Connally Opens Campaign For Quick Ratification Of United Nations Charter

By the Associated Press

WASHINGTON—(AP)—"We leagued our armed might for war," Tom Connally told the Senate Thursday. "Now let us league our moral and material might for peace."

Thus the tall Texas Democrat, chairman of the Foreign Relations Committee and a delegate at the San Francisco Conference, opened the campaign for speedy ratification of the United Nations Charter by a highly receptive Senate.

"The World Charter for Peace is knocking at the doors of the Senate," he said, adding:

"We shall not turn it away."

Admittedly worn by almost nine weeks of day and night deliberations at the conference, the broad-shouldered Texan strapped on his legislative spurs and called for a speedy, favorable decision in his committee and the Senate itself.

"Early ratification here will stimulate and encourage ratification by other nations," he declared. "The eyes of the entire world are centered on what we do here.

"Peace Depends on Decision"

"Foreign nations know that the United Nations organization for peace and security will face failure and futility unless the United States is a member. The fate of world peace may depend upon our decision."

Connally seemingly had no doubt what that decision would be. Before he spoke, he estimated to re-

(Continued on Page 5)

Luzon Island Is Liberated

By SPENCER DAVIS

MANILA —(AP)—American and Filipino forces have won the campaign for mountainous North Luzon, "one of the most savage and bitterly fought in American history," to completely liberate this biggest island in the Philippines, Gen. Douglas MacArthur announced Thursday.

His triumphant communique added conquest of the 200-mile-long Cagayan Valley in 28 days.

Juncture Tuesday in the Cagayan Valley of the U. S. 37th Ohio Infantry Division, which entered it May 31 from the south, and the 11th Airborne Division, which had parachuted into the north end near Aparri, wound up "the major phase of the Northern Luzon campaign."

Enemy Losses Heavy

"The losses inflicted on the enemy (in all North Luzon) were heavy—113,593 dead, with the graves of many other thousands located but uncounted, and several thousand prisoners. Our losses were 3,793 dead, 34 missing and 11,351 wounded, a total of 15,178

"The entire islands of Luzon, embracing 40,420 squaremiles . . . is now liberated."

In effect, MacArthur wrote off the Philippines reinvasioin, which began last October at Leyte. The only other active sector is the southern island of Mindanao, and Thursday's communique phrased operations there by the Eighth Army as a mopup of a disorganized foe.

WAR AT A GLANCE

By The Associated Press

- **JAPAN:** Radio Tokyo reiterated report American forces landed on Kume Island.
- **PHILIPPINES:** Liberation of Philippines' main island of Luzon proclaimed by Gen. MacArthur.
- **KURILES:** In first announced surface penetration of Okhotsk Sea, light U. S. naval task force sank three and a possible fourth ship.
- **OKINAWA:** Adm. Nimitz announced Navy suffered 4,907 killed and missing in Ryukyus campaign, 4,824 wounded.
- **BORNEO:** Australians expanded Brunei Bay area holdings.
- **CHINA:** Chinese troops captured railway station western suburbs Liuchow.
- **BURMA:** Indian troops occupied village 24 miles northeast of Pegu.

C. F. Wheeler Dies In Hospital

C. F. Wheeler, 59, of Midland, died Thursday morning in a hospital here following a nine-day illness. Wheeler came here in 1934 from Kilgore, Texas. He was a water well contractor and resided at 2500 Brunson Street.

He was a member of the First Baptist Church.

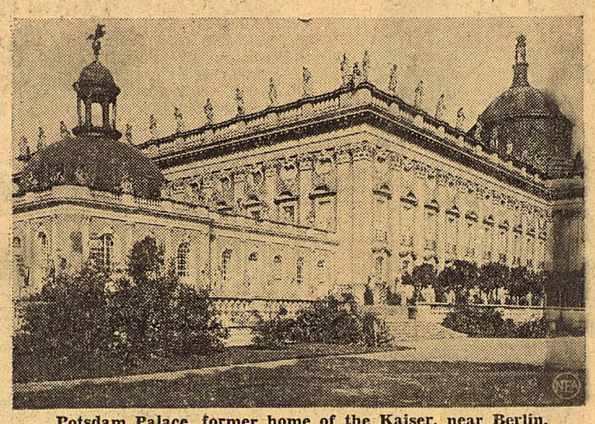

Arrangements for funeral services, which will be directed by the Ellis Funeral Home, have not been completed.

Weather

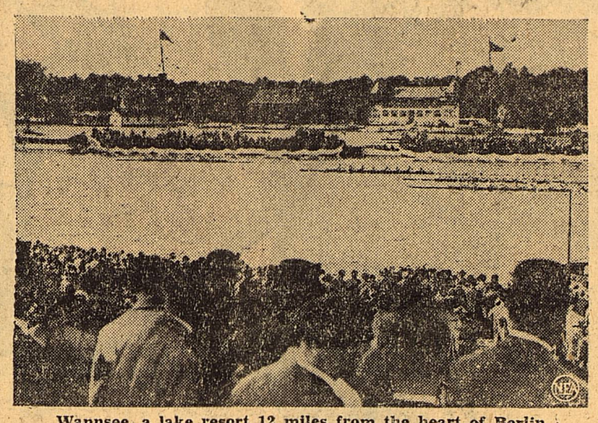

Midland and 50-Mile Radius

Fair and continued warm Thursday afternoon; partly cloudy Friday, with potential break in extreme heat wave scheduled Friday.

Shell-Texaco S-W Andrews Wildcat Shows Free Oil In Ellenburger To Give It Four Producing Horizons

By JAMES C. WATSON,
Oil Editor

Shell Oil Company, Inc., and The Texas Company No. 1 Ratliff & Bedford, Southwest Andrews County wildcat, has shown for petroleum production from its fourth zone—the Ellenburger—according to official reports.

In a one-hour drillstem test at 11,019-042 feet, the well had gas at surface in eight minutes, and recovery from drill-pipe at end of test was 4,250 feet, or 32 barrels, of 43.5 gravity oil and 300 feet of oil and gas cut drilling mud. No formation water was indicated.

Some operators report top of Ellenburger was at about 11,018 feet, on an elevation of 3,204 feet. The project had previously shown for commercial production from the lower Permian, the Devonian, and the Silurian. It developed strong pressures on the latest test.

Operators were drilling ahead below 11,052 feet Thursday morning. The development is in northeast quarter of section 4, block 73, psl survey.

Edwards Testing

Stanolind Oil & Gas Company No. 1 Edwards, Southwest Cochran County discovery in section 13, block L,, psl survey, ten miles west of the Slaughter field, swabbed 90 barrels of oil, 16 barrels of basic sediment, and one barrel of drilling water during 22 hours of testing between bottom of casing at 5,025 feet and plugged-back total depth at 5,080 feet. Testing was continuing with 800 feet of fluid in the hole.

It had originally been drilled to 5,111 feet, and then plugged-back to 5,096 feet, then to 5,085.5 feet, and now is at 5,080 feet, in an effort to eliminate water.

W-C Hockley Wildcat

Magnolia Petroleum Company No. 1 W. T. Coble, is to be a 5,500-foot wildcat in West-Central Hockley County, two miles south of The Texas Company No. 1-B Coble, furtherest west project in the Levelland field to show signs of production.

Location is 660 feet from north and west lines of labor 34, league 68, Hardeman County School Land survey, A-196. It is two miles south and two and one-half miles west of discovery well in the Levelland field.

Ted Weiner et al, and Lico, Inc., Fort Worth, have filed application with the Railroad Commission to drill No. 1 G. T. Hall et al, as a

Mercury Hits 108 Degrees In Midland

Midland sweltered Wednesday evening when the mercury soared to 108 degrees from 5 p.m. to 7 p.m., and little relief from the heat was in sight Thursday. Wednesday's reading was the peak for the year.

The minimum temperature Thursday was 81 degrees at 8 a.m.

The maximum temperature at the Midland Army Air Field Wednesday was 106 degrees at 4:30 p.m., but the thermometer at the West Texas Gas Company recorded 108 degrees in the evening.

Midlanders lounged in their yards and searched for cool spots Wednesday night. A cloud cover Thursday morning provided a little relief from the extreme temperatures.

War Bulletins

GUAM—(AP)—Rear Adm. Forrest P. Sherman, deputy chief of staff to Fleet Adm. Chester W. Nimitz, said the Japanese fleet now consists of only three battleships and a small number of carriers, none of them in service; two half carriers half battleships, a few cruisers and about 30 destroyers.

GUAM—(AP)—Four more Japanese aircraft plants and 3.45 more square miles of Nipponese cities have been hard hit by Superfortresses, the 21st Bomber Command announced Thursday.

CHUNGKING—(AP)—The Chinese high command announced Thursday that Chinese forces assaulting Liuchow had captured a railway station in the western suburbs of that strategic Kwangsi Province city and a part of the airfield to the south.

Brenneman Installed As Rotary President

Guy Brenneman, building contractor, Thursday noon was installed as president of the Midland Rotary club at its meeting in Hotel Scharbauer. He succeeds C. H. Shepard who becomes vice president of the club.

Herbert Collings continues as secretary of the organization. Directors include W. Dunn Reiger, Dr. J. C. Shannon, Gordon Holcomb and Delbert Downing.

Ray Upham, a former president of the club, installed the new officers.

Brenneman named Henry G. Krauss sergeant at arms. He also named Lawrence Evans and Richard Brooks as members of the program committee for July.

A report on the club's student loan fund was presented by Ralph Barron.

Bunker Hill Fliers Downed 100 Planes

EL CENTRO, CALIF.—(AP)—Before the USS Bunker Hill was knocked out of action off Okinawa, pilots of two of her Marine fighter-bomber squadrons destroyed 100 Japanese planes in action.

War Bond Sales Exceed $2,000,000

Midland's War Bond sales soared past the $2,000,000 mark Thursday, Mayor A. N. Hendrickson, campaign chairman in the Mighty Seventh War Loan, announced at noon.

He said purchases totalled $2,025,318. Sales of Series E War Bonds Wednesday totalled $10,837.50, bring the total purchased in Midland to $412,805.25. With credits allowed by the Treasury Department for salary deductions, sales at the Midland Army Air Field, and sales to Midland men in overseas service, the Series E total now is $587,528.50, compared with Midland's quota of $600,000.

Midland will exceed this quota, Hendrickson emphasized, as he urged all citizens to buy bonds to the limit of their ability.

The overall quota for Midland County was $1,425,000.

Girvin Power Plant Damaged By Fire

Fire Wednesday night damaged the Girvin power plant of the West Texas Utilities Company at Girvin, Texas. No estimate of the loss was available Thursday noon.

U.S. Navy Task Force Knocks Out Five Ship Convoy Near Japan

By LEONARD MILLIMAN
Associated Press War Editor

Invasion-worried Japan created a special defense command to guard the approaches to Tokyo Thursday as the officially proclaimed liberation of Luzon Island in the Philippines shifted the Pacific spotlight to unusual Allied activity at either end of the broken Nipponese empire.

Sobering American naval losses in the Ryukyu Island campaign, boosting the cost of Okinawa to 46,319 American casualties, were reported simultaneously with the first U. S. naval task force penetration of the Okhotsk Sea north of Japan which knocked out a five ship convoy and partial confirmation of the bombardment of Balikpapan in Borneo, which Tokyo said was in its twentieth day.

"Everybody in Japan is talking of invasion," Tokyo admitted. One Nipponese correspondent said the country was preparing special suicide attack weapons.

The Mikado's government created a "Tokyo Defense Army Command" under Maj. Gen. Minoru Iimura to counter "enemy attempts at invasion." That is the ninth regional defense command in Japan, three of them created this month.

Expert Invasions

Tokyo's invasion talk included possible landings on Japan, China, the Malaya Peninsula with its prized Singapore naval base, Balikpapan and its oil refineries and Kume Island where unconfirmed reports said American assault troops have already landed to extend the American invasion bases in the Okinawa region.

Allied announcements ignored invasion reports but told of American divisions and Filipino guerrillas closing a 20-mile gap in Luzon

(Continued on page 6)

Truman Emphasizes Importance Of New Job For Stettinius

By ERNEST B. VACCARO

KANSAS CITY, —(AP)—Outwardly unperturbed by the chain of speculation unleashed by his decision to replace Edward R. Stettinius as secretary of state, Harry S. Truman Thursday went cheerfully about the business of celebrating his first presidential homecoming.

He planned to make the most of his reunion with the homefolks before starting for Berlin early next month for a "Big Three" meeting at which he hoped to help lay the groundwork for a final peace treaty "we hope will maintain the peace of the world for generations to come."

The President made no effort to challenge reports that James F. Byrnes is his choice for a new secretary of state at a press conference.

His idea, apparently, was to emphasize the importance of the assignment for which he picked Stettinius, that of American representative to the United Nations World Peace League projects under the charter approved at San Francisco.

Praises Stettinius

He told correspondents assembled at his hometown of Independence, 10 miles from here, that the new job Stettinius will undertake is the most important within the gift of his government.

The President lauded the white-haired diplomat for his work at the San Francisco Security Conference.

The President said he would announce Monday or Tuesday, probably Tuesday, appointment of a secretary of state. Stettinius' resignation became effective immediately.

The President told a wildly-cheering crowd Wednesday night at Independence that he shall devote all his time from now on, at the White House, and in Berlin, to winning the war and winning the peace.

The President, who may have another cabinet resignation in mind for announcement after he returns to Washington Sunday, possibly that of Treasury Secretary Henry Morgenthau, passed up opportunities to say so.

Bert D. Doss Dies Thursday

Bert D. Doss, 54, field clerk for the Humble Pipe Line Company, died Thursday morning from a brain hemorrhage. Funeral services will be directed by the Ellis Funeral Home, but arrangements had not been completed at noon.

Doss served with the U. S. Navy during World War I. He is survived by his widow and two children.

