ATOMIC TEST DANGERS CITED

UNITED NATIONS, N.Y. (AP)—A 15-nation U.N. scientific committee says even a slow, slight increase in world radioactivity from nuclear weapon tests and other sources endangers mankind's future health.

While approving a report to this effect, the committee nevertheless rejected by a big majority a Soviet demand that it call for an immediate end to nuclear test explosions.

The report was released yesterday by the United Nations Scientific Committee on the Effects of Atomic Radiation. More than two years of study went into preparation of the 228-page document.

The committee members unanimously agreed that even the smallest amounts of radiation are liable to cause harmful genetic and perhaps other effects such as cancer, leukemia and shortening of life.

They agreed too that "even a slow rise in the environmental radioactivity in the world, whether from weapon tests or any other sources, might eventually cause appreciable damage to large populations before it could be definitely identified as due to radiation."

Unanimous too was the conclusion that present attempts to evaluate radiation effects on man can produce only tentative estimates with wide margins of uncertainty.

The U.S. Atomic Energy Commission said the U.N. report "generally confirms the statements in the June 1956 report of the U.S. National Academy of Sciences with respect to the possible hazards" from radiation.

"It is important to note that insofar as leukemia and bone cancer are concerned, the committee has pointed out there is no certainty that fallout will produce any additional cases of either disease," the AEC statement said.

"As is the case with every technological advance," the AEC continued, "man must learn to live with new risks even as he accepts new benefits conferred upon him."

The majority of the committee took the view that the problem of controlling or curbing nuclear tests and other sources of radiation lies outside the group's scope.

The section of the report giving this view won approval by a 9-5 vote with one abstention. The breakdown was not given, but the United States voted with the majority.

The other nations in the study: Argentina, Australia, Belgium, Brazil, Canada, Czechoslovakia, United Arab Republic, France, India, Japan, Mexico, Sweden, the Soviet Union and Britain.

Greater SS Hike Is Urged

By JOHN CHADWICK

WASHINGTON (AP)—Sen. John F. Kennedy (D-Mass) urged today that old age benefits be increased 8 per cent instead of 7 per cent as provided in a House-passed Social Security bill.

In testimony prepared for the Senate Finance Committee, he also advocated an increase in lump-sum death payments and an amendment to provide aid for dependent children with unemployed fathers.

At the committee's first session on the bill Friday, Secretary of Welfare Arthur S. Flemming vigorously opposed a section that would increase grants to the states for public assistance programs by 288 million dollars in the first year.

Flemming said he would recommend a presidential veto if this provision of the House bill were retained. But the secretary endorsed the proposed 7 per cent increase in Social Security insurance benefits, to be financed by a higher payroll tax.

Kennedy contended an 8 per cent increase is necessary to cover higher living costs.

"While the difference may seem small on paper," he said, "it is a vital dollars-and-cents difference to our retired workers and their families."

Kennedy also urged removal of the present dollar ceiling on lump-sum death payments and a return to a provision, previously in the law, for payments equal to three times the monthly benefit to which an insured worker is entitled.

He said this would mean a maximum payment of $381 instead of the present ceiling of $255.

"The meager lump-sum payments now provided," Kennedy said, "will not take care of even a very modest funeral, to say nothing of helping to defray last illness expenses."

A third amendment proposed by Kennedy would permit federal grants to the states to aid needy children of a father who is unemployed. He said present law restricts such aid to cases arising from the death, disability or desertion of a parent.

In separate prepared testimony, a spokesman for insurance groups opposed the bill and asked for further congressional study of the need for increased Social Security benefits.

John H. Miller, vice president of Monarch Life Insurance Co., Springfield, Mass., said: "In the final analysis we are forced to conclude that the bill under consideration would liberalize the (Social Security) system when a need for such liberalization has not been adequately demonstrated."

Five Persons Die, 25 Are Injured In Two-Train Crash

STERLINGTON, N.Y. (AP) — Five persons were killed and at least 25 injured today when two Erie Railroad passenger trains crashed head on as the result of a missed signal.

Two of the victims were passengers, a man and woman. Their bodies were cut from the wreckage of the first car on a four-coach commuter train bound from Monroe, N.Y., to Hoboken, N.J.

They were identified as Robert Youchman of Warwick, N.Y.; and Pauline Cronon, of Tuxedo, N.Y.

The other victims were Sam Nardo, engineer; Charles G. Mitchell, a brakeman; and Martin J. Walsh, a fireman.

The two diesel locomotives telescoped but neither the locomotives nor the cars were derailed.

Several coaches piled together and some of the wheel trucks lifted off the roadbed.

The second train comprised three baggage and three passenger cars in which only a few persons were riding. There were about 30 riders on the commuter train.

The wreck occurred on the Erie main line in a rural section of Rockland county, about 35 miles northwest of New York City, shortly before 7 a.m.

One of the first rescue squads to reach the scene was the Hillburn Fire Department.

One of its members, Robert Lilibridde, said: "People were staggering around, moaning and groaning. Lots of them looked dazed. A number were stretcher cases."

A relay of ambulances and emergency vehicles rushed the injured to Good Samaritan Hospital, Suffern, N.Y.; and Tuxedo hospital. Others received first aid at the scene.

Robert Higgins, one of the less seriously injured, was at work sorting mail on one train.

"The only warning I got was when the emergency brake went on," he said.

"I heard the hissing of air. The next thing there was this crash and I was on the floor.

"I managed to walk out. Others with me had to be carried out."

The wreck, according to a spokesman at Erie railroad headquarters in Hoboken, resulted because a freight train was standing on one of the two tracks near the Sterlington freight station.

The combination baggage-passenger train, No. 53, bound from Hoboken to Port Jervis, N.Y., was routed onto the other track, and instructions were sent to hold the commuter train, No. 50, traveling in the opposite direction, at Suffern.

The order apparently did not arrive in time.

Probers Rap 'Remedies' For Reducing

WASHINGTON (AP) — Take it from House investigators: If you want to lose weight, eat less.

This advice is contained in a strongly worded report saying U.S. consumers are being bilked out of roughly 100 million dollars a year for preparations advertised as weight reducers.

The report, issued by the House Government Operations Committee, put much of the blame on the Federal Trade Commission.

It accused the FTC of a 12-year paralysis in cracking down on false advertising claims in the weight reducer field.

The report, covering hearings conducted last year by a subcommittee said: "The advertising of so-called obesity remedies or machines, appetite satients, weight-reducing products is an area fraught with deception and outright frauld. . ."

Snyder Sets Record In Water Use

Snyder set a record in water consumption last month with the use of 75,608,500 gallons of water, Roy Dunlap, city manager, said.

Dry weather was said to have been the major factor in the record water usage, but the increasing size of the town also contributed to the greater use of water.

Top daily consumption was 3,927,000 gallons of water, and several days topped the 3,000,000-gallon mark.

Actually the city purchased 92,519,100 gallons of water from the Colorado River Municipal Water District during July. Some of the water was lost in line leakage, and a small amount was used through unmetered city facilities such as fire truck tank refilling.

"Almost everyone watered lawns and shrubs heavier than usual in an attempt to keep them in top condition," Dunlap said.

Serio's Trial Is Postponed

AUSTIN (AP) — Sam Serio's trial on income tax charges was postponed indefinitely today in Federal Court because of the illness of Judge Ben Rice Jr.

Serio is former chief accountant of the Maceo Syndicate of Galveston. He was indicted by a federal grand jury on charges of attempting to evade income taxes of about $15,000 in 1949 and 1950.

Serio's trial, involving more than 70 witnesses and mountains of books and documents, was expected to have lasted about two weeks. Attorneys had no idea when it might be rescheduled.

Serio was a star witness before a House committee investigating gambling in Galveston and elsewhere in the state a few years ago.

Hearing Date Set For County Budget

The county commissioners court this morning set the date for the formal public hearing on the county budget for 1958.

The hearing will be held on Aug. 25. The county is now in the process of completing the proposed budget.

In other action this morning, the court passed an order requesting that $23,835.48 available for construction and improvement of county roads through the lateral road account be returned to the county.

