A of Subsection (6) of this Section, against whom a proceeding is instituted to cause his retirement or removal, due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the person holding an office named in Paragraph A of Subsection (6) of this Section in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, and the right to be heard, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No person holding an office named in Paragraph A of Subsection (6) of this Section shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

"(13) This Section 1-a is alternative to and cumulative of, the methods of removal of persons holding an office named in Paragraph A of Subsection (6) of this Section provided elsewhere in this Constitution."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment relating to the removal, retirement, or censure of Justices, Judges, and Justices of Peace under prescribed circumstances."

# Teaching in Puerto Rico "Another World"

A former music instructor, Mrs. Lola Gene Chaudoin of Oklahoma City, returned for her first Wellington Ex-Students reunion Saturday, Aug. 15.

In May, 1969, she retired after teaching six years at Ramey Air Force Base, Puerto Rico. She had joined the Overseas Teaching Program, operated jointly by the Air Force and Department of Defense after the death of her husband, Carl Chaudoin, a former Quail superintendent.

Wanting a change from the music she taught so long, she was assigned to the fourth grade.

"It's like being in a different world—like being in the military without being inducted," she declared.

With Puerto Rico as her base Mrs. Chaudoin also visited throughout the West Indies, Caracas, Venezuela, and spent one summer in Europe.

Puerto Ricans are a great people for political demonstrations, Mrs. Chaudoin recalls, and there are always parades. Once while walking down a San Juan street, she was caught in one of these and couldn't get out until it ended.

She spoke of the great beauty of the island.

"Tourist trade is the big thing in Puerto Rico, and San Juan has some of the most fabulous hotels I've seen anywhere in the world."

She recalls a night she and a fellow teacher spent in one.

Unable to get a room where they had planned, they stepped across the street to a beautiful hotel where the staff was on strike. The manager agreed they could stay, but there would be no service. The elevators were self-operated.

Returning from a late dinner, they found the lobby roped off and a guard only reluctantly let them go to their room—after he had told them there was not another guest in the building. They left as early as they could next morning.

"The people have made great strides since I was there, but it will be a long time before they are ready for statehood,"

she said. Some, in fact, do not want their island to abandon commonwealth status. It presently has all the advantage of statehood, but without paying federal income taxes.

She visited frequently in the Virgin Islands, and in St. Croix was invited to attend the Governor's Conference one year.

"I talked with most of the governors and I remember especially Governor Volpe, now a member of President Nixon's Cabinet. When you talk to them they become persons rather than names," she said.

## Randall Raburn New Head of Oklahoma School

Randall Raburn has been named superintendent of Central High School near Marlow, Okla., where he has been a successful basketball coach six years.

He and his wife, Margaret, who is also a Central faculty member, and their daughter, Robin, were here during the week end to visit his parents and attend the Wellington Ex-Students Reunion.

Raburn succeeds Leroy Iretton, who left to accept a position with the Oklahoma State Department of Education.

Raburn has been principal at Central High since January of 1969. The system has approximately 250 students, he said while here.

A graduate of Wellington High School, he received the bachelors degree and a masters degree in administration from North Texas State University, Denton. Currently he is working on a doctorate in secondary education with a minor in administration.

Before going to Central, Raburn was coach at Lipan, south of Fort Worth.

Most expensive spice is Mediterranean saffron which retails for \$82 a pound.

## Reed Visits RC&D Units

Gary Reed secured work plans of three RC&D areas while on vacation recently and these will be studied by officials of the North Rolling Plains RC&D, of which Collingsworth is a part.

Mr. Reed, unit conservationist with Soil Conservation Service, visited RC&D offices in south central Kansas, southeast and southwest Missouri. These are already in operation and he discussed with officials some of the projects which have been secured.

North Rolling Plains RC&D is made up of seven eastern Panhandle counties, and an application for its approval is now before the Panhandle Regional Planning Commission.

Mr. Reed and their sons accompanied Mr. Reed, and this was also a vacation for the family. They visited their parents at Alva, Okla., and with his sister, Miss Sandra Reed in Kansas City. They also visited in Columbia, Mo.

