

Atomic Physicist Enrico Fermi Dies At Age Of 53 Of Cancer

CHICAGO (U)—Fellow scientists today mourned the death of Enrico Fermi, self-exiled Italian physicist who became the architect of the atomic age.

Fermi died of cancer yesterday at the age of 53. If he had been spared a few more years, Chairman Lewis L. Strauss of the Atomic Energy Commission said, "he might have been saved by medical techniques devised from his own discoveries."

The Nobel Prize winner's controlled release of nuclear energy made atomic power a reality. He first suggested the possibility of an atomic bomb to the U. S. government in 1939. Three years later the atomic pile he built at the University of Chicago provided the key to the manufacture of the A-bomb.

Private burial services are to be held today in Oakwood Cemetery, Chicago.

Fermi's associates will attend a memorial service Friday at the University of Chicago's Rockefeller Memorial Chapel. Fermi was professor of physics in the university's Institute for Nuclear Studies.

His death at his home near the university came as a shock to his

ENRICO FERMI

physicist colleagues, although many of them knew he was suffering from cancer.

A spokesman said Fermi's experiments with nuclear energy did not contribute to the disease since his work did not subject him unduly to radioactive substances.

Fermi showed the first symptoms of illness in September after returning from a visit to Italy. He said he had difficulty swallowing. An exploratory operation disclosed cancer of the stomach which doctors called "too extensive for treatment."

The scientist was told late in October that he had cancer but not that he was dying.

Just 12 days before his death the Atomic Energy Commission named him the winner of its first \$25,000 special award for nuclear work.

Son of an Italian railroad official, Fermi was born in Rome Sept. 29, 1901. He studied at the universities of Pisa, Leyden and Göttingen and became professor of theoretical physics at the University of Rome in 1927. At Rome, he and fellow scientists succeeded in splitting the uranium atom and also learned that the speed of neutrons could be slowed and the amount of radioactivity they produced increased.

He was awarded the Nobel Prize in 1938 for his leadership in this work. He went to Sweden to receive it and was criticized in the Italian press for refusing to wear a uniform or give the Fascist salute at the ceremony.

Shortly afterward, Fermi took his wife Laura and two children to the United States, where they remained.

Royal Arch Masons Begin Convention At Temple In Waco

WACO (U)—The annual convention of Royal Arch Masons of Texas opened in Masonic Grand Lodge temple this morning. M. E. Huggins of Houston was to open the Grand Council of Royal and Select Masters during the afternoon.

Both will conclude meetings tomorrow with election of officers.

Tonight, the Grand chapter will hear an address by Grand Orator L. E. Gillett of Beaumont, after which the Order of High Priesthood will be conferred.

Warren F. Merritt of Hearne is to be elevated to Grand High Priest. J. L. Kincannon, Fort Stockton is in line for Grand Master of Grand Council.

Grand Master W. B. Jack Ball of San Antonio and other officers of the Grand Lodge of Texas, which opens its 119th communication, Wednesday, arrived here yesterday. George Moffett, Chilli-cothe, deputy Grand Master this time, is scheduled to succeed Ball.

Wednesday night, Robert B. Anderson, deputy Secretary of Defense, past master of Vernon Lodge, will address the Grand

Avalanche Traps Mt. Fuji Climbers

TOKYO (U)—Rescue teams poked in vain today through a mass of snow, rock and splintered trees for a trace of at least 14 college students engulfed by a mammoth avalanche that roared down the slopes of world famous Mt. Fuji.

The body of one student was found last night.

The 14 are feared dead.

Twenty-four in another group escaped.

The two-pronged torrent of snow ripped a 1,000-yard path down the icy slopes of the cone-shaped mountain, 60 miles southwest of Tokyo.

U. S. servicemen attempt the climb often but U. S. authorities cancel such expeditions when wind makes the peak treacherous. No U. S. personnel were reported on Fuji yesterday.

Communists Open Meet To Set Up Arms System

By STANLEY JOHNSON

MOSCOW (U)—Delegations from the Soviet Union and seven Communist nations of Eastern Europe gathered here today to take "immediate measures" to assure their security. The United States and West European countries declined invitations to attend.

The conference is expected to pave the way for formal inclusion of East Germany in the Communist military system as a counter to the Western agreements to rearm West Germany within the North Atlantic Alliance.

Delegations from East Germany and Poland arrived in Moscow Saturday, and those from Bulgaria, Czechoslovakia, Hungary, Romania and Albania arrived yesterday. Communist China sent observers.

Heading the Soviet delegation is Foreign Minister V. M. Molotov, assisted by Deputy Foreign Ministers Andrei Gromyko and Valerian Zorin.

In originally inviting 24 countries to the party and proposing that it be held in either Paris or Moscow, the Soviets frankly aimed at preventing ratifications of the Paris pacts to rearm West Germany within the North Atlantic Treaty Organization.

Molotov first suggested on Nov. 23 that the 25-nation conference be held Nov. 29. A week later he of-

fered to set a later date and warned that rejection of his proposition would force Soviet Union and her allies to take countermeasures for their own security.

The United States, Britain and France quickly made it clear they would not sit down with the Soviets until the Paris accords were ratified by the parliaments of the signatory nations.

The Moscow conference was immediately set up without the West, but it was not until today that formal notes from the Big Three were ready for delivery to the Moscow government. Western sources described the notes as polite refusals. Similar notes already were in from some of the smaller European nations.

Seixas Improved

MELBOURNE (U)—Vic Seixas, something of a disappointment during the American Davis Cup team's visit here last year, continued to show greatly improved tennis today as he and Tony Trabert advanced to the semifinals of the Victoria doubles championships with 6-3, 6-4, 6-3 victory over Australia's George Worthington and Don Candy.

Death Of Girl, 3, Tied To Cold Pills

McGREGOR, Tex. (U)—Barbara Catherine Cawthon, 3, got into the refrigerator and ate 30 sugar-coated pills last Wednesday, the family said.

She died yesterday from what a doctor termed an overdose of a cold remedy.

Dr. H.B. Allen of McGregor said the pills apparently killed the little girl—daughter of Mr. and Mrs. Bernard Cawthon.

Hiss Leaves Prison

Alger Hiss, former State Department official, walks away from the federal penitentiary at Lewisburg, Pa., with his wife after his release. He served three and one-half years of a five-year term imposed after he was convicted of perjury. Hiss, out on parole, is followed by an unidentified attorney. (AP Wirephoto).

Ike May Speak Out On Blockade Appeal

By CHARLES F. BARRETT

AUGUSTA, Ga. (AP)—President Eisenhower returns to Washington late today amid signs he may speak out soon in a growing controversy over how to deal with imprisonment of Americans by Chinese Communists.

The President, ending a five-day vacation here, faces pressures from some political leaders, notably Sen. Knowland (R-Calif.), and from wives and mothers of the captives, for stronger American action.

Knowland, Republican leader in the Senate, declared over the weekend the United States has a moral obligation to "use more than words to protect Americans abroad." He called for a naval blockade of the Chinese coast to try to force release of 13 Americans jailed on "trumped-up" spy charges.

White House Press Secretary James Hagerty said late yesterday Eisenhower would have no comment "at this time" on Knowland's proposals. Nor was there any comment now on pleas from the captives' relatives and others for more than "perfunctory demands."

Hagerty's emphasis on the phrase "at this time" suggested the President is preparing to speak out later.

On Thanksgiving Day, Eisenhower sent personal telegrams to wives and mothers of the captives, pledging that this government

would press resolutely and tirelessly every "feasible" effort to free them. He has never spelled out in detail what action he had in mind.

In Vista, Calif., Mrs. H. L. Stiller, one of the mothers, said she considered this "no more than a form letter." In New York, retired Army Capt. Eugene R. Guild, claiming to represent more than 350 relatives of servicemen held by the Communists, released a letter to Eisenhower asking if the President intends to "abandon" the prisoners.

McCarthy Rally Set For Tonight

NEW YORK (AP)—A rally in support of Sen. Joseph R. McCarthy (R-Wis.) is scheduled for tonight in Madison Square Garden.

The event was organized by a group known as "Ten Million Americans Mobilizing for Justice," as a climax to its campaign for 10 million signatures on petitions opposing the Senate motion to censure McCarthy.

Chairman and keynote for the gathering will be Maj. Al Williams, speed flier and retired Marine pilot. Speakers lined up to address the rally by closed circuit radio are:

Gov. J. Bracken Lee of Utah, broadcasting from Salt Lake City. Retired Air Force Lt. Gen. George E. Stratemeyer, chairman of the organization, from Winter Park, Fla.; retired Adm. William H. Standley, vice chairman, from Coronado, Calif.; Col. Alvin M. Owsley, past national commander of the American Legion, from Dallas, Tex.; John Francis Neyland, from Palo Alto, Calif.; and Clyde A. Lewis, past commander-in-chief of the Veterans of Foreign Wars, from Plattsburgh, N.Y.

