NUMBER 409

IS SETTING HIS HOUSE IN ORDER

NEW CARDINALS INCLUDING AMERICANS RECEIVED RED HAT TODAY.

ANOTHER IS ANNOUNCED

Pope Plus, Appears Feeble and Careworn But Withstands Ordeal Well

Special to The Times.

Rome, Nov. 27.—Besides the new Cardinals who received the red hat today, the Pope created another whose name he reserved "In Doctors" (kept secret), and whose name will be published in a later consistory when the Pope wishes it.

As he entered the hall of the consistory, where today's ceremony took place, the Pope's step was less sure and his careworn face bore signs of recent illness that had come to stay. Nevertheless he withstood the fatigue of the long ordeal bravely with a smile for each and word for several in the long procession which passed the throne.

The ceremony today was of the usual simple but impressive character. The Cardinals designate, including the three Americans who have been honored with the red hat—Archbishop Farley of New York, Archbishop O'Connell of Boston and Mgr. Falconio, the apostolic delegate at Washington—were seated in the Hall of Consistory to receive the congratulations of the older members of the Sacred College and to await the coming of the Pontiff, who was to formally proclaim them princes of the church.

The Pope read an address in Latin after which he asked the assembly in the formula sanctioned by the usage of four centuries: "What think ye?" The Cardinals arose, removed their zucchetos, or skullcaps, and bowed assent, after which the Pope created the new Cardinals, by the authority of Almighty God, of the blessed apostles, Peter and Paul, and of our own.

In virtue of his association with the Sacred College, the Pope performed the ceremony of sealing the lips of each of the new Cardinals, to impress upon him the necessity of prudence in the management of ecclesiastical affairs and as a symbolic trial before being invested with the active and passive voice of the voice which can elect a pope, or can speak with the authority of St. Peter as his successor. At the conclusion of the ceremony the junior Cardinal deacon rang a bell and the Pope unveiled the lips, saying in Latin: "We open our mouths that in consistories, congregations and other ecclesiastical functions we may be able to speak your opinion. In the name of the Father and of the Son and of the Holy Ghost, amen."

In connection with Pope Plus' feeble appearance it is regarded as a fact of much significance that he is setting his house in order. The creation of seventeen Cardinals at this consistory brings the Sacred College to within six of its full complement. This condition is rare and not in years has the College of Cardinals been so full.

Besides the three American prelates, several interesting personages were among those promoted today. For most among these is the new Cardinal appointed for Great Britain, Archbishop Bourne of Westminster, who is looked upon as a worthy successor to Wiseman, Newman, Manning and Vaughan. Another of the new members is Mgr. Bissett, the papal major domo, who is well known to thousands of Americans who have visited Rome. Among the others promoted are the archbishop of Paris and the nuncio at Madrid, the archbishop of Valladolid, Olmuetz and Chambery and the three prelates, Mgr. Lugari, Mgr. Pompelli and Mgr. Vanrossum.

Fall of Nanking Expected.

By Associated Press.
Shanghai, Nov. 27.—Fierce fighting continues at Nanking.

SHOW GIRLS TRIAL ABRUPTLY STOPPED

By Associated Press.
New York, Nov. 27.—The trial of Lillian Graham and Ethel Conrad, the show girls charged with shooting W. E. D. Stokes, was halted abruptly today by the withdrawal of a juror by order of the court.

TWO NEW BUILDINGS GOING UP AT VERNON

Vernon, Texas, Nov. 27.—Work has been started on a three-story brick building here for J. E. Luton on the corner of Main and Texas streets in the central portion of the business district, and the new structure will be pushed to an early completion. The building will cost complete about \$18,000. Pressed gray brick, white stone and terra cotta will be the materials used. O. A. Swinburn, a local contractor, has been awarded the contract.

The ground floor will be used as a store building, the second story will be cut into offices and the third will be used as a large room. The new structure will be built along the latest and most approved architectural designs, and will be a credit both to Vernon and this section of the State, being the first business house to be erected here to a height of three stories.

Benefit Spelling Match at Vernon.

Vernon, Texas, Nov. 27.—An old time spelling match took place in the district court room here last night between the local Mothers Club and the Young Men's Business League, the proceeds being devoted to a fund to install sanitary drinking fountains at the city school buildings. The words were given out from the old blue back speller.

Sir Edward Grey's Statement.

By Associated Press.
London, Nov. 27.—Sir Edward Grey, foreign secretary, delivered his anxiously awaited speech on the international political situation in the House of Commons this afternoon. He declared that the statement of the German foreign secretary was complete and it was therefore unnecessary for him to make a fuller statement on the part taken by the British foreign office before the House of Commons.

The members of the Y. M. C. A. football squad are training hard nowadays in anticipation of the game with Quamab here Thanksgiving. The Quamab boys are said to be an unusually strong team, and the Y boys do not mean to allow lack of practice, as in the Denton game, to keep them from winning. They will probably play quarter back in Thursday's game, a circumstance which is calculated to materially strengthen the team as they won their last year was one of the means by which the Y. M. C. A. team maintained its record of not being scored against during the season.

Sheriff Randolph has in custody one Lawrence Aber, who voluntarily surrendered himself to Deputy Sheriff Simmons at Electra. Aber claims to be a deserter from the navy. He was at Galveston June 1st, 1911, as one of the crew of the Battleship Minnesota, commanded by Captain Clark. Aber is tired of dodging around and is willing to return and receive his punishment. Sheriff Randolph will receive three dollars reward for returning Aber.

NEWSY NOTES FROM ALLENDALE

Missionary Butler of the Little Wichita Association, preached at Allendale Sunday.

Mr. J. T. Gant from the city, was a visitor in Allendale Sunday.

Misses Nora and Dora Taylor of Bowman, visited Misses Hattie and Willie Gwinn Sunday.

Prof. Stone and Miss Ida Gwinn of Allendale are attending the institute in Wichita Falls this week.

Mrs. G. L. Gilham, of Sunset, Texas, is in Allendale on an extended visit with friends and relatives.

Mr. Geo. Gilham of Sunset, spent Sunday with his wife and baby, who are visiting relatives in Allendale.

Chief of Police Gwinn and family of Wichita, visited his brother, Mr. A. E. Gwinn and family here Saturday.

Mrs. Fritz Ernest of the city, was the pleasant guest of her friend, Mrs. Pearl Ludolph, from Friday until Sunday.

Mr. Crammer of Wichita, came out in our community Saturday in his auto, making preparations to lease land and investigate the prospects for oil.

There will be no school at Allendale this week on account of the institute.

Mrs. Floyd Billingsley of Wichita, is visiting at the home of Mr. and Mrs. W. P. Billingsley this week.

Messrs. C. W. Killgore and A. B. Rogers, employees of the C. & O. Railway, of Huntington, W. Va., are enjoying a visit with the former's cousin, Mr. A. E. Gwinn of this community.

LARGE CROWDS AT TABERNACLE

EVANGELIST HAM DELIVERS POWERFUL SERMON TO MEN ONLY IN THE AFTERNOON

MANY WERE CONVERTED

Interest in the Meeting Seems to Be on the Increase and Tabernacle Was Taxed to Its Capacity.