The county's net share of the state funds, after deduction for interest and principal on eligible issue of bonds, amounted to that figure. The money comes from surplus gasoline funds.

Gromyko, Helpers Map Drive For Troop Withdrawal

By WILLIAM N. OATIS

UNITED NATIONS, N.Y. (AP)—Soviet Foreign Minister Andrei A. Gromyko and 75 helpers prepared today for a drive to get the U.N. General Assembly's emergency session to demand withdrawal of U.S. troops from Lebanon and British troops from Jordan.

Gromyko was expected to speak early in the general debate, which starts Wednesday. He said on his arrival from Moscow yesterday that the Soviet government considers the question of the withdrawals very serious and his delegation "will do their best. . . to achieve positive results."

Asian neutralists were reported seeking some means of inducing the Western powers to pull their troops out quickly so the Assembly could concentrate on other Middle Eastern problems. The group holds the balance of power in the 81-nation Assembly.

There was some belief that enlargement of the U.N. border observer corps in Lebanon might get U. S. forces out of there. They admitted Jordan was a tougher problem.

The United States and Britain have promised to withdraw their forces when the U.N. can protect the two countries, whose governments have said the United Arab Republic is working to overthrow them.

U.A.R. Foreign Minister Mahmoud Fawzi left Cairo by plane with instructions from U. A. R. President Nasser to fight his hardest against any attempt to charge the U.A.R. with interfering in its neighbors' internal affairs.

Fawzi also was ordered to press for withdrawal of U.S. and British troops from Lebanon and Jordan. "This particular part of Dr. Fawzi's mission is not subject to bargaining whatsoever," the semi-official Cairo newspaper said.

The United States is reported planning to propose a police force to protect threatened countries, a watchdog commission to monitor propaganda broadcasts, an investigating commission to recommend long-range solutions, and a Mideastern economic plan, all under the U.N.

The economic plan would be financed by Mideastern oil-producing countries and wealthy outside nations.

"One Asian source said, "The West is going to put up three parts and ask the Soviet Union to put up one part." But he told an American, "Gromyko is not going to accept anything until you start withdrawing."

Soviet Premier Khrushchev in a speech at Kuibyshev charged the United States and Britain once again with plotting a war against Iraq's new republican government. He said the Soviet Union and "all the other peace loving nations" would destroy the two Western allies if they launched "a new aggressive war."

Israel again withdrew permission for the American airlift to British troops in Jordan to fly over her territory.

An army spokesman in the Syrian province of the U.A.R. claimed that a U.S. jet plane from Lebanon had trespassed over Syria but was driven back by an antiaircraft battery. There was no confirmation from the U.S. command in Beirut.

In Lebanon, near the Syrian border, Ahmed Hammoud, a top leader of Lebanon's Syrian Social-National party, and two party members were found murdered. There was some speculation they might have been the victims of bandits.

Krush Sends A New Note

LONDON (AP)—Nikita Khrushchev today sent a new note to Prime Minister Macmillan on the Middle East and the proposal for high level East-West talks.

British officials did not disclose contents of the Soviet Premier's new note.

But they reported that Khrushchev had no new proposals to make for the settlement of the Middle East crisis or for summit talks.

Khrushchev's new message, delivered at the British embassy in Moscow today, replied to a note from Macmillan last week rapping the Soviet Premier for backing down from a summit session of the U.N. Security Council.

Little Change In Weather Expected

DALLAS (AP)—The Weather Bureau issued today this 5-day outlook for Aug. 11-16:

West Texas: Temperatures near normal. No important changes. Little or no rain except locally heavy in few widely scattered thunderstorms.

THAT'S MY UNCLE?—Stephanie Adzema, 11-month-old daughter of Mrs. Nancy Adzema, doesn't seem able to understand that the six-day-old baby boy she is holding across her lap, George Beran Jr., is her uncle. The confusing relationship comes about because Stephanie's mother is the daughter of Mrs. George Beran, who gave birth to little George in St. Alexis Hospital in Cleveland, Ohio. Dr. Joseph Votypka was the attending physician at both births. (AP Wirephoto)

State GOP Panel Certifies Slate

By ED OVERHOLSER

AUSTIN (AP)—The Republican State Executive Committee certified today four statewide candidates and 36 local candidates for the November general election ballot.

The top vote getter in the July 26 GOP primary was U.S. Rep. Bruce Alger of Dallas who tallied 11,464.

The statewide candidates and their vote totals were:

Ed Mayer of San Angelo, for governor, 10,959.

Roy Whittenburg of Amarillo, for senator, 10,567.

Grover Carothers of Stamford, for commissioner of agriculture, 10,652.

John Q. Adams of Harlingen, for justice of the supreme court, 10,786.

Republican State Chairman Thad Hutcheson of Houston told the committee members the party would go to court if necessary to assure the party of a fair break in obtaining the important first column on the general election ballot.

"There is no section in the law for turning over that column to the Democrats," Hutcheson said. The general election ballot in Texas usually places the Democratic party candidates in the first column.

"We had always hoped that the issue would be decided by the words from the candidates, but we have learned that this is not always so," Hutcheson said. He said the party lost 5,000 to 10,000 votes in a congressional race in Houston because the voters used the first column without reading what candidate they were voting for.

GRAND JURY BRIEFED

Indiana Gambling Probe Launched

INDIANAPOLIS (AP) — U. S. Dist. Atty. Don A. Tabbert briefed a federal grand jury this morning on the government's aims in a lengthy probe of a Terre Haute gambling syndicate's operations.

Beginning later today, the southern Indiana district jurors will hear testimony from 180 witnesses, including more than 160 bookies and bettors from throughout the nation.

The government's only interest is in establishing the fact that the Terre Haute group handled bets on football and other sports and the amount of money it handled. Tabbert has estimated it grossed 3½ million dollars before federal agents put it out of business in a raid last Nov. 29.

Targets in the investigation are six men arrested in the raid—former Marion County (Indianapolis) Sheriff Charles L. (Buck) Sumner and Joseph Jacobson of Indianapolis; Leo Shaffer and Julius Horwick of Chicago; and Philip Share and Irwin Gordon of Las Vegas.

The six have not yet been brought to trial on misdemanor charges of failure to buy $50 federal gambling stamps, but U.S. Atty. Don A. Tabbert wants them indicted on charges of evading excise taxes, an offense which could carry a prison term upon conviction.

Tabbert said he also will seek indictments against two other men believed connected with the syndicate—Jim Tamer of Miami and E. M. Wyatt, part owner of a Terre Haute tavern.

Witnesses subpoenaed in the case include retired comedian Zeppo Marx, Texas oil millionaire H. L. Hunt, bridge playing expert Tobias Stone and Dr. H. B. Kean, New York physician.

The grand jury is expected to take about two weeks on the gambling investigation. Tabbert said none of the witnesses will be prosecuted unless the jury uncovers evidence of them breaking some federal law. He warned, however, that anyone invoking the Fifth Amendment too frequently may be hauled before a federal judge on contempt charges.

Probe Opens On Crash Of Tankers

PROVIDENCE, R. I. (AP)—The Coast Guard opened an investigation today into the flaming crash of two tankers that killed at least 16 seamen Thursday. One ship started a court action placing all the blame on the other.

The Gulfoil said the S. E. Graham was negligent, failed to keep a proper lookout and was proceeding too fast. It brought an attachment action against the Graham in Federal Court, asking $850,000 damages.

The Gulfoil ran into the Graham in fog at the busy entrance to Narragansett Bay off Newport. The Gulfoil was outbound empty for Port Arthur Tex., and the Graham was inbound from Newark, N. J., loaded with gasoline. Both ships burst into flames and ran aground. Sixteen of the Gulfoil's crew, including Capt. Montreville Eden of Port Arthur, died. Two others are still missing and feared dead.

The Gulf Oil Corp. of Philadelphia, owners of the Gulfoil, filed a petition for a libel against the Graham Transportation Co., also of Philadelphia, owners of the S. E. Graham.