McCarthy said in Washington he did not know if he would be able to get to the rally. A Senate session to debate the censure proposal might not leave him enough time to get to New York.

Big Bend Promoters Seek State Charter

ALPINE, Tex. (AP)—A group of citizens who want an international Big Bend park on both sides of the Rio Grande boundary of Texas and Mexico have decided to seek a state charter to promote it.

The organization will be known as the Big Bend National Park Development Committee.

The decision was made at a meeting here Saturday night after several Texans flew to Mexico City to interest officials there.

The group's first big undertaking will be to plan a dedication program for the Big Bend park sometime next fall.

Church Meet Told Membership High But Influence Is Doubtful

By GEORGE CORNELL

BOSTON (AP)—American churches were pictured today as standing at a peak of "tremendous strength" but at the same time groping uncertainly for ways to make that power felt in a topsy-turvy age.

Enormous, swift changes in social patterns and "dangerous moral conditions" challenge the effectiveness of the churches, said a key report to the biennial assembly of the National Council of Churches.

Despite Christianity's gains "in institutional strength," the report said, there is a disturbing question whether churches are "more or less influential in American life" than they used to be.

The report was for presentation to 2,500 representatives of 30 Protestant and Orthodox denominations assembled here to seek new methods for reinforcing their fraternity of faith.

"When we consider how little it costs to be counted among the church members in our country, we are troubled," the report said.

"The average church member is not conspicuously different from the average nonmember. The average church is so much conformed to the world that people are surprised if it sharply challenges the prevailing behavior of the community."

The major, 6,500-word document on "the state of the church" was prepared by the council's general secretary, Dr. Roy G. Ross, and its associate general secretary, Dr. Roswell P. Barnes.

It generally set forth the new problems confronting Christianity in a modern era described as one of "unprecedented change" in the living habits of people.

The council, representing 35,500,000 Christians of varied traditions, headed into its first working sessions today after hearing a call to tighten its ranks, to strengthen common convictions.

"A closer degree of cooperation is the demand of the hour," the council president, Methodist Bishop William C. Marden, of Dallas, told an opening service last night. "Nothing else will do."

This morning's report recited detailed statistics of booming church growth — record figures in membership, contributions, Sunday school attendance, construction and

brood new programs of church activity.

But it said:

"Juvenile delinquency, racketeering and violence, alcoholism, narcotic addiction and corruption in public affairs are either increasing or at least seem so widespread that our society often gives the impression of being completely undisciplined."

IN URGING BLOCKADE

Knowland Hopes To Nudge Ike To Take Asian Action

By JACK BELL

WASHINGTON (AP)—Sen. Knowland (R-Calif.), Republican leader in the Senate, has indicated he hopes to nudge the Eisenhower administration into more direct action against communism, particularly in Asia.

Knowland on Saturday urged a naval blockade of Communist China if the Reds rebuffed United States demands for the release of 13 Americans sentenced to prison as spies.

Red China did just that yesterday, rejecting as "unacceptable" a U. S. protest relayed to the Peiping government by the British.

It seemed that in making his blockade proposal, Knowland anticipated he would be criticized for going beyond the position President Eisenhower or Secretary of State Dulles appear willing to take at this time.

U.N. Leaders Talk Behind The Scenes

UNITED NATIONS, N.Y. (AP)—U.N. delegation leaders continued behind-the-scenes talks today in further attempts to solve the long-standing Korean deadlock.

There were increasing indications that the explosive question of American fliers imprisoned by Red China would bring into the Assembly main Political Committee debates a sharpness not anticipated a week ago.

The Korean deadlock will be considered when the committee finishes its current debate, probably tomorrow, on Indonesia's demand that the Netherlands be required to resume negotiations on the status of Dutch-held West New Guinea.

Texas Team Wins Judging Contest

CHICAGO (AP)—A three-man team from Texas Tech won the collegiate crop judging contest yesterday at the International Livestock Exposition.

The individual winner was Dibrrell Stowell of Pampa, Tex.

British Prepare Churchill Honor On His Birthday

LONDON (AP)—Britons set aside political differences today and got into a sentimental mood to salute Winston Churchill on his 80th birthday tomorrow.

The pro-Labor Daily Mirror, which for months has been calling Churchill too old to serve as Prime Minister and demanding he retire, said in a birthday tribute "beyond all doubt he is the greatest Englishman of this century."

Sponsors of the Churchill birthday presentation fund disclosed they have received one anonymous donation of 11 Russian rubles. Another donor sent a check for 29,220 farthings—one for each day of Churchill's life, and not forgetting the leap years. A farthing is a quarter of a British penny, and 29,220 of them are worth \$5.22.

Tomorrow Churchill will be presented with an initial payment on the fund running into at least \$200,000. It is expected he will use the fund, which may finally total 10 times that much, for student scholarships and other philanthropic projects.

Women Dies At 106

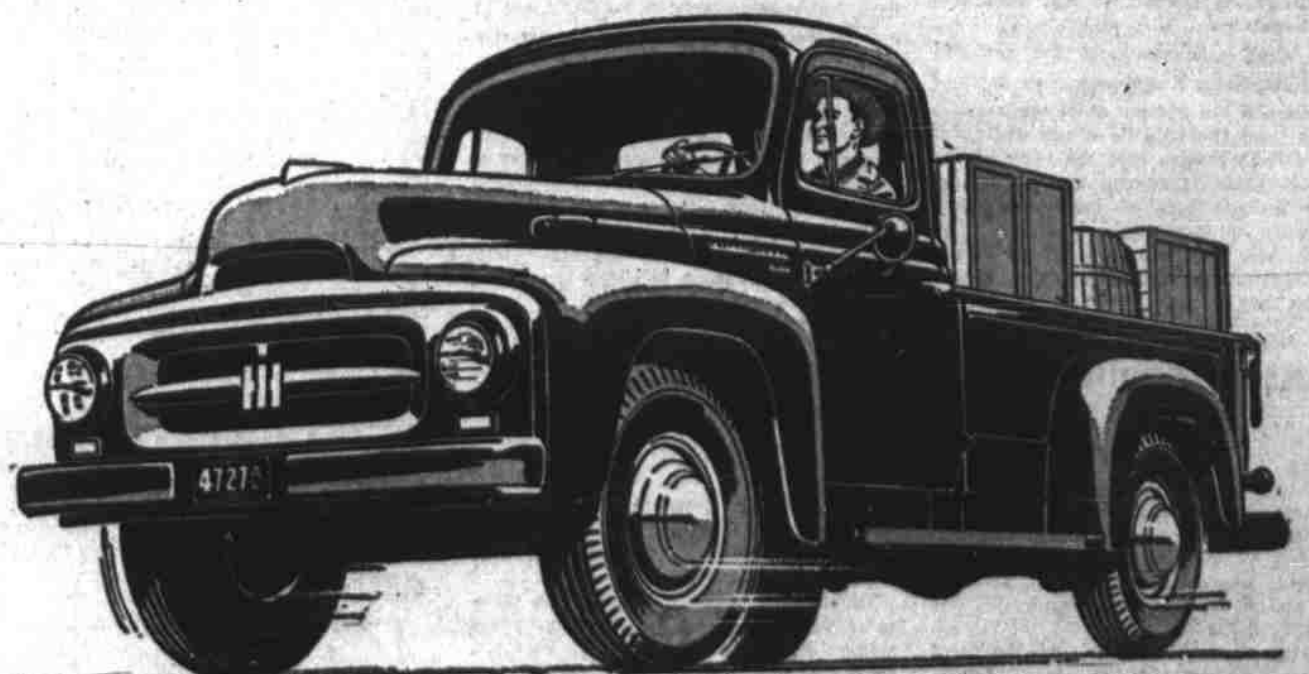

WATERVILLE, Vt. (AP)—Mrs. Evelyn Burns Tanner died yesterday at 106, leaving 3 sons, 3 daughters, 36 grandchildren and some 150 descendants in the fourth, fifth and sixth generations.

A Bible Thought For Today—

It is as stable as God's purpose, and that purpose is benevolent. We need not fear. The world also shall be stable, that it be not moved. —1 Chron. 16:30.

More Consideration Due Toward Spreading Our Story To World

The Soviet Union is variously guessed to spend anywhere from \$1 to \$2 billion on its organs of propaganda every year, and much of it is spent filling the airwaves with sound and fury.

