### POSTING OF COTTON GRADES BY U. S. TO GREATLY AID SOUTH

#### GOVERNMENT TO GIVE STAPLES WITH REPORTS

LOCAL MEN SAY NEW METHOD IS MORE ACCURATE

#### MAY AID PRICES

CHECK-UP FROM PLAINS REGION TO BE MADE EACH MONTH

That the posting of cotton grades used along with ginning reports and crop forecasts by the government will be of immense value to the south and possibly will result in millions of dollars additional profit to this section, was predicted by local cotton men interviewed last night on the effect of this step in the cotton industry.

It was explained that along with the staple length cotton "run" each year is a large percentage of shorts and low grades, which while it is not usable by mills and spinners, is included in the general report and has as much effect on the cotton futures market as any kind. Under the new system a lower estimate of the amount of high grade cotton raised can be had and the south will probably reap a corresponding profit from increased sales. Last year it was claimed that the amount of low grade cotton raised was greatly in excess of the estimates considered and had a corresponding adverse effect upon the market.

New System Installed  
WASHINGTON, June 23 (AP)—Reports on the commercial grades and staples of cotton ginning in two ginning districts of the cotton belt will be issued beginning September 1. A similar effort will be made in December, January, March and May, the department of agriculture announced today. It is aimed to make a record of the staple length of the cotton as it is ginned.

W. B. Nathan, formerly connected with the agricultural experiment station, who has been appointed economist in charge of the study and staple studies, left today for Atlanta where an office is to be established July 1 for carrying on the work in the Atlanta area. A similar office will be established in Dallas about August 1. Arrangements are to be made with a large number of ginners in Georgia and in the dry cotton ginning areas of southwest Oklahoma and the Panhandle of Texas. Names will be obtained of representative ginners of the millions of these states. These will form the basis of the department's monthly report.

The reports will carry information on the commercial grades and staple lengths only, but an additional study will also be made of other factors, such as color, leaf rash and other elements of character of cotton lint.

#### MOVIE SALARIES CUT

Major Producers Agree to Reduce Wages of All Their Employees Immediately

HOLLYWOOD, Calif., June 23 (AP)—The principal motion picture producing companies today followed the lead of Paramount Pictures-Lasky, in agreeing to an immediate reduction of salaries of all persons in their organizations from executive heads down to fifty dollars a week, and including their high salaries featured actors and actresses.

FLOYD BENNETT, MEMBER OF POLAR FLIGHT EXPEDITION, SAYS GOODBYE TO BUDDY

Floyd Bennett, injured in an accident, is shaking hands here, with Richard E. Byrd, before the expedition to Antarctica. Bennett is on the left, Byrd on the right.

#### AMERICA FLIGHT AGAIN POSTPONED

ROOSEVELT FIELD, N. Y., June 23 (AP)—The flight of the monoplane "America" was indefinitely postponed tonight when unfavorable conditions failed to improve as they had been expected to.

Commander Byrd announced the postponement on the advice of James Kimball, of the weather bureau. Kimball said a low pressure area off Newfoundland made a flight inadvisable tonight and that there were now no indications that conditions would be made favorable any time tomorrow.

"It is all off," Byrd said. "Kimball tells me it would be best not to make a flight tonight, and I said right along I would be guided by his advice."

#### FILE JUDGEMENTS NOW

District Clerk Warns Against Delay As Saturday Is Last Day of Present Term

With Saturday as the last day of the present term of court, Miss T. Green, district clerk, has asked that all orders and judgments be filed at once.

#### OIL OPERATIONS LOW

New Low Level of 3.211 Records For Week Just Ended

TULSA, Okla., June 23 (AP)—Oil operations in the Oklahoma, Kansas, North Texas and New Mexico areas of the mid continent field dropped to the new low figure of 3,211 during the week just ended. Oil Weekly will say tomorrow Oklahoma decreased only slightly in the field work going from 1,361 operations to 1,351.

#### BONDS APPROVED

AUSTIN, Texas, June 23 (AP)—Approval of \$100,000 worth of city of Lubbock municipal bonds and \$25,000 in Zavala County bonds was announced by the attorney general's department today.

#### TRAIN ROBBERS RELATE DETAILS AS TO KILLING

CONFESSION TELLS OF WAY FOUR MEN WERE SLAIN BY TRIO

#### GET LIFE TERMS

HAD ADOPTED BELIEFS OF SOCIALISTS IN CRIMES

(By Associated Press)  
MEDFORD, Oregon, June 23.—Confessions that they held up a Southern Pacific train in the Siskiyou mountains of Oregon in 1925 and killed four trainmen were made today by the three De Atterment brothers, Hugh, Roy and Ray. All were sentenced to life imprisonment in the penitentiary at Salem. Pleas of guilty were entered by the twins, Ray and Roy, the younger brother, who was convicted of first degree murder Tuesday with recommendations of life imprisonment.

Repeats Confession  
In his cell in the county jail of Jacksonville today, Hugh, in the presence of Ray and Roy, repeated the confession he had made to postal authorities and county officers last night. He said: "If the world must know, I killed the engineer (Hydney L. Bates) of Dunsmuir, Calif."

"They killed the fireman (Marvin) and the brakeman (Curtis Johnson) of Ashland."

Hugh's version, given frankly and freely, follows in detail:  
"This dastardly crime had its birth when Ray was in the Washington state reformatory at Monroe. We all know it was a heinous, dastardly crime, as well as one that hit against the world. He had killed against Dargis, Huxley, Schepenshauser, and all that stuff. He had been sentenced to life imprisonment."

"They accused him of radical syndicalism. Instead, he was just a socialist, who wanted a square deal for every man."

"They met his twin brother, Ray, and they talked over his ideas," said Hugh, "and soon they had the same thoughts. They have always been together."

"Shortly before my graduation from high school at Astoria, N. E., they came for a visit. He talked this thing to me and I fell the same way. I don't know why."

#### EX GRADUATES MEET

Members of the Class of 1922 Will Meet Tonight in City

With five years since their days in Lubbock high school behind them, members of the graduating class of 1922 will gather at the home of Miss Sylvia Wilson, 1528 Avenue L, tonight to hold their first reunion and bring back memories of the "good old days." Although the class of 43 members has agreed to other studies, about 20 members are expected to be present.

#### GILBREATH IS FREED

Man Who Slaw Alleged Despoiler Of His Daughter Released Under \$10,000 Bond

DUNCAN, Okla., June 23 (AP)—Charged with the murder of the alleged despoiler of his daughter, Arch Gilbreath, farmer, tonight was free on a \$10,000 bond furnished by ten of the scores of friends who pushed forward to assist in obtaining his release. Gilbreath was held yesterday, shot B. F. Cox, to death in a crowded courtroom here. Waived preliminary hearing in the county court when he was arraigned this morning and was bound over to district court, where his trial was set for October 1.

LUPKIN, June 23 (AP)—Glenn Miller, attending college in Chicago, has written home that thieves entered his room while he slept and stole all of his clothing, leaving him nothing but a bath robe.

#### More Questions!

Following is another set of questions on Lubbock and its territory, which every good citizen should be able to answer. Turn to the Classified Ad page for the answers:

1. Who is president of the 1927 Panhandle and South Plains "fair" association and what is this fair known as?
2. To what extent has cotton production in Lubbock county increased since the year 1920?
3. What county leads the entire Texas Panhandle in population and how many were issued in 1926?
4. How many people can Lubbock's three modern hospitals accommodate at one time with crowded patient facilities?
5. What South Plains county is the youngest in Texas, what is its county seat and for what is it most widely known?
6. What is the total acreage of the 18 South Plains counties and what percent of it is tillable? How many acres are waiting developments?
7. How rapidly has the assessed valuation of Lubbock county increased in the past six years?
8. How many acres of land is owned by the Texas Technological college?
9. How many district courts are there in Lubbock county? Who are the judges and how did each first get elected?
10. Has Lubbock a representative on the "All-Texas Special" and if so, who is he?