## Personal

Mr. and Mrs. Logan Bailey and her sister, Mrs. Louise Sample of Selma, Calif., Henry, Leslie and Sherry Bailey, also Dennis Powell visited in Carthage at a reunion. They also visited with Fletty Scott. Then they went to Mansfield, La., to visit Mr. Bailey's sister, Perie Mayweather.

Mr. and Mrs. C. O. Wilkerson, accompanied by her brother and sister-in-law, Mr. and Mrs. Jeff Rogers of Wichita Falls, returned July 25 from a vacation trip to Red River, N. M., and Colorado Springs.

John Ford, son of Mr. and Mrs. Jack Ford, left last Thursday for Greenville where he will teach this school year.

Mr. and Mrs. Rodney Kane were in Lubbock over the week end as guests of Mr. and Mrs. Jimmy Campbell.

Mrs. Doshia Dix is home from Amarillo after spending a few days with Mr. and Mrs. Ray Richards, Barry and Kirk.

## GRID STARS OF THE 1920's

These two were Wellington High School grid stars over several seasons in the 1920's. Lloyd Powell, left, of Amarillo, is one of the three brothers for whom Powell Field is named. Gurrin Hardin now lives at Snyder, Okla.

Guests in the home of Mrs. Arthur Belew are her son and family, Mr. and Mrs. Leroy Belew of New Orleans, La.

Mrs. Dorothea Coleman of Amarillo spent the week end with her mother, Mrs. S. L. Lindsey, and friends.

Mr. and Mrs. Jake Lawrence have returned from a visit with their daughter, Mr. and Mrs. Paul Guthrie, Pam and Nicky in Carbondale, Colo.

Mr. and Mrs. John Bray and son, Wes, of Fort Worth, have been visiting with her mother, Mrs. A. T. Lentz, and her sister, Mr. and Mrs. Cecil Shanks.

Mr. and Mrs. Leo Russell and son, Shae, of Omaha, Nebr., spent last week with their parents, Mr. and Mrs. Otto Russell and Mr. and Mrs. Elvis Crawley.

Mrs. Howard Frost of Wichita Falls spent several days last week with her sisters and brother, Miss Bonnie Willis, Mack Willis and Mr. and Mrs. Deskins Wells.

Miss Bonnie Willis, Mack Willis and Mrs. Irvin West of San Antonio spent the week end in Lubbock with their niece, Mr. and Mrs. Ronny Flowers. They also visited with J. O. Wells, a former Wellington resident, who was celebrating his 90th birthday. Mrs. West returned to her home in San Antonio Monday.

Mr. and Mrs. Guy Owens and their granddaughter, Kevelly Kent of Dallas, are vacationing in the Pikes Peak region at Manitou Springs, Colo.

Visiting in the home of Mr. and Mrs. Billie Uelton recently were her sister and family, Mr. and Mrs. Max Replogle and children of Perryton.

Mr. and Mrs. T. L. Wilkerson visited in Fort Worth over the week end with Mr. and Mrs. Thomas Chumley and daughter LaNea; Mr. and Mrs. Ray Holt, Serena, Derenda and Laneza; and Mr. and Mrs. Darrell Craig and Gary and Wayne, Sharon and Janice, and their son, Louis Wilkerson.

Guests in the home of Mr. and Mrs. Loren Thompson recently were Mr. and Mrs. Jimmy Thompson, Patti and Kent of Kansas City; and Mr. and Mrs. Jerry Thompson and Greg of Floydada, and Sandy and David Covey of Torrance, Cal., visited Wednesday and Thursday. This past week Caroline and Kathy McClendon of Abernathy have been visiting, and now David and Carey Lee McClendon are here from Abernathy.

Mr. and Mrs. Billy Williams, Linda, Mike and DeeAnn went to Six Flags last week end for vacation.

## Texans Find Arctic Ocean Breath-Taking

This is the second of two articles written by Mrs. Jack Davis on this summer's tour she and Mr. Davis made through Alaska. With them were her sister, Miss Sue Ward of Ada, Okla., and Mr. and Mrs. Charles Bairfield, who visit here frequently.