A crowd of men only, estimated at between 600 and 800, heard the powerful sermon on "A City Built With Blood," delivered yesterday afternoon at the tabernacle by Evangelist Ham, and by many it was considered the strongest sermon he has yet delivered in this city. He selected his subject from the second chapter of the Prophet Habakkuk, twelfth verse, which reads: "Woe to him that buildeth a town with blood, and establisheth a city by iniquity."

Twice during the delivery of the sermon the speaker was interrupted by applause, manifested by hand-clapping which came from every part of the congregation.

He condemned in the strongest terms methods practiced by most municipal governments, in that they regard the fines assessed and collected against certain forms of vice as a regular source of revenue, and sometimes boast that this money (blood money) so levied and collected, is used for public improvements, and in that way saves to the property tax payers that much. He did not condemn the officials for doing this, but said the taxpayers were responsible for what the officials did. They, the officials, generally run the government on just as economical a plan as possible, and the better record they make the more likely they were to be re-elected to the offices.

"These fines are only a license for vice," he said, "and instead of having a tendency to stamp it out, it was an encouragement and protection to those who were practicing the evil."

"It is the same way with the licensed saloon. You who vote for license do so because you either believe that to vote the saloon out will hurt the town, or that it is better to issue license and regulate the traffic in liquor than to have the blind tiger. But it is a mistake. The license system gives to the liquor dealer more protection than the man who sells groceries is given. Under the law only one saloon to each 500 people can be licensed, but a town can have just as many grocery stores as there are men who want to engage in the business and as a rule there are so many stores and competition is so sharp that few of them make anything. The law protects saloon men in that it divides or parcels out the business as well as it can, giving to each 500 people a saloon, or a saloon to each 500 people. The man who sells the liquor is not to blame for the drunkenness and crime that results from it more than the government that issues the license."

At this juncture the speaker turned and faced the pastors of the city who were on the platform with him and said: "You old sky pilots, did you know you were in the saloon business? If you own a foot of property in this city and are a voting citizen, you are a part of this government that issues license to the saloon, and get your proportionate share of the revenue realized from the issuance of the licenses for saloons, and the fines that are levied and collected from drunkards and other forms of evil."

"In some places efforts have been made to segregate the saloon. A form of regulation. That is, to confine them to certain districts or portions of a city, and this generally resulted in fostering the evil upon those least able to cope with them. If they are good for a town, they are just as good for one part as another." This remark brought forth hearty applause and amen from most of those present.

"In Tennessee they have a law that punishes the man who buys whiskey from a blind tiger, as well as the man who sells it. That law was made for the benefit and protection of the blind tigers, in that it has a tendency to keep the man who buys from squealing to the authorities. There are some who argue that it is a good law, but the prohibitionist who vows it in that light hasn't a sufficient amount of brains to poison a goat even if they were made of parrot green.

"How many Masons are there in this audience?" asked the speaker.

(Continued on page 4)

NORTHER SWEEPING OVER THIS SECTION

Snow and Sleet Above Amarillo—Further Drop in Temperature Forecast.

Wichita Falls today is in the grasp of one of the most disagreeable northers ever known here. A high cold wind from the north is sweeping the town and the air is filled with sand and dust.

The day opened with a brisk wind and a temperature of about sixty-five degrees. Early in the morning the wind shifted toward the north and increased in velocity and the clouds of dust and sand thickened as the thermometer tumbled fifteen degrees in a few hours.

Snow and sleet are reported north of Amarillo and heavy snows that are blocking traffic are reported from Colorado. Some snow fell as far south as Kirklind. At nine o'clock this morning a temperature of twenty degrees at Texline and thirty degrees at Childers were reported by the agents of the Fort Worth and Denver at those places.

The weather bureau forecasts temperature as low as twenty degrees for Wichita Falls tonight and probably snow.

PRETTY NEW CHURCH DEDICATED SUNDAY

Bishop Horn of Cleveland, Ohio, Delivers Sermon for Evangelical Association Church.

Dedication services for the First Evangelical Association Church at the corner of 15th and Broad, were held yesterday afternoon at 3 o'clock. The sermon and service of dedication was by Dr. William Horn, of Cleveland Ohio, one of the four bishops of the Evangelical Association in the United States. His sermon was on the text "I have found David, the son of Jesse, a man after my own heart, who shall fulfill all my will." Acts 13:22.

Dr. Horn is a preacher who speaks from the heart, in a plain straightforward manner, which carries conviction right into the hearts of his hearers.

Bishop Horn was assisted in the dedication service by Rev. C. F. Mayer, pastor of the church, Presiding Elder J. Wellner of San Antonio, Rev. Ernest of Abilene, Rev. W. H. Hulgrin of Bowman, and Rev. F. J. Schaefer. The musical service was in charge of the presiding elder, and was of exceptional merit.

The little chapel in the southeast part of the city starts out with a good membership of sturdy, honest Christian Germans, who are strong in the faith of their beloved church, and firm in their determination to make it one of the leading forces for good in the community. With only a very few members they have built a church costing about \$2,500 and which with the exception of only a few dollars they have entirely paid for.

Sunday night Bishop Horn preached another very eloquent sermon to a good sized congregation. As in the afternoon service, his sermon was in English, and was eloquent with the spirit and teaching of Christ.

EVERY TEACHER IN COUNTY IN ATTENDANCE

Annual Institute Opened This Morning With Every Teacher in County Enrolled.

The northern which struck Wichita county this morning had no terrors for the school teachers and every teacher of the county is here today attending the annual Teacher's institute which will be in session all this week. In all forty-eight teachers are enrolled at the institute.

The teachers organized this morning with County Superintendent H. A. Fairchild as president of the institute; W. O. Willingham, vice chairman and Miss Myrtle Lowry, recording secretary.

Farm Demonstration Begins.

Vernon, Texas, Nov. 27.—H. P. Burkhalter of Albany, Texas, has moved here to take charge of the farm demonstration work for the U. S. Department of Agriculture, for Wilbarger county, which was secured by a donation of \$400 by the county commissioners. A Jibe sum is furnished by the Federal Government.

BLOODHOUNDS ON THE TRAIL

POSSES CONTINUE SEARCH IN HOWLING BAND STORM FOR ALLEGED BANK ROBBERS.

CONSTABLE SHOT DOWN

And His Deputy Wounded in Northwest Part of Wilbarger County Sunday Afternoon.

Holloway's Slayers Caught.

Vernon, Texas, Nov. 27.—Sheriff Keys has just telegraphed here that the alleged bank robbers who yesterday shot and killed Constable Holloway have been captured near Frederick. Details of their capture are not known. Sheriff Carter of Tillman county, Oklahoma, and former Sheriff John Williams of Vernon assisted in the capture. The men will be brought to Vernon tonight and it is expected that Sheriff Keys will place a strong guard about the jail in anticipation of mob violence. The people of Odell are greatly stirred up over the robbery of the bank and the subsequent killing of Holloway but it is not believed they will attempt to lynch the two men caught today.

Special to The Times.

Vernon, Texas, Nov. 27.—Constable Charles Holloway, of Odell, Texas, was killed and Ed Doyle, a farmer living near Odell was shot and slightly wounded at about noon yesterday when they attempted to arrest the two Nichols brothers who are suspected of having been the men who blew the safe of the Bank of Odell a few nights ago when over \$2,000 was taken. The attempted arrest and the killing took place in a field near Red River about twenty miles northeast of Vernon and fifteen miles east of Odell on the Texas side of the river.

