STORMS, BUT RAIN, TOO—Most of Lynn County got some badly-needed rain Saturday night, but there was also some storm damage, with high winds at Tahoka, New Home and Wilson, and heavy hail at O'Donnell. The tree above was broken off by wind on N. 7th St. in Tahoka. Some parts of the county had about two inches of rain; in Tahoka the measurement was .87 of an inch. (LCN PHOTO)

Hailstorm Causes Damage At O'Donnell, But Rain Welcome

Hail described as golf ball-size and larger broke windows on homes and businesses at O'Donnell Saturday night and also damaged roofs and vehicles, according to Lynn County Civil Defense Coordinator Robbie Roberson.

Roberson said O'Donnell residents were appreciative of the help provided by volunteers, including the Tahoka Fire Dept. members who joined others in boarding up buildings that evening. The firemen took plywood to O'Donnell.

Roberson said the tornado warn-

ing siren in Tahoka did not operate properly, but noted that the courthouse basement was opened after an apparent tornado was spotted, and that several residents, mostly from trailer homes, did take shelter in the courthouse.

No injuries were reported from the wind and hail at O'Donnell.

WATER SPORTS, turnip greens, German food and music and chili cookoffs are among things you can enjoy in Texas during the month of June, according to the Tourism Division of the Texas Dept. of Commerce. And their monthly news release includes some interesting things.

In Central Texas, there is New Braunfels, started in 1844 by Prince Carl of Solm-Braunfels, who bought the land as a temporary settlement for the German settlers upon their arrival in Texas. "Its abundance of water makes New Braunfels a wonderful spot for water sports," says the release, generating a feeling of jealousy among us dry-area people.

Fredericksburg, Kerrville, Boerne and other Hill Country towns also have German things going on in June, including German music concerts. They probably will play Wagnerian stuff, but maybe even "Fraulein" or perhaps "Bringen Sie euer Geld als wir mehr haben willen." (Yeah, I know that's not really proper German, but roughly it means "Bring us all your money, so we'll have more than you do.")

Big Spring has "Nature Walk and Sunset Tales" five times during the month.

"Take a nature walk in Big Spring State Park and hear tales of treasure, cowboys, and ..." probably the recent vicious hailstorm which beat the heck out of cars and homes.

Some place I've never been, called Easton, in the Piney Woods, is having a Turnip Greens Festival on June 1, promising "plenty of fun and all the turnip greens you can eat!" About a half spoonful would be my limit.

There are some other events scheduled at various places around the state in June. The blueberries June 7-8 in Nacogdoches sound pretty good to me.

Girl, 8, Injured In Truck-Bicycle Collision Here

An 8-year-old girl suffered severe injury to a foot Friday when the bicycle she was riding near the intersection of Ave. O and Lockwood was involved in a collision with a Schwan's Ice Cream truck driven by Jack Newton Moore, 57, of Lubbock.

Jheri LaVonda Loftis was taken to Lynn County Hospital for treatment after her bicycle apparently struck the rear of the truck, which police said was making a legal turn after stopping at the intersection.

A burned 1988 Ford Escort was located on a county road about two miles west of US 87 Friday. The vehicle had been reported stolen in Lubbock, and the owner was identified as Trudy Shoemaker of Lubbock.

Sixteen persons were jailed during the last week, including three for driving while intoxicated (DWI) and three for public intoxication. Other charges bringing incarceration included no drivers license, failure to appear plus minor in possession, two others for minor in possession, aggravated assault, application to revoke probation on theft charges, speeding, no liability insurance, DWI first offense plus no liability plus possession of narcotics paraphernalia plus bond forfeiture, possession of marijuana under two ounces, possession of narcotics paraphernalia, unauthorized use of a motor vehicle (New Mexico) plus motion to revoke probation on burglary of a vehicle (Ector County).

Officers Elected On Hospital Board

Lynn County Hospital District Board of Directors met last Thursday to conduct routine business, install new directors, and elect new officers. Newly-elected director Peggy Morton took the oath of office, but the other elected director, Mike Rivas, was unable to attend the meeting so will take the oath of office at the next meeting.

Election of officers was conducted, with all previous officers being re-elected to their posts. Virginia Griffing is president, Norman Ledbetter is vice president, Boyd Barnes is treasurer, and Hospital Administrator Louise Landers is secretary.