Gulf asked to be legally exempted from liability for loss of life and claims for damages resulting from the collision. It said the collision "was caused wholly by the fault and negligence of the S. E. Graham," that the Graham's crew was "incompetent and inattendant to their duties," that the ship was "not properly manned and equipped," that it "failed to keep a proper lookout," that it was "proceeding at immoderate and excessive speed," was "not sounding proper signals," and failed to keep clear, slow down or stop.

Solons Drive To Complete Session

By JOHN H. AVERILL

WASHINGTON (AP) — An adjournment-minded Congress begins tackling a heavy backlog of legislation today in an effort to close shop by the weekend.

But it was a big question whether the legislators could complete their work without going into next week.

Neither Senate Majority Leader Lyndon B. Johnson (D-Tex) nor House Speaker Sam Rayburn (D-Tex) has set a public target date for adjournment of the 85th Congress. Nevertheless, several other legislators, especially those facing tough re-election fights in November, have expressed strong hope the session can be ended Friday or Saturday.

With the House finished with most of its major bills, the adjournmant drive focused on the Senate—which has been alerted to expect overtime sessions this week in an all-out attempt to wind up in the next few days.

The chief bills still awaiting a Senate vote are a measure to increase Social Security benefits, the $3,518,000,000 foreign aid appropriation bill and federal aid to education legislation. All three have passed the House.

A renewed attempt also is expected to get House action on an omnibus farm bill. Rayburn has announced that, so far as he is concerned, all farm legislation is dead. He did so after Republicans and big city Democrats joined last week in defeating a third House attempt at passing a major farm bill.

However, several farm state members said they would make another try to give cotton and rice farmers relief from the sharp acreage reductions they face next year under present law, and to extend the act under which farm surpluses are disposed of abroad.

There also was mounting speculation that the House might act on a Senate-passed bill designed to give the government a stronger hand in regulating labor unions and to give rank and file members a bigger voice in union affairs.

Legislation to require public disclosure of employe pension and welfare funds is awaiting compromise efforts by a Senate-House conference committee.

China Has Legal Poison Pen Notes

By JAMES WILDE

HONG KONG (AP)—Red China's "tatsepao" is a poison pen letter with a difference—it's legal.

It is a large piece of paper, covered with Chinese characters, written in red ink, and is a critical barb aimed at someone or something.

These tatseapaos are plastered on walls, bulletin boards and fences, in factories, on street corners, in universities, cooperatives and farms—anywhere where people will see them.

They are part of the current nationwide rectification campaign.

The rectification campaign is a sort of Communist school for socialism. The party encourages everyone to criticize everything—except the party. Unwilling or backward Socialist students are special targets.

Workers in the rail depot at Changhsintien "turned the workshop walls into a patchwork quilt of flaming tatsepaos, accusing the depot director of spending too much time in his office, and not enough in the shop," Communist press reports say.

Students use tatsepaos to accuse university professors suspected of being rightists or individualists.

In cities, housewives who have to line up for food write these open letters criticizing the butcher, the baker and the overworked civil servant. Some even write about their husbands.

Mrs. Hug Chia Ming in Hupeh province wrote a Tasepao about her husband which got into the national press. She asked: "What shall I do with my lazy man?

"He isn't concerned with the co-op's plan."

The husband was seen a couple of days later working his head off, Communist press reports said.

Some Areas Of Texas Get Rains

By The Associated Press

Thunderstorms crashed through the Texas skies Sunday night, drenching parts of West Texas and killing a fisherman with lightning in Galveston Bay.

A four-inch downpour west and north of San Angelo sent water roaring down normally dry draws. U.S. 67 between Mertzon and Barnhart was covered for a time. Mertzon measured 2.5 inches.

Water Valley caught 3 inches and up to 1.85 inches fell over Schleicher County. San Angelo got 1.24.

Dale Aulbaugh, 25, of Beaumont, was killed when lightning struck as he prepared to go fishing in a cabin cruiser across the bay from Galveston.

Southwest Texas had brief but violent electrical storms. One dumped an inch of rain at Uvalde within an hour. Broken tree limbs littered the streets.

Eagle Pass got half an inch, with some sections of Maverick County showing an inch.

Trinity, in Southeast Texas, had rain and hail and a garage blown off its foundation.

Rainfall for the 24 hours ending at 6 p.m. Sunday included Longview .30 of an inch, Beaumont, College Station and San Angelo .20, Tyler .17, Victoria .09, Abilene .08, Presidio .05, El Paso .04, Wichita Falls .02 and Dallas and Fort Worth .01.

Highs varied from 104 degrees at Presidio to 89 at Corpus Christi.

Lufkin and Del Rio had showers early Monday.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be, and the same is hereby amended by adding thereto another section to be designated as Section 5, which shall read as follows:

"Section 5 (a) The Legislature may by law authorize the creation of two hospital districts, one to be coextensive with and have the same boundaries as the incorporated City of Amarillo, as such boundaries now exist or as they may hereafter be lawfully extended, and the other to be coextensive with Wichita County.

"If such district or districts are created, they may be authorized to levy a tax not to exceed Seventy-five Cents (75¢) on the One Hundred Dollars ($100.00) valuation of taxable property within the district; provided, however, no tax may be levied until approved by a majority vote of the participating resident qualified property taxpaying voters who have duly rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections so long as obligations are not impaired, and not to exceed the maximum limit of Seventy-five Cents (75¢) per One Hundred Dollars ($100.00) valuation, and no election shall be required by subsequent changes in the boundaries of the City of Amarillo.

"If such tax is authorized, no political subdivision or municipality within or having the same boundaries as the district may levy a tax for medical or hospital care for needy individuals, nor shall they maintain or erect hospital facilities, but the district shall by resolution assume all such responsibilities and shall assume all of the liabilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cents (75¢) tax. The Legislature shall provide for transfer of title to properties to the district.

"(b) The Legislature may by law permit the County of Potter (in which the City of Amarillo is partially located) to render financial aid to that district by paying a part of the expenses of operating and maintaining the system and paying a part of the debts of the district (whether assumed or created by the district) and may authorize the levy of a tax not to exceed Ten Cents (10¢) per One Hundred Dollars ($100.00) valuation (in addition to other taxes permitted by this Constitution) upon all property within the county but without the City of Amarillo at the time such levy is made for such purposes. If such tax is authorized, the district shall by resolution assume the responsibilities, obligations, and liabilities of the county in the manner and to the extent hereinabove provided for political subdivisions having boundaries coextensive with the district, and the county shall not thereafter levy taxes (other than herein provided) for hospital purposes nor for providing hospital care for needy individuals of the county.

"(c) The Legislature may by law authorize the creation of a hospital district within Jefferson County, the boundaries of which shall include only the area comprising the Jefferson County Drainage District No. 7 and the Port Arthur Independent School District, as such boundaries existed on the first day of January, 1957, with the power to issue bonds for the sole purpose of purchasing a site for, and the construction and initial equipping of, a hospital system, and with the power to levy a tax of not to exceed Seventy-five Cents (75¢) on the One Hundred Dollars ($100.00) valuation of property therein for the purpose of paying the principal and interest on such bonds.

"The creation of such hospital district shall not be final until approved at an election by a majority of the resident property taxpaying voters voting at said election who have duly rendered their property for taxation upon the tax rolls of either said Drainage or said School District, nor shall such bonds be issued or such tax be levied until so approved by such voters.

"The district shall not have the power to levy any tax for maintenance or operation of the hospital or facilities, but shall contract with other political subdivisions of the state or private individuals, associations, or corporations for such purposes.

"If the district hereinabove authorized is finally created, no other hospital district may be created embracing any part of the territory within its boundaries, but the Legislature by law may authorize the creation of a hospital district incorporating therein the remainder of Jefferson County, having the powers and duties and with the limitations presently provided by Article IX, Section 4, of the Constitution of Texas, except that such district shall be confirmed at an election wherein the resident qualified property taxpaying voters who have duly rendered their property within such proposed district for taxation on the county rolls, shall be authorized to vote. A majority of those participating in the election voting in favor of the district shall be necessary for its confirmation and for bonds to be issued.