#### GOVERNOR HALTS DUNN EXECUTION

ROBERT DUNN TO GET LIFE TERM AND EXECUTION OF BROTHER DELAYED

(By Associated Press)  
HATON ROUGE, La., June 23.—Governor O. H. Simpson late today commuted the sentence of Robert Dunn to life imprisonment, and granted a thirty day reprieve to Byron Dunn to permit the latter to ascertain the outcome of a petition for a writ of habeas corpus filed in federal court at Shreveport today.

"In granting the reprieve the governor is not making any statement as to the merits of a writ of habeas corpus," said a spokesman of the Louisiana state court.

While he could not vouch for the authenticity of the newly revealed evidence, Governor Simpson said he felt that every precaution should be taken to prevent a miscarriage of justice in the execution of a man.

The two brothers were convicted of the murder of Deputy Sheriff Sam Dalton, of Calcasieu parish during a liquor raid near Vinton. The case was carried through the various state courts to the United States supreme court in the fight of attorneys to save their clients.

PARTY ATTEMPTING TO FREE PRISONERS ELUDES GUARD

(By Associated Press)  
HUNTSVILLE, June 23.—White horses were surrounding three escaped convicts near Leona and Madisonville and preparing for a gun fight as Leona peace officers in Texas cities were on the look-out tonight for a large touring car bearing a Kansas City tag and a Missouri license in which were two or more men who were foiled Wednesday night in a second wholesale prison delivery.

In the meantime other guards brought in to the main prison seven more of the 25 convicts who escaped Tuesday night from the Ferguson prison farm at Madisonville. Twenty-two of the fugitives now are behind prison walls.

Two convicts reported surrounded near Leona are believed to be armed and preparing to defend their liberty with their lives. They are hiding in underbrush where they can use small trees and ravines for breast works. Citizens are being urged to report any early this morning and both carried rifles or shot guns, possession were told.

No robberies have been reported from this vicinity and it is not determined how the fugitives came into possession of the horses. The posse were scattering around the thickets and sending bloodhounds into brush the men, hoping they would come out and surrender.

#### ANOTHER SURROUNDED

A lone fugitive was seen to hide in the brush near Madisonville this afternoon and another posse was surrounding him. His capture was imminent, officers believed. It was not thought that he was armed.

#### FIRE MEET TOLD OF

Chief Twitty Warns Citizens Of Lubbock That Regulations Must Be Observed

Bringing back the state fire marshal's warning to the cities of the state that unless the regulations of the state fire commission are met the rates will be raised, Fire Chief W. Edgar Twitty made his report of the state convention at the regular meeting of the fire department last night. The best comment on the statement was the description which Chief Twitty gave the meeting recently attended.

His report included an outline of the sessions of the convention and a summary of the information gained in the drills.

"Where Lubbock is losing out," he said, "is in not getting the savings of the key rate. New Braunfels, with a population entirely of Germans and much smaller than Lubbock has a 15-cent rate while Lubbock has a 22-cent rate. It's the premium owners who pay the difference," he said.

Chief Twitty told about the high premium given Southwest for the method of supporting their fire department. A tax of two mills is placed on the dollar and enough is raised to support the department.

For food and day care, members who make the trip also made short reports. At the next meeting of the department two weeks hence, the city commissioners will present matters which pertain to the key rate of the city.

#### MUTINEERS ASK PRISON CHANGES

REVISION OF PAYROLL AND RULE SYSTEM INCLUDED AMONG DEMANDS

(By Associated Press)  
LANSDING, Kan., June 23.—A list of demands, including more liberties and a revision of parole procedure, was sent up to the state board of administration tonight from the depths of the Kansas penitentiary coal mines, where 325 convicts have been in a state of mutiny since Tuesday.

In a long statement transmitted over the mine telephone, the convicts denied that the mutiny was to enforce demands for cigarettes, which are forbidden under the prison rules.

They asked assurance that none of the men in the mine would be punished.

A written statement, rejecting the demand of administration, rejecting or accepting the demands was called for in the ultimatum.

Members of the State Board of Administration went into session in the warden's office after receiving the statement from the convicts. They issued the following statement:

Board Considers  
The board of administration has no comment to make at this time except to say that if there is anything in the rules governing the management of the state penitentiary which should be changed for the betterment of the condition of the inmates or the institution, the board will go into the matter in a fair, impartial way.

Charles W. Huffman, vice chairman of the board, and Lacey Simpson and H. E. Beach, members, signed the statement.

The convicts complained of the prison food, asked for "more good times," demanded that they be permitted to receive food from friends, and that prisoners applying for parole "get the consideration that is allowed them by the law and not the board members ruling as in the past."

WILL BE RETURNED TO OKLAHOMA BY MEN OF THAT STATE

(By Associated Press)  
GRAND CANYON, Ariz., June 23.—Matthew Kimes, wanted in Oklahoma for bank robbery, murder and a number of felonies and jail breaking, was captured under the "rim" of the Grand Canyon this afternoon by a posse led by Chief Ranger J. P. Brooks of the Grand Canyon national park.

There was a brief exchange of shots between Kimes, who was heavily armed, and the rangers, but no one was wounded.

The capture of the Oklahoma bandit followed the arrest of a short time before in Bright Angel cottage, at the edge of the canyon, of Mr. and Mrs. G. H. Kady, of Tulsa, Okla., with whom Kimes entered the park this morning.

A park foreman and a forest ranger on duty at the checking station at the entrance of the park where all visiting vehicles must be registered, identified Kimes, who was riding in the rear seat of the Kady automobile. They telephoned ahead of the car to the office of the chief ranger, who had rangers shadow the car as soon as it appeared. The checking station is five miles from the Canyon proper.

The three registered at Bright Angel as "Mr. and Mrs. G. H. Kady" and "Harry Watkins" of Oklahoma. "Watkins" left the car in their room and walked out towards Yavapai Point at which point he was accosted by Sheriff J. O. Parsons of Coconino county, who had been at the Canyon conferring with his deputies. "Watkins" pulled a revolver, and Parsons started toward him, only to see the man slip over the railing of the canyon, sloping thickly covered with scrub oak and pine trees, extends down 200 feet from the edge before the point drops away into 1,500 foot precipice. "Watkins" was lost to view in the shrubbery.

Parsons immediately organized a posse of between 15 and 20 men, all heavily armed, and a circle was formed about the spot where the man had disappeared. When the posse advanced it was fired upon, Kimes ceased firing and fled.

#### TAXATION BIG PROBLEM

Railroad Commissioner Says That Question Will Be Main One Before Public For Years

CORPUS CHRISTI, Tex., June 23 (AP)—Taxation will remain the nation's greatest problem unless a Moses of political economy arises to lead us out of the financial wilderness," asserted Lon A. Smith, railroad commissioner, when he addressed 150 delegates and visitors to the 35th annual convention of the district and county clerks of Texas. The convention will continue through Saturday.

The principal address on the program tomorrow is by Roy Miles, active vice president of the International Canal association of Louisiana.

