OIL EMBARGO IS ASKED

OFFICERS ARE AFTER TEXAS ROBBERS

TIMPSON BANK ROBBED THURSDAY; 4 OTHER BANKS ARE LOOTED

(By The Associated Press)

TIMPSON, Jan. 9. — Spurred on in their quest by the finding near Center late yesterday of the automobile in which three bandits escaped after robbing the Cotton Belt State Bank here of between $3,000 and $4,000, ofifcers today had hopes to discovering the whereabouts of the robbers.

Sheriff J. W. Obanion at Center said the automobile was found on a country road four miles from Tenaha, two hours after the robbery.

Two unmasked men entered the bank shortly before closing time. J. C. Black, cashier, was forced to open the safe, then Black and R. D. Evans, assistant cashier, Joe Ramsey, bookkeeper, and Wallace Kristensen, customer, were ordered to lie on the floor of the vault while the money was taken. A third man waited outside in a car and drove away with the two robbers.

BALTIMORE, Jan. 9 (AP) — Six men armed with pistols and an automatic gun held employes of the Commercial Savings Bank on North Avenue at bay today, seized cash estimated at $15,000 and fled in an automobile.

COMO, Miss., Jan. 9 (AP)—Two men robbed the Planters bank here of about $1,500 today and escaped in

PROBE MADE OF BABY CASE

BODY OF INFANT FOUND IN BUCKET THURSDAY NEAR SHALLOWATER

Lubbock county officers today are investigating the discovery of the body of a new-born baby boy which was found by a school boy Thursday morning in a bar-pit near Shallowater.

Body of the infant was enclosed in a 10-pound lard bucket which also contained a part of a gunny sack. When found lid to the bucket was laying nearby which led officers to believe the bucket and its contents were thrown from a speeding automobile, impact with the ground jarring the lid off.

Seek Clues in Case

Officers stated today that in their opinion the case is one of abortion and that every effort will be made to trace the parties responsible for the act. The body, which was said to have been about six inches long, was found at a point one mile southeast of Shallowater. A small school boy discovered the bucket early Thursday morning while going to school. Later he reported the matter and Shallowater officers immediately started investigation.

The body was brought to the Lubbock county sheriff's office last night and turned over to funeral directors. It will be preserved in alcohol for a time until officers have completed an investigation and burial will follow.

Three Make Escape From State Prison

MOUNDSVILLE, W. V., Jan. 9 (AP)—Scaling the prison wall between two guard towers and with a searchlight constantly sweeping the spot, three prisoners escaped from the West Virginia state prison last night.

Fred Morgan, 32, negro, serving a life term for murder, and James Wilson Boggess, 18, and John Clifton Boggess, 25, brothers, serving 30 years each for armed robbery, escaped.

Home Town Of Amos 'N' Andy Causes Trouble

EAST ST. LOUIS, Ill., Jan. 9 (AP)—An argument over the home town of Amos 'n Andy had Caston Elis, 19-year-old negro, in a hospital here today in a critical condition.

Elis met another negro last night who said Amos 'n Andy lived here. Elis said they lived at Brooklyn, Ill., a negro community.

The argument ended when the negro who upheld the East St. Louis side of the debate pulled a knife and stabbed Elis. Police today were seeking the assailant.

SEAGRAVES TO GET GAS BY JANUARY 18, R. F. HINCHEY DECLARES TODAY FOLLOWING FILING OF DAMAGE SUIT

Natural gas for fuel purposes will be supplied the City of Seagraves probably by January 18, according to a statement made this morning by R. F. Hinchey, vice president and general manager of the West Texas Gas company, following announcement of a $15,000 damage suit filed at Seminole.

Town trustees of Seagraves filed the suit alleging failure on the part of the utility company to carry out its contract for distribution of natural gas in the city. It was alleged that franchise was granted the company about a year ago and that at the time agreement was made that the system would be installed by Sept. 1, 1930, and natural gas turned into the mains on or before November 1.

Circumstances Not Controlled

"The delay has been caused from circumstances beyond the control of the company," Mr. Hinchey said this morning. "We have experienced a great deal of trouble in getting right-of-way for our lines but have been at work almost continuously. I understand that pipes have been laid to a point about five miles past Brownfield while ditches have been dug even farther. The company has no intention of not continuing the work."

Commenting upon the action taken by the city council of Seagraves in revoking the franchise granted, Mr. Hinchey explained that this could not be done legally. The company official expects to meet with officials of the city of Seagraves this afternoon and stated that little trouble is expected to occur from the suit.

SEES THE END

* * *

A definite end of the world is foreseen by Sir Arthur Eddington, (below), noted British scientist. He stirred physicists in many countries when, in an address before the Mathematical Association in London, he predicted that the universe ultimately would "become a ball of radiation, growing ever larger; about every 1,500,000,000 years, it will double its radius and its size"

COURT DOCKET IS ARRANGED

JUDGE MULLICAN WILL OPEN JANUARY TERM NEXT MONDAY

Jury docket for the January term of 99th district court, which convenes next Monday before Judge Clark M. Mullican, was announced at the office of District Clerk Charles Metcalfe this morning.

First week of the court will be non-jury week and jurors are not to report until January 19.

The docket includes the following cases:

Robert Pettit vs. W. E. Spencer; L. A. McDaniel et al vs. G. H. Orr; O. L. Miller vs. Jno. R. Griffin; B. M. Taylor vs Jno. R. Griffin; Robt. Linn vs. Jno. R. Griffin; Jno. R. Griffin vs. J. R. Burrus; T. C. Calley vs. J. J. Richards; A. A. Behringer vs. South Plains Coaches; Poney Andrews vs J. M. Radford Grocery company; Mrs. W. G. Nairn vs. Robt. Bean et al; Duncan Hensley vs. Waco Drug; Simpson vs. City of Lubbock; Panhandle Construction company vs. C. J. Lyne; R. W. Higginbotham vs. Whaley; Ramey vs. D. E. Brucht; Fidelity & Deposit company vs. Citizens National bank; W. D. Benson vs. H. C. Burt; Axtell company vs. American Surety company; J. K. Miller vs. P. & S. F. Ry. company; Frank Corn vs. J. L. Brabham; Mrs. Lamb vs. Red Star Coaches; Naylor-Collins company vs. Leaverton; L. H. Plain vs. Will

Another Experiment Station Is Sought

AMARILLO, Jan. 9 (AP)—Delegates from an area reaching from Lubbock on the south to Perryton on the north gathered here today to discuss proposed legislation for an agricultural experiment station in the Panhandle wheat belt.

A. B. Conner director of Texas Experiment stations was guest of honor at a noon luncheon and P. C. Bennett, Potter county agent, was host and chairman of the business session that was scheduled for the afternoon.

Osage Indians Give Retired Agent Pony

PAWHUSKA, Okla., Jan. 9 (AP)—J. George Wright, 71-year-old former superintendent of the Osage Indian agency, today was the recipient of the highest honor token of the Indians—a pony.

At a pow-wow here yesterday, attended by some 600 brightly regaled Osages, Mr. Wright, who saw nearly half a century of Indian service, was presented with the pony and an expensive automobile in recognition of what he did during the 16 years he was superintendent.

Blinn Memorial To Join Southwestern

GEORGETOWN, Jan. 9 (AP)—Dr. King Vivion, president of Southwestern university, yesterday submitted his report to the board of trustees. It was decided to start a campaign for funds totaling $50,000 and approval was given merger of Blinn Memorial college at Brenham with Southwestern and instructions were given for consummation of the consolidation.

Rail Company Seeks $9,000,000 In Bonds

WASHINGTON, Jan. 9 (AP)—The St. Louis Southwestern Railway company today applied to the Interstate Commerce commission for permission to issue $9,000,000 of 6 per cent notes to mature July 1, 1932.

TO PAINT HOOVER

* * *

Despite American artists' protests against the painting of high government officials by foreigners, Douglas Chandor, (below), an Englishman, has been commissioned to do a portrait of President Hoover at the White House. P. de Costa, of France, has just finished a portrait of the Chief Executive for the Union League Club of Philadelphia.

WOMEN FLIERS STILL ALOFT

THEIR ENDURANCE GOAL LOWERED, HOWEVER; AFTER 150 HOURS

(By The Associated Press)

LOS ANGELES, Jan. 9.—Endurance flying has proved no lark for Bobbie Trout and Edna May Cooper.

Nevertheless the girls and their plane, "The Lady Rolph," named in honor of the first lady of California, showed no signs of weakening today as they passed the 106-hour mark.

Perseverance Rewarded

The perseverance of the fliers, who for more than 33 hours were dogged by a rainstorm, apparently was rewarded, for at midnight the rain ceased and the clouds began to disperse. The storm was the second since they took off at 2:20 P. M. Sunday. They rode out the first Tuesday night.

The weather and a series of mishaps, however, caused Bobbie and Edna to lower their sights. When they began the venture they had them trained on the 645-hour flight record set by Dale Jackson and Forest O'Brine, at St. Louis. Last night, while the storm was at its height, they dropped a note saying, "we want to beat the Question Mark."

The "Question Mark," a tri-motored army plane manned by five of the army's best, set the first refueling flight record of 150 hours here two years ago. The promise of clear skies and a warm sun today may revive the old ambition.

OKLAHOMA HAS RESOLUTION ON ACTION

LEGISLATURE PASSES RESOLUTION TODAY IN SESSION

(By Associated Press)

OKLAHOMA CITY, Jan. 9—A resolution memorializing congress to place an embargo on oil importations and follow with an adequate tariff on petroleum and refined products was passed by the Oklahoma house of representatives today 81 to 7, with nine absent.

The resolution, introduced by David Logan, Democrat, Okmulgee county oil man, brought fire from James Babb, LeFlore county, who alleged the action was "undemocratic" and would result in major oil companies increasing the price of gasoline to consumers.

People to Have to Pay

"Every individual will have to contribute to pay that protective tariff," Babb said. "The oil industry is not in such dire straits as the farming business and the people will have to pay.

"If the oil companies want a tariff let them show they are willing to reduce prices. The price of gasoline is the same now as when the price of oil was higher. A protective tariff is wrong in principle.

"It will require citizens to pay tribute under guise of a tariff to the most profitable industry in Oklahoma."

J. T. Daniel, Jefferson county,

Building Permits Total $13,803 Now

A permit for $2,500 was issued at the city hall this morning to bring Lubbock building valuations for the month of January to $13,803 for a total of eight permits.

Today's issuance was made to J. L. Buck for construction of a brick veneer residence at 2808 Twenty-Second street. R. E. McCurdy is contractor.

THIRTY THOUSAND KILLED

PEIPING, China, Jan. 9 (AP)—Thirty thousand persons have been massacred in South Kansu during the past nine months by the forces of the Mohammedan leader Mating Hsien, the government here has been informed. During the same period bandits captured 20,000 women and at least 30,000 persons died of starvation in the ravaged regions.

SEEK CURE FOR 12-YEAR HEADACHE

* * * * * * * * * * * *

A headache that has lasted for 12 years will be examined by scientists at the University of Illinois Hospital, who hope not only to relieve the sufferings of Theodore Roberts, (below), 23, its possessor, but to develop a cure for migraine headaches generally. Roberts, who lives at Lake Geneva, Wis., will stay at the hospital three months, will receive $50 a month and will have nothing to do but let the physicians examine him. Doctors decided his headache was the worst of 750 cases examined. He is shown here with Nurse Lillian McCate.

Better Cotton Seed Program Is Planned

QUALITY TO BE SOUGHT FOR EVERY STATE IN ENTIRE SOUTH; CO-OP UNITS TAKE LEAD

(By The Associated Press)

NEW ORLEANS, Jan. 9.—A program to improve the quality of cotton seed in every cotton state was announced today by C. O. Moser, vice president and secretary of the American Cotton Cooperative Association, who said it was one of the most "constructive steps in the cotton industry that has been taken in 40 years."

He said that C. A. McLendon, of Atlanta, seed expert of 20 years experience, had been employed to conduct the program and that seed centers would be established in each state in the cotton belt.

Conferring With Legge

Officials of the association and executives of cotton cooperative associations of the cotton belt states today were conferring with Alexander Legge, chairman of the federal farm board and Carl Williams, cotton representative of the board.

"The bureau of plant industry of the department of agriculture has agreed to give us technical advice

ARSON MAY BE CHARGED HERE

INVESTIGATION TO BE MADE OF SEVERAL FIRES IN CITY

Indicating that complaints might possibly be filed in connection with several fires which have occurred in Lubbock, T. F. Justiss, of Austin, state fire insurance commissioner, this morning declared that he is in the city for a thorough investigation of all conflagrations whose origin has not been definitely established.

"I realize that it is very hard to get evidence which might lead to filing of complaints against parties responsible," Mr. Justiss stated, "but, in cooperation with your local officials, I intend to make a thorough examination and investigation of several fires here. It is highly possible that some com-

BONDS CARRY IN ANDREWS COUNTY

NORTH - SOUTH ROUTE TO BE BUILT FROM $200,000 ISSUE

Citizens of Andrews county Thursday voted a $200,000 road bond issue, funds to be given the state highway department for paving of highway No. 137 through that county, according to information received in Lubbock today from F. S. Wilson, secretary of the Andrews Chamber of Commerce.

The bond issue carried the entire county by a vote of more than two to one, the count being announced as 209 for and 89 against.

Although state highway No. 137 has not been designated by the state through Andrews county, a contract was made between Andrews county and the state highway department that if the county would vote an issue of $200,000 the state would take the money and build a hard-surfaced road through the section.

State To Match Funds

It is understood that the road will cost more than twice that amount and it is the policy of the

(Turn to Page 11, Column 5, Please)

Lamesa Man Is Hi-Jacking Victim

LAMESA, Jan. 9—(Special)—"Give me a cigarette." "Now give me a match." "Stick 'em up." were the commands accompanied by the thrust of a short gun in the abdomen of Vaughn White here last night as he was on his way home. The hi-jacker took White's wallet which had about $55 in it and took to his car which was waiting and without lights sped toward the south. City officers were summoned at once but early today no clues had been found, other than that a tall, white man, with coarse voice did the job.

White has been in the employee of the Santa Fe railway company and had just received his pay, it is said.

HIGHWAY BOND ITEM UP AS ISSUE NOW

REDISTRICTING BILLS AND OIL LEASES TO FORM TANGLE

(By The Associated Press)

AUSTIN, Jan. 9.—Hope and anxiety prevailed today as the advance guard of the legislature began arriving for the opening of the 42nd session Tuesday. All hoped the session would be harmonious, but many feared several projected bills would cause rifts.

Three items were seen as possible sticking points. One was the recommendation of the state highway commission that a statewide bond issue be submitted to the people to provide a uniform income for the highway department. Another was the proposed congressional and state redistricting bills, several of which have either been prepared or are in process of preparation. Representative Penrose Metcalfe of San Angelo was taking the lead along this line and said he had the bill to revise the congressional districts completed.

Oil Leases Questioned

The third sticker was expected to be the investigation of the leasing of university lands and the collection of oil royalties. A house investigating committee has been working since the close of the last session inquiring into the leases with the aid of Moore Lynn, state auditor. Lynn had recommended to the legislature that some action be taken concerning certain items developed by the investigation. Representative Bob Long of Wichita Falls, instigator of the inquiry, has expressed dissatisfaction with the results obtained by the committee and has said he will bring in a minority report that will be more complete than the committee report.

Long said "hides will be hanging all around the capitol when I bring in this report. The investigation has developed little that was not known before the inquiry started."

The highway bond issue was placed squarely before the executive and legislative departments yesterday when the highway commission recommended an initial bond issue, not to exceed $300,000,000, as the most promising plan of stabilizing the income of the department. The bond issue played a prominent part

NURSE HEROINE OF RESCUES

THREE PATIENTS ARE CARRIED TO SAFETY IN BROWNWOOD

(By The Associated Press)

BROWNWOOD, Jan. 9.—Mrs. Ethel Crone, night supervisor at the Brownwood hospital, destroyed by fire last night, only nurse on duty when the fire was discovered carried three patients to safety while flames menaced her and their safety.