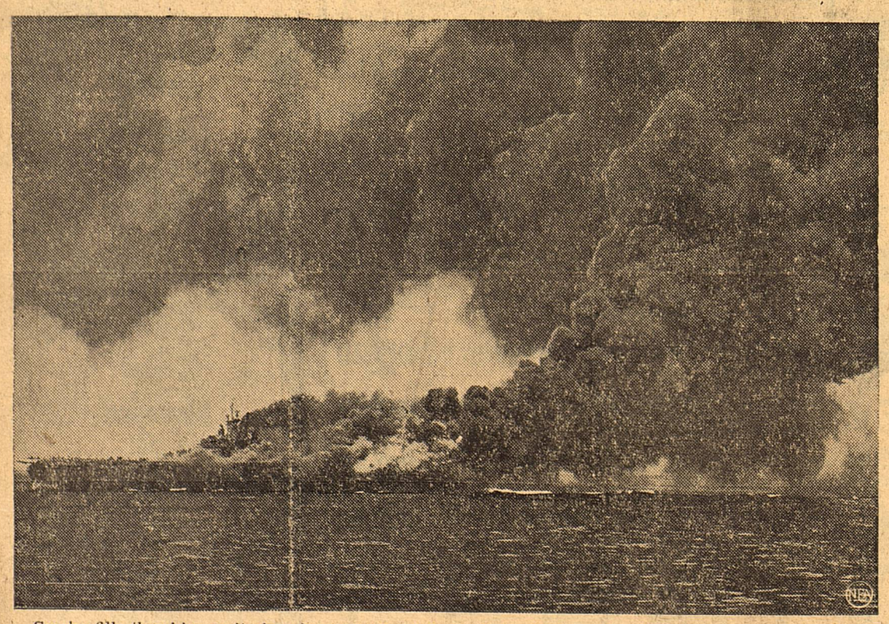

New Commander For Training Wing

Brig. Gen. Victor H. Strahm arrived in Midland Wednesday night to become commander of the 34th Flying Training Wing, which headquarters at the Midland Army Air Field.

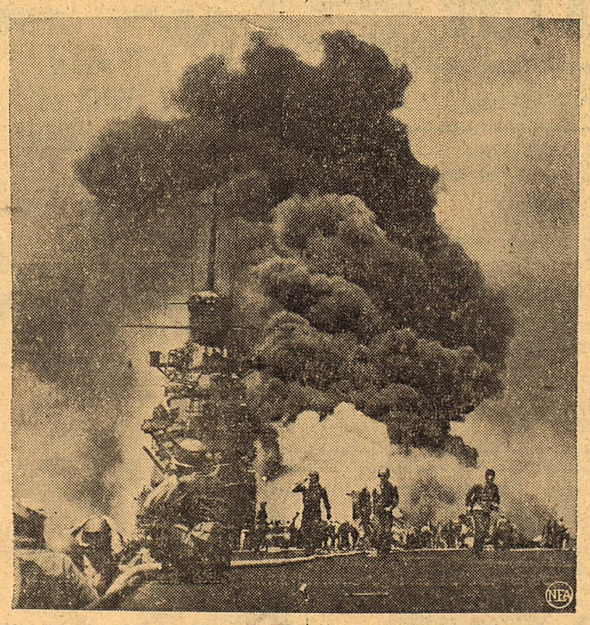

General Strahm succeeds Col. Rosenham Beam who held the assignment for a few weeks.

The general was a flier in World War I and returned to active duty with the Army Air Forces in February, 1942.

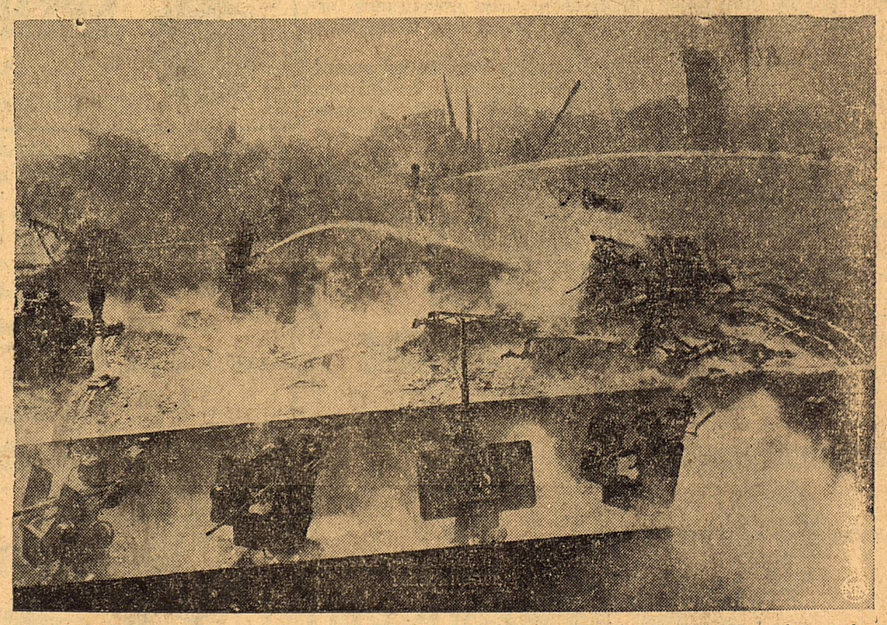

Again The Name Of BUNKER HILL Becomes A Symbol Of American Valor

Smoke fills the skies as it rises from the flight deck of the USS Bunker Hill—another gallant ship that refused to die. The carrier was hit twice within 30 seconds by two Jap suicide planes just as she was ready to send off a flight of gasoline-filled and bomb-loaded planes on a mission over Okinawa. Resulting catastrophe cost lives of 392, with 264 wounded. Ship survived to limp into a West Coast repair yard where she is being refitted for further duty.

With fire sweeping her flight deck and bomb fragments making an inferno topside, the U. S. carrier Bunker Hill fights back. Two Jap suicide dive bombers hit her on May 11 off Okinawa. Smoke is shown billowing from the stern of the ship while crew members hustle to man their battle stations against further attack.

Neither flaming gasoline from the tanks of planes on the flight deck nor exploding rockets and bombs daunted the valiant crew members of the USS Bunker Hill as they successfully fought to bring near-disastrous fire under control. Victim of an attack by Jap suicide planes off Okinawa, the carrier was saved to sail back—a mass of charred and twisted wreckage—to a West Coast yard for rehabilitation.

Another Job For Eisenhower

There will probably be little swivel chair relaxation for General Eisenhower when he returns to Germany. For present reports from there suggest that a trouble-shooting job is to be done, and done quickly.

Correspondents have sent back stories from various German communities in the American zone of occupation which indicate at least isolated instances of poor administration by military government. Confusion and mistakes are inevitable, of course, and the task of finding non-Nazis to help handle German rehabilitation must be enormous.

And yet one reads that in one town the Americans have continued the Nazi food distribution system and are still feeding the surviving Jews on half rations, and that in another the city council, after a month of fruitless complaints, has had to petition the American military governor to remove a Nazi-coddling, ex-Nazi mayor. And one wonders how many more similar stories are to be told.

* * *

If they are true—and so far they are not denied—it would seem that General Eisenhower's announced program for Germany isn't going forward smoothly. For he told a Washington press conference that a prime objective was to get local communities functioning again, to collect case histories on all inhabitants, to screen them, and then to give the anti-Nazis and neutrals responsibility and authority.

That will require a military government functioning as efficiently as a fighting force, all down the line, if victory is to be secured and the unpleasant job of rehumanizing the thinking of a lot of unpleasant people is to be done as well as possible.

As it is, our occupying forces in some areas would seem to be disillusioning the wrong people. Instead of making the Nazis definite outcasts as far as the victors are concerned, and ignoring even the Nazi sympathizers in restoring a measure of self-regulation, they may be persuading the non-Nazis and repentant former sympathizers that the Americans, having fought and died to destroy Nazism, now consider the whole job done or else don't really care too much.

* * *

This is obviously untrue. But word of a few mistakes in a few towns can spread quickly. And that can make the long, hard job of expunging Nazism from German thought and life infinitely longer and harder.

What Germany must get from America is a new deal—not one in capital letters, but a complete change from the politics and economics and philosophy of the last 12 years. Such enlightened Germans as there are expect it. The rest deserve it—not for their own sake, but for America's and the world's.

The deal seems to have been handled somewhat awkwardly so far. But we are confident that General Eisenhower, once he is back in Germany, will give the fresh pack a thorough shuffling.

———Buy War Bonds and Savings Stamps———

Thanks To Belgium

In terms of money, Belgium's reverse lend-lease contributions are more than four times greater than our lend-lease exports to Belgium. In terms of victory, her contribution was even greater.

All facilities and services of the great port of Antwerp, our principal European port of supply, were turned over to our forces under this arrangement. The labors of 15,000 port workers, paid for by the Belgian government, were provided us through reverse lend-lease. So were towage, pilotage, and other port services.

No reverse lend-lease was charged for port repairs which the Belgian government considered permanent improvements, though they were of important immediate aid to the Allies.

Thus this small, beleaguered country has served out of all proportion to its size in hastening victory in Europe, saving lives, and currently assisting in the redeployment of American forces to the Pacific. America's thanks are due the patriotic Belgians and their government.

Lord Haw Haw Is Held For Trial

LONDON —(AP)— William Joyce, who broadcast Nazi war propaganda as Lord Haw Haw, was bound over formally Thursday for trial in Old Bailey on charges of high treason against the British crown.

The court offered to pay for two attorneys for Joyce.

Don't Let Him Down!

THE WAR TODAY

By DEWITT MacKENZIE
AP Foreign Affairs Analyst

A lot of good folk who are sensitive in the matter of mental tidiness are worried because the Allies haven't yet announced a detailed program covering every phase of the punishment and regeneration of Germany.

Speaking of programs in general, these critics may be right in insisting that the I's be dotted and the T's be crossed, but there are exceptions to every rule—and this is one of them. Anyway, there certainly are great advantages in being able to handle the Germans under a very flexible arrangement at this juncture. There's method in the Allied madness.

The point is that we are dealing with a lot of tricky imponderables in working out this problem. The Big Four must proceed cautiously in making commitments lest they find their hands tied in uncomfortable situations.

Startling Facts Are Found

Every day the Allies are discovering fresh and startling facts about Hitler's plans for conquering the world. His schemes exceeded anything he displayed in action. Official letters and documents discovered in Berchtesgaden and other places are proving to be gold mines of information.

One of the vital questions to be ironed out is the exact attitude of the German public as a whole towards the activities of Hitler the Hun.

Another indication that it pays to proceed methodically is seen in the report on Germany's power of recovery by U. S. Foreign Economic Administrator Leo T. Crowley. In a statement to the Senate Military Affairs Committee he declared that despite the Allied bombing, many German industries could be started again quickly.

Laid end to end, 250,000 of the smallest bacteria would measure only one inch.

Mulching Should Be Provided During Heat

Mulching the soil is not only beneficial but necessary to shrubs, trees and ornamental plantings, and should be provided now during hot weather. Mulch spread between the rows or around the plants keeps needed moisture from drying out quickly, helps to protect plant roots from heat by providing a shade through which air can circulate and it discourages weed growth. Grass clippings, leaves, straw, litter, and cotton seed hulls or similar materials make satisfactory mulches.

The leaves, straw, dried lawn clippings or other mulch should be no more than two inches thick or it may absorb water from light rains and withhold it from the plants.

Leaving grass clippings on a lawn also serves as a mulch. Allowing these clippings to decay is as good for a lawn as heavy applications of compost every year. This can best be done by having the bottom knife of the lawn mower two inches from the ground. This way the clippings will dry and disappear about the roots within 2 4to 36 hours after the grass has been cut.

EASC Will Be Big Factor In Reconstruction

By JAMES MARLOW

WASHINGTON —(AP)— Starting from practically nowhere and winding up front with the winners, the Economic and Social Council was the dark horse of the United Nations Conference at San Francisco.

Before the conference started everyone knew that the three important agencies of the United Nations after the war would be these:

The Security Council(to prevent wars), the General Assembly (to discuss world problems), and the Internatioinal Court of Justice (to try to settle international disputes by legal means).

Everyone knew there would be an Economic and Social Council but many—including some of the Americ-stepchild that might be helpful but can delegates—looked upon it as a not important.

As the conference wore on this view changed. Now, with the conference over, it emerges as one of the most important agencies of all.

After this war, the problem of reconstruction — including trade, education, health—will be huge.

And it is right there that the EASC has a job. It can start studies in all those fields.

Don't expect anything sensational from the EASC. It can do little in a direct way.

But it can spread information and make reports that would be helpful generally and, through embarrassment caused by publication of these reports whip into line nations that are out of step with the rest of the world.

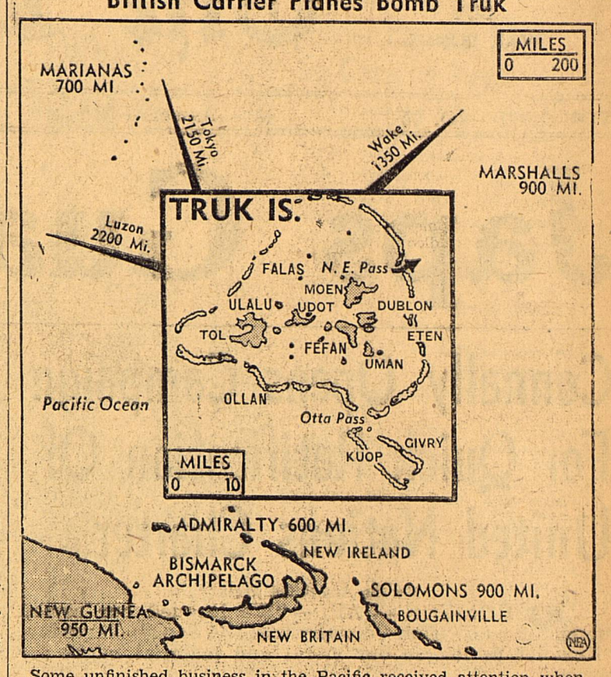

The EASC has no power to force any government to do anything. All it can do is report and recommend to the General Assembly of members of the United Nations things it thinks should be done.

Pay Off Or Give It Back To Indians

TROY, N. Y. —(AP)—Troy goes back to the Indians Aug. 1 unless the U. S. Government comes through with four bolts of calico for each member of the Mohawk tribe of the St. Regis reservation in this state.

