

Rhee Calls For Attack On Communist China

By SPENCER DAVIS
WASHINGTON (AP)—South Korean President Syngman Rhee proposed today that an Asian army of more than two million men, backed by U.S. guns, planes and ships, launch a counterattack on Communist China.

Rhee told Congress the essence of Soviet strategy for world conquest is to lull Americans into a "sleep of death by talking peace cannot be restored in the world half Communist and half democratic."

City's Firemen Get \$30 Raise

City Commissioners last night gave firemen a \$30 per month raise, approved extension of a six-inch water line to the new Negro school, and okayed the annual budget for the Big Spring-Howard County Health Unit.

Clouds Help Knock Temperature Down

Despite a cloud blanket and a cool breeze that gave Big Spring relief from the heat this morning, the weatherman struck with his forecast of partly cloudy and continued hot weather.

In many localities, and livestock suffered.

Dallas Doctor Shot To Death

DALLAS (AP)—Dr. Jack W. Sharp, associated with a popular local clinic, was shot to death about 11:15 last night at the home of a woman lawyer, a widow.

Sharp's assailant, presumably armed with the pistol that killed the physician, was still at large today.

Atomic Issue Settled, Fight Leaves Scars

WASHINGTON (AP)—Controversy over the bill designed to carry out President Eisenhower's atomic program shifted today behind closed doors after a marathon debate in the Senate finally ended last night with 57-28 passage.

A Senate-House conference committee now must adjust basic differences in separate versions of a big bill to open the atomic power field to private industry and to authorize the release of limited nuclear information to U. S. allies.

Atomic Issue Settled, Fight Leaves Scars

Senate passage came at 9:47 p.m. last night, at the end of 13 days and nearly 169 hours of acrimonious debate. The bill was supported by 44 Republicans and 13 Democrats and opposed by 2 Republicans, 25 Democrats and independent Sen. Morse of Oregon.

The battle left open scars in the Senate over the bill's power provisions and the tactics used by Republican Leader Knowland of California to break what he termed an opposition filibuster.

Atomic Issue Settled, Fight Leaves Scars

Urging the United States to act now, Rhee said the Republic of Korea has offered this nation its 20 equipped divisions and the men to make up 20 more.

Ike Says We'll Stand Against Air Attacks

Nurses Greet French Heroine
Lt. Genevieve de Galard-Terraube, French nurse heroine of Dien Bien Phu, shakes hands with Lt. Grace Blackhurst, U. S. Air Force nurse from Bolling Field, during honor guard inspection at National Airport on her arrival in Washington. (AP Wirephoto).

Commies Would Divide Allies, He Contends

WASHINGTON (AP)—President Eisenhower said today this country does not mean to be truculent toward the Chinese Communists as a result of the recent attacks on U.S. and British planes but does propose to defend its rights.

Referring to his news conference to the plane shooting incidents and the Red Chinese charges against this country, Eisenhower said he believes the Communist position is part of a plan to separate the United States from its allies and split the West.

TROOPS TO BE PULLED OUT

Egypt Celebrates New Pact With British Over Suez Zone

By ROBERT HEWETT
CAIRO, Egypt (AP)—All Egypt celebrated today at the announcement that the British have agreed to pull their 83,000 troops out of the Suez Canal zone, probably by mid 1956.

It provides that all British troops will be withdrawn from the Suez Canal zone, probably by mid 1956.

Apple Country?

As far as W. C. Heckler is concerned it is. Heckler displays three of the large Winesap apples he produced at his place seven and a half miles north of Big Spring on the Gail road. He estimates there are two bushels of the fancy apples on his lone Winesap tree. Heckler has two other apple trees which bear smaller fruit. Water makes the apples, Heckler says. He has a small tank, about three and a half feet deep, in the midst of his trees. It is kept filled with water and nourishes some apricot and plum trees, along with the apples.

Seeks Money To Join His Wife And Son In Germany

BALTIMORE (U.S.)—A 29-year-old North Carolina veteran, forced by red tape to leave the girl he loves and his baby son behind him in Germany, sought today to raise enough money so he can rejoin them.
Leroy F. Harris poured out his story here today in a letter to the Baltimore Sun asking for "advice, publicity or help of any other kind."
Harris was discharged from the Army last November after three years of occupation duty in Germany. There, he met and fell in love with Barbara, a Hungarian girl who with her family had been evacuated from their Budapest home by the Russians in 1946 and sent to West Germany.
Several months after their meet-

ing in 1950, Harris applied for military permission to marry Barbara. He volunteered for a one-year extension of his overseas tour of duty. Then he discovered that his application to marry could be submitted no earlier than nine months prior to his discharge.
He reapplied and was told his fiancée must submit a birth certificate signed, sealed and issued by the proper authorities in the place or city of her birth. Requests to officials of Hungary, now a satellite country, went unanswered.
Harris said he filed a statement of paternity with the U. S. consul after the child was born in February 1953 and began looking for civilian employment. But arrangements to receive his discharge in Germany were rejected.
Back in the United States, he decided to wait until he had earned enough to take him to Germany and establish him in a job there. But, having no work skills, he found jobs scarce. His present work nets him \$33.45 a week.
"I seem as far from it as I was when I came to Baltimore,

New Premier Of Viet Nam Has Big Job Ahead

By JOHN RODERICK
SAIGON, Indochina (U.S.)—The horrors of war are giving way to an uneasy peace in the Indochina state of Viet Nam, but for a shy little man of 53 the battle is just beginning.
He is Ngo Dinh Diem, "the honest man" who became premier barely a month ago. An ardent Nationalist, he was chosen by chief of state Bao Dai to rescue the nation in its darkest hour. He returned from France and four years of self-imposed exile. He arrived too late on a stage where the scenery already was in place.
When the cease-fire agreement was signed, cutting the nation in two, many observers expected the embittered Premier to resign. In the end he took up the challenge which the elections of 1956 pose to the non-Communist half of the divided country.
Diem's job is a staggering one:
1. To rally the full support of the 13 million Vietnamese living in the non-Communist zone.
2. To bolster his military defenses to prevent the Vietnam from overrunning the country if they should choose to do so.
His immediate problem is to transfer as many people from the North as wish to come and to encourage those now living in the South to remain in place.
In particular he must persuade 1 1/2 million Roman Catholics of the Tonkin delta that their hopes lie with him and not Communist leader Ho Chi Minh.
This Catholic element is most important to Diem, himself a Catholic layman and brother of a Vietnamese bishop. They could cast a decisive vote in the elections two years from now.
Besides bodily transplanting this part of the population to the South, Diem must undertake sweeping reforms which will convince his people his is the right course for Viet Nam.

New Duval Official Under Indictment

SAN DIEGO, Tex. (U.S.)—Jesus Oliviera, newly-elected Duval County tax assessor-collector, has been indicted by a grand jury probing county finances on four counts of theft and conspiracy.
Saturday he defeated Gilbert Hinojosa for the post.
The former sheriff was indicted yesterday along with three others, including R. L. Adams, county school superintendent, and D. C. Chapa, former tax assessor-collector of the Benavides Independent School District. Both Chapa and Adams are under previous indictments.
Seven counts of theft of over \$50 were returned against Adams, and Chapa was indicted for conversion of public money.
Sheriff Archer Parr said he was unable to release the name of the other man indicted yesterday until he was arrested or made bond.
Meanwhile, Judge A. S. Broadfoot took the stand for the fifth day in a hearing to quash indictments issued by the present grand jury against George Parr and others.
The defendants have charged Broadfoot with bad faith in dismissing the previous jury panel and appointing the present one.
Broadfoot was repeatedly questioned by Manuel Raymond of Laredo, attorney for Parr and the other defendants, on the part the state attorney general and his men played in the costing of the jury commission and the men chosen by it.
The judge said that a report on

to live at a disadvantage, which perhaps would be enough to turn them cancerous.
The specialist said emotions can affect the glandular and nervous system, and emotional stress could also affect adversely the cervical cells.
The great possibility of cancer prevention lies in learning how cancer begins and interrupting the process, Ayre said. He told the congress the most practical present preventive is the regular examination of cells which always are being cast off from the cervix. In such examinations, experts can watch for signs of change which indicate the cells are cancerous.
SPOKANE, Wash. (U.S.)—Glenn Aiken, working a bulldozer in a residential district yesterday, attracted the usual number of youngsters who pestered, "what're ya doin', mister?"
"Digging for gold," Aiken advised.
The kids told their mothers who told other mothers. The story soon left the neighborhood and moved downtown. The Better Business Bureau, stockbrokers and city officials started getting calls.
The report was that gold had been found, that stock was for sale. Property owners were to get a fifth interest.
City Hall quickly dispatched an emissary to the scene.
"Gold?" gasped Aiken. "That was a joke for the kids. I'm helping put in a lawn."

Physical-Emotional Stress Listed As One Cancer Cause

By ALTON L. BLAKESLEE
SAO PAULO, Brazil (U.S.)—The physical—and perhaps emotional—stresses in a woman's life were suggested today as a possible cause of cancer of the cervix, one of the greatest killers among the disease's many forms.
The theory was advanced to the sixth International Cancer Congress by Dr. Ernest Ayre of the Cancer Institute at Miami, Fla.
The cervix is the neck or lower part of the uterus or womb. It is one of the most common sites of cancer among women.
Dr. Ayre gave this explanation of his concept, which he said involved a kind of chain-reaction irritation of the cells forming the tip of the cervix:
It may begin with an inflammation in the uterus continuing for a long time. The inflammation causes the release of mucus which has been found to contain the female sex hormones.
The cervix normally is exposed to this hormone at only certain times each month. But continuous exposure could well be an additional irritant to the cervical cells. The mucus secretion also is possibly alkaline enough to affect some cells.
Ayre said the process could cause scar tissue to form at the critical site. Such tissue would deprive some cells of nutrients necessary for health and force them

Physicians Favor A Standard Fee
DEDHAM, Mass. (U.S.)—The Norfolk County Medical Society advises its physician-members in its current medical news publication how to arrive at a fair fee for all patients.
It emphasized, "The fee should have no bearing whatsoever on the physician's need or lack of money or the patient's willingness to overpay."
The article said: "If the very wealthy wish to throw their weight around, the physician should consider what he might lose in prestige by accepting an honorarium in excess of the established fee."

Jap Paper Protests Visit Of British Labor Leaders

TOKYO (U.S.)—The newspaper Asahi Evening News said today the Japan visit of "anti-American, pro-Communist Aneurin Bevan" of the British Labor party "could create turmoil, if not havoc, among Japanese workers."
The English language newspaper said the "political effects" of the visit of Bevan, former British Prime Minister Clement Attlee and other Labor party leaders "will be great."
The British Laborites are planning to come to Japan Sept. 2 after a visit to Red China.
"Coming at this particular moment, it is feared the stormy petrel of the British Labor party will create turmoil if not havoc among Japanese workers who are already in a state of confusion regarding international political issues, if he (Bevan) delivers the type of rabble-rousing speeches it had been his custom to make in England," the newspaper said.