The Morning Avalanche Menu for the Day

BRKFAST—Halves of grapefruit, scrambled eggs, crisp broiled bacon, whole wheat muffins, milk, coffee. LUNCHEON—Luncheon apparatus, lettuce sandwiches, carrot pudding, lemonade. DINNER—Pot roast of beef with dumplings, creamed new cabbage, button radishes, fresh fruits in jelly with whipped cream, sponge cake, milk, coffee. The asparagus dish planned for luncheon makes an ideal company dish, but is wholesome and suitable for the entire family. Canned asparagus can be used when fresh asparagus is not in season. Luncheon Asparagus: Two bunches asparagus, 1-2 cups sliced dried bread crumbs, 2-3 cups hot milk, 4 tablespoons melted butter, 1-2 teaspoon salt, 1-2 teaspoon pepper, 4 Pot roast bread into a slow steamer to dry thoroughly. Roll and stiff crumbs. Wash and scrape asparagus and steam fifteen minutes. Cool and cut the tender part into half-inch pieces. Add milk to crumbs, adding enough milk to make moist. The crumbs may absorb more or less than 2-3 cup of milk. Season with salt, pepper and butter. Beat eggs until very light and add with prepared asparagus to moist crumbs. Fold lightly but thoroughly and turn into a well buttered pan. Cover and steam forty-five minutes. Serve with a rich cream sauce or mock Hollandaise. (Copyright 1927 NEA Service, Inc.) The Woman's Day

By Allene Sumner

Women, says a celebrated woman, are trouble makers. Mrs. Carrie Chapman Catt, speaking, said it before their faces, too, and not behind their backs. Addressing some woman's convention, Mrs. Catt said: "Women have caused more irritation among the nations than any other influence which has resulted in history's great wars. In my travels about the world, I have noticed the peculiar tendency of women of all races to repeat, in exaggerated form, statements of men in regard to matters of race hatred and other phases of foreign policy which would make two countries spring at each other's throats." "So the ladies who are no white in color do it, too!" By the way, did you ever hear of a neighborhood quarrel starting because of the men of the family getting mad at something or other? If you did, you're a smarty!

JACK-IN-THE-BOX

The famous mystery box of Joanna Southcott is about to be opened. Years ago Joanna, dying, entrusted this locked box to a friend, making her swear that the box should not be opened except in a national crisis and in the presence of bishops. "Somehow I have a hunch that this Joanna was a practical joker; that even, dying, she tilted at the spectacle of the grave men of the nation assembling themselves in solemnest council to open, with prayer, a box wherein may be found words to the effect that 'You're stung!' or 'What got fooled?' or something like that. Women may make trouble as Mrs. Catt says, but they have lots of fun, too!"

"JAZZ MAD BABIES"

"The jazz-mad baby no longer walks the college campus." So says one Margaret Stone Jamison, honor graduate of Northwestern in June. Five years ago, girls necked, the lady continues. But no more—at least not with such vim and vigor. Most college girls, she continues, look forward to their marriage and a career outside marriage, but if it came to actual choice, she thinks marriage without career would win. In proof of the modern college girl's return to normalcy, she points with pride to the fact that 50 per cent of them have never cut their hair and that those who have known bobbed tresses are letting them grow. "Until the honor grad threw in that last remark, I was for her. Now I'm inclined to suggest a good course in logic—anything that will free her from the idea that short hair denotes a 'jazz-mad baby,' and long hair the reverse."

MAD, 'TWOULD SEEM

The Illinois Women's Golf Club is for women only. It seems, judging by this letter about the club from one of the fair members, that women really want to play golf alone. She writes: "Women are sick and tired of having to share golf clubs with rude men, men with fat stomachs and dirty cigars, dir'er language, boasting, conceit, overbearing attitude on the course. When they drive right into women who are playing and treat us like lepers. They cannot hit decent shots or act decently. Half the time they are drunk while playing and debauch the little ladies with their stories and actions. It is to get away from all that kind of thing that the Chicago women are having their own club."

'S FUNNY!

Funny thing, this outburst! In many years of hating around the country alone, giving myself perfectly splendid chances to be indulged by males, I've never succeeded. If there's one conviction I've reaped from my job it's the certainty that women get exactly the kind of treatment that they want from men.

Maturity's Story

When he reaches maturity the boy is told by his actions, or largely that of his parents, or those who have been in charge of him during the first five years of his life. We are likely to lay short-comings at heredity's door. It makes a good ally. Heredity influence has never yet been accurately measured by mental experts. Some contend that it affects very strongly the child's moral and mental behavior, others that it is almost negligible. But all concede that early training and environment are prime factors in character building.

American Girl Turns Caballero

What should a girl do when, after traveling several thousand miles to visit her grandfather, she finds that he has always considered her to be a boy and that the visit of a granddaughter at that particular time would be little short of a disaster? That is the problem that confronts Hebe Daniels in her latest Paramount comedy-drama, "Senorita," which comes to the Palace Theatre today.

Supporting Miss Daniels in "Senorita" are James Hall, Paramount's new leading man who in this production makes his third appearance opposite the star; William Powell, Joan Standing, Josef Swickard, Gayne Whitman and Raoul Paoli, celebrated Italian leading man and all around European athlete, holding the continental championship for the shot put.

Preparatory to leaving for the Northern furniture markets, our buyer has laid out a definite policy for the next eight days and that is SELL, SELL, SELL—clear our display floors of as much of this fine furniture as possible.

In order to do this, it means that our prices must be cut to bed-rock and that is exactly what we have done. Not a piece of furniture on the floor or in the warehouse has escaped the price-cutting knife that has been employed—not a piece of furniture, but what you can buy now at a price that borders on the ridiculous, considering the high quality of the furniture on sale.

It is the greatest sale in the furniture history of the South Plains, and the savings are so sensational as to make it extremely profitable for home-furnishers for miles around, to come to Rix's during this 8-day Pre-Market Clearance.

We have re-arranged our stock so that every Bed Room, Dining Room, Breakfast Room and Living Room Suite on our first floor will be sold at HALF PRICE. Think of being able to make a selection from the enormous assortment we are showing at a 50 per cent REDUCTION.

# GEHRIG SWATS THREE HOMERS FOR YANKEES

## ATHLETICS TAKE LAST SENATOR CONTEST

(By Associated Press)  
BOSTON, June 23.—Lou Gehrig led three home runs today as the Yankees defeated the Red Sox 11 to 2 and won their ninth straight inning the entire five game series against Boston. Gehrig now has 21 homers, three less than the first homer for Gehrig came the second inning with Ruth on base and cleared the left center field line. Lundgren then was pitching a first man up in the sixth and eighth innings, Gehrig drove MacFadyen's delivery into the center field bleachers.

## Dempsey-Sharkey Bout Signed For

NEW YORK, June 23.—(AP)—Formalities for Jack Dempsey's 15 round comeback battle with Jack Sharkey July 21 were completed today with the signing of both men to contracts before a battery of cameras at Madison Square Garden.  
The former champion will receive 27-1-2 percent of the gate receipts. Tex Rickard believes will run over \$1,000,000. He was guaranteed a lump sum of about \$250,000, the highest ever given a principal in a non-championship bout. Sharkey's end was set at 22-1-2 percent of the "gate." Both posted \$2,500 appearance forfeits.  
Dempsey left tonight for his training quarters at Tom Luther's camp, Saratoga, N. Y., to start work Monday on a staff of six husky sparring partners.  
After a week's fishing trip to Spencer, Maine, Sharkey will set up training quarters on the roof of Madison Square Garden here, starting July 5, he will work only two weeks against three partners, believing that the grind of the winter season has left him tuned to first class fighting trim.

## Wholesalers Beat Auto-Barbers With Score Of 8 To 2

In a rugged exhibition at the Merrill Park yesterday afternoon Wholesalers defeated the Auto-Barbers with a score of 8 to 2. Dillard, shaver-mechanic pitcher, was touched for only four bingles during the contest but was backed with very poor fielding. Taylor, age moundman of the highly touted loop leaders, allowed five bingles to the shavers and allowed them to chalk up only two runs.