"(d) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be invalid because of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at the general election to be held the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon:

"FOR the constitutional amendment authorizing the Legislature to create a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas, and authorizing Potter County to lend financial aid to and participate in the operation of said Hospital District, and further authorizing the Legislature to create a county-wide Hospital District in Wichita County, Texas, and Hospital Districts in Jefferson County, Texas."

The payments for such medical care on behalf of such recipients shall be in addition to the direct assistance to such recipients, and shall be in such amounts as provided by the Legislature; provided, however, that the amounts paid out of State funds for such purposes shall never exceed the amounts paid out of Federal funds for such purposes.

"The Legislature shall have the authority to accept from the Federal Government of the United States, such financial aid on behalf of the needy aged, needy blind, needy children, and needy permanently and totally disabled persons as such Government may offer not inconsistent with restrictions herein set forth."

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 31 proposing an Amendment to the Constitution of Texas to provide that all county officials for whom four-year terms of office were authorized in 1954 must resign such office prior to announcing for a different office when more than one (1) year remains unserved of the term for which they were elected, and providing for the filling of such vacancies in the manner now provided by law.

Section 1. Section 65 of Article 16 of the Constitution of the State of Texas is hereby amended so as hereafter to read as follows:

Nine Medical Buildings Are Constructed

CHICAGO (AP)—The Foundation for Management Research said today nine new medical office buildings have been built or sponsored by non-profit hospitals.

One of the office buildings, said FMR, is in Houston, and another in Shreveport, La.

The management research organization said non-profit hospitals in several areas endanger their tax-exempt status by renting office space to physicians and engaging in commercial enterprises.

The foundation is a private, non-profit organization claiming about 4,000 members in industry. It also contends that the practices of some non-profit hospitals jeopardizes the tax deductibility of donations.

FMR said certain hospitals rent office space, either in the hospital or in separate office buildings erected on the hospital grounds.

"Some of these buildings have included commercial enterprises such as florists, restaurants, haberdasheries, barber shops, drug stores, surgical supply shops—all available to the public at large," the FMR report said.

A spokesman for the American Hospital Assn. in Chicago said the association is not familiar with the FMR and did not take part in the study.

He said non-profit hospitals in various sections have provided office space, under various arrangements, for physicians but was not aware that there was any particular trend in this direction.

3-Leafed Vines Pose Threat Of Poison Ivy

Avoid leaves that come in threes.

This is best advice to picnickers or woodlands strollers who'd avoid contact with poison ivy or poison oak. So says J. H. Pike, field representative of the Davey Tree Expert Co., who points out no one is really immune from the toxic effects of these plants.

Shun any and all vining plants which have three leaves on a stem and chances are you'll never get poison ivy rash. The closely related form of poison oak, with almost identical leaves, grows lustily in sunny meadows. Difference here is poison oak produces stiff stems that stand upright like miniature trees.

Purists who insist upon identifying the offending weeds may regret getting too intimate. Even a brief brushing against the weeds—or inhaling the smoke—may have unpleasant aftermaths. That's because any and all parts of either poison ivy or poison oak are toxic throughout the year.

Poison ivy seeds germinate readily in all types of soil and new suburban lots may be thoroughly contaminated. Normal grading or lawn development have no effect on this and the smallest piece of root will sprout persistently. Applications of 2,4, 5-T, amino triazole or other hormone herbicides offer moderate control. Do-it-yourselfers should wear protective clothing, such as heavy leather gloves and high boots.

Rickover Is Too Busy To Note Snub

JUNON (AP)—Rear Adm. Hyman G. Rickover, known as the Father of the Atomic Submarine, says he is "too busy to worry about snubs."

That was Rickover's answer last night when newsmen asked if he felt snubbed because he had not been invited to last week's White House ceremony announcing the submarine Nautilus' under-the-North-Pole voyage.

Several congressmen said Rickover should have been there and at least one commented that Rickover had been slighted repeatedly.

Rickover showed a flash of irritation when newsmen asked his reaction. He was en route to Washington from Portsmouth, N. H., where he attended builder's trials of the nuclear-powered submarine Swordfish off the coast of Maine and New Hampshire.

Of Nautilus' feat sailing across the roof of the world beneath the arctic ice, Rickover said: "It shows that we now have a ship that can hide under the ice. And when we get missile subs, like the Polaris, anyone who dares attack us will inevitably be destroyed."

Time Is Running Out

Although time is running out, at last account cotton industry spokesmen still were hopeful that a farm bill would get through Congress before the present session dies.

The chances for such action took a turn for the worse the other day when "cotton belt"' legislators became miffed over stumbling blocks effectively thrown in their path by Ezra Taft Benson, Secretary of Agriculture. There was a strong inclination among the Congressmen to pick up their marbles and call it a game for this session, and even Speaker Sam Rayburn indicated that he was practically ready to call it quits.

However, the Congressmen are being chided right and left for this attitude, because there still is a chance if the proponents of the new farm legislation can get a few breaks. Speaker Rayburn, of course, is in a position to steer a course calculated to encounter such "breaks," if his ire over Benson's policies cools sufficiently before time runs out.

If the proposed legislation fails to make the grade, serious economic consequences are certain, especially in Texas. Harry S. Baker, president of the National Cotton Council, says the only alternative to action this session is another serious cutback in acreage. This, he reminded, would result in further loss of markets for U. S. cotton.

New cotton yield estimates released the other day emphasize the stake Texas has in this situation. The 1958 Texas cotton crop was estimated at upward of four million bales, with an average yield per acre of 373 pounds. If these estimates are accurate, the economic impact throughout the cotton producing territory will be tremendous this fall.

The general economy can stand it. So can West Texas farmers, who are just now getting to their knees after going down for a nine count during the devasting drouth.

A serious cut in acreage, on the heels of a good crop, would be particularly depressing. We hope tempers in Washington will cool before the deadline.

Krush Impulses Appear Dangerous

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—There are frightening overtones in the way Nikita Khrushchev rushed into a summit meeting and then backed off. Stalin was predictable. Not Khrushchev.

He's mercurial and, apparently, impulsive—a dangerous and ominous weakness in a head of state. The evidence indicated he agreed on impulse to a summit meeting from which, on second thought, he flip-flopped his way out.

If he can be impulsive on something like that — which probably wouldn't have amounted to much — it seems fair to assume on something else, like a step leading to war, he might be impulsive again.

Stalin followed a simple line: grab what he could; push where he thought he could get away with it; test the West for soft spots. He was consistent in this—and in his avoidance of innovations—until he died.

Khrushchev—except for imitating Stalin in getting rid of his rivals—has followed a different line. He's an innovator, an experimenter. But in doing so he has established a pattern of flip-flops, something Stalin didn't do.

The result: Khrushchev is not only unpredictable but, from the standpoint of the rest of the world, unrellable. Some examples:

After Stalin's death, he denounced and repudiated the old dictator. Later he took trouble to patch up the old man's image. He switched to a softer Soviet foreign line: saying there were different roads to socialism. What happened?

A series of flip-flops.

He made his humble pilgrimage to Yugoslavia to woo back the alienated Marshal Tito. This failed and he turned on Tito.

Hungary took advantage of the softer Soviet line and revolted. He crushed this in blood and abandoned the line. He warned the other satellites to expect the same if they tried tricks. This was a complete swing-around back to the rule of terror.

None of this is intended to deny his shrewdness, of which he's shown plenty. By abandoning Stalin's horror tactics towards neutrals, and substituting economic help and propaganda, he's made progress where Stalin never did. Example: the Mideast.

But now many people are attributing Khrushchev's final refusal to meet at the summit to Red Chinese pressure. No doubt it was a factor. But there were others. An examination of the Eisenhower-Khrushchev letter exchanges tells a revealing story.

On July 19 Krushchev proposed the summit meeting outside the United Nations. On July 22 President Eisenhower accepted but wanted it in the U.N. Security Council. Khrushchev fired back a acceptance the next day.

This writer suggests the speed with which he acted shows he did so impulsively, without thinking through what Eisenhower suggested or what the consequences might be. For these reasons:

1. He might have guessed Eisenhower and Secretary of State Dulles, not anxious for the meeting, might follow up with conditions he wouldn't or couldn't accept.