Dinner To Honor Cohn

NEW YORK (U.S.)—A testimonial dinner will be given tonight for Roy M. Cohn, and the sponsors say there is room for only a fraction of those who want to attend.
Cohn, a key figure in the recent Army-McCarthy hearings, resigned as chief counsel for the Senate investigations subcommittee after the hearings ended. Sen. Joseph R. McCarthy (R-Wis.), chairman of the subcommittee, will be speaker.
Tonight's dinner had been planned before Cohn's resignation.
The Joint Committee Against Communism in New York, which organized the Cohn testimonial, said it had to turn down 5,500 applications for tickets.
About 2,000 are expected to attend the dinner in the Hotel Astor at 57 & 14th.

Mae West Offers Old Favorite Act

LAS VEGAS, Nev. (U.S.)—Mae West opened a two-week stand at the Sahara Hotel last night, selling the same kind of sexy entertainment that launched her career 30 years ago.
She appeared with half a dozen muscle men, including Dick Dublin Mr. America of 1954, and a large crowd seemed to like what it got. This consisted of double-entendre dialogue and some songs, notably "Frankie and Johnnie," which Diamond Lil sang with Dublin.
The 60-year-old Miss West wore a black sequined gown which fully covered the bosom but left bare a not-too-trim midriff.

Gov. Knight Will Take Bride Monday

SACRAMENTO, Calif. (U.S.)—California's Gov. Goodwin J. Knight will be married Monday to Mrs. Virginia Gardner in Beverly Hills. Knight, a candidate for election in November, announced yesterday the ceremony will be performed at the Episcopal Church of our Saviour, and only about 35 relatives will attend.
Mrs. Carlson, 34, of Los Angeles, was widowed when her husband, an Air Force bombardier, was killed over Europe in 1944. The governor, 57, has been a widower since 1949. He has two grown daughters. His bride-elect is childless.

MONEY-SAVING Family Travel Plan

Now — you can take your wife and all the children at wonderful new savings!

Here's the travel bargain you've been waiting for! Now you can leave any Monday, Tuesday, or Wednesday and take your entire family at substantial savings over T & P's regular low fares. Stopovers are permitted on both one-way and round trip family tickets. Return tickets good any day of the week.

ONE-WAY — Head of family — full fare; wife and children 12 to 22 — 1/2 fare; children 5 to 12 — 1/4 fare; no charge for children under 5.

ROUND TRIP — Head of family — full fare; wife and children 12 to 22 — one-way fare good for round trip; children 5 to 12 — 1/2 of one-way fare good for round trip; no charge for children under 5.

Duval County finances made by State Auditor C. H. Caviness carried considerable weight in making up his mind.
He said he took into consideration affidavits by J. L. MacDonald and Diego Heras of Benavides, which were introduced at a court of inquiry called by him shortly before the discharge of the grand jury.
Concerning the influence of the attorney general's information, Broadfoot said he couldn't break down the various influences into percentages.
"It did have weight," he said. "If they told me facts, I gave them credence enough to go on with the investigation."
He added that he wasn't guided by the attorney general in his final decision.

House Votes Foreign Aid

By WILLIAM F. ARBOGAST
WASHINGTON (AP)—The House formally passed and sent to the Senate today a bill appropriating \$5,208,419,979 to finance the foreign aid program for the present fiscal year.

The 265-128 roll call vote ratified tentative approval given the bill yesterday after seven hours of debate.

The bill is the last of the appropriation measures to be considered by the House this year.

Its total is \$812,212,534 less than President Eisenhower requested, but his House leaders, with Democratic support, beat back efforts to trim it further.

The bill went to the Senate, where it joins a separate measure authorizing the foreign aid program. The Senate planned to take up the House-passed authorization today.

beaten down decisively. Major fights were on amendments to cut sharply allotments for military aid for Europe and Southeast Asia. Reductions totaling \$12 million dollars in these two programs were proposed by Rep. Glenn B. Davis (R-Wis) and were fought by Republican leaders with heavy Democratic backing.

Biggest cuts approved by the House included \$430,479,554 in new and old funds for general military assistance to non-Communist nations and 169 million for direct support of military forces already in existence.

The bill allots \$2,895,944,000 in new cash and \$2,312,475,979 in carry-over funds. An estimated eight billions in previously appropriated funds not yet spent but already obligated would remain in the foreign aid coffers.

Fort Worth Oil Man Pays Huge Price For Colt

LEXINGTON, Ky. (AP)—A fabulous \$80,000 bid for chestnut son of Nasrullah, a record American price for a thoroughbred yearling, echoed from Kentucky's Bluegrass horse country to Texas today.

F. J. Adams of Fort Worth, retired oil executive, bought the colt for the Adams Syndicate from the consignment of Clifford Mooers' Walnut Springs Farm.

Young Firebug In Custody Again

BURBANK, Calif. (AP)—A 13-year-old boy, recently released from Juvenile Hall after a year's detention for arson, is back in custody after setting another fire.

Police said he caused nearly \$600,000 damage in 15 fires last year. They included a \$250,000 lumber yard blaze and a \$300,000 warehouse fire. A condition of his release was that he have 24-hour supervision at home.

This Burglar Just Wanted Some Food

SAN ANTONIO (AP)—When San Antonio police captured a burglar in a restaurant, he explained that he was hungry; hadn't eaten in three days.

Then they looked over the loot. It included 31 pounds of bananas, potato chips, a bag of chili peppers, hot sauce, gum, dill pickles and some cigars.

Withdraws From The August Run-Off

SAN ANTONIO (AP)—George H. Echols, who came in second in the race for state representative here Saturday, has withdrawn from the Aug. 28 runoff.

Echols, who campaigned on a platform of liquor by the shot and local option for horse racing, said yesterday he was withdrawing to work for the re-election of Gov. Allan Shivers.

The incumbent, Marshall O. Bell, didn't poll a majority in the race.

Drive-In Window For Water Bills

BEAUMONT (AP)—Starting next Monday, Beaumonters can pay their water bills without getting out of their cars.

Prompted by the popularity of a drive-in library, the city decided to let people pay their water bills there too.

Pegleg Bambi

Although minus half a front leg and the hooves from the feet on his right side, this 5-week-old fawn gulps with gusto the milk given him by Don Williams and Dona Mae MacNeill. The tiny deer was injured when struck by a mowing machine in a hayfield on the Walter J. Cook farm near Albion, N. Y. His twin was killed. The Cooks outfitted Bambi with the peg leg and nursed him back to health. (AP Wirephoto).

Chou Makes Bid For Favor Of Potent Overseas Chinese

By FRED HAMPSON
HONG KONG (AP)—A key to Red China's attitude toward Southeast Asia may be provided by its stand on the issues of overseas Chinese.

Burmese sources said last week that Premier Chou En-lai had promised to drop claims to "dual citizenship" for Chinese who live in Asia outside China proper. Not many Chinese here—and Hong Kong Chinese consider themselves overseas Chinese—think the promise ever will come to fulfillment.

The overseas Chinese are key people of an importance far out of proportion to their numbers. Their strong ties with China last into fourth and fifth generations largely because they keep Chinese citizenship in addition to that of their country of residence. There are Chinese families in Singapore, for example, which haven't seen China for four generations but which still hold China citizenship.

What is more important to China, they almost all transmit, or used to transmit, money home to parents, relatives, business associates and friends.

These donations in past years have reached as much as 700 million dollars. They supplied the foreign money that enabled China to make up an unfavorable trade balance.

The revenue to the government was terrific, and the setup that made it last generation after generation rested on dual citizenship.

The Communist Commission of Overseas Affairs put such rigid controls on remittances, took such a big slice in direct levies, that the golden flow dried up. The cutting off of commerce with the West didn't help. Business remittances of overseas Chinese outlets to parent companies in China stopped. The shifting of trade to Russia and the satellites brought the narrow

Ellender Wins Easy Victory; M'Clellan Has Bare Majority

By The Associated Press
Sen. Allen J. Ellender coasted to a fourth term in Louisiana's Democratic primary yesterday and Sen. John L. McClellan (D-Ark) held a slender majority against his first primary opposition in 12 years.

Oil Failures Are Recorded In New Mexico

SANTA FE, N. M. (AP)—Attempts to extend New Mexico's oil production to unexplored areas failed in recent days.

The Lion Oil Co. abandoned its Lion Oil Co. Haire Well, which was drilled four miles southwest of Kenna in a part of Chaves County where there is no production.

Entertainment Too Hot For Building?

DALLAS (AP)—Abe's Colony Club—where Christine Jorgenson, the former GI, is the current attraction—advertised the entertainment as "hot."

The place burned down early today soon after the final midnight performance. There was no estimate available of the damage.

Only Aspirin At Its Best

Carries This Name **St. Joseph** Of Highest Quality

CUNNINGHAM & PHIPPS

Only Phillips offers this "First" in Motor Oils!

The toughest standard ever set up for automobile motor oil is the Mil-0-2104 Supplement 1 test. New TROP-ARTIC is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer... an oil so good it can double the life of an automobile engine!

Compared to ordinary motor oils, new TROP-ARTIC reduces wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and rings cleaner. It saves you money by increasing gasoline mileage.

Phillips 66 TROP-ARTIC is a superior all-weather oil... S.A.E. 10W-30. It flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. Any car, in any climate, at any time of the year will perform better with Phillips 66 TROP-ARTIC.

BIG SPRING DAILY HERALD

First Major Tariff Increase Is Placed On Swiss Watches

By WHITNEY SHOEMAKER
WASHINGTON (U)—President Eisenhower has raised the tariff on many watches manufactured abroad but a spokesman for U.S. watchmakers says most Americans will still buy Swiss imports. The President's decision nonetheless was received with pleasure by the domestic industry and criticized from other quarters.

Swiss Minister Charles Bruggmann said it dealt a "serious blow" to his country's relations with the United States. He said the step hadn't been anticipated from a friendly government.

Eisenhower announced the first major tariff boost of his administration late yesterday. Effective today except on shipments already in transit and cleared through customs by Aug. 26, it hikes the duty as much as 50 per cent on watches with no jewels or no more than 17 jewels.

The effect will be to raise imported watch prices \$3.50 to \$5. The Federal Tariff Commission had recommended the increase. It said heavy imports were hurting the American industry.

The White House said raising tariffs also would keep the industry in shape to produce watch movements and other precision devices "necessary for national defense."

Paul F. Mickey, vice president of the American Watch Manu-

facturers Assn., said the tariff increase gives American producers "a chance to survive" in the face of a flood of Swiss watches that has "literally strangled our industry."

He said the boost still wouldn't equalize costs and predicted Swiss

imports "will continue to supply the majority of the American market."

On the other hand, CIO President Walter Reuther labeled the move "tragic" and said it would antagonize "countries whose friendship we seek."

Riding

THE GRUB LINE With Franklin Reynolds

Maybe we should refer to J. N. Woody Jr., of Stanton as "a block off the old chip."

He's a larger man than his daddy, Jess Woody, who at one time was one of the half dozen best pistol shooters in the United States, and a man who didn't far miss being national pistol champion.

Young Woody is just 24 and with the record he is already rolling up it looks like he's going to put Stanton on the map in a bigger way than even the elder Woody has done with many hundreds of medals and trophies won in shooting matches throughout the nation, from coast to coast, and from Canada to the Rio Grande, and then down into Florida.

Maybe too, it's no more than natural that we should expect the younger Woody to be a top shooter with the tradition in which he has grown up, and with the coaching he has received from his distinguished father. He says of his shooting that: "All I know about it my daddy has taught me."