## Four Contestants Remain In Tourney For Western Title

BROADMOOR, Colo., June 23.—(AP)—James Ward of Kansas City, Jimmy Manion of St. Louis, John Goodman of Tulsa, remained in the battle for the Trans-Mississippi golf championship following victories today in the 36 hole third round matches of the tournament.  
Manion, St. Louis city champion, is paired with John Goodman in the first semi-final tomorrow, and Ward and Kennedy will engage in the other match to determine the finalists.  
Manion won his way to the semifinals today by defeating Dr. L. D. Bromfield of Denver in a sensational 28 hole match, and Goodman disposed of Baxter Omohundro of Denver, Ward, who eliminated Ed-ward Heid of St. Louis, the present champion, yesterday, defeated Howard Cret of Pueblo today to get into the semi-finals.  
Manion was two up at the end of the first 18 holes. He retained this margin during most of the second 18 holes. A birdie three on the 34th hole gave Manion the match.  
The Kennedy-Morris match was the feature of the day by virtue of the two extra holes which were required to determine the winner. Morris was one up at the 35th hole, but lost the home hole to Kennedy, who had a par four to Morris' five.

## Hubbers Prepare For Lobo Outfit

The Lubbock and Lemus nine are getting ready for the exhibition of the Sunday affair. The Lobos and Hubbers stand with a 50-50 standing in games won and lost thus far. Both Manager Saunders of the Hubbers, and White, of the Lobos, will whip their clubs into frenzy work-outs during the next two days in preparation for the game here Sunday afternoon at the Merrill Park beginning at four o'clock.  
Many of the Lobo followers are expected to be present Sunday afternoon to help their "lads" carry on the battle against "Woman" Saunders' crew of hustling lads. The Hubber fans of both Lubbock and the South Plains are awaiting the hour of the game and will be anxious for the umpire to toss out the first ball.

## CARDINALS HIT TO WIN FROM CINCY REDS

### GIANTS DOUBLE ON BRAVES

NEW YORK, June 23.—(AP)—The Giants captured both ends of a twin session with the Braves today by 6 to 2 and 9 to 6. The two pitchers recently traded by New York to Boston, Hugh McQuillan and Kent Greenfield, were roughly treated. McQuillan retired after four innings of the first game during which the Giants scored all their runs.  
Greenfield was sent to R. Smith's relief in the eighth inning of the second game with Boston a run ahead and a man on first. Runover, the first man to face him, hit a home run, putting New York in front. Score:

## PEDDLERS HERE TO SELL OUT LOCALS

Word from the camps of both the Peddlers nine and the Business men's nine will clash at the Tech park Saturday afternoon, indicating that both teams are in good condition and will be out for a fast game Saturday.  
Howard Pearson, manager of the "Order Takers" remained silent until late Thursday when he came out with a brief statement regarding a few of his players.  
**Strong Peddlers Team**  
Indications point to an extra strong Peddlers' team this year, judging from the players on the list given out by Skipper Pearson, while it is expected that a number of dark horses were not revealed and a number of crack ball players will come in from all over the territory Saturday to get in the lineup. William G. Adkison, Big Bill Lyle, and Revo McLary will do mound duty. H. R. Davis, Jr., and Earl "Dinky" Moore, and others will range in the outer gardens.  
It is to be strictly a Peddlers' game. Pearson stated, and only Peddlers will be put in the contest. A number of ex-leaguers have been trying to get into the game but only salesmen will be used.  
**Peddlers Practice Today**  
All the Peddlers are expected to grab a mitt and be at the Tech grounds Friday, this afternoon, at six o'clock. Manager Pearson stated yesterday. Some talk has been heard of the organization of a local Peddlers team to play each weekend. It is expected that this question will be taken up by local salesmen and passed upon, during this Jubilee.  
While the Peddlers are looking to victory, optimism still reigns in the Business Men's camp. Manager V. V. Clark announced late Thursday his entire team with a few exceptions is in excellent condition and ready for the oncoming fray. Daily practices behind locked gates have been held for several days, and the old stars are getting back in trim.  
**Practices On Baby**  
E. Y. Freehand, speed ball artist, is reported to have been practicing by tossing young E. Y. Jr. up and down day and night. This exercise has the hurling arm in excellent condition.  
"It is with considerable regret that I announce that J. W. Gamel and E. Sherriff will likely be out of the game entirely," skipper Clark stated last night. A minor complication will likely keep Gamel out of the game and Sherriff was called out of the city on business. Two of the top batters of the

LOCKNEY ENJOYING BUILDING PROGRAM

MOST CONSTRUCTION WORK IN HISTORY OF CITY IS BEING DONE

(Special To The Avalanche) LOCKNEY, June 23.—More construction work is now going on in the city of Lockney than in any other time in its history.

The building program is not taking the form of a boom but is an increase in the steady development and growth of the section, brought on by the big resources of raw materials available.

One of the major factors in this period of growth and development is the extension of the Fort Worth and Denver South Plains railway into this agricultural area. Along with this railway, the Lockney section benefits much by the building of the Quamby, Acme and Pacific into the county connecting with the Santa Fe at Floydada, giving this section three distinct rail systems and six different rail outlets.

Attracted by advantages in Lockney, one of the most modern cotton mills in the state is being erected. This mill will also turn out mixed feeds for feeding dairy and beef cattle, hogs, chickens, and sheep.

The Texas Compress and Warehouse Company are now constructing a superintendent's residence in Lockney, preparatory to the building of their cotton compress at this point.

To Have Gas Lockney will have natural gas from the Amarillo fields when the Pacific Oil and Gas Company finish their lines that they are now at work on.

The city of Lockney is making \$27,000 worth of water extensions into the industrial area, including water and fire protection for that portion of the city.

ESCAPE FOILED

trated in an attempt to escape Wednesday night. They had cut three holes in the hospital building when T. L. Schramm, assistant warden, upon receiving notice and threw them into their cells.

Car Escapes In the meantime a big touring car bearing a Missouri license and occupied by two or three men drove rapidly away from the shadows of the prison walls where it had been parked. The driver eluded the guards and escaped.

Schramm said that he knew of the plot and permitted the convicts to saw the bars in the hope that he would be able to arrest the outside conspirators. It was believed that the prisoners were helped in their efforts to escape one of these gave a signal warning those outside in the automobile.

The three convicts in the plot are named Charlie Fraser, 25 year term for robbery by five arms, sent up from Marion, Mo.; C. W. Burk, five years for forgery, from El Paso, and C. A. Tunstony, life term for municipal from Tarrant. Fraser escaped last year from the Ferguson farm when Will Redner, a guard was killed.

MAYBE SHE WILL LOCKHART, June 23. (4)—Mrs. C. E. Ellis, the oldest person in Caldwell county who has just celebrated her ninety-seventh birthday, believes she will live to be 100 years old. In accordance with a custom in the Presbyterian Sunday school here, she gave a penny for each year of her age and added three more with the hope that she was paying three years in advance.

ROBBERY

(Continued from Page 1)

After my graduation I came to Oregon and joined my brothers. "After we quit working in the logging camp at Silverton, we went to Portland and bought the automobile, as the state's evidence showed.

"It was not our first idea to hold up a train. We figured on a bank along the Pacific highway. We cruised along the highway, but we could not find a bank that we had an even chance to rob and get away.

"We did not consider murder. "Decided On Holdup "When this part of our planning went wrong, we decided to hold up a train and drove to the Siskiyou. We picked the Shasta Limited. For three days and nights, we studied train movements through the tunnel. The only train we had a chance with was Thirteen and we laid our plans accordingly.

"When we got our plans connected up, I drove the car back to Eugene to my father's, where the officers found it.

"A day or two before the job was pulled we moved to Mount Crest cabin from Camp. We carried the tools and fixed the foot pads and cross-ties."

"Afrald To Quit "The night before we got all ready," continued Hugh, "all of us were undecided, but each was afraid to back out, because he figured the others would say he had sold feet. I know I didn't want to go through with it, and the twins felt the same way about it.

"About noon, Roy and I went to the north end of the tunnel and waited for thirteen. The state thought it was Roy and me who were in the yard, but it was Roy, Ray was at the detonator.

"When the train came along, we ran for the blind baggage. I got on, but Roy dropped his gun. He nearly missed the train. I held out my hand and helped him on.