Our second day in Fairbanks was used for a sight-seeing trip on the much-advertised Discovery, an attractive stern-wheeler. We went up the Chena River to the Tanana (Tan' a nah) River, which runs into the Yukon. We saw much of interest, beside enjoyed the cruise of several hours. One stop was at an Athabaskan Indian home about which there is quite a story. Susie, the owner who had lived there for many, many years, had died, we heard from a number of people in the city. Her one ambition had been to go to school, but it was never possible. In 1967 an unbelievable flood came down the Chena and devastated the city and country-side. Susie was one of the five thousand evacuees who were taken to the University for a stay of two weeks. She was so proud and so happy, for she not only got to go to school, but she got to go to a college!

From Fairbanks we flew to Barrow to see the Arctic Ocean and the Eskimos in their own original town. Though there were barely enough places for many tourists, we found the Eskimos to be a warm, kindly, religious people. They are either Catholics or Presbyterians. We had the great fortune to be there on the night of their last nallicachuk of the season, their whaling feast.

Each leader of a whaling expedition must feed the village if he is successful, and four had brought in whales on the last trip out, making a total of 16 for the year, which was quite good.

We just observed from a distance, for these are very proud people, and this is a very special celebration for them.

The blanket toss was unbelievable. Using a round blanket of caribou hides with rope holds all around it, they see how high they can toss the young people. They went 25 or more feet into the air. Someone told us that a trampoline team had been taken to Barrow to try this, and they found it quite difficult to stay upright.

This being the time of the year for no night, we were amazed at the seeming strange behavior of the sun. After it seemed to come within 30 minutes of setting in the north, it began to rise again. It was breath-taking to stare at the ice field called the Arctic Ocean, and know that it stretched north 1500 to 1800 miles.

The curvature of the earth was quite visible, and the flatness of the top of our globe is astounding. Barrow is right on the shore of the ocean.

Before we left for the return flight to Fairbanks, a dance team of elderly Eskimos gave us a wonderful show, and closed with a religious song, first in their language, then in English, "God Will Take Care of You." We had eaten whale blubber (muktuk), both raw and pickled, reindeer, and caribou; had explored the tundra, and visited these people until we recognized some.

Our night at Fairbanks was very short for we caught an early ride on the Alaska Streamliner for McKinley Park. This train didn't rush, either, for there were constant curves, tremendously high trestles, and danger from animals crossing the tracks. They told us that it is the only railroad in the

world that will pick up anyone that stops by the track, even if he is just going hunting.

It is the only outlet for many people along it, even for grocery buying. When a hunter gets his moose, he drags it up to the tracks and waits for the train to pick up the two of them. As we were going into Anchorage the next day the engineer stopped the train for us to see Mt. McKinley in all its glory.

But this is a bit ahead. The shortest night we had must have been at McKinley Park, for we were called at three, fed at three thirty, and boarded a sight-seeing bus at four for eight hours in the park. We didn't see McKinley at this time for it was in the midst of a 100-miles-an-hour blizzard. It is so extremely tall that it makes its own weather. Incidentally, there were eleven mountain-climbing parties on their way up, including one of seven Japanese women, and everyone seemed to be tuned into their short-wave sets.

On our rounds we saw many Dall sheep, caribou, moose, one bear, mew gulls from inland California (they nest exactly on the top of tall pines, and look like Christmas tree decorations sitting up there); ptarmigan, and many wild flowers. We thought all the mountains in the park very beautiful and very high, until we saw them actually seem to shrivel when Mt. McKinley became plainly visible.

We completed the trip to Anchorage on the same train we rode from Fairbanks, and fell in love with the town as soon as we saw it. The Knick and Turnagain Arms of Cook Inlet are tidal and fill and empty twice a day. Therefore, people never lack for fish.

The tremendous area that this water covers is only navigable in a certain channel and cannot be used for fishing, swimming or boating for its tides are the second highest on the continent, with a current moving in and out at a speed of 20 to 30 miles an hour.

You can definitely see the waves going first in one direction, then the other. Anchorage has the most wonderful seascape on three sides, with tremendous mountains upon which the city leans, and year around skiing about 30 minutes from town.

We did enjoy eating the king salmon, which never seems to reach us here. We also found out why salmon is so expensive here. King Salmon sells at 90¢ a pound on 'fin' at the boat!