Holloway who had been working on the case since the robbery had secured evidence which he believed warranted him in arresting the two men, who both before and after the robbery had been picking cotton on the Texas side. After telephoning to Sheriff Key of Wilbarger county, Holloway accompanied by his Deputy Doyle, started for the camp where the Nichols had their headquarters. On their way they met the two brothers who had started to leave the camp and were walking toward the river. On meeting the men Holloway and Doyle jumped from their buggy and covered them with guns. While Holloway held the drop on the men Doyle started to search them for their weapons. In some way which will probably never be known Holloway allowed one of the brothers to get at his gun and before Holloway had an opportunity to fire he was shot down. At the first shot Doyle jumped forward at the same instant and Doyle was carried away before he could return the Nichols' fire. In looking back he saw the men fire into Holloway who was on the ground and then ran toward the river.

Holloway was dead before Doyle got back to him. He had been shot four times, two of the shots penetrating his stomach and lungs.

Upon receipt of the news Sheriff Keys, of Wilbarger county and former Sheriff John Williams at a head of a posse, which included J. L. McConkey of Wichita Falls, who was in Vernon at the time, started for the scene of the shooting and took up the trail of the men. They were traced across Red River and are now believed to be in hiding on the north side of the river. Sheriff Carter brought his bloodhounds from Frederick last night and it is not believed the men can escape.

No word had been heard from the posse at noon today.

Holloway was about thirty-five years old and leaves a wife and one child. He will be buried at Odell this afternoon.

It is not known here what evidence Holloway had to connect the two Nichols brothers with the bank robbery. They are well known in the northwestern portion of Wilbarger county and have a brother living across the river in Oklahoma.

W. P. and J. F. Bickler have leased 1070 acres northeast of Electra to the Producers Oil Company for a consideration of \$3100.

HURRYING STEEL FOR NEW BRIDGE

Work on the addition to the Wichita county river bridge is progressing satisfactorily as could be desired, and Engineer H. M. Snoddy, who is looking after the county's interests in the matter, and overseeing the work, says that the job will be finished within the next ten weeks, unless unforeseen circumstances should arise.

The work as it is now being carried on, has to do with the hanging of the steel superstructure, two spans of which have already been completed, one 65 foot span, and one 150 foot span, and a third span of 65 feet will be finished in the next fifteen days, after which, progress on the bridge will be more rapid, as most of the tedious features of the work will have been completed.

The man who has direct charge of the hanging of the steel framework is Mr. A. W. Lukens, a steel foreman of many years experience. He states that all of the steel ordered has already arrived, and is on the ground ready to be used. The river has been behaving well, and a smaller volume of water than has been noticed for several years by inhabitants of this city. Weather conditions are also almost ideal, and in addition to all other favorable combinations of circumstances, labor is easily obtained, so that no delays whatever are anticipated in rushing the bridge to completion.

When completed, this addition to the Wichita county river bridge will be a most substantial one, and will prove of great convenience. It will be heavier and different in every way from the old bridge, and will be better in every respect. In width, it will be 16 feet, the same as the old structure, and there will be left five feet of room between the new addition and the old bridge. This five feet of room will be utilized as a passageway for those who travel on foot, and a board walk will be constructed between the two bridges before the job has been completed.

The new bridge, when finished will be used by vehicles entering the city, the old one being utilized by those who travel on foot, and in this way the old "drive to the right" will be observed. Also, by such an arrangement, no delay in crossing the river will be encountered, either by drivers of automobiles, or of other vehicles, a feature which will be thoroughly appreciated by all who have been accustomed to use the old bridge.

After the steel and the wood work have been completed on the new addition, a two thousand yard fill will be necessary before the bridge can be opened for traffic. The county commissioners have already provided for this fill, and no delay from this source will be necessary.

County Engineer Snoddy says that if construction conditions continue to remain as favorable in the future as they have proven to be in the past, and that unless unforeseen causes for delay should arise, the new bridge will probably be opened up for the use of the public sometime about the middle of January.

OKLAHOMA CITY LIVESTOCK MARKET

Special to The Times.
Oklahoma City, Okla., Nov. 27.—Cattle receipts today were 900 head. The market was steady. Steers were quoted at \$5.75. Calves were in strong demand and tops brought \$6.75. Hogs—Receipts were 1300 head and the market was steady to five cents lower. The bulk sold from \$6.95 to \$6.40.

Morse Condition Unchanged.

By Associated Press.
Atlanta, Ga., Nov. 27.—The condition of Charles W. Morse, the New York financier, was unchanged this morning, according to officers at the Fort McPherson Army Hospital, where he was taken from the Federal prison yesterday. He felt no ill effects from the long trip and spent a restful day and night.

New School Building at Vernon.

Vernon, Texas, Nov. 27.—Construction has been started on a two-story modern brick building of ten rooms for the West Vernon school district by the Ernst Construction Company of Wichita Falls. The building will be ready for occupancy by the close of the Christmas holidays.

Stranded Sailors Brought In.

By Associated Press.
Philadelphia, Pa., Nov. 27.—The steamship, Admiral Schley, arrived today having on board forty-four sailors stranded at Atwood Key last Wednesday.

REBELS AVENGE THE MASSACRE

SIXTY ARISTOCRATS BEHEADED AT WU CHOW, THEIR HEARTS CUT OUT AND EATEN.

A BOMBARDMENT STARTS

Hills Overlooking Nanking Swarming With Rebels Who Have Begun Attack.

By Associated Press.

Hong Kong, Nov. 27.—Traffic on the West River is practically at a standstill. Steamers to Wuohow from Hong Kong have been withdrawn, but those from Canton are being continued on assurance by the British authorities that the river will be patrolled. At Wuohow the revolutionary soldiers are avenging the recent massacre. They have beheaded sixty prisoners some of them sons of aristocrats. After beheading them, the rebels cut out the hearts of their victims, roasting and eating them.

Some of the missionaries from up the river stations have sought a refuge in Hong Kong. Companies of troops patrolled the streets of Hong Kong and Kowloon on Sunday with fixed bayonets. This was done to prevent a recurrence of the recent disturbances. Some shooting and stone throwing occurred and two persons were slightly injured.

Works of Henry George Responsible.

By Associated Press.
Chicago, Ill., Nov. 27.—Translations of the works of Henry George and Tolstoy extensively read in China, in the opinion of Joseph Pella, the single tax advocate of England, have been largely responsible for the revolt there. "Translations of Henry George's works have passed through their third edition in China," he said, "and many of his theories concerning land ownership are what the Chinese are fighting about."

Bombardment Starts.

Nanking, Nov. 27.—After more than half a century of silence the hills overlooking the walled city of Nanking, the ancient capital of China, swarmed Sunday night with rebellious forces eager for its occupation and determined to overthrow the last stronghold of the Manchus south of the Yangtze.

From the Tiger Hill fort for several hours Sunday morning big guns spoke repeatedly while further up along the northeastern range from the top of Purple Mountain, overlooking the Mung tows, for a fifteen mile semi-circle westward to the Yangtze, smaller forts scattered shells into every section of the city. So far as is known the casualty list is not large. General Wong, second in command of the defenders, is among those killed.