The fire spread rapidly in the two-story frame structure. Mrs. Crone aroused other nurses sleeping in the building and then hastened to get the patients out. Two patients were able to leave their beds unassisted.

Flames were first discovered in the x-ray room and they soon enveloped the adjoining operating room. The loss was estimated at between $25,000 and $30,000.

After seeing the patients to safety, Mrs. Crone returned to the blazing building and removed four tanks of ethylene gas, thus preventing possible explosions.

Mrs. F. L. Monk of Brownwood, left the building with her 12-hour old baby boy.

Dry Raid Made In Las Vegas, Nevada

LAS VEGAS, Nev., Jan. 9 (AP)—This little city, picturesque relic of the old, wild west's last frontier and possessor of a new importance because of its proximity to the site of the Hoover dam project was staggering today from the effects of the most violent dry raid in its history, made last night by virtually the entire Los Angeles federal prohibition bureau personnel.

At least 20 barrooms and cabarets felt the raid, in which 30 prohibition enforcement agents took part.

Youth's Ear Good Place For Barley To Begin Growing

ALBANY, Oregon, Jan. 9 (AP)—The youthful victim of a persistent earache, Oren Sudtell, was informed today it had been caused by a sprouting grain of barley. A physician removed A bearded grain blew into ear last fall. Oren decided he previously had gotten out only the hull.

DECREASE IN MARRIAGES AGITATES TURKEY; RETURN OF HAREMS SEEN

* * * * * * * * * * * *

(By The Associated Press)

ANGORA, Turkey, Jan. 9.—A great decrease in the number of marriages has been agitating Turkey.

Salih Bey, deputy in the grand national assembly, has expressed his opinion that plural marriages should again be allowed "in behalf of the thousands and thousands of Turkish women who have failed to find husbands since the one-wife law went into effect."

A "bachelors' society to end bachelordom" has been formed by the new Turks of Istanbul. It will inaugurate proceedings with a "get-to-gether" ball for unmarried men and women. It is hoped that acquaintanceships thus formed may lead to weddings.

Members of the society will give lectures and write for the papers on the advantages of wedlock. The society will spread propaganda against the present first generation of the Turkish bachelor-girls.

Replying to Salih Bey, the dean of Turkish doctors, Bessim Omer Pasha, argues not only against polygamy but against any encouragement of marriages during the present economic crisis. He condemns the newly formed society arguing that all present efforts should be devoted to saving the children of couples already married. He says that what Turkey needs today is not more wedding bells but more scientific handling of the vast problem of infant mortality.

HOLLYWOOD GIRDS FOR WAR BELIEVING UNDERWORLD HAS EYES ON RICH FIELD OFFERED FOR HOLDUPS; GUNS CARRIED

(By The Associated Press)

HOLLYWOOD, Calif., Jan. 9.—Filmland is girding itself for war. Blank cartridges have been replaced by real ones in weapons buckled on by hitherto synthetic warriors, as picture folk accept what they believe to be a challenge from the underworld.

The warlike atmosphere prevailing in this star spangled city is the result of the kidnaping and robbing in New York Wednesday night of Lita Grey Chaplin. Mrs. Chaplin was robbed of $14,000 in jewelry.

The action of the kidnapers who robbed the former wife of Charlie Chaplin, with her escort, Georges Carpentier, former heavyweight boxer and now an actor, at the point of pistols, was regarded here as a possible forerunner of future similar attempts on people of the films.

Field Recognized

Robbery attempts made recently in Hollywood, which resulted disastrously for the would-be holdup men, further strengthened the belief of film folk that the attractive field offered by them to gunmen had been recognized by the underworld.

The chauffeurs of Janet Gaynor, Edmund Lowe and Winfield Sheehan, film executive, hold permits to carry arms, while armed guards patrol the estates of Mary Pickford and Douglas Fairbanks, Gloria

ZARO'S AFFAIRS TOTAL LOSS IN U. S. THUS FAR; HE'S $6,000 IN THE RED

* * * * * * * * * * * *

NEW YORK, Jan. 9 (AP)—Affairs of Zaro Agha, the 156-year-old Turk, are in the red. So far he's a total loss of $6,000.

He came here months ago from Constantinople to stimulate the interest of science in his longevity, improve Turko American relations, and pick a few shekels from the golden bushes.

The news films made him pose, specialists x-rayed him and the public rubbered its fill—all without admission. That for a man whose passport shows him to be 156 years old.

"I am the man who has to pay the $6,000," says Asin Redvan, his manager, "but I am charging it up to improved Turko American relations and forgetting it."

Agha is writing his memoirs, but the book isn't coming along very fast, says Redvan, what with Agha taking time out for heavy meals and dashing off to the movies. He is crazy about pie and candy.

He will return to Turkey as soon as his writing is finished.

ZARO AGHA

Women Students At Tech College Are Guests At Annual Reception

DR. MYERS

Doctor Myers' Daily Column On Child Welfare

BY GARRY C. MYERS, PH. D.
Head Division Parental Education Cleveland College, Western Reserve University

DON'T ENCOURAGE WHIMS

DURING THE second and third years of our oldest child I recorded notes on what seemed to me to be whims. They were published in the Pedagogical Seminary, March, 1924.

Then I wrote: "They are presented with the hope that they may help us a little to interpret more charitably the conduct of children. Obviously these notes are not meant to be models of child training."

Indeed, they suggest the kind of training not to give a child. At that time Mrs. Myers and I were guided mainly by one principle—to induce the child to do what we wanted him to do without emotional resistance, regardless of the time and patience necessary, and regardless of the number of whims inevitably developed in him.

We are rather ashamed of these records, although at the time they were made I didn't didn't think they were so bad. When they were published, almost ten years later, we had greatly modified our views and methods of procedure; yet for the cause of science we were willing to have them appear exactly as recorded. It should be added that the major principle of avoiding conflicts we have still maintained. Mrs. Myers being the skilful one in applying refining techniques in its observance, so to avoid development of the kind of foolishness betrayed in these notes.

Day 390. When on second feeding I refused cereal, he pointed to the water pitcher. Given a drink, he took his cereal, then wanted a drink before each succeeding spoonful, and would have it no other way.

Day 445. For some while has been given water from a glass only. When offered water from a cup today refused it, but drank freely from a glass.

Day 552. For some time when, upon his refusal to eat the last part of a dish of cereal, we put the spoon through the back of the chair he will take it with great pleasure and thus seem to relish much more food. Likewise, when his first acute appetite is satisfied, he will coax one to put the spoon through the chair-back to feed him.

Day 563. One evening for fun, I sprayed his foot before spraying his throat, and for a week this had to be repeated.

Day 580. Tonight he would not eat for me at all, but ate heartily for his mother. She usually has been feeding him.

Day 626. Mother only can do things for him. Almost always irritated by nurse when she tries to to do anything for him. (Has scarlet fever.)

One kind of medicine he likes, but mother must always sit down to give it to him. She had sat when giving it to him the first time.

Once she threw the ball against the wall to amuse him when he did not want to take his milk. Now that must be repeated before he will drink the milk.

When he found my hat on the table it had to be put away, but when mother started to put it away he objected. I had to do it.

Don't do as we did then if you wish to avoid a lot of nuisance to yourself and numerous and ridiculous whims in your child. I regret that we kept no record of how we finally trained these bad habits out of him. Nevertheless, we gradually did do so pretty well, I think, and we feel no need to apologize for the behavior of this same child now in college. Measured by the standards we believe in, we are pleased with his development socially and mentally. Of course, we are his parents and are likely, therefore, to be greatly biased. Anyway, I find in our experience a little comfort for the parent who may have thought that early bad habits never could be changed.

Three Hundred Call At Affair Given Thursday Evening In Paul Horn Home

Outstanding in social affairs attended by college students this week was the reception extended to women students and women faculty members of Texas Tchnological college Thursday evening from 8 until 10 o'clock, by members of the Forum, woman's organization on the campus. The reception, which is an annual courtesy, was given in the home of Dr. and Mrs. Paul W. Horn.

Guests upon arriving were greeted at the door by Miss Jean Shelley Jennings who presented them to Miss Nell Goodloe, Forum president. Others in the receiving line were Misses Fay Foote, Kathleen Harman, Sarah Michie, Cornelia McCanne, Orene McClellan and Hazel Gruver. Inactive members of the organization were also guests.

During the evening piano numbers were played by W. R. Waghorne. Miss Alice Claire Teague and Miss Ruth Sparks.

Tea was served from a table covered with a lace cloth and centered with a huge bowl of roses. Candles were used at the four corners to light the table.

About 300 called.

Two Are Received In Carlisle Club

Mrs. J. S. Hamilton and Mrs. N. A. Payne were received as new members into the Carlisle Home Demonstration club Thursday afternoon in a meeting with Mrs. E. F. Alford. Eight other members were in attendance.

The club is to join with the Wolffarth club next Tuesday afternoon at 2:30 o'clock in a meeting at the Wolffarth school house for a cheese demonstration.

Great Britain has been exporting wool for about 1700 years.

Lu Beta Delphians Will Have Election

Members of the Lu Beta Delphian chapter will meet in business session on January 29 and elect new officers, according to plans made at a meeting in the administration building, Texas Technological college, yesterday afternoon. These officers will not assume their duties, however, until September of this year.

A forty-two party was planned for March, to which husbands of members will be invited and the club voted to sponsor a show at Tech in April.

Mrs. Frazier McCrummen was in charge of a regular program and the topic was a continuation of Venetian paintings, started at the last meeting. A resume of the last program was given by Mrs. A. T. Biggers and talks on program topics were given by Mrs. J. E. Hamilton, Mrs. R. A. Mills, Mrs. L. H. Hungate and Mrs. Guy Johnston.

Those who attended the Delphian meeting were Mesdames Roscoe Cowart, D. N. Leaverton, F. A. Kleinschmidt, W. P. Jennings, G. P. Kuykendall, Fred Snyder, L. B. Rice, H. F. Godeke, T. A. White, Frazier McCrummen, J. E. Hamilton, Guy R. Johnston, O. K. Peters, R. L. Powers, L. H. Hungate, H. H. Bidwell, R. A. Mills, W. G. McMillan, A. T. Biggers, Calvin Henson, W. L. Stangel, J. P. Steele and Grayson Bell.

Honey bees die within a day or two, and sometimes sooner, after stinging a person. This is because when they sting the "stinger" remains in the body of the person stung and is torn from the bee with such injury that it cannot live.

Mental, Moral And Physical Training Of School Children Discussed In Talk

A talk by M. H. Duncan, superintendent of city schools, on the physical, mental and moral training of the school child, featured a meeting of the Junior High school Parent-Teacher association Thursday evening.

The program opened with numbers by the Junior High school band, after which Dorothy Cowen gave a musical reading and several children participated in a stunt, "Miss Lubbock."

Mr. Duncan told of the physical training that is now being offered in the schools and said that another instructor is to be added to the teaching staff next year in order that every student in the schools will have this training. Play periods during which the activities of the children are supervized by the teachers, will also be introduced, he said.

He discussed the methods now being used in the schools and talked of the moral influence that teachers and parents exert in training the adolescent boy and girl.

Next Princess?

America's next princess will be Miss Louise Astor Van Alen, above, daughter of Mrs. James Laurens Van Alen of "Wakehurst," Newport, R. I., according to society journal gossip in New York. She is reported to be the fiancee of Prince Alexis Mdivani, of the Georgian nobility. The family is the one into which the film stars, Mae Murray and Pola Negri, married. The wedding is reported scheduled for spring.

New Officers Are Named By Society

Mesdames E. D. Van Meter and N. H. Heath were hostesses to members of the Happy Hour Needle club in the home of the former at 1924 8th street Thursday afternoon.

Election of officers was conducted with Mrs. A. T. Cocanougher elected president; Mrs. Paul Williams, vice-president; Mrs. Van Meter, secretary; Mrs. Clyde McCrummen, treasurer and Mrs. Clyde Tatum, reporter.

Mrs. Williams, the retiring president, was presented with a gift by the club and Mrs. G. C. Bell was announced as a new member.

Others present were Mesdames R. F. Ratliff, R. T. Bertram, J. J. Roszell, R. C. Keeton and Luther McCrummen.

Mrs. Joe Telford is to entertain this club on the first Thursday afternoon in February.

New Members Elected Thursday In Fellowship Club As New Year Is Begun

New officers have assumed their duties in the Fellowship club with the beginning of the new year and two new members were elected into the organization at a party given Thursday afternoon in the home of Mr. and Mrs. John Dalrymple, 1909 13th street.

The new members are Mesdames G. P. Kuykendall and O. B. Trinkle.

Mrs. C. E. Madegen is president of the society for 1931. Mrs. T. R. Prideaux is vice-president with Mrs. W. L. Baugh as secretary-treasurer and Mrs. T. W. Sawyer as reporter.

Mrs. W. C. Rylander joined with Mrs. Dalrymple in entertaining Thursday afternoon. Forty-two was played and a salad plate was passed by the hostesses.

Club members who attended were Mesdames W. L. Baugh, A. B. Davis, T. R. Prideaux, John Richards, C. E. Maedgen, L. E. Grimes, J. C. Hardgrave, Cecil Horne, H. W. Stanton, J. F. Hankins, R. L. Howell, W. R. Blake, Paul Jones and T. W. Sawyer.

Guests included Mesdames J. C. Reynolds, G. F. J. Stephens, A. B. Ellis, George Wolffarth, J. R. B. Cooper, E. L. Robertson, W. R. Spencer and R. T. Campbell.

The Suez Canal is 103 miles in length.

Paper On Diseases Read At PTA Meet

A paper on "Infectious and Contagious Diseases," prepared by Dr. M. C. Overton, was read at a meeting of the Dupre School Parent-Teacher association Thursday afternoon. Miss Grace Draper read the paper.

Room programs were given by children taught by Mrs. Madelin Larmer, Mrs. L. C. Craven and Miss Lelia Puryear. Reports were heard from committees and other business was transacted. The opening prayer was led by Mrs. M. H. Duncan.

Room attendance prizes were awarded to Mrs. Larmer and Miss Leona Bowlin and visiting prizes went to Mrs. Myra Hinds and Miss Erika Peters.

Preceding the meeting, an executive board session was conducted in Mrs. Larmer's office. Mrs. Charles Read's resignation as publicity chairman was accepted at this time and Mrs. Bob Russell was elected to the place.

A benefit bridge and forty-two party for February was discussed and reports were heard.

New Needle Society Is Formed Here

The Stitch In Time club has been chosen as the name for a new needlework organization and meetings will be conducted Thursday afternoons weekly. The society was formed Thursday when several women met in the home of Mrs. J. F. Anthony, 2624 20th street.

The present membership is composed of Mesdames M. M. Brown, Pascal Peek, D. A. Forbess, Frank C. Coombs and Anthony. The club is limited to a membership of ten women.

Mrs. Brown will entertain the club next Thursday.

A. A. U. W. Group To Meet Saturday

A meeting of the A. A. U. W. Readers group, scheduled for this evening in the home of Mrs. A. H. Leidigh, 2101 17th street, is to be on Saturday evening at 7:30 o'clock, instead, it was announced today.

MOVIES OF ROYAL EVENT

When the Duke of Gloucester left England for Ethiopia to attend the Emperior Tafari's coronation he took with him his cinematograph camera with the hope of securing some interesting films of the event. He also included his hunting weapons for the big game expedition scheduled to follow the coronation.

Mrs. Shaver Talks At PTA Meeting

Mrs. J. T. Shaver, who discussed her work as primary supervisor in the Lubbock schools, was principal speaker at a meeting o fthe K. Carter Parent-Teacher association Thursday afternoon. There was an attendance of sixty patrons and teachers at the meeting.

Children in the room of Mrs. O. N. Baucom gave a program which consisted of several songs; a play "Father Time", given by 13 girls and boys and three readings given by Madge Lahelle Malone.

Flower boxes, given as attendance prizes, went to the rooms of Mrs. Josephine Ballenger and Mrs. Baucom.

North America is, next to Africa, the chief gold-producing continent, usually contributing about one-quarter of the world's annual gold output.