At Anchorage we visited with two former residents of Collingsworth County, and it was delightful to see them, as well as hear more about the wonders of their state. They were the Jack Boyers (remember LaJuan Wilson?) and Max Hodel from Dodson. They are staunch supporters of Alaska. Where we have football and baseball, they have ice skating and basketball. Playing matched games means that the players and almost the whole town will fly or ferry with them, according to the direction they are heading.

There were many, many other things that were fascinating to see and hear. Perhaps you can read the book "Only in Alaska!" by Tay Thomas, wife of Senator Lowell Thomas, Jr. It is surely faithful to things as they are. We feel that we saw an unbelievable part of the wonderful state in our 16 days, and wish that many can make it up there.

### ASC Community Elections Reset for September 11

The new date for Agricultural Stabilization and Conservation Service committee elections will be Sept. 11. Tom Birchfield, chairman of the county ASC committee has announced. Ballots will be mailed to voters about Sept. 1. Voters will elect three community committeemen and two alternates in each ASC community in the county.

ASC officials are encouraging all eligible farmers to vote in this election. "Decisions made by farmer-elected ASC committees can be important to almost all farming operations in the area. That's why we want to be sure every farmer who is eligible to vote in ASC elections is on the list to get a ballot," Mr.

Birchfield said. "We urge any farmer who has not previously participated in an ASC election, has changed the location of his farming operation, or who has any other reason to believe that his name may not be listed in ASCS records to contact his County ASCS Office as soon as possible. In this way he will be assured of receiving a ballot, enabling him to vote in the upcoming election."

### Phillips College Sets Night Work

The Evening Division of Frank Phillips College has scheduled a number of classes for the fall term—both credit and non-credit—with the adult's continuing education as a prime objective. The night school has endeavored to meet the education needs of all persons within driving distance of the college.

Credit and non-credit courses in many areas, such as math, science, English, Bible, electronics, data processing, painting, instrumentation, income tax reporting, business psychology, business law, etc., are offered for persons of all ages and varying educational levels who are interested in cultural growth, improving vocational competency, increasing earning power, self improvement, preparation for a job, a hobby, or a college degree.

Persons interested in courses—credit or non-credit—not listed on the fall schedule, should report their interest to the Evening Division if they wish to be notified of such opportunities.

Any course not on schedule for the fall may be organized by numbers sufficient to justify the class.

The Evening Division is staffed and scheduled for any person who seeks self-improvement through education and training. It is not necessary to have a high school diploma nor the results of an ACT testing program. You may enter any class on individual approval of the Dean.

### SAVE MONEY ON FOOD

Do you know how to effectively stretch your food dollar?

Here are some tips that will leave you with more money for yourself after you've taken care of the food demands for the week.

The first thing to learn is to watch for ads and sales. Then do some comparing of prices from one store to another.

You must be sure that your shopping list provides a well balanced, nutritious diet. To keep your meals interesting include some variety.

Don't allow yourself to be misled by package sizes. Read the labels to see what the net weight of the product is. Sometimes a smaller package will

contain more and cost less. Don't let the gaudy packages with their "economy size" distract you. Again, read the labels.

By using your head, you'll save a lot of money.

# Your Money Goes Farther

*when it stays at home*

Round and 'round our dollars go . . . building local trade volume with every turnover . . . when we spend them with our own home stores and service establishments.

And every added dollar of trade volume in the community means a little better jobs for us . . . increased business profits, better property values . . . a little better support for our churches, schools and other civic facilities . . . better service to meet our daily and emergency needs.

Just a single dollar . . . spent at home instead of being used to "pick up" some article in the city . . . may account for \$5 or \$6 or more of additional home trade volume as it goes 'round and 'round among us.

Each such dollar put on the home-trade merry-go-round is an investment in enlightened selfishness . . . as it comes around and back into our own hands again from time to time.

## Seven Due for Induction on September 14

Texas Local Board No. 20 has a call for seven registrants for induction and 11 registrants for armed forces physical for Sept. 14.

The September draft call for Texas is 704, and no man will be selected and ordered for induction with a random sequence number higher than 195. It appears that the ceiling will go no higher than 195 for the remainder of 1970, Col. Charles M. Duncan, deputy state Selective Service director, said Monday.

Col. Duncan explained that an influx of new manpower, mostly formerly deferred students, has helped to keep the ceiling on sequence numbers at 195.