During the earlier part of the day the imperialists attempted to sortie against the attacking forces with a view to recapturing the positions and guns, but were driven back inside the walls with considerable losses. The Tiger Hill batteries meanwhile were pounding shells into Lion Hill. They succeeded in silencing the Manchu batteries there, which it is suspected were of little value.

The object of the first seizure of Tiger Hill was shown by the early appearance of four rebel cruisers and later in the day of other warships. In the evening a dozen torpedo boat destroyers and cruisers were lying menacingly near the city. Doubtless they will quickly reduce the lower sections and drive the defenders to the south.

The victory of Nanking and Tartar general, in fear of General Chang, the imperialist commander, have taken refuge in the Japanese consulate, in which only the consul remains. He is sole official representative of the foreign interests in Nanking. The consulate is well guarded by marines.

Sunday's attack can only be considered a slight forerunner of bigger things to follow, because the main body of the revolutionaries is still in.

(Continued on Page Four)

URGE REVIVAL OF FAMILY PRAYER

By Associated Press.
Waco, Texas, Nov. 27.—The Baptist Convention this morning went on record in favor of returning to family prayer and for national legislation to prevent liquor shipments into dry territory.

W. L. DOUGLAS

\$5.00 \$4.00 \$3.50 & \$3.00 SHOES

On Monday 4th, none of the jurors or litigants will be required to come to the court house until 1:30 p. m.

Respectfully,
P. A. MARTIN, District Judge 30th District of Texas.

For Deceit and Cullom.

Springfield, Ill., Nov. 27.—The Republican State Editorial Association met for a two days' session here today with a large attendance of the men who work with pen and brain the year round, to keep the Republican party in Illinois in a flourishing condition. The purpose of the meeting is to consider the political outlook. The association favor the reelection of Governor Deceit, and senator Cullom to their respective offices, but should Governor Deceit announce his candidacy for the senate it is likely that a factional split among the editors will prevent the endorsement of either Deceit or Cullom.

YOU RISK NO MONEY.

Our Reputation and Money are Back of This Offer.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair for you? There any reason why you should hesitate to put our claims to a practical test?

A most scientific, common sense treatment is Rexall Orderlies, which are eaten like candy. They are very pronounced, gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or other inconveniences. Rexall Orderlies are particularly good for the children, aged and delicate persons.

We urge you to try Rexall Orderlies at our risk. Three sizes, 16, 25 and 50 cents. Remember, you can

get Rexall Remedies in this community only at our store—The Rexall Store, O. F. Marchman Drug Store.

Legal Tangle May Save Negro.

Oklahoma City, Okla., Nov. 27.—The criminal court of appeals which convened today for its November term is expected to make some final disposition of the case of "Kid" Kelly, which has bothered the Oklahoma authorities for several years. Kelly, a negro, was convicted of the murder of another negro near Tishomingo 3 years ago and ever since he has been waiting to find out whether he should be hanged by the United States or the State. His case was pending in the Indian Territory courts when Oklahoma was admitted to Statehood. An effort was made to get the case into the United States circuit court of appeals but that court refused to take jurisdiction. So did the criminal court of appeals of Oklahoma. Recently the attorney general decided the State had no jurisdiction and the negro was released from custody, but as the case is still on the criminal court docket it will be taken up and disposed of at the present term.

BLAME YOUR STOMACH.

Get Rid of the Poisonous Gases and Fermenting Food.

If you suffer from headaches, dizziness, biliousness, constipation, indigestive liver, nervousness, sleeplessness, bad dreams, foul breath, sour stomach, or despondency, be sure and try MIONA stomach tablets.

If you want immediate relief from an upset or rebellious stomach try MIONA Stomach Tablets.

You might as well get a 50 cent box today and start to put your stomach in tip top shape and make your body feel fine and energetic.

You take no risk, not a particle, for if MIONA Stomach Tablets do not do all that is claimed for them, O. F. Marchman will return your money.

Auto Races at Savannah.

Savannah, Ga., Nov. 27.—With public buildings and business houses gayly decorated with flags and colors, Savannah today welcomed the thousands of visitors gathered here for the "Wipe Promises" to be the "greatest automobile race meet ever pulled off in America. On the grand prize course during the early morning hours drivers whose daring and skill have given them international reputation were running their cars at top speed in the final, fry out for the great races of the week. Four big events are on the program, beginning this afternoon with the seventh annual renewal of the Vanderbilt Cup contest and ending Thanksgiving Day with the grand prize race.

Notice to Stockholders.

You are hereby notified that a called meeting of the stockholders of the Farmers Supply Co. of Wichita Falls, Texas, will be held at the company's office on Saturday, Dec. 2, 1911, at 6 o'clock p. m. for the purpose of transacting important business, or such other business as may properly come before the meeting. Signed,
H. G. Karrenbrock, Pres.

YOUR SELECTION.....
OF A GOOD BANK

Is important,—not only for the present, but also for the years to come.
The right bank connection will be a material help to your every day business.
This Bank has a successful record of safe, conservative banking from the day of its organization.

WE IN 'ITE YOUR BUSINESS.

As Everybody Knows.....

We are well established in our line of business in Wichita Falls, having been here among you for many years and always trying to obey the golden rule in all our dealings. Come in and see our new smart novelties in jewelry just arrived from New York.

Having had the advantage of the greater discounts accorded us in buying goods this year, than ever before, you will reap the benefit in getting the same high quality at a minimum price.

Ask to see the beautiful new designs in cut glass, glove and handkerchief boxes, vases, cake plates, bowls, vinegar cruets, perfume bottles, etc.

Here you will find that souvenir spoon you intend sending that dear friend far away. Also that odd piece of sterling you have been contemplating buying for your own use.

Oa yes, and while you are in you may just as well select early one or more of your most important gifts for Christmas and have them laid aside until convenient for you to call for them.

We are ever ready to guarantee and make good.

Jeweler and Manufacturing Optician

DON'T BUY TROUBLE!

WHEN YOU BUILD OR REMODEL

Building hardware is not purchased every day. If you buy the wrong kind, you will get a lot of trouble that lasts a long time.

Your Door Locks and Knobs and window catches are handled and in constant use every day. They should be so good that they will be in perfect working order as long as the building lasts. We know the hardware business. Let us aid you in the right selection.

OIL LOTS FOR SALE

In the **ELECTRA OIL FIELD**
\$10.00 EACH

The Powell Oil and Development Company owns in fee simple 211 acres of land situated about three miles south, 65 degrees east from the Electra Oil Field. This company is putting 57 acres of this land on the market for the purpose of developing holdings.

The land is a part of the H. & G. N. R. R. Survey of land located in Wichita County, Texas. Survey No. 21, Abstract No. 142.

Oil men of experience consider holdings as being in the heart of the oil bearing territory for the reason that the geological survey marked by the government shows that the oil strata runs northwest and southeast from the town of Electra.

The first shallow oil encountered is about three and a half miles southeast from our holdings. This 37 acres of land is near enough the railroad to afford shipping facilities. It is also within one mile of a two hundred acre tract bought by the Fordyce Oil Company for tankage purposes.

OUR PLAN.

