It felt good, didn't it? All that Patriotism during the Persian Gulf War made almost everyone feel proud.

People who haven't felt a shred of pride in their country for years, in fact, felt almost embarrassed by expressions of national loyalty, have participated in patriotic displays all over the nation.

During the past few months there have been flags flown from buildings, roof tops, flag poles and businesses.

Red, white and blue ribbons have adorned signs and homes, accompanied by yellow ribbons.

Churches have been decorated with the red, white and blue theme.

Rallies have been held with patriotic speeches, music and programs.

On lapels and hair ribbons, coats and tee shirts the symbol of our nation has been emblazoned or pinned on.

The United States flag, with its brilliant red, white and blue, has brought a lump to many a cynic's throat as it waved and snapped in the breeze.

I repeat, it felt good, didn't it? Now we are going back to business as usual.

Why?

Oh, I don't mean that we shouldn't be relieved that the crisis is mostly behind us.

I don't mean we should continue with yellow ribbons every where.

But why not take the little bit of extra trouble it takes to fly our flags?

Flags don't have to be just for special occasions, or wars.

They are beautiful, and a proud symbol of the American heritage.

There is nothing wrong about displaying patriotism, so keep right on feeling good, folks...and fly those flags!

Word War Erupts Over Water New Street Signs Water Bills Subject Of Debate At Council Could Be Crucial

What was to have been a regular meeting of the Deport City Council Monday night erupted into a war of words between the City Water and Sewer Superintendent and several citizens.

The problem arose from water bills that apparently have as much as doubled from their amount in previous months. Eight visitors were on hand concerning this subject.

Darla Davidson was the first complainant on the agenda. She told council members that according to her bill she would have had to use 23,000 gallons of water. "That's ridiculous," she stated. "I live by myself and there's no way I could have used that much water!" Ms. Davidson stated that she knew she had a water leak the month before, and had paid a higher water bill because of it, but the leak was repaired before the 20th and she maintained that it should not have been on the bill which was so high.

She accused Jerry Burns, Water and Sewer Superintendent, of estimating water bills, which brought a hasty response from Burns that the city's water meters are always read each month, and her's had not been estimated.

Other complaints were of the same nature, with the complainants insisting that their bills had been estimating and Burns denying that they had. Burns insisted over and over that the meters are read each month.

As the result of the debate the council passed the following resolution: The people who complained of a higher bill than normal will have their meters checked by the city. If the meters are found to be inaccurate an adjustment will be made on their bill. If the meters check out to be accurate then the bills must be paid.

If the people who complained to the council Monday night need extra time to pay their last month's bill they will be allowed to pay the amount out over the next three months.

However, the payments must be made in addition to their regular monthly water bills.

Also the council ruled that if anyone's bill is estimated they will have their water bills marked as estimated. The sewer and water superintendent will be required to file a report to the council stating what meters were not physically read and were estimated.

In other business the city bills

were paid. A radio communications systems was discussed but tabled until next month's meeting.

Handicap ramps were again discussed and a study will be made. Estimates of cost are to be obtained in the near future.

A work order book was approved by the council and the system will be implemented immediately.

If a customer calls city office with a problem, the description of the problem will be logged in the work order book. When the problem is solved, that action will also be logged in the book so that anyone in the city office can refer to the book to see when and if the work has been completed.

Installation of new sewer hookups was discussed and approved.

New street signs were discussed and Mayor Charles Foster was authorized to order new sets to replace ones that have been vandalized.

Grants for the city were discussed and fishing permits for Tom Jeffus Reservoir came under discussion also.

City employees reported that new signs have been posted at the lake informing people that anyone caught fishing without a permit will be prosecuted.

City Council meeting Monday night, complaining of the size of

their water bills. (Staff Photo by Thomas Nichols)

American Legion To Celebrate 72nd Birthday

This year the American Legion celebrates the 72nd anniversary of its founding, March 15-17, 1919 in Paris, France.

Through the years, Legionnaires have deservedly developed a reputation of service to God and country. But, the world's largest veterans organization did not develop that reputation by resting on its laurels and dwelling on yesterdays.

The Legion continues to evolve, remaining an ever changing dynamic organization that accommodates the changing needs of the country from the strong foundation established by its founders after World War I.