The calico represents the annual rent for Troy, set by an old Indian Treaty which runs "as long as the sun shines."

British Carrier Planes Bomb Truk

Some unfinished business in the Pacific received attention when, according to Tokyo, British carrier planes bombed Truk islands, once-vaunted Jap stronghold. Consisting of many small and heavily fortified islands encircled almost completely by coral reefs (small scale map above), Truk would be difficult and costly to attack by sea. So American forces by-passed the island long ago, rendering it impotent, by seizing surrounding strongholds. A few of these and their distances from Truk are shown on the large-scale map above.

Lt. Dillard Is Ace On Noted Squadron

HONOLULU —(AP)—All existing records of the Marine air arm have been broken in the Pacific by the youthful "Death Rattlers" squadron.

Without the loss of a man to enemy planes, the "Death Rattlers" Squadron is credited with downing 124½ Japanese planes in less than two months. (Half credit for one plane went to a flier in another squadron).

The list of aces includes Lt. Joseph V. Dillard of Midland, Texas, credited with 5 1/3 planes.

Jap Planes Blasted By Japanese Planes

YONTAN AIRFIELD, Okinawa —Two closely parked fighter planes justoff one of the runways here are taking much of the brunt of Jap air raids, according to Sgt. Claude R. Canup, Marine Corps combat correspondent.

They are parked in an open field, and their position apparently has been spotted by the Japs, who have dropped some bombs close by.

But nobody has ever bothered to move the planes despite the fact that they make prime targets, for they are bullet-riddled, shrapnel-sieved Jap planes.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Meat Shortage in Cuba, Too

Cuba, like the United States, is experiencing a near-famine of meat and the outbreak of violence, above, was one result. Fists flew when consumers assailed Havana butchers who attempted to parade in protest against the Cuban government's plan to sell meat at low cost to civilians. The protest failed, the meat was sold.

Do FALSE TEETH Rock, Slide or Slip?

FASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy gooey, pasty taste or feeling. FASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

VALLEY VIEW 4-H GIRLS SELL $7,000 IN SERIES E BONDS

A total of $7,000 in Series E War Bonds was sold by members of the Valley View 4-H Girls Club Wednesday in the lobby of the Scharbauer Hotel. Those who purchased Bonds were allowed to buy various items which are among articles difficult to obtain. Merchandise such as cigarettes, jello, and bacon were on display at the bond table.

Girls assisting in the sales were La Nelle Howard, Donna Howard, Wilma Smith, Maxine Eckert, Patsy Buckland, Marlene Buckland, Sara Beth Wheeler, Willie Mae Wheeler and Julia Edith Midkiff.

Club members have expressed their appreciation to grocery and drug stores which sold them the scarce items for their bond sales, and the Scharbauer Hotel management, and persons who purchased the bonds.

Buildings weighing 4,000 tons and having five stories have been moved successfully.

Children's movies will be shown in the courthouse basement at 2:30 p. m.

ANOTHER CANDIDATE

MEXICO CITY—(AP)—Gen. Enrique Calderon Rodriguez was granted a six-months leave from the Army to become a candidate for the presidency in the next elections.

Dog Travels 2,300 Miles To Return Home

(NEA Telephoto)

It took Bosco seven months to find his way across the 2,300 miles of mountains, deserts and swamps between California and his home, Knoxville, Tenn., and the reunion with his beloved mistress, Patricia Kinder. The dog had been sent to Los Angeles by Patricia and her mother when they went there on a visit but the dog escaped from the crate before he was delivered to them. They returned home without the dog—but Bosco found his way back home to them.

Substitutes For Sugar Can Be Used In Canning Fruit

"No fruit should go to waste this year even though the amount of sugar being allowed for canning has been reduced," Mrs. Nettie B. Messick, county home demonstration agent said. The agent also reported that fruit as well as other foods are a weapon of war and every family should do its part to save them. Eighty percent of the commercially canned fruit is going to the armed forces and it is necessary for each family to can or conserve in some way a large portion of the family's food supply.

"Fruit is better if it is canned with sugar, but sugar does not prevent spoilage, so rather than let good fruit waste, put some up without sugar. Process unsweetened fruit in the same way as sweetened," Mrs. Messick stated.

Canning Orders

She lists a few ways to stretch canning sugar: Corn syrup or corn sugar, which is not rationed, may be substituted for all or a part of the sugar in canning or freezing fruits and fruit juices. Corn syrup is only half as sweet as sugar and it is necessary to replace one half cup of sugar with one cup of corn syrup to get the same sweetness. Honey is another good sugar substitute. One cup of sugar can be replaced with one cup of honey; however, it is recommended not to replace more than one half of the sugar with honey as it is strong flavored and masks the flavor of the fruit. Drying is a way to preserve fruit without using sugar. Peaches, apricots, pears, apples and figs are delicious dried fruits.

Other points to be recommended in substituting sugar is that brown sugar and dark molasses are not desirable substitutes, as they darken the fruit and change the flavor. Saccharin tablets should not be used in canning fruits, as heat makes the tablets bitter.

Canada's total milk production for 1944 is estimated at 17,600,000,000 pounds.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off ungainly weight and help bring back alluring curves and graceful slenderness. Just get from any druggist, four ounces of liquid Barcel Concentrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Cherry Applique

A gay sun dress with bright cherry applique to delight her little heart. Tie on the brief bolero to prevent too much tan.

Pattern No. 8880 is designed for sizes 1, 2, 3, 4, 5 and 6 years. Size 2, dress, requires 2 1/4 yards of 39-inch material; bolero, 7/8 yard; 1 yard machine made ruffling to trim.

For this pattern, send 20 cents, in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, The Reporter-Telegram, 530 South Wells Street, Chicago 7, Ill.

Send today for your copy of FASHION—it's full of ideas for summer wardrobe planning. 15 cents.

Babies To Have Priority Over Dogs

JEFFERSON CITY, Mo. —(AP)— A bill to "encourage the raising of children instead of dogs" was introduced in the Missouri Senate by Sen. H. R. Williams of Cassville, Republican floor leader.

Under the measure, landlords would have their license revoked if they barred children while allowing dogs on the premises. Any child could sue for $5,000 liquidated damages if his parents could show that a dog had priority over the child.

There are approximately 44,000 U. S. Army nurses in service at present.

Current Events Study Heard At Meeting Of Mary Martha Circle

A study on "Current Events" was presented at a meeting of the Mary Martha Circle of the First Baptist Church Monday at the home of Mrs. Frank Monroe, 107 Ridglea.

Mrs. Billy Gilbert, circle chairman, called the meeting to order and Mrs. Arnold Scharbauer led the opening prayer. After a talk by Mrs. Monroe on "Tithing," discussions on the study for the afternoon were given by Mmes. J. H. Griffith, Raymond Leggett, Gilbert, Scharbauer and O. L. Bevill.

Refreshments were served by the hostess. Others present in addition to those on the program were: Mrs. A. A. Jones, Mrs. P. D. Phillips and Harlan Howell.

Okinawa Assault 'Inconvenience'

OKINAWA—Thousands of words have been written to describe the thunderous bombardment of Jap positions from land, sea and air, but one Japanese calls it only on "inconvenience."

This prize understatement was made, according to the Tokyo radio, by the governor of Okinawa perfecture in a message to his wife at Osaka.

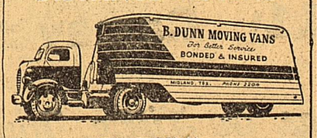

The governor, as quoted by Tokyo, said he was carrying on his duties despite shells from naval guns, barrages by land artillery, and clouds of bombs and rockets. There was, he added, "an attendant inconvenience."

His message closed, significantly, with the statement that he had his sword in hand, ready to "fight to the last ditch," reports Staff Sgt. Ray Fitzpatrick, Marine Corps combat correspondent.

Negro Troops Take Six Small Islands In Marianas Group

By ROBBIN COONS

GUAM, —(AP)—American negro troops landed on six small islands in the Northern Marianas and brought them under American domination with a single pistol shot, Pacific Fleet Headquarters announced Thursday.

It was purely a reconnoitering operation to locate more areas where cripple Superforts could crash land while limping back from raids on Japan. Reconnoitering troops left no holding force behind after discovering Japanese didn't have a garrison on any of the islands.

The operation was carried out by two platoons of negro Infantrymen, aided by native guides and Japanese captives who promised their compatriots good treatment in the hands of Americans. The "naval force" consisted of a destroyer escort, and two 153 foot LCI's (landing craft, infantry.)

One Shot Fired

Neither ships nor landing forces spent a single bullet. A guide fired only one shot—a pistol cartridge expended on a Japanese who refused to surrender.

The six new islands are Anathan, Sairgan, Alamagan, Agrihan, Ascuncion and Maug. Maug was the only island which showed signs of Japanese military occupancy. A weather station was once maintained there but it was bomber out earlier in the Marianas campaign.

After studying the islands thoroughly the troops and ships returned to their base.

O'Daniel To Favor United Nations Pact

WASHINGTON —(AP)— Senator O'Daniel (D.-Tex.) said he intends to do all he can to hasten Senate ratification of the United Nations charter.

He was the fifty-fourth senator to announce his full support for the document, worked out at San Francisco.

"The San Francisco charter may not be perfect," O'Daniel said in a statement, "but I believe it is definitely the best document that could be written under present conditions by the chosen representatives of 50 nations. I intend to do all I can to hasten its ratification."

Playing Post Office

When hubby Pfc. Tony Mrozinski, a paratrooper, was reported missing in action in Holland last September, his wife, Sue, vowed she'd write him a letter every day until he came home. Tony had a lot of reading matter to catch up with when he showed up in Atlanta, Ga., after being liberated from a German prison camp. Here he and the Mrs. smile over sweet somethings contained in the pile of letters.

Stalin Is Named Generalissimo

MOSCOW —((AP))— Premier Josef Stalin Thursday bore the title of Generalissimo.

The Supreme Soviet Wednesday elevated Stalin to Generalissimo.

German Bomb Lands On Poison Gas Cargo

WIESBADEN —(AP)— Remember the big raid on Bari Harbor in December 1943? The Luftwaffe came in low just at sunset, its favorite moment for attack, and got 23 ships. What made it so bad was the four ammunition ships. They made a big show when they went up together.

Here is a hitherto unpublished angle of that costly affair. In all the maze of shipping crammed into that Italian harbor, one English ship whose luck had run out got a dead center hit with a 500-pound bomb.

Almost its entire personnel died, in a manner everyone hoped never would be necessary in this war. The ship was loaded with poison gas. All armies have to carry it—just in case. The Germans never knew how lucky they were.

Connally –

(Continued from Page 1)

porters that no more than 10 senators would oppose ratification.

Describing the charter as "a monumental performance," Connally told his colleagues:

"Mere documents and language and phrases cannot themselves prevent war and preserve peace. They must rest upon the will and the purposes and the desires of the peoples and nations of the world."

Discusses Veto Power

Sketching a broad outline of the developing organization, he devoted particular attention to the widely discussed veto power vested in the Big Five nations, permanent members of the 11-Nation Security Council.

"The basis thesis of the rule of unanimity of the five permanent members of the Security council is that as long as the great powers remain united, they shall be able to preserve the peace of the world," Connally said.

"If the great powers should be divided—if discord should arise—they could not successfully preserve international peace.

"It must be borne in mind that the mere existence of the veto does not mean that it will be used frequently. In all likelihood it will be seldom employed. It is not believed that it will be exercised capriciously or arbitrarily.

"I am aware of criticism leveled at the rule unanimity.

It must be remembered that the United States itself will be a permanent member of the Security Council. Our country will have the right to exercise the veto whenever in our opinion it is wise and just to do so. Our armies and navies cannot be sent into a foreign war without the consent of the United States.

Connally gave repeated assurance that the rights and sovereignty of this nation will not be imperilled by participation in the charter.

Shell-Texaco –

(Continued from page 1)

3,200-foot cable tool wildcat in Southeast Howard County.

The exploration is to be 330 feet from north and east lines of section 48, block 31, TP survey, T-1-S. That puts it eight miles south of Coahoma. Drilling application filed with the Railroad Commission stated that the test was to be eight miles north of Coahoma, but a check of maps by commission officials, shows that to be an error, and it is eight miles south of Coahoma.

Two More TXLs

Shell Oil Company, Inc., No. 1-E TXL is scheduled as a 10,000-foot test for Ellenburger, to be 665 feet from north and 654 feet from east lines of section 21, block 45, TP survey, T-1-S, on the southwest side of the TXL field, in West Ector County.

It is diagonally southeast across a quarter section from Phillips Petroleum Company No. 1-A TXL, nearest Ellenburger well in the area.

Shell No. 1-C Thomas, to be 2,004 feet from east and 665 feet from south lines of section 20, block 45, TP survey, T-1-S, is to be an 8,200-foot prospector for Devonian. It is on south side of the proven Devonian section of the pool.

Another To Deepen

The Texas Company has filed application to deepen No. 3 Noelke Livestock Company, in the Noelke field, in Crockett County, from 1,296 feet, where it was completed as a 40 million cubic foot per day gas well, to 4,000 feet to test for the oil pay found recently in Ledge Petroleum Company No. 1 Brouscaren.

Texaco's No. 3 Noelke is 990 feet from north and 330 feet from east lines of northwest quarter of section 30, block GG, HE&WT survey, and it is one and one-eighth miles south and slightly west of the No. 1 Brouscaren, which had oil at 3,950-4,042 feet, and is now in process of completion after showing for an estimated 100 barrels of oil —and possibly more—per day.

Gulf Oil Corporation No. 1-O University, Crockett County wildcat, in section 12, block 29, University survey, had reached 2,575 feet in lime, and was fishing for bit cones and bearings.

Buchanan Drilling Ahead

Humble Oil & Refining Company No. 1 Buchanan East Midland County project in Baldridge survey No. 32-692, ten miles southeast of Midland, reported drilling below 12,030 feet in lime.

Humble No. 1 Penrose, Southeast Lea County, New Mexico development, in northeast quarter of section 13-22s-37e, slated 6,500-foot wildcat in the Skelly-Penrose area, was drilling ahead, from 5,644 feet in lime, after a drillstem test at 5,485-5,624 feet, in middle Permian lime.