The September quota is up from 560 in August, which is also being filled with men having random sequence numbers no higher than 95.

The state quota for pre-induction physical and mental examinations in September is 7,171, up from 1,490 in August. Men sent for these examinations will be limited to those with random sequence numbers 1 through 215 from the drawing in December 1969 and men born in 1951, numbers 1 through 100, from the July 1970 drawing. Col. Duncan said that approximately 6,100 men of the 1951 age group will be examined along with 1,071 older men.

Deferred or exempt men, such as teachers, college students, and vocational or trade school students with random sequence numbers 1 through 215 may be forwarded for these examinations if they are likely to lose their deferred or exempt status during the next five months, Col. Duncan said.

All volunteers at the draft boards must be inducted ahead of the non-volunteers selected and ordered to report for induction by random sequence number.

The Texas induction quota of 704 for September is the state's share of a national call for 12,000 men, all for the army.

#### Computers Replace Test Tubes at AEC

Computers now can replace the test tube in some areas of chemistry, and it appears that if taxed to their limits they may well find new preparations and compounds. Computers can do this, thanks to mathematical models of chemical compounds and chemical reactions such as those developed during the past six years at the Atomic Energy Commission's Argonne National Laboratory near Chicago.

# Deck's DIDACTICS

—By Deskins Wells

The United States Senate has joined the House in overriding President Nixon's veto of the education bill which exceeded his request by over half a billion dollars. This is politics in one of its most distasteful and possibly dangerous forms. It is one more boost to inflation. There are only two ways to curb inflation. One is to cut down on Government spending and the other is to raise taxes. Nixon was trying to cut down on taxes.

It is doubtful if this extra money is for education in the real sense. More than likely it consists of fringes and regulations that have harassed school officials in Texas and elsewhere so greatly during recent months. There are those who think they must get their program advanced in any manner they can and they are working at it day and night.

Corn blight has struck the major corn growing states and the production is expected to be far down this year. The effect is already being felt in the rising prices for grain sorghum. The only trouble with this is that this immediate area is not going to produce enough grain sorghum this year to take care of its own livestock needs.

The 1970 reunion of the ex-students of Wellington High School proved to be one of the best held so far. Perhaps the officials of the organization have adopted the correct formula in holding the reunion every other year instead of annually and in holding all of the general sessions in one place. With the success of the meeting a matter of history, hopes are for an even larger and more interesting meeting in 1972.

Early risers over the past week end saw an enormous red sun rising through the mists in the northeast while a blue full moon rode two hours high in the southwestern sky. The glowing sun magnified to four times its actual size because its rays were fractured by the earth's atmosphere made a striking contrast to the cool serenity of the moon. When the sun is that large either rising or setting you are not gazing directly at the sun. You are looking at its refracted image. The real sun is below the horizon.

Early risers also see another welcome sight these August mornings. That is Judge Howard Riggs accompanied by his wife Dell out taking his early morning walk before most people are stirring. He started walking on his doctor's orders; but now he says he is enjoying it more and more. Mr. and Mrs. John Forbis are the people who have made walking famous in Wellington. Perhaps more of us should take it up.

### Eagle May Be Out

A Railroad Commission examiner has prepared a report recommending Missouri Pacific Railway Company be permitted to discontinue its St. Louis-Eagle passenger train.

Finding came after extensive hearings in several cities. Opponents of shutting down the train have 30 days to reply and restate their case.

Eagle was one of the last three passenger trains on a regular run across the state from Texarkana to Laredo and back once a day.

MP claimed a revenue loss and asked permission to cut it off its routes.

### C. B. Radio Club Sets Meeting

The Rolling Plains CB Radio Club will meet Thursday, Aug. 20 in the Farm Bureau Hospitality Room.

The meeting will begin at 8:00 p.m.

## Southwestern Louisiana

# University Instructor Returns for Reunion

One of those attending the Wellington Ex-Students Reunion was Dr. Edwin Parker, who teaches biochemistry in Southwestern Louisiana University at Lafayette.

With him were Mrs. Parker and two of their sons, Dave and Bob, and a guest, Jennie Fernandez, also of Lafayette. They were guests of his mother, Mrs. Tom Parker.