By way of contrast, the Soviets spend more just jamming Western broadcasts than the U. S. spends on the Voice of America — indeed, on our entire information services.

Congress has been curiously short-sighted in providing adequate funds to give the world our side of things in general. In addition, the USIS has been under almost constant attack from Congress and elsewhere for its alleged sins of omission or commission, and these attacks have interfered with the task of telling the world just what America stands for.

Nevertheless the chore must go on. So on December 1 the U. S. Information Agency will formally open its new broadcasting center housing the Voice of America studios in Washington. From its new studios in the Health, Education and Welfare Building, the overseas broadcasting arm of the government is already speaking in 38 languages over a network of transmitters throughout the world. Wednesday's ceremonies will merely formalize what is already being done.

The Voice of America went on the air from a small studio on a New York side street 13 years ago. That was February 24, 1942, when the government of the United States addressed a 15-minute broadcast in German to the people of Germany, giving our side of the great conflict. The New York operations have now been transferred to Washington.

The new set-up can handle 26 programs simultaneously from 14 studios, to all parts of the world. The control board is still in New York, but will be ready for operation in Washington early next year. The move from New York to the Capitol was directed by Congress — where, presumably, Congress can keep a closer eye on the Voice.

By the same token, Congress, thanks to close observation, may learn to be more generous in future in providing funds for a really effective propaganda arm of the government. The money we save by not having to jam Russian broadcasts, as they jam ours, should be put into more U. S. propaganda.

Population Growing Slowly But Surely In The Southern States

As the Southern Industrial Council points out, all the 15 Southern states have made a slower population gain from 1930 to 1950 than the rest of the country. The while that of the South has been only 33 per cent.

Only three Southern states — Texas, Florida and Maryland — have shown a four-year rate of increase larger than the national average — 84, 253 and 94 respectively.

Florida, which led the entire nation, is believed to have scored its boost in population by the influx of elderly people looking for a sunny climate to retire to. Maryland and Texas are believed to have made their gains mainly on industrial development.

Only Arkansas in the Deep-South registered a loss, 0.5. This is believed to be due mostly to the mechanization of agriculture, and the migration of colored people to Northern states.

West Virginia, not commonly considered a Southern state, was included in the 16-

state survey, and showed a net loss of 2.9 per cent. This was attributed to a moribund coal-mining situation.

In the 1950 census the population was 153 million; it has jumped by 9.4 million since then to stand at 162.4 million. The annual rise is at the rate of 2.9 million, a fact that must be embarrassing to those experts in population trends who figured in the 1940s that our population would have reached a static situation by this time.

This surprising rate of growth has established another trend in population forecasts; now the experts are looking forward to 200 million long before the century dies. Talk of a "saturation" has died down. New agricultural methods, new health measures, new industries have changed the look of the future, and caused the experts to revise their figures.

One reason: Every 24 hours, 12,000 babies are born in the United States. Less infant mortality, more people living to old age are combining to make previous population-estimating techniques look silly.

Today And Tomorrow—Walter Lippmann

Bi-Partisan Foreign Policy Not As Easily Maintained As In Past

LONDON — Now that we are once again talking about a "bi-partisan" foreign policy, we are likely to do better with it by remembering the facts of life. For the light it throws on the present situation one of the most important facts of the old bi-partisan agreement was that it was not a collaboration or a combination of the two parties. It was a coalition made up of administration Democrats and non-isolationist Republicans.

We shall misunderstand the problem which President Eisenhower now faces if we misread the history of bi-partisanship in the past. It would be a misreading of it to fail to realize that the crux of the old bi-partisan agreement was a coalition of Democrats and of the Republicans who were opposed to the isolationist Old Guard. Sen. Taft, who was by no means an irreconcilable isolationist, was, nevertheless, not in this coalition. That is a

measure of how far it was from being a combination of the two parties.

For President Eisenhower it is more difficult than it was for Roosevelt and Truman, indeed it was a wholly different matter, to work a bi-partisan policy. For among the Congressional Republicans the reliable supporters of the President in foreign policy are probably only a minority in their party. For Roosevelt and Truman bi-partisanship meant taking their party virtually as a whole into a coalition with one wing of the Republicans. For Eisenhower it would mean taking a faction of his own party into a coalition with the Democrats. This difference will make it impossible for him to forget that to be bi-partisan with the Democratic party as a whole threatens to widen the differences in his own party.

Austin Recollections—Raymond Brooks

Political Playback

Texas Senate records on filibusters by individual members are recent. Non-stop speeches by members have grown fairly frequent. Also some long-stretch sessions, with and without filibuster speeches, are in the recent annals.

Hearsay has it that one of the most unusual "filibusters" in Senate history, resulting possibly in the longest continuous session, was put on not by a member out on the floor but by the presiding officer in the chair. This goes so far back that I can't find anyone who can confirm it. I have heard the story frequently enough to believe it must have happened. The Senate has a rule of unlimited debate. Members won't abrogate that rule, even when victimized by it, because they never know when they may want to invoke it.

The 33rd regular session in 1953 was unusual in that it had two full-blown filibusters on two successive days. On May 21, Senator W. T. Moore of Bryan talked 8 hours and 37 minutes, trying to stall a vote on the bill to create a toll-road system. The next day, Senator Wayne Wagonseller of Bowie stood out 7 hours and 48 minutes. Earlier that month, Wagonseller had staged a continuous speech of 13 hours, as a part of a continuous 21-hour and 10-minute session.

The record continuous session of recent times started April 25, 1949 and lasted 21 hours. During that span, Senator Fred "Red" Harris of Dallas made a speech of 11:45.

The record for a one-man filibuster — holding the floor by speaking continuously, was set by Senator Jimmie Phillips of

Angleton, in his successful fight on a bill to abolish the State Board for Hospitals and Special Schools. This record is 17 hours and 55 minutes.

Tucked away in old files is the statement that the Senate's record continuous session lasted 36 hours and 25 minutes. Unfortunately, the notation doesn't say who or what caused it.

That might have been this hearsay filibuster of the chair, back in the blither old pre-prohibition days of titanic battles between wet and dry forces. The story is that the renowned Senator Q. U. (Quintus Ultimus — "Fifth and Last") Watson, a vigorous anti-prohibitionist, was occupying the chair. Presumably he was the Senate's president pro tem. The prohibition forces are said to have developed a majority, and all they needed, in the final two days of a session was to get a bill up and pass it. The story is that Watson held the gavel around the clock and considerably more, waiting the hour of the session's end by sine die adjournment, and that he would not "recognize" any of the prohibition senators. That is, he wouldn't let them speak or make any motion. The anti-s would not move to adjourn. So the Senate sweated it out until the end, and the dry never got their bill up for a vote.

They didn't put prohibition over until 1917, first in dry zones around Army camps, then a state law, then ratification of a constitutional amendment, and about the same time, when the 18th Amendment to the U. S. Constitution, written by a Texan, the late U. S. Senator Morris Sheppard, became effective.

"Hey—we've Found A Ship Over Here Too"

The World Today—James Marlow

Years Loom Before Segregation Ends In Public Schools, Court Briefs Hint

WASHINGTON (AP)—It probably will be years before there is an end to segregation in American public schools.

The Supreme Court, ruling last May that public school segregation is unconstitutional and must end, left unanswered for the time being the two key questions: how and when?

The court now can't attempt to give the answer before far into next year. Even then, judging from the court's careful slowness in handling the segregation problem, it is unlikely to call for overnight action.

The court doesn't have to follow the views of President Eisenhower and Atty. Gen. Brownell but no doubt will consider them. Both last week came out for a careful and gradual solution as against a sudden one.

And those Southern states which have given their opinions to the court have called for a gradual approach as a minimum, although Negroes have told the court they want segregation ended no later than September 1956. A few Southern states in extreme opposition to the court's rulings, particularly Georgia, may try the following kind of device for thwarting any final effort of the federal government to end segregation at all.

End their present public school system and substitute another kind—for instance, private associations—to keep white and Negro children separate. The Georgia voters approved such a plan in the Nov. 2 elections. And Georgia's Gov. Talmadge has said: "Segregation in Georgia will not be ended at any time."

The Supreme Court ruled against segregation in public schools. An arrangement like Georgia's, supported by public tax money, would be in effect a public school system under another name. Or would it? The court could have laid down the rules on how and when segregation had to end when it said in May public school segregation is unlawful. But it wanted the benefit of the views of those most closely connected with the issue. It asked the states involved and

attorneys for the Negro groups allow the judges in the federal districts courts in those states which have segregation—to work out the details, and the timetable, with state and school officials.

The court had intended, after getting the written briefs, to let the attorneys on both sides argue before the court in December. Now the court has postponed those arguments until sometime, date still unset, when it has a full bench to hear them.