And believe me, that's plenty.

The junior is just a few days back from Austin where he won the Texas state .38 calibre championship at the police range in Zilker Park. This was the state match shooting, and in winning it Woody beat by one point, 866 to 865, Bill Toney, once a national champion and now just about the fastest man with a gun in the whole Southwest. Toney is now, and has been for some time, chief firearms instructor with the Border Patrol, and he performs drawing and shooting feats with a six-shooter or automatic that makes those boots, and even the older patrolmen, marvel at his skill.

But Woody topped him a point to win this championship. To do this he fired the 866 out of a possible 900. Thirty rounds were fired each at slow, timed and rapid fire. The slow was at 50 yards and the other two at 25 yards. On the 50-yard range Woody fired 194 out of a possible 200.

And shooters especially will be interested in this. Woody wasn't using a sixshooter or a match automatic. He was shooting a Colt Super 38 that had been converted from the rimless .38 Automatic cartridge to take .38 Special mid-range wad cutter cartridges and to feed them through without failure to function. The Super was converted by, and belongs to, Lieut. Howard Peters of the El Paso Police Department, a pretty fair gunsmith, as his conversion job proved. Woody didn't fire handloads either, but Western Match Wadcutters.

In his sporting goods store and barber shop, Old Man Woody, has about a dozen medals in their boxes laid out on the counter. These are the ones the son won at Austin, and there's no doubt about it but that Jess is prouder of these medals of J. N. Junior's than he is of those hundreds he won himself a few years ago.

Young Woody is just getting settled down into the shooting game. Jess almost brought the national championship to Stanton. We're predicting the boy is going to get that job done.

erally are in bad condition because of the drought.

The farmers and the ranchers know all this. I'm not telling them anything new. It's the city folks who should stop and go out in a pasture or two, or a feed or cotton field or two. The drought is far from broken.

Martin Vavra of the Stanton unit of the SCS says everybody should go back and read again that Associated Press drought story that was printed in papers all over the country last Sunday.

"That story sums up a bad situation," comments Vavra.

We've had a mess of home-grown cantaloupes at our house and they were certainly delicious. The best we've eaten in a long, long time with all due respect to the Pecos melons.

These were grown by Low Ashley who lives two miles north and a mile west of Lenora.

We also know where there are some mighty good watermelon prospects in Martin County and we're just waiting for them to get ripe. (Lee Jenkins please read this).

Library Receives Four New Books

Four new books have been received by Howard County Free Library, Mrs. Opal McDaniel, librarian, has announced.

The books are "Unto a Good Land," by Vilhelm Moberg; "Personal Security Through Faith," by Lowell Russell Ditzgen; "An Old Fashioned Girl," by Louisa May Alcott; and "Date Data," by Beverly Brantford.

A shipment of 200 children's books is expected within the next two weeks, Mrs. McDaniel said.

Here's Dictionary On Eskimo Language

OTTAWA, Ont. (U)—Now you can speak Eskimo!

The Rev. Arthur Thibert, after 27 years in the arctic, has produced a 4,000-word dictionary much like the Spanish-made-easy texts Americans use in Latin America.

The Roman Catholic missionary says his aim is to provide a suitable tool for missionaries and others working in the arctic. The dictionary is elementary, he adds, since the Eskimo language is full of gimmicks. A single root word may have 100,000 variations.

Canvass Changes Vote Totals For 12 Candidates

Official canvass of primary election returns Tuesday gave 12 candidates vote totals slightly different from those reported in unofficial returns Saturday night.

In no case, however, was the outcome of a race changed.

The canvass also disclosed that a total of 6,291 ballots were marked in the primary last Saturday, John Dibrill, county Democratic chairman, reported.

The canvass showed District Judge Charlie Sullivan received 3,872 votes instead of the 3,873 reported unofficially, County Judge R. H. Weaver polled 4,014 instead of 4,015.

Johnny Underwood received 296 votes for sheriff, instead of 338 as reported earlier. W. B. Puckett received 274 for county commissioner of Precinct No. 4, rather than 260 as listed unofficially. Ralph Neill received 234 votes in the same race. His total was reported unofficially at 242.

W. H. Hood was credited with 548 votes officially. Unofficial returns gave him 553.

In state and district races, George Hinson received 1,244 votes, not 1,249 for lieutenant governor, while Ben Ramsey got 3,646 rather than 3,633 in the same race.

For associate justice of the Supreme Court, Clyde E. Smith polled 2,964 rather than 2,967. For the court of criminal appeals, W. C. Graves received 645 votes instead of 646 as was reported.

Harley Sadler was favored by 4,978 votes in Howard County; his vote had been listed at 5,418. Obie Bristow received 5,871 votes for state representative, a change of one vote from his unofficial total of 5,572.

The county's total vote by precincts included No. 1—490; No. 2—1,213; No. 3—782; No. 4—969; No. 5—54; No. 6—82; No. 7—74; No. 8—579; No. 9—367; No. 10—136; No. 11—120; No. 12—82; No. 13—129; No. 14—31; No. 15—51, and No. 16—523. Absentee votes totaled 509.

These were grown by Low Ashley who lives two miles north and a mile west of Lenora.

We also know where there are some mighty good watermelon prospects in Martin County and we're just waiting for them to get ripe. (Lee Jenkins please read this).

The north lanes of Highway 80 in Martin County from the Howard County line to Stanton have been opened to traffic. Eventually these lanes will carry westbound traffic. Now while they're being used the old highway between them and the T&P right-of-way is being broken up for the new paving that will, in time, carry the eastbound traffic.

Work is also progressing rapidly on the Howard County section of Highway 80 from Big Spring to the Martin County line.

Watching that heavy equipment break up miles of that old paving in a day, we couldn't help but recall again when such work used to be done by men with picks and teams and scrapers and dynamite. It took a little longer to build roads in those days, just as it took a little longer to get over them.

The state is going to cooperate with Stanton on traffic control, according to Chief of Police Edward McCain, by slowing down traffic as it approaches the Stanton city limits.

Jack Wattenbarger, formerly with the Dawson County Farm Bureau, is moving to Littlefield with wife and baby son, where he will become service officer with the Lamb County Farm Bureau, one of the most active in the state.

At Littlefield, he will succeed Marvin Carter, who was service officer there after several years with the Texas Farm Bureau.

Carter, accompanied by his family, is going abroad on an agricultural assignment with the Department of State, for the purpose of helping some other countries develop a more efficient farming and livestock economy.

Summer Recreation Programs Near End

City-wide summer playground programs will conclude Friday afternoon, B. B. Lees has announced. The programs, beginning June 1, have been held at ABC park, Lakeview and junior high school.

Wife Follows Her Husband In Death

BALTIMORE (U)—Mrs. Mae A. Rutter Blen, 49, under treatment for a coronary impairment, was warned several months ago that a sudden shock might be too much for her.

Her husband, Charles B. F. Blen, 63, and apparently in good health, died yesterday after a heart attack in their home.

Mrs. Blen collapsed when her husband was stricken. She died five minutes later.

More women than men wear glasses—56.4 per cent of wearers are women.

Big Spring (Texas) Herald, Wed., July 28, 1954

SUPER-HEAT AHEAD? Odds Say August Is To Be Hotter

Hot? Odds are that it will be hotter in the month ahead.

This is statistical rather than prophetic. Records of the past 10 years, for example, show that August is more apt to contribute

Big Birthday Party Ahead For Hoover

WEST BRANCH, Iowa (U)—Just about the biggest birthday party in Iowa's history is being planned here next month for Herbert Hoover, former President of the United States.

Hoover will be 80 Aug. 10.

On that date, this town where he was born will be host to thousands of Iowans and a large group of distinguished persons invited to help honor Hoover.

More 100 and plus days than any other month.

Average for the past decade is 7.8 days of the super-heat for August, 4.4 for July. June, surprisingly, is next to hottest month of the year with 6.5 days of 100 or more degrees maximum temperature. May and September, while susceptible, are mild. May has 1.4 days per year, September only 1.3.

The past three years have boosted the average number of days of wilting heat. They averaged 30.3 days a year as compared with 17.8 for the previous seven years.

The worst heat wave of the decade occurred in 1944 when there were 12 consecutive days of 100 or more degrees temperature. Already the current spell is in second place with 10 consecutive days of this withering heat. However, the 1944 stretch was distinguished for its persistence in the higher brackets for average of the stretch was 104.7 degrees. Although we have experienced 107 degree weather in the present spell which started July 18, there have been a number of days with maximum readings of 100 even.

Maximum reading for the past decade was 109 on June 27, 1945. If you are interested in tables, here

Hot news from Detroit!

PLYMOUTH

PROVED AMERICA'S BEST-BUY LOW-PRICE CAR IN ACTUAL PART-BY-PART COMPARISON!

Now, for the first time, you can see the results of part-by-part comparison between Plymouth and the other two best-known cars in the lowest-price field. Now you can actually see why Plymouth is your best buy!

In Detroit recently a 1954 Plymouth and stock models of the "other two" were taken apart completely. The parts were placed side by side and examined. Comparison proved conclusively that Plymouth is America's best-buy low-price car.

You can see this proof in an 8-page illustrated book—a FREE copy is waiting for you now at our showroom. Read it today, then drive a new Plymouth. You'll agree: Plymouth is best buy!

only Plymouth dares to compare

part by part—with the other two cars in the lowest-price field

FREE! Get this 8-page book today at our showroom! It is your buying guide to real BEST-BUY value! Read it before you buy ANY car.

You'll find "Plymouth Dealers" under "Automobiles" in your classified telephone directory

your Plymouth dealer headquarters for value

It takes children a long time to appreciate correction. We should recognize God's fatherly intention, and profit by it. "As a man chasteneth his son, so the Lord thy God chasteneth thee." — Deut. 8:15.

Benefit Of Downtown Clean-Up Would Outweigh Effort, Expense

Every spring we turn on the heat and the city joins hands in a pretty effective clean-up campaign. The scores upon scores of loads of trash which the city hauls away is testimony to the participation and of the good that is accomplished.

One clean-up a year is hardly sufficient. Ideally, the situation calls for continual activity; practically, it calls for occasional promotions and stimulation. A proper field for such promotion now, it occurs to us, is the downtown area. We believe that a clean-up and city-campaign concentrated in that area could produce benefits far outweighing the efforts and expenses involved.

For one thing, we might enlist wholesale cleaning of the store fronts. There's no doubt that a general face-lifting program would be a great boon, but failing in this we might encourage use of paint.

And if this isn't possible, there's no reason why brooms and water could not be used to advantage.

For another, sidewalks could be swept clean (and they ought to have a good scrubbing to knock loose the tobacco juices, etc.). Removal of the overnight accumulation of trash and dead grasshoppers, crickets would improve appearances.

Certainly a good, thorough clean-up of store fronts and the alleys would be helpful. A good street washing on the heels of street sweeping would help.

And finally, something might be done about cleaning trash that accumulates along vacant areas. The piles of paper and trash create eyesores. We started to say they gave the wrong impression but so long as they are permitted to go untouched, we're not so sure the impression they give is wrong.