2. Except on some major matter—where he might use a veto—he figured to be overwhelmingly outvoted in the Council, which is loaded with American friends.

3. At a meeting in the Council he might have to sit down with the one man above all others with whom it would be awkward to meet: Chiang Kai-shek.

Chiang's Nationalist Chinese have a permanent seat on the Council. Khrushchev has reviled Chiang, whose seat is claimed by Red China.

His sitting down in discussion with Chiang could not help but anger Red China.

These points apparently began to sink in when Eisenhower sent his next letter, laying down conditions for a meeting in the Council. Then Khrushchev wrote a letter—which many people now seem to forget—almost refusing to meet in the Council.

He indicated he had second thoughts and wanted the meeting outside the U.N. Then he rushed off to Peiping, where the Chinese Reds must have given him a piece of their mind about his sitting down with Chiang. That settled it.

He made his flip-flop complete by calling off the meeting altogether.

Sen. Johnson Says Session Fruitful

WASHINGTON (AP)—The present session of Congress, says Sen. Lyndon Johnson, Democratic leader, "compares favorably with the record of any congressional session in our history."

The majority leader added he hoped the House would add to its record approval of a Senate-passed "farm bill of great importance to Texas cotton and rice growers."

When Congress convened last January, the senator noted, "the people were alarmed by the success of the Russian Sputniks and the humiliating failure of our own

"In addition," he said, "we faced economic difficulties. The nation was in trouble."

Action taken, he noted, included funds to provide the Strategic Air Command with a 15-minute capability; funds for 33 heavy and 20 medium bomber dispersal bases and funds to step up development Polaris.

"We enacted a sweeping defense reorganization bill," he declared and added that Senate Preparedness Committee hearings resulted in creation of a special Senate Committee on Astronautics and Space Exploration.

This was followed by passage of a bill setting up a pace agency to meet the challenges and, as Johnson put it, "to realize the opportunities of this new age."

"It is my ernest opinion," he added, "that if we had done nothing but pass the space bill this would have an historic session."

Johnson also listed these items in what he called "a program for the people" The following:

The jurist who drafted the Ordinance of Secession in the Civil War was a Mississippian named Lucius Quintus Cincinnatus Lamar. Later he was an associate justice of the Supreme Court.

FINAL ROUND THIS WEEK

Dr. Kidd, Scott Share Robin Lead

Dr. R. J. Kidd and defending champion Donald Ray Scott share the lead through six rounds in the Country Club's 2nd annual Round Robin Tournament, each with a 28 point total.

And ironically, Dr. Kidd and Scott are paired for the seventh and final round this week. The regular match play in the tournament ends Sunday.

The winner and runnerup in each flight will vie a week from Sunday for the "Grand Championship" of the tournament. Each player will be given handicaps for the grand finale.

Scott moved from third to a tie for the lead with his 11-up victory over Burt Dugger.

Dr. Kidd, last week's leader, defeated another rugged contender, Shelby Coker, 6-up, in a 6th round match to stay in the thick of the title fight.

Coker, second last week, dropped to third with 15 points.

The leaders and runnerups in the other flights are Ralph Howser and O. K. Fletcher in the First Flight; John Lynch and Dan Warren in the Second Flight; Buck Francis and Roy Sallee in the Third Flight; and Gene Knight and Johnnie Dyer in the Fourth Flight.

Cotton Bowl Seeks Tieup With Big 10

DALLAS (AP) — The Cotton Bowl would just love to get a tieup with the Big 10 Conference.

President Jack Lowe said today Cotton Bowl officials were eager to talk contract with representatives of the Big 10, whose Rose Bowl pact with the Pacific Coast Conference is going down the drain with dissolution of the latter league.

The Pacific Coast Conference voted Saturday to quit June 30, 1959.

Lowe said nothing had been done specifically regarding a contract with the Big 10 to face the Southwest Conference champion in the Cotton Bowl but that the bowl certainly was interested in such a project.

Two Alpine Teams Remain In Running

ALPINE, Tex. (AP)— The El Paso Merchants beat Marfa 16-2 last night and meet the Alpine Internationals tonight for the right to oppose the Alpine Cowboys in the finals of the Texas Semi-Pro baseball tournament.

The Cowboys are the only undefeated team left and they will clash with the El Paso-Internationals winner for the title in the second game of the night.

Alpine beat the Internationals 15-1 last night to throw the latter into a round robin with Marfa and El Paso.

Marfa eliminated the Abilene Aces 4-2. Abilene previously had lost to Alpine 21-1 in the double-elimination tournament.

Unknowns Shine As All Teams Split Doubleheaders In AL

By JOE REICHLER
Associated Press Sports Writer

Bowsfield, Woodeshick, Hyde and Tomanek...Ever hear of 'em? No, they're not partners in a law firm. Each is an American League pitcher.

Among them they have a total of six complete games this year, but yesterday they reminded you of Lefty Grove, Carl Hubbell, Hal Newhouser and some of the other mound greats.

Ted Bowsfield, making only his second major league start, held the New York Yankees hitless until one out in the seventh inning as Boston rebounded from a 7-5 defeat to whip the American League champions 9-3.

Hal Woodeshick, Cleveland rookie, lost a 10-inning 4-2 decision to Kansas City after the Indians had walked off with an 11-2 triumph in the opener. But for six innings he held the Athletics without a hit. It wasn't until the ninth that he gave up his first run.

Washington relief expert Dick Hyde achieved his 16th save in the Senators' first game 6-2 triumph over Baltimore.

Hyde made his 40th appearance with two runners on base in the ninth and secured Pedro Ramos' 11th victory by retiring three straight batters. Baltimore took the second game 6-1.

Dick Tomanek, a nondistinguished left-hander, turned in a spectacular two-inning relief chore for Kansas City.

Tomanek relieved Tom Gorman with the bases full, nobody out and the score tied 2-2 in the bottom of the ninth, and struck out Larry Doby, Rocky Colavito and Dick Brown. The ex-Indian fanned two more Cleveland batters in the 10th after Kansas City had broken the tie in the top of the inning.

In another double-header split, Detroit edged out Chicago 4-3 in 12 innings after the White Sox had won the opener 5-2.

In the National League, Milwaukee swept a double-header from Philadelphia 8-7 and 14-3. Pittsburgh took two from Cincinnati 3-2 and 4-3. The Giants outslugged Los Angeles 12-8 and St. Louis divided a pair with Chicago. The Cards won the second game 6-2 after the Cubs took the opener 9-4.

Bowsfield lost his bid for a no-hitter when Norm Siebern singled with one out in the seventh. The Yankees chased with four straight hits in the eighth but 14 Red Sox hits against Bob Turley and two relievers won it.

Pete Runnels and Jackie Jenssen rapped three hits each for Boston. Runnels chipped in with a home run. Two unearned runs in the eighth enabled the Yankees to break a 5-5 tie in the first game and give veteran Virgil Trucks his first victory of the season. Mickey Mantle had five hits for the Yankees, four in the first game.

Cal McLish, backed by a 15-hit attack including home runs by Doby and Vic Power, won his 12th for Cleveland in the first game. Roger Maris, who snapped Woodeshick's hitless string with a single in the seventh, smashed a two-run homer off the left-hander in the 10th of the nightcap to break Kansas City's six-game losing streak.

Reno Bertoia's perfect squeeze bunt scored Frank Bolling with Detroit's winning run in the 12th inning of the nightcap. Jim Rivera drove in four runs with a homer, single and sacrifice fly in the White Sox's first game 5-2 victory.

Clint Courtney drove in three runs in Washington's first game victory over Baltimore. The Senators were held to five hits in the second game by Billy O'Dell.

Braves 'Open Fire' For Twin Wins

By JOE REICHLER
Associated Press Sports Writer

It will be a long time before the season's largest crowd (32,117) at Philadelphia's Connie Mack Stadium will forget the Sunday fireworks display staged by the Milwaukee Braves.

The Braves made 33 hits in their 8-7 and 14-3 double-header sweep over the Phillies.