The nine-man court now has one vacancy and Eisenhower's appointee for the job, John Marshall Harlan, is not slated for a Senate vote on his confirmation until next year.

After hearing the arguments the court will consider them, perhaps for months, before finally giving a decision on how and when segregation must end, a decision which may not come before next June.

And he proposed the high court

Notebook—Hal Boyle

One Discordant Note In Praising Women Deadly

NEW YORK (AP)—How does the average American housewife spend her time?

These golden hours of the bustle if not the highest century of civilization — how does she use them? At last I am able to give a positive, burning feminine answer.

During my recent visit to Belgium my friend, Reiman (Pat) Morin, a Pulitzer prize winner and one of the ablest reporters of our time, did me a great personal favor by filling the space it is my duty to occupy.

He made the mistake — darned if I didn't forget to warn him against it — of praising women. Nothing gets a man in more trouble than complimenting the ladies. They are so suspicious. While boasting of the feminine sex's greater longevity and durability, Pat made the offhand observation that, after all, "the average housewife doesn't have to exert herself in the pursuit of her daily chores."

This has resulted so far in 18 million letters denouncing Pat — and not a single one to thank him for all the kind things he said about womenkind.

Purely on the grounds of eloquence we yield the rostrum of reply to Mrs. Vera Jungert, of Clarkston, Wash., who says she is an average housewife, "mother of three children, and keeper of a husband, all of whom are average, too."

Take the platform, Mrs. Jungert: "Here is this man who tells us what a soft life we lead washing clothes . . . scrubbing floors . . . waxing furniture . . . taking care of the children bring home and then forget to feed . . . ironing clothes . . . pressing father's pants . . . doing papa's book work (as the average husband isn't flush enough to hire a secretary) . . . having babies every year or two . . ."

"Nursing the sick family . . . writing hubby's letters for him . . . caring for the flowers and the lawn . . . defrosting or cleaning refrigerators, stoves, cupboards, drawers, closets . . . bathing and training babies . . . helping Junior with his schoolwork so he won't flunk this year . . ."

"Paying the bills . . . shopping for clothes . . . cleaning up the trail of trash the entire family leaves behind . . . getting up nights with children who don't wish to sleep . . . changing beds . . . washing windows . . . answering Junior's questions . . . refereeing and settling the arguments between the children . . . watching them so they don't inscribe hieroglyphics on the walls with crayons, trim each other's eyelashes with scissors, or crack skulls with the frying pan . . ."

"Getting the family dressed, especially father, who would be forced to amble around naked if his clothes were not neatly laid out on the bed when he emerges from the bathtub . . . running children around to dental appointments, shots at the doctor's office, Scout meetings, birthday parties, making costumes for school plays . . . polishing shoes . . . digging gum off the rug . . ."

Around The Rim—The Herald Staff

Prosperity Not Around Corner; It's Been With Us For A While

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald. — Editor's Note.

Judging from reports here and elsewhere in the United States, prosperity is no longer around the corner. It is here and has been here for some little while.

Business is on the upswing, and predictions are that commercial activity will continue to climb well into 1955. Employment is at a high level, and the outlook at present is rosy.

Locally merchants are as optimistic as they have been in some time. Christmas business is expected to hit a high for the past three years, and most businessmen here expect 1955 to be brisk.

Such are the expectations all over the country.

During the past year or so there has been widespread talk of depressions and recessions, but alarmists now seem to have "recessed." With the exception of one warning at a recent press conference held by Montgomery Ward's Sewell Avery, most talk points to good times.

Resumption of full scale production by automobile manufacturers was one of the many factors leading to speculation of a continued upturn. Not only were big city unemployment lists shortened, but a new stimulus for circulation of money was offered.

Evidence that the new vehicles will shake loose a little currency has been shown right here in Big Spring, where talk (and action) has centered on automobiles for several weeks.

Many of the nation's "better business" trends noted in the last month or so are seasonal. As an example, industry output has increased considerably through September and October. But most feel that this increase is to prepare for Christmas.

However, other activity, such as construction, which is forecast for around \$4 billion dollars by the end of the year, cannot be considered seasonal. A record construction year of around \$7 billion dollars is predicted for 1955.

Big Spring's construction record this year is far from poor, the figure being around 2½ million dollars now. With three housing additions going in on the east side of town, the record should be even better next year.

Homebuilding is expected to keep the lead in next year's construction all over the country, and stress will be placed on buying by payments "just like rent." (Nationwide home-mortgage debt is now around \$5 billion.)

Bulk of Big Spring homes are now purchased on time. But according to records at the local Retail Merchants Association, practically everything else is bought on time, too. And nearly everybody does it, keeping the money turning.

The steel industry expects higher operations next year, and you can bet that a good percentage of the items manufactured will be used in the nation's oil fields, including those around here.

With steel readily available, oil operations hereabout should be further spurred to this area's benefit. Many here are quick to point out that oil has kept the immediate area on its feet during the drought years.

Though the drought cannot be considered broken it can be considered bent. Cotton and grain sorghum gathered this year doubled that of the two previous years combined, according to the local employment office. This is an important factor to be considered in the outlook of local conditions.

Another factor which Big Spring must consider is the huge air base payroll here. This has helped considerably during the "drag."

Last April, when some people were grumbling, it was announced that the average earning per household here was in excess of \$6,280. The average earned per household over the nation was a thousand dollars less.

Few people in Big Spring are actually hurting, and quite a few are doing right well. Drought and paper recessions notwithstanding, prosperity has been maintained and furthered in this area.

The overall economic picture appears beautiful, here and elsewhere. But there is an old adage that beauty is only skin deep. If prosperity is no longer around the corner, what is? And how far is it to the turn?

—CLIFTON LAWTHORNE

These Days—George Sokolsky

Result Of The Korean War Has Cost Us All Prestige In Asia

Perhaps the most difficult problem to solve is the neutrality of the Asiatic countries. In 1945, all the Asiatic countries were pro-American; in 1954 no Asiatic country can be defined as Pro-American except possibly the Philippines. Japan would like to be pro-American but geographic necessities cannot be ignored by a country that can, at any time, be conquered. The mistakes of Teheran and Yalta plague us now.

The decisive factor in the loss of American prestige in Asia was the Korean war which we could have won but lost. There are those, including General Douglas MacArthur, who believe that it was deliberately lost. General George E. Stratemeyer has testified:

"General Stratemeyer. It is contrary to everything that every military commander that I have been associated with or from all of our history — he (MacArthur) has never been in a position where he could not win the war he started to win. That is not American . . . and who did it — I don't know. I know that General MacArthur's hands were tied, I am sure, not by the Joint Chiefs of Staff, but by the then State Department. I make that as my opinion, and I still believe it."

"Mr. Carpenter. (Jenner Committee counsel). Did members of the Joint Chiefs of Staff visit Tokyo quite frequently?"

"General Stratemeyer. Yes, sir."

"Mr. Carpenter. Did they ever clarify the policy that was expected?"

"General Stratemeyer. They did their best to; yes, sir. I do not think General MacArthur was ever satisfied that he had a constructive mission where he could go ahead and win. When I make that statement, I am not criticizing the Joint Chiefs of Staff. They had instructions. I am sure, from higher authority and those conferences were always pleasant . . ."

"Further, this colloquy took place: "Mr. Carpenter. What was the effect of the relief of General MacArthur on the command?"

"General Stratemeyer. Well, I cried. I think the whole command, the morale"

POTOMAC FEVER

Every Little Mama Deserves A Bunting

AP Newsfeatures

Any little girl would adore a real bunting for her doll this Christmas. Just like baby sister's bunting, it is quilted, ruffled, of satin and scaled down to doll-size measurements. Mom can make it with a few jiffy stitches on the sewing machine.

Especially if she must make last year's doll, or perhaps with a new wardrobe also rigged together by Mom, the doll bunting will really cause squeals of delight.

All you need is one and a third yards of yellow, pink or blue light-weight satin fabric, a square of cotton batting and your time-saving ruffler, quilter and narrow hemmer attachments, and presto! you've got a gift to thrill any little girl.

Cut two pieces of satin 32 inches by 18 inches. Cut two pieces of cotton batting 30 1/2 by 14 1/2 inches. Cut three pieces of satin each 4 1/2 inches wide, across width of the material.

Place the right side of the two large pieces of satin together. Stitch around three sides, leaving one end open. Place stitching about one-half inch from the edge. Press and turn to the right side.

Put two pieces of cotton batting together. Baste around edges. Insert batting in turned satin section. Smooth out and baste in position. Slip stitch the folded edges of the opened end together.

