EASTERN STORM TOLL NEAR 250

Hitler's River Of Might

Adolf Hitler seldom misses an opportunity to demonstrate the might of the great spectacles of men and arms and the Czechoslovakian crisis has furnished an excellent one. Troops and war machines have been rushed to the eastern borderline of the German nation and may soon be moving into Sudeten territory of Czechoslovakia. Typical of the movements is this parade below of 120,000 storm troopers and black guards—apparently as implacable as a moving river of molten lava.

Czechs Withdraw Troops From Area

(By The Associated Press)

EGER, Czechoslovakia, Sept. 22.—Czechoslovakia soldiers, gendarmes and police began retiring from the Sudeten German region at midday today as the first step toward carrying out the annexation of the territory by Germany.

They fell back by mutual agreement toward the "language frontier" line which separates the Czech-

RUSSIAN PLANES ARRIVE

BERLIN, Sept. 22.—(AP)—DNB (German official news agency) today reported the arrival of 30 Soviet Russian warplanes at two Czechoslovak airdromes and told of two border clashes involving Czechoslovaks and Sudeten Germans.

In a Trautenau dispatch DNB reported that 21 twin-motored Soviet bombers had landed at the Pardubice airdrome. They were described as fast bombers whose distinguishing marks had been obliterated.

Eighteen similar bombers were said to have arrived at Bohdaney and 20 Soviet aviation officers were reported as having taken up quarters at Calau.

speaking areas from districts where German is the predominant language.

Henlein Forces Move In

Simultaneously with their withdrawal, the Sudeten "free corps" organized in Germany by Sudeten Leader Konrad Henlein marched in from all sides of the frontier.

The two military forces, however, did not meet during their marches.

Reports reaching Eger from other districts said all was quiet and that the Czechoslovak soldiers left in perfect discipline.

The only excitement was caused by a report that three army tanks were enroute from Falkenau to Eger. In reality they were on their

Syrovy Choice For New Rule

(By The Associated Press)

PRAGUE, Sept. 22—General Jan Syrovy, 50-year-old inspector general of the army, today emerged as the almost certain choice of President Benes to head a new military government, replacing that of Premier Milan Hodza, resigned.

JAN SYROVY

Syrovy emerged as the strong man of the republic as Benes sought a new regime to replace that of Hodza, which stepped out in the face of rising indignation over its "capitulation" to the Anglo - France proposal to cede Sudetenland to Germany.

A government spokesman said the new regime would not be a military dictatorship but "a military government" capable of the firmness needed to cope with the excited temper of the nation.

Syrovy is regarded as a friend of Russia. He lost an eye while fighting in the famous Czech legion with the Russian armies during the

Extra Copies Still May Be Obtained

SEVERAL hundred extra copies of the annual Panhandle-South Plains fair edition of the Avalanche-Journal are being published and may be reserved through the circulation department at a cost of 10 cents each.

They will be mailed if names and addresses are left with the circulation department.

No reservation will be accepted by telephone.

It will be published Sunday.

Hitler, Chamberlain Meeting Again Today

Price To Meet Demands Said To Be Paid

Series Of Events Keep Pot Boiling In Europe; Hitler May Increase Demands

DISCUSS MAP CHANGES

GODESBERG, Germany, Sept. 22. (AP)—Adolf Hitler and Neville Chamberlain discussed changes in the map of Europe for more than three hours today and parted with promises to continue their talks tomorrow.

(By The Associated Press)

British Prime Minister Chamberlain flew today to Germany to try to complete his deal for Europe's peace in a second historic meeting with Reichsfuehrer Hitler.

Chamberlain took with him the price to meet Germany's demands—Czechoslovakia's authorization to cede her Sudetenland—and was said

TO SUPPORT DEMANDS

ROME, Sept. 22. (AP)—Virginio Gayda, authoritative fascist spokesman, said today Italy had informed Great Britain and France she would support demands of Poland and Hungary for return of their minorities in Czechoslovakia.

reliably also to have carried urgent demands that Hitler create a peaceful atmosphere for working out the details.

But amid reports that Hitler might raise his price, these events kept Europe's pot of trouble boiling:

LONDON — Former Premier Earl Baldwin made a surprise visit to King George VI. Baldwin is known to be extremely friendly with Anthony Eden, former foreign secretary, who broke with Chamberlain over the prime minister's "deal with dictators" policy.

Government Offers Resignation

PRAGUE — The government of Premier Milan Hodza, in the face of nationwide resentment against his surrender at the behest of Britain and France, offered its resignation. It was not immediately accepted but President Eduard Benes heard many demands that the Czechoslovak army be given a larger voice in the nation's policies.

PARIS — Premier Daladier was faced with a revolt in his cabinet over his momentous deal with Chamberlain and Hitler.

BERLIN — The controlled German press indicated that Hitler's raised price might include demands for the resignation of Czechoslovak President Benes.

BUDAPEST — Hungary handed Czechoslovakia a note demanding for Hungarian minorities treatment equal to any accorded the Sudeten Germans. Poland has indicated she will make similar demands.

EGER — Czechoslovak soldiers, gendarmes and police began retiring from Sudetenland toward the "language frontier" while the Sudeten German "free corps" marched in from Germany in a first step toward effecting the annexation of the territory by Germany.

Cotton Pickers Are To Go On 'Sitdown'

MEMPHIS, Tenn., Sept. 22. (AP)—Arkansas, Oklahoma and Missouri cotton pickers affiliated with the Southern Tenant Farmers union were scheduled to begin a "sitdown" strike for higher wages today.

H. L. Mitchell, executive secretary of the union, a CIO affiliate, said strike orders had been issued to the union's "20,000 members" in the three states.

Mitchell declared pickers received 40 to 85 cents a hundred pounds, adding that "we feel $1 a hundred is a fair wage." Union officials, he said, planned to concentrate action in Arkansas in Crittenden, St. Francis, Cross, Mississippi and Woodruff counties, Southeast Missouri cotton counties and sections in east Oklahoma also were included in the strike-threatened region.

The union secretary asserted no attempt would be made to prevent other pickers from entering fields but that an appeal would be made to the department of justice if planters attempted to bring out-of-state strike-breakers into the affected areas.

Bank Clearings Are Largest Since Dec. 23 Of Last Year

NEW YORK, Sept. 22. (AP)—Bank clearings in 22 leading cities in the United States in the week ended September 21 totaled $5,987,279,000, the largest since the week of December 23 of last year, Dun & Bradstreet reported today.

Mid-month settlements were in large part responsible for the rise, the agency said. Turnover, however, was under the corresponding 1937 week.

The September 21 week's clearings were 7.9 per cent below the $6,500,527,000 of the like week of last year. This contrasted with a year-to-year loss of 11.6 per cent in the September 14 week.

ENROLLMENT OVER 3,500

Records Are Going Higher At College

Check At Noon Reveals 3,512 Students Have Obtained Registration Permits

Rocketing above 3,500, the enrollment figure at Texas Technological college at noon today not only had broken by far all previous records but had further established the college's standing as the largest in the United States of its age.

Although other colleges are gaining similar increases in enrollment at present, no other institution has rocketed to such heights in enrollment in a corresponding 13 years since its founding.

Exceeds Last Year By 358

A check at noon revealed 3,512 students had obtained permits to register. That figure already exceeds by 358 the largest final total for any former semester in history of the college, and enrollment is not ended.

Although all of those who had obtained permits to register had not yet paid fees, any shrinkage due to failure to pay fees is expected to be taken up by enrollment of students who have not yet begun the procedure.

W. T. Gaston, member of the three-member executive committee and business manager of the college, said early this afternoon the executive committee was waiting for end of registration and for data from the various divisions and departments before meeting to determine what measures might be necessary to care for the increased enrollment. Dr. James M. Gordon is chairman of the committee and Dr. Harry L. Kent is the other member.

Can Care For 3600

Gaston said he believed the college could care for approximately 3,600 students. Addition of a few instructors would be necessary, however.

If an equal number of students had registered a year ago, the situation would have been more desperate. Addition of 13 classrooms through construction of the new library and of several faculty members for this session has made possible the care for increased enrollment.

Addition of new sections, increase in number in some classes over that formerly planned, and other measures have been necessary to care

Three Inquiries Will Be Made Into Death Of Air Corps Chief

BURBANK, Calif., Sept. 22. (AP) — The deaths of Major General Oscar Westover, United States army air corps chief, and his personal pilot, Sergeant Sam Hynes, in a power-spin of their attack plane yesterday afternoon, became the subject today of three inquiries.

As Brigadier General H. H. Arnold assumed the title of acting chief of the air corps, an army board of inquiry, headed by Lieut.-Col. Harvey S. Burwell, commander of the 19th bombardment group, was named to investigate the cause of the crash which brought flaming death to the pair.

An inquest will be held Monday morning.

In addition, there will be an inquiry by the newly-created federal civil aeronautics authority, Robert Hinckley of Salt Lake City, one of the authority, announced.

'Tis The Last Day Of Summer As Early Risers Might Have Already Suspected

'Tis the last day of summer.

The fact that a change of season has been at hand doubtless has been suspected by early risers who have felt the nip of chilling temperatures.

But to make everything official, legal and above-board, the calendar will make the season honest at 11 a. m. Friday when autumn will begin. This information is contained in the latest issue of the World Almanac.

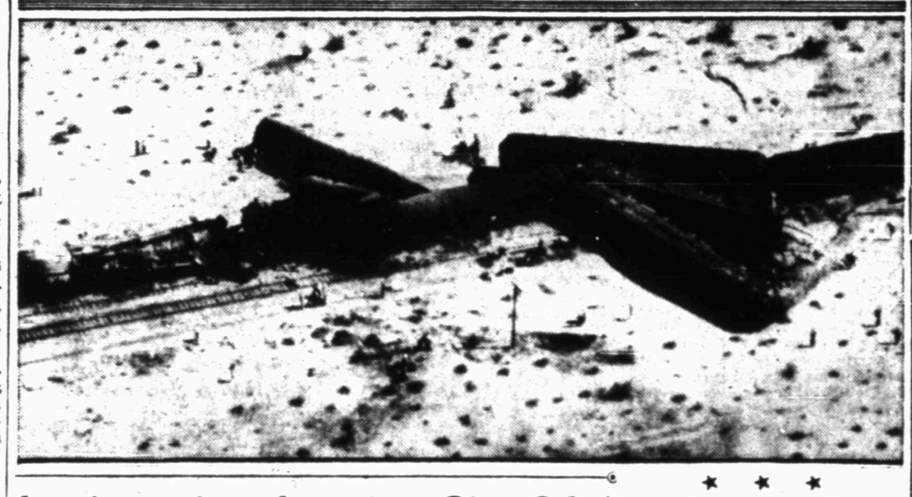

Thus far, the temperatures have been what Don L. Jones, superintendent of the experimental sub-station, describes as being "seasonable." The minimum temperature early this morning was 50 degrees. The lowest since heat began moderating with approach of fall has been 48 degrees. All in all, said Jones, the weather has been just what the doctor ordered so far as benefit to crops is concerned.

If average weather continues to prevail, he said, the remainder of September will see daily minimum temperatures dropping into the high 40's, with summer-like heat through most of

Eleven Killed, 100 Hurt In Train Wreck

Eleven persons met death and 100 persons were injured, many critically when two sister trains of the Southern Pacific railroad crashed head-on near Niland, Calif., Tuesday. Railroad officials blamed the sudden, unexplainable decision of a brakeman to throw a siding switch for the wreck. This airview shows six of the derailed cars and the demolished locomotives.

Legionnaires Leaving City Of Angels; Chadwick Commander

* * *

STEPHEN F. CHADWICK

(By The Associated Press)

LOS ANGELES, Sept. 22.—A farewell with a promise of reunion next year in Chicago was given by thousands of legionnaires today as they began their exodus from their 1938 convention city.

Although the business sessions of the convention continue today with election of officers, the main body of legionnaires were leaving.

As an anti-climax to the organization's gathering, the United States fleet will go on review tomorrow. Last night, the visitors were entertained by a Hollywood night in Memorial coliseum.

Election of Stephen F. Chadwick of Seattle, Wash., as national commander will be a mere formality today.

In outlining its policy for the coming year at yesterday's business session, the legion went on record as favoring a larger army, a navy second to none and expressed itself as unalterably opposed to a referendum on war.

Wallace Is To Talk With Farm Leaders

WASHINGTON, Spt. 22 (AP)—Secretary Wallace will discuss the wheat and cotton programs with farm leaders next week.

An Agricultural Adjustment administration announcement said the secretary of agriculture would talk to "farm leaders and others from wheat states at Hutchinson, Kas., Sept. 29, and to Southern farm leaders and those interested in cotton at Fort Worth, Tex., Sept. 30."

Wallace will discuss, the AAA said, "the present situation of American wheat farmers in the light of existing conditions were and abroad" in Kansas. This talk will also include an outline of "plans for administering the United States wheat program during the coming 12 months."

The Texas address "will be devoted to the present agricultural situation in the South, with particular reference to cotton," the AAA said.

Trade Associations Studied By Monopoly Investigation Body

WASHINGTON, Sept. 22. (AP)—Assistant Secretary of Commerce Patterson said today the bureau of foreign and domestic commerce is studying trade associations in connection with the monopoly investigation. Questionnaires will be mailed Monday to about 2,300 associations. Patterson emphasized the survey was not aimed at specific abuses but at a general understanding of the organization's place in industry.

OPERATIONS TO BE RESUMED

NEW YORK, Spt. 22. (AP)—Normal trucking operations were scheduled to be resumed today after a week of partial paralysis resulting from an "outlaw" strike of union truckmen. A three-day truce was voted last night at a meeting of more than 1,000 strikers.

Brakeman Says He's To Blame

(By The Associated Press)

COLTON, Calif., Sept. 22. — Eric Leonard Jacobson, 64-year-old railroad brakeman, last night assumed responsibility, at a coroner's inquest, for the wreck of two Southern Pacific trains near Niland early Tuesday with a loss of 11 lives.

As Deputy Coroner L. E. Cash of Riverside county was questioning three other witnesses, Jacobson entered the room where the inquiry was in progress.

"I'm not going to lie about this," he declared. "I threw that switch."

Eleven Were Killed

The Southern Pacific's Argonaut, westbound, struck an open switch and sped into a siding where the eastbound Californian was waiting for it to pass. Three trainmen and eight passengers were killed.

"It slipped my memory some way or another, for reasons unknown," Jacobson told the deputy coroner. "I took just long enough to throw the switch and crossed to the other side of the tracks, according to railroad rules.

Tried To Unlock It

"As I got to the opposite side, I remembered what I had done. The train was roaring down the tracks. I ran in front of the engine and I got hold of the lock and tried to get it unlocked.

"But I was trying to do something in a hurry and I didn't succeed. If I had had three or four seconds more I could have avoided that wreck."

The deputy coroner said he would present a transcript of Jacobson's testimony at an inquest to be held at Brawley, in Imperial county, where the wreck occurred and most of the victims died.

New Bankruptcy Law In Effect Today Act Highly Technical

WASHINGTON, Sept. 22 (AP)—The new bankruptcy law, described by justice department officials as the first comprehensive revision of bankruptcy statutes since 1898, became effective today.

The act is highly technical, but contains two provisions of interest to laymen. One is designed to protect creditors from possible exploitation during the settlement of corporation bankruptcy cases. It authorizes them to obtain legal assistance without cost from the securities commission.

In other bankruptcy proceedings, the new law authorizes the court to call on a federal attorney to examine the bankrupt and, if advisable, to oppose the bankrupt's petition. Previously federal attorneys had jurisdiction only when criminal violation was involved.

Here's Tip On Pronunciation Of No. 1 Word In The News

AUSTIN, Sept. 22. (AP)—A tip for world-minded Texans:

The No. 1 word in today's news—Sudeten—is pronounced with the accent on the first syllable. The second syllable, "det," is pronounced as "debt."

Dr. Eduard Micek, professor of languages at the University of Texas, says Dr. Charles J. Hollub, Czech consul at Houston, is the authority for the pronunciation.