Shows Oil And Gas

The test was for two hours. Gas came to surface in 10 minutes and reached a maximum volume of 1,100,000 cubic feet per day. Recovery was 550 feet of oil and gas cut drilling mud.

Sinclair Prairie Oil Company No. 1 Williamson, Northwest Ector County exploration in southwest quarter of section 40, block 45, TP survey, T-1-S, three miles north of the Devonian discovery in the TXL field, was bottomed at 8,284 feet, in Devonian lime, and taking a drillstem test. Cuttings had not shown too much promise, informed sources reveal, of developing for much petroleum.

Phillips Petroleum Company No. 1 McDow, North Glasscock County wildcat, in section 31, block 34, TP survey, T-2-S, was making hole below 9,910 feet in unreported formation. The prospector had been down several days for repairs.

There are about five acres of forest for each person in the United States.

Modernized Old Icebox

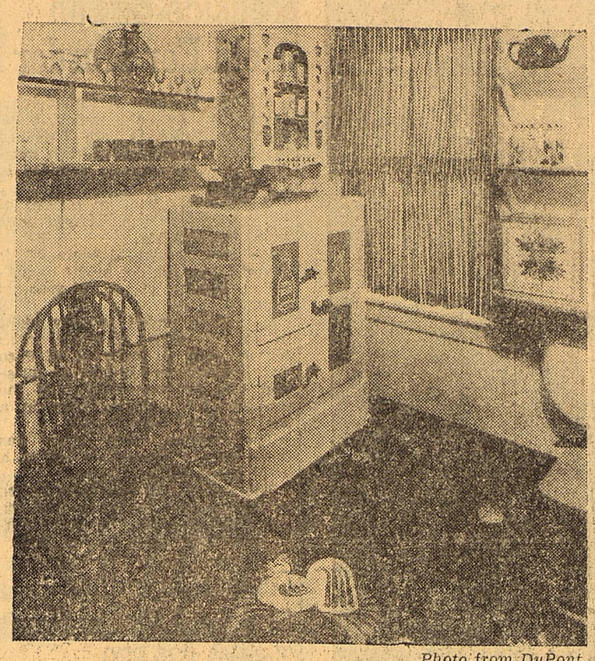

Photo from DuPont

By EPSIE KINARD
NEA Staff Writer

NEW YORK—A homemaker can turn that eyesore of the modern kitchen—an old-fashioned icebox—into the most decorative and amusing piece in the room, by painting it with designs of good things to eat. What's more, she can do as much for a shabby kitchen floor by painting a rug and making it gay with barnyard or garden motifs.

Following decorator Peter Hunt's simple rules on the icebox transformation, first apply a coat of white enamel, then paint panels in colors that tie in with your kitchen color scheme. Next, paint a bottle of milk, a big yellow carrot, a bright red apple or anything you like and anyway you like, since the charm of these motifs lie in their inexactness and not in perfect designs.

To transform a shabby kitchen floor, first paint a ground color. Deep red is a good choice. Over this, at widely spaced intervals, paint chickens—the motif in the photograph shows how simple this one is to do—ducks, fruit or vegetables in white with green and brown accents.

Danger-Filled Maneuver Saved Aircraft Carrier

WASHINGTON — (AP) — Sorely wounded and set afire by two Japanese suicide planes, the 27,000-ton aircraft carrier Bunker Hill was saved to fight again by a danger-filled maneuver. It consisted of dumping overboard thousands of gallons of flaming gasoline and tons of water from firefighting hose.

The story of the Bunker Hill's ordeal, which ranked her second only to the Franklin as a surviving casualty of this war, was told by the Navy as the ship still was undergoing repairs at the Puget Sound, Wash., Navy Yard. She was described there as the most extensively damaged ship ever to enter the yard.

The Bunker Hill was the flagship of Vice Adm. Marc A. Mitscher, commander of fast carrier task forces. For 58 consecutive days and nights her planes had been carrying destruction to Japanese strong points.

While many of her planes were aloft, supporting Marine and Army ground advances on Okinawa early on the morning of May 11, the two suicide planes struck within 30 seconds to turn the Bunker Hill into a flaming holocaust.

Weatherford Honors Lt. Gen. W. H. Simpson

WEATHERFORD —(AP)—The town where he was born Wednesday gave Lt. Gen. William Hood Simpson a welcome which touched him deeply.

General Simpson was given a 15-gun salute as he rode into town.

He led a parade through the dressed-up streets and around the square of this Parker County seat town. In the parade were members of the highway patrol, Army tanks, jeeps, trucks, artillery and two Army bands.

Planes flew overhead and dipped in salute.

The general who led the victorious Ninth Army almost to the gates of Berlin addressed a crowd which packed the city square.

"I can't tell you how deeply I am affected by this demonstration, this homecoming here in Weatherford where I was born," he said. "It is good to see your smiling faces after I have seen so many scowling faces."

Your grocer is always ready and willing to serve you. Please be patient if he is "out of Marvene". Ask again the next time you shop — *It's well worth waiting for!*

Dutch Leonard Tames Tigers; Giants Move Up

By JOE REICHLER
Associated Press Sports Writer

Detroit has dropped out of complete dominance of the American League and is tied Thursday with New York's Yankees for first place, all because it met up once again with Washington's Dutch Leonard, the hurler who cost it the pennant last year.

Facing the Tigers for the first time since he outpitched Dizzy Trout on the final day of the 1944 pennant race to cause Detroit to finish one game behind the pennant winning St. Louis Browns, Leonard maintained his pitching wizardry over the Bengals in a twilight game Wednesday, by spinning a neat four-hitter triumph 9-1.

The Tigers' downfall, plus the Yankees 7-2 victory over the Browns, brought the league leadership into a tie.

Floyd (Bill) Bevens registered his seventh victory against two defeats as he held the Browns to six hits in pitching the Yankees to their seventh straight triumph.

With Luis Olmo, the league's leading RBI man driving in the winning run in the ninth, the fast stepping Brooklyn Dodgers increased their National League lead over the second place St. Louis Cards to four full games by shading the Chicago Cubs 6-5. A crowd of 29,960 cheered itself hoarse as Olmo scored Goodie Rosen with a two-out single in the last half of the final frame.

Giants Beat Pirates

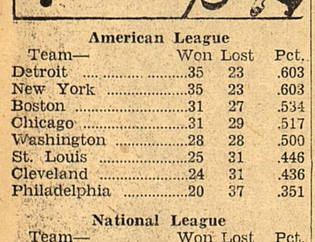

New York's Giants swept past Pittsburgh into third place by annexing a twin bill from the Pirates 10-4 and 3-2 to inaugurate their second home stand against the West.

Cleveland's Indians handed Russ Christopher his third loss against 11 victories in dumping the cellar dwelling Philadelphia 8-2, for the Mackmen's eighth successive defeat. Veteran southpaw Al Smith, limiting Philadelphia to eight hits to gain his second triumph, was ably abetted by Teammate Dutch Meyer who garnered two singles, a double and triple.

Cincinnati's Vern Kennedy won his 100th major league game while the Reds were sweeping a doubleheader from the Braves 5-4 in 10 innings and 4-2. The 36-year-old righthander outpitched Mort Cooper and two successors in the opener.

The Cards and Philadelphia Phillies divided. Vince Dimaggio's third grand slam of the season, his twelfth home o fthe year, in the eighth inning of the opener paced the Phils to an 8-3 victory, but Blix Donnelly hurled a magnificent one-hit shutout 6-0, to gain the world champions a split.

A pinch single by Dolph Camilli followed by Ed Lake's fourth hit of the game, drove in two runs in the ninth inning and gave the Boston Red Sox an 11-9 victory over the Chicago White Sox before 16,584 night patrons.

American League

Team—	Won	Lost	Pct.

NEW ROTARY GOVERNOR TAKES OFFICE JULY 1

CHICAGO —(AP)— Rotary International headquarters here announced that Earl Ferguson Brady, Texas, oil man, would assume office as district governor July 1.

Back at the Same Old Stand

After four years in Army, Captain Hank Greenberg returns to Detroit to resume baseball career with league-leading Tigers. Hank hopes to prove that at 34 he can still mace that long ball. The big slugger seems happy, and no wonder—his salary starts where it left off, at $55,000 per season!

Casualty In Battle Of Dug-Out Is Back On The Firing Line

CHICAGO —(AP)—There will be no shuttin'-up Karl Scheel, Chicago White Sox batting practice pitcher who was beaten by members of the St. Louis Browns in the Battle of the Dugout at St. Louis, June 20.

"He's gonna keep sittin' on the bench and hollering his head off," said Jimmy Dykes, White Sox manager. "Why not?"

The attack on Scheel, 23-year-old Chicagoan who served 22 months in the Marine Corps, resulted in fines against manager Luke Sewell and three Brownie players.

Ohio State Player Wins Golf Title

COLUMBUS, O.—(AP)—Somewhere in his school books Johnny Lorms of Ohio State must have read and become convinced that the shortest distance between two points is a straight line.

Certainly he operated on that theory Wednesday as he hammered out a 4 and 3 victory over Johnny Jenswold of Michigan to win the 1945 National Intercollegiate Golf championship.

He was "Down the Middle Johnny" virtually all the way in his triumph over Jenswold.

Harry Danning Is Quitting Baseball

LOS ANGELES —(AP)—Harry Danning, former New York Giants catcher, who was medically discharged from the Army last week, said Wednesday he was quitting baseball because of bad knees.

Danning said he had written a letter to Horace Stoneham, president o fthe Giants, explaining that the arthritic condition which caused his service discharge would prevent his playing.

Army Sergeant Has Air Tight Alibi

GREEN BAY, WIS.—(AP)—Sgt. Norbert Rasmussen's excuse to police for not being able to produce his driver's license was a new one to the law.

Rasmussen, who had been a prisoner of war in Germany, casually explained that in an attempt to conceal his identity he had eaten his license when captured last December 14.

Crowley Suggests Army-Pro Football For European Theater

NEW YORK—(AP)—Cmdr. James Crowley, in his first official act as commissioner of the new All-America Football Conference, has volunteered to put together a pro team in this country for a series of games against an Army eleven in the European Theater.

Crowley said he was willing to coach the team himself.

Sports Roundup

By Hugh S. Fullerton Jr.

NEW YORK—((AP))—When the ring's "ferocious gentleman," Freddie (Red) Cochrane—well, he says he's not a bum—was telling off the boxing writers the other day, he insisted that he was the only boxer, who ever had beaten two world champoins in successive bouts. . . . Freddie would have to go back only three years before his victories over Fritzie Zivic and Lew Jenkins to find when Henry Armstrong took the welterweight title from Barney Ross—on May 31, 1938—and in his next start—Aug. 17—whipped Lou Ambers for the lightweight crown.

IT'S A BUTTE

The Tulsa, Okla., claim of having the largest junior baseball program per capita in the nation doesn't stand up when the figures from Butte, Mont., come in . . . Butte (pop. 40,000) has 20 teams in three divisions, exclusive of an American Legion Junior Club, as compared to 22 teams for Tulsa's 193,363 inhabitants. . . . Butte citizens contributed $2,700 toward equipment and upkeep for the circuit.

One-Minute Sports Page

Lt. Ben Hogan, golf instructor at Camp Davis, Army Air Force convalescent base, has appealed to North Carolina golfers to add $8,000 to the $1,000 they recently raised in PGA rehabilitation tourneys. Camp Davis needs a nine-hole court . . . Los Angeles county folks paid the bills for seven kids—mostly high school athletes—to come to the AAU track championships and figure they may be rewarded with the junior team title.

Service Department

Instead of summer football practice at the Jacksonville, Fla., Naval Air Station, Lt. Jim Tatum is holding an "instructional clinic for players." The reason: only three holdovers from last year . . . and Jack Morris, former Oklahoman who won two "met" track titles for the New York A. C. last week, is an Air Transport Command officer who has flown the Atlantic 100 times and has been over the hump eight times. He also can go over the hurdles.

Municipal Band Will Rehearse Friday

Prior to the Midland Municipal Band's fourth free summer concert on the courthouse lawn at 8 p. m. Saturday, the band will rehearse at 8 p. m., Friday in the high school band hall. Possibilities are good for a vocalist to appear with the band this week.

Adults, school students or servicemen are extended a cordial invitation to rehearse with the band each Friday night. If an instrument is not available, F. C. Gambill, director of the band, will provide an instrument.

Drawing Cards

Father Flys To Bedside Of Son Held For Murder

EL PASO —(AP)— A Philadelphia father, making a one-day plane flight to Texas, is here Thursday to aid his son, charged with murder and lying critically wounded in a hospital.

William R. Main, an official of an accounting firm, arrived here from Philadelphia.

His son, William F. Main, 28, is charged with murder in the decapitation slaying of an 80-year-old man.

He was wounded Monday night in an exchange of shots when Sheriff Alan C. Falby of El Paso and two deputies sought to question him in connection with the finding of a headless body in a shallow grave near Ysleta.

The victim's head later was found in a blood-stained box in a hotel check room.

The father told associates before taking a plane to Texas that his son suffered a nervous breakdown at Indiantown Gap, Pa., in 1941.

Combat Casualties Of Armed Forces Now Total 1,030,679

WASHINGTON — (AP) — Combat casualties of the armed forces since the beginning of the war reached 1,030,679 Thursday, a rise of 7,226 within the past week.

Army losses on the basis of names received here through June 21 amounted to 908,025 and Navy casualties totaled 122,654.

A breakdown of Army losses as reported Thursday by Undersecretary of War Patterson and corresponding figures for the preceding week follow:

Killed 190,277 and 189,294; wounded 564,302 and 560,836; missing 39,255 and 39,956; prisoners (before liberation) 114,191 and 113,615. Patterson said that 338,646 of the wounded are back on duty.

Similar figures for the Navy:

Killed 46,458 and 45,517; wounded 60,986 and 59,196; missing 10,985 and 10,908; prisoners 4,225 and 4231.

Polish Leaders Back In Warsaw After Moscow Conference

MOSCOW—(AP)—Back in Warsaw, Polish leaders began Thursday the task of preparing for formal announcement of the new provisional government of national unity, which is expected soon.