CHICHESTERS PILLS

SOLD BY DRUGGISTS EVERYWHERE

CHARM CHATS

by *Nancy Earle*

Noted Authority and Writer on Health, Charm and Beauty.

(Miss Earle will be in Lubbock January 26 to 29)

"But I DON'T overeat" speaks up roly-poly little Miss Matilda.

"I do NOT crowd my stomach. And I've walked miles on end round and round my living room with imaginary apples poised on my hend for posture. And STILL, there is that ugly abdomen. CAN'T you ——!"

Yes, of course. There is still one severe reprimand which one may give an obstinate abdomen which will not be nice and mind when you scold it in terms of improved posture and shrinking diet.

That is our "old faithful". Exercise:

Which of the three disciplinary methods will be most effective for your own wayward contour depends upon which of the three causes of prominent abdomens applies in your case.

If you have always thought of posture as a device employed by your gym instructor to make life irksome and a bore, then the great likelihood is that a faulty posture is responsible for the ugly line.

Try balancing the weight upon both feet equally, with the backbone held upright and straight, the head topping all with the chin in. Don't slump.

If you are a naughty little girl who gobbles chocolate creams and custard pies and always a Kewpie sundae as surely as the afternoon rolls around, then the large abdomen is large just because you persist in stretching it.

Try eating a little less at each meal than you think you want. Try an ironclad "No" to all chocolate creams and pies and syrupy sundaes. Try missing one meal each day—and then not making up the quantity at the next.

And if you are like Miss Matilda, one of those dear souls who do not exert themselves too strenuously in this life, and whose very jocularity seems to bring extra layers of fat, then try these exercises. They are specifically designed for the reduction of the abdomen and not at all incidentally are extremely valuable—the best I know! - for constipation.

Stand with the feet comfortably wide apart. Lace the spread fingers together and clasp them together at base of abdomen. Fling the body downward and up rhythmically to a waltz tune. Press upward on the abdomen as the body goes forward, and release pressure as the standing position is regained. This is not a bending exercise. It is decidedly swinging motion.

In the second exercise, the body is in the same position, except that the hands are clasped together and swung high up overhead and downward between the heels. It is very helpful to have some small weight in the hand, such as a dumbell. This will encourage the swinging movement. This exercise is also accompanied by waltz music.

In both exercises, when the standing posture is resumed the backward swing should be sufficiently pronounced that the body catches itself, so to speak, to prevent falling backward. This—you'll see when you do it!—causes a definite tension of the muscles across the stomach as well as those of the abdomen. With the result that the accumulation of fat upon the stomach is likewise dispelled.

So if your waistline is - er - higher in the front than in the back, you will find this exercise very helpful.

Still another efficient means of banishing the fatty largeness of the abdomen is this rather amusing exercise.

Tear three or four sheets of paper to bits and scatter them promiscuously over your most cherished Persian rug, in your choicest "show off" company room. Then bit by bit pick up the paper.

The best plan is to place a waste basket high upon a table, and then make it a rule that each bit of paper picked up must be placed in the wastebasket before the next is picked up.

POP! GOES A BALLOON

A BIG, airy package of some sort of soap bubbles may be all very well, but don't let it make you think that it contains more soap than White King's compact carton.

For White King Granulated Soap is nothing but the purest vegetable-oil soap made, granulated for convenience. It packs like sugar, so you can be sure you're not spending money for air. And White King is so fine in quality that it's safe for the sheerest lingerie, yet effective for the heaviest blankets, the greasiest dishes.

The economy of White King Granulated Soap is surprising. A teaspoonful for the wash basin, a cupful for the washing machine—that's plenty. Try it today. Sold by your grocer.

Music Club Members To Have Election

The annual election of officers will be conducted Saturday afternoon at a meeting of the Lubbock Music club with Mrs. Roscoe Wilson, 1201 Broadway. The program for the afternoon will be on Edward MacDowell and roll call will be answered with a contemporary of MacDowell and his important work.

Speedy Relief For Sore Throat

This Doctor's Prescription Requires No Gargling

No longer is it necessary to gargle and choke with nasty tasting medicines to relieve sore throat. Now you can get almost instant relief with one swallow of a doctor's famous prescription. This prescription was refilled so often that the druggist who originally filled it decided to put it up under the name "Thoxine" and make it available to everyone.

The remarkable thing about Thoxine is that it relieves almost instantly, yet contains nothing harmful. It is pleasant tasting, and safe for the whole family, and is guaranteed to relieve sore throat or coughs in 15 minutes or money back. Put up ready for use in 35c, 60c and $1.00 bottles. Sold by Hotel Drug and all other good drug stores. Adv.

It is a revelation

to taste the wonderful flavor of Hills Bros Coffee...a flavor developed by roasting the blend evenly...continuously

a little at a time

COFFEE ROASTED IN BULK LACKS THAT RICH, FRAGRANT FLAVOR WHICH IS ALWAYS PRODUCED BY HILLS BROS' PATENTED, CONTINUOUS PROCESS...CONTROLLED ROASTING

OF ALL THE foods and delicacies that come to your table there are few that can inspire your taste like Hills Bros. Coffee. Every sip abounds in fragrant, savory, full-bodied goodness such as you will never find in any other brand.

It's the way Hills Bros. Coffee is roasted that makes it such a joy to drink. Instead of roasting their blend in bulk, Hills Bros. roast only a few pounds at a time. By exact control of heat, every berry is roasted evenly—to that degree where all of the flavor nature gave it is developed to perfection. How different from the bulk-roasting method in which exact flavor-control is impossible!

As fast as Hills Bros. Coffee is roasted and ground, it is packed in vacuum cans that keep it always fresh. Air, which destroys the flavor of coffee, is *taken out* and *kept out* of the vacuum can. Ordinary cans, even if air-tight, do not keep coffee fresh.

Grocers everywhere sell Hills Bros. Coffee. Ask for it by name and look for the Arab—the trade-mark—on the can.

HILLS BROS COFFEE

TORCH MURDER TRIAL SET

FOUR MEN TO FACE CHARGES IN CASE, JANUARY 26

(By Associated Press)

FORT WORTH, Jan. 9—Four men under indictment in the Roy Hawthorne torch murder case will go to trial January 26.

They are Hugh D. "Hop Toe" Butler, A. E. Stanley, Herbert Allen Stanley and James Lloyd "Speck" Casstevens. They are in jail here.

Butler and Herbert Stanley were arrested in Arkansas and tried there for robbery of a bank at Alma. Both received prison sentences but were returned here to face the murder charge.

A. E. Stanley, father of Herbert Stanley, was arrested the day after Hawthorne's body was found blazing in a field near the Lake Worth road, and has been in jail since. Casstevens surrendered a few weeks ago.

Authorities believed Hawthorne was shot and clubbed to death in a house in the north side the afternoon of July 26, last, and his body taken to the lonely spot near Lake Worth where it was saturated with gasoline and set afire.

VETERANS BUREAU AIDED BY PRICES

WASHINGTON, Jan. 9. (AP)—General decline in construction costs has been found a distinct boon by the Veterans bureau.

Officials at the bureau today calculated that in ten hospital buildings recently completed the lowered costs had made possible the installation of 4,633 beds, while the estimates made up a year ago called for only 3,920.

The building program of the bureau, which averages between $10,000,000 and $12,000,000 yearly, has been advanced this year as much as possible with funds available, and the year's expenditures are expected to reach $15,000,000.

A $500,000 hospital at Indianapolis, providing 150 beds, is first on the 1931 program. Bids are to be opened January 20.

January 17, bids will be asked upon a 300-bed hospital to be constructed at Waco, Texas. The bids will be opened February 21, and work upon the $1,100,000 structure started soon after.

The Federated Malaya States government will open a new short-wave radio station at Kuala Lumpur.

NEW DAKOTA SENATOR OWES POLITICAL START TO MAD BULL; WAS EXECUTIVE

W. J. BULOW

BERESFORD, S. D., Jan. 9 (AP)—A bull which gored and killed one of his neighbors put William J. Bulow, democratic United States senator-elect from South Dakota, into politics.

Six years ago the democratic party in South Dakota, without a chance of electing anybody to office in the normally republican state, went through the motions of nominating a state ticket and put up a Beresford man for the governorship.

As the campaign was about to begin the nominee, a farmer, was attacked and fatally wounded by a bull in his pasture. The democrats, just to fill the vacancy on their ticket, put the name of Bulow, an obscure lawyer of the town and unknown outside his own county, on the ballot.

Bulow was beaten, but his dry wit and his scorn for conventional political habits attracted attention, and his party renominated him for governor in 1926.

That year, thanks to a split in the republican ranks, he was elected, and as the first democratic governor in state history he won re-election in 1928.

His success in politics has been due to his personal popularity, and his victory for senator over W. H. McMaster, republican incumbent, came in spite of the success of the rest of the republican ticket.

"There aren't any issues," said Bulow in the McMaster campaign. "Mac's got a job and I want it."

He got the job.

FRAT SYSTEM FACES BAN

NACOGDOCHES SOLON IS TO INTRODUCE BILL IN LEGISLATURE

(By The Associated Press)

AUSTIN, Jan. 9.—Stating the Greek letter fraternity system at the University of Texas needs a good "tonic" to "clear the impurities," Senator W. E. Thomason of Nacogdoches declares he will seek legislative action to supply this "tonic" unless it was forthcoming from university officials.

The Senator several weeks ago stated his intention of attempting to abolish the fraternity system by legislation, shortly after the death of Mrs. Mildred Woodruff, 24, San Antonio, in a fraternity house here. Cause of Mrs. Woodruff's death was given by officials as poisoning. Facts in the case were being considered by the Travis county grand jury now in session.

Action of university officials in expelling offending students and suspending the fraternity involved was not sufficient, Thomason said.

"That was purely local treatment," he said. "What is needed is a general tonic."

"There are plenty of fine young men in the fraternities, but some of them have fallen into bad ways. The fraternity system has no place on a university campus."

Ireland is waging a campaign against vaccination evaders.

Quite Resourceful

(By The Associated Press)

NEW YORK—The Chase National bank seems to lead the world. The resources of $2,697,328,855 given in its year-end statement are unequalled in banking history.

Wins Crown

Frau Behidje Hafez, daughter of Hafez Pacha, a well-known composer, was selected from a group of three hundred Egyptian beauties as the "Queen of Beauty." Movie stars of the country also competed, but Behidje's classic features won her first prize. She is soon to make a tour of the world.

CLEAR AWAY SKIN IRRITATION WITH RESINOL

Whether it is a single pimple or a pronounced case of acne—a mild rash or a form of eczema—a minor sore or tormenting piles, you will find the soothing properties of Resinol Ointment quick to relieve and heal the disorder. Apply freely—no part too delicate, no surface too irritated for its healing medication. Resinol Soap for the daily toilet keeps the skin soft and clear. Resinol products at all druggists.

FRANCIS X. BUSHMAN IS BROKE BUT "DOING THE WORK HE LIKES"—ACTING

CHICAGO, Jan. 9. (AP)—The outlying Kedzie theater on the west side is far out of the route of the night theater crowd, but Francis X. Bushman, matinee idol of 15 years ago, had a star on his dressing room door and he is "doing the work he likes."

The Tribune quoted him today as saying he was "broke, not a penny left of the $6,000,000 to $9,000,000 he earned since he became the first star of the old Essanay studios on Argyle street here in 1914, in the pre-Hollywood era of motion pictures.

Following the filming of "Ben Hur" in Rome in 1914, he was blacklisted by the major picture firms, he said. Beverly Bayne divorced him in 1925. Lawyer fees and alimony left something of his fortune, he said, but he lost "every cent" in the stock market crash of 1929. Now he is at work again, in a stock company. He will be 47 years old Saturday.

Skye, Scotland, has banned Sunday excursions.

Genius Recognized

(By The Associated Press)

NEW YORK—From John Kane of Pittsburgh, who paints box cars for a living and landscapes as an avocation, Mrs. John D. Rockefeller, Jr., has bought a work of art, "Homestead," portraying a section of Pittsburgh's steel mills. It is one of his landscapes shown at an exhibition at the Museum of Modern Art. Kane was a miner, a street paver and a house-painted before his genius was recognized.

In a recent month the average price of stocks listed in Austria dropped 39 points.

Whence Gro

(By The Associated Press)

LONDON—Whence comes name "grocer?" J. Collins master of the worshipful company of grocers, explains. The company was formed years ago to see that the public got good food. Members were authorized to which "en gross," or in bulk, all supplies entering London. They still have the right to enter shops and see that the sugar contains no sand.

The record for the longest unbroken tenancy in France is claimed by the Pouchin family, which has occupied a farm near Isigny, France, for 148 years.

Do MOTOR BUSSES promote SAFETY?

In numerous ways.

1. By reducing the number of private carriers who are poorly equipped and irresponsible in many cases, thereby freezing the highways of surplus traffic and placing the hauling of passengers in the hands of men trained for the work and provided with first-class, safe equipment.

2. By exercising great caution in driving, both in town and out. Certain regulations of the Railroad Commission, which regulates motor busses, pertaining to safety must be obeyed if the companies are to retain their permit; and many companies have additional and more stringent rules for their drivers to promote safety in every way possibl..

Scarce Jobs

Through all of the celebration of high prosperity during the years immediately preceding the unpleasantness of October, 1929, sober watchers at the banquet were conscious of the presence of a grinning death's head. This spectre bore the cumbersome name of "technological unemployment, which was just a nice way of saying that more and more men were being thrown out of work each by the invention of more efficient machinery.

Right now, of course, we have so much unemployment of the old-fashioned, familiar kind that this more modern variety is being forgotten. But when prosperity returns we shall see it again, and it will be, as it was before, a sobering reminder that our industrial machine is in need of a better balance wheel.

However, a new angle on technological unemployment is given in a recent steatement from Prof. William B. Bailey, economist of the Travelers Insurance Co. Prof. Bailey makes this point:

"During the last 10 years agriculture has released about 400,000 workers annually, and between three and four million fewer persons live today on farms than 10 years ago. Industry, trade and transportation have been forced to find jobs for all these persons, in spite of the alarm raised over technological utemployment in industry."

Prof. Bailey thinks industry has done remarkably well in finding those jobs; and he points out:

"We assume that new inventions have thrown so many persons out of work. If agriculture was caring for the three or four million persons that it has turned to the cities for industry, trade and transportation to look after, this unemployment problem today would be much less severe."

True enough. And not only would conditions in this depression be better; in normal times this "technological unemployment" problem would be about non-existent.

All of this indicates that the problem, in normal times, primarily not so much an industrial problem as an agricultural one. If agriculture can be restored to its old-time health, the city man will feel the beneficial effects quite as much as the farmer. There will be less competition for jobs. Work will be easier to find. Wages will be higher. Technological unemployment will be just a phrase, and not an evil death's head.

And that, of course, shows that the restoration of agriculture is an issue that ought to engage the attention of the industrial sections quite as much as it engages the attention of the corn belt.

Psychiatry

It is an entirely sensible set of suggestions that the National Crime Commission has made in connection with the handling of psychiatric cases in American criminal courts and prisons.

Realizing that the "expert testimony" racket has become a farce, the commission proposes that each state provide psychiatric clinics for large courts so that an impartial and detailed examination could be made of the mental state of every man accused of crime.

The advantages of such a step are obvious. Rich defendants could no longer evade justice by hiring all the experts in sight to testify that they are mentally deranged; and, on the other hand, a poor man, genuinely unbalanced mentally, would have a much better chance of getting the treatment he needs than he does under the present hit-or-miss system.

The way our courts handle psychiatric cases has been a disgrace for years. It is to be hoped that the commission's proposals get real attention.

"This will knock their eye out," was the sinister remark of the vendor of prohibition alky.

THE PLAINSMAN Says:

That Girl on Broadway says there are too many jaywalkers on the straight and narrow path.

* * *

BABY PRIZES READY

Folks, The Plainsman's word is as good as his bond. Yes sir, especially with the word down in black and white!

About two weeks ago this column promised a $5 gold piece to the first girl baby and a $5 gold piece to the first boy baby born within the corporate limits of Lubbock in the New Year. Guy Hughes, who among other things serves as baby expert for The Journal, has discovered the two 'firsts' and on the basis of Baby Editor Hughes' report The Plainsman is ready to pay off.