Unidentified Man Is Killed In Highway Crash At Honey Grove

HONEY GROVE, Sept. 22. (AP)—The body of an unidentified man, killed last night in an automobile-wagon crash, was being held at an undertaking establishment here today.

Bert Scott of Vernon said he picked the man up at Paris, the latter telling him he was going to Clarendon, but that he had not asked the man's name.

Scott's car collided with a wagon two miles west of here.

Brother And Sister Reunited Because He Chose Radio Announcing As Profession

(By The Associated Press)

DENVER, Sept. 22. — A brother and sister separated for 20 years after the death of their mother were reunited today because the brother became a radio announcer.

Mark Crandall, announcer for radio station KFEL in Denver, and his sister, Mrs. Opal Alexander of Navasota, Texas, related that Opal went to live with relatives in Oklahoma while Mark stayed in Denver with his father after their mother died of influenza in 1918.

Opal then was 14 and Mark 8. Both families moved at about the same time three years later and lost track of each other despite several efforts to correspond.

Several weeks ago, Jack Petty of Chicago, a second cousin of Opal and Mark, heard a radio announcer in Denver say, "this is Mark Crandall speaking."

He wrote Mrs. Alexander. Mrs. Alexander wrote Mark. When the elder Crandall underwent an operation this week, Opal came to Denver to see him and her brother for the first time in 20 years.

Hurricane Is Unequalled In 100 Years

Disturbance Strikes Along Great Stretch Of Atlantic Coast On Wednesday

(By The Associated Press)

The ever-lengthening roster of the dead from an equinoctial hurricane which struck the north Atlantic states with a savageness unequalled in a hundred years neared the 250 mark today—and still the tragic figures mounted.

The damage to property—to hundreds of smashed boats, to growing or maturing crops, to homes, utilities, public buildings, transports

and communication—was beyond calculation, rising to uncounted millions of dollars.

Many thousands of men and women in the great area of disaster—troops, police, coast guardsmen, naval reservists, Red Cross workers, Boy Scouts—were called to work.

Moves Into Canada

Meanwhile, this morning the storm—which had been accompanied by fearsome tidal waves on some sections of the coast—moved upward into Canada, in the southern parts of the provinces of Ontario and Quebec.

There was the gravest fear that the hurricane had brought catastrophe to the isolated people of Cape God, extending like an upcurved foreigner from the Massachusetts mainland, and to the islands of Martha's Vineyard and Nantucket, lying to the south of the cape in the Open Sea.

Certain To Go Higher

The first direct report, covering only the base of the cape nearest the mainland, showed at least 21 dead—a tentative figure apparently certain to go much higher.

Streams rose everywhere in the stricken area, most of which had been beaten for days by extraordinarily heavy falls of rain, and to those standing amid the debris left by the wind there came the added menace of imminent flood.

Cottages Are Smashed

Especially hard-hit were the areas of Providence, Rhode Island, and the swank north shore of Long Island. Hundreds of summer cottages were smashed in the roaring gale.

The storm blew up yesterday morning from Cape Hatteras, hitting Long Island in the afternoon and sweeping northward through western New England. Reaching Vermont, weather bureau officials said, the center bore to the west, crossing the lower St. Lawrence valley near Montreal.

In that Canadian section, only one death had been reported, but the destruction of property was heavy.

Fire Adds To Destruction

To the widespread devastation of the wind was added, at some points, the destruction of fire.

Of the seven states hit by the

Informal Evening Frock Is Described As Leader For Fall Social Occasions

Long Skirt Is Back Again

By ROSETTE HARGROVE
NEA Service Staff Writer

PARIS, Sept. 22.—A dinner dress is usually the first of the season's acquisitions in playtime clothes. Formal parties seldom get under way until much later on and there are many more "don't-dress-for-dinner" occasions where a new frock is more or less imperative.

The "don't dress" gowns, as a matter of fact, are gaining in favor and importance all of the time. Dress creators are paying a lot of attention to them and the leading houses give them a great deal of prominence in their collections. The reason is that they are very popular with women. They are easy to wear and can be worn anywhere, except, of course, to very formal functions. Even there they would be less out of place than would a very dress-up gown in a more or less informal atmosphere.

This year, the informal evening or dinner dress has reverted back to the long and even sometimes trained skirt. Sleeves are important and necessary, usually long, and in many cases provide the latest fashion feature. The dress itself is usually the acme of simplicity, slim and modern and streamlined. Necklines are high. That is, somewhere around the base of the throat, or else decollete in front only, in a deep square or a sort of elongated triangular effect.

Must Be Luxurious

Luxuriousness being the leit-motif of the coming winter's fashions, there should be a touch of this even in the simplest dress. It can be provided by the fabric itself, by embroidery or some other decorative effect.

Lanvin favors the blouse and skirt idea for dinner and achieves some unusual color combinations. The blouses usually have fulness all around blousing over the belt, and are high-necked, with long, very full sleeves, somewhat reminiscent of the "waists" of prewar days.

Chiffon, velvet, satin and all the crepes are best suited to the "don't dress" fashions. Silk laces and silk nets are also very good, so is jersey. Robert Piguet shows a dress in carbon blue silk jersey with a deep smocked yoke to both the bodice and skirt top. This has a real choker collar ending in a tiny ruche, long, full sleeves held in a narrow wristband and a full, straight skirt.

As to colors, black is of course the safest choice, provided you top it with a very bright jacket or that the dress itself is relieved by a color or has touches of very bright embroidery. The entire range of purples, bright blues, rose red, henna browns and terra cottas are very fashionable, provided you have more than one dress.

Socii Club Dance To Be Given Friday Night

Socii social club of men students at Texas Technological college will entertain with a rush dance Friday night at 9 o'clock in the Hotel Lubbock ballroom. Ned Bradley's orchestra will play. The club crest in a neon sign will feature decorations.

Crowds Attends Circus Here

A near-capacity crowd evidenced delight with the last of two performances of the Al G. Barnes-Sells-Floto circus under its big top Wednesday night.

Largest post-depression attendance at a circus in Lubbock was estimated by Business Manager Joe Smith last night at "right at 8,000 admissions," although a final check had not been made. Traffic on East Broadway was tied up for more than an hour following the playing of Auld Lang Syne.

"One of the best receptions we ever had," quoth Mr. Smith, who was told in turn that it was one of the best circuses Lubbock ever had.

The cast of 950 persons, half of them world famous arenic stars, supported by five herds of elephants, 837 menagerie animals and 400 horses, performed for two and a half hours before an applauding gallery. Total attendance at afternoon and evening performances was approximately 11,000.

Beginning with the wild animal acts, in which Terrell Jacobs and Mabel Stark made mixed crowds of lions and tigers roll over and play dead, and running the gamut through the Japanese tumblers and dancing horses, the three-ring show had necks twisting and hands clapping all the way.

Some Of Feature Acts

Getting over with particular skill and response were the Flying Concellos, company of winged performers on the high trapezes; the Cristiana troupe, doing strange things aboard the hurricane decks of horses, with comedy—and some of the most expert riding—provided by Clarence Bruce, the clown; Bert Sloan, tight wire dancer, and Janice May, the strong-arm girl who does flips in midair suspended by one hand. She did 60 of 'em last night.

Frank Buck, the explorer of bring-'em-back-alive fame, took the spot to introduce Gargantua, his pet "monkey" from the Belgian Congo. The 400-pound baby gorilla, with a wingspread of 9 feet, had no active part on the program, but Buck's verbal description of the "black-eyed darling" of the dundas was entertaining.

Pythian Sister Party Is Given By Mrs. Dresser

Mrs. Ina Louise Dresser, 2211 Twenty-sixth street, entertained with a "kid" party for the Pythian Sister Temple Wednesday night. Yard and indoor games were played. The house was decorated with a profusion of dahlias and roses.

Mrs. W. C. Boyd was judged to be wearing the cleverest costume and second place went to Mrs. W. H. Lindsey.

Refreshments were served to Mesdames Boyd, Lindsey, J. D. Stalnaker, Ewell Carter, Max Coleman, Irene Glazener, W. C. Odom, H. A. Welmaker, Tom Carter, H. F. Huddleston, Ada McCoy of Burnet and Lucille Melton of El Paso.

Entry Books Are Opened At Annual Fair Here

Entry books for the women's department, Panhandle-South Plains fair, were opened at 9 o'clock this morning and will close Friday afternoon at 1 o'clock. Directors have announced that all articles entered for competition in this department must be delivered at the fair grounds during this time, and under no circumstances will articles be received after 1 p. m. tomorrow except bread, cake and cut flowers.

Bread, cake and cut flowers will be received from 8 a. m. until 1 p. m. Monday, Sept. 26, and must be delivered at the fair grounds during this time.

AUXILIARY MEETS

The woman's auxiliary to the painters local met at the hall Wednesday afternoon with ten members present. The next meeting will be Oct. 5 at 2:45 p. m. at the hall.

Miss Sue Crites, 2409 Twentieth street, has as her guest Miss Kathryn Price of Enid, Okla.

Clubs Meet For Sewing, Book Reviews And Table Games

With the waning of the first fall month activities of women's clubs are well underway.

Messrs. and Mesdames L. E. Huggins and V. H. Moore will entertain the Entre Nous club at 7:30 p. m. Friday in the home of Mrs. Pebble Talley, 1510-B Avenue M.

Forum Is Conducted

Forum discussion of what members have been doing this summer in the way of taking vacations, building homes, reading, and other activities made a meeting of the Book-of-the Month club an enjoyable event Wednesday afternoon in the home of Mrs. Milton Jones, 2307 Eighteenth street. Mrs. Arno Dalby was assistant hostess.

Another feature of the program was a review of "Norwegian Lands and People," a non-fiction book by Medill, presented by Mrs. S. H. Reid. It was reported that two new books, "My Son, My Son" and "Joseph In Egypt", have been bought by the club. Mrs. C. B. Powell is librarian. Ten members were present.

Decorator Is Speaker

Mrs. Fredda Hunt of Decorators' Studio spoke on interior decorating at a meeting of the Madonna circle of the Child Conservation league Wednesday afternoon in the home of Mrs. B. E. Adair, 2407 Twenty-second street.

Members attending were Mesdames Ralph Bedford, H. L. Burgess, J. C. Clark, Eugene Hancock, Arch Harper, R. H. McCarty, Alex McDonald, G. G. McMurry, Harold Munn, J. H. Pruitt, C. W. Ratcliff, W. B. Richards, H. E. Selby, Harvey Turnbough, James D. Wilson and a Mrs. Williams.

Circle Has Reunion

The original Circle 4 of the First Baptist Women's Missionary society had a reunion Wednesday afternoon in the home of Mrs. J. A. Mullins, 502 Avenue R. The entertainment included contests, conversation and taking of pictures. The hostess served refreshments.

Attending were Mesdames H. O. Waters, Maudie Musgrove, I. H. McLeod, Walter W. Nichols, L. J. Akers, M. E. Clay, Minnie Pullen, Anna Moore, J. R. Jeter, J. N. Sligar, J. H. Wise and H. B. Brock.

In Watson Home

Mesdames W. E. Watson and P. C. Mitchell entertained the Happy Hour Needle club Wednesday afternoon in the home of Mrs. Watson, 2109 Main street. Mrs. Watson's mother-in-law, Mrs. Mattie Watson, was a guest.

Others attending were Mesdames Paul Williams, H. O. Waters, R. F. Ratliff, S. A. Beard, C. P. Cox, Perry Brown, S. C. Rawlings, H. G. Lawson, J. R. Bridges, J. N. Smiley, Boyd P. Milburn, W. C. Garrison and R. J. Brock.

All Members Attend

All members of the Pla-Mor Forty-Two club attended a meeting Wednesday afternoon in the home of Mrs. T. H. Barnard, 2321 Thirteenth street. The hostess served a dessert course at the conclusion of the games. There were three tables.

The house was decorated with roses and marigolds. Rosebuds were plate favors.

Run Down Folk!

Take A Tip From Nature

You know what usually happens to growing things when you add new nourishment to the soil. Plants shoot up straight and sturdy, flowers bloom in rich colors and fragrance, trees grow heavy with their fruit. And all because of receiving proper nourishment. So, run down folks, take a tip from Nature. See what proper nourishment may do for you.

If your appetite is finicky, your digestion faulty, no wonder you are rundown, listless, feel gassy, belchy, bloated. Without proper nourishment your blood is weak—fails to supply the precious tissue-building elements every fibre in your body is crying for.

Your trouble may be functional and therefore to get the right help and nourishment you should try B-L Tonic. This tonic will make your appetite keen, improve your faulty digestion, thus enriching the blood, which, flowing like sap in the trees, will stir you to new strength and energy. It costs only ten cents a day to get this new hold on life. Starts B-L Tonic today on a money-back guarantee.—(Adv.)

Boys Get Data On Exhibits

Pig club and cotton club boys of Lubbock county have been mailed instructions regarding exhibition to be assembled for the Panhandle-South Plains fair, according to John W. Palmore, jr., assistant county agricultural agent.

As to pigs, Palmore cited the fact gilts should not be too fat and that they should be given baths before being brought to the fair.

Use Oil On Skin

"It might be well to apply some light oil to her skin and hair, but not enough to make her greasy or dripping," he said. "See that her hooves have been cleaned and you might make a thin mixture of light oil and lamp black and put on the hoof part of her feet."

Palmore said it would be necessary to have pigs at the fair grounds not later than 9 o'clock Monday morning.

The agent informed cotton club members he wanted each to show 20 open bolls of cotton that was furnished members by the Lubbock Lions club and, "if you have ginned a bale, show at least one pound of lint cotton."

Deadline Is Monday

It will be necessary to have the cotton in the junior agricultural division and on exhibit by Monday morning, opening day of the fair, Palmore said if it were impossible for boys to bring the cotton to the fair grounds to leave it at his office on the second floor of the federal building. Names should be with the cotton in a box.

Cotton club boys will receive suggestions in a few days on where and how to gin their cotton. The agent asked that "if you have picked some of your cotton please put it in a house or barn and keep it until you receive definite instructions."

Girl Reserves' Meeting Is Attended By Ninety

A meeting of Girl Reserves Wednesday afternoon at Senior High school was attended by 90 girls. The program included get-acquainted games and talks by Sycily Roberts and Norma Price, former members, on "What the Girl Reserves Mean To Me."

After a business meeting, chairmen of five committees described activities of their various units and each girl was asked to select a committee with which to work.

The program was preceded by a sing-song led by Mrs. P. H. Laverty.

Mr. and Mrs. G. E. Cate and daughter, Louise, of Sinton and Mrs. A. L. Cook of Abilene have been guests in the home of Mr. and Mrs. O. G. Ragland, 2110 Ninth street.

Clarence Mast, son of Mrs. C. S. Mast, 2219 Thirteenth street, has gone to Baltimore, Md., where he will enroll as a medical student at Johns Hopkins university.

Miss Davis Is Bride Of Mr. Lynn Shoemaker

Mr. and Mrs. A. J. Davis of Plains are announcing the marriage of their younger daughter, Miss Ruth Davis, to Lynn Shoemaker which took place September 19 in Lovington, N. M., with Reverend Davis, Baptist minister, officiating with a ring ceremony.

The bride wore a tailored gold and brown frock with brown accessories and her "something old" was the watch her mother had worn at her wedding.

Mrs. Shoemaker is a graduate of Lubbock High school and a former student at Texas Technological college. Mr. Shoemaker is the son of Mr. and Mrs. Kelly Shoemaker of Plains. He has been employed by the Ford Company in Glendale, Calif., for four years. After Sept. 25 the couple will be at home in Glendale.

D. Rankin, Erle Thompson, R. Bush Smith, George R. Bean, A. B. Ellis, T. G. Bates, J. A. Hood, J. B. McCauley, F. H. Scott, members, and Mrs. L. S. Mast and Messrs. Penney and Ellis, special guests.