President Boleslaw Bierut, of the Polish National Council, Premier Eduard Osubka-Morawski of the Lublin regime, and Stanislaw Mikolajczyk, who is expected to become vice premier, expressed confidence that the new regime would unite all Poles.

Japan –

(Continued from page 1)

Island's Cagayan Valley climaxing a campaign that overran the 200-mile valley in 28 days.

Gen. Douglas MacArthur described the battle for the valley and its surrounding mountain country as "one of the most savage and bitterly fought in American history."

More Japs Dead

Japanese dead mounted to 113,593 compared with 15,178 American casualties, including 3,793 dead, 34 missing, 11,351 wounded.

The same disproportionate figures for sea and ground forces were announced in the Okinawa campaign —114,851 Japanese killed and captured; 46,319 American killed, wounded or missing. New American figures were exclusively naval—4,907 killed and missing, 4,824 wounded.

These included nearly 1,000 casualties on the carrier Franklin and 656 on the carrier Bunker Hill. Damage to the Bunker Hill May 11 was announced Wednesday night while she was still undergoing repairs at the Puget Sound Naval Yard, Bremerton, Wash.

Two Kamikaze planes hit her May 11 off Okinawa, turning the ship into an exploding, blazing furnace. At the time, she was Adm. Marc A. Mitcher's flagship and had been in operation for 58 consecutive days. She was the most heavily damaged ship ever to go to Bremerton for repairs.

Destroyer Damaged

Damage to the destroyer Halsey Powell, 90 miles off Southern Japan by a suicide plane March 20, also was announced. She suffered 41 casualties and fought three days to escape sinking. She is undergoing repairs at Long Beach, Calif.

Of the 1,400 American ships involved in the Okinawa operation, 33 were sunk and 60 damaged.

On Okinawa Gen. Joseph W. Stilwell took over command of the U. S. Tenth Army, which includes the Seventh Division he formerly commanded. Reportedly invaded Kume Island is 50 miles closer to China, a familiar stamping ground of Stilwell.

Australian troops spreading up and down the west coast of Borneo captured the railway terminus of Beaufort, north of Brunei Bay, and occupied the oil river port of Kuala Belait to the south.

A Japanese news report said Balikpapan on the opposite coast was virtually destroyed in a 20-day air bombardment during which naval task forces shelled the town every third day.

Generalissimo Chiang Kai-Shek of China predicted it would take at least 18 months to beat Japan into submission while Rear Adm. Frederick C. Sherman, U. S. Carrier Task Force Commander, guessed it would take only six months to a year.

Fort Worth Barber Is Shot To Death; Wife Also Is Dead

FORT WORTH—((AP))—The body of W. C. Morrow, 58-year-old barber, who had been shot to death, was found in the bedroom of his residence by police officers Thursday morning while his wife, Lula, 61, lay dead near the entrance to the room, her head resting on a pillow on the floor.

Detectives stated the woman had not been shot. An autopsy was to be conducted this afternoon.

A .38 calibre pistol with three shells fired was found in a closed dresser drawer while a note signed "Mother," was found in a woman's purse on the dresser.

Former Governor Of Louisiana Freed Of Two Federal Charges

NEW ORLEANS —(AP)— Former Governor Richard W. Leche of Louisiana was freed on two federal charges of using the mails to defraud but he still faced a third charge of conspiracy to violate the Connally (Hot Oil) Act.

United States Attorney Herbert W. Christenberry announced Wednesday the two cases had been wiped off the court records. One involved the presentation of a 40-foot cruiser to Leche and the other had to do with landscaping work at Louisiana State University.

Leche is serving a ten-year term for mail fraud at the federal correctional institution at Texarkana in another case. He is expected to be released on parole Saturday after serving three and one-half years of his term.

Demise For FEPC Expected Saturday

WASHINGTON—(AP)—The House Rules Committee Thursday blocked off House action on any new funds for FEPC, while a Senate talkathon prevented consideration of a proposed FEPC appropriation in that chamber.

The combined actions presaged a demise for the Fair Employment Practice Committee by the end of the week.

The Rules Committee tabled and thus laid aside legislation to appropriate $125,000 to wind up the affairs of FEPC within three months, leaving the agency no funds with which to operate after June 30.

No Record Vote

The action was taken in executive session without a record vote.

The Rules Committee's determination not to approve any legislation dealing with FEPC made it virtually certain that the agency would cease to exist after Saturday.

In the Senate Chamber, Senator Bilbo (D-Miss) raised his voice against a proposed amendment to a war agencies appropriation bill which would grant funds to the FEPC.

Ex-Sailor Insisted On Woman Doctor To Deliver His Child

DALLAS —(AP)— A shy, 18-year-old husband hired an ambulance to bring him and his 16-year-old wife, an expectant mother, from Shreveport to Dallas to be certain that a woman doctor would deliver their baby.

Although at times it appeared the stork would win the race to Dallas, the baby, a girl, was delivered at a hospital about 1 a. m. Thursday by Dr. Marianna Hood, Dallas woman physician.

The trek started when the young couple, Mr. and Mrs. Glenn Hampton, found that the woman doctor who had been attending his wife had left Shreveport on vacation. But Hampton, an ex-sailor, said "no man doctor" was going to touch his wife.

Funeral Services Held For Albert Kovacs

NORWALK, CONN.—(AP)—Funeral services Thursday for Albert Kovacs, 19-year-old sailor, and meanwhile Mrs. Imogene Stevens, 24-year-old wife of an Army major, remained in Fairfield County jail in connection with the shooting of the youth in New Canaan, Conn.

Mrs. Stevens, who told police she shot Kovacs because she thought he was intruding in the home of her neighbor, was held on a manslaughter charge.

New Canaan town prosecutor Edmund L. Morrison set July 30 as the date for Mrs. Stevens' Arraignment. But there was a possibility the case would be taken over by county prosecuting officials after the issuance of a finding by Coroner Theodore E. Steiber, expected in a day or two.

Livestock

FORT WORTH —(AP)—Cattle 2,000, calves 500; steady to slow; medium and good slaughter steers and yearlings 12.00-15.00, cutter and common kinds 7.00-11.50; medium to good beef cows 9.50-12.50; sausage bulls 7.00-11.50; good and choice fat calves 12.50-14.00; common to medium butcher calves 8.50-12.50; good kinds of stocked and feeder calves and yearlings 12.00-14.00; plainer kinds of stocker and feeder calves and yearlings 8.50-12.00; stocker cows 7.00-9.50.

Hogs 500, unchanged; butcher hogs 14.55; packing sows 13.80; stocker pigs 14.00-15.00.

Refinery Battered For Twenty Days

SAN FRANCISCO —(AP)— A Japanese correspondent in Balikpapan declared Thursday the big oil refining center in Eastern Borneo had been battered by bombers for 20 successive days, with the guns of Allied fleets adding their fire every third day.

The Tokyo radio in a broadcast recorded by the Federal Communications Commission gave an eyewitness account by "special correspondent Murakawa."

The correspondent said that "it is evidence" the Allies were "aiming at a landing operation."

Byrnes Is Expected To Get Stettinius' Position In Cabinet

By JACK BELL

WASHINGTON —(AP)—If President Truman picks James F. Byrnes as his new secretary of state the cabinet schift may be followed by a drastic departmental shakeup.

The President said in accepting the resignation of Edward R. Stettinius, Jr., as secretary that he expects to announce a successor early next week. Capitol Hill is convinced the choice will be Byrnes, former senator, Supreme Court justice and war mobilizer who quit the latter job shortly before President Roosevelt died.

Stettinius, Truman said, will head the American delegation to the proposed new United Nations organization and serve as this country's representative on the league's potent Security Council.

Selection of Byrnes probably would mean an almost complete turnover in the ranks of assistent secretaries named when Stettinius took office last December and began reorganizing the State Department. The one likely survivor of this group is William L. Clayton, assistant in charge of economic affairs, although others may be asked to stay on for awhile.

Gen. Mark Clark Is Chief Of Occupation Forces In Austria

WASHINGTON, —(AP)—Gen. Mark Clark has been designated chief of United States occupation forces in Austria, Undersecretary of War Patterson announced Thursday.

Clark, who commanded the 15th Army Group in the Italian campaign, will be the supreme American authority on military government and political problems in the United States occupation zone in Austria, Patterson said.

With some variations, Patterson added, Austria will be occupied in the same manner as Germany with four zones of occupation—one each for the four major powers. Vienna, the capital, also will be divided into four zones similar to the pattern on the division of Berlin.

Associated Press Will Ask Rehearing

NEW YORK—(AP)—A petition for rehearing of the federal government's anti-trust case against the Associated Press will be filed with the Supreme Court, AP's board of directors announced.

The petition will be filed on or before September 1 in connection with the Supreme Court's recent decision affirming a lower court verdict. The decision held that AP by-laws violated the Sherman Anti-Trust Act and should be amended to remove competitive effects upon existing members as a factor in consideration of new applications for membership.

RAYBURN HONORED

DALLAS —((AP))— Speaker Sam Rayburn Wednesday was awarded an honorary degree of Doctor of Laws by the University of Maryland where he made a commencement address.

ANTI-TRUST VIOLATION

WASHINGTON—((AP))—The Justice Department charged the Cement Institute, Chicago, and 89 manufacturing companies Thursday with violation of the anti-trust act.

OPA Announces Slight Improvement In Meat Supply For July

WASHINGTON —((AP))— There'll be a little more meat on the nation's dinner tables in July, but not enough to cut ration values.

The OPA announced Thursday that the supply will be five per cent greater than this month, but at the same time handed out this gloomy news:

From next Sunday through July 28 margarine will cost 14 points a pound instead of 12, while canned fish will require two to three more points a pound.

On the brighter side, cheese point values will be reduced from two to four points a pound, depending on the kind.

Current ration values on butter and all canned fruits and vegetables will be maintained through the July period.

Present point values for nearly all cuts of meat must be maintained to improve distribution to shortage areas, OPA said.

The only meat value changes are for seven fat pork cuts, which go up one or two points a pound. These include jowls, fatbacks, plates, sides, and jowl and plate bacon. Regular bacon is not affected.

French Fugitive Is Captured By Allies

ROME — (AP) — Joseph Darnand, secretary of interior in the Vichy regime and one of the most urgently wanted of French fugitives, was arrested three days ago by Allied intelligence agents, it was announced Thursday.

Darnand also was secretary general of the French militia, he was accused of some of the harshest measures against French patriots, particularly irregulars of the Maquis. His position in the rump French regime corresponded to that of Heinrich Himmler in Germany.

Deficiency Supply Bill Passed By House

WASHINGTON—((AP))—A $3,634,194,236 Deficinecy Supply Bill containing $174,500,000 for the Office of Price Administration for the 1946 fiscal year was passed Thursday by the House and sent to the Senate.

Passage was by a roll-call vote of 317 to 14.

County Commissioners Increase Their Pay

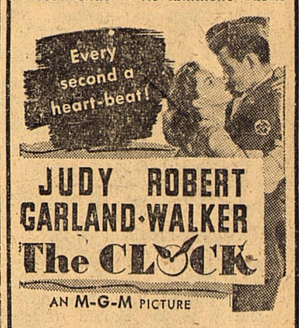

Midland County Commissioners have increased their salaries from $116.66 to $150 a month, it was learned Thursday at the courthouse. The action was taken last Monday, but was not recorded until Wednesday afternoon.

A new law, which went into effect May 11, 1945, permitted the commissioners to take the action. Commissioner A. G. Bohannan voted against the motion to increase the salaries.

The increases are effective July 1 and the commissioners will continue to receive $25 per month travel expense.

Houston Meat Markets Reopened Thursday

HOUSTON—((AP))—Meat markets in Houston, closed since Monday, were open again Thursday, with very little meat, while the Retail Grocers Association, which called the shutdown of markets, called a mass meeting Thursday night.

WE FLEW Without GUNS

By Gen Carvese

This is a true story of the men who fly the "hump"—carrying passengers and cargo over the high Himalayas between India and China. Pilots call it the toughest airline route in the world.

* * *

PIN-UP GIRL

XVI

WE didn't have much to read at the cottage at Dinjan, so every time we returned from Calcutta we brought back some magazines or sometimes a book or two. I don't know who it was that brought in the January 17 issue of *Peek*, but whoever it was I love him as a brother. One of the pictures in that magazine had a profound effect on my life.

She was blonde, the girl in this picture. Blonde and blue-eyed and built like—well, like only one girl in all the world, Gerry Ewing. That was her name. She was pictured with a group of other girls who danced with her at Billy Rose's Diamond Horseshoe in New York. They all wore little-girl costumes with short flouncey ruffled skirts, big sashes around their waists and colored bows in their hair. Gerry was sitting on the floor reading a book at a kid party, and I sat there in the lounge of our cottage on the other side of the world moaning softly to myself.

The other pilots began to gather around to see what was bothering me. When they saw that picture the wolf in them came to the surface with a chorus of low whistles, deep sighs and smacking lips. Petach in a frenzy grabbed the magazine out of my hands; Bob Robertson snatched it away from him; I leaped on Robertson, but too late. Lane had it by then, his eyes bulging as he devoured the beauty of that page. I was in agony for fear the sheet would be torn—and then Gingiss, Solomon-like, saved the day. He picked up a chair, balancing it over Skippy's head.

"Put that picture down, Brother Lane," he said. "We'll settle this thing in gentlemanly fashion, before someone gets killed."

Skippy obliged under the threat of the raised chair and Gingiss explained his plan.

"That girl is definitely a prize, boys," Gingiss said. "She has everything—and when I say everything, I mean to include that gorgeous soft white thigh which some of you may not have noticed—like hell! But we can't all have that girl. We can't all even dream of having her. Only one of us can be that lucky. We'll draw lots, and the lucky winner will get the picture all for himself; he'll be permitted to dream about her all he wants; he may even write her a letter. In fact, I think that ought to be one of the conditions. The winner will have to write her a letter, and if she replies he'll have to read her letter aloud to all of us. He'll have to read us his letter, too, before he sends it."

I was given the privilege of drawing the first card. Gingiss shuffled them and at least four of the wolves cut them to make sure they weren't stacked. I picked up the top card, turned it over. It was the ace of spades.