Through their membership, the more than 3 million men and women of the American Legion have the opportunity to continue their service to their nation and mankind after release from military service.

The desire to serve is most recently evidenced by The American Legion Family Support Network.

Networking its 15,000 community based American Legion Posts and Auxiliary Units through a toll free telephone number has enabled the Legion to provide a much needed safety net for families of active duty, Reserve and National Guard members deployed as a result of Operation Desert Storm.

In the past year, the American Legion, has opened its arms as welcomed a new generation of veterans. Veterans of service during the Lebanon-Granada and Panama conflict periods have been made eligible to join the organization that authored the GI Bill and helped found the Veterans Administration that many of them will turn to in the future.

As the Legion approaches the 21st century it continues its quest for better ways to serve America and a new generation of veterans. In this group rests not only America's future but the Legion's as well.

MARTHA GLOVER'S #1 hobby is cooking. She is sharing some of her favorite recipes with us this week in Country Cooking. (Staff Photo by Gerrie Bankhead)

Country Cooking

By Gerrie Bankhead

Country Cooking is being shared this week from the kitchen of Martha and Duane Glover of Deport.

Being residents of Deport most of their lives, they have been married for 42 years and have three children; a son, David who is a pharmacist in Dallas; a daughter Betsy and her husband Jerome Chapman and son, Ty, age 8; and a daughter, Marilyn, a pharmacist in Deport.

Martha and Duane are active members of the Methodist Church. Martha's #1 hobby is cooking and she loves entertaining guests and family. She always gets involved in benefits and activities held in the Deport area, whether she needs to cook, visit, share, organize, etc. She loves to meet, be around, and talk to people. She never says "no" when asked to help out.

One area of cooking she is preparing for is the stew supper and chili cook off to be held in Deport soon, and she is sharing her recipe for the chicken stew with us this week. She revised the original recipe by adding several more ingredients to the basics which makes the stew more tasty.

Martha also enjoys working at the drug store when needed because this gives her more opportunity to meet and visit with friends. Another enjoyment is working in her yard, as she loves to grow flowers. They have a small vegetable garden but she has turned that job over to Duane. She wants to stick with growing flowers.

Martha also enjoys playing the organ at her church. She helps out whenever needed for funerals and weddings also. Being taught to play by her late aunt, this has continued to be a hobby that fulfills many hours of enjoyment.

Both Martha and Duane are avid basketball fans and have been for many years. Since their children are no longer in school, they enjoy watching college games more and they also enjoy football games at Austin and Dallas. While Duane is engrossed in the game, Martha is busy finding someone to visit with.

She is also sharing her "Dressed Up Pinto Bean" recipe. Each year her son-in-law brings in a huge bag of Colorado beans for her from his hunting trip that she uses in this recipe. She hopes you try adding this to your beans and see what a difference it makes.

She is also sharing her family's favorite cake, Apricot Nectar Cake. Her children asked her to share this recipe with the readers.

Her recipe for Forgotten Cookies is one she has made for many high school basketball trips when her children were in school and she still makes them to take to coffees and teas at the church.

We hope you enjoy the recipes this week. If you have a feature suggestion, please call 652-6032 or write to Rt. 1, Box 67A, Deport.

Girl Scout Week Is March 10-16

Girl Scout Week will be celebrated March 10-16 in honor of the 79th birthday on March 12, of Girl Scouting in the United States. The largest organization for girls in the world was founded by Juliette Low in Savannah, Georgia in 1912. Today's membership includes over 3 million members nationwide.

According to Girl Scout officials, their current theme, "The Girl Scouts-As Great As You Want To Make It," seeks to communicate the message that Girl Scout is the place for girls to have fun and make friends. The all-girl setting, say officials, gives girls leadership experiences so they can contribute to society now and in the future.

For more information about Girl Scouting in this area, contact Carol Pilip at 982-5577.

There are seven troops in Blossom and one troop in DePort. Blossom troops are planning their family banquet for March 23 at 6 p.m. at the Elementary School in Blossom, using the patriotic theme "Girl Scouts

of the USA". Awards for the cookie sales will be given at the top sales girl announced at that time.

Blossom Scouts sold 389 cases (4,688 boxes), an increase of 100 cases from last year during their annual cookie sale.