HINT TO DOUGH-MAKERS

The next time you mix pie dough, double the quantity. Wrap the surplus tightly in waxed paper and store it in the refrigerator. Then you'll have it handy during the week to cover pot pies, make into patties for leftover meats, vegetables or dessert combinations. Part of the dough may also be rolled out, spread with brown sugar and spices and and rolled up, cut off into thin slices and baked until well-browned. If you like cheese, sprinkle a little over another bit of rolled-out dough. Cut it into straws and bake them. Serve with soups, salads or beverages.

Future Homemakers Club Will Have Service

IDALOU, Sept. 22 (Special)—The annual installation and initiation service for officers and new members of the Future Homemakers club of Idalou will be held Friday night at 8 o'clock in the homemaking department of the high school.

The program has been outlined as follows:

Quiet music as members assemble, Anita Langford; installation of officers by Miss Mary Catherine Couch, sponsor; initiation service conducted by club officers and older members; musical number, "I Would Be True," Bonnie and Dorothy Hay; business meeting; recreational hour directed by Ruth Boyd; refreshments served under direction of Dortha Faye Blanton.

Club officers are: President, Virginia Dacus; vice president, Betty Ray Furgeson; secretary-treasurer, Ruth Boyd; reporter, Tommy Jo Day.

One of the earliest strikes in the United States was the strike of the New York City carters in 1684.

Common Sense About Constipation

A doctor would tell you that the best thing to do with any ailment is to get at its *cause*. If you're constipated, don't fiddle with makeshift remedies. Find out what's giving you the trouble!

Chances are you won't have to look very far if you eat just the things most people do. Most likely you don't get enough "bulk"! And "bulk" doesn't mean just a lot of food. It means a *kind* of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement.

If this is what you lack, your ticket is crisp crunchy Kellogg's All-Bran for breakfast. It contains the "bulk" you need plus the intestinal tonic, vitamin B_1—and it's not a drug, not a medicine!

Eat All-Bran every day, drink plenty of water, and join the "regulars"! Made by Kellogg's in Battle Creek. Sold by every grocer.

Oil Industry Is Holding Down

By ALFRED WALL
Associated Press Staff Writer

TULSA, Okla., Sept. 22.—In the oil industry it seems to be a case of holding down while things are up in the air.

The holding down is being done in crude production and refinery operation. Up in the air, if you'll believe many an oil company executive, are the crude and refined price structures.

Things won't settle down definitely, it is felt here, until it can be determined somewhat definitely whether the tide of fall and winter business is going up or down.

Sense of Balance Felt

In some quarters there was a feeling the industry had achieved a new sense of balance. Curtailmen of production was almost universal and good signs were Texas' decision to continue well shut downs two days a week until at least Oct. 23 and the bureau of mines estimate that October demand for crude oil would be 3,366,800 barrels daily.

That figure, down only 77,500 barrels daily from September and only 7 per cent less than a year ago, was considered highly encouraging.

Refiners Take Heart

Refiners took heart from the bureau's estimate that October motor fuel demand would be 1 per cent over October last year at 45,800,000 barrels.

That motor fuel demand figure brought a hearty cheer from optimists who have been talking for weeks about the good chances for an unusually good fall business, a trend distinctly against the usual sharp slackening of oil trade at the end of the summer season.

Report Is Satisfying

Crude operators who customarily keep a sharp eye on the statistical picture noted with satisfaction another bureau of mines report that crude stocks as of Sept. 10 were down again nearly two and a half million barrels to a total of 282,457,000 barrels.

That figure, the lowest in 15 years or more, gave a healthy tone to the crude market and helped to offset such unfavorable developments as a 15-cent cut in the crude price in the Smackover field of Arkansas.

The marketing end still was gloomy over prices. Nobody wanted to talk about the effect of European war clouds on oils but it was conceded, naturally, an outbreak of hostilities would increase the demand for all oils. Marketers reported gasoline still soft, natural gasoline unsteady and heating oils firm under the influence of fall buying.

Youngest 'Lifer'

The pocket of his soiled sport shirt stuffed with lollypops, 15-year-old Lindberg Heist Trent, youngest slayer ever sentenced to a life-term at Ohio penitentiary, is shown here entering the prison at Columbus. Trent was convicted of the brutal murder of 6-year-old Shirley Ann Woodburn near her Cincinnati home last May 30.

O'Daniel Asks Dallas Solons For Pictures, Obsolete Laws

DALLAS, Sept. 22. (AP)—W. Lee O'Daniel has asked the Dallas county legislative delegation to submit to him a list of obsolete Texas laws which might be scratched off the books. He also asked each of the seven men to send him their photographs for an album.

FLASHES OF LIFE

(By The Associated Press)

Must Be Love

SOUTH BEND, Ind.—Mrs. Vida M. Aukerman told Circuit Judge Joan Pyle her husband broke three of her ribs during a dispute.

The judge granted her a divorce and restored her maiden name.

The name: "Love."

Weather Note

PITTSBURGH—Winter must be near!

An ear muff was turned in at the lost and found window of a neighborhood movie. The picture palace isn't o fthe air-cooled variety, either.

Welcome Visitor

ANCHORAGE, Alaska—Dr. J. H. Romig went 200 miles into isolated country to hunt moose.

Returning empty-handed, he discovered fresh moose tracks on his lawn.

Greatly Exaggerated

NEW ORLEANS—Hearing a report that he was dead, Henry Cookmeyer, 63, night watchman, went to the morgue to see.

"That's not I," he said, "but it surely does look like me."

The report started when a man who died suddenly on the street was erroneously identified as Cookmeyer.

Heat Victim

INDIANAPOLIS — Andrew Temple, 20, was chilly.

He started a fire in the furnace. The blaze didn't gain headway, so he threw in some gasoline.

Temple was warm today—in a hospital recovering from hand and head burns.

Bringing the World to Your Doorstep —

When you scanned the front page today, did it occur to you that this paper maintains a corps of veteran newspapermen throughout the world to gather the news you read? The sun never sets on these able reporters. Week in, week out, they are busy on a thousand fronts from Peoria to the Pyramids, from Tokyo to Timbuktu. With the same seasoned skill they handle both big news and small. The strategic offices from which they work dot the map in every continent.

Anonymous or unknown to most newspaper readers, these correspondents make up the diversified, far flung staff of The Associated Press. Day and night, on land and sea, north, east, west and south, this vast organization collects the news of the world accurately, swiftly and completely. Because this paper is a member and working partner of The Associated Press, its readers have such a mighty news staff tirelessly at their service.

"THE BIGGEST—BUT ALSO THE BEST"

O'Connor's Defeat Did More Than Save FDR From Complete Rout

Rules Body To Change Heads

By KIRKE L. SIMPSON
Associated Press Staff Writer

WASHINGTON, Sept. 22. — The 553 votes which defeated Rep. John J. O'Connor of New York for Democratic renomination did more than save President Roosevelt's personally-conducted drive against "conservative" Democratic legislators from complete route.

Those votes mean that a new chairman will preside over the pivotal rules committee of the house in the next congress. That was the stake for which Mr. Roosevelt risked complete rebuff of renewing his war against O'Connor even after overwhelming defeat of his similar efforts against senators in South Carolina, Maryland and Georgia.

Sabath Is In Line

The primary result definitely removed O'Connor from the rules chairmanship and placed Representative Adolph J. Sabath of Illinois, Roosevelt New Deal follower, in line for the position. The president was beaten in all of his purge attempts except the last; but that one was tactically important.

The victory left Roosevelt aides in a position to say, as they said of the court bill controversy, that while the president lost the battles, he won the war. Neither the court as now constituted nor the house rules committee as it will be in the next congress, they contend, will offer serious obstacles to the on-march of the New Deal, regardless of any foreseeable election results.

In Difficult Position

The primary outcome unquestionably put O'Connor in the most difficult position of any senate or house candidate of either party. A lifelong Democrat, he is listed now as a Republican nominee. If he actually runus and is re-elected, he will come back to the next congress virtually a man without a party. All the preference rights to committee assignments which his eight terms of service won for him will be gone. From a high-ranking Democratic member, his status will be changed to that of a junior Republican, if he accepts that designation, or an independent lone wolf.

That prospect raised doubt in the minds of some Washington political observers as to what course O'Connor might follow. It would cause little surprise if in the end he declined the Republican "spite-Roosevelt" nomination won in the primaries, gave at least nominal support to his successful Democratic rival, James H. Fay, and looked ahead two years to a come-back Democratic candidacy based on the record of party regularity thus established.

Texas Grand Voiture Given Two Awards

LOS ANGELES, Sept. 22. (AP)—The Texas grand voiture has received two American Legion awards, one for membership in excess of 1,000 as compared with previous membership and the other for the greatest service to the legion in children's welfare work. The awards were announced at the national convention here.

Canadian government fish hatcheries restocked lakes and streams throughout the Dominion with nearly 61,832,000 fish eggs, fry and older fish during 1937.

Star Blows Up

Movie players apparently take their art very seriously. Here's Lola Lane, obviously wide-mouthed with astonishment after she muffed a line and spoiled an entire scene. When a player says the wrong thing at the wrong time, Hollywood calls it a "blow -up."

Mexican Is Charged In Marijuana Case

(By Staff Correspondent)

MORTON, Sept. 22.—James Lopez, a well educated Mexican, is being held in Cochran county jail here in lieu of $2,000 bond on a charge of growing and cultivating marijuana in violation of the state law which requires permission be had from the state Safety department. He was arrested recently by state and county officers in a raid on a farm northwest of here.

Lopez waived examining trial before J. P. Taylor, justice of the peace.

Officers who made the raid, said Sheriff Tom E. Standefer, found rows of the narcotic weed a half mile long. They were hidden in the crop growing on the farm where Lopez worked. He denies knowledge of the weed, Standefer said.

Letters Slip Back Into Postal Channels After 18 Years

DALLAS, Sept. 22. (AP) — Fifteen letters slipped back into postoffice channels today after a long rest in a mail chute where they had lain for perhaps 18 years. They were found wedged against a wall when workmen tore out the old chute, built in 1920.

HOSPITAL PUT ON WHEELS

SAN SEBASTIAN, Spain (AP)—A mobile hospital, financed by popular subscription, has been furnished the Army Corps of Navarre for front line duty. The caravan of buses contain an operating room, x-ray equipment, pharmacy and forty beds.

Deal Revealed In Stock List

(By The Associated Press)

NEW YORK, Sept. 22. — W. R. Davis, financier who recently arranged sale of 10,000,000 barrels of Mexican oil to Germany on a partial barter basis, has arranged through Davis & Co. to exchange $600,370 of tubular steel products of "foreign origin" for Panhandle Producing & Refining Co. common stock.

This was revealed in a stock listing application filed by Panhandle producing with the committee on stock list of the New York Stock exchange.

Applied For Listing

Panhandle producing applied for listing of 253,450 additional common shares, of which 235,439 are to go to Davis & Co., at the rate of one share for each $2.55 worth of goods. The remaining 18,011 shares will be given to L. S. Carter & Co., inc., for acting as broker and for services in arranging the acquisition of the goods.

The listing application stated Panhandle producing was unable to buy less than $600,000 of the tubular products from Davis, which was more pipe than the company needed. However, because of the advantageous price Davis offered, the company went ahead and bought the $600,000 of goods, then to avoid over-expansion of steel inventories, resold $300,000 of the goods to Martex Oil Co. at prices identical with those paid Davis.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acid waste in your blood, your 15 miles of kidney tubes may be over-worked. These tiny filters and tubes are working day and night to help Nature rid your system of poisonous waste.

When functional kidney disorder permits poisonous matter to remain in the blood, you won't feel well. This may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. If you have trouble with frequent or scanty passages with smarting and burning, there may be something wrong with your kidneys or bladder.

Kidneys may need help the same as bowels, so ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Shifting Island In Gulf Of Mexico Is To Be Basis For Ligitation Between State And Federal Government; Oil Is Found

(By The Associated Press)

BATON ROUGE La., Sept. 22.—A shifting island in the Gulf of Mexico may form the basis for litigation between the state of Louisiana and the United States government.

The state will continue to protest the claim of the government to East Timbalier island and adjacent islands in the Gulf of Mexico off the LaFourche parish coast, Attorney General Gaston L. Porterie said today.

The land is under lease to the Gulf Refining Co., the attorney general said, and recently an oil well was brought in near it, showing great possibilities for production on the island itself.

To Receive Bids

Secretary Ickes announced in Washington that his office will receive bids until October 31 on the land in two parcels, 295.77 acres on East Timbalier island, known locally as Bird island, and 81 acres on smaller nearby islands.

The attorney general said the state had not yet determined its next step and that the matter is in the hands of Lessley P. Gardiner, first assistant to the attorney general, and Sam Atkinson, Shreveport, attorney for the Gulf company. Gardiner was out of the city today.

The action of the secretary of the interior followed a ruling given several weeks ago after Gardiner, Atkinson and Lucille May Grace, register of the state land office, had filed protests against the government's claim.

Porterie said the state claims title to the property on the grounds that it was navigable water at the time Louisiana was admitted to the union.

The federal government purchased East Timbalier island as a site for a fort before Louisiana became a state. Since that time the waves of the Gulf of Mexico have gradually eaten from the east end of the island and piled up sand on the moved 14 miles westward along the coast.

Attorneys for the state and oil company contend that the site of the islands, which became property of the state when the territory became a state, still belong to the state. The federal government contends that its title to the shifting island goes with the island wherever it may go.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse anything else.

Say it with a Clear Skin

NO man or woman wants to have a finger poked at them or receive sympathy because of an unhealthy skin appearance.

Some skin troubles are tough to correct, but we do know this—skin tissues like the body itself must be fed from *within*.

To make the food we eat available for strength and energy, there must be an abundance of red-blood-cells.

S.S.S. Tonic builds these precious red cells. It is a simple, internal remedy, tested for generations and also proven by scientific research.

You, too, will want to take S.S.S. Tonic to regain and to maintain your red-blood-cells . . . to restore lost weight . . . to regain energy . . . to strengthen nerves . . . and to give to your skin that *natural* health glow.

Take the S.S.S. Tonic treatment and shortly you should be delighted with the way you feel . . . and have your friends compliment you on the way you look. There is no substitute for this time-tested remedy. No ethical druggist will suggest something "just as good."

S.S.S. Tonic stimulates the appetite and helps change weak blood cells to strong ones.

Texas Pennant For Texas

By Collier Parris

NICE GOING, this Texas League playoff. And you wanta know why? It's because the Beaumont and San Antonio clubs are made up of just kids—even as you and I, Elmer—and they're in there putting a lot of the old college try, as well as a lot of natural ability, into their business.

● ● ●

Not that we dislike Oklahoma, or anybody from Oklahoma, but because we're a Texan, first, and a champion of young athletes, we were mighty pleased to see a couple of Texas teams come through to fight the main event in the Texas League pennant play-off. Both teams are made up of youngsters, and both clubs are very popular.

Why is it that Beaumont, smallest town in the Texas League, never has any squawk about lack of attendance, although the club never has installed lights for night play and is homed in one of the hottest towns in Texas? There are two reasons. In the first place, maybe, Beaumont is a Detroit farm and doesn't have to worry much about finances; in the second place, and probably more importantly, the Beaumont club is made up of youngsters trying to get up. They play their best, work their hardest, and when baseballers do that, it doesn't require much coercing to get the runs out.

● ● ●

San Antonio's Missions, while not out and out farmhands like the Beaumonts, also are youngsters, and are playing good baseball.

Besides, it is fitting that the teams finishing one-two should fight it out for the play-off title, although Beaumont finished the regular season with a nice margin over the rest of the field.

It's a nice race, and a nice league, the Texas League.

● ● ●

AS PREVIOUSLY prognosticated by this column, the Dallas Steers and the Chicago White Sox have severed all relations. A Dallas firm, the Shepps brothers, have purchased the Steers, bag and baggage, and the club will operate as an independent unit in the Texas League.

Just how the recent deal will affect Lubbock is not yet clear, although it is pretty safe to say that the White Sox will continue to operate in Lubbock, probably under the indirect direction of Bob Tarleton, former business manager of the Steers.