## Maxwell Dealer for David Brown Tractors

Announcement has been made of the appointment of Maxwell Tractor Co., as dealer for David Brown tractors.

This business is owned and operated by Jake Maywell, whose mechanical experience with tractors extends over a number of years.

It is located at 611 East Avenue.

There is a display of tractors on the company yard, and Mr. Maxwell has extended an invitation to the public to come by and let him explain their operation.

In addition to being dealer for the tractors, he also has a complete line of parts to service David Brown tractors throughout the Wellington area.

## Nail Attends Moorman Meet

Richard Nail was at Quincy, Ill., during the week of Aug. 9 for the Moorman Manufacturing Company's 85th anniversary celebration.

Members of the firm's sales force in 30 states came to the company headquarters for the event. They came to the celebration in five groups of 450 to 600 men each.

The meeting was held in a large circus tent on the company's main research farm near Quincy. Special eating, sleeping, and sanitary facilities were provided on the farm.

Highlights included a tour of the company's new production complex and introduction of new hog, beef and dairy cattle products.

## Shamrock Arts, Craft Show Set

The Heritage Club of Shamrock is sponsoring an arts and crafts show in the Shamrock High School Library Saturday and Sunday, Sept. 5 and 6.

Collingsworth County artists and craftsmen are invited to prepare entries.

The entries will be priced for sale and the Heritage Club will receive a commission on those sold. There is no entry fee, but entries will be limited to four per person, according to Mrs. Vina Davis of Shamrock.

Both the commission and the admission charges go toward the Shamrock Community Library Building Fund in Shamrock.

## Blood Program

From page one  
Texas Panhandle have been dropped from the Red Cross Blood program because they simply failed to support it.

We are at present on the border line of losing our supply of blood from the Red Cross! Why? Because we, too, have not fully supported the program.

Our problem lies in the fact that only a handful of loyal, community interested citizens support our Blood Program as well as other hospital needs and functions. The majority of our citizens sit back and let their few good neighbors carry the burden of keeping these life saving facilities available.

By losing the Red Cross Blood Program the cost of getting blood will almost triple—if we can even obtain blood when we need it. In some cases the cost may be very grim and unmeasurable.

To give a unit of blood should bring a lot of self satisfaction. It is like buying life insurance for your loved ones as well as for yourself. Too, the blood you donate will help, if not be, the deciding factor whether some one lives or dies.

The bloodmobile will be here on Sept. 1, from 10 a.m. to 3 p.m. Red Cross volunteers will be out looking for donors during the next ten days. You could make our job a lot easier if you would call and volunteer your blood. Just call St. Joseph's Hospital and give us your name and we will schedule a time for you. For further information contact Don Hood, Blood Bank Chairman.

Others who worked at one or more emergency jobs were Sam Adams, Mr. and Mrs. Raymond Horton, E. H. Harwell, Mrs. Weldon Cleveland, Doyle Brown, Mrs. Russell Yates, Mrs. Truman Estes, Mrs. Melvin Seale, Mrs. H. L. Jenkins, Mrs. Sam McGill.

Mrs. Rosemary Langford, Mrs. Kyle Lindley, John Holton, Weldon Cleveland, Dan Langford and Jim Lindsey.

A plan is being formulated to bring about closer coordination between the hospital, the Red Cross Disaster Chairman, Bill Hatch, and the county, said Sister Perpetua.

In the future, such disaster drills will be coordinated between these agencies.

## Senior Citizen Section New to County Fair

Senior citizens of Collingsworth County will receive special recognition at the Fair on Friday and Saturday, Sept. 18 and 19.

A special table will be set up in the community building where they can display and sell their handwork if they wish.

Mrs. Haskell Manuel is chairman of this division.

Any Senior Citizen over 65 may enter. Such items as knitting, crochet, embroidery, tatting, handmade garments, canned and baked products, china painting, flower making, ceramics, etc.

Men may enter their woodwork, leathercraft, or other hobbies.

These items will not be judged but can be sold. Mrs. Manuel said it is hoped a large number of people will enter. All items will be tagged and priced, Thursday, Sept. 17 between 1 p.m. and 5 p.m.

All items not sold may be picked up by 5 p.m. Saturday, Sept. 19.