"Crawled On Train "Together we crawled over the tender and down into the cabin. I told the engineer to stop and he did where I wanted him to.

"I then marched the engineer and fireman up to the detonator. That was not told in my trial. While we were there Ray pressed the pump, and we could hear the explosion. It was sort of muffled.

"Then all of us, the fireman and engineer in the lead, hurried back to the train. Nothing was said.

"When we got back to the engine, the tunnel was full of smoke, and it was hot in there. Steam and smoke and gas—I am ahead of my story.

"As soon as the engine stopped, we made ready to blow open the mail-car. Before, this the mail clerk took his head out of the door. Ray told him to come out. Instead, he slammed the door and backed it. Then I told him to come out—that we were going to blast the car.

"We were giving him a chance.

PROGRESSIVE CLUB Does Much Work

HEREFORD, June 23.—A caponizing demonstration was conducted by County Agent H. O. Dunkle in the Progressive Club last Wednesday and those in attendance were highly interested in this phase of the poultry industry, as it presents an excellent method of marketing the chickens at a good market price.

At the business session, Mrs. Ira Ricketts was elected president of the Progressive Community Canning club; Mrs. J. David Thompson was selected as vice-president, and Miss Olive Perkins was named secretary of the organization.

Reports on the work of the past year showed that the club had been active, as more than four thousand quarts of fruits, vegetables, and meats were canned by the ten members. Plans are being made to do much more work during the coming season.

Officers for the boys and girls club of the Progressive community are: Irvin Reeves, president and Mary Ella Hershey, secretary. A number of the boys and girls have entered the contests for the free trips offered to the A. and M. college short course, by Hereford business men.

Deaf Smith Peach Crop Coming In

HEREFORD, June 23.—Deaf Smith county's first ripe peaches have just come to town for the 1927 season. J. E. Ward, living one mile south has the peach orchard and has already treated a number of friends, and is selling them rapidly. The Wards have plums, grapes, gooseberries, and many other varieties of fruits in their orchard, and all the trees and vines are loaded. Mr. Ward has not missed a peach crop since his trees started producing some five years ago. He will sell grapes from 400 vines this season.

As the slim, blonde youngster stepped from his plane, he was greeted by assistant secretaries Davison, Warner and MacCracken, officers of the war, navy and commerce departments, and Major Powell, commandant of Bolling field.

FLOOD IS CONTROLLED

Valley Regions Prepare For The Great Confidence That Dike Will Hold River EDINBURG, Texas, June 23. (4)—Crest of the flood of the Rio Grande will probably be reached at the Hidalgo-Rayona bridge by Friday. It is the belief of river men acquainted with the habits of the international stream. The reported 20 foot rise from the San Juan river in Mexico was felt along the border Thursday as the stream showed a total rise of 20 feet in the last two days and Thursday afternoon the indicator showed a gain of a few inches each hour.

Further precautions were taken by workmen in Hidalgo county in closing the few remaining passes in the huge flood control dykes. Unless the rise passes any previous high water marks there will be no danger, engineers say.

Muskogee Notified

MUSKOGEE, Okla., June 23. (4)—Matthew Kimes, "notorious" Oklahoma outlaw, has been arrested in Arizona and is now in jail at Flagstaff, Chief of Police Clark Compton announced here.

The announcement was made on the basis of a telegram received by Chief Compton from M. R. Tilletson park superintendent at Grand Canyon, Ariz., who stated it was Kimes and two companions who are as yet unidentified, were arrested today by rangers and placed in the Flagstaff county jail by Sheriff J. O. Parsons there.

The arrest was made on information furnished by Chief Compton.

Under Life Sentence Kimes is under life sentence for murder in connection with the killing of Perry Chumblee, a deputy sheriff, who was pursuing Kimes after the robbery of two banks at Covington, Okla., Oklahoma officials have connected his name with dozens of daring robberies which have held Oklahoma bankers in terror.

His brother George was convicted in connection with the slaying of Chumblee and was sentenced to prison for 25 years.

was captured. He was returned to the chief ranger's office. When carrying a photograph of Matthew Kimes, he said "that's me, all right."

Mr. and Mrs. Kady when questioned about their connection with Kimes, said they had picked "Watkins" up on the highway near Dodge City, Kansas, that they did not know he was Kimes, nor did they know he was heavily armed. They insisted their names were Mr. and Mrs. Kady. The three were handcuffed together and put aboard the south-bound eight o'clock train from Grand Canyon in the custody of officers for Flagstaff, Arizona.

"I never will forget him. He staggered toward us, and said: 'Wait a minute, he could and fixed the foot pads and cross-ties.'"

"He was all stopped over, holding his stomach. I don't know how he ever stood up with so much buck-shot in him. He staggered out of the tunnel and fell down against the side of the tunnel. We did not shoot him in the back, as the doctor said."

"I had the automatic pistol. The bullet, with him staggering, went up through the shoulder, and not down, as the state claimed. He never forgot the look on his face. It has been hell. He dropped down on the ground and died."

Engineer Kidded Him "We were all excited now. I rode the engine get back in the cab, while Ray tried to uncouple the mail car, so we could haul it out. The engineer tried to 'kidd' me. I told him to go ahead when Ray gave the signal, but the engineer told me he couldn't.

"You know they testified that the engine was hot at a full stop. That's what he was doing when he told me he could not go ahead."

"I told him it was my life, or his. He fooled around and still we didn't go ahead.

"I was mad; I was mad; I was mad."

Lindbergh dropped down upon Washington today and held a long conference with federal aviation officials and the backers of his trans-Atlantic flight as his first phase in the future picture of commercial air development.

The conference was held during a cruise down the Potomac river on the Sylph, private yacht of Secretary Wilbur. The famous flyer began taken out of the city as the discussion could be held far from the presence of the crowds and newspaper correspondents.

Flying an army Curtiss P-1 plane, he arrived here from Dayton, Ohio, at 11:30 a. m. leading similar planes piloted by Major Thomas G. Lampher, commander of Selfridge field, Mich., and Lieutenant St. Clair Street.

As the slim, blonde youngster stepped from his plane, he was greeted by assistant secretaries Davison, Warner and MacCracken, officers of the war, navy and commerce departments, and Major Powell, commandant of Bolling field.

FLOOD IS CONTROLLED

Valley Regions Prepare For The Great Confidence That Dike Will Hold River EDINBURG, Texas, June 23. (4)—Crest of the flood of the Rio Grande will probably be reached at the Hidalgo-Rayona bridge by Friday. It is the belief of river men acquainted with the habits of the international stream. The reported 20 foot rise from the San Juan river in Mexico was felt along the border Thursday as the stream showed a total rise of 20 feet in the last two days and Thursday afternoon the indicator showed a gain of a few inches each hour.

Further precautions were taken by workmen in Hidalgo county in closing the few remaining passes in the huge flood control dykes. Unless the rise passes any previous high water marks there will be no danger, engineers say.

Hard Luck

YOAKUM, June 23. (4)—Chief of Police Merrill was chasing a negro who carried a suspicious looking bundle. The negro hurried the package under a house. When taken by the chief the negro bore a pistol bullet wound in the thigh. The package contained a revolver and in throwing it under the house it was discharged, wounding the negro.

AN AGREEMENT

CEBERNE, June 23. (4)—A convict brought to the state penitentiary with 11 others was in a critical condition. A fellow convict asked him if he died would he will him his shoes. The sick man agreed.

Recalls Tragedy

Hugh binned his words and seemed to live over again the tragedy in the darkened tunnel and was apparently losing his composure.

His interviewer told him nothing was to be gained now by silence, that life imprisonment had been ordained for his fate.

"Well, if you add the world must know, I told the engineer, Sidney Bates, I'm sorry. Everybody tells his temper get the best of him.

"Then, Roy shot the fireman. He was the last.