● ● ●

About all we know for sure—and maybe all we will know for sure until the December meetings of the National Association of Professional Baseball Leagues is that Hack Miller, skipper of the Hubbers during the 1938 season, is back in Lubbock to stay for the winter. Hack and Mrs. Miller came back yesterday; both will be working people, their jobs being about half a block from each other. Hack, who sold Lubbock fans pretty thoroughly on baseball this summer, will try to sell men's wearing apparel at Samuel Rosenthal's place of business.

● ● ●

BUT IT'S ABOUT time to commence thinking about the football program for the weekend.

Things double up this week, to make room for the fair, horse racing, rodeos, etc., next week. No football in town from this Saturday night until the night of Oct. 8 when Tech plays Oklahoma City university here.

Tech goes 'way up to Buffalo, N. Y., next week to play Duquesne university, while the Westerners sashay over to Oklahoma City to play Capitol Hill High.

But in the meantime, both clubs have some home work to do.

● ● ●

The Westerners make their first home appearance of the season tomorrow night, meeting the Abilene Eagles. It should take very little coercion to get you out to that game, which looks like the highlight of the season until the Amarillos come here on Thanksgiving.

A three-game deadlock between Lubbock and Abilene should be busted Friday night. In their last three meetings, neither Westerners nor Eagles have done any great amount of running away. Neither has defeated the other. In fact, during the last six years, one side has scored 25 points and the other side has scored 25 points, against each other.

So tomorrow night's game ought to be something of a dilly.

● ● ●

The Texas Techs bump into something new and different Saturday night when Coach W. A. Witte's University of Wyoming Cowboys take the field. Wyoming rates right high over in the Big Seven, or Mountain States league, and the club is rated stronger this year than last.

Tech made a very neat start last Saturday night against Montana State, showing all kinds of offense and enough defense to keep the Montanas from even threatening.

Captain Frank Guzick, spearhead of the first team's assault last week, won't be in there tomorrow night, having happened to a knee injury, but the backfield will be heavier, and Bobby Holmes, who knows just about what it's all about in this game of football, will be chanting the signals. The fans are hoping Holmes won't be modest; they'd like to see him carry the mail upon numerous occasions.

● ● ●

Time now to introduce another of Tech's foes for the season. We're now down to November 19, when Texas Tech plays, in Albuquerque, N. M., the . . .

UNIVERSITY OF NEW MEXICO . . . Will count as a Border conference game for New Mexico, but not for Tech, since the Raiders aren't seeking the league flag this year . . .

The university, located at Albuquerque, has an enrollment of 893 men, 694 women . . . The colors, Cherry and Silver . . . Team nickname, Loboes . . . Athletic director, Roy W. Johnson . . . Head coach, Ted Shipkey, Stanford '25; assistants, Willis Barnes and John Dolzadelli . . . Member Border Intercollegiate Athletic conference . . . Claim 1934 and 1935 championships . . .

The 1937 record: Defeated New Mexico Teachers, 14-0; lost to Denver, 0-12; lost to New Mexico Aggies, 0-5; tied Texas Mines, 7-7; lost to Texas Tech, 0-27; Defeated Arizona State Teachers, Tempe, 16-7; Defeated Colorado, 26-6; lost to Arizona, 0-23; defeated Arizona State Teachers, Flagstaff, 7-6 . . . The 1938 schedule: New Mexico Teachers, Tempe Teachers, Colorado, Texas Mines, Flagstaff Teachers, Arizona U., Denver U., New Mexico Aggies, Texas Tech, Colorado Aggies.

General information: Twenty squadsmen, five varsity regulars returning from 1937 team . . . Club definitely branded as stronger for this year . . . A light line, but the backfield will make up the difference in speed and deception, also a pair of good slingers and several reputable snaggers coming up.

Add White To Those Who Think Pro Grid Game Is Tougher

NEW YORK, Sept. 22. (AP) — You may add Byron "Whizzer" White to the list of those college football immortals who have discovered to their own satisfaction that the professional game is tougher in every way than the ivy variety.

After only three games in the backfield for the Pittsburgh Pirates, White admits he already is sporting more bruises than he collected during three seasons of starring for Colorado university. He was honored at a slight banquet here last night, the attendance being curtailed by the fact that taxis practically were floating through the streets.

"I've already felt enough to know there's a lot of difference in the two games," said the All-America guest. "One of these fellows seems to hit me as hard as three of them did in college. Another thing, the going is hard every minute of a professional game. There doesn't seem to be a minute you can let up and catch your breath, without getting scored on."

Despite this small complaint, the Whizzer is glad of his decision to get in one season of money football before reporting at Oxford university in January. The money, he admits, will come in handy while he spends three years digging for a law degree.

Mrs. Smith And Mrs. Heilhecker Win In Ladies Day Program

Triumphant over a field of eleven in the 18-hole feature of Ladies Day at Lubbock country club yesterday were Mrs. Glenn D. Smith and Mrs. J. W. Heilhecker, first and second respectively.

Mrs. Arthur A. Moore took honors in a similar nine-hole event. Prizes were given on basis of winning a "blind hole" event.

Women of the country club will go to Big Spring Friday for play with golfers there.

Mrs. Cliff Widener was hostess Wednesday.

Entries in the 18-hole tourney were:

Mesdames Widener, Heilhecker, Smith, Charles Akey, Cliff Dean, Frank Wright, M. M. Brown, Fenner Tubbs, E. A. Patterson, E. A. Henry, and Kirk Dean.

Mesdames Moore, George Pierce, Kay Bradshaw, T. B. Duggan and Olan Key competed in the nine-hole event.

Brownfield Golfers Challenge Meadowbrook Players Sunday

Brownfield golfers have tossed a challenge at Meadowbrook of Lubbock, and "something has to be done about it."

The locals will meet at Terry & Childress hardware Sunday morning to lay plans for the conflict over the Terry county layout at 1 o'clock that afternoon, according to J. W. Byrne, Meadowbrook professional.

Every Meadowbrook player is urged to be ready, Byrne said. The Brownfield group is heated up over the forthcoming contests, and is prepared for a stiff battle.

The triggerfish camouflages itself by imitating the tropical grasses in which it swims.

Pirates Being Rained Into Loop Flag

By SID FEDER
Associated Press Sports Writer

"Noah" Traynor, chosen of the baseball gods, sent his doves out again today to see if the floods had subsided. But, frankly, he didn't much care.

His Pittsburgh Pirates "ark" was the one boat afloat the rains couldn't hurt. Even if it kept raining the figurative 40 days and 40 nights until the National league season ends, "Noah" and the collection of diamond life he was on the ark would bounce onto the World series "Ararat" anyway.

Every Rain Drop Counts

Such other scows and barges as those on which the Chicago Cubs and Cincinnati Reds are riding have had huge holes knocked into them by the downpour. Every game rained out in the first division this week—and there has been a record number of 14 of them — can be marked down in the Bucs' victory column, for if they don't play they can't lose.

When the second-place Cubs and third place Reds, 3 1-2 and 5 games back, respectively, as the victims, they can't win — and so have no chance to catch up with the Pirates.

Can Play .500 Ball

As matters now stand, the Pirates can play .500 ball in their 12 remaining games and still be fairly sure of grabbing the pennant.

There has been only one National league tilt since Sunday, and that one saw Paul the daffy Dean, in his second comeback start for the Cardinals, pitch a seven-hitter to blank the Boston Bees, 4-0, yesterday.

The Yankees, who have been more chumps than champs since they sewed up the American league pennant, stretched their losing streak to six games in kicking away a 5-2 decision to the Chicago White Sox. Three errors gave the Sox their runs (all unearned).

Hank Greenberg remained three games in front of Babe Ruth's record 1927 home run pace by clouting his No. 54 for the year as the Tigers rounded the Athletics twice, 8-6 and 3-0. Jimmy Foxx's 47th four-bagger paced the Boston Red Sox to an 8-4 margin over the Browns in the only other game that wasn't drowned out.

Beaumont And San Antonio All Square

SAN ANTONIO, Sept. 22. (AP)—The Beaumont Exporters and San Antonio Missions were all-square again today in the battle for the play-off series at Beaumont.

The Shippers won last night, 8-4, to draw abreast of the Missions at two victories each.

Schoolboy Rowe, ex-big leaguer, was expected to take the mound for the Exporters tonight but Dizzy Trout may get the call, with Rowe pitching the opener in Beaumont tomorrow. Bill Trotter or Chili Wagener will be on the firing line for the Missions.

San Antonio rolled up four scores in the first three innings of last night's game while Beaumont failed to dent the pan but the Shippers hammered Jack Kramer from the hill with a three-run barrage in the fourth and spiked the plate with two more in the fifth to sew up the tilt.

Mrs. Page And Patty Berg In Two-Gal Show For Golf Title

CHICAGO, Sept. 22. (AP)—A miss and a matron, with contrasting personalities seemed destined today to turn the battle for the national women's golf championship into a strictly two-gal show.

They are Mrs. Estelle Lawson Page, 31-year old housewife, of Chapel Hill, N. C., defending champion, and her most feared challenger, Patty Berg of Minneapolis. Both displayed ability to meet any dangerous situation in winning their second and third rounds yesterday. Mrs. Page swept aside Helen Waterhouse of Warwick, R. I., two and one, and then turned in a four and three victory over Betty Jameson of San Antonio, Tex.

High Schools Card Sixty-Six Games

BY HAROLD V. RATLIFF
Associated Press Staff Writer

The Texas Interscholastic league football campaign rumbles along all fronts this week, bringing into action all but one of the 109 class A teams and opening the conference drive in three districts.

The Panhandle, Fort Worth and Central Texas sectors have games counting in the standing and the second conference tilt is scheduled in district 4 where Austin (El Paso) blasted off the lid with a 19-0 win over Fabens last week. Odessa, a newcomer, plays El Paso High Friday.

Lamesa Plays Plainview

Lamesa, which came into district 1 from class B ranks, engages Plainview in the opening conference game of the Panhandle. Both are undefeated, each holding a victory over another district title contender. Lamesa defeated Big Spring of the Oil Belt and Plainview downed owie, the El Paso district favorite.

At Fort Worth, Arlington Heights and Fort Worth Tech, each with an interdistrict defeat, tangle in the first conference tilt of district 7.

Bryan Meets Corsicana

Bryan and Corsicana open the district 11 drive in a game that has the critics guessing. The highly-ranked Broncos last week lost to Beaumont, which had not been rated anywhere as strong as usual, but Bryan was badly crippled for the game. Corsicana, reporting its best team in years, did not reveal much in down class B Ennis.

One other district has already started the conference drive, Breckenridge last week smashing Mineral Wells, 44-0, in the eastern division of the Oil Belt.

Sixty-six games are scheduled this week, 34 of them of inter-district nature. Sam Houston of Houston is the only school that will not have seen action.

Outstanding Contest Here

Feature games dot the schedule from Panhandle to Gulf with the clash of Abilene and Lubbock probably the outstanding contest. It brings together two district title favorites, Abilene being the top-ranked team of the western division of the Oil Belt and Lubbock being rated the best bet of the Panhandle, where Amarillo must always be heard from.

Another feature sends Masonic Home (Fort Worth), which last week tied the state runner-up Wichita Falls team, against Highland Park of Dallas, the favorite in district 6. Edinburg and Mission, top-rated team in the Rio Grande valley, clash in the South Texas standout.

This week's complete class A schedule:

District 1 — Friday: Northeast Oklahoma City) at Pampa, Abilene te Lubbock, Lamesa at Plainview (conference).

District 2 — Friday: Memphis at Childress, Breckenridge at Vernon, Eastland at Graham, Sherman at Wichita Falls, Cleburne at Olney.

District 33 — Friday: North Side (Fort Worth) at San Angelo, Colorado at Big Spring, Spur at Sweetwater, Mineral Wells at Strawn, Weatherford at Cisco, Santa Anna at Brownwood.

District 4—Friday: El Paso High at Odessa (conference), Amarillo at Austin (El Paso), Bowie (El Paso) a. Carlsbad, N. M. Ysleta at Alpine, Fabens at Marfa.

District 6 — Friday: Denison at Greenville, Masonic Home (Fort Worth (Dallas) at Denton, Gladewater at Sulphur Springs, North Dallas at McKinney.

District 7 — Thursday: Arlington Heights (Fort Worth) vs. Fort Worth Tech (conference); Friday: Borger at Poly (Fort Worth); Saturday: Electra at Paschal (Fort Worth).

District 8 — Thursday: San Jacinto (Houston) at Sunset (Dallas); Friday: Longview at Dallas Tech; Saturday; Gainesville at Woodrow Wilson (Dallas).

District 9 — Friday: Henderson at Kilgore, Jacksonville at Marshall, Roverside (Fort Worth) at Athens, Byrd (Shreveport) at Texarkana.

District 10 — Friday: Tyler at Palestine, Groveton at Lufkin, Gaston at Timpson, Kirwin (Galveston) at Livingston.

District 11 — Thursday: Kerens at Waxahachie; Friday: Austin at Temple, Forest (Dallas) at Hillsboro, Corsicana at Bryan (Conference), Mexia at Waco

District 12 — Friday: Reagan (Houston) at Thomas Jefferson (San Antonio), Luling at Harlandale (San Antonio); Saturday: Lamar (Houston) at San Antonio Tech.

District 13 — Friday: Brackenridge (San Antonio) at Austin (Houston), Navasota at Conroe; Saturday; Adamson (Dallas) at Milby (Houston).

District 14 — Friday: Jeff Davis (Houston) at Galveston, Nacogdoches at Port Arthur, Lake Charles, La., at Beaumont, Vinton, La., at Orange, French (Beaumont) at Goose Creek; Saturday, Huntsville at South Park (Beaumont).

District 15 — Friday: Lockhart at Robstown, Laredo at Del Rio, Kerrville at Corpus Christi, Kingsville at Taft.

District 16 — Friday: Donna at McAllen, Weslaco at San Benito, Edinburg at Mission, Mercedes at Harlingen, Raymondville at Pharr-San Juan - Alamo, La Feria at Brownsville.

All doubleheaders.

Five Straight Postponements Is Record For Tennis Play

FOREST HILLS, N. Y., Sept. 22 (AP)—The United States Lawn Tennis association, with an eye on the weather man, will play off the remaining semi-final matches of the National singles tournament tomorrow after five straight postponements, a record for the tourney.

Although the courts were covered, five days of rain had so deeply penetrated the turf and flooded the exits, officials announced yesterday that it would take fully 24 hours of drying weather before the courts would be in condition to play.

St. Paul And Milwaukee Battle For Right To Meet Kansas City

ST. PAUL, Sept. 22. (AP)—Kansas City's opponent in the American association final playoff series will be selected here tonight, barring rain or a tie game.

Returning to their home lot trailing Milwaukee's Brewers by a game in the semi-final playoff series, St. Paul hammered Buck Marrow for a 9 to 0 victory last night to even up the series in which they once were on the short end of a 3 to 1 count.

BATTLE TO DEADLOCK

BISBEE, Ariz., Sept. 22 (AP)—The score in the Arizona-Texas league playoff series remained El Paso 2; Bisbee 1, last night after the teams battled to a 6-6 deadlock in the fourth game, with darkness ending the proceedings.

Westerners In Fine Fettle For Eagles

Despite the absence of a regular and a reserve, the Lubbock Westerners were at it with zest and ambition yesterday in preparation for the game Friday night with Abilene High school's Eagles.

More than two hours the hustling gridders chased over Westerner practice field giving Coaches Weldon Chapman and Goober Keyes a good chance to find flaws that may crop up in the contest. The week's workouts have been devoted to smoothing out rough spots showing up in Fort Worth last week and building a capable defensive network for the Eagles.

Howard Martin, reserve halfback, went to the hospital Tuesday afternoon with a slightly fractured shoulder. He has been counted on as a first-rate substitute, but will be out of uniform at least three weeks. Paul Sparkman, regular center, has a leg in a cast as result of a fracture sustained against North Side.

Dummy scrimmage and pass defense consumed most of Wednesday's session. The lads will take it easy this afternoon and give their muscles a respite.