My letter to Gerry Ewing was a masterpiece in many ways, but I still don't know why she never answered it. Even to this day she has never given me a good explanation for that little bit of rudeness.

* * *

TWO of the boys who took part in the brief melee over Gerry's picture that night were Joe Rosbert and "Ridge" Hammel, both of Pennsylvania. Joe had been a Flying Tiger before signing on with C. N. A. C. and Ridge had only recently joined us, having transferred from Pan-American's African branch. Ridge hadn't checked out yet as a flight captain on the Himalaya run and was flying as a co-pilot, usually with Rosbert. They were scheduled to take off the morning following the discussion over the picture a half an hour after me on the run to Kunming. The weather was mean even on the ground that day; the monsoon season was well begun, and rain had been lashing the field all night. It was still pouring down as I waded through the muck from the flight office to my plane.

The first plane out every morning always took about a half-hour start on the others and radioed back information about the weather and any Jap activity noticed along the way. In view of the Zeros Petach and I had run into on the southern route the day before, I took the northern route this time, even though I realized, because of the drop in temperature overnight, that I would probably be heading into an ice storm.

* * *

ABOUT an hour out of the base I decided to head south. The plane was so loaded with ice I couldn't get it above 17,000 feet—not high enough to go over the Hump on the northern route—so I had either to go back to Dinjan or take a chance on getting far enough south to melt off the ice.

The ice storm was moving west, apparently, because Rosbert ran into it a shorter distance out of Dinjan than I had 25 or 30 minutes before. When I told him over the phones that I was going to head south I also told him why. "If I tried to get back to the base I'd take on a double load, Joe, and I'm too heavy right now to risk it."

"Okay, Gen," Rosbert replied. "But I'm not as far out as you are. I think I'll head back and wait for it to clear up. . . ."

That was the last we heard of Joe Rosbert and Ridge Hammel until 49 days later when they came rumbling out of the jungle on a British Army truck in what was probably the most remarkable return from the unknown world of Lower Tibet that any white men have ever made. . .

(To Be Continued)

McKENNEY ON BRIDGE

By WILLIAM E. McKENNEY
America's Card Authority

While the American Contract Bridge League has several different charity activities, my favorite is the Children's Unit in Memorial Hospital. Now that research work can go forward in greater strides, I am looking for some real developments in the fight against cancer in children. The proceeds of the Eastern States Mixed Team-of-Four Championship event is given to the ACBL Children's Fund.

Mrs. Lou Jaeger with Peter Leventritt, Mrs. R. C. (Sally) Young and Sam Katz were one of the teams that tied for first place in this event this year.

Duplicate—Neither vul.

South	West	North	East
1 ♦	2 ♥	2 ♠	Pass
4 N T	5 ♣	Pass	Pass
5 ♠	6 ♣	Pass	Pass
Double	Pass	Pass	Pass

Opening—♦ Q. 28

An interesting feature of today's hand is that, when Mrs. Young and Sam Katz played this hand North and South, they bid and made six spades, and then when Mrs. Jaeger and Peter Leventritt played the hand, Mrs. Jaeger bid the hand so boldly that South doubled her six clubs. Of course, this contract could have been defeated had South overtaken the diamond and cashed the ace of spades, or if North, after winning the first diamond, had shifted to a spade. But, even though Mrs. Jaeger had gone down one at six clubs, she would have won the match.

Oh-Boy—Wheaties! Big flakes of rich whole wheat. Crisp-toasted. And flavored with sweet malt syrup. Change your breakfast from just plain eating to real enjoyment. Start with milk, fruit, and Wheaties, "Breakfast of Champions." Solid nourishment! Slick flavor.

War Prisoners Ate Tooth Powder Pie

McALLEN—((AP))—They called it tooth powder pie.

Lt. Robert Dean of McAllen, who was a prisoner of the Germans, said another name for it was "Kriegie's Delight" (prisoner's delight).

Dean, who parachuted into Germany when his bomber was shot down, said the pie was whipped up from contents of Red Cross parcels and contained potatoes, bread, cracker crumbs, margerine, powdered milk and sugar.

As a substitute for baking powder, a heaping spoon of tooth powder was added, Dean declared, "to make it fluffy."

It wasn't bad, he asserted.

Plenty Of Pipes, No Cigarettes

GLASGOW, —(AP)—Sufficient briar to make 250,000 pipes has arrived here from the south of France. It was the first shipment to Britain since the war began.

Balikpapan's Oil Riches Burn Up

By NATHAN BROCH

OVER BALIKPAPAN, NETHERLANDS BORNEO —((AP))— Balikpapan has just been subjected to one of the heaviest combined Allied air and sea assaults ever staged in daylight against this important Japanese-held oil center.

I covered the action from the air aboard an Australian Liberator heavy bomber.

We left a Netherlands Indies Island base to give Balikpapan its usual luncheon diet—bombs for the Japanese and leaflets with the latest world news for the Indonesian population.

The bombs hit our targets—powerful Japanese artillery batteries on one of the Balikpapan Hills—squarely adding another to the series of fires which made a sea of flames lining the oil city's shattered waterside.

Balikpapan as I saw it today is a strangely-deserted place with Allied warships keeping a death watch some miles outside the vast bay. The guns of these ships had been on the job before our arrival over the target area and evidence of the damage they caused was still provided by the dense clouds of black smoke columns rolling skyward for 10,000 feet—almost stroking the bellies of our big bombers.

The destruction wrought by our fleet of aircraft—13 Australian and American squadron—sent up flames and smoke to mix freely with the Navy-made havoc.

As our air attack proceeded, we watched Balikpapan's oil riches burning away. Apparently the Japanese defenses were cracked wide open as the result of more than seven weeks of almost uninterrupted plastering by American and Australian Liberators.

Radiators And Tires Should Be Checked

With hot weather here motorists should see that tires on their cars always have the proper amount of air and that radiators are filled, Paul Cole, manager of Bert's Texaco Service at 400 West Wall St., said.

When motorists drive to Bert's Texaco Service attendants always are careful to check these radiators and tires. "We are glad to give the service," Cole said.

Palace Is Reliable On Prescriptions

"Prescription ingredients must be fresh and potent if they are to accomplish the purpose for which the doctor prescribed," J. B. McCoy, owner of the Palace Drug, pointed out.

The Palace maintains a stock of fresh drugs in its prescription department at all times, and all prescriptions are filled by a registered pharmacist.

B. Dunn Moving Vans Eliminate Trouble And Bother For Movers

Persons today do not dread moving as they once did, Billy Dunn, owner of the B. Dunn Moving Vans, 2104 West Wall Street, pointed out.

"There was a time when moving almost invariably meant broken and damaged furniture, confusion and a world of inconvenience," Dunn said.

"Today modern transfer equipment has eliminated much of the grief of moving," the moving vans owner declared.

Dunn operates with the most modern equipment and with trained crews. The crews are trained in the best ways to handle each piece of furniture to make sure it will not be damaged. His vans have closets which protect clothing and eliminate the chance of it getting soiled.

If a Midland family must move all they have to do is to telephone 2204 and a trained crew will call with a modern van, crate the furniture if it is necessary, and carry it to its destination undamaged. The many persons whom Dunn has moved will confirm the fact his moving jobs are performed with a minimum of fuss and muss.

Ten Years' Experience

One important factor which contributes to the smoothness of Dunn's moving jobs is the 10 years of experience he has had in this line of work. He operated a moving van line in Odessa before moving to Midland and opening his office here.

Dunn carries insurance on every load he moves as a protection to customers.

He said he always is glad to aid in solving all kinds of transfer and packing problems.

"Packing and crating merchandise and furniture so that it will not be damaged is work for a man trained to perform the job," Dunn asserted. "We are glad for persons who are having packing and crating trouble to call upon us and feel certain our wide experience will be helpful."

The moving van line owner invited citizens who plan to move to telephone his office and he will be glad to tell them how much the job will cost.

"We believe those who call upon us to move their furniture and household goods will find a certain satisfaction in moving which they wouldn't have believed possible until they used our service," Dunn declared.

Speed Needed In Processing Milk

Speed in handling is very important in the processing and distribution of milk, Carl Peay, district manager of Banner Creamery, said.

The milk must be brought to the proper heat, and pasteurized quickly. Then it must be distributed quickly.

Modern refrigeration has been a big help to milk processors and distributors, Peay said.

Music Hath Charms For The Enemy Guns

CHARLESTON, S. C. —(AP)—German troops facing him on the Italian front sang to the accordion-playing of Lt. Clifford Yewdall soldier composer of "Hail To The Infantry," but all his playing got him from his own side of the war was a cussing from his top sergeant.

"The Germans sang to my playing of 'Lili Marlene,' but 10 minutes later it drew box mortar fire and after that was over my first sergeant pushes back his helmet and leans over to me. He says: 'I'd like to wrap that juke box around your neck, lieutenant, sir!'

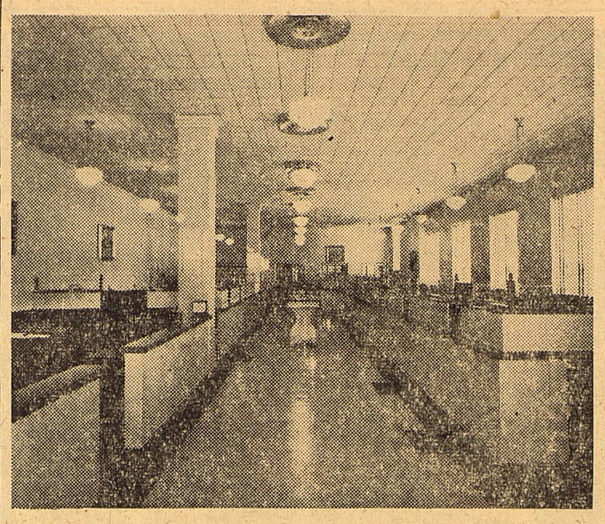

"And that's the appreciation I got from both sides," the Philadelphia officer and former Marine recalled, "after giving the Krauts a community sing and bragging to my sergeant that music hath charms."

No Need To Worry About Sunday Scoop

BOGOTA, COLUMBIA—(AP)—Radio newsmen in this capital will rest on Sundays without the fear of the other fellow's scoop. Directors of radio news programs have signed a pact whereby they will suspend their Sunday broadcasts.

West Texas Banking Center

The impressive banking quarters of the First National Bank reflect both the stability and sound growth of the outstanding West Texas financial institution. The bank is air conditioned for the comfort of customers and employees. Good taste in decorative treatment marks the appearance of the bank's home with well selected pictures on the walls.

Army Specialists Get Information From Germans

WIESBADEN, GERMANY —(AP)— A small group of highly specialized United States Army officers representing all branches of the service have the important task of questioning all military and political prisoners as they fall into Allied hands.

In a country such as Germany is now, with communications ruined, cities leveled and travel greatly restricted, the officers work in teams known as mobile field interrogation units. The simplified name is MAFIU.

The identity of the prisoner determines which units have priority.

When General Fritz Bayerlein surrendered the remnant of his tank corps in the Ruhr April 16 he was questioned at great length by officers interested in armored vehicles and mobile warfare.

Tells Of Tank Battles

Bayerlein was a frank commentator.

One of his most revealing comments referred to his first encounter with the U. S. Sherman tank in the West African desert in 1942-43.

In desert terrain where visibility is excellent, the tank was the decisive weapon and the range of its guns was all important. Bayerlein says Rommel's doctrine was "hit them when they can't hit you," meaning be able to smash enemy tanks with your guns before he can get close enough for his guns to be effective.

At Alamein the British used Sherman tanks for the first time and with sensational success. The majority of the German tanks were Mark threes and Mark fours and were equipped almost exclusively with short-barreled guns of 50 and 75 millimeter caliber. Bayerlein says almost all the German tanks were destroyed at medium and long range before their own guns were close enough to be effective.

The brown trout, first brought to the U. S. from Europe in 1883, now is found in all but about 10 states.

The China Lantern Is Best Army Newspaper

By CHARLES A. GRUMICH

CALCUTTA —(AP)— The editor of the camp newspaper judged the best among the hundreds published for United States and Canadian armed forces over the world came up through the Army Baking and Truck Repair Schools.

He is Lester H. Geiss, 31, or Forest Hills, N. Y.

His publication, "The China Lantern," which has probably the longest "line of communication" of any local newspaper in the world, took the grand prize in the 1945 Camp Newspaper Service contest judged by foreign correspondent Leland Stone, Basil L. (Stuffy) Walters, editor of the Chicago Daily News, and John S. Remaly, editor of the Endicott, N. Y., Daily Bulletin.

Stresses World News

The 5-column tabloid, formerly named "The Command Post," is sober-sided as GI publications go and almost completely devoid of the customary flippancies seen in such papers. It stresses world news from a wide selection of services and it prints every good war map Geiss can lay his hands on. He gave a full page display to the San Francisco conference just before it opened. He publishes local news of the China theater only if it is generally newsworthy. He uses pictures copiously.

The geneals fare no better than the GIs in the way of inconsequentials and personal items. China Lantern has an unswerving rule against "polishing brass."

Geiss has a cosmopolitan background; he attended five colleges—Furman, Oglethorpe, Duke, Vanderbilt and George Washington University—and did a public relations work at some of them; he got a newspaper job on the now defunct Kansas City Journal as the only male fashion editor on a metropolitan daily.

The Malayan flying snake does not fly. It flattens its body and glides from one tree to another.

The carp is a minnow, yet may weigh about 100 pounds.

Mass Production Of Ford-Ferguson Tractors Planned Following War

Plans are being made in Detroit for postwar mass production of Ford-Ferguson tractors which probably will result in much lower costs, R. S. Elliott, manager of the Midland Tractor Company, dealer here for the Ford-Ferguson, said.

Elliott cited an article which appeared in Business Week which said manufacturers of the tractor believed if tractors were mass produced and sold at low cost millions of farmers who do not have tractors would purchase them.

The Business Week article pointed out there are not enough farms in the United States to justify million tractor a year production, but already Harry Ferguson, inventor of the Ferguson hydraulic lift, has gone to London to make plans for the mass distribution of tractors in Europe. Plans also are being made for large exports to the Latin-American countries.