Arrogance Fed By Success Due To Make It Rough On Us In Orient

Given a little success, the Communists are hard to live with—a reaction characteristic of all forms of totalitarianism. The West bit the dust in Indochina, took a diplomatic and military beating—so the Communist Vietnam forces started violating the terms of the cease-fire before the ink was dry on that document by pushing their bulldozers into territory from which the agreement barred them. Peiping sent cheers to Ho Chi-minh for this bit of Red skulluggery.

Peiping did more. Its warplane based on Hainan attacked a British transport plane over the open sea and shot it down. Among the 10 presumed to be dead were Leonard Lee Parrish and two sons, 4 and 2, of Iowa Park, Texas. Mrs. Parrish and a 6-year-old daughter survived.

When U. S. rescue planes moved in to effect a rescue, and while still over the open sea, they were attacked by Communist planes, and two of the Red planes were shot down. The U. S. planes went on to pick up what survivors they could—determined in their mission of mercy in spite of Communist interference.

A stern rebuke went to Peiping from Washington. The British also protested with vigor. Peiping's reply: The British plane had been mistaken for a Nationalist China plane, so sorry, please. As for "Imperialist" U. S.: It could expect further shooting down of Nationalist planes every time the U. S. "sends" them out.

The Chinese Communists and their stooges in Indochina are obviously feeling their oats. In keeping with the display of brutality and bad manners in Indochina and off Hainan, there will be other incidents of this kind in Korea and elsewhere. It is the Reds' way of showing their contempt for the West, which had been administered a sound beating in Indochina.

From here on out, the West, and particularly the U. S., can expect nothing but arrogance and continual incidents of this sort in Southeast Asia and off its coasts. Item: Two Britishers were assassinated by Communist gangsters just outside Singapore while the incidents mentioned above were taking place. Looks like we are in for it.

Washington Calling—Marquis Childs

It Takes Strong Religion For Nations To Put Up Resistance

Asia is the homeland of the religions of the human race. While Catholicism ultimately developed in the European lands of the Roman Empire and most Protestant groups grew in the Germanic countries, Switzerland and England, Christianity is an oriental religion out of Palestine and Syria. Although all human beings, even the most primitive, develop some form of religious experience, the great universal churches which have crossed national borders and have affected millions of people are the specific contributions of Asia to civilization.

Religion has, in every Asiatic country, determined the social characteristics of the people. In China, historically four religions have been important: Taoism, Confucianism, Buddhism and Islam. Taoism and Buddhism have become largely ritualistic in China, with emphasis on supernatural intervention in private lives. Confucianism is a pragmatic, aesthetic, materialistic philosophy which has taken on the characteristics of a church and which has, in Western eyes, at least, the formalities of ancestor worship. Islam in China is extensive, reaching from Turkestan to Shantung.

Hinduism, as a religion, is pantheistic, gloriously exultant in its literature but degeneratively ritualistic and superstitious in its non-philosophic expressions among the masses. Its literature is beautiful almost beyond anything that appears in other religious conceptions. Indian Buddhism has taken on several manifestations, some often producing degenerate sex aspects. It would be impossible to catalogue all the varieties of religious expression in India and the adjoining countries, and it is probably unimportant to do so here. What is significant is the enormous role played by great religions in these countries and how they have degenerated from the noblest spiritual movements among the people to ritualistic superstition.

Islam is the religion of Pakistan and Karachi is one of the most important Islamic cultural centers in all the world. Islam reaches into many parts of India. Pakistan is a bulwark against Communism as, thus far, are all Islamic countries. Whereas Nehru, in the current climate of India, finds public opinion antagonistic to stern resistance against Russia, Pakistan is an alliance with the United States and is firmly set against Marxism.

Christianity came to China early in the Nestorian manifestation, probably in the 7th century. The Nestorians were absorbed in the native population and disappeared, leaving only an historic record. The Dominicans came in the 14th century and the Jesuits in the 15th century. Among the greatest of the Jesuit missionaries was Matteo Ricci (1552-1610) who exercised a tremendous influence in the imperial court. At one period, the Chinese emperor, K'ang Hsi (1655-1723) was ready to adopt Christianity as the court religion and to convert the country, but the Jesuits and Dominicans got snarled in a quarrel over the name of God, whether it was to be translated as Shang Ti or Tien Chu and when the pope intervened to instruct the Chinese emperor as to the correct use of Chinese, the emperor ordered Christian missionaries out of China (in 1706) with a few exceptions.

Christianity also moved in from the South, influencing India as well as China through the missionary efforts of Francis Xavier whose memory is still green. Also British and American Protestants appeared in the early 19th century in South China as missionaries, expanding their influence throughout the country. So potent were the small number of Christians that until the Communists took over, the Ministry of Foreign Affairs in China was almost entirely manned by graduates of Christian colleges. Under British rule, both Protestant and Catholic missionaries made considerable progress in India. Goa, a Portuguese colony in India, developed into an important Catholic center. In both countries, American Catholic and Protestant missionaries had grown increasingly numerous and influential until World War II. However, wherever the Chinese Communists take over, Christians are expelled and in some instances martyred.

It is historically interesting to note that only Christianity and Islam possess the inner strength and courage in these countries to generate opposition to Marxism. It is in the nature of the current world struggle that a Confucian will find little, from a philosophic standpoint, that is offensive in Marxism, nor will a Hindu. On the other hand, a Christian or a Moslem, in whatever country, obviously cannot accept a philosophic system which rejects the concept of a mystical God who created the earth and all that is upon it, including man.

The Big Spring Herald

Friendship Loses

LONG BEACH, Calif. (AP)—"I'm worried about my buddy," Earl D. Bucher, 21, told police. "He hasn't come home and I think he may have had an accident. His name's Jerry Shore."

L. C. J. Novotny said Shore was not reported in any accident. "Maybe he was arrested then?" suggested Bucher. Novotny found that was true.

"Well, I think you got the wrong guy. I'm the one you want on that traffic warrant," offered Bucher. Sure enough, the officer discovered Bucher actually was the wanted man.

"Now you'll let Jerry go now?"

"Now, we can't do that. He's wanted in Denver on a forgery rap. That's why we picked him up. You just talked yourself into jail, my boy."

"Now, Class, What Have We Learned?"

The World Today — James Marlow

Atomic Argument Sprang From Old Issue Of Public Vs. Private Power

WASHINGTON (AP)—The Senate fight, made by Democrats and a couple of others on the Eisenhower atomic energy law, centered mainly on the question of public versus private power.

The Democrats' fight took two directions: one involved the Tennessee Valley Authority (TVA) and the other the Atomic Energy Commission (AEC). The TVA supplies electric power to a wide area of the Middle South and to an AEC plant at Paducah, Ky. If it had not been pumping some of its juice into Paducah, TVA would have some of it in reserve for the growing power needs of its area.

To meet those needs, it asked the administration that it be allowed to build another plant. The administration didn't let it. And on June 17 President Eisenhower told the AEC—not TVA—to negotiate a contract with a private utility group to build a 107-million-dollar steam plant at West Memphis, Ark., to supply TVA with about 600,000 kilowatts of power.

This power would not be for AEC use—AEC would only be acting as a government broker in the deal—but for TVA. The administration, dedicated to more free enterprise, has spoken in favor of more private development of power. The private utility group in this case—Middle South Utilities, Inc., and the Southern Company—is known as the Dixon-Yates group after E. H. Dixon, president of the former, and E. A. Yates, chairman of the latter.

Democrats accused the administration of trying to block further TVA development and of using the AEC as an instrument for doing it. They argued it would cost the government, over 20 years, 90 million dollars more for the private power than if TVA had built its own plant.

And the Eisenhower administration "contemplated" paying all the federal, state and local taxes for the Dixon-Yates' group on any profits from supplying power to the TVA. This was mentioned by Rowland Hughes, director of the budget, who told AEC the President wanted the negotiation carried out.

The Democrats weren't able to block the administration from going ahead with this deal but they did get enough votes — on an amendment proposed by Sen. Gore (D-Tenn.)—to keep the federal government from paying the private utility group's federal taxes, if the deal goes through.

But the House passed a similar bill without this provision. Now the House and Senate must compromise their differences on the slightly different bills. So the final law may not contain the Gore amendment. Both houses will have to approve the compromise, whatever it is, before it can become law. If the Gore amendment is dropped from the final draft, the Democrats may start fighting all over again.

The basic law on atomic energy was passed in 1946. But there have been changes since then—

In foreign relations, technological developments, and progress in realizing development of atomic energy for peaceful purposes is closer than it seemed eight years ago.

So the bill which the administration supported to revise the 1946 act would, among other things, let this country share some of its atomic information with its allies. It can't do so now. And it would let the President arrange with other nations, even Russia, for pooling atomic materials for peaceful uses.

Those parts of the bill, in spite of some objections by the Democrats that they don't go far enough, went through the Senate untouched. The Democrats concentrated most of their fire on another section which would open atomic development, until now a government monopoly, to private industry.

Notebook — Hal Boyle

If Your Heart Beats Fast, Just Think Of Poor Mouse

NEW YORK (AP)—Facts, fancies and figures from an oddity almanac in a modern world:

Let's start off with the girls, since they interest everyone. Are "falsies" really necessary? Even girls torn by doubt, or stern feminine honesty, now have a choice in their solution. A manufacturer has come out with a brassiere coated with a thin layer of foam rubber to achieve a desired silhouette, and claims he is doing very well overseas from Belgium to Peru.

Do you know how often your heart beats? If you live the biblical span of 70 years, it will pulse between two and three billion times. The encyclopedias are chary of saying how often the average human heart beats. They don't want to worry you, but mine checks 75 when I am not worried, and 100

plus when the boss is looking. But they will tell you that a horse's heart beats 30 times a minute, these are the ones I bet and lose on; and a mouse races his pumper 500 to 1,000 times every 60 seconds.

Names not only make news they also make you wonder. The town of Smackover, Ark., for example, came from the French term, Chemin Couvert, meaning covered road, and I can't find out why. The authorities all agree on Smackover, but nobody I know claims to know how Wham, La., got its punch. Business firms are easier to trace. The Rugrofters, a major hand-woven rug company now in Puerto Rico, migrated from North Carolina, where its weavers still held to the old Scottish word "croft," meaning a small farm.

You probably never bothered to think about how the great Shell Oil Co., got its tag. Well, back in the 1830s it was a small general trading company that, among other things, earned a fast buck by importing sea shells from the Orient to make mother of pearl. Then it stumbled into oil, and quit worrying about the button market.

But suppose it had adopted the title, "Mother of Pearl, Inc.," and then had to go into the world market peddling gasoline? An industrial outfit can, of course, change its corporate name to meet the purposes of its life. But a child is more reluctant to turn upon its parents, and this is why every parent should give a child at least four names at birth, so that later in life it can have a choice if it feels it needs it.

The almanac editorial: Last winter, as usual, we warned our readers against the spreading prevalence of the common cold, which year after year begins more and more to resemble "virus X," an ailment for people who, for personal reasons, prefer to catch an uncommon cold.

Now we summon our subscribers to a concerted attack on ragweed, which many of our friends say causes them to suffer from hay fever, a disease they say is an allergy.

Election Reporting Explained, With Glad Sigh That It's Over

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

When you open your front door and extricate your paper on the Sunday morning following the fourth Saturday of July each even numbered year, your eyes immediately skip about the front page for word on any of several political races.