The fact that North Side's titan line held no horrors for the Westerners gives rise to belief they will hold their own against a heavier eleven.

Six Lettermen Back

Coach Dewey Mayhew has retained a half dozen lettermen from his fast 1937 machine. Roland McAdams, 180-pound end; Dub Sibley, lightweight center; Charles Jones, 162-pound halfback; Ellis Jones, substitute back who scales 162 pounds; Raymond Chambers, 173-pound guard; and Clayton Leach, 154, running mate to Chambers, were winners of spurs last year.

Bill McClure, 132-pound streak of lightning, sparks Abilene's running attack from his tailback position. He does most of the punting and passing and is a fair broken field runner. Charles Jones does the line ramming.

With exception of Red Pipes at center in place of Sparkman, it is likely that Coach Chapman will start the same men Friday night who opened the North Side game.

Ernest Winter may oust Joe Bob Foster at one end, and Deal Hill probably will start at the other. Pat Farris and Jerry Nash are slated for tackle duty. Howard Alford may get into the lineup in place of either Joe Pytell or Lloyd Sanders.

The backfield is considered intact with Capt. Jumbo Webster, Rusty Johnston, Harold Parsons, and Lecie Jackson.

Injuries Show Up In Raider Ranks

First of the "bear" stories for the season came, unintentionally, from the Texas Tech football department yesterday.

Chances of the Red Raiders to continue pursuing the smooth course launched by the first team last Saturday night have been slightly dimmed this week as result of costly injuries sustained in the Montana State game.

Texas Tech coaches do not like to speak of injuries, and have remained quiet about the hurts sustained by Captain Frank Guzick, Halfbacks Milton Hill and Bobby Holmes.

Holmes Calling Signals

It is significant, however, that Captain Guzick is not taking active part in the practice proceedings as the Raiders bow their necks for the Saturday night game against University of Wyoming; that Walter "Bull" Rankin, 190-pound sophomore who played at fullback as a freshman, is filling the quarterback slot on the first string, and that Bobby Holmes has recovered sufficiently from his injury to resume his regular left halfback post—and that Holmes is calling the signals.

Calling signals is nothing new for Wee Bobby. He was a quarterback long before he started taking halfback lessons at Tech, and he seems to fit into the role of signal chanter without undue difficulty.

Rankin, who played a jam-up game with the second stringers against Montana State last week, is looking good at the blocking position vacated temporarily by Captain Guzick. The first string loses no weight—in fact, gains a little — by the substitution, but does lose a lot in generalship and experience that may handicap the Raiders against the up and coming Wyoming Cowpunchers, who are due here tomorrow.

Murphy Is Captain

During Guzick's absence, Line Captain A. B. Murphy, regular tackle, will serve as captain of the team.

Just when Guzick will be ready to play again is a vague problem. Nature of his knee injury never has been fully explained, but it is possible he may be out of the lineup for a month.

Milton Hill, playing his first year with the varsity, sustained a hurt in the Montana State game, too, and is being replaced on the second team by Johnny Simms, the Mineral Wells flash. Simms, Jodie Marek, Buzzy Barnard and Raymond Plusche were lining up on the second team backfield yesterday.

No changes have been made in the line. George Webb, who looked great in the Bobcat game, displaying sure signs of being capable of taking over Red Ramsey's job, remains at left end, with Bill Davis at left tackle, Dixie White at left guard, Rex Williams at center, Holt Waldrep at right guard, Murphy at right tackle and Thurman Bostick at right end.

The Raiders leave Lubbock Tuesday for their first trip of the season, a lengthy train ride to Buffalo, N. Y., where they clash with Duquesne university's Dukes on Friday night, Sept. 30.

Previous plans to make the trip by airplane were discarded because of local landing and taking off facilities, or lack of them, and because no major airline company seemed able to provide suitable equipment at the proper time and place, and for a reasonable price.

FIELD HAS TO WAIT

NEW YORK, Sept. 22. (AP)—The field of 275 crack golfers gathered for the rich 108-hole Westchester tournament will have to wait until tomorrow to start pursuit of the $13,500 purse because of the torrential rains of yesterday.

The field will be divided, one half playing 18 holes Friday, the other playing 18 Saturday. The low 150 scorers play another 18 holes Sunday and the low 75 play 36 holes Monday after which the low 60 play 36 holes Tuesday.

Wyoming U's Squad Resumes Trip To City

(Special To The Journal)

RATON, N. M., Sept. 22. — The finest squad of football players, individually and collectively, in the history of University of Wyoming continued toward Lubbock and a Saturday night clash with Texas Tech after a sizzling workout here in the high hills of New Mexico Wednesday afternoon.

The Cowboys worked out under a blazing sun for the second day in a row, having drilled in Pueblo, Colorado, Tuesday. The squad seemed to stand the higher temperatures better than yesterday.

Many Points Corrected

The first hour of practice was devoted to the kickoff, and going down under punts. Line Coach Hokuf was not very well satisfied with linemen on the kickoff. Many points were corrected, and as a result, the opposing ball carrier will not be able to take as many liberties on the kickoff as he may have anticipated.

Balance of the practice period was spent on pass defense, and the Cowboys have that department of play down pretty pat, what with all-conference basketball players in the backfield. Winterholler and Krpan know how to bat down a thrown ball, and are rangy enough to do it. This is one of the strongest points in Wyoming's defense.

Have Passing Offense

On the other hand, the Cowboys have a nice passing offense themselves, with Winterholler, Faris and Krpan throwing them and the ends, as well as the backs, being good receivers.

White has received the starting call over Dorrington and will be in the blocking back position. The rest of the starting lineup will remain as previously announced, with Ferris, Winterholler, Krpan and White in the backfield, Dickson and Sturnman at ends, Moncinni and Fratto at guards, Dunbar and Nipper, tackles, and Heton, center.

While the Cowboys don't have the glowing record to compare with their highly touted Texas Tech adversaries, an upset could easily happen.

The Texas fans will see their favorites against a very worthy opponent.

The Cowboys move to Dalhart for a light workout at noon Thursday, then into Amarillo for a night drill.

Increases Shown In Texas Department Store Sales During August

Total For 1938 About Same

AUSTIN, Sept. 22—Sales of Texas department stores during August expressed in dollars showed more than the normal seasonal increase over July and were slightly above those of August last year, according to the University of Texas Bureau of Business Research.

Reports from 106 Texas establishments indicated gains in sales of 22.2 per cent over July and 1.1 per cent over August last year. Aggregate dollar sales in these establishments during the first eight months of the year were practically identical to those of the corresponding period in 1937.

Collections Are Less

Credit sales constituted a larger proportion of the total than in August last year, while the percentage of collections to outstanding accounts was slightly less than a year ago.

Employment and pay rolls in Texas during August changed but little from the preceding month, the bureau reported. Employment increased moderately, but total weekly pay rolls declined slightly. Both employment and pay rolls made unfavorable comparisons with August last year.

Employment Is Greater

According to estimates based upon reports from a representative list of manufacturing establishments of Texas, employment during August was 1.3 per cent greater than during the preceding month and 10.1 per cent below that of the corresponding month last year. Total weekly pay roll was 0.2 per cent below that of July and 13.3 per cent under August, 1937.

All Texas establishments, including manufacturing concerns, showed an increase in number of employes during August of 0.1 per cent over the preceding month but a decrease of 8.1 per cent from August last year, while total weekly pay rolls showed no change from July but were down 7.6 per cent from August last year.

Industries Show Gain

Manufacturing industries showing substantial increases in both employment and pay rolls over July, 1938, included men's work clothing, furniture manufacturing, saw mills, and cottonseed oil products.

Those showing slight increases both in employment and pay rolls over July were: Planing mills, newspaper publishing, petroleum refining, brick and tile, structural and ornamental iron. Three Texas industries — carbonated beverages, commercial printing, and newspaper publishing—showed increases in employment and pay rolls over August, 1937.

Tax Exempt Securities Should Be Prohibited, Report Says

NEW YORK, Sept 22 (AP)—Tax exempt securities should be prohibited in the future, in the opinion of a Twentieth Century fund committee which made public a study report last night.

The Twentieth Century fund is an organization endowed by the late Edward A. Filene, oston merchant, to conduct independent researches into social and economic problems.

The committe had members representing institutions, business and the public.

Tax exemption of federal, state and local government securities, the report said, "makes it unhealthily easy for government bodies to go into debt," and makes "debt investments too attractive to wealthy people who can best afford to run the risk of direct ownership in stocks, real estate, and other equities."

'Old Constitution' Is Damaged By New England Hurricane

BOSTON, Sept. 22 (AP)—The century-old frigate, "Old Constitution," was damaged in the hurricane which swept New England last night.

The vessel, heroic figure in the war of 1812 with Great Britain, was torn from its moorings during the height of the storm and jammed against the dock.

School Supplies To Admit Kiddies Friday At Lindsey In Annual Benefit Matinee

Annual 'school supplies' matinee of the Avalanche-Journal and the Lindsey Theaters will be staged from 3 until 6 o'clock Friday afternoon at the Lindsey theater in answer to pleas of aid frim school officials.

Every child who brings some article of school supplies that costs five cents or more will be admitted to the theater free.

Children in the Mexican and negro schools and in two of the white schools are in need of supplies and without funds to buy them. The matinee is staged annually by the newspapers and the theaters to provide the supplies. Last year more than 600 articles were received.

Supplies such as tablets, pencils, crayolas, rulers, erasers, scissors, paper and the like are needed.

Manager Arlie Crites announced that Bob Baker in 'The Singing Outlaw' was the feature picture for the matinee with the first chapter of "The Lone Ranger" as a special attraction.

Bell And Meyer In Tie On Lamenting Loss Of Regulars

(By The Associated Press)

Southwest conference football squads eased up today with but one more practice session between them and opening games and Coach Matty Bell of Southern Methodist university found Dutch Meyer, mentor of the Texas Christian Horned Frogs, stealing his stuff in the lamenting line.

Meyer let out a loud wail after he sent his varsity against the freshmen in an offensive scrimmage. The coach was far from pleased at the results. Adding to his troubles was the absence of Allie White and Bud Taylor from the regular line-up because of injuries though both were expected to start against Centenary.

Bell was not far behind, worrying over the fact that his regular left tackle, George Sanders, would not be able to start against the North Texas Teachers. He was cheered, however, because Captain Charlie Sprague would be able to answer "present" at the kickoff.

Future prospects—if not the present—helped Dana Bible's feelings at the University of Texas where a fine freshman squad battled the varsity for three periods without the regulars being able to score until given the offensive assignment throughout.

Morley Jennings found his Baylor Bears rounding into fine physical shape with the return of Lettermen Sherman Barnes and Fred Graham to the lineup. Frank Marx, out with an injured knee, was also expected to be ready for the opener with Southwestern university.

Coach Fred Thomsen had his Arkansas Razorbacks concentrating on pass defense. He didn't want the Porkers to develop into a "one-way" outfit: be able to throw a flock of passes but do nothing about heaves from the opposition.

The varsity squad plastered the freshmen, 20-0, in a revealing game for Coach Homer Norton at Texas A. and M. Pelly Dittman, John Kimbrough and Marion Pugh made the touchdowns.

Ernie Lain was the big talk, as usual, in the Rice institute camp. His passes were clicking and he was tearing things up running with the ball. There were prospects, also, that he would do his share of pass receiving. That would leave little more for him to do.

NEW YORK, Sept. 22—Bill McKechnie is pinning the flag hopes on his hot and cold Cincinnati Reds on the seven games coming up with the Pirates . . . Texas schoolboys, looking for breathers, found 'em last week. Forty-seven of 62 losing teams in the state tournament didn't even score . . . The winners averaged 21.5 points to 0 per game which is a lot of zeros in that hot football country.

Suppose the Pirates do swim in—the other clubs had the same change didn't they? . . .

Lou Little, who is as smart as Jack Hagerty, coach of Georgetown U., is the best man he ever coached.

Looks like it will rain Greenberg out, too, don't it? . . . All America pickers can remember the name of Quinton Lumpkin, who will do his stuff at center for the U. of Georgia this year . . . Everyone says he has what it takes . . . Winter golf in Florida has been hit a terrible lick . . . Due to a change in hotel ownerships it is doubtful if the $10,000 Miami open will be held.

Georgetown's Hoyas are supposed to be a team of Irishers . . . But there is only one Mike on the squad . . . And he is a guy named Mike Zinkovitch, who hails from Austria . . . Broadway will bet you fancy odds the Yanks take the Pirates in four straight . . . The Great White Way will do the same on the Reds, but not on the Cubs . . . There's a team that really is feared in this town . . . Harvard will be all right this year if Dick Harlow can produce a line.

TO RECEIVE PRIZE

Albert Vaughan, Lubbock insurance salesman, will receive a $100 cash prize as winner of first place in a nine-day selling contest sponsored by his company, he was advised Wednesday.

The campaign was sponsored by Mutual Benefit Health and Accident association with headquarters at Omaha, Neb.

Mar Allah Is Victor On Mat

The agile Prince of Persia, Ben Ali Mar Allah, used a two-fisted attack to considerable advantage last night at the Auditorium, defeating another "foreigner," George Hartay of Hungary, in the first and then the deciding fall of the main event at Sled Allen's weekly wrestling show.

It was Mar Allah night to Mar Allah and he proceeded to make it that for the crowd, one of the largest of the season. Despite the fact that Hartay pinned him in the second fall, it was the Persian most all of the way.

The Hungarian was hardly so aggressive as usual.

Sheik Wins First Fall

Nothing particularly rough developed in the opening fall, which the sheik took in 20 minutes. Feinting pain after taking to the ropes to disentangle Hartay's armlock, Mar Allah tied Hartay's legs into a knot around his own good right leg.

The Hungarian came back in the second setto with a little more fire in his eyes and exchanged a few punches with the winner. After 12 minutes, the last two of which he was sending Mar Allah's body flying through the air with body slams, he took the fall with a pin.

It required 22 minutes of milling the deciding round for the bewhiskered one to duplicate his winning hold of the first fall.

Kopecky Shows Off

Old Panther Joe Kopecky returned to the local ring after an absence of several months to gain a draw with Jack Hagen in the semifinal match.

The stalking Bohemian from South Texas spent most of his time "playing up" to the audience—and it might be said it was not an appreciative audience.

Walter Stratton and Gus Johnson fought to a deadlock in the opening encounter.

Suit Attacking Validity Of State License Law Is Filed

HOUSTON, Sept. 22 (AP)—A suit attacking validity of the state engineers license law and asking an injunction against the state board of registration for professional engineers has been filed by M. T. Garrett.

In his petition Garrett said the state board had ruled that his application for a license did not meet requirements, although he had worked as an engineer for about 19 years, had graduated from Texas A. and M. college and was engineer for numerous construction projects.

Laughs Are Mixed In With Job Of Getting Students To Buy Activity, Artist Course Tickets

James Huffman and Marian Hurmence are among those who are finding laughs in their job of selling student activity and artist course tickets.

One freshmen student at Texas Technological college, when asked why he did not want an artist course ticket, answered, "I don't draw."

Another blandly said he did not have a book.

"What?" said Huffman, puzzled.

"I don't have a book for the course," the student answered. So many students were pressing around the desk at which the tickets are being sold in the lobby of the administration building that time was not allowed for explanation that the artist course is a series of programs.

Huffman, president of the student body, said he expected a total of approximately 2,100 student activity books to be sold. The largest number ever sold before was approximately 1,800, last year. A total of 1,627 had been sold by close of registration Wednesday.

Miss Hurmence, a graduate student, is working during registration as an employe of the office of R. A. Mills, chairman of the artist course committee.

A total of 1,424 artist course tickets had been sold Wednesday afternoon.

Four artist course programs will be offered this year.

Ownership of a student activity book carries various privileges, including admission to all athletic events and to other events.