Muskogee Notified

MUSKOGEE, Okla., June 23. (4)—Matthew Kimes, "notorious" Oklahoma outlaw, has been arrested in Arizona and is now in jail at Flagstaff, Chief of Police Clark Compton announced here.

The announcement was made on the basis of a telegram received by Chief Compton from M. R. Tilletson park superintendent at Grand Canyon, Ariz., who stated it was Kimes and two companions who are as yet unidentified, were arrested today by rangers and placed in the Flagstaff county jail by Sheriff J. O. Parsons there.

The arrest was made on information furnished by Chief Compton.

Under Life Sentence Kimes is under life sentence for murder in connection with the killing of Perry Chumblee, a deputy sheriff, who was pursuing Kimes after the robbery of two banks at Covington, Okla., Oklahoma officials have connected his name with dozens of daring robberies which have held Oklahoma bankers in terror.

His brother George was convicted in connection with the slaying of Chumblee and was sentenced to prison for 25 years.

Progressive Club Does Much Work

HEREFORD, June 23.—A caponizing demonstration was conducted by County Agent H. O. Dunkle in the Progressive Club last Wednesday and those in attendance were highly interested in this phase of the poultry industry, as it presents an excellent method of marketing the chickens at a good market price.

At the business session, Mrs. Ira Ricketts was elected president of the Progressive Community Canning club; Mrs. J. David Thompson was selected as vice-president, and Miss Olive Perkins was named secretary of the organization.

Reports on the work of the past year showed that the club had been active, as more than four thousand quarts of fruits, vegetables, and meats were canned by the ten members. Plans are being made to do much more work during the coming season.

Officers for the boys and girls club of the Progressive community are: Irvin Reeves, president and Mary Ella Hershey, secretary. A number of the boys and girls have entered the contests for the free trips offered to the A. and M. college short course, by Hereford business men.

Deaf Smith Peach Crop Coming In

HEREFORD, June 23.—Deaf Smith county's first ripe peaches have just come to town for the 1927 season. J. E. Ward, living one mile south has the peach orchard and has already treated a number of friends, and is selling them rapidly. The Wards have plums, grapes, gooseberries, and many other varieties of fruits in their orchard, and all the trees and vines are loaded. Mr. Ward has not missed a peach crop since his trees started producing some five years ago. He will sell grapes from 400 vines this season.

DAILY MARKETS

COTTON DECLINES

NEW YORK, June 23 (AP)—A more favorable view of the weather outlook seemed responsible for a decline in the cotton market today. Cotton covering or trade buying steadily advanced the 17 cent level for October contracts. October sold off to 16.92 and closed at 16.95. The official market closing steady at net declines of 9 to 32 points.

CATTLE SLOW

PORT WORTH, June 23 (AP)—Slowly characterized the cattle market here today. The stock fell from 10 cents to 15 cents. Other divisions of the market were generally steady. Hogs and sheep were about steady.

COTTON GOODS STEADY

NEW YORK, June 23 (AP)—Cotton goods were steady and quiet today. Yarn markets held steady, spinners asking higher prices for low numbers. At a meeting of leading men in the wool goods industry, plans were discussed to improve the status of the industry as a whole, for better cost accounting and more intricate work done. Raw silk was steady here. Hurler markets were slightly easier and more business was shipping done in small lots for July shipment.

WHEAT GETS SETBACK

CHICAGO, June 23 (AP)—Faced by indications that the new crop movement south will be heavy by the first of next week, wheat prices today underwent a sharp setback. Closing quotations on what were weak, 21.8 cent to 21.2 cent net lower, with corn 11.2 cent to 11.7 cent, and provisions showing 10 cents to 17 cents decline.

COTTON LOWER

NEW ORLEANS, June 23 (AP)—Continued liquidation of the July delivery in advance of Saturday, the first notice day for that month here, and a rather favorable interpretation of the weather news caused a downward trend in today's cotton market. October traded from 15.90 to 16.85 and closed at 16.85. 13 points down. The general market closed steady at net losses for the day of 12 to 13 points.

SUGAR FIRMER

NEW YORK, June 23 (AP)—With more active demand, raw sugar was firmer today. Prices showed fractional gains, closing at 4.41 for Cuban 1112 and 4.42 for other grades. Included 120,000 bags of Cuban for July shipment, 24,000 bags of Puerto Rican in nearby positions here yesterday, at 4.58, while today 10,000 bags of Puerto Rican, nearby, sold at 4.58 and 5,000 bags of Cuban for July shipment, at 4.51.

### HEREFORD FARMER MAKES HOGS PAY

WELL \$1700 WORTH LAST YEAR AND RAISES OWN SUPPLY OF MEAT

HEREFORD, June 23.—J. F. Ward, living just south of Hereford is demonstrating the fact that diversified farming, with the cow, sow and hen, will pay good returns for the farmer, who will run his farm as a business. While some people use chickens and hogs just to clean up the waste about the place, Mr. Ward places them at the head of his list when he is talking of cash crops, and he keeps books on his plant to prove that these are at the top in the paying of dividends.

Mr. Ward has 165 acres, and raises wheat, barley, oats, and various grain sorghums. He markets none of these except wheat, and even uses this for pasture a lot of the time. All the grains raised are marketed through hogs, chickens and dairy cows.

**Sold \$1700 Worth Hogs**  
Last year \$1700 worth of hogs were marketed from the Ward farm. He has seven brood sows, high grade Poland Chinas, and six of these sows have already farrowed seventy pigs, or two less than an average of twelve per litter.

Three hundred fifty White Leghorns are being profitable as layers, and Mr. Ward has 700 younger ones coming on. His chickens average \$15 per month for the year, besides furnishing eggs and much meat for table use.

Only two cows are being milked right now, but he has about a dozen to come fresh later on. His dairy cows net him better than \$800 per year, from the sale of butter and cream, and he has lots of skimmed milk for hogs and chickens.

#### Raises Own Food

"Our groceries will not average more than \$120 per year, over the last five year period," Mrs. Ward said, and her books show that a number of months the bills were not more than \$4.00 per month. She has enough canned fruit in her cellar to supply the family more than a year, without canning any more. Ripe peaches and cherries are to be found in the orchard right now, and plums, other fruit trees are loaded, and over four hundred grape vines will furnish grapes galore. Mr. Ward always finds a ready market for his surplus fruit in Hereford at a good price, and usually sells \$200 to \$300 worth of nursery stock each year. A big garden will furnish fresh vegetables for the table during the summer and fall. "We still have a number of cured hams, and other meat, and enough lard to do us," Mrs. Ward said.

Mr. Ward is classed as one of Deaf Smith county's best farmers, and in entering the master farmers contest, which is being conducted by the Progressive Farmer, and those who have visited his farm are of the opinion that he will make some others work for honors. The Wards are practicing the system of farming that is being fostered for all of West Texas, and he is actually proving that the plan is a profitable one.

### New Advertising Record Is Made

Breaking all records for advertising space with a total of 703 inches in one day placed in the Avalanche-Journal, C. H. Grollman may have established a new mark for this part of West Texas west of Fort Worth and Wichita Falls and south of the Oklahoma border.

Mr. Grollman, in announcing a mid-summer clearance sale for his department store, purchased a four page section in the Morning Avalanche and added 36 column inches in another section of the paper. Four full pages were also purchased for the Daily Journal, making Mr. Grollman's total for the day slightly over eight pages.

In addition to this, Grollman's space in the Evening Journal, in announcing their mid-summer sale have two full pages aggregating 226 column inches in this morning's Avalanche, and two pages in yesterday's Journal, which makes a total of six full page advertising spots in a week-day paper, a record for the South Plains.