To Miss Marilyn Cederholm, daughter of Mr. and Mrs. Carl E. Cederholm, 906 Avenue K, goes one $5 gold piece, and to Mr. C. C. Hart, son of Mr. and Mrs. H. C. Hart, 2416 Broadway, goes the other. If Mr. Hart and Mr. Cederholm will call on The Plainsman they can get their money.

The Plainsman offers, along with the ten slugs of Uncle Sam's own manufacture, best wishes to the babies and parents. It's worth ten bucks of anybody's dough to welcome two such fine new citizens to Lubbock.

* * *

I AM greatly affected by details. Little things that shouldn't bother or make any impression at all upon a sane and normal person, often strike me, one way or another. I have gotten to the point where I wonder if other people have similar complexes. I'd like to know.

* * *

If, in conversation, I can't remember the name of some person whose identity enters into the conversation, I can't rest until I remember. I run down the alphabet in my mind, I resort to every trick of memory. The other night I couldn't remember the name of Ernest Torrence, the movie actor. I laid awake until nearly two o'clock before I recalled it.

* * *

The other day I was trying to work up a trade for an eight-cylinder sedan which I knew I couldn't afford, shouldn't consider and probably wouldn't buy anyway. I finally let reason rule and decided to forget it but the thing about that fine car that impressed me most was the rope hanger that hung near the rear seat, that one may hang on while going over bumps. I have always wanted a car with one of those hangers although I probably wouldn't ride in the rear seat of my own car a dosen times in two years.

* * *

ODORS also affect me—and I don't mean necessarily disagreeable odors. I entered a strange house not long ago and the odor of the house carried me back across the sea of time to the day 20 years ago when I, as a small boy, visited my grandmother's home in Baltimore. The odors of the two homes were almost identical and were soothing.

* * *

One summer I labored, more or less diligently, on an oil field engineering crew, laying lease lines and locations and shooting levels for pipelines. We ate in bunkhouses and I was able to put away bales of beans and sow-belly while roustabouts told stories of the most revolting nature in an effort to sicken the tenderfoot engineers. Nothing bothered me but to this day if I get a piece of shell in soft-boiled eggs I am nauseated to a fearful degree.

* * *

If I find a notation on my desk to call a strange phone number I nearly have a calf until I get the party on the line. Uncertainty is fretful, yet an irate customer, threatening everything from libel to mayhem, make little impression.

* * *

WHEN reporters are working on a story which must be covered from every angle and precious seconds are fleeting before press time I can do my best work and my judgment is at its best. When I have nothing much to do I find my work is likely to be sloppy. My worst mistakes crop out when nothing is happening and I'm writing a three line personal about Mrs. Blank's mother visiting her from Oklahoma.

* * *

I rarely have a good time when I am sure, before hand, that I will. I hardly ever like a picture show that has been highly publicized and that my friends have used superlatives in describing. I take a dislike to a person upon first acquaintance because he wears a necktie I don't like or because of some other trivial matter and find later, to my surprise, he is a nice fellow and I respect and admire him.

* * *

I have so often wondered if everybody has such idiosyncrasies, I should like to see Sigmund Freud's analysis of my makeup. I probably shouldn't agree with him but I'd be interested in seeing it. We humans are peculiar animals. Few know an individual as he really is, judging him as he appears. I have always been normal in every respect and I don't suppose I'm different from the average person of my age and sex. But I have some funny ideas—or perhaps I should say reactions. Do you?

* * *

That Man on Avenue Q has told his wife if she must drive her car against something to drive it against something cheap!

The Pat-hfinder!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

Alexander Legge Has Built A Reputation For Being The Hardest-Boiled Of Government Officials, Dutcher Says

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, Jan. 9—Chairman Alexander Legge of the Federal Farm Board has built up for himself an unquestioned reputation as the hardest-boiled guy among important government officials and it has been widely wondered whether he wouldn't eventually qualify as the hardest-boiled guy in the United States.

Mr. Legge has had such excellent luck in disarming his critics by calling them liars or telling them to go to hell, sometimes in those exact words and sometimes not, that some of the mere politicians have been surprised that no one ever tried it before. Nevertheless, there is also a feeling that Mr. Legge may not be able to get away with it forever, especially if the farm situation—even though through no fault of his—fails to improve.

The first real comeback in kind which the chairman has had from anyone is the retort of Mr. John A Simpson of Oklahoma, the new president of the Farmer's Union which claims $500,000 members.

Mr. Legge directed the expression "unmitigated liar" at Mr. Simpson and Mr. Simpson has come down on Mr. Legge with both feet, not only tossing a few bushels of raspberries at Mr. Legge but also proposing an investigation to determine whether there is more truth and merit in Mr. Legge or Mr. Simpson. It seems that Mr. Simpson is turning out to be a hard-boiled guy himself and there is a widespread hope of interesting development if he keeps right after Mr. Legge's scalp.

Legge Defied Committee

Mr. Legge got off to a flying start here when, after President Hoover drafted him from his $100,000-a-year International Harvester job, he told the senators of the agricultural committee—in effect—that if they didn't like him they could go to the devil and he would go back to Chicago. That just about flabergasted the senators, so accustomed to appointees anxious for confirmation.

Since that time Mr. Legge has shown more than a willingness to fight all comers. He kicked up a great furore in Kansas when, in his campaign for wheat acreage reduction, he likened the state or its growers to a "hog in a trough." And when a couple of Kansas publishers assailed him he sent word that they could "go to hell."

In a speech in New York state, he said higher wages for labor and higher prices for manufactured articles were laying heavy burdens on farmers, stirring up angry protest from President Green of the A. F. of L. In the same speech he said farm relief couldn't come through legislation, bringing another retort from Governor Roosevelt.

He has engaged in a long, defiant combat with the organized grain trade, participated in a brief set-to with those who charged he had injured prohibition by lending money to growers of wine grapes, had minor arguments with producers' organizations which didn't fall in with Farm Board theories and recently intimated that certain Farm Board critics in the Senate were full of cheap "hot air."

"Regulated" Prices

The Legge-Simpson clash centers on the rather startling charge that Mr. Legge admitted to the Senate agricultural committee in secret session that the Farm Board was deliberately holding down the price of wheat and cotton. Senator Thomas, a committee member, told Simpson that Legge had testified the board had stopped the decline of wheat at 69 cents and stopped its rise at 73.

Simpson offers to prove that Legge said he wanted the price of wheat kept low so it would be fed to hogs instead of corn, and that cotton prices should be kept at present levels for the benefit of textile mills. That's the sort of thing that made Legge say anyone who said it was an "unmitigated liar."

"You may have acquired some slight experience in shouting and bellowing liar at underlings while you were head of the Harvester Trust," Simpson wrote, "but I have driven mules and called hogs to the feed trough." Legge, he said, couldn't get away with dragging discussion of issues into the "gutter" or lower the argument to "the level of a barroom brawl." Legge was also accused of trying to "strut like a two-cent Mussolini," and Simpson demanded to know whether Legge would welcome an investigation of Farm Board marketing activities or "attempt to cover up with barks, bellows and shouts."

There is some sentiment for such an investigation and more about it probably will be heard from the caustic Mr. Simpson. Senator Caraway says that Legge told the agricultural committee the exact opposite of what he told the appropriations committee, but no senator is supposed to disclose publicly what is said at a committee's executive sessions, and it appears that no stenographic notes were taken. So what Legge actually said is likely to remain a matter of argument.

The question whether the Farm Board has done agriculture any good remains a matter of argument, too. Simpson says it has done agriculture much harm. Knowing Simpson's characteristics and Legge's, Washington looks forward to the former's arrival here and a really thrilling spectacle when those two actually start after each other.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE: Four pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Hygiene of Women," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are: "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

OFFICE WORKERS NEED A COUNTERACTING DIET

SEDENTARY WORKERS, confined to stuffy offices all day, sitting at a typewriter—girls more often than men, but not exclusively the prerogative of one sex—need a fruit and vegetable content to their diet to counteract such sedative habits.

Dr. Clendening

The roughage diet is not exclusively a vegetable diet. Meat and fats should also be used to furnish easily available energy. But fruits and vegetables are the basis of it. They not only have residue, but their juices are slightly laxative. Applesauce used to be known at the Presbyterian hospital in Chicago as "Dr. Sippy's cathartic." Molasses and honey are both mild cathartics.

For atonic constipation the following high residue diet is used. If it is too irritating the low residue diet described yesterday should be substituted.

Such foods as the following:

Soups: Stock soup with vegetables.

Vegetables: Spinach, peas, beans, corn, cauliflower, cabbage.

Cereals: Oats, mush, hominy grits, (Cooked cereals with bran.)

Breads: Bran, whole wheat, graham.

Fruits: Prunes, dates, figs, raisins, oranges, apples, berries with seeds, peaches, melons.

Fluids: Water in abundance, weak coffee, new cider, unfermented grape juice, buttermilk.

Cake: Ginger snaps, gingerbread.

Desserts: Fruit ices, date or fig pudding, agar-agar gelatines.

Miscellaneous: Marmalade, honey molasses in moderate amounts, popcorn.

Remarks: Balance your meals have variety each time, using meats, vegetables, fruits, etc., with each meal. Eat some fresh or cooked fruit every night before going to bed.

Arrange your meals systematically and stick to your schedule. Regularity in meal time is one of the most important elements in treatment. It means educating your gastro-intestinal tract to receive stimuli regularly.

Drink plenty of water between meals. Drink two glasses of water (hot or cold) immediately on rising.

Constipating foods are: Tea cocoa, tapioca, cheese, sweet milk, eggs, salted fish, rich puddings, fried foods.

Before going to bed it is well to follow the old rule of eating an apple (from which undoubtedly comes the saying: "An apple a day keeps the doctor away") or some figs, canned pears, a dish of stewed prunts, stewed apricots or stewed raisins.

In Russia, where they have banished Santa Claus, long-bearded natives are said to find it increasingly difficult to evade suspicion.

Paul Mellon, son of the treasury secretary, has decided to give up literature to work in his father's bank. Certainly he'll get more credit for whatever notes he writes.

More tobacco was raised in South Africa in 1930 than in any previous year.

DAILY ALMANAC

Cloudy, cooler

WEST TEXAS: Cloudy tonigh and Saturday, probably rain in southeast portion; not much change in temperature.

EAST TEXAS: cloudy, probably local rains tonight and Saturday, somewhat warmer in extreme east portion. Light to moderate east to southeast winds on the coast.

OKLAHOMA: Mostly cloudy tonight and Saturday; somewhat warmer in southeast portion.

Gilbert Swan

In New York

With Swan

NEW YORK, Jan. 9—This, in case it has slipped your mind, is the debutante season.

Just the other night Washington set the season's pace by staging the most elaborate and expensive "coming out" that the capital had witnessed in many a year.

And in this man's town, whether you inquire at the ritzy Pierre's or the swanky St. Regis, you'll be told that there will be little straining at purse strings for the next few months whatever the state of the stock market.

At the moment Pierre's has half a million dollars worth of advance orders on coming out parties.

And if you don't happen to have about five thousand cool shekels in your pocket, this is no town in which to present a pretty daughter to society.

The formula is well prescribed, involving a certain amount of novelty when and if possible. The minimum expense is likely to be around $3000, whatever the condition of the world's economics. Take the present moment—or leave it—it's becoming the proper gesture to spend as a means of keeping money in circulation. And so the Ritz will again find a few Roman pools tucked away in its scenery; gravel paths and brushy undergrowth will suddenly reappear in the smartest spots, with lovely ladies and handsome men milling about.

And the highest priced of Broadway entertainers will find themselves chasing in taxis from theaters to private parties to night clubs.

This season, so I am told, will also find broadcasting performers in particular favor, thanks to the style established by Washington. Also, the "theme song," specially written about some event or person can be expected to be heard from.

* * *

Catering is of course, likely to be the largest item on the expense account, although gowns, special jewels and adornments in general frequently run into the big money. So, at many of the modern private affairs, do the trucks of champagnes and wines which can be seen unloading their prohibition beverages at side doors of many fashionable hotels.

One of the more popular spots in the snappy mid-Fifties has a special ballroom for private parties, already rigged up with a brass-railed bar.

* * *

Those who want to make a particularly large splash now retain artists and interior decorators of nathional prominence to put individual flourishes upon the background. The modernistic and semi-bizarre are quite the mode.

A number of well-known stage designers and artists have suddenly found themselves called upon to handle the settings of several parties a season. These also now are consulted in connection with the snooter Fifth Avenue window decorations.

* * *

And with all due respect to the glamour and elegance of Washington's now famouse coming out, the bigger social events of Long Island offer a constant challenge. At the opening of this particular season, there were several at which a thousand and more guests were in attendance, and where the cost ran anywhere from $15,000 to $50,000.

The home, incidentally, threatens to take trade away from the hotel ballrooms. In another era, the brownstone was almost exclusively used for entertaining, with a few of the historic affairs being staged at the old Waldorf or one of the exclusive clubs. And since so many of the younger set have turned to the theater, it's not such a job these days recruiting talent right out of the Social Register.

Certain of our boxing champs are said to keep late hours. The ring game has come to a terrible pass when our fighters can't even hit the hay.

Boston police may not be superstitious, but since being equipped with apparatus for detecting fake antiques, they've been doing a lot of knocking on wood.

Flapper Fanny

A display of light materials makes a girl's heart heavy when she can't go south.

THE TINYMITES

STORY by HAL COCHRAN—PICTURES by KING

(READ THE STORY, THEN COLOR THE PICTURE)

THE log bridge now looked safe and sound. The Tinies scampered 'cross the ground and hopped aboard their travel truck. "We're set to go," they cried. "We hope the bridge will hold up right, or we will drop right out of sight. A thing like that would surely put a crimp in our fine ride."

The Travel Man said, "Aw don't fret. I'm positive that we will get across quite safely. Natives always do their work correct. They never finish things half way. You'll soon believe just what I say". And then the big truck crossed the bridge and not a thing was wrecked.

"Hey, wait a minute," Scouty cried. "Before we go on with our ride, I'm going to treat the natives to a tasty bite to eat. We have some sandwiches right here and they'll enjoy them, never fear." Of course the natives took the food and thought it was a treat.

The truck then started with a snort. "The engine seems to tlink it's sport to backfire now and then," said one. "That scared me pretty bad. But we should never kick a bit. Our truck is working mighty fit. If anything real serious should happen, 'twould be sad."

Soon Coppy asked, "What town is next?" The Travel Man said, "I'm perplexed. I've lost my markings on our map. Just let me look some more." He shortly added, "Ah! It's found. I surely had to search around. Bukama is the next town and some more treats are in store."

They shortly reached some fine, tall grass and, gee, but it looked hard to pass. "We'll have to drive right through it," said the Travel Man. "I know of no road that goes 'round about, but we can make the trip, no doubt. I'll step upon the gas real hard to make the engine go."

(The Tinymites meet a witch doctor in the next story.)

Jeffries Wins In Coast Court Action

LOS ANGELES, Jan. 9 (AP)—James J. Jeffries, former heavyweight boxing champion has won a superior court battle here for $313.

Fred Hansing had obtained a judgment for $900 on battery charges against Al Morro, a young heavyweight Jeffries is managing, but was unable to collect.

Hansing attached the gate receipts of a bout in which Morro boxed. Jeffries intervened with a preceding claim for $313 as Morro's manager and trainer. The court upheld the claim yesterday.

HARD WORKING TIMBER MAN

Tells How He Was Relieved of Blinding Headaches by Taking Black-Draught.

Hopkinsville, Ky.—"I have been a user of Black-Draught for about twenty-four years, and it is about the only medicine I take at all," says Mr. Edgar Gamble, of 114 Fowler Avenue, this city.

"If I have the headache or feel the need of a purgative, I take Black-Draught. It is easy to take and quick to relieve.

"I used to have dull headaches. My eyes would burn and when I would stoop over I seemed to turn blind. This isn't much of a good feeling when one has to work, and I have had to work hard in my time, being a timber man. This work takes me from home a good deal and one never likes to get sick, especially away from home. I found the best way to avoid this was to take an occasional dose of Black-Draught, and keep the system cleansed.