Only two of them were home runs, both by catcher Del Crandall. But there were five triples and ten doubles. Hank Aaron, who had five hits and scored five runs, had a pair of triples and a double. Eddie Mathews, with seven hits and six runs, had a double and triple. Frank Torre, who drove in five runs, had a double and triple.

The Chicago Cubs split a doubleheader with the St. Louis Cardinals in a comedy of errors. The Cubs won the opener 9-4 as the Redbirds committed four errors. St. Louis scored five unearned runs on as many Chicago errors to win the second game 6-2.

In Los Angeles, seven home runs were hit at the Coliseum, five over the chummy left field screen. San Francisco batters rapped five of them, as the Giants outslugged the Dodgers 12-8.

Pittsburgh's fast-moving Pirates completed a four-game sweep of Cincinnati, winning both ends of a double-header 3-2 and 4-3. The Pirates took the opener on Dick Stuart's 10th-inning sacrifice fly, and the second game on an eighth inning force play.

In the American League, Boston came back to defeat New York 9-3 after the Yankees had won the opener 7-5. Kansas City took a 4-2, 10-inning decision from Cleveland after the Indians had walked off with an 11-2 triumph in the first game. Baltimore beat Washington 6-1 after dropping a 6-2 verdict in the opener. It took Detroit 12 innings to nip Chicago 4-3 after the White Sox had taken the first game 5-2.

Relief pitcher Humberto Robinson hurled two-hit ball for Milwaukee through the last 6 2-3 innings after relieving reliever Gene Conley in the third of the first game. Torre drove in Aaron with the winning run in the eighth. Aaron had opened with a triple off loser Jack Meyer.

Mathews had 4 for 4 in the second game, including his 1,000th major league hit. Crandall's pair of homers accounted for four runs as the Braves pounded loser Robin Roberts and three relievers for 19 hits. Rookie Carleton Willey won his seventh against three defeats.

Jim Davenport smashed two home runs, a double and two singles in leading the Giants to their 10th victory in 13 meetings with the Dodgers.

Danny O'Connell, Daryl Spencer and pinch hitter Bob Speake also homered for the Giants as Gordon Jones gained his first victory, in relief. Duke Snider and Gil Hodges homered for the Dodgers. Clem Labine was the loser.

Ernie Banks homered in each game for the Cubs. Teammate Bobby Thomson knocked in five runs in the first game, won by rookie Marcelino Solis in relief. Larry Jackson went the distance for the Cards in the second game for his ninth victory. Redbird baseman Ken Boyer committed four errors, three in the opener.

Cincinnati's double loss dropped the Redlegs into a last-place tie with Los Angeles. Roman Mejias singled in the 10th, advanced to third on Roberto Clemente's double and scored Pittsburgh's winning run on Stuart's long fly.

Downpour Delays Milwaukee Finals

MILWAUKEE (AP)—Torrential rains, accompanied by strong winds, flooded greens and sent water gushing across fairways at the Tripoli Golf Club Sunday, forcing suspension of the final round of the $35,000 Milwaukee Open Golf Tournament.

The field of 68 pros and amateurs was set to tee off again today. All of Sunday's scores were wiped off the board by the sudden, violent storm that caught three-quarters of the field and thousands of spectators on the course.

It was the seventh tournament of the current PGA tour affected by rain. Five others were postponed one day while a sixth, the New Orleans Open, was held up for three days.

Veteran Cary Middlecoff, a 37-year-old former dentist from Memphis, Tenn., still was the man to catch at par 35-35 — 70 Tripoli. The former U.S. Open champion held a three stroke lead with a 13-under-par 197 for 54 holes.

Tied for second place with 200s were Bill Casper Jr., of Apple Valley, Calif., and Bob Goalby of Belleville, Ill. one stroke behind them and four back of Middlecoff were Joe Conrad, 1955 British Open champion from San Antonio, Tex. and Paul Harney of Worcester, Mass.

Cats Lead By 11 Tilts In TL

By The Associated Press

The hour of decision approaches in the Texas League.

Fort Worth can be considered "in" since the Cats lead the race by 11 games with 30 to play.

But from there on down it's anybody's guess.

Sunday Fort Worth clipped Dallas 4-1. Tulsa beat Austin 4-8 to keep the latter from taking over fourth place.

Dolan Nichols allowed Dallas only four hits and kept control until the ninth when he walked the first two men. Then Herschell Freeman came in to get the Rangers out without damage.

Ron Mrozonski kept Austin at bay with a 4-hitter, then won the game himself when he squeezed home the deciding run in the ninth with a bunt down the first base line.

San Antonio whipped Victoria 12-10 in 10 innings when Jesse Gonder and Hank Moreno each hit a home run.

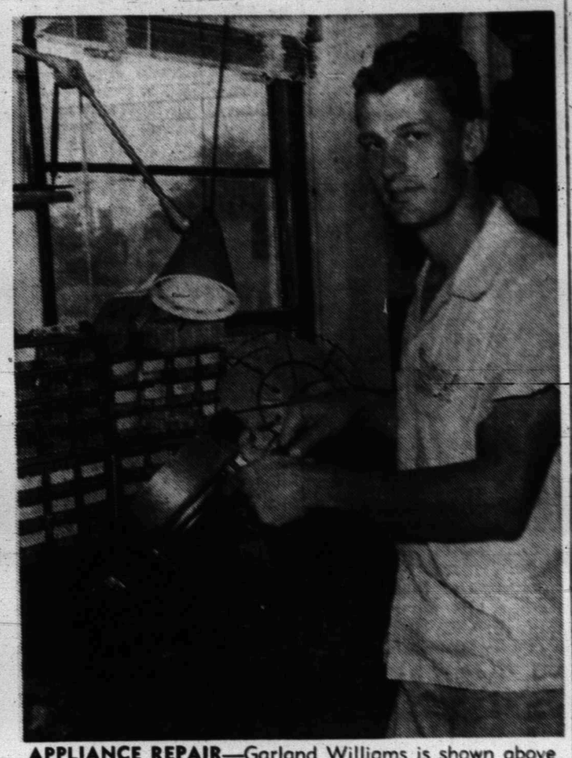
ELECTRONICS REPAIR—Leroy Thrower, head of the radio and television repair department of M & M Radio & Electric, 1910 Twenty-seventh Street, is shown above testing the electrical circuits in a record player. Thrower, and the other technicians of the firm, offer complete repair and service of all types on all home electronics equipment. (Lee Watson photograph)



APPLIANCE REPAIR—Garland Williams is shown above repairing an electric frypan, one of the many types of home appliances on which complete service and parts are offered by M & M Radio & Electric. "Most troubles with electrical appliances are small ones, and require only a short time and little cost to repair," Williams said.

M&M Has Specialists In Repair Work

Do you have one—or perhaps a number—of appliances around the house that are setting idle because they are in disrepair?

Almost every household has at least one small appliance, radio or other electrical gadget that is no longer doing its job because it has broken down, Bill Butler, owner and operator of M & M Radio & Electric, 1910 Twenty-seventh Street, said.

"In many cases the appliance is completely discarded and a new one is purchased to replace it without the owner ever trying to have it repaired," he said.

Most appliance disorders are of a minor nature and require only a few minutes and a very low cost to repair, he said.

"In any case repair of the appliance is much less costly than discarding it and purchasing a new one in its place—and in many cases the old one will require only tightening of wiring connections or replacing of small parts," he said.

"The same is true with most radio and televison disorders—most disorders are of a minor nature requiring only replacement of inexpensive parts or tubes and no costly service bills," Butler said.

M & M Radio & Electric offers complete service and repairs on all small appliances and has a full line of parts for almost all small appliances. If the repair parts are not in stock, the firm can get them within a few hours.

Garland Williams is head of the appliance repair department of M & M Radio & Electric, and supervises installation of television antennas.

Leroy Thrower is the radio and television service technician.

Both men have had experience in their fields, and constantly study new developments to keep abreast of the newest in television, radio and all types of appliances.

A FAMILIAR SIGHT for more Texans now will be the large vans of McAlister Van Lines, Inc., which has recently more than doubled its size with purchase of a San Antonio moving firm. High-quality service has always been emphasized by McAlisters.