### Negro Is Freed Of Coat Theft Charge

Charges of theft in connection with the taking of a leather coat, valued at \$27.50, belonging to T. J. Minned, filed against Willie Bee negro, were dropped when the coat was located by police. Bee was relieved of suspicion of theft when the coat was found securely wrapped in the Goodyear Tire shop, where he had no automobile. Miller explains that he had turned the coat over to Bee for cleaning and the coat was placed in the car. Police say the coat was found while the negro was washing the automobile and when the coat was returned Bee forgot the whereabouts of it. Inspection revealed that the package was not unwrapped.

### Cowpuncher Star Shows New Stunts

Proof that real ambition has no limit and that even a master can always learn something new, is said to be furnished by Ken Maynard in "Somewhere South in Sonora," coming today to the Lindsey Theatre here. In his past productions made by Charles R. Rogers, who also produced Maynard's current starring vehicle, the First National cowboy displayed his ability to do any riding or roping trick previously accomplished.

He was not content to repeat most of these stunts with new angles in "Somewhere in Sonora," but learned new ones with which to astonish audiences throughout the country. Considering that Ken Maynard was star rider and roper of the Barnum-Bailey-Ringling Brothers Circus for seven years, it is difficult to imagine how there could be any new trick for him to learn.

#### DILLON IS ACCUSED OF SETTING STORE AFIRE

R. F. Dillon, charged with burning the Corner Drug Store, 12th and Avenue H, was brought to this city from Boger yesterday by Deputy Sheriff Vernice Ford. The store was damaged by fire several months ago and the complaint for Mr. Dillon's arrest was filed Tuesday.

### May Form Aviators' Club In Lubbock

Organization of all ex-aviators of the city and county into a club to promote aviation in Lubbock and this part of the state, is suggested by local veterans.

Professor A. H. Waite, of Texas Tech, Joe Hilton, owner of the Hilltop company, H. H. Griffith, employee of the Rex Furniture company, E. F. H. Oxford, land man for the Sinclair Oil and Gas company and James Cole of the Oakland Sales company form the nucleus around which the club might be formed.

Mr. Oxford, who made the suggestion as to organization of local veterans, states that he feels sure there are many others in the county who would want to join and who have had flying experience, if the club is started.

#### A NEW METHOD

GALVESTON, June 23. (AP)—That there are more ways to kill a goose besides choking him to death is all so true of dogs, Galveston people have learned. A small coupe was found parked downtown and tied by its top to the rear bumper was a dog. It had been dead several hours, police said.

### Spits On Sidewalk And Draws A Fine

Brushing the cobwebs from the ordinance, which is also a state law, J. T. Inmon, city desk sergeant, arrested a negro man yesterday for spitting on the sidewalk and placed a fine of \$5 upon the violation. The negro paid off. A large pool of tobacco amber marked the place where the negro had "expectorated," Mr. Inmon said.

Only in a few instances, and those being several years ago, have fines been imposed for the violation, officers said yesterday.

All of which goes to prove the well-known parable which has hung in every public place for the past decade, "35 fine for spitting on the sidewalk," has some force after all.

#### MAY ORGANIZE Y. M. C. A. ON THE TECH CAMPUS

Claud B. Nelson, of Dallas, state secretary of the Y. M. C. A., has spent the past several days in Lubbock interviewing business men with the possibility of organizing a Y. M. C. A. on the Tech campus and installing a full-time paid secretary. Aiding Mr. Nelson, who is a graduate of Hendricks College, Arkansas, former Rhodes scholar and overseas Y. worker, is Dr. W. T. Road, head of the department of Chemistry at the college.

### Robertson Growing Pure Red Maize

HEREFORD, June 23.—The demand has been so great for pure red maize, kafir and cane seeds, that Uncle Jesse Robertson will specialize in the production of these varieties of grain sorghums during the next year, and these will be his major crops on his pure seed farm just west of Hereford. He will give up white maize, chitex and other varieties, and will devote all of his efforts towards the production of pure seed from the three above varieties.

Last season Uncle Jesse received orders for pure seed from a large number of counties in Texas and from several of the neighboring states. He won a number of blue ribbons at both the Deaf Smith county fair, and the Tri-State Exposition at Amarillo last fall with his products, and will probably enter the shows again this fall.

#### FUSS IS DECIDED

TAYLOR, June 23. (AP)—Using the original record of 1859 as a basis for settlement district court has ruled that the town McNeil belongs to Williamson county. For seven years this village of 250 souls has been the subject of controversy between Williamson and Travis.

### District Agent Visits Hereford

HEREFORD, June 23.—John H. Edmonds, district agricultural agent, spent Tuesday in Hereford, and he seemed to be highly pleased with the progress that is being made here with club projects, and the support that the work is receiving from local business men. He and County Agent R. O. Dunkle visited a number of projects in the county.

Local business men are offering eight free trips to the A. & M. College Short Course in July, one trip to be given to the outstanding club member in each community. They are also offering six free trips to the State Fair at Dallas for the ones who make the best records and exhibits at the Deaf Smith county fair.

Mr. Edmonds was also interested in the small unit plan of irrigation which is being fostered for the Hereford shallow water district. "It must be done by intensive farming, if the best returns are to be received," he said. Truck farming and the raising of alfalfa offer fine opportunities for the development in this district, Mr. Edmonds believes, if the small unit plan is properly developed.

TROUP, June 23. (AP)—A pullet but three months old has begun laying. J. L. Thompson, owner of the White Lehorn, believes this sets a record.

#### COSTLY CABIN

NACOGDOCHES, June 23. (AP)—A log cabin costing \$10,000 is being erected here for Mr. and Mrs. W. D. Ambrose. Mrs. Ambrose, who is known as the "Nightingale of East Texas," likes things different. The home built entirely out of pine logs will be modern in every other respect.

#### FINED FOR CHARITY

HOUSTON, June 23. (AP)—An aged carpenter arrested here and charged with stealing two window washes told the judge that he stole them for charity. He said he gave them to a "poor widow woman" who was building a home. He got \$10 fine "for charity."

### Flood Worse Than Mississippi's Threatens Imperial Valley

Above are two views of the "first" defenses in the Imperial Valley against the Colorado river. At the left a train is shown crossing a bridge over the Andrus levee; at the right a rock train is shown winding across the desert to a threatened point. The map shows the location of the upper point, with levees, canal and river indicated. The Imperial Valley lies near El Centro, in the upper right hand corner of the map.

(By NEX Service)  
EL CENTRO, Calif., June 23—A more disastrous in its possibilities than the Mississippi's is threatening to sweep down on the Imperial Valley and inundate 1,000,000 acres of the richest soil on earth.

The Colorado river, fed by melt-water from the Rockies, is rising rapidly. Shows the region its source were 35 per cent higher last winter than ordinarily. Usually the Colorado threatens the valley; this year its threat is menacing than ever before.

Below Sea Level  
For the Imperial Valley is below sea level. When the Mississippi goes a rampage its flood waters actually recede. If the Colorado takes the Lower California levees it floods the Imperial Valley, its waters will have no outlet. They will remain for many years—perhaps for a century—until evaporation removes them.

M. J. Dowd, capable young engineer, is the "general" in charge here. When danger threatens any part of the levee he has cars loaded with rocks and sent to the danger spot. In 1926, when the flood was not as menacing as it is this year, 74 trains of 40 cars each were used to repel the rising waters. This year it will be worse.

There are two other lines behind the main one. In case of emergency the main and Chinese levees in the vicinity will be pressed into service. So far the lines have held. But the Colorado is still rising.

**If you use washing machine**  
Whether or not you use a washing machine, Clorox, the modern bleach, gives increased efficiency on wash day. Follow your regular method; mix Clorox in the hot rinsing water before putting in white cotton and linen clothes. You will be delighted with their spotlessness. See label for correct proportions.

ing, steadily and relentlessly. \$70,000,000 worth of crops.