There are 5188 oil lots as shown by plat on file with the county clerk of Wichita County. Each lot contains 600 square feet. The purchaser of each lot is entitled to one share of capital stock of the company, when same is finally organized. When one half of the lots are sold we will at once begin operations on a deep well to be put down to a depth of 2000 feet, unless oil or gas in paying quantities is found at a less depth, and when well is completed it will be turned over to the stockholders to be managed by a Board of Directors. 100 lots in the center of the field will be reserved for the deep well. The price of these lots is \$10 cash in hand.

Texas Industrial Notes

Contract has been let for building a levee between Index and Garland City, thirty-two miles in length and which will reclaim 170,000 acres of land.

Last year's pecan crop was valued at approximately \$2,250,000.

A company is being organized at Brownwood to prospect for gas and oil.

Owing to increased business the Lyon Gray Lumber Company of Sherman has found it necessary to increase its capital stock from \$50,000 to \$350,000.

The Chamber of Commerce, Real Estate Exchange and other organizations of Amarillo have acquired twenty acres of land and will construct an experimental irrigation system.

Mt. Vernon will vote December 16th on bond issue for construction of water works.

It is reported that the Dallas-Waxahachie Interurban which will be completed about January 1st, will extend to Kniss, a distance of 12 miles.

The Beaumont Traction Company is spending about \$125,000 in reconstructing its double track lines on a concrete foundation.

Drainage District No. 1 Vanderbilt, has voted issuance of \$74,000 of bonds for the purpose of draining 40,000 acres of land.

The new Rice Hotel at Houston, an eighteen-story building will cost \$2,500,000.

Valuable prizes will be awarded at the Poultry Show to be held at Taylor, December 7, 8 and 9th.

Dealers in farm implements declare that they have sold more goods in East Texas in the past five years than they have ever sold in the history of that section before.

The Commissioners Court of Jones county, has appropriated \$500 for a demonstration farm. A like sum will be donated by the United States Department of Agriculture.

Contract has been let by the M. K. & T. Railway for the erection of an 18 story building for its general offices at Dallas.

The Houston & Texas Central Railroad will build 13 miles of branch road in Lee county.

The Waco Sash and Door Company will erect a factory that will cost approximately \$500,000.

The city commission of Dallas is planning to increase the city's water supply by not less than two million gallons a day.

Denison turkey raisers are shipping between 2,000 and 3,000 birds daily to northern and eastern markets.

Arrangements have been made to have the M. K. & T. demonstration train tour all points on the Texas Central Railway of Texas.

A Simonton man cleared \$5,000 this year from 60 acres of potatoes.

Farmers near Harlington who grow long staple cotton this year received approximately \$30 per bale more than the market price for the ordinary staple.

The Commercial Club of Garza has inaugurated a movement for the organization of a Truck Growers Association in that community.

Orange county voters will decide on the issuance of \$250,000 bonds for good roads in Orange county in the near future.

Petitions are being circulated in Robertson county asking for an election for \$250,000 good roads bond. The Calvert Business League is agitating the proposition.

There is considerable activity in Shackelford county at present in prospecting for oil and coal.

The Temple Life Insurance Company which was recently organized at Belton has purchased property for an office building.

The city council of Farmeraville has let a contract for the construction of concrete gutters, curbs and walks around the public square.

A large number of entries were made at the Johnson County Poultry Show which was held at Cleburne last week.

An Eastland county farmer has just harvested more than 2,000 bushels of peanuts from an eighty acre tract.

A municipal waterworks system is being constructed at Dublin.

The Commercial Club of Goldthwaite has subscribed \$200 for a laboratory for the public school at that place.

Taylor is witnessing great activity in building lines.

Spur has just celebrated its second anniversary and is proud of the fact that in two years it has grown from a bare prairie to a thriving town of fifteen hundred inhabitants.

Robbing Peter to Pay Paul

The above saying owes its origin to the rivalry between St. Peter's Cathedral, which is now Westminster Abbey, and St. Paul's Cathedral in London.

In 1520 (during the reign of Edward VI) an appropriation was made from St. Peter's to make up a deficiency in the account of St. Paul's which action met with much opposition, and people were heard to say: "Why rob St. Peter to pay St. Paul?"

This proverb was renewed upon the death of William Pitt, Earl of Chatham, in 1778. The two metropolitan cemeteries laid claim to the honor of his burial. The city of London argued that so great a statesman as William Pitt should be buried in St. Paul's. Parliament argued that the

dust of kings, and that not to bury him in Westminster Abbey would again be robbing St. Peter to pay St. Paul. This dispute was decided in favor of Westminster Abbey.

William Pitt the elder was called "the great commoner of England," until he forfeited the title by becoming Earl of Chatham. In the reign of George II he became prime minister and his four years rule was a glorious one. The French were driven back across the Rhine, Canada was taken and India was won. He died four days after making a speech in the house of lords opposing the acknowledgment of the independence of the United States. This event took place when George III was on the throne of England.

WORLD'S SERIES AT THE RUBY TONIGHT

The Ruby Theatre tonight will show the World's Championship baseball series in motion pictures. These pictures are shown in a reel a thousand feet in length. They are said to be exceptionally fine pictures. These pictures will be shown only tonight.

Deputy Constable Charles Yearcy caught Will Geter, the negro who escaped from the county road gang about a year ago. Geter was serving out a fine of five hundred dollars for bootlegging. He had served only about twenty days when he escaped.

Roaming somewhere in Wichita Falls or vicinity are twenty head of horses which escaped Saturday night or Sunday morning from the stock pens southeast of the city. The horses were being shipped over the Ft. Worth and Denver to Tyler, Texas, and were stopped here for feed and water. A whole carload of thirty-three head was unloaded Saturday afternoon and fed and watered in the pens. When the railway employes went to reload them Sunday morning they found the gate of the pen open and all the horses gone. At noon today thirteen head had been found. It is believed that the gate was maliciously opened.

News From the Oil Fields

C. B. Shaffer, a prominent oil man from Pittsburg, Pa., is in the city investigating the surrounding oil fields.

Will McBride, one of the largest independent oil operators in the country, arrived last night from St. Louis, and will spend several days in the oil fields near this city.

The Bellevue Oil and Gas Company was chartered at Austin last week. The company has an authorized capital stock of \$25,000. The incorporators are John S. Campbell, W. L. Davis, J. K. Gault and others.

The new oil company recently organized at Bellevue, has let no grass grow under its feet. It has already contracted with Electrica people for the sinking of a two thousand foot test well near that place.

Dr. W. N. Bunkley and associates at Stamford have contracted with Cookin and Curry for sinking a test well near that city. Work is to be started at once and the well will be drilled to a depth of 2,000 feet unless oil is found in paying quantities before that depth is reached.

Work was begun on the well at Crowell last Tuesday and good progress was reported the first week in drilling. The drill weighs 1300 pounds, says the Forard County News, and the hole was started seventeen inches in diameter.

C. B. Benson, owner of the Belmont well on the Douglas lease in the Electra oil field, returned last night from his home in Independence, Kansas where he has been spending a few days with his family. Mr. Benson's oil well in Electra, is one of the best in the field there.

Max Esler, owner of most of the terra firma around Putnam, Texas, who is greatly interested in the development of the oil and gas resources recently discovered in that section in the city in conference with some of the oil men who make this city their headquarters.

The Dearing well about two miles northwest of Electra is reported on the sand at about a thousand feet. The showing is reported to be an unusually good one, but so much pressure was put on the hole that the flow has been temporarily killed. This well if it comes in all right will prove new territory.