"I tell all it is a splendid, reliable medicine."

Thousands of others have written to tell how many disagreeable symptoms, due to constipation, have gone away after they had taken Black-Draught. 62-G79

Thedford's BLACK-DRAUGHT for Constipation, Indigestion, Biliousness

An Eminent Physician Prescribed *this* Tonic

AS a young man Dr. R. V. Pierce practiced medicine in Pennsylvania. His prescriptions met with such great demand that he moved to Buffalo, N.Y. and put up in ready-to-use form his well-known tonic for the blood, Golden Medical Discovery. It aids digestion, acts as a tonic, and enriches the blood—clears away pimples and annoying eruptions and tends to give the complexion fresh and clear. This medicine comes in both fluid and tablets. Fancy Movie Names Unmasked

Lupe Villalobos . . . better known as Lupe Velez.

The favorite sport of many Hollywood folk is thinking up new monikers, though a few cling to real names they got from their proud parents as plenty good enough. . . . Here's the lowdown for your fan albums

Surprised? . . . somebody just called Richard Dix by his right name . . . Ernest Brimmer.

Yvonne Liffver . . . has never been to France, but gets away with being French . . . under the name of Fifi Dorsay.

Marion Douras. . . . Never heard of her? . . . Oh, all right! . . . It's Marion Davies.

Ramon Fananiegas . . . can't be blamed for changing his last name to Novarro.

Anita Page . . . born Anita Pomares . . . but by any other name she'd be as fair.

Funny . . . and he changed his name from John Offield to Jack Oakie.

She throws a mean curve on the Hollywood sands . . . as Dorothy Lee. . . . In the home town it was Marjorie Millsap.

Two other people. . . . You think they're Richard Arlen and Mary Brian, but not so . . . Richard Van Mattimore and Louise Dantzler.

Sally Blane . . . has a couple of sisters named Polly Ann and Gretchen Young. . . . Rightly, this is Betty Jane Young.

Two people in one. . . . Above, the real Alva White, . . . Below, Alice White of the movies.

By DAN THOMAS

A GOOD share of the mail that movie question-and-answer writers get reads something like this:

"Please tell me the real name of Moira Moreene, my favorite star."

And the answer is usually something like this: "Molly Moore."

For let any girl with a complete set of mouth, teeth, eyes, dimples, silk stockinged lower limbs and parents win a home town beauty prize with a chance to go to Hollywood as a starving extra girl, and the first thing she will do is disown her parents by chosing a new, fancy and utterly ridiculous name.

Why this is, not even Einstein could explain, but so common is it for stage and movie stars to travel around under a name they made up right out of their own heads, that it would be hard to convince many people that there was a single person in Hollywood still wearing the name he or she was born with.

But it isn't as bad as that, really. If you could be doorkeeper at some big movietown shindig, and if you would start announcing the guests by the names that would be in the family Bible—if the family had a Bible—about half of the arrivals would be recognized.

In a town and a business where everything is sham and tinsel, false front and deceit, these stars who go about unashamed of their own real names constitute an aristocracy of honesty, a roll of honor that every movie fan should have pasted in the front of the favorite memory book and album.

THERE are about a hundred of these people with only one first and last name apiece, and to relieve any doubts you may have had about the real name of your favorites, here is the list:

Lewis Ayres and Robert Armstrong.

Wallace Beery, Noah Beery, Charles Bickford, Lenore Bushman, Johnny Mack Brown, John Boles, Sidney Blackmer, Richard Barthelmess, Joe E. Brown, William Boyd (there are two of them, and both entitled to the name), Constance Bennett, Joan Bennett, George Bancroft, Clara Bow, Warner Baxter and Marjorie Beebe.

Marguerite Churchill, Maurice Chevalier, Ruth Chatterton, Charles Chaplin, Ronald Colman and Harry Carey.

Dolores Del Rio and Frances Dee.

Stewart Erwin, Sally Eilers and Cliff Edwards (who is sometimes known as Ukulele Ike).

Douglas Fairbanks, Kay Francis and Charles Farrell.

Carmelita Geraghty, James and Russell Gleason and Gavin Gordon.

Raymond Hackett, George Houston, Lottice Howell, Leila Hyams, Walter Huston and Raymond Hackett.

Kay Johnson and Dorothy Jordan.

Fred Kohler and Buster Keaton.

Harriett Lake, Barbara Leonard, Jeanette Loff, Laura Lee and Edmund Lowe.

Lois Moran, Polly Moran, Nina Mae McKenny, John Miljan, Robert Montgomery, Chester Morris and Victor McLaglen.

Elliott and J. C. Nugent, and Edward Nugent (who is no relation to Elliott and J. C.).

Catherine Dale Owen, Maureen O'Sullivan, George O'Brien and Patsy O'Leary.

Lucille Powers, Walter Pidgeon and William Powell.

Eddie Quillan.

Will Rogers and Charles "Buddy" Rogers (who are obviously no relation), James Rennie, Basil Rathbone.

Norma Shearer (Mrs. Irving Thalberg if you prefer), Gloria Swanson and Fred Scott.

Helen Twelvetrees, Genevieve Tobin, Ernest Torrence, Lawrence Tibbett, and the Talmadge sisters, Norma and Constance.

Roland Young and Polly Ann Young (again no kin).

John Wray, Fay Wray, Jack Whiting.

That list takes in the people who have stuck by the old family name, and have proved that it's just as easy to win success that way as it is to attempt improving on the work of the folks. The list may not be quite complete, but it takes in most of the stars and featured players.

Among the women, those who won fame before their marriages have clung to their maiden names, and that can of course be overlooked, for it would be rather difficult for an actress to build up a reputation under one name and then have to begin all over again under the legal, married name.

But two of the actresses are exceptions to this custom. Dolores Del Rio took the name of her first husband, Jaime Del Rio, when she went on the screen, and Helen Twelvetrees retains her husband's family name, although she is divorced from him.

Some of the names—like Barthelmess, Miljan and Rathbone—may sound a bit too stagey and artificial to be genuine, but the fact remains that they are on the level, and the actors have the proper evidence to prove it.

LON CHANEY and Milton Sills, both of whom had climbed to the last rung on the ladder of success at the time of their deaths, always used their own names.

Middle names and middle initials have been dropped by practically all the stars, both men and women, as it has been found that a two-part name rolls off the tongue and is more easily remembered than a name parted in the middle.

Minor changes like Francis X. Bushman's have also been recognized. His full middle name was "Xavier," and there is no denying that the "X" had a good box office appeal as a curiosity-rouser.

When you come to the fickle folk who have changed their names completely, you have an entirely different story. In some cases the changes have been for good reason, or because film business executives have made actors sign contracts altering the monikers. All too often, however, there have been no reasons whatever for the rechristening, self-administered.

Once in a while trouble arises because someone refuses to change his name when it is thought advisable by the officials of the movie world. There are two William Boyds, for instance. One of them had been in pictures for years and had succeeded in making his name a box office attraction, when the other one, who had won fame on the New York stage, came to Hollywood. His name, too, was his drawing card.

The screen William Boyd refused to change. He had been christened under the name he used and had built his reputation on it. The stage Boyd likewise was adamant. He, too, had a following. There are three Young sisters in the movies, all of whom are equally proud of their family name. But as their ability became recognized, screen officials decided that their names needed touching up. Gretchen, the youngest, was re-named Loretta by First National. Betty Jane was re-christened Sally Blane by Paramount. Polly Ann, the eldest, was permitted to keep her whole name at the M-G-M studios.

IF you want to test your knowledge of movie lore, try covering up the left-hand column of the list below. In the right-hand column are the legal names of some 35 stars. As you run down that list, see if you can guess the professional name which you see on the screen and in the film magazines:

Film Name	Real Name
Mary Pickford	Gladys Smith
Sally O'Neill	Chotsy Noonan
Jack Holt	Charles Holt
Bernice Claire	Bernice Jahnlean
Rita LaRoy	Ina Stuart
Marilyn Miller	Marilyn Reynolds
Mary Nolan	Imogene Wilson
Janet Gaynor	Janet Gainor
John Gerrick	Reginald Dandy
John Wayne	Marion Morrison
Greta Garbo	Greta Gustavsson
Edwina Booth	Edwina Woodruff
Robert Douglas	Douglas Montgomery
Richard Arlen	Richard Van Mattimore
Nancy Carroll	Nancy La Hiss
Gary Cooper	George Cooper
Mary Brian	Louise Dantzler
Sally Blane	Betty Jane Young
Marion Douglas	Ena Gregory
Marion Davies	Marion Douras
John Darrow	Harry Simpson
Hoot Gibson	Edward Gibson
Ian Keith	Keith Ross
Al Jolson	Asa Yoelson
Arthur Lake	Arthur Silverlake
Colleen Moore	Kathleen Morrison
Gilbert Roland	Luis De Alonso
Nick Stuart	Nicholas Prata
Bob Steele	Robert Bradbury
Lupe Velez	Lupe Villalobos
Molly O'Day	Suzanne Noonan
Lois Moran	Lois Dowling
Sue Carol	Sue Lederer
Billie Dove	Lillian Bohney

PLAINVIEW HAS ANNUAL FETE

MORE THAN 500 ATTEND C. OF C. BANQUET THURSDAY NIGHT

(Special To The Journal)

PLAINVIEW, Jan. 9.—Attended by approximately 500 members and guests, the annual meeting of the Plainview Chamber of Commerce was held in this city last night with R. Q. Silverthorne, retiring president, as toastmaster.

An unusually interesting program had been arranged for the annual affair with Josh Lee, head of the public speaking department of the University of Oklahoma, as the principal speaker of the evening. Mr. Lee, well known throughout this section of the country as a fine speaker and an exceptional humorist, was at his best last night and gave those resent "$170 worth of effervescence."

Opened By Invocation

The meeting was opened with invocation by Dr. Donald B. Doak, pastor of the First Methodist church, followed by music furnished by the Plainview Municipal orchestra under the direction of J. L. Hathaway.

Introduction of visitors included five from Lubbock, R. J. Murrey, retiring president of the Lubbock Chamber of Commerce; Dr. Paul W. Horn, president of Texas Technological college; B. Sherrod, A. B. Davis, manager, and Garnet Reeves, publicity director, of the Lubbock chamber.

A vocal solo by Mrs. J. L. Hathaway, accompanied at the piano by Mrs. Guy A. Gibbs, preceded talks by Grady Shipp, new secretary of the local chamber; Maury Hopkins, retiring secretary; Mr. Silverthorne, retiring president, and Glenn A. Smith, incoming president.

There are now four Roman Catholic cardinals in the United States. They are Cardinals O'Connell, Dougherty, Hayes and Mundelein of Boston, Philadelphia, New York and Chicago respectively.

Cut Yourself a Piece of Cake

Left to right: Lucrezia Bori, Metropolitan Opera star, Jose Iturbi, celebrated Spanish pianist and Mr. Otto Kahn, patron of the arts, cutting themselves a piece of cake at the novel tea given by Miss Bori in honor of Mr. Iturbi's 35th birthday. Most of the guests were of Spanish birth or descent and naturally Spanish costumes seemed to predominate.

MRS. ALVERSON'S BURIAL NOT SET

Definite funeral arrangements have not been announced but burial will probably be held in Whitewright for Mrs. F. E. Alverson, of 2205 14th street, who died in a private hospital in Fort Worth Thursday morning following an illness of several weeks.

It is not known whether or not family members were with Mrs. Alverson when she died, they having left Lubbock Wednesday night to be at her bedside.

Mr. and Mrs. Alverson and family came to Lubbock from Whitewright eight years ago to make their home. Mr. Alverson is a druggist.

Survivors in the immediate family are the widower; a daughter, Mrs. J. C. Sherrod of this city; daughter, Mrs. Ed Eddins, who resides on a ranch near Midland; son, Carl Frank, and daughter, Roberta May, both high school students here.

A small Berlin theater has been given reversible seats so that their occupants can face a moving-picture screen at one end of the building, or a lecture platform at the other.

Seeks $250,000

For $250,000, smiling Huerta Riitel would be willing to forget that she came clear across the Atlantic to become the wife of Connant Hatch, vice president of the St. Joseph, Mich., Iron Works—and then found he was already married. That's the sum the 21-year-old Viennese beauty is seeking in a suit filed in New York. She is pictured above as she appeared in court.

SEDAN CHAIRS FOR BATHERS

Sedan chairs to transport bathers to and from the beach are among the plans being made by the exclusive set which winters at Aix-les-Bains, France. A search is being made for the chairs in England, where once they graced the halls of old mansions.

The heaviest rainfall in the United States occurred at Taylor, Texas, Sept. 9 and 10, 1921. The total rainfall was more than 23 inches.

LYNN ADVISES NEW ORDER

SETTING ASIDE OF OIL CASE JUDGMENT IS RECOMMENDED

(By The Associated Press)

AUSTIN, Jan. 9.—Recommendation that the state legislature consider the advisability of attempting to set aside or amend the judgment of the 53rd district court regarding Reagan county oil and gas leases is made in a special report by Moore Lynn, state auditor.

The report has been placed in the hands of members of the special legislative committee investigating land leases of the University of Texas and will be considered by that committee at a meeting Friday.

Titles Involved

The judgment referred to was between the state and operators of Reagan county leases whereby the university received a cash judgment of $1,000,000 and titles to leases on university lands were validated.

Should a successful attempt be made to amend the judgment, the report stated, "it is believed an effort should be made to receive one eighth royalty payments based on gross instead of net profits of the Reagan county purchasing company. If these changes should be made it would result in additional payments to the permanent fund (of the university) of $92,498.69 for the period from October 1, 1928 to May 31, 1930."

Should the judgment remain in effect, the auditor continued, the "interests of the state" lie in an interpretation of the proper method of computing average posted prices in the mid-continent field and "the propriety of arbitrary deductions from volume and gravity."

Buys Oil On Average

The purchasing company buys oil from the producers on an average mid-continent price.

In event the state cannot succeed in having the one eighth royalty payments made on the basis of gross profits, instead of net profits, the auditor recommended consideration to the deductions the company makes from its net income prior to making the royalty payments.

Items Deducted

The items deducted, according to the auditor's report were:

Depreciation, management and legal fees, ad valorem taxes, interest earned, gain on capital assets sold, increase in oil inventory, unclaimed checks and federal income taxes.

"It is believed," the report said, "that particular attention should be given the deduction for federal income tax, amounting to $171,603.52. There seems to be no ground, whatever, for this deduction."

William Wade, assistant attorney general previously had pointed out that this deduction was equivalent to requiring the state to pay an income tax.

Briton Makes U. S. Debut In New York

NEW YORK, Jan. 9. (AP)—One of England's finest fighting machines, Len Harvey, makes his American debut against Vince Dundee of Baltimore in a twelve round bout in Madison Square Garden tonight.

Middleweight champion of his native land and with a string of some 350 victories, Harvey ruled a 3 to 1 favorite over Dundee.

Tall and stringly built, with the forearms and biceps of a heavyweight and an aggressive fighting style, Harvey has been voted a first class fighting man by observers who have watched his workouts.

Harvey's American invasion comes at a time when the middleweight throne is vacant, Not for many months has Mickey Walker defended his title. Instead he has been campaigning among the heavyweights and there is some question whether he any longer can make the class limit of 160 pounds.

With the title open, Harvey has a good chance to win it for the division boasts few outstanding fighters among home-breds.

A troop of deaf and dumb Boy Scouts has been organized in Edinburgh, Scotland.

Frozen meat shipped from New Zealand in 1930 was valued at nearly $50,000,000.

"The true old-time

SUGAR HOUSE FLAVOR

in this Golden Syrup"

Bill Heer

STALEY'S MASTER BLENDER

You've never tasted PANCAKES *before...*

until you try them with this clear golden syrup. The old-time "sugar-house" flavor gives you a new idea of what pancakes can be!

"TASTE this Golden Syrup of ours and you'll know what I mean by 'real old-time sugar-house flavor'! It's a blend we used to make down South nearly fifty years ago when we cooked our syrups in open kettles and syrup blending became an art.