Was Given A New Outlook On Life

Surprised With Remarkable Change Gly-Cas Brought About In Her Condition; Enjoying Best Health In Years

"Gly-Cas is the only medicine I have ever tried that was able to reach my stubborn case," said Mrs. S. H. Morries, Route No. 3, Temple, Texas. "For years I had been bothered with a bloated, rock-like feeling in the pit of my stomach after eating. My heart was crowded terribly causing a nervousness that would not allow me any sleep at night. I tried first one thing and then another but failed to get any beneficial results. My children came home one day with a circular telling about Gly-Cas and upon investigating I found several of my friends and neighbors were recommending it so highly that I decided to put it to a real test."

MRS. S. H. MORRIES

"To my pleasant surprise I found Gly-Cas entirely different from everything else I had tried," continued Mrs. Morries. "I am now on my third box of this wonderful herbal remedy and am feeling like a different person. I can eat and enjoy my meals without any distress afterwards, no longer have to be careful of my diet, have a good appetite and feel fine. I sleep good, have gained weight, have renewed strength and energy and cannot say half enough in praising such a remarkable medicine as Gly-Cas—it gave me just the results I had been wanting but had been unable to find."

Gly-Cas is sold by Mark Halsey Drug Co., 1219 Broadway, this city, and by the leading druggists in surrounding towns.

Plans For Fall Activities Of Scouts Made At Levelland

LEVELLAND, Sept. 22 (Special) Plans for fall activities were made at a supper-meeting of western district committee of South Plains Boy Scout council here Wednesday night.

M. K. Young, district chairman, presided. Earl M. McClure, council executive, and Donald A. Petersen, field executive, attended.

Plans also were made for a training course for scouts leaders, Oct. 19 to 23. Place for the course will be determined later. A course for cub leaders will be conducted after the course for scout leaders.

The next court of honor for this district will be conducted early in November at Pep.

The annual district meeting will be Dec. 1 at Whiteface. Other arrangements for that meeting will be made later, it was announced.

To make a house cool in summer, not only insulation but also color should be considered. Shades of green and blue make a room seem cooler.

FALSE TEETH
That Loosen Need Not Embarrass
Many wearers of loose false teeth have suffered real embarrassment because their plate dropped, slipped or wabbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds loose false teeth firmer, so they feel more comfortable. Does not sour. Checks plate odor (denture breath). Get FASTEETH at any drug store.
When mouth tissues change, see your dentist.—Adv.

The PLAINSMAN Says:

SAN FRANCISCO, Sept. 20. (Special)—As there is an end to all things, the time has come to toss the extra shirt, toothbrush and comb into the battered old grip and leave this fine and intriguing city.

While The Plainsman has no desire in the world to move out here, he has never before visited in a city which, in a short length of time, has taken such a grip upon him.

Make no mistake about it, San Francisco has a lot on the ball and those who think Southern California and the Los Angeles area are "all there is to it" as far as California is concerned are just kidding themselves.

Our vote goes to San Francisco over the City of the Angels—and without an argument.

★ ★ ★

With the exception of the never-ending strife between employes and employers, here, the populace in this city seems far saner than that of Los Angeles and environs.

It's the L. A. part of the state that houses the nation's largest "lunatic fringe." There's where you get your Townsend plans; your "Thirty Dollars Every Thursday" pipe dreams; there's where Sister Aimee vies with the movies as an entertainment feature and there's where men go barefooted and women insist upon wearing slacks upon any and all occasions.

Up here the very aura of the community smacks of culture—rather than of pseudo sophistication.

If you'll take our word for it San Francisco tops even New Orleans for romance, historical background and as a place where one may live at a minimum of bother.

★ ★ ★

WHY, YOU'RE LIABLE to find something of interest in San Francisco anywhere you happen to glance.

Strolling down the street today The Plainsman ran across a cigar store Indian, standing not in a museum but, of all places, in front of a cigar store!

A sign aorund the image's neck explained that the old boy was brought around the horn—long before the Panama canal was dreamed of—in 1850 and first was lodged in Marysville.

The tobacco dealer beat a museum to it and there the "chief" stands, on one of San Francisco's business streets.

We'll bet you haven't seen a cigar store Indian in 20 years!

★ ★ ★

Despite their world flavor and true cosmopolitan viewpoints, San Franciscans are not "upstage."

They're not afraid to give vent to enthusiasm under conditions where enthusiasm is justified.

The other night we went down to the Curran theater where Gertrude Lawrence and the entire New York cast were closing a six-weeks run of "Susan and God," a play which deservedly "wowed" Broadway.

At the conclusion of the last performance, Miss Lawrence and her cast drew five curtain calls as the audience, albeit with dignity, expressed its delight at having in its city an artist of the calibre of Gertrude Lawrence.

In the face of such a spectacle, The Plainsman was surprised to hear a young man remark to his lady friend:

"That was a nice ovation for 'Gertie,' but it was nothing to compare with the goodbye we gave Katherine Cornell and Helen Hayes."

It has been a good many years since The Plainsman has seen an audience willing to risk being thought "unsophisticated" in order to give credit to a fine performance.

★ ★ ★

ANOTHER thing the visitor can not help but appreciate about San Francisco is the fact that nowhere — even in the meanest sections—can be found "big city slum" areas.

The Plainsman has been in a number of the congested communities of our land but has yet to see one where living conditions for the less fortunate element are generally better than they are here.

In fact, we've never seen another big town where the underprivileged are as well housed.

★ ★ ★

One can get a pretty good slant on San Francisco's views of life by taking a peek at its $17,000,000 civic center, which is as much the pride and joy of the bootblack on the corner as it is the richest gink in town.

To civic center's big music hall come the operas—at prices within reach of the wage-earner. And right now is being advertised a series of musical entertainment of the lah-de-dah type with 10,000 seats at 10 cents each!

The local newspaper boys tell us that San Franciscans in all walks of life throng such programs, which are appreciated like by the colonel's lady and Missus O'Grady.

★ ★ ★

BECAUSE of its position as a port of world trade and as the end-of-the-line for numerous railroads, one would think that San Francisco, like Los Angeles, Chicago, Kansas City and New York, is overridden with bums.

Such is not the case.

The Plainsman has been on all sorts of streets at all sorts of hours since arriving here and has yet to be approached by a guy seeking "a dime fer a cuppa cawfee."

That is a record which could not be rung up in any of the cities named — or in almost any other community of 100,000 or more in this whole country.

We've been "panhandled" on this trip in Denver, Salt Lake City and Reno to date — but not in San Francisco.

★ ★ ★

Interesting to a West Texan or, for that matter, any lover of fine horse-flesh, are the intelligent and handsome animals ridden by San Francisco's finest—the mounted police.

Unlike the police horses in Chicago and New York, those here are not chosen with an eye for matching colors.

Blacks, bays, sorrels and chestnuts are all to be seen but for training in traffic not even New York's horses surpass San Francisco's.

Down in the strike area of the three-cornered shopping area the horses are magnificent as they twist between lines of traffic and up on the sidewalks to keep pickets and the public moving with danger of a jam up—which might presage violence—is seen.

In fact the horses seem superior to both policemen and strikers in their calm demeanor. You never see one rear, or step on a person's foot.

Incidentally, mounted policemen here ride stock saddles, instead of the McClellan type generally used by policemen.

★ ★ ★

LUBBOCK and South Plains folks who come out here next year for the World's fair are going to see a spick and span metropolis, with shining store fronts and light-flooded buildings.

With the slogan "Shine for '39," San Francisco is spending millions so that it's best foot will be forward when the world comes here to play and learn upon the artificial island built in San Francisco bay between here and Oakland.

The newspapers are using a thumbnail size shield, bearing the "Shine for '39" slogan, with all stories dealing with new construction or remodeling.

★ ★ ★

San Francisco is said to be one of the most tolerant cities in the United States.

It must be. The Plainsman sees a lotta men carrying canes—although not lame—and nobody seems to be jeering at 'em!

★ ★ ★

SO, IT IS with regret that we get ready to leave here for Los Angeles—although the regret is softened by the fact that it won't be long before we're home again in "God's country."

But we would be grossly without gratitude to a fine city were we not to say this, in closing:

San Francisco, at fair time or any other time, is well worth visiting. There may be other cities offering as much in the way of interesting sights, elegant climate, fine foods and perfect relaxation, but—

There is no city capable of offering more than San Francisco.

The Story So Far: The boxwood hedge, surrounding Goodloe's Choice in the Maryland hunting district, is a symbol and a sacred boundary. On the inside Judith Goodloe is longing to hear a proposal from dashing Gary Brent. Outside, on horseback, Reuben Oliver peers enviously over the hedge. In spite of his self-made fortune, Judith is beyond his reach.

Chapter Seven
Not Sporting

Reuben started when a voice said genially: "You here, Oliver? I thought you left the Club by the other road?"

"I did, then switched around. You've caught me snooping, Jim. I beg your pardon."

Jim Goodloe waved the apology carelessly aside. "Look," he pointed with his crop. "The pups I told you about."

Silently they watched the two red setters scampering about. A white cat climbed frantically to a place of safety in the rose arbor and looked indignantly down. Lank, white coated boy and trim maid moved expertly about. Back of Mrs. Goodloe's chair Amos stood like a guardian angel.

Reuben spoke his thoughts: "It doesn't seem quite real."

He meant that it was subtly unlike anything his money, so recently acquired, had been able to buy. To his eyes it was unattainable as some fabulous Nirvana. A heaven to be entered by a chosen few. He glanced quickly at Jim Goodloe. "With such a background and folks to love him a man should go far."

Jim caught the glance and perhaps something of its half envious longing. He said: "We think it's pretty nice here, but never having lived anywhere else, we can draw no comparisons."

"There aren't any."

"Thanks. Come in, Rube, and meet my grandmother."

Dark, as were all the Goodloes, kindhearted, reckless is the word that best described Jim. He always acted first, hastily, usually imprudently and seldom repented at all. "Come on in."

Terribly Reuben wanted to go in "Are you sure I won't intrude?"

Jim was quite sure Reuben would intrude but he said easily: "Sure! Let's go over it right here."

Reuben looked at the formidable green barrier, higher than the average man's head, at the similar one growing within, with such a short runway in between that only the most expert rider could go over successfully. Then he looked longingly at the wide swung gates a scant 300 yards distant.

Those gates were the safe entry fo rhim. Reuben knew it only too well, but some grinning, inner devil tempted him.

"Don't feel so inferior," it said. "What these people can do, you can do—and more—"

Laughing

"Let's go!" Jim put his scrawny little roan back a few paces and went over with ease. Reuben hesitated for the fraction of a second then followed.

"Ha!" The first hurdle cleared. "Easy!" He lifted his mount for the second with assurance. Midway across he looked straight into Judith Goodloe's amused eyes.

"She's laughing at me!" Reuben felt a rush of prickly heat. "Laughing!"

Involuntarily his hand upon the bridle tightened. He pulled his mount at the exact second when all four feet were off the ground. The startled animal hesitated, then plunged gallantly on.

Too late! Reuben tried to cling with his heels. Clutched at the gray's mane. Catapulted over its head. Turned a somersault that would have done credit to a circus rider, then, missing the tea table by a couple of inches and striking a huge stone jardiniere, he came ignominiously to earth and lay, unconscious, with blood rushing from a wide cut in his head.

"Oh—h!" The tea drinkers scattered in confusion. "Oh!"

"Look out, Judy!" Jim shouted to his sister who was in the path of the frightened gray. "Catch his horse, somebody!"

Gary captured the trembling animal. The others rushed to Reuben's side—all save Amanda.

"Who is it?" she demanded, between stiff lips.

"Oliver," Jim enlightened her.

"The cabbage person—I might have known!"

"He's terribly hurt!" There was no hint of amusement in Judith's eyes now.

Dick Blout, on his knees by the unconscious man said: "Bad head bump. Case for a brain surgeon, I'm afraid."

"Most likely it's a hospital case. Wouldn't it be better to call an ambulance?" Gary asked sensibly.

"An ambulance will be an hour getting here. We can't let him lie—"

"Dr. Slade will bring him around." Jim said, "Gran—"

The Indecency Of It

But the old woman sat frozen, unhearing.

"Of course Gran wants him taken to the house," Judith decided quickly. "Couldn't he be carried easier on that glider seat? Ben—Dick—take hold—"

They lifted the injured man. The procession, followed by watchers, started down the garden path. Only Amanda sat immovable, her eyes sunken slits of gray ice in her white face.

The indecency of the man! Tumbling off his horse! Breaking and tearing her boxwood!

Little did she care if his common neck was broken! But that hole in her hedge—a cruel, zig-zag rent that let the daylight through! It might have been in her own body, so acutely did she feel the wound.

For a long time she stared fascinated, then covered her eyes with trembling hands. Tears, the slow hard tears of age, trickled through her white, ringed fingers.

In all the years she had guarded that box! In all the years it had guarded her, such a thing had never happened! She shivered as though touched by a cold wind. Was it an ill omen?

A shadow slipped past her. Amos muttering something unintelligible about "po white trash" was, with unsteady, hurried fingers, trying vainly to patch the hole.

Jim, pacing around the lily pond, swore softly.

"A pretty kettle of fish! Oliver will probably be laid up for weeks!"

Absently catching grotesque glimpses of himself in the water, Jim scowled. His creditors would have to wait—Impossible to ask a man, tied by the leg under your own roof, for money.

"Gad, if I ever get out of debt, catch me ever getting in again!"

It was an old and often broken promise. Jim wondered why it was so hard for him to say no when there was money to be lost, and harder to say yes when it was to be picked up easily.

"I'm just a fool," he reflected bitterly. "A fool who knows nothing except horses, with a soft head and no backbone."

No use to try to get any more money out of Gran—she had raised a terrible fuss the last time—besides the old girl was having tough sledding herself, trying to make one dollar do the work of ten.

"I'll have to sit tight—it will be like sitting over a volcano. Oliver should have known better," gloomily. "It wasn't sporting."

Tomorrow: Cissy fans the fire.

Hold Everything!

Today's Journal Editorial . . .

BANAL WAR SPECULATION

Anticipating the lightning stroke of war, speculation is already mounting about the likely effects on American business of a crack-up of civilization. From Wall Street, the gambling center of this commercially unstable nation, already come trickling various opinions or guesses about the possible conduct of the nation's economic system under conditions of fire from abroad. "What will we get out of it?" is the distinctly sensed undercurrent of such materialistic prognostication.

Naturally, the American businessman sees something new to worry about in the upheaval abroad, as a prospect affecting his generally inhibited enterprise; but broadly considered, it is both previous and impractical to indulge in any degree of fatalistic commercial calculation. For one, it may be categorically written down now that a European conflict—even if confined to the continent—will affect the economic stability of all nations unfavorably, whatever opportunities it may unfold for opportunist commercial exploitation.

The real harm of anticipating events by selfish commercial prognosis is that this species of incipient wishful thinking tends to disintegrate a national attitude solidly set against the menacing tragedy of war. The problem promises to be—if war comes—not what to get out of it, but how to keep out of it; and it is a problem calling for American undivided vigilance and concern.

Certainly, if ever we are involved in another world war, by whatever devious, subtle process of infiltrative sentiment, it will be bad business for everyone, including calculating profiteers. This nation, through composite expression, has gone on record as cherishing the boon of peace above the unspeakable boodle of war; and the test of our sincerity will be in the preservation of this irreconcilable humane viewpoint.

This is indicated for the nation's business: For all to mind it scrupulously—lest we again sell our national birthright of peace for a mess of propagandist pottage.

Today's Thought

What thing soever I command you, observe to do it: thou shalt not add thereto, nor diminish from it. —Deuteronomy 12:32.

The first law that ever God gave to man, was a law of obedience.—Montaigne.

Hollywood Chit-Chat

BY PAUL HARRISON
Journal Hollywood Correspondent

HOLLYWOOD, Sept. 22.—About the time of the convictions, for false advertising, of the heads of the National Talent Corp. and Screen Juveniles magazine two other talent-finding enterprises folded and faded from Hollywood.

One was merely a movie-radio training school which operated locally. The other, which died aborning, was much more ambitious. It was a scheme whereby screen aspirants, young and old, all over the country, were to be sold the doubtful privilege of having their pictures printed in a periodical or catalog which was supposed to reach the desks of major studio casting directors.