Use the quilter attachment on your machine, quilt the padded satin piece by stitching first in a vertical direction and then in a horizontal one with the lines of stitching 1 1/2 inches apart.

Remove basting. Fold quilted fabric until you've made a pocket 12 inches deep. Slip stitch edges together. Finish bunting with a ruffle.

To make the ruffling strip, stitch the three narrow strips of satin together, using a plain seam. Press seams open. Pink the raw edges.

Attach the ruffler to the sewing machine. Set it in the No. 1 Slot and ruffle the strip, making a three-quarter inch heading.

Baste the ruffle to the right side of bunting around the sides and over the top. Stitch. Remove basting.

Attach the ruffler to the sewing machine. Set it in the No. 1 Slot and ruffle the strip, making a three-quarter inch heading.

Baste the ruffle to the right side of bunting around the sides and over the top. Stitch. Remove basting.

Attach the ruffler to the sewing machine. Set it in the No. 1 Slot and ruffle the strip, making a three-quarter inch heading.

Coahomans Visit And Entertain

COAHOMA — Mr. and Mrs. Hosea Brown, Wanda, Betty and Jean of Odessa spent the weekend with Mr. and Mrs. Bill Brown.

Sheet Williams, student of San Angelo Junior College, spent the holidays here with his parents, Mr. and Mrs. C. C. Williams.

Bill Read of Texas Tech visited his parents Mr. and Mrs. C. D. Read recently.

Sterling and Spencer Randolph of Texas University were guests of their parents, Mr. and Mrs. S. S. Randolph.

The Coshoms MYF held the Sub District meeting here recently with Hermeligh being in charge of the program. Charles Williams gave the devotion on "The Light of the World." Refreshments were served by Mrs. F. F. Sheedy, Mrs. T. A. Bartlett, Mrs. Susie Brown, Mrs. C. E. Garrett and Mrs. Melvin Tindol to about fifty MYF members.

The Thomas family observed Thanksgiving day with a family reunion in the home of Mr. and Mrs. D. F. Rice in Seminole. About 30 attended.

She's Big Girl Now

Gloria Jean, the girl who reached stardom as a child actress, talks to Lydia Lane about her curly hair problem and posture. Gloria is currently working in television and will be seen again soon in motion pictures.

HOLLYWOOD BEAUTY

Curly-Hair Problems Solved By Gloria Jean

By LYDIA LANE

HOLLYWOOD — Gloria Jean, remembered as a child star, considers curly hair her biggest beauty problem.

On the set the other day where she was making a TV pilot film, she told me, "I know people are always surprised to find I am not grateful for having a natural wave, but I am sure straight hair is much easier to handle. At least you can control the amount of wave or curl."

"When I am on a personal appearance tour I have to wash my hair myself. Though I always set it the same way, it never turns out the same."

"Don't you find that the type of shampoo and rinse you choose influences the way your hair behaves?" I asked.

"Yes I do," Gloria admitted. "Curly hair has plenty of body but is inclined to be dry, so my search was for something to soften my hair. I don't know how I ever got along without using a good rinse — when I comb through I never have had tangles and my hair lays much closer to the crown."

"Do you have any other beauty problems?" I asked.

"When you start your career as a child star and grow up in the public eye — it's not easy to change your type," Gloria said. "But I feel that every girl should dress as she wishes, and not allow others to influence her."

I asked Gloria what she thought of the new winter fashions.

"I enjoy looking at the fashion magazines — knowing what the designers are doing, but just because something is new does not mean it is right for everyone, and you will never get compliments unless your clothes are selected to call attention to your good points and hide your bad ones."

Wesleyan Guild Meets

Members of the Wesleyan Service Guild of First Methodist Church heard a guest speaker Sunday afternoon at their meeting. The group met at the church, and Mrs. Charles Burlingame reviewed the book, "Seven Steps."

Mrs. Jay Morgan gave the final chapter in "Jesus' Teachings Concerning Women." Mrs. K. H. McGibbon was also a guest. Fourteen members attended.

Bruntons Visiting Oklahoma, Kansas

FORSAN — Mr. and Mrs. C. Brunton, Pat and Paul are visiting in Oklahoma and Kansas. They were joined at Amarillo by a son, Clark.

Guests of Mr. and Mrs. W. O. Averett were Mr. and Mrs. Raymond Steward of McCamey.

Spending Thanksgiving near Rankin with Mr. and Mrs. W. K. Scudgery were Mrs. Pearl Scudgery, Mr. and Mrs. O. W. Scudgery, Ginny Dee and Bernice and Mr. and Mrs. M. M. Hines.

Mr. and Mrs. W. M. Richardson and Molly Sue were visitors in Hobbs. N. M. with Mr. and Mrs. Wade Fredrickson.

College Students Visit In Forsan

FORSAN — College students home for the holiday weekend are Corine Starr from Howard Payne at Brownwood; David Wise from Texas Tech at Lubbock; Johnny Park from the University of Texas at Mervyn Miller from Draughton at Abilene.

Mr. and Mrs. J. M. Miller and children are visiting this weekend in Odessa.

Mr. and Mrs. V. L. Bennett were in Doole for a visit with her parents, Mr. and Mrs. R. L. Shipman.

Mr. and Mrs. Luther Stark are in Spur for a visit with his mother.

Mr. and Mrs. George Pickett are away for a week in El Paso and Fort Worth.

She's Got Those TV Soap Opera Blues

By CYNTHIA LOWRY

AP Newsfeatures Beauty Editor

Nobody who is regularly employed would believe the trouble I've seen by the simple expedient of keeping at a television set during a weekday spent nursing a chest cold. By the time the kids' shows took over I felt positively ashamed that I had allowed a minor thing like incipient pneumonia to get me down.

The first sudy drama came shortly after noon, and the heroine was getting some stiff advice from an older woman who was either her jailer or her keeper. I was knitting on stitches—and therefore counting—when this started, hence not paying close attention. The heroine was obviously behind bars of some sort, and not for the first time, either. Anyway, she was in big trouble.

After that came 15 minutes during which an obviously concise and fairly disagreeable character was fooling around the sink, slowly driving her dish-wiping husband (or so it seemed to me) back into the arms of alcohol from which, I gathered, he had recently been rescued. As he was a weakling and she was a nag who was also unpleasant to a small boy and an old man, I'm not certain she was the heroine. But she was sure heading for trouble.

Portia came along then, looking tragic, and it soon became obvious that she was worried about losing her husband who in turn was worried about losing his old drive and zip. There were a few hints, too, that Another Woman was coming into the picture.

As dusk came on and the suffering blondes (most daytime heroines are blonde) gave way to the puppets and the soap operas changed to horse operas, I looked at the twinkling little lights from neighboring houses and thought sadly about all the tragedy and heartbreak which, obviously, was going on right under my nose and I'd never suspected it. Just think, that man down the street who

seems so proud of his new car may have bought it with funds he embezzled from the company. Could it be possible smiling Mrs. Smith is bravely concealing a fond did past, trying to forget by her interest in the P-T-A?

One thing I do wish, however, that is for the soap suds heroines, busy with their household chores, to act as if at least once before they'd washed a dish or wringed a broom. But they sure are brave little women.

Sues Nixon

James Heavey, 33, who reportedly heckled Vice President Richard Nixon during a Republican rally address at San Mateo, Calif., Oct. 29, is pictured after he filed a \$150,000 damage suit against Nixon. In his complaint, Heavey charged that 12 men under Nixon's supervision seized, battered and detained him "without cause or provocation." (AP Wirephoto).

Nehru Tells Indian Reds To Behave

NEW DELHI, (U)—Prime Minister Nehru, one of the chief exponents of peaceful coexistence with foreign communism, yesterday accused India's own Reds of stirring up violence and discontent.

Speaking at a mass meeting in the capital, Nehru warned that his government would act sternly against all who harm Indian unity by making trouble.

"The Indian Communists know they will become weak as India progresses," Nehru said. "Therefore they are interested in retarding India's pace of development by fishing for trouble, turmoil, discontent and disturbances."

He said the Communists at home look toward Russia and China, failing to see the progress "unparalleled in history" that India has made during her seven years of independence.

"It is foolish to imagine that progress can be made only through violent revolution and that construction can follow only after destruction," he said.

Communist attempts to create disturbances in Hyderabad in 1948 and 1949 failed, Nehru said, and "now they seem to have shifted the emphasis to enter Parliament."

REVERSE AGING

Chances Good To Live To 100 Once You're 75

By ALTON L. BLAKESLEE
MIAMI, Fla. (U)—You have a good chance of living to be 100—if you first hurdle a curious invisible barrier at ages 60 to 75, a medical team reported today.