"Syrup as fine as this is rare nowadays. There's more to it than selecting your ingredients carefully. There's the knack of blending at just the right time and just the right temperature to bring out its mellow smoothness and pure golden color.

"Nobody learns to make syrups in a few months or a few years. I've spent almost a life-time in perfecting this Golden Syrup of ours. It's as fine as a syrup can be.

Ask your grocer for Staley's Golden Syrup and serve it with pancakes, waffles, muffins, hot breads of all kinds. You can make delicious cakes, cookies and ginger bread with Staley's Syrup. It's surprisingly inexpensive, too.

Write for our free recipe book.

RAIL PERMIT IS REVOKED

CITY COMMISSION HAS ACTION ON PROPOSED STATION HERE

Upon application of the Fort Worth and Denver railroad and the Magnolia Petroleum company, a permit recently granted the railroad to construct a spur track through the alley of block 4 in the Merrill addition, was revoked by the Lubbock city commission in meeting Thursday afternoon.

The railroad, however, entered another application for permit to construct the track along Avenue G on the east side of the block. This was granted by the city body.

Calloway Appears

Earl Calloway, representing the Magnolia Petroleum company, appeared before the commissioners asking permission for his company to close the alley in block 4 that improvements might be immediately started in the block. He explained that the oil company is planning the construction of warehouses, oil storage tanks and a filling station on the block but that the alley must be closed to make this work possible. He stated that officials of the company had said the block would be put on the market and sold and another site bought unless the permission was granted.

Can Be Re-opened

City commissioners, after lengthy discussion of the proposal, refused to permanently close the alley but voted to do so on condition that the city reserve the right to have it re-opened at any time upon 90 days notice to the company. Whether or not officials of the company will go ahead with improvements on this basis has not been learned. Commissioners pointed out that with the rapid growth of the city, need for this alley might become apparent at any time and that protection of the city's future interests prevented them from permanently closing the strip.

Planning some extensions in the city department, the commissioners yesterday voted to ask the South Plains Area council, Boy Scouts of America, to move its offices from the city hall and likewise the county library.

FIRE LOSSES LOW DURING DECEMBER

Total loss from fires in the city of Lubbock during the month of December was $12,060, according to a report issued this morning by City Fire Marshal Wiley Metcalfe. This loss resulted from ten fires within the city limits during the period.

Mr. Metcalfe's report showed a total of 306 inspections made and 90 re-inspections during the month.

City officials announced this morning that within the near future a letter will be mailed all fire insurance agents in the city asking for a record of premiums received and losses paid out in the city for the past three years. When these have been received authorities will be able to determine immediately how the city's fire record stands.

It was explained that Lubbock has received prior to this year a 15 per cent credit for a good fire record but that this credit probably will be lost and a penalty attached.

Employment Drops 18.5 Per Cent In '30

AUSTIN, Jan. 9 (AP)—The number of employed persons in Texas at the close of 1930 was 18.5 per cent less than at the close of 1929, according to the bureau of business research of the University of Texas. A decline of 3.5 per cent in the average weekly wages was noted, dropping from $27.27 in 1929 to $26.32 in 1930.

An old Spanish superstition is that a person who has been bitten by the poisonous tarantula can avert death by dancing for three hours.

SOCIETY NEWS

(Continued From The Women's Page)

Four Matrons Have Party For Society

Four matrons entertained members of the Congenial club and their husbands Thursday evening in the home of Mr. and Mrs. Richard Borders, 2619 22nd street. They are Mesdames H. L. Allen, Bode S. Adams, Byron Brown and Borders.

High scores were made by Mrs. Carl Slaton and H. E. Miller and Miss Mary Moss was presented the guest prize.

Those in attendance were Messrs. and Mesdames W. H. Crunk, Tom Foster, Marion Howard, R. L. McAllister, H. E. Miller, H. A. Pearson, K. L. Riggs, Rufus Rush, Charles Rush, Mesdames Carl Slaton and W. S. Moss and three guests: Mrs. Harry Hunter, Miss Mary Moss and Miss Mary Dockray, of Bonham.

A salad plate was passed at the close of the game series.

Third Bridge Fete In Series Is Given

A series of bridge parties continue to be given in the home of Mr. and Mrs. E. J. Parsons on 19th street. The second party in the series was given yesterday afternoon and Mrs. J. A. McCelvey made high score among the players.

The third party will be given this afternoon and another is to be given on Saturday.

Hostesses with Mrs. Parsons are Mrs. Hub Jones and Mrs. Ernest Conley.

Mr. And Mrs. Ellis Are Bridge Hosts

Mr. and Mrs. Lorenz Ellis entertained La Novia Bridge club Thursday evening in their home at 1901 24th street, serving a delicious refreshment course at the end of the evening.

Club members who attended were Messrs. and Mesdames Dwight Hale, Claxton Draper, Glen Hunt, Marlin R. Smith, and Frank Griffith. A guest was Harold Roberts.

High scores in the games were made by Dwight Hale and Mrs. Hunt and Mrs. Griffith scored low.

Farewell Party Given Lubbock Pair

As a courtesy to Mr. and Mrs. J. E. Hawes, who are moving to Mineral Wells to make their home, Mrs. L. R. Rampy and Mrs. Joe Stanton entertained several friends Thursday evening in the home of the former hostess at 1902 24th street.

Games of bridge were played during the evening and the honor guests were presented with a shower of handkerchiefs.

Those present were Messrs. and Mesdames Walker Jackson, Huddleston Wright, Seth Bertram, Jim Kuykendall, Rawson Woolan, Hawes, Mr. Stanton and Mr. Rampy.

Alathean Class Will Attend Play

Members of the First Baptist Alathean class are to be guests of Mrs. David Dallas for the presentation of "Bob Sisters" this evening at the High school auditorium. Between acts of the play Ruth Leberstein is to read, the Green Mountain Boys will play and a dancing number will be given by Doris Gore, Geneva King and Bessie Hardgraves.

NEWS BRIEFS

Mrs. Will G. Smith and sons, William and Joe Stanley, left today for Carlsbad, New Mexico, where they will join Mr. Smith and make their home.

Mrs. J. F. Covey is recuperating from an operation for mastoiditis at the Lubbock sanitarium.

H. F. Harris, of Girard, is a visitor in Lubbock today.

Mr. and Mrs. Steve Edsall have returned to Albuquerque, N. M., after spending several weeks here with Mr. Edsall's father, H. V. Edsall.

Mr. and Mrs. W. F. Street, 2002 26th street, are announcing the birth of a 10-pound son on Thursday at their home.

Joe Hess has returned from a business trip to Oklahoma.

D. P. Peek, 1806 10th street, is to leave soon for Houston to join Mrs. Peek, who left about a week ago. Mr. and Mrs. Peek expect to spend the remainder of the winter with their son, Marvin J. Peek, in Houston, returning to Lubbock in June.

Owen McWhorters Hosts To Club

Mr. and Mrs. Owen W. McWhorter were hosts to members of the I-Deal club with a bridge party in their home Thursday evening. High scores in the games were made by D. K. Bondurant and Mrs. R. C. Smith.

To Consider Park Botanical Supplies

Considering of botanical supplies for Lubbock's system of parks will be given at a meeting this afternoon of the city park board, according to announcement by officials this morning. Bids are now on file for these supplies and will be taken up by the board.

A report will be made to the board of an outline of work to be taken up by the local Lions club on a park designated as Lions park. The Lions committee will ask suggestions and approval fro mthe city park board on plans which have been made for improvement of the al...

Members of the park board include C. H. Mahoney, chairman, K. N. Clapp, Mrs. C. F. Stubbs and J. B. Maxey.

Crowned Queen

"Miss Northwest Territories" is the title that has been bestowed on this 24-year-old Eskimo girl, whose name is Enoosiak (Shining Star), and who was adjudged the most charming Eskimo maiden in all the Arctic in a contest recently held at Baker Lake, in northwestern Canada. The first prize, which she won, was a hand mirror.

Porter Warns On Truck Rear Mirrors

Justice of the Peace H. K. Porter Thursday issued a warning to owners that the Texas law requires that every truck be equipped with a rear-view mirror and that all vehicles drawn by animal power have lamps, lanterns or adequate reflectors.

The regulations requiring rear-view mirrors on trucks as well as other highway laws will be stringently enforced by state highway patrolmen, Judge Porter said.

Several truck owners have been assessed the minimum of $1 fine and $12.15 costs this week because of not having rear-view mirrors on their trucks, and the public evidently does not know of the requirement, the justice of the peace said.

JOBS PLEDGED IN CAMPAIGN

WORK FOR 212 OFFERED BY INDIVIDUALS IN AIDING JOBLESS

Incomplete reports made by teams which have been canvassing the city in the interest of the unemployment campaign here indicate that 212 individuals and firms have pledged jobs in an effort to alleviate the existing condition. Six permanent positions were offered with requirement that applicants qualify for the place.

A total of 116 days of common labor had been pledged, 11 of carpentry, 18 of painting, 3 1-2 of papering, two of cement work, and one of plumbing. The permanent jobs offered included three for salesmen and three as housekeepers.

Some persons over the city reported that they had voluntarily supplied jobs, to aid the unemployed, although they had not reported the move and subsequently did not sign pledge cards.

Members of the Employment Promotion committee again urge that Lubbock citizens hire persons living here. Persons from other towns have been found soliciting work here, the committeemen said, and in some instances have received pay higher than that customary for the work done, while actual Lubbock residents remain jobless.

FILMLAND ARMS

(Continued from Page One)

Swanson, Harold Lloyd and many others prominent in picture making.

Children Guarded

Guards accompany the children of some film stars at all times. Watchmen protect the actors and their estates. Hollywood has taken on the complexion of an armed camp.

Thugs in recent robbery attempts on picture stars were bested when George O'Brien, portrayer of he-man roles, battered two men to the ground after disarming them, and turned them over to police, while Walter Catlett, former headline vaudeville monologist and musical comedy star now in pictures, displayed some boxing skill in disarming and flooring a lone stickup man.

The Territory of Wisconsin was admitted into the Union as the State of Wisconsin in 1848.

$1,500 FOUND

Gold was struck by a man chopping wood in the back yard of his home at Pereth, Australia, recently. Three ingots weighing 75 ounces and valued at $1,500 were found inside a hollow stump, which had been taken out of the ground a year ago. It is thought the gold had been hidden there by a thief in the old pioneering days.

TEXAS MINERS OPEN CAGE SERIES WITH TECH TONIGHT

IN THE REALM OF SPORT

With Collier Parris
Journal Sports Editor

And now for the first coaches' school in West Texas. We listened in on a conversation between Pete Cawthon, Tech coach, and Garnett Reeves, publicity man for the Lubbock Chamber of Commerce, yesterday, and learned that a school for coaches would be held here about the middle of August, if plans go right.

• • •

When those gentlemen get together, things are pretty certain to go right, too. They haven't failed yet to put over anything they have planned. Cawthon has already written several outstanding coaches of the country regarding the matter, and Reeves will take it up this week. Letters have been sent to Knuet Rockne, Pop Warner, Wallace Wade and Bob Zuppke. One of these men, or some other who is popular as a gridiron authority, and a basketball coach of reknown will will be extended over the usual time will be extended ove rthe usual time of two weeks.

• • •

It is hoped that Knute Rockne's services may be obtained, but owing to the weakening physical condition of the great Notre Dame mentor and the orders of his physicians to refrain from such work it is rather doubtful that he will come. Pop Warner seems to be the next choice.

• • •

During his career as coach and official Cawthon has come into contact with the most outstanding mentors of America and doubtless is in a position to get results from his potential invitations. What single event, may we ask, would carry with it more importance or more prestige for West Texas and Lubbock and Texas Tech than a school of this kind? Dallas and Houston have monopolized this branch of athletics for Texas and the Southwest long enough, we suggest, and it is a fine thing that plans are under way to bring such a meeting here.

• • •

The last of the world's four greatest speedsters will risk his neck at Daytona Beach late in February in an attempt to surpass the present automobile speed record of 231.36 miles per hour. He is Captain Malcolm Campbell, the only living man who has driven an automobile faster than 200 miles per hour. In his 1400-horse power supercharged Campbell-Napier engine which consumes gasoline at the rate of 80 gallons an hour, Captain Campbell will try to go the late Major Segrave one better. He has set 250 miles per hour as his goal.

• • •

And we denounce the Romans of old who packed coliseums to see powerful gladiators fight to their death against each other and against wild beasts. Wouldn't those old Romans quail at the idea of a man driving a chariot at the rate of 200 miles per hour? But this is civilization. We cheer him on who seeks to set new records of speed and endurance, thinking little of life or death, praising him if he draws the one chance in a thousand and lives but branding him a fool if he breaks his neck.

• • •

Major Segrave drove his Golden Arrow 231 miles per hour and lived. Then he tried to set a new water speed mark and died. Two others died in the attempt to better the automobile speed record. Captain Campbell set a record in 1928 when his speedmometer registered 206.956 miles per hour, but saw it surpassed a short time afterward by Ray Keech, who went less than a mile an hour faster. They were all left in the dust of Segrave's Golden Arrow. Lee Bible and Frank Lockhart hurtled to their death trying to better the record at Daytona Beach. Keech was killed at Altoona. In his rendevous with death, Campbell may be too swift even for the grim reaper, but he is more likely to keep it.

• • •

The Texas School of Mines, whose basketball team appears here tonight and tomorrow night, while powerful, is not popular with other schools. Some two weeks ago the University of Arizona declared athletic relations at an end between it and the Miners, and two days ago the University of New Mexico severed relationships. Both schools gave as their reasons for quitting the Miners the fact that the school used ineligible men on its teams. Kermit Stewart, for instance, a power on the gridiron and on the painted court, is known to have attended Centenary two years and Marshall College two years, enrolling at the School of Mines as a transfer from a junior college.

• • •

SHORT SPORT SHAVINGS:—Lou Gehrig will receive $75,000 for his services as first baseman for the Yankees the next two years. . . he has played in almost a thousand consecutive games. . . Carl Williams will manage the Wichita Falls Spudders again next season, marking his fourth year with the Spuds . . . Buster Mills, formerly of Ranger High, who represented the University of Oklahoma in the East-West game and kicked a field goal for the winning score, will prance on California gridirons next fall with the Olympic, A. A. U., club of San Francisco. . . The Matador cagers miss Bill Maxwell, high scorer last season. . . Bill is at home in El Centro, California. . . . Babe Ruth will be 38 years old on February 7. . . Herb Pennock will be 38 twelve days later. . . Ben Ticknor, Harvard's all-America center, has been troubled for two years with "athlete' foot".

SAXON BRINGS STRONG FIVE TO LUBBOCK

LOCALS SHOW BETTER FORM; CLOSE SCORE IS EXPECTED

The Texas Tech cagers are at home tonight at the Tech gymnasium where they meet the Texas Schools of Mines quintet from El Paso in the first of a two-game series. The games start promptly at 8 o'clock.

Dope, heretofore favoring the Miners, has turned somewhat, and a close score is expected tonight. Coach Saxon of the School of Mines, former team-mate of the Tech coaches at Austin College, has about him a goodly array of basketball talent, most of them veterans of the game, and if the team is as powerful, in proportion, as the Mines football team of the late season, dope goes in favor of the men from the border.

Matadors Improving

But the Matadors are not to be denied their potential strength. The cagers of Tech are due to be more capable of winning games than the gridsters of the past season. The veteran material is about as good as may be found over this section, and while there are only three tried men, letter men from preceding seasons, there is a reserve strength to fill up the places vacated by passing players which threatens to testify in good faith for Tech during the current season.

Coach Golightly of the Matadors was pleased during the week to see several old heads return. Among them are Jimmie Kerr, back in school after an absence of nearly a year and just on the heels of a matrimonial venture; Howard Baker whose name appeared with Tech lineups a year or two ago; Bob Taylor, and Barton Claunch. They have all had experience with the varsity players, and while they have not been with the club all season and consequently are not in the best of shape, some or all of them are likely to get in the games this week.