Directors signed new signature cards for the bank depository, and approved monthly bills and the financial statement. Courtesy medical staff privileges for Subhash Batra, M.D.-Gastroenterology was on the agenda for approval, but was tabled pending more information needed on the paperwork.

Present at the meeting were five directors, including Mrs. Griffing, Mrs. Morton, Barnes, Billy Tomlinson, and Jimmy Dorman, as well as Hospital Administrator Mrs. Landers. Absent were directors Rivas and Norman Ledbetter.

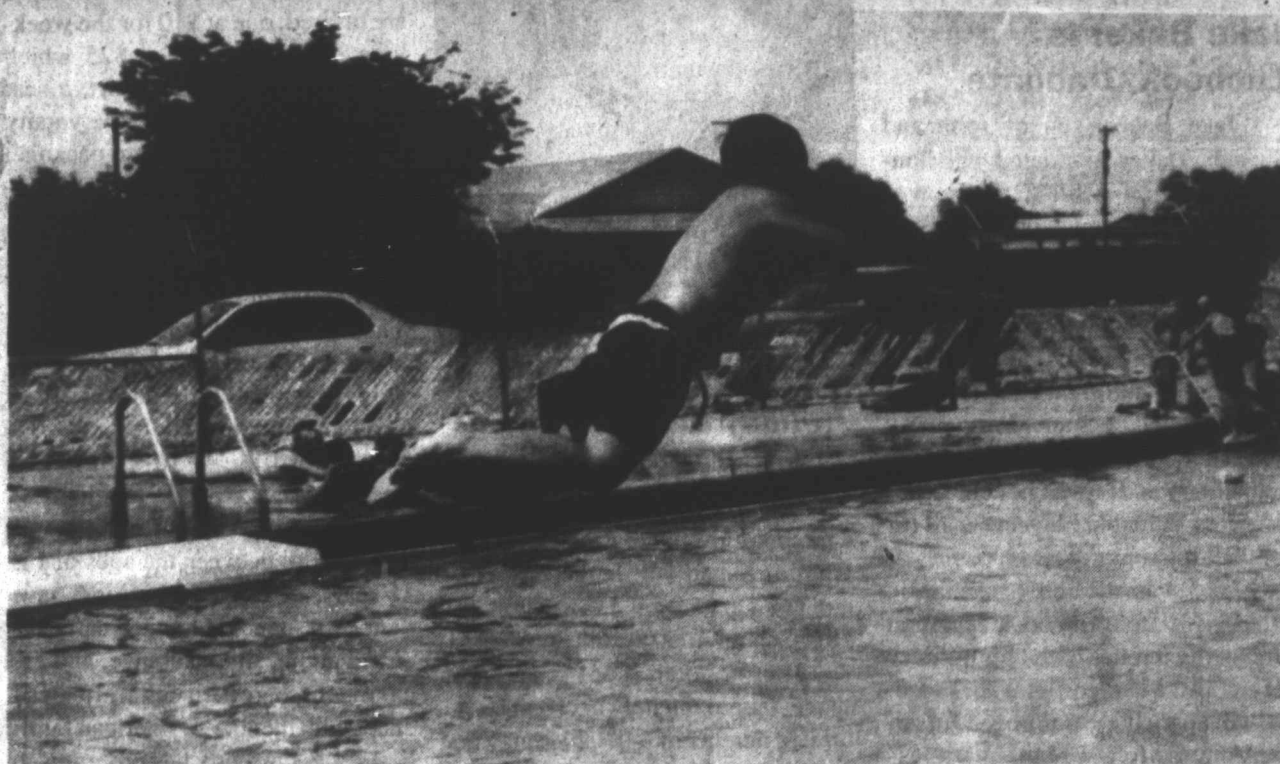

Special Service Slated At Assembly Of God

A special service with singer evangelist Jimmy Blackwood is scheduled at the Assembly of God church, 1929 Lockwood in Tahoka, on June 4, at 7:30 p.m.

"Everyone is encouraged to attend this service to hear the word of God and hear what God has put on his heart to minister to people throughout America. Please come and enjoy the presence of the Lord," stated James Mayo, pastor.