This barrier is a period in which certain chemical and physical processes of the body begin to reverse themselves, in a kind of reverse aging. You begin growing younger in certain ways.

This new finding on growing old is described by Doctors A. A. Gold-bloom, Otto Deutschberger, Irving Chapman and H. B. Eiber, of New York Medical College, in an exhibit at the clinical session of the

K Of P To Hold Annual Roll Call

John Lee Smith, Lubbock lawyer and former lieutenant governor of Texas, will be guest speaker when the Big Spring lodge of the Knights of Pythias holds its annual roll call Tuesday evening. The assembly is to start at 7:30 p.m. at the Pythian Castle Hall, 1407 Lancaster. The roll call is the annual occasion when Pythians make their contributions to the Pythian Home for Children at Weatherford.

Smith is past supreme chancellor for Knights of Pythias. The supreme chancellor's office is the highest in the organization. Smith and H. M. Rainbolt of Big Spring are to be in Austin this evening for a lodge meeting honoring Royal G. (Bo) Phillips, supreme prelate of the K. of P.

Mother Of Abilene Newsman Succumbs

SHAMROCK, Tex. (U)—Services were to be held today at the Dier Methodist Church, near Shamrock, for Mrs. A. F. Wischkaemper, 85, who died yesterday. Mrs. Wischkaemper was the mother of the managing editor of the Abilene Reporter-News, Ed N. Wischkaemper.

Father Dies Of Jet Crash Fuel Burns

WASHINGTON (U)—A Clinton, Md., father whose family was wiped out in the crash of a jet fighter in their back yard in October died yesterday after he seemed to have been on the road to recovery.

John W. Vaughn Jr., 25, suffered second and third-degree burns from the exploding jet fuel and rockets that killed his wife and two small children Oct. 12.

Top Russian Leaders Toast Tito's Health

By RICHARD R. KASISCHKE

MOSCOW, (U)—The Soviet Union's top command swapped toasts to peace and East-West friendship last night with the once-blacklisted Yugoslavs and Western newspaper correspondents.

The occasion was a Yugoslav Embassy reception honoring the former Cominform member's national day. High spot of the occasion was a toast to President Tito's health, proposed by Soviet Communist party boss Nikita Khrushchev and joined in by Premier Georgi Malenkov and Foreign Minister V. M. Molotov.

Other events of the evening included the introduction to Malen-

kov and Khrushchev of Roman Catholic Father George I. Bissonette, of Central Falls, R.I., who ministers to foreigners of his faith here; newsmen's conversations with Malenkov and other Soviet leaders; and a laughing denial by war hero Marshal Georgi K. Zhukov of recent speculation in some Western papers that he was missing.

The top Kremlin leadership's attendance at the reception marked another step in the Soviet campaign to heal the breach with Tito, who split with the Cominform in 1948. Last year only Deputy Foreign Minister Andrei A. Gromyko went to the party.

Before proposing his toast to the Yugoslav President, Khrushchev commented to his ambassador host Dobrovoje Vidic: "I want Yugoslavia to be friends with all countries—the United States, Britain and France—as well as with the Soviet Union."

In his salute, the Soviet party chief said he also wanted to drink to the health of the Yugoslav Communist party and the Yugoslav people.

In their informal conversations with newsmen, the Russian leaders raised toasts to peace and friendship. Malenkov told newsmen they should "write the truth." Refusing a cigarette from one Western correspondent, he smilingly said, "Now, don't go and write that the Soviet constitution forbids smoking."

Father Bissonette presented himself to Khrushchev and congratulated him on the recent party decree ordering antireligious agitators to cease insulting and interfering with churchgoers.

The priest said Khrushchev told him: "It has always been my ideal to establish freedom of conscience and religion. Anyone who did not see that was on the wrong track and our decree was aimed at putting these agitators on the right track."

U. S. Again Denies Red Charges In Seizure Of Tanker

MOSCOW (U)—The United States again today denied Soviet charges that American "planes" and ships had a hand in seizing the Russian tanker Tuapse last summer off China.

A brief note delivered by a U. S. Embassy messenger answered a Russian note of last Aug. 4. The U. S. reply stated that "careful investigation has shown that no American military aircraft operating over the high seas of the Pacific in this area engaged in any hostile acts toward Soviet commercial vessels."

It added: "The United States denies any violation of international law as alleged by the Soviet note."

Chiang Kai-shek's Chinese Nationalists on Formosa have admitted they are holding the Tuapse. They captured the 8,840-ton ship last June 23 in the Luzon Strait, between Formosa and the Philippines. It was carrying petroleum to the China mainland.

Phenix City Grand Jury Holds Session

PHENIX CITY, Ala. (U)—State investigators were expected today to begin unveiling their findings in the A. L. Patterson murder to the emergency grand jury after more than five months' preparation.

And the Phenix City vice trials also cranked up again after a week's recess for the Thanksgiving holidays.

Since Patterson was shot to death the night of June 18 outside his law office here, National Guardsmen and state investigators have teamed up in one of the most sweeping vice cleanups ever seen.

A motion picture about ancient Rome has been popular this year. Taking up the life of Julius Caesar, the picture makes ancient

Great-Grandmother And Four Children Die In Home Blaze

PITTSBURGH, (U)—A flash fire, started by the explosion of a kitchen stove, took the lives of a 93-year-old great-grandmother and four sleeping children at their home in nearby West Newton.

The fire Saturday night killed Mrs. Fanny Taylor, who was caring for her five great-grandchildren while their parents were out. The dead children were Lester Moore, 5, and Catherine, 4, Marlene, 3, and James Brownlee, 18 months old. All were Negroes.

Carl Moore, 9, was awakened by the blast and jumped to safety from the window of the second-story apartment. An uncle, David Pryor, ran upstairs in a vain rescue attempt. He told firemen a wall of flame cut him off from the room.

Hazardous Duty Pay New For Directors

HOLLYWOOD (U)—Something new has been added to the Screen Directors' Guild contract: hazardous duty pay.

Assistant directors will get \$35 per flight on airborne assignments and \$22 per dive for underwater pay when they perform frogman chores, according to provisions of a new three-year contract announced yesterday.

Sour Stomach?
Why don't you carry TUMS?

Don't let acid indigestion get the best of you. Don't suffer needlessly from heartburn and gassy pressure pains. Do as millions do—always carry Tums for top-speed relief from acid stomach distress. Tums can't over-alkalize, can't cause acid rebound. They require no water, no mixing. Get a handy roll of Tums today!

Mother And Son Reunited After Ten Years Apart

PULLMAN, Wash. (U)—Little Andy Prask was well into a new chapter of his 11-year-old life today, far from his native Poland, where he parted from his mother 10 years ago.

The handsome youngster, who can't speak a word of English, hopped from an American airliner at Spokane yesterday into the arms of his mother.

Andy and his mother were separated in Warsaw in 1944. Andy went to live with his grandmother

Big Spring (Texas) Herald, Mon., Nov. 29, 1954

when his mother was taken to a Nazi concentration camp in Germany. His father was killed in street fighting then rocking Warsaw.

After the war, Andy's mother made her way to America, met and married an American, Matthew Garcia, now an engineering student at Washington State College.

Five years ago she applied for her son's release, but it was only several weeks ago that Andy's visa was granted and he was permitted to leave the country.

One year from now, about 110,000 people who are healthy today will have tuberculosis.

Lions, Browns Near Crowns

By The Associated Press

The Cleveland Browns and the Detroit Lions had the conference titles in the National Football League all but mathematically wrapped up today following a hectic Thanksgiving weekend that saw several of the contenders "gobbled up" in the chombers.

Barring miracles in the form of sharp reversals of fortune, it appears that the Browns and Lions, titans of the pro game, will meet for the championship next month for the third straight time.

While Cleveland moved closer to the clincher by handing its closest pursuers, the New York Giants, a 16-7 setback, the Lions saw the Los Angeles Rams and San Francisco 49ers drop out of contention, leaving only the Chicago Bears in the race.

The best the Bears can do is tie Detroit for the Western Conference

lead. They can do that only if the Lions lose all of their three remaining games and the Bears win the pair they have left.

Cleveland can nail down its fifth Eastern Conference crown by winning two of three, no matter what the Giants and Philadelphia Eagles, in a second-place deadlock, do.

The Browns' important triumph over New York highlighted yesterday's action. In other games, the Bears downed Los Angeles 24-13, Baltimore dumped San Francisco 17-13, Philadelphia whipped Washington, 41-33, and Pittsburgh clipped the Chicago Cardinals, 20-17.

Detroit, 28-24 victors over Green Bay Thanksgiving day, had the day off.