Call the contractor. Because if ever there was a reason to modify your garage, the 1991 Eagle lineup is it.

Start with Premier, the car that offers more standard horsepower than Taurus. With European styling and room for five, Premier is the perfect addition to any garage. Then pull in the sporty Talon, the hot sports coupe that's taking the roads by storm. Talon carries more standard horsepower than Celica ST, Probe GL, and Prelude ST. Of course, that still leaves space for the reliable, economical Summit, the three-door that has more passenger room than Corolla and Geo Prism!

The 1991 Eagle Premier, Talon, and Summit. With today's rebates and great gas mileage, you can now afford to fill your garage, without mortgaging the house.

Broderick Spotlighted In "Inside TMC"

Jerry Broderick, son of Mrs. Sara Broderick of Deport, was recently spotlighted in the *Texoma Medical Center's Employee Publication*.

Bio Med Tech II Jerry Broderick fits the bill as a "specialist jack of all trades".

Jerry's duties repairing and maintaining some of the medical center's most complex machinery make versatility his specialty.

Patient monitors, EKG machines, coagulators, cauterizers, if it's broken, Jerry can probably fix it. And not only does he fix it, but he prevents problems in the first place with a stringent maintenance schedule based on Joint Commission standards.

"We have a computerized maintenance schedule that gives us a periodic inventory and inspection schedule," Jerry explained. "It allows us to inventory all the equipment, set up the frequency of inspections and generate reports."

With the sheer amount and variety of equipment to keep up with, there is

no such thing as a typical day for Jerry. His schedule is often dictated by equipment problems which can crop up at any moment. And he's on call on alternating weekends, too, ready to lend his expert hand.

After leaving his trade in the military and spending 12 years in VA hospitals, Jerry appreciates the variety of challenges a medical center like TMC offers.

Jerry seems to like a lot of variety in his off duty life, as well. He earned an honorable mention in the 1990 TMC-Picture Perfect photo contest, drawing from an extensive collection of photos from his time and travels in the military.

An East Coast transplant, Jerry has been in Denison a little over a year. He is enraptured with Midwest snow skiing, and he said he looks forward to trying out Texoma hiking and camping. He is an avid member of this year's TMC co-ed volleyball team.

PRAIRILAND Boys Junior Varsity Basketball team for this year consisted of:
Back row, Chris Holt, James

Conrad Hobbs visited his son and family, Mr. and Mrs. Steve Hobbs, Blake and Arin of Omaha, Nebraska this week. While there he helped celebrate his grandson Blake's fourth birthday.

Taylor, Charis Whitney, Coach Rick, Johnny Babb and Cody Bowen. Front row:

Swede Ladd, Chad Farris, James Standeford, Toby Dockray, David Singleton and Jimmy Little.

TAX TIPS

from

Mark Bower CPA

EMPLOYEE OR INDEPENDENT CONTRACTOR?

Why is the distinction important?

Do you have anyone

working for your

business based on time

you withhold no payroll

taxes? Perhaps this

person works only occasionally

doing odd jobs around your

business. EXERCISE CAUTION!

The IRS can deem someone you

call an independent contractor an

employee if your working

relationship doesn't pass certain

tests.

What does this mean to you? If

the IRS reclassifies as wages

amounts you paid as contract

labor, you will be subject to payroll

taxes and interest and penalties

on those taxes. This can add up to

a considerable amount; it may

even be enough to threaten the

existence of your business.

The tax courts look to your right

to control the worker to determine

if an employee relationship exists.

Do you set the worker's hours? Is

the worker's pay based on time

spent rather than on the total job?

Do you furnish tools and

equipment to the worker? Have

you trained the worker? Does the

worker make his services

available to the general public?

Do you pay the worker's travel

and business expenses?

If you answered yes to any of

these questions, it could very well

be that your worker is an

employee subject to employment

taxes on his or her earnings.

As a general rule, if you only

have the right to control or direct

the result of the work and not the

means and methods of

accomplishing the result, the

individual may qualify as an

independent contractor. You do

not have to withhold or pay payroll

taxes on payments made to

independent contractors.

If you have any questions about

how a certain worker should be

treated in your business, contact

our office for assistance.

Call our office for more information or for assistance

with these and other tax-related matters.