In preparation for increased production of postwar years the headquarters of the tractor concern has been moved from the Ford River Rouge works to the company's Highland Park plant.

Start Educational Program

Business Week said the Detroit Board of Commerce was so impressed with the plans it had set up a complete educational program.

"When this program goes into effect it means the farmers of Midland County will be able to own a Ford-Ferguson tractor with its hydraulic lift at a lower price than ever before," Elliott said.

"When we read of the plans being made by Henry Ford and Ferguson for the manufacture of the Ford-Ferguson tractors we know their initiative, imagination and energy will be reflected in the quality of the machine."

The Ford-Ferguson is the only tractor with hydraulic lift which permits the operator to connect implements to the machine in a minute's time and without having to bother with a large number of bolts. Many labor saving implements have been designed to be used with the machine which gives it great flexibility.

The number of uses for the Ford-Ferguson on the farm practically is limited only by the owner's imagination. It even can be used as a post hole digger.

Elliott extended an invitation for all who are interested in tractors to call and let him explain the many uses of the Ford-Ferguson.

Yank Soldiers Seek Relatives In Army Ranks

By KENNETH L. DIXON

OCCUPIED GERMANY—(AP)—With more time on their hands than they have had since sailing from the United States the Yanks are now looking around to locate relatives in the ranks. Reunions are regular occurrences..

Joe and Charley Valenti, Brooklyn, N. Y., got together at Worms, Germany, the other day for the first time since they were last home on leaves two years ago. Joe is a buck sergeant who cooks for the antitank company of the 274th Infantry Regiment. Charley is a technical sergeant who was in Worms awaiting transfer to the 44th Division.

They swapped letters and Joe managed to get a pass permitting him to spend a day at Worms visiting Charley.

Another such meeting in the 274th Regiment involved Maj. Paul Dur-Bin, Furtonky, executive officer of the Third Battalion whose brother-in-law, Sgt. Charles Abel, Asbury Park, N. J., made a surprise trip over from Bad Schwasbach for their first reunion in more than two years.

Nazis Want News

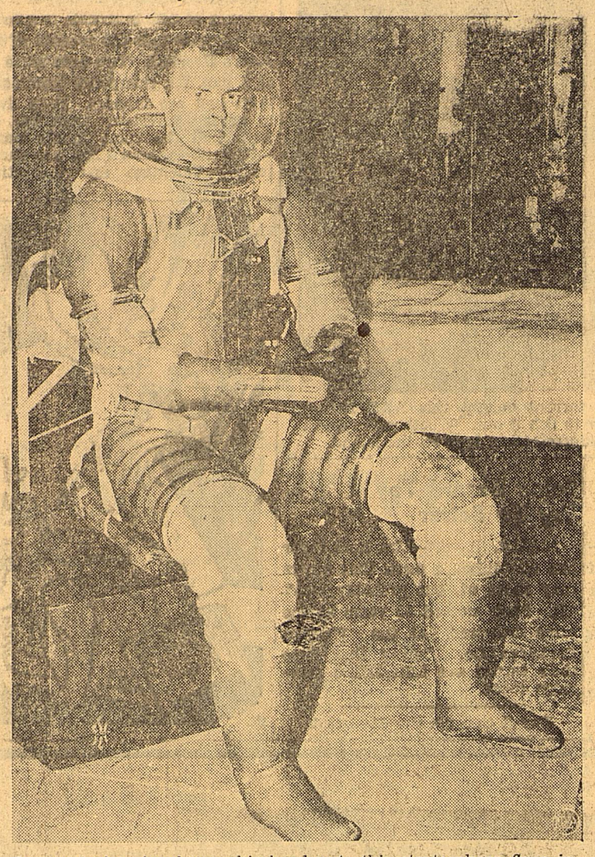

The 29th Division doughboys can testify that the Germans are plenty hungry for news these days. They have been printing their division paper in Blumenthal, north of Bremen. GI printers are constantly heckled by civilians sticking their heads in the windows asking "Habens Zeitung?" and proferring coins for the latest issue of the division daily.

The fact that it is printed in English makes no difference. The Germans get interpreters to read it to them. Three German school teachers dropped by the other day, asking for extra copies to use as textbooks in English classes.

Freddie, the shop's German printer devil, partially solved the problem by posting copies of the paper in a sample case outside the building. He also pulled proofs of all the available pictures in the shop and labeled them with German captions.

Outside of digging up an old Normandy D-Day picture and labeling it "American Forces Landing on Okinawa," Freddie does all right.

Flyer in Goldfish Bowl

Inverted glass bowl over his head puts this stratosphere flyer in practically the same position as a goldfish, except that through this, and the futuristic-looking suit he's wearing, he can fly to an altitude of 80,000 feet. Suit was developed by B. F. Goodrich Co., Akron, O., under direction of Air Technical Service Command. Oxygen, microphone, earphones and electricity for heating are all piped in on one conduit.

Assembly Of United Nations Is More Than Glorified Debating Society

By JAMES MARLOW

WASHINGTON —(AP)— The General Assembly of the United Nations —called the "town meeting of the world"—is more than just a glorified debating society.

In the assembly every member of the United Nations, large or small, will have one vote, and one can talk just as loudly as another.

The members can discuss anything coming within the scope of the United Nations charter. This covers a lot of territory in the international field.

This makes the Assembly a stage —or sounding board—where the world can express its opinions on what is happening in the world or is likely to happen if something isn't done to stop it.

Someone like Hitler, starting to push his neighbors around, probably would think twice before going too far if he knew assembly debate on his tactics was likely to organize world thinking and action against him.

Big Five Dominate

But the Security Council—made up of the United States, Britain, Russia, France and China as permanent members, plus six smaller nations elected to two-year terms by the assembly—is tied in closely with the assembly.

Once again you can see how those "Big Five" nations are going to dominate to large degree the world of the future.

There are lots of limits on what the Assembly can do. It can't call out the world's armies to suppress aggression.

It can recommend to the Security Council that this be done, but it can't do it itself. Use of force depends solely on the decision of the Security Council.

(Recommendations on important problems in the assembly require a two-thirds vote of the members.)

Council Must Act

The Assembly can suspend a member against whom force has been used, but only upone recommendation from the Security Council.

And it needs a recommendation from the Security Council to expel a member for persistently violating the principles of the United Nations charter.

And if any nation not now in the United Nations wants to join, it will have to get the okay of the Security Council before it sits in the Assembly.

But without bothering about the Security Council — although undoubtedly keeping a weather eye cocked in that direction—the assembly can try to promote international cooperation in educational, cutural, political and economic fields.

The Assembly, after listening to a debate on the disputes between nations, could make recommendations for their peaceful settlement.

Candidate

Miguel Aleman, above, former Interior Minister, is the first declared major candidate for the presidency of Mexico as interest begins to warm up in next year's national election.

Bullet Also Had Nameplate On It

GRAND ISLAND, NEB. —(AP)— During the Yanks' headlong clean-up of Germany, Pvt. Dale W. Hongsermeier caught a glimpse of a house whose nameplate bore his mother's maiden name.

Shortly afterward he was shot in the shoulder. An exchange of letters with his parents, Mr. and Mrs. William Hongsermeier of Grand Island, established that he was wounded in action near his mother's birthplace.

A pair of Army shoes requires twice as much leather as a pair of men's dress oxfords.

A pre-war 3 1/2-pound toy locomotive contained enough zinc for the carburetor of a jeep.

Gen. Rapp Brush Returns To Scene Of Boyhood Days

By RICHARD BERGHOLZ

WITH FORTIETH DIVISION, PHILIPPINES —(AP)— The captured Japanese officer paid something of a rare compliment to Maj. Gen. Rapp Brush and his 40th Division Infantrymen when he remarked: "It is deplorable that we should have retreated before such an American force."

Brush took only five battalions and landed on Negros against a force of Japanese estimated as high as 15,000. He moved so fast and so hard that before the Japanese could stop fleeing and make some kind of an organized stand they were bottled up in the mountains.

It was a master stroke for Brush and his command. And when Lt. Gen. Robert L. Eichelberger, Eighth Army commander, visited the Negros front shortly after the landing he pinned a Silver Star on Brush's dusty fatigues and affectionately nick-named him "Speed" Brush.

There were tears on Brush's leathery weather tanned cheeks then but perhaps you're not supposed to mention it.

Boyhood Playground

It was a very great moment for the 56-year-old division commander whose whole life has been the Army and whose personal achievements are wrapped up in military achievements.

This whole Philippine campaign has been something of a childhood revisited for Brush. For instance, when his division hit the beach at Lingayen in Luzon on Jan. 9, Brush looked out over the flattened battered city and commented: "This doesn't look like much of a playground for a boy."

What he meant was when his father, Brig. Gen. Dan'l H. Brush was military district commander in the Lingayen area in 1901, Rapp used to teach Filipino boys how to play baseball in the same streets that were now strewn with rubble.

And when Brush led his troops into Iloilo, he established headquarters where his father, then commanding general of the Visayan department, had lived.

When Brush visited Zamboanga in the Southern Philippines, he recalled his service as a junior officer there in 1912.

Savage Defense Put Up By Japs

OKINAWA—So savagely did the Japs defend Sugar Loaf Hill that Marines were wounded or killed almost every time they aided injured Leathernecks, according to Sgt. Elvis Lane, Marine Corps combat correspondent.

Marine Corp. Charles Ryan of Moundsville, W. Va., an da Marine lieutenant reached a wounded Leathneck at the foot of the bitterly-contested hill which fronts Naha. As they started to examine the Marine, the lieutenant toppled over, an enemy machine-gun bullet in his side.

Ryan, a member of the Sixth Marine Divisiion's 29th Regiment, capturers of Sugar Loaf Hill, motioned for three Marines to help him carry the wounded pair to an Okinawa tomb on a nearby hill.

Make Dash for Tomb

The moment there was a slight respite ein thealmost continuous enemy mortar, machine-gun and rifle fire, the four Marines, carrying the two wounded men, bolted toward the tomb.

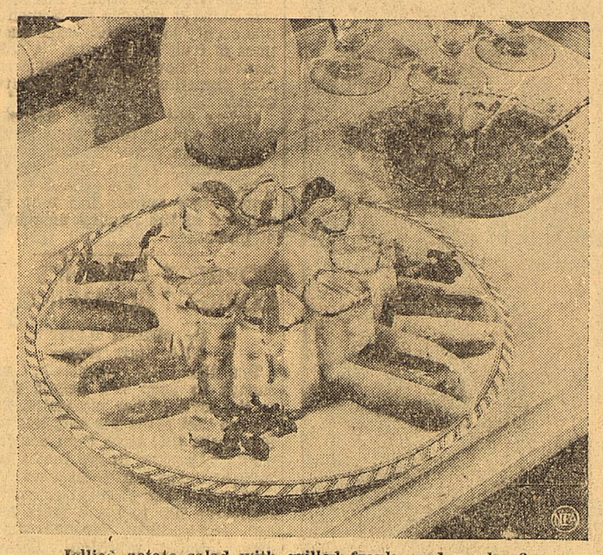

Just as the group reached the tomb entrance, a Japanese mortar exploded a few feet away—and another Marin efell wounded.

Ryan pulled the injured Marine inside.

After administering first-aid to the wounded ,the Marines waited fo ra break in the Japanese shelling. "We were pinned in the tomb for three hours," Ryan said.

When the let-up came ,a Marine tank rumbled close to the tomb. The three uninjured Marines, each helping a wounded Leatherneck, took cover beside the tanks as it moved away from Sugar Loaf Hill.

Give A July 4th Picnic At Home

Jellied potato salad with grilled franks and mocha fizz.

By GAYNOR MADDOX
NEA Staff Writer

Keep up the old traditions. Give a July 4th picnic this year, too, even though you go no further than your front porch or your back yard.

How does this picnic at home menu sound—jellied potato salad, grilled frankfurters and rolls, barbecue sauce or relishes, cookies and mocha fizz?

Jellied Potato Salad
(Serves 8-10)

Two and one-half cups diced hot cooked potatoes, 2 teaspoons grated onion, 3 tablespoons vinegar, 2 tablespoons salad oil, 1 3/4 teaspoons salt, pepper, 1 package lemon-flavored gelatin, 1 1/4 cups hot water, 3 tablespoons vinegar, dash of salt, 5 tablespoons mayonnaise, 1/2 cup finely diced cucumbers, 1/4 cup sliced radishes, 1/2 cup thinly sliced celery, 2 tablespoons 1/2-inch strips green pepper.

Combine potatoes, onion, vinegar, salad oil, salt, and pepper. Mix carefully. Let stand 25 minutes to marinate, stirring occasionally. Dissolve gelatin in hot water. Add vinegar and salt. To 2/3 cup gelatin mixture, add 3 tablespoons water. Turn into 1 1/2 quart ring or loaf pan. Chill until slightly thickened. Arrange garnish of a few cucumber and radish slices in mixture. Chill until firm. Chill remaining gelatin until slightly thickened. Place in bowl of ice and water and whip with rotary egg beater until fluffy and thick like whipped cream. Fold in mayonnaise; then fold in remaining ingredients and potato salad mixture. Turn onto firm. Unmold. Garnish with border of lettuce, deviled eggs, or sliced tomatoes, sprinkled with French dressing. Or serve with grilled frankfurters and rolls.

Mocha Fizz
(Serves 6)

One quart-size bottle ginger ale, 1/2 cup semi-sweet chocolate chips, 1/4 cup hot water, 1 1/2 cups triple-strength coffee, 1 1/2 cups milk.

Put ginger ale in refrigerator to chill. Place the chocolate chips and hot water in top of double-boiler and melt chocolate slowly until smooth. Remove from heat. Stir in triple-strength coffee; add milk, chill. Just before serving pour into pitcher and add chilled ginger ale. Or, pour 1/2 cup of the coffee-chocolate mixture into each glass, then fill with ginger ale.

HEAT LIPSTICK TO MEND BREAK

By ALICIA HART
NEA Staff Writer

Give a broken lipstick surgical aid—hold both broken ends over a flame for the merest second, stick together, and stand mended rouge up in its case to "set"—and you can save it from its Humpty Dumpty fate.