Cleveland's impregnable defense again played a vital role in its game with the Giants. So stalwart were the Browns' defenders that New York gained a net of only four yards rushing and their passes picked up only 64 more yards.

The Giants defense did right well too, but it was unable to stop Otto Graham, who completed 16 aerials and bucked over for Cleveland's lone touchdown. Lou Groza, as usual, chipped in—this time with three field goals. Herb Johnson ran back a Browns punt 45 yards for the only New York TD.

Clinker Is Named To Shrine Squad

SAN FRANCISCO, Nov. 29 (AP)—Ron Clinkscale, flashy passer and defensive back from Texas Christian University, became today the 16th member of the West football squad for the East-West Shrine game here New Year's Day.

Clinkscale, 20, from Fort Worth, weighs 177 pounds. He played both quarterback and halfback. Eight more men are to be chosen for the West team.

Phillips-Colorado City Game Headlines Playoffs In Area

By The Associated Press

Featured by the clashes of Waco and Corpus Christi Miller in Class AAAA and Garland-Breckenridge in Class AAA, the upper divisions of Texas schoolboy football start the drive for state championships this week.

The lower divisions will be going through their second rounds and eliminating down to the quarter finals with the battle of Phillips and Colorado City headlining Class AA and Paducah vs Clifton Class AAA.

Ahlene plays El Paso Austin, Fort Worth Poly tackles Dallas South Oak Cliff and Houston Austin entertains Galveston in Class AAAA. But the Waco-Miller melee is the top game and the one that appears probably the closest.

Waco and Miller each has a 4-1 record and look out some fine teams in their drives to the state playoff. Galveston is the only undefeated, untied outfit left in AAAA and will be a heavy favorite to advance to the semi-finals against the Waco-Miller winner.

The Poly-South Oak Cliff game appears a tossup while Ahlene is a solid choice to lick El Paso Austin.

Garland and Lufkin are unbeaten and untied in Class AAAA, but Garland will be running into a hazardous test against a Breckenridge outfit that has appeared a world beater at times.

In other Class AAA first-round games, Lufkin takes on twice-beaten Sherman; Temple, which won only four out of 10, tests defending state champion Fort Worth; and McAllen, unbeaten but once tied,

Dallas Offer Sent Middies

DALLAS (AP)—The Cotton Bowl sought Navy for its Jan. 1 football game because it wanted to honor one of the service academies but it's happy with Georgia Tech, which it invited when Navy players voted to go to the Sugar Bowl, an official said today.

"The whole idea was to honor one of the academies since the Southwest has so many military establishments," Felix McKnight, president of the Cotton Bowl, explained. "Army doesn't play in post-season games but we found that Navy was interested. But the Navy players voted to go to the Sugar Bowl and we got Georgia Tech, an outstanding football team with an illustrious history. It is noted for its wide-open, pleasing style of play and we think we will have a fine football game between Tech and our host team, Arkansas of the Southwest Conference."

The Cotton Bowl will try again for one of the service academies, McKnight said. "The Cotton Bowl and the Southwest Conference still want one of those teams when it has a good record," he added.

Meanwhile, McKnight said, he found interest at fever pitch in Georgia and Arkansas. Arkansas already has received 20,000 tickets and many of its people have obtained tickets in the bowl's mail sale but they're wanting more. Georgia Tech is to get between 7,000 and 8,000 tickets and is already planning special trains, McKnight said.

Georgia Tech is an old hand in the bowl business, having already been in 10 and winning eight. The Cotton Bowl will be that school's fourth major bowl in four years. Arkansas is a sophomore at it, having appeared in only one major bowl—the Cotton Bowl in 1947 when it tied Louisiana State—and in the now defunct Dixie Bowl in 1948, beating William and Mary, 21-16.

Both teams will return to the Practice field Dec. 8. McKnight said, Coach Bobby Dodd of Georgia Tech plans to bring his team to Dallas four days before the game.

Meet HCJC Here Tonight

The Howard County Junior College Jayhawk basketball team goes after its third straight victory here tonight, meeting the Decatur Baptist College Indians (above) at 8 o'clock. Left to right, first row, they are Harold Cotton, Joe Molsenbocker, Bill Spikes, Ansel Fortenberry, Coach Morrison (directly behind Fortenberry), Marvin Francis, Quan Elliott and Bill Harvey. Standing, Wilson Meyers, Bobby Elsom, James Winder, Bill Howlett, Charley Usilton and Terry Owens.

Hawks Seek 3rd In Row Tonight

Howard County Junior College's basketball Jayhawks, who have scorched the net with 100-point plus performances in their first two starts this year, take on a highly respected Decatur Baptist College team here at 8 o'clock tonight.

The Hawks are in for a busy week. They return to action here Wednesday night, at which time they challenge the talent-heavy Hardin-Simmons University freshman outfit. On Friday, they open play in the Ranger Tournament.

The Big Springers beat Webb Air Base, 106-58, their first time out, then returned to scramble Sayre, J.C. of Oklahoma, 102-74.

Jim Knotts led the Hawks in scoring against Webb, getting 22 points. Paschal Wickard set the pace against Sayre, with 29 points.

Sayre stayed close to HCJC for three periods but the Jayhawks' surge in the final ten minutes proved too much for the Oklahomaans.

Indications are Ray Crook, Arlen White and Ronald Anderson will start tonight's game for HCJC, along with Wickard and Knotts.

The locals will boast a height advantage over the Decatur bunch. Tallest player on the Indian squad is Bobby Elsom, a freshman from Alvord, at 6-3, and he isn't a regular.

Decatur lost its best player on last year's squad, Frank Massey, via graduation.

Probable starters for Decatur will come from among Ansel Fortenberry, 6', from Sildell; Billy

LOOKING 'EM OVER

With Tommy Hart

Crowds totaling 24,400 saw the Big Spring schoolboy footballers in five home games, where there was normal seating for only 21,000.

That means 3,400 lined the fences, thronged the end zones or sat on their thumbs during the season. Combined, they would have made a good-sized crowd themselves.

That's the best argument I know of for a new stadium.

If a bowl were located here in the canyon back of the baseball park, as has been proposed, it could be made into the most attractive athletic facility in all West Texas.

Above-the-ground plants like the ones at Odessa and Midland are all right but the perfect kind of set-up for this wind-blown area is one with all seats below ground level.

I think a bowl would pay for itself here over a period of years. Maybe I'm wrong, but I think the receipts would start pyramiding due to increased attendance. If the population in our city and our schools continues to grow, as it is expected to do, then an increase in football's followers can be expected, too.

We've already outgrown our present facilities. What will it be like in four or five years?

John Pipes, the local golf architect who read here about the similarity of the Southwest and SMU football records (each beat their conference representatives in post-season games two years running), says parallel can be drawn between the SMU and Big Spring teams.

John points out that SMU missed getting to play in the Cotton Bowl because of a tie with Texas, whereas Big Spring failed to make the playoffs due to a tie with Vernon.

In the Vernon Game, Big Spring led by two touchdowns at the half but Vernon came back to dominate play in the last two periods.

Lennie Muse, the former HCJC coach substituting as playing basketball for Arlington State this season, Muse, an Odessa product, attended the school part time last year but didn't play.

He attended college here as a freshman when HCJC fielded its great sophomore team, which accounts for the fact that he wasn't a regular.

HCJC has drawn Ranger as a first round opponent in the annual Ranger Tournament, which takes place this weekend.

The HCJC B team will play the Webb Dusters in a preliminary game, starting at 6 o'clock. The Hawk reserves have broken even in two starts.

Bowl Lineup About Set

By JOHN CHANDLER

By The Associated Press

Eight college football teams led by such postseason veterans as Southern California and Georgia Tech made up the cast today for the Rose, Sugar, Orange and Cotton Bowls — the four major New Year's Day grid attractions.

Duke, champion of the Atlantic Coast Conference, rounded out the group when the league athletic directors chose it to play in Miami's Orange Bowl against Nebraska of the Big Seven. Duke ended its regular season with a 47-2 thumping of North Carolina.

One more bowl announcement is expected tomorrow later today when the Gator Bowl selection committee picks two teams to play in the Dec. 31 affair at Jacksonville, Fla.

This is the lineup for the Big Four on Jan. 1:

Rose Bowl, Pasadena, Calif. — Ohio State (9-0) vs. Southern California (8-5).

Sugar Bowl, New Orleans — Navy (7-2) vs. Mississippi (9-1).

Orange Bowl, Miami — Duke (7-3) vs. Nebraska (6-4).

Cotton Bowl, Dallas — Arkansas (8-2) vs. Georgia Tech (5-3).