**Once a Desert**  
The Imperial Valley presents a peculiar problem. Originally it was an arid desert, 60 miles from water. The great Alamo canal was dug to bring water from the Colorado for irrigation. At once the Imperial Valley became rich. Without rain and without fertilizer its farmers harvest three crops a year. The value of their land is estimated at \$200,000,000. Annually they sell

But the Colorado in its course to the gulf falls only 65 feet. The Imperial Valley is between 10 and 300 feet below river level. Consequently, the natural heat of the river is to fill the valley. Salton Sea, a great brackish pool covering 250,000 acres, is a menace of one outbreak. It is entirely possible, indeed, if the levees break it is absolutely certain—that all of the valley will become a second Salton

Sea, to remain so for years.  
To add to the problem, the Colorado is steadily raising its bed. Each year it carries down enough silt to equal the entire amount of dirt removed in digging the Panama canal. Its bed is rising 10 inches a year. Sooner or later, under the present system levees will be of no avail and the Imperial Valley will be flooded.

The remedy? There is only one sure one. It consists in the building of the proposed Boulder Dam, which would impound the swollen waters, provide a steady course for the river and, incidentally, furnish much cheap electric power, and provide for an "All-American" irrigation canal to replace the present one, which begins in Mexico.

**Oppose Protection**  
Thousands of Mexican tenant farmers below the border are benefitting by the present situation. They get free water, and the levees are cared for by the Imperial Valley men. There, indeed, lies one source of opposition to the Boulder Dam project. Most of these Mexican farm land is owned by the Colorado River and Land Co., the largest stockholder in which is Harry Chandler of the Los Angeles Times. This land company, obviously, is benefiting by the present situation. It would lose heavily if a new canal were dug and the valley were given sure flood protection.

Joined in opposition are certain electric power companies, which fear the creation of cheap power sources so close to Los Angeles. Meanwhile, however, the Imperial Valley is faced by destruction. Boulder Dam, even if approved by Congress, cannot be built this summer. For the present there is nothing to do but strengthen the existing defenses—and wait.

There are \$500,000,000 worth of crops out of tune in this country. It was revealed at a Chicago music trades convention. These optimistic gentlemen are always making us revise our figures.

The Wigwag is suggested as a name for Chicago's proposed \$15,000,000 auditorium. Are the scalpers running things in Chicago, too?

### GAP IN BANKHEAD IS TO BE PAVED

HIGHWAY TO BE COMPLETED TO FORT WORTH BY SEPTEMBER 15

(Special To The Avalanche)  
ABIENE, June 23.—By September 15, or at the latest, October 1, there will be a paved road all the way from Abilene to Fort Worth and Dallas. This is assured with letting of a contract by the State Highway Commission to the McClung Construction company for surfacing 5.8 miles on State Highway No. 1, east from Abilene to the Callahan county line.

Officials of that concern have announced they will have a force of men on the job within ten days and they will be able to complete their work by September 15 if no unavoidable delays occur.

**Paved All Way**  
This strip of road was the last on the Bankhead highway from Abilene to Fort Worth to be contracted for. All the rest of the road is now hard-surfaced or will be shortly. The McClung company is now on a short strip in Callahan county which will be finished in a few weeks.

Concrete is to be used on the Taylor road. The Bates type of construction will be employed. The concrete is to be nine inches thick at the outside edge and six inches in the center. The road will be eighteen feet wide.

Many young college graduates will go right out into the world and succeed in spite of what they've learned.

## MEN'S SUITS

AT SUBSTANTIAL PRICE REDUCTIONS

You'll be comfortable and well dressed in one of our Tropical weight Mid-Summer Suits.

When a man's well-dressed, life seems a bit jollier. Other folks notice it immediately. It's only natural to respect the chap whose appearance shows he respects himself. Work is easier... friends are more readily... the world frowns less and smiles more. And being well-dressed is not so expensive a matter—at these low prices—

## MEN'S SUITS \$19.75

Most of these suits were tailored by such well known concerns as Kuppenheimer, Society Brand and Kirschbaum. The trouser legs are slightly narrower than today's styles and the coats fit somewhat closer. This group will appeal to many men who look with disfavor on the wide leg trouser vogue. This lot of suits formerly sold from \$35.00 to \$50.00 and are real values at the low price of **\$19.75**

### BOYS' SUITS

With Two Pair Knickers **\$9.85** only

This group of suits ranges in size from 13 to 17. The materials are all wool and formerly sold from \$15.00 to \$25.00. This special price offers a substantial saving to the boy who prefers knicker suits.

OPPOSITION TO THE BOX BILL VOICED

WALTING OF MEXICAN WORK WOULD BE HARSH ON SOUTH, IS CLAIMED

SHERMAN, Tex., June 23 (AP)—Pronounced disapproval of the Box Bill immigration bill, which would limit immigration under the quota provisions of the National Immigration law, was voiced here today by E. H. Smith, executive vice president of the South Texas Chamber of Commerce, San Antonio, in an address before the annual convention of Texas Commercial Executives Association.

The convention, which began today with prospects for the largest attendance in the history of the organization's annual meetings will end Saturday about noon. The Box Bill, if enacted, will limit Mexican immigration to 1,557 Mexicans yearly whereas at present an average of 27,500 are now entering the United States, the majority of them to work in agricultural regions, Smith pointed out.

Wants Orderly Farming At the same time, Smith made a plea for orderly farming, which would keep farm labor occupied throughout the year and eliminate the seasonal fluctuations. Much of the unemployed situation in this country is traceable to the lack of year-round work, which is concerned with the annual harvest of approximately 600,000 people from rural to urban communities, according to Smith.

Canyon Officials Plan New Building

CANYON, June 23—Tentative plans are being considered by President J. A. Hill of the West Texas State Teachers college for the new \$300,000 education building, for which appropriation was made in the special session of the legislature. Work will begin upon the new structure about September first and the dedication of the new building is being planned for July Fourth, 1928.

Randall County Gets Good Rains

CANYON, June 23—Randall County has had three rains during the past ten days totaling two and a half inches. Part of this fell early this morning.

What harvest is being somewhat delayed by the rains, but farmers say that most of the wheat will not be hurt by standing two or three more days. Much of the wheat is so short that it can be harvested only with the combine. In this country wheat is making good progress, especially in regard to the movement of cotton, Gen. Dalton pointed out the fact that a large number of Shipping Board vessels

Luncheon Club At Big Spring Busy

BIG SPRING, June 23—The Big Spring Luncheon club, an active business men's organization, discussed the general conditions of Big Spring in their weekly luncheon meeting on June 22.

Mr. Hamberger, supervisor of the architectural work on the five-story hotel building stated that this hotel would be finished by schedule time, September 15.

Littlefield Gets Heavy Rainfall

LITTLEFIELD, June 23—Heavy rains fell all over this country early yesterday morning. Farmers are jubilant over prospects now. Cotton is all planted and generally up to good stands.

CORPUS CHRISTI TO HAVE U. S. VESSELS

ENOUGH SHIPS TO HANDLE ALL CARGO WILL BE ASSIGNED PORT

CORPUS CHRISTI, Tex., June 23—Corpus Christi will be assigned as many United States Shipping Board vessels as are necessary to handle any amount of cargo it might provide for European ports, according to a statement made by General A. C. Dalton, president of the Merchant Fleet Corporation to Roy Miller, active vice-president of the Intra-Coastal Canal Assn., who recently returned to Corpus Christi from Washington.

P. T. A. WORK TAUGHT IN CANYON TEACHERS' COLLEGE

CANYON, June 23—Mrs. Stephen P. Channess of Austin is conducting a school for P. T. A. workers at the West Texas State Teachers College this week. Members

Discovered—the famous four corners

Finding the particular four corners of the earth where the finest food-stuffs grow, is one of our achievements. For instance: In Smyrna, figs become plumper and juicier than anywhere else. So Smyrna figs are used in Brown's Fig Bars. They are crushed with honeyed sugar into the mellowest of jams—a jam that retains its luscious moistness long after most fig bars have become dry and unpalatable.