T. H. Hirschl, of Switzerland, a geologist and oil expert, said to be a representative of the Union Petroleum Company which recently purchased the Barnsdale properties in the Mid-continent field, is registered at the Westland and will investigate the field at Electra. The Union Petroleum Company is controlled by French and Dutch capital and is now one of the biggest oil companies in the world. So far it has secured no holdings in the field here.

Mr. James Willis, one of the leading business men of Devo, Okla., is in the city today. In speaking of this town he said that a company of local business men had been organized to drill for oil, and that they had organized with a capital of \$10,000, already paid in, and would begin operations just as soon as the machinery could be had. He also stated that the men with whom he was associated were thoroughly satisfied that there was oil to be had there, and that they were going down at least 2,000 feet to find it.

Notes From Electra.
The following notes from the field appeared in the Electra News:
Corisana Petroleum Company No. 1, on the S. E. Honaker tract is drilling 1015 feet.
Corisana Co., Allen Nos. 3 and 4, were started Wednesday and Brewer No. 2 was started yesterday.
C. P. Brooch' No. 1 is drilling at 700 feet.
C. P. Co., Woodruff 2 is drilling at 700 feet and No. 1 on the same tract is full of oil at 900 feet.
The Wichita Oil Company's well on the Buerbaum tract is still shut down.
Buerbaum & Co., Douglas No. 1 is reaming at 1110 feet.
Producers Company, Beat No. 1 is drilling at 1870 feet and has had no sand to amount to anything.
There is quite a fishing job on in Flusche No. 1.
Showers No. 1, south of Harrold is drilling at 1870 feet.
Corisana Petroleum Company, Put-

nam 7 is good for about 300 barrels. Ramsey & Robbins No. 1, on block 7, Woodruff Heights, started pumping last Saturday at 1123 feet deep, making 250 barrels.
C. P. No. 1 on the S. E. Honaker tract, being drilled by the Wolf Drilling Co., is drilling at 1015 feet.

A deed was filed for record today transferring a tract of Waggoner Colony land from P. A. Champman to the Red River Oil Company. The consideration was \$7,000.

Another oil development company will be at work within a few days within six miles of Lawton. The Epstein Oil Company Friday hauled tents, supplies, drill, etc., to the farm of Gus Martin, six miles east of the city and only about one mile from the spot where the Marple drill is being operated. Tents and utensils were put in place Friday and just as soon as the engine arrives, which will be today or Sunday, work will be commenced. The Epstein company is said to have headquarters in Pittsburg. Certain it that it is shortly going to be demonstrated whether or not there is oil in this immediate section and confidence is strong that it is here. News of a gusher would listen awfully good at the present time, or in the near future.—Lawton News.

Shamrock is Expected.

Shamrock, Texas, Nov. 27.—Shamrock is apparently slated for a big oil or gas boom—or maybe both booms—in the near future. While Shamrock is replete with the harvest and market values of cotton, corn, the small grains, milo maize, kafir corn, and also of beef and pork—she is apparently to have, within the next 90 days either a big oil or gas well—or perhaps both.

The new drilling Shamrock oil and gas well—recently passing into the hands of the Victoria Securities Co., 79 Wall street, New York City, is now down 1,000 feet, and sinking at the rate of twenty-five feet per day, with a late replacing of the former rotary machinery by standard drilling tools, at a replacing cost of \$3,000.

Well Superintendent A. J. Pursley states that well, which has an 8 inch bore, will be put down to a maximum depth of 3,000, a level which is below the average oil or gas depths of the Oklahoma and Colorado and gas fields, and also below that of the Electra, Texas, wells.

Oil and gas can, therefore, be expected at any depth between the present 1,000 drilled feet and the 3,000 foot maximum well level. The well has already developed an abundant deposit of water so strong in saline contents as to be a natural brine, which can be profitably utilized in commercial salt manufacture.

To Drill in Kiowa County.

The Kiowa County Democrat of this week, says in part:
Drilling for oil will soon be commenced in this vicinity by the Otter Valley Oil and Gas Company, which was given a charter November 13th, for that purpose.

D. S. Thompson, of Tulsa, was here that day arranging with the incorporators for all necessary machinery and work will be started as soon as the machinery can be secured.

Some of the most reliable business men of Oklahoma are back of this proposition and it is bound to go. When such men are J. E. Williams, John G. Willis, G. W. Wilcox, E. V. Rakestraw and Carl D. Fryer, secure a charter to drill for oil, you may rest assured that they mean business. They guarantee to drill two wells each 2,000 feet deep and their word is sufficient guarantee that the work will be done.

Nearly three quarters of the stock has already been subscribed and the work will be pushed as rapidly as conditions will permit.

In every direction from Snyder, oil is being struck.

To the north, are the Gotego fields which have produced oil and gas for seven years but these holdings were quickly taken up by the Standard and have not been properly developed.

VALUABLE FURS AT SACRIFICE PRICES

It was in Fort Worth yesterday where I bought a traveling man's sample line of furs for cash. The season for furs being well advanced, and the fact that we are not in this line of business enabled me to buy the samples very much below the actual cost of manufacture, so much so in fact, that I can sell them to you for less than they are marked to sell to the retailer. The lot is limited, and there is only one of each kind. There are muffs and collars of mink, grey fox, red fox, sable, lynx and beaver. As a sample of the prices there is one long coat, size 40 of black Coney, made in the newest style, which is marked to sell at wholesale at \$100. It would sell at retail for \$175 in any fur store in the world, but I can sell it for \$65. The other pieces are at the same low rates, and if you want a fur you can save more than half the cost by getting one of these. They are so pretty and so good, and so cheap, I know they will be sold out by tomorrow night, so if you want one you better come early tomorrow

morning and make your selection. Ordinarily we would loan more money on furs than we are asking for these, so you may know how cheap they are. Art Loan Company, 705 Ohio avenue. 169-119

ADDITIONAL PERSONALS.

Miss Abbie Cranmer and Miss Sheldon arrived here this morning from Electra, to attend the Wichita County Teacher's Institute which convened here today.

Frank Keil, vice president and general manager of the Wichita Falls Route, returned yesterday from a short trip of inspection over a portion of the new extension of the Northwestern above Hammon.

E. B. Carver, live stock agent for the Wichita Falls Route, returned last night from Archer City, where he spent Sunday with his family.

Mrs. A. D. Wagner arrived here this afternoon from Fort Worth, and will remain in the city until after Thanksgiving, as the guest of her father, J. C. T. Fleming on Tenth street.

Tell Finley, manager of the Overland Automobile Company of Dallas, arrived here yesterday, having driven thru in his car, and will spend a few days in this city.

MRS. PATTERSON BROKEN DOWN

It Was Believed This Morning That She Would Be Unable to Appear in Court Room.

By Associated Press
Denver, Colo., Nov. 27.—Considerable doubt is entertained as to whether Mrs. Gertrude Gibson Patterson, who killed her husband on September 25th, would be able to appear when court convened today. The collapse of Mrs. Patterson Sunday morning in jail following her severe cross examination, was thought but for the moment, but those who have watched her closely during the trial thus far, noted she completely lost her composure almost immediately following her meeting of her dead

husband's mother in the court room. Since that moment Mrs. Patterson has been very nervous and her condition became worse until she was hysterical after midnight and all day Sunday. Two physicians were with her at the jail practically all day Sunday, and at night twice gave her sleeping powders. Her parents visited her twice and their efforts to console her were partially successful.