Others Show Good

Other men reported by Coach Golightly to be looking good in practice this week are Red Waller, Basil Hill, Wiese, Haden Moody, Crews, Kline, Reeves and Darr. The Tech mentor said that his starting lineup would more than likely consist of the three letter men, Captain Hodges, Fisher and Tadlock, with Moody, Harvey Dunn or Wiese filling the other positions.

Kermit Stewart, Shorty Key and Cotton Pippen compose a trio that is to be watched tonight. They are veterans of the game, having had experience at schools other than the School of Mines, and are among the best of the Saxon outfit.

WESTERNERS WIN OVER FLOYDADA FIVE

Coach "Jew" Keeling's Lubbock High school Westerners came out of a coma in the second half of their battle last night with the Floydada High school Whirlwinds on the Tech court and scored ten times, putting up a fairly good defense to keep the visitors from ringing a single field goal and won their second practice game of the season, 18 to 9.

It was a ragged game from first to last, with both teams showing poor scoring form and the locals failing to show any improvement over their game of a week ago. In fact there was a let down last night. The score at the half was tied, 8-all.

For Lubbock, Bledsoe, starting guard who was switched to forward when Captain Knight was jerked was the outstanding player. He was the outstanding player on the court, though Murray, substitute guard for Floydada, was one of the fastest men on the floor. He failed to score at all, but scoring was a thing that seldom entered the minds of the ten strugglers on the floor. Bledsoe was high point man of the evening with a total of six. Lightfoot, starting forward for Floydada, registered five, doing both of Floydada's field goals.

Coach Keeling leaves Monday for Big Spring where the Westerners meet the Steers of Big Spring High school. Following that series, the Westerners will leave for a road trip through central and north Texas, playing high school teams in Dallas and Fort Worth while on the spree.

RAIN DISTURBING TO COAST TOURNEY

LOS ANGELES, Jan. 9. (AP)—One hundred and thirty-three golfers kept a weather eye on the skies today, hoping for three days of sunshine as a prelude to the Los Angeles $10,000 open tournament.

The sixth annual championship, scheduled to start today, was postponed yesterday until Saturday after a persistent two day rain.

As a result, the Agua Caliente $25,000 open also was deferred from Tuesday of next week until Wednesday, to accommodate the players in the Los Angeles open. Under present plans, the Los Angeles tourney will consist of 18 holes tomorrow, 18 Sunday and the final 36 on Monday.

FIGHTS LAST NIGHT

PARIS—Maurice Griselle, France, outpointed Epifanio Islas, Argentine, (10).

PEORIA, Ill.—Meyer "K. O." Christner, Akron, O., knocked out Bud Doran, Chicago, (7).

PORKERS BEST TEXAS STEERS

"RABBIT" BALL'S EXIT IN MAJORS MAY COME SOON

NEW YORK, Jan. 9 (AP)—The modern baseball, the lively behavior of which has led to considerable "viewing with alarm," is undergoing clinical observations that may lead to the removal of some of its pep.

Although experiments being made with the ball are shrouded in mystery by manufacturers and baseball authorities alike, whispers have been heard that a ball with heavier cover and thicker stitches will be tried out in some training camps this spring.

Whether these experiments will lead to a general deadening of the ball remains to be seen. Unless something is done to curb the jack rabbit tendencies of the ball, infielders soon may be classed as bad subjects for insurance policies.

OFFICIALS AND COACHES MEET SATURDAY

RULES CONFERENCE AND LUNCHEON TO BE GIVEN HERE

Basketball coaches and officials of West Texas, meeting here in the first annual rules interpretation meeting tomorrow, will be entertained at noon by a luncheon given by the Lubbock Chamber of Commerce, at a local hotel.

Letters of invitation mailed by P. W. Cawthon, head coach at Tech and president of the Texas Board of Approved Basketball Officials association, have been answered in pleasing numbers, and a crowd of more than one hundred is expected here tomorrow.

Men and women alike are invited. The visitors will meet in the Tech gymnasium at 10 o'clock Saturday morning for a general session, presided over by Coach Cawthon. Then the men will withdraw, leaving the gym to the women. Zella Riegel and Johnnye Gilkerson, instructors in the physical education department for women at Tech, will lead in the discussion of rules for the girls and will stage a game on the Tech court to illustrate.

All coaches and officials of West Texas are invited to attend. After an afternoon session, those visitors who wait over will be given complimentary tickets to the Texas Tech-Texas School of Mines basketball game to be played at the Tech gym tomorrow night.

FORMER WRESTLING CHAMPION IS DEAD

SAN ANTONIO, Jan. 9 (AP)—Wayne Munn, 35, former heavyweight wrestling champion, died early today in the Base hospital, Port Sam Houston, from Brights disease.

The gigantic athlete, who gained fame in football at the University of Nebraska, and later became recognized as world's heavyweight wrestling champion by defeating Ed. Strangler Lewis in Kansas City in 1925 came to San Antonio for treatment about a year ago. His condition gradually failed and about ten days ago doctors put him to bed as gravely ill. His life had been despaired of for several days.

CENTENARY FIVE WINS

NACOGDOCHES, Jan. 9. (AP)—Led by Nolan, midget forward, who scored 18 points, Coach Parker's Centenary quintet defeated the Stephen F. Austin Lumber Jacks, 40-23 last night. Crowley, guard of the visitors, played a strong game.

KEEPING IT HOT
Stove League Gossip

THEY SAY that Art Shires may get another American league trial. He was sent to Milwaukee by Washington and the Browns closely connected with Milwaukee, might be able to use the noisy first baseman in St. Louis.

• • •

The Three-I league, smallest of the non-draft circuits, met Jan. 8 to discuss the matter of the major leagues' ultimatum regarding the draft question.

• • •

With Evansville, Danville and Peoria operated by big league clubs the Three-I is expected to come into the fold.

• • •

Rogers Hornsby will be a strict disciplinarian with his Chicago Cubs, working them daily from 11 to 2 during spring training. Three hours work a day may seem a snap to some folk but not to ball players.

• • •

Joe Judge seems to go on forever. Next season will be his sixteenth with Washington. If he again leads American league first basemen in fielding it will be for the ninth consecutive time.

• • •

Joe Dugan will have at least one more year in the American league. Detroit has taken on the old Jumping Joe of Yankee pennant fame as a utility infielder.

SIGNS FOR TWO YEARS

SWEETWATER, Jan. 9 (AP)—E. A. Henning, athletic director of the Sweetwater high school has signed a two-year full-time contract.

BAN JOHNSON, STILL IN HOSPITAL, KEEPS CLOSE TOUCH WITH BASEBALL

(By The Associated Press)

ST. LOUIS, Jan. 9—The departure of Ban Johnson, former president of the American league, from St Luke's hospital here, where he has been for several months suffering from diabetes, has been delayed by an operation. He went through the operation, performed early this week, without the aid of anaesthetics. A bone was removed from his foot.

Johnson will remain at the hospital until he is able to bear his weight on the foot, after which he will head for Florida via Excelsior Springs, Mo. Although the "no visitors" sign hangs on Johnson's door, he is seldom without a caller. Last week he was surprised and delighted when eight umpires, here to act as honorary pallbearers at a funeral, called on him to congratulate him on winning his fight to regain his health.

Although long in poor health, Johnson is keeping in close touch with baseball. A report Babe Ruth is working hard in a New York gymnasium especially interested him.

"Ruth will find," Johnson commented, "that his hardest fight will be to save his legs. That's where ball players begin to fail. The American league will miss him when he is forced to give up. He has been the greatest single attraction the league developed."

A visitor reminded the Ban Hack Wilson hit more home runs last year than Ruth.

"As nearly as I can judge from reading," Johnson said, "Wilson is not the ball player Ruth is. He cannot field nor cover ground like Ruth. Ruth is a natural star."

ARKANSAS FIVE KEEPS LEAD THROUGHOUT

CHAMPIONS APPEAR AS HANDY AS EVER ON THE FLOOR

(By The Associated Press)

AUSTIN, Jan. 9—The Universities of Texas and Arkansas pried the lid off the Southwest conference basketball season here last night with the 1930 champs emerging on the long end of a 29 to 21 score.

The Porkers led throughout with the exception of a few minutes at the start of the last half when the Longhorns gained a one point lead, 18 to 17.

Arkansas was leading at the half, 16 to 13, a scoring spree cutting down a 10-point lead amassed by the Razorbacks to three points.

Jelks, flashy forward of the Porkers, put the game in the polar regions when he sank three field goals handrunning about five minutes before the game ended.

Hawkeye Grappler To Meet Heavies

IOWA CITY, Ia., Jan. 9 (AP)—Paul Righter of Ames, who tips the scales at barely 155 pounds in wrestling togs, will grapple with the University of Nebraska's best heavyweight performer when the Cornhuskers' mat team meets the Hawkeyes here tonight.

Righter's speed won him the heavyweight berth from a meager field of contestants in the beef and Brawn division of the old gold squad.

McCarthy Expects Six Clubs In Race

SWITCHING LEAGUES IS LEAST OF WORRIES OF NEW YANKEE PILOT; WANTS ANOTHER HURLER

BY EDWARD J. NEIL
Associated Press Sports Writer

NEW YORK, Jan. 9 (AP)—Switching from the National to the American league and from the differences in the hitting and pitching eccentricities of the stars of one major circuit to another is the least of the worries ahead of Joe McCarthy, late of the Chicago Cubs and now head man, with the New York Yankees.

"Baseball is baseball in any league," says plump Joe, visiting his new domain for the first time since contracting to replace Bob Shawkey in the Yankee pilot seat. "You can't get away from the figures. Some hit 'em and some don't and the figures never lie.

Knew What To Do

"When I came into the National league from Louisville five years ago everyone told me what to do—never to pitch to 'Irish' Meusel, of the Giants, for instance. They didn't need to worry and tell me that. All I had to do was look at the averages. He sure could knock in those runs. So there was a nice spot waiting for him on first base every time he came up with men on the other sacks. That's baseball in any league."

McCarthy figures there will be six dangerous clubs in the American league next season, with Washington and the World Champion Athletics heading the pack. The Yankees, Detroit, Cleveland and Chicago all are capable, he thinks, of turning the American league race into the kind of scramble the National league usually stages.

Satisfied With Team

Gazing over the squad that comprises the Yankees, a team he hasn't seen in action since the glamorous days and the four game rout of the Pirates in the World series of 1927, McCarthy doesn't see where he is bad off at all. He would like another starting pitcher "but so would every other club in the league," he says. Deals with the St. Louis Browns and Boston Red Sox for another pitcher have fallen through.

McCarthy is satisfied with his outfield, with Combs in center field, Babe Ruth in right and either Dusty Cooke, Byrd or Walker, another youngster, in left. He wouldn't trade the respective members of his infield, Lazzeri, Lary, Chapman and Gehrig, reading from the left side to the right, for corresponding members of Connie Mack's Athletics, Dykes, Boley, Bishop and Foxx. His catchers, headed by Bill Dickey, will do. The chief problem comes of culling formidable starting pitchers from last year's list that has been augmented only by minor league material.

Bat Boy Signed

One position, however, is filled definitely as Babe Ruth's post in right field. Eddie Bennett, mascot for so long that he voted for A. Smith in the last presidential election, has come to terms once more and will be in there every game straightening out the bats.

Gonzalez To Play With Rickey's Club

HAVANA, Jan. 9. (AP)—The Spanish language newspaper El Mundo will say tomorrow that Mike Gonzalez, veteran Cuban catcher, has accepted terms offered him by Branch Rickey to play with the St. Louis Cardinals this year. Gonzalez played for the Minneapolis American association club last year.

"I was a free agent, and I am glad to accept Mr. Rickey's offer," El Mundo quotes Gonzalez as saying. "It gives me another chance to get into the big leagues and I'll show them that I still can play real ball.

LEGAL NOTICES

STOCKHOLDERS' MEETING

The Stockholders of the Pecos and Northern Texas Railway company: You are hereby notified that the Board of Directors have called a meeting of the stockholders to be held in the City of Amarillo, County of Potter, State of Texas, at the principal office of the Company on the 16th day of February, 1931, between the hours of 10 o'clock a. m. and 2 o'clock p. m., to consider and act upon a proposition to authorize the execution by the Company of a mortgage or deed of trust to be called "general mortgage" or by such other name as may be determined, on all of its railroad properties now owned or hereafter acquired, to secure bonds to be hereafter issued in series, so much of such bonds as may be necessary to be used from time to time in paying or exchange for the bonds and other indebtedness of the Company, other bonds to be issued to be used for the acquisition, construction or extension of railroads, additions and betterments to such railroads and properties now or hereafter owned, and for other lawful corporate purposes, each series of bonds to be issued to mature at such time and provide for the payment of such lawful rate of interest, to be tax free or not tax free, to be convertible or not convertible into shares of capital stock as may be determined by the Board of Directors, and to contain such other terms and conditions as may be determined or prescribed by said Board, and such mortgage to contain such terms and conditions as may be prescribed or authorized by the stockholders at said meeting.

J. H. FREEMAN,
Secretary.

DAILY MARKETS

Stock Market

WALL STREET REPORT

NEW YORK, Jan. 9 (AP)—The motor shares came to the rescue of a sagging stock market today and their advance of 1 to 3 points were followed by improvement in most other groups. Chemicals were heavy, but steel issues recovered small early losses. Rails, however, were strong from the opening.

There were gains of 2 to 2 3-4 in Auburn Auto, Nash Motors, Aichison, Southern Railway and Chicago Northwestern. Rock Island, Western Union, National Lead and Worthington Pump rallied 4 and American and Telephone, North American, Union Pacific and Baltimore & Ohio 1 to 1 1-2. Allied Chemical broke 4 to the lowest since 1928. Mathieson Alkali sagged 1 1-2.

Cotton Market

NEW YORK, Jan. 9. (AP)—Cotton opened steady at an advance of 5 points on old January as a result of a little covering, while other months were 5 to 13 points lower under selling promoted by the labor news from Manchester and the easier showing of the late Liverpool cables.

There was some foreign selling as well as scattering liquidation here, but there appeared to be very few offerings from the south and after the first sport which sent the price of new January off to 9.98 and July to 10.61, making net declines of about 7 to 13 points on active positions, prices steadied on covering which may have been combined with some trade buying. At the end of the first half hour the market was fairly steady with prices about net unchanged to 5 points lower.

The market was quiet and fairly steady later in the morning with prices ruling around 10.20 for March and 10.65 for July or about 1 to 5 points net lower at midday. There was considerable transferring and switching from near to late months and the near months were relatively steady.

NEW ORLEANS REPORT

NEW ORLEANS, Jan. 9. (AP) — Cotton opened easier here today although Liverpool cables were about as due. First trades showed losses of 11 points, the decline being attributed to private Manchester cables stating there would be a general closing of mills unless the labor situation improved. Later the market here rallied, recovering seven to eight points on reports of good buying orders under the market. March traded up to 10.22 and May to 10.49 or one to four points under yesterday's close. At the end of the first hour the market was steady.

The market gradually improved during the morning due to efforts to force shorts to cover by reaching stop loss orders. Weekly statistics also were favorable, particularly mill takings which were larger than last week and within easy distance of the corresponding week last year. March traded up to 10.27 and May to 10.53 up 12 points from the early lows and one to three points above the previous close. At noon the market was steady and still tending upward.

NEW ORLEANS OPEN

NEW ORLEANS, an. 9. (AP)—Cotton futures opened stead. Jan. 9.92. Mar. 10.15, May 10.41, July 10.63, Oct. 10.73, Dec. 10.67.

NEW YORK OPEN

NEW YORK, Jan. 9. (AP)—Cotton futures opened steady. Jan. old 10.32, Jan. new 10.00, Mar. 10.12, May 10.38, July 10.61, Oct. 10.67, Dec. 10.62.

Livestock Market

LUBBOCK LIVESTOCK

The following report furnished by McDonald Packing company:

Cattle: calves, choice white face, 7.00 @ 8.00; good and medium, 6.00 @ 6.50; common and dogies, 2.50 @ 3.50; yearlings and heavy heifers, choice, 3.50 @ 4.50; cows, choice, 4.50 @ 5.00; good and medium, 3.00 @ 3.50; common and cutters, 2.00 @ 2.50; bulls, heavy butchers, 3.00 @ 3.50; heavy bolognas, 2.50 @ 3.00.