It wouldn't be necessary to come to Hollywood at first. One would merely send in some money and a photograph and then sit back and wait for a wire from Paramount or Metro.

Of course it was a fantastic notion that casting directors—who are being driven crazy by thousands of aspirants already in Hollywood—ever would choose a new player from a picture in a catalog. With dramatic ability, a voice, and the intangible spark called personality counting much more than mere appearance these days, such a selection would be like buying a pig in a poke after seeing a snapshot of the poke.

* * *

'Everybody In The Parlor' Ordered The Spider

But this was only part of the plan. The concern expected to make its heaviest sugar from the further exploitation of its sucker list. Anyone unwary enough to subscribe to the come-on scheme almost certainly would be movie-mad, and therefore easy pickings for vendors of trick beauty preparations, correspondence courses in screen acting, and other items remotely relating to Hollywood.

Such advertising was to have been sent regularly to clients along with "confidential news letters" purporting to give the real inside dope on what was going on in the film colony and the talent market.

In a bold move to secure the endorsements of studios, the backers offered to let the studio publicity departments write the "confidential" reports, praising their players and pictures as they desired.

The scheme did not receive industry approval. However, too many enterprises do receive at least the tacit endorsements of some movie companies. The afore-mentioned Screen Juveniles magazine is a good example.

* * *

The Brick Looked Like Solid Gold

The Hays Office, which has representatives who investigate and pass on the merits of all such things, always has disappproved National Talent Pictures Corp., and its official publication. Studio publicity departments repeatedly have been warned not to co-operate in any way, and the Hays Office never has issued to the magazine any credentials for admission to the studios.

In spite of that, the magazine has been jam-packed with photographs taken by studio cameramen, and with illustrated articles about major stars and prominent players. Any out-of-town reader—and there have been thousands—would be impressed by the content of Screen Juveniles, and would assume that it was approved by stars and studios.

The answer, of course, is carelessness on the part of publicity men and the innumerable press agents representing individual players. It's impossible for studios to know what eventually will happen to the thousands of still pictures which are printed and distributed through many routine channels.

* * *

He Got Endorsements At Ten Cents A Head

The most damaging use of stills is their sale to advertisers in foreign countries.

For years, a certain foreign correspondent had a corner on the lucrative racket. He bought stills for 10 cents each from whatever sources would secretly supply them, and then peddled them in other countries at $2.50 each.

Thus, glamorous poses of famous stars would turn up in cheap magazines as endorsements of all manner of quack and undignified products. Quite a lot of costly maneuvering was necessary to squelch the gent's activities, because his frauds were committed abroad and it was not possible to prosecute him here.

The racket itself never has been completely halted.

Speaking Of 'Persecuted Minorities'---

Justice Comes Alike To The Rich And Poor In Washington--City Of Great Contrasts

By RODNEY DUTCHER
Journal Washington Correspondent

WASHINGTON, Sept. 22.—Justice comes alike to the rich and the poor in this great city of contrasts.

But the scheme of contrasts runs in two courts here, one the mighty United States Supreme court, housed in a $10,000,000 marble palace atop Capitol Hill, where litigation costing many millions comes each year. The wealthiest corporations and a government which speaks in billions fight their battles here.

Dutcher

Downtown in a rather shabby chamber of the Municipal Courts building is the contrast—the Small Claims court of the District of Columbia.

This is a federal court, but also a local court. It's the "poor man's court." It handles cases which involve sums of $50 or less at practically no cost to litigants. Anyone can file a suit. Servant girls, landladies, small storekeepers, tenants, wage earners, owners of dilapidated automobiles which someone has damaged still further—are among those who come to this court for justice.

If they can't afford to pay the $1 fee charged for filing a case, the act of congress says it may be waived. New York, Detroit and certain other cities have similar courts. But they're not common.

Justice Taft Approved

This one in Washington represents a formal blessing by congress on the principle once enunciated by the late Chief Justice William Howard Taft, that something must be devised "by which everyone, however lowly and however poor, however unable by his means to employ a lawyer and to pay court costs, shall be furnished the opportunity to set the fixed machinery of justice going."

Young Municipal Court Judge Nathan Cayton framed the legislation for the court and lobbied it through congress after a long battle againts certain judicial and bar association forces. Now he is the small claims court's "chief justice."

A timid young colored servant girl was the first plaintiff. She said her ex-mistress owed her $4.50 and kept saying "Try and collect" She collected. A landlord seeks and fails to collect $26 which Judge Clayton decides a tenant doesn't owe.

There were 1,344 cases filed the first month, 1,919 the second month, 1,772 the third month, 2,036 the fourth month. Most have been filed by corporations and business firms, which were quicker than the public to get onto the possibilities.

As Counsel And As Judge

But such cases against alleged small debtors were always filed. Previously the defendant virtually had to get a lawyer or concede the case. Now the judge, who can determine whether an article was worth the price charged, acts as defense counsel as well as judge.

Simplicity, speed and elimination of technicalities are court keynotes. The law provides for voluntary arbitration and conciliation of disputes. The court clerk prepares cases for individuals who ask his help.

The court papers contain no legal jargon, just everyday language. Service of suits by registered mail is permitted, plaintiff paying the 20 cents fee. Witnesses may be brought in by subpoena and there are few delays. Payments of judgments may be made on the instalment plan.

Night sessions are held for those who can't get around in the daytime. It's an astonishing innovation when Judge Cayton tells a lawyer, as he once did:

"I have neither time, inclination nor patience to listen to technical objections. I want to hear every bit of evidence in this case."

State's Deficit $14,363,635

(By The Associated Press)

AUSTIN, Sept. 22. (AP)—The general fund deficit stood at $14,363,635 today, having mounted $867,462 in the last two weeks, Treasurer Charley Lockhart has announced.

The announcement was in connection with a call for $49,328 in general revenue warrants. The treasury is paying all warrants up to and including No. 133,285, or those issued up to and including March 1, 1938.

The increase was expected, officials said, because at this season tax receipts fall off while expenditures of government continue.

Pope Pius Asks All Catholics To Pray For Peace On Sunday

CASTEL GANDOLFO, Italy, Sept. (AP)—Pope Pius XI, who chose the name for his pontificate hoping it would be an ear of peace, has asked all Catholic churches of Rome to devote an hour next Sunday to prayers for peace.

The pontiff instructed all churches of the city to hold an hour of adoration for the purpose.

Earlier today while receiving a group of French pilgrims he gave added evidence of his concern over international events.

A vatican news service quoted the Pope as telling the pilgrims he gave great blessings to all France and to Europe which is so greatly threatened in this moment."

"We place our hopes in the mercy of God, we hope all these threats and fears which hang over Europe may disappear," he was quoted as saying.

The maximum temperature of the day usually occurs toward the middle of the afternoon, although the supply of solar heat is greatest at noon.

Snyder Livestock Market
AUCTION SALE OF CATTLE EVERY THURSDAY, STARTING 10:00 A. M.

AUCTION SALE OF HORSES AND MULES EVERY SATURDAY

At our sale Thursday, September 15, cattle prices remained steady with those of the previous week. All classes of cattle moved freely with a strong demand for butcher cattle.

Tune in KFYO each Thursday from 2 to 2:15 o'clock and hear the auction sale, also music by the South Plains Singers direct from the sales pavilion. If you have livestock for sale or are in the market to buy don't fail to attend our Thursday auction sale of cattle and Saturday auction sale of horses and mules. Livestock sold at private sale every day. For best results consign your livestock to Snyder Livestock Market. Bonded and insured.

HOGS—Steady to 15 lower.

Colored Lights To Be Up During Fair

Christmas will do an acrobatic backward hop of three months for Lubbock and the South Plains.

Or so it will appear Monday night. The festoonery of Christmas lights that are strung around the court house square will burn all next week.

The occasion has nothing to do with St. Nick or filled stockings or gift buying.

Bands in the city probably will not even bring along the score of "Jingle Bells," "Silent Night" or that sort of music.

The lights will be in honor of the opening Monday of the 25th annual Panhandle-South Plains fair.

Twenty-three 30-foot poles were being erected this morning and will be left up until after Christmas. John Graham, superintendent of the city light plant, said he had been informed.

Influence Of Traffic Safety Course At Tech Is Indicated

Influence of traffic safety education courses at Texas Technological college may be seen in the first complete course in traffic safety theory and driving instructions offered in a Texas public school.

El Paso High school obtained permission from the college to use the syllabus of the course at Tech.

Tech is a forerunner in encouraging traffic safety instruction in public schools. This summer, it was the only college in Texas offering a course in traffic safety education for teachers.

Other public schools in Texas have taught traffic safety courses in theory but the El Paso schools are going further and including driving instruction in its course.

F. L. McRee, associate professor of civil engineering, has taught the Tech traffic safety course for teachers the last two summers.

PWA's Present Program Said To Be 'Largest And Fastest'

WASHINGTON, Sept. 22. (AP) — Secretary Ickes said today that PWA's present non-federal program, three months old, was its "largest and fastest."

Ickes based this statement on the launching of 5,592 non-federal projects which will cost $1,273,336,606.

Altogether, PWA has approved 6,583 federal and non-federal projects to cost $1,458,064,891 since President Roosevelt signed the 1938 PWA act June 21. PWA has agreed to contribute $808,257,985 toward this work.

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, Sept. 22. — Cotton futures opened unchanged to 4 points higher here today in response to favorable foreign markets and encouraging reports from Worth street.

October contracts opened at 8.06, Dec. 8.12, Jan. 8.11, March 8.14, May at 8.06, July 8.04 and Oct. (new) at 7.94 bid.

The market lacked incentive for trading during the morning but enough buying orders were executed to absorb additional hedging and profit taking and to lift active months to small net gains.

Towards mid-session trading was quiet and October contracts traded at 8.04, Dec. at 8.12, March at 8.13, May 8.08, July 8.08 and October (new) at 8.95, or 1 to 4 points above the previous close.

Official and private advice said temperatures continued to range below normal in the central and eastern belts and trade circles feared that premature opening of bolls would follow.

The turnover yesterday was 35,200 bales and open commitments 389,450 bales, a decrease of 450 from the previous day.

NEW YORK REPORT

NEW YORK, Sept. 22. (AP) — Cotton futures opened 1 to 3 higher on moderate trade and foreign buying. Oct. 7.98; Dec. 8.03; Jan. 8.04; March 8.05; May 7.99; July 7.98.

Continued nervousness over conditions in Czechoslovakia and early easiness in the stock market brought in more liquidation after the opening, as well as scattered hedging and New Orleans selling.

Dec. reacted from 8.02 to 7.96 and then recovered to 7.99 late in the first hour, when the list was 1 point net higher to 1 lower.

Prices held steady on continued trade buying of near months and foreign demand for distant positions later in the morning but trading was quiet as the market awaited the outcome of today's conversations between Prime Minister Chamberlain and Chancellor Hitler.

At midday Dec. sold at 8.10 and the list was net unchanged to 1 point higher.

Grain Market

FORT WORTH REPORT

FORT WORTH, Sept. 22. (AP) — Demand for grain here continued moderate today. Estimated receipts were: wheat 8 cars, corn 4, and sorghums 2. Cars manifested Wednesday were: wheat 8, corn 3, and sorghums 1.

Wheat No. 1 soft red winter 76-77; No. 1 hard 77-81.

Barley No. 2 nom 48-49.

Sorghums No. 2 yellow milo per 100 lbs. nom 85-87. No. 2 white kafir nom 84-86.

Corn, shelled, No. 2 white 60½-61½; No. 2 yellow 60½-61½.

Oats No. 2 red 35-39.

CHICAGO REPORT

CHICAGO, Sept. 22. (AP)—Immense export purchases in Canada, together with renewed nervousness over European political uncertainties, lifted the Chicago wheat market 1⅞ cents a bushel today.

Late estimates were that more than 4,000,000 bushels of wheat from Canada had been bought for overseas shipment. According to some reports, the Canadian purchases were apparently linked in greater or less degree with governmental emergency plans abroad.

At the close, Chicago wheat futures were ¾-1⅛ cents up compared with yesterday's finish. Dec. 64-64¼, May 65⅞-¾, corn unchanged to ⅝ higher, Sept. 50⅞-51, Dec. 49½-⅝, and oats showing ⅜ decline to ¼ advance.

Livestock Market

KANSAS CITY REPORT

KANSAS CITY, Sept. 22. (AP) (U.S.D.A.)—Hogs 1,000; top 8.95, sparingly; good to choice 180-280 lbs. 8.65-8.90; heavier weights scarce; good to choice 140-170 lbs. 8.00-8.65; sows 7.00-7.45.

Cattle 3,000, calves 800; several loads good grade fed steers 9.00-10.00; good fed heifers 8.50; most butcher cows 5.00-5.50, veal top 10.00, sparingly.

Sheep 5,000; no early sales; undertone firm, choice range spring lambs held above 7.75.

FORT WORTH REPORT

FORT WORTH, Sept. 22. (AP) (U.S.D.A.)—Cattle 2,200; calves 2,000; few fed steers and yearlings 7.00-8.25; plain steers down to 5.00; butcher and beef cows largely 4.00-75; bulls largely 4.25-5.00; bulk slaughter calves 4.75-6.75; practical top 7.00.

Hogs 900; top 8.85 paid by city butchers; packer top 8.75; good to choice 175-270-lb. averages mostly 8.75-75; good to choice 150-170-lb. 8.00-60; packing sows mostly 7.25-50; few to 7.75.

Sheep 2,500; spring lambs 5.75-6.50; yearlings 4.25-5.00; latter price paid for good fed yearlings; aged wethers 3.25.

Stock Market

WALL STREET REPORT

NEW YORK, Sept. 22. (AP)—A minor swing to the selling side today eliminated some of the stock market's gains scored on the preceding three-day rally but dealings shrank to the smallest in two weeks while Wall Street awaited the next turn of events in Europe.

Caution increased again all along the trading fronts as traders watched the aftermath of the British-French plan for dismemberment of Czechoslovakia. The hurricane disaster also the northeastern sea-board also was rated a factor in the shrinkage of speculative activity, although attention still was focused mainly on the European stage.

Selling was too light to make deep inroads into the wide gains piled up this week and most stocks dropped only fractions to a point or so, with a few showing wider losses.

Traditions approximated 500,000 shares, compared with nearly 3,000,000 in one day at the height of the recent selling on fear of war.

L. M. Engart Dies Early Today Of Illness; Funeral Friday

L. M. Engart, who would have been 62 years old Wednesday, died at 7:10 o'clock this morning at his 2503 Twenty-third street residence after an illness of approximately eight months.

He suffered from a malignment illness.

Engart, born at Lebanon, Ind., had operated Lubbock Typewriter shop two years. He will be buried at Memorial park cemetery after 2 o'clock rites read Friday afternoon by a reader of the Christian Science church at Rix Funeral home.

The widow, of Lubbock, and a daughter, five sisters and two grand daughters, all of Los Angeles, survive.

IS NOT A MEAL

FRANKFORT, Ky. (AP)—It takes more than a sandwich to make a legal meal in Kentucky.

Assistant Attorney General Guy H. Herdman decided the question in ruling drug stores serving only sandwiches are exempt from a state law levying a $10 fee on "each restaurant serving meals." Herdman held hotels must obtain the restaurant licenses.

Crash Near Spur Is Being Investigated

SPUR, Sept. 22. (Special)—Highway patrolmen of the Lubbock district office were in Spur this afternoon to investigate details of a truck collision early Wednesday that caused death of Adolph Woods, 23, of Hereford.

The mishap was 12 miles southeast of Spur.

Funeral arrangements for the victim had not been announced definitely, but the body had been taken to Hereford.

The accident happened when two trucks crashed. The truck driven by Woods was loaded with crushed rock. Both men were driving trucks on a road construction project between here and Jayton.

Skull Is Fractured

It was reported Woods was driving southeast and Ellis Andrews, of Spur, was driving in the opposite direction and the machine driven by Woods "angled" across the road, colliding with the truck driven by Andrews and a trailer attached.