The Sugar Bowl grabbed Navy and Mississippi late Saturday with minutes after the teams had scored victories in their season's final games. Navy accepted a bid to New Orleans after rocking Army 27-20 in the annual service clash before more than 100,000 spectators at Philadelphia.

Texas League May Expand To AAA

HOUSTON (AP)—The Texas League next year may have a new team or two and a higher baseball classification.

Directors have approved two proposals aimed at strengthening the Class AA league for the 1955 season or at the earliest opportunity. The actions could lead to a realignment affecting the present eight clubs or to the addition of two more teams.

Anticipated franchise shifts now being negotiated by other leagues at the minor league convention here probably will determine the immediate fate of the Texas group's ambitious plans.

Denver, Colo., known in the past to be interested in Texas League membership, figures prominently in convention negotiations.

Dick Butler, new Texas League president, and directors did not mention any city by name, but their action yesterday was interpreted to mean they want to be ready for quick action should the Denver franchise suddenly become available.

Butler explained the action this way:

"The directors decided that in

line with the trend of the times that the Texas League go on record as approving expansion and-or realignment to more populous cities with improved playing facilities.

"The league also went on record as favoring increasing the classification of the league. We were very strong in favor of that."

Butler and club executives admitted that their bid for a boost in classification, probably to triple A, probably cannot succeed without expansion or a shuffling of clubs.

Baseball rules require that the population of a triple A league must total 3 million. Butler said the league's current figure has been estimated at only 2,700,000.

There was no comment from Texas League officials, but other baseball sources at the convention speculated that an eight-team league that included Denver probably would mean elimination of one of three clubs—Tulsa, Oklahoma City or Beaumont.

A boost in classification, Butler said, would bring recognition as a stronger league, rules benefits and lighter player procurement problems.

"We're operating as a triple A league now from the standpoint of costs," said Allen Russell, president of the Beaumont club.

Butler said an application for a classification boost probably will be made by early January to George Trautman, minor league president, who has final power for approval or rejection.

At present there are two Class AAA leagues, the American Assn. and the International League. The Pacific Coast League holds an open classification.

The Southern Assn. is the only other double A league.

Texas League directors postponed until Wednesday night decisions on how the league will vote on 23 major-minor agreement amendments due go before the convention Thursday.

They postponed until a January meeting final adoption of a 161-game schedule for 1955.

Changes Made In Schedule

Minor changes have been made in the Big Spring High School basketball schedule.

The Dec. 7 game with Odessa, which is booked for the Broncho Gym, has been moved back to Dec. 13.

On Jan. 4 Andrews comes here for an exhibition. The engagement was originally scheduled for the Andrews Gym. The two teams play a return engagement on Feb. 8 in Andrews.

The Steers are now hard at work for their first game of the season, a Saturday, Dec. 4, date with Midland in Midland.

Al Kloven, who was a regular on the team last year, injured his ankle recently and is having to take it easy for a while. Barring another mishap, however, Kloven may play against Midland.

The Steers are being coached this year by John Johnson, formerly of Odessa. He is a native of Abernathy, where he lettered for three years on the high school basketball team.

Johnson attended both West Texas State College in Canyon and North Texas State College in Denton.

Lulu Perez Meets Lopes At St. Nick

By The Associated Press

Brooklyn's Lulu Perez and Sacramento's Joey Lopes, two fast young lightweight, meet tonight in a television 10-rounder at New York's St. Nicholas Arena.

Lopes makes his Eastern debut and if he can get by the flashy Brooklynite, he'll be in line for plenty of action on network shows. He has a 23-6-2 record compared to Perez' 30-3-1.

Dr. Mont will telecast at 10 p.m. EST.

The other Monday night network bout, from Brooklyn's Eastern Parkway Arena, will feature a pair of punching middleweights, veteran Gil Turner of Philadelphia and young Ray Drake of New York.

Drake beat Floyd Patterson twice in the amateurs but hasn't developed as fast as Patterson in the pros.

Drake's record is 16-3. Turner has won 46 of his 53 scraps.

ABC will telecast at 10 p.m. EST.

The bout of the week will be headed out of Cleveland's arena Wednesday night. Heavyweights Roland La Starza of New York and Charlie Norcia of Fort Washington, N. Y., meet in a 10-round

Victor Lively Trial Sees State Seeking Statement's Entry

INDIANAPOLIS (U)—The murder trial of Victor H. Lively in the death of Dorothy Poore reopened today with the state trying to submit an alleged fifth statement signed by Lively.
The 18-year-old girl's body was found July 16 in a dresser drawer in the Claypool Hotel. Lively is charged with strangling the girl and trying to rape her.
The prosecutor says the fifth statement was signed after Lively was returned to Indianapolis from Clayton, Mo., two weeks after the slaying.
Criminal Court Judge Saul I. Rabb has accepted four other statements by Lively as evidence over objections of Ferdinand Samper, Lively's counsel. Samper contends Lively made all the statements under intimidation.
The prosecution has indicated it may rest its case today. Samper said defense testimony will take a day and a half.

Medal For Gruenther

PARIS (U)—Gen. Alfred M. Gruenther, commander in chief for Allied Powers in Europe, has been awarded the Grand Cross of the Legion of Honor—the top rank in the order founded by Napoleon. The decoration was conferred by decree of President Rene Coty. The Grand Cross is given only very occasionally to a foreigner.

Five Killed, One Critically Injured In Crash Of AF B25

BALTIMORE (U)—Five persons were killed and the sixth critically injured in the crash of an Air Force B25 in a woods about three miles west of Friendship International Airport last night.
Rescue parties which reached the scene about 12 hours after the crash, found five bodies. A sixth, still alive, was flown to Bolling Air Force Base near Washington.

Plunge Of Elevator Costs Tokyo Store

TOKYO (U)—Two dozen bargain hunters in the Isetan department store rushed past the guards and crowded into the elevator.
The elevator slipped its brakes and plunged eight stories to the basement, nonstop. Nobody was hurt, but Isetan store officials rushed the passengers into a parlor, apologized profusely and gave them each 500 yen (about \$1.50) merchandise certificates.

Another Typhoon Strikes Philippines

MANILA (U)—Another typhoon slammed into the central Philippines today and ripped through Leyte Island with 100-mile-an-hour winds.
The Manila Weather Bureau said the storm sidwiped Tacloban, Leyte's capital city with a population of 45,000.

Girl Is Stowaway Aboard Airliner

BOSTON (U)—The stewardess of an American Airlines passenger plane bound for Los Angeles counted noses and tickets and found she had one more nose than tickets.
The nose belonged to pert 11-year-old Kathleen McCool of Somerville, who had an overwhelming desire last night to visit her aunt in Dallas, Tex.
Kathleen climbed aboard the plane here with 78 other passengers. Her stowaway voyage was discovered when the plane was over Connecticut.
Airline officials transferred her to a Boston-bound plane at New York.

Torrential Rains Drench Honolulu

HONOLULU (U)—Torrential rains, punctuated by lightning and whipped by gale winds, drenched Honolulu last night and forced the evacuation of portions of four Navy housing areas and the closing of a main highway.
The 14th Naval District said 30 families were evacuated from the Barbers Point housing area and 14 from three Naval housing units near Pearl Harbor.

Eleven Trucks Burn In Fire At Amarillo

AMARILLO (U)—Eleven trucks and 125 new tires were destroyed yesterday when fire shot through the garage and machine shop of a trucking firm, the Hill Line, Inc., doing an estimated \$100,000 damage.
Nobody was hurt. Company president Alvin Hill made the damage estimate.

Texas Youths Win National Honors

CHICAGO (U)—Two Texas youths are among those winning honors at the national 4-H Congress.
Ernest Butler, member of the Kaufman County 4-H Club, today was named a winner in the soil and water conservation awards program. Ralph Swinford Jr., 17, of Wichita County last night was named one of eight national winners in the safety program.
Each youth receives a \$300 college scholarship in the school of his choice.

Billfold Is Taken Off Sleeping Man

A billfold containing upwards of \$60 was lifted from Richard Leon Deere while he slept in a parked car here last night, he told police.
Deere, who is from Lamesa, told police that his wife left him sleeping while she went into the Club Cafe to eat. The car was parked in a nearby service station.
While his wife was gone, the billfold and money was taken, he said. The billfold contained two \$20 bills, one \$10, two \$2, and some \$5 bills. He stated that he found the empty billfold in the service station driveway after his wife returned.

Big Check For Taxes

SALT LAKE CITY (U)—A check for \$7,321,500 will be presented to the state of Utah today by Kennecott Copper Corp., the highest single corporation tax paid in the history of the state and about 14 per cent of Utah's total annual property tax income.