This is such a routine that it is almost without exception. People simply expect to find the election returns there—and of course they are not disappointed. Yet this is hardly a routine matter, although rather fixed patterns contribute to presentation of the returns. A lot of work and money go into providing you a dime's worth of information on who won. That's our business and that's what you pay your dime for and no heroics are involved either way, but you might be interested in knowing how results are gathered and presented. Judging from the number of calls we get right in the heat of the day's work, when voting is still going full swing, wanting to know "how did the election turn out," many people have no conception at all.

A lot of preparatory work is involved—in getting sample ballots; in drawing off a big board with lines for every single candidate and cross lines for every voting box or sub-total; in lettering in names of offices and candidates; in assigning certain staff members to handle specific jobs. In the middle of the afternoon there must be a pause while reporters scatter to the various precinct meetings, return and clear the story long before the polls close.

Gathering returns generally heads in the office of the county clerk. Election judges bring in the filled ballot boxes, their reports along with poll lists and tally sheets. One copy is opened (another is retained for the executive committee, or the county judge, in case of a general or special election). As returns are opened, a copy is made by a staff member of the vote

for each candidate, and another reporter personally brings it to the Herald office. Here the returns are transcribed to the board in the order that the voting boxes are received. When several boxes have reported, sub-totals are run and are entered in the columns in different color pencil. As other boxes come in, occasional additional sub-totals are taken in order that a running score may be had on the trends.

While this is going on, the results are sent to the composing room for conversion into type and to be put into a tabular form in chronological order of the precincts. After all results are in (several calls may be made to voting boxes to note progress in counting), new totals are run on each candidate to check against error. The printed tabulation is checked against the original lists received from the clerk's office.

Seldom can any stories be written until all the boxes are in. Occasionally a few precinct races are settled without a missing box, but if a town box is out, it involves races in everything except the outlying justice precincts and three commissioner precincts.

All the while, there must be telephone calls to correspondents in surrounding cities to gather results from their counties. On district races, exchanges with other newspapers frequently result in speedier and more economical gathering of returns. Also, the Herald is responsible for reporting the county returns to the Texas Election Bureau for inclusion in the state and district office totals.

All of this must move as rapidly as returns are available in order that you be provided with the latest and most complete results. Like Christmas, we can sincerely say that we are glad that it happens only at intervals sufficient to permit us to recuperate.

—JOE PICKLE

Matter Of Fact—Joseph and Stewart Alsop

Country Not Doing Enough To Counteract The Soviet Menace

WASHINGTON — Long ago, in the far happier past, these reporters were among the first to insist that Soviet post-war intentions were inherently evil. In those days, this opinion of our former ally was still very unfashionable, and was regarded as excessively gloomy.

A charming lady—the wife of Field Marshal Jumbo Wilson—therefore complained that the reports in this space were much too depressing. She was asked to suggest something to write about more cheerful than the first Iranian crisis, which was then in a dark and acute stage.

"Oh," said Lady Wilson, who was a strong British bird-watcher, "why not try birds?"

This is one of the recurring moments when Lady Wilson's advice becomes very tempting. The political realities are immensely repellent. They have been officially concealed from the American public. Writing about those realities sounds like a description of a nightmare.

But it is not a nightmare. The realities have got to be faced. And this is the beginning of an attempt to assess what those realities truly are.

To begin with, this country has now accepted a new Munich in the Far East. ("Accept" is the new word of art used in this administration, to mean flabbiness in the face of danger.) The history of the decision not to intervene to save Indochina is enough to suggest the decisions future consequences.

Contrary to common report, the Joint Chiefs of Staff were unanimous that American interests demanded intervention. Gen. Ridgway is alleged to have dissented, but this is not correct. By a conventional infantry-man's analysis of the cost, character and duration of the war, Gen. Ridgway certainly made the project very unattractive. But he favored it all the same.

Besides Admirals Radford and Carney, and Generals Twining and Ridgway, Secretary of State Dulles insisted that Indochina must be saved. So did Vice President Nixon, with the authority of the detailed knowledge he gained on his Far Eastern trip. In the other corner, however, were Secretary of the Treasury Humphrey and the President's brother, Milton Eisenhower, who is this administration's power-behind-the-scenes.

Because of the Treasury's budget, and because Milton Eisenhower argued that the "country wouldn't stand for it," the President decided not to do what the Joint Chiefs, the Secretary of State and the Vice President insisted we ought to do. Unfortunately, a balanced budget is a very poor protection against the consequences of a Munich. And unless every high American official in close touch with foreign and defense problems is utterly mistaken, the consequences of a Munich must now be expected in the Far East.

Secondly, while accepting this Far Eastern Munich, the administration is also tacitly accepting certain other risks that are perhaps even more serious.

On the other hand, an impairment of our basic military asset is being tacitly tolerated. Gen. Curtis Lemay's Strategic Air Command is a superb instrument of war. It is not being cut down. It is getting better planes. But its striking power is still being imperceptibly reduced, by the growing political and military threat to our overseas air bases.

New Soviet guided missiles, which can bring these bases under fire, were described in this space last week. That is the heart of the military threat. The political threat lies in increasing unrest of allies, who own these bases. Loss of these bases will be equivalent to the loss of 60 per cent of SAC's bombers; for it will reduce by 60 per cent the sorties that can be flown.

On the other hand, the administration is also tacitly accepting the inevitability of total peril. In contrast to SAC, the Soviet Long Range Air Army is rather rapidly improving its striking power, and the Soviet stock of atomic and hydrogen bombs is continuously growing. Meanwhile the story of American air defense is still the same scandalous story of cheese-paring, delay, disorganization and neglect.

For these reasons, the time is coming rather soon—perhaps in two years—when the United States will be exposed to total destruction by Soviet air attacks.

Somewhat further in the future, the time is also coming when the Soviets will have an intercontinental ballistic missile, against which there is no defense. The Soviets have been going all-out to get this missile. We have not been going all-out. Hence there is a good chance the enemy will have the ultimate weapon before we have it.

A Munich made already; our chief military assets being demonstrably devalued; the time of total peril not very far in the future; and even grimmer developments that may follow after that—these are the main features of the situation now confronting us. An emergency exists which is not being treated as an emergency. One must ask, therefore, where this emergency will lead. It would be nicer to think about birds, but it would be remarkably imprudent.

POTOMAC FEVER

By FLETCHER KNEBEL

WASHINGTON — The Senate filibuster against Ike's atom bill becomes the longest in history. One senator says there's an advantage in falling asleep standing up—he can't put his foot in his mouth.

The U. S. orders aircraft carriers to China waters after the Reds shoot down a plane. The Reds are very polite. They always give a guy time to shower and shave between wars.

Independent Senator Morse speaks eight hours on the atom bill. Morse is a union filibusterer. He believes in the eight-hour day.

Democrats and Republicans blame each other for the housing scandals. That's easy. When the Democrats are in, we get a lot of scandals in housing. When the Republicans are in, we don't get much housing to have scandals in.

Wheat farmers vote for strict federal controls. The farmer is such a firm believer in rugged individualism that he won't even let himself be shackled by his own beliefs.

Washington hears a rumor that Army Secretary Stevens will be made an ambassador. Poor Stevens. They made him sell his stock to become Army secretary. Now they'll make him get it all back—so he can afford to be kicked upstairs.

Ike and Mamie spend the weekend in the Maryland mountains. The nice thing about being President is that when a man wants to go to the mountains and his wife wants to go to the shore—he can always get the Secret Service to order them to the mountains.

GRIN AND BEAR IT

Miss Brandow Has Teen-Age Discussions

"There is the misconception that teen-age columnists are able to wave a magic wand and solve the problems of their contributors." So said Beverly Brandow, author and columnist, at meetings held for girls and boys at YMCA last night.

Autograph Party

Teen-agers surround their own special writer, Beverly Brandow, author of "Data Data," at the autograph party held for her in the Book Stall Tuesday morning.

Contractor Is Witness Before Martin Jury

STANTON (SC) — Henry Stafford, Lubbock highway contractor, was cited here Tuesday by the grand jury as it continued its probe of Martin County's fiscal affairs.

Subpoenas had been issued earlier by the jury, but reports indicated that Stafford was ill and unable to appear as a witness. He had contracted for some lateral road work here in the past.

Other witnesses called by the jury yesterday included two brothers of James McMorris, who resigned July 6, while serving his third term as county judge; County Commissioners Irvin Welch, Joe Froman, former commissioners Stanley and Lewis, Oliver Vaughn, Don Otis of San Angelo, representing an investment banking house; and Joe McReynolds and A. C. Woodard of Martin County.

During the afternoon the commissioners court was in conference with the grand jury. It was understood here that they were not called in this instance, as witnesses, but discussed taxes and other county fiscal problems with the jurors.

Earlier in the day, in an open meeting, three of the commissioners and Frazier had been in conference with Trustee Prichard of Odessa, who represents Prichard-Abbott, valuation engineers of Fort Worth, who have a contract with Martin County. Judge Frazier said Prichard advised them on their work while the court will be sitting as a board of equalization.

Rescue Mar From Chimney

Jose Laora, 21, is removed from the chimney of the Chicago Yacht Club at the Monroe Street harbor on Lake Michigan. Police and firemen broke in a hole in the base of the 16-foot chimney to reach Laora, who told police he had been stripped of his clothes and beaten by four Negroes after midnight. He apparently had been carried to the roof of the one-story building and dropped feet first into the chimney. He is in an oxygen tent in a hospital. (AP Wirephoto.)

Man Is Held On Assault Charges

Charges of aggravated assault were filed Tuesday in County Court against Francisco Gomez. Complaint alleges he assaulted Mrs. R. L. Buck at her home, 403 Park, Monday night. He is being held in the city jail.

Gomez was arrested about 6 p.m. Tuesday at his home in northwest Big Spring by Police Patrolman Bill Cartwright and Border Patrol Inspector Elmo Rainbolt. He had been sought since about 1:45 a.m. Tuesday when Mrs. Buck reported to police that a man had broken in to her home and beat her about the head and face.

Mrs. Buck was treated at the Big Spring Hospital for bruises, but X-ray examination disclosed no fractures.

Man Charged With Assaulting Woman

J. T. Edwards has been charged in County Court with aggravated assault.

County Attorney Harvey Hooser said he is charged with assaulting Myrtle Jackson, who was hospitalized at Big Spring Hospital about 11:30 p.m. Tuesday. Police said the woman, who listed general delivery as her address, was struck with a baseball bat. No report on her condition could be secured from the hospital today.

She was taken to the hospital in a Nalley ambulance, which picked her up in an alley near 307 1/2 E. 7th Street.

Unidentified Lime In Borden Yields Oil, Salt Water On Test

Free oil and salt water were recovered today on a drillstem test of an unidentified lime formation at Phillips No. 1 Quartz, Borden County wildcat some two miles southwest of the Jo-Mill (Spraberry) field.

Completions were logged in the North Coleman Ranch area of Mitchell County, the Iatan-East Howard pool of Howard County, and the Jo-Mill field of Borden. Locations were spotted in the Seaboard-Vaughn area of Dawson County and the Moore field of Howard.