When the trial was resumed Mrs. Patterson was in the court room. Two women prisoners testified that when Mrs. Patterson was brought to the jail after the shooting their eyes following her meeting of her dead

husband's mother in the court room. Since that moment Mrs. Patterson has been very nervous and her condition became worse until she was hysterical after midnight and all day Sunday. Two physicians were with her at the jail practically all day Sunday, and at night twice gave her sleeping powders. Her parents visited her twice and their efforts to console her were partially successful.

On Cross Examination one of them, Ida Kelley stated she had talked to Rose Gard, the other one about the impending testimony. Miss Gard denied this. Willis V. Elliott, district attorney, who acted on Mrs. Patterson's complaint against her husband testified that she bore evidence of an assault in bruises on her face and neck.

Several witnesses testified in support of the contention that Patterson abused his wife. Mrs. G. A. Jones testified that nine days before the homicide she overheard a quarrel between Patterson and his wife and that Patterson's final words were—"You'll kill you."

Several witnesses testified in support of the contention that Patterson abused his wife.

Rain Making Experiments

For many years the question of whether it is possible to produce rain fall by artificial means has been discussed, and from time to time efforts have been made to produce precipitation, usually by firing heavy charges of explosives. The latest and apparently the most successful series of experiments along this line have been made this summer in Garza county. In that county C. W. Post, the well known cereal manufacturer owns a large body of land which he is developing, and upon which he maintains an experimental farm, in addition to a number of model farms that he is operating.

This year extensive preparations were made for a crop, and considerable expense was incurred in planting and preparing everything as it was intended to make this a red letter year in their operations, and the indications early in the year pointed to a rainy season. During the late spring, however, the weather turned off very dry and Mr. Post was threatened with a failure in his farming experiments, which would have meant the loss of a year of valuable time, as well as a heavy financial outlay. After waiting as long as was safe for rain, which failed to materialize, he issued instructions to the foreman of his farming operations to fire some two thousand pounds of dynamite in the hope of bringing the needed rain. This was done as follows:

A firing squad consisting of fifteen men was stationed along the bluffs or caprocks of the plains about two miles west from Post City, and each man was given fourteen rounds

of dynamite in sticks. This dynamite was exploded at intervals of five minutes, the firing continuing for a space of about one and one-half hours and then the men scattered so that the explosives covered approximately a square mile of territory. This program was carried out exactly. At the beginning the weather was hazy with some wind, but during firing the wind changed in directions and finally died out entirely. The effort failed to produce and direct results, although rain fell within five miles of the point where the shots were fired. Within a week, however, sufficient rain fell to relieve urgent needs and no further efforts were at once made.

About one month later, however, it was decided to repeat the experiment, changing it by scattering the men over a larger territory and firing the shots at irregular intervals, in imitation of a battle. This experiment began at 3 p. m., and ended at 5 p. m. At the beginning the weather was cool with a light breeze blowing from the southeast and a few clouds floating about. At 5 o'clock the sky was very cloudy, and during the night a good rain fell and more rain fell the next day, fully relieving the drouthy conditions. The third experiment was made about five weeks later and did not differ materially from the second, except that about three thousand pounds of dynamite of a higher strength was used. Rain followed this experiment within a few hours, and covered a space fifteen or twenty miles across. The fourth and last of the most successful one of the series, was made on Tuesday, October 26. Three thousand pounds of strong dynamite were fired along a line some two miles in length, in imitation of a battle the discharging being irregular. Within five hours rain began to fall and continued until the soil was thoroughly soaked, lasting probably twelve or fifteen hours.

That the rains were a direct result of the explosions cannot of course be proven, but they came directly afterward in every case and in such a manner as to indicate connection is a fact. The cost of these experiments average about \$800 each, and the rain covered probably four hundred sections in each case, so the cost of producing rain, if it was produced by the explosions, is about \$2 per section. Mr. Post was present in person and witnessed the last rain-making experiment and expressed himself as satisfied that the rain was the result of breaking up of the air currents by the explosions, and that when rain is again needed he will use the same methods.

These facts are worthy of consideration. If rain can be produced as seems to have been done here this will revolutionize farming in the semi-arid regions, for the work will probably be done under the supervision of county officials, or special officers detailed by the state, as the results striven for are of too general nature to be handled by individuals except those who own large tracts of land. The record of the experiments in this county indicate that the cost is extremely small per section, and it could be handled by taxation in such a manner that the land owner would never feel the expense. This is a matter that should cause farmers and ranchmen in West Texas particularly to do a little hard thinking and investigating.—Abilene Reporter.

Some Timely Pointers for Mailing Holiday Gifts

There are several rules that should be followed in the mailing of holiday presents, and one of the first and most important is that the Christmas shopping should be done early. This is imperative. Then there are several rules that should be followed in mailing if you would get the best results. One of these is to not only do your shopping early, but send the present early. This will cause it to reach the person intended for in time so that they can send you one in return. Here are a few other rules to be observed.

Put the stamp in the upper right-hand corner.

Register your valuable letters and parcels.

Have your mails addressed to your street and number.

Notify the postmaster when you change your address, giving both the old and new address.

Place your own name and address on the upper left hand corner of your letter or parcel and if you desire

special return, so state.

The postmaster is forbidden to furnish addresses of patrons of the office.

The postage stamps are sold in book form for your convenience. Send your money by postoffice money order or registered letter.

Ten cents extra postage insures the immediate delivery of your mail upon its arrival at destination.

Tightly seal envelopes enclosing post cards, bearing particles of glass, metal, mlct, etc., and put on letter postage—two cents per ounce.

Forwarding orders or change of address orders cannot be taken over the telephone.

Promptly report in writing to the postmaster any irregularity in service, any request or suggestion for improvement in the service and discovery of an employe. In making complaint concerning the delivery of mail, always accompany same with the envelope or wrapper.

Some Trees Famous in Texas History

Mrs. J. L. Dupree of Victoria, before the State Federation of Women's Clubs at Houston last week urged a campaign for the observance of Arbor Day. In the course of her address she told about some famous trees in Texas naming the followings:

The battle of three trees was fought on Galveston Island with the Indians in 1819.

The Palo Alto, the high tree, gave its name to the first general battle of the United States and Mexican war. It was fought May 6, 1846 and three days later the battle of Resaca de la Palma. These first two battles of this war were fought on Texas soil.

Alamo, which means cottonwood and popular tree, is the most famous in all Texas history.

Pecan tree, was found during De Leon's first expedition into Texas in 1489, and the stream upon which banks it was found is called Nueces, which means nut in Spanish.

Cypress tree, called in Spanish Sabina, gave its name to the Sabine River, in 1721; Augayo found the banks of the stream lined with cypress forests.

The large water oak on the San Jacinto battle field under which General Sam Houston lay wounded when Santa Anna was brought to him, a captive, after the battle. The spot is marked by an iron cross placed by the San Jacinto chapter of the Daughters of the Republic of Texas.

Elm Tree at Nacogdoches, under which the first Protestant sermon in Texas was preached was symmetrical in form, very large and with dense foliage.

The oak tree which overshadowed the first capital in Texas at Columbia, on the Brazos River.