## Former WHS Grid Star Here

Paul Williams of Norwalk, Calif., who was a Wellington grid star of the middle and late 1920s, returned to attend his first Ex-Students Reunion and to spend a few additional days visiting friends.

Mrs. Williams and her mother, Mrs. Ada Tribble of Lomita, Calif., accompanied him.

Williams left Wellington for California in 1932.

"I went to take in the Olympic games and forgot to come back," he declares.

During his years in California he has worked for the Railroad Express Agency and said he has only a few more years until retirement.

"He married his family," said Mrs. Williams, who had six children. There are now 32 grandchildren and one great-grandson.

Mr. Williams' visits to Wellington have been infrequent, the last being four years ago.

## Gassiot Family Here from Corpus

Mrs. Jerry Gassiot and children, Scotty, Tracey, Jean and Sherry, of Corpus Christi have been visiting her parents, Mr. and Mrs. C. T. Hubbard two and one-half weeks, arriving just before the hurricane struck that city.

Mr. Gassiot returned to Corpus immediately afterward and found their house undamaged, and only a fence destroyed.

He returned to Wellington to visit until Friday, Aug. 14.

Mrs. Gassiot, who is recovering from a recent critical illness, and the children, remained for a longer visit.

## Johnsons Attend ONJAI Jamboree

Mr. and Mrs. Jack Johnson, Mike and Randy, returned home Monday, Aug. 17, after vacationing in Oklahoma City and Fort Worth.

They attended the ONJAI C-B Radio Jamboree in Oklahoma City. While there they visited the Oklahoma City zoo.

They returned home and Jerry Johnson accompanied them to Fort Worth, where they visited a son, Jackie Johnson and family.

They all visited the Ft. Worth zoo and went sightseeing in that city. They also spent two days fishing and camping out.

## Disaster Drill

jured" brought in by Kelo Funeral Home ambulance. The stretcher bearers made runs to the first aid station, directed by Mrs. Cal Sugg, or the emergency room where a doctor and some of the hospital personnel worked. Surgery was set up.

"We figured that if a tornado had struck, the lights and telephones would go out. Bill Hatch, Bobo Castleberry and several Wellington ministers acted as messengers to notify families of the patients," Sister Perpetua pointed out.

Others who worked at one or more emergency jobs were Sam Adams, Mr. and Mrs. Raymond Horton, E. H. Harwell, Mrs. Weldon Cleveland, Doyle Brown, Mrs. Russell Yates, Mrs. Truman Estes, Mrs. Melvin Seale, Mrs. H. L. Jenkins, Mrs. Sam McGill.

Mrs. Rosemary Langford, Mrs. Kyle Lindley, John Holton, Weldon Cleveland, Dan Langford and Jim Lindsey.

## Fire Department Joins Project Nancy Benefit

Wellington Volunteer Fire Department is joining others of the Panhandle Firemens Association in project Nancy, the collection of S&H Green Stamps and Gold Bond Stamps, Chief Jim Sikes has announced.

The project is to benefit Nancy Joe Wall, daughter of Captain Joe Wall of the Plainview Fire Department, who is a victim of the blood disease, lupus. According to information received by Mr. Sikes, her only hope is a kidney machine and a kidney transplant.

The trading stamps can be used for the purchase of the machine, according to H. L. Dent, Jr., secretary-treasurer of the Association.

Wellington area donors may leave either kind of stamps, or donations of money, with the Wellington Fire Department or with Mr. Sikes. They may also be sent to:

ington in 1941 and was dispatcher until 1947. During World War II he trained several young boys and girls to help because of shortage of employees.

He remembers, too, the telegrams he carried out to families on his former route, announcing the death of a son in action.

From 1947 to 1949, he was carrier on Route 3, no longer existent, and for the past 21 years he has carried mail on Route 2, west and southwest of Wellington.

"I haven't thought about totaling the number of cars I've worn out," he said when asked "I know of about 20 cars, some pickups and a jeep."

He remembers, too, the time his car stranded in a snow drift, the late Charley Donnell hitched up a team and wagon and together they made the remainder of the route.

Rain and snow frequently brought detours through pastures and across farms to get the mail to more families.

Long ago he lost count of the times it has taken from 9:00 a.m. until after dark to make the route. Often he drove more than 100 miles to get over it.