For this trick of restoring your bullet of rouge, thank a Hollywood make-up expert who says you don't have to discard a lipstick—heaven forbid that it should happen—which somebody else uses. First wipe away dust with tissue before you rub the stick of germs by passing the full length of the stick swiftly over the fire and rolling the container between your fingers.

Let rouge cool, screw it back into its case, and it's safe, according to our expert, for the most fastidious girl to smooth on her mouth.

Stanton Sergeant Has Narrow Escape

By ROBBIN COONS

B-29 BASE, TINIAN—(AP)—They laugh about dangers later, these gallant lads of the Superforts who make the long hazardous flight to Japan.

The crew of the B-29 "T-N-Teeny" laugh about their long, terrifying journey home from a strike at Nagoya. It was no laughing matter at the time. Over the target this plane commanded by Capt. Frederick B. Scheaffer of New Cumberland, Pa., took a direct flak hit in its No. 4 engine, and smoke streamed from the dead nacelle.

"We couldn't feather," says Scheaffer, "and there was danger the prop might fly off. And I figured where there was smoke there had to be fire—and I knew we'd have to ditch."

The crew began dumping equipment, losing altitude, preparing for the perilous water crash. Meanwhile the engine had stopped smoking. That gave them hope—they would try to make it in!

And all the way they flew that giant, heavy ship, at a ditching altitude of five to ten feet off the water, to make a landing at Iwo Jima!

The other day they were kidding Lt. Varge L. Frick of San Antonio, Texas, about his actions during that long, suspense-filled ride. Frick, the bombardier, recited his rosary all the way in. "And my beads got so hot," he said, "I had to drop them in my canteen to cool them off!"

Other members of the crew who made this weirdest of B-29 trips included: Gunner Sgt. Rayford D. "Jack" Watson, of Stanton, Texas. "Think of all that equipment we dumped! Thousands of dollars of war bonds went to buy it. Taxpayers' money—gone like that!" one of them said.

"Well," said Lt. William G. Hawes of Dallas, "I was thinking about that, too—but I was trying to save Uncle Sam that $10,000 life insurance policy he carries on me!"

Watson is the son of Mr. and Mrs. F. D. Watson of Stanton. His wife resides in Carlsbad, Texas.

WHEN IT RAINS IT POURS

Dateline: PACIFIC

By MORRIE LANDSBERG

ABOARD BRITISH FLEET CARRIER, WESTERN PACIFIC—(AP)—In a nook of the wardroom lounge, there's a big ledger. It's the place where officers of this ship record their suggestions—and complaints—about management of the wardroom mess.

To date, the mess managers have been able to maintain a food standard which is high in view of the supply problem for ships so far from home.

Here is a Monday menu served on this carrier:

Breakfast— grapefruit segments, porridge, cereals, kippers, pork tongue, tea, coffee.

Luncheon— valetta soup, stewed steak, mashed and fried potatoes, haricot beans; cold cuts—luncheon tongue, pressed beef; salad; fruit sponge, griddle cakes and syrup, cheese; coffee.

Dinner — Scotch broth; mixed grill, mashed potatoes, carrots; yarmouth croutes (sardines); coffee.

Except for breakfast, you take your coffee—a demi-tasse—in the lounge across the passageway from the wardroom.

After the demi-tasse, you can have a liqueur or glass of port, or for that matter, whiskey or gin. This ship has no more beer, and the men miss it in the heat of the Pacific. Enlisted men continue to get their daily grog—watered rum—as they did in the days of Nelson. Warrant officers get theirs neat—liquid fire of 180 proof Jamaica rum. An American who sampled it commented "wow!"

The officers recognize their bar service as a privilege which they are careful not to abuse. In nearly three weeks aboard two British carriers and a sloop, I didn't see a single case of intoxication. Fliers, especially, drink sparingly unless there's a quiet period ahead.

The suggestions book deals with the bar once in a while.

"Could we have salted peanuts with our drinks in the evenings?" someone asked.

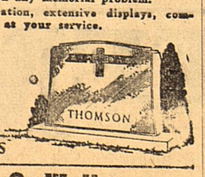

And the dutiful mess manager replied: "This will be arranged."

Filipino Soldiers Praised By Yanks As Good Fighters

By RICHARD C. BERGHOLZ

WITH THE TWENTY-FOURTH DIVISION NEAR DAVAO, PHILIPPINES—(AP)—When the Eighth Army campaign to lick the Japanese on Mindanao began, a lot of American officers weren't too sure about the effectiveness of Filipino soldiers.

Let them guard the bridges and supply lines, the Americans said. We'll do the fighting.

It's a different story here in the rugged fighting around Davao. Some Philippine Army troops are still guarding the roads and bridges—a vital job, of course—but they're also fighting alongside veteran doughboys of the "Victory Division and killing plenty of Japanese, too.

Take the case of Lt. Raymond M. Sundquist of Hoquiam, Wash. One of the greatest basketball stars in the country with the championship Washington State team in 1941. Sundquist and his reconnaissance platoon were assigned 475 Filipino officers and men. They were poorly equipped, poorly fed, poorly clothed. But almost pathetically eager. Man or man, how they loved to kill Japanese!

Wanted Action

At first Sundquist had his new recruits guarding rear areas. That didn't last long. The Filipino leaders went right to Maj. Gen. Roscoe B. Woodruff and said: "Our men don't like sitting in foxholes day and night guarding bridges. They want to fight."

They did. In two weeks of offensive action with Sundquist's platoon, they killed at least 149 Japanese and took 27 casualties.

"You ought to see how these boys fight," Sundquist said. "None of this blind shooting into the bushes. Every shot had to count with them it goes back to the days when they were fighting the Japs on their own. They had little ammunition and every man's life was worth less than the rounds in his rifle. Their officers told them, 'You have one grenade and four rounds for your rifle. It may have to last you for the duration. Use your knives."

Bicarbonate Pack Relieves Sunburn

By ALICIA HART
NEA Staff Writer

Relief from a sunburned skin—if you're the sensitive type whose shoulders broil while the rest of you toasts—is to be had from a pack made of water and bicarbonate of soda. Treat the touchy spot to a pack that you keep moistened, because smarting skin will dry up the paste, and needs water as well as soda.

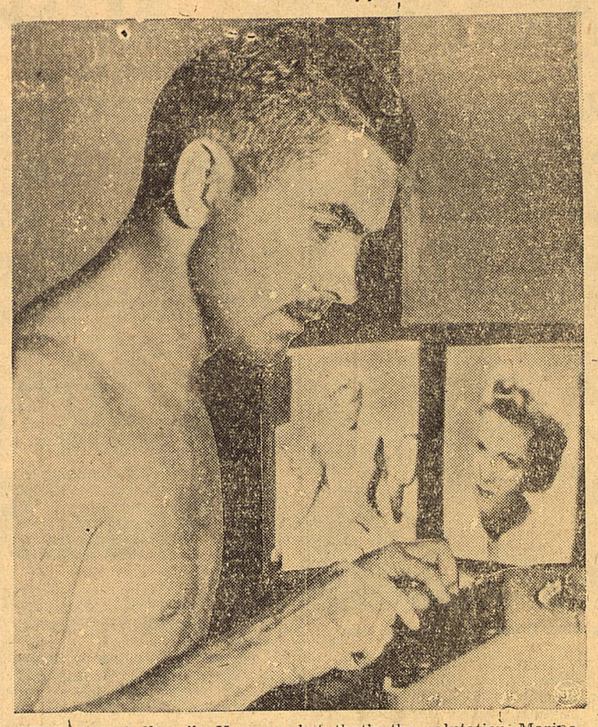

MISS JOHNSON: Helpful.

For this home-made remedy, thank Christine Johnson, Metropolitan Opera contralto and star of the Broadway hit "Carousel," who says it puts a stop to the progressive action of a burn and gives you relief from a sting that becomes too peppery for comfort.

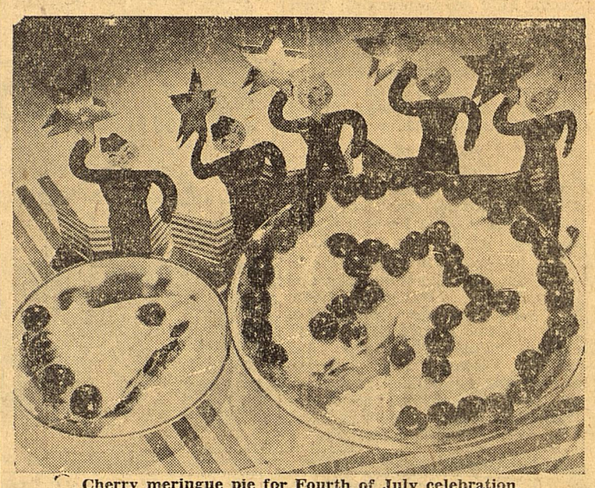

Expressive exposure which develops fever is an entirely different story—one which urgently calls for a physician. But with all of the warnings that go out against the fearful hazards of sun-poisoning, you certainly won't be guilty of the folly of staying too long under burning rays.

A Star Gets Typed

"Dear Annabella:—" You can bet that's the salutation Marine Lieut. Tyrone Power is typing on this letter. The former movie star is writing a V-mail letter to his actress wife, Annabella, from an air base on Saipan. He is a transport pilot.

Sugarless 4th Of July Desserts

Cherry meringue pie for Fourth of July celebration.

By GAYNOR MADDOX
NEA Staff Writer

You want a gala dessert for the 4th of July—you also want to save your sugar supplies for Victory Garden canning. Here are two recipes.

Chocolate Charlotte
(Serves 6)

One recipe prepared chocolate pudding, 1/4 to 1/2 teaspoon almond extract, 1 or 2 egg whites, stiffly beaten, 6 ladyfingers or 24 strips of sponge or plain cake.

Prepare pudding as directed on package. Chill, stirring frequently. Add almond extract. Fold in beaten egg whites. Split ladyfingers and cut in half. For each serving, place 4 pieces of ladyfingers or cake in sherbet glass and fill with pudding.

Fruit Meringue Pie

One and one-third cups (15-ounce can) sweetened condensed milk, 1/4 cup lemon juice, 2 eggs, separated, 1 cup sliced cherries or other fruit, 2 tablespoons sugar, cookie crumb crust.

Blend sweetened condensed milk, lemon juice and egg yolks. Fold in sliced strawberries. Pour into pie plate (9-inch) lined with cookie crumb crust. Cover with meringue made by beating egg whites until stiff and adding sugar. Bake in moderate oven (350 degrees F.) 10 minutes or until brown. Chill before serving. Or omit the meringue and garnish with cherries.

If the time is too short for pie crust, you can still accomplish your pie by using a cookie crumb crust. Just roll enough vanilla wafers to make 3/4 cup of crumbs. Cut enough vanilla wafers in halves in stand around edge of pie plate and put them in place. Cover bottom of plate with crumbs and fill in spaces between halved wafers. Pour in filling as usual.

Judge Makes Plug For Justice

KNOXVILLE, Tenn. —(AP)—Because the defendant in the Circuit Court suit had exclusive control of the stopper in her sink," the judge awarded the plantiff $280 for damages to a wardrobe.

"Since," the judge decreed, "in the ordinary course of things water faucets do not turn themselves on, fill up sinks and overflow into the walls of buildings . . . the defendant could be guilty of negligence.

"The stopper in the drain prevented the water from flowing down the normal outlet," he stated, holding it was the defendant's duty to turn off her water faucets and unstop her sink.

Orders To Be Received For Apricots Saturday Morning At Court House

Home Demonstration clubs again aremaking it possible for women of this county to purchase large quantities of fruit for canning. A shipment of Tilford apricots will arrive here sometime in the next two weeks.

Orders will be taken Saturday from 10 a.m. until 12 noon in the office of Mrs. Nettie Messick, county home demonstration agent, on the third floor of the Court House. Twenty-four pounds has bzen announced as the smallest amount to be purchased.

CORRECT CLOTHES CORRECT SLUMPING

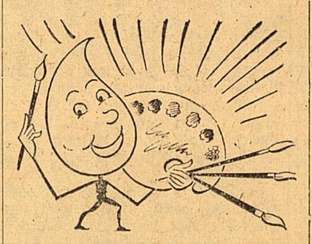

By ALICIA HART
NEA Staff Writer

Put the little beanstalk, who slumps to keep her height down to the level of her playmates, into clothes that make her look less tall. She needs this more than convincing talk to prove to her that a tall, straight figure can be an asset.

Height-slicing clothes which will encourage her to stand erect have full, short skirts, widened shoulders, lowered waistlines. Because she's tall, she should be allowed to dress a trifle maturely for her years.

If rapid growth is accompanied by awkwardness—as it so often is—the best aid in easing her through this all-arms, all-legs phase are dancing lessons which will teach her to co-ordinate muscles and give her the poise that comes from knowing how to handle her body.

The ring-necked peasant, an immigrant from China, is the official state bird of South Dakota.

COLORED CLOTHES WASH BRIGHTER!

Make washwater sky-blue with Rain Drops . . . add dash of soap . . . then wash as usual. *Hidden* dirt and grease float away . . . grey soap curd dissolves. Colors are brighter . . . clothes are cleaner, fluffy soft . . . hands stay smooth and white.

They Just Happened To See Eye To Eye

SPRINGFIELD, Ill.—(AP)—A rare instance of double trouble was written recently into the records of St. John's Hospital. Two men came in at 3 p.m. for emergency treatment. Both had eye injuries. Both lived in nearby Riverton. Each was 58. Both had the same family name—Roscetti—although one was christended Valentino and the other John. Attaches figured they were twins, but it turned out they were unrelated.

Horse Runs Amuck In Manhattan

NEW YORK —(AP)—Friends of Miss Beatrice Feldstein, of Santa Monica, Calif., will be grieved to nearn that she was badly injured recently when the horse drawing her cab ran away in midtown, Manhattan.

Hungry mosquitoes and buzzing flies won't make *your* night a nightmare . . . if you spray the marauders with *Flit!*

For *one* whiff of this effective insecticide is "sudden death" to these common household pests, moths and flies . . . as well as to the dangerous, disease-laden malaria mosquitoes. It *kills* 'em—*on the spot!* Buy Flit today!