Inman No. 1 Rogers fished in the North Coleman Ranch area for a pumping potential of six barrels of oil, Sinclair No. 108 Dodge Estate completed in the Iatan-East Howard field for 37 barrel potential, and Jones No. 2-A Miller tested for 331.10 barrels of oil in 24 hours in the Jo-Mill field.

Seaboard No. 2 H. J. Woodul is the new Dawson project, and it is about 1/2 mile east of Midway. Duncan No. 2 Homan is the new venture in the Moore field.

Phillips No. 1 Quartz, wildcat about 14 miles west and slightly south of Gail, had recovery of 270 feet of gas-cut mud, 490 feet of oil and gas-cut mud and 50 feet of free oil, and 7,323 feet of salt water on a drillstem test of an unidentified lime formation. The test was from 4,493 to 8,513 feet with the tool open two hours. Air blow came immediately with gas surfacing in 22 minutes. Flowing pressure was from 570 to 3,470 pounds, and the 15 minute shut-in pressure was 3,585 pounds. Location is C NW SE, 15-33-4n, T&P survey.

Hanley No. 1 J. P. Russell, C SE NE, 7-27-H&TC survey, got down to 3,742 feet in lime. Brown No. 1 Bacon, C SE NW, 49-25-H&TC survey, hit 270 feet in red-bed, where 13 1/2 inch casing has been set.

J. E. Jones Drilling Company No. 2-A Miller, project in the Jo-Mill field, has been completed for a flowing potential of 331.10 barrels of oil in 24 hours. Production test was through an 11 1/2 inch choke, gravity measured 37.8 degrees, the gas-oil ratio hit 984-1, tubing pressure was 395 pounds, casing pressure ranged to 375 pounds, and there was no water. Flow was natural. Production is from perforations between 7,165 and 7,216 feet, with top of pay being 7,165. Total depth is 7,344, and the 5/4-inch casing is bottomed at 7,243. Elevation is 2,963 feet. This project is 825.9 from west and 2,343.9 from south lines, 12-33-4n, T&P survey.

Borden

Phillips No. 1 Quartz, wildcat about 14 miles west and slightly south of Gail, had recovery of 270 feet of gas-cut mud, 490 feet of oil and gas-cut mud and 50 feet of free oil, and 7,323 feet of salt water on a drillstem test of an unidentified lime formation. The test was from 4,493 to 8,513 feet with the tool open two hours. Air blow came immediately with gas surfacing in 22 minutes. Flowing pressure was from 570 to 3,470 pounds, and the 15 minute shut-in pressure was 3,585 pounds. Location is C NW SE, 15-33-4n, T&P survey.

Hanley No. 1 J. P. Russell, C SE NE, 7-27-H&TC survey, got down to 3,742 feet in lime. Brown No. 1 Bacon, C SE NW, 49-25-H&TC survey, hit 270 feet in red-bed, where 13 1/2 inch casing has been set.

J. E. Jones Drilling Company No. 2-A Miller, project in the Jo-Mill field, has been completed for a flowing potential of 331.10 barrels of oil in 24 hours. Production test was through an 11 1/2 inch choke, gravity measured 37.8 degrees, the gas-oil ratio hit 984-1, tubing pressure was 395 pounds, casing pressure ranged to 375 pounds, and there was no water. Flow was natural. Production is from perforations between 7,165 and 7,216 feet, with top of pay being 7,165. Total depth is 7,344, and the 5/4-inch casing is bottomed at 7,243. Elevation is 2,963 feet. This project is 825.9 from west and 2,343.9 from south lines, 12-33-4n, T&P survey.

Seaboard No. 2 H. J. Woodul, C SW SE, 34-34-3n, T&P survey, is a new project in an unnamed area of Dawson County about a half mile east of Midway. Drilling operations are to start immediately, and projected depth is 8,500 feet. Location is on a 240 acre lease.

Seaboard No. 1 Vaughn, C NW NE, 39-34-5n, T&P survey, has set 5/4-inch casing at 8,285 feet and will prepare perforations to tests and complete following the cut-off of water near the bottom of pay. Vega No. 1 Pool, C SW SE, 123-M&E&R survey, bored to 8,080 feet in lime and shale.

Dawson

Seaboard No. 2 H. J. Woodul, C SW SE, 34-34-3n, T&P survey, is a new project in an unnamed area of Dawson County about a half mile east of Midway. Drilling operations are to start immediately, and projected depth is 8,500 feet. Location is on a 240 acre lease.

Seaboard No. 1 Vaughn, C NW NE, 39-34-5n, T&P survey, has set 5/4-inch casing at 8,285 feet and will prepare perforations to tests and complete following the cut-off of water near the bottom of pay. Vega No. 1 Pool, C SW SE, 123-M&E&R survey, bored to 8,080 feet in lime and shale.

Sinclair No. 108 Dodge Estate has been completed in the Iatan-East Howard field for a 24-hour pumping potential of 37 barrels of oil and no water. Oil gravity is 30 degrees, and gas-oil ratio is 980-1. The pay zone was acidized with 6,000 gallons. Top of pay is 2,420 feet, and total depth, plugged back, is 2,823. Perforations are from 2,420 to 2,802. Location is 2,313 from south and 2,307 from west lines, 11-30-T&P survey.

Duncan No. 2 Homan is a new project in the Moore field, slated for drilling depth of 3,400 feet by rotary. It is about five miles west of Big Spring, drillsite being 1,909 from south and 847 from east lines, 6-33-1s, T&P survey.

Harper and Huffman No. 1 Ida M. Oldham, C NE NW, 41-27-H&TC survey, took a drillstem test in the reef lime from 8,260 to 8,300 feet, with the tool open four hours and 50 minutes. There was a strong blow of gas in 19 minutes. Recovery was 720 feet of salt water and 250 feet of salt water-cut mud. This wildcat will likely be plugged and abandoned. It is approximately 12 miles northeast of Big Spring.

Texas Pacific Coal and Oil No. 1 Hyden, C SW SW, 47-32-3n, T&P survey, bored to 9,770 feet in chert. Texas Pacific Coal and Oil No. 1 Simpson, C NE SE, 3-32-2n, T&P survey, hit 5,883 feet in lime and shale.

Amerada No. 1 Whitaker, C SE NW, 17-25-H&TC survey, reached 6,380 feet in lime. Oceanic No. 6 Winans, C NE SE, 25-33-3n, T&P survey, is reported at 8,190 feet in shale, where operator is circulating for samples.

Oceanic No. 7 Winans, C NW NW, 25-33-3n, T&P survey, has bit boring below 7,759 feet. Pan American No. 4 Jones, 1,650 from north and 330 from east lines, 35-33n, T&P survey, made it down to 4,297 feet in sand and lime.

Warren No. 1 Dorothy Iden, 330 from south and east lines, west half of northeast quarter, 26-33-3n, T&P survey, drilled to 7,911 feet in shale.

HOSPITAL NOTES

BIG SPRING HOSPITAL
Admissions — R. E. Holliman, 210 Carey; Leslie Reece, Gen. Del.; Dora Sterling, Colorado City; Joyce Richardson, Rt. 1; Doris Stevenson, 423 Ryan; W. T. Jackson, 811 W. 8th; Irby Davidson, 1312 Stadium; Myrtle Jackson, Gen. Del.; Ray McMillan, 402 Lancaster; Juanita Bachus, Odessa; Louise Oden, 803 E. 4th; Betty Price, 119 11th Place; W. P. Young, Cosahoma.

Dismissals — Adolph Herrera, Rt. 1; Magdalena Herrera, Rt. 1; Johnny Jones, 500 E. 4th; L. V. Prince, Snyder; Dr. M. H. Bennett, 1610 Main; Joe Oresco, Vincent; David Gomez Jr., Box 641.

One Surety Firm Holds Up Bond On Martin Official

STANTON (SC) — One of two new county commissioners in Martin County hobbled momentary difficulty in posting bond Tuesday as he qualified for office.

One surety company laid down stringent requirements for writing a bond for Edmund Morrow, appointed to succeed Stanley Lewis, resigned. Another company promptly supplied Morrow with the required \$3,000 bond. The first surety wanted an audit, which might have required several weeks.

H. O. Phillips, other new commissioner to take oath during the day, posted bond. Phillips succeeded Oliver Vaughn, resigned.

Morrow, informed by County Judge Bruce Frazier that the county would pay the bond premium, insisted on paying the premium himself. Bonding costs on all officials has long been considered a proper expense of the county here. Morrow said that he had served as a county official before and had always paid bonding costs himself, and that he thought that if the office wasn't worth a premium fee, it wasn't worth having.

Justice Cites Additional Cases In Place 1 Court

Justice of the Peace Cecil (Cy) Nabors said today the court fees and fines turned in from his office doesn't accurately reflect the volume of business transacted there.

Nabors said that in addition to 116 misdemeanor cases for which \$2,044 in fees and fines has been collected this year, he has handled 194 misdemeanors on which fees and fines either were laid out in jail or suspended.

He reported also that his office has 102 small claims court cases on which fees are pending. There were 183 small claims cases on which fees have totaled \$366.

In addition, the justice of the peace for Precinct No. 1, Place No. 1, has handled 132 felony cases and 56 regular civil suits which no fees have been collected and which were not shown in a report from the county auditor Tuesday. All of the figures are for this year, Nabors said.

Rainbolt Goes To Highway 87 Meet In Denver

H. M. Rainbolt, one of the state directors from Texas in the International 87 Highway Association, was to leave Wednesday for the annual meeting in Denver, Colo.

Sessions begin at 10:30 a.m. Friday. The highway linking Alaska, Canada, and the United States with Mexico and Central America, is known as the Henry Ford Memorial Highway. Representatives of the Ford Foundation will be present at the meeting.

LaTuna Resident Succumbs Here

Edward H. Grissom, 61, LaTuna, died in a hospital here Tuesday afternoon following a long illness. The remains will be shipped Wednesday afternoon to El Paso by the Nalley Funeral Home. Rites will be held Monday Aug. 2 at Fort Bliss National Cemetery.

Mr. Grissom, who entered the hospital in March, was a veteran of World War I. He had been employed at LaTuna as a guard in the federal correctional institution.

He leaves one daughter, Mrs. Carol Sue Dockins, El Paso; two sisters, Mrs. Ova Coley, Louisville, Ky., and Mrs. Thelma Procell, Indianapolis, Ind.; two brothers, Frank Grissom, Frankfort, Ind., and Herschel Grissom, Red Boiling Springs, Tenn.

Country Club Is Popular Place Now

Members of the Big Spring Country Club will have another of the Family Night dinners Thursday evening beginning at 7 p.m.

Friday evening, there will be the regular dance for teen-agers, beginning at 8 p.m. The new swimming pool is now open from 10 a.m. to 8 p.m. on weekdays and from 10 a.m. to 10 p.m. on Saturdays, Sundays and holidays. Mondays will be devoted to the cleaning of the pool, and it will be closed all day each Monday.

Certificates Given 15 In Life Saving

Fifteen persons have been given American Red Cross Life Saving certificates.

The group participated in the 10-day course conducted by Olen L. Puckett, life saving and water safety chairman for Howard and Glasscock counties. Puckett was assisted by Robert Angel and Helen Dawson.

Turkey, Greece To Build Big Bridge

ANKARA, Turkey — Turkey and Greece are going to build the Balkans' longest bridge across the Maritza River between the two NATO allies.