McAlister Van Lines Place Top Emphasis On Service

Ever since McAlister Van Lines, Inc., got its start in Snyder in 1950 it has placed great emphasis on high-quality service.

That service paid off from the very beginning in business which resulted in constant expansion of McAlister's.

Starting the firm with only one small van, O. A. McAlister, who is president of the corporation, doubled the size of the company twice within two years.

In mid-1952, he added his sons as partners, and Bob McAlister since that time moved to Sweetwater to operate a branch office there. The firm also has an office at Colorado City. He is now moving back to Snyder and will be general manager of the three-West Texas offices.

The rapid expansion of McAlisters continued through the years until, a few days ago, it made a big jump, more than doubling its size again. The corporation purchased Talley Transfer & Storage Co., one of the largest movers in San Antonio.

That means McAlister Van Lines will have certificated service in about two-thirds of Texas, as well as serving the remainder of the state and serving the entire country through its affiliation with Dean Van Lines.

"We will continue to stress the best service which can be offered to the customer," O. A. McAlister said, adding that service is the best thing his firm has to offer and the company intends to continue making it the best service available, not only in the Snyder area but throughout Texas.

Another of McAlister's sons Ted McAlister, is secretary-treasurer of the cirporation and will maintain residence in San Antonio, as well as the firm's president and his wife; although they will be in Snyder part of the time.

McAlister and his partner sons, along with seeing that the only way to build a successful business was to always improve service, have always expressed a faith in growth of Snyder and West Texas. They have never ceased to add equipment which would be of better service to customers, because they know a satisfied customer helps the firm to build better business.

The purchase of the San Antonio firm will not only add the South Texas area to the McAlister certificated service territory but will help the firm to provide more facilities for better moving of its customers.

McAlister has said many times that he is always prepared to invest money in improvement of service and that the firm has never ceased to look for ways to continue the improvement.

Because of the service the firm has maintained, it has grown to one with 40 employes in four cities, along with long-distance moving service which is becoming widely known.

The McAlister firm, even though it is only eight years old, is Snyder's oldest transfer company. The newly-purchased San Antonio firm had been in business 14 years.

"We will use all the experience accumulated in that time and all the modern equipment at our disposal to furnish the best service Texas can have," McAlister said.

Gonzalez Is Encouraged

SAN ANTONIO (AP) — State Sen. Henry Gonzalez said yesterday he had received numerous letters "asking me to keep on thinking in terms of another campaign."

Gonzalez lost to Gov. Daniel in the July 26 primary.

He said he was particularly grateful "to all the countless hundreds of people throughout the state who, on a purely voluntary basis, made it possible for me to at least make a creditable showing."

He added: "Despite the fact that we had limited financial resources, literally thousands of people, at least 6,000, I would say, from one end of the state to the other contributed to make it possible to travel throughout the state and make our candidacy known.

Navy Denies U. S. Planes Over Syria

BEIRUT, Lebanon (AP) — A U.S. Navy spokesman today denied a charge that an American jet plane penetrated Syrian air space Sunday.

The charge was made in a dispatch from Damascus of the Cairo Middle East News Agency. The dispatch said a Syrian antiaircraft battery drove the plane back.

The Navy spokesman told a news conference: "No American plane was even near the Syrian border, and we have received no reports of an American aircraft being fired on."

Coon Dog's Magic

KANSAS CITY, Kan. (AP)—It was the small hours of the morning when the old coon dog began to bay. A shotgun roared and a man screamed. Investigating officers found a man who explained: "I got to hearin' Old Sad (the coon dog) baying, and I just got so happy listenin' to him I had to do some shootin' and hollerin'."

Voodoo To England In 11 Hours

AUSTIN (AP) — The United State threw its Voodoo from Texas to England in a little more than 11 hours yesterday.

Seven Jet Voodoo fighters, flying non-stop from Bergstrom AFB at Austin, landed in England at 10:16 a.m. (CST) after streaking the 3,292 miles on a training flight.

Although dubbed "routine" by the Air Force, the flight was the first of its kind for the Voodoo. The jets weren't out to set any records, just steady flying from Bergstrom to Bentwaters Royal Air Force division in England.

Ten planes left Bergstrom, with two of the Voodoos supposed to fly only as far as the coast. But at an aerial refueling rendezvous over Myrtle Beach, S. C., three of the planes peepled off from the flight and landed, instead of the scheduled two. The third plane quit because of refueling troubles.

The seven remaining jets continued over the Atlantic, refueling once more over the Azores at 9 a.m. (EDT).

"The Voodoo training flight is not concerned with the international situation," Maj. Gen. Chester McCarty, 12th Air Force Commander, said.

"This Voodoo deployment to England is a part of a continuous and regorous training program carried out by the Tactical Air Command of the 12th and 9th Air Force to keep their combat units ready to fly anywhere in the world."

After flying training missions in England, the Voodoos will return to their home base in Austin.

One Texan, Maj. Allen McGhire, Annona, Tex., was among the pilots.

Junior Editors Quiz on NATURE

QUESTION: What makes a tree turn to rock?

• • •

ANSWER: If you ever traveled in the desert and picked up what you thought was a piece of wood, it may have turned out to be very heavy and hard as stone. In other words it was petrified wood, which literally means wood turned to rock. The work of hundreds, and perhaps thousands, of years was involved in this strange object. A tree had fallen in the forest and, before rot set in, had sunk down below layers of mud and water. There it lay, throughout the centuries, changing in basic character from wood to rock. Gradually wind and rain wore away the slime covering it and once again brought it to public view. It still had all the outward look of a tree trunk or limb, but it was too solid to chop with an axe, too heavy to lift. With a big assist from time and the elements, the fallen tree had assumed the characteristics of rock.

• • •

FOR YOU TO DO: Perhaps your local museum or high school science department has a fragment of petrified wood that you can examine if you have never seen it. The Boy Scout pictured here has abandoned his axe and is using a hammer to pound on this log of wood turned to stone. He won't made a dent but he will hear a noise like pounding on a rock. Color this picture with your crayons and save it by pasting in your scrapbook.

Couple Confesses To Trading Baby

TULSA, Okla. (AP)—A Pennsylvania couple have admitted trading their baby for a pickup truck.

Detective Walter Turner said a charge of child abandonment has been drawn up against Richard Readdy, 26, Shamokin, Pa., and his wife, Helene Margaret Readdy, 20.

He said Jesse Lester Burger, 42, El Dorado Springs, Mo., owner of the pickup truck, would probably be charged with conspiring to violate the child abandonment law.

The 5-month-old boy, Paul Andrew, was placed in the Tulsa Juvenile Shelter.

Jail Matron Mildred Buchanen said Mrs. Readdy told her she is now about one month pregnant. But a doctor who examined the woman said it is still too early to tell.

Mrs. Readdy's father, William Murphy of Shamokin, called Tulsa police and offered to come to Tulsa if authorities would grant him custody of the child. He was told it would depend on a juvenile court hearing.

Tulsa police said the alleged swap came about this way:

The Pennsylvania couple — out of work, almost broke and without a car — were hitchhiking to California, where Readdy hoped to find a job.

In Joplin, Mo., they were picked up by Burger, driving with his wife and 2-year-old daughter to Tulsa.

Burger was quoted as saying: "In a kidding way I said, 'I'd like to have that baby.' Readdy said, 'Boy, you sure could have it.' And his wife agreed."

Mrs. Readdy was quoted as saying: "He (Burger) kept saying how the baby would be better off with them than with us. I didn't want to do it. I gave in first."

Police exhibited a hastily scribbled bill of sale which Burger said Readdy demanded to make the swap "legal." It showed Burger had transferred his 1957 pickup truck to Readdy for $21.50, although police said no money changed hands.

In Tulsa Burger's sister Mrs. Gladys Prather notified police, who then went to her home and arrested Burger and picked up the baby. The Readdys were stopped in a pickup truck 10 miles from here.

Tiffany's Burglarized

NEW YORK (AP)—As the sun rose over Manhattan yesterday, burglars punched holes in two display windows of staid, world-famed Tiffany's and lifted out jewelry valued at $163,300.