His instant death resulted from the skull fracture and concussion, it was reported. Neither machine overturned.

Woods was not married. Names of his parents and other survivors were not known here.

Syrovy Is Choice

(Continued From Page One)

World war.

There was speculation whether a new government would approve the "capitulation" to Germany.

People Make Demands

The Czechoslovak people have raised demands for much greater firmness in the republic's foreign policy.

While Syrovy was arising as a new leader there appeared to be no slackening of Czechoslovak defense measures. Border reports said soldiers still were moving into defense positions.

Many soldiers on frontier duty still had no information that the government had submitted to the German demands and were ready to resist any invasion.

Prague, meanwhile, became quieter. General Syrovy himself several times made radio appeals—broadcast by street loudspeakers—asking the populace to preserve order. His plea apparently was being taken to heart.

"The army is on guard," he assured the nation.

Czech Situation

(Continued From Page One)

next field of German expansion aims as an aftermath of Czechoslovak acceptance of partition were expressed in government circles today.

A foreign office official foresaw a possible German demand for full autonomy for the 700,000 Germans in Rumania. He predicted that Germany might apply the same tactics in Rumania which worked so well in Czechoslovakia.

The Rumanian press expressed a determination not to give up an inch of Rumanian territory should any country come forward with minority claims.

Hungary Requests Rights For Minorities In Czechoslovakia

BUDAPEST, Sept. 22. (AP)—It was officially announced today that Hungary, through her minister to Prague, handed a note to the Czechoslovak foreign minister, Kamil Krofta, this morning, requesting rights for Hungarian minorities in Czechoslovakia, equal to those which may be granted the Sudeten German minority.

The demarche in Prague came after the Hungarian council had decided upon measures to assure the return to Hungary of territories which she lost to Czechoslovakia as a result of the World war.

Hungary seems determined to get those territories back at the same time Germany sets foot on Sudetenland.

It also was announced that other powers were informed of the step. A special appeal was said to have been sent to England by the Hungarian government to avoid neither neglect nor postponement of Hungary's demands.

The Hungarian regent, Admiral Horthy, returned this morning from his "hunting trip" as the guest of Field Marshal Hermann Wilhelm Goering in Germany, and immediately thereafter received the premier, the foreign and war ministers.

There were reports here also that Rumania and Yugoslavia were concerned that Nazidom was directing attention to influence in these two countries.

Troops Withdraw

(Continued From Page One)

way out of the Sudeten territory.

As news of the evacuation spread the Sudetens immediately went on a wild holiday.

Crowds eight and ten deep had stood all night in the streets of many towns in the belief the German army was coming. No German troops were visible along the frontier this morning, however.

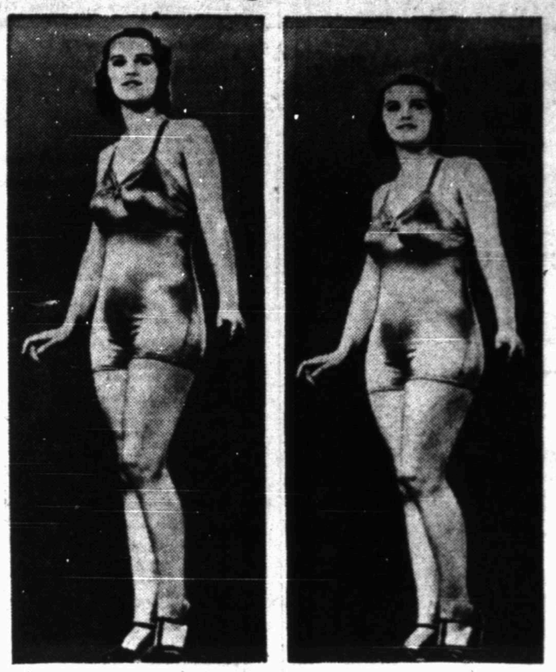

The entire territory was a mass of swastika flags. The Sudetens saluted everybody, shouting "Heil Hitler." Farmers driving oxcarts and smoking crooked, long-stem pipes beamed as they raised their hands in the Nazi salute.

The "free corps" had lined up along the border after midnight and crossed over at dawn. They were equipped with various sorts of rifles and hand grenades, but had no heavy guns.

In the region immediately surrounding Eger only 150 of the 40,000 men in the "free corps" entered Sudeten territory. They halted outside Eger to await evacuation by the Czechs.

All police activity was in the hands of the Sudeten vigilance corps, which Czechoslovaks previously had outlawed, and war veterans wearing Bavarian hats decorated with tufts of wild boar bristles.

Camera Catches Long And Short Of It

A figure-fixing camera that will make you long and lissom or short and sassy has been developed by a Cleveland photographer, N. B. Aukerman. The photographs above are of the same model. At left, the camera produced a tall and willowy figure. The photograph shown at the right, portrays the model as shorter, more rugged of statue. The inventor is shown in the lower picture with his tricky camera as it is mounted in his studio. The camera has two lenses and is expected to prove most useful in the production of art photographs for advertising purposes.

Brief Bits Of News . . . .

Son Born—A son weighing 6 pounds 13 ounces was born at 12:42 o'clock Wednesday afternoon to Mr. and Mrs. M. L. Kuykendall of Tahoka at Lubbock sanitarium. The infant was named M. L., jr.

Return From Funeral—Mr. and Mrs. Townsen Waddill and small son and Mrs. Eva Waddill have returned from Coleman where they attended the funeral of Perry Townsen, their cousin, who was murdered Sunday on his ranch near Porvenir.

Radio Answers Question — A 17-year-old Brownwood youth was grabbed up by O. E. Rush and Joe Tucker, police, in company with a Lubbock juvenile. His actions caused police to look into his record. A radiogram over the short wave radio station Wednesday night established he is wanted at Brownwood on a felony warrant, said Don Reeder, chief of police here. He and the Lubbock juvenile were being held.

One Residence Permit — M. P. Sinard, owner, and C. H. Forson, contractor, were issued a building permit this morning for construction of a frame residence to cost $3,200 and be put up at 2102 Thirty-second street.

Mooching Doesn't Pay — A 49-year-old Tulsa resident came to Lubbock and set up a mooching practice. This morning he was in a position to beg only for freedom—from jail. The begging time of year is here again, said authorities, and the practice will be discouraged.

Education Is Limited — Authorities explained to a 52-year-old Peru, Ind., man that, while it is all right for a man to look around in a strange town and see whatever sights are instructive without being illegal, there is a limitation to some extent—including window peeping. The man was held this morning, assertedly for playing a peeping tom role Wednesday night in 1200-block Fifteenth street.

Daughter Born — Mr. and Mrs. John Jones of 1706 Fifth street are parents of a daughter born at 6:50 o'clock this morning at the residence. Stewart & Benson clinic reported. The baby, who weighed 8 pounds, was named Mary Lavoone. Jones is employed by Montgomery Ward & Co.

Transferred Home — Mrs. A. H. Leidigh was transferred to her home at 2101 Seventeenth street Wednesday afternoon from West Texas hospital. She had entered the hospital Aug. 31 for treatment of a broken leg suffered in a fall.

Condition Satisfactory — Condition of Mrs. Vernice Ford of Lubbock was reported satisfactory at noon. She is in Plains hospital, where she gave birth Monday night to a son.

Fourth Trip Is On—Seventy-five persons, including H. A. Anderson and his high school Westerner band, had made good progress late this morning in their last of a series of goodwill trips over this section in advertising the opening Monday of the Panhandle-South Plains fair. W. E. Twitty, fire chief, pulled away from city hall, in his role of marshal of the day, at 7:15 o'clock. The itinerary led in order to Plains, Texas, and Tatum, Lovington and Hobbs, N. M. After luncheon, the group will visit in Hobbs until 4 o'clock, when it will make the return trip.

Condition Said Satisfactory—Relatives of Mrs. Jess West of Plainview, former Lubbock resident, was considered satisfactory this morning in West Texas hospital, said relatives. The sister of Mrs. Cap Moore of Lubbock underwent appendectomy Wednesday.

Judge Pitts Recovering—Judge E. L. Pitts of 99th district court, confined to his 2911 Twentieth street residence by an inflamed throat and a cold, was reported resting this morning. Ill when he took the bench Monday and Tuesday, his condition was aggravated by necessity for reading sentences to seven persons. He probably will return to his chambers in the court house Friday or Saturday.

Buy Your Tickets Now—A chamber of commerce traffic committee that will function during the Panhandle-South Plains fair beginning Monday this morning met and asked the public to get season tickets for the fair as soon as possible, from one of 19 downtown places where they are offered. Such tickets for an individual are $2.50 each, and a season ticket for parking an automobile will cost $1. Much time will be saved by those who own such tickets, as well as money, said committee members.

Surveys Ordered On Projects In Section

Six South Plains counties are affected by an announcement made in Austin this morning by the state highway commission, which said engineering surveys looking to relocation or extension of existing roads had been ordered.

Orders were approved with the condition the state has no funds available for immediate construction.

Counties included:

Floyd, Hale, Lamb and Bailey, on a road extending from highway 207 south of Floydada by way of Littlefield in Lamb county to interseet with highway 214 in Bailey county south of Muleshoe;

And Hale, Floyd, Briscoe and Swisher, on a road extending from Plainview in Hale county to Silverton in Briscoe county.

Plainview Holding Second Bonds Vote

PLAINVIEW, Sept. 22. (Special)—Citizens of Plainview voted for the second time today on a proposed $36,000 bond issue for a new city building.

The issue was defeated by a vote of 282 for to 340 against Aug. 30. Application for a $29,250 grant from the Public Works administration has been made to be added to funds from the bond issue if it carries.

On the date the issue for the new city building was defeated, voters approved a $10,000 issue for paving.

ORPHANAGE SERVES MUSIC

GREEN BAY, Wis. (AP)—A three-piece orchestra kept everyone happy while 30 barbers clipped 260 heads of hair at St. Joseph's orphanage the other day.

It was the fall hair cutting "bee" and the orchestra was a new experiment which worked better than anyone anticipated. The musicians played numbers the children requested, hair fell swiftly and refreshments wound up the session with joy to all.

TROOPS CAPTURE TOWN

SHANGHAI, Sept. 22 (AP)—Japanese shock troops captured the town of Loshan, 30 miles east of the Peiping-Hankow railway, today after a four-hour battle.

To prevent "publicity seekers, commercial self advertisers and jokesters" from running for governor in Texas, it has been proposed that the filing fee be increased from $100 to $1,000.

More Than 250 Die In Storm

(Continued From Page One)

storm, Massachusetts had the largest number of dead—well above 50. Others where fatalities were high were Rhode Island, Connecticut and New York. New Jersey, Vermont and New Hampshire escaped the full horror.

Looting started at several points. The disaster, which struck an area that in general is the most heavily populated in the United States, called for vast and immediate reconstruction.

To expedite traffic, the interstate commerce commission in Washington suspended its regulations governing the movement of railroad traffic in New England.

Rescue Work Ordered

President Roosevelt ordered the agencies of government to render all possible assistance; he conferred also with Red Cross officials about rescue work in the flood areas.

One quick governmental step was to direct federal food and drug inspectors to make systematic checks on food and other supplies in the disaster area. First official reports indicated no widespread contamination, but in some isolated communities there were food shortages.

Not only was great material damage done; in the historic old towns along the New England coast many old colonial landmarks suffered.

The storm flooded hundreds of miles of rich farm lands, ripped out bridges, railroads and highways, demolished buildings, sank boats, destroyed livestock, tore down telephone and light wires and left scores of communities isolated in chaos and fear.

Search For Missing

Volunteer workers dropped workaday tasks to search debris for bodies of missing victims or rescue residents marooned by floods. Red Cross authorities mobilized their forces to feed and comfort hysterical refugees.

Coast guard headquarters in Washington dispatched 2,500 men and scores of cutters to the scene. The coast guard estimated between 500 and 700 small boats and pleasure craft had been wrecked or driven ashore.

The hurricane, which spared the Florida and the southern coast as it curved northward, by a similar fluke missed New York City in its haphazard march of destruction.

Plunged Into Darkness

Sections of Manhattan and the Bronx were plunged into darkness for hours, and a power failure stranded several thousand subway patrons underground for several hours, but the rock-based skyscrapers of the city weathered the winds easily. Torrential rains forced hundreds of residents in low-lying sections of the Bronx to flee to safety.

Waves battered the entire 100-mile length of Long Island, washing away hundreds of small summer cottages and beach buildings. Among them was a lighthouse that had withstood the sea's whims for 75 years.

Most foriorn of the "Gold Coast's" villages was West Hampton, a summer playground for New York society, where at least 140 homes were wrecked. A dozen bodies lay in the exclusive West Hampton Country Club, many unidentified.

Spectators Kept Back

A police cordon kept spectators back from the ruins of 50 cottages, dumped into the center of the village after having been swept a quarter of a mile from their sites by monstrous waves.

Coast guardsmen reported heavy damage also at great south beach, where 125 cottages were destroyed. Twenty more were demolished at Camp Cheerful, retreat for chippled children.

A 30-mile area from Moriches to East Hampton was reported by Coast Guard Commander William Wolfe to be under water. He said the loss of life was "severe."

Tech Enrollment

(Continued From Page One)

for the increased enrollment.

Housing officials have continued approving homes since registration began. No students have found it impossible to find a place to live, although many have been unable to find places in the vicinity they wished. Some have failed to enroll because they could not live in college dormitories.

By close of the business office Wednesday afternoon, 2,770 students had paid fees and a steady stream visited the office this morning. Business Manager Gaston said another check would be made this afternoon.

Each year, a few obtain permits who do not complete the registration procedure.

Registration Deadline Friday

Friday is the last day a student may register without payment of a late fee of $2.

The number obtaining permits this morning was 70. A total of 2,700 had obtained permits up to the close of registration Wednesday, which was the first day of classes and the third day of registration.

Highest Last Year

The highest enrollment in any former semester was last fall's total of 3,154. Number registered at the end of the first three days of registration last year was 3,027.

Some students were not yet attending classes, and it could not yet be definitely determined how enrollment was distributed. Reports were being awaited from the various departments and divisions. He said there appeared to be no cause for worry concerning shortage of classroom space, the new library having temporarily solved that problem.

NEXT CITY SELECTED

TEXARKANA, Sept. 22. (AP)—The Presbytery of Paris has picked Sulphur Springs as the site of its spring meeting.

A survey indicates more than a million and a half people living in small towns, villages and rural communities of Tennessee are without access to books from a public library service.

A GOOD INCOME--
THREE YEARS EARLIER

Hundreds of high school graduates who enrolled for the Draughon Training last September are already in happy positions, with opportunities for advancement; while their former classmates who did not realize the shorter route to incomes and careers afforded by specialized technical training still face three years more of educational expense.

If you are interested in early employment and income, yet in a career in which opportunities for advancement abound, the nationally-known Draughon Training and Placement facilities should enable you to reach your goal at a minimum of time and expense.

If you want to be EARNING instead of SPENDING by next September, call, phone, or mail coupon today for new catalog before new Fall rates become effective. Many more employment calls month in and month out than we are able to fill virtually assure inspiring opportunities on graduation.

Good Balance Seen In Area

(By The Associated Press)

WASHINGTON, Sept. 22.—Czechoslovakia will be the best balanced nation economically in central Europe, some American experts predicted today, if a portion of the Sudeten territory is handed over to Hitler.

Such a partition, they said, would leave the country in comparatively better condition than now. They disputed contentions that partition would be the economic ruin of the little republic, although they acknowledged it would affect some major export products.

The new Czechoslovakia, these experts said, would be a better state homogenously and much more united.

The heavy problem of unemployment in the Sudetenland would be shifted to Hitler's shoulders.

Czechoslovakia's agricultural self-sufficiency would be much improved.

It would retain nine-tenths of its timber resources, most of its hard coal and iron deposits, all but a small percentage of its steel, machinery and engineering industries.

The greater part of its chemical, wood and paper manufacturing plants, shoe and woolen factories, sugar, alcohol refining and malting industries would remain in the Czech area.

PUTS STOP TO ITCHING