Courthouse Entry At Colorado City Labeled 'Kid Work'

COLORADO CITY — The investigation of the courthouse break-in at Colorado City apparently was ended today, as County Judge Sam Bullock and other county officials labeled it as "kids' work."

Custodial employees found a north window open Monday morning, with a board leaning against the sill and resting on the basement floor. The board had been stacked outside the courthouse and could have been used as a slide from the window to the floor. The clerk's office had been opened and police found a screwdriver, metal screen brace and a pair of keys inside the office on a desk near ballot boxes left from Saturday night's voting.

Former Brakeman Dies In Hospital

Services were held at the Catholic Church in Balmorhea at 10 a.m. Wednesday for Joseph B. Prew, 72, who died in a hospital here Tuesday after several years illness.

Mr. Prew formerly was a T&P brakeman, operating out of Baird on the west run. He had lived at Clyde for a number of years and before his illness he resided with a son, Joe Prew Jr. in Balmorhea.

No One Hurt When Car, Truck Collide

Herman Lee Northcutt, Miller Trailer Courts, and John Pearson Nichols, Midland, were drivers of vehicles involved in a collision at 3rd and Gregg Streets at 7:45 a.m. today.

Police officers said there apparently were no injuries. Northcutt was operator of a Jarbet Construction Company truck, and Nichols was driver of an automobile.

MARKETS

WALL STREET — Stocks were generally higher today in early dealings. Higher stocks included U. S. Rubber, Douglas Aircraft, North American Aviation, American Telephone, American Cyanamid, Westinghouse Electric, Vauxhall, General Dynamics, Cooper-Bessemer, Sinclair Oil, and Eastern Air Lines.

Lower were Chrysler, Commonwealth Edison, International Nickel, Union Carbide, General Electric, General Clear, Pennsylvania Railroad, and Rexall Drug.

LIVESTOCK — PORT WORTH (AP) — Cattle 3,200; most classes steady. Bulls were weak to 50 lower. Good to choice slaughter steers and yearlings, 18.00-21.00; common and medium 15.00-17.00; good and choice slaughter calves 14.00-17.00; common and medium 13.00-14.00; stocker calves and yearlings mostly 12.00-15.00.

Sheep 250; butcher hogs 25 higher; cows steady; choice 190-240 in butchers; 23.00; choice around 165 to 22.00; choice 240-250 to 21.00-22.00; sows 13.00-18.00.

Sheep 1,800; killing classes of sheep steady; feeder lambs steady to 50 higher; good and choice spring lambs 17.00-19.00; cull to good slaughter ewes 3.50-4.50; medium and good feeder lambs 11.00-15.00.

COTTON — NEW YORK (AP) — Noon cotton prices were 15 cents lower to 20 cents higher than the previous close. Oct. 34-41, Dec. 34-51 and March 34-50.

Tobacco To China — HONG KONG (AP) — An Indian trade delegation announced today it has closed a deal to sell 4 1/2 million pounds of tobacco to Communist China. Prices were not disclosed.

Worthless Check Charges Are Filed — Charges of defrauding with worthless check have been filed in Justice Court against Ted Holloway. The charges were made in connection with a check for \$160.75, payable to Standard Sales Company. Complainant in the case is Weldon Forister.

CITY FIREMEN

(Continued From Page 1)

Commissioners would not approve a \$130 travel allowance for the senior bookkeeper who resides in Midland. This same sum was also struck from the budget by county commissioners previously.

City Engineer Clifton Bellamy presented specifications for a 70-block repaving project to commissioners, and it was decided to advertise for bids. The city will furnish the stone and the contractor the asphalt and labor.

Streets to be included in the project are Goliad between 3rd and 7th, State between 3rd and 11th, Birdwell Lane between Kentucky Way and 11th, Owens between 3rd and 4th, 11th Place between Johnson and Lamar Avenue, 10th between Main and Johnson, Runnels between 11th and 18th, and Johnson between 11th and 18th.

Permission was granted to Bob Spears, Piggy-Wiggy Store and Jess Thornton to pave their portion of the alley between 11th Place and Wood Street. The alley will be paved at no cost to the city but according to regular specifications.

A contract on a water lease for Section 33 south of Big Spring was given preliminary approval. It calls for initial payment of \$600 by the city. Then for every thousand gallons used over the first 12 million gallons, the city will pay one cent. After City Attorney Walton Morrison checks the contract, it will be approved.

THE WEATHER

NORTH CENTRAL AND WEST TEXAS: Clear to partly cloudy and hot this afternoon, tonight and Thursday. Widely scattered showers.

EAST TEXAS: Occasional showers and thunderstorms in south portion, partly cloudy and warm north portion this afternoon, tonight and Thursday. Moderate to fresh westerly winds on the coast, becoming strong all times in showers.

SOUTH CENTRAL TEXAS: Partly cloudy and hot except scattered showers near the coast this afternoon and tonight and in east and south portions Thursday. Moderate to occasionally fresh mostly east winds on the coast.

Former Brakeman Dies In Hospital

Services were held at the Catholic Church in Balmorhea at 10 a.m. Wednesday for Joseph B. Prew, 72, who died in a hospital here Tuesday after several years illness.

Mr. Prew formerly was a T&P brakeman, operating out of Baird on the west run. He had lived at Clyde for a number of years and before his illness he resided with a son, Joe Prew Jr. in Balmorhea.

No One Hurt When Car, Truck Collide

Herman Lee Northcutt, Miller Trailer Courts, and John Pearson Nichols, Midland, were drivers of vehicles involved in a collision at 3rd and Gregg Streets at 7:45 a.m. today.

Police officers said there apparently were no injuries. Northcutt was operator of a Jarbet Construction Company truck, and Nichols was driver of an automobile.

MISTER BREGER

"Wow! Look how high up we are ALREADY!"

LOOKING 'EM OVER

With Tommy Hart

Big Spring hurlers have made themselves very conspicuous in the Longhorn League All-Star games. Of the eight games unrelentingly pitched by the hurlers, Jose Candan started it off in 1947. Julio Ramos registered a win in 1949. Bert Garcia did it the following year. Gil Guerra turned the trick in 1952 while Mike Rainey emerged as the victor in this year's contest.

Ed Arthur, then of Odessa, was the winner in 1948. Eddie Jacobs, Midland in 1951; and Bobby Gregg, San Angelo, in 1953. As far as winning mound performances go, the New Mexico clubs have been shut out completely in the classic.

No less than 30 Big Spring players have been nominated to perform in the eight All-Star engagements.

Incidentally, Rainey has already won twice as many games this year as Big Spring's leading pitcher, Glen Grooms, did in 1953. Mike is the real workhorse in the league, having made himself available for relief as well as starting chores.

Fact is, Manager Pepper Martin thinks he's been toiling too much. He intends to give him more rest between starts now.

Remember Saxon Judd, who used to star in football for Tulsa University? He's now a better-than-average golfer. He recently won the Indian Hills invitational tournament crown in Tulsa.

A total of 124,875 fans paid to see the recent Rocky Marciano-Ezard Charles Championship fight on TV screens in theaters across the country. That brought the total receipts for the imbroglio to a healthy \$702,967.

The financial outlook for bigtime fights is promising. If for no other reason than TV will soon be metered into homes.

If four million sets are used for such an event for, say, a quarter each, the "take" would amount to a million dollars, and most families would certainly be willing to pay a quarter for such a treat.

No less than eight Texans will be trying to win places on the San Francisco 49ers' playing roster next football season.

They are Gene Offield, HSU end; Morgan Williams, TCU guard; Bill Johnson, Tyler JC center; Jack Howton and Gene Shannon, University of Houston; Bob Garbrecht, Rice; and Ralph Reynolds, North Texas State; and Y. A. Tittle, LSU, all backs.

Offield, Williams, Shannon and Garbrecht were all drafted by the 49ers. Howton was a free agent while Johnson has been in pro ball six years.

Tittle was the 49ers' quarterback last year. He suffered a broken jaw in one of the Detroit games but he finished the year with a mask.

Kiondike High School, which won the District Eight six-man football championship last fall, is getting a new coach this year. Adrian Huckabee, who devoted as much time as he could to the team last year although he wasn't officially hired as the mentor, is stepping out of the picture to devote his time to other school activities.

The fortunes of the Midland club in the next few days is apt to decide the future of Rudy Briner as manager of the Indians.

There are directors of the Midland club who have already argued that Rudy could be relieved of his duties and Glen Selbo be named as manager.

Briner is too blunt and speaks too plainly for some of the influential men with tender ears over there.

Yanks Stage Strong Rally In Sixth To Win, 10-6

D. R. Gartman's Yankees, trailing 2-5, to move into second place in the standings.

Jerry Newton hurled the Yets to victory, setting the opposition down with three hits. Mills started on the mound for the losers but was shelled to cover.

The VFW scored in every inning and got off to a running start with an eight-run first.

Jerry Dunlap had five hits and Bob Pritchard four for the winners.

The Yanks collected six hits in the final round to come from behind, with Bill Engle's three-run homer the big blow. Zay LeVeve doubled to send two runners across the plate and bring the Yanks to within one run of a tie.

Buddy Newell scored the tying tally on a single by August Joe Luedecke and Kenny Kesteron drove in Zay on an infield out.

Jimmy Roger walked and Engle then belted his home run.

Kay LeVeve, who worked the final three innings, received credit for the win. He struck out seven and walked four. Newell, the starting hurler, fanned four and did not walk a man in three innings on the hill.

Jackie Snow and Arthur Williams divided time on the mound for the losers. Snow was charged with the loss.

Jimmy Kinman had three hits for the Flocks, including a double. Snow batted in a run with a two-baser.

In the last meeting between the two teams, the Yanks scored six times in the final frame to win, 7-5.

In the evening's other game, the VFW slaughtered the Gold Sox.

Midland Plays Amarillo Club

DALLAS (AP)—Texas' representative in the National Semi-Pro Baseball Tournament at Wichita, Kans., will be decided within the next three weeks.

There are three regional tournaments in the state to furnish teams for a state tournament at Sinton starting Aug. 15.

Ed Bliss, Tex., and Jal, N. M., are playing for the West Texas-New Mexico division title at El Paso. They reached the finals in a field of 16 clubs.

Saturday the Northwest Texas section will decide its champion when Amarillo Air Force Base and Tye-Service Drillers of Midland start a series at Midland. They are survivors in a field of 10 clubs.

Friday, the South Texas tournament opens at Sinton with the Refugio Vets, Sinton Oilers, Victoria Rosebuds, Brooks Army Medical Center, Corpus Christi Navy and either Laredo or Seguin playing for the title.

When the tournaments are finished, the West Texas-New Mexico winners play defending state champion Refugio 2 series at Sinton starting Aug. 7, while the Northwest Texas champion meets the South Texas champion in a series at Sinton starting Aug. 10. If Refugio should win the South Texas title, the runner-up would play in the latter series. Refugio will be in the state playoff regardless.

Jerry Felle of Dallas, state semi-pro commissioner, announced the lineup for the playoffs today.

Broncs And Rockets Terminate Series

Stunned by Roswell's superior fire power last night, the Big Spring Broncs will try to get back on the victory track in an 8:15 p.m. game with the Rockets here this evening.

The imbroglio winds up the current home stand for the Steeds. They move to San Angelo Thursday to launch a two-game set.