"I was never refused help when I had car trouble. Lots of people have stopped what they were doing and carried me on the remainder of the route," said the carrier.

There are some things he did for his patrons, however, on which no price can be set. Life is one.

Twice he has saved the lives of small children who had fallen into stock tanks. The first was Karen Maxwell, daughter of Mr. and Mrs. Jake Maxwell. The family was rushing her to a doctor when car trouble developed. Savage came by and quit his route and brought her the remainder of the way.

In 1959 he rescued Don O'Rear, small son of the William O'Rears, from a tank and revived him. For this, Claude Savage received the highest award given by the Post Office Department. It was one of two awarded in Texas that year.

He saw many sides of the people on his route. There was the day, for example, when he saw one of his patrons running down the middle of the road, his wife chasing him with a big stick.

During the depression of the '30s, he frequently did grocery shopping for patrons, returning with the food after he had completed his route for the

## Boyer Helps

From page one  
The Department of the Interior has not yet granted a permit for construction of the pipeline to carry 800 miles across Alaska to its terminal at Valdez on the south coast.

He will have no part in construction of the pipeline, but Mr. Boyer reviewed briefly some of its problems.

How will the pipe, 4 feet in diameter, be laid? If it is buried underground, will the oil, which flows at above freezing temperature, melt the permafrost beneath and let the pipe sink down and down? Some believe it will. Others say the line will float, since oil is lighter than water. Should the pipeline be constructed above ground? Or should it lie on the

## Mrs. McKinney

From page one  
Wauer, Mike Bagley, and Danny Sugg.

Mrs. McKinney is survived by her husband, W. T. McKinney of Wellington; 5 step-daughters and two step-sons: Mrs. O. B. Benson of Salinas, Calif.; Mrs. Joe Moore of Alford; Mrs. Morgan Bagley and Mrs. M. E. Jones of Amarillo; Mrs. Wesley Wauer of Ralls; R. E. McKinney and D. R. McKinney of Wellington.

Other survivors are three sisters: Mrs. George Spitzer of Denver; Mrs. W. B. Warren of Downey, Calif.; and Mrs. Lora Bantau of Los Angeles, and 15 great-grandchildren. There are 25 grandchildren.

## Leigh Nall

From page one  
She also was runner-up to Miss Irish Rose in the Shamrock St. Patrick's Day Celebration.

Leigh plays basketball and in That Skyrocket Band, and she is a member of the Future Homemakers Chapter.

Outside of school, she is a member of the Collingsworth County 4-H Riding Club and for several years she has participated widely in junior rodeos.

Watts, the only Skyrocket given a nod for the Greenbelt Bowl, is the son of Mr. and Mrs. C. L. Watts. A standout in both football and basketball, he was graduated from Wellington High School this spring.

He was the Basketball King and won honors for his work in the Future Farmers of America.

Winner of the 1970 Greenbelt Bowl Classic was the east team by a score of 19 to 14.

little while and you always had plenty of friends while you had it," he added.

During his three years on Route 5, he also served part time as substitute clerk, then he was promoted to regular clerk and assistant postmaster. But he wanted to get back on the route and in 1938 transferred to Dodson as Route 1 carrier.

"Dodson was considered the most unique route in the state at that time. The route was 45 miles long and I served two states, three counties, and No Man's Land," says Savage. The 100th Meridian boundary dispute settlement came during his tenure.

Mr. Savage returned to Wellington.

most towns hold during the winter. There is even a world championship dogsled race.

The vastness of Alaska cannot be imagined, declared Mr. Boyer. One must see it for himself. Travel by jet banishes the concept of space.

What does it look like? The nearest comparison can be the plains of West Texas—without trees, without shrubs, and frozen.

The 24-hour day in summer and equally long night in winter takes some adjusting to, but it is done. After vacationing in 100 degree heat, Mr. Boyer will go back to work where the temperature may rise to 60 degrees. In winter it will fall to 50 below zero and the chill factor plummets to 100 degrees or more below zero.

Already tourists have reached Prudhoe Bay. The state bought the airfield at Dead Horse, seven miles away. That is all there is, but people do fly in, take some pictures, then fly out on the same plane that brought them.