Host Families Needed For International Students

Foreign high school students are scheduled to arrive soon for academic semester homestays, and the sponsoring organization needs a few more local host families.

According to Pacific Intercultural Exchange (P.I.E.) Executive Director, John Doty, the students are all between the ages of 15-18 years, are English-speaking, have their own spending money, carry accident and health insurance, and are anxious to share their cultural experiences with their new American families. P.I.E. currently has programs to match almost every family's needs, ranging in length from a semester to a full academic year, where the students attend local high schools.

Tahoka area families interested in learning more about student exchange or arranging for a meeting with a community representative may call P.I.E., toll-free, at 1-800-631-1818. The agency also has travel/study program opportunities available for American high school students as well as possibilities for community volunteers to assist and work with area host families, students and schools.

The net payment for Tahoka was \$7,768.47, up 3.81 percent from last year's payment of \$7,482.85 for this period. 1996 payments to date for Tahoka is \$34,726.75, compared to \$29,269.27 at this time last year.

Efficient Lawn Watering Is Critical

Watering is one of the basic elements of lawn maintenance and often one of the costliest. With the extreme temperatures the area has received coupled with a lack of rainfall, homeowners can spend in excess of 30 percent of their lawn maintenance costs on watering, according to Bryan Reynolds, Lynn County Agricultural Extension Agent.

Grass species and management practices largely determine the amount of supplemental water required for lawns. Grasses such as Buffalo grass, which have a high drought tolerance, can survive without watering during dry conditions. Bermuda and Zoysia grasses may lose their color during a drought, but will usually survive. Fescue varieties have a poor tolerance to drought and require frequent supplemental waterings.

Management also influences the amount of water needed for a healthy lawn. Frequent fertilization and close mowing tend to increase water requirements. Applying soluble nitro-

gen fertilizers during summer months significantly increase water use.

When lawns appear yellow because of iron deficiency, apply iron chelate or iron sulfate to improve color without increasing water needs.

"Raising mower heights during hot, dry conditions helps reduce water needs. Grasses maintain deeper roots if mowed at a taller level than those that are mowed at 1 inch or less," says Reynolds.

Timely applications of water are required for effective and efficient water use. Apply water just as grass begins to discolor or wilt. Leaves begin to lose their color and roll when they begin to stress. Early morning is best to water because winds are usually calmer and temperatures are cooler so less water is lost to evaporation. Evening waterings could cause problems because grass remains wet through the night and may become more susceptible to fungus or disease.

Apply enough water to wet the top 4 to 6 inches of soil. Usually 1/2 to 1 inch of water will adequately wet the soils in this area. The time required to apply this amount depends on the sprinkler type. Also, make sure water is being applied uniformly.

For more information on garden or lawn recommendations, contact the Lynn County Extension Service at 1600 Ave. J in Tahoka or call 998-4562.

Roberts Addition Asks To Become Part of Tahoka

A petition has been prepared and is being signed. The News is informed, asking the City Council to extend the city limits so as to include the Roberts Addition adjoining the present Tahoka city limits on the west.

Some fifty residences or more have been built in that addition, practically all of which are handsome and modern-type homes. Incorporation into the city will give the residents all the rights and privileges enjoyed by other citizens of Tahoka, including the right to vote in city elections, fire protection, water at city rates, and other valuable rights, and will subject them on the other hand to the payment of city taxes.

Street Signs Are Expected Soon

Mayor K.R. Durham has been assured that the street signs which were ordered several weeks ago will be received within the next two or three weeks. These signs will be erected at many of the street intersections of the city, and when erected they will be a great convenience for the public. They are aluminum signs, erected on iron posts set in concrete so as to become as nearly permanent as possible.

Fire Damages Lynn Theatre

Recent installation of new fire-proof projection room walls in both the Lynn and Wallace Theatres prevented a serious fire at the Lynn Wednesday afternoon, according to Lester Flood, local manager.

At about 4 o'clock, film in the Lynn projection booth caught fire. The theatre was quickly cleared of patrons, but the fire never got out of the booth. About 2,000 feet of highly inflammable film was burned in a flash, and about \$1,000 in damage done to equipment. Had the fire occurred a few weeks earlier, Mr. Flood says he shudders at the thought of what the damages might have been.

All three Tahoka theatres now have virtually fire-proof projection rooms, he says.