The arrival in New York of Soviet Foreign Minister Andrei A. Gromyko helped the brazen burglars. A patrolman whose beat includes the 5th Avenue store was withdrawn to reinforce a guard detail for the Soviet diplomat.

It was the first burglary at Tiffany's in more than 50 years.

Police theorized that the burglars pounded at the shatterproof display windows with sledge hammers, making holes about five inches wide.

A man's arm could easily fit through each hole. The windows were not protected by a burglar alarm system.

Two diamond necklaces, a diamond ring and a diamond pin clip, all covered by insurance, were stolen. Two sapphire and diamond brooches, which sell for about $9,000 each, were ignored—possibly too far away to be reached quickly.

Two watchmen at the store said they had not heard the breaking of the window glass, which is five eights of an inch thick.

It's The Same All Over, Colonel Suh

DAYTON, Ohio (AP) — At Wright-Patterson Air Force Base near here, they swear this happened.

A newly assigned colonel walked into his office and asked the cute young stenographer: "What is the normal compliment of this office?"

"Why, colonel," exclaimed the girl, only a few months out of Jackson, Miss., "I reckon the most normal is: 'Howdy, honeypot, you're sure lookin' luscious this mornin'."

Opinions On Adams Report Are Divided

By EDMOND LE BRETON

WASHINGTON (AP) — Some Democratic and Republican members of a House subcommittee differ sharply on whether their report vindicates the conduct of Sherman Adams in a military contract settlement case.

The report, made public yesterday by the House Armed Services Investigations subcommittee, said it found no evidence indicating presidential assistant Adams intended to influence the $40,382 penalty refund, after nearly 17 years, to Raylaine Worsteds, Inc., Manchester, N. H.

But when interviewed, members of the subcommittee divided along party lines in putting their own interpretations on their findings.

The report, adopted unanimously, was described by Rep. Porter Hardy (D-Va), a member, as "a minimum in the way of conclusions, but a maximum on which the subcommittee could agree."

Republicans hailed the report as vindication of Adams, who has been involved in two congressional investigations of reports that his prestige was used to get favored treatment for others. Adams has denied bringing nay improper pressure to bear, either in this case or another involving textile manufacturer Bernard Goldfine.

In its report, the subcommittee determined that Sen. Styles Bridges and Rep. Chester E. Merrow, both New Hampshire Republicans, and Sen. Irving M. Ives (R-NY) at various times made inquiries about the Raylaine case. But there was no criticism of them.

On the Adams aspect of the case, Hardy suggested the public read the transcript of the subcommittee's closed door hearings and "judge for themselves whether the conduct disclosed in the subcommittee hearings conforms either to their personal standards to the preachments which have been voiced in high places."

Rep. William E. Hess (Ohio), senior Republican member of the subcommittee, said such a reading would show "not one scintilla of evidence of any attempt to influence the Armed Services Board of Contract Appeals either by Sherman Adams or members of Congress."

Hess discounted the "Dear Sherm" letters from persons interested in Raylaine, which were relayed to the Pentagon from the White House with requests for replies.

"I would venture to say Sherman Adams never even saw those letters, but they were sent along by some secretary," Hess said.

Hess joined Rep. William H. Bates (R-Mass), another subcommittee member, in saying Americans properly expect they can write to their elected or appointed officials about problems and get replies.

"I can't think of anybody doing less than Adams did, or see how anything could be more routine," Bates said.

Bates said the findings do not reflect in any way on Adams.

Chairman F. Edward Hebert (D-La) told a news conference the subcommittee could not determin Adams' intent, since Adams turned down an opportunity to appear before it.

"There is no doubt that the memoranda he transmitted on White House stationery had their effect in bringing about speedy action," Hebert said. "I don't want to say it influenced the decisions of the members of the board."

Hebert termed the committee report a "Scotch verdict" — an inconclusive decision.

In the Raylaine case, Adams wrote the Armed Services subcommittee that he never communicated directly with the contract appeals board. But Adams said that over a period of four years he "routinely referred" seven or eight letters received from Raylaine to President Eisenhower's military aid, asking the aide to get suggestions for answers.

Violence Claims 28 Lives

By The Associated Press

Weekend violence in Texas killed at least 28 persons.

Traffic alone claimed 13.

Chester Bradley, 42, of Mineral Wells drowned in the Brazos River while swimming Sunday.

Mrs. S. F. Powell of Double Bayou, Tex., died early Sunday when a small boat collided with a towed barge on Trinity Bay near Houston. Her husband, injured critically, said the spotlight on a tug towing a string of barges blinded him as they returned from fishing. Their two small daughters escaped with minor injuries.

The body of an unidentified Negro man was found Sunday near the Southern Pacific Railroad tracks in Houston. Police said he apparently walked into a passing locomotive.

Churchgoers saw Herbert Jackson, 30, shot and killed Sunday in a battle between two Negro attendants to serve the better tippers parking cars at the First Baptist Church in Dallas.

A car hit a tree 3 miles east of Burnet Sunday as three boys returned home from a Round Rock dance. The crash killed Felipe Salazar, 17, the driver, and Alejandro Rincone, 14, both of Burnet.

R. P. McKinney, 58, and his sister, Mrs. Ida Koenning, 57, both of San Antonio, died Sunday when their car plunged over a 30-foot embankment and overturned.

John Hare, 48, a retired Army major, was found dead of a bullet wound Sunday at his home in Houston. A rifle lay near the body.

Herbert Sepulveda, stationed at Medina Base in San Antonio, drowned near Bandera Sunday while swimming in Medina Lake.

Mrs. Cardie Lewis, 39, was shot and killed in a South Dallas street Sunday. Police said a man, 35, told them he emptied a double-barrelled shotgun at her after the Negro woman fired several pistol shots into his home.

Lightning struck a fishing boat in Galveston Bay Sunday, killing Dale Aulbrough, 25, of Beaumont.

Wayne Mahan, 5, of Waco suffocated in a fire in his bedroom early Sunday. He was the son of the Rev. and Mrs. Wayne Mahan.

James Swisher Jr., Kenedy Negro High School athlete, was stabbed fatally during an argument in front of a night spot early Sunday.

Crosbys Name Son

HOLLYWOOD (AP)—The new son of Bing and Kathy Crosby has been named Harry Lillis Crosby III after his celebrated father and grandfather. The name was selected by Kathy's mother, Mrs. Olive Grandstaff of West Columbia, Tex., who came here to be with daughter and grandson.

Villains Protected

HOLLYWOOD (AP)—Along with an order for 10 U.S. marshal badges, a local firm was also asked to make three duplicates out of rubber. The L.A. Stamp and Stationery Co. is making them for Desilu Productions to use in a TV Western series. The rubber ones are to be worn during fight scenes — so the villains won't hurt their knuckles when they swing on the lawmen.

Production in U. S. of ready dinners, including canned prepared stews and meats, rose from 15.2 million pounds in 1952 to more than 19 millions in 1955.

Girls In Command

SOMERSET, Pa. (AP) — The stork has a penchant for delivering girls to two sisters, Mrs. Lynn Brugh, 26, and Mrs. Kenneth Fox, 24, both of nearby Rockwood, R.D. 1, Pa. Both women gave birth to baby girls, making it the fourth child for each mother — all girls.

Amateur Rocket Clubs Get Help

By ELTON C. FAY

WASHINGTON (AP) — The Army set out today to help amateur missilemen shoot their rockets — without blowing themselves up.

Headquarters began circulating to all commands instructions for aiding amateur rocket clubs, missile and other scientific groups which experiment in rocketry.

But in giving help, including use of the Army's test ranges, the Army is taking care that it isn't held liable for accidents.

The amateurs must sign waivers, agreeing that neither they nor their relatives will try to hold the Army responsible for rocket mishaps, nor bring suit in court.

The circular says the Army is setting up the assistance program because many requests for help in rocket firings have been received from amateur groups and because the Army wants to encourage rocketry. The program will operate under general direction of its missile branch.

The Army's interest is more than altruistic. Its circular lists, among other reasons, the development of a potential source of manpower to utilize in Army missile units and industry in event of emergency. Also, the amateurs might develop something useful to the Army.