The large live oak in the town of La Grange, under which Dawson's men organized when they started on their fateful campaign. The command was slain at Salado, near San

TEXAS APPLES BRING SPLENDID DIVIDENDS

NO PRODUCT PAYS ANY BETTER TEXAS FIGURES SHOW.

5,000,000 TREES BEARING

The apple has always played an important part in the history of the human race. It was an apple rose and red that attracted the attention of Eve and she gave to Adam, what according to Holy Writ, "did eat" and ever since that eventful day the apple has been a favorite diet of mankind. It was an apple falling to the ground that stirred the brain of Newton and he gave us the laws of gravitation. It was an apple tree upon which grafters first plied their vocation and so successful were their operations that the profession has since flourished so rapidly as to menace civilization. It was a Texas apple that was awarded the first premium at the World's Fair in St. Louis in 1904 and no State has ever been able to wrest from us this undisputed evidence of our superiority as an apple producing State.

It is the most obedient plant in the vegetable kingdom and yields implicitly to the genius of man; it will change color, size, flavor, maturity and durability at the touch of a master hand. It is undoubtedly the most universal, resourceful and profitable of commercial fruits.

The northern tier of counties has long been known as the banner section in apple production, but is now dividing honors with the Pecos country and the Panhandle.

Some idea of the increase in the apple industry in Texas may be gained when we consider that the number of trees in the State today is more than five millions, while in 1870 there were less than 500,000 trees. The following table, taken from the reports of the Department of Agriculture, shows the progress of the apple industry by decades:

1870	290,000
1880	560,000
1890	663,000
1900	1,485,000
1910	5,000,000

Texas offers to the orchardist a soil and climate that will give vigor and productive power to the trees, color and flavor to the fruit and an established reputation to the product.

TEXAS FARM VALUES GAIN \$1,000,000,000

Population on Farms Increases Nearly Half a Million.

We have on the tax assessors' rolls of Texas 156,946,934 acres of land, leaving approximately 11,000,000 acres of land not on the tax rolls which is owned by the State, exempt from taxation, or assessed as town and city lots. The assessed value of land has increased from \$3.02 per acre in 1900 to \$6.51 per acre in 1910, making a total increase of \$550,000,000 in assessed land values and when we consider that land is assessed at probably less than 50 per cent of its true value, we find an actual increase in farm land alone of \$1,100,000,000. The Federal Census reports verify this estimate by crediting us with a net gain of \$1,130,939,000 or 163 per cent during the past decade.

According to the reports of our Railroad Commission we have built 3952 miles of railroad during the past decade and it is estimated that a mile of railroad will add \$64,000 per mile to adjoining property. Railroad construction alone has added a quarter of a billion dollars to land values. The facilities on all roads have been increased, enabling the products to reach the market earlier and in better condition, thereby increasing the value of production. The improvement of our public highways has had its effect in increasing values and the immigration agents are entitled to a large share of credit for our development.

Our rural population in 1900 was 2,488,838 and in 1910 the census reports give us 2,958,838, making an increase of 469,992 people on our farms. The wealth per capita of farm lands and buildings of our rural population in 1900 was \$180 and in 1910 it was \$347 per capita, making an increase of \$187 per capita or 117 per cent, which measures, in a way, the prosperity of the Texas farmer. We have opened up during the past decade 61,187 farms and now have a total of 416,477 farms in operation and the average size of our farms shows a decrease of from 357 acres in 1900 to 262 acres in 1910, or an average of 95 acres per farm, all of which has undoubtedly had a strong influence in increasing the wealth per capita of the Texas farmer.

AGRICULTURAL POSSIBILITIES.

Houston Post.
It is a tragic story told us of the Texas corn crop. In 1908 Texas produced 201,000,000 bushels of corn, scarcely enough to supply our needs in 1910 it fell to 181,000,000 bushels. These figures were humiliating, but when the United States department of agriculture tells us that we only produced in 1911, 96,000,000 bushels of corn, we are mortified. Just think of it! Texas with her boasted fertile soil, produced only an average yield per acre of 10.4 bushels this year. Only one state in the United States fell below Texas in her average yield, among us seeking homes in our state. To fall from our sixth place in the galaxy to the ninth place in 1911 is a descent that reflects discredit upon our agricultural methods. Ten and four hundredths bushels of corn per acre we are forced to tell our visiting friends and immigrants who come

SOON

comes the day when the stately American gobbler places his majestic head beneath the gullotine, the cranberry merchant gets as busy as a prairie dog with two holes, and the small boy begins to make mental measurements of his stomach capacity, wondering if it will hold more than it did last year. The good housewife busies herself preparing all the highly palatable indigestion promoters that have tickled the tastes of the epicurean kings since Methusalem got out of the Castoria division. Everybody seems glad, even the town dog adds an extra wag of cheer to his caudal appendage on which hangs so many tomato cans and even the grouch so far forgets himself as to smile and admit that the sun has a perfect right to rise and set. All this is occasioned by the fact that the foremost nation of earth worships at the shrine of the Prince of Peace, who in Gethsemane paid the greatest debt that mankind ever owed and is about to give thanks to Him who tempers the wind to the shorn lamb and at whose beck and call this system of worlds and myriad of men move. But there is a pain for every pleasure, a grief for every gladness, and an awakening to every dream—in the cold gray dawn of the morning after—Don't forget we have what you will want. The sequel to the story is mustard plasters, dyspepsia tablets, headache stoppers and Epsom salts. Our delivery service is ball bearing.

A telegram from Honey Grove to Mayor Noble of this city, received at noon today states that a man by the name of Edward Bailey was stricken with paralysis in that city today, and that he was able to talk enough to those who went to his aid to tell them that he had a relative by the name of John Hoover who resided at Wichita Falls. Mayor Noble has made inquiry of Mr. Hoover, but up to 3 o'clock had failed to locate him. If Mr. Hoover is in the city, Mayor Noble would like to know it in order to deliver to him the message that was sent.

Have your pictures framed at once, by P. S. Tullis. 166-11c

J. W. Stringer, whose royalties from oil wells on his lands run into the thousands of dollars every month and which is steadily growing larger as new wells are being brought in, was a visitor here today.

\$10.00—Reward—\$10.00

We want every family in Wichita Falls to test our fresh roasted coffee, and see the difference between it and goods roasted out of town. We know that one pound means repeat orders, and are willing to pay something for that first order. Have hit upon the following plan—Commencing Wednesday, November 15th until December 1st we will take orders for a special blend at 35c per pound. This coffee to be roasted by us and delivered the same day it is roasted. Each pound purchased entitles the purchaser to submit a name for this particular blend and we will pay the party who submits the most appropriate name (which we will adopt for this blend) the sum of Ten Dollars. We are to be the sole judge, but the Ten Dollars will be paid to someone who submits a name for the coffee. The coffee will be delivered and award made as soon as possible after December 1st.—which will be within the first five days of the month. Our solicitors will make a canvas of the city but that no one may miss the opportunity we will accept telephone and mail orders and orders may be left at the store. Now we promise you will get more than full value for your 35c and in addition you get a chance at the \$10.00. If the coffee don't make good we are the loser as we are staking our reputation as roasters on this deal. All coffee sold by us under the name adopted will be exactly like the first pound. As these orders will be small will expect to collect on delivery.