Hogs: choice butchers, 7.00 @ 7.50; choice light weights, 6.50 @ 7.00; choice heavies, 6.00 @ 6.50; packing sows, 5.50 @ 6.25; stocker pigs, 6.00 @ 7.00.

FORT WORTH PRICES

FORT WORTH, Jan. 9. (AP)—(U. S. D. A.)—Hogs 900, truck hogs steady; no rail hogs offered; truck top 8.00; packing sows 5.75-6.25.

Cattle 1,300, including 400 calves. Most classes poorly tested, quotably steady, common killing steers 4.75-6.50; light yearlings 8.25; butcher cows 3.50, low cutters 2.25@2.50; bulls 3.25@3.75; slaughter calves 7.00-7.35.

Sheep 600; steady; bidding 7.00 on good fall shorn fat lambs, feeder and fat lambs 6.25-8.25; fat wethers 5.00.

REFUND ANNOUNCED

WASHINGTON, Jan. 9 (AP)—A refund of $278,297 to the Prairie Oil & Gas company, Independence, Kansas, for over assessment of income tax in 1926 was announced today by the internal revenue bureau.

Lubbock Markets

These prices are furnished by the following Lubbock firms: Poultry—Lubbock Poultry and Egg company; Dairy Products — Bell Ice Cream company and Mistletoe Creameries; Grain—S. E. Cone Grain and Seed company and Cotton — Blocker Cotton company. Prices subject to change during day. Poultry prices quoted are wholesale prices. Retail prices range higher.

Grain Market

QUOTATIONS

CHICAGO, Jan. 9. (AP)—Wheat No. 1 red 87; No. 1 hard 80; No. 1 mixed 79 3-4.

Corn, No. 2 mixed 70 1-4; No. 2 yellow 72; No. 3 white 70 1-4-72.

Oats, No. 2 white 33 2-4 - 34 bid; No. 3 white 33 1-2.

CHICAGO REPORT

CHICAGO, Jan. 9 (AP)—Auspicious weather for corn movement and for economizing of feed led to general corn selling and material price downturns early today. Wheat also went lower, influenced by Liverpool reports of pressure offerings from Argentina and Australia.

Opening 1-2 to 1 cent down, corn later continued weak. Wheat started at 3-4 to 7-8 decline to 1-4 advance, and subsequently held steady.

Thompson Jewelry Said To Be Returned

CHICAGO, Jan. 9 (AP)—The Chicago Tribune said today that $15,000 worth of jewelry, stolen from the wife of Mayor William Hale Thompson during a holdup at the entrance of her home last October, had been returned to her.

No information as to how the jewelry was returned was available from police records, the newspaper added.

BANK ROBBERIES

(Continued from Page 1)

an automobile after threatening the bank cashier, Mrs. E. B. Blaylock and a customer with death if they gave an alarm.

MOLVILLE, Iowa, Jan. 9 (AP)—D. E. Wilkins, cashier of the First Trust and Savings bank, was roused out of the bed this morning by a bandit who forced him to go to the bank and open the safe. The bandit escaped with $6,000 after forcing Wilkins to acompany him nearly to Sioux City.

JUNCTION CITY, Ky., Jan. 9 (AP)—A posse of 100 men tracked down and captured today two youths who shortly before had held up the cashier of the Citizens Bank of Junction City and escaped with $1,000. Seven shots were fired at them before they surrendered.

The youths gave their names as Roy Davis, Indianapolis, and Robert Fields, Hamilton, Ontario. They were placed in jail at Danville on bank robbery charges. The loot was recovered. Neither of the youths was hurt although bullets pierced the coat of one.

OIL EMBARGO

Continued From Page One

majority floor leader attempted to halt the debate by laying over the motion one day, but was defeated when Logan's motion to suspend the rules was adopted.

Speaking in favor of the resolution, David Faulk, Democrat, Marshall county, said:

"To the devil with a tariff on oil. Put an embargo on it. The fact that farmers can't sell leases now is blowing them up."

Logan, defending his resolution, declared that while he is in favor of democratic principles, big producing companies importing from foreign countries are benefitting from present conditions.

"These companies are controlling prices and, dumping refined gasoline on the eastern seaboard at 3 1-2 cents a gallon," he said. "It costs much more to buy and refine the product here."

"I realize it is hard to maintain an embargo but until the present situation is alleviated an embargo should be followed by a protective tariff."

Although the "cocktail" was only "invented" about 30 years ago, there are said to be more than 1400 different mixtures on record.

ANDREWS BONDS

Continued From Page One

state to only match dollar for dollar funds voted by counties for paving. However, due to the fact that at the time the contract was made there was so much university land in the county that could not be taxed the highway department agreed to make the special concession. The department also felt that need for such a road through that area was imperative because nature of the soil makes it almost impossible to maintain a second class route.

While the state highway department has made no assurance that the road will be designated, local officials state that it is naturally supposed this will be done if they lay the paving.

Route Is Designated

State highway No. 137 is only designated from Lubbock to Brownfield and from McCamey on the south to the Andrews county line. Efforts have been made by officials of towns along the route to get the remainder designated and recently state highway 137 association was re-organized with C. M. Armstrong, of Seagraves, as president. A booster meeting was held in Andrews last Tuesday which was attended by delegations from several counties interested and there plans for further making a fight for designation were laid. A ruling now in force states that the highway department cannot take over and designate any dirt roads. This ruling, however, was made after application for designation of the strip was entered and members of the association feel that consideration will be given.

The route already has 80 miles of paving and with the addition of the 30-mile strip in Andrews county and a 17-mile strip in Lubbock county more than half of the road will be hardsurfaced.

Evetts Haley; Clove & Cowan vs. Myrick Invest. Co.; Paul Gainer vs. American Employer's Ins.; J. J. Richards vs. H. N. Foster.

Australia's population of sheep is about 100,000,000. This is more than ten times the number of human inhabitants.

New Instrument Removes Articles

CHICAGO, Jan. 9 (AP)—Pins and other articles swallowed by an infant can be removed with greater speed than ever before and without shock to the patient, it was revealed today by doctors at a hospital where a new type flouroscope was used for the first time.

The machine, it was explained, affords simultaneous views from two directions. Using this new type flouroscope and an esophaguscope the physicians removed a pin from the esophagus of a seven months baby in less than three minutes.

BETTER SEED PLAN

while our own men, aided by farm agents and extension services, will do the field work and establish the seed centers," Mr. Moser said. "At first we will get seed from approved breeders, developing our own later."

One meeting has been held to organize the seed center in Texas, while directors of the Louisiana and Mississippi cotton cooperatives will meet this week-end and decide where the seed centers for these states will be located. A meeting for the same purpose will be held in Atlanta later this month to develop centers in North and South Carolina, Georgia and Alabama.

ARSON CHARGES

plaints may result."

To Hold Inquiry Court

City officials announced today that a court of inquiry will be held on every fire which occurs within the city limits. The court will investigate the amount of insurance carried, by whom it was written and the origin of the blaze. Personnel of the body will be made up of the city fire marshal, fire chief, chief of police, building inspector and city manager.

It is also understood that the city commission will act on a proposal in the near future to post a $1,000 arson reward.

Suggestion has been made and probably will be carried out, that every agent in Lubbock make a list of all insurance his company carries and file this information at a central point and from that a tabulation will be made on the total amount carried in the city.

Naval affairs committee began study of naval construction bill.

Government officials disagreed over unified border patrol bill in testimony before commerce committee.

HOUSE

Friday

Continues consideration of war department supply bill.

Flood control committee considers pending bills.

Thursday

Representative LaGuardia for the third time blocked action on the drouth bill because it makes no provisions for needy in cities.

Passed Stobbs bill to relieve petty offenders from stringent penalties of Jones prohibition law.

Representative Tilton, Republican leader, predicted house would reject Muscle Shoals compromise measure.

STATE SESSION

(Continued From Page 1)

in the gubernatorial primary campaign and was advocated by Ross S. Sterling, governor-elect.

Talk among the members of the legislature indicated both houses might split on the proposal. Many believed it would take the place of the prison question as the dominating problem of the legislature. Relocation of the prison plant was the outstanding issue of the 41st session and caused a wide rift between the legislature and the executive department.

In submitting the bond issue proposal, the commission said state highways should be regarded as state enterprises and recommended an adjustment with the counties of money expended from ad valorem taxes on the state system with further construction to be paid for from state funds, supplemented by federal aid.

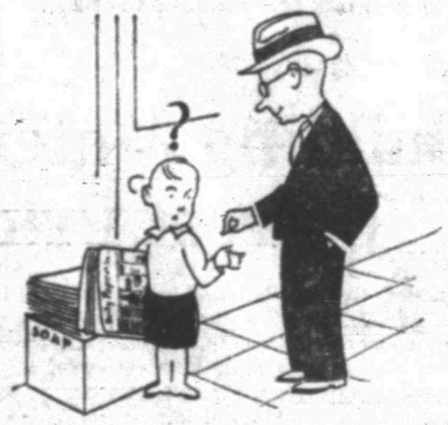

The proposal was a combination bond issue and pay as you go plan, the bonds to be retired by a motor fuel tax and the proceeds of the issue used for construction to repay counties and to assume payment of outstanding bonds voted for state highway work. The commission said the plan would materially reduce the taxes of overburdened property owners.

Under the plan, the commission said the state highway system could be constructed in ten years, thereby effecting a great saving in maintenance charges. The total estimated layout during the ten years was between $435,000,000 and $475,000,000.

MEXICO CITY, Jan. 9. (AP)—President Ortiz Rubio is reported to have laughed heartily when he read dispatches from the United States about Senator Ashurst's proposal to buy Lower California and part of Sonora. The president is spending a vacation at Acapulco, and the news did not reach him until yesterday.

You never say—

"Ill take a newspaper"

There's one particular paper you like better and you ask for it by name. That's best for you and your newsboy alike. And it's better for you and your grocer alike when you order bread by name. Say Butter-Nut Bread. You avoid disappointment—you get what you want. And your grocer avoids disappointing you, which of course he doesn't want to do.

Co-operate with him—order your bread by name and be sure the name is Butter-Nut. This good bread, carefully baked from quality ingredients, is unvaryingly good and never fails to add tastiness to your meals.

RULER OF FIFTEEN MILLION MOSLEMS MAY BE RICHEST MAN IN THE WORLD

BOMBAY (AP)—A Mohammedan ruler above whom the Occident knows little might rightly claim the title of "the world's richest man."

He is the Nizam of Hyderabad. And he reigns over the richest of the Indian states, granting titles and having power of life and death over 15,000,000 or more subjects.

The extent of the wealth of the ruler of Hyderabad is a matter of conjecture, for while westerners come to his capital and even are his guests, they are not welcomed. This native prince did not attend the Round Table conference in London, but sent a representative.

He is reported to have a treasure of $500,000,000 in gold in his vaults and a vast amount in gems. Three English jewelers have been cataloging the stones for several years and are not yet finished.

His state has its own coin, stamps, postal system and railway. The Nizam even maintains his own army of about 20,000. His own estates comprise one-tenth of the state's total area.

The Nizam's full title matches his riches; Lieut. General, His Exalted Highness Asaf Jan Muzaffarul - Mulk - Wal-Mamalik Nazam-ul-Mulk Nizam-ud-Daula, Nawab Mir Sir Osman Ali Kahn Bahadur Fateh Jang, G. C. S. I., G. B. E.

He is India's most important Mohammedan ruler.

NIZAM OF HYDERABAD

4,500 MILES BY BOAT

After a voyage across the Atlantic in his ninety-ton motor boat Captain E. B. Westmore and six members of the crew of the Sir Charles Orr have arrived at Liverpool, England. Westmore left with his small crew on the voyage to Nassau, Bahama Islands on July 16, and though for seven days very rough weather was encountered, the 4,500 miles were covered in only 10 days.

GRAND OLD MAN DIES

James Stewart, known as the Grand Old Man of Tientsin, died recently in the Chinese city. He was an engineer, and joined the Chinese Imperial Service 66 years ago. He built the first steamboat for the late Emperior of China, and was governor of the Arsenal of Tientsin in 1900 at the time of the Boxer rebellion. Stewart was born in Scotland 89 years ago.

Gov. Harry Leslie of Indiana has undergone 13 operations. He was injured in a Purdue football special wre k in 1904.

Football Players Are To Be Honored

Announcement was made Thursday at the regular luncheon program of the Lubbock Kiwanis club that members of the Lubbock high school Westerner football team will be guests of honor at the club luncheon next week. The announcement was made by Dr. Allen T. Stewart, chairman of the program committee. S. C. Wilson is to be in charge of the program which will be based on high school athletics.

Plans for the coming year's work were made at the meeting yesterday when committees of the club met at separate tables with their chairmen. G. P. Kuykendall presided in the absence of the president Dr. Jack M. Lewis.

J. D. Carroll, chairman of the music committee, was elected song leader and Miss Margaret Turner was re-elected pianist.

TAN PASSES AT RIVIERA

Sun-tan is "out" at the fashionable bathing resorts along the Riviera in France, and shops in Cannes and Antibes have had raids for lily lotion and other preparations for whitening the skin. Swimmers wear large "cartwheel" hats and smoked glasses in the water, and big cloaks and parasols are seized the moment the swim is over.

Certain districts of northern Mexico have been closed to game hunters from the United States and other foreign countries for one year.

AN APPEAL to the PEOPLE-

Every Good Citizen Should Co-Operate

If every man and institution in Lubbock does the duty that is necessary for the alleviation of the threatening unemployment emergency in Lubbock, we can look back one year from today and declare that it was impossible for a situation like that to exist. Right now in our midst there are our neighbors . . . our friends . . . our tax payers . . . and our citizens who are temporarily out of employment and it is our duty, and to our interest, to do everything possible to alleviate this situation. Every good, red blooded citizen with money in the bank and a home or piece of property that needs repairs should step out and give employment of some kind so that these unemployed could feed, clothe and supply sustenance for their families. Charity is not wanted by these men. They want the opportunity of an honest day's work. TODAY is your best opportunity to help these families. NOT TOMORROW. Do something NOW.

Wages Should Be Above The Average

The basic structure of America's prosperity is Labor. Men who are wage earners and have been educated to the luxuries that have made mass production necessary. Men who turn their day's wage back into the channels of distribution. Many sections have been prone to penalize this class of people by paying salaries far below the scale. This in no small measure has made the present crisis more acute and we of the South Plains of Texas should guard against this false economy. Pay them what they are worth and they will make it possible for you to make more profit. If "above the average" wage is paid in Lubbock, our financial structure will be formed on the proverbial rock foundation, thus eliminating for all time to come the endangerment of our finar cial happiness.

Building Materials Sacrificed Lowest Prices In Years

Lumber prices are the lowest in the history of Lubbock and the potential purchasing power of the Dollar is greater than ever before. These facts take the element of gambling out of building. To built on upimproved property is a clear cut investment. Prices will soar as normalcy is again approached and we urge every property owner in town to take advantage of this two-fold opportunity . . . make sound investments and alleviate the threatening crisis of the unemployed in Lubbock A telephone call to 1510 will bring accurate information to prospective builders and improvers.

OUR FUTURE DEPENDS ON THE MANNER IN WHICH THE CURRENT CRISIS IS DISPOSED OF

To sum the entire situation up, we look at it in this selfish viewpoint. In good times and in bad times, we strive to pour the Lubbock dollars that come into our coffers back into the Lubbock business. Our institution is in and for Lubbock first, last and always. Being a home owned and home operated institution, we have the interest of labor of Lubbock at heart and know that what benefits them, helps us. Lubbock's future is our future, thus every job of construction that comes for our action has today, tomorrow and the years that might come for us to consider, because any Lubbock Lumber Company job must have the lasting qualities that only superior workmanship and drafting will give. We'll be here in the years to come to back up anything we do or say. We'll grow with Lubbock by growing in quality and belief in the goodness and superiority of Lubbock's skilled and unskilled labor.