Originally committed to play in Odessa this weekend, the Cayuses instead will host the Oilers Saturday and Sunday. The two teams have switched dates due to the fact that two of the local games conflicted in time with the annual rodeo here.

The Broncs have also had to switch games with Artesia, due to a rodeo there. The Big Springers will play the NuMexers there Aug. 10 and 11 and Artesia will return the games the following two days.

Bert Baez, 12-5, will attempt to cool the bats of his old teammates in tonight's game. Baez was poison to Midland his last time out. Bertie won four games for the Rockets before coming here.

Lefty Tom Sawyer could take the mound for the Rockets. He has won 11 and lost seven.

The Rockets made merry with the slants of Mike Rainey to humiliate the locals, 17-7 here Tuesday night.

The visitors from New Mexico seemed to hit everything thrown their way, although nothing left the ballpark.

Surprisingly, the Steeds were in the ball game until they uncorked a two-run rally in the sixth.

Every player in the starting lineup for Roswell hit safely.

Jim Zapp was about the only Bronc who did any consistent hitting to speak of, and Jim was red hot. He drove out a towering home run with one on in the fifth and combined that with three singles, one of which produced two runs. It was far and away his best night in several weeks.

Evelio Hernandez, the third of three Rocket hurlers to see action, received credit for his second win of the campaign against two losses.

Rainey, who was seeking his 17th win, was saddled with his 13th loss.

DIAMOND DUST — Umpire Pat Kelly was felled by Hernandez on a throw back to the pitcher in the last innings. Hernandez was not looking for the ball and it grazed his cap. The best crowd of the current home stand, 683 paid, sat in on the proceedings.

Ossie Alvarez, Duane White, Weldon Day and Dixon Bell all had three hits each for Roswell.

The Rockets stole a total of five bases during the 2 hour and 56 minute night-mare. Joe Bauman, looking for his 50th home run, had to settle for a ground rule double in the sixth when he hit out along the fence in left field.

The ball bounced over the wall. Greer, the league's leading hitter, collected a triple, double and single and drove in four runs in the

bottom of the ninth.

Y City League Opens Playoff

eliminate a team in both the first and second round of play. Second round of games takes place on Friday.

First gained sole possession of fourth place in the standings when Piggly-Wiggly slipped up on Field Maintenance Monday night, winning, 7-5.

Speck Franklin shaded Dwight Webber in a mound duel, although both hurlers gave up only three hits. Webber's wildness led to his defeat.

The top four teams in the league are all entered in the Colorado City tournament, which will be staged Aug. 5-7.

Final standings:

Team	W	L	Pct.
Webb Air Base	19	1	.950
Cook's Application	11	7	.611
Comhams	10	8	.556
Motor Maintenance	9	9	.500
Piggly-Wiggly	8	10	.444
Field Maintenance	7	11	.389
Tennessee Milk	6	14	.300
Condon	5	15	.250
Service Center	3	18	.148
Self Telephone	2	18	.100

Eight Big Spring girls will compete in tennis and swimming events at West Texas United States A. U. Junior Olympics at Odessa Friday and Saturday.

Participating in girls' tennis will be Peggy Hogan, Pat Tidwell, Nancy Smith, Bettie Anderson, Nanette Farquhar and Clara Freeman.

Sally Cowper, Jane Reynolds, Nancy Smith and Clara Freeman will compete in both 50-meter freestyle and 100-meter backstroke swimming events.

A. A. U. Junior Olympic summer programs are for boys and girls who are from 10 to 17. It is a public service designed to curb juvenile delinquency by channeling the interests of American youth away from streets and alleys and to the playgrounds.

Winners of the Odessa meet will be eligible for competition at Southern U. S. A. U. Junior Olympics at Houston. Houston winners will then compete in a national meet in Chicago.

Hot - HOTTER - HOTTEST

You bet—That not only goes for the weather, but also for our used cars. For the hottest deal in town see one of our "SIZZLING SALESMEN".

LISTED BELOW ARE SOME OF THOSE BETTER THAN NOTHING USED CARS

'47 DODGE club coupe. Bet you the cokes this is the cleanest 1947 model in town.

'47 PLYMOUTH club coupe. Really a sharp little car. Dark blue. It's ready. It's dependable.

'47 DODGE club coupe. A not so hot—just "fair to middlin'" crate with some more miles left in her. Wouldn't guarantee how many.

'48 FORD club coupe. Shakes, rattles, and rolls. That just about sums it up. We'll guarantee the first two of these features. The shakes, the rattles.

AND WE HAVE GOOD CARS TOO

1-'53 PONTIAC '8' 2-door sedans.

2-'53 BUICK Super 4-door sedans.

31 CADILLAC 4-door '52 sedan.

33 STUDEBAKER club coupe V-8.

SPECIAL THIS WEEK

First come, first to profit We bought lots of furniture at the Dallas show and market at a big discount. Several living room suites, dinettes, dining room suites, odd chairs and tables. Also Lane cedar chests. These are show samples. Oh yes, one of the most gorgeous lots of lamps that I have seen and at a big discount. This merchandise will be at both new and used stores. If not at new store, Bill will have it at used store. Many other pieces of our regular stock at close out prices. We've got to make room for new merchandise that is coming.

**Rockefeller And
Son Together**
RENO (AP)—Five-year-old Winthrop Rockefeller Jr. will get acquainted with his millionaire father while his mother, Bobo, waits for her Nevada divorce.
Winnie—whose father hadn't seen him since 1950—swam and played with the 42-year-old oil tycoon yesterday. Bobo termed it the first of "a period of introductory visits."
Rockefeller flew secretly to Reno Monday for the first time since agreeing to a \$4-million dollar divorce settlement with his wife last month. Bobo, a coal miner's daughter, reached the million-dollar bracket with the aid of two society marriages. She was not with young Winthrop when he met his father yesterday.
She said: "One of the things I insisted upon in our (divorce) agreement was a period of introduction to his son. I'm afraid he wouldn't even know the child if this wasn't done."
"He has to know his own son." Under the agreement Bobo gets complete custody of the boy but Rockefeller, she said, will have at least eight visits with him while she sits out the required six weeks Nevada residence.
After the divorce Rockefeller will have visiting rights.
Bobo's residence will be fulfilled the first week in August, but she told newsmen she was in no hurry to file for divorce.

**Guards Keeping Watch Over
Hunger-Striking Prisoners**
WALLA WALLA, Wash. (AP)—An uneasy quiet settled over the State Penitentiary early today and the state patrol sent additional men here to reinforce guards watching for any outbreak of violence among some 1,500 hunger-striking prisoners.
The silence was broken by occasional warwhoops from "toughies" in the segregation wing, but Warden John Cranor said a near-midnight check showed most of the inmates, who were locked in their cells after they had passed over the evening meal, were retired for the night.
Guards concentrated their watch on the segregation wing, housing the prison's most hardened criminals.
"If there is any trouble, it will be here," said Lawrence Deimore Jr., former Alcatraz prison official who will replace Cranor when Cranor retires Sept. 1.
The hunger and sitdown strike described by Cranor as a "passive resistance" move caused chiefly by idleness, started in the prison laundry Monday. By noon yesterday it had spread to virtually all the men within the prison walls. Cranor said the minimum security prison outside the walls and the women's section were not affected.
"Only 62 per cent of the inmates are employed and those idle are doing a lot of beefing," Cranor said.

**Yeggs Take
Bank's Cash**
PEVELY, Mo. (AP)—The Bank of Pevely had to make arrangements to get money from a St. Louis bank so it could open today. Two robbers made off with every cent in the bank yesterday.
They took \$40,174, bank officials said.
"The first I knew about it was when one of the men climbed over the top of the tellers' cage—about eight feet high—and looked into the loan department," said William A. Weber, 38, the cashier.
Weber and four other employees were ordered into a vault, but the robbers left the door partially open to give them air.
The escape car was found abandoned on a country road 3 1/4 miles from this community of 300 about 25 miles south of St. Louis.

**Tobacco Men
Order Research**
NEW YORK (AP)—The tobacco industry research committee has outlined a three-fold program on the basis of which it will award funds for scientific study of tobacco and its effects on smokers.
Dr. Clarence Cook Little, scientific director of the committee, said yesterday that research will be conducted in these three areas:
"1. Study of the physical and chemical composition of tobacco and accompanying products.
"2. Study of tissue changes in humans and in animals under various conditions.
"3. Study of smoking and other tobacco habits and of the emotional and physical makeup of smokers."
Little said the committee's advisory board is reviewing applications for specific research projects. The committee was set up this year with an initial fund of \$500,000 provided by cigarette manufacturers, tobacco growers and warehouse associations.
Formation of the committee was announced following reports that cancer was linked to cigarette smoking. Validity of these reports has been questioned by tobacco industry spokesmen and others.

**Greene To Attend
Planning Meeting**
J. H. Greene, manager of the local Chamber of Commerce, will attend a West Texas Chamber of Commerce committee meeting in Midland Friday concerning a manager's short course.
The short course, to bring Chamber managers up to date on current practices, is held every year in September. Greene has been asked to help plan the program.

IT HAPPENED

Dodging The Bomb
BOSTON (AP)—A technical firm says it is planning to move 50 miles to Fitchburg to "get out of the potential bomb target area of Boston."
Robert G. Dexter of Barkley and Dexter Co. and the Barkley and Dexter Laboratories, Inc., machinery designers and electronics researchers, said yesterday the firm will move to Fitchburg in February.

A Close Vote
LUMBERTON, N. C. (AP)—The City Council called for a public opinion poll on the question of Sunday movies for

**Two Of Triplets
Lose Their Sight**
FLINT, Mich. (AP)—An incurable eye disease has left two 8-month-old triplet girls blind and the third sightless in one eye.
The children are Anita Sue, Janet Kay and Debora Lynn Price, daughters of Mr. and Mrs. Elmer Price of Flint.
The triplets each weighed less than three pounds at birth—last Nov. 25.
Their mother only recently noticed Debora and Janet were blind. Mrs. Price told doctors the girls didn't reach for things like other children do.
Specialists at University Hospital in Ann Arbor said the triplets were suffering from retrolental fibroplasia. They said the disease attacks underweight children particularly.

Cost Of Collection
COLUMBUS, Ohio (AP)—It cost the state 36 cents yesterday to collect 1 cent in sales tax revenue. Furniture dealer John Giancy of Goshen in southern Ohio sent a check for a penny by registered mail. State Treasurer Roger W. Tracy had to pay 36 cents postage due.

76 Years Later . . .
SANTA ANA, Calif. (AP)—A physician removed an inch-long needle yesterday from the right foot of Guy J. Gilbert, 83.
Gilbert recalled he accidentally swallowed the needle 76 years ago in Angola, Ind. About six months ago he began feeling a dull ache in the foot.

**For Oklahoma Area
Crude Adjustment**
DALLAS (AP)—The Magnolia Petroleum Co. has announced an adjustment in the price of crude oil in several Southern Oklahoma counties beginning today.
The new price will be \$2.80 a barrel for 40 gravity and above, with a three-cent differential downward for each change in degree of gravity to a price of \$2.50 a barrel for 30 gravity and below.
Carter, Comanche, Cotton, Jefferson and Stephens counties are affected.
